STATE CLEARINGHOUSE

NEWSLETTER

August 16-31, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16-31, 2007.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Thursday, August 16, 2007</u>			
1990020230	City of Tehachapi Wastewater Treatment Plant Expansion and Upgrade Project Tehachapi, City of TEHACHAPI--KERN This project is an expansion to the City of Tehachapi's Wastewater Treatment Plant from 1.25 MGD to 2.5 MGD average flow capacity.	EIR	10/01/2007
2005101113	Seacoast Inn Imperial Beach, City of Imperial Beach--San Diego The Seacoast Inn project consists of demolishing an existing three story, 38 room hotel and timber seawall and redeveloping the site 35 feet landward of existing development of a four story, 78 room structure and a new vertical seawall. The new structure would include 111 underground parking spaces, a restaurant, a cocktail lounge, an outdoor patio, a pool/ spa, meeting rooms, and landscaping. The proposed project also includes improvements to Date Avenue west of Seacoast Drive, such as enhanced paving, landscaping, parking, and realignment of the seawall. The area of the proposed Seacoast Inn improvements, excluding landscaping is as follows: guest rooms/ circulation- 65,532 sq. ft.; function rooms/ restaurant/ lobby/ kitchen- 18,856 sq. ft.; service/ maintenance- 2,705 sq. ft.	EIR	10/01/2007
2007032026	Maria Carillo High School Field Lighting Project Santa Rosa City School District Santa Rosa--Sonoma Addition of four 80 foot poles with both 13 and 14 lighting fixtures to existing football field to allow for use of the field during evening hours. The four light poles would be situated in a square formation surrounding the stadium (set behind the bleachers at approx. the 10 yard line). Construction to be completed over a 4-5 week period. The lights are scheduled to be in place by March of 2008.	EIR	10/01/2007
2007051084	Autry National Center's Griffith Park Campus Improvements Project Los Angeles County Department of Parks and Recreation Los Angeles, City of--Los Angeles The Autry National Center proposes to renovate and modernize portions of its Griffith Park Campus located at 4700 Western Heritage Way, Los Angeles, in Council District 4. The Griffith Park Campus contains the Museum of the American West and the Institute for the Study of the American West. The proposed project would be implemented in two phases over an estimated six year period (anticipated to end in 2014) the key features of which are as follows: Phase 1: Expansion of the existing Campus Building by 79,000 sq. ft. to provide new and reconfigured galleries, exhibition and collection storage areas and education classrooms, and a new community room; rearrangement of the surface parking facilities; and pedestrian access and landscape improvements. Phase 2: construction of a 50,000 sq. ft. Institute Building that would contain a reading room, collection storage rooms, and staff offices; and construction of a semi-subterranean parking facility beneath the Institute Building. The parking improvements in both phases would result in a total of 476 spaces being available for visitors and staff.	EIR	10/01/2007

2007062064	1012 K Street Project Sacramento, City of Sacramento--Sacramento The proposed project is a 24 story high rise residential tower, with mechanical penthouse and basement parking. The ground level along K Street includes space for retail that will serve the building occupants and the residential tower entry lobby. The building includes structured parking for the residential occupants, including one level of subterranean parking and six levels of above ground. There are 18 levels of residential units above the structured parking, and a mechanical penthouse tops the tower.	EIR	10/01/2007
2007054001	Fielding and Operation of Radiation Portal Monitor Systems at the Unified Port of San Diego, California U.S. Customs and Border Protection San Diego--San Diego The proposed action is to field and operate one RPM system at the Port of San Diego, San Diego County, California for the purpose of conducting non intrusive inspections of cargo containers.	FON	
2007081089	Swarthout Canyon Washout Repair Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside --San Bernardino Issuance of a Clean Water Act Section 401 Water Quality Standards Certification for a pipeline cover repair. The pipeline is a petroleum line which lies within a perennial stream tributary to Cajon Wash in Lone Pine Canyon. The pipeline has been exposed. The area surrounding the pipeline will be excavated and a geotube installed around the line. The line will be covered with flexible concrete matting. A portion of an adjacent bank will be armored with grouted rip-rap to prevent further erosion. 0.08 acres of the wash will be affected by the armoring. An access road will need to be constructed from Swarthout Canyon Road to the project site affecting 0.8 acres of uplands. A 0.43 acre staging area will be cleared in the adjacent uplands.	MND	09/14/2007
2007081090	General Plan Amendment No. 738, Change of Zone No. 7359, and Tentative Tract Map No. 32726 Riverside County Planning Department Wildomar--Riverside General Plan Amendment No. 738 proposes to amend the project site's current general plan land use designation from Rural Community: Estate Density Residential (RC:EDR)(2 acre minimum) to Rural Community: Low Density Residential (RC:LDR)(0.5 acre minimum). Change of Zone No. 7359 proposes to change the project site's current zoning classification from Rural Residential (R-R) to Residential Agricultural (R-A). Tentative Tract Map No. 32726 proposes a Schedule "B" subdivision of 4.14 gross acres into seven Residential Lots with a minimum lot size of 0.5 acres (gross).	MND	09/14/2007
2007081092	Wilmot-Bay Elementary School Moreno Valley Unified School District Moreno Valley--Riverside Development of a new 75,000 square foot elementary school on 9.5 acres of land within the eastern portion of the City of Moreno Valley. Includes one-story classroom buildings, a multi-purpose building, kitchen, administration building, and a library.	MND	09/14/2007

2007088220	Elks Club Property Acquisition Tahoe Conservancy --El Dorado Authorization to acquire a 3.07-acre environmentally sensitive parcel for stream environment zone restoration and public access purposes.	NOE	
2007088221	Angora Fire Restoration and Remediation Project Tahoe Conservancy --El Dorado On June 24, 2007, the Angora wildfire started on United State Department of Agriculture, U.S. Forest Service (USFS) land in an area near Seneca Pond west of North Upper Truckee Road in El Dorado County. Prior to containment of the Angora Fire on July 2, 2007, the fire burned approximately 3,100 acres of forestland and destroyed 254 structures and damaged an additional 17 structures within the Mountain View Estates Subdivision area of unincorporated El Dorado County. Of the 3,100 acres burned in the Angora Fire, approximately 730 acres have been classified as low severity while 1,305 acres and 1,065 acres have been classified as moderately and severely burned, respectively (USFS, Burned Area Emergency Response Report (BAER)). 2003072107	Tennessee Hollow Upper Watershed Revitalization Project EA Presidio Trust San Francisco--San Francisco The Presidio Trust is proposing to revitalize up to 28 acres within the upper reaches of the Tennessee Hollow Watershed in the Presidio of San Francisco, a National Historic Landmark (NHL) District and national park site. Proposed enhancements include creek and habitat restoration, new trails, an interpretative garden, reorganization and rehabilitation of playing fields, picnic areas, and other visitor amenities such as a public restroom. The project represents one phase in a broader effort to restore the Presidio's largest watershed- from headwaters to bay- a cornerstone in the plans to transform the Presidio into one of the nation's premiere national park sites.	EA	09/17/2007
2002021009	Schuyler Heim Bridge Replacement and SR-47 Expressway Project Caltrans #7 Long Beach, Los Angeles, City of--Los Angeles The proposed Schuyler Heim Bridge Replacement and SR-47 Expressway project would replace the seismically-deficient vertical lift bridge with a fixed span bridge across the Cerritos Channel, and either construct an elevated four lane expressway from Terminal Island to Alameda Street, or construct an elevated four lane extension of SR-103 to Alameda Street. Six alternatives are evaluated in the joint EIR/EIS.	EIR	10/16/2007
2005031014	Mixed Use Solana Beach Train Station Solana Beach, City of Solana Beach--San Diego The project is a mixed use development consisting of 141 residential units (including 128 units in 13 multi family buildings and 13 live/work units over retail), office and retail space, a multi-level parking garage for the Solana Beach Train Station, a visitor's center (replacing the existing center, which would be demolished), and a new theatre building for the North Coast Repertory Theatre. Earth material excavated for the below ground parking areas is proposed for use as beach nourishment for the City's beaches.	EIR	10/01/2007
2005111013	Lake Jennings Village; TM 5444, GPA 05-005, R05-013, S05-047, Log No. 05-14-028 San Diego County Department of Planning and Land Use --San Diego The proposed project is a General Plan Amendment (GPA 05-005) to change the existing Residential Land Use Designation from 5 and 8, General Commercial Land Use Designation (13), and Service Commercial Land Use Designation (14), to Residential Land Use Designation (10); and a Rezone (R 05-013) from Use Regulations Residential RS7, Limited Agriculture A70, C37 Heavy Commercial, and C44 Freeway Commercial, to Residential RU24. Related applications include a Tentative Map (TM 5444) and Site Plan (S05-047). The project proposes the development of a 192-unit condominium project with an open space easement along the southern property boundary to include the Los Coches Creek and associated buffer. A community recreation common area with a recreation club house, pool and spa, tot lot and grassy recreation area also proposed. The project includes the vacation of Pecan Lane and extension of Rios Canyon Road to form a T-intersection with Old Highway 80. The residential development will be bordered by Old Highway 80 on the north, Rios Canyon Road on the east and west, and Los Coches Creek on the South.	EIR	09/17/2007

	with the submitted 2004 ARP and from the South Hill. The Quarry will continue to: crush, sort, and stockpile earth and rock quarried from the site, dock and load barges with earth, sand, and rock quarried from the site, operate an asphalt batch plant, and load and weigh commercial trucks that export and transport material over Point San Pedro Road.		
2007081099	Southern California Logistics Airport Aircraft Fuel Farm Project Southern California Logistics Airport Authority Victorville--San Bernardino The SCLA has identified its current fuel storage capacity and facility as a critical facility and operational limitation in its ability to serve existing and anticipated future airport operations growth. This Initial Study evaluates the potential environmental consequences of eliminating the existing fuel management facility and installing a new fuel farm with the following components: two 9,077 barrel (381,275 gallons plus) aboveground vertical Jet-A storage tanks, one 10,000 gallon diesel aboveground horizontal storage tank; one 10,000 gallon AVGAS aboveground horizontal storage tank; one 16,000 gallon JP-8 aboveground horizontal storage tank; one 10,000 gallon MOGAS aboveground horizontal storage tank, one "spent" fuel tank, filtration and pumping equipment, two Jet-A refueler loading positions and one Jet-A offloading position. Also included are load and offload positions for diesel, AVGAS, JP-8 and MOGAS. The facility will also include a small operations building to house personnel, equipment and to perform fuel quality testing. Adequate vehicle parking will be provided as well as fire protection systems. If approved by the SCLA Authority, the above facilities will be implemented.	Neg	09/17/2007
2007081100	COMM 22 San Diego, City of San Diego--San Diego Community Plan Amendment to change the project site's land use designation as identified in the Southeastern San Diego Community Plan from Industrial and Residential to Community Commercial; a Rezone from SESDPD I-1 and SESDPD-MF-3000 to CC-3-5; Public Right of Way Vacation to vacate a portion of Irving Avenue and 22nd Street; and Vesting Tentative Map, Planned Development Permit, Conditional Use Permit, and a Site Development Permit to construct and allow uses for senior housing; a childcare facility, retail space; live/work quarters; and residential apartments and condominiums.	Neg	09/17/2007
2007082095	VAR 2007-02 LLA 2007-03 WAC 2007-01- Friends of the Tuolumne Stanislaus County Waterford--Stanislaus This is a request to adjust lot lines from 40.36, 68.74, and 115.2 acres to 8.76, 71.96, and 144.7 acres in the A-2-40 (General Agriculture) zoning district. A Variance Application was submitted due to the fact that if the lot line adjustment is approved one of the parcels will go from 40.36 acres to 8.76 acres which is less than the 40 acre minimum requirement. The proposed lot line adjustment will enable Friends of the Tuolumne to acquire additional lands for use as a wildlife preserve and allow the other large property to gain some additional land for continued use for irrigated pasture and a horse riding facility. If the proposed lot line adjustment is approved, there is a proposed Williamson Act Cancellation for the 8.76 acre parcel which is a portion of Williamson Act Contract No. 2002-4481.	Neg	09/17/2007

