STATE CLEARINGHOUSE

NEWSLETTER

February 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Thursday, February 01, 2007</u>			
2006022010	Tehama College Center Project Shasta Tehama Trinity Joint Community College District Red Bluff--Tehama The proposed project would construct the Tehama College Center on a 44 acre site located 2 miles south of downtown City of Red Bluff, California. The project would replace temporary and leased facilities in Tehama County and provide classrooms and labs for new curriculum in agriculture, telecommunications, transportation, and other technical fields. The anticipated year of opening the proposed Tehama College Center is Fall 2009. It is anticipated that the facility would have the capacity to accommodate approximately 2,000 students and 15-20 faculty members upon opening and would operate as a satellite campus of Shasta College in Redding.	EIR	03/19/2007
2006081011	Carl Hankey Elementary School K-8 Conversion Capistrano Unified School District Mission Viejo--Orange The proposed project involves the conversion of the existing Carl Hankey Elementary School to a kindergarten through eighth grade school (K-8). The proposed conversion would increase the school capacity from 523 students to 900 students in grades K-8. The school conversion will include the addition of 9 one-story portable classrooms and 1 portable restroom. The project will also include the reconfiguration of the existing parking lot to improve circulation and to add an additional 17 parking spaces.	EIR	03/19/2007
2006101007	Ten Section Project GPA/ZC 05-1580 Bakersfield, City of Bakersfield--Kern The proposed project involves actions necessary for a General Plan Amendment, zone change, circulation element amendment and annexation to allow for the development of 788 residential units on approximately 220 acres within southwest Metropolitan Bakersfield.	EIR	03/19/2007
2006102050	San Francisco State University Campus Master Plan California State University Trustees San Francisco--San Francisco The proposed project is the Campus Master Plan, which will guide the physical growth and development of the San Francisco State University campus, and will provide for an increase in building space and other improvements to meet the needs of the anticipated campus population through 2020.	EIR	04/02/2007
2006072044	Revised Binford Road LLC General Plan Amendment, Rezoning, Master Plan, Tentative Map, and Tidelands Permit Marin County Novato--Marin The Revised Binford Road, LLC General Plan Amendment, Rezoning, Master Plan, Tentative Map, and Tidelands Permit applications are to develop and operate a multi-purpose self-storage facility on 19.34 acres of the 47.3acre project site. Upon completion, the project would contain approximately 386 storage units in 13 buildings ranging from 18 to 24 feet high for personal vehicles, RV's, boats, general household, and office storage. The development would involve rebalancing of existing fill already deposited on the existing levee areas. Development of the self-storage facility would be located on the western portion of	MND	03/02/2007

	the site, while retention of wetlands and marsh restoration is proposed for the eastern portions with dedication of Parcel 3 to a public or conservation entity to be held as permanent open space.		
2007021005	Alessandro Business Park Project Riverside, City of Riverside--Riverside The proposed project involves the grading, construction, and operation of a 36.63-acre business park for light industrial and warehouse distribution uses. The business park would consist of four buildings totaling approximately 673,825 square feet, ranging in size from 36,243 square feet to approximately 440,374 square feet. Access to the site would be provided via a driveway on Alessandro Boulevard and two driveways on San Gorgonio Drive. A total of 1,343 parking spaces are proposed, including 25 parking spaces designated for handicapped use.	MND	03/02/2007
2007021006	Change of Zone No. 6926, Tentative Tract Map No. 31597 Riverside County Planning Department --Riverside Change of Zone No. 6926 proposes to change the site's current zoning designation from Rural Residential (R-R) to One Family Dwelling (R-1) and Open Area Combining Zone Residential Developments (R-5). Tentative Tract Map No. 31597 proposes a Schedule A subdivision of 93.5 acres into 215 single family residential lots with a minimum lot size of 7,200 square feet, one 1.7 acre park site, four detention/filtration basins, one sewer lift station, 2 open space lots for a channel, and 9 open space lots for paseos, drainage, and natural open space.	MND	03/02/2007
2007021008	Vesting Tentative Tract Map PLN07-00006 Victorville, City of Victorville--San Bernardino To allow for a 53-lot single-family residential subdivision on approximately 16 acres of partially disturbed land.	MND	03/02/2007
2007021009	Tentative Tract TT-06-077 Victorville, City of Victorville--San Bernardino To allow for the development of a 59-lot single-family residential subdivision on approximately 16.34 gross acres of land.	MND	03/02/2007
2007021010	Proposed Tentative Tract TT-06-067 (Tract 17802) Victorville, City of Victorville--San Bernardino To allow for the development of a 249-lot single-family residential subdivision.	MND	03/02/2007
2007022005	Water Reservoir 20B, Pump Station 300B and Related Facilities Dublin San Ramon Services District Dublin--Alameda Install 1.52 million gallon Zone 2 reservoir and 4.71 million gallons per day Zone 3 pump station on DSRSD property east of Fallon Road in Dublin. Install 6,500 linear feet of 20-inch diameter pipeline along Tassajara Road/Camino Tassajara, from Fallon Road to Windemere Parkway. Remove interim storm drain facilities that serve DSRSD's aforementioned property upon installation of permanent storm drain facilities on Fallon Road, and restore storm drainage site to original condition as open space. 2007022007	DeTurk Winery Village Santa Rosa, City of Santa Rosa--Sonoma Rezone to R-3-18-H; subdivide 3.01 acres into 73 lots and one common parcel; density bonus of 35% comprised of 6 very low income units; construct 48 townhouses and 25 condominium units.	MND	03/02/2007
2007022044	Tisdale Bypass Channel Rehabilitation Project Water Resources, Department of --Sutter, Colusa DWR proposes to remove up to 1,700,000 cubic yards of accumulated sediment from the Tisdale Bypass to restore its channel's capacity. The sediment excavated from the Bypass will be placed north of the Bypass' north levee in any of four locations, (1) north levee right of way west of Reclamation Road, (2) follow land north of the north levee, (3) farmland north of the north levee, and (4) north levee right of way east of Reclamation Road. Erosion near the Tisdale Weir's right abutment makes it necessary to place rock on the south levee's waterside slope. Wetland mitigation will also be included in the project.	MND	03/05/2007
2007021004	Newsom Springs Regional Drainage Plan Arroyo Grande, City of Arroyo Grande--Alameda, San Luis Obispo The proposed project consists of a series of stormwater drainage improvements that would be implemented over time. The basic objectives of the project include: - Remedy flooding in areas identified in the draft Storm Water Drainage Master Plan (2006), - Improve runoff water quality as it enters Arroyo Grande Creek, - Remedy existing creek bank erosion sites (dependent on the selected stormdrain outfall point), and - Maintain the ongoing viability of existing agricultural operations and protect prime agricultural soils.	NOP	03/02/2007
2007021007	2808 Kelvin Avenue Irvine, City of Irvine--Orange The project will result in the demolition of the existing office and warehouse use, and the development of a 177 du residential development, including a parking structure, on 3.4 acres. A transfer of development rights equivalent to 39 a.m. peak-hour trips, 40 p.m. peak-hour trips, and 586 average daily trips will be required.	NOP	03/02/2007

	CVWD via the existing Colorado Aqueduct and delivered to CVWD's existing Whitewater Spreading Facility, which is located north of the City of Palm Springs in the Coachella Valley. No new construction is therefore necessary for this project in order for CVWD to receive Rosedale's water.		
2007021002	EA HN 2-05; 1) Zone Change Case No. 17, Map No. 71-14; 2) Tentative Parcel Map No. 11007 (PP06212) Kern County Planning Department Ridgecrest--Kern (1) A change in zone classification from A (Exclusive Agriculture) to E (1/2) RS (Estate - 1/2 acre - Residential Suburban Combining) or a more restrictive district; and (2) Tentative Parcel Map 11144. The project site is an approximate 12-acre parcel located on the south side of Leib Lane, approximately 400-feet east of South Union Avenue. The property has not been farmed for over 40 years. The property is not under a Williamson Act land use contract and has been excluded from Agricultural Preserve No. 11. Surrounding properties to the north are zoned E (2 1/2) RS (Estate - 2 1/2 acre - Residential Suburban Combining) with properties adjacent to the east, south, and west zoned A. Properties zoned E (1/2) RS and R-1 exist within 1/4 mile of the project site. The applicant is seeking the change in zone classification to E (1/2) RS in order to proceed with a subdivision map. Tentative Parcel Map 11144, which proposes to divide the approximate 12 acre site into four residential lots ranging in size from 1-acre (net) to 1.26-acres (net) and a 5.91-acre designated remainder. Water is proposed to be provided by Greenfield County Water District and sewage will be provided by individual septic system. Access is proposed from South Union Avenue via Leib Lane. A proposed public access easement will provide access to the designated remainder from Leib Lane.	Neg	03/02/2007
2007021003	Amendment to the Bakersfield Municipal Airport Land Use Compatibility Plan Bakersfield, City of Bakersfield--Kern A proposal to amend the Airport Land Use Compatibility Plan adopted by the City of Bakersfield to change the length of the Extended Approach/Departure Zone (Zone B-2) for the Bakersfield Municipal Airport from 10,000 feet from the start of Runway #34 (approach runway) to 7,000 feet. Zone B-2 is a land use determination zone surrounding the airport which designates housing density within the zone.	Neg	03/02/2007

