STATE CLEARINGHOUSE

NEWSLETTER

February 1-15, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2009**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, February 02, 2009</u>			
2006101004	California American Water Company's Coastal Water Project Public Utilities Commission --Monterey The proposed project is called the CWP and is being proposed by CalAM. The water supply is needed to replace existing supplies that are constrained by recent legal decisions affecting the Carmel River and Seaside Groundwater Basin water resources. The CWP would produce desalinated water, convey it to the existing CalAM distribution system, and increase the system's use of storage capacity in the SeasideGroundwater Basin. The CWP would consist of several distinct components: a seawater intake system; a desalination plant; a brine discharge system; product water conveyance pipelines and storage facilities; and an aquifer storage and recovery system.	EIR	04/01/2009
2007122066	Arroyo Vista Project Dublin, City of Dublin--Alameda The Project includes demolition of the existing 150 public housing units and construction of a mixed-income complex of up to 378 dwellings, including a mix of ownership and apartment units. The project would also include an on-site day care facility, community center, parking and private recreation facilities.	EIR	03/23/2009
2008081100	Laguna Hills General Plan Program Laguna Hills, City of Laguna Hills--Orange The project is the adoption and implementation of the City's General Plan. The GP includes 2 elements: land use, mobility, conservation and open space, community services and facilities, safety, noise, and housing, as well as an Implementation Program. The Program EIR analyzes the impacts of implementing the GP and minor Zoning Ordinance test and map amendments needed to carry out the Plan.	EIR	03/18/2009
2008111085	Proposed Amendment No. 13 to South Gate Existing Project Area No. 1 South Gate, City of South Gate--Los Angeles The Proposed Project is intended to revitalize and rehabilitate blighted areas within the proposed Added Area and allow for the comprehensive planning, redesign, and reconstruction of specific areas to facilitate increased and improved utilization of land. Proposed Plan Amendment No. 13 involves an amendment to the existing South Gate Redevelopment Project Area No. 1 to add 849.4 acres, resulting in a total of 2,032.6 acres in Existing Project Area No. 1. The Added Area associated with the Proposed Project will be comprised of ten non-contiguous subareas. Existing development within the Added Area includes industrial uses, commercial uses, and a limited amount of residential uses (single- and multi-family housing). The proposed Project includes public facility improvements, economic development and business retention, street and traffic circulation improvements, and housing rehabilitation.	EIR	03/18/2009
2009021001	Del Mar Dog Park Morro Bay, City of Morro Bay--San Luis Obispo Amendments to the Parks and Recreation Facilities Plan for the provision of the Del Mar Dog Park and development of the Del Mar Dog Park including perimeter fencing of a 1 acre area within the northernwestern portion of Del Mar Park for	MND	03/03/2009

	off-leash dogs. Existing vegetation is proposed to remain and includes managed turf and cypress trees. The hours of operation of the dog are from 7 am to sunset, coinciding with the hours of operation of Del Mar Park. The proposed improvements consists of chain link fencing, gates, signage outlining the appropriate rules and regulations including required clean up after dogs, bulletin board, sanitary mitt/bag dispenser and trash receptacles all of which are designed to be conducive for the safe enjoyment of the dog park. There is no lighting proposed. The site is 50 ft from the riparian edge of Alva Paul Creek.		
2009021003	Paso Robles Motorcoach Paso Robles, City of Paso Robles--San Luis Obispo Request to change the existing GPLU and Zoning to POS to allow for the construction of 332 Luxury RV Resort with ancillary uses such as clubhouses and pools.	MND	03/03/2009
2009021005	124 Los Aguajes Avenue Santa Barbara, City of Santa Barbara--Santa Barbara The project consists of the demolition of an existing 884 sf, single-family residence and 440 sf detached garage, and the construction of three new residential condominium units in the Appealable Jurisdiction of the Coastal Zone. The proposed structure would be three stories with a maximum building height of 30'2" consisting of 4,049 sf of residential floor area above 1,172 sf of garage floor area. The project includes 2 two car garages and a one car garage on the first floor, and a 1,525 sf 2 bedroom unit (Unit 1), a 1,432 sf one bedroom unit (Unit 2), and a 1,092 sf one bedroom unit (Unit 3) on the second and third floor. The proposed project proposes 25 cubic yards of cut and 135 cubic yards of fill outside the main building footprint. Grading under the main building footprint would involve 110 cubic yards of cut. A Coast Live Oak, measuring 2 inches in dbh, is proposed to be removed. The project also includes decks for each unit on the second and third stories and bioswales and retention basin adjacent to the proposed residences. A 25 ft native riparian landscape area, with the exception of 3 king palm trees and trumpet vine, is proposed between Mission Creek and any proposed structures.	MND	03/03/2009
2009022002	371 Los Gatos Boulevard Los Gatos, City of Los Gatos--Santa Clara Demolition of an existing convalescent hospital facility, renovation of an existing historic home (Thrash House) and construction of 19 new single family homes (20 residential units total). Property will be rezoned from R-1D:LHP to RM:5-12:LHP.	MND	03/03/2009
2009022003	Oasis Community School Expansion Shasta County Redding--Shasta SCOE proposes to add 6 modular classrooms, modular restrooms and a multipurpose building to the project site for Oasis Community School. Two additional modular classrooms are included in the conceptual design as "Potential Future Classrooms." The planned facilities would house up to 162 community school students in grades 7-12. <u>Documents Received on Monday, February 02, 2009</u>			
2009022004	Westway Terminals Project Stockton, Port of Stockton--San Joaquin The purpose of the Proposed Project is to construct and operate bulk liquid tank farm facility to accommodate the short-and long-term liquid storage needs of Westway Terminals clientele. The Proposed Project would support a larger number of industries, including agricultural, food, pulp and paper, biodiesel, and others, through the storage of a wide variety of liquids used in the processes or generated as products of these industries. Essentially, they provide a liquid warehouse to clients. Westway Terminals typically engages in longer-term agreements (one year to multi-year) with patrons seeking to transport, store, and distribute a range of liquid products.	MND	03/03/2009
2009021004	Imperial Irrigation District Administration Site EIR Imperial, City of --Imperial The project proposes to develop the easterly 29.58 acres of the approximate 80-acre site with a new ID Administration Facility to house 550 to 600 existing employees currently located at various offices in the area. The construction would consist of three buildings totaling approximately 250,000 square feet. An additional 7.0 acres of land at the southwest corner of the proposed Administration Facility site would be reserved by the ID for future expansion of associated facility buildings or activities. Additionally, a 19.7 acre parcel at the southeast corner of "P" Street and Barioni Boulevard is planned to be zoned for a neighborhood-style commercial center, typically occupied by grocery store/drug store anchor tenants and ancillary shops/restaurants. A 10-acre parcel in the center of the site along the southern boundary (abutting the Mayfield Ranch single family residential subdivision) is planned to be zoned for a civic center campus, potentially consisting of a city hall building and police/fire stations. The remaining 5.2 acre parcel at the southwestern corner of the site is planned to be zoned for regional (intercity) recreational uses, potentially including, but not limited to, a gymnasium, pool, playfield areas and/or daycare facilities.	NOP	03/03/2009
2009021002	Waste Discharge Reuirements for the Garcia Residence for an Alternative Onsite Wastewater Treatment System Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego The proposed project is issuance of Waste Discharge Requirements for the Garcia Residence's installation of an alternative OWTS. The proposed alternative OWTS is licensed by Orenco Systems Inc. as the AdvanTex Treatment System with discharge to a subsurface drip system with material manufactured and distributed by GeoflowTM. The OWTS will receive ~750 gallons of waste a day and dispose of this waste to 7500 sf via a subsurface trickle irrigation system.	Neg	03/03/2009
2009022001	Standard Center LLC Conditonal Use Permit CUP08-018(1) Tuolumne County Sonora--Tuolumne CUP08-018(1) to construct four commercial buildings, consisting of a 19, 097 sf building, a 12, 825 sf building, a 5,000 sf building and a 4,000 sf building with a drive-thru. A 20,135 fenced sideyard area for outdoor sales is also proposed adjacent to the 19,097+/- sf buildingl for a total of 40,922+/- sf of buildings exclusive of the fenced sideyard. The project includes excavation of 2,810 cubic yards of material and placement of 8.377 cubic yards of fill. Proposed parking for the project site is 188 spaces. The project site consists of 4.8 +/- net acres and is	Neg	03/03/2009

