# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2010**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Acting Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger  
Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research  
State Clearinghouse and Planning Unit

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov)

Thank you for your cooperation in the CEQA review process.

<b><u>Documents Received on Monday, February 01, 2010</u></b>			
2010021005	Water Pump Station No. 1B Fresno, City of Fresno--Fresno NOTE: Early Consultation  Conditional Use Permit Application No. C-10-006, filled by Lito Bucu of the City of Fresno Water Division, pertains to 0.34 acre of property located on the northwest corner of East Ventura Avenue and South Second Street. The applicant requests authorization to drill and operate a water supply well (City Water Pump Station No. 1B); construct 6 ft high masonry wall and install landscaping around the perimeter to screen equipment and treatment facilities; construct required public works improvements; and future construction of water remediation facilities, treatment systems for various contaminants, and the installation of an emergency generator. The property is zoned C-P (Administrative and Professional Office).	CON	02/22/2010
2010024001	Marysville Ring Levee Yuba River Basin, California U.S. Army Corps of Engineers Marysville--Yuba NOTE: Review Per Lead  Design Modifications to address under and through seepage around the Marysville Ring Levee. The modifications would include cutoff walls, stability berm, slope reshaping and a secant pile wall.	EA	03/03/2010
2004021002	The Landmark Village Project, Project No. 00-196, TR 53108/ CP00-196/ROAK-OT00-196/RCUP200500112,Modification to Adopted County Floodway Limits Los Angeles County Santa Clarita--Los Angeles The proposed project consists of 418 lots with a maximum of 1,444 residential units; 1,033,000 sf of non-residential mixed-use space; elementary school; community park; fire station; three private recreational facilities; open space; river trail uses; road and infrastructure improvements; and other amenities. The project site is currently used for agricultural purposes and contains miscellaneous, ancillary sheds for agricultural storage, and dirt roads.	EIR	03/17/2010
2009031008	Taft Sanitary Landfill Permit Revision (GPA 2, CUP 1, Map 138; SWFP Revision; WDRs) Kern County Taft--Kern NOTE: Review Per Lead  The proposed project is to revise the solid waste facility permit (SWFP) for the Taft Sanitary Landfill (SWFP No. 15-AA-0061) to increase the disposal capacity and lifespan by the installation of a landfill liner over the current permitted unlined disposal area; then vertically expanding beyond the current permitted elevation. Additionally, the proposed project will amend the KCGP and map to have a compatible and consistent general plan designation and zone district for the site.	EIR	03/22/2010

2007062078	Golden Gate Bridge Physical Suicide Deterrent System Golden Gate Bridge Highway and Transportation District San Francisco--San Francisco NOTE: Notice of Availability of a FONSI NOTE: Joint Document consists of Draft EIR & EA  The Golden Gate Bridge (Bridge) is owned and operated by the Golden Gate Bridge, Highway and Transportation District. It is located within the San Francisco Bay Area. The proposed project is located in the City and County of San Francisco and Marin County. The project proposes to construct a physical suicide deterrent system along both sides of the Golden Gate Bridge (Bridge). The project limits are from the San Francisco Abutment to the Marin Abutment of the Bridge.	<b>FON</b>	
2009121018	Reconsideration ENV-2009-3121-MND - 309-315 Culver Boulevard Los Angeles, City of Los Angeles, City of--Los Angeles Coastal Development Permit for the demolition of an existing, vacant, private school and the construction of 2, three story, office buildings (maximum height of 37 ft), one of which will be 4,197 sf and the other 4,039 sf. A total of 32, at grade level parking spaces will be provided, 16 in each building. Buildings will be located on a 10,000 sf site, in the [Q]C4-1D Zone.	<b>MND</b>	03/02/2010
2009122018	Martin Minor Subdivision Humboldt County --Humboldt This application proposes the subdivision of the property into 3 lots, ~10,052 sf for lot 1, 7,773 sf for lot 2, and 8,203 sf for lot 3. All lots will take access from Orchard Lane. The residences are proposed to be two-story, with two car garages for each unit. An exception to lot width is requested for Lots 1 and 3. The rear property lines for lots 1 and 3 are ~48 ft wide. Very minor sections of these two lots are less than 50 ft in width.	<b>MND</b>	03/02/2010
2010021002	Reconsideration ENV-2006-8018-MND - 909 W. Temple Street Los Angeles, City of Los Angeles, City of--Los Angeles Site Plan Review to permit mixed-use development of 627 dwelling units with 8,158 sf of commercial retail, structure parking for 1,417 spaces. Pedestrian bridge over Temple Street connecting the two proposed structures. Hours of operation from 7:00 am to 2:00 am, seven days a week. Demolition of existing foundation. Haul Route for the removal of ~85,000 cy of dirt.	<b>MND</b>	03/02/2010
2010021003	Conditional Use Permit No. 09-0830 Bakersfield, City of Bakersfield--Kern The project proposes a Conditional Use Permit (CUP) for a 2 acre oil well drill site. The applicant, Foothill Energy LLC plans to drill well (33X-13) upon approval of the CUP and applicable permits and a second well (43R-13) within the subsequent two years. The site is zoned West Ming-Limited Multiple Family Dwelling (WM-R-2) and designated West Ming-Low Medium Density Residential (WM-LMR).	<b>MND</b>	03/02/2010

2010022004	Hoang Residence Santa Clara County San Jose--Santa Clara This application is for Grading Permit and Design Review to construct a new ~7,974 sf residence with attached 1,054 sf garage, septic system and associated access driveway. The slope of the driveway reanges from 1 to 20% slope. A habitat conservation easement shall be recorded to preserve existing Hall's Bush Mallow habitat on the property. The proposed project will entail ~156 cy of cut and 584 cy of fill for the driveway and building pad improvements. Domestic water shall be provided by the water purveyor, Great Oaks Mutual Water.	<b>MND</b>	03/02/2010
2010021006	Conveyance of Nonproject Groundwater from the Canalside Project Using the California Aqueduct Westlands Water District Fresno--Fresno, Kings NOTE: Reference SCH#: 1994082068  Westlands Water District proposes to pump groundwater from land near the California Aqueduct and convey it through the Aqueduct for withdrawal and use on the other land within the district. The source of the water would be a series of groundwater wells in three groups wihin the district: the norther, central and southern groups. The proposed project would result in no more than 100,000 acre-feet of groundwater being pumped in the Aqueduct annually via several inlets on either side of the Aqueduct.	<b>NOP</b>	03/02/2010
2010021007	Jordan Downs Specific Plan Los Angeles, City of Los Angeles, City of--Los Angeles The proposed Specific Plan entails modifying the zoning and development guidelines for the project area. As envisioned in the HACLA Master Plan, the proposed project includes the demolition and replacement of the existing Jordan Downs public housing complex and the development of 1600 to 1800 new dwelling units to be built in a variety of residential building types, including townhouses and stacked flats in multiple and varied configurations	<b>NOP</b>	03/03/2010
2010022001	Sacramento County Bicycle Master Plan Sacramento County --Sacramento This project is a Bicycle Master Plan for the County of Sacramento. The project includes bicycle lanes, bicycle routes and bicycle trails throughout the unincorporated area of Sacramento County. The Bicycle Master Plan is component of the Sacramento County General Plan.	<b>NOP</b>	03/02/2010
2010022005	Downtown Dublin Specific Plan Dublin, City of Dublin--Alameda The DDSP consists of a comprehensive set of incentives, standards, and requirements that will implement the vision for the future development in downtown Dublin. The DDSP will define the physical envelope for downtown Dublin's future growth using height limits, setbacks, density, and design standards. The DDSP will act as the planning tool to guide and direct new development, economic development, transportation improvements (including pedestrian improvements), transit-oriented development, parking, pedestrian amenities, and public open space (e.g. public plazas). The DDSP will be instrumental in promoting a more	<b>NOP</b>	03/02/2010

