STATE CLEARINGHOUSE

NEWSLETTER

February 16 through 28, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **February 16 through 28, 2002**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

Planning Cases

Case Name (No.):	<i>Home Gardens Sanitary District v. City of Corona</i> (E029777)
Court, Filing Date:	Cal. App. 4 th /2, 02/11/2002
Source:	2002 Daily Journal D.A.R. 1777
Summary of Ruling:	Police powers of sanitary districts, created pursuant to state law, are superior to city police powers.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (February 16th – 28th)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: Federal Energy Regulatory Commission
Contact: N/A
Telephone: N/A
E-mail: N/A
Address: 888 First Street, N.E., Washington, DC 20426
Description: On February 14, 2002, the Commission issued an order issuing a three-year preliminary permit to the Northern California Hydro Developers to study the proposed 20.1-megawatt Robley Point Project. The project would be located on the West Branch Feather River in Butte County, California.
Comment By: N/A

Agency: Federal Energy Regulatory Commission
Contact: Jim Fargo
Telephone: (202) 219-2848
E-mail: James.fargo@ferc.fed.us
Address: 888 First Street, N.E., Washington, DC 20426
Description: On February 11, 2002, the Commission issued a Notice of a Site Visit for the Crane Valley Project (No. 1354), located on Willow Creek, Chilkoot Creek, and Chiquito Creek within the San Joaquin River Basin. The project is in Madera and Fresno Counties, California.
Comment By: N/A

Agency: City of Lindsay Community Development Department
Contact: N/A
Telephone: (559) 562-7138
E-mail: N/A
Address: P.O. Box 369, Lindsay, CA 93247
Description: The City of Lindsay is preparing to submit a request to the State of California Department of Housing and Community Development for the release of Federal Funds under Title 1 of the Housing and Community Act of 1974 to undertake a project known

as the Shropshire Infill Housing Infrastructure Development Project (01-STBG-1594). The project will have no significant impact on the human environment, therefore an Environmental Impact Report is not required.

Comment By: March 5, 2002

Agency: United States Coast Guard

Contact: Susan L. Boyle

Fax: 510-437-5753

E-mail: Sboyle@d11.uscg.mil

Address: USCG, MLC Pacific(s) Building 54d, Alameda, CA 94501

Description: The U.S. Coast Guard has received applications from the American Sail Training Association for marine event permits to conduct the Tall Ships Challenge 2002 on the Pacific Coast. Subject to compliance with all necessary environmental laws and regulations, the Coast Guard may approve marine event permits for tall ship events that will not cause significant environmental impacts or cause other effects of substantial concern to environmental regulators and the public.

Comment By: March 26, 2002

Agency: United States Army Corps of Engineers

Contact: Nancy Haley

Telephone: (916) 557-7772

E-mail: Nancy.A.Haley@usace.army.mil

Address: Sacramento District, 1325 J Street, Sacramento, CA 95814-2922

Description: The U.S. Army Corps of Engineers issued a public notice of an application for a Department of Army permit under Section 404 of the Clean Water Act, intent to prepare an Environmental Impact Statement (EIS) and Notice of Public Scoping Workshops, for the County of Merced Infrastructure Project in Support of UC Merced.

Comment By: April 12, 2002

	for the El Cerrito Specific Plan. Therefore, the project in its entirety will encompass 113.5 acres. The site is not listed on any governmental list of hazardous waste facilities as enumerated under Section 65962.5 of Government Code. The amendments are planned to allow a flexible mix of retail, entertainment, and office commercial uses unified in a cohesive commercial center. The resulting mix of commercial and office uses are intended to serve the region, the Corona sub-region, and the local community. The project proposes to develop up to 1,160,000 square feet of commercial space, including a 120-room hotel and a 3,360-seat movie theater, within the Commercial Center zoning district proposed for the project area.		
2000021035	Marvin Braude Mullholland Gateway Park Santa Monica Mountains Conservancy Los Angeles, City of--Los Angeles The Mountains Recreation and Conservation Authority (MRCA) is proposing to implement improvements within a portion of the seventeen (17) acre Marvin Braude Mullholland Gateway park (previously named the Reseda Ridge Park). The proposed project consists of 1) expanding the footprint of improvements within Marvin Braude Mullholland Gateway Park beyond the area conceptually drawn in the Santa Monica Mountains Conservancy's 1992 Mullholland Gateway Park Master Plan for the Reseda Ridge Park entrance, and 2) making specific improvements within all improved sections of the subject park trail-head facility both inside and outside of the (1992) conceptual drawing boundaries. 	<p>square foot manufacturing/warehouse building in an M-2-PD (Medium Industrial-Precise Development Combining) District. The applicant intends to establish a business which provides energy services, products, and construction maintenance for oil and gas exploration and production, with provisions for future expansion. The explosive materials storage building would be of a Type I or Type II construction and fully sprinkled. Explosive storage would be limited to less than 1,200 pounds TNT equivalent per building and would be kept within approved storage containers inside the building. No more than 50 pounds would be uncontained during transfer between containers. Type of materials to be stored would include blasting caps, detonating cord, and shaped charges, which are classified by the Bureau of Alcohol and Firearms and the UFC shipping class as 1.1D, 1.4B, 1.4C, 1.4G, and 1.4S. Water supply and sewage disposal for the facility would be by Oildale Mutual Water District and individual septic tank, respectively. Access to the site would be via two driveways off of Seventh Standard Road, with one of the driveways being signalized at the Coffee Road intersection. Seventh Standard Road is designated as an arterial alignment by the Circulation Element of the Metropolitan Bakersfield 2020 General Plan.</p>		
2002021091	<p>Quince Street Burn Site San Diego, City of San Diego--San Diego City Council approval of the Removal Action Workplan and City Council approval (LDR No. 41-0611) to remove three feet of burn ash-containing soil on 14 residential properties located at 2913-2919, 2933, 2953, 2959, 2963, 2967, 3005, 3009, 3015, 3090 38th Street, 2968, 3006, 3010, 3018 39th Street, and a portion of the City right-of-way known as 38th Street south of Quince Street and an alley north of Quince Street, as well as a portion of Quince Street at that location. The proposed project would also include the placement of building restrictive easements on specified properties and the possible acquisition of some properties. Properties with building restrictive easements would include: 2913-2919, 2933, 2953, 2959, 2963, 2967, 3005, 3009, 3015, 3021, and 3090 38th Street and 2948, 2952, 2960, 2968, 3006, 3010, 3018, and 3036 39th Street. The proposed project would also include the possible acquisition from willing sellers of the following properties: 2913-2919, 2933, 2953, 2959, 2963, 2967, 3005, 3009, and 3015 38th Street, and 2968, 3006, 3010, 3018 39th Street.</p>	Neg	03/20/2002

