STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

April 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

<u>Documents Received on Tuesday, April 02, 2013</u>			
2013-02	Coyote Valley Band of Pomo Indians - APNs: 165-050-11, 12, 13, 14, & 15 Bureau of Indian Affairs --Mendocino The Tribe intends to utilize the land to further enhance self-determination and increase the general welfare of the tribal members through development of tribal residential units and a gas station/mini-mart.	BIA	05/01/2013
2013041008	Aquatics Complex Kings Canyon Unified School District Reedley--Fresno The Kings Canyon Unified School District is considering the construction of an Aquatics Complex on the Reedley High School campus. The complex would have a competition pool, a warm-up pool, and other facilities necessary for physical education, swim team, water polo team, and community uses.	CON	04/15/2013
2011071095	Annexation Requests By Anaheim, Irvine Ranch WD and Yorba Linda WD Orange County Water District Anaheim, Yorba Linda, Irvine--Orange The City of Anaheim, Irvine Ranch Water District (IRWD), and Yorba Linda Water District (YLWD) have requested annexation of lands into the Orange County Water District (OCWD) boundary, which would increase the service area of the OCWD. The OCWD currently encompasses over 229,000 acres of the lower watershed of the Santa Ana River below Prado Dam in the Orange County region of southern CA.	EIR	05/16/2013
2012062029	Plan Bay Area Regional Transportation Plan / Sustainable Communities Strategy Draft EIR Metropolitan Transportation Commission Oakland-- This draft program EIR has been prepared on behalf of the Metropolitan Transportation Commission and the Association of Bay Area Governments (ABAG) in accordance with the CEQA. This Draft EIR analyzes the potential significant impacts of the adoption and implementation of the proposed Plan Bay Area, which is the update to the 2009 Regional Transportation Plan (RTP) and the new Sustainable Communities Strategy (SCS) for the San Francisco Bay Area.	EIR	05/16/2013
2010051015	City of Fresno Recycled Water Master Plan and Ordinance Program EIR Fresno, City of Fresno--Fresno NOTE: Final 1 Hard Copy The City of Fresno proposes a Recycled Water Master Plan (proposed project or Master Plan) that identifies potential recycled water use opportunities within the City and its Sphere of Influence (SOI), including Fresno County lands located in or adjacent to the SOI. The Master Plan includes a plan for the installation and operation of treatment, storage and distribution infrastructure to serve the proposed project area with recycled water.	FIN

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, April 02, 2013</u>			
2013041001	Jail Expansion San Benito County Hollister--San Benito The proposed project would expand the existing San Benito County Correctional Facility by constructing an approximately 22,000 sf building adjacent to the existing facility. The new expansion would be connected to the existing facility via a secure breezeway or hallway. The project would include the construction of a new driveway and turnaround area in the northern portion of the study area, which would be used for prisoner intake and release functions. The proposed project would include new inmate housing, a medical services suite, and an intake and release suite. The addition of 60 beds could increase the inmate population by up to 60 inmates. Once fully occupied, the expanded facility would require eight additional employees.	MND	05/01/2013
2013041005	Lost Hills Oil Field Steam Generators by Vintage Production CA, LLC (Project No. S-1123645) San Joaquin Valley Air Pollution Control District --Kern VPC is proposing to expand its operations through the replacement of three field gas/natural gas-fired steam generators with three new 62.5 MMBtu/hr field gas/natural gas-fired steam generators and the installation of six new 85 MMBtu/hr natural gas-fired steam generators, for a total of nine new steam generators. The proposed project will be located within VPC's Heavy Oil Western Stationary Source in the Lost Hills Oil Field, Kern County, CA.	MND	05/01/2013
2013041006	CVS Pharmacy La Habra, City of La Habra--Orange The project applicant, Townsend Bay Holdings, L.P., is proposing the development of a CVS Pharmacy with a drive-through window on a 1.14-acre property in the City of La Habra. Vehicular access to the site is provided from Harbor Boulevard on the east and from Imperial Highway on the south. The 14,791 sf structure includes 12,900 sf of retail area and 1,871 mezzanine. The project includes a total of 52 surface parking spaces, including 49 regular parking spaces and 3 handicapped accessible parking spaces. The proposed project is consistent with both the General Plan Land Use Designation of "Highway Commercial" and the C-2 PUD "Commercial Planned Unit Development" zoning classification adopted for the subject property.	MND	05/01/2013
2013041007	Bundy Canyon Road and Orange Street Tentative Parcel Map No. 30522 (Planning Application 10-0301) Wildomar, City of Wildomar--Riverside The proposed project includes a TPM 30522 to subdivide two existing parcels, totaling approximately 10.3 acres, into seven parcels (numbered parcels 1-7) for future commercial development. Existing parcels include APN 367-100-026, which the proposed project would dedicate approximately 0.75 acres along both Bundy Canyon Road and Orange Street of the project site to the City of Wildomar for right-of-way necessary to accommodate access to/from the future commercial development. While there is no development proposed with the proposed TPM project, the initial study and associated technical studies have assumed and evaluated the realistic potential near term development of a fast-food restaurant and gasoline service station on parcels 1 and 2. Additionally, a driveway linking Parcels 1 and 2 to Bundy Canyon Road will be developed at the northern portion	MND	05/01/2013

	of Parcel 3 and the stormwater system for the entire site will be constructed in Parcel 7. There is no reasonably foreseeable near-term development anticipated at this time for the remainder of Parcel 3 or on Parcel 4 through 6. However, it is reasonable to anticipate that these parcels would be developed in the long-term with commercial uses given the existing commercial zoning of the site. As these are future projects, the evaluation of potential impacts will be more programmatic than the evaluation of development assumption on Parcel 1, 2, and 7 and the developed portion of Parcel 3.		
2013042001	Concow Road Infrastructure Rehabilitation Project Butte County --Butte Rehabilitating the paved section of Concow Road will be the main priority of this project. Minor surface improvements of spur roads may occur depending on final construction costs. Improved roadway safety, drainage, and pavement quality are the main design objectives of the project.	MND	05/01/2013
2013042002	Holiday Inn Express Expansion Pacifica, City of Pacifica--San Mateo The project is the expansion of an existing 38-room Holiday Inn Express. A total of 44 guest rooms and 2,010 sf of retail space would be added to the existing building. The existing parking garage would also be expanded to provide 24 additional parking spaces, 3 bicycle parking spaces and 2 motorcycle parking spaces. Other improvements/additions include a meeting room, great room, fitness area, storage facilities and new bathrooms.	MND	05/01/2013
2013042004	Rocketship Brilliant Minds Charter Elementary School San Jose, City of San Jose--Santa Clara The project would construct a charter elementary school. Phase 1 would install 4 portable classrooms at the site, to be used for one year, Phase 2 would remove the portables and install a new pre-fabricated 22,000 sf building and play equipment. At full buildout, the school would include grades K-5 and allow for enrollment of up to 650 students.	MND	05/01/2013
2013042005	24 Hour Fitness Project Redwood City Redwood City--San Mateo The 24 Hour Fitness Project (proposed project) includes construction and operation of a 24 Hour Fitness health club facility in the City of Redwood City. 24 Hour Fitness USA, Inc., in conjunction with the developer SunCap Property Group (together referred to as the Project Sponsors), propose to redevelop the project site at 1050 Broadway / 1093 Charter Street (project site) and construct a new two-story health club with a rooftop open-air basketball court. The club would be approximately 47,152 sf: 21,600 sf for the ground floor, 19,914 sf for the second floor, and 5,638 sf for the rooftop basketball court); and would be operational up to 24 hours per day, seven days a week.	MND	05/01/2013
2012042046	Recology Ostrom Road Green Rail and Permit Amendment Project Yuba County Marysville, Wheatland--Yuba This project has two primary components: 1) the Recology Green Rail project, and 2) modifications to the CUP and Solid Waste Facility Permit for the Recology Ostrom Road Landfill to clarify that the waste tonnage intake and truck trip limits	NOP	05/01/2013

