

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

January 16 – 31, 2014

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16 – 31, 2014**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 THROUGH 2013

Descriptions of all CEQA documents filed with the State Clearinghouse are available for viewing at <http://www.ceganet.ca.gov>

2013112018	<p>Colvert Installation Caltrans #3 Placerville--El Dorado</p> <p>The purpose of this project is to rehabilitate a section of roadside drainage that has eroded over time and has begun to undermine the roadway. If the drainage is not corrected it will eventually undermine the roadway to the point enough for it to begin to fall away. This drainage ditch rehab project proposes to install approximately 450 linear feet of reinforced concrete pipe (RCP), new drainage inlets (DI's), create asphalt curb and gutters to direct water flow. These activities will require minor excavation. All work will be performed within Caltrans existing right-of-way.</p>	FIN	
2013112064	<p>Antelope Creek Flood Control Project Placer County Flood Control And Water Conservation Roseville--Placer</p> <p>The project proposes to construct two primary flood control element - an Upper Weir and a Lower Weir, along with recreational and aquatic and riparian habitat restoration elements. The project is situated along Antelope Creek between the SR 65/Roseville Bypass and Atlantic Street. The primary objective of the project is to detain additional flood volume along the creek corridor, thereby reducing downstream peak discharges along the Dry Creek main stem through downtown Roseville and portions of Placer and Sacramento Counties.</p>	FIN	
2013081046	<p>Curtis School Modifications to Master Plan Los Angeles, City of --Los Angeles</p> <p>Continued operation and maintenance of an existing private school (Curtis School) of 63,970 sf of floor area, with a 4,500 sf renovation/expansion of the Ahmanson building currently in progress and the proposed demolition of approximately 20,670 sf of buildings and construct approximately 82,440 sf of new school facilities. Seven new buildings and additions resulting in a net increase of 62,270 sf for a total project buildout of 130,240 sf, with a total of 223 parking spaces. Project construction would be phased over time and could start as early as the Summer/Fall of 2016 or as late as 2017 and end as late as 2035. A redesigned athletic field and parking area, as well as a proposed secondary limited access road from Mulholland Drive utilizing an existing Caltrans service road will be constructed and generate grading of 149,048 cubic yards of earth, including 12,681 cubic yards of off-site grading. Staffing, hours of operation, and programing will be expanded. No additional enrollment is proposed.</p>	MND	02/14/2014

	replace with approximately 0.2' hot mix asphalt (HMA) overlay. The maximum depth of soil disturbance will be approximately 8.5 feet.		
2012051025	City of Pomona 2011 General Plan Update, Corridors Specific Plan, Active Transportation Plan and Green Plan Pomona, City of Pomona--Los Angeles Note: Response To Comment Letter	Oth	
	The proposed project is comprised of the City of Pomona General Plan Update, Corridors Specific Plan, Active Transportation Plan (ATP) and Green Plan. The GPU provides comprehensive land use, housing, circulation and infrastructure, public service, resource conservation and public safety policies for the entire City. The proposed Corridors Specific Plan provides a framework for private and public investment activities along the following major commercial corridors which traverse the City: Garey Ave., Holt Ave., Mission Blvd. and Foothill Blvd. The proposed ATP proposed ATP propose a system of bikeways connecting neighborhoods to key activity centers throughout the City. The proposed Green Plan is aimed at integrating sustainable design into all aspects of the City's operations.		
2005081064	Olive Hill; GPA 03-01, TM 4976RPL^5, R03-013, Log No. 91-02-032A San Diego County --San Diego SAA #1600-2013-0097-R5 - Alter the streambed of Bonsail Creek to accommodate the installation of the Rancho Del Caballo Bridge, CONstruction activity will fill and permanently impact 0.53 acre of streambed. Applicant will mitigate with 0.53 acre riparian habitat creation and 1.06 acre restoration and/or enhancement.	NOD	
2010031104	SR-138 Widening Project Caltrans #8 --San Bernardino The Project consists of widening State Route 138 from two lanes to four lanes with a median left turn lane and realignment of portions of the mainline to improve traffic operation and safety. The Project is approximately 13 miles long.	NOD	
2011021051	JK 03-11; ZCC No. 8, Map No. 215; ZCC No. 8, Map No. 216; CUP No. 6, Map No. 215; CUP No. 7, Map No. 215 (Catalina Renewable Energy project by enXco Development Kern County Mojave--Kern Major Amendment No. 3 removes the wind element from the Project and associated habitat management (HM) Lands from the ITP, as amended by Amendments 1 and 2, revises that habitat disturbance associated with the solar element of the Project, revises the specific Kern County parcels required as HM Lands for the solar element, and updates how the endowment manager will be identified and how the endowment will be held and managed to be consistent with Government Code section 65965-65968 et seq., as amended. 	reconstruction of approximately 200,000 square feet of commercial space, vacation of most Broadway Plaza Street and construction of new garages, including a central underground garage located underneath Broadway Plaza Street. The project that was approved (the "Approved Project") is a minor variation of the Refined Project Alternative studied in the EIR. The Approved Project includes a net increase of up to 300,000 gross square feet of commercial uses (no residential uses), no central underground garage, no vacation of Broadway Plaza Street, and more underground parking in the southeast area of the project site compared to the Project. The approved project also locates some the new square footage in an area that spans a portion of the concrete-line San Ramon Creek Culvert, and it includes redevelopment of an existing narrow bridge that spans a portion of that culvert.		
2013062048	Burlingame Hills Sewer Maintenance District Sanitary Sewer Capacity Improvements Project San Mateo County Burlingame--San Mateo	NOD	
	The proposed project replacement of existing sewer vitrified clay pipe (VCP) with high density polyethylene (HDPE) and polyvinyl chloride pipes (PVC) in two segments of the Burlingame Hills Sewer Maintenance District's (BHSMD) collection system using open trench and pipe bursting construction methods. The specific segments are located along Adeline Drive (approximately 1,920 linear feet) and lower Canyon Road (approximately 2,927 linear feet). The existing 6" and 8" VCP pipes will be replaced with 10" to 12" HDPE and PVC pipes. After replacement, existing laterals along the pipe alignment will be re-connected to the new pipe. Existing brick manholes will also be replaced with concrete manholes.		
2013112064	Antelope Creek Flood Control Project Placer County Flood Control And Water Conservation Roseville--Placer	NOD	
	The project proposes to construct two primary flood control element - an Upper Weir and a Lower Weir, along with recreational and aquatic and riparian habitat restoration elements. The project is situated along Antelope Creek between the SR 65/Roseville Bypass and Atlantic Street. The primary objective of the project is to detain additional flood volume along the creek corridor, thereby reducing downstream peak discharges along the Dry Creek main stem through downtown Roseville and portions of Placer and Sacramento Counties.		
2013122014	Bunker Hill Road Bridge Replacement Amador County Amador City--Amador	NOD	
	Amador County proposed to replace the existing two-lane Bunker Hill Road Bridge (Bridge No. 26C-0043) (proposed project) in Amador County with a new two-lane bridge. The bridge crosses Rancheria Creek, a tributary of Dry Creek. The new bridge will be constructed adjacent to the western edge of the existing bridge. The span of the new bridge would be approximately 60 feet long (20 feet longer than the existing bridge), and 26 feet wide. The approach roadway would be realigned up to 270 feet on both sides of the bridge. The realigned roadway would accommodate two 11-foot-wide travel lanes and two 2-foot-wide shoulders.

