STATE CLEARINGHOUSE

NEWSLETTER

February 1 – 15, 2011

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1 – 15, 2011.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2010 CEQA Guidelines are available from the Resources Agency's website at

<http://ceres.ca.gov/ceqa/>.

2011 CEQA Guidelines will be available soon.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger
Governor

STATE OF CALIFORNIA
Governor's Office of Planning and Research
State Clearinghouse and Planning Unit

Cathleen Cox
Acting Director

MEMORANDUM

DATE: July 1, 2010
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, State Clearinghouse Director
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at www.opr.ca.gov. A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2010**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Tuesday, February 01, 2011</u>			
2010102004	Downtown Riverbank Specific Plan Riverbank, City of Riverbank--Stanislaus The Draft Downtown Riverbank Specific Plan is intended to guide long-term revitalization of Riverbank's historic downtown through infill, redevelopment, and adaptive re-use. The approximately 218 acre Specific Plan Area (project site) is located in the historic downtown area of Riverbank. At buildout of the Specific Plan, the City assumes an additional 53 single-family dwelling units, 832 multi-family dwelling units, 152,859 sf of recreational/sports complex uses, 292,579 sf of retail and commercial service uses, and 89,558 sf of office uses.	EIR	03/18/2011
2010112046	New Brentwood Center Contra Costa Community College District --Contra Costa The project proposes the construction of a new education center, a satellite site of Los Medanos College, that would serve a maximum of 5,000 full- and part-time students. The center would have a total of 80 full-time and 200 part-time employees, including faculty and staff. As an education center, the proposed project would offer general education curriculum, but would not function as a full-service community college campus. Two, approximately 42,000-sf buildings would be located near the center of the project site for a total of approximately 84,000sf of classroom/office space. Each building would be two stories and approximately 35 feet in height. A total of 1,366 parking spaces would be provided in two surface lots.	EIR	03/17/2011
2010091003	Pipelines 3 and 4 Relining: State Route 52 to Lake Murray and Pipeline 3 30-inch Interconnect to Lake Murray Control Valve San Diego County Water Authority San Diego--San Diego The proposed project consists of the installation of half-inch thick, 69-inch diameter collapsed welded steel liners in approximately 19,200 linear feet of existing 72-inch-diameter pre-stressed concrete cylinder pipe. While underground activities would occur along the entire reach of the pipeline, above-ground disturbance activities would occur at specified portal locations and staging areas. Pipeline 4 would be accessed at 11 proposed portals extending over approximately 16,600 linear feet. Access to and relining of Pipeline 3 would occur over approximately 2,600 linear feet, through two more portal locations. In addition to the planned portals, access to the pipelines also would take place through up to 18 existing manhole structures and two temporary access shafts along the length of the project alignment.	FIN	
2011022003	Merlyn Quarry Excavation Permit and Reclamation Plan San Joaquin County --San Joaquin The project is for a Reclamation Plan and Quarry Excavation Permit for the establishment of a 63.3-ton quarry excavation and associated processing plant on approximately 146.2 acres of the total 251-acre land holding. The quarry would yield approximately 53.8 million tons of salable aggregate over the life of the project, and would operate continuously for at least a 50-year period. The proposed termination date for the site is December 31, 2052.	MND	03/02/2011

2011022009	Lagunitas Water Quality and Habitat Improvements Project Marin Municipal Water District --Marin Reduction of road-related fine sediment loading to improve water quality and stream habitat for the benefit of coho salmon and steelhead trout in the Lagunitas Creek Watershed. The project includes work at 23 sites. The treatments include the removal and installation of culverts, creation of critical and rolling dips, armoring of wet crossings, and installation of puncheons. In total, it is estimated that implementing treatments at the 23 sites would result in 2,727 cubic yards of sediment being saved from entering Lagunitas Creek over a 10-year period.	MND	03/03/2011
2011022002	Gleason Beach Roadway Realignment Project Caltrans #4 --Sonoma Caltrans proposes to construct a two-lane conventional highway on a new alignment connecting to the current alignment south of Scotty Creek, and at the north 0.45 miles north of Scotty Creek, moving the roadway eastwards and away from the coast.	NOP	03/02/2011
2011021001	Midnight & Pick-A-Part Auto Recycling Center San Bernardino, City of --San Bernardino The proposed project includes General Plan Amendment No. 08-05 and Conditional Use Permit No. 09-04. The General Plan Amendment is to change the General Plan land use designation of approximately 4.69 acres of land from CG-1, Commercial General and IL, Industrial Light to IH, Industrial Heavy district. The Conditional Use Permit is to establish 12,500 square feet of auto repair space at the existing 28.77-acres of vacant land at the southerly terminus of Preston Street. The proposal also includes construction of 17 canopies and related on-site improvements on an existing auto dismantling and vehicle storage facility located at 701 North Waterman Avenue in the IH, Industrial Heavy land use district.	Neg	03/03/2011
2010122031	Bighorn Sheep Hunting Fish & Game Commission -- Note: Draft EIR Functional Equivalent The State's wildlife conservation policy contains, among other things, an objective of providing sport hunting use of selected species where such use is consistent with sustainable wildlife populations. The project being considered is a proposal to modify the current hunting regulations as an element of bighorn sheep management. The objective of the proposal are to maintain viable bighorn sheep populations and to provide public sport hunting opportunities through regulated harvest.	Oth	03/18/2011
2010122032	Bear Hunting Fish & Game Commission -- Note: Draft EIR Functional Equivalent The State's wildlife conservation policy contains, among other things, an objective of providing sport hunting use of selected species where such use is consistent with sustainable wildlife populations. 	objective of the proposal are to maintain viable bear populations and to provide public sport hunting opportunities through regulated harvest.		
2002102092	2003 Long Range Development Plan University of California Davis--Yolo The proposed project would revise an existing roadway intersection with construction of a single-lane roundabout and pedestrian sidewalk. The project is a modification to the previously approved Robert Mondavi Institute Project.	NOD	
2003022062	Rancho Laguna Conceptual Development Plan Moraga, City of --Contra Costa The Rancho Laguna II project as approved is a residential subdivision with 27 single-family lots on a 180.2 acre site located on the east side of Rheem Blvd. between Via Barcelona and Fernwood Drive in the Town of Moraga. The project site was formerly part of a larger landholding Known as "Rancho Laguna de Los Palos Colorado." The applicant originally proposed 35 residential lots. Access to the project will be from Rheem Blvd. along Fay Hill Road. The proposed project clusters 8 residential lots paralleling Rheem Blvd. on D Drive and 19 residential lots in the upper development area along E Street, B Court and C Court. ~ 163 acres of the site will remain in open space.	NOD	
2005081098	Butcher Ranch-Tentative Tract Map No. 52214 Rolling Hills Estates, City of Rolling Hills Estates--Los Angeles The Applicant proposes to develop 11 single-family, detached dwelling units within the 8.55 acre project site, along with associated roadway and utility infrastructure improvements and a flood control basin. The total on-site grading includes 22,858 cubic yards of cut and 22,614 cubic yards of fill, with 1,244 cubic yards to be exported to a berm along Palos Verde Drive. The project as proposed includes partial fill of an on-site drainage feature and its associated riparian habitat as well as restoration of the natural drainage course through the development of a bioswale and detention basin that will outfall to a stand pipe inlet and existing 24" pipe conveyance system off-site.	NOD	
2010091003	Pipelines 3 and 4 Relining: State Route 52 to Lake Murray and Pipeline 3 30-inch Interconnect to Lake Murray Control Valve San Diego County Water Authority San Diego--San Diego The proposed project consists of the installation of half-inch thick, 69-inch diameter collapsed welded steel liners in approximately 19,200 linear feet of existing 72-inch-diameter pre-stressed concrete cylinder pipe. While underground activities would occur along the entire reach of the pipeline, above-ground disturbance activities would occur at specified portal locations and staging areas. 2011028001	Gary Land Conservation Contract and Farmland Security Zone Enrollment Humboldt County --Humboldt An application to establish approximately 100 acres into a Class C Agricultural Preserve pursuant to the California Land Conservation Act (otherwise known as the Williamson Act) and the Humboldt County Agricultural Preserve Guidelines.	NOE	
2011028002	Morrison Property Access Stairway Installation (1600-2010-0147-R2) Fish & Game #2 --Plumas The project is limited pouring of three separate re-enforced concrete anchor pads to allow installation of a fabricated aluminum stairway to allow boat dock and beach access over existing shoreline riprap at 154 Peninsula Drive on Lake Almanor. The pads will be placed as follows: 1 above the existing rip rap on the top of the bank; one pad midway down the rip rap slope and one at the base of the rip rap on the lake shore.	NOE	
2011028003	Health Sciences Teaching Center (PN 954032) and Telemedicine and PRIME 2 (PN 954036) University of California, Riverside Riverside--Riverside The Health Sciences Teaching Center (HSTC) and Telemedicine and PRIME 2 projects consist of a renovation of the existing Statistics Computer Building to accommodate the programmatic needs of the interim School of Medicine, in addition to the current program use for the Biomedical Sciences Program. The existing building, built in the early 1970s, comprises 24,751 assignable square feet. Elements of the projects will include a seismic retrofit and a building system upgrade of the primary utilities. These interior renovations will include partial demolition of walls, floors, ceilings, cabinets/casework and finishes, as well as utility systems, with new construction to reconfigure, upgrade and bring into new code compliance the same elements.	NOE	
2011028004	Land Transfer Parks and Recreation, Department of --Humboldt DPR will transfer approximately 5.8 acres of land in Humboldt Redwoods State Park to Lagoon Weekenders and in exchange, DPR receive approximately 5.9 acres of land from Lagoon Weekenders to resolve encroachment issues. The properties involved have been surveyed and appraised and will result in no monies being exchanged for land transfer. Save the Redwoods League will lift their deed restriction in order to affect the transfer.	NOE

