

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

December 1 – 15, 2012

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 – 15, 2012**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

2005082054	Vegetation Treatment Program Forestry and Fire Protection, Department of -- Note: Review per lead	EIR	01/25/2012
	<p>Cal Fire implements vegetation treatments through various programs, including: the current Vegetation Management Program (VMP), Cal Fire's Prefire Management Initiative, Proposition 40 Fuels Reduction Program, and the CA Forest Improvement Program (CFIP) (BOF, 1996). Individual projects are carried out with agreements between the State and the landowners. Projects may occur on all non-federal wildlands unless other state or local law prohibits such activity. The purpose of the vegetation treatments are primarily for reduction of risk of damage from wildfire.</p> <p>In addition, Cal Fire regulates commercial timber harvesting on private lands, which manipulates fuel composition and arrangement. However, the timber harvest program is administered through an environmental review process that is separate from the proposed Vegetation Treatment Program.</p>		
2011021028	Crystal View Terrace/Green Orchard Place/Overlook Parkway Project Riverside, City of Riverside--Riverside NOTE: Review Extended Per Lead	EIR	03/01/2012
	<p>The Project includes four scenarios, each of which represents an alternative set of actions intended to help resolve potential vehicular circulation issues associated with the gates on Crystal View Terrace and Green Orchard Place; address the connection of Overlook Parkway easterly to Alessandro Boulevard; and potentially provide for a future connection to the SR-91.</p>		
2012041038	Bella Linda General Plan Amendment, Zone Change/Planned Development Overlay (PA11-0276), Tentative Tract Map (PA11-0277), Development Plan (PA11-0275) Temecula, City of Temecula--Riverside Note: Extended per lead	EIR	02/19/2013
	<p>The proposed project will require the approval of a General Plan Amendment to change the land use designation from Professional Office to High Density residential, a Zone Change from Professional Office to Planned Development Overlay zoning (to establish development criteria), a Tentative Tract Map to subdivide the property into fifty-seven lots, and a Development Plan. The project is a two-phase residential development. Phase one will consist of 325 apartment units totaling 462,622 s.f. Phase two of the project will consist of creating lots for 49 senior single-family units. The project will feature a meandering trail along Loma Linda Road and Pechanga Parkway. An additional 0.91 acres of project area is located off-site immediately to the north of the project site. This area will also contain a meandering trail and bio-swale.</p>

<u>Documents Received on Monday, December 03, 2012</u>			
2011091055	Crystal Geysers Roxane Cabin Bar Ranch Water Bottling Facility Project Inyo County --Inyo FYI Final	FIN	
	<p>The proposed project would develop a spring water bottling facility and ancillary uses to be built in three phases over an approximate 10 to 15 year time period. The water bottling facility would include an approximately 198,500 sf bottling plant facility with four bottling lines and an approximately 40,000 sf storage warehouse. Proposed ancillary uses include rooftop solar array, a fire suppression building, a stormwater detention basin, a leach mound, a fire access road, and a parking and truck staging area. To provide adequate access from US 395 to the bottling facility, the project would remove the site's existing access road (i.e., Cabin Bar Ranch Road) and construct a new permanent access road approximately 2,500 ft to the south. The bottling facility would utilize spring water from three existing production wells to supply the bottling operations. The proposed project would also use a fourth existing well to provide domestic potable water to the water bottling facility's employees.</p>		
2012011064	US 101/Palo Comado Canyon Road Interchange Project Caltrans #7 Agoura Hills--Los Angeles NOTE: Final 1 CD	FIN	
	<p>Caltrans and The City of Agoura Hills propose to construct improvements at the U.S. Highway 101/Palo Comado Canyon Road interchange (PM 33.0/34.4), in Los Angeles County within in the City of Agoura Hills. The project would include widening the Palo Comado Canyon Road and Palo Comado Canyon Road Overcrossing over US 101 and modification of the interchange ramps in order to improve traffic circulation, safety, and bicycle/pedestrian access. The No-Build Alternative would maintain the existing configuration of the US 101/Palo Comado Canyon Road Interchange. The Build Alternative would widen Palo Comado Canyon Road from two to four lanes between Driver Avenue and Chesebro Road and include a dedicated left-hand turn lane, for a total of five striped lanes.</p>		
2012082037	Watmaugh Road Bridge Replacement Project Sonoma County --Sonoma FYI Final	FIN	
	<p>Caltrans and Public Works proposes to replace the existing Landmarks status Warren pony truss bridge at Watmaugh Road over Sonoma Creek with a 32-ft wide concrete bridge. DTPW proposes to preserve the existing structural steel and include it as a detail on the new structure.</p>		
2011051024	Downtown San Bernardino Passenger Rail Project San Bernardino Associated Governments San Bernardino--San Bernardino SANBAG is proposing to extend Metrolink regional passenger rail service approximately one mile east from its current terminus at the existing San Bernardino Metrolink Station/Santa Fe Depot (Depot) located at 1170 West 3rd Street to new Metrolink commuter rail platforms proposed near the intersection of Rialto Avenue and E Street in the City of San Bernardino, CA. The Downtown San Bernardino Passenger Rail Project consists of several major components,	FON	01/02/2013

	including construction of a second track, rail platforms, parking lots, a pedestrian overpass at the Depot, and an Omnitrans Bus Facility (bus facility); grade crossing improvements; railroad signalization; and roadway closures. The proposed Project's secondary features include: construction of drainage improvements, utility accommodation, and implementation of safety controls.		
2012121002	Mid Valley Recycling and Transfer Station Facility Expansion Kerman, City of Kerman--Fresno Mid Valley Disposal, Inc. has applied for Annexation No. 12-01, Prezone No. 12-01, and Conditional Use Permit No. 12-02 to expand its current operations, increasing daily tonnage from 500 tons to 1,500 tons, adding composting, anaerobic digestion, and material recovery operations on a 30 acre site in multiple phases.	MND	01/02/2013
2012121003	T5 Data Expansion Project (EA 971) 444 North Nash Street El Segundo, City of El Segundo--Los Angeles The Project proposes a 63,666 gross sf expansion to the existing data center located at 444 North Nash Street. The Project involves construction of a two-story building addition along the northern portion of the property, and partial demolition of a building and construction of a two-story building addition along the western portion of the property.	MND	01/02/2013
2012121004	Van Horn Youth Treatment & Education Center (YTEC) (FM 08260000146) Riverside County Riverside--Riverside The existing Van Horn Youth Center is a 44-bed residential treatment and education center provided and administered by the Riverside County Probation Department. The proposed treatment and education center will be approximately 75,000 sf and comprise of a 10 bed assessment unit, a 20 bed transitional housing component, and four, 20-single cell living units (with the potential for a future 20 bed transitional housing component and a 20-single cell living unit with recreation areas for an additional 11,692 sf. There is the potential for asbestos-containing material (ACM) and lead-based paint (LBP) to be present. The new Van Horn YTEC will be LEED-certified. Demolition and construction is expected to be completed by 2015.	MND	01/02/2013
2012121006	Oberon Fuels CUP #12-0014 & IS #12-0016 Imperial County Brawley--Imperial The applicant proposes to construct a fuel conversion facility, natural gas to Dimethyl Ether at 5451 Kershaw Road. The Oberon Fuels converts natural gas to dimethyl ether (DME process consists of three major steps: syngas production, methanol synthesis, and simultaneous DME synthesis and separation via catalytic distillation. The DME unit planned for the Kershaw Feed Mill property will be implemented in two phases, with Phase 1 being a start-up phase that includes only the final methanol to DME catalytic distillation step and Phase 2 being the final, full-scale natural gas to DME production unit.	MND	01/02/2013

