STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

February 16 – 28, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 16 – 28, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113

<u>Documents Received on Tuesday, February 19, 2013</u>			
2009081062	SR-57/SR-60 Confluence at Grand Avenue Project Caltrans #7 Industry, Los Angeles, City of--Los Angeles Caltrans and the City of Industry are proposing freeway improvements to SR 57/SR60 confluence at the Grand Avenue interchange in Los Angeles County. The project consists of the reconfiguration of the approximately 2.5-mile confluence of SR-57 and SR-60, which includes the addition of auxiliary lanes and associated on-ramp/off-ramp reconfiguration. The alternatives involve a combination cloverleaf/Diamond configuration interchange, and partial cloverleaf interchange configuration to improve safety and operational deficiencies at the Grand Avenue interchange.	EIR	04/04/2013
2013021045	The Promontory at CA State University Monterey Bay (CSUMB) Specific Plan Marina, City of Marina--Monterey The proposed project is a Specific Plan for the development of three four-story purpose built buildings that would house 175 one-, two-, three- and four-bedroom dormitory housing units, for total of 583 beds. Operation of the student dormitory would be privately operated for use by enrolled students. The development consists of three U-shaped buildings with each building surrounding a central courtyard. The central building is planned to include a leasing office, mail room, computer lab, clubhouse, fitness area, and dormitory units on the ground floor and dormitory units on the upper floors. The two flanking buildings are planned to contain dormitory units on all floors. The development plans also include amenities such as a spa, barbeque areas, a basketball court, outdoor seating areas, and wireless internet.	MND	03/20/2013
2013022041	Kettleman Photovoltaic Solar Farm Project (CUP No. 12-07) Kings County Kettleman--Kings EE Kettleman Land LLC, the project sponsor, proposes to develop, own, and operate a 20 megawatt photovoltaic solar generation farm, access roads, electrical interconnection, and telecommunication facilities to be located on 220 acres of leased agricultural lands in unincorporated Kings County, CA.	MND	03/20/2013
2013022046	Stampede Dam Safety of Dams Modification Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Truckee--Sierra To address safety deficiencies at Stampede Dam, U.S. Bureau of Reclamation has selected a structural alternative to increase the height of Stampede Dam and Stampede Dike by 11.5 feet and install two additional saddle dikes to protect outflow from topographic low spots along the south rim of the reservoir from the increased maximum capacity of the reservoir during a probable maximum flood. Suitable sources of borrow material sites were located near project features and will be used for construction. Other project elements include haul routes (located on already disturbed areas where feasible), staging areas, stockpiling areas, and log landings for use in clearing vegetation. Up to a total of 80.4 acres could be disturbed by the project.	MND	03/21/2013

2013021047	<p>East County Detention Center Riverside County Indio--Riverside</p> <p>The County of Riverside proposes a 1,273 bed expansion of the existing 353-bed detention center in Indio, California to accommodate immediate jail capacity needs for the County. The expansion will add beds to an existing court-adjacent jail facility that is undersized for the current and projected local need. The project also includes the construction of a three-level parking structure across Oasis Street and south of the existing jail site. The project will include demolition of existing structures on-site.</p>	NOP	03/21/2013
2013022042	<p>Lime Rock Valley Specific Plan El Dorado County --El Dorado</p> <p>The proposed project would be comprehensive planned residential community totaling ~740 acres with a variety of lot size and housing types, designed to ensure the preservation of significant historical sites and prominent natural features, including oak woodlands, steep slopes, streams, and wetlands, and to complement surrounding land uses. The plan would be a mix of low-density residential and open space uses. Specifically, the project would consist of up to 800 residential units on ~377 acres, a 15-acre neighborhood park with recreational amenities, and about 314 acres of public and private open space. The balance of the area would be comprised of roads and rights of way. Other features of the plan include a network of pedestrian trails and pathways that would connect to and enhance existing and proposed trails in the area, including the El Dorado Trail.</p>	NOP	03/20/2013
2013022043	<p>Village of Marble Valley Specific Plan El Dorado County --El Dorado</p> <p>The proposed VMVSP would consist of an ~2,341 acre project with up to 3,236 dwelling units, 475,000 sf of commercial use, 87 acres of public facilities/recreational use, 1,282 acres of open space, 42 acres of agricultural use, and 73 acres of new road impact areas and future right-of-way. Planned improvements will take place on ~ 1,875 acres located mostly north of Deer Creek. The proposed project is designed in a manner that concentrates a majority of the development along a 1-mile core adjacent to the entry roadway and preserves, enhances, and highlights the historic character of the site derived from the historical use of the property for limestone mining.</p>	NOP	03/20/2013
2013022044	<p>Central El Dorado Hills Specific Plan El Dorado County --El Dorado</p> <p>The proposed CEDHSP, which would occur in the Serrano Westside Planning Area and Pedregal Planning Area, includes the development of up to 1,028 dwelling units, 11 acres of public facility/recreational use or 50,000 sf of commercial use, 15 acres of public village park, and 85 acres of public parks and open space in the center of the El Dorado Hills Community. The proposed project also includes implementation of the CEDHSP and an amendment to the existing El Dorado Hills Specific Plan (EDHSP) approved in 1987 to transfer the density at</p>	NOP	03/20/2013