	apply only to waste disposed of in the Landfill and not to beneficial re-use material ("BRM," one type of which is Alternative Daily Cover, also known as "ADC").		
2013041004	2810 East 1st Street Project Long Beach, City of Long Beach--Los Angeles The Applicant proposes to restore the existing structure, using over 90 percent of the onsite materials. The proposal involves the use of 100 percent of the existing foundation and over 80 percent of the existing framing. Missing doors and windows would be replaced with circa 1920s. The project proposes various structural, interior, exterior, hardscape/landscape/fencing, driveway/walkways, and utility improvements to the property. Project construction would occur in one phase over a 12-month period, beginning Summer 2013 and ending Summer 2014. The Applicant requests approval of a Certificate of Appropriateness by the Cultural Heritage Commission (or Planning Commission, upon appeal).	NOP	05/01/2013
2013042008	Western Aggregates LLC Yuba County Operations Amended Reclamation Plan State Mining and Geology Board --Yuba Note: Extended per lead The Western Aggregates LLC Yuba County Operations Amended Reclamation Plan would involve the reclamation of 1,960 acres of aggregate mining operations, which are projected to terminate within the 1,960-acre area in approximately 45 years (2058). Reclamation activities would occur in three phases approximately every 15 years, and would be initiated following the termination of mining activities subsequent to each mining phase. Implementation of the reclamation plan would ultimately create a series of lakes, varying in size, and open space areas supporting a variety of wildlife habitat types including aquatic lake, marsh, woodland and upland habitats. Reclamation activities would include grading and contouring the site and revegetation. Removal of all project infrastructure and final reclamation would occur after the culmination of mining activities.	NOP	05/17/2013
2013041002	Special Use Permit No. PSP 10-042 Foothill Bible Church Tulare County --Tulare The applicant proposes an expansion consisting of a new 10,000 sf worship center, conversion of the existing 6,300 sf worship center and banquet hall to classrooms, a new 2,000 sf education building, and a new 1,920 sf shop / storage building with a bathroom. Total sf will increase from 9,238 to 23,220.	Neg	05/01/2013
2013041003	Seely Ave. Area Annexation of 18 Parcels Aromas Water District --San Benito Annexation into the Aromas Water District to allow the availability of municipal water service to 18 parcels: 011-150-078, 141, 143; 011-210-024, 056, 057, 059, 062, 068, 069, 070, 073, 087, 088, 090, 115, 117, 130. <u>Documents Received on Tuesday, April 02, 2013</u>			
2006011080	<p>Crafton Hills College Master Plan Update San Bernardino Community College District Redlands, Yucaipa, Highland--San Bernardino</p> <p>The CHC Master Plan Update (October 2011) describes the future development of the CHC in two horizons, keeping with the planning strategies and framework of the 2005 Master Plan. Horizon 1 includes the Measure 'M' priority projects as identified by the Master Plan Steering Committee. Horizon 2 is the potential full build-out of the campus in the future. The SEIR only analyzes Horizon 1, because not enough detail is known about future projects. Separate CEQA documentation will be prepared for Horizon 2 as projects become defined and funding sources become available.</p> <p>Horizon 1 includes the construction and operation of buildings including the Crafton Center, Occupational Education 2 Replacement, Physical Education/Athletics, and the Science Building.</p>	SIR	05/16/2013
2004031076	<p>Secondary Treatment and Plant Improvement Project Orange County Sanitation District Fountain Valley, Huntington Beach--Orange</p> <p>The proposed project would involve the construction of replacement facilities for the existing sludge dewatering system and associated odor control ventilation system at Plant 2. Additional improvements would also include a new dewatering building, power distribution center, electrical and process control systems, and the utilities in support of the proposed replacement facilities. The proposed project would require the demolition of existing Plant 2 facilities but would not expand the capacity of the existing wastewater treatment facility and would be constructed entirely within the existing Plant 2 property.</p>	NOD	
2005011101	<p>Joint Dominguez Gap and DeForest Treatment Wetlands Project Los Angeles County Long Beach--Los Angeles</p> <p>The proposed project would implement a multi-purpose wetland development that would (1) provide wildlife habitat, water quality improvement, groundwater recharge, passive recreation and education, (2) be safe to use, and (3) require minimal maintenance while maintaining the existing flood control capacity.</p>	NOD	
2005022045	<p>Vista Montana Well Watsonville, City of Watsonville--Santa Cruz</p> <p>Operation of Well #2 and the Addition of Treatment for Manganese Removal. The City of Watsonville constructed Well #2, and associated treatment facility, after review and approval of a Negative Declaration. The Notice of Determination was filed April 5, 2005, under SCH# 2005022045. The well has not been used because of a high concentration of manganese. The City proposes to install additional equipment within the existing facility for the removal of manganese.</p>	NOD	
2005032065	<p>Sea View Replacement Well Watsonville, City of Watsonville--Santa Cruz</p> <p>Permitting and operation of a replacement municipal water supply well. The well will have a capacity of 1,000 gallons per minute.</p>	NOD

<u>Documents Received on Tuesday, April 02, 2013</u>			
2008091059	<p>Malibu Middle and High School Campus Improvements Project Santa Monica-Malibu Unified School District Malibu--Los Angeles</p> <p>An application to redevelop portions of the MMHS campus with a new classroom/library/administration building totaling 20,274 sf (sf) of net new building area; ~12,509 sf of interior renovation and modernization of existing classrooms; a new 150-space lighted parking lot; a reconfigured 119-space lighted parking lot with an onsite roundabout; a reconfigured 61-space lighted parking lot; a new student drop-off and pick-up lane; a right-hand turn lane for ~700 feet along Morning View Drive; two new unlit tennis courts; new outdoor common areas; new fencing, landscaping, retaining walls, and grading; relocated equestrian trail; upgrades to the onsite wastewater treatment system and drainage; and the renovation of existing facilities, outdoor lighting, and infrastructure. Conditional use permits are included for the operation of a public educational institution and the expansion of more than 500 sf in the Institutional zone; variances for grading in excess of 1,000 cubic yards, structures on slopes steeper than 2.5 to 1, and impermeable coverage over 25,000 sf, a site plan review for height up to 28 feet for the new administration building; a minor modification for a 50 percent reduction in the required front yard setback; and a demolition permit for the demolition of the existing administration and library buildings.</p>	NOD	
2009031080	<p>Arsenic Remediation in City Well No. 15B Chino Hills, City of Chino--San Bernardino</p> <p>The CA Dept. of Public Health, as the responsible agency, will be issuing a water supply permit. The City of Chino Hills proposed project included the arsenic remediation of city well no. 15B through well-head treatment using coagulation filtration (CF) process. CF is an environmentally friendly treatment approach that removes arsenic chloride, sodium hypochlorite, and hydrochloric chemical injection. The resultant ferric hydroxide/arsenate precipitant particles coagulate and are captured in the filter media. A polymer is added to the precipitate to densify the material. The resultant sludge is estimated at 42 gallons per acre foot of water treated and can be disposed of in a local landfill.</p>	NOD	
2009122048	<p>El Camino Real Downtown Specific Plan Menlo Park, City of Menlo Park--San Mateo</p> <p>In October 2012, Sand Hill Property Company submitted an application for a 138-room Marriott Residence Inn ("the project"). The project site is located at 555 Glenwood Avenue, and currently consists of a market-rate senior citizens retirement living center. The project would renovate this existing independent living facilities into a Marriott Residence Inn hotel. As part of this conversion, the applicant would conduct interior, exterior, and landscaping improvements. However, the project would not include the construction of any new floor area. The subject site is part of the El Camino Real/Downtown Specific Plan ("Specific Plan") project area. The Specific Plan and its associated Program EIR established a maximum development capacity of 474,000 sf of new non-residential development (inclusive of retail, hotel, and commercial development), and 680 net new residential units.</p>	NOD

	vegetation, and construction and revegetation associated with the proposed project.		
2012062078	Napa Berryessa Resort Improvement District Wastewater Treatment System Upgrade and Expansion Napa County Resource Conservation District Calistoga--Napa The project is limited to: 1) creating three new treated effluent ponds; 2) installing a culvert; and 3) improving the berm of an existing tailwater pond. The CA DFW is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0452-3 pursuant to Section 1602 of the Fish and Wildlife Code to the Napa Berryessa Resort Improvement District (Permittee) as represented by Richard Ross acting on behalf of Permittee.	NOD	
2012121081	Church of Today Wireless Telecommunication Facility Major Use Permit MUP11-006, ER11-15-001 San Diego County --San Diego The project is a Major Use Permit to install and operate a 45' wireless telecommunication facility. The project site is located on 10950 Boulder Creek Rd in the Central Mountain Subregional Plan Area, within unincorporated San Diego County. The site is subject to the General Plan Rural Lands (RL-40). Zoning for the site is General Rural (S92). The site contains several existing accessory structures for the Church of Today used for retreat purposes, which will remain. Access would be provided by a private driveway connecting to Boulder Creek Road. No extension of sewer or water utilities will be required by the project.	NOD	
2013022010	El Dorado Trail Projects: Ray Lawyer Drive to Main Street and Clay Street to Bedford Avenue Placerville, City of Placerville--El Dorado The proposed project is an extension of two segments of the El Dorado Trail. The El Dorado Trail is a concept for a trail that spans the entire length of El Dorado County from the western county line to the Lake Tahoe Basin. The El Dorado Trail currently extends from the western El Dorado County line to the Camino area just east of Placerville. Some segments are already completed with Class I Bike Paths, other segments are currently in development, open for use as a natural trail, or are proposed for improvement. An alignment east of Camino to South Lake Tahoe is yet to be determined.	NOD

