STATE CLEARINGHOUSE

NEWSLETTER

January 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1-15, 2008.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Wednesday, January 02, 2008</u>			
2007011087	Famoso Ethanol Plant Project by Cilion Inc Kern County Planning Department --Kern Cilion Inc. is proposing a project that includes the construction and operation of a new corn to ethanol production facility in Famoso, CA on property that is designated by the Kern County General Plan for industrial use, but currently has a non-conforming R-1 (Low-density Residential) zone classification. The proposed project includes a zone change to M-2 PD (Medium-industrial - Precise Development) or a more restrictive district, a zone modification to allow a 110-foot-tall and a 114-foot-tall structure, where a maximum of 100 foot height limit is permitted (Section 19.38.080) in a M-2 PD District, a precise development plan and a request for a non-summary vacation for portions of 4th, 5th, 6th, "B", and "C" Street, located in the Famoso area.	EIR	02/15/2008
2008011001	Blackstock II Monterey County Planning & Building Inspection --Monterey Combined Development Permit consisting of 1) a Coastal Administrative Permit and Design Approval to allow a 2,889 square foot addition to an existing single family dwelling, including modification of the existing driveway, motor court, and patio areas, and the construction of an attached 220 linear foot garden wall; 2) a Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat; 3) a Coastal Development Permit to allow development within a 750 foot cultural resources buffer zone; and 4) a Coastal Development Permit to allow the removal of three (3) Coast Live Oak trees, and one (1) Monterey Cypress tree.	MND	01/31/2008
2008011002	Tentative Tract Map No. 33973 Perris, City of Canyon Lake, Moreno Valley--Riverside The proposed project is a Tentative Tract Map of 384 single-family residential lots on approximately 153.7 acres (2.50 dwelling units/gross acre). Six lettered lots include 47.36 acres. Lots A, B, C are San Jacinto River Corridor Open Space lots; Lot D (0.91 acres) is a proposed City-maintained Detention/Water Quality Basin; Lot E is a proposed 25.4-acre City-maintained community park, which includes a grinder pump system to handle sewerage generated from park; and Lot F is a 0.22 acre sewer lift station. Primary access to the project site is via River Road from Mapes Road west of Goetz Road to Ethanac Road. Secondary Access if from Mapes Road via Phillips Street to Ethanac Road. The third access is from McPherson Road to Mapes Road.	MND	01/31/2008
2008012001	Maloney Design Review Marin County --Marin The project is on a vacant property in San Geronimo and includes: 1) a two-story, 1,440 square foot single-family residence; 2) a 224 square foot, 12.5-foot tall detached studio accessory structure; and 3) an unenclosed 340 square foot, 10-foot tall detached carport. 2008018012	South Oso Flaco Prescribed Burn, Oceano Dunes State Vehicular Recreation Area Parks and Recreation, Department of --San Luis Obispo Approximately a 157.7 acre site in the South Oso Flaco foredunes will be burned to remove <i>Ammophila arenaria</i> (European beachgrass), a nonnative, invasive plant species. The site is bordered by shoreline to the west, and open dunes to the north, south, and east. There are no structures on or immediately adjacent to the site, and the site has not been previously disturbed by development.	NOE	
2008018013	Upper Ranch Play Area Restoration - Hollister Hills State Vehicular Recreation Area SVRA Parks and Recreation, Department of Hollister--San Benito This project will restore a 4x4 play area to improve the visual impact and reduce erosion and sediment loss. Tasks include: restoring native vegetation, restoring soil to natural grade, removing un-needed culverts, and constructing a sustainable 4x4 trail through the area. This will improve wildlife habitat and reduce soil erosion and loss. All work will be done in the dry season and any vegetation removed will be retained and used as cover. Seed will be spread in the late summer or early fall.	NOE	
2008018014	Parking Shade Ramadas - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will construct two parking shade ramadas. The ramadas are 72 feet long and 18 feet wide. For the project pad, both structures will involve leveling of surface, not to be disturbed below 6 inches. They will also include post installation to a depth of 3 feet by 9 inches in circumference. The relocation of non-endangered plants will be completed if possible.	NOE	
2008018015	Improved Natural-Gas Fired Aluminum Smelter Burner Energy Commission Compton--Los Angeles GTI proposes to install a demonstration of a commercial size prototype flex-flame burner in California. Thorock Metals in Compton, California hosted the early demonstration tests. Field demonstration is slated to be conducted in year two and will consist of parametric and life-cycle tests to optimize operating conditions, to confirm burner reliability, and to collect data on decreased emissions and energy use. The original total cost of this project was \$480,000 in 2005 and the Public Purpose Natural Gas RD&D program's contribution was \$360,000 (75%). After augmentation the total cost to PEIR will be \$384,573.	NOE	
2008018016	Temporary Construction Parking University of California, Davis Sacramento--Sacramento The University of California, David Medical Center proposes to provide temporary contractor parking on existing vacant property at the southeast corner of 48th and V Streets. This 0.9 acre site formerly contained the Kiwanis Family House, including approximately 13 paved parking spaces and 2 recreational vehicle parking slots, all of which were demolished in 2007. The proposed project will grade the site and provide a layer of crushed rock. Existing landscaping, berms and trees will be retained along V Street. It is expected that the site will accommodate approximately 75 vehicles. The proposed project would be	NOE

	streets, utilities, and storm drain improvements as required to serve the proposed development. Principal site access is proposed to be available from Wyndham Lane. A secondary public access will be provided to the site via Valentine Lane. As an amenity, the proposed subdivision also proposes an 8-foot meandering pedestrian trail along the southern boundary of the site, atop the bank of Canyon Hollow Creek. Implementation of the proposed project will be constructed in three phases over an anticipated four-year period. However, the pace of development will be ultimately predicated on economic conditions being conducive for buyers purchasing homes. It is assumed that infrastructure improvements for each phase will be constructed over an approximate four-month period depending on weather conditions and acquisition of necessary approvals from the various utility purveyors.		
2000092067	Lawson's Landing Master Plan, Coastal Permit, and Tidelands Permit Marin County --Marin Land use and development plan for 850+ acre property (primary use is recreational, on 180 acres), modifications to existing 233-space RV park, 1,000 vehicle campground and associated services and facilities, existing agricultural use on most of the property and sand quarry. Changes are proposed to water storage/distribution, sewage, remodeling, replacing and limited new structures, circulation and recreation.	FIN	01/28/2008
2007062127	Dry Creek Rancheria Economic Development Master Plan Dry Creek Rancheria Band of Pomo Indians Healdsburg--Sonoma The project includes the construction of a casino, hotel/spa, food and beverage venues, parking and storage, administrative facilities, a garden and terrace plaza, balconies and terraces, a retail area, conference facilities, and BOH (back of house) facilities. It includes three above-ground levels and a hotel tower (up to eight levels) and four below-ground levels to be built in two phases.	FIN	01/15/2008
2007081004	State Route 91 Eastbound Lane Addition between SR-241 and SR-71 Caltrans #12 Anaheim, Corona, Yorba Linda--Orange, Riverside The California Department of Transportation, in cooperation with the Orange County Transportation Authority (OCTA) and the Riverside County Transportation Commission (RCTC), is proposing to add a lane to the eastbound Riverside Freeway (SR-91) between the Eastern Toll Road (SR-241) in eastern Orange County and the Corona Expressway (SR-71) in western Riverside County to reduce traffic congestion.	FON	
2008011005	Wal-Mart Supercenter Fontana, City of Fontana--San Bernardino Development of approximately 245,000 square foot Wal-Mart Supercenter on 22.05 acres. The Supercenter and appurtenant structures will include a garden center, pharmacy with drive-through lanes, tire and lube facility, and may include a vision and hearing care center, food service, a photostudio and photo finishing center, a banking center, an arcade, and accessory uses. The commercial business will offer groceries and general retail merchandise including alcohol for off-site consumption, pool chemicals, petroleum products, pesticides, paint products, firearms and ammunition. The Supercenter building will operate 24 hours per day; other facilities, including the tire and lube facility, will not operate 24	NOP	02/04/2008