	Serrano Village D-1, Lots C and D to the proposed project. The ~155 acre Serrano Westside planning area would be an extension of the existing Serrano development with gated residential neighborhoods and would include ~763 dwelling units, civic or commercial, and village park development. The ~102 acre Pedregal planning area would include residential neighborhoods of ~265 dwelling units, which may or may not be gated.		
2011052032	PA-1100083 San Joaquin County Lodi--San Joaquin A one-year Time Extension for a previously approved Site Approval regarding signs for an approved truck stop.	Neg	03/20/2013
2012072019	Use Permit Application No. 2012-06 - GJ Silva Dairy Stanislaus County Turlock--Stanislaus Request to expand an existing dairy facility by increasing the milk/dry cows by 1,600 for a total of 3,000 milk cows, 340 dry cows, 790 bred heifers, 422 large heifers (7-14 months), and 200 calves. The operation currently houses 1,540 milk cows, 200 dry cows, 790 bred heifers, 422 large heifers (7-14 months), and 200 calves. All housing, milking, waste storage structures and utilities are in place. The site was previously permitted for and housed 4,140 dairy cows although in 2008 the operation reduced the total number to 1,640 mature dairy cows. The dairy is situated on two assessor parcels of 39.50 and 72.65 acres for a total of 112.15 acres.	Neg	03/20/2013
2013022038	430-450 Airport Boulevard - Lease of State Lands Parcel for use as Public Park Burlingame, City of Burlingame--San Mateo The proposed project consists of the lease by the City of Burlingame from the State Lands Commission of 8.81 acres of land located at 430-450 Airport Boulevard for use as a public park. Improvements would include an 8 to 10 foot wide asphalt path along the San Francisco Bay edge with benches and landscaping, public access pathways leading from Airport Boulevard to the Bay trail, two parking lots on both sides of the park space, with either 162 parking spaces (Option A) or 197 parking spaces (Option B), a group picnic area, an accessible picnic area and a restroom facility. The remainder of the site would be planted turf and other landscaping around the perimeter of the site. One of the parking lots would be accessed from Airport Boulevard, while the other parking lot would be accessed from Bayview Place.	Neg	03/22/2013
2013022039	PLPA-2011-00050 Revisions to the Dublin General Plan and a New Economic Development Element Dublin, City of Dublin--Alameda One of the City Council's key initiatives for Fiscal Year 2011/2012 was to revise the General Plan and create a new Economic Development Element. The purpose for the revisions are to bring the text current with changes that have occurred in the community since incorporation as well as changes in State Law and local ordinances. The revisions include adding information about the City's growth and development since the inception of the General Plan, updating the maps and exhibits to improve their graphic representation, and reformatting the	Neg	03/18/2013

	document so that it is more readable and user-friendly. A new Economic Development Element is also proposed which is based on the recently adopted Economic Development Strategy.		
2013022040	111 Carol Lane General Plan Amendment (GPA 01-12) and Rezone (RZ 01-12) Oakley, City of Oakley--Contra Costa The City of Oakley has initiated a project to amend the General Plan Designation and Rezone the .38-acre City owned parcel located at 111 Carol Lane (APN 037-132-037). Specifically the project will amend the General Plan Designation of the property from Single-Family High Residential to Commercial and Rezone the parcel from the R-6 (Single-Family Residential) Zone District to the C (General Commercial) Zone District. No Development is proposed at this time.	Neg	03/20/2013
2011122029	Amendment to Clean Fuels Outlet (CFO) Regulation Air Resources Board -- Note: Functional Equivalent Document, Review per lead	Oth	06/27/2013
	The proposed project is amendments to the Clean Fuels Outlet (CFO) Regulation. CA ARB adopted an environmental analysis for the Advanced Clean Cars Program (ACCEA), which included the CFO regulation. The CFO regulation ensures that fuels (electricity & hydrogen) are available to meet the needs of new advanced technology vehicles. A 15-day modification was approved, but wasn't submitted to the Office of Administrative Law by the statutory deadline. Subsequent legislation to provide funding for alternative fuel stations has been proposed; thus eliminating the need for a regulatory mandate if passed. If legislation doesn't pass, this amended regulation is submitted to preserve a regulatory backstop. It's the same as the previous CFO amendments & doesn't change conclusion of impacts in the prior ACCEA.		
2012011025	Pioneer Green Solar Project (PP11267); 1) CUP 5, Map 30; 2) CUP 5, Map 97; & 3) CUP 6, Map 97; WALUC Kern County --Kern Note: Response to Comments	Oth	
	The Pioneer Green Energy Solar Project requests approval of three Conditional Use Permits (CUPs), Lot Line Adjustment 28-11 and the cancellation of Williamson Act Land Use contracts 11-5 and 11-6, to allow for the construction and operation of 3 solar electrical generating facilities on a combined 720 acres in the A Zone District, which would generate a combined 125 megawatts (MW) of renewable electrical energy. All three project sites are located in unincorporated areas of western Kern County, California, and are within the jurisdiction boundaries of the Kern County General Plan.		
2009071026	Granite Construction Carroll Sand & Gravel Operator Imperial County --Imperial NOTE: Review Per Lead	NOD	
	The operation will produce 1,000,000 tons of material per year and a total of 53 million tons during the life of the project, which is 50 years. Maximum anticipated

