STATE CLEARINGHOUSE

NEWSLETTER

January 16-31, 2010

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16-31, 2010**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2009**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, January 19, 2010</u>			
2001042086	Bohemia Retail Project Placer County Auburn--Placer The proposed project would be constructed as a single-phase retail development consisting of an approximately 155,000 square-foot building on 18.62 acres. The project could include an outdoor garden center and fueling area depending on the end user(s). The improvements would include new underground utilities, paving, parking, lighting, and landscaping. The proposed parking design requirements, circulation and landscaping would conform to Placer County standards as contained in the Placer County Design Guidelines Manual and the Auburn/Bowman Community Plan. The proposed parking lot would include 717 standard parking stalls, 17 Handicap (HC) accessible spaces, and two van accessible stalls. Cart corrals would be used in the parking lot. For public safety purposes, the project includes installation of perimeter fencing. In addition, portions of the site adjacent to the existing railroad, canals, and the PG&E corporation yard, will be either walled or fenced. A wood fence would be constructed along the northern property line, adjacent to existing residences, and a solid masonry wall would be constructed along the eastern boundary of the sites, adjacent to Canal Street. An underground detention pond is proposed in the northwestern portion of the site.	EIR	03/04/2010
2007101145	Travertine Point Specific Plan Riverside County --Riverside, Imperial The proposed Travertine Point Specific Plan would master plan and regulate land use on ~4,918 acres located along the northwestern shore of the Salton Sea within Riverside and Imperial counties, of which 3,936 (~80%) is within the County of Riverside and 982 acres (~20%) is within the County of Imperial. Approximately 1,413 acres (~29%) of the total specific plan area consists of land located within the reservation of the TMDCI; consisting of 766 acres within Riverside County and 647 acres within Imperial County. As proposed, the Travertine Point Specific Plan would provide for the development of residential neighborhoods of varying densities encircling a Town Center along with supporting commercial and community facilities, including a resort, a marina, a cultural preserve and living desert, open space, trails, parks and recreation areas, schools, and golf courses. The proposed Specific Plan would allow for the development of up to 12,300 residential units (~4.3 units per acre) and 3,404,800 sf of commercial uses. Approximately 1,538 acres (29%) of the total land area, is designated for open space uses. In addition to considering adoption of the Specific Plan, the project will require approval of related discretionary actions including amendments to the Riverside and Imperial County General Plan, Zone Changes, Development Agreements with both counties, and large lot Tentative Tract Maps.	EIR	03/04/2010
2008082060	Estates Reservoir Replacement Project East Bay Municipal Utility District --Alameda NOTE: Review Per Lead The proposed project entails demolition of the Estate Reservoir, total removal of the Estates Reservoir roof, features and supporting structures, and construction of	FIN

	2 buried 3.3 million gallon replacement tanks. The entire reservoir bowl will be landscaped with a mixture of drought tolerant, native grasses and shrubs, interspersed with trees. Existing landscaping, including trees that screen the site along Estates Drive will be preserved. The project also includes improvements at the Montclair Pumping Plant, specifically upgrade of the existing pumps, motors and related appurtenances within the existing structure.		
2009011008	Buena Vista Water Management Program Buena Vista Water Storage District --Kern The Buena Vista Water Management Program consists of 4 project components designed to more effectively and beneficially manage the District's water resources.	FIN	
2007081011	Lusardi Capistrano Project (D-27-04, T-11-04, RC-7-05, C-34-04, C-3-09) Oceanside, City of Oceanside--San Diego NOTE: Recirculated / Review Per Lead A proposed eight lot subdivision for single family residences on approximately 2.69 net acres of land located north of State Highway 76, east of California Interstate Route 5, and on the south of Capistrano Drive. The proposed project density is 4.9 dwelling units per acre based on the net developable area (du/ac) which is below the maximum potential density of 5.9 du/ac. The project will preserve 0.9 acre (33.3 percent) of the existing habitat in natural open space.	MND	02/18/2010
2010011029	Mountain Home Demonstration State Forest 2010 Management Plan Update Forestry and Fire Protection, Department of --Tulare This IS/MND has been prepared by the Board to evaluate potential environmental effects which could result following approval and implementation of the proposed update of the 2003 management plan for Mountain Home Demonstration State Forest, located ~22 miles northeast of Portville in Tulare County, CA. The last management plan for Mountain Home was completed and approved by the Board in 2003. The management plan lays out the planned on-the-ground management on the Forest for the next 5 to 10 yrs. It serves as a guide to Forest managers as well as a public disclosure of the management direction at Mountain Home.	MND	02/17/2010
2010011030	RENV IS02-215 / RCUP 200500217 / PM 19149 - 30801 Sloan Canyon Road, Castaic Los Angeles County --Los Angeles The proposed is a request for a Parcel Map to subdivide 20 acres into 4 lots. Each lot will be 5 acres. No grading is proposed at this time, however the site contains moderate slopes and future grading will be required for the construction of single family residences. Proposed grading is 19,000 cy of cut and fill. The property currently contains one single family residence.	MND	02/17/2010
2010011035	Tuttle Lateral Extension Merced Irrigation District --Merced The proposed pipeline will connect the existing Tuttle Lateral to the existing Vaughn Lateral. The pipeline extensions is to be located within a 15 ft wide easement adjacent to the County road right-of-way for Arboleda Drive, between A.T. & S.F. Railroad to south of Childs Avenue at the Vaughn Lateral road	MND	02/17/2010

	crossing. The pipeline will be ~3,650 ft in length, have an inside diameter of 36 inches and the pipeline material will be reinforced concrete.		
2010011036	ENV-2009-3147-MND - 1432 North Lindacrest Drive Los Angeles, City of Los Angeles, City of--Los Angeles New single family dwelling on a vacant lot in the RE15-1 Zone, in the Hillside Grading Area, with a slope in excess of 15%, and which will include the export of 1,560 cy of earth.	MND	02/17/2010
2010011037	ENV-2009-3411-MND - 5169 West Adams Boulevard Los Angeles, City of Los Angeles, City of--Los Angeles Zone Variance to permit green waste storage and transfer in the C2 Zone. The request includes the import and export of "green waste" materials from other sites to a recycling facility for use as mulch, compost, fertilizers, and power generation. No processing of materials to occur on site.	MND	02/17/2010
2010011038	Prado Business Park San Luis Obispo, City of San Luis Obispo--San Luis Obispo Develop the 20 acres site with a 160,000 sf business park including a parking area with 479 parking spaces.	MND	02/17/2010
2010012029	Prometheus Redevelopment Project at 421-455 West Evelyn Avenue Mountain View, City of --Santa Clara Prometheus Real Estate Group, Inc. proposes to redevelop the site with an apartment complex that includes up to 213 residential units (at an approximate density of 61 units per acres, 10 percent below market rate) over a subsurface parking garage and associated recreational facilities, open space, landscaping, and a public roadway. Two complexes, consisting of a combination of 2, 3, and 4 story buildings, would be sited around internal courtyards. Total building height would not exceed 50 ft and heights would be limited to 2 stories along Villa Street and 3 stories along Bush Street. The eastern courtyard would include an ~2,590 sf recreational building, barbeque area, and pool. A new north-south roadway would be located along the eastern edge of the project site connecting Evelyn Avenue and Villa Street. A 24 ft wide driveway would be constructed in place of the new roadway during the interim. The garage would be accessed via the new roadway and would extend below both apartment complexes, providing 301 standard parking spaces, including 9 ADA-accessible spaces, and 13 additional tandem parking spaces, for a total of 314 parking spaces.	MND	02/17/2010
2010012030	Backbone-McCandless Fuelbreak Western Shasta Resource Conservation District --Shasta The project will complete a 7.1 million long fuelbreak along the Backbone Road. It will be a total of 300 ft wide but only small tree (<8 inch diameter) and shrubs will be cut. On slopes less than 30% the work will be done using a masticator, with slash being distributed across the project area. On slopes greater than 30% and within conifer plantations the work will be done by hand and slash will be placed in piles for later burning. No chemicals will be used. All watercourses will be protected by buffers the same widths as used in commercial timber harvest, where entry and vegetation cutting will be avoided. The project will occur in late summer and autumn to avoid potential water quality and wildlife species impacts.	MND	02/17/2010

2010012031	<p>Save the Bay Greenhouse and Shed Palo Alto, City of Palo Alto--Santa Clara</p> <p>The Project includes the construction of a new 560 sf greenhouse and a 625 sf shed (replacing the existing 400 sf shed) adjacent to the existing Duck Pond. The project involves minimal removal of non-native vegetation (maximum 600 sf) to accommodate the new structures; existing trees are not impacted. Currently the project site is used by Save The Bay for propagation of native plants that are used for habitat restoration along San Francisquito Creek and other sites at the Palo Alto Baylands. There is a 1,600 sf shadehouse and 400 sf storage; these facilities allow Save The Bay to grow 8-10,000 native plants annually that are planted at the Baylands.</p>	MND	02/17/2010
2010012032	<p>Silicon Valley Power Kenneth Substation Santa Clara, City of Santa Clara--Santa Clara</p> <p>The project proposes to construct a 60kV Silicon Valley Power (SVP) electrical primary substation and associated electrical equipment as conditioned under a Use Permit in the Light Industrial Zoning District. The two-bay substation (two 50m VA 60kV-12kV step-down transformers) would have an all weather asphalt surface. A concrete masonry unit screen wall, 11 ft in height, would surround the substation. The substation would connect to existing 60kV overhead lines located over the eastern portion of the site. Electrical power from the substation would be distributed through 12 kV underground distribution lines. Surrounding properties are developed with industrial and commercial uses, internet data centers to the east, west, and south; retail furniture store to southwest, and a 6 acre SVP electrical receiving station is located across Space Park Drive to the north.</p>	MND	02/17/2010
2010012034	<p>Pleasant Valley Road at Oak Hill Road Intersection Improvements Project El Dorado County Diamond Springs--El Dorado</p> <p>Project improvements will include widening of the shoulders approaching to the intersection; the addition of turn pockets or a two-way left turn lane; grading and paving; drainage improvements, and minor landscaping. The total Project Area consists of ~2,400 ft of Pleasant Valley Road and a short segment of Oak Hill Road.</p>	MND	02/17/2010
2010012037	<p>J. Cellars Winery Napa County Calistoga--Napa</p> <p>Request is to approve a Use Permit (P09-00174) to allow a 30,000 gallon per year winery. This proposal requests the construction of 15,798 sf of caves and a 4,702 sf two story winery with a 2,009 sf exterior deck, a new left turn lane on State Route 29 at the approach to Quail Mountain Lane, installation of a new waste water treatment system including 2,230 sf subsurface drip disposal field, the abandonment of an existing septic tank, installation of a 40,000 gallon fire protection water tank and associated water line, improvement of the existing driveway to a 20 ft width with all season paving, and the construction of 28 new parking spaces, located at 4455 St. Helena Highway, Calistoga.</p>	MND	02/17/2010

