STATE CLEARINGHOUSE

NEWSLETTER

December 16-31, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16-31, 2007.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2003081058	<p>NAWS China Lake, Burro Canyon Open Burn/Open Detonation Units Toxic Substances Control, Department of Ridgecrest--Inyo, Kern, San Bernardino</p> <p>The project is a Hazardous Waste Facility Permit modification to allow NAWS China Lake to treat up to 5,475,000 pounds per year, or 15,000 pounds per event, of reactive hazardous waste by open burn or open detonation. The hazardous waste consists of military munitions or research laboratory waste containing or contaminated with explosives, propellants, or pyrotechnics. The waste is generated during research, development, test, and evaluation activities, or is obsolete and potentially unstable munition items. Treatment is by burning the waste in a steel pan using diesel or wood to facilitate combustion, or detonating the waste on the ground surface using bulk explosives to initiate the detonation. Treatment takes place at Burro Canyon, NAWS China Lake.</p>	EIR	02/15/2008
2006112057	<p>Denmark Subdivision Project Sonoma, City of Sonoma--Sonoma</p> <p>The Proposed Project involves subdivision and residential development of a 4.18-acre site. It is proposed to annex the project site to the City of Sonoma and develop 20 single-family housing units and two triplexes, for a total of 26 units. The Proposed Project would extend Pearce Drive, which would dead-end at the adjacent property on the north, and Ingram Drive, which would connect with Denmark Street. The vacant, single-family home currently located on the project site would be removed.</p>	EIR	02/08/2007
2006112087	<p>Harris Quarry Use Permit and Reclamation Plan Mendocino County Willits--Mendocino</p> <p>The existing quarry would be expanded under a proposed end of life use permit that would allow removal of 18,270,000 cubic yards of aggregate. An asphalt facility that can produce as much as 250,000 tons of asphalt per year will be constructed. A concrete facility and wash facility will be relocated from Willits to the site and would produce up to 32,000 cubic yards of concrete per year. Improvements would be made to Highway 101 at the quarry entrance. New roads will be constructed on the site to provide access between the quarry and the processing facilities site. A Reclamation Plan is included to address SMARA requirements.</p>	EIR	01/30/2008
2007111051	<p>Vermont/Manchester Shopping Center Los Angeles Community Development Agency --Los Angeles</p> <p>Two alternatives are being considered for the project site. Each alternative would develop commercial uses as follows:</p> <p>Alternative 1 - Moderate Commercial would result in the development of 72,000 square feet of commercial development on the project site. This alternative with a floor area ratio of 0.35:1 would develop the site with surface parking, totaling 288 spaces, and mostly one-story buildings. The first level of commercial development would consist of retail uses. A second level of offices or retail could be located on the northern portion of the site, adjacent to the County building and parking structure.</p> <p>Alternative 2 - Maximum Commercial would result in the development of a</p>	EIR	01/30/2008

	maximum of 104,000 square feet of commercial development, consistent with an economic feasibility study commissioned by the CRA/LA. This development will include two- to three-story buildings with first floor retail and a mixture of retail and offices on the upper floors. The physical configuration of the development calls for a three-level parking structure containing approximately 418 spaces.		
2007121078	Ruxton Avenue Channel Conversion Project San Diego County Department of Public Works --San Diego The project proposes to convert and improve an existing concrete channel to an earthen channel that will be planted with native habitat. In addition, as part of the project the existing culvert under Ruxton Avenue will be replaced.	MND	01/15/2008
2007121079	Coletta Minor Subdivision Monterey County Planning & Building Inspection King City--Monterey Minor Subdivision of 264 acres into 4 lots of 40 acres, 40 acres, 40 acres, and 144 acres (remainder parcel).	MND	01/15/2008
2007122049	Yolo County Monroe Center Expansion and Renovation Project Yolo County Woodland--Yolo The proposed project consists of renovating and expanding the existing Monroe Center jail facility in order to address safety concerns and accommodate an increase in inmate housing. The project site is located on County-owned property within the City of Woodland at 2500 East Gibson Road, southwest of the Road 102 and East Gibson Road intersection. The site is developed with the Sheriff's office and County Jail facility. The proposed project will increase current inmate capacity by providing 158 additional beds to house a total of 471 inmates per day. The project consists of a combination of new construction and renovated space, along with associated parking, site work, and infrastructure upgrades. Total new building area, including expansion and renovation, will be approximately 81,838 square feet (45,733 square feet of new buildings; 35,027 square feet of renovation; 10,778 square feet of additional site work). In order for the facility to remain fully operational, construction phasing is proposed to minimize the disruption caused by displacement of staff and wards. Construction is anticipated to begin in Spring 2008 and is proposed over a three-year period, with completion of the project anticipated at the end of 2010.	MND	01/15/2008
2007122050	Blue Oak Parcel Map (PMLD T20070551) Placer County Planning Department Auburn--Placer Subdivision of a 3.4-acre parcel into two parcels consisting of approximately 2.04-acres and 1.36-acres.	MND	01/15/2008
2007122052	Livermore Toyota Livermore, City of Livermore--Alameda The project includes an automobile dealership and service facility with an aggregate floor area of 110,000 +/- square feet on 16 +/- acres of land on both sides of Northfront Road, approximately 300 feet east of North Vasco Road. The proposed Tentative Parcel Map will combine 18 individual parcels to create a 9.7 +/- acre site north of Northfront Road, a 6.6 +/- acre site south of Northfront Road, a 6,000 +/- square foot parcel for a new City pump station and dedicate right-of-way for public improvements. The southern site will be the location of the	MND	01/15/2008

	sales and showroom building while the northern site will accommodate the service center and a potential future Certified Used Car Sales Building.		
2007122053	Encinosa Detention Basins Project Vacaville, City of Vacaville--Solano City of Vacaville proposes to develop two regional detention basins, one north and one south of Encinosa Creek in an unincorporated portion of Solano County, just west of the limits of the City of Vacaville. The project includes the construction of detention basins, berms, inlet and outlet structures and emergency spillways. The project also includes the limited development of temporary construction and permanent maintenance access roads.	MND	01/15/2008
2007121072	Conditional Use Permit No. 07-15 San Bernardino, City of San Bernardino--San Bernardino The proposed project requests to expand the existing 124,812-square foot commercial/retail facility. The expansion will be constructed on the east side of the existing facility. The existing Tire Lube Express store will be removed.	NOP	01/15/2008
2007121075	Pentages Theater Office Tower Los Angeles, City of Los Angeles, City of--Los Angeles The 57,891 square foot project is currently occupied by the Pantages Theater. The proposed project will achieve the original vision for the building by adding ten stories of office use above the lobby and office area of the existing building. The proposed 200,000 square foot office tower will rise above the existing 45,219 square foot building. The project fully preserves the Pantages Theater. The project site is zoned C4-2D-SN and the project proposes a zone change to [T][Q]C4-2D-SN, and also proposes to remove the "D" limitation limiting the F.A.R. to 4.5:1.	NOP	01/15/2008
2007122051	Dry Creek/West Placer Community Plan - Transportation Element Update (PEIR T20070805) Placer County Roseville--Placer As a part of the Transportation Element Update, the Placer County Department of Public Works proposes to keep PFE Road open and to construct speed reduction treatments on PFE Road and Cook-Riolo Road to preserve the rural character of the Community Plan area. The County would also review the Community Plan's transportation goals and policies for relevance to today's community environment and to ensure applicability in the future.	NOP	01/15/2008
2007121073	Bell Parcel Map and Minor Use Permit San Luis Obispo County --San Luis Obispo Request to subdivide 1.96-acre parcel into four parcels approximately 0.5 acre each for the purpose of sale and/or development. The project may include the removal of two existing structures and fourteen storage buildings and off-site road improvements to Main Street. The project will result in the disturbance of the entire project site. The division will create one on-site access road.	Neg	01/15/2008

2007121074	Brock Parcel Map ED06-215 (SUB2006-00106) San Luis Obispo County --San Luis Obispo Request by Gary Brock for a Parcel Map using the Transfer of Development Credits (TDC) program to subdivide an existing 10.51 acre parcel into 2 parcels of 5.46 and 5.04 acres each for the purpose of sale and/or development. The proposed project is within the Residential Rural land use category and is located at 611 Hollyhock Lane, approximately 2.6 miles east of the community of Templeton. The site is in the El Pomar/Estrella planning area.	Neg	01/15/2008
2007121076	AD & SPR No. 2007-13 Tehachapi, City of Tehachapi--Kern To consider construction of a Travel Center on an 11.21-acre site.	Neg	01/15/2008
2007121077	Wasco High School Sports Complex and Classroom Expansion Wasco Union High School District Wasco--Kern The proposed Project includes the construction and operation of an 18-acre sports complex on the west side of the existing Wasco Union High School as well as the addition of 2 new classroom wings, each with 9 classrooms and 1 restroom, on the east side of the existing campus. The sports complex will include 1 baseball diamond with a 2,800 sq. ft. concession building, 2 softball fields, 2 soccer fields, 8 tennis courts, a field house/maintenance building, and an additional 162-space parking lot. Additionally, two crosswalks will be implemented across Palm Avenue to allow access to the sports complex.	Neg	01/15/2008
2007121080	Tentative Tract Map 34908 Riverside, City of Riverside--Riverside The applicant proposes the subdivision of 2.53 acres into 14 single family residential lots ranging in size from 7,005 square feet to 12,075 square feet and having an average lot size of 7,234 square feet. Also, including in the proposal is the construction of approximately 271 linear feet of the northerly extension of Cozumel Court, a public street to be developed to Public Works Specifications including curb, gutter, and sidewalk. This northerly extension of Cozumel Court will be terminated in a cul-de-sac meeting minimum Public Works specifications. In addition to the construction of the northerly extension of Cozumel Court, the project will include the incremental extension of existing infrastructure to serve the proposed 14 lots. Off-site improvements include the installation of curb, gutter and sidewalk west of the intersection of Cozumel Court and Paschels way along the north side of the Paschels Way to the intersection of Paschels Way and Clark Street. These public improvements will continue northerly along the east side of Clark Street, across the frontage of proposed Lot 14.	Neg	01/15/2008
2007122047	Naegele Winery Santa Cruz County --Santa Cruz A proposal to establish a winery producing over 1,000 gallons annually, to construct a 4,000 square foot metal structure for the production and storage of wine, and to grade approximately 1,810 cubic yards of material.	Neg	01/15/2008