	hours a day.		
2008011006	2455 S. Figueroa Apartments and Replacement Parking Los Angeles, City of Los Angeles, City of--Los Angeles The project proposes the development of a building containing 145 dwelling units and replacement parking for the adjacent St. Vincent de Paul Roman Catholic Church. The project is designed to provide housing for students attending local educational institutions, but could make approximately ten percent of the total units (i.e. 15 units) available for faculty, staff, and the public. The project would develop a five-story building atop two levels of subterranean parking with the top four stories to be used for residential uses, and the bottom three levels reserved for parking. The residential component of the building would total 160,115 sq. ft.. A total of 443 parking spaces would be provided, with 310 spaces reserved for residents of the building in the two subterranean levels and 133 parking spaces, including 125 replacement spaces for the Church, located on the ground level.	NOP	02/04/2008
2008012004	Diamond Dorado Retail Center Project El Dorado County Diamond Springs--El Dorado The Applicant is proposing a General Plan Amendment (GPA) from Industrial to Commercial use, an associated rezoning to General Commercial (CG), and a Planned Development (PD) Overlay to allow for the development of the Diamond Dorado Retail Center (DDRC) Project. The lands subject to the proposed GPA and rezone are illustrated in Exhibit 2. The project would include the development of up to approximately 435,000 square feet (ft2) of commercial/retail space consisting of up to ten commercial/retail buildings and 1,895 parking spaces on approximately 44 acres. The project would include up to three large retail stores (one-story) and seven small retail/office buildings (two-floors). The buildings would be connected by pedestrian walkways and accessible from Diamond Road (SR 49), the proposed Diamond Springs Parkway, and the proposed El Dorado Multi-Use Trail. A separate EIR is being prepared for the County Department of Transportation to address the construction and operation of the Diamond Springs Parkway Project.	NOP	02/04/2008
2008012005	Sutro Tower Digital Television Project San Francisco Planning Department San Francisco--San Francisco The project site is in the Midtown Terrace area of the Twin Peaks neighborhood. The proposed project would involve conversion of the television antennas on Sutro Tower from the current combination of analog and digital to an all-digital system, in compliance with a Federal Communications Commission mandate effective 2009. Additional smaller-scale antennas (such as microwave dishes and panel antennas) would also be added. In addition, the project could include the replacement or addition of small ancillary and accessory antennas and equipment. The proposed project also includes structural, electrical, elevator, and public safety improvements to the tower. The project would result in an overall net reduction of approximately 14 television antennas, from 22 to 8 antennas. There would be no expansion of the tower itself or the ancillary buildings at the base of the tower.	NOP	02/04/2008

2008012006	<p>Carmichael Recreation and Park District Master Plan Sacramento County --Sacramento</p> <p>The Carmichael Recreation and Park District Master Plan outlines the goals and vision for 11 different parks within the Carmichael Community. The Master Plan is a guiding document for the development of these parks as funding becomes available. Parks within the Master Plan include Bird Track Park, Del Campo Park, La Sierra Community Center, Carmichael Park, Cardinal Oaks Park, Capra Park, Glancy Oaks Park, Schweitzer Grove Nature Area, Jan Drive Park, and Sutter-Jensen Community Park. The framework for operation and specific improvements are listed for each park site, including currently developed, undeveloped, and partially developed parks. Improvements to existing developed park facilities will include replacing aging amenities such as picnic areas, parking lots, sport fields, and park associated structures. Park sites or portions of park sites currently not developed will be enhanced with park facilities to serve nearby urban areas and residential communities. Specific design programs for each park site aim to provide high quality, well-managed and well-maintained parks and recreation facilities. Public input was utilized in determining overall community needs and development priorities for the specified park sites. The Community Needs Assessment outlined in the proposed Master Plan identifies key public involvement findings, existing park and recreation resources owned by both the Carmichael Recreation and Park District and other public providers, current level of service provided by the parks and recreation facilities, and assess the overall need for park and recreation facilities in the Carmichael Recreation and Park District planning area. The various methods used to assess the current and future needs for park and recreation facilities include: review of local, state, and national trends in sports and recreation; park use patterns; and community demands.</p>	Neg	02/04/2008

2007111099	<p>North County Jail Santa Barbara County Santa Maria--Santa Barbara</p> <p>The Santa Barbara County Sheriff's Department is proposing to acquire approximately 50 acres of property for the construction and operation of an 808 to 1,520-bed detention facility. The site may ultimately support other County public safety facilities as well. These may include a public safety training facility (which would include police and fire facilities), an indoor firing range (lead free), and an emergency vehicle operation course. Construction of the jail facility will occur in two broad phases. Phase 1 would include the first 808 beds of a combined County jail and State re-entry facility as well as supporting medical, administrative, warehouse, food service, classroom, vocation, courtroom and law enforcement uses. The initial phase would include and estimated 391,663 square feet of building area. It is expected to be completed over a period of approximately one to three years, but could take up to approximately five years. Phase 2 would consist of an additional 712 beds with up to an additional 155,104 square feet of new facilities, including the live-in work furlough program. Total building area at full build out would be approximately 546,767 square feet.</p>	SIR	02/19/2008

