Dear Assistant Secretary Fowler:

The Governor's Office received the AB 900 Supplemental Information/Net Zero Energy Strategy for the Apple Campus 2 Project. After review, we find the supplemental information consistent with the original certification. All materials associated with the application are available online at [http://opr.ca.gov/s\\_californiajobs.php](http://opr.ca.gov/s_californiajobs.php). Public Review on the supplemental information closed on May 16, 2013, OPR received no public comments on the supplemental information. In addition, ARB reviewed the supplemental information and concluded that their original determination that the Apple Campus 2 Project will not result in any additional GHG emission relative to the baseline remains valid.

Please contact Scott Morgan with the Governor's Office of Planning and Research if you have any further questions regarding your application. [scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) or (916)-445-0613.

Sincerely:

  
Scott Morgan  
Deputy Director