	<p>depth is 120 ft, with an average depth of 100'. The first phase will include the extraction of material from the Carroll Sand and Gravel site and said material will be conveyed to the Granite Jimenez site (immediately north of the Carroll operation) for processing. During the second phase, the processing plant will be removed from the Jimenez site and moved onto the Carroll Site. The processing facility will include an aggregate processing facility consisting of crushers, screen, conveyors, and wash equipment; an asphalt batch plant; a ready mix concrete plant; a concrete and asphalt recycling facility; an office trailer; settling pond; truck scale; and truck equipment parking areas. The applicant proposes to house a 70' silo; however the height limit for the mining area only allows 40'. To remedy the height issue, the applicant applied to the Airport Land Use Commission for a Variance 08-0004 to construct the 70' silo. The project was heard by the Airport Land Use Commission and the Commission found the project consistent with the Airport Land Use Compatibility Plan for the height increase from 40' to 70' for this silo.</p>		
2010122029	<p>San Bruno Transit Corridors Plan San Bruno, City of San Bruno--San Mateo NOTE: Final 1 -CD</p> <p>The City of San Bruno is proposing to adopt the San Bruno Transit Corridors Specific Plan, which would set forth a transformative new vision for transit oriented mixed used development, including housing and commercial uses, in the Transit Corridors Area (approximately 160-acres) centered on the new San Bruno Avenue Caltrain Station, and including downtown San Bruno along San Mateo Avenue and portions of El Camino Real, San Bruno Avenue and Huntington Avenue. The proposed Plan would establish a development framework, development standard and design guidelines for public and private realm improvements, transportation and infrastructure improvements, as well as implementation strategies to achieve that vision.</p>	NOD	
2011022042	<p>Amendment to Oakland Zoo Master Plan Oakland, City of Oakland--Alameda</p> <p>The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number #1600-2012-0025-03 pursuant of Section 1602 of the Fish and Game Code to the project Applicant, Dr. Joel Parrott/East Bay Zoological Society.</p>	NOD	
2011051031	<p>Foxglove Shopping Center Project Madera, City of Madera--Madera</p> <p>The proposed project consists of the development of a 191,150-square-foot shopping center (Foxglove Shopping Center) on the project site. The shopping center would be anchored by a 24-hour grocery store and feature a 24-hour pharmacy, as well as smaller retail and restaurant uses. No specific tenants have been identified at the time of this writing. The center would be accessible from three vehicular access points: the existing signalized intersection of N. Schnoor Avenue / Foxglove Way and tow new right-in, right-out points on N. Schnoor Avenue.</p>	NOD

Guidelines". Work will:

*Remove existing wood deck;

* Excavate approximately 12 holes each approximately 12" in diameter to rebuild the 6' wide by 38' long deck with ramp from Doug fir and composite material decking;

*Saw cut and remove a 20' by 18' section of asphalt parking; excavate to level, form and pour a new concrete parking space and stripe per ADA guidelines;

* Import approximately 6 cubic yards of aggregate to level and make minor repairs to the equestrian ramp and picnic area.

2013028223	Martis Valley Groundwater Management Plan Update Placer County Water Agency Truckee--Placer	NOE	
------------	---	------------	--

The Martis Valley Groundwater Management Plan, which was prepared pursuant to Water Code Section 10750 et, seq. will be updated to reflect current water resources planning in the region, to reflect the latest information and understandings of the underlying groundwater basin, and to update the plan in partnership with adjacent water purveyors in an effort to work collaboratively and align policy. The plan will be updated in partnership with Truckee Donner Public Utilities District and Northstar Community Services District. In addition to updating the groundwater management plan, a computer model of the groundwater basin will be developed, which will assimilate available data and enhance understanding of the basin.