2007022003	Update Floodplain Management Ordinance Sacramento County Sacramento--Sacramento The project consists of updates to the County's 1993 Floodplain Management Ordinance. The Floodplain Management Ordinance specifically describes what types of development activities are allowed and how proposed development might be permitted. The specifics of the updates are detailed below along with their environmental effects.	Neg	03/02/2007
2007022006	Unification of the Grant Joint Union High School District in Sacramento County State Board of Education, California Sacramento--Sacramento The Governing Boards of the Grant Joint Union High School District (GJUHSD), the Del Paso Heights School District (DPHSD), the North Sacramento School District (NSSD), and the Rio Linda Union School District (RLUSD) propose to merge the four districts into a single unified district. GJUHSD, DPHSD, NSSD, and RLUSD are located in the northern portion of Sacramento County. GJUHSD serves 13,965 students in grade levels seven through twelve, whereas DPHSD, NSSD, and RLUSD have a combined enrollment of 17,313 kindergarten through sixth grade students. Together, the three districts serve 31,278 students. Secondary students residing in the Elverta Joint SD and Robla SD would continue to attend their same high schools and, therefore, are included in the GJUHSD and total enrollment numbers. 	number three southbound lane would extend an existing truck-climbing lane from the south end of the new bridge northerly to the Union Pacific Railroad Overhead.		
2006111031	Cordero Development (13 and 20 Old Ranch Road) Laguna Niguel, City of Laguna Niguel--Orange The project is a request to subdivide a 26.3-acre vacant parcel (Parcel 2 of Parcel Map 80-123) into two single-family residential parcels (13 and 20 Old Ranch Road). As a part of the subdivision, grading of the site to facilitate building pads and access driveways as well as hillside landscaping and drainage improvements are also proposed. In addition, the project includes a request for a site development permit to develop each parcel with a custom single-family residence.	NOD	
2006111103	Capistrano Bluffs/Pines Park Sewer Project South Coast Water District Dana Point--Orange The Capistrano Bluffs/Pines Park Sewer Project, proposed by the South Coast Water District, is intended to relieve an existing sewer line operating at full capacity. The proposed project would consist of a ten-inch pipeline that would convey sewage from an eight-inch pipeline within Camino Capistrano to an 18-inch pipeline within Coast Highway. The proposed pipeline would traverse through the northwestern portion of Pines Park and along an existing surfer trail down to Coast Highway. A total of seven new manholes are proposed as part of the project. Raised (above grade) for aesthetic and safety reasons. There are no pump stations proposed, as the sewage flows would be conveyed by gravity. The proposed pipeline would have a design capacity of at least 1.5 million gallons per day (MGD).	NOD

The subject project proposes to remove existing exotic vegetation, targeting: Arundo (Arundo donax), tree of heaven (Ailanthus altissima), and castor bean (Ricinus communis). All exotic vegetation removal shall be conducted using hand operated equipment and tools. All cut vegetation shall be manually hauled from the streambed and placed into trucks/trailers/dumpster stationed in contiguous upland areas. Once all vegetation removal is completed the cut vegetation shall be hauled from the site and disposed of properly. The cut vegetation shall only be sprayed/painted with approved herbicides (Round-up type products if more than 25-feet from flowing/standing water or Rodeo type products if less than 25-feet from flowing/standing water). Periodic follow-up spraying shall be required and conducted to control any new growth. Access to avoid disturbance of sediment during vegetation removal. All stripped or exposed work areas shall be planted with native vegetation local to the area. The project area supports Southern Sycamore-Alder Riparian Woodland. In addition, the operator shall remove the fill that was dumped within the swale adjacent the bank supporting several sycamore trees and replace vegetation as necessary to restore the area. 2006012089	<p>2006. In July 2006, the Los Angeles Superior Court considered a CEQA challenge to the project's approval and upheld the 2005 Addendum in all respects except one: the analysis of police services. The Order required clarification of the potential effect of a new residential component of the project on police services, and explanation of the effectiveness of proposed mitigation measures. The Draft SEIR has been prepared to fulfill the requirements of the Court Order and therefore focuses only on an analysis of potential impacts on polices services.</p> <p>Berkeley High School South of Bancroft Master Plan Berkeley Unified School District Berkeley--Alameda</p> <p>The proposed project is the adoption and implementation of the Berkeley High School South of Bancroft Master Plan. The proposed Master Plan would provide a framework for implementation of a phase building program with approximately 69,000 square feet (sf) of new construction plus possible structure parking, to be carried out in at least three phases. On the southern portion of the high school campus, the Master Plan includes the demolition of the Old Gym building and warm water pool and redevelopment of the site with a physical education building and a classroom building; construction of new stadium facilities and bleachers; construction of space for facilities services and storage; development of an athletic quad and regulation softball field; improvements to the Bancroft Easement that traverses the campus; and landscaping and fencing improvements. On the Milvia Street site, the Master Plan provides the opportunity for the City of Berkeley to redevelop part of the site with a warm water pool; the rest of the site would be used for parking. In the near term, the parking would be in a surface lot; in the long term, a parking garage might be constructed.</p>	FIN

Forty named trails are proposed, with three regional trails connecting this park with others in the area. The existing trail system will be incorporated, and staging areas at key points will be upgraded and expanded.	Neg	03/05/2007
2007022017	Use Permit 101-84A Shasta County Anderson--Shasta The request is to amend the existing use permit for a mini-storage facility to allow a two-story, 10,000 square foot mini-storage building.	Neg	03/05/2007
2007022020	Zone Amendment 06-043 - Sierra Pacific Industries Shasta County --Shasta The project site is currently designated as "Timberland Production Zone" pursuant to the Timberland Productivity Act of 1982 (Gov't Code Section 51100). The applicant has requested that the lands be removed from the 'timberland production zone' pursuant of Government Code Section 51120. The zoning would be amended from the Timberland Production (TP) zone district, as designated by the Shasta County Zoning Plan, to the Timberland (TL) zone district. The new zoning would take effect in the year 2017, after a ten-year phase out period. No other land use proposals have been submitted for the project parcels. In addition to continued commercial timber production, the proposed TL zone district allows for very low density residential and associated accessory uses. It is estimated that at the end of the phase-out period, development potential would be limited to approximately 16 parcels, assuming that underlying patent parcels do not already exceed this number and that any proposals to divide any of the lands would meet adopted development standards. 2007022021	Use Permit 06-027 Shasta County Redding--Shasta Approval is requested for a contractor's yard, including a 3,200- square foot office and storage building.	Neg	03/05/2007
2007022022	Zone Amendment 06-044 - Sierra Pacific Industries Shasta County --Shasta The project site is currently designated as "Timberland Production Zone" pursuant to the Timberland Productivity Act of 1982 (Government Code Section 51100). The applicant has requested that the lands be removed from the "timberland production zone" pursuant to Government Code Section 51120. The zoning would be amended from the Timber Production (TP) zone district, as designated by the Shasta County Zoning Plan, to the Timberland (TL) zone district. The new zoning would take effect in the year 2017, after a ten-year phase out period. No other land use proposals have been submitted for the subject parcels. In addition to continued commercial timber production, the proposed TL zone district allows for very low density residential and associated accessory uses. It is estimated that at the end of the phase-out period, development potential would be limited to approximately 22 parcels, assuming that underlying patent parcels do not already exceed this number and that any proposals to divide any of the lands would meet adopted development standards.	Neg	03/05/2007
2004122013	Black Diamond Redevelopment Project Pittsburg, City of Pittsburg--Contra Costa The proposed project consists of a mixed-use development of 195 residential units and approximately 40,000 square feet of ground-floor retail space with covered, private parking spaces for the residential units. Residential units would range from one-bedroom lofts or flats to three-bedroom townhouses. Three separate buildings are proposed at the project site - Buildings A, B, and C. Building A would be located on the northern block and provide 66 residential units and 119 parking spaces. Building B would be located on the center block and provide 75 residential units in addition to a pool, recreation center, and 135 parking spaces. Building C, located on the southern block, would provide 54 residential units and 97 parking spaces. Covered, onsite parking would be provided on the ground floor of each proposed structure, at a ratio of 1.8 parking spaces for each residential unit.	SIR	03/19/2007
1987061704	Hidden Meadows General Plan Amendment San Diego County Escondido--San Diego This is a request to change the zoning for property located within the portions of the Hidden Meadows Specific Plan known as "The Island" and "Oak Woodlands 1." These areas are subject to Design Special Area Regulations ("D" Designator), which include objectives and standards intended to guide the design of proposed development. This proposed change would clarify the language to allow construction of structures such as swimming pools but prohibit "buildings" that are required to observe the main building setback.	NOD

