# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1-15, 2010**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Acting Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger  
Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2009**

FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, April 01, 2010</u></b>			
2007121027	Gustine Redevelopment Project Gustine, City of Gustine--Merced The Agency is proposing adoption of the Plan to enable the effective redevelopment of an ~889 acre Project Area. The need to prepare and adopt a Plan has been determined by the City Council and the Agency to help to eliminated blight in the Project Area, upgrade public facilities and infrastructure, and promote and facilitate economic development and job growth.	<b>EIR</b>	05/17/2010
2008052106	Harry Tracy Water Treatment Plant Long-Term Improvements Project San Francisco, City and County of San Bruno, Millbrae--San Mateo The SFPUC proposes the Harry Tracy Water Treatment Plan (HTWTP) Long-Term Improvements Project. The proposed improvements include treatment process improvements to meet water quality and delivery reliability goals, seismic reliability improvements, and other improvements to the HTWTP such as pipeline distribution, access and site improvements. The treatment process would generally be the same even with the proposed improvements. The primary differences would be solids handling, whereby solids from the sludge holding tank would be transferred to a solids dewatering facility before being trucked off-site, and to the treated water storage, which would occur in a single new tank north of the main plant site instead of two tanks southeast of the main plant.	<b>EIR</b>	05/17/2010
2009111077	Carson Consolidated Project Area Carson, City of Carson--Los Angeles The Redevelopment Agency of the City of Carson has proposed to merge the Agency's three existing redevelopment projects for the purpose of creating financial flexibility and ease of administration. The three areas consist of Redevelopment Project Area No. 1, the Merged and Amended Project Area (consisting of the Redevelopment Project Areas No.2 and 3) and Redevelopment Project Area No.4 (the existing project areas). The merger would combine 4,099 acres of the Existing Project Areas into a single project area within the City of Carson (Carson Consolidated Project Area). As part of the merger the Agency has also proposed to re-instate and extend eminent domain, excluding residential uses, in certain areas of Project Area No. 1, the Merged and Amended Project Area and Project Area No. 4, respectively and add one public improvement project to the existing public improvement project lists for the renovation and expansion of the existing Sheriff Station located in Project Area No. 1.	<b>EIR</b>	05/17/2010
2010042005	Groundwater Remediation Project, North Valley Plaza Cleaner Site Toxic Substances Control, Department of Chico--Butte NOTE: Neg Dec / Draft RAP  Pursuant to authority granted under Chapter 6.8, Division 20, California Health and Safety Code (H&SC), the Department of Toxic Substances Control (DTSC) is proposing to approve a draft Remedial Action Plan (RAP) that is in response to the California DTSC Imminent or Substantial Endangerment Determination and Remedial Action Order (I&SED/RAO) No. I&SE 97/98-010 (Order) and in accordance with the DTSC Policy and Procedure number EO-95-007-PP, RAP	<b>JD</b>	04/30/2010

	Policy. The draft RAP requires the responsible party group (RPG) to engage in actions that will remediate the impacted groundwater beneath the property and down-gradient from the property.		
1998122017	Customs House Retail/Commercial Office Building Acquisition and Modification of Use Placer County Tahoe City--Placer NOTE: Shortened Review Per Lead / Subsequent MND	<b>MND</b>	04/21/2010
	The Customs House Retail/Commercial Office Building Acquisition and Modification of Use involves a request to the Placer County Community Development and Resource Agency Planning Department for the approval of a Minor Use Permit in order to utilize an existing 2 story retail/commercial office building for uses classified as government offices. This 11,400 +/- sf building, constructed in 2007, is situated on an ~0.61 acre site (APN 094-110-021) located on the northeast corner of Hwy 29 and Jack Pine Street in Tahoe City, with approvals for retail and professional office uses. The building previously housed a Starbucks Coffee establishment but is now only leased to 2 professional offices. The remainder of the building is vacant. A 30 space parking lot for the building occupants is located at the rear of the property.		
2009022052	Hillick Ranch Timberland Conversion and Vineyard Development - Recirculated Forestry and Fire Protection, Department of --Sonoma NOTE: Recirculated MND	<b>MND</b>	04/30/2010
	Proposal to establish a 10 acre vineyard on a 167 acre parcel located in Southwestern Sonoma County. Since the project area is defined as timberland CAL FIRE must approve a Timberland Conversion Permit and Timber Harvest Plan prior to any land clearing or development.		
2010041006	Hollister-Yacono Development Plan Santa Barbara County Buellton--Santa Barbara The Hollister/Yacono Development Plan project consist of:	<b>MND</b>	04/30/2010
	1) Consistency Rezone 09RZN-00000-00010 2) Final Development Plan No. 07DVP-00000-00028 for 45, 042 sf gross floor area of existing and proposed structural development; and 3) Overall Sign Plan No. 08OSP-00000-00001 for approval of existing and proposed signage, and removal of some existing signage.		
2010041007	Ballona Creek Bikeway Project P-900 Culver City Culver City--Los Angeles The project will make improvements to the Ballona Creek bikeway near Overland Avenue in Culver City. These improvements will create educational opportunities, restore natural habitat, enhance the path segment's layout and appearance, and create a pleasing environment for bicyclists and pedestrians.	<b>MND</b>	04/30/2010

<b><u>Documents Received on Thursday, April 01, 2010</u></b>			
2010042002	Malech Road Water Supply Project Santa Clara County San Jose--Santa Clara NOTE: Extended Review Per Lead  The proposed project includes installation of a water pipeline, pump and associated apputenances to supple domestic and fire water to the Mariposa Lodge Alcohol Treatment Facility, the House on the Hill, and the Sheriff's Firing Range. Roadway improvements to the Sheriff's Firing Range would also be part of the project. The physical improvements associated with the proposed project include a new booster pump station, which would be set on a concrete pad within an elcosed prefabricated enclosure surrounded by a fence. Other improvements include the installation of several PG&G power poles to provide electricity to the pump station, a new 12 inch water line from the pump station to the Sheriff's Firing Range, a new 12 water (trenched) along Malech Road connecting the pump station to the existing Great Oaks Water Company main located at Basking Ridge Road, 6 additional fire hydrants throughout the project site, and the widening of a portion of the existing roadway to comply with the Fire Marshalls 20 ft minimum width fire lane requirement.	<b>MND</b>	05/06/2010
2010042003	Parcel Map #10-01 - Cheryl Forbes Tehama County Red Bluff--Tehama To create a 20.0 acres parcel, a 29.50 acre parcel, a 26.80 acre parcel and a 20.60 acre parcel in a UA-AP; Upland Agricultural-Agricultural Preserver Combining Zoning District.	<b>MND</b>	04/30/2010
2010041003	Artesian General Plan Update Artesia, City of Artesia--Los Angeles NOTE: Review per lead.  The City of Artesia is updating its 1993 General Plan. The City is 99 percent built out. With the General Plan Update, the City is revising land use designations and adding new mixed use designations. The City's development potential at buildout of the proposed General Plan involves a total of approximately 483 acres of residential land uses and approximately 274 acres of non-residential land uses. Additionally, a total of approximately 26 acres of open space and approximately 254 acres of right-of-way would be provided.	<b>NOP</b>	05/03/2010
2010041004	Santa Monica Single-use Carryout Bag Ordinance Santa Monica, City of Santa Monica--Los Angeles The City of Santa Monica proposes to adopt a Single-use Carryout Bag Ordinance that would: 1) prohibit all retail establishments (except restaurants) in Santa Monica from providing "single-use plastic carryout bags" to customers at the point of sale; and 2) create a Green Fee for each paper bag distributed by grocery stores, convenience stores and pharmacies in the City. Restaurants are the only retail establishment that would be exempt from the single-use plastic bag ban, allowing them to provide plastic bags for take-out food.	<b>NOP</b>	04/30/2010

2010042001	St. Helena General Plan Update 2030 St. Helena, City of St. Helena--Napa NOTE: Refer to NOP received 4/23/2010.  The St. Helena General Plan is the primary policy document for the City and the community of St. Helena as it moves toward the year 2030. It sets forth the City's policies to guide future land use decisions, and provide the needed framework to preserve the character and quality of development that the community desires. The General Plan also identifies policies and establishes the processes by which the City's changes to existing land uses will take place.  The project is a focused update of St. Helena's General Plan, which was last updated in 1993. This update focuses on the incorporate recent planning trends and policies regarding climate protection and sustainability.	<b>NOP</b>	
2010041001	Residential Development Standards Code Amendment & Zone Change (Planning Case No. ZON2007-00377) Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The proposed "Residential Development Standards Code Amendment and Zone Change" would enact miscellaneous revisions to provisions of the City's Development Code that regulate the development of single family residential neighborhoods. These includes, but are not limited to: Side-Yard Setbacks for Pre-Incorporation Lots; Eastview Rezoning from R5-4 to RS-S; Mira Vista Overlay Control District (OC-S); Courtyard Area Lot Coverage; Private Street Easement Lot Coverage; Flag-Lot Lot Coverage; Minimum Driveway Areas; Driveway Landscape Buffers; Tandem Parking; Front and Street-Side Wall and Fence Height; Chain Link Fencing along Palos Verdes Drive West; Clarification of Permitted Encroachments into Setbacks; Resolution of Inconsistencies Regarding the Depth of Ornamental Pools; and Development Standards for Minor Structures in Setback Areas.	<b>Neg</b>	04/30/2010

	Sewer service will be provided by proposed septic systems and water will be provided by Hager Mutual Water Company, a private water company.		
2010042004	Nervino Fire Center Plumas County --Plumas The Plumas National Forest, Plumas County, and the Beckwourth Fire Department are jointly developing plans to construct a 6,720 square foot mixed use fire center which will include office/engine bays, nine-person - 2,500 square foot barracks, paved parking, helipads, parking for fixed wing aircraftm underground utilities, a well, and (if required) fencing that would separate the administrative site from the runway. In future the Forest Service would like to construct a metal building near the office. The facility will be accessed in the northwest corner of the airport property via North Industrial Way that surrounds the property.	<b>Neg</b>	04/30/2010
2003022091	McDaniel Slough Wetland Enhancement Project Arcata, City of Arcata--Humboldt Original plan restores tidal wetland functions to 200 of 240 acres of former tidal salt/brackish marsh adjacent to Humboldt Bay in N. California & enhances the remaining 40 acres as freshwater & brackish ponds, grasslands/riparian areas & includes enhancement of McDaniel Slough/Janes Creek. The enhancement removes barriers to fish access & includes deepening historic slough channels, partial removal of failing or obsolete levees, & restores the tidal estuary. Since the EIR adoption, CDFG acquired additional lands allowing the project to restore/enhance an additional 22 acres of tidal & 23 acres of freshwater habitat. Proposed changes will result in an 1.19 acres of additional impacts to wetlands to be fully mitigated by creation of new wetlands, restoration of 222 acres of tidal wetlands & enhancements of freshwater wetlands.	<b>SIR</b>	05/17/2010
2006012037	Los Vaqueros Reservoir Expansion Project Contra Costa Water District Byron, Brentwood--Contra Costa, Alameda The Los Vaqueros Reservoir Expansion Project includes expansion of the existing Los Vaqueros Reservoir from 100 TAF to 160 TAF, including raising the existing dam and reconstruction or modification of appurtenant facilities (i.e. spillway, outlet, oxygenation system); replacement and enhancement of recreation facilities impacted by the expansion; and , improvements to the existing Transfer facility. The Project will be operated to improve water supply reliability and protect water quality for CCWD and, potentially, local partners.	<b>NOD</b>	
2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0333-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Pacific Gas and Electric Company. This project will install approximately 42.5 miles of new underground gas line referred to as Line 406, Line 407 (East and West), and the Power-line Road Distribution Feeder Main (DFM) to tie in with existing lines. This project will also construct size above-ground facilities. This project will impact the stream zone of various drainages in the project area in fifteen location by three different methods.	<b>NOD</b>

