

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

August 16-31, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16-31, 2009.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, August 17, 2009</u>			
1993052016	USBR/EI Dorado County Service Under P.L. 101-514 El Dorado County --El Dorado NOTE: Review Per Lead The proposed action/project is a new CVP M&I Water Service Contract between the U.S. Bureau of Reclamation and El Dorado County Water Agency for up to 15,000 acre-feet per annum (AFA). This contract would have a 40-year term and would be subjects to renewals. EDCWA intends to allocate this new contract water to both El Dorado Irrigation District (EID) and Georgetown Divide Public Utility District (GDPUD) based on these parties individual water needs and timing requests.	EIR	10/16/2009
2008082060	Estates Reservoir Replacement Project East Bay Municipal Utility District --Alameda NOTE: Review Per Lead The proposed project entails demolition of the Estate Reservoir, total removal of the Estates Reservoir roof, features and supporting structures, and construction of 2 buried 3.3 million gallon replacement tanks. The entire reservoir bowl will be landscaped with a mixture of drought tolerant, native grasses and shrubs, interspersed with trees. Existing landscaping, including trees that screen the site along Estates Drive will be preserved. The project also includes improvements at the Montclair Pumping Plant, specifically upgrade of the existing pumps, motors and related appurtenances within the existing structure.	EIR	10/15/2009
2001042115	Marin-Sonoma Narrows HOV Widening Project Caltrans #4 Petaluma, Novato--Sonoma, Marin The California Department of Transportation and the Federal Highway Administration propose to improve a 26.0-kilometer, or 16.1-mile segment of US 101, from Route 37 in the City of Novato (Marin County) northward to the Corona Overcrossing in the City of Petaluma (Sonoma County). The improvements involve, among other upgrades, constructing High Occupancy Vehicle lanes, widening and realigning portions of the roadway, construction of new interchanges, upgrading drainage systems, and construction of new frontage roads and bikeways.	FIN	
2002021009	Schuyler Heim Bridge Replacement and SR-47 Expressway Project Caltrans #7 Long Beach, Los Angeles, City of--Los Angeles The proposed Schuyler Heim Bridge Replacement and SR-47 Expressway project would replace the seismically-deficient vertical lift bridge with a fixed span bridge across the Cerritos Channel, and either construct an elevated four lane expressway from Terminal Island to Alameda Street, or construct an elevated four lane extension of SR-103 to Alameda Street. Six alternatives are evaluated in the Draft Recirculated EIR/Draft Supplemental EIR.	FIN

2009081054	<p>Le Grand to Merced Caltrans, Planning Merced--Merced</p> <p>As part of its program to improve intercity passenger rail service, the State Department of Transportation, Division of Rail is proposing to upgrade the capacity of the BNSF Railway Company's existing San Joaquin Valley railroad corridor by installing a second main track from Merced to Le Grand. The whole corridor currently under consideration is located between the cities of Bakersfield and Oakland and Bakersfield and Sacramento, CA. The proposed project under consideration consists of ~16.43 miles of railway corridor from Milepost 1039.93 to Milepost 1056.36 located within the communities of Le Grand, Planadam Turtle, and Kadota and the City of Merced. The proposed project extends from about 0.25 mile northwest of M Street, within the City of Merced, southeast to about 0.04 mile northeast of Deadman's Creek within the community of Le Grand.</p>	JD	09/15/2009
2009021050	<p>Zone 2 Moratorium Ordinance Revisions (Planning Case No. ZON2009-00007) Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles NOTE: Revised</p> <p>The proposed "Zone 2 Moratorium Ordinance Revisions" would create a new exception category in the City's Moratorium Ordinance (Ch 15.20 of the City's Municipal Code) to allow the development of 16 undeveloped lots in Zone 2 of the City's Landslide Moratorium Area. This action is in response to the CA State Court of Appeal's decision in the case of Monks v. Rancho Palos Verdes, which found that the City's prohibition against the development of undeveloped lots in Zone 2 was a taking and an impermissible impediment to the development of the plaintiffs' lots. Within Zone 2, there are currently 47 undeveloped lots, of which 16 lots are owned by the plaintiffs in the Monks case. The proposed project could lead to the development of up to 16 new single family residences.</p>	MND	09/15/2009
2009081055	<p>General Plan/Zoning Amendment No. 2006-26; Conditional Use Permit No. 2006-43 (Midpines Bible Church) Mariposa County --Mariposa</p> <p>A proposal to amend the General Plan land use designation on the 7.75 acre parcel from Rural Economic to Residential and to rezone the property from Resort Commercial to Mountain Home. An 8,440 sf footprint church structure and 2 parking lots accommodating 75 vehicles and a 1,980 sf footprint parsonage are proposed.</p>	MND	09/15/2009
2009081056	<p>Hosking Avenue/State Route 99 Interchange - New Connection Project Caltrans #6 Bakersfield--Kern NOTE: Review Per Lead</p> <p>Caltrans District 6, as assigned by the Federal Highway Administration, and in conjunction with the City of Bakersfield, is proposing a new public road connection via an interchange on State Route 99 at Hosking Avenue (Post Mile 18.5). The proposed interchange would replace the existing Hosking Avenue overcrossing (one lane in each direction) with new structure with 3 lanes in each direction and sidewalks and shoulders on both sides. The connection to State Route 99 would be accomplished with a partial cloverleaf interchange. Loop on-ramps would provide access to State Route 99 for eastbound-to-northbound and</p>	MND	09/17/2009