2010012038	New Santa Clara Family Courthouse Administrative Office of the Courts San Jose--Santa Clara The Administrative Office of the Courts proposes acquisition of a courthouse site; construction of an ~21 courtroom courthouse, and operation of the courthouse, and operation of the courthouse for the Superior Court of California, County of Santa Clara. The proposed site's parcels are currently paved parking lots. The facility will replace 5 leased facilities in downtown San Jose.	MND	02/17/2010
2010011044	Beverly & Fairfax Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project includes the removal of the Beverly-Fairfax building (with the exception of the street-facing elevations). The project site would be developed with a six-story mixed-use building, which would contain 71 residential condominium units over 3 commercial condominium units (approximately 11,454 square feet of commercial/retail land uses, which could include a maximum of 5,000 sf of restaurant use). The residential condominium units would include: 4 single units, 42 1-bedroom units, 4 1-bedroom plus study units, and 21 2-bedroom units. Four levels of subterranean parking are proposed, providing a total of 224 parking spaces. Vehicular access would be provided via a single driveway on Fairfax Avenue, at the northeast corner of the Project Site.	NOP	02/18/2010
2010012028	Rio Vista Army Reserve Center Redevelopment Plan Rio Vista, City of Rio Vista--Solano Adoption of new Rio Vista Army Reserve Center Redevelopment Project Area and Redevelopment Plan.	NOP	02/17/2010
2010012035	Bear River Wind Power Project Humboldt County Rio Dell, Ferndale--Humboldt Shell Wind Energy Inc. has submitted an application for a use permit to construct the Bear River Wind Power Project on private property located primarily along the Bear River Ridge in the northern Coast Ranges around Cape Mendocino in Humboldt County, California. The proposed project includes up to 25 wind turbines with the capacity to generate a total of 50 megawatts of electricity. The wind turbines would be arranged in turbine "strings" within a 500 foot wide corridor.	NOP	02/17/2010
2010012036	Cache Creek Casino Resort Event Center Project Yocha Dehe Wintun Nation --Yolo NOTE: Tribe formally known as Rumsey Band of Wintun Indians. End review per lead. The proposed project would offer additional amenities at the Resort, provide additional administrative support space for both the Resort and the Event Center Project, and provide additional parking for the event center and other additional amenities. The Tribe proposes to construct an event center; expand gaming and dining options; increase administrative, storage, and other back of house storage facilities, and increase parking.	NOP	02/18/2010

2009111047	<p>White Fox Run Tentative Parcel Map/TPM 20957 San Diego County Oceanside--San Diego</p> <p>The proposed residential subdivision would subdivide 15.99 acres into 4 parcels and a Designated Remainder Parcel along the intersection of White Fox Run and Live Oak Park Road in the Fallbrook Community Planning Area. The subject site is Parcel 3 of PM 9792 (TPM 13273R) which had a previously adopted Negative Declaration. Portions of the property have active agriculture. There is an existing open space easement along a vegetated water course, south of Live Oak Park Road. Two additional biological open space easements are proposed across portions of Parcels 2, 3, 4 and the Designated Remainder Parcel. A proposed private road easement will connect all parcels to White Fox Run.</p>	NOD	
2009111072	<p>EVWD Eastwood Farms Community Water Users, Water System Improvement Project East Valley Water District Highland--San Bernardino</p> <p>The EVWD is proposing to install and operate system improvements to the existing EFCWU system. These improvements will provide water service to the EFCWU that complies with the DPH requirements for public water supply facilities including fire hydrants connections will be installed within existing road right-of-ways and existing EFCWU easements. Water supply laterals or service connections will be installed from the main water lines to the road right-of-way lines and EFCWU easements lines. No new right-of-way or easements will be required to implement the proposed system improvements. The installation of water supply laterals and meters on private property or outside existing right-of-way or easements will be the responsibility of individual customers or parcels served. The following water facility improvements will be constructed to EVWD and DPH standards and specifications and will be connected to the existing EVWD water supply system which has adequate capacity and entitlements to accommodate the service needs of EFCWU.</p> <p>Sixth Street-Construct service laterals to parcels on the south side of the street from the existing 12 inch water main in the street to the road right-of-way line. Construct fire hydrants per Fire Department Standards on south side of the street.</p> <p>Fifth Street-Construct the water main, service laterals, and fire hydrants within the existing road right-of-way. Fourth Street-Construct a water main, service laterals, and fire hydrants within the existing road right-of-way and EFCWU easements.</p> <p>Third Street-Construct a water main, service laterals, and fire hydrants in the existing road right-of-way. Tippecanoe Avenue-Construct service laterals within the road right-of-way from the existing water main in the street to the east right-of-way line of the street. Construct water mains and service laterals within existing EFCWU easements on the east side of Tippecanoe Avenue. Construct fire hydrants within the existing road right-of-way and EFCWU easements.</p> <p>It is estimated that ~5,500 lineal ft of new water mains and that ~3,150 lineal ft of new service laterals will be installed by this project.</p>	NOD

	Pittsburg. The facility is operated by Mt. Diablo Recycling, Inc., which is in turn owned and operated by Garaventa Enterprises (project sponsor/applicant). The MDRF, which has been in use since 1996, was physically expanded in 2008, subject to Planning Commission Resolution Nos. 9691 (Use Permit) and 9692 (Design Review). The operational modifications to the existing Use Permit Resolution No. 9691, adopted by the Planning Commission on March 27, 2007, can be achieved without expanding or otherwise physically altering the existing plant.		
2010018166	Town Facilities Energy Efficiency Projects Truckee, City of Truckee--Nevada Energy efficiency project for Town facilities including replacement of lighting fixtures, replacement of motors on mechanical equipment, installation of pipe insulation, and installation of network thermostats.	NOE	
2010018167	Architectural Review Committee (ARC) Application 09-215, Construction of a New Single-Family Dwelling at 885 Lottie Street. Monterey, City of Monterey--Monterey The proposed project includes the partial demolition of the existing 585 square-foot single-family dwelling and construction of a new 1,046 square-foot, one-story single-family dwelling with a loft area and an attached one-car garage on an existing 5,000 square-foot lot of record. The project complies with all development standards contained in the Monterey Municipal Code. The purpose and benefit of the project is to provide additional habitable space for the occupant.	NOE	
2010018168	ED-50 Culvert Repair and Rehabilitation Fish & Game #2 --El Dorado The scope of the project is to rehabilitate three culverts at PM 19.45, 45.37, 45.40 along State Route 50. The rehabilitation of the culverts will include the replacement of the headwall at PM 45.40 & 45.37 and invert paving at PM 19.45.	NOE	
2010018169	Ordinance No. 2010-400 amending Title 5 of the Municipal Code to add a new Chapter 5.00. Big Bear Lake, City of Big Bear Lake-- Ordinance No. 2010-400 amending Title 5 of the Municipal Code to add a new Chapter 5.99 to prohibit the issuance of business licenses to medical marijuana dispensaries and other businesses and uses prohibited by Federal or State law throughout the City.	NOE

2010018171	Fisher Design Review Ross, City of Ross--Marin Demolition of single family residence and construction of new 6,535 sf residence and garage. Project also includes relandscaping the site.	NOE	
2010018173	NewPath Distributed Antenna System (DAS) Temecula Project Public Utilities Commission Temecula--Riverside Installation of fiber optic cable and DAS equipment.	NOE	
2010018174	Generator and VFD Upgrade for LV-2 Pump Station Las Virgenes Municipal Water District Calabasas--Los Angeles The proposed project involves the installation of an on-site diesel emergency generator and the replacement of the full voltage motor starter with a variable frequency drive (VFD) and related electrical items within LV-2. The emergency generator would allow LV-2 to be more reliable, because it would run the 100 hp booster pump along with SCADA and lighting, during power outages. The replacement of the full voltage motor starter with a variable frequency drive (VFD), and installing related electrical items would improve the pump station's operational efficiency. All work will be done within the boundaries of LV-2 with no increase in capacity.	NOE	
2010018175	Cottonwood Creek Siphon Replacement and Fish Passage Improvement Project Anderson-Cottonwood Irrigation District --Los Angeles, Shasta This project will improve access to salmon and steelhead spawning habitat in Cottonwood Creek by replacing a siphon that is impeding migratory movements of salmon and steelhead. The proposed action consists of replacing the existing siphon (pipe) that conveys water used by the Anderson-Cottonwood Irrigation District (ACID) south access Cottonwood Creek. Replacing the existing siphon where it crosses Cottonwood Creek will result in reduced potential for future failure of the structure (washout or rupture) and improved fish passage, both of which are recognized as environmentally and socially beneficial by the ACID, the California Department of Fish and Game (CDFG), and the United States Fish and Wildlife Service (USFWS).	NOE	
2010018176	Fullerton College Tech and Engineering Complex Replacement Project North Orange County Community College District Fullerton--Orange The Project includes Fullerton College buildings 700, 900, and 901. Building 700 (89,593 square feet) is being refurbished in place with mechanical, electrical, and Americans with Disabilities Act (ADA) upgrades in addition to new fixtures. Buildings 900 and 910 (33,919 total square feet) are being demolished and replaced with one building of equivalent area. The course offerings and use in these buildings will remain the same. Parking locations and access will remain the same except for ADA upgrades to certain parking spaces. New parking lot lights will be added for Building 900, and there will be a new dome on Building 900 that is 35'6" above grade compared to the existing 28' building.	NOE

