# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16-31, 2009.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Acting Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Wednesday, December 16, 2009</u></b>			
2003071157	Harper Canyon / Encina Hills Subdivision RDEIR Monterey County Salinas--Monterey The project applicant, Harper Canyon Realty, LLC has submitted to the Co. of Monterey Resource Management Agency - Planning Department an application for a Combined Development Permit (PLN000696) for a Vesting Tentative Map in order to subdivide land pursuant to the Subdivision Map Act and the Monterey Co. Subdivision Ordinance (Title 19). The proposed project includes the subdivision of 344 acres into 17 lots on 164 acres with one 180 acre remainder parcel. The residential lots would have an average density of one dwelling unit per 9.64 acres within the subdivided area, as lots would range in size from 5.13 acres to 23.42 acres. Improved lots would be sold individually for the construction of homes. The proposed project also includes Use Permits for grading on slopes greater than 30 percent and for the removal of 79 Coast Live Oak trees. The project site includes a 180 acre remainder parcel. The project applicant has committed to donating approx. 154 acres of the remainder parcel by deeding the property to the Monterey Co. Parks Department as an expansion of the adjacent Toro Park pursuant to Section 66458(a)(2) of the Subdivision Map Act. No development is proposed on the remaining 26 acres of the remainder parcel at this time.	EIR	01/29/2010
2005062009	Antioch Wal-Mart Expansion Project Antioch, City of --Contra Costa Expansion and remodeling of the existing Wal-Mart store located in the Williamson Ranch Plaza. The existing 141,498 square-foot Wal-Mart store will be enlarged by 33,575 square feet, increasing the total floor area to 175,073 square feet. The project will include the development of approximately 3.7 acres of currently vacant land in the western portion of the approximately 21.6-acre Wal-Mart site.	EIR	01/29/2010
2009061061	Art Exchange Project Long Beach, City of Long Beach--Los Angeles The Art Exchange is intended to provide a permanent and affordable workplace for the development and production of art by local artists. The Exchange would operate on a profit-centered business model where artists sell directly to the public and are connected to networking opportunities that would help promote an art community for the City. Project components include artist studios, multipurpose/classroom space, hot shop for glass and ceramics production, a centrally located open courtyard, gallery space, office, and service areas.  The project totals approximately 10,150 sf of building area on a 15,000 sf site (0.34 acres) with ~5,150 sf in new floor area which will complement the existing building at 240 Long Beach Blvd and use similar open truss structural systems. The project will utilize the Acres of Books building by renovating and reusing the front 5,000 sf (50 foot wide street frontage and 100 foot depth), maintaining the façade on Long Beach Boulevard. The project building will use an open floor plan to take advantage of the existing clear span structural system along with adjustable wall systems to create studios and other spaces that can change for future needs. Sustainable plans for this project include obtaining LEED	EIR	01/29/2010

2009071112	<p>South Region High School No. 8 Los Angeles Unified School District Maywood--Los Angeles</p> <p>The proposed project involves construction of 4 buildings, athletic field (football/soccer), and parking on the 8.37 acre site. The school buildings would total ~146,000 sf including a classroom building; a performing arts and multipurpose building; a physical education/gymnasium building with food service and maintenance and operations; and a library/support services/clinic building. The campus would also have a 40,000 sf on-grade parking structure with 113 parking spaces; basketball courts would be included on the top of the one story parking structure with 113 parking spaces; basketball courts would be included on the top of the one story parking structure. the school would provide about 1,215 two-semester seats for students in grades 9-12 and employ 105 faculty and staff. The campus would be bisected by 58th Street which would divide the field and parking to the north and the main campus to the south.</p>	<b>EIR</b>	02/01/2010
2007031069	<p>Formation of Wiseburn Unified School District State Board of Education, California El Segundo, Hawthorne--Los Angeles</p> <p>The proposed project involves a change of local government structure from separate elementary and high school districts to one unified district (i.e., the formation of the Wiseburn Unified School District to serve grades K-12). The California State Board of Education (SBE) will decide whether to adopt a resolution approving the petition to form the Wiseburn Unified School District through the unification of the existing Wiseburn School District (serving grades K-8), which is comprised of three elementary schools (grades K-5) and a middle school (grades 6-8), with the corresponding portion of the Centinela Valley Union High School District within its boundaries.</p>	<b>FIN</b>	
2009011066	<p>South Gate Educational Center Los Angeles Community College District South Gate--Los Angeles NOTE: Final</p> <p>The proposed project would provide a full service college curriculum including transfer and vocational curriculum, degree programs, certificate programs, and skill set certificates for a maximum student enrollment of 12,000 students. The existing South Gate Educational Center, located at the southwest corner of the Firestone Boulevard/Santa Fe Avenue intersection, would be vacated by the college. For the purpose of describing the project site, it is being divided into 2 parts: western and eastern. At this time, no new development for college uses are proposed on the eastern project site until student enrollment increases to a point where the demand for the construction of the parking structure proposed on the eastern project site is warranted. The eastern project site would be utilized to accommodate the new South Gate Educational Center. The proposed project would adaptively re-use Buildings 1 and 3, as well as develop a parking structure on the eastern project site. A total of ~418,900 sf of interior spaces within Buildings 1 and 3 would accommodate the required administrative, academic, vocational, and other support facilities. Building 4 would be demolished with the proposed project in order to accommodate the proposed parking structure and universal playing field. The proposed parking structure would only be constructed when student enrollment increases to a point where demand for the parking</p>	<b>FIN</b>

	structure would only be constructed when student enrollment increases to a point where the demand for the parking structure is warranted. A surface parking lot would be located in place of proposed parking structure in the interim.		
2006052148	Berg, Bradley & Barbara Nevada County Nevada City--Nevada 100 year floodplain Use Permit.	<b>MND</b>	01/19/2010
2009111000	Indio Central Park and Public Safety Complex Indio, City of Indio--Riverside NOTE: Recirculated	<b>MND</b>	01/19/2010
	The Indio Central Park and Public Safety Complex is a 53.96 acre development that will include police and fire facilities as well as an aquatic center, a neighborhood park and community sports complex. Public parking lots will serve the site with ~515 spaces. There will also be a maintenance building (1,525 sf) to provide storage and restrooms for park personnel.		
2009121044	Coker Minor Subdivision (3 Lots); Tentative Parcel Map 21102 San Diego County --San Diego The project is a minor subdivision to create 3 residential lots on 8.51 acres located in the Lakeside Community Planning Group, within unincorporated San Diego County. The site is currently vacant with one graded pad and driveway. Access would be provided by a private road and driveways connecting to Lorraine Ridge Trail, which connects to Quail Valley Way. The project would be served by on-site septic systems and imported water from the Padre Dam Municipal Water District. No extension of sewer or water utilities would be required. Earthwork would consist of 18,840 cy of material, with a net import of 5,712 cy. No off-site improvements are proposed.	<b>MND</b>	01/19/2010
2009121047	Stehly Minor Subdivision; Tentative Parcel Map; TPM 20905RPL4, ER05-02-002 San Diego County --San Diego The project is a minor residential subdivision of 12.75 acres into 4 parcels and a Designated Remainder Parcel. The project site is located between Lan Canada Road and Alta Vista Drive, in the Bonsall Community Planning Area, within unincorporated San Diego County. The site is subject to General Plan Regional Category Estate Development Area (EDA) and Land Use Designation (17) Estate Residential. Zoning for the site is A70, Limited Agriculture. The site currently has a single family house and several accessory structures which will remain. A horse corral has been conditioned to be removed prior to Parcel Map recodation. Access to 4 will be provided by a private easement connecting to Alta Vista Drive. Parcel 4 will utilize the existing driveway connecting to hook to sewer prior to Parcel Map recordation. Water would be provided by imported water from the Rainbow Municipal Water District. No extension of sewer or water utilities will be required by the project.	<b>MND</b>	01/19/2010

General Development Plan to guide development of the Whispering Oaks Business Park (57.91 acres). General Development Plan and Use Permit to develop the MST Administrative and Maintenance Facility (24.37 acres). Based on conceptual site plans, buildings would total 153,938 square feet.</p>	<b>NOP</b>	01/19/2010
2009121050	<p>Foster Park Embankment Protection and Restoration Project - EIR-2520 San Buenaventura, City of Ventura--Ventura</p> <p>The construction and operation of the embankment protection and restoration system of 1,200 feet of the western and 2,000 feet of the eastern banks of the Ventura River, near Foster Park, and south of the community of Casitas Springs. The project will protect water supply facilities for the City of San Buenaventura (City) and the Ojai Valley Sanitary District (OVSD) truck sewage line. The west bank construction will selectively place three spur dikes, and the east bank construction will place rip rap at the north end and six spur dikes south of the rip rap. The project will also protect and enhance steelhead and riparian habitat, as well as revegetate and restore areas temporarily disturbed by the proposed project construction.</p>	<b>NOP</b>	01/19/2010
2009122043	<p>Paradise Irrigation District Water Rights Permits Extension Paradise Irrigation District Chico--Butte</p> <p>The Paradise Irrigation District (PID) is petitioning the State Water Resources Control Board for changes to Permit 271 (Water Right Application 476) and Permit 16040. Proposed changes include: an extension of time to build out water rights projects; change in method of diversion; purpose of use; and place of use. The existing PID project diverts water from Little Butte Creek to storage in both Magalia Reservoir and Paradise Reservoir under appropriate water rights granted in Permit 271. Fill of Paradise Reservoir under this permit is augmented by storage authorized in the companion water right Permit 16040. Through the proposed changes, the PID seeks to add direct diversion as a second method of diversion from Little Butte Creek at both Magalia Dam and Paradise Dam. PID proposes to add hydropower generation as a purpose of use along with existing domestic, municipal, and recreation use. The PID also seeks to expand the place of use to include three service areas that are currently within the Del Oro Water Company (i.e., Paradise Pines, Old Magalia and Lime Saddle Districts), and is requesting a 25-year extension of time to construct facilities and put the permitted</p>	<b>NOP</b>	01/19/2010