2006061013	30732 Pacific Coast Hwy Malibu, City of Malibu--Los Angeles MND No. 06-004 and IS No. 06-002, Coastal Development Permit (CDP) No. 05-136, and Vesting Tentative Parcel Map No. 99-002 to subdivide the property located at 30732 Pacific Coast Highway into four, 47 to 50 foot wide parcels. The project is also being processed with a Local Coastal Program Amendment No. 05-002, amending the Single-Family Medium zoning district to include a 45-foot minimum lot width standard for beachfront lots.	NOD	
2006102026	Proposed Extension Petition for the Interim Flow Requirements Under State Water Resources Control Board Revised Water Right Decision 1644 Yuba County Water Agency Marysville--Yuba The petition requests that the State Water Board change the effective date of the long-term flow requirements established in Revised Decision 1644 (RD-1644) to April 1, 2008. RD-1644 established interim and long-term minimum flow requirements for the lower Yuba River between Englebright Dam and the confluence with the Feather River. The flow requirements vary depending upon the time of year and the hydrologic conditions. The long-term requirements are higher than the interim requirements during parts of some years, but are the same as the interim requirements for water years that are classified as wet or above normal under the criteria specified in RD-1644. State Water Board Order WR 2006-0009, adopted on April 5, 2006, changed the effective date of RD-1644's long-term flow requirements to March 1, 2007. Until that date, YCWA must maintain flows in the lower Yuba River that are equal to or greater than the interim flow requirements specified in RD-1644. YCWA's August 23, 2006 petition requested that the effective date of the long-term flow requirements be delayed until April 1, 2008 in order to allow YCWA and other parties to conduct a 2007 Pilot Program pursuant to the proposed Yuba River Accord (Accord). The Accord was developed to resolve conflicts and ongoing litigation related to stream flows and water use in the lower Yuba River	NOD

	<p>The proposed project is divided into two parts. The first part would be to demolish the existing batting cage and construct a combination enclosed batting cage/bullpen facility will be located at the existing location along the right field foul line starting adjacent to the dugout. This part of the project consists of a 4,505 square-foot covered open sided structure over a concrete slab, illuminated with power for pitching machines and miscellaneous equipment, enclosed with a standing seam metal roof and a 12-foot high chain link fence and wind screens. The new steel structure will be painted to be compatible with the existing baseball facilities. There will also be an approximately 1,667.25 square-foot open slab area enclosed with an 8-foot high chain link fence for the storage of the rolling backstop. The total area of the new, large facility is 6,172 square feet.</p> <p>The second part of the proposed project is a 1,018.5 square-foot expansion of an existing covered batting cage enclosure located in the open field area between the softball and baseball fields. This will not have lights or power.</p>		
2007028020	<p>Pleasant Grove Creek Bridge Mile Post 110.86, 1600-2006-0387-R2 Fish & Game #2 Roseville--Placer</p> <p>The bridge is a 105-foot timber pile trestle ballast deck bridge that was constructed in 1928. Due to the age and material used to construct the bridge, the bridge has become structurally unsafe for continued rail traffic. The high volume of rail activity along the Union Pacific rail line warrants the bridge to be replaced before it structurally fails.</p>	NOE	
	<p>The Union Pacific Railroad is proposing to replace an existing 8-span, 105-foot timber pile ballast deck bridge (B-110.86) at mile 110.86 of the railroad's Valley Subdivision. B-110.86 crosses Pleasant Grove Creek. The proposed replacement structure for the bridge will consist of a 4-span, 120-foot box girder bridge, will be placed on the existing abutments. On-track equipment will be utilized to drive piles for the new bents to support the bridge. No excavation is required within the creek. The existing bridge currently has rip-rap in place to handle a 100-year storm event. No additional armoring is required. The project staging area would be on the upland area adjacent to the tracks.</p>		
2007028021	<p>Lease of New Office Space Rehabilitation, Department of Garden Grove--Orange</p> <p>The California Department of Rehabilitation proposes to lease approximately 6,300 square feet of new office space. The space would house approximately 20 staff. Approximately 10 to 100 clients would be seen weekly using approximately 14 parking spaces. This office will be used for the purpose of counseling disabled clients re-entering the job market. Public transit is available within 1/4 mile of the site.</p>	NOE	
2007028022	<p>Install Rumble Strips Caltrans #3 --Sacramento</p> <p>Project proposes to add center-line ground-in rumble strips on State Route 160. The center-line will be replaced with a "No Passing" striping detail. All work will be confined to existing pavement within Caltrans right-of-way. No rumble strips will be added on bridges or turn lanes, or in any towns in these sections SR 160 pass through. No soil disturbance or vegetation removal will occur.</p>	NOE

2006072104	Downtown Santa Rosa Station Area Specific Plan Santa Rosa, City of Santa Rosa--Sonoma The Specific Plan is a long-range land use plan promoting transit supportive uses and improvements in the area generally located within one-half mile of a planned commuter rail station site in downtown Santa Rosa. The Specific Plan would permit a mix of residential retail, office, and civic uses through development or redevelopment in the Specific Plan area. Based on a market analysis and extensive public input, development estimates have been established that indicate what types and amounts of development would most likely occur in the Specific Plan area. In addition to the Specific Plan, the EIR addresses related general plan amendments. No development is proposed at this time.	EIR	03/21/2007				
2005091149	Ventana Specific Plan Madera, City of Madera--Madera The project site is located west of SR-99, southeast of the City of Madera in unincorporated Madera County. The annexation area includes all land within the project site (250.6 acres), plus 18 parcels (49.55 acres) located north of the project site for a total of 300.2 acres. This annexation area is bound by SR-99 to the northeast, the city limit line to the north and west, the proposed Hazel Avenue extension to the south, and Road 28 1/4 to the east.	FIN					
2006102138	East Sunnyvale Industrial-to-Residential Project Sunnyvale, City of Sunnyvale--Santa Clara The proposed project consists of two components: (1) a General Plan amendment to change the land use designation on the site from Industry to Industrial-to-Residential and a rezoning on the site from M-S (Industrial and Service) to M-S Industrial-to-Residential (combined with the appropriate residential zoning); and (2) two specific residential development projects on portions of the site. The proposed GPA and rezoning would allow residential land uses on the site, in addition to the existing and allowed industrial uses listed under the M-S (Industrial and Service) General Plan designation and zoning. Commercial uses could be considered with a Special Development Permit.	FIN

2007021029	San Diego Symphony Summer Pops, Embarcadero Marina Park San Diego Unified Port District San Diego--San Diego Since the conclusion of the 2006 concert season, District staff has held meetings with the Symphony and with Viejas representatives to discuss ways to improve the 2007 concert season and avoid or eliminate the complaints received the previous year. The District along with Symphony and Viejas also held two meetings with the Coronado residents to determine the best way to address their concerns regarding the noise. It was agreed that it was the Viejas rock concerts and not the Symphony concerts that were perceived as the source of complaints. Viejas has agreed to amend their concert season in a number of ways to address these complaints. At the January 7, 2007 Board meeting, the Board of Port Commissioners, upon taking testimony from various Coronado residents, Viejas representatives and a noise consultant, agreed to consider modifications to the Summer Pops concert series which would be embodied and enforced through the TUOP.	Neg	03/06/2007
2007022023	Marcel Well #5 Health Services, Department of Rancho Cordova--Sacramento The Golden State Water Company (GSWC) is proposing the construction of a wellhead treatment system at an existing drinking water supply well (proposed project). The existing well, owned and operated by GSWC has been impacted with low levels of perchlorate and trichloroethylene (TCE). While the levels are currently less than the maximum levels allowed under state and federal drinking water standards, chemical concentrations are expected to increase over time due to migration of an off-site groundwater plume. GSWC is seeking to obtain a permit from the DHS that would allow the use of the treated groundwater as a water supply source. If the treatment system is operational prior to final approval of the 97-005 permit and influent chemical concentrations exceed regulatory standards, the treated groundwater would be discharged into the storm drain system and ultimately to the American River via a new underground pipeline extending from the project site to the existing storm drain.	Neg	03/06/2007
2007022029	Mosgrove for Collins Beach Drive S.F.D. Santa Cruz County --Santa Cruz The proposed project consists of the construction of a three-story, five bedroom single-family dwelling, requiring about 1,600 cubic yards of grading within a Coastal Scenic Area. The proposal requires a Coastal Development Permit, Preliminary Grading Approval, a Variance to increase the number of stories to three, Design Review, Soils Report Review, and Geologic Report Review. The project is located on the northeast side of Beach Drive, about one mile southeast of Rio del Mar Boulevard on the bluff side, 500 feet past the entry gate to the private road.	Neg	03/06/2007

