STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**January 1 – 15, 2013**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1 – 15, 2013**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov) .

<b><u>Documents Received on Wednesday, January 02, 2013</u></b>			
2012071031	<p>Pasadena Marriott Residence Inn Project Pasadena, City of Pasadena--Los Angeles</p> <p>The proposed project involves the construction of a 144-room, 5-story extended stay hotel. The hotel would be approximately 94,091 sf in size. In addition to the 144 guest rooms, the hotel would contain approximately 1,200 sf of meeting space, an approximately 750 sf breakfast room and associated kitchen facilities (for hotel guests only), a lobby, laundry and housekeeping facilities, and an outdoor recreational area with a swimming pool. One level of underground parking is proposed and would accommodate 117 parking spaces. The proposed project would cater to extended stay guests; as such, all 144 guest rooms would include individual kitchens. The proposed project varies in height from 17 feet up to 65 feet. The hotel would be staffed by approximately 8 full-time employees.</p>	<b>EIR</b>	02/19/2013
2012071018	<p>Ferro Ditch Channel Improvements Project Ventura County Watershed Protection District Ventura--Ventura</p> <p>NOTE: 1 CD - Final</p> <p>The Ventura County Watershed Protection District's Ferro Ditch Channel Improvements Project involves increasing the capacity within the channel to provide flood protection from the 50-year storm. The Ferro Ditch (Channel) is an earthen and concreted rock riprap channel approximately 1,700 feet long, extending downstream and south of the Ferro Debris Basin (Basin) to Los Angeles Avenue.</p>	<b>FIN</b>	
2013012001	<p>McLaughlin Minor Subdivision Humboldt County Eureka--Humboldt</p> <p>A Minor Subdivision to divide an approximately 34.6 acre parcel into three parcels, one 29.6 acre parcel and two, 2.5 acre parcels. The parcel is currently developed with two residences, one which will be situated on proposed Parcel 2 and the other on proposed Parcel 3. Parcel 1 will be vacant and suitable for development on a single family residence. The parcels will be served by an on-site well and on-site wastewater treatment systems. The project site is within the Coastal Zone and a consolidated Coastal Development Permit will be processed by the CA Coastal Commission.</p>	<b>MND</b>	01/31/2013
2013011001	<p>Restoration of Historic Streetcar Service in Downtown Los Angeles Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The streetcar system would run along a 3.8 mile loop within existing traffic lanes and would consist of a fleet of electric-powered vehicles utilizing a track and roadway configuration allowing for mixed-flow operations of streetcar vehicles and automobiles. The proposed alignment would run along 1st Street, Broadway, 11th Street, Figueroa Street, Grand Avenue, 7th Street or 9th Street, and Hill Street. Power to the vehicles would be provided via ~five traction power substations and an overhead contact system. Streetcar stops would be located every block in a north-south direction and every other block in the east-west direction. One of three optional maintenance facility sites would be developed as part of the project.</p>	<b>NOP</b>	01/31/2013

<b><u>Documents Received on Wednesday, January 02, 2013</u></b>			
2013012002	Cartan Field Improvement Project Atherton, City of Atherton--San Mateo Menlo College and Menlo School jointly are proposing to completely reconstruct the Cartan Field sports facility. All of the existing uses and fields will be completely demolished and rebuilt with state-of-the-art designs. This project represents upgrading of sports facilities only and is not connected with any increase in enrollment at the schools. There are few changes to the overall Menlo College and School sporting activities, however, some activities will move from the main campuses to Cartan Field.	<b>NOP</b>	01/31/2013
2013012003	I-80/SR-65 Interchange Improvements Project Caltrans #3 Roseville, Rocklin--Placer The California Department of Transportation (Caltrans), in cooperation with the Placer County Transportation Planning Agency (PCTPA), Placer County, and the Cities of Roseville, Rocklin, and Lincoln, proposes to improve the Interstate 80/State Route 65 (I-80/SR 65) Interchange in Placer County, California, to reduce future traffic congestion, improve operations and safety, and comply with current Caltrans and local agency design standards.	<b>NOP</b>	01/31/2013
2013012004	Removal Action Workplan for the Pistol Range, Stege Property Toxic Substances Control, Department of Richmond--Contra Costa DTSC, pursuant to regulatory authority granted under Chapter 6.8 of the Health and Safety Code (H&SC), is considering approving a draft Removal Action Workplan (RAW) that was submitted on December 19, 2012 by CH2MHill for the Stage Property Pistol Range (Site). The purpose of the proposed project is to minimize human exposure to lead-impacted soils by excavation and removal to an off-site permitted facility. The estimated volume of impacted soil planned for removal from the Site is approximately 4,800 cubic yards (yds <sup>3</sup> ) or approximately 300 truckloads. Approximately 5,600 yds <sup>3</sup> of backfill soil is available on-site and will be used to fill in the excavated areas. The remaining soil will be redistributed to restore the Site, resulting in a two-foot thick layer of soil above the surrounding grade. If additional soil is needed, clean fill material will be imported from off-site sources consistent with DTSC's Information Advisory - Clean Imported Fill Material (October 2001). The maximum level of lead found at the site was 209,000 milligrams per kilogram (mg/kg) and the cleanup goal is 320 mg/kg.	<b>Neg</b>	01/31/2013
2009022028	Solano State Route 12 Shoulder Widening and Clear Recover Zone Project Caltrans #4 Rio Vista--Solano The Project involves modifications to State Route 12 from west of Liberty Island Road to west of Currie Road to allow for standard shoulder widths, clear recovery zone, left-turn pockets and improvements to vertical sight distances. The Project is located in 3 miles northwest of Rio Vista, in Solano County.	<b>NOD</b>

