**SUMMARY  
OF  
POSTINGS  
(Formerly SCH NEWSLETTER)**

**August 1 – 15, 2012**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 1 – 15, 2012**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The 2011 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

<b><u>Documents Received on Wednesday, August 01, 2012</u></b>			
2007042116	South Tahoe Public Utility District Recycled Water Facilities Master Plan South Tahoe Public Utility District --Alpine The STPUD Recycled Water Facilities Master Plan includes a combination of actions to dispose of recycled water and associated actions to convey and apply fresh recycled and blended water to District lands. The AEIR updates the 2009 approved Master Plan and includes and revised information on Projects 1 and 2. Section 4, T10N, R20E; Sections 19, 20, 25, 29, 30, 31, 32, T11N, R20E; Section 36 T11N, R 19E.	<b>EIR</b>	09/14/2012
2009071117	General Plan Circulation Element Update Huntington Beach, City of Huntington Beach--Orange The project is the update of the Huntington Beach General Plan Circulation Element. The proposed Circulation Element is designed to achieve an efficient surface transportation system that will accommodate increasing traffic volumes projected over the next 20 to 25 years in order to achieve desired performance at intersections throughout at the city. The Circulation Element addresses and supports transportation alternatives to the automobile such as bus transit, potential rail corridor options, bicycling, equine, and walking. The Circulation Element also addresses scenic corridors on key roadways throughout the city.	<b>EIR</b>	09/14/2012
2012011037	Stratford Ranch Industrial Project Perris, City of Perris--Riverside Development of a high-cube logistics warehouse site in two buildings totaling up to 1,725,411 square feet. Infrastructure improvements including 2.4 acres for dedication and construction of Redlands Avenue street frontage improvements. Improvements to the Perris Valley Strom Drain (PVSD) channel encompassing 45.7 net acres. Improvements to the PVSD Lateral D Channel encompassing 1.88 acres. The project includes the following City case numbers: EIR (11-09-0016); GPA (12-02-0001); SPA (11-12-0005); TPM (36469); Development Plan Review (11-12-0005).	<b>EIR</b>	09/14/2012
2004032138	Recology Hay Road Permit Revision Project Solano County Fairfield--Solano Modification to the permit limits for the average daily limits on municipal solid waste received at the Recology Hay Road Landfill.	<b>MND</b>	08/30/2012
2012052022	MacKerricher State Park Duen Rehabilitation Project Parks and Recreation, Department of Fort Bragg--Mendocino CSP proposes to restore ecosystem processes that are crucial to the viability of endangered species and their habitats in the Inglenook Fen-Ten Mile Dunes Natural Preserve by removing up to 2.7 miles (4.3 km) of asphalt road and portions of the underlying rock base in foredune habitat, removing two culverts and restoring the stream channel, and treating approximately 60 acres (24.3 hectares) of European beachgrass and other nonnative weeds. Mitigation measures are incorporated to assure that restoration and enhancements would not result in significant adverse effects.	<b>MND</b>	08/30/2012

## CEQA Daily Log

Documents Received during the Period: 08/01/2012 - 08/15/2012

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, August 01, 2012</u></b>			
2012081001	Oceanside Mesa Oceanside, City of Oceanside--San Diego The proposed development is a subdivision of 22 numbered lots each to accommodate a single family detached residence plus 4 lettered lots encompassing common area uses. The subject property currently has two General Plan Land Use designations including 12 acres of Medium Density Residential (MDA-R) and 11.8 acres of Open Space. The project site was previously rezoned to Planned Development (PD-24) which allowed for a development of 70 condominium units; the subject request is to amend the Planned Development Plan in order to reduce the intensity of development on the site and provide 22 single family residential units. The project filing includes a Tentative Map T11-00001, Development Plan D11-000130 and a Use Permit to allow panhandle lots. All hillside areas outside the development area will be preserved as open space.	<b>MND</b>	08/30/2012
2012081002	Conditional Use Permit 12-11 (Horn 4097 Project) Lancaster, City of Lancaster--Los Angeles The proposed project consists of the construction and operation of a 1.5 megawatt photovoltaic solar electric generating facility. The project consists of rows of PV panels on single axis trackers. The maximum height of these panels would be 8 feet when in full-tilt. The project would tie into the 12-kV transmission lines that run along 80th Street West. Access to the project site would be on 80th Street West via a 30-foot paved roadway from Avenue I.	<b>MND</b>	08/30/2012
2012082001	Soccer Park/Stormwater Detention Facility Live Oak, City of Live Oak--Sutter The 26 acre parcel, which is owned by the City, will be a joint use facility as a stormwater detention facility and as a City park, primarily utilized for soccer fields. As a stormwater detention facility it will be graded to two levels, as well as a portion of the property will remain at its existing surface level for park structures, including bathrooms, concession facility and storage. The mid-level will be planted in turf grass and used as the soccer park, with only occasional flooding from stormwater detention; and the lower depressed level will be primarily for stormwater detention. The lower level will be planted in native grasses.	<b>MND</b>	08/30/2012
2012082003	2007-2014 Housing Element Colma, City of Colma--San Mateo The Town of Colma Housing Element, a component of Colma's General Plan, presents a comprehensive set of housing policies and actions to address identified housing needs for the years 2007-2014. It includes an evaluation of existing housing programs, available land and constraints on housing production. Initiatives proposed to facilitate ongoing provision of affordable and market rate housing in the Town include conservation of residential neighborhoods, removal of government constraints in providing housing and promoting equal housing opportunity. The Housing Element identifies sites for 63 housing units. The IS analyzes the impacts of developing housing on the identified sites.	<b>MND</b>	08/30/2012

<b><u>Documents Received on Wednesday, August 01, 2012</u></b>			
2012082004	North Lane Stormwater Mitigation Project No. 4070 Orinda, City of Orinda--Contra Costa The North Lane Stormwater Mitigation project is proposed to be constructed because of previous flooding that cascaded over Camino Pablo and into the East Bay Municipal Utility District water treatment plant during storm events. Existing 48-inch culverts and ditches overflowed. The project involves (1) construction of a new upstream headwall, (2) construction by open trench of 60" storm drain pipe in North Lane for approximately 900 feet, (3) jack & bore a 60" pipe for approximately 310' across Camino Pablo to the EBMUD Treatment Plant property, (4) jack & bore a 60" pipe for approximately 90' from EBMUD Treatment Plant property to San Pablo Creek, (5) construction at San Pablo Creek of a new discharge headwall and (6) placement of rock slope protection, revegetation of disturbed areas, and replacement of removed trees.	<b>MND</b>	08/30/2012
2012082005	South Fork Cottonwood Creek Nonnative Plant Management and Control Project Fish & Game #1 --Tehama Cottonwood Creek Watershed Group proposes to remove giant reed, saltcedar, black locust, tree-of-heaven, pampas grass, and scotchbroom from South Fork Cottonwood Creek, Tehama County, using herbicides and manual removal methods. CCWG notified the CDFG, on March 26, 2012 with the intent to modify the bed and banks of Cottonwood Creek in order to implement the proposed Project. DFG is preparing a Lake of Streambed Alteration Agreement for the proposed Project pursuant to Section 1600 et. seq. of the California Fish and Game Code.	<b>MND</b>	08/30/2012
2012082006	1581-1585 El Camino Real West Residential Project Mountain View, City of Mountain View--Santa Clara The City of Mountain View and First Community Housing propose to develop a 27-unit apartment complex to provide affordable housing consisting of studio apartments and on-site services for developmentally disabled adults. The project would include two buildings with associated parking, landscaping, and infrastructure improvements.	<b>MND</b>	08/30/2012
2005052146	Moller Ranch Development Project/Moller Creek Culvert Replacement Dublin, City of Dublin--Alameda The project includes development of up to 382 dwellings on ~226 acres of land and replacement of the existing Tassajara Road culvert over Moller Creek in ~ the same location. The applicant has requested approval of a General Plan Amendment, a Specific Plan Amendment, a rezoning, a vesting tentative subdivision map and a development agreement.	<b>NOP</b>	08/30/2012
2012082002	1250 Bayshore Highway, Lot Split of One Parcel into Two Parcels Burlingame, City of Burlingame--San Mateo The proposal is for a lot split of one parcel (APN: 026-142-080) into two parcels, Parcels 1 and 2, so that the existing hotel and restaurant would each be located on independent parcels.	<b>Neg</b>	08/30/2012

<b><u>Documents Received on Wednesday, August 01, 2012</u></b>			
2005051042	<p>Conditional Use Permit No. 98-140 Los Angeles County Calabasas--Los Angeles Acquisition of a 97,574 gross square feet (gsf) two-story, office building and parcel located at 26585 Agoura Road. Calabasas, CA 91302 for use by the UCLA Department of Medicine UCLA Health System. The property is located in unincorporated County of Los Angeles, is zoned Manufacturing Industrial Planned Zone (MDP), and has an active Conditional Use Permit (#05-2754473). Use of the existing building as a medical clinic is consistent with current zoning uses allowed by the CUP and no changes would occur as a result of the acquisition. The property would include the use of 286 parking spaces located on-site.</p>	<b>NOD</b>	
2008121065	<p>Central Park Village Mixed use Brea, City of Brea--Orange This action would allow the subdivision of the 15.4 acre property into 6 parcels (5 numbered and 1 lettered) for the development of the site with a mixed use development of 66,000 square feet of commercial space and 452 residential multi-family units. Site address is 340 - 420 West Central Avenue.</p>	<b>NOD</b>	
2010062041	<p>Preliminary Engineering Studies for Overwater and Land Geotechnical Exploration Water Resources, Department of Isleton--Sacramento, San Joaquin, Yolo, Solano, Contra Costa The Engineering Geotechnical Studies Project consists of geotechnical exploration borings, cone penetration tests, and excavation test pits, over water and on land. The collection of soil and groundwater information from geotechnical survey activities will: (1) Identify potential constraints in developing water conveyance alternatives, and (2) support the preparation of environmental documents for the proposed Bay Delta Conservation Plan and preliminary engineering studies for the Delta Habitat Conservation and Conveyance Program.</p>	<b>NOD</b>	
2011031002	<p>Cadiz Valley Water Conservation, Recovery, and Storage Project Santa Margarita Water District --San Bernardino SMWD approved Phase 1 of the Project, which would pump an average of 50,000 AFY of water from the groundwater basin underlying the Cadiz and Fenner Valleys and the adjacent Bristol Valley over a 50-year period, delivering the water to SMWD, Three Valleys MWD, Golden State Water Company, Suburban Water Systems, Jurupa CSD, CA Water Services Company and the Arizona &amp; CA Railway Company via a wellfield with up to 34 wells and a 43-mile pipeline to the Colorado River Aqueduct. Phase 2, if considered and approved, would construct spreading basins to recharge surface water into the groundwater basin and convey stored water back to Participants.</p>	<b>NOD</b>	
2012012031	<p>Denman Reach Phase 3 Petaluma, City of Petaluma--Sonoma Acquisition of one to three parcels (007-412-031, -033, and -036) located along the east bank of the Petaluma River, Industrial Avenue. Future Phase 3(b) will be addressed through a separate environmental review once funding is secured.</p>	<b>NOD</b>