2012121007	<p>Lower Hesse Park Master Plan Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles</p> <p>The proposed project consists of a Master Plan for Lower Hesse Park. Two conceptual plans were originally proposed for Lower Hesse Park (Pacific Plan and Catalina Plan) and these plans were presented and commented upon at public workshops. Both concepts were also presented to the City Council on November 16, 2010, and after receiving public comments on both park plan concepts, the Pacific Plan was selected by the City Council for further consideration and analysis. This Initial Study Checklist, therefore, analyzes the environmental impacts resulting from the Pacific Plan park improvements for Lower Hesse Park. The Pacific Plan, which is the proposed master plan for Lower Hesse Park, is the proposed evaluated in this Initial Study.</p>	MND	01/02/2013
2012122001	<p>Fountain Ranch Road Realignment Project Trinity County --Trinity</p> <p>Realign a 0.25 miles (1,312-foot) section of Fountain Ranch Road away from the Trinity River by re-routing it across Fountain Ranch. The new route would be approximately 1,350 feet long, with two 9-foot wide lanes with 2-foot paved shoulders on each side. Including drainage ditches, cuts and fills, the roadway corridor will be approximately 30 to 50 feet wide. Abandon the existing section of Fountain Ranch Road by removing all asphalt and road base, grading to blend with the natural topography, spreading with topsoil removed from the new alignment, and planting with fodder grasses consistent with the existing pasture uses of the adjacent ranch.</p>	MND	01/02/2013
2012121005	<p>Plains Exploration and Production - Phase V Oil Field Expansion Conditional Use Permit; DRC2012-00035 San Luis Obispo County --San Luis Obispo</p> <p>Request by Plains Exploration & Production Company for a Conditional Use Permit to allow for the expansion (Phase V) of an existing oil field that will include the following elements: addition of 11 new well pads and modification of 38 existing pads to provide for up to 350 new oil wells; installation of additional production and steam lines to the new wells; expansion of existing electrical power system; replacement of existing pipe bridge and installation of new pipe bridge over Pismo Creek; and replacement of existing pipe bridge and installation of new pipe bridge over Pismo Creek; and replacement of existing office trailers with larger office facilities.</p>	NOP	01/02/2013
2011071051	<p>JRK 01-11 Alta East Wind Energy Project by Alta WindPower, LLC. Kern County Tehachapi--Kern Note: Response to Comments</p> <p>Kern County and the Bureau of Land Management have jointly prepared a DEIS/EIR for general plan amendments, zone changes, and a CUP to allow for the construction of up to 106 wind turbines which would generate a maximum of 318 megawatts of energy. The project consists of 2,592 acres, of which 2,024-acres are located on federally-owned BLM land, with the remaining 568-acres being located on privately-owned land. Request includes the construction of ancillary facilities and supporting infrastructure and the concrete batch plants are necessary to provide concrete and materials for turbine, system block, substation, and</p>	Oth

	building foundations. The application also proposes to incorporate flood hazard zoning for areas subject to flooding. Access to the project is provided by SR 58. The project will also include the construction of 14 miles of 230-kV overhead transmission corridor, which would ultimately connect to the SCE Windhub Substation.		
2003021141	General Plan Amendment/Zone Change (PA 01-114) (aka: The Ranch Plan) Orange County --Orange The project includes: (1) a privately initiated Zone Change from A-1 General Agricultural and SG - Sand and Gravel Extraction to Planned Community zoning district for the entire project site to allow up to 14,000 dwelling units, as well as retail, office, and recreational uses, within a development area of ~7,683 acres (the remaining 15,132 acres would be retained in open space); (2) amendments to the Land Use, Transportation, Resources and Recreation Elements of the County of Orange General Plan; (3) Development Agreement; (4) approval of the South County Roadway Improvement Program (SCRIP); and, (5) certification of Draft Final Program EIR 589 prepared for the project in compliance with CEQA and the CEQA Guidelines.	NOD	
2004022076	Marin County Draft 2005 Countywide Plan Update Final EIR Amendment Marin County --Marin The project includes proposed technical and clerical corrections to certain CWP policies and maps to correct and improve their readability and clarity. The technical corrections includes minor grammatical changes, updates to flooding and land use maps, new language to further expand the role of community plans, and other minor changes to provide additional clarification. The amendment is also a technical correction to certain CWP policies to clarify when densities higher than the lowest end of the applicable CWP density range may be considered for affordable housing. This item was continued from prior hearings on September 11, 2012, October 2, 2012, October 23, 2012, and November 13, 2012.	NOD	
2004041081	Precise Development Plan and Desalination Plant Project (EIR 03-05) Carlsbad, City of Carlsbad, Oceanside, San Marcos, Vista--San Diego Minor modifications will be made to the previously approved off-site distribution and conveyance system associated with a 50 mgd seawater desalination plant located in the City of Carlsbad. Minor modifications will also be made to existing Water Authority conveyance facilities. The purpose of the Project Modifications is to allow desalinated water to be stored and blended with potable water at the Twin Oaks Valley Water Treatment Plant before distribution, and to allow for greater operational flexibility and efficiency in delivering desalinated seawater to the Water Authority's member agencies.	NOD	
2006061140	South Subregion Natural Community Conservation Plan / Master Streambed Alteration Agreement / Habitat Conservation Plan Orange County -- The District is proposing to construct the Gobernadora Multipurpose Basin located south of Coto de Caza in Rancho Mission Viejo. The Basin is a constructed wetlands proposed to collect urban return flows from Coto de Caza and to mitigate storm flows to reduce downstream impacts from erosion and sedimentation. The collected flows will be returned to the nondomestic irrigation system and Portola	NOD