	zoned C-1 under Title 17 of the Tuolumne County Ordinance Code.		
2009022005	Latrobe Road Realignment Project El Dorado County --El Dorado The proposed project involves the realignment and widening of ~1,600 ft of Latrobe Rd. The proposed project would widen Latrobe Rd from ~24 ft to ~33 ft and would realign Latrobe Rd. to improve sight distance and roadway safety features.	Neg	03/03/2009
2006102053	2935 Telegraph Ave. (File #: ER06-0012) Oakland, City of Oakland--Alameda The Courthouse Condominuims project involves the demolition of the surface parking lot and existing building on the site and the construction of a future housing project in a building up five stories high containing up to 280,000 sf, 142 residential units, 2,900 sf of ground floor retail, open space areas, and on site parking for up to 204 automobiles.	NOD	
2007062016	Natomas Levee Improvement Program Landside Improvements Phase 2 Project Sacramento Area Flood Control Agency Sacramento--Sacramento The SAFCA is proposing implement Phase 2 of the Landside Improvements Project, an element of the Natomas Levee improvement Program. This project is divided into 3 phases for project schedule and implementation purposes: Phase 2, Phase 3, and Phase 4. Phase 2 consists of improvements along the 5.3 mile long NCC south levee and the Sacramento River east levee from the NCC south levee to 2,000 ft south of the North Drainage Canal (Reaches 1-4B), relocation of the Elkhorn Main Irrigation Canal; construction of a new canal designed to provide drainage and associated giant garter snake habitat between the North Drainage Canal and the Elkhorn Reservoir; culvert removal under Garden Highway adjacent to the former RD 1000 Pumping Plant No. 2 site; and associated activities. The elements of the proposed project include four broad, overlapping categories: 1) levee raising and seepage remediation, 2) improvements to major irrigation and drainage infrastructure, 3) habitat development and management, and 4) additional actions to meet FEMA requirements: encroachment management and bridge crossing modifications.	NOD	
2008112108	O'Brian Annexation, General Plan Amendment and Prezone and City of Roseville/Public Homes General Plan Amendment, Rezone and Lot Line Adjustments Roseville, City of Roseville--Placer Phase 1: The applicant, the City of Roseville Planning and Redevelopment Department, requests approval of an Annexation of two City owned parcels totaling 10.06+ac into the City of Roseville, a General Plan Amendment from Agriculture/Timberland 80 ac to Commercial and industrial; and a Pre-zone from F-B-X 80 ac. minimum to General Commercial and Light Industrial. Phase 2: After annexation the City proposes to process a lot line adjustment with the adjacent property to the west owned by PL Roseville (Pulte). Currently the City's parcels and Pulte's parcel are long and narrow making access and site design on both properties challenging. Pulte has agreed to adjust the property lines so that Pulte and the City will have resulting parcels with better visibility, better access and more design flexibility. The lot line adjustment with Pulte will	NOD

	also include a GPA and Rezone of the Pulte property so that the resultant lots will have appropriate zoning to accommodate a future animal shelter and a more viable commercial parcel on the corner of future Blue Oaks Blvd. and West Side Dr.		
2008122031	Alfred Sibley Santa Cruz County --Santa Cruz Proposal to divide a 34 acre parcel into two parcels of 9.45 acres and 24.5 acres, and to recognize an unpermitted residential conversion of a non-permitted barn by returning the barn residence to a non-habitable structure. The project included bringing an existing unpermitted bridge up to current code standards by widening and by other structural improvements to the bridge and the access driveways within the project site. Requires a Minor Land Division and a riparian Exception.	NOD	
2008122102	Building Site Approval & Grading Approval Santa Clara County Gilroy--Santa Clara This application is for Single Building Site Approval and Grading Approval, to construct a new single-family residence with attached garage, septic system, driveway and improvement to the existing access road. The size of the proposed single story house is approximately 4,875 square feet. The proposed residence and other associated improvements will entail grading of approximately 1,672 cubic yards of cut and 190 cubic yards of fill. The site is approximately 18.29 acres and the entire project scope covers about 3% of the lot area. The location and extent of the roadwork, along with the location of the proposed house, leach fields and other improvements are shown on plans and are on file at the County Planning Office. The site is located in the Habitat Conservation Plan area and provides aestivation habitat to a number of special status plant and animal species. Tree replacement and oak woodland habitat mitigation, is required for the 38 "oak tree proposed to be removed. Land Use Approvals necessary to construct the project include Building Site Approval and Grading Approval.	NOD

The said segment has been closed to public highway traffic since 1978 as the roadway had sustained extensive damage as a result of erosion dating from 1978 to 2005.	JD	03/19/2009
2009021006	Tentative Tract PLN07-00123 Victorville, City of Victorville--San Bernardino The development of a 293-lot-single-family residential subdivision on approximately 117 gross acres of land as well as an additional lot (lot 294) that is to be developed as multi-family residential project in the future that will be required to have a separate review through the State Clearinghouse in accord with the California Environmental Quality Act. This proposal includes approximately 86 lots between 4,000 and 5,000 square feet in area with the remaining 207 lots over 5,000 square feet in area. The lot sizes are a part of a proposed Planned Unit Development that will include on-site recreational amenities such as parks and paseos as well as a river walk within portions of the Mojave River (that is within the parcel boundaries of the site). Additionally, vehicular access to this site will be served via Stoddard Wells Road.	MND	03/04/2009
2009022006	I-80 Gold Run Crushing & Screening Project (PMPA T20080593) Placer County --Placer The project proposes to build a portable crushing and screening plant on the subject parcel to process asphalt grindings and recycled concrete materials on the project site. These aggregate materials will then be used to surface a portion of interstate 80.	MND	03/04/2009
2005071104	Lewis Operating Corp, LHC Alligator, LLC (Deep Creek) Project San Bernardino County Apple Valley--San Bernardino General Plan Amendment to change the land use district from AG-SCp (Agricultural with a Primary Sign Control Overlay) to RS-20m (Single Residential - 20,000 square foot minimum lot size). Tentative Tract Map (#16569) to create 202 single family residential lots and 6 lettered lots on 249 acres.	NOP	03/04/2009
2009021007	City of Coachella General Plan Coachella, City of Coachella--Riverside The proposed project is an update to the City of Coachella General Plan and Zoning Code. The General Plan serves as a blueprint for the City's future. It acts as a constitution for public and private development, the foundation on which City authorities will make growth and land use-related decisions. The General Plan is meant to express the City's goals with respect to both human-made and natural environments, and sets forth the policies and implementation measures to achieve them for the welfare of those who live, work and do business in the City. The General Plan is meant to evaluate the impact of the City's goals and growth	NOP	03/04/2009

	<p>quality, the Phase 3 testing will provide information to refine the existing ground water model and to evaluate the Reverse Osmosis process. The testing work will also provide information on the feasibility of using subsurface intakes to avoid marine organism entertainment and impingement impacts associated with conventional open intakes. The Applicant has performed scientific studies that predict the proposed project will not have a significant effect on fish and wildlife resources. However, per recommendation by the Dept., the Applicant submitted a Streambed Alteration Agreement Notification in the interest of opening a file for tracking and monitoring the effects of the test pumping project and for subsequent use in developing appropriate mitigation measures should the full scale ocean desalination project be implemented. (SAA# 1600-2008-0212-R5)</p>		
2008081034	<p>Sewer Forcemain Replacement Project 22nd District Agricultural Association Del Mar--San Diego The Del Mar Sewer Forcemain Replacement Project includes the replacement of an existing sewer forcemain between the DAA and the City of Del Mar Public Works Facility with a parallel 8 inch diameter HDPE pipe encased within a larger 16 inch HDPE sleeve. The project will utilize the HDD Method that involves drilling a bore ~500 feet in length and 25 ft, or deeper, beneath the bottom of the Dan Dieguito Lagoon channel. The new forcemain will be located ~500 ft to the east of the existing forcemain which will be flushed with clean water and capped to be abandoned in place. (SAA# 1600-2008-0290-R5)</p>	NOD	
2008101037	<p>San Jerardo Water System Improvement & Well Replacement Project Monterey County Salinas--Monterey An update to the sphere of influence and annexation to the Boronda County Sanitation District and Monterey Regional County Sanitation District of ~37.64 acres, and activation of the latent power of the Boronda County Sanitation District to provide potable water service.</p>	NOD	
2009029004	<p>Sewer and Water Group 689 (SAA# 1600-2008-0217-R5) San Diego, City of San Diego--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA# 1600-2008-0217-R5) to the project applicant, Edward Castaneda, representing the City of San Diego, Engineering and Capital Projects, Right of Way Division. The applicant proposes to alter the stream/lake to perform work associated with Sewer and Water Group Job 689, which will install ~9,900 linear ft of water main and water services. Project activities occurring within the stream channel consists of resurfacing a portion of the existing access road, replacing ~550 linear feet of 15 inch and 8 inch diameter sewer main, installation of new 5 ft x 3 ft and 4 ft x 3 ft sewer manholes, and a reconnection to an existing manhole. The method of installation for the sewer pipe will be both tunneling (~280 linear ft) and open trench method (~170 linear ft of 3 ft wide trench). Also in the construction area will be a 15 ft x 15 ft launching pit for trenchless installation of sewer main in the canyon. Final construction methods will be determined by the Applicant's contract; however, typical equipment includes excavator, loader, backhoe, skid steer, and tunneling equipment. Approximately 128 cubic yards of native material, fill, or combination of both will be displaced. Water is not expected to be present in the stream channel during project activity. Tunneling and micro-tunneling will be employed where possible to avoid trenching, a practice which reduces erosion potential. Erosion</p>	NOD