2012041063	EIR JRK 11-10; Avalon Wind Energy Project by Avalon Wind, LLC. Kern County Mojave--Kern The project proponent is requesting: ((a) Amendments to the Circulation Element of the Kern County General Plan to eliminate road reservations along section and mid-section lines; (b) changes in zone classification from the existing zone districts to the A WE (Exclusive Agriculture - Wind Energy Combining) District on up to 7,042 acres, and zone changes to A (Exclusive Agriculture) and A FP (Exclusive Agriculture, Floodplain Combining) on the remaining portions of the project site; and, (c) conditional use permits to allow for the use of temporary concrete batch plants during the construction of wind energy facilities. The requested applications would also permit the construction of wind ancillary facilities and supporting infrastructure. The project would be supported by a 230-kV overhead transmission corridor. The transmission line would generally be aligned from the northeast to the southwest where it ultimately would be connected to the existing SCE Whirlwind Substation. The project's permanent facilities would include up to 174 wind turbine generators (WTGs), service roads, a power collection system, communication cables, overhead and underground transmission lines, electrical switchyards, project substations meteorological towers, and operations and maintenance facility.	<b>EIR</b>	09/17/2012
2012071052	Partial Assignment of 300 AF to Saucelito Irrigation District Tea Pot Dome Water District Porterville--Tulare Note: Revised  Reclamation proposes to issue a partial assignment contract to SID for 300 AF of Class 1 water from TPDWD. In turn, Reclamation would amend TPDWD's existing repayment contract to reflect a reduction of TPDWD's Class 1 contract supply by 300 AF.	<b>JD</b>	08/31/2012
2012081003	Cedar Springs Apartments La Verne, City of La Verne--Los Angeles David and Margaret Youth and Family Services (Applicant) proposes to develop a multi-family apartment complex and an associated retail and cafe use on a portion of the existing 15-acre David and Margaret campus in the City of La Verne. Overall, the proposed project would encompass 1.69 acres of the David and Margaret campus. The proposed apartment buildings, pedestrian walkways, landscaped areas, and parking lots would cover approximately 62,750 sf of the project site. Located on the eastern portion of the project site, the proposed retail use would encompass 10,500 sf.	<b>MND</b>	08/31/2012
2012081004	Admiralty Way Street Improvement Los Angeles County --Los Angeles The proposed project is located in the unincorporated Marina Del Rey area in the County of Los Angeles. The proposed project involves resurfacing the existing roadway pavement, reconstructing medians and upgrading signals at Admiralty Way from Via Marina to Fiji Way; Via Marina from Marquesas Way to Washington Boulevard; Bali Way from Admiralty Way to Lincoln Boulevard; and Mindanao from Admiralty Way to Lincoln Boulevard. Right-of-way acquisition will not be required.	<b>MND</b>	08/31/2012

	station and 4,860 sf convenience store located on the northwest corner of Bellflower Street and Palmdale Road, within the City of Adelanto, County of San Bernardino. APN 3103-441-03.		
2012082009	Request to Subdivide Approx. 6.1 Acres into Residential Lots within the El Sobrante Area of Contra Costa County Contra Costa County Richmond, San Pablo--Contra Costa C&H Development, Inc. (Owner) and Wollman Associates, Inc. (Applicant), County File # SD06-9066: The applicants request approval of a vesting tentative map to subdivide approximately a 6.1 acre site (comprised of 3 parcels) into 12-lots. Lots range in size from 6,200 to 14,900 sf. Three open space landscaped parcels are proposed for a total of 2.16 acres. Access to the subdivide is proposed from a new private roadway Farris Court, which will connect to Fariss Lane an existing two-lane residential street. A gated Emergency Vehicle Access (EVA) driveway is proposed off of the new private roadway which will connect to Lambert Road. In addition, the request includes the removal of 9 trees, work within the dripline of 8 trees for the service road and drainage improvements, and preservation of 14 trees. Variances are requested for 4 and 5-foot high retaining walls approximately 1.5-feet from the property line, where 5-feet is required, between lots 1, 2, 7, and 8. The current parcels are already annexed into a lighting district, County Service Area L-100.	<b>MND</b>	08/31/2012
2012082010	Feeder Trail #1 Project East Bay Regional Parks District Martinez--Contra Costa The proposed project consists of improving the approximately three-mile long Feeder Trail #1 between Dutra Road and Ferndale Road near Martinez in unincorporated Contra Costa County as a multi-use trail for hikers, bikers and equestrians with access for emergency vehicles. The existing trail is a fire road which was once part of the Martinez-Richmond stagecoach route between Franklin Canyon and Alhambra Valley. The trail was conveyed from the County to the East Bay Regional Park District in 2009 and is a high priority for EBRPD due to its long history as a public route and importance to the trail-using community. The current endpoints of Feeder Trail #1 are Ferndale Road to the south and Dutra Road to the north. Additional information is included in Attachment A.	<b>MND</b>	08/31/2012
2012061093	2012 Air Quality Management Plan (AQMP) South Coast Air Quality Management District --Orange, Los Angeles, Riverside, San Bernardino Note: Recirculated  The 2012 AQMP identifies control measures to be implemented by state, federal and local agencies to demonstrate that the region will attain the federal standard for particulate matter less than 2.5 microns in diameter (PM2.5) by the applicable target dates and provides Clean Air Act S182(e)(5) proposed implementation measures to assist in achieving the 8-hour ozone standard. The AQMP also includes the most current air quality setting, updated emissions inventories of stationary and mobile sources, updated growth projections, new modeling techniques, rate of progress demonstration for NOx and VOC emissions compliance with contingency requirements, and an implementation schedule for adoption of the proposed control measures.	<b>NOP</b>	08/31/2012

2012082007	625-685 Clyde Avenue Office Project Mountain View, City of Mountain View--Santa Clara The project is the redevelopment of an existing office/light industrial site with high-density office uses. The project proposes to demolish 118,080 sf of space in four existing on-story buildings; and remove pavement, landscaping and other improvements. Following demolition, the project would construct two detached office buildings of up to 6-stories each, as well as landscaping, utilities, and other improvements. The two buildings would be approximately 192,755 sf each in size, and the 385,510 sf of new office space would be an increase of approximately 267,430 sf over the existing development on the site. The project would include one 6-level and one 5-level parking structure, in addition to surface parking. The project includes a rezoning from the Limited Industrial-Transit Overlay Zone (ML-T) district to Planned Community (P) district.	<b>NOP</b>	08/31/2012
2012081007	El Camino Winery Santa Barbara County --Santa Barbara The proposed project is a request of James LeCron, agent for Claxton Vineyards Limited, owner, to consider Case Nos. 11DVP-00000-00009 and 11CUP-00000-00020 for the approval of the following: (1) a Development Plan for a new 19,818 sf winery complex and (2) a CUP for an approximately 1.04 acre, 4.5-acre-ft frost protection reservoir, consistent with the Santa Barbara County Comprehensive Plan, including the Santa Ynez Valley Community Plan, and the Santa Barbara County Land Use and Development Code (LUDC).	<b>Neg</b>	08/31/2012
2012082008	PA0700027-One Year Time Extension for Previously Approved Use Permit San Joaquin County Tracy--San Joaquin A one year time extension for an approved Use Permit application for the construction of a 3,515 sf mini-mart with a 1,920 sf fuel island with canopy, a 5,125 sf mini-mart with a 1,920 sf fuel island with a canopy, a 3,277 sf convenience restaurant with a 728 sf indoor playground, a 2,520 sf convenience restaurant, a 3,600 sf convenience restaurant, a 34,300 sf motel, a 405 sf detached rest room building, and a 3,120 sf convenience of full service restaurant.	<b>Neg</b>	08/31/2012
2007121034	Los Osos Wastewater Project San Luis Obispo County --San Luis Obispo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. Dave Flynn. The Project consists of securing two (2) pipelines to the existing bridge structure. One (1) pipeline, 12-inch diameter, will carry recycled water and will be secured to the northern edge of the bridge. The second pipeline, 16-inch diameter, will carry wastewater and will be attached to the southern edge of the bridge. The second pipeline, 16-inch diameter, will carry wastewater and will be attached to the southern edge of the bridge. The second pipe will lie inside the existing knockouts in the bridge abutments. To support the pipelines during installation, one (1) of three (3) potential methods will be used: 1) support the pipe from the deck of the bridge by using an excavator or similar equipment; 2) support the pipes from the creek bed using a forklift or backhoe; or 3) support the pipes from the creek bed by hand-building falsework. Any heavy equipment placed in the creek bed will be lowered to the channel from the bridge and will not require access ramps. All work will be conducted where there is no	<b>NOD</b>

	water present in the channel of Los Osos Creek. A minimal amount of riparian vegetation (500 ft 2) will be trimmed away from the existing guard rails to allow access.		
2009091085	Scattergood-Olympic Transmission Line Project Los Angeles County Los Angeles, City of--Los Angeles The City of Los Angeles Department of Water and Power (LADWP) proposes to construct and operate approximately 11.4 miles of new 230-kilovolt underground transmission line that would connect the Scattergood Generating Station (SGS) in Playa del Rey and Olympic Receiving Station (RS) in western Los Angeles. The Project would also include minor modifications to the SGS and Olympic RS to allow the new transmission line to connect into the stations. The new underground transmission line would enhance the reliability and operational flexibility of power transferred from the SGS to the Olympic RS, better utilize the energy produced from the SGS, and comply with federally mandated standards.	<b>NOD</b>	
2010012067	Lake Forest Water Company Acquisition and Water System Reconstruction Tahoe City Public Utility District --Placer The California Department of Public Health (CDPH), as a Responsible Agency, will be providing funds for this project from the Proposition 50 Program and the Safe Drinking Water State Revolving Fund. The Tahoe City Public Utility District's proposed project includes the acquisition of the assets of the Lake Forest Water Company by the TCPUD and reconstruction of the water system within the Lake Forest Water improvement District service area to meet California Waterworks Standards and the California Fire Code. TCPUD would assume operation and maintenance responsibilities for the water system within the LFWID area. Approximately 2,500 lineal feet (LF) of 10-inch PVC water main boxes and service laterals would be installed to individual parcels and 26 fire hydrants would be installed with the project.	<b>NOD</b>	
2011042043	Wastewater Treatment Plant Upgrade and Expansion Project Donner Summit Public Utility District --Nevada The 2-acre Wastewater Treatment Plant Upgrade and Expansion Project consist of upgrading and improving the existing Wastewater Treatment Plant and spray irrigation disposal system on the Soda Spring Ski Area. The purpose of the project is to update the existing waste water treatment plant.	<b>NOD</b>	
2011042095	Coastal Prairie Trail Sonoma County --Sonoma The project is limited to installing a 120-foot-long, 8-foot-wide single-span pre fabricated, wooden deck bridge to be placed over an unnamed stream. The bridge will be constructed on 24-inch-in-diameter concrete piers that will be installed 10 to 12 feet deep above the ordinary high water mark (OHWM). The bridge will be side girder type structure constructed from pressure treated glue-laminated beams and pressure treated timber, the bridge structure includes 54-inch-high untreated cedar or redwood handrails. The bridge will include 32-foot long, 8-foot-wide boardwalk approaches on both ends of the bridge in order to complete the span over the stream. There will be 12-foot by 10-foot concrete landing pads at both ends of the boardwalk sections. The boardwalk sections will be installed on 12-inch-diameter concrete pier footings at a maximum depth of 10-feet. The board approaches will	<b>NOD</b>

