**SUMMARY  
OF  
POSTINGS**  
(Formerly SCH NEWSLETTER)

**February 16 – 29, 2012**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 16 – 29, 2012**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The 2011 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

<b><u>Documents Received on Thursday, February 16, 2012</u></b>			
2011022057	<p>389 El Camino Real Project Menlo Park, City of Menlo Park--San Mateo</p> <p>The applicant proposes to demolish the existing single-family house at 612 Partridge Avenue and residential triplex at 603-607 College Avenue and construct 26 residential units and associated site improvements on the subject parcels in the C-4(ECR) (General Commercial Applicable to El Camino Real) and R-3 (Apartment) zoning districts. The applicant includes the following requests:</p> <ol style="list-style-type: none"> <li>1. Use Permit. A use permit to construct three or more residential units in the R-3 zoning district, and to construct residential units and increase the floor area ratio (FAR) from 55 percent to 75 percent in the C-4(ECR) zoning district.</li> <li>2. Architectural Control. Design review for the proposed residential buildings and site improvements.</li> <li>3. Major Subdivision. Tentative Map for seven existing legal lots to be merged into two lots; the public street easement for Alto Lane would be abandoned; and 26 residential condominium units would be created.</li> <li>4. Below Market Rate Housing Agreement. A Below Market Rate (BMR) Housing Agreement to provide for the development of three on-site low-income BMR units in accordance with the City's BMR Program and the provisions of Government Code Section 65915, the State Density Bonus Law.</li> <li>5. Environmental Review. The project would be analyzed for potential environmental impacts in the focused EIR.</li> </ol>	EIR	04/02/2012
2011101046	<p>Salem Lutheran Church and School Specific Plan Orange, City of Orange--Orange</p> <p>Note: Extended Review per lead</p> <p>The Salem Specific Plan provides for a redesign of the church and school campus with a new approximately 12,350 s.f. worship center that includes a sanctuary, conference and meeting rooms, and administrative offices. The existing, onsite preschool will be relocated to an existing onsite vacant structure. Existing onsite infrastructure related to storm water and water quality management and improved vehicle circulation and parking design to improve the flow of traffic entering and exiting the site are also part of the redesign. All of the existing uses and proposed improvements conform to the "Public/Quasi-public" designation for the site as specified in the OPA Plan, which serves to implement the City of Orange's Land Use Element of its General Plan for the portion of the City located within the OPA Plan boundary. No new uses are proposed.</p>	EIR	04/23/2012
2011062031	<p>Sustainability Element and Climate Action Plan Elk Grove, City of Elk Grove--Sacramento</p> <p>NOTE: 1 Hardcopy</p> <p>The project would:</p> <ol style="list-style-type: none"> <li>1) Adopt the sustainability Element of the General Plan, as a General Plan amendment.</li> <li>2) Adopt the Climate Action Plan.</li> </ol>	FIN

	3) Provide a mechanism for subsequent projects to streamline analysis of cumulative impacts associated with greenhouse gases, as allowed by Section 1518.5 of the CEQA Guidelines.		
2009022013	328 Roebeling Road (Britannia Modular Labs 3) South San Francisco, City of South San Francisco--San Mateo NOTE: Recirculated Per Lead	<b>MND</b>	03/16/2012
	The Project proposes the removal of 3 existing office/warehouse buildings containing 79,501 square feet total on an approximately 3 acre site at 328 Roebeling Road, and the construction in their place of two 2-story office/R&D building each containing 52,768 square feet (105,536 square feet total) of office/laboratory space over a basement garage. This document is being recirculated because of substantial changes in the traffic conditions and therefore traffic analysis and to include analysis of greenhouse gas emission. Other updates have also been made since the document was last circulated in 2009, including incorporation of minor revisions to the project description resulting in reduced parking and balconies instead of patios.		
2012021034	Special Use Permit No. 09-038 (CC & J Leasing, c/o Justin Alexander) Tulare County --Tulare Special Use Permit to allow an agricultural service establishment for agricultural trucking and the storage of equipment and trailers utilized for hauling of agricultural products, on a ~10-acre portion of a 48.45-acre site.	<b>MND</b>	03/16/2012
2012022044	Brian Arden Winery Calistoga, City of Calistoga--Napa The project includes the development of a 10,000 case winery (approximately 24,000 gallons) consisting of 2 buildings connected by a sky-light covered crush pad.	<b>MND</b>	03/16/2012
2012022045	Carlmont High School Usher Field Lights Project Sequoia Union High School District Belmont--San Mateo The Sequoia Union High School District plans to construct and install permanent field lights, a permanent field PA system, a 456-seat bleacher seating system, associated utility improvements and, potentially, an approximately 40-75 vehicle parking lot at the Carlmont High School (CHS) campus at 1400 Alameda de las Pulgas, Belmont, in San Mateo County. All facilities would be located entirely on CHS campus grounds, in and adjacent to CHS's football field. The four light poles would have a total of 46, 1.5 kilowatt lamps and produce 50 foot-candles of light on the field. The amount of land that could be temporarily disturbed and permanently occupied by the project would be approximately 1.7 and 0.92 acres, respectively.	<b>MND</b>	03/16/2012
1995052002	West Gate Specific Plan Fontana, City of Fontana--San Bernardino Note: Reference SCH# 1991062014	<b>NOP</b>	03/16/2012