2007121154	<p>The project as a whole will result in 95 linear feet and 0.218 acres of impacts to stream zone.</p> <p>Mountain View Avenue Extension and Widening Project at Santa Ana River Project Inland Valley Development Agency San Bernardino, Redlands--San Bernardino Ref: Mountain Biew Avenue Extension and Widening at Mission Creek Project.</p> <p>CDFG is executing a Lake and Streambed Alteration Agreement (SAA# 1600-2009-0016-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, the Inland Valley Development Agency, represented by Mr. Mike Burrows, 294 South Leland Norton Way #1, City of San Bernardino, State of California, 92408, Phone (909) 382-4100. The proposed project consists of removing the existing bridge across Mission Creek, construction of a new bridge over Mission Creek, partial acquisition of selected properties within the right-of-way, expansion of Mountain View Avenue north of the Interstate 10 to the proposed bridge removal/new bridge construction to north of the project site, and other activities not directly associated with the Mountain View bridge replacement and widening over Mission Creek. This project includes installation of drainage collection facilities and support drainage facilities, which will be constructed within the road right-of-way. The project will temporarily impact 1.05 acres of jurisdictional areas, which consists of riparian-associated Riversidean alluvial fan sage scrub, and the project will permanently impact 0.22 acres of jurisdictional areas, which consists of riparian-associated Riversidean alluvial fan sage scrub.</p>	<b>NOD</b>	
2007121154	<p>Mountain View Avenue Extension and Widening Project at Santa Ana River Project Inland Valley Development Agency San Bernardino, Redlands--San Bernardino</p> <p>CDFG is executing a Lake and Streambed Alteration Agreement (SAA# 1600-2009-0015-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, the Inland Valley Development Agency, represented by Mr. Mike Burrows, 294 South Leland Norton Way #1, City of San Bernardino, State of California, 92408, Phone (909) 382-4100. The proposed project consists of removing the existing abandoned railroad bridge across the Santa Ana River, partial acquisition of selected properties within the right-of-way, expansion of Mountain View Avenue north of the Interstate 10 to the proposed bridge removal/new bridge construction in order to connect Mountain View Avenue with Central Avenue north of the Santa Ana River. This project includes installation of drainage collection facilities and support drainage facilities, which will be constructed within the road right-of-way. The City of San Bernardino's 16-inch water line on the bridge could be installed at any time after completion of the bridge and would involve placing the new pipeline below the bridge roadway in the continuous utility vault area. Installation of the Santa Ana River bridge footings and the San Bernardino Valley Municipal Water District's pipeline in the Santa Ana River may require dewatering of the project area, which would be accomplished by installing and operating wells upstream of the bridge and laying temporary pipes to convey the water from the wells to the paved alignment of Central Avenue, which is currently under construction, from where the discharged well water will be allowed to enter the area-wide drainage system into the Santa Ana River. Dewatering of the project area would only be implemented if it is determined necessary to install the bridge footings and/or the San Bernardino Valley Municipal</p>	<b>NOD</b>

2010049001	GWF Tracy Combined Cycle Power Plant Project Energy Commission Tracy--San Joaquin NOTE: Energy Commission Decision  GWF proposes to modify the Tracy Peaker Plant. With the proposed modifications, the GWF Tracy Combined Cycle Power Plant is projected to increase its electricity generation 145 MW, for a combined total of 314 MW.	<b>NOD</b>	
2010038274	Wells Nos. 1, 34, and 35 (Smyrna, Lions Park, and Hackett Road Well) Public Health, Department of Ceres--Stanislaus The California Department of Public Health is a responsible agency for this project. The City of Ceres proposes to convert existing well (No. 1) to a blending system in Ceres, California and reintroduce into the Ceres water supply system. The blending will lower Uranium and Nitrate levels to below MCL and eliminate the need for notification. In addition, the City has drilled two new wells (Nos. 34 and 35) to mitigate the loss of the city well production.	<b>NOE</b>	
2010048001	Demolition Review D10-003 Tuolumne County --Tuolumne Demolition Review D10-003 for demolition of a residence built in 1910 with additions in the 1930s and 1940s. The 5.9+/- acre property is zoned RE-5:MX (Residential Estate:Five Acre Minimum) and O (Open Space) under Title 17 of the Tuolumne County Ordinance Code.	<b>NOE</b>	
2010048002	Green Valley Lake Cleanup Project Fish & Game Eastern Sierra-Inland Deserts Region --San Bernardino The Applicant proposes to remove approximately one to three feet of silt and/or sand from the beach and swimming areas, boat dock area and the north side of the lake at the boat cove. The ingress and egress will be along the existing access road on the south side of the lake. The purpose of the sand and silt removal is to counteract the erosional forces that have acted on the lake during heavy storm events. Approximately 2,000 cubic yards of silt and sand will be removed from the lake to recontour the abovementioned areas of the lake. SAA #1600-2008-0159-R6.	<b>NOE</b>

2010048015	Hazard Tree Removal / Training Forestry and Fire Protection, Board of --San Bernardino Forest Lawn Scout Reservation (herein referred to as Forest Lawn) is owned by the Boy Scout Council of Los Angeles. the property is located east of Lake Arrowhead, CA and west of Running Springs, CA. The total proposed project area is 421 acres; however the total area that will be impacted is 130 acres. The property is heavily utilized for a variety of recreational uses, including but not limited to hiking and site seeing. In the early 2000's, Forest Lawn and the surrounding areas suffered severe tree mortality due to bark beetle infestations. In 2003, much of Forest Lawn was burned by the Old Fire resulting in additional tree mortality and four years later the Slide Fire burned portions of the property yet again. The result of these damaging agents is the presence of many standing dead trees that are in various stages of decay, and over time, result of these damaging agents is the presence of many standing dead trees that are in various stages of decay, and over time, in danger of structural failure.	<b>NOE</b>	
2010048017	Tier 2 - Planning Study that will include test wells for Water Quality Upgrade Rand Communities Water District --Kern The purpose of this planning study is to investigate the feasibility of drilling wells that meet the arsenic MCI and, if necessary, determine the most beneficial method of arsenic treatment. The intent of the planning is to prepare the necessary engineering design elements and drill test wells such that RCWD will be ready to resubmit a SRF Construction Loan Application that can be considered "shovel ready." The planning scope will also include hydrogeological investigation, surveying, plans and specifications, environmental documentation, and application for construction funds.	<b>NOE</b>	
2010048018	Tower Road Bridge Water Main Repair Camp Meeker Recreation and Park District --Sonoma A culvert failed under Tower Road resulting in a road washout and exposing an existing 6" and 8" water main. A temporary bridge was installed and the water Mains were temporarily supported from the bridge. The proposed project would utilize bell restraint harnesses at the exposed joints in the mains to secure them from separating. An I-beam would be suspended from the bridge in two locations and a support structure would be constructed underneath the mains to provide support until the crossing is permanently repaired. All work would occur in the fill above the existing culvert and appropriate erosion controls will be implemented to prevent down-gradient migration of any fugitive soils.	<b>NOE</b>

	150 and 180 Conejo Road would occur prior to the Lot Line Adjustment. Proposed Adjusted Parcel One would be 9.33 acres (gross/net) with an average slope of 48% and Proposed Adjusted Parcel Two would be 4.32 acres (gross), 4.09 acres (net) with an average slope of 33%. Proposed Adjusted Parcel One would have a 16,124 af development envelope with an average slope of 20% and Proposed Adjusted Parcel Two would have a 20,890 sf development envelope with an average slope of 27%. No development is currently proposed.		
2010041014	California River Parkways Trailhead Project Ventura County Watershed Protection District --Ventura NOTE: Review Per Lead	<b>MND</b>	05/05/2010
	The proposed project would provide a new trailhead to an existing trails network maintained by the Ojai Valley Land Conservancy (OVLC). The primary components of the proposed project include 0.86 acres of "rustic" parking areas, including ADA-compatible parking spaces, passenger vehicle, equestrian, and bus parking; interpretive kiosk, providing information about the trails, trail safety, cultural resources, and natural resources; and trail improvements, including the construction of a connector trail between the parking areas and an existing unimproved Ojai Valley Sanitation District (OVSD) maintenance road, construction of an ADA-compatible trail adjacent to the existing unimproved OVSD maintenance road, and improvements to existing structure sections of OVLC trails.		
2010042008	County File #LP08-2055: ABA Energy Natural Gas Wells Contra Costa County --Contra Costa NOTE: Review Per Lead	<b>MND</b>	05/05/2010
	The proposed project involves a request to allow the establishment of 3 exploratory natural gas wells. The proposed well site is located ~5 miles northeast of the City of Oakley, on Jersey Island, in Contra Costa County. The proposed well site is located in a cattle-grazing area ~0.8 miles northwest of Jackass Point. The False River is also located ~500 ft north of the project site. Access to the northern boundary of the project site is available via a farm access road that descends from the levee road and runs along the False River. The levee road leads into Jersey Island Road ~2 miles southwest of the project site. The 210 acre property is owned by the Ironhouse Sanitary District.		
2010041009	Beaumont Wastewater Treatment Plant Expansion Project Beaumont, City of Beaumont--Riverside Beaumont Wastewater Treatment Plant (WWTP) is located on a 33-acre parcel on Fourth Street in the heavy industrial area of the City of Beaumont. The City of Beaumont proposes to upgrade and expand the facilities of the Beaumont Wastewater Treatment Plant (the Project) from its current treatment capacity of 4.0 million gallons per day (MGD) to 8.0 MGD. The overall goal of the Project is to provide improved sewer and water reclamation services for the residents, businesses, industries and institutions in the City of Beaumont in response to the existing demand and in partial fulfillment of the projected build-out of the City called for in the City's General Plan.	<b>NOP</b>	05/04/2010

<b><u>Documents Received on Monday, April 05, 2010</u></b>			
2008062055	TTM 07-1000 & PDUP 379 Red Bluff, City of Red Bluff--Tehama The proposed project would subdivide two (3) existing lots, totaling +/- 16.20 acres, (APN 035-020-022 & 035 and 35-510-015) into 65 single family dwelling unit lots and two designated remainder parcels totaling 3.6 acres. The lots would range in size from 4,610 to 18,657 sf. The subdivision would be accessed from South Jackson Street with a secondary access through Snow Mountain Way (an existing road) back to South Jackson Street. This primary access would connect to an internal temporary cul-de-sac during phase one with a 20 ft wide all weather surfaced secondary access road to Snow Mountain Way, Phase Two would extend Snow Mountain Way and Phase Three would permanently connect Snow Mountain Way with the proposed road off to South Jackson Street. Sewer and water will be supplied by municipal providers. Stormwater for the developed lots will enter drains that connect to the City stormwater system. Existing sanitary sewer, potable water and stormwater system infrastructure is adjacent to the site, within the South Jackson Street right-of-way.	<b>Neg</b>	05/04/2010
2010041013	Venoco, Exploratory Oil Wells Monterey County --Monterey Use Permits to allow the drilling of 9 exploratory oil and gas wells on 3 sites locations within 3 separate parcels, as follows: Well site #7-a, is located in Section 7, (Township 24 South, Range 11 East). The site is ~0.60 miles south west of Highway 101 and ~0.90 miles south east of Jolon Road, (APN 424-101-023-000). Well site 1-b is located in Township 24 South, Range 10 East, Section 1, .5 miles west of Highway 101 and 0.20 miles north of Jolon Road (APN 424-081-016-000); and well site 34-b is located in Township 23 South, Range 10 East, Section 34. The site is ~2.2 miles west of state Highway 101 and ~0.09 miles north of Jolon Road (APN 423-091-040-000). The project will require a total of 30,010 cy of soil will be redistributed on each site, for each pad. Project site 7-a will require 2,770 cy of cut and 2,560 cy of fill. Project site 1-b will require 8,970 cy of cut and 8,240 cy of fill, site 34-b will require 18,270 cy of cut and 16,320 cy of fill. The remainder 2,890 cy of spoils will remain on each respective site. The project is located along the west side of Highway 101 approximately 3 miles northwest of the town of Bradley, South County area plan.	<b>Neg</b>	05/04/2010
2010042006	Trinity County 2009 Housing Element Update Trinity County --Trinity NOTE: Review Per Lead  The county is updating the Housing Element of the Trinity County General Plan. The element discusses the current housing conditions, the current and project demographics, the housing needs, and programs for addressing those needs. It addresses relationship and consistency with the other elements of the General Plan, and contains goals and policies to ensure existing and future development meets the intent of the element.	<b>Neg</b>	05/13/2010

