

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

February 1-15, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, February 01, 2006</u>			
2004071039	Lake Forest Opportunities Study Lake Forest, City of Lake Forest--Orange The proposed project includes a GPA and Zone Change of 838 acres of vacant lands in the Project Area on seven parcels. The GPA would change the allowed land uses from industrial, agricultural, and commercial land uses to residential, commercial, public facilities, and mixed uses. The project parcels currently have approximately 9.8 million square feet of approved industrial and commercial development rights. The GPA and Zone Change consider development of 5,415 residential units on Sites 1 through 6 and a public facilities overlay on Site 7.	EIR	03/17/2006
2004062013	Oak to Ninth Mixed Use Development Community & Economic Development Agency Strategic Planning Division Oakland--Alameda The project would construct approximately 3,100 residential dwelling units (a mix of flats, townhomes, and lofts) on 13 development parcels. Approximately 200,000 square feet of ground-floor retail/commercial space would be distributed throughout each of the 13 development parcels and would be designed to provide a variety of active retail, restaurant, service and small office uses to support the new residential neighborhood and serve visitors to the site. Approximately 28.4 acres (or 44 percent) of the site would be developed with parks and open spaces, including an existing 7.7-acre park (Estuary Park). The project would demolish a maximum of 165,000 square feet of the existing 180,000 square-foot Ninth Avenue Terminal building (an historic resources) to create the largest (9.7 acres) of a series of interconnected parks and waterfront space.	FIN	
2006021002	Arvin Sanitary Landfill Permit Revision Project Kern County Waste Management Department Arvin, Lamont--Kern Revise SWFP to change facility boundary from 170.37 acres to 270.25 acres; increase peak daily waste receipt; increase permitted elevation of the landfill; increase permitted capacity of the landfill; General Plan Amendment from 8.3 to 3.4.1 for up to 143.84 acres; General Plan Amendment from 3.4 to 3.4.1 for the 80-acre borrow pit; Zone Change from A-1 to A for 20 acres; Record a Redundant Deed or Lot Line Adjustment to merge the multi-parcel site into one; Circulation Element Amendment to abandon or reclassify major arterial and secondary collector routes; Vacate existing or recorded future street and public easements; Amend the legal description of the CUP #7, Map #144 to include portions of the buffer within the permitted facility boundary and to allow the use of some of the buffer as a recreational use.	NOP	03/20/2006
2006021003	Water Acquisition from the Buena Vista Water Storage District and Rosedale-Rio Bravo Water Storage District Water Banking and Recovery Program Castaic Lake Water Agency --Los Angeles, Ventura, Kern The Water Acquisition Project is the purchase of water by CLWA from BVWSD/ RRBWSD pursuant to the Program, which is a joint endeavor between BVWSD and RRBWSD involving the recharge, groundwater banking, recovery and exchange of water acquired by BVWSD and RRBWSD pursuant to the Program as identified in the 2002 BVWSD/ RRBWSD Final EIR and the sale of recovered water to third-party users, like CLWA, both within Kern County and elsewhere. <u>Documents Received on Wednesday, February 01, 2006</u>			
2006021005	Historic Old Administration Building Renovation Project State Center Community College District Fresno--Fresno The project will restore the Old Administration Building (OAB) to its original appearance and uses. The OAB will undergo seismic retrofit; structural, mechanical, and electrical upgrades; and fire, life safety, and access code compliance improvements. The renovated building will include administration, faculty, and campus organization offices; classrooms; an auditorium; a library; music/choral; staff workrooms; and restrooms. The existing exterior walls will remain intact within the new space configuration.	NOP	03/02/2006
2006022008	City of Emeryville General Plan and Zoning Ordinance Update Emeryville, City of Emeryville--Alameda The City of Emeryville has initiated a comprehensive update of its General Plan, which is an opportunity for community members to explore long-term goals and development for the City. The Plan identifies current and future needs in areas such as land use, housing, transportation, public services, environmental quality, and economic viability.	NOP	03/02/2006
2006022010	Tehama College Center Project Shasta Tehama Trinity Joint Community College District Red Bluff--Tehama The proposed project would construct the Tehama College Center on a 40 acre site in Red Bluff, California. The project would replace temporary and leased facilities in Tehama County and expand the curriculum for technology related occupations.	NOP	03/03/2006
2005122039	Angora 3 Erosion Control Project and Angora Creek Fisheries Enhancement Project El Dorado County South Lake Tahoe--El Dorado El Dorado County proposes to construct and maintain conveyance and storm water treatment facilities to address water quality and erosion issues in the project area. In addition, the proposed project also includes the improvement of culverts under Lake Tahoe Blvd. to enhance fish habitat within Angora Creek. Both projects are considered environmental improvements as documented in the Lake Tahoe Environmental Improvement Program and pose only short term impacts which are less than significant with incorporated mitigated measures.	Neg	03/02/2006
2006011139	Place Road/ Pacheco Boulevard Infrastructure Improvements Los Banos, City of Los Banos--Merced The proposed project is the acquisition of additional right-of-way for the widening of Pacheco Boulevard/ Place Road Intersection, and the acquisition of right-of-way (or easement) and construction of a storm drain line and detention basin.	Neg	03/02/2006
2006021001	PA05-208 (Master Plot Plan), PA05-0209 (Tentative Parcel Map 34411) and PA06-0006 to PA06-0009 (Three Plot Plans and a Conditional Use Permit) Moreno Valley, City of Moreno Valley--Riverside The proposed project includes a 563,328 square foot commercial retail center including two anchor stores, eight major retail buildings and numerous out parcel retail/ restaurant pads, including two drive-thru restaurants and a gas station, on a 55.45 net acre parcel of land within the CC (Community Commercial) land use	Neg	03/02/2006

2002042013	Sewer System Rehabilitation Project Lake Oroville Area Public Utility District Oroville--Butte The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0375-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Lake Oroville Area Public Utility District. Upgrade existing sewer line. The pipeline alignment includes the crossing of five intermittent and five ephemeral stream channels.	NOD	
2002121059	Cross Valley Connector Gap Closure Project: Extension of Newhall Ranch Road from Copper Hill Drive/Rye Canyon Road to I-5 Santa Clarita, City of Santa Clarita--Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0583-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Santa Clarita. City of Santa Clarita will alter the streambed by constructing the Cross Valley Connector Gap Closures (CVC-Gap Closure) project. The project will impact three drainages and an existing debris basin. Drainage A will be impacted by 0.20 acre; Drainage B will be impacted by 0.36 acre; Drainage C will be impacted by 3.07 acres. The project includes construction of an 8-lane divided arterial; outside curb and gutter; raised landscape median, a Class I Bike Lane on the south side; reinforced concrete pipe (RCP storm drains; concrete channel improvements; and the relocation of an earthen debris basin. 2003101142	Dana Point Harbor Revitalization Project Orange County Dana Point--Orange The Dana Point Harbor Revitalization Project will provide a comprehensive planning tool for the entire Harbor and reflects current planning and design analyses. The proposed project will establish a Commercial Core and provide for the replacement and/or remodeling of all existing retail and restaurant buildings. The proposed project also includes the reconfiguration of all existing surface parking areas to provide additional parking, new boater loading and drop-off areas, new dry-stack boat storage spaces and improvements to boater service and public restroom buildings. The proposed project will provide for the relocation of certain yacht brokerage firms and other harbor-related office uses to the Commercial Core area and the construction of a new lighthouse facility at the terminus of Puerto Place. The proposed Revitalization Plan includes improvements to the Commercial Core (Planning Areas 1 and 2) and provides for the replacement and/or remodeling replacement of all 26,600 square feet of existing retail uses and 51,300 square feet of existing restaurant uses, as well as a festival plaza, and a 610 space parking deck. EIR 591 also provides for a programmatic level of analysis for additional improvements (Planning Areas 3-12 and the southern portion of Planning Area 1) including the renovation and/or expansion of the Dana Point and Dana West Yacht Clubs, restaurant renovations and modifications to the Harbor Patrol Offices to provide additional meeting rooms or staff office space. Additional work is anticipated to be performed to reconfigure and/or reconstruct the marina docks and portions of the seawall, add additional guest boater slips closer to the Commercial Core and to construct a dinghy dock area adjacent to Dana Wharf. 2006028004	<p>Empire Mine Fuelbreak Project Parks and Recreation, Department of --Nevada Phase 1: Conduct pre-construction archaeological field survey and resource inventory in fuelbreak project location at Empire Mine State Historic Park to identify archaeological resources that require protection from ground disturbance activity. Phase 2: If the systematic survey results in the positive identification of archaeological sites/or significant isolates, protective measures will be implemented to avoid impacts from the proposed actions of Phase 4. Measures will consist of delineation of the cultural resources with flagging, identification of the resources on a topographic map, and communication of the resource locations to the project manager. Any fuel reduction in areas within and adjacent to recorded archaeological sites and cultural resource features will be limited to hand clearing. Vehicles shall be prohibited within these exclusion zones. Pile burning and chipping within site boundaries is prohibited. Staging areas or haul routes outside of the previously established road system will be surveyed prior to use. Phase 3: Field crew training by the Sierra District Archaeologist prior to commencement of the fuelbreak project to ensue protection, avoidance, and reporting of cultural resources. Phase 4: Create a Defensible Fuel Profile Zone (DFPZ) on 653 acres at Empire Mine State Historic Park to reduce the threat of a catastrophic wildfire and improve native forest composition and structure.</p>	NOE

