

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

August 16th - 31st, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16-31, 2004.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

2004081105	30-inch Parallel Trunk Sewer Line at Wildman Road Lamont Public Utility District --Kern The project consists of the construction of a 30-inch parallel trunk sewer line which will provide additional capacity for the existing 24-inch trunk sewer line at Wildman Road north of LPUD's WWTP.	Neg	09/14/2004
2004081106	Savanna Subdivision (MSA No. 04009) Merced County --Merced The subdivision of a 9.19-acre parcel into 44 single family lots in an area that permits the creation of 6,000 sf lots.	Neg	09/14/2004
2004082067	Marin Avenue Reconfiguration Project Albany, City of Albany, Berkeley--Alameda Restriping of Marin Avenue to reduce travel lanes from 2 in each direction, to 1 in each direction with bicycle lanes and center turn lane.	Neg	09/14/2004
1988050210	HOVCHILD PROEJCT, SPECIFIC PLAN AND EIR Beaumont, City of Beaumont--RIVERSIDE CDFG is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2004-0010-R6) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. John Svalbe of K. Hovnanian Four Seasons at Beaumont. The applicant is proposing to develop 2,262 residential lots and grade and fill 26 ephemeral drainages, and impact Potrero Creek to construct the as yet unnamed east entrance road intersection to Highland Springs Avenue. Of the 36 unnamed drainages onsite, 26 will be impacted. Drainages B, C, E, Q, R, S, T, U, V, and W will be avoided and preserved onsite. Total jurisdictional area onsite consists of 9.97 acres, of which 8.09 acres is generally vegetated with non-native grasses, and ruderal vegetation. The central portion of Potrero Creek supports mulefat, willow, and coastal live oak riparian vegetation. Except for the east entrance road intersection to Highland Springs Road, all road crossings of Potrero Creek will be by bridge. The project will permanently impact 0.71 acres of ephemeral streams and 0.14 acres of Potrero Creek, and 0.55 acres of vegetated riparian habitat. Temporary impacts are 0.91 acres of unvegetated ephemeral streambeds. Total project impacts are 1.76 acres of streambeds, of which 0.55 acres is vegetated riparian habitat.	NOD	
1989013110	Lake Earl Wildlife Area Management Plan Fish & Game HQ Crescent City--Del Norte The LEWA Management Plan will provide long-term direction for managing the LEWA in order to optimize the management of a wide variety of native plants and animal species with emphasis on wetland and wetland-dependent wildlife. Long-term management of the LEWA will seek the best balance between local private property concerns, agricultural practices, and habitat management of fish and wildlife.	NOD

1998072020	RICHMOND REDEVELOPMENT AGENCY PROJECT AREAS MERGER AND AMEND Richmond, City of Richmond--CONTRA COSTA The project consists of containment remediation, implementation of a Soils Risk Management Plan (SRMP), and building demolition at the former Terminal One site.	NOD	
2001031048	Madera County Integrated Solid Waste Management Project - Fairmead Landfill Expansion Madera County Planning Department --Madera The site is bordered to the west by Road 40, to the south by Avenue 9, to east by State Route 41, and to the north by Avenue 13 (extended), Fairmead, Madera County.	NOD	
2001102093	Stockton Waterfront Promenade and Marina Redevelopment Project Stockton, City of Stockton--San Joaquin SAA #2004-0293-2 Morelli Park improvement includes widening of the existing launch ramp, constructing a vehicular turn-around, installing three new pile-guided boarding floats, constructing a fuel dock, and reconfiguring and expanding an existing parking area.	NOD	
2001112111	Bradshaw Road Widening Project Sacramento County Elk Grove--Sacramento SAA #2004-0415-2 Remove existing culvert and replace with 110 feet wide concrete slab bridge. Roadside ditches will be constructed on both sides of Bradshaw Road to convey site runoff to Elder and Morrison Creeks.	NOD	
2004031128	Giuffrida Tentative Parcel Map, TPM 20557, Log No. 00-13-005 San Diego County Department of Planning and Land Use --San Diego The project proposes to subdivide 10 acres into 2 single-family residential parcels measuring approximately 6 acres and 4 acres (gross). The site is off Niemann Ranch Road in the Community of San Dieguito. Grading will involve 2,800 cubic yards of cut excavation and 2,800 yards of fill. All lots will be on septic. Off site improvements include the construction of a new private road. The project also proposes the dedication of a good portion of the property into open space. The entire project will be served by the following agencies/districts: Olivenhain Municipal Water District, Rancho Santa Fe Fire Protection District, San Dieguito Union High, and Solana Beach School District.	NOD	
2004052070	Bellota Curve Correction Caltrans #6 Stockton--San Joaquin The California Department of Transportation (Caltrans) proposes to upgrade two existing curves on State Route 16 in San Joaquin County. Located north of the Calaveras River Bridge between kilometer posts 24.6 and 25.6 (post miles 15.3 and 15.9), this safety project would realign the two-lane conventional 7.3 meter (24-foot) highway and widen the shoulders to 2.4 meters (8 feet). A small amount of right-of-way would need to be acquired, and a construction easement would be needed.	NOD

2004089065	TM 5184RPL3; Log No. 99-02-040; Sukup Major Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project proposes a major subdivision of 24.6 gross acres into 9 lots for single-family residential development within the Valley Center Community Planning Area. The lot sizes will range from 2.0 to 3.06 net acres with a minimum lot size of 2 acres. Proposed grading for home pads and driveways will involve approximately 15,100 cubic yards of cut and 17,750 cubic yards of fill with 2,650 cubic yards imported. All lots will have on-site sewage disposal systems and will receive water service from the Valley Center Municipal Water District. Access to the lots will be from a proposed 40-foot private road easement of of Rodriguez Road. The proposed private road will terminate in a cul-de-sac. Project implementation also includes off-site road improvements to Rodriguez Road to West Lilac. A Biological Open Space Easement and Limited Building Zone will be dedicated over the northern portion of the property for protection of the RPO wetland.	NOD

2003041086	<p>Subregional Wastewater Reclamation Facilities Proposal Victor Valley Wastewater Reclamation District Hesperia, Apple Valley, Victorville--San Bernardino</p> <p>The proposed project is a comprehensive effort to undertake wastewater reclamation and reuse in the VVWRA Service Area, which comprises much of Victor Valley in the Mojave Desert. Project objectives are to reduce dependency on groundwater, implement regional water management goals, relieve pressure on existing sewer interceptors, provide a benefit to members of the VVWRA Joint Powers Authority, and conserve potable water. The Preferred Alternative consists of subregional reclamation facilities and recycled water service throughout the service area. Although specific locations have not yet been identified, anticipated sites generally correspond to projected demand and are expected to include 2 facilities in Victorville, 1 in Apple Valley and 1 in Hesperia. The combined facilities would treat 7.0-8.5 mgd of wastewater and produce full Title 22 effluent. Primary use of recycled supply would be for landscape irrigation.</p>	EIR	09/30/2004
2003061023	<p>Legacy Estates Tract Map Santa Barbara County --Santa Barbara</p> <p>The project is a request by the agents, Urban Planning Concepts, for the applicants, Den Street Partners, for approval of a Tentative Tract Map (02-TRM-00000-00007/TM 14,608) to subdivide land totaling 16.67 acres gross and 13.38 acres net, into 59 parcels ranging in size between 8,877 s.f. gross in the 7-R-1 zone district under Article III (Inland Zoning Ordinance) and pursuant to the provisions of County Code Chapter 21 (Subdivision Regulations). The application involves Assessor's Parcel Numbers 101-201-001, 101-202-001, 101-231-001, 101-232-001, 101-233-001, 101-234-001, & 101-242-001 located mostly west of Den Street and south of Coiner Street in the southwest corner of Los Alamos within the urban boundary, Third Supervisorial District.</p>	NOP	09/07/2004
2004081113	<p>Cypress Knolls Residential Project Marina, City of Marina--Monterey</p> <p>The main objective is to provide senior housing, services, and health care to persons of average means while providing the City of Marina and FORA with a successful base closure and reuse project.</p> <p>The 194 acre project site contains 460 old residential units in 230 duplex units which are proposed to be demolished. The project proponent proposes to construct 328 single family residential units, 80 units in attached townhomes, 72 apartment units and 60 assisted living units, totaling 540 residential units, as well as associated resident community facilities and a Senior Center.</p>	NOP	09/15/2004
2004081114	<p>Conditional Use Permit No. 3052 - Kings River Sand and Gravel Project Fresno County Sanger, Reedley--Fresno</p> <p>The project consists of amending the existing Conditional Use Permit by reducing the scope of the operation.</p>	NOP