2008011011	Camino Ruiz Connector Trail San Diego, City of --San Diego The proposed project requires the approval of a Site Development Permit (SDP) to allow for improvements (widening) to an existing dirt trail, south and west of Camino Ruiz Park. Improvements to the existing trail are required to connect to the larger trail system within the Los Penasquitos Canyon Preserve Open Space Park. The proposed trail follows an existing trail created by migrants, which as been abandoned since construction of the Neighborhood park. Debris from the migrant camps would be removed as part of the project and habitat restored during trail construction. The trail has an elevation change of approximately 220 feet from the canyon rim to the canyon floor and would begin at the southwest corner of the Park, on the north facing slope for a total length of approximately 3,210 feet. The existing trail varies in width, but is roughly two-feet wide along most of its alignment. The proposed formalization of this trail would require widening it to four feet. For much of the alignment, this would only require trimming the vegetation. In addition to the trail improvements, the proposed project includes the construction of two small puncheon bridges to avoid unnecessary impacts to the existing small urban drainages.	MND	02/05/2008

	buildings is 253,740 square feet; individual buildings range from 6,000 square feet to 42,776 square feet. The proposed General Plan amendment involves changes to both the Land Use and Circulation elements. The amendment to the Land Use Element would eliminate the existing Commercial land use designation for approximately 6 acres closest to Alessandro Boulevard, placing the entire site within the Business Park/Industrial land use designation. The Circulation element amendment would add Old 215 Frontage Road south of Alessandro Boulevard to the Circulation Element roadway system as a Minor Arterial. The zone Change involves the approximately 19 acres corresponding to the Master Plot Plan, eliminating the existing Community Commercial and Industrial land use districts and placing the proposed development within the Business Park district. The existing Air Installation Compatibility Use Zone overlay district designation for the site will remain unchanged.		
2008011053	5425 SSL 1-07; Franchise Amendment Application for Franchise Ordinance F-412; Naftex Operating Company Kern County Planning Department Bakersfield--Kern Amend Franchise Ordinance F-412 by the Naftex Operating Company with the County of Kern. The project is comprised of a 5.6-mile pipeline with 5.1 miles to be placed in the right-of-way of County roads and an additional 0.5 miles to be placed on private property.	MND	02/15/2008
2008012008	Fitzgerald/Mackay Tentative Parcel Map P-06-80 Trinity County Planning Department --Trinity Proposed parcel map to create 2 parcels from 22 acres. Highway 299 provides access. The Trinity River cuts through the Northwest corner, Mill Creek forms the western boundary and Cedar Creek forms the eastern boundary. The majority of the property is developed with an older mobile home park, and a closed down bar/restaurant. The applicant wants to divide off 6 acres on the western portion. There is an existing building pad that was cut out of the slope in the 1950's that will serve as the building site for the second parcel. There is an existing access road to the site that will require minor improvements. A sewage disposal system and water system will need to be developed for the vacant proposed parcel.	MND	02/05/2008
2008011010	California State University, Fresno Campus Master Plan EIR California State University Trustees Fresno--Fresno The Board of Trustees intends to prepare a combination Program/Project EIR for the California State University, Fresno Campus Master Plan Revision. The program EIR would analyze the environmental impacts associated with potential campus growth to 26,396 FTES, as well as impacts associated with the full building program and other improvements required to serve the new population through a 10-year and 20-year planning horizon. Project buildout (campus remodeling and new construction) is expected to take place over approximately the next 18 years. The EIR would also fully evaluate specific projects slated for implementation where sufficient detail is available to allow analysis at a site-specific, project level.	NOP	02/05/2008

2006091002	Los Robles del Mar Annexation San Luis Obispo County Local Agency Formation Commission Pismo Beach--San Luis Obispo The proposed project involves the use (i.e. municipal pumping) of on-site wells in order to augment the City of Pismo Beach water supply in conjunction with approval of the proposed annexation of the Los Robles del Mar site into the City of Pismo Beach. The Supplemental EIR focuses on the City's plan to utilize the on-site water wells in order to augment the municipal water supply, the impacts of pumping of these wells upon the private (rural) wells and other municipal water wells (City of Arroyo Grande) in the area and the potential impacts upon the groundwater aquifer. Also to be addressed are the cumulative impacts upon the groundwater basin due to the pumping of the on-site wells in combination with the private and municipal wells (operated by the Cities of Pismo Beach and Arroyo Grande) in the vicinity, the potential impacts of the pumping of the on-site wells upon biological resources in the area and the land use/growth-inducing impacts of these actions.	Oth	
2007071142	County Operations Center Master Plan San Diego County San Diego--San Diego The proposed project would demolish the majority of the existing COC facilities (approximately 425,000 gross square feet (gsf)) and replace them with approximately 1,125,000 gsf of new COC office buildings. Additionally, two parking structures will be constructed comprising of approximately 571,000 gsf and 770,000 gsf.	RIR	02/20/2008