	approvals.		
2012082012	12-006 (Pristine Sun) Sutter County Live Oak--Sutter A use permit to construct a 1.25 MW solar generating facility on approximately 9.22-acres of an 11.89-acre parcel. The proposed solar modules individually measure 77 inches long by 39 inches wide on ground mounted trackers for a maximum height of 6 feet 9 inches at a 45 degree angle.	<b>MND</b>	09/04/2012
2012082014	PG&E Arcata Reconductoring Humboldt County Arcata--Humboldt The Project involves reconductoring (replacing existing wire) approximately 20,500 feet of the PG&E Arcata 1105 electric distribution line (1105 line) such that the 1105 line would have an increased capacity, from 415 amperes to 677 amperes. PG&E would then transfer 360 amperes from the Arcata 1106 electric distribution line (1106 line) to the 1105 line to alleviate the 1106 line, which is at risk of overloading due to ongoing growth in the Arcata/McKinleyville area. As part of the reconductoring, PG&E will replace approximately 125 distribution line poles (DLPs), and add DLPs where existing DLPs are spaced too far apart. Reconductoring activities consist of one or more of the following at each construction location: (1) existing DLP would be removed and replacement pole would be placed in situ or immediately adjacent; (2) existing DLP would be removed and replacement pole would be placed nearby; (3) DLP addition or removal; (4) existing anchor would be removed and a replacement anchor would be added in situ or immediately adjacent; or (5) anchor addition or removal. Utility trucks with attached 22-in diameter augers would be used to remove and add DLPs. New or replacement DLPs would be 1 ft in diameter; new or replacement anchors would have a diameter or 4 in. When removing or adding a DLP, the auger would be used to dig to a depth of approximately 7 ft. Anchor replacements and additions would be screwed directly into the ground (approximately 6 ft depth), with excavation of the surrounding area conducted as necessary to secure the anchor placement. Displaced soil would be temporarily stockpiled nearby during installation then returned to the augur-made hole.	<b>MND</b>	09/04/2012
2012082015	Sacramento River Flood Control System Evaluation, Phase III, Mid-Valley, Contract Area 3 Central Valley Flood Protection Board --Yolo The Central Valley Flood Protection Board along with the U.S. Army Corps of Engineers (Corps) proposes (1) installing slurry cutoff walls on the existing levee at Sites 9, 10, and 11 along the west side of Sacramento River and (2), remediating the existing levee at Sites 12, 12A, and 13 along the east side of the KLRC.	<b>MND</b>	09/04/2012

	total) with surfacing parking and landscaping. The proposed buildings would provide a flexible design for office, biotech, and/or research and development (R&D) uses. The Jefferson Site would include an entrance and driveway from Jefferson Drive, a lawn area, bocce courts, picnic tables, stormwater treatment areas, and landscaping.		
2012052034	Housing Element Update Sausalito, City of Sausalito--Marin The project is an update of the City of Sausalito General Plan Housing Element as required by CA law. The Housing Element Update establishes housing objectives, policies and programs in response to community housing conditions and needs. The Housing Element Update is a comprehensive statement by the City of Sausalito of its current and future housing needs and proposed actions to facilitate the provision of housing to meet those needs. The Housing Element Update is a policy level document. It provides policy direction for the implementation of various programs to accommodate the housing needs of projected population growth, and to encourage the production of housing units in a range of prices affordable to all income groups.	<b>Neg</b>	09/04/2012
2012081011	2010-2020 Housing Element (General Plan Amendment GPA12-001) Lemon Grove, City of Lemon Grove--San Diego This project is a General Plan Amendment (GPA12-001) to adopt the 2010-2020 Lemon Grove Housing Element.	<b>Neg</b>	09/04/2012
2012081012	Avalon Seawall Repair Avalon, City of Avalon--Los Angeles Repair Existing 300 LF Seawall by grouting and fill.	<b>Neg</b>	09/04/2012
2012082011	PA-1200141 San Joaquin County Ripon--San Joaquin A site approval application for the expansion of an existing Walnut dehydrating facility to include the construction of one 4,140 sf expansion to an existing walnut dehydrating building, a 4,320 sf expansion to an existing shop building, and seasonal trailer parking for 44 trailers.	<b>Neg</b>	09/04/2012
2012082013	Proposed Regulations to Implement Dungeness Crab Trap Limit Program Fish & Game #3 -- A Dungeness crab trap limit program was passed by the legislature and signed by the Governor in 2011, adding Section 8276.5 to the Fish and Game Code. This program imposes limits on the number of traps that a Dungeness crab vessel permit holder can operate during the commercial season. While the statute outlines the trap limit program, the Department of Fish and Game is authorized by statute to implement the program, which requires new regulations be adopted in Title 14, California Code of Regulations. This proposed project addresses application procedures and fees for biennial trap permits, tags, and replacement tags as well as instances to file for a waiver, retrieve derelict traps, and the appeals process.	<b>Neg</b>	09/04/2012

## CEQA Daily Log

Documents Received during the Period: 08/01/2012 - 08/15/2012

<b><u>Documents Received on Friday, August 03, 2012</u></b>			
2012082017	Use Permit 12-001 (Laskowsky) Shasta County Redding--Shasta The request is for a Use Permit for the construction and operation of a wireless communications facility on a 12.78-acre property. The communications facility would consist of a 115-foot-tall lattice-type structure with the appearance of an agricultural windmill and containing 12 antennas & 2 microwave dishes, a 12-foot x 16-foot equipment shelter, and one 48 KW diesel standby generator with 210-gallon fuel tank, all of which would be enclosed by a 6-foot-tall chain-link fence. The proposed improvements would be located within a 50-foot x 50-foot lease area on the property. Access to the site would be from Smith Road through a proposed 900-foot-long driveway to be constructed on the property.	<b>Neg</b>	09/04/2012
2012082019	Vehicle Wash Facility El Dorado County Placerville--El Dorado The project improvement includes; construction of a covered vehicle wash building; electrical power supply; relocation of a domestic water line; relocation of a sand/oil separator; placing a new sewerline and replacing a portion of existing sewerline. The project is situated within the existing, fully paved, DOT vehicle Corporation Yard for County fleet vehicles. A more detailed project description can be found in the CEQA document. The wash facility is being placed where a storage structure previously stood. The existing pavement under the proposed facility footprint will be removed and replaced with 3" of asphalt concrete slab (AC) over 7-1/2" aggregate base (AB) over 8" of 95% compacted soil pursuant to the geotechnical report for subgrade compaction recommendations prepared for the project.	<b>Neg</b>	09/04/2012
2012082023	Bremer Family Winery Vineyard Conversion #P11-00317-ECPA Napa County St. Helena--Napa The project includes earthmoving activities and installation and maintenance of erosion control measures associated with development of an approximately 34.6-acres of new vineyard (approximately 26 net vine acres). The site plan designates development on topography that ranges from gently to steeply sloping lands (typical slopes from 6% to 40%), at elevations between approximately 460 and 810 feet above mean sea level.	<b>Neg</b>	09/04/2012

2011111027	FRV Valley Solar Project (PP11297); GPA 3/CUP 24, Map 161; CUP 25, Map 161; GPA 5/CUP 16, Map 125, Cancellation of Williamson Act Land Use Contracts; 11-3, 11-4 Kern County Bakersfield, Arvin, Lamont--Kern The FRV Valley Solar Project is a proposal to construct and operate 3 solar photovoltaic power generating facilities that would generate a combined 115 megawatts of electricity, on three sites totaling 1,063 acres in unincorporated portions of Kern County, California. The project sites are within the jurisdictional boundaries of the Kern County General Plan. Currently; all the parcels are zoned A (Exclus. Agric) with map code designations 8.1 and/or 8.4. The project includes proposed CUPs and General Plan Amendments to amend the Circulation Element of the Kern County General Plan. The GPA requests are to eliminate future road reservations along midsection lines of Sections 22 and 27, T30S, R29E, MDB&M and S34, T32S, R28E, MDB&M, in order to remove the required setbacks on the subject parcels. There are no existing roads developed along any of the subject midsection lines. In addition, the project includes a request to cancel Williamson Act Land Use Contracts on approximately 1,010 acres of farmland. 16 of the 19 parcels are under Williamson Act Land Use contracts (1,010 acres) and cancellation of the contracts is required.	<b>EIR</b>	09/19/2012
2012041067	Simbol Calipatria I Plant Project CUP #12-0004 Imperial County Calipatria--Imperial Simbol, Inc. is proposing to construct and operate the SmCP-1, a commercial mineral extraction plant in the Salton Sea Known Geothermal Resource Area. The facility would use geothermal brine from the existing HR-1 geothermal flash plant to produce lithium carbonate, lithium hydroxide, hydrochloric acid, zinc, and manganese products for commercial sale. After the geothermal brine is processed, it would be returned to HR-1 for injection into the geothermal reservoir. In addition to the mineral extraction and processing facilities, the project includes	<b>EIR</b>	09/19/2012

	geothermal brine supply/return pipelines, new driveway access from Davis Road and from McDonald Road, a new power line and substation, paving McDonald Road, between SR 111 and English Road and three options for off-site upgrades to the Imperial Irrigation District's existing transmission system.		
2005091148	San Clemente Dam Seismic Safety Project Water Resources, Department of Carmel--Monterey NOTE: Final - 1 CD	<b>FIN</b>	
	Alternative 3 in the San Clemente Dam Seismic Safety Project FEIR/EIS was revised by CAW to meet regulatory requirements, to provide better road access to the project, and maintain the project construction schedule. A supplement to the final EIR (SEIR) describes the revised project features, analyzes potential impacts associated with the revised project, and proposes mitigation for the impacts. Like Alternative 3 in the FEIR/EIS, the revised Project described in the SEIR consists of removing San Clemente Dam and rerouting Carmel River.		
2012081013	Use Permit 1048-11 A-E (Citadel Exploration, Inc.) San Benito County Greenfield--San Benito The proposed project consists of an oil exploratory drilling program and temporary pilot thermal enhanced recovery project, located in the Bitterwater area in southwestern San Benito County. The purpose of this project is to determine the economic viability and potential future development of the subsurface reservoir. Under the program, up to 15 wells would be drilled to collect core data on the underlying subsurface reservoir. This data would be used to determine which wells are suitable candidate for a pilot thermal enhanced recovery program. The pilot recovery program would then allow additional data gathering to determine economic viability and potential future development of the subsurface reservoir.	<b>MND</b>	09/04/2012
2012081014	Marks Ranch Buckeye Trail Monterey County Salinas--Monterey Construction of a 1.4 mile pedestrian trail from Toro Park to Marks Ranch. The trail parallels hillside contours through relatively undisturbed oak woodland, native grassland, and with a minimum 30 foot setback from an ephemeral stream with riparian vegetation, eventually bordering a wetland meadow area until reaching an existing ranch access road that leads to a historically-designated structure. From the trailhead in Toro Park to the ranch road at Marks Ranch, the Buckeye Trail shall meet ADA standards. Habitats shall be highlighted along the trail with nature-interpretive signs at 4 locations, ADA-compliant picnic tables at 3 locations, and 5-pull-outs along the existing ranch road. Grading is estimated and a cut/fill balance of 350 cubic yards. Tree removal limited to 3 oak trees less than 6 inches in diameter at 2 feet above ground.	<b>MND</b>	09/04/2012
2012081017	Eastside Well Collector and Centralized Disinfection Facility Project Pasadena, City of Pasadena--Los Angeles The Eastside Well Collector and Centralized Disinfection Facility project involves installing the infrastructure necessary to transport groundwater from seven wells in the eastern portion of Pasadena to Pasadena Water and Power's (PWP's) Jones Reservoir and to provide for centralized disinfection of the groundwater from these wells. To accomplish these objectives, PWP proposes to install 23,587 linear	<b>MND</b>	09/04/2012

