# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1-15, 2008**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Tuesday, April 01, 2008</u></b>			
2006091037	<p>Merced County Enterprise Zone Merced County Atwater, Dos Palos, Gustine, Livingston, Los Banos, Merced--Merced</p> <p>The project would re-establish the Enterprise Zone in portions of Merced County and in certain areas within the cities of Atwater, Dos Palos, Gustine, Livingston, Los Banos, and Merced that are considered to be disadvantaged areas (i.e., high unemployment and low-income). The project objective is to generate new private sector economic growth in disadvantaged areas of Merced County and the cities of Atwater, Dos Palos, Gustine, Livingston, Los Banos, and Merced by providing access to a variety of incentives for increased employment and business investment within those areas.</p>	EIR	05/15/2008
2007011110	<p>River Supply Conduit Improvement - Upper Reach Los Angeles City Department of Water and Power Los Angeles, City of, Burbank--Los Angeles</p> <p>The LADWP proposes to construct a new larger pipeline to replace the upper reach of the existing River Supply Conduit (RSC) pipeline in a new alignment. The proposed pipeline would involve the construction of approximately 31,300 linear feet of 78-inch diameter welded steel underground pipeline, and would also include construction of appurtenant structures (e.g., maintenance/access holes, regulator station, flow meters, valves, and vaults). Construction would occur within existing street rights-of-way, easements, and recreation areas within the Cities of Los Angeles and Burbank.</p>	EIR	05/15/2008
2008011112	<p>Redevelopment Plan for the Proposed North Redlands Revitalization Project Redlands, City of Redlands--San Bernardino</p> <p>The Agency is proposing the adoption of the Redevelopment Plan for the Proposed North Redlands Revitalization Project to help revitalize neighborhoods, upgrade public facilities and infrastructure, promote and facilitate economic development and job growth, and provide additional affordable housing opportunities for qualifying persons/families in the project and the surrounding community. Working with the community to help achieve these objectives, Agency activities could include, but not necessarily be limited to the following: construction and/or rehabilitation of structures; infrastructure upgrades for wastewater, drainage, water and circulation systems; community facilities improvements; economic development; and affordable housing projects and programs. While not proposed as specific projects at this time, these actions are possible activities that may be undertaken with the project over the 30-year effective life of the Plan.</p>	EIR	05/15/2008
2008022024	<p>City of Oroville General Plan Update Oroville, City of Oroville--Butte</p> <p>The General Plan provides the fundamental basis for the City's land use, development and conservation policy, and represents the basic community values, ideals and aspirations that will govern the City's growth through 2030. This General plan addresses all aspects of development, including: land use, community character, circulation and transportation, open space, natural resources and conservation, public facilities and services, safety, and noise.</p>	EIR	05/15/2008

1991033042	Redwood Landfill, Inc. Revised Solid Waste Facilities Permit Marin County The project consists of a revision to the existing Solid Waste Facilities Permit (SWFP), Waste Discharge Requirements (WDRs), Permit to Operate (PTO), and other permits, that would authorize Redwood landfill, Inc., the project applicant, to make certain changes in landfill capacity, design, operations, environmental controls, and infrastructure at Redwood Landfill, its existing Class III sanitary landfill in northeastern Marin County.	<b>FIN</b>	
2008041006	Interstate 405 at Wilmington Avenue Improvement Project Caltrans #7 Carson--Los Angeles The California Department of Transportation (Caltrans) and the City of Carson (City) propose to widen the existing on- and off-ramps of I-405 and Wilmington Avenue interchange; add a new northbound on-ramp; and widen Wilmington Avenue and 223rd Street in the City, within the County of Los Angeles. These improvements are needed to alleviate the traffic congestion that occurs on Wilmington Avenue, on the I-405 ramps, and at the Wilmington Avenue/223rd Street intersection. The proposed project is located approximately 3.4 miles south of the I-405/I-110 interchange and 2.0 miles north of I-405 and I-710 interchange. The intersection of Wilmington Avenue/223rd Street is located approximately 500 feet south of the I-405/Wilmington Avenue interchange.	<b>JD</b>	04/30/2008

2008042008	07-13 Vesting Tentative Parcel Map and 07-14 Conditional Use Permit Ceres, City of Ceres--Stanislaus Proposal to subdivide 16.54 +/- acre parcel into 10 parcels and the development of two three-story hotels that total 162 rooms with 25,955 square feet of restaurants/retail space/gas station in six buildings in two phases.	<b>MND</b>	04/30/2008
2008042010	Deer Creek Tribute Trail and Restoration Project Nevada City Nevada City--Nevada Creation of an 8-mile multi-use trail offering a cultural/ecological greenway along the Deer Creek Corridor, on property located within the jurisdictions of Nevada County and City of Nevada City. The Trail will provide access to public lands, link existing trails and roadways and features. The project will enhance riverine and floodplain function and create wetland/riparian habitat along Deer Creek, and removal of non-native invasive species on approximately 40 acres along Deer Creek.	<b>MND</b>	04/30/2008
2008041002	Merced Gateway Park East Merced, City of Merced--Merced The applicant proposes to develop an approximately 704,800 square foot commercial retail center development on approximately 72 acres in the City of Merced. No specific tenants have been identified. The future Campus Parkway would bisect the site northeast to southwest. The northwest site contains approximately 46 acres and would ultimately be developed into 437,200 square feet of commercial uses. The southeast site contains approximately 26 acres and would be developed into approximately 267,600 square feet of commercial uses.	<b>NOP</b>	04/30/2008
2008041007	South Region High School No. 8 Los Angeles Unified School District Maywood--Los Angeles LAUSD is proposing to construct and operate a high school, known as the South Region High School No. 8 project, in LAUSD Local District 6 in the City of Maywood. The proposed project is intended to relive overcrowding at the nearby Bell High School. The proposed project would provide a neighborhood high school on a single-track, two-semester calendar, and would accommodate 1,215 two-semester seats for grades nine through twelve. The proposed facilities would involve approximately 126,328 square feet of new building development, including 45 classrooms contained in multiple single-to three-story buildings, a multi-purpose room, library/media center, food services, administration offices, and a multipurpose field.	<b>NOP</b>	04/30/2008
2008041009	University of California (UC) Merced and University Community Plan, UC Merced Phase 2 Campus University of California, Merced Merced--Merced The proposed project consists of the development of a major research university in Merced County that will support up to 25,000 full-time equivalent students and an associated community. In 2002, the University of California prepared and certified an Environmental Impact Report (EIR) that evaluated the environmental impacts from the approval and implementation of a Long Range Development Plan (LRDP) for the development of a major research university in Merced County. Since then, the plan has changed and the amended plan must be reviewed for compliance	<b>NOP</b>	04/30/2008

<b><u>Documents Received on Tuesday, April 01, 2008</u></b>			
2007082101	Bidwell Park Apartments Chico, City of Chico--Butte The proposed project would result in the removal of the existing mobile home park and the subsequent construction of an affordable rental housing community. The multi-family apartment community would be comprised of 38 rental units. To implement the project requires City Council approval of a General Plan Amendment/Rezone, planned development permit (to authorize modifications to development standards, and authorize the project's architectural design), a development agreement to authorize a housing density bonus, and a purchase agreement with City's Redevelopment Agency.	<b>NOD</b>	
2007082161	East End Gateway Site 1 Project Capitol Area Development Authority Sacramento--Sacramento The project would develop a total of 125 residential units and ~5,040 sf of commercial retail space. The project site currently contains an apartment building and paved parking lot and associated landscaping. The apartment building and parking lot would be demolished, although, if feasible, a portion of the apartment building would be relocated. The project building would be 5 stories tall on the western half and 15 stories tall on the eastern half.	<b>NOD</b>	
2007121083	Well 6808-1 Coachella Valley Water District --Riverside The Well 6808-1 project site includes a 0.75-acre site for the proposed well, pumping plant, and detention basin as well as a 30-foot wide, 1,325-foot long easement along Hernandez Lane (dirt road) that extends north to Airport Boulevard. About 1,300 feet of 12-inch water transmission pipeline and a gravel access road will be constructed within the easement. An existing residential structure constructed of cement block and stucco is located along the Hernandez Lane easement about 150 feet south of Airport Boulevard. This structure will be demolished as part of the well construction activities. In order to connect Well 6808-1 to the existing domestic water system, about 1,400 feet of 18-inch water transmission pipeline will be constructed within the Airport Boulevard right of way (Riverside County right of way) that will extend from Hernandez Lane eastward to Apollo Lane. Project construction includes drilling, casing, testing, and developing a 2,000-gallon-per-minute (gpm) domestic water well and pumping plant to the domestic water distribution system. A six-foot masonry wall will be constructed around the 0.75-acre well site. The purpose of the Well 6808-1 project is to provide additional domestic water service and fire flow to the Thermal Pressure Zone which includes the Thermal area. Well 6808-1 will also supplement water supplies to the Salton City area in future years.	<b>NOD</b>	
2007121085	Aquifer Storage and Recovery Well 4-70 and 4-71 and Transmission Project Los Angeles County Department of Public Works Lancaster--Los Angeles The proposed project would install subsurface transmission and supply pipelines and two additional ASR wells in the Antelope Valley Groundwater Basin to ensure a reliable water supply during summertime peak demands for existing users within the Los Angeles County Waterworks District No. 40, Antelope Valley service area.	<b>NOD</b>

2007121089	Ridge Creek Drive Subdivision; TM 5469, Log No. 05-02-043 San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is a residential subdivision which would create 14 lots on a 32.96-acre lot. The site contains an existing residence that would be removed. Access would be provided by a private road connecting to Ridge Creek Drive (private road), Ridge Drive (private road) and Live Oak Park Road (public road). The project would be served by on-site septic systems and imported water from the Fallbrook Public Utility District. Earthwork will consist of cut and fill of 44,842 cubic yards of material. The project includes off-site improvements to Ridge Creek Drive.	<b>NOD</b>	
2007122080	Wise Road/North Ravine Bridge Replacement Placer County Auburn--Placer Replacement of bridge and realignment of approaches.	<b>NOD</b>	
2008011028	Hobbs Minor Subdivision; TPM 20985, Log No. 05-01-006 San Diego County Department of Planning and Land Use Fallbrook--San Diego The proposed project is a two-lot split of a 4.31-acre parcel into two lots of 2.05 and 2.29 acres, respectively. An existing residence will remain on the southern lot. Proposed development will include a new single-family residence on the northern lot with grading for the residential pad, driveway and utility extensions. The property was previously subdivided under TPM 19996 and approved April 27, 1993. TPM 19996 divided a 6.59-acre parcel into two parcels of 2.0 and 4.6 gross acres respectively. A steep slope easement was placed over the central portion of the property that was under avocado cultivation.	<b>NOD</b>	
2008012045	Rumrill Boulevard Bridge Replacement Project (PW-442) San Pablo, City of San Pablo--Contra Costa Construction of a new 5-lane, 84' wide, replacement bridge on Rumrill Blvd. over San Pablo Creek. The bridge will have two northbound and two southbound lanes, with one southbound left-turn lane, and bicycle lanes.	<b>NOD</b>	
2008012076	2008 Pipeline Project Patterson Irrigation District Patterson--Stanislaus The project will consist of the design and construction of a new pipeline to provide irrigation water service to lands within PID as well as Del Puerto Water District located to the west of PID. The pipeline will originate at the west end of PID's Main canal, or in PID's Lateral 5-South, and terminate at the Delta Mendota Canal, either at Ward Avenue or Marshall Road. The pipeline will be a 30 to 36" PVC irrigation water line and will be buried along its length.	<b>NOD</b>	
2008014001	Temporary Water Acquisition for the East Bear Creek Refuge Unit - Water Years 2008-2010 U.S. Bureau of Reclamation -- The proposed action consists of Reclamation purchasing up to ~8,863 acre-feet of water per year (through February 28, 2011) from the District to meet refuge water needs at the East Bear Creek Unit of the San Luis National Wildlife Refuge Complex. In addition, ~100 AF of water would be used for testing the newly construct East Bear Creek pumping plant in the spring of 2008.	<b>NOD</b>

	the FDC, along with administrative offices, maintenance and fueling facilities, infrastructure, and a surface parking lot; 3. Lot Merger consolidating the existing parcels into fewer parcels; and 4. Development Agreement.		
2008022053	Lodi Community Improvement Project Lodi, City of Stockton--San Joaquin The project involves the adoption and implementation of the Lodi Community Improvement Project, encompassing approximately 2,407 acres. The Project Area is generally located east of Sacramento Street to the eastern border of the City, with some areas extending west to Ham Lane.	<b>EIR</b>	05/16/2008
2007022043	Power Line-Elkhorn Substation Capacity Expansion Project Sacramento Municipal Utility District --Sacramento The proposed Power Line-Elkhorn substation capacity expansion project would increase the footprint of the Power Line-Elkhorn substation by approximately 0.5 acre (from approximately 0.62 acre to approximately 1.12 acres). The proposed project would replace a 3.75 mega volt-amperes (MVA) transformer with a 25 MVA transformer, and a 12.5 MVA transformer with a 25 MVA transformer, thus increasing the capacity of the substation from 16.25 to 50 MVA. Additional improvements include a 69,000-volt (69-kV) bus structure and three 69-kV circuit breakers, new switchgear, new cement slabs for the equipment and grounding, and fencing to encompass the footprint of the substation. The existing 69-kV pole line would remain. Reconductoring would occur to increase ampacity for the capacity increase. Additionally, five new 12,000-volt (12-kV) feeders would be added (totaling eight 12-kV feeders), and the existing 69-kV pole arrangement to the transformers would be replaced. The existing substation site is connected to the Elverta Circuit #1 and the Natomas Circuit #2 existing overhead (69-kV) lines with SMUD's subtransmission grid system.	<b>FIN</b>	
2008041011	Amendment of Conditional Use Permit 1671 El Cajon, City of El Cajon--San Diego The applicant's request is to expand the size of the transfer station where solid waste is transferred and where recyclables will be removed from the waste stream and to construct a 64 square foot scale house building. The existing transfer station is 25,370 square feet. The applicant is proposing to demolish portions of the existing structure and to then add approximately 19,800 square feet to the transfer station. The expanded transfer station will be approximately 39,750 square feet. The expanded facility will include a construction and demolition debris (C & D) sorting line. The C & D sorting line will facilitate the diversion of recyclable materials from landfills. The sorting line may also be used to remove recyclable materials from waste streams other than construction and demolition debris.	<b>MND</b>	05/01/2008