	Coastal Development Permits, Conditional Use Permits, Special Permits, Final Map Subdivisions, and Planned Unit Developments. The purpose of the proposed General Plan Amendment, Local Coastal Plan Amendment, and Zone Reclassification is to facilitate the implementation of the Master Plan and involves changing the land use designations consistent with the Plan. The project area is located in the Coastal Zone. In order to proceed with the project, the Department determined that a Local Coastal Plan (LCP) Amendment is required to ensure consistency with the General Plan. The LCP Amendment would add the land use designation of Business Park (MB) and Natural Resources (NR) within the proposed Samoa urban limit line and would further specify requirements for development within tsunami run-up areas.		
2007101063	Rd Ext. 07-01, CDP 07-11, LLA 07-01 and Variance 7229 Laguna Beach, City of Laguna Beach--Orange Road extension to serve four building sites and a lot line adjustment to reduce five existing building sites to four.	MND	02/07/2008
2008011017	Santiago Creek Bike Trail - Tustin to Collins (Tustin Branch Trail) Orange, City of Orange--Orange The proposed project consists of the construction of a Class I bike trail along the Santiago Creek from Tustin Street to Walnut Avenue and city-owned railroad right-of-way from Walnut Avenue to Collins Avenue. The proposed project includes the expansion of the existing Santiago Creek Bike Trail by constructing a 10-foot wide paved bicycle trail approximately 7,750 linear feet with two foot graded/asphalt shoulders along Santiago Creek and 2,500 linear feet on city-owned railroad right-of-way which will join the existing Class I bike trail near Tustin Street/La Veta Avenue. A portion of the proposed bike trail is located on un-zoned railroad right-of-way; therefore the project also proposes zoning the un-zoned railroad right-of-way to R-O (Open Space). Since the proposed zoning will result in an inconsistency with the existing General Plan land use designation (Low medium density residential and Medium density residential), the project also proposes a General Plan Amendment to Open Space.	MND	02/06/2008
2008012014	Cardinal Avenue Improvement Project San Joaquin County Stockton--San Joaquin The proposed project will consist of removing an abandoned segment of the Stockton Terminal and Eastern (ST&E) railroad track and lowering the approach grades to the railroad tracks by approximately 10 vertical feet along Cardinal Avenue between Weber Avenue and State Route 26, for approximately 1,000 feet long; additional work will include shoulder widening and reduction to the road curvature. The improvements will conform with and transition to a previously completed road improvement project on Cardinal Avenue south of the project. These improvements will increase vehicular visibility and safety.	MND	02/11/2008
2008012015	Newark Phase 2 Groundwater Desalination Facility Expansion Project Alameda County Water District Fremont, Newark--Alameda The proposed project involves expansion of the existing groundwater desalination facility and construction of associated facilities in Newark and Fremont. 	<p>to be located southwest of the new restroom location).</p> <ul style="list-style-type: none"> - Re-stripe the parking lot and provide for handicap parking spaces next to the new restroom. <p>The larger restroom is necessary due to the increased seasonal use of the site and greater frequency of special events at the site.</p>		
2008012013	<p>Lower Sunrise Restroom Replacement Sacramento County --Sacramento</p> <p>The proposed project will provide updated restroom facilities for Parkway users. The project will:</p> <ul style="list-style-type: none"> - Demolish and replace the existing restroom and drinking fountain with a new pre-fabricated restroom structure (drinking fountain included with the new restroom). - Reconnect the new restroom to the existing septic system. - Abandon the existing water line and install a new 2-inch water line from the north of the new restroom, connecting the restroom to existing water supply lines located to the northwest. - Install a new solar system power pole southeast of the restroom (south side of the bike trail) and install 2-inch electrical lines connecting the restroom to the new solar power pole. - Resurface the existing paved area. <p>A certified arborist will be onsite for any pruning and to ensure tree protective measures are adhered to.</p>	Neg	02/06/2008
2007081082	<p>Lampson Avenue Well Project Seal Beach, City of Seal Beach--Orange</p> <p>The City currently has three active wells with a total capacity of 8,000 gallons per minute. Should one of the three wells require maintenance or be out of service, the local supply capacity may be as low as 4,800 gallons per minute. This closely matches the maximum day demand of 4,773 gallons per minute. With the addition of the Lampson Avenue Well, anticipated to have a pumping capacity between 4,000 and 5,000 gallons per minute, the City will have local supplies that can meet the system's maximum daily demand in the situation when not all wells are available for use. The proposed well facility is an approximately 3,300 square foot cement masonry unit (CMU) enclosed building composed of four rooms/areas. The building is proposed to receive a stucco coating on the exterior that will cover the CMU walls. Additionally the building is proposed to have a cement/clay tile roof. There is a generator room which houses a natural gas generator set; a pump room that houses the well pump/electric motor assembly, discharge piping and valves, pump to waste piping and valves, motor control center, and other appurtenant facilities; a disinfection equipment room which houses an on-site disinfection unit, and an office for City maintenance and operations personnel/staff. The overall height of the building would be approximately 18 feet in height which is compatible with nearby structures in the area.</p>	Oth

2008012016	Santos Final Map Subdivision/Coastal Development Permit Humboldt County Community Development Services --Humboldt A Final Map Subdivision/Coastal Development Permit application. The project proposes subdivision of 20.7 acres into 88 residential lots. Lots A and B dedicated for park use, and Parcel K for a stormwater detention basin. The subdivision requires exception to lot frontage requirements and road width standards to allow for flag lot configuration, and exemption to solar access standards for Lots 75 and 85. The project is served by community water and sewer, and accessed from Windsor Avenue, Duchess Road, and the westerly extension of McKinleyville Avenue from School Road. The project involves removal of eucalyptus trees along the western boundary of the site and removal of nine pine trees to accommodate site grading and the extension of McKinleyville Avenue. In addition to the use of Parcel K for a stormwater detention basin, the applicant would like to utilize a portion of Windsor Avenue. Windsor Avenue is a public road and the right-of-way is owned in fee by the County. In the event that a portion of Windsor Avenue cannot be used for stormwater detention basin purposes, then an alternative area(s) will be provided on-site to ensure compliance with Plan policies. The property is partially within the Coastal Zone and requires a Coastal Development Permit.	MND	02/07/2008
2008012021	Beer Rezone and Tentative Parcel Map P-06-75 Trinity County Planning Department --Trinity Rezone from Unclassified with a Recreation District Overlay to Specific Unit Development to allow residential and light agricultural uses on parcel with a minimum lot size of 20 acres. Also, tentative parcel map to create four parcels and remainder. One parcel will be less than 20 acres and the developer is requesting the smaller parcel, which is separated from the rest of the property by the state highway, under Section 30.3 of the county's zoning ordinance. Review of public access to Trinity Lake is also required.	MND	02/07/2008

2003051045	Rose Ranch Shopping Center Oxnard, City of Oxnard--Ventura The proposed project involves the development of a 77,520 square foot commercial shopping center on an approximately 9.4 acre site within the Northeast Community Specific Plan (NECSP) area in the City of Oxnard. The project involves the development of nine single-story buildings. A Fresh and Easy Neighborhood Market (13,935 square feet) and a Walgreens store (14,820 square foot) with a drive-through pharmacy are anchors. Additionally the project proposes a 7,035 square foot restaurant space, a 4,928 square foot bank, and 36,802 square feet of multi-tenant specialty retail space. Entitlements being processed include a general plan amendment (PZ No. 07-620-06), a Northeast Community Specific Plan amendment (PZ No. 07-630-04), and a zone change (PZ No. 07-570-05), a tentative subdivision map (Tract No. 5768), and a special use permit (PZ No. 07-500-15). The general plan and specific plan amendments are requested to change the land use designation from Low Medium Residential to General Commercial.	NOP	02/08/2008
2008011022	Casino San Clemente San Clemente, City of San Clemente--Orange The project proposes to relocate the existing historic Casino building (a distance of approximately 55 feet) to the western portion of the site and construct five residential and mixed-use buildings. The proposed relocation would move and preserve the central, domed portion of the main building. The existing patio, entry and portion of the west wing, along with other features, are proposed to be reconstructed to conform to the building's new location. Other portions of the building and existing structures are proposed to be demolished.	NOP	02/07/2008
2008011025	Home Depot in South Oxnard Oxnard, City of --Ventura The proposed project includes the demolition an existing 103,936 sq. ft. K-Mart that has a 9,309 sq. ft. outdoor garden center, the demolition of 15,584 sq. ft. of miscellaneous retail space attached to the K-Mart as a strip mall, and the construction a 106,383 sq. ft. Home Depot with a 34,760 sq. ft. garden center. The Home Depot is proposed to be constructed within the general footprint of the development that is proposed for demolition. The applicant proposes to subdivide the subject property into three parcels. Parcel 1 is 464,403 sq. ft. and encompasses the Home depot and a common parking area. Parcel 2 is 12,964 sq. ft. and encompasses a drive-through fast food restaurant (Burger King) at the western side of the property. Parcel 3 is 43,578 sq. ft. and encompasses an existing sit-down restaurant at the southeast corner of the property. Entitlements being processed include a planned development permit (PZ No. 07-540-02) for the structures and a vesting tentative parcel map (PZ No. 07-300-04) for the subdivision.	NOP	02/08/2008
2008012025	Morgan Hill Downtown Specific Plan Morgan Hill, City of Morgan Hill--Santa Clara This preliminary Draft Downtown Specific Plan represents an effort by the City of Morgan Hill to Update the 2003 Downtown Design Plan, so that certain land use, circulation and public improvement policies and regulations are revised in a manner that supports reality-based, feasible implementation strategies for	NOP	02/07/2008

