

**Jerry Brown, Governor**

STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**August 16 – 31, 2012**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16 – 31, 2012**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The 2011 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

<b><u>Documents Received on Thursday, August 16, 2012</u></b>			
2009091110	Via Princessa East Extension Santa Clarita, City of Santa Clarita--Los Angeles The proposed project involves the construction of a new roadway segment of Via Princessa between Golden Valley Road and the existing roadway terminus near Sheldon Avenue. The Via Princessa East Extension would be one of the primary east-west arterials through the City of Santa Clarita. The proposed roadway would be approximately 1.2 miles in length and is designated as a Major Arterial Highway per the City of Santa Clarita's Master Plan of Arterial Highways. The proposed roadway would consist of a six-lane facility with a 14-foot raised landscaped median, a 10-foot sidewalk/parkway on each side, and a 12-foot two-lane bike path along the south side. The vehicle lanes adjacent to the median would be 12 feet wide, the middle lanes would be 11 feet wide, and the right lanes would be 12 feet wide. The typical right-of-way width would be 116 feet.	EIR	10/01/2012
2011091055	Crystal Geyser Roxane Cabin Bar Ranch Water Bottling Facility Project Inyo County --Inyo NOTE: Review Extended  The proposed project would develop a spring water bottling facility and ancillary uses to be built in three phases over an approximate 10 to 15 year time period. The water bottling facility would include an approximately 198,500 sf bottling plant facility with four bottling lines and an approximately 40,000 sf storage warehouse. Proposed ancillary uses include rooftop solar array, a fire suppression building, a stormwater detention basin, a leach mound, a fire access road, and a parking and truck staging area. To provide adequate access from US 395 to the bottling facility, the project would remove the site's existing access road (i.e., Cabin Bar Ranch Road) and construct a new permanent access road approximately 2,500 ft to the south. The bottling facility would utilize spring water from three existing production wells to supply the bottling operations. The proposed project would also use a fourth existing well to provide domestic potable water to the water bottling facility's employees.	EIR	10/08/2012
2012081039	Bradley Village (Key Site 30) Residential Subdivision Project Santa Barbara County --Santa Barbara The proposed project involves a General Plan Amendment, Rezone, Vesting Tentative Tract Map, and two Development Plan entitlements to subdivide an existing 79.6-acre parcel into 77 parcels for the development of 69 single-family homes, a 3.5-acre passive park, and 44.3-acres of open space for recreation, detention basins, and drainage easement.	EIR	10/01/2012
2008071075	State Route 91 Corridor Improvement Project Caltrans #8 Anaheim, Corona, Riverside--Riverside, Orange FYI Final  The State route 91 Corridor Improvement Project proposes to widen existing SR-91 from the State Route 91/State Route 241 Interchange in the Cities of Anaheim and Yorba Linda in Orange County to Pierce Street in the City of	FIN	

## CEQA Daily Log

Documents Received during the Period: 08/16/2012 - 08/31/2012

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, August 16, 2012</u></b>			
	Riverside in Riverside County. The proposed project also includes improvements to Interstate 15 in Riverside County between the Interstate 15/Cajalco Road interchange in the City of Corona and the Interstate 15.Hidden Valley parkway interchange in the Cities of Corona and Norco. The project limits on Interstate 15 begin at Capalco Road, approximately 5 miles south of SR-91 and extend north on Interstate 15 to Hidden Valley Parkway, approximately 1 mile north of SR-91.		
2011051024	Downtown San Bernardino Passenger Rail Project San Bernardino Associated Governments San Bernardino--San Bernardino Final 1 CD	<b>FIN</b>	
	SANBAG is proposing to extend Metrolink service approximately one mile east from the existing San Bernardino Metrolink Station/Santa Fe Depot to the proposed San Bernardino Transit Center in downtown San Bernardino, California. The Downtown San Bernardino Passenger Rail Project consists of several major components, including double-tracking the existing rail corridor (westernmost one mile of the redlands branchline), construction of rail platforms, station amenities, parking lot near the transit center, grade crossing improvements and closures, railroad signalization, and roadway improvements. Other improvements include drainage facility improvements, replacements, and extensions, utility replacements/relocations, and implementation of safety controls.		
2012042055	Smith River Rancheria's Keeter Parcel Fee-To-Trust Project Bureau of Indian Affairs --Del Norte Note: Review per lead	<b>FON</b>	09/20/2012
	The proposed Federal action is the fee-to-trust transfer of one parcel totaling 2.44 acres. The purpose of the proposed action is to facilitate the Tribe's need for economic development by the construction and operation of a recreational vehicle parking lot. In addition, the-to-trust transfer will also promote cultural and social preservation, expression and identity, political self-determination and self-sufficiency, and economic growth by providing an adequate Tribal land base and homeland that is subject to Tribal sovereignty.		
2012081040	Single Family Residence Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project consists of construction of a new, two-story plus basement, single-family residence, as well as accessory buildings, pool, and tennis court, with eight parking spaces, at 1400 Linda Flora Drive in Bel Air-Beverly Crest (Council District 5). The project would include approval of a haul route, waiver of a tentative tract map, and grading of approximately 70,000 cubic yards (c.y.) of each, including export of approximately 18,405 c.y. from 1400 Linda Flora Drive (a 30.9-acre site) to 1892 (also known as 1895) Linda Flora Drive (a 30.3-acre site). However, no hauling of earth would occur on public roadways: import and export would occur across interior property lines only. Additionally, no change in public access to or use of "upper" or "lower" Linda Flora Drive would occur. The unimproved road between the two segments would remain a private driveway. Both properties are located within the RE40-1-H (residential estate) zone.	<b>MND</b>	09/14/2012

<b><u>Documents Received on Thursday, August 16, 2012</u></b>			
2012082055	General Waste Discharge Requirements for Aquifer Storage and Recovery Projects that Inject Drinking Water State Water Resources Control Board -- The project is the adoption of general waste discharge requirements for aquifer storage and recovery (ASR) projects that inject drinking water into groundwater (Order). After adoption by the State Water Resources Control Board, the Regional Water Quality Control Boards would use this Order to permit ASR Projects within their jurisdictions that meet the criteria in the Order. Aquifer storage and recovery is the injection of water through a well into an aquifer when water is available and the recovery of this water, usually through the same well, when it is needed.	<b>MND</b>	09/14/2012
2012082058	Pescadero State Beach Lagoon Ecological Function Project Parks and Recreation, Department of --San Mateo Note: Shorten Review  California State Parks proposes to issue a Right of Entry permit to the National Oceanic and Atmospheric Administration (NOAA) Restoration Center to conduct the proposed Lagoon Ecological Function Project at Pescadero State Beach. The NOAA Restoration Center, in conjunction with the U.S. Fish and Wildlife Service, propose to manually breach the Pescadero lagoon sand bar up to two times between September 1st and December 31, 2012. The work will consist of excavating a channel through the sandbar at the mouth of Pescadero Creek using hand tools. The channel for the breach, which will extend from the ocean to the edge of the lagoon, will measure approximately 75 feet long, three feet wide and 1-foot below the lagoon water surface elevation. This project is an attempt to maintain sufficient water quality in the lagoon and reduce the likelihood of a fish kill during the natural breaching of the lagoon.	<b>Neg</b>	09/05/2012
2008071075	State Route 91 Corridor Improvement Project Caltrans #8 Anaheim, Corona, Riverside--Riverside, Orange The SR-91 CIP proposes capacity, operational, and safety improvements on SR-91 and I-15. The project would widen existing SR-91 from the SR-91/SR-241 interchange in the cities of Anaheim and Yorba Linda in Orange County to Pierce Street in the City of Riverside in Riverside County. The project also includes improvements to I-15 in Riverside County between the I-15/Cajalco Road interchange in the City of Corona and I-15/Hidden Valley Parkway interchange in the city of Corona.	<b>NOD</b>	
2008112004	Sir Francis Drake Boulevard Rehabilitation Project Marin County --Marin The Operator proposes to rehabilitate about five miles of Sir Francis Drake Boulevard between Shafter Bridge and Platform Bridge Road. The rehabilitation work will include new pavement, drainage improvements, pullout improvements, and slope repair. The California Department of Fish and Game (DFG) are executing a Lake and Streambed Alteration Agreement Number 1600-2012-0056-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Ernest Klock, Marin County Department of Public Works.	<b>NOD</b>

2012088222	Gull Lake Dock Repair Fish & Game #6 --Mono CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 (SAA# 1600-2012-0096-R6) of the Fish and Game Code to the project Permittee, Mr. Jerry Lomeli. Permittee proposes to conduct a dock and peier repair that has become fractured and unstable over time. To conduct this project Permittee proposes to remove the pier side railings and replace the center concrete pad.	<b>NOE</b>	
2012088223	Sonoma County Bridges Gas Pipe Coating Replacement Fish & Game #3 --Sonoma The project shall remove and replace damaged gas pipelines protective wrapping from pipelines that are suspended from five bridges in Sonoma County. The pipelines protective wrapping shall extend 18-inches beyond the exposed gas pieplines into the banks of the creek. All excavation work shall be done by hand and shall occur above the ordinary high water mark.	<b>NOE</b>	
2012088224	TIM -143-12/TIM-144-12 Hydrotest Inspection Project Fish & Game #3 Napa--Napa The project is limited to excavating, repairing and replacing gasline infrastructure as needed to facilitate pipeline hydrostatic testing at multiple locations adjacent to an unnamed seasonal drainage. At both sides, all ruderal vegetation within the construction work areas will be cleared and grubbed as a fire precaution.	<b>NOE</b>	
2012088225	Obexer Marina Repair, No. 1600-2012-0063-R2 Fish & Game #2 --Placer The purpose of the project is to repair storm damage to approximately 80 lineal feet of existing breakwater at the south end of Obexer Marina Pier. Repairs to the structure will include replacement and/or welding of support beams, installation of tie backs, and repair to minor appurtenances. The repair will also include replacement of displaced rock as necessary to return the pier structure to pre-damage condition.	<b>NOE</b>	
2012088226	Cronk Pier Modification and Expansion, No. 1600-2012-0009-R2 Fish & Game #2 --Placer The project aims to rehabilitate and expand an existing single-use pier located on the west shore of Lake Tahoe. The existing pier is approximately 166' lineal feet with double piling above the pier deck and two tall piling at the lake ward end. The proposed pier is appoximately 189' that is, a 24' extension from the existing pier and 10' short of the Tahoe Regional Planning Agency Pierhead Line.	<b>NOE</b>	
2012088227	Purchase of New Particulate Matter Street Sweeper Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project includes the purchase of a new Particulate Matter (PM) street sweeper, which will offer improved ability to remove dust and cinders from Town street, and meet current EPA standards for emissions from its main auxillary diesel engines.	<b>NOE</b>

2012088245	Development of Potable Water System - Frank Raines Regional OHV Park Parks and Recreation, Department of --Stanislaus The Frank Raines water project would provide park visitors with access to potable water for drinking, cooking, hand washing, and showering. The project includes a potable water storage tank and a water treatment plant which would contain a filter, filter matrix, chlorinator, low water and low chlorination notification system, assorted valves, pipes and electrical components, and control panels. The Capacity of this system would be 10,000 gallons which is a 3-day supply for the OHV area. The project would use existing delivery infrastructure and would not increase the water supplied or affect the number of visitors to the park.	<b>NOE</b>	
2012088246	Metcalf Motorcycle County Park Ground Operations Parks and Recreation, Department of --Santa Clara The project consists of ongoing operations and routine maintenance of Metcalf Motorcycle County Park. This includes routine facilities and equipment maintenance and operations including maintenance of trails and tracks.	<b>NOE</b>	
2012088247	Ground Operations - La Grange Regional OHV Park Parks and Recreation, Department of --Stanislaus This ground operations project will assist the County in servicing the facility in the following areas; entrance station collection/support; cleaning restrooms; volunteer support and coordination; trash collection; printing maps on recycled paper; physical barriers for traffic control; fencing repairs; regulatory and directional signage; maintaining trees; site and program management; electrical repairs; and operational funding for staff.	<b>NOE</b>	
2012088248	Friends of Jawbone Ground Operations - Trail and Route Maintenance Work Parks and Recreation, Department of --Kern The project consists of signage, fencing, and maintenance of OHV trails in several OHV areas in the desert of eastern Kern County.	<b>NOE</b>	
2012088249	California City Education and Safety Parks and Recreation, Department of California City--Kern This project provides staffing, medical equipment, and supplies for the first aid station at Borax Bill Park. It also provides staffing and equipment for emergency vehicles to respond to the OHV area for accident scenes, search and rescue incidents, and any OHV incidents needing California City Fire Department response.	<b>NOE</b>	
2012088250	California City OHV Trail Ground Operations Parks and Recreation, Department of California City--Kern The project would include the maintenance of the California City OHV trails system, the OHV park facility (Borax Bill Park), and route signage and markers.	<b>NOE</b>	
2012088251	Education and Safety - Owshead GPS Expansion Parks and Recreation, Department of --Kern This project seeks to expand the "Owshead GPS" Project coverage area (an internet-based system that allows the public to view or download agency OHV route data) to over 25 million acres. When expanded, the new coverage area	<b>NOE</b>