2006028005	<p>Leeder Property - Drainage Fill Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity</p> <p>The project involves installation of a culvert to divert a small drainage channel into a similar and adjacent seasonal drainage channel for construction of a single family home. Both channels carry storm water runoff and the diverted channel carries leakage from an upstream unlined irrigation ditch. Both channels flow into a subsurface storm drain system after they exit the parcel. A subsurface drain will also be installed in the diverted section of drainage channel.</p>	NOE					
2006028006	<p>Emergency Installation of the Chorro Creek Utility Crossing at Former Bridge 108 San Luis Obispo County San Luis Obispo--San Luis Obispo</p> <p>Bridge 108 previously crossed Chorro Creek on Camp San Luis Obispo property and provided access to property that now contains the County Operations Center. The wooden bridge was closed several decades ago. Partial demolition was accomplished by CAANG within the past few years. Complete demolition was deferred because the bridge supports utilities that serve the County facilities. The wooden remains of the bridge structure have deteriorated significantly and the two concrete pier footings supporting the remaining superstructure have been severely undercut. Collapse of the structure and loss of the utility lines appears imminent. High creek flows laden with storm debris could result in catastrophic failure of the bridge structure, footing, and utility lines. San Luis Obispo County Department of Public Works proposes to construct a steel support structure that will be placed across the creek. Once the support structure is in place the utilities would be secured to it and disconnected from bridge 108.</p>	NOE

	associated site improvements.		
2006021009	Calimesa Line L Flood Control Project Riverside County Flood Control and Water Conservation Calimesa--Riverside The proposed project is a flood control facility which consists of reinforced concrete pipe ranging from approximately 36 inches to 90 inches in diameter. The proposed project is expected to occur in phases. The initial phase of the proposed project consists of approximately 4,700 lineal feet of reinforced concrete pipe ranging from approximately 66 inches to 84 inches in diameter. The proposed outlet for the project is an existing sump located at the terminus of Calimesa Channel immediately east of I-10 Freeway and south of County Line Road. The alignment for the initial phase of the project will begin from the existing sump and extend south within, and parallel to, the I-10 Freeway right-of-way, east of Avenue K, south in Calimesa Boulevard, and east in Avenue L to approximately 4th Street. The subsequent phase of the project would continue within Avenue L, from approximately 4th Street to Douglas Street. The ultimate storm drain system, once completed, will provide 100-year flood protection to existing development along Calimesa Boulevard and Avenue L.	MND	03/03/2006
2006021010	Palm Springs MDP Line 41, Stage 3 Riverside County Flood Control and Water Conservation Palm Springs--Riverside The proposed Palm Springs Master Drainage Plan (MDP) Line 41, Stage 3 project will consist of the construction and maintenance of a storm drain in Golf Club Drive, an earthen 6.7 acre detention basin and approximately 6,000 linear feet of an underground reinforced concrete pipe storm drain system ranging from 66 to 96 inches in diameter. The proposed storm drain facility will begin at the terminus of the existing Palm Springs MDP Line 41, Stage 2 inlet and generally extend in a westerly direction along East Palm Canyon Drive, Gene Autry Trail, Matthew Drive, Cherokee Way, and Santa Monica Drive. The proposed storm drain will extend westerly, for approximately 100-feet, past the intersection of Carmel Drive and Santa Monica Drive and terminate with a concrete lined inlet structure. The proposed project also includes the construction of lateral storm drains along Linden Drive and along the southerly extension of the unimproved Cherokee Way. These laterals will total approximately 1,000 feet in length and range in size from 36 to 48 inches in diameter. Additional capacity will also be provided at Golf Club Drive by increasing the size of the existing storm drain under Golf Club Drive and reconstructing the concrete lined inlet structure just to the north of East Palm Canyon Drive. The project will be designed to convey the estimated 100-year flow rate.	MND	03/03/2006
2006022011	Snowcreek VII - Hilltop Mammoth Lakes, City of Mammoth Lakes--Mono Snowcreek VII is proposed as a 118-unit condominium plan in the Old Mammoth/Snowcreek area of Town. The proposed condominium plan includes 118 units in 37 buildings; nine duplexes, 12 triplexes and 16 fourplexes in two- and three-story buildings ranging in height from 25 to 35 feet (or 27 to 37 feet with appurtenances). Each unit will have a 2-car parking garage at street level. Additional parking will be provided on paved areas along the internal circulation system. A total of 236 covered and 33 uncovered parking spaces are proposed. At buildout, the project will include approximately 382,500 square feet of impervious surface consisting of roofs, drives, and parking. An additional 65,000	MND	03/03/2006

	Chemical Waste Management Landfill or another appropriate landfill. The Cleanup Goal (CG) for the arsenic is 10 mg/kg, and 255 mg/kg for lead.				
2006028014	S.R. Kilby Removal Action Workplan Toxic Substances Control, Department of --Kern DTSC has approved a Removal Action Workplan (RAW) for the S.R. Kilby site located in Rosamond, Kern County. The RAW summarizes the findings of site investigation activities, identifies chemicals of concern, assesses risk for the purposes of determining the need for remedial action and identifying appropriate cleanup goals, and defines the extent of environmental media which must be managed in order to protect human health and the environment. The RAW then evaluates removal action alternatives and selects the alternative that best meets the criteria of effectiveness, implementability and costs as required under applicable law, regulation and guidance as described above. The alternative selected for implementation at the site consists of the on-site consolidation and management of contaminated soil and slag in a manner that will allow for future industrial/commercial use of the site, but not sensitive uses such as residences, schools or hospitals. Chemicals of Concern (COCs) identified in the RAW include: antimony, arsenic, and lead.	NOE

	and discharge of water to local drainages during drainage of the pipeline.		
2006021015	McLaughlin Reservoir Project Eastern Municipal Water District --Riverside The proposed McLaughlin Reservoir Project (project) would consist of the construction of a 4.3 million gallon water storage reservoir, pump station, and associated pipelines, access road, and tie-ins. The proposed project is required within the Ellis Pressure Zone for providing water for the previously approved Menifee Valley Ranch development. The purpose/objectives of the proposed project would be to provide adequate fire flow for fire hydrants, provide adequate capacity to meet the established maximum day demand that would, for example, occur during the hottest summer day, and to provide adequate emergency capacity should electric power be interrupted. The existing water storage capacity and distribution system within the Ellis Pressure Zone does not have the capacity to meet the above provisions for the proposed development in the surrounding area.	Neg	03/06/2006
2006022023	Folsom Seniors & Arts Center Folsom, City of Folsom--Sacramento This project includes the renovation of a 10,000 sf decommissioned fire station. The Master Development Plan also includes landscaping, parking, and drive aisle reconfiguration.	Neg	03/06/2006
2006022029	Pleasant Creek Overchute at Putah South Canal Solano County Water Agency --Solano The Solano County Water Agency (SCWA) has been studying a solution to re-occurring failure of the Pleasants Creek over-chute (aka soft-plug) across Putah South Canal (PSC) located at PSC mile post 0.49 in Solano County. The upstream canal embankment was severely damaged in December 2002 due to overtopping by the creek into the PSC. A large portion of the rock and earthen embankment was eroded and washed into the PSC causing temporary disruption in service. The New Years Flood of 2006 caused overtopping of the structure again. This project essentially doubles the capacity of the over-chute by adding an additional equivalent structure next to the existing one. This will protect against future erosion and failures and improve water quality.	Neg	03/07/2006
1997071087	Prado Basin Perimeter Dikes: Corona Sewage Treatment & Housing Tract Dikes U.S. Army Corps of Engineers Norco, Yorba Linda--Riverside, Orange, San Bernardino This SEA focuses on changes or refinements to the project associated with construction of two perimeter dikes: the Corona Sewage Treatment Plant and National Housing Tract dikes. 2003122107	California Water Services Company-Coast Springs (Dillon Beach) Membrane Micro-filtration System Health Services, Department of --Marin The project involves the replacement of the existing filtration system with a microfiltration system. The project consists of the following major components: Pall Microfiltration system, ATEC iron and manganese removal system, building to house the new treatment system, and back up power.	NOD	
2005051136	York Drive Sewer Replacement Buena Sanitation District Vista--San Diego Project activity includes the following elements: replacement of approximately 1.23 miles of 8-inch vitrified clay sewer pipe, construction of approximately 0.9 miles of paved easement roads, acquisition of new sewer easements for access and maintenance, and realignment of the proposed sewer pipeline and access roads within new easements. The project impacts 1.36 acre of streambed.	NOD	
2005072005	Sac 16 - Excelsior Road Safety Project Caltrans #3 Sacramento--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0406-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Caltrans. Activities include, but are not limited to, replacement of the existing culvert and fill of existing wetlands and other watercourses to facilitate the widening of State Route 16 and Excelsior Road.	NOD	
2006028010	Town of Yucca Valley Property Acquisition for South Side Community Center Yucca Valley, City of Yucca Valley--San Bernardino The town of Yucca Valley is proceeding with the property acquisition of four parcels totalling approximately 78 acres for the purpose of a future community center.	NOE	
2006028011	Strathmore Public Utility District - Canal Storage Health Services, Department of --Tulare Strathmore Public Utility District is proposing to modify the Rocky Hill Check and the Fifth Avenue Check for storage of water during times when the Friant Kern Canal is dewatered for maintenance. Stored water will be treated by the Districts' surface water treatment plant. The project will facilitate providing potable water in lieu of using nitrate wells during the dewatering periods. The proposed installation of pipeline to interconnect the Lindsay-Strathmore Irrigation District irrigation system with the Strathmore Public Utility District raw water pipeline will occur adjacent to the Friant-Kern Canal.	NOE	
2006028015	Dock#226 Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley) --Madera Mr. Bruce Bare, Jr. proposes to replace a detached floating dock with a new attached floating dock. Concrete footings will be installed in the lakebed to stabilize the existing shoreside dock and the new floating dock.	NOE