	5,871 square foot dental office, a 482 square foot Department of Social Services office, a 972 square foot computer lab, a 3,266 square foot library, and a 3,675 square foot future tenant space. A second 6,693 square foot single-story building will house a preschool. The project also includes an outdoor play area, 90 parking spaces, and a drop off area.		
2008042014	PG&E Pipeline 131 Replacement Project at Marsh Creek Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Contra Costa The proposed project is the replacement of approximately 1,400 feet of the existing PG&E Line 131 natural gas pipeline including a crossing at Marsh Creek. The project has been designed to minimize ground disturbance, for example by using horizontal directional drilling (HDD) instead of using an open cut installation method to cross Marsh Creek. No changes in operation of Line 131 are planned. Construction is expected to start in July 2008 and take approximately 4 to 5 months to complete, including site preparation, earthwork, pipe removal, and revegetation.	<b>MND</b>	05/01/2008
2007071065	San Jacinto River Levee Stage 4 Project San Jacinto, City of San Jacinto--Riverside The proposed project includes the construction, operation and maintenance of a new levee approximately five miles in length and located directly south of the existing levee, from upstream (southeast) of State Street to downstream (northwest) of Sanderson Avenue. The project also includes construction, operation, and maintenance of a desiltation basin approximately 150 acres, located at the downstream end of the project. The project will include reinforcement of segments of the northern levee with additional armoring and treatment under State Street Bridge to utilize the full hydraulic capacity of the bridge. The project will increase channel capacity within project area up to a 100-year event, alleviating flooding and disruption of traffic circulation of Ramona Expressway, State Street, and Sanderson Avenue, and flood water contact with diary and other wastes.	<b>NOP</b>	05/01/2008
2008041015	San Diego Consortium for Regenerative Medicine (SDCRM) Project University of California, San Diego La Jolla--San Diego The SDCRM proposes to construct a 135,000 sf research building that would consist of four levels of research laboratories, offices, and educational facilities. The site would also include 426 parking spaces and 2.5 acres of landscaping.	<b>NOP</b>	05/01/2008

<b><u>Documents Received on Wednesday, April 02, 2008</u></b>			
2007082169	Laguna Ridge Town Center Elk Grove, City of Elk Grove--Sacramento The project proposes a General Plan Amendment, Specific Plan Amendment, and Rezone to enlarge the Town Center commercial area in the Laguna Ridge Specific Plan area. These actions would allow for an additional 23.2 acres of commercial lands for a total of 79.7-acre project site. This change would result in a rezone of 11.8 acres of Single-Family/10 dwelling units per acre and 12.5 acres of Medium Residential/15.1-20 dwelling units per acre. Additionally, Multi-Family Residential/20-25 dwelling units per acre zoning will be increased by 1.1 acres.	<b>SIR</b>	05/16/2008
2005042133	Yuba City WTP 24 to 30 MGD Water Supply Replacement Yuba City Yuba City--Sutter The proposed project would increase the capacity of existing City water supply facilities to meet increased customer demands, including the replacement of groundwater supplies to Region 5 Tierra Buena service area. The City would divert additional surface water under existing water rights contracts from the Feather River through its existing pump station and water treatment plant (WTP). To ensure water service reliability through 2006, pump station and WTP capacity would be increased from 24 mgd (37 cfs) to 30 mgd (46 cfs) by: (1) Installing new pumps and upgrading other facilities within the existing pump station; (2) installing a new 42-inch pipeline from the pump station to the WTP; and (3) modifying facilities within the existing WTP site and new construction of a 4 million gallon clearwell, membrane basins and flocculation basin. No other facilities upgrades, actions, or operations are proposed as part of the Water Supply Replacement Project.	<b>NOD</b>	
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Yuba Zone 7 Water Agency has entered into an agreement with the CA Dept. of Water Resources to purchase water transfer supplies from Yuba County Water Agency. The agreement would provide Zone 7 with 1,170 acre-feet to 1,360 acre-feet per year of water supplies over the next 8 years.	<b>NOD</b>	
2007031089	Line Section 111 Washout Repairs Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert Palm Springs--Riverside CDFG is issuing an Incidental Take Permit to Kinder Morgan Energy Partners, L.P. (KMEP) who is proposing to re-cover two exposed areas (Area 1 and Area 2) of the pipeline and install permanent structures that will protect the pipeline from erosion caused by future storm events. KMEP proposes to install Flexible Concrete Revetments at both washout locations. The proposed FCR structures will either consist of biodegradable bags filled with a sand/cement mix that, when hydrated, becomes solid concrete, or will be installed as an intact solid concrete structure.	<b>NOD</b>

2008042015	<p>Santa Rosa Junior College Culinary Arts Center Sonoma County Junior College District Santa Rosa--Sonoma</p> <p>The new Culinary Arts Center is proposed to be located on the east side of Mendocino Avenue across from the main campus on APNs 180-460-002, 003, 020, and 021 (1652 Mendocino Avenue). A conceptual design has been prepared by BSA Architects for an approximately 27,000 square foot two-story building. However, it is anticipated that the building will be reduced to approximately 20,000 square feet and remain two stories. Parking on the two parcels fronting Carr Avenue will be retained. The Culinary Arts Center will be constructed on the parcel currently used for parking that fronts Mendocino Avenue and the parcel with the green building north of the parking lot.</p>	<b>CON</b>	05/01/2008
2008041016	<p>Deployment of Z Backscatter Screening Systems San Ysidro Port of Entry U.S. Customs and Border Protection --San Diego</p> <p>The proposed action is for Customs and Border Protection to field and operate one Z® Backscatter Van™ (a mobile Z® Backscatter Screening System) and one Z® Portal™ (a stationary Z® Backscatter Screening System) at the San Ysidro Port of Entry. All vehicles directed from primary inspection lanes to secondary inspection areas will be screened by the Z® Backscatter Screening Systems. The images created by this X-ray technology will be scrutinized by CBP Officers for the presence of contraband as well as for persons attempting to illegally enter the country by hiding within a vehicle.</p>	<b>EA</b>	05/02/2008
2006031049	<p>Hidden Creeks Estates Los Angeles City Planning Department Los Angeles, City of--Los Angeles</p> <p>The project, which is located immediately northwest of the Porter Ranch community in the northwestern portion of Los Angeles County, would involve the construction of 188 single-family residential lots, including 25 equestrian residential lots, a 15.5-acre public park and 15.8-acre equestrian facility on 158 acres of the site. The remaining 127 acres of the site would be preserved as open space. Primary access to the project site would be provided via an extension of Mason Avenue and secondary access would be provided by Browns Canyon Road.</p>	<b>EIR</b>	05/19/2008
2007041094	<p>Trancas Canyon Community Park Malibu, City of Malibu--Los Angeles</p> <p>The proposed project involves the development of an approximately 13.5-acre community park project on five undeveloped, residentially zoned lots at the west end of the Malibu West residential subdivision. The proposed park would include a multi-use sports field as well as a picnic area, tot-lot/playground, and dog park, restrooms and a 64-space parking area. The total improved area would be approximately seven acres, the remaining approximately 6.5 acres would generally be left in existing vegetation and topography. Access to the site would be taken from Trancas Canyon Road, park hours would be 8:00 am to sunset; lighting would include interior lighting for the buildings and security lighting around the buildings and in the parking areas. Approximately 54,615 cubic yards of cut and 51,913 cubic yards of fill, 2,700 cubic yards of material.</p>	<b>EIR</b>	05/19/2008

<b><u>Documents Received on Thursday, April 03, 2008</u></b>			
2007121125	Schabbell Lane Improvement Project Inyo County --Inyo The proposed project would enhance the drainage abilities of Schabbell Lane through replacement of 14 culverts and to repave the road. The proposed project would improve 1.25 miles of Schabbell Lane.	<b>FIN</b>	
2008041018	Garnet Mine-Granite Construction Remediation of Coachella Valley Water District Property Coachella Valley Water District Palm Springs--Riverside The project consists of reclamation work on CVWD property to remove soil stockpiles and scattered concrete debris in accordance with the approved reclamation plan. This will include removal of soil and over burden stockpiles from the river channel, placing fill into a small excavated pit located on the northern boundary of the project site, outside of the OHWM of the Whitewater River Channel, and recontouring areas to site grade within the approximate eight acre area of the 25.75-acre project boundary. Other rehabilitation activities that will take place within this site include the removal of 500 linear feet of an existing earthen berm extending along the southeast corner of the site, and the smoothing of a corner of the existing berm located at the southwest corner of the Garnet site (a separate site located directly north of this project). These activities are designed to improve the overall functional capacity of the Whitewater River channel.	<b>MND</b>	05/02/2008
2008041020	Chatsworth Reservoir Wetland and Riparian Mitigation Program Los Angeles City Department of Recreation and Parks --Los Angeles BFI proposes to establish an approximate 44-acre conservation easement within DWP's Chatsworth Reservoir property to mitigate for the loss of riparian and wetland habitats resulting from its Sunshine Canyon Landfill Closure and Extension projects near Sylmar, California. The Chatsworth Reservoir property covers approximately 1,318 acres, about 410 acres of which comprises the former water supply reservoir; the remaining acreage consists largely of surrounding undeveloped land. The conservation easement area would be located immediately to the west of the reservoir levee and would contain both riparian and wetland habitats, approximately seven acres of which are existing, and approximately 37 acres of which will be created and restored by BFI in compliance with its regulatory permitting requirements.  BFI will compensate DWP for the right to use a portion of the reservoir property to create the 44-acre conservation easement area. DWP will transfer the conservation easement area to RAP to ensure its preservation in perpetuity. In addition, up to 96 acres of adjoining reservoir property will also be transferred to RAP for open space and potential future public parkland. Once the restoration plan, conservation and land transfer are approved, BFI will initiate restoration activities within the conservation easement area and maintain and monitor it for five years, providing progress reports during this period to the U.S. Army Corps of Engineers (Corps) and the California Department of Fish and Game (CDFG). Once BFI receives written approval from these agencies that their mitigation commitments and permit requirements have been met, the conservation easement area will then be maintained by RAP. At this time RAP plans to maintain the property in its natural state; there are no plans to open the area to public access.	<b>MND</b>	05/02/2008

2008042016	Vineyard Creek Improvement Project Marin County Novato--Marin The Vineyard Creek Channel Enhancement Project will be undertaken to meet the following objectives: improve fish passage and habitat restoration, increase and maintain flood conveyance, stabilize incised and eroding banks, improve water quality, and promote an ecologically healthy riparian corridor. The project will improve flood conveyance and fish habitat and passage within the project reach. Creek corridor modifications will include replacing the culverts at the Center Road crossing with a free span bridge or bottomless arch culvert, providing modifications to the bed and bank to eliminate erosion risks to adjacent properties and improve water quality, promoting active channel conveyance of both water and sediment and providing improved low- and high-flow fish passage, improved water flow channel from and enhanced in-stream habitat. The riparian corridor will be replanted to provide a low density native under-story, "soft" bank erosion protection (where possible) and increase canopy.	<b>MND</b>	05/02/2008

