STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

December 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

<u>Documents Received on Monday, December 02, 2013</u>			
2009074001	Soboba Band of Luiseno Indians Horseshoe Grande Fee-to-Trust Project Bureau of Indian Affairs San Jacinto--Riverside Note: Review per lead Proposed federal fee-to-trust action for 34 parcels, 534.91 acres. Proposed hotel (300-room)/gaming (730,000 sf) complex on 55 acres of the fee to trust property.	FIN	12/31/2013
2011101051	Collier Park Renovations Project La Mesa, City of La Mesa--San Diego NOTE: 1 CD The proposed project is organized into four areas: 1) Panhandle; 2) Spring House; 3) History Hill; and 4) Collier Club House. The improvements proposed are conceptual in nature, and detailed plans have not been finalized, except for the Panhandle area of the park. The EIR analysis will evaluate a worst-case scenario with respect to the impacts associated with the construction and operation of the proposed project.	FIN	
2012121011	First Inland Logistics Center II Moreno Valley, City of Moreno Valley--Riverside Final 1 CD The project comprises Plot Plan PA12-0023, which proposes to demolish and remove an existing truck trailer yard, grade an approximately 17.3-acre property, and construct and operate a 400,130 sf warehouse building.	FIN	
2013101052	Shelter Island Boatyard Crane Replacement and Pier Addition Project San Diego Unified Port District San Diego--San Diego Replacement of two existing gantry cranes (35 and 70 metric ton capacities) with new modernized gantry cranes with higher lift capacities (70 and 150 metric tons); and two new 90-foot long pier segments to accommodate the higher capacity 150 ton crane. Project involves up to 1,240 sf of new in-water piers, piles and docks and corresponding removal of up to 1,247 sf of existing piles and docks for net decrease of 7 sf overall. The site is documented as not having any eelgrass. Project also involves the removal of existing storage and maintenance sheds within the boatyard to accommodate the new pier construction and gantry crane approach area; replacement of existing concrete slab areas; and two areas of repair to the existing boatyard bulkhead/seawall. Construction is anticipated to begin in early 2014 for a period of up to six months.	FIN	
2012101075	Soda Mountain Solar Project San Bernardino County --San Bernardino Note: Review Per Lead The proposed Soda Mountain Solar Project would be located in an unincorporated area of northeast San Bernardino County ~6 miles southwest of the community of Baker. The project would consist of a 350 megawatt solar photovoltaic energy	JD	03/04/2013

	generating facility that includes an on-site substation, operations and maintenance buildings, access roads, realignment of an existing road, and water wells. All project structures and facilities would occupy ~2,700 acres of an ~4,400 acre right-of-way (ROW) on public lands managed by the Bureau of Land Management.		
2002021127	Marymount College Facilities Expansion Project Bachelor of Arts Degree Program and Athletic Field Alternatives Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles Note: Revised, Recirculated, Review per lead	MND	01/24/2014
	The proposed project involves a reconfiguration of an approved athletic field on the Marymount College campus, and amendments to certain conditions of the approved (2010) conditional use permit. The proposed project involves a revision to the originally-approved grading plan to allow export of 19,225 cubic yards of earth material; the project was originally approved as an on-site balanced grading project. Other changes include synthetic rather than natural turf; deletion of four tennis courts from the approved plan in favor of a larger soccer field; two additional events allowed (for three total), with amplified sound; and expansion of an existing detention basin located southeast of the field just north of Palos Verdes Drive East in order to accommodate runoff from the proposed athletic field.		
2013082087	Los Gatos Creek Bridge Replacement / South Terminal Phase III Project Peninsula Corridor Joint Powers Board San Jose--Santa Clara Note: Shorten Review	MND	12/23/2013
	The proposed project replaces the structurally deficient two-track railroad bridge that crosses Los Gatos Creek and provides a tail track south of San Jose Diridon Station in order to: (1) Ensure safe rail travel for Caltrain passengers and other users of the Los Gatos Creek railroad bridge; (2) Improve operations at the San Jose Diridon Station and provide an efficient way to trains to change directions; and, (3) Minimize system-wide delays by providing a temporary, emergency layover area. Existing rail services across the bridge will be maintained during construction. The new bridge will be wider than the original with the two new main tracks located in their same alignment and a west side expansion to accommodate the tail track required to improve operations at the Diridon Station.		
2013121001	IS Application No. 6748 (Xay Naphaivong) Fresno County Fresno--Fresno Allow a 35-foot tall ceremonial gate and a new 6.8-foot high fencing for an existing church facility on a 9.52-acre parcel in the AL-20 (Limited Agriculture, 20-acre minimum parcel size) Zone District. The project site is located on the west side of S. Fruit Avenue approximately 630 feet north of E. Annadale Avenue and 1,290 feet south of the City of Fresno (SUP. DIST.: 1) (APN: 328-050-17). 2013121003	Metro Billboard Reduction Agreement MC#13-00184 Santa Clarita, City of Santa Clarita--Los Angeles Refer to MND Rec'v on 12/16/2013 The applicant is requesting a Zone Amendment to the text of the Unified Development Code (UDC) and Municipal Code, a General Plan Amendment, Zone Change, and Development Agreement (DA) to allow the construction and operation of three digital billboards on three freeway-adjacent City-owned sites and the removal of all 62 existing outdoor advertising structures in the Metro Right-of-way (ROW) within the City. Each digital billboard to be a 14' x 48' sign face and 40'-50' distance of bottom of sign from ground.	MND	
2013121004	ENV-2012-3132-MND / 17714 W. Tramonto Drive Los Angeles, City of --Los Angeles A Coastal Development Permit for the addition of 1,785 sf to an existing 3,437 sf single family dwelling in the dual permit jurisdiction of the Coastal Zone in the R1-1 Zone.	MND	12/31/2013
2013121008	Rava Agricultural (Frost Protection) Reservoir San Luis Obispo County --San Luis Obispo The proposed project is a request by Chad Rava for a major grading permit to construct a frost protection reservoir with a maximum holding capacity of 8.5 acre-feet (2.77 million gallons) of water to support an existing 185-acre vineyard. The proposed project would result in approximately 1.4 acres (60,980 sf) of disturbance, including 8,388 cubic yards of cut and 4,451 cubic yards of fill, on a 195-acre parcel.	MND	12/31/2013
2013121009	Filipponi & Boneso Phased Vesting Tentative Tract Map (Tract 2992) / Conditional Use Permit (SUB2008-00019) San Luis Obispo County --San Luis Obispo Request by Douglas Filipponi & Steve Boneso for a Phased Vesting Tentative Tract Map (Tract 2992) and a concurrent phased Conditional Use Permit to allow for the subdivision and mixed-use development of three existing parcels (APN 040-370-001, 040-289-030, 040-331-020, and 040-371-070) and a remainder (Tract 2559), totaling approximately 15 acres, into 8 commercial lots, ranging in size from 0.98 acres to 3.53 acres, and 2 residential lots, of approximately 13,000 sf each. The project includes the development of the commercial lots with approximately 42,400 sf of commercial retail space, 62,700 sf of office space, and a 66,000 sf hotel (120 units). Each proposed residential lot would be developed with a single-family residence. The proposed project is within the Commercial Retail, Office Professional and Residential Single Family land use categories and is located at the northwest corner of Las Tablas Road and Bennett Way, in the community of Templeton. The project site is within the Salinas River planning area.	MND	12/31/2013
2013122004	Highway 116 Slope Stabilization Caltrans #6 Petaluma--Sonoma Major elements of the project include excavating the loose material on the hillside above the highway; protecting the soil surface from erosion by placing rock slope	MND	12/31/2013