	Carson, and a new receiving system at LAX. The Project is proposed to proceed in two phases. Phase 1 consists of the portion of the alignment between the Vopak Terminal and the Watson Pump Station, and ancillary equipment at Vopak and Watson. Construction of Phase 1 of the Project is anticipated to begin in September 2008 and end in February 2009. Phase 2 consists of the portion of the alignment between the Watson Pump Station and LAX. Construction of Phase 2 is expected to begin as early as April 2012.		
2007091085	Elementary School No. 5 Eastside Union School District Lancaster--Los Angeles Due to rapid development in Lancaster and the surrounding areas, a new elementary school is needed to accommodate the educational needs of the rapidly growing population within the District. Therefore, District proposes to construct and operate Elementary School No. 5 to serve approx. 1,100 students at full build-out.	EIR	01/31/2008
2007061062	Installation of Line G-3 San Jacinto, City of San Jacinto--Riverside The City of San Jacinto proposes to implement the construction and installation of a portion of the Line G storm water channel (renamed as part of this project to Line G-3), as shown on the San Jacinto Area Master Drainage Plan. The proposed project will also follow the Jeffery Road Channel alignment identified in the Northwest Improvement Project. The design modifications proposed relate to both plans since each proposed alignment of the channel was to connect directly to what is identified as Line E of the San Jacinto Area Master Drainage Plan or combine with other lines and traverse around the San Jacinto Reservoir. However, Line E, south of the Reservoir has been realigned and constructed to discharge directly into the San Jacinto Reservoir. In order to continue to combine storm water flows for both systems the alignment of Line G-3 will be slightly modified to also discharge directly into the San Jacinto Reservoir, similar to existing Line E. A formal amendment to each plan listed above is not required since the proposed facility is similar to existing plans as related to their location and purpose. The features proposed in this project represent a refinement to their location and purpose. The features proposed in this project represent a refinement to existing plans.	MND	01/16/2008
2007121086	Parcel Map #02428 (John R. Benson & Barbara M. Benson, Trustees) 4982 Hovley Road, Brawley Imperial County Brawley--Imperial The applicants, John and Barbara Benson, Trustees, have submitted a Tentative Parcel Map #02428 proposing to create a 24-acre parcel (Parcel 1) for the future Ormat 49.9 net megawatt binary power plant. The remaining 215 acres (Parcel 2) will remain in agricultural production. The plant will consist of six Ormat Energy Converters (OEC), a transmission line interconnect, the geothermal well field and pipelines to bring the geothermal fluids to the power plant and a water conveyance system to bring water from the Imperial Irrigation District to the power plant for cooling. 2007121087	Varney Villas #2 San Diego, City of San Diego--San Diego Tentative Map (TM) to create three parcels from one lot on a 0.83 acre site (36,000 square feet).	MND	01/16/2008
2007121088	Gordon Highlands Grading: Modification of HDPR89-05; and HDPR90-21; V05-03 Glendora, City of Glendora--Los Angeles The project involves two tracts located in the foothills of the San Gabriel Mountains in the City of Glendora. Tract 46680 encompasses approximately 111 acres and Tract 46916 encompasses approximately 55.8 acres. The affected property includes Lots 3 through 17 of Tract 46680 and Lots 1 through 16 of Tract 46916. The property consists of several significant natural drainage courses including Morgan Canyon and Mull Canyon and contiguous smaller drainages. Total property area for the project is approximately 95.49 acres (affected lots). Average slope of lots ranges from 28% to over 45% with the majority of lots in excess of 40% slope. An important component of the project is a large parcel of approximately 14.7 acres (APN 8658-001-006) which was a remainder lot within the project area. Building restriction zones were placed on portions of each lot and all of the remainder lot during the subdivision entitlement process to protect steep slopes and habitat.	MND	01/16/2008
2007122055	Markham Ravine Nature Area Master Plan and Component Implementation Plan Lincoln, City of Lincoln--Placer The Markham Ravine Nature Area (MRNA) Master Plan is a policy document establishing the planning framework for the future design, implementation, and management of Markham Ravine. The purpose of the MRNA Master Plan is to establish an integrated approach to the development, management, and operation of the MRNA that recognizes the multiple values offered by the open space and habitat resources. The MRNA Master Plan provides guidance by establishing goals and policies, characterizing the resources within the MRNA to be protected, describing allowable uses and activities, recommending amenities, and identifying specific implementation strategies. As future phases of implementation for Markham Ravine move forward, they would be evaluated for compliance with the MRNA Master Plan to ensure that the vision of MRNA is maintained for future residents of, and visitors to the City. NOP	01/16/2008
2007122056	325 Seventh Street Project Oakland, City of Oakland--Alameda The project applicant proposes to demolish all existing structures at the project site with the exception of the existing residential structure currently located at 621 Harrison Street. This building is proposed to be relocated to a lot in the vicinity of 14th Street and Peralta Street in the Oakland Point District in West Oakland. The project proposal is to redevelop the project site with construction of 382 condominium units and ground floor commercial space. Two towers would be situated on a four-story podium, each tower reaching a total height of 23 stories (approximately 237 feet to the top of the roofline, approximately 286 feet to the top of the tower feature on Tower 1, and approximately 280 feet to the top of architectural feature on Tower 2). Commercial space would be provided at street level along the Harrison Street/Seventh Street corner (approximately 5,913 square feet of general retail space and approximately 2,999 square feet of office/administration space). On the fourth floor podium, three community rooms and a 6,619 square foot courtyard would be provided. On the twentieth floor of Tower 1, a 1,200 square foot courtyard would be provided. A total of 397 off-street parking spaces would be provided within a parking garage (one story underground and three stories above ground).	NOP	01/16/2008

<u>Documents Received on Tuesday, December 18, 2007</u>			
2007121083	Well 6808-1 Coachella Valley Water District --Riverside The Well 6808-1 project site includes a 0.75-acre site for the proposed well, pumping plant, and detention basin as well as a 30-foot wide, 1,325-foot long easement along Hernandez Lane (dirt road) that extends north to Airport Boulevard. About 1,300 feet of 12-inch water transmission pipeline and a gravel access road will be constructed within the easement. An existing residential structure constructed of cement block and stucco is located along the Hernandez Lane easement about 150 feet south of Airport Boulevard. This structure will be demolished as part of the well construction activities. In order to connect Well 6808-1 to the existing domestic water system, about 1,400 feet of 18-inch water transmission pipeline will be constructed within the Airport Boulevard right of way (Riverside County right of way) that will extend from Hernandez Lane eastward to Apollo Lane. Project construction includes drilling, casing, testing, and developing a 2,000-gallon-per-minute (gpm) domestic water well and pumping plant to the domestic water distribution system. A six-foot masonry wall will be constructed around the 0.75-acre well site. The purpose of the Well 6808-1 project is to provide additional domestic water service and fire flow to the Thermal Pressure Zone which includes the Thermal area. Well 6808-1 will also supplement water supplies to the Salton City area in future years.	Neg	01/16/2008
2007121084	Lanzit Project Los Angeles, City of Los Angeles, City of--Los Angeles The site was used in the past for warehousing and Caltrans facilities, and has been vacant for many years. The applicant, Seventh Street Development, proposes to reuse the site for light industrial and/or commercial uses, which may include manufacturers and food processing uses. The site will be developed with up to nine buildings ranging from 9,500 to 34,000 square feet and associated parking with approximately 340 spaces.	Neg	01/16/2008
2007121085	Aquifer Storage and Recovery Well 4-70 and 4-71 and Transmission Project Los Angeles County Department of Public Works Lancaster--Los Angeles The proposed project would install subsurface transmission and supply pipelines and two additional ASR wells in the Antelope Valley Groundwater Basin to ensure a reliable water supply during summertime peak demands for existing users within the District's service area.	Neg	01/16/2008
2007122058	Proposed Single-Family Dwelling at 200 Berendos Avenue, Pacifica, California Pacifica, City of Pacifica--San Mateo The project applicant and property owner proposes to construct a single-family residence of approximately 3,500 square feet and an attached garage of 700 square feet on a 1 acre vacant parcel. The dwelling is proposed as two levels and attic space with a steeply sloped roof. In addition to the four bedrooms and three bathrooms, the applicant is also proposing a kitchen, living room, family room, TV room, and a dining room. The living area for the first level would be approximately 1,600 square feet, and the second level would be approximately 1,900 square feet. The total height of the proposed building would be 35 feet.	Neg	01/16/2008

2004101073	<p>Rose Bowl Renovation Project Pasadena, City of Pasadena--Los Angeles Renovations of the existing Rose Bowl stadium are proposed to allow use by the UCLA Bruins football team, Rose Bowl Game, Bowl Championship Series (BCS) games, soccer matches, as well as to bring the building systems up to current Code requirements. The replacement of all seating in the Rose Bowl is a project priority, but seating capacity would remain sufficient to accommodate all existing events. Upon completion of the project, seating in the Rose Bowl would include general seating, club seating, and luxury suite seating.</p> <p>The proposed revised project would include demolition of existing ancillary structures around the base of the stadium and the perimeter structures at the fence line, along with removal of asphalt surfacing and landscaping. Removal, retention, and reconstruction of the stone terraces and planting material adjacent to the stadium would also occur as required by project design. A new structure containing the stadium's club and associated support facilities would be constructed outside, but connected to, the existing seating bowl along the west side of the stadium structure. The existing suites and press box structure located along the western rim of the stadium would be removed and replaced with a new three-level structure that includes one club level and two levels of suites and press facilities on the west side of the stadium only. A lighted animated ribbon sign would be attached on the façade of each level of the press box. In total, approximately 340,000 square feet of existing structures and paved areas would be demolished.</p>	SIR	02/14/2008
1999122015	<p>Apalachee Erosion Control Project JN (95154) El Dorado County South Lake Tahoe--El Dorado El Dorado County proposes to construct and maintain storm water facilities and implement erosion control practices in the Tahoe Paradise Units 4 and 5 subdivisions, as identified in the Lake Tahoe Environmental Improvement Program. This project is adjacent to other recently completed erosion control projects in the surrounding neighborhood.</p>	NOD

