

Jerry Brown, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 1 – 15, 2011

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1 – 15, 2011**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2010 CEQA Guidelines are available from the Resources Agency's website at

<http://ceres.ca.gov/ceqa/>.

2011 CEQA Guidelines will be available soon.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger
Governor

STATE OF CALIFORNIA
Governor's Office of Planning and Research
State Clearinghouse and Planning Unit

Cathleen Cox
Acting Director

MEMORANDUM

DATE: July 1, 2010
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, State Clearinghouse Director
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at www.opr.ca.gov. A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2010**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2011044001	Construction and Operation of a USAR Center at MCAS Miramar, San Diego, CA U.S. Army Reserve San Diego--San Diego The U.S. Army Reserve (Army Reserve) is proposing to construct a new Center that would replace two San Diego-area leased properties (CA 178 and CA 188) and provide capacity for future increases in personnel or units stationing requirements. The new Center would provide required administrative, assembly, and educational areas; maintenance facilities for military vehicles; unit and individual storage and support areas; and parking for both military equipment and privately owned vehicles for the reserve units stationed at the new Center.	EA	05/02/2011
1999051051	Modification to the U.S. Bureau of Reclamation's Water Rights Permits for the Cachuma Project on the Santa Ynez River State Water Resources Control Board The proposed project analyzed in the 2nd Revised Draft Environmental Impact Report (2nd RDEIR) consists of potential modifications to the U.S. Bureau of Reclamation's (Reclamation) water right permits 11308 and 11310 for the Cachuma Project in order to provide appropriate protection of downstream water rights and public trust resources on the Santa Ynez River. The Cachuma Project includes Bradbury Dam, which impounds water on the Santa Ynez River in northern Santa Barbara County forming Cachuma Lake. The Cachuma Project provides water to the Cachuma Project Members Units for irrigation, domestic, municipal, and industrial uses. The Member Units consists of the City of Santa Barbara, Goleta Water District, Montecito Water District, Carpintera Valley Water District, and the Santa Ynez River Water Conservation District - Improvement District #1.	EIR	05/16/2011
2010101002	Curtimade Dairy, Inc. (PSP07-011) Tulare County Corcoran--Tulare The owner/applicant has applied for a Special Use Permit, in the AE-40 (Exclusive Agricultural -40 acre minimum) Zone, to expand a permitted 5, 199 Animal Unit (3,300 milking) Holstein dairy to a 6,566 Animal Units (5,378 milking) Jersey dairy. The herd size of the expansion will be 12, 192 head. To accommodate the increased number of cows, the project site will be enlarged from 1,157 acres to 1,395 acres. 143 acres of the project site will be the dairy facility, 1,150 acres will be utilized as farmable area, and the balance of the site is occupied with water wells, return ponds, sump pumps, and farms roads. The 143 acre dairy facility will have freestall housing with a flush system for the milking herd, support stock will be housed in shaded corrals with flushed alleys, and young calves will be housed in calf hutches.	EIR	05/16/2011
2011041003	LAFCO City of Palmdale Annexation 2011-09 and Related Conditional Use Permit (CUP) 10-18 Palmdale, City of Palmdale--Los Angeles A request to initiate annexation proceedings on 44 acres and related Conditional Use Permit (CUP) 10-18 to add 44 acres to an existing mining operation and to bring the existing operation into conformance with the City of Palmdale Zoning Ordinance and to comply with the current requirements of the Surface Mining and Reclamation Act (SMARA). The proposed annexation is located north of	MND	05/02/2011

2011041006	Laguna Canyon Channel Rehabilitation Project Laguna Beach, City of Laguna Beach--Orange The Proposed Project involves the demolition and replacement of a portion of Reach 1 of the Laguna Canyon Channel, from its outlet at Main Beach, upstream approximately 40 feet. Construction will not encroach into the Caltrans right-of-way at SR1. The existing structure will be demolished and removed. Nine (9) new support pilings will be driven to support the new structure and the twenty (20) existing support pilings will be left in place. Once the new structure is put in place, reconstruction of the disturbed area will occur, including replacement of the boardwalk, pavement, and landscaping in kind. The project also involves the repair of the existing sub-grade channel structure 1000' inland to Beach Street. Repair includes removing unsound concrete, repair of rebar application of synthetic resin and rapid-setting concrete as necessary. Capacity not increased.	MND	05/02/2011
2011041007	Redevelopment Project Area Merger Ontario, City of Ontario--San Bernardino The proposed project consists of merging the Ontario Redevelopment Agency's existing five discrete redevelopment project areas into one comprehensive redevelopment project area. The subject redevelopment project areas are entirely located within the City of Ontario, San Bernardino County, California. No changes to the boundaries of the redevelopment project areas or to the apply redevelopment tools more effectively over the subject project areas. The primary goal of Ontario's redevelopment project area plans are to provide for various redevelopment activities to eliminate blight from the plan area, culminating in build-out in accordance with the City's General Plan. 2011041015	5527; JDG 03-10; Precise Development Plan No. 2, Map 203; Daljinder Chauhan by Harbinson International, Inc. Kern County --Kern A Precise Development Plan to allow construction of a truck stop and fueling station with a minimart and two fast-food restaurants on 2.92 acres in a C-2 PD (general Commercial - Precise Development Combining) District per Section 19.31.020.C.5 of the Zoning Ordinance. The minimart will be open twenty-four (24) hours a day and hours at the fast-food restaurants would be limited from 4:00 a.m. to 12:00 a.m., daily. As proposed, the truck stop would be constructed in three separate phases. Phase one would include the construction of a fueling services for diesel trucks and passenger vehicles, a parking area for up to 12 diesel trucks (including parking in fueling areas), and a 3,717-square-foot minimart with an attached 1,197-square-foot restaurant. Phase two would consist of an expansion of the diesel truck parking area to include 13 additional parking spaces, for a total number of 25 parking spaces for diesel truck parking. Phase three would consist of the construction of the larger 2,800-square-foot fast-food restaurant and additional passenger vehicle parking will be provided.	MND	05/03/2011

2011042004	Henry W. Coe State Park - Hunting Hollow Accessible Trail Project Parks and Recreation, Department of Gilroy--Santa Clara The proposed project is an approximately 2.7 mile accessible trail along the hillside of Hunting Hollow valley. The Pedestrian use only trail will include several pedestrian bridges, puncheons, retaining walls, and rock crib walls. Project also includes 0.3 mile spur trail to the Windmill site, a short trail segment from the Fish Pond Overlook to Hunting Hollow Road, two accessible parking spaces, and the installation of interpretive panels.	MND	05/02/2011
2011042005	WETA Central Bay Operations and Maintenance Facility San Francisco Bay Area Water Emergency Transit Authority Alameda--Alameda The San Francisco Bay Area Water Emergency Transportation Authority (WETA) proposes to construct a Central Bay Operations and Maintenance Facility to serve as central base, maintenance facility, and emergency operations center for WETA ferry boats operating in the central San Francisco Bay. The proposed project is composed of both landside and marine facilities. Landside facilities would be comprised of a four-story, approximately 25,000-square-foot landside building, which would provide for maintenance functions and a fuel storage facility. The proposed marine facility would have an overwater coverage of approximately 20,000 square feet which would provide berthing slips for up to 11 vessels. The project would also require dredging, resulting in approximately 26,000 cubic yards of dredging material.	MND	05/02/2011
2000061079	Recirculated Draft Coachella Valley Multiple Species Habitat Conservation Plan and Natural Community Conservation Plan Coachella Valley Association of Governments Desert Hot Springs--Riverside The proposed project is an Amendment to the CVMSHCP approved by all affected agencies in October 2007. The City of Desert Hot Springs was the only city in the Coachella Valley which opted out of becoming a Permittee of the Plan at that time. In a reversal of that decision, the City of Desert Hot Springs would now like to become a Permittee of the Plan. In order to do so, current Plan boundaries would be amended to include all of the private lands within the city limits of the City of Desert Hot Springs as well as the extension of Conservation Areas into the City. The Mission Springs Water District (MSWD), not previously a participating agency, has also opted to become a Permittee to the Plan. A joint Supplemental EIR/EIS will be prepared.	NOP	05/02/2011
2011041002	Hyundai Motor American North American Corporate Campus Fountain Valley, City of Fountain Valley--Orange The proposed project involves the construction of a new 469,700 square-foot corporate campus to support HMA's North American operations. The proposed facility would require demolition of HMA's existing 217,000 square-foot headquarters. The project is anticipated to generate approximately 1,300 jobs (for a net increase of approximately 400,000 square-foot office building, an approximately 69,700 square-foot technical services building, a four-level parking	NOP	05/02/2011

	structure (1,000 spaces), and surface parking (925 spaces). Access to the site would continue to be provided from two existing access points along Talbert Avenue.		
2011041004	County of Los Angeles Bicycle Master Plan Los Angeles County --Los Angeles The purpose of the bicycle Master Plan is to guide the development of infrastructure, policies, and programs that improve the bicycling environment in Los Angeles County. The Plan focuses on areas under the County's jurisdictional authority; however, it also coordinates with bicycle planning efforts of other agencies. The plan complies with Streets and Highways Code Section 891.2, making the County eligible for Bicycle Transportation Account (BTA) funds. The BTA is an annual program that provides state funds for city and county projects that improve safety and convenience for bicycle commuters. The plan is a supplementary document to the Los Angeles County General Plan, providing a more detailed bicycle planning and policy direction than is included in the currently adopted General Plan.	NOP	05/02/2011
2011041005	Wilmington Infrastructure and Relocation Project Los Angeles, City of Los Angeles, City of--Los Angeles The Wilmington Infrastructure and Relocation Project (Project) would develop crude oil and petroleum product storage and pumping facilities on three sites within the Wilmington-Harbor City Community Plan area of the City of Los Angeles. The three sites where storage and pumping facilities would be developed include: (1) the existing Olympic Tank Farm; (2) a currently vacant property identified herein as the B Street Tank Farm; and (3) a portion of the existing Ultramar Inc. Wilmington Refinery (Refinery) property.	NOP	05/02/2011