2008041027	MacArthur Park Elementary School Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project consists of the construction and operation of an addition to the existing MacArthur Park Primary Center campus. Approximately 35,000 square feet of new space will be added to the existing 15,000 square feet of the MacArthur Park Primary School Campus. Classrooms, a multi-purpose building, library, food services building with a food shelter, playfield, and an underground parking structure will be built. The proposed project will provide 400 new seats to the existing 250 seat campus and will add 16 new classrooms to the existing 10 classrooms. The school will serve kindergarten through fifth grade and is scheduled to open during the third quarter of 2012. The school will be on a two semester calendar and will be open during normal business hours (8:00 am to 5:00 pm), with potential evening civic center uses.	<b>NOP</b>	05/05/2008
2008041024	Panama-Buena Vista Union School District Proposed District Office Panama-Buena Vista Union School District Bakersfield--Kern The proposed new District Office is required primarily due to insufficient room at the current District Office facility, which is located to the north of the proposed project site across Schirra Court (4200 Ashe Road). The proposed District Office will be approximately 20,000 square feet in size, will accommodate approximately 45 employees, and will contain offices, a clerical area, a boardroom, workrooms, a small training area, and an adjacent 141-space parking lot.	<b>Neg</b>	05/05/2008
2008041025	Historic Context Statement Update Carmel-by-the-Sea, City of Carmel-by-the-Sea--Monterey Consideration of an update to the City's Historic Context Statement. The Historic Context Statement is a tool used to assist in the evaluation of cultural and/or archaeological resources. The current Context Statement covers the City's history through 1940. The updated Statement will include updating it to include the period of 1940 through 1965.	<b>Neg</b>	05/05/2008
2008041029	Bikeway Master Plan Carlsbad, City of Carlsbad--San Diego The Carlsbad Bikeway Master Plan provides a blueprint for bicycle transportation and recreation in the City of Carlsbad. The Bikeway Master Plan will enhance and expand the existing bikeway network, connect gaps, address constrained areas, improve intersections, provide for greater local and regional connectivity, and encourage even more residents to bicycle. The Bikeway Master Plan provides for an updated system of Class I bike paths, Class II bike lanes, and Class III bike routes, identifies necessary support facilities such as bicycle parking, and recommends a variety of programs to allow for safe, efficient and convenient bicycle travel within Carlsbad and connecting to regional destinations.	<b>Neg</b>	05/06/2008
2008041031	Municipal Water Well #37 Project Madera, City of Madera--Madera The proposed well site would encompass approximately one acre and include the following design components: construction of municipal water well and related facilities, construction of pump house enclosing well, site specific concrete block wall, site specific chain link fence six feet tall surrounding the site, site specific	<b>Neg</b>	05/06/2008

	landscaping around the facility, and night lighting around the well site.		
2008042019	Pine Grove Resort Expansion Lake County --Lake The applicant proposes the renovation and reconstruction of the Pine Grove resort on a 30-acre property. The plan includes a 500 seat theater pavilion, 108 cottages, full service spa, renovated recreation hall and micro brewery, and nature trails. This project is proposed as a fractional time share. Kelsey Creek runs north through the east side of the property. The development is to be completed in phases over an undetermined time by the applicant. There are currently 25 cabins, 36 mobile homes, and 17 RV sites at the resort. A wastewater management plan, Northern Spotted Owl assessment, traffic impact analysis, botanical resources report, habitat assessment, bat habitat assessment, wetland delineation, archaeological survey, and forest management report have been prepared for the project. The applicant is also proposing structures that exceed the height limit in the base zoning districts which limit structures to 35 feet in height. Project structures are proposed at between 41 feet and 46 feet in elevation to achieve steep roof pitches and loft units that are in the character of an alpine architectural theme. Twenty-five special events per year are proposed.	<b>Neg</b>	05/05/2008
2008042022	Marterie Subdivision PLP07-0043 Sonoma County Permit and Resource Management Department --Sonoma The project includes a Precise Development Plan Amendment (Use Permit), Coastal Permit and Minor Subdivision application to subdivide an approximately 4.5 acre parcel into three residential parcels, with the following lot sizes: Lot 1 = 1.17 acres, Lot 2 = 1.42 acres, Lot 3 = 1.87 acres.	<b>Neg</b>	05/05/2008
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Rezoning to Planned Development Zone as described in Section II.C of the Master EIR for the City of Modesto's General Plan. The application is to rezone two adjacent parcels under the same ownership from "C-1" Neighborhood Commercial and "C-2" General Commercial into one Planned Development Zone to allow for the construction and use of a 3,360 sf warehouse addition to an existing 11,340 sf home flooring and furnishings retail building. The warehouse is to be used exclusively by the existing retail business as an inventory storage area.	<b>NOD</b>	
2002112123	Revise Draft Environmental Impact Report for Tuscany Hills Calaveras County --Calaveras CDFG is executing Lake or Streambed Alteration Agreement Number 1600-2008-0045-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Hix Rubenstein Companies dba Red Mountain Resorts, LLC. The project consists of a residential (housing) development and 18-hole golf course within an 1113 acre parcel. The project involves work adjacent to Lake Tulloch, including a boat ramp, dry boat storage facility, marina, beach club and a general use building.	<b>NOD</b>

	replace it with a 60" by 30' culvert with rock riprap at the outlet.		
2007082070	Maxwell Public Utilities District Treated Effluent Reuse Project Maxwell Public Utilities District --Colusa The State Water Resources Control Board is processing Petition WW-48 to change the point of discharge and purpose of use of treated effluent. The District has historically been discharging treated effluent from its Wastewater Treatment Facility to an agricultural ditch that flows into an Unnamed Stream thence Lurline Creek. The change petition proposes to discontinue the treated effluence surface water discharge of 0.31 cubic foot per second and instead direct the treated wastewater to an offsite storage pond to recycle for beneficial use.	<b>NOD</b>	
2007082099	Truckee River Canyon Road and Culvert Rehabilitation Project Caltrans #3 Truckee--Nevada, Sierra Caltrans is proposing a pavement and culvert repair project. The project proposes to remove and replace the existing pavement with Portland Concrete Cement pavement, replace metal beam guardrails, replace the existing median barrier, and rehabilitate drainage systems as necessary. Highway runoff under the westbound lanes will be intercepted along the base of the cut slopes with drainage ditches as needed. Water quality will be improved by construction of sand vaults in upland areas and by permanent erosion control measures.	<b>NOD</b>	
2007102017	Dennis Lane Subdivision Santa Rosa, City of Santa Rosa--Sonoma Subdivide two acres into 16 lots, and construct 16 single-family residences on the newly created lots. The proposal includes a request to rezone the property from RR-20 (Rural Residential) to R-1-6 (Single-Family Residential). In addition, there is a request for a Conditional Use Permit to allow a small lot subdivision (smaller lots than permitted in the R-1-6 zone), lot sizes ranging from 3,672 square feet to 5,833 square feet.	<b>NOD</b>	
2007102140	Nurserymen's Exchange Re-Zone - PDP-029-06 Half Moon Bay, City of Half Moon Bay--San Mateo The rezoning/General Plan Amendment portion of the project includes a 7.8 acre site that was used as a potted plant nursery and a 0.51 acre site that currently has a single-family residence. The second piece of the project includes converting the former nursery parcels into a campground/RV Park. There are currently no plans to convert the site with the single family residence to some other type of use.	<b>NOD</b>	
2008012107	2006-47 GPA, ZA, TSTM, CUP for Murphys Oaks Calaveras County Planning Department Murphys--Calaveras Tentative Subdivision Tract Map, a General Plan amendment, a rezone and a Conditional Use Permit on a 14.44+/- acre parcel. A General Plan Amendment to change the Murphys-Douglas Flat Community Plan from Commercial to Single Family Residential for ~14.44 acres. A Zoning Amendment to change zoning from C2 (General Commercial) to R1-10,000 for ~14.09 acres and PS (Public Service) for 0.35 of an acre. A Tentative Subdivision Tract Map to divide the property into 46 residential lots and two public facilities lots.	<b>NOD</b>

	almond related products in addition to various dried fruits, fruit preservatives, and sauces.		
2006121105	<p>Proposed Amendment No. 5 to the Redevelopment Plan for the Merged City of Dinuba Redevelopment Project and the Dinuba Redevelopment Project No. 2 Dinuba Redevelopment Agency Dinuba--Tulare</p> <p>The Dinuba Redevelopment Agency is proposing the adoption of Amendment No. 5 to the Redevelopment Plan for the Merged City of Dinuba Redevelopment Project and the Dinuba Redevelopment Project No. 2 for the sole purpose of adding territory to the Merged Project to help eliminate blight, upgrade public facilities and infrastructure, promote and facilitate economic development and job growth, and provide additional affordable housing opportunities for qualifying persons/families in the Amended Merged Project Area and the surrounding community. To help achieve these objectives, Agency activities could include, but not necessarily be limited to the following: construction and/or rehabilitation of structures; infrastructure upgrades for wastewater, drainage, water and circulation systems; community facilities improvements; economic development and affordable housing projects and programs. While not proposed as specific projects at this time, these actions are possible activities that may be undertaken within the Amended Merged Project Area over the 30-year effective life of the Amendment.</p>	<b>EIR</b>	05/21/2008
2007041105	<p>Downtown Specific Plan Santa Maria, City of Santa Maria--Santa Barbara</p> <p>Detailed guidelines and regulations for long-term development within Downtown Santa Maria.</p>	<b>EIR</b>	05/21/2008
2007092025	<p>Fieldcrest Villages Project Fairfield, City of Fairfield--Solano</p> <p>The project applicant proposes to develop 394 single-family homes within two villages on the project site. In 1994, the proposed development of 394 units had a previously approved Tentative Subdivision Map and Development Agreement supported by a Mitigated Negative Declaration. For the project under review, extensive grading (approximately 4.4 million cubic yards) is required due to past landslide activity, and would be balanced on site. After grading, approximately 29% of the project site (76.5 acres) would be developed and the remainder (190.5 acres) would be maintained as open space. Vehicular ingress and egress from the project site would be provided via Redtop Road through a new signalized intersection proposed as part of the project, which would be the only entrance to the project site. A second point of emergency vehicle access would be provided through an access route that originates on Oakbrook Circle. No public vehicular access would be allowed on this emergency vehicle access.</p>	<b>EIR</b>	05/21/2008

<b><u>Documents Received on Monday, April 07, 2008</u></b>			
	which the LVMWD has no easement. The proposed Project would abandon the use of the roadway segment on the private property and construct a new 200-foot by 20-foot roadway segment directly adjacent to the western boundary of the private parcel within the existing LVMWD easement.		
2006062140	Wastewater Reclamation Lockeford Community Services District --San Joaquin Since adoption of the Mitigated Negative Declaration and approval of the project by the District, the project has been subject to a number of discretionary approvals. The most significant of these was the Central Valley Regional Water Quality Control Board's approval of LCSD's WDR application on December 6, 2007. Still pending, however, is the Site Approval Application discussed above. Currently, the effective application period for PA-0600457 is drawing to a close as project implementation continues to move forward. In order for PA-0600457 to remain active, the District submitted a Time Extension Application to the CDD in late February 2008. A one year time extension application is the proposed project for a previously approved Site Approval Application (PA-0600457) for the expansion of a wastewater treatment plant facility. All previously approved Conditions of Approval still apply. Once granted, the Time Extension is good for one year allowing the District adequate time to gather the appropriate permits and implement the proposed expansion.	<b>MND</b>	05/07/2008
2006111007	Piru Creek Bank Protection Project Ventura County Watershed Protection District --Ventura The Ventura County Watershed Protection District is proposing improvements to approximately 600 linear feet of the west bank of Piru Creek to minimize further erosion and potential loss of adjacent residences. The project has been designed to minimize impacts to aquatic habitat and allow for development of a stable riparian plant community. The west bank would be protected with rock riprap, a turf reinforcement mat and native revegetation.	<b>MND</b>	05/07/2008
2007021055	Public Storage Irvine, City of Irvine--Orange The applicant (Public Storage) has filed three separate applications with the City of Irvine requesting the approval of a General Plan Amendment (modifies the land use designation and assigns intensity to the subject Planning Area 8), zone change (modifies the zoning designation and assigns intensity to the subject Planning Area 8), and a conditional use permit to allow for the construction of the new structure and "legitimize" the existing 55,897 square foot facility that was built in the early 1970s. The approval of these actions would permit the construction of an additional 115,694 square feet of building area in an above and below ground, self-service storage building (mini-storage warehouse building). Project construction activities would involve the demolition (7,431 square feet) and excavation (30,000 cubic yards).	<b>MND</b>	05/06/2008
2007051033	General Plan Amendment No. 07GPA002 Chino Hills, City of Chino Hills--San Bernardino Amendment to the City of Chico Hills General Plan's Parks, Recreation, and Open Space to update the existing Parks, Recreation, and Open Space Master Plan with the 2007 Update.	<b>MND</b>	05/06/2008