2004081126	Orange County Facilities Master Plan Program EIR Orange County Water District Anaheim, Buena Park, Costa Mesa, Cypress, Fountain Valley, ...--Orange The PEIR will provide a description of the District's existing storage and recharge facilities and address the potential impacts resulting from the implementation of projects identified in the LTFP plan, including: a) modification or expansion of existing recharge facilities; b) development of new recharge facilities; c) water supply projects to divert, store and/or recharge additional surface water; d) projects or operational practices that would modify management of the groundwater basin; and e) projects that enhance water quality. The PEIR will also address potential impacts that would result from the proposed annexations of lands by the District within the IRWD and within the City of Anaheim. The PEIR will assess the potential environmental effects of the proposed projects at a programmatic level in accordance with the conceptual level of project description information available. Thus, implementations of individual projects may require additional CEQA environmental review and documentation.	NOP	09/15/2004
2004041041	Lake Calavera Reservoir Remedial Improvements Carlsbad, City of Carlsbad--San Diego Repairs to the existing Lake Calavera Reservoir intake and outlet works, spillway and access road, and outlet piping; construction of a new dam operations control building and security fencing. Repairs will require the controlled draw-down of approximately 77 million gallons of impounded water within the reservoir over a four to six week period. Once repaired, the normal operations of the reservoir will result in water level fluctuations between 190 and 208 feet elevation in accordance with an overall water management program.	Neg	09/15/2004

2004081121	General Plan Amendment / Zone Change 04-0439 Bakersfield, City of Bakersfield--Kern General Plan changing the land use designation from R-1A to LR (Low Density Residential) and a zone change amendment. The existing zoning is A (Exclusive Agriculture, Kern County jurisdiction). Applicant is requesting pre-zoning to R-1 (One-Family Dwelling, City of Bakersfield jurisdiction) on approximately 39.90 acres.	Neg	09/15/2004
2004081122	Norris School District Property Acquisition Norris School District Bakersfield--Kern Acquisition of 14 acres of land for future use as an elementary school site.	Neg	09/05/2004
2004081123	ENV-2003-7998-MND Los Angeles City Planning Department --Los Angeles The construction of a 102,562 sf mixed-use project with 75 residential units (including 7 low income units), a 3,300 sf restaurant, with 247 subterranean parking spaces and 16,395 sf of open space on a 61,980 sf C4-1/RD1.5-1 zoned site. The project will require demolition of the "Pioneer Bakery Building". The project requires 9 discretionary actions; (1) Specific Plan Exception to allow 4 exceptions from the Venice Specific Plan; (2) Specific Plan Permit to ensure compliance with the Venice Specific Plan; (3) Conditional Use to allow deviation from the Commercial Corners Ordinance; (4) Zone Variance to allow parking in a zone that is more restrictive than the zone where the primary structure is located; (5) Zoning Administrator Adjustment to allow adjustments in the yard requirements; (6) Coastal Development Permit to allow the construction in the Coastal Zone; (7) Site Plan Review to make Site Plan Review findings; (8) Mello Act Compliance Permit to ensure compliance with the Mello Act; and (9) Vesting Tract Map to subdivide 8 lots to construct 75 condominium units. Please call a DAY in advance to review file.	Neg	09/15/2004
2004081125	Smith Volvo Planned Development Amendment San Luis Obispo, City of San Luis Obispo--San Luis Obispo Planned Development (PD) amendment to allow an auto sales and service facility within the PD zoning district at 892 Aerovista Place. Auto Sales and Service are currently not allowed uses within the PD Zoning District governing this site. The amendment will add auto sales to the list of conditionally allowed uses for this PD zone. Site development consists of an automobile showroom, sales area, offices, service bays, parking and outdoor vehicle display. Access to the project site is proposed via two driveways from Aerovista Place.	Neg	09/15/2004
2004081127	RCCD Riverside Campus Physical Education Complex and Associated Improvements Riverside Community College District Riverside--Riverside The Riverside Community College District is proposing to construct a Physical Education Complex and Associated improvements on approximately 12.3 acres of the existing 84 acre Riverside City College Campus. 2004082069	Tentative Subdivision Map Application S-12-03, Hope Lane Subdivision Redding, City of Redding--Shasta Request for approval of a tentative map application to subdivide 20.4 acres into 44 lots for the development of single-family residences. One additional 3.8-acre parcel would also be created for the preservation of designated wetlands that fall within the boundaries of the site.	Neg	09/15/2004
2004082070	Franklin Adult School Parking Lot B Exterior Lighting Berkeley Unified School District Berkeley--Alameda The Berkeley Unified School District, the project sponsor, is considering constructing ten outdoor lighting fixtures in Parking Lot B of Franklin School, the future location of the BUSD Adult School. Franklin School is located at 1701 San Pablo Avenue in Berkeley, and Parking Lot B is contained within the school site, located on Curtis Street, between Virginia Street and Francisco Street. Parking Lot B is a 56-space surface parking lot that is currently under construction as part of the conversion of Franklin Elementary School for use as BUSD's Adult School. The proposed project would add ten outdoor lighting fixtures to Parking Lot B to illuminate the parking area during evening class hours. Other than lights needed for security purposes, all in Parking Lot B would be turned off and the parking lot secured, following the end of the evening class session (approximately 10:00 pm). Parking Lot B would be designated for primary use by Adult School faculty and staff. The proposed lighting fixtures would extend approximately 12 feet above the finished grade and require limited excavation, an approximate three-foot hole, for each light post. Some temporary trenching from either Building A or D to an approximate depth of 30 inches below the finished grade of the parking area would also be required to feed conduits to the light poles. The construction period would be expected to last no more than two months.	Neg	09/15/2004
2004082071	Zoning Ordinance Text Amendment and Use Permit for Small Grocery Store St. Helena, City of St. Helena--Napa The project includes a request for a Zoning Ordinance Text Amendment (ZOTA) and a Use Permit to establish a small grocery store at 789 Main Street in the SC: Service Commercial district. The ZOTA to Section 17.52.030 is required to add small grocery stores to the list of conditionally permitted uses within the SC: Service Commercial district. The small grocery store with an accessory deli is proposed within a 2,000 sf structure previously approved with a Design Review permit. The structure is located at the north end of a large parcel called Vineland Station along Highway 29, south of downtown St. Helena.	Neg	09/15/2004
2004082072	Lawrence Final Map Subdivision Humboldt Community Services District --Humboldt Approval of a tentative map for subdivision of an approximate 1.17 acres into seven residential lots with the potential for development of primary and secondary dwelling units. The lots range in size from 5,146 to 7,578 sf. The subdivision is to be served by community water and sewer, and accessed via the westerly extension of Underwood Road. The subdivision proposes an underground drainage detention system along the access road to transmit stormwater runoff from the subdivision to a facility within the approved Morgan subdivision. The project requires an exception to lot frontage requirements and road width standards to allow for flag lot configuration and a 29-foot wide internal access road.	Neg	09/15/2004