	achieving the community's vision for downtown.		
2008011019	Road 620 Shaded Fuel Break Coarsegold Resource Conservation District --Madera Project will construct a shaded fuelbreak up to 300 feet wide from Miami Mountain lookout east to Highway 41. The fuel break will generally follow Woman Road, Road 620 and 628, and Bissett Station Roads. The project will remove brush and ladder fuels to create a fuel break separating the developed area of Oakhurst from the undeveloped lands to the north. The fuel break will tie into the Crook's Mountain Project completed in 2006. Material will be treated with mechanical masticating equipment and hand crews. Slash disposal will consist of chipping, shredding, piling, and burning. Project is planned to be completed during 2008.	Neg	02/07/2008
2008011021	Vogt Grading Permit ED07-110 (PMT2007-00902) San Luis Obispo County --San Luis Obispo Request for a grading permit to grade for a 3,790-square foot SFR, 880-square foot detached garage, two 5,000-gallon water tanks, span bridge, and loop access road, which will result in the disturbance of 0.96 acres including approximately 2,575 cubic yards of cut and 2,350 cubic yards of fill, on a 34.2-acre parcel.	Neg	02/07/2008
2008011023	Proposed Amended Rule (PAR) 1125 - Metal Container, Closure, and Coil Coating Operations South Coast Air Quality Management District -- The objective of PAR 1125 is to partially implement the 2007 AQMP control measure MCS-07, Application of All Feasible Measures, to further reduce volatile organic compound (VOC) emissions. PAR 1125 would lower the VOC limit for food/beverage can end sealing compound from 400 grams per liter to 20 grams per liter, less water and less exempt compounds, which has been achieved in practice. In addition, PAR 1125 would create two new categories for inkjet inks and two new categories for inkjet make-up solvent because of technical limitation in formulating these low solid inks and solvents at the current VOC limit of 300 grams per liter for inks in Rule 1125. The proposed rule would affect industrial metal container, closure and coil coating operators.	Neg	02/07/2008

2007052042	Pacific Lumber Company, Scotia General Plan Amendment, Zone Reclassification, and Final Map Subdivision Humboldt County Community Development Services --Humboldt Pacific Lumber Company is owner of 465 acres of property that constitutes the community of Scotia. The project is a general plan amendment, zone reclassification, final map subdivision, planned development permit and urban limit line extension for portions of Scotia with land use designations of Industrial General or Timberland and zoning of unclassified "U". The request involves changing the land use designation and rezoning approximately 80 acres primarily used for residential uses within the town of Scotia, and subdivision of this area so that existing residences and community facilities are placed on individual lots. Existing residential portions of the town are proposed to be changed from Industrial General to Residential Low Density. Areas of the town that currently include developed utility infrastructure (sewage treatment area, water treatment area/storage, school, and fire station) would be changed from Industrial General or Timberlands to Public Facility. Areas of the town that have existing commercial uses would be changed from Industrial General to Commercial General or Commercial Recreation.	EIR	02/25/2008
2005072125	Tivoli Specific Plan Project Modesto, City of Modesto--Stanislaus The proposed project provides for the consideration and adoption of a Specific Plan to act as a guide for the future mixed-use development of a 454-acre area known as the Tivoli Specific Plan. The Tivoli Specific Plan would include about 286 acres of residential land use designation, totaling 3,241 residential dwelling units, 14 acres of neighborhood-serving commercial, 6 acres of general commercial, 67 acres of regional-serving commercial, 2 acres of professional office space, a 14-acre elementary school site, about 30 acres of parks and open space, 4 acres of public infrastructure, and about 31 acres of interior collector roadways within the Specific Plan area. The project also includes provisions to	FIN