2003031024	<p>Los Angeles Southwest College Facilities Master Plan Update Los Angeles Community College District --Los Angeles</p> <p>The Master Plan Update construct 6 new facilities, modernize 4 existing buildings and upgrade existing infrastructure. Infrastructure improvements include increasing electrical power, improving data lines and other infrastructure needed for the campus. Additional improvements would be made to signage, lighting, fire safety and security. The proposed project would also include the acquisition or lease of the Caltrans Site #16 for use as a renewable energy production site and as an additional campus entrance.</p>	<b>EIR</b>	02/03/2010
2009012067	<p>Alta Bates Summit Medical Center (ABSMC), Summit Campus Seismic Upgrade and Master Plan Oakland, City of Oakland--Alameda</p> <p>The proposed project is to replace the ABSMC Merritt Pavilion hospital building, which includes acute care patient facilities, with new patient care pavilion to comply with the regulations developed by the California Office of Statewide Health Planning and Development (OSHPD), as mandated by the Alquist Act, as amended in 1994 by Senate Bill (SB) 1953, and prior to the January 1, 2013 compliance date in SB 1953. Phase 1 (estimated 2010 through 2014) development would construct an 11 story ~230,000 sf patient care pavilion on Hawthorne Avenue; a new 7 level, 1,067 space, 392,800 sf parking garage; a new temporary surface parking lot; an additional two new generators to serve the new patient care pavilion; and demolition of 6 existing buildings. Future phases (prior to 2035 and within 15 yrs of completion of Phase 1) would include a new 1 story, 32,000 sf fitness center located at the top of the Phase 1 parking structure; a new 5 story, 175,000 sf medical office building; a new 4 story, 72,500 sf building for use by Samuel Merritt University; and demolition of 3 existing buildings, including one that is potentially historical resource (418 30th St) and the potential closure of a portion of Summit Street within the campus as a pedestrian plaza.</p>	<b>EIR</b>	02/03/2010

2007021109	Exposition Corridor Light Rail Transit Project - Phase 2 Exposition Metro Line Construction Authority Culver City, Santa Monica, Los Angeles, City of--Los Angeles Phase 2 of the Exposition Corridor Light Rail Transit Project would extend transit service in the Exposition Corridor from the terminus, currently under construction for Phase 1 at the Venice/Robertson station in Culver City, to a planned terminus near 4th Street/Colorado Boulevard in Santa Monica. Under consideration for Phase 2 are the following project alternatives: No-Build, Transportation system Management (TSM), and 4 Light Rail Transit (LRT) alignment alternatives.	<b>FIN</b>	
2008051009	Blackie Road Safety Improvements Monterey County --Monterey NOTE: Revised  Proposed shoulder improvements to a 1.39 mile segment of the existing Blackie Road public right-of-way. The proposed project improvements are grading, relocating existing utility poles and removal of 52 native coast live oak trees and 15 non native eucalyptus trees, to accomodate paved shoulders, curve warning signs, rumble strips and striping improvements. Additional improvements include replacing existing open drainages along the side of the roadway segment with storm drains under the shoulders.	<b>MND</b>	01/19/2010
2009121054	Manufacture District Review 89-09 - Bhandal Brothers San Benito County Hollister--San Benito The applicant is applying for a Manufacturing District Review (MDR) to operate a truck maintenance facility at 2490 San Juan Hollister Road. The applicant, Bhandal Brothers Trucking, is a Watsonville-based trucking company that specializes in frozen foods and produce. The applicant intends to use this parcel as a parking yard for semi-trucks and trailer, and to use an existing 2,525-square-foot metal building as a repair and maintenance facility for these vehicles. Activities to be conducted in this metal building include tire changes, oil changes, brake work, and minor body work. The property also contains two small buildings that are approximately 1200 and 500 square feet in size, which will be used for administrative and dispatch purposes. No new structures are proposed at this time, though some remodeling to the existing building is planned.	<b>MND</b>	01/19/2010
2009121056	San Juan Capistrano Eastern Wells and Pipeline Project San Juan Capistrano, City of San Juan Capistrano--Orange The proposed project would consist of the construction of two replacement groundwater production wells, along with a collection pipeline. The proposed South Cook Park Well and Well 5A are two of the seventeen wells identified in the diversion permit. The proposed collection pipeline would connect the two replacement wells, South Cook Park Well and Well 5A, plus a third existing well, Tirador Well, to form a groundwater collection system in the vicinity of San Juan Creek and south of Calle Arroyo. The collection system would supply water from the San Juan Groundwater Basin (basin) to the City of San Juan Capistrano's Groundwater Recovery Plant (GWRP, located at 32470 Paseo Adelanto) for treatment before being introduced into the public water supply system. The treatment consists of removing iron, manganese and total dissolved solids (TDS) from the groundwater. The current capacity of the GWRP is 5.1 mgd (5,712 afy) which is within the limits allocated by the diversion permit of 8,026 afy. The	<b>MND</b>	01/19/2010

	<p>addition of the proposed South Cook Park Well and Well 5A along with the current operating wells will not exceed the allotted amount of water to be extracted under the diversion permit.</p> <p>The GWRP is currently fed by six (6) wells in the basin: Dance Hall, Tirador, CVWD No. 1, CVWD No. 2, SJBA No. 2, and SJBA No. 4. Phase 1 of the GWRP required 8 wells to feed the GWRP. The South Cool Park Well and Well 5A will complete the well requirements under Phase 1 for the GWRP, and will allow for effective management of the basin water. The purpose of the two replacement Eastern Wells (South Cook Park Well and Well 5A) is to provide system reliability and ultimately improve the flexibility of portable water production from these existing group of wells.</p>		
2009121058	<p>Marks Residence San Diego Community College District San Diego--San Diego Relocate and rehabilitate a historically designated Victorian cottage from 1037 15th Street to 2644 Island Avenue. Relocation will allow the implementation of the adopted City College Facilities Master Plan.</p>	<b>MND</b>	01/19/2010
2009121059	<p>Allan Hancock Bike Path Extension ER08-0006 Lompoc, City of Lompoc--Santa Barbara The Allan Hancock College Bike Path Extension will be ~1.0 miles long, beginning ~800 ft north of the "H" Street/Santa Ynez River bridge. The southern portion of the proposed bike path alignment will follow existing unpaved roads, re-routing farm use from an existing access road to a secondary unpaved agricultural road on the Lompoc Federal Correctional Complex (FCC) property. From the point of beginning, the bike path will head west for about 50 ft, turn north, parallel to Highway 1, then turn west along the northern boundary of the Lompoc FCC agricultural fields, then turn northwest to the Lompoc FCC boundary. The alignment will then turn east and northeast, crossing onto the City of Lompoc's Ken Adam Park property and ending at the south terminus of Hancock Drive.</p>	<b>MND</b>	01/19/2010
2009121060	<p>Vista Lago Park Bridge San Luis Obispo, City of San Luis Obispo--San Luis Obispo Install new free span bridge over Prefumo Creek and connecting bike and pedestrian trails to adjacent streets.</p>	<b>MND</b>	01/19/2010
2009122050	<p>Sundance Subdivision El Dorado County --El Dorado Zone change from AE to Estate Residential 10-Acre (RE-10) and a tentative subdivision map to create 28 lots ranging in size from 10 acres to 14.8 acres on a 298.19 acre site. A special use permit is also requested that would permit the gating of proposed road "A" at the intersection with Pilot View Drive. The project would also include the off-site improvement of Rattlesnake Bar Road and Pilot View Drive to a width of 20 feet from proposed Road "A" to Salmon Falls Road. The following design waivers have been requested: (1) Permit proposed lots 15 and 16 to exceed the 3:1 depth to width lot ratio; and (2) Permit a reduction in the shoulder width for a proposed Road "B" from 10 feet as required in the Design and Improvement Standards Manual to two feet.</p>	<b>MND</b>	01/19/2010

