

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

August 16-31, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16-31, 2006.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

Key:

- NOP Notice of Preparation
- EIR Draft Environmental Impact Report
- ND/MND Negative Declaration/Mitigated Negative Declaration
- NOD Notice of Determination
- NOE Notice of Exemption
- EA Environmental Assessment (federal)
- EIS Draft Environmental Impact Statement (federal)
- OTHER Other types of documents, including Final EIRs, Early Consultation notices, plans, etc.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, August 16, 2006</u>			
2006081091	Conditional Use Permit #2005-06 / Coso Operating Company, LLC Inyo County Planning Department Dunsmuir--Inyo Development of a 9-mile long pipeline to carry well water from the Coso Hay Ranch in Rose Valley to the Coso Geothermal Field located in the northwest area of the China Lake Naval Air Weapons Station. This water will supplement the geothermal reservoir, due to the evaporation losses through the cooling towers.	MND	09/14/2006
2006081092	Construction and Operation of the Mid Evaporation Basin for Management and Disposal of Sub-surface Agricultural Drainwater Tulare Lake Drainage District --Kings The proposed project will provide disposal of sub-surface agricultural drainage water through evaporation. The proposed project will include construction of a new 1,800 acre evaporation basin, installation of an inlet structure for drainage water delivery to the evaporation basin, connection pipeline to the existing sub-surface drainage water collection and conveyance system, and control structures for managing drainwater among the interconnected cells within the evaporation basin. Two cells in the existing Hacienda Evaporation Basin will be converted from emergency spill ponds to drainwater disposal sites.	MND	09/14/2006
2006082083	CDP 06-02, UP 06-03/Revised Disc Golf Course Expansion Crescent City Crescent City--Del Norte The project was originally proposed and only locally approved under UP 05-04 and CDP 05-03 as an 18-hole disc golf course, yet to be constructed. The current project proposes increasing the project size to 24-holes. Although most of the project is proposed for within the boundaries of the park, small portions and proposed for the Battery Point parking lot area, the vacant parcel north of the Wastewater Treatment Plant, and the uplands between the U.S. Army Corps of Engineers' (USACE) breakwater and the city's B Street Pier. Proposed development would include a concrete tee pad, measuring five feet by ten feet by four inches thick, for most of the 24 holes. The 'holes,' also called targets, are actually above-ground steel baskets, designed to catch and hold the discs. The size of the tee pads allows throwers maximum range of motion. As alternatives to the concrete pads as proposed, either a crushed-rock pad or a rubber mat may be substituted, also set at or near grade.	MND	09/14/2006
2006081094	Robert B. Diemer Treatment Plant North Access Road Metropolitan Water District of Southern California Brea--Orange Metropolitan is proposing to construct a North Access Road to the Diemer Plant. The fully-constructed roadway width would range from 30 to 40 feet, including a 28-foot wide paved road. The roadway length would be approximately 1.3 miles.	NOP	09/14/2006
2006081093	Cucamonga Canyon Rehabilitation Project Cucamonga Valley Water District Rancho Cucamonga--San Bernardino The project consists only of repairs to damaged facilities/water infrastructure resulting from flood damage that occurred during a declared emergency. The project specifically consists of reconstructing about 3,300 lineal feet of the 16-foot wide dirt maintenance road, replacing 3,300 linear feet of the 24-inch diameter	Neg	09/14/2006

	cement-lined and mortar-coated steel water transmission pipeline, and replacing 4-inch electrical power and 1-inch communication conduits within the proposed replacement and maintenance roadway. The project also consists of clearing out a total of about 3,400 cy of sediments, rocks, and boulders from the inlet and detention basins. The damaged facilities near the basins will be restored.		
2006082082	TSTM2005-0042 Yuba County --Yuba A tentative subdivision map application has been received from Wayne Reedy, which proposes a 13 lot subdivision with parcels ranging in size from 5.0+ acres to 6.6+ acres, with an average lot size of 5.4+ acres.	Neg	09/14/2006
1990010472	All American Canal Lining Project U.S. Bureau of Reclamation IMPERIAL--IMPERIAL The project consists of construction of a concrete-lined canal, parallel to the AAC for a distance of 23 miles. Centerline of the new canal will be offset from the old centerline of the existing canal by a distance of 195 to 850 feet, depending on terrain, ease of construction, and location of existing structures.	NOD	
1998051133	Water System Improvement Project Mendota, City of Mendota--FRESNO New wells for domestic water service.	NOD	
1998091015	Evergreen Nursery Project Oceanside, City of Oceanside--San Diego New regulations required that a facility that had previously obtained a Standardized permit for operation, shall obtain a Compostable Materials Handling Facility Permit. The proposed new Compostable Materials Handling Facility Permit is to allow continued operation of the green materials composting facility at the existing levels. There will be no changes in design or operation at the site.	NOD	
1999101127	Sun-Land Garden Products Expanded Composting Operation Monterey Regional Waste Management District Marina--Monterey The proposed new permit is to allow the following: change the permitted days and hours of operation from 7:00 am - 4:00 pm, Monday through Saturday to 7:30 am - 4:30 pm, Monday through Friday, not open to the general public, on-site operations may occur on Sunday; change the permitted design capacity from 600,000 cubic yards to 200,000 cubic yards; and change the permitted operating area from 59 total acres to 59.42 total acres.	NOD	
2001091063	Water Infrastructure Improvement Program - 2001 Alpaugh Irrigation District --Tulare Infrastructure improvements to provide a new primary well and installation of hydropneumatic tank to address source capacity and distribution system inadequacies.	NOD

2004101093	Salton City Landfill SWFP Revision Initial Study #04-0045 (Re-circulated) Imperial County --Imperial The revised permit allows: - An increase in peak daily tonnage from 10 tons per day to 50 tons per day. - An increase in peak daily traffic from 30 vehicles per day to 150 vehicles per day. - A change in estimated closure date from 2019 to 2011.	NOD	
2005051068	Well 6729-1 Coachella Valley Water District La Quinta--Riverside The project includes drilling, testing, casing, and developing a 2,000 gallon per minute domestic water well including the installation of a 250 horsepower motor, 2,000 gpm pump, and other appurtenances required to tie the well and pumping plant into the domestic water distribution system.	NOD	
2005091049	Coachella Valley Transfer Station - Environmental Assessment No. 40253 Riverside County Waste Management Department Coachella--Riverside The revised permit allows: 1) Addition of a 27,000 square foot transfer station building 2) Change in permitted hours of operation 3) Removal of the daily average tonnage limit 4) An increase in the permitted traffic volume to 344 vehicles per day 5) Reduction in acreage, from 76.5 acres to 14.47 acres.	NOD	
2006042099	Alder Drive Affordable Housing Opportunity Site Zoning Map Amendment (Application No. 06-024) Truckee, City of Truckee--Nevada The project proponent is requesting approval of a development permit to construct and operate 32 multi-family residential rental units on a 9.5 acre parcel. The project will encompass approximately five acres of the site with the remaining undeveloped land available for future residential development. Access to the site is provided from the south via a 60-foot easement to Donner Pass Road.	NOD	
2006062051	Sheridan Wastewater Treatment Plan Pond Construction Project Placer County Department of Facility Services --Placer The project consists of the construction of an additional wastewater storage pond at the Sheridan Wastewater Treatment Plant in Sheridan, California.	NOD	
2006071026	Del Sur Elementary School Poway Unified School District San Diego--San Diego The proposed project site entails development of an elementary school on a 10-acre parcel.	NOD	
2006089037	MS 040012 in the Bay Point Area (SAA 1600-2005-0773) Contra Costa County Community Development --Contra Costa Installation of outfall to Lawlor Creek to drain 3 parcels at 47 Bayview Avenue in Bay Point. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0773 pursuant to Section 1602 of the Fish and Game Code to the project operator, Carlos Hague. 2004081113	Cypress Knolls Tentative Tract Map and General Plan Amendment Marina, City of Marina--Monterey The project proposes to redevelop the former Patton Park military housing portion of the now decommissioned former Fort Ord military installation for civilian use. The redevelopment will include the construction of 596 residential senior adult single family units, 116 affordable apartment units, an associated community center to serve the project's senior residents and, possibly, a 60-bed assisted living facility. The project analyzed by this EIR includes a General Plan and zoning map amendment to an open space designation/zoning to facilitate potential future development by the City of Marina of public community facilities (such as a City park and senior center) on property adjacent to the proposed senior residential development mentioned above.	EIR	10/02/2006		
2006081096	The Harden Foundation Nonprofit Support Center - Conditional Use Permit 05-42 Salinas, City of Salinas--Monterey A request to demolish an existing 2,884 square foot (28' x 103') barn structure and construct a new 8,307 square-foot non-profit support center with a new 126 space parking lot and provisions for a total of four bus drop off locations. The project includes a new agricultural museum consisting of the renovation of three existing buildings: a mill, wood shop, and blacksmith shop; and two new structures: an 800 square-foot storage building and a 407 square-foot detached restroom structure, which would be constructed within the next two to five years. The project would serve an existing Cultural Institution use (The Harden Foundation) consisting of a 2,314 square-foot office building and a former 4,088 square-foot master residence used for special events (weddings, meetings, etc.) on a 5.8-acre site. 2005121021	Downtown Glendale Specific Plan Glendale, City of Glendale--Los Angeles The purpose of the project is to guide development and design within the approximately 220 acres located in the center of the City of Glendale. The DSP consists of a comprehensive set of incentives, standards, and requirements that will implement the vision for the future development in downtown Glendale. The DSP will act as the planning tool to guide and direct new development, economic development; streetscape improvements; transportation development, parking; pedestrian amenities; open space and land use; preservation of cultural resources; and art space. This is an urban design oriented plan, which sets the physical standards and guidelines as well as land use regulations for activities within the DSP area. The specific plan will be instrumental in promoting the excitement and livability of downtown Glendale, as well as providing incentives for development in keeping with the City's vision.	EIR	10/02/2006
2006021054	2006 Monterey County General Plan Monterey County Planning & Building Inspection --Monterey The proposed project consists of a comprehensive update of the Monterey County General Plan (2006 General Plan). This update includes changes to land use designations and the goals and policies within the General Plan and Area Plans that guide future growth and land use activities. The 2006 General Plan includes an Agricultural Winery Corridor Plan (AWCP) that would facilitate the development of wine-related facilities on three corridors in the Salinas Valley and South County. Note that the planning boundaries of the 2006 General Plan or the AWCP do not include the Coastal Zone.	EIR	10/02/2006
2006031124	Press-Telegram Mixed Use Development Long Beach, City of Long Beach--Los Angeles The project would involve construction of two high-rise buildings on the 2.5-acre Press-Telegram site. Each building would be 22 stories and 250 feet in height. The project would be a mixed-use development with 542 residential units, and 32,300 square feet of office and institutional space.	EIR	10/02/2006
2006042111	Dobbin Drive Residential General Plan Amendment San Jose, City of San Jose--Santa Clara General Plan Amendment to change the City's General Plan land use designation on the site from Light Industrial to Transit Corridor Residential (20+ dwelling units per acre). The proposed change in the land use designation would facilitate a subsequent rezoning and permits to allow replacement of the existing buildings with residential development. No specific development project is currently proposed. However, it is anticipated that a minimum of 487 residential units, up to	EIR	10/02/2006

