

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

December 1 – 15, 2014

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 – 15, 2014**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2013

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

Summary of CEQA Document Submittals by Year and by Type

| <u>Documents Received on Monday, December 01, 2014</u> | | | |
| 2014122004 | Use Permit Application No. PLN2014-0108 - Isabel Machado Dairy Stanislaus County Turlock--Stanislaus Request to add 760 milk/dry cows to an existing 650, and move 390 heifers off site, for a total of 1,410 milk/dry cows, no heifers, and 200 calves on an existing 138 acre dairy facility. | CON | 12/22/2014 |
| 2013022004 | Redwood Lodge Mill Valley, City of Mill Valley--Marin The proposed project site is located on the on the north side of Corte Madera Avenue, west of its intersection with Eldridge Avenue. The 2.57-acre site is one large unusual parcel with the frontage on both Corte Madera Avenue and Eldridge Avenue and is currently developed with 4 homes and various outbuildings. Arroyo Corte Madera del Presidio Creek runs through the entire site and has been contained in a concrete channel for over 75 years. Existing homes; Redwood Lodge and Eldridge House take access from Eldridge Avenue; existing Doll House and Nixie house take access from Corte Madera Avenue. The Project proposes to allow the subdivision of the 2.57-acre site into five parcels. The new property lines would create a parcel for each of the existing developed home sites. One new home site would be created where historically a private tennis court has existed. Each of the 4 lots with existing homes would be re-developed with a new single-family detached residence and a detached garage/accessory and the new tennis court lot would be developed with new dwelling unit and a detached garage/accessory unit. | EIR | 01/14/2015 |
| 2014051011 | Plot Plan No. 25183 and PM33691R1 (French Valley Airport Center) Riverside County Murrieta--Riverside The proposed project has been redesigned because the French Valley Airport Land Use Compatibility Plan has been revised due to the elimination of the second runway at this airport. There are two primary reasons for the request to consider a new the Plot Plan. First, the French Valley Airport Land Use Compatibility Plan has been revised due to the elimination of the second runway at this airport. The consequence of this change in the ALUCP is that additional property Compatibility Zones have been modified to allow development on Parcel 2. This area was not previously available for development. As a result Plot Plan 25183 is now proposing development on property that was not part of the previous entitlement or any previous CEQA documentation. The second reason for requesting the revised Plot Plan is to obtain modifications in the conditions of approval for the French Valley Airport Center project approved in 2008. This request seeks changes to conditions regarding offsite circulation system improvements. The developer seeks to pay in lieu fees for these improvements instead of construction specific improvements required in the original conditions of approval. | EIR | 01/14/2015 |

| 2014051091 | Comprehensive General Plan and Housing Element Update and Master EIR Barstow, City of Barstow--San Bernardino Comprehensive Update of the Barstow General Plan and a Master EIR. | EIR | 01/14/2015 |
| 2013111075 | Civic Center Wastewater Treatment Facility Project Malibu, City of Malibu--Los Angeles Note: FYI Final The City is proposing the Project in response to the prohibition imposed by the State Water Resources Control Board and Los Angeles Regional Water Quality Control Board in 2010 that prohibits discharges from onsite wastewater disposal systems (OWDSs, also known as onsite wastewater treatment systems, or OWTSSs) in the Civic Center area of the City of Malibu and a small portion of unincorporated Los Angeles County. | FIN | |
| 2014021028 | GPA-011-3031, ZC 011-3035, and Tentative Tract Map 011-3030 (TTM 36328) Project Murrieta, City of Murrieta--Riverside Subsequent to distribution of the original IS for The Park at Bear Creek Project, the applicant submitted a revised Tentative Tract Map. As a result, the City of Murrieta determined that the IS should be revised and recirculated for additional public review. The revised TTM 36328 does not alter the project development footprint (32.044-acre site), but it does make changes to the overall layout of the proposed residential subdivision. Bear Creek Partners, LLC (Project proponent) is proposing to implement a residential and open space development on an approximate 32.044-acre site (gross and net) located within the City of Murrieta, western Riverside County, CA. As presently proposed, the Project proponent has prepared three applications that allow development of the Project site: General Plan Amendment GPA-011-3031, Zone Change Z-011-3035, and Tentative Tract Map TTM-011-3030 (TTM 36328). General Plan Amendment GPA-011-3031 and Zone Change ZC-011-3035 proposed to change the General Plan and Zoning designation on the subject property from open space to residential designations: Single-Family Residential | MND | 12/30/2014 |
| 2014101068 | MUNEM MAIDA Convenience Store, Gas Station, and a Care-Taker Residence on .90 acre - Conditional Use Permit San Bernardino County --San Bernardino NOA for IS / Proposed MND for a CUP to establish a 6,793 sf convenience store, gas station, and a care-taker residence on 0.90 acre in the community of Erwin Lake/Big Bear Lake / Third Supervisorial District; APN: 0315-231-17 & 0315-085-28; Project No.: P201300086 | MND | 12/30/2014 |
| 2014121001 | Rock Springs Road Bridge Over Mojave River Project San Bernardino County Hesperia--San Bernardino County of San Bernardino, in cooperation with the Caltrans and City of Hesperia, proposes to widen Rock Springs Road from two to four lanes from 0.1 mile west of Glendale Avenue to 0.3 mile east of Deep Creek Road and to replace the existing two-lane low water crossing on Rock Springs Road over the Mojave River with a four-lane bridge structure over the river. Improvements are needed to provide | MND | 12/30/2014 |

| | year-round access, improve safety and operations and allow for appropriate tapers, merging lanes and advance signage. | | |
| 2014121003 | Torrance Regional Transit Center (RTC) project Torrance, City of Torrance--Los Angeles The RTC project consists of construction and operation of an approximately 17,800 sf regional transit center facility, of which approximately 3,100 sf would be allocated to ancillary transit oriented food and commercial services. The project also involves a conditional use permit for food and commercial services in the M-2 zone and the subdivision of two existing parcels into four parcels on an existing 15.06 acre site located in the M-2 Zone at the 465 Crenshaw Boulevard (APNs 7352-002-909 and 7352-002-910). A MND has been prepared pursuant to CEQA Guideline Section 15074. | MND | 12/30/2014 |
| 2014121006 | Sycamore Canyon Academy IS (Planning Application No. 14-0074) Wildomar, City of Wildomar--Riverside The proposed project comprises a public use permit (PUP) for the development of an approximately 28,000 sf K through 8 public charter school consisting of 22 classrooms arranged in four buildings, a flex-classroom building, and an administration building as well as patio space, parking lots, gardens, an amphitheater, and paved and turf play areas. In addition to the development of the campus, off-site street improvements include modifications made to the section of Palomar Street in front of the school. This section of Palomar Street will be constructed to a half-section width as an arterial road with a right of way of 128 feet between the project's northern boundary and extending 300 feet south of the southern boundary with a taper rate and design standards set by the City of Wildomar. A striped pocket with a minimum length of 100 feet extending from the school's driveway entrance will be created to allow for left turns into the project's access driveway. Signage will be provided along the Palomar Street frontage that states "no stopping" or "no loading" to discourage parents from using this roadway as a drop-off point. | MND | 12/30/2014 |
| 2014121002 | Downtown San Diego Mobility Plan San Diego, City of San Diego--San Diego The proposed Mobility Plan is a comprehensive update to the Transportation Chapter of the adopted 2006 Downtown San Diego Community Plan and would be consistent with the relevant policies from the 2008 City of San Diego General Plan. This planning effort was undertaken to build on the existing community plan policies, and to address the changing priorities and needs of the multi-modal network within the urban setting. The proposed plan is intended to improve connections and access for transit riders, bicyclists, and pedestrians, while maintaining roadway circulation for cars and commercial vehicles and increasing on-street parking where feasible. While existing in the Downtown, the rail facilities, which include the light rail trolley system and heavy rail corridors, are not included proposed for modifications as part of this planning effort in this plan. | NOP | 12/30/2014 |

| 2014121005 | General Plan 2035 Update for the City of San Juan Bautista San Juan Bautista, City of Hollister--San Benito The proposed project is the preparation of a comprehensive update of the City's 1998 General Plan. California law requires cities and counties to adopt a General Plan to guide future development. The General Plan is the foundation upon which all land use decisions are to be based. The Draft San Juan Bautista General Plan accommodates new housing and jobs in anticipation of population growth in the County and the region through the year 2035. | NOP | 12/30/2014 |
| 2014121004 | Negative Declaration per Safe Routes to School Plan and Program Cudahy, City of Cudahy--Los Angeles The City of Cudahy is continuing its efforts to improve the safety of students who walk or bicycle to all of its public schools through the creation of a citywide Safe Routes to School (SRTS) plan. The Plan is a guiding document for pedestrian and bicycle infrastructure, policies, and programs in and around schools in Cudahy. Through implementation of the Plan, the City aims to enhance the safety and comfort of residents when walking or bicycling to and from schools. The proposed project consists of a SRTS Plan/Program containing recommended engineering improvements to streets and intersections designed to improve pedestrian safety, reduce vehicular accidents, and reduce automobile dependence within the City. The recommendations are intended to increase pedestrian and bicycle usage and reduce vehicle trips. This will result in a reduction of carbon emissions. | Neg | 12/30/2014 |
| 2014122001 | Housing Element Update 2015-2022 Woodside, City of Woodside--San Mateo In accordance with State law, the Town of Woodside has updated the Housing Element for the 2015-2022 planning period. The proposed update would continue existing programs and add new programs to: a) Provide public information regarding housing opportunities; b) Encourage resident participation in County housing programs; c) Conserve and rehabilitate affordable housing units; d) Accommodate housing for special needs groups, such as disabled residents and the homeless; e) Assure consistency with State requirements for energy conservation, density bonuses, and manufactured housing; f) Coordinate Town housing programs with other local and State agencies; and g) Meet the Town's Regional Housing Needs Allocation (RHNA) for the planning period (2015-2022). | Neg | 12/30/2014 |
| 2014122002 | PA-1400190 Mountain House Text Amendment Application to Amend Section 9-830.5M(i)(3) Second Unit Dwell San Joaquin County --San Joaquin Mountain House Development Title Text Amendment application to amend Section 9-830.5M(i)(3) regarding second unit dwellings and allow for an attached second unit dwelling to extend beyond the front of the primary single-family dwelling in areas zoned R-L and R-M. | Neg | 12/30/2014 |
| 2014122003 | Vaca Valley Road Curve Improvement Project Solano County Vacaville--Solano The project will improve safety on the double curves on Vaca Valley Road by increasing the curve radius at each end of the esscurve. Approximately 0.18 acre | Neg | 12/30/2014 |

| | of right-of-way will need to be acquired for the road realignment. No roadside drainage work will be needed as the realignment will shift Vaca Valley Road into an adjacent orchard which sheet-flows away from the road. Some underground utility relocation will be necessary; however, no relocation of utility poles will be required. After realignment is completed, the new section will be striped and new advisory speed signs will be installed. | | |
| 2008052065 | Augustine Bowers Office Park Santa Clara, City of Santa Clara--Santa Clara The Santa Clara Square Office Phase I, the Retail Center, and Office Phase II and III proposal allow for development up to 2,000,100 square feet on 53.52 acres (October 2014 project). The applicant proposes to redistribute the 1,243,300 square feet (Office Phase II and III) into five office buildings, one amenity building and two parking garages. Actions considered included approval of Addendum to the previously certified EIR, General Plan Amendment, Rezoning, Vesting Tentative Parcel Map, Development Agreement Amendment and Ordinance, and Architectural Review. (APNs: 216-45-036, 037, 038, 006, 025, 024). | NOD | |
| 2013051044 | San Marcos K-8 School San Marcos Unified School District San Marcos--San Diego The District proposed minor changes to the project description in the Final EIR that involve reduction in the total developed acreage, shifting the location of the buildings, replacement of specific retaining walls with slopes, locating a secondary emergency access road and a service access road, providing right of way for a trail, widening eastbound Twin Oaks Valley Road for additional northbound left-turn lane and providing off-site brush management along Attebury Drive and has prepared an Addendum to the previously adopted Final EIR. | NOD | |
| 2014032030 | Florin Creek Multi-Use Basin Project Sacramento Area Flood Control Agency Sacramento--Sacramento The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0168-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, SAFCA. The project proposes to construct two multi-use detention basins to provide flood control for areas within the 100-year floodplain of Florin Creek and recreational benefits for the community. The project would store up to 32.5 acre-feet of Florin Creek flows and would provide at least 100-year flood protection to structures within the City and County of Sacramento in the vicinity and downstream of the project site by reducing flood risk. The basins would be up to eight feet deep and would be constructed with typical side slopes of 5:1. A weir would be constructed on the north bank of Florin Creek at Florin Creek Park to allow floodwaters to spill into the park at storm events exceeding a 25-year event, into the ponds and the southern basin. As flood events increase water surface elevations, water would flow over the weir into the southern basin then incrementally flow through the interconnecting 48-inch culvert to the second basin to the north until the capacity at both is reached in a 100-year flood event. As high flood flows in Florin Creek subside, detained water would flow back into Florin Creek either over the weir or through a 36-inch culvert located on the southwestern end of the park. A flap gate on the creek end of the culvert would prevent water in the creek from entering the basin. | NOD | |