2013038329	Transfer of Coverage to Placer County APN (93-080-01) Keeler / Kelleher Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 205 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which an accessory to a private residence will be re-constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013038331	SVSP Induction Lighting Retrofit Corrections and Rehabilitation, Department of Soledad--Monterey Pursuant to Energy Executive Order B-18-12 calling for a reduction in energy usage of 20 percent by the year 2018 for all state facilities, the California Department of Corrections and Rehabilitation (CDCR) is undertaking numerous energy savings projects. At Salinas Valley State Prison (SVSP), CDCR is planning to retrofit existing lighting. The project includes the following components: 1) retrofit fixtures with F32T8 lamps and electronic ballasts to F28T8 lamps and new high efficiency low power electronic ballasts; 2) convert T12 fixtures to 28w lamps and ballasts; 3) replace 23w, 60w, and 75w screw-in compact fluorescents and incandescent lamps with LED screw in lamps; 4) replace compact fluorescent exit signs with LED exit signs; and 5) upgrade various 70w, 100w, 150w, 175w, 250w, & 400w high pressure sodium and metal halide high bay, surface mount, wall pack, and flood fixtures to 40w, 100w and/or 150w induction fixtures.	NOE	
2013038333	Huichica Hills Ranch #81 Water Project Fish & Wildlife #3 Sonoma--Sonoma The project is limited to the conversion of the existing on-stream Dutra Reservoir #1 into a larger off-stream storage pond for recycled water at the Huichica Hills Ranch #81. The enlarged pond will be equivalent in size to the on-stream reservoir proposed at the same location under Water Right Permit 20901 (Application 29426). The existing on-stream reservoir has experienced increased levels of siltation, thereby decreasing the storage capacity available for irrigation of vineyards.	NOE	
2013038334	Baden High School Classroom Replacement South San Francisco Unified School District South San Francisco--San Mateo The project would include the removal of an outdated portable of approximately 1,400 square feet and its replacement with a new 1,400 square foot modular classroom within the same footprint. The new building would provide upgraded facilities that would benefit students attending the high school.	NOE	
2013038335	Alta Loma Middle School Replacement Classrooms and Additions South San Francisco Unified School District South San Francisco--San Mateo The project would include replacement of five existing classrooms with 3 new classrooms of 960 square feet each, 4 exploratoriums of 1,440 square feet each and related restroom pod and utilities. The new structures would provide upgraded and modern classrooms that would benefit students attending the middle school.	NOE

2008031094	Tunnel Stabilization & Sewer Pipeline Replacement Project South Coast Water District Laguna Beach--Orange Note: Addendum to the FEIR The District Board of Directors certified the FEIR for the Tunnel Stabilization and Sewer Pipeline Replacement Project on November 11, 2010. The District decided to realign a section of tunnel away from the coastal bluff for a distance of ~725 feet. The District prepared an Addendum to the FEIR for the project and the District has determined there are no new significant impacts resulting from these changes, nor are there any substantial increases in the severity of any previously identified environmental impacts. The District conducted a public meeting and adopted the Addendum to the FEIR on March 28, 2013.	ADM					
2010071013	Las Pilitas Quarry Conditional Use Permit and Reclamation Plan San Luis Obispo County --San Luis Obispo Note: Extended per lead A request by Las Pilitas Resources LLC for a CUP / Reclamation Plan to allow mining and the phased reclamation of 41 acres on an approximately 234 acre site. The applicant is requesting maximum annual production rate of 500,000 tons, a portion of which will be recycled asphalt and Portland cement concrete. The proposed project is located in the Rural Lands land use category and is located at 6660 Calf Canyon Way (north side of Highway 58), east of the Salinas River Bridge and approximately 1/4 mile west of the Parkhill Road intersection, east of the community of Santa Margarita. The site is in the Las Pilitas planning area, within the Energy Extractive 1 Combining Designation.	EIR	06/05/2013

2011111021	Old Town La Verne Specific Plan La Verne, City of La Verne--Los Angeles The proposed project analyzes the adoption of the Old Town La Verne Specific Plan, which would apply new land use designations, zoning, and design guidelines to a 115-acre area in La Verne, including the University of La Verne and a portion of the Fairplex. The project would include development of new residential and mixed uses and enhancement of the Old Town area. The new Specific Plan will create new boundaries for the Lordsburg Specific Plan and the Arrow Corridor Specific Plan as the new Old Town La Verne Specific Plan will be including portions of each of those areas.	NOD	
2012121056	Pipeline 3 Relining - Sweetwater to Lower Otay Reservoir San Diego County Water Authority Chula Vista--San Diego The proposed project consists of rehabilitation of ~28,400 linear feet of existing Prestressed Concrete Cylinder Pipe (PCCP) along the existing Water Authority Pipeline 3. The proposed project would rehabilitate Pipeline 3 through installation of a steel liner into the existing PCCP along one contiguous segment of the pipeline.	NOD	
2013011029	San Jacinto Master Drainage Plan Line C, Stage 2, Line C-4, Line C-5, and Line B Riverside County Flood Control and Water Conservation San Jacinto, Hemet--Riverside The project will construct, operate and maintain Line C, Line C-5, C-4, and Line B underground storm drain facilities pursuant to the District's adopted San Jacinto Master Drainage Plan. The project includes relocation of existing utilities, repaving disturbed areas, and purchasing permanent and temporary construction easements on multiple properties.	NOD	
2013011030	Garey High School Track and Field Renovations Pomona Unified School District Pomona--Los Angeles The proposed project involves renovating the track and field at Garey High School. The natural turf field and dirt track would be replaced with synthetic astroturf and a 400-meter, nine-lane, all-weather, synthetic rubberized running track. The synthetic turf would be painted for use as football and soccer fields. Home and visitor aluminum bleachers would be installed totaling 1,498 spectator seats, an increase of 998 seats. Four new light poles with speakers would be installed. A new restroom/concession building would also be constructed. New landscape would be planted, and a sprinkler system to water the new landscape and to cool down the astroturf would be installed. The project includes a new drainage system to collect runoff from new impervious areas; the runoff would be collected in subsurface pipes.	NOD	
2013011031	Castro Village Expansion Project Alameda County --Alameda To allow: 1) Construction of a 25,000 sf department store in the rear of the Castro Village shopping center and 2) demolition of three small residences and a manual car wash facility.	NOD

2013011039	<p>Pomona High School Atheletic Fields Renovation Pomona Unified School District Pomona--Los Angeles</p> <p>The District proposes to switch the locations of the track and football field with the varsity softball/soccer field. The new track and football field would include a synthetic AstroTurf and a 400-meter, nine-lane, all-weather, synthetic rubberized running track. The field would be painted for both football and soccer uses. Home and visitor aluminum bleachers would be installed for a total of 1,498 spectator seats, an increase of 698 seats. Four new light poles with speakers would be installed for nighttime use of the facility. The new softball field would be reseeded for natural turf and would include a 30-foot backstop and dugouts. A sprinkler system would be installed to irrigate the landscaped areas, as well as to cool down the synthetic track and field. The proposed project would include a new concession/restroom building and a new stormwater drainage system. Runoff from impervious areas of the project site would be collected in subsurface pipes.</p>	NOD	
2013021007	<p>Diamond Ranch High School Track and Field Renovations Pomona Unified School District Diamond Bar--Los Angeles</p> <p>The project involves renovating the track and field at Diamond Ranch High School. The natural turf field and dirt track would be replaced with synthetic turf and a 400-meter, nine-lane, all-weather, synthetic rubberized running track. The astroturf would be painted for use as both a football and soccer field. Stairs would be installed between existing bleacher structures next to the south side of the track. Four new field light poles with speakers would be installed. A new restroom/concession building would also be constructed. The project would include a new drainage system to collect runoff from the new impervious areas to existing storm drains.</p>	NOD	
2013038422	<p>Upgrades to Camp Host Sites Parks and Recreation, Department of --Tulare</p> <p>The project involves the installation of a 1500 gallon septic tank, lift station, sewer line, rerouting of existing water lines, and the extension of existing parking/trailer pads, and the installation of a new turn around apron for two Camp Host sites at the Colonel Allensworth SHP Campground. The septic tank and lift station will be placed approximately 25-35 feet behind the existing camp host site.</p>	NOE	
2013038423	<p>Pomo Campground Campsite Modification Parks and Recreation, Department of --Sonoma</p> <p>Relocate five (5) existing campsites in the Pomo Campground located in the Willow Creek area of Sonoma Coast Park. Relocation is needed to avoid potential conflict with identified hazard trees.</p>	NOE

2011122015	<p>Cordes Ranch Specific Plan Tracy, City of Tracy--San Joaquin</p> <p>The Project involves the development of approximately 1,780 acres of land with commercial, office, business park industrial, and park and recreational uses. To implement the Project, this would involve the adoption and implementation of a General Plan amendment and the Cordes Ranch Specific Plan (Specific Plan); the approval and implementation of a development agreement covering a portion of the Specific Plan Area; rezoning and zoning for the Specific Plan Area; annexation of the Specific Plan Area to the City of Tracy; and development of the Specific Plan Area consistent with the Specific Plan (collectively, the "Project"). The Specific Plan also contains development standards and design guidelines to guide investment and development in the approximately 1,780-acre site.</p>	EIR	05/20/2013
2012122041	<p>Waring's Dump Soil Cap Project Resources Recycling and Recovery, Department of Sacramento--Sacramento</p> <p>The proposed project would result in grading and compaction of the existing hummocky terrain and the importation of select fill soils for placement as a compacted soil cap over the existing waste footprint. Existing ground elevations vary from 29 feet to 33 feet above mean sea level (MSL). Preliminary surface grading and compaction would be conducted to stabilize the project site into a uniform surface, graded to drain stormwater off the waste mound. The depth to which preliminary grading would occur would be minimized so as to leave buried wastes undisturbed and in place to the extent possible. Any debris unearthed during the grading would be reburied such that no materials protrude from the graded surface. No debris or soil is intended to be exported offsite. However, if there are some bulky items, such as car bodies or refrigerators, unearthed that cannot be graded within the proposed waste mound, they would be removed and either recycled or disposed of at a proper disposal site.</p>	EIR	05/20/2013