2010051034	<p>Del Rio Road Commercial Area Specific Plan Atascadero, City of Atascadero--San Luis Obispo</p> <p>The Specific Plan consists of two components: 1) Walmart; and 2) the Annex. The Walmart component encompasses 26 acres and consists of a 129,560 square foot Walmart store, two 5,000 square-foot outlots, and 44 multiple family residential dwelling units. The Annex component encompasses 13 acres and consist of 120,900 square feet of retail/restaurant uses and 6 single family residential dwelling units. The Specific Plan would guide the development of the Walmart and Annex components and serve as the overlay zone for combined sites.</p>	EIR	03/18/2011
2010081047	<p>University Student Union Project California State University, San Marcos San Marcos--San Diego</p> <p>NOTES: Review per Lead</p> <p>The project proposes to design and construct an approximately 60,000 gross square foot (GSF), multi-story University Student Union (USU) building, with a footprint of approximately 20,000sf pm a site of approximately 85,000sf. The building would be located in a developed area of the Campus Center Neighborhood, west of Campus Way Circle and south of Campus View Drive. The proposed USU building would consist of five major components: food service and dining; retail; student activity areas; conference and meeting facilities; and student life offices for student groups, campus clubs and organizations. The building is intended to be Leadership in Energy and Environmental Design (LEED) certified. Landscape, hardscape, utilities and circulation improvements in the immediate vicinity of the building would be required.</p>	FIN	
2004061059	<p>San Elijo Elementary School Expansion Project San Marcos Unified School District San Marcos--San Diego</p> <p>Due to an increase in the number of students at the School and residential growth in the area of the School, the District desires to (1) add four relocatable classrooms to accommodate approximately 120 additional students, (2) add two additional relocatable classrooms for before and after school child care, (3) widen Schoolhouse Way, in the area immediately adjacent to the school, (4) expand the existing parking lot to add additional parking spaces necessary to accommodate parking demands arising in connection with both existing students and the additional student capacity added by the addition of more relocatable classrooms. Schoolhouse Way, in the areas to be widened by this Project, is a private road that is owned and maintained by the District. The purpose of the street widening and parking lot expansion is to alleviate traffic congestion at the School associated with the dropping off and picking up of students.</p> <p>This Project will increase the student capacity from an existing approximate 1,120 student capacity to approximately 1,240 students. Additionally, the child care relocatables may be used in the future to accommodate additional student capacity, potentially accommodating up to 60 additional students, or 1,300 students total.</p>	MND	03/03/2011

2011022004	<p>iPark Oakley RV and Boat Storage Oakley, City of Oakley--Contra Costa</p> <p>Conditional Use Permit and Design Review to construct and operate a covered RV parking and boat storage facility, including an office building to run the facility (Phase I), and future development (Phase II). The total site is approximately 11.7 acres. Phase I will consist of approximately 8.95 acres of covered parking, a 2,185 square foot, two-story administrative office building and required parking, and a stormwater treatment area. The RV and boat parking canopies will provide 170,320 square feet (or 316 spaces) ranging from 12' by 52' to 9' by 17'. Canopies are planned to be fitted with solar panels, the converted energy of which may be usable by customers storing their RV's or for sell back to PG&E. The remaining 2.7 +/- acres to the south of Phase I will be left for future development, currently conceptualized as interior light industrial types of uses.</p>	MND	03/03/2011
2011022006	<p>Volunteer Creek Stewardship Project Santa Rosa, City of Santa Rosa--Sonoma</p> <p>The project proposes to use volunteers to assist in creek stewardship and maintenance along 29 specific creeks and waterways in the City of Santa Rosa. These creeks will include natural, restored, and modified channels as well as a few specific standing bodies of water (Nielsen Pond for example). This is a separate program from the existing City of Santa Rosa routine maintenance program (previously permitted and established) where City, and County Staff maintain creeks and other waterways within the boundaries of the City of Santa Rosa. None of the sites in the existing routine maintenance program are included in the proposed Creek Stewardship Volunteer Program.</p>	MND	03/03/2011
2011022011	<p>Lincoln-Pleasant Grove 115 kV Reconductoring Project Regional Water Quality Control Board, Region 5 (Central Valley) Lincoln--Placer</p> <p>In order to maintain service reliability and meet increasing electric load demands in the City of Lincoln and surrounding area, PG&E proposes to replace approximately seven miles of 115 kV power line between Lincoln Substation and Pleasant Grove Substation. This project and other work being undertaken by PG&E in the area will minimize the potential for the future power demand overloads and ensure service reliability to the City of Lincoln and southwest Placer County. As part of this project, PG&E proposes to replace many of the existing wooden power poles with a combination of wood and fiberglass poles, and one tubular steel pole. The project route uses existing rights-of-way, largely along public roads. The project is located within or alongside areas with land uses which include industrial, residential, recreational, and natural protection.</p>	MND	03/04/2011
2011022005	<p>Beach Chalet Athletic Fields Renovation San Francisco, City and County of San Francisco--San Francisco</p> <p>The project proposes the renovation of the Beach Chalet Athletic Fields facility including the conversion of the four existing grass soccer fields to synthetic turf. The proposed project also includes the installation of ten 60-foot-tall athletic field light standards to allow for evening use.</p>	NOP	03/03/2011

	approximately 9,500 linear feet of water main along Via Marina, Admiralty Way, and portions of Fiji Way. Phase III will consist of installing approximately 9,800 linear feet of water main along Via Marina, Bora Bora Way, and Fiji Way.		
2007081156	Tehachapi Renewable Transmission Project Public Utilities Commission Tehachapi, Ontario--Kern, Los Angeles, San Bernardino The Project includes construction and operation of 149 miles of 500kV and 29 miles of 220kV Transmission lines, and associated substations. The Project as approved by the Lead Agency will alter the existing topography through grading for the construction and installation of roads, construction and upgrade of substations, and electrical transmission and communication systems. Grading for the Project will place fill in a portion of an unnamed desert wash that dissipates to sheet flow in the middle of the proposed Whirlwind Substation site. Fill material will be placed into approximately 390 linear feet of CA Department of Fish and Game ("CDFG") jurisdictional ephemeral drainage (approximately 0.03 acres of permanent disturbance, and 43 cubic yards of fill). A new, concrete-lined or rip-rapped channel will be constructed to divert flows around the Whirlwind Substation and distribute sheet flow south of the site. Equipment used for construction will include two (2) D9 Caterpillar tractors with side board, four (4) graders/scrapers, two (2) water trucks, and two (2) backhoes for placement of reinforced concrete pipe. The CDFG is issuing the Streambed Alteration Agreement referenced above as a responsible agency under the CEQA.	NOD	
2010031041	Orange County Parks Aliso and Wood Canyons Wilderness Park Repair Project Orange County Laguna Beach--Orange The project proposes to repair 4 separate areas of the existing trail network within the Aliso and Wood Canyons Wilderness Park, which were made impassable to emergency vehicles as a result of a 2004/2005 winter storm event. Proposed repairs include removal and replacement of corrugated steel pipes to convey future storm flows beneath the Wood Canyon Trail; erosion repair along the Wood Canyon Trail, including the removal of a fallen tree and rock riprap and replacement with compacted fill and placement of rock rip-rap; relocation of section of the Mathis Service Road/Trail; repair to the creek bank through cut and fill and placement of rock rip-rap; and repair and stabilization of the Valido Trail and adjacent creek bank through installation of a mechanically stabilize earth wall.	NOD	
2010101070	Pinacate Middle School Modernization Perris Union High School District Perris--Riverside The project would demolish the existing gymnasium building; remove modular classrooms from the campus; construct three new building (gymnasium building; administration/library building; and classroom building); and modernize one additional building on the campus. The total building area of the building to be built is 65,637 square feet. At project completion the school would have 37 classrooms in permanent building with total capacity of 1,110, reduced from the current capacity of 1,380.	NOD

2010111007	Adoption of Housing Element for 2007-2014 (PLN 2009-1328/GPA 2009-0025) Atascadero, City of Atascadero--San Luis Obispo This project is to update the Housing Element of the City of Atascadero's General Plan as required by Government Code Section 65580-65589.8. Along with the Land Use Element, the Housing Element provides policy guidance for decision making related to housing. The Housing Element is a comprehensive statement by the City of Atascadero describing the housing needs of the City and how City policies, programs, plans and regulations facilitate the development, improvement, and preservation of housing for all economic segments of the community.	NOD	
2010111079	Case No. 5. 1240-CUP/5.1240B-CUP for the Palm Springs Re-Power Project Palm Springs, City of Palm Springs--Riverside CDFG is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2010-0102-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: Wind Power Partners 1993, L.P., represented by Mr. Mike Pappalard, 700 Universe Blvd. Jes/JP, Juno Beach, State of Florida 33408, Phone (561)691-2819. The project will remove up to 89 existing Kenetech KVS-33 wind turbine generators and will replace them with up to 29 General Electric (GE) 1.5 megawatt (MW) (SLE) turbines. Three GE turbines will be installed in the western block and 26 GE turbines will be installed in the eastern block. The proposed project will use existing access roads, laydown areas and infrastructure where possible. Decommissioning of 3 of the existing turbines will occur near to, or immediately adjacent to, or within an existing streambed. In addition the eastern block will install new internal access roads adjacent or across several streams.	NOD	
2010122026	Trout Creek Restoration Project Truckee, City of Truckee--Nevada Restoration of a portion of Trout Creek, defined as Reaches 1 through 3, to provide a more stable and natural creek corridor with improved biological function and floodplain quality. Includes some utility relocation, replacement of two bridge structures, removal of a concrete flume, disturbance of waters of the United State and mapped floodplain, creation of 0.12 acres of wetlands, and restoration of the creel to a more naturally functioning creek.	NOD	
2010122060	DWR Oroville Operations & Maintenance Center Garage Shop & Temporary Office Building Water Resources, Department of Oroville--Butte Construction of a Bitter-type-pe-engineered metal garage shop is being proposed at the DWR Operations and Maintenance (O&M) Center in the city of Oroville, Butte County. The garage shop would be of metal construction and ~ 5,000 sq ft. Electric and natural gas service would be supplied to the structure. The garage shop is intended to be used for vehicle storage and mechanical shop space. Additionally, DWR proposes the installation of 3,600 sq ft prefabricated modular office building and utilities. Utilities for this modular building would include electricity, water, sanitary sewer, natural gas, and telecommunications.	NOD