2009022011	<p>Bear River North Levee Erosion Sites Repair Project Reclamation District 2103 Wheatland--Yuba, Placer</p> <p>The proposed project addressed in this initial study is the repair of three erosion sites along the Bear River North (right bank) Levees (BRNL) near the City of Wheatland, BRNL is operated and maintained by RD 2103 (or District). The District maintains this and other levees within its service area that border the City of Wheatland and unincorporated land within Sutter, Yuba, and Placer Counties. The District proposes to repair the three erosion sites by reconstructing approximately 1,300 lineal feet along the levee embankment on the river side at two sites and on approximately 100 lineal feet of the levee embankment on the land side at one site to meet the US Army Corps of Engineers (Corps) levee design criteria. Repair of the erosion sites is intended to prevent more erosion and potential levee failure, to meet the safety standards identified in the Corps Levee Design Manual and Technical Letter for Engineering and Design, and to help qualify the levees for Federal Emergency Management Agency (FEMA) 100-year flood protection accreditation for the National Flood Insurance Program (NFIP).</p>	MND	03/05/2009

2009024001	Humboldt Bay National Wildlife Refuge Complex Draft CCP/ Environmental Assessment U.S. Fish and Wildlife Service Eureka, Crescent City--Humboldt, Del Norte Humboldt National Wildlife Refuge (NWR) Complex Draft Comprehensive Conservation Plan/Environmental Assessment describes conservation issues & refuge management alternatives for the 4,000-acre Humboldt Bay NWR & the 14-acre Castle Rock NWR. Humboldt Bay NWR is located on Humboldt Bay on the northwest California coast near Arcata. The refuge protects wetlands & bay habitats for fish, wildlife & plants; especially migratory birds. The Refuge includes the Lanphere Dunes Unit, one of the most pristine remaining dune ecosystems on the west coast of North America. The refugee complex also administers Castle Rock NWR, as island located less than a mile off the California coast just north of Crescent City, which supports the largest breeding population of common murres in California & provides roost for Aleutian geese during migration. 2008102022	801 - 875 Alma Street Mixed Use Project Palo Alto, City of Palo Alto--Santa Clara Requests for Planned Community Zone Change to allow a mixed use development consisting of: 2 projects located on ~1 acre of land on the north side of Alma Street between Homer Avenue (between Alma Street and High Street) and the adjacent alley from 2-way to 1-way to improve circulation, as well as a new bicycle lane on Homer Avenue, between Alma Street and High Street. An amendment to the SOFA Coodinated Area Plan II is proposed to allow mixed use affordable housing and commercial development under a Planned Community zoning.	EIR	03/23/2009
2009021014	Sumac TPM San Diego County Fallbrook--San Diego The 4 proposed lots range from 2.16 to 4.26 net acres. The site contains an existing home that would be retained. Access would be provided by Sumac Road, a private PRD road which connects to Pala Mesa Drive and Highway 76. The project would be served by on-site septic systems and imported water from the Rainbow Water District. No extension of sewer or water utilities will be required by the project. A feasible grading plan would consist of cut and fill of 6300 cubic yards of material. No offsite improvements are anticipated.	MND	03/09/2009
2009021016	Location and Development Plan 08-06 Adelanto, City of Adelanto--San Bernardino To construct a 15,604 sf building to include 12,022 sf of warehouse and 3,582 sf of office on a 2 acre lot in the MI Zone.	MND	03/09/2009
2009022016	Hum Co DPW-Drewry Rock Quarry Conditional Use/Surface Mining Permits and Reclamation Plan Humboldt County --Humboldt A modification and 15 yr extension of a Conditional Use/Surface Mining Permits, approval of Reclamation Plan and review of financial assurance cost estimates for an existing surface mining operation known as the Drewry Rock Quarry and previously known as the Bell Springs Rock Quarry. The site has historically been mined since 1993 by the Humboldt County Dept. of Public Works for a total of 30,807 cubic yards. The original permit allowed for annual extraction of 2,000 cubic yards for a total of 30,000 cubic yards and periodic use of a portable crusher 2 weeks annually. The modification proposes an annual extraction of up to 20,000 cubic yards with the total amount of extraction not to exceed 69,200 cubic yards. Operations include extraction, crushing and stockpiling. No washing and no asphalt/cement batch processing will be conducted on site. In the event localized greywacke boulders are encountered, small scale seperation with charges may be performed. No new access roads to the quarry will be constructed. Heavy equipment to be used on site includes: an excavator, a front end loader, and a portable rock crusher. The Humboldt County Dept. of Public Works has a License Agreement with the owner for activities associated with mining, crushing and stockpiling.	MND	03/09/2009

2009022017	Hum Co DPW-Moore Rock Quarry Conditional Use/Surface Mining Permits and Reclamation Plan Humboldt County --Humboldt A modification and extension of Conditional Use/Surface Mining Permits and approval of Reclamation Plan and review of financial assurance cost estimates for continued quarry operations of the Moore Rick Quarry. In 1992, the County permitted re-opening of the historic rock quarry and allowed extraction of up to 10,000 cubic yards every 2 years with a total removal volume of 70,000 cubic yards. Only half of the total volume of rock available has been removed. The current project proposes extraction and crushing of up to 10,000 cubic yards of rock as frequently as annually and will utilize an ~2.45 acres. Mining activities include extraction of rock from the quarry face, crushing and transporting crushed gravel to the stockpile near the road. Extraction is proposed to be accomplished by ripping and breaking up the rock with a bulldozer. In the event that localized graywacke boulders are encountered, small scale separation with charges will be performed. Vegetation, including 10 trees, will be removed from the west side of the quarry. Equipment also includes crawler tractor, crusher unit, front-end loader and dump truck. The County Dept. of Public Works has a License Agreement with the land owner for activities associated with mining, crushing and stockpiling rock. The permit term is 15 yrs and will expire June 2022.	MND	03/09/2009
2009021013	Wilshire Promenade Los Angeles, City of Los Angeles, City of--Los Angeles The Wilshire Promenade project is an approximately 156,000 square feet gross leasable area (189,500 square feet floor area), 4-story shopping center with 522 parking spaces. The proposed shopping center will include a number of retail uses such as a market, restaurants, spa, and other retail uses.	NOP	03/09/2009
2009021015	Bear Valley Parkway North Widening Project San Diego County --San Diego The project proposes to widen a 1-mile segment of Bear Valley Parkway between San Pasqual Valley Road and Boyle Avenue. The road is proposed to be widened from 2 to 4 lanes with bike lanes, side walks, shoulders/parking, dedicated left-hand turn lanes and realignment of intersections.	NOP	03/09/2009
2009022018	Forexco Conditional Use Permit and Coastal Development Permit CUP-04-41/CDP-04-119 Humboldt County --Humboldt The Coastal Development Permit and Conditional Use Permit are for the development of up to three additional natural gas production well sites and to potentially connect these production sites via pipelines and roads to the existing gas pipeline infrastructure. Forexco plans to explore and possibly develop the "Weymouth Bluff gas field" with an initial drilling of up to three wells at separate sites or well pads. If conditions and economics allow, Forexco may proceed with drilling multiple wells from the three sites and could drill from one to five well holes per well pad. Forexco anticipates that it could drill up to a total of 15 wells from the three sites. Forexco plans to initiate drilling as soon as weather permits in 2009 and drilling of wells could extend into the 2010/2011 seasons. The County's Initial Study considered the entire project which must be assessed under the California Environmental Quality Act as the potential development of the entire "Weymouth	NOP	03/09/2009