Neg	09/15/2004
2003011026	Pasadena Conference Center Expansion Pasadena, City of Pasadena--Los Angeles The Project would renovate and expand the Pasadena Conference Center in order to provide modern amenities and facilities that would make it competitive with other conference centers in the region. The Project would involve the addition of 211,320 sf of new floor area, exclusive of parking and the Ice Skating Center. With the proposed demolition of the Exhibition Hall, this represents a net increase of 134,320 sf on the Project site. In addition, the project would include the conversion of the Ice Skating Center to its previous ballroom space. Finally, the proposed Project would replace the majority of the subterranean parking with a seven-level, 1,216 space parking structure. While the proposed Project would allow the operator to better accommodate future events by providing modern amenities, the size of events held at the new Conference Center would be similar to what is currently accommodated at the site, and maximum daily attendance levels at Conference Center events are not anticipated to increase in the future.	RIR	10/27/2004
1995031055	Jensen's Crossing/Cobblestone Creek Development (Key Site 5) Santa Barbara County --Santa Barbara The proposed project is to acquire property to construct and maintain the Bradley-Solomon trunk sewer line extension. The Orcutt Community Plan (OCP) identified various infrastructure improvements necessary for its implementation. The OCP Environmental Impact Report (97-EIR-01), certified on July 22, 1997, addressed impacts associated with development and infrastructure improvements. This action addresses certain of those proposed improvements, specifically the Bradley-Solomon trunk sewer line extension. These improvements are required as conditions of approval for development of several specific key sites in the southeast Orcutt area, including Jensen's Crossing/Cobblestone Crossing (Key Site 5, Addendum to 95-EIR-01 July 1997), Mesa Verde (Key Site 6, Addendum to 95-EIR-01 July 1997) and Harp Springs (Key Site 8, Addendum to 97-EIR-01 July 1997). 	Phase II pipeline from the scope of the project construction.		
2004071070	Canada Gobernadora Culvert Improvement Santa Margarita Water District Mission Viejo--Orange Due to storm drainage, Santa Margarita Water District proposes to implement a road and culvert improvement project to existing facilities at the subject location as per County of Orange public facilities and resources department standard plan. A 480-foot reach of San Juan Creek Road will be raised to a finished grade of approximately four feet above its current elevation. Riprap will be placed along the northern side of the road to prevent upstream surges from overflowing the banks and causing flooding of the road to prevent damage to sewage forcemains. Improvements to the upstream segment of Canada Gobernadora Creek from San Juan Creek Road will consist of the removal of portions of the corrugated metal pipe (cmp), construction of a concrete inlet structure and construction of a headwall at the location of the inlet structure. Additional riprap may be placed behind the headwall. A temporary berm will be erected approximately 30-feet upstream of the project area, along with a dewatering pipe to convey flows around the project area during construction. Vegetation within this 30-foot upstream reach will be cleared prior to construction. Following completion of the project, the berm and dewatering pipe will be removed. Improvements to the downstream segment of Canada Gobernadora Creek from San Juan Creek Road will consist of the removal of portions of the cmp, removal of grouted riprap surrounding the cmp, and construction of a concrete outlet structure. Riprap placement will occur within a 60-foot-wide by 88-foot-long area surrounding the outlet structure. All vegetation within the impacted area will be cleared prior to construction.	NOD	
2004072026	Reservoir 12 Tank Conversion El Dorado Irrigation District --El Dorado The project involves the replacement of the open and unlined Reservoir 12 with two concrete water storage tanks to comply with a Department of Health Services Compliance Order that directs EID to enclose all existing open treated reservoirs.	NOD	
2004089070	Master Case 03-516 Fish & Game #5 Santa Clarita--Los Angeles SAA# 1600-2004-0020 Alter the streambed by constructing a bridge over an unnamed drainage and placing two culverts within three additional streams. The Project will impact. Total permanent impacts will be 0.032 acres of streambed. Temporary impacts will be less than 1,000 square feet.	NOD	
2004088320	Streambed Alteration Agreement Concerning unnamed tributary to Chollas Creek Fish & Game #5 San Diego--San Diego The operator proposes to alter the stream to implement the 32nd Street Canyon Restoration Project. The project involves the spraying and removal of all the arundo (Arundo donax), followed by arcacia removal as funding becomes available.	NOE

	access to the lots and utilities would be extended from Steeplechase Lane to serve the project site.		
2003102139	Capay Hills Golf Club Yolo County Planning & Public Works Department --Yolo The proposed project site consists of approximately 314 acres of the former Schilling Ranch property, which includes approximately 235 acres, owned by Rumsey Rancheria, and an additional 79 acres, which is held in Federal trust for the Rumsey Band of Wintun Indians. The project would include the construction of a championship 18-hole golf course, with fairway distances ranging from 169 yards to 592 yards, a driving range, a decorative waterfall, a golf clubhouse, a golf cart barn, a comfort station, an associated maintenance building, two ponds, and the golf course irrigation system. The driving range would be located on the southeastern portion of the project site, south of the clubhouse and adjacent to Tee #1 on a small hill. The decorative waterfall would be concentrated adjacent to the project site's southern boundary and would provide a scenic vista of the golf course and clubhouse.	EIR	10/04/2004
2004061007	Mustang Stadium Renovation and Parking Structure II Project California State University Trustees San Luis Obispo--San Luis Obispo California Polytechnic State University (Cal Poly), proposes to undertake a Renovation and Expansion Program for Mustang Stadium. The project will include renovation and expansion of Mustang Stadium in its current location and a partial realignment of California Boulevard. The project also includes the construction of Parking Structure II.	EIR	10/04/2004
2004081134	Vila Borba Project (Development of TTM 15989, 16413, 16338, and 16414) Chino Hills, City of Chino Hills--San Bernardino The project consists of the development of 4 housing tract that would include a maximum of 835 houses. The project also includes a General Plan amendment and rezoning for a portion of the existing commercial land to a high-density multi-family zone. The remaining 5 acres of commercial land would be used for commercial purposes.	NOP	09/17/2004
2004081135	Linda Vista Tentative Subdivision Map, General Plan Amendment No. 04-01, and Change of Zone 04/01 El Centro, City of El Centro--Imperial The proposed project involves the approval of a general plan amendment from low density residential to general commercial usage on a portion of the site; a change of zone from County A 2L1, general agriculture (with overlay) to CG general commercial and R-1 single-family residential and tentative subdivision map. The development of 227 single-family homes and a six-acre commercial lot.	NOP	09/17/2004

