

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

February 16 – 28, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 16 – 28, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

<u>Documents Received on Tuesday, February 17, 2015</u>			
2009021007	Coachella General Plan Update Coachella, City of Coachella--Riverside Notes: 1 Harc Copy	FIN	
	<p>The Proposed Project is the Coachella General Plan Update 2035. The Coachella General Plan Update 2035 (CGPU) was developed through a combined effort between community members, City staff, stakeholders, and consultants to form goals, policies, and implementation strategies that will implement the vision of the community. The project's Planning Area encompasses 18,564 acres of City land and 14,755 acres within the City's sphere of influence (SOI). The current population is approximately 40,000. Under the proposed project, by 2035, population would be approximately 135,000 and the City would add 25,750 new jobs. Under the proposed project, growth would be achieved through 33,469 new dwelling units, 10.4 million sf of retail, 3.7 million sf of office, and 5.2 million sf of industrial. The project also includes a CAP.</p>		
2010041046	Don Chapin Company Concrete Batch Plant Merced County --Merced Final - 1 Hard Copy	FIN	
	<p>The George Simmons Minor Subdivision & Don Chapin Company Concrete Batch Plant Project consists of the following two sub-projects: 1) Minor Subdivision No. MS07-027 to subdivide 26.9 acres into four parcels (Parcel 1 = 15.0 acres, Parcel 2 = 3.46 acres, Parcel 3 = 3.46 acres and Parcel 4 = 5.0 acres) to be sold for future industrial and commercial development. 2) Administrative Permit No. AA08-033 to construct a concrete batch plant on the 7.07-acre portion of Parcel 1, including a batch plan with three bulk cement storage silos, portable cement silo, 500 sf batch trailer, 4 propane tanks, 6,800 sf concrete block casting area, 2,000 to 4,000 gallon diesel fuel tank, 120,000-gallon reclaimed water system, admix area, pump house, aggregate storage area, truck wash area and related returned concrete collection facilities, and parking area.</p>		
2013114001	Bi-State Sage-Grouse Draft EIS U.S. Forest Service --Modoc, Lassen, Siskiyou, Plumas Note: Extended Review	FIN	
	<p>The Planning Area consists of about 70 million acres in Nevada and Northeastern CA. Create a management strategy that best meets the needs of the resources and values in this area under BLM and Forest Service multiple use and sustained yield mandate for the Greater Sage-Grouse.</p>		
2015024001	Test Complex at Edwards Air Force Base U.S. Air Force Lancaster--Kern, Los Angeles, San Bernardino Note: EA/FONSI	JD	03/17/2015
	<p>The test mission at Edwards AFB is constantly changing, new test missions develop, last for months to years and then terminate. Edwards AFB is developing</p>

	<p>this EA to analyze the update and enhancement of test facilities at the Edwards AFB Test Complex to meet changing test mission requirements, by outlining zones of construction that can enhance the test capabilities. The proposed actions include areas on North Base, Main Base and South Base that lie within 2,500 feet of existing runways and taxiways. Three action alternatives were considered to update and develop new test mission capabilities at the Edwards AFB, CA Test Complex. The alternatives provide a range of development scenarios while considering standard mission requirements for new test missions, and varying levels of land use constraints.</p>		
2014022074	<p>Tentative Parcel Map Application No. PLN2014-0019 - Burroughs Stanislaus County Oakdale--Stanislaus</p> <p>This is a request to create a 5-acre parcel and an 8.81 acre parcel from a 13.81 acre parcel. The existing parcel is served by private septic and well. No agricultural irrigation infrastructure exists on the project site. The proposed parcel split is configured as a flag lot, including a 30 foot wide access from Orange Blossom Road to the proposed 8.81-acre parcel. Both parcels are proposed to take access from the publically maintained Orange Blossom Road. A biological assessment was completed for this project and mitigation measures have been applied to reduce potential impacts to biological resources to a less than significant level.</p>	MND	03/18/2015
2015021048	<p>ENV-2014-3143-MND / 3018, 3024 N. Washington Boulevard Los Angeles, City of --Los Angeles</p> <p>The proposed project involves the change of use of an existing 762 sf retail space (previously maintained as a medical marijuana dispensary) to a one-story, 1,454 sf restaurant and wine bar with an outdoor dining area; the project includes a 458 sf additional to the rear of the property and 184 sf of outdoor patio dining space. The existing structure maintains a Floor Area Ratio (FAR) of approximately 0.5:1, however, the proposed addition would increase the existing FAR to 0.93:1. The project site consists of two lots (each approximately 780 sf), the existing structure is maintained on one lot and is adjacent to a paved courtyard area. Although this paved area was used for parking, there are no legally permitted spaces onsite.</p>	MND	03/18/2015
2015021049	<p>Hampton Inn & Suites Pomona, City of Pomona--Los Angeles</p> <p>105 Guest Room Hotel. One subterranean parking level and six above-ground levels. The total floor area of the hotel development will be 79,152 sf.</p>	MND	03/18/2015
2015022061	<p>Hudeman Slough Boat Launch Improvement Project Sonoma County Sonoma--Sonoma</p> <p>Sonoma County Regional Parks proposes to upgrade the existing boat launch facility on Hudeman Slough. The project would involve demolition and reconstruction of the existing facility, and other improvements, including: a reconstructed boat launching ramp; a reconstructed boarding dock; a new low freeboard dock for launching kayaks and other small craft; a repaved and expanded parking lot; a restroom facility; a camping area with park host site; and an Americans with Disabilities Act accessible path between the campsite, parking lot, restroom facility, and the launching ramp.</p>	MND	03/18/2015

2014122071	North Gilroy Neighborhood Districts Urban Service Area Amendment Gilroy, City of Gilroy--Santa Clara Amendment of the City of Gilroy Urban Service Area boundary to add approximately 721 acres at the northern extent of the City's 20-year Planning Area. Ultimate development is anticipated to include 4,000 residential units, approximately 39 acres of local-serving commercial, parks and trails, and schools.	NOP	03/18/2015
2015022059	Lawrence Station Area Plan (LSAP) Program/Project EIR Santa Clara, City of Santa Clara--Santa Clara The LSAP is envisioned for the creation of a transit-oriented development mixed use neighborhood. The cities of Santa Clara and Sunnyvale have been working together towards planning the future of this area. The City of Santa Clara, in combination with the project applicants, plans to revitalize the areas surrounding the Lawrence Caltrain station. Plan- and project-level development efforts are proposed and would require a rezone from light industrial (ML) to Lawrence Station Area Specific Plan Zoning and a General Plan amendment from industrial to Lawrence Station Area Specific Plan. Overall, up to 3,000 dwelling units and approximately 45,000 sf of retail is proposed. The goal is to transform the area into a pedestrian friendly neighborhood, broaden and strengthen the range of transportation choices, and encourage efficient use of available land.	NOP	03/18/2015
2015022062	Aspen 8 and 9 Mining Use Permit Sacramento County --Sacramento 1. A Use Permit to allow surface mining on approximately 357 acres of a 683 acres project site. 2. A Use Permit to allow for the extension and continued use of an electric conveyor system to transport the mined materials across adjacent parcels to the existing off-site processing plant.	NOP	03/18/2015
2015012004	Tentative Parcel Map Application No. PLN2014-0113 - Stewart & Jasper Orchards Stanislaus County Newman--Stanislaus Request to divide a 148 acre parcel into two parcels of 69 and 79 acres. The parcel is currently improved with an existing barn and single-family dwelling, planted in almond orchards, and will remain in agricultural production.	Neg	03/18/2015
2015022060	Conditional Use Permit 2014-007 Glenn County Orland--Glenn Old Hickory Sheds, LLC has applied for a Conditional Use Permit for a proposed business, which involves assembling, storing, and retailing storage sheds/garages. The property is currently built with a 9,000 sf steel framed warehouse structure and above ground 15 foot by 50 foot diesel storage tank. The remainder of the property is cleared and topped with pavement and gravel. The site has a six-foot perimeter cyclone fence and entry gate. The operation would use the existing 9,000 sf structure for manufacturing and storage of wood products. All manufacturing will be conducted indoors. Additional project information is available in the IS and other documentation.	Neg	03/18/2015