2005041105	South Region High School No. 2 Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project entails acquisition of property for the planning, construction, and operation of the South Region High School No. 2 and the potential modernization of Bethune Park for possible school athletic uses.	EIR	03/23/2006
2004062128	Willows Wal-Mart Project Willows, City of Willows--Glenn Construction of a 193,459 square-foot Wal-Mart Supercenter on approximately 20.9 acres (involving demolition and removal of the existing 86,453 square-foot Wal-Mart store on southern portion of site), including a gas station with 12 fueling positions, and a 3,200 square-foot fast-food restaurant with a drive-through window on an adjacent 1.1-acre parcel.	FIN	
2006022041	Reclamation Master Plan - Phase 1 Project Lincoln, City of Lincoln--Placer This project will help fulfill the goals and objectives identified in the Regional Water Authority Integrated Regional Water Management (RWA IRWM) Plan by reclaiming and reusing wastewater effluent which might otherwise be discharged to Auburn Ravine. This reuse will have the added benefit of replacing potable water for irrigation and process water purposes, thereby conserving limited potable water for higher and better uses. By avoiding direct discharge to Auburn Ravine, this reuse will also allow additional surface water to remain in the streambed during critical migratory and spawning periods rather than be extracted for irrigation operations.	MND	03/08/2006
2006022038	City of Palo Alto Utilities 8-Hour Emergency Water Supply Project EIR Palo Alto, City of Palo Alto--Santa Clara The goal of the proposed project is to provide 11,000 gpm of reliable well capacity and 2.5 million gallons (MG) of water storage for emergency use in pressure areas 1, 2, and 3. To achieve this goal, the City will: * Rehabilitate all five of its existing wells; * Construct up to three new wells and equip one well for use as a supplemental water supply; and * Construct a new 2.5 MG storage reservoir and associated pump station.	NOP	03/08/2006
2006022040	Cheney Creek Bridge and Trail Sonoma County Regional Parks --Sonoma Project will construct multi-use trail, improve existing trail and install bridge over Cheney Creek, connecting both trails and two adjacent regional parks facilities.	NOP	03/08/2006

2006021031	San Luis Rey Transit Center and North River Village Mixed-Use Project Oceanside, City of Oceanside--San Diego A mixed-use project comprised of 106 residential condominiums, 13,700 square feet of commercial retail space and a bus transit center.	Neg	03/08/2006
2006021032	McNamara Lot Split, 06NGD-00000-00001 (05TPM-00000-00016) Santa Barbara County Carpinteria--Santa Barbara Per the request of Brendan McNamara, owner/applicant, and Jose Cardenas, surveyor, the proposed Tentative Parcel Map would subdivide an existing parcel of 7.06 gross acres/6.95 net acres into two new parcels of 3.09 gross acres/3.0 net acres (Parcel 1) and 3.97 gross acres/3.87 net acres (Parcel 2). The parcels would be served by the Carpinteria Valley Water District and Carpinteria-Summerland Fire Protection District. Each new parcel would be served by a new private septic system. Access from Via Real would be provided by an existing 47 foot wide public right-of-way.	Neg	03/08/2006
2006021033	I-15 Joint Port of Entry Project Caltrans #8 --San Bernardino Caltrans, in conjunction with the California Department of Food and Agriculture (CDFA), the California Department of General Services, and the California Highway Patrol (CHP), propose to construct a Joint Port of Entry (JPOE) inspection facility on I-15 near the California/Nevada border. The new facility would be located on the northwest side of southbound I-15 between the Yates Well Road interchange and the Nipton Road interchange, along Postmile 177.3 to 181.1. The proposed JPOE would provide for CDFA agricultural inspection and CHP commercial vehicle enforcement. Upon completion of the proposed project, all traffic entering California on southbound I-15 would be diverted through the JPOE. Also upon completion of the new JPOE facility, the existing agricultural inspection station located near Yermo, along Postmile 87.2 to 87.5, would be removed and that portion of southbound I-15 would be restored to uninterrupted traffic flow.	Neg	03/08/2006
2006022039	Ward Prezone and Annexation Request Etna, City of Etna--Siskiyou An application has been filed with the City of Etna for the pre zoning of approximately 0.52 acres in anticipation of annexation to the City of Etna. The parcel is currently outside the City limits and is not designed as having any special constraints in the Siskiyou County General Plan. The parcel is within the City of Etna's sphere of influence.	Neg	03/08/2006
2006022042	Borregas Avenue Bicycle/Pedestrian Bridges Project Sunnyvale, City of Sunnyvale--Santa Clara The project consists of two bicycle/pedestrian bridges on Borregas Avenue, one over SR 237 and the other over US 101. Each bridge would ramp up along the local street on the opposite side of the freeway, cross perpendicular to the freeway, then ramp down along the local street on the opposite side of the freeway. 2006029016	John Galvin Park Improvements Ontario, City of Ontario--San Bernardino John Galvin Park improvements include landscape improvements, renovation of ballfields with new lighting, new tot lot, new picnic shelters, new basketball court, and a modular skate park, the construction of a parking lot, and the construction of a 5,000 square foot community center.	NOD	
2006028027	Replace Two Restroom/Shower Buildings and Perform Associated Accessibility Improvements Parks and Recreation, Department of --Orange Remove existing day use restroom and replace with a six-fixture 20'x30' unisex restroom approximately 30' west of its current location. Provide drinking fountain compliant with ADA standards. Provide ADA-compliant path of travel to beach, to existing outdoor showers, and to existing picnic area. Provide ADA modifications to the picnic area (hardened ground surface, ADA table and barbecue) and modify existing horseshoe pit to be ADA-compliant (surface and path of travel). Rehabilitate two existing adjacent picnic sites to be ADA-compliant. Project involves removing all the asphalt (approx. 900 s.f.) in front of the new restroom and restoring footprint and all automobile circulation will be rerouted there. Existing parking will be restriped and one van-accessible and one additional ADA parking space will be provided. In order to provide accessibility the project will result in the loss of approximately 7 of +/- 350 existing parking spaces within 400' radius of the restroom. Replace campground combination shower/restroom building with a new building, on the same site, that meets ADA standards. The new building will contain two ADA-compliant unisex toilets and six (two ADA, four typical) unisex shower rooms. Provide for utility connections (sewer, water, electrical) and modify existing telephones to meet ADA standards. Install outdoor rinsing shower, replace freestanding hose bib, and install an ADA-compliant drinking fountain. Perform ADA parking modifications as required, make modifications to maintain existing utility station as required, and replace existing bench with ADA-compliant bench.	NOE	
2006028028	Planned Development Permit and Variance (#2005-88) Calaveras County Planning Department --Calaveras Issue a Planned Development Permit approving the proposed design and site development associated with renovation of two existing commercial buildings on two existing parcels, zoned C2-PD (General Commercial - Planned Development), and new construction to connect the same two buildings. The county-required standard width behind the parking spaces at the rear of APN 026-027-052 (1114 State Highway 4) will be reduced from 25' to 20', per the approved variance. This will still provide safe, useable access and allow expansion and improvement of the existing parking area while retaining a landscape strip containing mature apple trees and conifers along the north and northeast boundaries of the "Drive," a county road right-of-way. The proposed design meets or exceeds all applicable Calaveras County development and site preparation standards.	NOE	
2006028029	Silverwood Lake SRA -- Geotech Testing for Silverwood Ped Bridges, Nella Complex, & Rio Combo Bldg. Parks and Recreation, Department of --San Bernardino Geotechnical investigation will include machine and hand auger borings up to a depth of 60 feet. These borings will occur in several locations within the park	NOE

2005031003	DEIR for Woodfin Suites Hotel and Port Master Plan Amendment Project San Diego Unified Port District San Diego--San Diego The proposed project involves the redevelopment of an existing property leased to Marina Cortez, Inc. at 1880 Harbor Island Drive in San Diego. Woodfin Suite Hotels, LLC, will undertake the proposed redevelopment. The proposed project includes demolition of all existing structures on the 3.79-acre tidelands property. No portions of the existing marina boat berths within the submerged tidelands would be altered. The proposal includes construction of an eight-story, maximum 140-suite hotel with supporting facilities over partially suppressed parking, new and separate two-story marina services building, 1,120-linear foot seawall and public promenade along the entire shoreline frontage of the marina, and 401 on-site parking spaces. The EIR also evaluates a project option in which up to 40 of the 140 hotel suites would be marketed and operated as timeshares.	EIR	03/27/2006
2005102005	California Correctional Center Wastewater Treatment Plant Improvement Project Corrections, Department of Susanville--Lassen The California Department of Corrections and Rehabilitation proposes to construct, operate, and maintain improvements to the existing wastewater treatment plant (WWTP) at the California Correctional Center (CCC) as follows: new sludge drying beds, aeration ponds, sedimentation ponds, and effluent storage ponds, an additional irrigation sprayfield, and improvements to the pant headworks and yard piping. These improvements would be constructed to provide wastewater treatment to CCC and High Desert State Prison.	EIR	03/24/2006
2005062073	Oselot-Zinfandel Neighborhood Electric Distribution Project Sacramento Municipal Utility District Rancho Cordova--Sacramento Construct and operate a new neighborhood distribution substation in the southeast corner of the Villages of Zinfandel Special Plan Area and a 2.8-mile overhead 69kV sub transmission power line extending from the White Rock Road substation adjacent to the west side of the Folsom South Canal, then crossing the canal and paralleling the north side of Douglas Boulevard to the intersection of Sunrise Boulevard in the City of Rancho Cordova, Sacramento County. same width (12 inches) and the same depth (90 feet). The pump from the existing well will be used in the replacement well and capacity of the replacement well will be the same as the existing well.