2007102136	Promenade Electric Distribution Project Sacramento Municipal Utility District Elk Grove--Sacramento Construct and operate a 0.68 acre neighborhood substation and add a second 69,000 volt (69-kV) circuit to an existing overhead 69-kV subtransmission line with a 12-kV underbuild. The proposed substation would step down 69-kV power to 12-kV for residential and commercial service. The proposed additional 69-kV circuit would be added to a 1.35-mile long section of existing overhead single-circuit 69-kV with 12-kV underbuild along the west side of W. Stockton Blvd., from Krammer Road to about 600' north of the proposed substation.	FIN	
2007041108	Avenue 428 Elementary School Project Dinuba Unified School District Dinuba--Tulare The project consists of the development and operation of an elementary school on an approximate 15 acre portion of a 32 acre parcel located at the southwest corner of Avenue 428 (Union Avenue) and Road 88 (Crawford Avenue), north of the City of Dinuba in Tulare County. The precise portion of the 32 acre parcel to be used for school purposes has not been determined. The project includes potential annexation to the City of Dinuba.	MND	01/17/2008
2007121089	Ridge Creek Drive Subdivision; TM 5469, Log No. 05-02-043 San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is a residential subdivision which would create 14 lots on a 30.36-acre lot. The site contains an existing residence that would be removed. The project would be served by on-site septic systems and imported water from the Fallbrook Public Utility District. Earthwork will consist of cut and fill of 44,842 cubic yards of material. The project includes off-site improvements to Ridge Creek Drive.	MND	01/17/2008
2007121090	P06-013, Log No. 06-08-009; Cricket; Del Dios Water Tank San Diego County Department of Planning and Land Use Escondido--San Diego The project consists of one 50-foot broadleaf to which three panel antennas will be mounted. Associated equipment includes one Nortel CMO cabinet, one PTC cabinet and one step down transformer that will be located within a 52-inch wide by 30-inches long by 55-inches deep. In addition, the project proposes eight Brisbane Box trees and seven Romneya Coulteri Matrija Poppy shrubs to camouflage the facility.	MND	01/17/2008
2007121091	Banner/Nextel CA8405; P06-046, LOG NO. 06-10-003 San Diego County Department of Planning and Land Use --San Diego A cellular wireless facility consisting of a 45-foot high faux water tank mounted with 15 panel antennas.	MND	01/17/2008

	filtration/vault system and repair of the parking lot; 2) construct a conveyance pipeline to the Municipal Water Yard within City streets and under Highway 101 and the Union Pacific Rail Road right of way; and 3) construct a percolation leach field at the Municipal Water Yard to discharge the spring water to the underflow of the Salinas River (a ground discharge).		
2007122059	Sycamore Creek Bicycle Path- Phases I and III, and Wildwood Avenue (City of Chico Capital Project 13046, 14014 & 17013) Chico, City of Chico--Butte The City plans to develop an approximately 4.4-mile Class I/II bicycle path along Sycamore Creek beginning at Five Mile Recreation Area, traveling along the south side of Sycamore Creek Diversion Channel and along existing levees adjacent to Sycamore Creek, ultimately terminating where Nord Highway crosses Mud Creek. The bicycle path facilities will be located on the top of the existing levees wherever feasible, and will tie into the existing bicycle path facilities north of the Foothill Park and Floral Avenue subdivisions, and to the Class I bicycle path proposed as part of the Mountain Vista/Sycamore Glen subdivision.	MND	01/17/2008
2007122061	Wind Energy Project Fairfield-Suisun Sewer District Fairfield--Solano The District is proposing to implement a wind energy project that would provide up to 102,000 kilowatt-hours of wind energy power annually to offset some of the electrical demands of the District's wastewater treatment plant operations; thereby decreasing its carbon footprint for energy use consumption. Specifically, The District is proposing to install and operate four (4) 50-kW turbines that would harness renewable wind energy resources and provide total generation capacity of up to approximately 200-kW of renewable electricity. Each of the four turbines would be approximately 100-feet tall and would have a three blade rotor with a diameter of 50 feet.	MND	01/17/2008
2007122063	Amendment of ECCID's SOI and Annexation of the Dutra Property and Adjoining Partial Parcels East Contra Costa Irrigation District Brentwood--Contra Costa The proposed project is to amend ECCID's SOI and annex the Dutra Property and adjoining partial properties, to allow ECCID to extend irrigation water to the property in conjunction with developing irrigated crops.	MND	01/17/2008
2007122064	TPM2006-0069 (Whatley) Yuba County --Yuba A request to create 4 lots from one parcel totaling 84.73 acres located on the south side of Hammonton-Smartsville Road, west of South Golden Parkway within the River Highlands Community Plan. The division of land will create parcels ranging from 20.29 acres to 23.13 acres. The project site is currently undeveloped land. The project would allow for the development of four single-family residences. The site is identified as Assessor's Parcel Number 006-220-124. The property is located in an "A/RR:5" Agricultural/Rural Residential (5 acre minimum lot size) zoning district.	MND	01/17/2008

2007121093	IRWD South Orange County Interconnect Project Irvine Ranch Water District Irvine--Orange The IRWD South Orange County (SOC) Interconnect Project would convey excess supply with IRED's water system to SOC water agencies in the event of a planned or emergency outage of imported water supplies. No new water supply would need to be developed in order to implement this project. The proposed project consists of construction of a permanent pump facility at IRWD's Zone 1 Reservoir in the City of Irvine; modifications to IRWD's Zone 3-4 Booster Pump Station located in the City of Irvine along with piping modifications in the cities of Irvine and Lake Forest; and construction of approximately 7,400 linear feet of interconnect pipeline within the cities of Irvine and Lake Forest to the South County Pump Station located in Lake Forest.	Neg	01/17/2008
2007122060	Elmhurst Creek Sediment Removal and Maintenance Project Oakland, City of Oakland--Alameda The Proposed Project includes the initial clearance and ongoing maintenance of Elmhurst Creek for the next five years (until 2011) with the intention of restoring the detention and conveyance capacity of the creek and establishing a mature riparian corridor. Initial Project activities include dredging/excavation, vegetation clearing, including the removal of six trees, bank shaping, minor channel realignment, revegetation of the creek, and replacement of the existing box culvert and overlying bridge at the east end of the Project Site. Ongoing maintenance activities would include removal of refuse, debris, and detritus obstructing the creek channel, clearing of non-native, invasive, or nuisance vegetation, and minor bank shaping. The Proposed Project is primarily a clearance effort, but would involve minor realignment along the current axis of the creek. Initial dredging/excavation would remove an estimated 2,000 cubic yards of accumulated sediment vegetation. Ongoing maintenance thereafter is estimated to remove about 50 to 100 cubic yards of accumulated sediment and vegetation annually. The banks of the creek would be reshaped, as needed. The final bank configuration would be further stabilized with bank stabilizing vegetation and other bioengineering controls.	Neg	01/17/2008
1990020181	Precise Plan Area #20NW Modesto, City of Modesto--Stanislaus The Amendment to the Village One Specific Plan and Precise Plan No. 20 will redesignate ~5 acres from "Multi-Family Residential)" to "Village Center." The Village Center land use designation allows commercial and professional office uses. The applicant plans to develop a Pharmacy on the subject property. The land use amendments are required to proceed with commercial development.	NOD

	are listed in Table I in 1401 at existing facilities. Because adding diesel PM to Table I in 1401 affects facilities subject to Rule 1402, it is necessary to perform an impact assessment for facilities subject to Rule 1402. Operators of facilities with three or more stationary emergency standby diesel-fueled internal combustion engines will be required under proposed Rule (PR) 1472 to submit a compliance plan and possibly reduce diesel PM emissions using strategies such as reducing testing and maintenance hours, installing add-on controls, averaging emissions and/or replacing older, high emitting engines with new engines. Compliance with PR 1472 would also exempt diesel-fueled internal combustion.		
2007121102	<p>Proposed Rule 2449 - Control of Oxides of Nitrogen Emissions from Off-Road Diesel Vehicles</p> <p>South Coast Air Quality Management District --Los Angeles, Riverside, San Bernardino, Orange</p> <p>The objective of PR 2449 is to use incentive funding to achieve surplus reductions of oxides of nitrogen (NOx) emissions from in-use off-road diesel vehicles by opting into the Surplus Off-Road Opt-In for NOx (SOON) provision of the California Air Resource Board's (CARB) regulation for these vehicles as promulgated in Title 13 of the California Code of Regulations (CCR) §2449.3. Implementation of the SOON program via PR 2449 is expected to achieve surplus NOx emission reductions of approximately 12 tons per day by 2014. These reductions are considered surplus because they would be in addition to the NOx emission reductions that are already required by CARB's base regulation (Title 13, CCR§ 2449, 2449.1, and 2449.2) for these vehicles. PR 2449 will require the largest fleet owners (i.e. greater than 20,000 horsepower) with the dirtiest (i.e., where 40 percent consist of Tier 0 and Tier 1 vehicles) off-road fleets operating in the district to either: 1) purchase new equipment; 2) repower existing equipment with newer, cleaner engines; or 3) retrofit existing equipment with NOx controls. The environmental analysis in the Draft EA concluded that PR 2449 would not generate any significant adverse environmental impacts.</p>	EA	01/18/2008
2005111040	<p>Residences at Saks Fifth Avenue</p> <p>Beverly Hills, City of Beverly Hills--Los Angeles</p> <p>The project site consists of two separate parcels, referred to as "Parcel A" and "Parcel B." Parcel A consists of two lots totaling 15,765 square feet located at the southeast corner of Wilshire Boulevard and Peck Drive. Parcel B consists of six abutting lots totaling 48,623 square feet located just south of the first alley south of Wilshire Boulevard. The project is analyzed in two different scenarios: development of Parcel B only and development of Parcels A and B combined. Components of both projects would include the vacation and realignment of alleys on Parcel B. Parcel B of the project includes an approximately 99,500 square foot residential development containing 40 luxury residential condominium units. Parcel A of the project includes an approximately 87,600 square foot mixed-use project containing 20 luxury residential condominium units and approximately 12,000 square feet of commercial/retail space, Parcels A and B combined includes 12,000 square feet of retail-commercial floor area, and 154,170 square feet of residential floor area contained in 60 dwelling units.</p>	EIR	02/04/2008