2009102085	Alameda County Housing Element Update (2009-2014) Alameda County Unincorporated--Alameda This Major ITP Amendment increases the required Habitat Mitigation Lands acreage, and the associated cost estimates to account for unauthorized impacts incurred during construction of the above referenced Project. This Amendment extends the HM Lands timeline to account HM Land acquisition complexities unique to this Project. This Amendment increases the Performance Security amount to reflect the increased cost estimates. This Amendment modifies the CESA findings to capture the increased HM Lands acreage.	NOD	
2013041031	California Flats Solar Project Monterey County --Monterey The proposed project is a 280-megawatt alternating current photovoltaic solar power facility. The project site includes a solar generating facility area, a utility corridor, and improvements to an existing access road. The project would include a 2,120-acre solar development area, a 135-acre 230kV overhead transmission line corridor, a 5-acre high-capacity collection system line corridor, two on-site substations, a switching station to be owned and operated by PG&E, an operations and maintenance facility, and temporary construction staging areas.	NOD	
2014022054	Raley's Dock Replacement and Rice Mill Pier Rehabilitation West Sacramento, City of West Sacramento--Yolo The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0085-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of West Sacramento. The project involves the replacement of Raley's Dock and rehabilitation of Rice Mill Pier. The replacement dock will include replacement of floating docks using durable, low maintenance and stable concrete floating units and provide lighting and cleats on replacement docks to improve public access and safety, and to enhance aesthetics. A debris deflector boom will be installed to protect docks from logs and other floating debris in the river. The rehabilitation of Ricer Mill Pier includes structural repairs to the pier substructure, abutment, and the existing piles.	NOD	
2014101031	2015-2023 Housing Element Amendment Santa Barbara County Santa Barbara, Santa Maria--Santa Barbara County of Santa Barbara (County) proposes the 2015-2023 Housing Element Amendment to update the County's 2009-2014 Housing Element to meet the existing and projected housing needs for all income levels of persons and households living in unincorporated areas of Santa Barbara County throughout the eight-year planning period. The Housing Element establishes goals, policies, and programs that provide general housing and land-use strategies to address these housing needs and facilitate new housing opportunities consistent with state housing law. 2015029002	Lake or Streambed Alteration Agreement No. 1600-2014-0251-R1 "Shady Raccoon" THP Forestry and Fire Protection, Department of --Siskiyou The project is described in THP 2-14-047-SIS and is limited to 8 encroachments including the installation of a rocked ford at work station C and the use of 7 existing drafting sites W1-W7.	NOD	
2015029004	Lake or Streambed Alteration Agreement No. 1600-2013-0380-R1 "Turtle" THP Forestry and Fire Protection, Department of --Siskiyou The project is described in THP 2-14-026-SIS and is limited to one encroachment including the installation and removal of a temporary skid crossing. The skid crossing is along an existing skid road. The crossing will be a Splitter type watercourse crossing and shall be removed following operations.	NOD	
2015028170	Diane Vegetation Fuel Reduction Project Forestry and Fire Protection, Department of Susanville--Lassen A vegetation fuel reduction project is being proposed on portions of land parcels of a number of private property owners in conjunction with CalFire. The main purpose of the proposed project is to maintain/establish an approximate 8 acre fuel reduction zone along or through portions of Diamond Crest Ranchos Sub Division and other property owners. Portions of the proposed project border the California Department of Fish and Wildlife, Bass Hill Wildlife Area. The proposed prject area has received some form of land management in the past such as, residential development, road construction, vegetation management, livestock management and grazing.	NOE	
2015028171	Konocti Conservation Camp Shower Facility Construction Forestry and Fire Protection, Department of --Lake The Konocti Conservation Camp, located at 13044 State Highway 29 in Lower Lake, is planning to build a new shower facility for use by crews that camp on the property during major incidents. The shower will be constructed in a disturbed area that is currently used as the main camping location. The area is compacted dirt intermixed with oak and ponderosa pine trees, with picnic tables, portable toilets, and a permanent drain grate upon which a mobile hand washing station is periodically located. The shower facility will be no more than 500 square feet, and will be constructed within a flat disturbed area adjacent to the hand washing station grate.	NOE	
2015028172	Parnassus Utility Relocation, Phase 1 University of California, San Francisco San Francisco--San Francisco The proposed project is to remove, reroute and/or relocate mechanical, electrical, plumbing, telecommunication and civil utilities that conflict with the upcoming seismic renovation of the Clinical Sciences Building and nearby areas of work, including the Laboratory of Radiobiology, Medical Research 4, and the northern portion of Saunders Court. 	<p>Schwarzenegger's Executive Order S-3-05 established the 2050 statewide GHG reduction target of 80 percent below 1990 levels. The City of San Diego has prepared a draft CAP that identifies measures to effectively meet greenhouse gas (GHG) reduction targets for 2020 and 2035, as "interim" targets for achieving the 2050 target. The CAP estimates the GHG emissions for the City of San Diego in the baseline year 2010 to be around 12.8 million metric tons of carbon dioxide equivalent (MMT CO₂e). By 2020 the CAP estimates the City's emissions would increase to 13.9 MMT CO₂e, and to around 16.2 MMT CO₂e by 2035. With implementation of the CAP, the City aims to reduce emissions 15 percent below the 2010 baseline by 2020 to around 10.9 MMT CO₂e, and by a total of 49 percent by 2035 to 6.4 MMT CO₂e. With implementation of the CAP, it is anticipated that the City would exceed its reduction target by 0.9 MMT CO₂e in 2020 and 155,600 MT CO₂e in 2035. The CAP relies on significantly City and regional actions, continued implementation of federal and state mandates, and five local strategies with associated action steps for target attainment. The five strategy areas are:</p> <p>Water & Energy Efficient Buildings; Clean & Renewable Energy; Bicycling, Walking, Transit & Land Use; Zero Waste; and Climate Resiliency.</p> <p>Implementation of the CAP is divided into: Early Actions (Adoption of the CAP-December 31, 2017), Mid-term Actions (Jan 1, 2018-Dec. 31, 2020), and Longer-Term Actions (2021-2035).</p>		
2015021054	<p>Signal Hill LLC Residence Monterey County Salinas--Monterey</p> <p>1. Demolition of the existing 4,125 sq. ft. two-story single-family residence designed by architect Richard Neutra and removal of the approx. 2,825 sq. ft. of asphalt driveway and concrete patios. 2. Up to approx. 2.165 acres of site preparation, ground disturbance, and grading. 3. Construction of new 11,933- sq. ft. 2 story (over basement), single-family residence designed by Mexican architect Ricardo Legorreta and construction of approx. 1,950 sq. ft. of paved areas. 4. Restoration of portion of the property that will remain undeveloped (approx. 1.8 acres) to native dune habitat.</p>	NOP	03/19/2015
2015021055	<p>Via Terracaleta Custom Estates Specific Plan Amendment/Area Plan/Tentative Tract Map Orange County --Orange</p> <p>The proposed Project includes the subdivision of the 16.1 acre Project Site into seven residential lots, including the existing single-family lot. The existing single-family home will be retained and remodeled on Lot 1 that will contain approx. 1.09 acres with a development pad of approx. 18,550 sq. ft. The six additional residential lots -- Lots 2 through 7 -- will be developed with new single-family homes. These six lots will range from approx. 1.15 acres to approx. 4.18 acres; the development pads will range from approx. 16,530 sq. ft. to approx. 28,030 sq. ft. (net developable area). The new residential lots were designed to respect the ridgelines, and to be relatively secluded from existing homes to the north and south. The proposed lots lie significantly below both the primary ridgeline to the northwest and below the three secondary ridgelines that fall from</p>	NOP	03/19/2015

	northwest to southeast, with the two flanking secondary ridgelines continuing to fall beyond the Project Site toward Coto de Caza Drive. Although a building pad will be created within each new residential lot, the construction of the homes and their appurtenant facilities and amenities would occur on a subsequent lot-by-lot basis. All of the proposed homes will comply with the development standards and regulations for Low Density Residential development set forth in the Coto de Caza Specific Plan, as well as with additional standards and regulations that will be set forth in a new Via Terracaleta Custom Estates Area Plan that will be prepared as part of the Project. In particular, to improve compatibility with the existing homes in Planning Area 5, the new home sites will be limited in terms of their development envelop and maximum building height, and will also be regulated in terms of permitted roof and exterior wall colors.		
2015021057	Andora Project Los Angeles, City of --Los Angeles Project proposes the development of a 42-unit single family subdivision and two open space lots on an approx. 91 acre Project Site north of the Chatsworth Nature Preserve. Currently the Project Site is undeveloped. The Proposed Project would be developed into an equestrian-oriented community along two new streets. The community's main access road would be an extension of Andora Avenue, approx. 60 feet in width and originating at the current terminus of Andora Avenue. A second road would be completed as a 54-foot wide public right of way and standard cul-de-sac. Approx. 51 acres of the Project Site (or roughly 56 percent of the Project Site) would remain as open space.	NOP	03/19/2015
2015021056	ZA-2014-4526-CUB-CU, ENV-2014-4527-ND Los Angeles, City of Los Angeles, City of--Los Angeles Conversion of an existing discount retail store to a 2,600 sf convenience store (7-Eleven) with 24-hour operations, and the sale of beer and wine for off-site consumption within an existing Mini-Shopping Center/Commercial Corner Development. As proposed, the project will require the approval of a Conditional Use Permit to allow the sale of beer and wine, and 24-hour operation.	Neg	03/19/2015