	improve existing traffic and circulation conditions, with construction of new arterial and collector streets for better vehicular circulation and linkages to the existing circulation system and transit services.		
2006072026	Wal-Mart Walters Road Project Suisun, City of Suisun City, Fairfield--Solano The City of Suisun City has prepared a Draft EIR to consider the potential environmental effects of the proposed Wal-Mart Walters Road Project (generally located on the northwest corner of Walters Road and State Route 12, Suisun City, CA). The proposed project requires the approval of a Site plan and Architectural Application No. 06-08, Parcel Map 06-02, Sign Application No. 06-04, and Encroachment Permits to Local Streets. The project consists of approximately 230,000 square feet of commercial activities on approximately 20.1 acres.	FIN	
2006112011	Tract Map 05-1012, Hall Road Development Tehama County Planning Department Corning--Tehama To subdivide approximately 162.5 acres and create 11 parcels ranging from 1.55 acres to 112.92 acres in size.	MND	
2008011026	Pierpont Beach Sand Management Plan San Buenaventura, City of Ventura--Ventura The proposed project involves sand removal from Pierpont Beach and related dune restoration activities, in accordance with the Sand Management Plan (SMP), prepared by Coastal Commission and State Parks Staff. The intent of the Plan is to restore and preserve natural resources while simultaneously addressing the impact of sand encroachment on beach-front homes, reduce sand that encroaches over walls and stairs at the ends of the Lanes; and to enhance visitor safety, enjoyment and recreation. The specific sand removal is from sandy beach and dune ecosystems perpendicular to the residential lanes, above a City right-of-way easement located between San Pedro St., south to Greenock Lane.	MND	02/08/2008
2008011028	Hobbs Minor Subdivision; TPM 20985, Log No. 05-01-006 San Diego County Department of Planning and Land Use Fallbrook--San Diego The proposed project is a two-lot split of a 4.31-acre parcel into two lots of 2.05 and 2.29 acres, respectively. An existing residence will remain on the southern lot. Proposed development will include a new single-family residence on the northern lot with grading for the residential pad, driveway and utility extensions. The property was previously subdivided under TPM 19996 and approved April 27, 1993. TPM 19996 divided a 6.59-acre parcel into two parcels of 2.0 and 4.6 gross acres respectively. A steep slope easement was placed over the central portion of the property that was under avocado cultivation.	MND	02/08/2008
2008012028	Washington Road (Forest Highway 123) Realignment and Resurfacing Nevada County --Nevada The approximately 5.6 mile road from Highway 20 to the town of Washington known as Washington Road and officially as California Forest Highway 123 is proposed to be improved to address drainage and safety deficiencies. 2008012029	<p>Jones Final Map Subdivision Humboldt County Community Development Services --Humboldt</p> <p>A Final Map Subdivision of an approximate 6 acres into Parcels 1, 2 and 3 of approximately 1, 1.9 and 3 acres, respectively. The parcels will be served by community water. Parcel 1 will be served by community sewer; Parcels 2 and 3 by on-site sewage disposal system. The property is accessed from East Cochran Road with Parcel 1 via East Ridge Road and Parcels 2 and 3 via private road through Simpson property. The project requires exception to lot frontage requirements and road width standards, as well as exemption to solar access standards. The project requires exception to lot frontage requirements and road width standards, as well as exemption to solar access standards. The project includes measures to mitigate potential impacts to Mill Creek and adjacent wetlands for access road improvements. The project involves removal of approximately six trees, 12" to 30", for building sites. The project also proposes mitigation for impacts to Azalea Avenue. At a minimum, mitigation shall be equivalent to the per unit amount determined for the Landis Subdivision off of Cochran Road. Mitigation could include direct improvements towards Azalea Avenue or towards completion of the pedestrian path along the west leg of Cochran Road.</p>	MND	02/08/2008
2000032102	<p>Keiser Park Master Plan Windsor, City of Windsor--Sonoma</p> <p>The proposed project would construct a community center, a swimming pool, two softball fields with soccer field overlays, and a children's play area. The project includes development of two parcels of land acquired by the Town, enhancement to the existing facilities, and additional parking.</p> <p>As part of the proposed project, the existing entrance and exit to Keiser Park would be moved approximately 50 feet to the east to align with Oak Park Street. The Street improvements (i.e., sidewalk, crosswalk, curb, and gutter) for the proposed realignment have been constructed, and the project would include the connection of the new driveway to the existing roadway. A second access would be added to the project from the extension of Jaguar Way.</p>	NOP	02/08/2008
2008011027	<p>Chandler Ranch/Rolling Hills Country Club Project Rolling Hills Estates, City of Rolling Hills Estates, Torrance--Los Angeles</p> <p>The Chandler Ranch/Rolling Hills Estates Country Club project would redevelop 225.3 acres currently occupied by the existing Chandler's Palos Verdes Sand and Gravel facility (Chandler's) and the adjacent Rolling Hills Country Club. The proposed development would reconfigure/relocate the existing golf course and construct a new clubhouse complex for the Rolling Hills Country Club. The new golf course facility would primarily be located on the land that currently comprises the Chandler's Palos Verdes Sand and Gravel facility, which is a sand and gravel mine and inert landfill. Reconfiguring/relocating the Rolling Hills Country Club would allow the current golf course land to be redeveloped with a residential community consisting of 112 new single-family homes. The project also includes the dedication of approximately 4.5-5 acres of open space to the City of Torrance to be preserved as permanent open space as part of the adjacent Alta Loma Park.</p>	NOP	02/08/2008

2008018068	State Forest Fuel Reduction and Faller Training Forestry and Fire Protection, Department of --Napa Las Posadas Demonstration State Forest is a 796 acre mixed conifer forest, zoned by Napa County as Agricultural Watershed. A single-engine fire station is co-located on the forest property. LP is unique among the State Forests because it contains the eastern-most stand of coast redwood and does not conduct commercial harvesting operations. Research and demonstration projects are conducted as part of its mission.	NOE					
2008018069	Monte Vista Forest Fire Station - Temporary Engine Relocation Forestry and Fire Protection, Department of El Cajon--San Diego CAL FIRE's San Diego Unit is proposing the temporary re-positioning of one of the two type 3 CAL FIRE engines from the Monte Vista Forest Fire Station to an existing San Diego Rural Fire District facility. This re-positioning would greatly decrease response times to wildland fires in this area. This significant reduction in response time would result in most of these fires being suppressed by the initial attack forces and prior to the fires becoming established on the slopes.	NOE

2008011032	University Office and Medical Park San Marcos, City of --San Diego The applicant, H.G. Fenton Company, proposes to amend SP 90-24 and develop the University Office and Medical Park project (proposed project). The proposed project involves the development of approximately 87 acres with medical offices, professional offices, and a mix of uses as allowed by the existing Specific Plan. Discovery Street will be re-aligned through the project site, and sensitive habitat areas associated with San Marcos Creek will be preserved as open space. The University Office and Medical Park project would also consolidate the development areas into two planning areas. The Medical Office/Professional Office/Hospital/Support Retail development area encompasses approximately 32.5 acres south of the re-alignment Discovery Street and 19 net acres north of the re-aligned Discovery Street. Uses envisioned for these areas would include medical offices, dental offices, surgery centers, urgent care centers, medical laboratories, pharmacies, professional offices, research facilities, and support retail commercial uses. A health care facility and/or smaller scale hospital would also be allowed. The permitted uses under the University Office and Medical Park project would be uses allowed under the existing Specific Plan. Certain uses which require a conditional use permit under the existing Specific Plan will be permitted under the University Office and Medical Park project subject to subsequent approval of a Site Development Permit as set forth in the Specific Plan	NOP	02/11/2008

<u>Documents Received on Monday, January 14, 2008</u>			
2007042083	Use Permit Application #2007-10, Foster Farms Dairy Stanislaus County --Stanislaus The project sponsor has applied for a Use Permit to expand an existing dairy by adding three free stall barns and a special needs barn so that the modified dairy would house a total of 2,400 animals. This would represent an increase of 1,680 cows from existing numbers. All construction would occur within the existing footprint of the facility on land that has previously been graded for construction of the existing barns and corrals. Demolition of existing shade structures, open corrals, and a dairy barn would occur with project implementation. No other modifications of the existing facility would be necessary to house the proposed increased herd. No additional irrigation facilities would be required.	NOP	02/13/2008
2008011036	BP Palm Springs Logistics Center Palm Springs, City of Palm Springs--Riverside The proposed project is a new British Petroleum fuels product terminal and pipeline extension. The 20-acre terminal project site is located west of Indian Avenue and north of 19th Street in the City of Palm Springs.	NOP	02/13/2008
2008012035	Pendagio Vineyard Estates Project Nevada County --Nevada Residential Development The proposed project site is designed to be a rural residential subdivision within a working commercial vineyard. Single-family residences will be situated amid the vineyards and will be constructed with a consistent architectural theme. Each home will be designed in a European/Mediterranean architectural style consistent with a vineyard-themed setting. Large lots and clustering techniques will be utilized in accordance with the Nevada County General Plan Directive - Policy 1.18, which will allow the project to retain roughly 85 percent of the existing vineyard land for continued agricultural use. Future Winery and Tasting Room The applicant is considering plans to create a third party entity to develop and operate a potential commercial winery with attached tasting room on a separate parcel within the project. The potential winery and tasting room would each front along Indian Springs Road and have dedicated parking.	NOP	02/13/2008
2007052069	PA-0700180 (Revised) San Joaquin County Community Development Department Lodi--San Joaquin Site Approval application for a 15,000 square foot building and bocce ball courts for an outdoor sportsmen club. The project will displace approximately ten acres of row crops of a twenty-two acre parcel. The project will operate seven days a week.	Neg	02/13/2008
2008011038	Redmont Pump Station Project Los Angeles County Department of Water and Power Los Angeles, City of--Los Angeles The project would involve the replacement of the existing Redmont Pump Station with a new one in the same community of Sunland in the City of Los Angeles.	Neg	02/13/2008

