

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

April 16 – 30, 2014

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16 – 30, 2014**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse

<u>Documents Received on Wednesday, April 16, 2014</u>			
2014042056	Vesting Tentative Parcel Map Application No. PLN2014-0026 - ARG Investments Stanislaus County Modesto--Stanislaus Request to subdivide a 3.93 acre parcel into six parcels ranging in size from 20,087 to 36,877 sf. The site currently contain six buildings ranging in size from 4,875 to 12,000 sf and consists of mostly warehousing. The majority of the proposed parcels will be accessed by way of a 30 foot private road easement.	CON	05/05/2014
2011011027	General Plan Amendment No. GPA 09-003/Zone Change No. PZ 09-004 and Use Permit No. PSP 10-062 for Pena's Material Recovery Facility & Transfer Station Tulare County --Tulare The proposed Project includes a General Plan Amendment (No. GPA 09-003) and Change of Zone (No. PZ 09-004). GPA 09-003 will amend the Cutler-Orosi Area Land Use Plan, a component of the Tulare County Land Use Element of the General Plan, to change the land use designation of a 6.77-acre portion of an 18 acre site from "Residential Reserve" to "Industrial" and of 11.3 acres of the same site from "Industrial Reserve" to "Industrial." PZ 09-004 is a request to change from the AE-20 (Exclusive Agricultural-20 acre minimum) to the M-1 (Light Industrial) Zone on the same 18 acres. The proposed zone change would allow, as noted in the zoning code, "transfer facilities limited to assemblage and temporary storage of glass, metal and plastic beverage containers collected at recycling collection centers for transport to other sites for recycling, processing, manufacture or treatment." Expansion of the solid waste facility would require a special use permit, as would any use that could potentially be obnoxious or offensive by reason of emission of odor, dust, smoke, gas, noise, or similar causes.	EIR	05/30/2014
2012111039	San Joaquin Corridor Program DEIR Caltrans #7 --Sacramento, San Joaquin, San Francisco, Los Angeles, Merced, ... Note: Project withdrawn per lead. The Program proposes to increase the number of passenger train operations within the San Joaquin Corridor from 12 to 22 trains per day; increase Amtrak train speed from 79 miles per hour to 90 mph; and install the requisite track infrastructure to support these operations. The objective is to provide adequate public transportation over this corridor to meet a forecast increase in passengers from 1.2 million per year to 3.2 million per year in 2035.	EIR	
2014044002	Tylerhorse Wind Project Bureau of Land Management --Kern Note: Review per lead Heartland Wind, LLC, a wholly owned subsidiary of Iberdrola Renewables, LLC, is proposing to develop an 1,207-acre wind energy project in Kern County, CA on lands administered by the U.S. Bureau of Land Management (BLM). The Proposed Action would consist of 40 wind turbine generators designed to produce up to 60 megawatts of energy. The substation, switchyard, operations and maintenance facility, and construction lay down areas would be located on the	EIS	07/17/2014

<u>Documents Received on Wednesday, April 16, 2014</u>			
	adjacent Manzana Wind Energy Project or Pacific Wind Energy Project site. The Proposed Action would result in approximately 195 acres of ground disturbance. The Proposed Action would also involve an amendment to the BLM CA Desert Conservation Area Plan (CDCA Plan) to identify the Project site suitable for wind energy development.		
2013031079	Pearblossom Solar Project Water Resources, Department of --Los Angeles Note: 1 Hard Copy	FIN	
	The proposed project is located at the Pearblossom Pumping Plant operated by DWR. DWR proposes to develop approximately 70 acres within the PBPP site with PV solar panel technology. It is anticipated that approximately 10 megawatt (MW) of energy would be generated by the proposed project. The energy will be transmitted to the CAISO via a SCE 230 kilovolt radial distribution line or alternatively the energy may be used directly by the SWP to offset load. Through the proposed project, DWR would implement a renewable energy project, thereby reducing greenhouse gas emissions and implementing DWR's Climate Action Plan. The proposed project would include the installation of photovoltaic panels, Direct Current (DC) to Alternating Current (AC) inverters, mounting systems, a substation including step-up transformer, breakers, electrical protection equipment, and metering equipment.		
2014042054	Santa Cruz 17 Sediment Control Caltrans #5 Santa Cruz--Santa Cruz Caltrans proposes to stabilize the existing cut slopes on SR 17 by constructing an Anchored Wire Mesh system from the toe of the slope to about 10-feet beyond the top of the slope. Rock Slope Protection will be placed in locations between the Anchored Wire Mesh sections. The existing concrete valley gutters along the top of the bench will be removed and replaced using filter-fabric-lined ditches with permeable native materials and perforated underdrain pipes known as Slope Interceptor Drains. High Density Polyethylene downdrains and drain inlets will be constructed to connect the perforated pipe down to the existing and proposed drainage system along the highway.	MND	05/15/2014
2014042055	Magical Bridge Playground Project Palo Alto, City of Palo Alto--Santa Clara The City of Palo Alto in collaboration with the community based non-profit group The Friends of the Magical Bridge have formed a partnership to design and build a playground fully inclusive of all user groups in the community. This would be the first such playground in the Nation. The playground is proposed in an underutilized area of Mitchell Park and is approximately 0.8 acres in size. The proposed playground design is composed of seven play zones, with each zone focusing on a specific type of play. Access to the site is provided by the Charleston access pathway, a major bike path, which parallels the existing tennis courts and crosses over Adobe Creek via an existing bridge. As part of the proposed project, the existing bridge would be removed and replaced with an ADA-compliant structure.	MND	05/15/2014

2014041066	MGA Mixed-Use Campus Project Los Angeles, City of Los Angeles, City of--Los Angeles MGA Entertainment, Inc. proposes an integrated light industrial, corporate office and residential mixed-use campus development project (Campus Project) at 20000 W. Prairie Street in the Chatsworth community of the City of Los Angeles (Project Site). The Campus Project will consist of a mix of uses totaling approximately 1.22 million sf, including: (1) adaptive re-use and rehabilitation of the former LA Times printing facility (255,855 sf) for MGA light industrial uses and its corporate headquarters, as well as ancillary creative office space; (2) 700 rental housing units in four main residential buildings (i.e., Buildings A-D); (3) shared recreational campus amenities located throughout the Site; and (4) approximately 14,000 sf of campus and neighborhood serving retail and restaurant uses.	NOP	05/15/2014
2002071114	Palm Springs International Airport - Airport Master Plan Update Palm Springs, City of Palm Springs--Riverside The City of Palm Springs has proposed a Master Plan Update of the Palm Springs International Airport. The overall project will consist of the Runway Safety Area, and Runway Object Free Area improvements; expansion of the baggage of the baggage claim areas in the main terminal; reconfiguration of the airport entrance at East Baristo Rd.; and the expansion and relocation of rental car facilities.	Neg	05/15/2014
2014041062	Vineland Avenue Widening Project Kerman, City of Kerman--Fresno The proposed project consists of the widening of Vineland Avenue, from Kearney Boulevard to 700 feet north, to the ultimate width for a City of Kerman standard collector street (84 foot right-of-way; 64 feet from curb to curb). The widening will consist of the construction of an 8 foot parking lane and 5 foot bike lane in each direction. The proposed project will also include the construction of concrete curb & gutter, concrete sidewalk, and concrete improvements at the intersection of Vineland Avenue and Kearney Boulevard. Storm drain facilities will be installed to serve the widened roadway. Right of way acquisition will be required from the property along the west side of Vineland Avenue within the project limits.	Neg	05/15/2014
2014042057	Delleker Materials Recovery Facility Special Use (Site Development) Permit U 11-09/10-02 Plumas County --Plumas Construction of a large metal building and appurtenances that will be operated as a Materials Recovery Facility (MRF). The MRF is proposed to process recyclable materials, in conjunction with an existing 10,000 sf building for baling and for storage of recovered material. This building is the current location of the Delleker Recycling Center. Another parcel is proposed to be used as an Outdoor Processing area for processing and storage of mixed construction and demolition debris, inert materials, green waste, wood waste, and metals. Proposed operations would include constructing and operating a biomass gasification unit.	Neg	05/15/2014

1998082050	City of Lathrop Water, Wastewater, Recycled Water Master Plan EIR Lathrop, City of Lathrop--San Joaquin The City proposes to upgrade existing processes at the Crossroads WWTP to improve nitrogen removal and re-rate the WWTP to a portion of the original capacity, as well as change its treated effluent disposal method from land application through irrigation to rapid infiltration using percolation ponds. These changes would increase disposal capacity to meet existing and anticipated demands as well improve groundwater quality. The following findings are based on an Addendum to the previously-certified Utility Master Plan EIR.	NOD	
2003021052	2013 Regional Water Facilities Optimization and Master Plan Update and Climate Action Plan San Diego County Water Authority --San Diego The 2013 Regional Water Facilities Optimization and Master Plan Update functions as a roadmap for implementing capital improvement projects needed to assure delivery system reliability and serve projected water demands in the San Diego region. This document updates 2003 Master Plan, focusing on the project modifications needed before 2035. These proposed project modifications include the P3/P4 Conversion Project, System Isolation Valves, System Regulatory Storage, the San Vicente 3rd Pump Drive and Power Supply and Asset Management Program. The Climate Action Plan identifies the Water Authority's current emissions, projected future emissions, emission reduction goals, and Energy Conservation Opportunities, and was prepared to serve as a qualified greenhouse gas reduction plan under CEQA Guidelines Section 15183.5.	NOD	
2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento The 962-acre Mangini Project (Project) consists of constructing a residential development within the boundaries of the Folsom Area Specific Plan. The development will consist of 3,760 residential units and 227 commercial office units, 3 parks, 3 school facilities, and various connector roads.	NOD	
2009011030	Addressa Landing Apartments, (General Plan Amendment, Zone Change & Development Plan) Murrieta, City of Murrieta--Riverside CDFW is executing a Lake or Streambed Alteration Agreement (SAA #1600-2013-0129-R6 [Revision 1]) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: Pacific Landing, LP, represented by Mr. Stanley D. Cohen, 1025 Kane Concourse, Suite 215, City of Bay Harbor Islands, State of Florida, 33154, Fax (305) 867-2246. The Pacific Landing Apartment Project is limited to the construction of approximately 325 dwelling units, associated parking, and recreational amenities within the 37.68-acre parcel.	NOD	
2013031079	Pearblossom Solar Project Water Resources, Department of --Los Angeles 10 Megawatt photovoltaic solar panel array and supporting facilities on approximately 70 acres at the existing Southern field Division Headquarters, Pearblossom Pumping Plant, near the community of Pearblossom.	NOD

2014048145	<p>July 4, 2014 "Big Bay Boom" Fireworks Show Funding/Sponsorship Agreement San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is the 2014 July 4th Big Bay Boom Fireworks Show, which will take place in North San Diego Bay on July 4, 2014. The District will provide event sponsorship and financial assistance for the event, a free outdoor fireworks display that will last for approximately 18 minutes, and will enter into a sponsorship agreement with the event organizer. The event does not require construction of any on-land support facilities. The event will require the placement of four barges (moved by tug boats) in the San Diego Bay near Seaport Village, the Embarcadero, Harbor Island, and Shelter Island. The barges will be removed immediately after the fireworks display. Approximately 16 volunteer safety patrol boats will be used to ensure that private boats stay a safe distance from the four barges.</p>	NOE	
2014048146	<p>Agreement with City of San Diego for Trash and Recycling Bins San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is an agreement with the City of San Diego to accept, operate, and maintain 22 solar-powered trash and recycling compactor receptacle bins for use in District Bayfront Parks within the City of San Diego. Two locations have been selected for the installation of the 22 units, including sites along the Embarcadero and on Shelter Island. The bins will be bolted onto existing or new concrete pads. The bins will be completely closed, which will eliminate litter and foul odors and prevents birds, rodents and pest from getting into the bins.</p>	NOE

2014048151	Hexavalent Chromium Regulations DPH-11-005 Public Health, Department of -- A drinking water standard specific to hexavalent chromium does not exist at the national or state level. Section 116365.5 of the Health and Safety Code mandates that the California Department of Public Health establish a primary drinking water standard for hexavalent chromium. The subject regulations serve two purposes as a result of legislative enactments. First is to adopt a maximum contaminant level for hexavalent chromium in drinking water, and Second, revise and augment existing regulations in a manner consistent with section 116450 of the Californi Safe Drinking Water Act.	NOE	
2014048152	Alhecama Theatre Rehabilitation and Seismic Retrofit Parks and Recreation, Department of --Santa Barbara The proposed scope of work includes tasks designed to restore the original auditorium of the Alhecama Theatre located at 215A Canon Perdido Street within El Presidio de Santa Barbara State Historic Park. The Alhecama Theatre is one of several buildings developed as a campus for the Santa Barbara School of the Arts in the 1920s. The complex of buildings includes studios, offices, restaurants, and the Presidio Research Center.	NOE	
2014048153	Quemetco, Inc. Request for Approval of Temporary Authorization for Installation of a Centrifugal Dryer Toxic Substances Control, Department of Industry--Los Angeles Approval of a Temporary Authorization by the Department of Toxic Substance Control (DTSC) pursuant to California Code of Regulations (CCR) Section 66270.42 (e)(3) that authorizes the installation and operation of a Gala Centrifugal Pellet Dryer Model 5048 (Dryer) to be located at the Battery Wrecker Unit within the Quemetco Facility (Facility). The addition of the Dryer is deemed necessary to allow the operator of the Facility to remove moisture from crushed plastic battery casings prior to transfer of the plastic to trailer trucks for off-site shipment. The Temporary Authorization shall have a term of not more than 180 days.	NOE	
2014048154	Temproary Out-of-District Water Transfer for License 11118 (Application 14804) South Sutter Water District --Kern, Los Angeles, Kings, Orange, Riverside, San Bernardino, ... South Sutter Water District ("SSWD") proposes a temporary transfer of a limited quantity of its water supplies in 2014 to certain participating State Water Contractors (the "Project") Water will be made available for transfer by SSWD's re-operation of Camp Far West Reservoir. Such re-operation will result in additional water being available in the Sacramento-San Joaquin River Delta for conveyance through the State Water Project to the State Water Contractors. SSWD will seek approval from the State Water Resources Control Board of an urgent petition for temporary change to License 11118 to authorize the proposed water transfer. SSWD also will seek approval of the proposed water tranfer from the California Department of Water Resources.	NOE