2011101051	Collier Park Renovations Project La Mesa, City of La Mesa--San Diego Note: Response to Comments The project proposes the construction of recreational facilities and other improvements at Collier Park in the City of La Mesa, San Diego County, California. The proposed project is organized into four areas: 1) Panhandle; 2) Spring House; 3) History Hill; and 4) Collier Club House.	Oth	
2008021002	ProLogis Eucalyptus Industrial Park EIR (formerly Prologis Park Moreno Valley Eucalyptus Project) Moreno Valley, City of Moreno Valley--Riverside This project proposes a General Plan Amendment for approximately 33 acres and a Zone Change for approximately 84 acres to establish Business Park/Light Industrial designations. The land use changes are required for development of four warehouse distribution buildings totaling 1,529,498 square feet. The developer also proposes Tentative Parcel Map No. 35679 to subdivide the project site into five parcels. A General Plan Amendment is also required for changes to the City's General Plan Circulation Element and the Master Plan of Trails.	NOD	
2009011031	Plan Santa Barbara General Plan Update (Policy Amendments including General Plan Framework, Land Use Element, Housing Element) and Associated Rezone Santa Barbara, City of Santa Barbara--Santa Barbara Recent legislative changes require that the City update the housing element by February 15, 2015. In compliance with this requirement the 2015 Housing Element updates demographic and housing information based on most current data, evaluates the progress made in implementing the previous housing element, assesses regional housing need and governmental and non-governmental constraints on housing development and establishes an 8- Year Housing Element Work Program.	NOD	
2014112039	Saban Design Review and Variance Neg Dec Marin County --Marin The proposed project is to complete the demolition of a pre-existing 870-square foot residence (of which all but 265 square feet has already been demolished) and construct a new residence on the vacant lot. The total proposed building area would be 1,429 square feet, consisting of 940 square feet of floor area and a 488 square foot garage. The proposal also includes 46 square feet of covered porches. The proposed project would result in a floor area ratio of approximately 5 percent on the 17,890 square foot lot. The proposed residence would reach a maximum height of 22 feet above surrounding grade and the exterior walls would have the following minimum setbacks: 20 feet from the top of the stream bank; 62 feet from the eastern from the eastern front property line; 66 feet from the northern side property line; 26 feet from the southern side property line; and 8 feet 3 inches from the western rear property line. Various site improvements are also proposed, including a vehicle bridge and a footbridge across the stream, a new septic system, a six foot high fence in the front yard, low retaining walls, a parking area made of pervious pavers, and landscaping. 2014112066	PA-1400173 (SA) San Joaquin County Lodi--San Joaquin A Site Approval application of Nelcino A. Matos for a farm services headquarters for a manure spreading operation. The project includes the conversion of a 1,000 square foot portion of an existing 3,000 square foot agricultural building into an office with indoor and outdoor equipment storage. Storage for ten (10) pieces of equipment. No manure stored on site. This parcel is not under a Williamson Act contract. The Property is zoned AG-40 (General Agriculture, 40-acre minimum) and the General Plan designation is A/G (General Agriculture). The project site is located on the north side of E. Forest Lake, 2,900 feet west of Lower Sacramento Road, Acampo. (APN/Address: 003-130-28/1397 E. Forest Lake Road, Acampo) (Supervisorial District 4).	NOD	
2014122022	Butte Fire Station and Unit Headquarters Replacement Project Forestry and Fire Protection, Department of Oroville--Butte Demolition of Existing Butte Fire Station and Unit Headquarters Site demolition would include all buildings on-site except for the two Emergency Command Center (ECC) buildings and the ECC tower located in the northeast corner of the Project site. In addition to building demolition, the existing hose rack, fuel tanks and propane tanks, all existing utilities and appurtenances including water distribution lines, sewer lines, and gas lines, and existing concrete retaining walls, asphalt concrete paving and concrete sidewalks would be removed. A utility pole located on the eastern boundary would also be relocated. Lastly, clearing, grubbing, and tree removal would occur as required within the limits of the Project site. New Butte Fire Station and Unit Headquarters After demolition, a new fire station and unit administrative headquarters complex would be constructed. New facilities would include: administrative building, three-bay fire apparatus building, 20-bed barracks/mess hall, warehouse/service center, two-bay dozer shed, auto shop, covered vehicle wash rack with filtration system, maintenance support building, physical fitness building, a generator/storage building, a fire pump test pit and several other site improvements. 2014051018	Villa Storia Oceanside, City of Oceanside--San Diego Implementation of the proposed project would require a General Plan Amendment and a Zoning Amendment, altering the General Plan land use and zoning designations of the project site. The proposed project includes the development of four separate Planning Areas within the 35.59 acre site that would support a variety of residential uses, including: single-family detached and cluster developments, single-family attached clusters, and a variety of townhouses.	EIR	04/06/2015
2003011045	River Ridge ASR Well Oxnard, City of Oxnard--Ventura Note: Revised Addendum to EIR FYI Final The project is the installation of an ASR well that will be constructed along with 3 nested monitoring wells to develop information that confirms historical data. The proposed location of the proposed ASR pilot well and the proposed monitoring wells will be located southeast of the Santa Clara River next to Ventura Road within the City of Oxnard. Figure A shows the proposed monitoring wells and pilot test ASR well to facilitate permitting of the GRRP and the Indirect Potable Reuse (IPR) project, and indicates the location of the subsurface profiles provided on the subsequent figures. The locations of the monitoring wells were designed to; a) be far enough apart to collect water levels that will define the site specific groundwater gradient, b) be close enough to comply with the new regulation monitoring well requirements for GRRP permitting including a travel time of greater than 2 weeks and less than 6 months, and c) utilize the City owned parcel (if possible). The location of the ASR well is central to the property boundaries and designed to allow other ASR wells to be constructed on the site with the intent of using the target aquifer zones that are discretely screened by the monitoring wells.	FIN	
2014101017	Lift Station #1 and Force Main Improvements North of the River Sanitary District Bakersfield--Kern The project consists of a series of improvements to Lift Station #1, owned and operated by North of River Sanitary District, as well as an associated force main. The project is intended to improve the reliability and safety of the facility, as well as reduce the number of spills. Planned improvements include replacement of the three existing pumping units, replacement of the motor control center, incorporation of existing instrumentation control equipment, demolition and abandonment of an existing dry pit, and replacement of the force main.	FIN	
2015021059	ENV-2014-3610-MND / 1715 N. Bronson Avenue Los Angeles, City of --Los Angeles The proposed project would involve the demolition of the existing 10-unit apartment building and the existing 6-unit apartment building, and the construction of a new 7-story, 89-unit apartment building. The apartment building, which would have a maximum height of approximately 87-feet to the top of the roof and 92 feet to the top of the parapet, would be constructed on a 0.89-acre (38,825 sf) site located within the C4-1-SN and R4-2 Zones located at 1717 Bronson Avenue. 2015028201	Saticoy Sanitary District Sewer Rehabilitation Phase II Project Saticoy Sanitary District --Ventura The proposed activity/project consists of replacement of 190 6-inch sewer laterals that are approximately 20 feet in length. These laterals extend from the curb line to the sewer main in the middle of the street. No upgrades in capacity to the existing pipelines are proposed, only the material will be upgraded from clay pipe to PVC. The area of impact will be confined to the previously disturbed areas for the existing laterals. Road encroachment permits will be obtained by the District.	NOE	
2015028202	Energy Conservation Project Newhall School District Santa Clarita--Los Angeles Newhall School District ("District") will operate, maintain and install replacement HVAC, exterior LED lighting, building authorization and controls, PC power management software, and irrigation controls software at a number of schools throughout the District ("Project"). Such schools include Dr. Michael McGrath Elementary School, Meadows Elementary School, Newhall Elementary School, Oaks Hills Elementary School, Old Orchard Elementary School, Peachland Ave Elementary School, Pico Canyon Elementary School, Stevenson Ranch Elementary School, Valencia Valley Elementary School, Wiley Canyon Elementary School, and the Newhall District Office. The anticipated cost to the District for the Project will be less than the anticipated marginal cost to the District of electrical or other energy that would have otherwise been consumed by the District in the absence thereof. The Project involves replacement of existing school equipment and facilities, which will not increase student capacity nor involve the addition of any new classrooms on the site.	NOE	
2015028203	Transfer of Coverage to Placer County APN 083-092-008 (Smith) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 112 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a reconstruction and replacement of existing decks and driveways will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2015028204	Valhalla High School Modernization Grossmont Union High School District Unincorporated--San Diego Grossmont Union High School District proposes to modernize the interior and exterior of the main building at Valhalla High School. The improvements would improve the appearance of the campus and bring the facility up to present day building standards and in compliance with the American with Disabilities Act. The main building would be closed during the 14- to 16-month construction period to accommodate the existing high school program; they would be removed after the completion of construction activities. The improvements would benefit students and teachers at Valhalla High School.	NOE

