

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

January 16-31, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16-31, 2006.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Tuesday, January 17, 2006</u>			
1993122077	Clover Valley Large and Small Lot Tentative Subdivision Maps Rocklin, City of Rocklin--Placer A large lot tentative subdivision map to subdivide 622 vacant acres into 33 large lots. The large lots would establish individual units being further subdivided by the proposed small lot tentative subdivision map. The small lot tentative subdivision map would result in 558 single family lots. A General Plan Amendment and Rezone are being requested to address modifications to the open space and residential components of the proposal.	EIR	03/02/2006
2003072061	Concord 2030 General Plan and Zoning Ordinance Update Project - DEIR Concord, City of Concord--Contra Costa The DEIR analyzes the potential impacts of the Concord 2030 General Plan and Zoning Ordinance Update Project. The General Plan Update will serve as a guide for development over the next 25 years, i.e., the period through 2030. Concurrent with the General Plan Update, the Zoning Ordinance Update will include a comprehensive review of land use regulations, development standards and review processes.	EIR	03/06/2006
2006011056	Miramar Trunk Sewer San Diego, City of San Diego--San Diego The project would consist of the replacement of 5,456 linear feet of sewer main and the creation of maintenance access paths in Rose Canyon which is located within the University City Community Planning Area. The replacement would consist of the upgrade of existing 15-inch sewer main to 21-inch sewer main, all of which would take place in existing trenches at the same depth as the existing 15-inch main. The majority of the construction would take place in the canyon bottom, however creation of a new 8-foot access path would be required for a side adjacent to I-805. The path would include turn-arounds in dead-end areas.	MND	02/15/2006
2006012067	Powell Tentative Parcel Map Weed, City of Weed--Siskiyou The proposed project is located in the City of Weed in southern Siskiyou County. The project area, which totals approximately six acres, would be subdivided into four parcels. Parcel 1: 1.13 acres, Parcel 2: 1.53 acres, Parcel 3: 2.49 acres, Parcel 4: 0.85 acre.	MND	02/15/2006
2006012068	Kirby Hills Natural Gas Storage Facility Public Utilities Commission Rio Vista--Solano Construction and operation of an underground storage facility for natural gas. Primary components of the project include: metering station, 6 mile gas pipeline, compressor station, flow line, injection/withdrawal wells, and a temporary gas injection system.	MND	02/15/2006

2006012069	Rezone 05-9 Tehama County Planning Department Red Bluff--Tehama To rezone the site from EA-AP to EA. Remove the Agricultural Preserve Combining District.	MND	02/15/2006
2006012072	Sacramento Recycling and Transfer Station (P05-060) Sacramento, City of Sacramento--Sacramento The proposed project would increase the allowable tons per day to be received and processed at the site from 2,000 TPD to 2,500 TPD, the design capacity for the facility. The hours of operation of the facility would remain unchanged. No new construction is proposed.	MND	02/15/2006
2005091105	San Diego International Airport Master Plan San Diego County Regional Airport Authority San Diego--San Diego The San Diego International Airport Master Plan includes the development and operation of the following project components: expand existing Terminal 2 West with 10 new jet gates; construct new aircraft parking apron; construct new apron and aircraft taxi lane; construct new surface parking and vehicle circulation; and construct a new parking structure, departure curb and vehicle circulation serving Terminal 2.	NOP	02/15/2006
2006011057	2006 Measure C Extension Expenditure Plan Fresno County Council of Governments Clovis, Coalinga, Firebaugh, Fowler, Fresno, Huron, Kerman, ...--Fresno Fresno COG and the Authority will recommend that the County of Fresno place the measure on the November 2006 ballot for consideration. If approved the measure would authorize the State to continue collection of the 1/2 percent sales tax beginning July 1, 2007 and continuing for a minimum of 20-years. The Plan will be presented to the voters in the ballot as a means to fill a portion of the projected funding shortfall.	NOP	02/15/2006
2006011064	Public Works Yard Consolidation and Water Treatment Facility Project Downey, City of Downey--Los Angeles The proposed project would include the acquisition of four parcels adjacent to the existing Utilities Division Yard. The existing structures would be demolished and new facilities developed on-site. Upon project completion, the Maintenance Services Division and Utilities Division yards would be consolidated on the site; thus, creating one new yard. In addition, a new water well, water treatment facility and water quality laboratory is proposed for construction on the site to treat groundwater contamination that may occur within wells used by the City's Utilities Division.	NOP	02/15/2006
2006011065	Kern River Valley Specific Plan Kern County Planning Department --Kern The proposed project will implement the General Plan and replace the existing specific plans with a single comprehensive planning document that integrates the Kern County General Plan, South Lake and Kelso Valley Specific Plans' policies and programs to provide a clear and unified vision and direction to guide future land use.	NOP	03/03/2006

2006012075	Water Resources Plan Programmatic EIR Oakdale Irrigation District Oakdale--Stanislaus, San Joaquin, Tuolumne, Calaveras A programmatic EIR (PEIR) will be prepared to evaluate environmental impacts of the individual projects proposed in the Oakdale Irrigation District's Water Resources Plan. The PEIR will be conducted to solicit and incorporate public input and will set the stage for implementing the specific projects.	NOP	02/16/2006
2006011055	Water Distribution System Modifications and Well Terra Bella Irrigation District --Tulare This portion of the District has a common water supply that provides water for both domestic and agricultural purposes. This water supply is comprised of well water or chlorinated canal water or a combination of the two sources. The project includes the installation of additional pipelines, modifications to the existing water distribution system and the drilling and equipping of a new domestic water well. The project will separate the irrigation water from the potable water system, allowing both potable and irrigation water to be delivered in the area. A portion of the existing irrigation distribution system will be used for the delivery of potable water with new pipelines installed as required to complete the system. The system will be connected to the new well and the District's existing Well No. 86. Provisions will also be made to connect the proposed potable water distribution system to the District's existing WQIP. The District's surface water treatment plant will provide a backup supply.	Neg	02/15/2006
2006011058	Miles Crossing Specific Plan Project Indian Wells, City of --Riverside The Miles Crossing Specific Plan Project consists of a three component project encompassing approximately 43 acres of undeveloped land at the intersection of State Highway 111 and Miles Avenue. The development is comprised of approximately 156,000 square feet of retail commercial development, a 129 unit condominium hotel, and 26 residential condominium units. The proposed project would contain a mixture of uses designed to allow residents, guests, and residents of nearby existing developments to meet many service, employment, and recreational needs.	Neg	02/15/2006
2006011059	2006 Amendment to the Redevelopment Plan for the Hesperia Redevelopment Project (No. 1) Hesperia, City of Hesperia--San Bernardino IS for ND of environmental impact for redevelopment plan amendment, proposed for the sole purpose of extending the Agency's eminent domain authority within the project area as permitted by California Community Redevelopment Law (CCRL; Health and Welfare Code, Section 33000 et seq.), specifically Section 33333.4(g)(2). The 2006 Amendment is administrative in character and contemplates no physical implementation activities within the project area beyond those addressed in previous CEQA compliance.	Neg	02/15/2006

	re-establishing the Agency's eminent domain authority within Project Area No. 2, which expired December 29, 2005, as permitted by California Community Redevelopment Law (CCRL; Health and Welfare Code, Section 33000 et seq.), specifically Section 33333.4(g)(2). The 2006 Amendment is administrative in character and contemplates no physical implementation activities within Project Area No. 2 beyond those addressed in previous CEQA compliance.		
2006011061	Los Rios Park & Parking Lot San Juan Capistrano, City of San Juan Capistrano--Orange The project is located within the Historic Los Rios District. The project includes the construction of a parking lot and a passive park on 4 acres of City-owned property. The parking lot is proposed to include 83 parking spaces, a drainage bio-swale, and delivery drop/pickup turn-around area. The park is proposed to include a tot lot, restroom building, equestrian area, picnic areas, native landscaping and a pedestrian plaza. The park is intended for daylight use only and lighting will be limited to low-intensity security lighting. The park design also includes landscape enhancement to the Montanez Adobe property.	Neg	02/15/2006
2006011062	Snowline Young Adult Center San Bernardino County, Superintendent of Schools --San Bernardino The Snowline Young Adult Center has been proposed to provide assistance and special education to mildly handicapped students, ranging in age from 18 to 22. The new school is planned as a two-building (approximately 10,000 square feet) facility designed to accommodate 52 students. In addition to classrooms, the new facility would include the construction recreational facilities, a parking lot and other common amenities. The school is scheduled to open in September of 2008.	Neg	02/15/2006
2006011063	GPA-2005-09 and ZC-2005-31 Hesperia, City of Hesperia--San Bernardino 2.8 acres of APN 413-021-02 from C to P General Plan designation and from C-2 to P-I Zoning district. East 5.0 acres of 407-262-01 & 407-263-01 & all 12.0 acres of 407-271-01 & 02 from H to P General Plan designation and (3000)-R3 to P-I Zoning district. 2004114005	Delta-Mendota Canal / California Aqueduct Intertie Proposed FONSI/Neg Dec and Draft EA/IS U.S. Bureau of Reclamation Tracy--Alameda The proposed project consists of constructing and operating a pumping plant and pipeline connections between the DMC and California Aqueduct. The DMC/CA Intertie alignment is proposed for DMC milepost 7.2, where the DMC and CA Aqueduct are about 400 feet apart.	NOD	
2005061028	Perris Valley Pipeline Project Western Municipal Water District Riverside, Moreno Valley--Riverside The proposed project is a joint \$80 million project to provide reliable delivery of water that has been treated at the Mills Water Treatment Plant to the service territory of both Western Municipal Water District and Eastern Municipal Water District (EMWD). To implement the proposed project, Western Municipal Water District will work with the Metropolitan Water District of Southern California (MWD) and EMWD. The proposed project would consist of: (1) construction, operation and maintenance of an approximately 6 mile long treated water pipeline and appurtenances from the Mills Water Treatment Plant in Riverside to a point approximately six miles southeast of the Mills Water Treatment Plant near the southern edge of the March Air Reserve Base; (2) construction, operation and maintenance of four service connections from the pipeline; and (3) construction, operation and maintenance of four pump stations to convey water from the service connections to the water distribution systems of Western Municipal Water District and EMWD. Flow in the pipeline would be controlled remotely.	NOD	
2005071067	Santa Barbara Condominiums Newport Beach, City of Newport Beach--Orange A proposed development of 79 condominiums on a 4.25 acre site, currently in the Newport Beach Marriott Hotel's tennis complex. The project consists of three separate buildings with eight different floor plan options and has an approximately 79,140 square feet of open space and 21,300 square feet of recreational areas for use by residents and their guests. The four-story buildings are approximately 65 feet in height with subterranean parking levels. The project would require a General Plan Amendment to change the land use designation from Administrative, Professional, Financial to Multiple-Family Residential; Local Coastal Plan Land Use Plan Amendment to change the land use designation from Visitor-Serving Commercial to Medium Density Residential; a Zone Change to rezone the subject property from APF to PC District; a Parcel Map to subdivide the subject property from the hotel development for financing purposes; and a Tract Map for the condominium ownerships.	NOD