	improvements on the site, which are included in the City of Huntington Beach's list of local landmarks. The project does not include any development. Therefore, the site would remain vacant after implementation of the project.		
2013041022	Nimitz Marine Facility (MarFac) Berthing Wharf and Pier Replacement Project University of San Diego San Diego--San Diego MarFac is the support and management centre for UCSD's fleet of oceanographic research vessels and platform. The site is divided into three parcels: the upland property belongs to The Regents of the University of CA, the northern submerged land parcel belongs to the State of CA, and the southern submerged land parcel belongs to the U.S. Department of the Navy. The University owns the pier, wharf, and all upland improvements. The original wharf and pier were constructed in 1965. Since then, few improvements have been made. Concrete and steel deficiencies in existing structures were first documented in 1983. In 2009, an inspection confirmed widespread degradation of the structures that compromise capacity, safety, and operational efficiency. For these reasons, the project proposes to remove/replace in kind the wharf, pier, and upgrade utilities.	MND	05/07/2013
2013042015	Delta Flood Emergency Facilities Improvement Project Water Resources, Department of Stockton, Rio Vista--San Joaquin, Sacramento, Solano The DWR Delta Flood Emergency Facilities Improvement Project is a component of the DWR Delta Emergency Preparedness, Response and Recovery Program, collectively aimed at: 1) protecting the lives, property, and infrastructure critical to the functioning of both the Delta and CA; 2) Protect water quality and restore water supply for both Delta and export water users during and after a flooding event in the Delta; and 3) minimize impacts to environmental resources. The purpose of the FIP is to ensure that the State has the appropriate infrastructure and supplies in the Delta to respond and recover quickly and effectively from major flood or earthquake disasters in the Delta. The FIP consists of improving three waterside material transfer facilities within the Sacramento San Joaquin Delta at the noted locations above.	MND	05/07/2013
2013042018	Dublin Boulevard Widening Project Dublin, City of Dublin--Alameda The Dublin Boulevard Widening Project includes the widening of Dublin Boulevard to six travel lanes between Sierra Court/Civic Plaza and Dublin Court; the addition of bicycle lanes on both sides of Dublin Boulevard; intersection improvements; a pedestrian path on the south side of Dublin Boulevard including a pedestrian bridge over a drainage channel east of Dublin Sports Grounds; landscape improvements, including the replacement of the existing street trees plus additional street trees; and bus shelter relocation. Right-of-way on Dublin Boulevard would need to be acquired to accommodate the proposed project.	MND	05/08/2013
2013041020	Rule 1304.1 -Electrical Generating Facility Annual Fee for Use of Offset Exemption South Coast Air Quality Management District --Los Angeles SCAQMD staff is proposing to adopt Rule 1304. 1 - Electrical Generating Facility Annual Fee for Use of Offset Exemption. If adopted, proposed Rule (PR) 1304.1 will require any electrical generating facility (EGF) that uses a specific offset exemption to pay annual fees or a single, up-front fee for the amount of offsets provided by the SCAQMD. The fee proceeds will be invested in air pollution	NOP	05/07/2013

	improvement projects that further the goals of the 2012 Air Quality Management Plan (AQMP), and minimize the air quality impacts that an EGF may have on its surrounding community. The IS identified the environmental topics of "air quality" and "energy" as the only areas that may be adversely affected by the proposed project. Impacts to these environmental areas will be further analyzed in the Draft Environmental Assessment.		
2013041021	San Clemente Centennial General Plan San Clemente, City of San Clemente--Orange The proposed project is a new San Clemente "Centennial" General Plan that meets CA Code requirements for a general plan, a Strategic Implementation Program that implements the goals and policies of the General Plan, a Climate Action Plan, and the San Clemente Bicycle and Pedestrian Master Plan. The proposed General Plan revises the 1993 General Plan land use map, elements required by the State of CA, and optional elements. The exception is the Housing Element, which was adopted separately in July 2011.	NOP	05/07/2013
2013041025	Bell Business Center Project Bell, City of Bell--Los Angeles The proposed project will result in entitlement approval by the City of Bell to allow the construction of up to 840,390 sf of warehousing and ancillary office uses on four parcels totaling approximately 40.2 acres. While the City does not have building elevations or details, conceptual building footprints have been developed for each of the building sites.	NOP	05/07/2013
2013041028	20 Year Extension of the 2005 Mendota Pool Exchange Agreements Westlands Water District --Fresno The MPG, an 11-member unincorporated association of farmers, proposes to extend the existing Exchange Agreements with Reclamation to ensure continued water availability to MPG farmers in the Westlands Water District. MPG irrigated lands are located in the SLC service area in Westlands, and near Mendota Pool. The Exchange Agreements are set to expire on December 31, 2014. Reclamation administers the CVP and would be responsible for continued execution of the exchange. The proposed project would allow MPG farmers to continue the exchange for an additional 20-year period from 2015 through 2034. The water exchange allows MPG farmers to deliver groundwater of suitable quality to Mendota Pool in exchange for CVP irrigation water delivered via the SLC for use on MPG-owned farms in Westlands.	NOP	05/08/2013
2013041023	Sprucelake, Harbor City (Project No. 2012-02176) Los Angeles County --Los Angeles The project is a 14' x 48' back-to-back billboard at 65.6' tall, with an orientation for visibility from the freeway. The lease area, including the space below the sign and maintenance areas is limited to approximately 1,000 sf. The subject property is approximately 1.6 acres in size and is currently developed with a manufacturing warehouse. The ground mount will be a single column.	Neg	05/07/2013

	project Applicant, Jeff Koblick, Fairfax Center Properties, LLC.		
2012081064	Seaside Groundwater Basin Monitoring Well Project Seaside, City of Seaside--Monterey Monterey Regional Water Pollution Control Agency (MRWPCA) is proposing the installation and use of a monitoring well to collect site-specific hydrogeologic data for a potential future Monterey Peninsula Groundwater Replenishment project, which is not proposed in this action and will be addressed in a future, separate project-level environmental review process. In general, the proposed field program includes the drilling of an approximate 550-foot deep boring using the sonic drilling method, coring of the subsurface sediments, sampling and testing of core samples for hydraulic properties and leaching potential, and the installation and sampling of a monitoring well to obtain water levels and groundwater quality data. The monitoring well is proposed to be located immediately south of Eucalyptus Road, within 10 feet of the southern sidewalk edge of Eucalyptus Road and approximately 1,800 feet east of General Jim Moore Boulevard. The extent of temporary construction staging and disturbance will include a maximum of 50-foot by 100-foot area off pavement and a 15 by 80 foot parking area on Eucalyptus Road. The completed project facilities will result in an up to 3-foot square at-grade concrete slab with a less than 1-foot circular monitoring well cap/cover in the center. Ongoing (operational) activities at the site would be limited to periodic (no more frequently than once per month) water level and water quality sampling at the site.	NOD

	of Cummings Skyway.		
2013042019	69 kV Electric Transmission Line Vegetation Management Program Parks and Recreation, Department of Crescent City--Del Norte Pacific Power proposes to conduct vegetation management activities in Del Norte Coast Redwoods State Park along the Line 87 power line. This IS/MND covers the section of Line 87 that is located within Del Norte Coast Redwoods State Park. Line 87 requires vegetation management work to comply with State and federal clearance requirements. Pacific Power's existing vegetation management program controls tall growing vegetation under or around Pacific Power's power lines to provide safe and reliable power to its customers. Vegetation conditions can often pose significant threats to transmission facilities, which can result in lengthened power outages and safety risks for the public. This MND addresses potential environmental impacts from the Vegetation Management Program and provides Mitigation Measures to reduce those impacts.	MND	05/08/2013
2013042021	NCRSP Parcel 46 Apartments Roseville, City of Roseville--Placer The applicant requests approval of entitlements that would allow the construction of 224 unit apartment complex with associated landscaping, parking lot and lighting improvements. The project will also include a new on-site dial-a-ride transit stop and connections from the project site to the City's regional bicycle and pedestrian trail, which will assist with a reduction in greenhouse gases. Additionally, the project includes a request for the City Council to allocate an additional 13.2 acre feet of water to the project. The requested project entitlements include: A Rezone (RZ) to change the zoning from Business Professional/Special Area - North Central (BP/SA-NC) to Attached Housing/Special Area - North Central (R3/SA-NC); A General Plan Amendment (GPA) to change the land use from Business Professional (BP) to High Density Residential (HDR); a Specific Plan Amendment (SPA) to address the changes in land use and zoning; A Design Review Permit (DRP) for site design, architecture, and landscaping; A Tree Permit (TP) to allow the removal of four protected native oak trees totaling 167 inches and minor encroachment into the protected zone radius of one protected native oak tree; and a Development Agreement (DA) to vest entitlements and define project requirements and responsibilities between the City and the landowner.	MND	05/09/2013
2013041026	Cuyamaca Rancho State Park General Plan Parks and Recreation, Department of --San Diego The General Plan for Cuyamaca Rancho State Park (the Park) would plan for the long range management and use of the Park. This would be accomplished by delineating management zones for the Park and developing goals and guidelines for their current and future management. Certain zones may plan for the development of further facilities and recreational opportunities, while other zones may provide guidelines to protect natural and/or cultural resources.	NOP	05/08/2013