2002021094	Richard Rollins Park Renovation Project (SA-02-01 and E-02-01) Grand Terrace, City of Colton, Riverside, Grand Terrace--San Bernardino, Riverside The project proposes the renovation of existing outdoor recreation facilities owned and maintained by the City of Grand Terrace. Actions will include the renovation of existing soccer fields, construction of a perimeter jogging path, installation of field lighting systems, reconstruction of parking lot, construction of support facilities such as restrooms and a snack bar, and new landscaping for slopes, spectator viewing areas and picnic areas.	Neg	03/20/2002
2002021096	Stormwater Erosion Mitigation at Site 20, Vandenberg Air Force Base, California Toxic Substances Control, Department of Lompoc--Santa Barbara The Air Force proposes to conduct a non-time critical stormwater erosion mitigation project at Site 20 in order to contain potential risks and hazards to human health and the environment. This action is based on the Air Force's preliminary evaluation of the potential for release of hazardous substances as a result of stormwater erosion at Site 20 (Areas 2 and 3). The proposed stormwater erosion mitigation project at Site 20 includes the installation of a series of energy dissipaters built of gabions (wire baskets that contain coarse aggregate) in the Primary Ravine, V-ditch cut parallel to the top edge of the Primary Ravine, and a stormwater diversion piping system from Discharge point 2 to the Primary Ravine at the site. Final remedial actions for the Areas 2 and 3 will be addressed in the final remedy for Site 20 to be performed at a later date.	Neg	03/21/2002

	during open hours (Wed.-Sat.) will be 10-20 vehicles per day with peak customer visits occurring in the spring (April and May). Other times of the year will have less traffic due to the "dormant" nature of the business; the applicant expects 3-6 vehicles per day from October through December. The applicant will designate an "overflow" parking lot to the side of the principal lot to accommodate excess vehicles during sale times (5-6 times a year with an estimated 30 cars per day) from October through December. The project will occur on a site to be developed with a wholesale nursery operation which is a principally permitted use in the Zone. Wholesale nursery improvements will consist of a gravel parking lot to accommodate +/- 12 cars, +/- 4 "hoophouses" which total 8,000 square feet, a 1500 sf greenhouse, and a 0.25 acre display garden. Also included in the retail aspect of this project is an 1850 sf barn which will house the business office, a restroom and storage area. The 40 acre parcel is zoned AE and TPZ; all nursery uses will take place in the AE portion of the parcel. The commercial uses will be served by community water, whereas the water needs for the growing aspects of the nursery business will be supplied by an on-site spring system. The site will be served by on-site sewage disposal systems.		
2002022060	Lower Sacramento Road Corridor Improvements on Woodhaven, Chestnut and Mokelumne San Joaquin County Lodi--San Joaquin The proposed project consists of pedestrian facilities, landscape and irrigation facilities, intersection operations, roadway cross sections, and parking, as well as installation of a wrought-iron fence at the Woodbridge Irrigation District canal bridge. The project also involves replacing the existing partially stop sign-controlled intersection of Chestnut Street, Mokelumne Street, and Woodbridge Road with a roundabout.	Neg	03/20/2002

