

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

February 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Friday, February 01, 2008</u>			
2006012090	Livingston's Concrete Batch Plant on Ophir Road (PEIR T20050072) Placer County --Placer The proposed project consists of the construction and operation of a concrete batch plant on an approximately five-acre parcel. The site would include a 1,440 square-foot office building, a 1,800 square-foot warehouse building, a concrete batch plant, wash areas for concrete trucks, and parking for concrete trucks and employee vehicles. The project may also include a 900 square-foot single story apartment to be used as a caretaker's residence.	EIR	03/17/2008
2007052107	Faculty/Staff Housing Village, California State University, Sacramento California State University Trustees Sacramento--Sacramento This Draft EIR has been prepared for the 24.7 +/- acre California State University Sacramento Faculty/Staff Housing Village Project. The project site is located at 3001 Ramona Avenue in the incorporated City of Sacramento. A conceptual Village site plan has been completed for the project. The Faculty and Staff Housing Village would be composed of three to four moderate density neighborhoods consisting of approximately 450 units. The Village Center would include: 5,000-10,000 square feet of retail, a childcare center, a 2-acre park, a common facility with meeting rooms and an exercise area, a pool and spa complex and structural parking.	EIR	03/17/2008
2007092063	Reconstruction of Roadway near Redcrest, California Caltrans #1 --Humboldt The California Department of Transportation is proposing a Storm Damage Permanent Restoration Project on Highway 101 near Post Mile (PM) 41.5 approximately 1.6 miles northwest of the town of Redcrest in Humboldt County. The project is necessary due to substantial damage to Highway 101 caused by 2005/2006 winter storms, resulting in the loss of two northbound traffic lanes. This project includes reconstruction of the four-lane highway, construction of a tieback retaining wall, replacing a separated culvert, installation of two headwalls, placement of erosion protection, and revegetating all disturbed areas. Roadway reconstruction will require realigning the existing roadway, stabilizing the fill slopes and reconstructing the northbound lanes.	FIN	
2008022009	International Drive Extension Kilgore to Sunrise Project Rancho Cordova, City of --Sacramento The proposed project would extend International Drive eastward from its existing terminus at Kilgore Road by approximately 1,500 linear feet to the Sunrise Boulevard/Monier Circle (north) intersection, including an approximately 112 linear foot six-lane bridge with left and right turn pockets over the Folsom South Canal. The existing four-lane International Drive would be re-stripped to include six (6) through-lanes from Prospect Park Drive to the intersection of Kilgore Road approximately 1,300 linear feet with minor widening at the Kilgore Road intersection to accommodate turn pockets. Monier Circle would be widened at the intersection approaches, as needed, to align with International Drive and the existing median on Sunrise Boulevard at the Monier Circle (south) intersection would be reconfigured to eliminate left turns onto Sunrise Boulevard. <u>Documents Received on Friday, February 01, 2008</u>			
	<p>Construction on Sunrise Boulevard would include approximately 5,200 linear feet of re-striping to six lanes (from Fitzgerald Drive to White Rock Road) necessary for intersection accommodation. West of Sunrise Boulevard, along the Folsom South Canal frontage, the project would widen the pavement and install curb, gutter and sidewalk. A parking lot on the north side of International Drive could be modified to accommodate project construction. South of International Drive, a soundwall for an adjacent residential subdivision could be modified to provide noise mitigation, and "noise reducing" pavement would be used along the new International Drive roadway segment to further reduce noise.</p>		
	<p>The Bureau of Reclamation maintenance road for the Folsom South Canal would be modified to go under International Drive or connect at-grade to Sunrise Boulevard (yet to be determined), and the bicycle path between Sunrise Boulevard and the maintenance road would be modified to connect to International Drive and also go under the bridge. Additionally, the existing approach roadway, utilities, curbs, landscaping, street lighting, drainage systems, and traffic striping would be modified as necessary to accommodate the extended roadway and new bridge. The project is located within the City of Rancho Cordova.</p>		
2008021006	<p>Roosevelt II Elementary School San Bernardino City Unified School District San Bernardino--San Bernardino</p> <p>The proposed project is a new elementary school on approximately 13 acres of land located on the southeast corner of Mount Vernon Avenue and 16th Street in the City of San Bernardino. The elementary school could serve approximately 1,184 students in kindergarten through grade 6 and is in response to the growing school-age population in the local community and to relieve overcrowding at other SBCUSD schools. In order to expand the existing school facility several residential developments, motels, retail stores, two churches, and a daycare center land uses will be removed.</p>	MND	03/03/2008
2008022008	<p>690 East Middlefield Road TOD Project Mountain View, City of Mountain View--Santa Clara</p> <p>The proposed project is the rezoning of an approximately 15.6-acre site at 690 East Middlefield Road in Mountain View. The project proposes to rezone the site from the Limited Industrial (ML) to the Transit Zone (ML-T) district, and to receive approval of a Transit-Oriented Development (TOD) permit. The project proposes demolition of three attached one-story industrial buildings on the site totaling 184,060 square feet, as well as parking lots, trees, and landscaping. Following demolition and grading of the site, two five-story buildings totaling up to 340,060 square feet of office space would be built, which would be an increase of approximately 156,000 square feet of development over what is currently built on the site. The project also includes construction of driveways, parking lots, and landscaping.</p>	MND	03/03/2008
2008022011	<p>Vineyard Oaks Subdivision; Zoning Ordinance Amendment (ZO 2008-01), Tentative Tract Map (TTM 2007-02), Design Review (DR 2008-01) and Development Agreement Calistoga, City of Calistoga--Napa</p> <p>Request for approval to subdivide the properties into 15 lots for single-family residential uses and associated ancillary residential uses, which may include light</p>	MND	03/03/2008

	agricultural uses such as cultivation of vineyards. The Applicant seeks to be able to build the infrastructure (i.e. roadways and utilities) in a single phase. Upon recordation of the Final Map, the residential units will be developed as market conditions allow. Ultimately, each home site will be placed within an established building envelope that has been purposefully designed by Howard Backen of Backen & Gillam Architecture. The proposed sizes of the homes will likely range between four- to five-bedrooms and up to and over 4,000 square feet, including all outbuildings.		
2008021002	PA07-0082, PA07-0083, and PA07-0084, PA07-0142, P07-186, PA07-0158, PA07-0159, PA07-0160, PA07-0161, and PA07-0162 Moreno Valley, City of Moreno Valley--Riverside The ProLogis Park facility proposes 2,244,419 square feet of industrial uses and covers seven undeveloped parcels of land generally located directly south of SR-60 between Pettit Street and Quincy Street. Development in the northern portion of the proposed project site, south of SR-60 and north of Eucalyptus Avenue, includes approximately 1,029,454 square feet of industrial space contained within two buildings. Development in the southern portion of the site, south of Eucalyptus Avenue, includes approximately 1,214,965 square feet of industrial space contained within four buildings. The project also includes applications for a General Plan Amendment for changes to both the land use element and the circulation element, a Zone Change, a Master Plot Plan for the overall site and Plot Plans for the individual buildings.	NOP	03/03/2008
2008021004	San Pedro Community Plan Project Los Angeles, City of Los Angeles, City of--Los Angeles Update to one of 35 Community Plans, which comprise the Land Use Element of the City of Los Angeles General Plan.	NOP	03/03/2008
2008021007	AB900 Infill Bed Project, Wasco State Prison Corrections and Rehabilitation, Department of Wasco--Kern At Wasco State Prison (WSP), CDCR is proposing to construct two new semi-autonomous facilities (one for reception and one for Level IV inmates) totaling 1,900 beds at maximum occupancy. Besides housing, the plans for the two new facilities include the construction of buildings for central administration services, facility program support services, healthcare, family visiting, academic and vocational training (including Prison Industry Authority facilities), and other miscellaneous support functions such as a kitchen, a warehouse, and assorted small buildings for storage and maintenance.	NOP	03/03/2008
2008021008	Valley Region Span K-8 No. 1 School Los Angeles Unified School District --Los Angeles The proposed project involves development of three classroom buildings; a middle school gymnasium; a multipurpose building with food service facilities; a library; and an administration building. The kindergarten and elementary classroom buildings combined would provide capacity for 750 students. The middle school classroom building would provide capacity for 297 students. The proposed campus would include turf playfields and hardcourts as well as a 93-space surface parking lot.	NOP	03/03/2008

2008022007	<p>The Campus at McCarthy Ranch Industrial Project Milpitas, City of Milpitas--Santa Clara</p> <p>The project proposes to retain the existing buildings and parking lot and construct six new industrial/office buildings totaling 951,000 square feet, bringing the total building square footage on the site to 1,415,800. Five of the six new buildings will be located on parcel 22-56-008 along with a new surface parking lot and recreational area. The sixth building will be constructed on the existing surface parking lot and recreational area. The sixth building will be constructed on the existing surface parking lot just north of the Ranch Road/McCarthy Boulevard intersection. Directly west of the sixth building will a parking deck which will provide one elevated level of parking over the existing surface parking lot. Each of the new buildings will be five stories with a maximum height of 82 feet (which includes rooftop mechanical equipment).</p>	NOP	03/03/2008
2008021001	<p>Snow/Feeley Parcel Map ED 07-047 San Luis Obispo County Paso Robles--San Luis Obispo</p> <p>Request by Tom Feeley for a parcel map (CO 07-0096) to subdivide an existing 16.1 acre parcel into 3 parcels of 5.2, 5.8, and 5.1 acres each for the purpose of sale and/or development. The project may include off-site road improvements to Caballo Place. The project will result in the disturbance of ~4 acres of a 16 acre parcel due to future development of the proposed parcels. The division will not create on-site roads.</p>	Neg	03/03/2008
2008021003	<p>Master Case No. 07-003, General Plan Amendment 07-003, Prezone 07-002, Annexation 07-003, Sphere of Influence Amendment 07-001 Santa Clarita, City of Santa Clarita--Los Angeles</p> <p>This is a request for a Sphere of Influence Amendment, General Plan Amendment (GPA), prezone, and annexation of approximately 2,064 acres of land containing 1,531 developed single-family residential parcels, a 1,600-acre office/industrial campus with approximately 6 million square feet of buildings, four neighborhood commercial centers, a public school, and a private park. The project would propose a prezone and change the existing land use designation to BP (Business Park), CN (Commercial Neighborhood), RS (Residential Suburban), and OS (Open Space). The General Plan and City's zoning designation is consistent with the density of development that currently exists in Valencia Commerce Center and Hasley Canyon areas. No new development is proposed as part of this Sphere of Influence Amendment, General Plan Amendment, and Prezone.</p>	Neg	03/03/2008
2008021005	<p>Arsenic Rule Compliance for Wells 9A, 10, 11, and 13 Project Indian Wells Valley Water District Ridgecrest--Kern</p> <p>IWVWD's proposed Arsenic Rule Compliance for Wells 9A, 10, 11, and 13 Project (the Project) consists of constructing and operating arsenic treatment facilities at existing Wells 9A and 13, the two IWVWD wells with the highest arsenic concentrations. Each treatment facility will consist of an oxidation, coagulation, and filtration treatment system for arsenic removal, and each will be designed to accommodate flows of approximately 1,200 to 1,500 gpm.</p> <p>Untreated water produced by Well 10 will be conveyed via a proposed 12-inch diameter pipeline to the treatment facility at the nearby Well 9A site for blending with treated Well 9A water, and the blended water will then enter IWVWD's</p>	Neg	03/03/2008