2008011040	Dauchy / JFK Creek Crossing Project Western Municipal Water District Riverside--Riverside A new 12-inch diameter waterline is proposed to replace an existing 12-inch diameter waterline on John F. Kennedy Drive. The existing waterline is located underground and below the creek bed, and now faces accessibility problems and severe corrosion due to it being below the water table. John F. Kennedy Drive is currently a dirt road between Dauchy Avenue and Louis Pasteur Drive. The proposed pipeline will be located underground except where it crosses over the drainage feature (known as the Dauchy Creek) that is qualified as a jurisdictional water of the U.S. as defined with Section 1600 of the California Fish and Game Code. The District is proposing to keep the pipeline at a level that may allow for a future bridge that is proposed by the City of Riverside. The suspended pipeline will be suspended approximately 14 feet above the bottom of the Dauchy Creek. The suspended portion of the pipeline will be a 12-inch diameter pipeline within a 30-inch diameter steel encasement. Security measures (such as barbed wire fencing) to prevent people from walking on, climbing on, or defacing the pipeline will be incorporated. Future maintenance activities of the suspended pipeline may include painting over and trimming of tree branches.	Neg	02/13/2008
2008011041	Adelanto Wastewater Treatment Plant Expansion Adelanto, City of Adelanto--San Bernardino The City of Adelanto proposes to expand an existing wastewater treatment facility to permit the plant capacity to increase from 1.5 mgd to 4.0 mgd. The new facility will be furnished and installed by Micromedia Filtration Inc. Proceeding the start-up of the new Micromedia plant, one of the existing Biolac oxidation ponds will be converted into a flow equalization facility, and the other will be reserved for treating septic waste, including some domestic water.	Neg	02/13/2008
2007011082	Enos Ranchos Santa Maria, City of Santa Maria--Santa Barbara The proposed project is a General Plan Amendment, Specific Plan Amendment, Rezoning and Prezoning, Annexation, Subdivision, Public Improvement Plans, and Planned Development Permits for the Enos- Ranchos Project on the 122.22 acre property, located in the Entrada Este Specific Plan (Area A-2) at 1909 South Bradley Road, GPZ-2002-009, SPZ-2002-007, E-2002-060, and AN-100. The project would allow up to 344 residential units, a Jr. High School and Park facility, and 66 acres of regional commercial uses.	Oth	
1999031037	North Embarcadero Visionary Plan San Diego Unified Port District The proposed project includes: (1) prolongation of "C" Street, which may be flanked by retail shops/restaurants, and landscaping. (2) An approximately 205-foot tall hotel north of the prolongation of "C" Street, which would include a hotel lobby, approximately 275 guest rooms and suites, approximately 30,000 square feet of retail and restaurants, ballrooms, meeting rooms, a health club, and a terrace deck that will provide access to the public with escalators and elevators. (3) An approximately 275-foot tall hotel south of the prolongation of "C" Street, between Pacific Highway and Harbor Drive, which would include approximately 525 guest rooms and suites, approximately 50,000 square feet of retail and restaurants, ballrooms, meeting rooms, pools, and a third floor terrace deck that will provide access to the public with escalators and elevators. 1997051056	West Coyote Hills Specific Plan/Robert E. Ward Nature Preserve Fullerton, City of Fullerton--Orange The applicant, Pacific Coast Homes (PCH) is proposing an amendment to the Coyote Hills West Master Specific Plan 2-A that would permit the development of a maximum of 760 dwelling units on approximately 179.3 acres. Other components of the West Coyote Hills Specific Plan include a 17.1-acre multiple use site, a 5.2 neighborhood commercial development area, and open space recreational amenities on 282.9 acres. In addition, a 1.3-acre fire station site, which has been developed with a new fire station, is included as a component of the proposed project. Circulation improvements comprise 24.2 acres of the total project site. The City of Fullerton is also proposing improvements to the 72.3-acre Robert E. Ward Nature Preserve, including a small parking area, restrooms and interpretive center, creation of a low fuel zone around the area, a trail maintenance program, interpretive signage along existing paths, and some coastal sage scrub restoration in disturbed areas. Project implementation requires the approval of a general plan amendment, zone change, specific plan amendment, subdivision map, and development agreement. The Draft EIR was last circulated for public comment from April 10- June 9, 2005. The following sections in the Draft EIR have been revised and are now being recirculated for public review and comment. Section 4.4- Air Quality; Section 4.9- Public Health and Safety; Section 4.10- Hydrology and Flood Control; and Section 4.12- Biological Resources.	EIR	03/03/2008
2004011059	Orcutt Area Specific Plan San Luis Obispo, City of San Luis Obispo--San Luis Obispo The Specific Plan includes policies and programs that will guide future annexation and development of the area. 	<p>as well as associated roads and multi-use pedestrian/bike paths. A potential site for a school is also identified although whether a school is necessary within the Specific Plan area has not been determined.</p> <p>Residential development would take up approximately half of the total area, open space and recreation approximately 45%, and the rest would be in mixed-use and public facilities. At full buildout there would be between 980 and 1000 residential dwelling units. The proposed Specific Plan contains detailed information on the acreage and buildout of each use but since the exact areas of future parcels cannot be determined at the specific plan level, these numbers have been generalized.</p>		
2006031060	<p>The Canyons General Plan Amendment/Zone Change File #03-0337/Vesting Tentative Tract Map 6299 Bakersfield, City of Bakersfield--Kern</p> <p>The proposed project includes the development of a new community with residential, commercial, and recreational land uses. The proposed mixed-use project is primarily residential and includes the development of 11 private gated communities with 1,033 private gated residences and 301 non-gated residences. The project includes the development of approximately 1,214 single-family residential lots on approximately 521.26 acres, approximately 120 multi-family dwelling units on approximately 74.86 acres, and approximately 65,000 square feet of general commercial on approximately 8.15 acres. An approximate 28.18 acre semi-public recreational area located near the center of the project site and north of the proposed commercial area includes a private recreational center. In addition to this center, three areas are proposed for parks totaling 17.33 gross acres (12.97 net useable acres). The project plan includes 9.66 miles of public trails and 1.43 miles of Class I bike paths, totaling approximately 11.09 miles. Approximately 284.41 acres will be retained as open space while approximately 42 acres will be maintained as common areas. The proposed project requires a General Plan Land Use Element Amendment, General Plan Circulation Element Amendment, Northeast Bakersfield Specific Parks and Trails Plan Amendment, Zone Change, Parcel Maps, and Consolidated Maintenance District.</p>	EIR	02/29/2008
2006081150	<p>Rancho Canada Village Monterey County Carmel--Monterey</p> <p>The proposed project consists of a Combined Development Permit for the creation of an approximately 281-unit, sustainable mixed-use residential neighborhood. The elements of the design proposal include a mix of "Smart Growth" and "Traditional" neighborhood principles that involve the incorporation of established shopping facilities, schools, open space, and churches. Additionally, the development proposal attempts to meet the need for affordable housing in Carmel Valley. Fifty percent of the homes (140 units) are proposed to be deed-restricted as Affordable and Workforce units (per the pricing and eligibility requirements of Monterey County's Housing Ordinance).</p>	EIR	03/07/2008