	walkable, livable downtown Dublin, as well as providing incentives for development and supporting retail keeping with the City's vision.		
2010022006	Martial Cottle Park State Park General Plan/County Park Master Plan Santa Clara County San Jose--Santa Clara The Martial Cottle Park State Park General Plan/County Park Master Plan (the Plan) contains goals, guidelines, and objectives to guide the creation of the Park. The Plan also includes design guidelines for the design and construction of the following Park components: entrances and gates, architecture, fencing, roads parking areas, trails and buffers, planning, landscape components, and signage. The establishment of the Park is intended to protect a piece of Santa Clara Valley's history and provide an agricultural, recreational, and educational resource. The main uses of the Park would include agricultural production, habitat enhancement, visitor-serving and recreational facilities and trails, and educational and interpretive programming related to the site's cultural and natural resources.	<b>NOP</b>	
2010021001	Garbage Disposal District Contract Renewal Los Angeles County --Los Angeles NOTE: Shortened Review  This project consists of awarding contracts to private waste hauler(s) for solid waste collection services in the following three Garbage Disposal Districts (GDD): 1) Athens-Woodcrest-Olicita GDD, which encompasses the County of Los Angeles unincorporated areas of West Athens and Westmont; 2) Firestone GDD, which encompasses the County of Los Angeles unincorporated areas of Florence, Graham, Willowbrook, and East Rancho Dominguez; and 3) Walnut Park GDD, which encompasses the County of Los Angeles unincorporated area of Walnut Park. Services under each of the current contracts entail separately collecting, transporting, and managing refuse, green waste, and recyclable materials, using the automated collection method, for residences, multi family residences, businesses, and commercial/industrial establishments within the GDDs.	<b>Neg</b>	02/22/2010
2010022002	Furtado Major Subdivision and Planned Development Permit Humboldt County --Humboldt A major Subdivison to divide 2 parcels into 8 lots utilizing a Planned Unit Development. The lots will range in size between 1,536 sf and 3,660 sf in size. A Conditional Use Permit is required for the construction of a single family dwelling on each lot in a multi-family zone, utilizing a zero lot line, common wall construction. A Special Permit is required pursuant to Section 311-4.1 of the Zoning Regulations to interpret the provisions regulating tandem parking. Inland Design Review is also required for the structure. The lots will be served with community water and sewer provided by McKinleyville Community Services District.	<b>Neg</b>	03/02/2010
2010022003	PS-1000006(VR) San Joaquin County Stockton--San Joaquin A variance application to vary the lot size, width, and side yard setback requirements in the medium density residential zone (R-M). If the variance is approved, the underlying project is a major subdivision application to subdivide one existing parcel with 13 condominium units into 23 parcels.	<b>Neg</b>	03/02/2010

2008072005	Natomas Interstate 80 (I-80) Bicycle and Pedestrian Overcrossing Project (CIP# HC21) Sacramento, City of Sacramento--Sacramento The City of Sacramento proposed to construct a pedestrian/bicycle overcrossing (POC) over Interstate 80 adjacent to the Natomas Main Drainage Canal where the Natomas West and Natomas East Drainage canals merge. The City also proposes to construct an at-grade level bridge (Canal Bridge) across the West Drainage Canal to link the north end of the POC with the existing trail. The project will also consist of all railings and fencing, grading, paving and slope protection, signage, and lighting associated with the POC. The POC will consist of a cast-in-place box girder section, supported by two east-in-place concrete abutments and five cast-in-place concrete columns on driven piles. The Canal Bridge will include a pre-manufactured steel truss "flat slab" structure this unit will consist of weathering steel, concrete deck, and smooth steel handrails; it will be designed to be removable as needed by the Reclamation District 1000 for maintenance of the Canal. Concrete will also line the canal bottom under the bridge and 10 feet beyond in both directions.	<b>NOD</b>	
2008122067	Lake Forest Erosion Control Project - Area B Placer County --Placer Placer County proposes to move Lake Forest Creek from a culvert to a meadow surface. The SEZ and Wildlife Phase will construct ~3,000 ft of new channel, enhance 40 acres of SEZ, improve water quality, and enhance terrestrial and aquatic habitat.	<b>NOD</b>	
2008122074	Proposition 50 Pipeline, Water Treatment and Storage Project Jackson, City of Lone--Amador The project proposes to construct a newly dedication water conveyance pipeline ~3.6 miles in length from Lake Pardee to a treatment facility located at Lake Amador Recreation Area (LARA) and then into the Jackson Valley servicing customers along the way. A 350 gallon per minute water treatment plant, and a 300,000 gallon storage tank will be incorporated into the system at the LARA facility. There will be a 16" raw water pipeline that will travel from the North Spillway of Lake Pardee down the Carson Creek Drainage to the treatment facility (a 1.1 mile section of pipeline). The route travels over rangeland which includes, California annual grasslands and Blue oak woodlands while crossing three different creeks and drainages along the route. From the treatment facility into the valley there will be an 8" treated water pipeline installed that will take advantage of already existing roads and road easements until termination near the Oaks Community.	<b>NOD</b>	
2009042033	Van Sickle Bi-State Park Tahoe Conservancy South Lake Tahoe--El Dorado Authorization to enter into easements within the Van Sickle CA/NV Bi-State Park Project area to allow for construction of the park access drive and related operational improvements and to take related actions to facilitate project implementation.	<b>NOD</b>

<b><u>Documents Received on Monday, February 01, 2010</u></b>			
2009102073	<p>Sheldon and Waterman Tentative Subdivision Map Elk Grove, City of Elk Grove--Sacramento The Applicant is proposing:</p> <ul style="list-style-type: none"> <li>- A rezone from AG-80 (General Agriculture) to AR-2 (Agricultural-Residential Zone 2 Acres Min.); and</li> <li>- A tentative subdivision map to divide the existing single 118 +/- acre parcel and create 26 new lots (ranging from 2-4 acres in size) and one remainder open space lot (~50 acres in size).</li> </ul> <p>The proposed project does not include development of the 26 new residential parcels beyond grading and construction of improvements (e.g., roads, utilities, storm water drainage). It is anticipated that the lots will be sold and developed as custom homes by future individual property owners. The design of the subdivision is divided into two sub-areas - the east and west sides acre remainder lot. The east side consists of six 2 acre lots and the 50 +/- acre remainder lot. The entire eastern side of the project site is proposed for development. A total of 20 lots would be created in this portion of the project site. All would take access off of a loop road with two access points off of Sheldon Road.</p> <p>The project includes the establishment of two multiuse trail corridors. The first would be located directly underneath the power line corridor on the western-most side of the property. The second would be located directly east of Laguna Creek. As part of this project, the western power line trail will be developed.</p>	<b>NOD</b>	
2009121016	<p>Palmer Reservoir Replacement Project Coalinga, City of Coalinga--Fresno</p> <p>The project is the construction of a new 3 million gallon (MG) above-ground steel water reservoir for the City of Coalinga. This reservoir would serve in parallel with and possibly replace the existing 2.8 MG Palmer Reservoir located on West Palmer Avenue. The existing reservoir was identified for repairs in the 2005 City of Coalinga Water Master Plan. The proposed new Palmer Reservoir would be located approximately 90 feet to the south of the existing reservoir. The proposed project would also include construction of buried underground new water pipes to connect the new reservoir to the existing water supply, as well as connect the new reservoir to the transmission pipelines that carry water to the City.</p>	<b>NOD</b>	
2009122036	<p>Ranchero Group Treated Water Line Extension Project Nevada Irrigation District Auburn--Nevada</p> <p>Nevada Irrigation District (NID) proposes to construct and operate a new treated water distribution system to serve 119 existing residential parcels. The purpose of the project would be to provide treated water service to landowners within the NID service area, consistent with NID's Lake of the Pines Treated Water Master Plan (NID 1989) and in response to landowner requests for this service from NID. Property owners have expressed interest in receiving NID treated water service to replace or supplement groundwater sources obtained from individual private wells. The Proposed Project would enable NID to meet the community's existing potable water demands during peak summer months. Implementation of the Proposed Project also would enable NID to meet future treated water supply demands associated with planned and approved development defined by the Nevada</p>	<b>NOD</b>