2007121058	Marriott Residence Inn and Hollister Center Project Goleta, City of Goleta--Santa Barbara The application includes a Development Plan for a 118-room hotel on a vacant parcel located at the northeast corner of Hollister Avenue and Robin Hill Road. The hotel site occupies the westerly 3.79 acres of a larger 10.71-acre parcel. A lot split is proposed to create a smaller, separate parcel for the hotel development, while providing for reciprocal access and parking with the adjacent existing research-manufacturing building. The project also includes a Development Plan Amendment to update the permit for the existing building on the site. The property has a Business Park land use designation with Hotel Overlaying and is zoned M-RP (Industrial Research Park).	<b>EIR</b>	02/19/2013
2012112053	North Gold Bluff Beach Coastal Dune Restoration Project Parks and Recreation, Department of --Humboldt, Del Norte FYI Final  CDPR proposes to restore 222 hectares (550 ac) of coastal dune habitat along the northwest edge of Prairie Creek Redwoods State Park (PCRSP). The primary goal of the project is to restore areas damaged by European beachgrass (Ammophila arenaria) infestation. The project would remove European beachgrass and other invasive exotic plants to restore natural dune processes thus promoting re-vegetation by native dune vegetation and restoring of sand movement. These efforts would increase the amount of suitable habitat for the federally threatened western snow plover ( <i>Charadrius nivosus nivosus</i> ) as well as	<b>MND</b>

	other native dune-adapted plants and animals. The project would involve an integrated approach to beachgrass control with treatment methods that include mechanical removal, manual removal, and flaming.		
2013012008	Nelson Lane Bridge Replacement Project Lincoln, City of Lincoln--Placer The City of Lincoln is proposing to replace a functionally obsolete, two-lane bridge on Nelson Lane (currently without shoulders) with two two-lane bridges to accommodate projected traffic demands and to meet safety standards. Upon the opening of the SR 65 Lincoln Bypass, Nelson Lane became a major urban arterial connecting the SR 65 Bypass to the Lincoln Regional Airport and the westerly portion of the City of Lincoln. Proposed components of the project include: replacing the existing bridge with two two-lane bridges; raising the roadway and bridge profile; constructing a new two-lane northbound roadway; reconstructing the existing two-lane roadway to create a new southbound two-lane roadway; bifurcating the northbound and southbound roadways and constructing a median bioswale; and providing turning lanes at Rockwell Lane and Nicolaus Road.	<b>MND</b>	02/01/2013
2013011003	Kearny High School Athletic Facilities Upgrades Proejct San Diego Unified School District --San Diego Proposed upgrades to athletic facilities with the existing campus.	<b>NOP</b>	02/01/2013
2013012007	Richmond Bay Campus 2013 Long Range Development Plan and Phase 1 Development University of California Richmond--Contra Costa The University of California (UC) proposes to establish a new major research campus at properties it owns in Richmond, California, for the consolidation of biosciences programs of the Lawerence Berkeley National Laboratory (LBNL) and for development of additional research-related facilities for both LBNL and UC Berkeley. This campus would jointly serve UC LBNL and UC Berkeley. The proposed 2013 Long Range Development Plan (LRDP) for the Richmond Bay Campus (RBC) would guide campus development through 2050. Initial development under Phase 1 would occur through 2018.	<b>NOP</b>	02/01/2013
2013012005	San Clemente Elementary School Reconstruction and Modernization Larkspur-Corte Madera School District Corte Madera--Marin Upon the end of the lease for the private school, the Larkspur-Corte Madera School District would reconstruct and modernize the site with the development of a public elementary school. Demolition of the existing structures and clearing of the main site area would be followed by the construction of approximately 39,860 sf of modern classrooms and administrative facilities. Circulation and on-site parking would be enhanced to facilitate traffic flow by enlarging and improving the drop-off/pick-up loop and realignment of the exit driveway. The reconstruction and modernization project would allow the District to accommodate projected future student growth, alleviate overcrowding at other schools, improve flexibility of special education programs and small group instruction, and improve student access in the eastern part of its attendance area.	<b>Neg</b>	02/01/2013