The replacement well will be installed within 30 feet of the existing well. A monitoring well will be installed within 10 feet of the replacement well. Mud-rotary drill technique will be used for both the pilot hole and the well boring. A well development and a performance test will be conducted on the replacement well requiring 24-hours of continuous pumping at an estimated rate of 500 gpm. The test pumping will be carried out after submitting a NOI to obtain a General NPDES Permit for low threat discharges. Approximately 87 feet of new pipeline will be installed to connect the existing water distribution system to the replacement well.

The existing well will be abandoned and sealed following installation of the replacement well. The well casing will be sealed to prevent vertical migration of contaminants to the existing groundwater (present at approximately 20 feet below ground surface).

2005072019	<p>Franklin Boulevard Widening Project Elk Grove, City of Elk Grove--Sacramento</p> <p>The project will widen Franklin Boulevard from five lanes to six lanes and a portion of Franklin Boulevard from three lanes to six lanes. Elk Grove Boulevard would be widened approximately 24 feet on the south side (eastbound) between the UPRR overcrossing and Franklin Boulevard, a distance of approximately 0.25 mile. Franklin Boulevard would be widened approximately 26 feet on the west from its intersection with Elk Grove Boulevard south to approximately 80 feet south of Poppy Ridge Road, a distance of approximately 1.1 mile, to provide for a six lane arterial with median landscaping. The proposed improvements to Elk Grove Boulevard would be at the UPRR overhead structure and end at the intersection of Franklin Boulevard and Elk Grove Boulevard. Some minor road re-striping would occur on the UPRR overhead structure and on the eastbound lanes of Elk Grove Boulevard west of the overhead structure to its intersection with Four Winds Drive. The proposed improvements to Franklin Boulevard would begin at and include the intersection of Franklin Boulevard and Elk Grove Boulevard, and extend to the south approximately 80 feet south of the Franklin Boulevard and Poppy Ridge Road intersection. The existing lanes on Franklin Boulevard would become the ultimate three northbound lanes, median, and one southbound lane, while two new southbound lanes and two bus turnouts added to the west side of the existing road. Seven existing oak trees on the west side of Franklin Boulevard would need to be removed, and an intermittent open earthen storm water drainage ditch running adjacent to most of the west side of existing Franklin Boulevard would be filled to accommodate the new southbound lanes and bus turnouts.</p>	EIR	03/27/2006

2005101020	<p>Durfee/Clark 5.2 acre Annexation from the City of Arcadia into the City of El Monte, and Pre-zoning to R-1B in El Monte for a Proposed 34-Unit Planned Residential El Monte, City of Arcadia--Los Angeles</p> <p>Annexation of 5.2 acres of land from the City of Arcadia to the City of El Monte to accommodate a proposed 34-unit Planned Residential Development. The residential project would involve the construction of 34 two-story dwelling units with 102 enclosed parking spaces and 117 open parking spaces. The applicant is requesting that the property be zoned R-1B in the City of El Monte and designated Low Density Residential on the El Monte General Plan. The approvals for the zoning request will be conducted at a later date under the entitlements required for approval of the construction project. It should be noted, however, that this environmental review focuses on the annexation and not on the development of the residential project. Following annexation of the property into the City of El Monte, a subsequent environmental review will be conducted to address the construction of the residential project. The site is located at the southeast corner of Durfee Avenue and Clark Street and is occupied by a mix of legal and illegal commercial uses. There is also one occupied dwelling unit at the south end of the project site. The parcel is relatively flat with a slight slope to the southeast. The parcel has a street frontage along Durfee Avenue of approximately 617 feet and an average depth of approximately 370 feet.</p>	MND	03/10/2006

2006021042	San Bernardino International Airport Authority Aircraft Fuel Farm Project San Bernardino International Airport Authority San Bernardino--San Bernardino San Bernardino International Airport Authority has determined that the existing 36,000 gallon fuel storage capacity is not adequate to meet the projected future demand for fuel at the Airport. SBIAA is, therefore, proposing to construct a fuel farm facility near the location of the original Air Force fuel tanks which have been removed. The site was selected because an existing fuel supply pipeline is available at the site. SBIAA anticipates that up to 500,000 gallons of fuel storage capacity will ultimately be needed at the airport. The demand for fuel will increase with growth of air operations, therefore, SBIAA is proposing to construct a fuel farm in increments. The first phase proposes a 150,000 gallon storage capacity with the ability to expand capacity on an as needed basis to about 500,000 gallons.	Neg	03/10/2006

2004031030	Zone 3 Reservoir at OC-72 Irvine Ranch Water District Irvine--Orange The proposed Zone 3 Reservoir project will consist of a circular reinforced concrete water tank with a diameter of 189 feet and height of about 35 feet, inlet and outlet pipelines connecting from the water tank to the existing 48-inch pipeline from the OC-72 turnout, and a paved access road from Portola Parkway to the reservoir. The proposed tank will have a capacity of 6-million gallons with roof top and floor elevations of approximately 475 feet and 440 feet, respectively. The reservoir location will be landscaped after the construction. A permanent cut slope and berm will be constructed along the wall of the excavation.	NOD	
2004091141	Planning Area 6 Zones 4 and C Reservoirs and Booster Pump Stations Project Irvine Ranch Water District Irvine--Orange The proposed Reservoirs and Booster Pump Stations project would consist of two reservoirs and two booster pump stations. The two reservoirs would be partially buried pre-stressed concrete tanks. Both reservoirs will have a nominal height of 30 feet. The 3.5 MG domestic water tank would be 145 feet in diameter. The 2.2 MD recycled water tank would have a diameter of 118 feet. The two booster pump stations would consist of up to four 125-horsepower fixed-speed duty pumps. Both pump stations would be housed under a single, 20-foot wide canopy. A five foot-high berm would provide visual and noise screening.	NOD	
2005011033	Rosedale Ranch Project (GPA/ZC #04-0671) Bakersfield, City of Bakersfield--Kern An amendment to the Metropolitan Bakersfield General Plan to change the Land Use designations from LMR (Low Medium Residential) on 900 acres; HMR (High Medium Residential) on 60 acres; GC (General Commercial) on 10 acres; LI (Light Industrial) on 480 acres and SI (Service Industrial) on 205 acres to LR (Low Residential) on 412.2 acres; LMR (Low Medium Residential) on 753.1 acres; HMR on 69.2 acres; GC on 182.1 acres. An amendment to the General Plan Circulation Element to realign the West Beltway through the project area, to realign Kratzmeyer Road/Olive Drive to the south and west of the site resulting in a modified interchange with the West Beltway, and to realign Wegis Avenue to the north and south of the new Kratzmeyer Road alignment.	NOD	
2005021098	Planning Area 6 Zone 4 Flow Control Facility at OC-72 and Zone 3 to 4 Booster Pump Station Irvine Ranch Water District Irvine--Orange The scope of the project is to create two key water supply facilities - a Flow Control Facility at the Metropolitan Water District OC-72 Turnout, and a Zone 3-4 Booster Pump Station. The schedule provides for construction of the facilities by April 2006, in time to supply water for first occupancy in the first phase of development. The Booster Pump Station will be housed inside a single level building, which consists of two rooms, a 25-foot by 4-inch by 44-foot pump room, and a separate 8-foot, 8-inch by 25-foot, 4-inch electrical room. The Flow Control Facility will be comprised of reconfigured piping and appurtenances, some of which are existing and some of which will be newly constructed to redirect flow. Most of the newly constructed flow control facility will be above grade. The Zone 4 Flow Control Facility at OC-72 and the Zone 3-4 Booster Pump Station will each be sized to meet the maximum day demand for the entire PA 6 development.	NOD

2005032086	ED 05-06 Anderson Teen Center Anderson, City of Anderson--Shasta The City of Anderson is proposing to reconstruct the Anderson Teen Center, located in the heart of the City's downtown area. The City initially proposed the restoration of this 1870's two-story building, however, a report entitled Engineering Report for the City of Anderson Teen Center Seismic Evaluation (2004, Pace Engineering), identifies structural problems so severe that restoration is not a viable option. Additionally, the City has identified other beneficial uses for this new building, including relocation of the County of Shasta Public Health department offices from their current location. In light of this, the City now proposes construction of a new building not to exceed 12,000 square feet. The City plans to, as much as economically feasible, to recreate the original appearance of the building.	NOD