2004081130	County Trail Program, GPA 04-010; Log No. 03-00-002 San Diego County Department of Planning and Land Use --San Diego The proposed project is the adoption of the County Trails Program (CTP). The components of the CTP include a General Plan Amendment (GPA), Regional Trails Plan (RTP), Community Trails Master Plan (CTMP), and a new Trails Ordinance regulating the use of trails and amendments to various existing County ordinances regarding dedication and improvements of trails. The CTP will be utilized to develop a system of interconnected regional and community trails and pathways.	Neg	09/17/2004
2004081131	Bryant Park Boxing and Fitness Center Riverside, City of Riverside--Riverside The project involves expanding an existing community center by 11,600 sf in order to construct a boxing/fitness center.	Neg	09/17/2004
2004081132	Glen Abbey Memorial Park Expansion; P52-008W ³ , Log No. 78-18-029A San Diego County Department of Planning and Land Use --San Diego The project proposes to expand the existing cemetery use. Fourteen new mausoleum buildings ranging in size from 800 to 3,570 sf are proposed for the northern, central, and southeastern areas of the project site. Special feature elements consisting of statuary, fountains, monuments, trellis structures, or other ornamental elements or structures typical to cemeteries will be located throughout the cemetery grounds. Grading will consist of 51,926 cubic yards of cut, 172,730 cubic yards of fill of which 120,804 cubic yards will be imported.	Neg	09/17/2004
2004081133	TPM 20698, Log No. 02-21-006, Erdmann Minor Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project proposes a minor residential subdivision of 101.5 acres into four parcels ranging in size from 12.9 to 13.5 acres, with an 8.0-acre minimum lot size for four residential building sites. Also, a remainder parcel measuring 48.5 acres will be located on the west of the property. All lots are currently vacant and the single-family homes will be accessed through new driveways from Rock Knoll Lane, which abuts the property on the north. All lots will be on septic and the potable waste supply well will be installed, approved, and tested prior to the issuance of a septic tank permit. Grading proposed for project implementation on all five parcels will total approximately 731 cubic yards of cut and 731 cubic yards of fill with a maximum cut fill slope ratio of 1:1.5 and a fill slope ratio of 2:1 and maximum height of 14 feet. The grading for each parcel required a preliminary grading plan. The project is accessed by Rocky Knoll Lane, which is an existing private road, off of McCain Valley Road, which is an existing public road. The project is in the Mountain Empire Community Planning Area within an unincorporated portion of southeastern San Diego County. The entire project will be served by the following agencies/districts: Mountain Empire Unified School District, and the Boulevard County Service Area for Fire Services. Furthermore, the zoning use regulation is S92 (General Rural Use).	Neg	09/17/2004

2004082087	Northwest Chico Specific Plan Chico, City of Chico--Butte The City of Chico is preparing a Specific Plan and an EIR for approximately 632 acres of developable land located within an area of Chico known as the Northwest Chico development area. The City's goal in preparing the Northwest Chico Specific Plan is to guide development in this area by identifying environmental and planning issues that must be considered in more detail as specific development proposals are received. The current project identifies locations for new residential, commercial and mixed use development as well as a network of open space in the project area. The plan anticipates 20.3 acres of new commercial uses and approximately 334 acres of new residential uses or roughly 2000 new housing units. The City is currently preparing plans for the future DeGarmo Community Park, a 35 acre park that will be located within the project area. The City has already prepared a negative declaration for DeGarmo Park, so it is not part of this environmental review process. Key components of the NCSP will include: -A community vision and goals for the Northwest Chico development area; -A land use and development plan that identifies specific land uses, an open space framework, circulation patterns, bicycle and pedestrian improvements, and necessary infrastructure improvements; -Illustrative development concepts for each type of proposed land use including	NOP	09/27/2004

2004082090	North Fork Navarro River Debris Barrier Removal Caltrans #1 --Mendocino Caltrans proposes to remove portions of two debris barriers on the North Fork Navarro River adjacent to State Route 128 at post mile 8.91. It is intended to remove between four and eight large logs that provide the "foundation" of the barrier. The smaller debris would be removed by hand. Trash would be taken to a transfer facility. Large woody debris would remain in the river for habitat and to reduce scour and erosion. The project is needed because State Route 128 is experiencing an increased frequency of flooding during non-flood stages of the Navarro River. This results in dangerous conditions for the traveling public, complete highway closure, increased maintenance costs and accelerated deterioration of the structural section of the roadway.	Neg	09/20/2004
2004082092	Orchard Park Phase II (CIP#LK71) Sacramento, City of Sacramento--Sacramento The City Department of Parks and Recreation is developing Orchard Park as a 13.5-acre community park. The park site is located in the South Natomas Community Plan area, east of West River Drive, west of Natomas Main Drainage Canal, south of W. El Camino Avenue and northeast of Leroy Green Middle School. Phase I of this park project was reviewed under a previous Negative Declaration, and construction began in 2003 and is nearing completion. Phase II of the project is largely within the scope of the original Negative Declaration, which has been reviewed and is being re-circulated for an additional 30-day review period for the purpose of obtaining State grant funding. Phase II elements will include natural riparian enhancements and a bike trail along the west side of the Main Drainage Canal. The proposed park is a component of the Department of Parks and Recreation's 2000 Master Plan for Park Facilities and Recreation Services, which identifies the site as a Neighborhood Park located adjacent to park compatible use areas. 2004051036	Amendments to SJVUAPCD Regulation VIII (Fugitive PM10 Prohibitions) San Joaquin Valley Air Pollution Control District --Fresno, Madera, Kings, San Joaquin, Merced, Stanislaus, ... The proposed amendments to Regulation VIII would provide broader applicability, reduce certain thresholds, remove certain exemptions, and includes updated tables that clarify dust control requirements and options. District staff estimates implementation of the proposed amendments to Regulation VIII to reduce cumulative emissions by approximately 18.8 tons per day for all categories of fugitive emissions.	NOD	
2004052130	City of Oroville Visitor's Center / Chamber of Commerce Oroville, City of Oroville--Butte Construct a Visitor's Center / Chamber of Commerce building of approximately 7,500 square feet in area on two parcels totaling approximately 0.68 acres in size. The primary purpose of the building is to provide a City-owned facility to make information available to tourists in the Oroville area about the activities, lodging, food services, amenities and opportunities found in the City and the region.	NOD	
2004061121	High School #9 Chaffey Joint Union High School District Fontana--San Bernardino The project site consists of 60 acres of vacant land located at the northeast corner of Walnut Avenue and San Sevaine Road in the City of Fontana. The District proposes to acquire the property and construct a new public high school in order to provide adequate school facilities for the rapidly growing area of north Fontana. The site plan for the proposed High School campus is not yet finalized; therefore, the exact building and facility configuration is still being determined. However, the proposed High School facilities will include library, cafeteria, administration building, and auditorium, along with classroom, recreational spaces, and athletic fields.	NOD	
2004062101	Washington Street Bike Path Calistoga, City of Calistoga--Napa This proposal consists of construction of a Class 1 bike path that will be paved with asphalt over base rock. An opening, separating from the existing electronic gate, is proposed to allow bicycles and pedestrians to pass through. The bridge crossings at the storm drain culvert and at Simmons Canyon Creek will be modified to ensure bicycle safety to include improved bridge surfaces and railings. Additionally, a short length of fencing will be added along the channels on both sides of both bridges. It is possible that fencing will be installed along the Southern Pacific Railroad section on the opposite side of the bike path to prevent bicyclists from entering onto private property.	NOD	
2004062121	Proposed Elementary School Alameda Unified School District Alameda--Alameda The District proposes to construct a new Elementary School serving Grades K-8 on 7 acres of a vacant parcel to meet the needs of students within the community to provide a neighborhood school.	NOD