2015022070	Tentative Parcel Map & Variance Application No. PLN2015-0009 - Robert Rawe Stanislaus County Riverbank--Stanislaus Request to subdivide an existing 3.95 acre parcel into a 1 acre parcel and a 2.95 acre remainder parcel. The current parcel consists of two single-family dwellings and an irrigated pasture. A variance is requested to create two parcels that will not meet minimum lot size requirements of the A-2-10 zoning district.	CON	03/12/2015
2013042065	Fair Oaks Overhead Bridge Rehabilitation Sunnyvale, City of Sunnyvale--Santa Clara The City of Sunnyvale (City) proposes to rehabilitate the Fair Oaks Overhead Bridge (bridge). The bridge is located on Fair Oaks Avenue between Kifer Road and Evelyn Avenue. The bridge crosses over Hendy Avenue, the railroad tracks owned by the Peninsula Corridor Joint Powers Board (Caltrain), and through an apartment community. The Fair Oaks Avenue Overhead Bridge Rehabilitation Project (project) would rehabilitate the bridge to address several identified structural deficiencies while at the same time expanding bicycle and pedestrian amenities. The rehabilitated bridge would maintain its current automobile capacity - two travel lanes in each direction.	FIN

2003111120	Hazardous Waste Facility Permit Modification and DEIR for Edwards Air Force Base Toxic Substances Control, Department of Lancaster--Kern, Los Angeles, San Bernardino Edwards Air Force Base (Edwards) requested a Class 3 Permit Modification to their current hazardous waste (HW) Facility Permit to add two existing treatment units for open burn and open detonation (OB/OD) activities. Edwards' current HW permit, issued by DTSC in November 2005 and effective through November 2015 allows Edwards to store onsite generated HW waste in containers. Currently, Edwards is authorized by DTSC to operate OB/OD treatment units from a January 19, 1993 Stipulation and Order. The authorization allows for operation of the OB/OD units only until DTSC makes a hazardous waste facility permit determination. The OB/OD units are to treat waste solid propellant and unserviceable munitions and ordnance containing pyrotechnics, explosives, and propellants (PEP), and also including casings, containers, and other materials contaminated with PEP. The capability to treat reactive hazardous waste generated by Edwards' research, development, test, and evaluation (RDT&E) activities onsite is critical to the RDT&E mission, since the unstable nature of the hazardous waste makes transport to other installations unsafe. The OB/OD units are operated maintained by personnel from the Explosive Ordinance and Disposal (EOD) unit at Edwards. The OB/OD units consist of an OB area and an OD area. Treatment is conducted by burning reactive hazardous waste on the ground surface using a remote electronic ignition device or detonating on the ground surface using bulk explosive as a donor charge.	NOD	
2010052024	Russian River Estuary Management Project (Estuary Project) Sonoma County --Sonoma The Sonoma County Water Agency is implementing adaptive management of the Russian River Estuary with the dual objectives of enhancing rearing habitat for juvenile salmonids, particularly steelhead, and managing estuary water levels to minimize flood hazard. The State Lands Commission action is an approval of an 8-year General Lease - Public Agency Use through December 31, 2023, for the continued periodic breaching of the Russian River to prevent flooding and construction and maintenance of an outlet/pilot channel to form a freshwater lagoon for fish habitat enhancement and to prevent flooding in the Russian River. 2013069020	Benton Resources Notice and Plan of Operations Halloran Springs Exploration Drilling Project Bureau of Land Management --San Bernardino The State Lands Commission action is an extension and amendment of Mineral Prospecting Permit No. 9026.2 to allow drilling to determine the commercial viability of gold and/or silver on State School Lands on through October 31, 2015.	NOD	
2014028155	Part 2 Emergency Funding Grant Public Health, Department of --Shasta The State Water Resources Control Board (Board) is a lead agency for this project. The Board's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Due to Lassen Pines Mutual Water Company(LPMWC) groundwater being under the direct influence of surface water, LPMWC initially proposed a project that included the installation of one groundwater well with appurtenant structures. However, LPMWC was unsuccessful in developing an adequate groundwater source and have now proposed the installation of multi-barrier surface water treatment. LPMWC proposes to provide disinfection and filtration of the water provided by the wells in a phased approach. The remaining P84 funds will be used to install an approved UV disinfection system in order to achieve compliance and project public health. The Cleanup and Abatement Account Interim Emergency Drinking Water funding program will be funding the Phase 2 construction of a filtration system which will result in completion of the multi-barrier surface water treatment plant. 2005031060	Water Development Project at Ayers Acres Running Springs Water District --San Bernardino Previously on July 20, 2005, the Board of Directors of the Running Springs Water District ("District") approved the Mitigated Negative Declaration ("MND") for the Ayers Acres Water Development Project ("Project"), which would involve the installation and operation of several water wells and associated pumping stations, access roads, and pipelines for the provision of water to the District. Subsequently, on August 17, 2011, the Board of Directors adopted an addendum to the MND to modify the Project to allow one of the access roads and pipelines to be relocated several hundred feet to the west of their intended location. Drilling of the well was conducted in 2012. On February 18, 2015, the Board awarded a construction contract to Bacon/Wagner Excavating, Inc. to construct and install backbone infrastructure to transport groundwater developed in the area into the District's water distribution system. There has been no additional or further information of substantial importance that has come to light and thus, no subsequent MND was required pursuant to CEQA Guidelines section 15162.	NOD	
2007102090	Downtown Roseville Specific Plan Roseville, City of Roseville--Placer Construct the Fire Station 1 retaining wall and building pad and approximately 500 feet of Class I Bike Trail.	NOD	
2012081061	Old Mine Road Wireless Telecommunication Facility Major Use Permit San Diego County --San Diego The applicant requests a MUP to construct, operate, and maintain an unmanned wireless telecommunication facility for two carriers, using two 35-foot tall faux mono-pine trees. The faux tree to be leased by Verizon would be mounted with 12 panel antennas, 12 remote radio units (RRU's) and one microwave antenna. The faux tree to be leased by AT&T would be mounted with eight panel antennas, eight RRU's and one microwave antenna. Associated equipment for each provider would be housed within a pre-fabricated enclosure. The entire facility including the equipment and faux trees would be surrounded by a CMU wall, which varies in height between six feet, eight inches to 10 feet, depending on the topography.	NOD	
2013032028	McHenry Avenue Corridor Improvement Project San Joaquin County Escalon--San Joaquin The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0257-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, San Joaquin County.	NOD	
2014121009	Yingling; DRC2013-00115 Condition Use Permit San Luis Obispo County Paso Robles--San Luis Obispo Request by Richard C. Yingling for a Conditional Use Permit to allow for the construction and operation of an unmanned wireless communications facility consisting of: a) three (3) new antenna sectors with three (3) directional antennas per sector mounted at a height of 45 feet above ground level attached to a 50-foot	NOD