	protection fabric; installing 6-inch perforated pipe at the base of a 1/2 ton of rock slope protection; filling voids with native topsoil; applying biodegradable erosion control; reseeding to restore the original naturalized slope; re-grading the roadside V- ditch below slope.		
2013122005	Blue Lake Roundstock LLC Dowell Mill Operation (312-161-020 & 313-231-001/2013) Blue Lake, City of Blue Lake--Humboldt Site Plan Approval application to allow Blue Lake Roundstock LLC to operate a dowel mill operation in the City's Business Park that will produce 3-7 inch diameter doweled wood products (e.g. fence posts, tree stakes, etc.). The proposed dowel mill operation will primarily involve the storing and processing of small diameter trees. Equipment that will be used for the operation includes two electric dowel mills, front-end log loaders, forklifts, and hauling trucks. At full production, the operation will have 8 employees on-site and it is proposed to operate year round. Hours of operation for the proposed project will be from 6 a.m. to 12 p.m., Monday - Friday. Maintenance and clean-up will occur on Saturdays and operations on Sundays and Holidays will only occur for emergency repair work.	MND	12/31/2013
2013121007	Temecula Valley Hospital Helistop Major Modification (PA13-0141) Temecula, City of Temecula--Riverside A Major Modification application for the Temecula Valley Hospital Development Plan and Helistop Conditional Use Permit in response to FAA and Caltrans Aeronautics Division regulations, safety factors, and recent residential development adjacent to the hospital site. The Major Modification would relocate the previously approved helistop on the developed site to two new locations including an interim location for use during Phase I and a final location on top of a future hospital tower when it is constructed during a later phase.	NOP	12/31/2013
2013112007	Rezone Application No. PLN2013-0092 - E & J Gallo Winery Stanislaus County Modesto--Stanislaus Request to amend the zoning designation of 4.59 acres from R-2 (Medium Density Residential) to M (Industrial). If approved, the rezoning would enable the applicant to construct parking lots in support of a new office building on the E & J Gallo Winery campus.	Neg	12/31/2013
2013121002	Garlic Company Processing Facility Land Application System Project Shafter, City of Shafter--Kern The Garlic Company in the City of Shafter is proposing a new process wastewater treatment system at 18602 Zerker Road which includes moving the land treatment of process wastewater from the existing facility to Garlic Company property (99-acre land application site) a mile south. The project requires a ten inch pipeline that will be installed in the right-of-way of Zerker Road (over the Friant-Kern Canal) from the Garlic Company facility to the northern Calloway Canal easement and then southeast, along and within the northern boundary of the Calloway Canal easement, to the 99 acre land application site. The pipeline will connect with a new 1.5 million gallon lined balancing reservoir on the 99 acre land application site.	Neg	12/31/2013

2013122002	Diestel Conditional Use Permit CUP12-007 Tuolumne County --Tuolumne CUP to allow the operation of a shooting range, along with the permanent use of a commercial coach for classroom purposes in association with the shooting range, on a 5.4 acre portion of a 644.7 acre property that is currently under Tuolumne County Williamson Act land conservation contract 04WA-078. The shooting range will be operated approximately 8 months out of the year in the fall, spring and early summer with an average of 4 days of classes per week. A maximum number of 25 students and instructors will be on the site at any one time.	Neg	12/31/2013
2013122003	Nevada City Boardwalk Nevada City Nevada City--Nevada Application by the City of Nevada City for final approval for placement of a public, modular and removable Boardwalk seating area, totaling 400 sf, located within three existing parking spaces on Commercial Street, specifically in between 309 and 313 Commercial Street, Nevada City. The Boardwalk is located in the downtown commercial area of Nevada City, within the "GB-HD" General Business-Historical District zoning district. The Boardwalk provides opportunities to alleviate congestion on the sidewalk, add seating areas to enhance the local businesses, and draw additional foot traffic to the City, thereby increasing the economic viability of the downtown commercial district. Because the Boardwalk is a removable and modular structure, it is subject to discontinuance and removal by the City Council at their discretion.	Neg	12/31/2013
2013122006	PLP12-0030 Sonoma County Santa Rosa--Sonoma Request on 5.99 acres for 1) A General Plan Amendment from the RR 5 acre density to the DA 10 acre density land use designation and 2) a corresponding zone change from the RR B6-5 acre density. SR, VOH to the DA B6-10 acre density SR, VOH or other appropriate district to allow for a wholesale plant/tree nursery.	Neg	12/31/2013
2008072096	North Bay Recycled Water Program Sonoma County Water Agency Napa, Novato, Sonoma--Napa, Marin, Sonoma The proposed project elements include minor changes in the location of the pump station and alignment of distribution facilities. The Imola Avenue booster pump station is proposed to be located south of Imola Avenue between Harding Street and Wilkins Avenue, on the northwest side of the California State Department of Mental Health, Napa State Hospital property. The booster pump station would consist of a single-story enclosed masonry structure with eight-inch thick concrete walls. The booster pump station would contain facilities, including pumps, tanks, electrical equipment, ventilation equipment, recycled water piping, and security chain-link fencing.	NOD	
2012072046	Phillips 66 Company (Formerly Conocophillips) Propane Recover Project Contra Costa County San Pablo--Contra Costa This is an approval of a Land Use Permit to implement and construct the Propane and Additional Butane Recovery Project, which proposes refinery processing equipment improvements to recover for sale additional amounts of propane and	NOD