2012128009	Shelter Bay Homeowners Association Dock Replacement Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Mill Valley--Marin The Project seeks to replace floating dock within the exact same foot print as the existing structure.	NOE	
2012128010	Wind Firming Energy Farm Energy Commission Modesto--Stanislaus Primus Power Corporation will work with DOE, Sandia National Labs, Pacific Gas and Electric Company (PG&E), and Modesto Irrigation District to develop, filed test, and install and monitor a 25 MW/75 MWh grid-connected energy storage system. The project will be conducted in three Phases. Phase 1 will provide a project plan, environmental compliance review, and detailed product definition. Phase 2 will include validation of technology performance, final product design and functionality testing at PG&E's Modular Generation Test Facility, and installation at a utility substation. Phase 3 will quantify the economic and environmental benefits of the deployed EnergyFarm and document field reliability. Specific goals and objectives of the project include: 1) Develop, integrate, and field demonstrate Zinc-based flow battery storage system 2) Provide a low-cost system with a footprint consistent with or smaller than competing technologies. 3) Demonstrate primary and secondary applications including: renewable firming, strategic local peak shaving, automated load shifting, ancillary services.	NOE	
2012128011	Exploration Drilling and Assessment of Wilbur Hot Springs Energy Commission --Colusa The amended grant project work will consist only of the geologic mapping, sampling and geophysical studies previously identified under Phase 1 of the original project. The amended grant field work will proceed according to specific workplans developed for the geologic mapping/sampling field work, and possible geophysical surveys to be conducted after the initial mapping. At this time, due to surface access permission limitations, all geologic mapping and sampling will be conducted on public lands south of Wilbur Hot Springs. The amended grant geologic mapping and geophysical survey work consists of data gathering activities that will not have a significant impact on the environment.	NOE	
2012128012	Purification and Liquefaction of Biomethane Landfill Gas for Transportation Fuel Energy Commission Livermore--Alameda This project will evaluate and analyze methodologies to overcome the technological challenges of landfill gas purification and demonstrate liquefaction technology for the recovery and conversion of renewable landfill biomethane to LNG as transportation fuel. The aim is to develop and introduce economically viable and environmentally friendly on-site landfill gas recovery, purification, and liquefaction of biomethane. The resulting LNG will consist of cryogenically liquefied pipeline quality natural gas, and it will be utilized primarily to fuel the fleet vehicles of Waste Management Inc. (WMI), proprietor of the landfill. The technology developed should make possible increased renewable fuel use, displace imported petroleum (diesel fuel), and provide substantial CO2 emissions reductions.	NOE

2011074003	West Chocolate Renewable Energy Evaluation Area EIS/CDCA Plan Amendment Bureau of Land Management --Imperial FYI Final	FIN	
	West Chocolate Mountains Renewable Energy Evaluation Area (West Chocolate REEA, or the REEA) EIS and Draft Amendment of the CA Desert Conservation Area Plan. The EIS evaluates six alternative, including the No Action and No Plan Amendment alternatives, to address the potential environmental impacts of: 1) authorizing testing for and development of solar and wind (renewable) energy development facilities on approximately 17,900 acres of Bureau of Land Management (BLM) managed surface lands; and 2) leasing approximately 20,962 acres of federal mineral estate for geothermal energy testing and development. The CDCA Plan would be amended to allow wind and solar energy development.		
2011122032	Cabin Creek Biomass Facility Project Placer County Truckee--Placer Placer County is proposing to construct a two-megawatt wood-to-energy biomass facility that would use gasification technology at the Eastern Regional Materials Recovery Facility (MRF) and Landfill. The project site is located on 3.7-acre site in the southernmost area of the property. The proposed project would include construction of an approximately 11,000 sf, two-story structure to house the power generating and emissions control equipment, an approximately one-acre material storage area including a 7,000 sf open air pole barn structure, and additional onsite improvements to support operations at the facility. Biomass materials (fuel) would be processed (ground and screened) at locations from which they are removed (e.g. USFS fuels reduction sites) and delivered via haul truck to the proposed project site.	FIN	
2012121009	PLN12-00011 Site Plan and Conditional Use Permit for a Heliport at Desert Valley Hospital Victorville, City of Victorville--San Bernardino The project involves the establishment of a surface heliport at the existing Desert Valley Hospital Medical Campus. The proposed helipad is sited on a vacant 1.23 acre parcel of land on the east side of the campus located approximately 150 feet north of existing Bear Valley Road improvements and approximately 200 feet east of the existing 2-story Medical Office Building. The 8 inch thick concrete helipad will measure 56 feet in length and depth with a finish surface 8 feet above the current ground level. The project location has been previously disturbed and is void of any native vegetation. The site is flat with a gravel base and was previously used as an area for construction office trailers during a recent expansion of the hospital.	MND	01/02/2013

2012122072	<p>2007-2014 Housing Element Implementation Project Gilroy, City of Gilroy--Santa Clara</p> <p>The Project involves amendments to the Gilroy General Plan and Zoning Ordinance, which are necessary, in order to implement the City of Gilroy 2007-2014 Housing Element. The Housing Element sets forth the City's Goals, Objectives, and Policies concerning their share of the regional housing need. It also included a Housing Policy Program that identified the "Actions" necessary, in order to achieve the specified goals and objectives. Some of these Actions, which constitute the proposed Project, include increasing vacant or redevelopable acreage that would be available for higher density residential development by 53 acres. The Project considers 15 candidate properties that amount to approximately 43 acres. The Project assumes removal of the existing commercial land uses (approximately 50,445 sf) and a residential development potential of as many as 851 dwelling units on the 15 candidate properties, or as many as 848 dwelling units over existing conditions. It is noted, although 15 candidate properties are being considered for redesignation/rezoning, it is possible that the City will select fewer properties and redesignate/rezone as few as 27 acres of land, the minimum required for the Housing Element to be in compliance with State law. In addition, the Project includes the assignment of a minimum density of 20 dwelling units per acre for the R-4 High Density Residential Zoning District and Downtown Gilroy Specific Plan Cannery, Expansion, and Historic Districts.</p>	MND	01/02/2013