	westbound-to-southbound traffic, while spread diamond off-ramps and direct on-ramps would serve traffic in the northbound and southbound directions.		
2009081058	Capistrano Valley High school Performing Arts Facility Capistrano Unified School District Mission Viejo--Orange NOTE: Review Per Lead	MND	09/16/2009
	The District proposes to construct and operate a 470 person-capacity performing arts theater and the associated vehicle access (including for fire trucks and backstage props). The new theater would be 2 stories and 29,801 sf (26,552 sf for the first floor and 3,249 sf for the second floor). The new construction would replace the existing courtyard and a portion of the turf-covered athletic field. The proposed project would also require removal of 5 portable classrooms, and a new paved vehicle access would be provided from the east parking lot to the new performing arts facility.		
2009081059	Dana Hills High School Performing Arts Facility Capistrano Unified School District Dana Point--Orange NOTE: Review Per Lead	MND	09/16/2009
	Construct and operate a new performing ats theater in DHHS. The new 470 person-capacity building would contain stage, seating area, lobby, storage, dressing room, staff office, control room, practive room, scenery shop, black box theater, and other ancillary areas, totaling 30,560 sf (28,247 sf for the 1st fl and 2,313 sf for the 2nd fl). The maximum height would be 54'8" high for the stage area, 42' for the house seating area, and 14' to 24' high for various rooms and offices. The proposed project would require removal of 5 portable classrooms and 52 parking soaces. The portable classrooms would be removed to racquetball court and relocate the tennis courts to south of the athletic field.		
2009081060	General Plan Amendment/Zone Change No. 08-1746 Bakersfield, City of Bakersfield--Kern The project will include a General Plan Amendment to change the land use from Low-Medium Density Residential to Office Commercial on 14.4 acres, LMR to High Density Residential on 33.4 acres, and LMR to General Commercial on 20 acres. The project will also include a zone change on the same 68 acres, plus a zone change on a 19 acre parcel to the northwest. The zone change will include One Family Dwelling to Professional & Administrative Office on 14.4 acres, One Family Dwelling to High Density Multiple Family Dwelling on 33.4 acres, R-1 to Regional Commercial on 20 acres, and E to Regional Commercial C-2 on 18.96 acres. The project will include the development of ~140,000 sf of professional office space, 290,000 sf of retail space and 600 of multi-family dwelling units. On the 19 acre parcel to the northwest, a site plan for a church site has been approved by the County. The proposed zone change on the 19 acre parcel is to make the City zoning consistent with City land use of general commercial and County zoning already approved by the Board of Supervisors. 2009082039	Alco iron & Metal Company, PLN2009-00016, KKN Properties, LLC San Leandro, City of San Leandro--Alameda The proposed project is an in-fill development project for the "Alco Iron and Metal Company" on a site which encompasses 5.565 acres. The project includes demolition of a portion of an existing industrial building and re-use and an addition of ~24,850 sf of warehouse space, resulting in a 62,850 sf building. Existing offices within the building will be re-used to house the company's administrative and sales offices, with the remaining areas devoted largely to warehousing and small portion to fabrication. The site will contain 75 paved, off-street parking spaces. Except for dedicated storage areas for empty metal storage containers, there will be no other outdoor storage or activities. As part of this project, landscape improvements along the street frontages will be provided.	MND	09/15/2009
2009082040	Fort Bragg Skate Park Fort Bragg, City of Fort Bragg--Mendocino NOTE: Review Per Lead Construct 10,800 sf, in-ground, concrete skate park including bowl, stairs, curb, rails, and ramps with construction and installation of site amenities: a 5 ft tubular steel fence, signage at the project entrance on Willow Street, bicycle racks, benches, drinking fountain, landscaping and irrigation, posting of skate park rules and tubular steel perimeter fencing.	MND	09/23/2009
2009082041	Holiday Inn Watsonville, City of Watsonville--Santa Cruz The project consists of the construction of a 5 story 105,600 sf, hotel on a vacant 48,225 sf parcel in the Industrial Park zoning district including a Special Use Permit and modification with Design Review, and variance. The project includes a variance to the 25 ft front yard setback to allow a 2 ft extension by a small cantilevered portion of the front facade. The project also includes a Use Permit for building over 35 ft in height and the service of alcohol in the facilities installation of the facilities.	MND	09/15/2009
2009021009	California Valley Solar Ranch (SunPower) Conditional Use Permits (DRC2008-00097, DRC2009-0004) San Luis Obispo County San Luis Obispo--San Luis Obispo Request by SunPower-California Valley Solar Ranch for a 250 megawatt (MW) photovoltaic solar power plant to be installed over an approximate 4,365 acre (6.8 square miles) area; and establishment of a 23-acre surface mine.	NOP	09/15/2009
2009081053	UCSD East Campus Bed Tower Project University of California, San Diego La Jolla--San Diego The project is proposed at UCSD Medical Center La Jolla. The proposed new construction associated with the project would include a 360,000 gsf bed tower with a helicopter pad on top, and a 40,000 gsf central plant to support the proposed new hospital facilities. Development would occur west of the existing hospital.	NOP	09/15/2009