2005122053	Conjunctive Water Management Program for the Sutter Extension Water District Sutter Extension Water District Yuba City--Sutter The project is the implementation of a conjunctive water management program that will use surface and groundwater resources to improve water supply reliability and to provide additional water supply to the Sacramento-San Joaquin River Delta. The project consists of four elements: (1) two production wells with the combined estimated pumping capacity of 8,000 gallons per minute; (2) a recharge program to help basin groundwater levels recover; (3) a monitoring program to track changes in groundwater levels, monitoring of the groundwater quality, and an evaluation of the project pumping effects on groundwater resources of the subbasin; and (4) an educational program.	NOD	
2006018182	Kathleen Cooper - Tentative Parcel Map (TTM 2005-02) Calistoga, City of Napa--Napa Consideration of a request for a Tentative Parcel Map requested by Kathleen Cooper property owner to divide the existing 21,600 square foot parcel into three (3) separate legal lots of record. Each parcel would measure approximately 7,200 square feet. The property is located at 1702 Myrtle Street (APN 011-191-010) within the "R1" Single Family Zoning District.	NOE	
2006018183	Mitsubishi Pipeline Replacement Fish & Game #7 --San Bernardino Replacement of existing pipeline that was washed out during heavy rains. The pipeline is within the Cushenbury Springs area.	NOE	
2006018184	Chess Drive Rehabilitation Project (CIP 791) Foster City Foster City--San Mateo This project will remove and replace asphalt pavement conform grinding, thermo plastic removal, placing fabric, striping and markers, raising manholes, upgrading crosswalk ramps, repairing decorative concrete and vaults, and traffic control.	NOE	
2006018185	Lake Mary Road (CA PHF 81-1(1)) Road Improvement Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Mammoth Lakes--Mono The project proponent plans to repair and improve - 2.58-mile section of Lake Mary Road.	NOE	
2006018186	Boathouse Storage California State Lands Commission Sacramento--Sacramento Relocation of existing storage for boat and survey equipment.	NOE	
2006018187	Condit/Kruger Stream Crossings Fish & Game #2 --Butte Agreement No. 2005-0003-R2. Install two bridges and one culvert. Riparian vegetation trimming only.	NOE

2006018188	San Joaquin Valley Unified Air Pollution Control District rules: Rule 2201, 4307 and 4309 San Joaquin Valley Air Pollution Control District --Fresno, Kern, Kings, Madera, San Joaquin, Stanislaus, ... Rule 2201 (New and Modified Stationary Source Rule) - Amended December 15, 2005: Rule 4307 (Boilers, Steam Generators and Process Heaters - 2.0 MMBtu/hr to 5.0 MMBtu/hr) - Adopted December 15, 2005: Rule - 4309 (Dryers, Dehydrators, and Ovens) - Adpoted December 15, 2005.	NOE	
2006018189	Headquarters District Office Caltrans, Statewide Facilities Sacramento--Sacramento Install bike lockers on the "O" Street side of the building next to Annex II on existing concrete. The initial installation will be for 10 lockers (which hold 2 bicycles each) with the potential to stack 10 more on top of the original. This will provide bicycle parking in addition to the bicycle cage, which is currently crowded. This promotes alternative means of transportation.	NOE	
2006018190	Replace Residence Roof and Siding, Auburn State Recreation Area Parks and Recreation, Department of --Placer Repairs will be made to a residence structure at Auburn State Recreation Area. This structure was constructed by the WPA in 1936 and is potentially eligible for the State and National Registers of Historic Places. The structure is used by California State Parks as an administrative facility. This work will include replacing an existing asphalt composition roof with a galvanized corrugated metal roof to match adjacent structures and installing new siding over the existing siding, which has tested positive for lead paint.	NOE	
2006018191	St. John's Church Roof Replacement, Marshall Gold Discovery SHP Parks and Recreation, Department of --El Dorado Replace the roof on the St. John's Catholic Church within Marshall Gold Discovery State Historic Park. This structure is part of the Coloma Historic District which is listed on the National Register of Historic Places. The purpose of the project is to replace the roof which is leaking. One of two options will be used to replace the roof. Both of the potential repair options are consistent with the Secretary of Interior's Standards and Guidelines. The first option would replace the sugar pine shake roof and any framing and sheathing in kind. The second option would replace the shakes and framing in kind, but would also include plywood sheathing, and ice and water barrier and cedar underlayment.	NOE	
2006018192	Replace Residence Roof and Siding, Auburn State Recreation Area Parks and Recreation, Department of --Placer Repairs will be made to a residence structure at Auburn State Recreation Area. This structure was constructed by the WPA in 1936 and is potentially eligible for the State and National Registers of Historic Places. The structure is used by California State Parks as an administrative facility. This work will include replacing an existing asphalt composition roof with a galvanized corrugated metal roof to match adjacent structures and installing new siding over the existing siding, which has tested positive for lead paint. 2006011077	<p>North Costa Mesa High Rise Residential Projects Costa Mesa, City of Costa Mesa--Orange</p> <p>The proposed project consists of a General Plan Amendment to allow for high rise residential development within the North Costa Mesa Specific Plan area. The project includes a 5 component development plan identified as Sites 1-5. The development will include mid and high rise residential and commercial uses, in addition to the development of existing entitlements for hotel, museum and office uses.</p>	NOP	02/17/2006
2006012089	<p>Berkeley High School Master Plan Berkeley Unified School District Berkeley--Alameda</p> <p>The proposed project is the adoption and implementation of the Berkeley High School Master Plan for the southern portion of the existing high school campus at 2223 Martin Luther King, Jr. Way (campus) and the Berkeley Unified School property, currently being used by the school as a 123-space surface parking lot, located across from the main campus at the intersection of Milvia Street and Bancroft Avenue (Milvia Street site). The Master Plan calls for demolition of some existing on-site structures and approximately 69,000 square feet (sq ft) of new construction in at least three phases:</p> <p>Phase 1 of the Master Plan would include construction of a two-story stadium building with bleacher seating, about 500 bleacher seats with a restroom, and a one-story facilities building, all on the main campus. Phase 1 may also include construction of a one-story warm-water pool structure and will include a new surface parking lot at the Milvia Street site. Depending upon availability of funding, the 63-space Milvia Street site parking lot may be replaced by a five-level, 280-space parking garage some time in the future.</p> <p>Phase 2 would include the demolition of the existing Old Gym building on the main campus and construction of a two-story gymnasium structure and two- to three-story, 10- to 15-room classroom building at the site of the Old Gym. Phase 2 would also include construction of a one-story storage structure on the main campus. The new warm-water pool constructed on the Milvia Street site during Phase 1 would serve as a replacement for the existing warm-water pool in the Old Gym building that would be lost as a result of demolition in Phase 2.</p> <p>Phase 3 improvements are mainly landscaping improvements, including the construction of an athletic quadrant and a regulation softball field, made to the open/recreational spaces and do not involve the addition of more floor area to the school campus.</p>	NOP	02/17/2006
2001091063	<p>Water Infrastructure Improvement Program - 2001 Alpaugh Irrigation District --Tulare</p> <p>New primary well and installation of hydropneumatic tank to address source capacity and distribution system inadequacies.</p>	NOD	
2004071098	<p>Mountain Park Specific Plan Amendment Anaheim, City of Anaheim--Orange</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0284-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Steve Letterly of The Irvine Company. The Operator proposes to alter the streambed and banks through the development of Mountain Park seasonal wetlands, tributaries to Santa Ana River,</p>	NOD