	residential lots with a minimum lot size of 7200 sf and one (1) 6.73 acre lot for open space.		
2013012009	C.W. Dillard Elementary School Renovation Project Elk Grove Unified School District --Sacramento The District proposes to conduct site improvements to the C.W. Dillard Elementary School campus, and an adjacent District-owned parcel. The District plans to demolish all structures with the exception of the multi-purpose room which would remain after the completion of renovation activities. The proposed project would be developed in four phases which would result in the construction of a two-story building with 9 overflow classrooms and a teacher workroom in the southern area of the school, a child care building in the northern area of the school, and 192 total parking stalls. In addition, the adjacent undeveloped District-owned parcel to the east would be partially developed to support elementary school operations. The current school enrollment is approximately 425 students. With the additional school improvements, at build-out, the capacity of the school is projected to be approximately 875. Project development would begin in June 2013, and be completed in September 2015.	<b>MND</b>	02/04/2013
2013011006	Monterey County Jail Housing Addition Monterey County Salinas--Monterey The Monterey County Jail is located at 1410 Natividad Road in the City of Salinas. The jail currently has 825 beds with an inmate population of ~1,100. The proposed project includes the addition of 576 new beds, as well as other facility improvements. The County currently has funding for 288 beds; therefore implementation of the proposed project is anticipated in two phases. Phase I will involve new building construction to expand the existing facility by 61,000 sf to accommodate 288 additional beds; Phase II will construct an additional 61,000 sf building adjacent to the proposed building in Phase I to accommodate another 288 beds. Thus, the project includes a total of 122,000 sf of new building construction to accommodate 576 new beds.	<b>NOP</b>	02/04/2013
2013011004	Major Waste Tire Facility Permit for BJ Used Tire & Rubber Recycling, Inc. Resources Recycling and Recovery, Department of Fontana--San Bernardino The project is to issue a new Major Waste Tire Facility Permit (WTFP) to BJ Used Tire & Rubber Recycling, Inc. (BJ Tire, TPID No. 1001094), located at 14212 Santa Ana Avenue, Fontana, CA 92337. BJ Tire is an existing business, operating under a Minor WTFP and conditional use permit, which receives, sorts and stores waste tires. A Major Waste Tire Facility Permit is required because BJ Tire plans to make the following changes to the existing operations: (1) Increase the maximum number of waste tires that can be stored on-site from 4,999 to 20,000; and (2) Increase the number of customer vehicle trips to and from the facility from 10 vehicle trips per day to 25 vehicle trips per day, semi-truck trips from three to six per day and employee vehicle trips from seven to 14 per day.	<b>Neg</b>	02/04/2013

	Oroville's RMDZ was established on March 31, 1993, re-designated on March 31, 2003, and it will expire March 31, 2013 unless the status is renewed as requested. The boundaries of the approximate 2,586-acre area designated (and re-designated) as the original Oroville Enterprise Zone.		
2013012018	Former Hollister Manufactured Gas Plant - Feasibility Study/Remedial Action Plan Toxic Substances Control, Department of Santa Cruz--Santa Cruz DTSC is considering approval of a Feasibility Study/Remedial Action Plan (FS/RAP) for the former Hollister Manufactured Gas Plant (MGP) Site (hereafter "the Site") pursuant to Health & Safety Code, Division 20, Chapter 6.8 as submitted in October 2012 by AMEC Environment & Infrastructure, Inc. on behalf of Pacific Gas and Electric Company (PG&E). The proposed remedy, hereafter referred to as "the proposed project", includes soil removal to address soil contaminants at the Site, including polycyclic aromatic hydrocarbons (PAHs), arsenic, lead, pentachlorophenol, and gasoline-related volatile organic compounds (VOCs). Remedial activities at the Site are to be performed by PG&E and are expected to begin in the summer 2013. The proposed project includes soil removal within the PG&E property (currently used as the PG&E Service Center) and along two sidewalks immediately adjacent to the PG&E property. The excavated soil will be transported offsite for disposal at appropriate permitted landfill facilities.	<b>Neg</b>	02/07/2013

	of contamination to soil; obtain unrestricted regulatory site closure for the site; and provide a site ready for the unrestricted construction of a retail and residential complex.		
2013012023	Wisconsin Avenue Pump Station Reclamation District 1614 Stockton--San Joaquin The project would demolish the existing pump station and remove portions of storm drain pipelines entering the existing station, as well as remove existing discharge pipelines from the station to a backwater slough of the Calaveras River. A new pump station would be constructed on the existing station site. The new station would include three main pumps and one smaller "low flow" pumps. Each pump would have an attached discharge pipeline that would go over an existing levee to a concrete dissipater box to be constructed in the backwater slough. Two new sections of storm drain pipelines, along with new manholes, would be installed. New chain link fencing would surround the new station, with a chain link double gate allowing entry.	<b>MND</b>	02/08/2013
2013012026	Williams Migrant Center Wastewater Pond Decommissioning/Connection to the City of Williams Sewer System Colusa County Williams--Colusa The Colusa County Migrant Housing Center is under an Abatement and Cleanup Order from the State Water Quality Control Board due to its obsolete wastewater system. To correct this problem the Migrant Housing Center will be connected to the City of Williams wastewater facility by replacing an aged sewer main with the installation of 2,700 LF of 4 inch diameter force main and a lift station within the City right-of-way. The obsolete on-site wastewater ponds will be decommissioned by removing bio-solids, backfilling with soil and grading. There is no change in capacity with the replacement of the old sewer force main. The project will be funded by a grant from the Community Development Block Grant Program.	<b>MND</b>	02/08/2013
2013011012	Griffith Park Crystal Springs New Baseball Fields Los Angeles, City of Los Angeles, City of--Los Angeles The City of Los Angeles is proposing to construct two new youth baseball fields within the existing Crystal Springs Picnic Area of Griffith Park. The City is also considering two alternative locations for the project: one also within the picnic area and the second in North Atwater Park, across the Golden State (I-5) Freeway and the Los Angeles River.	<b>NOP</b>	02/08/2013