	bluff" gas field. A prior program EIR (SCH 2007052100) was certified for the Grizzly Bluff Natural Gas Field Development Project. The Grizzly Bluff EIR addressed non-site specific issues regarding the development of a natural gas field which wholly included and surrounded the Weymouth Bluff area under consideration for development with this project.		
2009029008	Malibu Lake Dredging Project Los Angeles County --Los Angeles The Applicant proposes to alter two (2) perennial streambeds, Malibu Lake, and three sediment catch basins (Medea, Middle and Craggs) for routine maintenance dredging and sediment removal activities. Work associated with routine maintenance and dredging at the confluence of Triunfo and Medea Creeks involves backhoes and tractors to remove sediment and return or maintain the low flow areas of the creeks at their confluence with Malibu Lake. Work associated with routine maintenance dredging at Malibu Lake involves one hydraulic dredge and three sediment catch basins into which dredge spoils are pumped from the lake bottom. While operating on the lake, the dredge pumps spoils through floating segmented pipe sections that can be connected to permanent inflow pipes associated with any one of the three basins. The location of the dredge on the lake determines which basin receives dredge spoils during dredging operations. Typically, between 5,000 and 20,000 cubic yards of sediment are removed from the lake annually. When dry enough for rehandling (less than 50% moisture in soil, no standing water) dredge spoils are periodically excavated from the basins with back hoe and loaded directly into trucks for subsequent reuse or stockpiled in adjacent upland locations, if necessary, prior to removal and reuse. The project site and adjacent parcels support a mosaic of moderate to dense native plant communities and a diverse variety of wildlife.	NOP	
2009021012	Via Canon Water Pipeline Relocation South Coast Water District Dana Point--Orange Relocation of 565 ft of water pipeline from private land to public utility right-of-way.	Neg	03/09/2009
2009021017	Pioneertown Water Systems Improvement Project San Bernardino County --San Bernardino The proposed project includes construction of 2 new 8 inch water pipelines referred to as "Skyline Ranch Pipeline" and "Landers Water Transfer Pipeline" and booster stations to provide an alternate source of water supply to Pioneertown. The "Skyline Ranch Pipeline" (~3.3 miles in length) will connect the County Special Districts CSA 70 W-4 water system to the HDWD distribution system. A 100 gpm booster pump station will be constructed to boost water from HDWD, at a hydraulic grade of 4,020 ft., to the existing tanks in the CSA 70, W-4 system at a hydraulic gradient of 4,240 ft. CSA 70 W-4 would continue utilizing Wells No. 2, 4, and 5 for daily supply and Wells No. 0, 7, and 8 for emergency or back up supply. Water will also be transferred from CSA 70, W-4 via the "Landers Water Transfer Pipeline" (~2.0 miles in length) into the HDWD's system from the east side and water pumped out of the HDWD's system to CSA 70, W-4 from the southwesterly end of their system. This would require a booster pump station to get water into the HDWD's system from Landers.	Neg	05/11/2009

	<p>County and continue in an east/west direction along the City/County boundary. The alignment would then curve to the north and connect with Green River Road in the vicinity of Paseo Grande. The project is being designed to protect the existing 108-inch Metropolitan Water District feeder line located approximately 1,000 feet southeast of Paseo Grande. Roadway improvements would require right-of-way acquisition for new landscaping, curbs, shoulders, travel lanes, and landscaped medians and water lines.</p>		
2007111046	<p>Farmersville Middle School Project Farmersville Unified School District Farmersville--Tulare</p> <p>The project consists of the development and operation of a middle school on an approximately 20 acre-site. The proposed middle school will be a full-service facility designed to accommodate up to 800 grades 7-8 students. The middle school will have classrooms, faculty work areas, administrative offices, multi-purpose facilities, athletic/recreation areas, and parking lots. Portions of the school grounds will be lighted for security and recreational purposes and may be available for community use during non-school hours.</p>	NOD	
2007121019	<p>SRG Chino South Industrial Park Chino, City of Chino--San Bernardino</p> <p>The project is a request to construct four concrete tilt-up industrial buildings on approximately 125.06 acres, although the Industrial Park and related roadway dedications will only occupy approximately 73.7 acres. The rest of the site will remain undeveloped and will retain current agricultural and open space zoning and general plan land use designations. Existing structures will be demolished and replaced by the proposed project, consisting of approximately 1,351,430 square feet of warehouse/distribution building space and approximately 102,960 square feet of general light-industrial building space. The warehouse/distribution and light-industrial buildings will consist of one-story, concrete tilt-up and glass construction. The project will be built in one phase, with grading and construction scheduled to commence in early 2009. The project includes a General Plan Amendment from Agricultural (AG)/Transitional Area-Industrial (T) to General Industrial (GI) and a change of zone from AG (General Agricultural) to M2 (General Industrial). Portions of the project site west of the industrial park will remain under existing AG and GS (Greenspace) zoning. In addition to the General Plan Amendment and Zone Change as previously discussed, the project includes the approval of the following land-use applications by the City of Chino; a Site Approval to construct four concrete tilt-up industrial buildings ranging in size from 102,960 square feet to 788,621 square feet totaling 1,454,390 square feet, a Parcel Map to subdivide the existing site into six lots ranging in size from 7.71 acres to 35.99 acres, plus right-of-way dedication and improvements for Fern Avenue, Pine Avenue, and Euclid Avenue, and a Potential Development Agreement.</p>	NOD	
2008022059	<p>Docks Riverfront Parkway Promenade Project Sacramento, City of Sacramento--Sacramento</p> <p>The Docks Riverfront Parkway Project is a 14.5 acre riverfront redevelopment, ~4300 linear ft (0.8 miles) along the Sacramento River in Sacramento, between O street on the north end and the Sacramento Marina/Miller park on the south end. The portion of the project that this agreement pertains to is the 2 river overlooks that will be constructed at the P Street and R Street sections of the promenade.</p>	NOD

	Construction of the overlooks would require the driving of piles and placement of scour protection on the bank of the river above the ordinary high water mark. No trees would be removed, but a few branches may need to be trimmed to operate the pile driving equipment and cranes.		
2008041170	Health Science Graduate Student Housing University of California, San Diego La Jolla--San Diego The project is designed to serve the housing needs of the graduate and professional students at UCSD in a 219,287 gross square foot (gsf) facility. The project design consists of a single building composed of two backwards "L" shaped wings (7 and 9 stories respectively), providing 450 student beds.	NOD	
2008052042	Napa Bank Stabilization Project - Sites 3, 4, and 5 Napa, City of Napa--Napa This project encompasses streambank repair work at three sites in Napa that were damaged during large flood events in the Winter of 2005-2006. Two other sites that need repair will be permitted and evaluated separately. The three sites evaluated are referred to as Sites 3, 4, and 5: Site 3: Tulucay Creek at South Terrace Drive; Site 4: Camille Creek at South Terrace Drive; and Site 5: Napa River, near the Kennedy Park Boat Ramp.	NOD	
2008092010	UCSF Neurosciences Building, Mission Bay Parcel 19A University of California San Francisco--San Francisco The UCSF Mission Bay campus includes a 43-acre research site and 14-acre hospital site totaling 57 acres. This Project will construct a 238,000-gsf, five-story clinical research and basic research facility on a site in the center of the UCSF Mission Bay campus. The Project supports multidisciplinary research dedicated to development of treatments, cures, and preventions for disease of nervous system. Uses in the new building include wet lab space, an outpatient clinical research facility, laboratory support, office/computational research and training. The Project will house approximately 579 employees and students, and approximately 60 patients visiting the clinic daily. The Project has been designed to be consistent with the general concepts and guidelines of the Mission Bay Campus Master Plan and Design Guidelines (CMPDG), which provide an overall framework for the physical development of the original 43-acre UCSF Mission Bay site.	NOD	
2008111076	Ballard Building Los Banos, City of Los Banos--Merced The proposed project includes a 5,725 sf commercial building with 3 internal commercial spaces; a drive thru is included for one of the commercial uses. The project includes 28 parking spaces with 2 handicapped parking stalls. The project also includes landscaping meeting City requirements and will utilize existing driveways along Pacheco Blvd. and will also provide alley access. The applicant will be required to obtain an Encroachment Permit from Caltrans.	NOD

