STATE CLEARINGHOUSE

NEWSLETTER

April 16-30, 2010

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16-30, 2010**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2009**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, April 19, 2010</u>			
2009091072	Vanden Brink Dairy-Dairy Operation and Crop Production (PSP 05-120) Tulare County --Tulare The proposed project is an expansion of an existing legal non-conforming dairy from 685 animal units (610 Holstein milk cows plus 100 support stock) to a maximum of 2,855 total animal units (2,000 Holstein milk cows plus 1300 support stock) on 72 acres of a 393 acre site in the AE-40 (Exclusive Agricultural - 4 acre minimum) Zone. The dairy facility will house the milking herd and the support stock in shaded freestalls and open corrals with flushed lanes. The balance of the site would remain in current agricultural production as farmable acres of wheat/corn silage (double cropped).	EIR	06/02/2010
2009071039	Bullard High School Improvement Project Fresno Unified School District Fresno--Fresno NOTE: Review Per Lead, extended to 2-26-2010. The proposed project evaluated in the Draft EIR is the implementation of a master development plan (MDP) and construction of high-priority athletic facilities improvements (AFIs) for the Bullard High School campus. Specific elements of the AFIs include improvements and upgrades to the swimming pool and track and field facilities. The MDP improvements, which includes the replacement of various school buildings, are conceptual in nature and would be phased in over time subject to funding availability. The Draft EIR evaluates the proposed AFIs at the project level and the proposed MDP improvements at the program level.	FIN	
2010044008	Santa Barbara Maintenance Dredging Project: 6-Year EA U.S. Army Corps of Engineers Santa Barbara--Santa Barbara NOTE: Review Per Lead The proposed project includes the annual removal of up to 600,000 cy of littoral material from the entrance and navigation channels of Santa Barbara Harbor and the sand trap within the channels. Dredged material would be deposited on East Beach, downcast of the harbor. Operations are expected to occur from September 1 to April 30 each year. Single-point discharge would be utilized from March 1 through April 30 to minimize impacts to grunion. The proposed project is required to maintain Federally-authorized channel configurations, and to restore and ensure safe navigability within the harbor.	JD	05/12/2010
2009122069	Garberville Sanitary District Water System Improvement Project Garberville Sanitary District --Humboldt Upgrade existing water intake in South Fork Eel River; Construct new 670,000 to 1,000,000 gallon water storage tank; Remove existing 200,000 gallon water storage tank; Modify existing Oak Street Booster Station within existing footprint; Construct various new water lines; Improve existing logging road to water tank site. <u>Documents Received on Monday, April 19, 2010</u>			
2010041054	Garcial Lot Line Adjustment San Luis Obispo County --San Luis Obispo Request by Ruben and Susan Garcia for a Lot Line Adjustment (COAL07-0036) to adjust the lot lines between two parcels of 31.25 and 3.27 acres each, resulting in two parcels of 24.87 and 9.65 acre each. The project will not result in the creation of any additional parcels. The proposed project is within the Agriculture land use category. The project is located at 8790 Centra Avenue, approximately 0.5 mile south of the community if San Miguel. The site is in the Salinas River planning area.	MND	05/18/2010
2010041055	R2008-02056/RENT200900123 Los Angeles County --Los Angeles The project is an application for a plot plan to build one 5,483 sf, two story single family house with attached car garage and one detached 746 sf guest house with attached 2 car garage. Other project features include a 10,000 gallon water tank, swimming pool, spa, and hammerhead fire department turnaround area. Ingress and egress to the site will be from a driveway located off of Belton Drive.	MND	05/18/2010
2010041062	Dale Monterey County --Monterey NOTE: Review Per Lead Coastal Development Permit to allow a Minor Subdivision Tentative Map to divide an undeveloped 3.02 acre parcel into 2 parcels of 1.51 acres each.	MND	05/19/2010
2010041063	Kamin Residence San Diego, City of San Diego--San Diego NOTE: Review Per Lead Coastal Development Permit, Neighborhood Use Permit, Site Development Permit, and Lot Line Adjustment to construct a 398 sf accessory building consisting of a median room. In addition the project would restore the open space easement and a small area of MHPA are disturbed due to illegal encroachment. The ~0.99 acre (342,998 sf) project site is located at 2969 Racetrack View Drive in the RS-1-1 Zone (Single family Residential), Coastal Overlay Zone (Non-Appealable Area), Coastal Height Limit Overlay Zone, within the Torrey Pines Community Plan area (LEGAL: Lot 3 of Del Mar Estates). The site is not included on any Government Code listing of hazardous waste sites.	MND	05/19/2010
2010041064	Conditional Use Permit 2010-020/CUP Big Bear Lake, City of Big Bear Lake--San Bernardino Demolition of existing 12 cabins and new construction of an 81,000 sf, 59 unit affordable housing apartment complex, aith 59 covered and 65 uncovered parking stalls.	MND	05/18/2010

2010042053	Village at Lake Shastina Siskiyou County Weed--Siskiyou The Village at Lake Shastina is a gated mixed-use planned development of 81 single family homes, 3 duet units; a recreational clubhouse, and ~24,000 sf of commercial office and retail space situated on 18.21 acres.	MND	05/18/2010
2010042057	Pacific Gas and Electric Line 131 Corrosion Repair Fish & Game #3 Livermore--Alameda, Contra Costa A recent internal In-Line Inspection, commonly known as "Pipeline Pigging" of the Line 131 discovered anomalies in the pipeline at Sites 1, 2, and 3. Federal Code requires that these anomalies must be inspected and, if necessary, repaired to assure that the pipeline functions properly and safely.	MND	05/18/2010
2010042058	UC Davis Medical Center Waste Management Facility Relocation Project University of California, Regents of the Sacramento--Sacramento The proposed project would relocated the UCDCM Waste Management Facility from south of the Education Building to south of the Central Plant. Items handled at the Waste Management Facility are limited to chemical and radioactive waste from UCDCM patient care, research, and academic functions. No changes in waste handling or amounts are proposed. The existing facility will be decommissioned and demolished and paved.	MND	05/18/2010
2010042059	The Grove at Sunset Court Brentwood, City of Brentwood--Contra Costa The proposed project consists of a General Plan Amendment (GPA 10-001) to change the General Plan designation from General Commercial to High Density Residential, a Rezone (RZ 10-004) to adopt development standards, and a Design Review (DR 10-003) for 54 apartment homes, a community building, and related improvements on the project site.	MND	05/18/2010
2010042060	Eureka Road Improvements Project Roseville, City of Roseville--Placer The proposed project involves improvements to the Eureka Road corridor between North Sunrise Avenue and the eastbound I-80 on-ramp in the northeast section of Roseville. The project will address transportation system capacity and safety concerns associated with the Eureka Corridor. The purpose of the proposed project therefore is to address these capacity and safety concerns.	MND	05/18/2010
2010042061	William J. Carroll Government Center Solano County Vacaville--Solano The proposed Project consists of an ~35,000 sf, two story County public health facility, clinics, office space and associated site improvements located on 2.78 acres in the City of Vacaville, operated by Solano County H&SS and would serve to provide a centralized location within North COunty to dispense County government programs and services. 2010041056	<p>Pacific Coast Highway/Del Prado Avenue Phase 1 Street Improvement Proeject Dana Point, City of Dana Point--Orange The City of Dana Point is proposing the Pacific Coast Highway/Del Prado Avenue Phase 1 streetscape improvements for the Dana Point Town Center.</p> <p>This project provides the public right-of-way improvements, consistent with the Town Center Plan approved by the City and the California Coastal Commission.</p> <p>The design concepts of the plan call for rebalancing through-movement with public access, "calming" traffic, enhancing the pedestrian environment, and making the Town Center more readily accessible and navigable to residents and visitors to the area.</p>	NOP	05/18/2010
2010041057	<p>Shell Carson Facility Ethanol (E10) Project South Coast Air Quality Management District Carson--Los Angeles The Shell Carson Facility Ethanol (E10) project will occur at the Shell Oil Products US (Shell) Carson Distribution Facility. The purpose of the proposed project is to increase the facility's capacity to deliver denatured ethanol by tanker trucks to the southern California market. The increase in denatured ethanol delivery capacity is in response to an increase in the amount of ethanol required to be blended into gasoline to comply with the 2007 amendments to the California Air Resources Board (CARB) Phase 3 Reformulated Gasoline (RFG) requirements. The proposed project includes the following changes to the Carson Distribution Facility: 1) increase the ethanol throughput at an existing two lane tanker truck loading rack; 2) convert up to four existing storage tanks from gasoline to ethanol service; 3) install one new ethanol tanker truck loading lane and associated ethanol loading rack; 4) expand the existing ethanol loading rack operations building; and 5) install one new gasoline storage tank to replace gasoline capacity that will be transferred to ethanol service.</p>	NOP	05/18/2010
2010041058	<p>Fresno Merger No. 2 Redevelopment Plan Amendments Project Fresno Redevelopment Agency, City of Fresno--Fresno The project consists of proposed amendments to two redevelopment plans. The project encompasses separate redevelopment project areas (Constituent Project Areas) described each of which has its own redevelopment plan (Constituent Redevelopment Plans). The two Constituent Project Areas are: Southwest Fresno General Neighborhood Renewal Area (GNRA) and Fruit/Church.</p>	NOP	05/18/2010
2010041059	<p>Los Angeles Memorial Sports Arena Los Angeles Memorial Coliseum Commission Los Angeles, City of--Los Angeles The Proposed Project would consist of the demolition and removal of the existing Sports Arena and the redevelopment of the Project Site with a new use that would reactivate the underutilized Project Site. In an effort to be responsive to changing community needs and market conditions, the Los Angeles Memorial Coliseum Commission is considering two different and mutually exclusive future uses for the Project Site: a civic multiple use space, or a new professional 20,000 seat outdoor soccer stadium. Both of these development options will be analyzed in an equal level of detail in the EIR to allow flexibility for the potential entitlement of either one of the two projects.</p>	NOP	05/18/2010