2011048007	2011 Portable Modernization and Theater Renovation El Dorado Union High School District --El Dorado This project consists of the restoration or rehabilitation of 6 portable classrooms and the replacement of 2 portable classrooms for the benefit of students and staff.	NOE	
2011048008	8-Plex Portable Replacement and Modernization El Dorado Union High School District --El Dorado This project consists of the replacement of 9 portable classrooms and minor restoration to 8 portable classrooms for the benefit of students and staff.	NOE	
2011048009	Leveroni Creek Bank Stabilization North Marin Water District Novato--Marin The project will stabilize an eroding creek bank on Leveroni Creek near Stafford Lake. The eroding bank is now approximately 12 feet from the existing fence and access road that leads to the NMWD Stafford Water Treatment Plant's sludge thickener centrifuge facility. The proposed project will stabilize the eroding bank using a combination of willow-sprigged rock and biotechnical treatments. A rock toe and lower bank rock stabilization structure will be installed along 70 feet of streambank. The design maintains the creek's bankfull width. Rock will be placed to top-of-bank along the upstream 10-foot and downstream 20-foot sections to improve repair stability.	NOE	
2011048010	Desert Water/Coachella Valley Service Connection DW-CV-2T and Main Sump Rehabilitation at Five Colorado River Aqueduct Pumping Plants (Preliminary Design) Metropolitan Water District of Southern California --San Bernardino, Riverside This NOE covers two Colorado River Aqueduct (CRA) rehabilitation projects. The first project involves the final design to rehabilitate the turnout for Desert Water/Coachella Valley Service Connection DW-CV-2T; the scope of this project will include replacing the 24-inch diameter isolation valve and the discharge valve actuator, replacing corroded discharge piping, and improving safety by relocating ladders and installing code-compliant landings.	NOE	
2011048011	Tentative Parcel Map TM10-02 Stanton, City of Stanton--Orange Tentative Parcel Map TM10-02 for the creation of a condominium map to develop three condominium units (three numbered lots) with four common lots for the property located at 10562 Knott Avenue in the R-3 (Multifamily Residential) zone.	NOE	
2011048012	Alpers Ranch Restoration Project Fish Fish & Game #6 --Mono SAA #1600-2010-0161-R6 The proposed project is to restore Alpers meadow, a prior trout-rearing facility, to a more natural condition. The project is limited to replacing existing raceways with a new, naturally functioning stream, to improve fisheries habitat in the existing Upper Alpers Creek channel and to construct a 1.02-acre marsh emergent wetland area. All proposed work will be conducted in three phases during the spring of 2011.	NOE

2010-18	Regan Martin - Morongo Band of Cahuilla Mission Indians APNs: 519-020-024, -025, -026 Bureau of Indian Affairs --Riverside Currently the property includes a single family residence with an open pasture and will continue to be utilized as such. There is no planned change in land use. Ms. Martin wishes to bring the property back into trust status for the purpose of consolidation, cultural preservation, and placing the land into trust status will protect its unique Indian status and insure its integration back into the larger Reservations land base. 4.20 more or less acres.	BIA	05/03/2011
2008081130	Tra Vigne Subdivision Madera County Madera--Madera The applicant is requesting approval of the Tra Vigne project and associated actions for the entitlements necessary to develop the approximately 161-acre project site. The major actions needed to develop the property include approval of: 1) General Plan Amendment; 2) Zone Change; 3) Tentative Subdivision Map, and 4) Infrastructure Master Plan (also referred to as the Master Development Plan). The Tra Vigne project proposes subdividing the project site into residential lots that would provide for future residential uses, and locations for a future community shopping center, a future community center, and onsite wastewater treatment plant. Seven development phases are proposed. The site plan includes a community park that would also serve as the onsite storm water retention basin. The southern perimeter of the site would remain undeveloped, providing open space and retaining existing habitat. In addition, the site plan includes 23 out lots that would remain undeveloped providing additional open space.	EIR	05/18/2011
2010071011	Lankershim Lofts Project Los Angeles City Community Redevelopment Agency Los Angeles, City of--Los Angeles The proposed project consists of demolition of the existing uses and construction of a five-story building containing a maximum of approximately 172,080 sq.ft. of floor area, two levels of subterranean parking, and one level of at-grade parking. The ground level would house 11,200 sq ft of commercial space fronting Lankershim Boulevard and Otsego Street, and would also include a 1,330 sq ft lobby and leasing office for the residential portion of the building, which would also front on Otsego Street. The proposed project includes 156 residential units that would be located on levels two through five. Construction of the proposed project is expected to take approximately 32 months and be completed in 2014.	EIR	05/19/2011

1990010988	Antelope Valley Public Landfill Expansion Palmdale, City of Palmdale--Los Angeles NOTE: 1 CD / 1 Hardcopy	FIN	
	<p>The applicant is applying for certain modifications to the existing Conditional Use Permit (CUP) issued by Los Angeles County. The primary modifications sought are: 1) to enlarge the approved 114-acre refuse footprint by approximately 11 acres in order to reconfigure the two landfills into one contiguous disposal area and increase landfill capacity by approximately 14 million cubic yards; 2) update the overall area of the facility to 185 acres (adding 5 acres of ancillary facilities and other landfill property to the existing 180-acre area; 3) modify other certain physical and operational aspects of the landfill; and 4) obtain a single Conditional Use Permit entitlement by the City of Palmdale for the entire facility.</p>		
2008041123	Pepperdine University Campus Life Project Los Angeles County Malibu--Los Angeles Note: 60 day review	FIN	
	<p>The Project consists of a proposal to develop and re-develop property within an existing approximately 365-acre campus development area within the 830-acre property in a 12-year, two-phase development program. Six components of proposed development include approximately 456,940 sq. ft. of new development less approximately 62, 803 sq. ft. of demolition for a total of approximately 394,137 sq. ft. of net new development comprised of the following: 1) Student Housing Rehabilitation (150,692 net new sq. ft.); 2) Athletics and Events Center (maximum 5,470-seat, 235,845 net new sq. ft.); 3) Upgraded NCAA Soccer Field and Maintenance Facilities (1,500 net new sq. ft.); 4) Town Square and Welcome Center over Subterranean Parking (4,500 net new sq. ft.); 5) Enhanced Recreation Center Area (1,600 net new sq. ft.); 6) School of Law Parking Structure (three levels). A total of 2,013 new parking spaces are proposed with the loss of 1,217 spaces for a net increase of 796 spaces onsite proposed parking and a total of 5,380 maximum spaces at project build-out. A parking permit is requested to continue authorization of parking based on one parking space per full equivalent (FTE) student minimum to a maximum of 3,500 FTE students (County)/ 5,000 FTE students (Coastal Commission). Grading proposed is comprised of approximately 127,935 net cubic yards of cut and 235,700 net cubic yards of fill for a net deficit of 107,765 cubic yards of fill. Additional soils may be obtained from the approved Graduate Campus project site pad to offset any deficit in fill. Onsite grading is anticipated to be balanced on the property with the exception of a maximum of 70,000 cubic yards of residential grading of bedrock, which may be required to be exported. New development area landscaping is proposed.</p>

	and New Jersey Street. The Loma Linda University Medical Center (LLUMC) is proposing to expand the existing Heart and Surgical Hospital (HSH) (6.33 acres) located on the northeast corner of New jersey Street and Barton Road in the County unincorporated area. The expansion is proposed to occur over three phases and requires a General plan Amendment, Pre-Zone and Zone Change in order to change Annex the 11.68-acre expansion site into the City of Loma Linda. The development of the annexation site and existing HSH property will occur in three phases and includes the construction of wo 90,000 square foot medical office buildings; a 32,000 square foot expansion of the hospital building to accommodate 30 acute in-patient beds and 30 intensive care unit (ICU) beds, administrative/support facilities; and, a 5,000 square foot central plant, new loading dock and a two-level parking structure. Pre-Zone, Zone Change, Annexation, General Plan Amendment and submittal of entitlements for the Precise Plan of Design (PPD) for the construction of two 90,000 square-foot out-patient medical office buildings (MOB) and related surface parking.		
2011041011	Edward C. Little Water Recycling Facility West Basin Municipal Water District El Segundo--Los Angeles West Basin Municipal Water District (West Basin) is proposing the Phase V Expansion of the Edward C. Little Water Recycling Facility (ECLWRF) located in the City of El Segundo. The proposed project would include the modification of various existing facilities and the construction of new treatment and support systems to meet the planned Phase V capacity expansion. The proposed project would increase treatment capacity from the existing 46.8 million gallons per day (mgd) to 72.2 mgd and would include expanding the Title 22 (pretreatment and filtration processes) recycled water system, the microfiltration (MF) treatment system, the reverse osmosis (RO)treatment system and ultraviolet (UV) disinfection treatment systems to meet the proposed increase in capacity, installation of ozone pretreatment process for the MF treatment system, and the upgrade to the support facilities that manage the waste-handling processes and various ancillary process capacities. The proposed project components would be constructed entirely within the existing footprint of the ECL WRF property.	MND	05/03/2011
2011041012	Midkiff Variance/Coastal Development Permit San Luis Obispo County Cambria--San Luis Obispo 4,325 square foot one-story single family residence, 2,232 square foot barn, with a 13,002 square foot private horse arena and an approximately 500 foot long driveway. The project will result in the disturbance of approximately 37,000 square feet of a 21.2 acre parcel.	MND	05/03/2011
2011041014	Today's Fresh Start New Elementary Charter School Today's Fresh Start Charter School Inglewood--Los Angeles The project is the construction of a new modular school consisting of approximately 17 classrooms, a multipurpose room, a library, resource rooms, and administration space on 2.49 acres. The student capacity is estimated to be 425 students. The new project will replace an existing 150 student school currently housed in temporary portables.	MND	05/03/2011

