STATE CLEARINGHOUSE

NEWSLETTER

August 1-15, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 1-15, 2009.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2007041047	Farm of the Future Master Plan West Hills Community College District Coalinga--Fresno A Master EIR has been prepared for the Farm of the Future Master Plan, which provides additional agricultural and related facilities to meet the education needs of students at West Hills College Coalinga. The plan includes shops, offices, classrooms, labs, an indoor pavilion, and outdoor pavilion with support arenas and staging areas, and other related improvements.	EIR	09/16/2009
2008042099	Wildlife Hazard Reduction and Resource Mangement Plan East Bay Regional Parks District Pinole, Richmond, Berkeley, Oakland, Orinda, Alameda, ...--Alameda, Contra Costa NOTE: Review Per Lead EBRPD has prepared a long-range Draft Wildlife Hazard Reduction and Resource Management Plan to guide ongoing vegetation management activities on EBRPD park lands along the urban-wildland interface to reduce the likelihood of a catastrophic, wind-driven wildlife, such as the 1991 Oakland Hills fire. EBRPD has determined that there are areas of high hazard fuels within the parks that have significant potential to produce or conduct a devastating wildlife, and action is needed to reduce the risk of a fast-moving wildland fire emerging from or moving through the parklands and igniting residential neighborhoods and other structures and facilities adjacent to the parks. Similarly, the potential for fires starting on and moving from adjacent non-park lands and propagating through these high hazard fuels to cause unacceptable damage to EBRPD facilities and resource is great and warrants mitigation. Resource management considerations and best management practices (BMPs) to avoid or minimize environmental impacts will be incorporated into the Plan to ensure that fuel reduction treatment activities are carried out in a manner consistent with protecting environmental resources in the public parklands. While the study area for the Plan includes the 13 hillside parks (Sobrante Ridge Regional Preserve; Kennedy Grove Regional Recreational Area; Wildcat Canyon Regional Park; Tilden Regional Park; Claremont Canyon; Temescal Regional Recreational Area; Robert Sibley Volcanic Regional Preserve; Huckleberry Botanic Regional Preserve; Roberts Regional Recreational Area; Redwood Regional Park; Leona Canyon Regional Open space and Preserve; Anthony Chabot Regional Park; and Lake Chabot Regional Park) and seven shoreline parks (Point Pinole Regional Shoreline; Miller/Knox Regional Shoreline; Brooks Island Regional Shoreline; East Shore State Park; Middle Harbor Shoreline Park; Robert W. Crown Memorial State Beach; and Martin Luther King Jr. Regional Shoreline), the main focus of the Plan is the wildland-urban interface along the western edge of the East Bay hill parks and the shoreline parks of Point Pinole and Miller/Knox, where high wildfire hazards and fuel loads are present. 	<p>Marcos campus from the present through 2022. The overall purpose of the Master Plan is to increase the on-campus capacity to accommodate the anticipated growth in student enrollment up to a maximum of 25,000 students through the year 2022. The Master Plan recommends future physical improvements and identifies education programs and services needed to accommodate enrollment of 25,000 at the San Marcos campus. This will be accomplished via: infrastructure improvements; replacement of older, single-story buildings and inadequate temporary space with new multi-story buildings and permanent facilities; modernization of the existing buildings to remain; consolidation of instructional space; environmentally sensitive planning; establishment of an Open Space Preserve.</p>		
2006071029	<p>Wal-Mart Distribution Center Merced, City of Merced--Merced</p> <p>The primary building on the site will be a 1.1 million square foot regional distribution warehouse, which will be primarily a materials handling operation whereby most goods typically are conveyed through the distribution center. The facility will not handle groceries, such as fruit, vegetables, dairy products, bakery goods, and meat. There will also be warehouse support space to house administrative offices, the data processing center, and a cafeteria. Other internal office support areas for administrative uses include an electric forklift battery charging maintenance area and an aerosol product storage area. Approximately 37,000 square feet of floor space will be devoted to office support.</p>	FIN	
2009081002	<p>River Avenue Storm Drain Improvements Project Long Beach, City of Long Beach--Los Angeles</p> <p>The inadequate River Avenue drainage system has resulted in flooding to adjacent residents. The project proposed to bring the system flood protection in this area to a full 10 yr protection level. The proposal involves construction of a parallel storm drain system along River Avenue (which is located Wardlow Road/23rd Street to the north to an underground storage (detention) basin proposed on the SCE property). The detention basin would temporarily hold 2 acre ft of storm water during heavy flows and then release the flows as the storm abates. The proposed detention basin would allow the downstream pipe to no longer flow full. The City has elected to proceed with the 10 yr frequency flood level protection improvement option.</p>	JD	09/01/2009
2009081004	<p>Jon Sala Et Al Minor Subdivision Monterey County Salinas--Monterey NOTE: Review Per Lead</p> <p>Minor Subdivision Tentative Map to allow the division of a 19.04 acre parcel, zoned Low Density Residential - 5 ac min lot size, into 3 parcels of 5.43 acres (Parcel A), 5.25 acres (Parcel B), and 8.36 acres (Parcel C), respectively. The project proposes a water system to serve the 2 new parcels. The project is located at 1040 San Juan Grade Road, Salinas, North County Non-Coastal Area.</p>	MND	09/03/2009

2009081005	General Plan Amendment No. 09-0448 - Hwy 178 Circulation Amendment Bakersfield, City of Bakersfield--Kern NOTE: Reference SCH #2007101060 This project includes a General Plan Amendment of the Circulation Element to change the road designation of SR-178 from an arterial designation to a collector designation starting from the intersection of Rancheria Road to the mouth of Kern Canyon; that includes ~2.85 miles of roadway. Arterial roadways require the right-of-way to be 110 ft where possible with the potential for 6 lanes of travel. Collector roadways require only 4 travel lanes within 90 ft right-of-way.	MND	09/01/2009
2009082000	Yuba Community College District Colusa County Outreach Facility Yuba Community College District Williams--Colusa The 4.3 acre project site (a portion Valley Ranch Unit 6, Phase 1) is located north of E Street and west of Husted Road in the City of Williams. The proposed educational facilities would consist of 4 classrooms, offices for administrative and student services, and a conference room. The proposed building is ~9,800 sf in size. Located at the intersection of proposed Ella Street and Margurite Street, the site would have access from Husted Road and E Street. It is anticipated that construction would begin in 2009 and would be completed in 2010. YCCD estimates that ~120 students in 4 classrooms.	MND	09/01/2009
2009082001	Lower Calaveras River Anadromous Fish Barriers Improvement Project Stockton East Water District Stockton--San Joaquin The Proposed Project consists of replacing or retrofitting up to 37 instream structures identified as passage impediments to salmon and steelhead trout in the lower Calaveras River below Bellota Weir. The first phase of the project has been funded by the U.S. Fish and Wildlife Service's Anadromous Fish Restoration Program, Stockton East Water District, and the California Department of Fish and Game's Office of Spill Prevention and Response.	MND	09/01/2009
2009081001	Morro Bay to Cayucos Connector Trail San Luis Obispo County --San Luis Obispo The proposed project begins from the south at the State Parks staging area, near the intersection of Yerba Buena Street/Highway 1 in the City of Morro Bay, and extends northerly to Norma Rose Park. It includes construction of the bikeway and other associated improvements. The Caltrans Highway Design Manual provides a description of bikeways, and those descriptions are also utilized in the EIR. They include: Class I Bikeway: Provides a completely separated right of way for the exclusive use of bicycle and pedestrians with cross flow minimized (e.g., the Bob Jones Bikeway in Avila Beach); Class II Bikeway: Provides a striped lane for one-way bike travel on a street or highway (e.g., Highway 1 between Cayucos and Morro Bay); and Class III Bikeway: Provides for shared use with pedestrian or motor vehicle traffic (e.g., surface streets such as Ocean Boulevard and Beachcomber Lane). 	miles west of the Oakdale Portal in an unincorporated area of Stanislaus County, and the Pelican Crossover, located west of the San Joaquin River at the eastern end of the Western Segment located about 8 miles southwest of the City of Modesto; Ancillary project components comprised of site improvements at the Oakdale Portal, construction of 2 new throttling stations along the SJPL System in the Eastern Segment, and upgrade of existing discharge facilities at Cashman Creek; Construction of a new truss bridge aerial structure to carry SJPL No. 4 across the CA Aqueduct; Pelican Crossover intermittent drainage (e.g., maintenance, emergency) options which will involve drainage through an unnamed drainage canal to the San Joaquin River, and discharge of water to U.S. Fish and Wildlife Service property to irrigate a managed wetland area.		
2007052059	Alta Hill Treatment Plant Clearwell Replacement Grass Valley, City of Grass Valley--Nevada Construction of 2 adjacent one-million gallon welded steel water storage tanks (total 2 million gallons) to replace the existing 2.1-million gallon covered reservoir, providing chlorine contact time, fire and storage system. The proposed project also includes additional pumps and filters. the Water storage tanks would be 27.5 ft high, located in an existing storage basin.	NOD	
2007082139	Pine Gulch Creek Enhancement Project Marin County --Marin Pine Gulch Creek Watershed Enhancement Project filed applications to appropriate water by permit. This project is a voluntary and cooperative effort of the participating farms. The proposed project is intended to enhance summer flows in Pine Gulch Creek by utilizing wet season appropriate diversions in lieu of dry season riparian diversions. The project proposes the construction of 2 onstream reservoirs, 3 offstream reservoirs and the dedication of summertime riparian diversions to instream flows pursuant to Water Code section 1707.	NOD	
2008121085	Muir College Apartments Project University of California, San Diego La Jolla--San Diego Themuir College Apartments project would consist of an approximately 90,000 gross square-foot (gsf) student residential apartment building consisting of approximately 288 apartment style beds for second year students. The residential building would have an H-shaped footprint with an open deck bridge connecting the two towers at every level. Each lower would be nine stories, and would be connected by an open deck bridge to enhance ventilation. The ground level of the open deck bridge would serve as a central walkway pedestrian corridor. A sunken entry plaza/amphitheater and meeting plaza with seating would be located north of the towers. Covered bicycle parking would be located along the southeastern portion of the building. The building would also have a facilities support area, meeting room, and Grab and Go cafe, in addition to the housing described above. As stated in the 2004 Long Range Development Plan, the campus goal is to provide housing for 50 % of eligible students in campus facilities. In recent years, campus enrollment has surged and the current demand for housing exceeds the available on-campus housing supply.	NOD