	Plan for the Bard Unit Drains, and the Colorado River. Accordingly, the proposed Conditional Waiver also establishes conditions for drain maintenance discharges that occur as a result of drain operation and maintenance (O&M) activities.		
2012122002	Remedial Action Plans - Baker Beach Disturbed Area 1A and 2 Toxic Substances Control, Department of San Francisco--San Francisco Note: Extended Review per lead	Neg	02/05/2013
	<p>DTSC is considering approval of Remedial Action Plans (RAPs) prepared by The Presidio Trust (Trust) for two sites at the Presidio of San Francisco. The sites are in close proximity to each other and are known as Baker Beach Disturbed Area 1A (BBDA 1A) and Baker Beach Disturbed Area 2 (BBDA 2), respectively.</p> <p>For DTSC, the "Project" subject to review under CEQA is the approval of the two RAPs, which would lead to excavation and disposal of contaminated soil and other material found at the sites. The RAPs for the remediation Project are incorporated by reference. They are:</p> <ul style="list-style-type: none"> - Draft Feasibility Study and Remedial Action Plan, Baker Beach Disturbed Area 1A, Presidio of San Francisco, San Francisco, CA, AMEC Environmental & Infrastructure, Inc. (AMEC), 2012 and - Draft Feasibility Study and Remedial Action Plan, Baker Beach Disturbed Area 2, Presidio of San Francisco, San Francisco, CA, AMEC, 2012. <p>The proposed remediation activities would occur in the spring and summer of 2013 and would consist of excavation, characterization, transportation, and off-site disposal of excavated material. At BBDA 1A, the action would remove asphalt material and soil contaminated by chemicals of concern (COCs). At BBDA 2, the action would remove debris and fill soil contaminated by COCs. Post-remediation site restoration would occur in the fall at the beginning of the wet season.</p>		
2012121012	Regulations for Gasoline & Diesel Fuel Test Methods Air Resources Board -- The proposed amendments include the following changes: -Replace one gasoline test method which isn't sufficiently sensitive with a new one; -Add two test methods for determining whether denatured ethanol complies with existing regulations; -Update four existing test methods to current versions; and -Remove one obsolete test method for future analysis.	Oth	01/23/2012
2000071051	Murrieta Creek Phase 2 U.S. Army Corps of Engineers Murrieta, Temecula, Wildomar--Riverside The U.S. Army Corps of Engineers (Corps) proposes to construct various improvements to provide flood control, a multi-purpose trail, and higher quality riparian habitat along the existing Murrieta Creek Channel within the location described below. The project will increase the channel capacity by excavating a wider and deeper channel section. Riprap and soil cement are proposed to protect the banks from erosion. The project will also include the establishment of a riparian corridor to provide higher quality native habitat for wildlife species. The Corps is the Federal lead agency and will construct the project. The District owns the channel right of way, will provide funding, and will operate and maintain the project.	SIR	01/17/2013

2012122012	Falconry Regulations Fish & Game Commission -- The State's wildlife conservation policy contains, among other things, an objective of providing sport hunting use of selected species where such use is consistent with sustainable wildlife populations. The project being considered is a proposal to modify the current hunting regulations as an element of waterfowl, coot, moorhen, and common snipe management. The objectives of the proposal are to maintain viable waterfowl, coot, moorhen, and common snipe populations and to provide public sport hunting opportunities through regulated harvest.	EIR	01/22/2013
2010111094	General Plan Update La Quinta, City of La Quinta--Riverside Update of the La Quinta General Plan, to encompass all mandated Elements, and add a Sustainable Community and an Economic Development Element. The Update will include modifications to the Land Use Map, but will not significantly change land use patterns in the City. The Update also includes planning and land use designations for the City's Sphere of Influence. A Greenhouse Gas Reduction Plan is also being proposed, in conjunction with the General Plan.	FIN	
2000121032	Pump Station 77 A/B Force Main Inspection San Diego, City of Escondido--San Diego An inspection of the force main was conducted in 2001 (Pump Station 77 Force Main Corrosion Investigation) (Permit Number 40-0751). MND No. 40-01148 was prepared by the City of San Diego Development Services Department for impacts associated with twelve excavation sites and twenty-two vacuum station sites that were required to complete the investigation. The current project proposes excavation of test pits directly over the force main in order to implement the recommendations made in the 2001 report. The test pits would be used to identify force main conditions that may lead to liner failure, pipe leakage, interruption of service, and force main failures. The assessment would repeat the efforts made in 2001 and would consist of excavating the pipe at nine locations and would conduct B-Scan ultrasonic testing which would determine the wall thickness of the pipe. The external surface of the pipe would also be inspected to determine the presence of external pitting. Each site would then be backfilled, restored to original grade, and revegetated with native species. Since none of the activities require the force main to be out of service, normal operational procedures would not be impacted. The Project is expected to last 2-3 months.	MND	01/04/2013
2012121015	Annex 114, SIA 12-001, GPA 12-004, CZ12-002 & ZTA12-002 Corona, City of Corona--Riverside Annexation 114 is an application of the City of Corona to annex the unincorporated area of Temescal Valley in Riverside County into the city. The Temescal Valley SOI is 15.58 square miles and entirely covers the city's southern sphere of influence. If successfully annexed the city's incorporated limits at its southeast boundary would extend beyond Weirick Road to just south of Indian Truck Trail. The annexation would make the properties in the Temescal Valley SOI part of the City of Corona removing them from the unincorporated territory in Riverside County.	MND	01/04/2013

2012121017	Brookhurst Street Improvements Project from I-5 to SR 91 Anaheim, City of Anaheim--Orange Project would involve widening of Brookhurst Street from I-5 to SR-91 from a 4-lane facility to a 6-lane facility with bikeways, sidewalks, landscaped areas, privacy walls, and an improved drainage system.	MND	01/04/2013
2012122009	Fire Mountain Lodge Hydroelectric Project State Water Resources Control Board --Tehama The Fire Mountain Lodge Hydroelectric Project involves the proposed re-licensing of a small existing earth and concrete filled dam with modifications to the dam. The existing dam is regulated under the Federal Energy Regulatory Commission Minor License No. 1992. The power generated by the Project is used for commercial and residential purposes, solely for the owners of the Fire Mountain Lodge, a self-provider of electricity. The existing dam is eroding along the top of the dam and needs to be repaired. Construction on the existing dam would involve the dam repair, outfall repair, and installation of an open channel spillway. The applicant proposes to continue to operate the Project as it has historically been operated with the proposed modifications to repair the dam and stabilize the adjacent road.	MND	01/04/2013
2012121016	PLN120471 Monterey County Gonzales--Monterey Use Permit (pursuant to Section 21.30.050.E and 21.64.120) and Code Text Amendment to allow the installation of two (2) wind turbines and the construction of a gravel access road. Each turbine consists of a three-bladed wind turbine on a tubular steel tower with a height range of 327.5 to 396.5 feet maximum to the rotor tip. Each turbine would include a 16 foot diameter by 30 foot deep pier type foundation. The project is proposed to be constructed in two phases: Phase 1 is site preparation and foundation construction; Phase 2 involves the delivery and assembly of the tower, rotor, nacelle, transformer, and gravel access road of approximately 12 feet in width. The property is located adjacent to the City of Gonzales near Katherine Street and Puente Del Monte in the Vista de Santa Lucia Agricultural Business Park, Central Salinas Area Plan.	Neg	01/04/2013
2012122007	Boyd Road and Shirley Boulevard Annexations Arcata, City of Arcata--Humboldt Annexation of approximately 76.4 acres of unincorporated land (37 Assessors parcels) into the City of Arcata city limits in two proposed annexation areas along Boyd Road/West End Road and Shirley Boulevard. The parcels are currently within the City's Sphere of Influence (SOI), and are located outside of Coastal Zone. The project also includes rezoning. Those parcels in the Boyd Road/West End Road area will be rezoned Industrial Limited with Special Considerations - Industrial and Stream Protection (where applicable) Combining Zones (IL:SCI:SP). Those parcels in the Shirley Boulevard neighborhood will be rezoned Residential Very Low Density with Special Consideration - Residential (RVL:SCR). The project also includes installation of water and sewer lines and appurtenant structures along Boyd Road within the existing paved right of way.	Neg	01/04/2013