2008041036	ENV-2007-3870-MND Los Angeles City Planning Department --Los Angeles Coastal Development Permit to allow the conversion of an existing duplex into a two-unit condominium in the Venice Coastal Zone; Preliminary Parcel Map to convert an existing duplex into a two-unit condominium in the Venice Coastal Zone; Project Permit Compliance Review for the proposed conversion of an existing duplex into a two-unit condominium per the Venice Specific Plan. No new construction.	<b>MND</b>	05/06/2008
2008041043	Native Tree Planting Project Coachella Valley Water District --Riverside As part of the mitigation required to offsite environmental effects associated with the CCLP, the native tree replacement planting project was proposed to offset impacts to desert wash trees removed during construction of the CCLP. This effort is funded by the San Diego County Water Authority. Container-grown trees have been propagated from locally collected seeds for this purpose. This MND covers trees planting proposed on a 55.78-acre site owned by BLM. Trees will be planned from three-gallon size containers and watered for a period of one to five years. Trees will be planted either by digging with hand tools or use of a tractor-mounted auger. Holes will be dug up to 24 inches in diameter and 36 inches deep. A drip irrigation system will be installed at the planting site utilizing water from the Coachella Canal. The drip irrigation system would be installed above ground using PVC pipe and drip irrigation tubing. The PVC pipe would bring water from the Coachella Canal mostly along previously graded roads: the PVC would need to be buried or placed in a steel sleeve where the pipeline at road crossings. Initially, water from an adjacent BLM pond may be used for watering until the drip irrigation system from the Coachella Canal has been completed. Watering frequency is expected to be once a week during the first season and once every three to four weeks in the second season. A total of 2,324 trees will be planted including 31 Smoketree ( <i>Psoralea arguta</i> ), 28 Honey Mesquite ( <i>Prosopis glandulosa</i> ), 448 Ironwood ( <i>Olea resota</i> ), and 1,848 Palo Verde ( <i>Parkinsonia florida</i> ). Approximately 100 trees per acre will be planted at an average spacing of 21 feet apart. All areas of the planting site may not be actually used, based on suitability, avoidance of sensitive areas, and access.	<b>MND</b>	05/07/2008
2008042025	A07-0001/Z07-0003/PD07-0002/TM07-1432 D'Amico Estates El Dorado County Planning Department --El Dorado 1. <b><u>Documents Received on Monday, April 07, 2008</u></b>			
2008021017	<p>Plant 134 Water Treatment Plant Upgrade and Expansion Project East Valley Water District San Bernardino--San Bernardino</p> <p>The California Department of Public Health (DPH) establishes the water quality standards that EVWD is mandated to meet. Among these standards is a maximum contaminant level (MCL) for disinfection byproducts (DBPs). DBPs are primarily formed when a disinfectant such as chlorine reacts with naturally occurring organic material in the source water. Currently, compliance with the MCL for DBPs is achieved through compliance with the Stage 1 Disinfectant and Disinfection Byproduct Rule (Stage 1 Rule). Compliance is achieved when the average of all samples collected from throughout the District's distribution system is below the Stage 1 Rule MCL. Additionally, treatment requirements for total organic compounds (TOC) were waived because Stage 1 Rule MCL's were met and operation of the current approved treatment process could not be adjusted to improve TOC removal.</p> <p>Recent circumstances and new water quality regulations along with the anticipated increase in the demand for water within the District's service area have required EVWD to consider upgrading and expanding the treatment capacity of Plant 134. The newly promulgated Stage 2 Rule for Disinfectants and Disinfection Byproduct Rules (Stage 2 Rules) will now require that compliance with the MCL be met at each sampling location and systemwide averaging will not be allowed. This includes compliance with TOC removal requirements. The Stage 2 Rule becomes effective in April 2012.</p> <p>In addition to these regulatory requirements that have and will continue to affect EVWD's water supply system, the demand for water continues to grow within the District. To satisfy this demand, EVWD has identified the upgrading and expansion of Plant 134 as a necessary component of its overall water supply system.</p>	<b>NOD</b>	
2008021134	<p>SP08-02 - City of Brawley Waste Water Treatment Plant Improvement Project Brawley, City of Brawley--Imperial</p> <p>A site plan submitted in order to permit the construction of upgrades to a current Wastewater Treatment Plant. 2008048128	Control Gorge Power Plant Tail Bay Fish & Game #7 Bishop--Inyo SAA#1600-2007-0201-R6 The project is to remove cobble and sediment deposited by flushing flows from the river channel located at the confluence of the tail water from the Control Gorge Power Plant Tail Bay and the Owens River Channel. Approximately 25-40 cubic yards of material will be removed from the streambed to reestablish the streambed invert and banks to prevent the stream from backing up into the tail bay when the plant is not operating.	<b>NOE</b>	
2008048129	California Department of Transportation Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity The project involves repairing two culverts on Highway 36 that cause flooding during large storm events. The existing 18-inch diameter culvert at post mile 33.67 is undersized. During large storm events, the highway and into the adjacent culvert at post mile 33.67. The existing 18-inch culvert will be filled and abandoned in-place. Ten feet of the culvert will be removed at the inlet to allow placement of a 24-inch diameter culvert directly over the abandoned culvert.	<b>NOE</b>	
2008048130	Bridge Decks/Expansion Joints Repair Project Caltrans #3 Sacramento--Sacramento The scope of work includes: repair / replace bridge joint seals, apply polyester overlay to the bridge decks, apply methacrylate to seal the bridge decks. The work will take place on the following bridges: Bridge #24-0147 (PM 21.57), #24-0148 (PM 21.94), #24-0154 (PM 22.59), #24-0161 (PM 23.13), #24-0157 (PM 0157G (PM 24.03), and #24-0158 (PM 24.19).	<b>NOE</b>

2008048131	Deer Fence Installation, Texiera Farms, Oceano Dunes State Vehicular Recreation Area (SRVA) Parks and Recreation, Department of --San Luis Obispo The Texiera Farms abuts property owned by the Conoco Phillips Refinery and leased to State Parks as part of Oceano Dunes SVRA. The project involves the installation of a 6 foot tall deer fence along an existing fence line on the Conoco Phillips property approximately 4,100 linear feet. The fence will cross approximately 100 linear feet of dune scrub habitat to a farm service road. The fence will follow the service road for another 2,500 linear feet until it meets Little Oso Fiaco Creek.	<b>NOE</b>	
2008048132	Location and Development Plan 08-01 Adelanto, City of Adelanto--San Bernardino A request by the applicant, Northwest Pipe, for the review and approval of existing structures totaling 193,793 square feet as well as a 4,000 square foot addition to an existing building, on approximately 100 acres of land within the Manufacturing/Industrial (M/I) Zone.	<b>NOE</b>	
2008048133	Orr Springs Fire Crew Training 2008 (CAL FIRE MEU) Forestry and Fire Protection, Department of --Mendocino The proposed project is located entirely within Mendocino Redwood Company Lands, LLC. In order to adequately prepare for the 2008 fire season, fire crews from Chamberlain Creek and Parlin Fork Conservation Camps require firefighting training in handline construction in order to effectively develop control lines constructed by hand (known as "handlines") on going wildland fires. Fire Crews are organized in a line with hand tools used for a specific function.	<b>NOE</b>	
2008048134	Crew Preparedness Exercise-Ishi Training - 2008 Forestry and Fire Protection, Department of Auburn--Placer The 2008 CAL FIRE Ishi Training is a Fire Crew Preparedness exercise that will include check-in procedures, fire tool use, fire shelters, hiking and handline construction. This seasonal training allows fire crews from various camps the opportunity to fine tune their skills prior to fire season. The training will include the construction of approximately 2000 linear feet of fireline through grass and mixed brush, largely manzanita. Crews will use hand tools and chain saws to construct a combination of scratch line (2 feet canopy, 1 foot line to mineral soil) and finished line (8 feet canopy, 4 foot line to mineral soil). Upon completion, the removed material will be lopped and scattered along the constructed line to prevent surface erosion.	<b>NOE</b>	
2008048135	Tecate Repeater Road Annual Maintenance Forestry and Fire Protection, Department of El Cajon--San Diego The work proposed will consist of grading (within the existing foot print) of Tecate Peak Truck Trail which is access to several mountain top repeaters used for emergency service radio systems. There will be no quarrying of materials from the site, all fill material will be hauled to the site and will be Class II road base. The project is an ongoing annual maintenance and shall remain in foot print of existing road bed.	<b>NOE</b>

**Documents Received on Tuesday, April 08, 2008**

2008021111	<p>2008 Plan Amendment to the Merged Central Business District and West End Redevelopment Project Area Azusa, City of Azusa--Los Angeles</p> <p>The proposed "project" is the amendment to the Redevelopment Plan for the Merged Central Business District and West End Projects. The proposed 2008 Plan Amendment includes: (1) the addition of 15.1 acres of territory; (2) an increase in the tax increment limit of the Merged Project Area; and (3) the reinstatement of the Agency's eminent domain authority on two commercial properties.</p>	<b>EIR</b>	05/22/2008
2007061057	<p>Nohl Canyon Water Storage Tank Anaheim, City of Anaheim--Orange</p> <p>The project will remove the existing inactive Olive Hills Reservoir and dam, regrade the surrounding slopes, construct a partially buried concrete tank, and install California friendly landscaping throughout the site. The new tank is needed to provide emergency storage for peak demands and fire flows and to increase water system reliability. The EIR determined that the project design features and measures included in the Mitigation Monitoring Plan will reduce all potential environmental impacts to a level considered less than significant.</p>	<b>FIN</b>	
2008041047	<p>Port of Hueneme Contaminated Sediment Dredging and Confined Aquatic Disposal Site Construction Oxnard Harbor District Port Hueneme--Ventura</p> <p>The proposed project entails creating a Confined Aquatic Disposal (CAD) site within the Port of Hueneme as a regional tool for contaminated sediment management. The Oxnard Harbor District (OHD), U.S. Navy (USN), and U.S. Army Corps of Engineers (USACE) are all responsible for maintaining authorized depths in different parts of the Harbor. Some of these maintenance materials are known to be contaminated with chemicals including pesticides, tributyltin (TBT), and polychlorinated (PCB). Initially the goal for the project was to dispose of contaminated sediment from the Harbor at a nearshore fill site planned by the Port of Long Beach (Pier J South); however, the project was indefinitely delayed due to environmental and logistical concerns unrelated to the Port of Hueneme project and leaves no other feasible options for the material except to truck it to a Class III landfill.</p>	<b>JD</b>	05/07/2008

2008041045	Tentative Tract 17652, Tentative Tract 18309, and Tentative Parcel Map 18312 Hesperia, City of Hesperia--San Bernardino Consideration of two tentative tracts and a tentative parcel map to create 30 single-family residential lots and four residential parcels on 20.0 gross acres.	<b>MND</b>	05/07/2008
2008041046	Tentative Tract Map TT-17655 Hesperia, City of Hesperia--San Bernardino A Zone Change from Rural Residential with a minimum lot size of two and one half acre to Single-family Residence and a Tentative Tract map to create 118 lots on approximately 20.0 acres. All single-family residences within this subdivision will have a minimum livable area of 1,400 square feet. The development will extend an 8-inch sewer line west along Valencia Street from an existing sewer main in Topaz Avenue. The development will also extend an 8-inch water main along Verde Street connecting to a water line in Mariposa Road to the west or Topaz Avenue to the south. All on-site drainage will be retained in a 14,125 square foot basin.	<b>MND</b>	05/07/2008
2008042039	Parcel Map 07-031 (Perrine) Shasta County Redding--Shasta The request is for a two-parcel residential land division. The division would create an undeveloped 4-acre parcel and a 4.46-acre parcel on which a single-family residence is under construction. The project would include the construction of approximately 460 feet of roadway, extension of water lines, installation of a service connection, and installation of fire hydrants as required by fire safety standards.	<b>MND</b>	05/07/2008
2008042040	Use Permit 06-034A (Anselmo - Seven Hills Land and Cattle) Shasta County --Shasta The request is an amendment to the existing use permit to allow a medium winery including special events (weddings, anniversaries, graduation parties, family reunions, and other uses similar in character) to be held on the project site. Also proposed is a food preparation facility for the patrons of the winery and the patrons of the special events. The maximum number of people proposed is 120 people, with not more than three special events per month. The original use permit permitted a small winery with sales and wine tasting along with guided horseback tours, and included the remodeling of an existing ranch house to allow for commercial wine tasting and sales of wine produced on the premises.	<b>MND</b>	05/07/2008
2008042041	Flume 31/31A Replacement Project El Dorado Irrigation District --El Dorado The project consists of replacement of two flumes and hillside stabilization within the El Dorado Hydroelectric Project, also known as Project 184. This project is located on U.S. Forest Service property within the Federal Energy Regulatory Commission for Project 184.	<b>MND</b>	05/07/2008

2005121019	City of Lake Elsinore General Plan Update Lake Elsinore, City of Lake Elsinore--Riverside The City of Lake Elsinore is preparing the City of Lake Elsinore General Plan Update to replace the existing General Plan from 1990. The EIR will assess the updated General Plan and possible impacts. The overall purpose of the General Plan is to update goals, and policies that will guide the development in the City, Sphere of Influence (SOI), and future Planning Areas and reflect the community's vision for the future.	<b>FIN</b>	
2007064003	Patrol Boat Pier and Floating Dock, USCG Sector San Diego Harbor Drive Facility U.S. Coast Guard San Diego--San Diego Under the Proposed Action, the USCG would construct a 242-foot long pier and floating dock to the east of the existing pier and floating dock for use by patrol boats. The floating dock would consist of three main components: pile-supported grated fixed pier, grated gangway, and concrete floating dock. The pile-supported grated fixed pier would be supported by two steel H-piles and the fixed pier itself would be 5 feet wide by 46 feet long. It would be at a fixed elevation and would lead from the shore to the grated gangway. The grated gangway would be hinged on one end and would be 5 feet wide by 36 feet long. It would join the pile supported grated fixed pier to the floating dock. The dock would be 10 feet wide by 160 feet long and made of concrete. It would float with the changing tidal elevation. The pier/floating dock would be constructed perpendicular to shore and be located between the existing adjacent pier/floating dock (to the west) and the sea plane ramp (to the east). The fixed pier and gangway would extend far enough from shore to span the eelgrass ( <i>Zostera marina</i> ) bed that runs parallel to the southern shoreline of the Facility. Utilities including sewage, potable water, electricity, and telecommunications would run through the floating dock. The proposed pier/floating dock would be of similar size and scale as the existing pier/floating dock to the west.	<b>FIN</b>	
2008021055	Valley View Hotel Project San Pasqual Band of Mission Indians --San Diego The proposed project would expand existing improvements on Tribal land. The proposed project would include construction of a hotel with approximately 161 rooms, the addition of a water storage tank, as well as expansion of the existing wastewater treatment plant. An outdoor concert series to be held in the paved valet parking lot south of the existing casino and west of the existing parking structure is also proposed. The proposed project would not include an expansion of the casino gaming area or an increase in gaming area or an increase in gaming operations. This Final Environmental Evaluation addresses public comments made in response to the EE published in February 2008, and summarizes mitigation measures.	<b>FIN</b>	
2008032012	American River Watershed Lower American River Common Features Mayhew Drain Closure Structure Central Valley Flood Protection Board --Sacramento Construct a closure structure in the Mayhew Drain to prevent floodwater from the American River from entering the storm-drain during high water events.	<b>FIN</b>