<u>Documents Received on Monday, April 19, 2010</u>			
	square foot area for a new parking lot, two picnic sites, and pedestrian paths.		
2010048183	Tier 2 - Planning Study that will include test wells for Water System Upgrade North Fork Union School Water System --Madera Tier 2 planning study and test wells for water system upgrade project for Tier 1 SRF funding. The project will provide reliable water supply and water quality meeting the arsenic drinking water standards.	NOE	
2010048184	Issue Right of Entry to Mendocino County Department of Transportation Parks and Recreation, Department of --Mendocino Issue a Right of Entry Permit (ROE) to Mendocino County Department of Transportation (MCDT) for temporary access to Mendocino Headlands State Park to repair a slope failure along Comptche-Ukiah Road. The ROE will remain in effect from January 20, 2010 through January 20, 2011. All work conducted on State property in association with the ROE will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act.	NOE	
2010048185	Stevenson House Tree Removal Parks and Recreation, Department of --Monterey Remove four non-native trees located adjacent to the Stevenson House adobe (California State Landmark No. 352) at Monterey State Historic Park to maintain the historic adobe. Cut trees to ground level and grind stumps in place to a depth of 6-8".	NOE	
2010048186	Camp Hinckley Reforestation Project (BDU-2-2010) Forestry and Fire Protection, Board of --San Bernardino This project consists of planting native conifer seedlings in an area significantly impacted by drought, bark beetle tree mortality and fire. The site has received fuel treatments by the Natural Resources Conservation Service and San Bernardino County Public Works. No additional site preparation is required to perform this project. The tree planting will occur in these previously treated areas using hand tools.	NOE	
2010048187	Cressman Road Shaded Fuelbreak Maintenance Project Forestry and Fire Protection, Board of Sanger--Fresno This project involves ongoing maintenance of an existing shaded fuelbreak along a segment of Cressman Road located about six miles west of Shave Lake, CA. The project would include regular ongoing maintenance every three to five years. The fuelbreak extends approximately 200 feet on either side of Cressman Road and encompasses approximately 85 acres of land. Material to be removed will be piled and burned, removed, or chipped and scattered back on site.	NOE	
2010048188	Lushmeadows Strategic Fuel Treatment, Phase I Forestry and Fire Protection, Board of --Mariposa The Mariposa Fire Safe Council is proposing a mechanical mastication and hand crew treatment project in the Lushmeadows Subdivision area, starting at the intersection of Whispering Pines Road and Darrah Roads and running along the dominant ridge that parallels Tip Top Road to Wass rod in Mariposa County,	NOE

<u>Documents Received on Monday, April 19, 2010</u>			
	California. The project consist of mechanical mastication and hand cutting treatment of brush and small trees. Treatment standards include the selective mechanical mastication (thinning, release and hazardous fuels reduction) of small trees 8 inches in diameter and less, and all brush.		
2010048189	San Diego Truck Trail Road Maintenance Forestry and Fire Protection, Board of --San Diego This project involves recurring maintenance and repair of four truck trails, Foster, Daley, Wisecarver and Honey Springs, all located within San Diego County, CAL FIRE operational Unit. These truck trails serve as ingress and egress routes for, and will aid in, fire suppression and emergency response activities. The project is part of the San Diego Unit's historic and ongoing annual maintenance of critical fire defense infrastructure.	NOE	
2010048190	L. A. Moran Reforestation Center - Tree Removal Forestry and Fire Protection, Board of Davis--Yolo Four eucalyptus trees will be removed and chipped on site. The Diameter at Breast Height (DBH) of the trees is approximately eighteen to twenty four inches. The trees are growing too close to power lines, have hazard branching and are leaning over a residence. Simple limbing will not rectify the tree's growth habits. After removal the stumps will be ground to prevent resprouting. The removal of these trees does not constitute timber operations as no material is being commercialized and no timber land is being converted.	NOE	
2010048191	SDWSRF Application for Planning Funds - Elk Trail Water System Improvements Shasta County --Shasta A Safe Drinking Water State Revolving Fund application for planning funds, to collect and prepare information for possible water system improvements for the existing Elk Trail subdivisions.	NOE	
2010048192	Maintenance Stream Alteration Agreement No. 2009-0190-R4 for the Twain Harte Lake Maintenance Project Fish & Game #4 --Tuolumne The Project is the removal of sediment from the Twain Harte Lake. Approximately 1700 cubic yards of material will be removed from the lake bottom in the year 2010. Approximately 150 square feet of surface area will be disturbed on the lake bed. Additional sediment material may be removed as needed on a yearly basis. Heavy equipment use will include an excavator with a 60-foot reach. Silt fencing and straw waddles will be installed around the work area to prevent sediment from entering any waterway. No riparian vegetation will be removed.	NOE	
2010048193	Agreement 2009-0200-R4 - Mammoth Pool Geotechnical Investigation Project Fish & Game #4 --Madera The Project consists of the excavation of six (6) trenches and three (3) borings to obtain information on the soil types and depths of bedrock for the future installation of a new, larger Howell Bungler (HB) valve and replacement of the existing fishwater generator with a larger fishwater generator. Water will be appropriately diverted around the work area and restored immediately upon completion of work.	NOE

<u>Documents Received on Monday, April 19, 2010</u>			
2010048194	Humboldt County Dept. of Public Works - Mattole Road P.M. 5.25 Storm Damage Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt Winter storms in 2005-2006 resulted in a large landslide that caused 500 linear feet of the roadway surface to sink by up to 15 feet. An existing 24-inch diameter culvert at the north end of the landslide plugged. Flows diverted around the culvert and resulted in damage and erosion of approximately half the roadway width for a distance of 70 feet. Emergency repairs included fixing the culvert outlet and grading the roadway with additional fill material to restore traffic. This project involves reconstruction of the roadway including a stabilization trench with a perforated pipe underdrain. The slide area will be excavated to a depth of 20 feet below the roadway surface. A 3-foot wide and 10-foot deep trench will be excavated parallel to the base of the excavated cutbank for approximately 375 feet. Eight-inch diameter perforated pipe will be placed near the bottom of the stabilization trench and the trench will be backfilled with permeable material. Underdrain outlets will be installed at two locations along the underdrain to convey collected seepage to the hillside below the roadway. A new 18-inch diameter cross drain culvert will also be added under the restored roadway section to convey additional storm water runoff from the inboard ditch to the hillside below the roadway. The proposed project will result in permanent impacts to the roadside drainage ditch including 30sf of wetlands. A larger roadside drainage ditch will be created after the roadway is restored. The newly created roadside drainage area will be monitored by Humboldt County to ensure that impacted wetlands are restored onsite.	NOE	
2010048195	Application to Appropriate Water State Water Resources Control Board --Tuolumne Application 31545 requests a water right permit to continue diverting 47.6 acre-feet per year from Big Humbug Creek for recreational purposes. The reservoir was built in the 1970's.	NOE	
2010048196	Woodland College Goodhill Sewer Capacity Improvements Fish & Game #3 --Marin Replacement or upgrade of approximately 9,000 feet of gravity sanitary sewers in Kent Woodlands, including boring and jacking pipe under three box culverts conveying Tamalpais Creek. Remove 22 feet of 8-inch diameter cast iron sewer from bed of Tamalpais Creek and remove manhole from streambank at Goodhill Road. Repair Streambank. Issuance of a Streambed Alteration Agreement Number 1600-2010-0059-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2010048197	Preliminary Design for the City of Montague Water Treatment Plant Montague, City of Montague--Siskiyou The City of Montague is conducting a feasibility study to consider alternatives for improving the water treatment plant's disinfection byproduct removal performance.	NOE	
2010048198	I-5 (Interstate 5) Fuelbreak Forestry and Fire Protection, Board of Red Bluff--Tehama Perform annual maintenance of a 6-10 foot wide fuelbreak in rolling grass covered land adjacent to Interstate 5 (I-5) within the Cal Trans right-of-way adjacent to both	NOE

	the east and west sides of the interstate. This work would utilize Cal Fire inmate crews to hand cut/scalp annual grasses approximately 6-10 feet in width parallel to the interstate between the City of Red Bluff, CA and extend to the Hooker Creek Road exit, a distance of approximately 8 miles.		
2010048199	Pellows Road Fuelbreak Forestry and Fire Protection, Board of Red Bluff--Tehama Create and maintain a fuelbreak by utilizing a Cal Fire road grader and operator to perform annual maintenance of Pellows Road, and existing gravel, dirt road in western Tehama County west of the community of Paskenta. The project extends for approximately 13 miles along Pellows Road. The topography is foothill, low elevation oak woodland consisting of blue oaks, Manzanita with some grey pine and chaparral brush species. There is also a significant component of rolling grassland that is open with little to no trees or brush.	NOE	
2010048200	Watts Fire Road Repair Forestry and Fire Protection, Board of --Mariposa Repair the Watts Fire Road. The project is located approximately 1.5 miles south of Hwy. 49 at the junction of Stumpfield Mountain Road. The first 700 feet of Watts Fire Road is eroded and passably only with four wheel drive vehicles. The road segment has gullies along the length of it where water and sediment flows into a Class III watercourse. This project proposes to back blade and fill-in the gullies.	NOE	
2010048201	Canyon View Loop Water Tank Project Forestry and Fire Protection, Board of --Tehama Install a new 10,000 poly (plastic) water tank for fire protection on private property. Install all necessary plumbing (PVC) and construct a solid base using a retaining ring and compacted gravel. The new tank would be filled from an existing private well of the landowner whose property the tank would be located. No new leveling is required since the area is already flat and prepared. A rock base ring will be placed on top of the ground on which the new tank would be located. All necessary plumbing would be connected. The tank will remain full year-round, and be filled via the private landowners existing private well water.	NOE	
2010048202	Adelante High School Shade for Students Leaf-It-To-Us School Tree Planting Program Forestry and Fire Protection, Board of Roseville--Placer This project, to be carried out by the Adelante High School, involves the planting of 21 trees on the school grounds of Adelante High School. It is anticipated that this project will commence in July 2010 and be completed by March 2012. Trees will be native and non-native ornamentals that have been selected for their disease resistance, adaptation to the urban landscape, shade capacity, and minimal litter production.	NOE	
2010048203	Auburn Recreation District Green Trees for the Golden State Tree Planting Program Forestry and Fire Protection, Board of --Placer This project, to be carried out by the Auburn Recreation and Park District, involves the planting of 219 trees in many parks that servethe City of Auburn, Placer	NOE