2014048155	Pacific Beach Middle and Pacific Beach Elementary School Marquee Signs San Diego Unified School District San Diego--San Diego Both the Pacific Beach Middle School and Pacific Beach Elementary Marquee Signs would be a 5 foot by 9 foot LED sign that would be pole mounted on the District property. The signs would be mounted on two poles with and would be a maximum of 7 foot 11 inches in height. The signs would be used for school related messaging and would be internally illuminated.	NOE	
2014048156	Crown Point Elementary School Marquee Sign San Diego Unified School District San Diego--San Diego The Crown Point Elementary School Marquee Sign would be a 5 foot by 12 foot LED sign that would be pole mounted on the wall of the near corner of Pacific Beach Drive and Ingraham Street. The sign would replace the existing wall mounted sign. The sign would be used for school related messaging and would be internally illuminated.	NOE	
2014048157	Holmes Elementary School Marquee Sign San Diego Unified School District San Diego--San Diego The Holmes Elementary School Marquee Sign involves mounting a 6 foot by 10 foot LED marquee sign to the wall of an existing building at the Holmes Elementary School. The sign would be located on the exterior western wall of the administration building, facing Mt. Ararat Drive, near the main entry to the school. The sign would be used for school related messaging and would be internally illuminated.	NOE	
2014048158	Ocean Beach Elementary School Marquee Sign San Diego Unified School District San Diego--San Diego The Ocean Beach Elementary School Marquee Sign would be 5 foot by 9 foot LED sign that would be pole mounted on the District property at the corner of Sunset Cliffs Boulevard and Santa Monica Avenue. The sign would be mounted on two poles within school property. The sign would be used for school related messaging and would be internally illuminated. The proposed sign would be approximately the same height and size as the existing sign that would be removed.	NOE	
2014048159	Camp Bountiful Fuel Reduction Forestry and Fire Protection, Department of --Nevada The proposed project involves utilizing CalFire hand crews to remove understory fuels around the complex to provide a reduced fuel loading which in turn will improve the camp attendees survival in the event of a wildfire while reducing the possibility of an ignition within the camp from spreading into the wildland. The crews will remove the fuel ladder by cutting underbrush, pruning trees up eight to ten feet where practical. The material will be cut and piled in a location where the landowner has been burning their excess vegetation for over a decade.	NOE

2013091039	Seville Solar Farm Complex Imperial County --Imperial Note: Review per lead 50 Days The Project would consist of the construction, operation and reclamation of up to five solar energy projects, including a new access road from SR 78, internal access roads, an IID electrical switch station, electrical substations for each of the five projects, and internal solar development transmission lines to the substations and IID switch station. The Project would also include the construction for, and operation by, the IID of new 92 kV transmission line for Inter connection to the existing IID Anza Substation. Two new wells are also proposed as part of the Project. In addition, a major subdivision/tract map is also proposed which would reconfigure the seven existing property parcels (APN: 018-010-025, 018-170-004 thru -013) into eight new individual lots and four common development interest lots.	EIR	06/06/2014
2002084001	Cloverdale Rancheria of Pomo Indians Fee-to-Trust and Resort Casino Project Bureau of Indian Affairs Cloverdale--Sonoma Note: Review Per Lead The Proposed Action consists of the placement of 6 parcels of land totaling 64.5 acres into federal trust for the Tribe and the subsequent development of a casino, hotel, convention center, entertainment center, tribal government building, and other ancillary facilities. The project site is primarily located within the unincorporated area of Sonoma County, with a small portion located within the City of Cloverdale city limits. Approximately 3,400 parking spaces for patrons and employees will be available through garage and surface parking.	FIN	05/19/2014
2014044003	Stonybrook Creek Fish Passage Improvement Project Natural Resources Conservation Service --Alameda Note: Reference SCH# 2014022021 This proposed project consists of two culvert improvements that cross Stonybrook Creek along the County of Alameda maintained Palomares Road at Mile Posts 8.60 and 8.75. It has been determined that both culverts are barriers to all lifestages of anadromous fish, including federally listed Distinct Population Segment (DPS) Central Coastal California steelhead trout (<i>Oncorhynchus mykiss</i>). The primary concerns that led the sponsor, the Alameda County Resource Conservation District, to proposed the Stonybrook Creek project are: a) presence of barriers to migration of anadromous Central Coast California steelhead and resident rainbow trout to identified spawning and rearing habitat in Stonybrook canyon and b) a concern for damage to public infrastructure and private property due to undersized crossings.	JD	05/16/2014
2002042111	Mountain Air Sports Rafting Permit (PRFT 20140022) Placer County --Placer The project proposes renewal of their existing conditional use permit - Rafting Permit in order to continue operation of the commercial river raft rentals along the Truckee River for a term of three years. 2002042137	Truckee River Rafting Permit (PRFT 20140021) Placer County --Placer The project proposes renewal of their existing conditional use permit - Rafting Permit in order to continue operation of the commercial river raft rentals along the Truckee River for a term of three years.	MND	05/16/2014
2014041067	Wastewater Treatment Plant Headworks and Clarifier Upgrade Project Palm Springs, City of Palm Springs--Riverside The proposed project includes constructing several new replacement facilities at the existing Palm Springs Wastewater Treatment Plant. These facilities include: influent sewer, headworks, septage, receiving station, influent pump station, primary clarifiers, scum pump station, primary sludge pump station, primary sludge de-gritting, gravity thickener cover, Digester No. 2 cover, foul air treatment facility, and new electrical building. A lighting system, consistent with existing facilities, would be designed to minimize off-site impacts, including to the neighboring park and residential land uses.	MND	05/16/2014
2014042058	S76-0209-R-2/Rescue Church of Christ El Dorado County --El Dorado Special use permit revision to allow the construction of two 402 sf additions for classrooms, a 740 sf deck, and 75 new parking spaces and related landscaping and lighting.	MND	05/16/2014
2014042059	Avila Ranch Rezone and Subdivision Petaluma, City of Petaluma--Sonoma The proposed Avila Ranch project consists of a rezone from R4 to R2 and a Tentative Subdivision Map to create 21 lots and 6 parcels (A-F) on a 4.92-acre parcel. The existing structures onsite would be demolished and the entire site would be cleared of debris and graded, including fill to a 0.03-acre linear ditch, which has been identified as a jurisdictional wetland. Approximately 2,220 cubic yards of fill material including asphalt and base material will be required. A new 21-lot subdivision with lot sizes ranging from 6,018 to 8,009 sf and associated amenities including a new public road, private drives, and landscaping will be developed.	MND	05/16/2014
2013102053	Tracy Hills Specific Plan Amendment Project Tracy, City of Tracy--San Joaquin A Draft EIR will be prepared by the City of Tracy to evaluate potential environmental impacts that could result from the approval and implementation of the Tracy Hills Specific Plan ("THSP") Project (hereinafter referred to as the "Project," "THSP Project" or the "Specific Plan"). The Project includes a comprehensive update to the previously adopted 1998 Tracy Hills Specific Plan (hereinafter referred to as the "1998 THSP"). The 1998 THSP covered approximately 6,175 acres; it established land use and development standards for approximately 2,732 acres located near the existing interchange around Corral Hollow Road and the proposed Lammers Road interchange on I-580, and designated the remaining 3,443 acres as conservation open space. Following adoption of the 1998 THSP, the City annexed the 2,732 acres designated for development, but did not annex the 3,552-acre conservation/open space area.	NOP	05/16/2014

	The current Project area consists of the incorporated 2,732-acre portion of the 1998 THSP, but does not include the 3,552 acres that were designated conservation open space.		
2014041068	McCall/Encanto Commercial Specific Plan Menifee, City of Menifee--Riverside The proposed McCall/Encanto Commercial Specific Plan Project will allow ~216,000 sf of new retail/commercial uses within the ~24.5 acre site. All of the property with the exception of the 0.10 acre parcel (APN: 333-040-001), is located within the Plaza del Sol Specific Plan Area (SP No. 177), which was approved by the County of Riverside in the early 1980s, before the incorporation of the City of Menifee in 2008. The McCall/Encanto Commercial Specific Plan is a proposed Specific Plan and will repeal and replace the Plaza del Sol Specific Plan with new design guidelines and contemporary development standards. In addition, the Specific Plan area will be expanded to cover the 0.10 - acre parcel (APN: 333-040-001).	NOP	05/16/2014
2012032029	Lewiston Community Services District/Lewiston Valley Water Company Water Supply Project Public Health, Department of --Trinity LCSO proposes to relocate its infiltration gallery (formerly owned and operated by the Lewiston Valley Water Company) to a location ~2,800 feet downstream of the existing intake in Lewiston, California. The proposed infiltration gallery would be constructed in a large gravel bar built in August 2008 as part of the United States Bureau of Reclamation's Trinity River Restoration Program. On December 20, 2013, the State Water Resources Control Board (State Water Board) issued a water quality certification for the Lewiston Community Services District's Water Supply Project (Project). Condition 4 of this water quality certification outlined the turbidity thresholds that must be met during Project construction. Shortly after the issuance of this water quality certification, State Water Board staff was contacted by the Project Applicant regarding its ability to meet the constraints of Condition 4 be replaced with a term similar to what was required for the Trinity River Restoration Program. The water quality certification amendment involves the replacement of Condition 4 with updated turbidity requirements.	NOD

	units or population.		
2013082063	Landank Central Sunnyvale Campus Project Sunnyvale, City of Sunnyvale--Santa Clara The Project includes development of three six-story office buildings, a two-story amenities building, and a parking garage on a site currently occupied by several one-story industrial buildings, located at the intersection of East Arques Avenue and North Wolfe Road in Sunnyvale.	EIR	06/02/2014
2014011040	Conditional Use Permit No. 6, Map 3 (Morelos Del Sol Solar Project by Gestamp Asetym Solar North America, Inc.) Kern County Wasco--Kern The project proponent is requesting: a) condition use permits to allow for a photovoltaic solar facility within the A (Exclusive Agriculture) zone district Power generated at the project site would be interconnected to the PG&E Twisselman Substation about 2 miles east of the proposed site on the south side of Twisselman Road, via the existing PG&E Arco-Twisselman 70 kilovolt (kV) line that runs along the perimeter of the property. An onsite substation would serve as the interconnection station between the proposed PV facility and the existing 70 kV Arco-Twisselman transmission line. The major component of the solar PV power-generating facility include: 1) PV modules and support structures; 2) direct current (DC) to alternating current (AC) inverters and transformers; 3) onsite substation and electrical equipment; 4) telecommunications equipment; 5) modifications to PG&E facilities; 6) operations and maintenance building; 7) plant control system; 8) meteorological data collection system; 9) roads, fencing, and security improvements; and 10) maintenance equipment.	EIR	06/02/2014
2014041070	Harmony 2015 Specific Plan Cypress, City of Cypress--Orange The project site is currently owned by the Cypress School District and occupied by District Offices and maintenance facility. As part of the proposed project, all on-site buildings, parking lots, and grass and landscaped areas would be demolished and removed. The preferred land use plan consists of 29 detached single-family homes located around a central street system with access to Orange Avenue.	MND	05/19/2014
2014041072	IS Application No. 6783 (Green Light Energy Corp.) Fresno County Sanger--Fresno Allow a 1.5 megawatt photovoltaic solar power generation facility with related improvements including a 378 sf switching station, three approximately 37-foot-tall power poles and a six-foot-tall security fence with gate on an approximately 12-acre portion of a 42.99-acre parcel in the AE-160 (Exclusive Agriculture, 160-minimum parcel size) Zone District. The project site is located on the south side of Thermal Road approximately 3,655 feet southeast of N. Piedra Road and approximately 7.4 miles northeast of the City of Sanger.	MND	05/19/2014