2014019006	60 Best THP 1-13-062 SON Forestry and Fire Protection, Department of --Sonoma The project is limited to water drafting from a Class II sag pond. The Project is located on an unnamed Class II pond that flows into an unnamed Class II-S watercourse which becomes a Class II-L watercourse that is a tributary to the South Fork Gualala River, in the County of Sonoma, State of California. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0361-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Daniel Falk Riachardson Ranch LLC.	NOD	
2014018177	Sierra High Pond Fish & Wildlife #4 --Fresno Activities include the annual removal of accumulated sediment from the southeast side of the pond at Sierra Unified School, where a majority of the water enters the pond in the winter months. Equipment will access the Project area by an existing road that comes from the north side of the pond. Project work will occur during the fall when water levels are low and there is no water flowing into the pond, and work will only occur in dry areas of the pond; the Project area is approximately 100 feet by 300 feet. The Project will occur annually until approximately 4400 cubic yards of material area removed. Material that is removed will be deposited at least 100 feet south of the pond, and the sediment will be seeded to prevent erosion	NOE	
2014018178	Road 450 Bridge Replacement Planting Project Fish & Wildlife #4 --Madera Project activities include replanting, maintenance and monitoring of 22 native species adjacent to Fine Gold Creek.	NOE	
2014018179	Agreement No. 2013-0101-R4; River Road Discharge Point Restoration Fish & Wildlife #4 --San Benito Activities consist of repairing and improving a failed stormwater settling pond and reinforced bank that runs along the edge of a quarry road and the top of bank of the Pajaro River. The restored area measures approximately 15 feet horizontally towards the bank, 15 feet vertically, and 22 feet in length. All work will occur outside of the wetted portion of the River.	NOE	
2014018180	Safety Improvement on Routes 41, 99, 168, 180 in the City of Fresno, Fresno County Caltrans #6 Fresno--Fresno Making the on and off ramps curves more negotiable for drivers by promoting shorter stopping and increasing friction on the curves, application of high friction surface treatment to the freeway ramps and cold plane and asphalt concrete overlay prior to applying the treatment resurface.	NOE	
2014018181	Columbia College Flashover Chamber Forestry and Fire Protection, Department of --Tuolumne The proposed project is a flashover chamber to be used for firefighter training at Columbia College in Tuolumne County. 	flashover conditions in a structure fire. Approximately 100 gallons of water will be required to extinguish the fire at the end of the exercise. The container will be placed in an existing gravel parking lot. The container will not be near any watercourses, and it is unlikely that water used to extinguish the fires will deliver sediment or ash to a watercourse.		
2014018182	Jackson Demonstration State Forest Highway 20 Wells and Storage Forestry and Fire Protection, Department of Fort Bragg--Mendocino This project involves drilling of three water wells, pump installation, and placing portable storage tanks within disturbed areas near Highway 20 within the Jackson Demonstration State Forest (JDSF). The first area is located near the junction of JDSF Road 77 and Highway 20. This area was part of a 2008 timber sale harvested in 2011. This area is located south of Highway 20 at approximately the 11.4 mile marker on a ridge top within redwood forest habitat. The proposed location of the well and storage tanks is on or near JDSF Road 77. The second area is located on a ridge top near the junction of JDSF Roads 359 and 350, which is adjacent Highway 20 at mile marker 5.9. There is an existing 10,000-gallon concrete storage tank at this location. The proposed well location is adjacent Road 359 near the storage tank. The third area is adjacent JDSF Road 300 near the junction with Road 305. The water will be used for fire suppression and road maintenance on JDSF.	NOE	
2014018183	Installation of Wash Rack in Maintenance Facility Caltrans #4 Fremont--Alameda Installation of wash rack with filtration system within Maintenance yard.	NOE	
2014018184	Hixson Metals Finishing Interim Measures Workplan Toxic Substances Control, Department of Newport Beach--Orange The purpose of the IMW is to address potential health risk resulting from past releases of Volatile Organic Compounds (VOCs) into the soil below the Facility. A soil vapor extraction system is proposed to remediate VOCs; Tetrachloroethene (PCE), Trichloroethene (TCE), and their daughter products in soil below the Facility and the neighboring apartment building located at 1549 Placentia, south of the Facility. Implementation of the IMW has commenced and is expected to take approximately 24 months to complete.	NOE	
2014018185	Temporary Emergency Permit for Treatment by Burning, California Department of Forestry and Fire Protection (CDFFP) Toxic Substances Control, Department of San Bernardino--San Bernardino The hazardous waste to be treated consists of approximately 150,000 pounds of illegal fireworks (Department of Transportation Hazard Class 1.4) in the current statewide inventory plus illegal fireworks that may be seized during the effective permit. The items are seized by the CDFFP during multiple seizure actions and are illegal for sale in California. The emergency permit is effective for 90 days January 27 through April 26, 2014. Treatment will be scheduled depending on weather, logistics and availability of personnel.	NOE