	a maximum of 1,364 residential units, could later be developed on the site if the currently proposed General Plan Amendment is approved by the City Council.		
2006081102	SWAIM; TM 5356RPL^2, Log No. 04-14-005 San Diego County Department of Planning and Land Use --San Diego Project is a proposed subdivision of 4.54 acres into pine residential units.	MND	09/18/2006
2006081103	Robnett Property (TPM 20726RPL^3) San Diego County Department of Planning and Land Use --San Diego The project proposes a residential subdivision of 85.95 acres into 4 parcels plus a remainder parcel, ranging in size from 10.93 to 24.58 gross acres.	MND	09/18/2006
2006081107	Site Plan Review 05-18 (Buntain Commercial/Industrial Complex) Lancaster, City of Lancaster--Los Angeles The applicant proposes to develop a three phased office/industrial park over approximately 40 acres located on the northeast corner of Avenue G and 30th Street West. The first phase, an approximate 13.3 acre site, would have three separate 58,482 square foot buildings, for a total of 175,446 square feet. The buildings are being designed in such a way that the project has flexibility to be an office and/or industrial building. The north side of the buildings would have roll-up doors with loading areas.	MND	09/18/2006
2006081108	Weir Canyon/La Palma Avenue Lane Addition Yorba Linda, City of Yorba Linda, Anaheim--Orange Construct a northbound, dedicated right-turn lane and convert an existing right-turn lane to a through-lane at the SEC of Weir Canyon Road and La Palma Avenue. At the NWC, convert an existing southbound right-turn lane to a shared through/right-turn lane. Project also includes excavation, repaving, restriping, modifying traffic signals, and adjusting-to-grade utility fixtures.	MND	09/18/2006
2006062150	The Prospects Residential Project (34 Residential Units at 801 Fassler Ave) Pacifica, City of Pacifica--San Mateo The project applicant proposes to construct 34 residential units, a subterranean parking garage, and associated amenities in the western two acres of the proposed project site. Half (17) of the proposed units would be detached single-family residences and the remaining half (17) of the proposed units would be attached in the form of duplexes and triplexes. In addition, the proposed project would include gardens, open space areas, an amphitheatre, a community center, and promenades/pedestrian walkways.	NOP	09/18/2006
2006082094	Lincoln East Specific Plan EIR Yuba City Yuba City--Sutter The LESP includes a mix of residential, commercial, parks, and public facilities on an 1,160-acre site currently located in Sutter County. The applicant is proposing to annex the site to the City of Yuba City.	NOP	09/18/2006

2006061044	<p>General Plan Amendment (GPA050-003), Tentative Map (TM0049), Planned Development Permit PDP050-001 Lemon Grove, City of Lemon Grove--San Diego The project consists of the following:</p> <p>General Plan Amendment (GPA050-003): a General Plan Amendment to change the land use designation of the subject property from Public/Institutional to the Low/Medium land use designations. The Low/Medium Residential land use designation allows for a maximum of 7 dwelling units per net acre.</p> <p>Tentative Map (TM0049): a request to subdivide a 15.97 gross acre parcel and of approximately 1.0 acre of vacated public right-of-way (total acreage of 16.97 gross acres and 12.77 net acres) into 80 single-family residential and open space lots. The project proposes a total of 78 single-family parcels with areas ranging from 6,000 net square feet to 12,513 net square feet. The two remaining parcels consist of open space lots with areas of 11,085 square feet and 14,878 square feet. The density of the proposed project is 6.1 dwelling units per acre.</p> <p>Planned Development Permit (PDP050-001): to authorize the development of the 16.97 (gross) acre site for single-family development, public streets and open space. Parcels 1 through 78 of TM0049 are to be developed with single-family homes with attached two-car garages. Parcels 79 and 80 are proposed to be developed as a pocket park and open space. Portions of the existing unimproved San Altos Place public right-of-way located adjacent to the subject property are proposed to be improved as a linear park containing a decomposed granite pathway, landscape, bench and lighting. The project includes off-site improvements to utility systems and connections to vehicular/pedestrian circulation and drainage facilities located in other jurisdictions.</p>	Neg	09/18/2006
2006081104	<p>Alabama Business Center CUP for a 600,000 sq. ft. Warehouse San Bernardino County Land Use Services Department Redlands--San Bernardino The proposed project is a Conditional Use Permit to construct one 600,000 sq. ft. maximum, "High Cube" warehouse building, including 5,800 sq. ft. of office on a site that has a gross area of 28 acres. The percent of building coverage of the total site area is 50.2% and landscaping covers 10.4%.</p>	Neg	09/18/2006
2006081105	<p>Hayes Holden Tentative Parcel Map Santa Barbara County Santa Maria--Santa Barbara The Hayes/Holden Tentative Parcel Map is a request of Jerry and Lisa Hayes and Monte and Deborah Holden, to consider Case No. 01TPM-00000-00027 (application filed on December 20, 2001 and resubmitted October 2, 2002) for approval under County Code Chapter 21 to divide a 117.28 acre gross (116.85 acre net) parcel into two parcels, proposed parcel 1 is 54.52 acres gross (54.09 acres net), and proposed parcel 2 is 61.97 (gross and net) acres.</p>	Neg	09/18/2006

2006022139	<p>Zone 7 Mocho Groundwater Demineralization Plant Project Zone 7 Water Agency Pleasanton--Alameda</p> <p>The proposed project consists of construction and operation of a 7.7 mgd demineralization facility, which would be located adjacent to Arroyo Mocho off Stoneridge Drive and Santa Rita Road in the city of Pleasanton, California. The facility would treat potable water supplies from existing wells in the vicinity. Operation of the proposed facility would consist of demineralization or reverse osmosis treatment of source or raw water from the water wells. Reverse osmosis (RO) is a physical separation process, in which water is pressurized and passed through a semi-permeable membrane. Molecular constituents (i.e., calcium, magnesium, sodium, etc.) larger than the molecular pore size of the membrane do not pass through, and exit the membrane system as concentrate. Demineralized water molecules pass through the membrane and exit the system as permeate or product. Demineralization would occur through the use of an RO membrane-based treatment, producing permeate water and concentrate. Zone 7 would blend permeate with other groundwater (non-demineralized) and/or surface water before delivery to achieve a target total dissolved solids or hardness level. The concentrate solution resulting from the RO process would be discharged into San Francisco Bay via the existing Dublin San Ramon Services District (DSRSD) pipelines, the Clean Water Revival (CWR) pipeline, and the Livermore Valley Water Management Agency (LAVWMA) pipeline. The LAVWMA pipeline connects to the existing East Bay Dischargers Authority (EBDA) outfall into the Bay.</p>	NOD

	large revetment similar in nature to that already in place. The weir will be repaired to as-built conditions, with additional rock slope protection at a 2:1 slope downstream into the scour hole. Soil will be placed over the rock in the area needed to reestablish the existing access road.		
2006088177	Streambed Alteration Agreement (1600-2006-0169-R5) Regarding the Whittier Narrows Legg Lake Fishing Pier Projects Fish & Game #5 El Monte--Los Angeles The operator proposes to alter the streambed by installing a 1,100-square foot aluminum and Trex™ fishing pier on South Legg Lake. Twelve, 8-inch diameter precast concrete piles will be installed in the shallows of Legg Lake. The pier will be attached to the shore via a cast-in-place concrete abutment. The operator shall not temporarily impact more than 0.04 acre of open water lake habitat, and shall not permanently impact more than 8 square feet of open water lake habitat. Permanent impacts associated with the proposed project are in an area of open lake water. No native riparian vegetation shall be impacted as a result of the proposed project.	NOE	
2006088178	U.S. Filter Recovery Services Class 1* Permit Modification, (Prior Approval Required) Toxic Substances Control, Department of Los Angeles, City of--Los Angeles U.S. Filter Recovery Services has requested a Class 1* Permit Modification to their Hazardous Waste Facility Permit. The modification amends and modifies the 1996 Part A portion of the permit. The purpose of the modification is to facilitate a merger of the parent company, Siemens Water Technologies Corporation (SWTC) with U.S. Filter Recovery Services. The name of the facility will change to SWTC to reflect the merger. The facilities operations plan and staffing will remain the same.	NOE

	addition, the retail center will have four shops and eight pads of approximately 39,000 sf and 53,380 sf of building space, respectively. The pads may include two drive-through restaurants, one drive-through bank, and one gas station with a drive-through.		
2006062030	Orbit Gas Station Use Permit Sacramento County --Sacramento The project is a request for a Use Permit to reconstruct a primary auto service station in the Greenback Lane Special Planning Area (SPA) Land Use Zone.	EIR	10/04/2006
2006062035	Ojo de Agua Redevelopment Project Amendment Morgan Hill, City of Morgan Hill--Santa Clara The proposed Plan Amendment involves the amendment of the Agency's existing Community Development Plan of the Ojo de Agua Community Development Project to detach territory, increase the Agency's authorized tax increment cap, reauthorize Agency bonding authority, increase the total bond limit for the Redevelopment Project, and reauthorize eminent domain authority on non-residentially occupied properties. The Plan Amendment does not itself implement specific land development. Through the amendment, mechanisms and tools for addressing blight will remain available.	EIR	10/04/2006
2006081109	Sam's Club Retail Center Los Angeles City Planning Department Gardena, Los Angeles, City of--Los Angeles The project involves the subdivision of a 15-acre site into two parcels for a 145,000 square foot retail facility, associated gas station, and 9,600 square feet of freestanding restaurant/retail uses, providing a total of 774 parking spaces in the M2-1VL-O zone. Approximately 300,000 square feet of manufacturing uses would be demolished for the proposed project. Project includes the following discretionary approvals: preliminary parcel map, site plan review findings, commercial corner conditional use permit, conditional use permit for the sale of alcohol for off-site consumption, and general order 88-B from the public utilities commission for the improvement of railroad crossing. Other permits may be required but not limited to the following: Regional Water Quality Control Board (NPDES), the South Air Quality Management District, and various construction, grading, encroachment, and demolition permits.	MND	09/19/2006
2006081117	The Crossing at Anaheim Anaheim, City of Anaheim--Orange The project applicant is proposing to construct 312 for sale condominium units (39 of which would be live/work units), a clubhouse, a fitness center, open space areas, as well as the necessary infrastructure (i.e., streets, utilities, etc.) on approximately 5.2 acres of land. 2006082097	Parcel Map #06-05, Dean Montero Tehama County Planning Department Corning--Tehama To create six parcels; two parcels of 40.0 acres, one parcel of 46.3 acres, one parcel of 46.1 acres, one parcel of 40.29 acres and one parcel of 47.1 acres in an EA-AP; Exclusive Agricultural - Agricultural Preserve Zoning District.	MND	09/19/2006
2006082100	Lundbar Hills, Unit No. 6 Eureka, City of Eureka--Humboldt The applicants have submitted a Vesting Tentative Map for a major subdivision of 19.2 acres, resulting in 56 parcels and a remainder. The lots range in size from 6,500 square feet to 49,400 square feet. The lots will be served by the extension of Lundblade Drive and Dickson Drive. Lundblade Drive will be extended and improved to the south boundary line of the property to provide access to adjacent parcels and eventually a second access for Lundbar Hills. Approximately 12.3 acres of previously logged land will be cleared for roadway construction and building site preparation. Approximately 250,000 board feet of timber will be removed. The applicants are also requesting approval of a conditional use permit to allow the timber harvesting prior to issuance of building and/or grading permits. The applicants have decided to request approval of a vesting tentative map in order to secure development rights as provided in Section 66498.1 of the Government Code. Under current market conditions the subdivision should be fully developed with residences over a time span of a few years. A significant downturn in the economy, however, could delay full development by several years. A vesting tentative map will set development conditions that can be relied on if development is delayed for several years. The remainder parcel includes land that is hillside, sloping down from the subdivision property, and nearly level land that is a valley floor. This land cannot be accessed from the subdivision without difficulty. Access from Fairway Drive is relatively simple, through adjacent land owned by one or more of the applicants. If the remainder is ever to subdivide or developed with a residence, access would be from Fairway Drive. The subdivision requires a variance to allow Lot 170 to have a reduced lot depth of approximately 80-feet where the Code requires 100 feet; the parcel size of 7,826 sq. ft. will exceed the minimum lot size of 6,000 sq. ft. In addition, the project includes a lot line adjustment to take approximately 4,660 sq. ft. from APN 301-031-039 and add it to 301-281-038.	MND	09/19/2006
2006082105	Parcel Map 06-25, Kris Gow-Peters Tehama County Planning Department --Tehama To subdivide an existing 144.14 acre parcel and create 3 parcels, a 40.0 acre parcel, a 42.5 acre parcel and a 50.2 acre parcel.	MND	09/20/2006
2001092044	Glen Cove Waterfront Park Greater Vallejo Recreation District Vallejo--Solano The fifteen-acre project site is bordered by Carquinez Strait on the south, and residential neighborhoods on the surrounding hills to the west, north and east, is primarily undeveloped, but contains two houses, access roads, and a sewer pump station. The Glen Cove Waterfront Park Master Plan would re-contour the western portion of the site to more natural topography, remove invasive plant species and planting native grass, wildflowers, trees and shrubs, place natural stone shoreline	NOP	09/19/2006