	character and pedestrian nature of the City while encouraging alternative modes of transportation, including the rail system that connects San Diego to Los Angeles. The Transit Zoning Code is broken down into 9 district subzones.		
2009091018	Malibu Parks Public Access Enhancement Plan - Public Works Plan Santa Monica Mountains Conservancy Malibu--Los Angeles NOTE: Review Per Lead	<b>EIR</b>	03/22/2010
	The Plan includes a comprehensive set of policies and implementation measures, and identifies specific actions and park improvements, intended to enhance public access and recreation opportunities for specific park properties and recreation areas within the City of Malibu and Los Angeles County. The Plan would develop an interconnected system of trails, parks, open space, and habitats, including new parking, camping, day-use and trailhead improvements. The project also includes potential widening of, improvements to, and removal of encroachments impacting public safety along certain access roads within the project area, where necessary for ingress/egress and/or to meet standards of the appropriate fire agency(ies). The proposed improvements would be phased over time subject to funding.		
1995124011	Auxiliary Dike and Floodwall Project U.S. Army Corps of Engineers NOTE: FONSI / Supplemental EA	<b>JD</b>	03/03/2010
	The Auxiliary Dike and Floodwall Project is part of the Prado Basin flood control improvements under the Santa Ana River Mainstream Project (SARP). The project analyzed and approved in the 1988 Phase II General Design Memorandum (GDM)/Supplemental Environmental Impact Statement (SEIS) and 2001 Final SEIS/Environmental Impact Report (EIR). The Auxiliary Dike and Floodwall Project would be constructed in the same fashion as the approved Auxiliary Dike; however, the design alignment would be slightly modified to reduce impacts to riparian and coastal sage scrub vegetation. The main objective of this project would be the same as the approved Auxiliary Dike project, which is to provide flood protection for the SR 91 Riverside freeway and to protect the lives and properties (homes and businesses) of individuals residing in the project area.		
2009032016	First Street Development Sonoma County Sonoma--Sonoma NOTE: Review Per Lead	<b>MND</b>	03/04/2010

2009074002	North Valley Regional Water Infrastructure Section Recycled Water (RW1) Pipeline Project U.S. Army Corps of Engineers Lancaster--Los Angeles NOTE: Final / FONSI	<b>FON</b>	
------------	--	------------	--

The North Valley Regional Water Infrastructure Section Recycled Water (RW1) Pipeline project in the City of Lancaster, Los Angeles County, CA, is to provide irrigation of landscape within the project area (i.e. park, schools, cemetery, etc.), and soil compaction and dust control at construction projects and at the Lancaster Landfill. The recycled water could also be used for irrigation of median strips, and other landscaped areas located in the vicinity of the distribution systems, and for dust control in construction of new developments, and landscape irrigation of these new developments in the City of Lancaster. The Section RW1 Pipeline

	property boundaries in several phases over a 10-year timeframe.		
2009071071	Anaheim Regional Transportation Intermodal Center (ARTIC) Orange County Transportation Authority Anaheim--Orange The City is proposing to relocate the existing Metrolink/Amtrak station from the current location south of Katella Avenue and west of State Route (SR) 57. The new station, known as ARTIC, will be located south of Katella Avenue, east of SR 57 and Douglass Road, and west of the Santa Ana River on an approximately 16 acre site. ARTIC is proposed to include a three level terminal building of approximately 220,000 square feet. The above grade uses will include terminal operations, passenger-oriented retail/restaurants, and civic space/public plaza. The below the building uses will include bus waiting and service areas. The facility will include an underground concourse with access to Metrolink/Amtrak and a parking lot south of the railroad ROW.	<b>NOP</b>	03/08/2010
2010021020	Sea Breeze Apartments Los Angeles, City of Los Angeles, City of--Los Angeles The Proposed Sea Breeze Apartments Project (Lot 2 and Lot 3) would involve the development of two six-story structures containing residential uses and parking. Both structures would include two above-grade levels of parking and four levels of residential uses with 176 multi-family apartment units, for a total of 352 residential units. In addition to Lot 2 and lot 3, the Applicant has proposed a development scenario for Lot 4 and Lot 5 (known as the Add Area). The Add Area would involve the development of 17,904 square feet of retail space over the two lots and any required parking for the retail space.	<b>NOP</b>	03/08/2010
2010021014	Tentative Tract 2653/ Canyon Oaks General Plan Amendment and Zoning Change Pismo Beach, City of Pismo Beach--San Luis Obispo General Plan Amendment: The project would result in the construction of 25 low-density single-family residences. There would be no increase in the number of residences projected in the General Plan. The proposed interior road for Tract 2563 is not a throughway and would only serve the proposed lots. Proposed Planned Development: The Proposed Project is a planned development consisting of 20 lots that take access from Price Canyon Road and five (5) lots fronting Lemoore Streets.	<b>Neg</b>	03/08/2010
2010021015	Tulare County 2009 Homing Element Tulare County --Tulare By law, every city and county in California must adopt a Housing Element as part of its General Plan. The purpose of the Housing Element is to ensure that local governments adequately plan to meet the housing needs of all people within the community--regardless of their income. The underlying premise of Housing Element law is that, for the private market to adequately address housing needs and demand, local governments must adopt land use plans and regulatory systems which provide opportunities for, and do not unduly constrain, housing development. All jurisdictions are required to update their Housing Element approximately every five years. The Tulare County Housing Element is not a development project and does not alter the environmental process of any	<b>Neg</b>