	retail component; and, Tentative Tract Map No. 36388 - A proposed subdivision of 151.23 acres into 315 lots (including a 3.5 acre commercial site - Lot L) for the development of 315 single family residential dwelling units with lot sizes ranging from 4,000 sf to 7,200 sf with private parks.		
2013021054	Solar Generation Project Recycled Water Pump Station Joint Powers Authority Calabasas--Los Angeles The complete Draft MND will be available for review at the Calabasas Library at 200 Civic Center Way, the Las Virgenes Municipal Water District Headquarters 4232 Las Virgenes Road in Calabasas, and on the LVMWD website at lvmwd.com.	MND	03/26/2013
2013021056	Cunningham Siphon Realignment Project Nevada Irrigation District Grass Valley--Nevada The NID's Cunningham Siphon Realignment Project entails the replacement of an aging and unreliable techite pipeline with a new 24" diameter inverted siphon pipeline along a new alignment. The proposed Project will also include the encasement of a 700 foot section of open canal, along the existing Rattlesnake Canal, with an 8 inch pipeline at the terminus of the Project. This will correct erosion problems within this section of the canal and improve access for NID. It is proposed that the new siphon pipeline will follow a private driveway (14398 Dog Bar Road) to the east edge of Dog Bar Road (approximately 1,100 feet) in Nevada County, CA. From there it will follow the east edge of the roadway to a point where the existing Cunningham Siphon Pipeline crosses under Dog Bar Road, a distance of approximately 3,500 feet.	MND	03/27/2013
2013022052	#TPM-VAR-01-11/Colfax Motor Lodge Colfax, City of Colfax--Placer #TPM-VAR-01-11/Colfax Motor Lodge. The proposed project is a minor land division for a developed commercial site. There are four existing buildings on the site including a motel, restaurant and two office buildings. The site comprises 1.44 acres. The proposed subdivision will place these existing individual businesses on separate parcels. Each parcel has existing sewer, water and electric (both underground and overhead).	MND	03/26/2013
2013022053	Capell Creek Slope Indicators and Drainage Caltrans #6 --Napa A portion of the hillside immediately north and uphill of the Capell Creek Bridge has been saturated by storm water flows and is sliding toward the roadway of SR 128 and the north abutment of the bridge. Caltrans has previously installed small plastic horizontal drains reaching about 200 feet into the hillside to remove water from the soil and prevent slippage of the affected earth mass. Over time, these drains have become clogged or have otherwise stopped functioning as designed, and the sliding hillside has opened a three-foot-wide gap between the bridge deck and the north abutment.	MND	03/26/2013

2013021055	9265 Burton Way Condominium Project Beverly Hills, City of Beverly Hills--Los Angeles The project would involve demolition of four existing one-to two-story multi-family residential buildings and construction of a six-story condominium building with 23 housing units and 46 parking spaces. The project would include one level subterranean parking; one level of at-grade parking with a lobby, gym, and parking; five levels of housing units; and a rooftop common area. Two units would be designed for "very low income" housing. Construction would take place over ~18 months, including site preparation, grading, building construction, paving, and painting. For construction of the subterranean parking garage, excavation would occur to a depth of ~13 feet. Vehicular access would be taken via the existing alley at the rear of the project site parallel to Burton; pedestrian access would be from Burton Way.	NOP	03/26/2013
2013021057	Sentinel and Butterfield Quarries Expansion San Bernardino County --San Bernardino Proposed Amended Plan of Operations and Reclamation Plan for expansion of the existing Butterfield and Sentinel Limestone Quarries. The proposed project includes quarry and overburden stockpile expansion, increased operational years and production, additional internal access roads and ancillary facility areas, and adjustments to existing disturbance and permitted boundaries. The total existing permitted operational area is approximately 137.5 acres. This Amended Plan will add approximately 77.3 acres for a total project area of approximately 214.8 acres.	NOP	03/26/2013
2013022055	Industrial Sites Analysis -- City Initiated Project Elk Grove, City of Elk Grove--Sacramento As part of the City initiated special project, staff comprehensively reviewed the City's industrial areas and proposes possible changes in land use regulations in order to: 1. Ensure that the industrial areas of the City provide for a successful mix of uses in an evolving market and consider selective locations for rezoning as appropriate. 2. Ensure that the City has sufficient industrial lands to be competitive in the regional market place for new industrial users; 3. Ensure orderly transitions between residential and industrial areas of the City; and 4. Ensure continued consistency with the General Plan, including possible General Plan amendments.	Neg	03/27/2013