	protection along two portions of the site, demolish the Stremmel main house and protect archeological resources on the site from disturbance during demolition and thereafter by placement of a layer of soil over the area, improve some existing service roads and informal trail routes, remove and revegetate some other existing roads, and install a 15-car parking area, a single restroom, and a small number of individual picnic tables and benches.		
2006081110	Commons at Madera Fair Madera, City of Madera--Madera The project includes an application for City Annexation, Plan Amendment (including Specific Plan No. 1), Rezoning and Subdivision to develop a maximum of 310,000 square feet (SF) of retail and other commercial uses on approximately 32 acres within the existing Madera District Fair property. The fairgrounds will continue to operate in much the same manner as before after relocating its parking lots to the southwest and northeast sections of the Property.	NOP	09/19/2006
2006081111	Madera Promenade Commercial Development Project Madera, City of Madera--Madera The project includes an application for City Annexation, Plan Amendment and Rezoning to develop a maximum of 750,000 square feet (SF) of retail and other commercial uses on approximately 98 acres.	NOP	09/19/2006
2006081113	City of Lemoore General Plan Update Lemoore, City of --Kings The City of Lemoore has initiated a comprehensive update of its General Plan (excluding the Housing Element), which is an opportunity for community members to explore long-term goals and development for the City. The State of California requires every city and county to have a comprehensive General Plan that serves as a constitution for long-term physical development. The Plan identifies current and future needs in areas such as land use, housing, transportation, public services, and environmental quality. The General Plan Update will outline a comprehensive range of policies related to Lemoore's growth and conservation. The Update offers the Planning Commission and City Council an opportunity to establish the City's priorities related to growth through development of key infill sites, cross-town connectors, neighborhoods, and activity centers. A public participation process will provide opportunities for community input, and a General Plan Update Advisory Committee will work with City staff and the consultant team throughout the process. The new General Plan will serve as the framework for the City's Capital Improvements Program (CIP), any needed changes to zoning and other implementing ordinances, annual budget, and operations and maintenance activities.	NOP	09/19/2006

2006082096	Sonoma Transfer Station Permit Revision Sonoma County Sonoma--Sonoma The Sonoma Transfer Station accepts mixed municipal Class III solid waste, commercial and residential demolition debris, yard waste, and recyclable materials. The County is out-hauling all solid waste generated within the county to out-of-county landfills. Some of the destination landfills have extended hours in which they accept waste. To improve the efficiency of this out-hauling, and improve the flexibility of the out-hauling process, the County proposes to revise the current Solid Waste Facility Permit from the California Integrated Waste Management Board. The revision to the permit will allow the contract operator access to the site for processing, compacting, loading transfer trailers, and out-hauling solid waste from the facility to 24-hours a day, seven days per week (adding 11.5 hours to what is currently allowed for this activity). No waste of any type will be accepted during these extended hours. Waste will be accepted only during current public hours of operation (7 am to 4 pm). These extended hours will improve the overall operational efficiency of the facility over the long term.	Neg	09/19/2006

1991103064	PA#00-029 Cisco Systems, Inc. Campus Office Complex Dublin, City of Dublin--Alameda Grafton Station is located within the Eastern Dublin Specific Plan area in Dublin Ranch Planning Area H. On March 21, 2000, the Dublin City Council approved a Stage 1 Development Plan which rezoned the property and established a development plan for Area H. The City Council also approved a Mitigated Negative Declaration for the project at that time (referred to as the 1999 MND for Area H). The City Council adopted an Ordinance on August 16, 2006 which amended the Stage 1 Development Plan. The amendments to the Stage 1 Development Plan require environmental review due to the increase in gross acreage of the site (which results in an increase in the allowable floor area of the site). The increase in acreage allows an additional 25,059 square feet of commercial space to be constructed on the site.	NOD	
1996052013	LELAND ROCK AGGREGATE EXTRACTION PERMIT Humboldt County The Project proposes commercial gravel extraction operations, impacting the Van Duzen River, tributary to the Eel River.	NOD	
1998112001	Vintana Subdivision Windsor, City of Windsor--Sonoma As part of the project, a portion of the west bank of Starr Creek, near Starr Road, will be stabilized and sections of stream bank will be restored. A sewer line and water lines will be installed under the creek. Outside the creek channel, 0.48 acre of seasonal wetland will be developed to mitigate wetland. Extension of the Starr Road bridge abutments will occur above the level of ordinary high water in Starr Creek. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0113-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Ryder Companies.	NOD	
1999072034	Copeland Creek Restoration Project Sonoma County Water Agency Santa Rosa, Rohnert Park--Sonoma The project is the restoration of a reach of Copeland Creek between Roberts Road and Pressley Road, East of Rohnert Park, Sonoma County. This area is part of a stream restoration project that began in 1999. Completed projects include the recontouring and stabilization of 2,500 feet of creek, planting of 4,000 native plants, and construction of over 7,000 feet of fence to exclude cattle and vineyard operations. The "New Years Eve" flood of December 31, 2005 caused damage to approximately 780 feet of stream bank. Repair and maintenance tasks will include removing concrete rip-rap, recontouring the banks to a more stable profile, installing erosion control fabric, protecting the banks with willow sprigs, and revegetation with native plants along the upper banks. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0296-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Sonoma County Water Agency. 2006089048	Foster Farms Reclamation Fields Project Livingston, City of Livingston--Merced The project applicant proposes to add four reclamation fields to the Foster Farms main plant in northern Livingston. The reclamation fields would receive treated wastewater from the City of Livingston Industrial Wastewater Treatment Plant (IWWTP). The Foster Farms plant sends wastewater generated by its industrial processes to the IWWTP, which treats the wastewater and discharges it to two treatment ponds. Pumps send the effluent from these two ponds back to the plant site, where it is applied to existing reclamation fields and allowed to percolate into the soil. Waste Discharge Requirements (WDR) Order No. 93-091, issued by the Central Valley Regional Water Quality Control Board (RWQCB), allows a maximum discharge of 2.4 million gallons per day to Foster Farms' reclamation fields. The existing reclamation fields cover approximately 94 acres.	NOD	
2006089049	CUP #2005-02 & Parcel Merger #2005-08/ Carrera Inyo County Planning Department --Inyo A Conditional Use Permit for a roping/rodeo area on a 5-acre site located in the Charleston View community. Arena usage will be for both private use and for Special Event (public) use.	NOD	
2005112075	American Vineyard Village (PEIR T20050276) Placer County Planning Department Roseville--Placer Site remediation including contaminated soil excavation (300 cubic yards), removal of a black Walnut tree (#708, 16 1/2" dbh), and soil sampling.	NOE	
2006088179	Steep Trail Erosion Control, Red Rock Canyon SP (06/07-IE-03) Parks and Recreation, Department of --Kern An eroding slope will be stabilized to protect resource values.	NOE

	from main line to IID El Centro Generating Station, and construction of Blythe Energy Interconnect Lateral Facilities.		
2003041073	Amendments to the Amended and Restated Redevelopment Plan for the Merged Central Business District and West End Projects Azusa, City of Azusa--Los Angeles The purpose of the project is to extend the authority of the Agency to commence eminent domain proceedings to acquire specific properties within the Central Business District and West End Project Areas. The Agency's renewed eminent domain authority would take effect only as a last resort and after meeting all legal requirements. The Agency can exercise its eminent domain authority for a period not to exceed 12 years.	Neg	09/21/2006
2006082107	05-090 (Lanza) Sutter County Community Services District --Sutter A tentative subdivision map to create five lots. Parcel 1 will be 3.45 acres; Parcel 2 will be 3.46 acres; Parcel 3 will be 2.95 acres; Parcel 4 will be 8.29 acres; and Parcel 5 will be 9.63 acres. The property currently contains a rice storage building, caretaker unit which will be located on proposed Parcel 1, and a scale building which will be located on proposed Parcel 5. All proposed parcels have frontage on either Southridge Road or Agripark Road. The property is located in the FPARC (Food Processing, Agricultural and Recreation Combining) District which is intended for food processing and associated industries. FPARC was created by a county-wide vote in 1982 and the regulations can only be modified by a county wide vote. FPARC is not located in the Sutter Buttes Overlay Zone and is not subject to design review standards.	Neg	09/21/2006
2006082108	Wheeler Lot Line Adjustment (LLA-05-25) Humboldt County Community Development Services --Humboldt LLA between 5 separate legal parcels resulting in 4 parcels total. The LLA will slightly increase one of the AE parcels and create a more sensible boundary by moving one line to follow a creek. The LLA will effectively merge 2 smaller nonconforming parcels into 1 more conforming parcel. One of the parcels is currently developed with a residence. Soil suitability and water quantity test results have been submitted. These 5 parcels were recently recognized under DS-04-18.	Neg	09/21/2006
2006082111	Dunsmuir General Plan Update Dunsmuir, City of Dunsmuir--Siskiyou This minor update of the City of Dunsmuir General Plan serves to maintain consistency with the 1985 General Plan, while at the same time bringing the General Plan up-to-date with current City goals. In many cases, the updated General Plan incorporates new policies and implementation measures that will provide additional direction for, or mitigate potential impacts from, future development projects. The important changes to this General Plan are: 1) Creation of a general plan land use map for the City; 2) Inclusion of development standards for hillside lots; 3) Programs to protect and enhance open space and scenic vistas;	Neg	09/21/2006

ladder to allow fish passage past human made instream obstructions. Rock debris in creek will be retained on site outside of the active creek channel. Remove earthen dams and restoration of creek banks thereby eliminating a continued source of sediment, removal of a fire road culvert and installing a 50' clear span creek crossing bridge. Realign Mitchell Canyon fire road where road delivers sediment directly to the creek, removal of Mitchell Creek fire road graded soil berms which concentrate flows and discharge sediment loads into Mitchell Creek. Revegetation of riparian vegetation including plantings of willow and blue elderberry. If any archaeological resources are found during project implementation work will be halted and the district archaeologist will be contracted. Rock debris in the creek will be retained on site, although it may be slightly relocated to provide better stream flow. Preconstruction rare plant and animal surveys will occur prior to any construction. Impacts to Alameda Whipsnake and rare plants will be avoided through the use of preconstruction surveys, construction worker training, and biological monitoring during all phases of construction. Work will be conducted outside the bird breeding season if any nests are found to be within 250 feet of the construction area.