The Westgate Specific Plan is comprised of four villages, all of the land uses

	within which are incorporated into 83 development areas, designated as "Planning Areas" (PAs). Altogether, these PAs include a total of 5,391 residential units, 52.1 acres of Commercial Retail, 140.9 acres of Business Park, 69.7 acres of Business Park/Public Facilities, 43.7 acres of Open Space/Public Parks, 12.85 acres of Open Space/Private Parks, 1.4 acres of Open Space/Landscape, 89.8 acres of Open Space/Utility Corridor, 24 acres for an Elementary School, 60 acres for a High School, and 102.85 acres of major street right-of-way.		
2012021039	EIR 11-02 - Quarry Creek Master Plan EIR Carlsbad, City of Carlsbad--San Diego The Quarry Creek Master Plan project consists of a 656 unit residential development on a 156 acre site which is divided by the Buena Vista creek valley. High density residential (306 units at 20 units per acre minimum density) is proposed on the northerly side of Buena Vista creek and residential medium to medium high density (200 units at 12 units per acre minimum) is proposed on the southerly side of the creek.	<b>NOP</b>	03/19/2012
2012022046	Pacifica General Plan and Local Coastal Plan Update Pacifica, City of Pacifica--San Mateo The City of Pacifica has initiated a comprehensive update of its General Plan and Local Coastal Plan, which is an opportunity for community members to explore long-term goals and development for the City. The State of California requires every city and county to have a comprehensive General Plan, which identifies future needs in areas including land use, transportation, open space and conservation, public services, and environmental quality. Jurisdictions with land in the Coastal Zone also must have a Local Coastal Program, including a Local Coastal Land Use Plan, that reflects both the unique characteristics and goals of the City and the statewide goals of the Coastal Act. The purpose of this project is to update the General Plan and Local Coastal Plan to guide development through the year 2030.	<b>NOP</b>	03/16/2012
2012021033	Nolan Tentative Parcel Map Santa Barbara County --Santa Barbara The existing parcel contains a 1,050 s.f. single family dwelling and two agricultural structures totaling approximately 3,000 s.f. Upon approval of the lot split, the single family dwelling and the agricultural structures will be located on Proposed Parcel 1. Proposed Parcel 2 will be vacant. As such the applicant has provided exclusionary areas on the site plan which depicts areas where no structural development shall occur.	<b>Neg</b>	03/16/2012
2002022027	South Stockton 6-Lane Caltrans #6 Stockton--San Joaquin The 111-acre State Route 99 South Stockton 6-Lane Project consists of rehabilitating and widening a 3.6 mile section of State Route 99 between Post Miles 15.0 to 18.6, including the modification and/or replacement of bridges and culverts and seven locations (Duck Creek Bridge at State Route 99, Duck Creek Bridge at Marioposa Road, Duck Creek Bridge for the N/B offramp at new interchange, Munford Avenue Bridge east of State Route 99, Branch Creek,	<b>NOD</b>

	Mormon Slough Bridge at State Route 99, and Mormon Slough Bridge on Golden Gate Avenue).		
2003031121	Riverside Corona Feeder Realignment Western Municipal Water District Colton, Corona, Grand Terrace, Highland, Riverside, ...--Riverside, San Bernardino The proposed project includes a large capacity water pipeline, and related facilities associated with aquifer storage and recovery. The pipeline is approximately 28 miles long and ranges up to 78 inches in diameter. Up to a total of 20 new and existing groundwater wells may be installed/ utilized within the Basin Area in San Bernardino County. Existing recharge basins will be used to spread imported water in the San Bernardino Groundwater Basin. The completed project is to be located primarily underground within existing road right-of-way.	<b>NOD</b>	
2007072024	Sacramento 2030 General Plan Master EIR Sacramento, City of Sacramento--Sacramento The project is the adoption of the Climate Action Plan (CAP), a document that provides an organized framework of goals, strategies, and implementation measures intended to reduce community-wide greenhouse gas (GHG) emissions in a manner consistent with AB 32. The CAP builds upon and supports the goals, policies, and implementation measures of the 2030 General Plan through definition of specific implementation mechanisms such as roles and responsibilities of City departments and partnerships with other agencies, funding sources, and timing. The CAP provides general background information about climate change, current and future (business-as-usual) GHG emissions from sources located within the City, the anticipated effects of State and federal legislation on future GHG emissions within the City, as well as an analysis of the potential effects of climate change on the City.	<b>NOD</b>	
2009101046	Jackson Avenue Extension Project Murrieta, City of Temecula--Riverside CDFG is executing a Streambed Alteration Agreement (SAA # 1600-2009-0116-R6 [Revision 3]) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: City of Murrieta, represented by Jeff Hitch, 1 Town Square, 24601 Jefferson Avenue, Murrieta, California 92562. The Project is limited to road improvement along Jackson Avenue from 680 feet south of the intersection with Megellan Street in the City of Murrieta, south to the current terminus of Ynez Road in the City of Temecula. The project includes the construction of a 195-foot long cast-in-place arch culvert bridge structure over Warm Springs Creek.	<b>NOD</b>	
2011042021	Sandstone Creek Curve Correction Caltrans #6 --San Joaquin The proposed project will realign the two existing curves and replace the Sandstone Creek Bridge with a triple box culvert along State Route 26 from post mile 18.5 to post mile 19.0 in San Joaquin County. A temporary detour will be provided as part of this project for constructability reasons. The curve realignment will include the construction of new embankments with standard side sloped and will require the relocation of one Pacific Gas & Electric power pole. Drainage ditches and thee reinforced concrete pipe culverts along with rock slope protection	<b>NOD</b>

	best renewal offer was \$4.33 per sq/ft. That offer represented an increase of \$1.65 per sq/ft. Relocation is the prudent choice for OSPD.		
2012028225	Cottonwood Creek Repair Caltrans #6 --Tulare The proposed project would construct bank stabilization with rock slope protection of Cottonwood Creek, which sustained erosion to the creek bank and highway shoulder during high flow events.	<b>NOE</b>	
2012028226	Commencement Green Pad Project University of California, Santa Barbara Santa Barbara--Santa Barbara The University proposes to install a 3,200 square-foot (40 by 80-foot), 10-inch thick pad with compacted virgin class II base with headerboard flush to existing grade at "Commencement Green" to accommodate installation of a temporary wood and settle stage for two annual events: Commencement and Convocation.	<b>NOE</b>	
2012028227	Low-Floor Light Rail Vehicle Traction Power Substation at 65th Street San Diego Association of Governments San Diego--San Diego The project is part of a larger rehabilitation program on the trolley system to provide Low-Floor Light Rail Vehicle access on the Blue Line between Old Town and San Transit Centers, and the Orange Line between 12th & Imperial Avenue Transit Center and Santee Town Center. The project proposes construction of a new traction power substation to establish the power requirements for low-floor vehicle service. The use of low-floor vehicles would improve passenger loading, including wheelchairs, from the platform. Development of the 65th Street substation will require property acquisition. The subject property is under current ownership by private owner and will require partial or full acquisition to construct the project.	<b>NOE</b>	
2012028228	Cortina #3 60 k V Pole Replace Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Colusa The Pacific Gas and Electric Company proposes to replace seven wooden poles of the Cortina #3 30 kV Transmission Line with new light duty steel (LDS) poles, which will range in height from approximately 65 to 70 feet and will be approximately 15 to 25 inches in diameter. The new LDS poles will use an avian-safe design to protect raptors and other birds from being electrocuted. Approximately 21 cubic yards of steel and gravel will be place into 0.008 acre of waters of the United States, permanently impact 0.008 acre and temporarily impact 0.214 acre of jurisdictional wetlands.	<b>NOE</b>