2007082161	East End Gateway Site 1 Project Capitol Area Development Authority Sacramento--Sacramento The Project is a revision to the 2008 East End Gateway Site 1 Project. The 2010 Project would develop a total of 117 residential units and ~5,217 sf of commercial retail space. The project site currently contains an apartment building and paved parking lot and associated landscaping. The apartment building and parking lot would be demolished, although, if feasible, a portion of the apartment building would be relocated. The project building would be 5 stories tall on the western half and 8 stories tall on the eastern half.	<b>NOD</b>	
2008012048	Fremont Merged Redevelopment Project Area Plan Amendment Fremont, City of Fremont--Alameda Consolidated Amended and Restated Redevelopment Plan increases the cap on collection of tax increment from 400 million dollars to 1.5 billion dollars. The cap increase would fund pass-through payments to other taxing entities and implementation of the Redevelopment Plan for transit and railway improvements, economic development and property acquisition, building and facade improvements, public infrastructure, hazardous materials cleanup, and affordable housing. The Redevelopment Plan activities and programs are estimated to cause direct and indirect growth through 2030 of an additional 3,017 housing units, 586,870 sf of commercial development, and 554,700 sf of industrial development.	<b>NOD</b>

	to a maximum of 13 feet. Based on document research and Native American consultation, two cultural resources were identified in the immediate vicinity of the Dr. Fine Bridge.		
2010048022	Chamberlain Creek High Speed Internet Relay Forestry and Fire Protection, Board of --Mendocino This project is to install an integrated antenna/radio in a tree on a ridge top between Cahto Peak and Chamberlain Creek Conservation Camp to provide a high-speed internet "link" for service to Chamberlain Creek Camp. The 14" x 14" integrated antenna/radio will be mounted approximately 70 feet high on a 110 foot tall Douglas-fir tree along with a small solar panel to provide power.	<b>NOE</b>	
2010048023	Parlin Fork High Speed Internet Relay Forestry and Fire Protection, Board of --Mendocino This project is to install integrated antenna/radio in a tree on a ridge to relay a high speed internet "link" from Cahto Peak to Chamberlain Creek Conservation Camp Relay location off of Jackson Demonstration State Forest Road 234 then a relay to the Whiskey Springs tower and finally a relay to the Parlin Fork Conservation Camp. The Camp currently has a "dial up" internet connection and there are no other fiscally feasible alternatives for service that will support CAL FIRE's "intranet" connectivity requirements.	<b>NOE</b>	
2010048024	Buzztail Community Fuels Reduction Project Forestry and Fire Protection, Board of Oroville--Butte This is a fuels reduction project that will create a fuelbreak with an average width of 40 feet for an approximate seven (7) miles in length around the Buzztail Community Services District, located in the foothills northeast of Chico, Ca. Work will entail the cutting, piling, and burning of heavy brush to widen the existing fire lines created during suppression of the 2008 Humboldt Fire. The intent of this project is to reduce hazardous fuels loading by removing brush and down woody material and eliminating rapid burning flashy fuels with the goal of reducing the rate of fire spread, duration, and intensity.	<b>NOE</b>	
2010048025	Highway 25 Right-of-way Fuels Hazard Reduction Forestry and Fire Protection, Board of --Butte This project will create a fuel break an average width of 40 feet for approximately 6 miles on each side of State Highway 32. The project will consist of cutting, piling, and burning of vegetative material within the highway right-of-way. All work will be accomplished by hand crews, no mechanical operation will occur off of any paved or graveled surface.	<b>NOE</b>	
2010048026	Monte Toyon Shaded Fuelbreak Maintenance Forestry and Fire Protection, Board of --Santa Cruz The work proposed consists of reestablishing a shaded fuelbreak along an existing fire road, 0.6 (six tenths) mile long, that connects Redwood Drive to Aptos Creek Road. Work to be done involves removal of small diameter acacia, Douglas-fir and tan oak along both side of the road, within 40 feet of the existing road surface. Material will be piled for burning in designated burn pile locations established along the road.	<b>NOE</b>

	to I-10, adjacent to the east side of Tri-Palm Estates and within SCE's existing ROWs or franchise locations; Looping the existing Devers-Coachella 220 kV transmission line from an existing ROW to the south for approximately 0.8 mile on double-circuit lattice steel towers to Mirage Substation, located near the community of Thousand Palms; Installation of a new 280 megavolt amperes (MVA) 200/115 kV transformer, two new 220 kV circuit breakers, and five new 115 kV circuit breakers at SCE's existing Mirage Substation; and Subtransmission line reconfigurations at the intersections of Bob Hope Drive and Dinah Shore Drive, Portola Avenue and Gerald Ford Drive, and Varner Road and Date Palm Drive.		
2008031009	Granite Mountain Wind Energy Project San Bernardino County Apple Valley--San Bernardino The Proposed Project also requires the issuance of a Conditional Use Permit (CUP) and a Major Variance for height from San Bernardino County, for which the applicant applied in October 2007. The County is currently reviewing these applications. The Proposed Project would include the installation of up to 28 2.3 megawatt (MW) Siemens wind turbines (or similar model of wind turbine between 91.2 to 109.3 acres and a total ROW of 2,756 acres. At full capacity, the Proposed Project is anticipated to produce ~185,000 megawatt-hours (MWh) of electricity per year.  The proposed wind turbine towers would be 80 meters (262 ft) tall (hub height) above existing grade. The turbine blades would extend an additional 50.5 meters (166 ft) above the hub, for a total tip height of 130.5 meters (428 ft) above existing grade.	<b>JD</b>	05/20/2010
2010041015	Pursell Pond Project Fresno Irrigation District --Fresno The primary purposes of the project are water storage and regulation, groundwater recharge and water conservation. The project consists of a regulatory basin, a percolation basin and several water control structures. The improvements will be developed, owned and operated by the Fresno Irrigation District. In addition to increasing the FID's overall water supplies, other project goals and objectives include sustaining more uniform water delivery flow rates to constituents; maintaining the high quality water supply of FID; sustaining the viability of agriculture within FID; and reducing overdraft by dedicating water to groundwater recharge.	<b>MND</b>	05/05/2010
2010041017	Coachella Wastewater Treatment Plant phase II Upgrades Coachella, City of Coachella--Riverside The proposed project consists of upgrades to the Avenue 54 Wastewater Treatment Plant (WWTP). The project includes replacing existing equipment along with an expansion of the sludge dewatering/drying beds. All of the proposed upgrades would take place within the existing site; no new disturbance or facilities are proposed outside of the existing WWTP area.	<b>MND</b>	05/05/2010

2010044005	CERS for Establishing the Las Pulgas and San Onofre Landfill Facility Boundaries U.S. Marine Corp --San Diego NOTE: Reference SCH#'s 1998034022, 1998034021, 1998114002  Joint Document consists of a Continuing Environmental Review Statement documenting the impacts of administratively redefining the facility boundaries of San Onofre and Las Pulgas landfills on Camp Pendleton. This administrative action has occurred in response to Title 27 of the California Code of Regulations Section 20925, which requires the installation of methane gas monitoring wells within the landfill facility boundaries but outside of the waste footprints. No change to the land use or to activities within the re-defined facility boundaries is proposed and the disposal area footprints will not be expanded.	<b>JD</b>	05/06/2010
2010041019	Cressey Recharge Basin Merced Irrigation District --Merced NOTE: Reference SCH# 2004041139  The Merced Irrigation District (MID) previously initiated the construction of a pilot groundwater recharge basin to evaluate the suitability for the installation of a full scale recharge basin. Based on successful pilot testing data, a 10+ acre groundwater recharge basin will be constructed on the 18 acre site, with the remaining acreage used to stockpile the material from construction of the basin. This recharge basin will be used for recharging the Merced Groundwater Basin, as described in the California Department of Water Resources Bulletin 118-80, with Merced River surface water. The project is the construction and operation of the complete recharge facility at this location.	<b>MND</b>	05/06/2010
2010042020	Master Agreement for Timber Operations and Road Management WDR for Green Diamond Resource Co. Fish & Game #1E Crescent City, Eureka--Del Norte, Humboldt, Trinity The Project is the issuance of a 50 yr Master Agreement for Timber Operations (FGC Sec 1600 et seq) and RMWDR that would allow GDRCo to construct, maintain, repair, replace, upgrades or decommission stream crossings, bank stabilization structures and instream restoration structures; draft and divert water; remove sediment and other channel obstructions; and remove vegetation affecting crossing facilities. GDRCo seeks approval of this Project to allow full implementation of its 50 yr Aquatic Habitat Conservation Plan (AHCP)/ITP requirements.	<b>MND</b>	05/06/2010
2010042023	Seven Bridges Subdivision Project: Tentative Subdivision Map Application S-3-09; Rezoning Application RZ-2-09, and Planned Development Plan Application PD-1-09 Redding, City of Redding--Shasta MD Development is proposing to create 127 single family residential lots on 38.3 acres at 6600 and 6650 Oasis Road, approximately 1/5 mile west of Old Oregon Trail/Akrich Street in an "RS-3" Residential Single Family District with a General Plan designation of "Residential, 2 to 3.5 units per acre." The development is to occur in multiple phases and is proposed as a planned development. Rezoning of the property is necessary to add the "PD" Planned Development Overlay District to the property's base zoning designation, allowing variation from several Zoning	<b>MND</b>	05/06/2010

	Code performance standards. On-site stormwater detention is proposed in order to maintain peak stormwater flows at predevelopment levels.		
2010042024	Feliz Creek Bridge Replacement, BR #10C-0134 Mendocino County --Mendocino The existing bridge at Feliz Cr. near Hopland was built in 1960. The bridge is deteriorated and is now classed as Structurally Deficient (SD) with Sufficiency Rating (SR) of only 27.7. The mostly wooden bridge has two spans with a combined length of 61 ft. In 2000, the bridge required structural reinforcement by installation of two steel I-beam "strongbacks" placed on the upper road deck, constraining road width to about 12 ft. It is proposed that the bridge will be replaced at an adjacent southerly location with a new conforming structure of steel or concrete (most likely a combination of both). The new bridge would be a two-span (40 ft +/- each) flat slab bridge with one center bent. During the construction of the new bridge, the existing bridge will need to remain in place to serve as a detour for traffic. This will result in a new alignment for the approaches for the new bridge. Approaches to the bridge will be realigned both vertically and horizontally, and cross slopes corrected to meet current standards.	<b>MND</b>	05/06/2010
2010042026	2009-0007 Beale AFB Access Project (Smartville Road) Yuba County --Yuba The Yuba County Public Works Department is requesting County review and approval of an Environmental Assessment plan for roadway rehabilitation work along a 6.5 mile section of Smartville Road that would utilize the cold-foam in-place asphalt concrete pavement recycling technique to resurface the roadway, the installation of turn lanes at Smartville Road's intersection with Walsh Lane and with its intersection with Daughtery Road, shoulder widening, the replacement of existing drainage culverts, and flattening out existing curves. The installation of turn lanes at these intersections and the shoulder additions and flattening of curves are intended to increase road safety. All roadwork and staging of equipment would take place within the existing road right of way, and the resulting road would increase to an average of 30 ft in width.	<b>MND</b>	05/06/2010
2010041020	Mustang Court General Plan King City King City--Monterey NOTE: Review Per Lead  Mike Sala would like to develop the parcel at Mustang Court (APN 026-071-073) as a multi-family residential project similar to the adjacent residential properties in the neighborhood. The size of the Sala property is 28,656 sf (.6579 acres). The existing General Plan Land Use category for the parcel is MDR (Medium Density Residential), which allows a maximum of 12 units per acre (DU/AC) or 7.9 units for the Sala parcel. The existing Zoning District for the Sala parcel is R-3 (Medium High Density Residential). The R-3 zone requires 2,000 sf of site area per unit (i.e. allows 21.78 units per acre). Under the R-3 zoning, the property could be developed with 14 units.  If designated to MHDR (18 du/ac), approximately 24 new units could be developed on the two vacant parcels (APN 026-071-073) (Sala property) and 026-071-070). Under the existing MDR designation (12 du/ac), approximately 16 units could be developed. Therefore, the redesignation allows a potential increase	<b>Neg</b>	05/12/2010

<b><u>Documents Received on Thursday, April 08, 2010</u></b>			
	The project includes modification to the signal mast arms and signal poles at the northeast corner. Because the poles are being relocated, new footing will need to be installed at a size of ~3 ft diameter by 12 ft deep in order to ensure the stability of the new poles. A portion of the existing parkway, consisting of a low curb and minimal landscaping, would be removed and paved with asphalt concrete. Signal and striping modifications will also be needed. This project will allow for unrestricted free access right turns from westbound Fred Waring Drive to northbound Highway 111.		
2010042029	U-09-08/RP-09-01 Decker Island - DI Aggregate Solano County Rio Vista--Solano To continue operating a surface mining operation (sand) and concurrently add a pit mining operation (sand/clay). The operation will rotate across the 473 acre portion of the island for a period of 25 yrs. Animal grazing is proposed on the portions of the project area not undergoing mining. The proposed reclamation plan includes returning the island back to agriculture.	<b>Neg</b>	05/10/2010
2010042030	Adoption of NPDES Permit for French Gulch (Nevada) Mining Corp., Washington Mine Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta The project is the adoption of a National Pollutant Discharge Elimination System (NPDES) permit to regulate the discharge of mine drainage from the Washington Mine. This is an existing underground gold mine which has been in intermittent operation since 1852. Historic, on-going mine drainage from mine portals contains elevated concentrations of natural minerals, including arsenic, has been entering Scorpion Gulch and French Gulch for decades. A water treatment system and conveyance pipelines will be constructed to collect and treat on-going and new discharges of mine drainage from the underground workings prior to discharge to surface waters. The collection and treatment of the historic and proposed mine drainage may improve current surface water quality. The proposed NPDES permit will contain requirements to assure the protection of water quality.	<b>Neg</b>	05/10/2010
2009071069	SP 09-01: Meridian Specific Plan Amendment March Joint Powers Authority Riverside, Moreno Valley, Perris--Riverside The project proposes changes in land use designation, lot layouts, site access, and internal circulation; Lot 16; and changes in Specific Plan development regulations within the March Business Center.	<b>SBE</b>	05/24/2010
2000071068	General Lease - Public Agency Use California State Lands Commission Huntington Beach--Orange Continued management of the Bolsa Chica Lowlands Restoration Project by the Department of Fish and Game through a 3 year Interagency Agreement that provides funding ~\$750,000 from the Kapiloff Land Bank Fund.	<b>NOD</b>	
2004012096	Chevron Maintenance Dredging at Eureka Terminal Dock Humboldt Bay Harbor Eureka--Humboldt Maintenance dredging of ~2,300 cy of accumulated sediment over a 15,696 sf area in the vicinity of the Chevron Eureka Marine Terminal.	<b>NOD</b>