| 2014081044 | Balboa Marina West Newport Beach, City of Newport Beach--Orange Note: Revised Determinations Negative Declaration 2013 002 analyzes a proposal by the Project Applicants to reconfigure the arrangement of uses on the Project site to establish a new public boat dock in an area of Newport Harbor, which currently lacks a public dock, and to improve the private Balboa Marina including its water-side and land-side areas. The new public boat dock would include a gangway and approximately 12 public boat slips including eight (8) new boat slips and four (4) boat slips that would be relocated to the public dock from the existing private Balboa Marina. In the private Balboa Marina, 24 private boat slips accommodating a range of vessel sizes and a new gangway are proposed to be added. In the land-side area of the marina, the Project proposes to demolish the existing Balboa Marina parking lot and a 1,200 SF building located at 201 East Coast Highway. In their place, and subject to additional review and approvals by the Planning Commission, a reconfigured parking lot and a maximum 19,400 SF marine commercial building with tuck-under parking could be constructed. The potential uses of the building analyzed in Negative Declaration 2013-002 include a restaurant with outdoor patio, marina restrooms, and an office to accommodate the yacht brokerage business displaced from the existing building that would be demolished. | NOD | |
| 2014082064 | PA-1400162 (SA) San Joaquin County --San Joaquin A Site Approval application of Fernand & Mary Ann Simoneau for a small winery. The winery includes the conversion of a 400 square foot portion of an existing 2,400 square foot agricultural building into a winery production area and construction of a 300 square foot crush pad. No marketing events are proposed with this application. The Property is zoned AL-10 (Limited Agriculture, 10-acre minimum) and the General Plan designation is A/L (Limited Agriculture). The project site is located on the south side of Stampede Road, 400 feet west of Clements Road, Clements. (APN/Address: 019-340-19/19330 E. Stampede Road, Clements) (Supervisory District 4). | NOD | |
| 2014091061 | Adelaida Winery / Conditional Use Permit / DRC2013-00049 / ED13-139 San Luis Obispo County Paso Robles--San Luis Obispo Request by Adelaida Cellars for a Conditional Use Permit to allow for the phased winery expansion and reconfiguration of existing winery uses onsite, to increase case production and limited special event program. The project is located on South of Adelaida Road, approximately 5.18 miles (west) of the community of Paso Robles, in the Adelaida planning area. | NOD | |
| 2014091070 | Phillips 66 5.6 Mile Pipeline, Minor Use Permit San Luis Obispo County Pismo Beach--San Luis Obispo Request by Phillips 66 Pipeline LLC for a Minor Use Permit to construct; operate; and, maintain a 3.9 mile segment of a proposed 5.6 mile oil pipeline and appurtenant facilities within County of San Luis Obispo. The remaining 1.7 miles of the proposed pipeline and appurtenant facilities would be located within the cities of Pismo Beach (0.8 miles), Grover Beach (0.5 miles) and Arroyo Grande (0.4 miles) and would require approval separate approval by the respective city. | NOD | |

| | <p>The hearing will also consider adoption of the Mitigated Negative Declaration prepared for the project, which analyzed the entirety of the project and is available online at: http://www.slocounty.ca.gov/planning/environmental/EnvironmentalNotices.htm.</p> <p>The proposed pipeline alignment would be located within/under existing roadway right-of-way. The project would transport crude oil from the existing Freeport McMoran Oil Field (Price Canyon/Arroyo Grande Oil Field) located at 1821 Price Canyon Road to its existing 12-inch pipeline located at the intersection of Oak Park Drive and Grande Avenue in the City of Arroyo Grande. The existing 12-inch pipeline located connects to the existing Santa Maria oil refinery at 2555 Willow Road on the Nipomo Mesa. The project also includes installation of above ground facilities at the existing Summit Station facility located at 1364 Dale Avenue, south of Arroyo Grande. In addition, the project would replace an existing P66 pipeline with Arroyo Grande Check.</p> | | |
| 2014129001 | <p>Streambed Alteration Agreement No. 1600-2014-0139-R2 "Alamo" THP. Forestry and Fire Protection, Department of --Calaveras</p> <p>The project is limited to the installation of three rocked fords (P4, P5, P6), three temporary Spittler crossings (P3, P10, P11), one in-channel waterhole (water drafting location #4), and two culvert removals followed by rocked ford installations (P2, P12). Further information can be found in the THP 4-14-011-CAL.</p> | NOD | |
| 2014128001 | <p>El Rio Retrofits for Groundwater Recharge Ventura County Watershed Protection District --</p> <p>The County of Ventura has proposed a project to retrofit existing County roads with stormwater infiltration systems to recharge groundwater Oxnard Plain Forebay Basin and improve surface water quality in downstream receiving waters. The project includes removing existing sidewalk, parkway and roadway hardscapes, and replacing this infrastructure with pervious concrete gutters within the existing developed roadway right-of-way. The project will infiltrate stormwater runoff for groundwater recharge and improve receiving water quality by removing bacteria, nitrogen, metals, and other urban pollutants typically present in the runoff from the existing urban impervious surface areas.</p> | NOE | |

| 2014128004 | Replacement of Standby Engine GGenerator Sets at 29 sites in San Joaquin Field Division of the State Water Project Water Resources, Department of Kettleman--Kings, Kern, San Luis Obispo Replace existing obsolete standby emergency engine-generator sets location at various California Aqueduct mechanically-controlled facilities within the San Joaquin Field Division with comparable modern equipment. Disassemble and remove seven diesel-powered engine generators sets and twenty-two Liquid Propane Gas (LPG) powered engine-generators, including fuel tanks and lines, power lines and conduits, switches, gauges, and other appurtenances needing replacement. The work will occur on existing protected project facilities within pumping plants, fenced exclosures, and pumping or control houses. | NOE | |
| 2014128005 | Sprint/Nextel Personal Communications System Lease Parks and Recreation, Department of --Orange Sprint/Nextel is requesting a lease agreement to replace the previous "temporary use permit" which has expired. This lease is for the purposes of maintaining an existign wireless communication site and associated facilities. | NOE | |
| 2014128006 | Road Rehabilitation - AC Overlay Caltrans #6 Woodlake--Tulare Rubberized Asphalt Concrete Overlay of 0.08' with 1' shoulder backing. No additional Right-of-Way required. | NOE | |
| 2014128007 | TAPS Storage Yard Replacement University of California, Riverside Riverside--Riverside The proposed project consists of utilizing a vacant parcel of land for temporary replacement storage space for Transportation and Parking Services (TAPS) field operations. The site will be fenced and screened to match the adjacent corporation yard fencing, with vehicle access for the southwest using an existing interior campus road. A gravel base will be placed in the area. | NOE | |
| 2014128008 | County Water Company (CWC) of Riverside Inclusion to Eastern Municipal Water District Sphere of Influence Eastern Municipal Water District Menifee, Wildomar--Riverside Eastern Municipal Water District (District) is actively pursuing the annexation of certain portions of the former County Water Company of Riverside (CWC). The Project includes the consolidation of the CWC into both the water systems of the District and EVMWD, for approximately 150 existing customers. The District will serve existing customers located in the eastern portion of the CWC system, while EVMWD will serve customers in the western portion. Each district would extend service lines from existing facilities to the CWC system and interconnect at various locations. CWC's existing well would be taken out of service and destroyed using the CDPH Well destruction standard. | NOE | |

| 2009061035 | Consideration of District Alternative Treatment Technology for the WRF: Membrane Bioreactor in place of Approved Oxidation Ditch Technology Hi-Desert Water District Yucca Valley--San Bernardino Note: Addendum The District has proposed constructing a wastewater treatment and reclamation facility (WRF) and sewer collection system known as the Wastewater Reclamation Facility Project (the "Project"). Following the District's adoption of a MND, the District proceeded with the detailed engineering needed to construct the Project. As the Project has progressed, more detailed engineering has identified an alternative wastewater treatment system for use at the WRF known as "Membrane Bioreactor (MBR)" treatment technology. The District originally proposed an Oxidation Ditch treatment process that requires the use of media filtration. The details of this system are provided in Addendum No. 2, but the District has concluded that a MBR treatment system, in place of the Oxidation Ditch followed by media filtration, would better meet the water quality objectives of the District. | ADM | 12/16/2014 |
| 2014121007 | Burhenn Major Grading Permit San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Tom and Peggy Burhenn to grade for a new 5,100 sf single-story single family residence with attached 528 sf two-car garage, a detached 528 sf two-car garage, new 1,176 sf workshop, and new driveway, which will result in the disturbance of approximately 1.8 acres, including approximately 1500 cubic yards of cut and 1500 cubic yards of fill, on a 49.55 acre parcel. The property is currently undeveloped. The proposed project is within the Agriculture land use category. The project is located on Alisos Road, approximately 1,900 feet north of the Alisos/Huasna Road intersection, approximately 2.3 miles east of the City of Arroyo Grande. The site is in the South County (San Luis Bay subarea) planning area. | MND | 12/31/2014 |

| | updated Housing Element include recommendations for creation of incentives to encourage development of a variety of housing types, allowing fee waivers for affordable rehabilitation, and consideration of residential and commercial in-lieu fees to contribute towards the supply of low- and moderate-income housing. Any future changes in regulations and development of housing will be subject to environmental review per the requirements of CEQA, and subject to public review and hearings prior to implementation. There are no major changes proposed to the goals and policies of the current 2009-2014 Housing Element. | | |
| 2008091085 | Water Reclamation Facility (WRF) #2 - Tertiary Filtration Project Corona, City of Corona--Riverside The State Water Resources Control Board (SWRCB) is a responsible agency for this project. The SWRCB's Safe Drinking Water Proposition 50 Program is providing state funds for the project. The City of Corona proposes to implement the El Sobrante Groundwater Treatment Project (Wells Plus Treatment) of the Programmatic Environmental Impact Report. The project will consist of drilling 2-wells, pre-filtration system, ion exchange treatment system, housing unit and appurtenant structures. | NOD | |
| 2011071049 | EIR MDH 08-11; Rising Tree Wind Energy Project by Rising Tree Wind Farm LLC Kern County Mojave--Kern The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Rising Tree Wind Farm III, LLC. The Project is limited to constructing seven road crossings as part of the road network for the Rising Tree Wind Farm. Five of the crossings will be constructed with culverts and two will be constructed as unpaved low-flow, or "Arizona" crossings. | NOD | |
| 2013082054 | Village at San Antonio Center - Phase 2 Mountain View, City of Mountain View--Santa Clara The Project would redevelop an approximately 9.9-acre site that is currently occupied by 59,655 square feet of commercial and retail buildings with associated parking. The Project would be developed with office, commercial, hotel, retail, cinema, and restaurant uses in a configuration of six distinct blocks. The Project includes one aboveground parking garage, one subterranean garage, and surface parking. The total amount of new and redeveloped uses would be approximately 1.2 million square feet. | NOD | |
| 2013091022 | EIR PFS 02-13; Addison Energy Wind Project by Addison Energy Resources, LLC Kern County Mojave--Kern The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Rising Tree Wind Farm III, LLC. The Project is limited to constructing seven road crossings as part of the road network for the Rising Tree Wind Farm. Five of the crossings will be constructed with culverts and two will be constructed as unpaved low-flow, or "Arizona" crossings. | NOD | |