	and Streambed Alteration Agreement Number R3-2001-0779 pursuant to Section 1601 of the Fish and Game Code to the project operator, Henry Hesling, Sr. / City of Gonzales.		
1998031009	GPA,Rezone Of The 368-Acre Vineyard Ave. Corridor Area Pleasanton, City of Pleasanton--Alameda The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (R3-2001-0954) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Phil Rowe / Mardel LLC. This project involves the relocation of approximately 6,500 feet of Vineyard Avenue in Livermore to a new location approximately 1,000 feet north of the existing alignment. At the west end of the project site, Vineyard Avenue will cross an unnamed tributary to Arroyo Del Val below the outfall of an existing 24-inch culvert. The culvert will be extended below the new road. The detention basin will discharge to a 36-inch culvert that will outfall into the unnamed tributary. Rock rip-rap will be placed at the outfall site. The road crossing will require the placing of about 840 square feet of fill over a distance 140 linear feet. An arched culvert road crossing will be constructed near the center of the project site over a second unnamed tributary. Approximately 1,560 square feet of fill will be placed over 180 linear feet of the tributary.	NOD	
1999072031	Tahoe Vista Recreation Area North Tahoe Public Utility District Tahoe Vista--Placer The project proposes to reconstruct parking for boat and trailers, create traffic circulation throughout the site for all vehicles, and provide a parking area for beach users only. The boat launch ramp is proposed to be upgraded to meet California Department of Boating and Waterways standards. The boat ramp project has already been approved by TRPA and will be constructed in the fall of 2001. Thirteen auto/boat trailer spaces are proposed for the boat ramp area. Twenty (2 handicap) auto spaces and 8 auto/boat trailer spaces are proposed on the parcel north of Highway 28.	NOD	
2000022080	Stonebridge Subdivision Hillsborough, City of Hillsborough--San Mateo The project is a proposed subdivision, into 14 residential lots, in the town of Hillsborough, County of San Mateo. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project operator, Mr. William Saks / William A. Saks & Co..</p>	NOD	
2001041008	<p>Thompson/Tabata-ZC 98-08/LCPA 98-04/CT 98-14/PUD 98-05/CP 00-02/SDP 99-06/HDP 98-15/CDP 98-68 Carlsbad, City of Carlsbad--San Diego</p> <p>Request for a Zone Change and Local Coastal Program Amendment to change 40.41 acres of the subdivision from Limited Control (L-C) to Residential Multiple-Density with a Qualified Development Overlay Zone (RD-M-Q) and to change 41.79 acres from Limited Control (L-C) to One Family Residential with a Qualified Development Overlay Zone (R-1-Q); and a Tentative Tract Map, Planned Unit Development Permit, Site Development Plan, Condominium Permit, Hillside Development Permit and Coastal Development Permit to subdivide, grade, and develop 82.20 acres, creating 238 single family lots, two open space lots, four recreation lots, one recreational vehicle storage lot and a 24 unit, for-sale condominium project, affordable to lower-income households.</p>	NOD	
2001051036	<p>New Exit Road - West Miramar Landfill San Diego, City of --San Diego</p> <p>The project is the construction of a 24 foot wide, 2,700 foot long access road for empty City of San Diego trash trucks to exit the West Miramar Landfill. The proposal would include the improvement of existing dirt roads and areas adjoining and through the existing leased, commercial nursery for a new paved road to exit the landfill and to access the existing I-805 on-ramps at Governor Drive. Initially, there would be 120 City trash trucks which would use this proposed access road between 2:00 pm and 5:00 pm on weekdays and a few Saturdays, to exit the landfill and thereby, bypassing the existing Convoy Street landfill access.</p>	NOD	
2001051161	<p>Olivelands School Abandonment/Replacement Project Briggs School District Santa Paula--Ventura</p> <p>The proposed project involves the construction of a new elementary school and demolition/removal of the existing main school building. The construction and demolition/removal activities will occur on different portions of the Olivelands Elementary School site. The proposed new elementary school will consist of four sets of buildings containing nine portable classrooms and six permanent classrooms, a library, a multipurpose room, an administrative office, play fields, and other uses. This new elementary school will be developed on and near the existing playground area. Once the main building has been demolished and removed, this area will serve as the required parking area and for other school district programs.</p>	NOD

<u>Documents Received on Tuesday, February 19, 2002</u>			
2001081104	Belmont New Primary Center No. 11 Los Angeles Unified School District Los Angeles, City of--Los Angeles Construction and operation of a new primary school on a 1.83-acre site to be acquired. (Project was revised from 1.5 acres to 1.83 acres to accommodate onsite parking)	NOD	
2001101116	Belmont New Elementary School No. 6 Los Angeles Unified School District Los Angeles, City of--Los Angeles Construction and operation of a new elementary school on a 3.09 acre site to be acquired.	NOD	
2001111095	Rural Home Enterprise; RHE 01-15 San Benito County Hollister--San Benito The applicant proposes to operate a family water business, Damm Softwater Service, from an existing 4,500 square foot steel building at 3016 A Cienega Road, Hollister, CA. Business operation includes all types of water conditioning equipment for sale or rent. The proposal includes expansion of a bottled drinking water service to include on-site bottling of spring water. Water to be bottled will be purchased from a state approved water distributor and stored on-site in a 10,000-gallon state certified tank to be installed as part of the project. Water for employee use and the bottle washing process would be pumped from the on-site well and stored in the existing 5,000-gallon tank. Wastewater resulting from the washing process would be re-circulated prior to discharging on a monthly basis. Wastewater will be discharged into an existing septic system and leach field approved for this use.	NOD	
2001112065	North San Mateo County Sanitation District Recycled Water Facilities San Mateo County Sanitation District Daly City--San Mateo The North San Mateo County Sanitation District (NSMCSD or District) proposes to construct facilities to produce recycled water at its existing wastewater treatment plant, together with distribution facilities to use the recycled water at three nearby golf courses. The proposed facilities would allow for the production and distribution of Title 22 recycled water suitable for unrestricted (but non-potable) uses. Much of the recycled water distribution system has already been installed, with most of the remaining (proposed) pipeline segments to be installed on the golf course properties beginning in May 2002.	NOD	
2001121026	Pine Cove Water District Well #20 Pine Cove Water District --Riverside Addition of new potable water well to existing water district system.	NOD	
2001121051	Santa Monica New Primary Center Los Angeles Unified School District Los Angeles, City of--Los Angeles Construction and operation of a new primary school on a 1.83 acre site to be acquired.	NOD