<b><u>Documents Received on Thursday, February 04, 2010</u></b>			
	proposed development.		
2010021016	Remedial Action Plan, Proposed South Region High School #9 Toxic Substances Control, Department of South Gate--Los Angeles The project involves approval of a Remedial Action Plan (RAP) by the Department of Toxic Substances Control for the proposed South Region High School Site #9 pursuant to Health and Safety Code chapter 6.8. The RAP focuses on excavation and off-site disposal of approximately 42,000 cubic yards of soils impacted with metals (antimony, arsenic, copper, hexavalent chromium, lead, and thallium), polychlorinated biphenyls, volatile organic compounds, polynuclear aromatic hydrocarbons, and total petroleum hydrocarbons. After completion of the planned excavations, cleanup confirmation sampling and site restoration will be conducted. If necessary, additional soil volume will be excavated to ensure all impacted soils containing the identified chemical of concerns at concentrations of the corresponding cleanup levels or above have been properly removed.	<b>Neg</b>	
2010022017	Hunters Point Power Plant Remediation Project Toxic Substances Control, Department of San Francisco--San Francisco Excavation and Offsite Disposal of Contaminated Soils and Backfilling Areas with Clean Fills--Soils onsite and divided into two categories: (a) soils contaminated by former power plant activities ("contaminated soil"); and (b) historic fill that was not contaminated by power plant activities, but that contains NOA and naturally occurring metals from local serpentinite deposits and other sources ("historic fill"). For contaminated soil, the Project would involve excavation and offsite disposal followed by backfilling with clean fill (comprised of uncontaminated excavation overburden or benching soils from onsite historic fill and/or serpentinite-free clean soil imported from offsite). Where benching will not be possible, excavations will be shored.	<b>Neg</b>	
2010022019	Anchor Ba Downdrain Reconstruction Caltrans #3 --Mendocino The California Department of Transportation (Caltrans) proposes to repair a culvert on State Route 1 at Post Mile (PM) 4.47 in the town of Anchor Bay in Mendocino County. The proposed project is to replace the culvert downdrain. No work will be done in the existing crossdrain, except where the new cable-anchor system will be attached to the last joint of the existing culvert; Therefore no concrete pile anchors will be required. Removal of the existing downdrain will involve debris and/or vegetation clearing and grading. The existing downdrain will then be replaced by a new rock-lined ditch and black plastic downdrain. The rock-lined ditch will contain two pools that serve as frog habitat and willows will be planted between the rocks. There will be no excess dirt because the slope of the new downdrain will be determined by re-grading the existing embankment.	<b>Neg</b>	
2010022020	Culvert Rehabilitation Project Caltrans #3 Fort Bragg, Willits--Mendocino The California Department of Transportation (Caltrans) proposes to rehabilitate 49 culverts on State Routes 1, 20, and 101 in Mendocino County. The project proposes to remove and replace or rehabilitate culverts along State Route 1 between the towns of Anchor Bay and Little River; on State Route 20 between Fort Bragg and Willits; and on U.S. Highway 101 north of Willits.	<b>Neg</b>

<b><u>Documents Received on Thursday, February 04, 2010</u></b>			
2009112081	Santa Clara de Asis Project Santa Clara, City of Santa Clara--Santa Clara NOTE: Reference SCH# 1999102073.  The project proposes to amend the Master Community Plan for the Rivermark-Agnews West Campus to allow Medium Density residential uses on the 2.3-acre project site and develop 50 attached single-family units (i.e., townhouses). The project site is currently identified as Planning Area 25 in the Master Community Plan. The project proposes to comply with the original Rivermark Master Community Plan Design Guidelines and Development Standards for Medium Density neighborhood (14-25 dwelling units per acre). Parking, landscaping, and open space are also included as part of the project. A Development Area Plan and Vesting Tentative Map is included in the development application.	<b>SBE</b>	
1984020113	Non- Exclusive Geophysical Survey Permit on Tide and Submerged Land California State Lands Commission --STATEWIDE Authorize issuance to Sea Engineering, Inc., of a non-exclusive geophysical survey permit to conduct low energy geophysical surveys from February 2, 2010 through February 1, 2011, within regions I, II, III, and IV of the California Coast.	<b>NOD</b>	
2004072028	Atwood 80 (PEIR T20040346) Placer County Auburn--Placer The project proposes to develop a 65 lot Planned Residential Development on a +/-79.4 acre parcel along Atwood Road in the North Auburn area.	<b>NOD</b>	
2006062002	Bay Division Pipeline Reliability Upgrade Project San Francisco, City and County of Fremont, Redwood City--Alameda, San Mateo A 7 mi. steel pipeline extending from MissionBlvd. in Fremont to the Newark Valve Lot, located within the existing SFPUC ROW of BDLP Nos. 1 & 2; A 5 mi. tunnel from the Newark Valve Lot to the Ravenswood Valve Lot, crossing under the Bay and the adjacent marshlands; BDPL Nos. 1 & 2 would tie into the tunnel at both ends and would be decommissioned between the Newark and Ravenswood Valve Lots; A 9 mi. steel pipeline extending from Ravenswood Valve Lot to Pulgas Tunnel Portal, located within existing ROW of BDPL Nos. 1 & 2.	<b>NOD</b>	
2006079038	San Pasqual Verizon Wireless: ZAP 02-029, ER 02-09-006 San Diego County Unincorporated--San Diego The applicant requests a Minor Use Permit Modification to authorize the installation and operation of an emergency back-up generator to be located at an existing unmanned wireless telecommunications facility. The proposes emergency generator would be located within the existing equipment enclosure associated with the previously approved wireless telecommunications facility. The project would also consist of the addition of intake and exhaust silencers, a new enclosure door, and a new non-combustible roof for the existing equipment enclosure.	<b>NOD</b>

<b><u>Documents Received on Thursday, February 04, 2010</u></b>			
2007062084	Hidden Falls Regional Park (PEIR T20070444) Placer County Lincoln, Auburn--Placer This project proposes to add ~979 acres to the already existing Hidden Falls Regional Park with an additional access and parking area via Garden Bar Road, road improvements along Garden Bar Road, construction of a multiple-use trail system, and implementation of other passive recreational facilities that would be located within the Park.	<b>NOD</b>	
2008012065	Martinez Marina Waterside Improvements Martinez, City of Martinez--Contra Costa This project proposes to make improvements to various features of the Martinez Marina (the Marina). The Marina is a 70 acre facility located within a larger 330 acre regional park (Martinez Regional Shoreline) in the City of Martinez. The Regional Shoreline is jointly administered by the East Bay Regional Park District and the City of Martinez. The Marina is a full-service public facility that includes 400 boat slips, a breakwater on the northwest, north, and east sides, fueling docks and sewage pumpout, restaurant, bait shop, four-lane boat launch ramp, harbormaster's office, yacht club, public fishing pier, among other amenities. Many of these features are again damaged, and/or in need of repair or replacement. This project proposes improvements to various Marina components such as breakwater improvements, dock system replacement, dredging, and demolition of an abandoned pier.	<b>NOD</b>	
2008071141	San Joaquin River Bank Repair Project Firebaugh, City of Firebaugh--Fresno Repair of a 300 +/- foot long portion of the west bank of the San Joaquin River that was damaged by flooding in 2006. Repair strategy consists of installation of a sheet pile/Reno Matress system.	<b>NOD</b>	
2009032084	I-580 Westbound HOV Lane Project (EA Np. 890820) Caltrans #4 Dublin, Livermore, Pleasanton--Alameda The Project would construct a westbound HOV lane along a 13.1 mile segment of I-580, beginning west of the Greenville Road undercrossing (Post Mile 8.29) and ending west of the San Ramon/Foothill Road overcrossing (Post Mile 21.43) in eastern Alameda County.	<b>NOD</b>	
2009071057	Gill Ranch Gas Storage Project Public Utilities Commission Mendota--Fresno, Madera The project includes the storage of natural gas in depleted underground reservoirs within the Gill Ranch Gas Field. The storage field components include construction and operation of a compressor station, up to 15 new injection/withdrawal wells at 4 well pads, and up to 8 observation/monitoring wells at 5 well pads. An approximately 27-mile underground pipeline will connect the storage reservoirs with PG&E's transmission system, and an approximately 9-mile electric power line will deliver electricity to the compressor site.	<b>NOD</b>