2014041073	Expanded Initial Study #14-09 - MND - For Landfill Debris Cover at Wastewater Treatment Plant Merced, City of Merced--Merced Excavation, consolidation, and capping of landfill debris on approximately 7-acres. The site is located southwest of the former Solid Waste Facility that was closed over thirty years ago. The site may have been used for impromptu dumping during the facility's operation. This project is an effort to bring the 7-acre site into compliance with sections of the CA Code of Regulations relating to closed solid waste facilities.	MND	05/19/2014
2014041076	Removal of Unpermitted Earthen Dam Upper Salinas - Las Tablas Resource Conservation District (RCD) --San Luis Obispo Removal of an unpermitted agricultural pong within the Huer Huero Creek watershed. The earthen dam will be removed and the channel slopes recontoured to match natural conditions, allowing surface water to move through the property unimpeded.	MND	05/19/2014
2014042060	Old Durham Wood, Inc. Butte County --Butte The applicant is requesting a CUP to bring existing operations at the facility into compliance with Butte County Code, and to allow for an expansion of existing operations. Existing operations encompass 33 acres and includes a greenwaste disposal facility, chipping and grinding operations for the production of biomass fuel, composting, and firewood processing and storage. Proposed expansion of the existing facility include enlarging the size of the facility by 25 acres to improve existing operations, and establishing an orchard/farm wood processing operation (milling) to produce boards.	MND	05/19/2014
2014042061	Fruit Growers Supply Company Sawmill Project Yreka, City of Yreka--Siskiyou The Fruit Growers Supply Company Sawmill Project proposes a CUP to allow the construction of a new sawmill, log processing area, and shipping center for the purpose of receiving and processing timber and distributing a product of pallet stock lumber. The proposed project site is abandoned and has historically been used as a lumber sawmill. In addition to remediating existing contamination-related issues associated with the site, the project is proposing a two-story, premanufactured 50,000-sf sawmill building, a premanufactured 12,000 sf truck and equipment maintenance shop, new truck weighing scales, a raw product delivery area, a sprinklered log deck/log storage area, a wood-waste storage and recovery area, a finished product and shipping area, a 45-space paved parking area, an on-site fire suppression/irrigation system, and a storm water drainage system. In addition, the project proposes to improve the existing Internal circulation system on-site, through such improvements would not include permanent pavement. The proposed project would also reuse approximately 6,000 sf of existing building space on-site for the purpose of office space. The project would operate 8 to 10 hours daily 5 days a week between the hours of 7:00 a.m. and 5:00 p.m.	MND	05/19/2014

These two subsequent activities are: (1) the City's approval in 2000 of Amendment No. 2 to City Contract C-94375, a pre-existing contract between the City and RBM for the loading, transportation and beneficial reuse of the City's biosolids at Green Acres Farm; and (2) the City's 2000 purchase of the Farm.	EIR	06/04/2014
2014041079	Leanna Drive Creek Crossing Waterline Project Arroyo Grande, City of Arroyo Grande--San Luis Obispo The existing water line crossing Arroyo Grande Creek was installed in a concrete encasement that is being undermined by stream flow and settling. Record drawings show that the concrete encasement is not reinforced with steel and is therefore unlikely to withstand tension abandoned sewer force main encasement, which was constructed at the time as the water main, shows strong evidence of cracking and differential settlement indicating failure of the encasement and the encased pipeline. Failure of the water main would have immediate consequences of loss of potable water, potential contamination, and reduction in fire-fighting capabilities. The existing 8-inch ductile iron pipe and concrete encasement will be abandoned and replaced at this location with approximately 450 feet of new high-density polyethylene (HDPE) pipe. This endeavor will not only preserve the integrity of the City's potable water supply and fire-flow capability, but prevent the above-mentioned secondary consequences. The City has suggested an approach utilizing horizontal directional drilling to	MND	05/20/2014

	replace the existing line with a 12-inch HDPE pipe. This will allow construction activities to remain outside of the creek floodplain encroachment area and minimize the impact to the existing creek. No excavation will be performed within the creek bed, as a determination has been made that the project will not include removal of the existing pipelines and exposed concrete encasements.		
2014041080	IS Application No. 6011 (Cargill Meat Solutions Corporation) Fresno County Fresno--Fresno Allow expansion of an existing meat processing facility on a 57.20 acre parcel of land in the AE-20 Zone District to include construction of an approximately 80,000 sf cold storage and processing building north of the main plant and a 34,700 sf drop off area and relocation of the cattle corridor and staging pens; conversion of the existing 17,500 sf dry storage building to a "Hide and Tallow Processing Facility"; expansion of the existing Case-Ready building from the existing 22,400 sf to 67,200 sf; and allow 38-foot building height (maximum 35 feet is allowed) in the AE-20 Zone District.	MND	05/20/2014
2014041081	Arbor Vista Cluster Residential Temecula, City of Temecula--Riverside PA12-0131, a General Plan Land Use Map change from Very Low Density Residential to Low Density Residential PA12-0132, a Zoning Map and Text change from Very Low Density Residential to Planned Development Overlay based on the standards of the Low Density Residential designation with provisions for a cluster development PA12-0133, a Tentative Tract Map (No. 36479) to subdivide 73 acres into 83 single-family cluster lots. Approximately 59% of the site will be preserved as permanent open space to preserve the existing drainage on site. PA12-0134, a Residential Product Review application for 83 lots to be created with TTM 36479.	MND	05/20/2014
2014041082	Clean Focus, Apple Valley East Solar Conditional Use Permit P201300557 San Bernardino County Apple Valley--San Bernardino NOA for IS / Proposed MND for a CUP to establish a 3-MW solar power generating facility on 23 acres and a merger on 2 lots on 23 acres, in an unincorporated portion of Apple Valley, San Bernardino County / 1st Supervisorial District / Project No. P201300557/CF.	MND	05/20/2014
2014041083	Causeway Shoreline Embankment Repair Project Monterey, City of Monterey--Monterey The proposed project involves protecting and buttressing the undermined portion of the existing retaining wall supporting the Custom House Plaza adjacent to the Monterey Harbor along the Monterey Bay Coastal Recreation Trail between Fisherman's Wharf and Wharf II in the City of Monterey. Approximately 90 LF of fiber reinforced polymer (FRP) sheet piling will be installed below the existing wall. The visible portion of the wall (approximately 900 sf) will be architecturally treated. The architectural treatment will match the adjacent faux rock and natural rock outcroppings. Restoration of grade and planting of the disturbed hillside will be accomplished subsequent to the installation of the wall. No impacts will occur below the high tide line as a result of the project. 2014041084	Dubbink Family Trust/Minor Use Permit/Coastal Development Permit and Lot Line Adjustment San Luis Obispo County --San Luis Obispo Request by the Dubbink Family Trust for a Minor Use Permit / Coastal Development Permit and Lot Line Adjustment to: allow for a 2,336 sf addition to an existing single family residence (a studio/gallery of 946 sf, an office/bedroom of 595 sf, a 93 sf addition to the living room, a garage of 306 sf, and a 396 sf deck), and adjust the lot lines between two parcels of 27,138 sf and 23,216 sf each. The adjustment will result in a disturbance of 4,000 sf. The project is located on 1147 and 1161 9th Street, in the community of Los Osos, in the Estero Plan.	MND	05/21/2014
2014042062	Englund Marine - B32826 - Environmental Review of a Coastal Development Permit (Retail Space) Del Norte County Crescent City--Del Norte Environmental Review of a Coastal Development Permit. The applicant proposes to construct a new commercial building on land immediately east of Citizens Dock Road, between Starfish Way and Marine Way. The proposed building will be approximately 10,371 sf in area and will include approximately 5,191 sf of retail area, 3,731 sf of warehouse, and 739 sf of administration. The applicant has operated their business in the harbor since 1981 and has reached a point at which they require additional space. The harbor has indicated that the existing structures within the proposed site will be removed. On-site parking is being provided in an off-street parking area located off of Citizens Dock Road.	MND	05/21/2014
2014042063	Floodwall Improvements Along Zone 3A Line D Phase 2, between Huntwood Avenue and BART, Hayward Alameda County Hayward--Alameda The Alameda County Flood Control and Water Conservation District is proposing to install floodwalls along approximately 1,630 linear feet of the Zone 3A, Line D channel (Ward Creek) between Huntwood Avenue and the Union Pacific Railroad tracks, and parallel to Industrial Parkway West, in Hayward, California. The proposed project is Phase II of a four-phase plan to improve channel capacity between the I-880 freeway downstream and the BART tracks upstream. Phase I consist of the construction of floodwalls constructed downstream of Huntwood Avenue along 3500 linear feet of channel, and was completed in 2011. The currently proposed floodwalls would be similar to those in the Phase I project. The concrete masonry unit floodwalls would be constructed at the top of both banks. Minor work within the channel flow line would consist of the reconstruction of four outfall structures within the channel banks to install flap gates and construction of a low flow ramp adjacent to Huntwood Avenue to allow access to the channel for maintenance. An asphalt concrete pedestrian/bike path along the southwest bank would be removed and replaced in approximately the same location at the top of the bank.	MND	05/20/2014
2014042064	Secondary Ingress/Egress Road ROW Mono County --Mono The proposed project is the issuance of a thirty year renewable road right-of-way (CACA 052688) to Mono County by BLM for the construction, operation, maintenance, and termination of a gravel secondary ingress/egress road for Mono City, CA. The existing material pit dirt road would be improved to 12 feet wide,	MND	05/20/2014

	would be about 2,220 feet long, and considered to be a one-way road. A new one-way road segment being 12 feet wide and 370 feet long would be constructed from the pit road intersection with the parallel road to the well located at the fire station. The existing 12 foot wide 260 feet long dirt road from the fire station parking area to the well would be widened to 18 feet and would be considered to be a two-way road. The overall length of this proposed secondary access route would be 2,850 feet (.53 miles).		
2014042065	Kelseyville Area Low Water Crossings Lake County --Lake The project consists of taking gravel from the streambed at two locations along Kelsey Creek and one location on Adobe Creek, using it to construct a low water crossing to allow vehicle traffic to pass through the streambed during summer months. Disturbance of the streambed will be minimized by stockpiling some gravel used for construction of the low water crossings for reuse when the crossings are removed in the fall. All work will be completed during no flow periods. The crossings will be removed by October 15th of each year.	MND	05/20/2014
2014042066	GP2014-11 Environmental Review of a Grading Permit to Replace George E. Tryon Bridge Del Norte County --Del Norte The Federal Highway Administration is proposing to replace the George E. Tryon Bridge location on County Road 427, also known as South Fork Smith River Road. The George E. Tryon Bridge is located approximately 2.0 miles east of Hiouchi. The project consists of the replacement of a two lane bridge, approximately 0.27 miles of road reconstruction, drainage improvements and grading. The existing bridge is a multi-span steel structure with a main span steel arch, built in 1948. It is structurally deficient, has fracture critical members, and has unknown foundation types, creating the potential for a negative impact or failure of the bridge during a seismic event. The primary objective of the proposed project is to replace the structure to improve public safety, maintain functionality of the road, and further protect the Smith River ecosystem.	MND	05/21/2014
2014042067	Salyer Water System Improvement Project Public Health, Department of --Trinity Major components of the project include installing a new 4" water main, 6" distribution main, and telemetry cable from the pump house to the Salyer MWC's Water Treatment Plant site. The pipeline would be subsurface and require relatively shallow trenching activities. Two new laterals will be installed along the length of the main distribution line to service two 6' blow off valves. The existing water storage tank will be converted to a backwash facility and new pipe, pumps, filters, chemical treatment, and 100,000 gallon storage tank will be added.	MND	05/21/2014
1992033035	Reggae on the River Conditional Use Permit Humboldt County --Humboldt The project is a substantial conformance review of CUP-04-38MMM so that the applicant may use a portion of the site for auxiliary parking for a three-day outdoor music and art event known as "Northern Nights Music Festival" (NNMF). The festival will be held in Mendocino County on Thursday, July 17th through Monday July 21st, 2014. While CUP-04-38MMM contains APNs 033-271-004, -007, and	NOD