	butane from refinery fuel gas (RFG) and other process streams; and to decrease sulfur dioxide (SO ₂) emissions from the refinery as a result of removing sulfur compounds from RFG streams. The proposed project would add and modify processing and ancillary equipment within the Phillips 66 Rodeo refinery in Contra Costa County.		
2013041022	Nimitz Marine Facility (MarFac) Berthing Wharf and Pier Replacement Project University of San Diego San Diego--San Diego The proposed project would replace the existing 18,250 square foot pier and 9,517 square foot wharf at Scripps Institution of Oceanography's Nimitz Marine Facility (MARFAC) in Point Loma, San Diego Bay with a facility of similar size/shape, as well as associated utility upgrades. The University approved MARFAC project design on September 17, 2013; the current action is the approval of execution of two ground leases associated with the project.	NOD	
2013041032	Duarte Station Specific Plan Duarte, City of Duarte--Los Angeles The City-initiated Duarte Station Specific Plan (Specific Plan) is intended to establish the general type, parameters, and character of the development in order to develop an integrated TOD that is also compatible with the surrounding area. The Master Land Use Plan provides flexibility for property owners to respond to market conditions and develop a mixed-use "transit village" that revitalizes the Plan Area through the provision of multiple land uses that complement one another. Land uses consist of residential, office, hotel, commercial/retail, and open space. For purposes of the environmental analysis, a development scenario that shows one potential implementation of the Master Land Use Plan has been identified.	NOD	
2013081017	Baker Cold Storage Facility Project Long Beach, Port of Long Beach--Los Angeles Baker Cold Storage, Inc., has proposed to construct and operate a roughly 250,000 sf cold storage facility at 1710 Pier B Street in the Port of Long Beach. The Proposed Project would receive, sort, store, and distribute perishable commodities such as produce (i.e., fruits, vegetables) and protein products (i.e., fish, poultry, and meat). The Proposed Project includes remediation activities under the jurisdiction of the DTSC.	NOD	
2013082031	Citywide Drainage Ditch Maintenance Project, Half Moon Bay Half Moon Bay, City of Half Moon Bay--San Mateo Drainage ditch maintenance program providing routine maintenance of citywide drainage features.	NOD	
2013101069	Low Water Crossing Replacement Projects: Fremont Street at Wilson Creek; and Pendleton Avenue at Oak Glen Yucaipa, City of Yucaipa--San Bernardino The City of Yucaipa proposes the construction of a bridge/box culvert at each crossing to allow the roadways to remain open during significant rain events (100-year storm event) and allow traffic to pass safely at all times.	NOD

2013121010	Conditional Use Permit Application No. C-13-157 Fresno, City of Fresno--Fresno The applicant proposes to install a transfer pumping station at the project site to connect the cities of Clovis and Fresno municipal water distribution systems. The pump station will include necessary piping, valving and controls, chlorination facilities, and site improvements. The proposed pump station facility will transfer water into the City of Fresno's municipal water distributing system.	CON	12/20/2013				
2013121011	John Wayne Airport New Jet Fuel Pipeline & Tank Farm Orange County Tustin, Irvine--Orange Wickland Pipelines LLC (Wickland), headquartered in Sacramento, CA, requests approval of Encroachment Permit application, CPP #2013-00087, to construct an approximately 5-mile long 12-inch CA Public Utilities Commission regulated common carrier jet fuel pipeline connecting the John Wayne Airport in Orange County, CA to an existing 16-inch products pipeline operated by Kinder Morgan Energy Partners (Kinder Morgan) located near the planned intersection of Tustin Ranch Road and Edinger Avenue in the City of Tustin. This project will provide airline companies (Airlines) operating at the Airport with an enhanced jet fuel storage and transportation system. The proposed John Wayne Airport New Jet Fuel Pipeline will increase airport-related jet fuel storage capabilities, while allowing Airlines to access jet fuel from all Long Beach area refineries and terminals without the need for highway truck transportation resulting in the elimination of 44 to 70 individual tanker truck trips per day. The proposed project includes two new on-site jet fuel storage tanks, as shown in Storage Tank Locations (Tank Farm) Exhibit in the MND. The two proposed tanks would each have a total shell capacity of 1,722,000 gallons (41,000 bbls) and a net operating capacity of 1,554,000 gallons (37,000 bbls).	Neg	01/02/2014