	distribution system via a short section of proposed 16-inch diameter pipe.		
	Untreated water produced by Well 11 will be conveyed to the treatment facility at the Well 13 site via proposed 12" pipeline for blending with treated Well 13 water, and the blended flows from Well 11 and 13 will then enter IWVWD's distribution system near Well 13.		
2008022002	Partial Williamson Act Contract Cancellation for Public Acquisition Modesto City Schools Modesto--Stanislaus The project consists of the partial cancellation of the Williamson Act Contracts on the subject properties to accommodate public acquisition of the properties for future right of way, and/or expansion of existing right of way, in support of future vehicle traffic associated with the planned Joseph A. Gregori High School. All properties included in this action are zoned A-2-40 (General Agriculture) and designated for business park uses or Planned Industrial - Reserve. In all, a total of 2.602 acres are intended for right of way and associated public utility easements from the 139.34+/- acres involved in this action.	Neg	03/03/2008
2008022003	Placerville Heritage Homes Subdivision (PDO 06-01, TSM 07-01, EA 07-02) Placerville, City of Placerville--El Dorado The project involves the subdivision of one 3.6 acre parcel into twenty (20) parcels for single family residential uses, a new access road, underground utilities and open space under a planned development concept. Proposed parcels range from approximately 2,500 to 5,000 square feet. Nineteen of the twenty parcels are proposed with a zero lot line concept, where one exterior wall of a future single family residence will rest on the property line. To accomplish the residential development, approximately 2/3 of the site is to be disturbed. Mass pad grading is proposed to prepare the site for roads, house pads and underground utilities. Project grading quantities are estimated to involve approximately 12,200 cubic yards of cut, 11,800 cubic yards of fill. Retaining walls are proposed for both fill and cut slopes. Retaining wall height varies, with maximum fill slope height is 23 feet. Maximum cut slope retaining wall height is 10 feet from engineered grade. A storm water drainage system of concrete curb, gutter, drop inlets, storm drains and overland swales is proposed to accommodate the existing plus project's storm water generation. Conveyance of storm water to the City maintained system along Placerville Drive is proposed.	Neg	03/03/2008
2008022004	Verizon Wireless Minor Use Permit Butte County Oroville--Butte A Minor Use Permit to collocate on an existing self-supported 194.2 foot tower (197.8 foot overall height) owned by American Tower Corporation. The collocation facilities will be centered at the 108 foot level.	Neg	03/03/2008
2008022005	Van Zile-Hilldale Avenue Tentative Subdivision Map 06-0013 Butte County Oroville--Butte The tentative subdivision map application proposes to divide a 2.3-acre parcel into seven lots on a cul-de-sac off Mountain View Drive. Lot size varies from 6,510 to 17,327 SF. Water would be provided by SFWP, and sewer by LOAPUD.	Neg	03/03/2008

2008029001	Burns Valley Subdivision Clearlake, City of Clearlake--Lake The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0077-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Thomas Snyder. Construction of one 15 foot long outfall at the base of a 1 foot deep swale. Structure will require placement of 10 cubic yards of rip rap for erosion control/flow velocity energy dissipation. Outfall will discharge into Burns Valley Creek. No additional disturbance to riparian or aquatic habitat is proposed for this project.	NOD	
2008029002	City of Patterson Domestic Well #14 Patterson, City of Patterson--Stanislaus New domestic well for water service.	NOD	
2008028001	Arsenic Treatment Facility (Oxidation/Filtration System) Health Services, Department of Hanford--Kings The project is the drilling of a new well to provide drinking water which should have little or no arsenic to the existing drinking water facility to improve water quality. This new well will result in lower arsenic levels. The new well will prevent having to treat for arsenic which will require less monitoring and much less expense than treating for the arsenic removal from the drinking water.	NOE

2008022012	<p>Sutter Medical Center of Santa Rosa/Luther Burbank Memorial Foundation Joint Master Plan Sonoma County Permit and Resource Management Department Santa Rosa--Sonoma</p> <p>Sutter Medical Center of Santa Rosa (Sutter) and the Luther Burbank Memorial Foundation (LBMF) propose a Joint Master Plan that would accommodate expansion of LBMF facilities and replacement of two Sutter hospital facilities (proposed project). The Joint Master Plan would describe development of an approximately 79-acre property at 50 Mark West Springs Road in the City of Santa Rosa, Sonoma County, California. The project site is in the southeast quadrant of U.S. Highway 101/Mark West Springs Road interchange and is bordered to the east by the Old Redwood Highway and residential land uses. LBMF and Sutter Currently own the property, which consists of the six legal parcels. The LBMF does business on the project site as the Wells Fargo Center for the Arts (WFC), a nonprofit performing arts and cultural center founded in 1981. For a number of years, the LBMF has envisioned an expansion of the facilities, which would include the establishment of a compatible facility or facilities. Sutter operates two medical facilities in Santa Rosa; Warrack Hospital on Summerfield Road and the Main Hospital Campus on Chanate Road. Sutter has determined that replacing both facilities is one option for achieving long-range compliance with the Hospital Seismic Safety Act (Senate Bill [SB] 1953). Accordingly, Sutter is proposing to build new hospital facilities on its portion of the project site to replace the two existing facilities. The Joint Master Plan would accommodate expansion of LBMF facilities and construction of new Sutter hospital facilities.</p>	NOP	03/04/2008
2008022018	<p>City of Richmond General Plan and Zoning Code Update Richmond, City of Richmond--Contra Costa</p> <p>The City of Richmond is in the process of preparing a comprehensive update of its General Plan and Zoning Code. California law requires all local jurisdictions to maintain a current general plan, which serves as a blueprint to guide the City's long-term growth and to direct the degree and character of development and improvements throughout the city. In addition, the general plan provides a charter for future city services and facilities. These principles are set forth in a series of goals, policies and implementation actions that build on the community's assets, while constructively addressing its challenges and opportunities. The goals, policies, and implementation actions provide a prioritized, progressive and practical set of policy measures, which are addressed in separate sections or "elements" of the General Plan.</p>	NOP	03/04/2008

The motorhome will have to be removed, allowing for the construction of a third dwelling.</p>	Neg	03/04/2008
2008022014	<p>Winnett Minor Subdivision Humboldt County Community Development Services --Humboldt</p> <p>A minor subdivision of an ~4.5 acre parcel into four parcels of between 1.0 and 1.15 acres each. An exception request to allow Parcels 1 and 4 to be accessed via a 20 foot right of way is also a part of this project. The parcel is currently vacant. All parcels will be served with water by Willow Creek Community Services District and onsite wastewater treatment systems.</p>	Neg	03/04/2008
2004012077	<p>Wal-Mart South Parcel and Expansion Project (PM 03-17) Chico, City of Chico--Butte</p> <p>Wal-Mart submitted an application for a Tentative Parcel Map (PM 03-17) requesting reconfiguration of the two parcel lines to facilitate the expansion of the existing 125,889 sf store into a 223,445 sf Wal-Mart Supercenter. The Tentative Parcel Map will reconfigure the lot lines of the existing parcels (a 16.75-acre parcel and a 10.36-acre parcel) to create on 24.69-acre (Parcel 1) and one 2.42-acre parcel (Parcel 2). The existing Wal-Mart store and all improvements associated with the expansion of the store would be contained entirely within Parcel 1. The existing parking lot would be expanded to the south of the existing store and parking lot. No development is currently planned for Parcel 2, but a restaurant and gas station may be developed in the future. In addition, as a part of the Tentative Map, a number of public utility and public access easements (sanitary sewer, storm drainage, water, utilities, and public bicycle path) are proposed for abandonment and relocation on the site.</p>	Oth