| 2014128026 | Removal of Underground Storage Tanks (UST's) - 3J2904 Caltrans #4 -- Removal of leaking Underground Storage Tanks (UST's). Cleanup will include removal of gasoline contaminated soil that can cause impairment to health of life if leaked into the surrounding soil and groundwater. | NOE | |
| 2014128027 | 17th Annual San Diego Sheila Hardin Multi-Cultural Festival San Diego Unified Port District San Diego--San Diego The proposed project is the 17th Annual San Diego Sheila Hardin Multi-Cultural Festival, which will take place at Ruocco Park on January 17, 2015. The District will provide sponsorship in the form of District funding and services for the event, a multi-cultural festival. The event will feature the following activities: traditional heritage music and dancing, multi-cultural entertainment on a main stage, global and ethnic markets. local and regional vendors, children's area and activities, and multicultural story tellers. The event has an expected attendance of approximately 2,500 people. The event will require the use of 55 parking spaces at Ruocco Park on Jan. 17, 2015. Since the event is free and open to the public, and parking spaces will be reserved for a limited time period, the proposed project will not result in significant impacts related to public parking. Parking will be provided at the parking lot serving Ruocco Park and public parking areas located near Ruocco Park. | NOE | |
| 2014128028 | Open Bay Bass Tournament San Diego Unified Port District San Diego--San Diego The proposed project is the Open Bay Bass Tournament, which will take place at Shelter Island Park and San Diego Bay on Jan. 24, 2015. Set-up and tear down of the event will occur at Shelter Island Park on Jan. 23 and Jan. 24, 2015. The District will provide sponsorship in the form of District services for the event, a fishing tournament and festival. The event will involve approximately 150 two-man teams fishing in the San Diego Bay for approximately six hours than weighing in their fish. After the weigh-in, a barbecue will be held at Shelter Island Park, where various sponsors and vendors will have set up tables to showcase their products. The event has an expected attendance of over 750 people. The event will require the use of 10 metered parking spaces at Shelter Island Park on Jan. 23 and Jan. 24, 2015. Since the parking spaces will be reserved for a limited time period, the project will not result in significant impact related to public parking. Parking will be available at the public parking lots serving Shelter Island Park as well as public parking facilities located near Shelter Island Park. | NOE | |
| 2014128029 | Verizon Wireless Cellular Equipment Facility Co-location at Spanish Landing Park San Diego Unified Port District San Diego--San Diego The proposed project involves modifications to an existing AT&T wireless communications facility located at Spanish Landing Park in the City of San Diego. Verizon is proposing to install additional cellular equipment onto an existing 50-foot-tall AT&T monopine, construct a new equipment building adjacent to the existing restroom facility, and install ancillary equipment and utilities to operate the facility. The proposed project will not increase the height of AT&T's existing 50 foot tall monopine. | NOE | |

| | southeastern portion of the City of Hesperia. The proposed Project includes a Specific Plan Amendment (SPL13-00001), development agreement (DA13-00002), and three Tentative Tract Maps (City TT13-00001 [TTM 18955], TT14-00004 [TTM 18985] and TT14-00005 [TTM 18989]). The Specific Plan Amendment would amend the existing Rancho Las Flores Specific Plan (SP-89-01) to exclude the approximately 490-acre Las Flores Ranch, and allow the proposed development in lieu of the previously approved Rancho Las Flores Specific Plan. The Specific Plan sets forth the overall vision, objectives, land use plan, development standards, infrastructure and community services/facilities for the Tapestry Project (proposed Project). The Specific Plan also establishes design guidelines and the administrative and implementation framework needed for development of the Tapestry Project. The proposed Project is expected to be built out through 10 development phases, over the course of a number of years. A TTM for subdivision of single-family lots in Phase 1 is being concurrently processed with the Specific Plan (TTM 18955). Future Phases 2 through 10 would be required to submit similar TTMs at the time of proposed development. | | |
| 2013012079 | Peninsula Corridor Electrification Project Peninsula Corridor Joint Powers Board --San Francisco, San Mateo, Santa Clara The project is the electrification of the Caltrain Peninsula Corridor from its current northern terminus at 4th and King Streets in San Francisco to approximately 2 miles south of the Tamien Station in San Jose, a total distance of approximately 51 miles. The project location includes the entire JPB-owned ROW along this 51-mile segment, additional ROW for new facilities and operational requirements and for any construction or access areas located outside the ROW. This project does not include electrifying the corridor south of Tamien. The primary purposes of the Project are to provide electrical infrastructure that will be compatible with separate later use for blended service, improve train performance, and reduce long-term environmental impact by reducing noise, improving regional air quality and reducing greenhouse gas emissions. | FIN | |
| 2003012100 | Bella Tuscany Minor Land Division (PMLD 20140183) Placer County Auburn--Placer The applicant is requesting approval of a Minor Land Division to divide a 57.06-acre property into four parcels consisting of 15.77 acres, 12.59 acres, 10.14 acres and 18.56 acres. | MND | 01/02/2015 |

| | variance to the street setback on an approximately 12 acre site. | | |
| 2014121015 | Westgate Residential Project - Case No. 2014-69 Westminster, City of Westminster--Orange The proposed project involves a Tentative Tract Map (TTM) to allow for the assemblage and subsequent subdivision of five occupied parcels totaling 7.17 acres located at 14260, 14292, 14302, and 14362 Willow Lane and 6411 Maple Avenue into 15 numbered lots and one lettered lot. The existing on-site structures would be removed and the proposed development would consist of 79 new single-family detached cluster homes within a gated community with private streets and landscaping. The residential lots are variable in dimension by plan type, with a density of 13.10 units per acre. The development would require a zone change from R-1 and M-1 to R-3-PD to permit the proposed density of 13.10 units per acre. The project would also construct an on-site storm drain system that would convey water to the southeastern portion of the project site, into a new 36-inch storm drain that would be constructed in the right-of-way associated with Maple Avenue and into Industrial Way (to the south), where the new storm drain would then connect into the existing 64-inch storm drain pipe (point of connection) located in Edwards Street. The project site is listed on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5. | MND | 01/02/2015 |
| 2014122007 | Cedar Creek Arch Culvert Repair (01-0C370) Caltrans #1 --Mendocino This project will replace fish passage weirs in the bottom of a 730 foot long culvert. The weirs and concrete are deteriorating, threatening the structural integrity of the culvert. Vortex weirs will be installed through the culvert and downstream of the exit of the culvert. An existing access road will be cleared, re-graded and paved. The stream will be de-watered during construction. The project is expected to take two construction seasons to build. | MND | 01/02/2015 |
| 2014122008 | Squaw Valley Ranch Estates (PSUB 20130246) Placer County --Placer The project proposes a Rezone, General Plan Amendment, Vesting Tentative Parcel Map, and Design Review Agreement in order to create a total of four residential lots on a 3.9-acre lot. | MND | 01/02/2015 |
| 2014122009 | Sierra College Estates Subdivision Loomis, City of Loomis--Placer Placer Partners LLC is proposing a 7-lot subdivision of the 19.45 acre property (APN 030-100-017) located on the northwest corner of Bankhead Road and Sierra College Boulevard. The property is zoned Residential Estate with a minimum parcel size of 2.3 acres. In addition to the seven residential lots, the project includes Lot A (0.2 acre located along the west side of Bankhead Road) as a 30-foot-wide fee title dedication to the Town of Loomis. | MND | 01/02/2015 |
| 2014122010 | Wells Avenue Parcel Map Loomis, City of Loomis--Placer The proposed project would subdivide 21.7-acre APN 045-182-001, which is zoned Residential Agricultural, into four lots each with a minimum lot size of 4.6 net acres. Each parcel would have sewer and water available from existing lines | MND | 01/02/2015 |

| | on the Wells Avenue frontage. All lots would be accessed from Wells Avenue. Because of wetlands constraints, access to Parcel 3 would be from a dedicated ingress/egress and utility easement on Parcel 2. The proposed project would create four lots with a minimum lot size of 4.6 net acres. Roads and building pads would be constructed by lot purchasers. | | |
| 2014121014 | Breitburn Santa Fe Springs Blocks 400/700 Upgrade Project South Coast Air Quality Management District Santa Fe Springs--Los Angeles The proposed project would upgrade and augment the fluid (e.g., oil, gas, and water) handling systems at the Breitburn Santa Fe Springs Facilities within the Santa Fe Springs Oil Field. The existing systems used to handle produced fluids are currently operating near the maximum capacity. The proposed Project would provide additional capacity to accommodate existing well production capacity and potential increases in fluid production from future well drilling. The scope of the Project is divided into three components that are covered by three SCAQMD permit applications: 1) a new oil/water/gas processing plant in the 400 Block allowing the processing of up to an additional 4,000 barrels of oil per day, 196,000 barrels per day of produced water, and 2 million standard cubic feet per day of produced gas; 2) an upgrade to the existing truck loading system in the 700 Block to increase the volume of oil that could be transported from the site via trucks; and 3) replacement of the existing produced gas flare system in the 400 Block with a low-emission burner and addition of up to three other identical burners. | NOP | 01/02/2015 |
| 2014121025 | GPA 01123, Specific Plan No. 265, Amendment No. 1, CZ 07806, and Tentative Tract Map No. 36546 Riverside County Murrieta--Riverside The proposed Project includes a General Plan Amendment, a Specific Plan Amendment, a Change of Zone and a Tentative Tract Map. These applications are contained within the boundary of the original Specific Plan No. 265, as amended by the current Amendment No. 1 to the Specific Plan. The General Plan Amendment (GPA 01123), Specific Plan No. 265, Amendment No. 1, Change of Zone (CZ 07806) and Tentative Tract Map No. 36546 are described in detail. In addition to these land use entitlements, the County is also processing an application for Disestablishment of an Agricultural Preserve for Murrieta Hot Springs Ag Preserve #14 (AG01029). Collectively, these four applications comprise the "Project" entitlements as depicted in this project description. | NOP | 01/02/2015 |
| 2002071006 | Malibu Road Beach Accessway California State Coastal Conservancy Malibu--Los Angeles Coastal Development Permit No. 12-088, Variance No. 14-001, and Mitigated Negative Declaration No. 14-001 - an application to allow the Mountains Recreation and Conservation Authority to construct a public beach access staircase, public parking, and a visually permeable fence and gate, including a variance for construction on slopes in excess of 2.5 to 1. | NOD | |
| 2005101047 | Pipeline Maintenance Program EIR Santa Clara Valley Water District San Jose, Santa Clara, Morgan Hill, Hollister, Campbell--Santa Clara The project proposes to drain a treated water pipeline, and inspect and rehabilitate several appurtenances on the pipeline. | 2007022052 | Dam Maintenance Program (DMP) Santa Clara Valley Water District San Jose, Cupertino, Los Gatos, Morgan Hill--Santa Clara The project proposes to drill and sample ten soil and rock core borings, construct an open stand-pipe polyvinyl chloride piezometer in the spillway boring, perform downhole a caliper testing, conduct borehole geophysical logging, and vibracore sampling of reservoir sediments at Almaden Reservoir. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0378-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Katherine Oven, Santa Clara Valley Water District. | NOD | |
| 2010101082 | Ponte Vista Los Angeles, City of Los Angeles, City of--Los Angeles CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2014-0120-R5) to the project applicant, SFI Bridgeview LLC, as represented by Allen Barrett. The project proposes to impact 1.18 acres of streambed/lake, including 0.37 acre of permanent impact to willow riparian habitat and mitigate with 2.36 acres of creation, restoration and/or enhancement. | NOD | |
| 2011122037 | Voices College-Bound Language Academy at Hellyer Elementary School Franklin-McKinley School District San Jose--Santa Clara The Department of Toxic Substances Control (DTSC) has approved a Removal Action Workplan (RAW) for the proposed Voices College-Bound Language Academy (Voices Academy) property pursuant to Education Code section 17213.2 of the California Health & Safety Code. The RAW, which is incorporated by reference, consists of removal activities to address elevated levels of naturally occurring asbestos (NOA) in soil at the Site. The RAW evaluates removal action alternatives and identifies a preferred removal action to accommodate the planned classroom construction. The preferred removal action alternative includes excavation of 2,000 cubic yards (CY) of excess soils, off-Site disposal of this soil at an approved landfill, and import of 150 CY of clean fill material to cap exposed soils after construction. Classrooms and hardscape will serve as a cap for most of the Site. All of the samples were analyzed by transmitting electron microscope (TEM) methods. Chrysotile asbestos was detected using TEM at concentrations exceeding 0.01% (by weight percent) in greater than 25% of the samples which exceeds the Department of Toxic Substances Control's (DTSC) Schools Unit criteria thus requiring mitigation to prevent exposure to NOA. | NOD | |
| 2014091031 | East Ditch and Poso Canal Reservoirs Project Central California Irrigation District --Fresno The Proposed project will construct two regulating reservoirs with associated structures and pumps within CCID's service area that would capture operational spill and agricultural tail water. The reservoirs would provide storage and delivery flexibility to approximately 30,000 acres within the respective service areas. | NOD | |