2009122051	Giacomini Lot Line Adjustment Humboldt County Eureka--Humboldt Lot Line Adjustment between 3 existing parcels. Parcel 1 is approximately 5.82 acres in size and remains undeveloped at this time. Parcel 2 is approximately 7.19 acres and is currently developed with an approximately 1,400 ft. square single-family residence, approximately 900 ft. square mobile home, barn, and a number of other agricultural and accessory structures. Parcel 3 consists of a 0.9 acre strip of land approximately 35 feet wide and 1,777 feet long. Parcel 3 is developed with on agricultural structure and is encroached upon by a structure partially located on Parcel 2. The Lot Line Adjustment proposes to reconfigure the boundaries of Parcel 3 adding approximately 1.87 acres of land taken from Parcel 1 and Parcel 2. All three parcels lie within the boundaries of the Humboldt Community Services District. No new development is proposed at this time.	<b>MND</b>	01/19/2010
1997062039	Proposed Amendments to Regulation 11, Rule 16: Perchloroethylene and Synthetic Solvent Dry Cleaning Operations Bay Area Air Quality Management District SEVERAL--Alameda, Contra Costa, Marin, Napa, San Francisco, ... Proposed amendment sot BAAQMD Regulation 11, Rule 16 would accelerate the existing phase-out of perchloroethylene dry cleaning operations within the jurisdiction of the BAAQMD. Beginning on July 1, 2011, existing perchloroethylene dry cleaning machines would be retired when they reach 12 years of age, rather than at 15 years of age as under the exitsing schedule. Perchloroethylene use in dry cleaning machines in the BAAQMD would be eliminated by JAnuary 1, 2020 rather than January 1, 2023.	<b>NOP</b>	01/20/2010
2009121053	Cavaletto Tree Farm Housing Project Santa Barbara County --Santa Barbara The residential component of the project is composed of 135 housing units, including one existing dwelling unit to be retained. Two other existing dwelling units would be demolished. The project is composed of one existing single family dwelling, 80 new detached dwellings and 54 attached dwelling units, for a total of 135 housing units. The project includes 23-24 affordable rental units, including one on-site manager unit.	<b>NOP</b>	01/19/2010
2009121057	Orcutt Community Plan 2010 Amendments Santa Barbara County --Santa Barbara NOTE: Reference SCH# 1995031055.  The Orcutt Community Plan 2010 Amendments to the 1997 Orcutt Community Plan 1) amend Policy FLD 04 and Action FLD-0-4.1 with a revised policy and development standards reflecting current flood control practices; 2) map and text amendments to comply with a court order in the Adam Brothers Farming v. Santa Barbara County et. al. case; and 3) amend Policy CIRC-0-3 to establish a minimum Level of Service (LOS) D for Clark Avenue Roadway segments and intersections between Blosser Road and Foxenwood Lane.	<b>NOP</b>	01/19/2010

2007081155	Western Municipal Water District's 2320 Pressure Zone Tank Site, Phase III Western Municipal Water District Riverside--Riverside Western Municipal Water District is proposing to construct and operate one new 2.7 million gallon (MG) above-ground reservoir (Hidden Valley Tank) located at the intersection of Hidden Valley Road and Rolling Meadows Drive. The reservoir will ensure adequate water supply and service to the District's customers under the South Added Facilities Area Master Plan. Once installed, the reservoir will be connected to the District's potable water distribution system.	<b>NOD</b>	
2007081156	Tehachapi Renewable Transmission Project Public Utilities Commission Tehachapi, Ontario--Kern, Los Angeles, San Bernardino SCE proposes to construct and maintain a series of ~173 miles of new and upgraded high-voltage electric transmission lines (T/Ls) and substations to deliver electricity generated in eastern Kern County to utility load centers. The TRTP involves: New single- and double-circuit 500-KV T/Ls; New single-circuit 220-kV T/Ls; Re-building 220 kV T/Ls to 500-kV standards; Re-building single-circuit T/Ls to double-circuit T/Ls; Relocating existing 66-kV subtransmission lines; New 500-kV substation; Upgrading/expanding 5 existing substations.	<b>NOD</b>	
2007121072	Highland Avenue Walmart Expansion Project San Bernardino, City of San Bernardino--San Bernardino The proposed project consists of expanding the existing 129,794 square-foot Walmart store by 41,644 square feet to a total square footage of 171,438 sf with all appurtenant structures and facilities. The expansion would occur on the west and east side of the existing store. The expanded store would retail a full line of groceries in addition to the general merchandise currently sold in the existing store. The Tire & Lube Express and garden center would be demolished and replaced with a larger 10,427 sf garden center, including new truck loading facilities.	<b>NOD</b>	
2007122101	1415 Mission Street Mixed-Use Development Project, San Francisco Planning Department Case No. 2005-0540E San Francisco, City and County of San Francisco--San Francisco The proposed project would demolish the existing building and parking lot and construct a 14-story, 130 ft tall residential-commercial building with ~2,742 sf of ground-floor commercial space, up to 117 dwelling units on the upper floors, and a 3 level, subterranean garage with up to 46 independently accessible or 101 valet-service residential parking spaces. The new building would be ~168,194 sf of which 122,073 sf would be residential, 2,742 sf would be commercial, 29,343 sf would be occupied by the 3 level subterranean parking garage, 5,139 sf would be residential circulation space (hallways, stairways, etc.), 2,608 sf would be amenities (a fitness center, mail room, and bicycle parking), and 6,289 sf would be mechanical space. The gross floor area of the project subject to the Floor Area Ratio (FAR) limit would be 97,860 sf. The proposed project required rezoning the site from C-M (Heavy Commercial) to C-3-G, Conditional Use Authorization, Transfer of Development Rights, exceptions and a Variance from Planning Code requirements. In addition, the rezoning of the project site requires approval by the San Francisco Board of Supervisors.	<b>NOD</b>

<b><u>Documents Received on Monday, December 21, 2009</u></b>			
2009128134	<p>Agreement 2009-0170-R4 - Pre-Design Aggregate Assessment for Honolulu Bar Floodplain Enhancement Project Fish &amp; Game #4 --Stanislaus</p> <p>The Project consists of the excavation of six (6) test pits to determine the amount of suitable spawning gravel that will be generated, as part of the pre-design of a fish habitat enhancement Project. All test pits, which will be up to 3 feet deep and 4 feet wide, will be excavated outside of the active channel above the 100-year flood mark. All excavated material will be returned to the test pits after testing is completed. To allow a small backhoe or excavator to access the excavation area, a temporary low water crossing will be installed across a side channel of the Stanislaus River. The crossing will be removed following the completion of gravel testing, and the streambed and bank will be restored and revegetated.</p>	<b>NOE</b>	
2009128135	<p>South Shore Landscape Restoration and Bench Installation Parks and Recreation, Department of --Monterey</p> <p>Restore approximately 1.3 acres of the bluff top located on the South Shore area at Point Lobos State Natural Reserve for resource protection. Work involves installing approximately 6.920 feet of guideline fence to delineate the existing decomposed granite trail surface where needed by reinstalling decomposed granite cap, and installing one new bench. The fence consists of 5/8" diameter metal anchor rods placed 2' into the ground approximately every 15' and 36" above ground strung with vinyl coated braided cable. Native plants include dune buckwheat, lizard trail, seaside daisy, beach aster, coyote brush and California sagebrush. Install new, approximately 6.5' long redwood bench on flat area approximately 1' off the trail surface, anchored with concrete footings approximately 0.5' high by 0.5' wide.</p>	<b>NOE</b>	
2009128136	<p>Issuance of Lake or Streambed Alteration Agreement No. R1-09-0339, Mr. Roger Broomfield and Mr. Paul Schulman, Mendocino County Fish &amp; Game #1 --Mendocino</p> <p>Operation of one water diversion to storage from Stoney Creek, Tributary to the Eel River.</p>	<b>NOE</b>	
2009128137	<p>Newhall Sphere of Influence Amendment Annexation Designation No. 2010-01 Newhall County Water District Santa Clarita--Los Angeles</p> <p>To annex several properties which currently receive service from the District but are located outside of the District boundaries.</p>	<b>NOE</b>	
2009128138	<p>Install a new pipeline from Cutler-Orosi Unified High School to the Lovell Continuation School. Public Health, Department of --Tulare</p> <p>The project is to construct a new pipeline and intertie to the Cutler-Orosi PUD to correct their water quality problems and meet the public drinking water standards.</p>	<b>NOE</b>	
2009128139	<p>Installation of two Reservoir Management Systems (RMS) at 4B and 4B-1 Public Health, Department of Dana Point--</p> <p>Two Reservoir Management Systems (RMS) will be installed and will include the construction of a 14' by 18' block building to house the RMS. The RMS will improve water quality and reliability for the residents of the City of Dana Point.</p>	<b>NOE</b>

2009128140	<p>Construction of Small Management Yards (SMY) at Existing Correctional Facilities includes but not limited to the following facilities Corrections and Rehabilitation, Department of</p> <p>--</p> <p>CDCR is mandated by the California Code of Regulations, Title 15, Section 3343(h) that special purpose segregated housing units be equipped with their own recreation yard, and each inmate housed in such units be provided 10 weekly hours of out-of- cell exercise time. A January 2007 statewide assessment of the housing capacity of Security Housing Units (SHU) and Psychiatric Services Unit (PSU) determined that these requirements could not be met with the existing group recreation yards. CDCR will construct SMY's at the locations mentioned above but not limited to those facilities in order to comply with the regulation. Each SMY will be approximately 150 sq. ft and will be constructed of 1/4 inch crimp-lock pre-galvanized fabric, with a secured roof constructed half of 1/4 inch crimp-lock pre-galvanized fabric, and half of metal pan decking. The yard itself will be set on a concrete base and will have a combination toilet and sink for inmate use. A gate will secure access to the yard, supplemented with a security lock and side cuff port similar to what is utilized in cell doors.</p>	<b>NOE</b>	
2009128141	<p>Zoning Ordinance Amendment 2009-099, Section 8.13 Water-Efficient Landscaping La Quinta, City of La Quinta--Riverside</p> <p>Amending the LA Quinta Municipal Code Title 8, Chapter 13, updating the city's water-efficient landscaping ordinance, to be consistent with AB 1881.</p>	<b>NOE</b>