	will be located entirely within the street right-of way.		
2009082045	Sonic Drive-in Vacaville, City of Vacaville--Solano The project proposes to occupy an existing 2,604 sf building with drive-through lane at 151 Bella Vista Road with a Sonic drive-in restaurant. As part of this project the applicant is proposing to buy and use 17 parking spaces currently located in the City's adjoining park and ride lot. In return the applicant will pay for the construction of replacement spaces in the adjacent City-owned parcels on Davis Street which will be added to the City's parking facility.	Neg	09/15/2009
2005111015	Plant 40 Disposable Resin Ion Exchange System for Uranium Removal Project East Valley Water District Highland--San Bernardino NOTE: Addendum no. 1 The resin ion exchange unit will be located within the existing graded and fenced Plant 40 compound. The compound is located on 3rd Street about 500 feet east of Palm Avenue in the City of Highland, San Bernardino County. The sight is near the southeast corner of Section 4 of TIS, R3W SBM as shown on the USGS - Redlands Quadrangle 7.5 minute series topographic. Water produced at EVWD's Well 40A occasionally contains uranium concentrations that exceed the state standard of 30 ug/l. The proposed project is the construction and operation of the Well 40A Resin Ion Exchange system. Water from Well 40A will be pumped through the resin ion exchange unit where the uranium will bind with the resin, thereby allowing the water leaving the unit to meet the California Department of Health Services Drinking Water standards for use in the EVWD's system. During the initial start-up of the facility, water from the treatment unit will be pumped into mobile storage tanks and sampled. At this time it is forecast that water pumped to the tanks will be delivered to the District's surface water treatment facility located adjacent to City Creek just northerly of Highland Avenue for treatment and blending. It is also possible that the test pump water, if of acceptable quality, will be discharged as surface flow from the site.	Oth	
1999041103	Southern Trails Pipeline Project California State Lands Commission Authorize the acceptance of a lease quitclaim deed from Questar Southern Trails Pipeline of School Lands. Authorize Amendment of Lease no. PRC 8255.2, a General Lease - Right of Way Use, to revise the lease on the school lands premises. Authorize the Issuance of a new 20 yr General Lease - Right of Way Use to Southern California Gas Company, beginning August 11, 2009, for use and maintenance of an existing underground 16 inch pipeline for the transmission of natural gas, removal of one existing block valve, replacement of one existing block valve, and upgrading of one existing cathodic protection rectifier. 2007062014	Fernandez Minor Subdivision and Secondary Dwelling Unit (SDU) or Guest House Humboldt County --Humboldt A minor subdivision to divide an approximate 26.6 acre parcel into two parcels of approximately 10.1 acres and 16.5 acres. The property is developed with three single family residences. One of the residences on proposed Parcel 1 was placed without Building Permits and is a violation. The subdivision approval is conditioned on one of three of the following options occurring prior to recordation of the map: (1) the removal of this unit in the event that the Commission cannot make the required Secondary Dwelling Unit (SDU) findings per §314-87.1, HCC; (2) an approved exception to the Fire Safe Ordinance, §3112-11, limiting dead-end road length which would allow the SDU to remain; or (3) the Commission's approval of the conversion of this unit to a Guest House per §314-75.1, HCC, if the findings for an SDU are not made. The necessary Fire Safe sections addressing dead-end road length do not apply to Guest Houses. The existing residences are served by on-site water and sewage disposal. The site is heavily constrained by access issues. A Fire Safe exception has been sought and granted for the substandard width per §3112-3 of the Fire Safe Ordinance. Other than the Eel River located more than 1,000 feet to the southwest, there are no known creeks or other wet areas on or adjacent to the site and existing development.	NOD	
2007072008	Don Melzark, Tentative Parcel Map & Planned Development TSM/PD 12-05/06-09 Plumas County Quincy--Plumas Tentative Parcel Map for division of 0.97 acres into four parcels. A maximum of 14 dwelling units could be constructed on the four lots. This project also includes a Planned Development permit to allow modification of the County's Class 3 Road standard. This modification includes the construction of a Class 3 roadbed within a 40 foot right of way and elimination of on-street parking. The County's Class 3 road standard allows reduction of the shoulder width when no on-street parking is permitted and no special maneuvering is needed for traffic safety and the average daily traffic is less than 1,000. This project will also necessitate the opening and improvement of the northerly 200 feet of Sierra Way to the County's Class 7 standard in order to provide a looped road system and avoid a dead end road length limit that violates County Code.	NOD	
2007091048	23915 Mailbu Road Malibu, City of Malibu--Los Angeles An application for the subdivision of a 5.45 acre propert into 7 individual parcels; 4 of which (Parcels 1-4) would be developed with two story, single family residences with basements and swimming pools, and the others would be preserved for open space, street, dispersal area, a gate house and onsite wastewater treatment package plant to serve the four homes; all existing structures on the subject site would be demolished and the new total proposed development onsite would equal ~30,457 sf. NOD	
2009061029	City of Anaheim 2006-2014 Housing Element Anaheim, City of Anaheim--Orange General Plan Amendment No. 2008-00467 replaces the City's existing Housing Element in its entirety with the 2006-2014 Housing Element.	NOD	
2009062078	Cooks Bar - Renewal of Surface Mining/Conditional Use Permits/Approval of Rec Plan Humboldt County --Humboldt A renewal of Surface Mining/Conditional Use Permits and approval of Reclamation Plan and review of Financial Cost Estimates for existing in-stream mining operations on the Main Fork of the Eel River, with an extraction of a maximum 28,000 cy of gravel over every 3 yr period. operations include excavation, sorting, crushing and stockpiling. Operations were originally permitted in 1993. CThe project site is ~30 acres. Gravel from the river bar is used in County road maintenance activities in the region. The Department of Public Works has a License Agreement with the property owner for mining activities. Ther permit term is 15 years and will expire January 5, 2023. Skimmin is the preferred method of extraction, but the extraction volume, location and extraction method will be based on the recommendations of CHERT and other regulatory agencies. Access to the site is from Dyerville Loop Road via the existing haul road located on the west side of the bar. Equipment used for extraction include: bulldozer or excavator, front-end loader and dump trucks. Extraction activities will occur between September 16 and November 1 to avoid the northern spotted owl and marbled murrelet nesting periods and to ensure completion of work before the winter rainy season. A portable crusher assembly will be temporarily located adjacent to the existing stockpile area. Crushing activities will to avoid nesting periods.	NOD

<u>Documents Received on Tuesday, August 18, 2009</u>			
2009-03	Rincon & La Jolla Tribe APNs: 135-160-04 Bureau of Indian Affairs --San Diego Raymond D. Rodriguez, as to an undivided 1/6 interest (Rincon Tribe); Kenneth T. Rodriguez, as to an undivided 1/6 interest (Rincon Tribe); Gary A. Rodriguez Jr., as to an undivided 1/6 interest (Rincon Tribe); Doris L. Beresford, as to an undivided 2/6 interest (La Jolla Tribe) and Dennis B. Rodriguez, as to an undivided 1/6 interest (La Jolla Tribe). The subject property is commonly referred to as Assessor's Parcel Number 135-160-04. The parcel is located contiguous to the exterior boundaries of the La Jolla Reservation, in the San Diego County, California. The subject property is currently undeveloped, apart from a recently re-graded residential pad proposed use of the subject parcel is to construct two houses on the subject property and in the future may construct a few more.	BIA	09/16/2009
2009051037	Westside Park Replacement Project U.S. National Park Service Huntington Park--Los Angeles NOTE: Review Per Lead The proposed action is a result of the LAUSD's South Region High School No. 7 project approved by the Board of Education on December 9, 2008. The proposed action would involve the construction of replacement parkland and amenities on a new parcel that will be ~4.5 acres in size. The proposed project would include equivalent facilities to the existing Westside Park, including a community center, outdoor basketball courts, picnic area with barbeque pits, a children's play area, and a new, on-site 50 space parking lot.	EA	09/14/2009
2009082047	Headlands Institute Campus Improvement and Expansion Plan National Park Service Sausalito--Marin NOTE: Review Per Lead This EA describes and analyzes 4 alternative-3 action alternatives and one no action alternative-for the improvement and expansion of the HI campus. The purpose of the project is to provide state-of-the-art on-site environmental education services that meet an increasing need and demand and to demonstrate the National Park Service's (NPS's) and the HI's core message of stewardship of natural and cultural resources. Improvement and expansion of HI is needed because the current campus facilities are inadequately sized and in less than optimal condition to accommodate increasing demand for high-quality environmental education in a national park setting. Action is also needed to ensure the long-term financial sustainability of HI's programs. The 3 action alternatives propose varying configuration for a renovated campus which would provide a teaching model of sustainable living and state-of-the-art learning facilities. Campus improvements proposed under all action alternatives include preservation and rehabilitation of historic resources; the provision of additional lab, classroom, dining and dorm spaces; restoration of an on-campus riparian corridor; increased teaching spaces connected to the surrounding environment; additional playing areas; improved campus circulation (pedestrian	EA	09/16/2009