2008081009	EDCO Recycling and Transfer Facility Signal Hill, City of Signal Hill--Los Angeles The City of Signal Hill, as lead agency, has approved the development of a +-68,000 sf recycling and transfer facility on a 3.75 acre site in the City of Signal Hill. The state-of-the art materials recovery/transfer station facility will serve as a point to accept, process, recover and transfer mixed municipal waste and residue following diversion activities to an appropriate permitted disposal facility.	NOD	
2010021004	Burbank 2035 General Plan Update and Greenhouse Gas Reduction Plan Burbank, City of Burbank--Los Angeles Burbank 2035 is the City of Burbank's General Plan. Burbank's existing General Plan was adopted in the 1960s. Various elements of the General Plan have been updated and amended in the intervening years, but the plan has not been comprehensively revised since that time. Burbank 2035 describes the current vision of quality of life, priorities for resource protection, and manner of future growth within Burbank over the next 20+ years. The Greenhouse Gas Reduction Plan is an implementing action for Burbank 2035 describing measures intended to reduce greenhouse gas emissions within the community at-large and within City operations.	NOD	
2010122057	Martis Valley Regional Trail Northstar Community Services District --Placer The Martis Valley Regional Trail project proposes to construct a multiple-use paved trail extending +-9.5 miles from the southern limits of the Town of Truckee at the Nevada/Placer County Line eastward to the ridgeline defining the Lake Tahoe Basin, terminating near Sawmill Flat at a paved Forest Service road atop the ridge near a road intersection known locally as "Four Corners". The width of the trail would generally be ten feet, with two-foot unpaved shoulders on either side. The trail would accommodate pedestrians, bicyclists, and other non-motorized transportation. The trail grade would provide for maximum accessibility in accordance with Americans with Disabilities Act (ADA) requirements.	NOD	
2011072045	Stevens Creek Corridor Park and Restoration Phase 2 Cupertino, City of Cupertino--Santa Clara The CA Dept. of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0356-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, City of Cupertino. The proposed project would construct an approximately 1/4 mile long segment of bicycle pedestrian trail, extending the existing Steven Creek Trail from Blackberry Farm Park to Steven Creek Boulevard with connections to existing bicycle lanes and bus stops. The project would restore Stevens Creek, install native plantings and create a new backwater area. It would open the parcel known as the Stockmeir property to the public. The project would renovate the existing parking lot at the Blackberry Farm Golf Course and Blue Pheasant Restaurant; provide crosswalk and walkway connections, and install on-street parking and a bus drop off area. 2009102071	Time Extension for Rezone Application No. 2009-04 - Bronco Wine Co. Stanislaus County Ceres--Stanislaus Request to amend the Development Schedule for P-D (321) to allow development of the site to be extended until October 20, 2016. The previously approved project allowed the addition of two (2) driveways onto E. Keyes Road, the conversion of an existing house to a shipping and receiving office, the construction of employee and truck parking lots and the construction of a 14,400 sf administration building and a 14,400 sf sales building. This project has not changed since its approval and the subsequent adoption of a MND in 2010.	CON	03/15/2013
2013022057	Orleans Transportation and Road Restoration Project Parks and Recreation, Department of --Humboldt, Siskiyou, Del Norte The Orleans Ranger District proposed to revise the existing transportation system within the National Forest on the Orleans District and also proposes to restrict motorized vehicle use to designated roads and trails. Restoration and maintenance of the existing roads and trails are considered part of this project within the Six Rivers National Forest.	EA	03/28/2013
2012054001	F-15 Aircraft Conversion EIS U.S. Army National Guard Fresno--Fresno FYI Final This DEIS analyzes the potential environmental impacts associated with an aircraft conversion for the 144th Fighter Wing (144 FW) at Fresno-Yosemite International Airport (IAP) in Fresno, CA. The proposal is to convert the unit from the F-16 Fighting Falcon aircraft and operations to the F-15 Eagle aircraft and operations at Fresno-Yosemite IAP, which would also include Detachment 1, based at March ARB.	FIN	
2011082068	Crescent City Marsh Wildlife Area - Endangered Western Lily Habitat Enhancement Fish & Game #1 Crescent City--Del Norte The overall intent of the Project is to enhance and increase critical habitat for the western lily by creating and maintaining early successional habitat. The 1998 U.S. Fish and Wildlife Service (Service) Recovery Plan (Plan) for western lily (<i>Lilium occidentale</i>) identifies secondary succession as a primary reason for decline of lily populations throughout its restricted range. DFW, in cooperation with the Service, seeks to improve and manage critical habitat for this State and federally endangered species. Until about 10 years ago, the CCM supported more than 75% of the total reproductive population for the species.	MND	03/28/2013
2013021059	001B Turn-out Structure Project Water Replenishment of Southern California Pico Rivera--Los Angeles The purpose of the 001B Turn-out Structure Project (proposed project) is to enhance the ability of the Water Replenishment District of Southern California to recharge recycled water to the Montebello Forebay. The proposed project consists of a reinforced concrete turn-out structure with a connection to the existing recycled water pipeline (RWP).	MND	03/27/2013