2010048233	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0215 Nelson Channel Maintenance for Low Flow Project, Mendocino County Fish & Game #1 Ukiah--Mendocino The proposed activity is described as the alteration of channel material within a pre-existing man-made flow-through side channel of the main stem Russian River. The side channel appears to support rearing habitat and high flow refuge for developing salmonids, and may represent entrapment hazard during periods of low flow or during water diversion for agricultural use activities. The proposed activity is focused on maintaining active flows through the side channel.	NOE	
2010048234	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0104 White Oaks Vineyard Water Diversion Project, Mendocino County Fish & Game #1 --Mendocino Annual installation, maintenance and removal of an agricultural water diversion pump intake.	NOE	
2010048235	Issuance of Lake or Streambed Alteration Agreement No. 1600-2010-0024-R1 Route 299 Replace Down-Drain with Rock Lined Ditch, Humboldt County Fish & Game #1 Arcata--Humboldt The project proposes replacing one failing 36-inch corrugated steel pipe (CSP) down-drain with a 300-foot long, 3-foot deep, 10-foot wide rock-lined channel.	NOE	
2010048236	Issuance of Lake or Streambed Alteration Agreement No. 1600-2009-0426-R1, Hoppaw Creek Footbridge Removal Project, Humboldt County Fish & Game #1 --Humboldt The project is limited to the removal of an existing failed footbridge on Hoppaw Creek.	NOE

	<p>Specifically, the request is intended to expand the 101.72 acre mining operation approved on February 13, 2003 (CUP 4, Map 218R, Resolution; 20-03) by 117.75 acres. As proposed, mining and associated activities would now disturb a total of 219.47 acres on a portion of 4 parcels. Material to be mined will continue to be aggregate (sand and gravel) and employ open pit mining techniques. Mining will continue to be phased (total of 4) with the existing pit to be backfilled with mine waste from each successive phase. The mine will continue to operate with a maximum of 20 employees on site at any one time. The project proponent estimates the annual removal of material will remain between 250,000 and 1,000,000 tons per year; however with an extended life of operation; a total of 28,689,623 tons of material will have been procedure upon the mine's closure in the year 2033. Total waste retained on site over the life of the project is expected to be 4,877,236 tons. Maximum depth of excavation will remain at 119 ft. Final pit slopes will also remain at a 4:1 (horizontal :vertical) slope. Water supply to the project will continue to be provided from three sources: delivered bottle water, on-site well, and water piped in from the Wheeler Ridge Maricopa Water Storage District.</p>		
2010041068	<p>GPA80/CUP-S-699/Z-S-647 Sinaloa Park Simi Valley, City of Simi Valley--Ventura</p> <p>To change the existing General Plan designation from Community Park, Low Density Residential, and Open Space to Recreation Commercial, and change the zoning from Residential Estate (RE), Residential Low (CZ) (RL) and Open Space (OS) to Commercial Recreation (CR) to allow construction of a new three-course miniature golf facility; a new public park with picnic shelters, playground equipment, volleyball court, and passive play areas; public plaza; community building; clubhouse; parking; landscaping; and associated improvements. The project is proposed to be built in 3 phases on the southern, driving range portion of the existing Sinaloa Golf Course, and the vacant parcels between the course and Irvine Road to the south. All improvements are east of Madera Road.</p>	MND	05/19/2010

Parking would be provided for up to 66 vehicles. Outdoor lighting and landscaping to be provided within the parking areas. The facility would be utilized on Thursday evenings from 7:00 PM to 9:00 PM and Sunday from 10:00 AM to 12:00 PM. Additional meetings would be held during the weekdays Monday through Saturday beginning at 9:00 AM. All meetings and gatherings of large groups at the religious facility would conclude prior to 10:00 PM in order for all vehicles to vacate the premises prior to 10:00 PM. Nighttime use by small groups (up to 6 vehicles) may occur between the hours of 10:00 PM and 7:00 AM. The project includes a request for a 40 sf monument sign identifying the Kingdom Hall facility. The sign would be ~5 ft in height and 8 ft in width.</p>	MND	05/20/2010
1998052052	<p>Pacific Herring Commercial Fishing Regulations Fish & Game Commission -- NOTE: Supplemental Environmental Document</p> <p>The project to be described is commercial fishing as an element of the Department's Pacific herring management program. The locations of the project are San Francisco Bay, Tomales Bay, Humboldt Bay and Crescent City Harbor. Herring are primarily harvested for their roe (eggs) during the months of December through March (spawning season) using small mesh gill nets to take whole fish. The existing herring fishery is closely regulated through a catch quota system. Other management options under which the fishery has been conducted and which are available to the Commission include, but are not limited to, a limit on the number of permittees, seasons, gear restrictions, closed fishing areas, and landing and monitoring restrictions.</p>	NOP	05/20/2010

2010048259	Pier Piling and Girder Replacement Parks and Recreation, Department of --El Dorado Replace sixty three wooden pier pilings with steel pilings and girders at the Day Use Area in Sugar Pine Point State Park to maintain the pier for visitor use. Cut off wooden pilings close to the lake bottom and install steel pilings about 1 foot in diameter in approximately the same locations. Install two new steel pilings alongside the gas shed for added support. Replace wooden girders between pilings with 6 inch wide flange steel beams girders; attach steel bolt plates to secure existing stringers and weld to pilings. Steel will be pre-painted bronze tone with alkyd paint.	NOE	
2010048260	Alternate Base Period Facility Employment Development, Department of Elk Grove--Sacramento The EDD will lease approximately 7,500 square feet of office space. The leased facility will be used for the mandated 'Alternate Base Period' for Unemployment Insurance claims.	NOE	
2010048261	Wind Monitoring Stations Parks and Recreation, Department of --San Luis Obispo The Oceano Dunes District, working in conjunction with the California Geologic Survey and private air pollution control experts, will install two wind monitoring stations within Oceano Dunes SVRA and one station on a property owned by the California Department of Forestry (CalFire) at their Nipomo Station. Two stations will be installed using a large telephone pole placed into the ground with heavy equipment in areas of the park open to riding and camping year round. Up to three anemometers (windmill style aerovan) will be installed on both poles at 2, 7 and 10 meters. Both poles will have data loggers and may also be fenced to prevent vandalism.	NOE	
2010048262	Heber Road Improvement Parks and Recreation, Department of --Imperial This project will consist of repaving and repair to an existing paved road at Heber Dunes SVRA. The road is approximately 16 feet wide and 3000 feet long. No staging is to occur where there is vegetation. Equipment brought on site shall be washed prior to entering the Park to prevent unintentional introduction of non-native seed and unwanted dirt. Park BMP's shall be implemented for dust control.	NOE	
2010048263	Upper Ranch Water Well Parks and Recreation, Department of Hollister--San Benito This Project is to drill one water well intended for potable water production at the Grand Prix Track and other facilities within the Upper and Lower Ranch. Water was located by an exploratory well drilling process. The well driller will drill to a minimum of 100 feet with a grout/cement seal set to a county mandated minimum of 50 feet, standard for potable water wells intended for public consumption. The water well depth may vary depending on the drillers and geologist's recommendation at the time of drilling. The well may go as deep as 200 feet with a grout/cement seal set at 100 feet.	NOE

2010041084	Parsons Slough Project Fish & Game #4 --Monterey The proposed project consists of construction and operation of a partially submerged tidal barrier (sill) adjacent to the existing UPRR bridge at the mouth of Parsons Slough, an arm of Elkhorn Slough. The sill is intended to reduce erosion and preserve wetland and fisheries habitats. The majority of the sill would be submerged, although portions of the abutments and weir would extend above the water line. Materials and equipment staging would be at Kirby Park, about 2 miles upstream from the proposed sill site. The proposed project would also include establishment of artificial reefs to support populations of Olympia oysters in the northeastern portions of the Parsons Slough Complex.	MND	05/24/2010
2010042074	West Sacramento Bridge District Levee Access Road and River Walk Trail West Sacramento, City of West Sacramento--Yolo The West Sacramento Bridge District Levee Access Road and River Walk Trail Project would develop a levee maintenance and flood-fighting access road, spanning 3,250 linear ft (0.6 miles) on top of the levee crown, from the south side of the Tower Bridge to the future Mill Street, north of US Highway 50. The proposed access road and off-road amenities would also serve as a recreational trail by allowing controlled use by bicyclists, pedestrians, and other recreationists. The proposed project is part of the Bridge District Specific Plan, previously approved by the West Sacramento City Council on October 2, 2009.	MND	05/24/2010
2010042001	St. Helena General Plan Update 2030 St. Helena, City of St. Helena--Napa NOTE: Revised, this NOP replaces the NOP issued on March 30, 2010 due to corrections to projected housing and employment. The St. Helena General Plan is the primary policy document for the City and the community of St. Helena as it moves toward the year 2030. It sets forth the City's policies to guide future land use decisions, and provide the needed framework to preserve the character and quality of development that the community desires. The General Plan also identifies policies and establishes the processes by which the City's changes to existing land uses will take place. The project is a focused update of St. Helena's General Plan, which was last updated in 1993. This update focuses on the incorporate recent planning trends and policies regarding climate protection and sustainability.	NOP	05/24/2010
2010041081	Adventist Medical Center Hanford, City of Hanford--Kings Conditional Use Application No. 2004-04 filed by Adventist Medical Center Hanford, proposing to build and operate a 3 story hospital in an "Office" zone with an approved variance to allow the building to be 56.86 ft in height, in lieu of the 35 ft limit. The proposed hospital will include a rooftop helipad on the new building. The proposed helipad will be located ~44 ft above surrounding grade on top of the 3rd floor of the building. The landing pad will measure 48 ft by 48 ft and is designed to accommodate emergency medical service (EMS) helicopters.	Neg	05/24/2010