	and vehicular) and parking; increased capacity for up to 360 students (a 75% increase from the current capacity of 200 students); and improved campus security and safety.		
2001061106	Proposed New APCD Rule 74.2.1, Architectural Coatings Ventura County Air Pollution Control District --Ventura NOTE: Review Per Lead	EIR	10/01/2009
	Proposed new Rule 74.2.1, Architectural Coatings, will establish new emission standards for architectural coatings used in the county. This rule is designed to reduce emissions of reactive organic compounds that are precursor to ozone formation. Ventura County is currently a nonattainment area under both state and federal ambient air quality standards for ozone. As a nonattainment area, Ventura County is required by Health and Safety Code to adopt a control measures identified in our Air Quality Management Plan as needed to reach attainment status. The proposed new Rule 74.2.1 is based on the California Air Resources Board Suggested Control Measure for Architectural Coatings adopted by their board in 2007.		
2009051098	Libbey Bowl Reconstruction & Improvement Project Ojai, City of Ojai--Ventura The proposed project would involve the demolition of the existing Libbey Bowl and the subsequent reconstruction of the Bowl on the 2.5 acre project site. Rebuilding the Bowl would allow the opportunity to replace the failing structure, correct code violations, address functional deficiencies and provide a safer, more comfortable and visually coherent experience for the audience. The proposed new Bowl and support facilities would be compliant with ADA and would be designed to meet the needs of modern performing arts production.	EIR	10/01/2009
2009081063	Highway 246 Passing Lane Project Caltrans #5 Lompoc--Santa Barbara NOTE: Review Per Lead	MND	09/17/2009
	The operational improvements include 2 sets of passing lanes varying in length from 1.4 to 2.1 miles; new left-turn pockets at 4 intersections; Tularosa Rd., Hapgood Rd (west), Campbell Rd., and Drum Canyon/Mail Rd., which requires widening Santa Rosa Creek bridge by 12 ft; a 2 way continuous left-turn lane extending west from Hapgood Rd. to 3800 ft west of Campbell Rd; a realigned highway toward the southward direction at Tularosa Rd. and lowering of the profile. This will reduce uphill grades near Tularosa and improve sight distance.		
2009082046	Kimtu Meadows Water Transmission Main Line Construction Project Public Health, Department of --Humboldt The project involves construction of ~2.5 miles of pressurized 8 inch water transmission main line from the existing Kimtu Meadows subdivision to the existing water system serving the town of Garberville, along with 1600 ft of new 6 inch line within the subdivision. The new lines will be installed within the rights-of-way of Kimtu Drive, and Kimtu Road, and a segment of Sprowel Creek Road up to the connection point with the Garberville water system near Highway 101. The Kimtu Mutual Water Company will be consolidated with the Garberville Sanitary District	MND	09/16/2009

	and the old facilities will be decommissioned.		
2009082048	University Farm-Dairy Unit California State University, Chico Chico--Butte The University Farm Project proposes to obtain an individual waste discharge permit for their Dairy operation located at the CSU, Chico, College of Agriculture. Agricultural Teaching and Research Center (University Farm) in Butte County, CA. The University Farm has been used as an instructional and research facility for the University since the early 1960's. In 2005, the University Farm began transitioning its conventional confinement Dairy operation to an organic, pasture-based program, completing their Organic Certification in March of 2007.	MND	09/16/2009
2009011013	La Quinta Resort Specific Plan Amendment No. 6 La Quinta, City of La Quinta--Riverside A Notice of Preparation was prepared for the project and circulated for a 30-day review period between January 8, 2009 and February 9, 2009. Since recirculation of the NOP, the proposed project has been revised by the applicant. This project would amend the adopted La Quinta Resort Specific Plan to allow development of new resort facilities through redevelopment of approximately 26 acres in Planning Area 1 as defined in the Specific Plan. 32 structures containing 176 resort guest units and 50,330 square feet of related commercial/ancillary space to the hotel would be demolished. New development would include up to 807 new hotel units and 138,362 square feet of commercial/ancillary space related to the hotel. Additionally, a new 28,800 square foot off-site resort services center is proposed at an existing employee parking lot located outside the Specific Plan boundary.	NOP	09/16/2009
2009081064	City of Fresno Three Million Gallon Water Storage Tank Fresno, City of Fresno--Fresno NOTE: Finding of Conformity with the 2025 Fresno General Plan Master EIR (SCH#2001071097). The proposed project consists of the construction and operation of a 3 million gallon water storage tank, pipelines, and associated appurtenances on ~3.60 acres. The tank will be above ground, with a maximum height of ~32 ft, with a water depth of 30 ft and an inside diameter of 132 ft, and will be surrounded by other related structures or open space. All associated pumps, controls and utilities will be designed (programmed) and constructed. It should be noted that design of the tank is not final, and the tank may also be located partially, or fully underground.	Oth	09/16/2009
2008081080	Sweetwater Reservoir Loop Trail Project San Diego County --San Diego The proposed project will establish and formalize 8.5 mi. of trail that will provide pedestrian, equestrian and bicycle access. The trail consists of Segments 1a 1, 3-5.	NOD	
2009019011	Lower Mokelumne River Spawning Habitat Improvement Project East Bay Municipal Utility District Lodi--San Joaquin This agreement pertains to the placement of up to 5,000 cy of suitably sized salmonid spawning gravel annually for a 3 yr period, at 2 separate locations, and will provide annual supplementation of up to 1,000 cy thereafter. Gravel diameter	NOD

Chautauqua Boulevard Los Angeles, City of Brentwood--Los Angeles NOTE: Review Per Lead Construction of a new, 3 story, ~36 ft in height, single family dwelling on an ~66,947 sf hillside parcel in the RE40-1-H Zone. As proposed, the dwelling would observe 20 ft side yard setbacks, will require the export of ~990 cy of dirt from the site, and require s a Coastal Development Permit and Mello Act Compliance review.	MND	09/21/2009
2009081066	ENV-2008-175-MND - 5479 Huntington Drive North Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead The proposed construction and maintenance of 659 sf carwash retail building, a 1,751 sf carwash, and an additional building containing a 1,618 sf restaurant, a 1,751 sf restaurant, and a 1,075 sf commercial dining area, located on a 29,879 sf site in the PF-1 Zone, in conjunction with the demolition of an existing single-family residence and operating Auto Repair Garage. The proposed carwash will provide a rubber screen for sound attenuation at the entrance of the carwash tunnel, will provide 17 standard and 2 handicapped parking spaces on site, and will operate Monday through Friday form 7:00 am to 7:00 pm, Saturday from 9:00 am to 8:00 pm, and Sunday form 11:00 am to 8:00 pm. Proposed hours of operation for both restraunts are Sunday through Saturday from 7:00 am to 11:00 pm. As proposed, a Zone Variance per section 12.27 of the Los Angeles Municipal Code is required for the proposed use and possible Conditional Use Permit to deviate from Commercial Corner Development and Mini Shopping Center (LAMC Section 12.22 A23 and 12.22 A28) to permit less than 50% transparent windows at the carwash tunnel parallel to Huntington drive; and to permit a carwash rack with the entrance of the tunnel within 30 ft (with the exit of the tunnel within 130 ft) of the neighboring residential zone, in lieu of the required 100 ft.	MND	09/21/2009
2009081067	Hemet High School Theater and Classroom Buildings Project Hemet Unified School District Hemet--Riverside The proposed project would involve the construction of a new theater building, 2 new permanent classroom buildings, and other minor improvements at Hemet High School, an existing school. The total area of construction is a 3.8 acres and no new property would be acquired by the District. To accommodate the proposed project, the school's existing science and student toilet building and staff parking lot would be demolished. The new science/classroom building would accommodate the classrooms and toilets displaced by the building's demolition. Staff parking would be accommodated in the school's main parking lot, off Stetson Avenue.	MND	09/17/2009
2009081069	District Service Center Palm Springs Unified School District Palm Springs--Riverside Palm Springs Unified School District has completed an Initial Study for the construction of a new 79,670 sf District Service Center on 12.3 acres of a 20 acre site east of the Palm Springs International Airport and west of San Joaquin Drive.	MND	09/17/2009