| 2014102006 | <p>Monticello Water Main Replacement Project - Phase 2 Vallejo, City of Fairfield--Solano</p> <p>The project will replace the existing 24-inch water pipeline from State Route 12 to the Cordelia Reservoir Complex with a new 42-inch water pipeline in order to increase water capacity. Installation of the pipeline will require boring under Jamison Canyon Creek and open trench excavation through an intermittent stream. The project site extends south from State Route 12 (SR12;L Jameson Canyon Road) to the Cordelia Reservoir Complex in Cordelia, Solano County, California. Construction staging will occur at expanded corridor locations north of SR12, south of Jameson Canyon Creek, east of Interstate 80 and at the Cordelia Reservoir Complex. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0361-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Franz Nestlerode, City of Vallejo Water Division.</p> | NOD | |
| 2014128042 | <p>CA ARNG Recruiting Office Lease at 3745 West Shaw Avenue in Fresno California Military Department - Office of the Adjutant General Fresno--Fresno</p> <p>The California Miltary Department (CMD) proposes to lease a 1,224 square-foot (sf) office space which will accommodate approximately two six staff.</p> | NOE | |
| 2014128043 | <p>880 Harbor Island Drive Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Diego--San Diego</p> <p>The project entails construction of a single story restaurant on land, a floating restaurant/banquet venue on San Diego Bay, and 1,702 square feet of public walkway cantilevered over the water. The site will provide additional waterfront dining and banquet facilities on San Diego Bay.</p> | NOE | |
| 2014128044 | <p>Smith Private Boat Dock Project (Streambed Alteration Agreement No. 1600-2014-0244-R2) Fish & Wildlife #2 Sacramento--Sacramento</p> <p>The project is limited to the repair and replacement of an exisitng boat dock on the East Levee. The boat dock will be replaced wiht a new 18' x 34' long u-shaped boat dock, attached to three (3) pilings and a 70' gangway with floats, attached to two (2) pilings along the levee. The gangway will float 2+ feet above the high water level.</p> | NOE | |
| 2014128045 | <p>SAC 5 CHP Emergency Vehicle Pullouts and Turnarounds Caltrans #3 --Sacramento, San Joaquin</p> <p>Caltrans is proposing to construct median crossovers and CHP pullouts along Interstate 5 in Sacramento and San Joaquin counties. The purpose of the crossover would allow emergency vehicles to cross the median in inclement weather. Pullouts will provide an area for CHP patrol units to park away from traffic.</p> | NOE | |

| 2014081023 | Deer Creek Rock Surface Mining Permit and Reclamation Plan (PMR 14-002) Tulare County Porterville--Tulare The Applicant currently operates a rock and gravel surface mining operation on 28 acres, as permitted by PMR 01-001, PMR 09-002, and PSP 01-055 (ZA). The permit amendments requested by PMR 14-002 will: - Increase annual production from a maximum of 500,000, to a maximum 950,000 tons per year. - Increase truck hauling from a maximum of 200, to a maximum 350 round trips per day. - Result in no increase in the maximum depth of the mine as expansion will occur laterally. - Allow consistency between PMR 01-001 and PMR 09-002, and PSP 01-055 (ZA). There will be no lateral expansion of the existing approved mine footprint. The estimated total production is still 15,000,000 tons of rock material during the estimated 50-years of operation, and the disturbed Project site area is still proposed to be reclaimed for grazing and agriculture uses. | EIR | 01/20/2015 |
| 2014031051 | Olive Pit Mining and Reclamation Operations and Long Term Reuse Project Irwindale, City of Irwindale--Los Angeles The proposed project involves three components: 1) construction of a new on-site access road and relocation of the on-site access point; 2) phased extraction of mineral resources; and 3) site reclamation. The first operational phase will include extraction of aggregate from the eastern portion of the site, followed by reclamation of this area to create an approximately 32-acre pad suitable for future development. The second operational phase will include extracting aggregate from the remainder of the site utilizing both dry and underwater processes. Reclamation of this phase includes graded 2:1 side slopes, and potential use as an open space/stormwater management/groundwater recharge. | FIN | |
| 2014061010 | 3121 Old Topanga Canyon Road Residential Project Calabasas, City of Calabasas--Los Angeles NOTE: Final 1 HC The project would consist of the construction of one single-family detached residence on a vacant, disturbed parcel located in the City of Calabasas, CA, at 3121 Old Topanga Canyon Road. The project will also involve selected vegetation removal, minor grading, slope stabilization, landscape installation, hardscape installation or other site work necessary to complete the home construction. The project will also include any off-site work required to extend infrastructure, such as potable water lines and electricity, to the site, any cleaning and repair of in-place drainage facilities, and any paving or re-paving of either the private driveway or Old Topanga Canyon Road required to either ensure adequate access or to repair a public or private street following installation of project-associated infrastructure. | FIN | |

| 2014128064 | Yuba 49 Repair Embankment (03-3F700) Caltrans #3 --Yuba The project will repair an embankment at PM 6.1 and also repair pavement settlement at PM 6.3. The roadway at PM 6.1 has an embankment that has continued to erode over several rainy seasons. The roadway at PM 6.3 has developed road settlement over the past few years. | NOE | |
| 2014128065 | Yuba 70 Construct Drainage System (03-4F210) Caltrans #3 --Yuba The proposed project is located on State Route 70 in Yuba County from post miles 8.1/8.2. The purpose of this project is to prevent concentrated flow from running across the pavement. Caltrans proposes to install an 18" culvert and two drainage inlets so water can be collected before it flows across the road. | NOE | |
| 2014128066 | Wood Chip Mine Site Reclamation Project (SNC 809) Sierra Nevada Conservancy Nevada City--Nevada The Tahoe National Forest, Yuba River Ranger District is requesting \$176,853 in funding from the Sierra Nevada Conservancy's Proposition 84 Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act Grant Program to design and implement a pilot project envisioned to provide a method of abandoned mine lands remediation that can be replicated throughout the Sierra Nevada region. The proposed project would use wood chips generated from nearby fuel reduction activities as a soil amendment and soil stabilizer to accomplish mine site reclamation at two abandoned mine sites, Alpha Diggins Mine (Alpha) and Buckeye Mine (Buckeye). | NOE | |
| 2014128067 | Ventura Conservation Camp Chain Link Fence Forestry and Fire Protection, Department of --Ventura Project consists of installing approximately 1,200 linear feet of 6' high chain link fence with fabric. This fence is designed to function as a visual and noise barrier between Ventura Conservation Camp (CalFire) and Ventura Youth Correctional Facility (CDCR) located adjacently on the same State parcel. This barrier is necessary to minimize contact between inmates located at the two facilities. This new 6' fence will be installed approximately 10' on the CalFire side of the parallel to existing 16' fence that surrounds the CDCR facility. | NOE | |
| 2014128070 | Mono County Thermal Biomass Project (SNC 812) Sierra Nevada Conservancy --Mono Mono County is requesting \$215,000 in funding from the Sierra Nevada Conservancy's Proposition 84 Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act Grant Program to remove the existing propane boiler system at the County Road Shop and Parks/Facilities building and replace it with a new thermal biomass boiler system, along with a fuel storage building, in Bridgeport, Mono County, California. | NOE | |

| 2003011045 | River Ridge ASR Well Oxnard, City of Oxnard--Ventura Note: Addendum to EIR | ADM | |
| | <p>The project is the installation of an ASR well that will be constructed along with 3 nested monitoring wells to develop information that confirms historical data. The proposed location of the proposed ASR pilot well and the proposed monitoring wells will be located southeast of the Santa Clara River next to Ventura Road within the City of Oxnard. Figure A shows the proposed monitoring wells and pilot test ASR well to facilitate permitting of the GRRP and the Indirect Potable Reuse (IPR) project, and indicates the location of the subsurface profiles provided on the subsequent figures. The locations of the monitoring wells were designed to; a) be far enough apart to collect water levels that will define the site specific groundwater gradient, b) be close enough to comply with the new regulation monitoring well requirements for GRRP permitting including a travel time of greater than 2 weeks and less than 6 months, and c) utilize the City owned parcel (if possible). The location of the ASR well is central to the property boundaries and designed to allow other ASR wells to be constructed on the site with the intent of using the target aquifer zones that are discretely screened by the monitoring wells.</p> | | |
| 2014-03 | Berry Creek Rancheria of Maidu Indians of CA - APNs: 068-160-066, 068-341-030, 068-160-019, 088, & 068-341-017 Bureau of Indian Affairs --Butte | BIA | 01/06/2015 |
| | <p>The subject property consists of five parcels of land, encompassing ~56.79 acres more or less. The parcels are contiguous to current trust lands of the Berry Creek Rancheria.</p> <p>The purpose of the proposed action is to help address the Tribe's need for additional Tribal Housing, as well as for cultural and social preservation, expression and identity, and self-determination.</p> | | |
| 2013031019 | Crawford High School and Mann Middle School Athletic Facilities Upgrade and Modernization Project San Diego Unified School District San Diego--San Diego Note: Recirculated | EIR | 01/21/2015 |
| | <p>The modernization and athletic facilities improvements focus on student learning and instruction, student health, safety and security; accessibility and code compliance; as well as, major building systems repair and replacement. Improvements include renovating or repair classrooms, restrooms, emergency communications systems, food services, and security lighting. Site upgrades also include installing air conditioning in educational spaces, renovating turf fields, improving parking and pedestrian circulation. At Crawford HS, the improvements will also include a new visual and performing arts theatre, a new stadium, track and field replacement, and stadium lighting installations. Third parties may be able to use athletic facilities.</p> | | |