	<p>permanently impacting approximately 9.306 acres streams subject to the Department of Fish and Game's jurisdiction. The Operator shall mitigate 1.959 acre of permanent impacts to mulefat scrub riparian habitat, at a compensation to impact ratio of 2:1; 4,402 acre of permanent impacts to unvegetated stream channel, at a compensation to impact ratio of 1.5:1; 1.457 acre of temporary impacts to riparian on- and off-site creation, restoration and enhancement. Project mitigation shall consist of onsite creation of a minimum of 4.9 acres of cottonwood, willow and mulefat scrub riparian habitat, and a minimum of 3.0 acres shall be done along Santiago and Silverado Creeks, in the vicinity of the Black Star Staging Area and shall be approved by the Department. In addition, the Operator shall mitigate 18.80 acre by providing funding to the Santa Ana River Watershed Trust Fund for Arundo Eradication In-Lieu Fee Program for the eradication of 18.8 acre of Arundo donax and other invasive exotic riparian associated plants along Santiago Creek for mitigation requirement.</p>		
2004121096	<p>Madera East Olive Specific Plan Madera, City of Madera--Madera The project consists of construction and operation of a new well to serve Madera East Olive Specific Plan area to meet new minimum water quality and quantity requirements for the public water supply system.</p>	NOD	
2005012075	<p>Skycrest Project San Bruno, City of San Bruno--San Mateo The proposed project includes the demolition of a portion of Skycrest Center (23,000 square feet) and the redevelopment of a portion of the site with 27 detached, single-family residences, associated roadways and landscaping, and a park.</p>	NOD	
2005061105	<p>Planned Development Permit Modification (PDP99-02M) Lemon Grove, City of Lemon Grove--San Diego Planned Development Permit Modification to develop and operate a Construction Demolition and Inert materials processing facility (CDI). The CDI Facility would operate at a peak tonnage of 1,000 tons per day, 24 hours per day, seven days per week. Feedstock would consist of rock, soil, asphalt, concrete, wood, metal and cardboard and residue from construction, remodeling and demolition operations on pavements, houses, commercial buildings and other structures.</p>	NOD	
2005071082	<p>Foothill Feeder Repair and Future Inspections Project Metropolitan Water District of Southern California Santa Clarita--Los Angeles The Foothill Feeder is a 201-inch diameter prestressed concrete cylinder pipeline (PCCP) that was constructed in 1968 and conveys water to the Sepulveda, West Valley and East Valley Feeders serving the Central Pool and western portions of Metropolitan's service area. Electromagnetic inspections performed in March 2005 revealed three distressed pipe sections with up to 70 prestressing wire breaks. Pipe sections with this level of distress warrant prompt repair. Based on the locations of the damaged segments and their condition, two different repair methods will be used. For the first repair (Foothill Feeder Carbon Fiber Liner Repair Project), carbon filter lining will be used to internally reinforce two distressed pipe segments. For the second repair (Foothill Feeder Pipeline Replacement Project), one "broken back" pipe segment will be removed and replaced with a</p>	NOD

2006018271	Lannan Debris Basin Drain Repair Fish & Game #5 Sierra Madre--Los Angeles SAA # 1600-2005-0298-R5 Installation of a cured in place pipe liner for approximately 200 linear feet and the removal and replacement of approximately 60 linear feet of the existing drain.	NOE	
2006018276	Lease of Existing Space General Services, Department of Sacramento--Sacramento The Victim Compensation and Government Claims Board is proposing to lease approximately 67,000 square feet of office space in an existing building. The space will house 318 employees, 134 parking spaces would be used. All forms of public transit are within a 1/4 mile.	NOE	
2006018277	Install Emergency Fence at Windy Cove, Brannan Island State Recreation Area Parks and Recreation, Department of --Sacramento Install 240 feet of chain link fence to exclude the public from the Windy Cove River Access at Brannan Island State Recreation Area. The Windy Cove Access was damaged during the recent storms and flood events, making the stairway and access facility unsafe for public use and further eroding the cliff face at the site. The fence will exclude the public from using the area or approaching the cliff. This work will involve digging postholes and installing steel posts with concrete footings. There are no cultural resources of concern in this portion of Brannan Island SRA.	NOE	
2006018278	Emergency Repair of Mammoth Bar Road in Auburn State Recreation Area Parks and Recreation, Department of --Placer Repair a mud slide across Mammoth Bar Road which has left a large boulder exposed in an unstable position on the slope above the road. The slide occurred following the recent storms and flooding; the Governor declared a state of emergency for Placer County on January 3, 2006. This work will include removing rocks, dirt, trees and debris that fell or slid onto the road during the recent storms. The work will also involve dislodging a large boulder on the slope above the road which was exposed as a result of the slide and which poses an ongoing danger to people using the road. Work will be completed using backhoe, grader and other heavy equipment and blasting the large boulder to dislodge it from its current	NOE

2005101123	<p>Malibu Lagoon Restoration and Enhancement Plan Parks and Recreation, Department of Malibu--Los Angeles</p> <p>The Malibu Lagoon Restoration and Enhancement Plan (Plan) presents a comprehensive approach to restore and enhance the ecological structure and function of Malibu Lagoon to improve Lagoon and coastal water quality, as well as to enhance visitors' experience through improvements to access and interpretation. The Plan has identified a restoration alternative to restore the biological and physical functions of the lagoon, including management of water, habitat and access, as well as a comprehensive monitoring plan, while minimizing impacts to the existing system. The restoration goals for the lagoon consist of increased tidal flushing, improved water circulation, improved coastal water quality, increased holding capacity, reduced predator encroachment, restoration of typical salt marsh hydrology, increased wildlife habitat, creation of nesting island for least terns and western snowy plovers, creation of channel connections to the lagoon, and integration of public access with habitat protection. Major components of the Plan consist of a relocated parking lot and staging area, implementation of Best Management Practices to minimize impacts of storm water runoff, slope improvements to the western edge of the lagoon, improvements to the existing boat house channel, and the creation of a new channel along the southern edge of the west lagoon.</p>	EIR	03/06/2006
2003101055	<p>Stephen S. Wise Middle School Relocation Project Los Angeles, City of Brentwood--Los Angeles</p> <p>Relocation of the Stephen S. Wise Middle School to a 4.5 acre site within the 10.8 acre High School Site at 15900 Mulholland Drive. Construction of approximately 30,000 square feet to serve 240 middle school students and associated staff. Replacement of nursery school facilities at a 2.8 acre site located at 16100 Mulholland Drive with outdoor athletic uses. Minor improvements to High School.</p>	FIN

2006012096	Hallmark Gardens Senior Housing (PCUP T20040001) Placer County Planning Department Auburn--Placer Proposed to construct in two phases, a three-story, 182-unit Senior Independent Living Center and a 100-unit hotel/conference center located on 8.46 acre site.	Neg	02/21/2006
2006012098	Barney Creek Rail Trail Crossing Western Shasta Resource Conservation District Redding--Shasta The project will consist of excavating two 45-foot long trenches, five feet deep and approximately 10 feet wide on both sides of the channel. Footings and stemwalls will be formed and poured in place. A corrugated steel box culvert measuring 40 feet in length, spanning 14 feet, 11 inches in width, and measuring 4 feet five inches in height will be secured to the stem walls. Backfill around the footings will consist of locally borrowed rip rap machine placed over geotextile fabric to prevent scouring. The streambed will be reshaped to stimulate natural conditions.	Neg	02/21/2006
2006012100	North Vineyard Station Traffic Signal Project - Florin Road / Excelsior Road Sacramento County --Sacramento The proposed project consists of the installation of a new traffic signal at the intersection of Excelsior Road and Florin Road (Plate B). Florin Road is proposed to be widened to accommodate 4 lanes of asphalt pavement from 450-feet east and west of the intersection. The proposed widening will also include bike lanes and a left turn pocket. The pavement will then taper back to match the existing pavement width. Even though there will be enough pavement width for 4 lanes on Florin Road, the pavement will only be striped to accommodate the existing conditions which is currently 2 traffic lanes. Excelsior Road will also require pavement widening in order to connect the ultimate corner rounding to the existing pavement and will accommodate 2 lanes of traffic, bike lanes, and a left turn pocket. Existing ditches will require re-grading and culverts will be extended or replaced. Additionally, the current state of the roadway warrants an asphalt overlay. The proposed project will require right-of-way from four parcels.	Neg	02/21/2006
2006012102	2005-11 General Plan Amendment and Zoning Amendment for Sandra A. Osborn and Shana R. Shawkey Calaveras County Planning Department Angels Camp--Calaveras General Plan Amendment to the City of Angels, SOI to change the land use designation from AG (Agriculture), RL (Residential Low Density, and SP (Special Planning) to R-L (Residential Low Density) for 96.46 +/- acres and concurrently a Zoning Amendment from U (Unclassified) and A1 (General Agriculture) to RA (Residential Agriculture) to accommodate Boundary Line Adjustment 05-03. 	goods movement, bicycle and pedestrian facilities, transportation systems management, technological strategies, and other improvements that would improve traffic levels on streets and roads. The RTP also aims to provide measures for accessibility and affordability to Nevada County's multi-modal transportation system with the most efficient use of transportation revenues possible.		
1999092082	North Village 1999 Specific Plan Amendment Mammoth Lakes, City of Mammoth Lakes--Mono Tentative Tract Map and Use Permit approval to construct a development consisting of a 193-unit Condominium Hotel (Mammoth Hillside) having 325 bedrooms with Lock-off Units totaling 225 "keys" and an additional 24 one-bedroom workforce housing units. Three levels of understructure parking accessed from Canyon Boulevard accommodate 259 vehicles to be served by full-time valet parking attendants. The development includes a service loading dock, spa/fitness area of 9,038 square feet, meeting facilities of 6,300 square feet, restaurant of 5,070 square feet, guest services area of 2,700 square feet, pool and patio area, and associated landscape and street frontage improvements on a 4.6-acre portion of the seven-acre site.	NOD	
2002032116	Lake Circuit No. 6 and 7 Line Upgrade Project Sacramento Municipal Utility District Folsom--Sacramento The proposed project consists of the reconstruction of an approximate one-mile section of an existing overhead 69,000 volt (69 kV) sub-transmission power line (Lake Circuit No. 7) and installation of a second circuit (Lake Circuit No. 6). The existing line consists of three electrical conductors (wires) supported on wood poles. Existing conductors will be replaced with a slightly larger diameter (a 0.098" increase) conductor and a second circuit (Lake Circuit No. 6) consisting of three additional conductors will be installed--for a total of 6 conductors. This upgrade line will extend from SMUD's existing Lake Substation south within an existing utility corridor to the south side of Iron Point Road where it will connect to existing underground circuits. The addition of a second circuit requires eleven existing wood poles to be replaced with slightly taller (up to 11 ft) and stronger poles. Seven concrete poles (natural gray color, armless construction), three wood poles H-Frame (two wood poles connected by steel crossarm, used for line crossings), and one steel pole (self-supporting, unguyed, angle pole) will be used.	NOD	
2002081111	East Center Avenue Area Plan Los Banos, City of Los Banos--Merced Annexation of about 119 acres and prezone to Low Density and Medium Density Residential, Commercial, and Professional Office. The Villas Area Plan has been adopted to guide land use and infrastructure development, and a Vesting Tentative Map will subdivide about 39 acres into 174 residential lots, 31 common lots, one 7.08-acre multi-family lot, and one 3.17-acre remainder.	NOD	
2003072132	Central Lathrop Specific Plan Lathrop, City of Lathrop--San Joaquin Implementation of the CLSP has already been evaluated per the requirements of CEQA in an EIR certified by the City of Lathrop on November 9, 2004. The proposed action evaluated in the Addendum to the EIR for the CLSP is the use of an agricultural easement exchange for compliance with Williamson Act contract	NOD