NOD	
2012091023	SR 168 Clear Recovery Zone Project Caltrans #9 Bishop--Inyo Caltrans proposes to remove fixed objects within the highway right-of-way (ROW) and obtain a minimum of 20' of Clear Recovery Zone on SR 168 between PM 14.69 to 14.99, near the intersection of SR 168 and Otey Road, Inyo County, CA. This project proposes to extend four culverts and construct new headwalls at both the inlets and outlets of all the culvert locations. Approximately 60' of inlet ditch and 80' of outlet ditch will be relocated to obtain the clear recovery zone. This project will remove 19 trees that are within the clear recovery zone. Clear water diversions will be required.	NOD	
2012102040	Twin Cities Road Widening Project Galt, City of Galt--Sacramento The proposed project consists of adding a westbound lane on Twin Cities Road from east of Fermoy Way to Bergeron Road resulting in two lanes in both the eastbound and westbound direction, as well as modifying the Twin Cities/Fermoy Way intersection, approaches and transitions. The approximate length of improvements, including turn pockets and tapers, is 1,800 feet. The existing drainage ditches along the northern boundary of the improvement area could be relocated and/or modified to be piped underground. A short row of trees exist along the northeastern boarder of the improvement area, which may be removed with implementation of the proposed project.	NOD	
2012112015	Nestldown Ranch Reception Facility Santa Clara County Los Gatos--Santa Clara The proposed project is to legalize an existing reception facility, Nestldown Ranch, through obtaining Use Permit, Architecture and Site Approval (ASA), Grading and tentative cancellation of the Land Conservation Contract 76.054 (Williamson Contract). Proposed site improvements for the reception use include installation parking areas, access driveways, building and legalizing various structures throughout the site. The project is also required to install fire hydrants as well as additional septic system and leachfield.	NOD	
2007082092	City of Galt General Plan Update 2030 Galt, City of Galt, Elk Grove, Lodi--Sacramento Revisions are proposed to the 2030 Galt General Plan Existing Conditions Report Table 9.1 which is listing of structures and features in Galt that were deemed to have local historic significance when the list was orginally compiled. However, several of the structures included on the original list are no longer in existence. Those vacant sites are consequently recommended for removal from the list because their historical significance was linked to the previous buildings.	NOE

2012038267	Sewer Pipeline Rehabilitation Phase T-1 San Diego, City of San Diego--San Diego The Project will allow the City of comply with the United States Environmental Protection Agency Final Consent Decree and improve the quality of sewer pipelines in the City by replacing and rehabilitating approximately 450 miles of sewer pipeline by June 2013. The Project will implement a pipeline rehabilitation program to meet the USEPA requirements in reducing sanitary sewer spills, groundwater infiltration and inflow, and maintenance costs, and extending the service life of aging sewer pipelines. To date, the City has rehabilitated approximately 50 miles of sewer pipeline of the remaining 150 miles of sewer pipeline using the cured-in-place or the Ribloc spiral liner trenchless pipeline repair methods; 2) rehabilitation 19 manholes; 3) replacing 13 manholes; 4) installing 43 new cleanouts; and 5) conducting internal and external point repairs of the pipeline.	NOE	
2012128059	Yerba Buena High School Building 500 Project - E-060-004 East Side Union High School District San Jose--Santa Clara Modernize the creating new building area in the existing Theater building to provide additional storage space, toilets and lobby.	NOE	
2012128060	Piedmont Hills School B4 Modernization, Classroom Replacement and Addition Project - E-045-003 East Side Union High School District San Jose--Santa Clara The modernization of a classroom in building B and creating and SDC classroom with life skills area. In addition, the project will replacement of six (6) portable classrooms with an eight (8) classroom permanent facility. An net increase of two classrooms.	NOE	
2012128061	Independence High School Bldg N Project - E-065-005 East Side Union High School District San Jose--Santa Clara Modernize two existing classroom buildings originally designed to serve ten (10) classrooms. The resulting project will have six (6) classrooms. No new building area being created.	NOE	
2012128063	Independence High School Bldg (Theater) Project - E-065-003 East Side Union High School District --Santa Clara Modernize existing Performing Arts facility with an increase in the building area backstage, for toilets, on the mezzanine and new elevator access.	NOE	
2012128064	Demolition of Blighted Structures on City of Galt-owned Properties and Construction of Public Parking Lot. Galt, City of Galt-- The project involves the demolition and removal of several blighted structures on the above noted neighboring properties. A small public parking lot (35 spaces) may eventually be constructed on the two parcels north of B Street plus the vacant parcel identified above. The structures slated for demolition include a dilapidated duplex, single family residence, small commercial building, and some minor appurtenant accessory structures. The two lots on the north side of B Street are 5,800 s.f. and the one on the south side is 3,300 s.f.	NOE

2007101081	Rancho Santa Fe Roundabouts Project San Diego County --San Diego The County proposes to construct roundabouts to replace existing stop sign controls at three Pasea Delciias Intersections (Via de la Valle/La Fremontia, El Montevideo/La Valle Plateada, and El Camino del Norte/Del Dios Highway). The proposed roundabouts would improve the operation of each of the project intersections. No changes to the posted speed limits or segment characteristics are proposed.	EIR	01/23/2013
2009071104	Runway Safety Area Improvements Monterey Peninsula Airport District Monterey--Monterey Monterey Peninsula Airport District is proposing safety-related improvements at both ends of Runway 10R-28 at Monterey Peninsula Airport in compliance with FAA safety regulations. Improvements include the construction of retaining walls to create level surfaces to accommodate the RSA, in conjunction with engineered materials arresting system (EMAS) beds. The relocation of existing vehicle service roads on the east and west ends of the runway is also included in the project. The east vehicle service road would connect directly with SR-68 due to terrain in the project area and would provide access to Tarp's Restaurant as a condition of a Caltrans Encroachment Permit. The proposed project has not changed since the previous EIR; rather, this EIR revises portions of the previous EIR found to be inadequate by the Monterey County Superior Court.	FIN

