

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

July 1st-15th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 1-15, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

2004074001	Kern and Pixley National Wildlife Refuges: Draft Comprehensive Conservation Plan / Environmental Assessment U.S. Fish and Wildlife Service Delano--Kern, Tulare The Comprehensive Conservation Plan will guide management of the Kern and Pixley National Wildlife Refuges for the next 15 years. Establishes vision for Refuge and sets goals and management objectives and identifies strategies for achieving refuge purposes.	EA	07/30/2004
2002062094	Lake Tahoe Shorezone Ordinance Amendments Draft Environmental Impact Statement (TRPA DEIS) Tahoe Regional Planning Agency --El Dorado, Placer Currently, the TRPA Code prohibits the placement of new piers, boat ramps, mooring buoys, or floating docks or platforms in areas identified on the TRPA Prime Fish Habitat Map as "Feeding and/or Escape Cover Habitat" and "Spawning Habitat". The Code also prohibits these structures within 200 feet of certain stream and river inlets. Chapter 54 of the fish study assessing construction and use impacts on fish habitat and spawning areas has been completed. Pursuant to Code Subsection 54.3.B, the scope of this document is to reconsider the fish habitat and spawning stream location standards, as they pertain to new and existing piers, mooring buoys, boat ramps, floating docks or platforms, and other related Shorezone structures. The purpose of this Shorezone DEIS is to provide an analysis of the existing situation and future trends in the Shorezone of Lake Tahoe, and to evaluate five build-out alternatives for future development regulations. The primary focus of this analysis is on TRPA's ability to attain and maintain environmental goals under each of the alternative scenarios.	EIR	09/28/2004
2004072011	1460 El Camino Real Project (Beltranco Project) Menlo Park, City of Menlo Park--San Mateo Demolish existing one-story commercial buildings, construct 16 apartment units and a 26,800-sf, 2-story commercial building.	EIR	08/16/2004
2003102062	Marseilles Brentwood, City of --Contra Costa The proposed project consists of a Rezone of the southern portion of the project site from R-1-6 to PD-44, a Vesting Tentative Subdivision Map to subdivide the site into 472 residential lots (471 lots for single-family development and one lot for a 108 multi-family unit development) and 16 parcels totaling 9.85 acres of open space and parks, Design Review of the proposed single and multi-family development, and Design Review of a recreation center (including a pool, wading pool/spa), accompanying public parks, regional trails, and public roadway improvements along portions of Walnut Boulevard and Central Boulevard. 2004071001	Countryside Specific Plan EIR Ontario, City of Ontario--San Bernardino The City will consider adoption of the Countryside Specific Plan and EIR as well as the concurrently proposed Tentative Tract Map(s) and a Development Agreement. Creation of the Specific Plan will guide development of the entire 178-acre site within Subarea 5 of the New Model Colony Specific Plan. The proposed project consists of eight residential neighborhoods of varying lots sizes with a total of 819 residential units. In addition, 6.5 acres of parkland and 4.36 acres of paseos, as well as bicycle trails would be integrated throughout the project site. To date, the site has not been identified on any California Environmental Protection Agency Hazardous Waste Lists.	NOP	07/30/2004

The project application includes a Specific Plan, a Vesting Tentative Map and three Major Use Permits (MUPs). One MUP is being proposed for the Private Equestrian Ranch (PER), one MUP is proposed for the Wastewater Treatment Facility, and the third MUP is proposed for the remainder of the project site (e.g., residential, commercial, recreation).	NOP	07/30/2004
2004072004	Extreme Ozone Attainment Demonstration Plan San Joaquin Valley Air Pollution Control District --San Joaquin This District has prepared the Extreme Ozone Attainment Demonstration Plan to fulfill the requirements of the Federal Clean Air Act for extreme nonattainment areas for the federal one-hour ozone standard. As such, it describes the factors contributing to the SJVAB's persistent ozone air quality problem, quantifies air pollutant emissions that cause ozone to form in the SJVAB, identifies control measures needed to reduce these emissions, and projects future air quality based on implementation of these controls. In addition, the Plan fulfills state requirements for the California Clean Air Act Plan Triennial Progress Report, and fulfills federal requirements for demonstrating rate of progress in meeting emissions reductions targets. 	shrubs have become established on the sediment accumulated in a portion of the culvert. Operations are expected to be complete in one week. All impact to San Joaquin kit fox and blunt-nosed leopard lizard will be avoided, and other wildlife will be moved out of harms way to the extent possible.		
2004078009	Streambed Alteration Agreement Concerning La Costa Wet Basin Fish & Game #5 --San Diego The project consists of reconfiguration of part of the basin to permanently decrease the area available for growth of emergent aquatic species such as cattail and bulrush. This project is necessary to allow successful use of fish to control mosquitoes. The project will only impact approximately 0.02 acre of wetland and will be done outside of the bird nesting season.	NOE	
2004078010	Interim Measures #3 Emergency Groundwater Extraction and Management at Pacific Gas and Electric Company, Topock Compressor Station Toxic Substances Control, Department of --San Bernardino Based on groundwater modeling projections by PG&E, extraction at approximately 130 gallons per minute (gpm) from the TW-2 extraction well will be required to provide an inward gradient during month of highest groundwater discharge rates (October 2004). The critical elements for this proposed project are the piping, conveyance of groundwater, construction of temporary treatment facilities, and development of a disposal method for treated water.	NOE	
2004078011	Replace Posts at Front of Robinson/Rose (03/03-SD-43) Parks and Recreation, Department of --San Diego The project consists of the replacement of six rotten wood posts that hold up the balcony that overhangs the front entrance to the Robinson/Rose Building. The Robinson/Rose Building is a reconstructed home from late in Old Town San Diego's interpretive period (1821-2875). This building serves as the Park Visitor Center and employee/docent offices. The rotten posts will be replaced with 7.5" pressure treated posts (without the dimples), the replacement of the second story rim joists, roof fascia, and duplication of the existing molding detail. Plan will include the installation of post footing connections to existing concrete footing to preclude evacuation.	NOE	
2004078012	Aerojet Deep Injection Wells 1 and 2, Post-Closure Permit Toxic Substances Control, Department of --Sacramento The project is the revision of the Hazardous Waste Facility Permit for the Aerojet in Sacramento in order to incorporate the post closure activities being implemented at Aerojet involving deep injection wells...The revised Permit outlines the procedures to fulfill these regulatory requirements, which consist of 2 primary functions: 1. environmental monitoring and 2. maintenance of financial mechanisms to fund the post-closure activities. The most important post closure activity required to be implemented with the revision of the Permit will be to monitor for water quality in the four water bearing zones in the vicinity of the closed injection wells.	NOE