2008112086	Osborne Hill Trail Network Project Parks and Recreation, Department of Grass Valley--Nevada The project scope approved by the Dept. of Toxic Substances Control includes reconstruction of existing official roads/trails and construction of new roads/trails to minimize erosion and sedimentation of soil and elevated metals on road/trail tread surfaces. The DPR would close some official roads/trails with unsustainable alignments or elevated metals. In addition, DPR trail standards and maintain them as official trails.	NOD	
2008122102	Building Site Approval & Grading Approval Santa Clara County Gilroy--Santa Clara This application is for Single Building Site Approval and Grading Approval, to construct a new single-family residence with attached garage, septic system, driveway and improvement to the existing access road. The size of the proposed single story house is approximately 4,875 square feet. The proposed residence and other associated improvements will entail grading of approximately 1,672 cubic yards of cut and 190 cubic yards of fill. The site is approximately 18.29 acres and the entire project scope covers about 3% of the lot area. The location and extent of the roadwork, along with the location of the proposed house, leach fields and other improvements are shown on plans and are on file at the County Planning Office. The site is located in the Habitat Conservation Plan area and provides aestivation habitat to a number of special status plant and animal species. Tree replacement and oak woodland habitat mitigation, is required for the 38 "oak tree proposed to be removed. Land Use Approvals necessary to construct the project include Building Site Approval and Grading Approval.	NOD	
2009029006	Lake or Streambed Alteration Agreement No. R1-08-0550/THP 2-08-086-SIS 'Wards Gap' THP Forestry and Fire Protection, Department of --Siskiyou 3 Encroachments for Timber Harvesting Activities	NOD	
2009028070	Consider Approval of Authority for the Executive Officer to continue to eliminate potential Public Safety Hazards at abandoned mine sites on state school lands California State Lands Commission -- Authorize the Executive Officer to enter into a new Memorandum of Agreement with the Department of Conservation, Office of Mine Reclamation for a period of seven years to facilitate a cooperative effort to identify and remediate abandoned mines located on State school lands.	NOE	
2009028071	Pt. Mugu State Park - SCE Maintenance on Underground Facilities Parks and Recreation, Department of --Ventura, Los Angeles The project involves issuance of a Right of Entry permit and subsequent easement(s), where deemed appropriate, for the purpose of allowing Southern California Edison (SCE) to repair a 100-foot section of existing underground electrical cable. Construction activities involve trenching the 100-foot section (approximately 1-foot wide) and installing a new buried cable along with an underground primary splice box on one or both ends of the new cable. Existing fire roads will be utilized for equipment/material storage and vehicle parking.	NOE

2009028072	Lower Joice Island Equipment Shelter Suisun Resource Conservation District --Solano The proposed structure is a pole shed with a roof and three sides, to protect large equipment (tractors and implements) from weather damage. The equipment and implements are used to conduct wetland maintenance activities, wetland restoration, and enhancement projects. The beneficiaries of the project are the property owner (Suisun Resource Conservation District) resulting from anticipated lower equipment maintenance costs, improvement in the quality of wetland dependent wildlife habitat enhanced with the protected equipment, and the residents of the State of California who benefit from the enhancement of the wetland and wildlife resource on Lower Joice Island.	NOE	
2009028073	Forbestown Pond Sediment Removal (1600-2008-0321-R2) Fish & Game #2 --Butte Removal of dead willows, accumulated sediment and decaying vegetation from the pond. All work will take place during the fall and winter when water is not flowing out of the pond. All sediment and debris will be removed from the site to prevent it from being re-introduced to the pond or causing significant pollution issues. A backhoe/excavator and twin axle dump truck will be used to remove the material from the pond area.	NOE	
2009028074	Routine Shutdowns of San Diego Pipelien Nos. 3, 4, and 5, Lake Skinner Outlet Conduit, and San Jacinto Pipeline Metropolitan Water District of Southern California Temecula, San Jacinto--Riverside, San Diego Periodically shutdown and perform maintenance on San Diego Pipeline Nos. 3, 4, and 5, the Lake Skinner Outet Conduit, and the San Jacinto Pipeline. Shutdown activities include dewatering at several locations along the pipeline alignments, performing inspections of the pipelines and associated structures, and performing routine maintenance to allow vehicles and equipent access to aboveground pipeline structures may also be included as part of shutdown activities.	NOE	
2009028075	Morro Reservoir Overflow Drain Extension Rainbow Municipal Water District Oceanside--San Diego This project involves the installation of approximately 750-feet of pipe (30" and 24" in diameter) down slope to direct random water discharges away from developed properties and into a natural hillside drainage course (ephemeral). This drainage course continues down slope a distance of 3.1 miles before it reaches the San Luis Rey River.	NOE

	Vaqueros 69-kV transmission line from near CCWD's existing Old River Pump Station, span Old River onto Victoria Island, and continue along existing dirt roads to the AIP's new power substation serving the new CCWD Victoria Canal Pump Station. Western would be responsible for constructing, operating, and maintaining the proposed transmission line.		
2009024002	Airport Traffic Control Tower and Base Building Construction and Operation, Palm Springs Airport Federal Aviation Administration Palm Springs--Riverside The FAA is proposing to construct and operate a new Airport Traffic Control Tower and Building to serve Palm Springs International Airport, Palm Springs, CA. The construction phase of the proposed action is expected to begin in early 2010 and proceed until late 2011. The new tower would be commissioned in late 2012 and demolition of the existing ATCT would occur in late 2013. The proposed ATCT would be located ~170 ft northwest of the current ATCT facility. The existing ATCT would be vacated and demolished after the new ATCT is constructed and operational.	EA	03/12/2009
1990010217	Fifth Amendment to the Central Imperial Redevelopment Plan San Diego, City of San Diego--San Diego NOTE: Reference SCH 2005031065 The proposed project includes proposed Community Plan Amendments, Rezones, and specific redevelopment activities located within the Project area. The project includes amendments to the Southeastern San Diego Community Plan and Skyline-Paradise Hills Community Plan, the Southeastern San Diego Planned District Ordinance and the Land Development Code. Rezones and a Community Plan Implementation Overlay Zone are proposed in order to implement specific development within the Project Area. The net potential increase in development within the Project Area is ~1,920 residential units, and 113,000 sf of non-residential uses, assuming that all of the redevelopment activity areas are developed as currently anticipated. These areas would develop upon market and other factors. The maximum development potential of the redevelopment activities areas are not anticipated to be realized for ~10-15 yr period.	EIR	03/10/2009
2007052046	DS Canal Flume Replacement Project Nevada Irrigation District Grass Valley--Nevada This proposed project consists of the replacement of 8 existing elevated wood-supported metal flumes along the Nevada Irrigation District DS Canal with Steel supported elevated 72 inch pipe flumes, and replacement of an existing culvert at Gracie Rd. The existing flumes connect the DS Canal, where it spans natural drainages, to provide gravity flow along the course of the canal. The flumes proposed for replacement are generally located between the DS Canal's intersections with Banner Mountain Trail (to the east) and Banner Lava Cap Rd (to the west). Flumes #13 and #19 is proposed to be replaced in its current alignment, requiring a temporary canal outage while construction takes place. Construction of Flumes #13 and #19 would occur during the non-irrigation season. Flumes #14, 15, 16, 17, 18, and 23 are currently scheduled to be constructed parallel to the existing facilities, on the downslope side, and will require a brief canal outage while they are being connected. 	trees, including twelve oaks identified as "protected trees" according to the City of Petaluma's Tree Preservation Ordinance. The applicant proposes to replace those protected trees to be removed at a one-to-one tree diameter ratio using both Coast Live Oaks and Valley Oaks.		
2009022024	Feather River Erosion Site 2 Repair Project Three Rivers Levee Improvement Authority --Yuba The project site is near the confluence of the Feather and Yuba Rivers along the water side of the east Feather River levee in Yuba County. The proposed project involves the repair of an overflow channel known as the "State Cut" and a nearby portion of the waterside levee surface to reduce the potential for future erosion and scour at the site during high water events in the Feather River floodway. Project activities would include constructing a rock slope protection layer in the State cut, revegetating the adjacent levee slope, and regrading and resurfacing an existing maintenance road along the levee toe.	MND	03/10/2009
2009022026	Highlands Park Lower Athletic Field Conversion to a Synthetic Surface Project San Carlos, City of San Carlos--San Mateo The proposed project involves the conversion of the surface of the 3.44 acre lower athletic field in Highlands Park from the existing natural turf to synthetic turf. This conversion is designed to accommodate a portion of the demand for more athletic field play and practice time in the City of San Carlos and would result in an increase in the recreational usage of the lower athletic field at Highlands Park for all sports throughout the year relative to existing usage. The proposed project would also involve removal of the existing irrigation, installation of quick coupler valves around the perimeter of the field, on-site drainage modifications, completion of fencing around the field, and adjustments to the locations of the access to the athletic field.	MND	03/10/2009
2009012075	Hughson-Grayson 115 kV Transmission Line & Substation Turlock Irrigation District Hughson, Ceres--Stanislaus NOTE: Revised Proposed project includes construction of an approximately 10 mile 115 kilovolt (kV) transmission line with a 12 kV underbuild in most locations along a route that would begin in Hughson, California and terminate near Ceres, California at a new 7.35-acre substation site. The project also includes construction of a double circuit 69-kV transmission line, which would follow the same route as the proposed 115 kV transmission line for the first 0.8 miles from the proposed substation location. A second 69-kV transmission line would extend approximately 0.5 miles north of the proposed substation to the Almond Power Plant. The proposed route runs adjacent to numerous residences and agricultural land.	NOP	03/10/2009
2009021018	Downtown Facade Improvement Program San Joaquin, City of San Joaquin--Fresno The City of San Joaquin is proposing to develop Downtown Facade Improvements program for its qualifying Main Street property/business owners. Funding through CDBG program.	Neg	03/10/2009