2005124001	San Luis Rey Flood Control Project U.S. Army Corps of Engineers Oceanside--San Diego The mowing/chipping and/or removal of riparian vegetation, and the removal of sediment from 7.2 miles of the San Luis Rey River, in order to achieve a flow conveyance of 71,200 cfs (175-year flood event). The project will result in the loss of habitat occupied by least-Bell's vireo and southwestern willow flycatcher, both state and federally endangered species necessitating issuance for the above-mentioned Incidental Take Permit.	NOD	
2005124001	San Luis Rey Flood Control Project U.S. Army Corps of Engineers Oceanside--San Diego CDFG is issuing a Streambed Alteration Agreement to the project applicant, City of Oceanside. The applicant proposes to alter the streambed for the San Luis Rey to accommodate the San Luis Rey Flood Control Project. The focus of the project is vegetation manipulation and removal of sediment to allow a flow of 71,200 cubic feet per second. The initial vegetation removal will be implemented in three phases over an estimated 8-year period.	NOD

	are on and will connect to the existing discharge lines.		
2008028027	<p>Roof Runoff System Project at the Tim Miranda Dairy Humboldt County Resource Conservation District Ferndale--Humboldt</p> <p>The proposed project includes the installation of approximately 720 feet of gutters with downspouts on two existing barn structures on the subject parcel. In addition, the proposed project will include the installation of one 12-inch, seven 10-inch, two 8-inch, and three 6-inch diameter PVC underground discharge pipes that will convey the collected rainwater from each barn to the adjacent pasture. The total length of the buried discharge pipes will be approximately 2,045-feet and will be laid in a 30-inch deep and approximately 10-inch wide trench. The trench will be backfilled with native soil and all disturbed areas will be seeded with a pasture seed mix. A total of 26,400 square feet of roof will be guttered. Currently, a majority of this rainwater, after becoming contaminated with dairy waste, is directed to an existing waste storage facility. By diverting the rainwater prior to becoming contaminated (by coming in contact with manure), a significant amount of storage in the Dairy's manure storage pond will be obtained, effectively increasing the days that manure can be stored or decreasing the required storage volume. In addition to rainwater, clean water from the dairy's milk cooling system will be diverted as well. By diverting this water, approximately 2 million gallons of clean water will no longer enter the manure storage pond on an average rain fall year. The proposed project will integrate into the manure collection, storage, and distribution system at the dairy facility and is important in protecting adjacent water resources.</p>	NOE	
2008028028	<p>Underground Irrigation Mainline Project at the Darren Hanson Dairy Humboldt County Resource Conservation District Ferndale--Humboldt</p> <p>This proposed project includes the installation of approximately 1,050 feet of 4-inch diameter Class 160 PVC underground irrigation mainline for the purpose of irrigation water conveyance and liquefied manure application. The proposed underground mainline will provide the ability to convey irrigation water from an existing irrigation well as liquefied manure from an existing dairy waste storage facility. The liquefied manure will be utilized for fertilizing approximately 30 acres of pasture.</p>	NOE	
2008028029	<p>Underground Irrigation Mainline Project at the Mark Miranda Dairy Humboldt County Resource Conservation District Ferndale--Humboldt</p> <p>This proposed project includes the installation of approximately 1,200 feet of 5-inch diameter Class 125 PVC underground irrigation mainline for the purpose of irrigation water conveyance and liquefied manure application. This will extend the current underground mainline system to include an additional 35 acres of pasture located to the East of the dairy facility that currently cannot receive an application of liquid manure as fertilizer. The proposed underground mainline will provide the ability to convey irrigation water from an existing irrigation well in addition to applying liquefied manure from an existing dairy waste storage facility to the adjacent pastures.</p>	NOE

2008028030	<p>Concrete Curbs, Dairy Waste Collection Sumps, Sump Pumps, and Backflow Prevention at the DelBiaggio Dairy Humboldt County Resource Conservation District Ferndale--Humboldt</p> <p>The proposed project on the DelBiaggio Dairy will include the installation of concrete curbs around the perimeter of the existing concrete slab. The addition of the curbs to the slab will enable the dairy operator to contain manure on the existing slab, thereby decreasing the potential of rainwater runoff from becoming contaminated prior to exiting the concrete slab and entering into uncontainable areas during routine scraping operations.</p> <p>The proposed project also includes the installation of two pre-cast concrete sumps each equipped with new sump pumps. One of the concrete sumps will be strategically placed at grade and adjacent to the southeast side of the existing concrete slab to capture manure and contaminated rainwater runoff. The second concrete sump will be placed on the west side of the existing milking parlor and will capture milk-tank wash water. Both sumps will be equipped sump pumps that will convey the liquid waste to the existing waste storage facility.</p>	NOE	
2008028031	<p>Roof Runoff System Project at the Fern Valley Goats Dairy Humboldt County Resource Conservation District Ferndale--Humboldt</p> <p>The proposed project will occur in two phases of construction for two roof structures over an existing concrete coral heavy use area. The first phase of work will occur this fall and will include the installation of a 50 x 90 foot pre-fabricated metal roof covering. The new roof will include the installation of gutters, associated downspouts connected to a new buried discharge pipe during the fall of 2007. The installation of the 8 inch diameter PVC underground discharge pipe will allow for collected rainwater from the roof structure to be conveyed to the adjacent pasture. The buried discharge pipe will be approximately 115 feet in length and will be laid in a 30 inch deep and approximately 10 inch wide trench. The trench will be backfilled with native soil and all disturbed areas will be seeded with a pasture seed mix. The second phase of work on the larger roof will occur in the summer of 2008. The second phase of work will include 75 x 90 foot pre-fabricated metal roof and will also include gutters with downspouts connected to the 8-inch buried discharge pipe.</p>	NOE	
2008028032	<p>Underground Irrigation Mainline Project at the Scilacci Property Humboldt County Resource Conservation District Fortuna--Humboldt</p> <p>This proposed project includes the installation of approximately 3,300 feet of 5-inch diameter Class 125 PVC underground irrigation mainline for the purpose of irrigation water conveyance and liquefied manure application. Approximately 525 feet of the mainline will be through a wetland. The proposed underground mainline will provide the ability to convey irrigation water from an existing irrigation well in addition to applying liquefied manure from an existing dairy waste storage facility to the adjacent pastures. The liquefied manure will be utilized for fertilizing approximately 100 acres of certified organic pasture. Risers spaced every 180 feet along the buried mainline will allow for a traveling hard-hose irrigation gun connection. The traveling irrigation gun applies irrigation water or liquefied manure directly to the pasture at varied rates depending upon the seasonal fluctuation of nutrient and water uptake requirements of the pasture grass. The proposed project will integrate into the manure collection, storage, and distribution</p>	NOE

2008021017	<p>Plant 134 Water Treatment Plant Upgrade and Expansion Project East Valley Water District San Bernardino--San Bernardino</p> <p>The California Department of Public Health (DPH) establishes the water quality standards that EVWD is mandated to meet. Among these standards is a maximum contaminant level (MCL) for disinfection byproducts (DBPs). DBPs are primarily formed when a disinfectant such as chlorine reacts with naturally occurring organic material in the source water. Currently, compliance with the MCL for DBPs is achieved through compliance with the Stage 1 Disinfectant and Disinfection Byproduct Rule (Stage 1 Rule). Compliance is achieved when the average of all samples collected from throughout the District's distribution system is below the Stage 1 Rule MCL. Additionally, treatment requirements for total organic compounds (TOC) were waived because Stage 1 Rule MCL's were met and operation of the current approved treatment process could not be adjusted to improve TOC removal.</p> <p>Recent circumstances and new water quality regulations along with the anticipated increase in the demand for water within the District's service area have required EVWD to consider upgrading and expanding the treatment capacity of Plant 134. The newly promulgated Stage 2 Rule for Disinfectants and Disinfection Byproduct Rules (Stage 2 Rules) will now require that compliance with the MCL be met at each sampling location and systemwide averaging will not be allowed. 	includes compliance with TOC removal requirements. The Stage 2 Rule becomes effective in April 2012.		
	In addition to these regulatory requirements that have and will continue to affect EVWD's water supply system, the demand for water continues to grow within the District. To satisfy this demand, EVWD has identified the upgrading and expansion of Plant 134 as a necessary component of its overall water supply system.		
2008022026	300 R Mixed Use Sacramento, City of Sacramento--Sacramento The proposed project is a mixed-use development located at 1801 Third Street in Downtown Sacramento on approximately 2.5 +/- acres. The project is located in the R Street Corridor Special Planning District and is bounded by R Street, S Street, 3rd Street, and 4th Street. The proposed project includes entitlements to construct 305 condominiums along with 14,400 square feet of retail space.	Neg	03/06/2008
2008022027	UCSF Institute for Regeneration Medicine University of California San Francisco--San Francisco The proposed UCSF Institute for Regeneration Medicine project would construct a new one-story building that would step up in four segments along the contours of the slope adjacent to Medical Center Way. The proposed building would contain laboratory research and support functions totaling approximately 71,100 gross square feet (gsf). The Institute for Regeneration Medicine building would consolidate and provide expansion for the programs in stem cell research and development currently occupying dispersed laboratory spaces at Parnassus Heights. It would provide a venue where research using non-registered stem cell lines can demonstrate clear separation from lines eligible for Federal funding. In addition, UCSF proposes to construct an Auditorium of about 8,000 gsf adjacent to the proposed building that would provide replacement space for the Toland lecture hall in the seismically poor rated UC Hall. The Auditorium would be a freestanding structure and may be constructed on a separate schedule from the Institute building; however, for purposes of CEQA both projects are evaluated together.	Neg	03/07/2008
2007061056	Eden Rock at PGA West La Quinta, City of La Quinta--Riverside Eden Rock proposes several development applications to subdivide 42 +/- acres into a condominium subdivision of 292 duplex, triplex and multi-family residential units. The project proposes a 1.35 acre recreation amenity lot, with a 7,122 square foot Garden House (i.e. clubhouse), with common area pool and a 43 foot 6 inch high clock tower. Three residential product types are proposed: (1) 83 Courtyard homes, arranged as one- and two-story duplex buildings arranged in a 4-unit court; (2) 81 Manor homes, arranged as one- and two-story triplex buildings; and (3) Village homes, arranged in 11 buildings of 16 units each and two to three stories in height. 2007062038	Penryn Townhomes Planned Development Placer County Planning Department --Placer Proposed to construct 23 townhomes on a 3.2 acre parcel which includes common interest lots owned by all homeowners.	NOD	
2008028026	Chino II Desalter Expansion Western Municipal Water District --Riverside The project being considered for approval by the Western Municipal Water District (WMWD or District) is the installation of the two RO treatment trains and support facilities. These two new RO treatment trains will be integrated into the existing treatment system at the Chino II Desalter. New cartridge filters and a third decarbonation unit will also be installed. All of these facility modifications will occur within existing structures or within the Chino II Desalter footprint. No new undisturbed areas will be impacted by the proposed project as all facilities will occur within the graded footprint of the Chino II Desalter facility. Existing pipelines and other facilities have been sized to accommodate the proposed treatment of an additional 10.5 mgd of raw water that will be delivered to the Desalter from existing wells and future wells that remain to be developed. 	from the Oro Grande Outlet to the I-15 bridge; bank to bank clearing in the immediate vicinity of the freeway bridge, and resumption of the 300-foot centerline for an additional 2,500 feet downstream of I-15 (approximately 42 acres). Total is approximately 3,900 lineal feet, at approximately 300 feet wide (except in the immediate vicinity of the I-15), approximately 130,000 cubic yards and approximately 42 acres.		
2008028041	Auburn Slide Slope 03-2E030 Caltrans #3 Auburn--Placer Caltrans proposes to stabilize the highway embankment and pavement that has been sinking due to an active slide, requiring annual repairs to the road surface. The unstable slope has also resulted in heaving of material at the toe of the slope where the existing Auburn State Parks parking is located. The project now proposes to construct an approximately 150 feet long micropile wall within the embankment and cap beam approximately 60 feet above the southwest corner of the parking area and filled to its original slope. The affected highway segment will be corrected with asphalt concrete (AC) and re-striped. The following preliminary design features will be involved: construct access roads, equipment staging area, drainage/culverts, ground disturbance, vegetation removal, and removal of trees.	NOE	
2008028042	Children's Campus California State University, San Francisco San Francisco--San Francisco Construction of a 6,500 ASF/8,000 GSF modular childcare facility to replace the existing child-centered lab school currently housed in the Lakeview Center, slated for demolition.	NOE	
2008028043	Estero Americano Watershed Dairy Enhancement Projects 2007-2008 Gold Ridge Resource Conservation District (GRRCD) --Sonoma This is a stormwater management and manure management dairy enhancement project. The project involves the installation or repair of ~600 ft. of gutters and the replacement or installation of associated drainage culverts to direct runoff away from the dairy facilities. The project also involves installing ~2,500 feet of pipeline to improve manure transfer and utilization, and the installation of ~4,000 ft of cross-fencing to enhance pasture management. The project also includes basic data collection and research on soils, vegetation, and manure for natural resource management purposes.	NOE	
2008028043	Estero Americano Watershed Dairy Enhancement Projects 2007-2008 Gold Ridge Resource Conservation District (GRRCD) Petaluma--Sonoma This is a stormwater management and pasture management dairy enhancement project. The project involves the installation of a lagoon agitator pump, engine drive wheel, and 9,900 ft. of irrigation pipe. The project also involves installation of ~19,000 feet of fencing and the revegetation of ~4.5 acres of denuded riparian area with native vegetation. The project also includes basic data collection and research on soils, vegetation, and manure for natural resource management purposes.	NOE