2010042075	<p>General Plan Implementation, Zoning Ordinance Text & Map Revisions & Minor General Plan Land Use Map & Policy Modifications/Corrections for Internal Consistency Cloverdale, City of Cloverdale--Sonoma</p> <p>In order to implement the new General Plan adopted in May 2009, the City is undertaking comprehensive revisions to the Zoning Ordinance, Title 18 of the City's Municipal Code. The current version of the Zoning Ordinance was adopted by the City in September 1994. Although it has been updated throughout the years, this is the first comprehensive update. The Zoning Ordinance update includes revisions to the City of Cloverdale Zoning Map, which is part of the Zoning Ordinance.</p> <p>The project analyzed in this Initial Study also includes revisions and corrections to the General Plan policies and Land Use Map east and west of the City limits to implement General Plan policies related to the Urban Growth Boundary (UGB) and minor land use designation changes to implement the Downtown/Station Area Plan adopted in February 2010, as well as the correction of other negligible General Plan errors.</p> <p>All of the proposed changes are based on policies of the recently adopted General Plan. There are no proposed changes to land uses, zoning designations or development standards that would result in increased density, increased population potential or major infrastructure upgrades that were not included in the General Plan or evaluated in the General Plan EIR.</p>	Neg	05/24/2010
1995102057	<p>Vineyard I, Aspen III South and Aspen IV South Reclamation Plan Amendment Sacramento County Sacramento--Sacramento</p> <p>Notes: Per Lead EIR and MND submitted</p> <p>The 183-acre Project will allow the Responsible Party to mine construction grade aggregate. The Project contains a total of 3.81 acres of waters, of which the Responsible Party proposes to fill approximately 3.50 acres. In order to mine the aggregate material, the applicant must first remove soil overburden to expose the aggregate deposit. The deposit may vary in thickness from 20 to 35 feet. Mined material will be transported via an electronic conveyor system, to an offsite sorting location. Impacts to Morrison Creek and other on-site drainages will total approximately 2,489 feet.</p>	NOD	
1998092078	<p>Shasta Valley Asphalt and Aggregate Plant Expansion Project Yreka, City of Weed--Siskiyou</p> <p>Expansion of operations under Use Permit #2858 issued by the City of Yreka. The project consists of expansion of operation at the existing asphalt batch plant to include: 1) Expansion of site disturbance; 2) Expansion of operations to produce Rubberized Asphalt Concrete (RAC); and (3) Expansion of hours to intermittent nighttime operations typically during the months of April through October, as required for public projects. The project will require modification of the existing use permit (#2858) issued in 1999. The existing use permit excludes the production of rubberized asphalt and nighttime operations of the existing asphalt batch plant. The project also includes relocation of the existing stormwater runoff of the entire project site, including the previous "avoidance area." Additionally, the project proposes a new office (to relocate the office that was proposed on the original 1999 site plan, but has never been constructed), a shop to be located to</p>	NOD

	the northwest of the existing asphalt plant baghouse and landscaping along the northern edge of the project property.		
2007092004	Cullinan Ranch Restoration Project Fish & Game #3 Vallejo--Solano, Napa The project consists of a 1,575-acre habitat enhancement and restoration at the Cullinan Ranch Restoration Project Site, a former tidal marsh adjacent to the Napa River Unit of the Napa-Sonoma Marshes Wildlife Area in San Pablo Bay and west of the City of Vallejo along Highway 37. Tidal action would be restored to the site by constructing four breaches to create a habitat continuum including: Sub tidal channels, intertidal marsh, and upland wetland ecotone to benefit estuarine biota such as birds, fishes and small mammals. The project would reestablish wildlife corridors and connectivity of habitats at the landscape scale. The project includes a variety of recreational and educational components.	NOD	
2007101141	CDP 07-22 / HDP 07-02 / SUP 07-04 / HMPP 07-08 - El Camino Real Road Widening Carlsbad, City of Carlsbad--San Diego The project will widen the section El Camino Real from Tamarack Avenue north to Chestnut Avenue to its full width of six travel lanes. The Project will widen the roadway to a total width of 126 feet including 8-foot wide bike lanes on both sides of the street, three southbound lanes of 12-foot width each, an 18-foot wide landscaped median island, and three northbound lanes of 12-foot width each at the southern and northern ends of this project. In the middle section of the roadway, the roadway would transition between the previously discussed typical section to a modified width of 116 feet including a 6 1/2 foot bike lane on the west side of the roadway, three southbound lanes of 12 feet width each, a 14-foot-wide landscaped median island, three northbound lanes of 11 1/2 feet width each, and a five-foot bike lane on the east side of the roadway. Parkways consisting of 5 1/2 feet of sidewalk and 4 1/2 feet of native vegetation (including bio-swale) would be provided on each side of the roadway resulting in a right-of-way width of 116 feet in this reach of the roadway. The Project proposes to keep the existing vertical profile of the road. The Project also includes improvements to the intersection of El Camino Real and Chestnut Avenue; replacement or improvement of storm drains; placement of erosion protection and/or construction of check dams; construction of 12- to 24-inch-deep brow ditches along the west side of El Camino Real; installation of lighting at 300-foot intervals along both sides of El Camino Real; construction of retaining walls; and relocation of an existing bus stop. Existing overhead power lines along the west side of El Camino Real may be underground.	NOD

2010048272	Paynes Creek Sportsman's Club Water Tank Project Forestry and Fire Protection, Board of --Tehama The proposal is to install a new 10,000 poly (plastic) water tank for fire protection. Install all necessary plumbing (PVC) and construct a solid base using a retaining ring and compacted gravel. Water to fill the tank will be provided by gravity feed from Plum Creek, a Class II watercourse. Tank would be located inside the private locked gate of the Sportsman's Club, which CAL Fire has access anytime. A level base will be excavated into the ground and a rock base with retaining ring will be added to establish a firm base.	NOE	
2010048273	Fire Investigation Training: F1-210 Forestry and Fire Protection, Board of --El Dorado CAL Fire and the El Dorado Hills Fire Department propose to use a 20-acre area (4 parcels) to assist in the annual training of fire prevention officials in the proper procedures to determine the cause and origin of vegetation fires. The project site is in El Dorado Hills, CA west of Sacramento on the south side of Highway 50 and west of Latrobe Road, at 4680 Golden Foothill Parkway, El Dorado Hills, CA (Station 87). Approximately 1/4 of the property is developed into a Fire Station with associated infrastructure and the remaining property is grassland. Prior to burning operations, preparation of the area would consist of hand crew construction of a 3-foot wide fire control line around the entire burn perimeter to ensure no fire escapes.	NOE	
2010048274	Gold Strike Training Burn Forestry and Fire Protection, Board of --Calaveras CAL Fire proposes to conduct annual training of fire prevention officials in the proper procedures to determine the cause and origin of vegetation fires. The project area is adjacent to the town of San Andreas in Calaveras County, on property owned and controlled by the San Andreas Sanitary District. The project acre and surroundings consists of oak woodland, with gently rolling topography.	NOE

2010041086	Proposed Rule 1420.1 - Emissions Standard for Lead from Large Lead-Acid Battery Recycling Facilities South Coast Air Quality Management District -- NOTE: Review Per Lead PR 1420.1 would protect public health by reducing lead emissions produced by lead-acid battery recycling facilities. PR 1420.1 would accomplish this by requiring enclosures for lead processes, pollution control equipment for lead point sources and additional housekeeping. Owner/operators of affected facilities would be required to meet a standard for lead of 0.15 micrograms per cubic meter averaged over any 30 consecutive days. Additionally, the proposed rule includes source testing, air monitoring, and recordkeeping requirements.	EA	05/26/2010
2007072114	State Route 25 Widening and Route Adoption Caltrans #6 Hollister, Gilroy--San Benito, Santa Clara The proposed project includes a route adoption and construction within the limits of the adopted route. Alternative one would align a route adoption corridor generally to the east of the existing highway. Alternative two would be aligned mostly to the west of the existing highway. Both routes would be wide enough to accommodate a 4 lane highway. Alignments would include interchange development and replacement. New bridges and railroad overcrossings would be included.	EIR	06/09/2010
2008101047	Tiered Winery Zoning Ordinance Amendment, POD 08-012, Log No. 08-00-004 San Diego County Unincorporated--San Diego The Proposed Project is an amendment to the San Diego County Zoning Ordinance to introduce a new winery classification and to revise the regulations for two existing winery classifications. The project would introduce a new "Packing and Processing: Small Winery" Use Type that would be allowed subject to limitations and with an approved Administrative Permit in the A70 (Limited Agriculture) and the A72 (General Agriculture) Use Regulations. The project would also revise the existing regulations for the "Packing and Processing: Wholesale Limited Winery" and for the "Packing and Processing: Boutique Winery" Use Types to allow these uses by-right but subject to specified standards and limitations in the A70 (Limited Agriculture) and the A72 (General Agriculture) Use Regulations. The Wholesale Limited Winery is currently allowed by right and the Boutique Winery is currently allowed with an approved Administrative Permit. The proposed amendment would apply to the unincorporated areas of San Diego County within the A70 (Limited Agriculture) and A72 (General Agriculture) Use Regulations.	EIR	06/09/2010