	any required water treatment system beyond disinfection, and all necessary valves and piping. The source of water for this project is pumped groundwater from the West Basin. The well will be ~1,000 ft deep and be equipped with a vertical turbine pump. Sodium hypochlorite and ammonia will be provided for disinfection. Before the new well can be drilled, an existing booster station and an existing nonoperational 2 million gallon underground concrete reservoir will be demolished.		
2008122048	Boardman Canal Pipeline Relocation at Pacific Avenue Project Placer County Water Agency Auburn--Placer The proposed pipeline alignment consists of installing ~800 linear feet of 54 inch pipeline in Meadowlark Court, Pacific Avenue and across Sacramento Street that would connect upstream of where the existing Boardman Canal flows under Pacific Avenue. The pipeline would cross under Sacramento Street and tie into the existing Boardman Canal. The project also includes installing ~300 linear ft of 16 inch and 12 inch blowoff piping in Railhead Park (US Bureau of Reclamation property).	NOD	
2008122088	Lakes Basin Trail and Watershed Restoration Eastern Plumas Recreation District --Plumas The project will rehabilitate 6.08 miles (32,102') of poorly designed and erosive trails located in the LBRA, which will result in a significant reduction in watershed contamination from the trail. Two sections of trail will be rerouted to less sensitive areas, with two stream crossings created, 12 switchbacks will be rerouted four miles of trail will be rehabilitated using modern trail building methods.	NOD	
2008122093	Anthon Single Family Residence and major vegetation removal Humboldt County Trinidad--Humboldt A Coastal Development Permit and Special Permit for tree removal, restoration of a wetland buffer area and the construction of a single family residence (approximately 1,680 square feet and 22 feet tall). The residence will be 100 feet from the wetland. The applicant is proposing to remove approximately 20 alder and 60 spruce trees from approximately three (3) acres of the 5.19 acre lot. The lot is currently vacant. Approximately 85% of the trees to be removed are 12" diameter or less. All mature trees will be retained. As part of the project proposal the applicant is requesting to remove trees within a wetland buffer of a pond located across a gravel easement from the parcel. The trees are being removed as part of a habitat enhancement plan. A well and septic system will be developed on sit. Minimal grading is anticipated.	NOD	
2009028082	Extend Culverts Caltrans #2 --Shasta Caltrans proposes to extend various culverts and increase adjacent roadway shoulder widths along State Route 89 in Shasta County. The purpose of the project is to increase shoulder widths at culvert inlets and/or outlets to attain more uniform widths along this section of highway. Wider shoulders at these locations will improve safety and provide snow removal storage. The project will require temporary construction easements and removal of some trees and vegetation.	NOE

	chloramines; and 2. Disinfection of treated wastewater effluent with ultra-violet light (UV)) rather than chlorine.		
2009028096	Temporary Urgency Change Petition Water Resources, Department of Sacramento--Sacramento Through the Temporary Urgency Change Petition, the Department of Water Resources (DWR) is seeking relaxation of X2 requirements as described in D-1641. Specifically, DWR requests that maintaining X2 at Collinsville, as opposed to Chipps Island, will be deemed sufficient compliane of the X2 requirement for February 2009. DWR also seeks a waiver of the "starting gate" provision as described in Footnote 10 of Table 3 and a waiver of the higher flow objective for theSan Joaquin River at Vernalis.	NOE	
2009028097	Bridlewood HOA Arroya Santa Rosa Management Fish & Game #5 --Ventura Debris will be moved from the Arroyo Santa Rosa to create more channel capacity. The Arroyo runs through the HOA and the channel ranges in size from 10-40 feet in width over a distance of 3,856 linear feet. Throughout this reach (project site), any dead vegetation, hanging limbs and debris piles may be removed from the area. Invasive species, such as castor bean and palm trees shall be removed from the Arroyo area. SAA #1600-2008-0356-R5	NOE	
2009028098	Electronic Waste Recycling Act - Final Regulations Toxic Substances Control, Department of -- This rulmaking address four regulatory aspects of universal wastes. First, it finalizes the emergency regulations, "Authorized Treatment of Universal Waste Electronic Devices", adopted by the Department of Toxic Substances Control (DTSC) in 2004 to implement the Electornic Waste Recycling Act of 2003. Second, the regulations modify California Code of Regulations, title 22, (Cal. Code Regs., title 22) chapter 11, appendix X, by adding a list of electronic devices that are Covered Electornic Devices for purposes of the Act, and adding notification requirements for manufacturers of Covered Electronic Devices. Third, the regulations reformat and consolidate California Code of Regulations, title 22, division 4.5, chapter 23, "Standards for Universal Waste Management". Lastly, the regulations promulgate new requirements implementing the restrictions on the use of hazardous substances (RoHS) provisions of the Electronic Waste Recycling Act of 2003 pursuant to Health and Safety Code section 25214.10.	NOE	
2009028099	Emergency Backup Generator Installation at Gene, Iron Mountain, Eagle, and Hinds Pumping Plant, and at Havasu Intake Metropolitan Water District of Southern California --San Bernardino The Metropolitan Water District of Southern California (Metropolitan) proposes to permit, install, operate, and maintain a permanent backup ememgency generator at the Gene, Iron Mountain, Eagle, Hinds Pumping Plant, and at Havasu Intake. 2009021037	Landfill Parking Facility Project San Bernardino International Airport Authority San Bernardino--San Bernardino To maximize land use at the airport, the SBIAA has determined that use of the Former Air Force Base landfill as a parking area would be more effective use of the site. To accomplish this, SBIAA has prepared an Addendum to the Closure Plant/Post Closure and Maintenance Plan for the landfill to allow end use of the site as a parking facility. The Addendum has been reviewed and approved by state and federal agencies with jurisdiction over the site closure. This project proposes an alternative final cover that will allow use of the site as a parking area. The existing vegetation will be removed and the upper soil layers affected will be sacrificed and re-compacted to meet parking area standards. About 4 inches of asphaltic concrete will be placed over the compacted subgrade in accordance with applicable standards for use as a parking facility and will be adequate to meet established requirements for final landfill cover.	MND	03/16/2009
2009021038	El Monte Trail and Equestrian Staging Area San Diego County --San Diego The project proposes to establish a new multi-use trail and equestrian staging area at El Monte Park. The proposed trail will connect to an existing trail easement-the Flume Trail-dedicated as part of the Blossom Valley Estates development that adjoins El Monte Park to the south. The trail will wind in an approximate northwest direction, traversing an undeveloped hillside before entering the developed park area west of an oak grove. The trail will then cross El Monte Road at an existing crossing in order to connect to a proposed staging area on the north side of the road. The proposed equestrian staging area would replace an existing baseball/batting area. The new staging area will feature a natural surface parking	MND	03/12/2009

	replace office with residential uses, allowing up to about 2,900 total residential units, and about 88,000 gsf of commercial space in the Executive Park Subarea Plan Area. The proposed Subarea Plan would establish an Executive Park Residential Special Use District, change zoning within the site from a C-2 to RM-3 district, and would change heights within the site from 40 to 200 ft to 40 to 240 ft. The amended Subarea Plan would also address land use, streets and transportation, urban design, community facilities and services, and recreation and open space through implementing objectives and policies, and provide design guidance for buildings, streets, pathways, and parking, as well as "green building" approaches. The Subarea Plan would establish a hierarchy of streets, including a reconfigured blvd along Harney Way, the existing Executive Park Blvd and Thomas Mellon Drive, and new local streets and alleys to serve future residential and retail development.		
2008061108	Aliso and Wood Canyons Wilderness Park Resource Management Plan Orange County Laguna Niguel--Orange OC Parks is proposing the establishment of a Resource Management Plan (RMP) for the Aliso and Wood Canyons Wilderness Park (AWCWP). The purpose of the RMP is to provide a comprehensive, long term management plan for the AWCWP. The fundamental objective for the RMP is to identify the best framework to manage, protect and enhance the natural resource values of AWCWP while providing safe recreational and educational opportunities to the public.	Oth	
2003032112	Potrero Hills Landfill Expansion Solano County Fairfield--Solano Solano County released the Draft EIR for the Potrero Hills Landfill Expansion Project. The Draft EIR evaluated the environmental impacts associated with the proposed expansion of the Potrero Hills Landfill. Following the close of the public review period, the Final EIR was prepared and released on March 7, 2005. The Board of Supervisors held a public hearing on Sept 13, 2005, at which time the Board certified the Final EIR. Following certification of the Final EIR, a CEQA challenge was filed in the Solano County Superior Court. On Feb 26, 2007, the Court issued its decision in the matter Protect the Marsh v. County of Solano, et al, Case No. FCS026839, Solano County Superior Court. The Court found that the Final EIR certified by the County of Solano in Sept 2005 was deficient in three areas: air quality, water supply and alternatives. Subsequently, on June 10, 2008, the Solano County Board of Supervisors re-certified the EIR to address the deficient areas. This was the subject of a July 23, 2008 hearing in Solano County Superior Court as a follow-up the above referenced case. The court issued its decision on Oct 14, 2008 wherein the Court ordered the County to vacate and set aside the certification of the re-certified EIR and undertake further analysis of the "no project" alternative. In accordance with Public Resources Code Section 21092.1 and State CEQA Guidelines Section 15088.5, the County of Solano is recirculating portions of the Recirculated Revised Final EIR in response to the Court's Oct 14, 2008 decision. In accordance with Section 15088.5(f)(2) of the State CEQA Guidelines, commenters are asked to limit their comments to the revised sections of the Recirculated Revised Final EIR.	SIR	03/30/2009