2009052047	<p>Capay Dam Apron Replacement Project Yolo County Flood Control and Water Conservation District --Yolo</p> <p>The District is proposing to modify the dam apron on the Capay Diversion Dam by extending it 38 ft and resurfacing the concrete apron downstream from the toe of the dam and along the entire 450 ft length of the structure. The proposed project also includes installation of a grade control structure ~150 ft downstream of the dam. These project features would be designed to protect the dam from the potential advance of downstream erosion and potential dam failure and the long-term streambed degradation of Cache Creek. The proposed project would not result in an increase in diversion capacity, water delivery, or transmission.</p>	<b>NOD</b>	
2009071119	<p>Conditional Use Permit No. 2008-106 (Sweetwater Youth Camp) Mariposa County --Mariposa</p> <p>The Sweetwater Christian Youth Camp proposes to expand an existing recreational reservoir with an island, beaches, docks, a dam, and a spillway. The reservoir will affect the flow in Sweetwater Creek during high water events when the spillway will allow overflow to enter the creek headwaters. The pond surface area will be increased from 10,414 sf to 31,600 sf. The volume will increase from 1,504 cy to 4,461 cy. The dam will be constructed of on-site and imported fill totaling ~3,500 cy and will be ~345 ft long. The spillway will be an Agri Drain Inlet Water Level Control Structure. The water elevation will remain the same before and after construction. The Project area consists of the area within or adjacent to the pond and overflow to Sweetwater Creek, and associated mixed conifer and oak woodland and riparian habitats.</p>	<b>NOD</b>	
2009122077	<p>Richterich and Jones-Resubdivision (MJ1002), Rezone (R1001) and Use Permit (UP1015) Del Norte County Crescent City--Del Norte</p> <p>Resubdivision of a Major Subdivision, Planned Community Rezone and a Use Permit for a Planned Community. The applicant proposes to Rezone a 2.26 acre parcel from Single Family Residential - B Combining District - 6,000 sf minimum lot size (R1-B6) to Planned Community (PC). The project area has a General Plan Land Use designation of Urban Residential - 6 dwelling units per acre permitted (UR 6/1) which is consistent with the existing and proposed zone designations.</p>	<b>NOD</b>	
2010021029	<p>Smith Held, Mixed Use Hotel/Commercial Project Morro Bay, City of Morro Bay--San Luis Obispo</p> <p>The proposed project will demolish the existing buildings and replace them with two similar mixed-use structures that will include a total of two commercial suites encompassing 1,280 sf and a 6 room hotel (4,029 sf) with a public lateral access boardwalk. The site is ~8,340 sf. In addition, an existing dock will be removed and a new access ramp and 8 ft wide by 70 ft long floating dock will be constructed. The new floating dock will be stabilized by struts and cross ties attached to land portion of the lease sites in order to avoid adverse biological impacts within the water. A 10 ft wide later access boardwalk will be constructed the length of the project. A 27 ft wide view corridor through the project is proposed to connect to the boardwalk. Americans with Disabilities Act compliant public restrooms are also proposed within the 27 ft wide corridor. An existing private patio deck will be reconstructed as a public access view deck providing a connection to the public lateral access boardwalk.</p>	<b>NOD</b>

2008111002	Proposed Amended Rules 2700-General, 2701-SoCal Climate Solutions Exchange, and 2702-Greenhouse Gas Reduction Program South Coast Air Quality Management District	EA	05/12/2010
------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------	----	------------

--

Note: Review Per Lead

The currently proposed project requires the following modifications to Rules 2700, 2701 and 2702: 1) amend Rule 2700 so current and future protocols can be added without California Air Resources Board (CARB) approval; 2) amend Rules 2701 and 2702 to incorporate the following amendments: a) update the forest project, urban forestry project, and manure management project protocols to be consistent with the most current versions; b) limit forestry projects to include only reforestation and forestry maintenance projects without harvesting; and c) add a new SCAQMD-developed boiler and process heater efficiency protocol to the protocol list. The purpose of the boiler protocol is to establish a method to quantify voluntary reductions in greenhouse gas (GHG) emissions resulting from an improvement in the efficiency of a boiler or process heater beyond what is required by any rule or regulation. Efficiency improvements would be achieved by retrofitting boilers or process heaters with an economizer/combustion air pre-heater or an Oxygen Trim System (OTS). A previously certified Final PEA for Rule 27-2 from proposed amendments to Rules 2700, 2701 and 2702. However, the notice of reliance has subsequently been withdrawn. The previously certified 2009 Final PEA analyzed potential adverse impacts from greenhouse gas (GHG) reduction projects undertaken by the SCAQMD pursuant to the approved forest, urban forestry and manure management protocols that were included in Rule 2702, as well as concepts for a boiler efficiency protocol that was not yet completed at the time of adoption. However, the potential impact of the boiler protocol's use under Rule 2701 was not analyzed. Therefore, the focus of the analysis in this Draft Subsequent EA is on potentially significant adverse impacts of amending Rule 2701 to add the finalized boiler efficiency protocol along with the analysis of the previously identified impacts from the boiler protocol concepts presented in the previously certified 2009 Final PEA for Rule 2702. The environmental analysis in the Draft Subsequent EA demonstrates that the proposed project would not generate any significant adverse environmental impacts.

2008031019	Santana Ranch Specific Plan San Benito County Hollister--San Benito The project proposes development of up to 1,092 dwelling units, with some opportunities for mixed use in areas designated as multiple residential (SR-RM), as well as approximately 106,000 square feet of neighborhood commercial and office uses. The project is also proposed to include an elementary school with capacity to serve up to 700 students, and a network of parks, recreational facilities, and pedestrian and bicycle facilities. The project is anticipated to be built out in approximately four phases over a period of approximately 10 years.	EIR	05/26/2010

2008111100	Water Distribution System Master Plan and Wastewater Master Plan Elsinore Valley Municipal Water District Lake Elsinore, Murrieta, Canyon Lake, Wildomar--Riverside The proposed project is a Water Distribution System Master Plan and a Wastewater Master Plan for EVMWD to identify needed facilities through 2030 in the District service area. Proposed facilities are prioritized and phased and presented in a Capital Improvement Plan. Project elements to be evaluated at a construction or site specific level, rather than a programmatic level, are the Alberhill Transmission Pipeline, and the Temescal Valley Pipeline (TVP) Pump Station.	<b>EIR</b>	05/27/2010
2009012044	Austin Road Business Park and Residential Community Manteca, City of Manteca--San Joaquin Public/Quasi Public uses include detention basins/parks, open space and an exposition center with a 32,000 sf exposition half for conferences; an amphitheater with 1,000 permanent seats and a 4,000 person capacity lawn seating for outdoor events; and a 10,000 sf agricultural expo facility. 4,198 residential units and 8,195,000 sf of non-residential uses.	<b>EIR</b>	05/26/2010
2005062001	Village 7 Specific Plan Project Lincoln, City of Lincoln--Placer NOTE: Review Per Lead  The proposed project is the construction and occupancy of a 703 acre planned "Village" community with 3,285 units consisting of a mix of low-, medium- and high-density residential dwellings. The project would also include neighborhood serving commercial/retail, community center, extensive open space and parks, and an elementary school. The proposed circulation system would include interior roads, and bicycle path and trail systems. Main access to the site would be from a western extension of Ferrari Ranch Road through the site and connecting to Moore Road on the west. Water and sewer services would be provided by the City of Lincoln via extensions from existing infrastructure.	<b>FIN</b>	
2009112020	Results Radio, LLC Radio Broadcast Tower Use Permit (Amended Application) Yolo County Davis--Yolo The applicant has amended their Use Permit application and now proposes to locate the proposed radio tower at the Yolo County Central Landfill, northeast of Davis. The applicant initially proposed to construct a 335 ft tall radio tower on an Agricultural General (A-1) zoned parcel ~0.75 miles south of the City of Davis, just off Mace Boulevard (APN 069-010-08). A Mitigated Negative Declaration for the project at the previous location was circulated for public comment on November 5, 2009. The base of the tower, 300 sf concrete aggregate structure, and associated equipment (propane tank and generator) will be enclosed in a 30' x 40' area by an 8 ft cyclone security fence. The proposed tower will be of lattice design and have a height of 365 ft and width of two feet. The tower will be held in place with 15 guy wires located at varying heights on the tower (5 guy wires per side on the triangular shaped tower). The sets of guy wires will be anchored at a distance of 235 ft from the base of the tower. Each guy wire anchor area (each 32' x 2') will be enclosed by an 8 ft cyclone security fence. The tower will also include 10 to 12 FM bay antenna elements that will be positioned at 10 ft intervals down from the top of	<b>MND</b>	05/11/2010

	the tower. These appurtenances will add ~24 inches to the width of the tower at their specific locations.		
2010041023	North Ocean Beach Gateway San Diego, City of San Diego--San Diego City Council approval and request for release of funds (RROF) from the U.S. Department of Housing and Urban Development (HUD) from Community Development Block Grant funds in the amounts of \$4,677.83 FY 2006, \$25,000 from FY 2007, \$50,000 from FY 2009 and \$100,000 amount of \$179,677.83) to allow for the demolition of existing building foundations and asphalt parking lot to allow for the construction of a decorative plaza and accessible pedestrian/bicycle entryway to Robb Field. The project has been designed to include walkways, a community wall with personalized tiles, coastal garden, site furnishings, art stands, bicycle racks, artistic railings, landscape and walkway lighting, etc.	<b>MND</b>	05/11/2010
2010041025	Fresh & Easy Neighborhood Market Los Banos, City of Los Banos--Merced The proposal is for the construction of a new 13,969 sf retail store on ~1.22 acres of vacant property. The project includes 66 parking spaces with 3 spaces designated for handicapped parking. The project also includes landscaping which will meet City requirements and the demolition of an ~2,000 sf existing building upon construction commencement. The project also proposes to utilize an existing driveway along Pacheco Boulevard in accordance with Caltrans requirements.  Futhermore, the applicant is requesting the use of a Type 20 alcohol license for the off-sale of beer and wine at this location.	<b>MND</b>	05/11/2010
2010041026	Electrical Infrastructure at the Southern California Logistic Airport Victorville, City of Victorville--San Bernardino NOTE: Review Per Lead  Generally, the project proposes to construct ~4 miles of electrical infrastructure within the Southern California Logistic Airport. All infrastructure will be located either within existing unpaved roadways, parallel to water lines and other recently installed utilities, or along an existing utility corridor. The proposed infrastructure will be maintained and operated by the Victorville Municipal Utilities Services (VMUS). Electrical infrastructure consists of 6 banks of 5-6" conduits, 1/0 wiring and various pull boxes and transformers along the alignment.	<b>MND</b>	05/12/2010
2010041029	Site and Architectural Review No. 2010-1 Hollister, City of Hollister--San Benito NOTE: Review Per Lead  The proposed project is replacing the current one story 8,839 sf firehouse with a 12,318 sf two story firehouse on the existing 12,534 sf site. The project will contain living quarters, apparatus bay, technical support areas, and other necessary facilities. The project is located within the City of Hollister Downtown Mixed Use zoning district. Seventy percent of the lot is covered by firehouse structure itself. The remainder of site is a parking lot. The property is bound	<b>MND</b>	05/11/2010

2009061062	Brentwood Town Green Los Angeles, City of --Los Angeles NOTE: Revised/Recirculated; Review per lead 4/12/2010.	<b>NOP</b>	05/17/2010
	<p>The purpose of the current recirculation of the NOP is to provide updated information about the proposed project as it differs from the Project Description provided in the August 2009 NOP.</p> <p>The applicant proposes to develop a neighborhood-oriented commercial center that would include approximately 51,500 square feet of retail uses, 6,800 square feet of restaurant uses, 7,000 sq. ft. of storage uses, and 8,000 sq. ft. of office commercial uses in a single building. In addition, 3,700 sq. ft. of outdoor dining space within the courtyards and terraces of the commercial center is proposed. The building would contain two stories and would be approximately 39.5 feet in height. The project would include a clock tower or similar architectural element of up to 50 feet in height.</p>		
2010041028	San Lorenzo Sewage Lift Station Santa Ana, City of Santa Ana--Orange The City of Santa Ana is proposing to construct and operate a new sewer lift station (San Lorenzo Lift Station), to be located at the end of San Lorenzo Avenue just east of Bristol Street. The proposed sewer lift station would replace an existing lift station (the Segerstrom Lift Station) that is located beneath Bristol Street, approximately 700 feet to the west of the proposed new lift station. The existing Segerstrom Lift Station would be demolished once the new lift station is operational. Construction activities associated with the project would occur over a 10-12 month period.	<b>NOP</b>	05/11/2010
2010041030	Castle/Winton Wastewater Treatment Facility Project Merced County Atwater--Merced The County of Merced is proposing to develop a new wastewater treatment facility with associated facilities to meet Castle Airport and the Winton Water and Sanitary District's (WWSD) wastewater collection needs.	<b>NOP</b>	05/11/2010
	<p>The proposed project is located within unincorporated eastern Merced County. The project site is located northeast of the City of Atwater, east of the unincorporated community of Winton and west of the Castle Commerce Center and Airport.</p>		
2010041043	Montecito Growth Management Ordinance Extension 09ORD-00000-00014 Santa Barbara County --Santa Barbara The proposed project is the extension of the Montecito Growth Mangement Ordinance (MGMO) (Ordinance No. 3916 as amended) which would extend the ordinance beyond the December 2010 expiration. The project also updates the various administrative provisions of the ordinance as well as criteria and findings. Potential for new residential units evaluated under the Montecito Community Plan Environmental Impact Report (92-EIR-3) would be facilitated by the proposed ordinance extension. The ordinance extension does not include changes to existing land use and primary zoning designations of Montecito.	<b>NOP</b>	05/13/2010