	unpaved roadway, currently in use as a trail, and the elimination of a "volunteer" (unauthorized) trail system approximately 4,200 square feet (s.f.) and return of volunteer trails to a natural condition using native plants.		
2006028087	Wiester 2005 Abandoned Pipeline Removal Fish & Game #5 Buellton--Santa Barbara The Operator will alter the streambed to remove 850 feet of 36 inch concrete and mortar lined steel pipe, which until 2001, had been a transmission line for potable water. About 1.2 acres of farm land eroded from winter storms, exposing the pipeline, causing a potential future liability. Each side of the abandoned line will be excavated 20 feet into the bank, and the pipeline will be cut, and capped with a concrete slurry mix. The bank will then be backfilled and compacted. The exposed sections will be cut into 40 foot lengths and removed. The support posts will be cut three feet below the river bottom and remove. If conditions are dry, a tracked excavator, large rubber wheeled backhoe or a small dozer will be used within the channel. If water is present, the flow will be diverted into a new channel just northwest of the work area, and the area shall be drained into the new channel after being surveyed and any fish, reptile or amphibian species relocated. 1997122055	Fox Hills Community Specific Plan Update Merced County The proposed project would result in an 850-acre expansion of the existing 391-acre Fox Hills Community Specific Plan boundary, resulting in a total Specific Plan area of about 1,250 acres. A maximum of 3,058 new dwelling units could be constructed, of which 2,098 are deed restricted for persons 55-years of age or older. An approved 402-unit subdivision now under construction is also planned to be similarly deed restricted. Nine acres of commercial mixed-use will provide for daily needs of Plan area residents without attracting appreciable traffic from outside the Plan area. The 20-acre general commercial area will be used for a mini-storage facility and outdoor RV/boat storage to meet needs of Plan Update area residents. Parks and trails total 58 acres and about 315 acres of recreational uses including existing approved and proposed golf are included. Open space includes habitat conservation area for the San Joaquin kit fox and passive recreation area. Expansion of existing utility and circulation infrastructure would take place and construction of new off-site circulation improvements is planned, with the major improvement being an interchange at the State Route 152 / Volta Road intersection.	EIR	03/27/2006
2003041190	La Jolla Recharge Basin Orange County Water District Anaheim--Orange Construction and operation of a groundwater recharge basin that will increase recharge into the Orange County Groundwater Basin. The new recharge basin would add approximately 9,000 acre-feet of recharge capacity per year. The proposed 10-acre site will include an approximately 5.7-acre recharge basin, a perimeter access road, 3:1 side slopes, a maximum depth of 20 feet, a basin access ramp, and an area where material removed from the basin during cleaning can be temporarily stored. Water for the recharge basin will be provided from the Miller Recharge Basin via Carbon Creek Channel by means of a diversion dam.	EIR	03/27/2006

2006021063	Well No. 2 Arsenic Treatment Armona Community Services District --Kings The project includes furnishing and installing oxidation, coagulation, and granular media filtration of the water produced by Well No. 2. The existing Well No. 2 is located northeast of the intersection of 14 1/2 Avenue and Locust Avenue. The treated water would be boosted into the distribution system. The project is anticipated to include reclamation of backwash water and incorporation of backwash ponds for evaporation to eliminate negative impacts on the wastewater treatment plant.	MND	03/15/2006
2006022058	Waterman Park Project Elk Grove, City of Elk Grove--Sacramento The proposed project consists of a General Plan/Specific Plan Amendment, Rezone and Tentative Subdivision Map to provide flexible industrial buildings with storage yards, RV parking, commercial lots and 193 single family residential lots. The project provides for a hike/bike and equestrian trail in accordance with the East Elk Grove Specific Plan. The General Plan/Specific Plan Amendment would create a residential (MDR) site, relocate and expand retail parcels (C), and relocate and expand industrial/office uses (LI) to create a mixed use/office retail center. The Rezone would bring the existing zoning (AG-20) into conformance with the general/specific plans (MP and M-1) for the industrial sites, refine the open space area (O) and create a single family residential classification (RD-15). 	treatment facility, water supply wells and accompanying water transport pipelines, water supply treatment and storage facilities, landscaping, lighting and an access driveway intersecting Coal Mine Road. Areas of the Tribal land not proposed for development (~50.44 acres) have been designated by the Tribe as Archaeological and Biological Resource Protection areas.		
2006021046	First Street Waste Transfer Station Pomona, City of Pomona--Los Angeles Universal Waste Systems (UWS) is requesting a Genral Plan Amendment (GPA 05-003) to re-designatethe subject site from O (Publicly Owned Land) to Industrial, a Change of Zone (CZ 05-007) to rezone the subject property from O (Publicly Owned Land) to M-1 (General Industrial) and a Conditional Use Permit (CUP 05-041) to allow the construction and use of a 19,800 square foot waste transfer station at the subject location.	NOP	03/13/2006
2006021054	Monterey County General Plan Update Monterey County Planning & Building Inspection --Monterey The County of Monterey is proposing to update its General Plan. The General Plan is the long-term comprehensive guide that addresses all aspects of future growth, development, and conservation within the county. The County's General Plan was last updated in 1982. The Housing Element was updated in 2003 and is not part of this update.	NOP	03/13/2006
2006021055	PXP Tranquillon Ridge Offshore Oil and Gas Development Project Santa Barbara County Lompoc, Santa Maria--Santa Barbara Plains Exploration & Production Company ("PXP"), owner and operator of the Point Pedernales Project, is requesting modification to the Santa Barbara County Point Pedernales Project Final Development Plan (FPD) to include development (drilling and production operations) of a California State Lease (Tranquillon Ridge Oil Field) within the existing FPD. PXP has also applied to the State Lands Commission for the issuance of a lease of state tidelands for the purposes of oil and gas development. The proposed development of Tranquillon Ridge would introduce Tranaquillon Ridge production into the existing Point Pedernales facilities and would require modifications to existing facility equipment, increasing production levels above existing levels and extending the operating life of the original Pt. Pedernales Project.	NOP	03/13/2006
2006022055	Riverpoint Marketplace Tentative Subdivision Map EIR West Sacramento, City of West Sacramento--Yolo The proposed project includes the reconfiguration of 73 +/- acres of land designated for commercial retail uses. The project would entail subdividing 11 existing parcels into 21 parcels to allow for the reconfiguration of the existing office building parcel, the IKEA home furnishings parcel (currently under construction), and the development of 322,600 square feet of new commercial retail uses. Riverpoint Court will be realigned to connect Harbor Boulevard and will terminate at a roundabout adjacent to the WalMart.	NOP	03/13/2006

(Barlow) Inyo County Planning Department Bishop--Inyo Develop a 7.34-acre site with 17 residential lots, ranging in size from 13,500 sq. ft. to 16,000 sq. ft. full build-out for the project is potentially 34 units, as California state law allows 2nd dwelling units on residential lots.	Neg	03/13/2006
2006021047	Bus Canyon Tributary Replacement Channel Project Ventura County Watershed Protection District Simi Valley--Ventura The project is composed of replacement of the existing concrete drainage channel with a larger channel to provide 100-year flood protection.	Neg	03/13/2006
2006021048	EA KM 5-05, CUP #40, Map #198, ZV #32, Map #198 (PPO 6224) Kern County Planning Department Mojave--Kern A Conditional Use Permit to authorize installation of 14 wind turbines having an overall height of 390 feet. The electricity generated by the turbines will be utilized by the applicant to power the existing cement production facility. The applicant is also requesting a zone variance to allow two of the turbines to exceed the height limit of 150-feet within the M-3 district.	Neg	03/13/2006
2006021049	Project No. R2004-00198-(2) / RCUP 200400014-(2) Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a Conditional Use Permit to allow the development and maintenance of a gas and oil drilling facility on the subject property. The necessary grading to develop the site is approximately 800 cubic yards. The proposed facility consists of a 3,600 square foot well cellar to house up to 50 well heads, a 3,000 square foot production equipment cellar, an office trailer (80 square feet) and five parking spaces. The subject property will be covered with asphalt paving. The wells will tap into an underground oil and gas reserve; extracted gas will be processed onsite and delivered to an existing underground gas line. The facility will be used primarily for the production of natural gas and some condensate oil. Access to the site will be provided by Western Avenue to the west and 104th Street to the north. The facility will be operating 24 hours a day, Monday through Sunday. Employees will be on 8 hour shifts with no more than 8 employees per shift. The development of this facility consists of two phases. Phase one consists of exploratory drilling to determine the variability of the samples and the gas delivery line, phase two will comprise of the development of the production and well cellars. Previously, the subject site has been used for gas and oil production.	Neg	03/13/2006
2006021056	The Haskell Company CUP for a Fully Enclosed 70,000 sq. ft. Composting Facility San Bernardino County Land Use Services Department Redlands--San Bernardino The project is a Conditional Use Permit to establish a maximum 70,000 sq. ft. industrial building for an innovative, fully enclosed, composting facility with 4,500 sq. ft. of office, 2,000 sq. ft. nursery and other ancillary facilities on a portion of 19.6 acres. 2003032060	Woodland Gateway Retail Center Woodland, City of Woodland--Yolo The proposed project is a supplement to the Woodland Gateway and Auto Center EIR, which included an automall (100,000 sf), gas station, six fast food restaurants, and a regional retail center on 55 acres. The proposed project, Woodland Gateway Retail Center, now includes the following on the 55 acres: 49.4 net acres designated for shopping center/regional retail uses; maximum of 525,000 sf of retail uses including two major retail stores 148,000 and 123,000 sf in size (plus 10,000 for outdoor garden center), respectively, approximately 237,000 sf of retail consisting of 5 sub-majors ranging in size from 15,000-28,000 sf, with the remainder general retail, one fast food drive-up restaurant, and one service station; 3.5 acres for interchange improvements; off-site drainage facilities; and off-site public roadway connecting the project to Maxwell Drive.	SIR	03/27/2006
1993041020	National City Marina San Diego Unified Port District The project site is located east of Pepper Park and north of the Sweetwater Flood Control channel at 32nd Street and Marina Way in National City. Pier 32 Marina Group, LLC proposes to develop 21 acres of land and water area to accommodate the proposed marina building and associated amenities, parking, a recreational boat marina, a freestanding locker/shower facility, promenade, site landscape improvements and public viewing area. The Pier 22 National City Marina Project is intended to complement recreational opportunities at the adjacent Pepper Park with additional recreational and commercial facilities for the enjoyment of National City and regional residents and visitors to the area.	NOD	
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The California Department of Fish and Game issued a permit in 2003 authorizing the incidental take of Mohave ground squirrels (<i>Spermophilus mohavensis</i>), a state-listed threatened species, during construction of the project. At this time DFG is approving an amendment that: (1) extends the permit's term from December 2005 to May 31, 2007, and (2) provides the project sponsor additional time to mitigate for impacts to the Mohave ground squirrel. The amendment is necessary because the lack of funding has delayed the start of the project.	NOD	
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The California Department of Fish and Game issued a permit in 2005 authorizing the incidental take of Mohave ground squirrels (<i>Spermophilus mohavensis</i>), a state-listed threatened species, during construction of the road improvement project. At this time DFG is approving an amendment that (1) extends the permit's term from December 2006 to April 2008; (2) provides the project sponsor additional time to mitigate for impacts to the Mohave ground squirrel; (3) reduces the amount of habitat impacts authorized under the permit from 225 acres to 53.34 acres; and (4) reduces the mitigation requirements in proportion to the reduction in impacts. The amendment is necessary because of delays in starting the project and because of new information showing considerably less impacts than originally anticipated.	NOD