2006088245

Automated Park Fee Pay Stations
Parks and Recreation, Department of
--Butte

NOE

Automated Fee Pay Stations will be installed at entrances to Bidwell Canyon Unit, Spillway Unit, Lime Saddle Unit, Loafer Creek Unit and North Forebay Unit. Pay Stations will be attached to existing entrance stations or as self-standing stations in a paved parking area, requiring trenching for electrical power. Installation will be consistent with the guidelines in California Department of Parks and Recreation (DPR)'s Manual for ADA Parking and ATM Accessibility. No known archaeological sites exist in the proposed footprint; however, should the project result in identifying potentially significant archaeological resources, work will cease until the find is evaluated and, if significant, an appropriate data treatment program is designed and implemented. All such cultural resource management activities will be conducted by or under the supervision of a DPR-qualified archaeologist.

Creek Side Homes Annexation and Zoning Modification
Arcata, City of
Arcata--Humboldt

EIR

10/10/2006

The project site is made up of a single parcel that is within the City of Arcata Sphere of Influence. The site (APN 505-161-011) is proposed for residential uses. The project site is within the Urban Services Boundary of the City of Arcata, and has been pre-zoned for Residential Medium Density (RM) use by the City. The proposed subdivision would split the parcel into individual lots. The new subdivision would include 151 dwelling units (DU) with a mix of housing types. The Creek Side Homes project proposes residential development, a common house, and open space.

<u>Documents Received on Thursday, August 24, 2006</u>			
2006081131	Indio-Jackson Retail Center Indio, City of Indio--Riverside The project consists of development of a commercial retail center with 10 major retail pads and smaller pads for development of commercial shops, restaurants, banks, and other retail uses on 56 acres. The proposed project involves construction of 492,500 square feet of floor area along with associated parking and landscaped areas. The proposed project approvals are anticipated to include a design review permit, a tentative parcel map, and a conditional use permit to allow the proposed retail uses in the City's Business Park zone.	NOP	09/22/2006
2006081134	Millikan and Barranca Irvine, City of Irvine--Orange The project will result in the demolition of 100,282 square feet of office, warehouse and industrial use to allow for the development of 250 dwelling units housed in two four-story structures on approximately 5.22 acres. A transfer of development rights is required from another location within the IBC so that the maximum trip budget established within the IBC is not exceeded.	NOP	09/22/2006
2006081135	Village of Porto Romano Lake Elsinore, City of Lake Elsinore--Riverside The proposed project includes a Specific Plan, General Plan Amendment, Zone Change and Tentative Map for a 145-acre master planned community that includes housing, a pedestrian-oriented mixed-use Village Center, public parks, roadways, and landscaped open spaces. The site will provide approximately 1,860 housing units in a variety of styles at an average density of 13 gross dwelling units per acre (du/ac). The Village Center will include approximately 100,000 square feet of neighborhood business and retail opportunities in a Village Center setting around a Central Park. Other support facilities include a community center, four community parks, neighborhood mini-parks, and a localized trail system that will serve the Village of Porto Romano community.	NOP	09/22/2006
2006082118	Winter 2006 General Plan Amendment - Quintana - GPA 3-04/05-12 Plumas County Planning Department --Plumas General Plan Amendment to rezone 46.86 acres from Agricultural Preserve to Limited Opportunity, Rural and R-20 zoning.	NOP	09/22/2006
2004121133	CUP and CDP 04-038 Los Angeles County Department of Regional Planning --Los Angeles Application for a CUP and CDP to continue the on-going operation and maintenance of an existing ranch with consultation housing as previously approved under CUP and CDP 94-125, and to retroactively permit an existing fuel facility within the ranch. In addition, the CUP and CDP will allow the removal of the existing 2,000 gallon underground fuel storage tank and to install a new 2,000 gallon above ground fuel storage tank at the same location. One gasoline and one diesel fuel pump will be mounted on the face of the proposed above-ground storage tank. This fuel facility is for private use and will be unmanned. There will be an average of one fuel delivery truck trip every three weeks. Once the existing underground fuel tank is removed, approximately 35 cubic yards of materials will be imported to balance the site. Operating hours will be from 7am to 3:30pm.	Neg	09/22/2006

2006042139	Casali Parcel Map Subdivision PMS-05-29/SP-05-96 Humboldt County Planning Department --Humboldt A minor subdivision of an approximately 120 acre parcel into three parcels of approximately 40 acres each. The property is currently developed with a single family residence and on-site wastewater treatment system that will be situated on Parcel 2. Also included in this project is a Special Permit to allow for an existing road, which crosses a streamside management area, to serve as a driveway accessing proposed parcel 3. All 3 parcels will receive water from an existing deeded spring area on an adjacent parcel. Proposed parcels 1 and 3 each have existing 2,500 gallon water storage tanks, and would be served by on-site sewage disposal systems. Access to all three parcels will be via a proposed 50' wide access easement to Briceland-Thorn Road across APN 220-091-25, which is also owned by the applicant.	NOD

2006062105	Reduction of Wetland Setbacks for a Residential Building Humboldt County Community Development Services Blue Lake--Humboldt A Special Permit to reduce the required 100 foot wetland buffer setback requirements to approximately 68 feet for the placement of a single family, and to allow for timber removal within the wetland buffer setback. The parcel is currently developed with a single family residence and detached garage. These structures will be demolished and the new building envelope will partially overlap that of the existing structures. The existing garage is setback 68 feet from the wetland at the closest point. The proposed new residence will maintain this setback. The residence will be built with a 6,910 square foot building envelope. The applicant proposes to remove 26 trees adjacent to the building envelope. Water is provided by an on-site well. On site septic will be developed. Minimal grading is required. The development of an easement for ingress and egress to service the adjacent parcel to the north is currently proposed under application SP-05-70.	NOD

<u>Documents Received on Friday, August 25, 2006</u>			
2006089062	Washington Street Commons Calistoga, City of Calistoga--Napa The operator proposes to develop the parcel and fill in a back channel on the Napa River. The swale will be filled in and the riparian vegetation will be removed. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0191-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Jason Janes / Rossi Development.	NOD	
2006089065	Ord Market Lease and Use Permit Monterey County Housing and Redevelopment --Monterey The Redevelopment Agency of Monterey County is considering entering into a lease with the operator of the existing Ord Market, located on a 3-acre site at the corner of Injim Road and Abrams Drive on the former Fort Ord. The proposal involves re-opening a gas station and car wash that were previously in operation on the site. Physical improvements will consist of re-installing two underground tanks, gas pumps and equipment associated with the car wash operation. A gas pump canopy, islands and a car wash structure are currently existing on the site and will be reused.	NOD	
2006089066	Del Valle Tentative Subdivision Map, Project #TSM 2005-04 Livingston, City of Livingston--Merced Del Valle Homes is proposing a vesting tentative map to subdivide a 38.2-acre parcel (APN #047-280-003) into 146 single-family residential lots. Low Density Residential zoning allows for a density of up to 7.5 dwelling units per gross acre. The proposed project would provide 146 dwelling units on 38.2 acres, which will be a density of 3.8 units per acre.	NOD	
2006088259	Install Paved Approach Caltrans #2 --Shasta Caltrans is proposing issuance of an encroachment permit, application number 0206-6RS-0294, to install a paved approach on SR-299 at the south end of the community of Johnson Park. The road connection will be located on the west (north) side of the highway and will be constructed in accordance with Caltrans' Type "D" specifications for road connections. There is currently a dirt access road at this location for a power utility easement. This road will serve as a fire emergency access/exit for a residential development.	NOE	
2006088260	Pavement and Drainage Repair Caltrans #2 --Trinity Caltrans will repair pavement and drainage systems damaged by the movement of the Fawn Lodge Slide on SR-299. The slide has continued to shift downhill toward Grass Valley Creek and has caused a separation of a metal culvert that crosses the highway (which created a depression in the pavement), a hump in the pavement of the highway, and the separation of an overland flexible pipe drain system. If the culvert separation is not repair prior to the next rain season major road failure is expected. The existing 24" diameter culvert will be repaired by inserting a 20" diameter polyethylene pipe inside it and filling the annular space between the two with grout material. Once the new pipe is installed the excavated material will be returned to the ditch. The pavement repair will include digging out	NOE

	the humped and depressed asphalt concrete (AC), removing or adding base to match surrounding levels, and replacing the AC. The overland system is a 1,500' section of flexible 5" diameter pipe with snap together couplings that have separated. This pipe will be removed and replaced by 2" diameter pipe with positive connections.		
2006088261	Stabilize Steep Embankment Caltrans #2 --Siskiyou Caltrans in coordination with the Federal Highway Administration is proposing to stabilize a steep embankment slope along SR-96 at PM 28.4 located west of Happy Camp in Siskiyou County. The slide at this location has been the site of a previous rockslide problem earlier this year that sent significant amounts of rock down onto the road, causing closure of the highway for many hours.	NOE	
2006088262	Widen Lanes Caltrans #2 --Lassen Widen the existing 10' lanes to 12', add 4' shoulders and modify the existing super elevation to the 12 percent standard. The project will replace an existing 14" culvert at PM 3.9 with a 24" culvert, and extend the existing 48" culvert (PM 4.0) at both the inlet and outlet locations to accommodate the roadway widening. Tree removal will be limited to the minimum necessary to complete the project. No permits will be required for the project work.	NOE	
2006088263	Failed Slope Caltrans #2 --Butte Caltrans will repair a failed slope at a disposal site and stabilize the slope below the disposal location. Caltrans has been issued a Notice of Violation by the RWQCB for a discharge of materials from the site into waters of the State. The slide material will be returned to the disposal site, where possible, and stabilized in place where necessary. The material will be removed from the unnamed tributary to the North Fork of the Feather River and the drainage slopes will be stabilized. Rock stabilization (RSP) will be utilized on steep grades, where it is not possible to stabilize using vegetation and erosion control.	NOE	
2006088264	Dublin San Ramon Services District, Reissuance of Waste Discharge Requirements Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Pleasanton--Alameda Waste Discharge Requirements to regulate the discharge of treated municipal wastewater to Lower San Francisco Bay.	NOE	
2006088265	Diamond Mountain Creek Foundation Stabilization Fish & Game #3 Calistoga--Napa The operator proposes to restore the stone wall at the footing of the residence located on Diamond Creek at 1315 Diamond Mountain Road, Calistoga, Napa County. The existing wall washed out during the New Year's storm. The stones that fell out of the wall will be recovered and anchored back into the wall to protect the foundation of the residence. Also, the banks downstream will be stabilized. The stones will be anchored and mortared. Issuance of a Streambed Alteration Agreement Number 1600-2006-0464-3 is pursuant to Fish and Game Code Section 1602.	NOE