2002028329	Arroyo Mocho Pump Station Fish & Game #3 Livermore--Alameda LLNL proposes to fit the existing CMP outfall with a downturning pipe and elbow system to discharge the water at grade. The gully soil surface would also be reinforced with an erosion control blanket (Pyramat) from the headwall above the pipe outfall to approximately 100 feet down the ravine. Contractors in full body harnesses will work from the top of the bank to prepare the surface of the gully with hand tools. The gully will be smoothed with the hand tools so that the blanket will lie flat to prevent channeling under the blanket. The Pyramat, approximately 12 feet wide, would be applied only in the gully area and will be trimmed to avoid boulders or shrubs along the edges. To provide support for the concrete apron approximately 6 to 7 cubic yards of 12 inch boulders will be placed and grouted under the lower edge where it has eroded. This area is well above the channel of the Arroyo Mocho. Issuance of a Streambed Alteration Agreement Number R3-2001-0800 pursuant to Fish and Game Code Section 1601.	NOE	
2002028330	Monitoring Weir Installation in Davis Creek Fish & Game #3 --Mendocino Installation of weirs to monitor flows below Centennial Reservoir. Issuance of a Streambed Alteration Agreement Number R3-2001-0656 pursuant to Fish and Game Code Section 1601.	NOE	
2002028331	Emergency Security Fencing Water Treatment Plants San Diego, City of San Diego--San Diego Emergency replacement of existing fence (6 feet to 8 feet high, topped with barbed wire) and add new fencing where necessary. This program is designed to deter, delay, detect and respond to any intrusions into the Water Department facilities. All fences will be electrified and will have monitors installed. The facilities are the Otay (5,300 feet of fence), Alvarado (6,200 feet of fence and 625 feet of wall), and Miramar (5,200 feet of fence) Water Filtration Plants. The purpose is to provide improved security to protect the City's potable water supply and distribution system from sabotage due to the threats from the 9/11/01 events. All work is being monitored by a biologist as approximately 3 feet of plant material will be removed on either side of the fence.	NOE

Neg	03/21/2002
2002021101	E.A.R #00-13 PPD #1691 Rialto, City of Rialto--San Bernardino Development of a vacant lot with a well site for the Fontana Water Company including the drilling, piping and maintenance of such facility.	Neg	03/21/2002
2002021128	EAKC19-01;Precise Development Plan 35, Zone Variance 18, Map 81 Kern County Planning Department Bakersfield--Kern (a) A precise development plant to allow a regional warehouse and distribution center in an M-2 PD H (Medium Industrial, Precise Development Combining, an Airport Height Combining, and (b) a Zone Variance to allow a reduction in the number of required on-site parking spaces. The project includes the partial right of way acquisition of a 90-foot wide collector roadway, including the construction of improvements to Imperial Road from State Route 65 to approximately 1550-feet east of State Route 65. It anticipated that improvements will include a temporary turn around, traffic signals at the intersection of Imperial Road and State Route 65, intersection tapers and road approach for Imperial Road on the east and/or west sides of State Route 65, and channelization and widening improvements on State Route 65 within existing State right-of-way.	Neg	03/21/2002
2002022063	Cushing Parkway Widening Fremont, City of Fremont--Alameda The proposed project will widen Cushing Parkway from Fremont Boulevard to the current terminus of the roadway, approximately 530 feet west of the street, Northport Loop West. This proposed project would improve Cushing Parkway from its current four lanes with a two-way left turn median to six lanes with a raised landscaped median and left turn pockets. The widening will occur on the south side of the roadway, which will include new curb, gutter and sidewalk. The project will also replace landscaping behind the sidewalk, and the street will be re-stripped. The current scope of work does not include the extension of the culvert on Cushing Parkway. On February 9, 1999, the City Council approved an initial study and negative declaration for the culvert extension. The City has applied for permits from the Department of Fish and Game, Regional Water Quality Control Board and the U.S. Army Corps of Engineers for the culvert widening work.	Neg	03/21/2002