2009024003	Abbotts Lagoon Area Dune Restoration Plan and EA National Park Service --Marin Restore 300 acres of coastal dune habitat to benefit species listed as threatened or endangered under the Endangered Species Act.	EA	03/19/2009				
2006031117	City of Orange Comprehensive General Plan Update (2009-01) Orange, City of Orange--Orange The proposed project consists of a comprehensive update of the City of Orange GP. The GP consists of 11 elements that together meet state requirements for the GP. The elements are: 1) land use, 2) circulation and mobility, 3) natural resources, 4) public safety, 5) noise, 6) growth management, 7) cultural resources, 8) infrastructure, 9) urban design, 10) economic development, and 11) housing (not included in this update). The GP also includes an implementation plan. Development pursuant to the proposed GP land use policy would result in an increase of ~23,478 dwelling units and 35.7 million sf of nonresidential building floor area over existing conditions. A net population increase of 57,844 persons is also anticipated at buildout according to the proposed GP. The proposed GP land use policy proposes changes to GP land use designations within eight focus areas of the City.	EIR	03/30/2009				
2008112041	Sciortino Ranch Brentwood, City of Brentwood--Contra Costa The proposed project would include the development of up to up 468 multi-family apartments, 140 single-family detached homes, 107,267 sq. ft. of retail/office/commercial, 228,690 sq. ft. of institutional, and 5.1 acres of park. The applicant is requesting the following entitlements for the proposed project: Approval of a General Plan Amendment; Approval of an amendment to the PD-55 Zone inclusive of a Sub-Area Map, Zoning Matrix, and associated Design Guidelines; Vesting Tentative Map; and Approval of a Vesting Tentative Subdivision Map to subdivide the site into 11 parcels. 2007052042	<p>Pacific Lumber Company, Scotia General Plan Amendment, Zone Reclassification, and Final Map Subdivision Humboldt County --Humboldt</p> <p>Pacific Lumber Company is owner of 465 acres of property that constitutes the community of Scotia. The project is a general plan amendment, zone reclassification, final map subdivision, planned development permit and urban limit line extension for portions of Scotia with land use designations of Industrial General or Timberland and zoning of unclassified "U". The request involves changing the land use designation and rezoning approximately 80 acres primarily used for residential uses within the town of Scotia, and subdivision of this area so that existing residences and community facilities are placed on individual lots. Existing residential portions of the town are proposed to be changed from Industrial General to Residential Low Density. Areas of the town that currently include developed utility infrastructure (sewage treatment area, water treatment area/storage, school, and fire station) would be changed from Industrial General or Timberlands to Public Facility. Areas of the town that have existing commercial uses would be changed from Industrial General to Commercial General or Commercial Recreation. The urban limit line would be extended to encompass the Scotia town site area. The applicant also proposes formation of a CSD for delivering services to the community. CSD formation must be approved by the Humboldt County Laoco. Approval of the proposed amendment is dependent upon a showing that the request is both "in the public interest and "consistent with a comprehensive view of the General Plan."</p>	FIN	02/26/2009
2007092033	<p>Dixon Main Drain and V-Drain Enlargement Project Dixon Regional Watershed Joint Powers Authority Dixon--Solano</p> <p>The proposed project includes the enlargement of the Dixon Main Drain (DMD), the enlargement of the V-Drain from Swan Road to the RD 2068 Intake Canal, the replacement of two 60-inch culverts along Swan Road with an engineered bridge or new culverts, the replacement of two agricultural weirs and the relocation of a highline irrigation canal.</p>	FIN	02/25/2009
2008041088	<p>Central Region Elementary School No. 22 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The proposed project includes the construction and operation of the Central Region Elementary School No. 22. The project site is located on the Playa Vista Development and is currently vacant. The proposed project would primarily serve students who live in Playa Vista although it is not intended to be exclusive to Playa Vista. The proposed project would provide approximately 650 two-semester seats on a traditional single-track for students in grades K-5 and require approximately 50 to 55 faculty and staff.</p> <p>The proposed project would include approximately 50,000 gross square feet (gsf) of building space on the 4.08-acre project site. Structures would be up to two stories (34 feet). There would be 26 classrooms, a library, administrative spaces, food services with a lunch shelter, a multi-purpose room, hardcourts and a play field.</p>	FIN

	lots. Within Zone 2, there are currently 47 undeveloped lots, of which 16 lots are owned by the plaintiffs in the Monks case. The proposed project could lead to the development of up to 47 new single family residences.		
2009021054	Renco Encoders Addition Goleta, City of Goleta--Santa Barbara Request for an as-built Development Plan for existing 33,600 sf manufacturing, 360 sf compressor room, 400 sf garage, 1000 sf hazardous materials building, and a 2,160 sf covered storage area. Proposal to construct an 800 sf clean room addition, two 400 sf storage outbuildings, and the demolition of 1,760 sf of a covered storage area (Phase II). Also, proposal to construct a 10,400 sf, two-story office addition (Phase III). (Phase I already constructed and permitted, and consisted of the aforementioned 1,000 sf hazardous materials building).	MND	03/16/2009
2009021055	Mc Nally Road Minor Subdivision; Tentative Parcel Map: TPM 21004 San Diego County --San Diego The project is a residential minor lot subdivision of 87.25 acres into 4 parcels and a designated remainder parcel. The project site is located near the intersection of Mc Nally Rd and Oak Glen Rd, in the Valley Center Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category, EDA, Land Use Designation 17, Estate Residential and 18, Multiple Rural Use. Zoning for the site is A70. The site contains an existing avocado grove within the boundaries of the remainder parcel. Access to the Designated Remainder Parcel and Parcel 4 will be provided by a private rd connecting to Mc Nally Rd.	MND	03/16/2009
2009021057	Del Valle Sediment Placement Site Los Angeles County --Los Angeles The proposed project involves the creation of a SPS for the deposition of sediment cleared from debris basins in the Santa Clarita Valley area. Debris basins are engineered earthen facilities constructed to control runoff from upland drainage areas that has the potential to pose a threat to human life or property. Regular sediment removal maintenance is required for debris basins to operate effectively and existing SPS facilities are reaching capacity. It is therefore necessary to increase sediment storage by obtaining additional sediment placement sites. The proposed SPS project site is an eroded gully located within the County of LA Fire Dept. Del Valle Training Facility that would have capacity to accommodate ~350,000 cy of sediment. The proposed project involves 2 major actions: site preparation and sediment placement. Site preparation involves the clearing/grubbing of onsite vegetation within the placement footprint required to accommodate future sediment deliveries. Sediment place activities would be ongoing throughout the year, although the majority of activity typically occurs in the summer/fall months. Only the portion of the project site that is needed to accommodate the delivered sediment would be cleared/grubbed; therefore, the proposed SPS would be filled with sediment incrementally over time and no initial mass-grading would be required. 	Bay-Delta Plan and water rights implementation for that plan. The State Water Board anticipates preparing substitute environmental documentation to support any water quality control plan updates, as appropriate and one or more Environmental Impact Reports (EIR) to support any water right decision(s) or order(s) that maybe needed to support changes to rights to implement any changes to the Bay Delta Plan. The State Water Board may alternatively choose to prepare one EIR to inform both the water quality control planning and water rights implementation described in this notice. The State Water Board will provide additional notice once it decides on its approach.		
2008072059	Ordinance Amendment ORD08-003: Draft Zoning Ordinance Amendment Nevada County Grass Valley, Nevada City, Truckee--Nevada Proposed amendments to the Nevada County LUDC Chapter 11, Section L-11 3.19: Second Dwelling Units to allow second dwelling units as a by-right use in zoning districts that allow a single family dwelling. This will effectively allow second dwelling units that are located beyond the dead-end road limit without providing secondary emergency access while maintaining fire safety.	Neg	03/16/2009
2009021045	5 Unit Detached Condominium Project, Tentative Tract Map No. 063444 Los Angeles County --Los Angeles The proposed project is a request for a subdivision, TR Tract Map 063444, to allow the constructive of 5 detached condominium units on a 41,202 gsf parcel, 37,602 net sf, located in the A-1-6,000 (Light Agricultural-6,000 sf minimum size lot required) Zone, in the unincorporated Hacienda Heights Community. The project site will be accessible from Kwis Avenue, an interior collector street, which fronts the site along the east property line. The 5 units will be served by a common on-site 26' wide private driveway/fire-lane. All existing structures on site will be removed, and a 6 ft high block wall is proposed along sections of the north and south property lines, and all along the west property line. There are no oak trees on the project site. Grading will consist of 940 cubic yards of imported fill. On site drainage will be carried off-site in a 24" concrete V-Gutter, to be maintained by HOA.	Neg	03/16/2009
2009021047	Amendment to Scholl Canyon Landfill Watershed Glendale, City of Glendale--Los Angeles Modification of an ordinance rgulating disposal of refuse at scholl canyon landfill.	Neg	03/16/2009
2009021051	Culver Parcel Map/SUB2007-00029 San Luis Obispo County --San Luis Obispo Request by William Culver to subdivide a 2.59 acre parcel into 2 parcels of 1.00 and 1.59 of acres each. The proposed project could result in future road improvements that could result in ~5,922 sf of disturbance on the east side of North River Road.	Neg	03/19/2009
2009021052	Vaughn 3g Elementary School-Global Green Generation (3g) Vaughn Next Century Learning Center --Los Angeles The project sharte ES will be a 2-story structure serving 350 students, with a total compliment of 18 teachers and 12 related staff. The school will be located along the north side of Herrick Ave with a semi-circular drive for easy public access. Its location will do much to attract students to teh campus. It will accommodate	Neg	03/16/2009