2011048020	Well No. 5 Arsenic Removal Equipment Rosamond Community Services District --Kern Arsenic removal equipment to comply with the State of California Department of Public Health's allowable levels for arsenic.	NOE	
2011048021	Invasive Plant Control Project Parks and Recreation, Department of Hollister--San Benito The purpose of this project is to control and/or eliminate the invasive, exotic plant species within Hollister Hills SVRA over a five year time period. Over the five year time period the invasive, exotic plant seed banks should be depleted and significantly reduced. The project will focus on several target areas throughout the park. These areas have been identified as problem areas with the greatest chance of success in eliminating targeted invasive species.	NOE	
2011048022	Lower Freeman to Quail Pass Motorcycle Trail Parks and Recreation, Department of --Los Angeles The purpose of this project is to install a new trail from Lower Freeman Trail to Quail Pass Trail. This new trail will be approximately fifty (50) inches wide and will be marked as a black diamond trail for motorcycle use only. The trail length will be approximately 3.7 miles. The trail will start/end at the intersection of Lower Freeman Trail and Kinsey Wash. The trail will start/end on Quail Pass Trail at the highest peak of the trail. This new OHV trail will increase the rider opportunity in the park. This trail will be installed using a Sutter trail dozer. Ground disturbance on flat ground will be less than six (6) inches in depth and will not exceed three (3) feet in depth on the hill side cuts.	NOE

2011048024	Agreement 2010-0197-R4 - Garrote Creek Vegetation Management Fish & Game #4 --Sonoma Manual removal of approximately 2,850 linear feet of cattails (Typha spp.) within the active channel that are causing impediment of water flow. Native riparian shrubs, trees, and oak trees will not be removed. Water will be present during the proposed work period, and the Project will require work in the wetted portion of the channel; however, water will not be diverted. Equipment used will include a dump truck to haul off debris and hand tools.	NOE	
2011048025	Agreement No. 2010-0193-R4; Sandy Creek Culvert Maintenance Project Fish & Game #4 --San Luis Obispo The proposed project would replace a portion of an existing 30-inch corrugated metal pipe (CMP) culvert. Approximately 8 feet of the upstream end of the existing culvert would be removed and a new 54-inch diameter. CMP culvert with flared end assembly would be installed in its place. The new culvert would connect to an existing 54-inch culvert under Gage Irvine Road. The site would be backfilled and compacted using primarily excavated material. The bottom of the remaining section of CMP culvert would be grouted with concrete to seal any voids and prevent flows from undermining the culvert.	NOE	
2011048026	Stream Alteration Agreement No. 2010-0187-R4 for the DWR San Joaquin Field Division O&M Center Main Entrance Road Drainage Cleanup/Reshape Fish & Game #4 Bakersfield--Kern The Project consists of routine maintenance at three (3) separate locations. This will include: 1. Clean up of an existing 36-inch drainage culvert. 2. Debris and sediment removal at an existing debris basin. The debris basin is concrete based and approximately 60 feet by 40 feet. 3. Drainage clean-up downstream of the debris basin to retain the gradient flow. The ephemeral drainage will be maintained at three (3) separate areas of approximately 65 feet length by 40 feet wide, 40 feet long by 30 feet wide, and 150 feet long by 12 feet wide.	NOE	
2011048027	Stream Alteration Agreement No. 2010=0189-R4 for Maintenance and Vegetation Removal at the Panoche Creek Siphon Fish & Game #4 Mendota--Fresno The Panoche Creek Siphon channel and channel embankments have become inundated with giant reed, tamarisk, willow, and cottonwood. An area of approximately 130 meters by 21 meters within the channel will be cleared of vegetation. Thirteen native woody trees will be removed inside the channel and mitigated for both on-site and off-site. Vegetation will be removed by hand tools, dump truck, loader, or backhoe. Annual maintenance will occur to assure that the channel bed does not become choked with vegetation again and can properly allow for passage of flood waters.	NOE

2010081043	Tentative Tract Map 5812, Springville LLC Camarillo, City of Camarillo--Ventura Tentative Tract Map 5812 to subdivide the property into 25 or fewer lots for the development of up to 700,000 sq. ft. of industrial and/or office uses. Lots would range from 1.00 to 4.07 acres. No actual buildings are proposed at this time and the final building sizes and space would be determined through the planning process, but the total buildings size would not exceed 700,000 sq. ft.	EIR	05/19/2011
2011041018	Tentative Parcel Map and Setback Exception Request San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project consists of two principal components including a lot line adjustment and four lot subdivision, and a small bridge designed to provide access to three lots (Parcels 2-4) which are across a drainage channel (Project plans, attachment 2). The project also includes restorative plantings along the creek bank areas of the existing drainage channel which is classified in the General Plan as "Perennial creek with degraded corridor, high encroachment, and difficulty in restoring". Access to the parcels is proposed via a driveway from Rockview Place. The bridge is approximately 18-feet in span and located at the northeasterly portion of Parcel 1. The crossing is proposed to be bridged with either a wood structure or a con-span open bottom arch. Both potential options require a concrete foundation wall at each end of the span to transfer loads from the structure to the ground.	MND	05/04/2011
2011041019	Atwater Crossings (ATX) Los Angeles, City of Los Angeles, City of--Los Angeles A change of use for 9,987 SF of theatre use with 179 seating and 7,940 SF (of which 4,200 SF of outdoor patio) of public restaurant use serving 231 patrons operating 24 hours daily with alcohol sales and live entertainment, within a project site consisting of 3 existing buildings totaling 51,469 SF of light industrial, warehouse, media production uses and an incidental cafe serving on-site tenants with 90 parking spaces. As part of the entitlements, the Applicant is requesting zone variances to allow a public restaurant and theatre uses otherwise not permitted; a zoning administrator determination to allow 23 shared parking spaces between daytime uses of the complex and evening parking for restaurant theatre performances (113 required and 90 provided); and conditional uses to permit the sale of beer and wine for on-site consumption in conjunction with a public restaurant occupying 7,940 SF with 231 seats and live entertainment operating 24 hours daily and to permit the sale of beer and wine for on-site consumption in the lobby areas of the proposed theatre occupying 9,987 SF with 179 seats (of which 3,860 SF with 21 seats and live entertainment in lobby), in the MR1-1 zone. 2011042011	Smoot Sink Storm Damage Repair Project Caltrans #1 Booneville--Mendocino The Caltrans proposes to repair a segment of roadway and the adjacent slope on SR 128, approximately 5 miles southeast of Booneville in Mendocino County. Repair will consist of stabilizing the slide area by constructing 5 anchor walls below the roadway and constructing a rock buttress at the toe of the failed slope; reconstructing the roadway to improve its vertical and horizontal alignments; improving and replacing elements of the existing drainage system; and implementing permanent erosion control measures.	MND	05/04/2011
2011042013	UPA 10-005 Search and Rescue Facility Mammoth Lakes, City of Mammoth Lakes--Mono New pre-fab steel building for Mono County Sheriff Search and Rescue (SAR). The primary purpose of the structure is to function as the permanent base facility for the Mono County Search and Rescue Team. The structure has a building footprint of 3,850 SF. The ground floor includes approximately 235 SF of office space, 3,180 SF of garage/parking area, an ADA bathroom, and gear storage lockers. The second floor, a loft area, includes approximately 640 sf of meeting area and 230 sf of kitchen area. The building can accommodate parking for seven vehicles, which can be accessed from both sides of the building via driveways and roll-up doors. There are 12 additional parking spaces proposed in a parking lot to the south of the building. The building will be used by Search and Rescue volunteers on a temporary basis when rescue calls are received and occasionally for meetings.	MND	05/04/2011
2011041016	EIR 04-11 SSK; High Desert Solar by Element Power; Conditional Use Permit 34, Map 196; (PP11225) Kern County Mojave--Kern The applicant is requesting a Conditional Use Permit to allow for the construction and operation of a photovoltaic (PV) solar facility in the A-1 (Limited Agriculture) and M-3 (Heavy Industrial) zone districts. The project would consist of ~ 70,000 solar modules and have an output of up to 18 megawatts (MW) direct current (DC). The project site consists of 154 acres. Water will be required for washing the solar modules and other routine maintenance. Sewer services are not required.	NOP	05/04/2011
2011041020	Metro Gold Line Eastside Extension (MGL EE) Quadrant Gates Project Los Angeles County Los Angeles, City of, Montebello, Monterey Park, Commerce--Los Angeles The proposed project involves installation of rail crossing gates at 24 at-grade intersection crossings along the MGL EE alignment. The project would utilize standard rail crossing gate equipment that has been approved by the California Public Utilities Commission and utilized at other Metro Light Rail crossings. The crossing gate equipment would be mounted in the sidewalk in the public right-of-way and would be located near the limit lines of intersections being	NOP	05/04/2011

	<p>evaluated. In addition to the crossing gates, a single train controller cabinet (~ 6' x 10' x 3') would need to be installed at each intersection where gates are installed. The installation of gates may also require civil work, such as the relocation of existing underground or aboveground utilities, the installation of vehicle loops or track circuitry in the roadway, and may require street widening or the re-stripping of traffic lanes at certain intersections. Existing traffic signals and other lighting posts may need to be relocated for the installation of the gates at certain locations where conflicts arise.</p>		
2011041021	<p>EIR JRK 02-11 Pahnamid Wind Energy Project by Terra-Gen Power, LLC. Kern County Tehachapi--Kern</p> <p>The proposed project is a renewable energy development that would generate up to 411 megawatts (MW) of electricity through the use of wind power on a 7.106-acre project site. The applicant is requesting: (a) a change in zone classification from the E (20) RS (Estate 20 Acres. Residential Combining District) to the A WE (Exclusive Agriculture. Wind Energy Combining) District in Map 182, (b) a change in zone classification from A to AWE in Map 182-36. (c) a change in zone classification from A to AWE in Map 199, and (d) a conditional use permit to allow for the use of temporary concrete batch plants during the construction of the wind energy facility. The requested applications would also permit the construction of wind ancillary facilities and supporting infrastructure, as well as the concrete batch plants that are necessary to provide concrete and materials for turbine, substation, and building foundations. The project would be supported by a 230-kV overhead transmission corridor that would be connected to the existing SCE Windhub Substation. The project's permanent facilities would include up to 137 wind turbine generators (WTs), service roads, a power collection system, communication cables, overhead and underground transmission lines, electrical switchyards, project substations, meteorological towers, and operations and maintenance facilities.</p>	NOP	05/04/2011
2011042015	<p>Solar Panel Project at the Caltrans Transportation Lab Facility Caltrans #3 Sacramento--Sacramento</p> <p>Caltrans proposes to install solar panels on the rooftops of two existing buildings at the Caltrans Transportation Lab (Translab) site: the Structural Materials Building and the Geotech Building. This project is part of Caltrans' commitment to the Clean Renewable Energy Bond program (CREB) and is one of several projects in District 3 that will install Photovoltaic (PV), or solar, panels on various state-owned buildings within the district. The purpose of this project is to provide clean, renewable energy and comply with the CREB program and the Governor's Executive Order (E.O.) S-20-04 states that all state-owned facilities are to take measures to reduce grid-based energy purchases by the year 2015.</p>	Neg	05/05/2011