	feet of pipeline to collect and transport groundwater from the seven involved wells to the Jones Reservoir site, where a chloramination system would be installed to disinfect the water prior to its storage in the reservoir. The proposed project also includes improvements at each of the well sites and a minor improvement to the Jones Reservoir overflow vault.		
2012082024	PA-1200063 San Joaquin County --San Joaquin A site approval application to expand an existing small winery and increase the number of marketing events and attendees. The expansion includes the construction of a 5,652 sf wine garden, a 300 sf commercial kitchen, a 1,600 sf storage building, a 336 sf wine storage building, a 288 sf covered patio, a 420 sf restroom facility and increase the number of marketing events from the previously approved 4 events to 24 events per year and increase the number of attendees from the previously approved 25 people to 150 people per marketing event.	<b>MND</b>	09/04/2012
2012081016	Hesperia Commerce Center; CUP 11-10229 and TPM 11-10230 (PM 19339) Hesperia, City of Hesperia--San Bernardino The project consists of the development of up to 34 industrial warehouse and office buildings with a total building area of up to 3.5 million sf, on a 232-acre site. Site access will be provided by private streets and driveways off Caliente Road.	<b>NOP</b>	09/04/2012
2012081015	RENV 201000011 / R 2010-00236 / ROAK 201000007 19936 Esquiline Avenue, Rowland Heights Los Angeles County Diamond Bar--Los Angeles The applicant is requesting an Oak Tree Permit to approve the trimming of 53 oak trees, removal of four oak trees, due to poor condition, major twig die-back, and poor structures with extreme leans over walkway areas; and retroactively approve the trimming of four oak trees. All of the trees are identified as Coast Live Oak, in an oak tree report dated February 19, 2010 and prepared by Lisa Smith, Registered Consulting / Certified Arborist. The previously trimmed trees were trimmed to provide clearance over the clubhouse and pool area of the existing Palatine Hills Condominium Development. Based on the oak tree report, 57 trees require trimming and four additional trees should be removed.	<b>Neg</b>	09/04/2012
2012082025	West Contra Costa County Single-Use Carryout Bag Reduction Ordinance RecycleMore --Contra Costa RecycleMore is proposing to draft a model ordinance to be used by its Member Agencies for the purpose of regulation the distribution of single-use carryout bags at the point of sale in West Contra Costa County. The proposed ordinance would prohibit the free distribution of single-use carryout paper and plastic bags at the point of sale (i.e., check-out) for all retail establishments except restaurants and nonprofit charitable reuse organizations. An exception to the ban on single-use bags would be made for paper bags containing at least 40 percent recycled content, as long as the retail establishment charges at least five cents for each bag.	<b>Neg</b>	09/04/2012

2012082027	Facebook West Campus Remedial Action Plan Toxic Substances Control, Department of Menlo Park--San Mateo The DTSC is proposing to approve the Facebook West Campus Remedial Action Plan (RAP) pursuant to authority granted under Chapter 6.8, Division 20, CA Health and Safety Code (H&SC). The 22-acre project site is located at the southwest corner of Willow Road and Bayfront Expressway in the City of Menlo Park. The site previously had undergone remediation, between 2001 and 2007, to reduce contaminant concentrations to levels that were protective of human health and the environment and to provide for adequate management of residual contaminants through onsite containment and corresponding use restrictions.	<b>Neg</b>	09/04/2012
2012082026	Prop: Amendments to MRR and Conforming Amendments to AB 32 COI and Cap-and-Trade Regulations Air Resources Board -- Note: F.E.D.  The proposed project is comprised of amendments to the Regulation for the Mandatory Reporting of Greenhouse Gas Emissions and conforming amendments to the definition sections of the AB 32 Cost of Implementation Fee Regulation and the Cap-and-Trade Regulation.	<b>Oth</b>	09/19/2012
2004081151	Lower Reach River Supply Conduit Project Los Angeles County Burbank--Los Angeles The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water State Revolving Fund Program is providing state funds for this project. LADWP proposes to comply with the Long Term 2 Enhanced Surface Water Treatment Rule and ensure conveyance of water through the construct of approximately 7,500 linear pipeline and appurtenant structures.	<b>NOD</b>	
2007041080	Strand Ranch Integrated Banking Project Rosedale-Rio Bravo Water Storage District --Kern The proposed project is to deliver up to 6,5000 acre-feet of SWP water acquired by Irvine ranch Water District (IRWD) on behalf of MWDSC (henceforth "MWDSC's approved SWP water ") to the Strand Ranch Integrated Banking Project is located in Kern County and is owned by IRWD. Said banking project is operated by Rosedale-Rio Bravo Water Storage District (RRBWSD), a member unit of KCWA. DWR will deliver MWDSC's approved SWP water to KCWA's turnouts in Reach 12E of the California Aqueduct. The return of MWDSC's water will be accomplished either by delivery via exchange of KCWA's future SWP approved Table A water or by pumping delivery to the California Aqueduct in Reach 12E of the California Aqueduct, to MWDSC's turnouts for use in its service area.	<b>NOD</b>	
2009032077	Tres Vaqueros Windfarm Repowering Project Contra Costa County Byron--Contra Costa The California Department of Fish and Game (DFG) is executing Lake and Streambed Alteration Agreement Number 1600-2012-0031-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Tres Vaqueros Wind	<b>NOD</b>

	Farms, LLC for 1) optic cable, and 2) replacement and/or reconfiguration of road crossing culverts due to either structural deficiencies or realignment of the road network. After installation of utility lines, trenches will be backfilled with 80% compacted native material covered by a 16" layer of topsoil. The culvert replacement will consist of in-kind replacement, although some culverts may be moved to accommodate realignment of the roadway. In locations where an existing culvert will be removed and not replaced in the same locations, the channel contour will be restored and the banks revegetated.		
2011102050	Fallbrook Wastewater Treatment Plant Rehabilitation Fallbrook Public Utility District Fallbrook--San Diego The Project will improve reliability and increase efficiency of the WWTP, and will provide better management of reclaimed water. The Project will involve: 1) constructing a new lift station, blower building, and an additional secondary clarifier; 2) installing new high efficiency blowers, dissolved oxygen controls, new reclamation filters, flow gauges, valves, controllers, internal mixed liquor recycled systems, baffles, mixers and dechlorination equipment; 3) rehabilitating the headworks and the operations center (lab, bathrooms and work areas); 4) removing a primary clarifier, and converting the primary clarifier into an emergency storage; 5) converting the existing overflow holding tank into an odor control facility; 6) rehabilitating and lining the equalization basin, including adding a diver wall in the equalization basin to separate and manage secondary and filtered effluents; 7) rehabilitating the existing reclamation facilities (flocculation and filtration); 8) installing an additional sludge dewatering centrifuge, and modifying the existing sludge dryer; 9) demolishing and existing pump station; 10) installing and modifying piping; and 11) upgrading the electrical system, and the supervisory control and data acquisition system.	<b>NOD</b>	
2011122047	The 2012 Fisheries Restoration Grant Program Fish & Game #2 -- The Project is limited to improving the spawning and rearing habitat for coho salmon and steelhead trout by increasing habitat diversity in Russell Brook. The objective is to improve the quality and quantity of salmonoid habitat by placing large wood structures instream to increase pool habitat. Provide holding habitat for migration salmonids, and sort and collect spawning gravel.	<b>NOD</b>	
2011122047	The 2012 Fisheries Restoration Grant Program Fish & Game #2 -- The Project is limited to treating 37 sites to include the decommissioning of 0.57 miles of road thereby saving approximately 10,400 cubic yards of sediment from delivery to Howe and Oil Creeks.	<b>NOD</b>	
2011122047	The 2012 Fisheries Restoration Grant Program Fish & Game #2 -- The Project is limited to onslope work which will include the decommissioning of approximately 3.92 miles of road thereby saving 7,624 cubic yards of sediment from delivery to Lawrence Creek. Treatments will occur at 12 stream crossings, 7 landing/fill slope sites and 2 springs. Instream work will include the construction of eleven (11) complex large wood structures within a 1.1 mile reach of Lawrence.	<b>NOD</b>

2012052051	Doherty Drive Bridge Replacement Project Larkspur, City of Corte Madera--Marin The City proposes to replace the existing two-lane Doherty Drive Bridge with a new single-span bridge that is slightly longer than the existing bridge at approximately 52 feet. The proposed bridge will carry one through lane of traffic in each direction, together with a left-turn lane into the property locally known as the "Niven property" located immediately to the southwest of the bridge. A 5-foot-wide sidewalk and 7-foot-wide Class 2 bicycle lane are proposed on the north side of the bridge, and a 12-foot-wide Class 1 multi-use path and 7-foot-wide Class 2 bicycle lane are proposed on the south side of the bridge. The total proposed width including barriers is 69 feet.	<b>NOD</b>	
2012052052	Bon Air Road Bridge Replacement Project Larkspur, City of Corte Madera--Marin The City proposes to replace the existing Bon Air Road Bridge with a new bridge that is 388 feet long and 62.5 feet wide. The bridge will generally follow the same alignment as the existing bridge with the north edge of the bridge extending approximately 13 feet beyond the north edge of the existing structure. The new bridge will reduce the number of spans and columns to less than half of the number that currently exist. The structure will carry one 12-foot lane of traffic in each direction and have a 6-foot Class 1 bicycle path and 5-foot sidewalk in each direction.	<b>NOD</b>	
2012061084	Quartz Hill Water District Operation Center and Maintenance Facility Quartz Hill Water District --Los Angeles The Quartz Hill Water District (QHWD) is proposing to construct a new Operations Center & Maintenance Facility. The 31,194 sq. ft, 2-story building will include "Operations Center" functions consisting of the following uses: Administrative-related services, a "Supervisory Control and Data Acquisition System", and a water quality testing lab. The "Maintenance Facility" will consist of the following uses: water equipment repair shop, and an equipment and materials storage.	<b>NOD</b>

2006081093	Cucamonga Canyon Rehabilitation Project Cucamonga Valley Water District Rancho Cucamonga--San Bernardino The original project consisted of restoration of the damaged components (2005) of the Cucamonga Creek Diversion Facility. This diversion structure is needed in order to supply water, at sufficient head, to the Arthur H. Bridge Water Treatment Plant. For the Proposed Cucamonga Canyon Rehabilitation Project, the Cucamonga Canyon intake facility to the Arthur Bridge Water Treatment Plant (ABWTP) is composed of two basins: the first being a sedimentation basin and the second the intake structures basin. During the heavy storm events of 2010, excessive runoff from the canyon caused significant damage to the intake basins. The basins became filled to overflowing with rock and debris and the intake gates were buried, as were the access manhole and the concrete weir box. This has forced the shutdown of the ABWTP until basins have been cleared of debris and other damage has been addressed. In an effort to minimize the impact of future storm runoff, the District is proposing a redesign of the intake basin facility. The work limits will roughly be within the existing footprint of the current facilities. Although a redesign of the intake structure is the preferred option, the District may opt to perform a direct in-kind replacement of what was there prior to storm damage.	<b>NOD</b>

<b><u>Documents Received on Thursday, August 09, 2012</u></b>			
2012081031	Blackrock Campground Rehabilitation, Joshua Tree National Park National Park Service Yucca Valley--San Bernardino Joshua Tree National Park (Joshua Tree or park) proposes to rehabilitate the Black Rock campground in the northwestern portion of the park. The preferred alternative would add drainage improvements, reconfigure campground roads and campsites, and protect parks facilities and natural resources from further deterioration. Black Rock campground is in an area that periodically receives stormwater runoff from the large upslope watershed. High intensity short-duration rainfall events generate surface runoff that is currently conveyed through the campground in an unpredictable manner.	<b>EA</b>	09/07/2012
2008051084	Gunner Ranch West Specific Plan Madera County --Madera Note: Recirculated  The continued development of the project site includes the following proposed entitlements: (1) adoption of the proposed Specific Plan; (2) approval of the Development Agreement; and (3) approval of the Infrastructure Master Plan (IMP).	<b>EIR</b>	09/24/2012
2012031053	Temporary Increase in Rose Bowl Displacement Events Pasadena, City of Pasadena--Los Angeles The Rose Bowl currently holds approximately 12 displacement events (greater than 20,000 attendees) per year, primarily on weekends. The number of displacement events is restricted by the Pasadena Municipal Code, which currently allows for 12 displacement events annually. The proposed project would amend the Municipal Code, Chapter 3.32, to temporarily increase the number of displacement events up to 2.5 per year. Currently, seven events are contractually reserved for the University of CA Los Angeles (UCLA) football games, as well as up to two post-season collegiate games including the Rose Bowl. Up to 13 proposed events would be reserved for the National Football League (NFL). Given the scheduling of the NFL, it is anticipated that no more than three games per year would be held on a weeknight. No NFL games would be held on the same day as a college football game. The use of the Rose Bowl would be temporary until a new NFL stadium is selected and built in the Los Angeles area, or until the completion of a five year lease term, whichever comes first. The Rose Bowl would also continue to host other displacement events such as concerts and additional sporting events, with the total number of events not to exceed 25 annually.	<b>EIR</b>	09/24/2012
2008072115	General Plan Update Rocklin, City of Rocklin--Placer NOTE: Final 1 CD  The City of Rocklin proposing the adoption of a General Plan Update. Related actions include the adoption of sixth amendment to the City's Redevelopment Plan and the adoption of a Climate Action Plan.	<b>FIS</b>