	cancellation requirements. As identified in the CLSP EIR, implementation of the CLSP will result in cancellation of various Williamson Act contracts. In compliance with Government Code Sections 51256 and 51256.1, the project applicant proposes the use of the Mainstone Property for an agricultural easement exchange in order to comply with Williamson Act contract cancellation requirements. The easement exchange, if approved by the California Department of Conservation, would be used in-lieu of contract cancellation fees. Under the proposed action, the Mainstone Property would be placed under a permanent agricultural easement.		
2004061135	Los Banos Rail Corridor Master Plan Los Banos, City of Los Banos--Merced The proposed project would provide direction for land use to ensure future implementation of community goals as included within the plan. The project includes a General Plan Land Use amendment and parallel zoning reclassification for consistency, which would change the designated land uses to achieve mixed-uses. The goal of the project is to promote the continued economic development of downtown Los Banos by planning for commercial opportunities, multi-family residences, community space, recreational amenities and overall mixed-use development. Such improvements would increase the attractiveness and utility of downtown and provide interconnected access through the City's core.	NOD	
2004081135	Annexation to the City of El Centro, General Plan Amendment (#04-01), Change of Zone #04-01 (Pre Zone), and Linda Vista Tentative Subdivision Map El Centro, City of El Centro--Imperial The proposed project consists of a general plan amendment, change of zone and tentative subdivision map in order to accommodate the development of 164 single-family residential lots, one commercial lot, an elementary school lot, a park and a retention basin on 80 acres of land.	NOD	
2005041012	TTM 17155 Adelanto, City of Adelanto--San Bernardino The development of 39 single-family lots with minimum lot size of 7,200 square feet on 10.0 acres.	NOD

	Boulevard at Winnett Street. A total of 4 on-site automobile parking spaces would be provided for each dwelling unit, 2 inside the garage and 2 outside the garage.		
2006011097	Monterey Peninsula College Master Plan Monterey Peninsula Community College District Monterey--Monterey There are six academic neighborhoods proposed within the Master Plan boundary, with existing and proposed buildings associated with each neighborhood. The major construction proposed include: Performing Arts Center, Creative Arts Promontory, Math and Science Quad, Business and Humanities Cluster, Student Life Hub, Physical Education Complex, circulation improvements, and parking improvements.	Neg	02/22/2006
2006011098	Car Country SP Amendment - SP 19(I) / LCPA 02-11 Carlsbad, City of Carlsbad--San Diego The project consists of an amendment to the Car Country Specific Plan and Local Coastal Program. The Car Country Specific Plan implements the Local Coastal Program for Car Country Carlsbad. The original Car Country (SP 19) and the Car Country Expansion area (SP 19(C)) are currently covered by two separate documents. The proposed Specific Plan amendment will consolidate the two components of the specific plan into one document and will provide one set of standards for signage and parking for the entire Specific Plan area. The amendment would also allow parking structures up to 35 feet in height and allow for an increase lot coverage of 50% in conjunction with the construction of a parking structure. The amendment does not propose a comprehensive update to the Specific Plan; however, it does address major areas of concern and conflicting standards between "old" and "new" Car Country, and also corrects a number of typographical and other errors. The LCP amendment is necessary to ensure consistency between the LCP and Specific Plan. The proposed amendment will not result in any conflict with the provisions of the LCP.	Neg	02/22/2006
2006012104	Parcel Map # 05-40, Chad Ochs Tehama County Planning Department --Tehama To create four parcels; two 0.95 acre parcels and two 1.04 acre parcels and remaining lands parcel of approximately 2.20 acres in an RE-MH-B:10; Residential Estates-Special Mobilehome Combining-Special Building Site Combining (10,000 sq. ft.; 1/4 acre minimum) Zoning District. 	Boulevard intersection, approximately 400 feet (122 meters) east of the existing location.		
2006012109	Johnson Creek Estates Etna, City of Etna--Siskiyou A 31-lot subdivision containing 15 lots zoned R-3, High Density Residential, and 16 lots zoned R1-12, Single Family Residential (12,000 square foot lot minimum). The site is approximately 12.5 acres in size. As proposed, the R-3 lots range in size from 7,200 to 9,800 square feet. The map includes an extension of Telco Way across Johnson Creek, and terminating into two cul-de-sacs. The road would be a dedicated public street with a 50-foot right of way, and constructed to City Standards. The length of the cul-de-sacs is consistent with the City's codes, and an emergency egress point is provided on the west end of the Telco-Court cul-de-sac.	Neg	02/22/2006
2006012111	Bohemian Club Sonoma County Permit and Resources Management Department --Sonoma Request to modify Use Permit UPE87-806 to allow for the construction of a new sewage disposal system to replace existing individual septic systems for the Bohemian Grove Camp on 2,678 acres.	Neg	02/22/2006
2006012112	Children's Emergency Shelter and Health Center Placer County Department of Facility Services Auburn--Placer The project proposes to construct a 30-bed Children's Emergency Shelter and Health Center to replace the existing 25-bed Children's Receiving Home. The County's Children's Receiving Home serves as a shelter for children between the ages of 6 and 18 who have been removed from their families due to abuse or neglect and are dependants of the court. The proposed facility would include bedrooms, common living areas, administrative and counseling facilities, recreational facilities, and an education building with two classrooms and a teacher office/work room. Proposed recreational facilities, and multi-purpose room with support spaces for arts/crafts/sewing, a basketball court (which could also be used for volleyball) for teens and a playground for pre-teens.	Neg	02/22/2006
2005082063	New Elementary School #2 and Residential Subdivision Vacaville Unified School District Vacaville--Solano Construction of a new elementary school containing approximately 37,500 square feet with a capacity of 750 students on about 11.16 acres; and obtaining entitlements for 16 single-family lots on about eight acres.	NOD	
2005101114	Phase 1 and 2A of Ontario's New Model Colony Francis Street Zone Water System Ontario, City of Ontario--San Bernardino The proposed project is to construct Phase 1 and Phase 2A of Ontario's New Model Colony Francis Street Zone Water System. As recommended by the City of Ontario Water Master Plan (August 2002), and as identified in the SOI (New Model Colony), FEIR (October 1997), SCH# 1997061035, it is necessary to construct new distribution system facilities to supply water to the New Model Colony. As part of the Water Master Plan, these improvements have been identified to help meet the current and future water demand of the New Model Colony Area.	NOD

