

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

August 16 – 31, 2011

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16 – 31, 2011**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2010 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.
2011 CEQA Guidelines will be available soon.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger
Governor

STATE OF CALIFORNIA
Governor's Office of Planning and Research
State Clearinghouse and Planning Unit

Cathleen Cox
Acting Director

MEMORANDUM

DATE: July 1, 2010
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, State Clearinghouse Director
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at www.opr.ca.gov. A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2010**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Tuesday, August 16, 2011</u>			
2011062027	Mare Island Cemetery Headstone Replacement Vallejo, City of Vallejo--Solano The project involves the replacement of six headstones that mark the graves of Russian sailors who were buried at the Mare Island cemetery in 1863 at the time of the Russian fleet's visit to San Francisco. The condition of the headstones is varied. Two relatively intact, one partially broken, and two broken with pieces remaining in the cemetery.	MND	09/14/2011
2011081054	Cherry Avenue Grade Separation Widening Project San Bernardino County Fontana--San Bernardino The project consists of widening of the existing Cherry Avenue bridge crossing and roadway and other related improvements over the Burlington Northern Santa Fe (BNSF) railroad and the Southern CA Regional Rail Authority right-of-way in unincorporated San Bernardino County. Currently, the widening of Cherry Avenue between Whittram Avenue and Foothill Boulevard to its ultimate width of 120 feet is in the design stage. Cherry Avenue south of Rancho Vista Drive is currently six lanes. The widening of the existing Cherry Avenue bridge crossing over the BNSF railroad and SCRRA right-of-way and widening of the existing roadway from 4 lanes to 6 lanes will provide a matched transition from the existing 6-lane south of Rancho Vista Drive to the proposed 6-lane segment north of Whittram Avenue.	MND	09/14/2011
2011081056	ENV-2005-6243-MND-REC / 448 North Fairfax Avenue Los Angeles, City of -- Conditional Uses to permit the continued sale and dispensing of a full line of alcoholic beverages for on-site consumption and public dancing in conjunction with an existing 2,375 s.f. restaurant with a bar and live entertainment, accommodating a maximum of 80 seats, with hours of operation from 11:00 am to 2:00 am daily and 20 parking spaces, in the C2-1VL-O Zone.	MND	09/14/2011
2011081057	Conditional Use Permit 11-06 (Desert Sun Ranch) Lancaster, City of Lancaster--Los Angeles The proposed project is a generating capacity of 20 megawatt (MW), photovoltaic solar electric generating facility located on approximately 60 acres of previously disturbed fallow land in the City of Lancaster. The proposed project would employ photovoltaic (PV) modules that convert sunlight into electrical energy without use of heat transfer fluid or cooling water. The facility would include a short, 66-kilovolt generation-tie line for interconnecting the electrical output of the proposed project in the regional transmission system. This line would connect the northern edge of the project site to Southern CA Edison's Piute Substation.	MND	09/14/2011
2011081058	Conditional Use Permit 11-05 (Antelope Big Sky Ranch) Lancaster, City of Lancaster--Los Angeles The proposed project is a 20 megawatt (MW), photovoltaic solar electric generating facility located on approximately 39 acres of previously undisturbed land in the City of Lancaster. The proposed project would employ photovoltaic (PV) modules that convert sunlight into electrical energy without use of heat transfer fluid or cooling water. The facility would include a 66 kilovolt (kV)	MND	09/14/2011

	generation-tie line for interconnecting the electrical output of the project to SCE's existing electrical infrastructure.		
2011082041	Shoreline Athletic Fields, Project 11-33 Mountain View, City of Mountain View--Santa Clara The City of Mountain View (City) proposes the Shoreline Athletic Fields Project (proposed project), which would include construction of multi-use athletic fields over a closed landfill site, currently used for storage of equipment and materials, and soil stockpiles for maintenance of the landfill, golf course and park. Of the 12.6-acre site, 5.3 acres would consist of athletic fields, including two synthetic-turf soccer fields, one baseball field and one baseball/softball field, each with a dugout. The remaining 7.3 acres would be used for a concession building, a storage building for athletic equipment, a children's play area, a burrowing owl foraging area and parking. Other site amenities include a rest room and a drinking fountain. Recycled water would be used for minimal landscaping, and possibly to cool the synthetic turn on extremely hot days.	MND	09/14/2011
2011081055	El Corazon Compost Facility Relocation Oceanside, City of Oceanside--San Diego Note: Reference SCH #1995051035 The proposed El Corazon Green Waste Composting Facility project consists of a Development Plan (D09-00004) to permit the relocation of an existing Green Waste Composting Facility onto a vacant 20-acre parcel located within the El Corazon public site. The composting facility is within the El Corazon site which is bounded by Mesa Drive to the north, Rancho del Oro Drive to the east, Oceanside Boulevard to the south, and El Camino Real to the west. The 15-acre facility is operated by Agri Service Inc., which leases the property from the City of Oceanside. By relocating this facility away from the Senior Center and towards the south west portion of the El Corazon site impacts will be reduced. The site is apart of parcel (APN 162-082-10 & 43).	Neg	09/14/2011
2003082131	Lower Sproul Student Community Center University of California, Berkeley Berkeley--Alameda The mid-20th century Lower Sproul complex would be updated and renovated to conform to current life safety and accessibility codes. Eshleman Hall, with student government and other student activities offices, is rated seismically poor and would be replaced. The central plaza would be redesigned; additions to the King Student Union would enliven and improve the campus edge at Bancroft as well as the plaza. SEIR finds new SU impact to historic character of complex due to changes. Anthony Hall would be renovated in accordance with Secretary of the Interior standards; a building at the Anna Head complex south of campus would be renovated in accordance with SOI standards to house performance space and interim surge space for students. 2440 Bancroft south of campus would be renovated for the campus Career Center. 2002022004	BART Silicon Valley-Phase 1 Berryessa Extension (formerly Silicon Valley Rapid Transit Corridor) Santa Clara Valley Transportation Authority Milpitas, San Jose, Santa Clara, Fremont--Santa Clara, Alameda The project will extend 9.9 miles of BART Silicon Valley beginning from Warm Springs Station in Fremont to San Jose and construct two stations.	NOD	
2004091010	Long Beach Middle Harbor Development Project Long Beach, Port of Long Beach--Los Angeles The project involves the redevelopment of a marine terminal of up to 345 acres by consolidating two existing terminals located on Piers D, E, and F in the Middle Harbor Planning District in the Port of Long Beach. Redevelopment includes construction of approximately 54.6 net acres of landfill, a concrete wharf, buildings and substation, expansion of an on-dock intermodal rail yard, and paving, lighting, and utilities as necessary.	NOD	
2005042014	Port Chicago to Oakley Second Track Project Caltrans, Planning Oakley, Antioch, Pittsburg--Contra Costa Construct 4.5 miles of second main track along the BNSF east-west main line from the city of Oakley to the community of Port Chicago.	NOD	
2006081138	Atwater-Merced Expressway Merced County Association of Governments Atwater, Merced--Merced The project will construct a 7-miles long four lane expressway between the cities of Atwater and Merced and construct a new interchange at Santa Fe Road.	NOD	
2009021015	Bear Valley Parkway North Widening Project San Diego County Escondido--San Diego The California Department of Fish and Game is issuing an Agreement regarding the Stream Alteration to the project applicant, County of San Diego, Department of Public Work. The Project is limited to widening of Bear Valley Parkway from SR-78 to Boyle Avenue to four travel lanes in an approximately 110-foot-wide right-of-way, bicycle lanes, shoulders, parkways, turn lanes, and a center median. Portions of the center median and parkways will be landscaped. Drainage work will include new curb and gutter; curb inlets, extension or replacement of four existing reinforced concrete pipe (RCP) or reinforced concrete box (RCB) culvert systems, placement of headwalls and wingwalls, and addition of rip rap energy dissipaters at culvert outlets. The new curb inlets would be installed along the length of the widened roadway to capture surface flows along the road and from offside areas draining onto Bear Valley Parkway. The general existing pattern of drainage flow shall be maintained.	NOD	
2009022028	State Route 12 Shoulder Widening from Azevedo to Liberty Island Roads Caltrans #4 Rio Vista--Solano Roadway improvements to include shoulder widening and the addition of left turn pockets on a portion of Route 12 near the town of Rio Vista.	NOD

2011088150	New Potable Water Storage Tank at Station No. 1 Public Health, Department of Palmdale--Los Angeles The California Department of Public Health, as the Lead Agency, will be issuing a Water Supply Permit to California Water Service Company, Antelope valley District for the operation of a new 103,000 gallon potable water storage tank at Station No. 1.	NOE	
2011088151	Office Relocation Delta Protection Commission West Sacramento--Yolo Relocate Delta Protection Commission staff from 14219 River Road, Walnut Grove to 2101 Stone Boulevard, West Sacramento, CA 95691.	NOE	
2011088152	Lease for New Office Space Real Estate, Department of Sacramento--Sacramento This project is to lease approximately 82,690 square feet of office space in the Sacramento County area that will accommodate approximately two-hundred-thirty personnel and sixty computerized Real Estate Licensee testing stations.	NOE	
2011088153	Crane Company, Hydro-Aire Division Closure Plan for Former Plating Room and Wastewater Treatment System Areas Toxic Substances Control, Department of Burbank--Los Angeles The Closure Plan focuses on collection and analysis of soil and soil gas samples to determine volatile organic compound (VOC) concentrations. Evaluation of the new VOC data in conjunction with the results of previous investigations for inorganic and organic compounds will be used to determine if previously completed closure activities at the former plating room and wastewater treatment system areas have achieved regulatory performance standards. It is anticipated that the closure will meet industrial use standards and a Land Use Covenant (LUC) will be recorded on the property deed to prohibit "sensitive" uses, such as residential, day-care, schools, or health care facilities.	NOE	
2011088154	Maintenance Area 9 Sacramento river RM 53.6 Levee Erosion Repair Fish & Game #2 Sacramento--Sacramento This project is for levee erosion repair on the left bank of the Sacramento River at RM 53.6, approximately 3.5 miles south of Sacramento, along Riverside Boulevard. The site consists of two 200-foot long, three foot high scarps and an adjacent 45 foot long, four foot high scarp that will be repaired. The area will be repaired to its previous slope of 1.3:1 and 1.4:1 by replacing approximately 1,350 cubic yards of soil filled angular rock on the eroded sites. Work will occur between August 16 and October 30 and will take approximately 10 working days to complete.	NOE	
2011088155	Hopland Intertie Hopland Public Utility District --Mendocino The project will intertie the Hopland Public Utility District water works with the Hopland Band of Pomo Indians' (Tribe) existing water lines and water system. The construction that is envisioned by this agreement will consist of a pipe line that will connect to HPUD's existing eastern most extension of its pipeline in State Highway 175. The pipeline will then be extended along highway 175 to the eastern most	NOE