2002021106	<p>Bohnett Park Restoration, 1302 San Andres Street MST2001-00874 Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The project involves the restoration of Old Mission Creek which traverses Bohnett Park. The restoration project includes the following components: weeding and landscaping; installation of two creek crossings, installation of bioswales, bank stabilization, installation of new stairs at the Victoria Street entrance, installation of landing overlooks, and access trails. The landscaping portion of the project will be comprised of removal of non-native plants and trees, and installation of native, riparian plant and tree species. The proposed creek crossings are located at existing impromptu crossings made by park users. On-site boulders will be placed at specific elevators in the creek bottom with 18-inch gaps to allow low flows to pass. The tops of the boulders will be cut to a flat surface and roughened with sizes ranging from 2x3 to 3x3. Sixty to 70 percent of the boulder would be buried. Bohnett Park is approximately 2.5 acres in size and the project area encompasses approximately 1.5 acres. The construction/installation process is anticipated to last approximately five months overall, including earthwork estimated at 550 cubic yards cut and 150 cubic yards fill over a one month period. Temporary creek diversions would be required during the construction process.</p>	Neg	03/25/2002

2001102100	Arlington Oaks Sewer Project West Sacramento, City of West Sacramento--Yolo The City of West Sacramento proposes to install a gravity flow sanitary sewer system of sewer mains in the existing streets and connect them to a new 12 inch main line (to be installed by others) near the intersection of Manchester Street with Jefferson Blvd., which would deliver the wastewater to the Southport pump station and then on to the city's sewage treatment plant. Sewer laterals would be stubbed to each existing property line. Individual property owners would install service lines to the lateral at the street edge from their house. Then the septic tank on each lot would then be pumped, abandoned and filled, under the direction of each property owner, in accordance with regulations of the Yolo County Division of Environmental Health. This is anticipated to involve filling of earth into the previously excavated septic tank with material compatible with the natural features of the site. The project will result in the trenching and repaving of the existing street to install approximately 8,047 linear feet of eight inch sewer main and 5,425 linear feet of four inch sewer lateral from the main to the property line. Also included will be 217 sewer clean outs and 21 sewer manholes. Installation of four inch service line from the clean out to each house will result in the removal of some mature landscaping which will be replaced with equivalent material in the same or nearby location.	NOD

2001111178	Sand City General Plan Update 2002 Sand City Sand City--Monterey Adoption of a Zoning Ordinance amendment as an implementation devise of the recently adopted General Plan Update for 2002-2017 for the City of Sand City which is located within the County of Monterey along the Monterey Bay, just south of the former Fort Ord military reservation, west of the City of Seaside, and north of the City of Monterey. The zoning amendment, consistent with recently adopted General Plan update, addresses community issues and trends, special land use considerations, historic growth rates, and population and employment projections. The purpose of the new Planned mixed use (MU-P) district is to implement the Sand City General plan use policies related to the mixed use classification encourage development of mixed residential, commercial and light-industrial uses that ensure land use compatibility, encourage living wage jobs, provide continued availability of light manufacturing and commercial businesses, provide opportunities for office development, allow ancillary on-site retail, establish a conditional use permit procedure to insure land use compatibility and real estate marketability.	NOD	
2002011032	Jess Martin Park Project San Diego County Department of Public Works --San Diego Construction of a skatepark and playground within the existing Jess Martin County Park. The project also includes continued operation of existing improvements within the park, including three baseball fields, a concession stand, a pump house, an existing portable classroom, a graded volunteer pad that houses a travel trailer, water storage tanks and a dirt road around the park perimeter. The project will designate 20 on-site parking spaces with two handicap van accessible parking spaces in an existing parking area for the skatepark, playground area, and existing improvements.	NOD	
2002011054	Site 31 Effluent Pipeline and Pump Station Western Municipal Water District Moreno Valley, Perris, Riverside--Riverside Western Municipal Water District is proposing to construct an approximately 3.5 mile 8-inch diameter non-potable water transmission line and associated pump station. The water conveyed by this project is generated by March Air Reserve Base ground water remediation effort, and is the product of a treatment system, referred to as Site 31 EGETS. The site 31 EGETS water will be conveyed to the March Air Reserve Base wastewater treatment plant where the water will be discharged into existng irrigation pipelines. The Site 31 EGETS non-potable water will be used for irrigation of the Riverside National Cemetary.	NOD	
2002011067	Stevens Avenue Self-Storage Facility Solana Beach, City of Solana Beach--San Diego The Applicant requests approval of a Development Review Permit and Structure Development Permit to construct a 3-building self-storage facility with office. "Building A", to be located on the east portion of the lot, will be 34,432 square feet. "Building B", to the west of Building A, will be 23,250 square feet. "Building C", to the west of Building B, will be 13,050 square feet. The proposed office will be 516	NOD

square feet. The total square footage proposed for the three individual buildings is 71,248 square feet. The maximum height above existing grade will be approximately 23.7 feet and the maximum height above finished grade will be approximately 38.4 feet. The proposed building coverage on the lot will be 21,450 square feet. The total paved area will be 25,781 square feet and the total landscaped/open space area will be 28,563 square feet. In order to construct the project, the Applicant proposes cutting approximately 23,000 cubic yards of soil. As part of the project design, the applicant proposes the construction of a sand/oil interceptor and a subsurface detention facility.