2009062096	Groundwater Storage and Recovery Project San Francisco, City and County of Daly City, South San Francisco, San Bruno, Burlingame--San Mateo Note: Extended Review The San Francisco Public Utilities Commission (SFPUC) is proposing a project to increase water supply reliability during dry years and in emergencies, by increasing water storage in the South Westside Groundwater Basin during wet and normal years for subsequent recapture during dry years. The proposed project consists of the construction and operation of 16 new groundwater production wells and water treatment facilities to recover the stored groundwater. Each well facility would include the construction of a groundwater production well and associated fenced enclosure or treatment building, distribution pipelines to connect the well to the existing regional water system or to the local distribution system, and overhead or underground utility connections. Most well facilities would provide disinfection and additional treatment (i.e., pH adjustment, fluoridation, and/or iron/manganese removal). In addition, the proposed project includes upgrades to the Westlake Pump Station to serve three new well facilities (Sites 2, 3, and 4), including new fluoride, chlorine, and ammonia chemical storage tanks, replaced or upgraded chemical metering pumps, a resized transformer, and up to three new booster pumps to deliver the additional water into the Daly City distribution system, all of which would be located within the existing pump station building.	EIR	06/11/2013

	<p>sf of land area: Lot 2 comprises 112,804 sf and Lot 3 comprises 110,102 sf. The Proposed Project would include a total development of 661,168 gsf, including 379,920 gsf of residential floor area and 231,248 gsf of parking and circulation areas.</p> <p>The Proposed Project would include the construction of two residential structures identical in design, building height, and floor area. Both structures would include two above-grade levels of parking with four levels of residential uses above the parking levels. Both buildings will include 176 multi-family apartment units, for a total of 352 residential units (176 one-bedroom units and 176 two-bedroom units). The maximum building height on the Project Site would be approximately 65 feet. The apartment units would range in size from approximately 728 sf to approximately 1,087 sf.</p>		
2013041030	<p>Merritt Street Safety Improvement Castroville Community Services District --Monterey</p> <p>The project involves the addition of curb extensions, crosswalks, and other pedestrian safety enhancements at the intersections of Merritt Street/Speegle Street, Merritt Street/Preston Street, Merritt Street/Crane Street, and Merritt Street/Wood Street. Merritt Street is also designated as SR 183 by the Caltrans.</p>	MND	05/09/2013
2013042020	<p>Moore Street - Russian River Bridge Seismic Retrofit Project Mendocino County Ukiah--Mendocino</p> <p>The proposed project includes seismic retrofits of the Moore Street Bridge over the West Fork Russian River in Mendocino County. Proposed seismic improvements will include installation of shear keys and catcher blocks at each pier. In addition, large diameter Cast-In-Drilled-Hole (CIDH) piles will be placed behind both abutments to absorb a portion of the longitudinal seismic forces. The project will also include pavement rehabilitation of the approach roadways on both sides of the bridge. This work will include removal of the existing pavement, replacement of any failed roadway base areas, and placement of new hot mix asphalt pavement. Along with the seismic retrofit work, the proposed project will also include placement of Rock Slope Protection around Piers 2 and 3 as a scour countermeasure.</p>	MND	05/09/2013
2013041031	<p>California Flats Solar Project Monterey County --Monterey</p> <p>The proposed project is a 280-megawatt (MW) alternating current (AC) photovoltaic (PV) solar power facility over approximately 2,030 acres of a 2,670-acre site (including a 135 acre transmission line corridor). Infrastructure improvements would include: an internal electrical collector system; pad-mounted inverters and transformers; two substations; a 4,000 square foot operations and maintenance (O&M) building; security lighting (at the O&M facility; switching station, substations and main project entry location at Highway 41); and improvements to and reconfiguration of existing internal access roads, as well as Highway 41 site access. PG&E would construct a switching station at the site connecting the proposed project to the existing Morro Bay-Gates 230 kilovolt (kV) transmission line, which transects the site.</p>	NOP	05/09/2013

2013038489	Environmental Health and Safety Interim Storage University of California, Santa Cruz --Santa Cruz Renovations of 690 st of research laboratory storage to store of low-level radioactive waste now stored in storage containers in the lower campus. Renovation of 960 asf of existing hazardous waste storage space in lower campus, and replacement of nine hazardous waste storage containers with two new pre-fab units.	NOE	
2013038490	Teremalito Forebay and Afterbay Piezometer Installation and Repair Water Resources, Department of --Butte The Department of Water Resouces proposes to drill and install six new piezometers with hollow-stem auger drilling methods. Access to locations will require driving off existing gravel roads. The piezometers will be monitored by OFD to fulfill dam safety surveillance and monitoring plan requirements. In addition, the drilling subcontractor will attempt to remove obstructions within existing piezometers 283+00 and P49 at Teremalito Afterbay Dam.	NOE	
2013038491	Feral Pig and Cattle Exclusion Fence Parks and Recreation, Department of --Sutter Install exclusionary fencing along the entire boundary of Sutter Buttes State Park to exclude feral pigs and cattle and to protect the natural and cultural resources from pig rooting and cattle intrusion. Work will excavate approximately 24" every 8' to install T-posts with graduated woven wire from ground level to 26" tall with barbed wire attached at the bottom anchored to the ground between posts to 24" deep; a second barbed wire attached at the top of the graduated woven wire, a third barbed wire suspended by T-posts 4" above the second, and a fourth barbed wire suspended by T-posts 12" above the third barbwire to a total height of 42".	NOE	
2013038492	Pittsburg Armory Exchange Utility Easement Military Department - Office of the Adjutant General --Contra Costa The proposed project is an exchange of utility easements between the City of Pittsburg and the California Military Department Pittsburg Armory. The City of Pittsburg is granting to the State of California about 9,800 square feet of land located along the south boundary of the Pittsburg Armory property. In exchange, the State is granting an easement to the City that runs along the west boundary of the property, along Davi Avenue.	NOE

2012101062	South County Detention Facility Tulare County Porterville--Tulare The proposed project is a new maximum security Type II facility with 250 cell double occupancy units (500 beds) and 14 special use beds for total of 514 beds. In addition to the main detention facility, the proposed project will also include support service components such as administrative offices, intake, infirmary, kitchen, laundry, storage, and off-street parking lots.	EIR	05/28/2013
2013032007	Las Animas Business Park Gilroy, City of Gilroy--Santa Clara The Las Animas Business Park project analyzed in this IS consists of the construction of an office park complex comprised of four buildings on the project site. The project comprises 61,205 sf of combined office building area on 3.69 acres. The project proponent intends the office buildings to be used for medical offices. The business park complex would be comprised of two single-story buildings, two two-story buildings, 200 parking spaces, driveway access from Las Animas and San Ysidro Avenues, and landscaping in the form of 60 planted trees.	EIR	05/28/2013
2004061146	Manhattan Village Shopping Center Enhancement Project Manhattan Beach, City of --Los Angeles FYI Final The Manhattan Village Shopping Center Enhancement Project would involve an increase of approximately 123,672 sf of net new retail and restaurant GLA (approximately 194,644 sf of new GLA and demolition of approximately 70,972 sf of existing retail, restaurant, and cinema GLA) within an approximately 18.4 acre development area within the Shopping Center site. Of the 194,644 sf of new GLA, up to approximately 25,984 sf would be used for restaurant uses, while up to approximately 168,750 sf would be used for new retail uses. The proposed Project would also include new on-site parking facilities and surface parking areas that would provide at least 4.1 parking spaces per 1,000 sf to accommodate the new uses.	FIN	
2013041035	Rancho del Sol San Diego, City of San Diego--San Diego Site Development Permit for Environmentally Sensitive Lands for restoration, compliance with State Superior Court Stipulated Judgment- Case No. GIC 801949, compliance with 2007 Army Corps of Engineers (ACOE) Restoration Order (No. SPL-2002-0667) for a previously graded site; and formation of a wetland mitigation bank. The project area would cover six assessor parcel numbers (APNs).	MND	05/10/2013
2013042027	Angora Fire Trails and Stream Environment Zone Restoration Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado The U.S. Forest Service, Lake Tahoe Basin Management Unit plans to conduct stream environment zone (SEZ) restoration and trail building and restoration work in the Angora Fire burn area. The trails work includes decommissioning 16.7 miles of trail and constructing 8.9 miles of new trail. SEZ restoration work includes restoring portions of Angora Creek, restoring Seneca Pond to a wetland complex, and stabilizing a gully in the Gardner Mountain Meadow. The Water Board will	MND	05/10/2013