2008021047	<p>Opportunistic Beach Fill Program in the Cities of Encinitas, Solana Beach, Coronado, and Imperial Beach Solana Beach, City of Solana Beach--San Diego</p> <p>The proposed project involves beach replenishment at Fletcher Cove Beach in the city of Solana Beach. SANDAG data related to sand transport, nearshore resources, and project monitoring results were utilized to proactively design opportunistic projects that would be most environmentally sensitive, and not cause significant environmental impacts. The State Lands Commission action is a 5-year General Lease - Public Agency Use through October 15, 2018.</p>	NOD	
2012021035	<p>La Mesa Downtown Streetscape Enhancement Project La Mesa, City of La Mesa--San Diego</p> <p>The City of La Mesa is embarking on a streetscape improvement project to enhance the City's public right-of-way. The current streetscape improvements in the Downtown Village area date to the early 1980's. Sidewalks have deteriorated over the years and do not meet current accessibility standards. The project consists of modifications to streets, sidewalks, lighting and landscaping in the downtown area of La Mesa, commonly known as the La Mesa "Village".</p> <p>The City of La Mesa was incorporated in 1912, and some of the buildings in the Downtown Village along La Mesa Boulevard date from the late 1800s and early twentieth century. These structures are not proposed to be altered within the streetscape enhancement project area. The focus of the project is to upgrade street and sidewalk areas to improve public access and mobility to adjacent retail establishments. In addition to new curb, gutter, sidewalks, pedestrian ramps and crosswalk enhancements at intersections, the project will feature new landscaping and street lighting for good aesthetics and an improved pedestrian environment. Sidewalk bulb-outs are proposed in pedestrian-use areas and to reduce pedestrian exposure at intersection crossings at several intersections from Acacia Avenue to 4th Street along La Mesa Boulevard.</p>	NOD	
2012102002	<p>Camp Vernon Kilpatrick Replacement Project Los Angeles County Malibu--Los Angeles</p> <p>The existing Camp Kilpatrick accommodates up to 125 detainee occupants and is comprised of 44,878 square feet (sf) of buildings; 86,325 sf of outdoor facilities, surface parking (39 spaces); and hardscape and landscape. The County is proposing to demolish all existing structures and outdoor facilities at Camp Kilpatrick (with the exception of the swimming pool and kitchen/dining hall) and construct a replacement camp that would accommodate up to 120 detainee occupants and have approximately 47,000 sf of new buildings; 65,095 sf of outdoor facilities, surface parking (up to 180 spaces); and hardscape and landscape. The proposed structures and related facilities would be located generally in the same footprint as the existing Camp Kilpatrick facilities. The dining hall would repurpose through interior remodeling to manage food carts for the camp.</p>	NOD

2011111001	Village at Los Carneros Residential Project; 10-043-GPD et al Goleta, City of Goleta--Santa Barbara Note: Extended Review	EIR	02/03/2014
	The Village at Los Carneros includes 465 residences comprised of single-family homes, duplexes, triplexes, four-plexes, townhomes, condominium flats, and apartments. Seventy of the 465 residences would be affordable residential apartment units. The individual units in the triplexes and four-plexes are comprised of townhomes. Access would be provided at three locations: two new roadway connection to Los Carneros Road, one at the east boundary of the Project site via an extension of Calle Koral into the project site and one at the southwest boundary. The third access will be from the west side of the Project site via a new bridge over Tecolotito Creek and connecting to the existing Cortona Drive. The building areas would cover approximately 30.22 net acres of the site,

	inclusive of ancillary walkways, driveways, parking, and landscaping.		
2012121071	Esperanza Hills Specific Plan (PA120037/VTTM 17522) Orange County --Orange The project proposes to construct 340 single-family residential units in a gate-guarded community with low density residential and estate lots. The site is currently vacant except for three operation oil wells, water line transmission facilities, electric transmission lines and dirt access roads. Project components include 13.9 acres of active and passive parks, 7 miles of equestrian, pedestrian and bicycle trails. The Project will retain approximately 230 acres of open space including undisturbed open space and landscaping as part of a fuel modification plan. Residential, guest and emergency access will be provided via one of four access options. Water, sewer and drainage infrastructure will be built on the site and include two underground water reservoirs providing resident and fire-fighting water supply.	EIR	01/17/2014
2013122007	Sequoia Conference Facility Humboldt County Eureka--Humboldt Note: Review per lead HCOE proposes to construct the new single-story, 9,243 sf Sequoia Conference Facility with a capacity of up to 350 occupants to serve as training and meeting space for HCOE employees, teachers, and staff members. The Sequoia Conference Facility will include public restrooms, a serving and warming kitchen with a food service arrangement, a large meeting space (able to be made into two meeting rooms by means of an operable wall system), an entry/lobby area, an administrative office space/meeting room with a public reception counter, and a truck unloading berth. The new facility will replace the current 2,320 sf "Sequoia" conference area located in the southern portion of the Administration Building and will provide supplemental area and functionality. The current "Sequoia" conference area is no longer adequate to meet the training needs of the HCOE staff, teachers, and administrators, and will be repurposed to house nursing and nutritional programs currently operating in modular buildings on the Site.	MND	01/07/2014
2013124001	Wilton Rancheria Fee-to-Trust and Casino Project Bureau of Indian Affairs Galt--Sacramento Note: Review per lead The proposed action is the acquisition of ~282 acres of fee land in trust by the United States upon which the Wilton Rancheria (Tribe) would construct a gaming facility. 	8-foot tall chain link fence equipped with an access gate. The lease area will contain five equipment cabinets and one generator mounted on concrete pads. Three GPS antennas will be mounted on three of the equipment cabinets. The lease area will contain a 325-gallon propane tank. The WCF will be unmanned and operate 24 hours a day for 365 days per year.		
2013122070	Coastside Fishing Club Acclimation of Fall Run Chinook Salmon in Net Pens at Pillar Point Harbor (Phase 2) Fish & Wildlife (HQ) Environmental Services --San Mateo The project proposes to use Commercial Salmon Stamp money to acclimate Central Valley fall-run Chinook salmon in net pens in the outer harbor of Pillar Point Harbor from April through July of 2014 and 2015. The Chinook salmon will be acclimated for no more than 14 days and will be released into the Pacific Ocean. This project intends to enhance an existing ocean commercial and recreational salmon fishery.	Neg	01/02/2014
2012061057	Grand Park Specific Plan Ontario, City of Ontario--San Bernardino Note: Response to Comments The proposed project is the Grand Park Specific Plan for the development of a master planned residential community on approximately 320 gross acres of land. The Grand Park Specific Plan is divided into 10 planning areas and an approximately 130-net-acre Grand Park. Planning Area 10 includes a high school and Planning Area 9 includes an elementary school. The remaining planning areas contain a mix of low-density, medium-density and high-density residential development. Exhibit 4 of the IS shows the proposed land use plan. The Grand Park Specific Plan is comprised of 5 land use designations: 1) Residential: Low-Density (6-12 DU/AC Gross Max); 2) Residential: Medium Density (12-18 DU/AC Gross Max); 3) Residential: High Density (18-25 DU/AC Gross Max); 4) public schools; and 5) the Grand Park. The Specific Plan area anticipates the development of up to 1,327 residential units with trails and pocket parks, a high school, elementary school, and the Grand Park. It is also anticipated that Tentative Tract Map application(s), Development Agreement(s), and Williamson Act contract cancellation application(s) will be submitted in conjunction with the Specific Plan.	Oth	
2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer PG&E is proposing to construct a 30-inch diameter natural gas pipeline (Lines 406 & 407) and a new distribution feeder main from Esparto in Yolo County east, to a location near Roseville, in Placer County. The project would also include the construction of six above-ground facilities. The project EIR was certified by the Commission on November 16, 2009, and construction of the Project is still not complete. The current Commission action is an amendment of lease to extend the construction completion date from December 31, 2013, to December 31, 2017.	NOD