	events held Monday through Sunday 6:00 pm to 10:00 pm. These events will consist of 85 special events per year with a maximum of 90 guests. These events will be held indoors and valet parking will be provided to accommodate the guests. The winery will also participate in the three annual events required for membership in the Temecula Valley Winegrowers Association. These events average 175 persons per day, with an estimated 50 vehicles per day.		
2008021025	Middle College High School San Bernardino City Unified School District San Bernardino--San Bernardino The San Bernardino City Unified School District proposes to construct, operate, and maintain the Middle College High School that would be a replacement for the current operation located on the campus of the San Bernardino Valley College (SBVC). The proposed site is located directly north of SBVC across Esperanza. It will serve high school students who wish to receive credit(s) for both high school and community college level coursework.	MND	03/07/2008
2008021026	Little Mountain Elementary School San Bernardino City Unified School District San Bernardino--San Bernardino The San Bernardino City Unified School District proposes to construct, operate, and maintain a new education facility, Little Mountain Elementary School, to assist in the relief of overcrowding at the District's elementary schools as well as to provide for future growth. The proposed project includes the acquisition of 6.74 acres of undeveloped land, and the planning, construction, and operation of the proposed project.	MND	03/07/2008
2008022029	Advanced Data Center 69-kV Line Project Sacramento Municipal Utility District Sacramento--Sacramento Construct and operate a 2,400 foot 69-kV double-circuit subtransmission power line. The line will serve a dedicated substation for Advanced Data Center (ADC) located in Building 637 at McClellan Park. The subtransmission line would be constructed on the east side of Winters Street from North Avenue to 400 feet north of McClellan Park Drive, and along the north or south side of McClellan Park Drive for 1,300 feet to the ADC substation.	MND	03/07/2008
2008021024	Academy of Our Lady of Peace San Diego, City of San Diego--San Diego The Environmental Analysis Section (EAS) of the Land Development Review Division has conducted an Initial Study for the Academy of Our Lady of Peace Expansion. The project requires discretionary approvals including: a City Planned Development Permit, a Site Development Permit, and Conditional Use Permit to amend CUP/RPO #92-0769. The CUP amendment would allow a maximum annual enrollment of 750 students; construction of a 21,770 square foot, two-story classroom; and construction of two-level parking on a current surface parking area. The Amendment would also allow an 8-foot street side setback along Copley Avenue, where a 10-foot street side setback is required, 91 parking spaces when 128 spaces are required, and increased building height of the classroom building of 37 feet, 6 inches where 30 feet is allowed. Based on the description and potential environmental impacts associated with the proposed project, staff has determined an Environmental Impact Report (EIR) is required for the following issues areas: Aesthetics/Neighborhood Character, Biological Resources,	NOP	03/07/2008

2008021027	Westlake Community Plan Los Angeles City Planning Department Los Angeles, City of--Los Angeles The Westlake Community Plan (Community Plan) is one of 35 Community Plans which comprise the Land Use Element of the General Plan.	NOP	03/07/2008
2008021028	Prefumo Creek Commons Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo The project is a proposal to annex and develop a 33-acre site known as the "gap" property at 11980 Los Osos Valley Road, just south of Pacific Beach High School. Approximately 19 acres of the site would be zoned for Commercial-Retail (C-R) while 12.5 acres would be open space. The retail portion of the site would be developed with approximately 163,139 square feet of commercial space with eleven separate tenant spaces (ranging from 3,500 to 68,639 square feet). A total of 844 on-site parking spaces are proposed to serve the commercial development. Additional improvements include an extension of Froom Ranch Way eastward from Los Osos Valley Road to Prefumo Creek. In the future, a bridge would be constructed over Prefumo Creek to provide access to properties to the east. The project site would be directly accessed from Los Osos Valley Road as well as from the extension of Froom Ranch Way. As part of the project, the applicants are proposing to remove existing mature riparian vegetation, excavate, and widen approximately 500 feet of the east bank of Prefumo Creek to increase floodwater conveyance along this section of creek. A habitat restoration plan is proposed to replace native riparian vegetation and enhance the creek. The proposed 12.5 acre open space area on the east side of the creek is currently planned to be dry-farmed, but could potentially be subject to future irrigation.	NOP	03/07/2008

	<p>Inyo County, eastern-central California. The proposed project is located approximately 5 miles south of the community of Lone Pine and approximately 61 miles south of the City of Bishop. The primary goal of the proposed project is to continue to reduce dust emissions from the dry Owens Lake bed by implementing all Owens Lake bed fine particulate matter (PM10) control measures by April 1, 2010 pursuant to the revised 2008 State Implementation Plan (SIP) to achieve the National Ambient Air Quality Standard (NAAQS) for PM10. The Great Basin Unified Air Pollution Control District has identified eight objectives to achieve the goal of the proposed project.</p>		
2007041126	<p>California Avenue Widening University of California, Irvine Irvine--Orange</p> <p>The proposed project would widen California Avenue, between Bison Avenue and Academy Way, to convert the existing two-lane road into a four-lane road, with two lanes in each direction and a center median. A traffic signal and left-turn pockets will be installed at the intersection of California Avenue/Academy Way, to improve the level of service. Right-turn lanes will be added within improved and/or cleared right-of-way, at the intersection of California and Bison, to improve traffic flow. A striped bicycle lane will be provided along the northbound side of the street.</p>	NOD	
2007051148	<p>Environmental Protection Corporation - Approval of Remedial Action Plan Toxic Substances Control, Department of Bakersfield--Kern</p> <p>The Department of Toxic Substances Control (DTSC) has approved a Remedial Action Plan (RAP) for cleanup of the former Environmental Protection Corporation, Eastside Disposal Facility located in Bakersfield. The RAP has been prepared in accordance with the California Health and Safety Code, Sections 25356.1 (h) and 25187 and the evaluation of remedial actions is consistent with the National Contingency Plan. Chevron is conducting the site cleanup under the requirements of California Health and Safety Code, sections 25355.5 (a)(1)(B) and (c), 25358.3(a), 58009 and 58010. The RAP proposes to remediate the Site by installing a monofill cap over the surface impoundments, recording a deed restriction and conducting long-term monitoring. Long-term monitoring includes monitoring of the cap, groundwater, surface water and air emissions and maintaining site security. The project RAP and Health Risk Assessment are incorporated by reference.</p>	NOD	
2007111112	<p>Glenoaks Fire Station Riverside County Temecula--Riverside</p> <p>The County of Riverside Department of Facilities Management (County) has proposed the acquisition of approximately 21.96 acres of property and the subsequent construction and operation of the Glenoaks Fire Station on approximately two acres, with the remaining approximately 20 acres becoming part of the County's land bank. The Riverside County Fire Department operates three different types of fire stations, Rural, Urban, and Heavy Urban. Although the Glenoaks Fire Station will be constructed as an Urban Station, the Initial Study analyzed it as if it were a Heavy Urban Station to allow for the expansion of the facility without the need for additional environmental documentation. Heavy Urban Fire Stations are typically staffed by 16 people and have approximately 8,000 square feet of interior space, which includes living areas, offices, a lobby, eight bedrooms, each of which can accommodate two people, bathrooms, a dayroom, a dining area, kitchen facilities, and a gym or other area for exercise. In addition,</p>	NOD

(Arens), to transfer hazardous waste from a disabled tanker truck into another tanker. The permit allows 2770 gallons of used oil (90% petroleum and 10% water) and 320 gallons of used antifreeze (50% glycol and 50% water), to be transferred from one tanker truck to another. The tanker was found to need repairs to the rear axle at the Arens place of business in Benicia, California. The tanker cannot be driven or towed until the hazardous waste is offloaded. Arens does not hold a hazardous waste facility permit for this activity at the location where the transfer would take place. The permit is effective from February 8, 2008 to February 11, 2008.	NOE