2001102074	Stevens Creek Trail, Reach 4, Segment 2 Mountain View, City of --Santa Clara Fund the construction of a Class I bicycle/pedestrian trail consisting of a 10' wide asphalt-paved pathway with 2' wide shoulders on each side. The project includes three single-span crossings of Stevens Creek on prefabricated bridges and three crossings of Highway 85.	NOD	
2005052016	Capay Open Space Park Yolo County --Yolo Construction of public park, including: site clearing, grading, utilities, parking areas, pedestrian trails, HC ramp to creek, habitat restoration, bank stabilization, fencing, gates and revegetation with native plants.	NOD	
2005081106	SDG&E Silvergate Transmission Substation Project - CPCN Application No. 05-03-024 Public Utilities Commission San Diego, Chula Vista--San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of Fish and Game Code (SAA #1600-2006-0328-R5) to the project applicant, San Diego Gas & Electric. The applicant proposes to use horizontal directional drilling (HDD) to install a new 138 kilovolt transmission line below the Sweetwater Marsh and Paradise Creek. The drill entry and exit pits will be located on the north and south side of the marsh (respectively) within the Operator's right-of-way and outside of the drainages, marsh, and any wetland vegetation. In order to accurately locate and direct the drill bit during drilling of the pilot hole, a surface monitoring system consisting of a wire grid will be established across the marsh between the entry and exit pits. This wire grid will be removed at the completion of the drilling operation. Construction at this location will be conducted between September 1 and February 15, outside of the rainy season and bird breeding season, to minimize potential impacts to water quality and biological resources. 2006032058	Railyards Specific Plan Sacramento, City of Sacramento--Sacramento The project would involve the development of between 10,000 and 12,500 du, 1,384,800 square feet of retail, 491,000 square feet of mixed use, 1,100 hotel rooms, 2,337,200 square feet of office, 485,390 square feet of historic/cultural space, and 41.16 acres of open space. The project would include low-, medium-, and high-rise single use and mixed use residential, retail, office, and hotel structures. The project also provides cultural/recreational facilities, public parks and walkways, and a performing arts and education center. The project would develop public streets with vehicular, bicycle, and pedestrian access, aboveground and subgrade parking facilities and above surface and subsurface energy, water, wastewater, and drainage infrastructure and facilities. The project would also include approximately 32 acres designated for the development of the Sacramento Intermodal Transit Facility, which would provide multiple modes of public transit service including bus, rail, light rail, and passenger auto. The proposed project would also involve the realignment of the tracks running from 3rd Street to 7th Street for use by Amtrak, Union Pacific, Sacramento Regional Transit, and the potential future construction of a regional high speed rail.	EIR	10/04/2007
2007051129	Los Angeles State Enterprise Zone Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The project proposes to implement a State Enterprise Zone (SEZ) designation, as granted by the California Department of Housing and Community Development, within the City of Los Angeles to provide a business incentive zone designed to attract new business and retain existing businesses and jobs. The project will permit businesses located within the zone to take state tax credits and deductions, and receive City benefits including, but not limited to, a Department of Water and Power electric rate subsidy. The zone designation, in and of itself, will not result in any specific construction projects, land acquisition projects, or other development projects.	EIR	10/05/2007
2006101132	Ontario Wal-Mart Supercenter (PDEV 04-047) Ontario, City of Ontario--San Bernardino The proposed project would involve the demolition of existing on-site structures that are currently not in use and the construction of an approximately 190,803 square foot building on the western portion of the site, with parking areas on the eastern portion. The proposed Wal-Mart Supercenter would include a general merchandise store, a grocery, the sale of alcoholic beverages, a game arcade, banking services, and an outside garden center. Infrastructure and street improvements would also accompany the project.	FIN	
2007081103	Arvin CSD Arsenic Mitigation Project Arvin Community Services District Arvin--Kern The Arvin Community Services District has five wells with levels of Arsenic that do not meet the new Arsenic drinking water standard. To correct this problem, the District plans on obtaining Federal and State funds to obtain safe drinking water by one of two methods: Phase 1: would drill a test well and new wells on existing well sites to replace the old water wells with ones that produce clean water meeting Safe Drinking Water Standards. OR Phase 2: If the test well is unable to locate a clean water supply, then Phase 1 would be abandoned and Arsenic water	MND	09/18/2007

2007042044	<p>of retail development by 2030. 15% of this development activity is expected to occur by 2015 and 90% of development is expected to occur by 2030. The City's existing General Plan, with a horizon year of 2015, anticipated 590 residential units, 781,200 sq. ft. of office development, and 195,300 sq. ft. of retail development. The TOD Strategy Project is therefore the amount of potential development for the TOD Strategy Area above and beyond what was envisioned in the General Plan and examined in the General Plan EIR, namely construction of 2,841 residential units.</p> <p>Costa Vineyard Conversion Project #03020-ECPA Napa County Conservation Development & Planning Department Yountville--Napa</p> <p>The proposed project includes earthmoving, clearing of chaparral and installation and maintenance of erosion control measures associated with the development of +/- 15.6 acres of new vineyard (12.1 net vine acres), located in the southwest corner of a 73.8 acre parcel located approx. 400 ft. north of the terminus of the east fork of Soda Canyon Rd., approx. 7 miles north of Silverado Trail and 5 miles northeast of the Town of Yountville. Access to the project site would be from these roads. The parcel is located in an Agricultural Watershed (AW) zoning district, with a Napa County General Plan designation of Agriculture, Watershed and Open Space. Existing slopes range from 0% to 35%, with an average slope of 15%. Water for the project would come from an existing well located at the southwest corner of the parcel. An erosion control plan (#03020-ECPA) has been prepared. Grading would be limited to the proposed vineyard area. No trees over 6" dbh are proposed for removal. Deer fencing would be placed only around the vineyard blocks. Spoils created from grading would be placed only around the vineyard blocks. Spoils created from grading would be placed on the east ends of the vineyard blocks. Erosion control measures include straw mulch, silt fences, water bars, diversion ditches and a no-till cover crop with 75% coverage. No future projects are anticipated for this parcel.</p>	FIN	
2007042046	<p>Mansfield/Baker Vineyard Conversion Project #04086-ECPA Napa County Conservation Development & Planning Department Yountville--Napa</p> <p>The proposed project is for earthmoving activity associated with the development of a new +/- 7.29 acre vineyard (5.3 net vine acres), including installation of erosion control measures on two parcels totaling +/- 40.24 (Mansfield parcel - 20 acres; Baker parcel - 20.42 acres) located on the east fork of Soda Canyon Road approximately 3,000 feet northeast of its intersection with the main Soda Canyon Road approximately 7 miles north of Silverado Trail and 5 miles northeast of the Town of Yountville. Grading would be limited to the proposed vineyard area. Spoils created from grading may be placed outside of setback areas to create a filter media or used as rock barriers which will be placed within the proposed vineyard blocks and not within vegetation retention areas or within stream setbacks. Water for the project would come from two existing wells (one on each parcel). There is existing deer fencing on the north, east, and west sides of the project area. Additional deer fencing is proposed on the southern project boundary and along the northern edges of Block 3, 4, and 5 West. An erosion control plan (#04086-ECPA) has been prepared. Vineyard blocks would have 24-foot wide vineyard avenues around the perimeters. There would also be two bridges placed over two intermittent and a no-till cover crop with 70% coverage. No future projects are anticipated for this parcel.</p>	FIN

2007032159	Stormwater Attenuation and Floodplain Restoration Project Yreka, City of Yreka--Siskiyou The City has developed a new alternate basin site that was not considered in the original IS/MND. While the site does not generate any new significant impacts or mitigation measures, the properties were not part of the original project description. Since the public was aff	MND	09/21/2007
2007081112	New Kitchen and Remodel Satellite Serving Kitchens and Dining Rooms at Patton State Hospital Mental Health, Department of San Bernardino--San Bernardino The California Department of Mental Health (DMH) proposes the construction of a main kitchen and renovation of existing satellite kitchens and dining rooms to accommodate the new cook/ chill method of food preparation at Patton State Hospital, located at 3102 East Highland Avenue, San Bernardino, CA 92369. The new 31,908 sq. ft. single story main kitchen replacement facility would be located on the vacant property owned by the State to the north of the existing main kitchen across Date Street. The access to the new main kitchen would continue to be from Victoria Avenue to Date Street. The seven satellite serving kitchens (totaling approx. 25,952 sq. ft.) are located in the existing 30, 70, EB, U and N buildings. Project construction would begin in Spring 2009 and take approx. 18 months. After the proposed project is completed, the existing main kitchen would be used for general storage. The proposed project would not be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5.	MND	09/19/2007
2007081113	Academy Avenue Plan Line Fresno County Parlier--Fresno The County proposes to adopt a specific plan line for a future four-lane facility on Academy Avenue from Mountain View Avenue to Manning Avenue, a distance of approx. four miles. A preferred alignment for the future four-lane facility has been approved and designated by the County Board of Supervisors. Academy Avenue from Mountain View Avenue to State Highway 168 has been designated as a major north-south corridor for the County. This designation requires Academy Avenue between Mountain View Avenue and Manning Avenue be upgraded to an "Arterial" road from a "Local" road in the Transportation and Circulation Element of the Fresno County General Plan. A Specific Plan Line is proposed to provide constructive notice to landowners and others regarding the planned right-of-way for the future build-out of the Arterial roadway. The Specific Plan Line for the future four-lane facility will require a General Plan Amendment to reclassify the roadway from a "Local" road to an "Arterial" road. According to the General Plan, the ultimate right-of-way width for an Arterial road varies from 100' to 106'. Construction and right-of-way acquisition for the future four lane facility are not included in this project. This project is funded by Measure C and federal funds are not involved.	MND	09/19/2007
2007082114	Rolling Greens Subdivision (PSUB T20060449) Placer County Planning Department --Placer The project is to subdivide two parcels comprising 22.3 acres into a nine lot residential subdivision. The subdivision will include a single common ownership lot containing the subdivision private road and gated entry feature.	MND	09/24/2007