	proposed by the Otay Land Company (OLC) pursuant to the Village 9 SPA Plan is referred to as the "project," and is the focus of this EIR. The Village 9 SPA Plan is incorporated by reference and is available for review at the offices of the City of Chula Vista, Development Services Department, located at 276 Fourth Avenue, Chula Vista, CA 91910. The components of the project description are summarized briefly below and detailed in Chapter 3.		
2010121044	2013 Firestone Education Center Master Plan Los Angeles Community College District South Gate--Los Angeles The proposed project consists of the construction and operation of a new LACCD satellite community college campus that would replace the existing South Gate Education Center and accommodate up to 9,000 students. The proposed project includes the demolition of a 220,550 sf building and its connections to the adjacent building, and the construction of a new approximately 100,000 gsf building and a 1,600-space parking structure. The project site would also be improved with a surface parking lot, landscaping, an open space area, and other outdoor amenities. Vehicular access and circulation improvements would be implemented on- and off-site and new traffic signals would be installed at the existing Firestone Boulevard driveway and the proposed Santa Fe Avenue driveway opposite Ardmore Avenue.	EIR	03/03/2014
2013101005	Monterey-Pacific Grove ASBS Stormwater Management Project EIR Pacific Grove, City of Pacific Grove, Monterey--Monterey Diversion of dry weather and portions of wet weather surface water runoff flows into an upgraded stormwater collection and treatment system from the ASBS watershed area, which includes much of Pacific Grove and a portion of Monterey. These flows would be directed to either a new Point Pinos stormwater treatment plant at the former Pacific Grove Wastewater Treatment Plant site or the Monterey Regional Water Pollution Control Agency Regional Water Treatment Plant in Marina. The project includes five components that would collect and treat stormwater flows: the David Avenue Reservoir, the Pine Avenue Conveyance, the Ocean View Boulevard Conveyance, Point Pinos Stormwater Treatment Facility and Crespi Pond, and Diversions to MRWPCA.	EIR	03/03/2014
2014011039	Liberty Packing Major Modification Project Merced County --Merced Merced County is considering an application by Liberty Packing for issuance of a Major Modification (MM13-0017) to conditional use permit CUP 02-001 to allow for modification of the existing tomato packing plant. The proposed modification includes expansions of the existing cooling and settling ponds, new tomato truck parking, a new pole shed at the packing plant, expanded open storage adjoining the existing open storage area, improvements to the plant's evaporation and steam capacity, extension of a new railroad spur to the storage area, and other smaller construction at the plant. The scope of the work for the entire project shall consist of the following: excavation and backfill (2,675 cubic yards), two mechanically stabilized earth backfill (MSE) retaining walls, drainage culvert improvements, asphalt concrete pavement, erosion control, restoration of the creek channel, and removal of approximately 220 feet of the existing temporary bypass road where it crosses Ruins Creek, with associated upland and riparian revegetation.	MND	02/19/2014
2014012045	San Leandro Downtown Technology Campus/Westlake Development Partners, LLC (PLN2013-00045) San Leandro, City of San Leandro--Alameda The proposed project site comprises 7.6 acres and is proposed to be developed in multiple phases. The initial phase consisting of a 132,000-sf office building (six-stories with 22,000-sf floors). At build-out, the project is anticipated to total 378,000 to 500,000 sf of office use. Primary access to the site will be provided from Alvarado Street, with additional access from San Leandro Boulevard via Thornton Street and Parrott Street. The project will be the first development to implement the City's Transit Oriented Development Strategy (TOD Strategy) and is being evaluated under the Downtown Transit Oriented Strategy (TOD) EIR that was certified on September 4, 2007.	MND	02/19/2014
2014012046	Southeastern Creekside Marsh Culvert Replacement and Habitat Enhancement Marin County --Marin This project includes two major components located in Creekside Marsh: replacing an existing single-bore culvert with a larger box-type culvert to increase the tidal prism in the southeastern portion of Creekside Marsh and enhancing some bare areas within the marsh. The project vicinity is shown in Figure 1; the current configuration of the marsh is in Figure 2. The project initially included digging new channels in the marsh to convey the larger volume of water, but regulators suggested that it would be better to enlarge the culvert and allow the channels to adjust in response to the removal of the geomorphic constraint (i.e., the existing undersized culvert).	MND	02/19/2014
2014012049	5000 Pearl Avenue, Planned Development Rezoning Application File Number: PDC13-020 San Jose, City of San Jose--Santa Clara Planned Development Zoning from R-1-8 Zoning District to the A(PD) Planned Development Zoning District to allow up to 13 single family detached residences on 1.25 gross acre site. 1997111077	Pacific Highlands Ranch, Units 23-28 - Applicant: Pardee Homes San Diego, City of San Diego--San Diego Vesting Tentative Map, Site Development Permit, and Planned Development Permit (PDP) to amend Vesting Tentative Map No. 433521, Planned Development Permit No. 12852, Site Development Permit No. 433515, and Conditional Use Permit No. 628324 to construct a mixed-use development containing 331 multi-dwelling units; 195,000 sf commercial use, a civic use area, other accessory improvements, and a lot reserved for future development of a public library. In addition the project would construct various site improvements, including associated hardscape, retaining walls and landscaping.	NOD	
2002122066	General Lease - Public Agency Use Santa Cruz County Watsonville--Santa Cruz The project is limited to trench excavation in beach sands to create a low trench flow outlet path from the terminus of the Pajaro River Lagoon to the Pacific Ocean. The dimensions of the excavated trench prior to breaching of the lagoon will be 10 feet wide, 3 feet deep and between 250 and 1,000 linear feet long. After the lagoon breaches, trench dimensions are expected to increase between 50 to 100 feet wide and decrease to between 1 to 2 feet deep. Trench length is not expected to change. Project activity shall take place after October 15 and before April 15. The CA Dept. of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0232-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Bruce LaClergue, Santa Cruz County Flood Control and Water Conservation District, County of Santa Cruz Department of Public Works.	NOD	
2007012119	Clear Creek Wastewater Treatment Plant Rehabilitation and Expansion Project Redding, City of Redding--Shasta An MND and NOD were prepared for upgrades to the CCWWTP in May 2007 for upgrades to the Clear Creek WWTP. Since then, it's become clear that a biosolids handling facility upgrade was also needed. A new facility will be constructed at the Plant in a graveled parking area. The project will not impact env resources nor increase plant capacity. It will not alter the mitigation requirements stated in the MND. As such, Addendum No. 2 was prepared for the project pursuant to Sec. 15164 of the CEQA Guidelines. This NOD only addresses the project and impacts described in Addendum No. 2.	NOD	
2011052062	Feather River West Levee Project Sutter Butte Flood Control Agency --Butte, Sutter The CA Dept. of Fish & Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0102-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sutter Butte Flood Control Agency. The project would consists of creation habitat for Valley elderberry longhorn beetle (VELB), in order to offset impacts associated with the Feather River West Levee Project (FRWLP), subject to a separate notification and Agreement 1600-2013-0103. 2012122038	Level II Infill Correctional Facilities Project Corrections and Rehabilitation, Department of Chino, Folsom, Vacaville, Lone, San Diego-- The project will consists of constructing: (1) a 1,584 bed correctional facility complex with parking; (2) storm water utilities; (3) wastewater utilities; and (4) roadway facilities.	NOD	
2013021061	Cressey-Gallo 115 kV Power Line Project Public Utilities Commission Livingston--Merced PG&E is proposing to construct the Cressey-Gallo 115 kV Power Line Project to improve transmission system reliability for customers in north-central Merced County, CA. The project consists of constructing a new 14.4-mile 115 kV power line between Cressey and Gallo Substations to form a power line loop with two other area substations (Livingston and Atwater) to avoid customer service interruptions from single-line outages in this area. The project includes constructing a new, 14.4-mile, single-circuit 115 kV power line interconnecting Cressey Substation and Gallo Substation; upgrading the bus configurations at Cressey Substation and replacing the existing radial power line transition into the substation within the existing substation property; and expanding Gallo Substation to add switchgear and upgrade the bus configurations.	NOD	
2013051043	Loma Linda University Health (LLUH) Master Plan Project Loma Linda, City of Loma Linda--San Bernardino LLUH is proposing a Master Plan to include the renovation of its campus. The project consists of a multi-phased development to construct new facilities and improvements to the existing campus in order to accommodate existing demand for the services provided and to meet regulatory requirements. The proposed project would provide construction of new facilities, modernization of existing facilities, and replacement of a portion of the main hospital in response to California's SB 1953 Hospital Seismic Safety Act. It is anticipated that the Master Plan would be built out in two phases over an estimated ten-year period.	NOD	
2013082047	Embarcadero-Potrero 230 kV Transmission Project Public Utilities Commission San Francisco--San Francisco The project consists of construction a new 3.5 mile 230 kV transmission line from Embarcadero Substation near the corner of Fremont and Folsom Streets, to Potrero Switchyard on Illinois Street between 22nd and 23rd Streets. Approximately 2.5 miles would be installed offshore underneath the seafloor of San Francisco Bay, 0.4 mile would be installed using horizontal directional drills between onshore transition points and the bay, and ~0.6 mile would be installed underground in paved areas, including Spear St. and Folsom St. in the Rincon Hill neighborhood and 23rd Street east of Illinois St. Construction of a new 230 kV switchyard would occur near the existing Potrero Switchyard, but no new	NOD