2008042044	Bicycle Master Plan Update Roseville, City of Roseville--Placer The City of Roseville Bicycle Master Plan is a planning document to guide and influence bikeway policies, programs, and development standards to make bicycling in Roseville more safe, comfortable, and enjoyable for all bicyclists. The Bicycle Master Plan recommends physical improvements, including on-street bike lanes and bike routes, off-street bike paths, and appurtenances such as signs, bike racks and lockers, parking lots, restrooms, water fountains and lighting.	<b>MND</b>	05/08/2008
2008042046	Novato Creek Flood Control Dredging Project Marin County Novato--Marin Novato Creek is located in the central portion of the City of Novato; it is the City's main stormwater conveyance facility. The project's goal is to restore 50-year frequency flood control capacity by removing accumulated silt. An estimated 70,000 cubic yards of accumulated silt will be removed from the creek beds of Novato Creek, Warner Creek, and Arroyo Avichi Creek. The dredged material will be transported by truck to an offsite disposal location via U.S. Highway 101. The project will occur between June 2008 and September 2008.	<b>MND</b>	05/08/2008
2008042047	Murray Field Airport Master Plan Update Humboldt County Department of Public Works Eureka--Humboldt The Aviation Division of the Humboldt County Public Works Department manages six of the nine airports located within Humboldt County, including Murray Field Airport (Airport). The County has prepared an update to the Murray Field Airport Master Plan, which will be formally adopted by the Board of Supervisors following appropriate environmental review. The most recent comprehensive master plan study for Murray Field Airport was completed in 1993.	<b>MND</b>	05/08/2008
2008041049	Bixel and Lucas Project Los Angeles, City of Los Angeles, City of--Los Angeles The project consists of up to approximately 725 apartments and 39,999 square feet or less of commercial retail use. Project proposes to demolish at least four of the five to develop an irregularly shaped mixed-use building up to ten stories tall around a landscaped project-oriented courtyard on the podium level.	<b>NOP</b>	05/08/2008
2008041050	Stanton General Plan Update Stanton, City of Stanton--Orange The City of Stanton is updating its 1992 General Plan. The City is 99% built out. At General Plan buildout, the City would have 18,513 dwelling units and 6,135,600 square feet of non-residential uses. The growth anticipated with the Update is 5,751 dwelling units and a reduction of 1,433,635 square feet of non-residential uses. Five new mixed use categories are proposed with the update.	<b>NOP</b>	05/08/2008
2008041053	La Brea Gateway Los Angeles, City of Los Angeles, City of--Los Angeles General Plan Amendment (from Limited Manufacturing to Neighborhood Commercial), Zone Change (from MR1-1 to RAS4-1), Tentative Map, and Site Plan Review to permit the construction and operation of a mixed-sue development consisting of 219 apartment units and approximately 35,000 square feet of retail	<b>NOP</b>	05/08/2008

	space, along with 542 code-required parking spaces on six parcels totaling 2.27 acres of land. The project site is currently developed with approximately 56,673 square feet of studio-related industrial uses.		
2008041051	General Plan Housing Element Update Glendale, City of Glendale--Los Angeles Update to the City of Glendale Plan Housing Element.	<b>Neg</b>	05/08/2008
2008041052	GPA 139, Map 500 Kern County Planning Department --Kern GPA 139, Map 500; State law requires Housing Elements to be updated at least every 5 years to reflect a community's changing housing needs. This update covers the 2008-2013 period, pursuant to the update cycle for jurisdictions within the Kern Council of Governments (KernCOG) subregion. The Kern County Housing Element covers all unincorporated areas in the County within the Kern County General Plan and Metropolitan Bakersfield General Plan.	<b>Neg</b>	05/08/2008
2008042043	Copper Cove Wastewater Treatment Plant, Phase 1 Expansion, Headworks & Surface Aerator Improvements Calaveras County Water District --Calaveras The project will replace aging facilities and electrical systems and expand the average sewer treatment capacity from 0.25 to 0.50-mgd. The project will include: (1) new headworks including flow metering; lift station and solids screen; (b) new 12-inch x 800-foot pipeline (replacement) between aeration basins; (c) additional surface aerators as needed to increase treatment capacity to 0.50-mgd; (d) upgrade for electrical controls, instrumentation, computer and radio equipment; (e) new 12 foot by 30 foot masonry building for housing electrical equipment; and (f) upgrade PG&E service and install a standby/backup power diesel generator.	<b>Neg</b>	05/08/2008
2008042045	TSTM 2006-0013 Yuba County --Yuba The project consists of a Tentative Subdivision Tract Map that proposes to subdivide parcel 59.22 acres into eight lots. The project would involve two phases with Phase 1 (Lots 1, 6 to 8) being developed first. The lots would range in size from approximately 5.2 acres to 10.4 acres located on APN 040-140-019. The project site is located in a rural area approximately two miles northeast of the unincorporated community of Loma Rica in central Yuba County. It is adjacent to and south of Loma Rica Road and Scott Grant Road, just south of the intersection.	<b>Neg</b>	05/08/2008
2007021136	City of Hollister Reclaimed Water Irrigation Project Hollister, City of Hollister--San Benito The proposed project consists of developing reclaimed water irrigation at the Hollister Municipal Airport and the proposed Riverside Park for the cultivation of turf and/or grass hay in order to provide a beneficial reuse of tertiary treated wastewater from the City of Hollister Domestic Wastewater Treatment Plant. The proposed project implements reclaimed water uses identified for Phase I of the City of Hollister's Long-Term Wastewater Management Plan.	<b>NOD</b>

	proposed improvements have been designed to meet the Americans with Disabilities (ADA) standards and other applicable regulatory compliance requirements while also minimizing adverse impacts to the park's extensive cultural and natural resources. Two types of ADA improvements can be distinguished within the proposed Asilomar ADA Compliance Plan: (1) building modifications, and (2) exterior site improvements.		
2008042048	Tentative Parcel Map TPM 06-04 (Mayfield) Butte County --Butte Tentative Parcel Map to divide a 14.73-acre parcel into two residential parcels of approximately 7.36 acres each. There is one existing mobile home residence that would remain on one of the new parcels.	<b>MND</b>	05/09/2008
2008042051	Irrigation with Recycled Water at Integrated Device Technology, Inc. Santa Clara Valley Water District San Jose--Santa Clara The proposed project would allow the use of recycled water for the irrigation of 6.2 acres of landscaping at the Integrated Device Technology, Inc. (IDT) campus, which is located in the recharge zone of the Santa Clara groundwater subbasin.	<b>MND</b>	05/09/2008
2008041055	North City Specific Plan Cathedral City Cathedral City--Riverside The City of Cathedral proposes to guide future development within an approximately 5,000-acre area pursuant to the North City Specific Plan with a range of residential, commercial, and light industrial uses. About 60% of the Plan area will be designated open space. The Specific Plan will encourage maximization of commercial uses along I-10 freeway while also providing mechanisms to bridge the freeway and connect North City to the main areas of Cathedral City to the south.	<b>NOP</b>	05/09/2008
2008041057	J Street Drain Project Ventura County Watershed Protection District Oxnard, Port Hueneme--Ventura The proposed project would involve increasing the capacity of the existing channel to reduce flooding in residential and commercial areas of Oxnard and Port Hueneme, and improve stormwater flow through the J Street Drain. The existing concrete-lined channel has a depth of about 4 feet with a bottom width varying from 20 to 30 feet with 1:1 side slopes. There are various options that are being considered for the increased capacity channel and outlet. The project alternatives are identified as channel options and outlet options and these options can be combined as desired for the preferred alternative. Currently these are still being evaluated and there is no specific preferred alternative. Operation and maintenance of the proposed channel would be conducted in accordance with the Ventura County Watershed Protection District's routine operation and maintenance protocols.	<b>NOP</b>	05/09/2008

	access between the north runway complex and the south runway complex. In particular, the proposed project would provide a new crossfield taxiway, identified as Taxiway C13, and an associated connection to, and extension of, the existing Taxiway D. In addition, a new parallel service road would be built. Construction of these proposed improvements would require removal and potential relocation of certain ancillary and support facilities.		
2008042049	Henkel Property Demolition Fremont, City of Fremont--Alameda The applicant of the Henkel Property Demolition Project, Henkel Corporation, proposes to demolish and remove all buildings and structures from a 6.1 acre site. Once buildings and structures are removed, the site would be re-graded, and the project applicant, Henkel Corporation, would complete environmental remediation of the site, which is currently in progress with oversight by the Regional Water Quality Control Board (RWQCB). Environmental remediation of the site involves the excavation and removal of contaminated soil, some of which lies beneath the site's buildings. The demolition and removal of buildings prior to remediation provides increased safety for remediation contractors and better access to the contaminated soil, thus facilitating its effective removal. Although the applicant plans to remediate soils on the site to a level appropriate for any future land use, neither remediation nor future development are included as part of the proposed demolition project. The on-going remediation of the site is overseen by the RWQCB. Any future redevelopment of the site would be subject to subsequent environmental review once an application for redevelopment of the site is submitted to the city.	<b>NOP</b>	05/09/2008
2008042050	Lowe's Shopping Center Concord, City of Concord--Contra Costa The project proposes to redevelop the approximately 28-acre project site with a new commercial shopping center with approximately 334,112 square feet of building area (including 31,179 square feet of outdoor sales [garden center] area), plus associated parking and landscaping. The project proposes to reconfigure the eight existing parcels into four new parcels.	<b>NOP</b>	05/09/2008
2008042052	R Street Corridor Improvements Project - 10th Street to 13th Street - ER06-032 & 080) Sacramento, City of --Sacramento Proposed project is to provide improvements to the R Street Corridor per the Central City Community Plan and the R Street Corridor Urban Design Plan. The project would implement the guidelines within these documents, thus acting as a demonstration area for revitalization and improvement of the streetscape along R Street. In addition, it would enhance the connection of the redevelopment projects with the light rail system. The R Street improvements are needed to improve the pavement, pedestrian access, drainage and lighting inadequacies.	<b>Neg</b>	05/09/2008
2008042053	Gateway Elementary School (Site L-A) Lodi Unified School District Lodi--San Joaquin The proposed project is the development by the LUSD of an elementary school facility, which is projected to serve a maximum of 850 kindergarten through 8th grade students. 	the residential development that currently exists in western Lodi and will occur within the Southwest Gateway Development (SWGD) area, in which the proposed elementary school is located. The campus will provide traditional educational opportunities through classroom education, outdoor recreation and off-site opportunities. The facility will not include a venue for organized sports with high intensity lighting. The school will be administered by a typical combination of administrators, teachers, and facilities support staff.		
2008042054	Samuel L. Gantner Elementary School Lodi Unified School District Lodi--San Joaquin The proposed project is the development by the LUSD, on the above described site, of an elementary school facility, which is projected to serve a maximum of 850 kindergarten through 6th grade students. It is anticipated that most, if not all, of the students will come from the existing residential developments in western Lodi and residential development that will occur within the Westside Development (WD) area (in which the proposed elementary school is located). The campus will provide traditional educational opportunities through classroom education, outdoor recreation and off-site opportunities. The facility will not include a venue for organized sports with high intensity lighting. The school will be administered by a typical combination of administrators, teachers, and facilities support staff.	<b>Neg</b>	05/09/2008
2004091058	Perris Water Filtration Plant Phase II and Lakeview Pipeline Eastern Municipal Water District Perris--Riverside Metropolitan is proposing to grant a permanent easement to Assessor Parcel Number 303-310-009 (portions of Metropolitan Parcel Numbers 139-21-3, 139-22-3 and 3A, and 139-23-1, 3, and 5). The permanent easement is being granted to Eastern Municipal Water District (EMWD) allow construction, operation, and maintenance of an EMWD water pipeline. Metropolitan also proposes to enter into an agreement with EMWD for construction of Service Connection EM-22. The service connection, which will be designed and constructed by EMWD in accordance with Metropolitan's standard specifications and design criteria, will provide for the delivery of 40 cubic feet per second of water to EMWD.	<b>NOD</b>	
2007081015	TM 5447RPL, Log No. 05-08-022/Quantum Estates II San Diego County Department of Planning and Land Use Unincorporated--San Diego The project proposes a major subdivision of 39.42 acres into seven lots ranging in size from 3.55 to 10.1 gross acres. The project proposes a balanced grading of 38,000 cubic yards with cut and fill slopes of 2:1. The maximum depth of cut and fill is 10 feet. Several trails are proposed through the property. The project site will be serviced by the Santa Fe Irrigation District, Rancho Santa Fe Community Sewer District, and Rancho Santa Fe Fire Protection District. A sewer line will be extended 580 feet from the southeast. The sewer district requires access along the length of the line, and appropriate easements are proposed. Access to the site is from Paseo Delicias.	<b>NOD</b>	
2007101049	South Village Water Reclamation Project Valley Center Municipal Water District --San Diego The proposed project includes a modification of the currently held Waste Discharge Permit (RWQCB Order No. R9-1998-0009 as amended, WVRWRF), formation of an Assessment District, and adoption of the South Village	<b>NOD</b>