	the City of Arcata's wastewater ponds from Humboldt Bay. Repairs will be made along the inboard and outboard sides (bay side) of both Klopp Lake and the wastewater pond. The project involve activities to repair the existing islands located in Klopp Lake that provide habitat for wildlife including a variety of birds and water fowl.		
2009088006	Time-Critical Excavation Workplan for The Planter Area at the Former Oakdale Manufactured Gas Plant Site Toxic Substances Control, Department of Oakdale--Stanislaus Approval of a Time-Critical Excavation Workplan (TCEW) by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6.8. The final TCEW was submitted to DTSC on July 30, 2009 by Parsons on behalf of Pacific Gas and Electric Company (PG&E). The TCEW focuses on excavation and removal to mitigate soils impacted with excessive levels of Total Petroleum Hydrocarbons (TPH), polycyclic aromatic hydrocarbons (PAHs), and arsenic to a depth of approximately two feet in a 6 foot by 150 foot planter area.	NOE	
2009088007	Fence Installation at Park Residence Parks and Recreation, Department of --San Benito Install an approximately 360 ft long by 6 ft high fence around a park residence at Fremont Peak State Park for both privacy and security. Excavate approximately 36 post holes about 24" deep and install approximately 2" diameter galvanized posts, install 2"X4"X10" wood fence rails and 1"X6"X6" wood planks horizontally using steel pipe grip ties. A 14' wide and 51/2' tall vehicle access gate and a 4' wide and 51/2' traffic gate will be installed on the south section of gate.	NOE	
2009088008	Rincon Forest Fire Station-Replacement/Reconstruction of Electrical/Utility Services Forestry and Fire Protection, Department of Pauma Valley--San Diego The California Department of Forestry and Fire Protection (CalFire) is coordinating with the San Diego Power and Electric (SDGE) Company in relocating the electrical and other utility services to the Rincon Forest Fire Station located in the San Diego Unit. SDGE provides the power pole that supports the electrical service drop to the fire station. The power pole has dry rot and must be replaced or removed from the system. SDGE is planning to remove/abandon the power pole and relocate the electrical services to the next available power pole, which is located on the northeast corner of the fire station property (approximately 45 feet away from the current location). The SDGE project provides the opportunity for the Rincon Fire Station to reposition/convert the above ground electrical and other utility services to underground services. Moreover, the fire station must upgrade the existing electrical service to support the electricity requirements for the new apparatus garage/office building. Specifically, this project is to cut a trench between the new location of services to the electrical panel box at the fire station, then place electrical and other services into conduits, fill in the trench and lastly, re-contour the surface to original grade. The trench is approximately 145 feet in length, 2 feet wide and 3 feet in depth. Regulations governing underground electrical services require a 3-foot minimum trench depth. Repositioning the electrical and other utility services underground ensures protection from nearby tree or branch failure impacts. The placement of the trench is positioned to give consideration for the root systems of the nearby trees, especially the big oak tree and sycamore trees. Trenching operations will utilize oak tree protection guidelines	NOE

	during trenching operations.		
2009088009	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0123, Arcata Levee Repair Project, Humboldt County Fish & Game #1 Arcata--Humboldt Install a total of 2,100 linear feet of rip rap along the Klopp Lake margin on existing levee, place 670 linear feet of rip rap and/or logs around the perimeters of three islands, and construct approximately 0.285 acres of salt marsh along the banks of Jolly Giant Creek (Butcher Slough).	NOE	
2009088010	Leasing Office Space for Department Programs Food and Agriculture, Department of Sacramento--Sacramento CDFA is moving 2 programs from 1220 N Street to 2014 Capital Avenue. A total of 42 personnel will be moving.	NOE	
2009088011	Installation of Mechanical Trash Rack on Mariner Square Drive for Webster Street Pump Station Alameda, City of Alameda--Alameda Creation of a trash rack chamber on Mariner Square Drive to serve the Webster Street Pump Station, located on the north end of Mariner Square Drive. Due to layout of the pump station, it is not possible to place the trash rack on the roof of the facility. Instead, a trash rack chamber, conveyor system and collection facility will be developed on the west side of Mariner Square Drive approximately 170 feet to the south of the pump station.	NOE	
2009088012	Vegetation Management Plan for Fire-damaged Areas of Cuyamaca RAncho State Park Parks and Recreation, Department of --San Diego Adopt and implement vegetation restoration plan for fire-damaged areas of Cuyamaca RAncho State Park. Ninety-five percent of the park's mixed conifer forest was burned in the 2003 Cedar Fire, for which a state of emergency was declared by the governor.	NOE	
2009088016	South Carlsbad Special Event Site (08-09-SD-36) Parks and Recreation, Department of --San Diego This project consists of the re-installation of an ADA approved fire ring and 4' fencing with drive through gates on the south end of area closest to the frontage road. This area is located on the far northwest corner encompassed within South Carlsbad State Beach, where there is viable park land to attempt a pilot program for special events. A pit of approximately 5" in depth and 36" in diameter will be dug for fire ring.	NOE

2009022049	Morgan Hill General Plan Circulation Element Update Morgan Hill, City of Morgan Hill--Santa Clara The city of Morgan Hill General Plan Circulation Element identifies goals and policies for travel and transportation and the location of existing and proposed transportation routes and other local public facilities for train, bus, bicycle and pedestrian travel within the City. The proposed project, an update of the City's General Plan Circulation Element, modifies the City's planned future roadway network as well as the City's Level of Service policies for roadways. The project also proposes new policies related to smart growth principles and a multi-modal system including providing for balanced pedestrian, bicycle, and transit facilities along with vehicular facilities.	EIR	09/17/2009
2002071009	Blackwell Minor Use Permit / DRC2008-00096 San Luis Obispo County Paso Robles--San Luis Obispo Hearing to consider a request by Terry Brady and Claudine Blackwell for a Minor Use Permit to amend an existing use permit (D010122P) for a winery. The original permit authorized a winery including processing, tasting, special events, storage, and administrative uses. The proposed project would authorize construction of a new barrel storage building (10,500 sf), conversion of an existing 1,950 sf agricultural building to be used for case good / barrel storage, and a partial conversion of a existing 1,500 sf shopp building to be converted to a 600 sf case goods storage. The project proposes a production increase to from 5,000 cases to 20,000 cases per year.	MND	09/02/2009
2009081007	ENV-2009-1864-MND Los Angeles, City of Los Angeles, City of--Los Angeles The project involves the construction, use and maintenance of a new 2 story single family residence totaling 1,613 sf with an attached 243 sf carport. In addition, a proposed 2,000 sf equine pad is proposed to include equine stables and trailer parking. The total site is 108,240 sf (2.48 acres) located in the RA-1-K Zone. Pursuant to LAMC Section 11.5.7-C, the applicant is seeking Project Permit Compliance Review for the San Gabriel/Verdugo Mountains Scenic Preservations Specific Plan (Ordinance No. 175,736).	MND	09/02/2009
2009081009	Avila Beach Colony Townhomes LLC Coastal Development Permit/Minor Use Permit and Parcel Map San Luis Obispo County --San Luis Obispo Request by Avila Beach Colony Townhomes LLC for a Tentative Parcel Map/Development Plan/Coastal Development Permit for a planned unit development including: 1) subdivision of an existing 10,621 sf parcel into 2 residential parcels of 2,495, and 1,908 sf each, and a 6,218 sf common area parcel, and 2) development of 2 individual residential units of 3,194 and 2,042 sf on the proposed residential parcels. The project will result in the disturbance of the entire parcel though development, landscaping and associated improvements. The project includes street improvements such as curb, gutter, and sidewalk. The proposed project is within the Residential Multi-Family land use category and is located at 2825 and 2835 Avila Beach. 2008021087	<p>North Village Center Redevelopment Project Long Beach Redevelopment Agency Long Beach--Los Angeles</p> <p>The proposed project is a mixed-use "village center" with the following primary components: Up to 61 units of multi-family housing in row houses, courtyard units, and units built atop ground floor non-residential space; Up to 36,000 sf of commercial retail space, including restaurant space, oriented primarily toward Atlantic Avenue; A public library and community center totaling ~30,000 sf fronting Atlantic Avenue on the east block.</p> <p>A General Plan Amendment and Zoning Ordinance Amendment would be required to allow the proposed mix of uses and density.</p>	EIR	09/21/2009
2008032116	<p>R&L Carriers Freight Terminal Oakland, Port of Oakland--Alameda</p> <p>The project sponsor, R&L Carriers, proposes to construct a 61 dock truck freight transfer terminal to be built on a vacant 8.5-acre parcel at the northern terminus of Pardee Drive in Oakland. The terminal would receive regional packages from large-scale trucks and sort them to other large- and small-scale trucks for local deliveries.</p> <p>The terminal's structures will include a distribution and office building, a maintenance buildings, a storage and fueling station, and a guardhouse. The distribution and office building would extend up to 23 ft, 4 inches in height, with a cupola extending an additional 6 ft 8 inches, for a total building height of 30 ft. This building would include a 39,000 sf dock facility with up to 61 truck loading doors, and a 5,000 sf office area. The office would include a dispatch center, conference room, driver's waiting room, a sales office, and restrooms. The terminal will also include a 9,000 sf maintenance building, a 216 sf storage area/fueling station, and a 100 sf guardhouse. A total of 119 parking spaces are proposed for the site, including 71 automobile parking spaces, 25 parking spaces for 54 ft trailer trucks, and 23 parking spaces for 30 ft trailer trucks.</p>	EIR	09/21/2009
2009031056	<p>LA Water, LLC Chemical Manufacturing Facility South Gate, City of South Gate--Los Angeles</p> <p>The proposed project involves construction of a new plant for the production of drinking water and wastewater purification products. The new products would be liquid in form and would include ferric chloride, ferrous chloride, ferric sulfate and ferrous sulfate. These products are predominantly used in the purification of both municipal wastewater and drinking water. Nearly every municipality in the southern California area uses one or more of these products in their municipal drinking water and wastewater treatment plant. Raw materials used in the manufacturing process would be delivered primarily by rail. Finished products would be shipped from the site as liquids primarily in bulk truck tank wagons. There would also be</p>	EIR	09/21/2009

