STATE CLEARINGHOUSE

---

# NEWSLETTER

**January 1-15, 2007**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1-15, 2007.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

| 2004012077  | Wal-Mart South Parcel and Expansion Project (PM 03-17)<br>Chico, City of<br>Chico--Butte<br>Wal-Mart submitted an application for a Tentative Parcel Map (PM 03-17) requesting reconfiguration of the two parcel lines to facilitate the expansion of the existing 125,889 sf store into a 223,445 sf Wal-Mart Supercenter. The Tentative Parcel Map will reconfigure the lot lines of the existing parcels (a 16.75-acre parcel and a 10.36-acre parcel) to create on 24.69-acre (Parcel 1) and one 2.42-acre parcel (Parcel 2). The existing Wal-Mart store and all improvements associated with the expansion of the store would be contained entirely within Parcel 1. The existing parking lot would be expanded to the south of the existing store and parking lot. No development is currently planned for Parcel 2, but a restaurant and gas station may be developed in the future. In addition, as a part of the Tentative Map, a number of public utility and public access easements (sanitary sewer, storm drainage, water, utilities, and public bicycle path) are proposed for abandonment and relocation on the site. | EIR              | 02/15/2007     |
| 2006072118  | Silva Estates Project<br>Manteca, City of<br>Manteca--San Joaquin<br>The proposed project includes the construction of the Silva Estates (formerly Milner Estates) subdivision. The project would subdivide approximately 59.9 acres into 217 single-family lots. The project would include the removal of two of the five existing single-family homes on the site. The project would also involve annexation, rezoning, a development agreement, and a tentative map for residential development.   | EIR              | 02/16/2007     |
| 2006081115  | South Region Elementary School No. 7<br>Los Angeles Unified School District<br>Los Angeles, City of--Los Angeles<br>LAUSD is proposing to construct and operate an elementary school, known as the South Region Elementary School No. 7 Project, in LAUSD Local District 7 in unincorporated Los Angeles County. The proposed project is intended to relieve overcrowding at the nearby elementary schools, including: McKinley, Russell, 92nd Street, 96th Street, Griffith Joyner, Weigand, Grape and Ritter Elementary Schools. The proposed project would provide a neighborhood elementary school on a single-track, two-semester calendar, and would accommodate 950 two-semester seats for kindergarten through sixth grade. The proposed facilities would involve approximately 68,000 square feet of development, including 38 classrooms, a multi-purpose room, library, administration offices, and approximately two acres of playground area.  | EIR              | 02/15/2007     |
| 2006082133  | John Muir Medical Center Project<br>Concord, City of<br>Concord--Contra Costa<br>Project includes a preliminary development plan, General Plan amendment, and rezoning to allow construction of a hospital and two medical office buildings (MOB), including a 174,000 sf hospital tower on the Main Campus, a 40,000 MOB on the South Property, a 20,000 sf MOB on the West Property, and future expansion to a floor area ratio of 1.5. Other improvements include landscaping, lighting, access and parking changes, signage, and upgrading of utilities, and  | EIR              | 02/15/2007     |

|   | construction of a helipad. Development would occur in three phases over 25 years.  |                  |                |
| 2007011003  | Zone Change Case No. 106, Map No. 230; Tentative Tract 6395; Tentative Tract 6496; V-Mark Development and Lilco Financial by DeWatt Corporation<br>Kern County Planning Department<br>--Kern<br>A change in zone classification from A-1 (Limited Agriculture) to R-1 (Low-Density Residential), R-2 (Medium-Density Residential), and C-2 (General Commercial), or a more restrictive district. The project site is composed of an approximately 167-acre parcel located at the southeast corner of Rosamond Boulevard and 10th Street West in Rosamond. The applicant is seeking the change in zone classification in order to be compatible with the Rosamond Specific Plan Land Use designations for the project site and to record two Tract Maps. As requested, the applicant/developer proposes to have 9-acres of C-2, 153-acres of R-1, and 5 acres of R-2 zoned property. The Specific Plan designations for the project site are 5.2 (maximum 16-dwelling units/net acre), 5.3 (maximum 10-dwelling units/net acre), and 6.2 (General Commercial). Site access will be from Rosamond Boulevard and 10th Street West. Water and sewage will be provided by the Rosamond Community Services District and a "will-serve" letter has been provided. | <b>MND</b>       | 01/31/2007     |
| 2007012001  | Auburn Municipal Airport 2006 Master Plan<br>Auburn, City of<br>Auburn--Placer<br>The Master Plan is a 20-year planning document, intended to identify the airport's future needs through forecasting, and guide the airport towards development of a multi-year capital improvement program. The purpose of the Master Plan is to provide the City of Auburn with achievable goals and guidelines for future airport development that would meet aviation demand, community acceptance, and environmental compatibility.  | <b>MND</b>       | 01/31/2007     |
| 2007011001  | 2007 Amendment to the Redevelopment Plan for the Brawley Redevelopment Project No. 1<br>Brawley, City of<br>Brawley--Imperial<br>The Agency is proposing adoption of the 2007 Amendment for the sole purpose of adding territory to the Redevelopment Project. The Added Territory, as proposed, consists of 110 acres and is located within the Gateway Specific Plan Area of the City.   | <b>NOP</b>       | 01/31/2007     |
| 2007011002  | 2007 Amendment to the Redevelopment Plan for the City of Imperial<br>Redevelopment Project<br>Imperial, City of<br>--Imperial<br>The 2007 Amendment proposes to add an approximate 200-acre area to the City of Imperial Redevelopment Project with the primary objective of providing for a variety of possible redevelopment activities pursuant to the California Community Redevelopment Law, within the Added Territory and to help further similar redevelopment activities within the existing redevelopment project area.  | <b>NOP</b>       | 01/31/2007     |