2005061150	<p>Improvements at Fresno Yosemite International Airport (FAT) Fresno, City of Fresno--Fresno Plan Amendment Application No. A-10-005 was filed by the Airports Department, on behalf of the City of Fresno. This application pertains to approximately 7,150 acres of urbanized land on and around the Fresno Yosemite International Airport defined as the Airport Influence Area (see attached vicinity map). The plan amendment application proposes to amend the Fresno Yosemite International Airport and Environs Plan (a specific plan), the 2025 Fresno General Plan, and the McLane, Hoover and Roosevelt Community Plans, to incorporate the recent updates to the Fresno Yosemite International Airport Compatibility Land Use Plan adopted by the Fresno County Airport Land Use Commission in October of 2010. Revisions include updated noise contours and safety zones and revised organization and terminology consistent with state law and renaming the Fresno Yosemite International Airport and Environs Plan the Fresno Yosemite International Airport Land Use Compatibility Plan. Noise and safety land use compatibility policies remain essentially unchanged in the revised plan. The plan amendment does not include any changes to the planned land uses within the study area.</p>	NOD	
2006071008	<p>Lompoc Wind Energy Project Santa Barbara County Lompoc--Santa Barbara The project, as approved by the Department of Fish and Game (DFG), consists of an incidental take permit (ITP) authorizing take of Gaviota tarplant (<i>Deinandra increscens</i> ssp. <i>villosa</i>), which is designated as an endangered species under the California Endangered Species Act (CESA). A total of 43 geotechnical boring sites need to be accessed and bored to acquire soil and rock samples. Of the 43 sites, 21 sites are within wind turbine generation sites, 4 sites are at an Operation and Maintenance facility, 5 sites are located at the substation, 12 sites are located at roads locations, and 1 site is located at a meteorological tower. Geotechnical boring consists of drilling a test pit, collecting disturbed and undisturbed soil samples, recovering rock core specimens, recording existing rock exposures, and/or performing test pit excavations to identify existing subsurface conditions. The required depth for each bore varies from 5 feet to 50 feet. The Project will cause 0.25 acres of impacts to Gaviota tarplant (<i>Deinandra increscens</i> ssp. <i>villosa</i>) associated with the use of track vehicles and boring and 0.27 acres of impacts to habitat for Gaviota tarplant from the use of rubber-tired vehicles and boring locations. The project is expected to result in incidental take of Gaviota tarplant. DFG issued the incidental take permit referenced above as a responsible agency under the California Environmental Quality Act relying on the environmental impact report prepared for the Project and certified by the lead agency, County of Santa Barbara.</p>	NOD

2010062029	Mococo Overhead Seismic Restoration Project Caltrans #4 Martinez--Contra Costa Caltrans proposes a seismic restoration to the southbound off-ramp at I-680 from Post Mile 24.26 to 24.40. The proposed project includes removing and replacing the existing southbound off-ramp structure and replacing the restrainer cables on the mainline.	NOD	
2011022041	Shasta River Tailwater Reduction Project Shasta Valley Resource Conservation District Montague--Siskiyou The Shasta River Tailwater Reduction Project consists of seven project sites, with a total eleven different tailwater reducing elements, each of which is designed to improve irrigation efficiencies, reduce the amount of cold water resources being utilized for irrigation, and reduce the amount of warm tailwater being returned to the Shasta River. The components of this project are designed to improve water quality by decreasing temperatures and increasing dissolved oxygen (DO) in the Shasta River, an anadromous fishery, and known spawning and rearing habitat for the federally threatened Cobo Salmon. The project addresses numerous regional and regulatory priorities and provides benefits to water quality, ground water recharge, and improvements to aquatic and riparian habitat along the Shasta River and its tributaries. This project is funded by a grant from the CA Proposition 40/50 Agricultural Water Quality Grant Program and a grant from the Clean Water Act 319H Nonpoint Source Implementation Program. Both grants are from the State Water Resources Control Board.	NOD	
2011022060	Sequoia Union High School District Bus Yard Project Sequoia Union High School District Redwood City--San Mateo The project consists of improving three parcels at 1013 Douglas Avenue and 1061 Douglas Avenue. Redwood City, for use as a Bus Yard by the Sequoia Union High School District. The project will improve the sites and add two modular buildings to house the District's bus dispatch operations. A total of 82 parking spaces will be added, with 42 of these for buses and 40 for cars.	NOD	
2011048030	Loafer Campground Loop Trail Reroutes Parks and Recreation, Department of --Butte Reroute two sections of 2500 ft of unpaved multi-use trail at the Loafer Creek Campground area at Lake Oroville State Recreation Area to prevent erosion and improve visitor safety. Work will reconstruct trail segments at 5% grade, following the high water mark and will be constructed of 60% tread width and a 10" high corridor. Additional work will remove Oak chaparral vegetation such as non-native species, native grasses, Manzanita, small scrub oak smaller than 6" dbh and temporary fencing will be placed around any mature tree in the construction area. 2009061088	Proposed Amended Rule 1147 - NOx Reductions From Miscellaneous Sources South Coast Air Quality Management District --Orange, Los Angeles, Riverside, San Bernardino Note: review per lead	SEA	05/20/2011
	To respond to compliance challenges currently being experienced by certain affected sources and ensure that equipment owners/operators are not unnecessarily burdened with additional costs, SCAQMD staff is proposing amendments to Rule 1147 - NOx Reductions From Miscellaneous Sources, that would: 1) remove the requirements for installation of time meters; 2) remove the requirements for installation of non-resettable totalizing fuel meters if the operator intends to comply with the Rule 1147 NOx emission limits in terms of parts per million (ppm); and; 3) extend deadlines for demonstrating compliance with the early phases (2010/2011) for NOx emission limits by up to two years. Other minor changes are proposed for clarity and consistency throughout the rule. The Draft Subsequent Environmental Assessment (SEA) identified the topic of "air quality and greenhouse gas emissions," specifically operational air quality, as an area that may be adversely affected by the proposed project. Further analysis of this environmental area in the Draft SEA has confirmed that operational air quality emissions associated with implementing the proposed project will exceed the SCAQMD's significance operational threshold for NOx.		
2002082043	Martin Slough Interceptor Project Eureka, City of Eureka--Humboldt The Project proposes the installation of sewer pipeline crossings at eight locations, the replacement of three existing culvert road/stream crossings, the installation of two instream log cover structures, and the restoration of 280 linear feet of riparian habitat on Martin Slough and unnamed tributaries to Martin Slough, Humboldt County.	NOD	
2006022075	MacArthur Transit Village Oakland, City of Oakland--Alameda The Stage One Final Development Permit allows (1) construction of a new BART parking garage with approximately 480 parking stalls and approximately 5,200 sq. ft. of ground floor commercial space and (2) infrastructure improvements including new streets, utilities, public improvements, and site remediation. VTTM 8047 proposes the creation of new lots and vacation of the Apgar Street right-of-way between Frontage Road and Telegraph Avenue.	NOD

2010121070	<p>Fontana Water Company's Groundwater Production Well Plant F41A Replacement Project (Well F54A) Public Health, Department of Fontana--San Bernardino</p> <p>The FWC water supply system includes 34 operating groundwater wells which supply water to the FWC system. One of the existing FWC wells, Well F41A, was constructed in 1925 and has been producing water from the Lytle Creek Groundwater Basin (Lytle Creek Basin) for more than 85 years. While attempting to refurbish existing Well F41A, FWC determined the existing well casing had collapsed. The age of the well and the weakness of the casing, combined with the loss of water flow from the well after relining, make it impractical to refurbish the existing well and more economical and water production efficient to abandon the existing well and construct a new replacement well. Existing Well F41A is no longer serviceable and has been taken out of production by FWC. FWC has selected a site that meets the identified criteria for location of the replacement well. FWC has designated the replacement site as Plant F54A and designated replacement well as Well F54A. In addition to constructing and operating the replacement well, this project will include the installation of an underground water pipeline to connect the new Plant F54A Well to FWC's existing water distribution system. The existing Plant F41A Well will be abandoned and filled in accordance with CDPH standards for the destruction of water production wells.</p>	NOD	
2011012023	<p>Worthington Elementary School Lease or Sale Eureka Unified School District Eureka--Humboldt</p> <p>The Eureka Unified School District (the District) has proposed the lease or sale of the Worthington campus. The future use of the project site is unknown, and it will be assumed that potential future uses of the site through lease or sale could include such educational activities as a charter or parochial school, early childhood center, or other educationally-oriented activities/programs. As mentioned above, it is currently unclear what the future use of the project site</p>	NOD