2003081116	<p>Palomar Station Specific Plan San Marcos, City of San Marcos--San Diego</p> <p>The Palomar Station Specific Plan is a mixed-use development on 14.32 acres. The project proposes 333 residential condominium units, 48,980 square feet (SF) of commercial use (general retail), a 9,800-SF office building, 6,280 SF of restaurant/food court use, and 1,385 SF of homeowner's recreation space.</p> <p>Development of the project would occur in three phases. Phase 1 focuses on the two lots south of Armorlite Drive. Phase 1 - Lot 1 is 1.95 acres and is located at the corner of Las Posas Road and Armorlite Drive. Proposed development for this lot includes a 20,000-SF general retail building, and a 2,000-SF restaurant. The restaurant structure will be 30 feet high with a 60-foot architectural element that incorporates project signage. The general retail building will be 45 feet high. Phase 1 - Lot 2 is 6.21 acres and is located east of Phase 1 - Lot 1. Proposed development within this lot includes 211 residential condominium units, nine general retail units, a restaurant unit, a recreation unit, recreation amenities and parking. Residential product types include studios, one-, two-, and three-bedroom units, as well as live/work units. The two mixed-use buildings in Lot 2 will include four stories and a mezzanine for an overall height of 60 feet. Tower and/or spire components will reach 70 feet.</p>	EIR	03/22/2007
2006021074	<p>Euclid Street Residential (Euclid Street Specific Plan) La Habra, City of La Habra--Orange</p> <p>The project applicant, John Laing Homes - South Coast Division, is proposing to demolish the existing P&O Cold Storage facility located at the southeastern corner of Euclid Street and Second Avenue in the City of La Habra. John Laing Homes is proposing to construct 91 single-family detached residential dwelling units, including 30 Plan 1 units (1,775 square feet), 30 Plan 2 units (1,890 square feet), 31 Plan 3 units (2,000 square feet). The dwelling units will be developed in a "cluster" configuration on seven parcels that make up the 11.21 acre project site. Project implementation will necessitate the approval of seven discretionary actions, including: General Plan Amendment, Zone Change, Specific Plan (implemented via Planned Unit Development - Precise Plan application), Development Agreement, Redevelopment Plan Amendment, and Tentative Tract Map.</p>	EIR	03/22/2007
2006052161	<p>Sanderson Ford Project and Annexations EIR Windsor, City of Windsor--Sonoma</p> <p>Four parcels totaling 26.48 acres comprise the project site. All four parcels are located within the Town of Windsor's voter approved urban growth boundary. The proposed project involves the annexation of the northern three parcels, totaling approximately 23 acres; a Sphere of Influence (SOI) adjustment for approximately 8 acres (two northern parcels); rezoning of approximately 23 acres to Gateway Commercial (northern three parcels); a Use Permit to allow an automobile dealership (i.e., Sanderson Ford) on the northernmost 7 acre parcel; and Design Review for the automobile dealership on the 7 +/- acre parcel to evaluate the</p>	EIR	03/26/2007

	proposed project's site, architectural and landscape design. No specific development is proposed for the three southern parcels totaling approximately 19.5 acres. Additional environmental analysis will be conducted in the future when specific development projects are proposed for the southern 19.5 acres.		
2005101038	County of San Bernardino General Plan Update San Bernardino County Land Use Services Department San Bernardino, Riverside--San Bernardino The San Bernardino County General Plan is part of a comprehensive planning program that includes Countywide and regional goals and policies along with the preparation of 13 Community Plans and the completely revised Development Code. The current General Plan, which was adopted in July 1989, is being updated since many physical and demographic changes have occurred at the countywide level since then, which present new opportunities and challenges.	FIN	
2002022100	Butte College Facilities Master Plan Butte Glenn Community College District Oroville, Chico--Butte Description of Changes: The locations of the IA and SGS will be moved slightly from the locations indicated in the 2002 FMP. In particular, the IA will be moved approximately 300 feet west to an existing paved parking area. The change in location will result in a cost savings to the District between \$750,000 to \$1 million in the form of reduce swing space costs. The proposed change will result in the loss of 100 parking spaces and up to 29 non-native trees may be removed. The SGS will be moved approximately 200 feet south to an existing lawn area between the existing Campus Center and Business Education buildings. The change in location will result in a cost savings to the District of approximately \$1.5 million in the form of reduced swing space and retaining wall costs. The proposed change will result in the loss of approximately 35 non-native trees.	FYI	
2005121183	I-15 Northbound Truck Descending Lane and Pavement Rehabilitation Caltrans #8 --San Bernardino The California Department of Transportation proposes to improve a portion of Interstate 15 beginning from 0.37 miles south of Bailey Road and ending 0.68 miles north of Yates Well Road. This 12-mile long project will extend from Postmile 171.1 to 182.1. The proposed improvements would add an inside truck-descending lane on the northbound travel-way and would reconstruct and widen the inside shoulder on both directions with the same cross-slope and structural section as the mainline. The project also proposes to rehabilitate the existing pavement and improve highway operational characteristics by upgrading roadway features to current geometric standards. The project will reduce northbound traffic congestion and improve safety and operations in this portion of I-15.	MND	03/07/2007

2007022037	Copco Road at Jenny Creek Bridge Replacement Project Siskiyou County Department of Public Works --Siskiyou Siskiyou County proposes to replace the existing bridge (02C-061) on Copco Road over Jenny Creek. The new bridge will provide safer travel for local residences and meet minimum recommended standards of Caltrans and FHWA. The new proposed bridge will be a single-span, concrete structure on sixteen piles. It will sit within the existing right of way and will be 24 feet wide and 109 feet in length, on two abutments; there will be no center pier. The new bridge will be placed in the same location as the existing bridge. A detour will be established using the old road that loops around the existing bridge to the north. The detour will require the installation of an 80-foot temporary bridge across Jenny Creek. A contractor's staging area will be a turnout along Copco Road, just east of Jenny Creek.	MND	03/07/2007
2007022038	VJB Vineyard and Cellars Sonoma County Permit and Resource Management Department --Sonoma Use Permit and Design Review for a 3,342 sq. ft. market place, tasting room building, a 1,800 sq. ft. wine case storage building, and to convert a residence to a 1,286 sq. ft. bed and breakfast inn.	MND	03/07/2007
2007022043	Power Line-Elkhorn Substation Capacity Expansion Project Sacramento Municipal Utility District --Sacramento The proposed Power Line-Elkhorn substation capacity expansion project would increase the footprint of the Power Line-Elkhorn substation by approximately 0.5 acre (from approximately 0.62 acre to approximately 1.12 acres). The proposed project would replace a 3.75 mega volt-amperes (MVA) transformer with a 25 MVA transformer, and a 12.5 MVA transformer with a 25 MVA transformer, thus increasing the capacity of the substation from 16.25 to 50 MVA. Additional improvements include a 69,000-volt (69-kV) bus structure and three 69-kV circuit breakers, new switchgear, new cement slabs for the equipment and grounding, and fencing to encompass the footprint of the substation. The existing 69-kV pole line would remain. Reconductoring would occur to increase ampacity for the capacity increase. Additionally, five new 12,000-volt (12-kV) feeders would be added (totaling eight 12-kV feeders), and the existing 69-kV pole arrangement to the transformers would be replaced. The existing substation site is connected to the Elverta Circuit #1 and the Natomas Circuit #2 existing overhead (69-kV) lines with SMUD's subtransmission grid system.	MND	03/07/2007
2006102114	United Technologies Corporation Site Closure Project Santa Clara County San Jose--Santa Clara The proposed project entails the closure, general restoration, and remediation of the United Technologies Corporation - Pratt & Whitney Rocketdyne (UTC-PWR) San Jose Facility. Between 1959 and 2004, the facility was used to design and manufacture solid propellant rocket motors for the U.S. Department of Defense as well as the aerospace industry.	NOP	03/07/2007

	Zoning designation to allow for the development of 126 residential units on 92 acres of the 186 acres site, and preservation of the remaining 94 acres of oak woodland, riparian, and natural grassland areas.		
2007022034	Berkeley/Albany Ferry Terminal Project EIS/EIR San Francisco Bay Area Water Transit Authority Berkeley, Albany--Alameda The proposed project would initiate ferry service between the East Bay communities of Berkeley/Albany and the San Francisco Ferry Terminal administered by the San Francisco Bay Water Transit Authority. Service would operate during the day and evenings, including Saturdays and Sundays, at headways that would reflect the travel demand for commute and non-commute periods. Depending on the Berkeley/Albany terminal site selected, one-way travel times would range from approximately 30 and 45 minutes. The project would involve constructing a new ferry docking facility; passenger ticketing and sheltered waiting area on the pier; car and bike parking; bus boarding; and provision for pedestrian, bicycle and traffic circulation at a location along the Berkeley/Albany waterfront. Dredging would be conducted to allow ferry vessels access to the terminal site. In San Francisco, existing San Francisco Ferry Terminal facilities would be utilized for this new service and would not require modification.	NOP	03/07/2007
2007021031	Zoning Text Amendments, Z-2007-001 & E-2007-008 Santa Maria, City of Santa Maria--Santa Barbara Amendments to Title 12 (Chapter 13) of the Municipal Code (C-2: General Commercial Zoning District).	Neg	03/07/2007
2007021032	No Name Substation - Firehouse Switchyard 69-kilovolt Transmission Line Energy, Department of Needles--San Bernardino In response to Congressional mandate, Western proposes to build a new "Firehouse" switchyard in the City of Needles and build a new 3.95-mile long transmission line between the proposed Firehouse switchyard and the existing, "No Name" Substation. The No Name Substation is located east of AZ State Route 95 and is owned by Aha Macav Power Services (AMPS). The transmission line would span the Colorado River. Approximately 0.2 mile of the proposed project is located in California, with the remainder in Arizona.	Neg	03/12/2007