| 2007011008  | Beverly Hills Cultural Center and Public Parking Facility<br>Beverly Hills, City of<br>Beverly Hills--Los Angeles<br>The proposed cultural center involves the adaptive reuse of the former Post Office into a performing arts facility and includes the addition of a new wing where postal truck loading area used to be. The cultural center would include: a 500-seat auditorium, rehearsal hall for up to 150 occupants, classrooms for up to an aggregate of 60 occupants, 3,400 sq. ft. lobby area (could be used for events), administrative offices, and café. The parking facility would provide 280 to 300 parking spaces in two subterranean levels under Crescent Drive. The project will be subject to review by the City's Planning Commission and approval of the City Council.   | <b>NOP</b>       | 02/01/2007     |
| 2007011004  | TPM 05-167<br>Encinitas, City of<br>Encinitas--San Diego<br>Tentative Parcel Map to subdivide 4.23 acres into 4 residential lots.   | <b>Neg</b>       | 02/01/2007     |
| 2007011005  | Gagnon Minor Use Permit D000206P<br>San Luis Obispo County<br>San Luis Obispo--San Luis Obispo<br>Request by Joan and Pierre Gagnon for a Minor Use Permit / Coastal Development Permit to allow an approximately new 2710 square foot two story single family residence with an attached 504 square foot garage. The project will result in the disturbance of approximately 5,000 square feet of a 21,768 square foot parcel. The proposed project is within the Residential Single Family land use category and is located on the southeast corner of Bayview Heights Drive and Valley View Lane, in the community of Los Osos. The site is in the Estero planning area.   | <b>Neg</b>       | 02/01/2007     |
| 2007011006  | South North Intertie Project (SNIP)<br>Antelope Valley-East Kern Water Agency<br>--Kern, Los Angeles<br>The project consists of connecting AVEK's northern and southern systems to provide redundancy to the surrounding area; this will allow the Agency's operation to maximize the use of existing treatment facilities. The SNIP will increase reliability of the Agency's system by insulating the Agency from outages in the portions in the California Aqueduct between Fairmont and the Quartz Hill WTP. It is estimated that the proposed SNIP will include a series of pipelines ranging in diameter from 36" to 48", and a pressure recuding/pump station at each terminus of the pipeline.<br><br>The SNIP will provide a pipeline from the existing AVEK Central Feeder at the Rosamond WTP Discharge, south to the existing 70th Street West Pipeline at Avenue N-8 and 70th Street West or the 60th Street West Lateral, Four potential alternative pipeline alignments have been reviewed for the SNIP which include (1) 30th Street West, (2) 60 Street West, (3) 80th Street West, and (4) 110th Street West. | <b>Neg</b>       | 02/01/2007     |

| 2007012007   | Forster-Gill Development Project<br>Humboldt County Community Development Services<br>Eureka--Humboldt<br>The proposed project is a multi-phased subdivision of four existing parcels totaling 386 acres in area. Project phases after the currently proposed Phase 1 will be guided by a Master Plan that proposes development of parcels up to the density "cap" adopted for the property under the Eureka Community plan (EDP).   | <b>NOP</b>       | 02/02/2007     |
| 2007011009   | Tentative Tract Map 06-04, Mechling Subdivision<br>Poway, City of<br>Poway--San Diego<br>A request for a proposal for a 10-lot subdivision of approximately 22 acres. The site is currently comprised of two lots of approximately 11 acres each, both of which are developed with a single-family home. The proposed subdivision would retain the two existing single-family homes on smaller lots and create 8 additional lots. The proposed lots range in size from 2 to 2.7 acres.   | <b>Neg</b>       | 02/02/2007     |
| 2007011011   | City of Hemet's Long-Term Programmatic Maintenance Program<br>Hemet, City of<br>San Jacinto, Unincorporated--Riverside<br>The City of Hemet is proposing an on-going long-term programmatic maintenance program to restore and maintain the proper function and hydraulic capacities of the City's drainages and retention basins to protect nearby roadways, residential and non-residential uses from flooding and prevent public health hazards by eliminating potential vector habitats.   | <b>Neg</b>       | 02/02/2007     |
| 2007011014   | Stewart Single Family Dwelling Development Review Permit DR06-06<br>Santee, City of<br>Santee--San Diego<br>The proposed project is a Development Review Permit to construct a 2,318 square-foot, one-story single family dwelling on an undeveloped 2.3 acre parcel. The project will have access to Princess Joann Road via an existing access easement. The project includes vegetation clearing and grading of the building pad and a 20-foot wide access road, and vegetation clearing for a 100-foot wide fuel management zone around the perimeter of the proposed single family dwelling.  | <b>Neg</b>       | 02/02/2007     |
| 2007011015   | Franklin Grading Permit ED 06-109 PMT2006-00789<br>San Luis Obispo County<br>Paso Robles--San Luis Obispo<br>Request by Tim & Kristal Franklin to grade for a single family residence (3,212 square feet) and associated improvements (including an approximately 1,000 foot driveway located partially within an existing easement) which would result in the disturbance of approximately 0.9 acre (39,000 square feet) of a 32 acre parcel. The proposed project would include approximately 980 cubic yards of cut and 980 cubic yards of fill. The proposed project is within the Residential Rural land use category, and is located approximately 440 feet south of Barley Grain Road, approximately 3,000 feet south of the City of Paso Robles, in the El Pomar/Estrella planning area. | <b>Neg</b>       | 02/02/2007     |