2013021060	Basin No. 2 Inlet/Turn-out Structure Project Water Replenishment of Southern California Pico Rivera--Los Angeles The purpose of the Basin No. 2 Inlet/Turn-out Structure Project (proposed project) is to increase the operational flexibility of the San Gabriel Coastal Spreading Grounds (SGCSG) and enhance the ability to recharge more recycled water. The proposed project consists of one or two reinforced concrete turn-out structures with one being a connection to the existing recycled water pipeline (RWP) and proposed to be constructed on the existing RWP.	MND	03/27/2013
2013021061	Cressey-Gallo 115 kV Power Line Project Public Utilities Commission Livingston--Merced PG&E is proposing to construct the Cressey-Gallo 115 kV Power Line Project to improve transmission system reliability for customers in north-central Merced County, CA. The project consists of constructing a new 14.4-mile 115 kV power line between Cressey and Gallo Substations to form a power line loop with two other area substations (Livingston and Atwater) to avoid customer service interruptions from single-line outages in this area. The project includes constructing a new, 14.4-mile, single-circuit 115 kV power line interconnecting Cressey Substation and Gallo Substation; upgrading the bus configurations at Cressey Substation and replacing the existing radial power line transition into the substation within the existing substation property; and expanding Gallo Substation to add switchgear and upgrade the bus configurations.	MND	03/27/2013
2013022058	Application 31279 of Joseph Emil Usibelli Trust to Appropriate Water by Permit State Water Resources Control Board St. Helena--Napa Joseph Emil Usibelli Trust is expanding a reservoir to maintain an existing vineyard in Napa County. The project includes development of a water supply within the Napa River Watershed. As Lead Agency, the State Water Board is considering a water right application. The application and related materials are available at: http://www.waterboards.ca.gov/waterrights/water_issues/programs/ceqa/index.shtml	MND	03/28/2013
2013022056	Federal Navigation Channels EA/EIR Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Alameda, Contra Costa, Marin, Napa, Sacramento, San Joaquin, ... The USACE has been responsible for maintaining the navigability of federal navigation channels at Congressionally-authorized depths. Accumulation of sediment that settles in these channels can impede navigability. Operation and maintenance dredging removes this sediment to authorized depths to fulfill the USACE's Navigation Mission to provide safe, reliable, and efficient waterborne transportation systems (channels, harbors, and waterways) for the movement of commerce, national security needs, and recreation. As such, the USACE is proposing to continue operation and maintenance dredging to federally authorized depths at specified federal navigation channels in San Francisco Bay, and promote continued placement of dredged materials, consistent with the goals and adopted plans of the LTMS, while adequately protecting delta smelt, longfin smelt, and green sturgeon. 	cleaned and converted into biogenic compressed natural gas (CNG). The project is expected to produce 56,000 diesel equivalent gallons (dge) per year of CNG, enough fuel for four to five CNG-fueled collection vehicles. The project would be located at the Blue Line Materials Recovery Facility in the City of South San Francisco. The South San Francisco Scavenger Company, Inc. CNG collection vehicle fleet is also located at the Blue Line MRF which would be fueled by the CNG produced by the project.		
2012092032	Richmond Rail Connector Project Caltrans #4 Richmond--Contra Costa The California Department of Transportation (Caltrans) proposes to install a new connector track between the BNSF Railway track and the UPRR tracks in the northern portion of the City of Richmond to facilitate movement of trains between the two tracks to avoid train movement through downtown Richmond. The installation of the connection track, upgrade of existing siding, and related improvements will begin on the BNSF rail line approximately 365 feet south of the Giant Road/John Avenue crossing at about Milepost (MP) 1185.9. The new construction and other proposed improvements will extend southwest, a distance of approx. 1.25 miles, to UPRR MP 14.2, just north of the intersection of the UPRR line and Parr Blvd., within the City of Richmond. The project is located within the City of Richmond and an unincorporated portion of Contra Costa.	NOD	
2012092063	Use Permit Application No. PLN 2012-0007 - North Avenue Heinrich Huller Stanislaus County Modesto--Stanislaus Request to construct a new walnut huller/dryer building, warehouse and storage building, and shop in three phases on an 18.78 acre site.	NOD	
2013012018	Former Hollister Manufactured Gas Plant - Feasibility Study/Remedial Action Plan Toxic Substances Control, Department of Santa Cruz--Santa Cruz DTSC is considering approval of a Feasibility Study/Remedial Action Plan (FS/RAP) for the former Hollister Manufactured Gas Plant (MGP) Site (hereafter "the Site") pursuant to Health & Safety Code, Division 20, Chapter 6.8 as submitted in January 2013 by AMEC Environment & Infrastructure, Inc. on behalf of Pacific Gas and Electric Company (PG&E). The proposed remedy, hereafter referred to as "the proposed project", includes soil removal to address soil contaminants at the Site, including polycyclic aromatic hydrocarbons (PAHs), arsenic, lead, pentachlorophenol, and gasoline-related volatile organic compounds (VOCs). Remedial activities at the Site are to be performed by PG&E and are expected to begin in the summer 2013. The proposed project includes soil removal within the PG&E property (currently used as the PG&E Service Center) and along two sidewalks immediately adjacent to the PG&E property. The excavated soil will be transported offsite for disposal at appropriate permitted landfill facilities.	NOD	
2013012048	PA-1200242 Minor Subdivision Application San Joaquin County Manteca--San Joaquin Minor Subdivision application to subdivide a 136.69 acre parcel into two parcels, parcel one to contain 1.99 acres and a designated remainder to contain 134.70 acres, parcel one is permitted under development title section 9-610.3 (d)(1) parcels for certain specified uses. 2013021066	EA for Proposed Rule 1114 - Petroleum Refinery Coking Operations South Coast Air Quality Management District -- To reduce emissions of volatile organic compounds (VOC), particulate matter (PM), hazardous air pollutants (HAP), sulfur compounds, and methane from coke drum atmospheric venting of delayed coking units at petroleum refineries (NAICS 324110), SCAQMD staff is proposing to adopt PR 1114. If adopted, PR 1114 would: 1) establish a limit of less than two pounds per square inch, gauge pressure (psig) for when a coke drum may be depressurized to atmosphere; 2) allow for an alternative compliance schedule for facilities not able to meet the compliance timeline under limited circumstances; 3) require facility operators to submit permit applications for equipment or process modifications no later than 18 months prior to the final compliance date; 4) require monitoring of the coke drum internal pressure and atmospheric vent valve, and recordkeeping; 5) exempt coke drums from the requirements in SCAQMD Rule 404 upon meeting the final depressurization limit.	EA	03/29/2013
2013024002	Replacement of the Jet Fuel Storage Complex and Demolition and Return of a 16-acre Parcel to Fresno-yosemite IAP U.S. Army National Guard Fresno--Fresno The NGB proposes to implement the construction of a new JP-8 jet fuel storage complex at Fresno-Yosemite IAP in Fresno, CA. The Proposed Action would involve the removal of the existing underground storage tanks (USTs) and the addition of two aboveground storage tanks (ASTs). In addition, they propose the return of a 16-acre parcel to Fresno-Yosemite IAP. This would include the demolition of all existing facilities currently on the 16-acre parcel. The proposed construction of the new jet fuel storage complex would begin in Fiscal Year 2015. The demolition of the MCRC facilities and the return of the parcel would occur prior to the termination of the lease in August 2014. No other construction, renovation, or demolition is proposed at the installation. There would be no changes to the	EA	03/20/2013