	Within the West Planning Area no changes to the existing land use designations are proposed. Project development will include removing an animal waste rendering plant which has been at its current location since 1955.		
2013012024	PA-1200247-Minor Subdivision to Create a 5 Acre Homesite Parcels and a 71.44 Acre Designated Remainder San Joaquin County Tracy--San Joaquin A Minor Subdivision application to subdivide a 76.44 acre parcel into two parcels. Parcel One to contain a 5 acre homesite parcel and a Designated Remainder to contain 71.44 acres. This parcel is under a Williamson Act contract.	<b>Neg</b>	02/08/2013
2013012025	PA-1200231 (SA) San Joaquin County Tracy--San Joaquin A Site Approval application to install a 100 foot monopole communications tower with twelve panel antennas and related equipment contained within a 2,500 sf fenced lease area.	<b>Neg</b>	02/08/2013
2013012029	Oak Park Combined Sewer System Regional Storage Facility Sacramento, City of Sacramento--Sacramento The proposed project consists of excavation of the project site and construction of an underground regional storage facility with a capacity of approximately 400,000 to 500,000 cubic feet on the project site. The majority of the storage system would be gravity fed; however, two small electrical pumps are anticipated to be required in order to completely empty the facility. The pumps would only be utilized to drain the last one to two feet of combined sewage in the facility, and would be located in the enclosed headworks structure for the storage facility. The electrical and supervisory control and data acquisition (SCADA) control would be located in a small pedestal structure on the project site. It should be noted that the SCADA would require a 35-foot-tall communication tower, which would consist of a single, narrow antenna. After construction, the proposed project site would be restored to conditions consistent with the potential end uses of the site per the City Parks and Recreation Department future plans. The City Parks and Recreation Department anticipates a small soccer field to be built over the northwest portion of the project site. Accordingly, the project would include grading and potentially planting grass or placing turf on the portion of the site to be used as a soccer field.	<b>Neg</b>	02/11/2013
1991121070	PUENTE HILLS WASTE MANAGEMENT FACILITIES LANDFILL EXPANSION Los Angeles County Sanitation District WHITTIER--LOS ANGELES The proposed change to the approved project is to eliminate existing restrictions between 6:00 a.m. and 9:00 a.m. and between 4:00 p.m. and 7:00 p.m. on the inbound and outbound shipment of moodities, residuals and waste over public roads and on employee arrival and departure. There would be no other changes to the facility, its capacity, its operation, or any other permit conditions.	<b>NOD</b>	
2006122063	Removal of Invasive Non-native Plants and Revegetation with Native Plants on Two Ranches in the Napa Valley Napa County Resource Conservation District Yountville--Napa The Project is limited to: 1) removal of approximately 200 non-native tree of heaven trees and 40 non-native eucalyptus trees; 2) removal of approximately 4,640 linear feet of non-native Himalayan blackberry, wild grape and Arundo; and	<b>NOD</b>