<p>-000, APN 033-271-007 is the only parcel where auxiliary parking for the NNMF will occur. The intent of the project is to exercise certain land use entitlements of the existing conditional use permit (CUP-04-38MMM), which allows the site to be occupied for a public assembly activity, including attendant off-street parking, to accommodate, on a temporary basis, parking for the NNMF parking event. The review does not authorize re-initiation of the music festival (Reggae Rising) previously permitted on the project site, for which separate authorization will be required by the Planning Commission. No events have been held on this site since the 2010 event was cancelled by prior action of the Humboldt County Planning Commission.</p>	NOD		
2005031022	<p>Vesting Tentative Map No. 6244 Taft, City of Taft--Kern</p> <p>This proposed Project involves the construction of a residential development project. The Project as authorized in the ITP will result in permanent impacts to San Joaquin kit fox (SJKF) (<i>Vulpes macrotis mutica</i>), and San Joaquin antelope squirrel (SJAS) (<i>Ammospermophilus nelsoni</i>) habitat. The Project is expected to result in incidental take of SJKF and SJAS which are designated threatened under the CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project Description consistent with Project reconfiguration incorporating tract and concomitant infrastructure revisions and acreage adjustments; enhances Project buildout flexibility by incorporating discrete construction, security fund, and compensatory mitigation phasing and the tracking and reporting of these elements; amends the configuration and locations of the designated remainders "A", "B", and "C" within the Project parcel that comprise the Conservation Easement site; removes the requirement to conduct a study to monitor relocated San Joaquin antelope squirrels; increases the routine and ongoing reporting requirement from 90-day reporting to monthly compliance reporting; and revises the endowment fund language to be consistent with changes in Government Code that have occurred since the issuance of the ITP. As amended, development of the Project site will result in the permanent loss of 90.33 acres (6.53 acres less than originally planned 96.86 acreS) of habitat for the Covered Species. The Amendment will result in a decrease of ground-disturbing impacts without a decrease of compensatory mitigation.</p>	NOD	
2008122065	<p>Chess-Hatch Master Plan Foster City Foster City--San Mateo</p> <p>The proposed Chess Hatch Office Development (Phase 1) project (Chess Hatch Phase 1 project) is the first phase of buildings proposed for construction as part of the Chess Hatch General Development Plan, approved by the City Council on September 3, 2013. The Chess Hatch Phase 1 project includes demolition of 146,000 square feet of commercial/industrial uses in nine (9) buildings and replacement with 600,000 square feet of office, biotechnology, or research and development use, and 5,000 square feet of office uses. Tower B on the east side of the office complex is proposed to be 12 stories (187 feet), containing 305,000 square feet of office uses. The connector building is proposed as one story (29 feet) with a rooftop plaza.</p> <p>Garage A on the west side of the property is proposed as a 5-story structure (46 feet) and provides 978 parking spaces, including 20 accessible spaces. 	provides 1,028 parking spaces, including 21 accessible spaces. Vehicular access to the property would be from Chess Drive.		
2011052062	Feather River West Levee Project Sutter Butte Flood Control Agency --Butte, Sutter The California Department of Fish and Wildlife is executing Streambed Alteration Agreement Number 1600-2014-0002-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sutter Butte Flood Control Agency.	NOD	
	This Agreement covers PG&E utility relocations necessary to accommodate construction in Contract B. Proposed work in Contract B consist of constructing a deep cutoff wall in most of the reaches within the contract, backfilling landside toe depressions, and encroachment management (SAA # 1600-2014-0001-R2). In many reaches, this work will require a full or partial levee degrade in order to construct the cutoff wall; resulting in a conflict with existing utility locations. To accommodate these improvements PG&E must relocate utilities that are either inconsistent with levee management policies or that would otherwise obstruct construction.		
2011052062	Feather River West Levee Project Sutter Butte Flood Control Agency --Butte, Sutter The California Department of Fish and Wildlife is executing Streambed Alteration Agreement Number 1600-2014-0003-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sutter Butte Flood Control Agency.	NOD	
	The Project consists of degrading the Feather River West Levee to construct a slurry cutoff wall, constructing a deep cutoff wall inside the levee prism wall, backfilling landslide toe depressions, and encroachment management. The cutoff wall would consist of a bentonite (clay) and soil mixture created by excavation of a trench below the levee centerline; the trench would then be filled with the slurry. The levee would then be reconstructed over the wall. Contract D is approximately 11.4 miles in length (60,326 linear feet), and the construction footprint is typically approximately 240 feet wide.		
2012032032	Towews Single-Family Residence Humboldt County Eureka--Humboldt The project is a re-approval of a previously approved Special Permit (SP-08-95). The applicant proposes construction of a single-family residence on a vacant parcel. A Special Permit is required to consider proposed development within a Streamside Management Area (SMA), approximately 50 feet from an unnamed perennial stream which feeds the Elk River. Use of a zero-setback from onsite wetlands, which occur within the riparian corridor, is required to accommodate a proposed driveway turnaround consistent with County Fire-Safe Regulations. A Wetland Delineation and Riparian Buffer Assessment and Planting Plan have been prepared for this project. Proposed development includes construction of a 2,447 square foot single-family residence and 720 square-foot attached garage. The parcel is currently developed with several access roads crossing the drainage and wetlands. The majority of the development footprint is located within the footprint of an old roadcut that has not been abandoned. The project seeks after-the-fact approval of a stream crossing associated with a new access road installed along the eastern boundary of the property. The applicant proposes to	NOD

2012082108	<p>remove and replace two existing undersized and misaligned culverts with properly-aligned 24-inch-diameter culverts. Mitigation includes capturing runoff from the building site and directing it away from the creek/wetland and toward percolation areas such as grass-lined swales. Implementation of a grading and erosion control plan prepared by a civil engineer. The applicant proposes to install Buffer Enhancement plantings within the portion of the SMA which lie between the development footprint and the stream transition line.</p> <p>Conditional Use Permit and Special Permit for the Reggae on the River Music Events 2013-2017 Humboldt County --Humboldt</p> <p>Modification to the approved Conditional Use Permit for the Reggae on the River music festival to add three off-site parking areas. In addition to the approved off-site parking area on Assessor's Parcel Number (APN) 033-160-013, the Benbow Golf Course parking area (230 cans), off-site parking will be provided at new site #1 : the Richardson Grove Family Campground at 750 State Highway 101 (APN 033-271-015) directly west of the event site (200 cars and 42 Recreational Vehicles), new site #3: the County Line Ranch at 240 Cooks Valley Road APN (033-271-007) directly south of the event site (1,500 vehicles). The Planning Commission will also be reviewing the Annual Report for the 2013 event. The applicant proposes an increase in attendance by a total of 1,000 persons above the 8,000 person allows at last year's event. Attendance for the 2014 event will be limited to 6,500 ticket holders and 2,500 staff, performers, and others. Traffic control measures are proposed along Highway 101, the event will be held from Thursday through Sunday over the first weekend of August, 2014. A temporary flat-car bridge is proposed to be placed across the South Fork of the Eel River to provide access for vehicle and pedestrians. A Special Permit is required to place the bridge within the Streamside Management Area. The parcel is served by on-site water which will be supplemented by water supplied by nearby community service district. Sewage disposal for the event will be provided toilets and an on-site greywater system.</p>	NOD	
2012102028	<p>Podva Property Residential Development Danville, City of Danville--Contra Costa</p> <p>Preliminary Development Plan - Rezoning and Final Development Plan - Major Subdivision request to rezone a 109 +/- acre property from A-2; General Agricultural District to P-1; Planned Unit Development District and to subdivide the site to create 20 single family residential lots. In order to comply with Town's Inclusionary Housing Ordinance, 10 percent of the proposed lots are planned to include a second dwelling unit. The 20 new single family units and two second dwelling units would be constructed on the lowest 10 +/- acres of the site near the western terminus of Midland Way. The remainder of the site would be designated as permanent open space. The Final Development Plan would provide for architectural design and landscape details for the development. The Tree Removal permit would allow for the removal of 14 Town-protected trees (a total of 24 would be removed as part of the project).</p>	NOD

	and additional planning by KB, it was concluded that certain changes were required to the Original Response Plan to address remediation on Site.		
2014049013	Granite Terrace Project, Streambed Alteration Agreement No. 1600-2013-0239-R2 Placer County --Placer The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0239-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Maverick Partners West. The project is limited to the creation of a storm water detention basin adjacent to Sucker Ravine. A ten (10) foot wide culvert outfall structure using riprap will connect the detention basin to Sucker Ravine and encroach into the ravine about five feet. Construction of the detention basin and outfall structure will result in impacts to 0.053 acres of seasonal wetlands and 0.001 acres of stream bank along Sucker Ravine.	NOD	
2014049014	Lake or Streambed Alteration Agreement No. 1600-2012-0109-R1 for Nonindustrial Timber Management Plan 1-10NTMP-003 MEN, "Fish" Forestry and Fire Protection, Department of --Mendocino The California Department of Fish and Game (DFG) is entering into a lake or streambed alteration agreement (Agreement) with Mr. Clark Fish. The eight activities to be completed according to the Agreement.	NOD	
2014048171	BayCAP2, City of Berkeley EV Charging Stations Berkeley, City of Berkeley--Alameda Pending final award/contact between the CEC and the CA EV Alliance for the BayCAP2 project, 6 new dual-port Level 2 ChargePoint electric vehicle (EV) charging stations will be installed in 3 City-owned parking lots/garages for public use to support the adoption and use of EVs and their associated reductions in GHG emissions.	NOE	
2014048172	Pacific Gas and Electric Company: Davis Levee Road Pole Replacement Project Fish & Wildlife #3 --Yolo The project will include the removal and replacement of one distribution pole set approximately 3 feet south of the existing pole, replacement of one anchor set southwest of an existing distribution pole, and removal of one idle pole. The project will require a line truck, bucket truck, and a crew pickup. The project is anticipated to be completed by a crew of three (3) to four (4) workers in approximately one (1) day.	NOE	
2014048173	Minor Amendment of Conditional Use Permit No. 745 El Cajon, City of El Cajon--San Diego The applicant has applied for an amendment to an existing discretionary permit for a remodel of an existing showroom including exterior facade improvements, interior tenant improvements, and an addition of 1,720 square feet of floor area. El Cajon Ford will benefit from upgraded showroom facilities.	NOE

2014048174	Woodland Kentucky Avenue Pole Removal Project (SAA #1600-2014-0028-R2) Fish & Wildlife #2 Yuba City--Sutter The project is limited to the removal and replacement of one wooden electric distribution pole along the upper bank of Butte Slough. The existing pole has been identified for replacement due to an elevated risk of outages associated with the pole. A new pole will be installed immediately southwest of the existing pole and the electric lines will be transferred over. Excavation for the new pole will be approximately 2 feet in diameter and 6 feet deep and will be completed with a truck mounted auger.	NOE	
2014048175	Antelope Creek Stabilization Project; Notification No. 1600-2013-0063-R2 Fish & Wildlife #2 Rocklin--Placer The project is limited to the implementation of proposed stream bank protection actions at two adjacent sites located along Antelope Creek that are currently experiencing erosion, undercutting, bank failure, and failure of existing rock gabions. The proposed project would consist of the construction of a vegetated block wall at Site 1 and bank stabilization adjacent to a developed area within Sunset East Park at Site 2. Construction is planned for the period from August 1 through October 15 of either 2014 or 2015.	NOE	
2014048176	Irrigation Pipe and Pump Installation Project SAA #1600-2013-0257-R2 Fish & Wildlife #2 --Calaveras The project is limited to the restoration of vegetaiton and stabilization of soils along a portion of Cowell Creek within Calaveras County's Assessor's Parcel Number 28 024 035 that was removed in the fall of 2013 without notifying the Department, and the thinning of vegetation for fire abatement purposes outside of the bed, bank, or channel of Cowell Creek.	NOE	
2014048177	High Mountain Lake Native Amphibian Habitat Restoration Fish & Wildlife #2 --Plumas Habitat restoration includes the removal of non-native brook trout to benefit declining native amphibian species, primarily the Sierra Nevada yellow-legged frog. Gill nets will be used to remove brook trout from a single lake, Gold Lake, within the Bucks Lakes Wilderness.	NOE	
2014048178	Preschool Woodside Elementary School District Woodside--San Mateo The project involves the demolition of one 24' x 40' portable building and construction of a new one-story permanent building to replace the existing classroom and add one additional classroom.	NOE	
2014048179	Design Lab Woodside Elementary School District Woodside--San Mateo The project involves the demolition of one protable classroom building and its replacement with a new one-story permanent classroom building in the location of the demolished portable building.	NOE

	San Joaquin River to the Delta Mendota Canal for conveyance to DPWD customers. Water could also be made available to wildlife refuges. New facilities constructed for the project would be located in Stanislaus County, but the DPWD service area would also include San Joaquin and Merced Counties.		
2014042069	Corte Madera Inn Rebuild Corte Madera, City of Corte Madera--Marin The proposed project is the replacement of the existing hotel and restaurant with a new 187-room hotel that includes extended stay rooms and limited-service traditional hotel rooms. The building would be two and three-stories in height. A total of 257 surface parking spaces would be provided. Conference rooms would be provided at the hotel, along with landscaped areas, a swimming pool, and spa. The existing 0.65-acre pond would be removed and filled to allow new construction. A General Plan amendment and rezoning would occur to allow a floor area ration of 0.55 at the site. The new General Plan designation would be Motel/Hotel Highway Commercial and the new zoning designation would be C-5 Motel/Hotel Highway Commercial.	NOP	05/21/2014
2002041129	Canyon Sewer Cleaning Program/Long-Term Canyon Sewer Maintenance Program San Diego, City of --San Diego The San Diego Regional Water Quality Control Board is issuing a Clean Water Act Section 401 water quality certification (Cert. No. R9-2013-0192) to the project applicant, City of San Diego, Public Utilities Department. The applicant proposes to repair a section of sewer pipe located within Murphy Canyon Creek by installing a Cured-in-Place-Pipe liner between manholes (MHs) 110 and 111. The Project will include clearing of wetland vegetation and sediment to create workspace around MHs 109, 110, 111, installing temporary coffer dams and dewatering standing water, and by-pass pumping sewage from MH 109 to MH 112.	NOD	
2012051007	Rio Rancho Towne Center Project Pomona, City of Pomona--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) has granted the Rio Rancho Town Center II, LLC a long term lease agreement for a portion of Assessor Parcel No. 934-402-4906. The long term agreement is being granted for parking and access area in connection with an adjacent proposed retail development.	NOD	
2014022059	Dredged Material Management Program - City of Alameda Alameda, City of Alameda--Alameda The primary objective of the project is to remove accumulated sediments from the lagoon system which has been causing the depth of surface water to decrease over the past few decades, potentially affecting the lagoon's water quality and wildlife habitats, and ability to function as a stormwater detention facility. The lagoon system is a component of a residential community and does not have a natural outflow. As a result, accumulating sediment and debris require removal through excavation and dredging. The City is now working with the Dredged Material Management Office (DMMO) to obtain the necessary approvals from state and federal agencies charged with ensuring water quality to begin dredging activities. Removal of these dredged materials and sediments will result in a	NOD

	positive impact to the water quality of the lagoons, as well as their habitat suitability for various wildlife species. The project will include dredging, excavation, hauling, and disposal activities. Dredging and excavation activities will be performed via mechanical/excavator dredge with placement of the material into barge mounted scows for dewatering. Dredging would include a compressor, crane, generator set, pump, and one additional piece of heavy equipment. During dredging, surface water will be removed along with sediment. The dredged material will be dewatered before removal so that temporary draw down of surface water would be limited to small quantities removed with dredged sediment. The majority of dewatering activities associated with the project will occur as the dredged material is brought from the bottom of the lagoons during removal. Dewatering activities are not expected to generate water requiring containment or disposal on land. Excess water brought up with the dredged material will be allowed to drain back into the lagoon at the priority area where the dredging occurred, before being loaded on the barge. The barge will be brought near shore and a land based excavator will remove the material and place into trucks to be hauled to a disposal site at Alameda Point.		
2014048193	Reclaim Water Discharge Pipeline Project Victorville, City of Victorville--San Bernardino City of Victorville is to install a reclaim water pipeline from an existing reclaim waterline to an existing setting basin. The pipeline is to transport water to and from a basin to the connected pipeline.	NOE	
2014048194	Failed Septic System Parks and Recreation, Department of --Santa Cruz Install a new 1500 gallon tank along with two new leach lines adjacent to the existing failing septic tank at the employee residence housing #112 and #113 located within Henry Cowell Redwood State Park.	NOE	
2014048195	Issue Easement(s) to County of Santa Cruz Parks and Recreation, Department of --Santa Cruz Issue an easement to Santa Cruz County to five hundred (500) linear feet of beachfront property at Twin Lakes State Beach to make public improvements to enhance usability, access and safety.	NOE