2002102074	Use Permit Application No. 2002-30 - Salida Hulling Stanislaus County --Stanislaus The project involves the development of an expanded almond hulling and shelling facility by the Salida Hulling Association (SHA), an agricultural cooperative; on an approximately 50.4-acre site located at the northeast corner of SR 132 and Dakota Avenue, west of the City of Modesto, in unincorporated Stanislaus County. The proposed facility would replace Salida Hulling's existing 5.8-acre almond hulling and shelling facility located on Nutcracker Lane, south of Kiernan Road, in Salida; the existing facility will be taken out of service as soon as the new facility is in use.	EIR	03/23/2007
2006051058	General Plan Update 2005-2025 Draft EIR Huron, City of Huron--Fresno The proposed project includes an update of the City of Huron's General Plan. The proposed project area (Planning Area) is comprised of approximately 1,913 acres, and contains a mixture of residential, agricultural, commercial, and industrial land uses. The General Plan will include Land Use, Open Space, Conservation and Recreation, Circulation, Safety, Noise, Air Quality, and Public Services and Facilities elements to guide future growth of the City in its planning area.	EIR	03/23/2007
2006052077	Moss Mountain Meadows Mount Shasta, City of --Siskiyou The proposed project consists of the creation of 42 single-family residential subdivision lots, averaging 0.18 acre in size, on approximately 10 acres of land development of single family residential units approximately 1,200 to 1,500 square feet in size, including 3 bedroom and 1.5 to 2 bedrooms. Direct access to the site will be provided via Kenneth Way and Marjorie Street from Rockfellow Drive. Access from the north will be provided by Shasta Avenue, via Everitt Memorial Highway. The property is designated General Residential in the Land Use Element, of the City of Mt. Shasta General Plan, and is zoned R-2, Duplex Residential. The R-2 zone district establishes single family and duplex as allowable uses within this district.	EIR	03/23/2007
2006092026	City of Anderson General Plan Update Project Anderson, City of Redding--Shasta The project EIR is the adoption of an updated revision of the General Plan for the City of Anderson. The revision includes all elements of the general plan with the exception of the Housing Element (2003) and the Air Quality Element (1998). Various elements of the current General Plan have been amended and/or revised since the last comprehensive update in 1985. The proposed project, therefore, is a revision of the existing General Plan. 2007022046	627, 629 Seabright Avenue Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of Demolition Authorization, Tentative Subdivision Map, Coastal Permit, Design Permit, and Watercourse Development Permit for the demolition of two single-family residencesand construction of six condominium units for a net increase of four new residential units. The project also requires a Heritage Tree Removal Permit to remove three heritage trees.	Neg	03/09/2007
2007022047	Minor Subdivision 06-983 1476 Carpenter Road Oakley, City of Oakley--Contra Costa The proposed project includes the subdivision of 2-acres into two lots for the development of two new single-family units, and a rezonefrom General Agriculture (A-2) to Residential Single Family (R-40).	Neg	03/09/2007
2003112060	Delta Water Supply Project Stockton, City of --Kern The project consists of water right Applications 30325, 30326, 31043, and 31047 filed with the State Water Resources Control Board in 1993 and 2000. Under TRC's seven water right permits issued in March 2006 plus these four permits, TRC will divert a maximum of 15,000 acre-feet per annum (afa) of water by direct diversion and storage, to be used for the purposes of irrigating alfalfa, almonds, grain forage, grapes, olives, pistachios, walnuts, and stock watering on WRMWSD and TRC lands. On March 19, 2001, the California Department of Fish and Game (DFG) filed a protest against Applications 30325, 30326, 31043, and 31047. DFG protested on the basis of the project's potential adverse effects on wildlife or plant populations, including several State and federally listed species, or the indirect destruction or adverse modification of habitat essential to their continued existence. By letter dated February 3, 2006, DFG narrowed the scope of its protest to issued related to the Tehachapi Slender Salamander (<i>Batrachoseps stebbinsi</i>) and the Yellow-Blotched Salamander (<i>Ensatina eschscholtzii croceator</i>), and bypass flow for riparian vegetation on El Paso and Tejon Creeks. On September 14, 2006, DFG and TRC signed a Memorandum of Understanding (MOU) thereby resolving the outstanding protest issues. As a result DFG withdrew its protest against Applications 30325, 30326, 31043, and 31047. Only July 14, 2004, WRMWSD, as lead agency under the CEQA, certified a Final EIR for the project. The State Water Board considered the Final EIR prepared and certified by WRMWSD, and two additional technical reports submitted by TRC in June 2004, Tejon Ranch Historical Riparian Vegetation Analysis and July 2005, Tejon Ranch Predevelopment, Existing, and Proposed Project Riparian Vegetation Analysis, to	NOD

2007021046	<p>Herndon Avenue and Golden State Boulevard Reconstruction Process Fresno, City of Fresno--Fresno</p> <p>The project consists of the reconstruction of Herndon Avenue between Highway 99 and Weber Avenue. A majority of the proposed improvements are necessary to reduce traffic congestion, while meeting current and future traffic demands, and improving overall safety of the intersections at Golden State Boulevard and Union Pacific Railway. Other improvements include the addition of landscaped median islands to assist in improving the overall aesthetics of this intersection.</p>	CON	02/26/2007
2006032130	<p>Wastewater Treatment Plant Expansion Project Linda County Water District Marysville--Yuba</p> <p>The Linda County Water District (District's) proposed project includes wastewater treatment plant (WWTP) expansion and upgrade, pipeline enlargement, and outfall for treatment and discharge of treated municipal wastewater into the Feather River, and the related discontinuance and abandonment of existing disposal ponds. This project is necessary to meet water quality standards, protect groundwater, and meet projected increase in discharges to the District's treatment plant. Beneficiaries of the project include residents within the District, groundwater users in the area, and users of the beneficial uses of the Feather River. The District owns and operates a wastewater collection, treatment, and disposal system, and provides sewerage service to approximately 10,000 people through about 3,000 connections in the unincorporated area of Linda in Yuba County. The District's WWTP is located on the east bank of the Feather River, about 3 miles south of the City of Marysville. The original plant was constructed in 1960; significant plant upgrades were completed in 1996 and 2002. The proposed project would upgrade and expand wastewater treatment capacity at the District's WWTP to 5.0 million gallons per day (MGD) from its current capacity of 1.8 MGD average dry weather flow (ADWF). In addition to WWTP improvements, the proposed project would include the enlargement of a portion of an existing pipeline and construction of an outfall to discharge treated wastewater to the Feather River. The proposed project is the construction, installation, operation, and maintenance of these facilities and is evaluated in a DEIR.</p>	EIR	03/26/2007
2005111045	<p>Draft EIR No. 00484, Tentative Tract Map No. 33461, Change of Zone No. 07185 Riverside County Planning Department Riverside--Riverside</p> <p>Tentative Tract Map No. 33461 for the development of a maximum of 203 single-family residential lots, one school site, one park site, common open space lots, roadways and other infrastructure improvements.</p> <p>Related applications include: Change of Zone No. 07185 to change the zoning classifications on the site from "Heavy Agriculture, Ten-acre minimum lot size (A-2-10)" to "One Family Dwellings (R-1)."</p>	FIN

2007022053	Arroyo Tentative Parcel Map Calistoga, City of Calistoga--Napa The property owner is requesting approval of a tentative map to subdivide a 26-acre parcel into 4 residential lots ranging in size from 5.5 to 7.9 gross acres. A 20-foot wide private street, with a 40-foot right of way, will provide access to the lots from Grant Street. A separate 8-foot wide gravel drive will provide secondary emergency vehicle access from the main private street where lots A, B and D meet. This EVA will then go between lots A and B and up the western side of the property to Grant Street. The tentative map delineates specific maximum building envelopes that are well outside of the minimum 35-foot riparian setback along both the Napa River and Garnett Creek. No development of any of the lots is proposed to occur at this time; the vineyard is proposed to remain at this time.	MND	03/12/2007
2007022054	MS050017 Contra Costa County Brentwood--Contra Costa A Minor Subdivision to subdivide 17.99 acres into two parcels. Parcel "A" is proposed to be 8.4 acres and Parcel "B" is proposed to be 9.59 acres. The subject property is addressed 9851 Deer Valley Road, and is located approximately 0.23 mile north of the intersection of Deer Valley Road and Briones Valley Road, in the Brentwood area of the unincorporated portion of Contra Costa County. The surrounding land uses and setting consist of ranchettes, grazing lands and open space with rolling hills.	MND	03/12/2007
2007022058	Alder Drive Pump Station Truckee Donner Public Utility District Truckee--Nevada The proposed project involves construction of a pump station at a site located just northwest of the intersection of Alder Drive and Comstock Drive in Northeast Truckee. The purpose of the pump station is to provide additional water supply from the 6170 Pressure Zone into the Prosser Hts. and Prosser Lakeview areas. The Alder Drive pump station project is included in and consistent with the Truckee/ Donner PUD (District) 2004 Water Master Plan Update. The District's 2004 Water Master Plan Update was based on the General Plan of the town of Truckee (SCF#94092041).	MND	03/12/2007
2005061007	Central Region Elementary School No. 14 Los Angeles Unified School District Los Angeles, City of--Los Angeles The Los Angeles Unified School District proposes to construct a new elementary school campus that would provide 875 two-semester seats in 35 classrooms for grades K-5. The proposed project would include a food service area, multi-purpose room, library, and other support facilities. The proposed project would relieve overcrowding at Rosemont Elementary School, Union Elementary School, Commonwealth Elementary School, Lafayette Park Primary Center, and Lake Street Primary Center.	NOP	03/12/2007
2007022049	Visitacion Valley Redevelopment Program San Francisco Redevelopment Agency --San Francisco The San Francisco Redevelopment Agency and San Francisco Planning Department are proposing to adopt and implement a redevelopment program for San Francisco's Visitacion Valley neighborhood to overcome adverse blighting	NOP	03/12/2007