<u>Documents Received on Thursday, December 20, 2007</u>			
2006051043	<p>South Region High School No. 12 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>Acquisition of 14.7 acres for a new 200,000 sf high school for 2,025 seats with 75 classrooms, multi-purpose room, performing arts rooms, library, media center, career center, food services, administration rooms, space for custodial operations, and a 450-seat adult school program. An approximate 1,500-seat stadium, sports fields and courts, and a swimming pool are also proposed to be developed onsite, and the project involves partial renovation of Green Meadows Park for joint use with the City of Los Angeles.</p>	EIR	02/01/2008
2006101147	<p>Towne Center Perris, City of --Riverside</p> <p>The Towne Center project proposes to construct and operate a commercial shopping center consisting of approximately 484,265 square feet of building space for 19 tenants, surface parking areas and drive isles; screened loading docks; signage; lighting walls; roadway improvements, traffic controls, utility infrastructure; and landscaping. Two multi-tenant buildings and twelve smaller commercial buildings are proposed. Tentative Parcel Map No. 37999 is proposed for the subdivision of 58.8 acres into nine (9) parcels. Street Vacations are proposed for segments of Trumble Road and Encanto Drive. An amendment to the Riverside County General Plan Circulation Element also is proposed, which affects segments of Encanto Road, future 'A' Street, and Trumble Road. Off-site, the Project is conditioned to improve Encanto Road from two lanes between Trumble Road and Sherman Road and to construct improvements at teh Encanto Road/Sherman Road intersection.</p>	EIR	02/04/2008
2007061074	<p>Madera Redevelopment Project Amendment No. 3 and Associated Amendment Area Annexation Madera, City of Chowchilla, Fresno--Madera</p> <p>The Project involves the adoption and implementation of the Madera Redevelopment Project, Amendment No. 3, encompassing approximately 623 acres. The Amendment Area is comprised of four non-contiguous sub-areas within territory outside the City of Madera boundaries, but within its designated Sphere of Influence. The Project also includes certain procedural and technical changes to the Redevelopment Plan, which is comprised of the Existing Redevelopment Plan. The proposed Project also includes the annexation of the 623 acre Amendment Area into the City of Madera, which will require approvals both from the City and LAFCO.</p>	EIR	02/05/2008

<u>Documents Received on Thursday, December 20, 2007</u>			
2007121098	<p>Kettleman City Surface Water Treatment Plant and Commercial Water Storage Tanks Kettleman City Kettleman--Kings</p> <p>The applicant is proposing to upgrade the community potable water system by installing a water treatment plant and commercial water storage tanks in two phases. Phase 1 consists of the construction of a water treatment plant that would treat water from the California Aqueduct. A new turnout will be constructed where the raw water supply would be pumped and cleaned with a membrane filtration and chloramine disinfection treatment process. The proposed capacity of the treatment facility is 900 gallons per minute (gpm) or 1.3 million gallons per day (MGD). No chemicals are required for the water treatment process except for small amounts of disinfectant, which will be injected into the water as it leaves the plant. Piping will be installed connecting the water treatment plant to the existing Community Service District water lines.</p> <p>Phase 2 consist of the construction of a Commercial Tank Facility which includes two 250,000 gallon welded steel water storage tanks, vertical centrifugal booster pumps, PVC pipelines, and electrical control building sitting on approximately 2 acres along with pipelines connecting to the existing Community Service District water lines.</p>	MND	01/18/2008
2007121104	<p>Fillmore Santa Clara River Permeable Weirs Fillmore, City of Fillmore--Ventura</p> <p>The City of Fillmore proposes to install a number of palisades along the Wastewater Treatment Plant and Riverwalk development to minimize erosion and facilitate accretion of sediments on the bank during storm flows in the Santa Clara River. The net effect would be to stabilize the north bank, improve flood protection and provide wildlife habitat. These palisades are permeable weirs that trap sediment and allow for passage of storm flows. Each palisade would consist of three or four steel pipe piles driven into the streambed to form a linear unit at an angle of approximately 25 degrees downstream from perpendicular to the flow. The project also includes revegetation of the area affected by palisade installation, including planting native riparian species, such as willows, mulefat, cottonwoods and sycamore.</p>	MND	01/18/2008
2007122065	<p>Wayfarer Court to Darkhouse Pipeline Nevada County Irrigation District --Nevada</p> <p>1100 Linear feet of pipeline connecting two water systems and water pressure zones</p>	MND	01/23/2008

	lots with the removal of 52 protected trees. The applicant is required to apply for annexation into the County Area L-100 Lighting District.		
2007122066	Arroyo Vista Development Project (PA 07-028) Dublin, City of Dublin--Alameda The proposed project includes demolition of the existing 150 dwellings on the project site and constructing up to 378 new dwellings on the site, including a mix of market rate and income-restricted dwellings, both single family and multi-family "for sale" dwellings and rental apartments.	NOP	01/18/2008
2007122069	Solano General Plan Solano County Vallejo, Benicia, Fairfield, Dixon, Suisun City, Vacaville, ...--Solano Comprehensive update of the Solano County General Plan. The updated General Plan has been significantly revised and reorganized. The primary objective of the updated plan is to provide policy guidelines for future development and conservation in the unincorporated portions of Solano County and to adapt the document to pertinent issues that have emerged since the preparation of the previous elements. The 2008 Draft General Plan contains nine chapters, and includes sections addressing issues not previously covered by the current plan.	NOP	01/18/2008
2006042092	PA-0500836/Site Approval Application San Joaquin County Community Development Department Lodi--San Joaquin Time extension for a previously approved Site Approval Application to construct a 3,600 square foot building to be used for a eating establishment (Use Type: Eating Establishment-Convenience).	Neg	01/18/2008
2007121097	Monterey Peninsula College Education Center at Imjin Parkway Monterey Peninsula Community College District Marina--Monterey The project involves construction of a 12,000 square foot building designed with eight 30-35 seat classrooms, one unassigned classroom, one office suite, and additional space for building services. The project includes a one acre landscape buffer and a 161 space parking area with access provided via 3rd Avenue (drop off, ADA, and visitor parking) and via 12th Street (staff and student parking). Although MPC has preliminary plans for the 12.67-acre project site, there is only funding at this time to develop about 4.4 acres, or "Phase I" of the campus. Future phases of development of the campus will require subsequent environmental review under the California Environmental Quality Act, when enrollment justifies expansion and funds are available.	Neg	01/18/2008
2007121099	Environmental Review, DR 07-23 Lompoc, City of Lompoc--Santa Barbara The project consists of proposal to demolish a single-family residence. The structure was built in 1903 and is not listed as a historic structure in the California Register of Historical Resources or the City of Lompoc Cultural Resources Study. This structure is a vacant single-family dwelling. The project is located in the Single Family Residential Zoning District at 326 South H Street, Lompoc, CA 93436, Santa Barbara County. 2003032112	Potrero Hills Landfill Expansion Solano County, Department of Environmental Planning Services Fairfield--Solano On November 24, 2003, Solano County released the Draft Environmental Impact Report for the Potrero Hills Landfill Expansion Project (Draft EIR). The Draft EIR evaluated the environmental impacts associated with the proposed expansion of the Potrero Hills Landfill. The Board of Supervisors held a public hearing on September 13, 2005, at which time the Board certified the Final EIR. Following certification of the Final EIR, a CEQA challenge was filed in the Solano County Superior Court. On February 26, 2007, the Court issued its decision in the matter <i>Protect the Marsh v. County of Solano, et al.</i> , Case No. FCS026839, Solano County Superior County. The Court found that the Final EIR certified by the County of Solano in September 2005 was deficient in three limited areas: air quality, water supply and alternatives. This Revised EIR addresses these areas of impact analysis and provides updated information developed since the certification of the Final EIR.	EIR	02/04/2008
2007012109	178 Townsend Project San Francisco, City and County of San Francisco--San Francisco The project site at 176 Townsend Street is occupied by the California Electric Light Company Station B building, a contributory building within the South End Historic District. The Project Sponsor proposes to rehabilitate and convert the building from its current use as a valet parking garage to a residential use with up to 85 housing units and accessory off-street parking for the residential uses. The proposed project also includes ground-floor retail uses. The proposed uses would be housed in a five-story building that would be constructed within the footprint of the existing building on the site, totaling approximately 98,900 gross square feet (gsf), with up to 71,500 gsf in residential uses and up to 1,050 gsf in retail uses as well as parking space, open space, common area, and building service space. New construction would include a partially below-grade parking garage, a five-story structure containing the residential and retail components, and street improvements along Clarence Place. The proposed new structure would be	EIR	02/04/2008

	<p>contained within the walls of the existing historic structure and would be set back 40 feet from the Townsend Street facade. The new building would rise above the historic structure's existing 23 to 40 foot tall roofline to a maximum height of 50 feet. The ground-floor level would include an enclosed entry courtyard accessible from the Townsend Street entrance, leading to a central hallway connecting to three smaller internal courtyards that would be open to the floors above.</p> <p>Approximately 5,373 gsf of common usable open space would be provided in the entry courtyard and a roof-top deck. Balconies would provide an additional 3,754 gsf of private open space for 38 of up to 85 proposed units. A one-level, 13,200-gsf, partially underground parking garage would include 74 parking spaces for use by the projects residents, with 72 spaces provided by two-car stackers, as well as 33 bicycle parking spaces in stacked lockers. The garage would be accessed through an existing opening in the facade on Clarence Place.</p>		
2007051133	<p>Fillmore Business Park Master Plan Fillmore, City of --Ventura</p> <p>The proposed project includes a Master Plan to guide development of a business park on about 90 acres. Phase 1 would involve the development of just under 1.2 million square feet of business park, office, local serving commercial retail, industrial, warehouse and self storage on about 82 acres. Phase 2 would involve development of about 94,678 square feet of additional business park uses throughout the remainder of the Plan Area. The overall FAR for the Plan Area at buildout would be 0.40.</p>	EIR	02/04/2008