2005061118	Fanita Project Santee, City of --San Diego A Vesting Tentative Map TM05-04, Development Review Permit DR05-06, associated Conditional Use Permits for public parks and Development Agreement over approximately 2,600 acres of undeveloped land. The development consists of 1,380 single-family dwelling units in residential neighborhoods; The Parklands; a natural preserve; and supporting commercial and mixed-use facilities in a Village Center, including 15 live/work units.	EIR	10/05/2007
2007081114	Hancey Tentative Parcel Map; TPM 20999, ER 06-03-001 San Diego County Department of Planning and Land Use Unincorporated--San Diego The project is a Tentative Parcel Map to subdivide two parcels measuring a total of 14.39 acres into four parcels.	MND	09/20/2007
2007081118	Tentative Tract Map No. 32011 Riverside County Planning Department --Riverside Tentative Tact Map No. 32011 proposes a Schedule A subdivision of 12.0 gross acres into 33 single family residential lots with a minimum lot size of 7,200 sq. ft., one 2.1 acre park, and three open space lots for a water quality basin and enhanced landscaping.	MND	09/20/2007
2007081119	General Plan Amendment and Change of Zone for the 1650 Clark Road Property El Centro, City of El Centro--Imperial The project consists of an annexation, a General Plan Amendment (GPA 06-02) from General Commercial to High-Medium Density Residential, and Change of Zone (COZ 06-05) from General Commercial (pre-zoning) to R-3 Multiple Family Residential in order to accommodate a multi-family residential housing complex on 5.35 acres of land. A site plan has not yet been proposed; however, the R-3 Multiple Family zoning would enable the development of up to 25 units per net acre. Therefore, the maximum number of units that could be constructed would be 133 units (5.35 acres X 25 du/acre= 133.75). When a site plan for the project is submitted, it would be subject to a Site Plan Review (SPR) and conditions of approval would be attached.	MND	09/20/2007
2007082126	Palamino Place Tentative Subdivision Map File 07-016/ Rezone 07-02 Oroville, City of Oroville--Butte Tentative Subdivision Map (TSM 07-01), Zoning Amendment with a request for a PD overlay (ZC 07-02), to create nine single family lots. The Tentative Subdivision Map would create nine single family lots ranging in size from 5,392 sq. ft. to 9,227 sq. ft. The rezone request is for a Planned Development (PD) combining zone to allow for parcel sizes less than 6,000 sq. ft. in size as currently required in the R-2 zone. The project proposes a family layout with an average density of 4.8 dwelling units per acre which is within the density range of the Medium Density Residential land use designation of 2 to 6 dwelling units per acre.	MND	09/20/2007

<u>Documents Received on Wednesday, August 22, 2007</u>			
2007082127	Temporary Relocation of Landfill Facilities Project Palo Alto, City of Palo Alto--Santa Clara City of Palo Alto's Public Works/Operation Department is requesting to relocate existing landfill facility structures and the recycling drop-off center to adjacent City property between the Water Quality Control Plan (WQCP) and existing landfill boundary.	MND	09/20/2007
2007082128	EcoCenter/ Sea Scout Base Palo Alto, City of Palo Alto--Santa Clara The proposed project involves the relocation, rehabilitation, and reuse of a vacant Category I historic building, the former Sea Scout Base. The building would be moved approx. 75 feet to the southwest side of the existing location in order to place the building on a new raised foundation, clearing the 100 year base flood elevation. This building is currently in an area subject to flooding due to high tides and has deteriorated significantly as a result. As part of the improvements to the existing 2,600 sq. ft. building, an addition of approx. 257 sq. ft. will be added onto the second floor mezzanine. In addition to the relocation and rehabilitation of the building, other site improvements include a small three car gravel parking lot, new landscaping, and other minor improvements.	MND	09/20/2007
2005021104	Morro Bay State Park Marina Renovation and Enhancement Project Morro Bay, City of Morro Bay--San Luis Obispo The Marina is of regional and statewide importance because it is the only facility of its kind between Monterey and Santa Barbara. The Marina was originally built in 1949, however natural processes have resulted in continuing sediment deposition within the basin and in recent years, the situation has reached a critical point. The existing basin and entrance channel is now too shallow to accommodate vessels at low tides. During those periods, the existing docks ground-out (rests on dry land) and boats are stranded in the Marina while they await the incoming high tide. This situation has adversely affected the ability of most vessels, particularly deep-keeled sail boats, to use the Marina. The ability of the Marina to continue to perform its intended service to the boating public of California has thus been compromised and the siltation, if not addressed, will cause closure of the Marina within a short period. In addition, the Marina is in need of renovation. Utilities are antiquated and in disrepair, and facilities are not in compliance with the Americans with Disabilities Act (ADA).	NOP	09/20/2007
2007081117	San Fernando Parking Lots Projects San Fernando, City of San Fernando--Los Angeles The San Fernando Parking Lots Project involves the development of five sites within the San Fernando Corridors Specific Plan area with mixed-use residential, commercial, restaurant and parking uses. Project implementation involves the removal of 7,000 sf of auto service building area and 475 public parking spaces. A total of four development scenarios are being proposed. Depending upon the development scenario, the project could involve up to 269 residential condominium units, three live/work units, 11,676 square feet of commercial uses, 56,948 square feet of retail/restaurant uses and up to 934 parking spaces. 2007082123	West Sacramento - Sacramento Streetcar West Sacramento, City of West Sacramento, Sacramento--Yolo, Sacramento The proposed project would initiate streetcar service, using either replica or modern streetcars, in the public right-of-way connecting the West Sacramento Civic Center and Raley Field with Downtown Sacramento. Streetcar service would operate 7 days a week from 6:00 a.m. to midnight. Service is planned to be offered at 10 minute intervals during peak periods and at 15 minute intervals during off-peak hours. The project would install new track and stations in the existing street right of way on West Capitol, Tower Bridge Gateway, Tower Bridge, and Capitol Mall and then share existing track and stations with RT light rail along 7th/8th and K Streets, terminating in a one-way loop (via 13th, J, 15th, L, 13th including two new stations) around the Sacramento Convention Center.	NOP	09/20/2007
2007082125	Target Store EIR San Rafael, City of San Rafael--Marin The project proposes development of a 137,000 square foot Target retail store on 15 acres of a 19.4 acre parcel. Parking for 609 vehicles and landscape screening within the parking lot and along the property boundaries are also proposed.	NOP	09/20/2007
2007082130	Stanford University Medical Center Facilities Renewal and Replacement Project and Simon-Properties Stanford Shopping Center Expansion Palo Alto, City of Palo Alto--Santa Clara The proposed projects include replacement and expansion of hospital, clinic, medical office, administrative office, research, laboratory, and related facilities and improvements for the Stanford University Medical Center (SUMC) and expansion of retail and related facilities and improvements and the addition of a hotel at the Simon Properties-Stanford Shopping Center. Entitlements would include rezoning, Comprehensive Plan amendments, exceptions, architectural review and design enhancements, and Development Agreements. The SUMC Project also requires annexation.	NOP	10/01/2007
2007081115	ING Subdivision Santee, City of Santee--San Diego The proposed project is a Tentative Parcel Map and Development Review Permit for a four-lot residential subdivision, and the construction of four single family dwellings in the R2 zone on a 1.39 acre property.	Neg	09/20/2007
2007081116	Major Revision #5 to the Santee Lakes Recreation Preserve Conditional Use Permit (P80-83) Santee, City of Santee--San Diego The proposed project includes twelve separate park improvements and/or new uses for the existing Santee Lakes located within the P/OS Park Open Space zone. Proposed uses include a 151 space RV storage area, clubhouse addition, ten cabins, revegetation of islands within Santee Lakes, gazebos, a native species nursery, and a recreation area that includes a softball field, volleyball court, horseshoe lanes, and a small putting green. 2007082129	Modification to the Daily Bag Limit for Canvasback Duck Hunting in California Fish & Game Commission -- The proposed project being considered consists of changing the daily bag limit for canvasbacks from one per day to two per day.	Neg	09/20/2007
2004122090	North Plumas Lake Water Treatment Plant Olivehurst Public Utilities District --Yuba Construction and operation of a 12 mgd water treatment plant to provide treated water to urban land uses developing within the approved Plumas Lake Specific Plan area. The current water treatment plant receives water from Wells #29 and #30 and treats the well to remove manganese. The treated water is stored in a 2 million gallon (MG) reservoir and pumped into the water system as needed. Well #29 and #30 alternatively operate to maintain a water level in the reservoir. The reservoir inlet is submerged. Based on the methane sample results, it appears it may be possible to lower methane below its saturation level by making modifications to the reservoir inlet. The reservoir could be configured so that water would enter the reservoir, hit a splash plate, and fall onto the reservoir water level. A blower could be cut into the roof over the reservoir inlet to blow air over the reservoir inlet and splashing water. This process of aeration could remove methane to below its saturation level. The critical factors in removing methane through this process are the distance the water falls from the inlet to the reservoir level and wind velocity over the splashing water. Aeration modeling was performed based on the highest levels of methane in the water (well #30) and using different water fall distances and wind velocities.	NOD	
2005062057	Gladding Parkway and Nicolaus Road Overhead Lincoln, City of Lincoln--Placer Approval of an EIR for a project involving the construction of a two lane roadway that will connect State Highway 193 and State Highway 65 at Gladding Road. The project also includes an over-crossing of the Union Pacific Railroad tracks, connecting the parkway to Nicolaus Road.	NOD	
2006041025	Cherry Creek Residential Subdivision (Recirculation of MND) Arroyo Grande, City of Arroyo Grande--San Luis Obispo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Covelop, Inc., represented by Damien Mavis. The applicant proposes to install a culvert outfall with rock slope protection in the banks of Arroyo Grande Creek to convey runoff from the proposed Cherry Creek Development.	NOD	
2007021039	Bass Lake WC Uranium Treatment Health Services, Department of --Madera The project consists of construction and operation of a new Uranium Treatment Vessel to meet new Maximum Contaminant Level (MCL) for water quality and quantity requirements for the public water supply system.	NOD

2007041073	Assignment of CVP Water from Oro Loma Water District into Westlands Water District Oro Loma Water District Firebaugh--Fresno Westlands proposes to acquire, on a willing seller/willing buyer basis, 4,000 acre-feet of CVP water from Oro Loma via the partial assignment of Oro Loma's water service contract to Westlands. The water subject to the assignment will be used within Westlands' recognized service area boundaries.	NOD	
2007042115	Knights Landing Wastewater Treatment Facility Expansion Knights Landing Community Services District --Yolo The Knights Landing Wastewater Treatment Facility consists of eight stabilization ponds and a shallow spreading basin. The proposed project expands the treatment facility by adding two large stabilization ponds in the confines of the spreading basin. A portion of the spreading basin will remain.	NOD	
2007062009	Creekside Community Park Oakley, City of Oakley--Contra Costa The project consists of the development of an approximately 9.7 acre community park facility on an undeveloped parcel owned by the City of Oakley. Park amenities will include a combination baseball diamond/soccer field, play structures, a BMX area, a skating area and other landscaping and decorative amenities. The project will be phased due to budget constraints.	NOD	
2007071026	Edison Avenue Railroad Grade Crossing Vacation and Closure Long Beach, Port of Long Beach--Los Angeles The Port of Long Beach (POLB) proposes to permanently close and vacate an approximately 200-foot long section of Edison Avenue, containing the at-grade railroad crossing located between Pier B Street and 9th Street. The purpose of the project is to increase public safety by eliminating an unguarded grade crossing. Southbound traffic from 9th Street would be prevented from entering Edison Avenue by the construction of a traffic island and appropriate signing. Traffic barriers would be erected north and south of the railroad tracks to prevent traffic from crossing. Conflicting road lane markings currently on both 9th Street and Pier B Street would be removed and appropriate signage added.	NOD	
2007088298	Bodega Bay Public Utility District Dunes Well No. 3A Bodega Bay Public Utility District --Sonoma The project consists of drilling one new water well and plugging and abandoning a water well no longer capable of production due to corrosion. The new well will be located in the same utility easement as the non-producing well. The project includes approximately 100 feet of new pipe to hook the new well to the existing piping system. The new well is necessary to sustain the fresh water supply for the District which serves the unincorporated town of Bodega Bay.	NOE	
2007088299	SSWD Hulbert Creek Water Main Replacement Sweetwater Springs Water District --Sonoma The project will remove an existing approximately 20-foot section of 6-inch asbestos cement pipe from the banks and stream bottom of Hulbert Creek and replace it with a 6-inch ductile iron pipe to be encased in concrete. The existing	NOE

