Governor's Office of Planning and Research

Tal Finney
Interim Director

March 2002

Each year, the Governor's Office of Planning and Research (OPR) conducts the Local Government Planning Survey to create a directory of California's planning agencies and to compile the latest information on local planning activities and special issues. This edition of the *California Planners' Book of Lists* contains the results of OPR's 2001 planning survey.

The *California Planners' Book of Lists* contains practical information that is useful to local, regional, and state planners and resource managers, including directories of city and county planning agencies, Councils of Government, Local Agency Formation Commissions, CEQA judges, and selected State and federal agencies that interact with local planning agencies. It also contains a table summarizing the status of local general plans, including the dates these plans were last updated. Additionally, it identifies local jurisdictions that have adopted plans, programs, and ordinances that may serve as models or examples for other planning agencies.

In keeping with OPR's continuing innovations in government efficiency and in improving delivery of services to the public, planning agencies were invited for the first time in 2001 to electronically update information about themselves through the interactive *Book of Lists* available at www.calpin.ca.gov. The 2001 *Book of Lists* represents the verbatim responses of local jurisdictions to OPR's annual planning survey.

The new interactive *Book of Lists* at www.calpin.ca.gov offers online local planning information with flash maps, agency directories, search capabilities and a bulletin board feature. Through this site, the public can easily locate the names and addresses of key planning officials in the California, the current status of local general plans, planning survey results, and other information as updated by each local jurisdiction. Also, the Planners' Quiz on the home page offers interesting facts on California planning and history.

We hope that you will find this publication and the CalPIN website useful. Please let us know how we can continue to improve the level of service that OPR provides to local and regional planning agencies.

Sincerely,

Tal Finney
Interim Director