2012021051	<p>Leo J. Vander Lans Water Treatment Facility (LVLWTF) Expansion Project Water Replenishment of Southern California Long Beach--Los Angeles Expansion of existing 3 million gallons per day (mgd) plant. Plant was designed for future expansion (8 mgd). Proposed expansion to 8 mgd would increase recycled water production that could be used for groundwater recharge, which would reduce the need for potable water prior to injection.</p>	<b>ADM</b>	
2009062097	<p>Safeway Redevelopment Project (Broadway at Pleasant Valley Ave.) Oakland, City of Oakland--Alameda Redevelopment of the existing Rockridge Shopping Center, including demolition of all 185,500 sf of existing buildings on the site and construction of a new Safeway store and other retail, office, and restaurant space, totaling approximately 322,500 sf of commercial space. A total of approximately 967 off-street parking spaces are proposed. Parking would be located in surface parking lots, on the rooftop of the new Safeway store, and in a three-level parking garage located above commercial space. Also proposed are modifications to streets in the project vicinity including changes to the Broadway/51st Street/Pleasant Valley Avenue, Pleasant Valley Avenue/Gilbert Street, Broadway/Coronado Avenue, and Broadway/College Avenue intersections. The project site is not listed on the Cortese List of hazardous materials sites.</p>	<b>EIR</b>	02/25/2013
2011052074	<p>San Jose/Santa Clara Water Pollution Control Plant Master Plan San Jose, City of San Jose--Santa Clara Adoption of Water Pollution Control Plant Master Plan and amendments to the San Jose General Plan and Zoning Ordinance. The Master Plan includes facilities and operations improvements and the phased development of the surrounding lands, including the creation and restoration of habitats and natural corridors to support wildlife, parks, and amenities, as well as commercial, retail, and light industrial development (through the year 2040). The WPCP is located at the southern end of the San Francisco Bay within the northernmost portion of the City of San Jose, immediately north of SR 237, west of I-880, within the Alviso community. The project site is approximately 2,680-acres, within which the main operational area of the WPCP occupies approximately 196 acres.</p>	<b>EIR</b>	02/25/2013
2011061056	<p>Wiseburn High School (201 N. Douglas Street Site) Wiseburn School District El Segundo--Los Angeles The District proposes to develop a high school capable of housing 1,200 students in grades 9 through 12. The site is currently developed with a 4-story building (~335,000 sf) and the building will be renovated to accommodate 180,000-240,000 sf building space to house the high school students and programs. The existing parking lot would be reconfigured to provide athletic fields and hard courts. The</p>	<b>EIR</b>	02/25/2013

	building will contain classrooms, multi-purpose room, library, media center, gymnasium, and visual performing arts center. Two site plan options have been proposed, one without the Grand Avenue link (Option A) between Duley Road and Douglas St and one with the roadway link (Option B).		
2013011013	A/B Transmission Line (161/92-kV)/(230-kV) Upgrade Project Imperial Irrigation District --Imperial The A and B 161/92-kV transmission line (A/B Line) is part of the Project and is one of the four major transmission line upgrades planned for the Transmission System Upgrades Program. The Project would consist of critical Imperial Irrigation District (IID) network and facility upgrades, including upgrades to the A/B Lines, that would allow up to 1,200 megawatts of new power generation facilities to connect to the IID transmission grid. The Project would consist of the upgrade to 18.7 miles of the existing double circuit (161kV and 92kV) transmission lattice towers to double circuit 230 kV from ECSS to the East Highline canal, installation of new monopole double circuit structures to support line rerouting, limited replacement of existing support structures with monopoles, and upgrade of the integral substations.	<b>MND</b>	02/11/2013
2013012030	Pioneer Bluff Bridge West Sacramento, City of West Sacramento--Yolo The City of West Sacramento proposes to build a bridge that will connect the existing two-lane South River Road from the South River Road cul-de-sac on the north side of the Barge Canal to South River Road on the south side of the Barge Canal. The bridge will include one 12-foot lane in each direction and one future un-striped 12-foot lane in each direction, a 2-foot raised median, two 4 to 6-foot shoulders, and two 6-foot walkways separated from traffic by a concrete barrier. The project will signalize the intersection of 15th Street and South River Road. The purpose of the Pioneer Bluff Bridge Project is to construct a bridge that connects South River Road across the Barge Canal.	<b>MND</b>	02/11/2013
2013012031	Ammonia Facilities Project Stockton, City of Stockton--San Joaquin The project is comprised of twelve existing well sites, scattered throughout the City, plus an existing stormwater management facility that would house the NSPAF, located adjacent to the northern levee along the Calaveras River. The proposed NSPAF would add ammonia to municipal water carried in the existing north Stockton pipeline, which provides water from Stockton East Water District's water treatment plant to the City. The proposed NSPAF would consist of a new, approximately 600 sf building that would house the NSPAF, ammonia storage equipment, ammonia dosing equipment, electrical service and pumps, data monitoring and controls, and additional appurtenances including installation of water lines between the existing pipeline and the proposed facility, and sewer connection.	<b>MND</b>	02/11/2013
2003021087	Craven Pit Quarry Expansion Project Merced County Unincorporated--Merced Jaxon Enterprises has applied to Merced County (Major Modification Application No. MM 10-002) to add three new phases to the mine to allow extraction in those three new areas. 	methods of production, would remain the same as approved in Conditional Use Permit 99-009. In addition, methods of reclamation and post-reclamation uses would also be the same as for the previously approved phases.		
2013011014	1802 Santa Monica Boulevard, Mixed Use Project Santa Monica, City of Santa Monica--Los Angeles The project consists of the development of a 33,710 sf three-story mixed-use building that would include an auto dealership; a restaurant, 26 residential units, and a four-level subterranean parking garage. The proposed auto dealership would be located on the ground floor and consist of a retail showroom and auto service department. The service department would consist of 8 fully enclosed service bays located toward the rear of the building. The 1,390 sf restaurant with 240 sf outdoor seating area would also be on the ground level. The project's 26 residential units would be located on the 2nd and 3rd levels above the ground floor commercial uses.	<b>NOP</b>	02/11/2013
2013012033	2600 Marine Way Office Project Mountain View, City of Mountain View--Santa Clara Located on APNs 116-02-021, -024, -063, -067, -075, -076, -087, -090, and -091. The project is the redevelopment of existing office/light industrial properties with new office uses. The project proposes to demolish 118,100 sf of space in eight existing buildings; and remove pavement, landscaping and other improvements. Following demolition, the project would construct two detached office buildings of up to 4-stories each, as well as landscaping, utilities, and other improvements. The proposed 369,500 sf of new office space would be an increase of approximately 251,400 sf over the existing development on the site. The project would include one 6-level and one 3-level parking structure, in addition to surface parking. The project proposes a rezoning of the site from the Limited Industrial (ML) zoning district to the Planned Community (P) zoning district.	<b>NOP</b>	02/11/2013
2013011015	Zoo General Development Plan IP 12-323 Orange County Orange--Orange The proposed project involves a GDP for the OC Zoo, which is a comprehensive plan for implementing capital improvements in a manner that is consistent with the OC Zoo's mission. The GDP will provide a method to update and expand the zoo exhibits; improve the zoo infrastructure for visitor safety and the well-being of the animals; and enhance the visitor recreational experience. The GDP will consist of 11 improvement components to be implemented in a phased manner over the next 10 to 15 years.	<b>Neg</b>	02/11/2013