2004042022	Bear River Casino Hotel and Expansion Project Bear River Band of The Rohnerville Rancheria --Humboldt The Tribe proposes to add a 4 story hotel on the south side of the existing casino building, with new construction linking the 2 buildings and providing additional space for guest amenities and support services. No new gaming positionings are proposed. Some interior remodeling, additional parking spaces (including a sub-grade parking level in the hotel), and upgrades to on-site water and wastewater facilities are also proposed.	TRI	09/17/2009
2004112032	Green Waste Recovery Material Recovery and Direct Transfer Facility San Jose, City of San Jose--Santa Clara An increase in the daily tonnage from 1,400 tons per day to 2,000 tons per day, an increase in the hours of operation from 6:00 am to 12:00 am, seven days per week to 24 hours per day, seven days per week, and an increase in on-site holding times of materials from 24 to 48 hours.	NOD	
2007022113	Friends of the Dunes Coastal Development Permit, Conditional Use Permit, Lot Line Adjustment and Special Permit for Establishment of the Humboldt Bay Coastal Ed Humboldt County --Humboldt A Modification and Extension to a previously approved and modified Coastal Development Permit, Conditional Use Permit and Special Permit. The original permits included creating the Humboldt Coastal Nature Center as well as beach and dune restoration and trail work on ~65 acres. The Modification will allow the restoration and trail work on an additional 57 acres known as "Celestr" property acquired by the Manila Community Services District. This work would be performed in 2 phases. The project also includes a modification to the Special Permitt to allow the removal of 10 eucalyptus trees, 2 non-native pine trees and 7 Monterey cypress trees all over 12 inches in diameter. The area of removal will be planted with native trees and shrubs. A Coastal Development Permit is required for all development within the Coastal Zone.	NOD	
2007122092	Truckee Railyard Master Plan Truckee, City of Truckee--Placer The Truckee Railyard Draft Master Plan provides for development of an eclectic mix of building types and uses within an attractive, pedestrian-oriented neighborhood. The Draft Master Plan anticipates that development will extend easterly from the Downtown Core. The pattern of development would include the highest development intensity occurring immediately adjacent to the Downtown Core and then decrease as development extends to the north and east. The Draft Master Plan includes provisions of affordable housing and recognizes the importance of allowing development within the Master Plan Area to "grow organically" to accommodate market demands and the community needs. The Draft Mast Plan includes a Maximum Allowable Development (MAD) that provides development thresholds for each of the Districts created by the Draft Mast Plan. This EIR evaluates the potential impacts of the development within the Master Plan Area based on the MAD. The MAD would allow up to: 570 residential units (including work/live units); 70,000 sf of retail area; 15,000 of office space; A 60 room hotel; A 1,000 seat movie theater; 20,000 sf grocery store; 25,000 sf civic building. 2009088221	School House Stabilization - Bat Exclusion Parks and Recreation, Department of --Tulare The project involves the denial of access and exclusion of bats by using humane exclusion techniques from the structure of the Allensworth Schoolhouse. The project will involve the placement of an exclusionary device (such as a one way gate or flange) that will allow bats to leave but not return to roost inside the building. Following exclusion, portions of the exterior wall will be removed to extract the guano and then the wall will be put back in place. The guano will be recycled as plant fertilizer.	NOE	
2009088223	Removal Action Workplan for Consolidation of Lead Contaminated Soils at the Former Sharp Park Rifle Range Toxic Substances Control, Department of Pacifica--San Mateo The project involves on-site consolidation and management of contaminated soils according to a Removal Action Workplan (RAW). The project involves excavation and encapsulation of approximately 12,000 to 16,000 cubic yards of soil contaminated with lead, polycyclic aromatic hydrocarbons (PAH), antimony and arsenic. The contaminated soil will be capped onsite with at least 2 feet of clean soil. A Land Use Covenant will restrict use of the property as an institutional control.	NOE	
2009088224	Temporary Emergency Permit for Treatment by Burning, California Department of Forestry and Fire Protection (CDFFP) Toxic Substances Control, Department of --San Bernardino Department of Toxic Substances Control (DTSC) has issued an emergency permit to California Department of Forestry and Fire Protection (CDFFP) to treat hazardous waste by burning. The hazardous waste to be treated consists of up to 100,000 pounds of fireworks (Department of Transportation Hazard Class 1.4). The items were seized by the CDFFP during multiple seizure actions and are illegal for sale in California. The emergency permit is effective from August 1, 2009 through October 29, 2009. Treatment will be scheduled depending on weather, logistics, and availability of personnel.	NOE

2007062021	Lower Arsenal Mixed Use Specific Plan - Recirculation of Noise and Global Climate Change, Energy Use and Sustainability Sections Benicia, City of Benicia--Solano NOTE: Recirculated	EIR	10/07/2009
------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------	------------

The proposed project includes implementation of a Specific Plan for the Lower Arsenal site, which is designated for mixed use in the Benicia General Plan. The Specific Plan covers four distinct zones, each of which exhibits a unique physical character. The Specific Plan would implement a form based code to shape future development on the project site, with primary emphasis on the physical form and character of the new development. After build-out of the Specific Plan, the area would contain approximately 741,865 square feet of mixed uses, 22 residential units, and 6.39 acres of open space. The Specific Plan area currently contains approximately 525,000 square feet of mixed uses.