2004088347	Learning Center Leachfield Forestry and Fire Protection, Department of Fort Bragg--Mendocino This project is necessary to meet health and safety code requirements of a government facility through the installation of a septic and leachfield treatment system. CDF just completed construction of a forest Learning Center; a 2000 square foot barracks/office building set in a state-employee housing compound, 18 miles east of Fort Bragg on Highway 20. A septic tank and leachfield in still needed before the facility can be used, as the site is too far from any city sewer system.	NOE	
2004088348	Parlin Creek Bridge Repair Forestry and Fire Protection, Department of Fort Bragg--Mendocino This project involves the repair of an existing bridge at the Parlin Creek Conservation Corp. near the Parlin sawmill. The bridge repair is needed to continue its certification for vehicle use, and the bridge is necessary to access parts of the camp, bisected by Parlin Creek. No Stream Alteration permit is required as the new bridge materials will be placed directly over the old bridge, which will remain intact.	NOE	
2004088349	Rooftop Unit Diagnostics Energy Commission -- Contractor will incorporate fault diagnostics software into air conditioning unit controllers from a leading manufacturer. Information technology will be developed to effectively communicate equipment conditions to facilities and service personnel. These diagnostic unit controllers and networked information systems will be evaluated and refined in California field demonstration sites in preparation for commercial deployment.	NOE	
2004088350	AHU and VAV Box Diagnostics Energy Commission -- The contractor will improve methods of automatically detecting faults in commercial air distribution systems to assure valid detection, and to avoid false positive reporting of faults. The diagnostic software will be embedded in unit controllers from several manufacturers and deployed in several field demonstration sites in California. These automated controls will reduce energy consumption in colleges, hospitals and large office buildings.	NOE	
2004088351	Advanced Packged Rooftop Unit Energy Commission -- Contractor will work with air conditioning manufacturers to create specifications for a cost-effective, advanced packaged rooftop AC unit, and will develop a laboratory prototype to evaluate the improvements. Life-cycle benefits of each efficiency improvements measure will be documented and publicized to encourage market adoption.	NOE

2004088352	Tracking to Sun for High Value Grid Electricity Energy Commission Berkeley--Alameda The purpose of this PEIR contract is to research, develop and demonstrate an advanced tracking system for photovoltaics. The objectives of this project are to improve reliability and reduce installation time, maintenance time and capital costs of the PowerTracker system for utility and other large-scale commercial applications. Component bench testing will be done at the Berkeley facility, and the structural performance of tracker systems in various wind and extreme weather conditions will be analyzed using a yet to be determined research facility.	NOE	
2004088353	SpeciFlow Technology Energy Commission Berkeley--Alameda The contractor will make technical improvements to a device which is designed to measure fresh airflows into buildings. Work will take place in a laboratory building in Berkeley. These improvements are expected to improve measurement accuracy at high damper opening positions.	NOE	
2004088354	3 Hour Parking-OTSD SHP Parking Lots (04/05-SD-03) Parks and Recreation, Department of --San Diego This project consists of the implementation of a (2-year) 3-hour parking limit in the Parking Lots in Old Town San Diego State Historic Park. The physical signing of the parking lots will consist of adding signage to existing posts, signs and fences clearly visible to visiting public. No ground digging will be necessary and each sign will be affixed to an existing non-historic structure. This parking time-limit will ease the parking congestion in the State Park lots that have recently been impacted by the construction of a new Caltrans building where a parking lot once existed.	NOE	
2004088355	Tijuana River Valley Invasive Plant Control Program (04/05-SD-04) Parks and Recreation, Department of --San Diego This project consists of habitat restoration throughout the Tijuana River Valley in Border Field State Park. Exotic vegetation will be removed throughout the Tijuana River Valley. In Border Field State Park, the project will concentrate on removing the giant reed (<i>Arundo donax</i>), castor bean (<i>Ricinius communis</i>), and tamarisk (<i>Tamarix ramosissima</i>), in the alluvial fan of Goat Canyon. In addition 5 large Eucalyptus trees will be cut down and chipped. These trees have seeded the area with numerous small seedlings that are encroaching native Willo habitat. <i>Arundo</i> will be moved to the ground with a tractor mounted flail, sprouts will be sprayed with "Round Up", Tamarisk will be cut and stumps painted with "Round Up." To protect the native bird species this project will not occur during nesting season.	NOE	
2004088356	San Diego Canal Bachelor Mountain Spillway Emergency Repair Project Metropolitan Water District of Southern California --Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to perform emergency repairs at the San Diego Canal Bachelor Mountain Spillway. Recent inspections revealed a damaged concrete liner panel within the Bachelor Mountain Spillway. Metropolitan proposes to place a geotextile material and crushed rock over the existing damaged concrete liner panel in order to prevent loss of soil from beneath the liner and prevent failure of the San Diego Canal. The rate of soil loss, if left unchecked, could accelerate quickly without prior advance	NOE

2004082102	Parcel Map Application No 2004-23-Karnail Sandhu Stanislaus County --Stanislaus Request to create a 50 acre parcel, leaving 48.72 acre remainder located in an A-2-40 (General Agriculture) zone, general planned for agriculture.	CON	09/21/2004
2001111074	Sunset Olive Mixed Use Project EIR West Hollywood, City of West Hollywood--Los Angeles The proposed project would construct a 35,000 sf commercial building with three levels above Sunset Boulevard, and two levels below Sunset, oriented towards the south, and a roof top dining terrace. This building would be forty-five feet tall as measured above Sunset Boulevard, would be located east of the House of Blues, and would require demolition of the existing retail and restaurant structures. Also proposed is a 138 unit apartment building over a semi-subterranean parking structure with 687 parking stalls. The apartment building would be eight stories tall, and the parking structure would have two levels above ground and five levels below ground. The height of the apartment building would be 45 feet as measured at Sunset Boulevard, however, due to the site's downward, south facing slope the apartment building/garage would measure approximately 100 feet in height along Olive Drive and Delongpre Avenue. Twenty-eight of the 138 apartments are proposed as affordable housing. Construction of the apartment buildings and garage would require demolition of the existing apartment buildings.	EIR	10/06/2004
2002031067	Lossan, Los Angeles to San Diego Proposed Rail Corridor Improvements Caltrans --Los Angeles, Orange, San Diego Project proposes to add grade separations, rail alignment alternatives and other improvements, resulting in a completely double-tracked (with four tracks between Los Angeles Union Station and Fullerton) rail corridor from Los Angeles through Orange County to San Diego.	EIR	10/25/2004

2004081147	City of Hollister Draft General Plan 2004 Hollister, City of Hollister--San Benito The City of Hollister's current General Plan was adopted in 1995. In 2002 the City determined that a comprehensive update of the General Plan was needed to address changed conditions since adoption of the 1995 General Plan to maintain a plan current in policy, program implementation, and budget direction. The project is a comprehensive update of the City's current General Plan. The updated General Plan 20 will provide goals, policies and implementation measures intended to guide development within the Hollister Planning Area through the year 2020. It will establish land use designations within the Planning Area, and will provide the basis for subsequent revisions in the current zoning ordinance. The Draft General Plan will address all the required elements of a general plan pursuant to the California Government Code. Many of the policies contained in the General Plan are being carried forward. Specifically, these include policies related to open space, conservation and safety issues.	NOP	09/21/2004
2004081151	River Supply Conduit Project Los Angeles County Department of Water and Power Burbank--Los Angeles The Los Angeles Department of Water and Power (LADWP) proposes to construct a new larger River Supply Conduit (RSC) to replace the Upper and Lower Reaches of the existing RSC pipeline in a new alignment. The route would begin at the North Hollywood Pumping Station (NHPS) and travel southeast through the Griffith Park area, and connect to the Rowena/Ivanhoe connecting line below Los Feliz Boulevard. In addition, LADWP proposes to construct a new Inlet Structure at the existing NHPS.	NOP	09/21/2004
2004081155	Olivenhain Municipal Water District 2004 Comprehensive Master Plan Program Environmental Impact Report Olivenhain Municipal Water District Encinitas, Carlsbad--San Diego OMWD completed a Draft Comprehensive Master Plan (CMP) in August 2004 that addresses the District's existing facilities and future needs within a 50-year time horizon, commencing in the year 2004. The CMP is intended to be a guideline for OMDW staff and management responsible for the planning and implementation of future capital improvement projects. The CMP is generally based on a review of previous planning efforts and an analysis of existing conditions (facilities and customer demands) to derive recommendations for system improvements. The CMP is typically updated approximately every five years to react and adjust to the realities of customer demand, new technology, and the effects/implications of	NOP	09/21/2004