2012081044	<p>Import of Fill Material to Warm Creek Conservation Basins San Bernardino Flood Control District San Bernardino, Colton--San Bernardino</p> <p>The San Bernardino County Flood Control District is proposing the use of the (non-functional) Warm Creek Conservation Basins for the acceptance of imported clean fill material from various locations. Several contractors, including the contractor responsible for on-going improvements to I-215, have requested that the District consider the basins for accepting clean fill material. The District may also transport excess sediment and material excavated from maintenance activities in San Timoteo Creek and other flood control facilities to the Warn Creek basins. The District currently estimates the need to provide basin capacity for 300,000 cubic yards of clean fill compacted at 90 percent.</p>	<b>MND</b>	09/17/2012
2012081046	<p>Aerial Acres Water Company Water System Improvements Project Public Health, Department of --Kern</p> <p>The Aerial Acres Water Company is a mutual water purveyor serving the North Edwards area within eastern Kern County, CA. The Company is proposing to construct new and replacement water system facilities to serve the residents within its service area and to treat an arsenic contamination problem. It is the intent of this project to replace or install new water system facilities in order to meet existing water demands within the project's service area. The proposed project has three general objectives: (1) Construct new and replacement water transmission and distribution pipelines and storage capacity to provide an adequate water supply system to meet the Company's current and future domestic water supply demand and to remedy fire flow deficiencies; (2) Construct an additional water production well to increase water production and storage capacity to meet demand requirements of existing connections throughout the Company's water service area; and (3) install an arsenic treatment system to reduce existing arsenic concentrations in the well's water supply to meet current CDPH's health standards.</p>	<b>MND</b>	09/17/2012
2012081047	<p>Tillman Minor Use Permit San Luis Obispo County Paso Robles--San Luis Obispo</p> <p>Request for approximate 14,000 sf winery with tasting room and caves. The project will result in the disturbance of 2.5 acres of a 21 acre parcel that will include 18,035 cubic yards of cut and 10,815 cubic yards of fill with an additional 1,000 cubic yards of material from the cave excavation. The project includes a request for six special events with no more than 80 attendees in addition to industry-wide events allowed by ordinance. Case production initially proposed is 2,000 with a maximum of 10,000 cases.</p>	<b>MND</b>	09/18/2012

	limited time allotted for nonprofit and city event promotion. Caltrans permit approval also required.		
2012082061	Project 12-013 (South Sutter, LLC) Sutter County --Sutter The applicant, South Sutter LLC, proposes to mine material consisting of soils meeting standards for construction projects in the vicinity, such as highway interchanges and levees. The mining operation will remove up to 1 million cubic yards of material from 330 acres of three adjoining parcels, totaling 469-acres known as the "south field" (APN: 35-250-016, 020, 021). The "south field" will be excavated and reclaimed as the first phase of the project. The applicant indicates the ultimate goal of the project is to remove material so the remainder of the properties can be laser leveled for rice production. The plans and discussion also identify the "north field" (APN: 35-170-003) as phase two. However, it is not analyzed in this document and no excavation is permitted to occur until the applicant amends the surface mining permit and reclamation plan to include it and all necessary studies for analysis to occur are completed.	<b>MND</b>	09/17/2012
2012082062	The Ranchettes at Neroly Estates Subdivision 9284 (TM 03-11 and VA 02-11) Oakley, City of Oakley--Contra Costa This is request for approval of Vesting Tentative Map 9284 (TM 03-11) subdividing 7.14 acres into seven single family residential lots. A Variance (VA 02-11) is being requested for Lot 3, which is slightly below the minimum required lot size at a total of 34,724 sf. The project is located at the southeast corner of Oakley Road and Neroly Road in Oakley, CA. of Contra Costa County. APN's 041-080-001 and 002. The site is zoned R-40 District.	<b>MND</b>	09/17/2012
2012082063	Monte Sereno General Plan Amendment, Zoning Code Amendment, and Pre-zoning Monte Sereno, City of Monte Sereno--Santa Clara The City of Monte Sereno is proposing the following: general plan amendment, zoning code amendment, and prezoning the project site, and to facilitate future annexation of the project site to the City of Monte Sereno. The City is proposing these changes as part of their process to implement Program H-3.10, which is presented below.	<b>MND</b>	09/17/2012
2012081045	Coast Corridor Tier 1 EIS/Report - Salinas to San Luis Obispo Portion San Luis Obispo Council of Governments -- FRA is issuing this notice to advise the public that FRA and the Caltrans will jointly prepare an EIS/EIR to study potential service upgrades and rail corridor improvements to the Salinas to San Luis Obispo portion of the Coast Corridor. The objective of the EIS/EIR is to evaluate alternatives and present environmental analysis to help make decisions regarding the type of service upgrades and rail improvements to be provided in the corridor, including variations in train frequency, trip time, and on-time performance. FRA is also issuing this notice to solicit public and agency input into the development of the scope of the EIS/EIR, whether to tier the environmental process, and to advise the public that public and agency participation resulting from outreach activities conducted by Caltrans and its representatives will be considered in the preparation of the EIS/EIR.	<b>NOP</b>	09/17/2012

	<p>from the Quarry along an existing haul road to the Edwin Center for further processing and transported off-site via haul truck or rail. The Edwin Center would host various material processing facilities on ~113 acres, including an aggregate processing plant, an asphaltic concrete plant, a ready-mix concrete plant, an asphalt and concrete recycling facility, and a rail loadout facility for finished products. Mining would not occur within the Edwin Center, which is geographically separate from the Quarry. The railroad loadout facility would be located directly off the existing Union Pacific-lone Branch rail. The majority of material processed at the Edwin Center would be railed to regional markets. The remaining material would be trucked directly to customers in the local market of lone and throughout Amador County.</p>		
2011111049	<p>Campo Verde Solar Energy Project Imperial County El Centro--Imperial NOTE: Revised Final 2 CD's</p> <p>A 140 MW solar facility including solar panels, a gen-tie line, supporting electrical infrastructure, O&amp;M Building, ancillary structures and fencing.</p>	<b>FIN</b>	
2008081126	<p>Avenue 280 Road-Widening Tulare County Visalia, Exeter--Tulare</p> <p>Caltrans, in cooperation with the County of Tulare and the City of Visalia proposes to widen Avenue 280 from a two-lane undivided roadway to a four/six-lane divided road with a median. The widening would occur from the junction with SR99 in Tulare County east to Mooney Blvd. in the Visalia, and from Santa Fe St. in Visalia east to Orange Ave., with transitions to the existing two-lane roadway completed by Filbert Rd. in Exeter, excluding the roadway segment through Farmersville. Intersection improvements at up to 21 roadway intersections with Avenue 280 would also be implemented. Improvements and right-of-way transitions at these intersections may occur for up to 700 feet north and/or south of Avenue 280. The project would also require utility relocation, right-of-way clearing, and culvert widening. The length of the project is 10.82 miles.</p>	<b>FON</b>	09/18/2012
2012081048	<p>Encore Trust Residence San Diego, City of La Jolla, San Diego--San Diego</p> <p>Coastal Development Permit and Site Development Permit for construction of one single-family residential unit. The proposed single-family residence would be 17,949 sf of liveable area (or approximately 18,000 sf when calculated for purposes of determining the floor area ratio) and will be constructed to fit into the existing northwesterly slope to reduce its visibility from La Jolla Farms Road. The proposed project will be confined to a 0.92-acre portion of a 1.52 acre site. The project would also construct various associated site improvements, including a swimming pool, retaining walls, hardscape, and landscape. The remaining 0.60 acre of the site consists of Environmentally Sensitive Lands that will be retained and conserved within a Building Restricted Easement/Covenant of Easement Area.</p>	<b>MND</b>	09/18/2012

<b><u>Documents Received on Monday, August 20, 2012</u></b>			
	The CMAP builds on the 2005 Climate Protection Action Plan and existing policies and programs that reduce GHGE. The scope of the CMAP is broader than the CPAP because the CMAP includes more emphasis on communitywide emissions and incorporation of adaptation principles that are the groundwork for further research on how the City can adapt to a changing climate. The CMAP presents the framework for reducing GHG emissions by estimating existing emissions, setting a reduction target, adopting a set of strategies and guidelines that demonstrate how the City will reduce future emissions, establishing a monitoring plan, and adopting the CMAP through a public process. In addition, the CMAP highlights climate change vulnerabilities, adaptation strategies, and recommendations for further research.		
2012081050	Coyote Creek Class I Bikeway Project Orange County Buena Park, Fullerton, La Mirada--Orange, Los Angeles OC Public Works/Flood Control Design is proposing to improve the existing Coyote Creek flood control maintenance road on the eastern channel bank of the channel, extending from Hillsborough Drive on the north to La Mirada Boulevard/Malvern Avenue on the south and a small segment on the west side of the channel that extends from Behringer Park north to the existing pedestrian bridge to accommodate a Class I (off-road paved) bikeway.	<b>Neg</b>	09/18/2012

<b><u>Documents Received on Tuesday, August 21, 2012</u></b>			
2008011097	General Permit for Site-wide Groundwater Remediation Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --San Bernardino Note: Extended Review  PG&E has implemented remediation activities to clean the groundwater impacted by historical chromium discharges from the Hinkley Compressor Station, pursuant to existing Water Board orders. The Water Board has worked with PG&E to develop feasible remedial approaches to comprehensively contain and remediate the chromium plume. The EIR evaluates at an equal level of detail six project alternatives, each with different types and combinations of remediation activities. The project area for the analysis encompasses the chromium plume area; adjacent areas to the north, east and west where the plume may be defined in the future (due to migration and addition investigation); and where monitoring activities may occur and areas of potential effects due to groundwater pumping from the remediation alternatives.	<b>EIR</b>	11/05/2012
2010121069	Metro Gold Line Foothill Extension Azusa to Montclair (Phase 2B) Sonoma County Water Agency Azusa, Glendora, San Dimas, La Verne, Pomona, Claremont, ...--Los Angeles, San Bernardino The Metro Gold Line light rail transit (LRT) system currently extends from Los Angeles to Pasadena serving cities and communities along the alignment corridor. The Metro Gold Line Foothill Extension is a phased project that extends the existing Metro Gold Line by 24 miles to the east, from the City of Pasadena to the City of Montclair. The extension is proceeding in two phases. Construction of the first phase from the Pasadena Sierra Madre Villa Station to the Azusa-Citrus Station began in late 2011, and construction is anticipated to be completed in late 2015.	<b>EIR</b>	10/04/2012
2010121032	Lakeview Substation Project Public Utilities Commission --Riverside FYI FINAL  Southern California Edison proposes to construct a new 115/12kV substation (Lakeview substation) and related facilities, including 2 new 115kV subtransmission source line segments to connect the proposed substation to the existing Valley-Moval 115kV subtransmission line; construction of 2 new underground 12 kV distribution getaways; installation of telecommunications facilities (i.e., telecommunication cable) to connect the proposed substation to SCE's telecommunications network, upgrades to the telecommunications equipment at various substations; and decommissioning of 2 existing substations: Nuevo and Model Pole Top.	<b>FIN</b>	
2011011048	ENV-2010-1727-MND - 17030 W. Sunset Boulevard Los Angeles, City of --Los Angeles The proposed project involves the construction of a new approximately 84,500 sf residential development consisting of three separate building, containing a total of 49 units. Affordable housing units will be set aside in accordance with City of Los Angeles Mello Act Procedures. The two northernmost buildings will be constructed over a subterranean parking podium. A total of 129 parking spaces will be provided in the subterranean garage. The total building height will range	<b>MND</b>	09/19/2012

	from 35 (southernmost building) to a maximum of 57-feet (LAMC Section 12.21.1. B2). The project entitlement requires a Coastal Development Permit and Mello Act Compliance. A Tentative Tract Map is being requested for the creation of condominium units. The project grading plan will involve the import/export of approximately 19,000 cubic yards, therefore, a Haul Route for the export of more than 1,000 cubic yards of dirt from the site is considered. New mitigation measures have been added.		
2012081052	Next Generation Emergency Network (NGEN) Monterey County --Monterey Use Permit for the development of a new public safety, non-commercial wireless telecommunications facility consisting of an 80 foot high steel monopole with two Omni antennas and a six-foot diameter dish, a 172 sf equipment shelter, propane gas emergency power generator, and a 500-gallon propane gas tank. Excavation will be required for associated foundation work and utility lines (less than 100 cubic yards of grading); and a Tree Removal Permit to allow the removal of two trees (17-inch Oak and 20-inch Pine). The proposed facility would replace an existing 40-foot high radio transmission tower and other related equipment operated by the Monterey County Sheriff's Office and the North County Fire Protection District.	<b>MND</b>	09/19/2012
2012081055	ENV-2012-1051-MND / 1911 W. 6th Street Los Angeles, City of Westlake Village--Los Angeles The project includes the construction of a 6-story, 80' tall building with 53 residential dwelling units that include 52 units for low income households, a managers unit, 54 parking spaces, & a total of approx. 62,566 sf of floor space. In consideration of providing 52 affordable units, the applicant seeks the following Affordable Housing Incentives & Density Bonus Determinations: an increase in the Floor Area Ratio (FAR) to 3.0:1 in lieu of 1.5:1 otherwise permitted, & a 20% reduction of 1 required side yard setback of 7.34 ft in lieu of 9-ft. otherwise required. The project further requires a Site Plan Review for the development of 50 or more new dwelling units.	<b>MND</b>	09/19/2012
2012081057	ENV-2011-2104-MND / 320 N. La Cienega Boulevard Los Angeles, City of --Los Angeles The proposed project is the construction of a six-story, maximum 67-feet in height, 46,230 sf mixed-use building with 4,550 sf of commercial space at the ground floor and 45 multi-family units above. The project involves 75 parking spaces in a garage than spans from the ground level to three levels subterranean. This project is located on three lots that total 15,410 sf (.35 acres). As proposed, the project would demolish the existing four commercial structures on site that total 5,385 sf as well as a 47.5 feet tall two-sided billboard structure and any existing vegetation. The applicant seeks a Vesting Zone Change and Height District Change from C2-1VL-O to RAS4-1D-O, and Zoning Administrators Adjustments for a front yard setback (requesting 0-feet in lieu of the required 5-feet) and a side yard setback (requesting 0-feet in lieu of the required 5-feet) and a side yard setback (requesting 0-feet in lieu of the required 5-feet at the north property line), minimum lot area per dwelling unit (requesting 45 units in lieu of the 44.75 units allowed by the 17,900 sf on site), and a maximum floor area (requesting a floor area adjustment for an increase of 2,400 sf for a Floor Area Ratio of 3:16.1 in lieu of the allowable 3:1).	<b>MND</b>	09/19/2012