2007121095	Panoche Energy Center Energy Commission --Fresno	FIN	
2007121107	UCLA Hilgard Graduate Housing Project University of California, Los Angeles Los Angeles, City of--Los Angeles UCLA proposes to redevelop three University-owned, off-campus undergraduate student housing facilities to help address continued unmet need for affordable housing within walking distance to campus for single graduate students. The properties are located at 720, 726, and 824 Hilgard Avenue across the street from the eastern border of the campus. The proposed project would demolish the existing structures and construct new apartment-style accommodations on two sites (720-726 and 824) for a total of 82 studio units and 53 subterranean parking spaces with overflow parking provided on campus in Parking Structure 2, if needed. In addition, the new buildings would be designed and constructed to meet the UC-equivalent LEED New Construction "certified" green building requirements, and would be substantially consistent with the height, setback, and density requirements of the Westwood Community Plan. Implementation of the proposed project would result in a reduction in the number of student residents currently accommodated at the existing sites from approximately 109 undergraduate to 82 graduate students. The project design reflects a Mediterranean-style architecture with open courtyards that is compatible with the existing Hilgard Avenue multifamily residential streetscapes. The approximately 21-month construction period is anticipated to begin in Fall 2008.	MND	01/22/2008
2007121108	O'Neill Vintners & Distillers Fresno County Reedley--Fresno Allow an expansion to an existing winery that will increase the total processing capacity by 10.2 million gallons, and includes 81 stainless steel tanks and related processing equipment, on a 2.4-acre portion of a 17.2-acre parcel.	MND	01/22/2008
2007121112	Santiago Vista Estates (PM 2007-173/PA 07-0042) Orange County --Orange Parcel Map 2007-173 and Site Development Permit (PA07-0042) for the subdivision of a 28.5 acre property into four parcels. Each parcel will be a minimum of 4 acres net per the Silverado-Modjeska Specific Plan. Parcels will be accessible from private driveways off a new access road with intersects with Williams Canyon Road. The proposed project is the construction of finished pads and vehicular access per the requirements of the Silverado-Modjeska Specific Plan. Individual custom homes will be designed and built separately through the issuance of building permits at a future date.	MND	01/23/2008
2007121114	Rancho Cucamonga Sheriff Substation & Property Transfer San Bernardino County Land Use Services Department Rancho Cucamonga--San Bernardino The project site is proposed to be located in the northerly portion of the City of Rancho Cucamonga, on approximately two (2) acres on at the southwest corner of Milliken Avenue and the extension of Grizzly Way. The Substation would serve the northerly portion of Rancho Cucamonga and the Mt. Baldy, San Antonio Heights and Lytle Creek unincorporated areas. The property transfer of approximately two (2) acres would initially convey San Bernardino County Flood Control District land	MND	01/25/2008

	to the County of San Bernardino, then ownership would be conveyed to the City of Rancho Cucamonga.		
2007121115	Yucaipa Valley Water District Brineline Project Yucaipa Valley Water District --San Bernardino, Riverside A byproduct of reverse-osmosis is waste brine, which must be properly disposed of in order to protect basin water quality and comply with the Regional Water Quality Control Board. In order to provide disposal of waste brine and excess non-potable water, the District is proposing the extension of the existing Santa Ana Regional Interceptor (SARI) pipeline into the Yucaipa Valley. This is referred to as the District's Brineline Project, and will allow waste brine and excess non-potable water to be conveyed directly to Orange County for treatment with eventual disposal into the Pacific Ocean. The SARI pipeline, which this project would be a new component of, transports brine and wastewater from Orange, Riverside and San Bernardino Counties to Orange County Sanitation District's Regional Treatment Plant No. 1 or No. 2 prior to discharge into the Pacific Ocean.	MND	01/22/2008
2007121117	Johann Dairy, Maddox Dairy and Lone Oak #2 Dairy Fresno County --Fresno Allow the installation and operation of anaerobic digesters to collect and digest cow manure from the existing dairy and import nonhazardous agricultural waste materials to produce biogas to be piped by a proposed 7.5 mile pipeline to an existing PG&E gas pipeline, located along the McMullen Grade alignment.	MND	01/24/2008
2007121118	Shehadey Dairy Fresno County Mendota--Fresno Allow the installation and operation of an anaerobic digester to collect and digest cow manure from the existing dairy and import nonhazardous agricultural waste materials to produce biogas to be piped by a proposed 5.5 mile pipeline to an existing PG&E gas pipeline, located approximately two miles east of the City of Mendota.	MND	01/24/2008
2007122075	Alder Dive/State Route 89 North Roundabout Truckee, City of Truckee--Nevada The project will construct a roundabout at the intersection of SR-89N and Alder Drive-Prosser Dam. Existing traffic control at the intersection consists of stop signs at Alder Drive and Prosser Dam Road. The roundabout will be single lane roundabout that is roughly centered on the existing intersection. The roundabout will include a Class I bicycle/pedestrian Gray's Crossing internal path that will provide access to all four quadrants. The path will also connect to the path system of the Frishman Hollow housing development on the south side of Alder Drive. The proposed bicycle path is 8 feet wide, requires 6 feet of separation from the roadway, and a 2 foot shoulder on the outside, for a total width of approximately 16 feet.	MND	01/22/2008
2007122076	TPM2007-0022 Yuba County --Yuba A request by Petrovich Development Corporation to subdivide a total of 51.26 acres, consisting of two parcels, to create twenty-seven commercial lots and two lots for open space (to contain Algodon Slough). The project site is currently	MND	01/22/2008

	undeveloped. The division of land will create commercial lots ranging in size from 0.54 acres to 11.92 acres. The twenty-seven commercial lots will be developed with approximately 505,540 square feet of commercial floor area to be occupied by such uses as general retail, gas stations, restaurants and a hotel. The project site is located within the eastern half of the intersection of River Oaks Blvd & Plumas Lake Blvd in the Plumas Lake community. The site is identified as Assessor's Parcel Numbers 016-040-090 & 016-040-091. The property is shown on the General Plan Land Use Diagram as within the Plumas Lake Specified Plan designation of Community Shopping Center within the Planning Reserve zoning district.		
2007122077	Vineyard Knolls Residential Subdivision (EG-06-1116) Elk Grove, City of Elk Grove--Sacramento The proposed project is located in the northeastern portion of the City of Elk Grove. The project includes a rezone of one 5.0 acre parcel from Agricultural Residential (AR-5) to Single Family Residential (RD-4), a Tentative Subdivision Map creating 18 single-family residential parcels, and abandonment of an irrevocable offer of dedication. Construction of new homes is not proposed at this time and is not part of the request approval. Off-site drainage facilities are proposed as part of this project. The proposed subdivision development is consistent with the City of Elk Grove General Plan, which designates the site for single family residential development with a housing density range of 0.6 to 4.0 dwelling units per acre. The lots created meet the minimum RD-4 zoning standards for minimum lot size and dimensions.	MND	01/22/2008
2007122078	Empire Station Oakley, City of Oakley--Contra Costa The Empire Station project requires approval of the following entitlements: Adoption of an Initial Study/Mitigated Negative Declaration; Approval of a General Plan Amendment from Agricultural to Multi-Family Residential, High Density (MH) and Commercial (CO); Approval of Rezone from General Agriculture (A-2) to Planned Unit Development (P-1); Approval of a Tentative Map; Design Review for the construction of three office buildings totaling 9,000 square feet, and Approval of a Development Plan for 47 residential townhome lots.	MND	01/22/2008

	installation of a new culvert; 3) installation of an approximately 180-foot long wingwall and associated rip-rap on the upstream side of the road crossing; and 4) installation of approximately 150-foot long headwall and associated rip-rap on the downstream side of the road crossing.		
2006092118	South Lathrop Specific Plan EIR Lathrop, City of Lathrop--San Joaquin The South Lathrop Specific Plan (SLSP) project consists of an application to annex approximately 689 acres of land in unincorporated San Joaquin County in the City of Lathrop and the approval of the appropriate entitlements to plan for the ultimate development of that area. The SLSP would be developed with residential, office, commercial, industrial, research and development flex, parks and open space, school, and transit uses.	NOP	01/22/2008
2007121110	Grassland Bypass Project San Luis and Delta Mendota Water Authority Los Banos--Merced, Fresno, Stanislaus Extend the existing Grassland Bypass Project with a new Use Agreement (for San Luis Drain) with Bureau of Reclamation until December 31, 2019. The original project, as well as the proposed extension, consolidates subsurface drainage flows on a regional basis (from the 97,000-acre Grassland Drainage Area); applies the drainage to salt tolerant crops to reduce the volume; utilizes a 4-mile channel to place it into the drain at a point near Russell Avenue, and utilizes a 28-mile segment of the drain to convey the remaining drainage flows around wetland habitat areas and then discharges to Mud Slough (north) and subsequently to the San Joaquin River.	NOP	01/22/2008
2007121111	American Ehtanol, Inc. Ethanol Plant Santa Barbara County Santa Maria--Santa Barbara American Ethanol, Inc. (AEI) proposes to construct and operate a corn-based ethanol production plant in northern Santa Barbara County. The proposed plant would produce 110 million gallons per year (mmgy) for ethanol for blending with gasoline. The plant would use corn shipped by railcar from the Midwest for feedstock and would operate 350 days per year, 24 hours per day. Components of the plant include tanks and vessels of varying sizes, piping, storage and operations and maintenance buildings. The project also includes a new 10-inch diameter PVC pipeline to transport process water to the site from the Laguna County Sanitation District wastewater treatment plant.	NOP	01/22/2008
2007122072	Lowe's/Old Ward Ferry EIR Sonora, City of Sonora--Tuolumne In 2005, the City of Sonora adopted a Mitigated Negative Declaration (MND) and approved the design review and site plan application for a new Lowe's Home Improvement Center. The Lowe's project proposed construction of a 111,196 square foot building (94,000 square feet of merchandising area) and 27,720 square foot garden center, on approximately 10.74 acres of a 16.54 acre site located to the west of Old Wards Ferry Road, south of the Sierra Railroads tracks. Access to the site would be from two points along Old Wards Ferry Road - one on the north end of the site near the Sierra Railroad tracks, and one on the south end adjacent to the State Highway 108 right-of-ways, primarily to serve truck traffic. The project site is located in a largely commercially developed eastern portion of	NOP	01/22/2008

