STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**February 1 – 15, 2013**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1 – 15, 2013**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov) .

<b><u>Documents Received on Friday, February 01, 2013</u></b>			
2013021002	I-110 HOV/HOT Connector Project Caltrans #7 Los Angeles, City of--Los Angeles Caltrans, in cooperation with the Los Angeles County Metropolitan Transportation Authority, proposes to construct an elevated bridge structure that extends from the existing northbound I-110 Transitway to Figueroa Way, within downtown Los Angeles. There is currently one build alternative being examined.	CON	03/04/2013
2011051068	Owens Dry Lake Phase 7a Dust Control Measures Los Angeles, City of --Inyo The City of Los Angeles Department of Water and Power (LADWP) is currently implementing the Owens Lake Dust Mitigation Program (OLDMP) on Owens Dry Lake in order to reduce exceedances of the state and federal particulate matter (PM10) air quality standards. LADWP construct and operates dust control measures (DCMs) on the lake in compliance with Agreements with the Great Basin Unified Air Pollution Control District (GBUAPCD) under the authority of California Health & Safety Code Sec. 42316, legal settlement agreements with GBUAPCD, lease agreements for use of state lands (administered by the California State Lands Commission (CSLC)), and other regulatory approvals. Phase 7a will expand and modify the existing system of dust control on the lake by installation of Best Available Control Measures (BACM) (Gravel Cover, Shallow Flooding and Managed Vegetation) on 3.1 square miles of area identified as emissive by GBUAPCD. In addition, 3 to 4 sq miles of existing Shallow Flooding dust control areas (DCAs) will be transitioned to a Hybrid dust control method. Hybrid dust control is a new concept that will incorporate a combination of the three BACM to minimize dust while conserving water sue on Owens Dry Lake.	EIR	03/18/2013
2012082028	San Jose City College 2025 Facilities Master Plan San Jose Community College District San Jose--Santa Clara The 2025 Facilities Master Plan (FMP) addresses the facility needs of the campus to meet expected enrollment through 2025. The 2025 FMP involves reorganization of campus facilities and reconfiguration of campus access and circulation. Activities outlined in the 2025 FMP include (1) the demolition/removal of existing buildings on campus; (2) the construction of new buildings on campus; and (3) the renovation of existing buildings on campus. In addition, the 2025 FMP includes recommended vehicle and pedestrian circulation plans for the campus and recommended landscape improvements.	EIR	03/18/2013
2012102039	County of Sonoma Waste Reduction Program for Carryout Bags Sonoma County Waste Management Agency --Sonoma The proposed ordinance would regulate the use of paper and plastic single use carryout bags within the geographical limits of Sonoma County, including the nine incorporated cities and town, starting July 1, 2013. The ordinance would (1) prohibit the free distribution of single use carryout paper and plastic bags and (2) require retail establishments to charge customers for recycled paper bags and reusable bags at the point of sale. The minimum charge would be ten cents (\$0.10). Single use plastic carryout bags are defined in the Proposed Ordinance	EIR	03/18/2013

	as plastic bags that are less than 2.25 millimeters thick, other than a Reusable Bag, provided at the check stand, cash register, point of sale or other point of departure for the purpose of transporting food or merchandise out of the establishment. The Proposed Ordinance would not apply to restaurants.		
2012121060	Hanford Downtown East Precise Plan Project Hanford, City of Hanford--Kings The proposed project involves the adoption of an amendment to the Hanford General Plan that would increase the maximum allowable residential density in the Downtown East Precise Plan (DEPP) area from 22 to 45 dwelling units per acre and the adoption of the DEPP, including the Development standards contained therein.	<b>EIR</b>	03/18/2013
2013021004	Seismic Bridge Retrofit Project Water Resources, Department of --Merced, Fresno, Kings, Kern, San Bernardino The purpose of the proposed project is remedy structural seismic design deficiencies of the 23 bridges allowing the bridges to withstand seismic movement in the transverse direction during a Maximum Credible Earthquake (MCE). DWR has determined that all of the bridges' retrofits would require installing seat extenders and shear keys at abutments and some piers. Additionally, two of the bridges (at Ranchero Street and Maple Avenue) require replacement of the deck.	<b>MND</b>	03/05/2013
2013022002	Rocketship Sylvandale Public Elementary School Franklin-McKinley School District San Jose--Santa Clara The proposed project consists of the construction of a K-5 public elementary school. The school would be designed with a capacity for 600 students attending kindergarten through fifth grade and 24 staff. The school building would be two stories and about 25 feet in height to the top of the elevator equipment. The building would contain approximately 24,500 sf and would include classrooms, a multi-purpose room, administration space and offices, and restrooms. The school's play area would be located in the northern portion of the site and parking would be located on the eastern portion of the site.	<b>MND</b>	03/04/2013
2003082131	Cal Aquatics Center University of California, Berkeley Berkeley--Alameda The Cal Aquatics Center is an intercollegiate aquatic facility to be located on a University-owned parking lot. Three single level buildings will surround a 50 meter swimming pool with a dive tower with platforms at 10 M, 7.5 M, 5 M, 3 M and 1M.	<b>NOP</b>	03/04/2013
2013021001	Construction & Operation of Diversion Structure for High Flows from Los Banos Creek to the Delta Mendota Canal and Measuring Weirs Central California Irrigation District Los Banos--Merced Construction, operation and installation of a gravity diversion to divert high flows from the Los Banos Creek channel into the Delta Mendota Canal for delivery to riparian lands and measuring weirs.	<b>Neg</b>	03/04/2013

2011112008	Napa County Health and Human Services Agency Campus Project Napa County Napa--Napa Note: Response to Comments.  The existing campus is currently developed with a total of 85,144 gsf of space accommodated within 11 one-story buildings and 6 modular units, and a total of 235 surface parking spaces. The proposed project consists of two primary development options: 1) redevelopment of the existing HHSA campus occurring within the existing 8.5-acre campus boundaries (Existing Site Option) and 2) acquisition of an adjacent 3.25-acre sports field and redevelopment of the HHSA campus occurring within the expanded boundary (Expanded Site Option). The Existing Site Option includes the demolition of all existing buildings and a crescent-shaped driveway and the construction of four new two- to three-story buildings comprising 183,700 gsf of space; a 62,050 sf parking structure; and a 133,300 sf surface parking lot. The Expanded Site Option includes demolition of all but three of the existing buildings; retention of the existing crescent-shaped driveway; and construction of four new one- to three-story buildings comprising a total of approximately 169,470 gsf and three surface parking lots totaling 195,300 sf. Both options would provide a total of up to 184,000 total gsf of use and a total of approximately 558 parking spaces.	Oth	
1995123032	UCSF LRDP Minor Amendment: Parnassus Housing and Childcare Implementation Plan University of California, Regents of the San Francisco--San Francisco The University of California, San Francisco (UCSF) propose to develop 22,200 gross square feet (gsf) of existing interior vacant space in the entire extent of the 4th floor of the Diller Building. The vacant 4th floor would be developed with wet laboratory, laboratory support, and office space for School of Medicine clinical cancer researchers. No expansion of the existing building envelope is proposed.	NOD	
1997032082	Mammoth Creek Fishery Bypass Flow Requirements, Watershed Operation Constraints, Point of Measurement, and Place of Use Mammoth County Water District Mammoth Lakes--Mono Mammoth Community Water District has filed petitions for change for water right Licenses 5715 and 12593 and petitions for change and time extension for Permit 17332. The District seeks to change the fishery bypass flow requirement and compliance measurement point under the three water rights and obtain additional time to complete full, beneficial use under Permit 17332.	NOD	
2004062133	Silver Creek Planned Development Subdivision Placer County --Placer The Silver Creek project is a 28-acre residential subdivision project. The project includes the construction of 79 single-family residential lots, four common are landscape lots, and a recreational lot.	NOD	
2004082020	Curtis Park Village (P04-109) Sacramento, City of Sacramento--Sacramento The proposed project would modify the previously approved Tentative Subdivision Map for the Curtis Park Village project on approximately 71.7 acres in the Single	NOD

	development within 100 feet of environmentally sensitive habitat; 5) Coastal Development Permit for development within 750 feet of known archaeological resources; and 6) Design Approval. The property is located at 30620 Aurora Del Mar, Carmel (APN 243-331-010-000), Big Sur Land Use Plan, Coastal Zone.		
2013028001	Bridge Preservation in Alameda County 3E5100 / 0412000372 Caltrans #4 --Alameda A bridge maintenance and preservation project that will maintain the integrity of 33 bridges. The application of methacrylate resin, replacement of joint seals, and other additional preservation repairs as warranted. All work is within State Right-of-Way.	<b>NOE</b>	
2013028002	Camarena Elementary School Covered Soccer Arena Chula Vista School District Chula Vista--San Diego The Chula Vista Elementary School District ("District") intends to enter into a lease with the YMCA of San Diego County ("YMCA") to construct an open-air covered indoor soccer arena ("Project") for the joint use of the District and YMCA at Camarena Elementary School ("Project Site"). The Project will be located on a portion of the Project Site previously designated for use as a soccer field. The Project will include indoor soccer field walls around the soccer field, along with a covered roof, spectator bleachers, team benches, and modular restrooms.	<b>NOE</b>	
2013028003	Lease of New Office Space Consumer Affairs, Department of Fresno--Fresno The Department of Consumer Affairs, Bureau of Automotive Repair proposes to lease approximately 6,111 square feet of office space. The office will have approximately 26 employees performing general office and investigative duties.	<b>NOE</b>	
2013028004	Surface Drainage Improvement Caltrans #2 --Shasta Caltrans proposes a safety project using State and Federal funds to improve surface drainage along the Northbound (NB) lanes of Interstate 5 (I-5) in Shasta County, just south of the Gilman Road interchange from post mile 36.2 to post mile 37. This section of roadway has an alternating cross slope, which in combination with the 6% down grade creates a condition where surface run-off can flow down the center of the lanes before it leaves the roadway. The proposed project will improve surface drainage by modifying the cross slope of the roadway and increasing the the radius of the alignment.	<b>NOE</b>	
2013028005	Computed Tomography (CT) Replacement and Neuro-Angio Equipment Replacement at Long Hospital University of California, San Francisco San Francisco--San Francisco The proposed project provides new, upgraded radiology equipment in a consolidated suite on the 3rd floor of Long Hospital at the Parnassus Heights campus site. The work includes equipment replacement and renovation to the suite, required code upgrades, and increased storage capacity. Structural and utility elements will be installed in the ceilings to coordinate with upcoming Operating Room projects above the new radiology suite.	<b>NOE</b>