|------------|--|------------|------------|
| 2007012015 | General Plan Amendment 2006-11 & Rezone 2006-16 - John Freitas Storage Facility Expansion<br>Stanislaus County<br>Turlock--Stanislaus<br>Request to change General Plan and Zoning designations from Urban Transition and A-2-10 (General Agriculture) to Planned Development (PD) to allow an existing recreational vehicle storage yard to continue operating. This occurs immediately west of P-D (264), a mini-storage business run by the same applicant. It is planned as an outdoor storage area on what is now a 3.94 acre parcel.   | <b>CON</b> | 01/19/2007 |
| 2007011017 | Balboa Marina Dock Replacement<br>Newport Beach, City of<br>Newport Beach--Orange<br>The proposed project involves the removal of a 27,550-sf, 132-slip marina dock to be replaced with a 20,483 sf, 102-slip dock. The reconstruction will include installation of new electrical power connections, water supply lines, communication hook-ups, a pump-out station, and fire fighting facilities. The redesign is based on current California Department of Boating and Waterways design criteria and Americans with Disabilities Act access requirements. Dredging will be required within the project boundary to a depth of 8 to 10 feet.   | <b>MND</b> | 02/05/2007 |
| 2007011020 | San Jacinto Agricultural In-Lieu Water Supply<br>Eastern Municipal Water District<br>San Jacinto--Riverside<br>Eastern Municipal Water District (EMWD) proposes to install approximately 10,775 linear feet of 24-inch recycled water pipeline to deliver recycled water to two dairy farms. The recycled water will be used for on-farm irrigation in exchange for reductions in groundwater pumping from the San Jacinto groundwater basin that is currently in a state of overdraft. More than half of the groundwater being pumped from the San Jacinto subbasin is being used for agricultural irrigation, the water table levels have dropped, and some wells have gone dry. The proposed recycled water pipeline will reduce groundwater pumping in the San Jacinto subbasin and help stabilize the subbasin. | <b>MND</b> | 02/05/2007 |
| 2007012011 | Cypress Tank Project No. E05-12<br>Cotati, City of<br>Cotati--Sonoma<br>The proposed project is the construction of an above-ground steel water storage tank located between Cypress Avenue and Loma Linda Drive (the site of the existing Cypress Avenue storage tank). The new 390,000 gallon tank would store potable water and help provide the necessary additional storage capacity for the City's water system, enabling the City to meet its water storage capacity goals.   | <b>MND</b> | 02/05/2007 |

| 2002102090   | South Lincoln Sewer Line Project<br>Lincoln, City of<br>Lincoln--Placer<br>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0005-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Lincoln.<br><br>The proposed project is the construction and operation of an approximately 2.8-mile long sewer pipeline from Industrial Avenue, just north of Athens Avenue, to the City of Lincoln's Wastewater Treatment and Reclamation Facility. Most of the pipeline will be installed in a trench that would be excavated and backfilled. The depth of the trench would vary. At stream zone crossings, special construction methods, such as "Bore and Jack" will be used.  | <b>NOD</b>       |                |
| 2004042138   | Water Recycling Project<br>North Coast County Water District<br>Pacifica--San Mateo<br>The proposed project consists of construction of infrastructure necessary to provide tertiary treated water from the Calera Creek Water Recycling Plant to irrigation sites in the City of Pacifica in the Sharp Park area, including the Sharp Park Golf Course, Highway One landscaping, Sharp Park Beach Promenade, and the fields of Oceana High School and Sharp Park Elementary School. The project involves constructing a pump station at the Calera Creek Water Recycling Plant, a new recycled water storage tank near the Sharp Park Archery Range, and approximately 17,000 lineal feet of recycled water pipelines. This NOD only covers the change to the project to move the proposed recycled water storage tank approximately 600 feet to the west of the location identified in the previously adopted IS/MND for the project. | <b>NOD</b>       |                |