<u>Documents Received on Monday, April 26, 2010</u>			
	<p>The proposed project would be a pumped storage project using two existing mining pits near the town of Eagle Mountain, California. Water would be pumped from a lower/pit reservoir to an upper pit/reservoir during periods of low demand to generate peak energy during periods of high demand. To obtain the needed storage volume at the existing upper pit, two dams would be constructed along its perimeter. The lower pit has enough storage volume, so no dams would be needed.</p> <p>Eagle Crest is proposing to initially fill the reservoirs with either water from wells in the nearby Chuckwalla Basin or from surface water purchased from willing sellers elsewhere and transferred to the project through the Colorado River Aqueduct. Reservoir losses would be replaced by water from the nearby wells.</p>		
2010022039	<p>Upper Yuba Levee Improvement Project Three Rivers Levee Improvement Authority Marysville--Yuba</p> <p>The Three Rivers Levee Improvement Authority proposes to complete necessary levee improvements on the Yuba River South Levee (YRSL) in the Reclamation District (RD) 784 service area. The Upper Yuba Levee Improvement Project is located in the southern portion of Yuba County along the YRSL. The project area is located upstream of the confluence of the Yuba River and Feather River, east of the City of Marysville, and ~1 mile south of the Yuba River. The proposed project would provide enhanced flood protection within the Yuba River Basin, and would involve installing slurry walls, seepage berms, levee geometry corrections, levee slope erosion protection, and relief wells in the project area. The proposed improvements would occur along the YRSL between Simpson Lane and the Yuba Goldfields.</p>	FIN	
2010041085	<p>Carmel-by-the-Sea Housing Element Update Carmel-by-the-Sea, City of Carmel-by-the-Sea--Monterey NOTE: Review Per Lead</p> <p>This project is the City of Carmel-by-the-Sea's 2007-2014 Housing Element Update. The Housing Element articulates the City's General Plan relative to the maintenance and development of housing to meet the needs of existing and future residents.</p>	MND	05/26/2010
2010041088	<p>Vellen Lot Line Adjustment and Grading Permit San Luis Obispo County --San Luis Obispo</p> <p>Request by Mark Velten for a Lot Line Adjustment between two parcels of 2.6 and 2.5 acres each. The resulting parcels will be ~2.59 and 2.51 acres each. The proposal would also adjust the location of existing building envelopes in order to avoid development in a wetland area. This project also includes grading for driveways and building pads to allow the development of a single family residence on each parcel. Grading on proposed Parcel 1 is estimated to include ~872 cy of cut and 860 cy of fill over a 24,060 sf area. Grading on proposed Parcel 2 is estimated to include ~1,071 cy of cut and 1,014 cy of fill over a 23,950 sf area.</p>	MND	05/25/2010

2010041089	Laguna Haciendas Redevelopment Project Monterey County Salinas--Monterey The proposed project would demolish the existing Hacienda Plaza housing facility, which consists of a total of 100 affordable housing units located on a scattered site. In addition, the Calle Cebu site (consisting of 22 existing structures) would be redeveloped with 11 multi-family residential building consisting of 99 affordable units and a 2 story, 12,068 sf "Residential Services Facility" building. The residential buildings would be comprised two and three story modular buildings and one two story modular building located along the perimeter of the 5.5 acre parcel. The new housing facility would be referred to as "Laguna Haciendas" and would result in the development of 14 one bedroom units, 49 two bedroom units, 31 three bedroom units, and 5 four bedroom units. The first floor of the RSF buildings would provide ~2,574 sf of residential services use and 3,450 sf of office space and the second floor of the office building would provide an additional 6,034 sf of office use. The proposed project includes a Condition Use Permit (CUP) for the office use to be restricted for solely the purpose of HACM's affordable housing services.	MND	05/25/2010
2010041090	Washington Avenue Transmission Pipeline Western Municipal Water District Murrieta--Riverside The proposed project will involve the installation of ~2.3 miles of new 16 inch diameter potable water pipeline within Kalmia Street, Calle Estancia, Tenaja Road, and Washington Avenue. The construction of the pipeline will be within the paved areas of existing road rights-of-way and start at the intersection of Kalmia Street and Calle Estancia near the Murrieta Creek Channel and end at the Alson Booster Pumping Station on Washington Avenue. The project pipelines are located entirely within the District's Murrieta Division, in the City of Murrieta.	MND	05/25/2010
2010041091	Golden Valley High School Stadium Expansion Merced Union High School District Merced--Merced The Proposed Project would involve the design, construction, and operation of a proposed 4,000 seat athletic stadium facility on the existing GVHS Stadium site with direct access provided at the intersection of Merced Avenue and Parsons Avenue. The Proposed Project would offer approximately new 28 ft high home bleachers, and visiting bleachers ranging from ~13 to 15.5 ft high.	MND	05/25/2010
2010042077	Use Permit Application UP-4-08, Neighborhood Church of Redding Expansion Redding, City of Redding--Shasta Expansion of the existing Neighborhood Church of Redding facility with construction of: (1) a two story, 62,586 sf building consisting of a 1,200 seat sanctuary, cafe, bookstore, and classrooms; (2) a 300 seat chapel; and (3) associated improvements, including an outdoor play area, additional parking, modifications to the existing parking area, and related utility and street improvements. 	space, parks, utility and drainage basin facilities. (Note: This document was previously circulated in September 2008. In order to comply with proposed project-level conditions of approval, the number of single family lots was reduced from 329 to 276. In addition to residential development, the project includes open space (levee parkway) and a park system. A linear park bisects the project along a north-south lateral and will contain landscaped areas, play areas, seating and trails. The linear park will connect to a multi-use path running along the project perimeter near the Sacramento River levee. On- and off-site infrastructure improvements for streets, water, wastewater, and storm water are also part of the project.		
2010042080	Dickey Site Plan Review (Proposed Driveway) Sierra County --Sierra The applicant proposes to construct a CalFire (PRC 4290)-compliant driveway, 14 ft wide by +/- 1,200 ft long, on a parcel north of State Route 49 to provide access to a single family residence. The proposed project would require substantial grading and construction of retaining walla on a sloped and forested hillside within the Scenic Corridor combining zone district. Approximately 5,960 cy of cut and 260 cy of fill would be required. Total disturbance area would be +/- 2.2 acres, of which +/- 1.6 acres would be revegetated following construction.	MND	05/25/2010
2010042081	Franklin Crossing Amendments (EG-09-062) Elk Grove, City of Elk Grove--Sacramento NOTE: Review Per Lead The project consists of amendments to a previously approved project which includes a Large Lot and Small Lot Tentative Subdivision Map to create 4 large residential parcels and 1 park parcel, an increase from 240 to 314 single family lots, and 14 landscape lots. Additional entitlements include a Rezone of the site from RD-4, RD-5, and O to RD-5 and O, a Specific Plan Amendment from SFR 2-4, SFR 3-5, and Mini Park to SFR 3-6 and Park, and a General Plan Amendment from Estate Residential, Low Density Residential, and Public Park to Low Density Residential and Public Park.	MND	05/26/2010
2005061098	Sierra Village Project Visalia, City of Visalia--Tulare The project is a proposed mixed-use development comprising approximately 40 acres at the southeast corner of State Highway 198 and Roeben Road in Visalia, Ca. The proposed Project includes the expansion of Sierra Village, a senior residential community; the addition of professional/office space; construction of new athletic fields for Central Valley Christian Schools (CVC); and related improvements. The proposed project would involve the development of approximately 40 acres to commercial, professional/office and senior residential uses. The project wll require a General Plan Amendment to change the distribution of land uses, a change in zone districts to conform to the General Plan changes, a tentative parcel map to divide the 40-acre parcel, a conditional use permit to allow a planned development, and an amendment of the West Visalia Specific Plan. 2010048281	<p>Agreement No. 2009-0123-R4; Morro Creek Stilling Well Replacement Project Fish & Game #4 --Monterey</p> <p>The proposed Project would remove several idle oil transport pipelines from the San Ardo Oil Field. Up to approximately 7.2 acres of ephemeral stream channels would be disturbed by removing pipelines that cross these drainages. Backhoes and other equipment would be used to expose buried lines, which would be flushed and cleaned with water. Cleaning water would be treated on-site to remove petroleum products or disposed of at an appropriate off-site facility. Pipes would be capped or plugged before being removed. All pipes would be recycled or disposed of in accordance with all applicable laws. Upon completion of removal, all disturbed sites would be restored to preconstruction conditions. Approximately 90 percent of existing pipelines would be removed from the fields.</p>	NOE	
2010048282	<p>Spring Valley Access Road Regrading Project Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego</p> <p>The project is to regrade and repair the existing utility access roads located near Spring Valley in the Jamacha hydrologic sub-area of the Sweetwater Watershed. Existing access roads became significantly eroded and overgrown with vegetation and repair is necessary so that the maintenance trucks can reach existing utility infrastructures. The work to be done includes some vegetation removal and the installation of turf block concrete grid paving units at three separate road sections. Turf block was chosen as an alternative to placement of traditional solid concrete, and to avoid culverting of streams which could have significant impacts on water quality.</p>	NOE	
2010048283	<p>Sutter Mutual Water Company State Ranch Bend Fish Screen Project # Y01-01, SAA 1600-2009-0221 Fish & Game #2 --Sutter</p> <p>The project is limited to installation of a retractable, self-cleaning fish screen system on an existing agricultural water diversion. Additional work includes modifying and upgrading the existing pumping platform and piles; modifying or adding to the existing pile structure to support the new fish screen system and components.</p>	NOE	
2010048284	<p>Matson Creek Storm Damage Repair Project SAA#1600-2010-0047-R2 Fish & Game #2 Grass Valley--Nevada</p> <p>The project involves the replacement of approximately sixty linear feet of failing concrete channel with a new concrete box culvert. Work will consist of installing a temporary diversion dam to divert water around the project area during construction activities. In addition, an existing drainage ditch from street runoff will be enclosed in a reinforced concrete pipe and connected into the new box culvert.</p>	NOE	
2010048285	<p>Desautels/Heigh Ho Pier (1600-2008-0059-R2) Fish & Game #2 --Placer</p> <p>Construction of a new multiple-use residential pier. The pier will be supported by steel pilings driven into the substrate of the shore and lake bottom by means of an amphibious vehicle with pile driver. The pier will have steel cross beams attached to the pilings. The cross beams will be covered with a decking of Trex or a similar material. The pierhead will be supported by two pilings with an adjustable catwalk.</p>	NOE