2006088266	Silverado Vineyards Riparian Restoration Fish & Game #3 Yountville--Napa The operator proposes to conduct riparian restoration project along 1,300 linear feet of Hopper Creek and 860 linear feet of Beard Ditch in Yountville, Napa County. The project will remove non-native species along the creeks and plant native riparian species to provide habitat for fish and wildlife. Two willow wattles will be installed along a 60-foot and 80-foot section of creek. Issuance of a Streambed Alteration Agreement Number 1600-2006-0164-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006088267	Municipal Service Review (MSR) for the City of Oakdale Stanislaus County Local Agency Formation Commission Oakdale--Stanislaus A Municipal Service Review (MSR) has been prepared for the City of Oakdale, which is a full-service city providing urban services within its corporate limits. The MSR evaluates the public services provided by the City (e.g., water, sewer, police and fire protection) and provides the information base for updating the City's Sphere of Influence. The Cortese-Knox-Hertzberg Act of 2000 calls for a MSR to be completed prior to or concurrent with a Sphere of Influence (SOI) Update.	NOE	
2006088268	Thibodo Park Urban Reforestation Vista, City of Vista--San Diego The project consists of the planting of approximately 75 new native trees within the existing park boundary to replace eucalyptus trees that were removed in summer 2006 due to disease.	NOE	
2006088269	Gold Country Parole Office Corrections and Rehabilitation, Department of Diamond Springs--El Dorado The California Department of Corrections and Rehabilitation, Division of Adult Parole Operations, proposes to lease approximately 7,000 square feet of existing office space for the Gold County Parole Office.	NOE	
2006088270	Houston Canal and Italian Slough Levee Maintenance Repair Project Water Resources, Department of Byron--Contra Costa Approximately three sites, stretching about 80 linear feet, have eroded along the south side of Houston Canal. Approximately 15 sites measuring about 210 linear feet are in need of repair along the east levee of Italian slough. The lead engineer has highlighted four sites of urgency among these sites. This urgency suggests that the levees have a high risk of failing with the upcoming storm events.	NOE	
2006088271	City of Livermore Water Reclamation Plant, Reissuance of Waste Discharge Requirements Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Livermore--Alameda Waste Discharge Requirements to regulate the discharge of treated municipal wastewater to Lower San Francisco Bay. 2006082131	Vesting Tentative Map and Rezone (SD 04-01; Z 04-02), Mountain Properties Subdivision Shasta Lake, City of Shasta Lake--Shasta The proposed project would subdivide 120.18 acres into 164 single-family parcels. Access would be via two new roadway connections from Lake Boulevard across City-owned property. Construction of the project would alter the drainage pattern by re-grading the site and changing the natural topography and drainage of the area, as well as providing curbs and gutters that will channel storm drainage into three separate stormwater detention basins to be constructed on site. The project includes construction of a sewer lift station south of Pine Grove Avenue east of Ashby Road as well as extension of the sewer line from approximately 1,400 feet east of the Pine Grove Avenue/Ashby Road intersection, crossing over Lake Boulevard and continuing a distance of approximately 1 mile to the northeasterly section of the property. The applicant will also be required to construct water infrastructure improvements, approximately 1 mile to the northeasterly section of the property. The applicant will also be required to construct water infrastructure improvements, including a 12-inch main to the intersection of Lake Boulevard and Hill Boulevard, a connection to the existing six-inch main to the intersection of Lake Boulevard and Hill Boulevard, and a ten-inch intertie to the six-inch main at the intersection of Hill Boulevard and Ranchera Road. The subdivision also requires extension of the 12-inch main up Lake Boulevard to the upstream side of the Existing Pressure Reducing Station near the intersection of Buckeye Street and Lake Boulevard. The IS considers environmental impacts resulting from off-site improvements as well as development within the boundaries of the subdivision.	MND	09/26/2006
2006082134	Tassafaronga Village Oakland, City of Oakland--Alameda The proposed project is the rehabilitation of an existing public housing project and conversion of a vacant manufacturing building into housing. The project would result in the demolition of 16 residential buildings containing 87 housing units. The site would be redeveloped with 191 residential units, including 77 rental townhomes; 22 for-sale townhomes priced at affordable levels; 60 rental apartments; and 32 loft units in a rehabilitated manufacturing building. The project would also reconfigure streets within the project site to improve traffic flow and reconnect the housing development to the surrounding neighborhood.	MND	09/16/2006
2005012127	The Whispering Oaks Lincoln, City of Lincoln--Placer The proposed project would develop 112 single-family residences, a 5.14-acre neighborhood park and two open space parcels of 0.30 and 0.45 acres each. The residential lots would range in size from 2,065 to 4,346 square feet. Homes would range in size from 1,001 to 2,090 square feet.	NOP	09/26/2006
2006081144	City of Long Beach Enterprise Zone Long Beach, City of Long Beach--Los Angeles The City of Long Beach proposes to redesignate and expand the City's current Enterprise Zone (EZ). The current EZ, which covers approximately 26.5 square miles, was established in 1992 and will expire in January 2007. Establishment of the new EZ is intended to benefit and retain existing businesses while attracting	NOP	09/26/2006

	new businesses to the area. For purposes of environmental review under CEQA, it is important to note that establishment of a new EZ would not entitle any projects or include any development proposals. To the extent that implementation of the proposed EZ accelerates economic recovery in the area, associated growth and development would continue to be controlled and guided by the City General Plan, zoning, and other applicable plans and regulations.		
2006082130	Northern Sacramento Enterprise Zone Sacramento Housing and Redevelopment Agency Sacramento--Sacramento The proposed project is the adoption of a Northern Sacramento Enterprise Zone. The enterprise zone encourages industrial and commercial development on vacant and underutilized industrial and commercial lands, and provides incentives to existing businesses. The enterprise zone is linked to what is called an eligible area, which is an area that may have higher than usual unemployment and poverty rates or low per capita household incomes compared to the rest of the region.	NOP	09/26/2006
2006082133	John Muir Medical Center Project Concord, City of Concord--Contra Costa Construction of a Hospital and two medical office buildings; landscaping and lighting, access and parking changes, signage and upgrading utilities, and constructing a helipad. Adoption of a new Master Plan, a General Plan Amendment, and rezoning. Development in three phases over a period of 25 years.	NOP	09/26/2006
2005082018	GPA 2005-09, CPA 2005-02, REZ 2005-09, TM 2005-05 - Park View Estates Stanislaus County --Stanislaus This is a request to amend the Stanislaus County General Plan, the Salida Community Plan and rezone a 0.86 acre parcel. The Salida Community Plan Designation for the site is now Agriculture. The proposal is to change the General Plan from Ag (Agriculture) and the zone from A-2-40 (General Agriculture) to PD (Planned Development). The applicant's wish to create six new parcels by Vesting Tentative Subdivision Map, both of which would be consistent with all three of these designations. The parcels will be 4,649 to 4,252 square feet in size. The existing home will be removed. All new parcels will front on a County maintained road. The project will be connected to the City of Modesto Water (Del Este) and sewer will be provided for by the Salida Sanitary District.	Neg	09/26/2006
2006081146	EA HN 6-05; 1) Zone Change Case 11, Map 144-6; 2) Vesting Tentative Tract No. 6339 Kern County Planning Department Lamont--Kern (1) A change in zone classification from A-1 (Limited Agriculture) to R-1 (Low-density Residential) or a more restrictive district; (2) Vesting Tentative Tract Map 6339. The project site is a 5.24-acre parcel located on the east side of Lenore Street at Top Way and Orvis Way in the Lamont area. The applicant has requested three limited design variations to the Land division Ordinance and a development variation to the Development Standards to allow a centerline radius of 150-feet where 200-feet is required. This is necessary in order to provide a suitable riding surface and to protect the road from any further structural damage. All work is within state right-of-way and no more than 8 feet past edge of travel way. Re-striping will occur in required areas. No bridge work will be done.	NOE	
2006088272	City of South Lake Tahoe Fuel Reduction Project South Lake Tahoe, City of South Lake Tahoe--El Dorado Create defensible fuelbreak on two inner-city public lots totaling 30 acres. Fuel break will be at least 300 feet wide. Horizontal and vertical fuel loading reduced so as to reduce the risk of catastrophic fire. Post-treatment stand shall have at least 10 feet between residual crowns or 20 feet between boles of trees, with average crown-to-base height of at least 20 feet. Post-treatment tree spacing will eliminate sustaining crown fires in the overstory by reducing ladder fuels. Post-harvest stand will result in flame length of less than 2 feet and approximately 100 square feet of basal area per acre. Individual brush plants shall be thinned to a spacing of 1.5 times the height of the remaining plants. All brush shall be removed from within the drip line of all trees. Post-treatment forest stand shall be dominated by larger, fire tolerant trees (16 inches dbh and greater) where surface and ladder fuels are reduced so crown fire ignitions are unlikely. All trees shall be limbed to 12-feet from base so as to remove ladder fuels thereby disrupting vertical fuel continuity. All slash and timber shall be treated by chipping.	NOE	
2006088273	Tentative Parcel Map T06-38 Tuolumne County --Tuolumne Tentative Parcel Map T06-38 to adjust 2,000 +/- square feet from a 0.6 +/- acre parcel to a 0.3 +/- acre lot. The project site is zoned R-1:MX (Single-Family Residential:Mobilehome Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	NOE

NOE	
2006088300	New Construction of Small Structures at Existing Youth Correctional Facilities Corrections and Rehabilitation, Department of Stockton, Lone, Norwalk--San Joaquin, Amador, San Bernardino CDCR plans to install modular trailer units to provide classroom space to address educational deficiencies identified in the Farrell litigation. The modular units are approximately 640 square feet each and approximately 12 feet tall. All the units would be placed within the security perimeter of each of the four YCF sites. Three modular units totaling 1,920 square feet will be installed at O.H. Close and at Preston YCF. Five units will be installed at DeWitt Nelson providing a total of 3,200 square feet and six units will be installed at SYCRCC for a total of 3,840 square feet. The modular units will be located on open space between existing structures within the grounds of each YCF. The small open spaces are disturbed areas that include gravel, bare ground and/or mown grass ground cover. The projected staff increases at DeWitt Nelson would be eight employees, six at O.H. Close, five at SYCRCC and two at Preston YCF. The total ward population at each facility would not exceed the current population levels.	NOE