	so long as the City provides sufficient sites and does not impose constraints to development, the City is not required to construct the 2,039 units and is not penalized for falling short of its RHNA goals. The Housing Element has identified thirteen (13) properties in the City that potentially could be reclassified at residential densities from 10 to 30 dwelling units per acre in order to facilitate future development of multi-family housing.		
2007092011	Mitchell Ranch Center Ceres, City of Ceres--Stanislaus NOTE: Extended review to end on 7/6/10. NOTE: Review Per Lead	FIN	
	The Mitchell Ranch Center consists of a commercial development with "Majors", "Shops" and "Pads". Major 1 is proposed to be tenanted by a Walmart store.		
	Majors 2, 3 and 4, are proposed for location along the western edge of the site and are planned to be tenanted by junior anchor stores. The four smaller commercial buildings, of "Shops," are proposed for location throughout the site and are to be tenanted by multiple small-scale retail stores. Finally, the 3 free-standing pad sites, or "Pads," are proposed for location in the southeastern portion of the site and will be tenanted by restaurants including fast-food and other small-scale general commercial uses.		
	At the time of issuance of the NOP, the application for the Mitchell Ranch Center project consisted of a proposal to construct a retail center totaling 317,283 sf.		
2009101072	I-10/Tippecanoe Avenue Interchange Improvement Project Caltrans #8 Loma Linda, San Bernardino--San Bernardino NOTE: FONSI/Final	FIN	
	The San Bernardino Associated Governments (SANBAG), in cooperation with the California Department of Transportation, the City of Loma Linda, and the City of San Bernardino, propose to reconstruct the Interstate 10 (I-10/Tippecanoe Avenue Interchange). The proposed project passes through the Cities of San Bernardino and Loma Linda in the San Bernardino County, CA.		
2011021002	Mountainview Generating Station Brineline Project Yucaipa Valley Water District Redlands, Loma Linda--San Bernardino Note: Review Per Lead	MND	03/07/2011
	The proposed project involves the construction and operation of an approximately 2-mile long brine disposal pipeline, as well as a modified brine disposal pump station at the Mountainview Generating Station site, a meeting facility at the connection to the YVWD's Regional Brineline Extension, and a stub-out connection at San Bernardino Avenue for possible future discharge. The brine disposal facility would be a pimped forcemain, and it is anticipated that approximately 0.5 million gallons of concentrated brine discharge would be pumped per day. The 8-inch diameter pipeline is sized to accommodate the peak discharge flowrate from the power plant, as well as 100 gallons per minute of future discharge. The pipeline will be constructed of HDPE, and manholes would be spaced along the pipeline as appropriate.

2011021003	Grossmont Hospital - Proposition 'G' Hospital Improvement Projects Grossmont Healthcare District La Mesa--San Diego The Grossmont Healthcare District (GHD) would take action to approve and carry out various improvements to Grossmont Hospital including: (1) interior renovations and upgrading of the existing "East Tower" building; (2) construction of a new 70,500 square foot Diagnostic and Treatment (D&T) facility; and (3) construction of a new Central Energy Plant (CEP) in order to meet the energy and utility demands of both existing hospital facilities and the proposed project. The project would be financed through GHD's issuance of general obligation bonds authorized by Proposition 'G' passed by voters on June 6, 2006.	MND	03/04/2011
2011021006	5525; EA JDG 02-10; Amendment Of Zoning Map No. 17-31, Zone Change Case No.15; Tom Poplawski Kern County --Kern The parcels are located on the north side of Old State Road, on Sierra Woodlands Drive in the Wofford Heights area. The site is currently zoned A (Exclusive Agriculture) and has a map code designation of 5.6 (minimum 2.5 acres per unit) by the Kern County General Plan. The project site is vacant and is located on a sloped and rocky hillside. The applicant is seeking a change in zone classification to E 2 (1/2) RS in order to facilitate the processing of a future subdivision map. A maximum number of sixteen lots could result from approval of the applicant's request. Sewage requirements will be satisfied through the installation of individual septic tanks and California Water Service Company has provided a will-serve letter indicating that sufficient water pressure exists in the area to serve the contemplated use of water within the parcel.	MND	03/07/2011
2011022013	The Farm Neighborhood Park Santa Cruz County --Santa Cruz The proposal to develop a neighborhood park and a community center to include an approximately 4,584 square foot one-story community center, 225 square foot restroom building, pedestrian pathways, replacement pedestrian bridge over an unnamed arroyo (including associated required mitigation restoration and elective stream/habitat restoration), sports play area with a half basketball court, skate area, children's play areas, gardens (community, heritage and native), bocce court, picnic tables, benches, kiosk, on-site parking, and approximately 6,800 cubic yards of grading. The project includes a 5 Year Master Plan with potential construction phasing. The project requires a Park Master Site Plan Development Permit, Riparian Exception, Parking Plan, Preliminary Grading Approval, and a Variance to increase the impervious surface area from approximately 20 percent to 29 percent.	MND	03/04/2011
2011022017	Core Area Drainage Rehabilitation Project Dixon, City of Dixon--Solano Abandon in place an existing continuous cast in place storm drainage pipe and replace it with a 48 inch, a 54 inch and a 60 inch continuous reinforced concrete pipe (RCP). The pipe route is from North Adams Street, east to North First Street, and then east under the UPRR tracks to the Creekside Basin. The location of the new pipe is adjacent to the existing storm drainage pipe except for the section between North Adams Street and North First Street.	MND	03/07/2011

2006081139	Saticoy & Wells Community Plan and Development Code Draft EIR San Buenaventura, City of Ventura--Ventura The Saticoy & Wells Community Plan and Code Area is located on ~1,000 acres on the eastern edge of the City of Ventura. The project area is bounded generally by Telegraph Road to the north, Saticoy Avenue to the west, the Santa Clara River to the south, and the Franklin-Wason Barranca to the east. The project lies within the sphere of influence of the City of Ventura, including roughly 565 acres within the City of Ventura, and 435 acres in the unincorporated Ventura County. The Saticoy & Wells Community Plan and Development Code includes policies and development standards to guide land use development within the Saticoy & Wells project area.	NOD	
2008092006	City of Tracy General Plan Amendment Tracy, City of Manteca, Lathrop--San Joaquin An amendment to the Tracy General Plan to reduce the proposed Sphere of Influence by ~10 sq. miles to reflect new San Joaquin County Local Agency Formation Commission policies. The project also includes a Sustainability Action Plan and related policies within the General Plan regarding sustainability. The Suppl. EIR addressed Traffic, Air Quality, Land Use, Greenhouse Gases, and Population and Housing.	NOD	
2009082066	City of Vacaville Easterly Wastewater Treatment Plant Tertiary Project Vacaville, City of --Solano The City proposes to modify the location of the northern portion of the landscape buffer approved as part of the Phase 1 improvements for the Easterly Waste Water Treatment Plant Tertiary Treatment Project. The proposal re-locates the buffer 200 feet south of the previously approved location. All planting and irrigation details will remain unchanged. An EIR was certified and a Use Permit was approved by the Planning Commission for all phases of the Tertiary Project on April 20, 2010. Phase 1 of the project, which included the landscape buffer, was approved on November 1, 2010. The proposed modification is within the scope of the previously certified EIR and does not result in any new impacts. All mitigation measures from the certified EIR will remain applicable to the project. The project, is located within the boundaries of the 182 acre City owned property designated for public facility uses, of which ~ 30 acres is developed with the EWWTP facilities. The site is an incorporated parcel located 4.5 miles south east of Vacaville and is surrounded by unincorporated lands within the jurisdiction of Solano County.	NOD

Subsequently, the installations will be monitored for the collection of measured performance field data.	NOE	
2011028020	San Diego Unit (MVU) Headquarters Facility - Minor Alterations Forestry and Fire Protection, Board of --San Diego This project involves six distinct minor alterations to the existing infrastructure at Cal Fire's existing Monte Vista Headquarters facility. These minor alterations will be initiated and completed over the next 24 months. Work will begin once environmental compliance is achieved. The six alterations include: (1) the placement of security fencing around the perimeter of the compound, (2) resurfacing portion of existing vehicle storage area and construction of secondary dirt access road, (3) improvements to overflow public parking area, (4) improvements to storm water drainage system, (5) removal of existing planter box wall and pave area next to training building, and (6) install concrete patio adjacent to existing classroom building.	NOE	
2011028021	Selby Ranch Road and Fuel Break Maintenance Forestry and Fire Protection, Board of --Yuba The Woods Creek Truck Trail and Scott Forbes Road have been treated as fire access roads since 1946. CAL FIRE has maintained an easement with the property owners for the duration. Past treatments have included grading the road surface and removal of nearby vegetation to facilitate the movement of fire resources into an area with no other road access. All of the access road is across private lands with gated access to the majority of it. The proposed project consists of general road maintainance on the existing road. Cal Fire personnel and heavy equipment will be used to complete the work while operating within the existing road prism and fuel break.	NOE	
2011028022	Buckeye Canyon Fuel Reduction Project Forestry and Fire Protection, Board of --Monterey This project will reduce fuel loading near a subdivision along Carmel Valley Road (Rancho Tierra Grande). The proeject will reduce brush loading by approximately 60% and prune trees up to 16 feet or 50% of the live crown (whichever is less) within 100 feet of a native surface road in Buckey Canyon. This will open emergency ingress/egress in the event of an emergency as well as create defensible space for potential fires orginating either in the adjacent open space,	NOE