2011084004	Curry Village Rockfall Hazard Zone Structures Project National Park Service --Mariposa Note: Review Per Lead	EA	09/09/2011
	To reduce health and safety hazards, structures within the updated Curry Village rockfall hazard zone within Yosemite National Park were closed in 2008. This project addresses the future of the remaining 72 closed structures, 70 of which are historic structures (mainly hard-sided rustic cabins) built in the 1920s. The EA analyzes a range of alternatives from the removal of all structures from the zone and allowing the area to return to its natural state (preferred alternative) to retaining a range of historic structures (from 5 to 68) until a permanent solution can be analyzed following the completion of the Merced Wild and Scenic River Comprehensive Management Plan.		
2011012035	Elk Grove Storm Drainage Master Plan Elk Grove, City of Elk Grove--Sacramento The proposed Storm Drainage Master Plan project proposes a series of drainage facility improvements called "candidate watershed projects" throughout the City of Elk Grove to accommodate current and future storm water flows through the City, and meet project objective including protection, restoration, and enhancement of flood control facilities, storm water drainage conveyance systems, water quality, vegetation and aquatic resources habitat, and recreational amenities. The SDMP will also develop, implement, and promote education, interpretation, and stewardship opportunities for the public. A complete description of the SDMP and the proposed improvements is available in the attached Notice of Availability and Draft EIR available at the address above and the City Planning Department's website at: http://www.egplanning.org/environmental/	EIR	09/30/2011
2010061062	Salton Sea Species Conservation Habitat (SCH) Project Resources Agency, The Calipatria--Imperial The SCH Project would restore up to 3,770 acres of shallow water habitat at the southern end of the Salton Sea lost due to the Sea's ever-increasing hypersalinity and reduced areas as the Sea recedes. Ponds to support fish and wildlife species dependent on the Salton Sea would be constructed and operated by the CA Dept. of Fish and Game and supplied with a combination of brackish and saline water, blended to maintain an appropriate salinity range. This "proof of concept" project includes several features, characteristics, and operations that could be tested	JD	10/17/2011

	under an adaptive management framework. The proof-of-concept period would last for approximately 10 years after completion of construction; the ponds then would be operated until the end of the 75-year period covered by the Quantification Settlement Agreement or until funds were no longer available.		
2010082023	Conditional Use Permit 2006-006, Amendment Glenn County Orland--Glenn Compost Solutions, Inc. has applied for an amendment to Conditional Use Permit 2006-006 to allow an increase in the annual tonnage limit at an existing composting facility from 30,000 tons to 50,000 tons, including between 12,000 tons of biosolid composting and the future construction of a 3,750sf on-site bagging facility.	MND	09/15/2011
2011081060	Arroyo Del Toro Channel Riverside County Flood Control and Water Conservation Lake Elsinore--Riverside The Arroyo Del Toro Channel project consists of the construction and subsequent operation and maintenance of a concrete rectangular channel, reinforced concrete box, an earthen trapezoidal channel, and two rock-lined energy dissipation structures which has a total system length of 3,775 lineal feet. The facility was identified in the 1986 Elsinore Valley Benefit Assessment Flood Control Bond Issue, and will provide flood protection for the local area including the Elsinore Valley Cemetery. The rectangular channel alignment is parallel to the I-15 freeway for approximately 700 lineal feet, then heads southwest and transitions into a reinforced concrete box for approximately 900 lineal feet to Collier Avenue, crosses under Collier Avenue and turns northwest to SR 74 (Riverside Drive) for approximately 1,000 lineal feet, crosses under SR 74, and transitions to an earthen trapezoidal channel that terminates in the Collier Marsh area. The system will be concrete lined except for approximately 660 lineal feet of the terminal end which will be earthen bottom with two rock-lined energy dissipation structures. The terminal 280 lineal feet will be constructed in the existing Collier Marsh. Utility services to be relocated will include cable, telephone, gas, water and sewer within the road rights-of-way.	MND	09/15/2011
2011081061	ENV 10-0005, Benton Burn Site Remediation Project Escondido, City of Escondido--San Diego The proposed project is the remediation of the former Benton Dump site by implementing the Final Remedial Action Plan Benton Burn Site, SWIS No. 37-CR-0008, dated October 5, 2009, prepared by URS for the CA Integrated Waste Management Board. The activity involves less than one acre and would consist of consolidating waste and capping the surface with an engineered soil cover. The cap would include clean soil to meet the State Minimum Standards and minimize the potential for human exposure to burn ash-containing waste present on the ground surface and in shallow soil (less than two feet). A small area of unoccupied coastal sage scrub (0.05 acre) will be removed and mitigated at a 2:1 ratio with the purchase of 0.10 acre conservation credits. The remediation will also affect 0.06 acre of a drainage area, which may be un-vegetated jurisdictional waters that would be subject to permits from US Army Corps of Engineers and/or the CA DFG. Construction activities will be limited to the hours between 8 A.M. and 5 P.M. Upon completion of construction, the project site would return to the relative appearance of existing conditions. The project would	MND	09/15/2011

	not construct any buildings and does not include lighting components. Existing non-native vegetation would be replaced by native seed mix over the soil cap.		
2011082042	San Francisco Botanical Gardens Nursery: Center for Sustainable Gardening San Francisco, City and County of San Francisco--San Francisco The proposed project, located within the San Francisco Botanical Garden at Strybing Arboretum, includes demolition of an existing 4,642 s.f. greenhouse building and associated pavement and ancillary structures and construction of a new 9,830 sf nursery facility that would range in height from 9 to 28 feet. The proposed nursery facility, Nursery: Center for Sustainable Gardening (Nursery) consists of a greenhouse, shadehouse, headhouse, support space, outdoor nursery space, and an outdoor Learning Court.	MND	09/15/2011
2011082043	Jenny Lind Safe Routes to Schools Project (Jenny Lind SR2S Project) Calaveras County --Calaveras The Jenny Lind SR2S Project primarily consists of a 5 ft. wide sidewalk and 3.5 ft. Class III bike route. Project improvements will begin on the eastern side of Hwy 26 just north of Baldwin Street (at the driveway to the Rancho Calaveras Property Owners Clubhouse) and traverse south to Driver Road. Improvements will continue in a southerly direction on the eastern side of Driver Road until they ultimately connect with Jenny Lind Elementary School. The proposed project would provide a new pedestrian sidewalk, striping, and shoulder improvements which would also require the installation of various culverts, curb and gutter, striping, and retaining walls.	MND	09/15/2011
2011081059	Pine to Park Path Bishop, City of Bishop--Inyo The City of Bishop is proposing to construct an approximately 1,100-foot-long paved pedestrian and bicycle path. The purpose of the project is to provide a safe, all-weather bicycle and pedestrian connection between the neighborhood located south of the park and Bishop City Park. The path would extend from the north end of an existing alley just north of East Pine Street and midway between north Third Street and north Second Street to the existing paved path in the park near its intersection of Park Avenue. The current lack of access between these streets requires park visitors to take longer, less desirable routes, to forgo trips to the park, or drive to the park.	Neg	09/15/2011
2011082044	U.P. # Venoco, Inc. (Elsie J. Sewald, Surface Owner) Tehama County Corning--Tehama To establish a natural gas well, Porter 23-4, on an existing natural gas well site, for production purposes in a UA-AP; Upland Agricultural - Agricultural Preserve Zoning District. The project site is located south of Corning, approximately 83 feet east of Malton Avenue, a private road, specifically 283 feet east and 1,128 feet south of the NW corner of Section 26, T23N, R3W, MDB&M, APN: 89-300-14. Approximately 176.07 acres.	Neg	09/16/2011

2011088157	A/C 9559100 Medical Records Remodel University of California, Davis Sacramento--Sacramento This project will remodel approximately 6,593 square feet of the interior of the Medical Records building on the UCDCMC campus in Sacramento.	NOE	
2011088158	A/C 9558300 Emergency Generator Phase I University of California, Davis Sacramento--Sacramento This project will provide a new emergency generator, above-ground 18,000 gallon diesel fuel storage tank and associated electrical cabling and switchgear to furnish emergency power for the 14 story Main Hospital structure, adjacent to the existing loading dock area of the Main Hospital building at the UCDCMC campus in Sacramento.	NOE	
2011088159	Issuance of Lake or Streambed Alteration Agreement No. 1600-2011-0009-R1, Casali Pond Project Fish & Game #1 --Humboldt Remove approximately 40 cubic yards of sediment from a pond, construct fish passage improvements, remove/maintain an earthen dam, and plant at least 50 riparian tree seedlings.	NOE	
2011088160	Issuance of Lake or Streambed Alteration Agreement No. 1600-2011-0045-R1, temporary Well Drill-Rig stream Crossing Fish & Game #1 --Mendocino The Project involves one encroachment and is limited to a minor improvement of an existing skid road along a bank of the South Fork of the Big River and temporary use of the skid road to accommodate a well drill-rig to ford the stream. The right bank (looking downstream) will require the excavation of no more than 10 cubic-yards (or approximately 1 dump truck load) of gravel and soil materials to smooth a large bump on the bank slope. The left bank will require removal of non-native Himalaya berries. Sediment control materials will be temporarily installed within the channel. The Project does not include work associated with drilling a well.	NOE	
2011088161	Issuance of Lake or Streambed Alteration Agreement No. 1600-2011-0120-R1, East Branch of the Little North Fork Big River Sediment Reduction Project Fish & Game #1 Fort Bragg--Mendocino The Project involves 18 encroachments and is limited to drainage related upgrades associated with existing watercourse crossings along an existing logging haul route for the purposes of reducing road-born sediment inputs to in-stream resources. Implementation of the Project is consistent with the recommendations cited in the National Marine Fisheries Service Coho Recovery Plan. Drainage related upgrades include: installation of rolling and critical dips, replacement of existing culverts, ditch clean-outs, repair of eroded areas and armoring for erosion control where necessary, installation of trash racks, installation of downspout(s) and modification of existing road slopes to redirect runoff. The Project is expected to begin in the summer of 2011 and be complete by the end of October 2016.	NOE

2011088162	<p>Issuance of Lake or Streambed Alteration Agreement No. 1600-2010-0415-R1, Nine Culvert Rehabilitation Project, Humboldt County Fish & Game #1 --Humboldt</p> <p>The project is limited to culvert repairs at four locations along Highway 101 from post mile (PM) 2.31 to PM 25.60. Culvert repairs include culvert replacement, rock slope protection placement, and culvert invert paving.</p>	NOE	
2011088163	<p>Issuance of Lake or Streambed Alteration Agreement No. 1600-2011-0135-R1, to Mr. Eric Nichols for Garcia River, Mendocino County Fish & Game #1 Point Arena--Mendocino</p> <p>The project consists of five geotechnical test borings to be completed for the design phase of the bridge replacement. Borings will be 3 to 4 inches in diameter and 100 feet in depth below the ground/channel surface. Work will be completed from the existing bridge deck with two borings located on the river banks and the center boring on a gravel bar.</p>	NOE	
2011088164	<p>Fuel Cell Facility California State University Trustees --Alameda</p> <p>Construct a 4,400 sf fuel cell facility in partnership with Pacific Gas & Electric Company. The proposed 1.4 megawatt facility will be comprised of a molten carbonate fuel cell (MCFC) that operates at high temperatures and allows natural gas to be used with an external reforming system to produce electricity. The facility will consist of multiple skids classified into three major subsystem: 1) Mechanical Balance of Plant (MBOP) which supplies fresh air, cleans and heats fuel and water and includes the power plant control system; 2) Electrical Balance of Plant (EBOP) which will convert the fuel cell DC power into utility grade AC power; and 3) DPC Module which will perform the electrochemical conversion of the continuous fuel supply into DC electric power. While the electrical power generated by the facility will be diverted directly to the PG&E grid, the waste heat generated by the fuel cell will be used to heat the campus swimming pool, thereby reducing dependence on existing boilers that currently serve that function. Another byproduct of the fuel cell facility is the discharge water, which will be utilized for campus irrigation thereby reducing water consumption.</p>	NOE	
2011088165	<p>Water Diversion - Mtn Creek Restaurant Fish & Game #2 --Sierra</p> <p>The project is limited to diversion of water at an existing 4" diversion, running it about 250 feet downhill and through a turbine to generate power. The water shall be returned to the creek. The existing diversion pipe shall be utilized to an existing hose bib (where water is currently used for irrigation), where it shall be extended and buried under a garden area to the location of the generator. The pipe will then be buried beneath the restaurant patio from the generator back to the creek. No alteration of the ravine is proposed, and no structures will be built near the ravine.</p>	NOE