2003062025	Saggio Hills Project Healdsburg, City of Healdsburg--Sonoma The proposed project includes adoption of an area plan and implementation of the associated development proposal for a combination of destination resort lodging, meeting and spa facilities, residential homes, a city-owned community park, a trails system, a future city-developed affordable housing complex, a city-owned pump station, and a city-owned fire substation. The development is proposed on an approximately 258.5-acre site located in unincorporated Sonoma County immediately north of Healdsburg.	EIR	10/09/2007
2004092077	Gentry-Suisun Project Suisun, City of Suisun City--Solano The proposed Gentry-Suisun project includes Five Planning Areas, consisting of 492.5 acres. The project also involves the annexation of approximately 87.82 acres for a mixed-use project. The remaining area of the site would remain open space. The project also involves requests for Suisun City General Plan Amendments in order to accommodate the proposed project, as well as the rezoning.	EIR	10/09/2007
1993122077	Clover Valley Large and Small Lot Tentative Subdivision Maps Rocklin, City of Rocklin--Placer The project applicants are seeking approval of a large lot tentative subdivision map to subdivide 622 +/- vacant acres into 33 large lots. The large lots would establish individual units being further subdivided by the proposed small lot tentative subdivision map. The small lot tentative subdivision map results in 558 single family residential lots. The applicant is requesting a General Plan Amendment and Rezone in order to address modifications to the open space and residential components of the proposal. The proposed amendments increase the amount of dedicated open space area and decrease the area for residential development. In addition, the amendments will re-orient the 5.0 acre commercial site. In addition to the proposed land use modifications, a Circulation Element	FIN

	Amendment is proposed for Valley View Parkway to reduce that street from a planned four lanes to two lanes. The project also includes an encroachment into the 50 foot creek setback area along Nature Trail Way at two locations.		
2006021089	Tehachapi Sanitary Landfill Permit Revision Project Kern County Waste Management Department Tehachapi--Kern (a) Revise SWFP to change facility boundary from 145 acres to 196.16 acres; increase peak daily waste receipt; increase peak daily traffic volume; increase permitted elevation of the landfill; increase permitted capacity of the landfill; (b) implement Final Closure Plan at 4065 feet MSL; (c) General Plan and Appendix E Map Amendment from 8.2 to 3.4.1 for up to 40 acres; (d) General Plan and Appendix F Map Amendment from 3.4 to 3.7 for up to 11.8 acres; (e) General Plan and Map Appendix Map E Amendment from 3.4 to 3.4.1 for up to 105 acres; (f) zone change from A-1 to A for up to 52.12 acres; (g) record a Redundant Deed or Lot Line adjustment to merge two parcels into one; (h) amend the legal description of the CUP #3, Map 167 to include additional buffer lands within the permitted facility boundary and to include the construction and operation of a transfer station within the map Code 3.7 portion of the site; (i) petition for exclusion from the boundaries of the Estray ordinance; (j) petition for exclusion from Agricultural Preserve 17 for the project area (196.16 acres); and (k) potential use of Eminent Domain proceedings to acquire adjacent properties for use as buffer zones and/or road improvements. Once the Transfer Station is constructed, the KCWMD will amend the Non-Disposal Facility Element.	FIN	
2007081121	Arvin Wastewater Treatment Plant Expansion Arvin, City of Arvin--Kern The City of Arvin proposes to expand its existing Wastewater Treatment Plant from approximately 2 million gallons per day to 4 million gallons per day in order to accommodate current and anticipated growth using a parallel ExAAS (Extended Aeration Activated Sludge) system. New infrastructure would be added at the existing site of the plant, and 45 additional acreage would be used for sludge beds and storage ponds. These additional acres are owned by the City and have been farmed with annual crops in anticipation of this expansion. The parallel ExAAS system would be installed within the boundaries of the existing plant. These new facilities consist of a new headworks; an additional oxidation ditch; a third ring to the existing Orbal Aeration system; two new 60 foot diameter clarifiers; a new effluent pump station; and associated piping, paving and grading, and electrical controls. Also proposed for the recommended facilities are conversion to nitrification/denitrification in anticipation of future Central Valley RWQCB requirements using an anoxic ditch, 35 additional acres of storage/percolation ponds for the effluent, an emergency generator, and an irrigation pump station.	MND	09/21/2007
2007082131	Granite Bay Retail & Car Wash (PMPA T20060706) Placer County Planning Department --Placer Project includes construction of three retail buildings ranging in size from 5,500 sq. ft. to 7,638 sq. ft., an automated carwash, as well as associated parking and circulation areas on two separate parcels that comprise approx. four acres. 2007082136	Brentwood Boulevard Specific Plan Brentwood, City of Brentwood--Contra Costa The Brentwood Boulevard Specific Plan, which would encompass approximately 396 acres, would include up to 2,663 residential dwelling units of various densities and would provide approximately 8,300 retail, office, and industrial jobs. The proposed project area is divided into three sub-areas, which run from the northern boundary of the project area to the southern boundary of the project area, and are designated by the streets that bound each of the sub-areas. The three sub-areas, which would each include a mix of land uses, are referred to as the Northern, Central and Southern sub-areas. The proposed project area includes 35.4 acres of land designated as industrial, 19.2 acres of land designated as Retail, 123.4 acres of land designated as Office Commercial, and 8.1 acres of land designated as Open Space and Parks. In addition, the proposed project would include the construction of any infrastructure improvements that are necessary to accommodate the new development. The project applicant is requesting certification of the EIR, approval of a General Plan amendment, approval of a Rezone/Prezone of the parcels within the project area, approval of the Brentwood Boulevard Specific Plan, and approval of the Brentwood Boulevard Specific Plan, and approval of an annexation resolution for parcels located outside the city limits but within the City's Sphere of Influence. 2007041003	Gendreau Monterey County Planning & Building Inspection Salinas--Monterey Construction of a 4,950 sq. ft. Commercial Kennel for up to 64 dogs daily and 32 dogs for overnight boarding; a pet store for customers.	Neg	09/21/2007
2007081120	Proposed Street Extensions for 2nd, 3rd, 4th, and 5th Street Mariposa County --Mariposa The project involves the construction of access road and installation of utilities to Mariposa Town Blocks 8, 12, 16, and 20 in Mariposa County. All work will be performed within existing road easements. Currently there is no access to these lots within the Town of Mariposa. This project will provide access and utilities to existing parcels within the Town of Mariposa. Specifically, 2nd, 3rd, 4th, and 5th Streets are to be extended to provide access to these parcels. The project will result in the construction of 1,880 linear feet of roadway, 2,116 feet of water line, 3,155 feet of sewer line, and approx. 2,116 feet of electrical and telephone utilities. The project site is zoned RE-2 (Residential Estate, Two Acre Minimum) under Title 17 of the Tuolumne County Ordinance Code.	Neg	09/21/2007
2007082134	Byron-Bethany Irrigation District Headquarters Contra Costa County Community Development Byron--Contra Costa New headquarters office +/- 11,000 square feet, includes garage/warehouse +/- 12,000 square feet, and retention pond plus additional parking spaces.	Neg	09/21/2007
1993072018	Turner Riverwalk - Phase 5 (Planning Case P06-0993) Riverside, City of Riverside--Riverside The proposed project includes removal of four concrete silos located on an approximately 25-acre site, which were deemed to have contributing historical interest associated with the Historic Hole Ranch. The proposed project represents a change to the La Sierra University Specific Plan (LSUSP), which was previously approved in conjunction with an EIR in March 1997 (SCH# 1993072018). As part of the LSUSP and the associated EIR, the four silos were required to be restored, stabilized, and preserved in situ in conjunction with development of the site. Efforts to protect the integrity of the silo complex in situ, as envisioned in the original LSUSP EIR, will result in a number of practical difficulties as a result of actions taken subsequent to the EIR being completed.	SIR	10/09/2007
2002072046	Geysers Power Company LLC Sonoma County Permit and Resources Management Department Cloverdale--Lake, Sonoma The City published a CEQA checklist to analyze whether the environmental effects of the Geysers Expansion Project were covered in the IRWP Certified Program EIR as directed by CEQA Guidelines §15168. The Geysers Expansion Project evaluated in the CEQA checklist was the same as the Geysers Expansion Alternative described in the IRWP Certified EIR, except the annual average flows were 19.8 mgd, whereas the Geysers Expansion Alternative analyzed up to 25 mgd. The improvements needed for the Geysers Expansion Project includes an additional pump at the Llano Pump Station and utilization of an existing redundant fifth pump at the Bear Canyon, Mayacamas, and the Pine Flat Pump Stations. 	Steamfield operations include an additional 3.5 miles of new above-ground pipeline and six new wells to accommodate the additional recycled water flows.		
2002091129	Poche Beach Structure (Best Management Practice Water Treatment System) Orange County Dana Point--Orange The CDFG is issuing an Agreement regarding the Stream or Lake Alteration to the project applicant, Sonia Nasser, representing the County of Orange. The applicant proposes to alter the streambed of Prima Deshecha Creek to accommodate the Poche Beach Modular Treatment System in order to reduce bacterial loading at Poche Beach. This will include collecting urban runoff from Prima Deshecha Creek near the ocean outlet, treating the water in a portable modular treatment system to remove bacteria, and releasing the water back onto Poche Beach. Approximately 700,000 gallons per day of dry-weather urban runoff will be collected using an inflatable rubber dam structure. Water will be diverted by the inflatable rubber dam into a wet well adjacent to the channel on railroad property between Pacific Coast Highway and the railroad tracks. There, the water will be treated, using ultraviolet disinfection to remove bacteria, and released at the beach outlet where it will flow along its original course to the ocean. The inflatable rubber dam will be deflated when rain is anticipated, and in the case of unexpected rainfall, the high water sensor will automatically deflate the rubber dam to prevent constriction of the drainage flow path. (SAA# 1600-2006-0078-R5)	NOD	
2003012108	Carnoustie Residential Development Half Moon Bay, City of Half Moon Bay--San Mateo An application for a Coastal Development Permit, Site and Design Permit, Vesting Tentative Subdivision Map, Planned Unit Development Plan, Use Permit and Development Agreement for a 32-lot residential subdivision, and other associated improvements, including private street, utilities, and private park and open space areas on a 7.95-acre project site located in the Planned Unit Development zoning district. 2007088316	<p>Calpine, Exploratory Borings for Big Sulphur Creek (BSC) #2 Water Extraction Facilities Replacement and Maintenance Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma</p> <p>The project entails excavation of two exploratory borings at an existing water intake gallery on Big Sulphur Creek upstream of a total fish passage barrier. Before conducting borings, the project site will be isolated from stream flow and dewatered. Each boring will be ~6 feet deep. A total of ~10 cubic yards of material will be removed from the two borings. A section of PVC pipe will also be removed, and cameras will be inserted. All spoils will be stockpiled and returned to the boring holes in order to return to Big Sulphur Creek to its original, pre-project conditions.</p>	NOE	
2007088317	<p>Lee Residence Utility Trench Fish & Game #3 --Sonoma</p> <p>Installation of an electric power line to two new homes by trenching under a seasonal tributary to Yulupa Creek. The length of the trench within the stream corridor is ~50 feet. Within the trench, the utility line will be carried in a 6-inch conduit incased in concrete. The conduit and concrete will be installed below streambed elevation. The conduit route will be selected so that no trees near the stream will be disturbed. Work will be done in the summer when the stream is dry.</p>	NOE	
2007088318	<p>Justi Creek Restoration Fish & Game #3 --Sonoma</p> <p>The project will recontour a 215-foot section of "Justi Creek," an unnamed tributary to Calabazas Creek, thence Sonoma Creek, to create a more stable geometry and reduce shear stresses. Work below ordinary high water will include installation of two boulder cross vanes with pools and two roughened riffles. A rootwad and log structure will be placed on the left bank of the upstream pool to provide improved habitat for aquatic life. An existing stone wall on the outside bend will be removed and replaced with a 65-foot long brush mattress to provide vegetated bank protection. Issuance of a Streambed Alteration Agreement Number 1600-2007-0235-3 is pursuant to Fish and Game Code Section 1602.</p>	NOE	
2007088319	<p>Humboldt County, Dept. of Public Works, Holmes Larabee Summer Crossing WDID No. 1B01145WNHU Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt</p> <p>The purpose of the proposed project is to provide access for the residents of Larabee and logging equipment by installation of a flatcar seasonal bridge across the low flow of the Eel River. The permanent section of the Holmes-Larabee Bridge (County Bridge 4C-171) was constructed in 1937 of reinforced concrete deck. A portion of existing concrete bridge was removed in 1960 to facilitate wintertime flows, therefore the bridge only extends part of the way across the Eel River. The existing permanent concrete bridge that spans the wst channel is ~300 feet long. The project involves two fills; the primary fill is located at the gap approximately half way across the permanent birdge. The gap is ~35' x 15'; the depth varies depending on the amount of gravel recruitment during the winter flows.</p>	NOE