2009042075	Ohlone Mixed-Use Project San Jose, City of San Jose--Santa Clara	EIR	10/07/2009
------------	------------------------------------------------------------------------	------------	------------

The proposed project is a Planned Development (PD) Rezoning application from HI, Heavy Industrial District, to A(PD), Planned Development District to allow the construction of a mixed use development consisting of up to 800 condominium/apartment and live/work residential dwelling units and 30,000 sf of ground-level retail space along W. San Carlos Street on an approximately 8.23-gross-acre site. The project will include General Plan amendment(s) to the Midtown Specific Plan to allow the increased density of approximately 125 DU/AC, height, and changes in the Vasona Mall subarea urban design guidelines applicable to this project site. Transit service for the project includes the VTA Light Rail line that crosses the southeasterly corner of the project site; a future station that is planned between W. San Carlos Street and Auzerais Avenue; and VTA local bus services (and a planned Bus Rapid Transit line) along W. San Carlos Street. The project includes a new mid-block north-south street connecting W. San Carlos Street and Auzerais Avenue along the westerly light industrial interface; the extension of Earle Street easterly to Sunol Street; and a pedestrian paseo connecting the new north-south street with Sunol Street. This street configuration results in the creation of three small urban blocks in the place of one large industrial block. Within each small block is planned a podium building containing two levels of parking below mixed-use high density residential buildings of up to approximately 160 feet (14 stories) in height. Lower elements, up to 60+ feet (5 stories), are planned along major street frontages; taller buildings are to be set back about 40 feet from W. San Carlos Street and positioned at other key locations with the small blocks. Live/Work units could be positioned on the ground floor locations around the perimeter of the project. The buildings are planned with minimal or no public street setback; however, there are widened streetscapes and sidewalks at the retail areas. Large podium gardens are to be provided within each block and common and active public spaces are planned. The Project will be dedicating and improving 3.99 acres of public parkland adjacent to Del Monte Park on the easterly side of Sunol Avenue between Auzerais and W. Home Street.

2009051043	Megonigal Residential (PA2007-133) Newport Beach, City of Newport Beach--Orange The project applicant is proposing the construction of a single-family residential dwelling unit on the property, which will have vehicular access to the ground floor from Pacific Drive. The proposed residence will have a total floor area of 3,138 square feet, including 377 square feet on the ground floor, 934 square feet on the second floor and 1,827 square feet on the first floor. The ground floor level supports an additional 428 square foot garage. In addition to the indoor living area, 1,004 square feet of outdoor patio space, including 129-square feet on the ground floor, 714 square feet on the second floor, and 161 square feet on the first, is provided. The proposed three-story 3,566 square-foot residence conform to all Zoning Code property development regulations, with the exception of the proposed planter walls that are located within the 3 ft front yard setback height limit. The applicant is requesting approval of Modification Permit No. MD2007-080 to allow planter walls to exceed the 3 ft hieght limit requirement in the front yard setback.	EIR	10/07/2009
2009071013	Grading and Stormwater Management Ordinance Revisions - EIR (LRP2008-00007) General Plan Amendment and Land Use Ordinance Amendments San Luis Obispo County San Luis Obispo--San Luis Obispo The proposed project will modify portions of the Land Use Ordinance, Coastal Zone Land Use Ordinance, Coastal Plan Policies, and North Coast Area Plan by doing the following: * Incorporating the General Construction Permit requirements into the Land Use Ordinance and Coastal Zone Land Use Ordinance. * Strengthening enforcement practices. * Incorporating Municipal Separate Storm Sewer System (MS4) requirements into the Land Use Ordinance and Coastal Zone Land Use Ordinance. * Clarify the threshold for when grading permits are required. * Modify the procedures for agricultural exemptions and the alternative review program. * Implement Measure SL 2.3.1 of the Draft Conservation Element, which prohibits grading on slopes of 30 percent or more without a variance approval. * Reorganize Chapter 22.52 of the land Use Ordinance for ease of use. * Replace Coastal Zone Land Use Ordinance Sections 23.056.020 through 23.05.050 with language that is consistent with Cambria to adhere to MS4 requirements. * Add new definitions to the Land Use Ordinance and Coastal Zone Land Use Ordinance. * Update section number references in all affected documents.	EIR	10/07/2009
2007121029	Clovis Research & Technology Park Clovis, City of Clovis--Fresno The project totals approximately 153 acres (approximately 139 net acres, excluding the proposed Alluvial Avenue extension and other street right-of-way). The project proposes to change the General Plan and Herndon-Shepherd Specific Plan land use designation to Mixed use Area 40 to allow research and technology use as well as live/works units and to amend the Circulation Elements to extend Alluvial Avenue through the site from Temperance Avenue to the Nees Avenue	FIN

	off-ramp at SR 168. The project also proposes to reclassify a portion of Nees Avenue to a collector and a portion of Locan Avenue to an industrial standard. The project would be combined with the existing 180 acre RT Park for a technology park that totals 333 acres. The types of uses allowed by the proposed R&T park include certain manufacturing, assembly and research uses, ancillary retail, business services, certain types of transportation and communication, and Live/Work units. The Floor Area Ratio is 0.4 and allows up to approximately 2.4 million square feet of development.		
2008102051	Taylor Mountain Interim Public Access Permit Program Sonoma County Santa Rosa--Sonoma The project consists of an Interim Public Access Permit Program for the Taylor Mountain property. The Districts and Land Paths, a local non-profit, would coordinate a public orientation and certification program to familiarize members of the public with the site and its appropriate use. The proposed project allows for multi-use recreation including hiking, bicycling and horseback-riding. The existing staging area on the property would accommodate 48 vehicles, 2 spaces for disabled use, and 6 horse trailers. A separated pedestrian path would also be constructed along Kawana Terrace to the property boundary, and would connect with a pedestrian gate and mowed path into the property.	MND	09/22/2009

2009081075	Circle P Tentative Map San Diego County Escondido--San Diego The project is a major residential subdivision of 15.48 acres into 11 lots. The project site is located at the intersection of Circle P Land and Mountain Meadow Road, in the north County Metropolitan Community Planning Area, within unincorporated San Diego County. The site is subject to the General Plan Regional Category, Country Town, Land Use Designation 2, Residential. Zoning for the site is Limited Agriculture. The site is currently an abandoned farming operation, and no dwelling units exist. Access to all lots will be provided by private driveways connecting to Circle P Lane. The project would be served by sewer and imported water from the Valley Center Municipal Water District. No extension of sewer or water utilities will be required by the project. Earthwork will consist of 39,425 cy of cut and fill.	MND	09/22/2009
2009081076	Arlington Park Childcare Facility Riverside, City of Riverside--Riverside The City of Riverside Parks, Recreation, & Community Services Department proposes to construct a new childcare facility and classroom building within the boundaries of Arlington Park, an existing 4.6 acre public park located at 3860 Van Buren Boulevard in the Arlington District, City of Riverside, CA. The City proposes to construct the project in 2 phases. Including both phases of development, the project will provide a total of ~8,050 sf of childcare and classroom uses, 10,000 sf of outdoor recreation area, and 36 on-site parking spaces. At build-out, the facility	MND	09/22/2009