	the City of Sonora which includes existing major retail tenants.		
2007122074	2555 Pulgas Avenue Live-Work Project East Palo Alto, City of Palo Alto--Santa Clara The project applicant is proposing to demolish the existing industrial structures and a single family house on the project site in order to redevelop the former industrial property with 80 live-work units. Sixteen of the live-work units would be affordable to very low, low-, and moderate-income households; eight would be constructed to meet the accessibility requirements of the Americans with Disabilities Act (ADA) of 1990. A one-story community building, a playground and open space, a trail, a bioswale for the treatment of storm water, new public streets with on-street parking, are proposed, street trees and other landscaping would be installed throughout the development.	NOP	01/22/2008
2007122079	Western El Dorado County Materials Recovery Facility (MRF) El Dorado County Planning Department Diamond Springs--El Dorado The applicant is proposing to relocate the Western El Dorado County Materials Recovery Facility (MRF) from its existing location at the southern terminus of Throwitaway Drive to a vacant, 17.9-acre industrially zoned site located at the terminus of Industrial Drive. The proposed project would consist of two major actions: demolition of the existing MRF on Throwitaway Drive and construction/operation of the proposed MRF on Industrial Drive. The proposed MRF would be an enclosed, state-of-the-art facility that would comply with State requirements for solid waste handling, transfer, and processing operations as outlined in Division 7, Title 14 CCR. The design of the proposed MRF would restrict the unloading area to as small an area as practicable, provide adequate control of windblown material, and minimize the propagation or attraction of flies, rodents or other vectors. The proposed MRF would include an enclosed 45,000 square foot recycling center, a 15,000 square foot truck maintenance facility, and a 6,000 square foot office, as well as a scale house and masonry annex. The structural elements would be sited on the central and western portions of APN 329-240-49, south of Industrial Drive. The applicant proposes to separate the MRF from the rest of the property and to allow for the future development of additional permitted industrial uses in the northern and eastern portions of the parcel. Development of additional permitted industrial uses would be consistent with the El Dorado General Plan and existing zoning designation.	NOP	01/22/2008
2007091073	Bar 20 Dairy San Joaquin Valley Air Pollution Control District Kerman--Fresno The project proponent has applied to the San Joaquin Valley Air Pollution Control District for a permit to increase the number of milking cows on existing dairy facilities by 6,496 from 2,904 to 9,400; and make concomitant changes in the dairies' support stock. The dairy facilities (corrals, dairy barn, feed storage, manure management area and process water storage area, etc.) are located at 24387 Whites Bridge Road (SR-180), approx. six miles west of Kerman, in Fresno County. 1997081036	California State University Monterey Bay (CSUMB) 2007 Master Plan California State University Trustees Seaside, Marina--Monterey The California State University is the Lead Agency and has prepared a Draft EIR for the CSUMB 2007 Master Plan. The EIR includes a programmatic analysis of the potential environmental effects of implementation of the 2007 Master Plan, as well as specific, identified Near-Term Projects at a project level.	EIR	02/15/2008
2007061138	Ventanas Business Center San Juan Capistrano, City of San Juan Capistrano--Orange The project proposes to construct eleven multi-tenant, office-industrial buildings with a total of approximately 236,329 gross square feet (GSF) of building area with an 0.275 gross floor area ratio (FAR), and 0.387 net floor area ratio. Associated site improvements include the following: project entrances along Calle Arroyo; approximately 669 parking spaces, stormwater drainage and water quality management, landscaping, trash enclosure structures, flood protection, park/open space, and related improvements. The project also proposes to stabilize the San Juan Creek bank edge, which has been previously subject to extensive storm erosion, using a steel sheet piling system. The proposed sheet piling would allow stream bank stabilization without the need for grading or construction within the creek corridor.	EIR	02/06/2008

2007022111	In-Line Booster Pump Station Project West Sacramento, City of West Sacramento--Yolo The City of West Sacramento intends to construct, operate, and maintain an in-line booster pump station. The facility increases pressure for the water distribution system in the Southport area, and provides additional flexibility in keeping surface reservoirs full. The ILBPS is designed to meet the maximum day demand at buildout conditions in Southport. The facility is located on 1.2 acres and will be housed in a 4,600 sq. ft. building and includes installation of 5 pumping units and a backup diesel generator.	MND	01/22/2008
2007121120	South Lena Road Extension in the City of San Bernardino Inland Valley, City of San Bernardino--San Bernardino The project proposes to extend South Lena Road from East Central Avenue south to Orange Show Road in the City of San Bernardino, a linear distance of approximately 0.4 mile. The roadway is generally straight, except for a slight curve in the northern portion. The project will result in the removal of one single family unit and may require minor relocation or realignment of existing or planned water lines in Lena Road.	MND	01/22/2008
2007121124	Hooper; TPM 20960RPL^2, Log No. 05-08-025 San Diego County Department of Planning and Land Use --San Diego The project is a minor residential subdivision of 4.54 net acres into two parcels measuring 2.2 and 2.33 net acres. Grading consists of 2,905 cubic yards of cut, 878 cubic yards of fill, and 2,027 cubic yards of export. Access will be obtained from an existing road easement via North Broadway. The entire project will be served by the following agencies/districts: Rincon Del Diablo Municipal Water District, Deer Springs Fire Department, Escondido Union Elementary School District, and Escondido Union High School District. The project will rely on private septic systems.	MND	01/22/2008
2007121126	Proposed Tentative Tract Time Extension PLN07-00148 Victorville, City of Victorville--San Bernardino To allow for the development of a 255-lot single-family residential subdivision.	MND	01/22/2008
2007121127	Plot Plan No. 22255 Riverside County Planning Department --Riverside Plot Plan No. 22555 proposes two buildings totaling 20,710 square feet with a Floor Area Ratio of 0.24 on 1.93 gross acres. Building one is 7,850 square feet for a child care facility and building two is 12,860 square feet for medical office use (1st floor is 6,685 square feet, 2nd floor is 6,175 square feet). The plot plan also proposes 28,778 square feet of landscaping and 74 parking stalls with 6 accessible parking stalls for persons with disabilities.	MND	01/22/2008
2007121128	Conditional Use Permit No. 3508 Riverside County Planning Department --Riverside Conditional Use Permit No. 3508 proposes a 12,024 square foot gasoline station on a 4.12 gross acre site (3.39 net acres) with a project floor area of 0.12 to be built as phase one. The project consists of the following: 6,904 square feet for a canopy with eight gasoline dispensers and one diesel dispenser located on pumps	MND	01/22/2008

	9 & 10; 5,120 square feet for a two-story building with a convenience store, restaurant, and offices; 35 parking stalls; one loading space; 4,153 square feet (11%) of landscaping; and 100,817 square feet (56%) of paved area. The second phase (2.69 gross acres) will be developed at a later time as a separate permit. The use permit is also to permit the sale of beer and wine (type 20) for off premises consumption for the proposed convenience store.		
2007121129	Fullerton Turnback Facility Orange County Transportation Authority Fullerton--Orange OCTA with Metrolink proposes construction of a second track at the Fullerton Transportation Center (Fullerton Metrolink Station) between Harbor Boulevard and Orangethorpe Avenue. The purpose of this project is to provide a turn-around location for Metrolink trains providing 30-minute intra-Orange County service. Project includes: terminal track, storage track, modification of the platform at Fullerton Metrolink Station, and relocation of a communications building. The terminal track is a stub end track along Walnut Avenue. The construction of this track will require modification of the south passenger platform, ending just east of the pedestrian overpass. An optional additional track line, the Anaheim Layover Facility, is proposed as an overnight layover and storage facility for trains between Orangethorpe and SR-91.	MND	01/22/2008
2007121130	601 North Parkcenter Drive Santa Ana, City of Santa Ana--Orange The 601 North Parkcenter Drive project proposes to construct a five-story mixed-use development. The building would be comprised of 136 for-sale multiple family units located within levels two through five and approximately 7,600 square feet of office space located on the ground floor. Residential amenities, including an exercise room and clubhouse, would be located on the ground floor and a pool/spa and courtyard area would be located on the second level. Parking for the proposed project would be provided in one level of subterranean parking and on the ground floor. The ground floor parking would be situated behind the office uses, clubhouse and exercise room, which would be located adjacent to Parkcenter Drive and 6th Street. A total of 292 parking spaces would be provided, including five handicap accessible spaces and 58 tandem spaces.	MND	01/22/2008
2007121131	Plot Plan No. 21140 Riverside County Planning Department --Riverside Plot Plan No. 21140 proposes a 99,939 square foot mini self storage facility on a 4.73 gross acre site with a floor area ratio of 0.48 (Heavy Industrial requires a 0.15-0.50 Floor Area Ratio and Business Park requires a 0.25-0.60 Floor Area Ratio). The self storage facility consists of the following: a 2,123 square foot office with a caretakers unit; nine buildings - building A with 12,347 square feet, building B with 10,480 square feet, building C with 11,700 square feet, building D with 6,500 square feet, building E with 13,110 square feet, building F with 8,370 square feet, building G with 11,025 square feet, building H with 14,849 square feet, and building I with 8,679 square feet; 7 standard parking spaces; 1 ADA parking space; 23,893 square feet (12%) of landscaping; and 83,062 square feet (40%). 2007121132	<p>Tentative Parcel Map No. 35219 and Plot Plan No. 22461 Riverside County Planning Department Wildomar--Riverside Tentative Parcel Map No. 35219 proposes a schedule E subdivision of a 10.93 net acre site into seven commercial parcels and one legal parcel for parking purposes.</p> <p>Plot Plan No. 22461 proposes to construct an 87,635 square foot Commercial Center on a 10.93 net acre project site, which includes 11,717 square feet of Office Space in Building A (2-story building), 7,768 square feet of Retail Space in Building B, 3,600 square feet of Restaurant Space on Pad C, 3,470 square feet of Restaurant Space on Pad D, 6,000 square feet of Restaurant Space on Pad E, 7,491 square feet of Retail Space in Building F-1, 9,513 square feet of Retail Space in Building F-2, 18,000 square feet of Retail Space in Building G, and 20,076 square feet of Retail and Office Space in Building H2 (2-story building). The total development proposal includes 87,635 square feet of building area, 479 parking spaces, and off-site improvements on two adjacent parcels to accommodate grading improvements along the project site's easterly boundary.</p>	MND	01/22/2008
2007121133	<p>Plot Plan No. 22372 Riverside County Planning Department --Riverside Plot Plan No. 22372 proposes to construct a 2,530 square foot wine tasting building with an office attached to the existing 8,250 square foot storage building and 28 parking spaces. The project proposes to host special events from 5 pm to 10 pm Monday through Sunday with most events taking place on the weekends; these events will consist of forty special events with a maximum of 50 guests. Seventy-six percent of the project site is currently planted in vineyards and will remain.</p>	MND	01/22/2008
2007122083	<p>McGaughey Two-Phased Final Map Subdivision Humboldt County Community Development Services --Humboldt A Final Map Subdivision to be recorded in two phases. Phase I, consisting of the resubdivision of two separate legal parcels on the north side of Cypress Avenue, will result in seven lots, ranging in size from 7,000 square feet (net) to 13,000 square feet (net). This Phase already has a residence located on proposed Lot 2. A Special Permit is in the process for a second residence to be constructed on proposed Lot 1 prior to recordation of Phase I. Phase II consists of the subdivision of one parcel into six lots ranging in size from 6,104 square feet (net) to 8,340 square feet (net). This Phase will occur on the south side of Cypress Avenue. Both parent parcels are under one ownership and, but for the location of Cypress Avenue, a public road, would be adjacent to each other. The neighborhood is provided water and sewer services by HCSO. An exception is requested per §325-9 of the Subdivision Regulations to allow for the "flag lot" design of Lots 1, 3, 4, 12, and 13. The subdivision results in an additional seven parcels above and beyond the existing six for a total of 13 parcels.</p>	MND	01/22/2008