	<p>system aging. The CMP is a key planning tool and is the focal point for deciding on the make-up of OMWD's Capital Improvement Program (CIP) and other facility rehabilitation/replacement needs.</p> <p>The use of a PEIR is the first logical step in achieving environmental compliance under CEQA for projects included in the CMP. Some of these project will not be individually evaluated in the PEIR because the specific project may be: (1) a developer-funded project that will be considered under a separate environmental document; (2) excluded from the CEQA environmental review process because the project would qualify for an exemption under CEQA Guideline section 15300 et seq; or (3) is not anticipated to occur in the near future (within 5 years), and its thus too speculative and lacking in details to analyze at this time.</p>		
2004082095	<p>Richmond Redevelopment Plan Adoption and Amendments Program Richmond, City of Richmond--Contra Costa Amendments to existing 10A and 10 B Redevelopment Plans, including new "amendment" areas; plus adoption of new San Pablo/Point Molate redevelopment area.</p>	NOP	09/21/2004
2004082096	<p>Trans Bay Cable Project Pittsburg, City of Pittsburg, San Francisco--Contra Costa, San Francisco The proposed Trans Bay Cable Project consists of installation of 55-mile-long High Voltage Direct Current (HVDC) cable in San Francisco Bay, from a terminus in the City of Pittsburg in Contra Costa County to a terminus in the City of San Francisco in the vicinity of Potrero Point. The direct current (DC) cable being proposed utilizes HDVC technology and is available from several manufacturers. This technology has been utilized in numerous projects around the world. DC power is different from High Voltage Alternating Current (HVAC) technology in significant ways. It is controllable in a manner that mimics generation on the power delivery end and functions independently of problems in the alternating current (AC) grid. It has negligible magnetic fields, no AC EMF in the HDVC cable and can be more easily and inexpensively buried underground or underwater. HDVC becomes cost effective when transmission efficiency and reduced cable cost, over longer distances, offset the efficiency losses and cost for the HVAC to HDVC Converter Stations. The proposed HVAC cable would be bundled with a separate metallic return cable and a fiber optic communication cable. The fiber optic cable will ensure reliable communication between the Converter Stations in Pittsburg and San Francisco.</p>	NOP	09/21/2004

	use lots, for property located at the southwest quadrant of State Route 99 and Eight Mile Road.		
2003051127	Mission District Specific Plan San Gabriel, City of San Gabriel--Los Angeles The main purpose of the Specific Plan is to develop a village atmosphere and appropriate land uses within the Mission District, which would allow certain parcels within the Specific Plan area to develop at higher intensities than currently allowed by the Municipal Code. The proposed project consists of a Specific Plan, coupled with a General Plan Amendment (Land Use and Circulation) and Zone Change. There are no specific development projects proposed in conjunction with the proposed Specific Plan.	NOD	
2004022089	Kovar Karate Studio (EIAQ-3173) Placer County Planning Department --Placer Approved 11,807 square foot commercial center on 1.1 acres.	NOD	
2004031054	Rancho Canada Resort (aka Monte Vista Lodge) San Diego County Department of Planning and Land Use --San Diego The project proposes a Major Use Permit to allow a bed and breakfast within the Monte Vista Ranch specific plan area in Ramona. Currently, other development applications (TM5235Rpl/R04-001/GPA04-01/SPA00-07) for the entire specific plan area including the Rancho Canada Bed & Breakfast are being processed by the Department of Planning and Land Use (DPLU). The bed and breakfast would occupy the existing ranch structures that were built on the property prior to 1936 and have recently been refurbished. A total of five units will be available for nightly rental. The proposal also includes the use of existing pool and various hiking trails and pathways through the Monte Vista Ranch property. Only minor grading and landscaping is required for project implementation. Parking will be within the project footprint and access to the site is through an existing driveway connecting to Chuck Wagon Road.	NOD	
2004032140	Terracina (aka Orchard Hill Estates) EIAQ-3772 Placer County Planning Department --Placer Rezoning of approximately 83.2 acres from RA-BX-4.6 to RA-BX-4.6, PD 0.22 (Residential/Agricultural, combining building site of 4.6 acres to Residential-Agricultural, combining building site of 4.6 acres, combining Planned Development of 0.22 dwelling units per acre).	NOD	
2004061062	Clark Street and Old Elsinore Road Water Pipeline Replacement Eastern Municipal Water District --Riverside Proposed project consists of replacing 11,210 lineal feet of 8-inch and 10,810 lineal feet of 12-inch water transmission pipeline with 12 and 18-inch pipeline respectively along Clark Street and Old Elsinore Road.	NOD	
2004061128	Greenfield Elementary School Greenfield Union School District Bakersfield--Kern Construction and operation of a new elementary school to serve the southern Bakersfield area. To be located on a 17-acre site at the northwest corner of Hosking Avenue and Monitor Street, the new elementary school will provide	NOD

2004061131	Injection of Ozone at Venice McLaughlin Center Regional Water Quality Control Board, Region 4 (Los Angeles) Los Angeles, City of--Los Angeles Under the oversight of the Regional Board, Stratus Environmental, Inc. on behalf of the facility and landowners, Mr. Larry Canchola and Mr. Mojdeh Daneshrad respectively, proposes to use C-Sparge™ to remediate the dissolved-phase petroleum hydrocarbon plume beneath the site. The C-Sparge™ technology combines low-flow (3 to 5 cubic feet per minute) air sparging with ozonation to oxidize petroleum hydrocarbons into benign byproducts, carbon dioxide and water. Ozone is generated onsite using a control panel with built-in compressor and ozone generator. Using perforated sparge points, microbubbles (10 to 50 micrometers in diameter) of encapsulated ozone are introduced below the water table, where the oxidation reactions take place. Four injection points, integral to the C-Sparge™ system, will be used onsite within and around the dissolved-phase plume. During the injection, no groundwater will be pumped. Sparging will be performed on a cycled basis with the well cycled on for 5 to 10 minutes. Cycle times (on and off times) will be adjusted, as necessary, to optimize system efficiency. During C-Sparge™ system operations, microbubbles of encapsulated ozone will be discharged into the subsurface beneath the site. No other known constituents will be discharged to the subsurface during system operations. The C-Sparge™ system will inject approximately five grams per hour of ozone at a flow rate of 3 to 5 cfm. Therefore, the total concentration of ozone injected into the subsurface during the system operations will be approximately 0.59 milligrams per liter.	NOD