	would accommodate 21 professional staff and 144 children. Including sidewalks, parking, landscaping, walls, and fences, the combined project footprint would total ~37,350 sf. Phase 2 improvements will be completed as funding is available.		
2009081077	Reduced High Zone Hydraulic Improvements Project El Toro Water District --Orange The proposed project is intended to upgrade the El Toro Water District water distribution infrastructure in order to improve fire flow within the Reduced High Zone to meet existing Orange County Fire Authority standards for fire protection. The project consists of 2 water conveyance pipeline alignments (and associated ancillary facilities). The northerly pipeline alignment would consist of 3 district segments, with a total length of ~1,220 linear ft. The southerly pipeline alignment would generally extend from the California Renaissance condominium community, easterly along an equestrian trail, and would terminate at the Wellington Vintage Senior Living community. The majority of proposed improvements would be situated entirely underground. Minor ancillary facilities would be constructed either at-grade or above-grade.	MND	09/22/2009
2009082057	Brian Holthouse - Minor Subdivision No. 1172-05 San Benito County San Juan Bautista--San Benito Minor Subdivision 1172-05 is a proposed to subdivide into 2 parcels of 45 and 123.52 acres. The subdivision is being requested in order to divide the property into 2 new Williamson Act preserves.	MND	09/22/2009
2009082060	88 thomas Avenue-New Primary Dwelling Unit Brisbane, City of Brisbane--San Mateo Conversion of existing house into a secondary dwelling unit and construction of new primary dwelling unit, removal of trees, 982 cy of grading, street widening, all within the jurisdiction of the San Bruno Mountain Area Habitat Conservation Plan.	MND	09/22/2009
2009082061	1706 El Camino Real - Medical/Dental Offices Menlo Park, City of Atherton--San Mateo Demolish an existing one story, 6,875 sf commercial building (formerly Gaylor's Restaurant), and construct a new 2 story, ~10,166 sf medical/dental office building with 61 surface parking spaces and related site improvements on a 27,292 sf lot located at 1706 El Camino Real in the C-4 (General Commercial District-Applicable to El Camino Real) zoning district. The application includes a request for a subdivision map to subdivide one parcel into 6 medical/dental office condominium units within the building. Ingress and egress would be by one central shared driveway located on El Camino Real near the southern property boundary that also serves as ingress for 1702 and 1704 El Camino Real. This driveway would continue to provide right-turn ingress and egress to and from El Camino Real. A new right-turn lane would be in front of the property on El Camino Real which turns onto Buckthorn Way. There would be no parking on Buckthorn Way adjacent to the site.	MND	09/22/2009

2008011108	Recycled Water System Pressurization and Expansion Project Eastern Municipal Water District San Jacinto, Hemet--Riverside The Recycled Water System Pressurization and Expansion Project will encourage and expand opportunities for recycled water use. The project is made up of 3 main components: 1) The Tank Project. Three recycled water storage tanks would be constructed to create pressure zones. These tanks would be strategically located to provide reliable recycled water service to the growing urban landscape market. The tanks would also stabilize pressure zones and increase operational flexibility. 2) The Hemet Citrus In-Lieu Project. This project would include a series of up to 36" diameter pipelines and a 7,000 GPM station at the Alessandro Ponds to	NOD

	<p>deliver recycled water to citrus farmers in Hemet. The construction of this facility would allow farmers to utilize recycled water in-lieu of groundwater and reserve capacity in the groundwater basin for other uses.</p> <p>3) Pond Pump Stations. This project would include the construction of 3,000 GPM pump stations at two existing recycled water storage facilities. This would allow stored recycled water to be used at peak periods to increase reliability and operational flexibility.</p>		
2008121043	<p>Dodgers Dream Field Complex Project Los Angeles County Van Nuys--Los Angeles</p> <p>The proposed project consists of the development of a new ball field for youth with special needs at Anthony C. Beilenson Park within the central sector of the Sepulveda Basin Recreation Area near Lake Balboa. The land proposed for development is owned by the Army Corps of Engineers and is operated by the Los Angeles Department of Recreation and Parks. The field would be approximately the size of a standard T-ball field with a 50' baseline in-field and a 220' outfield that is made of resilient material for handicap access. The field would include dugouts, a backstop and perimeter fencing that would be less than the height limitation of 20'. The field would accommodate portable spectator seating, but no permanent seating would be constructed. Upon operations, the field would be utilized primarily during the weekdays in the late morning or early afternoon hours. The patrons would be bused to the site, dropped off during playtime, and picked up after a game is completed. A maximum of two games per day is proposed, with no games planned during the evening hours; therefore, no night lighting would be required. The buses would use the existing parking facility as a drop-off, but would park off-site along nearby Balboa Boulevard. The primary patrons of the new field would be special schools in the San Fernando Valley communities, but may become a destination facility for all youth with special needs in the greater Los Angeles area.</p>	NOD

2009032097	Natomas Levee Improvement Program, Phase 4a Landside Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento, Sutter The overall purpose of the Natomas Levee Improvement Program (NLIP) is to bring the entire 42-mile Natomas Basin perimeter levee system into compliance with applicable Federal and state standards for levees protecting urban areas. The Phase 4a Project - a component of the multi-phase NLIP-includes levee raising and seepage remediation along the Sacramento River east levee (Reaches 10-15) and in 2 locations of the Natomas Cross Canal south levee as well as relocation and extension of the Riverside Canal. The Fisherman's Lake Borrow Area would be the primary source of soil borrow for Phase 4a Project construction and additional borrow could be obtained from the I-5 and Phase 3 Project borrow areas; excavated areas would be reclaimed as agricultural land, grassland, or managed marsh depending on their location and existing land use. If permitted, the Phase 4a Project could be constructed at the same time as portions of the Phase 2 and 3 Projects. Construction is planned for 2010-2011, assuming receipt of all required environmental clearances and permits.	EIR	10/08/2009
2009052008	Rohnert Park Walmart Expansion Project Rohnert Park, City of Rohnert Park--Sonoma The proposed project consists of the expansion and alteration of the existing Walmart store. The project would include the addition of approximately 35,256 square feet of building area to the existing store. For the purposes of providing a conservative evaluation of project impacts, the EIR will analyze the additional square footage at 40,260 square feet, which is 3 percent larger than the anticipated expansion square footage. The expanded store would retail general merchandise and groceries and operate 24 hours a day, 7 days a week.	EIR	10/08/2009