2010092080	Academy of Art University Project San Francisco, City and County of San Francisco--San Francisco Note: Review Per lead	EIR	04/27/2015
	<p>The Proposed Project consists of four general components: study area growth, project site growth, legalization of prior unauthorized changes, and shuttle service expansion. Study area growth consists of approximately 110,000 net sf of additional residential uses (to house approximately 400 students, equivalent to about 220 rooms) and 669,670 sf of additional institutional space in 12 geographic areas (study areas) where AAU could occupy buildings to accommodate future growth. The study areas general include the following areas: Study Area 1 (SA-1), Lombard Street/Divisadero Street; SA-2, Lombard Street/Van Ness Avenue; SA-3, Mid Van Ness Avenue; SA-4, Sutter Street/Mason Street; SA-5, Mid Market Street; SA-6, Fourth Street/Howard Street; SA-7, Rincon Hill East; SA-8, Third Street/Bryant Street; SA-9, Second Street/Brannan Street; SA-10, Fifth Street/Brannan Street; SA-11, Sixth Street/Folsom Street; and SA-12, Ninth Street/Folsom Street.</p>		
2015012035	Morgan Knolls Residential Development (PSUB 20130316) Placer County Roseville--Placer The project proposes a Dry Creek West Placer Community Plan Amendment, Rezone, Tentative Subdivision Map, Conditional Use Permit and Variances to create a 61-lot single-family, residential subdivision with one- and two-story houses ranging from 6,000 to 11,663 sf in size with associated common areas and utilities.	MND	03/25/2015
2015021073	ENV-2014-3156-MND / 5036 W. Rosewood Avenue Los Angeles, City of --Los Angeles The proposed project is on a site that is approximately 6,750 sf (one lot) and includes the construction of a four-story, 45-foot tall building with 11 residential units that includes one unit for very low income households, and 15 parking spaces in one level of subterranean parking level. The total project size is approximately 136,640 sf of floor area in the Wilshire Community Plan Area, zoned R3-1 with a General Plan Designation of Medium Residential. The project includes the demolition of one existing single family dwelling of approximately 1,836 sf, and requires the export of 2,800 cubic yards of dirt.	MND	03/25/2015
2015021075	Trumark Homes Project at 1239 Victoria Costa Mesa, City of Costa Mesa--Orange The City of Costa Mesa is processing a planning application from Trumark Homes, LLC for development of a 28-unit Residential Planned Development at the site of an existing commercial/flight industrial use. The project consists of single-family detached residences with a density of approximately 14 dwelling units per acre. The proposed project involves the demolition of a 55,000 sf two-story commercial building and grading of the site, Discretionary Approval of a General Plan	MND	03/25/2015

	Amendment (GP-14-03), Rezone (R-14-03), Planned Application (PA-14-19), Variances and Vesting Tentative Tract Map 17779, and the construction of a new 28-unit master planned community. An on-site open space variance has been requested.		
2015021076	San Diego State University Engineering and Interdisciplinary Sciences Building Project California State University Trustees San Diego--San Diego The Proposed Project is the construction of a new, five-story instructional building (four levels above grade and one subterranean level) on the main campus of SDSU. The new building, which would be referred to as the "Engineering and Interdisciplinary Sciences Building," will include teaching and research laboratory space and will provide SDSU with state-of-the art research facilities to attract significant research projects and funding. The need for the new building stems from outdated facilities and growth in enrollment in the engineering disciplines. The new building would be located to the south of the existing Engineering Building, and would replace the existing Engineering Labs and Industrial Technology buildings.	MND	03/25/2015
2015021077	Maintenance and Operation Yard Expansion and Modernization Irvine Unified School District Irvine--Orange The IUSD is initiating the remaining three phases of a four phase development program expected to begin in 2015 and be completed in May 2016. The program includes the demolition of several existing structures and construction of new buildings as well as the modernization of existing buildings. Phase I of the program focused on construction of a new data center. This facility was completed in early 2014. Phases II through IV would construct 43,026 sf of new improvements and modernization of existing buildings on the existing IUSD site. Additional improvements may include the construction of a blockwall and landscaping along the segment of Sand Canyon Avenue that borders the project site to the north. At completion of the development program, up to 222 employees may work at the site. This would be an increase of 17 employees.	MND	03/25/2015
2015021081	63 Jefferson Project Murrieta, City of Murrieta--Riverside The project proposes the grading an 8-acre site to create development pads, which will allow for future financing and conveyance of the site. The project includes clearing the site, grading, and the provision of erosion control measures per the City's regulations.	MND	03/26/2015
2015022077	Pacific Coast Producers Inc. Palermo Land Application Area Expansion Regional Water Quality Control Board, Region 5 (Central Valley), Redding Oroville--Butte The PCP Cannery in Oroville produces canned fruit and discharges variable quantities of process wastewater in accordance with Waste Discharge Requirements Order No. R5-2003-0045, adopted by the Central Valley Water Board on 14 March 2003. The current land use application site contains 309 acres of land to accommodate wastewater flows from the Oroville cannery. The proposed project would allow the addition of approximately 320 acres, owned by Cindy Daley for supplemental irrigation on grazing land to the south, and up to 100 acres within the adjacent pheasant club for irrigation.	MND	03/25/2015

2015021074	Downtown Hawthorne Specific Plan Hawthorne, City of Hawthorne--Los Angeles Adoption of the proposed Downtown Hawthorne Specific Plan. The Specific Plan area totals approx. 794 acres and is generally along the Hawthorne Boulevard corridor. The Specific Plan designates five land use areas (Residential, Hotel Hub, Commercial, Mixed-Use and Public/Quasi Public) and five opportunity site known as Transformative Projects. The environmental analysis will examine the potential impacts of the total Specific Plan area in 2035 as a program EIR and the five Transformative Project sites in 2020 as a project EIR. In addition, the Hawthorne General Plan, including the General Plan Land Use map, will be amended concurrent with the adoption of the Specific Plan.	NOP	03/25/2015
2015021072	ENV-2014-3497-ND / 1172 W. 8th Place Los Angeles, City of Westlake Village--Los Angeles The project includes the relocation of a modular building to an existing surface parking lot. The project includes a one-story, 5,760 sf church with 98 fixed seats and 26 associated surface parking spaces. The project does not include any grading or removal of trees and is requesting a Specific Plan Project Permit Compliance for the Central City West Specific Plan.	Neg	03/25/2015

	access to the facility; create two remainder parcels totaling 16.2 ac that will be retained by the current owner on which no development or approvals are proposed at this time; and allow for the future construction by the City of segments of the Upper Putah Creek Trail to connect to an existing trail and recreational/habitat corridor.		
2015022080	Trinity River Channel Rehabilitation Sites: Limekiln Gulch Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity Note: Reference SCH# 2008032110	JD	03/26/2015
	The purpose of the Limekiln Project is to increase salmon and steelhead habitat downstream of Lewiston Dam on the main stem Trinity River. The proposed project is designed to enhance both terrestrial and aquatic habitat quality. In-river work will increase habitat complexity via construction of slow water refuge habitats (e.g., low flow side channels), reconnection of the floodplain with the river, and placement of in-river geomorphic and habitat features (e.g., rock and wood structures). On-shore work will include revegetation of riverine and upland areas with native vegetation. The work at Limekiln Gulch is considered to be within the scope of the Master EIR for channel rehabilitation and sediment management for remaining phase 1 and phase 2 sites = SCH# 2008032110.

	A conditional use permit to develop a 1.25 megawatt grid-tied distributed generation solar energy facility. The facility is composed of 5,730 pole-mounted, single axis tracking photovoltaic modules to be situated on approximately 12.35 acres in the souther portion of the 95.25 acre parcel.		
2015021078	Rosa Morada Road Bridge Replacement Project, Bridge No. 43C-0041 San Benito County Hollister--San Benito	MND	03/26/2015
	San Benito County proposes to replace the Rosa Morada Road Bridge over Arroyo Dos Picachos. The elements of this project include construction of a temporary on-site detour, removal of the existing Rosa Morada Road Bridge, raising the east approach to eliminate sag and avoid potential for overtopping during flooding, and construction of a new Rosa Morada Road Bridge. The purpose of the project is to improve safety by replacing a structurally and functionally deficient bridge facility. The existing Rosa Morada Road Bridge is only wide enough for a single lane of traffic and, hydraulically, the bridge length is inadequate and the abutments encroach into the creek channel, a conditional that has create scour issues at the base of the abutments. There is also a substantial dip in the roadway approach at the east end of the existing structure, which the project will eliminate.		
2015021082	Meadow Ridge II at Canyon Hills (TTM No. 36682, ZC No. 2014-01, Residential Design Review No. 2014-01) Lake Elsinore, City of Lake Elsinore--Riverside	MND	03/27/2015
	The project is located in the eastern portion of the City of Lake Elsinore, in western Riverside County. The project site totals 20.2 gross acres and includes 74