2010018177	Lease Office Space in Existing Multi-tenant Building Summer School for the Arts Sacramento--Sacramento California State Summer School for the Arts is requesting to occupy 2,246 nuf of a multi-tenant building located at 7801 Folsom Blvd., which fits their needs. California State Summer School for the Arts is relocating to new space due to the lease expiring on their current space.	NOE	
2010018178	Women's Federation Day Use Area Split-rail Fence Installation Parks and Recreation, Department of --Humboldt The purpose of the project is to install an approximately 200-foot long split rail fence on the west side of the parking lot in the California Federation of Women's Clubs Grove Day Use Area for public safety at a steep drop-off to the South Fork Eel River. The fence will be an approximately 3 foot high, three-rail design and will extend an existing fence line. Excavate approximately twenty-five holes about 2 feet deep and 1 foot in diameter, install fence posts [any concrete], and backfill holes with excavated soil.	NOE	
2010018179	Septic Lateral Line and Leach Pit Replacement for Restroom/Shower Building #3 Parks and Recreation, Department of --Del Norte Replace four lateral lines and 3 leach pits, that serve Restroom/Shower Building #3 in the public campground at Jedediah Smith Redwoods State Park to rehabilitate the septic system. Excavate four, approximately 50 feet long by 2 feet wide by 3 feet deep trenches, remove existing lines, install new lines, connect to the 3 leach pits, and refill trenches with excavated soils. The leach pits are approximately 3-foot diameter, by 10 foot deep. Excavate and remove the drain rock from the concrete leach pits and replace with clean drain rock. Install sewer line to connect leach pits to lateral lines, Dispose of the contaminated drain rock in accordance with the State Health Departments requirements.	NOE	
2010018180	Coleman Penstock Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta The project is to replace the existing double penstock with a new single larger capacity penstock. The total project size is 21.1 acres. Construction will be conducted out of actively flowing waterways. The benefits of the project include maintaining hydropower electricity generation and preventing catastrophic loss of generating capacity. The existing penstock is over 100 years in age and has deteriorated to the point that it is near the end of its useful life. If the existing penstocks were to catastrophically fail, a large quantity of sediment could reach Battle Creek and significantly impact water quality.	NOE	
2010018181	Creek Restoration/Marcu Residence Orinda, City of Orinda--Contra Costa In an effort to become more energy efficient the City of Orinda has several projects that would upgrade existing facilities to become more energy efficient. These projects include: replacement of existing street lights to LED fixtures, upgrade several internal light fixtures and bulbs to T8 25 W and replace old boiler with SEER 16 AC unit. The project work is considered maintenance in scope. The project work does not involve the expansion of use beyond what currently exists.	NOE

2010011042	Edward L. Wenzlaff Elementary School Palm Springs Unified School District Desert Hot Springs--Riverside The proposed project includes the demolition, reconstruction, and modernization of the existing Wenzlaff Elementary School. Four new buildings would be constructed, two existing classroom buildings would be structurally modernized, and a relocatable preschool building would be added. During redevelopment of the Wenzlaff Elementary School site, the school's 800 students would temporarily attend the new elementary school proposed at the northwest corner of Avneue Jalisco and West Drive (~1.15 miles north of the project site). Upon completion of the proposed Wenzlaff Elementary School project, 600 of the 800 relocated students would return to Wenzlaff Elementary, thereby alleviating overcapacity.	MND	02/18/2010
2010011043	Indian Head Reservoir and Water System Improvements Borrego Water District --San Diego The project proposes construction and operation of one 750,000 gallon water reservoir tank, identified as Indian Head Reservoir Tank No. 2, to be situated in a northwestern portion of the unincorporated community of Borregp Springs. Additionally proposed is the construction of one water well site and installation of ~1.67 miles of 12 inch pipeline. The proposed water Tank No. 2 will be constructed at an existing reservoir site to be operated and maintained by the Borrego Water District. The fenced area presently contains one existing reservoir tank. Tank No. 2 will be placed equal to that of the existing reservoir.	MND	02/18/2010
2010011045	Wilcox Reservoir Borrego Water District --San Diego The project proposes construction and operation of 2-2,000 gallon steel water tanks to be situated south of Borrego Springs Rd. Additionally proposed is the construction of a booster station at an existing well site and the installation of a pipeline corridor extending 3 miles along DiGiorgio Rd north of the project site. The proposed project is anticipated to improve upon the Borrego Water District's domestic water distribution service for existing and entitled land uses in the community.	MND	02/18/2010
2010011046	Water System Upgrades at Lake Cachuma Campground Santa Barbara County --Santa Barbara Proposal to relocate Water Treatment Facility from within the 3 ft lake surcharge zone at Tequepis Point to a higher elevation south of the existing location, which is beside an existing paved roadway within the already developed campground area, restore and revegetate with native plants the existing water treatment facility location on Tequepis Point; and add a second water storage reservoir adjacent to the existing water storage reservoir, which lies on the hillside above the south of Highway 154.	MND	02/18/2010
2010012039	Kentfield Force Main Replacement Project Ross Valley Sanitary District Larkspur--Marin The new Kentfield Force Main will replace an existing force main constructed in 1972 which has risk of failure due to its composition and age and has insufficient wet-weather hydrolic capacity. The new 7,455 ft long force main will be constructed by open cut excavation and will extend from the end of South Eliseo	MND	02/18/2010

	Drive in Larkspur along the Corte Madera Creek berm to pump station 15 in Kentfield.		
2004081066	Supplemental EIR (SEIR-09-01) for Amendments to the City of Chula Vista General Plan (GPA-09-01) and Otay Ranch General Development Plan (PSM-09-11) Chula Vista, City of Chula Vista--San Diego The GPA and GDPA propose to allow implementation of Village 8 West, Village 8 East, Village 9/EUC and the University/RTP site as well as necessary roadway and utility corridor improvements.	NOP	02/18/2010
2006091093	Arantine Hills Specific Plan Corona, City of Corona--Riverside The proposed project is a 274.8 acre Specific Plan that will guide the development of a master-planned community including residential, general commercial, mixed use (retail, office, business park, research and development, light industrial and multifamily residential), open space and park land uses. In total, the project supports 1,621 residential units with densities ranging from 3 units per acre to 35 units per acre, 745,300 square feet of commercial space, four public parks totaling 15 acres, 37 acres of open space, and roadway and other infrastructure improvements.	NOP	02/18/2010
2010011039	Geotechnical and Hydrogeologic Study at Santa Rosa Creek Ranch Cambria Community Services District Cambria--San Luis Obispo The Community Services District of Cambria is proposing a project that involves installation of monitoring wells along the State Beach and County-owned Shamel Park beach over a 2 yr maximum time period for the purpose of temporary information gathering activities of groundwater. The investigation will consist of geophysical surveys and soil borings along the Santa Rosa Creek beach, laboratory analysis, and pump tests, and computer modeling to characterize the subsurface materials and hydrology.	Neg	02/18/2010
2007011043	Selma New Well Station 17-02 Health Services, Department of Selma--Fresno The project consists of construction and operation of a new well and well head treatment; to assist in meeting the water needs for an approved subdivision for water supply, and associated fire supply demand, and to meet Safe Drinking Water Standards.	NOD	
2007032067	Coleman National Fish Hatchery Water Intakes Rehabilitation Project Regional Water Quality Control Board, Region 5 (Central Valley) --Shasta, Tehama The State Water Resources Control Board (State Water Board) is processing the petitions to change the points of diversion (POD) for Licenses 4472, 7993, and 9561 (Application 13540, 20288, and 22227) to improve water management flexibility by moving diversions to an improved intake with fish screen. The three licenses have a combined direct diversion of 111 cubic feet per second. The petitions propose to provide operation redundancy to ensure an uninterrupted supply of water to the hatchery. The rates of diversion will not exceed the combined rate under the three licenses. An intake is being redesigned to meet current screening criteria and to improve operation at the Coleman National Fish Hatchery to benefit anadromous salmonids.	NOD

2010014004	Lone Pine Paiute-Shoshone Reservation Road Improvement Project Bureau of Indian Affairs --Inyo NOTE: Review Per Lead Rehabilitation, restoration, re-surfacing and reconstruction of selected roadways.	EA	02/25/2010
2008011109	Grand Terrace General Plan Update and Amendment No. 6 to the Redevelopment Plan/Comm. Redev. Project Grand Terrace, City of Grand Terrace--San Bernardino General Plan Update: A comprehensive update to the 1988 City of Grand Terrace General Plan has been prepared. Updates were made to the following General Plan Elements: Land Use, Circulation, Open Space and Conservation, Public Health and Safety, Noise, Public Services and Facilities, Housing, and Sustainable Development. The Updated General Plan has been reorganized to be more consistent with the format articulated in the 2003 General Plan Guidelines prepared by the State of California Office of Planning and Research (OPR); existing environmental conditions have been updated to reflect current conditions; the goals of the General Plan have been modified to better reflect the relationship between the General Plan and its relevance to the citizens of Grand Terrace; its Land Use Element and attendant Land Use Plan has been modified to facilitate greater diversity in future development options for the relatively few vacant and/or underutilized parcels remaining in the remaining in the City; and, several other elements were modified to reflect changes to the Land Use Element. Amendment No. 6 to the Grand Terrace Community Redevelopment Project Redevelopment Plan: The Redevelopment Plan for the Grand Terrace Community Redevelopment Project was originally adopted by the City Council in 1979. The currently proposed 6th amendment to the Redevelopment Plan comprises certain modifications primarily aimed at maximizing the Redevelopment Agency's financial ability to implement the Redevelopment Plan.	EIR	03/08/2010
2008091064	City of Chino General Plan Update Chino, City of Chino--San Bernardino The Proposed General Plan is a comprehensive update to the City of Chino's existing General Plan, including revisions to the City's Zoning and Subdivision Ordinances. An alternate plan, called the Focused Growth Plan, which considers more intensive development in limited areas of Chino, is also evaluated as part of this project. A Draft Environmental Impact Report (EIR) has been prepared to assess the potential environmental consequence of adoption and implementation of both the Proposed General Plan and the Focused Growth Plan. This assessment has been completed to inform decision makers, the City of Chino, other agencies, and the general public of the nature of the General Plan and its effect on the environment. The Draft EIR has been prepared in accordance with and in fulfillment of CEQA requirements.	EIR	03/08/2010

2009041117	<p>City of Santa Monica Land Use and Circulation Element Santa Monica, City of Santa Monica--Los Angeles</p> <p>Overall, the proposed LUCE would reduce the maximum development potential within the City compared to the level of allowable development under the current development standards contained in the existing 1984 Plan. Compared to today, the modest land use changes allowed under the proposed LUCE could result in a net increase of residential units (emphasizing affordable and workforce housing), retail space, office space, office uses, creative art spaces, medical space (medical office and hospital), hotel space, and ~18.5 acres of additional parks/open space by the proposed LUCE horizon year of 2030.</p>	EIR	03/08/2010
2009071077	<p>ENV-2009-1739-MND - 1305 Abbot Kinney Boulevard Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>Coastal Development Permit for the demolition of a 2-unit, 1,248 sf commercial building and the construction of a 1,312 sf restaurant; a Zone Variance to permit a no loading zone; and a Specific Plan Exception for reduced parking of six in lieu of 14 parking spaces, all in conjunction with a property located within the C2-1-O-CA Zone of the Venice Community Plan.</p>	MND	02/22/2010
2010011048	<p>Zone Change No. 08-158 & General Plan Amendment No. 08-34 San Benito County Hollister--San Benito</p> <p>The Applicant is requesting a Zone Change and General Plan Amendment for a 51.21 acre parcel. Parcel number 014-090-043 is owned by Sally Haydon, and is currently zoned Agricultural Productive (AP) with an Agricultural Productive (AP) General Plan designation. The property owner is requesting to change their current Zoning and General Plan designation from Agricultural Productive (AP) to Commercial Thoroughfare (C-1). In the future the applicant/owner would like to expand the existing permitted uses on her property for entertainment, retail & food amenities. The property is currently approved for the following uses through Use Permit 691-95 and Use Permit 69-95 A.I</p>	MND	02/22/2010