<b><u>Documents Received on Thursday, February 04, 2010</u></b>			
2009112036	Vietnamese Community Center (P09-016) Sacramento, City of Sacramento--Sacramento The proposed project includes the construction of a 12,481 sf community center on ~2.25 acres in the Standard Single Family (R-1) and Two Family (R-2) zone. Entitlements for the project include a Special Permit.	<b>NOD</b>	
2009112049	City of Foster City Housing Element Foster City Foster City--San Mateo The State of California requires that all jurisdictions periodically update the Housing Element of their General Plans. Within these Housing Elements, the State mandates that local governments plan for their share of the region's housing need for all income categories. In the case of the San Francisco Bay Area, the Association of Bay Area Governments (ABAG) and the State Housing and Community Development Department (HCD), determine the number of plan for 486 units in the 2007-2014 period.	<b>NOD</b>	
2009121089	Salem Apartments Glendale, City of Glendale--Los Angeles The project involves the development of a 36-unit affordable rental housing project. Four of the 36 units will be developed as live/work units. The project site is located on four adjoining lots totaling approximately 27,910 square feet (0.64 acres). A total of 58 parking spaces will be provided in a semi-subterranean parking garaged with access from Salem Street.	<b>NOD</b>	
2009122046	Padis Vineyard-Vineyard Conversion #P09-00340-ECPA Napa County Napa--Napa The project includes the conversion of ~2.4 gross acres (2.03 net acres) to vineyard, including earthmoving activities, and installation and maintenance of erosion control measures associated with the new vineyard, installed without the benefit of an approved erosion control plan within a 12.68 acre parcel. The project applicant has prepared an Erosion Control Plan (ECP) as required by Napa County code (Chapter 18.108, "Conservation Regulations").	<b>NOD</b>	
2010028050	North Tahoe Fire Chipping Program North Tahoe Fire Protection District --Placer This project includes the chipping and disposal of vegetative material generated by homeowners doing their residential defensible space work as per California PRC 4291. All work will be done on pavement and in no cases will chipped material be placed in stream zones or sensitive areas. A total of two tow vehicles and two chippers will be used for this project.	<b>NOE</b>	
2010028051	Kuhlmann Pond Water Diversion Pump (1600-2009-0228-R2) Fish & Game #2 Grass Valley--Nevada Placement of a screened pump into Little Clipper Creek and diversion of up 6.7 acre feet of water per year between May and October for purposes of pasture irrigation. The water has been purchased from Nevada Irrigation District.	<b>NOE</b>

<b><u>Documents Received on Thursday, February 04, 2010</u></b>			
2010028052	Stream Alteration Agreement No. 2009-0185-R4 Grayson Bridge Seismic Retrofit and Rock Slope Protection at Laird Slough in the San Joaquin River Fish & Game #4 --Stanislaus The seismic retrofit of the Grayson Road Bridge by adding hinge extenders to the existing hinges on the bridge, and the installation of 1,233 cubic yards of rock slope protection. No construction will occur within the active water channel, and no riparian or wetland vegetation will be removed.	<b>NOE</b>	
2010028053	Streambed Alteration Agreement No. 2009-0098-R4 for the California Water Service Company's St. Johns River Boring Project Fish & Game #4 Visalia--Tulare The Project will use Horizontal Directional Drilling (HDD) to install a 14-inch diameter HDPE pipe a minimum of 6 feet underneath the bottom of the channel of St. Johns River. The Project will be constructed in two (2) phases. The first phase involves drilling a horizontal hole to the profile of the bore. Depending on the soil conditions, the hole may require multiple passes of reaming. Bentonite based drilling fluid is injected into the hole through the hollow stem of the drilling rod.	<b>NOE</b>	
2010028054	Agreement 2009-0214-R4; Ingram Creek Bridge Replacement Fish & Game #4 --Stanislaus The proposed Project will replace the existing Ingram Creek Bridge (35.5 feet long by 40 feet wide) with a clear span bridge (44 feet long by 42 feet 10 inches wide). This will require removal of the existing bridge abutments and the existing center bent, realignment of the existing levee access roads, extending an existing 24-inch culvert which flows from an existing roadside ditch, under the levee access road and into the creek and placing rock slope protection (RSP) (12 feet x 6 feet) at the outlet. In order to meet current storm water standards, two new 18-inch concrete pipes will be installed along either side of the road to channel storm water from the "V" ditches which collect runoff from the roadway before the water is allowed to enter the creek.	<b>NOE</b>	
2010028055	High Performance Building Facade Solutions - Phase 2 Energy Commission Berkeley--Alameda This project will build upon the experiences of project 500-06-041. The project will develop, or support development and deployment of, promising near-term and emerging zero-energy building (ZEB) facade technologies for solar control and daylighting of commercial buildings, addressing two of the largest end uses in California commercial buildings: cooling and lighting. The work will focus on both technology development and tools development.	<b>NOE</b>	
2010028056	Bruin Ranch Open Space Conservation Acquisition Placer County Auburn--Placer The conservation benefits of protecting the over 2,200 acre Bruin Ranch property are significant. The habitat communities found on the property include: blue oak woodland, blue oak woodland savannah, blue oak/foothill pine woodland and valley foothill riparian habitat. The Bear River and its tributaries transect the property. The site is presently grazed with dry pasture and irrigated pasture present on the property. One of the largest unfragmented tracts of oak woodland habitat left in Placer County. Several state and federal species special status	<b>NOE</b>

2010022026	<p>PLN2009-00195 The Horse Park at Woodside Communications Facility San Mateo County Woodside--San Mateo</p> <p>The applicant proposes to construct a wireless communications facility which will be a relay station and integrate into an existing wireless communications system. The proposed facility is to facilitate research on a biological preserve which is approximately 1,500 feet away from the site. The site is on land owned by an education institution, and developed with an existing equestrian facility. The equestrian center is a non-profit, private facility, which consists of stables, horse arenas, trials, and parking.</p> <p>The site of the proposed communications facility is approximately 400 feet north of Sand Hill Road, a portion of the Junipero Sierra State Scenic Corridor. It will consist of: (1) a 4' by 4' concrete pad, (2) on 15-foot monopole, (3) two 24" dish antennas, and (4) 75 feet of underground electrical cable. Disturbance on the site will be minimal and will involve use of existing access roads, minor trenching and infrequent maintenance. Collocation on an existing monopole maintained by a wireless communications carrier was not possible due to the directional nature of the antenna.</p>	<b>MND</b>	03/09/2010
2010022027	<p>Trinity Alps Resort Use Permit P-09-33 Trinity County --Trinity</p> <p>Request to amend existing use permit to add 10 small cabins and 1 family size lodge to a resort with 43 existing cabins, general store, restaurant, manager's unit and other out buildings. The cabins will be palced in spots where older cabins were removed due to fire, flood or falling trees over the years.</p>	<b>MND</b>	03/09/2010
2010022028	<p>Queens Avenue/State Route 99 Interchange Improvements Project Yuba City Yuba City--Sutter</p> <p>The City of Yuba City proposes to implement operational improvements to the State Route99/Queens Avenue interchange ramp intersections and adjacent frontage road intersections. The purpose of the proposed operations improvements is to address existing (and/or projects near-term) operational deficiencies at, within and adjacent to the study ramp intersections. The proposed improvements include the following features:</p> <p>Widening of the SR 00 off-ramp approaches to Queens Avenue to add turn lanes. Installation of traffic signals at SR 99 ramp intersections with Queens Avenue Provision of ADA upgrades to the existing sidewalks on Queens Avenue. Realignment of the parking stalls on the south side of the Queens Avenue/Peach Tree Lane intersection. Access modifications at the Queens Avenue/ East Onstott Road intersection.</p>	<b>MND</b>	03/09/2010
2002022026	<p>Clos de la Tech Winery and Zoning Text Amendment San Mateo County --San Mateo</p> <p>This project has been revised by the applicant since the Draft EIR that was prepared and circulated in July 2008. Because of the revisions now proposed by the project applicant, the County is undertaking a new environmental review of the project as it is currently proposed. The project applicant has proposed a winery that would be located within three existing caves located along the ridgeline at the end of Langley Hill Road. These caves would house winery operations (crushing, bottling, and storage), winery offices, and living quarters for up to six people. A service building and living quarters for up to 15 seasonal workers are also</p>	<b>NOP</b>	03/09/2010