2014041089	ENV-2014-573-MND / 1706, 1708, 1710, 1716 & 1720 W. Beverly Boulevard Los Angeles, City of Westlake Village--Los Angeles Construction of a new temple that consists of two-stories, 49-ft., approx. 4,166 sf of floor area on an approx. 16,174 sf site. The new temple will contain 240 seats. The project will provide 72 on-site parking spaces located at-grade to the rear of the building and within two subterranean parking levels. Vehicular access is provided from the adjacent alley that runs east-west along the south property line. Pedestrian access is provided along Beverly Boulevard. As proposed, the project requires approval of a haul route to permit the export of 6,700 cubic yards of dirt in the Special Grading Area (BOE Basic Grid Map A-13372).	MND	05/22/2014
2014042070	Water Right Application 31501 - County Line Vineyard, LLC State Water Resources Control Board St. Helena--Sonoma County Line Vineyard, LLC is developing a vineyard in Sonoma County. The project includes development of a water supply within the Mark West Creek Watershed. As Lead Agency, The State Water Board is considering a water right application.	MND	05/22/2014
2014042072	Girl Scouts of Northern California - Butano Creek Camp San Mateo County --San Mateo The applicant has applied for a Coastal Development Permit (CDP), Planned Agricultural Permit, and Grading Permit for modifications to the "North Commons" area of an existing organized Girl Scouts camp facility located at 1400 Canyon Road in unincorporated Pescadero. Proposed modifications include the construction of a freestanding one-story accessible bathroom (300 sf); five one-story tent platforms (364 sf each, two of which are disabled accessible); a one-story accessible open cooking shelter (385 sf); and a one-story accessible camping dormitory with nurse's office and small sleeping mezzanine (2,031 sf) connected by new decking to an existing dining hall. The project also includes the demolition of one camping dormitory (3,536 sf), along with the construction of a 280 linear ft. wood lagging with steel post debris flow wall ranging in height from 6-8 ft., a total of 709 cubic yards of grading (including 645 cy of cut and 64 cy of fill), 20,000 sf of land clearing, the removal of 19 significant sized trees (i.e., 55-inch circumference or greater at 4.5 ft above ground) to accommodate the debris flow wall, expansion of the septic system, fire access and parking area improvements, and associated concrete and wood walkways. Additionally, the planting of native plant species and 19 Coast redwood trees are proposed within the North Commons area.	MND	05/22/2014
2014041090	Renewable Energy Streamlining Program (ED13-196) San Luis Obispo County --San Luis Obispo The program consists primarily of revisions to the inland Land Use Ordinance (LUO, Title 22) for the Development of distributed renewable energy resources. Currently, distributed generation includes renewable energy projects that generally produce less than 20 megawatts (WM) of power near the point of use. Distributed energy resources may either be connected to the electric grid or serve on-site uses in stand-alone applications. The focus of the Program is to support distributed solar energy facilities, but also includes updates for other technologies such as wind energy conversion facilities and biomass. Code updates will provide greater certainty for the renewable energy development and reduce barriers to	NOP	05/22/2014

	agricultural lease/special use permits (lease/permits). The six-week comment period will close on Monday, June 2, 2014. Public Meetings will be held May 6, in Point Reyes Station, and May 7 at the Bay Model in Sausalito.		
1999062020	Placer Vineyards Specific Plan Property #3 Placer County Auburn--Placer The project proposes to divide a 196-acre parcel located in Town Center portion of the Placer Vineyards Specific Plan Area.	NOD	
2008071092	Westside Specific Plan National City National City--San Diego DTSC reviewed the Westside Specific Plan, Final Environmental Impact Report and Mitigation Monitoring and Reporting Program (FEIR), February 2010 and the Westside Specific Plan, Final Environmental Impact Report and Mitigation Monitoring and Reporting Program Addendum (FEIR Addendum), February 2014 prepared by the City of National City. DTSC's involvement has been to ensure that the environmental investigation and cleanup actions are conducted in a safe and protective manner, suitable for the development, by reviewing and approving the Property Mitigation Plan Removal Action Workplan (PMP/RAW) for the Transit Oriented Development Area and the Property Mitigation Plan Removal Action Workplan Addendum (PMP/RAW) Transit Oriented Development Area, dated February 28, 2014. The PMP/RAW describes the existing environmental contamination associated with the use of the property as a public works yard, establishes removal action objectives for protection of human health and the environment, and presents the cleanup plan.	NOD	
2009092024	Pinole-Hercules Water Pollution Control Plant Improvement Project Pinole, City of Pinole, Hercules--Contra Costa The Pinole-Hercules WPCP Improvement Project EIR, which evaluated two project options for improvements to the WPCP, was certified by the City of Pinole in July of 2010. Since that time, the cities of Pinole and Hercules have prepared preliminary designs to identify the treatment and conveyance upgrades needed at the WPCP. The preliminary designs are much like the Option 1 design, which was fully evaluated in the 2010 EIR, with a few key exceptions. The primary exception is that the previously proposed parallel 24-inch force main from the Pinole-Hercules WPCP to the Rodeo Sanitary District (RSD) Deep Water Outfall is no longer included in the project design. Rather than discharge all effluent to RSD's Deep Water Outfall, as originally proposed under Option 1, the Pinole-Hercules WPCP will now discharge up to 14 million gallons per day (MGD) of treated effluent via the Deep Water Outfall, and up to 6 MGD of treated effluent via the WPCP's Emergency Outfall only during periods when influent flows exceed 14 MGD (i.e., discharge capacity of the Deep Water Outfall). Proposed WPCP improvements include but are not limited to a new influent pump station and headworks facility south of the existing Plant structures, but within the existing developed footprint of the overall WPCP site. In addition, the project includes a new Solids Handling Facility near the existing cogeneration facility; replacement of the primary sludge pumps; expansion of existing aeration basins; and installation of two new secondary clarifiers (65 feet in diameter). 2013101052	Shelter Island Boatyard Crane Replacement and Pier Addition Project San Diego Unified Port District San Diego--San Diego The San Diego Regional Water Quality Control Board is issuing a Clean Water Act Section 401 water quality certification (Certification No. R9-2013-0194) to the project applicant, Shelter Island Yachtways, Ltd. The project includes replacement of two existing gantry cranes with two new 70 and 150 ton capacity cranes; a new pier system to support the new larger crane; replacement of concrete slab; demolition of small structures; repair of the existing bulkhead; 1,240sf of new piers, docks, and piles; removal of 1,247sf of existing docks.	NOD	
2014012052	1901 Russell Avenue General Plan Amendment Santa Rosa, City of Santa Rosa--Sonoma The project involves a General Plan Amendment to change the land use designation for the property located at 1901 Russell Avenue from Public Institutional to Light Industry, consistent with the Light Industrial zoning district for the site. The proposed amendment would allow the existing industrial building located on the site to be leased for light industrial use. No new development is proposed at this time.	NOD	
2014022031	Interstate 80 Three Mile Truck Climbing Lane Project Caltrans #3 Colfax--Placer Caltrans proposes to widen shoulders and construct a 12' wide truck climbing lane on eastbound I-80 in Placer County between Long Ravine Underpass (PM 35.1) and Alpine Overcrossing-Secret Town Road (PM 38.3). I-80 is a four lane (2-lane-per-direction) freeway with full access control throughout the project limits. This stretch of roadway traverses a mountainous and curvilinear path while climbing at a sustained 5% upgrade eastbound for approximately 3 miles.	NOD	
2014022062	2014 Water Transfer Program Western Canal Water District --Butte WCWD proposes to sell up to 35,442 acre-feet (af) of water to South of Delta purchasers during the 2014 irrigation season. As willing sellers, WCWD would make up to 35,442 af of water available to Buyers by idling cropland (i.e., non-irrigation of farmland by voluntary participants). Water made available by crop idling within the boundaries of WCWD would then be retained and stored by the Department of Water Resources for delivery to Buyers.	NOD	
2014032072	Trout Creek Trail Truckee, City of Truckee--Nevada The Town of Truckee is proposing to construct a new Class 1 paved trail between Northwoods Boulevard in the Tahoe Donner Community and Bridge Street in Downtown Truckee, with a spur connecting to the existing Trails End Class 1 trail to Pioneer Center. The proposed trail will be approximately 8,800 feet long, including the spur trail. A soft surface trail is also considered and is proposed roughly parallel to the paved trail. The trail will cross Trout Creek in 2 locations. A trailhead parking area is proposed near Northwoods Boulevard, along with trail amenities such as benches and trash receptacles. The trail crosses the APNs 18-010-51, 52; 19-400-05; 19-400-28; 45-230-06.	NOD

2013101097	EIR RGF 07-13; Redwood Cluster Solar Project by 61LK 8ME, LLC Kern County Bakersfield, Arvin, Lamont--Kern The Redwood Cluster Solar Project is a proposal to construct and operate six solar photovoltaic (PV) power generating facilities that would generate a combined 135 megawatts (MW) of electricity, on six sites totaling 633 acres in unincorporated Kern County, California. The project sites are within the jurisdiction boundaries of the Kern County General Plan (KCGP) and the Metropolitan Bakersfield General Plan (MBGP). Five of the seven parcels are zoned A (Exclusive Agriculture) with the KCGP map code designation of 8.1 (Intensive Agriculture), 8.4 (Mineral and Petroleum), and 2.1 (Seismic Hazard). The remaining two parcels are zoned A-1 (Limited Agriculture) with the MBGP map code designation of R-IA (Resource Intensive Agriculture). The project includes two proposed General Plan Amendment to amend the Circulation Element in the KCGP and MBGP, one Zone Change (ZCC) from A-1 to A, six Conditional Use Permits, and one Williamson Act Land Use Contract Cancellation of 80 acres of prime farmland. The land has historically been used for agriculture purposes with three of the sites having existing oil wells.	EIR	06/09/2014

2014011061	Viejas Hotel South Tower Viejas Band of Kumeyaay Indians --San Diego Note: Tribal EIR The proposed project is an approximately 128-room, six-story hotel adjacent to the existing Viejas Casino. The expansion would demolish the existing office space on the southeastern portion of the casino and replace it with a second hotel tower. The proposed project would include additional gaming space, a kitchen in the basement, ballroom, pre-function terrace, meeting rooms, bar, and retail. The office space would be relocated within the existing facility. With the construction of the recently developed first Viejas Hotel in 2012-2013, the Casino reduced the amount of original gaming space by approximately 20,000 sf. The proposed project would add approximately 16,500 sf of gaming space in the new development, resulting in a net reduction of approximately 3,500 sf of gaming area presented in 2012.	EIR	06/09/2014
2014021014	Temecula Valley Regional Water Reclamation Facility 23 MGD Expansion Eastern Municipal Water District Temecula--Riverside Note: 1 HC & CD The Eastern Municipal Water District's (EMWD) Temecula Valley Regional Water Reclamation Facility (TVRWRF) collects and treats municipal sewage and produces recycled water for reuse to the Temecula, French Valley and Murrieta areas. EMWD is proposing to expand the TVRWRF to provide an additional 5 million gallons per day (MGD) of treatment capacity, expanding the total permitted treatment capacity from 18 to 23 MGD annual average flow. The expansion will involve construction of an additional waste water treatment process train for preliminary treatment, primary treatment and fine screening, secondary treatment using a membrane bioreactor process (MBR), chlorine disinfection (Plant 3A), a rotary drum thickener, and additional modifications to existing facilities.	FIN	
2014032083	Vesting Tentative Subdivision Map 2014-01 - Traditions (Fitzpatrick Homes) Turlock, City of Turlock--Stanislaus The applicant is proposing to subdivide a 2.2 acre parcel, located in the North Turlock Master Plan area, into 15 single family residential lots. The project will be developed in accordance with the RL (Low Density Residential) zoning district standards allowing a minimum lot size of 5,000 sf and a residential density ranging between three (3) and seven (7) dwelling units per acre. The overall density of the project is seven (7) dwelling units per acre. The project is consistent with the property's Low Density Residential (LDR) General Plan Land Use Designation and the North Turlock Master Plan. The subdivision will be required to annex to a Community Facilities District to mitigate the ongoing costs of public services.	MND	05/23/2014