2005061056	Marina Station Specific Plan Marina, City of Marina--Monterey Land that will include 1,360 residential units, 651,624 square feet of business park space, 143,808 square feet of office space, and 60,000 square feet of commercial space. Entitlements include a General Plan Amendment, Rezone, Development Agreement, and Vesting Tentative Subdivision.	FIN	
2006072026	Wal-Mart Walters Road Project Suisun, City of Suisun City, Fairfield--Solano The City of Suisun City has prepared a Draft EIR to consider the potential environmental effects of the proposed Wal-Mart Walters Road Project (generally located on the northwest corner of Walters Road and State Route 12, Suisun City, CA). The proposed project requires the approval of a Site plan and Architectural Application No. 06-08, Parcel Map 06-02, Sign Application No. 06-04, and Encroachment Permits to Local Streets. The project consists of approximately 230,000 square feet of commercial activities on approximately 20.1 acres.	FIN	
2007124002	MQ-1 Launch and Recovery Element Training Operations at Southern California Logistics Airport U.S. Air National Guard Victorville--San Bernardino Proposed project would consist of the lease of a 1.67-acre parcel at Southern California Airport (SCLA) for the establishment of a Launch and Recovery Element training site for a Predator unmanned aerial vehicle training mission that would be implemented by the 163rd Reconnaissance Wing (163 RW), a California Air National Guard unit. Ultimately at SCLA, a 25,000 square foot purpose-built facility, meeting requirements for hangar, administrative, and classroom space would be constructed. Until the construction of a purpose-built facility, the 163 RW would lease an existing hangar facility and utilize 2 to 3 modular buildings for office, administrative, and classroom space. No changes to personnel levels would result from or be required to facilitate the proposed action.	FON	
2007092061	Wohler-Mirabel 12 kV Powerline Undergrounding and Overhead Powerline Modifications Project Sonoma County Water Agency --Sonoma The project would include installation of an alternate underground power line and modifications and/or removal of the existing overhead electrical power transmission lines from the Agency's Wohler substation to the Agency's pumphouses and generators at the Mirabel facility. The underground electrical power lines would consist of concrete encased nonmetallic 12 kV conduits	MND	03/10/2008

2008022034	Use Permit 07-032 (Hawes River Acres) Shasta County Anderson--Shasta The request is for a 146-foot wireless communication tower. The tower is proposed as a lattice-type structure and with the appearance of an agricultural windmill. Sixty antennas attached in rows of twelve in five locations on the lattice is the maximum amount of co-location proposed by the applicant. The blades of the windmill are 14 feet in diameter and will rotate in the direction of the wind.	MND	03/10/2008
2008022036	Use Permit 04-005-(Schmitt) Shasta County Redding--Shasta The request is for design review of the development for an approximately 10,000-square foot warehouse building. In addition to the construction of the warehouse/storage building, the development would include the construction of a parking area and landscaping, a commercial driveway encroachment, water service connections, and fire hydrants as specified by the Shasta County Fire Safety Standards.	MND	03/10/2008
2008022038	Tentative Parcel Map #2007-18, James and Carol Powell Yuba County --Yuba Tentative Parcel Map to create four parcels as follows for residential use: Parcel 1: 63.9 +/- acres; Parcel 2: 5.04 +/- acres; Parcel 3: 5.30 +/- acres; Parcel 4: 5.30 +/- acres.	MND	03/10/2008
2008022039	Burness Minor Land Division (PMLD T20060864) Placer County Planning Department Auburn--Placer Proposed a minor land division to create two residential parcels consisting of 4.83 and 4.88 net acres.	MND	03/10/2008
2008022040	Glenbrook Mobile Home Park (PCPM T20060698) Placer County Planning Department Loomis--Placer Proposed a tree and grading permit along with a modification to an existing Conditional Use Permit to add 16 new spaces to an existing 101 space mobile home park. A new entry monument, landscaped areas adjacent to the Auburn Folsom Road entry, a five vehicle guest parking lot, a new access road and graded pads for 16 new mobile home spaces are proposed as part of the expansion. In addition, 12 protected oak trees will be removed to accommodate the expansion.	MND	03/10/2008
2008022042	Meridian Farms Water Company Fish Screen Project Fish & Game #2 --Sutter The objective of the proposed project/action is to ensure that MFWC is able to continue diverting water for agricultural irrigation in the future and prevent entrainment of listed fish species that are present near the diversion. The proposed project/action involves consolidation of the pumping facilities, construction of new improvements in two phases including construction of improved pump stations and conveyance pipelines, rehabilitation of the Main Canal and Grimes pipeline, and installation of new fish screen structures for the new water diversions to satisfy CDFG and NMFS design criteria.	MND	03/10/2008

<u>Documents Received on Friday, February 08, 2008</u>			
2008022043	Proposed Alternative Education School (5.06 acres) - 1013 S. Yosemite Ave. in Oakdale, Stanislaus County Stanislaus County Oakdale--Stanislaus The Stanislaus County Office of Education (SCOE) has an immediate need to construct classrooms (approximately 5 alternative high school and 2 special education classrooms) for their alternative education school to be located in the southern part of the City of Oakdale. The alternative school is anticipated to have approximately 214 students. Students would attend classes at this school during the hours of 8:00 am to 1:30 pm on weekdays.	MND	03/10/2008
2008021029	Stonehouse Homes Sierra Madre, City of Sierra Madre--Los Angeles The proposed project involves the subdivision of 24.67 acres of the 102.56-acres project site into 22 single-family lots. The subdivision proposes to use only the lower one-third of the property to create 22 residential lots, two private roads, and a debris basin within the 1989 Hillside Management Zone (HMZ) boundary. Over two-thirds of the property will remain open space. No homes are currently proposed, however it is expected that the subdivision would eventually be developed on a lot-by-lot basis.	NOP	03/10/2008
2008022031	Scotts Valley Town Center Specific Plan Initial Study Scotts Valley, City of Scotts Valley--Santa Cruz The Scotts Valley Town Center Specific Plan would include development of a pedestrian friendly downtown and civic center. The project would consist of commercial retail uses, mixed-use buildings, multi-family housing, parking structures, a town green/plaza, library, and possibly a court house.	NOP	03/10/2008
2008022037	The Gallery at Central Park: 900 Kiely Boulevard Santa Clara, City of Sunnyvale--Santa Clara The applicant is requesting approval for a Planned Development Master Community (PD-MC) zoning district, a vesting tentative map, and a development agreement to allow for a mix of densities and residential-type homes. Approval of the PD-MC zoning district, vesting tentative map, and development agreement would provide a mix of residential units and open space uses on the project site. The PD-MC zoning district is intended for mixed use developments on a site greater than 25 acres and establishes regulations that are compatible with the existing community.	NOP	03/10/2008
2008021030	Glendale City Lights Glendale, City of Los Angeles, City of--Los Angeles Development of a 68-unit multi-family affordable rental housing.	Neg	03/10/2008
2008021033	PM068814/RENT200700022 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is an application for a Tentative Parcel Map to subdivide the subject property to build two single-family residences. The project proposes one septic system for each lot and will not require grading. The project site is vacant and will take access from Saddle Peak Road. Water service to the project site will be served by the Los Angeles County Waterworks District #29.	Neg	03/10/2008

2008021035	North Monterey County Unified School District Transfer of Territory Monterey County Marina--Monterey The proposed project consists of the transfer of territory from the North Monterey County Unified School District (NMCUSD), in Monterey County, to the Monterey Peninsula Unified School District (MPUSD), in Monterey County. No residences (and therefore no student populations) are currently located on the project site. The proposed transfer involves approximately 336 acres, and upon transfer, the physical boundaries of the affected school districts would change accordingly. The Transfer Project consists of three parcels of property commonly known as Armstrong Ranch, Marina United Methodist Church, and Marina Coast Water District (MCWD) Well Site No. 12. The majority of the Transfer Project is proposed for the development of 1,360 new residential dwelling units in the City of Marina, in a project commonly known as Marina Station.	Neg	03/10/2008
2008022035	Parcel Map 07-034-(Lyford) Shasta County --Shasta The project is a three-parcel residential land division. The division will result in the creation of two 6,000-square foot lots and a 7,000-square foot lot. One of the 6,000-square foot lots contains an existing single-family residence. Improvements associated with the project will be limited to the construction of driveway encroachments, water and sewer connections for the undeveloped parcels, and installation of fire hydrants consistent with fire safety standards.	Neg	03/10/2008
2008022041	Lewis Rezone Sacramento County --Sacramento A rezone from AG-80 to AG-40 of approximately 250 acres.	Neg	03/10/2008
2008022044	Oak Woodland Management Plan (OWMP) El Dorado County Planning Department Placerville--El Dorado The OWMP is the first component of the Integrated Natural Resources Management Plan (INRMP) that is required by the County's 2004 General Plan Measure CO-P and Policy 7.4.2.8. The objective of the OWMP is to provide the County with a planning tool for the conservation of oak woodland resources. The OWMP outlines the County's approach for conserving its valuable oak resources and identifies specific oak woodland conservation areas and methods for the County to implement an oak woodland ordinance that fulfills the requirements for the General Plan and EIR. <u>Documents Received on Friday, February 08, 2008</u>			
2008028058	Mendocino K-8 School Reconstruction and Modernization Mendocino Unified School District --Mendocino Modernize existing facilities and construct new buildings to integrate middle and elementary schools into a single campus. Portables and other buildings to be removed resulting in reduction of square footage from 79,895 to 45,595 square feet. Upgrade internal infrastructure and reconstruct playfield areas in western part of campus for sports activities. Improve drainage system by installation of vegetated swales and use of existing detention ponds/sediment basins.	NOE	
2008028059	Christerson Staircase, Lake Almanor (1600-2007-0425-R2) Fish & Game #2 --Plumas Installation of a new metal staircase with concrete footings to access a boat dock on the lake shore.	NOE	
2008028060	Drainage Maintenance Activities in Six Drainages; Agreement 2007-0150-R4 Fish & Game #4 Atascadero--San Luis Obispo Vegetation management to maintain adequate drainage within the channels; and revegetation and habitat enhancement.	NOE	
2008028061	Agreement No. 2007-0265-R4 - Kern River Hatchery Wells Fish & Game #4 --Kern Install five water wells, with associated sub-surface and surface equipment to deliver water from the wells to the hatchery fish ponds. Using a standard drilling rig, the wells will be installed on the upland side of a levee which separates the Kern River Hatchery property from the Kern River. A small temporary catch basin, which will be removed following well completion, will be installed at each well site to contain any drilling fluids. To allow equipment access to the drilling sites, minor trimming of riparian trees and shrubs will occur.	NOE	
2008028062	Green Fields of Golden Sierra Black Oak Mine Union School District Placerville--El Dorado Provision of public funds will cover a portion of the costs associated with replacing the grass field and dirt running track at Golden Sierra High School, using new synthetic surfacing products made from recycled tires. Replacement of the grass field/track will protect the adjacent Empire Creek, a tributary to the South Fork American River, by reducing sediment and nutrient runoff from the playing surfaces. Monitoring done at the site indicates that chemical constituents found in the creek likely come, in part, from the fertilizers and insecticides used in maintenance of the grass field that run off into the creek during storm events. Use of the new surface will eliminate the need for these and other chemicals and will save an estimated 2,000,000 gallons of potable water a year, currently provided by the local water district for upkeep of the field. Physical education classes, league sports participants and members of the community who use the field/track will benefit from the reduction in chemicals and erosion and improved air quality due to elimination of track dust, and the landowners along the creek, along with plant and wildlife in the area, will benefit from a reduction in chemical constituents in the water and air.	NOE