2012088400	Bel Marin Keys Unit V Parcel 07 Transfer to Marin County Open Space District California State Coastal Conservancy Novato--Marin Transfer property from State Coastal Conservancy to Marin County Open Space District for management under County parks and open space program.	<b>NOE</b>	
2012088401	Agreement 2011-0218-R4 - Buttonwillow Temporary Oveer Surface Irrigation Fish & Game #4 --Kern The Project includes the installation of a removable 340-foot, 10-inch diameter PVC irrigation pipeline across the Kern River Flood Channel. The pipe will be installed by hand above ground, across the surface of the channel and removed by hand once irrigation is complete. The pipe will not be used when there is water in the flood channel. The pipe will be installed and removed approximately once a month November through March, and once a week April through October. Two-foot sections of wooden blocks will elevate the pip 7-inches off the ground. A small 9-foot wide, 27-foot long, 16-inch high bridge will be installed by hand and will cover a portion of the irrigation pipe which crosses the levee, to allow vehicular access on the levee road.	<b>NOE</b>	
2012088402	Agreement No. 1600-2012-0073-R4; Briarwood Vineyards Drainage Improvement Project Fish & Game #4 --San Luis Obispo The Project includes installing a 200-foot by 65-foot stilling basin to collect flows from two (2) unnamed tributaries, and to then redirect those flows through a 72-inch diameter corrugated metal pipe for approximately 740 feet to its confluence with Paso Robles Creek. Rock slope protection, lined with native vegetation, will be installed at the outlet. The structure will effectively bypass the existing ephemeral gully that has been eroding due to increased runoff from adjacent subdivisions. The bypassed gully will be filled with native material, and the tributary immediately upstream and to the west of the stilling basin will be restored with riparian vegetation over 0.31 acres.	<b>NOE</b>	
2012088403	Agreement No. 2012-0054-R4; Culvert Installations Along Private Raod Fish & Game #4 San Luis Obispo--San Luis Obispo The Project is limited to installing two (2) 18-inch diameter by 28 feet long HDPE culverts and one (1) 36-inch diameter by 28 feet long HDPE culvert along a private road that is being upgraded and widened. The stream channel will be completely dry during construction, and no trees or shrubs will be removed as part of this Proejct. The larger Project to upgrade the existing private road is not part of this Project Description. Equipment used will include the existing private road is not part of this Project Description. Equipment used will include a small tractor and backhoe.	<b>NOE</b>	
2012088404	Agreement 2012-0107-R4 - Wattenbarger - Cleanup San Joaquin River Bottom Fish & Game #4 Madera--Madera Clearing of non-native, weedy vegetation. The Project will entail the removal of non-native, herbaceous vegetation from approximate 80-foot by 60-foot area of dry, sandy channel bottom. All vegetation will be cleared using only hand tools. Only herbaceous, non-woody, non-native, plants will be removed. No work will occur within the active channel of the San Joaquin River.	<b>NOE</b>

2012081062	<p>Conditional Use Permit #2012-010, Lotus Solar Farm Madera County Madera--Madera 41 MB 8ME, LLC is proposing to install a solar energy facility that would allow up to 90 MW of power generation. The proposed site is located on approximately 459 acres northwest of the intersection of Road 33 and Avenue 13, (no situs) in Madera. Approximately 175 acres of the subject parcel is not intended for project development, but will be left to its existing use, including a shop building, almond orchard, and fallow ground. The facility proposed consists of free standing ground mounted photovoltaic panels as high as twenty feet from ground level. An operations and maintenance building is proposed onsite, including an office, restroom, storage, control room, and a septic tank and leach field. A parking lot will serve the building, with access from Road 33. The property would be surrounded with a chain link fence for protection.</p>	<b>MND</b>	09/21/2012
2012081063	<p>EMWD East DVL Area Recycled Water Storage Demonstration Project Eastern Municipal Water District Hemet--Riverside EMWD proposes to construct and operate a recycled water storage basin to collect data for a period of up to four years. The recycled water to be used would first undergo tertiary treatment. Construction of the proposed project (including grading the basin) would begin in the fall of 2012. Construction would not initially include lining of the basin, so as to determine the magnitude of any leakage (i.e., incidental recharge) and effects to water quality in the area. The project would generate data required to provide an understanding of geotechnical, hydrogeologic, water quality, regulatory, and water system requirements for long-term storage of water within the DVL ERA. The project would require construction facilities associated with seasonal storage in the pond, as well as testing requirements, such as pipelines, water inflow/outflow structures, pump facility, french drains to remove nuisance seepage, drains into the project site to address water produced from french drains and stormwater, stormwater capture/control facilities, electrical power feed, storage/staging area, monitoring wells, lysimeters, and other test facilities.</p>	<b>MND</b>	09/21/2012

	<p>program includes the drilling of an approximate 550-foot deep boring using the sonic drilling method, coring of the subsurface sediments, sampling and testing of core samples for hydraulic properties and leaching potential, and the installation and sampling of a monitoring well to obtain water levels and groundwater quality data. The monitoring well is proposed to be located immediately south of Eucalyptus Road, within 10 feet of the southern sidewalk edge of Eucalyptus Road and approximately 1,800 feet east of General Jim Moore Boulevard. The extent of temporary construction staging and disturbance will include a maximum of 50-foot by 100-foot area off pavement and a 15 by 80 foot parking area on Eucalyptus Road. The completed project facilities will result in an up to 3-foot square at-grade concrete slab with a less than 1-foot circular monitoring well cap/cover in the center. Ongoing (operational) activities at the site would be limited to periodic (no more frequently than once per month) water level and water quality sampling at the site.</p>		
2012082074	<p>Tomales Bay Vessel Management Plan California State Lands Commission --Marin</p> <p>The Tomales Bay Vessel Management Plan (TBVMP) is the result of a long-term multi-agency effort to streamline and coordinate vessel management activities for the benefit of the public. The TBVMP aims to improve water quality, protect wildlife and habitat, protect public health and ensure recreational opportunities in Tomales Bay. It also implements the mandates and regulations of both GFNMS and CSLC. It represents extensive input from the boating community and other local stakeholders, and addresses numerous issues including vessel sewage discharge, impacts from moorings, derelict or deserted vessels, introduction of invasive species, disturbance of wildlife, and discharges of oil, fuel, and vessel maintenance products. The TBVMP provides recommendations to achieve the stated goals. The plan does not establish any new legal authorities; none of the proposed actions will alter existing authorities with regard to management of resources or regulation of activities within Tomales Bay.</p>	<b>Neg</b>	09/21/2012
2006072012	<p>Big River Watershed Restoration - Proposition 40 River Parkways Grant Project Parks and Recreation, Department of --Mendocino</p> <p>Supplement - 01 incorporates the remediation of damaged or poorly functioning stream-crossing and drainage culverts along the M-1 road outside the original Project scope. In support of the original nature of the proposed work, this supplement to the MND incorporates additional stream classification, Class 1; includes the use of new culverts in remedial implementation, and extends the scope of work to include two (2) additional miles along the M-1 road.</p>	<b>SIR</b>	10/08/2012
2000122038	<p>Pavement Rehabilitation Caltrans #3 Truckee--Nevada</p> <p>Project will rehabilitate pavement and upgrade storm water treatments for approximately 13 miles of Interstate Highway 80. The proposed activities involve work within waters of the State, including wetlands, and including water of the U.S. The proposed activities involve work within waters of the State, including wetlands, and including waters of the U.S. The proposed activities would entail permanent impacts to 0.006 acre of wetlands and 0.011 acre (79 linear feet) of streams. The Project would also entail temporary impacts to 0.007 acre of wetlands and 0.029 acre (145 linear feet) of streams. A combination of avoidance, minimization and compensatory measures are proposed to mitigate for project impacts.</p>	<b>NOD</b>

2012088415	<p>Carpinteria State Beach Reconfigure Campground Roadway &amp; Replace Asphalt Walkways &amp; Tree Removal Parks and Recreation, Department of --Santa Barbara</p> <p>Reconfigure San Miguel campground roadway at Carpinteria State Beach by removing existing pavement striping, apply new asphalt seal coat and place new pavement striping. Remove and replace asphalt walkway paving at Santa Rosa and San Miguel campground, construct new ADA ramps. Remove 48 non-native eucalyptus and 3 non-native myoporum trees per recommendation of CCD Tree Hazard inspector. Shallow root systems of impacted trees create a hazardous condition by uplifting and cracking existing road and walkway surface. Additionally, repairs to existing surface requires disturbance to root zones that would adversely affect the vigor of trees if allowed to remain adjacent to the roadway. All ground disturbing work will be monitored by a DPR archaeologist and an appropriate Native American monitor for the area. This project will improve visitor services and protect public safety.</p>	<b>NOE</b>	
2012088416	<p>Sell or Transfer of a State Owned Excess Property at 6th Street and Myrtle Avenue Caltrans #1 Eureka--Humboldt</p> <p>Sell or transfer of a State owned excess property that is no longer needed for transportation related purposes.</p>	<b>NOE</b>	
2012088417	<p>Replace Culvert and Down Drain System on State Route 169 Caltrans #1 --Del Norte</p> <p>Replace a failing roadway drainage system; replacing the drainage system will provide a long term roadway maintenance benefit and help to ensure safe, uninterrupted public travel.</p>	<b>NOE</b>	
2012088418	<p>Rule 202 - New Source Review, Rule 214 - Federal New Source Review, &amp; Rule 217 - Public Notice Requirements for Permits Sacramento Metropolitan Air Quality Management District --Sacramento</p> <p>Rule 202, 214, &amp; 217 establish standards and procedures for issuing permits to new and modifying businesses that emit air pollutants. All permits are processed using Rule 202 permitting requirements that meet both state and federal laws. Rule 214 contains only federal requirements that apply to the largest emitters. Federal requirements are generally less stringent than state requirements. However, the Clean Air Act authorizes direct enforcement of federally required permits by EPA and through citizen suits, and requires EPA approval of Rule 214.</p>	<b>NOE</b>