2010011052	<p>Four Gas Wells Project - AA09-023, AA09-024, AA09-031, & AA09-032 Merced County Merced--Merced Panther Energy Company of Tulsa, Oklahoma, proposes to drill, test, and (if determined economically viable) install production equipment for 4 natural gas wells in Merced County. If production equipment is installed, ~4.85 miles of gathering lines would be constructed in order to connect each gas well to the existing transmission line located within Gurr, Sandy Mush, and Combs Road right-of-ways, west of the well sites. Each well would be located on a 250 ft by 250 ft pad and two would require the construction of short access roads. The four well sites are located south of the City of Merced between the intersection of Sandy Mush Road/S. Gurr Road and Sandy Mush Road/County Road 59 (Los Banos Highway).</p>	MND	02/22/2010
2010011053	<p>Meadowlark Road from Clinton Keith Road to Baxter Road Murrieta, City of Murrieta--Riverside NOTE: Review Per Lead</p> <p>The proposed project, which is part of the City's Capital Improvement Plan, is the acquisition of right-of-way (ROW) and construction of Meadowlark Road from ~100 ft south of Clinton Keith Road to ~100 ft north of Baxter Road. In addition to the roadway, the project also includes storm drains, storm water treatment facilities, street lights, signing and striping. Traffic signals and signal inter connect conduits will be installed at the intersection of Meadowlark Road/Clinton Keith Road, Meadowlark Road/Linnel Lane, and Meadowlark Road/Baxter Road. Parkway and median landscape improvements will include a completely automated irrigation system.</p>	MND	02/24/2010
2010011054	<p>Green River Road Widening Corona, City of Corona--Riverside</p> <p>The proposed project is the widening of Green River Road between SR 91 and Palisades Drive from 4 lanes to 6 lanes including installation of curb and gutter, sidewalk, utility relocation, installation of storm drain laterals and culverts, the installation of a new traffic signal at Green River Road/Dominguez Ranch Road, and the modification to the existing intersections of Green River Road/Fresno Road and Green River Road/Nicholas Place.</p>	MND	02/22/2010
2010012040	<p>San Miguel Pump Station & Reservoir Solar Project Contra Costa Water District Concord--Contra Costa</p> <p>The proposed Project would consist of solar panel arrays located on a vacant area within the 8.8 acre parcel owned by CCWD. Exhibit 1 displays the anticipated facility layout. The actual project footprint within the 8.8 acre parcel would be less than 1 acre. Access to the proposed Project would be through the existing paved access roads connected to Treat Blvd. Each solar array would consist of 8 modules each combined in 123 strings for a total of 984 photovoltaic modules (260 KW total capacity) that convert light into electricity by absorbing the energy of the sun and causing current to flow between two oppositely charged layers.</p> <p>Once grading is complete, the steel support structures for the photovoltaic power arrays would be installed on small concrete footings placed on grade, ~6 inches thick under each corner of the array. The photovoltaic arrays would then be</p>	MND	02/22/2010

	installed on the support structures and the inverter would be installaed on the 12 inch thick concrete pad. The power conduits from the arrays to the inverter would be installed by trenching, to a depth of ~3 ft.		
2010012042	Vallejo Police Activities League Athletic Field Redevelopment Program Vallejo Police Activities League Vallejo--Solano The project site is occupied by 2 athletic fields and a small one story building with the Police Activities League office, a one story garage, and 2 one story temporary classrooms. The proposed project would construct three multi-purpose fields, and off-street parking area with 1-- to 142 spaces, and a central single story building containing restrooms, storage, and a concession stand. The project would remove existing concession building and ~10 mature popular trees in the northwest corner of the site, and possibly remove two temporary classrooms. The project would remove two diseased trees, and plant landscaping and trees. Two of three athletic fields, located in the northeast and southwest of the project site, would be illuminated for night games.	MND	02/22/2010
2010012044	David & Claudia Fuller TPM08-011 Butte County Chico--Butte A tentative parcel map to divide a 14.24 acre single family residential parcel into two parcel (5.0 and 9.24 acres). The parcel is currently developed with a single family dwelling and a garage. The parcel is located on the north side of Honey Run Road, ~1.5 miles northeast of Centerville Road, at 2283 Honey Run Road, Chico.	MND	02/22/2010
2010012045	General Plan Amendment 2010-1A, Rezone 2010-1, Corning Community Park Land Acquisition Corning, City of Corning--Tehama The proposed project is the land acquisition; general plan amendment and rezone of 3 parcels for potential park development if the City of Corning is awarded grant funds from the Statewide Park Development and Community Revitalization Program of 2008.	MND	02/22/2010
2010011049	Whittier Main Oil Field Development Project Whittier, City of Whittier--Los Angeles The Project will consists of wells, oil processing, gas plant, oil and gas pipelines, and oil truck loading facilities, to be located within portions of the 1,290-acre City owned Whittier Main Field, now part of the Authority Habitat Preserve. The oil and gas production and processing facilities will be physically located at three different sites within the Whittier Main Oil Field. These sites are the West Well Site, approximately 1.1 acres; the Central Site, approximately 3.8 acres; and the East Well Site, approximately 1.1 acres. The acreage numbers represent the pad areas that will be developed at each site to support the proposed facilities.	NOP	02/22/2010

2002021127	Marymount College Facilities Expansion Project Bachelor of Arts Degree Program and Athletic Field Alternatives Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles NOTE: Draft Appendix to FEIR The proposed Bachelor of Arts Degree Program (BA Program) would not result in modifications to the Project plans and the Site Plan evaluated in the May 2009 FEIR Appendix A document remains the proposed plan. This proposal would, however, involve modifications to the College course offerings. The College proposes to offer a BA Program, in addition to their existing Associates of Arts Degree Program, at their existing campus. If accreditation is timely granted, the College would begin offering courses to satisfy requirements for Bachelors of Arts degrees in the fall of 2010. The BA Program does not involve revisions to the 793 enrollment cap described in the FEIR. Two Athletic Field Alternatives are also evaluated in Appendix D. Athletic Field Alternative No. D-1 involves maintaining the athletic field at its current location in the eastern portion of the site and enlarging the field, and constructing a parking lot on the western portion of the site. Athletic Field Alternative No. D-2 involves modifications to the western portion of the site, including a redesign of the proposed athletic field and tennis court layout. These proposed alternatives would not result in changes to the Project analyzed in FEIR Appendix A regarding modular building, construction phasing, construction staging, and grading.	Oth	03/08/2010
2003082131	UC Berkeley 2020 Long Range Development Plan and Tien Center for East Asian Studies University of California, Berkeley Berkeley--Alameda The project is construction of an 112,600 sf research facility on the UC Berkeley campus, demolition of an existing 210,000 sf building on the project site, and development of the initial elements of a site-wide circulation and open space plan. The project implements the campus' Long Range Development Plan, the impacts of which were evaluated in the Long Range Development Plan (LRDP) EIR (SCH# 2003082131). 2006081154	<p>San Gabriel River Discovery Center U.S. Army Corps of Engineers El Monte--Los Angeles</p> <p>The County of Los Angeles Department of Parks and Recreation proposes to lease and sublease the approximately 11.21-acre project site to the San Gabriel River Discovery Center Authority as part of the project. Construction would occur on only 5 acres (construction impact area) within the 11.21-acre lease boundary. The primary project features include a 14,000 sf interpretive center, parking lot, maintenance building, open air classroom, constructed riparian/wetland area, covered outdoor classroom, and connecting pathways from these locations. The balance of the site would be set aside for habitat preservation and restoration. The existing Whittier Narrows Nature Center and all existing outbuildings (maintenance garage, restrooms/storage building, County Police substation, picnic shelter) would be demolished in order to construct a new interpretive center in approximately the same location at the existing nature center building. The new one-story 14,000-sf interpretive center would include a lobby, live animal exhibit areas, a classroom, multi-purpose room, support facilities, and administrative offices. It would be constructed to meet the U.S. Green Building Council's LEED green building rating system to the highest (Platinum) level standards. The project</p>	NOD

	<p>would be open to the public from 9:00am to 5:00pm, 7 days per week. The meeting room would be available for reservations and/or rentals from 8:00am to 10:00pm, 7 days per week subject to availability. The project would host a range of educational and recreational activities and would be utilized by several public agencies to deliver the message of cultural and natural resources and watershed conservation, as well as continue the existing programs offered by the County of Los Angeles Department of Parks and Recreation offered at the Whittier Narrows Nature Center. On weekdays, the project would accommodate school field trips (approximately 14,000 to 19,500 students per year) and formal school programs focusing on watershed education and/or natural area topics. Expected annual attendance would range from 75,000 to 90,000 visitors.</p>		
2006102107	<p>General Plan Amendment 05GPA-14, Zone Change 05RZ-226 and Site Development Permit 05SDP-05 Tuolumne County --Tuolumne The CDFG is executing a Lake and Streambed Alteration Routine Maintenance Agreement pursuant to Section 1602 of the Fish and Game Code for the Westside Cherry Valley Golf Club. Maintenance activities include the removal of trash and human-generated debris; retrieving stray golf balls; removal of fallen and dead wood debris; removal of vegetation from the upper half of the stream bank and a pong with hand tools and mechanical vegetation cutters or shredders; removal of emergent vegetation cutters and shredders; removal of invasive, non-native plants with hand tools; trimming of branches and tree limbs; and the planting native shrubs and trees.</p>	NOD	
2009091006	<p>UCLA Weyburn Terrace Graduate Student Housing Project University of California, Regents of the --Los Angeles The Weyburn Terrace Graduate Student Housing project that will construct approximately 500 beds for single graduate students. The project will also provide common areas and support space including a reception/lobby area, administrative offices, academic offices, a business center, a multi-purpose room with seating for 275, and two smaller meeting rooms for 20 to 75 people, a staging kitchen and storage. The project consists of two buildings containing approximately 275,000 sf. The buildings vary from four to eight stories in height. The 1.8-acre project site is currently a surface parking lot and open landscaped area.</p>	NOD	
2009101110	<p>Lantern Crest Senior Congregate Care Facility (GPA09-01, R09-01, P09-04, TPM09-03) Santee, City of Santee--San Diego The Project is an 84 unit senior congregate care facility to provide for Alzheimer's and Assisted Living for the elderly. The project would provide a separate lot of the 6.4 acre open space portion that would be included within the draft MSCP Santee Subarea Plan Preserve system as permanent open space. The project would impact 0.5 acres of occupied Diegan coastal sage scrub (DCSS). As such removal of DCSS is subject to the 4(d) special rule and interim take findings are associated with the project.</p>	NOD