2010042034	City of Fort Bragg General Plan "Clean-Up" Amendments Fort Bragg, City of Fort Bragg--Mendocino NOTE: Reference SCH #2004092129  The City of Fort Bragg is processing a series of minor amendments to the General Plan and the Land Use and Development Code which were adopted by the City Council in 2002 and 2004 respectively. The General Plan establishes policy direction to guide development and conservation efforts in the City over the next decade. Over the past 5 yrs of General Plan and Land Use and Development Code implementation and during the recently completed Local Coastal Plan update process, several opportunities were identified to "clean up" General Plan policies. In addition, the City of Fort Bragg adopted a Coastal General Plan and a Coastal Land Use and Development Code that was certified by the Coastal Commission in 2008, and this has necessitated the removal of language relating to the coastal areas of the City from the new "inland" General Plan and LUDC.	<b>Neg</b>	05/11/2010
2010042035	Use Permit Amendment 194-84A (Hathaway) Shasta County --Shasta The request is to amend the existing Use Permit for the site to add two 7,000 sf industrial buildings and a crane bridge.	<b>Neg</b>	05/11/2010
1993024006	East Sonora Bypass U.S. Federal Highway Administration SONORA--TUOLUMNE Construct a 4 lane freeway with a 14-m median. Interchanges would be constructed at Mono Way near Fir Drive, Hess Avenue, and Standard Road. Grade Separations would be built at two locations along Mono Way where the new highway crosses existing Route 108.	<b>NOD</b>	
1993112045	SITE PLAN SP-15-93 Victorville, City of VICTORVILLE--SAN BERNADINO Modification of an existing Full Solid Waste Facilities Permit to change the name of the owner, remove conditions related to Beverage Container Recycling and Hazardous, Special and Designated Wastes, update Design Parameters, Findings, Prohibitions, Documentation, Monitoring Requirements and LEA Conditions. There is no expansion of the facility, increase in hours of operation, increase in tonnage or vehicles entering the site.	<b>NOD</b>	
2004092135	State Route 4 (East) Widening Project: Loveridge Road to State Route 160 Caltrans #4 Pittsburg, Antioch--Contra Costa Construct two additional lanes in each direction and roadway improvements on Route 4 from the Loveridge Road interchange near the city of Pittsburg to Route 160 near the city of Oakley.	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, April 12, 2010</u></b>			
2009122015	Resort Improvement District Coastal Development and Special Permit Humboldt County --Humboldt A Coastal Development Permit and Special Permit for the construction of an approximately 2,400 square foot storage building used to store maintenance equipment associated with the golf course (Lot LK). The structure will be approximately 16 feet tall and constructed of non-reflective metal siding and roofing. The structure will be located approximately 86 feet from a perennial stream and a native planting plan is proposed along the stream corridor that will enhance the buffer and provide additional habitat. The project utilizes Section 1444 (Errors, Oversights or Omissions) of the County General Plan. It has been determined that the mapping of the boundary between the Natural Resources (NR) and Public Facilities (PF) portions was done in error. A Special Permit is required for Design Review.	<b>NOD</b>	
2010011020	Jameson Pond Expansion Project Fresno Irrigation District Kerman--Fresno The Project proposes the construction of a new 64 acre recharge and banking facility in Fresno County, CA, adjacent to the existing Jameson Pond recharge facility. The Project would also include construction of 2 new diversion turnouts, new conveyance pipelines, up to three new recovery wells with a combined capacity of ~7,500 gallons per minute (GPM), and three new monitoring wells.	<b>NOD</b>	
2010012019	JND Thomas Co, Inc. App for Permit to Operate a Food Processing By-Product Use Site, to Reuse Aerated Pond Mud and Rinse Mud Food Processing By-Products Stanislaus County Oakdale--Stanislaus Applicant(s) has applied for a Stanislaus County Food Processing By-product Use Permit for land applications of food processing by-products. This project includes the land-application of food processing by-product mud, consisting of tomato and bean plant material and soil rinsed from the produce, dredged from the ConAgra facility large aerated pond and by-product rinse mud generated from the rinsing of produce prior to processing to be Chapter 9.88 for food processing by-product use. Subject land application parcels total ~1,878 acres. With required by-product application setbacks and excluded application area at Parcel 3(c), subject land application parcels total ~1,500 usable acres for by-product application. Land application may occur throughout the year. Application of by-product materials would not exceed limits based on agronomic rates for the crops and trees that are planted.	<b>NOD</b>	
2010021066	Mazourka Measuring Station Replacement Los Angeles County --Inyo Replacement of one of the 4 permanent monitoring stations selected by the MOU parties to determine flow compliance for the Lower Owens River project. The replacement structure will be similar in design to the station located at Keeler Bridge. The replacement of the structures is necessary to increase the accuracy of the measurement within this reach of the river.	<b>NOD</b>

	requirements, the project will include a sound enclosure type blower and a blower silencer. The facility is expected to operate continuously for approximately one year; confirmation soil borings will be conducted and the wells decommissioned once acceptable remediation levels have been reached.		
2010048126	Caltrans, Highway 162 Sand Bank Grind and Replace, Storm Damage Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Covelo--Mendocino The purpose of the proposed project is to restore the roadway to pre-storm conditions and improve the facility to prevent further highway deterioration. The proposed construction activities will consist of: replacing culverts; installing drop inlet vaults; grading drainage ditches and sloped adjacent to drainages; installing under-drains; replacing culverts; installing outlet down-drains; replacing asphalt and road base; re-establishing drainage flows; installing rock slope protection (RSP); and conducting slope revegetation and erosion control. The proposed project will result in temporary and permanent impacts to unnamed ephemeral tributaries the Eel River and Middle Fork Eel River. Caltrans has determined that temporary impacts to waters of the U.S. and State would total approximately 0.03 acres (876 linear feet). However, permanent impacts are only 0.005 acres (107 linear feet). Caltrans will utilize Best Management Practices (BMPs) to provide erosion control and pollution prevention throughout the project area during construction. All graded areas within the project affected by the construction activities will be appropriately stabilized and/or replanted with appropriate native vegetation. In addition, the proposed project will restore the former drainage flow at the culvert located at PM 16.69 and reduce the amount of water that flows to the culvert at Pm 16.65. Additionally, Caltrans proposes to lay back steep erodible slopes at PM 14.44 to reduce the sediment delivery potential to the Eel River. The majority of proposed project activity is scheduled to be conducted between July 31, 2010 and October 15, 2010. The proposed in-channel work will only be conducted between June 15th and October 15th.	<b>NOE</b>	
2010048127	Agreement 2009-0187-R4 - Fortner Re-Parcel and New Culvert/Road Construction Fish & Game #4 --Mariposa The Project consists of installation of a new 18-inch culvert in the unnamed blue line feature, and construction of a new 26-foot wide road within a 60-foot road easement over the un-named blue line feature. This Project is part of a larger Project that will divide an 82.64 acre parcel into the following : Parcel 1: 5.85 acres; Parcel 2: 5.02 acres; Parcel 3: 5.05 acres; Parcel 4: 5.15 acres; and a 61.57 acre remainder. The road will provide access to the four (4) parcels and the remainder. The property is in the Residential land use classification and is zoned Mountain Home. The road easement will be used for road and public utility purposes and offered for dedication to Mariposa County. Impacted vegetation includes 43,200sf of native grasses, one (1) Ponderosa Pine (Pinus ponderosa) with a six (6) inch diameter at breast height (DBH), and one (1) Live Oak (Quercus sp.) with a six (6) inch DBH.	<b>NOE</b>

The 115-kV subtransmission line modifications and construction would occur southeast from the Alberhill Substation to Skylark Substation (approximately 11.5 miles) and from Skylark Substation to Newcomb Substation (approximately 9 miles).	<b>NOP</b>	05/12/2010
2010041033	South Bay Metro Green Line Extension Transit Corridor Los Angeles County Redondo Beach, Lawndale, Torrance--Los Angeles The proposed South Bay Metro Green Line Extension Transit Corridor project would provide new rail service into the South Bay area of Los Angeles County, connecting the Los Angeles International Airport (LAX) area to the City of Torrance. The Study Area follows the existing Harbor Subdivision railroad corridor for 8.7 miles through the Cities of Los Angeles, El Segundo, Hawthorne, Manhattan Beach, Redondo Beach, Lawndale, and Torrance, and includes the Lennox and Del Aire areas of unincorporated Los Angeles County. Potential rail technologies that will be studied include Light Rail Transit (LRT), Self Propelled Rail (SPR), and Commuter Rail Transit (CRT).	<b>NOP</b>	05/12/2010
2010042042	Cherry Orchard Ranch General Plan Amendment and Residential Development (GPA 09-01; ZC 09-03; AHE 09-01; CUP 09-02) Gilroy, City of Gilroy--Santa Clara The proposed project includes an amendment to the City of Gilroy General Plan land use map to change the project site land use designation from General Services Commercial to Low Density Residential. The general plan amendment would also entail changes to the text to allow residential development east of U.S. Highway 101. Gilroy General Plan Policy 1.03 would be amended to add an allowance for affordable senior housing east of U.S. Highway 101. A change would also be made to the text on Gilroy General Plan page 3-3 to change a reference to housing only on the west side of U.S. Highway 101.	<b>NOP</b>	05/12/2010
2010042043	Napa Downtwon Specific Plan Napa, City of Napa--Napa The purpose of the Downtown Napa Specific Plan (DNSP) is to provide a comprehensive guide for future public and private investment in Downtown Napa crafted from a community-based vision. The DNSP will build from a strong base of General Plan policies focused on the Downtown area.	<b>NOP</b>	05/12/2010
2010041032	5478PT (PP08251) Kern County --Kern Parcel Map No. 11243: proposing to divide a 6.56 acre parcel into 19 industrial parcels and 1 sump lot.	<b>Neg</b>	05/12/2010

2010041034	Wye Road Intersection Improvement Project Bishop, City of Bishop--Inyo NOTE: Review Per Lead	<b>Neg</b>	05/13/2010
	<p>The Wye Road Intersection Improvement Project is located within the City of Bishop, CA at the intersection with Highway 6. The proposed project will widen Wye Road for a distance of ~540 linear ft west of the intersection and 360 linear ft east of the intersection to construct dedicated right and left turn lanes onto Highway 6. The purpose of the project is to improve the traffic safety.</p>		
2010041035	Moorpark Wastewater Treatment Plant Reclaimed Water Distribution System Ventura County Waterworks District No. 19 Moorpark--Ventura NOTE: Review Per Lead	<b>Neg</b>	05/13/2010
	<p>The MWTP and proposed reclaimed water pipeline route is within unincorporated Ventura County, whereas the proposed tank site is located within the City of Moorpark. The tank site is ~3/4 acre in size, located on a 1.83 acre parcel owned by the District.</p>		
	<p>The proposed project is the construction and operation of the second (II) and third (III) phases of the MWTP reclaimed water distribution system. Phase II would include a 1.5 MG welded-steel, above-ground reclaimed water tank to be constructed at an existing graded site located north of Championship Drive at the Moorpark Country Club Estates, and 3,000 linear feet of 16 inch pipe in Los Angeles Avenue and 12 inch pipe in Hitch Boulevard.</p>		
	<p>Phase III would include the construction of an additional 10,000 linear ft of 8 inch and 12 inch reclaimed water line. The Phase III pipeline is intended to follow the alignments of existing potable water mains while maintaining the minimum State-mandated separation requirements between potable and reclaimed water lines. The proposed pipelines would be either ductile iron or polyvinylchloride (PVC).</p>		
2010042040	Moore Creek Park Napa County St. Helena--Napa Application for and adoption of a Use Permit from County of Napa to allow the District-owned Moore Creek parcels to be improved and used as a public recreational facility, including trails for hiking, for horseback riding and mountain bicycling, staging area, walk-in camping using both tents and tent cabins, on-site sale and rental of supplies and equipment to campers and other park users caretaker residences using two existing houses, and volunteer and District-sponsored events; execute agreement between District and City of Napa to allow the District to improve, maintain and operate non-motorized recreational trails on the City property north of Lake Hennessey, and actions by the District to construct, maintain and operate the improvements on both District and City lands.	<b>Neg</b>	05/12/2010