	would be. Depending on the [proposed] new project site use, permitting would be conducted for either a Coastal Development Permit from the County and/or a County Conditional Use Permit (CUP) if the new use resulted in a chance in use or an intensification or "densification" as compared to the previous educational use. It should also be noted here that the District is exempt from County ordinances. However, if the District sells the site, the new owner could be subject to these requirements.		
2011021037	Nielsen Avenue Recharge Basin Project (Recirculation) Fresno, City of Fresno--Fresno The 35 acre Project site is located in Fresno County, approximately 170 miles southeast of Sacramento and 125 miles northwest of Bakersfield. The northeast approximately 3 acres of the Project site is located within the City of Fresno, and the remainder of the site is located within the sphere of influence of the City. The Project site is located north of Nielsen Avenue, south of the UPRR, and east of Brawley Avenue. The Project is located within the Fresno South United States Geological Survey 7.5 minutes quadrangle, in Section 1, Township 14 South, Range 19 East, MDB&M.	NOD	
2011049003	Alan McKean and David & Mary Christensen, County File #MS06-0036 Contra Costa County Martinez--Contra Costa The applicant and owners request to subdivide 3.21 acres into 2 parcels, Parcel A 2.21 acres and Parcel B 1.00 acres. The applicant also requests a tree permit for removal of 13 code protected trees. Nine of those trees are oaks. Additionally, earthwork is proposed in the dripline of 11 trees that are to be preserved. They are associated with construction of road and drainage improvements. A variance is requested for a 0-foot front yard setback (where 25- feet is required) to construct two retaining walls with a range from 3 feet to a maximum of 5.5 feet and 7 feet in height. The variances are located where the property line is proposed and along the proposed onsite driveway improvements for access to parcel B.	NOD	
2011049004	Fallon Crossing Development Project Streambed Alteration Notification 1600-2010-0394-3 (SAA) Dublin, City of Dublin--Alameda This proposed project involves construction of 106 single family residential units, interior streets, utilities, open space, a storm water detention basin and two water quality basins on 66.9 acres. Current plans/schedules call for the development of the Property in two phases. The first phase of development is planned to include mass grading of the Project Area and installation of utilities and the on-site work necessary to create 106 finished lots. Phase 2 will consist of vertical home construction and is scheduled to begin in the fall of 2011.	NOD

	and buoys used for the ferry services. The City of Alameda will continue to manage the landside ferry terminal facilities. WETA will take assignment of the City of Alameda's current operating agreements with the ferry service operators, certain grant agreements and other relevant contracts.		
2011048046	Agreement 2010-0171-R4 - Smith Residence Pier and Seawall Replacement Fish & Game #4 --Madera Replacement of an existing wooden pier and concrete seawall. The existing 55-foot long pier will be disassembled and removed by hand. Approximately 40 cubic yards of concrete pier foundation will be removed and hauled off. The lake bed will be re-contoured, as close as possible, to pre-erosion conditions. A total of 17 piers, 5 feet deep by 3 feet square, will be hand dug. A new 5-foot wide by 39-foot long pier and 16-foot wide by 20-foot long deck will be constructed. Approximately 1,480 square feet of fluctuating shore line will be stabilized using a combination of filter cloth, filter rock, and rock rip-rap. the existing seawall will be removed. Wall footings will be dug, and walls will be formed and poured as indicated in the engineered plans submitted with Notification No. 2010-0171R-4.	NOE	
2011048047	Bootjack Trail and Surface Hydrology Rehabilitation Fish & Game #3 --Marin The project is limited to the installation of eleven armored stream crossings, removal of two armored stream crossings, replacement of nine trail bridges, and installation of one drain lens. SAA #1600-2010-0400*3.	NOE	
2011048048	Waterfall Gulch Reservoir Maintenance - Sediment Removal Project Fort Bragg, City of Fort Bragg--Mendocino Reservoir is to be dredged of accumulated sand deposits that deplete water storage capacity in summer 2011. The reservoir fills with sand every year that are eroded from the contributing drainage area. Dredging occurs every few years to restore water storage capacity. Sand will be trucked away to spoils location well away from watercoursees.	NOE	
2011048049	Exchange of up to 9,000 acre-feet of Santa Clara Valley Water District's (SCVWD) 2010 State Water Project Metropolitan Water District of Southern California --Los Angeles, Santa Clara Metropolitan is requesting approval from the Department of Water Resources of the State of California (DWR) for an exchange of up to 9,000 acre-feet of SCVWD 2010 State Water Project (SWP) Table A water with MWD. In return, Metropolitan will provide to SCVWD an equal amount of its approved future allocation of SWP Table A water by December 31, 2021 on a 1 acre-foot for 1 acre-foot exchange.	NOE

2008032017	Creekview Specific Plan Roseville, City of Roseville--Placer The CSP is a proposed specific plan for development of a mix of land uses, including 2,011 residential units, ~ 19.3 acres of commercial and business professional uses, ~ 9.5 acres of public/quasi-public uses, 136.2 acres of open space uses, and 15.7 acres of parks. The proposed project site is within the City's Sphere of Influence (SOI). A 58.9 acre Off-Site Improvement Area, Immediately west of the project in the City's Reason Farms Panhandle would accommodate bypass flood control Improvements.	FIN	
2009022007	2040 General Plan and the Rancho Calera Specific Plan (formerly Greenhills Lakes Specific Plan) Chowchilla, City of Chowchilla--Madera Note: 1 CD The 2040 General Plan Planning Area includes two non-contiguous areas of land, 1,280 acre California Department of Corrections Central Valley Women's Facility and the Valley State Prison for Women. Total population forecasted for the Planning Area is 56,256 persons and 13,220 new housing units. About 2,900 acres of new commercial and industrial with a forecast of 13,570 new jobs are planned within the Planning Area. Approximately 6 new elementary, 2 new middle schools and 1 new high school are planned to be constructed within the Planning Area. Approximately 281 acres of parks will be constructed by 2040 within the Planning Area.	FIN	
2010121006	I-215 Bi-County High-Occupancy Vehicle (HOV) Lane Gap Closure Project Caltrans #8 San Bernardino, Colton, Grand Terrace, Riverside--San Bernardino, Riverside The Department, in cooperation with San Bernardino Associated Governments and the Riverside County Transportation Commission, proposes to construct a high-occupancy vehicle lane in each direction on Interstate 215 (I-215) in Riverside County from south of the I-215/State Route 91 interchange to north of I-215/I-10 in San Bernardino County, ending at the Orange Show Road interchange. The total length of the proposed project is 7.5 miles. The HOV lanes would be constructed within the existing median, with minimal widening within current right-of-way. The widening would require improvements to on- and off-ramps along the corridor, with a reduction in the lengths of some acceleration and deceleration lanes as well as reconstruction of two railroad bridges and I-215 bridges over railroad tracks, I-10 and the Santa Ana River.	FIN	
2011042026	Interstate 5 Bus/Carpool Lane Project Caltrans #3 Sacramento--Sacramento Note: Extended Per Lead The California Department of Transportation (Caltrans), in partnership with the federal Highway Administration (FHWA) and the Sacramento Transportation Authority (STA), is proposing to add approximately 13 miles of Bus/Carpool Lanes (also known as High Occupancy Vehicle or HOV lanes) in both directions on Interstate 5 (I-5) in Sacramento County, about one mile south of Elk Grove Boulevard to U.S. Highway 50. The project will upgrade the existing Casilada Pedestrian Overcrossing to meet the requirements of the Americans with	JD	06/10/2011

2011041031	Interstate-15/Base Line Road Interchange Improvement Caltrans #8 Rancho Cucamonga, Fontana--San Bernardino The City of Rancho Cucamonga, in cooperation with the California Department of Transportation (Caltrans), proposes to construct modifications to the Interstate 15 (I-15)/Base Line Road Interchange. The project is located within the City of Rancho Cucamonga (west of I-15) and the City of Fontana (east of I-15). The proposed project would widen Base Line Road from 4 to 6 lanes adding right and left turn lanes at East Avenue, widen East Avenue from 2 to 4 lanes adding right and left turn lanes at Base Line Road, realign and widen the southbound and the northbound ramps from 1 to 2 lanes, add a southbound loop on-ramp, and add I-15 acceleration/deceleration lanes.	MND	05/09/2011
2011042023	Dry-Fermentation Anaerobic Digestion Facility Project (SP09-057) San Jose, City of San Jose--Santa Clara Use permit for a 270,000 ton per year dry fermentation anaerobic digestion (AD) facility to process the organic portion of solid waste. The facility includes three 60,000 square foot buildings, incidental office space, biofilters, outdoor space for aerated curing piles, screening and stockpiling finished material, 6 power generators and 3 emergency generators on an approximately 41 gross acre site.	MND	05/09/2011
2011042024	Lost Coast Brewery Proposed General Plan and Zoning Amendments, Conditional Use Permit, and Lot Line Adjustment Eureka, City of Eureka--Humboldt The Lost Coast Brewery is proposing a General Plan Amendment and Zone Change, Conditional Use Permit, and Lot-Line Adjustment for a new draft brewery facility in Eureka. This would allow the Lost Coast Brewery to relocate and expand its existing brewery operations currently located on West Third Street, while retaining the existing Lost Coast Brewery and Café located on Fourth Street in downtown Eureka. The proposed 11.2 acre project site is located east of South Broadway (Highway 101), between Sunset Drive to the south and the Ocean View Cemetery to the north. The site (APN 019-341-002) consists of 9.3 acres of vacant pastureland presently owned by the Roman Catholic Bishop of Santa Rosa and a 1.9 acre parcel (APN 019-211-001) developed with a single family residence. As	MND	05/09/2011

	part of the project, the existing residence is proposed to be converted into a visitor or administrative center and the new craft brewery facility is proposed on the 9.3 acre parcel. Due to limited access, Sunset Drive has very low traffic volumes, and potential development that would be served by this Drive, other than the proposed project, is extremely limited. For this reason, the applicant is proposing improvements to Sunset Drive only between Broadway and the main access driveway.		
2011041028	Pebble Beach Co. Project Monterey County --Monterey The project consists of the build-out development and preservation of the remaining Pebble Beach company properties located within the Del Monte Forest. The project will allow the creation of 90 single-family residential lots, the renovation and expansion of visitor serving uses, and will preserve 635 acres as forested open space.	NOP	05/09/2011
	The project will result in new structural development at three main sites (The Lodge at Pebble Beach, The Inn at Spanish Bay, and Spyglass Hill).		
2011041030	1907-1929 Lincoln boulevard Walgreens Project Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve the construction of a one-story, Walgreens retail building measuring 12,041 square feet, including 2,201 square feet of basement space for storage and the building's electrical room, and 9,840 square feet of ground floor retail space. A surface parking lot providing 30 parking spaces would be located to the east of the building.	NOP	05/09/2011
2011042025	Yurok Hotel and Casino Project The Yurok Tribe --Del Norte Assess the potential off-reservation environmental impacts of the Yurok Hotel and Casino Project. The TEIR is being developed in accordance with the Tribal-State Gaming Compact (Compact). The Tribe proposes to develop a Class II/III Gaming Complex with a 120-room hotel (Proposed Project). The casino would be approximately 30,000 square feet, and would accommodate 349 gaming machines. The 120-room hotel would be constructed adjacent to the casino. Approximately 500 surface parking spaces and two restaurants would also be constructed as part of the Proposed Project.	NOP	05/09/2011
2011042027	The Ranch at Sunridge Rancho Cordova, City of Rancho Cordova--Sacramento The proposed project provides for the construction of up to 1,757 dwelling units in three residential land use classifications on ~260 acres. The proposed project includes 13.5 acres of commercial land uses on three separate parcels in the northwestern corner of the project site that would include shopping center uses. The proposed project includes 38 acres of community and neighborhood parks. The proposed project includes 12.9 acres designated for elementary school uses.	NOP	05/09/2011