<b><u>Documents Received on Wednesday, December 23, 2009</u></b>			
2007011024	Draft Irvine Business Complex (IBC) Vision Plan and Mixed Use Overlay Zoning Code (Planning Area 36) Irvine, City of Irvine--Orange Revised 12/2009  The proposed project would allow for an increase in total units within the Irvine Business Complex (Planning Area 36) from 9,401 units to 15,000 units. In addition, a total of 1,191 density bonus units would be allowed in accordance with State Law for a total 16,191 units. The current General Plan allows for 53,461,052 square feet of office equivalency in Planning Area 36. The total 5,599 additional new units (either potential or in process) remaining under the 15,000 unit cap would be offset by a reduction of 2,715,062 square feet of non-residential office equivalency square footage, reducing the number to 50,899,418 square feet. If approved, the proposed project would allow for the development of 6,380,955 non-residential square feet and 458 hotel based on the existing trip caps for the area.	<b>EIR</b>	02/08/2010
2008042007	Seismic Upgrade of Bay Division Pipelines Nos. 3 and 4 at Hayward Fault San Francisco, City and County of Fremont--Alameda Revised 12/2009  The SFPUC proposes to seismically upgrade a section of BDPLs 3 and 4 crossing the Hayward Fault in the City of Fremont, Alameda County. The goal of the project is to ensure water delivery following a major earthquake. The project involves replacing sections of BDPLs 3 and 4 that pass beneath Mission Boulevard and Interstate 680.	<b>EIR</b>	02/08/2010
2008102101	I-5 North Stockton Corridor Improvements Caltrans #6 Stockton--San Joaquin  In the Central to North Stockton area widening is proposed to the I-5 freeway on the inside median increasing the freeway geometry from 6 to 8 lanes between Country Club Boulevard and the proposed North Gateway Boulevard interchange. Inside widening would accommodate mixed flow lanes (Alternative 1) or HOV lanes (Alternative 2). If alternative 2 is selected the existing inside lane would be converted to an HOV lane between Charter Way and County Club Boulevard. Improvements to four interchanges are also proposed including Hammer Lane (existing), Otto Drive (proposed), Eight Mile Road (existing), and North Gateway Boulevard (proposed). Between interchanges auxiliary lanes are also proposed to the outside of the mainline. In selected locations noise barriers are proposed as a project feature.	<b>EIR</b>	02/08/2010
2009052002	State Route 9 Safety Improvement Project PM 2.5/7.0 Caltrans #4 Saratoga--Santa Clara  This project proposes to construct improvements at three spot locations. The improvements include: improving sight distance; upgrading the existing lanes and shoulders; increasing the super-elevation; installing metal beam guardrails; and placing warning signs. To accommodate these improvements, the existing slope would be cut back and soil nail retaining walls would be constructed.	<b>EIR</b>	02/10/2010

2009032009	St. Regis Napa Valley Project Napa, City of Napa--Napa The proposed project consists of the development of a St. Regis resort and winery on 93 acres and associated infrastructure improvements on 3 acres. The resort would provide 150 guest units, 95 vacation home units, recreation and event space, restaurants, a spa, and operations and support facilities. The 25,000 - case winery would be located within the resort grounds. As part of the project, a wastewater pipeline and recycled water pipeline would be installed between the Napa Sanitation District Soscol Water Recycling Facility and the project site.	<b>FIN</b>	
2009121066	Point Vicente Interpretive Center Parking Expansion Project Rancho Palos Verdes, City of Los Angeles, City of--Los Angeles Reference SCH# 1997121025  The proposed project involves site improvements at Lower Point Vicente for the Point Vicente Interpretive Center that were originally approved by the Planning Commission in 1998. The proposed improvements are within the same general scope as those originally approved but the Planning Commission 1998. These would involve removal of the existing parking areas and replacement with a reconfigured and expanded parking are; new landscaping; new landscaping; new decomposed granite walking trails; and drainage improvements. The new parking area would accommodate up to 101 parking spaces (including accessible spaces), an increase of 35 spaces from the existing 66 spaces. The proposed project is being processed under ZON2009-00441 (CUP 200 REV. "A", Grading Permit, and Coastal Development Permit)	<b>MND</b>	01/21/2010
2009122059	Arundo donax (Giant Reed) Removal and Habitat Restoration Program ZPE09-0266 Sonoma County Cloverdale, Healdsburg--Sonoma A request for a Zoning Permit with posting for vegetation removal project within the Russian River Watershed including Dry Creek, Sausal Creek, Mill Creek, Fife Creek, Santa Rosa Creek, and Austin Creek on portions of 136 parcels. No grading or change in drainage patterns, only vegetation removal of the invasive Giant Reed (Arundo donax).	<b>MND</b>	01/21/2010
2009122060	Crossbarn Winery c/o Paul Hobbs PLP08-0073 Sonoma County Santa Rosa--Sonoma Request for a Use Permit and Design Review for a new 2,000 square foot winery with a maximum annual production capacity of 20,000 cases, public tasting, and participation in industry-wide wine tasting events.	<b>MND</b>	01/21/2010
2009122063	Interstate 880 Operational and Safety Improvements at 29th Avenue and 23rd Avenue Crossing. Caltrans #4 Oakland--Alameda The City of Oakland, The City of Alameda, and teh Alameda County Congestion Management Agency (ACCMA) in cooperation with the California Department of Transportation (Department) propose to replace the 29th Avenue and the two 23rd Avenue overcrossings, and construct improvements to the northbound I-880/29th Avenue interchanges. These improvements would increase the flow of vehicles,	<b>MND</b>	01/25/2010

	reduce the rate of congestion-related accidents and improve the mobility/safety through the I-880 corridor. The Proposed project is situated within the County of Alameda. Specifically the Proposed Project is located within the City of Oakland and the City of Alameda.		
1997072090	LAVWMA Export Pipeline Facilities Project - Western Terminus Livermore-Amador Valley Water Management Agency San Leandro--Alameda The proposed Western Terminus Project is located in the Roberts Landing area in the City of San Leandro, Alameda County, California. The proposed project is the final link of the 16 mile LAVWMA Export Pipeline project as evaluated in the 1998 EIR. The LAVWMA pipeline segment known as the Western Terminus or "Gravity Pipeline 1" (GP1) connects into the EBDA pipeline in San Leandro at Roberts Landing. The Western Terminus is about 1,460 feet long and is using the original pipeline constructed in 1979. With the passage of time and normal deterioration have brought this segment towards the end of it's safe operating life under normal LAVWMA flow condition.  Replacement of the original pipeline is proposed with a new 36" diameter high-density polyethelene (HDPE) pipe, installed using Horizontal Directional Drilling (HDD) techniques to bore under the recently restored Bunker Marsh which is located on the east margin of San Francisco Bay. After drilling and offsite processing of material, the new pipe would be pulled under the marsh with only minor and temporary effects to the wetland in the area.	<b>NOP</b>	01/21/2010
2009122061	Gordon Water Line Relocation EIR Solano Transportation Authority Fairfield--Solano Solano Transportation Authority (STA) proposes to relocate the Gordon Water Line (a new 12-inch water line) within the Rockville Road right-of-way between Suisun Valley Road and a point west of Green Valley Road. The relocated Gordon Water Line would connect the 24-inch Gordon Water Line running within Suisun Valley Road with the existing 14-inch Green Water Line. The relocated Gordon Water Line would be located within the existing right-of-way of Rockville no additional right-of-way would be required. The line would be located within the existing shoulder of Rockville Road at a standard depth of 42 inches to top of pipe, except at the eastern terminus where the line would be 30-36 inches deep for the last 300+/- feet prior to Suisun Valley Road.	<b>NOP</b>	01/21/2010
2009122064	Merced to Sacramento High-Speed Train Project EIR/EIS High Speed Rail Authority, California --Merced, Stanislaus, San Joaquin, Sacramento The California High Speed Rail Authority proposes to construct, operate, and maintain an electric-powered steel-wheel-on-steel-rail high-speedtrain (HST) between Merced and Sacramento, which is a section of the California HST System. The Statewide HST System is about 800 miles long, capable of operating speeds of 220 mph on mostly dedicated, fully grade-separated tracks, with state-of-the-art safety, signaling, and automated train control system. The San Joaquin Regional Rail Commission (SJRRRC) is interested in providing regional passenger rail service on this section of the HST System infrastructure and will serve as a local partner.	<b>NOP</b>	01/25/2010