2002029014	Graves Creek Tributary Culvert Installation Fish & Game #3 Atascadero--San Luis Obispo Installation of a 23-inch diameter corrugated metal pipe culvert. The culvert will provide uninterrupted flow of water under a 16-foot wide asphalt driveway that will access a home built on the property. Fill dirt will be placed over the culvert to support the driveway. The project site is located at 8560 Corriente Road, Atascadero, San Luis Obispo County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0528 pursuant to section 15096 (i).	NOD

2002028384	<p>Temporary Emergency Permit to Detonate Unstable Ordnance Casings Found Buried at Fort Hunter Liggett Toxic Substances Control, Department of --Monterey</p> <p>The granting of a temporary emergency Hazardous Waste Treatment Permit to Fort Hunter Liggett to detonate approximately 2000, 105mm steel shell casings which still contain their black powder primer charges. These casings were unearthed during a construction project and they are approximately 20 years old. Normally this type of munitions is shipped to an OB/OD facility for treatment. However, due to their age and level of deterioration, DTSC and the U.S. Department of the Army have determined that these casings are unstable, the primer charges cannot be separated and therefore they are unsafe to ship. The items were discovered on or about December 11, 2001, for an emergency permit to detonate on site. The permit is effective from February 18 to March 1, 2002. The ordinance will be divided into 3-4 batches and detonated as separate events. EOD personnel will attach 1.25 pounds of C-4, which will be used as a donor charge per 18 casings. The casings are placed in a pile with a specific orientation with the donor charge placed on the outside of the pile. This is done in a specific manner to control the blast energy, so as to optimize the combustion of the material and minimize the formation of harmful compounds. Since there will be no significant material or hazardous waste remaining after the detonation, the site will be left for use in future training detonations.</p>	NOE	
2002028385	<p>Three-Year Variance Renewal to the City and County of San Francisco Toxic Substances Control, Department of San Francisco--San Francisco</p> <p>Variance to the City and County of San Francisco from hazardous waste permit and manifest requirements of Health and Safety Code, sections 25201 and 25160. The variance authorizes San Francisco County to collect and to transport CESQG wastes using a registered transporter. Individual receipts will be provided to the CESQG and the collected wastes will be delivered under manifest/bill-of-lading to an authorized facilities for further management. The collections provide appropriate means for CESQGs to dispose of hazardous waste. The variance is based on the evidence that; 1. The variance requirements are protective of human health and safety, and the environment; 2. Only personnel trained in hazardous waste management shall handle and transport hazardous waste; and, 3. All collected wastes will be further managed by authorized facilities.</p>	NOE

1995103063	State Route 70 Upgrade Caltrans, Planning Marysville, East Nicolaus--Sutter, Yuba SAA #R2-2001-380 - Construct double box culverts and temporary roadway for phase one of highway upgrade.	NOD	
1996091016	El Capitan Golf Course Helix Water District --San Diego California Department of Fish and Game is intending to execute a Lake and Streambed Alteration Agreement pursuant to section 1603 (SAA #5-298-99) of the Fish and Game Code to the project applicant, the Helix Water District. The applicant proposes to construct and operate a golf course complex on an approximately 460 acre site. The complex includes: 1) two 18-hole golf courses; 2) one 9-hole practice golf facility with a 3,000 square foot office/pro-shop, a 680 square foot practice pavillion, and a 49 space parking lot; 3) driving range; 4) an 18,000 square foot club house with a 409 space parking lot; and 5) an 80,000 square foot maintenance facility that includes a 15,000 square foot workshop/garage and an employee parking lot with approximately 33 parking spaces.	NOD	
1997071087	Prado Basin and Vicinity, Including Stabilization of the Bluff Toe at Norco Bluffs U.S. Army Corps of Engineers Corona, Norco, Yorba Linda, Anaheim--Riverside, Orange, San Bernardino The proposed project is to provide flood protection to areas susceptible to floods ranging from 100-year to 190-year frequencies within San Bernardino, Riverside and Orange Counties. The project features include Norco Bluffs toe stabilization, structural improvements within Prado Dam and Basin, and flood control improvements downstream of Prado Dam in Reach 9 of the Santa Ana River. The project will result in impacts to least Bell's vireo and southwestern willow flycatcher, which are protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit ("Permit").	NOD	
1999121090	Civic Center / Metlox Development Manhattan Beach, City of Manhattan Beach--Los Angeles The proposed project will replace the existing Police and Fire Station 1 facilities with an approximate 54,500 square foot, combined Police and Fire Public Safety Facility, and related improvements. Street improvements include the extension of 13th Street as a two-way street from Morningside Drive east to Valley Drive.	NOD	
2000021031	City of Madera Fresno River Trail System Initial Study/MND Madera, City of Madera--Madera The project includes construction of a bicycle pathway along the bank and a small portion within the bed of the Fresno River. The extent of the bike pathway is approximately 2.25 miles beginning at rotary park on Gateway Drive, extending eastward, and terminating at Tozer Street.	NOD