| 2005062163   | Walker Park and Quail Hollow Elementary School<br>Galt, City of<br>Galt--Sacramento<br>The proposed project involves the development of an approximately 40-acre public park, and an approximately 10-acre future elementary school site. The requested entitlements for the project include approval of an annexation of the project site to the City of Galt, general plan amendment, and prezone.  | <b>NOD</b>       |                |
| 2006012091   | Alameda Landing Mixed Use Development Project<br>Alameda, City of<br>Alameda--Alameda<br>Approving Master Plan Amendment MPA-06-001 substituting office, retail, health club, residential, and/or mixed uses for approximately 77 acres of previously entitled office/research and development uses; Development Agreement Amendment DA-06-0002 to the development agreement by and between the City of Alameda and Catellus Development Corporation, dated June 6, 2000, as amended; and Development Agreement DA-06-0004 by and between the City of Alameda and Palmtree Acquisition Corporation. The Master Plan Amendment, Development Agreement Amendment, and Development Agreement provide for the future development of a 77-acre site within the City of Alameda with up to 400,000 square feet of office space, 300 housing units, 300,000 square feet of retail commercial space, and 20,000 square feet of health club facilities.  | <b>NOD</b>       |                |
| 2006112080   | Ophir Road Site Acquisition and Auburn Ravine Tunnel Pump Station Upgrade Project<br>Placer County Water Agency<br>--Placer<br>PCWA acquired an 8.2-acre site for the construction and operation of a second backup pump station for the Auburn Ravine Tunnel. The proposed project, as described in the original IS/MND (Jones & Stokes 2003), involved acquiring the property; constructing the pump station, access road, and associated facilities; implementing standard BMPs to minimize environmental impacts; and implementing mitigation measures prior to and during pump station construction and operation to protect environmental resources associated with the project site.<br><br>The new project component that is being addressed in this Subsequent IS/MND is a new outfall system between the pump station (currently under construction) and Auburn Ravine. The new outfall system would provide a safe emergency overflow for the pump station transfer basin. The proposed outfall would consist of multiple components, including a 69-inch drain from the pump station wet well to a concrete flow control structure adjacent to the pump station; a length of open channel; two 48-inch corrugated metal pipe culverts under the wastewater treatment plant access road; and an 11-foot-wide by up to 4-foot-deep rock-lined ditch to Auburn Ravine. A portion of the outfall would be within the floodplain and would include approximately 50 feet of the dual 48-inch corrugated metal pipe culverts, a 6-foot-tall by 20-foot-wide concrete headwall, and approximately 80 feet of the rock-lined ditch. | <b>NOD</b>       |                |

| 2003022116   | Sonoma Coast State Beach Preliminary General Plan<br>Parks and Recreation, Department of<br>--Sonoma<br>The purpose of the proposed project is to develop a General Plan guiding future management and development at Sonoma Coast State Beach. Sonoma Coast State Beach provides various recreational opportunity including hiking, horseback riding, surfing, camping, scenic driving, rock climbing, whale watching, wildlife viewing, picnicing, and beachcombing.   | <b>EIR</b>       | 02/21/2007     |
| 2004092070   | Kimball High School<br>Tracy Unified School District<br>Tracy--San Joaquin<br>The project is the two-phase construction of a high school in San Joaquin County, adjacent to the City limits of Tracy. The project includes construction of a new high school to serve up to 2,400 students in the Tracy Joint Unified School District system.  | <b>EIR</b>       | 02/21/2007     |
| 2006051024   | California Pepper Trees Maintenance Plan<br>Moorpark, City of<br>Moorpark--Ventura<br>The City of Moorpark proposes a maintenance plan to address the 49 California pepper trees on High Street. The maintenance plan analyzes the health and setting of each of the 49 pepper trees and proposes services and techniques for maintenance of the different categories of the California pepper trees on High Street. The primary goal of the maintenance plan is to provide a realistic framework by which the legacy of the original trees is sustained and appropriate care is delivered, while minimizing risk to people and property due to the existence of old, senescent trees on the public right-of-way.  | <b>EIR</b>       | 02/21/2007     |
| 2006082041   | Sacramento Recycling and Transfer Station - North Project<br>Sacramento, City of<br>--Sacramento<br>The proposed project consists of the development and operation of a solid waste transfer station and a materials recovery facility at one of three potential project sites in northern Sacramento. These operations would be located within a single, approximately 100,000 square foot building. A portion of the selected site would also include an area designated to receive and store household hazardous wastes and a recyclables drop-off/buy-back operation. The permitted peak tonnage would be 2,000 tons per day (tpd). The facility would receive incoming municipal solid waste, self-haul waste, green waste, and recyclables.          | <b>EIR</b>       | 02/21/2007     |
| 2005092130   | Jones Ranch Commercial Shopping Center Project<br>Concord, City of<br>Concord--Contra Costa<br>The proposed project includes the redevelopment of an approximately 28 +/- acre site with an approximately 364,300 square-foot commercial shopping center, including two, big-box retail buildings (i.e., Wal-mart and Lowe's Home Improvement), 1,368 parking spaces, site landscaping, and on-and off-site improvements. Five driveways distributed along the approximate 1,100 foot Arnold Industrial Way site frontage would provide ingress and egress access to the site. The eight existing parcels on the project site would be reconfigured into five new parcels, three of which will be small tenant pads for future retail and restaurant uses. | <b>FIN</b>       |                |