2012082034	Project #07-066 Sutter County Yuba City--Sutter A Planned Development Amendment to allow recreational vehicle (RV) display and sales at an existing RV service and repair facility, and a Design Review for a proposed 3,690 sf showroom addition to the existing 27,030 sf building.	<b>MND</b>	09/07/2012
2012081026	EIR No. 532 / Conditional Use Permit No. 3684 / Public Use Permit 916 / Palo Verde Mesa Solar Riverside County Blythe--Riverside The proposed project consists of the construction and operation of a 486 megawatt solar photovoltaic power plant (CUP03684) and transmission line (PUP00916) on approximately 3,400 acres. The proposed project would consist of a solar array field utilizing single-axis solar PV trackers and panels with a combined maximum height of eight and a half feet. Supporting facilities on-site would include two electrical substations, one operation and maintenance building, inverters, transformers, and associated switchgear. Since most of the site has nearly level to gently sloping topography, no mass grading would be required, and the natural drainage patterns of the site would not be significantly altered. The Project site would be secured 24 hours per day by on-site private security personnel or remote services with motion-detection cameras. An equestrian-wire, wildlife-friendly and drainage-compatible security fence that meets the National Electrical Safety Code would be placed around the perimeter of the site. The proposed lighting for the site would be consistent with County building code. A 14.7-mile-long 230 kilovolt transmission line would connect the proposed Project's northwestern substation with the approved Colorado River Substation, located west of the Project site. The solar array field would be located entirely within the County of Riverside's jurisdiction. The transmission line would be located on County of Riverside jurisdiction, with the exception of approximately 1.7 miles (20.6 acres) within the City of Blythe and approximately 4.0 miles (48 acres) within land managed by the BLM. A Development Agreement between the County of Riverside and the applicant would be established, setting forth the rights and responsibilities of each party with respect to project development and operation.	<b>NOP</b>	09/07/2012
2012081028	West Hills Water Treatment Plant San Benito County Water District Hollister--San Benito The San Benito County Water District, City of Hollister, Sunnyslope County Water District, and San Benito County, propose to implement the West Hills Water Treatment Plant project (proposed project). The primary purpose of the proposed project is to provide high quality water supply to the western area of the Hollister Urban Area, an area which currently receives groundwater. As lead agency, SBCWD intends to prepare an EIR in accordance with CEQA to evaluate the project's potential environmental impacts. The project site is located in an unincorporated area of San Benito County just outside of the southwestern boundary of the City of Hollister in the hills north of Union Road. The project site consists of two vacant parcels totaling approximately 33 acres that are jointly owned by the City of Hollister and Sunnyslope County Water District. The main components of the proposed project include construction and operation of the West Hills water treatment plant, a raw water pump station, and raw and treated water transmission pipelines. The proposed plant would be	<b>NOP</b>	09/07/2012

	comprised of treatment facilities, solids handling facilities (including drying beds0, treated water storage tanks, an administration and operations building and associated facilities. Raw water would be supplied to the water treatment plant from the Hollister Conduit, which transfers water from the San Luis and San Justo Reservoirs. New pipelines would be constructed along Richardson Road, Riverside Road, and Nash Road.		
2012081029	Carroll Canyon Commercial Center San Diego, City of San Diego--San Diego The Carroll Canyon Commercial Center project proposes the redevelopment of an existing office complex with a commercial development that would include a mix of retail shops, financial institution(s), sit-down restaurant(s), and fast service restaurant(s). The existing 81,600 sf office building and associated facilities would be demolished and replaced with approximately 145,000 sf of commercial retail space.	<b>NOP</b>	09/07/2012
2012082037	Watmaugh Road Bridge Replacement Project Sonoma County --Sonoma The proposed bridge project would be located on Watmaugh Road where it crosses Sonoma Creek. The project would construct a replacement bridge within the approximate alignment of the existing bridge. The new bridge would be a two span pre-stressed concrete box girder that would be ~185 feet in length. The new bridge would be 32 feet wide, consisting of two 11-foot travel lanes and two foot shoulders. The approach roadway width would also be widened to about 32 feet and taper until it conforms to the existing roadway at each end of the bridge.  To construct the new bridge, Cast in Drilled Hole (CIDH) concrete piers would be drilled into the banks of the creek at the location of the abutments and at the center pier, with the number and size of the CIDH piers to be determined prior to construction, based upon the results of a geotechnical report. Additional rock slope protection (RSP) may be included with the proposed bridge replacement. Prior to removal of the existing bridge, a debris catching platform would be constructed under the bridge. The platform would be supported by the existing structure over the water and would function to prevent concrete debris from falling into the creek during removal of the existing bridge deck.	<b>NOP</b>	09/07/2012
2012081027	Recycle X Medical Waste Treatment Facility - CUP No. 2165 El Cajon, City of El Cajon--San Diego This proposed project is an off-site medical waste treatment facility, as defined and regulated by the Medical Waste Management Act (MWMA), contained in Sections 117600 through 118360 of CA Health and Safety Code. The facility would dispatch trucks to collect contaminated medical waste in sealed containers, which would then be returned to the facility for treatment. The majority of waste would originate from facilities like hospitals, medical and dental clinics, convalescent homes, laboratories, and doctor's offices. However, the facility would also receive medical waste from trauma scenes. Trauma scene waste includes materials tainted with human blood and tissue collected from trauma scenes such as vehicle accidents sites, shooting sites, collapsed buildings, etc. The waste would be treated at the facility to sterilize the contaminated material and kill any infectious organisms. After treatment, the waste would be considered solid waste which would then be disposed of in a landfill.	<b>Neg</b>	09/07/2012

<b><u>Documents Received on Thursday, August 09, 2012</u></b>			
2012081030	<p>Conditional Waiver of Waste Discharge Requirements for Agricultural Wastewater Discharges and Discharges Colorado River Board Blythe--Riverside, Imperial</p> <p>This regulatory action is for a proposed Conditional Waiver of Waste Discharge Requirements (WDRs). The intent of the Conditional Waiver is to ensure agricultural wastewater discharges and discharges of wastes from drain maintenance in the Palo Verde Valley and Palo Verde Mesa, occur in a manner that does not adversely affect the beneficial uses defined in the Basin Plan for the Palo Verde Valley Drains, and the Palo Verde Valley Lagoon and Outfall Drain. Accordingly, the proposed Conditional Waiver establishes conditions for agricultural wastewater discharges originating within the Valley and Mesa. The Conditional Waiver also establishes conditions for drain maintenance discharges that occur as a result of drain operation and maintenance (O&amp;M) activities.</p>	<b>Neg</b>	09/07/2012
2012082033	<p>Elk Grove-Florin Road Bridge at Elder Creek Sacramento County --Sacramento</p> <p>The purpose of the proposed project is to replace the existing hydraulically inadequate and narrow bridge on Elk Grove-Florin Road with a new wider bridge.</p>	<b>Neg</b>	09/07/2012
1996061024	<p>EXPANSION OF JAMES A. MUSICK FACILITY; INTERIM CARE FACILITY Orange County IRVINE, LAKE FOREST--ORANGE</p> <p>The proposed project consists of revisions to the already approved expansion and operation of the James A Musick Jail. The previously approved project (approved in 1996) includes an increase to a maximum of 7,584 inmates from the current population of approximately 1,250. The population of the 7,584 inmates represents a "worst case" scenario. Like the original project, the proposed expansion is anticipated to be phased over time with a variety of inmate population levels occurring over the project buildout, but with a different design and first phase. Related support structures will also be constructed.</p>	<b>SIR</b>	09/24/2012
2011022041	<p>Shasta River Tailwater Reduction Project Shasta Valley Resource Conservation District Montague--Siskiyou</p> <p>The Shasta River Tailwater Reduction Project consists of seven project sites, with a total eleven different tailwater reducing elements, each of which is designed to improve irrigation efficiencies, reduce the amount of cold water resources being utilized for irrigation, and reduce the amount of warm tailwater being returned to the Shasta River. The components of this project are designed to improve water quality by decreasing temperatures and increasing dissolved oxygen (DO) in the Shasta River, an anadromous fishery, and known spawning and rearing habitat for the federally threatened Cobo Salmon. The project addresses numerous regional and regulatory priorities and provides benefits to water quality, ground water recharge, and improvements to aquatic and riparian habitat along the Shasta River and its tributaries. This project is funded by a grant from the CA Proposition 40/50 Agricultural Water Quality Grant Program and a grant from the Clean Water Act 319H Nonpoint Source Implementation Program. Both grants are from the State Water Resources Control Board.</p>	<b>SIR</b>	09/24/2012

2002091105	Clovis Landfill Expansion and Permitting Project Clovis, City of Clovis--Fresno -A decrease in permitted facility acreage from 76.6 to 76.3; -Decrease in remaining capacity from 7,740,000 to 6,600,000; -A change in the estimated closure year from 2047 to 2053; -Clarifications in the permit regarding daily tonnage and vehicle counts.	<b>NOD</b>	
2004092117	Subdivision 8101 - Orinda Oaks LLC Orinda, City of Orinda--Contra Costa The project is limited to creation of a 4,500-square-foot (0.10-acre) seasonal wetland. The wetland will be created by recontouring the existing channel to form a gradually sloping basin, installing berms or other retention features within the basin to slow water flows, and re-seeding the basin and adjacent banks with herbaceous wetland species currently found onsite. Creation of wetland will require the removal of one coast live oak. The project is located at San Pablo Creek, south of Stein Way between Knickerbocker Lane and Oak Road in the City of Orinda, County of Contra Costa. The California Department of Fish and Game is executing Lake and Streambed Alteration Agreement Number 1600-2012-0110-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Signature Development Group, Inc.	<b>NOD</b>	
2012061038	Re Mustang, RE Orion, and RE Kent South Solar Generation Facilities Kings County Lemoore--Kings The applicant proposes to establish three solar PV facilities totaling 200 MW on 1,428 acres of agricultural land. APN's include 024-260-004, -010, 011, -016, and -018; 024-270-001, -004, -006, 007, -008, -010, -015, -016, -018, -022, -023, -024, and -025; 026-010-041.	<b>NOD</b>	
2012079010	Feather River Hospital General Plan amendment and property rezone (PL10-00260) Paradise, City of Paradise--Butte This project consists of the issuance of a Timberland Conversion Permit for the conversion of 1 acre timberland for the purpose of constructing and outpatient endoscopy and ambulatory surgery facility and parking.	<b>NOD</b>	
2012088083	Lancaster Sheriff's Station - Dispatch Area Renovation Project Los Angeles County Sheriffs Department Lancaster--Los Angeles The Project will renovate a portion of the existing Station. The 1,200-square foot work area represents approximately 3% of the 40,700-square foot Station. The Project will demolish and rebuild/replace certain interior non-bearing walls, doors, windows, modular workstations, cabinetry, and finishes. The Project will not affect the use or footprint of the work area or Station. Upon completion of the Project, the occupant load of the work area is expected to increase by two (2). The Project will improve the Department's ability to respond to request for law enforcement services by reconfiguring the work area.	<b>NOE</b>