2008061045	Las Varas Ranch Project Santa Barbara County Santa Barbara--Santa Barbara Note: Recirculated Reconfiguration of nine existing parcels within 1,784 acres of Las Varas and Edwards Ranches through a combination of lot mergers, lot line adjustments, and subdivisions into seven new legal parcels ranging in size from 55 acres to 1,115 acres; identification of residential development envelopes within each proposed lot; dedication of two public trail easements; and construction of infrastructure including access roads and a shared water system to serve future development.	EIR	01/21/2014
2013042075	Chabot Dam Seismic Upgrade Project East Bay Municipal Utility District San Leandro, Oakland--Alameda Note: Extended per lead The proposed project involves improving the Chabot Dam embankment toe through conventional earthwork or cement deep soil mixing (CDSM). The outlet works would be improved by re-lining the vertical brick-lined shaft that connects the sluice gate control to the outlet pipes, moving the valves and controls from the existing tower to the vertical shaft, relining or installing new outlet pipes from the vertical shaft to the reservoir, filling the tower with low strength flowable fill, retrofitting the tower walls, and removing the pavilion. Excavated materials would be stockpiled at the Filter Pond Stockpile and/or Park Stockpile, which are located at the former filter ponds and Chabot Park, respectively. Two potential haul routes are proposed within the project site: Upper Haul Route and the Lower Haul Route. Following the Chabot Dam seismic upgrade activities, the footprint of the project area would be returned to existing conditions.	EIR	02/04/2014
2013121014	Groundwater Extraction Wells 94, 95 & 96 and Appurtenances Project Eastern Municipal Water District --Riverside EMWD intends to install three brackish groundwater extraction wells and approximately 6,000 lineal feet of brackish water pipelines. These facilities would provide feedwater to EMWD's desalters as part of its groundwater management plan. The groundwater management plan will generate additional potable water supply, remove total dissolved solids, total inorganic nitrogen and other contaminants from the groundwater basin and reduce brackish water migration.	MND	01/03/2014
2013121015	Sun Harvest Solar Merced County Dos Palos--Merced The proposed project is solar PV power generation system that would produce 1.5 megawatts (MW) of power. Nearly all of the proposed on-site project improvements consists of solar panel arrays, and related inverter and transformer equipment. These improvements would be constructed within a development area of about eight acres that straddle the eastern portion of two 20-acre parcels identified as APNs: 085-170-053 and -054. The remainder of the two parcels would remain in agricultural use. The associated switchgear equipment would be placed on approximately 400 sf of an adjacent third parcel (APN: 085-170-052) that is also about 20 acres in size. The remainder of this parcel would also continue to be used for agricultural production.	MND	01/03/2014

	40,000 sf of ground floor commercial retail space and up to a total of 30,000 sf of commercial space on the upper floors. The project also includes about 1.25 acres of public open space including a pedestrian promenade and a town square.		
2012112042	Railroad Avenue Stormwater Project Fairfield, City of Suisun City--Solano To construct a 30-inch diameter storm drain line in Railroad Avenue. The proposed project will discharge into an existing 84-inch pipe culvert that is part of the Laurel Creek Diversion Facility	NOD	
2013021043	Cave Landing Trail San Luis Obispo County --San Luis Obispo A request by the County of San Luis Obispo General Services Agency-Parks for the: 1) construction of a bike/pedestrian trail of approximately 1,800 linear feet long and approximately 12 feet wide. Approximately 800 feet of this proposed trail is located within the abandoned road segment of Cave Landing Road. This trail will be made of decomposed granite or similar permeable surface and will require removal of approximately 800 linear feet of existing abandoned road pavement. A 30 foot spend bridge will cross a natural drainage way; 2) formalization of the Pirates Cove parking lot by leveling, resurfacing with asphalt, landscaping, and providing 35 parking spaces; 3) installation of drainage improvements of vegetated bio-swales and two level spreaders in the parking lot area; 4) Improvement of the existing pedestrian trail from the parking lot to Pirates Cove beaching including: a four foot wide trail: additional water bars for drainage; stairs to the beach; and rails or fencing as necessary; 5) construction of accessory facilities including a waterless vault restroom, picnic tables, benches, garbage cans, and interpretive signs, and 6) regular maintenance of these facilities. This project will also require a variance of the Bluff Top Setback and Development on Slopes of 30 percent standards and a waiver of the fencing and screening standard for side and rear setbacks. This project will result in approximately 700 cubic yards of ground disturbance, on two parcels totaling approximately 53 acres.	NOD	
2013052032	Wastewater Treatment Plant Secondary and Tertiary Improvements Project Davis, City of Davis--Yolo To widen the Willow Slough Bypass levee from Road 105 to the eastern edge of the wastewater treatment plant; remove and replace existing gates and signs; construct a paved and gravel roadway; reconstruct paved driveways off the levee and construct two "spurs" which will connect to a non-jurisdictional berm extending around the plant.	NOD	
2013062018	Curtis Landing Fish Release Site Improvements Project Water Resources, Department of Rio Vista--Sacramento The project will include demolition of the existing fish release system; removal of wood piles within 100 feet upstream and downstream of the existing system; levee road modification; replacement of existing site entrance gate; installation of a reinforced concrete operation pad; replacement of the fish release system; and modifications to the existing associated lighting, electrical, and power systems. 	improvements consisting of a pedestrian ramp, landing, exterior stairs and exterior lighting. Improvements will not alter existing buildings on the site, and new buildings are not proposed. The church, rectory and cemetery are listed collectively on the CA Historical Resources as Landmark No. N1685. On the National Register of Historic Places, they are National Register No. 91000424.		
2013121023	Los Alamos Fire Operations Center Santa Barbara County --Santa Barbara To meet the fire protection needs of this area, the County is proposing to construct an approximate 23,815 sf Fire Operations Complex. The project would include replacement of the existing Fire Station 24 with an 11,104 SF Fire Station Facility on approximately 0.91 acres. In addition, the project includes construction of a new Construction Division Transport Garage and a Construction Division Building totaling 12,711 sf. These two new structures would be located on two adjacent parcels (totaling approximately 0.68 acres) that were purchased by the County. The Construction Division Building would provide working quarters for various sections within the Emergency Operations Division, including: 1) a 6,216 sf Transport Garage, warehouse/covered equipment maintenance facility; and 2) offices for the Construction Section (heavy Equipment) of the Fire Department. Located within the proposed new Fire Station 24 would be approximately 1,600 sf office and living quarters for the North County Battalion Chiefs.	MND	01/06/2014
2013122009	San Ramon Faria Preserve Community Project San Ramon, City of San Ramon--Contra Costa The project applicant, Lafferty Communities, is proposing an updated version of the Faria Preserve Community tentative map that was submitted in conjunction with the Northwest Specific Plan. The updated tentative map is a primarily residential development (referred to in this document as the "proposed project") consisting of 740 units, a 1.5-acre house of worship site, a 2.6-acre educational facility site, 12.9-acre community park, 0.7-acre rose garden, and new roadways and corresponding roadway connections within the City of San Ramon.	MND	01/06/2014
2013122010	San Jose State University Campus Village Phase 2 California State University Trustees San Jose--Santa Clara The project would involve the construction of a 186,000 gsf, 850 bed, 10-story, student housing facility that would be located in the southeast quadrant of the SJSU campus, at the intersection of Paseo de San Carlos and 9th Street. Two existing student housing facilities located 200 feet to the west of the proposed project site would be demolished and the net increase in student beds would be 450. Enrollment would not increase as a result of the proposed project.	MND	01/06/2014
2013122011	Hutt Minor Subdivision Humboldt County --Humboldt A Minor Subdivision of an approximately 19,650 sf parcel into two parcels of 7,641 sf and 9,113 sf (net). The parcel is currently developed with a single family residence which will remain on proposed Parcel 2. The parcels will be served with community water and sewer by the McKinleyville Community Services District.	MND	01/06/2014