<b><u>Documents Received on Wednesday, December 23, 2009</u></b>			
2009128175	<p>SVSP and CTF Energy Efficiency Projects Corrections and Rehabilitation, Department of Soledad--Monterey</p> <p>Pursuant to the Governor's Energy Executive Order S-20-04 calling for a reduction in energy load by 20 percent by the year 2015 for all state facilities, CDCR is undertaking a number of energy savings programs. CDCR will be implementing the following projects at SVSP and CTF: 1) At SVSP, CDCR will be retrofitting old T12 lights with new T8 lamps and ballasts. The disposal of old lamps and ballasts will be certified. This activity will save approximately 400,000 kWh. This activity also includes replacing old 500 gallon water heaters with a 130 gallon low nitrous oxide emission, high efficiency water heater with 400 MBH burners each in the eight 180-type housing units. It will also replace the 150 gallon water heaters in the 270-type housing units with 100 gallon low nitrous oxide emission, high efficiency water heater with 250 MBH burners each. There are two water heaters per each of the ten 270-type housing units for a total of 20 water heaters to be replaced. 2) At CTF, CDCR will install new energy efficiency boilers at the central p-plant in order to bypass old and inefficient boilers. The old boiler at the stream plant is significantly oversized, and another boiler is not in use but is kept on standby. As a result, both boilers operate at a relatively low efficiency; the main boiler is rated at 50,000 lbs/hr (steam). A new smaller 300 hp boiler is adequate to service the facility needs. The new boiler will have an economizer and it can operate at 85% overall efficiency at all firing ranges. Standby losses due to radiation and convection will also be reduced by using the less massive, faster-responding boiler.</p>	<b>NOE</b>	
2009128176	<p>CCI Boiler Project Corrections and Rehabilitation, Department of Tehachapi--Kern</p> <p>Pursuant to the Governor's Energy Executive Order S-20-04 calling for a reduction in energy load by 20 percent by the year 2015 for all state facilities, CDCR is undertaking a number of energy savings programs. AT CCI, Tehachapi, CDCR will be removing the hot water and heat load requirements for Level 4A and 4B housing units. Currently, to satisfy the hot water and heat load requirements for Level 4, the heat much travel about three miles from the central plant to the Level 4 facility creating much heat loss in the travel process. The project involves disconnecting the Level 4A and 4B housing units. The boilers are rated at a minimum 85 percent efficiency. No new ground disturbance would be involved; new gas lines will be routed above ground.</p>	<b>NOE</b>	
2009128177	<p>Lighting retrofit and HVAC Control System Corrections and Rehabilitation, Department of --Kings</p> <p>Pursuant to the Governor's Energy Executive Order S-20-04 calling for a reduction in energy load by 20 percent by the year 2015 for all state facilities, CDCR is undertaking a number of energy savings programs. Currently, CDCR will be implementing two energy savings programs at CSP Corcoran. The first in the replacement of 2,100 high density discharge (HID) light bulbs (and associated fixtures) with induction light fixtures. HID bulbs are 250 to 400 watts per fixture and are typically replaced every other year. The induction light bulbs have a 10-year warranty and will result in an energy savings of 2.3 million kilowatt hours. This retrofit program includes certification of the proper disposal and recycle of the HID bulbs and fixtures. The second energy-savings program at CSP Corcoran is installation of a control system on the facility's cooling and heating unit to comply</p>	<b>NOE</b>

	with the Governor's "Green Team" standards of 68 degrees F in winter months and 78 degrees F in summer months.		
2009128178	Fall Creek Forest Fire Station-Temporary Shelter Forestry and Fire Protection, Department of Santa Cruz--Santa Cruz CAL FIRE places a state fire engine at Santa Cruz County's Fall Creek Forest Fire Station which is located in Bonny Don. This project involves the erection of a temporary shelter for the state's fire engine at that facility. As part of this project a single Douglas fir tree will need to be removed. This tree is approximately 16 inches dab, was planted over 20 years ago and is in the middle of a lawn. This is a landscape tree in the middle of an existing fire station landscape. The tree is showing signs of stress due to other construction projects on the site and the drought over the past 3 years. No heavy equipment will be needed for this project, the property has already been converted and the wood from this tree will not be commercialized and would not constitute timber operations requiring a permit. This project will occur on property owned by the County of Santa Cruz.	<b>NOE</b>	
2009128179	Recreational Pier Lease California State Lands Commission South Lake Tahoe--El Dorado The proposed project would authorize issuance of a ten-year Recreational Pier Lease to Walter H. Stevens as a Trustee of the Stevens Survivor Trust, established under the Stevens 1995 Family Trust; and George F. Stamm and Mary Ann Balocco, Co-Trustees of the Ruth T. Stamm Trust, dated June 16, 1980 for the continued use and maintenance of an existing pier and two mooring buoys.	<b>NOE</b>	
2009128180	Termination and Issuance of a New Recreational Pier Lease California State Lands Commission --Placer The proposed project would authorize termination of Lease No. PRC 8417.9, a Recreational Pier Lease, effective April 9, 2008, issued to Jeffrey A. and Debra Janine Yurosek. Authorize issuance of a ten-year Recreational Pier Lease to Albert King Jr. and Bonnie L. King, Trustees of the A.M. King Family Revocable Trust, dated March 4, 2008, beginning April 10, 2008, for the continued use and maintenance of two existing mooring buoys.	<b>NOE</b>	
2009128181	Recreational Pier Lease California State Lands Commission --Placer The proposed project would authorize issuance of a ten-year Recreational Pier Lease to Leonard Shaw and Judith B. Shaw, Trustees of the Leonard and Judith B. Shaw Trust, UTA dated May 3, 2000; Laurence J. Shaw; Daniel Shaw; Suzanne D. Hirsh nee Shaw; Amy Silen Loebl, also known as, Amy Nan Loebl, beginning December 17, 2009, for the retention of two existing mooring buoys.	<b>NOE</b>

	Twenty-five, 2m X 2m replicate plots, with 2m gaps, will receive scattered or bagged oyster shells, and preference for oyster spat settling will be observed. Anticipated recruited fauna included native <i>Ostrea lurida</i> (Olympia oyster) and exotic <i>Crassostrea gigas</i> (Japanese oyster), both known to exist in Upper and Lower Newport Bay. The study will test the potential for a larger-scale effort to increase the density of <i>O. lurida</i> in Newport Bay, while restoring native oyster "beds" and associated ecology after historical loss. The potential for a larger scale effort will be tested.		
2009128214	Applegate Ranch Commercial Center- "Major 2" Building Permit Atwater, City of Atwater--Merced Major 2 is designated in the approved ARCC plans as a 141,192 square foot building proposed for general commercial uses. The current applicant, Wal-Mart, now seeks a building permit to construct Major 2 in accordance with the approved ARCC plans. Under Title 15 and Chapter 16.40 of the City's Municipal Code, so long as a proposed building permit complies with the approved Master Plan, Development Plan, and the other provisions of the City's Code, the issuance of a building permit is ministerial.	<b>NOE</b>	
2009128215	San Joaquin Valley Unified Air Pollution Control District Rule Development: Rule 4601 (Architectural Coatings) San Joaquin Valley Air Pollution Control District --Kern, Fresno, Kings, Madera, Merced, San Joaquin, ... The District is proposing amendments to District Rule 4601, to require operators to use coatings with lower VOC content than currently in use for certain coating categories and implement work practices that will reduce escape of VOCs.	<b>NOE</b>	
2009128217	Bailey Site Solar Project Contra Costa Water District Concord--Contra Costa The proposed Project would consist of the installation of approximately 820 solar panel arrays on top of the existing Bailey Reservoir in an area approximately 1-acre in size. The solar arrays are estimated to produce up to 317,000 kilowatt hours annually. The energy production would be used for operation of the existing pump station and to offset electricity currently purchased from PG&E. Exhibit 2 shows the layout. Each solar array would consist of several cells that convert light into electricity by absorbing the energy of the sun and causing current to flow between two oppositely charged layers.	<b>NOE</b>	
2009128218	New Yuba City Courthouse for the Superior Court of California, County of Sutter Administrative Office of the Courts Yuba City--Sutter This project includes the acquisition of five acres of land, the construction of an approximately 79,000 square foot, three story courthouse, with seven courtrooms and 210 parking spaces, and the operation of the courthouse for the Superior Court of California, County of Sutter.	<b>NOE</b>