1995033021	bound directions in the center median of I-10 from Puente Avenue to SR 57.  Grady Ranch Precise Development Plan Draft Supplement to the 1996 Grady Ranch/Big Rock Ranch Master Plan Marin County San Rafael--Marin Note: FYI FINAL	<b>FIN</b>	
	<p>The project is the proposed Grady Ranch development phase to be implemented consistent with the Big Rock Ranch/Grady Ranch Master Precise Development Plan and Use Permit that the Marin County Board of Supervisors approved in 1996 after certifying the 1996 Master Plan FEIR. The Grady Ranch project is a proposal to construct an approximately 270,000 s.f. digital technology-based film production studio with administrative offices for a maximum of 340 employees, and a detached 900 s.f. gate house. The film production facility would contain administration offices, one outdoor stage, and two indoor stages with appurtenant film production facilities. Guest suites (20), a cafeteria, and general store are proposed for employees with parking in a basement garage.</p>		
2007071076	El Casco System Project Public Utilities Commission Banning, Beaumont, Calimesa--Riverside, San Bernardino NOTE: 1 CD	<b>FIN</b>	
	<p>The approved Project includes construction of the new El Casco Substation, upgrading of the existing Zanja and Banning Substations and SCE's Mill Creek Communications Site, upgrading a total of 15.4 miles of 115 kV electric subtransmission line and associated structures, and installation of fiber optic communication cables. The Supplemental Draft EIR for the Project has been prepared to inform the public of changes to the approved Project and the associated environmental impacts resulting from new design information provided by SCE for Segments 2 and 4 of the 115 kV subtransmission line. Segment 2 begins just west of South Highland Home Road and continues east to a point just west of South San Gorgonio Avenue/Highway 243. Segment 4 begins just east of Bolo Court/Westward Avenue and continues east to just west of Highland Springs Avenue.</p>		
2008032110	Channel Rehabilitation and Sediment Management for Remaining Phase 1 and Phase 2 Sites Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity Note: EA/IS	<b>JD</b>	03/19/2012
	<p>The construction activities described in the Lower Steiner Flat and Upper Junction City EA/IS would create additional fish and wildlife habitat at a number of discrete locations within two separate work areas on the Trinity River. Work to be performed includes removal and replanting of vegetation. Earthwork in the floodplain includes excavation of low-flow side channels, recontouring of bank and floodplain features, and creation of wetlands. In-river work includes construction of skeletal bars and island/island complexes as well as creation of wood and rock hydraulic features. The work at Lower Steiner Flat and Upper Junction City is considered to be within the scope of the Master EIR for channel rehabilitation and sediment management for remaining phase 1 and phase 2 sites = SCH #2008032110.</p>

2003041058	MDS Development Tentative Map San Diego County --San Diego <p>The project proposes to develop 27 residential lots, ranging in size from 2.0 net acres to 9.1 net acres. The project will construct three onsite private roads: Tiffany Real, Jewel Place and Karat Lane. Additional offsite road improvements to Tiffany Real will provide the main access route to Black Canyon Road. A gated exit-only egress at the south end of Karat Lane is proposed to connect to Lapis Lane and thence to Ramona Real and Black Canyon Road. The project will have imported water supplied by the Ramona Municipal Water District, and fire service by the Ramona Fire Department/CDF. Proposed onsite open space easements would total 14.63 acres and contain 0.66 acres of Coast Live Oak Riparian Forest and 4.86 acres of Diegan Coastal Sage Scrub habitat.</p>	<b>MND</b>	03/19/2012
2012021037	Little Lake MDP Line B, Stages 1 and 2 Riverside County Flood Control and Water Conservation Hemet--Riverside <p>The Project entails the construction and subsequent maintenance of an underground storm drain system and appurtenances within existing streets and Riverside County Flood Control and Water Conservation District right-of-way. The Project consists of a reinforced concrete box (RCB) reinforced concrete pipes (RCP), and re-construction of approximately 200 lineal feet of the District's existing concrete lined trapezoidal Meridian Street Channel. The Project will begin near the intersection of Southhampton Court and Meridian Street and continue south within Park Avenue/Meridian Street for approximately 8,700 lineal feet to Whittier Avenue.</p>	<b>MND</b>	03/19/2012
2012022049	Mindego Gateway Project Midpeninsula Regional Open Space District --San Mateo <p>The proposed project includes the development of an approximately 1.75-acre staging area and commemorative site, two new trails totaling approximately 2.2 miles in length, and associated improvements. The project would also close a 1-mile stretch of the existing multi-use Mindego Ridge Trail to bicycle use to protect the federally-endangered San Francisco garter snake. The staging area would include parking for 20 vehicles, an unpaved special event parking area, trailhead, and restroom. The commemorative site would consist of an ADA-compliant pathway, an accessible view platform, and a second painting/viewing platform, both providing views of Mindego Hill and the Pacific Ocean. The new "Ancient Oaks Connector Trail" would be constructed to link the staging area to an existing trail network to the north, and the new "Mindego Hill Trail" would connect the existing Mindego Ridge Trail to the summit of Mindego Hill.</p>	<b>MND</b>	03/19/2012
2012022050	Beechcraft Road Extension Grading and Erosion Repair Vacaville, City of Vacaville--Solano <p>The proposed project consists of grading and erosion control activities on a 6.26-acre site located just south of the terminus of Beechcraft Road at Cessna Drive in the Vacaville-Golden Hills Business Park Policy Plan. Included as part of the Business Park, the site was mass graded in the early 1990s. With this initial grading, the area had positive drainage to Horse Creek. Over the years, the man-made ditches and rough graded areas have been affected by erosion. In</p>	<b>MND</b>	03/21/2012