	substation work is proposed to occur at the existing Embarcadero Substation beyond the proposed termination of the new cable into 230 kV bus.		
2013101086	Temescal Creek - Foster Road Storm Drain, Stage 1 Riverside County Flood Control and Water Conservation El Cerrito--Riverside Construction, operation and maintenance of an underground storm drain system comprised of approximately 2,000 lineal feet of reinforced concrete pipe ranging in size from 30 inches to 72 inches in diameter. The concrete outlet structure is an impact type energy dissipater and will be located in an area of Temescal Creek that will be widened to create a "cove" area. The proposed storm drain system, once completed, will provide substantial flood protection to existing development at the intersection of Foster Road and Temescal Canyon Road.	NOD	
2013111033	2014-2021 Housing Element Indio, City of Indio--Riverside The purpose of the Housing Element is to provide suitable housing for all residents of Indio regardless of income, age, race, religion, gender or ethnic background. The Housing Element sets forth the City's 2014-2021 strategy to address the community's housing needs. It includes the preservation and improvements of the community's residential character, the expansion of housing opportunities for all economic segments of the community and the provision of guidance and direction for local government decision-making on all matters relating to housing. According to the SCAG RHNA forecast, the City will need to accommodate the development of 3,025 residential units during the 2014-2021 planning period.	NOD	
2013111066	Dillon Road Transmission Main Replacement - Phase 1 Coachella Valley Water District Indio--Riverside CVWD proposes the construction of a 2.82-mile section of 18 inch diameter domestic water transmission main to replace the existing, 8-inch-diameter, asbestos concrete transmission main that connects CVWD's Booster Station 03603 to Booster Station 04701 along Dillon Road between the communities of Sky Valley and Indio Hills, Riverside County. The proposed ductile iron pipeline will be constructed immediately adjacent to the existing, deteriorated pipeline within the Riverside County right-of-way along the north side of Dillon Road. Booster Station 03603 is located on the north side of Dillon Road approximately 1,500 feet NW of Thousand Palms Canyon Road; Booster Station 04701 is located on the South side of Dillon Road approximately 750 feet SE of Western Avenue.	NOD	
2013121030	Double L Mobile Ranch Park Water Service Project Kerman, City of Kerman--Fresno The project will consist of the installation of a water main from the City of Kerman to the Double L Mobile Ranch Park to provide drinking water to the residents of the Park. In addition, to the installation of the water main, the project will include the boring and jacking of a steel casing under the Union Pacific Railroad and Thompson Extension Canal for the water main crossing. The project will also include the installation of gate valves, blow-offs, hydrants, air/vacuum release valves, and other water main appurtenances at required locations. At the entrance to the Double L Mobile Ranch Park a water service and meter will be installed to serve the community.	NOD

2013091088	South Santa Fe Apartments Vista, City of Vista--San Diego The applicant seeks approval of a site development plan and density bonus for the development and construction of a new 114-unit apartment community on a vacant 4.58-acre parcel in the central portion of the city.	EIR	03/07/2014
2013101027	San Diego Gas & Electric (SDG&E) Tie-Line 637 Wood-to-Steel Replacement Project Public Utilities Commission --San Diego The proposed project is located in north San Diego County between the communities of Ramona and Santa Ysabel, California. The proposed project consists of fire-hardening an approximately 14-mile span of the Tie-Line (TL) 637 corridor connecting SDG&E's existing Creelman and Santa Ysabel Substations. Primary project components include the replacement of 156 existing wood tie-line support structures with fire-safe steel poles within the TL 637 right-of-way corridor, minor improvements to the Creelman and Santa Ysabel Substations, and the installation of a new fiber-optic line that would be co-located on the new TL 637 steel poles. Implementation of the proposed fire-hardening improvements would help ensure SDG&E service reliability during wildfire events and improve fire safety conditions consistent with SDG&E's Community Fire Safety Program (CFSP), County of San Diego Fire Department goals, and safety objectives of the agencies and municipalities within the SDG&E service area.	FIN	
2014011055	Castle Noz Outdoor Recreational Facility Expansion Project - MM13-012 to CUP07-030 Merced County --Merced The requested Major Modification would increase the number of events per year from six to 48 and the capacity of each event from 200 to 250 occupants at an existing outdoor recreational facility. No construction or land disturbance is proposed with this project. The existing facility is currently rented for events such as weddings, dinners, festivals, etc. The facility does not provide any additional services such as food or entertainment but is allowed to contract out to third-party companies.	MND	02/20/2014
2014011056	California State University San Marcos Gymnasium Building California State University Trustees San Marcos--San Diego The proposed project would design and construct a new gymnasium building on the CSUSM campus to improve athletic and recreational opportunities on the CSUSM campus. The new gymnasium would be approximately 25,000 sf in size and one-story (30 feet) in height, and would include the following areas: a basketball court, locker rooms, coach's offices, bleacher seats, a box office, restrooms, storage areas, and a concession stand. The new gymnasium would be an extension of the existing Clarke Field House building, and would support CSUSM Cougars basketball and volleyball games and accommodate recreational and other events, like convocation. The proposed gymnasium would accommodate a maximum event capacity of 1,600 spectators through the use of bleacher seating (1,400 seats) and chairs set up on the basketball court.	MND	02/20/2014