| 2006012089   | Berkeley High School South of Bancroft Master Plan<br>Berkeley Unified School District<br>Berkeley--Alameda<br>The proposed project is the adoption and implementation of the Berkeley High School South of Bancroft Master Plan. The proposed Master Plan would provide a framework for implementation of a phase building program with approximately 69,000 square feet (sf) of new construction plus possible structure parking, to be carried out in at least three phases. On the southern portion of the high school campus, the Master Plan includes the demolition of the Old Gym building and warm water pool and redevelopment of the site with a physical education building and a classroom building; construction of new stadium facilities and bleachers; construction of space for facilities services and storage; development of an athletic quad and regulation softball field; improvements to the Bancroft Easement that traverses the campus; and landscaping and fencing improvements. On the Milvia Street site, the Master Plan provides the opportunity for the City of Berkeley to redevelop part of the site with a warm water pool; the rest of the site would be used for parking. In the near term, the parking would be in a surface lot; in the long term, a parking garage might be constructed. | <b>FIN</b>       |                |
| 2007011031   | Ferring Pharmaceuticals<br>San Diego, City of<br>San Diego--San Diego<br>Coastal Development Permit, Site Development Permit and MHPA Boundary Line Adjustment for a first-story expansion (approximately 500 square feet) and a second-story addition (approximately 12,500 square feet) to an existing 23,081 square-foot industrial building on a developed 1.75 acre site containing Environmentally Sensitive Lands (ESL). The project site is designated for industrial use, and is located at 4245 Sorrento Valley Boulevard in the IP-3-1 (Industrial-Light) zone within the Torrey Pines Community Plan Area, Coastal Overlay Zone (Appealable Area and Non-Appealable Area 1) and Residential Tandem Parking Overlay Zone.  | <b>MND</b>       | 02/06/2007     |
| 2007012026   | Parcel Map 06-040 - Ward<br>Shasta County<br>--Shasta<br>The request is for a merger and re-subdivision of two parcels totaling approximately 915 acres. The division will result in two five acre parcels and a remainder. The five acre parcels are intended as a conveyance or device for relatives of the property owner. One five acre parcel and the remainder contain existing residences. The land slopes gently on the southern half. The slopes increase on the northern portion of the site, the features are rolling to hilly. There are numerous drainage and creeks that flow primarily from north to south. One of these streams originates at a stock pond on the property. The southern portion is currently used as grazing and crop land, while the northern portion is used primarily as graze land. Flora present on site consists primarily of grasses and chaparral species common to the upland areas of Shasta County. Oaks trees are sparsely distributed over the project site. Narrow and fragmented corridors of common riparian vegetation are present along the stream courses. Wildlife present includes common species such as black trail deer, turkey, small mammals, rodents, and birds. The surrounding land uses include residential development and graze land.                            | <b>MND</b>       | 02/06/2007     |

The proposed project is located on Vasco Road between MP 3.4 and 4.3 in Alameda County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0606-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, George Sukkar / Alameda County Public Works.   | <b>NOD</b>       |                |
| 2003092067   | State Route 152 / State Route 156 Improvement Project<br>Caltrans #4<br>Gilroy, Hollister--Santa Clara<br>The Santa Clara Valley Transportation Authority requested a Streambed Alteration Agreement to accommodate the relocation of a Pacific Gas and Electric (PG&E) gas line via horizontal directional drilling under an unnamed agricultural canal that leads to Pacheco Creek. The project is located near the intersection of State Route 152 and State Route 156 in the southeastern portion of Santa Clara County approximately 0.6 mile north of the Santa Clara County/San Benito County line. The State Route 152/156 utility relocation is part of a larger project called the State Route 152/State Route 156 Improvement Project. To accommodate the larger project, advance utility work will include installation of a new gas line will replace an existing 4-inch gas line that is in conflict with the larger project that includes roadway widening. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0832-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Tom Fitzwater/Santa Clara Valley Transportation Authority | <b>NOD</b>       |                |
| 2006102039   | Meadow Vista County Water District Water Treatment and Storage Facility Improvement Project / Bear River Canal Emergency Pipeline<br>Meadow Vista County Water District<br>--Placer<br>The proposed project involves essentially four main elements including, (1) construction of two 0.9 mgd treated water storage tanks and booster pump station, (2) onsite road and piping improvements, (3) construction of new sludge drying and storage facilities, and (4) construction of new Bear River Canal emergency raw water pump station and transmission pipeline. Construction is expected to begin in mid-2007.  | <b>NOD</b>       |                |
| 2006111082   | Tippecanoe Well Construction Project<br>Elsinore Valley Municipal Water District<br>San Bernardino--San Bernardino<br>Meeks and Daley Water Company (M&D) intends to construct a new well adjacent to Gage Canal Company's existing Gage 98-1 Well located in the City of San Bernardino. The well would be constructed to replace another well claimed by Caltrans under eminent domain.<br><br>Construction will include approximately 40 linear feet of 16-inch diameter discharge pipe that will connect to the existing Gage Canal piping. A stub out will be provided to allow for a future connection of approximately 2,400 feet of pipe. An approximate well flow rate of 3,000 gallons per minute (gpm) is anticipated. The well pump will be designed to provide 3,000 gpm with a minimum 20 pounds per square inch (psi) at the current connection point and 5 psi at the ultimate   | <b>NOD</b>       |                |