2005031013	South Los Angeles Area New High School No. 3 Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project is the development and operation of the South Los Angeles Area New High School No. 3 within LAUSD's Local District 7. The proposed project consists of multiple three- to four-story buildings, encompassing approximately 193,000 square feet for 2,025 students in grades 9 through 12. Proposed facilities include 75 classrooms, library/media center and multipurpose room, food services, associated support facilities, an underground parking structure, and a football stadium with 1,500 total seats. In addition, the proposed campus would include other hardcourts and playfields, which may include field lights. The proposed project may also provide evening adult and continuing education programs, which would operate Monday through Thursday, outside of normal school hours (after 3:00 pm). Fifteen classrooms would be set aside to accommodate this component of the proposed project.	FIN	
2006092057	Geotechnical Investigations for the I-80 Across the Top Bus/ Carpool Lanes Project Caltrans #3 Sacramento--Sacramento Caltrans proposes to add bus/carpool lanes in the median of Interstate 80 (I-80) in Sacramento County from the Sacramento River to Longview Drive (PM 5.2). This project includes subsurface test drilling at the Natomas East Main Drain Canal (NEMDC) bridge east of Northgate Boulevard.	FIN	
2007051120	San Jacinto Wildlife Area Habitat Restoration Fish & Game #6 --Riverside The original lands were purchased as mitigation for loss of wetlands under the State water project. The project site consists of existing seasonal and semi-permanent wetland units and their associated upland habitats. Former agricultural land currently fallow will also be developed into wetland habitat. The project includes enhancement of 239 acres of existing wetland habitat and creation of 343 acres of new wetlands and associated upland habitat on previously leveled agricultural lands that are currently fallow or used for waterfowl crops. 2008021042	Thoreson Sand Mine and Reclamation Project (CUP06-014) Merced County --Merced The proposed project for a conditional use permit (Thoreson CUP Application No. 06-014) to remove sand from a 6.9-acre site in Merced County, north of the Merced River on El Capitan Way near the community of Cressey. The site is currently fallow pasture with horse corrals occupying roughly one acre of the site. The proposed project would remove approximately 75,000 cubic yards of sand and/or aggregate from the project site within a five-year period, ending in 2012. The maximum depth of mining activities would be approximately 14 feet below the existing ground surface. The excavation activities, however, would not result in a "pit" or depression but would instead lower an existing "bench" area to approximately the elevation of a lower river terrace. Excavation would be carried out with a single front loader and excavator and would be hauled off-site. No on-site processing of materials is proposed under the requested CUP.	MND	03/11/2008
2008021043	Vegetation and Sediment Maintenance Program at Little Panoche Detention Dam Water Resources, Department of Los Banos--Fresno An annual maintenance program will be established at the LPDD and will be conducted by DWR's Civil Maintenance Branch of the San Luis Field Division Operations and Maintenance. Work will include the removal of vegetation and sediment from: the spillway of LPDD, the creek, and the Dam face. This work will be conducted approximately once every three to five years from August to October, depending on the rate of vegetation growth and/or sediment deposition, in order to maintain the structural and design integrity of LPDD. The overall term of this maintenance program will be 10 years.	MND	03/11/2008
2008021045	Opportunistic Beach Fill Program in the Cities of Encinitas, Solana Beach, Coronado, and Imperial Beach Coronado, City of Coronado--San Diego The proposed project involves beach replenishment at specific beach receiver sites in the cities of Coronado, Encinitas, Imperial Beach, and Solana Beach. SANDAG data related to sand transport, nearshore resources, and project monitoring results were utilized to proactively design opportunistic projects within each jurisdiction that would be most environmentally sensitive, and not cause significant environmental impacts. For each location, known offshore resources and the results of prior beach nourishment projects were used to define maximum quantity of sand, placement location, and appropriate grain composition, thereby avoiding impacts to offshore environmental resources, and other resources. It is anticipated that opportunistic sand would be provided by sand from local contribution within each cities' jurisdiction for their associated receiver site(s), brought to the receiver sites by trucks, and placed by appropriate earthmoving equipment to achieve the proposed design.	MND	03/11/2008

2008022049	Sandhouse Passing Lane and Sandhouse Chain On Area Caltrans #2 --Trinity Caltrans proposes operational and safety improvements to this segment of State Route 299, which include constructing a westbound passing lane, a westbound chain-off area, eastbound chain-on area, and increasing the road width to accommodate FHWA passing lane design standards near the Caltrans Buckhorn sandhouse at the above location. The proposed scope of work includes widening existing highway westbound lane approximately 35 feet, along the north side of the existing road. This will provide for a westbound passing lane, an illuminated chain-on area adjacent to a portion of the eastbound lane, eight-foot shoulders at the edge of each traveled way and 30 feet clear recovery zone adjacent to the westbound ETW. In addition, culverts will be extended and the drainage will be improved on the north side of the road, guardrail installed and signing and striping upgraded to meet current standards.	MND	03/11/2008
2008022050	Pump Station Improvements in Pressure Zones 2 and 3 (CIP 06-6101) Dublin San Ramon Services District Dublin--Alameda The proposed project consists of the renovating six pump stations (three in each of Pressure Zones 2 and 3) to assure reliable service to our customers in Western Dublin and improve operational efficiency. Major upgrades at four pump stations and minor modifications at two additional pump stations. The project's sites are either located within Public Right-of-Ways, easements, or properties owned by the Dublin San Ramon Services District (DSRSC).	MND	03/11/2008
2008022056	Durham Pentz Road/Butte Campus Drive Intersection Improvements Butte County Oroville--Butte The project is intended to improve safety and flow conditions at the Durham Pentz Road/Butte Campus Drive intersection. Improvements would bring intersection up to current design and safety standards, including compliance with the Americans with Disabilities Act. The project applicant proposes to install an eight phase, traffic-actuated signal system and to install/improve curb, gutter, sidewalk, tie-in pavement, advance warning signs, pavement markings and drainage facilities.	MND	03/13/2008
2005012035	CSU - Stanislaus Physical Master Plan Update Program EIR California State University, Stanislaus Turlock--Stanislaus The project is an update to the existing California State University, Stanislaus Campus Physical Master Plan. It should be noted that the Planned student population or Full-Time Equivalent (FTE) students remains at 12,000 or an enrollment of 15,000 students as was contained in the 1968 Physical Master Plan. The present (2007) campus population is 6,910 FTE.	NOP	03/11/2008
2008021036	I-5 Corridor Improvement Project (I-605 to I-710) Caltrans #7 Commerce, San Fernando, Montebello, Downey, ...--Los Angeles The project consists of widening I-5 to accommodate High Occupancy Vehicle (HOV) lanes and/or general purpose lanes. Depending on the alternative selected, the project may also include reconstruction of the I-605 and I-710 interchanges.	NOP	03/11/2008

	educational needs of the rapidly growing population within the District. Therefore, District proposes to construct and operate the David G. Millen school to serve approximately 1,100 students at full build-out.		
2007041027	Huntington Beach Senior Center Huntington Beach, City of Huntington Beach--Orange The proposed project would include a new one-story senior center (~ 45,000 sq. ft.) on an undeveloped portion of Central Park. Access to the facility will be provided from Goldenwest Street/Talbert Avenue. The senior center will include multi-purpose rooms/community hall, group exercise room, fitness room, arts/crafts room, multi-use classrooms, kitchen, dance room, lobby, administrative area, outdoor patio and outdoor recreation/activity area. Approximately 227 parking spaces will be provided for visitors and City vehicles. The 5-acre project site is located within the 356-acre Huntington Central Park and generally located southwest of the intersection of Goldenwest Street and Talbert Avenue between the disc golf course, which is at a higher elevation and the Shipley Nature Center.	FIN	
2007062014	Fernandez Minor Subdivision and Secondary Dwelling Unit (SDU) or Guest House Humboldt County Community Development Services --Humboldt A minor subdivision to divide an approximate 26.6 acre parcel into two parcels of approximately 10.1 acres and 16.5 acres. The property is developed with three single family residences. One of the residences on proposed Parcel 1 was placed without Building Permits and is a violation. The subdivision approval is conditioned on one of three of the following options occurring prior to recordation of the map: (1) the removal of this unit in the event that the Commission cannot make the required Secondary Dwelling Unit (SDU) findings per §314-87.1, HCC; (2) an approved exception to the Fire Safe Ordinance, §3112-11, limiting dead-end road length which would allow the SDU to remain; or (3) the Commission's approval of the conversion of this unit to a Guest House per §314-75.1, HCC, if the findings for an SDU are not made. The necessary Fire Safe sections addressing dead-end road length do not apply to Guest Houses. The existing residences are served by on-site water and sewage disposal. The site is heavily constrained by access issues. A Fire Safe exception has been sought and granted for the substandard width per §3112-3 of the Fire Safe Ordinance. Other than the Eel River located more than 1,000 feet to the southwest, there are no known creeks or other wet areas on or adjacent to the site and existing development.	MND	03/13/2008
2008021044	Sanderson Avenue Widening San Jacinto, City of San Jacinto--Riverside Widen approximately 3.5 miles of roadway from two lanes to four lanes with a painted center divider, and relocate existing utilities as needed.	MND	03/13/2008
2008022060	Somerset Place Santa Rosa, City of Santa Rosa--Sonoma The project consists of a subdivision of an existing 2.89 gross acre parcel into 32 lots, to be developed with attached rowhouses. The residential density of the project would be 11.1 units/acre. Lot sizes vary from 2,326 square feet to 4,380 square feet. Three two-story models would be developed: 16 units built at 1,300 square feet (3-bedroom units); 8 units built at 1,536 square feet (4-bedroom units); and 8 units built at 1,788 square feet (4-bedroom units). All units would be	MND	03/13/2008