	Wastewater Master Plan for the Phase II and Ultimate Service Area Expansion of wastewater service for the South Village area of Valley Center, CA. The project includes the expansion of the Woods Valley Ranch Water Reclamation Facility, installation of wastewater collection and reclaimed water distribution pipelines, and the construction of wet weather seasonal storage pond(s) and irrigation disposal area (s).		
2008011030	P06-093; Vista Towers: Sunshine Summit San Diego County Department of Planning and Land Use --San Diego The proposed unmanned wireless telecommunications facility consists of the placement of a multi-carrier 50-foot tall faux monopine and an associated equipment enclosure. The monopine will support three carriers, with 12 panel antennas per carrier. The equipment enclosure will house equipment for all three carriers as well as an emergency standby generator. The standby generator will be surrounded by a 9-foot high concrete masonry unit (CMU) block wall as a noise attenuation barrier. Additionally, all associated equipment, including the generator, will be completely surrounded by an 8-foot high CMU block wall solid metal doors. Additionally, a 2-foot high retaining wall will be placed adjacently to the east of the equipment enclosure to buttress the proposed 12-foot wide access easement. The project is located within the North Mountain Community Planning area, within the unincorporated portion of San Diego County.	<b>NOD</b>	
2008022096	Sharmoug Minor Land Division (PMLD T20070605) Placer County Planning Department Roseville--Placer Project proposes a Tentative Parcel Map to subdivide one 2.3-acre parcel into two separate parcels of 1.15 acres each.	<b>NOD</b>	
2008022146	Johnson Minor Subdivision and Special Permit, Case Nos: PMS-06-31 / SP-06-92 Humboldt County Community Development Services --Humboldt A Parcel Map subdivision to divide an approximately 20-acre parcel into two parcels of approximately 5 acres and 15 acres each. The parcel is currently developed with a single family residence and associated out buildings. A Special Permit is required for a Lot Size Modification to allow an exception to the minimum parcel size. An exception request to allow the parcels to be served by a road that exceeds the dead end road length was approved by CalFire. The parcels will be served with water by individual on site wells and on site septic systems.	<b>NOD</b>	
2008049021	College of Marin at Indian Valley Ignacio Creek Stabilization Project Marin, City of --Marin The College of Marin Indian Valley Campus is proposing to modify the stream bed and banks of Ignacio Creek in order to stabilize various stream reaches from erosion, protect pedestrian bridges, improve storm water outfall culverts, and enhance instream habitat. Implementation of the project will include the following: 1) Installation of a 30-foot long rock rip-rap structure on the right bank of Bridge 3 to protect the piers. 2) Installation of rock rip-rap at Bridge 4 will be installed around the upstream pier on the right bank (looking downstream). The V-section created by gullying on the left bank will be filled with rock rip-rap. 3) Installation of a 30-foot long rock rip-rap structure at Bridge 5 will be installed on the right bank (looking downstream) to protect the piers. 4) Installation of a 3-foot long rock rip-rap structure at Bridge 6 will be installed on the right bank (looking	<b>NOD</b>

	<p>downstream) to protect the piers. The gully at the upstream end will be filled with rock. The concrete covered bank on the opposite side will be cut back approximately 3 feet. 5) Installation of four rock weir grade control structures at Bridges 7 &amp; 8 will be constructed in the tributary to control incising of the channel, one upstream and one downstream of each bridge. 6) Bank stabilization at the "Corporation Yard," involving backfill with soil excavated on-site. The toe of the bank will be protected with rock rip-rap. The fill area above the rock will be planted with native riparian species. 7) Bank stabilization adjacent to the "Child Care Center" involving stabilization by brush layering with rock toe protection. The bank above the brush layering will be laid back and planted with native riparian species. The slide material on the opposite bank will be excavated and used as fill for the brush layering. The opposite bank will be laid back and planted with native riparian species. 8) Bank stabilization at the knickpoint involving vegetated rock rip-rap to be installed at the knickpoint to create a large grade control structure. Also, several storm water pipe extensions will be extended down into the Ignacio Creek and the tributary. Rock rip-rap will be placed by the end of the pipe to prevent erosion. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0049-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, V-Anne Chernock, College of Marin.</p>

	Discovery Street will be re-aligned through the project site, and sensitive habitat areas associated with San Marcos Creek will be preserved as open space.		
2008012075	UCSF Medical Center at Mission Bay University of California, San Francisco San Francisco--San Francisco NOTE: Tiers from SCH# 2004072067	<b>EIR</b>	05/27/2008
	To comply with SB 1953, UCSF proposes to construct new clinical facilities at Mission Bay. The project was described and analyzed at the program level in the March 2005 Long Range Development Plan (LRDP) Amendment #2 - Hospital Replacement EIR. UCSF has since selected the Mission Bay "South" site and is proceeding with the first phase (the LRDP Phase) of design for 289 beds and associated clinical facilities on the 14.5-acre "South" parcel. Construction would include three integrated specialty hospitals for Children, Women and Cancer, as well as medical office (outpatient) space, support space, logistic/services, a medical helipad, parking and landscaping.		
	The Future Phase of the UCSF Medical Center at Mission Bay would develop the remaining acreage on the site with and additional 261 beds (for a total of 550 beds), associated medical office space and logistics/services. At buildout the site would contain a total of about 1,787,000 gsf. The project would also provide structured parking with up to 2,000 spaces.		
2006062030	Orbit Gas Station Use Permit Sacramento County --Sacramento The project is a request for a Use Permit to reconstruct a primary auto service station in the Greenback Lane Special Planning Area (SPA) Land Use Zone.	<b>FIN</b>	
2007062006	Rio Dell Wastewater Reuse Project Rio Dell, City of Rio Dell--Humboldt The City of Rio Dell proposes to improve the operation of the City of Rio Dell's wastewater treatment, effluent disposal, and biosolids disposal systems through repairs and/or replacement of existing facilities and systems. The treatment system improvements are needed to address the Administrative Civil Liability Complaint (ALCLC) and outstanding maintenance issues. The disposal project is needed to meet the requirements of Cease and Desist Order No. R1-2005-0034. The City also needs to include biosolids disposal in this evaluation because the existing disposal site may not be available to the City in the future. The project alternatives being evaluated consist of either improvements to the City's existing wastewater treatment facility on the southeast side of Rio Dell or construction of a new wastewater treatment plant. Also being evaluated as part of the proposed project is a wastewater reuse system located either north of Rio Dell at Metropolitan site, or south at the Pacific Lumber Company tree farm located at the southern end of the Town of Scotia.	<b>FIN</b>

2008041065	<p>South Region High School No. 9 Los Angeles Unified School District South Gate--Los Angeles</p> <p>The proposed project includes the development of South Region High School No. 9, which is included in LAUSD's Strategic Execution Plan for providing adequate educational facilities for the District. The proposed project would accommodate 1,431 students and provides approximately 145,000 square feet of building space. Project components are as follows:</p> <ul style="list-style-type: none"> <li>- Three separate classroom facilities</li> <li>- Multipurpose room</li> <li>- Music and drama hall</li> <li>- Gymnasium</li> <li>- Administration building</li> <li>- 133-space surface parking lot</li> <li>- Athletic fields (soccer, football, softball, and baseball activities)</li> </ul> <p>Pedestrian access to the proposed school would be from both Adella Avenue and Tweedy Boulevard. There would be drop-off and pick-up zones for passenger cars accessed from Tweedy Boulevard. It is anticipated that traffic would enter through Tweedy Boulevard and would loop around a one-way drop-off area in front of the administration building and classroom building. The drop-off zone would be one-way to alleviate congestion. The bus drop-off for special needs students would be located at a separate drop-off area, to the west of the administration building. The portion of Adella Avenue that traverses the project site would be vacated, with the exception of a turn-around located within the proposed project boundaries. A private service road to the east of the turn-around would provide access to the maintenance and food service areas. Construction of the proposed project is anticipated to begin in summer of 2010 and be completed in summer of 2012. The target opening date is in the fall of 2012.</p>	<b>NOP</b>	05/12/2008
2008041067	<p>West Valley Specific Plan Amendment Project Colton, City of Colton--San Bernardino</p> <p>The proposed Specific Plan includes a mix of single-family detached residences, attached condominiums and town homes, a cluster of multi-family homes, a K-8 school, open space as parks, habitat and detention basins, a commercial area consisting of retail, a hotel, offices and several industrial business park sites to include an automobile dealership. The proposed project also includes construction of associated utility and transportation infrastructure.</p>	<b>NOP</b>	05/12/2008
2008041068	<p>South Region Elementary School No. 11 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The proposed project would entail approximately 62,000 square feet of development that includes 32 classrooms, 800 two-semester seats, and 72 parking spaces for faculty and staff. The school would be contained within a three-story structure (a maximum of 42 feet high) that includes administration space, a multipurpose room, a library, kindergarten facilities, food services, a health unit, and playground areas. The playground would not be lit for nighttime use, and there is no current plan for joint use of the facilities.</p>	<b>NOP</b>	05/12/2008

2008041070	24th Street Improvement Project Bakersfield, City of Bakersfield--Kern The proposed project is an improvement of the existing Oak Street/24th Intersection and 24th Street between SR-99 to just east of M Street, in the City of Bakersfield. Phase one of the project may include reconfiguration of the Oak Street/24th Street intersection, whereas phase two may include widening of the 24th Street between Oak Street and D Street and improvements of 23rd and 24th Street between D Street ad M Street.	<b>NOP</b>	05/12/2008
2006092004	Los Gatos Creek Trail Reach 5 San Jose, City of San Jose--Santa Clara The City of San Jose proposes to construct a multi-use trail along Los Gatos Creek to accommodate bicyclists and pedestrians. The trail will be located along the west side of Los Gatos Creek from Auzerais Avenue to W. San Fernando Street. At W. San Fernando Street, the trail will cross the creek on the existing bridge on W. San Fernando Street and extend along the east side of Los Gatos Creek to Santa Clara Street. The trail will consist of a Class 1, 12-foot wide paved path, with two-foot wide compacted base rock shoulders on each side where space allows. Portions of the trail will extend along existing sidewalks that will be improved to accommodate the trail. The trail also includes wayfinding signage, hardscape improvements at intersections, and incidental landscaping.	<b>Neg</b>	05/12/2008
2008041063	Takken Family Trust General Plan Amendment ED06-350 LRP2006-00011 San Luis Obispo County --San Luis Obispo Request by Takken O'Connor Development and Construction for an amendment to the General Plan and Oceano Specific Plan that would redesignate a 1.38 acre area (Takken/O'Connor & Wisberg properties) from Commercial Service to Commercial Retail or Office and Professional. The project also anticipates a Conditional Use Permit and Tentative Tract Map for 1.22 acres that would allow the development of a mixed-use project consisting of 20,600 square feet of commercial space and 22 multi-family residential units and would result in the disturbance of the entire 1.22 acre area. The site is located at the southeast corner of Cienaga Street (Highway 1) and Twenty-First Street in the community of Oceano. The site is in the San Luis Bay planning area.	<b>Neg</b>	05/12/2008
2008041066	Inclusionary Housing Zoning Ordinance Amendment (ZOA) Agoura Hills, City of Agoura Hills--Los Angeles ZOA to revise the City's inclusionary housing program to include the option of donating land in lieu of providing the inclusionary housing units, and to update the in lieu fees that may be paid in exchange for providing the inclusionary housing units.	<b>Neg</b>	05/12/2008

	Agricultural, 37 acre minimum) under Title 17 of the Tuolumne County Ordinance Code.		
2006122060	Mokelumne Watershed Master Plan East Bay Municipal Utility District Jackson--Amador, Calaveras, San Joaquin EBMUD proposes to adopt and implement the Mokelumne Watershed Master Plan (MWMP). The MWMP describes current and future land use categories for the approximately 28,149 acres of District-owned property in the Mokelumne Watershed. The MWMP also outlines land management goals in the areas of natural resource, community use, assets, communication, and financial management. It further identifies strategies to achieve those goals and outlines objectives, or desired outcomes, from implementing those strategies. In addition to continuing a number of existing programs, the Master Plan will enhance or establish new programs and practices to protect water quality and natural resources, and exercise fiscal responsibility.	<b>NOD</b>	
2007042088	Tuolumne City Sanitary District Wastewater Treatment and Water Reuse Facilities Improvement Project Tuolumne City Sanitary District --Tuolumne The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant Tuolumne City Sanitary District, represented by Harold Welborn, for its Wastewater Treatment Facilities Improvement Project. The applicant proposes to remove an existing rail-car bridge over Turnback Creek and install a new 12-foot wide by 70-foot long bridge, with two 6-foot by 12-foot abutments on either bank of the creek. The project will also include removal of an existing sewer line crossing Turnback Creek, and the installation of a new 10-inch high density polyethylene line, encased in cement across the creek.	<b>NOD</b>	
2007071059	La Mesa Mixed-Use Urban Overlay Zone La Mesa, City of La Mesa--San Diego The proposed Mixed-Use Urban Overlay Zone is comprised of built portions of the City of La Mesa and includes a variety of land uses ranging from single- and multi-family residential uses, transit-oriented development, retail, and miscellaneous commercial uses. The proposed Mixed-Use Urban Overlay Zone is designed to add regulations and standards to the zoning code to implement the objectives of the General Plan. New development in the overlay zone would be subject to development standards of the new Mixed-Use Urban Overlay Zone (MU). The affected properties are currently designated as "Mixed-Use Urban" in the General Plan and zoned as either general commercial (C), residential business (RB), or multiple-unit residential (R3), on the City of La Mesa Zoning Map.	<b>NOD</b>