2009122039	<p>North Yreka Creek Trail Project Yreka, City of Yreka--Siskiyou</p> <p>The proposed project implements improvements recommended in the Yreka Creek Greenway Master Plan (as adopted in August 2005) including creation of a new trailhead and multi-purpose trail along a northern reach of Yreka Creek and improvements at the existing Greenway development at the Visitor's Center. The project also includes floodplain enhancement and habitat restoration along Yreka Creek in an effort to reduce impacts of flooding on downstream properties. The project addresses numerous regional and regulatory priorities and provides ancillary benefits to water quality, ground water recharge, and improvements to aquatic and riparian habitat along Yreka Creek, an anadromous fishery. The proposed project is designed to increase recreational opportunities within the City of Yreka as well as improve habitat and flood attenuation in an effort to reduce flood effects on the City's WWTP and properties within the northern portion of the City. This project, in combination with previously completed and future planned stormwater management projects, is part of a cumulative effort by the City of Yreka to reduce flood impacts in combination with new open space recreation on properties along Yreka throughout the City.</p>	<b>NOD</b>	
2009122051	<p>Giacomini Lot Line Adjustment Humboldt County Eureka--Humboldt</p> <p>Lot Line Adjustment between 3 existing parcels. Parcel 1 is approximately 5.82 acres in size and remains undeveloped at this time. Parcel 2 is approximately 7.19 acres and is currently developed with an approximately 1,400 ft. square single-family residence, approximately 900 ft. square mobile home, barn, and a number of other agricultural and accessory structures. Parcel 3 consists of a 0.9 acre strip of land approximately 35 feet wide and 1,777 feet long. Parcel 3 is developed with on agricultural structure and is encroached upon by a structure partially located on Parcel 2. The Lot Line Adjustment proposes to reconfigure the boundaries of Parcel 3 adding approximately 1.87 acres of land taken from Parcel 1 and Parcel 2. All three parcels lie within the boundaries of the Humboldt Community Services District. The single-family residence on Parcel 2 is currently served by a private sewage disposal system. Though no new development is proposed at this time, the development potential of Parcel 3 will be greatly increase. Therefore, the proposed Lot Line Adjustment cannot be considered "de minimis".</p>	<b>NOD</b>

<b><u>Documents Received on Tuesday, February 09, 2010</u></b>			
2010021030	<p>Lake Elsinore Motocross Facility Change in Operations Lake Elsinore, City of Lake Elsinore--Riverside</p> <p>The proposed project requests that the Planning Commission approve a modification to an existing Conditional Use Permit(CUP) (CUP No. 2001-05), which would allow for changes in operation of the existing motocross facility. Compared to the use permitted under the existing CUP, the maximum number of vehicles operating at the motocross facility at any one time is reduced by nearly 50 percent. The proposed modification to the CUP would permit the use of the facility by off-road trucks and similar vehicles on a track located at the northwestern corner of the site. Patrons of the facility will continue to utilize the existing tracks located on-site.</p>	<b>MND</b>	03/10/2010
2003051002	<p>Michael Brasil Dairy Expansion Project Merced County --Merced</p> <p>This project proposes CUP 07-004 to allow the expansion of the permitted dairy herd to 2,400 animals (2,000 milk cows and 400 support stock). This would represent an increase of 1,390 animals from that originally permitted under CUP 03-001 and 1,015 animals from existing numbers. The proposed project would include construction of a new freestall barn. Construction of the proposed dairy barn would occur north of existing facilities and would convert approximately 7 acres of existing cropland to active dairy facilities. With the proposed expansion, the dairy operator would use adjacent fields to receive wastewater; therefore, the acreage of cropland receiving wastewater would increase from 130 acres (existing) to 278 acres (proposed).</p>	<b>NOP</b>	03/10/2010
2008071083	<p>Mallory Way Bungalows Project Ojai, City of Ojai--Ventura</p> <p>The proposed project would involve the construction of 23 condominium units on a 3.58 acre property. All but seven of the existing 25 rental units on the site would be demolished to accommodate the project. The remaining seven units (one duplex and five single story family units) and the proposed 23 new units would result in a total of 30 condominium units, or a net increase of 5 residential units. A total of nine single family units and 7 duplex units are proposed, with unit sizes ranging from 1,974 sf to 2,065 sf. Garage would range from 414 to 447 sf. In all, 45,270 new structural square feet and ~52,347 sf of paved areas are proposed.</p> <p>The applicant is requesting a density bonus pursuant to state law (Government Code Section 65915) by providing 7 affordable units on site (24% of the total units. Five of these would be designated and income-restricted for very low income occupants, and two for moderate income occupants. The approval of a density bonus would allow the development of 2 units in excess of the density allowed on the site pursuant to the City's General Plan (a maximum of 8 units per acre is allowed under the MHR designation, for a total of 28 units allowed on the 3.58 acres site).</p>	<b>Oth</b>	
2009042060	<p>Syar American Canyon Quarry - Reclamation Plan Revision #P07-00256-SMP Napa County American Canyon--Napa</p> <p>The proposed project consists of minor revisions to the grading contours, drainage patterns, and re-vegetation of an existing approved Reclamation Plan for quarrying activities approved under Use Permit #U-6364 to recognize existing site conditions</p>	<b>Oth</b>