2009-08	<p>Agua Caliente Band of Cahuilla Indians of the Agua Caliente Indian Reservation - 513-050-005-9, 513-050-030-1 Bureau of Indian Affairs --Riverside</p> <p>The subject property consists of parcels of land, encompassing approximately 20.00 acres and 10.00 acres more or less, commonly referred to as the "Wachowiak" property and Assessor's Parcel Number: 513-050-005-9; the "Stinson" property and Assessor's Parcel Number 513-050-030. The parcels are within the exterior boundaries of the Agua Caliente Reservation, but are not contiguous to trust lands.</p> <p>Currently, there is no specific land use at this time. The property consists of mountainous, undeveloped sloping rocky terrain, in a generally inaccessible area within the Santa Rosa and San Jacinto Mountains National Monument. There is no planned change in land use.</p> <p>The Wachowiak and Stinson properties are located ~ 2100 feet and 1500 feet from tribal trust land of the Agua Caliente Reservation.</p>	<b>BIA</b>	01/25/2010
2009121074	<p>GPA/ZC/Variance/Conditional Use Permit #07-0027 (Imperial Landfill Expansion Project) Imperial County --Imperial</p> <p>The Imperial Landfill, owned and operated by Imperial Landfill, Inc., is a Class III non-hazardous solid waste landfill located in an unincorporated portion of Imperial County. The landfill is currently approaching full capacity. The project proposes to implement a Landfill Plan and that includes a lateral and vertical expansion for development of a new disposal cell beyond the currently permitted area to extend the facility's life from the remaining three to five (3-5) years approximately thirty (30) years in order to meet the current and future waste disposal needs of Imperial County. The Landfill Plan also includes redesign of the facility, addition of a public drop off facility, relocation of the scale house, increased recycling operations, and use of the offsite borrow sites to supply soil for landfill cover operations. As part of the grading permit process for the borrow site locations and configurations have been specified after the landfill expansion begins. The project would include an additional 160 acres (including the 89-acre new cell and 71 acres of remainder).</p>	<b>EIR</b>	02/08/2010
2000082093	<p>Caltrain Electrification Program Peninsula Corridor Joint Powers Board --San Francisco, San Mateo, Santa Clara</p> <p>The Peninsula Corridor Joint Powers Board proposes to convert the Peninsula Commute Service (Caltrain) from diesel-hauled to electric-hauled trains and install some 180 to 200 single-track miles of overhead contact system and approximately 13 traction power stations facilities for the destruction of electrical power to the electric rolling stock consisting of electric locomotives or electric multiple units. The purposes of this project are to improve Caltrain performance, reduce noise, improve regional air quality, and modernize Caltrain. Increase in Caltrain ridership, reductions in automobile congestion on parallel routes, reductions in energy consumption, reductions in train noise, and improvements in regional air quality are expected to result. Impacts include minor loss of land currently in agriculture use, the potential for encountering hazardous wastes, noise impacts of traction power stations, visual changes, and impacts during construction. Proposed mitigation measures include notification and approvals as required by Williamson Act, traction power station enclosures and adjustments to ventilation system, use of on-track construction approach for archeologically sensitive areas,</p>	<b>FIN</b>

	avoidance of habitat areas, coordination with utility providers and advance notice to customers, a Worker Health and Safety Plan and management practices during construction.		
2006021071	San Juan Road Interchange Caltrans #6 --Monterey, San Benito NOTE: FONSI/Notice of Availability	<b>FON</b>	
	Caltrans proposes to make operational and safety improvements along U.S. Route 101 at the Monterey/San Benito county line. The project would construct an interchange with frontage roads on US Route 101 and a median barrier to close existing gaps. The project limits are 0.4 mile south of Dunbarton Road in Monterey (PM 100.0) to 1 mile north of Cole Road in San Benito County (PM 1.6).		
2009121069	5500 CBM; GPA 17, Map 203-1; ZCC 5, Map 203-1, Ag Pres 12- Excl Kern County Bakersfield--Kern (a) Amend the Land Use, Open Space and Conservation Element of the Kern County General Plan for Map Code 8.1 to Map Code 7.2 or a more restrictive map code designation; (b) A change in zone classification from A to M-2 PD or a more restrictive zone district; and (c) Exclusion of approximately 15 acres from the boundaries of an Agricultural Preserve. The request is intended to recognize the existing development of the parcel with a diesel truck parking facility, a watermelon processing facility, a water storage tower, and related offices. No new development is being proposed at this time. As proposed, water supply for the development would be provided by the applicant, Mettler County Water District, and sewage disposal for the site would continue to be through private septic tank. Access is proposed via Mettler Frontage Road, which is designated as local alignment by the Circulation Element of the Kern County General Plan.	<b>MND</b>	01/27/2010
2009121070	Burris Basin Recreational Area Anaheim, City of Anaheim--Orange The project site encompasses approximately 14 acres and is within an existing 125-acre groundwater recharge basin/wildlife habitat area referred to as the Burris Basin and owned by the Orange County Water District (OCWD). The City of Anaheim, through a Memorandum of Understanding and a property lease agreement with the OCWD, is proposing to develop a passive recreation/nature park within the existing ground water recharge basin/wildlife habitat area. There are no active park uses (e.g. sports fields, playground areas, etc.) proposed in conjunction with this project.	<b>MND</b>	01/25/2010
2009121071	Tustin Wells 21 and 22 Project, and Tustin Legacy Well 1 Project Irvine Ranch Water District Tustin--Orange The Irvine Ranch Water District is proposing to install wellhead equipment on two existing groundwater wells (Wells 21 and 22), drill one new production well (Tustin Legacy Well 1), and construct a new water treatment plant and water transmission pipelines in the cities of Tustin and Irvine.	<b>MND</b>	01/25/2010

2009121072	<p>Firestone Boulevard Improvements Buena Park, City of Buena Park--Orange</p> <p>The project consists of improvements to Firestone Boulevard north of Artesia Boulevard and intersection improvements where Artesia Boulevard intersects with Firestone Boulevard and the I-5 northbound ramps in the City of Buena Park. Improvements along Firestone Boulevard include widening Firestone Boulevard from Artesia Boulevard to approximately 900 feet to the north to increase capacity and accommodate trucks. Firestone boulevard is frequently accessed by truck traffic on a daily basis to get to industrial areas north of Artesia Boulevard. The intersection has been recently improved as part of the Caltrans I-5 Widening Project. Firestone Boulevard is proposed to be widened on both sides of the street. The intersection improvements are designed to accommodate truck traffic; specifically, truck turning movements to and from Firestone Boulevard via Artesia Boulevard. The proposed project will require right-of-way from Assessor Parcel Number (APN) 066-020-33 and APN 066-020-35 to accommodate the improvements.</p>	<b>MND</b>	01/25/2010
2009122067	<p>Triple Duty Mine, LLC Use Permit and Reclamation Plan (UP-09-17/RP-09-03) Siskiyou County --Siskiyou</p> <p>The applicants request lead agency approval to establish a surface mining operation. The proposed operation would involve the removal of 1.5 million cubic yards of ore (gravel) covering 12 acres for purposes of gold extraction. At the conclusion of mining activities, available top soil will be redistributed over distributed areas and revegetated for non-prime agricultural uses.</p>	<b>MND</b>	01/25/2010
2009122068	<p>East Fork Road at Halls Gulch Bridge (No. 05C-0149) Replacement Project Trinity County --Trinity</p> <p>Replacement of existing bridge at East Fork Road at Halls Gulch. The new bridge would consist of a 24-foot wide, two lane single-span cast in place post tension concrete slab structure with an overall length of 80 feet. The old bridge would be removed after construction of the new bridge has been completed.</p>	<b>MND</b>	01/29/2010
2009122069	<p>Gerberville Sanitary District Water System Improvement Project Garberville Sanitary District --Humboldt</p> <p>This project proposes the construction of a new 670,000- 1,000,000 gallon water storage tank to be located on APN: 223-06-018 also known as the "Johnson Property". (Figure 3-GSD Water Facilities Plan) The Johnson tank site is approximately 260 feet higher in elevation than the existing Hurlbutt tank site, allowing the town's water system to be fed by gravity from this new main storage tank. Water would be extracted from the existing surface water intake and pumped up to the existing Garberville water system and then to the new water storage tank via the Oak Street Booster Station. Water would flow by force of gravity back down to the water system in the town of Garberville and to the Oak Street Booster Station for distribution.</p>	<b>MND</b>	01/25/2010
2009121073	<p>Tu Casa Revetment- SUP 09-06 Carlsbad, City of Carlsbad--San Diego</p> <p>Maintenance work to repair existing shoreline armoring (rock revetment) by removal of rock that has migrated vertically down the shore slope into the Agua</p>	<b>Neg</b>	01/25/2010

<b><u>Documents Received on Thursday, December 24, 2009</u></b>			
	<p>Hedionda Lagoon and replace the rock on a steepened shoreface. On average, the work would change the rock slope from an approximately 2:8:1 slope to a slightly steeper 2~2.5:1 slope through moving the toe of any existing armoring back towards the shoreface. The maintenance proposed is generally considered preventive revetment maintenance since no segment within the work area has so completely failed as to require shoreline reconstruction beyond rock removals from the lower intertidal areas and replacement of large rock on the upper shoreline. Some of the rock will be reused, while some of the material will be upsized to larger revetment stone to prevent further vertical movement of rock. The work would also include the import and placement of not more than 25 cubic yards of quarried armor stone.</p>		
2009122065	<p>Housing Element Update Portola, City of Portola--Plumas</p> <p>The proposed project is an update of the Housing Element adopted in 2006. A Draft 2009-2014 Housing Element Update has been prepared by the City to comply with the legal mandate that requires each local government to adequately plan to meet the existing and projected housing needs of all economic segments of the community. The Housing Element is being prepared pursuant to Government Code Section 65580-65589.8. The proposed Housing Element update sets forth goals, policies, objectives, and programs that together evidence the ability to meet the City's fair share of regional housing needs by the year 2014. The number assigned to the City of Portola pursuant to the Regional Housing Needs Allocation (PHNA) process is 25 new dwelling units. The Housing Element does not require the construction of these units but rather establishes policies that will allow for and support their development.</p>	<b>Neg</b>	01/25/2010
2009122066	<p>Gladding McBean Glaze Settling Pond Stockpile Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Lincoln--Placer</p> <p>Gladding McBean Corporation owns a soil stockpile located on land in Lincoln, California (Figure 1). The stockpile consists of approximately 10,000 cubic yards of dredged native sediments, mixed with native and imported refractory clay materials and small amounts of various till glazing compounds. The stockpile was generated by the closure of permitted wastewater ponds formerly located on the plant site owned by Gladding McBean. Gladding McBean plans to close in place and cap the stockpile. The CVRWQCB proposes to use the standards provided in Title 27 of the California Code of Regulations (27 CCR) Waste Management Unit Closure and Post-Closure Maintenance regulations as a guideline in approving and overseeing the proposed closure plan.</p>	<b>Neg</b>	01/25/2010
2009122070	<p>General Plan Amendment Application No.2009-04-Housing Element Update Stanislaus County --Stanislaus</p> <p>This project consists of text changes to the 2003 Stanislaus County General Plan - Housing Element. The changes are not major in scope, but with emphasis on meeting State of California Department of Housing and Community Development (HCD) guidelines for context of a housing element.</p> <p>The 2009 Housing Element represents a modification to existing policies and implementation programs in the 2003 Housing Element. It proposes to preserve the most successful programs from the last Element to meet the housing needs of Stanislaus County residents through 2014.</p> <p>No specific housing projects are approved as a part of the Housing Element</p>	<b>Neg</b>	01/25/2010