	buildings totaling 210,066 square feet. No improvements have been identified for the remaining two parcels.		
2007121121	301 University San Diego, City of San Diego--San Diego The project consists of the construction of an approximately 280,000 square foot, 12-story mixed-use building, containing both commercial and residential uses. The proposed building would include 10,304 square feet of ground floor commercial retail space while providing 96 residential condominium units and parking. The 96 residential units would be distributed among floors 4 through 12 and would include 23 one-bedroom units (779 to 1,647 square feet), 62 two-bedroom units (1,029 to 2,617 square feet), and 11 three-bedroom units (1,999 to 3,486 square feet). The proposed project would include 24 commercial vehicular parking spaces, 177 residential vehicular parking spaces, and 121 public vehicular spaces, all within a six level parking facility that would include two levels of subsurface parking for a total of 322 parking paces. The project would include demolition of two existing commercial buildings and two adjacent parking lots.	NOP	01/22/2008
2007121122	'Mountainview Homes' Residential Development Santa Barbara County --Santa Barbara Request of Mr. Steve Orosz, SRI Two, LLC, for a Tentative Tract Map and Development Plan to create 58 residential lots and one common open space lot on a 5.72 acre parcel. A single-family manufactured home would be placed on each of the proposed 58 residential lots. The proposed residential lots vary in size from 2,045 square feet to 2,497 square feet. The proposed single-family manufactured homes would vary in size from 780 square feet to 1,450 square feet. One manufactured recreational clubhouse and miscellaneous ancillary structures (swimming pool, trash enclosures, etc.) would be located within the common open space lot.	Neg	01/22/2008
2007121123	San Juan Capistrano Ortega Highway Pipeline Project San Juan Capistrano, City of San Juan Capistrano--Orange The proposed project consists of the construction of approximately 5,287 linear feet of 12-inch diameter potable water main pipeline within the Ortega Highway right-of-way. The pipeline would be installed during the proposed widening of the Ortega Highway, currently under consideration by the California Department of Transportation (Caltrans). By installing the pipeline during Caltrans' construction period, the City would minimize direct impacts of the project and avoid the need to disrupt the street in the future. The project would increase the reliability and quality of service within the existing water distribution system to adequately serve existing users, and to meet increasing fire safety demands. The pipeline would be constructed within the paved roadway at depths ranging from approximately 4 to 5 feet below the existing surface. The project is anticipated to include trenching excavation, pipeline installation, backfilling, compacting, and soil replacement all within the construction zone of the Caltrans road widening project. 2007121145	Red Oaks Torrance/Tract Map No. 067784 Los Angeles County Department of Regional Planning Carson--Los Angeles The project applicant, Shea Presidio Red Oak LLC, proposes to construct a four-story, multi-family development with a total of 246 residential apartment units. The development would consist of 143 one bedroom units, 95 two-bedroom units and eight three-bedroom units. With a site area of 4.39 net acres, the proposed project would have a density of 51.9 dwelling units per acre. Altogether, the proposed project would contain 214,466 square feet of usable floor area. The proposed project would also provide 431 parking spaces in a five-level above ground parking garage, its location proposed in the north-central portion of the project site. Additional amenities would include a 1,855 square-foot fitness center with a pool and a 1,027 square-foot leasing office/business center/recreation room. All onsite structures would be demolished and the existing pavement would be removed to accommodate the proposed project. Of the 246 units proposed, 22 units are to be set aside as low-income affordable units, with the remaining 224 units at market rate. A density bonus, under the new County Ordinance regulations which permit a higher density for affordable housing, has been requested by the applicant. A general plan amendment to change the existing land use category from Industrial to Category 4 - High Density Residential (22+ units/acre) is proposed. A zone change from M-1 (Light Manufacturing) to R-4-(50)U (Unlimited Residence Zone - 50 Units/Acre) is also proposed, along with a conditional use permit for the development program. The proposed height of the residential structure is 50 feet, while the proposed height of the parking structure will be up to 54 feet.	MND	01/25/2008

2007121157	Site Plan Review 06-26 Lancaster, City of Lancaster--Los Angeles The applicant proposes to develop a 7,800 square foot office with a shop for diesel truck repair service on 0.84 acres of a 2.31 acre site. The building would consist of 1,800 square feet for office area and 6,000 square feet for diesel truck repair.	MND	01/28/2008
2007121159	Santa Rosa Water Reclamation Facility Expansion & Solar Power Project Rancho California Water District Murrieta--Riverside To meet anticipated demands for wastewater treatment and service commitments, the Rancho California Water District (the District) proposes to expand the wastewater treatment capacity of the Santa Rosa Water Reclamation Facility (SRWRF) from 5 million gallons per day (MGD) capacity to 7 MGD. The District also proposes to change the existing Sequencing Batch Reactor (SBR) secondary treatment process to an extended aeration activated sludge treatment process. Additionally, the District is proposing to construct a 1.2-megawatt (MW) solar power generation facility on the 9-acre, District-owned site located immediately north of the SRWRF property. All project activities would take place within the existing 59.4-acre SRWRF site or within the 9-acre solar site, both of which are located off Washington Avenue, in the City of Murrieta.	MND	01/28/2008
2007122093	Royal Ridge Truckee, City of Truckee--Nevada The project proponent is requesting land use and zoning approvals to construct six mixed use commercial/residential buildings and 48 townhome units on a 8.05 acre parcel. The six mixed-use commercial building buildings will contain 22,740 sf of commercial floor space (office, retail, restaurant) and 12 residential condominiums.	MND	01/28/2008
2007121154	Mountain View Avenue Extension and Widening Project Inland Valley, City of San Bernardino, Redlands--San Bernardino The project being proposed for implementation consists of removing the existing abandoned railroad bridge across the Sana Ana River, constructing a new bridge over the Santa Ana River, replacing the bridge over Mission Creek, partial acquisition of selected properties within the right-of-way, expansion of Mountain View Avenue north of I-10 to the proposed Santa Ana River bridge, and connecting the new road to Central Avenue. 	June 2000 and includes a Final Development Plan (Case No. 99-CP-001), a Conditional Use Permit (CUP) (00-CUP-032) required for construction in a Transportation Corridor zone (within a parcel owned by the Union Pacific Railroad), and a CUP (99-CP-002) for construction of four employee dwellings and for construction of a 10-foot sound wall within the front yard setback.		
2007122096	Natomas Century Plaza Project Sacramento, City of Sacramento--Sacramento The project is located at the southwest corner of Del Paso Road and El Centro Road in the North Natomas area of the City of Sacramento. The project seeks entitlements to develop 396,000 sf of retail and 45,000 sf of office on approximately 45.1 acres.	NOP	01/28/2008
2007121156	Elsinore West Business Park, General Plan Amendment No. 2007-06, Conditional Use Permit No. 2006-02, Industrial Design Review No. 2006-02, and Tentative Parcel Lake Elsinore, City of Lake Elsinore--Riverside The applicant is proposing a General Plan Land use designation change from "Floodway" to "Freeway Business" for Parcel No. 377-190-002 and portions of Parcel Nos. 377-190-003 and 004. The project also includes construction of five (5) detached single and two-story industrial/commercial buildings totaling 41,308 square feet on a 3.03 acre site within a partially developed portion of the City of Lake Elsinore. Businesses will include home design, recreation sales, industrial supply, general office, and light industrial services.	Neg	01/28/2008
2007121160	Piedras Grandes Road Closure Parks and Recreation, Department of --San Diego Approximately 560 acres of the Piedras Grandes region in southern Anza-Borrego Desert State Park would be closed to motorized vehicles and overnight camping to protect sensitive cultural resources. The area would still be open for day use hiking, mountain biking, and equestrian activity. The existing jeep road leading into Piedras Grandes, at its junction with the dirt road leading to Dos Cabezas Spring, would be closed to motorized vehicle traffic, and the jeep road converted to a recreational trail. A small parking area would be created at this road intersection. Interpretive signs and/or displays would be placed to educate the public on the significance and sensitivity of the area.	Neg	01/28/2008
2007121161	ENV-2007-1222-MND Los Angeles City Planning Department Brentwood--Los Angeles Private Street No. 1385 to grant access to one legal but non-conforming parcel in conjunction with the construction, use and maintenance of a single-family dwelling providing three parking spaces on a vacant 67,000 square-foot lot, in the RE-40-1 Zone. All trees on site are to remain.	Neg	01/28/2008