	addition, two (2) gullies have formed on the site. The project will eliminate these erosion features and bring the surface grading and drainage back to its original intended design, including restoring positive drainage throughout the site. The project is anticipated to take approximately two to three weeks. No physical development is proposed with this project.		
2012022052	Asian Clam Control Project Parks and Recreation, Department of South Lake Tahoe--El Dorado The intent of the proposed project is to treat a relatively sparse and discrete population of Asian clams in Emerald Bay, Lake Tahoe, before the population spreads by covering the infestation with benthic barriers to create anoxic conditions in order to kill the clams and by supplementing barrier treatment with additional methods such as suction removal, potentially freezing clams in place, supplementing barriers with biomass to increase biological oxygen demand, or other methods.	<b>MND</b>	03/21/2012
2012021036	Proposed Citywide Plastic Bag Use Reduction Ordinance Solana Beach, City of Solana Beach--San Diego Proposed municipal ordinance which would (1) reduce point-of-sale distribution and use of single-use plastic bags by businesses in the City of Solana Beach; (2) discourage the use of paper bags at the point-of-sale by requiring that retail businesses charge a ten cent fee per paper bag; and (3) encourage the use of reusable bags by retail shoppers.	<b>Neg</b>	03/19/2012
2012022047	Alta Mira Public Access Acquisition Project Tahoe Conservancy South Lake Tahoe--El Dorado Note: Shorten Review  The proposed action allows the CA Tahoe Conservancy to purchase an 18-month option for property acquisition of 3339 Lake Tahoe Boulevard in South Lake Tahoe, the Alta Mira Building. If the option is exercised in the future, the option agreement requires the demolition of the existing 5,400 s.f. structure by the current property owner prior to the close of escrow. Consequently, the exercise of the option and building demolition are treated in the IS as reasonably foreseeable future activities.	<b>Neg</b>	03/07/2012
2012022048	Reata Winery Use Permit Modification Napa County American Canyon--Napa Approval of a Use Permit Modification #P10-00188 to Use Permits #U-97040 and #P11-00288MOD which allow for production of 200,000 gallons within a 52,365 s.f. facility with a current visitation not to exceed 600 per day and 2,000 people per week and 72 marketing events per year with an average of 25 guests, with the largest up to 200 guests.	<b>Neg</b>	03/19/2012
2000102055	Stream Maintenance Program Update 2012-2022 Santa Clara Valley Water District Milpitas, Cupertino, Gilroy, Los Altos, San Jose, ...--Santa Clara The Santa Clara Valley Water District's Stream Maintenance Program (SMP) is an ongoing program that guides routine maintenance activities in County flood control channels, creeks, and canals. Primary maintenance activities include sediment removal, vegetation management, bank stabilization, management of animal	<b>NOD</b>

	conflicts, and minor maintenance activities on District property and easement in flood control channels, streams, canals, levees and adjacent property. The program forecasts and manages maintenance work, tracks costs, monitors environmental conditions, and provides habitat mitigation.		
2004081151	Lower Reach River Supply Conduit Project Los Angeles County Burbank--Los Angeles The LADWP proposes to construct a new Lower Ranch River Supply Conduit pipeline to replace the Lower Reach of the existing RSC pipeline in a new alignment. The existing RSC, a potable water pipeline, has provided over 50 years of continuous service to the City of Los Angeles, but its reliability and capacity are near its design life limits. The proposed new Lower Reach RSC will provide for a more reliable supply of water to the central area of Los Angeles; provide for a larger flow capacity to adequately meet the current requirements and future needs of the City of Los Angeles; provide for higher water pressure to meet CA Dept. of Health Services Drinking Water Requirements; and compensate for loss of water storage within LADWP water distribution system. The proposed project would involve the construction of approximately 37,400 linear feet (about 7.1 miles including two branch lines).	<b>NOD</b>	
2005102102	Calaveras Dam Replacement Project San Francisco, City and County of Fremont, Milpitas--Alameda, Santa Clara The Calaveras Dam Replacement Project (CDRP) includes the replacement of the existing Calaveras dam with a new earth and rock-fill dam that will accommodate a public water supply reservoir of the same size as the original 1920s plans (96,850 Acre Feet) in order to meet Division of Safety of Dams (DSOD) requirements. When the replacement dam is completed, DSOD restrictions will be lifted and the original reservoir pool will be restored to the normal maximum water surface elevation of 756 feet. Construction will take approximately 4 years.	<b>NOD</b>	
2009121019	Ramona Satellite Clinic and Medical Office Building Palomar Pomerado Health --San Diego Development of a one-story approximately 7,600 SF building to provide urgent care, outpatient care, and medical office uses on an undeveloped 0.91-acre site (infill development). The project is needed to serve the growing healthcare needs of the Ramona community. The project includes access improvements via one driveway off 13th Street, on site surface parking spaces, bicycle parking, landscape, hardscape and utilities improvements. PPH intends to receive a Leadership in Energy and Environmental Design (LEED) certification for the facility.	<b>NOD</b>	
2011011060	Individual Exception to the California Ocean Plan, Monterey Bay Aquarium State Water Resources Control Board Monterey--Monterey Note: Extended Review  Monterey Bay Aquarium seeks an exception from the California Ocean Plan's prohibition on discharges into Areas of Special Biological Significance (ASBS). The exception with conditions, if approved, would allow their continued waste seawater and storm water discharges into the Pacific Grove ASBS.	<b>NOD</b>

<b><u>Documents Received on Tuesday, February 21, 2012</u></b>			
2012021041	Kern Water Bank Conservation and Storage Project Kern Water Bank Authority Bakersfield--Kern The Kern Water Bank Authority (KWBA) is a Joint Powers Authority formed in October 1995. The KWBA is a public agency that includes several water districts, a water agency, and a mutual water company as its members. The KWBA filed a water right application (Application 31676) in September 2007 with the State Water Resources Board to appropriate additional water from the Kern River when available. The appropriation of water from the Kern River would supplement the water received by the KWBA Participating Members from the SWP via the CA Aqueduct, the CVP via the Friant-Kern Canal, and directly from the Kern River through purchases and transfers.	<b>NOP</b>	03/21/2012
2012021040	Central Valley Transportation Project Reedley, City of Reedley--Fresno The Central Valley Transportation Project is a proposal to relocate and operate a new Central Valley Transportation Center. The new facility would consist of a transportation center from which the Kings Canyon Unified School District would maintain and operate a fleet of up to 110 buses and 35 fleet vehicles. To supplement the KCUSD facilities, the City of Reedley would also relocate its Public Works Department and associated vehicle maintenance yard to the project site. The proposed project would combine the current daily operations of the KCUSD transportation facilities and the City Public Works Department into one facility. The facility is proposed on approximately 36.62 acres, APN 370-240-13.	<b>Neg</b>	03/21/2012
2011051028	Starcrest Distribution Facility Perris, City of Perris--Riverside Note: Response to comments.  The proposed project consists of the expansion of an existing internet/mail-order fulfillment facility. The existing Starcrest building is ~232,215 sf. The expansion would include a 454,008 sf building. This new building would replace the 400 temporary trailer containers and provide for the relocation of all warehouse, picking, packing, and shipping operations from the existing facility. The existing building would then be utilized for business operations, storage, testing, and training areas. The 545,008 sf distribution facility would be adjacent and accessible to Starcrest's existing facility.	<b>Oth</b>	
2010091090	Western Municipal Water District Arlington Desalter Expansion Phase 2 Project Western Municipal Water District Riverside--Riverside In its ongoing efforts to improve the quality of groundwater in the Arlington Basin, increase the availability of potable water to the WMWD and to better manage groundwater levels in the Arlington Basin, the WMWD is proposing two basic project approaches (construction of extraction wells only or construction of extraction wells and recharge basins).  The Arlington Desalter is undergoing expansion of its treatment capacity to accommodate the increased demand for treatment capacity at the plant. The expansion includes an upgrade in the treatment process which will allow the Arlington Desalter to treat additional raw water while reducing the amount of brine	<b>NOD</b>