	roadway improvements include 595 feet west and 425 feet east of the new crossing, for a total project length of 1,182 feet.		
2012102044	Safety Element Alameda County --Alameda This is an update to the County's Safety Element. The goal of the Safety Element is to minimize human injury, loss of life, property damage, and economic and social dislocation due to natural and human-made hazards. The Element was adopted by the Board of Supervisors on January 8, 2013.	<b>NOD</b>	
2012111094	Truckee River Legacy Trail Phase 3B Truckee, City of Truckee--Nevada Note: Reference SCH# 2009092044  The Town of Truckee is proposing to construct 2.11 miles of Class I (paved, multi-use) trail along the Truckee River. For most of its length, the trail will consist of a 10-foot wide asphalt concrete paved trail with 2-foot wide aggregate base shoulders on either side. The Truckee River Legacy Trail Phase 3B consists of a trail extension beginning at the easterly end of the recently completed Phase 3A segment and follows along the south bank of the Truckee River past the Tahoe-Truckee Sanitation Agency Wastewater Treatment Plant, spans Martis Creek, and then ascends to a connection to Glenshire Drive. The trail will cross Martis Creek upstream of its confluence with the Truckee River. This crossing will consist of a prefabricated steel bridge. A portion of the trail (approximately 240 feet) will be constructed within the 100-year floodplain of the Truckee River.	<b>NOD</b>	
2013018079	ZR 2306; TSM 654; & PUD 340 El Cajon, City of El Cajon--San Diego A zone reclassification and an associated nine lot subdivision map for an eight unit common interest residential development.	<b>NOE</b>	
2013018080	Amendment of Zoning Ordinance No. 421 El Cajon, City of El Cajon--San Diego The project expands the types of signs allowed in the downtown El Cajon specific plan area.	<b>NOE</b>	
2013018081	Issuance of Streambed Alteration Agreement No. 1600-2012-0286-R1, Bagley Jeep Trail Fish & Wildlife #1 --Shasta The project proposes installing a wet ford crossing to access substantially damaged timberlands due to fire and to develop an off channel waterhole upstream of the crossing for water drafting.	<b>NOE</b>	
2013018082	CSA #1 and CSA #2 Sewer Lift Station Improvements Del Norte County Crescent City--Del Norte Perform upgrades to existiing CSA lift stations to improve efficiency and decrease maintenance costs.	<b>NOE</b>