1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Amendment to P-D(560) to allow the construction of a 75-foot-tall telecommunications tower with two leaseholds.	NOD	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is an application for a subdivision map in order to divide a 4.38-acre property into 20 single-family residential lots.	NOD	
2002031106	Palm and Carnation Avenues Street Ends Improvements Project San Diego, Port of Imperial Beach--San Diego The proposed project involves the renovation and enhancement of public coastal access ways and view corridors for the western termini of Palm and Carnation Avenues, where these street ends intersect the beach. Teh project will enhance the existing street ends by constructing roadway, public art, and landscape design improvements. The project will also provide improved public safety and access, particularly for the disabled, and improve emergency vehicle access to the beachfront. In addition, a storm water pump station with built-in pollution diversion system will be constructed and the existing storm drain outlet will be reconstructed at Palm Avenue.	NOD	
2005042083	Raley's Landing West Sacramento, City of Sacramento--Yolo The proposed project would occupy approximately 18.2 acres consisting of residential, commercial, office, and open space features oriented toward the Sacramento River waterfront on the east and toward West Capitol Avenue on the south. At buildout, the proposed project would contain up to approximately 900 multi-family residential units, 845,000 gross square feet of office space, 102,000 square feet of commercial/retail uses, and possibly 100-300 hotel rooms with a 7,000- to 15,000-square foot conference center; it would provide between 4,348 and 4,648 on-site parking spaces, including surface and multi-level parking spaces. The proposed project is divided into four development areas; the Washington Street property and the River 1, River 2, and River 3 areas.	NOD	
2005051059	Carson Marketplace Carson, City of Carson--Los Angeles Development of a 168-acre site with some or all of the following uses: neighborhood commercial, regional commercial, commercial recreation/entertainment, restaurant, hotel, and residential: specifically, a total of 1,550 residential units (1,150 for-sale units and 400 rental residential units), and 1,995,125 square feet (sq. ft.) of commercial floor area, inclusive of a 300 room hotel. The project includes an Equivalency Program that would allow the composition of on-site development to be modified in a manner that does not increase the project's impacts on the environment. For example, office uses might be developed in place of a portion of the above proposed uses subject to the Equivalency limitations. Project development would be guided by a comprehensive set of development standards and regulations which are set forth in detail in the Carson Marketplace Specific Plan.	NOD

2005091024	Tin House Road Project at Julia Pfeiffer Burns State Park Parks and Recreation, Department of --Monterey This project proposes modifications to Tin House Road, an unpaved service road within Julia Pfeiffer Burns State Park. The purpose of the project is to reconfigure the drainage across and along the road to minimize future erosion and to comply with a court supervised settlement agreement with an adjacent landowner. Fill material will be removed from the road edge and an adjacent natural creek channel. A crib wall will be installed to retain the fill and support a small section of the road. The road will also be outsloped to minimize concentration of runoff. Existing culverts will be replaced where needed.	NOD	
2005091056	Adding "Sales of MFG Homes" as CUP to Commercial Zones Inyo County Planning Department --Inyo An amendment of the Inyo County Zoning Ordinance to allow "manufactured home sales displays" in the C-1 (General Commercial & Retail), C-2 (Highway Services & Tourist Commercial), and C-4 (Heavy Commercial) commercial zones as conditional uses.	NOD	
2005092115	Oak Walk Mixed Use Project Emeryville, City of Emeryville--Alameda Residential/Commercial mixed use project with 5,500 square feet of retail space fronting on San Pablo Avenue, 62 dwelling units in building up to four stories high with a courtyard at a podium level, 113 at-grade parking spaces and 18 bicycle parking spaces on a 1.77 acre site.	NOD	
2005102015	City of Brentwood Solid Waste Transfer Facility Expansion Brentwood, City of Brentwood--Contra Costa Expansion of the existing City of Brentwood solid waste transfer facility into an adjacent area, installation of a transfer facility building, and related improvements including installation of vehicle weigh scales, a scale house, and on-site roadways. The existing facility is owned and operated by the City of Brentwood and is used for the transfer of municipal solid waste from within the City and also for processing recycled materials.	NOD	
2005121101	Chorro Street Sewer Line Replacement San Luis Obispo, City of --San Luis Obispo The project involves replacing the existing sewer line running behind 129 Chorro Street that terminates at the manhole at 133 Chorro Street. The existing line was installed in 1951. A new line is proposed to be located further from the bank of Old Garden Creek. A new retaining wall would also be added for greater protection from future bank erosion and to help prevent possible sewer line exposure or breakage. Approximately 330 feet of 10 inch PVC sewer line will be laid and three new manholes will be installed. A new retaining wall will replace the existing wall to protect the new line. The new retaining wall will require a footing to be poured for the wall and will be constructed of either cinderblock or re-enforced concrete. Another method would employ a sheet pile construction wall.	NOD

2004031101	Tentative Tract Map 02-01 - Liguori Ranch Estates Poway, City of Poway--San Diego The project proposed the subdivision of approximately 500 acres into 31 legal lots (29 single-family home residential lots and 2 open space lots). The applicants existing single family home is located on-site and will be incorporated as Lot 23, consisting of 18.7 acres, into the proposed subdivision. The applicant/subdivider plans to develop (grade) and sell the 28 residential lots. The lots will range from 4 to 18.7 acres in size. A majority of the lots will be approximately 4 to 5 acres in size. The project proposes 2 open space lots consisting of a combined acreage of approximately 330 acres. Open space easements will be granted to the City of Poway, the U.S. Fish and Wildlife Service, and the California Department of Fish and Game over these open space lots. The site is characterized as a mountain meadow configuration with a large gently sloping central valley bordered on the north and south by steep slopes. This central area has been farmed and grazed over the past 50+ years.	EIR	03/30/2006
2004122091	WTA South San Francisco Ferry Terminal Project San Francisco Bay Area Water Transit Authority South San Francisco--San Mateo The project includes construction of a ferry terminal (passenger waiting area, gangway ramp and float), bus terminal, striping for 56 vehicles, and reconfigured circulation and access. About 124 berths, approximately 21 percent of current berths, would be removed to create a path for entering and exiting ferries. The occupants of the berths would be relocated to existing vacant berths within the Marina. Three boats docked at the end of slips which will be altered due to the terminal construction will no longer have spaces in the marina due to the size of their vessel. Dredging under the proposed project would occur at the entrance channel and inner basin area to accommodate ferries.	EIR	03/30/2006
2005011129	Sycamore Estates I and II Vista, City of Vista--San Diego The proposed project consists of two separate single-family residential subdivisions totaling 58 units on a combined 20.7 acres.	EIR	03/30/2006
2005062142	Second Street Crossing (Target Store) Davis, City of Davis--Yolo The proposed project involves the development of a 19.06-acre site for commercial uses. The project consists of a 126,842 square foot Target Store building plus a 10,000 square foot garden center for a total of 136,842 square feet. In addition, the project includes the construction of four accessory building pads for future retail development totaling 46,000 square feet.	EIR	03/30/2006
2005081099	Planning Areas 18, 33 (Lot) 109, 34, and 39 Irvine, City of Irvine--Orange The proposed project consists of a General Plan Amendment and Zone Change to allow for the development of a maximum of 7,600 dwelling units, a maximum of 15,630,210 square feet of commercial and industrial development, and 604 acres of Conservation Open Space on 2,145 acres within Planning Areas 18, 33 (Lot 109), 34, and 39.	EIR	03/30/2006