1996102097	Central Subway Draft SEIS/SEIR San Francisco, City and County of San Francisco--San Francisco Final Supplemental EIS/Supplemental EIR.  The Central Subway to Chinatown is Phase 2 of the Third Street Light Rail Project that would extend light rail for 1.7 miles on a surface/subway alignment from the current terminus at Fourth and King Streets to Jackson Street in Chinatown. Under the Locally Preferred Alternative, the rail would operate on the surface from Fourth and King Streets to a portal between Townsend and Brannan Streets where it would transition to subway operations. There would be three subway stations: Moscone, Union Square/Market Street, and Chinatown. Other alternatives would include one surface station and a split Union Square and Market Street station.	<b>ADM</b>					
2012011052	Tiered Equine Ordinance San Diego County --San Diego The project proposes amendments to the County of San Diego Zoning Ordinance for equine uses. The amendments consist of clarifications, deletions, and revisions to provide an updated set of definitions, procedures and standards for review and permitting of equine uses, specifically for commercial horse stables. The amendments will implement a new tiered system of permitting for a horse stable with both ministerial and discretionary tiers of permitting.	<b>EIR</b>	03/20/2013

2012052083	Mid-Western Placer Regional Sewer Project Lincoln, City of Lincoln, Auburn--Placer Note: Extended per lead  The proposed Project entails regionalizing the treatment of wastewater for Midwestern Placer County. With the proposed Regional Project, this would be accomplished by taking off line Placer County's SMD1 WWTP on Joeger Road, (North Auburn), which currently discharges to Rock Creek, and Auburn's WWTP which discharges to upper Auburn Ravine. Instead, wastewater from these two areas would be sent via proposed pump stations at each facility and proposed pipelines to the existing trunk sewer collection system in Lincoln. The combined effluent would be treated at an expanded and upgraded Lincoln wastewater treatment and reclamation facility on Fiddymont Road, west of the City of Lincoln.	<b>EIR</b>	03/26/2013
2012071006	Meirinho Dairy Expansion Project Merced County Merced--Merced Consolidation and expansion of an existing heifer facility and an existing dairy facility into one combined dairy to house 11,102 total animals, including 4,800 milk cows.	<b>EIR</b>	03/20/2013
2013021003	Jack O'Lantern, Gables, East Cliff San Diego, City of San Diego--San Diego CDP, PDP to construct three single family residences with a total sf of 18,122 sf (two 3-story and one 2-story, each with a basement level) on a 0.91-acre site (39,640 sf) with existing commercial buildings (one on Coast Boulevard and three on Prospect Street) to remain. The site is located at 1241, 1245, 1249 (west of 1255 Coast Boulevard, between Dave Street to the east and Girard Street to the west). The land upon which the project is proposed has been designated as a local historical resource and the Coastal Commission adopted Historical Design Elements that this project must address. Pursuant to a previously approved Coastal Development Permit, all structures, (including those designated historic) on the portion of the project site at issue, were demolished.	<b>MND</b>	03/05/2013
2013021005	The Trails at Eastvale Residential Development Eastvale, City of Eastvale--Riverside The proposed project consists of a General Plan Amendment from Light Industrial to Medium Density Residential, a Change of Zone from A-2-10 to PRD, and a Tentative Tract Map to subdivide a 50.48-acre site into 224 single family residential lots and 13.69-acres of parkland and open space. The project is located at 6313 Archibald Avenue (northwest corner of Archibald Avenue and 65th Street). APNs: 144-010-034 and -035.	<b>MND</b>	03/05/2013
2013021007	Diamond Ranch High School Track and Field Renovations Pomona Unified School District Diamond Bar--Los Angeles The project involves renovating the track and field at Diamond Ranch High School. The natural turf field and dirt track would be replaced with synthetic turf and a 400-meter, nine-lane, all-weather, synthetic rubberized running track. The astroturf would be painted for use as both a football and soccer field. Stairs would be installed between existing bleacher structures next to the south side of the	<b>MND</b>	03/05/2013

	track. Four new field light poles with speakers would be installed. A new restroom/concession building would also be constructed. The project would include a new drainage system to collect runoff from the new impervious areas to existing storm drains.		
2013021008	Turf Track Widening Project 22nd District Agricultural Association Del Mar--San Diego The proposed project entails a widening of the existing turf track at the Del Mar Fairgrounds by 25% or 129,100 sf New bedding material (gravel, sand, and peat) for the turf would be imported. To accommodate the widening of the track, the existing inside rail would be moved further inward so as to avoid any interference with the polytrack. There would be no modifications made to the outside of the existing track. There are additional features that would be modified or added to the track during this process.	<b>MND</b>	03/07/2013
2013022007	Use Permit 09-010 (AMDUN, LLC) Shasta County Anderson--Shasta The request is for approval of a Use Permit for a variety of industrial uses including an asphalt concrete plant with three 30,000 gallon asphalt tanks, a Portland cement concrete plant, an aggregate processing plant including crushing, washing, and screening, wash water recycling ponds, a lime treatment plant for the aggregate, an aggregate storage area, a construction material recycling plant, metal storage and recycling, wood product storage, wood chipping and wood chip storage, hay storage and wholesales, a 1,000-gallon diesel fuel tank, miscellaneous outdoor storage, a contractor's yard, a 2,000 sf office building, a caretaker's quarters, and loading and unloading associated with a railroad spur. The proposed hours of operation would be 24 hours per day, Monday through Saturday. Typical hours would be 7:00 am to 10:00 pm. This project would generate 28,800 truck trips per year at an average of 125 round trips per day. The maximum round trips per day would be 750. The site was formerly used as a lumber mill, and has an existing 65,000 sf metal building. Otherwise it has been graded flat and much of the site has be surfaced with concrete or gravel.	<b>MND</b>	03/08/2013
2013022008	Use Permit 12-004 (Jaxon Enterprise) Shasta County Anderson--Shasta The request is for approval of a drum-mix asphalt concrete plant and a recycling facility for asphalt concrete and Portland cement concrete (including crushing and screening). Aggregate material would be brought to the site and mixed with asphaltic oil to produce asphalt concrete. Other facilities would include a lime slurry plant, a 10,000-gallon diesel fuel tank, and truck scales.	<b>MND</b>	03/08/2013
2013022010	El Dorado Trail Projects: Ray Lawyer Drive to Main Street and Clay Street to Bedford Avenue Placerville, City of Placerville--El Dorado The proposed project is an extension of two segments of the El Dorado Trail. The El Dorado Trail is a concept for a trail that spans the entire length of El Dorado County from the western county line to the Lake Tahoe Basin. The El Dorado Trail currently extends from the western El Dorado County line to the Camino area just east of Placerville. Some segments are already completed with Class I Bike Paths, other segments are currently in development, open for use as a natural	<b>MND</b>	03/05/2013

	trail, or are proposed for improvement. An alignment east of Camino to South Lake Tahoe is yet to be determined.		
2011022030	Edgewood Plaza Palo Alto, City of Palo Alto--Santa Clara The proposed project is a modification of the approved redevelopment of the Edgewood Plaza Shopping Center. Under the revised project, Building 1 would be reconstructed with all new materials. The location and design of the building would be consistent with the previously approved project. All other aspects of the approved project, including the renovation of Building 2 and the grocery building, the new parking layout and landscape design, and development of 10 single-family houses, remain the same as the approved project evaluated in the 2012 FEIR.	<b>NOP</b>	03/05/2013
2013022003	El Camino Real Bus Rapid Transit Project (ECRBT) Santa Clara Valley Transportation Authority --Santa Clara VTA is proposing to provide Bus Rapid Transit (BRT) improvements along 17.4 miles of El Camino Real between the HP Pavilion in San Jose and the Palo Alto Transit Center in Palo Alto in the cities of San Jose, Santa Clara, Sunnyvale, Mountain View, Los Altos, and Palo Alto.	<b>NOP</b>	03/05/2013
2013022004	Redwood Lodge Mill Valley, City of Mill Valley--Marin The proposed project involves the eventual development of five single family houses on the site, including the rehabilitated Redwood Lodge. Existing features on the site, including but not limited to rock walls, foot bridges and the concrete channel of Arroyo Corte Madera Creek will remain in their current condition. In addition, two of the houses would have an Accessory Dwelling Unit above the garage. Three of the existing houses (the Nixie, Doll, and Eldridge houses) on the project site would be removed. An alternative that would rehabilitate the Redwood Lodge, the Nixie House, and the Eldridge House plus construct two additional new houses will be considered.	<b>NOP</b>	03/05/2013
2013022006	Pacific Mall Project Milpitas, City of Milpitas--Santa Clara The project site is currently developed with approximately 266,000 square feet of commercial buildings and a large surface parking lot. The existing commercial buildings are comprised of a mix of chain retail stores, restaurants and financial services. The proposed project would demolish approximately 140,000 square feet of underutilized existing commercial buildings and construct on mostly the same footprint, a new retail mall that would consist of a ground floor and a partial second floor. The proposed project would also include one level of underground parking and a 12-story, approximately 250-room hotel.	<b>NOP</b>	03/05/2013
2013021006	Removal Action Workplan, Jordan High School Toxic Substances Control, Department of Long Beach--Los Angeles DTSC is considering approval of a Removal Action Workplan (RAW) for the proposed Jordan High School (hereafter "the Site") pursuant to Health & Safety Code, Division 20, Chapter 6.8 as submitted on December 27, 2012 by Ninyo & Moore on behalf of the Long Beach Unified School District. The RAW consists of removal activities to address organochlorine pesticides (OCPs) - impacted soil at	<b>Neg</b>	03/05/2013