	erosion of the materials from the retaining walls and rusting of the rail road piles. The work will take place under the existing deck structure of the bridge. The thickness of the concrete will be approximately 6-inches. The shotcrete will be installed by a concrete pump truck from the road above the bridge using an extended hose. There will be no excavation in the streambed.		
2011088167	Minor Revision No. 3 to Use Permit No. U-00-13 of Venoco, Inc. Resources Agency, The Suisun City--Solano To drill an additional well on an existing pad at Venoco's Suisun Community #22 site.	NOE	
2011088168	Removal Action Workplan, Existing Indio High School Toxic Substances Control, Department of Indio--Riverside Approval of a Removal Action Workplan (RAW) by the Department of Toxic Substance Control (DTSC) pursuant to Health & Safety Code sections 25323.1 and 25356.1(h). The RAW focuses on excavation and removal to mitigate soils Impacted with excessive levels of the polychlorinated biphenyls (PCBs) in one area of the existing school measuring 100 feet long, 20 feet wide and about 10 feet wide in the lawn area immediately north of the former maintenance building. The Site vicinity generally consists of residential commercial properties along the major railways.	NOE	
2011088169	Jawbone - Butterbredt ACEC Trail Maintenance Parks and Recreation, Department of Ridgecrest--Kern The proposed project includes trail maintenance activity. The Friends of Jawbone (FOJ) would focus on maintaining larger access roads and trails in coordination with the Bureau of Land Management. Equipment such as graders and tractors best suited for use on wider roads would be used to maintain roads and trails. Trail maintenance would also include installation, repair, and replacement of signs and barriers.	NOE	
2011088170	Jawbone - Butterbredt ACEC Restoration Parks and Recreation, Department of --Kern The Friends of Jawbone proposes to continue restoration activities on trails in the Southern Jawbone-Butterbredt Area of Critical Environmental Concern (ACEC) and the Rand Mountains Management area (RMMA) and other areas directed by the BLM Ridgecrest Field Office. The scope of restoration in this grant includes Areas of Critical Environmental Concern (ACEC), providing large-scale protected habitat for a number of sensitive and listed species. Proposed activities for repair of trails that have had intrusion include the following: ripping a predetermined area of the illegal trail access, fencing and photo monitoring of all restored areas, informational signing and outreach, photo documentation and data collection to assess the efficacy of arid lands restoration in OHV recreation areas, and supporting archeological and biological inventories prior to site restoration. Site restoration would consist of a variety of techniques designed to accelerate natural re-vegetation and improve viable habitat. Active restoration would take place along the initial line-of-sight of the closed trail and discourage future	NOE

	incursions into the restoration area. In areas where trespass has been an ongoing problem, fencing would be incorporated.		
2011088171	Friends of Jawbone Education and Safety Support Parks and Recreation, Department of --Kern This project would develop a smart phone version of the Friends of Jawbone OHV Trail Map. Many mobile smart phones have a GPS chip within the device. An OHV user with this application on their mobile device would see their location directly on the OHV map screen. This project would enhance public safety by providing accurate OHV route information, protect sensitive resources by encouraging on-route travel by OHV users, and sustain the public's existing OHV recreation opportunities through increased compliance with route designations.	NOE	
2011088172	Rubicon Trail Foundation Trail Operations Support Parks and Recreation, Department of --El Dorado, Placer The proposed project includes the purchase and maintenance of three trailers as well as hand tools and safety equipment to assist in trail maintenance. No changes to the physical environment would occur as a result of the equipment purchase. The actual work associated with these trailers uses federal funding and is not part of this funding.	NOE	
2011088173	Education and Safety Support - Transportation Reimbursement Program Parks and Recreation, Department of Barstow--San Bernardino The proposed project requests funding for a Transportation Reimbursement Program, which reimburses transportation expenses involved in moving trailers and vehicles to and from locations. It would also fund purchase of medical supplies and equipment, a UTV (Polaris Ranger Crew), and transport and lodging trailers and facilitate an expanded training program for their volunteer search and rescue team.	NOE	
2011088174	Owens Peak, Golden Valley, and Grass Valley Wilderness Restoration Project Parks and Recreation, Department of Ridgecrest--Kern, Tulare, Inyo, San Bernardino This project funds staff, equipment, and vehicles to accomplish the following tasks: the removal of a 7-mile long fence and one unused water tank; installation of up to 18 vehicle barriers and 5 1/2 miles of vehicle barrier fence, and restoration of more than 36 off-route and chronic vehicle intrusions into wilderness areas. In addition, two educational kiosks would be installed.	NOE	
2011088175	Restoration - Mountaintop Restoration Support Parks and Recreation, Department of --San Bernardino This project would coordinate and manage three native plants nursery operations for seeding and planting native species to treat off route impacts and support restoration in areas impacted by unauthorized OHV routes. 4,000 plants would be grown. To stop ongoing unauthorized OHV use, the applicant would grow, plant, and maintain four species of meadow and wetland plants and shrubs to quickly reduce access to the restored stream channel, meadow, and recent restoration staging areas.	NOE

	repairing bridges, blocking unauthorized routes, removing downed trees and boulders from roadways and trails, repairing and installing road and trail directional signs, performing condition surveys, reporting unsafe road and trail condition or heavy maintenance needs, and removal of trash.		
2011088183	Education & Safety - Expansion of Internet Map Based Roads/Trails in GIS Parks and Recreation, Department of -- This project proposes to expand the Friends of Jawbone's Owlshead Project, an internet-based system for delivering designated motorized route information to the public. Data products would be obtained from various agencies. Route data would be viewable on Google Maps and made available for download by the public. Those using the route database system would be prompted to register and set an array of communications preferences that would include periodic messages on topics of education and safety.	NOE	
2011088184	Education & Safety - Yellow Bandana Project Parks and Recreation, Department of -- The proposed project aims to educate the OHV public on the responsible disposal of human waste on OHV trails. Items to be purchased with funding from this project would be Yellow Bandanas, WAG Bags (waste alleviation and gelling bags), five-inch Yellow Bandana stickers, educational banners, pop up canopies, tables, and Tread Lightly brochures.	NOE	
2011088185	Imperial Sand Dunes Recreation Area Education and Safety Support Parks and Recreation, Department of --Imperial The proposed project supports ATV safety courses, labor and printing costs for a visitor guide, and five safety themed signs along the "Sand Highway" adjacent to State Route 78.	NOE	
2011088186	Acquisition via Foreclosure, 9033 Hargis Street, Los Angeles, CA 90034 University of California Los Angeles, City of--Los Angeles The proposed Action includes the acquisition of an existing single-family residence of 2,868 square feet located at 9033 Hargis Street, Los Angeles, CA 90034 that is currently a rental property. The residence consists of three (3) bedrooms and four (4) bathrooms on a 5,624 square foot lot. No change to City of Los Angeles zoning designation of RI-1 would occur as result of the acquisition of the property.	NOE	
2011088187	Tsai Grove Sign Parks and Recreation, Department of --Humboldt Install a Save-the-Redwoods League grove sign in the Miranda Honor Tree Grove Area overlooking honor trees numbered 211-223 in Humboldt Redwoods State Park. Work will manually excavate a 1ft wide by 2 ft deep hole to install the 31 inch x 9 inch sign mounted on a 5 ft long 4x4 post. Excess spoil generated by the excavation will be spread and covered with onsite duff or other native materials upslope from the sign location. No tree roots greater than or equal to 2 inch in diameter will be but. The sign will be located at the top of the road cut (Logan Road) and back a minimum of 5 ft from the edge. The primary vegetation is huckleberry. There will be minimal vegetation disturbance. This project is not being done in conjunction with other projects but is a part of the larger statewide Save-the-Redwoods League grove program. This meets ADA standards.	NOE

	all of the associated pumping equipment, in addition to the construction and operation of approximately 1,400 feet of 24-inch diameter waterline and approximately 300 feet of 16-inch diameter waterline.		
2011081064	Bush Minor Subdivision; 3200 21125 (TPM) San Diego County --San Diego TPM to subdivide 9.34 acres into four residential lots and a remainder lot ranging from 1 to 4 gross acres in area. The project site is located at 1226 Pepper Dr., Lakeside (across from Somerlane Street) in the Lakeside Community Planning Area. Subject to General Plan Regional Category CUDA, and Land Use Designation "Residential/1 (1 DU/1,2,4 acres)."	MND	09/16/2011
2011081066	605 Gaffey Street Los Angeles, City of Los Angeles, City of--Los Angeles Pursuant to L.A.M.C. Section 12.24-W1, a CUP to allow the sales of beer and wine only for off-site consumption with daily hours of operation from 6:00 a.m. to 11:00 p.m. daily, permitting deliveries and trash collection to occur during these hours. The request is in conjunction with tenant improvements for the establishments of a 4,760 s.f. retail grocery store. The store will provide 35 parking spaces and will be located on a 17,600 s.f. lot in the [Q]C2-1XL Zone.	MND	09/16/2011
2011081067	1611 W. 190th Street Los Angeles, City of Los Angeles, City of--Los Angeles Pursuant to L.A.M.C Section 12.21-A4, a request for a variance to allow 96 parking spaces in lieu of the 323 parking spaces required for an entertainment complex that contains 30,168 s.f. of indoor athletic/amusement space and 15,500 s.f. of warehouse space, which will be used to service the athletic/amusement use in the M2-1 Zone.	MND	09/16/2011
2011081069	McCandless Tentative Parcel Map San Diego County --San Diego The project is a Tentative Map to subdivide the 10.38 acres into 5 two-acre lots. The project is located at 1550 Keyes Road, just south of Camino De Amor, within the Ramona Community Planning Area and within the unincorporated area of San Diego County.	MND	09/19/2011
2011082046	Crane Creek Fish Passage Improvement Project Sotoyome Resource Conservation District Healdsburg--Sonoma The Crane Creek Fish Passage Improvement Project is one of five projects that will be sponsored by the Sonoma County Water Agency on tributaries to Dry Creek and the Russian River as part of the Reasonable and Prudent Alternative in the Russian River Biological Opinion. The Crane Creek Project is designed to address habitat limiting factors that were identified by the DFG in a 1999 habitat inventory and confirmed by the National Marine Fisheries Service in 2007. Fish passage will be improved by chiseling a series of step-pools in the existing bedrock.	MND	09/16/2011