	(LUZ). The proposed project is to extend the term of the 1997 Agreement to December 31, 2035 and to increase the delivery amount to up to 4,800 acre-feet. The increased delivery amount will provide for the delivery of up to 1,800 acre-feet annually of MWA's Table A water to AVEK's turnout for subsequent delivery to the plant, and to provide for the delivery of up to 3,000 acre-feet of MWA's approved Table A water in AVEK's groundwater basin under AVEK's WSSP-2 Groundwater Recharge Project as a back-up water supply in the event of an outage on the State Water Project.		
2009112060	UC Davis Sacramento Campus Long Range Development Plan University of California, Regents of the Sacramento--Sacramento UC Davis proposes to remodel 9,531 gross square foot (gsf) of existing shell space within the Institute for the Regenerative Cures building on the UC Davis Sacramento campus to create the RGT at UC Davis Joint Genomics Center. The physical improvements to the building include finishing of existing shelled space to provide the necessary laboratory and support space for the proposed research efforts, in addition to laboratory space, the project will provide administrative support space, laboratory support space for materials handling, computer support space, and finishing for internal circulate spaces (laboratory corridors and public corridors).	<b>NOD</b>	
2010081010	Waste Management Material Recovery Facility, Transfer Station, and Household Hazardous Waste Facility Azusa, City of Azusa--Los Angeles Pursuant to Ordinance No. 11-016 Approving Amendments to Chapter 88 - Development Code of the City of Azusa Municipal Code, the City Council voted to rescind Variance V 2010-04 (Resolution No. 11-C56) previously adopted for the Project. The City Council also voted to Readopt Resolution No. 11-C51 (Use Permit 2009-01) for the Project and to readopt the previously approved reduction in parking through Variance V2012-01 pursuant to the amended Code. The Project itself was previously approved by the City Council on July 5, 2011 and consists of a Material Recovery Facility and Transfer Facility, which would include a fully enclosed, negative-pressure, LEED certified structure within which the applicant will receive, sort and process all municipal solid waste, recyclables and green waste. Any recyclable materials received would be sorted by type, baled and set off to be sold, while all green waste would be separately sorted, cleaned, sized and loaded into transfer trucks to be sent to other sites for use as composting, soil amendments, feedstock for anaerobic digestion or used as daily landfill cover. All remaining municipal solid waste would be loaded onto transfer trucks and sent offsite, to a solid waste landfill. The actions taken by the City Council on February 21, 2012 did not modify or amend the Project in any way.	<b>NOD</b>	
2011092035	Snow Creek SEZ Restoration Project Placer County --Placer Project components include site grading; installation of storm water treatment facilities; construction of a sidewalk along National Avenue; SEZ and wetlands revegetation and restoration; uplands revegetation and restoration; bicycle and pedestrian trail construction. Project will produce approximately 1.1 acres or restored SEZ and 2 acres of restored uplands.	<b>NOD</b>

	period, the existing MP-I plant would be removed from the site and the location converted to a gravel equipment storage area. No new offices or other structures would be included in the project with the exception of a small substation to be placed on the north side of the new M-1 plant. No change to existing geothermal resource utilization at the site would result from the project.		
2012022058	Site Approval Application for Commercial Market with Gas Station San Joaquin County Stockton--San Joaquin Site approval application to construct a convenience store and gas station facility. The project includes the construction of a 3,900 s.f. convenience store, a 3,456 s.f. canopy and underground fuel tanks.	<b>MND</b>	03/26/2012
2012021054	Cambria Water Supply Project Cambria Community Services District Cambria--San Luis Obispo The proposed project is to provide for a reliable water supply for the community of Cambria in San Luis Obispo County. The relatively remote location of Cambria has resulted in the area relying solely upon local groundwater for its current water supply. The water supplies to be considered for the proposed project include seawater desalination, local and imported surface water, groundwater, hard rock drilling, and seasonal reservoir storage.	<b>NOP</b>	03/26/2012
2012012058	UP-97-0016 (Revision of Approved Actions) San Joaquin County Lodi--San Joaquin A revision of approved actions application to revise phasing approval from five years to twelve years for a use permit application to expand an existing large winery. The winery will also upgrade the management operations of treated processed waste water for agricultural crop production.	<b>Neg</b>	03/26/2012
2012021053	Avenue L Widening Lancaster, City of Lancaster--Los Angeles The proposed project is to widen Avenue L between 15th Street West and 30th Street West and close the mixed flow lane gaps to bring the major arterial segment to three continuous lanes in each direction improving capacity. The project will also provide continuous pedestrian access and bike lanes to improve the safety and efficiency of the corridor. The project will construct center medians to reduce cut through traffic and to help beautify the alignment with stamped concrete and landscaping. Right of way acquisition will be required but is assumed to be provided to the City by developers at minimal cost to the City. Proposed widening will include encroachment onto disturbed unpaved shoulders and disturbed undeveloped lots. Grading activities will be required to bring existing grade down to the proposed street level.	<b>Neg</b>	03/26/2012
2012022060	Zoning Text Amendment for the Timberland Production Zone (TPZ) (PGPA 20110398) Placer County --Placer The project proposes approval of a Zoning Text Amendment to allow for the orderly development and implementation of "ski lift facilities and ski runs" within Timberland Production Zone (TPZ) lands within existing ski resort boundaries (approximately defined by land ownership, trail maps, and US Forest Service	<b>Neg</b>	03/26/2012