	delivery into their respective CVP services areas.		
2001042062	State Route 275 Modification Project West Sacramento, City of West Sacramento--Yolo NOTE: An addendum to the prior Negative Declaration was prepared for this projec pursuant to the provisions of CEQA.	NOD	
	The Proposed Action would convert Tower Bridge Gateway (formerly SR-275) from a freeway to a city street from the UPRR Underpass to the Tower Bridge, a length of 1,700 ft. The project would remove the Third Street Undercrossing and would provide new, at-grade, signalized intersections at 5th Street and 3rd Street. No previously undisturbed ground will be impacted by this project.		
2004102011	Sly Park Recreation Area Master Plan El Dorado Irrigation District --El Dorado The EID proposes to use SNC grant funds to develop a complete restoration design and file permits for Hazel Creek and Hazel Creek Campground. The restoration will include stabilizing Hazel Creek banks, removing non-native vegetation, recreating a riparian buffer zone along the creek, protect re-vegetated areas and creek with 50 ft setback buffer zone and natural barriers, and construct all weather safety access bridge over the creek. To accomplish the restoration of the creek seven campsites and the associated access road will be removed, along with reconfiguring remaining campsites according to SPRA Master Plan standards. Two campsites will be replaced with ADA accessible cabins. Re-establish native vegetation in the campground, installing barriers, provide access controls and interpretive signage to protect native habitats and provide education opportunities and safety information. A new bridge over Hazel Creek will be added to provide emergency access to the back of Sly Park and to provide a dedicated access for bicycles and horses to cross the creek without causing impacts to Hazel Creek and the water quality of Jenkinson Lake.	NOD	
2005101047	Pipeline Maintenance Program EIR Santa Clara Valley Water District San Jose, Santa Clara, Morgan Hill, Hollister, Campbell--Santa Clara, San Benito The Operator proposes to drain a portion of the Santa Clara Conduit for inspection and maintenance as part of the Santa Clara Valley Water District's Pipeline Maintenance Program. The CDFG is executing a Lake and Streambed Alteration Agreement No. 1600-2008-0551-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Scott Akin/Santa Clara Valley Water District.	NOD	
2006072093	Recycled Water Project Delta Diablo Sanitation District Antioch--Contra Costa The Delta Diablo Sanitation District Recycled Water facility proposes to expand its water reuse system. Under the Recycled Water Project, the District would extend the recycled water pipeline, using existing pipeline and constructing new pipeline, to establish recycled water service for use as landscape irrigation at the Lone Tree Golf Course, City parks and other green spaces along the alignment. The facilities include a total of 19,820 ft of underground pipeline, a pumping station and a below ground storage tank. The District has petitioned the State Water Resources Control Board for approval of a wastewater change petition for the Project. Pursuant to the petition, discharge into New York Slough will be reduced by 0.8	NOD

2007032128	Sycamore Creek Channel Rehabilitation Project Water Resources, Department of Chico--Butte The CDFG is executing Lake or Streambed Alteration Agreement No. 1600-2003-303-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, DWR. DWR proposes to remove up to 50,000 CY of accumulated sediment from the Sycamore Channel. Work will occur within the flood control channel and along portions of the overbank upstream and downstream of Cohasset Road while retaining a portion of the overbank of varying width and height along the levees' waterside slopes.	NOD	
2007042102	Department of Fish and Game - Year 2007 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Humboldt, Mendocino The project proposes installation of a 20-foot by 50-foot bridge, excavation of channel to original width, depth, and slope to expose natural channel morphology and armor, and treat disturbed and/or erodible stream banks with 1 to 1.5 ton boulders and rock riprap on Hall Creek, Humboldt County. If instream grade control structures are required to maintain the integrity of the stream channel, the Responsible Party will use large quarry rock boulders secured to each other.	NOD	
2007051143	PXP Produced Water Reclamation Facility Conditional Use Permit DRC2005-00252 San Luis Obispo County --San Luis Obispo The CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. John Westenberger. The proposed Project would consist of adding an outfall structure to existing rock slope protection (RSP) along the right bank (looking downstream) of Pismo Creek. The discharge would consist of installing a 25 ft long steel perforated pipe and deflector system supported on short piers constructed among the existing RSP. Water would seep from the perforated pipe into a semicircular shroud below the pipe and flow into the rock slope protection. Treated water piped to the site would be discharged at a rate of ~0.3 cubic feet per minute at the site. If necessary, grout would be added among the RSP for stabilization. Minor vegetation clearing would occur to allow access to the site.	NOD

	Division. The proposed project consist of a armoring the slopes beneath and adjacent to the existing bridge with rock slope protection (RSP), bridge deck repair, asphalt removal and repair. Slope armoring will occur along ~8 ft of each bank from abutment to the concrete lined channel directly beneath the existing bridge. Bridge deck repair will extend ~28 ft along the southbound side of the bridge. Asphalt removal and repair ~115 ft in length will occur at the interface between the bridge deck and the roadway on both the north and south approaches to the bridge.		
2008011034	High School at College and Cannon Carlsbad Unified School District Carlsbad--San Diego Construction of a new high school.	NOD	
2008041088	Central Region Elementary School No. 22 Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project includes the construction and operation of the Central Region Elementary School No. 22. The proposed project would include approximately 50,000 gross square feet (gsf) of building space. Structures would be up to two stories (34 feet). There would be 26 classrooms for grades K-5, a library, administrative spaces, food services with a lunch shelter, a multi-purpose room, hardcourts and a play field. The proposed project would provide ~650 two-semester seats and require ~50 to 55 faculty and staff. The proposed elementary school would be operated on a traditional, two-semester calendar.	NOD	
2008101141	Enserv West, LLC Vernon, City of Maywood--Los Angeles Enserv West, LLC ("Enserv") has submitted an application for a conditional use permit to operate a medical waste transfer station and treatment facility located at 4726 Loma Vista Avenue. The proposed operation will consist of transferring and treating of medical waste from generators such as hospitals, medical clinics or other procedures of medical waste. The quantities generated by these establishments and transferred to the Enserv facility will range from a small container of needles and syringes in a month to several tons daily from larger medical centers. The project proposed will treat the medical waste via steam sterilization also known as "autoclaving". The autoclave is a device used for hazardous medical waste disposal which renders the material inert by applying intense steam heat. The waste will be containerized, stored, transported and treated, all in accordance with California State Law.	NOD	
2008111039	Interstate Route 10/605 Direct Connector Project Caltrans #7 Baldwin Park--Los Angeles The project proposes to construct a one lane-fly-over direct connector branching off the southbound Interstate Route 605 and spanning eastward towards the outside of Interstate Route 10 mainline. Soon to exist soundwalls along the eastbound I-10 would be constructed to accommodate the proposed connector alignment.	NOD