2011082047	<p>89 Belgrave Avenue San Francisco, City and County of San Francisco--San Francisco</p> <p>The proposed project would include 1) subdivision of an existing 7,500 s.f. parcel into two lots, resulting in an approximately 4,200 s.f. lot with 42 feet of frontage along Belgrave Avenue containing an existing single-family residence, and a second undeveloped approximately 3,300 s.f. parcel with 33 feet of frontage along Belgrave Avenue to the west of the existing building; 2) enlarging an existing 2,270 s.f. residence by approximately 2,000 s.f., resulting in an approximately 4,210 s.f., approximately 37-foot-high building with two off-street parking spaces; and 3) construction of a new approximately 3,971 s.f., 37-foot-high three-story-over two-car garage single-family residence. The project site is within the block bounded by Belgrave Avenue to the north, Bigler Avenue to the east, Clarendon Avenue to the south, and Stanyan Street to the west in the Haight-Ashbury neighborhood. The proposed project would require a variance from the minimum lot area requirements.</p>	MND	09/19/2011
2011081065	<p>The Discharge of Blended Oilfield Produced Water in the Famoso Groundwater Banking Project Basins of Cawelo Water District Cawelo Water District Bakersfield--Kern</p> <p>The District imports Oilfield Produced Water from Valley Waste Disposal Company, Chevron North America and Schaefer Oil Company, pursuant to approved discharge permits from the Central Valley Regional Water Quality Control Board. A total of 385,598 acre-feet of OPW has been delivered to the District for irrigation and groundwater banking through 2010. The OPW enters the District's distribution system in Reservoir "B" and Reservoir "C" where the OPW is blended with Kern River water, State Water Project water other water and/or groundwater for reduction of the boron and electrical conductivity content prior to delivery for irrigation of agricultural crops within the District. The OPW is delivered continuously to the District and during the winter months of the year, with minimal irrigation demands, the OPW has been discharged in Poso Creek and the adjacent basin for groundwater recharge and banking. The proposed project and the purpose of this EA is to evaluate the environmental factors potentially affect by the discharge of the blended oilfield produced water in the existing Famoso Groundwater Banking Project recharge basins.</p>	Neg	09/16/2011
2011081068	<p>ENV-2011-1673-MND Los Angeles, City of Los Angeles, City of, Van Nuys--Los Angeles</p> <p>CUP to allow the sales of a full line of alcoholic beverages for on-site consumption, in conjunction with an existing 2,345 s.f. restaurant with live entertainment, operating Monday through Sunday from Noon to 2:00 a.m., with a total seating capacity of 107 (67 interior, 40 outdoor patio), providing 75 parking spaces, and located on an approximately 55,525 s.f. lot in the C2-1 and (Q)C1.5-1VL Zones. The current use is located within an existing strip mall and the restaurant is currently with a Type 47 issued by the Department of Alcoholic Beverage Control; however, has not been issued a CUP for alcohol sales by the City of Los Angeles.</p>	Neg	09/16/2011

2004092032	Alameda County Partners in Restoration Permit Coordination Program Alameda County Resource Conservation District Livermore--Alameda As part of the Permit Coordination program the project will remove sediment from a livestock pond. The project is located at the Sycamore Grove Park in Livermore, in the County of Alameda. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0303-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Diane Dugan.	NOD	
2004092050	Vineyard Surface Water Treatment Plant Testing Program Sacramento County Elk Grove--Sacramento The proposed project will provide up to 93 million gallons a day of potable water to existing and approved urban development within the SCWA Zone 40 area. An associated SCWA corporation yard to house facilities and store equipment will be co-located on the site along with a groundwater treatment facility. Raw surface water will be provided to the treatment facility from an intake along the Sacramento River approximately 10 miles to the west. Raw groundwater will be provided to the treatment facility from the Excelsior/Florin Road well field. Treated water pipelines will be constructed on portions of Florin and Exelsior Roads. Subsequent phases will not be built until after 2029.	NOD	
2008091026	Topaz Solar Farm (Optisolar) Conditional Use Permit (DRC2008-00009) San Luis Obispo County --San Luis Obispo The Project includes installing and operating arrays of photovoltaic modules and associated electrical production and transmission infrastructure. The Project will tie directly into the existing Pacific Gas and Electric Morro Bay/Midway 230 kV transmission line. Project construction will take approximately three years. The Project will result in impacts to 3,510 acres of San Joaquin kit fox (<i>Vulpes macrotis mutica</i>) habitat. The Project is expected to result in incidental take of San Joaquin kit fox, which is designated as a threatened species under the California Endangered Species Act (CESA). The ITP for this Project, as issued by the Department of Fish and Game, authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	NOD	
2011042031	90-160 Albright Way and 14600 Winchester Boulevard PD-10-005 Los Gatos, City of Los Gatos--Santa Clara Architecture and Site approval to demolish five existing commercial buildings and construct two new office buildings and a parking structure on property zoned CM: PD. No significant environmental impacts have been identified as a result of this project and a Mitigated Negative Declaration was previously adopted.	NOD	
2011061036	McCarthy Development Plan/ Coastal Development Permit DRC2009-00095 San Luis Obispo County --San Luis Obispo Request by Rob and Judi McCarthy for a Development Plan/Coastal Development Permit to allow for the construction of a 5,500 sq. ft. single family residence, and a 1,000 sq. ft. secondary residence to be located above a proposed detached 1,000 sq. ft. garage/workshop. Proposed site improvements include: improvements to an existing access road/driveway off of Cave Landing Road which involves paving and retaining walls, site preparation for building pads, roads and septic systems	NOD

	which includes approximately 9,368 cu yards of grading (both cut and fill), a 10,000 gallon water tank for fire suppression, and landscaping around the residence. In addition, site improvements also include extension of water lines and utilities from Avila Beach Drive up Cave Landing Road to the project site and associated grading for the residence to receive water service by County Service Area 12. The project will result in total area of disturbance of approximately 35,575 sq. ft., on a 37.06 acre parcel.		
2011089013	Lake or Streambed Alteration Agreement No. 1600-2010-0049-R1 Collins Pine Company Master Timber Harvesting Operation Forestry and Fire Protection, Department of Tehama--Tehama, Lassen, Plumas The Project proposes road work activities associated with timber harvesting operations.	NOD	
2011088191	Issuance of Streambed Alteration Agreement No. 1600-2011-0097-R1, Salt Creek Road Storm Drain Replacement. Fish & Game #1 --Shasta Replacement of reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced.	NOE	
2011088192	Issuance of Streambed Alteration Agreement No. 1600-2011-0116-R1 Walgamuth Pond Project Fish & Game #1 Redding--Shasta Minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes.	NOE	
2011088193	Needles Field Office, Ground Operations - Soil & HMP Implementation Parks and Recreation, Department of Needles--San Bernardino Actions for this project include soil conservation and habitat management activities. Soil conservation activities would follow the Needles Field Office (NEFO) Soil Conservation Plan's guidance for assessing, monitoring, and maintaining designated OHV trails, including re-contouring and re-establishing less than 1,200 feet of OHV trail routes. Habitat management activities would include designing and conducting a formal inventory and monitoring for the Mojave fringe-toed lizard in the wind blown sand habitats of the NEFO.	NOE	
2011088194	Needles Field Office, Ground Operatios - General maintenance Parks and Recreation, Department of --San Bernardino Actions for this project include general facility maintenance, staff training, signing and interpretation, and production of one map. General facility maintenance would include cleaning, painting, and maintenance of several dispersed OHV camping and picnic sites, vault toilets, kiosk structures and panels, and gateway signs. Signing and intpretation activities would include purchase of stickers, decals, fiberglass and netal signposts, and hardware for signage and interpretation. Map production would include preparation of one of four public route use maps. The only ground disturbing activity (sign installation) would not occur outside of existing designated routes.	NOE

<u>Documents Received on Thursday, August 18, 2011</u>			
2011088195	<p>South Cow Mountain and Knoxville Recreation Area Ground Operations Parks and Recreation, Department of --Lake, Mendocino</p> <p>Between the Cow Mountain and Knoxville areas, there are 152 miles of OHV roads and trails, three staging areas, and three developed campgrounds. The funding would be utilized to complete maintenance tasks including removing fallen trees, trimming/brushing vegetation along trails, cleaning/maintaining restrooms, pumping restroom vaults, trash pickup and removal, removing abandoned vehicles, repairing unsightly vandalism, replacing trash receptacles, and replacing signs/decals. The work would be completed by BLM staff, volunteers, and California Department of Forestry inmate crews. Trail brushing, fallen tree removal, sign replacement, vandalism repair, removal of trash and vault pumping would occur on an as needed basis.</p>	NOE	
2011088196	<p>Pacific Crest Trail Restoration Planning Parks and Recreation, Department of --Kern, Los Angeles</p> <p>The BLM proposes to plan restoration activities along the Pacific Crest Trail in Kern and Los Angeles Counties. BLM proposes to collect GIS data, and perform detailed analysis on 111 of the 132 miles of the PCT in this proposal area. The additional 21 miles have a low probability of OHV incursions. If BLM funding is available, BLM would include the additional section in the overall output map for the entire project. Steps would include: (1) Perform a precision GPS survey of the 111 miles and enter the data on a Geodatabase, GIS Data Layer. (2) Utilize the experience gained from the initial survey, revisit, and spend additional time performing documentation of significant OHV incursions. (3) Develop and photo-document monitoring points at each incursion. (4) Follow significant OHV trails away from the PCT, and gather information about starting and ending points and other information.</p>	NOE	
2011088197	<p>OHV Air Quality Monitoring - West Mojave Desert Parks and Recreation, Department of --San Bernardino, Inyo, Kern, Los Angeles</p> <p>The Bureau of Land Management (BLM) in cooperation with Regional Air Pollution Control Boards, proposes to develop an air quality monitoring program to evaluate impacts from OHV use in BLM designated "open areas" within PM2.5 and PM10 nonattainment areas in the West Mojave Planning Area (WEMO). A recent court remand order on the WEMO Plan has directed the BLM to increase emphasis on air quality monitoring of OHV open areas. There are eight open areas within the WEMO area (Olancho Dunes, Spangler, Dove Springs, Jawbone, El Mirage, Stoddard Valley, Johnson Valley, and Razor. This assessment would provide an analysis of the existing air quality monitoring network, identify BLM management-specific questions that need to be answered by a monitoring program, and, if necessary, define additional monitoring site and equipment needs that fit within the existing monitoring framework.</p>	NOE	
2011088198	<p>BIRD Monitoring - Sonoran Desert near OHV Areas Parks and Recreation, Department of --San Bernardino, Riverside</p> <p>The Bureau of Land Management (BLM) acquires data for long-term monitoring of Sonoran Desert thorn woodlands where OHV occurs. This grant would fund bird population monitoring from March through May of 2012 in woodland habitats along the designated OHV route network in the North and East Colorado Desert planning area, the Imperial Sand Dunes Recreation Area, and in North and East Colorado</p>	NOE

	Desert wildernesses. Supplemental monitoring would also take place on the lands in California along the Colorado River managed by the Lake Havasu and Yuma BLM field offices.		
2011088199	Monitoring Desert Tortoise-Johnson Valley Area Parks and Recreation, Department of -- The project continues periodic long-term desert tortoise field monitoring undertaken by the Bureau of Land Management (BLM) and the U. S. Geological Survey in Johnson Valley OHV Open Riding Area. The USGS and BLM would also analyze direct and indirect anthropogenic impacts on the types and causes of desert tortoise mortality, based on the time-series data collected over three decades. The analysis examines areas both within and adjacent to popular high-use motorized recreation areas in the western and southern Mojave Desert.	NOE	
2011088200	Cencal Bat Monitoring-Mines in OHV Areas Parks and Recreation, Department of --Inyo, Kern, Mono This project would accelerate the closure process for abandoned mines in the immediate proximity of designated OHV routes in the Bakersfield and Bishop Field Office areas. Acceleration would consist of four parts: (1) Thirty-three four-season pre-closure surveys of bats resident at abandoned mine portals that pose a hazard to the health and safety of OHV riders and an analysis of the impact, disturbance, and adverse effects of the closure project. (2) A closure recommendation for each portal that accommodates seasonal uses by BLM sensitive bat species and maintains the mine's historic resources. (3) Effectiveness monitoring of 48 AML sites that have bat-compatible closures installed to ensure that people are effectively excluded from mines and bats are occupying the habitat. (4) A report of biological findings and closure recommendations for the BLM. The BLM would share the findings with Bat Conservation International, the California Department of Conservation, and the OHMVR Division.	NOE	
2011088201	Dumont Dunes and El Mirage OHV Areas Safety Project Parks and Recreation, Department of Barstow--San Bernardino This project funds non-law enforcement park rangers, emergency medical technicians (EMTs), and seasonal first responders, which provide emergency medical and search and rescue services to visitors at Dumont Dunes and El Mirage Off-Highway Vehicle Recreational Areas.	NOE	
2011088202	El Mirage OHV Education and Safety Project Parks and Recreation, Department of --San Bernardino The El Mirage OHV Education & Safety Project would fund an ongoing Jr. Ranger Program that will deliver the "On the Right Trail" OHV curriculum, the Tread Lightly and National Off-Highway Vehicle Conservation Council (NOHVCC) messages to children and parents visiting public lands as well as elementary and middle school students. The grant would provide funding for one park ranger to deliver the Jr. Ranger Program at OHV areas and events and provide for the development and printing of a Jr. Ranger activity booklet for the El Mirage OHV Area, including any printing cost and incentives to support the program. The BFO's Desert Discovery Center partnership will be utilized to make school contacts and book the park rangers for safety fairs and classroom presentations.	NOE