	provided with two-car tandem garage parking. City sewer and water services are proposed to all lots. Access would be taken from Dutton Meadow via Birch Meadow Street (new construction), along with construction of a segment of Tuxhorn Drive. The latter would be extended to Dutton Meadow when the adjoining lands to the north are developed.		
2008022067	Community Presbyterian Church - DP 2007-06, LUP 2007-16 & TR 2008-03 Danville, City of Danville--Contra Costa Development Plan, Land Use Permit, and Tree Removal Permit to allow the construction of a new 18,770 +/- square foot youth ministry addition, the removal of an existing 3,688 +/- square foot Ministry Center building and the construction of a new 3,350 +/- square foot house the Fellowship Room and Narthex area (resulting in a net of 18,432 +/- new square feet), a net addition of 45 parking spaces, including a proposed new parking lot across the street at the corner nearest Diablo Road, the reconfiguration of the existing parking lot, and the loss of existing parking in the location of the proposed new youth ministry building, the increase of school attendance, kindergarten through 8th grade, from 308-400 students, circulation modifications, and landscape improvements. The request would also result in the removal of a total of 67 trees, including 13 Town-protected trees.	MND	03/13/2008
2008022068	ED 07-18, UP 07-17 Rite-Aid Anderson, City of Anderson--Shasta The proposed project consists of an environmental determination and the review and approval of a use permit (UP) 07-17 to construct a 17,340 square foot retail building with drive through window and an above height pylon sign.	MND	03/13/2008
2008022069	Annie's Glen Bicycle and Pedestrian Facilities (City of Chico Capital Project No. 50064) Chico, City of Chico--Butte The City proposes to develop two adjoining perpendicular sections of bike/pedestrian facilities in Lower Bidwell Park serving Annie's Glen and Camellia Way Picnic Area to improve connectivity through the park and to provide a safe route for students attending neighboring schools. Specifically, approximately 2,000 linear feet of pathway reconstruction, including a new underpass at Pine Street, will be developed generally parallel with the Big Chico Creek. An approximately 200 foot perpendicular section of pathway, inclusive of a clear-span bicycle/pedestrian bridge facility constructed over the creek and located entirely out of the ordinary high water mark, will also be developed. Construction of the two alignments and their associated improvements would occur over the course of up to two construction seasons.	MND	03/13/2008
2008022070	Dennis Wendt Industrial Conditional Use Permit (CUP) Humboldt County Community Development Services Rio Dell--Humboldt A Conditional Use Permit over five parcels under the same ownership to be developed with industrial storage and warehousing uses. These allowed uses include: storage of heavy equipment and fill materials for Caltrans and/or County of Humboldt or other public agency; Warehouse, Storage and Distribution uses as defined in Section 314-172.10; and Research/Light Industrial uses as defined in Section 314.175.3 of the Zoning regulations which do not involve customer traffic	MND	03/13/2008

	or excessive water/sewage disposal needs. All future Building Permits will require the issuance of a Flood Elevation Certificate as the site is completely within Flood Zone "A", areas of 100-year flood. All future development will require the development of on-site water sources and sewage disposal systems to be permitted at the time of Building Permit issuance. The Conditions of Approval will require the submittal of a development plan which will require individual landscaping, parking and plans of operation for each use prior to commencement of each use or issuance of Building Permits. The use permit will also establish yard setbacks, lot coverage and building height requirements for these uses.		
2008022072	SFPUC Alameda Siphons Seismic Reliability Upgrade Project San Francisco Planning Department --Alameda Construction of a 3,000-foot long, 66-inch diameter potable water conveyance pipeline and seismic upgrades to existing water treatment and conveyance facilities.	MND	03/13/2008
2008024001	Proposed Construction and Operation of a Mail Processing Facility in Aliso Viejo, California U.S. Postal Service --Orange The proposed project will improve regional mail handling logistics, expand delivery point processing capabilities and provide more efficient mail delivery service in southern Orange County.	NOI	03/13/2008
2006081043	City of Arvin Enterprise Zone Arvin, City of Arvin--Kern The City of Arvin (collectively, "project proponents") is requesting the establishment of a California Enterprise Zone. The State of California approved the Enterprise Zone Act, establishing a mechanism to stimulate employment and business growth in economically distressed areas throughout the State. The Enterprise Zone is a long-term partnership with local governments and private companies to generate new private sector investment and growth.	NOP	03/14/2008
2008021050	Yokohl Ranch Planned Community Tulare County Resource Management Agency Exeter--Tulare The project includes the phased development of the Yokohl Ranch master planned community. The 36,000 acre site would be divided into 10,000 residential units, 550,000 sf of mixed use commercial areas; public areas, and infrastructure. Yokohl Ranch would include fire and police facilities, public schools and parks.	NOP	03/13/2008
2008021052	Tajiguas Landfill Reconfiguration and Baron Ranch Restoration Santa Barbara County Santa Barbara--Santa Barbara The Tajiguas Landfill Reconfiguration and Baron Ranch Restoration Project involves a redesign of a portion of the permitted waste footprint at Tajiguas and biological restoration activities on the Baron Ranch. The proposed reconfiguration would not modify any of the existing operational parameters (e.g., refuse capacity, hours of operation, etc.) but would involve physical changes to the approved location of the waste footprint and associated disturbances. The project components include: * Removal of the in-channel sedimentation basins; * Reconfiguration of the waste footprint and associated disturbance to extend the	NOP	03/13/2008

	waste footprint west across Pila Creek and Canada de la Pila; * Reconfiguration of the waste footprint on the east side of Pila Creek in the back canyon area; * Drainage modifications within Pila Creek upstream of, and around, the reconfigured waste footprint; and * Preparation and implementation of a Restoration Plan along Arroyo Quemado Creek and a comprehensive relocation and habitat enhancement plan for the California red-legged frog on Baron Ranch.		
2008021053	National Oceanic and Atmospheric (NOAA) Southwest Fisheries Science Center (SWFSC) Relocation University of California, San Diego La Jolla--San Diego The proposed action is the relocation of the NOAA National Marine Fisheries Service's (NMFS) SWFSC at the University of California San Diego (UCSD) campus. The existing facility, built in 1964, is adjacent to a coastal bluff that is undergoing severe erosion and retreat. The proposed action is to construct a new SWFSC facility at a preferred site located across La Jolla Shores Drive from the existing NOAA facilities. A minimum of two existing at-risk SWFSC structures would be removed and the property currently occupied by NOAA returned to UCSD control for other appropriate uses. Relocation of the SWFSC will allow NMFS to continue its research collaboration with SIO and other researchers on Pacific fisheries and marine mammals.	NOP	03/13/2008
2008022063	Honda Port of Entry Richmond, City of Richmond--Contra Costa Establishment of the Port of Richmond, Point Potrero Marine Terminal as the Northern California Port of Entry for imported Honda automobiles. Auto Warehousing Company (AWC) is proposing to expand its existing operations at the Port of Richmond to develop a Northern California Port of Entry for Honda automobiles. AWC currently receives and processes Hyundai and Kia cars imported from Korea by ship. AWC, in cooperation with the Trans Development Group, is proposing to construct improvements to the Point Potrero Marine Terminal (PPMT) that would include repairs to one of the ship berths and creation of a new rail yard adjacent to the ship berths at the PPMT so that imported autos could be loaded directly onto rail cars without the current intermediary step of shuttling them to the BNSF rail yard approximately 1 mile to the north. The PPMT site is located on the southern Richmond shoreline, at the edge of the Richmond Inner Harbor. The PPMT is located at the southern terminus of Canal Boulevard, on Point Potrero, and immediately adjacent to the Harbor Channel, the primary water access to the Port of Richmond.	NOP	03/13/2008
2008022064	Winery Ordinance, County Wide Ordinance Update El Dorado County Placerville--El Dorado The County Zoning Ordinance is proposed to be amended to establish provisions for the construction and operation of wineries and accessory uses., Accessory uses include tasting rooms, retail sales, commercial kitchens, and various categories of special events that could result in assembly of up to 250 persons at one time. The proposed Zoning Ordinance dated September 11, 2007 is the "project description." The proposed ordinance establishes provisions for winery and accessory uses based on the lot's zoning, general plan designation, size, and vineyard acreage.	NOP	03/13/2008

2008022065	<p>General Plan Amendment GP07-0002/Zoning Amendment ZA07-0001/S-Zone Review SZ08-0002 Milpitas, City of Milpitas--Santa Clara</p> <p>The project proposes to change the General Plan land use designation on the site from General Commercial to Very High Density Mixed-Use. The proposed General Plan land use designation, Very High Density Mixed Use, is intended to allow development of a true mixed use area with retail, restaurants, and services on the ground floor, and residential or office uses on floors above.</p> <p>The proposed project would rezone the site from C2- General Commercial to a base zoning of MXD3- Mixed Use. The proposed rezoning would allow construction of a mixed-use residential and commercial development of up to 175,000 square feet of commercial space and a maximum of 673 residential units (40 du/acre per gross acre). The project also proposes the option of constructing a 380 room hotel in place of 205 dwelling units, which would result in a maximum of 468 residential units on the site. The proposed development would be constructed in five phases with a total of six structures on the site at buildout of the project. The existing 99 ranch market would be retained at its current size in its existing location, with aesthetic renovations to the facade facing the main entrance plaza. The phasing of the development is structured to keep as much retail space operational as possible throughout the duration of the construction on the site and to allow shop owners to relocate on the property.</p>	NOP	03/13/2008