2010018196	Lower Deer Creek Habitat Restoration (1600-2009-0074-R2) Fish & Game #2 --Nevada Annual placement of 8,000 to 10,000 cubic yards of gravel and small cobble into Lower Deer Creek below the Lake Wildwood retention dam to enhance spawning habitat in approximately 4.25 miles of Lower Deer Creek from the retention dam to its confluence with the Yuba River. This gravel and cobble will be clean washed material and will, in part, be native materials removed from accumulated deposits behind the Lake Wildwood retention dam. In addition purchased gravel and cobble will be used to augment the native material to achieve the 8,000 to 10,000 cubic yard quantity. Fish passage barriers will be removed or modified to allow spawning runs of anadromous salmonids to access all reaches of Lower Deer Creek up to the retention dam and to access Squirrel Creek, a tributary to Lower Deer Creek that has historically supported spawning salmonid populations. In an attempt to re-establish a beneficial shade canopy over Lower Deer Creek to cool the water temperature, non-native, invasive vegetation adjacent to the creek and associated floodplain will be removed and native riparian associated vegetation will be planted. The non-native vegetation will be removed by means of mechanical equipment and by hand. The use of pesticides is not planned for this project.	NOE

2010018205	Western Zone Complex Prescribed Burn Parks and Recreation, Department of --Monterey Conduct prescribed burns at Henry W. Coe State Park to promote tree growth by creating a nutrient rich ask and soil bed, improve wildlife habitat, and reduce fuel hazard and fuel density to natural levels to decrease the potential of wildfire ignition and decrease the incidence of lethal scorch in the event of future wildfire. Project is divided into five plots totaling approximately 5,500 acres of mixed ponderosa pine, oak woodland and chaparral in the northwestern portion of the park. One plot will be burned every one to two years until all five plots are burned. Firebreaks approximately 24" wide will be made around each plot and identified resources requiring protection. In addition, work will mow parts of the Madrone Soda Spring Trail prior to burning. Project will be done as part of the Vegetation Management Program with the California Department of Forestry and Fire Protection.	NOE

2007112108	Shore Marina Oil Terminal Lease Project California State Lands Commission --Contra Costa The proposed new 30 year lease of 10.09 +/- acres of California Sovereign lands would allow Shore Terminals LLC, to continue current transfer operations of petroleum products from the wharf to its upland main terminal storage facility until 2036.	EIR	03/10/2010
2008012056	Kaiser Permanente San Leandro Medical Center Mixed-Use Retail Development Project San Leandro, City of San Leandro--Alameda Kaiser proposes to develop the southern ~38 acres of the site with a Kaiser Permanente Medical Center. The Kaiser Medical Center would be implemented over two or more phases, commencing with the construction of a hospital, a hospital support building, and a central utility plant to open between 2013 and 2015, and ending with the completion of the final increment of construction on or before January 1, 2030. Phase 1 shall consist of an ~436,000 sf, 6 story hospital of up to 264 beds; a 275,000 sf Hospital Support Building (HSB) of up to 6 stories; a 31,000 sf Central Utility Plant (CUP); a 20,000 sf outdoor service yard; and parking necessary to meet the parking demand at any particular phase of construction. Total parking for Phase 1 would include up to 2,100 stalls on a surface parking lot. Build-Out of the Kaiser Medical Center may include the potential expansion of the hospital and/or the construction of new medical offices or other uses after the initial complement of construction is completed and through January 1, 2030. Build-Out could include expansion of the Kaiser Medical Center by an additional 375,000 sf, including a 175,000 sf, 120 bed expansion of the hospital, the construction of two 100,000 sf medical office buildings, and the construction of structured parking depending on Kaiser's facility requirements for the delivery of health care to its members and the community.	EIR	03/10/2010
2008051096	Marina Park Newport Beach, City of Newport Beach--Orange The proposed project includes three phases. In Phase 1 the mobile home park would be demolished and converted to open space with coastal access improvements. Phase 2 would convert the open space to turf. Phase 3 would consist of the construction of a Multi-Purpose Building at the Balboa Center Complex (0.23 acres), a Sailing Program Building at the Balboa Center cComplex (0.25 acres), a new Girl Scout House (0.16 acres), parking areas (1.47 acres),	EIR	03/10/2010

2010011058	Farmersville Blvd. Realignment and SR 198 Interchange Modification Farmersville, City of Farmersville--Tulare The widening of Farmersville Blvd. from SH 198 to Walnut Avenue in the City of Farmersville. A roundabout will be installed on the boulevard just south of SR 198.	MND	02/23/2010
2010011060	Froehlich Tentative Map San Diego County Fallbrook--San Diego NOTE: Review Per Lead The project is a Tentative Map to subdivide 31.3 acres into 6 residential lots. The project site is located along Double K Road in the Valley Center Community Planning Area, within unincorporated San Diego County. The site is subject to the General Plan Regional Category 1.3 Estate Development Area, Land Use Designation (17) Estate Residential. Zoning for the site is A70, Limited Agriculture. The site is currently vacant. Access would be provided by private driveways connection to Double K Road. The project would be served by on-site septic systems and imported water from the Valley Center Municipal Water District. Earthwork will consist of cut of 13,374 cy, fill of 29,085 cy and import 15,711 cy.	MND	03/08/2010
2010011063	Crown Cove Dock Project Boating and Waterways, Department of Coronado--San Diego The proposed Project involves construction of a new recreational dock in Crown Cove inlet of South San Diego Bay by the State of California Department of Boating and Waterways (Cal Boating). The dock is intended to support recreational boating opportunities at the existing Crown Cove Aquatic Center which is currently operated by Southwestern College of Chula Vista, with partnerships with the California Department of Boating and Waterways. The Project is under the jurisdiction of Cal Boating, which will act as the Lead Agency for the Project. Construction of the dock is anticipated to commence in 2010 and be completed by 2011.	MND	02/23/2010
2010011064	Compressed Gas Fueling Station Lemoore, City of Lemoore--Kings The City of Lemoore is proposing a joint project with 4 Lemoore school districts to construct a Compressed Natural Gas (CNG) fueling station with "slow-fill" capabilities at the existing school district bus/vehicle storage/maintenance yard. Slow fill component will contain up to 15 "time-filled" dispensers that will hook up to individual City fleet vehicles or school buses to fuel the individual vehicle tanks over night with a compressor. Fast fill component will contain a pump island located closest to the City street, one 30,000 standard cubic foot storage tank initially, and will utilize the same compressor as the slow-fill. Environmental analysis accounts for up to 3 additional storage tanks for a total of 4 in the long-term.	MND	02/23/2010

2010011071	Oro grande School District Junior High, High School, and Pioneer University & Liberal Arts College Oro Grande School District Ontario--San Bernardino The proposed project is for a new, 182,480 sf junior high, high school, graduate, and post-graduate college campus on 56.36 acres to be constructed in 4 phases. At build out, the education facilities will serve ~1,200 grade 7-12 students and ~143 college students. The school will also provide job opportunities for an estimated 52 teachers, 21 bus drivers, 22 operations support staff, and 12 food service staff. The school districts estimates 10 additional bus routes will be required to serve the project in addition to its 8 existing routes. Each route would make 2 trips, one for the ~7:00 am start time of the high school complex and another for the ~8:00 am start of the junior high school. One additional bus route will be provided to serve after-school programs.	MND	02/23/2010
2010012046	Swahn Design Review and Second Unit Permit Marin County Tiburon--Marin The owner proposes to construct a 15,240 sf, two story main residence with an attached garage; a 2,250 sf, two story guest house, and a 737 sf single story second unit on a vacant, 14.73 acre property in Tiburon. The owner also proposes to construct a driveway, septic system, and various utilities and appurtenant structures to improve the property. The proposed driveway would begin at the western end of the property and wind along the southern property line to provide access to the residence. The approximate area of site disturbance is estimated as 1.51 acres for the entire project. Proposed exterior materials include fieldstone veneer for the facades and metal roofing.	MND	02/23/2010
2010012047	The Central Sierra Corporation Tentative Parcel Map T09-029 Tuolumne County --Tuolumne Tentative Parcel Map T09-029 to divide a 3.2 +/- acre parcel into 4 parcels and a remainder as follows: Lot 1 0.69 +/- acre, Lot 2 0.67 +/- acre, Lot 3 0.63 +/- acre, Lot 4 0.69 +/- acre, and a 0.53 +/- acre remainder.	MND	02/23/2010
2010012048	Nejedly Minor Subdivision Walnut Creek, City of Walnut Creek--Contra Costa A proposal to subdivide an existing 12.74 acre hillside lot into 4 parcels (net 3 parcels) served by a new private road off of Monticello Drive. Net lot area is 8.103 acres. Currently there are no design plans showing the buildings elevations, but staff is including the potential buildings as part of the environmental analysis.	MND	02/23/2010
2010012049	Mill Creek Bridge (Bridge No. 08-0133) Scour Repair and Deck Rehabilitation Caltrans #2 --Tehama NOTE: Review Per Lead Large rock will be placed at bridge foundations (abutments and pier footings) to prevent scour. The asphalt concrete deck surface will be replaced with a polyester overlay and the deck joint seals will be removed and replaced.	MND	02/25/2010