2011088203	Barstow Field Office Area-wide Restoration Parks and Recreation, Department of --San Bernardino This grant is for monitoring and additional low enforcement patrols in the existing restoration area. It does not involve ground disturbing activities. The proposed activity would not cause any physical impact on the environment and is thus not a project under CEQA.	NOE	
2011088204	Dumont Dunes OHV Area Ground Operations Parks and Recreation, Department of --San Bernardino The Dumont Dunes Grounds Operation Project would fund work activities for on-site visitor services along with the normal operations, maintenance and law enforcement actions required to sustain OHV recreation opportunities. More work activities in this project would include maintenance of perimeter barriers, 3.5 miles of improved access road, low water crossing, entry station structures (fee machines, trailer pads & trailers, traffic control, signs), 5 kiosks, command post structures (visitor center, equipment sheds, heliport, fencing, lighting, shade ramada, trailer pads & trailers) 16 vault toilets, and hundreds of various types and size signs.	NOE	
2011088205	El Mirage OHV Area Ground Operations Parks and Recreation, Department of --San Bernardino The project funds work activities for onsite visitor services along with the normal operations and maintenance activities required to sustain OHV recreation opportunities. Work activities in this project include maintenance of the 27 mile long perimeter barrier, several miles of internal protective fencing (roads, Joshua trees, mines and cultural sites), 2 miles of paved road, 12 miles of maintained dirt roads, an 18- and 13- mile signed loop trail, a 14-mile signed interpretive trail, 10-vault toilets, and hundreds of various types and size signs. Wildlife biologist and soil specialist will perform project monitoring and prepare updates to the soil and HMP plans.	NOE	
2011088206	Stoddard & Johnson Valleys and the Razor OHV Areas Ground Operations Parks and Recreation, Department of --San Bernardino This project would fund on-site visitor services, OHV planning, program oversight, and the normal operations and maintenance activities required to sustain OHV recreation opportunities. Agency maintenance workers and park rangers would clean restrooms and maintain workers and park rangers would clean restrooms and maintain roads, signs, kiosks, fences and vehicle barriers. Project work activities would include maintenance of perimeter fence, several miles of internal access roads, several vault toilets, and hundreds of various signs. Additional activities include soils and biological surveys, visitor services, and GIS.	NOE	
2011088207	Restoration - OHV Dos Palmas Fence Restoration Parks and Recreation, Department of --Riverside Installation of an approximately three-mile-long fence along the northwest and western buffer area of the Dos Palmas area of critical environmental concern (ACEC). The proposed fence, in conjunction with other existing fences, would help protect the entire Dos Palmas ACEC.	NOE

<u>Documents Received on Thursday, August 18, 2011</u>			
2011088225	Chappie-Shasta OHV Area Acquisition 10/11 Parks and Recreation, Department of Redding--Shasta The proposed project involves acquisition of two privately owned parcels of land. Individual costs funded by this project include BLM staff time, appraisal and escrow costs, hazmat review, and purchase cost of the properties. Only existing riding trails would be affected by these acquisitions. No actions are planned other than improving the condition of existing trails on the proposed acquired lands.	NOE	
2011088226	Jawbone Canyon and Dove Springs Restoration Parks and Recreation, Department of Ridgecrest--Kern, San Bernardino The Bureau of Land Management Ridgecrest Field Office purposes to restore approximately seven acres of designated closed routes through active restoration in the Northern Jawbone-Butterbredt Area of Critical Concern, Rand Mountains Management Area, and Red Mountain Sub-Region. Proposed restoration activities include: restoring and camouflaging designated closed routes using vertical mulching, horizontal mulching, and seed pits; constructing erosion control structures, such as water bars and check dams on slopes of greater than 30 degrees and other areas as needed; constructing hard barriers and installing signs to negate illegal OHV use, define camping areas, and protect recently restored areas.	NOE	
2011088227	Jawbone Canyon and Dove Springs Ground Operations Parks and Recreation, Department of Ridgecrest--Kern, Inyo, Los Angeles, San Bernardino The project would assist the Ridgecrest BLM Field Office in managing and sustaining OHV recreation opportunities on the public lands within its jurisdiction. The main operations that would be performed with grant funding include operation the Jawbone Station Visitor Center (JSVC), resealing the parking lot at the JSVC, restoring trail tread, maintaining information kiosks, producing interpretive materials, installing regulatory and route signs, providing trash collection, and maintaininf management area fence lines along with barriers to prevent damage to sensitive areas and areas off limits to motorized vehicles.	NOE	
2011088228	Bishop Field Office Wilderness Route Restoration Parks and Recreation, Department of --Inyo, Mono The project would protect and restore former OHV routes that were closed and restored to a natural state because of wilderness designation in the Inyo Mountain and Granite Mountain Wilderness. Project deliverables include patrolling/monitoring barricades, constructing or repairing barricades as necessary, performing vertical mulching, raking out any vehicle tracks, and placing/replacing signing (e.g., educational and regulatory). Treatments planned for the project area is six miles of two-track road.	NOE	
2011088229	Manzanar Japanese Internment Camp Restoration Parks and Recreation, Department of --Inyo The project would permanently close to OHV use a historic water reservoir and canal system resource originally constructed to service the Manzanar Japanese Internment Camp in the mid 1940s during WWII. The project deliverables are fencing or barricading up to 10 acres of surface area that houses the structures, providing Park Ranger patrols, educational and regulatory signs, and returning	NOE

	OHV damaged vegetation to a natural state.		
2011088230	Lone Pine Native Propagation Center Parks and Recreation, Department of --Inyo The proposed project is to develop and construct a native plant propagation greenhouse at the Lone Pine High School. Plants propagated and/or seed from the plants would be used to restore habitat on planned restoration projects where resources have been damaged by irresponsible or illegal OHV use Youth would work under the direction of a teacher/advisor to assist the BLM Bishop Field Office and the Alabama Hills Stewardship Group (a consortium of local Lone Pine residents and other partners) to implement native plant restoration projects on closed OHV routes and areas that would enhance the ecological and visual resources of the area. Approximately 1 -2 acres would receive broadcast seeding or put planting of seedlings per year after the greenhouse has been installed at the Lone Pine High School.	NOE	
2011088231	Bishop Field Office Ground Operations - Trail Maintenance 2011 Parks and Recreation, Department of Bishop--Inyo The project will utilize hand crews and use specialized equipment to remove bumps and dips, water ruts, rocks, and potholes along with installing erosion control devices such as water bars along the motorized trails in the Tungsten Hills and White Mountains. Carsonite-type signs and strip decals would also be used to sign routes and loops along with educational signing at trail heads.	NOE	
2011088232	Imperial Sand Dunes Recreation Area Safety Support Parks and Recreation, Department of El Centro--Imperial This project would fund OHV non-law enforcement park rangers, medical supplies, and rescue buggy maintenance, which would assist in providing emergency medical services to OHV visitors in the Imperial Sand Dunes Recreation Area (ISDRA).	NOE	
2011088233	Imperial Sand Dunes Recreation Area Kiosk Installation Parks and Recreation, Department of El Centro--Imperial This project would fund 20 kiosk panels (replacement for 5 kiosks located in the Imperial Sand Dunes Recreation Area) and 5-9 wayside panels (replacement for the historic Plant Road, located in the southern portion of the sand dunes). All interpretive kiosk panels are replacement panels for existing kiosks. Plank Road wayside panels would be attached to the existing barrier fencing protecting the Plant Road segments. There would be no ground surface disturbance or impacts to vegetation or wildlife.	NOE	
2011088234	Imperial Sand Dunes Recreation Area Restoration Project Parks and Recreation, Department of El Centro--Imperial This project proposes to fund the maintenance of signs closed to OHV recreation in the Imperial San Dunes Recreation Area (ISDRA). Funding is also requested for BLM's existing buggy to provide maintenance or repairs.	NOE

2011061001	Disposal of the Former Caltrans District Office Complex Caltrans #11 San Diego--San Diego The Project proposes the disposal of the Complex. The purpose of the Project is to dispose of an excess state-owned property that is not being occupied or utilized. Disposal of the Complex without restrictions/covenants to a public or private entity is the Preferred Alternative. After exhaustive efforts of researching the potential to market the building with protective covenants, and transferring the building to the Department of Parks and Recreation, Caltrans has determined that selling the building without protective covenants or restrictions is the only viable alternative.	EIR	10/03/2011
2011081070	Proposed Middle School #2 Los Banos Unified School District Los Banos--Merced The Los Banos Unified School District plans to construct and operate a second middle school to serve students on the south side of Los Banos. The Site is proposed to be developed with classrooms, gymnasium, library, administrative and auxiliary spaces to serve up to 1,000 students in grade 7-8. The school design includes a football field and track to deliver a physical education program; however, no field lighting is proposed. Buildings would be oriented on the south side of the Site with fields on the north. In coordination with the City of Los Banos, West I Street will be extended south from its current terminus at Sandra Street to Pioneer Road, forming the western boundary of the Site.	MND	09/19/2011
2011081071	Robert Tucker (PPM 09-034) Tulare County --Tulare Assessors Parcel Number 068-090-008, consisting of 11.4-acres to be split into two parcels (Parcel 1 - 9.2 acres, Parcel 2 - 2.2 acres).	MND	09/19/2011
2011081073	Raw Water Pipeline Project Fresno, City of Fresno, Clovis--Fresno The City is proposing to construct a hydropower plant at the SWTF, equipped with a turbine intake, in order to offset some of the power usage of the SWTF. The Proposed Project alignment is the shortest in length and traverses flatter topography than does the Northern Alignment Alternative.	MND	09/19/2011
2011081074	Willow Street Bridge Replacement Project Chula Vista, City of Chula Vista--San Diego The City of Chula Vista proposes the replacement of the Willow Street Bridge located on the municipal boundary of the City of Chula Vista and the County of San Diego (see Figure 2.1 attached). The bridge crosses over the Sweetwater Road to Bonita Road. The existing 610-foot bridge was constructed in 1940 as a concrete slab bridge supported on concrete piles and pile extensions. It currently carries two lanes of traffic and an approximately 4-foot-wide sidewalk on the northeasterly side. The age of the bridge, combined with outdated railings/barriers, the lack of American with Disabilities Act (ADA)-compliant sidewalks, and the lack of standard lanes and shoulders, makes the replacement of the bridge a necessity. The project proposes the replacement of the existing bridge with a four-lane 80-foot-wide structure, paved shoulders, ADA compliant sidewalks and bicycle lanes. Additional work will include installation of curbs,	MND	09/19/2011