| 2006112051   | <p>McAdams Special Permit (SP-06-08) for Sewer Line Trenching within a Streamside Management Area<br/>Humboldt County Community Development Services<br/>Glendale--Humboldt</p> <p>A Special Permit to allow development within the streamside management area of Mill Creek. The proposed project entails construction of a private sewer line that will connect the applicant's house, and two adjacent residences to an existing sewer system along Glendale Drive managed and maintained by the Fieldbrook Community Service District (FCSD). The lateral from the applicant's house will be located on the south side of the existing gravel driveway and within the Stream Side Management Area of Mill Creek. The lateral from the McAdams house will be located on the south side of the existing gravel driveway and within the Streamside Management Area (SMA) of Mill Creek. The shared main trench will enter the SMA until connecting with the FCSD sewer system in Glendale Road. From the Hall Creek Bridge south the gravel driveway runs parallel with Hall Creek, but at no location along the shared trench or lateral originating within the SMA of Mill Creek will riparian habitat or wetlands be affected by the proposed project. In locations where the shared trench runs closest to a meander in Hall Creek, the trench will be placed within the gravel driveway. No trees are proposed to be removed as part of this project.</p> | <b>NOD</b>       |                |

| 2007018061  | Petition to Change Purpose of Use<br>State Water Resources Control Board, Division of Water Rights<br>--Tulare<br>Billy E. and Bonnie Wells (Petitioner) submitted a Petition for Change in the Purpose of Use of License 4815, on August 23, 2001. The license authorizes the Petitioner to directly divert 0.025 cubic foot per-second (cfs) year-round from an Unnamed Spring tributary to Grouse Creek thence the South Fork of the Kaweah River, in Tulare County. The purposes of Use are mining and milling.<br><br>The Petitioner proposes to add domestic and stockwatering uses to the license. License 4815 was assigned to the Petitioner on May 14, 1996. Since this time, the Petitioner has diverted water for stockwatering of approximately 150 head of cattle. The water is also used to serve up to eight people at the Petitioner's residence.<br><br>The licensed Point of Diversion is located on U.S. Forest Service (USFS) land. The Petitioner proposes to repair the spring box and water supply line. In 2001, a USFS biologist visited the site at which the proposed repairs would take place. The biologist determined that the repair work would not affect public trust resources. In a memo dated June 25, 2001, the USFS determined that this action qualified as a categorical exclusion under the National Environmental Policy Act and Forest Service Handbook 1909.15, Chapter, Section 31.2, No. 3. On July 5, 2001, the USFS issued a special use permit which authorizes the Petitioner to access and maintain the spring box and pipeline.<br><br>The petition was noticed on November 19, 2004 and no protests were received. Approval of the petition will not change the amount of water diverted or the season of diversion under the license. The project does not involve new construction. It is anticipated that the project will not cause significant environmental impacts. | <b>NOE</b>       |                |

|---------------|---|------------------|----------------|

**Documents Received on Thursday, January 11, 2007**

Lundblade Drive would include engineering to remedy any existing surface runoff that crosses those properties.

Unit No. 6 would require approval of one variance to allow a reduced lot depth for Lot 170. The Zoning Regulations specify a minimum lot size of 6,000 square feet with a minimum lot width of 60' and minimum lot depth of 100 feet. Lot 170 would have a lot size of about 7,800 square feet, a lot width of about 100' and a lot depth of about 80'.

The applicant is requesting approval of a condition use permit that would allow timber harvesting of about 12 acres of previously logged land for roadway construction and building site preparation purposes. Approximately 250,000 board feet of timber would be removed. The timber harvest will also require approval by the California Department of Forestry and Fire Protection of a Timber Harvest Plan.

The project also includes a lot line adjustment that would transfer about 4,650 square feet from Unit No. 6 (APN 301-031-039) to 4829 Dickson Drive (APN 301-281-038). The property at 4829 Dickson Drive is currently about 8,350 square feet and after the lot line adjustment would be about 13,000 square feet. The Director of Community has authority for approving or denying the lot line adjustment; the Director approved the lot line adjustment on January 9, 2007.

2006112007

Alternative Management Standards for Treated Wood Waste  
Toxic Substances Control, Department of

**NOD**

--

The proposed project involves the adoption and implementation of statewide regulations governing alternative management standards for treated wood wastes. These regulations do not address site-specific conditions and do not require or mandate construction of new facilities or infrastructure. Generators, transporters and other entities that will be subject to these proposed regulations will also be subject to local ordinances respecting land use.

The proposed project involves the two rulemaking processes:

1. Emergency regulations which will extend the current statutory management standards of TWW for 120 days beyond the statutory sunset date of January 1, 2007.
2. Permanent regulations which, when completed, will establish comprehensive alternative management standards for the TWW.