2010012050	Suisun Station Residential Subdivision TSM 07-02 and PD 07-03 Suisun, City of Suisun City--Solano The projec consists of a Tentative Subdivision Map that proposes to subdivide APN 0038-222-060, 0038-232-010 and 0038-222-020, which totals ~7.42 acres in size. The subdivision would result in the creation of 85 lots. The lots would be used for single family and halfplex residential development. Most of the lots would range in size from 2,100 to 2,190 sf; however, 8 lots designated for halfplex development would be ~1,440 sf each in size. The halfplex lots are proposed for affordable housing. All lots are proposed to be "zero lot line" with a 3 ft setback on one side. "Zero lot line" means that a building may be placed adjacent to a lot line, rather than set back a specified distance as is typical with most residential developments. The Planned Unit Development designation has been sought in part to allow this type of lot development.	MND	02/23/2010
2010012052	Wells 16 and 17 Rio Linda/Elverta Water District Sacramento--Sacramento The Project consists of the development to 2 wells (Wells 16 & 17) to remediate capacity shortfall, help relieve low pressure problems, and meet redundancy and emergency requirements per a California Department of Public Health Compliance Order (Order No. 01-09-07-CO-004). Each well would have an anticipated production capacity between 1,500 gpm and 2,500 gpm, giving a combined production capacity of 3,000 to 5,000 gpm. An underground drinking water supply pipeline and an access road would be installed at each site, and sections of the existing distribution system piping would be improved. Additionally, treatment facilities would be developed for Wells 16 and 17, in addition to the previously approved Well 15 if necessary to meet applicable federal and state drinking water standards.	MND	02/23/2010
2010011062	Eastside Transit Corridor Phase 2 Project Metropolitan Transportation Authority Montebello, South El Monte, Whittier--Los Angeles Proposed light rail transit improvements to the Eastside Transit Corridor Phase 2 project area in Los Angeles County, California. The project would provide the project area with improved fixed-guideway east-west transit service from the Metro Gold Line Eastside Extension (Phase 1) to cities farther east of the City of Los Angeles. The four alternatives identified for further consideration in the EIR include: the No-Build Alternative, Transportation System Management (TSM) Alternative, SR-60 LRT Alternative, and Washington Boulevard LRT Alternative. The Los Angeles County Metropolitan Transportation Authority Board of Directors will adopt a Locally Preferred Alternative (LPA) based on the findings of the Draft EIR.	NOP	02/23/2010
2010011065	San Clemente Target Retail Store San Clemente, City of San Clemente--Orange The proposed project would develop a 14.79 acre vacant parcel into a 142,206 square foot Target Retail Store with 513 on-site parking spaces. Access to the proposed project would be provided via a proposed signalized driveway on Avenida Vista Hermosa and a "right-turn in/ right-turn out only" driveway on Avenida Vista Hermosa. The proposed signalized driveway would be directly opposite the main entrance into the La Pata Sports Park. The development applications include a Specific Plan Amendment and General Plan Amendment for	NOP	02/23/2010

	the change in land use designation within the Forster Ranch Specific Plan from Residential Medium to Commercial. Other permits are also being sought as part of the overall project.		
2010011067	Heber Dunes State Vehicular Recreation Area General Plan Parks and Recreation, Department of --Imperial The General Plan is the primary management document for each unit of the California State Park System, establishing its primary purpose and a management direction for its future. Heber Dunes SVRA was operated by the County of Imperial for more than 30 years. It was deeded to CDPR in 2007. Thus, OHMVR Division has initiated the process of preparing the first General Plan and an associated EIR for Heber Dunes SVRA. Planning Areas will be used in the General Plan to allow goals and guidelines to be developed that reflect area-specific conditions. Planning areas will be based on geographic relationships, resource values, management issues and goals, and visitor use and experiences. These goals and guidelines will guide park management and provide long-term direction for future facilities. Such facilities may include new parking areas or access points, park maintenance facilities and on-site housing, a park administration building and visitor center, interpretive kiosks, restrooms, picnic areas and ramadas, and trail corridors.	NOP	02/23/2010
2010011068	Keller Crossing Specific Plan (GPA00951, SP00380, CZ07723) Riverside County Riverside--Riverside The project site is currently undeveloped, with approximately 75 percent of the site utilized for agricultural purposes, with the remainder supporting native vegetation. The existing zoning for the site is Rural Residential (1/2 Acre Minimum) and General Plan Designation for the site is Rural Residential (5 Acre Minimum).	NOP	02/23/2010
2010011056	Templeton Community Services District Nacimiento Water Percolation Pond Project Templeton Community Services District --San Luis Obispo The Templeton Community Service District is a participant in the Nacimiento Water Project. The District's allotment of 250 acre ft oer year is to be delivered via pipeline to Templeton. The Nacimiento raw water will be discharged into existing percolation ponds on the District owned facility on the west side of the Salinas River. The water allotment will be percolated into the Salinas River to add to the underflow and the same quantity of water pumped from the river's underflow from the existing wells for delivery to the TCSD water system. It is anticipated the Templeton will receive and extract its allotment during the four summer months to coincide with peak water demand. To improve the ponds ability to increase the percolation / recharge capacity thus increasing the District's downstream well yield downstream of the Selby pond site the district will remove 2600 cy of fine grained material located within the first three and a half foot layer and replaced with coarse grained material. The removed material will be retained on-site or at the Wastewater Treatment Plant sire for fill or berming.	Neg	02/23/2010

2007052094	Concord Community Reuse Project Concord, City of Concord--Contra Costa Final EIR on the designated Preferred Alternative Reuse Plan (Clustered Villages) as well as Concentration/Conservation Alternative and No Project Alternative for the 5028 acre Concord Naval Weapons Station. Both development alternatives include transit oriented development with mixed land use, residential, commercial/retail, significant improved park land and open space. Significant acreage is set aside for public benefit uses for First Responder training, education, habitat protection/regional recreation.	FIN	
2010011072	Moro Ridge Radio Site Project Orange County Laguna Beach--Orange The proposed project includes construction of a one-story, 10 ft wide by 12 ft long by 10 ft high prefabricated concrete modular building installed on a poured, reinforced concrete pad, with one standard steel entry door. The building will be surrounded on three sides by an earthen berm cut into the slope for visual and noise mitigation. One 800 megahertz (MHz) fiberglass 'fishing pole' type 10 ft tall transmitter/receiver antenna will be installed atop a 10 ft steel pole located at the west shelter wall at ground level, along with one 4 ft diameter microwave dish antenna and two 6 inch diameter global positioning system (GPS) receiving antennas that will be mounted on the rooftop of the shelter.	MND	02/24/2010
2010011073	Naples Seawall Interim and Long Range Repair Project Long Beach, City of Long Beach--Los Angeles The intent of the project is to identify viable options for the stabilization of the seawall in its present deteriorating state and extend the life of the seawalls. An investigation of the distressed concrete sheet pile seawall, was performed to analyze its stability, and develop repair concepts. Engineers have assessed the various factors contributing to the seawall's horizontal, vertical, and rotational displacements from the original constructed positions. Interim as well as long range have been recommended. Interim repairs would consist of sinkhole repairs (gravel filled bag system beneath sinkholes), a tieback system (grouted rods to relieve stress), and scour repairs (underwater rock protection). Since the existing seawalls are currently 70 years old, a replacement program (long range repairs) was also recommended. Long range repairs would include the option of waterside or landside repairs.	MND	02/24/2010
2010011074	Avenal Photovoltaic Solar Farm Kings County Avenal--Kings Avenal Solar Holdings LLC proposes to develop, own, and operate a 39 MW photovoltaic solar farm comprised of two project structures to be located on 420 acres of leased agricultural lands in unincorporated Kings County, CA. The project would provide renewable solar energy to the citizens of Avenal as well as the greater Kings County area in addition to furthering California's 33% renewable portfolio standard by the year 2020. 2009122056	Sutter Extension Water District 2010 Short-Term Water Transfer Project Sutter Extension Water District Yuba City--Sutter The SEWD proposes to sell up to 17,934 acre-feet (af) of water to the participating member districts of the State Water Contractors Incorporated (Buyers) during the 2010 irrigation season. The District proposes to make water available through both crop idling and groundwater substitution within the boundaries of the District. Buyers are seeking up to approximately 135,000 af of transfer water from various willing sellers in the Sacramento Valley during the 2010 irrigation season. Purchasing this water would lessen potential water supply shortages to these Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta.	NOD	
2010018229	Vault Toilet Installation Parks and Recreation, Department of --Humboldt Install a new restroom adjacent to the performance stage and replace a restroom adjacent to park entrance at Benbow Lake State Recreation Area for park visitor use. Restrooms will meet the requirements on the Americans with Disabilities Act (ADA) and Uniform Federal Accessibility Standards. Excavate two pits approximately 12' long x 14' wide x 5' deep; install a pre-fabricated vault in each pit; and place an approximately 12' long x 15' wide x 12' tall pre-fabricated, two-stall restroom on top of each vault. No connection to utilities will be required: no water supply or leach field.	NOE	
2010018230	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0343, Tish Non Village, Humboldt County Fish & Game #1 --Humboldt The project proposes creating an instream stormwater detention basin by constructing a berm with an outflow structure designed to detain peak flows during extreme (100 year) storm events while allowing normal flows to pass through; planting approximately 1500 linear-feet of stream bank with California native riparian vegetation, and maintaining two existing concrete box culverts.	NOE	
2010018231	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0114, Storm Damage Repair Project, Humboldt County Fish & Game #1 --Humboldt Conduct stream crossing maintenance activities at eight locations including post miles 21.1, 22.1, 22.21, 23.93, 25.49, 26.31, 30.49, and 32.88. Maintenance includes but is not limited to replacement of existing culverts, placement of rock slope protection, and installation of drop inlets.	NOE	
2010018232	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0364 Bank Stabilization and Culvert Installation on an Unnamed Tributary to the Russian River Fish & Game #1 Ukiah--Mendocino Installation of approximately 450 cubic-yards of stacked slab concrete at nine locations and installation of a single 48 inch culvert on an overflow channel.	NOE

2010018233	Issuance of Lake or Streambed Alteration Agreement No. R1-09-0346 Mr. Ron Keniston and Ms. Denise FLory, Trinity County. Fish & Game #1 --Trinity Tompkins Creek, tributary to the Mad River.	NOE	
2010018234	Revegetation of the Soledad Valley Pipeline Emergency Water Main (09-10-SD-22) Parks and Recreation, Department of --San Diego This project consists of the implementation of the Soledad Valley Pipeline Emergency Water Main Break Project. This will consist of restoration of native habitat following construction impacts to meet agency requirements for the purpose of revegetation and mitigating of upland and wetland impacts. This will include the restoration of 0.20 acre of alkali marsh, enhancement of approximately 0.60 acres of alkali marsh and restoration of 0.26 acre uplands. This will include restoring the site topography (final grading), irrigation installation, non-native plant species removal, plant and seed installation, and 3-5 years of maintenance and monitoring.	NOE	
2010018235	Extension of Negotiation Agreement with Clark Colony Water Company Marina Coast Water District --Monterey This Notice of Exemption (NOE) concerns the extension of a negotiation agreement between Marina Coast Water District (MCWD) and Clark Colony Water Company (CCWC) in Monterey County, California. CCWC claims a perfected pre-1914 surface water right to divert up to 13,500 acre feet per year of water from the Arroyo Seco River (a tributary of the Salinas River, in Monterey County) for irrigation uses in CCWC's service area in and in the vicinity of the City of Greenfield, CA. CCWC is willing to sell its water right to MCWD. MCWD wishes to carefully analyze and consider purchasing the water right in order to supplement and augment urban water supplies, and as one of a number of alternative means of facilitating mitigation of potential environmental effects associated with groundwater use in its service area. CCWC and MCWD executed a negotiation agreement on December 13, 2007, which is provided MCWD with the exclusive right to negotiate for CCWC's water right. The agreement in question would extend the original negotiation agreement between CCWC and MCWD for an additional 12-month period, to December 31, 2010, allowing extended time for MCWD to analyze the effects of acquiring the water right.	NOE	
2010018236	Sierra Vista Regional Medical Center Helistop San Luis Obispo, City of San Luis Obispo--San Luis Obispo Install a helistop on a raised platform occupying about 2,916 sf of the roof of the existing parking structure.	NOE	
2010018237	Rundle Front Setback Variance Placer County --Placer Variances to allow for the construction of a porch previously allowed in the setback by exception in ordinance.	NOE