<b><u>Documents Received on Tuesday, January 15, 2013</u></b>			
2011042026	Interstate 5 Bus/Carpool Lane Project Caltrans #3 Sacramento--Sacramento Note: JD EIR/EA  Caltrans, in partnership with the Federal Highway Administration (FHWA) and the Sacramento Transportation Authority (STA), is proposing to add approximately 13 miles of Bus/Carpool Lanes (also known as High Occupancy Vehicle or HOV lanes) in both directions on I-5 in Sacramento County, about one mile south of Elk Grove Boulevard to U.S. Highway 50. The project will upgrade the existing Casilada Pedestrian Overcrossing to meet the requirements of the Americans with Disabilities Act (ADA). Four alternatives are presented: Alternative 1 (Bus/Carpool Lanes), Alternative 2 (Mixed Flow), Alternative 3 (Mixed Flow to Bus/Carpool Conversion), and Alternative 4 (No Build).	<b>EIR</b>	02/28/2013
2012031037	General Plan Update Colton, City of Colton--San Bernardino The project consists of the adoption and implementation of updated Land Use, Mobility, and Housing Elements of the City of Colton General Plan. The EIR prepared for the project will also analyze anticipated subsequent amendments to Title 18 (Zoning) of the Colton Municipal Code that may be required to implement the updated General Plan elements. The updated Land Use Element establishes overall development capacity for the City and surrounding areas, and serves as a policy guide for determining the appropriate physical development and character of the City. The updated Mobility Element provides for a circulation system in balance with the Land Use Plan, and addresses City goals to provide "complete streets" consistent with State law. The Housing Element has been updated to address the 2008-2014 planning period.	<b>EIR</b>	02/28/2013
2013011018	Bray Monterey County --Monterey Use Permit to reactivate expired Use Permit PLN080414. Use Permit PLN080414 allowed the drilling of six exploratory oil and gas wells on two sites within the same parcel. Three wells are proposed for each of the two sites, known as the North Paris Valley No. 1 (NPV-1) drill site and the Central Paris Valley No. 1h (CPV-1h) drill site. (No Fracking) (APN 422-281-001-000). The project is located along the east side of Paris Valley Road, west of Highway 101 and four miles north of the town of San Ardo, South County Area Plan.	<b>MND</b>	02/13/2013
2013012038	Columbia Solar Energy, LLC Pittsburg, City of Pittsburg--Contra Costa Development of a 20-megawatt solar photovoltaic (PV) power generation facility. The project would be constructed on land owned by UPI and leased to Columbia Solar Energy for a 20-year period. Project facilities would include PV panels, inverters, related electric equipment, equipment enclosures, an electric switch yard and in one alternative configuration a generation "tie line". The PV panels would be the predominant project feature and would encompass most of the Project Site. The PV panels are non-reflective and would convert sunlight directly into direct current (DC) electricity. Access roads would be provided at the Site perimeter and intermittently between panels to facilitate maintenance and emergency access requirements.	<b>MND</b>	02/13/2013

<b><u>Documents Received on Tuesday, January 15, 2013</u></b>			
2009022078	Slender False Brome Intergrated Pest Management Program Midpeninsula Regional Open Space District Woodside, Portola Valley--San Mateo The Slender False Brome (SFB) Amended Integrated Pest Management (IPM) Program makes two general changes to the existing SFB IPM program: it expands the project area and provides for enhanced treatment methods within the expanded project area. The expanded project area encompasses 16,650 acres in unincorporated San Mateo County, the towns of Woodside, Portola Valley, and La Honda Creek OSP, a small area of Saratoga OSP, and surrounding public and private lands. The Amended IPM program encompasses the entire 2009 project area and adds the former Galloway and Sempervirens Fund parcels acquired by the District in 2012, the Tunitas Creek OSP, and approximately 670 acres of private land south of the La Honda Creek OSP. Enhanced methods include treatment protocols for aquatic habitats within the three existing elements of the program: (1) Pre-treatment surveys and site inspections; (2) Herbicide application (Roundup PROMAX in upland habitats or AquaMaster or Rodeo in Aquatic habitats), as well as manual control methods (handpulling, mulches, tarping and mowing); and (3) Post-treatment, erosion control, restoration, and monitoring.	<b>Neg</b>	02/13/2013
2012121042	Adoption of Ordinance No. 155: 2013 Redevelopment Project Water Use Credit Ordinance of the MPWMD Monterey Peninsula Water Management District Monterey, Seaside, Sand City--Monterey Note: Recirculated  Proposed Ordinance No. 155 (Attachment 2) amends the District's definition of Redevelopment Project to recognize the effect of Assembly Bill x1 26 (AB 26) to abolish redevelopment agencies. The ordinance also amends MPWMD Rule 25.5-D to allow two extensions of Water Use Credit at Redevelopment Project Sites when the credit was documented prior to February 1, 2012 (i.e., prior to ABx1 26).	<b>Neg</b>	02/13/2013
2013011020	Water Distribution System High Speed Ratio Upgrade Las Virgenes Municipal Water District Calabasas--Los Angeles The project proposes to upgrade the existing Supervisory Control and Data Acquisition (SCADA) communication system from a serial radio network to an Ethernet based wireless network. The project will improve communication between various LVMWD facilities in order to provide reliable water, wastewater, and recycled water services to customers. All upgrades will be done within the existing footprint of various LVMWD facilities. Existing antennas and masts will be replaced with new antennas and lattice masts of equal or lesser height, although some will increase in height. There will be no adverse aesthetic or environmental effects from the antennas that will increase in height.	<b>Neg</b>	02/14/2013
2013012037	Targeted General Plan Amendment (PGPA 20120356) Placer County Community Development Resource Agency --Placer The project proposes a limited number of targeted amendments to its 1994 General Plan, which mostly consist of edits, corrections, status updates, revised figures, and several new programs and policies necessary to comply with new State and Federal laws and associated requirements.	<b>Neg</b>	02/13/2013