2012082080	48-inch Force Main Reliability Improvement Project (CIP No. 6001) South Bayside System Authority San Carlos, Redwood City--San Mateo SBSA is proposing to construct and install a replacement 48-inch high density polyethylene (HDPE) sewer force main. The 48-inch (project) section of the force main is located between the Redwood City and San Carlos Pump Stations within the cities of San Carlos and Redwood City. The project is part of the SBSA's overall Capital Improvement Program which replaces and upgrades aging infrastructure, and will ensure the reliable operation of the overall sanitary sewer conveyance system. The new force main is intended to reduce the likelihood of spills and discharge of untreated wastewater to surrounding environments, which has occurred with the existing reinforced concrete pipe sewer force main. The existing 48-inch force main would remain in place but not function as a sewage transmission line.	<b>MND</b>	09/25/2012
2012082081	Guernsey Subdivision TSM 04-07 (John Patrick Guernsey) Butte County Chico--Butte Tentative Subdivision Map, submitted in accordance with the County's Flexible Lot Size Ordinance (Butte County Code Section 24-82). The project proposes to create 48 single family residential parcels (in three phases) with a gross average parcel size of 0.48 acres (sized 0.33 to 0.84 acres) from a 50.9 acre parcel. The density of the project is 0.94 units per acre (48 units/50.9 acres). A 23-acre open space parcel is also proposed. Sewage disposal would be provided by a community sewage disposal system located on the open space parcel. Water supply would be provided by a community by a community sewage disposal system located on the open space parcel. Water supply would be provided by individual on-site domestic wells.	<b>MND</b>	09/25/2012
2012082089	Calvary Baptist Church Redevelopment Project Santa Clara, City of Santa Clara--Santa Clara Use Permit Amendment to allow the development of a two-story 10,161 sf multipurpose building in the northwest corner of the project site, demolish the existing 6,125 sf church to develop a new two-story 13,300 sf sanctuary building and 4,197 sf utility building connecting the sanctuary and multipurpose room.	<b>MND</b>	09/25/2012
2012082091	Alan Murray - Coastal Grading Permit - GP2012-10C Del Norte County --Del Norte A Coastal Grading Permit Application has been filed to implement a Restoration Plan as a result of an existing grading violation. The grading violation was the result of grading, mowing, cutting, and removing vegetation within a riparian and wetland habitat. The project is located on a parcel near the southeast corner of the north intersection of Ocean View Drive and U.S. Highway 101 in Smith River.	<b>MND</b>	09/26/2012
2012082092	Town Center Phase III Project; SPA01-10 Lafayette, City of Lafayette--Contra Costa The proposed Project is located on a 1.47-acre plot of land at the north end of Dewing Avenue, between Mount Diablo Boulevard and the BART right-of-way in Downtown Lafayette. The Project, the final phase of the Lafayette Town Center Project would contribute 81 dwelling units, 151 parking spaces for both future residents and downtown shoppers, 20,000 sf of open space to the existing 75	<b>MND</b>	09/26/2012

<b><u>Documents Received on Monday, August 27, 2012</u></b>			
2003122057	Rio del Oro Specific Plan Rancho Cordova, City of --Sacramento The Rio del Oro Specific Plan consists of a mixed-use development project on 3,828 acres. Buildout of the entire project is anticipated to occur over a 25- to 30 year period. The project is divided into five (5) separate development phases in addition to the construction of the 510-Wetland Preserve.	<b>NOD</b>	
2008072113	Alpine Road Bridge Repair Project San Mateo County Unincorporated--San Mateo The project entails bank stabilization work and bridge repair on Mindego Creek near La Honda in unincorporated San Mateo County. Activities include construction of a left-bank wingwall extension and a soldier pile retaining wall with drilled piers and pre-cast concrete lagging, modification of the roadway drainage and filling of a scour hole beneath the bridge abutment. The proposed wingwall extension will be ~14 feet in length and will be constructed upstream of the bridge. The DFG is executing a Lake and Streambed Alteration Agreement, number 1600-2011-0216-R3, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, San Mateo County Public Works Department.	<b>NOD</b>	
2008112004	Sir Francis Drake Boulevard Rehabilitation Project Marin County --Marin The Operator proposes to replace an existing culvert that crosses underneath Sir Francis Drake Boulevard as part of the larger rehabilitation project. A new larger culvert with outfall protection will be placed at mile marker 15.86, west of the Town of Lagunitas. The California Department of Fish and Game (DFG) is executing a Streambed Alteration Agreement Number 1600-2012-0175-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Ernest Klock, Marin County Department of Public Works.	<b>NOD</b>	
2009101055	City of Arvin Circulation Element Update Arvin, City of Arvin--Kern The purpose of the Arvin Circulation Element is to provide a safe, efficient, and adequate circulation system for the city and to state the specific goals, policies, and plans to improve the operations and maintenance of city-wide transportation facilities and service through the year 2030. To meet this purpose, the Arvin Circulation Element addresses the existing problems while at the same time addressing the circulation improvements needed to provide adequate capacity for future land. The implementation of the proposed improvements of the Arvin Circulation Element will improve the development and maintenance of the transportation system which will maximize freedom of pedestrian and vehicular movement and which balances concerns for safety, mobility and quality in the City's living environment.	<b>NOD</b>	
2010082028	Enchanted Resorts Projects Calistoga, City of Calistoga--Napa The proposed project consists of the development of the Enchanted Resorts on the 88-acre project site. The resort would feature 110 hotel units (grouped among 36 cottages), 20 club residences, 13 one-acre residences, public restaurant and bar, event facilities, spa and swimming pools, and parking and support facilities.	<b>NOD</b>

<b><u>Documents Received on Tuesday, August 28, 2012</u></b>			
2012041075	Porsche Experience Driving Center Carson, City of Carson--Los Angeles The Porsche Experience Driving Center project site is a 53-acre triangular site, located in the City of Carson. The project site is currently owned by Watson Land Company and encompasses Assessor Parcel Numbers 7336009009, 7336009008, 7336009006. The Porsche Experience Driving Center project will develop a driver training facility which includes two tracks, an acceleration/deceleration area, a "kick plate" area, an off-road course, an ice/low-friction course, a second low-friction course, and a young drivers' event area. The project will also include a museum, restaurant, retail and office spaces, and a "human performance center" that would emphasize proper driving posture and test the drivers' vision and coordination, classroom space, "client appreciation area," and a client lounge. Parking will also be provided.	<b>EIR</b>	10/11/2012
2012051040	El Toro High School Lighting and Bleacher Improvement Project Saddleback Valley Unified School District --Orange The District proposes to provide lighting and bleacher improvements. The home bleachers would have an approximate seating capacity of 2,500 seats with 18 rows of seats, switchback ADA ramps, and a vertical wheelchair lift to the press box. The visitor side bleachers would have an approximate seating capacity of 1,500 seats with 10 rows of seats and would be approximately 17 feet high to the top of the rail. The total bleacher capacity would be 4,000 seats. Field lighting would come from two 70-foot poles and two 80-foot poles with 15 light fixtures per pole. The proposed lighting control system would include various lighting modes that can be programmed depending on the event. These lighting modes would include the maximum average 50.0 foot-candles (fc) recommended by CA Interscholastic Federation and Illuminating Engineering Society of North America. Football games would operate at the maximum foot-candles while the majority of other events would operate at less than 30 fc. The proposed fixtures are designed specifically to control glare and spill lighting.	<b>EIR</b>	10/12/2012
2009071019	Runway Safety Area Airport (RSA) Border Coast Regional Airport Authority Crescent City--Del Norte To bring Runway Safety Areas at Del Norte County Regional Airport into compliance with current FAA design standards and as required for airports certification under 14CFR Part 139 as required by the 2006 Department of Transportation Appropriations Act (Public Law [PL] No. 109-115).	<b>FIN</b>	
2012082090	Twitchell Island East End Habitat Restoration Project Reclamation District 1601 --Sacramento This project will restore approximately 740 acres of permanent palustrine emergent wetlands through a combination of reestablishment and rehabilitation. The underlying purposes of the project will be to stop or reverse subsidence, create habitat, and sequester atmospheric carbon. By maintaining permanent and adequate water levels, the growth and subsequent decomposition of emergent vegetation is expected to grow peat, which will raise surface elevations on the property. The parcel is expected to provide year-round wetland habitat for waterfowl and other wildlife. The project is also anticipated to provide climate benefits by sequestering atmospheric carbon that will help provide a net reduction in GHG.	<b>MND</b>	09/26/2012

2012082094	Police Department Building Project California State University Trustees Vallejo--Solano The CA Maritime Academy is proposing to replace the existing security entrance kiosk and associated improvements with a new building to house campus Police Department functions. The new one-story building would be approximately 3,800 sf in size and a maximum of 16 feet in height. The building would house administrative offices for 10 sworn officers and 7 civilian personnel working on various shifts, 24-hours per day, 7 days per week. Parking for three vehicles (including one ADA-compliant space) would be located east of the building, and five spaces, which would be reserved for use by police service vehicles only, would be located south of the building. A new gate house and electronic entry and exit gates would also be constructed at Maritime Academy Drive. To accommodate proposed site improvements, Maritime Academy Drive would be widened by approximately 1 1/2 feet on the east side of the roadway.	<b>MND</b>	09/26/2012
2012082096	Lexington Elementary School Modernization Project Los Gatos, City of Los Gatos--Santa Clara The project proposes to demolish/remove existing buildings on-site, construct five new buildings, improve the upper playground, and expand and improve the existing parking lot. The project would increase the school's maximum capacity from 231 students to 385 students. The project would temporarily relocate students to Fisher Middle School located at 19195 Fisher Avenue in Los Gatos. A total of 7 portable buildings and one portable restroom would be temporarily set up at Fisher Middle School as a result. Eight existing classrooms at Fisher Middle School would also be used to house students from Lexington Elementary School. After the project is constructed, all portable buildings set up at Fisher Middle School as a result of the project would be removed.	<b>MND</b>	09/26/2012
2012081070	2014 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) Fresno County Council of Governments Fresno--Fresno The project, as defined pursuant to Public Resources Code, Section 21065, is the preparation of the 2014 Regional Transportation Plan (RTP) and Sustainable Communities Strategy (SCS). The 2014 RTP/SCS will address all transportation modes including motor vehicles, transit (commuter and local), rail (commuter and interregional), goods movement (rail freight and trucking), bicycle and pedestrian facilities, aviation systems, and transportation systems management (TSM) programs and projects considering the horizon year of 2040.	<b>NOP</b>	09/26/2012
2012082093	Napa Oaks II Napa, City of Napa--Napa The project consists of the subdivision of an 80.63 acre hillside property into 54 single family lots and 4 open space lots at 3095 Old Sonoma Road. The access will be located on the south side of Old Sonoma Road opposite Lilienthal Street. A secondary EVA access is proposed further west on Old Sonoma Road. Areas of the site have been graded in the past, and the proposed home sites have been plotted on the flatter portions of the property with slopes generally less than 15%. 46.3 acres will be preserved as open space. A Site plan is attached.	<b>NOP</b>	09/26/2012

2011102026	Petition for Extension of Time and Petition for Change Related to Application 20601 Sierra Lakes County Water District --Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2012-0056-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sierra Lakes County Water District.	<b>NOD</b>	
2012062073	Alpha Building Remodel Project Nevada City Nevada City--Nevada Architectural Review Application to remodel the existing building, known as the Alpha Building, located at 210 Broad Street in downtown Nevada City, Nevada County, California. The Alpha Building footprint contains 8,160 square feet. The main component of the project is to add three windows and a new doorway/entrance on the eastern elevation (UnionStreet) and onto Calanan Park, a City-owned park. The application also proposes replacement of all existing windows and doorways on all elevations of the building with matching materials (wood windows on Broad Street, aluminum windows on Union and Commercial Streets). Two existing storefront doors will also be replaced. The property is zoned "GB-HD" General Business and within the Historical District. The property is 0.56 acre in size and is developed with an existing three-story retail building that was constructed in 1917.	<b>NOD</b>	
2012089017	Maybert Road Bridge Replacement Project Mitigated Negative Declaration Nevada County Nevada City--Nevada The Nevada County Department of Public Works is proposing to replace the Maybert Bridge. The new bridge structure will be a single-span, 20-foot wide, prefabricated truss structure spanning approximately 80 feet. The new bridge will be constructed on the same alignment as the existing bridge, with the new west abutment set back approximately four feet from the existing west abutment, and the new east abutment set back approximately four feet from the existing west abutment, and the new east abutment set back approximately 13 feet from the existing east abutment. The replacement of the bridge will be constructed in a manner that does not result in encroachment into Canyon Creek. The new bridge will not require any structural support within the live channel; the foundations for the proposed bridge structure will be either fastened to, or embedded into the bedrock in a manner that will provide sufficient resistance during high flow events. Staging and equipment storage will occur along Maybert Road.	<b>NOD</b>