2014011058	<p>Don Wallace Multi-Use Trail Connector Project Los Angeles County Calabasas--Los Angeles</p> <p>The proposed Trail will connect a restored portion of Las Virgenes Creek in Calabasas south of the 101 Freeway to portions of the creek north of the 101 Freeway. The 1,500 linear feet Trail will provide a vital multi-use connection to a larger network of existing and future regional trails, ultimately providing continuous trail connectivity from the Pacific Ocean in Malibu to the interior areas of Los Angeles County and the Santa Monica Mountains.</p>	MND	02/20/2014
2014012047	<p>Removal of Summer Dam Spillway Del Rio Woods Recreation-Park District Healdsburg--Sonoma</p> <p>The Del Rio Woods Recreation & Park District is proposing removal of a summer dam spillway that currently obstructs the Russian River, intrudes on views of the river and surrounding hills, and is a potential hazard from unauthorized use. The dam spillway would be removed by using a dozer/front end loader for installing construction access and removing spillway materials, a vibratory hammer to break up the concrete and loosen steel sheeting, and a crane or excavator to remove large sheet metal pieces. The top concrete panel would be cut open with a concrete saw, and inner materials (likely gravel or compacted soil) would be placed in upland or beach areas, as appropriate, where turbid water will not flow back into the river. All spillway pieces would be trucked to a nearby landfill, recycled, or reused in other projects.</p>	MND	02/20/2014
2014011059	<p>Pacific Pointe East Development Project Long Beach, City of Long Beach--Los Angeles</p> <p>The proposed Pacific Pointe East development is located on an unaddressed, approximately 25-acre parcel at the southeast corner of Lakewood Boulevard and Conant Street near the Long Beach Airport, with a Los Angeles County Assessor's ID Number of 7149-005-006. The proposed project involves three new industrial buildings on a site that is currently undeveloped with a paved surface parking lot. These buildings have an open floor plan and would be intended for light industrial, light manufacturing, warehouse, office, and/or research & development land uses. The three buildings would have a maximum height of about 41 feet and total floor area of 494,000 sf.</p>	NOP	02/20/2014
2014011060	<p>Merced County 2014 Regional Transportation Plan Merced County Association of Governments --Merced</p> <p>The proposed project is the adoption and implementation of the Merced County 2014 Regional Transportation Plan (RTP). The RTP has been prepared to fulfill the requirements of AB 402 (Government Code Title 7, Chapter 2.5, Sections 65080-65082) using specific guidance from the CTC RTP Guidelines. More specifically, the RTP is a twenty year, comprehensive transportation plan for all modes including: highways, local streets and roads, transit, bicycle, aviation, rail, and goods movement. MCAG is required to adopt and submit an updated RTP to the CTC and Caltrans every four years. In addition, the RTP documents MCAG's priorities for transportation funding in the region.</p>	NOP	02/20/2014

2014012050	Moscone Center Expansion Project San Francisco, City and County of San Francisco--San Francisco Increase the gross square footage of the Moscone Convention Center by approximately 306,000 sf. New construction would be primarily above grade both north and south of Howard Street. The expanded Moscone North structure would be approximately 54 feet in height and the Moscone South structure would be approximately 95 feet in height. Additional space would be created by excavating in two locations under Howard Street and expanding the existing below-grade exhibition halls that connect the Moscone North and South buildings. The proposed project would create a total of approximately 580,000 sf of contiguous exhibition space. The proposed project would also reconfigure the existing adjacent bus pick-up and drop off facilities and create two pedestrian bridges spanning Howard Street.	NOP	02/20/2014
2007042083	Foster Farms Dairy 4 Expansion Project Stanislaus County --Stanislaus Request to expand an existing dairy by adding four free stall barns, a maternity barn, a proposed rotary barn, and nine excercise pens so that the modified dairy would house a total of 3,520 cows (an increase of 2,690 cows from existing animals). The proposed expansion is on a 38-acre portion of two parcels totaling 610+- acres in the A-2-40 (General Agriculture) zoning district. The remainder of the two parcels will be used to apply manure, process water, and grow forage crops.	NOD	
2011122052	Approval of CA Carpet Stewardship Plan Resources Recycling and Recovery, Department of -- Approval of revised California Carpet Stewardship Plan, October 2013 (aka v. 3.0). The original project (Jan. 17, 2012 Carpet Stewardship Plan aka v. 1.4) was the subject of a December 15, 2011 Negative Declaration (SCH#2011122052, NOD filed 2/1/2012). The Department has considered the revised project and the full administrative record and has determined that the prior Negative Declaration is sufficient for approval of this project since the changes are not substantial and do not involve new significant negative effects on the environment.	NOD	
2013101029	Alhambra 2013-2021 Housing Element Alhambra, City of Alhambra--Los Angeles The project is the adoption and implementation of the Alhambra 2013-2021 Housing Element, which represents an update of the City's Housing Element. The Housing Element is an integral component of the City's General Plan, as it addresses existing and future housing needs for all types of persons of all economic segment groups in the City. The City of Alhambra's long-term housing goal is to provide housing opportunities to meet the diverse needs of the community. The IS assesses the potential impacts related to the provision of adequate land to accommodate the City's remaining Regional Housing Needs Assessment (RHNA) of 1,492 housing units.	NOD

	office space would be relocated within the existing facility. The Casino currently offers ~113,000 sf of gaming area in a 325,000 sf casino. With construction of the recently developed first Viejas Hotel, the Casino reduced the amount of original gaming area by ~20,000 sf. The proposed project would add ~16,500 sf of gaming area in the new development. No new infrastructure would be required.		
2013061004	RE Clearwater Solar Project and RE Yakima Solar Project by RE Clearwater LLC and Re Yakima LLC (PP 13266); (EIR JEG 01-13) Kern County Mojave--Kern Note: DFG - Response to Comments	Oth	
	Two separate projects are proposed that would consist of two individual contiguous solar facility sites, totaling 429 acres in the southeastern portion of Kern County, southwest of the community of Mojave. Each of the proposed solar facilities would develop and operate a 20 megawatt photovoltaic electric generation facility. The proposed projects would transmit energy through a substation on the RE Yakima project site to a 66 kV transmission line connecting the solar facilities with the existing Windhub Substation. The projects would require approval of Zone Changes (ZCC) and Conditional Use Permits (CUP) from the Kern County Board of Supervisors. The proposed zone changes would revise the existing zoning to A (Exclusive Agriculture) and A FPS (Exclusive Agriculture, Floodplain Secondary Combining) for both projects. The FPS zoning would continue to be applied in areas located within a flood zone. Construction and operation of solar electrical generating facilities are permitted on sites designated as A (Exclusive Agriculture) with approval of a CUP.

	development of housing through the 2013-2021 planning period, specific future projects are subject to regulation of the General Plan, performance standards and permitting processes of the City's Municipal Code, including the Planning and Zoning Regulations, CEQA review of each proposed project, and all mitigation measures contained in applicable CEQA documents. Evaluation of impacts at this time is too speculative to include in this Neg Dec.		
2013111067	Housing Element Update - Case No. 2013-04 Westminster, City of Westminster--Orange The project consists of updating the City's current Housing Element (a required element of the General Plan) in accordance with Sections 65580 through 65589.8 of the CA Government Code. The updated Housing Element addresses the City's housing issues and needs for the period between 2013 to 2021. The adoption of the Housing Element will not in itself result in any environmental impact as the project is a policy document on housing issues rather than a development proposal. Furthermore, the Housing Element, if adopted, would apply citywide as it is not associated with a specific site, parcel, and/or lot.	NOD	
2013112067	Mindego Ranch Use and Management Plan Midpeninsula Regional Open Space District Woodside--San Mateo The proposed Use and Management Plan would direct future land management, operations, and public access actions and activities at Mindego Ranch. The goal of the U&M Plan is to protect and enhance habitat for sensitive wildlife species, while responsibly integrating land management activities and limited public access at Mindego Ranch. Specific project components include habitat enhancement actions (including eradicating non-native fish and bullfrogs, increasing capacity of smaller ponds, and installing livestock exclusion fencing); establishing conservation grazing (which includes installation of feeding/water facilities and implementation of water quality protection measures); providing minimal public access (including opening a new trail sections); and maintenance/operations projects (including erosion treatment and structure removal).	NOD	
2013121008	Rava Agricultural (Frost Protection) Reservoir San Luis Obispo County --San Luis Obispo The proposed project is a request by Chad Rava for a major grading permit to construct a frost protection reservoir with a maximum holding capacity of 8.5 acre-feet (2.77 million gallons) of water to support an existing 185-acre vineyard. The proposed project would result in approximately 1.4 acres (60,980 sf) of disturbance, including 8,388 cubic yards of cut and 4,451 cubic yards of fill, on a 195-acre parcel.	NOD	
2014019009	Streambed Alteration Agreement No. 1600-2013-0278-R2 "Upper Brushy" THP Forestry and Fire Protection, Department of --Placer This project entails the installation of four temporary modified Spittler crossings. Projects Point 2 and Point 10 cross Class II watercourses, Point 11 crosses a Class I watercourse, and Point S1 is a modified Spittler in a Class II watercourse which will be used as a skid trail crossing. Further information can be found in the THP 2-13-023-PLA.	NOD