2011072019	Draft New Rule 4566 (Organic Material Composting Operations) San Joaquin Valley Air Pollution Control District --San Joaquin The purpose of Draft New Rule 4566 (Organic Material Composting Operations) is to limit emissions of volatile organic compounds (VOC) from composting operations. Draft New Rule 4566 would establish VOC emission reduction requirements on the basis of actual throughputs, rather than the maximum allowable capacity limits for composting operations.	FIN	
2011081075	Whiteman Airport Master Plan Update Los Angeles County --Los Angeles Whiteman Airport is a 187 acre publicly owned facility that serves the aviation needs of Pacoima and surrounding areas of Los Angeles County. The airport is owned by the County of Los Angeles Department of Public Works, Aviation Division and operated by a private management company through an agreement with the County. In order to determine the potential of the airport and specific opportunities for improving facilities, the County sponsored an airport master plan through a planning grant from the FAA Airport Improvement Program (AIP). The update to the Airport Master Plan covers proposed improvements that will be made to the Airport over the 20-year planning period (2009-2030) of the Airport Master Plan. It is anticipated that airport will not result in a significant expansion of the use of the airport, but will foster the redevelopment of existing airport terminal, parking and hangar space. Improvements to the Airport will be developed in three phases: Phase 1 (2009-2013); Phase 2 (Phase 2 (2014-2018): and Phase 3 (2019-2030).	MND	09/20/2011
2011082052	Cunningham Parcel Map Subdivision Humboldt County --Humboldt A Parcel Map Subdivision of an approximately 13,759 s.f. parcel into two parcels of approximately 6,000 s.f. and 7,759 s.f. The parcel is currently developed with a workshop which will be removed. The applicant requests an exception to the lot frontage requirements to create a flag lot. The parcels are or will be served by Humboldt Community Services District.	MND	09/20/2011
2011082053	Renner General Plan Amendment and Zone Reclassification Humboldt County --Humboldt A General Plan Amendment to change the General Plan designation from Commercial General to Industrial General. The change would facilitate the use of the property for a fence contracting business, including truck and equipment storage, office space, a work area and additional storage. The property would be used mainly as a contractor's storage yard and office, with a small amount of retail sales and metal fabrication. In addition to the change to the General Plan designation, the zoning classification would change from Highway Service Commercial with a Qualified combining zone to Limited Industrial (ML). The property is served with on-site water and on-site wastewater treatment systems.	MND	09/20/2011

	US Cellular. A modification to the previously approved permit is requested to allow replacement of the wood pole with the proposed steel monopole structure. The new tower would be located approximately 15 feet north of the existing tower site and within the existing 1,600 ft. 2 lease area (a 40 foot by 40 foot portion of the 42-acre parcel) and would be capable of supporting up to twelve (12) antennas (per carrier) at two (2) separate centerlines as well as two (2) 2-foot diameter microwave antennas to be use by AT&T.		
2002072049	Nelson Final Map Subdivision FMS-01-03 Humboldt County --Humboldt An extension to the following project: A two-year extension of a Coastal Development Permit and Special permit (CDP-01-24/SP-01-92) approved October 17, 2002 in association with the second phase of the Shadowbrook acres which are in addition to the ten lots (Lot Nos. 1-10) created by phase one of the Shadowbrook Subdivision (FMS-17-92). Both phases of the subdivision have now been recorded and are filed in Book 23 of Maps, Pages 111 and 112 and Book 24 of Maps, Pages 35 thru 38. The blanket coastal development permit is for construction of one single family residence each, one story in height (not exceeding 24 feet in height of 2,500 square feet gross floor area) on 34 lots within the subdivision. To date, fifteen (15) residences have been constructed. The extension requests that the CDP and SP be extended for 19 of the remaining lots (Lot Nos. 25 and 27-30, 32, 37-49) which are presently undeveloped. Lots Nos. 31 and 33-36 were not part of the blanket permit. The project also includes a proposal to allow for placement of a bridge over a streamside management area to provide access to lot 49. All lots will be served with community water and sewer. If approved, the extension will expire on July 20, 2013.	NOD	
2005082045	Florin-Vineyard Gap Community Plan Sacramento County Sacramento--Sacramento The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2009-0215-R2, pursuant to Section 1602 of Fish and Game Code to the project applicant, Phillip Harvey, Petrovich Development Company. The Project is limited to the piping of a 1,160 linear foot drainage ditch, tributary to Elder Creek. The surface water flow will be re-routed and placed into the on-site storm drain system (24-inch pipe), which will connect to the County's storm drain system on Elk Grove-Florin Road.	NOD	
2008011121	Soka University Performing Arts Center & Academic Facilities Aliso Viejo, City of --Orange The project includes the following: -A conditional use permit for a revised master Plan for the campus; -A site development permit for construction of a 677-spacing parking structure on Parking Lot B; -An exception permit to allow deviation from the Zoning Code's dimensional standards for parking in parking Lot B as follows: a reduction in parking stall depth from 19 to 18 feet and a reduction in parking aisle width from 25 to 24 feet. 2011044003	Desert Sunlight Solar Farm Bureau of Land Management --Riverside The Applicant will construct, operate, and maintain a 220 kilovolt (kV) electrical transmission line (herein referred to as the "Gen-Tie Line [GT A-1]") in connection with its 550 megawatt solar photovoltaic energy-generating facility known as the Desert Sunlight Solar Farm located ~6 miles north of Desert Center. Gen-Tie Line [GT A-1] will connect the electrical output of the Solar Farm to Southern California Edison's proposed Red Bluff Substation. Gen-Tie Line [GR A-1] is proposed to exit the southwest portion of the solar farm site, run south along the west side of Kaiser Road, turn east just north of Desert Center, and the run south across I-10 to the proposed substation. The majority of Gen-Tie Line [GT A-1] is proposed to run under, along, across or upon the County of Riverside's Kaiser Road rights-of-way (a total distance of ~5.8 miles).	NOD	
2011051035	Longfellow Recycled Water Storage Tank and Appurtenances Eastern Municipal Water District --Riverside Eastern Municipal Water District (EMWD) is in the process of implementing infrastructure improvements needed to upgrade its agricultural delivery system to a level capable of meeting municipal customer's needs. EMWD intends to construct a 5.0 million gallon welded-steel recycled water storage tank on APN 461-130-012. EMWD also intends to construct a 30-inch diameter recycled water pipelines in Simpson Road. The pipeline would follow the new tank access road from the tank in a southerly direction to its intersection with Grand Avenue. It would then follow Grand Avenue in an easterly direction to its intersection with Longfellow Street. It would then follow Longfellow Street in a southerly direction to the connection point in Simpson Road. Upon completion, the proposed project would provide improvements needed to upgrade the recycled water delivery system to a level capable of meeting the demands of EMWD's municipal customers.	NOD

2011088258	Ford House Reroofing Parks and Recreation, Department of --Mendocino Replace all existing wood shingle roofing, which was installed in the 1980's, with new asphalt shingle material on the historic Ford House at Mendocino Headlands State Park. The new black asphalt composition shingles will be installed according to the manufacturer's specifications, will increase fire resistance of the building, and will retain an appearance similar to the old wood shingles. A 1/2" plywood diaphragm will be applied over the skip sheathing of the existing roof to provide a shear membrane and substrate for the new roof covering. Project will include limited, in-kind repair and/or replacement of existing wood gutters, fascia, and dormers. A brick chimney no longer in use will be repainted and its flashing replaced. All work will conform to the guidelines set forth in the "Secretary of the Interior Standards for the Treatment of Historic Properties" (Weeks and Grimmer). All work will be conducted between September 1 and April 15 to avoid potential impacts to bats.	NOE

2011088265	<p>Hyperlight Low-Cost Solar Thermal Technology Energy Commission Brawley--Imperial</p> <p>The overall goal of the project is to develop and demonstrate Combined Power Cooperative's "Hyperlight" concentrated solar thermal power technology. Combined Power Cooperative's innovation is a unique, low cost, reflector system for a Compact Linear Fresnel Reflector (CLFR), which simultaneously serves as a heat exchanger that enables non-evaporative cooling of the power generator block. The technology has the potential to achieve the technical objective for the RFP by enabling a utility scale solar technology with reduced demands on land and fresh water, as well as greater flexibility in plant configuration and footprint shape, expanding site selection options and opportunity for avoidance of sensitive or undisturbed habitats and increased utilization of disturbed or developed land.</p>	NOE

2011032062	<p>Shiloh IV Winds Energy Project Solano County --Solano</p> <p>Shiloh Wind Partners, LLC (the Applicant), wholly owned and managed by enXco, Inc. (enXco), proposes to develop the Shiloh IV Wind Energy Project (the Project) in the wind resource area in the Montezuma Hills, in southeastern Solano County, CA. The Project would be located in a 3,012-acre area, comprising 22 parcels, leased to the Applicant to construct and operate the proposed wind turbines and associated facilities. For the purposes of this EIR, the term "project area" refers to this 3,012-acre area within the project boundaries where the applicant would locate the proposed facilities. The proposed 50 wind turbines would generate 100 megawatts of electricity, which would connect to the Pacific Gas & Electric Company (PG&E) 230-kV grid and be transmitted to the consumer power market in Northern CA through utilities, municipalities, and cooperative in furtherance of the goals of the 33 percent CA Renewable Energy Portfolio standard.</p>	EIR	10/06/2011
2011061027	<p>New Glendale Courthouse Judicial Council of California Glendale--Los Angeles</p> <p>The proposed project includes the construction of a five story (maximum) approximately 110,000 sq. ft. courthouse with a basement. The new courthouse would be constructed generally in the same location as the existing courthouse. Portions of the existing courthouse of architectural relevance are intended to be preserved where feasible, while the remainder of the courthouse would be demolished. A small site behind the existing courthouse at 124 South Isabel Street will also be acquired for the related parking. This site is currently owned by the Board of Realtors. In addition, a second site may be acquired for parking, which is located at 135 South Glendale Avenue (the Jewel City Bowl bowling alley).</p>	EIR	10/06/2011

The expansion will involve the addition of 36,996 square feet of commercial retail uses, resulting in a 179, 933 -square-foot Walmart store with a full-service grocery department. The Project will include demolition of the existing Tire and Lube Express and an adjacent, vacant, 7,000-sqaure-foot commercial structure.</p>	NOD	
2010052011	<p>Northwest Land Park Project Sacramento, City of Sacramento--Sacramento</p> <p>The Northwest Land Park Project would develop a residential/mixed-use community on approximately 31.7 acres within the Land Park Community Plan Area of the City of Sacramento. The project would replace existing light industrial and commercial uses on the project site with up to 968 residential units, commercial-retail uses, and parks and open space. Specifically, the project would include up to 898 medium-density multi-family residences on approximately 19.2 acres, up to 70 high-density multi-family residences and 15,000 square feet of commercial-retail uses on approximately 1.2 acres, approximately 4.3 acres of park, approximately 1.1 acres of private open space, and approximately 5.9 acres of public right-of-way. A four-phase project buildout is anticipated. The proposal requires a Development Agreement, a Rezone, the PUD Guidelines and Schematic Plan for Northwest Land Park, and a Bikeway Master Plan Amendment for the overall site; a Tentative Map for condominiums, a Subdivision Modification and a Special permit for the construction of 201 condominium units on 8.1 gross acres for Phase 1 of the development.</p>	NOD	
2011089019	<p>Old Jail Demolition (FM 08110004032) Riverside County Riverside--Riverside</p> <p>The County of Riverside Economic Development Agency (EDA) proposes to demolish the vacant County jail and construct a pedestrian plaza in its place. The structure occupies approximately 10,000 square feet on the southeast corner of Assessor Parcel Number (APN) 215-110-001.</p> <p>The existing jail structure is approximately 30,000 square feet, and includes four-stories and a basement. The former jail facility is a health and safety hazard subject to water intrusion, structural cracking, and deteriorated electrical, plumbing and mechanical systems. In addition, the facility contains asbestos and lead based paint (LBP).</p> <p>The jail structure is not considered to be a historic resource; however it is</p>	NOD