| 1991121051 | Amendment No. 1 to the Disney Studios Development Agreement Burbank, City of BURBANK--LOS ANGELES In 1992, the City of Burbank approved a Planned Development and Development Agreement related to the Walt Disney Studios Master Plan. The original Development Agreement became effective on November 24, 1992 and provided for a vesting period of 25 years. The proposed action considered in this SEIR is the extension of the term of the PD 91-13 Development Agreement for the Master Plan for a period of 18 years from 2017 to 2035. Approval of the proposed extension would provide additional time for The Walt Disney Company to complete the Proposed Project, and construct the remaining 681,632 Office Equivalency GSF that was approved in 1992. No changes to the type or amount of development allowed by PD 91-13 would occur under the time extension. | NOP | 01/06/2015 |
| 2014121022 | Brewer Site Project Chino, City of Chino--San Bernardino Approval of the proposed Project would reasonably result in the redevelopment of a +/- 33.5 acre property currently occupied by approximately eight large lot single family homes and undeveloped land/fallow agricultural lands as a residential community containing up to 232 single family homes and detached condominiums. Approvals requested from the City of Chino by the Project Applicant includes a General Plan Amendment (PL14-0388) and a Zone Change (PL14-0389). APNs: 1014-401-(010, 020, 030, 040, 050, 070); and 1014-581-(010, 020, 030, 040, 050) Schools: Marshall Elementary School, Ramona Junior High School, and Don Lugo High School. | NOP | 01/06/2015 |
| 2014122017 | Delta Research Station Water Resources, Department of Rio Vista, Stockton--Solano, San Joaquin The Delta Research Station (DRS) will be a science and research center in the Bay-Delta, which would consolidate a number of existing and new activities into two proposed facilities, the Estuarine Research Station and the Fish Technology Center, bringing together State and Federal agency staff working on similar Bay-Delta issues. The purpose of the DRS is to enhance interagency coordination and collaboration by developing a shared research facility. The DRS would advance the interests of researchers, local communities, and others that are dependent on the Bay-Delta. The DRS is needed because current State and Federal agency staff working on similar Bay-Delta issues are spread out in different locations, located in areas remote from the Bay-Delta, or have limited resources, inhibiting efficient research and monitoring efforts and collaboration. | NOP | 01/06/2015 |
| 2014122016 | 2015-2023 Housing Element for the City of Campbell Campbell, City of Campbell--Santa Clara The proposed Project consists of the adoption of the City of Campbell's 2015-2023 Housing Element, which constitutes an update to the 2007-2014 Housing Element. The purpose of the Housing Element update is to document the projected housing needs within the community and to set forth policies and administrative programs that promote the development of diverse housing types and ensures affordability of housing citywide. The 2015-2023 Housing Element includes the following: - Introduction (Section 1) - Housing Need Summary (Section 2) - Housing Resources (Section 3) | Neg | 01/06/2015 |

| 2004051039 | <p>Robertson Ranch Master Plan-EIR 03-03 Carlsbad, City of Carlsbad--San Diego</p> <p>The Applicant proposes to develop a planned community, which will include a variety of land uses, including residential, commercial, community facilities and open space. The proposed residential land use areas will include 672 dwelling units in five single-family residential neighborhoods and two multifamily neighborhoods. In addition to the residential component, the proposed Project provides an 11.5 net-acre Village Center which will accommodate commercial uses and a portion of the Project's 5.0-acre community facilities. The Project also provides a public park site on 13.9 acres and 1.0-net acre of centralized community recreation for the surrounding neighborhoods.</p> | NOD | |
| 2005072045 | <p>Meriam Park Chico, City of Chico--Butte</p> <p>This proposed project includes the construction of 2,300 dwelling units, 250,000 square feet of retail space, 485,000 square feet of commercial space and civic uses, the construction of 1 bridge and 2 outfall structures at the Little Chico Creek.</p> <p>The Project will result in permanent impacts to 0.46 acres of Butte County meadowfoam (<i>Limnanthes floccosa</i> ssp. <i>californica</i>) habitat; and permanently remove 0.76 acres of upland habitat, and 0.02 acres of aquatic habitat, and have temporary impacts to 0.42 acres of upland and 0.06 acres of aquatic habitat for Giant garter snake (<i>Thamnophis gigas</i>). The project is expected to result in incidental take of Butte County meadowfoam (<i>Limnanthes floccosa</i> ssp. <i>californica</i>) which is designated as an endangered species under the California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.</p> | NOD | |
| 2011031095 | <p>Amended Site Plan/Amended Conditions No. 2010-161; General Plan/Specific Plan/Zoning Amendment No. 2011-043 (Tenaya Lodge Facilities Upgrade Project) Mariposa County --Mariposa</p> <p>An 18-month time extension for the Tenaya Waste Water Treatment Plant Project. CEQA review was conducted and a mitigated negative declaration was adopted October 11, 2011 at the time of Mariposa County Board of Supervisors approval of General Plan/Specific Plan Zoning Amendment No. 2011-43 and Amended Site Plan/Conditions Application No. 2011-161, authorizing the Tenaya Waste Water Treatment Facility. On November 21, 2014 the Mariposa County Planning Commission adopted findings pursuant to Public Resources Code Section 21166 and Guidelines Section 15162, determining that no subsequent review was required to approve the above referenced time extension to implement the previously approved project and no other project changes were authorized or approved. The Notice of Determination filed as part of the original approval is attached and incorporated by this reference.</p> | NOD | |

| 2012042065 | Climate Action Plan (CAP) / Related Actions and Other General Plan Amendments Stockton, City of Stockton--San Joaquin The goal of the proposed Climate Action Plan and related plans/programs is to reduce greenhouse gas emissions to 10 percent below 2005 levels by the year 2020, as required by Assembly Bill 32, the Global Warming Solutions Act of 2006; and the 2008 Settlement Agreement between the City of Stockton, the Attorney General of California, and the Sierra Club. Location: City of Stockton. | NOD | |
| 2013062005 | Northwest Specific Plan Rohnert Park, City of Rohnert Park--Sonoma The proposed project consists of a Specific Plan that proposes a primarily mixed-use development with residential, regional commercial and industrial uses. The Specific Plan includes open space and park components as part of the Conceptual Land Use Plan. In addition to describing the proposed building form and development standards, the Specific Plan also contains goals, policies, and programs relating to land use and urban design; traffic circulation; utilities and public services; biological resources; and housing. The Specific Plan also contains recommended implementation strategy to guide the next steps. | NOD | |
| 2013112002 | Conservation Center for Wildlife Care Santa Clara County Saratoga--Santa Clara This application is for a Use Permit, with Architectural and Site Approval, and Grading to establish the wildlife refuge and rehabilitation facility (Conservation Center for Wildlife Care). Proposed building improvements include a public wildlife intake building, pond ecology station, wildlife medical facility and education building, imperil species breeding facility, two residences, and fifty wildlife enclosures with associated parking, access, and landscaping. | NOD | |
| 2014032081 | Inn at the Village Mammoth Lakes, City of Mammoth Lakes--Mono The project is a seven-story hotel that includes up to 67 hotel rooms, food, and beverage sales, spa, outdoor pool/jacuzzis, and landscaping elements. The hotel would total 64,750 gross square feet of buildable floor area and would be built on top of the existing 8050 parking structure. The project includes three amendments to the North Village Specific Plan (NVSP): (1) an increase in the allowable development density for the project site; (2) an increase in the allowable building height; and (3) a reduction in the required front yard setbacks along Minaret Road. The project would supersede the approved 8050C project and allow ownership structure flexibility [e.g., traditional hotel, condominium-hotel, etc.]. The project-level environmental analysis tiers off of the Final Environmental Impact Report North Village Specific Plan (dated February 1991) (1991 PEIR), North Village Specific Plan Environmental Impact Report Addendum (dated May 1994) (1994 PEIR Addendum), and Subsequent Program Environmental Impact Report for the North Village 1999 Specific Plan Amendment (dated October 13, 2000) (1999 SPEIR), with subsequent addenda. A Modified Initial Study was prepared | NOD | |

and circulated for a 30-day review period, from March 26, 2014 to April 24, 2014, with a scoping meeting on April 9, 2014. Based on the analysis in the Modified Initial Study and comment letters received in response to the Notice of Preparation (NOP), the Town determined that the project could result in new or more significant impacts related to: Land Use and Relevant Planning, Aesthetics/Light and Glare, Traffic/Circulation, Noise, Air Quality, Greenhouse Gas Emissions, and Utilities and Service Systems. These issues have been analyzed in the Draft SEIR, which concludes that with implementation of regulations and recommended mitigation measures (as applicable), there would be no new significant and unavoidable impacts resulting from the project. Further, the project site is not listed on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5.

| 2014062025 | <p>Redwood National Park Resort CDP-14-016/CDP-14-008/SP-14-022 Humboldt County --Humboldt</p> <p>A Coastal Development Permit, Conditional Use Permit and Special Permit for a 152 unit transient habitation facility (special occupancy park), to include: a campground, RV Park, Lodge (commercial center), and gas station. The special occupancy park will include 82 RV sites, 48 tent camping sites, 12 park model cabins, 10 cottages, 3 bathhouses, internal trails connecting to the existing Redwood Creek Levee Trail, an open playing field, and a commercial center constructed in a traditional lodge building style. The commercial center will include the resort activity center, administrative offices, a deli and convenience store/gift shop, a touring center, and gas station. An existing residence will remain and be used as a caretaker's residence and office space. A 2,076 square foot maintenance barn will be constructed to the north of the residence and will house the wastewater treatment system operations and maintenance area. The on-site sewage disposal system proposed is an Orenco Advantex Wastewater Treatment system suitable for processing approximately 19,500 gallons of waste per day. The primary leach field will be located near the existing house. Water will be provided by the Orick Community Services District. All utility lines will be underground. The resort will host up to 12 special events per year such as weddings, celebrations, family reunions, school/youth field trips, and small musical productions. Events will generate a maximum of 100 attendees who are not staying on site and may be held between the hours of 12 pm and 9 pm. A Special Permit is included to establish parking for a non-enumerated use. A maximum of 100 additional guests (those not staying overnight at the Resort) will be attending special events. To meet this demand 50 parking spaces are proposed in addition to those required by the other facilities (277 parking spaces). Wetland 1 located at the base of the Redwood Creek Levee is partially located within the Coastal Zone. This wetland will not be altered as a result of the project. Other non-coastal wetlands (2 through 5) on site are NWI wetlands and will be filled to facilitate the project. Wetland fill will be mitigated by wetland creation and enhancement, to be implemented at a 2:1 ratio on the coastal portion of the site adjacent to the existing wetland within the 100-foot wetland setback area. Proposed on-site signage will include up to three monument signs that will be backlit or illuminated with down-shielding lighting.</p> | NOD | |

| 2013072011 | Shoreline Development Project San Leandro, City of San Leandro--Alameda As a part of a public/private partnership, the City of San Leandro and Cal Coast Companies LLC propose to redevelop the 52-acre site land area (owned by the City) and 23-acre water area (owned by the City), which encompasses the San Leandro Marina and surrounding properties, with residential, commercial, and public recreational uses. Implementation of the Project would involve the removal of many of the structures on the site including the existing El Torito restaurant building, the Mulford Branch Library building, and the San Leandro Yacht Club building. For the purpose of the environmental analysis, it is being assumed that the harbor masters office, fuel pump/dock, and the 462 existing boat slips in the harbor basin would eventually be removed by the City at such time as safe and navigable boating operations cease to exist. Additionally, five of the tees/holes on the nine-hole Marina Golf Course would need to be reconfigured in order to accommodate the housing that is proposed to be built on the grounds of the course; however, no tees/holes would be removed as part of the Project. The existing Marina Inn building and the Horatio's restaurant building on the site would remain a part of the Project area. | EIR | 01/22/2015 | | | | |
| 2014072073 | State Route 120/McKinley Avenue Interchange Project Caltrans #10 Manteca--San Joaquin The proposed Project would construct a new interchange on SR 120 at McKinley Avenue and would include improvements to SR 120 and McKinley Avenue. The interchange would be a Type L-9 partial cloverleaf interchange that would provide | FIN | | | | | |