2007121163	ENV-2007-3439-MND (Animal Kennel) Los Angeles City Planning Department --Los Angeles Conditional Use Permit and Zone Variance to permit the following: 1) an animal kennel in the M1 Zone within 500-feet of R-zoned properties; and, 2) three off-site parking spaces in lieu of the 10 spaces required by code, on an approximately 7,188 square-foot site, within the M1-1 and P-1 Zones.	Neg	01/28/2008
2007121164	ENV-2007-3541-MND (USC Campus Center) Los Angeles City Planning Department Los Angeles, City of--Los Angeles Site Plan Review approval to update, modernize, and demolish existing facilities to develop the "USC Campus Center" upon the campus of the University of Southern California (USC). The project proposes to demolish the existing Commons and the Norman Topping Student Activities Center ("Topping Center") and develop two, new four-story buildings or wings with an expanded basement level consisting of approximately 133,157 square-feet of building area with the existing Student Union Building to also undergo minor improvements on its exterior facade integrated into a new plaza. The net increase in new building area would be approximately 67,973 square-feet. Furthermore, the project will serve existing and future students, will not increase the student enrollment level, and is anticipated to increase the number of staff and faculty members by 25. The proposed uses for this new development would be for student programs, student involvement activities, dining and food service uses, admissions, alumni center activities and storage/mechanical uses with proposed daily hours of operation from 6:00 am to 2:00 am. A temporary dining facility to provide food service will also be developed during the construction phases of the proposed project. The USC campus consists of 2.13 acres, and is zoned [Q]R4-1. Seventeen protected and non-protected trees will be removed and approximately 39,000 cubic yards of dirt will be exported.	Neg	01/28/2008
2007121165	ENV-2006-1203-MND-REC Los Angeles City Planning Department Brentwood--Los Angeles A Zoning Administrators Adjustment to permit a reduced south side yard setback of 4-feet in lieu of the 10-feet otherwise required, and a 4.5-foot rear yard setback, in conjunction with the construction of a new, two-story, 3,775 square-foot single-family dwelling on an approximately 31,600 square-foot hillside lot, in the RE15-1-H Zone. As proposed, the dwelling would maintain vehicular access to Mandeville Canyon Road via an easement over an existing bridge located on the south adjoining property. A Haul Route for the export of 2,950 cubic yards of dirt is considered.	Neg	01/28/2008
2007121166	ENV-2007-2860-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles Conditional Use Permit and Zone Variances to permit the following: 1) an animal kennel and boarding facility in the M1 zone within 500 feet of R-zoned properties; 2) eight off-site parking spaces in lieu of the 11 spaces required by code; and 3) approximately 435 square-foot for use as an outdoor dog kennel in the M1 zone within 500-feet of R-zoned properties, on a 7,300 square-foot site, within the M1-1 and P-1 Zones. 	containing a small general store to serve the clients of the facility equipped with handicapped accessible public restrooms; second floor, a manager's quarters. Additionally, the applicant proposes a self contained RV wash rack and dump stations. The project will be constructed in three phases per market demand, with the first phase to include office/store/managers quarters, wash rack, and water well and 87 spaces. Phase 2 would add 78+/- spaces and Phase 3, an additional 73+/- spaces.		
2007121172	Warner Tank Access Road Improvement Las Virgenes Municipal Water District Calabasas--Los Angeles The proposed Warner Tank access road improvement Project is designed to improve access to one of the LVMWD's water tanks located at the terminus of Park Belmonte in Calabasas. Access to Warner Tank is currently provided by an existing paved road via a LVMWD easement located at the terminus of Park Belmonte; however, a portion of the access road traverses private property over which the LVMWD has no easement. Due to recent conflicts with the private property owner, the LVMWD is seeking to avoid this private parcel (#23600) by relocating that segment of the access road onto the LVMWD easement. The proposed Project would abandon the use of the roadway segment on the private property and construct a new 200-foot by 20-foot roadway segment directly adjacent to the western boundary of the private parcel within the existing LVMWD easement.	MND	01/29/2008
2007122099	China Slide Curve Improvement Project Caltrans #2 --Trinity The following activities (scope of work) are being undertaken to improve the safety of the road: Road improvements planned from post mile 13.2 to 13.75, along with disposal and borrow site and staging area at post mile 13.0.	MND	01/29/2008
2007122100	San Andreas Sanitary District Wastewater Treatment Improvement Project San Andreas Sanitary District --Calaveras The SASD WWTF Improvement Project consists of the following four principal elements located in four connected project areas. 1. The "WWTP upgrades" (treatment process improvements) will occur within, and adjacent to the existing WWTP and include, among other things, improvement of treatment, and expansion of storage and disposal capacity to accommodate approved near-term (next 5-10 yr) growth. 2. Installation of three new storage ponds and the excavation/expansion of existing Pond D. 3. Installation of a spray irrigation system and an emergency run-off ditch berm system for water collection. 4. The installation of several ground water monitoring wells.	MND	01/29/2008
2007122103	Folsom Corporation Yard Landfill Clean Closure Project Folsom, City of Folsom--Sacramento The southern portion of the 18-acre Corporation Yard includes a 4-acre, inactive landfill that was historically used to dispose of construction and demolition debris, yard waste, and street litter. The City proposes to clean close this inactive landfill under the supervision of regulatory agencies. Clean closure is a process where the waste in an inactive landfill is removed resulting in a clean property. Once the	MND	02/07/2008

	inactive landfill is clean closed, the area will be graded and reseeded for storm water and erosion control.		
2007121169	Merged Fullerton Redevelopment Project Area, Amendment No. 1 Fullerton Redevelopment Agency Fullerton--Orange The adoption of the proposed Amendment No. 1 to the Redevelopment Plan for the Merged Fullerton Redevelopment Project Area. The proposed Amendment will add approximately 1,164 acres to the existing Merged Fullerton Redevelopment Project Area. No other changes to the existing Redevelopment Plan are being considered at this time.	NOP	01/29/2008
2007121170	The Plaza at the Glen Los Angeles, City of Los Angeles, City of--Los Angeles Mixed-use project of about 1.3 million square feet including: 140,000 square feet of retail, 100,000 square feet of restaurant, 45,000 square foot market, 45,000 square foot gym, 2,500-seat theatre, 550,000 square foot office, 150 residential units (175,000 square feet), 150-room hotel (175,000 square feet), with 3,200 to 3,900 parking spaces. An Add Area will be included to apply the General Plan Amendment on an additional 21.2 net acres.	NOP	01/29/2008
2007122101	1415 Mission Street Mixed-Use Development Project, San Francisco Planning Department Case No. 2005-0540E San Francisco Planning Department San Francisco--San Francisco The 11,424, square foot project site is located at 1415 Mission Street, on the southwest corner of Mission and Tenth Streets, on the block bounded by Mission and Howard Streets on the north and south and Tenth and Eleventh Streets to the east and west, in the Mid-Market neighborhood. The proposed project includes demolition of the existing one-story commercial building, currently used as an attended parking lot facility, and construction of a new 16-story, 150 foot tall, approximately 203,500 gross square foot mixed use building. The proposed building would include approximately 2,200 square feet of ground floor commercial space, 156 residential units (53 studio, 84 one bedroom, and 19 two-bedroom) and a four level underground parking garage with 78 independently accessible spaces or up to 136 valet spaces. Bedroom) and a four-level underground parking garage with 78 independently accessible spaces or up to 136 valet spaces. Access to the residential and commercial parking and one vehicle loading space would be from 10th Street.	NOP	01/29/2008
2007122102	412 Monte Vista Residential Development Oakland, City of Oakland--Alameda The proposed project would involve the on-site relocation and adaptive reuse of an existing 3-story over basement, Greek Revival-style residence that was built in 1908 as a single family residence. This structure, which is centrally located on the trapezoidal, 16,861-square foot lot, would be moved close to the site's southwestern corner and a new, seven story, L-shaped, residential building would be constructed along the southern and northeastern boundaries of the site. The relocated building would then be divided and rehabilitated to create eight residential units, while the new building would provide a total of 32 residential units. Parking would be provided in a single-level, underground garage. A total of 40 parking spaces would be provided, 10 of which would be on parking lifts. The	NOP	01/29/2008

	units would range in size from approximately 985 square feet (sq.ft.) to 1,416 sq. ft. in the adapted original building, and from approximately 471 sq. ft. to 1,245 sq. ft. in the new building. The majority of the apartments would have two bedrooms and one and one-half bathrooms.		
2007031080	Scripps Mercy Hospital San Diego, City of San Diego--San Diego Uptown Community Plan Amendment, Public Right-of-Way Vacation and Dedication, Rezone, and Conditional Use Permit (CUP) Amendment to CUP 88-0647 to construct a new multi-level parking structure, surface parking lot, expanded Emergency Department facility, Lewis Street improvements and Central Energy Plant on a 19.4 acre site. The site is bounded to the south by Washington Street, to the west by Fifth Avenue, to the east by Sixth Avenue, and to the north by Montecito Way. The site is in an unmarked section of Township 16 South, Range 3 West in the City and County of San Diego.	Neg	01/29/2008
2007121173	Ramstrum Lot Line Adjustment Santa Barbara County --Santa Barbara A lot line adjustment/voluntary merger between three existing legal lots to be reconfigured resulting in two lots of 9,165 sq. ft. and 8,384 sq. ft. All future development would be contained within proposed development envelopes.	Neg	01/29/2008
2001011103	Kern Delta Water District Groundwater Banking In-Lieu Water Supply Project Kern Delta Water District --Kern CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Kern Delta Water, represented by L. Mark Mulkay. The applicant proposes to excavate an ~20' deep trench across the Kern River for the installation of an 84" diameter water conveyance pipeline.	NOD	
2006062071	Feather River Levee Repair Project Three Rivers Levee Improvement Authority Marysville, Yuba City--Yuba The Three Rivers Feather River Repair Project, Segments 2 - Phase 4 improvements; this project only recognizes segments 2. This aspect of the project corrects deficiencies in the left bank levees of the Feather River.	NOD	
2007112010	Shaha Special Permit Humboldt County Community Development Services Eureka--Humboldt A Special Permit for the placement of a maximum of 1,000 cubic yards of un-permitted fill. The applicant did secure a building permit for the placement of 50 cubic yards of fill to be placed as yard area in 1999. The applicant has a pending building permit application, submitted December 31, 2001, that when finalized, will remedy the placement of the excess fill. During the Building Inspection process, it was verified by the Department of Fish and Game that the fill was deposited in a Streamside Management Area. This Special Permit is for the reduction of the Streamside Management Area buffer and for the alteration and restoration of the drainage. All alteration and restoration work within the wetland will be completed under agreement with the Department of Fish and Game (Streambed Alteration Notification No. R1-07-0365). The agreement indicates that the project consists of bank stabilization, erosion control, and construction of a	NOD

	settling basin lined with cobblestone.		
2007128382	Urban Pollution Prevention Program (No. 06-351-553-0) State Water Resources Control Board --Santa Cruz The Project at Bonny Doon involves installing a decomposed gravel pathway up the slope to the playground. The Project requires digging approximately 2 feet into the soil to install 4-by-4 posts for the fence.	NOE	
2007128383	Canada de los Osos Riparian Habitat Restoration Fish & Game #3 Gilroy--Santa Clara Creek banks will be cut back to a 2:1 slope and the banks will be planted with perennial native grass plugs and native riparian shrubs and trees. Root wad structures will be installed to stabilize the stream banks and stop any further downcutting. The adjacent 45-acre upland site will be restored to native grasses by conducting 1-2 years of weed control through mowing, disking or spraying and then a fall planting of native perennial grasses.	NOE	
2007128384	Donner Memorial State Park Parks and Recreation, Department of --Placer, Nevada Vegetation Management Project is located on 87 acres at Donner Memorial State Park and will be conducted in three phases. Phase 1: Pre-construction surveys: Conduct pre-construction archaeological field surveys and resource inventory within project area. Phase II: Identify protective measures for cultural resources: Implement protective measures for archaeological resources to avoid impacts from the proposed actions of Phase III vegetation removal. Phase III: Vegetation Removal: Perform vegetation management to reduce the threat of catastrophic wildfire and improve native forest composition and structure.	NOE	
2007128385	North American Beaver Population Control Project Parks and Recreation, Department of --El Dorado, Placer Remove non-native North American Beavers by trapping at Washoe Meadows, Emerald Bay, D.L. Bliss, Sugar Pine Point, Ward and Burton Creek State Parks and Lake Valley State Recreation Area. Significant resource and facility damage is occurring including the cutting of mature aspen and cottonwood trees and the buckling of bridges due to flooding from beaver dams. Project implementation will return beaver populations to a level in which resource and facility damage is minimal.	NOE	
2007128386	Your Doughnations, Inc. Tentative Parcel Map Sacramento County Dept. of Environmental Review Sacramento--Sacramento The proposed project consists of a Tentative Parcel Map to divide 15.59+/- acres into two (2) lots on property zoned M-2.	NOE	
2007128387	Arnold Avenue Boundary Line Adjustment Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Boundary Line Adjustment to reconfigure the lot lines among three (3) parcels in the McClellan Park Special Planning Area.	NOE