	some product shipments to customers in rail cars. Many of the raw materials and products are considered hazardous because they are acidic in nature. The only raw material or product that would require any special permit is the handling of liquid chlorine in tank cars.		
2009081015	Palo Verde Potable Water Transmission Pipeline Project Palo Verde County Water District --Imperial The proposed project, located in the unincorporated community of Palo Verde within the County of Imperial, would occur within the PVID and Caltrans ROW along SR-78 where it crosses the Outfall Drain and some private property. Easements for the private property would be obtained following project approval. The project proposes to replace an existing 8 inch steel pipeline that currently runs underneath the Caltrans SR 78 Bridge 58-299 (Bridge) over the Palo Verde Outfall Drain, at the intersection of SR 78 and Outfall Drain. Proposed project design includes underground placement of 715 linear ft of 12 inch high-density PVC pipeline. The horizontal directional drilling method (HDD) would be used and would include a 3 stage process. The first stage would include drilling of a pilot hole on the designed path. The second stage would then enlarge the hole by passing a larger cutting tool known as the back reamer. The third stage would place then install the new piping by pulling it back through the enlarged hole.	JD	09/03/2009
2009081013	Bagdad Apartments Project Coachella, City of Coachella--Riverside The proposed project would construct a 144 unit gated community consisting of 72 Senior Housing Units and 72 Multifamily Dwelling Units with detached carport structures on 9.62 acres of vacant land. The project includes a 4,100 sf clubhouse, 10,000 sf Senior/Community Center building, basketball court, swimming pool, tot lot and additional picnic/open space areas proposed within the community. The project would have 14.96 dwelling units per acre. The project entails a parcel map for lot split (phasing/financing purposes), a general plan amendment/change of zone from low-density residential to high-density residential, and architectural review.	MND	09/03/2009
2009081014	Stateline and Sparkle Perlite Mine San Bernardino County --San Bernardino A Mining Conditional Use Permit/Reclamation Plan to establish surface mining operation for mining Perlite one 15 acres for 20 yrs.	MND	09/03/2009
2009081017	Los Alamitos Flood Control Channel Maintenance Project Orange County Los Alamitos, Seal Beach--Orange The County is proposing this project to improve the existing flood control channel and prevent further channel bank/slope erosion within the northern and southern project areas. Construction activities in the northern improvement area would excavate ~4,700 cy of earthen material from the side slopes and bottom of this portion of the channel and replace with ~14,000 tons of 24 inch riprap along the side slopes and bottom for ~2,534 ft. In the southern portion of the project area, project activities include excavating ~13,300 cy of earthen material from the side slopes and bottom of the channel and replacing with ~28,560 tons of 24 inch riprap along the side slopes and bottom for ~3,630 linear feet of the channel between I-405 and College Park Drive. 	use of jackhammers, crowbars and possibly other mechanical equipment; 5) physical removal or repair of damaged weirs and pools in the fishway; 7) construction of additional pools and weirs to improve the fish ladder; 8) installation of additional fish passage slots; 9) demobilization and removal of all construction equipment and subsequent Revegetation of impacted areas within the project.		
2009012052	2009 Fisheries Restoration Grant Program Fish and Game (HQ) Environmental Services --Humboldt The project proposes to address recovery priorities through an implementation project of upslope restoration prescriptions to reduce road-related sediment at 36 sediment source locations on 4.5 miles of abandoned roads.	NOD	
2009042122	Anderson-Cottonwood Irrigation District Main Canal Modernization Project, Crowley Gulch Siphon Anderson-Cottonwood Irrigation District --Shasta The Project proposes to replace an existing water conveyance structure with an inverted canal underneath Crowley Gulch.	NOD	
2009061076	Inyo County 2009 Housing Element Update Inyo County --Inyo The General Plan Housing Element is required pursuant to California Government Code Section 65580 et seq., and works to provide housing for all of Inyo County's residents. The State is required to identify a regional housing needs assessment for the County; 567 units have been allocated for the planning period, including 457 units in unincorporated areas. The updated Housing Element incorporates this requirement, new demographic information, and other revised regulations. Policy changes approved include the following: allowing flexibility for locating residential care facilities incorporating reasonable accommodation provisions to provide a means for persons with disabilities to request exceptions to zoning and building regulations; allowing second units ministerially in all residential zones; allowing both supportive and transitional housing types in all residential zones; and allowing for permanent emergency shelters as a permitted use in at least one zone.	NOD	
2009088030	Kern Water Bank Conservation Easement Fish & Game, Wildlife Conservation Board --Kern Acquisition of 122 acres of land as mitigation for impacts to wildlife habitat.	NOE	
2009088031	Operations, Maintenance, and Capital Improvements Project Corona, City of Corona--Riverside The Project consists of the routine operation and maintenance of existing, currently serviceable City facilities, such as City flood control facilities, recreational facilities, a wastewater treatment plant, and the City Airport. Routine operation and maintenance includes the removal of native vegetation, and material replacement and removal, to provide public safety and allow these City facilities to operate to their design capacity. The Project enables the continued operation and function of the Airport and transportation, sewage control, and infrastructure within the Prado Basin.	NOE

2009088032	Application 04WA-015 and 04TZ-171 Tuolumne County --Tuolumne 1. Ordinance for Zone Change 04RZ-171 to rezone a 78.5+- acre parcel from AE-37 (Exclusive Agricultural, thirty-seven acre minimum) to AE-37:AP (Exclusive Agricultural, thirty-seven acre minimum: Agricultural Preserve Combining) under Title 17 of the Tuolumne County Ordinance Code; and 2. Application 04WA-015 to rescind the existing Williamson Act land conservations contract on the 7835+- acre parcel pursuant to Resolution 122-70 and to execute a new Williamson Act land conservation contract pursuant to Resolution 106-04, including approval of the agricultural management plan.	NOE	
2009088033	Yuha and East Mesa ACEC; OHV Grants Program Parks and Recreation, Department of El Centro--Imperial The proposed project supports off-highway motor vehicle (OHV) recreation, and /or addresses damage to the environment caused by OHV recreation.	NOE	
2009088034	Grindstone and Upper Lake Ranger District, USFS Mendocino; National Forest; OHV Grants Program Parks and Recreation, Department of --Mendocino The proposed project supports off-highway motor vehicle (OHV) recreation, and /or addresses damage to the environment caused by OHV recreation.	NOE	
2009088035	Kagel Canyon OHV Area; OHV Grants Program Parks and Recreation, Department of --Los Angeles The proposed project supports off-highway motor vehicle (OHV) recreation, and /or addresses damage to the environment caused by OHV recreation.	NOE	
2009088036	Replacement of residences wood fence Parks and Recreation, Department of --San Luis Obispo This project will replace existing dry rotting fence with a new metal post and cedar panel fence. Some site modifications will need to take place as overgrown trees and brush have toppled a large portion of both fences. Tree trimming and brush removal will be necessary to access and install the replacement fence. The project will stay within the existing residence lots and follow approximately the same footprints as the old fence except the southwest corner nearest the ranger station. This corner of fence will be moved back and proceed at an angle to allow an unobstructed view of oncoming traffic.	NOE	
2009088037	Auto Shop Area Improvemenets Parks and Recreation, Department of Pismo Beach--San Luis Obispo The proposed project will cap the existing archaeological site with between 4 and 6 inches of clean class II road base. The base will be installed over approximately 4,500 square feet of an exposed archeological site. The base will be installed up to, but not beyond, the existing cut slopes. Work will be conducted with a dump truck and equipment.	NOE