	Creek with a 295-foot-long, 43.5 foot-wide span. Following construction, temporary falsework will be removed, utilities returned to the new bridge, and disturbed riparian areas revegetated with appropriate native species.		
2007081017	Lin Open Space Vacation (VAC 02-005K, Log No. 78-08-072B) San Diego County Department of Planning and Land Use --San Diego The proposed project is a request to vacate a portion of a recorded biological open space easement, due to unpermitted clearing activities. The project will mitigate for 1.1 acres of southern maritime chaparral into a mitigation bank at a ratio of 3:1.	<b>NOD</b>	
2007082131	Granite Bay Retail & Car Wash (PMPA T20060706) Placer County Planning Department --Placer Project includes construction of three retail buildings ranging in size from 5,500 sq. ft. to 7,638 sq. ft., an automated carwash, as well as associated parking and circulation areas on two separate parcels that comprise approximately four acres.	<b>NOD</b>	
2007121015	AMG Associates Tract #5883 Coalinga, City of Coalinga--Fresno Tentative Subdivision Map for the creation of 107 single family residential lots on 32 acres, project requires Pre-Zoning and Annexation.	<b>NOD</b>	
2008022070	Dennis Wendt Industrial Conditional Use Permit (CUP); Case No. CUP-07-06 Humboldt County Community Development Services Rio Dell--Humboldt A Conditional Use Permit over five parcels under the same ownership to be developed with industrial storage and warehousing uses. These allowed uses include: storage of heavy equipment and fill materials for Caltrans and/or County of Humboldt or other public agency; Warehouse, Storage and Distribution uses as defined in Section 314-172.10; and Research/Light Industrial uses as defined in Section 314.175.3 of the Zoning regulations which do not involve customer traffic or excessive water/sewage disposal needs. All future Building Permits will require the issuance of a Flood Elevation Certificate as the site is completely within Flood Zone "A", areas of 100-year flood. All future development will require the development of on-site water sources and sewage disposal systems to be permitted at the time of Building Permit issuance. The Conditions of Approval will require the submittal of a development plan which will require individual landscaping, parking and plans of operation for each use prior to commencement of each use or issuance of Building Permits. The use permit will also establish yard setbacks, lot coverage and building height requirements for these uses.	<b>NOD</b>	
2008022106	Redevelopment Area Drainage Project Folsom, City of Folsom--Sacramento The City of Folsom is proposing to upgrade existing stormwater/drainage infrastructure through implementation of the Redevelopment Area Drainage Project. The City is responsible for the management of stormwater, which includes the design, construction, operation, and maintenance of storm drain systems and the prevention of pollutants associated with urban runoff. The proposed project would focus on Flooding Problem Area 1, defined in the Redevelopment Area Drainage Improvements Master Plan as Sibley Street, Natoma Street, and East Bidwell area. The improvements would include upsizing of existing drainage pipes with the addition of pipelines and drainage swales, while	<b>NOD</b>

2008022116	Troy Scott's Custom Grading (PMPB T20070423) Placer County Planning Department --Placer Project proposes a Minor Use Permit and Design Review to construct an 8,000-square foot mixed use office/warehouse building and equipment storage yard.	<b>NOD</b>	
2008022120	Power Generation Station Renewable Energy Expansion Project East Bay Municipal Utility District Oakland--Alameda The PGS Renewable Energy Expansion Project will increase power and heat generation capabilities of existing cogeneration facilities at the EBUD Main Wastewater Treatment Plant (MWWTP). This project will utilize excess biogas from the MWWTP that is currently flared and wasted due to capacity limitations. The proposed project will have the capacity to produce an additional nine megawatts of "green" energy for use on-site or sale to PG&E or a third party. Power production from this renewable resource would help reduce California's dependency on fossil fuels for energy production. As part of this project, EBMUD will modify its interconnection agreement with PG&E and may negotiate a sales agreement with a third party for revenue generation. The project will not require construction of new off-site infrastructure, such as new power lines, to facilitate this transfer of additional power. Construction of facilities necessary for the expanded power generation will be confined to within the boundaries of the existing MWWTP. Completion of construction is expected by early 2010.	<b>NOD</b>	
2008032001	Construction of a New Water Storage Tank on Skyline Drive in the Ponderosa Hills Subdivision Tuolumne Utilities District --Tuolumne Proposing to construct a new water storage tank with 600,000 gallons of capacity, and related clearing, grading, and pipeline trenching. The proposed tank will be welded steel, painted to match the surroundings and will be 32 feet high and 58 feet in diameter. Approximately 336 cubic yards of soil will be cut and disposed of off-site. Trenching of approximately 130 linear feet will be required for pipeline installation. The tank is necessary to replace an existing 100,000 gallon tank which has deteriorated. The larger size is necessary to supplement needed storage of this water system.	<b>NOD</b>

2006042051	La Bahia Hotel Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a General Plan/Local Coastal Plan Amendment, Zoning Ordinance Amendment, Tentative Subdivision Map, Development Agreement, and coastal and development permits for demolition of the existing 44-unit La Bahia apartment complex and construction of a new 125-room hotel with approximately 5,353 square feet of meeting room space, a 2,919 square foot lounge/bar/restaurant, a 1,215 square foot spa, a swimming pool, and an underground parking garage with 195 onsite parking spaces.	EIR	05/28/2008
2006081043	City of Arvin Enterprise Zone Arvin, City of Arvin--Kern The City of Arvin (collectively, "project proponents") is requesting the establishment of a California Enterprise Zone. The State of California approved the Enterprise Zone Act, establishing a mechanism to stimulate employment and business growth in economically distressed areas throughout the State. The Enterprise Zone is a long-term partnership with local governments and private companies to generate new private sector investment and growth.	EIR	05/28/2008
2006101068	Kilroy - Irvine Lofts Irvine, City of Irvine--Orange The project will result in the demolition of approximately 161,421 square feet of industrial and office use to allow for the development of 469 dwelling units on approximately 9.15 gross acres. Consistent with the overall intensity budget for the IBC, the proposed project will require the transfer of development rights for 1,646 ADT, 110 a.m. peak hour trips and 117 p.m. peak hour trips.	EIR	05/28/2008
2006091053	The Beverly Hilton Revitalization Plan Beverly Hills, City of Beverly Hills--Los Angeles The proposed project would redevelop portions of the Beverly Hilton Hotel through the introduction of 50 new Beverly Hilton Hotel rooms, a new conference center, new hotel office/retail/support facilities, a 120 room Waldorf Astoria Hotel, a restaurant, subterranean parking with 1,422 spaces, and new landscaping, as well as off-site roadway improvements. The project would result in a net reduction of 47 hotel rooms. Buildings to be demolished include the Wilshire Edge building containing a conference center and hotel offices, former Trader Vic's restaurant, Cabana/Lanai Rooms building, Palm/Oasis Court guestroom building, and parking structure. The existing Wilshire Tower would remain. Construction is anticipated to take four years with project buildout complete by 2012.	FIN	
2007102131	Marina Play Residential Project Santa Clara, City of Santa Clara--Santa Clara Demolish existing office buildings, construct 277 multi-family residential units on 3.2 acres, construct 57 single family detached residential units, and 6 attached townhouse units on 4.1 acres.	FIN

<b><u>Documents Received on Monday, April 14, 2008</u></b>			
2008041083	Cherokee Park San Diego, City of San Diego--San Diego Site Development Permit (SDP) to allow deviations for height limit, Map Waiver (MW) for the demolition of an existing single-family residence, and the construction of 10 detached townhomes with attached garages on a 0.95-acre site (41,454-square-foot lot).	<b>MND</b>	05/13/2008
2008042065	Hiddenbrooke School and Park Vallejo Unified School District Vallejo--Solano The VCUSD, in conjunction with the Greater Vallejo Recreation District (GVRD), proposes to develop an elementary school (K-5). Development would include construction of various school and park facilities as well as associated roadway, parking, utilities, and other associated infrastructure. School facilities would include an administration building, library/media center, multi-use/kitchen area, kindergarten with separate enclosed play area, classrooms, multi-use hard courts and an athletic play field. Proposed park elements would include an open grass play field, group picnic areas and individual picnic tables, toddler and children's play areas, one hard court play area, two bocce ball courts, as well as a trailhead and loop trail to provide access to park facilities and off-site open space areas.	<b>MND</b>	05/13/2008
2008042066	Goff Minor Subdivision Humboldt County Planning Department --Humboldt A lot line adjustment and minor subdivision of an approximately 22 acre and 1.5 acre parcel to result in four parcels. Proposed Parcel 1 will be approximately 9 acres and is currently vacant. Proposed Parcels 2 and 3 will be approximately 4 acres each and each are currently developed with one single-family residence. Proposed Parcel 4 will be approximately 5 acres and is currently vacant. All parcels will be served by on-site septic systems. A Special Permit is required for the placement of the water supply intake structure in the Mattole River, which will be the water supply for Parcels 1 and 3. Proposed Parcel 4 is presently served by a water system that diverts water from the Mattole River. Proposed Parcel 2 will continue to use the existing off site water source (a spring).	<b>MND</b>	05/13/2008
1991103064	Grafton Plaza Development Project (PA 07-006) Dublin, City of Dublin--Alameda NOTE: Reference SCH# 1999112042  The applicant requests approval of amendments to the General Plan and Eastern Dublin Specific Plan, and a Stage 1 and Stage 2 PD rezoning to allow the development of four low and mid-rise buildings ranging from 6 to 10 stories in height. Proposed uses include a Boutique Hotel, Spa, Commercial and Retail Uses of up to 272,000 square feet, up to 292,000 square feet of office use and up to 470 residential dwellings consisting of Live-Work units, Shop Keeper units and condominium flats. The project also includes internal parking garages for approximately 2,440 vehicles, ground-level plazas and landscaping.	<b>NOP</b>	05/13/2008

2008041079	Garden Grove General Plan Update Garden Grove, City of Garden Grove--Orange The City is updating its 1995 General Plan. The City is 99% built out. With the General Plan Update, the City is revising land use designations and adding new mixed use designations. The General Plan is anticipating land use changes in 13 specific areas of the City; these areas have been identified as Focus Area (Potential Areas o Change). The development potential in these areas is anticipated to add the following over existing conditions: 6,400 residential units; 7,772,500 square feet of commercial/office uses; 55,000 square feet of industrial uses, and 157,500 square feet of institutional uses.	<b>NOP</b>	05/13/2008
2008042067	Loma Rica Specific Plan Grass Valley, City of Grass Valley--Nevada The proposed project is a Specific Plan for a mixed-use development over +/-452 acres. The applications include: 1) an Annexation of the land to the City of Grass Valley; 2) a General Plan Amendment; 3) a Rezoning ; and 4) a Specific Plan. The project proposes 700 residential dwelling units; 385,000 square feet of retail, office and commercial uses; 580,000 square feet of light industrial and business park uses; and +156 acres of parkland and trails connecting the various areas.	<b>NOP</b>	05/13/2008
2008041077	Viborg/Calkins Conditional Use Permit ED07-082 San Luis Obispo County Paso Robles--San Luis Obispo Request by Paul Viborg for a Conditional Use Permit to allow for a proposed sand and gravel mine along a portion of the Estrella River. The project will result in the disturbance of approximately 9.96 acres (including a 7.1 acre proposed extraction area, 2.3 acres for sorting and stockpiling and 0.56 acres of roads) on a 40.16 acre parcel and would include an estimated maximum yield of 45,000 cubic yards per year. The project is proposed to have a 20-year lifespan. The project site is within the Agriculture land use category and is located at 7595 Estrella Road, Paso Robles, at the southwest corner of the intersection of Estrella Road and Airport Road, approximately 4 miles northeast of the City of Paso Robles. The site is in the El Pomar/Estrella planning area.	<b>Neg</b>	05/13/2008
2008041082	Lazer Broadcasting San Bernardino County Land Use Services Department --San Bernardino A Conditional Use Permit to construct a 100 foot steel lattice tower with a 250 square foot equipment building to include a 500 gallon fuel tank on 40 acres.	<b>Neg</b>	05/13/2008
2008041084	Tentative Tract Map 17503 Adelanto, City of Adelanto--San Bernardino A request by the applicant, Country Development LLC, to subdivide two parcels, totaling 20.0 acres, into 77 single family residential lots within the Medium Density Residential (R3-8) zoning district, located on the southeast corner of Aster Road and Auburn Avenue.	<b>Neg</b>	05/13/2008

<b><u>Documents Received on Monday, April 14, 2008</u></b>			
2008041085	Devereux Campus Reuse Project University of California, Santa Barbara Goleta--Santa Barbara The Santa Barbara Campus purchased the former Devereux School site in September 2007 and proposes to occupy the site in phases over time. Several existing buildings will be boarded up and left unused for the foreseeable future. Two of the existing buildings will be used for storage, five will be used as guest accommodations, three for educational use, three for administrative and conference use, and five buildings will be leased back to Devereux School. The occupancy will result in the relocation of up to 212 staff from other campus locations to the Devereux site over the next two years. No external changes to the building are proposed.	<b>Neg</b>	05/14/2008
2008042068	Permit by Rule for Treatment of Aqueous Wastes Containing Cyanides (R-96-48) Toxic Substances Control, Department of -- The Department of Toxic Substances Control proposes authorizing treatment of aqueous cyanide-containing wastes under Permit By Rule. These aqueous wastes are hazardous due to the presence of cyanides and heavy metals. The PBR will be limited to treatment of lower concentration wastewaters, other wastes that have been diluted to wastewater concentrations, and electrowinning of spent process solutions. Treatment will be limited to the specific technologies proposed in the regulations.	<b>Neg</b>	05/14/2008
2007032116	Crystal Bay Stockton, City of Stockton--San Joaquin 1) Planned Development to allow the development of single-family and multi-family residential with open spaces/common areas, greenbelts, parks, and a lake; and 2) a Vesting Tentative map to subdivide a 173+/- acre site into 1,343 residential lots for property located on the south side of Eight Mile Road and east of Rio Blanco Road.	<b>NOD</b>	
2007041098	City of San Clemente Recycled Water Treatment and Distribution Expansion San Clemente, City of San Clemente--Orange Phase I of the recommended project requires the expansion of water reclamation capacity from 2.2 MGD to 4.4 MGD. It also requires the conversion of an existing domestic water reservoir (Reservoir 11, or Cordillera Reservoir) to recycled water use, construction of a smaller replacement domestic water reservoir adjacent to existing Reservoir 11, expansion of the Recycled Water Pump Station at the Water Reclamation Plant, construction of two pressure reducing stations, approximately 41,000 feet of pipelines ranging in size from 6-inch to 20-inch diameter, and a booster pump station for conveying recycled water to the Pacific Golf Course Pond. Facilities for connection to the Santa Margarita Water District system will be provided on Avenida Pico east of Avenida La Pata for use during outages of respective systems. Phase II of the project will be constructed if a currently proposed development at the Pacific Golf Course is approved and implemented. Phase II project will create an additional zone by constructing a new reservoir at the site of Pacific Golf Course Upper Pond, re-routing a portion of the reservoir inlet line through the proposed development, and installing an altitude valve on the existing 12-inch recycled water pipe on Avenida Pico between Calle Amanecer and Camino Vera Cruz.	<b>NOD</b>