1998072090	Roddy Ranch Project Antioch, City of Antioch, Brentwood--Contra Costa The Roddy Ranch Project involves the development of 540 acres of land; consisting of up to 600 estate residential homes; up to 100 multifamily attached villas; a hotel of up to 250 rooms, with associated tennis courts and a swimming pool; a 20,000 sf clubhouse for the Roddy Ranch Golf Course; and approximately 205 acres for open space and private parks.	<b>EIR</b>	09/24/2012
2008021004	San Pedro Community Plan Project Los Angeles, City of Los Angeles, City of--Los Angeles The Proposed San Pedro Community Plan (Proposed Plan) includes changes in land use designations and zones that are intended to accommodate growth anticipated in the SCAG 2030 Forecast. It is a conservative growth plan that aims at preserving existing single-family residential neighborhoods and accommodating a variety of housing opportunities near public transit, services, and amenities. The Proposed Plan would preserve the character of existing single-family and lower density neighborhoods by maintaining lower density land use designations and limiting the allowed residential density of some neighborhood commercial areas. The Proposed Plan seeks to direct growth away from existing residential neighborhoods by focusing growth in higher-intensity commercial centers, including emphasis of the downtown as San Pedro's regional center with increased residential and commercial activity.	<b>EIR</b>	09/24/2012
2010071036	Austin Quarry (PRJ #2009-001) Madera County Madera--Madera CalMat Co., dba Vulcan Materials Company, Western Division is proposing a new hard rock quarry in central Madera County. The Project would be located on approximately 356 acres of the 671-acre Austin Quarry property, a privately owned parcel currently used for dry land cattle grazing. The Project would excavate, process, and distribute hard rock aggregate material, and would include facilities and operations for the production and sale of asphalt, the acceptance and	<b>EIR</b>	09/24/2012

	processing of recycled asphalt for use in Recycled Asphalt Pavement (RAP), and the acceptance and processing of recycled concrete for use in base products. The project also includes a reclamation plan to provide for use of the site following the completion of quarry excavation.		
2012062051	KXPR Radio Tower Use Permit Sacramento County --Sacramento Note: Shorten Review	<b>EIR</b>	09/10/2012
	The project consists of a request for a use permit to allow an FM radio broadcasting facility consisting of a 500-foot tall tower and an equipment building on approximately 1.6 acres of a larger 268 acre site in the AG-80 (Agricultural) zone. The 500-foot tower will be approximately 48 inches in diameter and will be supported by guy wires anchored at three locations around the pole. The anchors will be located 325 feet from the base of the tower. The disturbed area (includes road, base of tower, equipment building and anchors points) will be approximately 34,162 sf, or 0.78 acres.		
2011114002	Coyote Valley Tribe Fee-to-Trust Bureau of Indian Affairs --Mendocino FYI	<b>FON</b>	
	Notice is hereby given that the Bureau of Indian Affairs (BIA) has issued a Finding of No Significant Impact (FONSI), signed on July 12, 2012, determining that the proposed trust acquisition of approximately 6 acres (Mendocino County APN# 165-050-011, 165-050-012, 165-050-013, 165-050-014, and 165-050-015) by the United States for the Coyote Valley Band of the Pomo Indians (Tribe) for tribal housing and a gas station/mini-mart will not result in significant effects to the quality of the human environment. Therefore, an Environmental Impact Statement is not required. The BIA's determination is based upon the analysis in the EA, consideration of comments received during the public review period (November 9, 2011 through December 19, 2011), and the implementation of mitigation measures.		
2012081032	Allow Expansion of Wastewater Land Disposal Area for an Existing Agriculture/Food Processing Facility Fresno County Kingsburg--Fresno Allow expansion of wastewater land disposal area (45 to 85 acres) for an existing agriculture/food processing facility on two parcels of land totaling 40 acres in size in the AE-20 (Exclusive Agriculture, twenty-acre minimum parcel size) District. The project is located on the northwest corner of S. Bethel and E. Mountain View Avenues approximately 1.4 northwest of the nearest city limits of the City of Kingsburg (13525 S. Bethel Avenue, Kingsburg) (SUP. DIST.: 4) (APN: 393-073-12 & 13; 393-240-52S, 393-113-6S).	<b>MND</b>	09/10/2012

	for approximately 20 of the 52 acres to be consistent with the City's Urban Growth Boundary (UGB) and to allow the construction of up to 54 single-family homes; the remaining 32 acres will remain undeveloped under an open space easement. In order for the 20-acre portion of the project site to be developed with residential uses, the City must pre-zone the lands for residential development and apply to Santa Clara County Local Agency Formation Commission (LAFCO) to expand the USA boundary so that urban services may be provided to these homes.		
2012082042	Marino Water Rights Project State Water Resources Control Board --Napa The applicant is developing a vineyard in Napa County. The project includes development of a water supply within the Putah Creek Watershed. As Lead Agency, the State Water Board is considering the water right application. The application and related materials are available: <a href="http://www.waterboards.ca.gov/waterrights/water_issues/programs/ceqa/index.shtml">http://www.waterboards.ca.gov/waterrights/water_issues/programs/ceqa/index.shtml</a>	<b>MND</b>	09/10/2012
2011111012	Eastvale Commerce Center (City Project No. 11-0271) Eastvale, City of --Riverside An IS and NOP were previously prepared for the Eastvale Commerce Center Project (Project No. 11-0271) and circulated for a 30-day public review period commencing November 4, 2011 and ending Saturday, December 3, 2011. Subsequent to circulation of the NOP in Nov. 2011 the Applicant has made changes to the proposed land use plan. The proposed changes include an increase in commercial-retail use and a reduction in industrial use. Land uses of the proposed project will only include Light Industrial, Business Park and Commercial-Retail. The project would no longer propose Commercial Office or Heavy Industrial land uses nor would it include a commercial-retail overlay resulting in the option of two land use scenarios.	<b>NOP</b>	09/10/2012
2012082040	Mirabel Fish Screen and Fish Ladder Replacement Project Sonoma County Water Agency --Sonoma The objective of the Mirabel Fish Screen and Fish Ladder Replacement Project is to provide a fish screen that meets hydraulic design criteria to avoid impacts for threatened and endangered fish, maintain or improve fish passage at the fish ladder, and to improve monitoring and educational opportunities at the Mirabel inflatable dam and diversion facilities.	<b>NOP</b>	09/10/2012
2012082038	Spieker Residential Addition Tahoe Conservancy South Lake Tahoe--El Dorado The project consists of a 2750 sf addition to an existing 1250 sf single family residence on the west shore of Lake Tahoe. With the new addition, a new dedicated driveway approximately 650 feet long from Paradise Flat Lane (a private gravel road) to a turnaround near the proposed structure is required to provide fire apparatus access. The proposed driveway will cross approximately 250 linear feet of stream environment zone (SEZ) designated by the Tahoe Regional Planning Agency (TRPA). The paving of Paradise Flat Road from the project site to the existing pavement of Three Ring Road (a distance of approximately 564 feet) is included as part of the project.	<b>Neg</b>	09/10/2012

2012052002	I-505/Grant Avenue Planning Area Land Use Modifications Project Winters, City of Winters--Yolo The project involves various map and text amendments to the City General Plan and changes to the City zoning map and regulations to modify the land uses currently allowed in the area. Of the 140.1 acre project area total the proposal would affect a total of 80.9 acres, with all 80.9 acres receiving a general plan amendment and 21.7 acres of the 80.9 acres receiving a zone change.	<b>NOD</b>	
2012052043	Unionhouse Creek Channel Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2012-0100-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sacramento Area Flood Control Agency.  The project consists of modifying the channel of Unionhouse Creek for approximately 1.6 miles, from immediately downstream of Bruceville Road, to upstream of Franklin Boulevard, to improve floodwater conveyance capacity. The proposed improvements would increase the capacity and velocity of water moving through this segment of creek to a 100 year flood event, thereby reducing flood risk sufficiently to meet urban standards.  Modifications to the segment of Unionhouse Creek from Bruceville Road to Center Parkway would include replacing damaged portions of the existing concrete on the channel bottom and installing new concrete lining on the channel side slopes.  Modifications to the western segment from Center Parkway downstream to Franklin Boulevard would consist of widening the existing 12-foot wide channel bottom by an additional 8-feet south to accommodate the bottom widening. Damaged concrete in the channel bottom would be replaced and the new 8-foot wide channel bottom segment lined with concrete. The project site will be dewatered for a period of 15 days prior to beginning construction.  The segment from Bruceville Road to Center Parkway measures approximately 2,900 feet long by 66 feet wide from top of bank to top of bank. The affected surface area of the segment encompasses approximately 4.4 acres. The segment from Center Parkway to Franklin Boulevard measures approximately 7.47 acres. A total of 11.88 acres would be disturbed, including placement of 20 cubic yards (CY) of 3/4 crushed rock, 2,233 CY of structural concrete, and removal of 18,000 CY of soil, and 100 CY of existing damaged concrete.	<b>NOD</b>	
2012052080	Junipero Serra Boulevard Traffic Calming Project Santa Clara County --Santa Clara Widen an approx. 0.5-mile segment of Junipero Serra Blvd between Campus Driver East and Stanford Avenue between approximately 10 and 65 feet to accommodate of the follow traffic calming improvements: two, 12-foot wide travel lanes (one in each direction); a 10-foot wide raised and landscaped median that includes five five-foot wide breaks to allow for bicycle crossings; five-foot wide on-street, striped bicycle lanes in each direction, and three bulbs. The project also includes utility, drainage, and lighting improvements.	<b>NOD</b>

<b><u>Documents Received on Friday, August 10, 2012</u></b>			
2012088118	Arroyo Simi Habitat Restoration and Enhancement Proejct Fish & Game #5 --Ventura The project is limited to restoration and enhancement activities that will occur within a 54.4 acre open space site, located along the Arroyo Simi. The focus of the project will be to restore one large area of habitat by completing a series of smaller projects in the area over time. The project will concentrate on the removal of non-native and invasive plant species, with a focus on arundo ( <i>Arundo donax</i> ) and tamarisk ( <i>Tamarix spp.</i> ) as well as native vegetation techniques where needed. Precise impacts and vegetation removal numbers are determined over time and are based on the amount of funding obtained by the Permittee.	<b>NOE</b>	
2012088119	North Fork Lockwood Creek Diversion Dam Project Fish & Game #5 --Ventura The project is limited to the alteration of North Fork Lockwood Creek, where an existing water diversion is used to supply water to a downstream pond. The existing water diversion structure consists of a small rock dam that is two feet high and ten feet in length. The diversion takes surface flows from the creek and transports them in an existing, gravity fed pipeline that runs parallel to the creek for a distance of about 10,000 feet. The diversion is used on a seasonal basis starting around November and ending in April and the rate of diversion is estimated to be 100 gallons per minute and is used for storage at an off-stream pond location, which holds an estimated 18 acre-feet of water.	<b>NOE</b>	
2012088120	Issuance of Lake or Streambed Alteration Agreement No. 1600-2011-0266-R1, Armor Eroding Stream Bank By Installing rock Deflectors Fish & Game #1 --Mendocino The project involves one encroachment: Install rock deflectors to armor a 100 foot section along the north bank of Mill Creek in the Tenmile Creek watershed. Some vegetation will be disturbed as a result of this project.	<b>NOE</b>	
2012088121	Routes 33 and 198 Chip Seal Caltrans #6 --Fresno, Tulare The project would place a polymer modified emulsion chip seal on the existing concrete. There will be no coldplane or should work. The existing striping will be removed before the new chip seal is added. No soil disturbance or excess soil.	<b>NOE</b>	
2012088122	Interstate 5 to Northbound 41 Off-ramp Overlay Caltrans #6 --Fresno The project would coldplane 4" of existing asphalt concrete and replace with HMA Type A. Contractor will dispose of removed asphalt. There will be no work off the paved road, no excavation, no excess soils and no shoulder backing.	<b>NOE</b>	
2012088123	Dog Bar Road Replace Culvert with Bridge SAA Notification No. 1600-2012-0069-R2 Fish & Game #2 --Nevada The project is limited to replacement of a damaged and disabled culvert with a bridge across a seasonal drainage. The work shall include removal of the damaged culvert and placement of a 10' wide x 10' long bridge, per design specifications included in the Notification and correspondence of May 31, 2012.	<b>NOE</b>