2009088038	Sand and Water Sampling Parks and Recreation, Department of --San Luis Obispo The Department of Parks and Recreation requested the Department of Water Resources' assistance in assessing the environmental condition of the park and the potential impacts from vehicular usage and camping on the beach and dunes. This project will quarterly collect samples in areas with the SVRA where there is high off-highway vehicles use and related camping activities. Sand and water will be sampled and analyzed to determine existing chemical, physical and biological constituents.	NOE	
2009088039	Introduction of Local Groundwater to San Luis Canal and Conveyance to San Luis Water District Turnouts (SWPAO #090961) Water Resources, Department of --Merced San Luis Water District (SLWD) is a Central Valley Project water contractor. The proposed project is the introduction of up to 1,500 a.f. local groundwater within SLWD to the San Luis Canal portion of the California Aqueduct, which is part of the facilities jointly owned and operated by DWR and the U.S. Bureau of Reclamation. The introduced water will be conveyed and delivered through SLWD's turnouts in Reach 3 of the San Luis Canal to meet urgent irrigation demands of permanent crops within its service area. No lands will be fallowed as a result of this activity.	NOE	
2009088040	Issuance of Streambed Alteration Agreement No. R1-08-0493, Trinity River, tributary to the Klamath River, Trinity County Fish & Game #1 --Trinity The project proposes to install a seep well and divert water pursuant to a legal water right.	NOE	
2009088041	Lund Private Boat Dock Expansion (1600-2009-0110-R2) Fish & Game #2 Truckee--Nevada Expansion of an existing private use boat dock on Donner Lake. An addition of approximately 70 square feet will be made to the existing dock. This will require driving of 2 additional steel ring style pilings into the lake bed. This will be accomplished by means of an amphibious vehicle.	NOE	
2009088042	Donner Lake Public Pier Replacement (1600-2009-0111-R2) Fish & Game #2 Truckee--Nevada Removal and replacement of two public piers on Donner Lake. The existing piers will be removed by hand. The removal will include removal of the pier structure and excavation of existing piling footings. The new piers will be installed in the same location. All best management practices to contain sediment from the work area will be implemented. Bank armoring adjacent to the piers will be completed to the extent feasible using native rock from the project site. Any imported rock used in the bank armoring will be washed prior to use.	NOE

2009088043	RMS at R-5 Reservoir Public Health, Department of --Orange Lead Agency: El Toro Water District The Reservoir Management System (RMS) at R-5 Reservoir proposed by the El Toro Water District consists of a chloramination system that works in conjunction with a mixing/sampling system. The sampling system continuously measures chlorine residual levels in the reservoir, compares the measurements to a target chlorine residual, and determines if the chloramination system needs to be activated or deactivated. The RMS performs two functions 1) to maintain a target chlorine residual and 2) to improve circulation of water in the 2-MG reservoir.	NOE	
2009088044	Enhanced Outpatient Program (EOP) Treatment and Office Building Corrections and Rehabilitation, Department of Vacaville--Solano Construct an addition to an existing building to support CMF's Enhanced Outpatient Program (EOP). The addition will include individual and group therapy rooms, classrooms, and office space. The addition will be surrounded on three sides by existing housing wing, occupational therapy wing, and main corridor. The footprint of the addition is approximately 14,000 square feet; it is located in a developed area within the secure perimeter of CMF.	NOE	
2009088045	Mental Health Services Building Corrections and Rehabilitation, Department of Lancaster--Los Angeles Construct a new Mental Health Services Building (MHSB) to support LAC's Enhanced Outpatient Program. The building will include individual and group therapy rooms, classrooms, and office space. The ADA-compliant building will be approximately 13,000 square feet, within the secure perimeter of LAC, in a developed area of LAC. Site preparation work will include minor trenching to extend existing utilities to the new building. The existing MHSB only has program space for 300 inmate-patients. The project includes an additional 66 staff to support the Enhanced Outpatient Program.	NOE	
2009088046	Construction of Small Management Yards (SMY) at Existing Correctional Facilities Corrections and Rehabilitation, Department of --Sacramento CDCR is mandated by the California Code of Regulations, Title 15, Section 3343(h) that special purpose segregated housing units be equipped with their own recreation yard, and each inmate housed in such units be provided 10 hours each week of out-of-cell exercise time. Based on a January 2007 statewide assessment of the housing capacity of Security Housing Units (SHU) and Psychiatric Services Units (PSU), it was determined that these requirements could not be met with the existing group recreation yards.	NOE	
2009088047	Wastewater Treatment Plant (WWTP); Centrifuge Project (Project); Clean Water State Revolving Fund (CWSRF) No. C-06-5063-110 State Water Resources Control Board Wasco--Kern The Project consists of installation of a sludge centrifuge facility that includes a centrifuge feed pump station, a polymer unit, power supply from an existing electrical building, and associated yard structures at the existing WWTP.	NOE

Implementation of the request would also entail construction of a project substation, an interconnection yard/switching station, on and off-site access roads, control cables, subsurface feeder line corridors and transmission lines necessary to serve the project. The temporary batch plants would only be onsite during construction and would be used to provide concrete material for turbine, substation, operation and maintenance building foundations. The batch plants would require the approval of a Conditional Use Permit.</p>	EIR	09/21/2009
2009062070	<p>South El Camino Real General Plan Amendment South San Francisco, City of San Francisco--San Francisco This proposed Amendment aims to target higher intensities and mixed use development in the southern portion of El Camino Real in the City of South San Francisco, to stimulate revitalization, and transition the corridor into a thriving, pedestrian-oriented area, with a mix of uses. The proposed Amendment would incorporate a new land use designation, El Camino Real Mixed Use, into the General Plan. This designation is intended to accommodate high-intensity active uses and mixed-use development in the South El Camino Real area. Retail and department stores; eating and drinking establishments; hotels; commercial recreation; financial, business, and personal services; residential; education and social services; and office uses are permitted.</p>	EIR	09/21/2009
2000021044	<p>Revised Pacific Heights, Vesting Tentative Tract Map No. 51153 Los Angeles County Hacienda Heights--Los Angeles Grading is proposed for 506,700 cy of cut and 516,700 cy of fill, for a total of 1,023,400 cy of graded material handled. Although preliminary plans indicate a shortage of 10,000 cy, it is not anticipated that imported fill will be required. An on-site balance is anticipated through construction activities that will generate excess dirt including but not limited to excavation required for dry and wet underground utilities, street over-cut, and footing from walls and homes. Should fill material import be required then a haul route must first be approved by the Department of Regional Planning and Public Works.</p>	FIN

2009081022	<p>Lot Line Adjustment between 31499 and 31505 Pacific Coast Highway Malibu, City of Malibu--Los Angeles</p> <p>An application for a lot line adjustment (LLA) between 31499 and 31505 Pacific Coast Highway (PCH). Both parcels are improved with residential development and no new development is proposed. The project is for a LLA only for parcels containing an average slope steeper than 20% (5 to 1 slope). The parcel at 31499 PCH will transfer 16,198 sf along the existing east boundary to 31505 PCH. The LLA will result in a net zero impact in overall gross square footage for each parcel. The two 16,198 sf areas proposed for exchange are largely developed and within each parcel's existing development envelope. The LLA does not create additional lots or result in new developable area not already improved with residential development.</p>	Neg	09/08/2009
2001092064	<p>Sutter 99 Safety and Operational Improvement Project Transportation Commission Yuba City--Sutter</p> <p>The project proposes to upgrade SR 99 to a 4 lane facility with continuous median and left-turn lane from the SR70/99 junction to Sacramento Avenue and upgrade to conventional highway or expressway standards between Central Avenue (KP 27.0/PM16.8) and O'Bannon Road. In addition, the project provides for a new 2 lane bridge on the Eastside of and adjacent to the existing Feather River Bridge # 18-26.</p>	NOD	
2005111013	<p>Lake Jennings Village; TM 5444, GPA 05-005, R05-013, S05-047, Log No. 05-14-028 San Diego County --San Diego</p> <p>The project will construct eight 20-unit buildings for a total of 160 two-bedroom multi-family residential units. The project includes a General Plan Amendment (GPA 05-005) to change existing (5) Residential [4.3 dwelling units per gross acre], (8) Residential [14.5 dwelling units per gross acres], (13) General Commercial, and (14) Service Commercial to (8) Residential. A Rezone (R05-013) is proposed to reclassify the existing RS7 [seven dwelling units per acre], A70 [Limited Agricultural], C37 [Heavy Commercial], and C44 [Freeway Commercial] Zoning Use Regulations to RU13 [12.6 dwelling units per acre]. A Tentative Map (TM 5444) and Site Plan (STP 05-047) are also included for the project.</p>	NOD	
2006059028	<p>Residential Subdivision TT 17171 (Issuance of California Endangered Species Act Incidental Take Permit No. 2081-2006-002-06) Adelanto, City of Adelanto--San Bernardino NOTE: Reference SCH #2005021049</p> <p>This proposed project involves the subdivision and development of undeveloped land into a 38 lot single family residential community. The project will result in permanent impacts to 8 acres of Mohave ground squirrel habitat. The DFG is issuing a Minor Amendment to an Incidental Take Permit for the Mohave ground squirrel, which is protected by the Endangered Species Act and which could be taken as a result of the Project. The Minor Amendment extends the expiration date of the permit to December 31, 2013.</p>	NOD