2008022074	Use Permit Application No. 2008-03 - Delaney Aggregates Stanislaus County --Stanislaus This is a request to operate a gravel and sand extraction enterprise on a parcel under Williamson Act Contract located in the A-2-40 zoning district. The applicant has included a reclamation plan for 80 acres of the total 205-acre site. Forty-one acres of the proposed 80-acre project site would be utilized for the extraction of aggregates and the remaining 39 acres would be utilized for the purposes of setbacks and boundaries planted with native vegetation. The applicant anticipates a maximum of 1.5 million cubic yards of sand and gravel with a yearly average of 150,000 cubic yards over a 10 year period. The proposed project would employ approximately 6 employees directly and 20 employees indirectly (truck deliveries, etc.). The project would have approximately 25 daily truckloads and would operate between the hours of 6 am and 6 pm, Monday-Saturday. Equipment utilized for the proposed project would include 1 excavator, 4 front end loaders, 2 off-road dump trailers, and 1 large tractor.	CON	03/03/2008
2005102122	San Rafael Rock Quarry Amended Quarry Permit and Amended Reclamation Plan Marin County San Rafael--Marin The Draft EIR is a combined Draft EIR for two closely related project applications for the San Rafael Rock Quarry; an Amended Reclamation Plan and an Amended Surface Mining and Quarry Permit. The project sponsors propose to amend the quarry permit to facilitate continued quarrying operations within certain areas of the site, including blasting, excavating from the Main Quarry Bowl, and they propose to amend the existing Reclamation Plan approved for the quarry pursuant to the Surface Mining and Reclamation Act of 1975 (SMARA) (Amended Reclamation Plan ARP82 approved by the County in 1982).	EIR	04/14/2008
2006051074	San Luis Rey River Park Master Plan Project San Diego County Fallbrook, Oceanside--San Diego The County of San Diego Department of Parks and Recreation is proposing to establish a River Park along the San Luis Rey River corridor. The principle function of the Park would be the conservation of sensitive resources. However, the Park is also intended to fulfill community and regional recreational needs and therefore incorporates recreational use areas.	EIR	04/01/2008

	general public of the city's broad planning goals, policies, and objectives, as well as specific development standards for the Community Plan area. The Community Plan would allocate land for the range of uses that the community will need through 2030, including land for housing, jobs and, recreation, and would improve the link between land use and transportation in a manner that is consistent with the General Plan Framework Element, the Citywide growth strategy. The Community Plans goals, objectives, policies and programs are specific, action-oriented ideals that the City will promote for the duration of the Plan.		
2008021062	Canyon Lake Redevelopment Project Area Plan Canyon Lake, City of Canyon Lake--Riverside The project involves the adoption fo the Canyon Lake Redevelopment Project Area. The Plan will establish the basic goals, obejctives, policies and limitations for the project.	NOP	03/14/2008
2008021065	Case No. - LU04-0069 Ventura County --Ventura Hanson Aggregates West, Inc. (Hanson), formerly S.P. Milling Company, proposes to relocate its former concrete and asphalt recycling operations and sand and rock sales facility from East Vineyard Avenue to Beedy Street, approximately 0.8 mile away. The new location would occupy the 24 legal lots of Beedy Street that comprise Blocks 041 and 044.	NOP	03/14/2008
2008022076	Light Brown Apple Moth Eradiction Program Food and Agriculture, Department of --Alameda, Contra Costa, San Francisco, Marin, Solano, ... The California Department of Food and Agriculture (Department) is preparing a Programmatic EIR to evaluate effects of implementation of eradication strategies and methods for the light brown apple moth (LBAM) in portions of the state where infestations have been identified by trapping programs to date. The LBAM attacks at least 2,042 different plants including many agricultural, horticultural, and forest species of great economic and ecological value. The Department is working closely with the United States Department of Agriculture (USDA) to develop the most effective strategy and methods to achieve the overall goal of eradication of LBAM from California. Preliminary actions were undertaken as emergency actions in 2007 in the Monterey-Santa Cruz area. Additional actions are proposed for the Monterey-Santa Cruz area and the San Francisco Bay Area in 2008. Depending upon the success of these initial actions, subsequent eradication activities would be scheduled for 2009 and beyond. Because the LBAM is a new pest to the North American Continent that affects a broad range of plants (at least 2,042 plants including native plants, forest species, agronomically important crops, and ornamentals), both APHIS and the Department have taken immediate action to eradicate LBAM from California to prevent its spread to susceptible host plants throughout the United States and neighboring Mexico and Canada. The pest is prolific, and the number of generations produced in a growing season varies from one to more than four (depending on environmental conditions). Because the LBAM infestations are local or regional, the overall strategy is to eradicate the pest rather than control. A final Action Plan was approved on February 8, 2008.	NOP	03/14/2008

2008028102	Santa Rosa Island, Bechers Bay Pier Replacement Project Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo --Santa Barbara This project proposes to replace the existing pier in Bechers Bay on Santa Rosa Island. The new pier will be the same length and remain within the original footprint of the existing pier. All existing piers will be replaced with protective coated steel piles of larger diameters. The deck height of the pier will be increased by seven feet to avoid winter storm damage. The end of the pier will be widened from 40 to 50 feet, but the remainder of the pier will be 20 feet wide. The new pier will have 4 platforms to provide access from boats to the pier.	NOE	
2008028103	Alexan South Main Milpitas, City of Milpitas--Santa Clara 387-unit condominium project.	NOE	
2008028104	Development Review Permit DR84-56 Minor Revision No. 3 and Minor Exception V07-03ME Santee, City of Santee--San Diego Development Review Permit DR84-56MR#3 for the construction of a 4,070 sf retail building, and Minor Exception V07-03ME to reduce the onsite parking requirement of 16 spaces to 12 spaces. A Starbucks drive through will occupy 1,764 sf within the northern suite, while the remaining tenant(s) have not been indicated at this time. The development will take place on a 0.365-acre pad within the existing Mission Creek Commons center.	NOE	
2008028105	Domestic Outfall Sewer Emergency Repair Project Lodi, City of Lodi--San Joaquin The work includes rehabilitating ~22,000 LF of existing 48" diameter reinforced concrete pipeline that conveys an average of 6.5 million gallons of daily wastewater flows to the City's Wastewater Treatment Facility. The pipeline is severely corroded and must be repaired to re-establish structural integrity and reliability.	NOE	
2008028106	Taylor Ranch - Arundo Removal Project Ventura County Resource Conservation District Ventura--Ventura The project will remove arundo (Arundo donax) from the banks of the Ventura River where the river crosses Taylor Ranch Property.	NOE	
2008028107	Ranch Center Road Culvert Repairs Parks and Recreation, Department of --Los Angeles Repair damaged culvert at Ranch Center Rd., access to the Point Mugu back country for patrol and emergency vehicles. The culvert exists ~1/2 mile from where Sycamore Canyon Rd. and Ranch Center Rd. meet. The heavy rainfall during the month of January 2008 has compromised the outlet sidewall of the culvert. This culvert has endured a considerable amount of erosion, due to the great volume of water that runs through it during heavy rainfall.	NOE

2008022080	Clyde Avenue TOD Project Mountain View, City of Mountain View--Santa Clara The proposed project is the rezoning of an approximately 8.9-acre site at 625-685 Clyde Avenue in Mountain View. The project proposes to rezone the site from the Limited Industrial (ML) to the Transit Zone (ML-T) district, and to receive approval of a Transit-Oriented Development (TOD) permit. The project proposes demolition of four one-story industrial buildings on the site totaling 118,080 square feet, as well as parking lots, trees, and landscaping. Following demolition and grading of the site, two four-story buildings totaling up to 192,800 square feet of office space would be built, which would be an increase of approximately 74,720 square feet of development over what is currently built on the site. The project also includes construction of driveways, parking lots, and landscaping.	MND	03/17/2008
2008022083	Lemon Street Channel Flood Reduction and Habitat Enhancement Project Vallejo Sanitation and Flood Control District Vallejo--Solano The Vallejo Sanitation and Flood Control District proposes to implement drainage improvements and habitat enhancement to the Lemon Street Channel, Lake Dalwigk, and associated stormwater control facilities. The Lemon Street Channel Flood Reduction and Habitat Enhancement Project (Proposed Project) would provide a 100-year level of flood protection to the Vallejo Mobile Estates and the Lemon Street area between 6th Street and Carlson Street, while also increasing the quality and diversity of wildlife habitat afforded by Lake Dalwigk and the Lemon Street Channel.	MND	03/17/2008
2008022085	Bond Road #5 Elk Grove, City of Elk Grove--Sacramento The proposed project includes rezoning two existing parcels, APN 127-0070-035 and 127-0070-036 (4.98 acres and 5.01 acres, respectively), from AR-5 (Agricultural/Residential - minimum five acres) to AR-2 (Agricultural/Residential - minimum two acres). The project also includes approval of a tentative parcel map which would subdivide the project area from the existing two parcels measuring approximately five acres each into three parcels of approximately two acres each plus one parcel of approximately four acres. The existing residence on APN 127-0070-035 would remain and would be located on proposed Lot 3.	MND	03/17/2008
2008022086	POST Mindego Ranch Addition to Russian Ridge Open Space Preserve Midpeninsula Regional Open Space District --San Mateo The proposed project consists of the purchase of the 1,047-acre POST Mindego Ranch property by the Midpeninsula Regional Open Space District, including the assignment of existing lease, landfill removal agreement, and escrow agreement, and the concurrent adoption of a Preliminary Use and Management Plan that prescribes a status quo approach to the continued use and management of the property for livestock grazing and open space purposes.	MND	03/17/2008
2008021070	11th Street Artist Lofts Project Santa Monica, City of Santa Monica--Los Angeles The proposed project involves the construction of a 45-foot, three-story building to accommodate 66 condominium artist studio units on a 36,187 square foot parcel located at 1639 11th Street. The building would be approximately 53,727 square	NOP	03/17/2008