Pyrospectaculars Inc. will utilize the existing vacant ex-military weapon storage bunkers for pyrotechnic delivery, unloading, storage, inventory, and transfer of products. Periodic shipment of packed pyrotechnic will be sent directly to event locations. The use will be temporary, limited to three years through a lease with the March JPA.	Neg	02/23/2006
2006011103	PA04-0032 (Tentative Tract 32215) and PA04-0198 (Conditional Use Permit for Planned Unit Development) Moreno Valley, City of Moreno Valley--Riverside The proposed project is a planned residential development of 194 residential units on a 26.12-acre site. The Scottish Village proposes three planning areas providing detached condominiums (106 units on about 18.4 acres), attached condominiums (56 units in 14, 4-unit buildings on about 4.4 acres), and senior condominiums (30 units in 5, 6-unit buildings on about 1.8 acres). The proposed project also includes four common recreation areas, three water quality basins, off-site improvements on Bremen Street and Baywood Drive, and completion of linear bikeway/ greenbelt improvements along the California Aqueduct right of way between Dracaea Avenue and Pan Am Boulevard.	Neg	02/23/2006
2006011104	Schoner Addition; CHP 05-239/MEP 05-305 San Clemente, City of San Clemente--Orange A request to allow a 2,157 square-foot addition and continuation of legal nonconforming side yard setbacks for a historic single-family residence.	Neg	02/23/2006
2006012114	Cottonwood Park Subdivision - Phases 4 and 6 Placerville, City of Placerville--El Dorado 39 single family lots on ~22.2 acres. The project includes the construction of roadway between Clay Street and the Poverty Hill Road/Roddan Court intersection. The proposed lots vary in parcel area from 6,000 square feet in area to 3.97 acres in area. The subject site is an extension of the previously approved Planned Development Overlay for the Cottonwood Park Planned Development remainder, Phases 4 and 6, the final two phases of the Planned Development.	Neg	02/23/2006
2006012116	Twin Oaks Estates (P05-146) Sacramento, City of Sacramento--Sacramento The project consists of entitlements to develop a 27 lot single family alternative subdivision of 5.0 +/- acres. Specific elements include: a Rezone from the Standard Single Family (R-1 zone to the Single Family Alternative R-1A zone); a tentative map to subdivide four lots totaling 5.0 +/- into 27 lots; and a Subdivision Modification to allow lot sizes to be smaller than 6,200 s.f. for the corner lots and 5,200 s.f. for the interior lots. 2006012117	13th and 16th Street Light Rail Station Improvements Sacramento Regional Transit District Sacramento--Sacramento The proposed project is to construct various station improvements at the 13th and 16th street light rail stations, which are located along Whitney Street (the alley between Q and R Streets) and within the R Street corridor redevelopment area. Station improvements proposed by the Sacramento Regional Transit District include project elements to enhance aesthetics and public safety, including: (1) the addition of new bus and light rail shelters, access ramps, passenger information signage and public address systems, and artwork; (2) updating existing features such as access ramps and landscaping; (3) replacing and upgrading lighting systems, shelters, and the furniture; and (4) retrofitting electrical systems.	Neg	02/23/2006
2006012118	Pacific Flyway Center Fish & Game #2 Davis--Yolo The California Department of Fish and Game (DFG), in cooperation with the California Bay Delta Authority, the Wildlife Conservation Board, and the Yolo Basin Foundation, is proposing to construct and operate the Pacific Flyway Center. The Facility would be owned and managed by DFG as part of the Yolo Basin Wildlife Area. The project involves construction of a visitor and environmental education center along with associated infrastructure and support facilities, 45 acres of habitat restoration, and a new site access road.	Neg	02/23/2006
1990020181	Precise Plan Area #20NW Modesto, City of Modesto--Stanislaus This is a vesting tentative subdivision map to divide 7.86 acres into 20 lots. In addition, the subdivision designates two parcels for dedication, one for the 45' wide class-one bike path called for by the Village One Specific Plan and the other for the future urban interchange at Claus Road and Briggsmore Avenue.	NOD	
2004011127	Saticoy Operations Yard General Plan Amendment, Zone Change No. Z-2954, and Planned Development Permit No. PD-1955 Ventura County --Ventura The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0198-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Shea Homes. Shea Homes will alter the streambed for the relocation of the county's maintenance yard and warehouse facilities. The project will include a rock rip rap slope protection along the bank of the Santa Clara River. A perimeter road and water tank will also be placed within the CDFG jurisdiction. The current rock slope protection area along the western bank of Franklin Barranca will be replaced. An outflow structure from the detention basin will also be included, it will outlet within the rock slope protection area.	NOD	
2004032050	Vesting Tentative Parcel Map 03T-28 Tuolumne County Community Development Dept. --Tuolumne Vesting Tentative Parcel Map 03T-28 to divide two parcels totaling 160.0 +/- acres into four parcels ranging in size from 25.0 +/- to 48.0 +/- acres in size with a 37.0 +/- acre remainder. A 150.0 +/- acre portion of the project site, Assessor's parcel Number 66-160-56, is zoned A-20 (General Agricultural, twenty acre minimum) and are remaining 10.0 +/- acres, Assessor's Parcel Number 66-370-12, is zoned A-10	NOD

2005051078	Laurel Creek Condominiums Vista, City of Vista--San Diego The proposed project consists of a request for a Tentative Parcel Map, Site Development Plan and Condominium Housing Permit to develop 94 multi-family condominium units, private, gated drive-ways, landscaping, common open space, utilities, and associated site improvements on a 9.23-acre site.	NOD	
2005082089	Revised HFPD#1 100' Lattice Radio Tower to Accommodate Fire and Community Water Services' Communications Needs Humboldt County Community Development Services Eureka--Humboldt The development of a 100' tall triangular lattice radio tower (96" at base and will taper to 48" at top). The tower will be shared by Humboldt #1 Fire and Humboldt CSD for their radio/communications needs only. The parcel is 18,975 sf in size and is currently developed with a 24' tall 1/2 million gallon water tank for community water service needs and 117 sf equipment shed. The two existing trees will remain; one is a +/- 54' tall cypress, in an effort to buffer the visual effects of the tower from neighboring properties. The tower will use existing utilities at the site and not require new sewer or water facilities. According to the plot plan submitted by the fire district, the nearest residence is +/- 100' to the NW of the proposed radio tower. The SP is for an exception to exceed the 35' height limit of the R-1 zone.	NOD	
2005101132	Crews Valley Center Road; TPM 20828RPL^2, Log No. 04-09-010 San Diego County Department of Planning and Land Use --San Diego This project proposes to subdivide the 8-acre parcel (parcel A of Boundary Adjustment B/C 03-0208 recorded January 9, 2004) into four two-acre lots intended for four single-family residential units. The zoning is A70-Limited Agriculture with a minimum lot size of 2 acres and a density of 0.5 dwelling units per acre. The general plan is (17) Estate Residential.	NOD

2006011106	City of Corcoran Water Treatment Plant- Expanded Treatment Operations Corcoran, City of Corcoran--Kings The Mitigated Negative Declaration is intended to be used for the following activities and permits: a. Construct and operate a water treatment plant for removal of arsenic from groundwater. 1- Modify the system disinfection process and provide filtration with anthracite coal and "Greensand Plus" media for arsenic removal. 2- Blend raw and finished water for reduction of nitrates and arsenic. 3- Add centrifugal sand separators at each well site and change pump bowls and motors, as required. 4- Change operation times and pressures of Wells 6A and 7A. 5- Construct new off-site sanitary sewer and force main to connect to an existing 8-inch sewer, and replace lift sanitation No. 8, and construct new sanitary sewer lift station No. 17. 6- Demolish and remove existing structures and pipelines, grading, drainage, lighting, fencing, water, sewer, and other utilities, tie-in to existing water works facilities; construct access road, parking lot, storm drainage and other site components for an in place, complete water treatment plant project. b. Obtain a Water Supply Permit Amendment, California Department of Health Services Drinking Water Program.	Neg	02/14/2006
2006011108	City of Murrieta Interim Scott Road and Antelope Road Intersection Improvements Murrieta, City of Murrieta--Riverside The city and county are seeking to widen the intersection of Scott and Antelope Roads within the existing right-of-way of the intersection and associated road segments. The project will also add signalization to the intersection that currently has a four-way stop sign. It also extends an existing drainage box culvert under Scott Road east of the intersection by approximately 44 feet and adds a temporary detention basin at the southeast corner of the project site.	Neg	02/24/2006
2006011109	Project Number 03-338-(4)/TR54341 Los Angeles County Department of Regional Planning Walnut--Los Angeles Oak application to subdivide a single 5.62 acre lot in to five single-family parcels averaging about one acre each. The project will involve 17,000 cubic yards of cut and 15,000 cubic yards of infill. The project is requesting a Conditional Use Permit for Hillside Management, an Oak Tree Permit for four removals and 29 encroachments and a tract map. Approximately 0.78 acres of Oak woodland will be affected. The project is located near the intersection of Brea Canyon Cutoff and Pathfinder Road. Previously, the site had been approved for a four single-family lot project via Tract Map 49491 in 10/1/92. Tract Map 49491 has expired.	Neg	02/24/2006

2006012122	Ward Creek Diversion Structure Removal Tahoe Conservancy --Placer The primary component of the project is the removal of a small concrete dam and associated structures in Ward Creek which previously diverted water into a private water system. The water system is no longer in operation and the dam is not maintained. The proposed project will remove the man-made structures which impede flows within the creek and will restore the natural functioning stream channel. The restoration will include some work to repair eroded banks below the dam site as well as grade adjustments in the creekbed immediately above and below the dam location to restore a self-maintaining stream.	Neg	02/24/2006
2002061071	Los Angeles Union Station Run-Through Tracks Project Caltrans #7 Los Angeles, City of--Los Angeles The proposed improvements to Union Station would extend two of the existing tracks southward from Union Station and provide a new connection into the Burlington Northern Santa Fe (BNSF) Railway mainline on the west side of the Los Angeles River; this would allow some trains that use the station to avoid the pull in/back out situation that causes delays either at the station platforms or on the connecting tracks while waiting for a slot at the platforms. The proposed structure would form an S-curve, connecting at its north/west end to track platforms at Union Station and its south/east end at a point along the BNSF mainline in the vicinity of the First Street Bridge. A range of potential alignments has been developed that could be located in the area north of First Street. Union Station improvements to increase accessibility to platforms are also planned.	NOD	
2005062036	Windsor Mill Project (GPA/ZC/DA/UP/MJS 04-10) Windsor, City of Windsor--Sonoma 201 unit residential planned development on 20.3 acres. Includes development agreement and associated general plan and zoning amendments.	NOD	
2005091101	S03-026, Log No. 03-08-029; Lizard Rocks Storage San Diego County Department of Planning and Land Use --San Diego The project is a Site Plan for development of a rental-storage complex on a 3.96 acre parcel. The proposed plan consists of eight self-storage buildings and an office building. The development will include landscaping and on-site sewage disposal. Road improvements will be required for Lizard Rocks Road.	NOD	
2005112095	Restoration of Santa Rosa Creek - Pierson Reach Santa Rosa, City of Santa Rosa--Sonoma The project consists of removing grouted concrete from the existing channelized waterway and reconfiguring the channel and banks to create a more natural channel. The reconfigured creek will contain a low-flow channel and features such as pools, riffles, and meanders, as feasible.	NOD