<u>Documents Received on Wednesday, August 25, 2004</u>			
2003122087	Crow Canyon Specific Plan San Ramon, City of San Ramon, Danville--Contra Costa Consistent with the 2020 General Plan voted in on March 5, 2002, the proposed Project, the Crow Canyon Specific Plan, would result in incremental redevelopment that would result in the creation of a new pedestrian-oriented neighborhood with a mix of retail, office, residential and commercial-service uses. Specifically, the Plan would propose up to 735 residential units, including affordable housing units, up to 200,000 sf of additional commercial uses, associated development standards and design guidelines for the Project area; and public improvements including San Ramon Creek.	EIR	10/08/2004
2004032126	Shastina Ranch Subdivision Redding, City of Redding--Shasta Shastina Ranch General Plan Amendment, Rezone and Tentative Subdivision Map and Amendment to the Redding Municipal Airport Comprehensive Land Use Plan (CLUP). The proposed project would create approximately 446 residential parcels on 223.8 acres.	EIR	10/11/2004
2004051004	Draft EIR for the Proposed Prado Basin Water Supply, Riverside and San Bernardino Counties, CA U.S. Army Corps of Engineers Corona--Riverside, San Bernardino The proposed project will allow storage of water between elevations 494 and 498 feet between the months of October and March. Current water conservation within Prado Basin allows for storage of water at elevation 494 feet during the winter months, and up to elevation 505 feet between March and October. The proposed project will allow storage of water at a higher elevation during the winter season, with the pool being evacuated before any storm flows enter the basin. This will ensure that there is no impact to the flood control capacity of the Prado Dam. The Draft EIS/EIR evaluates alternatives carried forward for detailed environmental analysis.	EIR	10/08/2004
1998092077	U.S. Highway 50/Missouri Flat Road Interchange Project El Dorado County --El Dorado The proposed project entails construction of a 4-lane tight diamond interchange, including widening Missouri Flat Road between Prospector's Plaza Drive and Perks Court and widening the U.S. 50/Weber Creek bridges during Phase 1 to replace the existing interchange. Phase 2, construction of a single point diamond interchange, is also analyzed, but would require separate approval.	FIN	
2002111002	Pacific Rail Metal Shredding Operation Colton, City of Colton--San Bernardino The proposed project includes two components: 1) the installation and operation of a metal shredding operation as an expansion of a scrap metal facility; and 2) an increase in the volume of transloading (transfer of goods from rail car to truck for distribution) on the project site. Project applicant, Pacific Rail industries, proposed to expand their existing project site in the City of Colton, and relocate an existing metal shredding facility from Carson to the project site in Colton by amendment of their conditional use permit. 2000012092	LP992027 Brentwood Rod & Gun Club Contra Costa County Byron--Contra Costa The application is a request to relocate the Brentwood Rod & Gun Club from its existing location on Concord Avenue in Brentwood with the same types of activities, uses and operations.	EIR	10/12/2004
2003051045	Rose Ranch Commercial Project Oxnard, City of Oxnard--Ventura The proposed project involves the development of an 89,199 square feet of commercial development and 381 surface parking spaces. Proposed uses include a Ralph's grocery store, Long's pharmacy, and additional retail uses. The project will require amendments to the General Plan and the Northeast Community Specific Plan to change the site's land use designation to general commercial.	EIR	
2003101117	Sunset Millennium West Hollywood, City of West Hollywood--Los Angeles The project is proposed for development on two sites within the City of West Hollywood's Sunset Specific Plan (i.e., Sites 4-C and 4-D). Site 4-C is located at the southeast corner of Sunset and La Cienega Boulevards. As proposed this site would contain a total of 235,000 square feet consisting of two hotels, retail, and restaurants plus 2,250 square feet of outdoor dining areas. Site 4-D is located on the south side of Sunset Boulevard between Alta Loma Road and La Cienega Boulevard. Proposed is development of 292,240 square feet consisting of retail/restaurants, and two (2) residential buildings provided by 468 parking spaces in a below Sunset Boulevard grade parking structure. A new below grade tunnel under La Cienega Boulevard would connect the Site 4C parking structure with the Site 4D parking structure. A pedestrian bridge is proposed across La Cienega Boulevard south of Sunset Boulevard.	EIR	10/25/2004
2004032052	Broadway and West Grand Mixed-Use (Residential/Commercial) Project Oakland, City of Oakland--Alameda The proposed project entails the redevelopment of the site with up to 475 for-sale residential units, 40,000 sf of ground-floor commercial space, and 675 structured parking spaces. The site is currently occupied by a combination of auto-related, retail, commercial services, and residential uses. Up to 15 existing buildings on the site may be demolished, but the facades of the two buildings at the corners of 23rd / Valley Streets would be retained and incorporated into the project development. The site is included on the last version of the Cortese list that was issued, but the site has since received clearance from the Regional Water Quality Control Board in 1994.	EIR	10/12/2004
2004081167	Media Studios North Burbank, City of Burbank--Los Angeles The applicant proposes to amend the entitlement of the Media Studios North PD in two ways. First the amendment would extend the Planned Development (PD) boundaries by incorporating a strip of land along Avon Street previously owned by Lockheed, totaling approximately 0.52 acres. Second, the amendment would expand the current development entitlement of 650,000 sf by approximately 275,000 sf to construct additional office and related parking facilities.	NOP	09/24/2004