2007051003	Amberwood Specific Plan Project Selma, City of Selma--Fresno The Amberwood Specific Plan Project is a mixed use residential and commercial development project planned for a 690.7 acre site located in the northeastern portion of the Selma Sphere of Influence, east of Orange Avenue, and between Manning Avenue and Floral Avenue. The Project Site Plan and Proposed Land Uses are and the location of the project site in relation to the City of Selma Sphere of Influence. A Regional Vicinity Map is also included herein.	EIR	04/15/2013
2011121082	ENV-2011-1911-MND / 1429 S. Abbot Kinney Boulevard / 505 E. Milwood Avenue Los Angeles, City of --Los Angeles 1) A Coastal Development Permit, pursuant to the provisions of Section 12.20.2 of the Los Angeles Municipal Code (LAMC), to permit a change of use from 2 separate existing restaurants (1,603 sf and 3,712 sf) into a 1 new 4,775 sf restaurant with an accessory take-out counter and accessory retail sales on property located within the Calvo Exclusion area of the Coastal Zone Commission Authority area.	MND	03/29/2013
2013021065	Drake Park Soccer Field Project Long Beach, City of Long Beach--Los Angeles The proposed project includes the development of an 8.75-acre (ac) new park facility on existing vacant parcels. The proposed project would consist of one lighted soccer field, large landscaped open space / passive park areas, a pedestrian walking trail, restroom facilities, and parking. The proposed project would incorporate the existing Loma Vista Park into the new park layout by removing the existing chain-link fencing along the adjacent portion of Loma Vista Park. The proposed project would be linear in form and would be characterized by an 8-foot wide pedestrian trail traversing the park from the northeast to southwest. The northeast entrance at Anaheim Street and N. Daisy Avenue is envisioned to be a gateway entrance to the proposed park.	MND	03/29/2013
2013022061	Lake Berryessa Resort Improvement District Wastewater Treatment System Upgrade and Expansion Napa County Calistoga--Napa The project includes the land disturbing activities associated with the increase in storage capacity of the wastewater ponds through the construction two new effluent ponds, combing existing Ponds 6 & 7 (renaming Pond 7), expansion of the spray fields, upgrade to the existing sewer lift stations, and infrastructure, conversion and disturbance of 10.0 acres, including 5.6 acres of oak woodland and 4.4 acres of grassland. The project site is located in the Spanish Valley Drainage on the south side of Stage Coach Canyon Road approximately 4.0 miles east its intersection with Stage Coach Canyon Road/Snell Valley Road and Butts Canyon Road. 2013022062	Jamestown Sanitary District Sewer Rehabilitation (12-CDBG-8421) Tuolumne County --Tuolumne Rehabilitate 7,531 lineal feet of deteriorating sewer line pipe within County and Caltrans (State) rights-of-way and acquire new easements for and/or relocate approximately 997 lineal feet of pipe (using CDBG Program funds). Replace, 72 laterals from the main lines to the right-of-way lines, as necessary, along existing lateral routes (using Jamestown Sanitary District funds). Unused laterals, primarily located along SR 108 and previously capped, will be eliminated.	MND	03/29/2013
2013021064	East San Fernando Valley Transit Corridor Los Angeles County Los Angeles, City of--Los Angeles The project would involve transit improvements along Sepulveda Blvd. and/or Van Nuys Blvd. between Ventura Blvd. on the southern end and the Sylmar/San Fernando Metrolink station on the northern end. Two build alternatives, a transportation system management (TSM) alternative, and a no-build alternative are being evaluated. The build alternatives include light rail transit (LRT) and bus rapid transit (BRT). The TSM alternative would upgrade existing bus service in the study area without the high-cost investment in a dedicated right-of-way. The LRT alternative would run 11.2 miles, primarily along Van Nuys Blvd. on a dedicated median guideway. The BRT alternative would operate for 9.4 miles within a dedicated busway and as much as 2.6 miles in mixed-flow traffic along San Fernando Rd. and optionally along Van Nuys Blvd. and Sepulveda Blvd.	NOP	03/29/2013
2013021067	Saddleback High School Stadium Santa Ana Unified School District Santa Ana--Orange The proposed project includes the installation of home and visiting team bleachers, a press box, elevated field lighting, and a public address system at the existing artificial turf field and synthetic track at Saddleback High School.	NOP	03/29/2013
2013022060	I-680 HOV Direct Access Ramps Project Caltrans #4 San Ramon--Contra Costa The project would construct HOV (carpool, vanpool, bus, etc.) on- and off-ramps connecting directly to and from the northbound and southbound median HOV lanes of I-680 in the City of San Ramon between Bollinger Canyon Road and Crow Canyon Road. The proposed HOV on- and off-ramps and auxiliary lanes would be added in the median, and therefore the I-680 mainline lanes would need to be shifted to the outside. Both directions of the proposed I-680 mainline would have one 12' HOV lane, three 12' mixed-flow lanes and one 12' auxiliary lane, in compliance with current highway design standards for lane widths.	NOP	03/29/2013
2013031005	Antelope Crossing SPA Ordinance Text Amendment and Rezone Project Citrus Heights, City of Citrus Heights--Sacramento The proposed project is a City initiated Ordinance Text Amendment amending Section 106.50.030 of the Zoning Code (Antelope Road I-80 Special Planning Area) to implement the Antelope Crossing Transformation Plan, a visioning document. Additionally the project proposes a City initiated Rezone changing the zoning designations of three parcels (APNs 209-0680-010, 209-0680-012, 209-0680-014) zoned Limited Commercial and five parcels (APNs 209-0080-049, 209-0080-050, 209-0080-054, 209-0080-056, 209-0080-068) zoned General	Neg	04/02/2013