	subterranean levels of the building, accessed via driveways from Missouri Avenue and the adjacent easterly alley. The project also includes site grading and excavation with the export of an undetermined amount of dirt. Requested entitlements include a Tentative Tract map to permit the proposed one-lot subdivision with the requested merge of public right-of-way, a Zone Change from C2-1VL to [T][Q]RAS4-1VL, and a Density Bonus to permit a 35% increase in the number of dwelling units, with Parking Option 1 to allow 67 residential parking spaces (one parking space per each studio and one-bedroom unit, two spaces for each two-bedroom unit) in lieu of the parking required by the Municipal Code, and on-menu incentives to permit an increase in building height to 60 feet in lieu of the otherwise allowable maximum of 50 feet and a reduced north sideyard of 4 feet in lieu of the minimum 5 feet required.		
2013092052	Use Permit Application No. PLN2013-0070 - Rio Vista Ranch Stanislaus County --Stanislaus Request to expand an existing walnut huller and dryer operation (for personal and commercial walnut processing) with newer, more energy efficient, hulling and drying equipment. The overall capacity of the new equipment will increase walnut production for the operation which utilizes an existing 12,000 sf metal building. The operation employs 10 workers, from 7:00 am to 7:00 pm, mid-September through early November, and was originally approved under Use Permit (UP) No. 74-52 - MTSO by Dana F. Riser.	Neg	02/25/2014
2013034001	Restoration of the Mariposa Grove of Giant Sequoias National Park Service --Madera NOTE: Record of Decision: http://www.parkplanning.nps.gov/mariposagrove The primary purpose of the proposed project is to implement actions and management policies to address conditions at the Mariposa Grove of Giant Sequoias that are contributing to alteration of natural systems that support the giant sequoias, wetlands, and associated wildlife and other plant communities and the degradation of cultural resources, and that affect the quality of visitor experience. The project is intended to conserve and protect natural and cultural resources at the Mariposa Grove of Giant Sequoias for the enjoyment of current and future visitors, and to implement National Park Service (NPS) policies and support the goals established for the Mariposa Grove of Giant Sequoias and the South Entrance in the 1980 General Management Plan for Yosemite National Park.	Oth	
2003101060	Aliso Viejo General Plan Aliso Viejo, City of --Orange The Housing Element is a mandated component of the General Plan. The proposed Housing Element Update satisfies requirements of state planning law that require periodic updates to the Housing Element. State law requires the city of Aliso Viejo ("City") to identify adequate sites with appropriate zoning to accommodate the City's share of the projected regional housing need. In accordance with state law, the Southern California Association of Governments ("SCAG") found the City's share of the region's housing need for the 2014-2021 planning period to be 39 units, 16 of which for lower income households. In addition, state law requires that the City carry over any un-accommodated need from the prior planning period into the current planning period. There was an	NOD

	un-accommodated need of 274 units for lower income households from 2008-2013 planning period.		
2004022128	Delta Service District Center Relocation/Construction Project California Conservation Corps Stockton--San Joaquin The previously approved project consisted of 52,000 square feet of new facilities that included an administration buildings, educational and recreational buildings, four residential buildings, a multipurpose building, a hazardous materials storage shed, and a warehouse. The project also included a storm water retention basin proposed to be 8 feet deep and covering 28,000 square feet, and approximately 100,000 square feet of paved surfaces, which included a corporation yard, roadways, walkways, driveways, a plaza, a basketball court, and parking areas. The 2004 project required installation of utility connections, which include a sewer line 8 inches in diameter and a water line between 12 to 16 diameter. The City of Stockton agreed to provide water and sewage services to the project. The project site is located near but not within the Stockton city limits, and the City of Stockton has requested a conditional water/sewer agreement that includes possible annexation of the site into the city. The new buildings are estimated to accommodate up to 111 Corps members and 35 employees.	NOD	
2008082084	49ers Stadium Project Santa Clara, City of Santa Clara--Santa Clara Special Permit and Parking Agreement to allow temporary (2-year) use of City-owned golf course for event day parking for NFL games and other large events. Physical alterations include minor off-site roadway improvements and on-site reconstruction of cart paths and landscape work.	NOD	
2012051057	Johnson Avenue Sewer Relief Project El Cajon, City of El Cajon--San Diego The Project would involve constructing a 10,300 relief sewer to address the existing constraints along Johnson Avenue and eliminating high risk Siphons 1 and 2 facilities with a deep sewer extending from the intersection of West Bradley and Marshall Avenues, upstream to Siphon 2. The pipeline route would begin at West Bradley Avenue (from Marshall Avenue to Johnson Avenue), travel onto Johnson Avenue (from West Bradley Avenue to just south of Fletcher Parkway), Westfield Parkway mall parking lot (from just south of Fletcher Parkway through Forester Creek and I-8, to the Sunterra Condominium parking lot), Johnson Avenue (from the Sunterra Condominium parking lot to West Madison Avenue), West Madison Avenue (from Johnson Avenue to Chambers Street Alley), and Chambers Street Alley (from Siphon 2 to West Madison Avenue).	NOD	
2013051092	General Plan Update La Habra, City of La Habra--Orange The proposed project is a new La Habra General Plan that meets CA Code requirements for a general plan, and a Climate Action Plan. The proposed General Plan revises the existing "2020 General Plan" land use map and includes elements required by the State of CA and optional elements. Buildout of the proposed General Plan would result in approximately 5,229 additional dwelling units and 4.4 million additional sf of nonresidential uses in La Habra. The planning area for the proposed General Plan includes both the City of La Habra and its	NOD