2006061128	Country Lakes Estates Monterey County Planning & Building Inspection --Monterey The project consists of a Combined Development Permit that includes the following: - A General Plan Amendment to change the land use designation (1) from Rural Density Residential to Low Density Residential on approximately 40 acres of the subject property; - A Zone change (1) from RDR/5.1 (Rural Density Residential, 5.1 acres per unit) to LDR/1/B-6 (Low Density Residential, 1 acre per unit, no further subdivision) on approximately 40 acres of the subject property; - A standard subdivision vesting tentative map to divide two properties totaling 92 acres into 52 market-rate single family parcels ranging in size from 1.0 acre to 5.1 acres and 5 commercial parcels located adjacent to New Pleyto Road. An alternative lot configuration proposed by the applicant would develop 45 market-rate single family parcels ranging in size from 1.0 acre to 5.1 acres and 5 commercial parcels; - A use permit to continue automobile and recreational vehicle storage on all commercial lots; - A use permit for a mutual water system; and - A General Development Plan.	MND	09/27/2006
2006081147	Proposed Elementary School Site Located at Mesa Drive and Eleanor Avenue, Riverbank, Stanislaus County, California Riverbank Unified School District Riverbank--Stanislaus The RUSD has an immediate need to construct a new elementary school (preK-5) to accommodate population growth in the region. The site is located southeast of the intersection of Eleanor Avenue and Mesa Drive. Currently the subject property is composed of 9.18 acres of vacant land. It is anticipated that the proposed school would likely have an eventual student enrollment of about 600 students. This student population will be derived from the influx of homebuyers moving into the RUSD area. Typical school buildings and uses will include classrooms, administrative offices, playgrounds, library, parking (for teachers and staff, visitors), internal circulation roads, and landscaping. The buildings will be one-story, wood and concrete framed buildings.	MND	09/27/2006
2006081152	Site Plan Review SPR-2006-22, GPA-2006-07, & DA-2006-01 Hesperia, City of Hesperia--San Bernardino A Site Plan Review to construct a two-story affordable housing apartment development totaling 67 units on 5.2 acres, a General Plan Amendment to change the designation from Office Professional (OF) to Medium-High density (MH) residential, and a density bonus to allow 13 dwelling units per acre.	MND	09/27/2006
2006082137	Olson Minor Subdivision with Secondary Dwelling Unit Humboldt County Community Development Services --Humboldt A minor subdivision of an approximately 15 acre parcel into two parcels of approximately 10 acres and 5 acres. The property is currently developed with a single family residence and on-site wastewater treatment system that will be situated on Parcel 2. Also included in this project is a Special Permit for the construction of a second dwelling unit on proposed Parcel 2. The applicant has proposed building sites for both a single family residence on proposed Parcel 1	MND	09/27/2006

	and a second dwelling unit on proposed Parcel 2. Both parcels will receive water from a well on proposed Parcel 2 and on-site wastewater treatment system is proposed for Parcel 1.		
2006082138	Bruce Porter Housing Project 24th Street Marysville, City of Marysville--Yuba General Plan Amendment GPA06-01, Zoning Ordinance Amendment ZOA06-02, Tentative Map TM06-11, and Planned Unit Development PUD06-01 for proposed construction of nine individual houses on separate lots on approximately 0.90 acres on the west side of 24th Street, south of Triplett Way, north of Marysville High School, and east of the flood control levee, Marysville, CA.	MND	09/27/2006
2006081148	Eighth Amendment to Include Additional Areas in the Redevelopemnt Plan Area Victor Valley Economic Development Authority Adelanto, Apple Valley, Victorville--San Bernardino Victor Valley Economic Development Authority (VVEDA) has identified 30,236 acres of noncontiguous areas to be considered for addition to the existing 60,518 acre Victor Valley Redevelopment Project Area (established in 1993) by amendment.	NOP	09/27/2006
2006081149	High Desert Gateway Shopping Center Hesperia, City of Hesperia--San Bernardino The High Desert Gateway Shopping Center consists of a total of 395,400 square feet of retail space on 35 acres. Phase 1 includes one larger major retailer (Target) and six unidentified major retailers in an attached configuration. The proposed Target totals approximately 180,000 square feet and the in-line retailers total approximately 129,800 square feet. The remaining retail space is provided in nine stand-alone pads totaling 52,600 square feet. The conceptual site layout arranges the major attached retail buildings parallel to the I-15 freeway with pedestrian access from the west. The retail pads are scattered around the remaining perimeter of the site. The parking for the project is located in the center with two access points off Main Street and four access points off the proposed Cataba Road extension. Phase II consists of the development of 33,000 square feet of retail uses on 3.0 acres located at the southern portion of the project site.	NOP	09/27/2006
2006081150	Rancho Canada Village Monterey County Carmel--Monterey The proposed project consists of a Combined Development Permit for the creation of a new, approximately 281-unit, sustainable mixed-use residential neighborhood. The elements of the design proposal include a mix of "Smart Growth" and "Traditional" neighborhood principles that involve the incorporation of established shopping facilities, schools, open space, and churches. Additionally, the development proposal attempts to meet the need for affordable housing in Carmel Valley.	NOP	09/27/2006
2006081151	Carmel Valley Master Plan Monterey County --Monterey The County of Monterey will prepare a Subsequent Environmental Impact Report (SEIR) for the Carmel Valley Master Plan. The propsoed EIR will evaluate the traffic impacts of the CVMP and refine the traffic analysis contained in the December, 1991 CVMP EIR. The EIR shall also integrate the environmental	NOP	09/27/2006

	effects of the CVMP circulation and land use elements, so the transportation impacts of growth can be presented in both descriptive and economic terms.		
2006081153	Occidental College Master Plan Los Angeles City Planning Department --Los Angeles Occidental College is proposing a Master Plan for the 120-acre campus. The Master Plan vision for the Occidental College describes an approach to the long-term physical configuration of the campus that would be implemented through a variety of projects that address architecture, landscape, traffic and parking, sustainability, historic preservation, and neighborhood compatibility. These projects are organized under programs that include the renovation of existing facilities, the construction of new facilities, and infrastructure improvements. Some of the expansion and rehabilitation projects would require the demolition of existing buildings (no historic buildings would be demolished). The Master Plan would result in the net addition of approximately 455,000 square feet to the existing approximately 1,150,000 square feet of building area. Additionally, the Master Plan designates zones that would allow the construction of individual projects. The proposed project includes a Development Agreement with the City of Los Angeles. The actions contemplated by this application would not result in an increase in the number of students, faculty, and staff at Occidental College; rather, it would provide much needed and improved facilities such as on campus housing. The proposed changes would not expand any of the academic programs nor the extra-curricular activities offered by the college. The alterations would not increase the number of off-campus visitors to the college nor increase the demand for on-site parking. The plan includes the removal of 390 parking spaces, since there is an excess current and projected parking capacity.	NOP	09/27/2006
2006082139	San Francisco Enterprise Zone San Francisco Planning Department San Francisco--San Francisco On May 28, 1992, certain areas of San Francisco were designated as an Enterprise Zone. The current San Francisco Enterprise Zone is scheduled to expire in 2007. Therefore, the City and County of San Francisco is engaged in the task of completing an HCD Application for Designation of a new Enterprise Zone (the proposed project). Generally, the Enterprise Zone would encompass the eastern part of the City and would include the Bayview, South of Market, Financial and Chinatown districts as well as parts of Visitacion Valley, Potrero Hill, Mission, North Beach, Russian Hill, Civic Center and Western Addition districts.	NOP	09/27/2006
2006082136	Butte Sand and Gravel (PRO #05-027) Sutter County Community Services District --Sutter Modification of two adjacent surface mines to operate as one facility, amendment of the reclamation plan for both mines, and amendment of the mining permit for one mine on approximately 320 acres. 2006082142	Gateway Towers Sacramento, City of Sacramento--Sacramento The proposed project consists of entitlements to subdivide the project site into two parcels. One parcel includes construction of one twelve-story 352,866 square foot building, consisting of 331,970 square feet of office and 20,896 square feet of support commercial, and the second parcel includes construction of a 175-room hotel in the future on approximately 19 acres in the previously approved Natomas Corporate Center PUD.	Neg	09/27/2006
2004032118	Bear River and Western Pacific Interceptor Canal Levee Improvements Project Reclamation District 784 --Yuba Levee improvements including seepage berms, relief wells, slurry walls, waterside erosion control, levee raising, levee rebuilding, and relocation of a pump station. A seepage berm along the landside of the upper Bear River levee east and west of SR-70, was added as a new component to the project.	NOD	
2006071085	Anaheim Resort Specific Plan No 92-2 Amendment No. 7 Anaheim Resort Residential Overlay Anaheim, City of Anaheim--Orange The project involves a General Plan Amendment (GPA No. 2006-00442) and an amendment to the Anaheim Resort Specific Plan No. 92-2 (SPN No. 2006-00036) to allow for development of residential uses in conjunction with visitor-serving uses within two targeted areas of the Anaheim Resort Specific Plan. This would be established through the establishment of a residential overlay for Sites A and B. Allowable development densities for the two project sites would be limited to what would produce an environmental equivalent to the previously adopted maximum entitled hotel density of each parcel.	NOD	
2006072097	Jarvis-South Valley Developers (Madrone Plaza) Morgan Hill, City of Morgan Hill--Santa Clara The project proposes to rezone the site from R-3 Medium Density Residential District to Planned Unit Development (PUD) and construct a maximum of 229 multi-family residential units on an approximately 16-acre site. The proposed project will also extend Jarvis Drive from Butterfield Boulevard to Monterey Road.	NOD	
2006089067	Angora Creek Stream Environment Restoration Zone Project El Dorado County --El Dorado In April 1998, the Conservancy Board approved an acquisition grant of \$86,350. In December 2000 the Conservancy Board approved a \$165,000 planning grant for this project, and a planning grant augmentation of \$80,000 in March 2003 to further assist in planning a stream restoration project. The project will include channel reconstruction, bioengineered bank stabilization, riffle pool construction, reestablishment or creation of fish and wildlife habitat, debris removal or redeployment, and revegetation and stabilization of soil areas. The purpose is to restore stream function and improve riparian and aquatic habitat. Restoring the creek to a more stable channel with access to its floodplain should provide substantial water quality and wildlife benefits.	NOD