	existing Alameda Siphons. The proposed project would improve treatment reliability by increasing the plant's sustainable capacity to 160 million gallons per day and bring the SVWTP in compliance with CDPH.		
2009061079	Ranchita Major Subdivision (17-lots); Tentative Map; TPM5516; ER06-10-007 San Diego County --San Diego The project proposes a Tentative Map to subdivide a 149.3 acre lot into 17 residential lots and one Archaeological Open Space Easement. The project site is located on Montezuma Valley Road near Lease Road in the North Mountain Community Planning area, within unincorporated San Diego County. The site is subject to the General Plan Regional Category Rural Development Area Land Use Designation Multiple Rural Use 18. Zoning is A70 Limited Agriculture. The site contains an existing single family residence that will be retained. Access to the site is provided by a private road connecting to Montezuma Valley Road. The project would be served by an on-site septic system and groundwater.	<b>NOD</b>	
2009082025	Fremont Landing Conservation Bank Fish & Game #2 --Yolo The project includes the enhancement of floodplain and shaded riverine aquatic habitat (SRA) for special-status fish. The project will restore riparian woodland to the floodplain and create oxbow slough channels that connect to both the existing borrow pits and the Sacramento River to alleviate ongoing fish stranding. Large woody debris will be installed along the riverbank to improve SRA.	<b>NOD</b>	
2009128216	Lime Ridge Reservoir Solar Project Contra Costa Water District Concord--Contra Costa The proposed project would consist of the installation of approximately 1,500 solar panels on top of the existing Lime Ridge Reservoir site on approximately 1-acre of land. CCWD's entire Lime Ridge site is 1.69-acres. The solar array is expected to produce to up to 480,000 kilowatt hours annually. The energy production would be used for operation of the existing pump station and to offset electricity currently purchased from PG&E. Exhibit 2 shows the layout. Each solar array would consist of several cells that convert light into electricity by absorbing the energy of the sun and causing current to flow between two oppositely charged layers.	<b>NOE</b>	
2009128219	Ramirez Canyon Slope Rehabilitation Caltrans #7 Malibu--Los Angeles This project will rehabilitate two failing slopes as well as two Corrugated Metal pipe (CMP) drainages along the Pacific Coast Highway (PCH) at Ramirez Canyon in the City of Malibu. The slope and CMP drainages began to fail after severe storms in 2005, and continue to erode, which will eventually lead to an undermining of the adjacent roadway. Unstable fill material will be excavated and recompacted via benching and will include the addition of geo-fabric. The CMP drainages will be replaced and extended beyond the current easement. Imported fill material will be used as well as the placement of rock slope protection around the outlet of the storm drains. This project will prevent possible failure of the adjacent PCH, maintain the current level of service and remove existing safety hazards.	<b>NOE</b>

2009121077	IS 01-223/CUP01-223 357 W. Compton Blvd, Gardena (Waste Resources Recovery) Los Angeles County --Los Angeles The Waste Resources Recovery Facility is currently permitted to receive 500 TPD, and does not request an increase in permitted daily tonnage as part of the proposed project. The project involves the movement of the existing scaled to the east side of the project site; demolition of the existing canopy; MRF building and offices; constriction of a larger canopy and tipping floor (14,210 sf); construction of a tunnel to improve truck circulation and construction of a new perimeter fence.	<b>MND</b>	01/26/2010
2009121081	Vista Bell Townhomes TTM 18698 and 08SPR01 Chino Hills, City of Chino Hills--San Bernardino The project consists of Tentative Tract Map 18698, consisting of one (1) lot for condominium purposes, and Site Plan Review 08SPR01 for the layout of the buildings and site features, as well as the architectural design of the buildings. The design of the Project consists of 9 three-story residential buildings. Units consists of three and four bedroom units ranging in size from 1699 square feet to 1850 square feet. Parking for each unit is provided under the units within garages. Uncovered visitor parking is provided throughout the site.	<b>MND</b>	01/26/2010
2009122076	Eagle Lake Sewage Ponds Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Susanville--Lassen The Eagle Lake Ranger District of the Lassen National Forest (NF) is proposing the following Eagle Lake Sewer Ponds Project (Project). The Eagle Lake sewage ponds service the Lassen NF's Eagle Lake Recreation Area (ELRA). The ponds, lined in the 1980's, are beginning to deteriorate. The draft Environmental Assessment/Initial Study (draft EA/IS) describes five alternatives (including a "No Action alternative") proposed in order to address the situation, and discloses the potential environmental effects of each of the alternatives. Patches are considered temporary fixes to mitigate the potential immediate safety hazard of small leaks in the lining. Complete replacement of the liners could prevent widespread failure of one or more of the ponds' linings, however, draining the ponds and replacing the liners could require closure for at least one season of the ELRA. Closure of these recreation facilities could have a negative impact-political and/or economic- on the public, surrounding communities, and the NF. Expansion of the facility could circumvent this issue, but the National Forest System (NFS) parcel on which the existing facility is located is limited in size. To add to the concerns, existing storage capacity of the evaporation ponds may be inadequate to handle future capacity increases to the ELRA.	<b>MND</b>	01/26/2010
2009121075	1131 Arizona Avenue Special Hospital for Acute Rehabilitation Services Santa Monica, City of Santa Monica--Los Angeles The proposed project involves the demolition of an existing 24-room/48-bed rest home facility and construction of a new 2,875 square foot, 35-room/50-bed special hospital for acute rehabilitation services (herein referred to as the "project" or "acute rehabilitation facility"). Construction of the project would also require excavation of earth to a depth sufficient to accommodate a proposed 16,855 square foot single level subterranean parking garage and foundation engineering. The new building would be three stories, at a maximum of 35 feet in height (40 including parapets).	<b>NOP</b>	01/26/2010

<b><u>Documents Received on Monday, December 28, 2009</u></b>			
2009121076	EIR 524 for Temecula Valley Wine Country Community Plan Riverside County Temecula--Riverside The proposed project is the development of a Temecula Valley Wine Country Community Plan, that will be used to ensure that the region develops in an orderly manner that maximizes the area's unique viniculture potential and the associated entrepreneurial uses, while balancing the need to protect the area's existing equestrian and rural lifestyles. The Community Plan will be realized through the following County actions: The General Plan Amendment No. 1077 component involve review and update of the existing Southwest Area Plan (SWAP) and other elements of the General Plan, particularly the policies and boundaries related to the existing Citrus Vineyard and Valle de Los Caballos Policy Areas (SWAP policies 1.1, 1.2, 1.3 and 2.1). The Change of Zone No. 7711 component involves review and update of the existing Citrus Vineyard (C/V) Zone and Commercial-Citrus Vineyard (C-C/V) Zone of Ordinance No. 348 (Zoning); review and possible revision to Section 18.8 of Ordinance No. 348 to ensure consistency for amortization (grandfathering) of nonconforming structures and uses; and also, zoning changes may occur, if found necessary based on parcel-by-parcel analysis of the Study Area. County Ordinance No. 847 (Regulating Noise) may also be revised to ensure appropriate standards for noise in agricultural areas and for special events and other uses. And, lastly, the existing Citrus Vineyard Policy Area Design Guidelines will be reviewed and updated as needed to ensure their continued effectiveness.	<b>NOP</b>	01/26/2010
2009121078	Marina Downtown Specific Plan Marina, City of Marina--Monterey The proposed project is a Specific Plan that will guide future development within the downtown core of the City of Marina. The Specific Plan aims to revitalize the Downtown Marina economy and sense of place through:  * A clearly stated vision for the future; * Clearly articulated land uses and development standards; * Appropriate design guidelines and regulations; * Strategies to encourage desired redevelopment and business ; and * An implementation program identifying action steps, organizations and resources.	<b>NOP</b>	01/26/2010
2009122075	San Francisco Groundwater Supply Project San Francisco, City and County of San Francisco--San Francisco The San Francisco Public Utilities Commission (SFPUC) is proposing the San Francisco Groundwater Supply Project, which would provide an average of four million gallons per day (mgd) of groundwater to San Francisco's municipal water supply. Groundwater would be blended with San Francisco's existing municipal water supply for distribution within San Francisco. The project consists of the construction and operation of six potable groundwater well facilities - two that would be converted from existing irrigation well facilities and four that would be newly constructed. Nine locations are currently under consideration for potable groundwater well facilities; however, only six facilities would be constructed. Each facility would include a groundwater production well and a pump station. The SFPUC would also construct a distribution system (including pipelines and connection points) that would connect five of the well facilities to Sunset Reservoir;	<b>NOP</b>	01/26/2010