	coatings at point of sale. The Averaging Compliance Option would be limited and eventually phased out by the year 2015. The small container exemption would be clarified to be limited to VOC content limits and an anti-building requirement would be added.		
2011011015	Beach and Warner Mixed Use Project Huntington Beach, City of Huntington Beach--Orange Note: 1 CD The project includes 2 new 5,500 sf retail buildings at the southwest corner of Warner Ave and Beach Blvd and 2 new mixed use buildings (Beach MU & Warner MU bldgs) with associated parking. The Beach MU bldg includes 202 du, 15,600 sf retail uses, 5,000 sf restaurant uses, and 5,400 sf residential common area. The Warner MU bldg includes 77 du, 3,000 sf retail uses, 1,600 sf commercial associated with 4 live/work units), 1,000 sf restaurant uses, and 1,600 sf residential common area. Some existing development would remain on site (13,414 sf retail, 196,000 sf office, and 12,322 sf restaurant). There would be a total of 75,000 sf public OS, including a plaza at the corner southwest corner of Beach Blvd and Warner Ave.	FIN	
2010062077	Las Tres Marias Estates 2004-138 Calaveras County --Calaveras The Proposed Project consists of three components: 1. A General Plan Amendment to change the land use designation of 104.49 acres (AON 048-017-098, APN 048-017-103 and a portion of APN 048-017-112) from Natural Resource Land - Agriculture Preserve (NRL-AP) to Future Single Family Residential (FSFR). The remaining portion of APN 048-017-112, approximately 4.27 acres, would be changed from Agriculture Preserve (AP) to Residential Center (RC). 2. A Zoning Amendment to change the zoning designation of 104.49 acres (APN 048-017-098, APN 048-017-103 and a portion of APN 048-017-112) from General Agriculture (A-1) to Residential Agriculture (RA). 3. A Tentative Subdivision Tract Map (TSTM) to divide the 104.49 acres into 15 residential lots, with a minimum 5-acre parcel size. Thirteen of the lots would be between 5.0 and 5.74 acres, one lot would be 9.0 acres, and the largest and most northerly lot would encompass 26.57 acres, including an existing pond that would be preserved. The subdivision has been designed to preserve open space corridors that may serve as overland migration routes for the federally threatened California tiger salamander (CTS) (<i>Ambystoma californiense</i>).	MND	05/11/2011
2011041034	Silver Spur Culvert Replacement Caltrans #5 Cambria--Monterey Caltrans proposes to replace the existing culverts on SR 1 in Monterey County at post mile 0.9. The purpose of this maintenance project is to restore proper function, improve drainage flow through the culvert, and prevent undermining of the highway. This activity would include work within the drainage and would likely include trenching, grading, and other ground disturbing activities. Caltrans proposes to install a high-density polyethylene (plastic) pipe of similar capacity to the two existing deteriorated metal-pipe culverts. The deteriorated existing pipes would be treated to allow for continued water passage and abandoned in place. All work would take place within the state right-of-way.	MND	05/10/2011

2011041037	Cathedral Canyon Drive Low Water Crossing (New Bridge) at Whitewater River Cathedral City Cathedral City--Riverside Construction of a concrete, four-pier bridge, approximately 600 feet in length at an existing low-water crossing of the Whitewater River by Cathedral Canyon Drive. Bridge provides four travel lanes, striped bike lanes, sidewalks, Median Island, on-bridge pedestrian lighting, and aesthetic enhancements.	MND	05/10/2011
2011041038	Mariner's Pointe Project Newport Beach, City of Newport Beach--Orange The existing building and surface parking lot would be demolished and removed to construct the proposed two-story commercial/retail building and three-level parking lot. The gross square footage of the first floor of the proposed two-story commercial/retail building would total 11,794 s.f. and the second floor would total 11,221 s.f. for a total of 23,015 gross building s.f.. The uses would consist 10,493 gross s.f. of restaurants, 9,522 gross s.f. of retail, and 3,000 s.f. of medical/office. Additionally, the project would construct a three-level parking structure that would provide 136 valet and self-parking stalls.	MND	05/10/2011
2011041032	Hyperion Tretation Plant Digester Gas Utilization Project Los Angeles, City of --Los Angeles The City of Los Angeles owns and operates the Hyperion Treatment Plant (HTP), which treats wastewater and biosolids, at 12000 Vista del Mar in Playa del Rey. Currently, HTP pipes its digester gas (digas), produced during anaerobic digestion of biosolids, to an adjacent electric power plant (Scattergood Generation Station). The power plant combusts the digas with natural gas to generate electricity for the City's power grid power grid and to provide HTP with steam for plant use. Export of digas to the Scattergood plant must end by January 15, 2015. The proposed project construct a cogeneration plant within HTP.	NOP	05/10/2011
2011041035	San Fernando Valley Family Support Center Los Angeles County Los Angeles, City of--Los Angeles Construct a new 250,330 sf office building for 7 County Departments and an associated parking structure on a 6.78-acre site. The 7 County depts to be housed within the proposed project are: 1) Dept. of Public Social Svcs; 2) Dept. of Children and Family Services; 3) Dept. of Health Svc; 4) Child Support Svc. Dept; 5) Dept of Mental Health; 6) Probation Dept; 7) Dept. of Public Health. Building heights would range between 3 and 5 stories, with a max height of approximately 84 feet. A total of 1,705 spaces would be provided in a 5-level parking structure and surface parking. The parking structure would include 3 levels above grade and 1.7 levels below grade. The project also includes 4,000 sf of retail space for employee and visitor use, a 2,750 sf pharmacy, an 8,180 sf green space area, and a 3,600 sf children's play area.	NOP	05/10/2011
2011041033	City of Pacific Grove Housing Element Pacific Grove, City of Pacific Grove--Monterey The project is an update of the Housing Element of the City of Pacific Grove General Plan. The Housing Element is one of the seven General Plan Elements mandated by the State of CA, as required in Government Code Sections 65580 to 65589.8. The Housing Element is a comprehensive policy document that	Neg	05/10/2011

	describes the City's housing needs and provides goals, policies, and programs to facilitate the development, improvement, and preservation of housing for all economic segments of the community. State law requires that the Housing Element consist of "identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement and development of housing."		
2011041036	Final Site Plan No. PSR 10-013 Tulare County --Tulare Final Site Plan to allow an ARCO AM/PM branded convenience store of approximately 3,028 sq. ft. with retail fuel sales at 16 fueling stations with associated underground fuel storage ranging from 47,000 - 50,000 gallons on an approximate 1.56-acre site in the PD-M-1 Zone.	Neg	05/10/2011
2011042028	Temporary Winter Closure, Usal Road, CR 431, M.P. 6.26 to M.P. 24.30 Mendocino County --Mendocino Proposed project will prohibit vehicle use of a portion of Usal Road CR 431, yearly during the winter months, typically from November 15th through April 15th. Actual closure date will be determined by the County Road Commissioner based upon seasonal conditions. The road will be closed to vehicular traffic by installing one locking gate across the road at each end of a segment of Usal Road. The road closure would block off approximately 18 miles of Usal Road between the Four Corners intersection and Hotel Gulch. The first gate will be placed northeast of Hotel Gulch leaving access to Usal Beach and campground from State Hwy 1. The second gate will be placed south of Briceland Road allowing access to Bear Harbor Campground, Shelter Cove, and the Kings Range from Shelter Cove Road and Redway. Warning signs will be placed near the Hotel Gulch, and the Briceland Road intersections advising drivers of the narrow road conditions and restricted turn-around space. This section of Usal Road is zoned for Timber Production and there are no residences located between the proposed gates.	Neg	05/10/2011
2011042030	Carevan Serai Winery Use Permit Major Modification Application No. P10-00206-MOD Napa County Napa--Napa Use Permit Major Modification to modify a 1988 Small Winery Exemption Certificate (SW-38889) and 2000 Use Permit 98425-UP to allow the following: see NOC	Neg	05/10/2011