2006011116	Edlinger Corridor - Specific Plan No. 14 Huntington Beach, City of Huntington Beach--Orange The Edinger Corridor Specific Plan establishes the planning concept, design theme, development regulations, and administrative procedures necessary to achieve an orderly and logical development of the Edinger Corridor area. The Specific Plan is intended to provide for new retail/commercial, office, hotel, and residential opportunities to supplement and enhance existing development.	MND	02/27/2006
2006011121	Sewer Main Extension to The Cove at Palm Springs Desert Water Agency Palm Springs--Riverside The project consists of the installation of a proposed 8" to 15" diameter vitrified clay sewer with an approximate length of 23,500 linear feet, with an anticipated depth of approximately 10 to 20 feet, along the northerly side of State Highway 111, from Overture Drive to Tramview Road, then along Indian Canyon Drive, until connectng to an existing trunk sewer at either the intersection of Las Vegas Road or the intersection of San Rafael Road. The project will provide wastewater service to The Cove at Palm Springs, a proposed residential development. The project is intended to convey wastewater from The Cove at Palm Springs, the community of Palm Oasis, and other planned future developments. The project is anticipated to include site clearing, trenching, installation of sewer and manholes, backfilling, compacting, boring, and jacking a 30" (approximate diameter) casing at two to three different locations, and a connection to a City of Palm Springs existing trunk sewer. The trench will be approximately 15 feet wide at the top. The typical width of disturbance along the sewer route will be approximately 50 to 60 feet. Crossings of two flood control berms at the Chino Creek Flood Control Channel, one of which diverts a stream originating in Chino Canyon and supporting a wetlands plant community, will be performed by either boring and jacking underneath the stream, or by another method (i.e. open trench). 2006012127	CUP/SP for a Retreat Center in the Town of Bridgeville Humboldt County Community Development Services --Humboldt The redevelopment of a portion of the town of Bridgeville into a private retreat center. New construction will include +/- 16 platform tent cabins, 4 bunkhouses, 4 renovated cabins, a comfort station, a +/- 3,500 sf kitchen/dining facility, etc. The total number of people that the retreat center and associated facilities will be able to service at any given time will be +/- 80 with +/- 12 employees. Many of the existing structures are within the Streamside Management Area (SMA) of the Van Duzen River. A Biological Report has been prepared and referred to Redding Dept. of Fish & Game. The Center will operate at full levels spring-fall, with more limited use during the winter months. When retreat activities are not occurring, the facilities will be available for community uses such as classes, workshops, seminars, etc. The subject parcel is +/- 30 acres in size. Water and sewage disposal services will occur on-site.	MND	02/27/2006
2006012128	Lendahl Minor Subdivision and Lot Size Modification Exception Request Humboldt County Community Development Services Eureka--Humboldt The Minor Subdivision of a 6.23 acre parcel into two parcels of 4.45 and 1.78 acres each. The smaller parcel is currently developed with a residence, attached garage and on-site wastewater system. The larger parcel has a limited building envelope due to the 100' Streamside Management Area setback to the unnamed perennial creek that flows through the north end of the parcel. No SMA setback reductions are proposed. The applicant does propose a lot size modification exception per §314-99.1.2, HCC, to allow Parcel 2 to be below the standard 2.5 acre minimum given the topographic constraints of the property. New development will be served by individual on-site sewage disposal system and community water. The parcel is accessed by Cummings Road, a paved County road of 20' width.	MND	02/27/2006
2006011119	City of Newport Beach General Plan Update EIR Newport Beach, City of Newport Beach--Orange The General Plan Update defines comprehensive land use, noise, housing, circulation, and infrastructure, public service, resource conservation, and public safety policies for the entire City. While policies regarding future land use and growth are addressed from a citywide perspective, the majority of land use changes are limited to nine primary study areas. Accordingly, the EIR will comprehensively address the impacts of all policies throughout the City and, additionally, focus on those areas in which the most significant land use changes could occur.	NOP	02/27/2006
2006012130	North Sonoma County Agricultural Reuse Project Sonoma County Water Agency --Sonoma The proposed project would consist of the following: * Design, construction, operation and maintenance of distribution pipelines and lateral lines to connect the existing Geysers Pipeline to off-stream water storage facilities and potential agricultural lands; * Design, construction, operation and maintenance of ancillary structures including pump stations, booster pump stations, protective fencing, gates, landscaping and other support structures and appurtenances; * Design, construction, operation and maintenance and use of several off-stream water storage facilities to provide an estimated 11,000 acre-feet (AF) of storage capacity;	NOP	02/27/2006

2006018353	<p>Blacksmith Shop Door Replacement, Marshall Gold Discovery SHP Parks and Recreation, Department of --El Dorado</p> <p>Replace the two bi-fold doors on the front of the Blacksmith Shop within Marshall Gold Discovery State Historic Park. The existing doors no longer close properly. This structure is part of the Coloma Historic District which is listed on the National Register of Historic Places. The doors will be replaced in kind and stained to blend in with the existing building. This project is consistent with the Secretary of Interior's Standards for the Treatment of Historic Properties.</p>	NOE	
2006018354	<p>Maintenance Shop Upgrade, Auburn State Recreation Area Parks and Recreation, Department of --Placer</p> <p>Repairs and upgrades will be made to the maintenance shop within the administrative complex of the Auburn Sector at Auburn State Recreation Area. These repairs and upgrades are being made to meet Americans with Disabilities Act requirements and to make needed electrical and utility repairs and upgrades. This structure was constructed by the WPA in 1936 and is potentially eligible for the State and National Registers of Historic Places. The structure is used by California State Parks as a maintenance shop. This work will include constructing an interior office and break room which will not impact the historic fabric of the building. New electrical wiring will be installed for these new interior rooms. A new propane tank and lines will be installed to fuel existing heaters. A failed air line will be replaced in the existing location. Roll-up style doors will be constructed over an existing sliding door and a side spring door. The sliding doors will be left in place and a frame constructed around them to mount the new roll-up door. If feasible the side spring door hinges will be left in place; otherwise the side spring door work will be photo-documented. The historic fabric of the existing doors will remain. The project has been found to be consistent with the Secretary of Interior's Standards and Guidelines for the Treatment of Historic Properties.</p>	NOE	
2006018355	<p>Rebuild Porches and Remove Non-Historic Stairway at the IOOF Hall, Marshall Gold Discovery SHP Parks and Recreation, Department of --El Dorado</p> <p>Rebuild the front and rear porches at the IOOF Hall within Marshall Gold Discovery State Historic Park. This structure is part of the Coloma Historic District which is listed on the National Register of Historic Places. The purpose of the project is to rebuild these porches and steps which are deteriorated and pose a safety hazard to visitors. The front and rear porches were re-constructed in the 1980's. The porches and stairs will be re-constructed using redwood of the same dimensions as the wood being replaced. The lumber will be painted to match the existing color scheme. Additionally a free-standing side stairway that provides access to the second story of the building will be removed. The side stairway is not a historic feature of the building. Access to the interior stairwell and the door to the side stairway on the second floor will be blocked until a determination on how to re-build this non-historic side staircase is made. These actions are consistent with the Secretary of Interior's Standards and Guidelines.</p>	NOE