	<p>phase the agent-based control will be developed and demonstrated at Southern California Edison transmission facilities in the Tehachapi area. A successful project will demonstrate that applying agent technology in this way expands the potential delivery of renewable energy and use of existing transmission facilities for the benefit of the consumers in California.</p>		
2010048147	<p>Potential Impacts from Geologic Carbon Sequestration on Groundwater Resources in Central Valley of California Energy Commission Berkeley--Alameda</p> <p>The proposed work comprises two related projects to be conducted over a two-year period. Project A will utilize production and pressure data from oil reservoirs in the San Joaquin Valley to estimate pressure changes that will result from CO2 injection, both within the storage reservoir as well as in overlying and underlying strata that are hydraulically communicating. Project B will link a DOE-funded simulation of industrial scale CO2 storage in the deep sediments of the southern San Joaquin Valley, with existing groundwater management models for the area, in order to investigate whether the pressure changes and brine displacement caused by future CO2 storage in deep sediments will impact the areas groundwater and surface water systems.</p>	<b>NOE</b>	
2010048148	<p>Analysis of Forest Biomass Removal on Biodiversity Energy Commission --Sacramento</p> <p>The objectives of this study are to determine the effects of different types and extents of fuel reduction treatments in conifer forests on the vertebrate biological diversity with emphasis on conifer forests most often the focus of fuels reduction treatments. The desired outcome of this study is the ability to reliably predict the effect of different types and extents of treatments in conifer forests on various measures of biological diversity.</p> <p>Fuels reduction treatments can consists of a range of types and combinations of treatments, including different starting conditions (tree sizes and densities, fuels volumes by type), thinning prescriptions (the number, type, and location of trees removed and remaining), and reduction of remaining fuels (mastication, biomass removal, prescribed fire). All treatments involve the removal of biomass, but some treatment types result in greater biomass removal than others. This study will pursue the evaluation of fuels reduction treatments as a gradient of intensities of treatments to enhance the ability to predict the effects of various planned or considered treatments at site and the landscape scales. Responses can be most effectively and feasibly measured at the site scale, but cumulative effects at the landscape scale will ultimately drive the effects on biological diversity. The study will quantify site-scale responses of various treatment types and intensities and then use these results to predict the effects of various landscape-scale treatment scenarios.</p>	<b>NOE</b>	
2010048149	<p>Validation of an Environmental Analysis Tool (PACT) for Renewable Energy Siting Energy Commission Sacramento--Sacramento</p> <p>The goals of this agreement are to 1) validate a decision support tool developed by PIER that is designed to provide a technically robust environmental analysis land areas, communicate the analysis to stakeholders, and facilitate siting new renewable energy and supporting transmission line developments in California and 2) meet the goal of Public Resource Code 25620.1(b)(4) (SB 1250) to advance electricity technologies that reduce or eliminate consumption of water or other</p>	<b>NOE</b>

	tribal members with funds received from the Department of Housing and Urban Development. The Tribe has no plans to change the land use.		
2010044006	Cachil DeHe Band of Wintun Indians of the Colusa Indian Community Bureau of Indian Affairs Colusa--Colusa NOTE: Review Per Lead	<b>EA</b>	05/13/2010
	The Environmental Assessment (EA) has been prepared for the U.S. Bureau of Indian Affairs (BIA) to support an application from the Cachil DeHe Band of Wintun Indians of the Colusa Indian Community for 225 acres of land to be placed into federal trust, which is intended to be used for continued agricultural production of walnuts and construction of up to 20 houses for Tribal members. The EA describes and analyzes two development alternatives and a No Action alternative.		
2004031114	Church of the Woods San Bernardino County --San Bernardino NOTE: Review Per Lead	<b>EIR</b>	06/03/2010
	Tentative Parcel Map 16155 to create 5 parcels and a Conditional Use Permit to establish a Church and related facilities on 38 acres.		
2007021133	Oceana Retirement Facility and Holiday Harbor Courts Project Los Angeles County --Los Angeles	<b>FIN</b>	
	The proposed project is the Oceana Facility (Parcels OT and P) and the Holiday Harbor Courts (Parcel 21). The proposed Oceana Retirement Facility development would replace an existing 183 space parking lot with a 114 unit active seniors accommodations facility, 5,000 sf of retail, ancillary facilities, and public and private parking. The project proposed would transfer 94 of the LCP permitted 186 public parking spaces on Parcel OT to Parcel 21, with the remaining 92 public parking spaces being retained on Parcel OT. The Ocean Retirement Facility development would require an LCP Amendment to both the LUP and the Implementing Program (the Specific Plan) to create an Active Seniors Accommodations Land Use Category in the LCP and re-designate Parcel OT as an Active Seniors Accommodations parcel. A transfer of approved development potential between Development Zones (hotel units from the Admiralty DZ #7 and retail space from the Palawan/Beach DZ #5 to the Oxford DZ #6, where Parcel OT is located). The project would be subject to a new set of development standards similar in character to the current Residential V designation of the LUP. The LCP Amendment also includes an adjustment to the lease parcel boundary between Parcel OT and Parcel P, which would also necessitate adjustments to the corresponding LCP maps. The Holiday Harbor Courts development would replace existing users with 2,916 sf of retail and 11,432 sf of marine commercial uses, a public park plaza and promenade, and a 447 space 6 level parking structure, which would be partially subterranean. Uses approved for Parcel 20 (Phase II) but not built, including marine commercial space and a 5,000 sf yacht club, would be transferred to Parcel 21, as would 94 parking spaces from Parcel OT. The proposed project would reduce the existing health club floor area by 6,000 sf (from 16,000 to 10,000 sf), with the remaining floor area planned for additional marine commercial uses. With the transfer of land uses from Parcel 20, the development on Parcel 21 would result in 0 sf of net new leasable area within the Panay DZ #4 of the Marina del Rey LUP. Additionally, Parcel 21 would be reduced by 207 ft of

	frontage, of 31,050 sf, through a partial lease termination. The partial lease parcel termination would increase the area of ) Parcel 21 would be reduced by 207 ft of frontage, or 31,050 additional parking under a separate project.		
2009112061	Latrobe Road Property Annexation to El Dorado Irrigation District El Dorado Union High School District --El Dorado EDUHSD proposed the annexation of a 215 acre area into the El Dorado Irrigation District (EID). A proposed high school project may be located on ~65 acres, and was analyzed in a 2002 EIR (2001072007). The current analysis considers the potential environmental impacts that could result from the full development of the Site; the zoning and General Plan land use designations indicate that the 150 acre balance of the Site not utilized for school purposes could be developed with up to 15 dwelling units.	<b>MND</b>	05/13/2010
2010041038	Jordan Agricultural Research Center at Fresno State California State University Trustees Fresno--Fresno The proposed project consists of 3 phases: Phase I would consist of the main building which would include ~23,221 sf of space devoted to a pilot food processing plant, food safety research labs, food engineering, product development and packaging. Phase II would be a separate two to three story building tot he south of the main building and would total ~25,217 sf. This building would house the future Institute for Climate Change, Oceans and Atmosphere (ICOA) Center. Phase III would include the expansion to the east of the pilot plant in the main building of ~10,000 sf. The total square footage of the proposed project (58,438 sf) has been rounded to 58,500 sf for the purpose of this analysis.	<b>MND</b>	05/13/2010
2010041040	ENV-2009-4047-MND - 1540 North Eubank Avenue Los Angeles, City of --Los Angeles NOTE: Review Per Lead  Zone Variance request for the continued legal nonconforming use of a cargo container storage facility that is stacked up to 4 containers high, with an approximate height of 38 ftm and not fully enclosed with solid wall or solid wall or solid fence of a height sufficient to screen the use from public view, pursuant to section 12.23-C,2(c) of the Los Angeles Municipal Code. Project is located on an ~9.43 acre lot, within the [T][Q]MR2-1VL Zone.	<b>MND</b>	05/17/2010
2010041041	Dakota Residences San Diego, City of San Diego--San Diego Site Development Permit to demolish one single dwelling unit and construct 2 single dwelling units. Lot 1 is ~0.977 acres and would be developed with a 6,241 sf, 2 story with basement residential structure and a 693 sf companion unit. The south half of Lot 7 is ~5.08 acres and would be constructed with a 6,718 sf single story with basement residential structure. The project would also construct various associated site improvements (i.e. pool/cabana, retaining walls, hardscape and landscaping). The combined 6.05 acre project site is located at 4210 Dakota Drive in the RS-1-1 (Residential-Single Unit), RS-1-7 (Residential-Single Unit), and the Clairemont Mesa Height Limit Overlay Zones within the Clairemont Mesa Community Plan area. The site is not included on any Government Code of listing of hazardous waste sites.	<b>MND</b>	05/13/2010

2010041042	Minor Use Permit and Coastal Development Permit San Luis Obispo County Cambria--San Luis Obispo Construction of 5,019 sf SFR.	<b>MND</b>	05/13/2010
2010042047	Madrone Landfill Closure Project Santa Clara County Morgan Hill--Santa Clara The scope of the Madrone Landfill Closure Project includes the following:  1. Closure of the landfill on site in accordance with the "Madrone Landfill Closure Workplan", dated October 28, 2002.  2. Construction of an interim trail, during the removal and reconstruction of the existing segment of Coyote Creek Trail on site.  3. Removal of the existing paved public trail, a segment of Coyote Creek Trail, and reconstruction of a new paved trail and new fencing in the approximate original location.	<b>MND</b>	05/13/2010
2009112060	UC Davis Sacramento Campus Graduate Studies Center University of California, Regents of the Sacramento--Sacramento The 2010 LRDP EIR will evaluate environmental impacts from all foreseeable development on the campus over the next 15 years, including the proposed Graduate Studies Center. The project-level analysis for the Graduate Studies Center will be tiered from the IRDP program-level analysis and a project-specific impact analysis will be prepared where it is determined that the program-level analysis in the 2010 LRDP EIR does not adequately address the impacts of the proposed Graduate Studies Center project. The project-specific analysis will also include an evaluation of alternatives to the Graduate Studies Center project that would avoid or reduce one or more of the project's potentially significant effects.	<b>NOP</b>	05/13/2010
2010041044	Occidental College Swan Hall Addition and Renovation, Occidental College Los Angeles, City of Los Angeles, City of--Los Angeles The Applicant, Occidental College, is proposing to renovate the 16,340 square foot (sq ft) three-story Swan Hall and construct a 22,700 sq ft 3-story addition. (No change in student or faculty population is anticipated as a result of the project) Originally designed by Myron Hunt as a dormitory for the original campus, Swan Hall was constructed in 1914 and remodeled and repurposed in 1960 as a faculty office building. The building is a contributory structure to an identified Historic District. Today, Swan Hall houses six academic departments and one third of Occidental's faculty. The renovation of Swan Hall would provide necessary seismic upgrade and provide full ADA-compliant accessibility. Currently, most of the building is inaccessible to the physically challenged. The existing office space is substandard; the renovation would provide modern offices of adequate size for existing faculty and staff, along with seminar rooms, flexible instruction areas, informal meeting spaces, and new psychology experiment and interview rooms. The proposed addition would incorporate a design scale similar to, but distinct from, the original Swan Hall. The expansion would allow for modern offices and other spaces of adequate size for existing faculty and staff. During the renovation of Swan Hall and the construction of the new 3-story addition, the offices of faculty and staff in existing Swan Hall would be relocated into temporary trailers in order	<b>NOP</b>	05/13/2010

	that the academic and administrative functions of the College continue uninterrupted. Approximately 12,762 square feet of temporary trailer space would be used during construction activities. The project would require Conditional Use approval for an educational use in a residential zone.		
2010042048	121 Golden Gate Avenue San Francisco, City and County of San Francisco--San Francisco Demolition of an existing 40 ft high building and construction of a 99 ft high, 10 story building with one basement level, containing a kitchen/dining hall, philanthropic/social services, and 90 affordable senior housing units. No off-street parking would be provided with the project. The existing building on the site was constructed in 1912 and contains the St. Anthony Dining Hall and other philanthropic/social service and accessory office space. The dining hall and social service facilities would continue to operate in the basement and first two levels of the new building.	<b>NOP</b>	05/13/2010
2008031045	Adoption of New Zoning Code - Title 11 Seal Beach, City of Seal Beach--Orange The proposed Comprehensive Zoning Code Update is a complete revision of the City's Zoning Code and is intended to reflect the most appropriate and best available development regulations and standards to meet the desires of the community regarding future development within the City. Such a comprehensive revision effort has not been undertaken within the community since 1974. As such, there are many changes from both procedural and development regulation standards incorporated into the proposed zoning code that do not currently existing in the present zoning code.  The proposed Title 11, Zoning, does not change standards for basic lot size, density and building intensity, setback, lot coverage, height, parking, and sign regulations of the current zoning Code. There are minor changes to allowable and discretionary land uses within the City, such as news stands, kiosks, artist's studios, catering services, and handicraft/custom manufacturing uses. New provisions related to a number of design related issues are proposed, such as porches, additional building setbacks for structures more than 14 ft high, use of compatible material and design elements for building additions, and other design and aesthetic matters of concern to the City. In addition an "Administrative Use Permit" approval process is proposed which would allow the Director of Development Services to review and approve several types of discretionary land use approvals that are currently reviewed and approved by the Planning Commission.	<b>Neg</b>	05/17/2010
2010041024	City of Avenal 2009-2014 Housing Element Update Avenal, City of Avenal--Kings Completion of the update to the 2009-2014 Housing Element for the City of Avenal.	<b>Neg</b>	05/13/2010