2011021007	ENV-2009-2649-MND - 17236 S. Hoover Street Los Angeles, City of --Los Angeles The proposed project involves the development of a 122,288 square-foot vacant lot into 24 single-family lots ranging in area from 2,793 square-feet to 6,913 square-feet (averaging lot size - 3,358 square-feet), and the construction, use and maintenance of 24 new, two-story, approximately 25-feet in height single-family dwellings with attached two-car garages. Vehicle access proposed via a common driveways connecting to Hoover Street. The project would provide 48 garage spaces (two parking spaces per unit) and 20 guest parking spaces on three surface parking areas; two landscaping areas will be provided along portions of southern property lines that add up to 4,781 square-feet. Common area, including driveways, walkways, Fire Dept. turn-arounds, and guest parking add up to 31,289 square-feet.	MND	03/07/2011
2011021009	Bonita Center for the Arts Bonita Unified School District San Dimas--Los Angeles The proposed project consists of the construction of a performing arts center that will be known as the Bonita Center for the Arts (BCA), on the west side of the west side of the existing San Dimas High School campus. The footprint of the BCA will replace and occupy the school's southern parking lot. The project includes construction of a building that is approximately 25,000 square feet in size, and 75 feet tall at its highest point (top of parapet). The BCA will provide seating for approximately 700 people. The building also features an amphitheatre that is connected to the northeast side of the building. The amphitheatre will be designed to seat approximately 100 people. Two new parking areas will occupy 4,000 square feet of the project site on the south and east sides of the building. In addition, a new staff parking lot (36,360 square feet) will be constructed at the northeast corner of the school property on which is now an undeveloped landscaped portion of the school. The BCA will be used by all grade levels. If there is a demand for amateur and community theatre group performances at the BCA, it may be rented out on an as needed basis. Construction of the staff parking lot is anticipated to start in June 2012, with the BCA beginning in March 2012. Construction is anticipated to terminate in July 2013.	MND	03/07/2011
2011021010	Lemon Grove Modernization & Library Addition Lemon Grove School District Lemon Grove--San Diego The District proposes to modernize the LGMS, which may include remodeling of exterior and interior of buildings, alterations to the functions of existing buildings, relocation of the main office and entrance, and relocation of the main office and entrance, and relocation of 5 portable buildings. The District would also construct and have the County of San Diego operate a joint-use library on the southwest corner of the LGMS campus. Although no detailed plans are available, the new library would be approximately 13,500 square feet and one-story with an attached public plaza. A lighted marquee facing Lincoln Ave may also be provided. The new library construction would necessitate demolition of a 2,000 SF library building and displacement of the existing west surface parking lot. The project may also involve replacement parking construction and reconfiguration of baseball field and hard	MND	04/07/2011

2011022019	West Sacramento Project - North Ranch Levee Repair Central Valley Flood Protection Board West Sacramento--Yolo The project consists of a 2,000 linear foot long slump repair on the landslide of the level and will replace the drainage system to address seepage and stability flaws.	MND	03/07/2011
2011022022	Little Chico Creek Quarry Reclamation Plan (Project No. RP10-0002) Butte County Chico--Butte The project represents an amendment to an existing reclamation plan for a surface mine of approximately 8.3 acres that has been in operation under Mining Permit 99-02 since 2004. The amended reclamation plan provides greater specificity in regards to revegetation, monitoring and a factor of safety analysis for the quarry pit walls than did the reclamation plan approved with Mining Permit 99-02.	MND	03/07/2011
2009022077	2010 Humboldt County Housing Element Amendment, Zone Reclassification, and Local Amendment Humboldt County --Humboldt NOTE: Revised NOP The updated Housing Element of the Humboldt County General Plan requires the County to increase the supply of land planned and zoned for multifamily residential uses to meet the future housing needs of lower income households. The project will re-zone properties to increase the multi-family housing development potential in the County by ~ 980 units. Between 60 and 100 acres of land will likely be affected. The county will use the Supplemental EIR (SEIR) to help select the properties for rezoning.	NOP	03/07/2011
2011021005	Sorrento to Miramar Phase 2 Project San Diego Association of Governments San Diego--San Diego The project consists of realignment of a portion of existing railroad track and installing a second main track from near Mile Post (MP) 251, east of Interstate Highway 805 to near MP 253, south of Miramar Road. The rail is presently single tracked and has the sharpest curves and steepest grade of any segment with the Los Angeles to San Diego (LOSSAN) Rail Corridor. The purpose of the project is to improve the horizontal track alignment by realigning the curved track to improve reliability, safety, train speed and rail capacity. Implementation of the project may require full and/or partial property acquisitions. The project would also have a need for temporary use of areas for construction access and staging which are located outside of the existing rail ROW.	NOP	03/07/2011
2011022015	Riverbank Army Ammunition Plant Specific Plan Riverbank, City of --Stanislaus The Specific Plan Area includes ~ 173 acres. The Specific Plan will seek to accomplish the following objectives: - Define the vision for the future of the Specific Plan Area. - Create Goals and Policies intended to facilitate achievement of the vision. - Designate land for uses that implement the vision. - The Specific Plan would permit a mix of industrial, office/R&D, and retail uses within the Specific Plan Area. The current project proposes extraction of up to 35,000 cubic yards of aggregate material over the 15-year permit term. Mining may consist of a single 25,000 cy extraction, or smaller extractions, as frequently as annually. The permit term is 15 years and, if approved, will expire on October 6, 2025.	MND	03/08/2011
2011022028	Open Door Community Health Center Eureka, City of Eureka--Humboldt The Open Door Community Health Center (ODCHC) is requesting permit approval for the construction of a new consolidated health center on 1.82 acres at the northeastern terminus of Tydd Street which is within the coastal zone. The new health center would be a two-story approximately 27,000 sq ft facility. The proposed development would maintain a 100 foot buffer between the development and the adjacent wetlands to the south. For the purposes of permitting, the use proposed by ODCHC is being considered a "Charitable Institution," which is defined in the Coastal Zoning Regulations, in part, as "A non-profit institution devoted to the housing, training, or care of children, or of aged, indigent, handicapped, or underprivileged persons..." Both the Service Commercial and the Multi-Family Residential zone districts conditionally permit charitable institutions, therefore a Conditional Use Permit is required. Because of the property's location in the coastal zone, a Coastal Development Permit is required.	MND	03/08/2011
2011021011	Comprehensive General Plan Update Encinitas, City of Encinitas--San Diego The project proposes to update the City of Encinitas General Plan, Local Coastal Program, and Zoning Ordinance.	NOP	03/08/2011
2011021014	Tulare Regional Medical Center - Phase 2 Expansion Tulare Regional Medical Center --Tulare The proposed project is an expansion of the existing Tulare Regional Medical Center Hospital facility with the construction of a new ~97,000 sf building. The new building, hereafter called "Tower 2", will be of similar profile as Phase 1 Tower consisting of four floors above-grade and a basement level for a total of five floors.	NOP	03/08/2011
2006031119	Gill Minor Use Permit/DRC2009-00023 San Luis Obispo County Paso Robles--San Luis Obispo Request by Micheal Gill for a Minor Use permit to convert an existing 2,584 sf garage/workshop into a winery and tasting room. The garage/workshop is located on the ground floor of a single-family residence. The wine tasting room will be 875 square feet and the barrel storage room will be 1,400 sf. The project includes a request to modify the setback requirement of 200 feet from the nearest property line for a winery with public tasting room to be located approximately 145 feet from the western boundary. The project will result in disturbance of approximately 600 square feet of a 21.22 acres parcel to create a new drive way approach. The project is located in the Adelaida planning area.	NOD

2007101016	<p>Friant Community Plan Update and Friant Ranch Specific Plan Fresno County --Fresno General Plan Amendment No. 511 expands the Friant Community Plan Area to include the 942-acre Friant Ranch Specific Plan Area, updates the policies for the Community Plan Area, re-designates land in the Friant Ranch Specific Plan Area from primarily agriculture to various commercial, residential, and open space designations, and establishes policies for the Friant Ranch Specific Plan Area. The Friant Ranch Specific Plan provides for a master planned community incorporating age-restricted (ages 55+) and non-age restricted single-family and multi-family residential units, a commercial Village Center, a recreation center, trails, open space, and parks and parkways.</p>	NOD	
2009101038	<p>Am Lotus Buddhist Assoc Minor Subdivision (4 Lots + Rem); Tentative Parcel Map; TPM 21047 RPL3; ER 07-02-001 San Diego County Fallbrook--San Diego The project is a minor residential subdivision of a 20.62 acre parcel into 4 parcels and a remainder parcel. The proposed parcels range in size from 2.6 to 6.6 acres. The project site is located on Reche Rd in the Fallbrook Community Planning Group, within unincorporated San Diego County. The site is vacant. Access would be provided by a Reche Rd. The project would be served by on-site septic systems and imported water from the Rainbow Municipal Water District. No extension of sewer or water utilities will be required by the project. Earthwork will consist of cut and fill of 1,850 cy of material.</p>	NOD	
2009112009	<p>Diablo Road Bridge Slope Repair & W. El Pintado Sidewalk Structural Repair Danville, City of Danville--Contra Costa The California Department of Fish and Game is executing Lake and Streambed Alteration Agreement Number 1600-2010-0392-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, the Town of Danville, for grading and fill along the banks of San Ramon Creek to repair erosion damage around the abutments of the Diablo Road Bridge and along the roadway, sidewalks, and a public overlook on West El Pintado Road. Major grading will be limited to 120 linear feet on both banks of San Ramon Creek and an additional 150 linear feet of the eastern bank downstream of the bridge. Minor grading will also be done to improve an existing 140-foot-long temporary access road on the western bank to provide equipment access to the channel from Front Street. Work will include excavation of the channel banks, extending from top of bank into the low-flow channel. The total area of construction will be ~ 0.44 acre, and the work area below the Ordinary High Water Mark will be ~ 0.29 acre. A total of 2,923 cubic yards of fill will be installed below the top of bank to return the banks back to their original grade and to prevent further erosion and potential undermining of the bridge abutments and supports for infrastructure.</p>	NOD	
2010022005	<p>Downtown Dublin Specific Plan Dublin, City of Dublin--Alameda The Downtown Dublin Specific Plan (DDSP) consists of a comprehensive set of incentives, standards, and requirements that will implement the vision for the future development in downtown Dublin. The DDSP will define the physical envelope for downtown Dublin's future growth using height limits, setbacks, density, and design standards. The DDSP will act as the planning tool to guide</p>	NOD

2010041035	Moorpark Wastewater Treatment Plant Reclaimed Water Distribution System Phase II and III Ventura County Waterworks District No. 19 Moorpark--Ventura NOTE: Review Per Lead	FIN	
	<p>The MWTP and proposed reclaimed water pipeline route is within unincorporated Ventura County, whereas the proposed tank site is located within the City of Moorpark. The tank site is ~3/4 acre in size, located on a 1.83 acre parcel owned by the District.</p>		
	<p>The proposed project is the construction and operation of the second (II) and third (III) phases of the MWTP reclaimed water distribution system. Phase II would include a 1.5 MG welded-steel, above-ground reclaimed water tank to be constructed at an existing graded site located north of Championship Drive at the Moorpark Country Club Estates, and 3,000 linear feet of 16 inch pipe in Los Angeles Avenue and 12 inch pipe in Hitch Boulevard.</p>		
	<p>Phase III would include the construction of an additional 10,000 linear ft of 8 inch and 12 inch reclaimed water line. The Phase III pipeline is intended to follow the alignments of existing potable water mains while maintaining the minimum State-mandated separation requirements between potable and reclaimed water lines. The proposed pipelines would be either ductile iron or polyvinylchloride (PVC).</p>		
2010054002	Pala Gateway Project Bureau of Indian Affairs Fallbrook--San Diego The Pala Band of Mission Indians has asked the BIA to take 90.53 +/- acres of land into trust on behalf of the Tribe, on which the Tribe proposes to develop a mix of uses on ~25 acres (27% of the 90.53 acre site) including a cultural center, cultural village complex, trail and associated facilities. The permanent structure and surface (4,000 sf cultural center) occupy ~3.5 acres of the project site (approximately 4% of the project site). The other 21.5 acres would be developed with non-permanent features such as a meeting area, dance area, traditional field game site, interpretive village, unpaved parking and gardens.	FON	
2011022031	248 Jared Lane, Architecture and Site Application S-09-063 Los Gatos, City of Los Gatos--Santa Clara The project consists of the construction of a 4,724 square foot single family residence with an attached two-car garage and driveway on a 1.96-acre vacant lot. The project site is mostly covered with oak woodland and there is an intermittent channel across the southwestern corner. The site has an average slope of 34 percent; the majority of the residence footprint would be located on slopes between 20 and 30 percent. The driveway will cross slopes between 30 and 50 percent, and require a 10-foot diameter culvert to span a swale at the eastern property line.	MND	03/09/2011

	disturbance of the entire 16.76 acre parcel.		
2010122015	<p>1321 El Camino Real Burlingame, City of Burlingame--San Mateo</p> <p>The applicant is proposing a new, three-story, five-unit apartment building with at-grade parking at 1321 El Camino Real, zoned R-3. The existing single family dwelling would be demolished to build the proposed five-unit residential apartment building. The proposed building would contain five, two story residential units above at grade parking. Each of the five apartment units will contain a living and dining room, kitchen, two bedrooms, two and one-half bathrooms and a laundry room. Of the five residential units in the building, one would be sold at below market rates, as "affordable" units per the Burlingame Municipal Code, Section 25.63.020. The code requires a total of 10 parking spaces for the residents of the units (10 on-site spaces are provided). Eight covered parking spaces are provided in four, two-car garages. Two uncovered parking spaces are provided at the rear corner of the lot. The applicant is requesting a Parking Variance for number of vehicle movements (more than three maneuvers are required for vehicles to exit the site). The applicant is proposing 64.4% (644 SF) landscaping in the front yard where 60% (600 SF) is the minimum required. The proposed landscape plan for the project complies with the on-site reforestation requirements (nine total trees on site proposed, existing and new, where a minimum of two landscape trees are required). In addition, one (1) 24-inch box Accolade Elm tree is proposed in the planter strip in front of the property.</p>	NOD

2006032003	Meadowlands Subdivision Project Lincoln, City of Lincoln--Placer Development in an area adjacent to existing development of up to approximately 209 low-density residential units and 104 high-density units on approximately 45 acres, 3.2 acres of pocket parks, and 48.8 acres open space. Total project area is 108 acres.	EIR	03/28/2011
2009122058	Brannan Street Wharf/Pier 36 San Francisco, City and County of San Francisco--San Francisco The project site is located between Pier 30-32 and 38, near the intersection of The Embarcadero and Brannan Street, within the South of Market district of San Francisco. The proposed project involves the demolition of the existing Pier 36, including 133,000 square feet (sf) of pile supported decks and piles, the 35,000 sf. Pier 36 warehouse building, and 18,000 sf of marginal wharf, and construction of a new 57,000 sf open space park, "the Brannan Street Wharf", which would be approximately 830 feet long, and would vary in width from 10 feet to 140 feet. The proposed park would consist of a raised lawn and a 2,000 square-foot craft float. The construction of the proposed Brannan Street Wharf would require driving 400 new piles.	EIR	03/25/2011
2005061150	Improvements at Fresno Yosemite International Airport (FAT) Fresno, City of Fresno--Fresno The Project consists of various improvements at FAT to efficiently accommodate FAA forecasted aviation demand for air carrier, air cargo, air taxi, business and general aviation, flight training, and military services in the region. The Project consists of improvements that are expected to be accomplished within the next 5 years (2009-2014), as well as improvements that extend beyond 5 years (2015-2025).	FIN

2010094002	Proposed Construction, Operation, and Maintenance of Tactical Infrastructure U.S. Customs and Border Protection --San Diego U.S. Customs and Border Protection proposes to construct, maintain, and operate tactical infrastructure consisting of three discrete sections of roads and replacement of a section of existing primary pedestrian fence along the U.S./Mexico International border in eastern San Diego County, California.	FIN	
2011021019	Morris Mine and Reclamation Plan San Bernardino County --San Bernardino The proposed project is to establish a Mining Conditional Use Permit (CUP) and Reclamation Plan to develop a known iron ore resource; provide adequate iron reserves from a nearer source to meet the area's cement manufacturers needs for up to 45 years; reduce the distance traveled for hauling of the iron ore resources resulting in decreased truck mileage and related diesel fuel consumption and air pollutant emissions; design a diversion of the wash that will maintain natural flows through the site in an environmentally sensitive manner; provide reclamation and revegetation of the disturbed land to reduce visual, biological, safety and hydrological impacts; and, reclaim the site back to an open space end use.	MND	03/10/2011
2011021020	Conditional Use Permit No. CUP10-003 Foster Farms - Ewing Poultry Ranch Merced County Merced--Merced Foster Farms, LLC of Livingston, CA proposes to demolish 12 existing 20,000 sq ft poultry grow houses at their currently unused Ewing Poultry Ranch and replace them with 8 new 36,000 sq ft grow houses, associated outbuildings and a single residence for use by ranch operators. The proposed project would increase the facility's capacity from 320,100 to 384,000 poultry. An 8.3 acre stormwater retention basin would be constructed in the northeast corner of the project site. Upon completion, the grow houses would be used to facilitate approximately 6 brood cycles per year and require 2 onsite employees (up to four additional employees during the beginning of each brood cycle). Operations would result in approximately 3.31 average daily trips to the site. Two onsite wells and two septic systems would be installed onsite.	MND	03/10/2011
2011022036	Clayton Regency Mobile Home Park Emergency Water Pipeline Extension Project Contra Costa County Clayton--Contra Costa The purpose of the project is to replace the current and temporary water hauling arrangement to the mobile home park by extending a water pipeline approximately three miles from the end of CCWD's existing treated water pipeline on Marsh Creek Road to the entrance of the mobile home park to provide the Clayton Regency Mobile Home Park with a long term water service.	MND	03/10/2011
2011022038	Preda Street Pipe Bridge Upgrade San Leandro, City of San Leandro--Alameda The City of San Leandro proposes to replace two existing sewer pipes and rehabilitate two supporting pipe bridges that span San Leandro Creek, to maintain flow capacity and improve pipe performance during future seismic and/or flood events (Figure 3). Proposed activities involve the following: removal of existing pipes, excavation associated with installation of pipe restraints, upgrades to the existing support bridges and installation of new infrastructure including new pipes	MND	03/10/2011

	and pipe restraints. The proposed project was determined based on factors such as cost, durability, maintenance, and minimizing environmental impacts. Based on the results of these evaluations, the City of San Leandro has elected to replace the existing bell-and-spigot ductile iron sewer pipes with new ductile iron, restrained joint pipes that can accommodate the anticipated displacement of the pipelines for all design criteria.		
2011021018	Southwest Fresno Middle School Project Fresno Unified School District Fresno--Fresno The proposed middle school site is in a mostly urban setting in the southwest portion of the City of Fresno, in Fresno County, California. The proposed middle school would have capacity for approximately 1,000 seventh and eighth grade students. School facilities would include classrooms, labs, a library, a multipurpose room, a gym, hardcourt areas, athletic fields, administrative offices, counseling offices, parking, student pick up/drop off areas, and other facilities required to implement the educational program the District will adopt for the school.	NOP	03/10/2011
2003101080	Clovis Bicycle Transportation Master Plan Clovis, City of Clovis--Fresno The proposed project is the adoption of the Clovis Bicycle Transportation Master Plan (BTMP). The BTMP is comprehensive update of the existing Clovis Bicycle Master Plan adopted in 2003. The BTMP establishes goals, policies, implementation actions, and priorities for the development of bicycle facilities in the City.	Neg	03/10/2011
2007032126	The Ridge at Chilcoot - Tentative Subdivision Map & Planned Development Permit - TSM/PD 7-04/05-01 Plumas County --Plumas Proposal to divide 33.82 acres into 9 parcels ranging in size from 2.57 acres to 6.53 acres for secondary suburban residential use with a planned development permit to allow modification of the minimum parcel size through a density transfer. Please refer to the tentative subdivision map.	Neg	03/11/2011
2011022035	Machado Water Diversion (PC-4C) in Potter Creek Stockton East Water District --San Joaquin Construction of a new surface water diversion in Potter Creek for the purpose of irrigating agricultural lands adjacent to the creek. Construction will occur during a non-flow period for the creek and consist of disturbing about 27-cubic yards of streambed and bank necessary to install a sump and pipeline for the water diversion. Once construction in the channel is complete and the disturbed areas restored, a pump capable of conveying 1,200 gallons per minute (gpm) of surface water will be installed on the sump. Similar diversions exists up and downstream of this location. The cost of piping water from these existing diversions (as an alternative) was deemed uneconomical due to the distance between such diversions.	Neg	03/10/2011

	cubic yards cut and fill for the proposed barn area, on a 40 acre parcel. The proposed project is within the Agriculture land use category and is located at 3650 San Simeon Creek Road, approximately four miles east of Highway 1, north of the community of Cambria. The site is in the North Coast Planning Area.		
2010112061	Sierra Avenue Rock Slope Protection Caltrans #6 Cotati--Sonoma Caltrans proposes to stabilize a slope with 1/2 -ton Rock Slope Protection layer system, on the southbound Route 101 side slope, at post mile 11.63 and post mile 11.73. All debris and loose soil will be removed. At post mile 11.63, the location is approximately 150 feet long, 30 feet high and 4 feet deep. At post 11.73, the location is approximately 120 feet long, 60 feet high and 4 feet deep. The existing asphalt concrete v-ditch will be reconstructed. The shoulder will be temporarily closed with k-rail.	NOD	
2010121076	Former Baltimore Aircoil Company Facility Soil Remediation Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Merced--Merced In situ treatment for chromium-impacted soil in a former wood treatment area (~ 0.6 acres) by injecting a dilute mix of alcohol and corn syrup. The project involves installing 32 injection wells that target ~ 30,000 cubic yards of soil. The injection solution will consist of potable water with ~ 2 grams per liter (g/L) of total organic carbon from corn syrup (75 percent by weight) and methyl alcohol (25 percent by weight). Ferrous sulfate may be added up to a concentration of 1 g/L of ferrous iron. The treatment solution will be injected over a period of up to 6 months. The total volume of treatment solution will be 13.8 acre - feet, equal to 1.5 times the soil pore space volume. After completing the cleanup, the injection wells will be properly abandoned and the ground surface restored.	NOD	
2011028046	201 E. Skyline Demolition, La Habra Heights Puente Hills Landfill Native Habitat Preservation Authority La Habra Heights--Los Angeles The project involves demolition of a dilapidated house including: house structure, retaining walls, fences, and septic system. Work will occur outside of the song bird nesting and bat maternity season. The house has been unoccupied for a period of time, and it is uneconomical to make needed repairs.	NOE	
2011028047	Contract to J.F. Shea Construction, Inc. for Repairs to the Allen McColloch Pipeline Metropolitan Water District of Southern California --Orange The Metropolitan Water District of Southern California will be performing the second phase of essential repairs to the Allen McColloch pipeline (AMP). The repairs will take place at eleven locations along the AMP and will include: removal of pre-stressed concrete cylinder pipes (PCCP) and replacement with steel cylinders and end rings in three locations, construction of a reinforced concrete encasement, demolition of five pump wells and two air release vacuum valve structures, removal and replacement of seven precast concrete vaults, removal and replacement of a concrete manhole square section, and other miscellaneous appurtenant work. 1998091062	Addendum No. 1 for AD 12 Sewer Improvement Project: 1998 Mission Springs Water District Note: Review Per Lead The Assessment District (AD) 12 Sewer Improvement Project is a proposal by Mission Springs Water District (District) to install approximately 57 miles of sewer pipelines and wastewater collection to developed portions of the City of Desert Hot Springs in Riverside County, CA. All sewer lines would be installed and contained within existing public rights-of-way (ROW), mostly in paved roads. The Addendum addresses adding approximately 17,700 linear feet (about 3.35 miles) of additional pipeline to the existing 57 miles of pipeline approved in 1999. If approved by the District Board, the whole 60.35 miles of pipeline would be installed over the next several years as funds are made available. The proposed sewer pipelines (made of Vitrified Clay Pipe [VCP]) will range from 4-inch diameter to 12-inch diameter and will be installed from 5-17 feet in depth. Approximately 300 to 500 feet of sewer would be installed each day.	ADM	02/28/2011
2008111048	Forest Lawn Memorial Park - Hollywood Hills Los Angeles, City of Los Angeles, City of--Los Angeles The Project would construct approximately 22,500 sq ft of floor area for new structures (i.e., a new church, reception-related uses, administrative space, crematory), and approximately 1,100,000 sq ft of non-occupied floor area (for burial garden structures, wall crypts, and columbaria). The Project includes approximately 200,000 new interment sites within currently undeveloped areas of the Project Site. Approximately 7,000 new interment spaces and additional ground spaces would also be constructed within existing developed areas of the Project Site. The Project also includes the development and maintenance of debris basins within the Project Site and at the edge of the property boundary with Griffith Park. It is estimated that construction of the new structures would occur over an approximately 40-year period, from approximately 2011 to 2050.	EIR	03/28/2011
2011022039	Vallejo Ferry Maintenance Facility Vallejo, City of Vallejo--Solano The City of Vallejo is proposing construction and operation of a Ferry Maintenance Facility along Waterfront Avenue on Mare Island. The Facility will include an administration office, maintenance and fueling facilities, and berthing to replace an existing insufficient facility located northwest of the Project site. Waterside improvements include new full-service berths, mooring-only berths, lighting, power, storage sheds, diver access platform, access gangway, security systems, and communications systems. An existing maintenance float would be moved to the new facility and secured with guide piles. Landside improvements include utility improvements, a fueling facility, demolition of Building 855, installation of a new 4,500 sq ft warehouse, rehabilitation of Building 165, and installation of parking improvements. 2006022116	<p>Manabe Wetland Restoration Project Watsonville, City of Watsonville--Santa Cruz</p> <p>The Project consists of Phase 2 activities of the Manabe Property Wetland Restoration Project which includes widening the section of the Watsonville Slough channel between Highway 1 and Ohlone Parkway to accommodate additional freshwater marsh and riparian woodland habitat by grading and re-contouring the agricultural row crop land. The main ditch line of Watsonville slough will be widened and the flow will be diverted through gravity culverts or screened pumps and pipes to avoid contact with active grading. Hydroseed will be installed following grading. A trail system would be constructed to provide pedestrian and bicycle access around the perimeter of the site. The trails would be approximately six feet wide and the sides of the trails will be re-vegetated with native vegetation. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2010-0365-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, City of Watsonville.</p>	NOD

2003062025	Saggio Hills Project Healdsburg, City of Healdsburg--Sonoma The Saggio Hills Project (the "Project") is the planned development of approximately 258.5 acres generally bordered by Healdsburg Avenue to the west, the Parkland Farms residential subdivision to the south, and unincorporated properties within the County of Sonoma to the north and east (APNs 091-040-001 & 091-040-106). The project at full buildout would entail a combination of land uses, including a 130 unit resort hotel with associated uses (e.g., restaurant, gift shop, administrative offices, spa and health center, demonstration cooking area and meeting facilities), City fire substation and associated infrastructure and roadway improvements to support the Project. The Project also includes dedication of land for future construction by the City of up to 150 affordable housing units.	NOD	
2008041009	University of California (UC) Merced and University Community Plan, UC Merced Phase 2 Campus University of California, Merced Merced--Merced The Project includes the development of a parking lot within the North Neighborhood subarea of the UC Merced campus and includes a solar photovoltaic system covering the parking stalls. The project includes limited off-site improvements, including utility trenching and paved roadways to connect the project site to the existing Phase 1 Campus located directly adjacent to and west of the project site.	NOD	
2008041009	University of California (UC) Merced and University Community Plan, UC Merced Phase 2 Campus University of California, Merced Merced--Merced The Project includes the development of a parking lot within the North Neighborhood subarea of the UC Merced campus and includes a solar photovoltaic system covering the parking stalls. The project includes limited off-site improvements, including utility trenching and paved roadways to connect the project site to the existing Phase 1 Campus located directly adjacent to and west of the project site.	NOD	
2010062025	Wild Goose Phase 3 Gas Storage Expansion Public Utilities Commission Gridley--Butte, Colusa The WG Phase 3 would result in an increase of the physical footprint and current operations at the WG facility; consist of: expansion to Remote Facility Site, modifications to the Delevan site, hot tapped connections to PG&E Lines 400 and 401, and PG&E distribution line reconductoring.	NOD	
2010122039	Menlo-Atherton High School Stadium Lights Project Sequoia Union High School District Atherton--San Mateo The Sequoia Union High School (SUHSD) is proposing to install new stadium lights at Menlo-Atherton High School's football stadium at 555 Middlefield Rd, Town of Atherton, CA. The football field is approximately 195,600 square feet (s.f.) and is located on the north side of the campus which sits at the corner of Middlefield Road and Ringwood Avenue. These permanent stadium lights will be installed in early 2011, to be ready for the 2011 football season. The permanent	NOD

	lights would be placed on four, 80-ft tall poles.		
2010122091	2011 Georgiana Slough Non-Physical Barrier Study Water Resources, Department of --Sacramento The 2011 GSNPB Study is the installation, operation, and analysis of the effectiveness of a barrier using bio-acoustical technology at the divergence of Georgiana Slough and the Sacramento River. The barrier is intended to create a behavioral deterrent for out-migrating juvenile salmonids to prevent entry to Georgiana Slough using sound, bubbles, and lights. In order to evaluate the efficacy of the barrier as a fish deterrent at this location, during barrier operation, a series of controlled releases of acoustically-tagged juvenile salmon smolts would be released approximately 6 miles upstream of the barrier. Acoustic tag tracking systems would continuously monitor the area surrounding the barrier for fish presence, position, and passage through the area. Barrier construction would begin mid-to late February 2011. Following installation, the barrier would be operated for up to 60 days, beginning after March 1, 2011. Upon completion of operation, the entire barrier structure and associated structures and equipment would be removed. Barrier removal would be complete by May 30, 2011.	NOD	
2011028078	LT2 Modifications to the David C. McCollom Water Treatment Plant Olivenhain Municipal Water District --San Diego Minor changes to the Water Treatment Plant required for compliance with the new water treatment rule known as the Long Term 2 Enhanced Surface Water Treatment Rule to improve control of microbial pathogens in drinking water.	NOE	
2011028079	Camp Host Site Parks and Recreation, Department of --Lake Convert campsite #114, to a camp host site at the Upper Bay View Campground at Clear Lake State Park to increase visitor services. Work will install 4-6" of road base with a 2" asphalt cap to create a 16' x 40' pad; excavate up to 5' deep, 12" wide and 60' long trench to extend the sewer line and up to 24" deep, 12" wide and 60' long trench to extend the water and electrical lines. 	effect. The charge would be increased to \$0.25 on each paper carryout bag beyond the initial one-year period. The Board of Supervisors may periodically review the store charge to judge its effectiveness. The ordinance would become effective six (6) months after the date of final passage by the County of Santa Cruz Board of Supervisors.		
2011022050	Environmental Assessment 2010-0012 Loma Rica Road Safety Improvement Project Yuba County --Yuba Yuba County's Public Works Department seeks environmental approval for the Loma Rica Safety Improvement Project which consists of roadway rehabilitation and drainage improvements along approximately 1.4 miles of Loma Rica Road and a left hand turn lane along Marysville Road at its intersection with Loma Rica Road in Yuba County. The proposed project includes shoulder widening, a two-inch asphalt overlay, culvert replacements/extensions, drainage improvements, new pavement marking, striping along the segment of Loma Rica Road between Los Verjeles Road and Marysville Road, and the installation of a left hand turn lane along Marysville Road at its intersection with Loma Rica Road in the unincorporated foothill region of Yuba County 16 miles northeast of the City of Marysville. All work will be completed within the existing road right-of-way.	MND	03/15/2011
2010092016	New In N Out Burger Restaurant Facility Pleasant Hill, City of Pleasant Hill--Contra Costa The proposed project would involve the construction of a 3,500 sf, 1-story, freestanding fast food restaurant with a 14-car stacking drive-through lane and outside seating for 24 persons. The proposed restaurant facility would be constructed in the currently vacant and undeveloped southern portion of the project site and would share the site and parking lot with an existing Black Angus sit-down restaurant.	NOP	03/15/2011
2011021028	Crystal View Terrace/Green Orchard Place/Overlook Parkway Project Riverside, City of Riverside--Riverside The Crystal View Terrace/Green Orchard Place/Overlook Parkway Project involves the local roadway system in the eastern portion of the City of Riverside and southeast of Interstate 91. The proposed project involves the analysis of all four scenarios as follows: Scenario 1 - Gates closed to through traffic, no connection of Overlook Parkway: Under Scenario 1, both Crystal View Terrace and Green Orchard Place gates would remain in place and be closed until Overlook Parkway over the Alessandro Arroyo is connected. Scenario 2 - Gates removed, no connection of Overlook Parkway: Under Scenario 2, the gates at both Csrysta View Terrace and Green Orchard Place would be removed, and there would be no connection of Overlook Parkway across the Alessandro Arroyo. Scenario 3 - Gates removed, Overlook Parkway connected: Under Scenario 3, the gates at Crystal Veiw Terrace and Green Orchard Place would be removed and Overlook Parkway would be connected over the Alessandro Arroyo. 	<p>height, a TotalCare Pavilion (ambulatory/skilled nursing care), and surface parking. A small administrative/warehouse structure is also part of the Medical Center campus on Catalina Street at the north end. All on-site buildings total 356,523 square feet.</p> <p>The Specific Plan will include the provision of an additional 164 hospital beds, two new hospital buildings, and one new medical office building to be used for additional outpatient and associated medical uses, and an additional 849 parking spaces than what currently exists on the 18.3 gross-acre Medical Center campus. The number of hospital beds will increase from the existing 167 to 331 at project buildout. Once complete, the Medical Center campus will include 297,948 square feet of hospital and hospital-related uses; 260,776 square feet of medical office space; and 14,100 square feet of vital support facilities for a total of 582,824 square feet. Project buildout represents an increase of 226,301 square feet and 164 beds over existing conditions.</p>		
2010089028	<p>Marsh Landing Generating Station Energy Commission --Contra Costa</p> <p>The proposed project consists of implementation of a Department of Toxic Substances Control (DTSC) approved Corrective Measures Study (CMS) submitted by Pacific Gas and Electric Company (PG&E) in accordance with Division 20, Chapter 6.5 of the California Health and Safety Code. The CMS specifies the excavation of an estimated 250 to 300 cubic yards of soil contaminated with polynuclear aromatic hydrocarbons from specified locations and the transportation of this soil to a permitted off-site disposal facility. The soil will be excavated from an area less than an acre in size. The excavation is expected to have a maximum depth of six feet below ground surface and is estimated to take approximately three calendar weeks to complete. DTSC approval of the project is conditional upon a commitment by PG&E to investigate and remediate contaminated groundwater associated with past releases at the facility. This Notice of Determination does not apply to any future groundwater investigation or remediation activities.</p> <p>Activities proposed in the CMS are to occur prior to construction and operation of a 760-megawatt (MW) natural gas-fired power plant; the Marsh Landing Generating Station (MLGS). The MLGS will be constructed, owned, and operated by Mirant under a license granted by the California Energy Commission (CEC), which previously prepared and certified an environmental impact assessment (CEC Staff Assessment) as the Lead Agency for the MLGS, including proposed CMS activities, under the California Environmental Quality Act (CEQA),</p>	NOD

	and outdoor deck area, and a private pool area. The project also involves construction of new publicly accessible streets, improvements to and access from the Edinger Avenue and Gothard Street rights-of-way, utility infrastructure, and 803 parking spaces. All existing structures and improvements would be demolished.		
2010111065	Hollister 115 kV Power Line Reconductoring Project Public Utilities Commission Hollister, San Juan Bautista--Monterey, San Benito Replacement of seven miles of single circuit power line towers with new single circuit power line towers; replacement of nine miles of single circuit power line poles with new double circuit poles; and upgrades to Hollister Substation.	NOD	
2010112075	578 Mountain Home Road Solar Project Woodside, City of Woodside--San Mateo The proposed project consists of installation of solar panels in the uplands on the west side of an ephemeral creek which is tributary to Alambique Creek, in the Town of Woodside, San Mateo County, outside of wetland and riparian habitat. The installation will require horizontal directional drilling (HDD) boring approximately six to eight feet below the creek. Electricity will be transmitted via underground wires situated in a conduit placed through the bore. Pressure relief pits will be dug on either side of the bore tunnel to prevent blow out from pressure build up. The boring station and entry bore will be located 300 feet from the creek. The solar panel and exit bore will be at least 300 feet west of the creek and at least 35 feet west of the adjacent wetland habitat. The drill rig will be stationed in uplands at the eastern terminus of the drill bore which is near the developed portions of the property. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2010-0186-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Mr. Phil Smith. 2011028136	Consider Approval of Memorandum of Understanding with various State Agencies to Facilitate Cooperation in developing Renewable Energy Opportunities California State Lands Commission -- Authorize the Executive Officer to execute the Memorandum of Understanding.	NOE	
2011028137	Duhn Residence Dock and Seawall Project Regional Water Quality Control Board, Region 5 (Central Valley) --Madera Project proponent will remove an existing rock seawall and stationary dock. A replacement concrete seawall and stationary will be constructed in the existing structure footprint. The project will require 22 cubic yards of concrete to construct the new wall. All work will be conducted when water levels are below the project area, and all excess concrete and materials will be removed offsite.	NOE	
2011028138	Air Tanker Water Drops - Training Site Forestry and Fire Protection, Board of --Amador CAL FIRE Aviation Management will use the above mentioned property as a training site for the Air Tanker Program. The training will consist of S@T twin engine air tankers dropping between 200 and 1,200 gallons of water per drop. Water will be dropped from heights greater than 100 feet off the ground. There will be no more than 10 drops per day. Training will take place during daylight flight hours between Monday through Friday for 5 to 6 weeks a year during the spring months before fire season. The property where the project is to take place is industrial timberland located in a rural area.	NOE	
2011028139	Stone Canyon S-212 Chainsaw Training Project Forestry and Fire Protection, Board of --San Benito This project is a chainsaw training course on private property, approximately fourteen miles southeast of Hollister, CA, off of State Route 25. The project will selectively remove up to 60% of brush (mainly chamise, Adenostoma fasciculatum) and some gray pines (Pinus sabiniana) less than 24 inches DBH. Selection criteria will focus on removal of dead, diseased, and dying trees that may impact a road or structure. All felled trees shall be felled away from the historical structures in the project area, the seasonal watercourses, and oak trees. All remaining trees near the native surface ranch road may be pruned up to 16 feet or 50% of the live crown (whichever is less) within 100 feet of a road.	NOE	
2011028140	Laurel Pines Camp Fuel Modification Forestry and Fire Protection, Board of --San Bernardino The intent of this project is to create a reduced fuel zone that will provide a greater degree of wildfire defensibility for the camp infrastructure and nearby residents. The project consists of one site totaling approximately 25 acres. Throughout the project site, vegetation will be removed in a discontinuous pattern retaining well-spaced clumps of vegetation, brush, and trees representative of the current species diversity. A combination of treatment methods will be utilized to treat the vegetation: mechanical mastication and hand treatment of brush species along with removal and chipping of selected understory trees twelve inches or less in diameter breast height.	NOE

2011028141	Common Landowner Transfer of up to 2,000 a.f. of EWSID 2011 State Water Project Water to Westlands Water District Empire West Side Irrigation District --Kings The Empire West Side Irrigation District will transfer up to 2,000 a.f. of 2011 Table A Entitlement Water to Westland's Water District for landowners who farm in both Districts. The Transfer will be completed by December 31, 2011. This proposed transfer is designed to enable both Westland's and Empire's water users to better manage their respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	NOE	
2011028142	Lost Creek Weir Repair Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta The Lost Creek Weir Repair Project is limited to the repair of a concrete weir used to measure flows below the Lost Creek Hydroelectric Plant. Concrete will be used to repair and seal leaks located on the western weir abutment. To perform the work, stream flows will be reduced from 15 to 8 cubic feet per second for a period of up to 48 hours, to allow flow to be diverted and channeled along the right side of the creek. A cofferdam will be constructed around the western weir abutment, and approximately 2-4 cubic yards of wet concrete will be added to seal leaks. Heavy equipment (tract excavator) will be used on the western bank of Lost Creek to remove gravel/boulders from the weir abutment area and to deliver concrete to the western abutment.	NOE	
2011028143	Security Fence Installation Parks and Recreation, Department of --San Joaquin Install a security fence at Caswell Memorial State Park to provide a safe, secure area for officer-related activities. Work will dig seven 1' diameter X 3'deep holes for support posts; install posts and fill with concrete for stability, connect posts by ten 2"LX4"W boards (stringers), attach 6' fir fence boards to posts and stringers, and leave a 10" gap from ground to fence for wildlife movement. 2010042093	Fairfield Train Station Specific Plan Fairfield, City of Fairfield--Solano The focal point of the Specific Plan is the train station, located at the intersection of Peabody and Vanden Road. The train station has already been approved. Permitting and construction planning have commenced. The station is part of the Capitol Corridor system and is scheduled for operation in 2014. A minimum of 3,000 dwelling units would be located within a one-half mile radius of the station. The Specific Plan could accommodate up to an additional 6,800 dwelling units, an added population of ~ 19,277, roughly 5 million sq ft of commercial and industrial development, and a range of public and open space uses on ~ 2,972 acres of land. 2011021033	Grading Plan 10686-GR Encinitas, City of Encinitas--San Diego The project consists of a grading plan for a future single-family residence on a 2.0 acre parcel.	MND	03/16/2011
2011021034	NewPath c/o Crown Castle Wireless Distributed Antenna System (DAS) Project Temecula, City of Murrieta--Riverside The proposed DAS network is a low profile system capable of delivering wireless telecommunications service to customers of multiple carriers such as AT&T, Verizon, Sprint, and MetroPCS. The proposed network initially will supply the infrastructure for NewPath's anchor tenant, MetroPCS. The network utilizes a series of small, low-power antennas called, "nodes," which receive an optical signal from a central hub and distribute the signal in the form of Radio Frequency (RF) transmissions. For this Project, the hub is outside the City's boundaries (as are three other nodes, one in the County of Riverside and two in the City of Murrieta). Within the City of Temecula, the proposed network consists only of the antenna nodes. Of the 39 nodes located in the City of Temecula right-of-way, 33 will be designed as new street lights and the remaining 6 will be attached to existing utility poles.	MND	03/16/2011
2011021035	Sunlight Partners - Conditional Use Permit P201000551 San Bernardino County Adelanto--San Bernardino Notice of availability for initial study/proposed mitigated negative declaration for a conditional use permit to establish a 2.5-megawatt solar photovoltaic power generation facility on a portion of 30 acres; located on the south side of el mirage road between St. Lawrence Road and Chamisal Street, in the unincorporated community of El Mirage, San Bernardino County/1st Supervisorial District/Project No. P201000551/Cup.	MND	03/16/2011
2011021036	Sunlight Partners - Conditional Use Permit P201000546 San Bernardino County Apple Valley--San Bernardino Notice of availability for initial study/proposed mitigated negative declaration for a conditional use permit to establish a 1-megawatt solar photovoltaic power generation facility on a portion of 20 acres; located at the northeast corner of Esaws Road and Joshua Road, in the unincorporated area near the community of Apple Valley, San Bernardino County/1st Supervisorial District/Project No. P201000546/Cup.	MND	03/16/2011
2011021037	Nielsen Avenue Recharge Basin Project (Recirculation) Fresno, City of Fresno--Fresno The proposed Project would include the acquisition of approximately 35 acres of property in Fresno County, California, for the construction of recharge basins, the construction of diversion turnouts from the Houghton Canal, and the installation of monitoring wells. The total area anticipated to be distributed by the Project is approximately 35 acres.	MND	03/16/2011

2011022054	2006-007 Calaveras River Estates for Gurev Calaveras County --Calaveras Project #2006-007 Calaveras River Estates. A Zoning Amendment to change the zoning destination of two parcels totaling +/- 522.8 acres: APN 050-010-004 (Unclassified U) and APN 050-010-024 (General Agriculture A1) to Residential Agriculture-40 acre-Environmental Protection Combining Zone RA-40-EP. A Vesting Tentative Parcel Map to subdivide the 522.8 acres into four +/-40-acre parcels and an un-subdivided remainder parcel of +/-359.8 acres. Construction on each +/-40-acre parcel will be allowed only within a proposed "building area" delineated for each parcel. Annexation of proposed Parcels 1 through 4 to County Service Area 1 (CSA 1) to obtain road access, subject to Calaveras County Local Agency Formation Commission (LAFCO) approval pursuant to Gov. Code Section 56000et.seq..	MND	03/16/2011
2011022052	Avenue of the Giants Four Bridges Project Caltrans #2 --Humboldt The project proposes to widen bridge decks and upgrade railings at the following locations on State Route 254: Ohman Creek Bridge (postmile (PM) 0.88), Elk Creek Bridge (PM 10.43), Bridge Creek Bridge (PM 10.80), and Bear Creek Bridge (PM 43.02). A complete replacement of the Bridge Creek Bridge is also being studied due to structural deficiencies that have been identified at this location.	NOP	03/16/2011
2011022053	Astoria at Wilder Congregate Care Facility Orinda, City of Orinda--Contra Costa The proposed Astoria at Wilder project consists of a two-story, 39,336 sf congregate care facility. The project proposes 45-units of assisted living, of which 15 will be utilized for Alzheimer's and dementia patients. The project also proposes 17 stalls of surface parking and on-site landscaping improvements.	NOP	03/16/2011
2011022055	Wheel Gulch Rehabilitation Site: Trinity River Mile 75.8 to 76.4 Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity Note: Tiered from master EIR SCH#2008032110 The construction activities described in the Wheel Gulch EA/IS EIR would create additional fish and wildlife habitat at a number of discrete locations. Work to be performed includes removal and replanting of vegetation, earthwork in the floodplain including excavation of a low-flow side channel, re-contouring of bank and floodplain features, and in-river work such as gravel including excavation of a low-flow side channel, re-contouring of bank and floodplain features, and in-river work such as gravel placement and construction of an island. The work at the Wheel Gulch rehabilitation site is considered to be within the scope of the Master EIR for channel rehabilitation and sediment management for remaining phase 1 and phase 2 sites #200832110. 2011028145	Beach Trail Temporary Fencing and Revegetation (10-11-SD-31) Parks and Recreation, Department of --San Diego This project consists of installing approximately 200' of temporary symbolic fencing in Torrey Pines State Reserve, Beach Trail, along the switchbacks to reduce foot traffic on shortcut trails. Also included in the project will be the revegetation of approximately 2,500 sq. ft. along the switchback trails. Revegetation will consist of plant species from onsite plant materials and seed stock. In addition to plantings, trimmings from nearby trail maintenance will be use as mulch to help provide additional physical and symbolic barriers.	NOE	
2011028146	State Wate Exchange Between Central Coast Water Authority (CCWA) and Palmdale Water District (PWD) with Delivery to West Kern Distirct Central Coast Water Authority --Kern, Santa Barbara CCWA will exchange up to 7,000 AF of CCWA's Table A water stored in San Luis Reservoir with PWD. The water will be delivered to WKWD's State Water Project turnout in repayment of a previous exchange between PWD and WKWD. In exchange, prior to December 31, 2021, PWD will repay CCWA with an equivalent quantity of water (up to 7,000 AF) to which PWD would otherwise take delivery. All water will be transferred via SWP facilities.	NOE	
2011028147	Adoption of Revisions to the State Energy Program Guidellines. Energy Commission Sacramento--Sacramento The purpose of this activity is to revise guidelines previously adopted by the California Energy Program pursuant to Public Resources Code Section s 25460 - 25464. The guidelines describe how the Energy Commission will implement its State Energy Program and identify available funding, eligibility criteria, the evaluation and award process, and other requirements to qualify for which the Energy Commission may reimburse grant and loan awardees for expenses incurred after the Energy Commission's approval of an awardee's agreement , but prior to the agreement's execution.