	Avenue, a private road, specifically 605 feet east and 374 feet south of the NW corner of Section 26, T23N, R3W, M.D.B.&M. APN:89-300-14 Approximately 176.07 acres.		
1993024006	East Sonora Bypass U.S. Federal Highway Administration SONORA--TUOLUMNE Construct a 4 lane freeway with a 14-foot median. Construct interchanges at Mono Way at Fir Drive, Hess Ave and Standard Road. Grade separations would be built at two locations along Mono Way. Four unnamed drainages running perpendicular to the new expressway would require realignment and/or culverts. The project includes the construction of a new bridge over the existing SR 108 and an ephemeral tributary. The approximately 1.88 mile bypass begins at Standard Road and connects with State Route 108 near Via Este Road in Sonora, California.	NOD	
2002122117	Shelter Cove Community Church Modesto, City of Modesto--Stanislaus Agreement to Construct Improvements and Grant Revocable License to provide access to Claratina Avenue for Shelter Cove Community Church.	NOD	
2006032058	Railyards Specific Plan Sacramento, City of Sacramento--Sacramento The project would rehabilitate the existing Boiler Shop building and perform architectural modifications to restore the structure to a viable working condition. The building would also be upgraded to meet current building and seismic codes and regulations. Specific improvements proposed as part of the project include seismic hazard reduction renovation, weather and pest-proofing, environmental engineering services/surveys, renovation of interior building utilities, and installation of access compliant features.	NOD	
2008102101	I-5 North Stockton Corridor Improvements Caltrans #10 Stockton--San Joaquin NOTE: Notice of Availability In the Central to North Stockton area widening is proposed to the I-5 freeway on the inside median increasing the freeway geometry from 6 to 8 lanes between Country Club Boulevard and the proposed North Gateway Boulevard interchange. Inside widening would accommodate mixed flow lanes (Alternative 1) or HOV lanes (Alternative 2). If alternative 2 is selected the existing inside lane would be converted to and HOV lane between Charter Way and County Club Boulevard. Improvements to four interchanges are also proposed including Hammer Lane (existing), Otto Drive (proposed), Eight Mile Road (existing), and North Gateway Boulevard (proposed).	NOD	
2010024001	Marysville Ring Levee Yuba River Basin, California U.S. Army Corps of Engineers Marysville--Yuba This project will improve flood risk management through design modifications to address under- and through-seepage within the ring levee. The improvements would involve construction of cutoff walls, a stability berm, slope reshaping, a secant pile wall, and jet grouting. This work would be implemented between 2010 and 2013.	NOD

	modifying and upgrading the existing pumping platform and piles; modifying or adding to the existing pile structure to support the new fish screen system and components.		
2010048311	Fleur Du Lac Estates Harbor Maintenance Dredging (1600-2009-0137-R2) Fish & Game #2 --Placer Maintenance dredging and removal of approximately 501 cubic yards of accumulated sediments from within the harbor and associated entry and exit channel to the harbor. All appropriate sediment control measures, including ringing the harbor with a sediment curtain, will be employed. The dredging will take place using a barge mounted excavator. Sediments will be placed on a conveyor belt system which will deliver the sediments to sealed trucks from removal and offsite disposal.	NOE	
2010048312	Routine Maintenance Agreement (RMA) between the City of Roseville and the Department of Fish and Game Fish & Game #2 Roseville--Placer The project involves approval of a RMA between the Department of Fish and Game and the City of Roseville for maintenance of City owned structures, facilities and flood control conveyance capacities within City open space areas that are subject to Fish and Game jurisdiction.	NOE	
2010048313	Agreement 2010-0005-R4 - Michael McRee Pipeline Fish & Game #4 --Merced The Project consists of installing a new 15-inch diameter PVC pipe to transport water from the north side to the south side of Berenda Slough when the slough is dry and no water is present. A trench will be excavated across the slough to 360 feet in length, 3 feet in depth, and 2 feet wide. The trench will be backfilled and compacted with excavated, native material to a minimum of 24-inches over the pipe. Within the flow line of the slough, the trench will be filled with a minimum of 24-inches of concrete over the pipe. Only native grasses will be impacted. No other riparian vegetation will be removed or damaged.	NOE	
2010048314	Rehabilitation of Well 31 Public Health, Department of --Kern Naval Air Weapons Station - China Lake has rehabilitated the existing Well 31 water production well by providing a new pump/motor, enclosing tube, pump shaft, shaft coupling, and new trim. Depth of the well is approximately 1010 feet and is cased with 16-inch steel casing. Pump is a vertical turbine capable of producing approximately 800 gpm (reduced from existing 1350gpm). Existing sodium hypochlorite treatment will be injected at the wellhead.	NOE	
2010048315	Proposed In-Place Replacement of Glenn0Colusa Irrigation District's (GCID) Existing Davis Weir Diversion Structure on the Colusa Basin Drain Glenn-Colusa Irrigation District (GCID) --Colusa The proposed project consists of the replacement of the existing flashboard weir structure with an Obermeyer inflatable spillway gate weir. The Obermeyer weir consists of a series of steel panels supported by inflatable air bladders providing for adjustment of weir elevation. The existing concrete floor and end-walls will be reused, and a new concrete floor section will be constructed directly downstream	NOE

	complex surrounding a 5 story parking garage with 277 parking spaces. The existing BART parking lot and associated landscaping would be removed from the project site. The proposed project would be constructed in 4 phases. The parking structure would be constructed during Phase 1, and 3 four story residential buildings would be constructed during Phases 2 through 4. The parking structure would be ~111,100 sf and the 3 residential buildings would range from ~101,000 to 115,000 sf. The project is proposed as a Planned Unit Development (PUD), which requires a Preliminary Development Plan (PDP) for the entire project and, one or more Final Development Plan(s) (FDPs) and Final Design Reviews prior to implementation of each phase of development. The project will also need Design Review approval and conditional use permit for exceeding the maximum 0.5 parking space per residential unit in the S-15 District, as well as numerous non-discretionary approvals. Approvals or permits will also be required from other state and regional agencies and districts including but not limited to BART and the Regional Water Quality Control Board.

	authority of Chapter 6.5 of the California Health and Safety Code. The project involves remediation of contaminated soils and groundwater in accordance with the methods and procedures presented in the April 27, 2010 Draft RAP for the Former Standard Nickel Chrome Plating Site, incorporated herein by reference. The RAP addresses remediation of contaminated soils and groundwater at the Former Standard Nickel Chrome Plating Site.		
2010041100	Proposed 2010 Amendment to the Redevelopment Plan for the Parlier Redevelopment Project Parlier, City of Parlier--Fresno NOTE: Review Per Lead	Neg	06/02/2010
	The Agency is proposing the 2010 Amendment for the purpose of modifying certain existing fiscal and time limitations; specifically, the Plan limits affecting bonded indebtedness and collection of tax increments. The 2010 Amendment will enhance the Agency's long-term ability to implement its redevelopment goals and objectives in the Project Area, which are intended to remedy blight, promote economic development and infrastructure improvements, and provide additional affordable housing opportunities for eligible families and persons.		
2010041102	Project No. R2007-00800 / RENV 200900003 Los Angeles County Palmdale--Los Angeles The applicant, Antelope Valley Korean Presbyterian Church, is requesting approval to construct and operate a church facility in the A-2-2 (Heavy Agriculture-2 acre minimum lot size) zone. The proposed facility consists of a main worship hall (3,534 sf), a building with a multi-purpose room, classrooms and a kitchen (3,015 sf), a building for classrooms (1,440 sf), a recreational building (5,070 sf), a rectory residence (1,251 sf) and a caretaker's residence (1,251 sf). The total project site size is 102,333 sf. The development includes a gravel parking lot with 88 parking spaces (4 handicapped and 84 standard stalls). The parking lot will include 1,972 sf of landscaping, which covers about 6% of the entire project site. The remainder of the site will include 16,245 sf of landscaping, which covers about 15.9% of the entire project site. On the west end of the property the applicant proposes a 3'2" high wall separating 11th St. West and the parking lot. The site plan depicts two 26 ft wide driveways accessing the property from 11th St West. This project is subject to the County's adopted green building, drought tolerant landscaping and low impact development requirements. The primary access road, 11th St West require road improvements during this process, because this road segment is classified as a private street.	Neg	05/28/2010
2010041104	City of Parlier Storage Tank Parlier, City of Parlier--Fresno The proposed project consists of the construction of a storage tank at ground level and the installation of booster pumps to deliver the water, along the associated piping and controls. The proposed project is located in the City of Parlier Industrial Park that is divided into 15 parcels. The storage tank will be located on the western portion of Fresno County APN 358-390-53, adjacent to Well 9A, which occupies the easterly portion of the same parcel. Well 9A is surrounded by vacant parcels on the east, west and south parcels. The north parcel is occupied with a Custom Wood Products Company.	Neg	05/28/2010