<u>Documents Received on Wednesday, January 27, 2010</u>			
	to be occupied by restaurant uses) and ~8,750 sf of enclosed publicity accessible "indoor park" on the ground floor. The proposed project would also provide 54 parking spaces (capacity for ~80 vehicles with valet parking) on two basement levels; about 46 bicycle parking spaces; and two off-street truck loading spaces plus three additional service van spaces in the basement. The proposed project includes acquisition of a portion of adjacent Lot 5 and demolition of an existing loading dock at the 631 Howard Street (William Volker) building. The building would be constructed to the standards required for a LEED (Leadership in Energy Efficient Design) Gold Version 2.2 rating.		
2009072084	West Berkeley Project Berkeley, City of Berkeley--Alameda NOTE: Review Per Lead	EIR	03/17/2010
	Amend current zoning in existing M, MM, MU-LI and to a lesser extent the MU-R zoning district to 1) remove obstacles to economically viable reuse of existing buildings consistent with the primary goals and objectives of the West Berkeley Plan; and 2) facilitate development of large land holdings through a revised Master Use Permit process. For the purpose of the program-level EIR, it is assumed that over the 20 yr planning period, a total of 3,800,000 gsf of new building area of industrial/manufacturing/commercial development would take place, with approximately half of that representing net new development (with the remaining 1,900,000 sf replacement of existing development).		
2009112082	Bear Hunting Fish & Game Commission -- NOTE: Functional equivalent of EIR.	EIR	03/15/2010
	The primary objective sought by the proposed action is to maintain the State's black bear population in a healthy and viable condition for the enjoyment and use of all Californians and to continue providing limited public sport hunting opportunities. The proposed action being considered by the Fish and Game Commission is to modify Title 14, California Code of Regulations (CCR), Sections 365, 366 and 265, respectively, to modify current hun boundaries and season dates; modify the in-season closure mechanism (currently when 1,700 bears are reported harvested); modify regulations regarding the use of dogs for hunting mammal species, including bears.		
2009112083	Elk Hunting Fish & Game Commission -- NOTE: Functional equivalent EIR.	EIR	03/15/2010
	The primary objective sought by the proposed action is to maintain the State's elk population in a healthy and viable condition for the employment and use of all Californians and to continue providing limited public sport hunting opportunities. The proposed action being considered by the Fish and Game Commission is to modify Title 14, California Code of Regulations (CCR), Section 364 to adjust annual tag allocations; modify current hunt boundaries and season dates; creates new hunt zones or hunts within existing zones and establishes corresponding season dates/tag quota ranges for those hunts.

2010011061	Richardson Water Treatment Plant & Groundwater Wells [Richardson Well No. 5 (R5) & Mountain View Well (MV6)] Loma Linda, City of Loma Linda, San Bernardino--San Bernardino NOTE: Shortened Review The NOI/Initial Study evaluated the potential impacts of the project, which includes two new water production wells on two separate lots on Cooley Avenue in the City of Loma Linda. The two wells were recently installed on improved lots owned by the City of Loma Linds. Well R5 is located ~50 ft east of Richardson Street on the south side of Cooley Avenue, and Well MV6 is located ~600 ft east of Richardson Street on the south side of Cooley Avenue. The NOI/Initial Study also evaluated the potential impacts of the new Richardson Treatment Plant (RTP), which is designed to treat a groundwater flow rate of 4,800 gallons per minute (gpm). The RTP includes ion exchange (IX) treatment and Liquid Phase Granular Activated Carbon (LPGAC) treatment of gorundwater from Wells R5 and MV6 to effectively remediate perchlorate and TCE, respectively. The RTP site is located on the southeast corner of Cooley Avenue and Richardson Street on two lots that have been annexed into the City of Loma Linda and bordered by the City of San Bernardino. Well R5 is also on this site with the Water Treatment Plant.	Neg	02/16/2010
2010011080	First 5 Center Paso Robles, City of Paso Robles--San Luis Obispo The City of Paso Robles is applying for a Statewide Park Development and COmmunity Revitalization Program Grant to locate 4 portable structures 5,760 sf and an outdoor play area and open space/garden area on an existing undeveloped infill site. The structures will be used as a neighborhood learning center. The site is located across the street from an existing elementary school. The buildings are proposed to be located on the upper flat area of the site adjacent to Oak Street. The play area is designed to integrate the gentle slope of the property into an area with steps, slides and other play structures. The lower flat area is designed to accommodate a grassy passive park-like area, garden and small parking lot area. There are no protected biological resources on the site.	Neg	02/25/2010
2010012058	Western Canal Water District 2010 Water Transfer Program Western Canal Water District --Butte, Glenn NOTE: Review Per Lead Sale of up to 30,000 acre ft of water to participating memver districts of the State Water Project Contractors Authority (Buyers) during the 2010 irrigation season to lessen potential water supply shotages to the Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta. As a willing seller WCWD would make up to 30,000 acre ft of water available to Buyers	Neg	03/02/2010

	walkway and ADA parking stalls will also be constructed.		
2010018259	Mendocino Fire Chainsaw Training (Mendocino Fire Protection District lands) Forestry and Fire Protection, Department of --Mendocino The proposed project is a chainsaw training course (S-212) provided to CAL FIRE staff for advanced tree felling to be held on Mendocino Fire Protection District lands. In total, approximately 20 dead bishop pines are proposed for felling. Slash and organic debris created from the tree felling will be piled and burned at designated locations. No heavy equipment will be used during this training exercise. Firewood processed from the felled material will be donated thus a harvest document from CAL FIRE for timber operations is not required.	NOE	
2010018261	Transfer of Development Rights From Block 500 to Block 600 and San Joaquin Plaza in North Newport Center Newport Beach, City of Newport Beach--Orange Transfer of a total of 215,833 square feet of general office intensity from Block 500. 50,000 sq. ft. will be transferred to Block 600 and 165,833 sq. ft. will be transferred to San Joaquin Plaza within the North Newport Center Planned Community. The transfer will occur in accordance with the Transfer of Development Plan Service IV (C).	NOE	
2010018262	Lake Hughes Plantation Restoration Project Parks and Recreation, Department of --Los Angeles The project site is within the headwater area of Dry Gulch Creek, along Lake Hughes Road and is approximately 34 acres in size. The restoration efforts will encourage native plant re-colonization, erosion prevention, and restore hydrologic functions. Restoration techniques include re-contouring and de-compaction, native plant seeding, and construction of rock/brush check dams. Re-contouring will require the use of a mini excavator. Seed will be collected by hand and planting will be done with hand tools.	NOE

2008091085	<p>The 930 Zone Recycled Water Expansion Projects are located within the southern portion of the IEUA service area. The project includes the installation of ~13,500 lineal ft of recycled water delivery pipelines, a new 5 MG reservoir, and the expansion of three existing pump stations. The proposed 5 MG reservoir will be located on a site just northeast of Galloping Hills Road in the City of Chino Hills.</p> <p>Corona AB 3030 Groundwater Management Plan Corona, City of Corona--Riverside The Corona Department of Water and Power (DWP) provides drinking water to the City and areas within its Sphere of Influence. The DWP water supply comes from local groundwater resources and imported water purchased from the Metropolitan Water District of Southern California and Western Municipal Water District. The City wishes to ensure a long-term sustainable supply of groundwater resources and has therefore proposed its AB 3030-compliant Grounwater Management Plan (GWMP). The GWMP would include several management strategies that are intended to facilitate a sustainable groundwater resource supply for the City.</p>	EIR	03/15/2010
2008062084	<p>Elk Grove Intermodal Rail Station Master Plan Elk Grove, City of Elk Grove--Sacramento The City of Elk Grove proposes to construct an intermodal rail station south of the Sheldon Road/Elk Grove Florin Boulevard intersection on the west side of Elk Grove Florin Road at the UPRR tracks. Because exact locations and design details of many of the project's features have not been determine at this point in the planning process, the project is being analyzed as a Master Plan. Subsequent projects in future stages of the planning process that include more detailed design will be included under the scope of this Master Plan and its associated environmental analysis.</p>	MND	02/26/2010
2010011081	<p>Federal Highways 5 Bridge Replacements and Road Rehabilitation Trinity County --Trinity The Federal Highway Administration, Central Federal Lands Highway Division proposes to replace three one-lane bridges on Van Duzen Road (County Bridges 05C-181, 05C-182, 05C-206), near the community of Mad River, and two bridges on upper Mad River Road (05C-152 and 05C-154) near the community of Ruth, CA. Sections of upper Mad River Road (County Road 501), south of Ruth, Van Duzen Road (County Road 511) south of Van Duzen School, and Ruth-Zenia Road County Road 502) from the junction with Van Duzen Road to Zenia will be rehabilitated and repaved.</p>	MND	02/26/2010