	5,000 square feet in and adjacent to Dry Creek.		
2001121129	Penman Springs Road at Huer-Huero Crossing Repair Project; ED00-578 (C000064E/P12B501) San Luis Obispo County Paso Robles--San Luis Obispo The County of San Luis Obispo is proposing to repair the washed out earth crossing over Huer-Huero Creek on Penman Springs Road by reconstructing the earth roadway. The project entails placing 1,200 cubic yards of fill and 1,750 tons of 1/4 ton rock slope protection within the creek along the sides of the crossing. The rock slope protection will help divert the flow of the creek into two 36" by 28' corrugated steel pipes placed near the north bank of the creek. The crossing was washed out in the winter of 2001, resulting in the closure of the road.	NOD	
2002029017	Newhall Park Siltation Basin Project Concord, City of Concord--Contra Costa The objective of the project is to restore the two ponds to their design capacity and reestablish an adequate water supply for park irrigation, to control erosion and sedimentation, and to establish native riparian and wetland vegetation along the shores of the ponds. The City has proposed to dredge the ponds, to address the sedimentation and erosion of the creek and ponds, to establish native vegetation along the shores of the ponds, and remove non-native, invasive vegetation growing in the project area in the first year (Year 1). Annual maintenance dredging, limited to a restored retention basin ("Stone Silt Barrier") located in the upper pond, will continue in years 2-5. The project is located in Newhall Community Park in the City of Concord, Contra Costa County, and encompasses 122 acres along Galindo Creek, east of Treat Boulevard. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0696 pursuant to Section 1601 of the Fish and Game Code to the project operator, Alex Pascual / City of Concord.	NOD

	Park Drive (Communications Hill Boulevard). 7. Add a conceptual trail alignment through the subject site. There are five proposed General Plan text amendments and eleven Communications Hill Specific Plan text amendments that correspond to the above land use changes.		
2002021126	City of San Juan Bautista Infrastructure Improvement Program San Juan Bautista, City of San Juan Bautista--San Benito The City of San Juan Bautista is proposing to upgrade critical portions of its existing infrastructure, which do not meet regulatory requirements and current industry standards. The main improvements would be for the City's domestic water system. The key water supply facilities the City is proposing to construct include a membrane water treatment plant (WTP), a new water storage tank, and upgrades to the City's distribution system piping. The City is proposing to treat water from the San Felipe Distribution System (SFDS), which is administered by the San Benito County Water District (SBCWD); the proposed project would improve water quality to meet DHS standards, meet standards for fire protection, bring the distribution system up to industry standards, reduce the reliance upon water softeners, and produce a treated wastewater more suitable for reclaiming. The remaining proposed infrastructure improvements include upgrading the existing storm drainage system and replacing the existing sewer main along Fourth Street, Tualami Street, and Third Street to the wastewater treatment plant to reduce storm water infiltration and inflow. <u>Documents Received on Wednesday, February 27, 2002</u>			
2001122022	New Main Library San Mateo, City of San Mateo--San Mateo The project includes an application to demolish the existing library building and remove the surface parking on the project site and construct a new main library building. The Plan for the library requires that the City acquire 9,485 sq ft of property owned by AJA Investments L.P. and used as part of the Bank of America parking lot, as well as 597 sq ft temporary construction easement that is four feet wide. This Resolution of Necessity would authorize the City to acquire the property through eminent domain.	NOD	
2002011098	Sycamore Channel (West) Restoration Project Fish & Game #5 Whittier--Los Angeles CDFG is executing Lake and Streambed Alteration Agreement No. 5-2001-0257 pursuant to Section 1603 of the Fish and Game Code to the project applicant. The applicant proposes to alter the streambed and bank by the removal of vegetation and sediment, bank recontouring, installation of approximately 6,600 square feet of rock rip-rap for erosion and energy dissipation purposes, reestablishment of native vegetation on the streambanks and the establishment of a channel maintenance plan for the West Sycamore Channel. The project shall not impact more than 1.55 acres of stream channel and associated riparian habitat.	NOD	
2002012007	South Cordelia Zone 1 Water Reservoir Fairfield, City of Fairfield--Solano Construction of a five million gallon water tank for municipal water supply, a 3,200 linear foot, 30 inch water transmission pipeline, a 460 linear foot, 24 inch reservoir overflow pipeline, a 1,900 gallon per minute pump station, a 12 foot by 24 foot buried valve vault adjacent to the reservoir on its southeast edge and accompanying staircase, and construction of an access drive by extending an existing PG&E access road. The reservoir will be located underground on the south face of a hillside immediately south of the City limits, south of the southeast corner of the Garibaldi Ranch. Access to the site would be obtained by constructing 760 foot long access drive to the reservoir from the existing PG&E road on the south side of the hill, which would connect to Lopes Road, approximately one mile north of Marshview Road. Once excavation and construction are completed, approximately 30,000 cubic yards of fill will be brought in and placed over the reservoir site and the length of the access drive. A pump is planned at the northeastern boundary of the project area at the pipeline terminus on the west side of Lopes Road. The pump house will be 12 feet high at its highest point and 43 feet long.	NOD	
2001108593	Adaptive Physical Therapy Yuba Community College District Marysville--Yuba An obsolete, inadequate and temporary building in poor condition will be replaced. Approximately 1,656 assignable square feet (of a total campus of 264,664 ASF) will be replaced by a structure of 2,933 assignable square feet to serve students within other campus disciplines to promote adaptive physical development. Jensen Filtration Plant Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles Construct a plaza between the ozone generation building and Module No. 2. The plaza would include a water fountain, a grid of palm trees, a rock garden, outdoor lights, a shade structure, and additional landscaping and irrigation.	NOE	
2002028466	Maintenance of EM#12 Service Connection Metropolitan Water District of Southern California Riverside--Riverside Shutdown and de-water the pump station located at the EM#12 Service Connection and the 54-inch Eastern Municipal Water District (EMWD) pipeline for routine maintenance of an existing meter that is located within the EMWD pipeline. The de-watering is required to gain access to the meter. The water released as a result of the proposed project will be de-chlorinated and pumped from the service connection and allowed to flow downhill to an existing drainage. Upon completion of the proposed project, the pump station will be refilled and restored to operation.	NOE	
2002028467	Reactivation of Lagoons 1 and 2 at the Diemer Filtration Plant Metropolitan Water District of Southern California Yorba Linda--Orange Reactivation of two currently inactive sludge lagoons at the Diemer Filtration Plant. Proposed activities include the mechanical dewatering of sludge from active thickeners onsite and discharging the sludge into Lagoon 2 for drying. Lagoon 1 will be used to collect sludge if the mechanical equipment is unable to handle the amount of sludge generated onsite. Decant water from the mechanical equipment will then be pumped back to the supernatant pump station to be recycled to the plant influent.	NOE