2006111097	Town Center Specific Plan (Indian Wells Tennis Garden) Indian Wells, City of --Riverside Development of 92 acres of vacant land adjacent to the existing Indian Wells Tennis Garden. Project consists of a 300 unit condominium or resort hotel, a maximum of 400,000 sq. ft. of mixed uses including retail shops, restaurants, theater, and offices, 65 single family homes.	EIR	09/24/2007
2007022024	Mary Avenue Extension Project Sunnyvale, City of Sunnyvale--Santa Clara The project proposes to extend Mary Avenue from its current terminus at Almanor Avenue north, over US 101 and SR-237, to Eleventh Avenue at E Street. Currently, Mary Avenue is an approx. 5.6 mile, two to six lane, north-south arterial that extends north from Homestead Road in south Sunnyvale and terminates at Almanor Avenue just south of US 101. The proposed extension includes a 0.3 mile long bridge structure over the two freeways and light rail transit (LRT) tracks. North and south of the bridge, the roadway extension would be supported by embankments. The bridge structure would have four traffic lanes, a raised median, sidewalks, and bike lanes. In addition, the project includes signalized intersection improvements at the intersection of Mary Avenue and Almanor Avenue, and at the northerly connection of Mary Avenue to the Eleventh Avenue and E Street intersection.	EIR	10/09/2007
2006101044	Carryover Storage and San Vicente Dam Raise Project San Diego County Water Authority --San Diego In 1996, as part of its Emergency Storage Project (ESP), the SDCWA approved, and received permits for, a project to raise the 220 foot high San Vincente Dam by 54 feet to increase emergency water storage capacity in San Vincente Reservoir by 52,100 AF, in addition to the existing storage capacity of 90,063 AF. The proposed action involves an additional 63 foot raise of the dam to provide 100,000 AF of carryover storage as part of its Carryover Storage and San Vincente Dam Raise Project (CSP). Because it would not be feasible or practicable to construct two separate raises of the dam due to cost, safety of the raised dam structure, and construction logistics, the two increases would be combined and constructed at the same time using roller compacted concrete. The combined ESP and CSP dam raises would add as much as 117 feet to the dam (or a total dam height of up to 337 feet), expanding the usable reservoir capacity by up to 152,100 AF. The purpose of the CSP is to substantially increase the reliability and flexibility of the regional water supply by providing up to 100,000 AF of carryover storage capacity by the year 2011.	JD	10/09/2007
2007081127	Recycled Water System Beaumont-Cherry Valley Water District Beaumont--Riverside The Beaumont-Cherry Valley Water District (District) proposes to construct and operate a system of recycled water pipelines and associated structures to support the District's planned recycled water distribution capability (the system would also include non-potable water). The pipeline would transport recycled water from the City of Beaumont's wastewater treatment facility (WWTF) No. 1 to parks, playgrounds, golf courses, school yards, street medians, freeway landscaping and other uses in the District service area as allowed by Title 22. The system could transport and store varying amounts of untreated, imported State Water Project	MND	09/24/2007

	area from Plum Canyon/Whites Road, will be extended through the project site to connect with Skyline Ranch Road at the southeast section of the project site. The proposed extension would bifurcate 100 acres of dedicated, preserved open space as previously permitted by the U.S. Army Corps of Engineers, California Department of Fish and Game, and the Regional Water Quality Control Board. The optional school site location over a 12.0 net acre proposed multifamily lot will have a zone change proposed for RPD-5000-20U. A conditional use permit will be filed for the zone change and grading in excess of 100,000 cubic yards. A total of 358,000 cubic yards of cut, and 358,000 cubic yards of fill are proposed for the project site.		
2007082137	Parc Pacific Commercial Center Fremont, City of Fremont--Alameda Project includes consolidation of the existing parcels for a General Plan Amendment from Industrial to Neighborhood Commercial and a zone change for a Planned District Preliminary Plan to allow construction of 81,000 sq ft of retail/commercial and 70,000 sq ft of office and medical office uses within 5 separate buildings. The office buildings would be divided into various air space units for resale.	NOP	09/24/2007
2007082140	Sutter Elk Grove Master Plan Elk Grove, City of Elk Grove--Sacramento The Sutter Elk Grove Master Plan project proposes development of a hospital and related medical facilities at the Sutter Health Elk Grove Medical Campus. The Sutter Master Plan includes five phases anticipated to develop through 2030, including interior remodels of existing medical office buildings and ambulatory care center, hospital, hospital shell build-out, and future development projects.	NOP	09/24/2007
2007081126	Tentative Subdivision Map 06-74 San Benito County Hollister--San Benito To subdivide a 55.91 acre parcel into five 1 acre parcels for residential development, with 20 acres designated as agricultural open space and a 30.91 acre remainder parcel.	Neg	09/24/2007
2007081128	Leisz-Brown New Single Family Residence & Guesthouse Santa Barbara County Goleta--Santa Barbara The project consists of the construction of a new, approx. 3,000 sq. ft. single family residence with an 880 sq. ft. attached garage, an 800 sq. ft. guesthouse with a 561 sq. ft. attached garage and on-site access improvements. The height of the residence would be approx. 14 feet and the guesthouse would have a height of approx. 13 feet. The site is currently vacant. Approx. 2,073 cubic yards of cut and 124 cubic yards of fill would be necessary to prepare the site for development. No trees are proposed to be removed. Two 5,000 gallon water storage tanks would provide for potable water and fire response. The site would be served by a private water system, a private septic system and the County Fire Department. Access would be taken from a private driveway via Agua Caliente/ Alta Road, private Hollister Ranch roads. As part of the project, the Fire Department has required the existing road, Agua Caliente/ Alta Road, to be improved to meet their current standards. This work would include paving a portion of the road at the southern property boundary of APN 083-700-028 (Parcel 132) and realigning other portions	Neg	09/24/2007

2007081129	<p>Two Springs New Single-Family Residence and Guesthouse Santa Barbara County Goleta--Santa Barbara</p> <p>The proposed project involves the construction of a new two story single family residence, detached garage, pergola, guest house with covered porch and attached garage, two residential driveways, a private well for potable and irrigation water, six water storage tanks and two private septic systems. Total grading for the project would require approx. 2,832 cubic yards of cut, 1,986 cubic yards of fill, and 846 cubic yards of export. The new residence would have an average height of 16 feet and would be approx. 3,650 sq. ft. in size. The approx. 1,400 sq. ft. detached garage would be located along the driveway which serves the residence and would have an average height of 13.4 feet. The garage would contain a half bath and an industrial sink. Access to the residence and detached garage would be provided along a new driveway via Alta/ Agua Caliente Road. Approx. 400 feet northwest of the detached garage and across Alta Road, would be located a new 800 sq. ft. guesthouse with attached 586 sq. ft. garage, an attached 94 sq. ft. utility room with half bath and approx. 1,650 sq. ft. of covered patio. The entire structure would be approx. 3,036 sq. ft. of total development. The height of the combined structure would be approx. 16 feet. Access to the structure would be via an improved existing driveway from Alta/ Agua Caliente Road. As part of the project, the Fire Department has required the existing access road, Alta/ Agua Caliente Road, to be improved to meet their current standards. This work would include paving a portion of the road at the southern property boundary and realigning other portions of the road below, above and adjacent to the proposed guest house and residence driveways. No trees are proposed to be removed. The site would be served by a private water system, two private septic systems and the County Fire Department. Access would be taken from private driveways via Alta/ Agua Caliente Roads, private Hollister Ranch roads.</p>	Neg	09/24/2007
2007081133	<p>Heritage Professional Center Chino Hills, City of Chino--San Bernardino</p> <p>The project is a mixed use project known as Heritage Professional Center. The applicant has proposed two different schemes: 1) The first scheme proposes to develop one two story hospital building, one two story medical office building, four single story medical office buildings, and approx. three retail buildings totaling 216,710 sq. ft. of building area. Scheme one also requires a Zone Change to change the zoning from Freeway Commercial (C-F) to General Commercial (C-G), a Development Agreement and a Conditional Use Permit to allow the hospital use to be located within the project. 2) The second scheme proposes to develop 2 two story medical office buildings, four single story medical office buildings, and three retail buildings totaling 214,410 sq. ft. of building area. Scheme two does not require a Zone Change, Development Agreement, or a Conditional Use Permit to allow the development. The applicant also proposes ancillary parking, landscaping and lighting as part of the development. Primary access for the project will be from Pomona Rincon Road. The applicant has proposed a statutory Development Agreement to facilitate project development.</p>	Neg	09/24/2007