	influences, facilitate improved housing opportunities and improved neighborhood-serving commercial development in Visitacion Valley. The proposed redevelopment program includes adoption and implementation of a Redevelopment Plan, a set of General and zoning code revisions, and other actions to facilitate reuse of the dormant Schlage Lock property along the east side of Bayshore Boulevard, redevelop properties along the opposite (west) side of Bayshore Boulevard, and revitalize Leland Avenue.		
2007022052	Dam Maintenance Program (DMP) Santa Clara Valley Water District San Jose, Cupertino, Los Gatos, Morgan Hill--Santa Clara In an effort to streamline the maintenance process for regular maintenance activities at 14 water supply dams, the Water District has assembled a detailed Dam Maintenance Program (DMP) and EIR which will cover anticipated activities for a ten-year period. The DMP includes a wide range of anticipated regular maintenance activities such as: vegetation management; rodent control; exploratory trenching; inspections; sediment removal; access road and boat ramp repair work; erosion control; repair and maintenance of seepage systems, pipes, valve systems, hydraulic systems, outlets, inlet structures; and trash /debris removal.	NOP	03/12/2007
2007022056	North Fork Ranch (GPA 05-005 & Z05-024) Shasta County --Shasta The project is a request for approval of a General Plan Amendment (GPA 05-005), and Zone Amendment (Z05-024) for approximately 3,650 acres to increase the residential density from what is now designated as agricultural lands and low density residential to allow for a Planned Development (PD) of 1,374 residential parcels. The project proposes a mix of land uses including residential, agricultural, community and retail commercial, and recreation parks.	NOP	03/12/2007
2006041016	Tentative Parcel Map No. PPM 03-055 Tulare County Resource Management Agency --Tulare A Tentative Parcel Map to divide 36.2 acres into 4 parcels and a remainder parcel in the R-A-43 (Rural Residential-43,000 minimum) zone.	Neg	03/12/2007
2007021045	Planned Development Permit (PDP04-003) Bob Baker Toyota Expansion Lemon Grove, City of Lemon Grove--San Diego The project consists of an expansion to the existing Baker Toyota Dealership and the relocation of certain uses from the existing vehicle service and sales buildings on the north side of Federal Boulevard, to new structures to be located on a vacant site located across Federal Boulevard, from the existing facility. The project includes a remodel (interior and exterior) of the existing facilities and development of a vacant 5.16 (gross) acre site. The development of the vacant site consists of grading, improvements for a surface vehicle parking area, and the construction of two new buildings totaling approximately 23,000 sq. ft. for vehicle service, parking, and sales. 2007021047	<p>Calabasas Landfill Gas-to-Energy Facility Los Angeles County Sanitation District Agoura Hills--Los Angeles</p> <p>The Calabasas Landfill is an operating sanitary landfill located near Agoura, California, in unincorporated Los Angeles County. The proposed project consists of installing and operating three Solar Mercury Model 50 gas turbine power generator units and an associated landfill gas compression and treatment system outside the fill footprint on the western side of the landfill, where there are existing cellular utilities, a water tank, and an equipment storage area. The exhaust stack for each gas turbine will be approximately 25 feet high and 4 feet in diameter. Offsite visual impacts from the proposed facility will not be significant due to the high elevation of the site, the surrounding topography, the long distance to any potential receptor, and the visual shielding of an existing soil berm that runs along the western edge of the proposed site. No visible exhaust plumes are expected from the gas turbine stacks. No residential areas are near the proposed site or within any direct visible line of sight.</p>	Neg	03/12/2007
2007022048	<p>Agreement the Department of Water Resources and the Santa Clara Valley Water District for Water Resources Santa Clara Valley Water District --Santa Clara, Contra Costa, Solano, Sacramento, San Joaquin</p> <p>The proposed project consists of the execution of an agreement between the Santa Clara Valley Water District and the Department of Water Resources for the transfer of up to 50,000 acre-feet of water to Department of Water Resources for the Environmental Water Account. The Santa Clara Valley Water District will also provide Department of Water Resources the option to store up to 20,000 acre-feet of water in Santa Clara Valley Water District's Semitropic Water Storage District's groundwater bank. The water transfer agreement will become effective upon execution and will expire on December 31, 2007.</p>	Neg	03/12/2007
2007022050	<p>Macready Avenue Reconstruction Project (Mather Airport) Sacramento County Rancho Cordova--Sacramento</p> <p>The proposed project consists of the reconstruction of Macready Avenue (an existing road) from the intersection of Neely Way to Femoyer Street. Construction activities include the following:</p> <ol style="list-style-type: none"> 1. Relocate the existing utilities on Superfortress Avenue to underground utilities on Macready Avenue. 2. Repave the roadway, construct sidewalks, install landscaping, striping and construct ADA-compliant sidewalk ramps. 3. Replace the existing drainage pipes, manholes and drop inlets within Macready Avenue to meet Sacramento County Standards, and construct necessary drainage facilities. 	Neg	03/12/2007

2007028072	Greer Farm & Wildlife Pond Yolo County --Yolo This project involves seasonal diversion of water from Taylor Creek to be stored in a newly constructed, private use, off-stream pond on the landowner's property. The ponded water will be used primarily for wildlife restoration/enhancement and limited irrigation. The pond structure was designed by USDA Natural Resource Conservation Service. Construction was supervised by NRCS Woodland Field office.	NOE	
2007028073	Herbicide Treatment of Invasive Plants in Hungry Valley, SVRA Parks and Recreation, Department of Gorman--Ventura The purpose of the project is to control or eliminate the invasive exotic plants within the boundaries of Hungry Valley SVRA over a five year period. The invasive plants of greatest concern in this area are Dalmatian Toadflax (<i>Linaria dalmatica</i>), Yellow Star Thistle (<i>Centaurea solstitialis</i>), Pampas Grass (<i>Cortaderia selloana</i>), Giant Reed (<i>Arundo donax</i>), Tree of Heaven (<i>Ailanthus altissima</i>), and Russian Thistle (<i>Salsola tragus</i>). All of these exotics are on California's Weed Rating List and pose a significant threat to the habitats at Hungry Valley, SVRA. State Park officials working in conjunction with the Agricultural Commissioners from Los Angeles, Kern, and Ventura Counties and with the advice of the Regional Invasive Plant Advisor from the University of California have determined that herbicide treatment is necessary and appropriate for control of these invasive plants in this habitat. As part of the integrated pest management program at Hungry Valley, mechanical and biological control has been attempted with little success on these species. All herbicide applications will be supervised by a qualified herbicide applicator following all rules and regulations to minimize drift and public exposure. The areas being treated will be closed to public use for the appropriate periods during and following applications (re-entry intervals). All herbicides will be applied in the spring, to the young actively growing target plants using the protocols deemed most effective by the Invasive Plant Advisor. All requirements from the herbicide label will be followed.	NOE	
2007028074	Mesquite Dune Rehabilitation - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will protect the sensitive Mesquite Dune Complex in the park. Approximately five kilometers of 8-strand, low impact fence will be placed around the circumference of the entire Mesquite Dune Complex of the San Felipe Lone Dune (268 meters), Morton Dunes (2 kilometers), Benson North Unit (772 meters), Benson South Unit (988 meters), Benson East Unit (605 meters), and Pack Rat Dune (356 meters), for a total of 82.6 acres. Peeler core posts will be placed every 100 feet at a maximum depth of 36 inches and t-posts every ten feet.	NOE