	single-family residential lots. The proposed Tentative Tract Map (TTM) No. 36682 submitted for approval covers 24 acres which includes the project site and eight existing lots (Lots 75-82) along the west project boundary that are part of a previously approved tentative tract map (TTM No. 36115-1). The site is bounded by Holland Road to the north, Corson Avenue to the south, existing single family residential houses to the east and an approved single-family residential development (TTM 36115-1) to the west that is currently under construction. The project site is undeveloped and is relatively flat, with a several small knolls.		
2015022078	UP14-0007 - Pristine Sun (Maas) Butte County --Butte A conditional use permit to develop a 1.25 megawatt grid-tied distributed generation solar energy facility. The facility is composed of 5,760 pole-mounted photovoltaic modules to be situated on approximately 17.76 acres in the northern portion of the 160-acre parcel.	MND	03/26/2015
2015022079	Vesting Tentative Map for a Three-Lot Subdivision with Remainder, County File #MS12-0009 Conservation, Department of Byron--Contra Costa The applicant is requesting approval of a Vesting Tentative Map to subdivide two parcels totaling 48.46 acres, into three parcels including two 10-acre parcels (Parcel A and Parcel B), one 10.04-acre parcel (Parcel C), and one 18.42-acre remainder parcel. Although there is no development proposed at this time, the applicant has shown the locations of potential future home sites to comply with the General Plan policies for rural residential development within agricultural lands. There are no trees proposed for removal as part of this proposal. This project includes a request for exceptions to frontage improvements and on-site drainage collect and convey requirements.	MND	03/26/2015
2015021079	Santa Clara River Levee Improvements Downstream of Union Pacific Railroad (SCR-3) Project Ventura County Watershed Protection District Oxnard--Ventura The project would implement structural improvements to the existing SCR-3 levee to allow for FEMA certification. Between Bailard Landfill and N. Ventura Rd. (reaches 1-3) two options and considered. Option 1A (Full Levee System) adds fill material and riprap to raise the existing levee (8,875 feet) with one tie-in to Bailard Landfill. Option 1B (Minimum Levee System) adds fill material along a portion of the existing levee (3,575 feet), with tie-ins to Bailard, Coastal, and Santa Clara Landfills. The existing River Ridge Golf Course swale would be filled in. Between N. Ventura Rd. and the UPRR bridge (Reach 4), a 950-foot long floodwall would be constructed on the river side of the road with a visible height of 6 feet; a flood gate would be installed across N. Ventura Rd. and then a 4- to 6-foot floodwall would be constructed on the south side of N. Ventura Rd. for 860 feet.	NOP	03/26/2015
2014072029	PA-1400105 (SA) San Joaquin County Lodi--San Joaquin A Site Approval application for a farm services operation to provide disking, mowing, and spray application services for farm equipment repair operation. The operation will utilize a 200 sf portion of an existing 400 sf office and a 600 sf portion of an existing 5,000 sf agricultural storage building.	Neg	03/26/2015

2015021080	Remedial Action Plan, for Soil and Groundwater at the Former Service Chemical Facility Toxic Substances Control, Department of Santa Ana--Orange This Initial Study evaluates the environmental impacts from implementation of a proposed Remedial Action Plan and Feasibility Study, herein referred to the RAP and/or the Project. The Project is proposed on approximately 0.5 acres of land located at 1341 East Maywood Avenue, in the City of Santa Ana, County of Orange, CA. The RAP was prepared in consultation with the Department of Toxic Substances Control, pursuant to Health and Safety Code Section 25356.1. The anticipated schedule for implementation of the RAP is approximately 20 months.	Neg	03/26/2015
2015022081	2015 Water Transfer Program Sutter Extension Water District Yuba City--Sutter The SEWD proposes to sell up to 16,843 acre-feet of water to the participating member districts of the State Water Project Contractors Incorporated or other South of Delta purchasers, including one or more Central Valley Project contractors (Buyers) during the 2015 irrigation season. Buyers are seeking up to approximately 194,000 af of transfer water from various willing sellers in the Sacramento Valley during the 2015 irrigation season. Purchasing this water would lessen potential water supply shortages to these Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta.	Neg	03/27/2015
2003052054	Samoa Town Master Plan General Plan Amendment/Zone Reclassification GPA-02-01/ZR-02-02 Humboldt County --Humboldt An applicant-initiated General Plan and Zone Text Amendment. The application seeks to amend the Humboldt Bay Area Plan (HBAP) provisions for the Samoa Town Master Plan (STMP) as they relate to development timing. This amendment would involve changing the phasing provisions of the Samoa Town Master Plan (STMP) adopted into the HBAP in to meet grant funding time requirements for the proposed upgrades to the wastewater treatment facility (WWTF) which will low-income multi-family housing. For grant funding, a separate parcel must be created for the low-income multi-family housing March, 2015 and construction of the WWTF must commence by 2016. Under current requirements of the STMP, all underlying parcels are required to be merged into a single Master Parcel prior to any new development or action on a tentative map approval. Recordation of a final map phase requires the completion of development of a number of other improvements, trails, visitor serving facilities, etc. The establishment of a separate parcel for this housing and the WWTF can only be accomplished within the grant time frame by amending the LCP parcel merger and the phasing of development conditions. The project does not seek to change any aspects of the Samoa Town Master Plan other than the timing of creation of two master parcels. The environmental effects analyzed in the Master EIR certified for the project remain applicable and an Addendum to the MEIR is proposed for these text changes.	NOD	
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Yuba On October 16, 2014, Yuba County Water Agency (YCWA) filed a Petition for Change for Permit 15026 with the State Water Board. The change would include the addition of the San Luis Dam as a point of rediversion for YCWA's Lower Yuba	NOD

	Accord project until December 31, 2025. The additional point of rediversion would support storage of up to 70,000 acre-feet per year of Yuba Accord water in San Luis Reservoir by Central Valley Project contractors under arrangements with the U.S. Bureau of Reclamation.		
2006072018	Soquel Creek Water District Well Master Plan Soquel Creek Water District Capitola--Santa Cruz The State Water Resources Control Board (Board), as the Responsible Agency, will be issuing a water supply permit to operate to Soquel Creek Water District (SqCWD). The proposed project is to implement the Well Master Plan (WMP) project to improve redundancy and flexibility in the SqCWD's water production and distribution system while redistributing pumping away from coastal and depressed groundwater areas. The WMP proposes a phased approach for adding five groundwater production wells to the SqWCD system. The WMP also proposes converting an existing irrigation well at Polo Grounds Regional park to a municipal well. Auxiliary improvements related to the five proposed wells include new pipelines and water treatment facilities. The SwCWD also proposed to abandon and destroy one deteriorating production well and remove two existing production wells from service and maintain those wells as inactive wells. Implantation of the WMP would not increase ground water pumping, but would allow SQCWD to redistribute groundwater pumping to achieve more uniform drawdown, reduce susceptibility to seawater intrusion, and minimize localized pumping depression. Implementation of the WMP would likely occur over a five-year period, with one new well constructed each year.	NOD	
2007051027	Halter Conditional Use Permit / DRC2013-00051 / ED13-188 San Luis Obispo County Paso Robles--San Luis Obispo A request by Halter Properties, LLC for an amendment to their existing winery Conditional Use Permit that includes: an increase to their existing special event program, adding a second tasting room, a permanent farm stand, a commercial and agricultural processing kitchen, restrooms, changing room and a bridal changing room, all within existing structures on-site. The applicant is requesting modifications to ordinance standards to allow: a secondary tasting room, sale of prepackaged foods, and limits regarding floor space allowed for retail sales. The proposed project may result in 0.25 acres of site disturbance on a 952 acre site to allow for leach field expansion if needed.	NOD