<b><u>Documents Received on Wednesday, April 14, 2010</u></b>			
2010041039	2009-2014 Housing Element Corcoran, City of Corcoran--Kings 2009-2014 update to the Housing Element of the General Plan.	<b>Neg</b>	05/13/2010
2010041065	Update to Santa Barbara County's Seismic Safety and Safety Element, Land Use Element, and Conservation Elements Santa Barbara County --Santa Barbara The proposed project includes an update to the County's Comprehensive General Plan Seismic Safety and Safety Element (Safety Element), Conservation Element, and Land Use Element. The primary purpose of the update is to provide compliance with new State laws, including Assembly Bill 162 (AB 162), and to provide updated information needed to protect the residents and property of Santa Barbara County from various natural hazards.	<b>Neg</b>	05/13/2010
2010042044	Recommendations on Agricultural Burning San Joaquin Valley Air Pollution Control District --San Joaquin NOTE: Review Per Lead  The District has prepared a draft Recommendations on Agricultural Burning Report for consideration by the District's Governing Board. The purpose of the Report is to identify economically feasible alternatives to open burning of various agricultural materials and to meet its legal obligation under the California Health & Safety Code (CH&SC). The Report is intended to satisfy the requirements from the CH&SC Section 41855.6, by presenting the District's recommended determinations for specified crops and materials, particularly those that don't have an economically feasible alternative to open burning.	<b>Neg</b>	05/17/2010
2010042045	Amendment to Rule 4750 (Confined Animal Facilities) San Joaquin County --San Joaquin NOTE: Review Per Lead  The proposed amendments to Rule 4750 (Confined Animal Facilities) is to support the attainment goals of the District's 2007 Eight-Hour Ozone Plan. The District will seek to obtain as much reduction of volatile organic compounds (VOCs) from confined animal facilities as is expeditiously practicable, technologically feasible, and economically reasonable.	<b>Neg</b>	05/17/2010
2010042046	Alaska Airlines Hangar 6 Area Soil Remediation Oakland, Port of Oakland--Alameda Excavation will occur in 3 areas for the purposes of removing petroleum and Volatile Organic Compound (VOC) impacted soil and groundwater located in the former hazardous materials and hazardous waste storage areas. The paint shop in the former hazardous waste storage area will be demolished, and a few sections of airport operation area fences relocated.	<b>Neg</b>	05/13/2010

2010044007	Marine Corps Air Ground Combat Center (MCAGCC) TwentyNine Palms U.S. Marine Corp Twentynine Palms--San Bernardino The Marine Corps has been studying alternative for proposed training-land acquisition and accompanying Special Use Airspace. The Study Area includes ~360,000 acres in the vicinity of the current Twentynine Palms Combat Center. As part of the environmental analysis in the Marines are required to evaluate the cumulative impacts of applicable past, present, and reasonably foreseeable projects in the study area. The Marines request a list of relevant projects and available project details, in addition please provide any environmental documentation and site layouts for proposed projects in the study area.	<b>Oth</b>	04/30/2010
2007061057	Nohl Canyon Water Storage Tank Anaheim, City of Anaheim--Orange The project will remove the existing inactive Olive Hills Reservoir and dam, regrade the surrounding slopes and construct a partially buried concrete tank. The new tank is needed to provide emergency storage for peak demands and fire flows and to increase water system reliability.	<b>NOD</b>	
2008012023	Swede Creek Road Bridge Widening at Swede Creek Shasta County --Shasta The Project proposed to widen the existing bridge on Swede Creek Road crossing Swede Creek, Shasta County.	<b>NOD</b>	
2009101083	Riverside County Regional Medical Center Expansion Riverside County Economic Development Agency Moreno Valley--Riverside The County of Riverside Economic Development Agency has proposed that expansion of the existing Riverside County Regional Medical Center (RCRMC) by developing two components: (1) an ~50,000 sf Plant Operations/Warehouse Facility, and (2) ~820 parking spaces of supplemental parking. The proposed Plan Operations/Warehouse Facility is intended to supplement the warehouse and receiving functions at the existing RCRMC. Plant operations services would include craft support (i.e., electrical, plumbing and painting), maintenance, bio-medical engineering activities, and repairs and construction services for the existing RCRMC facility. Plant operations services would also include a data center as well as other areas for data support and information technology (IT). Materials management services would include warehousing and storage of bulk supplies, servicing of soiled linens, distribution of clean linens, as well as the breakdown and distribution of various other materials and supplies to the main hospital. In addition, the proposed project would include the addition of ~820 new parking spaces.	<b>NOD</b>	
2009102029	Gridley Boat Launch Improvement Project Gridley, City of Gridley--Butte The proposed project consists of improvements to the City's existing boat ramp which includes the following: (1) new boat launch facility (2) a new parking area, (3) restrooms and associated lift station, (4) fish cleaning station, (5) drainage and erosion control measures, and (6) extension of utilities to serve the project.	<b>NOD</b>

2006112056	Washington Hospital Healthcare System 2010 to 2030 Site Master Plan Washington Township Health Care District Fremont--Alameda The project sponsor, the Washington Hospital Healthcare System (WHHS), proposes to adopt and implement a 2010 to 2030 Site Master Plan that would guide development at its main medical campus to the year 2030. The Project would entail demolition and new construction on the Main Campus (16.5 acres), located at 2000 Mowry Avenue in the City of Fremont. The Project would provide 940,300 sf of WHHS medical facilities (an approximate 573,595 sf increase over the current size of 366,705 sf) for inpatient and outpatient care, and for support and administrative space. The Project would comprise about 535 hospital beds, 10 nursing units, and space for the following facilities: Emergency Department (ED); Intensive Care Unit/Critical Care Unit (ICU/CCU); Surgery; Radiology; Diagnostic and Treatment facilities; and Medical and Administrative offices. The Project would also include construction of a new 207,000 sf, 490 space parking garage, extension of the ambulatory care services; and a new main entrance, atrium, and plaza area, as well as new landscaping and reconfigured surface parking. Demolition would include the existing laundry facility building, the Whitake Pavilion, the temporary administrative office building and ~152,000 sf of the circa 1958 main hospital building. The WHHS proposes the Project to meet the needs of a 21st century health care operation and to comply with Senat Bill 1953, which implements the Hospital Seismic Safety Act of 1983.	<b>EIR</b>	06/01/2010

2009081074	Citracado High School Escondido Union School District Escondido--San Diego NOTE: Review Per Lead  The project involves the development of a new career technology high school on a district-owned 36.35 acre site. The proposed new school is designed to serve 800 students in grades 9 through 12.	<b>EIR</b>	06/03/2010
2008102069	North County Corridor State Route 108 East Route Adoption Caltrans #6 Modesto, Riverbank, Oakdale--Stanislaus The California Department of Transportation (Caltrans), in cooperation with the North County Corridor Transportation Expressway Authority, proposes to adopt a corridor from which a future freeway alignment will be chosen in which to build a replacement for the existing State Route 108. The route adoption is the first step in selecting a preferred corridor.	<b>FIN</b>	
2009112081	Santa Clara de Asis Project Santa Clara, City of Santa Clara--Santa Clara NOTE: Reference SCH# 1999102073. NOTE: Review per lead  The project proposes to amend the Master Community Plan for the Rivermark-Agnews West Campus to allow Medium Density residential uses on the 2.3-acre project site and develop 50 attached single-family units (i.e., townhouses). The project site is currently identified as Planning Area 25 in the Master Community Plan. The project proposes to comply with the original Rivermark Master Community Plan Design Guidelines and Development Standards for Medium Density neighborhood (14-25 dwelling units per acre). Parking, landscaping, and open space are also included as part of the project. A Development Area Plan and Vesting Tentative Map is included in the development application.	<b>FIN</b>	
2010041049	Rancho Las Flores Water Reservoir and Booster Pump Coachella, City of Coachella--Riverside The Coachella Water Authority proposes to construct a 5 million gallon water storage reservoir and booster pump station within the proposed Rancho Las Flores park site on ~2.1 acres adjacent to the existing 0.23 acre Well No. 17 site. The new reservoir and booster pumping station (~1,500 sf) would be known as the Rancho Las Flores Facility. The proposed reservoir and pumping station includes a tank height of 28.5 ft and a high water elevation 5 ft above MSL with discharge from the new booster pumping station connected directly to the 16 inch water main at Mitchell Drive and a 16 inch diameter water pipeline between Avenue 48 and 49.	<b>JD</b>	05/17/2010

## CEQA Daily Log

Documents Received during the Period: 04/01/2010 - 04/15/2010

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, April 15, 2010</u></b>			
	Generally, the project proposes to construct ~2.7 miles of a natural gas pipeline within the Southern California Logistics Airport. All infrastructure will be located within existing paved or unpaved roadways, parallel to water lines and other recently installed utilities. The proposed infrastructure will be maintained and operated by the Victorville Municipal Utilities (VMUS).		
2010041046	Don Chapin Company Concrete Batch Plant Merced County --Merced The subdivision of 26.9 acres into 4 parcels ranging in size from 15 to 3.456 acres. The 3 smaller parcels would be put up for sale. A 4.03 acre concrete batch plant would be developed on the 15 acre parcel. The plant would include a batch plant, three silos, a portable cement silo trailer, a batch trailer, three 20,000 gallon water storage tanks, a concrete block casting area, a 2,000 gallon diesel fuel tank, a 100,000 gallon reclaimed water storage tank, an aggregate storage area, truck wash area, parking, and other associated facilities. The plant would produce ~300 cy of concrete per day and would operate from 5am to 5pm, Monday through Saturday. A new on-site well would provide water.	<b>MND</b>	05/17/2010
2010041047	Burriss Park Lease (Kings County) Kings County --Kings This study was performed in response to a request made by local County Counsel and directed by the County Board of Supervisors. The study is merely assessing the expected improvements associated with the lease agreement between the County of Kings and the Burriss Park Foundation. The expected improvements are directly a result of the proposed transformation of the park into a dual recreation/education facility. Such improvements include: construction of a multi-purpose room, amphitheater, trails, pond, meadows, etc.	<b>MND</b>	05/17/2010
2010041050	Cancer Center of Santa Barbara, 540 W. Pueblo Street Santa Barbara, City of Santa Barbara--Santa Barbara The project would result in the construction of a new comprehensive outpatient cancer treatment facility and rental housing for the Cancer Center on a site that includes existing development. The proposed facility on the project site would be for outpatients only.	<b>MND</b>	05/17/2010
2010041051	Harmony Cove Residential Condo and Marina Development Huntington Beach, City of Huntington Beach--Orange The proposed project includes a request by Michael C. Adams Associates to amend the General Plan land use designation, zoning designation, and Local Coastal Program land use designation on the project site to permit the construction of 15 condominium units and a 25 boat slip marina. The project site is 2.28 acres, 1.02 acre of which is terra firma and 1.26 acres which is submerged. The majority of the project site (1.91 acres) is owned by the property owner, BayviewHB LLC, and the remainder (0.37 acre) is owned by the California State Lands Commission.	<b>MND</b>	05/17/2010

## CEQA Daily Log

<b><u>Documents Received on Thursday, April 15, 2010</u></b>			
2010042050	County File #LP09-2027 - Oakmont Memorial Park Expansion Contra Costa County Lafayette--Contra Costa The applicant seeks approval of a land use permit to modify County File #LP2097-89 in order to expand the existing cemetery use at the subject site.	<b>MND</b>	05/17/2010
2010041048	Singing Hills San Diego County --San Diego The project is a General Plan Amendment, Specific Plan, Rezone, and Tentative Map. The General Plan Amendment will change the existing General Plan Designations to (21) Specific Plan Area and the Regional Category to CT, Country Town. The Specific plan will guide the project by proposing development regulations for the property. The Rezone will change the zoning to S88, Specific Plan and S80, Open Space Use Regulations. Two Tentative Maps will subdivide the property into 122 single-family residential lots ranging in area from 6,800 square feet to 5 acres, two private park lots and 6 open space lots.	<b>NOP</b>	05/17/2010
2010041052	Seeley County Water District Wastewater Treatment Plant Upgrade Project Seeley County Water District (SCWD) --Imperial To achieve tertiary treatment, the project proposes to modify two of the the existing treatment ponds to accommodate an extended aeration activated sludge process and adds microfiltration and ultraviolet disinfection to provide compliance with title 22 requirements. Submerged microfiltration units will be used for both solids separation and Title 22 filtration. Treated effluent will either be discharged to the New River under NPDES requirements or would be sent to reuse under new regional Water Quality Control Board Waste Discharge Requirements. Two of the other existing treatment ponds will be converted to in-ground earthen basins and lined with a synthetic flexible membrane and a floating cover for storage of up to 300,000 gallons of Title 22 recycled water. The Title 22 recycled water will be pumped via a dedicated pump station to a re-use conveyance system by others. On-site pump stations will convey process flows and product water. Piping between the various treatment processes will be installed belowground. A new backup generator will be installed as part of the project, as necessary to comply with title 22 reliability and redundancy requirements, and generators may be required temporarily during project construction.	<b>NOP</b>	05/17/2010
2010041053	Modifications to the North Basin Groundwater Protection Project Orange County Water District Fullerton, Anaheim--Orange The OCWD approved an Initial Study/Mitigated Negative Declaration for the North Basin Groundwater Protection Project (NBGPP) in 2005, which was designed to contain groundwater contamination and stop its continued lateral and vertical migration. Recent water quality testing site investigations, preliminary engineering, and request from the City of Fullerton have caused OCWD to propose four modifications to the approved NBGPP. The project modifications include: (1) a new extraction well within Woodcrest Park and an appurtenant pipeline extending west from Highland Avenue along Orangethorpe Avenue; (2) rerouting of previously approved pipelines planned within South Lemon Street and East Valencia Drive to North Highland Avenue, East Truslow Avenue, and North Harbor Boulevard, as requested by the City of Fullerton; (3) revisions to the order of the treatment process that will affect the treatment plant design (unchanged plant located southeast of the Orangethorpe Avenue and State College Boulevard	<b>NOP</b>	05/17/2010