2012088470	<p>The Mint Project California Cultural &amp; Historical Endowment San Francisco--San Francisco</p> <p>The San Francisco Mint was a branch of the United States Mint that was opened in 1854 to serve the gold mines of the California Gold Rush, turning gold bullion into coins. In 1874, Mint operations moved into a new, larger building made of granite, sandstone, and concrete. This new structure was the sole physical structure that survived the 1906 earthquake in the Yerba Buena district and has been a National Historic Landmark since 1961. The San Francisco Museum and Historical Society is adapting the building to create a visitor center and museum. CCHE funds will be used for the completion of design development documents for sustainable interventions.</p>	<b>NOE</b>	
2012088471	<p>Routine Maintenance the Western Portion Colusa County Fish &amp; Game #2 Colusa--Colusa</p> <p>This proposed project will include routine maintenance of crossing structures in which the County maintains. The work is performed regularly in the stream zones within those areas identified above. The Permittee performs routine maintenance work to maintain the functional and structural integrity of its facilities. Routine maintenance work, as described in this Agreement includes the following: removing debris, sediment, vegetation, rubbish, downed trees, and other material that could obstruct the natural flow; controlling weeds, grasses, emergent vegetation, and woody vegetation; repairing gates, barricades, and small structures; making repairs to control erosion and stabilize banks; and other work necessary to maintain the functional and structural integrity of waterways.</p>	<b>NOE</b>	
2012088472	<p>Upper Truckee River Emergency Sewerline Protection Project Streambed Alteration Agreement 1600-2012-0124-R2 Fish &amp; Game #2 --El Dorado</p> <p>The top of the sewer pipeline is currently exposed in the bed of the channel, and active bank erosion is occurring near a manhole. The South Tahoe Public Utility District (District) has decided to move forward with a protection design that includes three rock riffle grade control structures. One structure would be located on the secondary channel and two on the main channel. The two structures on the main channel allow two small steps in bed profile to be created that would restore about 6 inches of cover over the sewer pipeline. Additionally, a section of about 85 linear feet of vegetated rock slope stabilization would be constructed to protect the bank in the vicinity of the manhole. At the upstream end of the rock slope protection, a rock key will be constructed to reduce the risk of flanking in the event of upstream bank migration. Vegetative and bio-technical measures will be incorporated into the bed and bank protection.</p>	<b>NOE</b>

	constructed in 2014.		
2012062079	Upper Grape Creek Flow Restoration and Offstream Storage Project Sotoyome Resource Conservation District Healdsburg--Sonoma The project is limited to the development of an off-stream pond, to be used for vineyard from protection and irrigation. The pond will be filled by an upland well not connected to flows in Grape Creek. The new pond will replace an existing on-stream flashboard dam and direct stream diversion. An excavator will remove the existing pond embankment and relocate the materials to create the new pond. The embankment of the new pond will be adjacent to Grape Creek and will be stabilized with biotechnical methods and replanted with native riparian vegetation. Additional riparian vegetation will be planted within the inundation footprint of the old pond. It is expected that the project will improve instream flow in Grape Creek and benefit downstream fisheries.	<b>NOD</b>	
2012089018	Lake or Streambed Alteration Agreement No. 1600-2011-0247-R1 for Timber Harvesting Plan 1-11-083 MEN, "Buckridge" THP Forestry and Fire Protection, Department of Point Arena--Mendocino The California Department of Fish and Game (DFG) are entering into a lake or streambed alteration agreement (Agreement) with Mr. Gerald Garvey, representing Redwood Empire Sawmills. The activities to be completed according to the Agreement are located approximately three and one-half miles east of Point Arena in Mendocino County. The project is located on unnamed tributaries to the Garcia River. The project is located in Section 10; Township 12N; Range 16W; Mount Diablo Base and Meridian, in the Eureka Hilla U.S. Geological Survey 7.5 minute quadrangle.	<b>NOD</b>	
2012089020	Monterey Regional Waste Management District Pilot Demonstration anaerobic Digester and Continued Composting and Recycling Operations Project Monterey Regional Waste Management District Marina--Monterey Proposed 3,500 square foot pilot demonstration anaerobic digester as part of ongoing District composting and recycling operations. The proposed project would process organic waste (feedstock) already received by the District and convert the materials into biogas and soil amendment. Biogas emissions would be recycled as a power source for the digester with excess electricity generated by the project used for other uses in the Monterey Regional Environmental Park, potentially including the MRWPCA wastewater treatment facility adjacent to the project site.	<b>NOD</b>	
2012088481	Adoption of a resolution of the Oversight Board of the Fontana Successor Agency to the dissolved Fontana Redevelopment Agency Fontana, City of --San Bernardino Adoption of a resolution of the Oversight Board of the Fontana Successor Agency to the dissolved Fontana Redevelopment Agency, approving a Recognized Obligation Payment Schedule pursuant to Health and Safety Code Section 34177 (1) for January 1, 2013 through June 30, 2013.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 08/16/2012 - 08/31/2012

<b><u>Documents Received on Wednesday, August 29, 2012</u></b>			
2012088483	SEPV9, LLC - 10.00 Acres Fish & Game, Wildlife Conservation Board --San Bernardino Acquisition of 10,00 acres of land as mitigation for impacts to wildlife habitat.	<b>NOE</b>	
2012088484	Accessibility Improvements Parks and Recreation, Department of --Sonoma Upgrade the Cali Ranch and Reef Campground lift stations.	<b>NOE</b>	
2012088485	AT&T Cellular Site at California Department of Corrections and Rehabilitation Preston Facility General Services, Department of lone--Amador The project consists of placing one new class 4 pole to an existing PG&E pole line. There will be mirror trenching of approximately 105 feet for a new conduit path. New electrical components will be installed and connected to the existing AT&T vault and tower site.	<b>NOE</b>	
2012088487	Tomales Bay Watershed Enhancement Program 2012 Marin Resource Conservation District --Marin Approval of projects for inclusion in the Marin Coastal Watersheds Permit Coordination Program. Proposed work includes improved animal trails, grade stabilization, removal of nonnatives and revegetation with native species, streambank protection, fencing, spring development, water troughs and tanks, access road repair, water control structures, grassed waterways, and channel stabilization.	<b>NOE</b>	
2012088488	Line 57B-Marsh Creek External Corrosion Direct Assesment Fish & Game #3 Brentwood--Contra Costa The project is limited to the excavation of an approximately 15-foot long, 8-foot wide trench around an existing natural gas pipeline within the east bank of Marsh Creek for inspection. If corrosion is identified on the piptline, then an approximately 15-foot long, 8-foot wide trench will be excavated within the west bank of Marsh Creek to expose and inspect the pipeline. Access to the pipeline will require removing or trimming no more than sixteen (16) linear feet of Valley Foothill Riparian vegetation.	<b>NOE</b>	
2012088489	Sweetwater Springs Ranch Fish & Game #3 --Sonoma The project is limited to the construction of two stream crossings to serve as part of a residential driveway. One crossing will consist of a 35-foot-wide bridge with abutments located above the 100-year flood event. A second crossing will consist of 7-foot-long, 18-inch-diameter corrugated plastic pipe (CPP) culvert . The culvert inlet and outlet will be protected from scour by placing 5- to 12-inch diameter rock keyed into the bank in a 3-foot by 5-foot area at each end of the culvert. SAA #16002012-0166-R3.	<b>NOE</b>

<b><u>Documents Received on Wednesday, August 29, 2012</u></b>			
2012088490	Grape Creek Fish Passage Enhancement Project Fish & Game #3 Healdsburg--Sonoma The project is limited to improving fish passage within the existing box culvert by installing a new pool and weir fishway with four concrete v-notch weirs with a 144-degree opening; the weirs are separated by 9.42-feet on center, with a 0.5-foot drop between weirs. The pools will be approximately 8.75 feet long and 3 feet deep, with a resulting pool volume of 161-cubic feet. The improvements can be separated into three sections: The fishway and two adjacent side channels. The fishway is aligned in the center of the crossing with side channels on to the north and the south of the fishway.	<b>NOE</b>	
2012088491	Kubich Grading Permit Placer County --Placer Grading Permit for drainage and culvert work after the work was done.	<b>NOE</b>	
2012088492	Issuance of Lake or Streambed Alteration Agreement No. 1600-2012-0140-R1, Excavate, Inspect and Repair and Existing Gas Pipeline Fish & Game #1 --Mendocino The project involves one encroachment; excavate, inspect and repair an existing gas pipeline at the Line 21E Cluster 3 site in Ackerman Creek. Work will be conducted within the bank and dry gravel bar of Ackerman Creek. Some vegetation may be affected including native willow.	<b>NOE</b>	
2012088493	Strawberry Culvert Improvements Caltrans #10 --Tuolumne The California Department of Transportation (Caltrans) District 10 is proposing a maintenance project to repair five (5) culverts located on State Route 108 near the Communities of Strawberry and Pinecrest. One (1) 18 inch culvert would be removed and replaced in kind and four (4) culverts would be repaired with cured-in-place pipe liners. Construction would occur on previously disturbed areas within Caltrans right of way.	<b>NOE</b>	
2012088494	One El Paseo Building Palm Desert, City of Palm Desert--Riverside Approval of an exterior facade renovation to the building formerly known as LG's Steakhouse.	<b>NOE</b>	
2012088495	Mental Health Services Building - Enhanced Outpatient Program Facility (Revised) Corrections and Rehabilitation, Department of Lancaster--Los Angeles Based on CDCR's analysis of the impact of the agency's "Realignment" policy on a declining mental health population, CDCR filed a revised mental health bed plan (MHBP) with the Coleman Court in June of 2012. The revised MHBP changed the mission of the newly-constructed facility from providing EOP treatment for 150 General Population (GP) inmates to providing EOP treatment space for 100 Administrative Segregation Unit (ASU) inmates. The proposed scope change will utilize all of the new building for the EOP-ASU population, but some modifications to the building will be required in order to meet the higher security requirements for ASU-level inmates. Most of these modifications consist of the relocation of interior walls and re-purposing of existing rooms, but the mission change would also	<b>NOE</b>

2012082105	Grass Valley Field Office Replacement Motor Vehicles, Department of Grass Valley--Nevada The proposed project consists of the design and construction of a new one-story, approximately 7,600 gsf DMV field office on approximately 1.42 acres. The field office would include counter and drive test services for the public. Multi-phased construction would allow the existing field office to remain operational until employees move into the new office. Phased work includes re-routing utilities, temporary utilities for construction trailers and temporary parking. The project includes the demolition of multiple buildings totaling approximately 7,110 gsf. Proposed site improvements include approximately 50 parking spaces, a motorcycle drive test area, new paving, utilities, curbs, landscaping, a trash enclosure, and site lighting. Construction may require the relocation of on-site groundwater monitoring wells.	<b>MND</b>	10/01/2012
2009121017	Gonzales Climate Action Plan Gonzales, City of Gonzales--Monterey The purpose of the Gonzales CAP is to identify how Gonzales will achieve near-term GHGE reduction targets and to create a path to achieving long-term targets. The Gonzales CAP provides GHG reduction targets and associated measures in the sectors of energy use, transportation, land use, water, and solid waste.	<b>NOP</b>	09/28/2012
2012081075	Camarillo Tertiary Effluent Pipeline Installation Project (SS-03-03/SS-10-08) Camarillo, City of Camarillo--Ventura Construction of two segments of pipeline: 1. approximately 9,000 linear feet of 24-inch pressurized discharge pipeline from Camarillo Sanitary District's Water Reclamation Plant (located at 150 Howard Road) to Salinity Management Pipeline operated by the Calleguas Municipal Water District (CMWD). The connection would occur near Lewis Road south of Pleasant Valley Road in Camarillo, CA. The proposed construction methods would be cut-and-cover (7,100 feet) and horizontal directional drilling (1,900 feet). 2. approximately 6,000 linear feet of 16-inch pressurized recycled water distribution pipeline. The pipeline would be located along Pancho Road from Hayward Road (south end) to Pleasant Valley Road (north end). The proposed construction - cut/cover.	<b>NOP</b>	09/28/2012
2012082104	BART to Livermore Extension Project San Francisco Bay Area Water Transit Authority Livermore, Dublin, Pleasanton--Alameda The BART District is proposing a 4.8-mile extension from the Dublin/Pleasanton Station along I-580 to a new station in the vicinity of the Isabel Avenue/I-58 interchange. The project would include efficient bus-to-BART transfer and express bus service linking to inter-regional rail service, Priority Development Areas in Livermore, and proposed off-site parking facilities.	<b>NOP</b>	09/28/2012
2012081080	Lumberg New Single-Family Dwelling and Swimming Pool Santa Barbara County Goleta--Santa Barbara Coastal Development Permit to allow construction of a new two-story single family dwelling of approximately 3,914 sf in size with a basement of approximately 1,796 sf in size and an attached garage of approximately 550 sf in size. 	height of the dwelling would be 28 feet with a 5:12 roof pitch. The project also includes an 8 ft x 36 ft lap pool immediately south of the dwelling. Landscaping will consist of drought-tolerant plantings with a drip irrigation system, and permeable paving materials. The project also includes a comprehensive drainage system that includes area drains, street drains and a slant drill drain pipe to direct site water away from the bluff. Grading would include approximately 1040 cubic yards of cut and 156 cubic yards of fill. No trees will be removed.		
2010121058	Old River Solar Project (PP10267); Conditional Use Permit No. 63, Map 143 & Conditional Use Permit No. 64, Map 142; Lot Line Adjustment No 65-10 Kern County Bakersfield--Kern The proposed project includes two conditional use permits (CUP 63, Map 142 and CUP 64, Map 142) to allow for the construction and operation of two contiguous solar facilities on two parcels. The proposed Old River One solar facility would be a 20-megawatt (MW) solar photovoltaic (PV) power generation facility located on ~ 188 acres, while the Old River Two facility is a proposed 5 MW facility located on ~ 33 acres in the northwestern portion of APN 184-490-05. However, a Lot Line Adjustment (LLA 65-10) will be completed as a part of this project to reconfigure two parcels to conform to the boundaries of the individual solar facilities.	<b>Oth</b>	
2001042003	Revised MetroBase Project Santa Cruz Metropolitan Transit District Santa Cruz--Santa Cruz The project will construct a bus operations facility with a revised project with minor design changes to improve operations of the facility that do not change the land use or increase the capacity of the original project.	<b>NOD</b>	
2001082058	Oakland Army Base Area Redevelopment EIR Oakland, City of Oakland--Alameda The Oakland Army Base (OAB) served as U.S. Army facility until it closed in 1999. In 2000, the Oakland City Council designated the base and surrounding properties as Redevelopment Area covering over 1,800 acres, include the former OAB, 16th/Wood area, and Maritime areas of the Port of Oakland (Port). The OAB Area Redevelopment Plan Environmental Impact Report (2002 FEIR) was certified by the City of Oakland on July 29, 2002. The City and the Port are proposing to develop a portion of the Redevelopment Area, generally encompassing the former OAB (approximately 360.5 acres), primarily for transportation and logistics purposes, including railroad and street infrastructure and other trade and logistics improvements (2012 OAB Project). The 2012 OAB Project Initial Study/Addendum evaluated all of the project's potentially significant environmental effects and concluded that the project would not result in new significant environmental impacts or a substantial increase in the severity of significant impacts already identified in the prior CEQA reviews, therefore the City concluded a subsequent and supplemental EIR is not required.	<b>NOD</b>	
2005091148	San Clemente Dam Seismic Safety Project Water Resources, Department of Carmel--Monterey California-American Water Company, subject to review and final approval by the Department of Water Resources, Division of Safety and Dams, pursuant to its authority, plan to remove San Clemente Dam and reroute the Carmel River, as described in Alternative 3 of the final EIR-EIS. The primary purpose of the project	<b>NOD</b>

Taylor State Park to allow hand crews access for construction activity within the existing Sir Francis Drake Boulevard right-of-way for construction of roadway and drainage repairs as outlined on construction drawings referenced as Rehabilitation of Sir Francis Drake Boulevard, Phase 1B - From Irving Bridge to Shafter Bridge dated 8/10/2012. Permit also allows for the construction of temporary erosion control on State Park land necessary for watershed protection during construction activities and as required by the roadway repair project environmental documents and permits.	<b>NOE</b>	
2012088505	Main Street Water Transfer Parks and Recreation, Department of --San Diego The purpose of this project is to provide a water supply to the Main Street area for current and future uses. Visitors use the Main Street area for camping, day use and large group gatherings. However, no water is available in this area to service the current uses or the planned improvements. The project will also supply water for dust abatement operations. The water supply will come from the existing Toner Residence area well and holding tanks. Additionally, the project will provide a permanent and reliable water source to the District Office location in lieu to the failed water well at the District Office which was unable to produce sufficient water.	<b>NOE</b>

2012088506	NEPA Documentation Georgetown RD Restoration Parks and Recreation, Department of --El Dorado This project involves conducting a two-phase approach for identification, planning, and implementing restoration of closed routes in the Bottlehill area, Volcanoville area, and the area in the vicinity of Stumpy Meadows Reservoir south of the Rubicon River on the Georgetown Ranger District. In the first phase staff identify and map the closed routes being used by OHVs, record locations using global positioning system (GPS) equipment, and photo document use by OHVs and effects on natural resources, assess impacts to special-status plant and wildlife habitats, and review erosion and sediment control measures. The staff would prepare a purpose and need and proposed action document, solicit public involvement, prepare a biological assessment for consultation with the U.S. Fish and Wildlife Service, and prepare the appropriate NPEA document.	<b>NOE</b>	
2012088507	NEPA Document Preparation for Elkins Staging Area Restoration Parks and Recreation, Department of --El Dorado This grant is the first phase of a two-phase project involving the restoration of the Elkins Flat Staging Area near the town of Grizzly Flat. The first phase of the project would consist of management planning involving preparation of a restoration plan and an environmental analysis (EA) required under the National Environmental Policy Act.	<b>NOE</b>	
2012088508	Ground Operations in OHV Areas Parks and Recreation, Department of --El Dorado The grant would fund administrative and maintenance activities of existing facility structures. Specific actions include: restroom cleaning; signage replacement; posters, maps and brochures maintenance; trash and graffiti removal at sites; equipment purchase; fence/barrier replacement; bench repair/replacement; and fuel purchase. No ground disturbing activities are proposed.	<b>NOE</b>	
2012088509	NEPA Document Preparation for Phase II McKinstry, North Union, and Jones Fork OHV Areas Parks and Recreation, Department of --El Dorado The grant would fund a review of past NEPA decisions to ensure there are no changed conditions and no NEPA amendments required for follow-up work on past restoration efforts.	<b>NOE</b>	
2012088510	Ground Operations - Corral Canyon/Bear Valley OHV Area and Four Corners OHV Staging Area Parks and Recreation, Department of --San Diego The proposed project includes trail maintenance activities of repairing trail tread, installing or improving water drainage features, and trimming brush. Four portable toilets would be installed and serviced. Grant funds would also include rental of an RV trailer as a portable information booth and monitoring biological and cultural resources for effects of OHV use.	<b>NOE</b>

2012088511	Ground Operations - Wildomar OHV Area Parks and Recreation, Department of --Riverside This grant would fund operation and maintenance of the trailhead staging area, campground, restrooms, and potable wells and light rail maintenance.	<b>NOE</b>	
2012088512	Tahoe National Forest, Upper Cottonwood Creek Restoration Planning Parks and Recreation, Department of --Sierra The project is planning the design and implementation of the upper Cottonwood Creek OHV crossing on the Bear Valley OHV Loop Trail. Upon a thorough evaluation of the site, the stream crossing would be rerouted or a crossing would be designed that would eliminate the further degradation of the meadow. Subsequent restoration activities would require either the placement of culverts and trail surfacing to allow proper drainage, or the rerouting of the existing trail at a different location to prevent down cutting of the stream channel. Planning and environmental analysis required by NEPA is the first phase of this restoration project.	<b>NOE</b>	
2012088513	Tahoe National Forest, Boca Shoreline Restoration NEPA Parks and Recreation, Department of --Placer The proposed project is planning for the restoration of 7 miles of user-created illegal routes and decommissioned roads around the Boca Reservoir shoreline. Large boulders and 8x8 posts would be placed to block OHV access. The routes would be decompacted using heavy equipment with rippers to stimulate natural revegetation. The grant would fund NEPA analysis only as the first phase of the restoration project.	<b>NOE</b>	
2012088514	Tahoe National Forest, Restoration Parks and Recreation, Department of --Sierra, Nevada, Placer The project include blocking user created routes in the American River and Yuba River District and blocking OHV access to 7 environmentally sensitive areas containing sensitive plants and wildlife, vernal pools, lakeshore, and impacted drainages all in the Yuba River Ranger District. Large boulders would be placed to block access to the sensitive resources and to block access to unauthorized routes as they are discovered. Unauthorized routes would be blocked for a distance of 1/4 mile from the designated trail. Signs would be posted to inform users to stay on designated routes for the project areas.	<b>NOE</b>	
2012088515	Tahoe National Forest, Pagge Creek Restoration NEPA Parks and Recreation, Department of --Placer The proposed project is planning for the continuation of restoration work near Pagge Creek near the Foresthill OHV area. The restoration activity would involve removing 1.5 miles of unauthorized routes in Pagge Creek watershed. The routes would be decompacted, recontoured, storm proofed, and blocked. The restored routes would be allowed to naturally revegetate, with possibly some supplemental	<b>NOE</b>

	straddles both the north and south sides of Marron Road near its intersection with El Camino Real.		
2011092057	Marin General Hospital Replacement Building Project Marin Healthcare District --Marin The proposed project consists of the phased development of the Marin General Hospital to include a 412-space Hillside Parking Structure, a 507-space Bon Air Road Parking Structure, a 100,000 sf Ambulatory Services Building, and a 300,000 sf Hospital Replacement Building. The project would also renovate existing wings of the existing hospital, and involve new and relocated utilities and overall site improvements, to serve the overall project site. Approximately 15,500 sf of existing ancillary buildings on the project site would be demolished, and the project would remove portions of existing historic landscapes attributed to late landscape architect Lawrence Halprin. The project would not result in a net increase in the existing number of licensed beds on the project site.	<b>EIR</b>	10/15/2012
2012072038	Environmental Education and Sustainability Park Yolo County Davis, Woodland--Yolo The project that consists of two separate sites: the Grasslands site and the Beamer/Cottonwood site. The Grasslands site consists of approximately 41 acres of undeveloped land located at 30475 County Road 104, within Grasslands Regional Park. The Beamer/Cottonwood site consists of approximately 6.53 acres of undeveloped land located at the southeastern corner of Ashley Drive and Woodland Avenue in the City of Woodland. The project consists of the development of a 5 megawatt (MW) photovoltaic (PV) solar array and environmental education center at the Grasslands site and a 0.8 MW PV solar array at the Beamer/Cottonwood site. Electricity produced at the Grasslands site would be fed into PG&E's grid while electricity from the Beamer/Cottonwood site would be used at adjacent, existing Yolo County office buildings.	<b>EIR</b>	10/15/2012
2007102030	San Antonio Backup Pipeline Projects San Francisco, City and County of --Alameda NOTE: Final 1 CD  The San Francisco Public Utilities Commission (SFPUC) proposes to implement the San Antonio Backup Pipeline (SABPL) project to provide reliable conveyance capacity for planned and emergency discharges of Hetch Hetchy water out of the SFPUC regional water system under future flow conditions. The proposed improvements include a 7,000-foot-long backup pipeline, discharge facility, cutoff wall, dewatering facilities, pump station and wet well, and new conveyance pipelines. The proposed improvements would allow the SFPUC to discharge the full maximum future flow to a quarry pit, and subsequently conserve the discharged water by pumping the water to either San Antonio Reservoir for storage or to the Sunol Valley Water Treatment Plant for treatment and subsequent delivery to customers. The proposed project would also increase operational flexibility and delivery reliability during emergencies and planned maintenance activities, thereby minimizing the risk of water supply service interruption.  The proposed project has a 21-month construction schedule, from approximately October 2012 through June 2014. All project components would be located in the	<b>FIN</b>

	Sunol Valley on Alameda watershed lands owned by the City and County of San Francisco (CCSF) and managed by the SFPUC.		
2012051076	Santa Ynez River Tamarisk and Arundo Project Santa Barbara County Lompoc--Santa Barbara The County of Santa Barbara Agricultural Commissioner's Office proposes to apply herbicides to the noxious weeds, Arundo donax and Tamarix ramosissima, along the dry bed and banks of the Santa Ynez River, Santa Barbara County, CA. A helicopter will transport personnel who will apply herbicides from the ground with backpack sprayers.	<b>FIN</b>	
2012051002	Conditional Use Permit Application No. C-12-050 Biodiesel Production Facility Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C-12-050 was filed by Jeremy Eslinger of Eslinger Biodiesel, Inc. (EBI), and pertains to ~ 32 acres of property located on the north side of East Malaga Avenue between South Cedar and South Maple Avenues. The applicant proposes to establish a biodiesel production facility, to be built in three phases, which will supply biofuel (clean burning fuel produced from biomass such as algal oils, seed oils, animal fats, and waste vegetable oil) for blending with petroleum diesel. The property is zoned M-3/UGM/cz (Heavy Industrial/Urban Growth Management/conditions of zoning) and is planned heavy industrial.	<b>MND</b>	10/01/2012
2012081081	Soapmine Road Area Nitrate Remediation Project Barstow, City of Barstow--San Bernardino The project entails the construction and operation of a remediation system designed to treat nitrate-contaminated water in a floodplain aquifer at the boundary of the Centro and Baja Subareas of the Mojave River Groundwater Basin underlying that portion of the City of Barstow commonly known as the Soapmine Road area. The project is undertaken pursuant to a directive from the Lahontan Regional Water Quality Control Board to implement a plan for remediation. The goal of this project is to remove 1.44 million gallons a day of nitrate laden water from the Soapmine Road area, treat the extracted water, and discharge the treated water to the City of Barstow Water Reclamation Facility for recharge back into the aquifer. A portion of this project (along Clay River Road) is located in the unincorporated county.	<b>MND</b>	10/01/2012
2012081083	New Residence at 3605 Noranda Lane Malibu, City of Malibu--Los Angeles An application for the construction of a new, 5,236 sf two-story single-family residence with attached 893 sf garage and 643 sf second residential unit, water tank, water well, driveways, fire department turnaround, fuel modification, associated landscaping and hardscape, retaining walls, trellises and covered patio and stormwater detention tank, and installation of a new alternative onsite wastewater treatment system.	<b>MND</b>	10/01/2012