2009032070	Vegetation Management at Two Coastal Ranches Midpeninsula Regional Open Space District --San Mateo The Midpeninsula Regional Open Space District initiated a vegetation management program to control non-native thistles at Mindego Ranch in 2009. The program includes application of the herbicides Aminopyralid and Glyphosate in conjunction with mechanical hand pulling and digging in sensitive habitat areas. The District is planning to expand the vegetation management program beyond Mindego Ranch to the former Driscoll Ranch within La Honda Creek Open Space Preserve. The former Driscoll Ranch has a similar environmental setting, ranching history, and species composition as Mindego Ranch. The estimated additional area to be treated is approximately 50 acres. It is expected that the intensive treatment program will span three to four growing seasons.	<b>MND</b>	03/06/2013
2013021009	Klau Mine Road Slip-Out Repair Project; ED12-100 (245R12B611) San Luis Obispo County Paso Robles--San Luis Obispo Stabilize eroding stream bank and restore road shoulder by constructing approximately 48-feet of sheet pile retaining wall. Once sheet piles are driven, the wall will be backfilled with approximately 41 cubic yards of earth to re-establish the roadway and shoulder. A total of approximately 60-feet of metal beam guard rail would then be installed roughly parallel to the wall. The existing roadway surface, shoulder, and roadway delineation would then be reconstructed or repaired to complete the work within the project area.	<b>MND</b>	03/06/2013
2013022015	State Route 49 and Main Street/Shenandoah Road Intersection Improvement Project Caltrans #10 Plymouth--Amador Caltrans proposes to improve the SR 49 and Main Street/Shenandoah Road Intersection in the City of Plymouth, CA. The proposed project would improve traffic operations, improve local traffic circulation, and enhance traffic and pedestrian safety. The project includes three alternatives: No-Build, Roundabout Intersection, and Signalized Intersection. The project would also improve pedestrian and bicycle facilities, as well as drainage and City utilities throughout the project area.	<b>MND</b>	03/07/2013
2013022012	2014 Regional Transportation Plan - Program EIR San Joaquin County Council of Governments --San Joaquin The RTP defines the region's mobility needs and issues through 2040, sets forth an action plan of projects and programs to address the needs consistent with the adopted policies, and documents the financial resources needed to implement the plan. Regional transportation improvement projects proposed to be funded, in whole or in part, in the state transportation improvement program must be included in the adopted RTP.	<b>NOP</b>	03/06/2013
2013022013	The Marketplace Shopping Center Modesto, City of Modesto--Stanislaus The proposed project is a shopping center at the southwest corner of Oakdale Road and Sylvan Avenue. The center would have a total of 170,000 sf of floor-area on an 18-acre site. The proposed project includes an anchor store (approximately 52,000 sf) and a major tenant on the south side, additional major	<b>NOP</b>	03/06/2013

	tenants and inline stores on the west side, and four pad buildings on the east side. Access to the shopping center will be provided from three driveways on Oakdale Road (the southernmost driveway is for service access only), one driveway on Sylvan Avenue, and two driveways on Hashem Drive (the northern driveway is service egress only). The applicant is proposing a new traffic signal at the intersection of Oakdale Road and the main project driveway/Post Office Drive. The project provides approximately 800 parking spaces to meet City parking standards. Required discretionary approvals by the City include a General Plan Amendment to redesignate the 18-acre site from Mixed-use (MU) and Residential (R) to Commercial (C), and a zoning amendment to change the site from Planned Development Zone, P-D(211) to a new Planned Development Zone.		
2013022014	CVS/Pharmacy Development Project Sacramento, City of Sacramento--Sacramento The proposed CVS/pharmacy development (proposed project) would be located at the northwest corner of Fair Oaks Boulevard and Howe Avenue (1 Cadillac Drive) in the City of Sacramento. The proposed project includes construction and operation of a 16,500 sf CVS/pharmacy retail store on the project site, replacing its existing store at 400 Howe Avenue. In addition to the new CVS/pharmacy, the proposed project would also include construction and operation of an approximately 50,880 sf commercial use, likely a grocer tenant, in a separate building that would be adjacent to the proposed CVS/pharmacy retail store on the same site. Site improvements include landscaping, enhanced pedestrian access, new parking lot and driveways, and security lighting.	<b>NOP</b>	03/06/2013
2010092050	New Digital Freeway (Hwy 101) Message Center Sign Rohnert Park, City of Rohnert Park--Sonoma A digital message board double faces pole sign located on City of Rohnert Park property between the Commerce Boulevard right-of-way and Highway 101 right-of-way. The proposed sign would be a monopole V-shaped structure. The sign face would measure 14 feet by 48 feet and the height of the sign face would be 48 feet and the monopole would extend two (2) above the sign face for a total height of 50 feet. One (1) foot below the sign face would be a 3 foot 9 inch by 20 foot interior illuminated panel with the name "City of Rohnert Park". Below the City of Rohnert Park panel would be the round City seal 7 feet high. The digital billboard will be equipped with a light sensor that automatically adjusts the brightness as the ambient light changes, night or day.	<b>Neg</b>	03/06/2013
2013022001	California Water Service Company (Cal Water) Bayshore District Operations Building San Mateo, City of San Mateo--San Mateo The Cal Water is proposing a new two-story office building to replace the existing structures on the site which currently operate and will continue to serve as a customer service office and field operations center for Cal Water located at 341 and 345 N. Delaware Street. The project site currently has three existing structures on-site totaling approximately 10,165 sf. These existing structures are currently being used as office space for the CA Water Service Company.	<b>Neg</b>	03/06/2013

	condition and in order to preserve any potential historical and/or archaeological resources.		
2013028036	Carrizo Marsh Habitat Restoration and Right-of-Entry Permit Parks and Recreation, Department of --San Diego, Imperial This project proposes to restore approximately 318 acres of Carrizo Marsh through the removal of tamarisk stands and other non-native species. This will be completed as a requirement for the Ocotillo Wind Energy Facility to mitigate for impacts to Peninsula bighorn sheep, waters of the U.S., waters of the State, and sensitive vegetation communities. The primary tools to be used for tamarisk eradication will be mechanical treatment and prescribed burn. Fire will reduce the amount of above ground biomass prior to the manual and/or chemical control of non-native plant species.	<b>NOE</b>	
2013028037	Country Club 420,000-Gallon Bolted Steel Tank Replacement Project East Niles Community Services District Bakersfield--Kern The project involves the replacement of a 50-year old plus 420,000-gallon bolted steel tank with a new tank of the same capacity. This project will require the construction of new tank foundation with modifications to yard piping. The tank will provide potable water storage to the District.	<b>NOE</b>	
2013028038	Baker Commodities Inc. Replacement Well No. 3 Public Health, Department of Kerman--Fresno The California Department of Public Health (Department) as the lead agency will be issuing a water supply permit. The Baker Commodities Inc. proposes to drill a replacement Well 03 to replace one of their active Well 2 due to higher uranium concentrations. Well 3 will be drilled 225 feet southwest of the existing Well 2. There will be no new tanks constructed and an approximately 30 HP size new pump will be installed at Well 3.	<b>NOE</b>	
2013028039	Grant Grove Wastewater Collection System Improvements within Kings Canyon National Park National Park Service --Fresno The NPS is proposing to rehabilitate the wastewater collection system that serves the Grant Grove area. This system collects the wastewater from campgrounds, picnic areas, trailer villages, concessioner facilities, NPS operations and maintenance facilities, and employee housing within the Grant Grove area. The existing wastewater collection system includes a treatment facility, three lift stations, an inverted siphon, gravity sewers and forcemain piping. Portions of the collection systems' manholes and sewers are in poor condition and are contributing substantially to infiltration and inflow which can increase sewage flows to the wastewater treatment plant, exceeding their discharge permit limits and increasing operational costs. This project is needed to reduce infiltration and exfiltration, improve operation of the system, and to protect natural resources. There are a number of improvements needed, such as replacing, sliplining, and cleaning existing wastewater lines; and, manhole rehabilitation. A small portion of the project would occur in wetlands within Bradley Meadow. This project work would include the rehabilitation of six existing manholes, including cleaning, coating the interior, and replacing manhole frames and covers as needed.	<b>NOE</b>

	100-year storm runoff. Further, through the National Flood Insurance Program the Federal Emergency Management Agency (FEMA) identified a Special Flood Hazard Area caused by the runoff during a 100-year storm event and delineated it on the Flood Insurance Rate Maps it publishes. As a consequence property owners within the Special Flood Hazard Area are required to purchase flood insurance for their homes.		
2012122048	Clear Channel Digital Freeway Sign Conditional Use Permit and Operating Agreement Rancho Cordova, City of Rancho Cordova--Sacramento CUP and Operating Agreement for a digital freeway sign at the Sports Complex project site (APN 069-0130-008, -017). Activities at this location will include conversion of an existing traditional billboard to a digital freeway sign. The conversion will rely upon the existing billboard sign structure, covering the existing pole in decorative cladding, and changing out the existing sign faces to smaller, digital display areas (see Figure 4). The sign will not move in an east/west direction nor will it get any closer to Highway 50. Additionally, the existing electronic sign located on the site's monument sign will be removed. As required by the Zoning Code standards regulating digital freeway signs, the project will also include removal of a traditional billboard located at the southeast corner of Folsom Boulevard and Zinfandel Drive.	<b>NOD</b>	
2013028042	Installation of Southern Project Boundary Feather River Temperature Gage Water Resources, Department of Oroville--Butte DWR will re-grade an existing road as needed to provide access to the station location near the downstream project boundary of the OWA. A pipe gate will be installed in concrete at the end of Almond Avenue and the road will be reestablished for station installation, maintenance and security use. The road is approximately 0.3 miles in length and some minor grading and site leveling will be performed. An approximately 4' by 4' concrete slab will be placed at the site with a pre-fabricated pipe housing structure (approx. 14" diameter by 10' tall) placed on the foundation. A 2" diameter conduit pipe will run from the gage house along the bank surface down to 5' below the water surface.	<b>NOE</b>	
2013028043	Raley Dock Area CSLC Lease Amendment West Sacramento, City of West Sacramento--Yolo The City of West Sacramento proposes to amend an existing lease with the California State Lands Commission (PRC 6002.9) for the future rehabilitation of a previously existing dock and its structures.	<b>NOE</b>	
2013028044	Raley's Landing CSLC Land Lease Consolidation West Sacramento, City of West Sacramento--Yolo The City of West Sacramento proposes to consolidate two Raley's Landing SCLC lease areas (PRC 7261.9 and PRC 7983.9). The combined lease will allow public access to the future rehabilitated dock and its structures.	<b>NOE</b>

	Country Trunk Sewer, and New Force Main to Riverside Wastewater Treatment Plant are now proposed. These facilities were previously analyzed at the project level, and as such, a Subsequent IS/MND is necessary to analyze the potential impacts of the newly proposed alignments and components. As with the Project that was adopted in January 2011, the overall objective of the alignment revisions is to replace existing sewer pipelines and install additional sewer lines and components as the need and demand arises in the District's service area.		
2013022018	Swainson's Grassland Preserve Grading Permit (DGP 5049) Placer County Lincoln--Placer The project proposes the approval of a Grading Permit to restore riparian habitat along approximately 1,800 linear feet of an unnamed irrigation channel that crosses the 17-acre site, re-establish five acres of seasonal wetlands, and replant approximately ten acres of land as seasonally flooded scrub-shrub wetlands and two acres of land as oak savanna.	<b>MND</b>	03/08/2013
2013022019	Hagan Quarry (Jim Wheeler, Applicant) Humboldt County --Humboldt A 15-year renewal of Conditional Use/Surface Mining Permits and Reclamation Plan and review of financial assurance cost estimates for an existing surface mining operation known as the Hagan Quarry.	<b>MND</b>	03/12/2013
2000062030	2012 Basin Management Plan Update Pajaro Valley Water Management Agency Watsonville--Monterey, Santa Cruz The BMP 2012 represents a comprehensive set of actions, including individual projects, policies, and basin management strategies to stop seawater intrusion and overdraft of the Pajaro Valley groundwater basin while providing an adequate water supply to meet annual demands within the basin. The recommended BMP 2012 consists of the following components to reduce groundwater pumping while providing adequate water supply to meet service area needs: Conservation, Increased Recycled Water Storage, Increased Recycled Water Deliveries, Harkins Slough Recharge Facilities Upgrades, Watsonville Slough with Recharge Basins, College Lake with Inland Pipeline to Coastal Distribution System, Murphy Crossing with Recharge.	<b>NOP</b>	03/08/2013
2013021019	Lerdo Detention Facility Expansion Project by the Kern County Sheriff's Office (PP13224) (EIR 06-12 JLB) Kern County Shafter, Bakersfield--Kern The proposed project includes an application for approval of a CUP 48, Map 81, to allow for the expansion of the existing Lerdo Detention Facility. Construction and operation of a "community or regional correctional and similar involuntary detention facility" requires approval of a CUP pursuant to Chapter 19.12.030.I of the Kern County Zoning Ordinance. Specifically, the project proponent proposes to expand the current detention facility (also referred herein as the jail complex). Implementation of the project includes the construction of new, ancillary buildings, as well as the upgrade and expansion of the existing on-site water system and wastewater treatment and disposal facility. The total proposed on-site expansion area is approximately 26.5 acres. The Lerdo jail complex encompasses six parcels totaling about 297.6 acres, as well as a 35-acre undeveloped parcel immediately south of Lerdo Highway, portions of which will be used for wastewater	<b>NOP</b>	03/11/2013

	disposal. The project would result in a total of 822 new beds for housing inmates, 194 new employees and 47 additional average daily visitors. A total of an additional 241 employees/visitors are expected to access the project site per day.		
2013022017	Magnolia Ranch Specific Plan Yuba County Marysville, Wheatland--Yuba The applicant, CEM Investments, is requesting approval of a Specific Plan (SP2006-0002), Change of Zone, Tentative Parcel Map (Large Lot Map), Tentative Subdivision Tract Map and Development Agreement on approximately 1,039 acres. The proposed project would result in development of a mixed-use community with approximately 3,000 to 4,200 dwelling units, including units that are age restricted, neighborhood commercial areas, a business professional area, an elementary and intermediate school, recreation areas, and dedicated open space with park trails.	<b>NOP</b>	03/08/2013
1984051409	Millerton Newtown Phasing Plan & Program/Fresno County Fresno County --Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game code to the Project applicant, JPJ Incorporated. The applicant proposes to replace a multi-pipe culvert, with a double multi-plate steel arch culvert bridge, construction of a new outfall structure from the detention basin into White Fox Creek, and small erosion repair Projects within Millerton new Town Tract 4870 footprint.	<b>NOD</b>	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus Rezone of a 3.68-acre parcel from Low Density Residential (R-1) Zone to the Professional Office (P-O) Zone. The site is semi-vacant with one 1,839 sq. ft. residence and two accessory structures. No development was proposed with the rezoning. A future staff level approval (Development Plan Review) for any new development will be required.	<b>NOD</b>	
2011081052	Cathedral Oaks Road Bridge Replacement Santa Barbara County Goleta--Santa Barbara The Permittee proposes to replace both sections of the Cathedral Oaks Bridge which were built in 1958 and 1931. The new bridge will consist of bike lanes, 5-foot wide sidewalks, and four 12-foot traffic lanes, for a total width of 74.5 feet. Work in the creek will consist of channel grading, re-contouring and placement of ungrouted rock rip-rap. This bridge contains the largest bat colony in the greater Santa Barbara area, therefore bat exclusion measures and bat habitat replacement, both temporary and permanent, is a large part of this project. Bats will be prevented from entering the existing bridge crevices prior to demolition using plastic sheeting called exclusion curtains, which will hang down on both sides of the crevices and will be long enough to form a one-way passage that will prevent re-entry. The curtains shall be installed between the end of October and January 30th to prevent the return of the bat colony and before any pups are born. Bats will be provided alternative roosting habitat with six temporary structures consisting of two layers of plywood (2-feet high by 8-feet long) installed in a vertical position on the concrete girders under the bridge, with 1-inch by 2-inch spacers, for a total of 96 linear feet. Four additional Texas bat abodes will be	<b>NOD</b>

	<p>attached under the nearby Tuckers Grove entrance bridge, providing 224 linear feet of crevice habitat. Texas abodes consist of eight layers of plywood and spacers to provide seven parallel crevices. Ten additional long term bat habitats will be installed in a vertical position on concrete girders under the bridge, with 1-inch by 2-inch spacers, for a total of 96 linear feet. Four additional Texas bat abodes will be attached under the nearby Tuckers Grove entrance bridge, providing 224 linear feet of crevice habitat. Texas abodes consist of eight layers of plywood and spacers to provide seven parallel crevices. Ten additional long term bat habitats will be installed under the new bridge using Texas bat abodes, clustered mid-span on each side of the center line. All the new bat abodes shall be rubbed with bat guano or sprayed with bat guano tea from the original colony to ensure the bats will move into the new habitat. The Permittee shall provide an area of flat open water so the bats can fly in and drink on the wing. Monitoring of the bats will be conducted by a qualified biologist.</p>		
2012051038	<p>LU11-0077 Ventura County Ojai--Ventura The Permittee proposes to construct a span bridge across San Antonio Creek to replace an Arizona crossing which has since failed. The new span bridge will be 24 feet wide by 84 feet long at the crossing of Skunk Road. The road on the west side of the creek will be upgraded and a new 24 foot wide road will be constructed on the east side connecting with Skunk Ranch Road. Willow cuttings will be planted within the rip rap adjacent to the bridge, and all disturbed areas will be hydro-seeded with native plants. Broken concrete from the old crossing shall be removed.</p>	<b>NOD</b>	
2012072048	<p>MDP 2012-13 (Northstar Engineering Group, Inc.) Turlock, City of --Stanislaus The authorized construction of a two-story, approximately 38,000 square foot professional medical building with associated improvements including parking, landscaping, and paving at 3006 &amp; 3124 West Christoffersen Parkway (Stanislaus County APNs 087-030-001 &amp; 087-030-002). Access to the project will be from a right-in right-out only driveway along West Christoffersen Parkway, a portion of the property will remain undeveloped at this time.</p>	<b>NOD</b>	
2012112054	<p>Cosby Subdivision Humboldt County --Humboldt A subdivision of an approximately 44,000 sf parcel into two parcels of 17,546 sf (gross) and 26,453 sf (gross). The parcel is currently developed with a single family residence and detached garage. The single family residence will be sited on proposed Parcel 2 and the garage will be sited on proposed Parcel 1. An exception to the subdivision standards is requested to allow the parcels to be served by a reduced right of way. The private road (Hidden Fox Lane) already exists and has a right of way width of between 26 and 40 feet wide. The subdivision is considered a Final Map due to owner's involvement of previous subdivisions on adjacent parcels. A Special Permit is required to allow the detached garage to remain on proposed Parcel 1 prior to the construction of a primary residence. Water and sewer provided by McKinleyville CSD.</p>	<b>NOD</b>

2011032046	<p>Replacing Regionwide Pesticide Water Quality with a Regionwide Prohibition with Exemption Criteria</p> <p>Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Modoc, Lassen, Sierra, Nevada, Placer, El Dorado, Alpine, ...</p> <p>Replaces existing region wide pesticide water quality objective of non-detect, which effectively prohibits pesticides in water, w/ a region wide prohibition on discharges of pesticides w/exemption criteria for aquatic pesticide application. Amendment gives Water Board discretion to approve eligible aquatic pesticide applications. Eligible projects include those proposed for purposes of public health &amp; safety and preservation of ecological integrity that satisfy exemption criteria.</p>	<b>NOD</b>	
2012051006	<p>Sol Orchard Ramona Solar Energy Minor Use Permit</p> <p>San Diego County</p> <p>--San Diego</p> <p>The applicant requests a Major Use Permit to allow for the construction and operation of a photovoltaic solar farm. The project would consist of solar panels over approximately 42.7 acres of 110 acre site with a production capacity of 7.5 Megawatts (MW). The proposed panels would be single-axis tracking photovoltaic solar panels supported on a galvanized driven H-pile post system which would not exceed 11.5 feet in height at maximum tilt.</p>	<b>NOD</b>	
2012082014	<p>PG&amp;E Arcata Reconductoring</p> <p>Humboldt County</p> <p>Arcata--Humboldt</p> <p>A Coastal Development to allow for reconducting of approximately five miles of Pacific Gas and Electric utility distribution lines in the Arcata Bottoms area. The project involves replacing distribution line poles and adding poles where the current spacing is too far apart. The project occurs both within the City of Arcata and the County of Humboldt's unincorporated jurisdiction. Within the County's jurisdiction, 144 poles will be replaced or added. Although all work will occur within the PG&amp;E and road right of way the project will involve work within wetlands. Approximately 2,588 square feet of wetlands will be temporarily impacted by construction activities. Approximately 27 square feet of wetlands will be permanently impacted by pole replacement activities. No major grading is required. The work is required in order for the line to continue supporting approximately 4,000 existing customers and general load growth in Arcata and McKinleyville. Without reconductoring the existing customer use and new growth will over burden the current system and customers will likely experience power outages.</p>	<b>NOD</b>	
2012112045	<p>Truck Parking Facility for Five Trucks and Ten Trailers</p> <p>San Joaquin County</p> <p>Stockton--San Joaquin</p> <p>Site Approval application for the parking of five trucks and ten trailers, the conversion of an existing 1,200 square foot building into a maintenance shop and a 150 square foot office and bathroom as shown on the revised site plan dated January 11, 2013. Repair and routine maintenance of trucks may permit as an accessory use only to the proposed operation. On-site repairs of trucks, other than the five trucks and ten trailers included within the project description are not permitted. Located on the south side of Loomis Road, 1,150 feet west of State Route 99 West Frontage Road, Stockton.</p>	<b>NOD</b>

2013028075	Office and Warehouse Space Lease Renewal Technology Services, Department of --Sacramento The California Technology Agency, Public Safety Communications Office, proposes to renegotiate the existing lease, approximately 100,000 square feet of office and warehouse space. Building has approximately 150 staff and not require any special expansion of the existing structure.	<b>NOE</b>	
2013028076	Etiwanda Pipeline Lining Repair - Phase 1 (Pilot) Metropolitan Water District of Southern California Fontana--San Bernardino Metropolitan is proposing to conduct a Pilot Project lining repair to the Etiwanda Pipeline. The Pilot Project will consist of lining repair to less than one mile in length of pipeline, to conform production rates and efficiencies of the lining process and for information gathering and basic data collection for future lining repair.	<b>NOE</b>	
2013028077	Streambed Alteration Agreement #1600-2012-0195-R2 Little Truckee River (Old Fibreboard Road) Bridge Replacement Fish & Wildlife #2 --Sierra The project is limited to the demolition and removal of the existing bridge, construction of a temporary bypass road and bridge immediately upstream, construction of the new bridge at the same location as the old bridge, and removal of the temporary bridge. The removal and relocation of the current bridge abutments will relieve the currently constricted conditions and allow a wider span for river floodplain, allow an additional 0.17 acres of flooded area.	<b>NOE</b>	
2013028078	Fellner Backyard Fish & Wildlife #3 --Contra Costa The project is limited to installation of a retaining wall and minor fill at the top of bank, as well as phased, minor maintenance activities. The retaining wall will be set back 2 to 2.5 feet from the mean high water mark and will be a maximum of four feet tall and 35 feet long. The wall will consist of ungrouted, pre-cast concrete pavers, backed by gravel drain rock. The slope above the top of bank will be slightly recontoured to provide a flat play area. Minor fill, limited to 5 cubic yards, will be placed behind the wall at the top of bank. Issuance of Streambed Alteration Agreement Number 1600-2012-0372-R3 is pursuant to Fish and Game Section 1602.	<b>NOE</b>	
2013028079	Existing Access Road Bridge Fish & Wildlife #3 --Sonoma The project is limited to the modification of an existing bridge over Icaria Creek. The current bridge is not built to local building codes and will be modified to comply with current county building codes. The project includes: (1) installing helical piers outside the top of bank on each side of the bridge in order to support new concrete bridge abutments; (2) excavating for the abutments by hand to minimize stream impacts; and (3) longer girders and additional bracing welded to the bottom of the bridge for additional support. During construction, a silt fence will be installed approximately half way down the stream bank to catch any soil that may fall towards the stream during hand excavation, and canvas sheets will be installed under the bridge during welding activities to prevent slag from entering the stream channel. The silt fence and canvas will be removed from the site	<b>NOE</b>

2013028085	Operational Improvements to (SR) 299/Roadside Materials Disposal Site - Poison Pond Caltrans #2 --Trinity The CA Caltrans, proposes operational improvements to (SR) 200 between (PM) 45.7 & 46.2 in Trinity County. Additionally, Caltrans proposes to construct a roadside material disposal site within the project limits. The existing section of highway within the project limits is a conventional two-lane highway with 11ft. lanes and 0.5 to 2 ft. paved shoulders. The proposed project will widen the existing roadway by series of cuts and added fills, provide 8 feet paved shoulders and an improved clear recovery zone. Super-elevation runoff lengths, drainage facilities and guardrail, will be improved, to meet current Design Standards. Completion of these improvements will require vegetation and tree removal, new overlay, striping and markers. Also, a new roadside material disposal site access road will be constructed below the highway.	<b>NOE</b>

2013022022	SR 128 Storm Damage Repair Caltrans #6 Cloverdale--Sonoma Caltrans proposes to make repairs and stabilize two segments of SR 128 in Sonoma County. At Location 1 (post mile 2.36) work would include construction of a soldier pile wall (retaining wall) approximately 90' long and 15' high, reconstruction of the westbound lane of SR 128 to 12 feet wide with a 4 foot wide paved shoulder, installation of guardrail at the edge of shoulder, installation of cable railing wall, and removal of vegetation. At Location 2 (post mile 2.6) work would include installing horizontal drains to manage subsurface water, removing unstable slide debris and placing erosion mat and a double twisted wire mesh drapery system over the slide area. Work would also include removal of vegetation within slide area necessary to place the erosion mat and wire mesh drapery system.	<b>MND</b>	03/12/2013
2013021026	EIR No. 345 for the Ball Road Basin General Plan Amendment and Zone Change Anaheim, City of Anaheim--Orange OCWD is proposing to amend the City's General Plan Land Use Element Map and Zoning Map for the proposed project site. The proposed project would change the City's General Plan Land Use designation for the site from Open Space to General Commercial. Areas designated as General Commercial may, but do not necessarily serve the adjacent neighborhood or surrounding clusters of neighborhoods. General Commercial land uses include a variety of land uses, including neighborhood-serving food markets, drug stores, restaurants, small hardware stores, child care centers, health clubs, large grocery stores, appliance stores, neighborhood-serving restaurants, bakeries, banks, specialty shops, some low intensity civic uses, and other retail and professional uses. In addition these areas may include highway-serving uses such as fast food restaurants, auto-oriented uses such as tire stores, service stations, auto parts stores, and other stand-alone retail uses.	<b>NOP</b>	03/12/2013
2013021027	Coastal Planned Development Permit Case No. PL12-0091 Ventura County Malibu--Ventura The request is for a Coastal Planned Development Permit to construct a five-foot wide boardwalk that sits on top of the most highly used trails within the project site. The boardwalk would provide an easy and less obstructive route for visitors throughout the site by keeping foot traffic off the soil and lessening disturbance to the archaeological deposits. A rod and cable system would serve as a symbolic fence to encourage visitors to use the boardwalk and not encroach upon the archeological deposits.	<b>Neg</b>	03/12/2013
2003042054	Casa Del Reis Subdivision Vallejo, City of Vallejo--Solano The Project is limited to the permanent fill of 277 linear feet (0.15 acre) of a drainage channel and installation of a 48-inch diameter bypass drainage pipe. The channel, which is approximately two (2) to three (3) feet deep, will be backfilled and compacted with fill material. The existing drainage inlet located in the northeastern corner of the project area will be closed and the channel's surface flows will be directed into the existing drainage system which is located on Reis Avenue. The project is located at 400 Reis Avenue in the city of Vallejo,	<b>NOD</b>

	Solano County. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0383-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, harbhajan S. Deol.		
2007011113	Riverside Transmission Reliability Project Riverside, City of Riverside, Rialto, Colton--Riverside, San Bernardino Construction and operation of a new, double-circuit 230 kV transmission line and new 69 kV subtransmission lines including a new SCE 230 kV electrical substation (Wildlife Substation) and a new RPU 230/69 kV electrical substation (Wildlife Substation) on land east of the Riverside Regional Water Quality Control Plant. The new 230 kV line would interconnect to SCE's existing Mira Loma - Vista #1 230 kV transmission line and terminate in the Wildlife Substation. Wilderness Substation would transform the electrical energy from 230 kV to 69 kV for delivery into RPU's subtransmission system. Upgrades to four of RPU's existing substations south of the Santa Ana River (Harvey Lynn, Freeman, Mountain View, and Riverside Energy Resource Center) would be required for integration of the new power source.	<b>NOD</b>	
2010101053	Adoption of Rule 1406 Generation of ERCs for Paving Unpaved Public Roads Mojave Desert Air Quality Management District --San Bernardino, Riverside The Project is the proposed adoption of Rule 1406 - Generation of Emission Reduction Credits for Paving Unpaved Public Roads. The objectives of this Project (rule adoption) are to codify existing District procedures, making their application federally enforceable, and to allow PM10 emission reductions generated by unpaved public road paving to be used as offsets for specifically identified permit applications subject to federal New Source Review requirements.	<b>NOD</b>	
2012052038	McGregor Pump Station Project Soquel Creek Water District Capitola--Santa Cruz The District proposes to acquire approximately 0.16-acre of the 4.31-acre city owned land to build a pump station that would move water between Service Areas 1 and 2. The capacity of the pump station on this project site could be expanded in the future, which would require installation of additional equipment in the building, but no additional ground disturbance. The project site is within 150 feet of SR-1 and immediately east of the entrance to New Brighton State Beach. The terrain has a southern aspect, gently sloping towards the Pacific Ocean with an elevation ranging from 80 to 100 feet above mean sea level. The site is covered with vegetated coast live oak and landscaped fruit trees. The lower portion of the proposed project site has a broad perennial freshwater seep wetland.	<b>NOD</b>	
2012082056	Sierra Army Depot - MMRP 7 Sites Toxic Substances Control, Department of --Lassen Removal of invasive non-native plants using seawater irrigaton, hand removal, and other methods and replanting with native species. The project will occur on Kent Island, a small sand shoal within Bolinas Lagoon. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0388-R3 pursuant to Section 1602 of the Fish and Game Code the project Applicant, James Raives/Ronal Miska Marin County Parks.	<b>NOD</b>

	would be cut-and-cover (7,100 feet) and horizontal directional drilling (1,900 feet). 2. approximately 6,000 linear feet of 16-inch pressurized recycled water distribution pipeline along Pancho Road.		
2012111093	BEACON Single Use Carryout Bag Ordinance BEACON, Beach Erosion Authority for Clean Ocean Authority --Santa Barbara, Ventura The proposed Single Use Carryout Bag Ordinance (proposed ordinance) would regulate the use of paper and plastic single use carryout bags within the geographical limits of Santa Barbara and Ventura counties, including the unincorporated areas as well as the 18 incorporated cities listed above under Project Locations. The intent of the ordinance is to reduce the environmental impacts related to the use of single use carryout bags, and to promote a shift toward the use of reusable bags. It is anticipated that by prohibiting single use plastic carryout bags and requiring a mandatory charge for each paper bag distributed by retailers, the Proposed Ordinance would provide a disincentive to customers to request paper bags when shopping at regulated stores and promote a shift to the use of reusable bags by retail customers, while reducing the number of single use plastic and paper bags within the participating municipalities.	EIR	03/28/2013
2012021017	West Mission Bay Drive Bridge Replacement Project San Diego, City of --San Diego City of San Diego project to replace the existing West Mission Bay Drive Bridge crossing of the San Diego River flood control channel between the West Mission Bay Drive/Sea World Drive intersection and the Sports Arena Boulevard/I-8 intersection. This is a Caltrans Local Assistance Project that proposes to use Federal Highway Administration funds administered by Caltrans. Caltrans prepared a Draft EA for the project in accordance with FHWA requirements for complying with the National Environmental Policy Act. The City adopted a MND for the project in September 2012 (SCH #2012021017).	FON	
2013021030	Kern Front Oil Field Steam Generators by Vintage Production CA, LLC (Project No. S-1123499) San Joaquin Valley Air Pollution Control District Bakersfield--Kern Vintage Production CA, LLC (VPC) is proposing to install and operate twelve new 85 MMBtu/hr natural gas-fired steam generators. VPC is requesting new permits for six of the new steam generators and modifications to the existing permits for the remaining six steam generators. The proposed project will be located within VPC's Heavy Oil Central Stationary Source in the Kern Front Oil Field.	MND	03/13/2013
2013022024	Permanent Landform and Drainage Restoration San Mateo County --San Mateo The project applicant is requesting a Coastal Development Permit, Grading Permit, and Design Review Exemption to restore the 8th Street landform to pre-landslide contours and provide storm and ground water interception, drainage, and revegetation for the project area located at 8th Street, west of Cabrillo Highway, in Montara, CA. The project includes 2,850 cubic yards (cy) of grading (350 cy of cut and 2,500 cy of fill), the removal of one (1) Cypress tree (16" dbh), and the reconstruction of an existing residential garage at 8450 Cabrillo Highway for use of the area as a construction staging area to avoid construction related	MND	03/13/2013

	impacts to roadways. Project is located within Cabrillo County Scenic Corridor.		
2013021029	Tamarack #1 Exploratory Oil and Gas Well Project Division of Oil, Gas, and Geothermal Resources --Kern Project proposes activities necessary to drill and test three exploratory oil and gas wells from a 3-acre well pad. The proposed project is located within the Rio Viejo Oil Field within an existing vineyard.	<b>Neg</b>	03/13/2013
2013022023	Leggett Maintenance Station Groundwater Remediation Caltrans #1 --Mendocino Remediation of residual petroleum in the soil and groundwater by installing an ozone sparge system. The contamination is residual after removal of underground fuel storage tanks years ago. The remediation is needed to protect and improve groundwater quality and beneficial uses of the groundwater.	<b>Neg</b>	03/13/2013
2000082084	Motherlode Forcemain Lime Road to Presley Lane Stream Crossing El Dorado Irrigation District --El Dorado The Motherlode Forcemain (MLFM) is approximately a 9-mile sewer pipeline that extends from the El Dorado Lift Station in the town of El Dorado to the main gravity line that feeds the Deer Creek Wastewater Treatment Plant in Cameron Park. The District is preparing to install the Phase IIC alignment of the MLFM. Installation of the pipeline will occur along South Shing Road, Lakeview Drive, and Oakmont Drive with a section of pipeline replaced at a stream crossing along Durock Road. The Phase IIC alignment will require minor, technical changes to the Motherlode Forcemain Replacement Project Final Program EIR and Tiered Lime Road to Presley Lane Stream Crossing IS/MND. Therefore, an Addendum has been completed by the El Dorado Irrigation District in accordance with CEQA Guide Section 15164.	<b>NOD</b>	
2011022045	Memorandum of Understanding for Water Service to the Shingle Springs Rancheria El Dorado Irrigation District --El Dorado Detachment and concurrent re-annexation of APN 319-100-37 (159.25 acres) into the El Dorado Irrigation District.	<b>NOD</b>	
2011022045	Memorandum of Understanding for Water Service to the Shingle Springs Rancheria El Dorado Irrigation District --El Dorado Water service would be provided through a three-inch flow meter located on the Rancheria in an approximately five-foot seven-foot underground vault (flow meter vault) adjacent to Honpie Road. The meter would provide maximum continuous flow of 95 gpm and a maximum average daily delivery of 135,000 gpd. No physical changes would occur to EID's control, access, operation, maintenance, repair, or replacement capabilities. Water service on the Rancheria would be provided through a tribal utility district independent of EID. The new flow meter would be relocated approximately 2,000 feet to the southwest from the existing meter serving Rancheria. The flow meter would be connected to approximately 4,025 feet of new 12-inch water supply pipeline to be installed by the Tribe on the Rancheria along Honpie Road. The underground flow meter vault would be locked and EID would have sole access. Other appurtenances adjacent to the flow meter	<b>NOD</b>

## Electrical

\* Installation of a switchboard, conduits, a circuit breaker, six meters, and a San Diego Gas & Electric (SDG&E) transformer pad in the southeast corner of the Crosby Street Pier parking lot in order to provide on-shore electrical power to the Crosby Street Pier

## Telecommunication

\* Extension of two telephone lines and internet connections from the existing AT&T communications service pedestal at the southwest corner of the parking lot to the new electrical receptacles on the Crosby Street Pier.

## Sewer

\* Installation of an exposed sewer line on the southside of the Crosby Street Pier from the pier end to the east end of the pier.

## Water

\* Installation of an exposed water line on the Interior of the south pier wall from the pier end to the east end of the pier.

2013028117	Yuba City Wastewater Infrastructure Upgrade Project 2012 Yuba City Yuba City--Sutter 1) Improvements to the Existing Digesters including replacement of existing digester covers with new covers. 2) Septic and Grease Receiving Station and Cogeneration System Installation 3) Improvements to existing Primary Clarifier and Secondary clarifiers 4) Improvements to the existing chlorine contact basin 5) Evaluation and improvements to the Plant's existing electrical system	<b>NOE</b>

2004072137	Davidon Homes Tentative Subdivision Map and Rezoning Project Petaluma, City of Petaluma--Sonoma Note: Extended Review	<b>EIR</b>	04/15/2013
------------	--	------------	------------

The proposed project includes the subdivision and rezoning of two parcels on each side of Windsor Drive at the intersection of D Street. The project would create 93 single-family homes on approximately 35 acres. The remaining 23 acres would become open space, including: 20 acres of public open space to the north and south of Kelly Creek; a 100-foot wide public open space area along the southern project boundary; a 300-foot wide open space area at the southwest portion of the site; and 2.35 acres of private open space around the stock pond. The Kelly Creek open space corridor would be 200 feet wide and would include a meandering public pedestrian/bike path that would connect to Helen Putnam Regional Park.

2011112024	On-site Wastewater Treatment Systems Ordinance Santa Clara County San Jose--Santa Clara The County of Santa Clara proposes to adopt a new ordinance that would update and replace existing County regulations governing individual on-site wastewater treatment systems (OWTS) within the unincorporated parts of the County. Besides allowing use of alternative OWTS (non-traditional systems that use pre-treatment technologies), the proposed ordinance would eliminate the 1-acre minimum lot size requirement for installation of OWTS in the Lexington Basin. The proposed project also includes changes to a County General Plan policy as well as a change to the Zoning Ordinance eliminating the minimum lot size requirement for secondary dwelling units in the San Martin Planning Area.	<b>EIR</b>	04/02/2013
2012041034	Viejas Parking Structure Project Viejas Band of Kumeyaay Indians --San Diego Note: Tribal EIR  The proposed parking structure is six-stories, approximately 61 feet in height (73 feet in height at the elevator tower), with a parking capacity of approximately 1,000 vehicular, located immediately north of and adjacent to the existing Viejas Hotel and Casino of the Reservation. The proposed parking structure will be connected to the existing Hotel and Casino through two new pedestrian overpasses. The approximate grade at the parking structure site is 2,304.5 feet above mean sea level. The purpose of the parking structure is to support the hotel and casino by providing more convenient parking to the customers.	<b>EIR</b>	04/02/2013
2012061053	2012 General Plan La Mesa, City of La Mesa--San Diego The project is the adoption and implementation of the City of La Mesa 2012 General Plan. The 2012 General Plan builds upon the vision established in the City's existing General Plan and responds to the evolving needs and objectives of the community. The 2012 General Plan includes the seven state mandatory elements and three optional elements as follows: land use and urban design; circulation; conservation and sustainability; recreation and open space; Historic preservation; noise; safety; public services and facilities; health and wellness; and housing. The DEIR analyzes impacts associated with the implementation of the 2012 General Plan.	<b>EIR</b>	04/02/2013

	serve as reference documents for existing public buildings and safety facilities.		
2013022033	Storage Pro Santa Rosa, City of Santa Rosa--Sonoma The proposal involves an approximately 88,950 sf self storage project that includes three detached buildings, ranging in height from approximately 30'-4" to 33'-5", and associated site and landscape improvements at 4420 Sonoma Highway; APN 032-010-010.	<b>MND</b>	03/18/2013
2008041165	Rincon Palms Revised Hotel and Conference Center Goleta, City of Goleta--Santa Barbara Laurel Perez of Suzanne Elledge Planning & Permitting Services, representing the applicant, Goleta HHG Hotel Development, LP, proposes to revise the approved Development Plan for the Rincon Palms Hotel and Restaurant Project, approved by the City of Goleta in October 2008. The proposed revisions include the removal of the proposed 6,000-square foot freestanding restaurant and the addition of a 5,440-square foot conference center to the proposed hotel. Additionally, the room count would increase from 112 to 149 rooms. There would be an increase of overall hotel floor area from 59,600 square feet to 93,692 square feet; and a decrease in parking from 189 spaces to 169 spaces, all surface parking, plus a valet parking plan for 11 additional spaces for peak events.	<b>NOP</b>	03/15/2013
2013021031	Beaumont Distribution Center (City Project No. 12-PP-05, 12-RZ-02, and 12-GPA-01) Beaumont, City of Beaumont--Riverside The proposed Project entails the development of an approximately 38 acre site with an 803,600 square foot high cube distribution warehouse facility with a maximum building height of 50 feet. The proposed building provides for 783,600 square feet of warehouse and 20,000 square feet of office as depicted in Figure 4, Site Plan. In addition to the distribution warehouse, approximately 13 acres will be allocated for loading bays, drive aisles, and 387 parking stalls; 200 standard vehicle parking stalls, 8 handicap parking stalls, and 179 semi-trailer truck 2 parking stalls. Approximately 4 acres will be set aside for landscaping and water quality structural treatment Best Management Practices (BMPs) which consists of approximately 11 percent of Project site. The proposed building is speculative. The anticipated use is a distribution center but the specific occupants or use of the building is not known at this time.	<b>NOP</b>	03/15/2013
2013021033	General Plan Update Calimesa, City of Calimesa--Riverside The City received a Focus Area #1 Local Sustainability Planning Grant through the Sustainable Communities Planning Grant and Incentives Program to prepare a General Plan Update. The update will include the addition of new sustainability-related goals and policies, a review of existing goals and policies, and an overall streamlining of the existing General Plan. Many of the goals and policies in the existing General Plan will remain intact, or be slightly modified to reflect current conditions, changes in legislation, or the intent of the grant. The update effort will include preparation of a new sustainability element that will explain the City's approach to meeting the goals expressed in Government Code	<b>NOP</b>	03/15/2013

	removal of approximately 800 linear feet of existing abandoned road pavement. A 30 foot span bridge will cross a natural drainage way; 2) formalization of the Pirates' Cove parking lot by leveling, resurfacing with asphalt, landscaping, and providing 35 parking spaces; 3) installation of drainage improvements of vegetated bio-swailes and two level spreaders in the parking lot area; 4) Improvement of the existing pedestrian trail from the parking lot to Pirates Cove beach including: a four foot wide trail; additional water bars for drainage; stairs to the beach; and rails or fencing as necessary; 5) construction of accessory facilities including a waterless vault restroom, picnic tables, benches, garbage cans, and interpretive signs, and 6) regular maintenance of these facilities. This project will also require a variance of the Bluff Top Setback and Development on Slopes of 30 percent standards and a waiver of the fencing and screening standard for side and rear setbacks. This project will result in approximately 700 cubic yards of ground disturbance, on two parcels totaling approximately 53 acres.		
2013021044	CUP #2011-02 & Rec. Plan #2011-03/Monarch Mining Group Inyo County --Inyo Process 300,000 tons per year, onsite for a period of 10 years.	<b>MND</b>	03/20/2013
2013022035	Arroyo Seco Twin Cities Utility Line Project Sacramento Municipal Utility District --Sacramento The Arroyo Seco Twin Cities Utility Line Project (Proposed Project) would be located near the unincorporated community of Herald, Sacramento County, CA. The Proposed Project would consist of installing approximately 7,260 feet (1.38 miles) of overhead and underground utility line from an existing utility pole to an existing 145-foot cellular tower on the north side of Twin Cities Road, east of Clay Station Road. As part of this project, 13 new utility poles and 3 pull boxes would be installed. Approximately 3,422 feet of utility lines would be installed overhead and the remaining 3,838 feet would be installed underground in 4-inch diameter conduit. The underground trenching would occur within a five-foot wide utility easement and the overhead utility pole installation would occur within a five-foot wide utility easement and the overhead utility pole installation would occur within a ten-foot wide utility easement. The Proposed Project includes a 25-foot buffer area around the boundary of the utility easement to provide for construction equipment, lay down areas, and staging areas. Construction of new utility line is anticipated to occur between May 2013 and September 15, 2013.	<b>MND</b>	03/18/2013
2008061142	St. John's Specific Plan Camarillo, City of Camarillo--Ventura The City of Camarillo is considering a specific plan to identify potential land uses, phasing, design standards, and circulation patterns for an area containing approximately 86.4 acres, located at the north side of Upland Road, easterly of Lewis Road and Somis Road. The specific plan will provide for the comprehensive planning of the site into a variety of residential, open space, and recreational uses. The final plan will be determined based on site constraints and environmental factors analyzed during the CEQA review process. A portion of the project site was originally developed as the St. John's Seminary College which is now closed and no longer in use. The project site is also currently used for agricultural purposes. The project also proposes development of a 7.4-acre park site to be operated by the Pleasant Valley Recreation and Park District, located at the northeast corner of Upland Road and Somis Road, west of Calleguas Creek.	<b>NOP</b>	03/20/2013

<b><u>Documents Received on Friday, February 15, 2013</u></b>			
2013021037	Village Activities Center Specific Plan Project Laguna Woods, City of Laguna Woods--Orange The proposed Village Activities Center Specific Plan project covers an area of approximately 72 acres in the City of Laguna Woods. The land use plan for the proposed Specific Plan includes five land use designations located within 11 planning areas. The proposed land designations include: Open Space/General, Community Center/Office, Open Space/Equestrian, Business Park, and Open Space/Garden Center. The Village Activities Center Specific Plan has been developed to implement the goals and policies of the City of Laguna Woods General Plan. The Specific Plan provides site specific, detailed description of development regulations, standards and guidelines that are implementing tools of the General Plan goals, policies and actions.	<b>NOP</b>	03/18/2013
2013021039	Tulare Solar Center Tulare County --Tulare The proposed Project is intended to provide low-emission, solar powered renewable energy to the CA Grid to assist with meeting local energy demands, State Renewable Standard, and Assembly Bill (AB) 32 mandates. The Project would be electrically connected to the CA Independent System Operator (CAISO) controlled grid, and would provide approximately 80 MW of renewable power to be sold to one of the State's Investor Owned Utilities (IOUs), a municipality, or a CAISO market participant.	<b>NOP</b>	03/18/2013
2013021040	Westlake Village Business Park Specific Plan Westlake Village, City of Westlake Village--Los Angeles The proposed Westlake Village Business Park Specific Plan would promote the revitalization of underutilized or obsolete properties and the intensification and adaptive reuse of existing developments within the northern two-thirds of the planning area. In addition, infrastructure improvements are proposed throughout the planning area. As many as 401 new dwelling units and 588,850 sf of additional non-residential development may be accommodated at buildout.	<b>NOP</b>	03/18/2013
2013021042	Groundwater Reliability Improvement Program (GRIP) Recycled Water Project Water Replenishment of Southern California Whittier--Los Angeles The proposed project would allow the Water Replenishment District of Southern CA to offset the current use of imported water with a combined total of 21,000 acre-feet per year (AFY) of both tertiary and advanced water treatment (AWT) recycled water for groundwater replenishment in the Central Basin via the Montebello Forebay. A new AWT plant would be constructed at or adjacent to the Los Angeles County Sanitation Districts' (LACSD) San Jose Creek Water Reclamation Plant (SJCWRP) site for treating recycled water from SJCWRP prior to recharge.	<b>NOP</b>	03/18/2013
2013022037	300 Marchmont Drive / U-12-002 Los Gatos, City of Los Gatos--Santa Clara The project applicant proposes to increase student enrollment from 315 to 414, modify operations of an existing private school (Hillbrook School), and implement a Traffic Demand Management Plan. The project proposes a CUP modification to replace the existing CUP for Hillbrook School. The CUP modification would also	<b>NOP</b>	03/20/2013

	consider modification to conditions, including conditions regarding the hours, frequency, and controls of afterschool, sports, nighttime, weekend, and summer activities and programs. The use would comply with the conditions of approval established in the modified CUP. No physical changes to the school campus would occur with the proposed CUP modification.		
2013021034	Haiwee Clear Recovery Zone Caltrans #6 --Inyo The project proposes to widen the existing shoulders along the southbound lanes of US 395 from five feet to ten feet wide and establish a clear recovery zone for errant vehicles.	<b>Neg</b>	03/18/2013
2013021041	Filter Recycling Services Inc. Toxic Substances Control, Department of Rialto--San Bernardino This Class 2 permit modification will make the following changes to the current Hazardous Waste Facility Series 'A' Standardized Permit: This Class 2 permit modification will make the following changes to the current Hazardous Waste Facility Series 'A' Standardized Permit: 1. Add the following waste streams that can be managed by its permitted units: asbestos, catalyst, pharmaceuticals, treated wood wastes, lab packs, oily water, RCRA-exempted gasoline/water waste which will be collected from conditionally exempt small quantity generators (CESQG) operations and from household generators only. 2. Allow cubic yard boxes and liquid totes to be stacked no more than two high within the permitted units. 3. Consolidate two existing permitted storage units (Unit #6 (Oily-Water Storage Tank) into Unit #8 (Waste Storage (Interior) (S1)). This will increase storage area for Unit #8 but the resulting number of containers or storage capacity in the modified Unit #8 will not increase. 4. Rename the Oily-Water Storage Tank from Unit #6 as a Portable Roll-off Container and include the Portable Roll-off Container as a type of container that can be used in Unit #8. 5. Add a permitted storage unit directly south of Waste Storage Area (S2). This new unit consists of a total area of 4,823 sf. This new unit will be Unit #11 Waste Storage South (S4). This unit is designed for receiving incoming containers from transport vehicles, truck-to-truck bulk transfer, solid waste roll-off bins, and end dump storage. The storage capacity is 64,000 gallons. 6. Add truck-to-truck transfer activity. This activity takes place between multiple vehicles in Waste Storage (Interior) (S1) and Waste Storage Area (Exterior) (S2); between multiple vehicles within Waste Storage Area (Exterior) (S2); between multiple vehicles in Waste Storage Area (Exterior) (S2) and Waste Storage Area South (S4); and between multiple vehicles within Waste Storage Area South (S4).	<b>Neg</b>	03/18/2013
2013022034	PA-1300010 (UP) San Joaquin County Stockton--San Joaquin A Use Permit Application to increase the height of an existing 76 foot tall monopole communications tower to 86 feet and add and relocate microwave antennas.	<b>Neg</b>	03/18/2013

2008072096	North Bay Recycled Water Program Sonoma County Water Agency Napa, Novato, Sonoma--Napa, Marin, Sonoma The project is limited to the installation of approximately 18,300 linear feet of 18-inch diameter pipe to convey recycled water by direct bury, horizontal directional drilling and bore and jack, as well as pipe appurtenances and incidental related work. Two portions of the proposed project require notification of Fish and Game Code Section 1602. The first stream crossing is at Culvert-1 and will include the installation of a 12- to 14-inch diameter pipeline under an unnamed drainage located at Ramal Road.	<b>NOD</b>	
2010122037	Mount Umunhum Environmental Restoration and Public Access Project Midpeninsula Regional Open Space District Los Gatos--Santa Clara Implement environmental restoration and public access at Mount Umunhum. Introduce public access to the Mount Umunhum summit via a new spur of the Bay Area Ridge Trail and new staging area at Bald Mountain. Develop facilities at the summit including an Americans with Disabilities Act-compliant interpretive loop trail, observation and reflection areas, and picnic tables. Additionally, native plant restoration would recreate natural habitat at the summit and complement the recreation facilities.	<b>NOD</b>	
2012111008	Housing Element Update Negative Declaration Solana Beach, City of Solana Beach--San Diego Proposed City of Solana Beach General Plan Amendment to update the Housing Element for the planning period of January 1, 2010 through December 31, 2020. The Housing Element provides an analysis of the City's current demographic, economic, and housing characteristics and establishes objectives, policies, and programs addressing community housing conditions and needs.	<b>NOD</b>	
2012121019	Phillips 66 Santa Maria Facility Inactive Coke Storage Area, Remediation Action Plan Toxic Substances Control, Department of Arroyo Grande--San Luis Obispo Note: Withdrawn, per lead on 03/21/13.  Removal of approximately 10,000 cubic yards of soil and debris mounds containing petroleum coke that are impacted with vanadium and nickel that is associated with brick and slag from a former calciner unit at the Philips 66 Santa Maria Facility. The soil and debris mounds will be removed with loaders and an excavator, loaded onto rail cars at the refinery, and transported to a waste receiving facility in Utah. The soil and debris mounds containing petroleum coke are not associated with the current refinery active coke storage operations.	<b>NOD</b>	
2012062062	Fish Screen and Groundwater Recharge Diversion Pipeline Fish & Wildlife #3 --Alameda The Project consists of installation of a fish screen and groundwater recharge diversion diversion pipeline, and removal of an existing unscreened diversion pipeline along Alameda Creek downstream of Mission Boulevard and upstream of Rubber Dam 1 in Fremont, Alameda County. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0347-03 Pursuant to Section 1602 of the Fish and Game Code to the	<b>NOE</b>

	project Applicant, Robert Shaver/Alameda County Water District.		
2013028128	Coyote Valley Open Space Preserve Planning California State Coastal Conservancy --Santa Clara The purpose of the project is to prepare a science-based, community-informed plan to guide future improvements to the Preserve, including protection and restoration of natural and cultural resources; and to plan and design a staging area, initial trails, and other high priority public access improvements.	<b>NOE</b>	
2013028129	Evans Pier Extension Project Fish & Wildlife #2 --El Dorado SAA # 1600-2012-0097-R2 - The project is limited to the rebuild and expansion of the existing pier on Lake Tahoe. The new pier will install thirteen (13) new 10 3/4 inch diameter steel pilings into the lakebed for its structural foundation. The pier will be 6 feet wide for 117 feet and will widen to 10 feet for the last 30 feet. An adjustable catwalk will be installed at the end of the pier to allow access at varying lake elevation levels.	<b>NOE</b>	
2013028130	Rehabilitation of Clark Drive Bridge on cole Creek, Bridge No.: 14C-0080 LSA No. 1600-2012-0186-R2 Fish & Wildlife #2 --Lake The project is limited to the rehabilitation of the bridge (bridge number 14C-0080) by removing and replacing the existng 26-foot bridge deck, sandblasting and painting the existing steel stringers, removal of one double 30-inch valley oak (Quercus lobata), installation of metal beam guardrail and asphalt overlay on the bridge deck. In order to protect the creek, a tarp will be suspended from the bridge to prevent debris from contaminating the creek. Because of current safety regulations of installing a guard-rail, and to protect the bridge's abutments, the valley oak shall be removed.	<b>NOE</b>	
2013028131	Bull Driveway and Bridge Relocation, No. 1600-2012-0201-R2 Fish & Wildlife #2 --Placer The proposed project includes replacement of a bridge across Deer Creek that is failing from old age. In addition, the old bridge will not support fire equipment that would serve several homes to the north. The new bridge is located upstream of the old bridge and is located under overhead power lines and has no vegetation that requires removal. The new bridge is approximately 25 feet in length and the abutments for the new bridge will span the existing channel of Deer Creek and not be within the channel.	<b>NOE</b>	
2013028132	Lake Alteration Agreement #1600-2012-0197-R2 Rip-Rap Installation Fish & Wildlife #2 --Plumas The project is limited to the construction of 85 linear feet of rip-rap shore protection on the existing shoreline of Lake Almanor. The base of the rock will be about 6-8 feet in width and height of the revetment will be about 6 feet. Work shall be conducted during low water levels, and no trees or shrubs shall be disturbed as part of the project. The permittee shall use straw logs and silt fencing along the dry beach area below the rip rap installation. No construction fluids or run off waters shall reach the water. An excavator or backhoe shall be ued for the construction.	<b>NOE</b>