2010041105	Venoco, Exploratory Oil Wells Prradre Ranch, Salinas Energy Corporation Monterey County --Monterey Initial Study to determine the potential impacts from the proposed exploration for the removal of oil and gas in an area mapped as Kit Fox habitat in a Permanent Grazing, (PG) and Heavy Industrial (HI) zoning district. Grant a grading permit to allow a total of 7,096 cy of grading, approximately 3,896 cy of cut and 3,200 cy of fill; including a 20 ft wide access road 65 ft long. The property is located at the North West corner Section 6 Township 23S and Range 11E Mount Diablo Meridian fronting Sargent Creek Road east of San Ardo oil fields in the South County Area Plan.	Neg	05/28/2010
2010042089	Blue Oaks Commerce Center / 2007PL-039 Roseville, City of Roseville--Placer The project includes several entitlements that would allow for future development of an undeveloped 49.4 acre site. The applicant requests approval of the following: 1) a Major Use Permit-Stage I for development of the 49.4 acres with 17 buildings totaling 575,505 sf, providing a mix of office, industrial and commercial uses, and grading, roadway, parking, landscaping and lighting improvements; and 2) a Tentative Map to subdivide 49.4 acres into 8 parcels. The project would include the grading and fill of 1.695 acres of seasonal wetlands regulated by the U.S. Army Corps of Engineers. The project also includes the removal of the Blue Oaks Boulevard to Industrial Avenue jughandle and the construction of two new public roadways to connect Blue Oaks Boulevard to Industrial Avenue and Washington Boulevard. Future construction on the site would require additional permits including, but not limited to; a Major Project Permit-Stage II and Stage III, 404 Permit, permits from Caltrans, and Building Permits.	Neg	05/28/2010
2010042090	Calaveras County Airport Land Use Compatibility Plan Calaveras County --Calaveras NOTE: Review Per Lead The Calaveras County Airport Land Use Compatibility Plan establishes policies by which the Calaveras County Airport Land Use Commission (ALUC) operates and conducts compatibility reviews of proposed land use and airport development actions. It also specifies the compatibility criteria and policies applicable to new noise-and risk-sensitive land uses proposed within the Calaveras County Airport and the land uses surrounding it to the extent that these areas have not already been devoted to incompatible uses. The project is regulatory in nature. No physical construction or land use changes would directly result from the adoption of the Compatibility Plan or from subsequent implementation of the land use policies it contains.	Neg	06/02/2010
2006012113	Reynolds Ranch Project Lodi, City of Lodi--San Joaquin The project consists of COSTCO Wholesale Building as well as associated gas pumps and parking on an approximately 15.35 acre lot located at 322 East Harney Lane. The COSTCO Wholesale Building warehouse measures 148,234sf and includes a gas station. COSTCO Wholesale business holds a Type 21 Off-Sale General ABC license. Type 21 ABC License authorizes the sale of beer, wine and distilled spirits for consumption off the license premise where sold.	NOD

2010048319	Bowman Right Turn Lane Placer County Auburn--Placer Construction of approximately 600sf of asphalt concrete pavement shoulder to provide for a right turn lane for west bound traffic on Auburn Ravine Road to turn onto north bound Bowman Road. This project is primarily located within the State Right of Way and will be constructed to meet Caltrans standards. Within the State Right of Way there will be asphalt removal, utility relocation, traffic signal relocation, earthwork, paving, and installation of new ac dike. Some minor signal box relocation and/or signal relocation maybe required dependent on final design. Caltrans currently maintains the signal timing for this intersection. The project is funded by the County of Place, Auburn Bowman Traffic Mitigation Fee Program.	NOE	
2010048320	Blue Canyon Airport Project - Resurface Runway and Parking Ramp Placer County --Placer The Project proposes to remove rock to improve sight distance and realign the existing dangerous horizontal alignment and super-elevation. The Project will also modify drainage and striping and provide additional signing to improve roadway safety.	NOE	
2010048321	Sheridan Safe Routes to School Project Placer County --Placer The proposed project will involve installing multipurpose path and curb ramps within the town of Sheridan to provide a traveling surface separated from auto traffic for school children to travel to school and increase safety while maneuvering about the school perimeter. The project includes minimal grading within the existing right of way, existing ditch drainage improvements, asphalt paving, signing and striping.	NOE	
2010048322	Sanitary Sewer Rehabilitation: Priority 1 Projects Sausalito, City of Sausalito--Marin The City of Sausalito proposes to rehabilitate sanitary sewer facilities at two locations. Site 1a includes: -Three geotechnical borings, -Repair of approximately 2,300 linear feet of existing 8-inch sewer pipes by lining with new 4-inch pipe using launch pits and pilling through the existing line, and -Replacement of approximately 800 linear feet of sewer laterals with new 6-inch lines and pump stations using open trenches. Site 1b includes -Two geotechnical borings -Rehabilitation of the Anchor Pump Station, -Replacement of 1,120 linear feet of existing pipe, by a combination of open trenching and pulling new line through existing, and -Installation of a new grease interceptor. Work will occur largely within existing trenches. Any water removed during excavation will be discharged to the sanitary sewer. Best Management Practices will be employed during construction to minimize dust and disturbance. The street will remain open with traffic controls during construction.	NOE

	acre marina.		
2010048329	Place 267 Slope Stabilization/Drainage Rehabilitation Project SAA#1600-2010-0012-R2 Fish & Game #2 --Placer Middle Martis Creek is adjacent to the project area, and it drains into the Truckee River; however, no work will be conducted in the creek. There are 22 culvert systems that will be rehabilitated by this project; however, only four of these systems have jurisdiction features. Impacts to wetlands and Other Waters at one of these four locations (PM 5.83, Station 307+47.72) will be completely avoided by the use of ESA fencing. Two of the others will be lined (PM 5.43, Station 286+54.91, and PM 5.49, Station 289+34.47) and one will be replaced (PM 5.96, Station 312+30.42). There is also an above-ground flume that will be replaced; (PM 6.27, approximate Station 329.50) however, there will be no impacts to waterways from this construction activity since no excavation will be required.	NOE	
2010048330	Interpretive Shelter Installation (Replacement) Parks and Recreation, Department of --Santa Barbara This project will remove and replace two aged interpretive structures with like structures. The placement of the structures will be in a location that meets ADA requirements and is readily accessible to all visitors. Monitoring of all work by a State Archaeological Project Leader will occur to ensure that historical and archaeological resources are protected.	NOE	
2010048331	Rule 350 (Greenhouse Gas Program Fees) Sacramento Metropolitan Air Quality Management District --Sacramento Rule 350 establishes fees to recover all District costs to implement the Greenhouse Gas emission reduction credit banking program. The fees will pay for staff's time used to process and review plans, verify proposed projects, issue carbon credits, monitor carbon credit transactions, and maintain an updated carbon credit registry.	NOE	
2010048332	Lease of Existing Office Space Rehabilitation, Department of Novato--Marin The California Department of Rehabilitation proposes to lease approximately 2,979sf of existing office space. The space would house approximately 10 staff. Approximately 10 parking spaces would be used. Approximately 25-100 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to retrain for work so they can re-enter the job market. Public transit is available within 1/4 mile of the site.	NOE	
2010048333	Lease renewal for # 125990 - SCDD Midtown Social Services, Department of Sacramento--Sacramento Office renovations are planned for this site. This office currently has 21 employees.	NOE

	strung along the existing 500-kV Eldorado-Lugo transmission line for approximately 25 miles before it would be installed in a new underground duct for approximately 5 miles along the northern edge of Nipton Road to a new microwave tower outside Nipton, California. The EITP would be located in Clark County, Nevada and San Bernardino County, California near Primm, Nevada.		
2009091099	2011 Kings County Regional Transportation Plan EIR Kings County --Kings California Government Code section 65080 et seq. and Title 23 United States Code (USC) section 134 require Regional Transportation Planning Agencies (RTPA) and Metropolitan Planning Organizations (MPO) to prepare long-range transportation plans to: 1) establish regional goals, 2) identify present and future needs, deficiencies and constraints, 3) analyze potential solution, 4) estimate available funding, and 5) propose investments. State Statutes require that the RTP serve as the foundation for the short-range transportation planning documents: the Regional and Federal Transportation Improvement Programs (RTIP and FTIP). The 2011 Kings County RTP is the long-range planning, policy, action, and financial document for the Kings County Region. The plan would cover a 25 year period from 2010 and 2035. The RTP identifies the region's transportation needs and issues and sets forth actions, programs, and projects to address those needs and issues. In addition, the RTP adopts policies, sets goals, and identifies financial resources to encourage and promote the safe and efficient management, operation, and development of a regional intermodal transportation system that would serve the mobility needs of goods and people.	EIR	06/14/2010
2010012008	StanCOG 2011 Regional Transportation Plan Stanislaus Council of Governments Modesto--Stanislaus The StanCOG 2011 Regional Transportation Plan (RTP) establishes regional transportation policy for Stanislaus County. The overall focus for the RTP is directed at achieving a coordinated and balanced multimodal transportation system, while maintaining the integrity of the existing system. A list of projects is included in the RTP that addresses all forms or modes of transportation, including automobiles, transit, non-motorized (including bicycle), passenger rail, freight and aviation facilities. Road projects in the RTP include intersection and interchange improvements, road widening, new roadways, bridge replacement and retrofitting, and installation of traffic signals among other roadway projects. The RTP reflects a fiscally constrained environment and identifies those projects (considered as Tier 1 projects) that have a secure or approved funding source. The 2011 update emphasizes a regional approach to RTP issues and make recommendations relative to the integration of land use and transportation, commodity flows, and adequately address environmental and quality of life issues.	EIR	06/14/2010
2008051096	Marina Park Newport Beach, City of Newport Beach--Orange The proposed project includes three phases. In Phase 1 the mobile home park would be demolished and converted to open space with coastal access improvements. Phase 2 would convert the open space to turf. Phase 3 would consist of the construction of a Multi-Purpose Building at the Balboa Center Complex (0.23 acres), a Sailing Program Building at the Balboa Center cComplex (0.25 acres), a new Girl Scout House (0.16 acres), parking areas (1.47 acres),	FIN