	Commercial to Special Planning Area (SPA). Incorporating all eight parcels will provide zoning consistency and implement the Antelope Crossing Transformation Plan.		
2004082087	Northwest Chico Specific Plan Chico, City of Chico--Butte The California Department of Public Health (Department), as the Responsible Agency, will be issuing a water supply permit to California Water Service Company for the operation of a new potable well.	NOD	
2007092041	South Trunk Sanitary Sewer Relief Project San Mateo, City of San Mateo--San Mateo The project proposes to construct a wet-weather only relief sewer line ranging from 42- to 54-inches and extending approximately 8,000 feet long. The pipeline will be at the intersection of East (E.) 25th Avenue and South (S.) Delaware Street, extend north along S. Delaware Street and northeast on Sunnybrae Boulevard, cross Highway 101, and terminate in the easement just west on the Dale Avenue Pump Station located on Patrica Avenue.	NOD	
2009111086	Spring Trails Specific Plan San Bernardino, City of San Bernardino--San Bernardino The proposed project includes the Spring Trails Specific Plan (SP) No. 10-01, General Plan Amendment (GPA) No. 02-09, Development Code Amendment (DCA) No. 12-10, Development Agreement (DA) No. 11-01 and Tentative Tract Map (TTM) No. 15576 (Subdivision No. 02-09). The Spring Trails SP includes 304 single-family lots (303 new lots plus one existing), 9 acres of parks, and 236.4 acres of open space (111.3 natural and 125.1 controlled) within a 352.8-acre site in an unincorporated area of the foothills of the San Bernardino Mountains. Site access would be from a primary access road connecting to Little League Drive and a secondary access road connecting to the I-215 frontage road. An additional 26.4 acres of county land adjacent to the project site would be annexed to the City with the project site to avoid the creation of a County "island" (379.2 total acres). Project construction would take approximately three years (2013 to 2016). Upon annexation, the project site would have a zoning and General Plan land use designation of Specific Plan.	NOD	
2011011005	RE Distributed Solar Project Kern County Bakersfield--Kern DWR will enter into a 20-year power purchase agreement with the RE Columbia, LLC for 45 MW of solar capacity and associated energy to be generated at two contiguous sites in Kern County. These two sites, Columbia and Columbia Two, are part of a larger solar project proposed by the developer and approved by Kern County in December, 2011.	NOD	
2011122079	Sewer Maintenance District 3 Regional Sewer Project Placer County Loomis--Placer Placer County's proposed Sewer Maintenance District (SMD) 3 Regional Sewer Project consists of decommissioning the SMD 3 (Horseshoe Bar area) wastewater treatment plant (WWTP) and constructing a pump station and force main to convey wastewater from the existing WWTP to the SMD 2 (Granite Bay area)	NOD
