

Programs Requiring Executive Order 12372 Review

This appendix lists programs requiring Executive Order (E.O.) 12372 review. E.O. 12372 “Intergovernmental Review of Federal Programs,” structures the Federal government’s system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

Grants from the following Federal Agencies have been selected for intergovernmental review:
