STATE CLEARINGHOUSE

NEWSLETTER

December 1-15, 2010

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1-15, 2010.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger
Governor

MEMORANDUM

DATE: July 1, 2010
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, State Clearinghouse Director
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at www.opr.ca.gov. A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2009**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec/ND	Negative Declaration
MND	Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, December 01, 2010</u>			
2010122003	Use Permit Application No. 2010-15 and Williamson Act Cancellation Application No. 2010-02- Copper Mountain Solar Stanislaus County --Stanislaus NOTE: Review Per Lead Request to establish a photovoltaic (PV) solar energy farm creating an aggregate peak power capacity of 13 megawatts (MW) of electricity on 124+- acre of a 4,147+- acre site. Electricity generated by the project will enter the electrical grid through the Turlock Irrigation District's transmission lines currently serving Diablo Grande. The project will include the construction of 13 inverter/transformer enclosures and fencing. A Williamson Act Cancellation is included in this project.	CON	12/20/2010
2010072044	San Antonio Center Project and Precise Plan Amendments Mountain View, City of Mountain View--Santa Clara The San Antonio Center Project would include the demolition of existing retail structures (approximately 223,000 square feet) on a 16 acre parcel within the San Antonio Shopping Center, and the construction of the following: (1) three mixed-use buildings that would include 325 residential units, 15,500 sf of restaurant space, 28,500 square feet of retail space, and underground parking; (2) construction of four retail buildings totaling 92,350 sf; (3) construction of a 175,000 sf multi-use retail building with structured parking; and (4) development of a linear park. San Antonio Center Precise Plan Amendments. The City proposes various Amendments to the San Antonio Center Precise Plan, including: establishment of a multi-family residential use category; revised site development standards; revised permitted and provisional uses; revised design guidelines; and development of an additional 100,000 sf of retail or office space.	EIR	01/14/2011
2010122001	Christmas Hill Park/Uvas Creek Outfall Reconstruction Gilroy, City of Gilroy--Santa Clara The proposed project includes three separate components. Two components of the proposed project include the reconstruction of the drainage system for the two drainages to serve the needs of the watershed by providing adequate conveyance of storm water flows. The third component includes the repair and reconstruction the culvert crossing (emergency vehicle access), storm drain outfall and eroded stream bank in order to protect downstream Uvas Creek habitat and the City's adjacent park facilities, and to maintain public safety in and around the park.	MND	12/30/2010
2010122002	Valley Oak Homes Affordable Housing Development Sonoma, City of Sonoma--Sonoma The project involves developing the property with 43 rental affordable housing units. The project would include 7 two-story apartment buildings, a club house, play field and parking lot. Two vacant homes and four vacant trailers currently on the site would be demolished/removed to accommodate the development.	MND	12/30/2010

<u>Documents Received on Wednesday, December 01, 2010</u>			
2010122004	<p>Sediment Removal from 46 Culverts and Drainages in West Marin County, California Marin County --Marin</p> <p>The MCDPW proposes to remove excess sediment from 46 culverts and drainages to protect Sir Francis Drake Blvd, Bear Valley Road, Fairfax-Bolinas road and Olema-Bolinas road from flooding, accidents and potential closure; protect public safety and property; improve water quality; and restore geomorphic conditions and ecological functionality. This flood control project is required as part of on-going maintenance by MCDPW to remove accumulated sediment and silt along numerous drainages, channels and culverted road crossings in west Marin County.</p>	MND	12/30/2010
2010122005	<p>Terry Plum Vesting Tentative Parcel Map and Use Permit 10-001 Mammoth Lakes, City of Mammoth Lakes--Mono</p> <p>The Project proposes to subdivide a 4.39 acre parcel (APN 022-400-025) into four lots for the future development of single-family homes. Three of the new lots will take access via a private driveway that will connect to an extension of the public roadway at the south end of Tamarack Street (Gibbs Cemetery Road). The fourth lot will take access from Le Verne Street in the Bluffs subdivision. The project proposes to dedicate approximately 0.25 acres of land to the Town of Mammoth Lakes, part of which would be for the development of a public parking area with a maximum of six paved parking spaces (including one ADA space). The remaining dedicated land would continue to be used as snow storage for Town winter maintenance operations.</p> <p>Also proposed is a 10-foot wide non-motorized public access easement across the eastern boundary of the property to connect the proposed public parking area and the United States Forest Service (USFS) lands south of the Project. The public parking area and the non-motorized access easement are intended to serve existing demand by recreational users who wish to access the nearby USFS lands. The project also proposes measures to improve emergency access along Tamarack Street, which is considered substandard by the Town of Mammoth Lakes based on its adopted street standards and by the Mammoth Lakes Fire Protection District (MLFPD). To address this, the project includes widening the pavement in three areas to create turn-out locations. The Project also includes the addition of one new fire hydrant on Tamarack Street.</p>	MND	12/30/2010
2005012010	<p>Pine Ridge Tentative Subdivision Map Plumas County Portola--Plumas</p> <p>Annexation of unincorporated territory into the EPRFPD consisting of approximately 96 acres for a 13 lot subdivision.</p>	NOD	
2005111032	<p>State Route 163 - Friars Road Interchange Project San Diego, City of --San Diego</p> <p>DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA # 1600-2009-0381-R5) to the project applicant, City of San Diego. The applicant intends to alter the stream to construct a bridge crossing the San Diego River and install fill in an unnamed tributary to the San Diego River to accommodate construction of a flyover bridge connecting Ulrich Street to southbound SR 163.</p>	NOD

	<p>The new bridge crossing the San Diego River will be an independent structure just west of the existing bridges. It will be designed to pass 100-year flood events, and will be supported on pier walls (above-ground structures) and pile foundations (below-ground structures). Piled will be pounded into the ground to the appropriate depth, and will have footings approximately three feet deep and six feet wide constructed at the top of the below-ground piles. An excavation approximately 10 feet wide will be made for the pier footing, except that the footing for the two piers located on either side of the river's low-flow channel will be 10 feet wide with an excavation width of 12 feet. Pier walls for the spans over the river will be approximately two feet thick, and would range from 160 to 260 feet long (including the existing pier walls), parallel to the direction of river flow. The footing and piers will be constructed in line with the existing footing and piers on the existing bridge.</p>		
2007072024	<p>Sacramento 2030 General Plan Master EIR Sacramento, City of Sacramento--Sacramento</p> <p>The project includes: (1) an amendment to the City Code to change the zoning for 69 parcels in various parts of the City to bring them into conformity with the general plan land use designation; (2) changes to the general plan land use designation and zoning for parcels in the Power Inn area to recognize existing industrial development and facilitate transition to light industrial uses; (3) changes to the general plan land use designation and zoning for parcels in the Ben Ali area to confirm future rights of property owners to develop and improve single-family parcels; (4) changes to the land use designations for parcels in the Robla Area from residential to industrial to achieve consistency with the existing zoning; and (5) text amendments to the 2030 General Plan, including (a) the addition of a policy to address minimum floor-area-ratio; (b) a new policy to reinstate a policy that was in the North Natomas Community Plan relating to the financing of public facilities; (c) deletion of a duplicate policy; (d) modification of an existing policy regarding modification of non-conforming densities for clarification; and (e) clarification of the policy applying noise threshold to outdoor public spaces in multi-family residential developments.</p>	NOD

	Utilities Commission (SFPUC). The CSPL2 alignment is located almost entirely within San Mateo County, including unincorporated county areas, the Town of Hillsborough, and the Cities of San Mateo, Burlingame, Millbrae, San Bruno, South San Francisco, Brisbane and Daly City, before it terminated in San Francisco.		
2009061021	Emerald Bay Safety Improvement Project Orange County Laguna Beach--Orange Safety improvement to the Emerald Bay entrance at Pacific Coast Highway and Shamrock Road. A traffic signal, raised median and street striping and signage will be constructed within the Caltrans right-of-way on Pacific Coast Highway. Additional improvement consist of widening Shamrock Road, the relocation and reconstruction of the existing guardhouse, which will be relocated approximately 40 feet north of the current location, grading and landscaping. The paved entrance area will be widened approximately 24 feet to accommodate the proposed improvements. A sidewalk will continue to be provided on the south side of Shamrock Road.	NOD	
2009092041	State Route 99 Corridor Bikeway Project Chico, City of Chico--Butte The portion of the proposed project within the vicinity of Little Chico Creek is the installation of a clear-span bridge associated with the construction of the State Route 99 Corridor Bikeway Facility. The bridge and new bike path extending south would connect to existing bicycle facilities located on the north side of Little Chico Creek. The proposed clear-span bridge would extend 70 feet between two abutments placed on the north and south sides of the creek, outside of the active stream channel. Installation of the clear-span bridge would require trimming of vegetation within the creek channel for safety and clearance; however no trees would be removed. Some shrubs and groundcover (mostly Himalayan lackberry) within the riparian area would also be removed to accommodate the southerly approach.	NOD

	The project will not result in any additional disturbance on the 40 acre parcel.		
2010092002	Wappo Park Trail & Picnic Area St. Helena, City of St. Helena--Napa The project is limited to the development of a recreation trail, picnic areas and riparian enhancements on a 6.26 acre site. The project is located at 201 Pope street near College Avenue in the City of St. Helena. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2010-0363-3 pursuant to Section 1603 of the Fish and Game Code to the project Applicant, Greg Desmond, City of St. Helena.	NOD	
2010092086	2010 Housing Element Update Union City Union City--Alameda The 2010 Housing Element is a comprehensive review and update of the 2002 Housing Element background information and goals, policies, and programs. The 2010 housing Element is a policy document intended as a guide to decision-makers in meeting the City's housing objectives over the next five years.	NOD	
2010129001	New Single Family Dwelling at 1465 Black Mountain Road, Hillsborough, CA 94010 Hillsborough, City of Hillsborough--San Mateo Construction of a new multi-level single family residence of approximately 5,774 square feet of floor area (24.92% Floor Area Ratio) and landscape plan including new retaining walls, new planting, tree removal and earthwork in the amount of 5,7455 cubic yards of off-haul associated with the construction of a new driveway and the main residence.	NOD	
2010128001	Stream Crossing Removal/Creek Restoration Fish & Game #3 Napa--Napa The project is limited to: 1) removal of an in-stream concrete ford road crossing, 2) placement of a geo-grid gravel creek crossing to restore fish passage, and 3) native vegetation restoration. Issuance of Streambed Alteration Agreement Number 1600-2010-0270-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2010128002	Panoche Creek Siphon Vegetation Removal Maintenance Plan Water Resources, Department of Mendota--Fresno The California Department of Water Resources owns and manages property at Panoche Creek Siphon. Panoche Creek is an ephemeral creek that carries storm runoff from the Diablo Range. At milepost 108.87 the California Aqueduct is siphoned under Panoche Creek to allow for uninterrupted flow. The creek flows under Fairfax Ave where it continues northeast in a ditch like channel becoming part of the San Joaquin Watershed. The Panoche Siphon area is subject to flood waters and proper flows must be assured to avoid flooding at Fairfax Ave and compromising of the California Aqueduct embankments at Panoche Siphon. Panoche Creek channel has become choked at the siphon location with non-native vegetation, as well as native woody vegetation, interrupting the natural hydrology of the creek.	NOE

	Riverside County from south of the I-215/State Route 91 interchange to north of I-215/I-10 in San Bernardino County, ending at the Orange Show Road interchange. The total length of the proposed project is 7.5 miles. The HOV lanes would be constructed within the existing median, with minimal widening within current right-of-way. The widening would require improvements to on- and off-ramps along the corridor, with a reduction in the lengths of some acceleration and deceleration lanes as well as reconstruction of two railroad bridges and I-215 bridges over railroad tracks, I-10 and the Santa Ana River.		
2010121007	Crows Nest Wireless Telecommunication Facility Major Use Permit San Diego County El Cajon--San Diego The project is a Major Use Permit to authorize the construction, operation, and maintenance of an unmanned wireless telecommunication facility. The project consists of a new 35-foot tall mono-broadleaf tree that would be mounted with twelve panel antennas. Associated equipment would include six outdoor equipment cabinets and would be surrounded by an eight-foot tall concrete block wall. Also, the proposed underground utility trench would be placed within the dirt area near the existing wireless telecommunication facility.	MND	12/31/2010
2010122006	College Park Elementary School Modernization San Mateo-Foster City School District San Mateo--San Mateo The proposed project is the demolition of several permanent and portable classroom buildings and replacement with new permanent buildings. Twelve portable classrooms (totaling 11,520sf), one pre-fabricated six-classroom building (7,000sf), and a 2,040sf portion of the LGI would be removed. A new administration building (2,005sf), three classroom wings with 17 classrooms (24,502sf) would be constructed. A new lunch shade structure would be constructed next to the LGI. The remaining classroom buildings would be modernized without any expansion. The existing Turnbull Child Development Center administration portable buildings would be relocated within the project site and another portable classroom building (1,440sf) would be relocated from the Fiesta Gardens site. Portions of the project site would be re-landscaped. Student capacity would increase from 550 to 745. A new drop-off pick-up lane and shelter would be built within the project site to serve the District's students.	MND	12/31/2010
2010122007	Schwartz and Peek Minor Land Division (PMLD 20100019) Placer County Colfax--Placer The project proposes to subdivide a 10.24-acre parcel into two single-family residential parcels. Parcel 1 would be 5.10 acres, and Parcel 2 would be 5.14 acres.	MND	12/31/2010

	public space; 6) a pedestrian bridge; 7) a Water Transportation Center. Expansion Hotel includes: 1) A podium & tower structure containing between 250 to 500 rooms & 50,000 sf of banquet/conference rooms, restaurants/retail.		
2010121005	Albertsons Casitas Plaza Expansion, Project No. 10-1547-CUP/DPR/CDP Carpinteria, City of Carpinteria--Santa Barbara Albertsons grocery store proposes to expand their existing store at the Casitas Plaza shopping center into an adjacent vacant retail space of 21,440 sf. The floor area of Albertsons would expand from 20,062 sf (18,850 sf ground floor with 1,212 sf mezzanine) to 40,290 sf of grocery space including ~2,050 sf of pharmacy space. New architectural elements would be integrated into the existing storefront canopy and planters would be installed along the building frontage. Shopping carts would be retrofit to work with the current locking cart system operated by CVS in this shopping center. The entire Casitas Plaza Parking Lot would be improved with a lighted pedestrian path, and the parking lot would be reconfigured by revising the parking layout and landscape islands. The parking supply would be increased from 431 to 432 spaces.	NOP	12/31/2010
2010121003	WWTP Hoffman & Wagenleitner Reclamation Kerman, City of Kerman--Fresno The proposed project consists of delivering undisinfected secondary treated effluent for the purpose of flood irrigation approximately 133 acres of fodder (alfalfa) crop. The effluent will be delivered to the Hoffman and Wagenleitner Properties (Users) directly from the City of Kerman Wastewater Treatment Plan (WWTP) via City owned pumping facilities. City owned irrigation pipelines and other City owned irrigation facilities.	Neg	12/31/2010
2010122008	Stillwater Wastewater Treatment Plant Phase 1A/B Expansion Project, by the city of Redding Redding, City of Redding--Shasta NOTE: Reference SCH# 2009128128 The project involves adding new screens, flow splitters, and clarifiers and modifying two retention basins. All work will be within existing developed footprint of the treatment-plant facility. No new land will be acquired, and no wetlands, cultural sites, and other sensitive environmental resource will be affected by the project. The upgrades will improve the waste-treatment process at the plant and increase the treatment capacity from 2.6 million gallons per day (mgd) to 3.4 mgd. The plant is currently permitted by the Regional Water Quality Control Board to treat up to 4.0 mgd.	Neg	12/31/2010
2010091059	Hefner-Brown Minor Subdivision (4 Lots Plus a Remainder Lot) San Diego, City of Vista, Oceanside--San Diego The project is a Tentative Parcel Map to subdivide a 57.9 acre parcel into four residential lots and a remainder parcel ranging in size from 4.3 to 31.9 acres. There is an existing single family residence that would remain on the remainder parcel. Access to the project would be provided by private driveway connecting to Aqueduct Road and proposed Streets "A" and "B".	NOD

2010091071	Use Permit No. 858-02(A) San Benito County --San Benito The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code for the Vegetation and Sediment Maintenance Program at Los Banos Detention Dam Project. The objectives of the Project are to remove vegetation, including non-native and native trees that may prohibit flow, from the outflow channel and the basin and to restore the area below the spillway structure (known as the "horseshoe" area due to its shape) close to original design and specification. This vegetation removal will allow water to flow downstream away from the dam and the toe drain.	NOD	
2010092022	665 Proposed Street/Mirabel Project San Carlos, City of San Carlos--San Mateo The project consists of demolition of an existing single-family home on the project site and subdivision of the existing two parcels into seven parcels for the development of seven detached, clustered residential units with shared common ownership ranging from 2,644 to 2,996sf in size and two to three stories in height. Site improvements will include a permeable paver shared driveway, drainage inlets that lead to dissipaters into Pulgas Creek and wrought iron fencing, benches, exercise stations, and a decomposed granite trail along the creek.	NOD	
2010128017	Emergency Water Pipeline Repair Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Sacramento The project involves the excavation and exposure of a 6-inch water pipeline in order to perform welding repairs damages.	NOE	
2010128018	Agreement No. 2010-0088-R4; Educational Trail at Paulding School at Arroyo Grande Creek Project Fish & Game #4 Arroyo Grande--San Luis Obispo The proposed Project would create two (2) walking trails along the right bank (looking downstream) of Arroyo Grande Creek. Each trail would be approximately 85 to 100 feet long and 3 to 4 feet wide. Steps would be made using 6-inch square lumber, held in place by reinforcing bar ("rebar") driven into the ground through the boards. Each step would be filled with compacted decomposed granite. The trails would end approximately 10 to 15 feet from the wetted stream channel. Non-native understory vegetation including castor bean, Vinca, and ivy would be removed from the site. Equipment used will include hand tools only. No power equipment shall be used on the project. No trees would be removed.	NOE	
2010128019	Willows Library-Civic Center Re-Roof Project Willows, City of Willows--Glenn Replace 15,327 square feet of roofing on the City of Willows Civic Center which houses the Public Library, Police, Building & Finance Departments. New roofing material will lower energy costs which will benefit the public as a whole.	NOE

2000011025	Newhall Ranch Resource Management and Development Plan, and Spineflower Conservation Plan EIS/EIR Fish & Game #5 Santa Clarita--Los Angeles The project as approved by the Department of Fish and Game consists of the MSAA and ITPs identified above, which address various conservation, management and development activities affecting or generally related to fish and wildlife resources subject to the regulatory authority of the Department, including natural resources subject to the California Endangered Species Act (CESA) and Fish and Game Code section 1600 et. seq. For purposes of CESA, the ITPs authorize incidental take of San Fernando Valley spineflower, western yellow-billed cuckoo, southwestern willow flycatcher, and least Bell's vireo, all in connection with otherwise lawful development activities within the Project area. The ITPs and MSAA, in this respect, will facilitate build-out of the NRSP and other properties owned by the project proponent and permittee, the Newhall Land and Farming Company (Newhall), including the Valencia Commerce Center (VCC) and the Entrada planning area. The project approved by DFG for purposes of the ITPs and MSAA is modified compared to the project as originally proposed by Newhall, including increased avoidance of riparian resources along the Santa Clara River, reduced impacts to the Middle Canyon Spring complex, additional spineflower preserve acreage, and larger riparian corridors within the five major tributaries within the NRSP area. In approving the project and the ITPs specifically, the DFG Director approved Newhall's applications and issued the ITPs.	NOD	
2004044001	Santa Ana River Interceptor Line (SARI) Protection/Relocation U.S. Army Corps of Engineers Yorba Linda--Orange The project consists of the installation of two wastewater pipelines with a combined total length of approximately 3.9-miles. Construction of the new 54-inch SARI pipeline will start at the existing metering station and cross the Orange County section of the Green River Golf Club property from northeast to southwest and cross beneath the Santa Ana River via micro-tunneling. The alignment completes the route by continuing along a maintenance access road around the east side of the SAVI Ranch until it connects to the existing SARI line that will remain in place. The total length of the proposed SARI replacement pipeline is approximately 3.9-miles (20,700 feet).	NOD

2008081057	Desert Diamond Minor Subdivision San Diego County --San Diego The project is a Tentative Parcel Map to subdivide a 169.84 gross acre piece of property in the Borrego Springs area. The project consists of the proposal to create four lots and one remainder parcel. The project site is located on Borrego Springs Road in the Borrego Springs Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category Regional Development Area and Land Use Designation (18) Multiple Rural Use. Zoning for the site is S 92, General Rural Use Regulations. Access would be provided by multiple driveways connecting to Borrego Springs Road to the west and Di Giorgio Road to the east. The project would be served by on-site septic systems and groundwater from the Borrego Water District. Two thousand, one hundred foot extension of water utilities will be required by the project.	NOD	
2008092005	City of Santa Clara Draft 2010-2035 General Plan Santa Clara, City of Santa Clara--Santa Clara Adoption of an Amendment to the Bayshore North Redevelopment Area Plan No. 22 and adoption of an Amendment to the University Project Area Redevelopment Plan No. 3.	NOD	
2008092005	City of Santa Clara Draft 2010-2035 General Plan Santa Clara, City of Santa Clara--Santa Clara The 2010-2035 General Plan Update includes the certification of the Final Environmental Impact Report, adoption of the 2009-2014 Housing Element, adoption of an Override of the County of Santa Clara Airport Land Use Commission's Determination of Inconsistency of the 2010-2035 General Plan with the 1992 County-wide Comprehensive Land Use Plan for Areas around San Jose International Airport, adoption of the 2010-2035 General Plan (GPA No. 70.0) and Individual General Plan Land Use Designation Amendments (GPA No 70.1-70.21).	NOD	
2009121092	Miller Minor Subdivision; TPM 21038 San Diego County --San Diego The project is a Tentative Parcel Map to subdivide a 20.65 acre property. The project consists of four (4) parcels of a little more than 4 acres each and a remainder lot for 4.62 acres. The four-acre lot size would be complying with the GP 2020 lot size requirement. The project site is located west of Lazy S Drive in the Borrego Springs Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category 1.5 County Town, Land Use Designation (2) Residential. Zoning for the site is RS1. Access would be provided by a driveway connecting to Lazy S Drive. The project would be served by on-site septic tanks and Borrego Springs Fire Protection District. Groundwater will be imported from Borrego Water District.	NOD	
2010118328	Anderson Marsh SHP Himalayan Blackberry Removal and Habitat Parks and Recreation, Department of --Lake Remove approximately three acres of Himalayan blackberry, and plant Valley oak of local provenance distributed in a natural pattern over 219 acres at Anderson Marsh State Historic Park to restore habitat over a two year period. The first year,	NOE

2010041056	Pacific Coast Highway/Del Prado Avenue Phase 1 Street Improvement Proeject Dana Point, City of Dana Point--Orange The project area encompasses Pacific Coast Highway (PCH) and Del Prado Avenue in the City of Dana Point, extending from Copper Lantern on the east to Blue Lanterns on the west, within the Dana Point Town Center. The City of Dana Point is proposing the Pacific Coast Highway/Del Prado Avenue Phase I streetscape improvements for the Dana Point Town Center. Implementation of the proposed project will re-establish,two-way circulation for both PCH and Del Prado. In addition to the return to two-way operations, the proposed improvements along PCH include traffic signal improvement/modifications, striping, and signing modifications, improved transit stops, and initial traffic and beautification related modifications to the "gateways" at Blue Lantern and Copper Lantern. The traffic signal improvement/modifications include new signals at Ruby Lantern and new intersection between Blue Lantern and Ruby Lantern. In addition, modifications are also proposed at other traffic signals within the project area to accommodate the two-way travel proposed for the two arterials. Other improvement include the incorporation of landscaped medians, street improvements as needed to accommodate bus turnouts and u-turns at designated locations, the modification of certain vehicular access points and the relocation of some on-street parking. Some of these improvements will require acquisition of rights of way for sidewalk easements, to accommodate the refined project design. The curb and gutter of PCH will generally remain in the existing location. A two-lane left-turn pocket will be included on southbound Golden Lantern at pacific Coast Highway, along with other key signing and striping adjustments to accommodate the change to two way traffic and the associated traffic volumes.	EIR	01/19/2011
2007081031	Front Street Mixed Use Soledad, City of Soledad--Monterey The project entails the demolition of the existing residential motel and surrounding mobile homes, and the construction of a five-story building with 102 one and two bedroom residential condominium units and separate one and two-story buildings with 12,200 square feet of commercial uses. The project also involves a general plan amendment and a zoning district change.	FIN

	structures, operations and maintenance building, substation, water treatment facility, plant control system, meteorological station, and roads and fencing. The electric generating facility would connect to the Imperial Valley Substation via 230 kV transmission lines. The Imperial Valley Substation is isolated by federal lands managed by the Bureau of Land Management (BLM). The project plants a 12-foot-wide Right-of-Way from the project site, along BLM land to the Imperial Valley Substation. The project proponent is also requesting construction and operational access to the solar energy facility via use of an existing dirt road located along the west side of the Westside Main Canal, located within BLM lands. This road will be viewed by five additional feet and upgraded.		
2010121012	Southwestern College Modernization Project - Corner Lot, Devorce Filedhouse & Athletic Improvements, Central Plant Southwestern College Chula Vista--San Diego The proposed Southwestern College Modernization Project is comprised of three specific projects: Corner Lot; Devorce Fieldhouse and Athletic Field Improvements; and Central Plant. The Corner Lot will provide for new buildings and associated parking to house the existing college administrative functions, student support services, and bookstore within six buildings and approximately 107,000 assigned [net] square feet. Improvement are also proposed to the Devorce Stadium, to modernize existing elements of the football stadium and provide for ADA compliant access and facilities, including the press box and score board; snack bars and restrooms; and installation of an elevator and ramps to access the stands and field-level The Central Plant will provide a system for heating/cooling of campus buildings, reducing the college's long-term energy costs, as well as non-renewable energy and resource consumption. Future extensions to existing campus buildings will be reviewed as funding is secured and the District pursues design and renovation of these buildings.	MND	01/04/2011
2010122015	1321 El Camino Real Burlingame, City of Burlingame--San Mateo The project would demolish a two-story single family dwelling, detached garage and accessory structure and construct a three-story, five-unit residential apartment building. The proposed building would include two floors of residential use and at-grade parking.	MND	01/04/2011
2010122016	Zone Amendment 08-015 and Tract Map 1975 (Mitchell) Shasta County Redding--Shasta The applications are for approval of a Zone Amendment to rezone an approximately 25-acre portion of the subject property from the Open Space (O-S) zone district to the Light Industrial zone district combined with the Design Review zone district (M-L-DR), and approval of a land division to create five lots ranging in size from 5.55 acres to 7.68 acres, with a 454.09-acre remainder parcel. 2010092057	Northgate Maintenance Station Caltrans #2 Sacramento--Sacramento The California Department of Transportation (Caltrans), in conjunction with Federal Highway Administration (FHWA), proposes a project to demolish and reconstruct the Crew Building at the Northern Maintenance Station off Interstate 80 in Sacramento County (Maps 1 and 2). This Federal and State funded project is located at the Northgate Boulevard and I-80 interchange on Rosin Court in Sacramento County (I-80 PM 5.2). No new right of way will be required for this project. This project proposes to remove the existing prefabricated crew building and build a permanent crew building for three crews.	NOD	
2010128027	North Midway 8-inch Crude Oil Pipeline Upgrade, Stream Alteration Agreement No. 2010-0107-R4 Fish & Game #4 --Kern The Project will require the placement of approximately 1,000 feet of 8-inch steel pipeline. The pipeline will be buried over its entire length with approximately 3 feet of cover. The new pipeline route includes placement in an ephemeral, unnamed stream channel. The stream crossing will be protected by a 16-inch steel pipe casing. The entire 16-inch casing by 100 feet in length will span well beyond the stream boundaries which is approximately 8 feet wide and 2 feet deep.	NOE	
2010128028	Agreement No. 2010-01490-R4; Preventive Stormwater Maintenance Project Fish & Game #4 --San Luis Obispo The proposed Project would remove diagonally-growing willow trees impeding outflow from a 60-inch culvert. The trees would be cut at ground level and the root wad left in the soil undisturbed. Built up sediment and root material would be removed from two (2) 24-inch culverts to facilitate drainage. A water jet and vacuum truck would be used to loosen and remove accumulated material from the culverts. Sediment would be manually removed from three (3) 48-inch culverts to enhance drainage. A rock-lined drainage swale would be built to direct runoff flow toward San Luis Obispo Creek and minimize erosion.	NOE

2010128029	BOE Bakersfield Branch Equalization, Board of Bakersfield--Kern The Board of Equalization plans to enter in to a new lease agreement in an existing space that houses our Bakersfield branch office.	NOE	
2010128030	Board Member/Staff Offices Equalization, Board of Lancaster--Los Angeles The Board of Equalization plans to lease approximately 2,000 square feet of office space to house the Board Member and Staff.	NOE	
2010128031	Riverside-Corona Resource Conservation District Regional Habitat Enhancement, Restoration, Creation, and Conservation Project Fish & Game #6 --Riverside, San Bernardino SAA #1600-2007-0088-R6 The RCRCRCD Regional Habitat Enhancement, Restoration, Creation, and Conservation Project includes the enhancement, restoration, creation, and conservation of various habitats, native buffers, and other lands within the Santa Ana River Watershed within the RCRCRCD service area boundaries. The total estimated potential project area subject to conservation is 550.5 acres, which includes 447 acres of potential enhancement areas, 94.5 acres of potential restoration areas, and 9 acres of potential creation areas.	NOE	
2010128032	Habitat Restoration Parks and Recreation, Department of --San Diego Approximately 3.84 acres of Anza Borrego Desert State Park wilderness area will be restored along a 3.14 mile long linear damaged feature (previously bulldozed road). Small equipment and hand tools will be used by crews to excavate planting locations and install irrigation. Excavation of up to 36 inches for individual twelve inch plantings and movement of soil in widths up to 15 feet for topographic restoration may occur in various locations along the linear disturbance. Staging areas will be confined to previously disturbed areas and will be restored upon completion of project. Temporary installation of water tanks and other irrigation distribution equipment may be necessary at various previously disturbed locations via air transport to avoid any further vehicle impacts.	NOE	
2010128033	Water Purchase and Transfer from DMB Pacific LLC Coachella Valley Water District Coachella--Riverside The Coachella Valley Water District (CVWD) proposes the purchase and one-time delivery of 8,393 acre-feet of water from DMB Pacific LLC (DMB). CVWD and Desert Water Agency (DWA) have negotiated a joint Agreement with DMB for the purpose of implementing this proposed "spot-market" water purchase and delivery. Under the Agreement, CVWD would acquire 6,295 acre -feet and DWA would get 2,098 acre-feet of water. In 2001, Kern County Water Authority (KCWA)., as part of its Kern River Restoration and Water Supply Program, acquired certain Nickel Family water rights to the Lower Kern River and agreed to make 10,000 acre-feet per year of Agency Transfer Water, referred to as "Nickel" water, available for sale by the Nickel Family to third-parties within or outside of the Kern County.	NOE

	and vicinity. EAB technology involves the addition of electron donors (primarily lactate [sodium lactate or lactic acid], glycerin, waste glycerin, whey powder, or emulsified vegetable oil [EVO-Newman Zone or EOS]), with chlorinated-ethene degrading bacterial culture (Shaw's SDC-9 or SiREM's KB-1) into groundwater and create a reducing condition in groundwater to facilitate reductive dechlorination of VOCs.		
2010122022	Kimson Monastery Santa Cruz County Watsonville--Santa Cruz Proposal to construct a two-story meditation hall of about 24,000 square feet to replace a previously demolished meditation hall.	MND	12/30/2010
2010122023	Pittsburg/Bay Point BART Master Plan Pittsburg, City of Pittsburg--Contra Costa The proposed project is a Master Plan describing mixed-use development on ~50.6 acres. The proposed Master Plan includes provisions supporting the development of residential and commercial uses, including various densities of residential development, senior housing, retail and office uses, and integration of the BART station into a cohesive mixed-use development plan. Current surface parking is proposed to be relocated to parking structures, allowing for urban development of the remainder of the project area. The western half of the project would likely be developed as multi-family housing by the current property owner, West Coast Home builders. In addition to typical residential and commercial land uses, the proposed Master Plan includes "flex" uses that may be developed as residential, retail, office, or quasi-public uses depending on market pressures at the time of development. Included in some locations would be ground-floor retail uses, co-located with flex uses.	NOP	01/05/2011
2010121018	Laguna Sanitation District Solar Energy Project Laguna County Sanitation District Santa Maria--Santa Barbara The proposed project involves the installation of a 1 megawatt photovoltaic (PV) solar energy array on approximately 5 acres of fallow land north of the existing Laguna County Sanitation District's wastewater reclamation facility. The energy generated would be used for plant operations and any excess would be added to the existing PG&E electrical grid. Two separate arrays would be constructed using fixed (non-tracking) PV panels. The maximum height of the panels would be 8 feet above the ground surface.	Neg	01/06/2011

	Avenue and Kearney Blvd and minor grading along the proposed sidewalks. Right of way acquisition will be required from five properties within the project limits. Bike Lane Signing and Striping: The proposed project consists of the installation of signing and striping for bike lanes along various streets within the City.		
2008011060	Cold Spring Canyon Bridge Suicide Barrier Caltrans #5 Santa Barbara--Santa Barbara The California Department of Transportation proposes to install a physical suicide barrier on the Cold Spring Canyon Bridge, near San Marcos Pass in Santa Barbara County.	SIR	01/21/2011
1992101099	TM5139 RLP6R/ Sunroad Centrum Industrial/ Commercial Subdivision San Diego County Otay--San Diego The project is a Major Use Permit Modification that would modify a previously approved Major Use Permit (MUP 06-074) for a secure detention facility, approved by the Planning Commission on April 10, 2009. The main purpose of the MUP Modification is to move the location of the facility ~ 400 ft away from the previously approved site 40-acre site on Lone Star Road to a new location on Calzada de la Fuente. The new site is being vacated by another previously approved MUP (MUP98-001).	NOD	
2006051021	Nursery Products Hawes Composting Facility San Bernardino County --San Bernardino This proposed project will establish a site for composting of bio-solid and green materials on 80 acres. The Project will also result in widening and paving of an access route and increases vehicular traffic going to and from the Project site. The Project will result in the permanent loss of 86.5 acres of Mohave ground squirrel (<i>Spermophilus mohavensis</i>) and desert tortoise (<i>Gopherus agassizii</i>) habitat. The Project is expected to result in incidental take of Mohave ground squirrel and desert tortoise, which are designated as threatened species under the California Endangered Species Act. The ITP referenced above as issued DFG authorizes incidental take of Mohave ground squirrel and desert tortoise that may occur as a result of Project implementation.	NOD	
2006101004	California American Water Company's Coastal Water Project Public Utilities Commission --Monterey The proposed project is called the Coastal Water Project (CWP). The water supply is needed to replace existing supplies that are constrained by recent legal decisions affecting the Carmel River and Seaside Groundwater Basin water resources. The CWP would produce desalinated water, convey it to the existing California American Water (CalAm) distribution system, and increase the system's use of storage capacity in the Seaside Groundwater Basin. The CWP would consist of several distinct components: a seawater intake system; a desalination plant; a brine discharge system; product water conveyance pipelines and storage facilities; and an aquifer and recovery (ASR) system.	NOD

2009091036	<p>Echo Park Lake Rehabilitation Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The project would be consistent with the Regional Water Quality Control Board's intent to restore the existing and potential beneficial water quality uses in the Lake. The project would include a new Lake liner, new wetland areas, a Lake outlet, a partition berm in the Lake to comply with California Division of Safety of Dams requirements, a recirculation pump and piping system to circulate the Lake water, modification of existing storm drains inletting to the Lake to divert low flow urban runoff into the Lake, aquatic emergent plants at various points along the Lake edge, various improvements to the Lake's edge and areas adjacent to the Lake's edge, replacement of a majority of the existing asphalt pathway around the Lake perimeter with pervious materials, hydrodynamic separators, rain gardens and grassy swales, and an upgrade of the irrigation system.</p>	NOD	
2009101077	<p>Interim Removal Measure Workplan for Ascon Landfill Site Toxic Substances Control, Department of Huntington Beach--Orange</p> <p>The proposed Interim Removal Measure (IRM) planned for 2010 at the Ascon Landfill site includes removal and disposal, or, if feasible, recycling of up to ~ 70,000 cubic yards of tarry materials from two interior lagoons in the southwest zone of the Ascon site that received oil production waste during the landfill's operations. The purpose of the IRM is to enable assessment of the material underneath the tarry materials in Lagoons 1 and 2. After on-going construction IRM activities within Lagoons 1 and 2, it has been determined that removal of materials from Lagoon 3 will be necessary to ensure the stability of the existing berm between Lagoons 2 and 3. In comparison to the IRM activities described in the Final MND and Modified IRM Proposal (analyzed in Addendum No 1), the loading area for the Lagoon 3 Proposal would not be located closer to the site perimeter than existing onsite roads used as part of ongoing IRM activities, the traffic count of haul trucks will not change, off-site haul routes will not change, the construction schedule will not change, and the maximum volume of removable materials during the IRM (70,000 cubic yards) will not be exceeded as stated in the Final MND. Further, the Lagoon 3 Proposal will comply with the same regulatory requirements and implement the same components in the IRM Workplan that serve to minimize impacts on the environment.</p>	NOD	
2010128034	<p>Smith Seawall and Pier Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley) --Madera</p> <p>Project proponent will remove concrete riprap, concrete boat dock footings, and a seawall from the lakebed which have deteriorated due to scouring from wave action. A replacement pier structure and seawall will be constructed. and riprap will be placed around the new footings to prevent future erosion. The project will require 5 cubic yards of concrete and 38 cubic yards of clean rock riprap. All work will be conducted when water levels are below the project area, and all excess concrete and dredge materials will be removed offsite.</p>	NOE	
2010128041	<p>Integrated Retrofit Solutions for Untapped Markets Energy Commission Davis--Yolo</p> <p>The Contract will develop whole-building retrofit solutions for Multi-Tenant Light Commercial (MTLC) buildings to increase energy efficiency, reduce peak electricity demand and decrease greenhouse gas emissions. ------------	--	-----------	------------

Alternative A consists of the release of FEMA SCG funds to the City and the resulting construction of a 9,000 sq ft building that would house administrative offices, living quarters, and training facilities. The footprint of the new building would cover ~ 4,500 sq ft (0.1 acres). The building would be erected within the footprint of the previous fire station within the 0.72-acre-City-owned parcel that contains the apparatus bay constructed during Phase 1 of the fire station construction project. The previous fire station was severely damaged in the 2003 San Simeon earthquake, with additional damage in 2006 from a severe storm. The old fire station was razed in 2007 and the new apparatus bay (Phase 1) was completed in 2008.

2009021010	California PEO Home Senior Housing Project Alhambra, City of Alhambra--Los Angeles Construction of 213 senior housing units (includes 31 assisted living units), an aquatic/fitness center, various activity and common areas, and underground parking totaling ~ 414,000 sq ft. 2010121026	California Water Service Company Monterey County --Monterey Coastal Development Permit and Design Approval to allow a water well intended to serve the 890 connection within the oak hills subdivision. The project includes a waer well with submersible pump, 300 gallon double contained chlorinated shelter, 10,000 gallon pressure tank, 40 sq ft panel board, 72 sq ft generator with fuel, tank, driveway, 6 ft high chain link fence enclosing all structures to include new landscaping and less than one hundred cubic yards of grading. The project is located on pampas path, in Oak Hills (Hwy 156), Salinas (APN 133-481-054-000), North County Land Use Plan. Coastal Zone.	Neg	01/07/2011
2010122024	Anderson-Cottonwood Irrigation District Boundary Adjustment: Gore Ranch and Steiner Property Anderson-Cottonwood Irrigation District Redding--Shasta The McConnell Foundation and John Steiner are requesting annexation of their Gore Ranch and Steiner property, respectively, into the service area boundary of the Anderson-Cottonwood Irrigation District (ACID). ACID's Board of Directors tentatively approved annexation of the entire 2,261-acre Gore Ranch and the ~ 25-acre Steiner property into its service area on February 11, 2010. However, as part of the annexation, ACID will condition that an agreement must be made between itself and the McConnell foundation whereby ACID would provide only enough surface irrigation water to irrigate ~ 317 acres of the Gore Ranch immediately adjacent to the main canal and the historic Townsend Flat Water Ditch. No development is planned.	Neg	01/07/2011
2010122025	Peaceful Glen Road Improement Project - Phase 4 Solano County Vacaville--Solano This project rehabilitates a section of Peaceful Glen Road from 0.15 miles west of Timm Road to 0.6 miles east of Timm Road. The existing 2-lane road ranges from a 22- to -24 width and will be widened to a full 24-foot wide 2-lane road with 4-foot earthen shoulders. Peaceful Glen Road borders Sweeney Creek. The creek bank adjoining the road has eroded significantly over the years resulting in a situation whereby further erosion may compromise Peaceful Glen Road. The project returns this ~ 250-ft section of Sweeney Creek and its northerly bank to their ~ original alignment. This will be accomplished by reestablishing the creek slope with the use of natural soil slopes and retaining wall. Other work includes the removal of invasive plant species such as arrundo and star thistle in the creek within the limits of the project, erosion control, placement of guard railing, and signing and striping.	Neg	01/07/2011
2007021112	Sunset Reservoir Ion Exchange Project Pasadena, City of Pasadena--Los Angeles The proposed project includes installation of an ion exchange perchlorate treatment system (ion Exchange system), a booster pump station, a chloramination system, and piping at the City's Sunset Reservoir site. The proposed Ion Exchange system will be designed to remove perchlorate contamination from groundwater produced from with the Copelin and Sunset Wells of the Bangham Well by itself. Currently, average perchlorate concentration at the Copelin and Sunset Wells are ~18.5 micrograms per liter (ug/L) and 16.4 ug/L, respectively. These perchlorate concentrations exceed the California Department of Public Health (CDPH) Maximum Contaminant Level for perchlorate of ug/L.	NOD

2010128059	<p>Construct Rock Buttress for Slope Failure Repair along Tompkins Hill Road Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt</p> <p>Winter storms of 2005-2006 caused a slide above Tompkins Hill Road at Post Mile 0.33. The slide pushed dirt, trees and debris onto the road. Emergency repair work consisted of cutting down trees and clearing debris from the roadway. The project involves excavation of the slide area to accommodate installation of a rock slope buttress will be approximately 15 feet tall and extend approximately 100 feet along the roadway. Excavated material will be stockpiled in the roadway. Some of the excavated material will be used as structural backfill and any excess material will be hauled offsite to an appropriate upland disposal site.</p> <p>A roadside drainage channel along the east side of the road collects storm water runoff and seepage from the adjacent hillside. The drainage channel contains seasonal wetlands that will be temporarily impacted during the proposed project. The drainage channel has been disturbed repeatedly since the 2005-2006 storm events due to the frequent maintenance that has been conducted to remove slide material that sloughs off the hillside and blocks the drainage channel and northbound lane of the roadway. The drainage channel will be restored to its existing form following construction of the rock buttress and the channel will experience less frequent disturbance after the hillside is stabilized.</p>	NOE	
2010128060	<p>M.F. Reather River Bridge Rehabilitation Project Fish & Game #2 --Plumas</p> <p>Caltrans is proposing to rehabilitate the MFFR Bridge and roadway, which will include the repair of a scour hole between the north bridge pier and abutment. Repair of the scour hole will include construction activities within the stream channel and will require equipment access from the north-east quadrant, which will require the existing dirt road to be graded. The scour hole will then be excavated and lined with RSP fabric with a 5.5' layer of RSP placed on top of the fabric within the excavated hole. The top of the RSP should be level with the channel bed and flush with the top of the pier footing. The RSP will begin approximately 25'. Instream construction activities are anticipated to take approximately 20 working days, which is equal to a month.</p> <p>The underneath metal section of the bridge structure will be painted as part of the proposed project, which will require sand blasting to remove any rust and old paint. The contractor will prepare a plan to prevent all paint and sand blasting material from entering the MFFR. The staging area located on the south-east</p>	NOE

2009071006	Downtown Long Beach Community Plan (EIR-04-08) Long Beach, City of Long Beach--Los Angeles Note: Review per lead The proposed Project is the adoption and implementation of the Long Beach Downtown Plan to replace the existing zoning, and planned development districts with the Downtown Plan becoming the land use and design document for all future development. The Downtown Plan incorporates zoning, development standards, and design guidelines. Full implementation of the Downtown Plan is intended to increase the density and intensity of existing Downtown land uses by allowing compatible additional development over the next 25 years.	EIR	01/24/2011
2010042048	121 Golden Gate Avenue San Francisco, City and County of San Francisco--San Francisco Demolition of an existing 40 ft high building and construction of a 99 ft high, 10 story building with one basement level, containing a kitchen/dining hall, philanthropic/social services, and 90 affordable senior housing units. No off-street parking would be provided with the project. The existing building on the site was constructed in 1912 and contains the St. Anthony Dining Hall and other philanthropic/social service and accessory office space. The dining hall and social service facilities would continue to operate in the basement and first two levels of the new building.	EIR	01/24/2011
2010062054	2030 Yuba County General Plan Update Yuba County --Yuba The General Plan is the County's overarching policy and planning document. The General Plan provides decisions makers, County staff, property owners, interests property developers and builders, and the public-at-large with the County's policy direction for managing land use change. The General Plan is comprehensive in scope, addressing land use, transportations, housing, conservation of resources, economic development, public facilities and infrastructure, public safety, and open space, among many other subjects. It is estimated that the updated General Plan could accommodate the construction of between 32,000 and 42,000 housing units and 80,000 to 100,000 additional people living in unincorporated areas of Yuba County at full build out. Between 47,000 and 67,000 jobs could be located in the County at full build out of the 2030 General Plan.	EIR	01/24/2011
2010031016	Cerritos Walmart Expansion Cerritos, City of Cerritos--Los Angeles The project would demolish 481 sf floor area and construct a 25,208 sf addition to the existing Walmart store. The proposed expansion is designed to accommodate a grocery use, which will be located in an area previously designated for expansion. The project includes Conditional use Permit 92-6 (A)(2010) Amendment, Precise Plan 92-6(M)(2010) Amendment, and Development Code Amendment 2010-1, an Ordinance of the City of Cerritos amending Chapter 22.12, Area Development Plan Two (ADp-2), of the Cerritos Municipal Code for off-street parking standards. 2010082008	<p>Rehabilitation of the Existing San Joaquin Pipelines San Francisco, City and County of Riverbank, Modesto--Tuolumne, Stanislaus, San Joaquin NOTES: Review per Lead</p> <p>The San Francisco Public Utilities Commission is proposing the Rehabilitation of the Existing San Joaquin Pipelines. This project consists of condition assessment, repair, rehabilitation, and maintenance of the existing San Joaquin Pipeline System. The San Joaquin Pipeline System is a part of the SFPUC's regional water system and includes three large-diameter pipelines that carry water nearly 48 miles across the San Joaquin Valley. The San Joaquin Pipeline System traverses portions of Tuolumne, Stanislaus, and San Joaquin counties, including the cities of Riverbank and Modesto. Construction activities would occur within existing SFPUC facility boundaries. Project construction activities would be ongoing and intermittent, beginning in 2011 and extending over approximately 20 years.</p>	FIN	
2010121031	<p>Facilities Program Change Project Monterey Peninsula Unified School District Monterey--Monterey</p> <p>The project involves changes to facilities programming at three schools, including: (1) Closure of Bay View Elementary School (Grades K-6); (2) Conversions of the Walter Colton School from a K-8 to a 6-8 facility; (3) Re-opening the Monte Vista School after termination of the lease with the U.S. Army; and (4) Transfer of Bay View and Walter Colton K-5 students to the Monte Vista facility, and transfer of Bay View sixth graders to Walter Colton. The Bay View School site would remain idle. Students from Bay View and K-5 students at Walter Colton School would be transferred to the Monte Vista facility, which has been leased to the U.S. Army since 2006. Prior to its lease to the U.S. Army the Monte Vista facility was used as an elementary school by the MPUSD. Therefore, the project does not constitute opening a new school.</p>	MND	01/10/2011
2010121033	<p>EA JDG 01-10; 5522 ND; Conditional Use Permit No 25, Map 102 Kern County Bakersfield--Kern</p> <p>The applicant is requesting approval of a conditional use permit to allow chemical storage and blending of oilfield related chemicals in an M-2 PD District. As proposed, implementation of the request will allow for the relocation of an existing operation currently located at 6300 1/2 Price Way in Bakersfield. The Price Way facility has reached capacity (ten truck deliveries a day), and the owner is looking to relocate to the current facility to facilitate the opportunity for future expansion of the business at the Charity Avenue location.</p>	MND	01/10/2011
2010121034	<p>Conditional Use Permit 10-23/Zone Change 10-03 Lancaster, City of Lancaster--Los Angeles</p> <p>The proposed project consists of the construction and operation of a 1.5 megawatt photovoltaic (PV) solar electric generating facility. The proposed project consists of rows of photovoltaic panels on single axis trackers with three inverters in the middle of the project site. These photovoltaic panels convert sunlight directly into electricity without the use of heat transfer fluid or cooling water. The project would tie into the transmission lines that run along 40th Street East. A chain-link fence would surround the project site and a 10 ft landscape area would be provided between the fence and property line to screen the development from the surrounding uses. Access to the project site would provided via a gate on 40th</p>	MND	01/10/2011