	Yucca Loma Road and Yates Road, constructing two new bridge structures over the Mojave River and Burlington Northern Santa Fe railroad, and extending Green Tree Boulevard east to connect with Yates Road/Ridgecrest Road.		
2010022029	City of Saratoga 2007-2014 Housing Element Saratoga, City of Saratoga--Santa Clara The City of Saratoga Housing Element identifies and analyzes the existing and projected housing needs, and articulates the City's official policies for the preservation, conservation, improvement, and production of housing within the City.	<b>MND</b>	03/11/2010
2010022031	2010 Proposition 1-B Street Rehabilitation Project Dorris, City of Dorris--Siskiyou The proposed project includes rehabilitation of existing streets within the City of Dorris, CA. Each of the roadways shall be excavated to grades which allow for storm runoff will flow across the surface to the East. The majority of the storm runoff will flow into roadside retention basins on the East side of South Railroad Avenue. The northerly portion of South Railroad Avenue from Second Street to the State Route 97 shall be directed to a new storm drain pipe. The new storm drain conduit shall be buried four to five feet in depth and run westerly across Railroad Avenue and West along State Route 97 to an existing drainage inlet located at the East side of South Pine Street. The existing storm pipe runs westerly along State Route 97 and then northerly of the State Highway to an existing retention basin City Property. Existing onsite materials shall be excavated to subgrade elevations and be exported to an approved disposal site. Class 2 aggregate base shall be placed 8" in depth in areas to be paved followed by a 2.5" lift of asphalt concrete paving. Roadway shoulder materials shall be 6" deep class 2 aggregate base material. Existing roadside drainage ditches shall be modified as necessary to provide for runoff to flow to the East side of South Railroad Avenue.	<b>MND</b>	03/11/2010
2010022033	Elmwood Correctional Facility Perimeter Fence Enhancement, Emergency Water Supply, and East Gate Improvements Project Santa Clara County Milpitas--Santa Clara The proposed project consists of paving within the existing perimeter fence, installation of an emergency water supply tank, and installation of a new sallyport at the East Gate of the facility, widening of a portion of an existing access road on the site, and relocation of the East Gate guardhouse.	<b>MND</b>	03/11/2010
2010022034	Shell Martinez Crude Tank Replacement Project Contra Costa County Martinez--Contra Costa Replacement of two existing crude oil storage tanks and the existing crude oil mix tank with three new larger crude oil storage tanks, and construction of a new crude oil mix tank. The proposed project will also include refurbishment of an existing storage tank to allow it to be returned to crude oil service. Increase in the volume of crude oil shipments received at the marine terminal. Implement emission reduction projects as proposed measures to reduce project emissions to, or below, CEQA thresholds.	<b>NOP</b>	03/11/2010

2010022030	Sequoia Union High School District Alternative School Sequoia Union High School District Redwood City--San Mateo The Project is the construction and operation of up to ~16,103 sf of building space in a new two story building and up to 72 parking spaces in two lots. The new site would be occupied by either an alternative high school of an adult school. There is a possibility that the alternative high school could be a charter school or another District high school program.	<b>Neg</b>	03/11/2010
2010022032	Wesslund House Deck and Landscape at 80 Lagoon Rd Belvedere, City of Belvedere--Marin The applicant proposes to demolish an existing 2,983 sf home & bulkhead & construct a new 3,680 sf home & bulkhead at 80 Lagoon Road.	<b>Neg</b>	03/11/2010
2005041103	Mojave Water Agency Water Supply Reliability and Groundwater Replenishment Program Mojave Water Agency Victorville, Hesperia, Apple Valley, Unincorporated--San Bernardino The applicant proposes to construct a new groundwater recharge, conveyance, extraction facilities and the operation of existing facilities to provide for import, banking and return of banked groundwater. A proposed conveyance pipeline crosses five drainages (the Oro Grande Wash and unnamed tributaries to the Mojave River). The pipeline will be installed by open trench utilizing a 20 ft construction easement. The pipeline will be either a ductile iron pipe or steel pipe. Either type would be installed with native backfill and cement mortar lined and coated. Approximately 562 cy of fill material will be cut and backfilled at the Oro Grande Wash. The area will be excavated, the pipeline will be installed, and a concrete encasement will be utilized at the bottom of the ditch to allow for ~15 ft of scour.	<b>NOD</b>

<b><u>Documents Received on Thursday, February 11, 2010</u></b>			
2010024005	Pinnacles National Monument Communication Improvements National Park Service Hollister--San Benito NOTE: Review Per Lead  Pinnacles National Monument proposes to improve its internal radio communications capabilities presently considered deficient in many areas of the Monument. Pinnacles proposes to install a new radio repeater to improve NPS radio reception in high priority areas of the Monument. The timeframe for installation would be 2009-2010.	EA	03/04/2010
2010024006	Habitat Restoration and Update to the Fire Management Plan National Park Service Hollister--San Benito, Monterey NOTE: Review Per Lead  The National Park Service (NPS) has prepared a Habitat Restoration Environmental Assessment for Pinnacles National Monument that includes an Update to the Fire Management Plan (FMP) for the Monument. The Habitat Restoration ES addresses a suite of management tools to restore degraded habitats throughout the Monument with special emphasis on newly acquired lands (New Lands) of the former Pinnacles Ranch. These New Lands were acquired too late in the 2005 NEPA planning process to be included in the Monument's Fire Management Plan (FMP).	EA	03/04/2010
2005112126	Ballpark Study in the Diridon/Arena Area San Jose, City of San Jose--Santa Clara A major league baseball stadium with a seating capacity of up to 36,000 would be constructed on the project site under the modified project proposal. A detailed plan for the modified project has not yet been prepared but the modified stadium would have a similar configuration and orientation to that proposed in 2006. The stadium would be located on the same site as proposed in 2006 or, as an option, may be shifted approximately 100 feet to the south. Repositioning the stadium to the south would require that Park Avenue be narrowed from 4 lanes to two between Autumn Street and the railroad tracks but would avoid the need to reconfigure a Pacific, Gas and Electric (PG&E) substation located on the northwest corner of the proposed stadium site.	EIR	03/29/2010
2008052081	Oroville Walmart Project Oroville, City of Oroville--Butte The proposed project consists of the development of a 200,225 sf Walmart store on 20.75 acres in the City of Oroville. The Walmart store would operate 24 hours a day, 7 days a week, and would retail general merchandise and groceries. The project would provide 794 spaces for off-street vehicular parking. Following completion of the proposed project, the existing Walmart store at 355 Oroville Dam Boulevard, CA would be vacated and sold to another party.	EIR	03/29/2010

	managed by the Bureau of Land Management. The site of the Proposed Action is located on unincorporated land in the Mojave Desert, ~8 mile east of Lecerne Valley. Also include in the proposal is an interconnection to an existing Southern California Edison distribution line located north of the site. The proposal also includes an amendment to the CDCA Plan that would designate the proposed site as a suitable or unsuitable for solar energy generation.		
2007101055	Sweetwater Authority Brackish Groundwater Desalination Project Sweetwater Authority Chula Vista--San Diego The proposed expansion of the Richard A. Reynolds Desalination Facility would increase the desalinated potable water production from its current 5 million gallons per day (mgd) capacity to 10 mgd. Increasing potable water production of the desalination facility would help the Authority reduce reliance on imported water and improve the reliability of water supplied to the local communities. The proposed project would include 5 new wells sites, conveyance pipelines and expansion of the existing plant to accommodate the increase in capacity to 10 mgd.	<b>FIN</b>	
2010021035	Henderson Canyon Minor Subdivision (4 Lots + Rem); Tentative Parcel Map; TPM 21058 RPL2; ER 07-05-001 San Diego County --San Diego The project is a minor residential subdivision of a 119.40 acre parcel into 4 parcels and a remainder parcel. The proposed parcels range in size from 18.35 to 40.75 acres. The project site is located on Henderson Canyon Rd in the Desert Subregional Plan Area, within unincorporated San Diego County. The site is vacant. Access would be provided by a private on-site road connecting to Henderson Canyon Rd. The project would be served by on-site septic systems and imported water from the Borrego Water District. Extension of water utilities will be required by the project. Earthwork will consist of 1,980 cy of cut and 1,710 cy of fill.	<b>MND</b>	03/15/2010
2010021036	Thatcher Maintenance Yard Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project would improve the existing Thatcher Maintenance Yard, located at 3311 and 3233 South Thatcher Avenue in the Los Angeles community of Venice for use by the City of Los Angeles Bureau of Street Services and Bureau of Sanitation. The proposed project involves two phases. Phase 1 consists of demolishing the existing structures and perimeter walls, constructing a new 4,000 sf office and garage building for the Bureau of Street Services, and installing new paving and new perimeter walls, landscaping, and sidewalks. Phase II consists of constructing a new 7,400 sf office/storage building for the Bureau of Sanitation.	<b>MND</b>	03/15/2010
2010021037	Steven Polkow Monterey County --Monterey The proposed project consists of Coastal Development Permit to allow the demolition of an existing 1,529 sf single family dwelling and construction of a new 3,676 sf, three level single family dwelling with 1,284 sf completely below grade located on generally the same foot print and Design Approval. The project calls for 500 cy of excavation and 50 cy of fill for the driveway access to allow for a basement along with a garage (~8-12 ft of excavation below current grade). The	<b>MND</b>	03/15/2010