| | loop on-ramps in addition to four diamond-type entrance and exit ramps. SR 120 improvements include a 2,000 foot long axillary lane on the westbound side between Airport Way and McKinley Avenue as well as a 368-foot long deceleration lane in the eastbound direction. Improvements to McKinley Avenue include development of seven lanes passing under SR 120, a high-occupancy vehicle only right-turn lanes at the westbound ramps intersection, and a 10-foot wide Class I bike lane/pedestrian walkway on the east side of McKinley Avenue. | | |
| 2014121027 | Laguna Canyon Creek Erosion Control and Restoration Project Laguna Beach, City of Laguna Beach--Orange The City of Laguna Beach Public Works Department is proposing the project, in order to restore Laguna Canyon Creek's hydrological and biological functions, and values along the 270 lineal feet of creek on City property at 20612 Laguna Canyon Road. The project is specifically intended to limit erosion and increase channel capacity. The project proposes to remove accumulated sediment within the Laguna Canyon Creek channel and install articulating concrete block (ACB) (Armorflex) lining along channel banks and other improvements. The project's proposed improvements/modification include: ACB Armorflex lining along both channel banks immediately north of the existing vehicular access bridge for reinforcement and protection; relocation of the existing pedestrian bridge to the south, immediately adjacent to the existing vehicular access bridge; an approximately 10-foot long, poured-in-place concrete transition structure to the existing reinforced concrete boxes (RCB), underneath the relocated pedestrian bridge, to convey flows from the creek widening underneath the vehicular access bridge; an approximately 4.5-foot high concrete retaining wall along the western channel bank, adjacent to the parking lot; bio-engineered slope protection (riprap with cuttings and three bendway weirs) along the toe of the eastern slope, immediately west of the Mammal Center; stream bank recontouring with understory plantings on the west slope, south of the vehicular access bridge; and remove non-native plant species and replace with native species (i.e. herbaceous plants and larger canopy tree species) throughout to address erosion and habitat loss. | MND | 01/07/2015 |
| 2014121029 | Fresno Canal Bridge Replacement Project Fresno County Sanger--Fresno The proposed federally funded project consists of replacing the Fresno Canal Bridge. The existing two lane timber bridge would be replaced with a new two lane concrete bridge that meets current standards. The existing structure is in poor condition and should be replaced due to its age and hydraulic deficiencies. The County has prepared an Area of Potential Effects (APE) drawing which establishes the maximum extent of the project and potential bridge designs, channel work, access road realignments, approach work, as well as possible permanent and temporary right of way needs and the contractor's access way to the channel would be accomplished within the proposed APE. | MND | 01/07/2015 |
| 2014122018 | South of Highway 50 Backbone Infrastructure Project Folsom, City of Folsom--Sacramento The project site includes 3,513.4 acres south of Highway 50 (US 50), some improvements crossing US 50 near Prairie City Road and near East Bidwell Street, and some improvements north of US 50 and at the Folsom Water Treatment Plant. The project site south of US 50 is currently undeveloped and is covered by | MND | 01/08/2015 |

| | annual grasslands and oak woodland. The areas north of US 50 are currently developed with various uses, including industrial and commercial uses. The proposed project site south of US 50 currently contains zoning that allows for a variety of uses including residential, commercial, open space, park, and school land uses within the Folsom Plan Area Specific Plan. Similarly, the project site south of US 50 currently contains FPASP land use designations that allow for a variety of uses including residential, commercial, open space, park, and school land uses. The Folsom Water Treatment Plant is zoned Single Family Dwelling and designated Public. The areas crossing US 50 are zoned General Commercial and designated Regional Commercial and Industrial. | | |
| 2010091023 | Olanchal Cartago Four-Lane Caltrans #6 --Inyo The California Department of Transportation (caltrans) proposes to convert approximately 12.6 miles of the existing U.S. Highway 395 from a two-lane conventional highway into a four-lane expressway or partial conventional four-lane highway from post mile 29.2 to postmile 41.8 in Inyo County. Additionally, a route adoption is proposed for U.S. Highway 395 and State Route 190. | NOP | 01/07/2015 |
| 2013051094 | Monterey Peninsula Groundwater Replenishment (Pure Water Monterey) Project Monterey Regional Water Pollution Control Agency Seaside, Marina--Monterey The Pure Water Monterey Groundwater Replenishment Project would create a reliable source of water supply for northern Monterey County. The project would provide purified water for recharge of the Seaside Groundwater Basin, and recycled water to augment the existing Castroville Seawater Intrusion Project's agricultural irrigation supply. The project would be located within northern Monterey County, and would include new facilities located within the unincorporated areas of the Salinas Valley and the cities of Salinas, Marina, Monterey and Pacific Grove. | NOP | 01/07/2015 |
| 2014121026 | Robertson Lane Hotel Project West Hollywood, City of West Hollywood--Los Angeles NOTE: Review Extended The project would involve construction and operation of an approximately 509,000 sf building (including parking areas). Without parking areas, the proposed building would occupy approximately 252,700 gsf, consisting of a hotel and commercial uses that would be bisected by a pedestrian walkway extending across the site from North Robertson Boulevard to North La Peer Drive. Construction would involve demolition of three existing one- to two-story commercial buildings on the site. The proposed building would include space for restaurants, retail stores, a design showroom, and a 251-room hotel with associated amenities. The proposed building would be approximately 46 feet in height along its North Robertson Boulevard frontage and 103 feet in height along its North La Peer Drive frontage. | NOP | 01/23/2015 |

| | <p>segments of the community. The Housing Element is one of the 7 state mandated elements of the local general plan and is required to be updated every 8 years per Section 6588(a) of the California Government Code. The updated Housing Element is a policy document. It implements the different types of single-family, multi-family and mixed use developments that are envisioned by the Land Use Element. As such, the updated Housing Element would not result in any additional physical environmental impacts, beyond those evaluated as part of the review of the Land Use Element.</p> | | |
| 2002101015 | <p>Buena Vista Creek Channel Maintenance Project Carlsbad, City of Carlsbad--San Diego CDFW is intending to execute a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2013-0135-R5) to the project applicant, the City of Carlsbad. The project will routinely impact freshwater marsh as well as the understory of southern willow scrub during a 5-year vegetation maintenance cycle within a 5.08-acre maintenance area that currently supports 3.67 acres of freshwater marsh, 1.28 acres of southern willow scrub, and 0.13 acre of open water. Non-native vegetation will be removed wherever it appears throughout the larger 11.2-acre study area.</p> | NOD | |
| 2009011067 | <p>Vector Habitat Remediation Program San Diego County --San Diego CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2014-0124-R5) to the project applicant, City of San Diego Park & Recreation Department. The Project consists of design and implementation of a drainage improvement that would eliminate mosquito breeding habitat by removing a scour pond, sediment, and non-native vegetation in order to restore native wetland habitat and allow free-flowing drainage. Project activities include installation of grouted rip rap and gabions at the mouth of an existing storm drain outfall; modification of the channel flow line to a more uniform grade from the outfall to a location approximately 100 feet downstream; and removal of invasive trees, such as eucalyptus, that fall and restrict flow. In order to provide mitigation for the energy dissipation structure, removal of invasive plant species and planting of native vegetation will be performed extending downstream of the grading activities by approximately 150 feet.</p> | NOD | |
| 2009112000 | <p>Lake Herman Quarry Expansion Solano County Vallejo--Solano Continue to allow surface mining and reclamation activities for aggregate processing, aggregate product manufacturing, and aggregate/aggregate product sales at the existing Lake Herman Quarry for 35 years commencing at issuance of new Use Permit and approval of the Mining & Reclamation Plan: expand the quarry pit from 113 acres to 211 acres; revise the hours of operation; and increase depth of existing quarry from 200 mean sea level (msl) to 0 msl.</p> | NOD | |

| 2014121032 | <p>Juniper Flats Decantling Facility Riverside County Transportation Commission --Riverside</p> <p>Construction of two decanting concrete features (750 sf and an adjacent 150-sf infiltration trench). The concrete pad will be constructed of reinforced concrete and will slope (at 2%) toward the filtration trench. Decanted storm drain waste liquid will drain down the sloped concrete pad, pass through the K-rail scupper drains, and enter the infiltration trench. The solids will remain on the concrete pad to dry, while the liquid will drain into an adjacent infiltration trench. It is anticipated that the solid material will remain on the concrete pad(s) from two to three day, after which it will be transported to Lamb Canyon Sanitary Landfill for disposal. The proposed decanting features will not increase the amount of material collected or frequency of collection.</p> | MND | 01/08/2015 |
| 2014121033 | <p>BAE Soil and Groundwater Remediation Project San Benito County --San Benito</p> <p>The primary objective of this remediation project is to reduce perchlorate- and energetic-concentrations in the soil and groundwater to below the target levels, as agreed upon by the Regional Water Quality Control Board. Phase 1 of the proposed project would include excavation of approximately 1,400 cubic yards (CY) of impacted soils. As part of Phase 1, an existing dirt road would be widened to allow passage of heavy equipment. It is anticipated that Phase 1 would be completed by Summer 2015. Future phases would excavate up to 2,000 CY of impacted soils per year. The future phases would continue from 2016 through 2020. The project also includes groundwater remediation.</p> | MND | 01/08/2015 |
| 2014121034 | <p>Waterman Logistics Center San Bernardino, City of San Bernardino--San Bernardino</p> <p>The proposed project comprises a General Plan Amendment (GPA14-08), Zoning Map Amendment (ZMA14-16), Tentative Parcel Map (SUB14-11), and Development Permit (DP-D14-05). GPA 14-08 and ZMA14-16 would modify underlying land use and zoning designations for subject property to allow industrial warehouse uses. SUB14-11 would consolidate the nine parcels that comprise the 19.65-acre property into one parcel. DP-D14-05 would allow development of the subject property with one 426,868 sf logistics warehouse building and associated improvements.</p> | MND | 01/08/2015 |
| 2014121035 | <p>Elkhorn Slough Ecological Reserve Eucalyptus Removal Fish & Wildlife #4 --Monterey Note: Review Per Lead</p> <p>This IS/MND evaluates the environmental effects of removing eucalyptus trees in the Elkhorn Slough Ecological Reserve. The proposed project would be implemented over the course of 10 years. It includes the removal of up to 1,150 small eucalyptus trees (<36" dbh) and 75 large eucalyptus trees (>36"dbh) from four groves, varying in size from 1.3 to 8.2 acres. Nine other groves on the Reserve would remain. Eucalyptus would be removed between August 1 and November 1 of each year to avoid biological impacts. Trees would be cut and felled in place with chainsaws. All stumps would be treated with herbicide to prevent re-growth. Small branches would be chipped and chips scattered on-site to a depth of 6 inches or less. Logs and large branches would be hauled away.</p> | MND | 01/23/2015 |

| | Replanting with native plants would occur where natural recruitment does not occur. | | |
| 2014121036 | ENV-2013-4170-MND Los Angeles, City of --Los Angeles The project is a one and two story addition of approximately 1,693 gsf to an existing 3,412 sf two-story single family dwelling for a total of 5,105 sf, and maximum height of 33 feet 7 inches, with a 485 sf two-car garage (which will be attached after addition is constructed) and 438 sf of covered patio, on a 75,411 sf lot. The project includes a new 4 foot 9 inch high retaining wall that will be 108 feet long along a new swimming pool and spa area east of the dwelling, and some remodel and demolition of walls to incorporate the attached additions. No trees are proposed to be removed. Approximately 136 cu yds of dirt will be graded with 75 cu yds of fill and 61 cu yds exported. | MND | 01/08/2015 |
| 2014121037 | Topanga Canyon Residence/Bed&Breakfast Los Angeles County --Los Angeles The project is to construct two new one-story residences, each with a bed and breakfast establishment, over two contiguous hillside parcels under the same ownership. The total footprint for all structures, inclusive of patios and accessory structures, on both parcels will be 14,127 sf. Ten guest parking spaces will be provided, one for each of the bed and breakfast guestrooms. Site access for the project will be taken from Topanga Canyon Boulevard via a 20-foot wide driveway that will serve both parcels. The northern parcel of the project falls within the protected vertical buffer area of a designated significant ridgeline per the Santa Monica Mountains North Area Community Standards District. As such, a variance is required for approval. Because the project involves development of more than one single-family residence on two contiguous parcels having slopes exceeding 25 percent and owned by the same persons, approval of a CUP is required. A CUP is also required for the establishment of a bed and breakfast. | MND | 01/08/2015 |
| 2014121039 | El Nido Control Structure Modification & Maintenance Project Merced Irrigation District Merced--Merced The El Nido Control Structure lies in Sec. 10, T8S, R14E. The project will be to replace the existing flash board installation with overshot gates to control the upstream water level during irrigation season in Mariposa Creek. The scope of work will be to install two new metal overshot gates within the existing reinforced concrete structure. Minor modifications will be made to the structure to accommodate the new gates in the two open bays. No work in the stream channel that would alter or excavate any material is required for the installation of the new control gates. | MND | 01/08/2015 |
| 2014121040 | East Naples Tentative Map Chula Vista, City of Chula Vista--San Diego The project proposal consists of a Tentative Parcel Map, currently being processed through the Land Development Division, which consists of subdividing one parcel into four single-family lots for individual ownership. Each lot area is approximately 25,000 sf. | MND | 01/09/2015 |