	permit boundaries) within Placer County.		
2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange The City is preparing a Supplemental EIR to the Opportunities Study Area (OSA) Program EIR, which was certified in July 2008. Shea/Baker Ranch Associates, LLC (SBRA) seeks City approval for an Area Plan (AP 2-11-1732) and Tentative Tract Map 16466 for a residential and mixed-use development on a 386.7 acre site within the City of Lake Forest, Orange County, CA. Development would include up to 1,638 for-sale homes (on approximately 308 acres with a density range from 2-7 dwelling units per acre to 25 dwelling units per acre) and mixed-use commercial/residential land uses (on approximately 50 acres with up to 25,000 s.f. of commercial and 741 low-medium to high density residential units, including some affordable housing units). The project would also include up to 100 acres of open space, of which 40 acres would be parks and recreational areas, and the improvement and revegetation of the Borrego Canyon Wash (along the length of the property).	<b>SIR</b>	04/09/2012
2007072104	Alta Robles Residential Development Tiburon, City of Tiburon--Marin NOTE: Final/1 Hard Copy  The project encompasses the subdivision and eventual development of 52.2 acres of land, currently developed with one dwelling, into 14 single-family residential lots. Street access would be provided from Paradise Drive via a private roadway. Approximately 20.95 acres of the site are located within an unincorporated portion of Marin County, within the Town of Tiburon's Sphere of influence, and approximately 31.25 acres of the site are located within the Town of Tiburon. The unincorporated portion would be rezoned for planned residential development. The project EIR analyzed impacts of the current applications as well as all trailing permits such as site planning and architectural approval for individual homes, building permits, encroachment permits, and so forth.	<b>NOD</b>	
2008021014	"Site D" Property Specific Plan Diamond Bar, City of --Los Angeles Adoption of a general plan amendment, zone change, specific plan, and development agreement authorizing the development of 200 dwelling units and a neighborhood park on a 30.4-acre multiple ownership and multiple parcel property, including real property disposition by the Walnut Valley Unified School District and City of Diamond Bar, issuance of related entitlements, and construction of associated infrastructure improvements.	<b>NOD</b>	
2008091021	Mid-City Rapid Bus San Diego Association of Governments San Diego--San Diego The Addendum to the Final MND for the Mid-City Rapid Bus Project addresses three modification to the Project; relocation of the El Cajon Boulevard at 43rd Street Bus Rapid Transit (BRT) Station (El Cajon/43rd Street Station) from the southeast corner of El Cajon Boulevard and Fairmount to the southwest corner of El Cajon Boulevard and 43rd Street; relocation of the El Cajon Boulevard at Euclid/47th Street Station (El Cajon/Euclid Avenue Station) from the originally	<b>NOD</b>

	of an additional vehicle entrance and entry kiosk to the existing Coastal Dunes Recreational Vehicle (RV) Park operated by San Luis Obispo County.		
2011081022	Outfall Land Section and Ocean Outfall Booster Pump Station Piping Rehabilitation Orange County Sanitation District Huntington Beach--Orange Note: FYI FINAL	<b>NOD</b>	
	The proposed project consists of inspection, condition assessment, and rehabilitation of corrosion damage components of the land section of the existing 120-inch diameter, primary five-mile outfall (Long Outfall) System within the Sanitation District's Treatment Plant 2 to a Beach Box located on Huntington State Beach. The five project elements for the Long Outfall System rehabilitation are: the Surge Tower 2, land section of Long Outfall, abandonment of metering ports and vaults, replacement of existing effluent flow meter and rehabilitation of Beach Box. To take a portion of the land side of the Long Outfall System out of service, two alternatives are considered, one to construct a bypass and continue use of the Long Outfall or divert flow to an 1-mile emergency outfall.		
2011111047	CHOC Children's Hospital - Helistop Orange, City of Orange--Orange The proposed project provides for the addition of a helistop the addition of the helistop located on CHOC Children's Hospital South Tower. The existing helistop on the CHOC Children's Hospital North Tower would be retained and commissioned as a secondary helistop to accommodate overflow.	<b>NOD</b>	
2011121001	Proposed 2012 Mobility Element Update Bishop, City of Bishop--Inyo The purpose of the City of Bishop update of the General Plan Mobility Element is to identify and analyze existing and projected transportation needs and opportunities for all travel modes, and to identify goals, policies and actions which the City intends to implement to address those needs.	<b>NOD</b>	
2012012033	Conditional Use Permit 1988-004, Amendment Glenn County Orland--Glenn The applicant has proposed an extension of the conditional use permit, which permits a drilling mud recycling/soil amendment operation known as the Fulton Reclamation Facility. A ten (10) year extension is requested.	<b>NOD</b>	
2012028263	Cogeneration Plant and Lighting Retrofits Project Corrections and Rehabilitation, Department of Avenal--Kings Pursuant to Energy Executive Order S-20-04 calling for a reduction in energy usage by 20 percent by year 2015 for all state facilities, CDCR is undertaking numerous energy saving projects. At Avenal State Prison (ASP), CDCR is currently proposing an energy efficiency project with two separate project components. These include: 1) retrofitting elements of the existing 2.6-megawatt gas turbine cogeneration system; and 2) retrofitting a portion of the existing exterior pole lighting.	<b>NOE</b>	