	required flag lot street frontage for two of the proposed lots from 20 ft to 12 ft. The flag lots are adjacent to each other. A 24 ft wide shared driveway would provide access across the adjoining "flag" portions of these two lots.		
2009129020	EECBG Grant Application Los Alamitos, City of Los Alamitos--Orange Replacement of equipment for existing facilities.	<b>NOD</b>	
2009128222	New Indio Courthouse for the Superior Court of California, County of Riverside Judicial Council of California Indio--Riverside The project includes acquisition of parcels covering approximately 2.5 acres, construction of a new approximately 54,000 BGSF courthouse, and operation of the courthouse for the Superior Court of California, County of Riverside. The new courthouse will have four hearing rooms and will provide approximately 120 parking spaces.	<b>NOE</b>	
2009128223	Native Oyster Restoration Pilot Proejct, Upper Newport Bay, California State University Fullerton Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside Newport Beach--Orange Dead oyster shells (and perhaps ceramic tiles, as a surrogate for oyster shells) will be placed at the mudflat as a substrate for natural, passive recruitment and growth of new oysters, as a test of the potential to restore oyster beds to Newport Bay. Twenty-five, 2m X 2m replicate plots, with 2m gaps, will receive scattered or bagged oyster shells, and preference for oyster spat settling will be observed.	<b>NOE</b>	
2009128224	Well 4 VFD Installation Project Live Oak, City of Live Oak--Sutter The City of Live Oak is applying for an energy efficiency community block grant to fund a water system project that would save the City money on energy costs. This project would involve installing a variable frequency drive (VFD) that would control the motor on City Water Well Number 4. The VFD will allow the well to operate more effeciently, which would result in lower electrical costs.	<b>NOE</b>	
2009128225	California Forest Highway 119 Quincy-Oroville Road Project SAA #1600-2009-0209-R2 Fish & Game #2 --Plumas Grizzly Creek Bridge Replacement: Removal of existing structures, including support piers, wingwalls, and concrete bottom. Construction of a new, modern-design full spanning bridge just downstream from the present bridge site. Little Grizzly Creek Culvert Extension: The existing culvert on Little Grizzly Creek will be extended approximately 50 linear feet at the inlet end to include a structural arch plate extension, concrete wing walls and riprap for scour protection. Big Creek Embankment Protection: A mechanically stabilized earthen (MSE) wall will be installed on the embankment at the Big Creek washout landslide area. Riprap will be placed at the toe of the slope to provide bank stabilization and scour protection along the north bank of Big Creek.	<b>NOE</b>

	trellising, stakes, and cross arms. As proposed, water supply for the development would be provided via onsite well, and sewage disposal for the site would be through private septic tank. Access is proposed via Driver Road and Kimberlina Road, which are designated as Arterial alignments by the Circulation Element of the Kern County General Plan. The site also intends to access the polyline Railroad that abuts the eastern boundary via an extension to an existing spur.		
2009121083	Salinity Management Pipeline-Phase 2 (Lower Reach) Spec 470 Calleguas Municipal Water District Camarillo--Ventura The proposed project is a component of the Calleguas Regional Salinity Management Project which consists of a pipeline system to transport concentrate from demineralization of brackish groundwater and excess tertiary treated municipal wastewater for reuse or to an ocean outfall for disposal when no reuse opportunities are available. The project would result in a net reduction in the salinity of surface and ground waters within the Calleguas Creek Watershed. The project will include the construction of approximately 6.6 miles of 30" diameter pipeline and an approximately 450,000-gallon control tank.	<b>MND</b>	01/27/2010
2009121089	Salem Apartments Glendale, City of Glendale--Los Angeles The project involves the development of a 36-unit affordable rental housing project. Four of the 36 units will be developed as live/work units. The project site is located on four adjoining lots totaling approximately 27,910 square feet (0.64 acres). A total of 58 parking spaces will be provided in a semi-subterranean parking garaged with access from Salem Street.	<b>MND</b>	01/27/2010
2009122078	Bridge Replacement East Camp Road at Spring Creek Colusa County Williams--Colusa Replace existing substandard bridge with new bridge constructed to current standards. A temporary detour will be constructed and removed when no longer necessary. Roadway approaches to the bridge and bridge railing will also be constructed.	<b>MND</b>	01/27/2010
2009121088	George Reed, Inc. Merced Quarry Project and Reclamation Plan Merced County --Merced The project proposed by George Reed, Inc. (Applicant) is an application for a Conditional Use Permit (CUP) for mining below grade on a 103-acre portion of a 152.2-acre parcel of land, and the operation of asphalt concrete (PCC) batch plants. The proposed project is to modify CUP No. 2870 to allow for mining below-grade level, into the perched-water zone (to a depth of approximately 25 feet below grade), to operate an asphalt concrete batch plant and a PCC batch plant, and to change the current reclamation plan's end use from agricultural to open space with wildlife and natural-occurring vegetation. The proposed project would also amend the County General Plan land use designation of an approximately 70-acre portion of the property from Snelling RRC No. 1 (Residential) to Agricultural and to rezone the property from Agricultural Residential (A-R) to General Agricultural (A-1). Proposed mining is expected to be completed in approximately 20 years. Sand and gravel deposits located beneath the previously mined portions of the site would be removed and would be transported to the existing on-site aggregate processing plant on on-site haul	<b>NOP</b>	01/27/2010

<b><u>Documents Received on Thursday, December 31, 2009</u></b>			
2009128258	<p>Universal X-Over Installation (Level 3 Enhanced and Modified Crossovers, Reverse Signaling and Highway Grade Crossing Approaches) San Diego Association of Governments San Diego, National City, Chula Vista--San Diego</p> <p>This project is part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th and Imperial Avenue Transit Center and Santee. These enhancements are necessary to install crossovers and traction power section insulation assemblies to insure the operation schedule is maintained for the future rehabilitation of the Blue Line. This project may entail the replacement of highway grade crossing mechanisms with the current standard, demolition of existing freight tracks, and sign replacement. Installation will require some minor trenching.</p>	<b>NOE</b>	
2009128259	<p>Downtown and Orange Line Station Platforms San Diego Association of Governments San Diego--San Diego</p> <p>This project is part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th &amp; Imperial Avenue Transit Center and Santee. The stations require improvements which will raise the platforms from 6" to 8" above the top of rail platform and may also include lowering the track; reducing the ballast section; and/or replacing existing track with LR52 rail to accommodate LFLRVs. The platform at the the Euclid Avenud and 47th Street Station will be raised from level (0") to 8".</p>	<b>NOE</b>	
2009128260	<p>Bayside (Green Line Extension) Station Platforms San Diego Association of Governments San Diego--San Diego</p> <p>This project is part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th &amp; Imperial Avenue Transit Center and Santee. Station improvements may include: raising platforms to 8" above the top of rail platform; lowering track; reducing ballast section; and/or replacing existing track with LR52 rail to accommodate LFLRVs. Station improvements may also include site work for drainage and ADA accessibility, revisions to existing landscaping and utilities, reinstallation of station amenities, installation of new detectable warning paves, and communication upgrades (conduit, variable message signs, speckers, etc.).</p>	<b>NOE</b>	
2009128261	<p>Blue Line Track and Signal Improvements San Diego Association of Governments San Diego--San Diego</p> <p>These improvements are part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th &amp; Imperial Avenue Transit Center and Santee. Blue Line track and signal improvements include: repairing grade crossing surfaces at approximately 40 locations with concrete track panels and asphalt roadway surface (160' per track) 90# rail replacement at 5 district locations (4 curves) with 115# rail and replacing switches and mechanical installations enabling vehicles to switch tracks at 5 locations. SANDAG will perform annual maintenance as needed including: replacing interlocking cases and highway grade cases; replacing crossing lights and flashes with LEDs; repairing substation roofs, relays, and equipment cases;</p>	<b>NOE</b>

	resurfacing bus travel ways and parking lots; and replacing the remainder of 90# rail with 115# rail elastic fasteners on existing wood ties.		
2009128262	Contact Wire Replacement and Fiber Optic Installation San Diego Association of Governments San Diego--San Diego This project is part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th and Imperial Avenue Transit Center and Santee. The system of overhead wires used to transmit electrical energy to the trolley cars will be replaced enabling network communication along the Blue Line to remotely monitor and control railroad signaling and various other systems. Fiber optics will be bundled together and strung from existing poles along the trolley right-of-way. Some trenching may be required to install the fiber optics underground where clearance issues prohibit hanging the wires. Over bridge structures, fiber optics may be installed within the track ballast.	<b>NOE</b>	
2009128263	Blue Line Staton Platform and Station Upgrades San Diego Association of Governments San Diego--San Diego This project is part of a larger rehabilitation program on the trolley system to provide Low Floor Light Rail Vehicle (LFLRV) access on the Blue Line between Old Town and San Ysidro Transit Centers, and the Orange Line between 12th and Imperial Avenue Transit Center and Santee. Station improvements may include: raising platforms to 8" above the top of rail platform; lowering track; reducing ballast section; and/or replacing existing track with LR52 rail to accommodate LFLRVs. Passenger shelters shall be replaced and passenger information systems shall be installed.	<b>NOE</b>