2004082116	Apple Valley Early Education Center San Bernardino County, Superintendent of Schools Apple Valley--San Bernardino The proposed project entails acquisition of 9.13 gross acres for the construction and operation of a 104-student Early Education Center with special education medical therapy facilities.	Neg	09/27/2004
2004082117	Western Annexation Oakley, City of Oakley--Contra Costa The City of Oakley is proposing to annex, as part of a boundary reorganization involving other responsible agencies, approximately 88 acres located southeasterly of the intersections of East Cypress Road and Sellers Avenue. This project also contemplates the adoption of rezoning for the affected territory, and subsequent subdivision and development of a planned residential subdivision of approximately 100 single-family homes and a municipal park on 24 acres within the project area.	Neg	09/27/2004
2004082118	Caligiuri Open Space Campground and Hiking Trail Vacaville, City of Vacaville--Solano The proposed project includes construction of an access road, which can also serve as a hiking trail, and development of a small (12-15 tent sites) primitive campground in City-owned open space areas. The campground will provide access to existing predefined trails within the Glen Eagle and Caligiuri Open Space areas.	Neg	09/27/2004
2004082119	Willow Brook Residential Development Pittsburg, City of Pittsburg--Contra Costa Subdivision of a 7.6-acre property into 60 lots for a residential planned development consisting of 54 single-family (detached) and 6 duet (single-family attached) houses.	Neg	09/27/2004
2004082120	Austin Creek - Adaptive Management Instream Mining Fisheries Enhancement Project Sonoma County Permit and Resources Management Department --Sonoma Bohan & Canelis is requesting authorization to expand the area of instream gravel mining activities on Austin Creek and to carry out a modified mining and reclamation approach which departs from the existing ARM Plan and County Code. The proposed mining plan would remove gravel below the water surface by excavating alcoves on the downstream ends of bars, and pools on the outside bends of bars. Setback zones along the low flow channel will be allowed to build up in order to encourage more natural scouring of deep pools by winter floods. These pools and alcoves and buffer zones would be retained and maintained in the reclamation plan. The application requests a change in the mining standards to provide improved salmonid habitat and migration for instream mining in Austin Creek within a 4,000-foot Lower Reach where it joins the Russian River. 2004088594	Meeks Bay Marina Dredging Fish & Game #2 --El Dorado Removal of 200 to 300 cy of sand from the southern side of the sheet pile wall within the channel leading to the inner harbor of Meeks Bay Marina using a clamshell dredge.	NOE					
2004088595	Modifying Agricultural Practices, Nutrients and Pesticides, Calleguas Creek and Santa Clara River - Consolidated Grant Agreement #04-073-554-0 United Water Conservation District --Ventura The waters of the Calleguas Creek and Santa Clara River watersheds have been documented to be impaired by a number of agricultural nutrients and pesticides. Various Best Management Practices (BMPs) exist for nutrient and pesticide use, but they are rarely implemented on a scale that creates meaningful benefit to the watershed. The purpose of this project is to change the habits of a large segment of the agricultural community by demonstrating that modifying management practices can significantly reduce the discharge of these pollutants into surface waters, thus reducing impairments in both Calleguas Creek and Santa Clara River. 	develop approximately 66 acres into a three (3) Planning Areas and supporting infrastructure. The operator proposes to grade and place 1/2 ton rip-rap, construct a bridge and a detention basin with the jurisdictional area of Line F.		
2002041129	Canyon Sewer Cleaning Program/Long-Term Canyon Sewer Maintenance Program San Diego, City of --San Diego The project proposes to clean and maintain all City of San Diego sewer pipelines within canyons and other environmentally sensitive lands, and construct new temporary paths where necessary. The Cleaning Program would implement performance criteria and procedural guidelines to avoid and/or minimize environmental impacts. The Long-Term Sewer Maintenance program proposes to evaluate each of the City's sewer pipelines in the Cleaning Program. This evaluation would be based upon recently adopted Council Policies, 400-13 and 400-14. Both programs would be implemented City-wide.	NOD	
2003092028	Mine Planned Development Watsonville, City of Watsonville--Santa Cruz The operator is undertaking a Planned Development of 128 housing units on a vacant 18-acre site directly northeast of the crossing of Watsonville Slough by the Ohlone Parkway. Runoff from the new development will be directed through storm drains to an outfall that enters a detention basin in the southwest corner of the site. Water will flow from this basin through an engineered grassy swale that will tie into an existing, rocked, grassy swale that drains into Watsonville Slough. No grading, placement of hardscape or temporary access/disturbance will occur within the bed and banks of Watsonville Slough. A 30-foot setback from the top of the existing bank will be maintained. An 8-foot pedestrian trail will be constructed within the setback's northern edge. The California Department of Fish and Game is executing a Lake or Streambed Alteration Agreement Number 1600-2004-0168-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Craig Champion/Western Pacific Housing.	NOD	
2003111056	Rocky Point Pump Station Replacement Project Orange County Sanitation District Newport Beach--Orange The proposed project would involve the construction of a new pump station, demolition of the existing structures and pump station, construction of connecting pipelines, construction of underground wet well, installation of pumps, and construction of above-grade electrical and generator building at 1700-2000 West Coast Highway in the City of Newport Beach.	NOD	
2003111086	Mission Springs Water District Garnet Basin Test Well Desert Hot Springs County Water District Desert Hot Springs--Riverside The District proposes to refit the General Basin well and convert it to a production well to expand the District's water supply. It will also: install a small 50,000 to 75,000 gallon concrete suction reservoir; install two 800 gallons per minute booster pumps with room for two additional pumps; install a 12" to 16" ductile iron pipeline onsite from the well to the reservoir and booster pumps; install a 16" ductile iron pipeline from the well site to Little Morongo Road and connect to the 24" line in that roadway. 2002082001	Modification of City of San Jose's Transportation Impact Policy San Jose, City of San Jose--Santa Clara Modification of the City of San Jose's Transportation Impact Policy (File No. PP02-07-178). According to the proposed Policy, a project's traffic improvements would be unacceptable if future vehicular capacity- enhancing improvements would result in a physical reduction in the capacity and/or a substantial deterioration in the quality (aesthetic or otherwise) of any other planned or existing transportation facilities (such as pedestrian, bicycle and transit systems and facilities). In addition, the City has identified 13 intersections at which vehicular capacity improvements beyond those already built or under construction would result in potentially significant adverse impacts, therefore, future development projects which result in level of service (LOS) impacts at these intersections would not be required to provide LOS traffic improvements; rather, these projects would be required to provide other improvements to the transportation network.	EIR	
1994071005	Extension of Tustin Ranch Road Tustin, City of Tustin--Orange To better accommodate long-term local traffic from the buildout of the City, including the implementation of the MCAS, Tustin Reuse Plan, the City of Tustin proposes to construct an approximately 5,040-foot (approximately one mile) extension of Tustin Ranch Road between Walnut Avenue and the future alignment of Valencia North Loop Road which is on the former MCAS Tustin.	FIN	
2004062053	Sacramento River Bank Protection Project, Sacramento River Mile 56.7 Left Reclamation Board Sacramento--Sacramento The U.S. Army Corps of Engineers and the State of California Reclamation Board propose to implement levee erosion protection under the Sacramento River Bank Protection Project at an eroding site on the left bank levee of the Sacramento River designated River Mile 56.7 Left. The purpose of this action is to ensure the reliability of the levees of the Sacramento River Flood Control Project for the life of the project, while protecting environmental values and compensating and/or mitigating effects on environmental resources to the degree feasible.	FIN	
2004081198	Villa Marina Los Angeles City Planning Department Los Angeles, City of--Los Angeles General Plan Amendment, Zone Change, Tentative Tract Map, Conditional Use Permit, Coastal Development Permit, and Site Plan Review to allow a mixed-use development consisting of 310 residential condominium units and 9,000 sf of retail use. Parking accommodations include a one-level subterranean, second-level podium, and surface level parking totaling 691 spaces.	NOP	09/29/2004
2004081201	Lafayette Hotel San Diego, City of San Diego--San Diego The project proposes to construct 269 residential units and 13 new hotel rooms, to reconstruct a hotel pool, and to reconstruct a clock tower on the main, historic hotel building which would remain on-site. The existing structures on the southern half of the project site would be demolished, and the new housing would be in two building types. A four-story building, approximately 50 feet in height, would include 54 affordable housing units. A second four-story building, approximately 50 feet in	NOP	09/29/2004

	height, would consist of four, two-bedroom townhouses. A third, seventeen-story high-rise, approximately 172 feet in height, would include 211 housing units. In addition, a new, two-story hotel building would be constructed adjacent to the reconstructed pool. The total building area, excluding parking but including the existing hotel, would be approximately 357,241 sf. The proposed project would also construct a three-level subterranean parking garage of approximately 180,681 sf of subterranean parking in three levels. A Site Development Permit would be required for this project for development within the Mid-Cities Planned District Ordinance (PDO) that would deviate from the PDO regulations. In this case, the proposed project would deviate from the required setbacks, height limit, floor area ratio, lot coverage, and density. A Tentative Map would be required to allow for the proposed condominium development.

2004082137	Byron Airport Master Plan Update Contra Costa County Community Development Byron--Contra Costa The project consists of upgrading the Master Plan for the Byron Airport (the Plan). The airport Master Plan is a policy document that will provide the Byron Airport with growth and development direction through the year 2024. It is anticipated that there will be little change to the 1985 Plan; much of the updated Plan will not have any new environmental impacts that were not previously analyzed in the 1985 EIR for the Proposed East Contra Costa County Airport (1985 EIR), with the exception of the change of circumstances in Biology (some species have been listed as Threatened or Endangered since the original plan). All potential improvements including construction activities associated with the runway extension, access and circulation improvements, paving of the pump station road, building of airport hangars, and fixed base facility operations (FBO's) are located in previously identified development areas and are consistent with the 1985 Plan.	Neg	09/29/2004
2004082138	EG-04-647 Zeman/Manzanetti Line Adj. & Parcel Split Elk Grove, City of Elk Grove--Sacramento The project involves a boundary lot adjustment between a 3.68-acre parcel and a 3.04-acre parcel resulting in one 4.00-acre parcel and one 2.72-acre parcel. The 3.68-acre parcel is a single legal lot of record described by two Assessor's Parcel Numbers (123-0190-028 & -029). The 3.04-acre parcel is described by Assessor's Parcel Number 123-0190-063. In addition, the project includes the subdivision of the newly created 4.00-acre parcel into two 2.00-acre parcels. The following	Neg	09/29/2004