2014042075	Icon Aircraft Campus Vacaville, City of Vacaville--Solano Assembly, production, painting, bonding, and storage of light sport aircrafts, includes office, showroom, sales, flight training, and support uses, on two project sites (2141 and 2151 Beechcraft Road). 2141 Beechcraft Rd. 9.58-acre site, with an approx. 138K sf warehouse and manufacturing building, the proposal will add approx. 21K sf of floor area. 2151 Beechcraft Rd. 9.83-acre site (adjoining 2141 Beechcraft Rd), proposal to construct two buildings of approx. 75K (Bldg. A) and 20K sf (Bldg. B) to house executive offices, sales, flight training and other supporting uses. The project site plan identifies a future phase adjoining Nut Tree Airport. The future phase is not a part of this MND, it will be subject to separate CEQA, NEPA, and FAA requirements, and compliance with City of Vacaville.	MND	05/23/2014
2014042076	Van Allen Road Bridge Scour Mitigation Project San Joaquin County --San Joaquin The County proposes to develop a uniform channel section supporting Van Allen Road Bridge with scour countermeasures to prevent channel degradation of South Littlejohn's Creek. The proposed project will include the following actions: Clearing and grubbing along the creek banks. Installation of a temporary access ramp and coffer dams, or alternative diversion methods, to access the creek channel during construction while the creek is flowing. Excavation of the existing earthen channel bottom and banks to an approximate depth of 4.5 feet Placement of a layer of Caltrans Light Class Rock Slope Protection (RSP) in the excavated channel bottom to conform to the upstream and downstream conditions with staggered concrete baffles to hold the RSP in place.	MND	05/23/2014
2014042078	West Antioch Creek Channel Improvement Project Antioch, City of Antioch--Contra Costa The Project is intended to reduce flooding in the Project area by designing for a 25-year level of protection. Currently within the Project area, the West Antioch Creek channel transitions from structural plate steel arch culverts under West Tenth street, to a concrete-lined ditch covered by wooden planking under a parking lot at 1400 West Tenth Street, to an open concrete-lined ditch adjacent to a carport associated with a neighboring apartment building, to an earthen channel with one concrete-lined segment near 4th Street that continues to north of the BNSF railroad trestle.	MND	05/27/2014
2014041092	Oak Creek Escondido, City of Escondido--San Diego The proposed project is a 65-lot Tentative Map for residential development of a 41.4-acre property in conjunction with an annexation of the property from the County of San Diego to the City of Escondido. The site is located in the County's North County Metropolitan Subregional Plan, included in the County's 2012 General Plan Update, which designates the project site Village Residential and would allow 2.9 du/ac. The City of Escondido General Plan designates the site as Estate II (2 du/ac). The project proposes an overall density of 1.57 homes per acre - less than what is allowed under the County's or City of Escondido's plan designations. Requisite project approvals include a Pre-zone to Planned	NOP	05/23/2014

	Development, Tentative Map, Preliminary Development Plan, Master Development Plan, Precise Development Plan, Grading Exemption, Conditional Letter of Map Revision, Letter of Map Revision, and reorganization including annexation to the City of Escondido and detachment from San Diego County Service Area 135 (Regional Communications/Fire Protection and Emergency Medical Services). Additionally, the reorganization includes annexation of the approximately 2.34 acre Chalice Unitarian Universalist Congregation into the City of Escondido. Both properties are within the City of Escondido's adopted sphere of influence. The proposed project also includes a specific alignment plan which would improve Felicita Road and Miller Avenue to include sidewalks fronting on the project site, curbs and gutters, and bike lanes on Felicita Road.		
2014041094	Healy New Single-Family Residence, Guest House & Garage Santa Barbara County Hollister--Santa Barbara The project is for a Coastal Development Permit (w/ Hearing) to allow construction of a 2,004 sf single-family dwelling, a 481 sf guesthouse, a detached 796 sf garage/storage structure, a 344 sf covered patio, and placement of a backup generator. Grading would be less than 100 cubic yards of cut and fill to be balanced onsite. No trees would be removed as part of this project. The parcel will be served by an existing private well and two [2] new 5,000 gallon water storage tanks, a new private onsite septic system, and the Santa Barbara County Fire Department. Access will continue to be provided via Panochas and Cresta Drives, which are both common area drives off of Hollister Ranch Road.	Neg	05/23/2014
2014041095	Kavli Institute for Theoretical Physics Visiting Scholar Residence Project University of California, Santa Barbara Goleta--Santa Barbara The KITP Residence project would provide 32 apartment-style units in a three-story, 74,090 gsf building with a partial basement that would be used as temporary housing by visiting physicists, scientists, and scholars while participating in programs sponsored by the KITP. The building would be configured to provide approximately 61 beds. Residential units would include 18 one-bedroom suites, 11 two-bedroom suites, and three.	Neg	05/23/2014

2014041099	<p>Formation of Baldwin Lake Fire Protection District or Annexation to the Big Bear City Community Services District and Detachment from the San Bernardino County</p> <p>San Bernardino County Local Agency Formation Commission --San Bernardino</p> <p>The reorganization request was for the formation of a new fire protection district for the Baldwin Lake community; while the LAFCO potential modification is to annex the territory to an existing local service provider.</p> <p>In the application materials submitted to LAFCO, the applicant for the Original Proposal for LAFCO 3172 provides several reasons why the creation of a new fire protection district appears to be the only way to maintain the current level of service provided by the Baldwin Lake Volunteer Fire Department, which currently operates as a volunteer entity under the jurisdiction of the San Bernardino County Fire Protection District. The primary rationale is that, due to distance from the nearest county Fire station in the community of Fawnskin and slow response by the Big Bear City Community Services District under automatic aid, the only alternative is to form a fire protection district for the community of Baldwin Lake to preserve the current Voluntary Fire Department. The second half of this rationale is that the BLVFD has been sustained by a single individual's efforts. Therefore, the application concludes that creation of a new fire protection district can provide the financial resources necessary to sustain the higher level of fire protection and emergency service currently provided to the community by the BLVFD.</p>	MND	05/27/2014
2014041100	<p>California Aqueduct 2014 Pump Back Program Dudley Ridge Water District Hanford, Bakersfield--Kings, Kern</p> <p>The project proposes to install pumps at two Check Structures along the California Aqueduct. This will allow the District, along with the Participating Districts (Belridge Water Storage District, Berrenda Mesa Water District, Lost Hills Water District, and Semitropic Water Storage District) to transport, via reverse flow when necessary, previously stored water into the Aqueduct from May 2014 through April 2015, where it would then be accessible upstream to the District as well as the Participating Districts. Project implementation will allow the District, along with Participating Districts to mitigate water shortage impacts resulting from both the 2013-2014 drought and the currently projected zero percent State Water Project (SWP) water allocation.</p>	MND	05/27/2014
2014041101	<p>Planned Unit Development Permit 2013-001 Salinas, City of Salinas--Monterey</p> <p>The proposal is to amend Planned Unit Development Permit 04-03 (PUD 04-03) to allow construction of a new freestanding 1,796 sf restaurant with a drive through (Sonic) and 33 off-street parking spaces at the Laurel West Shopping Center located at 1050 North Davis Road in the Commercial Retail (CR) Zoning District.</p>	MND	05/27/2014

2014041105	Creekside 22-Lot Residential Subdivision La Verne, City of La Verne--Los Angeles The proposed project involves the subdivision of land, site preparation, grading, and construction of 22 single-family residential dwelling units on a 14.94-acre site. A total of 23 lots would be created, 22 for the single-family dwellings and one open space lot. The project site is located on the northwestern portion of the City of La Verne, and is roughly triangular in shape. The site is bounded by Caballo Ranch Road to the north, San Dimas Canyon Road and undeveloped open space to the west, and an undeveloped slope and single-family dwellings to the east.	MND	05/27/2014
2014042079	Badger Street Bridge Replacement Project Sutter Creek, City of Sutter Creek--Amador The City of Sutter Creek proposes to replace the Badger Street Bridge in the City of Sutter Creek. The existing bridge carries Badger Street over Sutter Creek, immediately south of Spanish Street. The existing bridge and the resulting tie-in with Badger Street would be accomplished within the existing right-of-way. The existing bridge was constructed in 1960 and is currently classified as structurally deficient, is inundated during storm events and overtops by up to six feet during a 100 year flood. The existing bridge would be removed and replaced with a raised bridge, approximately ten feet higher. The bridge would have two 10 foot lanes with two 3 foot shoulders and one 6 foot sidewalk. The road within the project area would be fully closed during construction and detour routes would be made available.	MND	05/27/2014
2014042080	Lower Clear Creek Anadromous Fish Habitat Restoration and Management Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding Redding--Shasta Implement anadromous fish restoration and management actions in the lower Clear Creek watershed. There are 12 specific restoration sites included under the proposed project located between Whiskeytown Dam and the lower Clear Creek / Sacramento River confluence. All restoration sites are located on federally owned lands with the exception of one site (Placer Road Bridge), which is located on private land; and one site (Saeltzer Gorge) which is located on public lands owned by the State of California and Bureau of Land Management. There are two primary project components: (1) gravel augmentation at selected reaches of lower Clear Creek; and (2) installation of instream habitat structures at various locations within lower Clear Creek.	MND	05/27/2014
2014042082	Fitzpatrick Minor Subdivision Humboldt County --Humboldt A Minor Subdivision of two parcels totaling approximately 20 acres into four parcels ranging in size from 3.48 acres to 6.52 acres. Each parcel is currently developed with a single family residence and associated outbuildings. Lot size modification (Section 314-99.1 H.C.C.) is proposed to allow proposed Parcel 2 to be created below the five acres minimum parcel size. The properties will be served with community water by the Jacoby Creek Water District and utilize on site wastewater treatment systems.	MND	05/27/2014

2009041083	Warren E&P Inc. WTU Central Facility New Equipment Project South Coast Air Quality Management District --Los Angeles Note: Extended Review The proposed project is a modification to a previously approved project that was evaluated in a 2011 Subsequent MND. The 2011 Project allowed Warren to remove a permitted Flare King flare and replace it with a Bekaert Clean Enclosed Burner, remove a water heater, refurbish existing Heater Treater No. 1, add additional Heater Treater No. 2, add nine Ingersoll Rand microturbines, and install gas re-injection equipment, and/or, if warranted, gas sales equipment. The currently proposed project is associated primarily with modifications and improvements to the gas handling system for a previously analyzed gas sales project. It also consists of replacing the six existing and three proposed microturbines with an additional Bekaert CEB for improved operational effectiveness.	Neg	06/10/2014
2014032045	Vesting Tentative Parcel Map Application No. PLN2014-0027 - Postma - Albers Road Stanislaus County Modesto--Stanislaus Request to divide a 97 acre parcel into one 40 acre parcel and on 57 acre parcel.	Neg	05/27/2014
2014042084	2014-2019 Housing Element Montague, City of Montague--Siskiyou The 2014-2019 Housing Element identifies the policies and programs which the City will implement to ensure that housing in Montague is affordable, safe, and decent. The Housing Element addresses housing needs by encouraging the provision of an adequate quantity of sites designated for multi-family housing, by assisting in affordable housing development, and through the preservation and maintenance of existing affordable housing stock.	Neg	05/27/2014
2014042085	General Waste Discharge Requirements for Recycled Water Use State Water Resources Control Board --Sacramento The State Water Board is preparing a General Order for Recycled Water Use that will be applicable statewide. The General Order will be used by Regional Water Quality Control Boards to streamline permitting of water recycling, which typically is a relatively low threat to groundwater quality. The General Order will allow the use of recycled water consistent with California Code of Regulations title 22, which the exception of groundwater replenishment activities.	Neg	05/27/2014