<u>Documents Received on Thursday, August 06, 2009</u>			
2007101004	2701 N. Harbor Drive Demolition Project San Diego, Port of San Diego--San Diego Demolition and removal of: 50 existing structures, including structure slabs, footings, grade beams, piles or portions of piles, and pile caps; all machinery bases, concrete, asphalt, and other paving material; all hazardous and contaminated demolition materials; CFCs; any USTs that have received prior regulatory closure; and all landscaping/irrigation pipes/valve boxes.	NOD	
2008012075	UCSF Medical Center at Mission Bay - Residential Sound Reduction Program for Helicopter Operations University of California, San Francisco San Francisco--San Francisco The proposed project is the construction and operation of a helipad associated with the UCSF Medical Center at Mission Bay project. The Medical Center project site is bordered by 16th Street to the north, 3rd Street to the east, and Mariposa Street to the south. In the future, a new segment of Owens Street will define the western boundary of the project site. The helipad would serve the UCSF Children's Hospital and pregnant women in distress, and its use would be limited to incoming inter-facility (hospital-to-hospital) transports of only those patients with the most critical and life-threatening conditions. The helipad would be situated on the roof of the outpatient building, at the northwest corner of the building just south of 16th Street and just east of future 4th Street. The helipad would be at a height of ~140 ft above grade in order to meet Federal Aviation Administration (FAA) obstruction clearance requirements, accounting for existing and future development at Mission Bay. Planned flight paths would be over San Francisco Bay to the extent possible, with the primary arrival path directly from the east and the primary departure path directly to the east. Both of these primary routes would be the shortest and most direct paths from to the Bay and, based on an evaluation of wind conditions, are projected to be used the most frequently. Secondary and alternative departure paths, which would be used less frequently, would extend to the north and then east out to the Bay, or to the west before turning north and then east out to the Bay.	NOD	
2009052076	Fairfield-Suisun Sewer District Wastewater Treatment Facility Ultraviolet Disinfection Upgrade Project Fairfield-Suisun Sewer District Fairfield--Solano The FSSD Wastewater Treatment Plant Ultraviolet Disinfection Project is proposing to implement an ultraviolet disinfection project that would include the construction of a complete UV disinfection system with channels, all associated yard piping, site work, and appurtenances. The project would upgrade the Fairfield-Suisun Sewer District's wastewater treatment plant electrical system to power the UV disinfection system with the provision for immediate or future onsite solar power generation. The solar power generation would offset some of the electrical demands of wastewater treatment plant operations; thereby decreasing the carbon footprint for energy use and consumption of the Fairfield-Suisun Sewer District. The proposed project would be located entirely on the wastewater treatment plant property which is within the City of Fairfield.	NOD

	Residential (R-3), which will reflect the proposed project's land use designation and development standards. - Tentative Tract Map No. 35751 proposes a schedule 'A' subdivision of 19.88 gross acres into 24 lots consisting of 243 attached and detached dwelling units, as well as, related streets and infrastructure. The project also includes the construction of a recreation center and a water quality control basin. Agricultural Preserve Case No. 975 is a request to cancel the Williamson Act contract affecting approximately 20 acres and to diminish the Mira Loma Agricultural Preserve No. 4 by removing said 20 acres.		
2006072035	Use Permit 05-039 (Twin Mine) Shasta County Redding--Shasta The request is to amend Use Permit 05-039 to allow an increase in the amount of truck traffic to and from the Twin Mine gravel operation. The gravel operation is on the same site as the Twin Bridges Landfill, which was approved by Use Permit 31-89 in 1989. The Use Permit for the land fill allowed for average of 10 truck round-trips per day and a max of 22 truck round-trips per day for trucks bringing in paper waste and removing liquid waste.	MND	09/08/2009
2009051046	Raised Pedestrian Walkway at Hartnell Gulch Monterey, City of Monterey--Monterey The City of Monterey proposes to construct a raised walkway through a riparian area with seasonal creek commonly known as Hartnell Gulch. The raised walkway is 160' long and will begin at Hartnell Street, pass along the southern side of Hartnell Gulch and will terminate at the parking lot for Uptown Monterey, a commercial shopping center at 570 Munras Avenue. The walkway will be elevated ~3 ft to 9 ft above the underlying grade and will descend incrementally towards the parking lot. The project site is presently private property and extends over parcels 001-581-011, 012, known as 509 Hartnell Street and 573 Polk Street, respectively. The City proposes to acquire a public easement across these properties to accommodate the walkway. The project will require the removal of 4 trees and various native and invasive plants. The project will use the public right-of-way at Hartnell Street and the parking lot at 570 Munras Avenue for construction staging and access.	MND	09/08/2009
2009081027	Helenius Minor Use Permit / Coastal Development Permit DRC2007-00175 San Luis Obispo County --San Luis Obispo Request by Chris and Lynn Helenius for a Minor Use Permit to allow a 3,151 sf, 2 story, single family residence and attached garage. The project includes the removal of an existing deck, carport, and shed. The project will result in the disturbance of the entire 5,011 sf parcel. The proposed project is within the Residential Single family land use category and is located at 174 1st Street, 50 ft southeast of San Antonio street, in the community of Avila Beach. The site is the San Luis Bay Coastal planning area.	MND	09/08/2009

	temporary power outages. Electrical and telephone services are available from teh alley adjacent to the site. The ground equipment would be on a cement pad of about 10 ' x 20', behind a 6 ft tall chain link fence ~1' west of the existing fence that separates 2327 Dean Street from 2421 Buhne Street.		
2009082019	Johannsen Tentative Parcel Map P-09-21 Trinity County --Trinity Tentative parcel map to subdivide a 1.1 acre parcel zoned General Commercial (C-2) into 3 lots. Two lots are developed. The third had a commercial building on it that was torn down several years ago and has just been used as a parking lot since.	Neg	09/08/2009
2009082020	Sacramento County City College LRT Bicycle/Pedestrian Overcrossing Project Sacramento, City of Sacramento--Sacramento The proposed Sacramento City College LRT Station Pedestrian/Bicycle Overcrossing project consists of development of a pedestrian and bicycle overcrossing with ADA compliant ramps on both ends that extends on the west from the lawn area of Sacramento City College, past the parking garage, then over the LRT tracks, the UPRR main tracks, and the maintenance yard to the proposed Curtis Park Village development on the east.	Neg	09/08/2009
2009082024	Parcel Map 08-037 (Hursh) Shasta County --Shasta The request is for a 2 parcel residential land division resulting in the creation of a 2.0 acre parcel and a 3.7 acre parcel. The 2.0 acre parcel would contain an existing home. The project would include infrastructure improvements including, road and drainage improvements on Kawliga Lane and installation of a fire hydrant within 750 ft of a potential building site on proposed Parcel 1.	Neg	09/08/2009
2008101136	Fresh & Easy Food Processing and Distribution Center March Joint Powers Authority Riverside--Riverside NOTE: Review Per Lead; Reference SCH# 2002071089. PP 09-02: Request for Plot plan and Design Plan approval for the expansion of a food procession and warehouse distribution facility by the project applicant, Fresh & Eady Neighborhood Market Inc (F&E). F&E currently has an existing 766,304 sf facility, on ~88.4 acres, that receives, sorts, prepares, re-packages, stores, and distributes food and household products to up to ~235 retail stores located in Southern CA, AZ, and NV. The existing facility was approved by the March JPA in 2006. F&E is currently proposing additional development on the existing 88.4 acres site to serve an additional 315 stores located in Southern CA, AZ, and NV. The expansion may also supply products to warehouse and manufacturing facilities anticipated to be located in Northern CA (which would directly supply Northern CA stores). This expansion would add ~1,141,600 sf warehouse, food processing, office and related space, as well as additional parking to the existing facility. The expansion of the existing facility would take place entirely within the existing 88.4 acre project site. Under the proposed project, a total of ~550 retail stores would be supplied from the F&E facility.	SBE	09/25/2009