	Reflectors will be placed every ten feet along the fence.		
2007028075	Fossil Beds Enclosure - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will protect the Fossil Beds area in the park. Approximately 597 meters of 8-strand, low impact fence will be placed around the circumference of the entire Fossil Beds complex in Palo Verde Wash, enclosing 3.5 acres. Peeler core posts will be placed every 100 feet at a maximum depth of 36 inches and t-posts every ten feet. Reflectors will be placed every ten feet along the fence.	NOE	
2007028076	Natural Springs Rehabilitation - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will protect sensitive natural springs throughout the park. Approximately four kilometers of 8-strand, low impact fence will be placed around the perimeter of seven natural springs, Cahuilla (457 meters), Arroyo Salada (342 meters), Gigante (1.15 kilometers), Cattail (93 meters), Tule (165 meters), Ghost Road (1.24 kilometers), and Sand Dome Hill (858 meters), for a total of 52.4 acres. Peeler core posts will be placed every 100 feet at a maximum depth of 36 inches and t-posts every ten feet. Reflectors will be placed every ten feet along the fence.	NOE	
2007028077	Repair and Maintain River Trail Parks and Recreation, Department of --Santa Cruz Repair and maintain a 5,020 ft. section of the heavily traveled River Trail in Henry Cowell Redwoods State Park with the assistance of a crew of approximately 100-150 volunteers. Scope of work includes trail tread maintenance, debris removal, fence repair, installation of one new drainage culvert, construction of three minor turnpikes and development of one minor (~ 50 ft.) trail re-route. The proposed turnpikes and (minor) re-route are measures designed to decrease potential sediment runoff into the San Lorenzo River.	NOE	
2007028078	Clean Harbors Los Angeles, LLC Class 1 Permit Modification Toxic Substances Control, Department of Los Angeles, City of--Los Angeles Clean Harbors Los Angeles, LLC (Clean Harbors) been granted a Class I Permit Modification to their Hazardous Waste Facility's Permit. The Modification amends the facility's Emergency Contingency Plan by updating the emergency coordinators list. Clean Harbors is replacing one of its emergency coordinators because one of the employees designated as an emergency coordinator is no longer employed by the facility. The number of Emergency Coordinators listed in the Emergency Contingency Plan will remain the same (one primary and one alternate emergency coordinator). This modification will not change the contingency plan substantially.	NOE	
2007028079	Jefferson at Marina Del Rey Response Plan Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The Response Plan includes institutional controls in the form of a deed restriction and soil management plan. Groundwater will be monitored on a quarterly basis for a minimum of two years and analyzed for volatile organic compounds and total dissolved solids to determine groundwater quality.	NOE

2006091039	<p>Ontario Gateway Specific Plan Ontario, City of Ontario--San Bernardino</p> <p>The project examined in the EIR consists of a Specific Plan referred to as Ontario Gateway Specific Plan for the development of a mixed-use master plan on approximately 41 acres of land. The subject property consists of two parcels of land (APN 021-021-2520 and 2510). The project site is bounded by the I-10 Freeway to the north, Union Pacific Railroad to the south, Haven Avenue to the west, and approximately 460 feet from Ponderosa Avenue to the east.</p> <p>Approximately 60% of the proposed project site is paved and contains an approximate 200,000 square-foot metal industrial building (industrial/storage and distribution) and approximately 9,600 square feet of office space which is situated on the southern portion of the project site. The land on the northern one-third of the project site is vacant.</p> <p>The proposed Ontario Gateway Specific Plan would include the demolition of existing structures and development of visitor-serving and freeway-serving commercial uses, medical-related uses (including a hospital and emergency heliport), hospitality uses, business park uses, and offices uses. The proposed project includes the extension of East Guasti Road approximately 1,400 feet east from its present termination approximately 220 feet east of Haven Avenue to connect sometime in the future to the existing East Guasti Road that terminates at the eastern boundary of the project site. In order to allow for development flexibility, the project site is divided into five different planning areas with various uses proposed.</p>	EIR	03/29/2007
2007021055	<p>Public Storage Irvine, City of Irvine--Orange</p> <p>The applicant (Public Storage) has filed three separate applications with the City of Irvine requesting the approval of a General Plan Amendment (modifies the land use designation and assigns intensity to the subject Planning Area 8). Zone Change (modifies the zoning designation and assigns intensity to the subject Planning Area 8), and a conditional use permit to allow for the construction of the new structure and "legitimize" the existing 55,475 square feet facility that was built in the early 1970s. The approval of these actions would permit the construction of a new 115,694 square foot two-story self-service storage building (mini-storage warehouse building) on a 5.6 acre parcel.</p>	MND	03/14/2007

	demands associated with expanded student capacity. The perimeter of the proposed expansion would be fenced for safety and security. The school site will be bounded by County streets on the west and east sides. Low maintenance landscaping is planned for aesthetic quality along the borders of the site.		
1993021007	Tesoro del Valle/Project No. 92-074/Vesting Tentative Tract Map No. 51644-01 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles The proposed project is to revise Vesting Tentative Tract Map (VTTM) 51644, in order to shift 475 units originally proposed to be constructed in Area "A", and 2 units in Area "D", over to Areas "B" and "C". VTTM 51644 was originally approved for a total of 1,791 units in 1999. There will be no increase in the total number of units in VTTM 51644 with this revised tract map. A higher density of units is proposed in Area "C" with the revision. The total number of single family lots in Areas "B" and "C" will be 714, with a total grading amount of 11 million cubic yards proposed. The original number of units proposed in Areas "B" and "C" had been 237. The project site shall have its main access from Copper Hill Drive via Avenida Rancho Tesoro. A Conditional Use Permit is also required for development within a hillside management area which will include grading with balance on site, and density control. An Oak Tree Permit will also be required to address encroachment and removal of oaks on site.	NOP	03/14/2007
1995103035	Oak Knoll Community Development Plan (Former Oak Knoll Naval Medical Center Property) Oakland, City of Oakland--Alameda The planned development proposed for approximately 172+ acres of the 183-acre Oak Knoll Naval Medical Center (NMCO) property located off of Mountain Boulevard and Keller Avenue. The planned development proposes a mixed-use community of: a) up to 960 residential units (detached single family residential dwellings, cluster single-family dwellings, town homes and condominiums; b) up to 82,000 square feet of local serving commercial use; c) restoration and reuse of the Club Knoll facility; and d) preservation of hillside as well as restoration and preservation of Rifle Range Creek for permanent open space and resource conservation.	NOP	03/14/2007
1997081036	California State University Monterey Bay (CSUMB) 2007 Master Plan Update EIR California State University Trustees Seaside, Marina--Monterey The California State University is the Lead Agency and is going to prepare a Draft EIR for the California State University Monterey Bay (CSUMB) 2007 Master Plan. The EIR includes a programmatic analysis of the potential environmental effects of implementation of the 2007 Master Plan, as well as specific, identified Near-Term Projects at a project level. The 2007 CSUMB Master Plan is based on and consistent with the 2004 Master Plan previously analyzed in the 2004 CSUMB Master.	NOP	03/14/2007

	<p>growth and relocation fo the Friends School from its current location in the Castro District of San Francisco. The school proposes to retain most exterior features of the historic Levi's building, renovate the interior for academic and related uses, and convert an existing outdoor parking area and brick plaza to children's play space. Proposed exterior alterations include: removal of one of our stair towers added in a 1968-1970 renovation (at the northwest, or right rear corner of the building) and addition of an exterior stair; removal of the decorative trellis above the porch along the main (east) façade and its decorative guardrail along the porch (both added in the 1960s renovation); addition of a new access door in the Brosnan Street ground-floor façade and replacement of the existing roll-up garage door; removal of a small mechanical building abutting the rear (west) façade; raising the roof along a portion of the rear (west façade to accommodate construction of a gymnasium and theater on the building's third floor. On the interior, the project would include: creation of six classrooms and other children's and support space on the ground floor; 10 classrooms, language and science labs, a library, and a cafeteria/kitchen and Quaker meeting room on the second floor; and six classrooms, the upper level of the library, art and music rooms, offices, and a planned theater and gymnasium on the third floor. The maple flooring and exposed ceiling joints would be retained on the second floor. The Friends School plans to relocate to the site in time for the 2008-09 school year.</p>		
2007022065	<p>Site Development Permit Application SDP-23-06, by Risen King Community Church Redding, City of Redding--Shasta Risen King Community Church is requesting approval to develop a new church complex on approximately 20 acres located along the north side of Oasis Road, just east of Salt Creek. The church complex would consist of a church assembly, administration, and classroom facilities developed in two phases with a total development of 113,718 square feet of buildings.</p>	Neg	03/14/2007
2006042169	<p>Eastside Trunk Sewer, City Project No. 2004-05 Rohnert Park, City of Rohnert Park--Sonoma The project involves construction of the Eastside Trunk Sewer Project and the widening of the Snyder Lane bridge over Copeland Creek. The Eastside Trunk Sewer Project includes three stream crossings: Hinebaugh Creek at Redwood Drive, Copeland Creek at Redwood Drive, and Copeland Creek at Snyder Lane. The pipe will be installed under Hinebaugh Creek and Copeland Creek at Redwood Drive using jack-and-bore methods and under Copeland Creek at Snyder Lane using an open cut trench. The jack-and-bore crossings will result in no temporary or permanent impacts within the stream channels. The Snyder Lane bridge will be widened by approximately 31 feet on the east side in the same location as the trunk sewer crossing. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0374-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, City of Rohnert Park.</p>	Oth