2012122017	Coastal Treatment Plant Sludge Equalization Basin Project South Orange County Wastewater Authority Laguna Niguel--Orange Note: Review per lead	MND	01/16/2013
	SOCWA proposes to construct a Sludge Equalization Basin (EQB) at the Coastal Treatment Plant (CTP) to extend sludge holding time and truck loading capability at the CTP by serving as the wet well for the new sludge export pump station and as emergency storage in the case of a pump or force main failure. The EQB is planned to be a circular reinforced concrete tank with a storage volume of 154,000 gallons. Associated facilities, including a masonry electrical building, sludge export pump, mixing/truck loading pump, and a ferric chloride pump, would be constructed.		
2012122018	Marysville Wastewater Treatment Compliance Marysville, City of Marysville--Yuba The objective of the Project is to enable compliance with the CVRWQCB's Cease and Desist Order, pursuant to the time schedule and milestones for compliance provided therein. Implementation of the Project would eliminate treated wastewater disposal operations within the City of Marysville's existing wastewater infiltration/evaporation ponds, and would thereby enable compliance with the Cease and Desist Order. The Project would also improve the level of wastewater treatment provided for the City of Marysville, in accordance with state and federal regulations.	MND	01/09/2013
2012092063	Use Permit Application No. PLN 2012-0007 - North Avenue Heinrich Huller Stanislaus County Modesto--Stanislaus Request to construct a new walnut huller/dryer building, warehouse and storage building, and shop in three phases on an 18.78 acre site. This is a current nut ranch facility/operation where the owner will hull/dry nuts harvested locally. The owner's current huller/dryer on Covert Road will not meet upcoming USDA requirements due to its age and, therefore, needs to be updated, but the current huller site is too small to meet new standards. Proposed hours of operation are seven days a week, from 6:00 am to 5:00 pm, during the walnut harvest season (approximately 40 days) from September through November.	Neg	01/08/2013

	signalized intersections at the Border Avenue and Chase Drive connections.		
2007062030	Salt River Ecosystem Restoration Project Humboldt County Ferndale--Humboldt The Project proposes a comprehensive ecosystem restoration project including 1) restore and maintain approximately 300 acres of agricultural lands at Reiverside Ranch to tidal marsh and riparian habitats; 2) restore and maintain approximately 7 miles of aggraded river channel with accompanying riparian habitats; and 3) implement a program of small-scale upslope restoration projects to reduce sedimentation and enhance habitats. The Project being considered by CSLC includes amendment to General lease - Public Agency Use for Phase II of the Salt River Restoration Project of State-owned lands over a 10-year term.	NOD	
2009022028	Solano State Route 12 Shoulder Widening and Clear Recover Zone Project Caltrans #4 Rio Vista--Solano Extend two culverts as part of a larger Caltrans project that will modify State Route 12 near Rio Vista, from west of Liberty Island Road to west of Currie Road, to improve safety. The existing concrete box culverts at Post Mile 21.13 and Post Mile 22.91 will be extended to accommodate the roadway widening. The extensions will require excavation of the creek bed to install the extensions flush with the existing culvert grades. No riparian trees will be removed to complete the proposed work. SAA #1600-2012-0213-3.	NOD	
2010052031	Main Street Landing Boat Dock Improvement Project Napa, City of Napa--Napa The project includes the construction and operation of a new recreational boat dock. The boat dock will be 226 ft. in length, 10 ft. in width, and a removable, floating kayak dock system 13 ft. in length will be attached. A gangway and ramp will also be constructed to connect the dock to the existing floodwall and will be 51 ft. in length. The gangway will be connected to a winch system that will enable the gangway to be adjusted based on the changing water level. Upstream of the new dock a debris barrier will be constructed to provide protection to the dock. The debris barrier will be combination of four 3 pile dolphin structures and a 24 inch foamfilled steel pipe (floating camel) system, approximately 130 ft. in length, angled to intercept and deflect debris into the main channel of the river where it will bypass the dock.	NOD	
2011061050	Devincenzo Tract Map and Conditional Use Permit San Luis Obispo County --San Luis Obispo The project consists of installing a 2 feet high by 5 feet wide concrete double barrel box culvert across an ephemeral drainage that flows into See Canyon Creek. The crossing will provide access to Lot 3 of the Vesting Tract Map TR 2638, submitted with the Notification. Approximately 155 cubic yards of fill will be installed over the culvert to establish final elevation of the driveway. Wing walls and abutments will be constructed of concrete and rock slope protection installed at the inlet and outlet of the culvert. Total project footprint within the drainage is approximately 50 feet wide by 55 feet in length. No work will be conducted when water is present in the channel, and no trees will be affected by the Project.	NOD

2012122020	Rumrill Park San Pablo, City of San Pablo--Contra Costa The purpose of the project is to construct an approximately 4.5-acre park on the west side of Rumrill Boulevard, between Market and Chesley Avenues in San Pablo. The project site is owned by the City of San Pablo and has been planned for park uses for many years. The project includes three youth soccer fields, a practice area west of Rumrill Boulevard (attached to the site), bathrooms, a small playground, picnic tables, barbeques, parking, lighting, bleachers, fencing, and landscaping. All necessary utilities would be extended onto the site, including water, sanitary sewer, and electricity. Remediation of existing hazardous materials on the site will be completed prior to development of the park.	Neg	01/11/2013
1996061024	James A. Musick Jail Expansion Orange County Irvine--Orange The proposed project consists of revisions to the already approved expansion and operation of the James A Musick Jail. The previously approved project (approved in 1996) includes an increase to a maximum of 7,584 inmates from the current population of approximately 1,250. The population of the 7,584 inmates represents a "worst case" scenario. Like the original project, the proposed expansion is anticipated to be phased over time with a variety of inmate population levels occurring over the project buildout, but with a different design and first phase. Related support structures will also be constructed.	NOD	
2003021100	Long-term Irrigated Lands Regulatory Program Regional Water Quality Control Board, Region 5 (Central Valley), Fresno Bakersfield, Fresno, Redding, Sacramento-- The project is the adoption of waste discharge requirements. The project establishes requirements to regulate discharges of waste from irrigated lands to surface water and groundwater to assure water quality standards are met. Irrigated lands are lands irrigated to produce crops or pasture for commercial purposes; nurseries; and privately and publicly managed wetlands that do not currently discharge under water discharge requirements, National Pollutant Discharge Elimination System (NPDES) permits, Municipal Separate Storm Sewer System permits, or other NDPES permits.	NOD	
2003101142	Dana Point Harbor Marina Improvement Project Orange County Dana Point--Orange The project includes replacement of waterside facilities in the West and East Basins in Dana Point Harbor, connection of dock gangways with the quay wall and bulkheads, and replacement of gangways and security gates to both marina areas. New Embarcadero/Dry Boat Storage Staging docks and dinghy docks, along with renovations to the marine services docks, OC Sailing and Events Center docks, guest slips, Harbor Patrol docks, commercial fishing and sport fishing docks are also included in the proposed project. Public access improvements (consistent with ADA requirements) to gangways and docks are also included.	NOD