2006022136	Brisbane Baylands Specific Plan (Case SP-1-06) Brisbane, City of Brisbane--San Mateo The landowner and Project Applicant, Universal Paragon Corporation ("Project Applicant"), has submitted a Specific Plan application to the City of Brisbane ("Lead Agency"), proposing approximately 7 million sf of office/retail/industrial/institutional uses, 4,434 residential units and approximately 205 acres of upland open space/open area and related grading and infrastructure on approximately 684 acres. A Community Preferred Plan also will be evaluated in the forthcoming draft EIR at the same level of detail as the applicant's proposal. The Community Preferred Plan proposes up to approximately 8 million sf of office/retail/industrial and 330 acres of open space.	NOP	01/10/2011
2010121032	Lakeview Substation Project Public Utilities Commission --Riverside Southern California Edison proposes to construct a new 115/12kV substation (Lakeview substation) and related facilities, including 2 new 115kV subtransmission source line segments to connect the proposed substation to the existing Valley-Moval 115kV subtransmission line; construction of 2 new underground 12 kV distribution getaways; installation of telecommunications facilities (i.e., telecommunication cable) to connect the proposed substation to SCE's telecommunications network, upgrades to the telecommunications equipment at various substations; and decommissioning of 2 existing substations: Nuevo and Model Pole Top.	NOP	01/10/2011
2010122028	Delta Plan Delta Stewardship Council -- In November 2009, the California Legislature enacted SBX71. Division 35 of this legislation, also known as the Sacramento-San Joaquin Delta Reform Act of 2009 (Delta Reform Act), requires the Delta Stewardship Council to develop a legally enforceable, comprehensive, long-term management plan for the Delta, referred to as the Delta Plan. The fundamental purpose of the Delta Plan will be to meet the coequal goals, as defined in Water Code section 85054, and all of the inherent subgoals and policy objectives defined by statute.	NOP	01/10/2011
2010122029	San Bruno Transit Corridors Plan San Bruno, City of San Bruno--San Mateo The City of San Bruno is proposing to adopt the San Bruno Transit Corridors Plan, which would set forth a new vision for the Transit Corridors Area, including downtown San Bruno, historically represented by San Mateo Avenue, and Huntington Avenue. The proposed Transit Corridors Plan contains seven elements: Vision, Development Framework, Private Realm Development Standards and Design Guidelines, Public Realm Design Guidelines, Transportation, Infrastructure, and Implementation. 2010122030	Beltz Well No. 12 - Research Park Drive Santa Cruz, City of --Santa Cruz The City of Santa Cruz Water Department proposes to construct a replacement water well and associated facilities in the unincorporated community of Soquel, Santa Cruz County, California. The proposed well would be located on the northeast corner of Research Park Drive and Cory Street, in Soquel. Facilities would include: (1) a pump and chemical storage building, approximately 12 feet in height; (2) an Iron and manganese treatment system consisting of pressurized filter tanks, approximately 10 feet in height; (3) a backwash tank for the iron and manganese treatment, approximately 15 feet in height; (4) a sand separator, approximately 7 feet in height, and (5) station piping including, but not limited to, a treated water pipeline, a sanitary sewer pipeline, and stormwater drainage facilities that would connect to existing facilities in Research Park Drive.	NOP	01/10/2011
2010121028	CalEnergy Removal Action Workplan (RAW) Toxic Substances Control, Department of --Imperial The DTSC has prepared this Initial Study to evaluate the potential environmental effects of a proposed Removal Action Workplan (RAW) for the CalEnergy Geothermal Facilities in Calipatrica, California (Site). The geothermal facilities are operated by CalEnergy Operating Corporation (CalEnergy). This project provides for approval and implementation of a RAW for remediation work at the CalEnergy facilities. DTSC is providing oversight for the Raw under the authority of the California Health and Safety Code Chapter 6.8.	Neg	01/10/2011
2010121029	Mt. San Antonio College Fire Academy, Training Facility, and Tower La Verne, City of La Verne--Los Angeles The Agency and City desire to lease ~ 2.5 acres of the Agency Parcels to the District for the purpose of constructing, operating and maintaining thereon the Mt. San Antonio College Fire Academy Training Facility, consisting of a Training Tower, Multi-Purpose Classroom Building, Apparatus Storage Garage, parking, lighting, and other related improvement. Once the configuration of the Facility on the Property has been approved by the State Architect, the Agency and City intend to effect a lot line adjustment to create separate legal parcels for the Property and the remainder of the Agency Parcels. Once the Facility is constructed and occupied, the Facility will be jointly used by the District and City of fire education and training.	Neg	01/10/2011
2010121030	PSP 10-026 "Bullfrog's Bar and Grill" Riverland R.V. Park Tulare County Kingsburg--Tulare David Rosenbaum, on behalf of DRB Riverland, LLC, is proposing to open "Bullfrogs Bar and Grill," a restaurant, bar and grill with live music and or recorded music entertainment and dancing, in the O-F-1 (Recreation-Primary Flood Plain) Zone District. The restaurant is located at the Riverland Resort in northern Tulare County on the south side of Kings River, southerly of State Hwy 99 within the Tulare County Kings River Plan area. Address of Riverland R.V. Park is 38743 Hwy 99 Kingsburg, CA 93631. APN: 028-200-019, Section 36, Township 16S, Range 22E MDB&M.	Neg	01/10/2011

1999011023	Villages of La Costa - (EIR 98-07) Carlsbad, City of Carlsbad--San Diego Request for a determination that the project is within the scope of the previously certified Villages of La Costa Program EIR (EIR 98-07) and that the Program EIR adequately describes the activity for the purposes of CEQA; and approval of a Planned Development Permit Amendment for building floor plans, elevations and plotting for 53 detached single-family homes within the Villages of La Costa Oaks North Neighborhood 3.3, within Local Facilities Management Zone 11.	NOD	
1999121073	Molycorp Mountain Pass LLC Project San Bernardino County Mountain Pass--San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 (SAA # 1600-2010-0100-R6) of the Fish and Game Code to the project Permittee, Molycorp Minerals, LLC. The Permittee proposes to fill ~ 3.66 acres of ephemeral desert wash located on the south portion of the property with overburden from the storage area. Permittee also proposes to impact 2 acres of ephemeral desert wash by installing two 72-inch culverts and one 36-inch culvert in an unnamed drainage tributary to Wheaton Wash on the southeast portion of the property.	NOD	
2010031016	Cerritos Walmart Expansion Cerritos, City of Cerritos--Los Angeles The project would demolish 481 sf floor area and construct a 25,208 sf addition to the existing Walmart store. The proposed expansion is designed to accommodate a grocery use, which will be located in an area previously designated for expansion. The project includes Conditional use Permit 92-6 (A)(2010) Amendment, Precise Plan 92-6(M)(2010) Amendment, and Development Code Amendment 2010-1, an Ordinance of the City of Cerritos amending Chapter 22.12, Area Development Plan Two (ADp-2), of the Cerritos Municipal Code for off-street parking standards.	NOD	
2010031105	Amendment No. 1 to the Arvin Redevelopment Project Area No. 1 Arvin, City of Arvin--Kern The City of Arvin and the Arvin Community Redevelopment Agency desire to amend the existing Arvin Redevelopment Project ("Amendment No. 1"). Amendment No. 1 proposes to: 1) add 192.5 acres of territory to the existing Project Area; and 2) reinstate the Agency's eminent domain authority on non-residential land in the existing Project Area. The purpose of the Amendment No. 1 is to eliminate the conditions of physical and economic blight that exist in the Added Area and the existing Project Area, together known as the Amendment Area. This will involve the creation of programs to eliminate physical and economic blight, fund infrastructure improvements, and provide incentives that will stimulate economic revitalization of the Amendment Area. The proposed actions are all being taken in accordance with the provisions of the California Community Redevelopment Law, Health and Safety Code Section 33000, et seq.	NOD