	project designed to conserve and control waters of the Middle Fork American River, the Rubicon River, and several associated tributary streams. The MFP is located on the west slope of the Sierra Nevada range primarily in Placer County, CA.		
2010011079	Agricultural Cluster Subdivision Program Recirculated Draft EIR Chapters San Luis Obispo County --San Luis Obispo NOTE: 1 CD	<b>FIN</b>	
	The County of San Luis Obispo has existing ordinances and policies governing agricultural cluster land divisions. These ordinances and policies allow owners of eligible properties to apply for an agricultural cluster subdivision as an alternative to a conventional land division. The proposed ordinance and general plan changes will modify existing criteria and standards associated with agricultural cluster subdivisions in order to reduce environmental impacts and to protect lands for continued and enhanced agricultural production.		
2011032020	Davis Property Tentative Subdivision Map and Affordable Housing Plan Sacramento County Rancho Cordova, Citrus Heights--Sacramento FYI: Final	<b>FIN</b>	
	The project requires approval of the following entitlements requests:  1. A Tentative Subdivision Map to divide ~ 7.07 acres into seventeen (17) lots in the RD-5 (residential) zone. 2. An affordable Housing Plan consisting of the payment of in-lieu and affordability fees.		
2011072031	Folsom Boulevard Widening/Ramona Avenue Extension Project Sacramento, City of Sacramento--Sacramento Final	<b>FIN</b>	
	The City proposes to widen Folsom Boulevard between U.S. 50 and the UPRR tracks undercrossing to accommodate the newly added intersection where Ramona Avenue ties into Folsom Boulevard. There would be construction staging areas and utility relocation as part of the proposed project. The proposed project would extend Ramona Avenue to connect to Folsom Boulevard and improve the mobility for pedestrians along Ramona Avenue between Brighton Avenue and Cucamonga Avenue.  Improvements to Ramona Avenue between Cucamonga Avenue and Brighton Avenue would include widening Ramona Ave. to provide sidewalks with landscaping areas, on-street parallel parking, bike lanes, standard street lighting, and an upgraded drainage system, including a potential detention basin. At the intersection of Brighton Avenue and the proposed Ramona Ave. extension, there are two design options discussed in this document: a three-way-stop-controlled intersection or a roundabout intersection. The proposed improvements would conform to the existing driveways and parking lots. In areas where there are no structures, the roadway would conform to the proposed right-of-way.

2011021014	Supplemental to Modified Tower No. 2 Project FEIR, Certified by TRMC 11-4-11 Tulare Regional Medical Center --Tulare The project proposes the construction of a new 5-floor (4-stories above grade and one below grade basement floor) hospital Tower No. 2 & Atrium (~111,100 sf) west of Tower No. 1 currently under construction. The realignment of Gem St. westerly of its current location, the 5,116 sf truck dock building, and two off-site satellite parking lots at the Church of Jesus Christ of Latter Day Saints 451 E. Merritt St. and Evolutions Health & Fitness Center at 1425 E Prosperity, Tulare, for use as permanent parking, have been eliminated from the Modified Project. When completed the proposed Tower No. 2 will include 105 patient beds and associated hospital/medical/technical support functions. Several existing uses, including hospital engineering, materials management, housekeeping and lab functions will be relocated into the basement areas of proposed Tower No. 2 and Atrium buildings. The Atrium will provide vertical and horizontal connections between Tower No. 2, the existing hospital, and Tower No. 1 currently under construction.	<b>SIR</b>	09/26/2012
1999041035	Draft SEIR 597, Second Amendment to the 2001 Prima Deshecha General Development Plan Orange County San Juan Capistrano--Orange The Project involves the extension of grading activities and construction of an associated drainage structure along the western edge of the landfill property, the extension of a four-lane road that will connect the cities of San Juan Capistrano to the north of San Clemente to the south by passing in between the landfill's Zone 1 and Zone 4, and the stabilization of a landslide in the southern central area of the landfill property.  The Project will permanently remove approximately four acres of Thread-leaved brodiaea ( <i>Brodiaea filifolia</i> ) habitat. The Project is expected to result in incidental take of Thread-leaved brodiaea (Covered Species), which is designated as an endangered species under the California Endangered Species Act. The ITP referenced above, as issued by DFG, authorizes incidental take of Covered Species subject to various terms and conditions including the requirement that all authorized impacts are fully mitigated.	<b>NOD</b>

	authorized impacts are fully mitigated.		
2008041158	Linden Avenue and Casitas Pass Road interchanges Caltrans #5 --Santa Barbara Caltrans proposes to make operational improvements to Route 101 within the City of Carpinteria. A portion of the project will be implemented by Caltrans on District-owned property. The District conveyed an easement to Caltrans and executed a Right-of-way contract with Caltrans. The Santa Barbara County Flood Control District is filing this NOD as a Responsible Agency because the District is providing an easement and Right-of-way contract over District-owned property to allow the construction of a sound wall.	<b>NOD</b>	
2008072018	Montalvin Manor Redevelopment Area Planned-Unit District Rezoning and Development Plan Contra Costa County San Pablo--Contra Costa The California Department of Public Health (Department), as the Responsible Agency, will be issuing a water supply permit to operate the Soquel Creek Water District (SCWD). The proposed project is to implement the Well Master Plan (WMP) project to improve redundancy and flexibility in the SCWD's water production and distribution system while redistributing pumping away from coastal and depressed groundwater areas. The WMP proposes converting an existing irrigation well at Polo Grounds Regional Park to a municipal well. Auxiliary improvements related to the five proposes wells include new pipelines and water treatment facilities. The SCWD also proposed to abandon and destroy one deteriorating production well and remove two existing production wells from service and maintain those wells as inactive wells. Implementation of the WMP would not increase ground water pumping, but would allow SCWD to redistribute groundwater pumping to achieve more uniform drawdown, reduce susceptibility to seawater intrusion, and minimize localized pumping depression. Implementation of the WMP would likely occur over a five-year period, with one new well constructed each year.	<b>NOD</b>	
2009121079	East County Substation/Tule Wind/Energia Sierra Juarez Gen-Tie Projects Public Utilities Commission --San Diego The project consists of a Major Use Permit (MUP), Zoning Ordinance Amendment, and General Plan Amendment for five large wind turbines, a 34.5-kilovolt (kV) underground and aboveground collector cable system linking to the on-site collector substation, a five-acre temporary concrete batch plant, a 5,000 square foot operations and maintenance (O&M) building, three wells for groundwater extraction, a five-acre collector substation, a 138 kV transmission line, and the construction and improvement of off-site roads, including McCain Valley Road and a new proposed road from Ribbonwood Road to McCain Valley Road. The 138 kV transmission line will be installed underground unless the Bureau of Land Management approves the installation of the transmission line overhead on BLM land, in which case the portion of the 138kV transmission line that approximately parallels the Sunrise Power line lattice towers will also be installed overhead.	<b>NOD</b>	
2009121079	East County Substation/Tule Wind/Energia Sierra Juarez Gen-Tie Projects Public Utilities Commission --San Diego A Major Use Permit to construct and operate an overhead, double circuit 230 kV	<b>NOD</b>

2012088139	Fort Sage Facilities Planning Parks and Recreation, Department of --Lassen This project would fund the initial planning process to identify, design, and lay out additional staging and camping opportunities and a series of connector trails to create loop opportunities within the OHV area. In addition, the project includes cultural, botanical and biological studies to complete the required environmental clearances and documentation.	<b>NOE</b>	
2012088140	Rice Canyon Facilities Planning Parks and Recreation, Department of --Lassen The project would develop and prepare a site plan to enhance and sustain current OHV use while allowing for other recreational uses, such as target shooting, to safely occur within the Rice Canyon open OHV area. The project would allow the BLM to improve the current design while delineating and separating OHV parking and access from unsafe target shooting. The project includes an engineered site plan to identify a sustainable area for OHV use, a cadastral review of BLM boundary's to ensure future development does not encroach on private lands, and necessary cultural, botanical, hydrological and biological studies to complete the required National Environmental Policy Act Environmental Assessment documentation.	<b>NOE</b>	
2012088141	Restoration for Fort Sage Special Recreation Management Area (SRMA) Parks and Recreation, Department of --Lassen The project includes installation of two miles of fence on BLM lands to protect the area from unauthorized OHV use. The fencing would be a continuation of current fence in the area. The project also includes seeding of native vegetation, spreading certified weed free straw and hay, jute, straw wattles and vertical mulching as needed to restore and return the area to its original surrounding condition. The proposed project would restore five acres of land currently not available to OHV use.	<b>NOE</b>	
2012088142	Ground Operations Imperial Sand Dunes Recreation Area (SDRA) Parks and Recreation, Department of El Centro--Imperial This project would fund maintenance contracts in support of the OHV recreation program in the ISDRA. The maintenance work would include removing trash, pumping vault toilets, removing sand from roadways and camp pads, and replacing signs made of VOC free recycled materials.	<b>NOE</b>	
2012088143	Imperial Sand Dunes Recreation Area (ISDRA) Safety Parks and Recreation, Department of El Centro--Imperial This project would fund OHV non-law enforcement park rangers, medical supplies, and rescue buggy maintenance, which will assist in providing emergency medical services to off highway visitors in the ISDRA.	<b>NOE</b>	
2012088144	Ground Operations for Ridgecrest BLM OHV Areas Parks and Recreation, Department of --Kern, San Bernardino The proposed project would fund operating the Jawbone Station Visitor Center (JSVC), resealing the parking lot at the JSVC, restoring trail tread, maintaining	<b>NOE</b>

	spillway channel shall be about 5.4' wide and 4' deep.		
2012088157	Valimet, Inc. Water Quality Improvement and Storm Water Filtration System Project SAA #1600-2012-0055-R2 Fish & Game #2 Stockton--San Joaquin The project consists of installation of a stormwater detention and filtration system to improve water quality of discharge waters currently permitted by the Central Valley Regional Water Quality Control Board. The project proposes to manifold seven of the existing storm water outlets into a single collection pipe that will run along the bottom of the manmade tributary ditch that runs through the subject property. The central pipeline will convey storm water via gravity to a detention vault before being pumped in to a newly proposed filtration and treatment system located on the adjacent Valimet, Inc. property, outside and north of the existing ditch.	<b>NOE</b>	
2012088158	Hangtown Creek Vegetation Management Project Fish & Game #2 Placerville--El Dorado The project is limited to routine maintenance activities including clearing of trash and debris, removal of dead and/or fallen trees, and vegetation trimming along 250 linear feet of Hangtown Creek located within the shopping center. All activities occurring within the Hangtown Creek stream zone shall be accomplished by the use of pruning shears, hand saws, weed eater, or other tools.	<b>NOE</b>	
2012088159	Agreement 2012-0080-R4 - PG&E Gas Line 301A and 301G San Benito River Vegetation Maintenance Project Fish & Game #4 San Juan Bautista--San Benito The Permittee will trim riparian vegetation along San Benito river in order to conduct gas leak surveys of gas line 301A and 301G mandated by the Code of Federal Regulations (49 CFR 192). The trimming Project area will be 1385 linear feet by 2 feet wide, resulting in a temporary Project impact area of 0.06 acres. Native riparian vegetation will not be removed. No water will be diverted for trimming to occur. All work will take place on the banks of the river away from any water using chainsaws and weed trimmers equipped with steel blades.	<b>NOE</b>	
2012088160	Geotechnical and Biological Data Collection to Support Habitat Restoration and Management Planning activities at the Ballona Wetlands Ecological Reserve Fish & Game #5 Los Angeles, City of--Los Angeles The approximately 600-acre Ballona Wetlands Ecological Reserve is the largest remaining tidal wetland area remaining in the Los Angeles area, and restoration and management of this degraded wetland is the focus of this project. To create a restoration plan baseline data collection of multiple resources on-site is necessary. Data collection will include geotechnical soil borings, and biological assessments and samplings. Geotechnical soil borings will be located primarily in areas that are already disturbed, and will be taken during the non-breeding season (August - February) to avoid impact to breeding birds. Borings will be 4-8 inches in diameter and from 20 to 70 feet deep.	<b>NOE</b>