2002052057	Buckhorn Grade Improvement Project Caltrans #3 Redding--Shasta, Trinity NOTE: EIR/EA FONSI Final The California Department of Transportation (Caltrans) proposes to improve the Buckhorn Grade on State Route 299 in Shasta Trinity and shasta Counties from 2.0 miles west of the Shasta-Trinity County line to the western boundary of the Whiskeytown-Shasta Trinity National Recreation Area. Although the official project limits extended into Trinity County (PM 70.2/72.2), construction will only occur on the Buckghorn Grade portion of State Route 299 (PM 0.0/R7.6) in Shasta County. Construction activities in Trinity County will be limited to placement of signs and traffic control. The project will realign the roadway along the existing alignments. improvements include standard roadway and soulder widths, passing/climbing lanes, 8 percent maximum grade and an alignment with a 40 to 50 mph design speed (depending on the alternative selected).	FIN					
2007111080	South I Street Specific Plan Tulare, City of Tulare--Tulare The project is located adjacent to and south of the City of Tulare, in western Tulare County, south of Bardsely Ave, between Pratt Street and South I Street, and north and ~458 acres from the County into the Tulare City limits. The proposed area will be divided into 123 acres of Light industrial (M-1), 259 acres of Heavy Industrial (M-2) and 76 acres of Urban and Suburban Residential. Both Heavy and Light Industrial Districts provide locations for industrial activities; protect industrial areas from the intrusion of incompatible types of land uses; adhere to performance	FIN

	standards provided for the protection of City of Tulare residents and the environment, and provide industrial employment opportunities for residents of the City of Tulare.		
2009081084	Red Rock Canyon Bridge Replacement Caltrans #6 Mojave--Kern Caltrans proposes to remove and replace the existing Red Rock Canyon Bridge (No. 50-0178) on SR 14 between PM 39.8 and 40.3 within Red Rock Canyon State Park in Kern County. The proposed project has one build alternative and the No-Build Alternative.	MND	09/24/2009
2009082067	Interstate 580 Eastbound Truck Climbin Lane Project Caltrans #4 Livermore--Alameda Caltrans proposes to widen I-580 in Alameda County provide a truck climbing lane in the easrbound direction over the altamont Pass from the Greenville Road interchange in the City of Livermore to ~1 mile east of the North Flynn Road interchange in unincorporated Alameda County. I-580 would be widened on the outside to accommodate the addition of the truck climbing lane. The proposed project also includes constructing three upslope retaining walls a total length of ~3,040 ft, and addressing rock fall areas adjacent to the Altamont Sidehill Viaduct.	MND	09/24/2009
2009082068	James and Katherin Burney Klamath Ranch Quarry Use Permit and Reclamation Plan (UP09-07-RP-09-02) Siskiyou County --Siskiyou The applicants request a Use Permit and Reclamation Plan approval for an open-pit quarry located on a 168 acre parcel. 360,000 cy of volcanic rock (primarily basalt) are planned to be harvested over a 20 yr mine life. Annual production is estimated at 20,000-10,000 cy, as demand requires. Quarry activities would be concentrated within 9 acres of located on the northwestern slope of a hilltop 2,595 ft above sea level, ~300 ft above roadway grade, and ~1,400 ft north of Copco Road.	MND	09/24/2009
2009081085	Downtown/Uptown and Town Center Specific Plan EIR Paso Robles, City of Paso Robles--San Luis Obispo The proposed project is a Specific Plan that intends to maintain the existing small town fabric - from the size of its blocks, to the design of its sidewalks and street trees, to the scale of its buildings - keeping the pedestrian in mind. The area's public realm of tree lined streets and parks is retained as an equally important aspect as the private buildings. These are the principles that direct this plan. Accordingly, the Uptown/Town Center Specific Plan employs the principles of traditional neighborhood development to ensure that future development within the Plan Area compliments the existing small town character of Paso Robles. Key to this is the Specific Plan's preservation and enhancement of the plan area's pedestrian character.	NOP	09/24/2009
2009081086	Perris Valley Commerce Center Perris, City of Perris--Riverside The proposed project includes adoption of the Perris Valley Commerce Center Specific Plan and Infrastructure Plans. The Project area covers approximately 5.23 square miles of the northern part of the City of Perris. The Specific Plan	NOP	09/24/2009

	Corridor/Sycamore Canyon Merged Redevelopment Plan.		
2009011024	Sky Mountain Reservoir No. 4605 and Pipeline Project Coachella Valley Water District --Riverside CVWD proposes the construction of two, 10 million gallon reservoirs and an associated water conveyance pipeline. If the reservoirs are constructed of concrete, they will be partially buried with a base elevation of 435 ft. A driveway will be constructed within the site boundary and will be placed one foot inside the property line. The proposed underground pipeline will consist of ~14,400 linear ft of 36 inch diameter pipe that will begin at the reservoir site and ultimately connect to an existing pipeline south of the I-10, just north of the Ramon Road/Bob Hope Drive intersection. The pipeline construction easement will be 100 ft wide, with 50 ft on either side of the proposed pipeline.	NOD	
2009072077	Division 9 Irrigation Enhancement Project South San Joaquin Irrigation District Ripon--San Joaquin Installation and operation of new pressurized irrigation water supply system to provide improved agricultural irrigation service to 3,800 acres of currently flood-irrigated agricultural land that is a part of SSJID's Division 9.	NOD	
2009058191	Wastewater Facility Improvement Project London Community Services District --Tulare The Project includes replacement of aeration equipment and associated electrical equipment, repair and reshaping embankments of six ponds (A1, A2, A3, A4, A5, and S1), adjustment of the existing pond transfer pipes and additional piping to improve operational flexibility of the treatment ponds.	NOE	
2009088248	Chairlift 8 Access Trail (WDID# 5B55CR00046) Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Tuolumne The Chairlift 8 Access Trail Project consists of the construction of a roadway to provide a safe access path to Chairlift 8 at the Dodge Ridge Ski Area. The road is needed in order to access the chairlift during construction and maintenance activities. The project includes the installation of a 40-foot long, 30-inch culvert in Spring Creek, a 100-foot long, 24-inch culvert in an unnamed tributary of spring creek, and 353 feet of fill in an ephemeral tributary of Boulder Creek.	NOE	
2009088249	Issuance of Streambed Alteration Agreement No. R1-09-0196, Parker Creek, McClay Creek, Two Unnamed Drainages, all tributary to Honey Lake Fish & Game #1 --Lassen The project proposes to remove silt and vegetation from the inlets and outlets of four culverts along Lake Crest Road, CR 353.	NOE	
2009088250	Agreement No. 2009-0087-R4; King City-Coburn #1 60kV Line Pole Replacement Fish & Game #4 King City--Monterey The proposed Project would replace an existing wood pole structure supporting the King City-Coburn #1 60kV power line. The two (2) pole structure has deteriorated and will be replaced by a three (3) pole structure consisting of lightweight steel poles. An auger will be used to drill three (3) holes, each approximately 24 to 36-inches in diameter and 11 feet deep, in the river bed approximately 5 feet west of the existing structure. Sections of corrugated metal	NOE