2010022038	Creekside Park Lighting Project El Cerrito, City of El Cerrito--Contra Costa The project area is located within the City of El Cerrito, proximate to City of Albany and City of Richmond city limits. The site is adjacent to a mixed-use neighborhood surrounded by residential uses to the north, the Albany Hill Park to the south, residential and institutional uses to the east and residential and commercial uses to the west. The site is about 0.2 miles east of I-80.  The project involves the installation of a lighting system along three blocks of an existing paved pedestrian pathway along Cerrito Creek in order to improve the attractiveness of the path as well as increase public safety (and perceived safety) of the project site as well as Creekside Park. The lighting system would be installed on the embankment of the creek (within 3 ft of the paved path) and would involve excavating holes and mounting light posts, pouring concrete, and trenching for and installaing the underground electrical conduit. Approximately 8 light poles would be installed.	<b>MND</b>	03/15/2010
2010022039	Upper Yuba Levee Improvement Project Three Rivers Levee Improvement Authority Marysville--Yuba The Three Rivers Levee Improvement Authority proposes to complete necessary levee improvements on the Yuba River South Levee (YRSL) in the Reclamation District (RD) 784 service area. The Upper Yuba Levee Improvement Project is located in the southern portion of Yuba County along the YRSL. The project area is located upstream of the confluence of the Yuba River and Feather River, east of the City of Marysville, and ~1 mile south of the Yuba River. The proposed project would provide enhanced flood protection within the Yuba River Basin, and would	<b>MND</b>	03/15/2010

	involve installing slurry walls, seepage berms, levee geometry corrections, levee slope erosion protection, and relief wells in the project area. The proposed improvements would occur along the YRSL between Simpson Lane and the Yuba Goldfields.		
2010022040	County File LP092053: Second Residence - Sunset Road Contra Costa County --Contra Costa The project is a request to obtain approval of a land use permit to construct a second single family residence with a detached garage on a privately-owned 11 acre property. The home proposed is single story at 2,532 sf with a maximum height of ~20 ft located towards the back of the lot on a proposed 2,673 sf building pad (40.5 ft x 66 ft). The detached garage is proposed at 567 sf (24 ft x 24 ft) with a maximum height of ~13 ft located immediately northwest of the proposed new residence. The subject site is located at 1130 Sunset Road in the Knightsen area.	<b>MND</b>	03/15/2010
2001091083	AT&T Fiber Optic Cable Project - San Luis Obispo to Los Angeles San Luis Obispo County --San Luis Obispo, Santa Barbara, Los Angeles, Ventura The applicant is proposing to revise the Ventura County portion of their plan to construct a fiber optic cable project to install buried fiber optic cable from the City of San Luis Obispo to the City of Los Angeles. A Notice of preparation was submitted previously for the entire route (September 2009). This revised portion is through existing FTB Vacation Conduit; new construction is limited to small tie-ins to existing conduit. With these project revisions, new build construction is 1.7 miles with 64.1 miles in existing conduit for a total of 65.80 miles in Ventura County.	<b>NOP</b>	03/17/2010
2010021040	Claremont Colleges East Campus Upland, City of Claremont, Upland--Los Angeles, San Bernardino The proposed project is a subdivision of land for phased development of a college sports complex with recreational/athletic fields, sports courts, parking, supporting building facilities and a sports medicine office in an 80-acre former aggregate quarry. The purpose of the phased development is the relocation of sports facilities and associated parking from the main college campus to the former quarry site as well as overflow parking for the campus.	<b>NOP</b>	03/15/2010
2010021041	GPA 00835, SP 00366, Change of Zone No. 07446, EIR No. 00523 and TPM No. 35872 Riverside County --Riverside The MR-628 LLC (project proponent) is proposing to implement a mixed use development on the Motte Lakeview Ranch, an approximate 639-acre site located within the community of Lakeview, an unincorporated area in western Riverside County. As presently proposed, the project proponent has prepared a draft Specific plan, the Motte Lakeview Ranch Specific Plan No. 366, that would allow conversion of the property to a mixed use development with residential, commercial, institution/education, park, and open space uses. To accomplish this, the project proponent has submitted applications seeking approval from the County for a General Plan Amendment, the SP 366 Specific Plan, a Change of Zone, a master Tentative Parcel Map and possibly a Community Facilities District to fund the required utility infrastructure systems for the project area. The Project will include approximately 357.6 acres of open space. The circulation	<b>NOP</b>	03/15/2010

2003111101	Pine Cove Water District Wells 21-24 & 17 Pine Cove Water District --Riverside To place into operation wells # 21, 22, 23, & 24 to the Pine Cover Water District domestic water system and to drill deeper Well #17.	<b>NOD</b>	
2006031122	Robert A. Nelson Transfer Station/Materials Recovery Facility Solid Waste Facility Permit Revision Riverside County Riverside--Riverside The Project is a proposal to revise the Robert A. Nelson Transfer Station/ Materials Recovery Facility SWFP to : 1) Permit for the production of compost and soil amendment by means of windrow composting of green and woody waste; 2) Permit on-site storage of soil amendment up to 90 days; and 3) Permit the storage of waste tires in 2 trailers to up to 1,500 tires. No changes to the daily capacity of 4,000 tons or composition of waste-stream of the facility.	<b>NOD</b>	
2006032129	Montezuma Wind Project Solano County Rio Vista--Solano Development and operation of a new wind energy facility, comprising 16 to 23 wind turbines that would generate up to approximately 37 megawatts (MW) of electricity, and related support facilities and infrastructure.	<b>NOD</b>	
2007061096	Modifications to Existing Gas-to-Energy Facility at Olinda Alpha Landfill Orange County Brea--Orange The proposed project will result in modification to the existing gas to energy facility at the Olinda Alpha Landfill. The proposed modifications will provide an environmental benefit overall, by converting a greater volume of landfill gas to Electricity and by reducing the amount of landfill gas flared.	<b>NOD</b>	
2008121039	SR-68/San Benancio Road Intersection Improvement Project Caltrans #5 Monterey--Monterey The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. Enrique Saavedra. The proposed Project would widen the bridge over El Toro Creek by approximately 24 feet to include two (2) new lanes. To accommodate the widened bridge, one (1) concrete abutment would be built on each side of the stream channel next to the existing abutments. Rock slope protection (RSP) would be installed to protect the abutments during high flows. On State Route 68, the highway would be widened on both sides to provide for a second-west to southbound left turn lanes. Concrete or rock-lined swales would be built to convey runoff water from the roads, and one (1) culvert may be extended with an energy dissipation pad built at the outlet. Approximately 0.50 acre and 0.15 acre of riparian habitat would be temporarily and permanently impacted, respectively, including removal of arroyo willow and coast live oak.	<b>NOD</b>