2010102009	Dixon Station 10 Water Storage Tanks project-California Water Service Public Health, Department of Dixon--Solano The California Water Service Company proposes to construct and operate two new portable water tanks to serve its Dixon District. The new welded steel tanks will provide for a combined capacity of approximately 1.1 million gallons. Tank 1 will be approximately 57 feet in diameter and 32 feet high; Tank 2 will be approximately 64 feet in diameter and 32 feet high. The project would also include ancillary facilities such as perimeter fencing, a booster pump station, a back-up generator, and a new electrical panel board. The new facilities would be linked via 16-inch diameter pipes which would extend southerly to an existing 16-inch water tank inlet and outlet connection pipeline on West F Street. Two catch basins would be provided for overflows from each tank. The back-up generator and electrical panel board would be located to the south of Tank 1, with the electrical panel board housed in a 112 sq ft electrical panel box footprint.	NOD	
2010128068	New Bus Yard Facility Sequoia Union High School District Redwood City--San Mateo New bus yard to house the Sequoia Union High School District school bus fleet and transportation department operations. Project includes parking for 22 40-foot buses, 21 26-foot buses, 3 maintenance trucks and 49 employee/personnel parking stalls. In addition, a 30' x 40' modular unit will be added as an office for the bus drivers and dispatcher operations. A 12' x 40' men / women restroom unit will be added and tied into the existing sewer system. Some drainage and electrical work will also be done. The cleanup of this site will consist of excavation and office disposal of contaminated soils or sludges in regulated units.	NOE

	end of contiguous urban development. The CPSP includes the 118 +/- acre College of the Desert (COD) West Valley Campus (WVC), and associated solar array. The project includes area-specific development standards and guidelines. Roadway designations will also be considered and are also being refined in the CPSP and associated General Plan Amendment.		
2010121036	Lion's Lot Riverside Community College District Moreno Valley--Riverside The Riverside Community College District (RCCD) is proposing the development of a 144-space surface parking lot and associated access roads for ingress and egress to the lot. The existing access road will be expanded by approximately 10 feet and a new access road will be developed to connect the parking garage to the existing college buildings located northwest of the project site. The entire amount of area to be paved is approximately 61,679 square-feet. The project will include updated drainage facilities and a new 60 by 120 square foot drainage basin will be created in order to improve groundwater percolation and stormwater controls. Permeable materials will be utilized for the paved areas in order to maximize percolation of stormwater.	MND	01/11/2011
2010121037	Woodman Avenue Multi-Beneficial Stormwater Capture Pilot Project Los Angeles, City of --Los Angeles The project site is located in public right-of-way within an existing median on the west side of Woodman Ave. from Lanark Street to Saticoy Street and at various public street right-of-way locations within the surrounding 130-acre watershed in a portion of the Panorama City community in the City of LA. Under the proposed pilot project, approximately 9.5 million gallons of storm water per year would be captured from approximately 130 tributary acres, directed through pretreatment devices (trash racks and primary separators to remove litter, oil, grease and sediments), and infiltrated to the San Fernando Groundwater Basin. A vegetated infiltration swale would be constructed to meander down the length of an existing median on the west side of a stretch of Woodman Ave. and an underground detention system would be installed. The modified median would be planted with native trees such as sycamores and alders, along with native drought tolerant vegetation. A pedestrian path with several benches and educational signs would be installed to provide connectivity and open green space for the neighboring community. The project would also include surface water diversions in the adjacent neighborhood to convey runoff to the new median infiltration system.	MND	01/11/2011
2010122036	Northstar-at-Tahoe Ski Trail Widening (PEAQ 20090250) Placer County Truckee--Placer The project proposes to widen ten ski trails at the Northstar mountain resort to improve existing circulation and relocate the snowmaking hydrants that are located along five of these trails. 	approximately 6.9 net acres into 49 parcels and two landscape lots, a Planned Unit Development (PUD) Guidelines Amendment to allow small lot single-family residences within the Laguna Meadows Planned Unit Development, a PUD Schematic Plan Amendment and a Special Permit for alternative housing.		
2008052076	GreenVolts Utility-Scale Solar Field Alameda County Byron--Alameda Note: Subsequent	SIR	01/26/2011
	The project is to modify existing Conditional Use Permit, C-8719, to allow the solar array installation of high-capacity photovoltaic solar cells to be expanded from 9.74 acres to 14.08 acres within the 20.5-acre lease area, to allow use of a new system of solar tracker arrays that would be a maximum of 24 feet high depending on the time of day and season, and to increase output capacity from 2 to 3 MW. The intent is to provide renewable power to Pacific gas & Electric (PG&E) to meet the California mandated Renewable Portfolio Standards set forth in California Public Utilities Code, Section 399.11. The project site was chosen for its proximity to the adjacent Tracy Substation of the Western Area Power Administration.		
2004072155	Soquel Creek Vegetation Mgt. Plan Santa Cruz County --Santa Cruz	NOD	
	The proposed activities include removal of the mostly nonnative invasive vine and shrub understory on the sandbar immediately upstream of the Bargetto Bridge on Soquel Creek, Santa Cruz County. Activities also include removal of a portion of the shrubs from the bench and bank on the east side of the channel. Vegetation at the toe of the bank and at the water's edge of the low flow channel will be preserved. Downed dead trees are also proposed to be removed. Existing single trunk trees will be preserved. Young trees larger than three inches diameter will be thinned to maintain a spacing of 20 to 50 feet. Large single trunk tree, three inches diameter or larger, will be topped or removed if they are growing close enough to hit the bridge if they fall. Vegetation will be removed by hand with hand equipment and herbicides. Mitigation for tree removal will be planting of five gallon native trees at a ratio of 3:1 on areas upstream of the project site. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement, Number 1600-2010-0274-R3, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Public Works Department of Santa Cruz County.		
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial	NOD	
	Sunrise Powerlink is a new 500 kilovolt (kV) and 230kV transmission line that SDG&E will build, operate, and maintain. Construction is projected to begin in the fall of 2010 and continue for ~ 30months. The construction phase of the Project will entail establishment of 443 towers and poles, a new substation, permanent access roads, maintenance areas at structure site, and permanent tower staging access area for helicopters.		
	The Project will result in permanent impacts to 7.21 acres and temporary impacts to ~1.41 acres of barefoot-banded gecko (<i>Coleonyx switaki</i>) habitat. The project is expected to result in incidental take of barefoot-banded gecko which is designated as a threatened species under California Endangered Species Act (CESA; Fish &

	both Creek Ridge Rd. and Old Highway. Other facilities include a roughly 8,000 sq. ft. graveled parking area providing space for up to 20 vehicles. The project also includes a roughly 600 sq. ft. storage structure, three 10,000 gallon water tanks, well (existing) and a minimum 12-20 ft driveway connecting the parking facilities to the two access roads.		
2010128071	Nipomo Creek Invasive Species Removal and Planting (ED10-210) San Luis Obispo County --San Luis Obispo Invasive species removal, restoration planting (~13,000 native plants along main stem and tributaries), and fencing along Nipomo Creek and its tributaries. The project will improve the riparian corridor along two important tributaries of Nipomo Creek, with the goal of increasing wildlife habitat, reducing erosion and sedimentation, thus improving water quality. The project site will serve as a restoration demonstration site for other landowners.	NOE	
2010128072	Guadalupe - Nipomo Dunes Invasive Species Removal (ED10-121) San Luis Obispo County --San Luis Obispo The project will systematically remove European beach grass, veldt grass, and other invasive species. The project will encourage native recovery through active seeding and planting in the dunes. Removal of invasive species will be performed by weed-whacking and manual removal. The project will protect a fragile ecosystem that is home to many rare, endemic, and/or threatened species. Removing European beach grasses will restore natural dune information and function, and will remove competition for native plants. Veldt grass removal and native seeding and planting will promote the recovery of dune scrub habitat, this benefitting native flora and fauna.	NOE	
2010128073	City of Sausalito, Sausalito Yacht Harbor/Bay Street Bulkhead Replacement Sausalito, City of Sausalito--Marin The project consists of the repair and maintenance, including structural improvements, to the 1960 "Bay Street Bulkhead". The project will not add more fill to the project site than was originally permitted by the State of California and the City of Sausalito.	NOE	
2010128074	East Side Bypass Crossing Project Turner Island Water District --Merced The proposed project is to construct a pipe culvert across the East Side Bypass and a separate turnout from the west levee of the Bypass. The purpose of the culvert is to convey water from land on the easterly side of the Bypass to lands on the westerly side. The purpose of the turnout is to divert flood water from the Bypass to lands on the west side of the channel.	NOE	
2010128075	Transfer of Coverage to an existing Roadway Easement, Serving Placer County Permit No. 0700 T39164.10 Tahoe Conservancy --Placer Project consists of the sale and transfer of 271 sq. ft. of potential coverage rights from Conservancy-owned land to a receiving project where an existing roadway easement will be paved to allow access to a new residence. The transfer enables the property owner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE

2010128076	Burlington Northern Santa Fe Railway, 2011 BNSF Bridge Replacement Project at Mile Post 56831 Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --San Bernardino The purpose of the project is to replace an outdated bridge with a new bridge to ensure long term structural stability and safe usage. The bridge is elevated roughly 25 feet above the desert wash and built with wood pilings, wood cross bracing, and wood decks, which are all at the end of their structural life. The existing bridge is over 70 years old and service interruptions and safety hazards currently exist due to the type and age of the bridge materials. The new bridge structures and supports will be made out of steel and the new decks will be pre-cast concrete. The finished bridge will be structurally sound for many years of continued service and require very little maintenance.	NOE	
2010128077	Egeria Removal and Dredge Project Fish & Game #3 Stockton--San Joaquin The project is located limited to removal of approximately 30,000 square feet of Egeria and dredge removal of approximately 40,000 cubic feet of substrate by clamshell or suction dredge from a shallow cove. The dredge spoils shall be pumped to the adjacent property owned by the Permittee. SAA #1600-2010-0152-3.	NOE	
2010128078	Waterside Slope Erosion Repairs - McDonald Island Fish & Game #3 Stockton--San Joaquin The project is limited to repairing the levee at multiple sites around the island; repairs may include adding 18-inch minus quarry stone rip-rap, clearing ruderal and invasive vegetation from repair sections, supplementing the embankment with additional fill material, and rearranging existing rip-rap to produce a uniform slope. SAA #1600-2010-0344-R3.	NOE	
2010128079	Truckee Sanitary District Vehicle Storage Building #2 Truckee, City of Truckee--Nevada The Truckee Sanitary District (TSD) is a public agency requesting a Development Permit Amendment for the construction of an 8,400 s.f. vehicle storage building at the existing TSD maintenance yard. The property is already developed with four buildings and a large parking area. The site and surrounding properties are located within the Public Facilities (PF) zoning district.	NOE