1989010086	Irvine Desalter Project and South Irvine Brine Line Project U.S. Bureau of Reclamation Irvine--ORANGE The Irvine Ranch Water District is adding a manganese removal treatment unit to the existing Desalter Treatment Plant to meet the California Safe Drinking Water Standards. The treatment unit will be built within the confines of the existing plant.	NOD	
1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Eureka--Humboldt Renewal of a Conditional Use/Surface Mining Permits, approval of a Reclamation Plan and review of Financial Assurance Cost Estimates for continued in-stream mining on the Singley Bar alluvial gravel mines located on the Lower Eel River downstream of Fernbridge. The site is located within the bankfull channel of the Eel River which is annually inundated from moderate to high winter flows. Winter flows reshape and replenish the bed of the channel with flood-washed alluvium. The bedload of the Eel River consists predominantly of sand and gravel. Sand and silt is typically deposited at high elevations and atop the banks. Annual extraction is proposed at up to 150,000 cubic yards of sand and gravel. No sorting or processing will be conducted on-site. The permitted annual extraction season for the Lower Eel River extends from July 23rd to October 15th. Operations can be extended beyond October 15th as authorized by regulating agencies. Extraction may last for as little as a few weeks or for as long as a few months, and the length of extraction is generally dependent upon the availability of extractable aggregate, the area and volume of extraction, availability of hauling vehicles and the method of extraction. Extraction of aggregate will be conducted with loaders, bulldozers and scrapers. It is proposed to load river run material directly to dump trucks or belly dumps, removing the aggregate to upland stockpile and processing sites at the Palmer Boulevard stockpile site north of Fortuna or the Alton Facility of Glendale facility. Annual extraction volume, location and methods are based on the recommendations by CHERT and other regulatory agencies. The permit term is 15 years and will expire July 28, 2022.	NOD	
1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Eureka--Humboldt Approval of a Reclamation Plan for continued operations known as the Silva Estates gravel extraction on the Singley Bar on the Lower Eel River downstream of Fernbridge. The term of the Reclamation Plan is 15 years and will expire June 8, 2022. A determination of vested right of a maximum annual extraction of 10,000 cubic yards of river run sand and gravel was made in 1992. The Board of Supervisors approved a Reclamation Plan and adopted a Negative Declaration in 1992. Access to the site is off of State Highway 211 via Substation Road. The extraction area is that area of the bankfull channel of the Eel River where permanently established riparian vegetation does not occur and which is annually inundated from moderate to high winter flows. A maximum of ten acres is disturbed. No sorting or processing is conducted on-site. Extraction of aggregate is conducted with loaders, bulldozers and scrapers. Annual extraction volume, location and methods are based on recommendations by CHERT and other regulatory agencies. The site has been intermittently mined since at least the 1800's. There are no changes to the vested mining operation. The project is approval of the Reclamation Plan; the mining operations, and issues	NOD

2009032027	Butte County Individual On-Site Wastewater Ordinance Butte County --Butte NOTE: Review Per Lead Butte County is considering the adoption of a new ordinance covering the regulation of individual on-site wastewater treatment and disposal systems in the County (On-Site Wastewater Ordinance). The new ordinance would update and replace existing County regulations in order to be consistent with applicable requirements of the Central Valley regulations in order to be consistent with applicable requirements of the Central Valley Regional Water Quality Control Board (Basin Plan) and to incorporate other changes based on the current state of knowledge and advances in practices and technologies for on-site wastewater treatment and disposal. Notably, the ordinance would: (a) implement more standardized procedures for soil and site evaluations; (b) incorporate new requirements pertaining to the vertical separation between the bottom of dispersal systems and groundwater or restrictive layers; (c) provide a broader range of treatment and dispersal designs; and (d) institute a program to assure ongoing maintenance of certain types of systems. The new proposed On-Site Wastewater ordinance, dated May 28, 2008, has been drafted by the Butte County Public Health Department, Division of Environmental Health, over a two-year period in cooperation with a local stakeholder group ("Wastewater Working Group"). <u>Documents Received on Tuesday, August 11, 2009</u>			
1995083033	September Ranch Subdivision Monterey County NOTE: Review Per Lead The proposed project involves the subdivision of 891 acres into 73 market rate residential lots, 22 units of inclusionary housing, and a 20.2 acre lot for the existing equestrian facility; 816.9 acres is proposed as open space. Other appurtenant facilities and uses would include separate systems for the distribution of potable water, water tanks for fire suppression, a sewage collection and treatment system, drainage system, internal road system, common open space, tract sales office and security gate.	FIN	09/28/2009
2002052057	Buckhorn Grade Improvement Project Caltrans #3 Redding--Shasta, Trinity The California Department of Transportation (Caltrans) proposes to improve the Buckhorn Grade on State Route 299 in Shasta Trinity and shasta Counties from 2.0 miles west of the Shasta-Trinity County line to the western boundary of the Whiskeytown-Shasta Trinity National Recreation Area. Although the official project limits extended into Trinity County (PM 70.2/72.2), construction will only occur on the Buckghorn Grade portion of State Route 299 (PM 0.0/R7.6) in Shasta County. Construction activities in Trinity County will be limited to placement of signs and traffic control. The project will realign the roadway along the existing alignments. improvements include standard roadway and soulder widths, passing/climbing lanes, 8 percent maximum grade and an alignment with a 40 to 50 mph design speed (depending on the alternative selected).	FIN	
2009084001	Proposed Long-Term Lease and Installation Development Plan for the 129th Rescue Wing, California Air National Guard, Moffett Field, California U.S. Air National Guard --Santa Clara Moffett Field is a secure federal facility with a secure perimeter and 6 controlled access points (gates) controlled by NASA and the Army; however, only 2 of these access points are used on a continuous basis for normal access control (Main Gate and Ellis Gate). NASA has plans to eventually open the NASA Research Park (on the west side of the runway) and the Eastside/Airfield Statement (EIS) and REcord of Decision (ROD) (2002). However, current NASA security requirements still require that the NASA Ames Research Center (ARC) be fenced with access control. Similarly, the Army is redeveloping Orion Park, where the CAANG medical facility is located. As a result, the 129 RQW proposes to implement several construction and demolition projects, as well as implement real estate transactions, including a long-term lease, in order to provide secure access and consolidate the 129 RQW facilities. In addition, several of the 129 RQW facilities. In addition, severa of the 129 RQW facilities do not meet the authorized square footage requirements per the Air National Guard Handbook 32-1084, Facility Requirements.	JD	09/09/2009

	and 2 new pump stations and 20 inch force mains at New Brighton Beach State Park. Phase 2 of the project will include installing new force mains and a 3 inch electrical conduit beneath Aptos Creek using HDD and a new pump station and improvements to an existing pump station. Phase 3 will include installation of new pumps and upgrades at the Rio Esplanade Pump Station.		
2009052081	Arroyo Parcel Map; Pacrel Map (PM 2008-03) Calistoga, City of Calistoga--Napa A tentative map to subdivide a 9.70 acre parcel into 4 residential lots ranging in size from 2.18 to 2.54 gross acre. Vehicular access will be provided via a new 20 ft wide private roadway, within a 56 ft right of way. A separate 20 ft wide gravel emergency vehicle access (EVA) will provide secondary access from the terminus of the private roadway back to Grant Street around the rear perimeter of proposed Parcels A and B with easment extendind across APN 011-390-028. The new private roadway, the EVA and utilities (water lines, septic systems, and low and high voltage cables) will be installed over time as the first parcel in the subdivision develops. Immediate improvements will include roadway improvements, a 5ft meandering asphalt pathway and storm drainage improvements along the Grant Street frontage of those parcels known as APN 011-390-028, 029, 036, & 035. It is also anticipated that the City will call several deferred improvement agreements affecting neighboring parcels along Grant Street (APN 011-390-015, 016, 018), requiring that the roadway improvements, 5 ft pathway and storm drainage improvements be extended along the Grant Street frontage west to the intersection of Greenwood and east ~433 ft of Garnett Creek Bridge. Other than these Grant Street and frontage improvements no immediate development of any of the lots is proposed to occur at this time; the vineyard is proposed to remain in production.	NOD	
2008088194	Pond Union Elem. School Arsenic Treatment Plant Pond Union Elementary School District Wasco--Kern Modification to the existing drinking water system located on the property of Pond Union Elementary School to lower the arsenic levels to drinking water standards. Infrastructure improvements include the installation of an onsite arsenic treatment unit, construction of a 250 square ft treatment building, small treated water storage tank, booster pumps, hydropneumatic pressure tanks, and approximately 200 ft of 3-inch PVC piping.	NOE	
2009078230	West Weaver Water Treatment Plant 2009 Improvements Weaverville Community Services District --Trinity The CA Department of Public Health is submitting this NOE as the Responsible Agency. The project consists of prefiltration improvements including the addition of a pressure filter to serve as a roughing filter/contact clarifier. This addition would bring the treatment plant into compliance with the Long Term 1 Enhanced Surface Water Treatment Rule. Other improvements include emergency power generation and gas leak detection alarms.	NOE