2013122013	<p>Baylands Pump Station No. 2 Rehabilitation Project Sunnyvale, City of Sunnyvale--Santa Clara</p> <p>The project consists of a series of improvements to the Baylands Pump Station No. 2. The planned rehabilitated station will have a pumping capacity of 133.7 cubic feet per second versus the existing station design pumping capacity of 220 cfs. The City has determined that this excess capacity is not needed to meet the stormwater runoff requirements of northern Sunnyvale. Reducing the peak discharge rate of the station has additional benefits for Calabazas Creek. These include reduced impacts to the channel bank during station operation and reduced peak discharge to the creek which reduces impacts to the creek system.</p>	MND	01/06/2014
2013122014	<p>Bunker Hill Road Bridge Replacement Amador County Amador City--Amador</p> <p>Amador County proposed to replace the existing two-lane Bunker Hill Road Bridge (Bridge No. 26C-0043) (proposed project) in Amador County with a new two-lane bridge. The bridge crosses Rancheria Creek, a tributary of Dry Creek. The new bridge will be constructed adjacent to the western edge of the existing bridge. The span of the new bridge would be approximately 60 feet long (20 feet longer than the existing bridge), and 26 feet wide. The approach roadway would be realigned up to 270 feet on both sides of the bridge. The realigned roadway would accommodate two 11-foot-wide travel lanes and two 2-foot-wide shoulders.</p>	MND	01/06/2014
2013122015	<p>Colusa Bio-Energy Power Project Conditional Use Permit #10-11-1 and Solar Power Facility Colusa County Colusa--Colusa</p> <p>Colusa Bio Energy, LLC (applicant) is requesting approval of a CUP to construct a 30 MW (net) bio-energy power facility on approximately 25 acres. In addition to the bio-energy facility, the applicant will be proposing the construction of a 25 MW solar facility under a separate application. The solar facility will be located on approximately 127.5 acres, immediately adjacent to the bio-energy project site. For the purposes of CEQA, both the bio-energy facility and the solar facility projects are analyzed for potential environmental impacts in this IS/MND.</p>	MND	01/06/2014

NOE	
2013128175	Highway 36 PM 21.98 Debris Rack Installation Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The proposed project is located on the State Route 36 at post mile 21.98, in Humboldt County. A rock rack will be installed upstream of an existing culvert within an unnamed stream that carries significant volumes of rock that periodically plug the culvert. The rock rack will help catch this material before it enters and possibly obstructs the culvert flow path.	NOE	
2013128176	Meadow Lane Dam, Ponds C and D, No. 1050-3 Water Resources, Department of Santa Rosa--Sonoma The proposed work includes the construction of an upstream liner along the eastern embankment of Pond C, and a seepage cutoff wall and upstream liner along the southern embankment of Pond D.	NOE	
2013128177	Trail Maintenance: North Peak Trail---Devil's Elbow to Prospectors Gap Parks and Recreation, Department of --Contra Costa Perform trail maintenance on the North Peak Trail between Devil's Elbow to Prospector's Gap in Mount Diablo State Park to improve sustainability and restore fire damage.	NOE	
2013128178	Trails Area Project Parks and Recreation, Department of Hollister--San Benito Project activities will consist of the installation a rock armored outlet structure between the primary and the secondary basins, split rail fencing, a retaining wall and obstacle features consisting primarily of large logs and boulders. Trial obstacle features to be installed will act as drainage control features, creating vegetated islands via fencing, and installing rock armoring will help reduce overhead flows and minimize the erosion potential of incoming flows.	NOE