2005071132	Godfrey Parcel Map San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Mark and Karen Godfire for a Vesting Tentative Parcel Map to subdivide an existing 19.2 acre parcel into four parcels, including three parcels at 2.5 acres and one parcel at 10.94 acres, each for the sale and/or development of each proposed parcel. The project would result in the disturbance of ~ four acres of 19.2 acre parcel, resulting from the development of future residences, a new shared driveway for proposed Lots 3 and 4, and road improvements. The proposed project is within the Residential Suburban land use category and is located on the northeast portion of the intersection of Badger Canyon Lane and Fox Canyon Lane, west of Corbett Canyon Rd, ~ 1 mile.	MND	01/12/2011
2010122039	Menlo-Atherton High School Stadium Lights Project Sequoia Union High School District Atherton--San Mateo The Sequoia Union High School (SUHSD) is proposing to install new stadium lights at Menlo-Atherton High School's football stadium at 555 Middlefield Rd, Town of Atherton, CA. The Project consists of the installation of four, eighty-foot tall (80-ft tall) light poles. Each pole will have a total of 1,000-watt lighting which produces from 31 to 61 ft-candles of light on the playing field. Use of the field lights is governed by a negotiated agreement arising from litigation and a stipulated judgment resolving that litigation. On-site trenching will be required to provide the poled with electrical service.	MND	01/12/2011
2010122041	UCSF Mount Sutro Management University of California San Francisco--San Francisco NOTE: Reference SCH#s: 1995123032 & 2004072067 The University of California, San Francisco ("UCSF") proposes to implement a number of management actions in the UCSF Mount Sutro Open Space Reserve ("Reserve"). The University-owned Reserve is a largely undeveloped 61-acre forest located within UCSF's Parnassus Heights campus site at the center of San Francisco. The proposed project would involve implementation of a number of management activities, including thinning of the forest, native plant restoration and enhancement, and conversion planting (removal of non-native trees and plants and conversion to native species). Vegetation management actions are proposed to occur throughout the Reserve over many years and would be phased beginning with four demonstration projects that were crafted with the interested public in the community process. New trails are also proposed.	NOP	01/12/2011

	<p>proposed 4.1 acre project site at the northwest intersection of Commercial Street/North Lenore Avenue. The project would be built in three phases with an eventual total of 30,800 square feet of structures, 159 parking spaces with access from North Lenore Avenue, a central plaza, and landscaping. Completion of the project has been scheduled for Fall 2013. At full capacity, total enrollment would be ~ 1,200 full and part-time students, with 600 to 700 individual full-time equivalent (one student for ~ 12 hours per week) students attending classes at both the new center and on-line via the web.</p>		
2003121012	<p>Subregional Natural Communities Conservation Plan / Habitat Conservation Plan San Diego County Water Authority San Diego--San Diego, Riverside The NCCP/HCP fulfills the requirement of issuance of incidental take authorization under Section 2835 of the NCCP Act and an incidental take permit under section 10 of Endangered Species Act. The NCCP/HCP conserves 63 Covered Species (26 plants and 37 animals) over a 55 year permit. The NCCP/HCP addresses potential impacts to sensitive resources associated with new construction and typical expansion of existing infrastructure; ongoing installation, use, maintenance, and repair of its aqueduct and water conveyance, treatment, and storage systems; and acquisition of new and management monitoring of all existing Preserve Area lands.</p>	NOD	
2004082020	<p>Curtis Park Village (P04-109) Sacramento, City of Sacramento--Sacramento The project consists of the Department of Toxic Substances Control's (DTSC) approval of an Explanation of Significant Difference (ESD) for the Union Pacific Railroad Company, Inactive Yard, Curtis Park Railyard Site. The approval of this ESD would modify existing contaminated soil remedial actions that are currently being implemented consistent with a Remedial Action Plan (RAP) approved by DTSC in 1995. This action is being taken pursuant to authority granted under the California Health & Safety Code, Chapter 6.8 and the federal Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 121.</p> <p>The 1995 Rap and subsequent ESDs approved by DTSC in July 2000 and June 2005, respectively, were designed to address both soil and groundwater contamination at the Site. This ESD was prepared to document modifications only to the approved soil remedial action strategy. The approved remedial action for soil is excavation and off-site disposal of soil affected above the remedial action goals that would safely accommodate missed use development. The remedy includes implementation of a land use covenant (LUC) in areas with contaminants remaining above the cleanup goals for unrestricted land use. Specific modification include establishing remedial goals for arsenic and polycyclic aromatic hydrocarbons (PAHs) to be consistent with ambient concentrations and to add the option to transport soil for off-site disposal by truck rather than exclusively by rail. The fundamental remedy remains soil excavation, off-site disposal, and recording of LUCs where "commercial level" soil remain at portions of the site designated for commercial development. Implementation of the updated strategy in the ESD is designed specifically to safely accommodate the Curtis Park Village mixed use development plan approved by the City as Lead Agency under the California Environmental Quality Act (CEQA) [SCH#2004082020].</p>	NOD

	vision a reality.		
2010122043	Construction of 10 MG Clearwell for Stockton East Water District (SDWSRF Application No. 3910006-0031) Stockton East Water District Stockton--San Joaquin The Project is intended to implement the design and construction of the following: -An additional 10 MG partially buried cast-in-place concrete clearwell; -Connecting piping between the new clearwell and the reservoir inlet box, existing bypass piping and the existing clearwell. -Clearwell inlet box improvements -A filtered water chemical feed vault -New filtered water quality sampling and associated analytical water quality instrumentation.	Neg	01/13/2011
2010122045	Lower Division Water Rights Licensing Nevada Irrigation District --Nevada, Placer, Sierra, Yuba Reference: 2008052045 The project consists of petitions filed on nine (9) water right Permits and five (5) water right Licenses held by the District for the beneficial use of water within the District's boundary as the initial step in anticipation of licensing those Permit by the State Water Resources Control Board. The petitions are for: 1) Changes in points of diversion, points of redirection, places of use, and purpose of use (Petitions for Change. 2) Redistribution of storage in existing reservoirs (Petitions for Change in Distribution of Storage) and 3) Extensions of time to complete beneficial use (Petitions for Extension of Time). The petitions will clarify and conform the permitted water rights with District operations. The project down not involve any changes to existing or water use.	Neg	01/13/2011
2010122046	Sutter Extension Water District 2011 Water Transfer Program Sutter Extension Water District Yuba City--Sutter Sutter Extension Water District proposes to sell up to 17,952 acre-feet of water to the participating member districts of the State Water Contractors Incorporated during the 2011 irrigation season. Sutter Extension proposes to make water available through both crop idling and groundwater substitution. Purchase of the water would lessen potential water supply shortages to the State Water Contractors that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta. Under the proposed project, water made available by crop idling or groundwater substitution within the boundaries of Sutter Extension could then be retained and stored in Lake Oroville by the Department of Water Resources for delivery to the State Water Contractors.	Neg	01/13/2011
1984020113	Non-Exclusive Geophysical Survey Permit on Tide and Submerged Land California State Lands Commission --STATEWIDE Authorize issuance to Coastal Frontiers Corporation of a non-exclusive general permit to conduct low energy geophysical surveys for the period January 1, 2011 through December 31, 2011. 1997121054	Glorietta Bay Master Plan Coronado, City of Coronado--San Diego Approve the proposed expenditure of public trust funds by the San Diego Unified Port District for the construction of the Coronado Boathouse.	NOD	
2000021015	New San Diego Central Courthouse Project Administrative Office of the Courts San Diego--San Diego The AOC will construct and operate a new courthouse for the Superior Court. The facility will include as much as approximately 750,000 square feet for 71 courtrooms and other improved facilities. Following construction of the new courthouse, the AOC will demolish the existing County Courthouse and Old Jail. The project will: (1) enhance the security and efficiency of judicial operations; (2) improve public access; (3) provide consolidate space for the Superior Court's staff and operations; (4) preserve or improve the operational efficiency of the Superior Court, the District Attorney, and San Diego Sheriff by linking the County's Central Jail and possibly the Hall of Justice with the new courthouse; and (5) remove existing facilities that lack adequate seismic safety, security, and public access and contain potential health hazards.	NOD	
2002041066	V & J Sand Mine Reclamation Plan Lompoc, City of Lompoc--Santa Barbara The Permittee intends to alter the river to extract an average of 60,000 cubic yards of sand per year using a bar skimming method. The sand removed will be the excess material that has accumulated by deposition from previous high flows. The skimming will remove the center of the bar, from downstream to upstream, leaving the two edges along the flow lines, making a horse show shaped bar, that will continue to deflect flows away from the bank and prevent the river from becoming wider and eroding the banks. This will also ensure that the low flow channel remains deep, resulting in a suitable passage corridor for migrating steelhead. Extraction will be conducted with bulldozers, loaders, dump trucks and a water truck. Mining will occur in the bed of the river from a 15.57 acre area, depending on the amount of available sand and demand. No impacts to the bank or to riparian vegetation. If the water table is contacted, the Permittee shall reestablished a cap of 5 feet above the water table and shall stay a minimum of 5 feet above the water tables at all times.	NOD	
2005081077	Chula Vista Bayfront Master Plan and Port Master Plan Amendment San Diego, Port of Chula Vista--San Diego The 556 acre master plan area is located west of I-5 in the City of Chula Vista, CA, under both the District and the City of Chula Vista planning jurisdictions. The draft amendment proposes changes to the land and water use designations to accommodate the redevelopment of the Sweetwater, Harbor, and Otay Districts with a variety of uses such as: park, open space, ecological buffers, cultural, recreational, hotel and conference space, mixed use office/commercial recreation, and retail. The CVBMP also includes proposed in-water uses including: a reconfigured marina basin and boat slips, a new commercial harbor, and realignment of the existing navigation channel.	NOD