2012082049	PA-1200118-Use Permit Application for a Religious Assembly with a Maximum of 50 Members San Joaquin County --San Joaquin A Use Permit application for a religious assembly with a maximum of 50 members. Phase One, with building permits to be issued within 18 months, is the conversion of an existing 1,440 sf warehouse into a 4,890 sf assembly hall and sitting meditation building and a 1,500 sf restroom building. Phase Two, with building permits to be issued within 10 years, is the construction of a 9 meditation cabins, totaling 4,056 sf, for use by congregation members, and a 16,900 sf temple with an overall height of 80 feet. The existing house on site will be used by a religious elder. This parcel is not under a Williamson Act contract.	<b>Neg</b>	09/12/2012
2012082050	PA-1200147-Site Approval Application to Expand an Existing Walnut Processing Facility in Two Phases San Joaquin County --San Joaquin A Site Approval application to expand an existing walnut processing facility in two phases over ten years. Phase One, with building permits to be issued within eighteen months, is the construction of a 24,000 sf walnut storage building. Phase Two, with building permits to be issued within 10 years, is the construction of a 24,000 sf walnut storage building. This parcel is under a Williamson Act contract. The project is located on the east side of Pezzi Road, 1,500 feet south of Eight Mile Road, east of Stockton.	<b>Neg</b>	09/12/2012
2012082051	PA-1200126 San Joaquin County Lodi--San Joaquin A use permit application to expand the production capacity for an existing small winery into a large winery in two phases over ten years and to add marketing events for the winery. The production capacity would increase from 36,000 gallons of wine per year. Phase one includes the construction of six 3,000 gallon tanks and the addition of thirty marketing events per year with a maximum attendance of 100 people per marketing event. Phase two includes the construction of a 12,000 sf case and barrel storage building and a 2,500 sf wine tasting room.	<b>Neg</b>	09/12/2012
2008012065	Martinez Marina Waterside Improvements Martinez, City of Martinez--Contra Costa This proposed project involves hydraulic dredging a small portion of the Martinez Marina to depths ranging from approximately -6 feet to -8 mean lower low water (MLLW), with an additional 2 feet over dredge allowance. The estimated maximum volume of dredge material is 24,100 cubic yards over a surface area of approximately 2.84 acres. Sediment would be removed with a cutterhead hydraulic suction dredge and conveyed via an 8- to 12-inch diameter pipe to the City of Martinez upland disposal ponds located southeast of the marina. The Project would result in permanent impacts to 0.08 acres of delta smelt ( <i>Hypomesus transpacificus</i> ) habitat. The project is expected to result in incidental take of delta smelt and longfin smelt ( <i>Spirinchus thaleichthys</i> ), which are designated as an endangered and threatened species, respectively, under the California Endangered Species Act. The ITP referenced above as issued by DFG authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>

2005091148	San Clemente Dam Seismic Safety Project Water Resources, Department of Carmel--Monterey NOTE: Final - 1 CD - Supplement	<b>FIN</b>	
	Alternative 3 in the San Clemente Dam Seismic Safety Project FEIR/EIS was revised by CAW to meet regulatory requirements, to provide better road access to the project, and maintain the project construction schedule. A supplement to the final EIR (SEIR) describes the revised project features, analyzes potential impacts associated with the revised project, and proposes mitigation for the impacts. Like Alternative 3 in the FEIR/EIS, the revised Project described in the SEIR consists of removing San Clemente Dam and rerouting Carmel River.		
2012061029	CUP 12-08 (Summer Solar) and CUP 12-09 (Springtime Solar) Lancaster, City of Lancaster--Los Angeles Construction of two photovoltaic solar electric generating facilities. Project 1 consists of the construction of 20 MW of solar on approximately 135 acres (CUP 12-08). Project 2 consists of the construction of 40 MW of solar on approximately 158 acres.	<b>MND</b>	09/13/2012
2012081038	McFarland Senior and Multifamily Project (Site Plan 2012-29) McFarland, City of McFarland--Kern Construction of a 92 unit apartment complex broken up into 7 separate buildings. 52 of the units will be utilized for senior housing with the balance being utilized for very low and low income families. The project will be constructed in 2 phases with the senior housing being constructed in Phase 1 and the balance of the units being constructed in Phase 2.	<b>MND</b>	09/13/2012
2012082053	8350 Pardee Drive Oakland, Port of Oakland--Alameda The project site is located in the Oakland Airport Business Park in Oakland, CA. The project sponsor, Birtcher Development and Investments LLC, proposes to construct a distribution storage facility on the approximately 19-acre site located on the western parcel of the former FastTrack Parking property at 8350 Pardee Drive. The project would consist of a 374,725 sf facility, with approximately 92 truck dock doors. Offices, break rooms, maintenance areas and restrooms would be contained within the planned facility. The building would be 38 feet in height. A total of 96 auto parking spaces are proposed for the site, in addition to 39 semi-trailer parking spaces.	<b>MND</b>	09/13/2012
2012082054	Zuber Lot Line Adjustment and Coastal Development Permit Humboldt County --Humboldt A Lot Line Adjustment (LLA) between four parcels. 	on-site sewage disposal systems. The Coastal Development Permit is required for the Lot Line Adjustment and for the demolition and replacement of the mobile home on resultant Parcel D. A Special Permit is required for Design Review.		
2012082057	Kent Island Restoration Project Marin County --Marin Marin County Open Space District & the U.S. Army Corps of Engineers propose to reestablish native dune communities and natural ecological processes on Kent Island, Bolinas Lagoon, by removing invasive vegetation and replanting native species. The primary methods for vegetation management include treating salt intolerant plants using saltwater irrigation and removing weeds using hand tools, girdling, and feeling or larger trees. The project also includes the removal of all tree saplings within the primary grove of Monterey pines and cypress, while maintaining mature trees in the grove to protect nesting habitat for herons and egrets. Although the project relies mostly on natural re-colonization and succession, it includes transplanting of some native species.	<b>MND</b>	09/14/2012
2012082052	200-214 6th Street Affordable Housing - SF Planning Case No. 2011.0119E San Francisco, City and County of San Francisco--San Francisco Demolition of an existing four-story building with an art installation on the facade, and construction of a nine-story building containing 67 affordable housing units, 2,845 sf of commercial space on the ground floor, likely to be restaurant use, and ancillary community spaces, including a rear yard and roof terrace. The art installation of the facade identified above that is known as "Defenestration" was installed by Brian Goggin in 1997. Since no historical, as distinguished from aesthetic, importance has attached to the Defenestration installation and it is not associated with the historical context of the building itself, the installation is not eligible for consideration for listing on the CA Register.	<b>NOP</b>	09/13/2012
2012082056	Sierra Army Depot - MMRP 7 Sites Toxic Substances Control, Department of --Lassen The DTSC is considering approval of a remedial action recommended in the Final Remedial Investigation/Feasibility Study for the MMRP Seven Sites, Sierra Army Depot, CA. The proposed actions will be conducted in compliance with the Comprehensive Environmental Response, Compensation and Liabilities Act, the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) and Chapter 6.8, division 20 of the CA Health and Safety Code. The actions to be taken at Sierra Army Depot MMRP Seven Sites are intended to remediate unacceptable risks to human health and the environment. The proposed actions are intended to be the final remedy for this area.	<b>Neg</b>	09/14/2012
2007062016	Natomas Levee Improvement Program Landside Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento Since certification and adoption of the previous environmental documents for the NLIP, SAFCA has continued to finalize the design and refine the features of the Natomas Project, including the restoration of a section of the north bank of the American River to provide improved fish and wildlife habitat and increased levee height within Reaches 1 through 11B of the Sacramento East Levee.	<b>SIR</b>	09/28/2012

2007051119	Approval of a Minor Waste Tire Facility Permit for BJ Used Tire & Rubber Recycling Inc. California Integrated Waste Management Board Fontana--San Bernardino Issuance of a Minor Waste Tire Facility Permit to allow the storage of up to 4,999 waste tires on-site.	<b>NOD</b>	
2008082127	Annexation of the Johnson Rancho and Hop Farm Properties Wheatland, City of Wheatland--Yuba The proposed project is primarily composed of the Johnson Ranch Property, the Hop Farm Property, and the five Wheatland Parcels. The five Wheatland Parcels, which total 14.0 acres, have been included in the proposed annexation boundaries so as to avoid the creation of county "islands." Rezoning of the Johnson Rancho and Hop Farm portions of the site to Planned Development (PD) District is requested and rezoning of the Wheatland Parcels to Low-and Medium-Density Residential and Commercial. In addition, General Plan Amendments are requested, including redesignating the Urban Reserve land use to the following General Plan land use designations. Very Low Density Residential (VLDR), LDR, LMDR, MDR, EMP, COM, PUBLIC, PARK, and School. Because the General Plan Land Use Diagram does not include a VLDR designation, as part of the General Plan Amendment, a new VLDR designation is needed. In addition, the General Plan Circulation Diagram will be amended. The proposed project would include the development of up to 14,396 dwelling units. Development of the project would include other land uses as well, such as Employment/Office, Commercial, Civic Center, Elementary and Middle Schools, Parks and Open Space, and a potential hospital.	<b>NOD</b>	
2010051046	March Inland Port Airport General Aviation Facilities Development March Joint Powers Authority Moreno Valley--Riverside Plot Plan 10-01: The proposed project is to develop a General Aviation facility on 19.5 acres of vacant property south of San Michele Road, north of Nandina Avenue and west of Heacock Street (see Figure 1). The physical changes to the environment that are proposed as part of the development of General Aviation facilities include: a) Construction of an 150,000 square foot concrete aircraft parking apron; b) Construction of a connecting taxi lane to Taxiway A; c) Realignment and construction of additional service road to existing on-airport emergency/service road; d) Drainage improvements; e) Construction of security fence; f) Construction of 5,000 square foot General Aviation terminal facility; g) Construction of two 10,000 square foot General Aviation aircraft hangars; h) recreation center for military SAC pilots and their families).	<b>NOD</b>

2012088218	Air Quality Management Plan Update (Technical Studies) Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project includes completion of updated technical studies, data collection and analysis that are a component of the Town of Mammoth Lakes Air Quality Management Plan. The outcomes of this analysis will inform the later adoption of regulations and or standards to control particulate matter (PM) pollution in the Town of Mammoth Lakes, intended to bring the Town into compliance with State PM standards. Additional CEQA review of any specific regulations that mandate action on the part of the Town will be completed in conjunction with adoption of those regulations.	<b>NOE</b>	
2012088219	Purchase of New Particulate Matter Street Sweeper Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project includes the purchase of a new Particulate Matter (PM) street sweeper, which will offer improved ability to remove dust and cinders from Town streets, and meet current EPA standards for emissions from its main and auxiliary diesel engines.	<b>NOE</b>