	5% to 25%), at elevations between ~ 390 and 490 feet above mean sea level.		
2006081159	Edna Road Selenium Treatment Plant for Golden State Water Company Health Services, Department of San Luis Obispo--San Luis Obispo Golden State Water Company operates the Edna Road water supply and distribution system for the community of Rolling Hills Country Club. Currently the Lewis Lane wells are being treated for iron and manganese removal. The proposed project is to install an ion exchange unit to remove selenium from the Lewis Lane wells.	NOD	
2009102035	Bottle Rock Power Steam Project Lake County --Lake The CDFG is executing Lake or Streambed Alteration Agreement number 1600-2009-0193-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Bottle Rock Power. The portion of this project that will impact the stream zone is limited to the construction of a permanent bridge (High Valley Creek Bridge), the placement of a temporary bridge (Temporary Bridge) for use during construction, and filling in 258 linear feet of an ephemeral drainage tributary to High Valley Creek.	NOD	
2009122009	Shiloh III Wind Energy Project Solano County Rio Vista--Solano The proposed project involves the installation of 59 wind turbine generators (WTG) and foundations, access roads, control cables, power collection cables, and an electrical substation. The project will result in impacts to 80 acres of CA tiger salamander (<i>Ambystoma californiense</i>) habitat including temporary impacts to 65 acres; the project will permanently remove 15 acres of CA tiger salamander habitat. The project is expected to result in incidental take of CA tiger salamander, which is designated as a threatened species under the CA Endangered Species Act. DFG issued an incidental take permit for the project as a responsible agency under the CEQA relying on the environmental impact report prepared for the project and certified by the lead agency, County of Solano. The ITP authorizes incidental take of CA tiger salamander that may occur as a result of project implementation.	NOD	
2010044005	CERS for Establishing the Las Pulgas and San Onofre Landfill Facility Boundaries U.S. Marine Corp --San Diego The following changes are proposed to the existing facility known as Las Pulgas Landfill: an increase in maximum daily tonnage from 270 tons to 400 tons; an increase in maximum daily traffic volume from 37 vehicles per day to 80 vehicles per day; increase in permitted site from 88.7 acres to 133 acres (no change in the waste footprint); change in the estimated closure date from November 2184 to March 31, 2047; an update in daily cover stating that the operator may utilize daily cover as outlined in the most current JTD; updates to the Local Enforcement Agency findings and conditions; updates to the Joint Technical Document and updates to other related documents and references. 2011042040	Galt Wastewater Treatment Plant Solar Power Purchase Agreement Project Galt, City of Galt--Sacramento The proposed project is a one megawatt solar photovoltaic (PV) array facility, which would be located on Pond 2 of the City's WWTP. A solar power provider (the applicant) would lease the land and operate the facility, and the City would purchase electricity every year at a negotiated rate per a Power Purchase Agreement. The facility is anticipated to operate over a 20-year period and provide 2,000,000 to 2,250,000 kilowatt-hours per year of electricity to the WWTP.	MND	05/12/2011
2011042035	706 Mission Street - The Mexican Museum and Residential Tower Project San Francisco, City and County of San Francisco--San Francisco The proposed project, on the northwest corner of Third and Mission Streets in San Francisco's Financial District neighborhood, is the construction of a 47-story, 550 foot-tall tower. The proposed tower would be connected to the adjacent existing Aronson Building, which would be restored and rehabilitated. The Aronson Building currently contains a retail space on the ground floor and office use on the second through tenth floors. As part of the proposed, the Aronson Building would be restored and rehabilitated. The overall project would contain up to between 175 and 215 residential units, space for The Mexican Museum, a ground-floor retail/restaurant use, and associated building services. In the new tower, there would be 44 floors of residential space, including mechanical areas, and three floors of museum space. In the adjoining Aronson Building, there would be residential lobby space and a retail/restaurant space on the ground floor. No museum space would be located on the ground floor. The project sponsor would purchase the adjacent Jessie Square Garage from the San Francisco Redevelopment Agency and convert it from a publicly owned garage to a privately owned garage. The project sponsor would also provide an endowment for The Mexican Museum.	NOP	05/12/2011
2011042037	Jasud Estate Vineyards Timberland Conversion Project (TCP 10-593) Forestry and Fire Protection, Department of Calistoga--Napa The proposed project would result in the conversion of 15 acres of timberland and the development of 12 acres of vineyard. The balance of the disturbed area (3 acres) will be designed to accommodate internal farm avenues for farm trucks, equipment turn around, and vineyard maintenance operations. The project site is not located within a Timberland Protection Zone (TPZ). A Timberland Conversion Permit (TCP) and approval is required from Cal Fire.	NOP	05/12/2011
2011041043	Mobile Smelting Facility Removal Action Workplan Toxic Substances Control, Department of Mojave--Kern Site remediation: Consolidation and capping of dioxin and metal impacted soil and ash. Material to be placed in an on-site waste management unit. Property to be deed restricted.	Neg	05/12/2011
2011042039	Shasta Park Reservoir Project Sacramento, City of Sacramento--Sacramento The project includes the construction, operation and maintenance of a groundwater well and water reservoir on an approximately two-acre parcel east of Bruceville Road and north of Imagination Way in south Sacramento. The reservoir	Neg	05/12/2011

	would have a capacity of approximately 4 million gallons. A groundwater well would be installed on the site, with a capacity of 2 million gallons per day, and an anticipated withdrawal of approximately 2 acre-feet per year. A water treatment facility would be constructed with a capacity of 2 million gallons per day, and a pump station with a capacity of 15 million gallons per day. The pump station would pump water from the reservoir to users.		
2011042038	Policy for Siting, Design, Operation, and Management of Onsite Wastewater Treatment Systems State Water Resources Control Board -- The proposed project is the adoption and implementation of a statewide onsite wastewater treatment system (OWTS) policy as required by Water Code sections 13290 et seq. Section 13290 et seq. of the Water Code directs the the State Water Board to provide statewide requirements for operation and permitting of certain categories of OWTS. The proposed policy would implement conditional waivers of Waste Discharge Requirements for the OWTS in four regulatory tiers. The proposed policy would be administered by the regional water quality control boards after incorporation into their water quality control plans (also called basin plans). Local agencies seeking authority to do so could implement the Policy along with the regional water quality control boards.	Oth	05/19/2011
2007062130	Swanston Station Transit Village Specific Plan Sacramento, City of --Sacramento The project re-designates the land uses for all parcels and rezones about 71% of the project area parcels to provide the regulatory infrastructure to support mixed-use transit-oriented development around the Swanston Light Rail Station.	NOD	
2008101050	Santa Ana Regional Interceptor (SARI) Reach IV-A and IV-B Pipeline Repair Santa Ana Watershed Project Authority Corona--Riverside The Project will repair and extend the useful life and Reaches IV-A (both the lower and upper portions of Reach IV-A) and IV-B of the SARI pipeline network. The Project will involve slip-lining approximately three miles of the lower portion of Reach IV-A and approximately three miles of Reach IV-B, and using the cured-in-place pipeline repair for approximately five miles of the upper portion of Reach IV-A. New watertight maintenance access structures will also be installed to eliminate water intrusions.	NOD	
2010031100	Kate Sessions Elementary School - Proposed Pick-Up/Drop-Off Zone Project San Diego Unified School District San Diego--San Diego The proposed project includes the construction and operation of a pick-up/drop-off zone on the Kate Sessions Elementary School campus. In addition, other on-site and off-site improvements are proposed in order to improve traffic, parking, and provide safer student drop-off and pick-up operations at the school.	NOD

	General Amendment.		
2011049014	Santa Monica Street Affordable Housing Project Fairfield, City of Fairfield--Solano The project includes grading and filling-in approximately 0.18 acre (7,860 sq. ft.) of seasonal wetlands and stream channel as a part of a 3-acre residential housing development. Approximately 575 cubic yards of clean, granular and non-expansive imported will be used as fill material in the channel. The project also includes the construction of a 36-inch storm drain pipe. The CDFG is executing a Lake and Streambed Alteration Agreement Number 1600-2011-0046-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Greg Sparks/Mercy Properties CA.	NOD	
2011048138	Heber Dunes Interpretive Panel Installation Parks and Recreation, Department of El Centro--Imperial The purpose of the Heber Dunes Interpretive Panel project is to optimize the interpretive and educational resources available at Heber Dunes SVRA. Two double sided wooden interpretive panels, twelve by four feet, will be installed. One panel will be located in a small depression facing in a south westerly direction, adjacent to Ramada #8. The second panel will be located midway between Ramadas #9 and #10. Potential impacts to the area are minimal due to the small area required for the placement of panel supports.	NOE	
2011048139	Sierra High School Taack and Field Project San Diego Unified School District San Diego--San Diego The San Diego Unified School district proposes replacing the existing synthetic turf field on the Sierra High School campus with a new synthetic running track. Serra High School is located within the Department of Defense (DoD), Camp Elliott Formerly Used Defense Site (FUDS). The US Army Corps of Engineers (USACE) is responsible for the administration of environmental response actions for the Camp Elliott site. Due to the clearance actions of the Camp Elliott FUDS area that have been completed under the USACE oversight, the probability of encountering a Munitions and Explosives of Concern (MECs) during the construction of the proposed project is considered relatively low. However, the severity of a potential incident is considered high and the USACE requires that all projects within the area address the potential for MECs.	NOE	
2011048140	Application Number B-111284 Santa Cruz County --Santa Cruz Proposal to construct a groundwater recharge facility a recharge including excavation and grading of bio-retention swale areas, drilling of subsurface seepage pits, and trenching for new piping and stormwater facilities.	NOE	
2011048141	Replacement Well for Sheep Creek Water Company - Well #2A Public Health, Department of --San Bernardino The Sheep Creek Water company is proposing to replace Well #2 because of low production. The new well will serve the existing connections and will utilize the existing pipelines.	NOE