The proposed regulations would establish alternative management standards for specified non-RCRA hazardous treated wood waste otherwise subject to California Hazardous Waste Control Law and the resultant hazardous waste management standards. Existing requirements for the management of non-RCRA hazardous treated wood waste are found in Health and Safety Code (HSC section 25150.7(e)). These requirements provide streamlined handling standards for treated wood waste. Subject to a sunset date of January 1, 2007, HSC section 25150.7 conditionally exempts generators, transporters, and other entities managing treated wood waste prior to disposal from the requirements of the hazardous waste control law.

| 2007011050   | <p>Lee Lake Water District Flood Protection Project<br/>Lee Lake Water District<br/>Corona--Riverside</p> <p>The District is proposing to construct a 1,500 foot long Artificial Concrete Block (ACB) flood protection structure along the western channel bank of Temescal Wash to provide slope protection/stabilization and flood control for the LLTP. The ACB flood protection structure is necessary to reinforce the existing but eroding land between the LLTP and Temescal Wash. Once reinforced with the ACB flood protection structure, this area will serve as a reliable barrier between Temescal Wash and the LLTP facilities, thereby reducing potential breaches in building infrastructure and protecting Temescal Wash from potential wastewater contamination.</p>   | <b>MND</b>       | 02/13/2007     |
| 2007011051   | <p>Change of Zone No. 7008 and Tentative Tract Map No. 31409<br/>Riverside County Planning Department<br/>Wildomar--Riverside</p> <p>Change of Zone No. 7008 proposes to change the project site's current zoning classification from Rural Residential (R-R) to One-Family Dwellings (R-1), General Residential (R-3), Open Area Combining Zone Residential Developments (R-5), and Watercourse, Watershed &amp; Conservation Areas (W-1).</p> <p>Tentative Tract Map No. 31409 proposes a Schedule "A" subdivision of 19 gross acres into 16 lots. Lot 1 is for residential condominium purposes, Lots 2-14 (13 lots) are proposed as single-family residential lots with a minimum lot size of 7,200 sq. ft., Lot 15 is for a flood control channel, and Lot 16 will remain as permanent Open Space. The condominium component of this development proposes the sitting and construction of 113 detached town homes, a 14,060 sq. ft. recreation area, which includes a pool and restroom facilities, a paseo system that includes several water fountains with shaded seating amenities, a tot lot, a dual use detention basin, and a 0.5 gross acre pocket park. The proposed pocket park will be developed on Lot 77 of approved Tentative Tract Map No. 32024 as part of an off-site improvement agreement between the project proponent of TR31409 and the property owner of TR32024 (this Tentative Map was approved on April 4, 2006 by the Board of Supervisors). The project will improve a 0.7-acre flood control channel that parallels the southern portion of the project site. A total of 126 residential dwelling units are proposed as part of the proposed development.</p> | <b>MND</b>       | 02/13/2007     |
| 2007011052   | <p>Conditional Use Permit No. 3504<br/>Riverside County Planning Department<br/>Wildomar--Riverside</p> <p>Conditional Use Permit No. 3504 proposes to construct a Neighborhood Commercial Center on a 3.45 gross acre site. Building 1 (7,675 sq. ft.) proposes multi-tenant retail use. Building 2 (7,751 sq. ft.) proposes multi-tenant/restaurant retail uses with a drive-through bay, and Building 3 (7,574 sq. ft.) proposes an Automobile Repair Garage. The total development proposal includes 23,000 sq. ft. of building area, 23,471 sq. ft. of landscaping, 132 parking spaces out of which five are handicap accessible and three loading spaces.</p>   | <b>MND</b>       | 02/13/2007     |

NOTE: Two site designs are being proposed, which consist of an "Interim" and "Ultimate." These design concepts deal with ROW improvements along Clinton Keith Road only and not the site. As such, the proposed on-site improvements are the same at the "Interim" and "Ultimate" design concepts.