	regulate discharges from the Project by: (1) granting coverage under the Water Board's General Waste Discharge Requirements and National Pollutant Discharge Elimination System Permit for Storm Water Discharges Associated with Construction Activity in the Lake Tahoe Basin; (2) issuing Clean Water Act 401 Water Quality Certification; and (3) granting Basin Plan Prohibition Exemptions.		
2013042028	Loma Rica Reservoir Cleaning Project Nevada Irrigation District Grass Valley, Nevada City--Nevada The project site is on 14 acres of NID and County property including staging areas. The reservoir was built and put in operation in 1960's and has an original capacity of 96.9 acre-feet. Since then sediment has deposited in the reservoir which has decreased its capacity. The project proposes to remove the sediment from the reservoir (an estimated 40,000-70,000 cubic yards) to restore its original capacity. The removed sediment will be temporarily deposited near the reservoir for dewatering, and will then be transported and used for suitable fill material. The project estimated to take four to six months to complete. The proposed project area is located in Nevada County just east of the county airport.	MND	05/10/2013
2013041032	Duarte Station Specific Plan Duarte, City of Duarte--Los Angeles The City-initiated Duarte Station Specific Plan (Specific Plan) is intended to establish the general type, parameters, and character of the development in order to develop an integrated TOD that is also compatible with the surrounding area. The Master Land Use Plan provides flexibility for property owners to respond to market conditions and develop a mixed-use "transit village" that revitalizes the Plan Area through the provision of multiple land uses that complement one another. Land uses consist of residential, office, hotel, commercial/retail, and open space. For purposes of the environmental analysis, a development scenario that shows one potential implementation of the Master Land Use Plan has been identified.	NOP	05/10/2013
2013041033	Harvard-Westlake Parking Improvement Plan Los Angeles, City of --Los Angeles Construction of a new 3-story, 750-space Parking Structure including an athletic field with lights on top at 3701 N. Coldwater Canyon Avenue (5.5-acre Development Site). Structure and athletic fields to be used by the existing 18-acre Harvard-Westlake School Campus located across Coldwater Canyon Avenue. A pedestrian bridge is also proposed to cross over Coldwater Canyon Avenue from the Development Site to the Harvard-Westlake Campus. As part of the Project roadway improvements would be made that would improve the flow of traffic in the Project area as well as pedestrian and vehicle safety.	NOP	05/10/2013
2013041036	CSULB Foundation Retail Project Long Beach, City of Long Beach--Los Angeles The project proposes the demolition of the existing buildings and carports and construction of a one-story building for retail use up to 125,000 sf in size and 486 on-site parking spaces. The building could be used by a single retail tenant or by two retail tenants with separate (side-by-side) entrances.	NOP	05/10/2013

2013042025	Gatway Village Apartments Project Santa Clara, City of Santa Clara, Sunnyvale--Santa Clara Rezone from Community Commercial (CC) to Planned Development (PD) to allow up to 475 apartment residences and approximately 84,000 sf of pedestrian oriented retail and commercial space and associated parking, landscaping, and site improvements in conjunction with the demolition of the existing retail store and fast food restaurant.	NOP	05/10/2013
2012041014	Ultramar, Inc. Wilmington Refinery Proposed Cogeneration Project South Coast Air Quality Management District --Los Angeles The proposed Project consists of the installing of a new 35 MW Cogeneration Unit including a gas turbine, heat recovery steam generator, a selective catalytic reduction unit, an evaporative cooler, and connections to an existing aqueous ammonia tank at the Refinery.	Neg	05/10/2013
2013041034	Expansion of Dry Creek Extension Basin Fresno Metropolitan Flood Control District Fresno--Fresno This project is for the expansion and improvement of the Dry Creek Extension Basin. The District acquired a 20 acre parcel next to the expansion area and material is being removed to create storage for stormwater. An additional 23 acres is needed for the development of the property into a function detention basin. The expansion will increase storage to 795 acre-feet. The ability to improve the flood routing system upstream of this location is restricted by the flow capacity downstream of the Dry Creek Extension Basin. The added capacity of the Dry Creek Extension Basin Expansion will create sufficient flood routing capacity. When possible, water will be stored in the detention basin for groundwater recharge.	Neg	05/10/2013
2013042024	Citywide Climate Action Plan Concord, City of Concord--Contra Costa The City of Concord proposes to adopt a Climate Action Plan (CAP) to identify measures and actions intended to reduce GHG emissions consistent with State and regional guidance. A Climate Action Plan is a document that includes policies, measures, and strategies to improve the health, safety, mobility, and livability of the greater community. The objectives of a CAP are to reduce GHGE, streamline CEQA review by serving as a "qualified GHG reduction plan," and prioritize measures to comply with CA environmental and land use planning laws. The CAP provides goals and associated measures, also referred to as GHG reduction strategies in the sectors of building performance, transportation systems and land use, adaptation, and participation. 	Design Review.		
2007051002	Maintenance of 20 Storm Water Facilities Chino Hills, City of Chino Hills--San Bernardino CDFW is executing a Lake or Streambed Alteration Agreement (SAA #1600-2011-0274-R6 [Revision 2]) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: City of Chino Hills, represented by Mr. Michael Fleager, 14000 City Center Drive, City of Chino Hills, State of California, 91709. The City's Long Term Operations and Maintenance Project consists of the ongoing maintenance of 20 existing storm drain facilities and is limited to tree and shrub removal, tree trimming, understory vegetation removal and periodic herbicide treatment, and sediment removal.	NOD	
2010052071	Bridge 23C0243 Replacement Project on Winters Road at Putah Creek Solano County --Solano The Project is limited to the replacement of the existing, structurally deficient 445-foot long three-span reinforced concrete arch Winters Road Bridge with a new 473-foot long five-span bridge at approximately the same location as the existing bridge. A temporary detour bridge will be installed immediately east of the existing bridge. Approximately 480 ft. of Putah Creek Road, where it intersects with the southern end of the bridge, will be realigned. The northern end of the bridge intersects with Putah Creek Road (Solano County). The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0413-3 pursuant Section 1602 of the Fish and Game Code to the Project Applicant, Solano County Department of Resource Management/Nathan Newell.	NOD	
2013012074	Mare Island Strait Outfall Project Vallejo Sanitation and Flood Control District Vallejo--Solano The District proposes to develop and operate a new outfall into Mare Island Strait. The District proposes to reduce energy expenditures and greenhouse gas emissions associated with its existing wastewater treatment plant operations by switching their operations to discharge up to 30 million gallons per day (MGD) of treated effluent into Mare Island Strait on a year-round basis and up to an additional 30 MGD of excess wet-weather flows to the Carquinez Strait. Currently, the Carquinez Strait outfall is used year-round and the existing Mare Island Strait outfall is used for wet-weather flows. The District has estimated that pumping costs would be reduced because it take less electrical power to pump effluent to the Mare Island Strait compared to the Carquinez Strait. District average daily dry weather flows are less than 10 MGD. Energy savings would apply to all dry weather flows and wet weather flows up to 30 MGD. Operations would remain unchanged for wet weather flows exceeding 30 MGD. The project would not increase the discharge quantity or alter the existing treatment process; it is simply a relocation of the point of discharge. The existing outfall to Mare Island Strait would not be removed. Additional project features include installing a pump station and rehabilitating and realigning elements of the existing chlorination and dechlorination system within the wastewater treatment plant site. 2007102106	James Donlon Boulevard Extension Pittsburg, City of Pittsburg--Contra Costa The proposed project would consist of a 1.71-mile extension of James Donlon Boulevard from the western edge of the approved Sky Ranch II Subdivision to Kirker Pass Road. The proposed project would provide a limited access arterial roadway to serve regional circulation needs and relieve existing traffic congestion on Buchanan Road, which currently receives a high volume of commute traffic between the cities of Antioch and Concord. Beginning at James Donlon Boulevard, the extension would transition to a two-lane roadway designed to rural road standards. The road would transition to a four-lane roadway near the intersection with Kirker Pass Road and would be designed to urban road standards. Kirker Pass Road, from Nortonville Road to the City limit line would be upgraded from rural road standards to urban road standards. The James Donlon Boulevard/Kirker Pass Road intersection would be a four-way signalized intersection with the proposed Montreux Drive.	EIR	05/29/2013