	<p>approximately 40 acres of a 77-acre parcel.</p> <p>2. A grading permit for grading and other earthwork associated with the proposed habitat creation.</p> <p>The project involves the creation of a wetland mitigation bank on a 77-acre parcel located adjacent to the Cosumnes River, just east of the Cosumnes River Preserve. The mitigation bank will be constructed on about 42 acres of the site, while the remainder of the site will remain in agricultural use as an Agricultural and Swainson's Hawk Conservation Easement. Construction of the mitigation bank is anticipated to occur in two phases: the first phase is expected to take place during the summer months of 2014 while the second phase will begin in the summer months of 2015. The first phase will involve the grading of the project site to create the necessary topography. The applicant plans to wait a year between phases in order to let the vegetation, seeded during the first phase, establish itself within the proposed bank. During the second phase, the levee along Irrigation Canal A will be breached in order to allow seasonal inundation of the site in support of wetland habitat.</p>

	treatment (design) capacity to 21 mgd. All improvements would occur at the existing plant site.		
2013122023	Parcel Map #12-01, Spanfelner and Sobek (Owners) Tehama County Corning, Tehama--Tehama Applicant is proposing to create five agricultural parcels: Parcel 1 263.12 acres, Parcel 2 220.99 acres, Parcel 3 of 392.48 acres, Parcel 4 157.95 acres and Parcel 5 396.15 acres, being a division of parcel seven of parcel map waiver #85-1. APN for proposed parcel 1 IS 061-080-14, Parcel 2 061-090-14 & 061-070-11, Parcel 3 061-100-14, Parcel 4 061-100-17, Parcel 5 061-100-05.	MND	01/09/2014
2013121031	Climate Action Plan Pismo Beach, City of Pismo Beach--San Luis Obispo The CAP is a policy document that sets forth policies and programs (referred to as "climate action measures") and implementation actions to help the City of Pismo Beach reduce its greenhouse gas emissions and prepare for the anticipated effects of climate change. CEQA requires the analysis of physical impacts on the environment. As such, the impact analysis focuses on adoption of the CAP and implementation of the climate action measures and actions and whether they would result in physical environmental impacts. Additional project description is provided in the draft Negative Declaration.	Neg	01/08/2014
2013122020	PA-1300201(SA) San Joaquin County Lodi--San Joaquin A Site Approval application for a small winery. The project consists of utilizing a 21,880 sf portion of an existing 25,145 sf fruit packing facility building for a winery. 4,880 sf to be used for winery production and wine tank storage. 17,000 sf to be used for barrel storage. No marketing events are proposed with this application.	Neg	01/08/2014
2013122022	2013-2021 Housing Element Sutter County Live Oak, Yuba City--Sutter The Sutter County 2013-2021 Draft Housing Element is an update of the 2008-2013 Housing Element that was adopted by the Sutter County Board of Supervisors in March 2011. The IS/Neg Dec tiers from the County's EIR prepared for the 2030 General Plan. The County's share of the 2013-2021 SACOG Regional Housing Needs Allocation (RHNA) is 335 units. In addition, the County must also roll over 54 lower income units of the assigned RHNA from the prior 2008-2013 Housing Elements planning period due to non-implementation of a Housing Element program within the necessary timeframe. As a result, unincorporated Sutter County's revised RHNA is 389 units. The update contains the goals, policies, and implementation programs Sutter County intends to implement during the 2013-2021 Housing Element eight-year planning period.	Neg	01/09/2014
2008032045	San Carlos Transit Village Project San Carlos, City of San Carlos--San Mateo A Planned Development (PD) to three separate interrelated projects: 1. San Carlos Transit Village Mixed-Use Project: located on the northern 6.26 acres of the Railroad Corridor, extending from northern boundary of Assessor's Parcel Number 050-055-020 on the north, to south of San Carlos Avenue, would include up to 265 multiple-family dwelling units and 28,979 square feet of	NOD

2013062066	Sacramento International Airport Land Use Compatibility Plan Sacramento Area Council of Governments Sacramento--Sacramento The Sacramento Area Council of Governments (SACOG) acting in its role as the airport land use commission (ALUC) for the counties of Sacramento, Sutter, Yolo, and Yuba has prepared an airport land use commission (ALUC) for the counties of Sacramento, Sutter, Yolo, and Yuba has prepared an airport land use compatibility plan (ALUCP) for Sacramento International Airport. The ALUCP, which has prepared pursuant to the requirements of the State Aeronautics Act, is a planning document intended to promote compatibility between Sacramento International Airport (SMF) and its surrounding environment, which it achieves through regulating the future development of residential and non-residential uses within SMF's Airport Influence Area (AIA).	NOD	
2013091060	Paramount Farms, International, LLC El Dorado Pistachio Plant Expansion Regional Water Quality Control Board, Region 5 (Central Valley) Coalinga--Fresno Paramount Farms International, LLC proposes to increase water use during hulling operations at its Pistachio Processing Plant at 39840 El Dorado Avenue near Coalinga in Fresno County. The increased water use will result in increased wastewater flows up to 1 million gallons per day (seasonal average), 2.5 mgd (maximum), and 42 million gallons (annually). Wastewater generated during the hulling operations will be reused as supplemental irrigation water on approximately 600 acres of pistachio trees. No increase in production capacity is proposed. The project will involve trenching for installation of a new irrigation line to transfer wastewater to the new land application areas where it will be tied into the existing irrigation system.	NOD	
2013101028	Draft Remedial Action Plan - Former Fresno 1 Manufactured Gas Plant Toxic Substances Control, Department of Fresno--Fresno The Dept. of Toxic Substances Control (DTSC) has approved a Remedial Action Plan (RAP) pursuant to regulatory authority granted under Chapter 6.8, Division 20, California Health and Safety Code (H&SC) on the PG&E Former Fresno-1 Manufactured Gas Plant (MGP) site located at 211 North Thorne Avenue, Fresno, CA in Fresno County. The RAP will address impacts to soils gases from previous operations on the Site. The remedial activities will involve excavation and disposal at an off-site permitted facility of ~37,400 cubic yards or ~1,400 truckloads (2,800 round trips) of contaminated soils that are highly impacted by polycyclic aromatic hydrocarbons (PAHs), benzene, arsenic, lead, and petroleum hydrocarbons. The remaining soil impacted areas will be capped and land use covenants will be placed upon them. Additionally, there will be ~the same amount of clean backfill imported from a local quarry located in Friant, CA that is ~22.8 miles southeast of the Site. The imported fill will be tested for contaminants in accordance with DTSCs October 2001 Imported Advisory on Clean Fill Material.	NOD