2007071015	Filter Cake Disposal of the California Street Landfill Redlands, City of Redlands--San Bernardino The City of Redlands is considering entering into an agreement with the Mountain View Power Company (MVPC) to accept wastes generated at the Mountain View Power Plant's (Power Plant) wastewater treatment facility. This agreement is entitled Agreement for the Disposal of Filter Cake at the California Street Landfill (Agreement) and establishes the types of wastes and the terms under which these wastes will be accepted at the CSL. The filter cake is considered a water treatment sludge that is acceptable for discharge at Class 3 landfills which have Waste Discharge Requirements (WDR's). The current WDR's for the CSL allow the disposal of water treatment sewage sludge from the City's wastewater treatment plant. It is the intent of the City to approve the Agreement with the MVPC to accept filter cake produced at the Power Plant subject to the City obtaining authorization from the regulatory agencies to implement these activities.	NOD	
2007071043	Major Subdivision No. 06-013 (Meadow View); General Plan Amendment No. 06-007; Zone Change No. 06-008 Merced County --Merced To change the General Plan land use designation from Cressey SUDP General Commercial to Cressey SUDP Agricultural Residential, change the zoning designation from General Commercial (C-2) to Agricultural Residential (A-R) for 1.4 acres of a 27 acre parcel, and divide 27 acres into 11 one acre lots and a 13.8 remainder parcel.	NOD	
2007071133	Madera County Jail Expansion Madera County Madera--Madera A Master Plan for 2020 to increase the current number of inmate beds at the facility by 668 to bring to a total number of beds to 1,087 at the Madera County Jail. A Future Plan to include another 668 beds, replacing an existing structure, by 2040 is also proposed.	NOD	
2007072001	Conditional Use Permit (CUP) for a 65' Tall Flush-Mount Monopole-Style Wireless Tower Humboldt County Community Development Services Fortuna--Humboldt A Conditional Use Permit is required for the development of a 65' tall wireless communications tower on the subject +/- 3.75 acre parcel. The site is currently developed with a large warehouse storage facility and an ancillary office building. The "Q" combining zone stipulates the requirement of a CUP for Quasi-Public Uses, such as those regulated by the CA Public Utilities Commission (CPUC). As the height limit in the ML zone is 75', there are no exceptions required.	NOD

2005081128	High School No. 5 Moreno Valley Unified School District Moreno Valley--Riverside New approximately 200,000 square foot high school on approximately a 70-acre site. The proposed high school would provide seats for a maximum of 3,850 students in grades 9-12. School structures would include 110 classrooms, administration offices, a library, a gymnasium building, an outdoor pool, a physical education building, and a multi-purpose building with rooms for a kitchen, a theater, band, choir, drama, arts and shops, and laboratories. The school campus would also include a football field and a running track with bleachers; athletic fields for baseball, softball, and soccer, and hardcourts for tennis and basketball. The project would provide approximately 775 parking spaces.	EIR	10/11/2007
2006111075	Oleander Pump Station Transmission Pipelines Eastern Municipal Water District Perris--Riverside EMWD intends to construct approximately 6,000 lineal feet of 60-inch diameter pipeline to connect its Oleander Pump Station to its 1627 pressure zone and approximately 6,600 lineal feet of 36-inch diameter pipeline to connect its Oleander Pump Station to its 1705 pressure zone in an unincorporated area of Riverside County. The Oleander Pump Station, located north of the intersection of Oleander Avenue and Western Way within the City of Perris, is a part of the Perris Valley Pipeline project to convey potable water from the Metropolitan Water District of Southern California's Mills Water Treatment Plant to EMWD's service area. However, in order to convey potable water from the pump station to EMWD's service area, it is necessary to construct the two 24-inch pipelines. Upon completion, one pipeline would serve the 1627 pressure zone (east of I-215) and the pipeline would serve the 1705 pressure zone (west of I-215) thereby providing reliable, efficient water service to existing customers.	FIN	
2007081140	Camp Hope San Diego, City of --San Diego Site Development Permit (SDP) and release of community development block grant funding in the amount of \$500,000 for replacement of an existing "soft camp": on a 12.85-acre leasehold with a permanent camp and associated improvements. The proposed camp would consist of a two-story central lodge (7,755 square feet), a one-story nature center and one-story caretaker's cabin (2,942 square feet each), six two-story cabins (2,942 square feet each), a meeting circle, "swimming hole," basketball court, and archery range, as well as 4.1 acres of offsite improvements. The 12.85-acre leasehold is leased to the applicant by the City of San Diego.	MND	09/26/2007
2007081143	Garden District Specific Plan Stanton, City of Stanton--Orange The Garden District Specific Plan encompasses 18.4 acres and allows up to 321 dwelling units, which include a maximum of 30 live/work units that contain a maximum of 500 square feet of work space each. Overall, three different land uses form the land use plan for the Specific Plan area: low density residential, medium density residential, and medium-high density residential.	MND	09/26/2007

2007082152	<p>City of San Pablo Corporation Yard San Pablo, City of San Pablo--Contra Costa</p> <p>The City of San Pablo (CSP) Division of Public Works (DPW) engaged Ratcliff Architects to develop a program and planning criteria for a new Corporation Yard Facility at a City-owned two-acre site on Rumrill Boulevard (corner of California Avenue). Through a series of meetings with DPW and the Design Team, the operational goals of the DPW at this location were studied and prioritized. The net square footage of the proposed structures will be 45,050. These structures will include administrative offices, crew area, workshops and storage shops, yard storage areas, enclosed and cover parking areas and open parking.</p>	MND	09/26/2007
2006121056	<p>Irvine Technology Center (ITC) Mixed-Use Project Environmental Impact Report Irvine, City of --Orange</p> <p>The proposed project consists of a General Plan Amendment and Zone Change to allow for the demolition of eleven office/industrial/retail buildings on a 19.57 acre site and allow the development of a Mixed-Use project consisting of 1,000 residential dwelling units, 44,000 square feet of office space, and 30,000 square feet of retail/commercial space within Planning Area 36.</p>	NOP	09/26/2007
2007081142	<p>Sand Canyon Plaza Santa Clarita, City of Santa Clarita--Los Angeles</p> <p>The project is located in the City of Santa Clarita. Portions of the site are vacant. Another portion contains 42 mobile homes. The applicant is requesting a General Plan/Zone Change Amendment that would allow for a horizontal mixed-use project that would include residential, office, and commercial components. There would be 259 gated residential condominiums (attached and detached), approximately 127,000 sq. ft. of commercial space, and approximately 73,000 sq. ft. of office space. Both oak trees on the site will be removed and mitigated for, including one heritage oak tree. Bike and pedestrian trails would connect the residences to the shopping areas, and would be open to the public although privately maintained. A trail is proposed at the northern project boundary that would potentially connect to other neighborhoods and developments. There will be 1.6 million cubic yards of grading and all earthwork would be balanced on site. A Conditional Use Permit is required for the Planned Development Overlay, gating, height, shared parking, and dirt hauling. Should this project be approved, the exiting mobile home park would close. A Minor Use Permit would allow tandem garage parking for certain units.</p>	NOP	09/26/2007

2006111075	Oleander Pump Station Transmission Pipelines Eastern Municipal Water District Perris--Riverside The Oleander Pump Station Water Transmission Pipelines project is necessary to convey potable water from Eastern Municipal Water District's Oleander Pump Station .	NOD	
2007021068	Rapid Infiltration and Extraction (RIX) Enhancement Project San Bernardino, City of Colton--San Bernardino The City of San Bernardino Municipal Water Department is acting as CEQA lead agency for the Colton/San Bernardino Regional Tertiary Treatment and Water Reclamation Authority's expansion of its existing Rapid Infiltration and Extraction (RIX) facility. The RIX facility provides tertiary treatment of secondary treated effluent produced from the cities of San Bernardino and Colton wastewater treatment plants. The RIX facility was designed to provide tertiary treatment for 40 MGD of secondary treated effluent through percolation and extraction of treated effluent. However, due to infiltration issues at the existing percolation basins, the RIX facility is not operating at its design capacity. The purpose of this expansion is to return the RIX facility to its original design capacity by adding additional percolation basins and installing a tertiary treatment unit as a backup treatment system for the percolation basins. The proposed project will benefit the cities of Colton and San Bernardino by providing a reliable method of treating wastewater generated within those cities. This project will also benefit water quality in general by providing a reliable method of achieving water quality goals for the Santa Ana River Basin by allowing the RIX facility to comply with its waste discharge requirements.	NOD	
2007032159	Stormwater Attenuation and Floodplain Restoration Project Yreka, City of Yreka--Siskiyou Acquisition and development of a greenway corridor along Yreka and Greenhorn Creeks with enhanced fishing habitats, educational/ interpretive opportunities, recreation utilization, law enforcement and public security, and land acquisition.	NOD	
2007041100	San Joaquin River Water Quality Improvement Project Phase I, Part 2 Panoche Drainage District Firebaugh--Fresno, Merced The proposed project consists of the acquisition of up to 2,900 acres of land to expand the existing 4,000-acre Phase I In-Valley Treatment/ Drainage Reuse Facility to reach up to 6,900 acres of reuse area within the GDA. The proposed project would also install minor conveyance modifications and plant salt tolerant crops. Ongoing monitoring of soil and water constituents would be performed to protect groundwater and to assure that no irreversible changes occur to any of the project areas. Biotic monitoring also would be continued to monitor project impacts on wildlife.	NOD

2005011094	South Court Facility Orange County --Orange The project proposes construction of a new three story courthouse with basement and a new two story city hall building, library expansion, a potential new office building, and the demolition of the existing public defender's and district attorney's buildings. The courthouse would include 14 new courtrooms, offices, courtyard/plazas, and pedestrian pathways, a payment window, court support and jury facilities, a secure sallyport for transfer of custody, and a secured parking area for judges. Development of the new courthouse would add a total of 228,723 building gross sq. ft. (BGSF) to the existing structure, for a total of 262, 023 BGSF. The new city hall would be located near the southern project boundary and contain approx. 40,000 gross sq. ft. within a two story structure. The proposed library expansion would result in an additional 3,050 sq. ft. of floor space and would occur adjacent to the existing library along Crown Valley Parkway. The potential 61,000 sq. ft. office building would be located at the northeast corner of the project site at the intersection of Pacific Island Drive and Alicia Parkway. The proposed project would also include a surface parking lot with 914 parking spaces for the new courthouse building.	EIR	10/12/2007

	residential development in the County of Sonoma jurisdiction, and on the north, west, and south by commercial development within the City of Sebastopol.		
2007081144	General Plan Amendment Case No. 1, Map 113, Map 114; Zone Change Case No. 2, Map 113; Conditional Use Permit #6, Map 113; Conditional Use Permit #7, Map 113 Kern County Planning Department --Kern The project entails two conditional use permits (CUPs) the first of which is for the development of a surface mining and reclamation plan on 217 acres of a 231 acre project site. The second CUP is for the establishment of two batch plants, one asphalt and one concrete in addition to ancillary facilities, which would operate during the course of mining and continue to operate after cessation of mining. A change of zone classification from A-1 MH (Limited Agriculture- Mobile Home Combining) to A (Exclusive Agriculture) is necessary to accommodate the proposed batch plants as such facilities are only allowed in the A-1 District for temporary periods of time. Because of the proposed mine's design, the applicant is also seeking an amendment to the Circulation Element of the Kern County General Plan to eliminate the reservation of section and mid-section lines in the project area as major and secondary highway alignments, respectively for future road usage. Discretionary actions include: (a) A conditional use permit to allow a surface mining operation and development of a reclamation plan in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975 in a A zone district (CUP 6, Map 113); (b) A conditional use permit to allow permanent asphalt and concrete batch plants in a A zone district (CUP 7, Map 113); (c) A change of zone classification from A-1 MH to A or more restrictive zone district (ZC 2, Map 113); and (d) and (e) Amend the Circulation Element of the Kern County General Plan to eliminate future road reservations on section and midsection lines within the project boundaries as major highway and secondary highway alignments.	NOP	09/27/2007