<u>Documents Received on Tuesday, February 14, 2006</u>			
2002121122	Santa Monica Downtown Parking Program Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve: 1) seismic retrofitting of Parking Structure No. 2 at 1235 2nd Street and No. 4 at 1321 2nd Street; 2) demolition and reconstruction of Parking Structure No. 1 at 1234 4th Street, No. 3 at 1320 4th Street, and No. 6 at 1431 2nd Street; and 3) construction of two new structures, located generally in the area bounded by 4th Court and 6th Court between Wilshire Blvd. and Colorado Avenue. The Program would result in an increase of 1,712 parking spaces and up to approximately 59,340 square feet of ground floor commercial space.	FIN	
2005051174	Michelson Water Reclamation Plant Phase 2 and 3 Capacity Expansion Project Irvine Ranch Water District Irvine--Orange The proposed project would expand the MWRP capacity from 18 million gallons per day (mgd) to 33 mgd by 2025. The proposed project would occur within the existing MWRP footprint, and no acquisition or alteration of additional land would be necessary.	FIN	
2003112094	Oxbow Preserve Napa, City of Napa--Napa This project proposes to create a 12.7-acre Preserve to protect, enhance, and restore the existing wetland, marsh riparian, and upland habitat on the site. Opportunities for passive recreational and educational for Napa residents and visitors along the banks of the Napa River near downtown Napa and will also be provided. Improvements will include, but not limited to, replacing non-native vegetation with native species and improving hydraulic functioning of drainage on the site through widening and deepening an existing connection between the Napa River and a freshwater wetland.	MND	03/15/2006
2005112058	Z 04-0012, Mira Flores Vineyard El Dorado County Planning Department --El Dorado Rezone parcels from RE-10 / RA-20 / RA-40 to Exclusive Agriculture (AE) subject to approval of Williamson Act Contract WAC06-0001.	MND	03/15/2006
2006021065	Grangeville Replacement Well No. 7 Armona Community Services District --Kings The project consists of drilling a pilot well at the Pioneer Elementary School site. Testing will be performed on the water produced by the pilot well to determine the characteristics of the groundwater and confirm that Arsenic levels are below the new EPA limit. The groundwater quality of nearby wells constructed by the City of Hanford indicates that the proposed well would not require treatment for Arsenic removal. This new well would replace an existing water supply well that exceeds the MCL for Arsenic. The water production potential from the pilot well would be established and used to determine the final well design parameters.	MND	03/15/2006

2005011055	The Buckley School Campus Enhancement Project Los Angeles City Planning Department Los Angeles, City of--Los Angeles The Buckley School, the project applicant, proposes to enhance its existing campus facilities located at 3900 Stanbury Avenue in the Sherman Oaks Community of the City fo Los Angeles. The improvements are intended as part of the Campus Enhancement Plan, the intent of which is to address the needs of existing and future achool programs, including the provision of adequate teaching space for all educational levels, specialty teaching spaces, and multipurpose spaces for educational gatherings that cannot occur in a standard classroom. The project also provides for the modernization of existing facilities, improved disabled access, and energy efficiency upgrades. Included within the Campus Enhancement Plan are vehicular circulation and queuing improvements, increased parking with a new enclosed parking facility, the demolition of six buildings, construction of five new/replacement buildings, a central plant, and additon to and/or renovation of two existing buildings. Upon completion, a net addition of approximately 69,500 square feet of building area would be provided, resulting in a total of 168,650 square feet of educational facilities withing the project site. The project, which would require a new Conditional Use Permit to operate a school within the RE-40 zone, is estimated to be completed within a six-year timeframe.	NOP	03/15/2006

2006022062	<p>unincorporated Alameda County and is proposed for annexation into the City of Hayward.</p> <p>SPA2005-0007, CZ2005-0006, TSTM2005-0033 Yuba County --Yuba</p> <p>To subdivide three parcels totaling 61.40 acres into 184 single-family residential lots. The project consists of two types of lot designs - 178 lots averaging 8,050 square feet in size, and 6 large residential lots ranging in size from 34,600 to 88,100 square feet. The proposed project requires a Specific Plan Amendment and Change of Zone for the proposed density.</p>	Neg	03/15/2006
2006022063	<p>White Clear Tentative Subdivision Map PUD2005-0002, TSTM2005-0038 Yuba County --Yuba</p> <p>To subdivide a 15.56 acre parcel into 100 single-family residential lots within a private gated community. A Planned Unit Development is requested to allow lot sizes to be reduced from 6,000 square feet to 4,200 square feet.</p>	Neg	03/15/2006
2006022065	<p>The New Alzheimer's Center Eureka, City of Eureka--Humboldt</p> <p>The proposed project involves the removal or demolition of an existing single-family residence, a garage, and storage shed and the subsequent construction of a two-story facility with a total floor space of approximately 13,180 square feet. The project will create twenty-two off street parking spaces. The first floor is designed specifically for therapeutic Alzheimer's care and would include the following features: reception area, a day room, a dining room, a kitchen, a nursing room, a physical therapy room, an art/music therapy room, a mixed use activity room, bathrooms, an indoor walking circuit, a fenced garden area, and six office spaces. This first floor would have approximately 7,950 square feet of floor space.</p>	Neg	03/15/2006
2006022066	<p>Rainbow Self Storage, Indianola Cutoff Eureka, City of Eureka--Humboldt</p> <p>The applicant is requesting approval of a coastal development permit for the construction of an approximately 95,753 square foot self storage facility on a 3.68 acre parcel. The project will be constructed in two phases. Phase One will include the construction of four one story self storage buildings totaling about 27,025 square feet. Fencing, landscaping and resurfacing of the existing asphalt is included in Phase One. The existing subsurface stormwater drainage facilities will be utilized; no additional expansion of the existing asphalt is planned or requested. Three of the five separate parcels, APN's 501-261-017, -020, &-021, will be merged to facilitate Phase One. Phase Two will include the construction of nine additional self storage buildings totaling approximately 39,350 square feet; a caretakers/ watchman apartment unit. Also included in Phase Two is the conversion of the existing approximately 29,368 square foot theater building into storage units. Should it be determined that retrofitting and remodeling the existing theater building is not feasible, the project includes the demolition and reconstruction of self storage facilities of the same size, approximately 29,378 square feet. Fencing, landscaping and resurfacing of the existing asphalt will also be included in Phase Two. Again, the existing subsurface stormwater drainage facilities will be utilized for Phase Two; no additional expansion of the existing asphalt is planned or requested.</p>	Neg	03/15/2006

<u>Documents Received on Tuesday, February 14, 2006</u>			
2006029039	Tentative Tract Map 28206, EA 36974, TR No. 28206 Riverside County Transportation & Land Management Agency --Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0171-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Dorian Johnson, Executive Vice President, Granite Equities. The applicant is proposing to develop approximately 80 acres into a residential development of 258 lots and supporting infrastructure. The project will permanently impact 0.96 acres of wetlands and Southern willow scrub habitat.	NOD	
2006029040	Tentative Tract Map 30155, E.A. 38402 Riverside County Planning Department Unincorporated--Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-125 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Brice Kittle. For the Tentative Tract Map 30155 residential development, the operator is proposing to grade and develop approximately 75.88 acres into a residential development of 219 lots and supporting infrastructure. The project will permanently impact 1.12 acres vegetated ephemeral streambed and pond habitat, including 0.22 acre of wetland habitat.	NOD	
2006029041	Catholic Youth Organization Improvement Project Sonoma County Permit and Resources Management Department --Sonoma The project consists of existing and proposed elements including: the removal of seven rust camp shelters (each measuring 12'x14') as well as "improving" the surrounding area once the shelters have been removed by constructing a sports court within the foot print of the existing camp shelters that are slated for removal.	NOD	
2006029042	P03-122, Log No. 03-14-016 - Sycuan Fire Station / Spring Wireless Facility San Diego County Department of Planning and Land Use El Cajon--San Diego The project proposes an unmanned telecommunications facility for Spring PCS consisting of three sectors of three antennas each for a total of nine antennas, mounted at the 44-foot six-inch height within a 45-foot tall faux water tank, designed to resemble a typical rural elevated water tower. The associated operating equipment will be housed within a 280.8 square foot stucco-finish enclosure, with a 12-foot high wall, and mansard tile roof to match the existing fire station building.	NOD	
2006029043	Desert Hot Springs Tentative Tract No. 32735 Desert Hot Springs, City of --Riverside The Department is issuing a Lake and Streambed Alteration Agreement for the project proponent who proposes to subdivide approximately 24.7 gross acres into 65 single-family residential lots and 19 lettered lots for roadways, landscaping and open space, and storm water retention. The site is bisected by a natural drainage wash having a total area of 2.04 acres. The construction of this project will impact a total of 0.07 acre of this streambed by the construction of an Arizona crossing, and the remaining 1.97 acres will be left undisturbed. Approximately 97 cubic yards of fill from the site will be placed in the wash for the Arizona Crossing.	NOD

2006029047	Amendment of Lease Coastal Commission Huntington Beach--Orange The removal and replacement of the existing boat dock and installation of a new "U" shaped boat dock, gangway and two new 14" diameter piles.	NOD	
2006028090	Steam Drill Shelter - Shasta State Historic Park Parks and Recreation, Department of --Shasta Construct an approximately 14'x22' cedar pole and shingle structure adjacent to the hay press and hay bailer within Shasta State Historic Park to protect a newly restored stream drill. Work will level and stabilize the site with 4-6" of road base; excavate 16, 16"x16"x24" deep piers; and construct support poles. Cedar logs will range from 5/5" diameter (braces: 30, 4' lengths); 7/5" diameter (10, 12' rafters and 6, 10' lengths); 9/10" diameter (top plates: 2, 22' lengths and 4, 16" lengths; and 10/12 diameter (16, 10' posts)). The cedar poles will be gathered from lands other than State Parks unless they are removed as hazard trees. Heavy cedar wood Class B fire retardant treated shakes will be installed on the roof of the structure. Upon completion, the structure exterior will be treated with Bora-Care pest control and a wood preservative. Excavation for placement of cedar poles (piers) will be monitored by an approved Department of Parks and Recreation cultural resource specialist.	NOE	
2006028121	Recreational Pier Lease - Charles Louis Brochard and Candance Lee Brochard California State Lands Commission --Placer Continued use and maintenance of an existing previously authorized by the Commission and the retention of one existing mooring buoy not previously authorized by the Commission. 2006028151	Non-Exclusive Geological Sample Permit California State Lands Commission -- The geological survey will obtain deep core samples, using rotary wash drilling, of the beds of the South San Francisco Bay, Newark Slough, and Plummer Creek to gather geotechnical information about the subsurface conditions and soil composition of the route of the proposed pipeline.	NOE	
2006028152	General Lease - Commercial Use - North Tahoe Cruises, Inc. California State Lands Commission --Placer For operation of the tour boat the "Tahoe Gal."	NOE	
2006028153	Landscape Improvements and ADA Upgrades, Lake Oroville State Recreation Area Parks and Recreation, Department of Oroville--Butte Remove and replace the existing chain link fence that surrounds and protects the historic Mother Orange Tree and complete facility upgrades to comply with the ADA adjacent to the District Office at Lake Oroville State Recreation Area. Work will install a new 6 ft. high, wrought iron fence square in design with rounded corners; remove the existing concrete slab located west southwest of the tree and the concrete walk that leads to the existing asphalt; construct a new 452 square foot concrete slab attached to an existing connecting walkway leading to the nearby restroom and a new 1,500 square foot parking area, and 55 linear foot concrete curb will be constructed on the south side of the orange tree; install a new historical marker plaque on the new concrete slab; remodel the existing restroom to meet ADA standards by removing and widening stalls and adding fixtures; and install four granite bollards that were from the original Mother Orange site next to the submerged Feather River in the landscaped area. Minor excavation (12 inches or less) will be necessary for the installation of the walkway, bollards, historic marker and curb. In the event that previously undocumented cultural resources are encountered during project construction (including, but not limited to dark soil containing shellfish, bone, flaked stone, groundstone, or deposits of historic trash), work within the immediate vicinity of the find will be temporarily halted or diverted until a DPR-qualified cultural resource specialist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s). Project protects a historic resource, enhances visitor services, and upgrades facilities to comply with ADA.	NOE