| 2014121038 | <p>Educational Center Sanger Unified School District Fresno--Fresno</p> <p>The project involves purchasing the project site for the construction and operation of a middle school campus for 1,692 students and a high school campus for 2,840 students. The two schools would have a combined building area of about 561,900 sf, consisting of academic buildings, an administration and media center building, one multi-purpose building, two gymnasiums, a theater, and athletic facilities including two football/soccer fields with tracks (one with a stadium), two pools, hardcourts for tennis, basketball, and volleyball, and playfields for baseball, softball, and soccer. The football stadium would seat up to 8,500 spectators. The proposed project also includes the annexation of the SOI area into the City of Fresno's municipal boundaries.</p> | NOP | 01/08/2015 |
| 2014121031 | <p>Project No. 02-088-(3) / Conditional Use Permit No. 02-088 Los Angeles County Calabasas--Los Angeles</p> <p>The project is a request for a CUP to allow the construction and operation of a self-service storage facility, and to allow the grading of 8,500 cubic yards of total cut plus total fill material in the Santa Monica Mountains North area of unincorporated Los Angeles County. The project site is currently vacant and undeveloped. The project proposes the construction of three self-service storage buildings. Building A is a three story, 59,850 sf structure, Building B is a one story, 11,765 sf structure, and Building C is a one-story, 13,850 sf structure. In addition, the project proposes the construction of a one-story, 1,000 sf manager's office. The total sf for all new structures is 83,465 sf. The project will involve grading for a total cut and fill on 8,500 cubic yards. The facility will provide storage space for recreational vehicles and personal and business goods. The regular hours of operation are from 7 am to 5 pm daily, and any visitation to the site outside of the regular hours of operation will be under the supervised by the manager or a designated employee.</p> | Neg | 01/08/2015 |
| 2014122019 | <p>Spring Service Expansion Plan and Service on New Streets in Oakland Alameda Contra Costa Transit District Oakland--Alameda, Contra Costa</p> <p>The proposed Project would affect bus service in the Cities of Oakland, Emeryville, Berkeley, San Pablo, Richmond, El Cerrito, Albany, Fremont, Milpitas, Newark, and Union City. One transbay line from Oakland to San Francisco would also be affected. The proposed Spring Service Expansion Plan includes two options to increase weekend service along the San Pablo Corridor on Lines 72, 72R and 72M in west Contra Costa County, increased weekend service on lines 46 and 339, and extended weekday trips on Line 680. In South Alameda County, proposals include increased spans on Saturdays on lines 200 and 212, and increased weekend frequency on line 217. Changes on lines 680 and NL would result in new service on five street segments not previously served in Oakland.</p> | Neg | 01/08/2015 |

| 2013102050 | Proposed Regulations and Amendments to Reduce GHG and Oxides of Nitrogen from HD Engines & Vehicles Air Resources Board -- The new "Phase 1 GHG Emissions Standards" regulation is one of five separate but related regulatory actions that will reduce GHG and NOx air emissions from medium- and heavy-duty vehicles and engines; harmonize State requirements with Federal requirements; establish new, optional provisions; and enhance enforcement and implementation of existing regulation. The five regulatory actions include: (1) Phase 1 GHG Regulations for Medium- and Heavy-Duty Engines and Vehicles; (2) Optional Reduced Emission Standards for Heavy-Duty Engines; (3) Amendments to the Tractor-Trailer GHG Regulation; (4) Diesel-Fueled Commercial Motor Vehicle Idling Rule; and (5) Amendments to the Heavy-Duty Hybrid-Electric Vehicle Certification Procedures. Specifically, this new regulation would align California's GHG emission standards and test procedures with those of the U.S. Phase 1 GHG regulation, provide nationwide consistency for engine and vehicle manufacturers, and allow ARB to both certify new motor vehicles and new motor vehicle engines to GHG standards and to enforce those requirements in California. | NOD | |

| 2014032012 | <p>Amendments to the Truck and Bus Regulation Air Resources Board --Sacramento</p> <p>The Truck and Bus Amendments provide fleet owners still suffering from economic recession impacts more flexibility to comply with the regulation to better preserve the emissions benefits the regulation was designed to achieve. The Amendments focus on three objectives: (1) protecting emission reductions by providing lower cost compliance options to small fleets, low mileage fleets, & certain rural fleets in areas with cleaner air; (2) providing new opportunities for fleets to access public incentive funds; and (3) recognizing fleets that made early investments to comply. To achieve these objectives, the amendments include:</p> <p>-A longer phase-in period for PM requirements in certain rural areas while continuing to ensure compliance with diesel risk reduction program goals. -Additional time and a lower cost pathway for small fleets to achieve compliance with PM requirements, while re-opening opportunities for these fleets to apply and receive public incentive funding. -A compliance pathway for owners currently financially unable to comply and cannot qualify for a loan to finance compliance. -A longer compliance timeline for low-use and certain vocational or work trucks that travel fewer annual miles and are not competitive in obtaining incentive funding. -Recognition of fleets that took early action to comply by providing additional useable life or retrofit trucks.</p> <p>The regulation, as amended, will lead to continued reductions in pollutant, continued improvement to air quality, and will meet the goals established when the regulation was initially adopted.</p> | NOD | |
| 2014042091 | <p>Del Monte Warehouse Project Alameda, City of Alameda--Alameda</p> <p>Subsequent Mitigated Negative Declaration; the Del Monte Warehouse Master Plan and Density Bonus Application; and the Del Monte Development Agreement for the rehabilitation and reuse of the former Del Monte warehouse building located at 1501 Buena Vista Avenue consisting of 380 housing units and 30,000 square feet of commercial space.</p> | NOD | |
| 2014091053 | <p>Sapwi Trails Community Park Conejo Recreation and Park District Thousand Oaks--Ventura</p> <p>Conejo Recreation and Park District proposes to develop a Community Plan on the approximately 145-acre project site, consisting of roughly 17 improved acres of various recreational amenities and special facilities which would support a number of passive and semi-passive recreational activities such as hiking, biking, disc golf, and non-motorized model glider flying. The project will be comprised of open space, interconnecting multi-use trails, and several distinctive activity areas containing several recreational amenities, as well as ancillary facilities such as parking lots and restrooms.</p> | NOD | |

| 2013101063 | Hollywood Cherokee Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant, proposes to construct a four- to six-story, 224-unit residential apartment/condominium building (the Project) on a 1.14 acre site in the Hollywood Community of the City of Los Angeles. The Project consists of approximately 169,531 sf of new floor area and would replace an existing surface parking lot. A four-level parking garage comprised of one street level and three subterranean levels would be located below the residential levels and would provide a total of 305 parking spaces. The Project would also include a residential lobby and leasing area, a community room, approximately 985 sf of ground-floor commercial space, a gym, a swimming pool and open space decks on the rooftop level, and landscaped courtyards. The Project would have a total FAR of approximately 3.66:1, average across the Project Site. | EIR | 01/26/2015 |
| 2014121042 | Downey Groundwater Well Nos. 27 and 28 Project Downey, City of Downey--Los Angeles The City of Downey proposes to implement two new water wells as a method of improving water supply reliability within its service area. The two wells (Well Nos. 27 and 28) would include the following primary components: a well drilled to approximately 1,500 feet below ground surface; a 660 sf building consisting of a well room, chemical area, and electric room; a 400-horsepower electric pump; emergency generator backup equipment; flow meters, and pipelines. Both wells would have aquifer storage and recovery (ASR) capabilities, which would allow the injection and storage of excess imported Metropolitan Water District of Southern | MND | 01/09/2015 |

| | <p>California (MWD) water and/or recycled water in the local aquifer. Additionally, the Well No. 28 site would include an approximately 330 sf addition to an existing administrative office building that would house Supervisory Control and Data Acquisition (SCADA) equipment to control/monitor the groundwater well system within the City of Downey. The proposed improvements at the project sites would occur in two primary phases; demolition and drilling following by equipping. Construction is anticipated to begin in spring 2015 and would last approximately 17 to 20 months.</p> | | |
| 2014121043 | <p>Slauson Avenue Sidewalk and Improvement Project Commerce, City of Commerce--Los Angeles The Slauson Avenue Sidewalk and Improvement Project (proposed project) includes sidewalk repair and tree removal along Slauson Avenue between I-5 and I-710 within the City of Commerce.</p> | MND | 01/09/2015 |
| 2014122020 | <p>Dogtown Road over French Gulch Calaveras County Angels Camp--Calaveras The project will replace the existing functionally obsolete Dogtown Road bridge over French Gulch with a new structure. The new structure will be approximately 36 feet long and 27 feet wide. The structure will accommodate two 10-foot travel lanes with 2-foot shoulders and barrier rails. The new bridge will be a cast-in-place reinforced concrete slab supported on end diaphragm abutments on spread footings. In addition, the sections of Dogtown Road adjacent to the bridge will be improved to 10-foot lanes with 2-foot shoulders. Approximately 300 feet of roadway north and south of the bridge will be improved. Metal beam guardrails will be placed at the approaches to the bridge barriers. Staged construction will be implemented to maintain traffic operations during construction.</p> | MND | 01/09/2015 |
| 2014122021 | <p>Marin Civic Center Drive Improvements Project Marin County San Rafael--Marin The proposed project is located at the Marin Civic Center campus in the City of San Rafael, CA. As the project proponent, the County of Marin is proposing various improvements along Civic Center Drive between Merrydale Road and Armory Drive/Judge Haley Drive, including new driving surfaces, sidewalks, buffered bike lanes, bus stops, a two-way bicycle path, and a roundabout to improve the northern gateway to the historic Civic Center Campus for all users. Project construction will take place between July 31, 2015 and September 2016.</p> | MND | 01/09/2015 |
| 2014122022 | <p>Butte Fire Station and Unit Headquarters Replacement Project Forestry and Fire Protection, Department of Oroville--Butte The Proposed Project would include site demolition of all buildings on-site except for the two ECC buildings and the ECC tower located in the northeast corner of the Project site. In addition to building demolition, the existing hose rack, fuel tanks and propane tanks, all existing utilities and appurtenances including water distribution lines, sewer lines, and gas lines, and existing concrete retaining walls, asphalt concrete paving and concrete sidewalks would be removed. A utility pole located on the eastern boundary would also be relocated. Lastly, clearing, grubbing, and tree removal would occur as required within the limits of the Project site.</p> | MND | 01/12/2015 |