2007081149	<p>Palm Ranch Irrigation District Arsenic Treatment Facility Palm Ranch Irrigation District Lancaster--Los Angeles</p> <p>The District plans to construct a treatment facility to reduce Arsenic concentrations and allow it to resume operation of its Wells No. 7 and 8. The proposed Arsenic treatment facility will utilize a coagulation/ filtration treatment to remove Arsenic. The proposed Arsenic treatment facility will be designated to accommodate a maximum flow rate of 1,150 gallons per minute (gpm) and a minimum flow rate of 550 gpm. Water from the Well No. 7 will be pumped through a pipeline to the Well No. 8 site and meet with water from Well No. 8 at one combined point. The combined flow will be treated for Arsenic using coagulation/ filtration treatment. Chemicals will be injected into the influent to the Arsenic treatment facility through a pipeline and mix with the raw water from Wells 7 and 8. The chemicals are used to help remove Arsenic from the raw water supply. The chemicals will be stored in tanks onsite and will include secondary containment. The partially treated water then flows into filter vessels, where the Arsenic will be captured. The fully treated water will then flow into the District's distribution system.</p>	Neg	10/12/2007
2007082155	<p>2007-18 Tentative Parcel Map Calaveras County Planning Department --Calaveras</p> <p>The applicant is requesting approval to subdivide the 6.51 +/- acre subject property into four parcels with 0.67 +/- acres on Parcel 1, 1.45 +/- acres of Parcel 2, 2.05 +/- acres on Parcel 3, and 2.55 +/- acres on Parcel 4. 2006012097	Elverta Park Sacramento County Citrus Heights--Sacramento The project requires a General Plan Amendment, a Community Plan Amendment and Rezone from Agricultural-Residential use to Residential use. The project features a total of 243 residential lots divided into three residential densities: RD-5, RD-15 and RD-20. It proposes 62 RD-5 lots, 114 RD-15 lots and 67 RD-20 lots. The 38 acre project site also includes a 2.4 gross acre water quality area in the southeast corner and a four gross acre park site in the west central area.	EIR	10/15/2007
2006112015	Snowcreek VIII, Snowcreek Master Plan Update -2007 Mammoth Lakes, City of Mammoth Lakes--Mono The project consists of adoption by the Town of the 2007 Snowcreek Master Plan to update and address proposed build out of the Snowcreek Master Plan area (development that is also referred to as Snowcreek VIII). The Snowcreek VIII or Project is intended to fulfill the vision of the previously approved Snowcreek Master Plans and the Project EIR will update the Town's 1974 and 1981 EIRs for the previous iterations of the Snowcreek Master Plan. The Project has been designed to integrate residential, resort, recreation, retail, and public amenities components. *The 1,050 unites are in addition to those units that are already constructed or have been previously approved.	EIR	10/22/2007
2007022077	Caples Lake Boat Launch and Access Road El Dorado Irrigation District --Alpine The project includes boat launching facilities, parking, ancillary facilities (e.g., restroom, signage), a new access road, a well, and improvements to State Route 88 at the access road entrance.	EIR	10/15/2007
2007081152	Tentative Tract Map No. 32722 Riverside County Planning Department --Riverside Tentative Tract Map No. 32722 proposes a Schedule A subdivision of 5.66 acres into 16 single family residential lots with a minimum lot size of 7,200 sq. ft. and one 9,227 sq. ft. remainder lot.	MND	09/28/2007
2004011064	Pala Mesa Resort San Diego County Department of Planning and Land Use Fallbrook--San Diego The project proposes changes to the Specific Plan to accommodate the following: improvements to the existing Wedding Pavilion, no more than 78 condo/hotel units, construction of a spa with no more than 30 hotel suites, improvements to the existing lodge with resort commercial amenities and capacity for no more than 54 hotel rooms, no more than 148 townhomes located adjacent to the golf course, and improvements to the driving range and golf course.	NOP	09/28/2007
2006121016	Tapia Ranch Project/Project No. 02-196/Tentative Tract Map No. 53822 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles A project to subdivide the property, which consists of 22 existing parcels, into 405 single-family residential units, 31 street lots, 33 HOA/basin lots, 5 open space lots, one park/recreation lot and two water tank lots. Approximately 308.5 acres out of the total 1,167 acres will be graded. Offsite areas that would be improved in conjunction with the proposed project are located to the west of the project site	NOP	09/28/2007

	and include portions of Castaic Road, Tapia Canyon Road, and the construction of a new bridge spanning Castaic Creek. Project is also requesting an Oak Tree Permit to remove approximately 30 oak trees. A Conditional Use Permit is also required for development within a hillside management area which will include grading with balance on site, and density control. The site is currently vacant and previously used for limited oil extraction.		
2007021132	Rider Distribution Center Project Perris, City of Perris--Riverside The proposed project would involve construction and operation of the 28.2 acre Rider Distribution Center for light industrial and warehouse distribution uses. The project would consist of one tilt-up concrete building totaling approximately 642,072 square feet. Four small office areas would be constructed at each of the four building corners. The project would include landscaping and onsite extension of existing utilities within Rider Street and Redlands Avenue. The proposed project includes construction of a water quality basin located at the east property boundary.	NOP	09/28/2007
2007081151	Oakmont II - Ramona Expressway Perris, City of Perris--Riverside The proposed construction consists of approximately 1,611,000 square feet on the approximate 80-acre subject property. Other improvements would consist of property line screen walls, concrete or asphalt pavement, project required street improvements and landscaping. The buildings and structures would consist of a tilt-up structure supported by a conventional slab-on-grade foundation system with perimeter-spread footings and isolated interior footings. The project would have primary and secondary access from Markham Street and Indian Avenue.	NOP	09/28/2007
2007082162	Quail Acres Estates Tentative Subdivision Map (File # TSM 06-08) Butte County Oroville--Butte Tentative Subdivision Map to divide a 4.5 acre parcel into 18 single family residential parcels and a detention pond parcel. One of the residential parcels is already developed with a dwelling. Project will be served by public water and sewer.	Neg	09/28/2007
2001041082	Harbor/Pier Area Zoning Specific Plan, Coastal LUP & General Plan Amendments Redondo Beach, City of Redondo Beach--Los Angeles The project consists of amendments to the land use designations and development standards for property in the Harbor and Pier area within a portion of the area formerly known as the Heart of the City Specific Plan. Amendments are proposed to the General Plan, Harbor/Civic Center Specific Plan, Coastal Land Use Plan and the Coastal Zoning Ordinance. These planning documents currently have conflicting standards and it is required that they be brought into consistency. The previously circulated IES determined that all significant impacts were analyzed in an earlier EIR and that determination is not changed in the recirculated IES.	Oth	09/28/2007

2002112068	Caldecott Improvement Project Caltrans #4 Oakland, Orinda--Alameda, Contra Costa Construct either a 2-lane or 3-lane bore north of the existing tunnels.	Oth	
1998071096	Crestlake Estates; TM5082RPL2, AD 95-046, Log No. 95-14-011 San Diego County San Diego--San Diego The Reduced project alternative proposed for approval would create 60 residential lots (58 clustered), 3 open space lots totaling 202.9 acres, and two lots for water supply pump station and a water supply reservoir, on the 294.1-acre site.	NOD	
2005062036	Windsor Mill Project (GPA/ZC/DA/UP/MJS 04-10) Windsor, City of Windsor--Sonoma As part of a residential development located South of Windsor River Road and east of the Northwestern Pacific Rail Road and east of the Northwestern Pacific Railroad tracks in Windsor, Sonoma County, a vehicular bridge will be constructed over Windsor Creek at Bell Road and a pedestrian bridge will be constructed over the creek immediately west of Windsor Creek School. The bridges will be clear-span and will be at least 12 inches above the 100-year flood elevation. An existing 24-inch storm drain outfall, perched above the level of ordinary high water, will be removed from the area of the vehicular bridge. An 8-inch sewer main and an 8-inch water main will be placed under Windsor Creek immediately east of Bell Road in pipe casings installed using jack and bore to avoid impacts to the creek. Temporary bore pits will excavated outside the top-of-bank on either side of the stream. Issuance of a Streambed Alteration Agreement Number is pursuant to Fish and Game Code Section 1602. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0296-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant.	NOD	
2005092070	Lake Davis Pike Eradication Project Fish & Game #2 --Plumas The Department of Water Resources has petitioned to temporarily reduce or cease streamflow releases from Lake Davis to Big Grizzly Creek pursuant to Permits 15254 and 15255 (Applications 16950 and 21443) to support the Department of Fish and Game's (DFG) (Lead Agency) selected project to eradicate northern pike from Lake Davis. After certification and consideration of the EIR, DFG approved the project for chemical treatment with rotenone of Lake Davis and its tributaries. The project specifics are described in the CEQA Findings and attachments/exhibits approved by the DFG on January 13, 2007 and filed with OPR on January 23, 2007.	NOD	
2006041048	Planada Wastewater Treatment Plant Upgrade & Expansion Planada Community Services District --Merced The upgrade and expansion project proposes the expansion and upgrade of the wastewater treatment plant to allow for the treatment and disposal of 1.2 million gallons of wastewater per day, and also changes the method of disposal from disposal into a surface water resource to irrigation of non-human consumption crops. 	would be a maximum of 413 resort keys with a minimum of 285 hotel guestrooms. Approx. 18,000 sq. ft. of visitor-serving commercial uses would also be developed. An existing historic residence (the Graves House located at 102 North Pacific Street) would be relocated from its current location on the South Block to a new location on the North Block and be incorporated into the public plaza. The residence would undergo restoration and adaptive rehabilitation for re-use, such as a coffee house, restaurant, or other visitor serving use compatible with the character of the structure.		
2007051013	Former Naval Training Center Landfill Remediation San Diego County Regional Airport Authority San Diego--San Diego An inactive landfill covering approximately 32 acres is located on the western edge of San Diego International Airport (referred to as the former Naval Training Center Landfill). The SDCRAA proposed to remediate the former landfill in accordance with local, state and federal guidelines for landfill remediation and use for airport purposes. The landfill remediation will remove municipal solid waste, burn ash, and some surrounding soils to remove a potential source of groundwater contaminants and reduce exposure to environmental and human receptors.	EIR	10/15/2007
2007051135	High Place East and West Affordable Housing Project Santa Monica, City of Santa Monica--Los Angeles The project would include demolition of 15 one- to two-story residential structures containing 28 residential units, as well as associated garages and accessory buildings, to construct a 45- unit condominium development and a 47- unit apartment (rental) development for a total of 92 proposed units, all to be designated deed restricted for occupancy by low- or moderate-income households.	EIR	10/15/2007
2007061031	City of Vernon General Plan and Zoning Ordinance Update Vernon, City of Vernon--Los Angeles The City of Vernon is an exclusively industrial city, incorporated in 1905 to meet the needs of business owners. Vernon has undertaken a comprehensive update of its General Plan and comprehensively revised the Zoning Ordinance to focus land use policy and regulations on accommodating specific types of industrial businesses, and to re-emphasize policies and standards that prohibit establishment of any new residences or other uses that are clearly incompatible with Vernon's industrial focus. The General Plan consists of six elements: Land Use, Circulation and Infrastructure, Housing, Safety, Noise, and Resources (fulfills requirements of Open Space and Conservation elements required by state law). The Land Use Element provides for a single land use category- Industrial- and establishes a commercial overlay for limited areas of the City. Similarly, the Zoning Ordinance provides for a single zone- General Industrial (I)- and three overlay zones: Commercial, Slaughtering, and Rendering. The Noise Element and the Zoning Ordinance set forth new noise standards for the City consistent with its industrial focus.	EIR	10/15/2007