2009111054	Park Station at the Crossroads of La Mesa Specific Plan EIR La Mesa, City of La Mesa--San Diego The project proposes a specific plan to allow for the development of a mixed-use urban village, including a combination of up to 416 multi-family residential units, 61,000 sf of commercial or neighborhood-serving retail, 146,000 sf of commercial office space, and 146,000 sf of hotel use (500 rooms). The project is comprised of three planning areas: Ballimore Drive, Spring Street, and University Avenue.	EIR	03/17/2014				
2012081028	West Hills Water Treatment Plant San Benito County Water District Hollister--San Benito The San Benito County Water District, City of Hollister, Sunnyslope County Water District, and San Benito County, propose to implement the West Hills Water Treatment Plant project (proposed project). The primary purpose of the proposed project is to provide high quality water supply to the western area of the Hollister Urban Area, an area which currently receives groundwater. As lead agency, SBCWD intends to prepare an EIR in accordance with CEQA to evaluate the project's potential environmental impacts. The project site is located in an unincorporated area of San Benito County just	EIR	03/14/2014

	outside of the southwestern boundary of the City of Hollister in the hills north of Union Road. The project site consists of two vacant parcels totaling approximately 33 acres that are jointly owned by the City of Hollister and Sunnyslope County Water District. The main components of the proposed project include construction and operation of the West Hills water treatment plant, a raw water pump station, and raw and treated water transmission pipelines. The proposed plant would be comprised of treatment facilities, solids handling facilities (including drying beds, treated water storage tanks, an administration and operations building and associated facilities. Raw water would be supplied to the water treatment plant from the Hollister Conduit, which transfers water from the San Luis and San Justo Reservoirs. New pipelines would be constructed along Richardson Road, Riverside Road, and Nash Road.		
2012101064	Walnut Avenue Specific Plan EIR Greenfield, City of Greenfield--Monterey The specific plan guides development of up to 445,000 sf of commercial use, 220 high-density dwelling units, and usable recreation and open space of up to about two acres. The specific plan includes land use guidance, development standards, design guidelines, a circulation plan, a public facilities and services plan, and a plan for development implementation. The location of uses and conditions under which development would proceed is intended to be flexible. A mix of commercial and residential uses is proposed to reduce vehicle trips, air emissions, and greenhouse gases. Development is anticipated to occur over a 20 year or more time horizon as future local and regional demand for additional commercial uses grows.	EIR	03/14/2014
2013091061	Sports Field Project Valley Center Pauma Unified School District --San Diego Note: Review per lead The project proposes development of a multi-use turf sports field in the southeastern quadrant of Cole Grade Road and Valley Center School Road on a 1.9-acre site (within APN 188-240-1800) owned by the Valley Center - Pauma USD. The project site is characterized as flat, vacant, previously developed land. Site access is provided off Valley Center School Road.	EIR	03/17/2014
2014011082	Jalama Road Bridge 51C-013 Widening Project Santa Barbara County Lompoc--Santa Barbara The purpose of the proposed project is to widen and strengthen the existing bridge (51C-013). The proposed project would involve tying two steel plates girders with cross bracing to the existing girder and the extending the steel floor beams and reinforced concrete deck slab. The bridge would be widened by 7 feet on the north to allow and the abutments would be widened and supported on 24 inch cast in drilled hole piles. Jalama Road would be widened approximately seven feet to accommodate widening of the bridge. The roadway would taper to a conform approximately 150 feet south of the bridge. The bridge guard rail and barrier/bike rail are proposed to have a brown powered coat finish. An architectural treatment is proposed on the interior bridge rail consisting of a native river cobble relief.	MND	02/27/2014

2014012057	Napa River Restoration: Oakville to Oak Knoll Project Napa County Yountville--Napa Note: Extended Review per lead The project includes earthmoving activities and installation and maintenance of erosion control measures associated with channel restoration activities along 4.8 miles of a 9-mile stretch of the mainstem Napa River. The purpose of the Proposed Project is to restore and enhance long-term river and floodplain functioning, improve the quality and resilience of aquatic and terrestrial riparian habitat, and reduce property damage and sediment delivery associated with ongoing bank erosion processes.	MND	03/07/2014
2014011081	2014 General Plan Update Wildomar, City of Wildomar--Riverside CA law requires all local jurisdictions in the State to maintain a current general plan with goals with policies to guide land use and development. As such, the City of Wildomar is preparing an update to their existing General Plan, adopted in 2003. The overall purpose of the 2014 Wildomar General Plan is to create a policy framework that articulates a vision for the City's long-term physical form and development, while preserving and enhancing the quality of life for Wildomar residents. The key components of General Plan will include broad goals for the future of Wildomar, objectives for meeting those goals, and specific policies and action items that will help implement the goals and objectives. To conserve resources this update process will not result in any land use designation or roadway classification changes.	NOP	02/27/2014
2014012058	Central Coast Transfer Station Mendocino County --Mendocino The project is the construction and operation of a municipal solid waste transfer station serving the incorporated City of Fort Bragg and the surrounding unincorporated coastal area of Mendocino County extending from the town of Westport to the Navarro River. The proposed transfer station location is a 17-acre portion of Jackson Demonstration State Forest, adjacent to State Highway 20, at 30075 Highway 20, Fort Bragg, California, and is 3.0 miles east of the intersection of State Highway 1 and State Highway 20. 	sanctuary and office building and the construction of a 1,410 sf attached patio cover. Phase two is the conversion of an existing 6,000 sf storage building into a multi-purpose building and the construction of a 10,000 sf sanctuary building. At full build out there will be 249 members. The project is located on the west side of South El Dorado Street, 1,000 feet north of French Camp road, south of Stockton.		
1998031115	Addendum to Inland Empire Utilities Agency's RP-5 Project EIR for the New Main Laboratory Inland Empire Utilities Agency Chino Hills--San Bernardino The Project would involve constructing a 16,400 square feet (SF) one-story building on a site just north of the Renewable Energy Efficient Project at RP-5. Building B at RP-1 would remain in its current state as a process laboratory and 2,200 SF of existing space within Building A which currently houses the chemistry laboratory and sample receiving, will be renovated into office space for use by plant operations.	NOD	
2013121054	Sierra Madre 2014-2021 Housing Element Sierra Madre, City of Sierra Madre--Los Angeles The project involves a General Plan Amendment to adopt the 2014-2021 Housing Element, which is a state mandated general plan element. The Housing Element must be updated pursuant to CA Government Code Section 65588 for the 2014-2021 planning period. The Housing Element identifies and assesses projected housing needs and provides an inventory of constraints and resources relevant to meeting these needs. Components of the housing element include: a housing needs assessment with population and household characteristics; identification of constraints to providing housing; an inventory of available sites for the provision of housing for all economic segments of the community; and a statement of goals, policies and programs for meeting the City's housing needs.	NOD	
2013122041	AT&T Wireless Telecommunications Facility Contra Costa County Alamo--Contra Costa The applicant proposes to modify County File #LP03-2003, an existing AT&T wireless telecommunications facility, to remove two existing panel antennas mounted on two metal 20-foot tall poles and replace with a 71-foot tall monopine pole, install nine 8-foot antennas with three surge suppressors, add two Remote Radio Units-11s (RRUs), six RRUW's, relocate one RRU-11s to T-Arms, relocate GPS antenna, install four cabinets, and a 130-foot trench for related electrical conduit for ground equipment. The subject property is located at 1241 Laverock Lane in the Alamo area. (Zoning: R-40)(Parcel Number: 192-250-002)	NOD	
2013122050	The 2014 Fisheries Restoration Grant Program Fish & Wildlife #2 --Sacramento The project will use grant funds approved by the CA Legislature to initiate activities that are designed to restore salmon and steelhead habitat in coastal streams and watersheds.	NOD