2009081042	<p>Champagne Lake RV Resort San Diego County --San Diego</p> <p>The project is a Major Use Permit Modification to an existing Recreational Vehicle (R.V.) Park. The entitlement granted pursuant to P70-212W consists of 135 recreational vehicle spaces with utility hookups, 5 mobilehome spaces, swimming pool, restrooms with showers, clubhouse, laundry facilities, recreation building with office and store, and a light stacked multiple-sign structure 40 ft high, with a 256 sf signage area. The project consists of rearranging and developing all 140 of the previously approved R.V. spaces and mobilehome spaces with full hookup capacity (Septic, Water, Electricity); of which, 100% of the individuals occupying these spaces will have no occupancy limitation within a 1 yr period. The occupancy limitations of Zoning Ordinance Section 6456.d would be removed from the permit. Section 18865.2 of California Health and Safety Code, mandates that local jurisdictions that have imposed such time limitations for occupancy of spaces within a special occupancy park, shall grant an exemption to those limitations depending upon substantial findings within Statute 18865.2. Additionally, 4 of the 5 mobilehome spaces would be used as a combination R.V./Mobilehome space, which would reserve the vested right to use them as a mobilehome space in future. The manager's residence would remain an active mobilehome space with an existing manufactured home.</p>	MND	09/10/2009
2009081044	<p>Stenner Springs Natural Reserve Conservation Plan San Luis Obispo, City of San Luis Obispo--San Luis Obispo</p> <p>The project is the adoption of the Conservation Plan for the 363 acre Stenner Springs Natural Reserve. The plan provides direction on the management of recreational activities, wildlife protection, wildfire management, and sensitive habitat conservation. The ultimate aim of the plan is to reconcile public use of the land for passive recreation (hiking, mountain biking) with the conservation of natural resources, protection of sensitive species, and wildfire and emergency preparedness.</p>	MND	09/10/2009
2009081046	<p>Recycled Water Pipeline Projects (2007.010 and 2007.120) Moulton Niguel Water District Mission Viejo, Dana Point--Orange NOTE: Review Per Lead</p> <p>The proposed project is the construction of 2 recycled water pipelines. The pipes would be placed underground within existing road right-of-way.</p> <p>Pipeline Component A would consist of ~10,600 linear ft of pipeline connected to the MNWD's existing 650 Zone recycled water system (served by Mathis Operational Tank) to the recycled water system in northern Mission Viejo (served a seasonal storage 920 Zone Upper Oso Reservoir). Pipeline Component A will have an 8 inch diameter and will be installed within the service boundary of MNWD.</p> <p>Pipeline Component B is an estimated 16,100 linear foot pipeline that would begin at the driveway of the J.B. Latham Wastewater Treatment Plant and connect to the existing Golden Lantern Reservoir via Del Obispo Drive, Camino del Avion and Golden Lantern Drive. Pipeline Component B will have a 16 inch diameter and will be installed within the service boundary of neighboring South Coast Water District.</p>	MND	09/14/2009

2009082035	<p>Deep Water Well Pump Station 15 Rio Linda/Elverta Water District --Sacramento</p> <p>The Well 15 Project consists of developing a groundwater supply well in eastern Rio Linda. The well would help replace drinking water supply from 2 decommissioned wells. The project consists of: a 1,500 gpm well with variable speed control; pump house and hydropneumatic tank; sodium hypochlorite treatment system; emergency generators; SCADA; and associated electrical equipment and controls. The project also includes up to one half mile 12" discharge pipeline connecting the station to the existing distribution system located at the intersection of Q and 26th streets.</p>	MND	09/10/2009
2009081045	<p>Wal-Mart Expansion Project - DR 08-09/EIR 09-02 Lompoc, City of Lompoc--Santa Barbara</p> <p>Specifically, the proposed project would consist of the demolition of approximately 188 square feet of floor area and the expansion of the existing Wal-Mart store by 38,050 sf primarily to the northern (rear) and western (left) portion of the existing building. The existing approximately 8,768 sf outdoor garden center would be reduced to 5,385 sf. The proposed total area of the Wal-Mart store, including the outdoor garden center, would be approximately 151,271 sf.</p>	NOP	09/10/2009
2009082034	<p>Orick Wastewater Treatment Project Orick Community Services District --Humboldt</p> <p>A pollution study completed in October 1999 determined that surface and shallow groundwater in Orick, an unincorporated area of Humboldt County, is being polluted by an indeterminate number of existing, privately owned on-site wastewater systems. These systems are comprised of a variety of septic tanks, leachfields, and leach pits. The study found pollution to be widespread, not confined to any specific area, and attributable to many sources. The study further concluded that the existing on site wastewater systems potentially pose a public health hazard and may impair future development within the area.</p> <p>The general design strategy is to collect wastewater effluent from the community's individual on-site septic tanks (primary treatment) using Septic Tank Effluent Pump (STEP) systems. The collected effluent will be pumped to a recirculating gravel filter (secondary treatment), and be discharged to a subsurface disposal field. OCSD anticipates that most of the existing septic tanks and all of the leach pits will need to be retrofitted or replaced to be compatible with a STEP system. To minimize groundwater mounding, the disposal system will be located in areas with appropriate soil and groundwater characteristics with a site-specific (engineered) application rate. Storm water will likely be graded away from the gravel filters and leachfields in order to reduce infiltration to groundwater.</p>	NOP	09/10/2009
2009081043	<p>VTT-70440 Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead</p> <p>A Vesting Tentative Tract Map No. 70440 for the merger of 9 lots into one for a mixed use development consistinf of 163 apartment units, one commercial unit consisting of 24,100 sf of retail floor area and a parking structure containing 429 parking spaces on a 68,845 net sf site in the proposed RAS4-1 zone. The vesting tract map request also includes 2 alley vacations: (1) a 20 ft wide north/south alley</p>	Neg	09/14/2009

	and the development of emergency response protocols.		
2009081050	Romeria Street Channel Improvement - HMP 09-03 Carlsbad, City of Carlsbad--San Diego The City of Carlsbad proposes to replace an existing concrete lined drainage channel, splash wall, headwall, and brow ditches. Slope protection will be added to ensure the channel provides adequate flood control for public safety and welfare. Construction and future maintenance access will be provided by grading an all-weather access ramp and pad from La Costa Avenue to the channel.	MND	09/14/2009
2009081051	Mental Health Services Improvements, Salinas Valley State Prison Corrections and Rehabilitation, Department of Soledad--Monterey The proposed project consists of 3 major improvements: (1) expansion and renovation of the existing 7,000 sf Mental Health Services Building by ~17,000 sf for additional treatment and office space to support the Enhanced Outpatient Program, (2) construction of a 72 bed EOP facility, ~35,800 sf in size, for Administrative Segregation Unit inmates and a 60 space parking lot, and (3) conversion of the D2 housing unit from a facility for ASU inmates to an EOP facility for General Population inmates. The proposed project would increase the inmate population at the prison by up to 123 new inmates. Facility staffing would increase by up to 63 new employee over three shifts or watches, increasing total staff at the prison from 1,512 to 1,575.	MND	09/14/2009
2009081052	Rower School Playfield Expansion Project Rancho Santa Fe School District --San Diego The District is proposing to acquire several parcels of land in 2 separate phases in order to augment the Rowe School physical education program. The project site would ultimately be used as parking and physical education space. Phase I of the proposed project includes the development of 2 parking lots: a northern lot with 45 spaces, and a southern lot with 21 spaces. Phase II of the proposed project includes the removal of the southern parking lot and development of multipurpose fields.	MND	09/14/2009
2009082036	Vesting Tentative Parcel Map PM-9866 Alameda County Unincorporated--Alameda Application for Vesting Tentative Parcel Map PM-9866, to allow an agricultural to implement an Interlocutory Judgement of Partition to create 8 newly-configured 100- to 409-acre parcels out of 7 existing parcels encompassing ~1275 acres. No improvements are being proposed at this time.	MND	09/14/2009
2009082037	San Ramon Housing Element 2009-2014 San Ramon, City of San Ramon--Contra Costa The proposed project is an amendment to the San Ramon Housing Element which sets forth the City's 5 yr strategy to preserve and enhance the community's character, expand housing opportunities for all economic segments, and provide guidance and direction for local government decision-making in all matters related to housing. The Housing Element Update covers the 5 yr period of July 1, 2009 through June 30, 2014, and provides an implementation strategy for effectively addressing the housing needs of San Ramon during this period. 2009082044	<p>Marie Hansen Trust - Minor Subdivision - 3299 Vigilante Road, Glen Ellen CA 95442 Sonoma County --Sonoma Request for a Minor Subdivision of 240 acres to create 3 parcels of ~11.5, 22, and 206 acres; the project site is split-zoned between the Resources and Rural Development and Diverse Agriculture Districts. The westerly 22 acre Parcel C would not be developed, and is intended to be conveyed by the project applicants to the Sonoma County Agricultural Preservation and Open Space District for trail parkland.</p>	MND	09/14/2009
2009081048	<p>Clay Street Business Park (Environmental Impact Report No. 505, Tentative Parcel Map No. 36192) Riverside County --Riverside Environmental Impact Report No. 505 Pursuant to Sections 15060 and 15081 of the California Environmental Quality Act (CEQA) Guidelines, the County of Riverside has conducted an initial study and has concluded that implementation of the proposed project could have a direct or indirect impact on the environment. Accordingly, the County has determined that preparation and evaluation of an environmental impact report (EIR) for the Project is warranted. Tentative Parcel Map No. 36192 is a Schedule E subdivision of 68.1 gross (67.36 net) acres into 20 industrial parcels and four (4) lettered lots for ingress/egress, open space, and detention basin purposes for the development of approximately 889,502 square feet of light industrial and business park uses. In addition, implementation of the project may involve the provision of off-site water and sewer lines, which will also be evaluated in the EIR. The proposed Project is consistent with the County's General Plan for Land Use (Light Industrial) and Zoning Ordinance (Manufacturing - Service Commercial, M-SC).</p>	NOP	09/14/2009
2009031085	<p>State Route 57 Northbound Widening Between Katella Avenue and Lincoln Avenue Caltrans #12 Anaheim--Orange The California Department of Transportation District 12, in cooperation with the Orange County Transportation Authority, proposes to widen northbound State Route 57 (SR-57) between Katella Avenue and Lincoln Avenue, in the City of Anaheim, by adding either an auxiliary lane or general purpose lane.</p>	Neg	09/14/2009
2009081047	<p>City of Corcoran Police Station Corcoran, City of Corcoran--Kings The proposed Project is the construction and operation of a proposed new police station, which is to be constructed to serve as the headquarters for the City of Corcoran Police Department. The Project will consist of an ~12,000 sf building to house all police operations including offices, evidence storage and short term detention facilities. The project design incorporates photovoltaic panels to generate solar power, exposed wood framing, and natural lighting through the use of skylights.</p>	Neg	09/14/2009