2007081155	<p>Western Municipal Water District's 2320 Pressure Zone Tank Site, Phase III Western Municipal Water District Riverside--Riverside</p> <p>An Initial Study has been prepared to assess the potential for any significant environmental effects associated with the Western Municipal Water District's (District) 2320 Pressure Zone Tank Site, Phase III. The purpose of the proposed project is to ensure adequate water supply and service to the District's customers under the South Added Facilities Area Master Plan. Phase III of the interim plan includes the construction of the 2320 Pressure Zone water tanks. The tank site is located at the northwest intersection of Rolling Meadows Frive and Hidden Valley Road. The 2320 Pressure Zone Tanks will include two water tanks with a capacity to hold 5.4 million gallons of water. The project also includes a 0.7 mile of 24 inch water line within the Rolling Meadows Drive right-of-way (from Rocky Bluff Road just north of Hidden Valley Road), designed to convey potable water from the proposed 2320 Pressure Zone water tank.</p>	MND	10/01/2007
2007081158	<p>Site Plan Review 07-04 Lancaster, City of Lancaster--Los Angeles</p> <p>The project consists of the demolition of an abandoned 1,284 sq. ft. single family residence and the construction of three buildings totaling 24,150 sq. ft. Medical use would occupy a maximum of 4,000 sq. ft. while the remainder would consist of office/ industrial use.</p>	MND	10/01/2007
2007082164	<p>Environmental Determination for Colusa County Department of Public Works, ED#07-103 Colusa County --Colusa</p> <p>The Colusa County Department of Public Works proposes to remove the existing substandard bridge and replace it with a new bridge. Norman Road is a 240 foot wide paved road in the bridge vicinity. The existing substandard bridge is 30 feet long and 26 feet wide and constructed of concrete and steel. A temporary detour will be constructed approx. 50 feet to the north of the existing bridge. This detour will consist of a 24 foot wide gravel road constructed with fill material with a culvert to allow for the maximum water flow expected in the Colusa Basin Drain. The new bridge will be 76 feet long and 35 feet wide and constructed of concrete and steel. Bridge approaches will be built to increase safety.</p>	MND	10/01/2007
2007091005	<p>Atwater Avenue One Bridge Widening Project Atwater, City of Atwater--Merced</p> <p>The proposed project consists of the installation of a bridge over Canal Creek at Avenue One. The Avenue One Bridge would be installed as a two span bridge with eight support pile extensions to be constructed within Canal Creek. The eight support pile extensions are in addition to the four existing support pile extensions that currently support the Avenue One Bridge. The orientation of the pile extensions would be designated to run parallel to Canal Creek within the middle of the channel. The purpose of the proposed project is to upgrade the bridge to conform to the City's arterial roadway standards and to provide adequate means of crossing Canal Creek for current and future residents in the developing area. The proposed project site encompasses approx. 0.1 acres.</p>	MND	10/03/2007

2007081153	<p>Young Nak Retreat Center Project No. 03-221 Los Angeles County Department of Regional Planning --Los Angeles</p> <p>The proposed project is a request for a significant ecological area conditional use permit (CUP), Parking Permit, and Oak Tree Permit for an unauthorized church retreat center and its expansion. The expansion plan consist of the construction of six new buildings, an outdoor amphitheater, a bus/car parking area, outdoor patio, swimming pool, installation of new septic systems and an entryway monument/sign/water feature. One additional water tank will be required on site to increase the on-site water storage from 20,000 gallons to 50,000 gallons. The six buildings proposed for construction consist of the following: a) chapel/assembly room (3,000 sq. ft.); b) two-story dormitory building with common kitchen and two meeting rooms (13,000 sq. ft.); c) dining hall and pool patio (5,600 sq. ft.); d) two meeting rooms with center outdoor patio (4,000 sq. ft.); and e) office and store (550 sq. ft.). The total occupancy load for all proposed structures is 1,438 guests. The parking permit request is to permit the proposed five (5) passenger bus stalls and thirty-two (32) car parking spaces to satisfy on-site parking requirements which is approximately 62-65 spaces.</p>	NOP	10/01/2007
2007081156	<p>Tehachapi Renewable Transmission Project Public Utilities Commission --Kern, Los Angeles, San Bernardino</p> <p>SCE proposes to construct, use, and maintain a series of new and upgraded high-voltage electric transmission lines (T/Ls) and substations to deliver electricity generated from new wind energy projects in eastern Kern County. The proposed Tehachapi Renewable Transmission Project (TRTP) involves several types of transmission upgrades, including:</p> <ol style="list-style-type: none"> 1) construction fo a new 500kV T/Ls; 2) construction of a new single-circuit 200kV T/Ls; 3) re-building or existing 220kV lines to 500kV standards; 4) re-building of existing single-circuit T/Ls to double-circuit T/Ls; 5) relocation of several existing 66kV subtransmission lines; 6) construction of a new 500kV substation; and 7) upgrades or expansions of five existing substations. 	NOP	10/01/2007
2007081157	<p>Gallant and Cassan Zone Amendment (GA-5-07, ZA-5-07) Oceanside, City of Oceanside--San Diego</p> <p>The project is a change in land use designation and zoning associated with ten parcels of land in an area of the northwest portion of the City of Oceanside. The parcels contain the Prince of Peace Abbey and the San Luis Rey River. This stretch of the river is included in the San Luis Rey River Flood Control Project and to implement the flood control the City needs to acquire certain portions of the land. To accomplish this, land purchases and exchanges were done between the City and the landowners in the early 1990s. This current project involves the results of such purchases and exchanges between and among the City, the Prince of Peace Abbey and the land owners of the pre-existing industrial aites.</p>	NOP	10/01/2007
2007082166	<p>Santa Clara Station Area Plan San Jose, City of San Jose, Santa Clara--Santa Clara</p> <p>The Santa Clara Station Area Plan proposes land use, street network, and zoning changes related to planning in proximity to the future Santa Clara BART station. The City of Santa Clara, City of San Jose, and VTA are working together on the</p>	NOP	10/01/2007

	Station Area Plan for the area around the Santa Clara Transit Center. The project Planning Area encompasses 432 acres of land in the cities of San Jose and Santa Clara, incorporating land within a half-mile radius of the Transit Center as well as adjacent under-utilized and vacant land. Proposed land use changes associated with the Santa Clara Station Area Plan could potentially provide capacity for up to an additional 2,500 housing units for a total of approximately 3,500 housing units in the Planning Area. Capacity for roughly five million square feet of non-residential development could also be added for a total of approximately six million square feet in the Planning Area. Complementing new development, up to seven acres of new Public Parks and Open Space are also proposed in the Planning Area. New additions to the street network in the Planning Area are also proposed.		
2007082168	Bayview Waterfront Project San Francisco Redevelopment Agency San Francisco--San Francisco The project would include new plans for the Candlestick Point, Hunters Point Shipyard, and India Basin Shoreline areas of San Francisco. The project encompasses an approximately 780-acre area east of US 101 in the southeast area of the City and occupies the waterfront area from India Basin to approximately Candlestick Point. The plan consists of a new stadium for the San Francisco 49ers and a mixed-use community with residential, retail, office/research and development/industrial, civic and community uses, and parks and recreational open space.	NOP	10/01/2007
2007082169	Laguna Ridge Town Center Elk Grove, City of Elk Grove--Sacramento The proposed project is for a Specific Plan Amendment and Rezone to enlarge the Town Center commercial area in the Laguna Ridge Specific Plan area. The land use would be reconfigured and sites that are currently zoned High Density Residential/20 dwelling units per acre (RD20), Medium Density Residential/15.1 dwelling units per acre (RD-15), and Medium Density Residential/10 dwelling units per acre (RD-10) would be rezoned to a mix of RD-20 and shopping center (SC).	NOP	10/01/2007
2007081159	Poole Grading Permit ED 06-385 San Luis Obispo County Arroyo Grande--San Luis Obispo Request by William and Nancy Poole for a grading permit to grade for a driveway and building pad for the construction of a single family residence. An existing single family residence of approx. 1,200 sq. ft., located along the western property boundary, is proposed for demolition. The proposed driveway is approx. 1,100 feet long and extends from the center of the property's Corbett Canyon Road frontage eastward to the proposed building site at the eastern portion of the property. Associated site improvements, including water tanks, a septic system, and extension of utility lines are further proposed. Additionally, as part of the driveway construction, a culvert (5 feet in diameter) is proposed to be placed in the blue-line stream to provide a crossing, and a retaining wall approx. 120 feet in length and varying in height from 1 foot to 7 feet is proposed to avoid removal of oak trees through excess grading. The proposed grading would result in the disturbance of approx. 39,700 sq. ft. of an 8.77 acre parcel, including approx. 2,750 cubic yards of cut and fill. The proposed project is within the Residential Rural land use category and is located on the east side of Corralitos Road (at 350 Corralitos Road), approx. 800 feet north of Hischier Lane, in the Arroyo Grande Fringe,	Neg	10/01/2007

	approx. 2.5 miles northeast of the City of Arroyo Grande. The site is in the San Luis Bay (Inland) planning area.		
2007082163	Approval of a Major Waste Tire Facility Permit for Lakin Tire West, Inc., Building 2 California Integrated Waste Management Board Santa Fe Springs--Los Angeles The project is to issue a major waste tire facility permit (TPID No. 1464957) to Lakin Tire West, Inc. for its facility located at 15055 Spring Avenue, Santa Fe Springs, CA 90670. The major waste tire facility permit will authorize the storage of up to 25,000 waste tires and require those tires to be stored in compliance with the State's waste tire storage and disposal standards and permit conditions intended to minimize potential impacts to public health and safety and the environment. The approval and issuance of a waste tire facility permit is considered a discretionary decision and is therefore subject to the CEQA. The local planning department considered the storage of tires at this location to be an approved use of the property and did not require a conditional use permit prior to the establishment of the business. 2007082165	Corrective Action Remedy for Chloroform Impacted Area at Hitachi Global Storage Technologies, Inc. Toxic Substances Control, Department of San Jose--Santa Clara This project is for the Department of Toxic Substances Control's (DTSC) approval of operation of a 2-Phase (Trademark) Extraction system to remove chloroform from soil, soil gas, and groundwater in the vicinity of former Building 028J on the Redevelopment Property of the Hitachi Global Storage Technology, Inc. (Hitachi GST) facility. The Hitachi GST facility is located at 5600 Cottle Road, San Jose, California. The former building 028J was located on the southwestern portion of the facility, near the intersection of Cottle Road and Highway 85. Hitachi GST conducted site investigations in coordination with demolition activities on the Redevelopment Property and has prepared Completion Reports which summarize the investigation results. During these investigations, a release of chloroform was discovered in the vicinity of former Building 028J.	Neg	10/15/2007
2007082167	El Dorado 89 Segment 1- Luther Pass to Meyers Water Quality Improvement Project Caltrans #3 South Lake Tahoe--El Dorado The project would implement water quality improvement measures along State Route 89 in El Dorado County between Luther Pass and US 50 to comply with National Pollutant Discharge Elimination System permit requirements and implement elements of the Lake Tahoe Basin Environmental Improvement Project.	Neg	10/01/2007
2005122039	Angora 3 Erosion Control Project and Angora Creek Fisheries Enhancement Project El Dorado County South Lake Tahoe--El Dorado The County proposes to construct and maintain storm water facilities and implement erosion control practices in the Mtn. View Estates subdivision, as identified in the Lake Tahoe Environmental Improvement Program. Also included in this project is a fisheries enhancement project to improve fish passage and habitat. Erosion control elements of the project are being expedited to mitigate impacts from the Angora Fire.	NOD