<b><u>Documents Received on Tuesday, January 15, 2013</u></b>			
2013012039	Whetstone Wine Bar Napa County Napa--Napa Approval of a Use Permit to establish a new wine bar with the following: 1) convert an existing 2,924 sf residence to a wine bar; 2) convert a 120 sf existing garden shed to a stand-alone accessible restroom; 3) employ two full-time and one part-time employees; 4) conduct hours of operation - 11:00 AM - 4:00 PM, seven days per weeks; 5) retail sales, tastings and catered meals for a maximum of 40 people per day, by appointment; 6) ten food and wine events per year with a maximum of 24 persons per event and two events per year for a maximum of 24 persons per event and two events per year for a maximum of 50 persons per event. Catered food will be included; 7) installation of a new septic system; 8) Install 12,000 gallon fire protection water tank and fire pump house building; 9) Install fire hydrant near Atlas Peak Road with access through historic stone wall; and, Approval of an exception to the Napa County Road and Street Standards: a) to allow use of an existing historic entrance with 15 foot clearance; and, b) to allow a greater than required minimum of 50 foot distance for a Fire truck access.	<b>Neg</b>	02/14/2013
2012071018	Ferro Ditch Channel Improvements Project Ventura County Watershed Protection District Ventura--Ventura The Ferro Ditch Channel improvements Project proposes to increase infrastructure integrity and flow capacity within the existing Ferro Ditch between the Ferro Debris Basin Dam and State Route 118. The proposed Ferro Ditch Channel improvements Project would increase public safety by improving access to the Ferro Ditch and Debris Basin for maintenance and emergency response during flood events. Additional project benefits	<b>NOD</b>	
2012122005	Caltrans Headquarters Basement Auditorium Rehabilitation Caltrans #3 Sacramento--Sacramento Caltrans plans to rehabilitate the auditorium in the basement of the Caltrans Headquarters Building located at 1120 N Street, Sacramento, CA. The auditorium does not currently function in a manner that meets the needs of the building occupants. The current maximum occupancy and fixed seating does not meet Caltrans' operational needs for meetings and other events. The objectives of the proposed project are to increase the occupancy of the room, make the room fully accessible in accordance with the Americans with Disability Act, and provide more flexibility to the space in order to meet the needs of the building occupants.	<b>NOD</b>	
2013018087	Acquisition of 2801 2nd Street, Davis, CA, Agriculture and Natural Resources University of California Davis--Yolo The proposed project is the acquisition of property at 2801 2nd Street, Davis, CA which includes a structure of approximately 33,000 gsf, 2.61 acres of land, and 92 on-site parking spaces. The building will be used to accommodate Agriculture and Natural Reserve office uses, consolidating employees from a number of other facilities on and off the Davis campus. Interior renovations to the building are being done under the City of Davis entitlement process.	<b>NOE</b>

	existing boilers and replace them with two 500 Horsepower (HP) boilers, which would bring nitrogen oxides (NOx) emissions down to 5 parts per million (ppm).		
2013018094	Paving-Under Two (2) Overcrossings Caltrans #2 --Tehama Using only State funds, the California Department of Transportation (Caltrans), will pave bare earthen slopes under the Diamond Avenue, and South Main Overcrossings of Interstate 5 within the City of Red Bluff in Tehama County. The work will occur at each of the northbound locations and at the south bound Diamond Avenue crossing. A 6" layer of concrete will extend from each bridge abutment down to the support column. Rebar will be incorporated into the concrete for support and reinforcement. Imported borrow will be added, where needed, prior to pouring. This activity will not result in a significant effect upon the environment. Storm water runoff causes soil erosion from the barren slopes that create clogging of the storm water system. This project will cover the slopes preventing erosion and continuing systems clogs.	<b>NOE</b>	
2013018095	Demonstration of a Vortex Technology for Wastewater Disinfection with UV Light Energy Commission Davis--Yolo UC Davis will demonstrate an alternative UV treatment system that will eliminate the problems with traditional UV systems. Traditional UV treatment use modules with arrays of UV Mercury lamps placed in wastewater flowing through a channel. The modules require heavy lift equipment, and the UV bulbs transmissivity declines due to fouling from direct contact with the wastewater. The proposed alternative technology consists of creating a strong vortex inside a vertical tube, where the water will swirl upward around a core of air. The UV lamps (Mercury or Xenon) are outside the tube, eliminating fouling problems.	<b>NOE</b>	
2013018096	Renewable Resource Management at UCSD Energy Commission La Jolla--San Diego This amendment will add a stand-alone distributed energy storage system using different, competitively-procured storage technologies and also optimize its performance compared to the initial photovoltaic-integrated storage systems on the campus microgrid.	<b>NOE</b>	
2013018097	Knickerbocker Channel Multi-use Trail Big Bear Lake, City of Big Bear Lake--San Bernardino The City of Big Bear Lake is proposing construction of a multi-use trail to be located along the west side of Knickerbocker Drainage Channel to provide connection between Village Drive and Veterans Park.  The proposed multi-use trail is approximately 1/2-mile in length beginning at the intersection of the Knickerbocker Drainage Channel and Village Drive/Pennsylvania Avenue on the south and terminating at Pine Knol Marina/Veterans Park in the north.	<b>NOE</b>