2010011082	Anderson Tentative Parcel Map San Diego County Oceanside--San Diego The project is a Tentative Parcel Map to subdivide 5.86 acres into two residential lots. The project site is located at 4574 Valle Del Sol in the Bonsall Community Planning Area, in unincorporated San Diego County. The site is subject to the General Plan Regional Category Estate Development Area (EDA), Land Use Designation (17) Estate Residential. Zoning for the site is RR.5, Rural Residential Use Regulations which requires a minimum net lot size of 2 acres. This site contains an existing greenhouse and shed that would be removed prior to the construction of single family residences on the proposed lots. Access would be provided by private driveways connecting to Valle Del Sol. The project would be served by on-site septic systems and imported water from the Rainbow Municipal Water District. No extension of water utilities will be required by the project. Earthwork will consist of 775 cy of balanced cut and fill of material.	MND	02/26/2010
2010011083	Sweeney Canyon, LLC Consistency Rezone and Development Plan Santa Barbara County Lompoc--Santa Barbara The proposed project is a request of Shelly Ingram of MNS Engineersk, Inc., agent for Sweeney Canyon, LLC, owner, to consider Case Nos. 09RZN-00000-00004, and 09DVP-00000-00005 for the approval of: 1) a Consistency Rezone to rezone the property from its current zoning of General Agriculture, 40 acre minimum lot area (40-AG) under Zoning Ordinance No. 661 to Agriculture II, 40 acre minimum lot area (AG-II-40) under the LUDC, and 2) a Development Plan for review 21,500 sf winery consistent with the Comprehensive Plan and the Santa Barbara County Land Use and Development Code (LUDC).	MND	02/26/2010
2010011084	ENV-2009-3754 Los Angeles, City of Los Angeles, City of--Los Angeles A Echo Park Community Design Overlay Review to permit the demolition of 5 residential buildings with total of 18 units and the construction of a 75 unit senior apartment project with 39 parking spaces.	MND	02/26/2010
2010011085	Turnipseed Groundwater Bank Phase 2 Delano-Earlimart Irrigation District --Tulare The Project would use existing conveyance facilities and deepen existing recharge basins by ~1 ft and use the excavated material to build up the existing basin levees to increase basin storage and recharge capacity. Above-ground storage capacity volume would increase by 64 acre ft, from ~150-175 af, and improve the District's ability to capture waters that are only available for a limited time period. The Project recovery wells would include high-accuracy saddle flow meters and would recover a maximum of 4,770 acre ft per year from groundwater bank. It is anticipated that the water would be used to meet dry-year demands in DEID one third of the time, and in other years the water could be marketed to other water agencies. This water, which represents about 4% of the District's annual deliveries, would be better managed by the provision of an additional facility for storage of available water, and reduce pressure on regional surface water storage facilities. <u>Documents Received on Friday, January 29, 2010</u>			
2010011090	Keystone Regional Water Reclamation Facility Imperial, City of --Imperial The Project is a wastewater treatment plant with an initial design capacity of 2.5 MGD and an ultimate capacity of 15 MGD. The Project is intended to provide wastewater treatment services for future development in the Mesquite Lake Specific Plan area. The plant will utilize membrane bioreactor (MBR) technology as a means to produce highly treated tertiary effluent which will meet all provision of California's Title 22 requirements.	MND	03/01/2010
2010011091	Frances Knoll Major Subdivision San Diego County El Cajon--San Diego The project is a major residential subdivision of 3.90 gross acres into 5 residential lots and one private road easement lot. The project site is located north of the intersection of Vakas Road and Hillsdale Drive, in the Valle De Oro Community Planning Area, within unincorporated San Diego County. The site is subject to General Plan Regional Category Current Urban Development (CUDA), and Land Use Designation 3 (Residential). Zoning for the site is RR2, Residential. The site has as existing single family dwelling unit and several accessory structures which will be removed prior to map recordation. Access to all lots will be provided by a private road easement connecting to Hillsdale Road. The project would be served by Otay Municipal Water District for both sewer and water. No extension of sewer or water utilities will be required by the project.	MND	03/01/2010
2010012067	Lake Forest Water Company Acquisition and Water System Reconstruction Tahoe City Public Utility District --Placer NOTE: Review Per Lead The project includes the acquisition of the assets of the Lake Forest Water Company by the TCPUD and reconstruction of the water system within the Lake Forest Water Improvement District service area to meet California Waterworks Standards and the California Fire Code. TCPUD would assume operation and maintenance responsibilities for the water system within the LFWID area. Approximately 2,500 lineal ft (LF) of 12 inch PVC water main and ~8,050 LF of 8 inch PVC water main would be installed in roadways and shoulders to replace the existing water system in the area. Water meter boxes and service laterals would be installed to individual parcels and 26 fire hydrants would be installed with the project.	MND	03/03/2010
2010012066	Capital SouthEast Connector Capital SouthEast Connector Joint Powers Authority Elk Grove, Rancho Cordova, Folsom--Sacramento, El Dorado The project limits extend from the Interstate 5 (I-5)/Hood-Franklin interchange in southwest Sacramento County east and north approximately 35 miles, terminating at U.S. Highway 50 (U.S. 50) in the vicinity of Silva Valley Parkway approximately 3 miles past the El Dorado County line. The Connector is expected to provide 4 to 6 traffic lanes to accommodate the projected volume of vehicles in the MTP and general plans, and will provide new multi-modal options. Portions of the Kammerer Road/Grant Line Road near SR99 are currently in the General Plans as 8-lanes although through 2035 the traffic volume for the Connector only requires a 6-lane section. 2010012065	Walkenhorst Warehouse & Distribution Building, File #P09-00153-UP Napa County Napa--Napa Request to construct a new building with 30,158 sf of floor area for warehousing, distribution and administrative office area for a mail order catalog sales, distribution company. Products are received, warehoused and then shipped from the proposed facility. Access would be provided from two new driveways on Technology Way and Technology Court. On-site parking for 132 vehicles, landscaping, and a free-standing monument sign are also included with the proposal. An ~0.7 acre portion at the southwest corner of the site will not be developed at this time. The Project will connect to municipal water and sewer services provided by the City of American Canyon and the Napa Sanitation District, respectively.	Neg	03/01/2010
2008041134	Revised General Plan Amendment #07-0005 and Specific Plan #07-0003 and Tentative Tract Map #972 and Zone Change #07-0007 and Annexation-Proclamation Residential Imperial County Calexico--Imperial The proposed project includes amendments to the County General Plan and Gateway SP area, in addition to an annexation in order to include the property within the Gateway SP area and allow the project to be served by Gateway water and sewer facilities. Upon annexation, water, sewer, and stormwater drainage infrastructure would be provided to the project site by Gateway SP area infrastructure. The proposal also includes a change of zone designation from A-3 Heavy Agriculture to Gateway Residential and a TTM for development of 841 single family units on 3,200 sf lots; 5 parks (15.28 acres); one retention basin; recreational vehicle (RV) storage; mini storage; and several pedestrian paths. 	retail stores in the city of San Leandro. This NOD covers only the water ordinance. The City will file a subsequent NOD for the big box ordinance when it is adopted.		
2009122016	Eldridge Parcel Map Subdivision Humboldt County --Humboldt A Minor Subdivision of an approximately 1.2 acre parcel into two parcels of 20,000 square feet and 32,366 square feet. The parcel is currently developed with a single family residence, barn, and associated outbuildings. A Special Permit is requested to allow for the removal of a large second growth redwood tree that is split at the base(approximately 60 inches in diameter) located near the northeast corner of the property. A Special Permit is also requested to allow proposed Parcel 2 to exceed the maximum length to width ratio specified for the R-1 zone. An existing road (Da La Ti Lane) will provide access to both parcels. Water and sewer service is provided by the Redway Community Services District.	NOD	
2010018276	Invasive Tree Removal Parks and Recreation, Department of --Mendocino Remove selected stands of invasive Monterey cypress (<i>Calitropsis macrocarpa</i>), Tasmanian bluegum (<i>Eucalptus globulus</i>), and Monterey pine (<i>Pinus radiata</i>) from Point Cabrillo State Historic Park and Greenwood State Beach to maintain native vegetation and plant communities. Cut trees; remove logs from park units; and burn remaining leaves, twigs, and small branches in piles on site.	NOE	
2010018277	Emergency Repair of Administration Building Wall Parks and Recreation, Department of --Santa Barbara This project will undertake lead abatement and repairs needed to stabilize the west wall of the Administrative Building at La Purisima. Original deteriorated wood siding will be removed, underlying framing examined and needed work completed to rebuild the wall and secure it to the building footings. All work will be documented. Monitoring for the presence of sensitive species shall occur prior to the start of work. An archaeologist will be present for all ground disturbing activities.	NOE	
2010018278	Application for Williamson Act Contract WA09-015 Tuolumne County --Tuolumne Application for Williamson Act Contract WA09-015 to rescind an existing land conservation contract and enter into a new contract on a 411.1+/- acre site pursuant to Tuolumne County Resolution 106-04, including approval of the Agricultural Management Plan. The site is zoned AE-37:AP (Exclusive Agricultural, thirty-seven acre minimum:Agricultural Preserve Combining) under Title 17 of the Tuolumne County Ordinance Code.	NOE

2010018280	Christen Hill Reservoir Replacement North Coast County Water District Pacifica--San Mateo The proposed project consists of two major elements; removal of the existing reservoir and the constructio of the new reservoir.	NOE	
2010018282	CHP Communication Facilities Replacement Projects, Slater Butte Site, Siskiyou County, California California Highway Patrol -- DGS is proposing to replace and upgrade the Slater Butte California Highway Patrol (CHP) telecommunications facility to meet the CHP's Enhanced Radio System requirements. The project site is located on Klamath National Forest lands approximately four miles northwest of the community of Happy Camp in western Siskiyou County. The project would include the construction of a new 120-foot tower and a generator/equipment vault, and relocation of a propane tank and pad. The foundation for the new tower would consist of a 45' x 45' x 2' concrete slab, constructed 1 to 3 feet below grade and over covered with soil. Four piers would protrude above-ground and provide support for the tower. The tower would be assembled in 20-foot section. Ice Shields would be provided to protect the other dishes and structures below.	NOE	
2010018283	CHP Communications Facilities Replacement Projects, Gunsight Peak Site, Siskiyou County, California California Highway Patrol Yreka--Siskiyou DGS is proposing to replace and upgrade the Gunsight Peak California Highway Patrol (CHP) telecommunications facility to meet the CHP's Enhanced Radio System requirements. The project site is located on Klamath National Forest lands approximately seven air miles west of the City of Yreka in Siskiyou County. The project would include the construction of a new 120-foot tower to replace the existing CHP microwave tower and wooden antenna poles, as well as the addition of a propane tank and pad.	NOE	
2010018284	CHP Communications Facilities Replacement Projects, Soda Ridge Site, Sisiyou County, California California Highway Patrol Dunsmuir--Siskiyou DGS is proposing to upgrade the Soda Ridge California Highway Patrol (CHP) telecommunications facility to meet the CHP's Enhanced Radio System requirements. The project site is located on private land approximately 1.5 miles east of the city of Dunsmuir in southern Siskiyou County. Existing state facilities at the site include a 20-foot-tall microwave tower, a 60-foot tall VHF tower, a generator vault, and an equipment vault. The facilities are located on a 2,500-sf ground lease from Roseburg Resources.	NOE	
2010018285	Azimi Residence San Diego, City of San Diego--San Diego Coastal Development Permit to demolish existing residence and construct a 3,442-square-foot single family residence on a 0.16 acre site.	NOE