<b><u>Documents Received on Friday, August 31, 2012</u></b>			
2012081086	Lincoln Avenue Widening Project Orange County Orange, Anaheim--Orange The cities of Anaheim and Orange and the County of Orange propose to widen Lincoln Avenue from Kingsley Street in Anaheim (500 ft west of the SAR) to Batavia Street in Orange (250 feet west of the SAR), from its existing four lanes to the ultimate six lane Major Arterial Highway width, as shown on the County's MPAH. The project also involves approximately 1,400 ft of re-striping from four lanes to six lanes west of Kingsley Street to Rio Vista Street, and approximately 400 feet of transition striping east of Batavia Street. The widened roadway and bridge would include Class II bike lanes and raised sidewalks on the north and south sides of Lincoln Avenue.	<b>MND</b>	10/01/2012
2012082110	Eagle Peak Fuel Break Tehama County --Tehama Project work will start within Section 15 T25N R7W approximately 1.5 miles south of Colyear Springs Road (Tehama County Road 356) and will follow a number of ridge lines south terminating at Eagle Peak located within Section 22 T24N R7W. Historically wildfires have continually burned over this portion of Tehama County. With the control of naturally occurring wildlife over the past 90 years, vegetation within the project area has developed into very dense, sometimes solid stands of chamise as well as mixed chaparral at higher elevations. This has created an extreme fire risk equal to or greater than pre-fire conditions. When completed, the Eagle Peak Fuel Break will provide protection to both upslope timberlands and down slope chaparral covering Valentine Ridge. Raglan Ridge and Riley Ridge. This area contains the headwaters of Elder Creek's North, Middle and South Forks along with their related tributaries.	<b>MND</b>	10/01/2012
2012081082	Forest Conservation Initiative Lands General Plan Amendment San Diego County --San Diego The project is a GPA and rezone to revise land use designations on a number of private parcels totaling approximately 75,000 acres within the unincorporated areas of the County, and will amend the Jamul/Dulzura and North Mountain Subregional Plans. Primarily, this GPA will change the land use designations for lands that were subject to the Forest Conservation Initiative (FCI) in and around the Cleveland National Forest and within the following community planning areas (CPAs) and subregional planning areas (Subregions): Alpine CPA, Central Mountain Subregion (including the communities of Cuyamaca, Descanso, and Pine Valley), Desert Subregion, Jamul/Dulzura Subregion, Julian CPA, Mountain Empier Subregion (including the community of Campo/Lake Morena), North Mountain Subregion, (including Palomar Mountain), Pendleton/De La Cruz CPA, Ramona CPA.	<b>NOP</b>	10/01/2012
2012081084	Imperial Valley Solar Company 2 Imperial County --Imperial The Imperial Valley Solar Company 2 Project consists of developing a nominal 30-megawatt alternating current (MWAC) solar photovoltaic energy generation facility (proposed project) on 158.8 acres of land in Imperial County, CA. The proposed project will also include an underground transmission line interconnection to the Imperial Irrigation District (IID) Niland Substation. The proposed project will generate approximately 60,000 MWh of electricity per	<b>NOP</b>	10/01/2012

	annum. The proposed project power output will be delivered to the IID's existing Niland substation, which is located on Beal Road, approximately 2,700 feet from the southwest corner of the proposed project site. IID will purchase all the output from the proposed project pursuant to a long-term power purchase agreement executed in December 2011.		
2012081085	Music Festivals Plan Indio, City of Indio--Riverside The Coachella Valley Music and Arts Festival and Stagecoach: CA's Country Music Festival are held in the City of Indio on the grounds of the Empire and Eldorado Polo clubs and adjacent properties. These Music Festivals have been held annually in spring and authorized by the City through a series of Special Event Agreements with the producer of these events. The proposed Music Festivals Plan would permit up to five music festival events to be held on the project site annually with three of these events allowed each spring and two events to be held each fall through 2030. The maximum allowed attendance, including staff, would be 75,000 persons for two of these events and 99,000 persons for three of the events.	<b>NOP</b>	10/01/2012
2012082108	Conditional Use Permit and Special Permit for the Reggae on the River Music Events 2013-2017 Humboldt County --Humboldt The purpose of the project is to hold annual concert events, the Reggae on the River Music Festival from Thursday through Sunday over the first weekend of August, 2013 - 2017. The event is currently being held nearby at Benbow State Park, but was held on the subject property from 1984-2004.  The project is a proposed Conditional Use Permit and Special Permit for the Reggae on the River Music festival to be held from Thursday through Sunday over the first weekend of August, 2013-2017. Amplified music will be provided from 7pm Thursday night to 1 a.m. Friday morning, from 11:00 a.m. Friday morning to 1:00 a.m. Saturday morning, from 11:00 a.m. Saturday morning to 1:00 a.m. Sunday morning, and from 11:00 a.m. Sunday morning to 8:00 p.m. Sunday night. Food, beverages and arts/crafts vending booths are also proposed on-site.	<b>NOP</b>	10/01/2012
2012082113	New Academic Center at College of Marin, Kentfield Campus Marin Community College District --Marin The proposed New Academic Center would replace four existing older buildings on the same site as follows: Harlan Center, Business Management Center, Onley Hall and the Administration Building. The project would also remove the Taquiera restaurant on the corner of Sir Francis Drake Boulevard and College Avenue. The Austin Science Center (51,236 sf) in the vicinity of Parking Lot 6 was originally planned for removal as part of the 2007 Implementation Plan. The Science Center is now proposed to be retained and to be used for general education classrooms and related support / storage spaces and faculty and staff offices. This CEQA evaluation will address both the NAC and the retention of the Austin Science Center. However, it should be noted that the retention of the Austin Science Center is not expected to alter this estimated enrollment that was analyzed in the	<b>NOP</b>	10/01/2012

	Program EIR. As such, the proposed NAC and retention of the Austin Science Center would have no growth-inducing impacts for the campus.		
2012082107	Folsom Women's Facility Corrections and Rehabilitation, Department of Folsom--Sacramento The proposed project consists of reactivation and reuse of the former Folsom Transitional Treatment Facility (FTTF) at Folsom State Prison (FSP) as a newly designated FWF with the capacity to house 403 female offenders. The former FTTF, which operated until recently, housed 400 male inmates, and the existing facility would require minimal modification for the conversion to the proposed FWF. The project would include renovating an existing modular support building for use as a primary care clinic; renovating a room in the existing central support building for a increased pharmacy; installing razor wire on the existing perimeter fence; pruning trees; replacing the existing sewage grinder pump (located below ground); and restriping the existing 60-space parking lot for 68 parking spaces. Other improvements would include cleaning the lenses and replacing old lamps in standard pole-mounted lights and adding a total of five wall-mounted, low-cast light fixtures on the exterior of existing facility buildings. A maximum of 100 new staff would operate the FWF, which would operate as a satellite facility to FSP.	<b>Neg</b>	10/01/2012
2012082109	PA-1200146 Minor Subdivision Application for 70.0 Acre Parcel and a 69.0 Acre Designated Remainder San Joaquin County --San Joaquin Minor subdivision application to divide one parcel into a parcel and a designated remainder. Parcel 1 to contain 70 acres and the designated remainder to contain 69 acres. This parcel is under a Williamson Act Contract.	<b>Neg</b>	10/01/2012
2012082111	Use Permit 12-007 (Shasta Oaks, LLC/Hansen) Shasta County Redding--Shasta The request is for a beer tasting room with on and off-sale retail sales. The tasting room would be accessory to a wholesale micro-brewery with warehousing and distribution operations. The proposed use would be located in an existing 4,193 sf office/warehouse building (950 sf office / 3,243 sf warehouse) with an existing paved parking area and landscaping. Water service at the property is currently provided by the Bella Vista Water District. The City of Redding currently provides sewer service to the property. The project would not involve any improvements of the exterior other than provision of parking required for the proposed use and exterior signage. The project would include minor changes to the interior of the building, including the incremental expansion of the brewing operations in the warehousing portion of the building and a change in occupancy from the office use to the tasting room (assembly occupancy).	<b>Neg</b>	10/01/2012
2012082112	Time Extension to Complete Full Beneficial Use of Water Under Water Right Permit No. 21101 Glenn-Colusa Irrigation District (GCID) --Glenn, Colusa GCID proposes to extend the time to complete full beneficial use of the remaining 57,000 acre-feet of water under Permit 21101 by 15 years (from 2011 to 2026). The extension would allow GCID the necessary time to fully establish a water use pattern that meets expected increases to crop water irrigation demand, rice straw decomposition needs, and fish and wildlife enhancement uses to the fullest extent	<b>Neg</b>	10/01/2012

	allowed under the permit. No changes are proposed to Permit 21101 authorized diversions, maximum rate of diversion, place of diversion, place of use, or designated beneficial uses (maximum rate of diversions of 1,200 cfs from November 1 through March 31 annually: 32,900 acre-feet diversion maximum per year for crop irrigation, and 150,000 acre-feet diversion maximum per year for rice straw decomposition).		
2012082106	CA Consumer Products Regulation: Automotive Windshield Washer Fluid (AWWF) Air Resources Board -- Note: Functional Equivalent Doc / Review per lead	<b>Oth</b>	10/18/2012
	Proposed amendments to provisions for Automotive Windshield Washer Fluid products contained in the Consumer Products Regulation will redefine and better characterize the definition of Type "A" areas (regions in CA that routinely experience freezing temperatures in winter months) where AWWF product with higher volatile organic compound (VOC) content can be distributed and sold on a voluntary basis. Redefining and expanding Type "A" areas in CA will help reduce the driving hazards associated with the freezing of AWWF products. Additionally, the amendments will allow labeling language to direct consumers to dilute concentrated products to Type "A" areas, regardless of their location, when freezing temperatures are expected.		
1991081061	Rosemary's Mountain, Palomar Aggregates Quarry (P87-021, RP87-001, Log No. 87-2-13) San Diego County Fallbrook--San Diego The project is a Major Use Permit Modification and Reclamation Plan Modification to an existing construction aggregate quarry and materials processing site that includes an (1) addition of new areas outside of the current mining footprint into the mining footprint, (2) change to the Site Preparation phase boundaries, (3) revision of slope/bench configurations, (4) redesign of the access road alignments, (5) change to some of the final pad elevations, (6) redesigned smaller desillitation basin, and (7) modification of the types of mining equipment allowed. Revised conditions include allowing night-time operations of the asphalt plant and extending the expiration date of the Major Use Permit.	<b>NOD</b>	
2003102095	Woodland Davis Clean Water Agency Joint Intake and Fish Screen Project Reclamation District 2035 Woodland--Yolo Under the Proposed Project/Action, Reclamation District 2035 (RD 2035) would construct and operate a new intake and fish screen facility on the Sacramento River to replace its existing unscreened diversion. The proposed facility would have the same maximum pumping capacity as the existing intake (400 cfs). To accommodate joint use with the Woodland Davis Clean Water Agency (WDCWA), the new facility would include space for pumps to serve the WDCWA Under the proposed facility, RD 2035 would continue to pump up to 400 cfs for agricultural uses and WDCWA would pump up to 100 cfs for municipal uses.	<b>NOD</b>

	Facilities. The House Element is not part of the General Plan Update and is being updated separately. The proposed project includes a Background Report and Preferred Land Use and Circulation Plan to guide growth through the planning period (2035) and beyond.		
2011011041	Dai Dang Meditation Center San Diego County --San Diego  The project is a Major Use Permit for a Buddhist meditation center and monastery on an 8.94-acre parcel at 6326 Camino Del Rey in the community of Bonsall. The center would operate as an instructional facility for 30 resident monks during the week and would be open to a maximum of 300 visitors on Sundays. The project proposed to legalize an existing Religious Assembly and Group Residential Use Type and, in the future, to expand the amount of structural sq. footage devoted to these uses by 22,796 ft for a total of ~ 33,475 ft. The conditions of the Major Use Permit would control certain operational requirements of the meditation center such as the maximum number of visitors, hours of operation, and the number of large events.	<b>NOD</b>	
2011111049	Campo Verde Solar Energy Project Imperial County El Centro--Imperial  The Campo Verde Solar Reduced size Alternative #3 Project includes a Conditional Use Permit No. 11-0007 authorizing construction of a normal 140-megawatt alternating current solar photovoltaic (PV) energy generation project on approximately 1,443 acres. Campo Verde Solar will build a 140 megawatt alternating current solar generation facility on private land and build an associated 230 - kilovolt (kV) transmission line (gen-tie). The proposed gen-tie crossed both private and public lands (BLM). The gen-tie will connect the solar generation facility to the Imperial Valley Substation. Following the end of its operational life, the project will be decommissioned and the site will be restored to its pre-project condition.	<b>NOD</b>	
2012012055	General Plan Amendment Application No. 2012-01, Rezone Application No. 2012-01, and Vesting Tentative Subdivision Map Application No. 2012-01 - Del Rio Villas Stanislaus County Modesto--Stanislaus  This a three--art application requesting to make the following modifications to a 4.31 acre parcel; 1) Amend the General Plan designation from LDR (Low Density Residential) to P-D (Planned Development) and the Del-Rio Community Plan (part of the General Plan) residenital unit density allowance from 2 to 4.5 units per acre; 2) Amend the Zoning designation from R-A (Rural Residential) to P-D ) Planned Development; and 3) Subdivide into a gated development of 18 air space condominiums and a common area parcel which will include landscaping, a swimming pool, access easements, a package treatment plant, and draingage.	<b>NOD</b>	
2012031096	Recycled Water Tertiary Treatment Plant El Toro Water District Laguna Woods, Laguna Hills--Orange  The project includes the construction of new tertiary treatment facilities and a 5,000-foot recycled water transmission pipeline. The project and its corresponding Mitigated Negative Declaration (MND) and Mitigation Monitoring and Reporting Program were approved on June 28, 2012.	<b>NOD</b>	