	light, medium, and heavy industrial uses. A draft specific plan has been prepared for the project site to implement the SPA designation and proposes that the project area be developed with approximately 4,382 acres of industrial uses, 480 acres of agriculture and aquaculture, 69 acres of government / special public, and 169 acres of major roads.		
2006021084	CUP 05-14 Paraclete High School Expansion Lancaster, City of Lancaster--Los Angeles Expand the existing high school with a four phased development project. The proposed project includes: Phase 1- 2 story, 16 classroom building with kitchen and multi-purpose room; Phase 2- new stadium and associated building; Phase 3/4- 2 story 16 classroom building, performing arts/ fine arts center.	MND	03/16/2006
2006022076	West Stockton Boulevard Bridge Replacement Project Elk Grove, City of Elk Grove--Sacramento The proposed project would replace and widen the West Stockton Blvd./Laguna Creek Bridge (W. Stockton Blvd. Bridge), with a 254.5 foot long and 60 foot wide cast-in-place reinforced concrete slab bridge on driven pile extensions to accommodate two through traffic lanes (one in each direction) with provisions for turn pockets, Class II bike lanes, a raised sidewalk on the west side of the bridge, and bridge railings. Fifty-five octagonal piles of 15 inches in width would be used to support the bridge. West Stockton Boulevard at the project area would require temporary road closure during some or all portions of bridge demolition and construction. A portion of the existing W. Stockton Blvd. roadway and soil immediately adjacent to it would be excavated to provide the increased length and width of the bridge. Additionally, the existing approach roadway utilities, curbs, landscaping, street lighting, drainage systems, and traffic striping would be modified as necessary to accommodate the widened and lengthened bridge.	MND	03/16/2006
2006021080	Greenwich Place West Hollywood, City of West Hollywood--Los Angeles New Construction Residential - Three to four story structure containing 117 market rate condominiums and five story structure containing 35 affordable rental units. The project includes subterranean parking and active open space areas and enclosed recreation space.	NOP	03/16/2006
2006022075	MacArthur Transit Village Project Oakland, City of Oakland--Alameda The proposed MacArthur Transit Village project would include the construction of six buildings with approximately 800 units of high-density multi-family housing and 30,000 square feet of ground-floor neighborhood serving retail and community space. Approximately 20 percent of the units would be below market rate, with the remainder of the units being for-sale condominiums. The project includes approximately 1,030 residential, retail, and community use parking spaces and 300 BART parking spaces. BART currently has approximately 600 spaces dedicated for the exclusive BART parking purposes. The project would reduce exclusive BART parking by approximately 50 percent. The project would also include access improvements to the MacArthur BART station, which is located west of the project site.	NOP	03/16/2006

2006021076	ENV-2004-3451-MND-RECI Los Angeles City Planning Department --Los Angeles Zone Variance to permit the construction, use and maintenance of a motorcross park facility, on a 10-acre parcel, and parking lot providing 90 parking spaces, with hours of operation from 10:00am to 7:00pm, Saturday and Sunday, in the M1-1-G, M2-1-G, P-1 and P-1-G Zones. Project may be subject to haul route approval.	Neg	03/16/2006
2006021077	ENV-2005-5855-MND Los Angeles City Planning Department --Los Angeles Tentative Tract Map No. 65364 to allow construction of a 39-unit, five-story residential condominium project with 98 surface parking spaces on a 32,534 square-foot existing surface parking lot in the C2-1 Zone.	Neg	03/16/2006
2006021078	ENV-2005-8263 Los Angeles City Planning Department --Los Angeles Zone Variance to permit the continued use, maintenance, and operation of a 2,440 square-foot, two-story single-family home as an office and the construction of a 2,020 square-foot garage and recreation space addition all on a 6,000 square-foot lot in the RD1.5-1 Zone and a Zoning Administrator Adjustment to permit a 5-foot rear yard setback in lieu of the required 15-feet, eight parking stalls in lieu of the required 15 spaces and tandem parking, requiring the demolition of a garage.	Neg	03/16/2006
2006021079	Demolition and Multiple Construction Projects at the Fresno Aviation Classification Repair Activity Depot in Fresno, California Army National Guard, California Fresno--Fresno The CA ARNG would construct and modify facilities at the Fresno AVCRAD that are used for removing and applying paint, warehousing supplies, testing engines, and maintaining aircraft. The proposed action calls for relocating and constructing facilities to the south and west of the southern border of the current facility footprint within the property boundary. The City of Fresno owns the undeveloped raw land to the south and west of the current facility footprint. The CA ARNG signed a lease agreement for this land in 2001. A total of 388,130 square feet (sf) of new facilities would be constructed in three phases. All three phases would include demolition and construction components. These phases would occur in sequence, but they could be separated by months and years. The proposed start date for Phase I is 2007 ending in 2008. The proposed start date for Phase II is 2010 ending in 2011. The proposed start date for Phase III is 2011 ending in 2013. In total, 3,102 gross square feet (gsf) of facilities would be demolished. Standard construction equipment would be used to demolish the facilities, and BMPs would be implemented, such as watering the site to minimize dust.	Neg	03/16/2006
2006021081	Comprehensive High School #2 (2004 Bond) Kern Union High School District Bakersfield--Kern Development of the 57-acre site will include a new high school, a sports stadium and outdoor recreation areas. As proposed, Comprehensive High School #2 (2004 Bond) will provide classroom space for 2,100 students (with the ability to expand, if necessary, to 2,216 students). The school will employ a staff of approximately 100. There will be 14 buildings occupying approximately 195,500 square feet. Approximately 640 student parking spaces and 230 staff/visitor spaces will be	Neg	03/16/2006

	provided on site.		
2006021082	Tentative Tract Map No. 17367 San Bernardino, City of San Bernardino--San Bernardino The proposed project will result in the subdivision of 64.9 acres into 66 single-family residential lots, two lettered lots (incorporating the proposed extension of the Chestnut Avenue trail system, and open space,) and a "remainder parcel" of approximately 7.84 acres. The 66 lettered lots will be minimally sized at 10,800 square feet, with an average lot area of 13,425 square feet. Associated site improvements include paved roadways and driveways, sidewalks, utilities, streetlights, landscaped areas, and a walking trail.	Neg	03/16/2006
2006021083	Proposed Site Plan SP-06-026, Tentative Tract TT-06-015 (18005) and Conditional Use Permit CUP-06-014 Victorville, City of Victorville--San Bernardino A Site Plan to allow for the Development of a 270-unit condominium complex. The tentative tract map is for a 1-lot subdivision for condominium purposes and a Conditional Use Permit to allow for condominium use.	Neg	03/16/2006
2006022074	Tentative Subdivision Map SA 05-01; Rezone Z 05-03 (Riddle Road- Woolery) Shasta Lake, City of Shasta Lake--Shasta The proposed project would subdivide an approximately 10.2-acre parcel into 21 lots. The proposed project would connect to the City's sanitary sewer and water systems. Roadways within the subdivision would be accepted by the City and become part of the City roadway system. The non-conforming industrial structures presently on site would be demolished to allow for construction of single-family dwelling units. The project includes construction of a sewer lift station and rezone to single-family residential.	Neg	03/16/2006
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is an application for a subdivision map in order to divide a 4.38-acre property into 20 single-family residential lots.	NOD	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Amendment to P-D (560) to allow the construction of a 75-foot-tall telecommunications tower with two leaseholds.	NOD	
2000101041	Home Depot Center Track and Field Lighting California State University Trustees Carson--Los Angeles This project is located north of the velodrome, approximately 400 feet to the northeast of the University Heights and approximately 500 feet north University Drive. The lighting system, which surrounds the track and field stadium, illuminates the inner grass playing field as well as the perimeter 400-meter Olympic track. The permanent lighting system consists of 10 poles with 7 to 10 light fixtures mounted on each pole. Three poles each are located on the east and west sides of the facility, and two poles each on the north and south sides of the facility. To reduce the potential for spillover light and glare, all installed lights are equipped with cut-off hoods that further confine the angle of light to illuminate only the intended area.	NOD