	In-river work includes construction of skeletal bars and island/island complexes as well as creation of wood and rock hydraulic features. The work at Bucktail and Lower Junction City is considered to be within the scope of the Master EIR for channel rehabilitation and sediment management for remaining phase 1 and phase 2 sites = SCH #2008032110.		
2008032062	Bay Delta Conservation Plan Water Resources, Department of Stockton--San Joaquin, Solano, Contra Costa, Yolo, Sacramento Note: Extended per lead	EIR	06/13/2014
	The Bay Delta Conservation Plan is a comprehensive conservation strategy to advance the planning goal of restoring ecological functions of the Sacramento-San Joaquin Delta and improving water supply reliability in the State of California. The CA Dept. of Water Resources and several state and federal water contractors are applying for certain permits under state and federal endangered species laws. DWR, acting as lead agency for compliance with the CEQA, and the U.S. Dept. of the Interior Bureau of Reclamation, the USFWS, the NMFS, acting as lead agencies for compliance with the NEPA, have prepared a joint draft EIR/EIS in compliance with CEQA and NEPA to analyze and disclose the potential environmental effects associated with the BDCP alternatives, proposed issuance of take permits, and to identify potentially feasible ways to avoid, minimize, or mitigate adverse effects.		
2013084005	Huckleberry Hill Waterline Restoration Project U.S. Army Monterey--Monterey NOTE: Final 1 CD	FIN	
	California American Water is proposing to implement pipeline repair and restoration activities in two areas affected by a water line break in and near the Huckleberry Hill Nature Preserve on the POM. The proposed action is needed to restore the affected areas to pre-erosion conditions and to protect the pipeline and other facilities in the general area from future water damage and erosion should another pipeline or tank leak. The proposed action consists of repairing a damaged water supply pipeline, backfilling three gullies created by erosion associated with the water leak, and restoring the affected areas with native plants. The largest gully is located just downhill of Water Tank Road on the Nature Preserve, and two smaller gullies are located on the POM property about 220 feet downhill and northeast of the large gully. General maintenance would control erosion.		
2012122037	Hazel Avenue Electrical Facilities Relocation and Expansion Project Sacramento Municipal Utility District --Sacramento	MND	01/13/2014
	The proposed project consists of dismantling an existing substation and construction a new, replacement substation, and altering the proposed alignment for the overhead 69,000-volt sub transmission line in order to accommodate the County of Sacramento's Hazel Avenue Widening Project. The existing Hazel-Timm substation at 4665 Hazel Avenue in the community of Fair Oaks, Sacramento County, CA, would be relocated approximately 600 feet to the north to 4733 and 4737 Hazel Avenue. The new, relocated and expanded substation would be called the Hazel-Sunset substation. In addition, as part of the relocation, the new substation location would include sufficient space to accommodate the

The project site is an approximately 4,500 net sf lot in the RD1.5-1 Zone.	MND	01/13/2014
2013121041	ENV-2013-2196-MND / 1118 W. White Knoll Drive Los Angeles, City of --Los Angeles Vesting Tentative Tract Map to allow 14 single family dwellings on an approximately 21,990 sf lot in the RD1.5-1 zone; and a related Zoning Administrator's Adjustments to allow a 0-foot front yard setback, 0-foot side yard setback, and 0-foot rear yard setback in lieu of the required 15-foot front yard setback, 5-foot side yard setback, and 15-foot rear yard setback; to allow 2-inch building separation in lieu of the 10-foot building separation required; to allow 0 sf of common open space in lieu of the 175 sf of open space per unit required; and to allow building heights of 43 feet in lieu of the maximum 36 feet allowed.	MND	01/13/2014
2013121042	ENV-2013-3267-MND Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project involves the demolition of an existing single family unit, and the construction, use and maintenance of four new for-sale single family houses on a 7,522.2 net sf which will be subdivided into four lots from a single lot in the Highland Park neighborhood of the City of Los Angeles. Each of the four new parcels will have a single family residence with a total sf of 1,618 to 1,625 sf and will be three stories and approximately 33.5 feet in height. Each unit will have two tandem parking spaces, one compact and one standard. The compact parking space will be within a garage. Vehicular access to each lot will be provided through private driveways off of Hough Street. There will be grading, but the cubic yardage has not yet been determined. The two existing trees on the site will be replaced with new landscaping.	MND	01/13/2014
2013121043	IS Application No. 6758 (Table Mountain Rancheria Band Indians) Fresno County --Fresno Allow expansion of an existing parking lot for a golf course clubhouse at Brighton Crest development on an approximately 1.09-acre portion of 180.6-acre property in the R-1-B (c) Zone District. The project is located approximately 900 feet to the south of the Millerton Road at the southeast corner of Brighton Crest Drive and Fairway Oaks Lane within the Brighton Crest residential development in Fresno County (21722 Fairway Oaks) (SUP. DIST.5) (APN: 300-420-33).	MND	01/13/2014

2008091156	Interstate 10/Jefferson Street Interchange Improvement Project Caltrans #8 Indio--Riverside Improvements to an existing interchange on I-10 at Jefferson Boulevard Avenue in the city of Indio.	NOD	
2009112073	Main Wastewater Treatment Plant (MWWTP) Land Use Master Plan East Bay Municipal Utility District --Alameda The EIR was prepared and certified in 2011 to serve as a high-level planning tool to guide development of the existing 48-acer MWWTP site and the newly-acquired, adjacent 15.9-acer West End property over a 30-year time horizon. The LUMP EIR identified two renewable energy projects for implementation in the near future-biodiesel production and food waste preprocessing - to help EBMUD meet sustainability goals by increasing on-site power generation. Both projects involves contracting with private companies under a land-lease agreement to construct and operate a facility at the MWWTP. The food waste preprocessing project has been modified as a scaled-down pilot project intended to evaluate the performance of equipment and procedures to preprocess organics-rich materials to determine necessary operations for full-scale food waste preprocessing.