2000062086	Wild Turkey Population Management and Enhancement Fish & Game, Wildlife Conservation Board Statewide--Statewide The project involves the release of wild turkeys at six sites in Northern California, including: El Dorado, Sierra, Plumas, Lassen, Shasta, and Mendocino counties. The project is intended to enhance turkey populations in these counties.	EIR	04/15/2002
2001101121	El Toro Redevelopment Project Area Specific Plan Lake Forest, City of Irvine--Orange The proposed project is the adoption of a Specific Plan by the City of Lake Forest through the authority granted by California Governmental Code, Title 7, Division 1, Chapter 3, Article 8, Sections 65450 and 65457. The Specific Plan will establish goals, policies, and programs to address the special land use, circulation, economic and aesthetic issues in the Specific Plan area. The Specific Plan is both a regulatory and policy oriented document. The zoning related portions of the Specific Plan include land use designations, permitted uses and development standards based on the core Revitalization Scenario and Revisioning Strategy. If approved, these regulatory provisions will supersede other regulations and ordinances of the City for the control of land use and development within the Specific Plan boundaries. The goals and policies, development guidelines, and streetscape design concepts are intended as City policies to provide direction for future planning and development efforts within the Specific Plan area, including both public and private improvements. 1980071615	<p>TM 5093TE, P96 , Log No. 96-08-007 San Diego County, Department of Planning and Land Use --San Diego</p> <p>Rancho Cielo consists of 2,815 acres in north San Diego County, within a portion of the San Dieguito Planning Area. A recreational area was approved in a previously approved Tentative Map (TM527R), at the intersection of Via Ambiente and Calle Ambiente. However, a major use permit was required for the construction of this facility. The proposed project consists of details for this recreational facility. The facilities include a Junior-Olympic sized swimming pool and spa; two tennis courts; children's play areas; four private event/lounge areas; a fitness center; and office space. All off-site utilities supporting this Recreational Center have been previously installed.</p>	NOD	
2001121071	<p>Foxenwoods Townhomes Santa Maria, City of Santa Maria--Santa Barbara</p> <p>The proposed project is Planned Development (PD) Permit to allow construction of 32 townhome units on individual lots.</p>	NOD	
2001122077	<p>Miller Farms Nursery, Inc. Surface Mining and Conditional Use Permits; Case Nos.: CUP-01-03/SMP-01-01/RP-01-01 Humboldt County Planning Department Arcata--Humboldt</p> <p>A Conditional Use Permit, Surface Mining Permit, Reclamation Plan and review of financial assurance cost estimates for a surface mining operation involving extraction via skimming from a gravel bar, normally less than 4 acres in area on the Mad River of up to 15,000 cubic yards of aggregate material per year. The duration of the permit would be for the maximum term under the Surface Mining and Reclamation Act., i.e. 15 years. The site has historically been mined every year since 1993 by a different land owner, and the applicant would only seek to transfer the same level of operation to the current surface rights property owners. Commercial aggregate products will range from sand to cobble-sized aggregate. The surface mining operation will involve annual extraction, and grading reclamation of the gravel bar, occasional screening, storage, loading and hauling of commercial aggregate. No washing, crushing, asphalt or cement batch processing will be conducted on site. No new access roads to the gravel bar will be constructed. Heavy equipment to be used on site includes: an excavator; a front end loader; a free standing, non-mechanical screen sorter; 2,000-4,000 gallon water trucks; and 10 yard dump trucks. River-run aggregate will be hauled from the mine area on the river to be stored in an industrial area on-site by 10 to 18 yard dump trucks.</p>	NOD