1992083049	Gravel Extraction on the Lower Mad River Humboldt County --Humboldt The project entails 2 stream encroachments for aggregate extraction from the channel of the Mad River for commercial purposes. The Permittee proposes to extraction up to 50,000 cubic yards of gravel annually from the Christie and Leta Johnson bars.	NOD	
1994092040	BEAUMONT GATEWAY, SPECIFIC PLAN AND EIR Beaumont, City of BEAUMONT--RIVERSIDE CDFW is executing a Lake and Streambed Alteration Agreement (SAA # 1600-2012-0136-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: Rox Consulting, represented by Mr. David Golkar, 10551 Wilshire Boulevard, Los Angeles, CA 90024, Phone: 714-389-9527. Hidden Canyon Industrial Park Project is limited to the development of a 198-acre site with general commercial and light industrial properties, detention basins, open space, mitigation areas, and associated roads. The project includes construction of one crossing over Cooper's Creek. Construction of the project will impact a total of 2.011 acres of CDFW jurisdictional areas consisting of temporary impacts to 0.123 acre of mature riparian vegetation and 0.005 acre of unvegetated streambed, as well as permanent impacts to 1.62 acres of mature riparian vegetation and 0.263 acre of unvegetated streambed. The project includes off-site access on the west side to Jack Rabbit Trail and on the east side to the future 4th Street extension.	NOD	
2007012119	Clear Creek Wastewater Treatment Plant Rehabilitation and Expansion Project Redding, City of Redding--Shasta The Project will be located on the Clear Creek WWTP site approximately 150 feet from the existing WWTP facilities. The Project includes two centrifuge dewatering machines, truck loading bays, an odor scrubber, biofilter, and a vac truck waste receiving station. The Project will remove water from the sludge using centrifuge technology, and then convey the remaining solids to trucks for disposal. Most of the infrastructure will be within a brick building approximately 54 feet wide by 58 feet long.	NOD	
2008121042	Mitaa Plaza Project Glendale, City of Glendale--Los Angeles The proposed Project includes the development of 220 multi-family units on the 2.25 acre project site. Of these units 187 would be located in a 5-story residential building located on the eastern side of the site and 33 would be attached to a 6-story parking garage located on the western side of the site adjacent to the Southern Pacific railroad. The two structures would be separated by the LA County easement. Project approvals included Stage II Design Review, Parking Exceptions, Conditional Use Permit, and introduction of Ordinance authorizing the sale of surplus City property.	NOD	
2010031109	ZC #60, Map 198 (Coram CA Development) Kern County Mojave--Kern This proposed Project involves a minor amendment to the ITP referenced above to extend the deadline to permanently protect the Habitat Management (HM) Lands from January 5, 2014 to January 5, 2015. No other changes were made to the ITP.	NOD

	last for approximately four weeks. Due to its limited scope, construction of the proposed project will generate a minor amount of vehicle trips, and, in turn, will not result in any impacts related to air quality, greenhouse gas emissions, or traffic. The applicant will be responsible for complying with all applicable federal, state, and local laws regulating construction demolition debris recycling, hazardous materials, and stormwater.		
2014048242	Imperial Beach Sun and Sea Festival San Diego Unified Port District Imperial Beach--San Diego The proposed project is the Imperial Beach Sun and Sea Festival, which will take place at the oceanfront areas of Imperial Beach, including Portwood Pier Plaza and Dunes Park, on Saturday, July 19, 2014. The purpose of the event is to enliven the San Diego Bay waterfront and Imperial Beach oceanfront by providing a recreational community event that appeals to all ages. The District will provide event sponsorship and financial assistance for the event, a free community festival that will include art, live music, circus acrobatic performances, sand sculptures, and food concessions. Additionally, a Kids'n Kastles youth sand sculpting completion will be held on the nearby beach. The event has an expected attendance of over 20,000 people. Parking will be available along Seacoast Drive and in public parking lots in the nearby areas.	NOE	
2014048243	Copeland Creek Storm Drain Outfall Replacement California State University, Sonoma Rohnert Park--Sonoma The originally installed storm conveyance line has become submerged in the sediment in the creek bottom and is resulting in frequent flooding on this portion of campus. The storm drain outfall is being relocated above the ordinary high water mark and will discharge onto existing boulder to dissipate energy.	NOE	
2014048244	Rehabilitation Modular Trailer Project Corrections and Rehabilitation, Department of --Los Angeles In order to increase the number of inmates served in rehabilitative programs, CDCR has developed a rehabilitation program at 13 prisons including LAC. This project involves the installation of a new 84x81 foot modular trailer to accommodate the increase in number of inmates that will be receiving rehabilitative programming. To make space for this new trailer, an existing double wide trailer will be relocated to another area within the secure perimeter. Utilities (water, gas, electrical, sewer and phone) and LAN connectivity are accessible in the area for both trailers. The project includes minor trenching to install the necessary water, sewer, electrical and communication ducting/conduits. The relocated trailer will be used by LAC staff for classroom/program space. The project is in a developed and disturbed area of the prison involving only minor trenching for utilities. The project is needed so that CDCR can increase the number of inmates being served by rehabilitative programs prior to their release from prison.	NOE

2014041104	UCI Orangewood Surface Parking Lot Project University of California, Irvine Orange--Orange Implementation of the proposed project would construct an approximately 628 space surface parking lot from the University of California, Irvine Medical Center in Orange, CA. The proposed Orangewood Surface Parking Lot Project would be constructed on a predominately undeveloped approximately 6.2 acre land parcel owned by the University, which is generally bound by East Orangewood Avenue to the north, Orange Center Drive to the east, and North Anaheim Boulevard to the west.	MND	05/27/2014
2014042086	Relocation of Castle Rock State Park Entrance Santa Cruz County Saratoga--Santa Cruz Proposal to relocate the entrance to Castle Rock State Park and construct a gateway to the Park in two phases. Phase One to consist of: demolition of existing structures; grading; construction of new driveway and entrance, including a sign of up to 48 sf in size; deceleration and acceleration lanes; construction of parking lot, amphitheater, restrooms, picnic areas and trails; and installation of landscaping. Phase Two to consist of: construction of a visitors center complex of about 6,000 sf and related improvements.	MND	05/27/2014
2014041103	Proposed Rule (PR) 1153.1 - Emissions of Oxides of Nitrogen from Food Ovens South Coast Air Quality Management District Diamond Bar--Los Angeles SCAQMD staff is proposing to adopt Rule 1153.1 - Emissions of Oxides of Nitrogen from Food Ovens. If adopted, Proposed Rule 1153.1 would limit emissions of nitrogen oxides (NOx) and carbon monoxide (CO) from the combustion of gaseous and liquid fuels in food ovens, roasters and smokehouses. This equipment is currently regulated by SCAQMD Rule 1147 - NOx Reductions from Miscellaneous Sources and Regulation XIII - New Source Review (NSR). Rule 1147 limits emissions of NOx from gaseous and liquid fuel fired combustion equipment that are not specifically addressed in other SCAQMD Regulation XI - Source Specific Standards. However, because control technologies have not matured in a timely manner for commercial food ovens, SCAQMD staff proposed to regulate these sources separately from the Other Rule 1147 sources. Under a separate regulation, the commercial food ovens would be placed on a more suitable compliance schedule with achievable emission limitations. Impacts to any adversely affected environmental areas will be further analyzed in the Draft EA.	NOP	05/27/2014

2009042057	The Erosion Repairs of 5 Bank Protection sites, 2009 and 2010, Sacramento River Bank Protection Project Central Valley Flood Protection Board --Sacramento, Sutter, Yolo The Central Valley Flood Protection Board has coordinated with the U.S. Army Corps of Engineers to design bank protection measures for 5 erosion sites under the Sacramento River Bank Protection Project. Priority erosion sites are areas along the SRBPP levees that are at risk of erosional failure during flooding and/or normal flow conditions. The project consists of implementing bank protection measures at up to 15,636 linear ft of levees along the Sacramento River and tributaries during 2009 and 2010.	NOD	
2011051068	Owens Dry Lake Phase 7a Dust Control Measures Los Angeles, City of --Inyo Amend the authorized improvements to include use of stockpile area and amend land description to include T37-2 sub main realignment, T37-2 access road and stockpile area at Owens Lake. The State Lands Commission action is an amendment to a 20-year General Lease - Public Agency Use through April 30, 2019.	NOD	
2011101048	Chevron USA, Inc. - Thermally Enhanced Oil Recovery (TEOR) Well Operation - Project No. S-1102789 San Joaquin Valley Air Pollution Control District Bakersfield--Kern To drill one temperature observation well (KCL-39 Well 399 243TO) within the Kern River Designated Floodway.	NOD	
2012022047	Alta Mira Public Access Acquisition Project Tahoe Conservancy South Lake Tahoe--El Dorado The California Tahoe Conservancy proposes to acquire an 18-month option for the acquisition of the fee interest in a 0.55 acre parcel commonly known as the Alta Mira property (3339 Lake Tahoe Boulevard (U.S. Highway 50), South Lake Tahoe, CA). If the option is exercised the sellers would deliver the property to the Conservancy at the close of escrow in a condition that immediately affords visual access to Lake Tahoe by removing all visible improvements and personal property.	NOD	
2013041078	Ocotillo Wells Solar Major Use Permit San Diego County --San Diego The project includes a Major Use Permit for an approximately 336-acre photovoltaic (PV) or concentrator photovoltaic (CPV) solar facility on an approximately 440-acre property.	NOD	
2013072021	Offshore Geophysical Permit Program Update California State Lands Commission -- The CSLC has statutory authority, pursuant to Public Resources Code section 6826, to issue geophysical permits in State waters to qualified permittees for the use of low energy geophysical equipment to perform geophysical surveys of the	NOD

	ocean bottom, subject to specified terms and conditions. The CSLC has proposed the Low Energy Offshore Geophysical Permit Program (OGPP) Update as a means to develop and implement a revised permitting structure for offshore geophysical surveys it permits under existing law, in order to establish consistent guidance, limitations, and permit conditions and ensure that the activities of permittees do not result in a significant effect on the environment.		
2014022014	Feather River Parkway Phase II Project Yuba City Yuba City--Sutter The City of Yuba City is proposing to build additional recreational improvements at the Feather River Parkway. The City received funding for the Project from the State of CA Natural Resources Agency through the CA River Parkways Grant Program, Bond Act of 2006 (Prop 84). The Project would be 84 acres in size, create 2.6 miles of walking and bicycling trails, add picnic areas, educational displays, and improve access to a recreational pond. The Project would restore 2 acres of riparian area and preserve 10 acres of riparian woodlands. The proposed Project is part of the City's 2002 Feather River Parkway Strategic Plan.	NOD	
2014031012	2014 San Joaquin River Restoration Program Juvenile Fall-Run Chinook Salmon trap and Haul Study California State Lands Commission Fresno--Fresno, Madera The U.S. Bureau of Reclamation intends to conduct a trap-and-haul study to move juvenile fall-run Chinook salmon downstream of the San Joaquin River Restoration Program's Restoration Area, where no migration barriers exist. The effort will evaluate the feasibility of implementing similar rapid response actions in the future, and monitor fish movements in certain areas of the San Joaquin River. The action will study the feasibility of taking adaptive management action to respond to unsuitable environmental conditions in the San Joaquin River down river of Friant Dam.	NOD	
2014032009	Hercules LLC/Prologis Pipeline Removal Project California State Lands Commission Hercules--Contra Costa Hercules LLC intends to remove an approximately 2,020-foot-long 8-inch-diameter non-operational, wastewater pipeline that will take about three weeks (one week onshore and two weeks offshore) of construction to remove. The 2,000-foot portion of the pipeline is submerged offshore in San Pablo Bay and a 20-foot portion is located under the shoreline riprap, both portions are under the jurisdiction of the CSLC. The remaining 140-foot onshore portion of the pipeline is under the UPRR and city of Hercules jurisdiction and will be grouted, capped, and left in place.	NOD	
2014032055	2014 Water Transfer Program Biggs-West Gridley Water District Gridley--Butte Biggs-West Gridley Water District will idle up to 5,900 acres of rice land to make up to 19,470 acre-feet of water available for transfer to certain buyers comprised of the following: Central Coast Water Authority and West Hills Farm Services.	NOD

2014049018	Grizzly Flat THP Forestry and Fire Protection, Department of --Santa Cruz The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0042-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Elizabeth Reta.	NOD	
2013118184	2,850-Foot Pressure Zone Project Los Angeles County --Los Angeles The California Department of Public Health (Department) is the responsible agency. The Department's Safe Drinking Water State Revolving Fund Program is providing state funds for the project. The Los Angeles County Waterworks District proposes to evaluate two alternatives: 1) Construct a 1.2 million gallon steel tank in the 2850 Zone, and 2) Modify the existing Cool Pump Station and adjacent water mains to improve water quality.	NOE	
2014048254	Surface Treatment/Upgrade Safety Features - 41470 Caltrans #11 San Diego--San Diego Install and upgrade drainage facilities; apply high friction surface treatment within the traveled way; add rumble strips to the shoulders; and stabilize an eroded slope on SR-67, just north of Lakeside.	NOE	
2014048255	Montgomery Middle School Gym/Multipurpose Building Project Cajon Valley Union School District El Cajon--San Diego This project includes a new Gymnasium/Multipurpose Building and renovations to the existing campus.	NOE	
2014048256	Water Trough Improvements to Improve Water Quality State Water Resources Control Board --Mendocino Replace up to 8 existing water troughs that currently overflow onto unprotected soils creating turbid runoff. Troughs are located in grassland areas on the ridge above even ephemeral creeks. The old troughs will be removed and recycled. A pad of gravel (18 ft x 18 ft) will be installed in the same location to hold the trough and keep mud from forming where cattle stand next to the trough. A new trough will be installed and water outflow will be altered to avoid overflows and direct any outflow into a pipe which will deposit the runoff a substantial distance from the trough area eliminating the mud. Troughs will have escape structures for small animals.	NOE	
2014048257	Ryan Johnson Central Valley Flood Protection Board Marysville--Yuba Construct a house, garage, a water well pump house and install a propane tank.	NOE	
2014048258	Dewey Elementary School Marquee Sign Project San Diego Unified School District San Diego--San Diego The San Diego Unified School District (District) proposes to install one marquee sign at the Dewey Elementary School campus. The marquee sign would be 5x9 feet, single sided, internally illuminated with LED lighting, and wall mounted on the face of the existing school building. The marquee sign would be located approximately 296 ft in distance from face-of-building to face-of-sidewalk located	NOE