	Berryessa Road and North King Road (1610-1650 Berryessa Road). GP07-04-04: General Plan Amendment request to change the Land Use/Transportation Diagram designation from Industrial Park to Heavy Industrial on a 13.68-acre site located on the northeast corner of Junction Avenue and Dado Street (2256 Junction Avenue).		
2007061092	Campus Master Plan Update California State University, Long Beach Long Beach--Los Angeles Due to area-wide and regional growth in student population, new academic, support, and other campus facilities are needed to accommodate a gradual growth in enrollment up to 31,000 FTE (full time equivalent) students on the CSULB campus. The Campus Master Plan update provides for required instructional, research, faculty office and administrative space, student services areas, student housing, sports and recreation, parking, and support facilities.	EIR	02/28/2008
2006061124	Rose City Industrial Park Project Wasco, City of Wasco--Kern The City of Wasco is facilitating the master planning of a rail oriented industrial park east of the City's existing city limits and south of Highway 46. The industrial park area at build out will be 1,640 more or less acres. The industrial park has 1,640 acres more or less with approximately 1,108 acres within the City of Wasco's Sphere of Influence and approximately 530 acres outside of the City of Wasco's Sphere of Influence, proposed for annexation to the City. The previous Sphere of Influence Update in 2005 split APNs 072-120-03, 04, 06, and 17 with portions being in the SOI and portions outside of the City's SOI. Lands within Wasco City Limits (247 acres) are westerly of the proposed industrial park and currently designated as Heavy Industry in the General Plan and zoned HI, Heavy Industry. The lands currently within the city limits will be analyzed as needed to insure any new environmental impacts are identified not previously addressed in the LAFCo Municipal Services Plan dated 2005 and the Initial Study and Addendum dated September 2004 prepared by LSA consultants.	FIN	
2006092023	I-580 Eastbound HOV Lane Project from Hacienda Drive to East of Greenville Road Caltrans #4 Livermore, Pleasanton, Dublin--Alameda The project would construct a high-occupancy vehicle (HOV) lane eastbound in the existing median of I-580 in Alameda County from east of Greenville Road in the City of Livermore to the Hacienda Drive interchange in the City of Pleasanton, a distance of approximately 18.1 km (11.3 miles).	FIN	
2007081023	New Cuyama Community Center Master Plan Santa Barbara County --Santa Barbara The County of Santa Barbara proposes to adopt a Master Plan for the development/consolidation of civic and recreation services in the community of New Cuyama. New proposed development includes Gymnasium/Multi-Purpose Building (15,000 square feet); Library (1,200 square feet); Community Health Center (1,800 square feet); and Community Aquatic Center with pool and associated structures (3,700 square feet, including locker rooms/restrooms and pool equipment room). The existing County Fire Station and Sheriff's Sub-station	MND	02/13/2008

	are located within the Master Plan area and would be retained.		
2008011043	<p>Construction of a High Pressure Natural Gas Pipeline at the Southern California Logistic Airport Victorville, City of Victorville--San Bernardino</p> <p>The project is the construction and operation of a high pressure natural gas pipeline to provide natural gas from the Kern River Gas Company to the Southern California Logistics Airport (SCLA). The pipeline would replace the existing natural gas pipeline to the SCLA from the Southwest Gas Corporation.</p> <p>The proposed project consists primarily of a 10-inch high-pressure (1,333 pounds per square inch gauge [psig]) natural gas pipeline between the existing Kern River Gas Company meter in the northeastern part of the SCLA property and a regulator station that would be constructed at the intersection of West Phantom Street and Aerospace Drive. A total of 9,300 linear feet (LF) (1.8 miles) of pipeline would be installed. The proposed project also includes an odorization station near the Kern River Metering Station.</p>	MND	02/13/2008
2008012043	<p>Walton Waterline and Storage Tank Project Yuba City Yuba City--Sutter</p> <p>Proposed Project Characteristics:</p> <p>The Proposed Project would consist of the installation of approximately 15,500 feet of 30-inch diameter water transmission main, an above grade storage tank with up to 4-million gallons of capacity, a 7,000 gpm booster pumping station, and a groundwater well with treatment facility option. The proposed water main would tie in with an existing 30-inch water main located in the vicinity of B Street and Clark Avenue. This water main feeds into the existing Yuba City Water Treatment Plant located at 701 Northgate Drive in the northeast portion of which draws surface from the Feather River. The Proposed Project will serve an area that is largely builtout and will not see substantial growth in the future.</p>	MND	02/13/2008
2008012044	<p>Mono Gate One Diversion Facility Upgrade Project Los Angeles County Department of Water and Power --Mono</p> <p>The proposed Mono Gate One Facility Upgrade Project consists of (1) construction of an approximately 150-foot bypass pipeline and valve installed to ensure that flows to Lower Rush Creek will not be interrupted. This pipeline will eventually be maintained as a bypass pipeline. (2) Improvements to the Mono Gate structure, installation of equipment (for flow control and monitoring telemetry), and a new measuring station in Rush Creek Return Ditch downstream of the bypass pipeline, and (3) either a new 12 kilovolt overhead power line from the Grant Reservoir shaft house to Mono Gate One along the existing road or a solar power array at the Mono Gate One facility to power operations.</p> <p>The completion of the project will (1) improve the structural integrity of the Mono Gate One Diversion facility; (2) allow for better flow control and measurements from the Grant Reservoir to Lower Rush Creek and Mono Craters Tunnel; and (3) allow for better communications, flow monitoring and flow control between the Mono Gate One facility and LADWP's Bishop facilities.</p>	MND	02/13/2008