	already in use for similar facilities. The facility would provide enhanced support for federally mandated technology changes to digital broadcast services.		
2006091161	Drilling and Equipping Wells 30 and 31 Colton, City of Colton--San Bernardino The project consists of constructing, equipping, and operating two domestic water production wells in the City of Colton on two adjacent City-owned parcels. The project is anticipated to include the following activities: site clearing and fencing; drilling the wells, casing the wells, developing the wells using air-lift equipment, and testing of the wells using a temporary diesel-driven pump; disposing of development and testing water; installing pumping units, motors, electrical switchgear, and electrical power service, installing valves, site piping, and appurtenances; installing disinfection facilities; installing discharge piping from pump discharges to Ashley Way (northerly of the project site); painting of aboveground facilities; constructing enclosures for protection of aboveground facilities; disinfecting the wells; start-up of the well pumping plants; and operating the wells and well pumping plants. Development, testing, and operational water discharges will be discharged to an onsite storm drain inlet leading to the Reche Canyon Channel, located adjacent to and southerly of the project site.	NOD	
2006112147	Emergency Bridge Repairs Marin County --Marin The Marin County Department of Public Works will undertake repairs on five bridges, which are considered emergency repairs necessary to prevent the bridges from closure. Each bridge is operated and maintained by Marin County Public Works and each bridge location is considered to be within County right of ways. The majority of repair work will consist of placing scour protection within the creeks and around the support columns of the bridges, as several areas have been undercut due to water flow and sediment migration.	NOD	
2006121039	San Bernardino Valley College Seismic Building Replacement Project San Bernardino Community College District San Bernardino--San Bernardino The project would replace four existing buildings on the San Bernardino Valley College (SBVC) campus: North Hall; the Physical Science building; the Chemistry department building; and the Maintenance and Operations building, comprising a total of approximately 95,200 assignable square feet (asf) and approximately 156,700 gross square feet (gsf). The buildings are proposed for replacement because of their proximity to the San Jacinto fault zone, which runs northwest to southeast across the west half of the SBVC campus. The buildings would be replaced with four new buildings on the campus, which would be constructed to current seismic codes, and have improved handicapped access, energy conservation features, infrastructure, and modern laboratory and classroom space. These new buildings would have a total of approximately 95,700 asf and approximately 122,000 gsf. In addition, three additional landscaping areas would be associated with the new buildings. These landscaping areas would total approximately 4.5 acres. The proposed project is for seismic mitigation purposes only, not to accommodate an increase in student population.	NOD

	downstream of the fenced valve structures, and remove and replace discharge valves at this location.		
2007028139	<p>Robert A. Skinner Filtration Plant West Retention Basin Improvements Metropolitan Water District of Southern California Unincorporated--Riverside</p> <p>The Metropolitan Water District of Southern California (Metropolitan) proposes to repair erosion at and improve access to the West Retention Basin at the Robert A. Skinner Filtration Plant. Metropolitan will repair eroded areas at the base of the fence adjacent to the western side of the retention basin. Metropolitan also proposes to improve access to the valve structure for the basin by laying a gravel turnaround between Borel Road and the fence on the western side of the basin, installing a gate in the existing fence, and installing a railing and steps from the gate to the valve structure.</p>	NOE	
2007028140	<p>Tactical Training Support Center College of the Siskiyou Weed--Siskiyou</p> <p>Enrollment has increased three-fold in the areas of fire training and emergency medical response. Classes for fire training and emergency medical response coursework are commonly offered in multi-hour blocks. This creates scheduling challenges for the college when attempting to coordinate the use of classrooms for traditional courses along side the special needs of the fire and medical response curriculum. The unfortunate result is often the scattering of the Fire, EMT, and Paramedic programs about the entire campus. This movement between the different areas of the campus negatively impacts the instruction process for the students, instructors, and support staff.</p> <p>The TTSC, as approved by the Siskiyou Joint Community College District and identified within the adopted 2009-13 Five-Year Construction Plan, will provide the specialized instructional space needed for the Fire Technology, Paramedic, First Responder, and Emergency Medical Technician programs presently offered by the college.</p> <p>The TTSC facility will consist of specialized classroom and lab spaces within a 4,700 +/- square-foot building. The total seating capacity will be about 75 students. The building will also provide offices for instructors and staff as well as equipment storage.</p> <p>The total square footage of the TTSC accounts for about two percent of the total square footage currently available on the Weed campus. Further, the additional 75 students (i.e., seats) also account for about two percent of the Weed campus total classroom capacity. Cumulatively, the project represents less than one percent of the total square footage and classroom capacity at the conclusion of the 2009-13 Five-Year Construction Plan.</p> <p>The students, instructors, and support staff will be the primary beneficiaries of the project. Additionally, local volunteer fire departments as well as larger, regional fire suppression agencies will likely benefit from the establishment of a regional, centrally-located fire and emergency services training facility.</p>	NOE

	and green waste, to a peak of 1,500 TPD of non-hazardous MSW. However, on a weekly average the load handled by the proposed facility could vary by 5 to 10 percent, and on a seasonal average, the change could vary by 10 to 15 percent.		
2006101026	Golden West College Master Plan Environmental Impact Report Coast Community College District Huntington Beach--Orange The District is undertaking an extensive improvement and building program to meet increasing enrollment needs, involving demands for post-secondary educational institutions, and to update technology and outdated infrastructure. The GWC Facilities Master Plan is a Three Phase program, consisting of five major elements that will determine the future Campus design. The five elements are: (1) utilize the proposed Learning Resources Center and the proposed Health Science Buildings to highlight and refocus the main campus entries from the west and south; (2) reshape the west main entry with a student focus, and the east entry with a cultural and community focus; (3) reshape the campus edges, parking and berms to increase a perimeter sense of welcome and identity; (4) rezone and re-organize the campus bringing together like functions and focus to provide improved order to the campus; and (5) incorporate measures to optimize long term campus land use.	EIR	04/02/2007
2006101027	Orange Coast College Master Plan Environmental Impact Report Coast Community College District Costa Mesa--Orange The District is undertaking an extensive improvement and building program to meet increasing enrollment needs, involving demands for post-secondary educational institutions, and to update technology and outdated infrastructure. In 2004, 26,193 students were enrolled at OCC. By 2010 total student enrollments are projected to increase to 32,155, and to 38,246 by the year 2020. In addition, the District will utilize Capital Improvement funds from the State of California for renovation and new construction projects. The OCC Master Plan - 2012 consists of five major elements that will determine the future Campus design through year 2012. The five elements are: (1) removal of outdated buildings; (2) circulation, composed of vehicular, parking, and pedestrian components; (3) open space, composed of central quad, amphitheatre, and sculpture garden components; (4) building modernization/renovation; (5) building placement and zoning.	EIR	04/02/2007
2007021065	Pyramid Dam Emergency Access Road (PDEAR) Water Resources, Department of --Los Angeles The State of California Department of Water Resources (DWR) proposes to build a new emergency access road to DWR's facilities at Pyramid Dam, Los Angeles County, California, in the Angeles National Forest. The project site is located above Piru Creek and construction activities would occur along an old abandoned dirt road that begins off I-5 and continue to the Pyramid Dam Bridge, adjacent to Old Highway 99 approximately 0.5 miles downstream of Pyramid Dam. Construction of the emergency access road would provide full and adequate access to Pyramid Dam in the event of an emergency (dam failure and/or leakage, flood or seismic event) as well as for dam inspections and maintenance. Construction activities are anticipated to commence in July 2007.	MND	03/16/2007

2007022074	Griffith Development (TSTM 2006-0012, SPA 2006-0007 & CZ 2006-0004): Applicant, Bruce Countryman Yuba County --Yuba Tentative Subdivision Tract Map No. TSTM2006-0012, Specific Plan Amendment No. SPA2006-0007, and Change of Zone No. CZ2006-0004 (Griffith Development): The project is a Specific Plan Amendment and Change of Zone to rezone a 7.3-acre property from R-1 to R-3 in the East Linda Specific Plan area of Yuba County. The project includes a tentative subdivision tract map to subdivide the property into 22 single family lots ranging in size from 9,180 to 12,400 square feet.	MND	03/16/2007
2007022075	Kay Road Extension/Montalvin Manor Elementary School Drop-off Point Project West Contra Costa Unified School District San Pablo, Richmond--Contra Costa The project sponsor, West Contra Costa Unified School District (WCCUSD), proposes to construct a new roadway entrance to the Montalvin Manor Elementary School. This roadway would be fully on the District's school property with work occurring at the intersection of Kay Road and Rachel Road to allow for the appropriate intersection work in the existing public right-of-way. Project includes the roadway extension, a parent drop-off area and parking at the school. In addition, the work includes grading, retaining structures, curbs and gutter, landscape installation, street lighting, and other associated improvements. One portion of the work includes upgrades to the entry plaza area of the Montalvin Manor Elementary grounds which would interface with the new roadway entrance.	MND	03/16/2007
2007022076	North Main Street Preuse Plan Redwood City Redwood City--San Mateo The proposed project is a Precise Plan and Zoning Map amendments for properties at 305, 333, 369, and 373 Main Street and 1001 Veterans Boulevard in Redwood City. The proposed General Plan Amendment would change the current General Plan designation from Commercial-Office Park to Heavy Commercial-Mixed Use. The proposed Zoning Map Amendment would change the current zoning designation to Planned Community (P) District. The Precise Plan would allow for a mix of Residential and Commercial uses and a trail along Redwood Creek.	MND	03/16/2007
2007022077	Caples Lake Boat Launch Facility and Access Road El Dorado Irrigation District --Alpine The project has been designed as a single-lane boat ramp, with plans for future expansion to a two-lane ramp and associated parking if the use warrants expansion. The proposed project includes parking for 25 vehicles with boat trailers and 10 single vehicles, a single lane concrete boat launching ramp and ancillary facilities. The new facilities will meet all current design standards, including Department of Boating and Waterways standards and American with Disabilities Act (ADA) requirements. The site plan has been designed to incorporate environmentally/context sensitive design principles, including those recommended in the USDA "The Built Environment Image Guide for the National Forests and Grasslands (2001).