	Project.		
2012128163	Introduction of Local Water into the California Aquaduct (Aquaduct) from West Kern Water District (WKWD) Water Resources, Department of --Kern WKWD, a member unit of KCWA, and KCWA will introduce local water into the Aquaduct at Mile Post 240.20, Reach 13B and take delivery of water from other turnouts within KCWA's service area during the years 2012-2035. This activity will enable water users within KCWA service area to better manage their respective groundwater and other water supplies in cooperation with other member units of KCWA.	NOE	
2012128164	Overland Stage Proboscidean PSJ083 Parks and Recreation, Department of --San Diego This project will perform excavation of a partial pelvis, partial femur, and possible tooth plus other skeletal elements of a proboscidean. The specimen will be excavated in detail. The excavation will require uncovering all bones associated with the bone layer to discover the outer limits of the skeletal remains prior to removing any of them from the site, mapping the physical position and orientation of all of the bones in place, stabilization with glue and consolidant, and preparation of the bones for removal using burlap and plaster of parts for protective field jackets to remove and transport each element safely to the District Stout Research Center laboratory. All sand matrix surrounding the bones will be sifted through screens to recover bone fragments and possibly fossils of other vertebrates.	NOE	
2012128165	Canyon Sin Nombre Mammoth Tusk Excavation PSJ057 Parks and Recreation, Department of --San Diego This project will perform minor excavation beneath and lateral to a mammoth or mastodon tusk after it is removed. Removal of the tusk using standard field paleontology methods should not disturb local sediments significantly. However, due to the importance of the site, the opportunity to explore the undisturbed sediments nearest the tusk will be undertaken. Because the tusk sits less than 1 meter below the top of a low ridge on flat lying (horizontal) sediments, proposed exploration of the site will include the removal of 3 to 4 cubic meters of unconsolidated fine sediments.	NOE	
2012128166	Merrill Hall Tree Removal Parks and Recreation, Department of --Monterey Remove one pine tree located next to Merrill Hass at Asilomar State Beach and Conference Grounds to reduce the damage to the cooper roof gutter caused from the tree. Work will cut the tree to ground level, grind stump in place to a depth of 6-8 inches and replace gutter with in kind materials.	NOE	
2012128167	Barbed Wire Fence Removal Parks and Recreation, Department of --Monterey Remove sections of barbed wire fencing throughout the park units of Monterey District to allow for the safe movement of wildlife. Work will document and record fencing sections by Natural and Cultural Resources staff; remove designated barbed wire by hand; and remove fence posts by loosening post, removing with post puller and filling holes with neighboring soil. All materials will be recycled.	NOE

Installation of up to seven "float-aside" seasonal water crossings or upland channel crossings, including abutments and armoring; 6. Installation of armored dip crossings along with two temporary seasonal wet crossings for construction purposes and three in-channel "Rosgen-venin" hydraulic features; 7. Installation of armored concrete dip and armored box culverts across overflow channel. 8. Installation of concrete, handicapped-accessible picnic tables and trash receptacles; 9. Creation of approximately 700-foot drainage swale that provides vegetative filtration of storm water; 10. Restoration of approximately 1 acre of floodplain by re-contouring flood constrictions, planting approximately 600 native plants and trees, and implementing erosion control measures; and 11. Development and installation of a bond acknowledgement sign, a trail and site identification map/sign, a chain-link fence along west side of Young property, and trailside interpretive signs and a trailhead drinking fountain. 		
2012082025	<p>West Contra Costa County Single-Use Carryout Bag Reduction Ordinance RecycleMore --Contra Costa</p> <p>To address the environmental impacts of implementing a proposed single-use carryout bag reduction ordinance in West Contra Costa County.</p> <p>For the purpose of this EIR, RecycleMore is the West Contra Costa Integrated Waste Management Authority (WCCIWMA).</p>	NOP	01/10/2013

	Street would be eliminated. This segment of Steuart Street would be narrowed, and the turnaround bulb at the southern terminus of Steuart Street would be eliminated.		
2012122024	<p>Brookfield School (P12-039) Sacramento, City of Sacramento--Sacramento</p> <p>The project proposes construction of a new Brookfield School at 6115 Riverside Boulevard and requests a special permit to locate a school in a residential district and a variance to reduce the street side setback. The subject property is a Multi-Family Zone (R-2B) which allows a school use with a special permit. The school's location would be central with respect to the attendance area and would be on a 5.13 acre infill site that provides existing infrastructure and access to transportation corridors. The new school will be a preschool to eighth grade program serving 402 students with 31 staff and is divided into a preschool program and K-8 program.</p>	Neg	01/11/2013
2003041057	<p>Sycamore Landfill Master Plan Expansion San Diego, City of San Diego--San Diego</p> <p>Rezone from Residential (RS-1-8) to Industrial (IH-2-1-) to permit the vertical and horizontal expansion of the existing 491-acre facility to allow for increased capacity and extended lifespan of the landfill. Approximately 150 acres of the site have been disturbed to date by prior and on-going landfill operations and excavation, part of approximately 380 acres approved for disturbance under existing permits, 324 acres of which are approved for waste disposal. The project would result in additional 83.8 acres of disturbance, and 28.6 acres of additional waste disposal area. Project improvements would take place on landfill property owned by the project applicant, located north of State Route 52 (SR-52) in the eastern portion of the City of San Diego (City), and north of Mast Boulevard in the City of Santee (Santee). The GPA and CPA would redesignate a net 21 acres of Open Space and 5 acres of Commercial Office to Industrial and/or Sanitary Landfill in the City's General Plan and East Elliot Community Plan, respectively. The project would rezone currently zoned Residential (RS-1-8) (despite having been a landfill since the 1960's) to Industrial (IH-2-1). The PDP/SDP would amend and supersede the existing PDP/SDP and previously granted Conditional Use Permit (CUP) under which the landfill currently operates. Formal vacation of several existing public road rights-of-way and public slope and utility easements crossings the landfill site also would be required. The project also would require relocating existing San Diego Gas and Electric (SDG&E) transmission lines that currently bisect the landfill to a location along the western and northern boundary. The existing utility easement that bisects the landfill would be abandoned once the relocation is complete. Approval of a consolidated parcel map is also part of the project, to ensure that no legal parcels within the landfill are left without legal access. A grant deed from the City would convey the entrance parcel containing the landfill access road to the project applicant pursuant to a three-party agreement entered into with Caltrans as part of the completion of SR-52.</p>	NOD