2006018356	Structural Stabilization and Environmental Control Improvements Parks and Recreation, Department of --Los Angeles Stabilize a structure, upgrade utilities, and improve environmental controls at Antelope Valley Indian Museum to preserve a historic resource. Work will upgrade the existing water system and install 2154 feet of new water line; upgrade the inadequate electrical system to meet current Health and Safety Code; upgrade non-compliant restrooms and site areas to comply with the Americans with Disabilities Act; remove and repair artifact display cases; and remove and store artifact collection in containers on-site with appropriate electrical connections for environmental controls, artifacts will be re-installed and containers will be removed at project end. Structural work will repair and waterproof exterior deteriorating building components, details, trim, rafter tails and wood panels; repair and strengthen roof, walls, and supports; add structural connections (ties, dowels, anchors, blocking strapping), including anchoring foundation, walls and roof system; and reinstall panels, casework, trim and any features removed during construction. Additional work will remove the existing HVAC system; drill geo exchange wells and install underground piping; and treat hazardous materials. Project supports continued use and maintenance, preserves a historic resource, and improves visitor services.	NOE	
2006018357	Drainage Facility Maintenance Contract Award Santee, City of Santee--San Diego Award of contract to provide on-going maintenance of existing municipal drainage facility.	NOE	
2006018358	Henry J. Mills Water Treatment Plant Temporary Shutdown and Dewatering for Routine Inspection, Maintenance and Repair of Water Treatment Plant Components Metropolitan Water District of Southern California Riverside--Riverside The project will consists of the periodic shutdown and dewatering of treatment plant components in order to accomplish routine inspection, maintenance, repair, and alteration of equipment, as needed. Water released from the Mills Plant flow through culverts to the City of Riverside's culvert and drainage system. Maintenance and repair include but are not limited to: repairing leaks, cleaning filters, and alteration of existing equipment that involves negligible or no expansion of existing use.	NOE	
2006018359	Replacement of Fencing along Auld Road and Washington Street Metropolitan Water District of Southern California Unincorporated--Riverside The Metropolitan Water District of Southern California proposes to replace portions of fencing along Metropolitan's property boundaries along Auld Road and Washington Street in unincorporated Riverside County. The fencing is adjacent to the west side of Washington Street and the north side of Auld Road. Metropolitan proposes to replace approximately 4,000 feet of barbed wire fence that was damaged by a release of water from the Robert A. Skinner Filtration Plant. Metropolitan proposes to use a hand-held pile driver to drive posts into the ground to anchor the fence; bracing points will be installed every 200 feet for reinforcement. Metropolitan will excavate holes measuring one foot in diameter and two feet in depth with a small auger for the bracing point footings and fill the excavations with concrete to support the bracings. Metropolitan proposes to dewater the pipelines at several locations along the San Diego Pipeline Nos. 3, 4, and 5; perform inspections of the San Diego Pipeline Nos. 3, 4, and 5, Lake Skinner Outlet Conduit, and East Lake Skinner Bypass; make minor repairs to portions of the pipelines; repair and replace small equipment, such as valves within the pipelines; and as necessary, perform road maintenance to allow access to the pipelines and equipment.</p>	NOE	
2006018361	<p>Desert Pumping Plants Asphalt Maintenance - Chip Seal Intake Road and Gene South Village Roads Metropolitan Water District of Southern California Unincorporated--San Bernardino</p> <p>The Metropolitan Water District of Southern California proposes to perform asphalt maintenance on Intake Road, which extends from the MWD Road to the Intake Pumping Plant (1.8 miles), and the Gene Village residential roads (1.4 miles). This activity will consist of placing a double chip seal on the Intake Road and a chip seal and cape seal on the Gene Pumping Plant residential area roads.</p>	NOE	
2006018362	<p>Williams House Rehabilitation, Marshall Gold Discovery SHP Parks and Recreation, Department of --El Dorado</p> <p>Stabilize, repair, and rehabilitate the Williams House which is within Marshall Gold Discovery State Historic Park. The structure is within the Coloma Townsite which is on the National Register of Historic Places and a National Historic Landmark. Repairs to the structure are needed to stabilize the building and prevent further deterioration. The foundation will be repaired and stabilized to meet seismic requirements in the Historic Building Code and the Secretary of Interior's Standards. The ground around the outside of the structure will be graded to improve and restore drainage. The corrugated roof will be repaired to eliminate leaks. Masonry chimneys will be stabilized and re-pointed. Additional exterior repairs will be made to the siding, windows, doors, railings, and porches. Repairs will also be made to the interior of the structure. These repairs will be made "in kind", no distinctive historic materials or features will be removed, interior finishes and features will be preserved. New exiting requirements and accessibility requirements will be implemented in compliance with the Secretary of Interior's Standards. Any non-historic materials, additions or elements will be removed and replaced with historic elements as defined in the Historic Structure Report. A new removable wall and door will be installed between the original structure and a newer addition to the rear of the structure to separate future uses of the building. New electrical feeds and outlets will be installed in a manner that minimizes the effects on the historic structure. Wiring will be hidden wherever possible. The rehabilitation work will be monitored by qualified cultural resources staff and the appropriate photo-documentation will be completed. All repair and rehabilitation work on the building will be consistent with the Historic Structure Report completed for the Williams House, the Historic Building Code and the Secretary of Interior's Standards for the Treatment of Historic Properties.</p>	NOE

<u>Documents Received on Monday, January 30, 2006</u>			
2006018435	Fort Ross Coastal Terrace Successional Management Parks and Recreation, Department of --Sonoma Remove pole size (>10 in. dbh) Douglas-fir trees and mature coyote brush from coastal prairie habitat within Fort Ross State Historic Park. In absence of fire, these species are invading high-quality native perennial grasslands. Trees will be cut nearly flush with ground level and slash will be scattered to contact ground and maintain scenic vistas from Highway 1. Coyote brush shall be cut at the base and treated with triclopyr or treated with a foliar application of triclopyr. Work shall be time (August 31 - February 1) to avoid impacts to nesting birds and northern spotted owl breeding activities. No earth disturbance will occur as a result of this project.	NOE	
2006018436	Salt Point Sewer Systems Repairs Parks and Recreation, Department of --Sonoma Repair and replace failed components of existing septic system within Salt Point State Park. Project consists of replacing 4", 6", and 8" sanitary trees that are located within septic tanks throughout Salt Point State Park. Up to 44 septic tanks may require upgrades. Project is required to protect the health and safety of the visitors of Salt Point State Park.	NOE	
2006018437	Ailanthus Removal - Shasta State Historic Park Parks and Recreation, Department of --Shasta Remove and treat Tree of Heaven (Ailanthus altissima), an invasive shrub/tree that is expanding its coverage throughout Shasta State Historic Park (SHP) and threatening the integrity of its historic structures and landscape. Ailanthus will be controlled throughout the park with herbicide as prescribed by a Pesticide Control Advisor. The project entails an initial treatment, with a follow-up treatment approximately 6 months later. Ongoing maintenance thereafter will likely require annual treatment. The project will complement the park's "South Side Ruins Stabilization" project by killing vegetation prior to its removal adjacent to the ruins. The roots and bases of all other treated vegetation will be left in place to eliminate the chance of disturbing any unknown, underlying historic resources. Where the plants are growing through historic structures or are in locations that are difficult to access, basal bark herbicide treatment may be used. In these cases the plants would not be cut, but would be treated and left to die in place. The project involves no ground-disturbing activities, and will be conducted by Shasta SHP maintenance staff in consultation with the District Environmental Scientist and a DPR-qualified historian and archaeologist, to avoid adverse impacts to archaeological and historic resources as well as historic-era domestic vegetation.	NOE	
2006018438	Annual Creek Maintenance Fish & Game #3 Walnut Creek--Contra Costa Annual maintenance involving installation of Willow revetment to stabilize slope where further erosion will undercut existing road (Tice Creek Drive).	NOE	
2006018439	Flow Gaging Improvements - Alpine and Utica Dams Northern California Power Agency --Alpine Construct improved steam flow measuring weirs of concrete and steel at the outlets of Alpine and Utica Dams to measure controlled discharges.	NOE

2002102118	Northern Waterfront General Plan Amendment Alameda, City of Alameda--Alameda Amend the City of Alameda General Plan to promote and facilitate redevelopment of the project area with a mix of uses that would include residential, commercial, office, marina, and open space.	EIR	03/16/2006
2005072017	West Berkeley Bowl Berkeley, City of Berkeley--Alameda The applicant proposes to demolish the existing non-residential structure (a pre-fabricated metal warehouse) and construct a full-service grocery marketplace that includes a 109 space underground parking garage, general grocery store, ancillary office, storage, adjacent prepared food service area, and community room. In addition to the underground parking garage, the project will also have 102 surface parking spaces, for a total of 211 parking spaces on the site.	EIR	03/16/2006
2005082032	Home Depot Project South San Francisco, City of --San Mateo The proposed project would involve the demolition of an existing 156,637 square foot Levitz Furniture building and the construction of a 101,272 square foot Home Depot home improvement warehouse, an adjoining 24,522 square foot Garden Center, and a two-level parking structure providing 426 parking spaces.	EIR	03/16/2006
2005102126	Yellow-billed Cuckoo Habitat Enhancement Plans at Baker Creek and Hogback Creek in Inyo County Los Angeles City Department of Water and Power --Inyo The proposed project includes the implementation of habitat plan for the yellow-billed cuckoo at Baker Creek in Inyo County. These plans are to be implemented in keeping with the 1997 MOU between LADWP and various parties to provide resolution of the conflict and settle concerns between the parties over the LORP and other provisions of the 1991 EIR. These enhancement plans guide actions or projects to maintain and/or improve habitat and supplemental irrigation to improve habitat for yellow-billed cuckoos over 740 acres of land already owned by LADWP. The plans also provide for altered grazing practices and recreational use of the sites to accommodate the plan to maintain and/or enhance habitat for the yellow-billed cuckoo.	EIR	03/16/2006
2003111123	Clearman's Village Project, Project No. 03-147 Los Angeles County Department of Regional Planning Pasadena, Temple City, San Marino--Los Angeles An application to develop a new two-story department store of 98,497 square feet and two single-story restaurants of 15,000 and 8,500 square feet respectively. Project will provide 658 parking spaces. The project is requesting a Zone Change to rezone the entire site to C-2-DP and a Conditional Use Permit for development within DP zone. Currently, site is paved and developed with shops, offices, restaurants, and five single family residences owned by the project applicant. One existing restaurant of 15,000 sq. ft. will remain, while the rest of current uses will be	FIN