| 2007011054   | Morris Dam Water Supply Enhancement Project<br>Los Angeles County Department of Public Works<br>Azusa, Glendora--Los Angeles<br>Rehabilitation/modification of Morris Dam's inlet/outlet works, control systems and intake structure to allow for improved operations and conjunctive management of stormwater runoff and water conservation. The work includes replacing the outlet valves, replacing existing electrical and control systems with new ones, and modifying the intake structure to draw water from the existing abandoned MWD tower at a higher elevation less susceptible to sediment impacts.   | <b>MND</b>       | 02/13/2007     |
| 2007012052   | Tentative Parcel Map No. TPM2006-0014<br>Yuba County<br>Marysville--Yuba<br>A request by James and Kimberly Day to subdivide 20.36 acres into 2 lots creating a 5 +/- and a 15.5 +/- parcel. The parcel is zoned by A/RR with 5 acre minimums on parcel number 006-140-039. It is located on Hallwood Boulevard just north of the Yuba River and south of Hwy. 20.   | <b>MND</b>       | 02/13/2007     |
| 2007012054   | Copper Cove Booster Pump and Water Transmission Pipeline Project<br>Calaveras County Water District<br>--Calaveras<br>The proposed project would construct and operate a water transmission pipeline and booster pump station to remedy distribution demands identified as part of the Calaveras County Water District's (CCWD) Copper Cove Water System Master Plan Update. The transmission line would convey water from the current water treatment plant (WTP) on Little John Road to the two 500,000-gallon tanks at the top of a hill on Charm Stone Way. The proposed 20-inch diameter water transmission line would be approximately 12,000 feet in overall length with about half the length of pipeline crossing through privately-owned Oak studded grasslands. The remaining half of the pipeline and booster pump station would be placed within existing streets, public right-of-ways, and utility easements. The project is intended to replace and upgrade an existing 30-year old 10-inch diameter water transmission line and construct a new booster pump station as well as increase the capacity of these water transmission and pumping facilities. | <b>MND</b>       | 02/13/2007     |
| 2007012057   | Thunder Valley Casino Parking (PDSC T20060813)<br>Placer County Planning Department<br>Rocklin--Placer<br>Proposed to construct a temporary area for over-flow parking during high-volume holidays or events at the casino.  | <b>MND</b>       | 02/13/2007     |
| 2007012058   | Walnut Park West Master Plan Development<br>Yuba City<br>Yuba City--Sutter<br>The applicant, A&G Montna Properties, LP, has submitted a Tentative Map to the City that proposes creation of a subdivision totaling 277 lots for single-family residential development on a 39.18-acre project site. The project also will include development of nine small lots that will be landscaped. Rezoning of the property from R-1 (Single Family Residential) to PD (Planned Development) is also proposed. In addition to the Tentative Map, the application also includes a proposed Development Agreement with the City and a developer-prepared Master Plan. The Master Plan responds to a City-identified need to prepare an all-inclusive master plan document for the project site and for adjoining lands.   | <b>MND</b>       | 02/13/2007     |

| 2007012059   | <p>Monticello and Talavera Master Plan Developments<br/>Yuba City<br/>Yuba City--Sutter</p> <p>The applicant, Reynen &amp; Bardis Communities, has submitted two Tentative Maps to the City that proposes creation of a subdivision totaling 672 lots for single-family residential development on a collective 184-acre project site. The project also will include development of several small lots that will be landscaped. A community park and K-8 school site will also be developed on the project site, through the school will be pursued under separate entitlement and CEQA actions by the Yuba City Unified School District. In addition to the Tentative Map, the application also includes a proposed Rezoning from the current One Family Residence, Special Standards Combining District (R-1-X22) to a Planned Development District for a portion of the Monticello subdivision; a Development Agreement with the City; and a developer-prepared North Township Road Area Technical Master Plan. The Master Plan responds to a City-identified need to prepare an all-inclusive infrastructure and phasing master plan document for the project site and adjoining lands.</p>   | <b>MND</b>       | 02/13/2007     |
| 2007012060   | <p>Hammer Lane Phase III Street Widening Project<br/>Stockton, City of<br/>Stockton--San Joaquin</p> <p>The City is proposing to widen and improve approximately 1.67 miles of Hammer Lane between Kelley Drive and Thornton Road. The proposed project would reduce existing congestion, improve east-west circulation and accommodate cumulative travel demand (anticipated travel demand for the next 20 years) to maintain a minimum of Level of Service (LOS) D for the City of Stockton General Plan buildout conditions. Widening Hammer Lane is a necessary component of the City's transportation program to improve transportation to comply with the City's General Plan and the Congestion Management Program. The project is needed because local growth and development has increased traffic volumes on Hammer Lane resulting in increased congestion. There are existing operational problems (delays) at several intersections. The widening project will help maintain and improve connectivity between I-5 and SR 99.</p>  | <b>MND</b>       | 02/14/2007     |

| 2007018078   | I-80 Across the Top Bus/Carpool Lanes Project<br>Caltrans #3<br>Sacramento--Sacramento<br>Caltrans proposes to add bus/carpool lanes in the median of I-80 in Sacramento County from the Sacramento River to Longview Drive (PM 0.0/10.4). This project includes subsurface test drilling at four locations: the Rio Linda Boulevard under-crossing, Winters Street under-crossing, Del Paso Park overhead, and Longview Drive over-crossing.   | <b>NOE</b>       |                |
| 2007018079   | Repair Footbridge in the Pygmy Forest<br>Parks and Recreation, Department of<br>--Mendocino<br>Repair existing flood damaged footbridge in the Pygmy Forest at Van Damme State Park by replacing the wooden support structure and sections of wooden handrail and decking. The bridge will not be moved from its original alignment. Work will be conducted outside of the Little River channel only. Materials and equipment will be carried to and from the remote project location by hand and along the existing trail system. Work will be conducted according to, but not limited to, California Department of Fish and Game conditions. No power tools will be used on-site between February 1 and September 15 to avoid noise disturbance to northern spotted owls and marbled murrelets. No cultural resources will be impacted by this project. | <b>NOE</b>       |                |
| 2007018080   | Glorietta Elementary School Sidewalk<br>Orinda, City of<br>Orinda--Contra Costa<br>This project will construct new sidewalk, replace curb and gutter, and repair paths were needed in the vicinity of Glorietta Elementary School at 15 Martha Road in the City of Orinda. These improvements will make the targeted to provide children and pedestrians with a safer path to the school.   | <b>NOE</b>       |                |