2010041108	<p>park (4.89 acres) with tennis and basketball courts, beach (1.75 acres), and marina basin (1.67 acres). The public park would provide for passive and active areas. The passive areas include an open lawn area and a water feature. The active areas include a children's play area, tennis courts, and basketball courts. The public short-term visiting vessel marina would accommodate visiting vessels for up to 30 days. Utility hook-ups are proposed to be available for the marina. Bathrooms and laundry areas are proposed adjacent to the marina. The Balboa Center Complex would include rooms for educational classes, sailing classes, and community events, and would have a cafe situated on the second story. The existing bathroom on the public beach adjacent to 19th Street would be reconstructed.</p> <p>Wightman Street Neighborhood Park San Diego, City of --San Diego Reference SCH# 2008109026</p>	MND	06/01/2010
2010041110	<p>Mayoral Approval for the design and development of the Wightman Street Neighborhood Park on a 0.9 acre parkland located in the Mid City-City Heights area, proposing park amenities such as children's play area with playground equipment, basketball courts, picnic furniture and shade structure, trails and exercise stations and landscapes. In addition, this project will also include improvements to Auburn Creek for the portion located on site in compliance with the City's Chollas Creek Enhancement Program adopted in 2002 enhancing it to a more natural riparian condition, featuring it as a educational and recreational amenity for the public, and improving drainage flow in the creek channel. The proposed project site is located at 5024-5050 Wightman Street, east of 50th Street and south of University Avenue within the City Heights Neighborhood of the Mid-City Communities Planning Area. Applicant: City of San Diego, Engineering and Capital Projects Department.</p> <p>ENV-2009-2204-MND-REC2-3553 E. Beswick Street Los Angeles, City of --Los Angeles</p> <p>Construction of a new four-building residential complex totaling approximately 22,000sf and consisting of three two-story buildings and one three-story building, containing a total of 33 apartment units and providing a total of 24 parking spaces, on an approximately 36,659sf parcel. The existing church building and associated surface parking lot will be demolished and removed; the existing unmanned wireless telecommunications facility will remain. As proposed, a Zoning Administrators Adjustment to permit a reduced five-foot front yard setback from Beswick Street in lieu of 15-feet, and a Zoning Administrators Determination to permit an approximately six-foot in height fence within the required yards along Beswick and Esperanza Streets is required. In addition, a General Plan Amendment to the Boyle Heights Community Plan from the Low Medium 1 land use designation to Low Medium II and a concurrent Zone Change from R2-1 to RD1.5-1 is requested for all the properties bounded by the Interstate 5 freeway on the northeast, Esperanza Street on the southeast, Beswick Street on the southwest, and Spence Street on the northwest. In consideration of restricting 32 of the units for low and very low income senior residents, the following Density Bonus incentives are requested: 1) a 35% density bonus; 2) one-half parking space per unit; 3) a reduced 12-foot side yard setback along Esperanza Street and a five-foot northerly side yard setback, in lieu of the 15-feet otherwise required.</p>	MND	06/01/2010

	<p>projects in future stages of the planning process that include more detailed design will be included under the scope of this Master Plan and its associated environmental analysis. The proposed project would include the following primary features:</p> <ul style="list-style-type: none"> - New signalized intersection at Elk Grove-Florin Road just south of Sheldon Road - Installation of frontage improvements (curb and sidewalk), and addition of third through-traffic lane and bicycle lane along southbound Elk Grove-Florin Road beginning at the northern limits of the project area and ending at Camden Road. From a point approximately 100 feet south of where Elk Grove-Florin Road crosses the UPRR tracks, the new southbound sidewalk, bike lane, and traffic lane will connect with an existing widened portion of Elk Grove-Florin Road south to Camden Road. -800 feet long Passenger platform -Passenger loading zones -Approximately 110 Designated parking areas; -Pedestrian/bicycle trail; -Bicycle lockers; -Bridge over Whitehouse Creek; -Landscaping; -Water detention basin; and -An area for a future 1,500sf building at the platform. 		
2009032097	<p>Natomas Levee Improvement Program, Phase 4a Landside Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento, Sutter</p> <p>The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2010-0009-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sacramento Area Flood Control Agency (SAFCA).</p> <p>The proposed project would involve improvements to the existing pump. In order to accommodate existing flow rates over the raised levee profile of the NCC south levee (the levee was raised and a seepage cutoff wall was installed in the levee as part of Phase 2 of the Landside Improvements Project) the existing pump motor and pump column (including the impeller) would need to be upgraded. The pump would be removed from the support structure and transported to a factory to perform the upgrades. Removal of the pump would be facilitated by a crane staged on the access road. The existing support structure is also in need of repair. The existing structure would be proposed to be dismantled and a new structure (including a new platform) would be constructed.</p>	NOD	
2009051036	<p>Sunset Ridge Park Newport Beach, City of Newport Beach--Orange</p> <p>An agreement between the City of Newport Beach and Newport Banning Ranch, LLC, to provide access to the Sunset Ridge Park property from West Coast Highway, at a point approximately 1,000 west of the Intersection of West Coast Highway and Superior Avenue. The Sunset Ridge Park property is located at the northwest corner of West Coast Highway and Superior Avenue. The site is vacant and would be constructed as a City park with active and passive recreational uses and a park access road. The project includes a grant of easement to construct, grade, improve and maintain an access road, sidewalks, curbs, landscaping, irrigation systems, utilities, storm water drainage and erosion control facilities improvements; off-site widening of West Coast Highway; stockpiling of export dirt</p>	NOD

	associated with grading activities; and habitat mitigation area to mitigate any biological impacts attributable to the access road improvements on the Newport Banning Ranch property. The City of Newport Beach approved and certified the EIR for the Sunset Ridge Park project on March 23, 2010. The activities contemplated by the Access Agreement and supporting documents were studied in the EIR prepared for the Sunset Ridge Park project.		
2009051036	Sunset Ridge Park Newport Beach, City of Newport Beach--Orange The site is vacant. Zoning Designations: City of Newport Beach Open Space Active (OS-A) (13.7 acres); County of Orange Zoning Designation Local Business with an Oil Production Overlay (C1(O)) (5.2 acres) The approximate 18.9 acre site would be constructed as a City park with active and passive recreational uses and a park access road; the road would be constructed through the contiguous private property (Newport Banning Ranch) to the west. No nighttime lighting other than for public safety. The park would include 1 youth baseball field, 2 youth soccer fields, playground/picnic area, overlook area with shade structure, memorial/butterfly garden, pedestrian pathways, bike racks, restroom facilities; parking lot with 75 spaces and 22 spaces along the park access road. Off-site widening of and signalization on West Coast Highway which requires Caltrans approval. Use of the Newport Banning Ranch property to stockpile export dirt associated with grading activities.	NOD	
2009091129	Adelanto Towne Center Adelanto, City of Adelanto--San Bernardino The proposed project consists of a regional shopping center with approximately 280,000sf of retail building space and associated site improvements on an approximately 35.31-acre site. The shopping center would include a Target Department Store (approximately 138,478sf) and other major retailers ranging from 7,000 to 25,000sf each. In addition, there would be three shops, with two proposed to be food establishments, and one proposed to be a retail establishment. These shops range from 7,000 to 10,500sf. The proposed project would also include the development of six free-standing commercial pads ranging from 3,250 to 4,500sf. The conceptual site layout arranges the major attached retail buildings parallel to US-395, with the retail pads are scattered around the remaining perimeter of the site mainly closer to US-395. Site access is from with two points off US-395 and two access points off Mojave Drive.	NOD	
2010049021	El Dorado Irrigation District - U.S. Forest Service Land Exchange El Dorado Irrigation District --Amador, Alpine, El Dorado The project consists of exchanging seven federal land parcels currently owned by U.S. Forest Service with seven parcels owned by EID. All current federal parcels are located within El Dorado County and the Eldorado National Forest. The current non-federal EID parcels are located within El Dorado, Amador, and Alpine Counties above 7000 feet in elevation along the Highway 88 corridor.	NOD

2010048340	<p>Seminole Springs Mobile Home Park, Los Angeles County, Maintenance Fish & Game #5 --Los Angeles</p> <p>The Applicant proposes to alter the streambed to remove up to 0.75 acres of emergent vegetation (tules and cattails) to provide for more open water habitat on this 3.3-acre lake. The Applicant proposes to control tules and cattails with approved aquatic herbicides and remove dead plant material with hand tools and hand-operated power tools. Applicant shall cut no more than 0.75 acres of vegetation per year. Applicant shall consult with the Department to identify additional long-term maintenance measures at the lake, including dredging accumulated sediments to reduce shallow water habitats.</p> <p>West Bank-Applicant shall maintain a minimum 2-foot wide patch of cattails along the entire length of the west bank. Applicant may remove a patch of cattails up to 15 feet wide along the west bank of the lake.</p> <p>Southeast Bank-Applicant may remove a patch of mixed cattails and tules up to 10 feet wide along the southeast bank of the lake. Applicant shall clear only the area of tules necessary to pass storm flows from the southeast tributary to the lake. Applicant agrees to avoid all work in the southeast tributary of the lake and the southern margin of the lake. This area shall be allowed to remain as an emergent marsh as mitigation for the loss of habitat in other portions of the lake. This area shall be allowed to remain as an emergent marsh as mitigation for the loss of habitat in other portions of the lake. Additionally, the Applicant agrees to remove non-native species from the lake perimeter (focusing on palms and arundo) along the drainage adjacent to Simes Road.</p>	NOE	
2010048341	<p>Sunbird Mobile Home Park - Water System Consolidation Design Coachella Valley Water District --Riverside</p> <p>The Coachella Valley Water District (CVWD) proposes a design project to connect the Sunbird Mobile Home Park water system to CVWD's Thermal Public Water System (3310068) in the community of Thermal, Riverside County. This water system is about 45 years old and consists of: one 400-foot-deep, 6-inch-diameter, groundwater well; one 3,000-gallon pressurized storage tank; one 5,000-gallon storage tank; six 10,000-gallon storage tanks and PVC distribution piping. Currently, the groundwater quality exceeds the maximum contaminant level for arsenic and treatment is not provided. California Department of Public Health has issued a compliance order for the Sunbird Mobile Home Park water system. This design project includes approximately 1,200 feet of a future 12-inch ductile iron pipeline in Echol Road that will connect to an existing CVWD 30-inch transmission main in Harrison Street; the need for an easement will be determined in this design project. In addition to the 12-inch pipeline, the design plans and specifications will include three 2-inch water meters with detector check valves and one six-inch fire hydrant assembly. This project is for design only and does not include any new facilities, modifications, or replacements to the existing wells and does not include any changes to existing storage tanks. This design project only includes the preparation of plans and specifications for a potential connection to the Thermal Public Water System described in the attached California Department of Public Health safe drinking water state revolving fund worksheet.</p>	NOE