2004032046	Fairfield-Suisun Sewer District Master Plan Fairfield-Suisun Sewer District Fairfield, Suisun City--Solano Improvement projects to accommodate increased flows in the collection system as future development and growth occurs; treatment plant expansions of both primary and secondary components based on an evaluation of projected influent flows, treatment plant capacity, and influent equalization volume; and a proposed new outfall to LedgeWood Creek to increase the outfall capacity of the treatment plant by 25 mgd to meet future wet weather flows.	FIN	
2004101039	Old Police Headquarters & Park Project San Diego Unified Port District San Diego--San Diego The proposed project consists of the following components: (1) Amendments to SDUPD's Port Master Plan; (2) Amendment and additions to tideland leaseholds within the project site; (3) Retention and adaptive reuse of the OPH for a mix of specialty retail, entertainment and restaurant uses; (4) Demolition and partial redevelopment of the Harbor Seafood Mart (HSM) building; (5) Reconfiguration of HSM, OPH, and Seaport Village parking lots; (6) New public park and plaza areas; and (7) Implementation of a Parking Management Program that includes some or all of the following: (a) on/off-site parking; (b) valet/tandem parking; and (c) shuttle system or participation in a shuttle system linking the site to off-site parking.	FIN	
2005081138	Agua Caliente Casino Expansion Agua Caliente Band of Cahuilla Indians Rancho Mirage--Riverside The proposed project would consist of the expansion of the existing Agua Caliente Casino complex in two phases, Phase I and Phase II. Phase I of the expansion would include the construction of additional casino-related facilities including a showroom, hotel, and parking areas. Phase II would include the construction of a 350,000 sf retail area.	FIN	
2005122071	Hospital Building Stabilization Project - Angel Island State Park Parks and Recreation, Department of Tiburon--Marin Stabilize and rehabilitate the exterior and interior of the Hospital Building. When complete the Hospital Building will include space for a house museum, interpretive center, library, assembly areas, genealogical research facility, and administrative center. Final connection of utilities previously routed to the building. Adjacent site work including repairing/restoring site paving and access around the building, replacing historic fencing, and rehabilitating the recreation yard. Installation of a subsurface drainage system around the building as necessary to solve water drainage problems. Amend the 1979 Angel Island General Development Plan to allow public access to the Hospital Building.	FIN	
2006011134	Student Academic Support Services Building University of California, Riverside Riverside--Riverside The University of California, Riverside is proposing to construct a new Student Academic Support Services Building (SASS) (UCR Project No. 950457). The SASS Building would provide office and support space for core State-supported administration services functions for students at UCR. The SASS Building would provide approximately 37,380 Assignable Square Feet (ASF) and 58,140 Gross	MND	03/01/2006

	Square Feet (GSF) on three floors. The exterior of the building will be finished primarily in brick, stucco and glazing, consistent with existing campus structures.		
2006012145	Copper Cove Water Storage Tank "C" Replacement Calaveras County Water District --Calaveras CCWD intends to replace its 400,000-gallon redwood water storage tank with two 500,000-gallon water storage tanks at the Copper Cove Water Storage Tank "C" site.	MND	03/01/2006
2006011132	Pier A West / Area 2 Remediation Toxic Substances Control, Department of --Los Angeles The proposed project consists of remediation activities for soil and groundwater contamination. the remedial activities would be consistent with the Remedial Action Plan. Soil remediation will consist of one, or a combination of, the following in-situ remediation alternatives: enhanced bioremediation, pump-and-treat, and chemical oxidation. Pump-and-treat remediation has been identified as the preferred alternative. The existing oil field activities will be consolidated into the eastern portion and potentially into a separate southwestern portion of the project site in order to continue oil production. Any contaminated materials that exceed the threshold requirements would be excavated and transported off-site for disposal. The majority of the project site will be elevated by approximately sixteen feet and capped with asphalt paving. No subsequent uses of the project site are proposed; the site will remain as a potential industrial use.	NOP	03/01/2006
2006011133	Jurupa Business Park Fontana, City of Fontana--San Bernardino The project site is currently three highly disturbed vacant lots with non-native vegetation and grasses. The proposed project, Jurupa Business Park, is for a business park containing three warehouse buildings with the following square footage: Building 1 has 431,240 SF, Building 2 has 420,160 SF, and Building 3 has 416,960 SF for a total of 1,268,360 SF. The total project site encompasses 62.5 net acres and will be completed in three phases: Phase 1 includes 21.0 acres, Phase 2 includes 20.6 acres, and Phase 3 includes 20.8 acres. No significant geological or drainage issues are known to exist on site.	NOP	03/01/2006
2006011135	Villa Burano Area Plan Los Banos, City of Los Banos--Merced The proposed project includes the following components: annexation, area plan, general plan amendment, and pre-zoning and zone change. The proposed land uses include single-family residential, neighborhood commercial, and parks. the smallest of the three parcels within the area plan, 82-12-04, is already located within the city limits. the proposed project includes annexation of the remaining parcels, totaling approximately 114.5 acres. The general plan amendment is for two acres of the site to change the land use designation from Low Density residential to Neighborhood Commercial. Existing County of Merced zoning is A-1 Agriculture. The northernmost parcel already located within the city limits has a zoning designation of Public Development (PD) and the commercial portion to Neighborhood Commercial (C-N). The proposal also includes a zone change for the parcel currently within the city limits from public Facilities (PF) to Planned Development (PD).	NOP	03/01/2006

<u>Documents Received on Tuesday, January 31, 2006</u>			
2006011136	Northwest Communities; SPA #59, ZCC #148, Map 101-29; Excl. Ag. Pres. #10; Tentative Tract Maps # 6646, 6647, 6648 Kern County Planning Department Bakersfield--Kern As proposed, the project will provide a total of 802 residences and up to 36,000 net square feet of commercial building space on 4.5 acres.	NOP	03/01/2006
2006012141	Central Concord Redevelopment Plan Amendment Concord, City of Concord--Contra Costa The purposes of the proposed Amendment are: 1) to add three subareas identified as the North Concord Subarea, the Willow Pass Road Corridor Subarea and the Monument Blvd. Corridor Subarea to the existing area of the Redevelopment Plan; 2) to be outstanding at one time for Parcels II, III and IV of the Existing Project Area; and 3) to make certain clarifying and technical changes to ensure the Redevelopment Plan for the Existing Project Area is consistent with previously adopted ordinances.	NOP	03/01/2006
2006012146	Boessow South EIR Galt, City of Elk Grove--Sacramento The proposed project calls for the diversion of the site into 125 lots; 120 residential lots, four landscape lots totaling ~two acres and one open space lot of ~4.7 acres. Each residential lot will contain one single family residence. The residential lots range in size from ~9,500 to 19,500 square feet. Many of the lots will be 75 by 135 feet (10,125 square feet) in size, but due to the irregular shape of the site some lots will have different and more irregular dimensions; most of these are comparable in size to the 75 by 135 foot lots.	NOP	03/01/2006
2006012149	Domestic Wastewater System Improvements Project and San Benito County Water District Recycled Water Facility Project Hollister, City of Hollister--San Benito The DWSI Project and the RWF Project comprise the two major components of the Proposed Project. Individually, these two projects include a number of component projects that would be implemented in phases.	NOP	03/02/2006
2006011137	Cypress Avenue Overcrossing at Interstate10 Fontana, City of Fontana--San Bernardino The City of Fontana, in cooperation with the County of San Berardino and the California Department of Transportation, is proposing to construct a new Cypress Avenue overcrossing. The project consists of a new four-lane grade separation on Cypress Avenue across Interstate 10 (I-10) in the county of San Bernardino and the city of Fontana. The new overcrossing would extend approximately 0.8 kilometer (0.5 mile) from Valley Boulevard on the north to Slover Avenue on the south. The primary purpose of the proposed project is to provide an additional access route across I-10 to relieve current and future traffic congestion on existing interchanges, including Sierra Avenue to the east and Citrus Avenue to the west. 	accessible to people of all ages, incomes, races, and physical capabilities.		
2005101131	Reynolds and Brown Conditional Use Permit EG-04-652 Elk Grove, City of Elk Grove--Sacramento The proposed project consists of a Conditional Use Permit and Design Review for the development of an automotive service station and convenience store. The project represents the relocation of an existing service station, currently located at the intersection of Grant Line Road and East Stockton Boulevard, approximately 600 feet to the northeast.	NOD	
2005102113	Sierra Valley Fire Protection District Summer General Plan Amendment Plumas County --Plumas Proposal to amend 5.29 acres from Prime Industrial, Light Industrial (I-2) in a Suburban Opportunity Area to Prime Recreation and Zone Rec-1 within a Suburban Opportunity Area while retaining the existing Special Plan - Scenic Road designation and the Mobile Home (MH) and Farm Animal (F) combining Zone.	NOD	
2005111111	Puente Valley Operable Unit Intermediate Zone Remedy San Gabriel Basin Water Quality Authority Industry--Los Angeles The proposed project consists of the construction and operation of six new extraction wells, water conveyance pipelines, and treatment system improvements associated with implementation of the remedy of the IZ in the PVOU. The proposed extraction wells will be approximately 10-inches in diameter and extend to approximately 400 feet below ground surface. The conveyance pipeline would range from 6-to 12-inch diameter pipe totaling approximately 2 miles in length. The proposed wells and pipeline system also include construction of appurtenant structures (e.g., maintenance/access holes, flow meters, valves, and/or vaults). The proposed treatment system involves the modification of the existing San Gabriel Well B7C Treatment Facility (Air Stripper) to incorporate conveyance of the untreated IZ water to the air stripper inlet. If San Gabriel Well B7C Treatment Facility is not available for use, the proposed project would include the construction and operation of a new treatment facility at a vacant portion of the property located at the southwest corner of the intersection of North Sunset Avenue and Nelson Avenue, immediately across from the existing treatment facility. If required, the new treatment facility would be similar in size and layout of the existing San Gabriel Well B7C Treatment Facility.	NOD	
2005122007	Premier West Bank ED 05-29 for UP 05-25 Anderson, City of Anderson--Shasta The proposed project consists of legal parcels covering 1.97 acres, located east of I-5 and west of North Street. This application proposes the demolition of two existing commercial buildings (Variety City and Zuno's Restaurant) and one legal non-conforming residential unit. The applicant proposes the construction of a 4,053 square-foot bank with a drive thru teller, associated parking and landscaping. The proposal is located on commercially zoned parcels (C-2). The addition of a drive-thru teller triggers the requirement for a use permit.	NOD