## CEQA Daily Log

<b><u>Documents Received on Friday, August 31, 2012</u></b>			
2012031100	Recycled Water Distribution System Expansion El Toro Water District Laguna Woods, Laguna Hills--Orange The proposed project includes the construction of approximately 94,860 feet or 18 miles of recycled water pipelines beneath existing roadways. The project and its corresponding Mitigated Negative Declaration (MND) and Mitigation Monitoring and Reporting Program were approved June 28, 2012.	<b>NOD</b>	
2012031100	Recycled Water Distribution System Expansion El Toro Water District Laguna Woods, Laguna Hills--Orange The proposed project includes the construction of approximately 94,860 feet or 18 miles of recycled water pipelines beneath existing roadways. The project and its corresponding Mitigated Negative Declaration (MND) and Mitigation Monitoring and Reporting Program were approved June 28, 2012.	<b>NOD</b>	
2012042048	ER 12-01 City of Lakeport Water and Wastewater Projects Lakeport, City of Lakeport--Lake Implementation of a four-phase water system improvement program and a six-phase wastewater system improvement program. The majority of the improvements are located within the Lakeport City limits and some improvements are outside the City limits and within the County of Lake. Most construction activities are within public rights-of-way.	<b>NOD</b>	
2012051076	Santa Ynez River Tamarisk and Arundo Project Santa Barbara County Lompoc--Santa Barbara The County of Santa Barbara Agricultural Commissioner's Office proposes to apply herbicides to control the specific target weeds, Arundo donax and Tamarix ramosissima, along the riparian corridor of the Santa Ynez River. The invasion of tamarisk and arundo increase the risk of damage to homes and infrastructure from flood and fire and is contributing to decline of Santa Ynez River riparian habitat - a critical habitat relied upon by many wildlife species. This is a beneficial habitat restoration project that has potential less than significant, when mitigations are implemented, on aesthetics, biological resources, hazards, water quality, and noise.	<b>NOD</b>	
2012061059	Smith Creek Slope Armor Protection Project Riverside County Economic Development Agency Banning--Riverside The Smith Creek Slope Armor Protection Project involves the installation of embankment protective measures along the northern bank of Smith Creek adjacent to the Larry David Smith Correctional Facility, in the Community of Banning. To eliminate further slope failure, the Project proposes the construction of a 2:1 slope of pervious, loose riprap consisting of 3-1/2 foot (boulder size) of 1/2-ton class rock extending to a depth of approximately 10 feet below Smith Creek wash, and to extend 1,100 feet along the northern embankment of Smith Creek.	<b>NOD</b>

2012062074	Revised McArthur Swamp Management Plan - Implementation of the Waterfowl Restoration Project State Water Resources Control Board --Shasta The Revised McArthur Swamp Management Plan - Implementation of the Waterfowl Restoration Project area encompasses approximately 475 acres. To help distribute water in the fields during flood-up, approximately 133 acres of meandering swales will be constructed. In addition to swales, approximately 18 acres of elevated mounds will be created. Swale construction will generate approximately 67,500 cubic yards of soil, of which 41,700 cubic yards will be used to create elevated mounds for cover habitat and 1,067 cubic yards for new home construction.	<b>NOD</b>	
2012082005	South Fork Cottonwood Creek Nonnative Plant Management and Control Project Fish & Game #1 --Tehama Cottonwood Creek Group (CCWG) proposes to remove giant reed, saltcedar, black locust, tree-of-heaven, pampas grass, and schotchbroom from South Fork Cottonwood Creek using herbicides and manual removal methods.	<b>NOD</b>	
2012089022	Boy Scouts of America 2012 Timber Harvest Plan (4-12-009-ELD) Fish & Game #2 Placerville--El Dorado The California Department of Fish and Game is executing Streambed Alteration Agreement number 1600-2012-0060-R2, pursuant to Section 1602 of the Fish and Game to the project applicant, Boy Scouts of America, Golden Empire Council.	<b>NOD</b>	
2012089023	Airola Selection Timber Harvest Plan (4-10-016-CAL-5) Fish & Game #2 --Calaveras The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2011-0071-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sierra Pacific Industries.	<b>NOD</b>	
2012088525	Summit Creek Road Culvert Installation Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity The purpose of the project is to eliminate an existing wet ford crossing so vehicles will no longer be driving directly through the stream. The project involves installation of a 70-foot long and 10-foot diameter corrugated metal culvert to replace the existing wet ford crossing.	<b>NOE</b>	
2012088526	Line 210-Green Valley Creek External Corrosion Direct Assessment Project Fish & Game #3 --Solano The project is limited to the excavation of an approximately 14-foot long, 8-foot wide and 12-foot deep trench along the west bank of Green Valley Creek. Excavation shall occur from above the top of bank, and shoring shall be used to stabilize the area. Access to the site shall be from the existing roadway.	<b>NOE</b>	
2012088527	Glen Canyon Sediment Repair Project Fish & Game #3 San Francisco--San Francisco The project includes the removal of sediment in the sediment basin upstream of the asphalt sediment basin dam, lining the sediment basin, patching the asphalt dam where it is currently undercut, and installation of a rock dissipation structure	<b>NOE</b>

	below the dam. The sediment would be excavated using an excavator or backhoe to a depth of approximately three feet at the dam.		
2012088528	Island Union Elementary School Water System Improvements Island Elementary School Lemoore--Kings Existing water system does not comply with the California maximum contaminant level for arsenic. Project includes construction and equipping of a new well to achieve compliance. Beneficiaries will be student, staff, and parents.	<b>NOE</b>	
2012088529	Lease Office Space in Existing Multi-tenant Building Student Aid Commission Rancho Cordova--Sacramento The California Student Aid Commission is requesting to occupy 26,273 nuf of office space in a multi-tenant building located at 11040 White Rock Road, which fits their needs. The California Student Aid Commission is relocating to new space due to existing building deficiencies.	<b>NOE</b>	
2012088530	Agreement No. 2012-0075-R4; Wineman - Los Alisos Pond Restoration, San Luis Obispo County Fish & Game #4 --San Luis Obispo The Project consists of restoring the existing stock pond that has accumulated sediment since its construction in 1961 for the purpose of restoring capacity, reducing erosion within the channel, and enhancing wildlife habitat at the pond. The site will be restored using native plants and will incorporate a system to provide off-stream water sources for cattle. This will be accomplished by removing approximately 10,000 cubic yards of accumulated sediment from the pont and spillway, armoring portions of the pont and spillway, and repairing a failing bank using bioengineering techniques.	<b>NOE</b>	
2012088531	Agreement 2011-0175-R4 - Spillway Lateral 1 Repairs Project Fish & Game #4 --Stanislaus The Project consists of repairing the existing, damaged Lateral 1 spillway pipeline so as to prevent further stormwater discharges. A portion of the spillway pipeline will be replaced with 280 feet of new 42-inch high density polyethylene pipeline. A new concrete thrust block collar will be constructed directly behind the existing collar.	<b>NOE</b>	
2012088532	Holtville Acquisition of Abandoned Rail Right-of-Way Holtville, City of --Imperial The proposed project involves the acquisition of a parcel with APN 045-100-002. The purpose of the acquisition of the parcel is to construct a multimodal lane sometime in the future for the use of bicyclists, pedestrians and Neighborhood Electric Vehicles and link users between the Barbara Worth residential community and the City of Holtville.	<b>NOE</b>	
2012088533	Chambers Landing Pier Expansion Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer The project proponent plans to repair and expand an existing pier.	<b>NOE</b>

<b><u>Documents Received on Friday, August 31, 2012</u></b>			
2012088534	Chambers Landing Modification and Expansion, No. 1600-2012-0013-R2 Fish & Game #2 --Placer The project aims to replace and extend a portion of an existing commercial-use pier located on the west shore of Lake Tahoe; specifically, reconfigure and lengthen middle-finger pier, and relocate the loading dock to the northwest pier finger. The intent is to improve public boat access and navigation. The existing middle-finger pier is approximately 47.8' lineal feet with double piling above the pier deck and catwalk along the northside. The proposed middle-finger pier is approximately 90'. The existing catwalk will be replaced to the north pier which will be attached to existing piling and no new lake bottom disturbance will be required. The proposed project intends to replace 8 existing piling with 6 piling, a net reduction of 2 piling.	<b>NOE</b>	
2012088535	Polermo - Colgate Culvert Replacement Fish & Game #2 --Yuba The project consists of replacing a 36-inch diameter 60-foot long culvert, removing accumulated sediment from within the stream channel, stabilizing the upstream and downstream edge of the new culvert and repairing the access road over the culvert.	<b>NOE</b>	
2012088536	Boyajian Pier Repair Project Fish & Game #2 --Placer This project entails the replacement of three pilings supporting a boathouse. The boathouse will be lifted off the pilings and the rotted upper-section of the pilings will be removed. A steel sleeve replacement will then be placed over the butt-section of each piling which remains anchored in the substrate. The boathouse will be returned to its original after the pilings have been replaced.	<b>NOE</b>	
2012088537	Millerton Lake - Parking Lot 3 Restroom Replacement Boating and Waterways, Department of --Fresno This project will remove and replace an existing vault restroom and other improvements. The upgrade is required in order to provide facilities to meet the high demand that parking lot 3 receives and to comply with the Americans with Disabilities Act. Details are contained in the included NEPA exclusion document completed by Bureau of Reclamation.	<b>NOE</b>	
2012088538	Battle Creek Boating Access Boating and Waterways, Department of --Shasta This project will provide a single unit precast vault restroom, accessible concrete parking stall, and sidewalks to comply with the Americans with Disabilities Act. Work will also reseal and restripe the existing parking lot.	<b>NOE</b>	
2012088539	Jeronimo Road Resurfacing Project: Los Alisos Boulevard to Marguerite Parkway Mission Viejo, City of --Orange The proposed improvement consists of full depth removal to a maximum of 1 ft below proposed surface and reconstruction of AC pavement to a maximum of 1 ft over compacted existing subgrade; AC planing the AC pavement up to 0.125 ft and rehabilitating with 0.125 ft of new ARHM overlay within the existing City right-of-way. Additional work includes reconstruction of ADA compliant concrete	<b>NOE</b>

	wheel-chair access ramps with truncated domes and concrete sidewalk, PCC curb and gutter, retriiping, replacment of traffic signal loops, and adjusting to grade utility covers matching new ARHM pavement surface.		
2012088540	Battle Creek - Eagle Canyon Fish Passage Barrier Removal Project Fish & Game #1 --Tehama The proposed fish passage barrier removal project will involve removal of two large boulders and small bedrock ledge that currently block fish passage to the upper watershed. The removal of the boulders will occur through blasting with explosives, repositioning of a few rocks with a grip hoist, and much hand removal and disposal of the blasted rock debris.	<b>NOE</b>	
2012088541	Kays Road Radio Removal Project: 10-5U500 Caltrans #10 --Tuolumne The California Department of Transportation (Caltrans) District 10 is proposing a maintenance project to remove the radio infrastructure located on State Route 88 at Kays Road adjacent to Silver Lake in Amador County. The radio infrastructure was originally installed under Caltrans EA 10-0U690. Removal would include the concrete pad, cabinets, conduit and antenna pole foundation. Single-lane closures would be required during removal work, which would occur on preciously disturbed areas within Caltrans right of way. The purpose and need of the project is to remove radio infrastructure to restore the previously unobstructed view of Silver Lake for the motoring public.	<b>NOE</b>	
2012088542	Highway Shoulder Resurfacing Project Caltrans #3 Sacramento--Sacramento The scope of work includes: Widening by 2 ft. and replacing the existing asphalt concrete shoulder; relocate utility boxes if needed; change out utility boxes to meet traffic specs; remove and relocate construction signs and re-stripe and re-number impacted parking spaces.	<b>NOE</b>	
2012088543	Excess Land Transfer: Caltrans to CTC, Parcel 191-01-01, 5142-02-01 Caltrans #3 --El Dorado The California Department of Transportation proposes to transfer a parcel on US Route 50 in El Dorado County to the California tahoe Conservancy. The property is no longer required for right of way or other operational purposes, and is considered excess land by Caltrans.	<b>NOE</b>	
2012088544	Noxious Weed Removal Placer County -- The Placer County Department of Agriculture will prevent the spread of yellow starthistle into the Sierra Nevada Mountains in Placer County by eradicating the eastern-most "leading edge" populations. This project has been identified as a top priority for protecting the region's agricultural and environmental resources by an extensive collaboration of partners, including federal, state and local agencies, utilities, and private landowners.	<b>NOE</b>