## CEQA Daily Log

<b><u>Documents Received on Friday, February 24, 2012</u></b>			
	The first project component consists of the installation of an automation system, and redesign of the operating sequence and logic that controls this system.		
	The second project component consists of retrofits to a portion of the exterior lighting system at ASP.		
2012028264	Water Treatment Plant Improvements Project Corrections and Rehabilitation, Department of -- CDCR is planning improvements to the Water Treatment Plant (WTP) at Sierra Conservation Center (SCC) in Jamestown, California. The project scope includes installation of: 1) a secondary filtration system to reduce concentrations of iron and manganese in the WTP Filter Backwash water prior to discharge from the WTP site (as permitted in SCC's National Pollutant Discharge Elimination System (NPDES) permit); and 2) electrical improvements, instrumentation, and controls associated with the new process element listed above.	<b>NOE</b>	
2012028265	Salt Point and Sonoma Coast State Parks Self-Pay Stations and Signs Installation Parks and Recreation, Department of --Sonoma Install fifteen self-pay stations (iron rangers) and fee signage within Salt Point and Sonoma Coast State Parks. Installation consists of; excavation of holes (maximum 3' depth x 2' width), iron rangers set in concrete and signs posts set in crushed rock and backfilled with native soil.	<b>NOE</b>	
2012028266	Caltrans, Interstate 5, Willow Creek Scour Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Yreka--Siskiyou Caltrans is proposing to place rock slope protection (RSP) and a grout seal to protect the outlet of the box culvert located at Post Mile (PM) 34.0, south of Yreka, in Siskiyou County, California. Caltrans has determined that the total project permanent impacts waters of the U.S. and waters of the State (Willow Creek) will be approximately 0.01 acre (276 ft 2, 12 linear feet). Based on the nature and extent of project impacts compensatory mitigation for the placement of RSP and grout is not required; however, this location has been identified as barrier to fish migration, preventing anadromous fish from accessing Willow Creek upstream of the box culvert.	<b>NOE</b>	
2012028267	Clear Lake Reservoir Boat Launch Maintenance Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Modoc The project involves routine maintenance of the existing boat launch surface to ensure reliable access to the lake in all types of weather conditions. The boat launch facility is currently in need of additional crushed gravel to improve the driving surface for all-weather boat launching. All-weather access to the lake is necessary for the applicant to perform various activities related to the operation and maintenance of the Klamath Project. Maintenance activities will involve the placement of approximately 70-75 cubic yards of clean crushed gravel over a layer of geotextile fabric.	<b>NOE</b>

2012028268	<p>Frenchman Dam Discharge Piping and Weir Inspection and Maintenance Project Fish &amp; Game #2 --Plumas</p> <p>DWR proposes to inspect and conduct required maintenance on the Frenchman Dam discharge piping and discharge weir. The project will include, but is not limited to, draining the piping and conducting a manual inspection of the interior piping, removing approximately 4 cubic yards of sediment that has accumulated in the two weir boxes downstream of the Frenchman Dam Outlet, replacement of valves, recoating of piping and associated machinery, and grout repair. In order to inspect the piping and to minimize downstream turbidity, flows will be turned off from the Frenchman Dam outlet. Flows will be maintained to Little Last Chance Creek by using the Frenchman Dam Spillway.</p>	<b>NOE</b>	
2012028269	<p>Logan Creek Channel Maintenance Fish &amp; Game #2 --Glenn</p> <p>The project consists of widening Logan Creek for approximately 0.5 miles by recontouring the slopes of the creek banks and removing accumulated sediment from the creek bed. By use of large equipment, bank slopes will be sloped at a minimum of a 2 to 1 ratio (width to height) and where possible the width will be extended to accommodate heavier water flows. Additionally, where necessary, accumulated sediment will be removed from the creek bed to an extent no greater than the natural bottom of the watercourse. All spoils will be placed in a location where they will not re-enter the watercourse.</p>	<b>NOE</b>	
2012028270	<p>State Route 89 Roadway Repairs Fish &amp; Game #2 Truckee--Nevada</p> <p>Sagehen Creek is impinging against the embankment supporting the northbound lane of State Route 89, at post mile 7.8. Significant loss of embankment within the last six months now threatens the roadway above. The project proposes to place one large diameter log into the embankment void. This log will be placed at an angle pointing downstream with an accompanying large cottonwood root ball. This woody debris will be surrounded by 1/2 ton rock slope protection (RSP) to complete filling the void. Willow cuttings will be placed into the RSP as a final measure.</p>	<b>NOE</b>	
2012028271	<p>Yokayo Biofuels Improvement Project Mendocino County Ukiah--Mendocino</p> <p>This project includes construction of a 350,000 gallon per day biofuel production facility. This will allow Yokayo Biofuels to produce a fuel from used fryer oil. The beneficiaries include Yokayo Biofuels and the consumers of the fuel.</p>	<b>NOE</b>

	another implementation tool of the General Plan that can be used to guide development in the City by focusing on attaining the various goals and policies of the General Plan as well as the GHG reduction goals.		
2010012066	Capital SouthEast Connector Project Capital SouthEast Coonector Joint Powers Authority Elk Grove, Rancho Cordova, Folsom--Sacramento, El Dorado FYI: Final	<b>FIN</b>	
	The project is a 35-mile roadway, the majority of which is along existing roads, linking El Dorado and Sacramento Counties and the Cities of Elk Grove, Rancho Cordova and Folsom. Project limits extend from the interstate 5/Hood-Franklin Road interchange in southwest Sacramento County east and north approximately 35 miles, terminating at US Highway 50 in the vicinity of Silva Valley Parkway approximately 3 miles past the El Dorado County line. The Connector is expected to provide 4-6 traffic lanes to accommodate the projected volume of vehicles in the MTP and general plans, as well as provide new multi-modal options.		
2012021056	Martinez Family Trust Monterey County Monterey--Monterey The project is a Combined Development Permit consisting of: 1) A Coastal Administrative Permit to allow the addition of 695.8 s.f. to a first-story and a 422.6 second-story addition to an existing 4,453 s.f. two-story single family dwelling with an attached 745.3 three car garage; the reconfiguration on an existing driveway and court yard area reducing the nonconforming impervious coverage from 6,448.6 down to 1,389.1 s.f. including the reconfiguration impervious driveway 5,059.5 s.f. into previous areas combined with existing areas equals 8,106.7 s.f.; including a new 9 foot tall, 79.5 feet long court yard wall; and a 77 linear feet of new garden walls 4 feet tall; 28 s.f. of new court yard steps with a new fountain and fire pit; 2) A Coastal Development Permit to convert an existing 567 s.f. guest house into a attached accessory dwelling unit; 3) A Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat; and a Design Approval to allow color and material changes to the exterior of the existing residence, new white plaster siding, dark brown stained wood trim doors and windows, steel guard rails and Carmel stone veneer; grading is estimated to less than 100 cubic yards of cut and fill. The property is located at 1631 Sonado Road, Pebble Beach (Assessor's Parcel No. 008-201-013-000), west of the intersection of Sonado and Midwood Lane, Del Monte Forest Land Use Plan, Coastal Zone.	<b>MND</b>	03/27/2012
2012021057	Templo la Hermosa, Conditional Use Permit No. CUP11-005 Merced County Merced--Merced The project applicant has applied for CUP11-005 from Merced County to construct a one-story, 10,620 s.f. church facility. The proposed church facility would be located on a new parcel that would consist of 5.25 acres. The proposed project would relocate existing services and replace an existing small building the church has outgrown, but currently uses, located to the east along Kibby Road. The proposed church plans include restrooms, a multi-purpose area, sanctuary (i.e., main assembly area), and small kitchen facility.	<b>MND</b>	03/28/2012