	equipment; (6) a meteorological data collection system with battery regulator; (7) an unoccupied switchgear building with battery bank and UPS; and (8) security improvements. The proposed project requires a CUP to construct and operate a solar facility and a GPA to the Circulation Element of the Kern County General Plan to remove the midsection line reservations of Sections 27 and 35 of Township 25S, R19E for the project. The proposed GPA will also include the eastern section line of Section 27 and the northern and eastern section lines of Section 35.		
2012102005	Recreation Wellness Center Project University of California, San Francisco San Francisco--San Francisco Note: SCH# 2006102050	MND	03/03/2014
	The proposed project would involve the construction of a new 118,700 gsf Recreation Wellness Center building with an existing outdoor softball field and a new outdoor recreation field on a 6.5-acre project site. The proposed project would also include pedestrian street improvements along Front Boulevard. Major revisions to the Campus Master Plan would be required to relocate the planned Recreation Wellness Center from a site on Winston Drive to the proposed project site on Front Boulevard. The project site is located in the southwestern portion of the SF State campus, north of Vidal Drive, east of Lake Merced Boulevard, and south of Front Boulevard.		
2013062045	PA-1300027 (SA) & PA-1300066 (SA) San Joaquin County --San Joaquin Site Approval application to construct a 2.0 megawatt photovoltaic solar power facility encompassing 15.0 acres in two phases over 5 years. Phase One is the development of a 10.0 acre switchyard to include 40" X 60" solar panels, inverter panels, and combiner boxes on APN: 187-180-11. Phase Two is to expand an additional 5 acres on APN: 187-180-10, to include the expansion switchyard, additional solar panels, inverter panels and combiner boxes. At full buildout, the project will encompass 15 acres.	MND	03/04/2014

	regional Trail Management Plan (TMP) that will establish the overall direction of future development and completion of the trail network over the next ten to fifteen years. Based on identified desired conditions for park natural, cultural, and recreational resources, the TMP will prescribe policies to streamline interagency management of the trail network throughout the national recreation area. The TMP will also include a trail policy map depicting the planned trail network. The planning and environmental analysis associated with the TMP could potentially result in a program that would modify current trail policies, recreational use patterns and future trail openings and closures.		
2014011086	2014 Housing Element Update Bishop, City of Bishop--Inyo An update to the City of Bishop General Plan Housing Element.	Neg	03/03/2014
2014012060	General Plan Amendment 13-004, Tract Map 2004 (Bridgewater Investments) Shasta County --Shasta Request for approval of a General Plan Amendment from Suburban Residential - 3 dwelling units per acre (SR-3) to Suburban Residential - 3.5 dwelling units per acre (SR 3.5) and the subdivision of a 2.5-acre property into 8 lots ranging from 0.23 acres to 0.30 acres in size. Water and sewer services to the proposed project would be provided by the Cottonwood Water District and Community Services Area #17.	Neg	03/03/2014
2014012063	2014 Short- Term Water Transfer Project Sutter Extension Water District Yuba City--Sutter The SEWD proposes to sell up to 17,464 acre-feet (af) of water to the participating member districts of the State Water Contractors Incorporated (Buyers) during the 2014 irrigation season. In the event SEWD's water supply is cut under its 1969 agreement with the State of California, SEWD will not transfer any water. Buyers are seeking up to approximately 277,745 af of transfer water from various willing sellers in the Sacramento Valley during the 2014 irrigation season. Purchasing this water would lessen potential water supply shortages to these Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta.	Neg	03/03/2014
2014022003	PA-1400007 (VR) San Joaquin County Lodi--San Joaquin A Variance application to vary the minimum lot size of two parcels in the AG-40 (General Agriculture, 40-acre minimum) zone from 40 acres to 32.4 acres and 2.0 acres. The underlying project is a Minor Subdivision application to create two parcels. Parcel 1 to contain 2.0 acres. Parcel 2 to contain 32.4 acres.	Neg	03/04/2014
2014022004	PA-1300129 (MS) San Joaquin County Lodi--San Joaquin A Minor Subdivision and Lot Line Adjustment application to subdivide two parcels into three parcels. Parcel one to contain 4.00 acres. Parcel Two to contain 0.23 acres. Parcel three to contain 4.03 acres. The parcels are being created under Development Title Section 9-610.3(e) - Parcels For Dwellings on the Same Lot.	Neg	03/04/2014

2014022005	PA-1300212 (DV) San Joaquin County Manteca--San Joaquin A Deviation application to reduce the required minimum front yard setback from 55 feet from the centerline of Wetherbee Avenue to 40 feet, 5 inches from the centerline of Wetherbee Avenue in the AG-40 zone to allow for an agricultural storage building.	Neg	03/04/2014
2007092059	Van Ness Avenue Bus Rapid Transit (BRT) Project San Francisco County Transportation Authority San Francisco--San Francisco Note: Record of Decision BRT is a new mode of transit in San Francisco and represents a package of features that together create rapid and reliable transit service for the benefit of passengers along a given corridor, and the transit system as a whole. The Van Ness Avenue BRT project will operate existing bus service in a dedicated transit lane for a two-mile-long stretch from South Van Ness Avenue at Mission Street to Van Ness Avenue at Lombard Street by converting a northbound and a southbound mixed-flow traffic lane in the center of the roadway to dedicated transit lanes. Project features include: at or near level boarding, consolidated transit stops, high quality stations, platform proof of payment, traffic signal optimization, fewer left turn pocket lanes, transit signal priority, pedestrian safety enhancements, and replacement of the overhead contact support system/streetlight system, including poles.	Oth	
2014011087	8150 Sunset Boulevard Los Angeles, City of --Los Angeles Note: AB 900 Application - No State Agency Review. 8150 Sunset Blvd is a mixed-use commercial and residential in-fill project, consisting of 249 apartment units (28 of which are affordable housing units) and 111,339 sf of commercial retail on 2.56 acres, replacing an at grade surface parking lot and at retail mix of fast-food, coffee shops, check casing and storage facility. The project will encourage pedestrian traffic by increasing open space, specifically 9,134 sf of public space, 34,050 sf central plaza, public rooftop deck/garden areas, ample parking, electric vehicle charging stations, short and long term bicycle parking 985 spaces. Residential includes lobby, recreation room, fitness center, business center, changing rooms, library and wrap-around landscaped terrace on the fourth floor.	Oth	03/03/2014
2008061098	Los Osos Valley Road/US 101 Interchange Improvements Project Caltrans #5 San Luis Obispo--San Luis Obispo The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the applicant, City of San Luis Obispo. The Project is intended to accommodate current and future travel demands by realigning the intersection at Los Osos Valley Road and Calle Joaquin Road, and include activities related to lengthening an existing culvert at the crossing over San Luis Obispo Creek.