	California Register of Historic Resources.		
2006088312	SS Palo Alto Imminent Threat Response Fish and Game (OSPR), Department of --Santa Cruz CDFG/OSPR is conducting an imminent threat response in accordance with Government Code Section 8670.62(c) to address the imminent threat to the marine and coastal environment associated with the SS Palo Alto at Seacliff State Beach, Aptos, CA. OSPR has identified oil trapped in the tanks of the ship as the source of wildlife oiling since 2004. Additionally, the ongoing significant deterioration of the ship through time and exposure to weather and surf poses the risk of an oil spill.	NOE	
2006088313	Transfer of coverage to Placer County APN's 92-120-13 and 44 (Hughes) Tahoe Conservancy --Placer Project consists of the sale and transfer of 309 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006088314	Irrigation System Installation and Landscape Rehabilitation Parks and Recreation, Department of --Sonoma Install a sub-surface irrigation system for the front lawn and flower beds at the Silverado Sector Office at Sonoma State Historic Park to maintain the landscape. Irrigation system will consist of subsurface horizontal 1/2" polyethylene tubing installed no deeper than 6" in depth. Sprinkler heads will be installed in existing flower beds and along perimeter of building 18"-24" away from the base of the buildings. Irrigation installation will be followed by landscape rehabilitation.	NOE	
2006088315	Lake Perris State Recreation Area - Modification of ADA Accessible Fishing Pier in 2006 Water Resources, Department of, Division of Engineering Moreno Valley, Perris--Riverside The Lake Perris water surface elevation was reduced in the fall of 2005 approximately 25 vertical feet as a result of recently discovered dam seismic safety concerns. Because the lake will be maintained at this lower level for an undermined but extended period of time, there is a need to relocate the existing ADA-accessible fishing dock approximately 200 feet horizontally towards the lake to restore in-water fishing access. 2006081160	Water Well - Application #C-06-190 Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C-06-190 requests authorization to construct and operate a new City Water Well Pump Station No. 356 on an approximately acreage of 6.28 (which is a portion of a larger acreage) located on between North Bryan and North Grantland Avenues; south of Shaw Avenue. The project will consist of drilling and the operation of a city water production well, installation of an iron and manganese filtration system and granulated activated carbon and vessel treatment system, fence, landscaping, and site improvements.	CON	09/05/2006
2005012037	Rockville Trails Estates Residential Subdivision Project Solano County Fairfield--Solano Proposed project includes 370 single-family units. The western portion is divided into 356 single-family units with one acre lot size and open space parcels. Lots are clustered in neighborhood pods along primary looped roadway. The eastern portion is divided into 14 agricultural and residential 20 acre lots. Project has open space and trails that link with existing trails and waste water treatment plant.	EIR	10/16/2006
2005101125	Ambassador West Pasadena, City of Pasadena--Los Angeles The project site contains approximately 19.72 acres and is bounded by Orange Grove Boulevard on the west, Green Street on the north, and Del Mar Boulevard on the south. The project seeks entitlement to develop 248 new senior living units and 70 condominiums, as well as to preserve and convert existing structures for 46 apartments, 25,734 square feet of institutional support uses, 7,834 square feet of professional office space and one single-family residence. Development would be achieved through preservation, re-use and new construction with goals of preserving open space, respecting the character and scale of adjacent neighborhoods and historic preservation.	EIR	10/16/2006
2005112126	Ballpark Stadium in the Diridon Arena Area San Jose, City of San Jose--Santa Clara The proposed project consists of the development of an approximately 1.5 million square foot major league baseball stadium, a parking structure, and a future commercial development site on approximately 23.1 acres. Maximum capacity of the stadium would be 45,000 patrons. The facility would also contain a combination of retail and restaurant uses either associated directly with the stadium or facilities located on the exterior of the building that provide general or retail or food services. As part of the proposed project, an approximately 420,000 square foot, five-story, 1,200-space parking structure is proposed south of the stadium, south of Park Avenue. A pedestrian bridge crossing Park Avenue would connect the stadium and parking structure. Access to the parking structure would be provided from Park Avenue and South Autumn Street. Montgomery Street between W. San Fernando and Park Avenue would be abandoned, and S. Autumn Street would be realigned to the east to accommodate the proposed project.	EIR	10/16/2006

2005121038	6200 Blvd.; ENV-2005-7118-EIR Los Angeles City Planning Department --Los Angeles The proposed project consists of the removal/demolition of all existing uses on the project site, and the construction of a mixed-use development containing 1,042 residential units, and 175,000 square feet of retail uses.	EIR	10/16/2006
2006041136	Stanton/Crescent Townhome Project Buena Park, City of Buena Park--Orange Construction of up to 64 single-family townhomes, supporting community facilities, and open space.	EIR	10/16/2006
2006082144	Christmas Valley 1 Erosion Control and Stream Environment Zone Restoration Project El Dorado County South Lake Tahoe--El Dorado El Dorado County proposes to construct and maintain conveyance and storm water treatment facilities to address water quality and erosion issues in the project area. In addition, the County will also be utilizing the conveyance structures and other designs to direct erosion issues in the project area. In addition, the County will also be utilizing the conveyance structures and other designs to direct run-off to stream environment zones to restore the disconnected hydrology of the area and provide additional treatment. Both projects are considered environmental improvements as documented in the 2004 Lake Tahoe Environmental Improvement Program.	MND	09/29/2006
2006082146	Public Storage Expansion Berkeley, City of --Alameda The project proposes to demolish three of the existing, one-story, mini-storage buildings totaling 28,970 square feet at the north-end of the property and construct a new four-story, 45 foot high public storage building totaling 95,771 square feet.	MND	09/29/2006
2006081154	San Gabriel River Discovery Center San Gabriel and Los Angeles Rivers & Mountains Conservancy El Monte--Los Angeles The Discovery Center project consists of a new building and site construction on approximately 8.1 acres within the Whittier Narrows Recreation Area. The primary project features include a main building, parking lot, maintenance building, open air classroom, constructed wetland, covered outdoor classroom, and connecting pathways from these locations. The existing Whittier Narrows Nature Center would be demolished in order to construct the Discovery Center main building. The new one-story, approximately 18,230-square foot building would be located on the western portion of the project site along Durfee Avenue. The main building would include a lobby, exhibit areas, classrooms, support facilities, and administrative offices, including a Los Angeles County Sheriff substation. Access to the main building would be provide at the existing driveway location on the south side of Durfee Avenue. A new 150-car parking lot would be constructed on the eastern portion of the project site. The maintenance building would be located on the eastern end of the parking lot and would provide parking for maintenance vehicles, material storage, and office space for site maintenance staff. Parking for bicycles would be provided. The Discovery Center and the parking lot would be open to the public from 9:00 am to 5:00 pm seven days per week.	NOP	09/28/2006

1999082090	Flying J Travel Plaza Dixon, City of Dixon--Solano The project is proposed development of a Flying J Travel Plaza on a portion of a 60-acre property, south of the Pedrick Road / I-80 interchange, in the City of Dixon. The project would develop approximately 27 acres of the 60-acre property with a Flying J Travel Plaza. In addition to providing fueling services for diesel and gasoline vehicles, the facility would include a 17,638-square-foot structure with a 24-hour convenience store, restaurant, fast-food court, driver lounge, and laundry and shower facilities. The project would also develop an offsite stormwater detention basin facility on the east side of Pedrick Road. No development of the remaining 33 acres is proposed at this time.	EIR	10/16/2006				
2005092025	Branciforte Creek Residential Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a Planned Development, Tentative Subdivision Map, and Design Permit application for creation of 44 lots and development of 37 residential units. Six lots will be sold, but no development plans are included in this proposal for these six lots (Lots 38-43). Access to the project site will be provided via new roadway that will cross the site and provide access off of Market Street and off Isbel Drive.	EIR	10/16/2006				
2005092070	Lake Davis Pike Eradication Project Fish & Game #2 --Plumas DFG proposes to eradicate pike from Lake Davis and its tributaries to re-establish the trout fishery at Lake Davis and to prevent the pike from escaping from the reservoir and causing ecological impacts in other parts of the State or region such as those that have occurred at Lake Davis. The primary objective/goal of the project is complete eradication of pike from Lake Davis and its tributaries. The project would be approved and implemented by the DFG. The USFS action for the project is the issuance of a special use permit to the DFG and potentially two forest closure orders.	EIR	10/16/2006				
2005121073	Vineyards Specific Plan Vista, City of Vista--San Diego The project consists of 15.9 acres; approximately 7.1 acres would be developed into 59 single-family residential units, 4.1 acres would be developed into 49 live/work townhomes and 4.7 acres would consist of open space areas (0.3 acre for the development of four passive park areas, 2.8 acres into landscaped slopes	EIR	10/16/2006

	and 1.6 acres into undisturbed steep slopes). The live/work units would be located along the East Vista Way and Foothill Drive frontages and the single-family residential units would be located in the interior of the site (uphill from the street elevations). These single-family units would abut existing single-family residential development to the east. Four parks would be spread out throughout the development. Each single-family detached and live/work unit would have a two-car garage. Guest parking would be provided along the private streets located within the proposed development.		
2006054003	Testing and Evaluation of Directed Energy Systems Using Laser Technology, Edwards Air Force Base, California U.S. Air Force Lancaster--Kern, Los Angeles, San Bernardino The proposed action is to test and evaluate high energy lasers from various platforms on the ground and in the air against selected targets on Edwards AFB. Up to 100 acres could be used as target sites or firing points (limited to 5 acres per site) on the base and within the precision impact range area. Airborne platforms would remain in the R-2508 Complex special use airspace and be above 3,000 feet AGL except for approximately 5 percent of the flight test activities. Requirements: Up to approximately 394 flights test and 24 ground tests would occur per year from 2006 to 2010. BMP would be implemented to ensure that no significant impacts would occur.	FIN	
2006081163	Proposed Tentative Tract TT-06-054 (Tract 18028) Victorville, City of Victorville--San Bernardino To allow for the development of a 70-lot single-family residential subdivision.	MND	09/29/2006
2006082148	Dead Horse Summit Curve Realignment Caltrans #2 --Siskiyou The purpose of this safety project is to improve the highway alignment and geometrics of SR-89 near Dead Horse Summit. The project proposes to modify two horizontal curves, widen shoulders to 8 feet, develop a clear recovery zone, increase sun exposure to the highway, and elevate the highway to reduce the possibility of icing during the winter.	MND	09/29/2006
2006082150	Upper Truckee River Restoration and Golf Course Relocation Project Parks and Recreation, Department of --El Dorado State Parks, Reclamation, and TRPA are pursuing a restoration project along the reach of the Upper Truckee River that extends from its upstream entry point at the southern boundary of Washoe Meadows State Park to that point just west of U.S. Highway 50 where the river exits Lake Valley State Recreation Area. The primary purpose of the Upper Truckee River Restoration and Golf Course Relocation Project is to restore natural geomorphic and ecological processes along this reach of river and to reduce the river's suspended sediment discharge to Lake Tahoe. The proposed restoration project would require relocation of a portion of the Lake Tahoe Golf Course to allow for restoration of the river, reduce the area of stream environment zone occupied by the golf course, and allow for establishment of a buffer area between the golf course and the river. The proposed action also includes realigning the boundaries of a buffer area between the golf course and the river. The proposed action also includes realigning the boundaries of Washoe Meadows SP and Lake Valley SRA, so restored habitat areas are within the state	NOP	09/29/2006