2009041065	General Plan Amendment No. 960: Five-Year Update of the Riverside County General Plan Riverside County --Riverside The action to be evaluated by the EIR is the adoption of Riverside County General Plan Amendment (GPA) No. 960, the General Plan 5-Year Update Project, which proposes a variety of revisions to the current County General Plan to update existing policies, maps and implementing directions, and provide new information and policies where needed. This will ensure that the County's General Plan continues to provide a clear and consistent set of directions for implementing the County Vision throughout the County over the next five years and into the future (2035 and beyond).	EIR	06/12/2014
2012052070	Integrated Mosquito Management Program PEIR Solano County Mosquito Abatement District --Solano The Solano County Mosquito Abatement District under-takes activities through its integrated Mosquito Management Program (IMMP) to control mosquitoes in Solano County. The District is preparing a PEIR to evaluate the effects of the continued implementation of the control strategies and methods prescribed in its IMMP.	EIR	06/13/2014
2013111022	Lido House Hotel Newport Beach, City of Newport Beach--Orange The City plans to lease the majority of the project site for the development of a 130-room Lido House Hotel. The proposed hotel would also include meeting rooms, accessory retail spaces, a restaurant, lobby bar, rooftop bar, guest pool and recreational areas, and all required appurtenant facilities including, but not limited to on-site parking, landscaping, utilizes, and adjoining public improvements. The hotel would be no larger than 99,625 gross sf. The project would also provide 143 surface parking spaces and would accommodate additional parking through active parking management including valet parking service. The proposed structures would be ~4 stories with architectural features up to 58.5 feet in height. The project would also include public open spaces consisting of pedestrian plazas, landscape areas, and other amenities proposed to be located along Newport Boulevard and 32nd Street.	EIR	06/12/2014
2014041107	ENV-2013-1998-MND / 2925 W. Waverly Drive Los Angeles, City of --Los Angeles A Vesting Tentative Tract Map involving a Small Lot Subdivision for five lots in the RD1.5-1XL Zone. The applicant wants to do early start construction and has applied for a Zoning Administrator's Adjustment to permit reduced side yards, reduce area between buildings and to permit a 3-foot guardrail over the otherwise required 30-foot height limit for a maximum height of 33-feet.	MND	05/28/2014
2014041109	Stoller Winery Minor Use Permit; DRC 2013-00014 San Luis Obispo County --San Luis Obispo Minor Use Permit to allow for a 13,525 sf production winery that would be constructed in two phases.	MND	05/28/2014

2014041110	Centrally Grown Minor Use Permit; DRC 2012-00119 San Luis Obispo County Cambria--San Luis Obispo The project would perform interior and exterior structural modifications to existing on-site structures to meet current Building Code requirements. The project would include a change in use of an existing single family residence and commercial storage structure to commercial retail.	MND	05/28/2014
2014042089	Rolling Hills Lane Minor Subdivision Solano County Vacaville--Solano Subdivide 41 acres in two parcels - one 21 acre (Parcel 1) and one 20 acre (Parcel 2), served by existing private lane. Private septic system and water wells are proposed.	MND	05/28/2014
2014042090	Highway 1 Slope Stabilization Caltrans #6 --Sonoma Caltrans proposes to construct two soil nail walls (retaining walls), one above the other. The northbound lane of Highway 1 would also be realigned slightly to the north. First, the highway would be widened on the north side from 1 to 16 feet for a distance of approximately 400 feet. When completed, the roadway would have two 12-foot-wide travel lanes, widened from approximately 10 feet. The northbound lane would have a 4-foot-wide paved shoulder; the southbound lane paved shoulder width would vary from 1 to 10 feet.	MND	05/28/2014
2014042091	Del Monte Warehouse Project Alameda, City of Alameda--Alameda The project sponsor proposes to adaptively re-use the Del Monte Warehouse building and develop several new structures on the Del Monte Warehouse site ("site" or "project site"), which is located at 1501 Buena Vista Avenue in the north-central portion of the City of Alameda. The 11.51-acre site contains a large, brick warehouse, which was formerly used as a cannery/warehouse in the 1960s, and occupies approximately 7 acres of this property. The project entails the Del Monte Project Master Plan, which establishes the planning and design principles guiding the implementation of land use designations, site layout, landscaping and architectural design on the project site. The Master Plan would include construction of up to 414 units of residential lots, townhomes and flats, and up to 25,000 sf of retail space. The Del Monte Warehouse would contain approximately 309 of the total number of residential units and potentially all of the commercial space proposed; the remainder of the residential units and commercial space, if any, would be housed in several new structures that would be built on currently vacant portions of the site.	MND	05/28/2014
2014041108	The Village at Los Alamitos Los Alamitos, City of Los Alamitos--Orange The proposed land uses for the Village at Los Alamitos Specific Plan include a mixed-use development comprised of 133 multiple-family residential dwelling units at a density of 62 dwelling units per acre. In addition, the project includes 4,600 sf of retail/commercial floor area. Project implementation will require approval of a General Plan Amendment (GPA). Zoning Ordinance Amendment, Site Plan Review and Specific Plan.	NOP	05/28/2014

2014042087	County General Plan and Airport Land use Compatibility Plan updates Stanislaus County --Stanislaus Stanislaus County proposes to update its General Plan and Airport Land Use Compatibility Plan to extend the 20-year planning horizons to 2035 and reflect the population projections adopted by the Stanislaus Council of Governments for the 2014 Regional Transportation Plan/Sustainable Communities Strategy. The update does not include any changes in Land Use map designations, but rather is a 'clean up' of the General Plan to incorporate changes in state law and local standards, such as SB 375, SB 5 (floodplains), AB 359 (groundwater mapping), and SB 244 (disadvantaged communities). The update is limited to revisions in the land use, circulation, conservation/open space, noise, and safety elements. The ALUCP update addresses land uses/changes around each airport using the pertinent Airport Layout Plan, Master Plan, or airport diagram as a foundation.	NOP	05/28/2014
2014041111	Tentative Parcel Map SUBTPM19505 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino Environmental Assessment and Tentative Parcel Map SUBTPM19505 - Royal Falcon Investment Company, LLC - A request to subdivide a 0.29 acre parcel into two lots for a site located on the northeast corner of 24th Street and Center Avenue in the Low (L) Residential Development District; APN: 0209-122-01. 2014041112	Conditional Waiver of WDRs for Agricultural Wastewater Discharges in the Coachella Valley Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside Coachella--Riverside This regulatory action is for a proposed Conditional Waiver of Waste Discharge Requirements (WDRs). The intent of the Conditional Waiver is to ensure agricultural wastewater discharges and discharges of wastes from drain maintenance in the Coachella Valley in Riverside County, occur in a manner that does not adversely affect the beneficial uses defined in the Basin Plan. Accordingly, the proposed Conditional Waiver establishes conditions for agricultural wastewater discharges originating within the Coachella Valley. The Conditional Waiver also establishes conditions for drain maintenance discharges that occur as a result of drain operation and maintenance (O&M) activities.	Neg	05/28/2014
2004082096	Trans Bay Cable Project Pittsburg, City of Pittsburg, San Francisco--Contra Costa, San Francisco The project consists of the installation of three emergency generators at an existing Converter Station located at 570 West 10th Street in Pittsburg. Subject to approval of the city of San Francisco at 435 23rd Street. The purpose of the installation is to provide back-up power to the Converter Stations in the event of a power loww. The project also includes a Quick Start component. The Quick Start upgrade to the existing computerized operating system once the software upgrade to the existng San Francisco Converter Station is complete.	NOD	
2009071112	South Region High School No. 8 Los Angeles Unified School District Maywood--Los Angeles The project is DTSC's approval of a Removal Action Workplan (RAW) to clean up the proposed South Region High School #8, Maywood site (the Site) pursuant to Chapter 6.8 of the Health and Safety Code. 2014048337	O&M Erosion Repair M.M. 4.43 Water Resources, Department of Byron--Alameda DWR staff shall repair erosion damage at Mile Marker 4.43 located along the CAAQ. The erosion site is approximately 0.7 acre and located on the levee embankment facing the road on the primary side of the aqueduct. The erosion site shall be prepared first removing any vegetation found within the eroded area, and then soil shall be compacted with a sheepsfoot. Fill dirt will be used to reshape the eroded area and compacted to original slope and consolidation. Aggregate base shall be re-applied to areas that previously had aggregate base. The entire project is within DFD right of way.	NOE	
2014048338	DFD Switchch Yard Mowing Water Resources, Department of Byron--Contra Costa DFD staff shall remove all vegetation by mowing within the perimeter of the field located in front of the O&M switch yard. Approximately one acre of land will be disturbed. Material removed will be left as mulch in the same area. All work to take place is within DWR right of way. Access to the site is directly off Kelso Road into the DFD Headquarters property.	NOE	
2014048339	BAPP Fire Break Mowing Water Resources, Department of Byron--Contra Costa DFD staff shall remove all vegetation within an approximate 25 to 30 foot swath beginning at the BAPP main access road (Kelso Road) to the administrative building overlook (to the southeast) extending approximately one quarter mile. This swath includes all vegetation from the fence line to the roadway. Mowing shall follow the fence line, which also serves as right of way. Mowing shall create a firebreak behind O&M fuel tanks located between the road and the fence line.	NOE	
2014048340	Guard Shack Mowing Water Resources, Department of Byron--Contra Costa DFD staff shall remove all vegetation within the perimeter of the field adjacent to the main security guard shack at the front entrance to DFD headquarters. Access to the site is directly off Kelso Road, which is the main entrance into DFD. The entire compound is within DFD right of way. Equipment staging will be either in the footprint or approximately 500 feet north in the DFD equipment storage lot.	NOE	
2014048341	Issua a Right of Entry and Easement to Placer County Parks and Recreation, Department of --Placer Issue both a Right of Entry (ROE) to Placer County to complete water quality improvements and a permanant easement to allow Placer County and their contractors to perform ongoing maintenance once the project is complete. Placer County will notify the Department of Parks and Recreation (DPR) at least one week prior to performing any work, including routine maintenance, within the easement boundaries. Advance notice is not required when responding to an emergency, however, DPR will be notified as soon as feasible after Placer County personnel arrive at the site. All work constructed within the boundaries of the easement, including routine maintenance will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, CEQA, and Section 5024 of the Public Resources Code, with regard to work	NOE

2010041046	Don Chapin Company Concrete Batch Plant Merced County --Merced The George Simmons Minor Subdivision & Don Chapin Company Concrete Batch Plant Project consists of the following two sub-projects: 1) Minor Subdivision No. MS07-027 to subdivide 26.9 acres into four parcels (Parcel 1 = 15.0 acres, Parcel 2 = 3.46 acres, Parcel 3 = 3.46 acres and Parcel 4 = 5.0 acres) to be sold for future industrial and commercial development. 2) Administrative Permit No. AA08-033 to construct a concrete batch plant on the 7.07-acre portion of Parcel 1, including a batch plant with three bulk cement storage silos, portable cement silo, 500 sf batch trailer, 4 propane tanks, 6,800 sf concrete block casting area, 2,000 to 4,000 gallon diesel fuel tank, 120,000-gallon reclaimed water system, admix area, pump house, aggregate storage area, truck wash area and related returned concrete collection facilities, and parking area.	EIR	06/13/2014
2014012050	Moscone Center Expansion Project San Francisco, City and County of San Francisco--San Francisco Increase the gross square footage of the Moscone Convention Center by approximately 306,000 sf. New construction would be primarily above grade both north and south of Howard Street. The expanded Moscone North structure would be approximately 54 feet in height and the Moscone South structure would be approximately 95 feet in height. Additional space would be created by excavating in two locations under Howard Street and expanding the existing below-grade exhibition halls that connect the Moscone North and South buildings. The proposed project would create a total of approximately 580,000 sf of contiguous exhibition space. The proposed project would also reconfigure the existing adjacent bus pick-up and drop off facilities and create two pedestrian bridges spanning Howard Street.	EIR	06/13/2014

2012052008	Broadway/Valdez District Specific Plan Oakland, City of Oakland--Alameda The Broadway Valdez District Specific Plan will be a 25-year planning document that provides a vision and planning framework for future growth and development within the Plan Area, which runs along Oakland's Broadway corridor between Grand Avenue and I-580. The plan provides a comprehensive vision for the Plan Area along with goals, policies and development regulation to guide the Plan Area's future development and serves as the mechanism for insuring that future development is coordinated and occurs in an orderly and well-planned manner.	FIN	
2012061068	Silverado Power West Los Angeles County Los Angeles County Lancaster--Los Angeles NOTE: Final 1 CD Silverado Power, LLC (Silverado Power) is a utility scale solar photovoltaic (PV) developer proposing the development of six solar PV sites (referred to as the Overall Development) addressed in this EIR. The Overall Development is located in an area of the western Antelope Valley that was historically used for agricultural activities. Production and economic constraints led to the cessation of agricultural activities in the area, resulting in disturbed and vacant land. Silverado Power has located six SGFs on disturbed and vacant land throughout the western Antelope Valley. The Overall Development proposes to increase electricity generated from renewable technology by generating 172 MW of electrical energy from the sun. Recent legislation enacted in CA encourages the development of renewable energy resources to reduce reliance on fossil fuels, diversify energy portfolios, reduce greenhouse gas emissions, and assist creation of "green" jobs within the state of CA. The Overall Development proposes to assist CA in meeting the newly established Renewable Energy Portfolio Standards (RPS). Senate Bill 14 established RPS targets for CA, stating, "all retail sellers of electricity shall serve 33 percent of their load with renewable energy by 2020." State government agencies have been directed to take all appropriate actions to implement this target in all regulatory proceedings, including siting, permitting, and procurement for renewable energy power plants and transmission lines. The six sites qualify as an eligible renewable energy resource as defined by the CA Public Resources Code.	FIN