2008048202	Coldstream Ponds Erosion Control and Habitat Enhancement Project Parks and Recreation, Department of --Placer Restore abandoned gravel quarry ponds, enhance wetlands and make road drainage improvements in and around Coldstream Canyon at Donner Memorial State Park to improve and expand wetland habitat and repair existing facilities.	<b>NOE</b>	
2008048203	Jamison Creek Waterline Replacement Parks and Recreation, Department of --Plumas Replace the 4" water line where it crosses Little Jamison Creek at Plumas Eureka State Park for public health and safety. Construction of this project will occur when the creek bed is dry. Work will remove the existing pipe. Excavate approximately 5' in depth x 3' wide x 400' long to install a new 4" galvanized water line. Surround the new pipe with sand; backfill with the original stream material to the original elevation of the stream; install headwalls or gabions on both sides of the creek bed at the pipe connections.	<b>NOE</b>	
2008048204	McClellan Park Boundary Line Adjustment Sacramento County --Sacramento The project site is generally located west of Price Way, north of James Way and east of Kelly Way within McClellan Park, in the North Highlands/Foothill Farms community.	<b>NOE</b>	
2008048205	Caltrans, Highway 175 Roundabout, Old Hopland Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Mendocino The purpose of the project was to enhance safety and operation performance for motorist and pedestrians. Subsequent to construction of the roundabout, a late October 2007 rain event left 4" of standing water in the drainage ditches on the northern portion of the project. Therefore, Caltrans proposes to excavate sediment from a drainage ditch previously determined to be outside project limits.	<b>NOE</b>	
2008048206	NB/SB Auxiliary Lanes Caltrans #2 --Shasta Construct NB and SB auxiliary lanes on Interstate 5 near Cottonwood, from 0.3 mile north of the Fourth Street Over crossing to the Deschutes Road Under crossing. The project will relieve congestion and improve safety. The work is needed because of the variable grade climb at this location, where typical merge movements of trucks and other slower-moving vehicles are causing mainline vehicles to slow and change lanes. Work includes adding median lanes, adding a concrete median barrier, placing a crash attenuator at the northern limit of the barrier, widening the left shoulder to 10-ft standard width, placing asphalt concrete pavement between the edge of shoulder and the concrete barrier, and relocating median drainage.	<b>NOE</b>	
2008048207	Safety-Kleen Systems, Inc., El Monte Accumulation Center, Hazardous Waste Storage Facility Permit Renewal Toxic Substances Control, Department of El Monte--Los Angeles The Safety-Kleen Systems, Inc., El Monte Accumulation Center is a permitted hazardous waste storage and bulking facility. The Hazardous Waste Facility Permit was last issued on March 29, 1995. The permit renewal allows the facility	<b>NOE</b>

	<p>ROWS or franchise locations;</p> <ul style="list-style-type: none"> <li>- looping the existing Devers-Coachella 220 kV transmission line from an existing ROW to the south for approximately 0.8 mile on double-circuit lattice steel towers to Mirage Substation, located near the community of Thousand Palms;</li> <li>- installation of a new 280 megavolt amperes (MVA) 200/115 kV transformer, two new 220 kV circuit breakers, and five new 115 kV circuit breakers at SCE's existing Mirage Substation; and</li> <li>- replacement of four poles at the intersection of Bob Hope Drive and Dinah Shore Drive.</li> </ul>		
2008041088	<p>Central Region Elementary School No. 22 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The proposed project includes the construction and operation of the Central Region ES No. 22. Since the project site is undeveloped, no demolition or removal of existing uses is required. In addition, Playa Vista has dedicated the project site as a school site in compliance with a condition of approval of the First Phase Playa Vista Project. The proposed project would primarily serve students who live in Playa Vista although it is not intended to be exclusive to Playa Vista. The proposed project would provide approximately 650 two-semester seats for students in grades K-5 and require approximately 50 to 55 faculty and staff. The proposed elementary school would be operated on a traditional single-track, two-semester, 180-day calendar.</p> <p>The proposed project would include approximately 50,000 gross square feet (gsf) of building space on the 4.08-acre project site. Structures would be up to two stories (34 feet). There would be 26 classrooms for grades K-5, a library, administrative spaces, and food services with a lunch shelter. There would also be a multi-purpose room, hardcourts and a play field.</p>	<b>NOP</b>	05/14/2008
2008041089	<p>Irvine Guideway Demonstration Project Irvine, City of Irvine--Orange</p> <p>The proposed project is a public transit project that would link the Irvine Spectrum to the future Orange County Great Park with Irvine Station serving as a hub with connections to regional rail and bus transit services. The proposed system would be approximately 5 miles long with nine stations. In general, the project proposes to utilize modern streetcar technology for approximately two-thirds of the system (generally north of the Irvine Station) and modern transit vehicles (rubber-tired, clean fuel vehicles) for one-third of the system (generally south of the Irvine Station), all modern transit, or all modern streetcar. The system is anticipated to improve regional mobility by providing transportation to 5,300 riders per day.</p>	<b>NOP</b>	05/14/2008
2008042071	<p>2006-110 Castle &amp; Cooke - EIR, General Plan Amendment (GPA-SP) and Zoning Amendment (Sawmill Lake) Calaveras County Planning Department --Calaveras</p> <p>The proposed project would consist of 243 acres of mixed use and residential master planned community. The development proposes a maximum of 800 dwelling units on 140 acres (which includes an active recreation facility on 3 acres), a mixed-use village on 14 acres, a community park on 7 acres, and 82 acres of open space.</p>	<b>NOP</b>	05/14/2008

<b><u>Documents Received on Tuesday, April 15, 2008</u></b>			
2008041086	Encanto Nature Walk Duarte, City of Duarte, Azusa--Los Angeles The proposed project consists of the construction of a bioswale, the realignment of a park trail, and the development of a new half-mile nature-loop that will connect the park trails to the San Gabriel Regional River trail. The general area is near the base of the San Gabriel Mountains and northeast of the intersection of Interstate 210 and Interstate 605. The project is located within and adjacent to Encanto Park along the San Gabriel River flood control channel in the City of Duarte.	<b>Neg</b>	05/14/2008
2003104005	Berth 136-147 (TraPac) Container Terminal Project Los Angeles City Harbor Department Los Angeles, City of--Los Angeles The project involves 4 elements: 1) Upgrading and expanding an existing marine container terminal at the Port of Los Angeles, 2) Constructing a new on-dock rail yard on the terminal, 3) Relocating the existing PHL rail yard to Berth 200B to accommodate the new on-dock rail yard, and 4) constructing a buffer between the terminal and the Wilmington community.	<b>NOD</b>	
2003112032	Jamestown Landfill Final Closure/Post-closure Maintenance Plan Tuolumne County Community Development Dept. --Tuolumne Re-Closure of the Tuolumne County central Sanitary (Jamestown) Landfill to address the instability of some of the wells of the landfill. The re-closure will entail dismantling of the existing surface water drainage system, abandonment of existing monitoring wells, excavation and stockpiling of existing clay, excavation of refuse and creation of 3:1 final slopes, construction of a soil buttress along the eastern edge of the landfill and placement of excavated refuse behind the buttress within the landfill footprint, reconstruction of the final cover system, including a foundation layer, a low permeability layer, an internal drainage layer, and a vegetative soil layer, and reconstruction of monitoring well and surface water drainage systems. All work will be performed within the projects limits of the original closure plan approved by the Board of Supervisors on February 3, 2004.	<b>NOD</b>	
2004011126	Biorn Land Use Element / Land Use Ordinance Amendment and Conditional Use Permit G020020M, D020293D San Luis Obispo County Santa Maria--San Luis Obispo Request by A.J. Diani Construction Co. to amend the South County Area Plan and Title 22, the Land Use Ordinance, by changing the land use category of an approximate 14.5 acre area from Commercial Service (CS) to Industrial (IND).	<b>NOD</b>	
2004121045	Amendment to The Platinum Triangle MLUP Anaheim, City of Anaheim--Orange The Platinum Triangle Expansion Project is a City-initiated request to increase the permitted amount of residential, commercial, office and institutional development.	<b>NOD</b>	
2005041024	Tentative Tract Map 17120 Adelanto, City of Adelanto--San Bernardino The project involves the development of approximately 10 acres of undeveloped land into a 38-lot residential subdivision. The project will remove 10 acres of Mohave ground squirrel habitat. The Department, as a responsible agency, is issuing an Incidental Take Permit for the Mohave ground squirrel, a species which	<b>NOD</b>

	is protected by the California Endangered Species Act and which could be taken as a result of the project.		
2008011015	Walgreens PC 07-72 Twentynine Palms, City of Twentynine Palms--San Bernardino An application for a 14,820 sq. ft. retail store on 1.19 acres, including a General Plan Amendment and Zone Change from RM-SP#4 to CG, an Amendment to Specific Plan #4, a Conditional Use Permit for a drive-through, a Variance for parking and lot coverage, and a Right of Way Vacation for the 20' wide alley, Zone CG and RM-SP#4, T1N, R9E, Section 32.	<b>NOD</b>	
2008022042	Meridian Farms Water Company Fish Screen Project Fish & Game #2 --Sutter The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0010-R2, pursuant to Section 1602 of the Fish and Game to the project applicant, Meridian Farms Water Company, 530-696-2456. MFWC is proposing a two phased program to consolidate three existing surface water diversions into two diversions along the Sacramento River in the vicinity of the Town of Grimes and Meridian, Sutter County. The two new water diversions would be equipped with positive barrier fish screens to prevent entrainment of migrating, at-risk, native fish species. Due to the consolidation, the proposed project also includes phased conveyance system improvements to accommodate water delivery to two diversions instead of three. The proposed project will not increase MFWC's overall diversion capacity from the Sacramento River. Once the new diversions are completed at Meridian and Grimes site locations, the existing diversions at Meridian, Drexler, and Grimes will be removed during their respective phases and in compliance with Reclamation Board, California Department of Fish and Game, National Marine Fisheries Service, and the U.S. Fish and Wildlife Service requirements.	<b>NOD</b>	
2008049027	Wally Timber Harvesting Plan (2-06-111-NEV) Forestry and Fire Protection, Department of --Sierra, Nevada 1600 agreement for one permanent bridge, use of an existing skid crossing, installation of one permanent culvert, improvement and use of an existing waterhole, and use of 5 water drafting locations.	<b>NOD</b>	
2008049028	Taft Sanitary Landfill (California Endangered Species Act Incidental Take Permit No. 2081-2007-002-04) Kern County Waste Management Department Taft--Kern The project is the continued operation and landfill expansion of the 100-acre Taft Sanitary Land Fill (SLF) within the permitted facility boundary. The project will result in impacts to the San Joaquin antelope squirrel ( <i>Ammospermophilus nelsoni</i> ), a species which are designated as threatened under the California Endangered Species Act (CESA). The permit referenced above, as issued by CDFG, authorizes incidental take of the species under CESA that may result with implementation of the project.	<b>NOD</b>

<b><u>Documents Received on Tuesday, April 15, 2008</u></b>			
2008049029	Donner Segment 3 Road Rehabilitation Project Caltrans #3 --Nevada The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0071-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Caltrans. The proposed Donner Segment 3 Road Rehabilitation Project will rehabilitate and improve 6 miles of I-80 from the Castle Peak Road Undercrossing eastward to 2.1 miles east of the Donner Lake Interchange. The proposed work includes overlaying the existing pavement; increasing the shoulder width; adding segments of concrete barrier; rehabilitating drainage systems including replacing and lining culverts; adding storm water quality measures including basin systems and sand traps; constructing retaining walls; installing rock fall prevention measures; and extending the truck climbing lane.	<b>NOD</b>	
2008048209	Demolition Review D08-006 Tuolumne County --Tuolumne Demolition Review D08-006 for demolition of a residence built in approximately 1947. The 5.2+/- acre property is zoned RE-2 (Residential Estate, Two Acre Minimum) and O (Open Space) under Title 17 of the Tuolumne County Ordinance code.	<b>NOE</b>	
2008048210	Lighthouse Visitor Center Roof Replacement Parks and Recreation, Department of --Monterey Replace the leaking non-historic roof on the historic Lighthouse Visitor Center at Point Sur State Historic Park to preserve and protect the facility. Work will remove the old roof, repair or replace associated roofing elements, and install new 50-year type asphalt composition shingles with 110 mph wind resistance limited warranty. Color of shingles and flashing will be compatible with and match those of surrounding buildings.	<b>NOE</b>	
2008048212	Installation of Irrigation Tailwater Return Systems and Backflow Prevention Measure on 3 parcels Tulare County Resource Management Agency Tulare--Tulare Installation of irrigation tailwater return systems and backflow prevention measures on 3 parcels to improve safety of water quality. The irrigation stand pipes will be converted from side entry to overhead delivery. The tailwater return system will improve water efficiency and prevent runoff from the site.	<b>NOE</b>	
2008048213	Tentative Tract Map 17592 Adelanto, City of Adelanto--San Bernardino Request the approval of Tentative Tract Map to subdivide 16.19 acres into 65 single family lots in an R-1 (Single Family Residential) zone.	<b>NOE</b>	
2008048214	Snow Bird Loop Stewardship Land Management Services Project Tahoe Conservancy --Placer This project consists of lot maintenance, trash removal & prevention, and reporting adverse conditions.	<b>NOE</b>