	of the Downtown. The project area comprises approximately 600 parcels on 240 acres and has a total length of approximately two (2) miles. Implementation of the Specific Plan will include concurrent general plan amendments and rezones.		
2007031069	Formation of Wiseburn Unified School District State Board of Education, California El Segundo, Hawthorne--Los Angeles FYI Final 1 CD	FIN	
	A Revised Final EIR has been prepared for the formation of a Wiseburn Unified School District from the Wiseburn School District and corresponding portion of the Centinela Valley Union High School District in Los Angeles County. A Draft EIR was prepared in July of 2008 and circulated for a 45-day public review period from July 7, 2008 to August 21, 2008. A Final EIR was then circulated to commenters on October 12, 2009 (Previous Final EIR). Since public circulation of the Previous Final EIR, the WSD opened two charter high schools, obtained voter approval for a General Obligation Bond to construct a new high school, and prepared a site-specific project level EIR for a new high school. Additionally, State legislation was passed enabling the creation of a joint powers authority that will substantially resolve debt and bonding issues that arose from consideration of the proposal to form a WUSD. Therefore, a Revised Final EIR has been prepared to address whether there have been changes in circumstances between 2009 and 2013 that would (1) result in new significant impacts not disclosed in the DEIR and (2) update responses to comments to changes in circumstances that have occurred since preparation of the Previous Final EIR.		
2013022023	Leggett Maintenance Station Groundwater Remediation Caltrans #1 --Mendocino Remediation of residual petroleum in the soil and groundwater by installing an ozone sparge system. The contamination is residual after removal of underground fuel storage tanks years ago. The remediation is needed to protect and improve groundwater quality and beneficial uses of the groundwater. 	Institutional/Public Facility. The Land Use Element of the City of Chino Hills General Plan specifies that this land use classification allows all City, County, and other government properties, public and private schools, churches, and fire stations. Public facilities also include public utilities and utility rights-of-way. The zoning designation of the project site is PD 50 - 167 Service Commercial (Richland Homes Planned Development).		
2013041040	ENV-2013-755-MND Los Angeles, City of Van Nuys--Los Angeles A Conditional Use to allow the establishment of an automobile delivery, service, and repair facility for electronic vehicles, Tesla Motors, within 500 feet of a Residential zone. The new service and repair use will occupy a presently vacant, approximately 14,165 sf, one-story, warehouse that previously operated as a dental supply storage facility. As a complementary use, new car sales will also occur on-site; however, the requested action does not involve the establishment of a showroom. The new use will involve the installation of five service lifts and one alignment rack, provide 21 parking spaces (including 8 tandem spaces), and is located within the M1-1 Zone of the Reseda - West Van Nuys Community Plan area.	MND	05/13/2013
2013041042	Slauson Wall Redevelopment CRA/LA, A Designated Local Authority Los Angeles, City of--Los Angeles Note: Shorten Review The project entails the construction of a park, affordable housing units, and space for community use. The existing vacant industrial facilities on the site would be demolished. Two 4-story affordable housing buildings with 121 family dwelling units would be constructed in the southern third of the site. A 6,500 sf community center would be provided on the first floor of a portion of the building along Los Angeles Street. A 4-acre public park would be created in the northern two-thirds of the site.	MND	05/01/2013
2013042030	Guru Nanak Singh Temple Water Line Extension Fairfield, City of Fairfield--Solano The project will provide potable City of Fairfield drinking water to an existing Sikh temple located in unincorporated Solano County. Existing domestic water from the on-site well has become contaminated and constitutes a public health hazard. A 3" diameter HDPE water line will be constructed within the Rockville Road and/or within City of Fairfield property no closer than two feet from the existing pavement but within the graded roadway. The total length of the water line will be 2,222 feet. The water line will be extended from an existing service interconnection just east of Ledgewood Creek for 1,525 feet along the north side of Rockville Road, then cross under Rockville Road to the south side onto the parcel owned by the Temple. For approximately 80 feet, the pipeline will encased in a steel casing attached to the north side of the existing bridge over Ledgewood Creek.	MND	05/13/2013

2013042033	180 El Camino Real South San Francisco, City of South San Francisco--San Mateo The WT Mitchell Group is proposing a transit-oriented mixed-use development on a 14.5-acre site at 180 El Camino Real. The project entails the removal of an existing shopping center and the construction of six new buildings, to include 222,000 sf of commercial space and 285 residential units, constructed in two phases. The project creates an urban statement with articulated facades and building forms that define the street edge, incorporating a mix of Victorian and classical elements -- the historic architectural styles of South San Francisco. The design includes a tower element on the south side as a landmark feature. Pedestrian amenities include decorative lights, benches, decorative signage, and street trees. The project provides a density and an attractive street frontage appropriate for the major thoroughfare of El Camino Real.	MND	05/14/2013
2013042035	DeSabra-Centerville Hydroelectric Project State Water Resources Control Board --Butte The existing DeSabra-Centerville Hydroelectric Project consists of three developments (Toadtown, DeSabra, and Centerville), which collectively include three reservoirs, three powerhouses, 14 diversion and feeder dams, five canals, and associated equipment and transmission facilities. The Project occupies federal land under the jurisdiction of the United States Forest Service, the United States Bureau of Land Management, Pacific Gas and Electric Company (PG&E), and private land holders. The Project is located on Butte Creek and the West Branch Feather River in Butte County, CA.	MND	05/14/2013
2013041037	Nob Hill Improvements San Diego County Water Authority San Diego--San Diego The proposed project is the replacement and realignment of ~800 feet of the Water Authority's Second Aqueduct Pipelines 3 and 4 in the area between Scripps Nob Hill and Miro/Ravel communities; and the construction of a permanent access road from Scripps Lake Drive north along the Water Authority right-of-way, west of the Miramar Reservoir dam. Two construction techniques, open trench and tunneling, have been proposed for the installation of replacement pipeline and will be analyzed within the EIR. It is anticipated that controlled detonation (e.g., controlled blasting) will be necessary for either of the construction techniques.	NOP	05/13/2013
2013041041	8555 Santa Monica Boulevard Mixed-Use Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves construction of a mixed-use development. The mixed-use development would be five stories in height and would include: 93 apartment units (19 of which would be designated as affordable housing), ~6,720 sf of restaurant and café uses, ~4,708 sf of live/work use, and ~27,840 sf of retail uses. Commercial and live/work uses would be on the first two floors and residential units would be on levels 3,4, and 5. The project also includes four levels of parking with 308 vehicles parking spaces as well as 45 bicycle parking spaces. One level of the parking structure would be subterranean. Primary commercial access to the project site would be located along Santa Monica Blvd. and primary residential access would be located along West Knoll Drive.	NOP	05/13/2013

2013042029	Wastewater Treatment Plant Enhancement Project Biggs, City of Biggs--Butte Note: Refer to Revised NOP received 5/08/13.	NOP	
	<p>The proposed project involves the improvement of the current municipal wastewater effluent disposal method employed at the Biggs Wastewater Treatment Plant in an effort to comply with the Central Valley Regional Water Quality Control Board's Waste Discharge Requirement. The project will change the waste discharge method from a direct discharge facility to a land discharge facility. The project involves the analysis of two potential effluent land application locations located immediately adjacent to the City's existing wastewater treatment plant site.</p>		
2013042031	Entertainment and Sports Center Sacramento, City of Sacramento--Sacramento Construction and operation of an entertainment and sports center on approximately 18.5 acres. The proposed ESC Project would be located on the Downtown Plaza property and on other property which may be transferred to Applicant and would include demolition of portions of the existing buildings, and the construction and operation of an approximately 18,500 seat entertainment and sports center and up to 1,500,000 square feet of office, retail, housing and hotel uses at the ESC Project Site. The ESC would serve as the home for the Sacramento Kings, a National Basketball Association team, as well as a venue for other sports, entertainment and civic and cultural events.	NOP	05/13/2013
2013041038	GPA 13-002 Adoption of the 2013-2020 Housing Element Update and GPA 13-003 Related Amendment to the Community Development (Land Use) Element of the Poway Genera Poway, City of Poway--San Diego State law requires that every City prepare and adopt a Housing Element to be included as part of the City's General Plan. Additionally, the Government Code requires that every City periodically amend their Housing Element. The project consists of adoption of the Housing Element Update 2013-2020 in compliance with the State of CA Government Code Section 65580-65589.8. The project also includes related amendments to the text of the Community Development (Land Use) Element of the General Plan to reflect the updated Housing Element. The Housing Element includes four major components: 1) An assessment of the community's housing needs; 2) An inventory of resources and constraints relevant to meeting the community's housing needs; 3) A statement of goals, policies and quantified objectives that will guide the implementation of specific programs; and 4) A housing program to be implemented over a specified period that describes the implementation actions to be taken by the City to meet the needs. 	transmission structures. SCE has estimated that 276 transmission line spans would require the installation of marker balls and 90 transmission structures require aviation lights. These modifications would occur within Segments 5, 6, 7, 8, 10 and 11. (Note: The SPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A under-grounding options are not the subject of this NOP). In addition, SCE proposed engineering refinements to reduce structure heights in Segment 8 between Chino and Mira Loma Substations due to FFA concerns regarding potential interference with the instrument approach procedure for Chino Airport.		
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus A Measure "M" advisory vote ballot measure to be placed on the November 5, 2013 election ballot to facilitate future extension of sewer service.	NOD	
2010022005	Downtown Dublin Specific Plan Dublin, City of Dublin--Alameda On April 9, 2013, the City of Dublin Planning Commission approved a Conditional Use Permit and Site Development Review to expand an existing mini-mart for a 7-Eleven convenience store and construct a new drive-through car wash. Additional site modifications include the removal of an existing driveway, new parking spaces, new trash and electrical enclosures, and landscaping.	NOD	
2011052062	Feather River West Levee Project Sutter Butte Flood Control Agency --Butte, Sutter Note: Extended Review Per lead The Sutter Butte Flood Control Agency (SBFCA) is proposing the Feather River West Levee Project (FRWLP) to reduce flood risk in the Sutter Basin, which includes portions of Sutter and Butte Counties. The project area for the FRWLP is focused on the corridor along the west levee of the Feather River from Thermalito Afterbay on the north to approximately 4 miles north of the confluence with the Sutter Bypass on the south. This corridor is roughly 500 feet toward the land side of the existing levees and 100 feet toward the water side. This corridor was determined as the area in which levee improvements, such as seepage berms, stability berms, relief wells, setback levees, erosion protection, and slurry cutoff walls, are likely to occur. The corridor is approximately 41 miles long. The project area would also include borrow/spoil sites or project mitigation sites outside of this corridor.	NOD