Facility will be ADA compliant and include shade, tables, and barbecues.	NOE	
2011088319	San Joaquin Valley Unified Air Pollution Control District Rule Development Amendments to Rule 4684 (Polyester Resin Operations) San Joaquin Valley Air Pollution Control District --Fresno, Kern, Kings, Madera, Merced, San Joaquin, ... This is a rule development project to amend existing District Rule 4684 (Polyester Resin Operations) to correct the rule deficiencies as recommended in the Technical Support Document (TSD) published by Environmental Protection Agency (EPA) in May 2009. The proposed amendments would lower emissions of volatile organic compounds (VOC) from polyester resin operations used in non-boat manufacturing operations. The limits and VOC control system would be as stringent as other California air districts to fulfill Reasonable Achieved Control Technology (RACT) requirements. As part of these amendments, new rule definitions would be added to clarify and support the monomer content limit changes. Other amendments are clerical in nature.	NOE	
2011088320	Right Turn Lane Intersection Improvements at Forrester Road and Worthington Road Project Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --Imperial The proposed project consists of the construction of two new turn lanes at the intersection of Worthington road and Forrester Road, specifically adding a new southbound right turn lane onto Worthington Road, and a new northbound right turn lane onto Worthington Road. 2010011067	<p>Heber Dunes State Vehicular Recreation Area General Plan Parks and Recreation, Department of --Imperial</p> <p>Heber Dunes SVRA offers a unique recreational experience in that it is located within several miles of Imperial Valley's population centers and provides an intimate recreational experience in a family-friendly atmosphere. Because Heber Dunes SVRA is relatively small, consisting of 340 acre as compared to other off-highway vehicle (OHV) recreational areas in the region and is open for day use only, most users are from the local area. There are a limited number of developed facilities to support recreation opportunities within Heber Dunes SVRA; the majority of the site is dedicated to open sand dune and trail use. Existing recreation-supporting facilities include a ranger/staff area with a residence, a ranger/staff office and workshop/tool area, a parking area for Off-Highway Motor Vehicle Recreation (OHMVR) Division vehicles, a public restroom facility, and picnic facilities.</p>	EIR	10/10/2011
2010101091	<p>Strategic Water Resources Plan Program Palmdale Water District Palmdale--Los Angeles</p> <p>The proposed project would apply to PWD's 47-square mile water district service area, which is located in the Antelope Valley area of Los Angeles County, CA. The SWRP assumes the population in the PWD service area will double over the next 25 years or by 2035. The primary goal of the SWRP is to therefore develop and diversify PWD's water supply to ultimately provide supplies capable of matching future overall annual water demand on a year-to-year basis. The secondary purpose of the proposed project is to improve water supply reliability and redundancy in PWD's.</p>	EIR	10/10/2011
2011081084	<p>PA09-0004 (Plot Plan), PA09-0012 (Tentative Parcel Map No. 36162,), and P11-020 (E(R) Moreno Valley, City of Moreno Valley--Riverside</p> <p>The Vogel Industrial Park project proposes a 1,616,133 square foot industrial warehouse building on approximately 71 acres located at the southwest corner of Grove View Road and Perris Boulevard between Perris Boulevard and Indian Avenue. The project also requires approval of Tentative Parcel Map No. 36162 to combine the project parcels into a single parcel. The building includes 268 dock high doors and 44,000 square feet of office area in four potential office locations. The project is located at the City's southern boundary on the north side of the Perris storm channel.</p>	NOP	09/23/2011
2011081085	<p>Lemoore Walmart Project Lemoore, City of Lemoore--Kings</p> <p>The proposed project consists of the development of as much as 199,500 sf of commercial uses and associated infrastructure on the 29.42 net acres of project site, as well as offsite utility work. The proposed project would be anchored by a 197,000 sf Walmart store that would retail general merchandise and groceries, and operate 24 hours a day. A 2,800 sf drive thru restaurant would be developed on a 1-acre parcel adjacent to Bush Street. Roadway and infrastructure improvements would be implemented.</p>	NOP	09/23/2011

2011088333	Lassen National Forest Smoky Watershed Restoration Parks and Recreation, Department of --Butte The Lassen National Forest, Almanor Ranger District proposes to enhance nine acres of impacted riparian area adjacent to Big Chico and Cascade Creeks, decommission and close 0.7 miles of road, and block off three unimproved creek crossing that exhibit stream bank erosion and riparian habitat degradation.	NOE	
2011088334	Lassen National Forest, Mitigation Travel Management Plan Routes Parks and Recreation, Department of Susanville--Lassen The project includes visiting all 72 Tier 2 unauthorized routes to determine exactly what site-specific mitigations need to be implemented before they are added to the National Forest Transportation System and how much this work would cost. The information would be used to apply for an 2012 OHMVR Ground Operations Mitigation Implementation Grant. The project also includes visiting and collecting data on all 50 routes that require baseline hydrological or soil monitoring data to determine if further mitigations are required. The data would be analyzed and any additional needed mitigation would be planned. The proposed activities are those required for planning activities. There would be no effect on the physical environment from the planning activities.	NOE	
2011088335	Lassen National Forest OHV Route Mitigation Ground Operations Parks and Recreation, Department of --Shasta The project consists of the implementation of mixed use designations on seven segments of roads by installing signs for safety. The grant would fund visiting each of the mixed use road segments to determine what signs are needed, where they should be placed, and then the purchase and installation of the signs. There would be no adverse effect on the physical environment from the ground operations activities. The application does not include and trail development or other ground disturbing activities.	NOE	
2011088336	Lassen National Forest Ground Operations Parks and Recreation, Department of --Plumas The proposed project will support ground operations at the Lassen National Forest. Project activities include installing new fire rings at existing dispersed camping areas, improving drainage on existing trail segments, removing litter, monitoring cultural resource and natural resource impacts as well as funding for materials to support the Friends of High Lakes including reprinting of informational material and improving and maintaining trailhead kiosks.	NOE	
2011088337	Sierra National Forest, Jose Basin and Blue Canyon Restoration Parks and Recreation, Department of --Fresno Jose Basin and Blue Canyon restoration projects would rehabilitate approximately 15 acres of land damaged due to illegal OHV use. Unauthorized trail around gates and illegal OHV use in meadows, on sensitive soils, and at water crossings are the main cause of damage to the Jose Basin/Blue Canyon OHV areas. Project activities would close off illegal routes, protect meadows, and block access to and rehabilitate closed areas. Restoration activities would incorporate the use of native materials to restore project sites to a natural setting. Hand tools and power tools would be used to cut trees and move rock. Grading and mulching of soil to reduce	NOE

	compaction and increase new vegetation growth would also be implemented.		
2011088338	High Sierra Ranger District Dinkey Creek Restoration Parks and Recreation, Department of --Fresno Sierra National Forest proposes the following activities to prevent the illegal use of the Dinkey Creek area: (1) Remove all trash, human waste, and fire rings. Rake the area and validate that no refuse or debris remains. (2) Revegetate with native plants and seeds. (3) Post the boundary with signs prohibiting use. (4) Install physical barriers such as rocks or lags. (5) One year after completing the area cleanup and closure, monitor the site for restoration/closure success. Monitoring would continue until there is evidence that erosion has been minimized, that vegetation is thriving, and that blocking vehicular use of the area has been effective.	NOE	
2011088339	Over the Snow Vehicle Route Planning Parks and Recreation, Department of --Madera Funding for this grant would be used to develop an environmental analysis to create over the snow vehicle (OSV) routes in the Beasore area. Resource specialists would provide information to the District Ranger for a decision regarding whether to establish OSV routes. The product would be a document describing the purpose and need for OSV routes, the impacts to cultural and natural resources, and the District Ranger's decision.	NOE	
2011088340	Planning for Bass Lake Watershed Studies Parks and Recreation, Department of --Madera The Willow Creek watershed is a large land base that accesses many OHV recreation opportunities such as camping, hunting, and fishing. Many of the Level-2 roads (OHV suitable) provide access to non-motorized recreation. This project includes development of a GIS analysis and database of watershed impact issues at stream crossings, meadows, and eroding soils related to Level-2 roads, motorized trails, and non-system motorized tracks in the Willow Creek watershed. Data gathered by a Hydrological Tech crew on problems in meadows, eroding stream crossings and stream banks, barriers to its passage, and non functioning culverts would be assessed by resource specialist to identify recommendations for mitigation. The resultant reports would provide information to complete of a series of NEPA documents for implementation of various mitigation measures. Such measures would include meadow rehabilitation, reparation of head cuts, installation of erosion control structures; improvements to trail tread drainage, installation or replacement of culverts on Level-2 roads and motorized trails, and restoration of non-system motorized tracks, among others.	NOE	
2011088341	Planning for Forest Road and Trails Parks and Recreation, Department of --Madera An environmental analysis must be completed in order to establish a motorized trail as part of the National Forest Transportation System. Currently "007" is a popular non-designated route accessing a diverse and connected system of roads, motorized trails, viewing areas and campgrounds. This project would develop an environmental analysis of the "007" Route in order to determine whether to designate it as a trail. The project would fund resource specialists to provide information to the District Ranger. The product would be a document that	NOE

	construction mitigation program that is being more consisting implemented by CEQA lead agencies; (2) Construction emissions are significantly lower than previously estimated, in part, because of the recent economic downturn; and (3) The mitigation rule adds administrative costs and new or increased fees that may be subject to Proposition 26.		
2011088357	Revisions to the Sacramento County Portion of CA's SIP to Remove Control Measures 412 and 471 Sacramento Metropolitan Air Quality Management District Sacramento--Sacramento Rules 412 (IC Engines) and 471 (Asphaltic Concrete) are proposed control measures which the District committed in the 2009 Sacramento Regional 8-Hour Ozone and Reasonable Further Progress Plan (Plan). These measures would have required installation of new equipment or upgrades of existing equipment. The following factors have led the District to remove these proposed control measures from the Plan. Recent impact of the economic downturn in the construction and development industry; and Reduced emissions and estimated emissions reduction potential from the control measures, which increased the cost effectiveness well beyond other measures.	NOE	
2011088358	Rule 459 - Automotive, Mobile Equipment, and Associated Parts and Components Coating Operations - Amended 08/25/2011 Sacramento Metropolitan Air Quality Management District Sacramento--Sacramento Rule 459 applies to coating, coating removal (stripping), surface preparation, and cleanup operations for automotive, truck or heavy equipment finishing or refinishing operations. It regulates the use and sale of coatings and solvents within the District. Manufacturers and suppliers of coatings and solvents are prohibited from selling materials that do not comply with this rule. The amendment will satisfy a State Implementation Plan (SIP) commitment to reduce Volatile Organic Compound (VOC) emissions from this source category.	NOE	
2011088375	Lemon Cove Safe Drinking Water Planning Study Lemon Cove Sanitary District --Tulare Project is developed to seek a new source of nitrate-free drinking water for the community of Lemon Cove. Project includes the drilling of up to three (3) test wells, sampling of groundwater, evaluation of potential well sites and design of production wells.	NOE