	intersection); and (4) replacing the previously approved groundwater recharge facilities with an injection wellfield containing 12 injection wells located on the west side of State College Blvd. and south of Carbon Creek, and an appurtenant pipeline connecting the treatment plant site and the injection wellfield.		
2010042049	North Richland Storm Drainage Outfall Project Ceres, City of Ceres--Stanislaus The Propose Project would include: two turf soccer fields, children recreation areas, meandering walkway, picnic tables, basketball court, and development of a stormwater drainage basin in the northeast portion of the site, installation of storm drainage pipes both within the park parcel and under River Road north to its outfall at the Tuolumne River.	<b>Neg</b>	05/17/2010
2010042051	Sequoia Union High School District's East Palo Alto Alternative School Campus Sequoia Union High School District East Palo Alto--San Mateo The District is proposing to construct a new alternative school on 2 acres in the City of East Palo Alto. This site can accommodate a possible charter school or other districts school programs in East Palo Alto. East Palo Alto is part of the Sequoia Union School District, and this new school will only serve the East Palo Alto community. The project is a 2 story school campus, ultimately serving a maximum of 250 students and 25 faculty and staff. Completion of the campus is expected in 2011. The campus will be two, two story modular buildings totaling 21,150 sf, and a one-and-a-half story modular multipurpose bldg. The classrooms will contain 10 classrooms, library, teachers lounge, restrooms, administration office, and storage. One of these classrooms will be a modest science laboratory.	<b>Neg</b>	05/17/2010
2010042052	Proposed 2010 Amendment to the Redevelopment Plan for the Newman Redevelopment Project Newman, City of Newman--Stanislaus The 2010 Amendment is proposed for the purpose of increasing established fiscal and time limits codified in the Plan, specifically to increase the Plan's total tax increment allocation limit, eliminate the Plan's annual limitation on tax increment allocation, establish a bonded indebtedness limit, and modify the Plan's projects and programs list, as appropriate, all as a means to better attain the Agency's long-term goal to improve or alleviate the economic and physical conditions of blight within the Project Area. These are administrative and fiscal changes to the Plan for the Project; no changes in boundaries, designated land uses, land use policies, or site-specific development projects are being proposed by the 2010 Amendment.	<b>Neg</b>	05/17/2010
1991032036	Interstate 215 Improvement, post miles 37.7 to 43.9 Caltrans, Planning Riverside, Moreno Valley--Riverside Construct two HOV lanes and roadway improvements to connect the existing HOV lanes on Route 60 and Route 215 near the city of Moreno Valley.	<b>NOD</b>

<b><u>Documents Received on Thursday, April 15, 2010</u></b>			
2008102069	North County Corridor State Route 108 East Route Adoption Caltrans #6 Modesto, Riverbank, Oakdale--Stanislaus The California Department of Transportation (Caltrans), in cooperation with the North County Corridor (NCC) Transportation Expressway Authority, proposes to adopt a corridor from which a future freeway alignment will be chosen in which to build a replacement for the existing State Route 108.	<b>NOD</b>	
2009011042	12th Avenue Interchange Caltrans #6 Hanford--Kings Reconfigure the 12th Avenue Interchange on Route 198 near the city of Hanford.	<b>NOD</b>	
2009032084	I-580 Westbound HOV Lane Project (EA Np. 890820) Caltrans #4 Dublin, Livermore, Pleasanton--Alameda Construct a westbound HOV lane on a section of Route 580 near the city of Dublin	<b>NOD</b>	
2009081035	Buttonwillow West CAPM Caltrans #6 --Kern To rehabilitate the roadway of State Route 58 near Buttonwillow.	<b>NOD</b>	
2009081090	Road 200 Phase II Improvement Project from 1400' SW of Leprechaun Lane to 550' SW of Fine Gold Creek Bridge Madera County --Madera The project will reconstruct and widen Road 200 from 1400 ft southwest of Leprechaun Lane to 500 ft southwest of the Fine Gold Creek Bridge resulting in one 12 ft travel lane in each direction and two 4 ft to 8 ft wide paved shoulders. The project also includes improvements to the structural section of the road bed, intersections, and major access points; relocation of utilities, replacement of Ladd Creek Bridge; and construction of drainage facilities within the right-of-way.	<b>NOD</b>	
2009082058	Lennar Mare Island Installation Investigation Area B.1, Crane Test Area - Feasibility Study/Remedial Action Plan Toxic Substances Control, Department of Vallejo--Solano Preparation and DTSC approval of the Investigation Area B.1 Feasibility Study/Remedial Action Plan (FS/RAP) is pursuant to the requirements of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986; the National Oil and Hazardous Substances Pollution Contingency Plan in Title 40 of the Code of Federal Regulations Part 300; and Chapter 6.8, Division 20, California Health & Safety Code. The FS/RAP proposes a remedial alternative for a portion of the former Mare Island Naval Shipyard, Vallejo, California containing total petroleum hydrocarbons as gasoline, motor oil and diesel, vinyl chloride, trichloroethene, 1,1,2,2-tetrachloroethane, arsenic lead, and benzo(a)pyrene. The remediation area is approximately 90-acres and is located in the north-central portion of the former Mare Island Naval Shipyard. IA B. is part of a larger parcel of land transferred from the United States Department of the Navy (navy) to Lennar Mare Island (LMI). LLC. Known as the Eastern Early Transfer Parcel (EETP). The FS/RAP is incorporated by reference.	<b>NOD</b>

2009121059	Allan Hancock Bike Path Extension ER08-0006 Lompoc, City of Lompoc--Santa Barbara Allan Hancock Bike Path Extension will be a Class One (1) Bike Path, approximately one (1) mile long, beginning 800 feet north of the "H" Street Bridge, then heading west for 50 feet, turning north, then west along the northern boundary of the Lompoc Federal Correctional Facility (FCC) farm field, then northwest to the FCC boundary. From there extending north and northeast to the terminus of Hancock Drive.	<b>NOD</b>	
2009122068	East Fork Road at Halls Gulch Bridge (No. 05C-0149) Replacement Project Trinity County --Trinity The project includes the replacement of existing bridge with a 24-foot wide, two lane, single-span cast-in-place post-tensioned concrete slab structure with an overall length of 80 feet.	<b>NOD</b>	
2010011022	South Line Rail Goods Movement Project San Diego Association of Governments San Diego--San Diego The project will provide signal, communications, and track improvements that will expand freight movements on the San Diego and Arizona Eastern (SD&AE) Railroad Mainline between the San Diego and San Ysidro Yards.	<b>NOD</b>	
2010032008	Navarro Inn Stabilization Project Parks and Recreation, Department of --Mendocino CCHE funds will assist with the stabilization and restoration of the Captain Fletcher's (Navarro) Inn which is listed on the National Register of Historic Places. The work will be conducted in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.	<b>NOD</b>	
2010032075	Highway 1 Trail Improvements Half Moon Bay, City of Half Moon Bay--San Mateo NOTE: Shortened Review  The City of Half Moon Bay Public Works Department is proposing the phased construction of the Highway 1 Trail Improvements Project in the south-central portion of the City. The Class I pedestrian trail (i.e. pedestrian and bicycle travel on a ROW completely separated from a street) would be an 8.0 ft wide AC patch with 2.0 ft shoulders with a 5.0 ft exterior setback from the edge of roadway pavement. The trail would be constructed behind existing/new roadway curb to provide a vertical barrier from State Route 1.	<b>NOD</b>	
2010048163	Interagency Operations Center-Geological Investigation (ER # 9137) Parks and Recreation, Department of --Los Angeles This project involves initial geotechnical investigation for the purpose of determining soil values to be used in the design of 2 or 3 one- or two-story buildings and some minor parking and road improvements. All borings will be approximately 8" in diameter. At each of the two building sites, one boring will be drilled to a depth of 40-60 feet, while two borings for the entrance and roadway improvements will be drilled to a depth of 5-10 feet. All boring holes will be backfilled with on site soil and asphalt areas will be cold patched if necessary; the	<b>NOE</b>

	road and the slide area. SAA #1600-2008-0479-3.		
2010048170	Maggi Ross Multiple Use Pier Project, SAA 1600-2009-0178 Fish & Game #2 South Lake Tahoe--El Dorado Project proposes to remove an existing single use pier and boathouse, and replace it with an open pile multiple-use pier. The proposed pier will be 10' x 100' long with a hammerhead at the end of the pier that is 16' x 30'. The pier will also have two low-level boatlifts, and two adjustable catwalks 3' x 45' long. Pier will be constructed with (16) 10.5" diameter steel pilings. All pilings will be driven into lakebed approximately 6 feet. Piles will be driven from a floating barge.	<b>NOE</b>	
2010048171	Silva Ranch Sump Sediment Project, SAA 1600-2009-0087-R2 Fish & Game #2 --Sacramento This project proposes to remove approximately 1,950 cubic yards of accumulated sediment from the side channel connected to Laguna Creek. All sediment will be moved to an offsite location of the stream zone. Water will be diverted from the side-channel of Laguna Creek from April 1st to September 30th, at a rate not to exceed 426.5 acre feet per year, as per Appropriate Water Rights Permit ID #007931.	<b>NOE</b>	
2010048172	City of Arcata Energy Efficiency and Conservation Block Grants Arcata, City of Arcata--Humboldt Various low-intensity energy efficiency upgrades to existing facilities. Replacement of existing furnaces and air conditioning units, sealing of existing duct work, upgrade existing lighting fixtures, install automatic control systems for process controls and lighting.	<b>NOE</b>	
2010048173	Transfer of Coverage to El Dorado County APN 25-373-01 (Gunderson) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 262 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2010048174	Sand Bank Grind and Replacement Caltrans #1 --Mendocino The project is for repair of roadway and three drainage facilities that were damaged in the 2005/2006 winter storms. These facilities were repaired to working order immediately following the storms. The purpose of this project is to permanently restore the highway facilities to pre-storm conditions; the project is needed to maintain a safe and operational roadway for the traveling public.	<b>NOE</b>	
2010048175	Open Grade Asphalt Concrete Pavement Repair Project Caltrans #3 --Placer The scope of work includes: Remove and replace damaged open grade asphalt concrete.	<b>NOE</b>

2010048176	<p>Repair Freeway Fences Caltrans #1 --Humboldt, Lake</p> <p>Project is to replace chain link and wire fencing along State Route 255 in Humboldt and SR 53 in Lake counties, primarily on existing fence post. The purpose of the prject is to maintain a state facility that protects public safety. The work is needed because vegetation has grown into the fencing causing it to lean; vandals have cut fencing in several locations; and sections are succumbing to rust and rot. Residents in the surrounding communities would be the primary beneficiaries of the project.</p>	<b>NOE</b>	
2010048177	<p>Paint Collier Tunnel Caltrans #1 --Del Norte</p> <p>The project will consists of repainting the 575-foot-long Randolph Collier Tunnel (Bridge 01-0049) on U.S. Highway 199 in Del Norte County. The purpose of the project is to maintain existing facilities. The traveling public would be the primary beneficiaries of the project.</p>	<b>NOE</b>	
2010048178	<p>Storm Damage Repair Caltrans #1 --Humboldt</p> <p>Repair a minor slip out and replace a failed retaining wall at two locations on Highway 169 in Humboldt County near Weitchpec. The purpose of this project is to permanently restore the highway facilities to pre-storm conditions. The Weitchpec. The purpose of this project is to permanently restore the highway facilities to pre-storm conditions. The project is needed to maintain a safe and operational roadway for the traveling public, the primary beneficiaries.</p>	<b>NOE</b>	
2010048179	<p>Storm Damage Slide Caltrans #1 --Humboldt</p> <p>The project is the emergency removal of material from a massive landslide onto the roadway as a result of winter storms. The purpose of the project is to restore essential travel, to minimize the extent of damage, to protect the remaining roadway, and to ensure public safety. The traveling public would be the primary beneficiaries of the project.</p>	<b>NOE</b>	
2010048180	<p>Building 407 Demolition and Remediation Project University of California, Santa Barbara Santa Barbara--Santa Barbara</p> <p>The University is proposing to demolish, raze and remove Building 407, excavate, sample, remove, and dispose of petroleum contaminated soils in the vicinity of the former UST No. 1 and Building 407, within the proposed construction boundry. The site would be restored with clean compacted soil. The United States Army Corps of Engineers (USACE) are funding and coordinating the project. The USACE will pursue obtaining final closure of this UST No. 1 site from the Central Coast Regional Water Quality Control Board. The building occupants will be finishing their academic work at the end of June 2010 and future physics graduate students will be provided space in existing vacant office on campus.</p>	<b>NOE</b>