2010012027	Lower San Joaquin River Feasibility Study San Joaquin County Area Flood Control Agency Stockton, Manteca, Lathrop--Sacramento, San Joaquin The Corps and its non-Federal sponsors propose to improve flood risk management to North and Central Stockton by repairing and enhancing the levees that surround the city, and by constructing and operating closure structures on Fourteenmile Slough and Smith Canal. The overall study area as defined in the Study authorization includes the mainstem of the San Joaquin River from the Mariposa Bypass downstream to the city of Stockton. The study area also includes the tributary channel of the San Joaquin River in the southernmost reaches of the Delta: Paradise Cut and Old River as far north as Tracy Boulevard and Middle River as far north as Victoria Canal. Based on availability of potential non-Federal sponsors the refined study area focused on approximately 305 sf encompassing incorporated areas of Stockton, Lathrop, and Manteca as well as unincorporated portions of San Joaquin County. The draft FR/EIS/EIS presents the draft findings of the Feasibility Study, which formulates and evaluates the benefits, costs, and environmental effects of alternative plans to improve flood risk management in and near the cities of Stockton, Manteca, and Lathrop in San Joaquin Valley. 2015021084	ENV-2013-3815-MND / 251 S. Lincoln Boulevard Los Angeles, City of --Los Angeles The proposed project involves the demolition of an approximately 1,001 sf restaurant with outdoor patio and an approximately 303 sf gasoline pay station/snack shop located on an approximately 2,898 sf L-shaped area, located within an irregular-shaped parcel measuring approximately 12,485 sf and zoned [Q] C2-1-CDO. An existing gasoline filling station will remain and the construction of a new approximately 1,879 sf convenience store with eight surface parking spaces is proposed for the cleared area. The proposed project also entails the modification of an existing pole sign and removal of a public pay phone.	MND	03/27/2015
2015021085	Design Review 15-0266 and Coastal Development Permit 15-0265 (Nyes/Oro Canyon Fuel Modification) Laguna Beach, City of Laguna Beach--Orange Fuel modification would be conducted on approximately 22 acres located within an unimproved "paper street" area surrounded by residences, and would extend from edge of residential landscaping approximately 100 feet into the undeveloped, steeply sloped canyons. The fuel modification would result in 50% thinning of the vegetation canopy to achieve a safe firebreak flanking Oro and Nyes Canyons. Thinning would be conducted by hand, focusing on removal of non-native vegetation and dead or dying material. To minimize impacts to native vegetation, thinning would follow a thinning hierarchy recommended in the January 2015 Biological Technical Report prepared by Glenn Lukos Associates. The project includes removal of pampas grass in two blue-line ephemeral drainages. The project requires approval from the Design Review Board.	MND	03/27/2015
2015021089	State Route 269 Bridge Project Caltrans #6 Huron--Fresno Raise the profile of SR 269 and construct three bridges between W. Palmer Avenue and SR 198, just north of the City of Huron. The project is designed to prevent flooding and closure of the highway during storm events.	MND	03/30/2015
2015022085	UP14-0005 - Pristine Sun (Witten) Butte County Paradise--Butte A conditional use permit to develop a 0.5 megawatt grid-tied distributed generation solar energy facility. The facility is composed of 2,184 pole-mounted photovoltaic modules to be situated on approximately 5 acres in the eastern portion of the 15.8 acre parcel.	MND	03/27/2015
2015022086	Mitsubishi Rayon Carbon Fiber and Composites Facility Expansion Project (DR14-339) Sacramento, City of Sacramento--Sacramento The project consists of expanding the existing approximately 65,000 sf manufacturing/warehouse building with an additional approximately 60,000 sf of manufacturing space plus another 10,000 sf of maintenance and warehouse space for a total of approximately 135,000 sf on the Project site. The Project will include the replacement of approximately 9,080 sf of manufactured office trailers with a two-story office building totaling approximately 16,000 sf. Parking would be expanded from 111 parking stalls for 100 employees to 170 parking stalls for 150	MND	03/27/2015

	employees. The proposed Project includes the installation of an electrical substation on the northwest corner of the parcel. The new substation would be owned, operated, and maintained by the Sacramento Municipal Utility District (SMUD).		
2015021083	SCE Helipad Initial Study (Planning Application No. 14-0112) Wildomar, City of Wildomar--Riverside The proposed project comprises a Conditional Use Permit to operate a new licensed helipad at the Southern California Edison (SCE) Wildomar Service Center. The site consists of a gross site area of 19.3 acres and a net site area of 17.2 acres and already contains a fully operational service center. A Continuous Event Permit for relief from the noise ordinance for flight operations is associated with the helipad. The proposed helipad location was indicated on the original 2007 Entitlement Application, and a concrete pad suitable for helipad operations was developed as part of the service center site. The proposed project would not involve any construction other than restriping of the existing concrete slab and installation of lights for helipad operation. No other improvements would be made to the existing service center site.	Neg	03/27/2015
2015022083	Black Walnut Circle Subdivision Napa, City of Napa--Napa The project proposes a Tentative Subdivision Map to subdivide a 1.87 acre parcel at 2012 Imola Avenue, into 7 single family residential lots and the construction of 7 homes. Lot sizes will range from 4,600 sf to 19,231 sf. The single family residential subdivision would be served by a new private cul-de-sac that will extend from the terminus of Black Walnut Lane. The cul-de-sac will be constructed around a large Valley Oak tree. The project requests a Planned Development Overlay for variations from the setback standards. Two of the lots require use of Flag Lot Standards. The application includes the proposed house plans and plotting plans for the new homes. The development proposes two single story model house plans and one two story house plan with house sizes that range from 2,697 sf to 3,554 in size.	Neg	03/27/2015
2015022084	2015-2023 Housing Element San Carlos, City of San Carlos--San Mateo The Project is an update to the San Carlos Housing Element, adopted in 2009. Under the proposed project, the City needs to demonstrate that it can accommodate at least 596 new housing units during the 2015-2023 Housing Element planning period. In compliance with Government Code Section 65580 et seq., the proposed Housing Element update, which supports the goals and policies of the City's current Housing Element, provides policies and implementing programs under which new housing development would be allowed. The proposed Housing Element includes updated policies and programs that are intended to guide the City's housing efforts through the 2015-2023 planning period.	Neg	03/27/2015

2015021086	Emergency Pipeline Tie-in Project Heritage Ranch Community Services District Paso Robles--San Luis Obispo The proposed project would provide HRCSD with an emergency access to its current Nacimiento water entitlement during no-or low-flow conditions in the Nacimiento River. The project would connect the HRCSD's existing water pump station 1 to the Nacimiento Water Project with a 4 inch pipeline. Development of the project would require installation of approximately 1,250 linear feet of 4-inch diameter pipeline adjacent to and under the Nacimiento River, and connection to the Nacimiento Water Project at the location of an existing air and vacuum valve through installation of a sub-surface vault. Pipeline installation would be completed through a combination of conventional trenching methods along the banks and horizontal directional drilling under the Nacimiento River. Project construction would require disturbance of approx. 0.25 acre over 1-2 months.	MND	03/30/2015

2015021088	Southwest Sewer Realignment Project Escondido, City of Escondido--San Diego Lift Stations 6, 9, and 11 would be eliminated, requiring replacement and new sewer pipelines along an approximately 3.4-mile alignment within the City and unincorporated San Diego County. The majority of the existing 8-inch pipeline along the alignment would be replaced with a new 12-inch pipeline, although a portion of the replacement alignment would include the placement of 8-inch pipeline flowing in the opposite direction near Lift Station 6.	MND	03/30/2015
2015021090	Owen Tank Replacement Project Los Angeles County --Los Angeles The proposed project involves removing the existing 100,000 gallon bolted steel Owen tank and replacing it with a new 500,000 gallon welded steel tank. The 100,000 gallon tank would remain operational during construction; however, the tank, along with any appurtenances and its concrete pad, would be demolished once construction of the new tank is complete. The proposed welded steel tank would be on a concrete slab foundation supported by approximately 30 cast-in-drill-hole piles. In addition, the project would add two approximately 564-gallon discharge surge tanks. During construction, no lane or road closures would take place, and parking of construction vehicles or placement of equipment would not be allowed on Tuna Canyon Road.	MND	03/30/2015
2015021091	Porter Estates (Trio Petroleum) Production Testing Project Monterey County --Monterey The project would include production testing (exploration) for oil and gas using an existing oil well (Bradley Minerals 2-2) located at 72327 Jolon Road, Bradley. The project does not include the drilling of new wells, and does not include long-term production. The proposed project is an exploratory effort to assist in determining whether oil is available in commercial quantities at the project location.	MND	03/30/2015
2015022088	Saratoga High School Sports Field Lighting Los Gatos-Saratoga Joint Union High School District Saratoga--Santa Clara The Los Gatos-Saratoga Union High School District proposes to install sports field lighting at the Saratoga High School softball field and adjacent multi-use field. 	drainage ditches (Olive Ditch and Railroad Ditch) with a pipeline and culvert to better convey storm flow during 25-year storm events. Additional project components include permanent green storm water source control measures, such as tree-box bio filters or equivalent bio-treatment facilities.		
2015022092	E. George to Cascade Shores Transmission Main Project Nevada Irrigation District Nevada City--Nevada The proposed Project consists of decommissioning the Cascade shores WTP, removing the Sargent & Jacobs Pump Station, and constructing a transmission main from the intersection of Starwood Lane and Banner Lava Cap Road to the existing Sargent & Jacobs tank site. The proposed pipeline would convey water from the E. George system to supply the residents of Cascade Shores. The pipeline would be approximately 16,200 linear feet and 12-inches in diameter. The pipeline route would follow Banner Lava Cap Road, Red Dog Road, Red Dog Cross, portions of the new Banner Cascade Pipeline from Oak Ridge Road to Banner Quaker Hill Road, Banner Quaker Hill Road in Cascade shores, and Sargent Jacobs Road to the existing Sargent & Jacobs tank site. This route is the preferred alternative as it follows already encumbered or disturbed areas. The pipeline would be constructed within the existing road and roadway shoulder and include air release valves, blow-off valves, fire hydrants, and metered service assemblies.	MND	03/30/2015
2015022093	Santa Clara County Ground Mount Solar PV Project Santa Clara County --Santa Clara The proposed project consists of construction and operation of ground-mounted (photovoltaic) PV arrays with an electrical generation capacity of up to 11.4 megawatts along with associated infrastructure at six locations across central and south Santa Clara County. SunPower Corporation will be the vendor and operator under contract to the County. Figure 1 shows the locations. The development footprints would total approximately 32 acres, including perimeter fencing, access roads, and equipment pads. Interconnection to the electricity grid would generally be through underground conduits.	MND	03/30/2015
2015022094	San Leandro Creek Vegetation Management Plan Alameda County San Leandro--Alameda The San Leandro Creek Vegetation Management Plan provides guidance to design and implement specific management actions to be employed by the District on a long term basis to ensure a sustainable and healthy riparian corridor consistent with District flood control objectives and operations. The specific management actions will assist the District in meeting multiple vegetation management goals on District-owned properties in Zone 13 along San Leandro Creek. These properties are located in the city of San Leandro between the Union Pacific Railroad tracks (downstream end) and the 580 Freeway crossing (upstream end).	MND	03/30/2015