2012128173	Oak Valley Union School District Water Treatment System Oak Valley Union School District Tulare--Tulare Existing water system does not comply with the California maximum contaminant level for arsenic. Project includes construction of a 20 gallon per minute oxidation/filtration treatment system. Beneficiaries will be students, staff, and parents.	NOE	
2012128176	Nonresidential Building Energy Use Disclosure Program Regulations Energy Commission -- AB 531 and AB 1103, codified at Public Resources Code, section 25402.10, require the Energy Commission to regulate the benchmarking of nonresidential buildings and the disclosure of the resulting data to prospective buyers, lessees, and lenders. The regulations adopted today by the Energy Commission set a schedule for compliance, as well as make specific the requirements of the statute for owners to benchmark their building's energy use within the U.S. EPA's Energy Star Portfolio Manager program and to make the disclosures.	NOE	
2012128177	Repair Slip-outs and Slides -Due to Heavy Rain Caltrans #2 --Shasta Using only State funds, the California Department of Transportation, (Caltrans), will repair slip-outs and slides caused by heavy rain at several cut and one fill location on (SR) 299 near the Community of Montgomery Creek in Shasta County. Most of the work will require excavating the unstable materials and replacing it with large rock slope protection (RSP). The excavated spoils will be placed in an approved Caltrans disposal site. The purpose and need: The slippage at the fill embankment has compromised the structural section of roadway. The damage to cut embankments deposits material directly onto the highway. Both situations make travel unsafe. This project will remove loose, unconsolidated soils and replace them with stable, not-eroded material.	NOE

2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento The City Council of the City of Folsom (City) certified an environmental impact report (EIR) for the Folsom South of U.S. 50 Specific Plan Area Project on June 14, 2011 (SCH #2008092051). The project area is now known as the Folsom Plan Area (FPA). The EIR identified the water supply for the FPA as 8,000 acre-feet of Natomas Central Mutual Water Company's Central Valley Project contractual entitlement that would be assigned to the City. The Natomas water supply would have been diverted from the Sacramento River, conveyed through the existing Freeport Water Project facilities and a new pipeline to Folsom South Canal, where the water would have been rediverted by the City through a new pipeline to a new water treatment plant to be built in the FPA. Instead, the City proposes to use water supplies generated through a variety of conservation measures, including leak repairs and metering, to generate a water supply for the FPA by shifting existing surface water supplies used in the "East Area" of the City to the FPA and using conserved water in the East Area. A small amount of conserved water also would be used in the FPA. The new water supply for the FPA would be treated at the City's existing water treatment plant (WTP) and conveyed through a new transmission system from the WTP to IPA. The City has prepared an Addendum to the EIR in accordance with CEQA analyzing the potential incremental environmental impacts of the proposed water supply change to serve the FPA.	NOD	
2009021009	California Valley Solar Ranch & Twisselman Conditional Use Permits (DRC2008-00097, DRC2009-00004) San Luis Obispo County San Luis Obispo--San Luis Obispo This proposed Project involves construction two switching stations to connect two proposed solar projects to the existing Morro Bay to Midway transmission line in the Carrizo Plains, San Luis Obispo County, and replacing the conductor cables on that existing transmission line between the Carrizo Plains and the Midway Substation in Buttonwillow, Kern County. 2012121037	Hillside Estates Residential Subdivisions Project Taft, City of Taft--Kern The project consists of various components culminating in the phased construction of 394 detached single family residential homes on approximately 127 acres of land. Primary project components are: 1) the processing and approval by the City of Taft of Vesting Tentative Tract No. 7227 (Sandy Creek Estates) and Vesting Tentative Tract No. 7230 (Hillside Terrace Estates); 2) City of Taft approval and recordation of final maps for VTTMs Nos. 7227 and 7230, creating 2 subdivisions that provide 394 developable lots; 3) the phased construction of 394 detached single family residential homes in two separate subdivisions on approximately 127 acres of land; 4) the installation of an approximately one-quarter mile portion of the City of Taft's Rails to Trails pedestrian/bicycle pathway; 5) required installation of infrastructure and street improvements both on and off site.	MND	01/14/2013
2012122004	Klein and Burlarley Agricultural Preserve Alteration AP12-003 and Tentative Parcel Map 03T-116(4) Tuolumne County --Tuolumne Note: Revised & Extended per lead 1. Resolution for Agricultural Preserve Alteration AP12-003 to disestablish Agricultural Preserve No. 66. 2. Tentative Parcel Map 03T-116(4) to divide a 163.4 acre parcel into two parcels as follows: Parcel 1 - 40.0 acres, Parcel 2- 123.4 acres.	MND	01/30/2012
2012122029	Geary Road Improvements Project--Phase 3 Walnut Creek, City of Walnut Creek, Pleasant Hill--Contra Costa The Geary Road Improvements Project--Phase 3 is intended to improve vehicular, bicycle, and pedestrian circulation and safety. The project would include a continuous, dual left-turn center lane; an exclusive, continuous bike lane and continuous pedestrian sidewalk on both sides of the roadway; and landscaping along the entire length of the project area. Traffic signals at Pleasant Hill Road and Buena Vista Avenue would be modified, and street lighting would be upgraded. Drainage improvements would include replacement of a 72-inch-diameter corrugated metal drainage pipe under Geary Road with an underground concrete pipe, replacement of drainage ditches with an underground concrete drainage pipe, and construction of a series of bioretention planting areas and bioretention swales.	MND	01/14/2013
2006042009	Dutch Slough Tidal Marsh Restoration Project Water Resources, Department of Oakley--Contra Costa The Project would restore and enhance tidal marsh habitat within a 1,178-acre restoration area, most of which is currently irrigated pasture. Major components of the Project include restoration of tidal and non-tidal marsh habitats, tidal channels, riparian forest, subtidal open water habitat, and native grassland; enhancement of existing managed non-tidal marsh and irrigated pasture habitats, including habitat for California black rail (<i>Laterallus jamaicensis coturniculus</i>), giant garter snake (<i>Thamnopsis gigas</i>), and Swainson's hawk (<i>Buteo swainsoni</i>); protection of neighboring properties and existing infrastructure through construction and rehabilitation of flood protection levees; and development of public access infrastructure.