2006081165	Tentative Tract Map 063364 Palmdale, City of Palmdale--Los Angeles A request for a reduction in the required lot depth on Lots 1 and 2 and a request to subdivide 30.90 acres into 101 single-family lots that includes with two detention basin lots. The lots within the proposed subdivision range in size from 7,002 square feet to 18,362 square feet.	Neg	09/29/2006
2006081166	Tentative Tract Map 062552 Palmdale, City of Palmdale--Los Angeles A request to subdivide 18.9 acres into 57 single-family lots that includes 3 detention basin lots. Lots within the proposed subdivision range in size from 7,012 square feet to 15,758 square feet.	Neg	09/29/2006
2006082147	PA-0600441 - General Plan Text Amendment to Amend Commercial Development Policy 2(f)(3)(A) Freeway Service San Joaquin County Community Development Department --San Joaquin A General Plan Text Amendment to amend Commercial Development Policy 2(f)(3)(A) Freeway Service Volume I, page IV-25. The proposed text will add the intersection of two state highways as a locational criterion for Freeway Service areas. The proposed text states: Development and Locational Criteria: Freeway Service areas shall be: (A) Designated only adjacent to full freeway interchanges, or where two state highways intersect, where development will be easily accessible and visible to both the freeway and state highway traveler.	Neg	09/29/2006
2006082149	Mill Site Tentative Subdivision Map Plumas County Planning Department --Plumas Division of 12.20 acres into 27 lots (11 multiple family and 15 single family residential lots plus an open space remainder).	Neg	09/29/2006
1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Planning Department Eureka--Humboldt The project proposes commercial gravel extraction operations, impacting the Van Duzen River (Tom Bess Bar), tributary to the Pacific Ocean, Humboldt County.	NOD	
2005022143	Federal Bridge Replacement Project BRLS-5912 (056): Hamlin Slough Bridge Butte County --Butte The proposed project is the reconstruction of State Bridge No. 12C-0244 on Durham-Dayton Highway across the Hamlin Slough. The existing bridge is a legal load only, functionally obsolete structure built in the 1930's and widened in 1950. The new bridge involves, in general, constructing a 121-foot long, four span reinforced concrete flat slab type highway bridge having an overall width of 40 feet 8 inches together with the removal of the existing structure and the reconstruction of approximately 900 lineal feet of roadway.	NOD	
2006012113	Reynolds Ranch Project Lodi, City of Lodi--San Joaquin The proposed project would permit the development of a mixed-use project at the intersection of Harney Lane and SR-99. A total of 350,000 square feet of commercial uses on 40 acres are proposed along with a 200,000 square foot	NOD

	office building on 20 acres. Additional development on the project site includes residential uses (1,084 dwelling units), Public Park, K-8 public school, a fire station, self-storage facility, detention basins, trails and open space network. To implement the proposed project, the applicant has submitted applications for a General Plan amendment and zone change. Additional approvals required include annexation of the project site into the City of Lodi, certification of an EIR and approval of a Development Agreement for the project.		
2006042116	Folsom Drop Structure Modification Project Folsom, City of Folsom--Sacramento The City of Folsom proposes to open the existing drop ramp structure, connecting the Natoma Crossing to the Leidesdorff Street Lid Structure, to vehicular traffic. The proposed improvements would include construction of a median approach to the ramp structure on Folsom Boulevard, relocating the existing entrance to the north Light Rail Park and Ride lot on Leidesdorff Street, installation of barriers, signs, and lighting on the ramp, parking stall re-striping, and associated sidewalk, curb, and gutter work. The project will provide a direct access to the light rail parking lots for southbound traffic on Folsom Boulevard north of the American River.	NOD	
2006052041	Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Humboldt The project proposes the decommissioning of 1.6 miles of abandoned logging roads in the Headwaters Forest Reserve. A total of 9 stream crossings, 7 landslides sites, and one gully site will be treated on unnamed tributaries to Salmon Creek, in Humboldt County.	NOD	
2006052041	Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Humboldt The project proposes the implementation of upslope restoration prescriptions to reduce road-related sediment at 17 source locations and to improve instream habitat for all salmonid species within the Shaw Creek watershed by road decommissioning.	NOD	
2006061068	Huntington Beach High School Renovation and Expansion Huntington Beach Union High School District Huntington Beach--Orange The proposed project consists of three components at Huntington Beach High School: (1) a 8,300-square foot building adjacent to the Performing Arts Building, (2) a 18,920-square foot Classroom Building, and (3) Roadway Paving. The proposed project would provide a total increase of 495 additional seats and 27,220 square feet of building space at the school.	NOD	
2006072003	Live Oak Bridge and Toyon Water System Improvements, Anderson Lake County Park Santa Clara County Parks and Recreation Department Morgan Hill--Santa Clara Construction of a bridge and water system improvements in the Live Oak and Toyon picnic areas in Anderson Lake County Park. Live Oak Bridge component - construct a bridge across Coyote Creek to access the existing Live Oak picnic	NOD

	area. Access formerly via an earthen fill crossing over two culverts. Due to controlled floodwater release from Anderson Reservoir by Santa Clara Valley Water District, this crossing washed out. Water line improvements consist of replacement of an existing degraded 2" water line with a new 4" and 3" line from an existing water main service to an existing restroom facility. Lateral water lines will also be installed to replace degraded water lines for drinking water, hose bibs, etc.		
2006089068	Lake or Streambed Alteration Agreement (Agreement) No. 06-0247 for Timber Harvesting Plan (THP) 1-06-076DEL Forestry and Fire Protection, Department of --Del Norte The Department of Fish and Game is issuing an Agreement for the installation of one temporary crossing.	NOD	
2006089069	Lake or Streambed Alteration Agreement (Agreement) No. R1-06-0268 for Timber Harvesting Plan (THP) 1-01-272HUM Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is issuing an Agreement for the installation and removal of two permanent crossings and one temporary crossing.	NOD	
2006089070	Lake or Streambed Alteration Agreement (Agreement) No. R1-06-0313 for Timber Harvesting Plan (THP) 1-06-040HUM Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is issuing an Agreement for work on 24 permanent crossings including five rocked fords.	NOD	
2006088360	I-5 Riverfront Seal Slab Rehabilitation Caltrans #3 Sacramento--Sacramento Reconstruct existing wearing surface and drainage system, as well as the placement of three additional wells and groundwater monitoring stations on a section of the riverfront seal slab structure on I-5 north of Route 50 and south of J Street, in Sacramento. A new generator building will be constructed on an approximately 20-foot square pad.	NOE	
2006088361	Geotech Drilling for New Changable Message Sign (CMS) Caltrans #3 South Lake Tahoe--El Dorado The purpose of this project is to replace a CMS which includes the sign, foundation, and wiring. In order to do that, Geotech needs to drill a core sample approximately 30 feet next to the existing foundation to determine if the soil is stable enough to support the foundation of a full cantilever model 510 CMS. Currently, the location of the core drilling is within our right-of-way. This CE is for Geotech purposes only.	NOE	
2006088362	SC-OR Outfall and Diffusers Repair Oroville Sewerage Commission Oroville--Butte Using an 8" suction dredge, divers will expose buried diffusers for inspection and repair. Possibly less than 10 cu. yds. of river sand and gravel to be removed and redeposited immediately down-stream of diffusers within the river channel.	NOE

2006088363	Emergency Levee Repair Project East Levee at River Mile 75.1 1600-2006-0328-R2 Fish & Game #2 --Sacramento The project includes excavating and removing approximately 240 feet of the existing levee section adjacent to the Plant 2 site to expose the deep culvert and other possible voids under the levee, removing the culvert and reconstructing the levee adjacent to the stump with levee embankment fill. The project also includes the installation of an under seepage cutoff wall in the levee.	NOE	
2006088364	French Camp Slough Project 1600-2006-0273-R2 Fish & Game #2 --San Joaquin Repair of approximately 975 feet of eroded channel slope. The eroded area will be backfilled with native soil and compacted in lefts and the protected with rip-rap. Soil from the erosion that has slipped into the slough will be removed by use of an excavator.	NOE	
2006088365	Stream Alteration Agreement No. 2006-0074-R4 SR 4 at Rock Creek Fish & Game #4 --Stanislaus Repair of scoured areas under Rock Creek Bridge. Work will include laying back the slope of the existing banks at a ratio of 1.5 m:1m (5 ft:3.3) on both sides of the bridge and installing rock slope protection (RSP). A cofferdam will be placed upstream and a de-silting dam will be placed downstream for de-watering the bridge area. The stream will be diverted through the job site by pumping water through a culvert between the two dams.	NOE	
2006088366	Railtown Warehouse Roof Replacement Parks and Recreation, Department of --Tuolumne Remove and replace 2,200 square feet of wood shingle roofing on a historic warehouse at Railtown 1897 State Historic Park to preserve and protect the historic structure from damage caused by the elements of weather. Work will remove old cedar shakes and clean up debris; inspect, repair, or replace damaged or deteriorated skip sheeting and fascia boards as needed with like materials; and replace the shingles in kind with new class C fire resistant cedar shakes in same pattern as old roof and with new roofing felt beneath.	NOE	
2006088367	Newell Creek Dam No. 23-002 Water Resources, Department of, Division of Dams Santa Cruz--Santa Cruz Conduct geotechnical investigation and install six piezometers.	NOE	
2006088368	Dry Creek Fish Barrier Modification Napa County Resource Conservation District Napa--Napa District is assisting landowner in abandoning and modifying an in-stream flash board dam structure to facilitate upstream fish passage along creek by removing metal retaining plate structures and notching low flow channel into existing concrete apron.	NOE

2006088369	Issuance of Streambed Alteration Agreement #R1-06-0356, Panorama Farms Fish & Game #1 Redding--Shasta Bank stabilization in an unnamed tributary to Stillwater Creek and the creation of a pond in an unnamed tributary to Stillwater Creek.	NOE	
2006088370	Issuance of Streambed Alteration Agreement No. R1-06-0279, Klamath River, Tributary to Pacific Ocean, Siskiyou County Fish & Game #1 --Siskiyou The project proposes the annual removal for private use by the landowner on his adjacent lands of up to 500 cubic yards of overburden gravel materials from dry gravel bars above the low flow channel located along the Klamath River.	NOE	
2006088371	Lower American River, River Mile 0.5 Cultural Resource Presence/Absence Testing Sacramento Area Flood Control Agency Sacramento--Sacramento The Sacramento Area Flood Control Agency proposes to further test for the presence or absence of cultural resources along the bank of the American River at River Mile 0.5R, where they plan flood control improvements and habitat restoration activities in the future. This testing would help to identify the boundary of an adjacent identified cultural resource, CA-Sac-26, to ensure that the flood control and habitat restoration project, planned for the future, results in the least impact to this resource.	NOE	
2006088372	Mill Creek Water Diversion Structure Emergency Repair, Sonoma Developmental Center Developmental Services, Department of --Sonoma The proposed project consists of the emergency repair and restoration of service provided by the existing water diversion structure on Mill Creek to the Sonoma Development Center. DDS has determined the emergency repairs are immediately necessary because, absent the repairs, the Center will have an insufficient fire and domestic water supply to maintain operation of the facility. Surface water annually diverted from Mill and Ashby Creeks to the Fern Lake storage reservoir represent the main water supply source for the Center. The diversion structures on Mill Creek and Asbury Creek were badly damaged by the 2006 winter storms.	NOE	
2006088373	Repair and Replace Footbridges Parks and Recreation, Department of --Mendocino Repair and replace existing flood damaged footbridges at Hendy Woods State Park. Bridges will be installed in their original alignment. The bridge pier footings will be increased from 6" diameter, 12" in depth to 12" diameter, 18" in depth and encased in concrete. Work will be conducted outside of the stream channel and during the dry season when no water is present beneath the bridges. No power tools will be used on-site between February 1 and July 10 to avoid noise disturbance to northern spotted owls. No sensitive species or cultural resources will be impacted by this project.	NOE