The proposed tank farm and street closure site encompass approximately 9.7 acres, and the four short-term use permit sites are divided between four areas in National City that comprise approximately 47.3 acres. Combined, the overall Project site covers approximately 57 acres. The Project will provide additional space for marine terminal operations, including primarily import, export, handling, and storage of motor vehicles and may also include cargo transported aboard a Pasha Hawaii Transport Lines vessel.</p> | NOP | 01/12/2015 |
| 2014121047 | <p>Baxter Village Mixed-Use Project (Planning Application No. 14-0002) Environmental Impact Report (EIR) Wildomar, City of Wildomar--Riverside</p> <p>The Baxter Village Mixed Use Project is a horizontal mixed use development located on the west side of the I-15 freeway and north of Baxter Road. The developer proposes to develop 8.4 net acres of the site with 75,000 sq. ft. of commercial retail uses, 11.3 net acres with 204 apartment units, and 12.5 net acres with 70 single family homes. The remaining 3.3 acres would contain roads, required parking, retention basins and recreation areas. The project site is currently undeveloped with the exception of a residential structure that is being stored at the site by the Wildomar Historical Society.</p> <p>The proposed project includes the following applications:</p> <ol style="list-style-type: none"> 1. Change of Zone (CZ): A proposal to change the zoning designation for 25 acres of the 35-acre site from the current zoning of C-P-S (Scenic Highway Commercial) to R-4 (Planned Residential Zone) to accommodate the proposed 70 lot single family development and to R-3 (General Residential) to accommodate the 204-unit multi-family apartment development project. The Commercial Retail development already has the C-P-S zoning so no change is needed. 2. Tentative Tract Map (TTM 36674): A tentative tract map to subdivide the 35 acre project site into 85 lots. 70 lots will comprise the Single Family development portion, with a minimum 4,500 sq. ft. lot size. The Multi-Family development portion will have 1 lot to accommodate the 204-unit multi-family development. the commercial development portion includes seven lots to accommodate the 75,000 sq. ft. of commercial/retail development project. 3. Plot Plan (PP): There are 3 plot plans for the 35 acre project site consisting of the following: <ul style="list-style-type: none"> -Single Family development portion - A final site plan of development for the 70 single family residential dwelling unit portion to include, but not limited to the following: site plan information (with house plotting, setbacks, etc.), a model home to complex plans (if model homes are being proposed), floor plans architectural elevations, landscape plans and a wall/fence plans. -Multi-Family development portion - The subarea consists of a 204-unit multi-family apartment project and related site development improvements (i.e., parking, landscaping, etc.). | NOP | 01/12/2015 |

| | Commercial/Retail development portion - this subarea includes approx. 75,000 sq. ft. of commercial/retail space and related site development improvements (i.e., parking, landscaping, etc.). | | |
| 2014122023 | Oakwood Trails Subdivision Manteca, City of Manteca--San Joaquin The Project includes 676 single family units and comprises a total of 206.7 acres of land to be Subdivided into residential, industrial and commercial uses. The project would require a General Plan Amendment to change use designations for 29.7 acres of O/S to LDR, as well as 22.6 acres of HDR to GC land uses. The project would require the rezone of the northeast portion of the project site including the rezoning of 29.7 acres of O/S to R-1 , and 22.6 acres of R-3 to commercial. | NOP | 01/12/2015 |
| 2014122027 | Tembo Preserve Tehama County --Tehama The project applicant, Tembo Preserve, is proposing to construct and operate an elephant preserve on an area totaling approx. 4,929 acres in unincorporated Tehama County, CA. The proposed project will include the construction of structures and related improvements on the project site. Key components of the project will include: an operations center containing offices, two residences for on-site managers, parking areas, educational shelter, elephant barns, elephant shelters, stock pods, access roads, and fencing. | NOP | 01/12/2015 |
| 2014122028 | Occidental Wastewater Treatment Facility Recycled Water Project Sonoma County Water Agency Santa Rosa--Sonoma The proposed project would consist of upgrades to the District's existing WWTF system and would improve water quality to meet "Title 22" tertiary standards (CCR Title 22, Section 60301.230) and NPDES permit requirements for discharge into Dutch Bill Creek. Project components would include: treatment system upgrades, a recycled water pipeline, agricultural irrigation reuse areas, and off-stream storage for storage for recycled water. Recycled water storage ponds would need to be utilized by the District to store water during the non-discharge season and to operate the recycled water pipeline system. A recycled water pipeline would be constructed northeast of the community of Occidental along Graton and Harrison Grade Roads, and Morelli Lane. | NOP | 01/12/2015 |
| 2014121044 | Housing Element Update Buellton, City of Buellton--Santa Barbara The proposed project is an update of the 2009 City of Buellton Housing Element. A Draft 2015 Housing Element has been prepared by the City to comply with the legal mandate that requires each local government to adequately plan to meet the existing and projected housing needs of all economic segments of the community. The Housing Element is one of the seven state mandated elements of the local general plan. | Neg | 01/12/2015 |

| 2014122025 | Housing Element Update & Amendments to the Seismic/Safety & Open Space/Environmental Conservation Element Milpitas, City of Milpitas--Santa Clara The Project includes an update to the 2007-2014 Housing Element for the planning period 2015-2023 in compliance with Government Code Section 65580 et seq. The identified sites (2,774 units), including the committed sites (6,146), would allow the City to meet its RHNA with a total capacity of 8,920 units, resulting in a surplus above the required RHNA (3,290 units). No rezoning or changes to General Plan designations would be required to achieve this yield. The Seismic and Safety Element Amendment includes an update to required information related to Federal Emergency Management Agency Flood Insurance Rate Maps, dam inundation and City goals and policies to comply with State law (AB162, Government Code 65302). The Open Space and Environmental Conservation Element Amendment includes a revised map of rivers, creeks, and riparian habitat. | Neg | 01/12/2015 |
| 2014122026 | General Plan Amendment - Update to Housing and Circulation Element Pleasant Hill, City of Pleasant Hill--Contra Costa The City is proposing a General Plan Amendment to update its Housing Element (for the period extending from January 31, 2015 through January 31, 2023). Article 10.6 of the California Government Code requires each city and county to analyze housing needs and establish goals, policies, programs, and quantified objectives to meet the identified needs through preparation of a Housing Element. The analysis must address all economic segments of the community, the City's share of the regional housing need, and the housing needs of special groups such as the elderly, disabled, homeless, large families, and single parents. The Housing Element must identify adequate sites throughout the community to accommodate housing needs and/or include programs to identify additional sites and rezone them appropriately for housing development. | Neg | 01/12/2015 |

| 2014128133 | Foundation Lane II - AM PUD 334, TSM 658, and CUP No. 2213 El Cajon, City of El Cajon--San Diego Construct six new homes as the second phase of an affordable common-interest residential development with a density bonus. | NOE | |
| 2014128134 | Proposed Rehabilitation - (SR) 147 Caltrans #2 --Plumas Caltrans, as part of its NEPA assignment of Federal responsibilities by the Federal Highway Administration, effective Oct. 1, 2012 and pursuant to 23 U.S.C. 326, is proposing a Project to rehabilitate approx. 2 miles of SR 147 in Plumas County. The project limits span between (PM) 0.0 to 2.0 and starts at the junction of SR 89 and SR 147 in the community of Canyon Dam. This Project will improve pavement condition, ride quality,, increase the pavement life expectancy and increase safety by reducing maintenance personnel exposure to traffic. | NOE | |
| 2014128135 | Catch Basin, Weeper Dam, and Access Road Maintenance - Sespe Oil Field Fish & Wildlife #5 Fillmore--Ventura CA Dept. of Fish and Wildlife is proposing to execute Lake and Streambed Alteration Agreement No. 1600-2013-0240-R5. The Applicant proposes to conduct long-term routine maintenance activities at the Sespe Oil Field for the maintenance of existing sediment basins, weeper dams, and access roads. Maintenance of these structures will ensure they function as designed. The basins are located within the Upper Maple Creek, Upper Tar Creek, and two basins are located within Fourfork Creek. Each weeper dam consist of a dam slope (or face), several drain pipes, as well as a gate to adjust stream flows and these will require repairs when damaged and potentially may need to be replaced. Existing access roads are unimproved and generally 15-20 feet wide and repairs will be conducted within the original access road footprint. Immature vegetation, due to the natural scour events that occur within these high gradient streams, will be removed during sediment removal activities. Temporary impacts associated with sediment clean-out, weeper dam, and access road maintenance are estimated to be 0.25 acres. | NOE | |

| 2014121049 | Tentative Parcel Map 14-001 and Minor Developemnt Review Application 14-014 Poway, City of Poway--San Diego Tentative Parcel Map (TPM) 14-001 and Minor Development Review Application (MDRA) 14-014 / Millards Road Subdivision: a 3-lot residential subdivision of approximately 32.5 acres, grading for three building pads, and construction of an approximate 9,700 sf residence on one of the lots located on the south side of Poway Road at Millards Road in the Rural Residential A zone. | MND | 01/13/2015 |
| 2014122029 | Diamond Bar East Riverbank, City of Riverbank--Stanislaus The proposed project consists of a General Plan Amendment (GPA), Rezoning and Tentative Map to subdivide approximately 17.90 acres into ninety-six single-family residential lots (overall residential density of 5.41 du/acre), a 2,411 sf landscape lot, a 0.99 acre drainage basin lot and the associated street, sewer, water and storm drainage improvements. The project site currently has a General Plan designation of Medium Density Residential and is located within the R-1, Single Family Residential zoning district. The proposed GPA would designate the project site for Low Density Residential (LDR) land uses. The proposed rezone would also modify the project site's existing zoning from R-1 to P-D, Planned Development. | MND | 01/13/2015 |
| 2014122030 | Diamond Bar West Riverbank, City of Riverbank--Stanislaus The proposed project consists of a General Plan Amendment Rezone and Tentative Map to subdivide approximately 11.34 acres into fifty-eight residential lots and associated street, sewer, water and storm drainage improvements. The project site is currently designated as Medium Density Residential and is located within the R-2, Multi-Family Residential zone district. The proposed GPA would designate the project site for Low Density Residential land uses. The proposed rezone would modify the project site's existing R-2 zone to a PD zoning district. | MND | 01/13/2015 |
| 2014122031 | Yuba-Sutter Regional Conservation Plan Sutter County Yuba City, Wheatland, Live Oak--Sutter, Yuba Note: Review Per Lead The proposed YSRCP will include a conservation strategy to compensate for impacts on covered species and provide for the conservation and management of the covered species and their habitats within the Plan Area. In accordance with the YSRCP and its conservation strategy, the USFWS and CDFW would issue take permits to the local participating jurisdictions under the federal Endangered Species Act, the California Endangered Species Act, and the Natural Community Conservation Planning Act, while complying with other applicable laws. The USFWS and CDFW would also provide assurances to local jurisdictions and Plan Permittees that no further commitments of funds, land, or water would be required to address impacts on covered species beyond those described in the YSRCP. The local jurisdictions will then be able to use those permits to mitigate identified impacts of maintenance, development, and other activities within areas designated in the YSRCP. | NOP | 01/26/2015 |

| 2014128176 | Subdivision No. 03-481-01B, Madeira East Village 1B Final Map Elk Grove, City of Elk Grove--Sacramento Approval and recordation of a Final Map for Madeira East Village 1B Final Map subdivision, subdivision number 03-481-01B. | NOE | |
| 2014128177 | Subdivision No. 03-481-02B, Madeira East Village 2B Final Map Elk Grove, City of Elk Grove--Sacramento Approval and recordation of a Final Map for Madiera East Village 2B Final Map subdivision, subdivision number 03-481-02B. | NOE | |
| 2014128178 | Apple Computer INC., Campus Vacation of Drainage Easement Elk Grove, City of Elk Grove--Sacramento The original purpose of the easement was to allow surface waters from the adjoining undeveloped properties to the south to drain to the east-west channel that runs along the north side of the Apple property. This easement was put in place prior to development on the south when there was not an underground pipe system in to convey drainage towards the north. Currently, most of the parcels to the south have been developed and there is a complete underground pipe system that exists in another easement adjacent to this easement and extends from the driveway north of Laguna Main Street and ultimately connects to the east-west channel that runs along the north side of the Apple property. This easement does not have any surface improvements or any underground pipes or any public facilities in it and is now an excess drainage easement and is no longer required for its original intended purpose or any other drainage purposes. | NOE | |
| 2014128179 | MESA II Processing Room Project Elk Grove, City of Elk Grove--Sacramento The proposed project involves improvements to existing rooms within the City's Corporation Yard Fleet Services Building including minor alteration of ceiling, electrical, and mechanical equipment. At the MESA II Processing Room, a new gypsum ceiling and light fixtures will replace the existing suspended ceiling system in order to better control air circulation. Select existing cabinets will be removed and existing lockers shall be rearranged to allow for installation of new equipment necessary to the function of the MESA II Processing Room. Flooring finishes shall be patched and new paint finish will be provided within the room. | NOE | |
| 2014128180 | Poppy Keys East Elk Grove, City of Elk Grove--Sacramento The Project consists of the following entitlements: 1. General Plan Amendment to change the land use designations of Medium Density Residential and High Density Residential to Low Density Residential; 2. Specific Plan Amendment to change the land use from Medium Density Residential-10 du/ac (RD-10) and Multi-Family Residential-20 du/ac (RD-20) to Single-Family Residential-5 du/ac (RD-5); 3. Rezone to change the zone district from Medium Density Residential-10 du/ac (RD-10) and Multi-Family Residential-20 du/ac (RD-20) to Single-Family Residential-5 du/ac (RD-5) consistent with the General Plan Amendment and Specific Plan Amendment; | NOE | |