2007062052	<p>North Stockton Railroad Grade Separations and Bridge Replacements Project (IS7-07) Stockton, City of Stockton--San Joaquin</p> <p>The project proposes to reconstruct and widen Lower Sacramento Road over Bear Creek. The roadway will be ~5 ft higher than the existing Bear Creek Bridge. The new bridge over Bear Creek will be a 3-span concrete bridge structure. The pier foundations will consist of 24" CIDH piles. The roadway will have wide sidewalks that will also accommodate pedestrians and bicyclists.</p> <p>The new bridge piers at the Bear Creek Bridge will be located on both the north and south edge of the low-flow channel, requiring temporary dewatering during installation. The work area in Bear Creek will be dewatered prior to the start of work. Dewatering will consist of installation of a flow diversion to isolate the work area from the live channel. The flow diversion will consist of using K-rail with visquine, sandbags, or an equivalent method to isolate flows from the work area. Flows will be temporarily diverted to the center of the creek from both sides during pier foundation installation and also during removal of old piers.</p>	NOD	
2007092003	<p>Mahony Final Map Subdivision Humboldt County --Humboldt</p> <p>A Zone Reclassification from Agriculture Exclusive (AE) to Agricultural General with a Special Building Site Combining Zone specifying a 60-acre minimum (AG-B-5(60)) or other zone consistent with the General Plan. The rezone will facilitate the Final Map Subdivision to subdivide 492 acres into five lots ranging in size from 75 to 120 acres. The project includes a Merger/Lot Line Adjustment to result in Parcel A of approximately 203 acres and Parcel B of 492 acres that is proposed for subdivision. The merger/LLA will correct a conveyance in violation of subdivision regulations. The lands zoned TPZ are unaffected by the LLA. The lands are undeveloped, and resultant parcels will be served by on-site water and sewage disposal systems and accessed via Lauffer and Island Mountain Roads. The project requires exception to lot frontage requirements, exception to road category requirements from the California Department of Forestry and Fire Protection, and exemption to solar access standards.</p>	NOD	
2009012072	<p>Tully Road Bridge (29C-270) Replacement Project San Joaquin County --San Joaquin</p> <p>The project footprint/limit encompasses approximately 3.57 +/- acres and includes the existing bridge to be replaced; a portion to conform to the new bridge elevation; temporary construction easement; right-of-way acquisitions; and staging area in the existing roadway. The extent of the project footprint/limit is as shown in Figure 2. Tully Road and the existing bridge will be closed during the construction and a ¾ +/- mile detour will be provided by Brandt Road, Jack Tone Road, and Hammond Street. The road will be closed at the end of the project footprint/limit to all traffic and the detour signs placed a week prior to construction. This project is scheduled for construction gaining in June 2010.</p>	NOD

2009088130	Issue Right of Entry to Marin County Fire Parks and Recreation, Department of --Marin Issue a Right of Entry permit to the Marin County Fire Department to enter China Camp State Park for Wildland Urban Interface Fuel Modification. Permit valid from August 1, 2009 through July 31, 2010. All work conduction in association with the Right of Entry will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, California Environmental Quality Act, and Section 5024 of the Public Resources Code, DPR will advise Marin County Fire if any new historical resources (including archaeological sites), special status species, Threatened/Endangered Species, or other resource issues are identified within the area.	NOE	
2009088131	Trestles Lot Improvements Parks and Recreation, Department of --San Diego This proposed project would produce the following modifications to the existing day-use parking lot for Trestles Beach area that lies next to El Camino Road: 1) Installation of an entrance kiosk with phone and electrical service. Kiosk will sit on top of the pavement; 2) Utility trench to provide electrical and phone service will be approximately 200' long and extend from the kiosk to the street and then head northward paralleling El Camino; 3) Installation of a self-pay machine; 4) Installation of a new stout entrance gate at the lot entrance; 5) Demolition of about 300' of chain-link fence and replace with single-strand quarter inch metal cable wire hung on thimble eye posts; 6) Installation of an interpretive display case and doggie bag dispenser at trailhead; 7) Replace the existing entrance sign; 8) Plant native vegetation along El Camino; 9) Remove 10' of curbing; 10) Restripe the parking lot; 11) Demolish an unused cement footing, two old metal supports, and a small irrigated plot; 12) Installation of a step-through section in the fence line.	NOE	
2009088132	Wireless Computer Network Installation Parks and Recreation, Department of --Contra Costa Install antennae and associated equipment at 4 buildings in Mt. Diablo State Park for DPR personnel to utilize wireless internet and e-mail. Place two antennae on freestanding tripods inside the equipment room and install an approximately 8" by 4" by 2" receiving module on an existing mast at the top of the Summit Building. Install two approximately 1' diameter by 2.5' high antennae, with clamping brackets to an existing pole on the exterior of the Arroyo Residence. Mount an approximately 1' diameter by 2.5' high antenna with "J" brackets and lag bolts under the eaves of the Supervisor's Office, Maintenance Office, and Auto Shop; drill holes in exterior and interior walls and route cables inside the buildings from the eaves through the voids between the walls and drop-ceilings to four desks. Place a freestanding approximately 7" by 5" by 2" cellular router on a desk in the Junction Ranger Station and route cables inside the room to two computers.	NOE	
2009088133	Administrative Area Improvements Parks and Recreation, Department of --Marin Make improvements to the administrative area of the China Camp State Park to upgrade facilities. Work will remove an abandoned mobile office trailer; a 38' by 12' high above ground concrete water treatment tank (including tank foundation), and 300' of chain link fence. A recreational vehicle residence pad and a modular home pad will be installed in the vicinity of the old office and will require minor	NOE

	trench excavations to relocate existing utility lines. Additional work will include constructing up to 2,000' new trail to realign the Shoreline Trail out of the residential area.		
2009088134	Cole Creek Diversion Dam Grizzly Repair Project, SAA 1600-2009-0047-R2 Fish & Game #2 Amador City--Amador The Operator proposes to repair damages that were noted in 2004 on the Cole Creek Diversion Dam, as per the new Federal Energy Regulation Commission license condition. The grizzly rack protects the inflow release valve and pipe. A cofferdam will be constructed upstream using water filled rubber bladders. A pipe will be run from the upstream cofferdam down the creek and through the LLO to a point below the plunge pool.	NOE	
2009088135	Feather Water District Inlet Channel Dredging July 1 - September 30, 2009 Fish & Game #2 Yuba City--Sutter This project will occur between July 1 and September 30, 2009. This project will dredge 2 inlet channels on the west side of the Feather River (the North channel and the South channel) that lead to the Feather Water District's pumping structures. Dredging will be performed by long reach excavator and the material removed (approximately 200 cubic yards in the north channel and approximately 300 cubic yards in the south channel) will be placed outside of the channel and stream zone by the excavator. Once the material dries, it will be removed and disposed of offsite. The excavator will remove the material from the north channel from the dirt road on the south side of the channel. The excavator will remove the material from the south channel from two locations. For the area immediately around the pumping structure, the excavator will work from the dirt road north of the inlet channel. For the area closer to the river, the excavator will work from the dirt road south of the inlet channel.	NOE	
2009088136	Windsor Drinking Water Well Replacement Windsor, City of Windsor--Sonoma Replacement of two existing wells located at the Town of Windsor's Bluebird well site and Esposti Park well site. Purpose of the project is to replace the two wells due to age and quality, and to continue use of the wells for water source production in periods of drought and/or emergency.	NOE	
2009088137	OC-99 Security Fencing Project Metropolitan Water District of Southern California Lake Forest--Orange The Metropolitan Water District of Southern California (Metropolitan) proposes to place crushed rock aggregate around existing chillers, and replace approximately 500 feet of damaged barbed wire on top of the existing perimeter chain link fence. Vegetation clearing will be done by Metropolitan prior to start of work.	NOE	
2009088138	Ballona Wetlands Ecological Reserve Parking Lot Repair (SCR-08-02) Fish & Game #5 --Los Angeles Repair existing pot holes and seal the asphalt surface in the paved portion (35% of site) and repair pot holes and deposit a layer of gravel in the unpaved areas (65% of site) to provide an all weather surface and reduce seasonal mud holes and dust. Currently, the entire lot, including parking within the public right of way provides a total of approximately 60 parking spaces. The repair and maintenance project	NOE