	units, a 1.07-acre parcel for future development of approximately 6,000 sf of commercial uses, a 0.60-acre stormwater detention basin, two open space parcels totaling 0.87 acres, and 3.13 acres of public road right-of-way. The project site will be divided into two villages: Gold Village East and Gold Village West divided by the planned Foothill Boulevard extension.		
2015032005	Lower Miller Creek Channel Maintenance Project Las Gallinas Valley Sanitary District San Rafael--Marin The Las Gallinas Valley Sanitary District proposes to remove sediment that is partially blocking existing outfalls and improve flood flow conveyance in the Lower Miller Creek channel on their property. The channel work would occur over approximately 2,655 feet of Lower Miller Creek located adjacent to the LGVSD Treatment Plant. The design objective of the project is to implement an integrated channel maintenance and flood and sediment management plan that protects existing facilities from stream and costal flood hazards. The plan should minimize costs and ecological impacts of future anticipated and designed maintenance activities required under LGVSD operations.	MND	04/01/2015
2014032087	Martis Valley West Parcel Specific Plan Project Placer County --Placer, Nevada The project consists of a Specific Plan for 7,428 acres; the Specific Plan area consists of the East and West Parcels. The West Parcel is adjacent to the Northstar Resort, west of SR 267. The East Parcel is located east of SR 267; 670 acres of which are currently zoned residential and commercial. The project would shift 760 units and 6.6 acres of commercial from the East Parcel to 662 acres of the West Parcel. The remaining 390 acres on the West Parcel would remain designated Forest. The 670 acres of the East Parcel currently zoned for development would be redesignated Forest and no development would occur on the East Parcel.	NOP	03/30/2015
2015021087	General Plan Housing Element Update 2015 Solvang, City of Solvang--Santa Barbara The project is an update to the City's General Plan Housing Element. The Housing Element Update has been prepared by the City of Solvang to comply with the legal mandate that requires each local government to adequately plan to meet the existing and projected housing needs of all economic segments of the community. The updated Housing Element is a policy document. It implements the different types of single-family, multi-family, and mixed use developments that are envisioned by the Land Use Element. The proposed Housing Element provides policies, programs, and an implementation plan to enable the City to meet its regional housing needs by 2023. As such, the updated Housing Element would not result in any additional physical or environmental impacts beyond those evaluated as part of the review of the Land Use Element.	Neg	03/30/2015
2015022091	General Plan, Housing Element Update - IS/ND February 2015 South San Francisco, City of South San Francisco--San Mateo The proposed project is a general plan amendment to update the Housing Element of the City of South San Francisco. 2015022095	PA-1500007 (DV) San Joaquin County Tracy--San Joaquin A Deviation application to increase the maximum height requirement for a single family residence from the permitted height of 35 feet to 38 feet in the AG-40 zone.	Neg	03/30/2015
1999081121	Inland Rail Trail Bikeway San Diego Association of Governments -- The project is the construction of a 7 mile long paved bikeway located within the North County Transit District railway right of way.	NOD	
2003031121	Riverside Corona Feeder Realignment Western Municipal Water District Colton, Corona, Grand Terrace, Highland, Riverside, ...--Riverside, San Bernardino The La Sierra/Reach G component of the Project consists of a new pump station, wells, and pipeline that will tie into the Chino Desalter Phase III Expansion Project (see SCH No. 2010101061) to facilitate the connection of District facilities.	NOD	
2009092024	Pinole-Hercules Water Pollution Control Plant Improvement Project Pinole, City of Pinole, Hercules--Contra Costa The Pinole-Hercules WPCP Improvement Project EIR, which evaluated two project options for improvements to the WPCP, was certified by the City of Pinole in July of 2010. Since that time, the cities of Pinole and Hercules have prepared preliminary designs to identify the treatment and conveyance upgrades needed at the WPCP. The preliminary designs are much like the Option 1 design, which was fully evaluated in the 2010 EIR, with a few key exceptions. The primary exception is that the previously proposed parallel 24-inch force main from the Pinole-Hercules WPCP to the Rodeo Sanitary District (RSD) Deep Water Outfall is no longer included in the project design. Rather than discharge all effluent to RSD's Deep Water Outfall, as originally proposed under Option 1, the Pinole-Hercules WPCP will now discharge up to 14 million gallons per day (MGD) of treated effluent via the Deep Water Outfall, and up to 6 MGD of treated effluent via the WPCP's Emergency Outfall only during periods when influent flows exceed 14 MGD (i.e., discharge capacity of the Deep Water Outfall). Proposed WPCP improvements include but are not limited to a new influent pump station and headworks facility south of the existing Plant structures, but within the existing developed footprint of the overall WPCP site. In addition, the project includes a new Solids Handling Facility near the existing cogeneration facility; replacement of the primary sludge pumps; expansion of existing aeration basins; and installation of two new secondary clarifiers (65 feet in diameter).	NOD	
2010101061	Chino Desalter Phase 3 Expansion Project Chino Basin Municipal Water District Claremont, Pomona--San Bernardino The Chino desalter expansion component of the Project consists of constructing up to six new wells, pipelines to deliver the raw water to the Chino I and II Desalters, up to four pump stations, and the expansion of treatment facilities at the Chino II Desalter to treat the additional raw water. The Project consists of an expansion of groundwater extraction and treatment in the southern portion of the Chino Basin, from an existing 27,000 acre-feet annually, to approximately 40,000	NOD

2015028411	Temporary Emergency Permit for Treatment of Hazardous Waste, Gilead Sciences, Inc. Toxic Substances Control, Department of Fremont--Alameda The California Department of Toxic Substances Control (DTSC) has issued an emergency permit to the Gilead Sciences, Inc. (Gilead) to treat hazardous waste by chemical stabilization. The items are expired and currently being stored at the Gilead facility. It has been determined that the materials may be unstable and should be chemically stabilized as a safety precaution prior to transportation off site by Clean Harbors Environmental Services (CHES).	NOE	
2015028412	O'Neill Forebay Boat Ramp Installation Water Resources, Department of --Merced Harvesting pond weed is an essential annual maintenance activity within the O'Neil Forebay. Accumulated pond weed can cause major operational disruption for the Department of Water Resources (DWR). Specifically, pond weed accumulates in and around submerged trash drains at Gianelli Pumping Plant, and various turnouts along the aqueduct, impeding the flow of water transferred between the San Luis Reservoir and the O'Neill Forebay. It is necessary to remove or harvest the accumulated pond weed to maintain normal operations.	NOE	
2015028413	Harvest Church Accessory Building (EG-14-035) Elk Grove, City of Elk Grove--Sacramento Minor Design Review for construction of a 2,400 square foot steel accessory building on an existing church site for storage and warehousing space.	NOE