2013048007	Harris Farms South Camp Upgrades Public Health, Department of --Fresno The California Department of Public Health as the lead agency will be issuing a water supply permit. The Harris Farms South Camp proposes to replace existing clearwells, filters, and clarifiers at their existing surface water treatment plant.	NOE	
2013048008	Harris Farms Headquarters and Cadillac Booster Station Upgrades Public Health, Department of --Fresno The California Department of Public Health as the lead agency will be issuing a water supply permit. The Harris Farms Headquarters proposes to replace existing clearwells, filters, and clarifiers at their existing surface water treatment plants.	NOE	
2013048009	Madison Plaza - Amendment of Specific Plan No. 65 El Cajon, City of El Cajon--San Diego Expansion of an existing commercial shopping center, consisting of a 9,011 square foot building addition, a 3,772 square foot building on its own pad, consolidation of redundant driveways and related site improvements.	NOE	
2013048010	Restoration Along Little Sheep Creek and Cottonwood Creek Fish & Wildlife #4 --Madera The Project includes the restoration of 4.4 acres of riparian habitat. Approximately 2,000 linear feet of Little Sheep Creek and 1,000 linear feet of Cottonwood Creek will have approximately 1500 California native plant species planted along the banks.	NOE	
2013048011	Changala Tule River Sand Extraction Fish & Wildlife #4 Woodlake--Tulare The Project is limited to the extraction of sand from one location in the Tule River. The extraction area is approximately 1 acre in area, within the channel bottom of the river. Extraction activities will not be deeper than 3.5 feet, from the existing surface elevation at the time this Agreement is signed by CDFW. No more than 4,999 cubic yards of material will be removed annually and no more than 8,470 cubic yards over the term of this agreement. All material removed will be used to fill a large depression in adjacent agricultural land in order to level the area for farming.	NOE	
2013048012	Liberty Energy Utility Line Clearance - Grande Ave. Tahoe Conservancy --Placer This project involves the trimming and removal of dead, dying, diseased, insect infested and suppressed trees near utility structures and contains a secondary benefit of reducing forest fuels for forestry and fire hazard reduction purposes. 2011111077	Palomar Gateway District Specific Plan Chula Vista, City of Chula Vista--San Diego The proposed project is the implementation of the Palomar Gateway Specific Plan, which would govern the redevelopment of the Palomar Gateway District.	EIR	05/30/2013
2012101035	Rancho San Juan Apartments Project San Juan Capistrano, City of San Juan Capistrano--Orange The applicant is proposing the development of the ~4 acres of the 10-acre parcel with a total 100 multiple-family residential dwelling units (apartments), including 32 one-bedroom units and 68 two-bedroom units. The net density of the proposed project is 25 du/ac. In addition, an area encompassing 15,740 sf of usable open space is also proposed. The Site Plan also includes 284 parking spaces in accordance with the City's parking code requirements. Vehicular access is proposed on Vista Montana, which abuts the site to the south. An access easement is also proposed along the western property boundary adjacent to San Juan Hills High School. Project implementation will necessitate the approval of the following discretionary actions: (1) General Plan Amendment; (2) Rezone; (3) Architectural Control; (4) Affordable Housing Implementation Agreement; and (5) Grading Plan Modification.	EIR	05/30/2013
2013041046	General Plan & Zoning Code Update Calipatria, City of Calipatria--Imperial The proposed project consists of the review and update of the 1992 Calipatria General Plan and Zoning Ordinance. The proposed planning area is within the Calipatria City Limits and includes surrounding land within the County of Imperial's Urban Overlay immediately outside the current City limits and the Calipatria State Prison site as well as the City's Wastewater Treatment Plant site. Total planning area encompasses approximately 7.32 square miles. The primary purpose of the update is to adequately plan for the anticipated growth within the Calipatria Community and surrounding unincorporated area of Imperial County with the purpose of allocating specific areas for development that will result in the least impact to the environment and existing resources.	EIR	05/29/2013
2008082128	197/199 Safe STAA Access Project Caltrans #1 --Del Norte Caltrans is proposing to construct improvements at 7 spot locations on State Route (SR) 197 and U.S. Route (US) 199 in Del Norte County to be able to reclassify the routes as part of the Surface Transportation Assistance Act (STAA) truck route network. The primary purpose of the proposed project is to improve these 7 spots so that two STAA trucks passing in opposite directions can be accommodated. By making improvements to accommodate STAA trucks, the prohibition for STAA vehicles would be removed, and the safety and operation of US Route 199 and SR 197 would be improved. The primary need for the project is the result of sub-standard curves; absence of, or substandard, shoulders along the traveled way; and narrow lanes.	FIN

2013048021	<p>Repair Pier W6 and Fender System to the SF-Oakland Bay Bridge Caltrans #4 San Francisco--San Francisco Digouts at failed pavement sections and replace the damaged areas with new asphalt concrete. All work will be limited to existing State Right of Way.</p>	NOE	
2013048022	<p>Hollister Air Attack Base Water Line Realignment Project Forestry and Fire Protection, Board of Hollister--San Benito This project will reroute an existing water line with a tee into two separate water lines from the water main. The project will entail digging the existing water line, stopping the tee, and placing new pipe from the water main. This will allow the barracks at the air attack base to have a separate water line from the connection to the retardant mixing area of the base.</p>	NOE	
2013048023	<p>San Diego Truck Trail Road Maintenance, Phase III Forestry and Fire Protection, Board of --San Diego This project involves recurring maintenance and repair of six truck trails, Rainbow, Mason Valley, Von Sagren, Ridge Ranch, Suncrest, and Skeleton Flats, all located within San Diego County, Cal Fire operational Unit. These truck trails serve as ingress and egress routes for, and will aid in, fire suppression and emergency response activities. The project is part of the San Diego Unit's historic and ongoing annual maintenance of critical fire defense infrastructure. This project will encompass typical tasks associated with road maintenance consisting of grading, filling of eroded ruts, repair of existing water drainage facilities, cleanout of existing culvert systems, removal of obstructions within the road such as rocks and fallen trees, removal of dead trees adjacent to roadway that are likely to fall onto roadway, hand removal of selected vegetation adjacent to or disturbing activities will remain within the prism of the existing road.</p>	NOE	
2013048024	<p>Oak Ridge Road Access Improvement Forestry and Fire Protection, Board of --Santa Cruz This is a joint agency project utilizing Central Fire Protection District staff and hand crews from Ben Lomond Conservation Camp to improve emergency egress/ingress along Oak Ridge Road is a narrow, winding, dead end road originating in Porter Guldch and terminating approximately 1 1/2 miles at a ridge top location. The road provides access to approximately 15 residents. Low-lying limbs, leaning trees and shrubs currently obstruct portions of the roadway.</p>	NOE	
2013048025	<p>Fire Preparedness Exercise Forestry and Fire Protection, Board of --Riverside The Fire Preparedness Exercise (FPE) requires Cal Fire Riverside Unit personnel to demonstrate the safe and effective use of fire suppression tactics in preparation for the fire season. The FPE is located at the Morongo Indian Reservation, on land owned by the Morongo Band of Mission Indians. The project area is located in Riverside County, northeast of Banning, CA and northwest of Cabazon, CA. The total project area is 85 acres; however, not all this area will be impacted by project activities.</p>	NOE

	will not include use of the property as a school site.		
2013048035	Washington Elementary School Portable Classroom Replacement Project San Leandro Unified School District San Leandro--Alameda The District has identified two existing portable classroom building containing seven classrooms that are 48 years old and no longer meet current standards and program needs. The two obsolete portable classroom buildings would be replaced with two new portable classroom buildings containing seven classrooms, the same number of classrooms as with existing conditions. The two new portable classroom buildings would be constructed at the same location as the existing two classroom buildings and would not result in an increase in the building footprint.	NOE	
2013048036	DC Fast Charging Installation Project Los Angeles, City of Los Angeles, City of--Los Angeles Installation of stationary electric vehicle charger and 16 kwh Lithium ion battery bank at an existitng 7-Eleven Store.	NOE	
2013048037	2013 City Street Improvement Project Dinuba, City of Dinuba--Tulare The project will involve the cold planing (grinding) of existitng pavements, including possible mixing with asphalt emulsion, compaction, grading, and hot mix asphalt concrete overlay.	NOE	
2013048038	Relocation of existing CXT Restroom on County Line Road - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project consists of the relocation of a vault toilet at County Line Road to a new location near the trash cage on County Line Road. The restroom will be moved approximately 1/4 mile north of its current location. Relocation is needed due to the current location is in a low lying "wash". When the wash fills with water, the restroom could possibly be a hazard if the vault filled with water causing sewage to flow out on the ground.	NOE	
2013048039	Truckhaven Sandstone Fencing Project - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --Imperial This project will install approximately one mile of fence to protect a sensitive geologic feature found in the Truckhaven area near Coral Wash. Fencing will consist of peeler posts, T-bar, and resource fencing. Signing will accompany the project stating why the area is being protected. Work to be completed by the Ocotillo Wells District Trails Team.	NOE	
2013048040	Adoption of revisions to the New Solar Homes Partnership Guidebook Parks and Recreation, Department of Sacramento--Sacramento The purpose of this activity is to revise guidelines previously adopted by the California Energy Commission to govern the general administration of its New Solar Homes Partnership Program ("NSHP") pursuant to Public Resources Code section 25780 et seq. The Guidelines are being revised to add program requirements that allow for leases or power purchase agreements (PPAs) where the home builder/developer is an interim lessee or interim signatory to a PPA,	NOE