2011041047	Sajady Minor Subdivision San Diego County --San Diego The project is a 3-lot residential subdivision. The project site is located on Babel Drive in the Jamul-Dulzura Community Planning Area, within unincorporated San Diego County. The site is subject to the general Plan Regional Category (EDA) Estate Development Area, land Use Designation (17) Estate Residential. Zoning for the site is A72; general Agriculture. The site is currently vacant. Access would be provided by a Babel Drive connecting to Skyline Truck trail (a public road). The project would be served by on-site septic systems and imported water from the Otay Water District. 350 feet extension of sewer or water utilities will be required by the project. Earthwork will consist of cut and fill of 4,900 cubic yards of material.	MND	05/13/2011
2011042041	6877 Sebastopol Avenue CVS-Chase Project Sebastopol, City of Sebastopol--Sonoma The project includes the redevelopment of a 2.45 acre property with two new single-story buildings for a retail pharmacy and a bank. The pharmacy building would be 14,327 sq. ft.; the bank would be 4,120 sq. ft., for a total of 18,903 sq. ft. The pharmacy would have a 'drive-through' component and the bank would have an ATM accessible by vehicle. The existing buildings on the site comprising 32,237 sq. ft. which were utilized for a former car dealership, are currently vacant and would be demolished. Thus there would be a net square footage reduction on the site of 13,541 sq. ft. The pharmacy wishes to obtain a Use Permit to allow an 'off-site' type alcohol license. The project also requires Design Review. In addition, the project proposes abandonment of Barnes Avenue, an alley-like street that current separates parcels on the site.	MND	05/13/2011
2011042043	Wastewater Treatment Plant Upgrade and Expansion Project Donner Summit Public Utility District --Nevada Donner Summit Public Utility District (DSPUD) proposes upgrades to their existing wastewater treatment plant (WWTP) to: (A) meet their National Pollution Discharge Elimination System (NPDES) permit stipulations and waste discharge requirements (WDRs), and (B) provide sufficient treatment for effluent flows up to their currently permitted average dry weather flow (ADWF) of 0.52 million gallons per day (mgd). DSPUD completed a Wastewater Facilities Plan (the Facilities Plan) in May 2010 that details upgrades to their Wastewater Treatment Plant (WWTP) to bring it into compliance with (NPDES) permit No. CA0081621.	MND	05/13/2011
2011041048	Imperial Beach GP/LCP and Commercial Zoning Amendment Imperial Beach, City of Imperial Beach--San Diego Amend the Imperial Beach General Plan and Local Coastal Plan and Zoning Ordinance to revise existing land use designations and zoning regulations for properties designated C-1 General Commercial in the Palm Avenue (State Route [SR]-75 Study Area, C-2 Seacoast Commercial in the Old Palm Avenue and Seacoast Drive Study Area, C-3 Neighborhood Commercial in the 12th Street Corridor Study Area; and for the MU-1 (Mixed Use-1) and MU-2 (Mixed Use-2) General Plan overlay designations to new C/MU1, C/MU2, and C/MU3 designations with amended regulations. 2011042042	Woodland Commerce Center Project Woodland, City of Woodland--Yolo The proposed Project includes a General Plan Amendment to annex the project site into the City of Woodland, Site Plan Review, a Tentative Subdivision Map to subdivide the site into approximately 30 parcels for future industrial/retail development, and a Development Agreement. Approval of the annexation will add approximately 146 acres to the City of Woodland. Upon annexation, the proposed Project will receive City services and will be subject to the City's regulations. Two existing parcels located at the south end of the proposed Project site will not be subdivided, and their existing uses (a welding shop and train repair facility), are anticipated to remain. It is also anticipated that a railroad spur would be constructed in the southwestern portion of the proposed project site; however, this would be market-driven, and the timing for the spur and rail trip generation numbers are not known at this time. The proposed Project would include up to 3,176,932 square feet of industrial-type uses (distribution/warehousing and light and heavy manufacturing). Of the total square footage, a minimum of 20,000 square feet may be used for retail uses. Primary and secondary ingress/egress would be from East Beamer Street and CR 102, respectively, and approximately 2,877 parking spaces would be provided on-site.	NOP	05/13/2011
2011041044	Zoning Text Amendment Santa Maria, City of Santa Maria--Santa Barbara The proposed project is a zoning code text amendment to the following sections of the Santa Municipal Code, Title 12: Chapter 12-2 (Definitions); Chapter 12 (C-1-Central Business District); Chapter 12-21 (AS-II-Airport Service II Zone). 2011041049	Juvenile Services Center Additions ED10-071 San Luis Obispo, City of --San Luis Obispo Request by the County of San Luis Obispo Department of General Services for the expansion of the existing County Juvenile Services Center. The proposed additions include the following: Administration and Staff Support, Academic Operations/Classrooms, Treatment Rooms, Classroom/Group Treatment, 20-bed housing component, Multipurpose Rec Room (gym), Recreation Yard - 4,400 square feet, Open Space, Drainage Retention Basin, and Paving. Altogether, the elements of the proposed addition described above (including open space, recreation yard, paved area and drainage basin) total 1.65 acres (71,726 square feet) of disturbance on a 57.2-acre parcel. The existing emergency access road on the southern boundary of the site will require widening to 16 feet and altered to provide an all-weather surface. Plans for the road at this time call for minor grading, installation of a small section of retaining wall, and placement of decomposed granite on the road surface. The project is within the Public Facilities land use category and is located at 1065 Kansas Avenue, off of Highway 1, approximately 3 miles north of the City of San Luis Obispo, in the San Luis Obispo planning area. 2011048152	Intake Maintenance 2011-2025 West Stanislaus Irrigation District --Stanislaus The Project is the annual routine maintenance, as needed, including grading for removal of accumulative river silt, of the WSID access to pumping Plant No. 1. Silt removal will occur in an area of approximately one quarter (1/4) mile long and encompass approximately 1/3 of an acre area near the District's point of diversion on the San Joaquin River. The Project will not start before June 1 and will concluded by August 31, annually, as needed, for a period of 15 years.	NOE	
2011048153	Agreement No. 2010-0186-R4; PG&E Foothills 1101 12kV Distribution Line Vegetation Management Project Fish & Game #4 Morro Bay--San Luis Obispo The proposed Project would trim trees that grow to a height within 15 feet of electrical conductors. All trimmings will be removed from the riparian corridor and either left in place for landowner use or chipped and spread as compost. Trees would be trimmed ("topped") but not cut down at the sites. At Turri Road Site 1, approximately 2,575 linear feet of willow trees would be trimmed within a 25-foot wide right-of-way. At Turri Road Site 2, approximately 750 linear feet of cottonwood and willow trees would be trimmed within a 25-foot wide right-of-way. Equipment used will include chainsaws, pruners, and loppers. No other mechanized equipment shall be used.	NOE	
2011048154	Stream Alteration Agreement No. 2010-0177-R4 for the Routine Sediment Removal along an Unnamed Tributary to San Emigdio Creek near Nesthorn Way Fish & Game #4 --Kern The Project is to allow routine maintenance work limited to sediment removal to a length of 950 feet, a width of 8 feet, and a depth of up to 3 feet adjacent to the property at APN's 316-283-1 thru 10. Excess sediment will be stockpiled in a legal manner at a borrow pit (disposal site) located northeast of the Pine Mountain Golf Course outside of the tributary to San Emigdio Creek.	NOE	
2011048155	Earth Day Tree Planting Parks and Recreation, Department of --San Diego Plant trees in areas of Palomar Mountain State Park, to rehabilitate natural resources damaged by the Poomacha Fire and to conserve the 100-year old historic apple orchard. Areas of focus include sections of the Silvercrest hilltop, sections between the Scott's cabin trail and Doane Valley Road and State Park Road intersection to the Cedar Group Camp. Work will also include removal of up to approximately 200 square yards of Ceonothus, which moved into the area following the fire and is crowding out other plant species and inhibiting regrowth. 2010111089	Guadalupe Ditches Relocation Project Caltrans #5 Santa Maria, Guadalupe--Santa Barbara NOTE: Notice of Availability of FONSI The California Department of Transportation (Caltrans) proposes to relocate drainage ditches along State Route 166 between Guadalupe and Santa Maria in Northern Santa Barbara County. The purpose of the project is to improve safety on State Route 166 by providing additional recovery area for errant vehicles between post mile 0.9 to 2.4 (Location 1) and post mile 3.8 to 4.8 (Location 2). The collision rate within the project limits is higher than the statewide average for similar facilities. In addition, a high percentage of the collisions involve drivers traveling beyond the right shoulder and into the drainage ditches that closely parallel the highway on both sides of the road.	FON	
2011041055	Proposed Relocation of Displaced Threshold, Acquisition of 97 Acres in Fee Simple and Avigation Easement Ventura County Oxnard--Ventura Proposed airfield improvements at Oxnard Airport will enhance the safety of airport operations and expand the overall utility and efficiency of the Airport to accommodate existing aircraft operators. Proposed improvements that comprise the proposed project are: relocate the Runway 25 displaced threshold 924 feet to the east and replace nonstandard Medium Intensity Approach Lighting System w/ Runway Alignment Indicator Lights (MALSR) with a standard Medium Intensity Approach Lighting System w/ Sequenced Flashing Lights (MALSF); acquire fee simple ownership of 23.53 acres to the east and north of the current airport boundary; acquire an avigation easement over 62.5 acres north of the Airport generally between the existing northern boundary fence and Teal Club Road.	MND	05/16/2011
2011041052	Broad Beach Restoration Project California State Lands Commission Malibu--Los Angeles The proposed project would address geologic hazards associated with beach and dune erosion, flooding, storms and coastal cliff erosion at Broad Beach through beach and sand dune restoration, and would include the following components: 1) dredging and placing high quality beach material to replenish Broad Beach with "dry" sand between the dune system and the shoreline; 2) burying the temporary emergency revetment in the landward edge of the widened nourished beach. Imported beach quality material would be placed over the existing temporary revetment to create a restored dune; 3) building a reservoir of sand and restoring dune habitat with native plant species; and 4) widening the beach to provide enhanced public access and recreational opportunities along Broad Beach.	NOP	05/16/2011
2011041054	Matteis Tavern Inn Santa Barbara County --Santa Barbara The applicant proposes to demolish non-historic additions to Mattei's Tavern that were built in the 1970's and in 2004 and construct a one-story addition with basement. The applicant also proposes to construct and operate a new hotel that would include 64 cottage style guest rooms; a gymnasium; a spa; a swimming pool; a meeting/banquet room; small boutique and reception building. The project would increase development on the site from the existing 16,613 sf to 49,617 sf.	NOP	05/16/2011

Crossing 7 is a concrete Arizona type structure with a completely buried culvert underneath. Crossing 8 contains a temporary steel and wood bridge, with an abandoned Arizona crossing under the bridge, constricting flows, and causing high velocities which cannot be navigated by the steelhead during high flows. Both crossings are being replaced with a bottomless arched culvert which can withstand a 100 year storm and will convey the 50 year flood. Crossing 7 requires two rock weirs, buried to a depth of 5 feet. The footprint will be approximately 2,500 sq. ft. and about 300 cubic yards of material will be displaced. No grade structure is required for crossing 8, but 2,000 sq. ft. and 250 cubic yards of material will be displaced. Both Arizona crossings will be removed, along with the existing bridge, and all areas of disturbance will be replanted. This project is in cooperation with the Santa Ynez River Technical Advisory Committee and supported by the Department's fishery restoration grants program.</p>	NOD