<b><u>Documents Received on Monday, February 27, 2012</u></b>			
2012022061	<p>902 Villa Street/Bryant Park Plaza Mountain View, City of Mountain View--Santa Clara</p> <p>The project site encompasses 11,250 sf, ~0.258 acre of land, and it is currently developed with four structures. Based on historical records, the subject property was developed by 1888 for residential purposes with the existing house (Pearson House) and outbuilding along Bryant Street. The Pearson House is listed on the City's local registry as an historic resource. An outbuilding along Villa Street was constructed by 1897 for use as a shed. The Pearson House was last used as a commercial structure while the onsite cottages last known uses were residential. The project site's buildings are presently vacant.</p> <p>The Downtown Precise Plan provides guidance for the preservation of historic buildings within the community. Downtown Mountain View is the symbolic and historic center of the City. The Plan's vision for downtown is to preserve the mix of buildings, the pedestrian-scaled environment, and the carefully designed public spaces that contribute to its special community character.</p>	<b>NOP</b>	03/27/2012

<b><u>Documents Received on Tuesday, February 28, 2012</u></b>			
	The City's current channel maintenance program extends from 2003 for a 10 year period, through 2013. The flood control maintenance would protect the existing Maintenance District properties from a 100-year storm event, and reduce adverse water quality effects to Buena Vista Creek from storm water runoff from surrounding parking lots. Maintenance is proposed to continue over a 6-year period.		
2012022075	Preston Property Residential Project Milpitas, City of Milpitas--Santa Clara The proposed project consists of the development of as many as 220 high density dwelling units on the project site. The proposed project would take primary vehicular access from Railroad Avenue and secondary vehicular access from Hammond Way. As part of the project, the applicant provide open space amenities, including 1.2 acres of land immediately adjacent to Calaveras Boulevard at the north end of the project site for the development of a private park.	<b>NOP</b>	03/28/2012
2012022076	Yolanda Avenue General Plan Amendment Project Santa Rosa, City of Santa Rosa--Sonoma The proposed project consists of re-designating two parcels comprising an 10.46-acre site on Yolanda Avenue to "Retail and Business Services," to be consistent with the existing General Plan land use designation for the balance of the site. In conjunction with the re-designation, the City of Santa Rosa would transfer the medium-density residential development potential (35 dwelling units) from the Yolanda Avenue site to one or more of the following sites: (1) 3015 Petaluma Hill Road; (2) 1865 Meda Avenue; (3) 560 Montecito Center. In all cases, the residential development transfer would require General plan and zoning changes to each of the sites. Note that the project does not confer any entitlements or other approvals that would allow new construction to occur.	<b>NOP</b>	03/28/2012
2012021051	Leo J. Vander Lans Water Treatment Facility (LVLWTF) Expansion Project Water Replenishment of Southern California Long Beach--Los Angeles NOTE: Rescinded per lead until further notice.  The LVLWTF's has an existing effluent capacity of 3 million gallons per day (mgd). The LVLWTF's main role is to produce recycled water through advanced treatment of wastewater that is blended with potable water and injected into the Alamitos Seawater Barrier. The LVLWTF processes tertiary treated (Title 22) recycled water from the Long Beach Water Reclamation Plant using microfiltration (MF), reverse osmosis (RO),and ultraviolet (UV) light. The plant was designed to accommodate future expansion to 8.0 mgd (the proposed project). Project would increase recycled water production capacity to 8 mgd to produce more water for recharge and reduce the need for potable water prior to injection. The expansion will maintain the same MF, RO, and UV system as the current plant but increase the capacity of each process. Project is within the existing site boundary.	<b>Neg</b>

	private and City-owned properties along I-80 and SR-65 within the City of Rocklin limits. Two digital billboards would be located along SR-65 and one digital billboard would be located along I-80.		
2011121090	Interim Remedial Action, EMOU, Eastern Shallow Zone and Southern Deep Zone El Monte, City of El Monte--Los Angeles The project will extract untreated groundwater from the El Monte Operable Unit from several new well locations and then convey the raw water in pipelines within city rights of way to the treatment facility for treatment. The treatment will remove contaminants from the groundwater. The project consists of two separate remediation systems. Treated groundwater extracted from the Eastern Shallow Zone will be re-injected back into the Eastern Shallow Zone aquifer. Treated groundwater extracted from the Southern Deep Zone will be used as part of the El Monte municipal water supply. The groundwater treatment facilities for the Eastern Shallow and Southern Deep Zones will be located next to one another but will be physically separate. The specific location of the groundwater treatment systems will be between the southern property of line of 4131 Arden Drive and the Union Pacific Railroad right-of-way, fronting Arden Drive. The project meets the Environmental Protection Agency's objective of containment/capture of contaminants.	<b>NOD</b>	
2011121090	Interim Remedial Action, EMOU, Eastern Shallow Zone and Southern Deep Zone El Monte, City of El Monte--Los Angeles The proposed facility would consist of the redevelopment of a former vacant railroad spur to include two groundwater treatment facilities and access for operation and maintenance. The other components to the project include installation of groundwater extraction wells, groundwater injection wells, and conveyance pipelines located in the Cities of El Monte and Rosemead, CA. Water from extraction wells in Rosemead will be treated and used to supplement El Monte's drinking water supply. Water from wells in El Monte will be treated and re-injected via three injection wells. Construction and operation of the project are required by the US EPA as part of the San Gabriel Valley Superfund Site, El Monte Operable Unit (EMOU) groundwater cleanup project.	<b>NOD</b>	
2011122035	Squaw Valley 2012 Capital Projects (PCPA 20110139) Placer County --Placer The project proposes a Conditional Use Permit and Site/Design Review for the removal of five existing fixed-grip chairlifts and the renovation and reinstallation of one lift at a new alignment; installation of two new detachable lifts; and the installation of two rope-tow style surface lifts.	<b>NOD</b>