	(Approp. 15470) for repair and rehabilitation of capital projects costing less than \$250,000 identified during fiscal year 2011/2012, and delegates authority to the General Manager to efficiently execute the work. This program supports essential repairs and upgrades for facilities located throughout Metropolitan's conveyance/distribution system and treatment plants.		
2011088368	Live Oak Amphitheater San Diego, City of San Diego--San Diego The project proposes to redevelop an existing wooden gazebo and picnic area into a small multiuse amphitheater within Live Oak Park. The project also includes the construction of a wheelchair accessible pathway. The project will be centered on the developed footprint delineated by the existing park amenities, and will require minor grading.	NOE	
2011088369	Construct Curb Ramps, Sidewalks and a Retaining Wall Caltrans #3 Fort Bragg--Mendocino Caltrans proposes to construct curb ramps, sidewalks and a retaining wall on the north side of State Route 20. Presently no pedestrian facilities exist at this location. The project would provide safe access and would comply with Americans with Disabilities (ADA) requirements.	NOE	
2011088370	Geotechnical Studies for Seismic Retrofit Project Caltrans #3 Trinidad--Humboldt The project proposes to conduct geotechnical investigations to obtain data to be used in studies for seismic retrofits of the Westhaven Drive Undercrossing, Sixth Street Overcrossing, and Trinidad Road Undercrossing on U.S. Highway 101.	NOE	
2011088371	Goodwin Canyon Salmonid Spawning Gravel Replenishment Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Tuolumne The Goodwin Canyon Salmonid Spawning Gravel Replenishment Project proposes to add gravel for spawning habitat at an existing restoration site. At river mile 58 of the Stanislaus River 3,500 cubic yards of gravel will be added to the restoration site and distributed across the channel to create spawning and rearing habitat conditions. The gravel will be added to a 1.34 acre area within the Stanislaus River.	NOE	
2011088372	Antelope Lake-Lost Cove Boat Launch Facility Improvements Boating and Waterways, Department of --Plumas Department of Boating and Waterways (DBW) propose to construct various improvements at the Lost Cove Boat Launch Facility (BLF). The majority of the project is above ordinary high water (OHW) however DBW is also proposing to replace the existing substandard boat ramp. Department of Boating and Waterways (DBW) propose to construct various improvements at the Lost Cove Boat Launch Facility (BLF). The majority of the project is above ordinary high water (OHW) however DBW is also proposing to replace the existing substandard boat ramp.	NOE

2011088373	Pine Creek Ramp Repair Boating and Waterways, Department of --Butte The existing boat ramp is above ground help up by piles and girders. The girders are sagging, and the ramp has cracks and gaps. The existing precast panels have also shifted. Also, launching is not possible year round due to the inadequate length of the current ramp. The replacement ramp will be approximately 24 feet wide which is an increase of four feet over the existing ramp. The replacement ramp will be approximately 142 feet in length which is an additional 20 feet from the existing ramp. Minimal grading will be done for the ramp to achieve the correct slope. It is estimated that less than 10 cubic yards of material will be graded onsite. The replacement ramp will be constructed with precast panels and require 5 steel piles. A boarding float will also be installed on the ramp. Additional work (as well as a portion of the ramp) is above ordinary high water mark. The site is not ADA compliant and needs an ADA path of travel from the restroom to the top of ramp. A biological assessment was done for the project and recommendations in the assessment will be followed as necessary. Since this is an existing facility and the site was more heavily disturbed during initial construction, it is unlikely any cultural resources will be disturbed. Also, aside from the piles, construction will only disturb the surface layer of the ground. Anything buried in the project location will remain that way.	NOE	
2011088374	Shady Canyon Golf Club Fish & Game #1 Irvine--Orange Acquisition of 118.17 acres of land as mitigation for impacts to wildlife habitat.	NOE	
2011088376	187,000 - Gallon Replacement Storage Tank Public Health, Department of --San Diego The California Department of Public Health (CDPH), as the Lead Agency, will be issuing a water supply permit to Pine Hills Mutual Water Company for the replacement of an aged 187,000 - gallon water storage tank.	NOE

	connect the nodes within communities along the route. The cable would be installed underground within Caltrans right-of-way (ROW), County dirt roads, Nevada Department of Transportation ROW, and buildings within existing land use types zoned for utilities. The project requires no change in land use or zoning.		
2011082074	Altamont Solar Energy Center Alameda County --Alameda Cool Earth Solar, Inc. ("Applicant") proposes to develop a grid-connected utility-scale solar electrical facility (SEF) of up to 10 Megawatts within an initial phase (Phase 1) of 30 acres to produce 1.5 MW and 3,000 MWh of electricity annually and a second phase (Phase 2) to develop the remaining 110 acres with 8.5 MW SEF (20,000 MWh annually). The project site (17499 Kelso Road, Byron, CA), is 140 acres and consists of portions of two parcels: APN# 099B-7175-5-4 and 099B-7175-005-01. The Applicant would lease the proposed 140-acre project site for 30-years from the current owner.	MND	09/27/2011
2011081094	Downtown Main Library Riverside, City of Riverside--Riverside The proposed Project involves the demolition of the existing Downtown Main Library as well as removal of the existing open space plaza located in front of the library. A new and expanded Downtown Main Library anticipated at approximately 100,000 square feet will replace the existing Downtown Main Library building, parking and entry plaza area. The Project site is fully developed and currently occupied by a 61,420 square foot library and an approximately 32,000 square foot surface parking lot. The Downtown Main Library is typical of the New Formalism style of architecture. The Library is square and symmetrical in plan, sitting on a broad wide base, topped by a wide overhang of the flat roof that acts like a cornice with sculptural concrete screen, tan colored brick walls and still has the original light fixtures. The main (southwest facade is marked by a curved plate canopy over the entrance.	NOP	09/27/2011
2004052074	Mesa Park Ballfield Irrigation and Public Restroom Project Bolinas Community Public Utility District --Marin The Resource Recovery Center is a green waste/composting facility. The well currently is used to water compost at the Resource Recovery Center during dry months and to support an on-site small scale farming operation. The project will use water from this well to irrigate existing ballfields at mesa Park. Mesa Park is located on BCPUD lands, APN #193-020-45, 47 & 59, on the north side of Mesa Road, directly across the street from APN #193-030-38. The well is electrically powered through a connection to the Pacific Gas & Energy system. The 3 horse power well pump will distribute water through new 1-1/2" PVC piping to be installed as a part of the project along the existing, paved paths on APN#193-030-38 to a point of connection at the existing piping infrastructure, approximately 1,325 linear feet northeast of the well. This existing 1975 linear feet of piping infrastructure already is plumbed into water storage tanks at Mesa Park.	Neg	09/27/2011

1998052052	Pacific Herring Commercial Fishing Regulations Fish & Game Commission -- FYI - FINAL	FIN	
	<p>The proposed project is a body of regulations governing the commercial harvest of herring for roe products, bait, pet food, as fresh fish, and the harvest of herring eggs-on-kelp. The proposed project takes the form of recommendations for continuation, amendment, or change to an existing body of regulations in effect since December 9, 2010 (Section 163, and 164, Title 14, CCR). It also includes regulations from Section 163.1 (herring permit transfers) and 163.5 (penalties in lieu of suspension or revocation-herring permittees), Title 14, CCR that were adopted by the Commission on March 2006 and October 2002, respectively.</p>		
2010084002	San Clemente Shoreline Feasibility Study U.S. Army Corps of Engineers San Clemente--Orange The study area is encompassed within the City of San Clemente and extends approximately 3,412 ft. (1,040m) from Linda Lane to T Street. The Proposed Projects consists of dredging material from offshore Oceanside, then hauling and placing it at San Clemente Beach. The proposed Project is a 50 foot (15m) resultant beach width. Beach fill would be 3,412 ft. (1,040 m) long with a +17 ft (+5.2 m) crest elevation. The dredge volume is estimated to be approximately 251,130 cubic yards (192,000 m3). Construction is anticipated to begin in 2012.	FIN	09/28/2011
2010122021	McHenry Solar Farm Project Modesto Irrigation District Modesto--Stanislaus Note: 1 Notice FYI: Public Hearing Notice	FIN	
	<p>Solar Star California VIII, LLC (a wholly-owned subsidiary of the SunPower Corporation) proposes to construct, operate, and ultimately to decommission, a 25-megawatt alternating current (MW ac) photovoltaic (PV) electricity generating facility and associated infrastructure on a n approximately 157-acre site. The proposed project would generate and deliver solar-generated power to the Modesto Irrigation District (MID) subtransmission and distribution system. As part of the proposed project, MID is proposing to construct, own, and operate a switching station in a new switchyard to be located on the project site, as well as a new overhead 69-kilovolt (kV) subtransmission line and 12-kV distribution line that would interconnect the proposed solar facility to the existing MID electric system. The project would operate year-round, generating electricity during daylight hours.</p>

2000082002	<p>City of San Ramon General Plan 2030 San Ramon, City of San Ramon--Contra Costa City Council adopted Resolution No. 2010-083 which certified the EIR (SCH# 2000082002) and adopted a Statement of Overriding Considerations for the General Plan 2030 and Climate Action Plan. In January 2011, an Addendum to the General Plan 2030 EIR was prepared in accordance with Section 15164 of the CEQA Guidelines to address the proposed revisions to the General Plan 2030 and Climate Action Plan. Revisions to the Climate Action Plan (Plan) adopted July 19, 2010 include modifying the approved Plan to incorporate policy revisions and cross-references associated with the approval of San Ramon's General Plan 2030 (adopted April 26, 2011). Additional revisions include responses to comments from the Bay Area Air Quality Management District, an update of greenhouse gas inventory for the city, and other minor technical edits.</p>	NOD	
2009071013	<p>Grading and Stormwater Management Ordinance Revisions - EIR (LRP2008-00007) General Plan Amendment and Land Use Ordinance Amendments San Luis Obispo County San Luis Obispo--San Luis Obispo The CA DFG is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, ConocoPhillips, for the Nipomo Creek Corrective Action Project. The applicant proposes to excavate petroleum impacted soil and restore the creek channel, bed, and banks. The creek bottom will be excavated to a depth of 5 feet over a distance of ~332 feet along the channel. Approximately 1,400 cubic yards of soil will be removed from the creek banks to create a 2:1 slope. The bottom of the excavation will be lined with a 60-mil impermeable geomembrane liner and backfilled with cement slurry and an ~6 inch thick sand base (over the slurry) upon which 22,000 sf of ArmorFlex will be installed. The ArmorFlex lining the bottom of the creek channel will be covered with ~2 to 3 feet (500 cubic yards) of natural fluvial channel deposits removed from the creek bottom during excavation. Cutoff walls will be installed at each of the upstream and downstream ends to prevent undermining or the transport of foundation materials from beneath.</p>	NOD

2010052049	City of Dunsmuir Wastewater Collection and Treatment Improvement Project Dunsmuir, City of Mount Shasta--Siskiyou This Notice of Determination is for an Addendum to the IS/MND for the Dunsmuir Wastewater Collection and Treatment Improvement Project. The proposed project consists of replacement of sewer mains and laterals within existing paved roadways and improvements to the City's existing wastewater treatment plant to meet the requirements for waste discharge as set by the Regional Water Quality Control Board. The project is intended to serve the existing and planned needs of the City for municipal wastewater needs. The proposed project includes the replacement of ~2,500 linear ft of 6 inch to 10 inch sewer pipe. The WWTP is located on City-owned property within the unincorporated area of Shasta County. The project is intended to serve the existing and planned needs of the City for municipal wastewater needs. The proposed project includes the replacement of ~2,500 linear ft of 6 inch to 10 inch sewer pipe.	NOD