1992122069	Tracy General Plan Tracy, City of Tracy--San Joaquin The City of Tracy is preparing the City of Tracy General Plan to replace the existing City of Tracy General Plan: An Urban Management Plan from 1993. The EIR will provide an assessment of the updated General Plan, which is expected to be completed in 2004 to guide future growth in the City through 2025, including the annexation of lands identified in the SOI. The overall purpose of the General Plan is to reorganize and revise the existing document as necessary to create a policy framework that articulates a vision for the City's long term physical form and development, while preserving and enhancing the quality of life for Tracy residents. The Key components of the City of Tracy General Plan will be: - Broad community goals for the future of Tracy. - Objective for meeting community goals. - Specific policies and implementing actions that will allow objectives to be met.	NOP	08/13/2004
1993011028	Manchester Wetland Mitigation Site San Diego County Water Authority The purpose of the SCF is to provide surge protection for the San Vicente Pipeline, and other related pipelines in the event of a power failure at the San Vicente Pump Station. The proposed project consists of constructing an open topped tank, associated inlet and outlet pipelines, and an overflow pipeline. The circular tank is sized to contain approximately 3.3 million gallons of water and has been changed from a completely buried tank to one that is expected to be partially or entirely above ground. Construction of the tank is proposed as either reinforced concrete, pre-stressed concrete or steel. The dimensions of the SCF are approximately 217 feet in diameter and a wall 20 feet high. This is a change from 130 feet in diameter by 40 feet high.	NOP	08/02/2004
2004071009	Cambria Water Master Plan Cambria Community Services District Cambria--San Luis Obispo The Cambria Community Services District (CCSD) is developing a phased completion of its Water Master Plan. A Task 4 report assesses various long-term supply alternatives and recommends additional water conservation measures, recycled water and seawater desalination.	NOP	08/02/2004
2004071011	Pacific Coast Business Park Oceanside, City of Oceanside--San Diego The proposed project consists of development of 30 industrial lots on a 127-acre site.	NOP	08/02/2004
2004071015	General Plan Update (Excluding the Housing Element) Calexico, City of --Imperial The City of Calexico is updating their 1992 General Plan which will be the guidance for development in the current City limits, as well as the proposed expansion of the City's Sphere of Influence over the next twenty years. 2004071019	City Place West Santa Ana, City of Santa Ana--Orange Proposed project involves the development of 242 residential units and 57,700 sf of commercial retail area.	NOP	08/02/2004
2004071069	Eastside High School Antelope Valley Union High School District Lancaster--Los Angeles The Antelope Valley Joint Union High School District proposes to construct and operate a new high school in Lancaster, at the corner of 35th Street East and East Avenue J-8. At full buildout, the school will accommodate 3,500 students.	NOP	08/02/2004
2004071010	EA SD 1-04; GPA 24, Map 100 Kern County Planning Department Bakersfield, Shafter--Kern An amendment to the Western Rosedale Specific Plan from R-IA (Intensive Agriculture - Minimum 20-Acre Parcel Size) to RR (Rural Residential Minimum 2.5 Gross Acres/Unit) on 38.18 gross acres. Intent is to subdivide the 38.18-acre project site into four parcels each and a designated remainder of 28 acres. Implementation of the request however, could theoretically result in the creation of as many as 15 residential parcels if maximum build out occurs. Access to the four new parcels would be via a new local street off of Snow Road. Access to the designated remainder would continue to be either Snow Road or Enos Lane. As proposed, water supply and sewage disposal would be by future individual domestic well system and individual septic tank systems, respectively. The lead agency notes that the RR map code designation is typically characterized as widely separated housing with rural service needs. While some lots between 2.5 and 5.0 acres may have public water and/or sewer service those with 5 acres or more typically lack such services.	Neg	08/02/2004
2004071012	EA SD 3-04; ZC 24, Map 124-30 Kern County Planning Department Bakersfield--Kern A zone change from E(1) (Estate - 1 Acre Minimum) to C-2 PD (General Commercial - Precise Development) on 2.31 acres currently developed with a single-family residence. Request is for a change in zone classification to facilitate the reestablishment of commercial development on a corner lot previously occupied by a motel and service station; however, no new development is currently being proposed. The site's existing zoning of E(1) is inconsistent with its general plan map code designation of GC (General Commercial). Approval of a change in zone classification is therefore necessary to bring the site's zoning into consistency with the Metropolitan Bakersfield General Plan and allow future commercial development of the site as envisioned. Access would continue to be by South Union Avenue (State Route 99 Bus.) and Berkshire Road, which are designated as arterial and collector alignments, respectively, by the Circulation Element of the Metropolitan Bakersfield General Plan. As proposed, water supply and sewage disposal for the future onsite development would be by the Greenfield County Water District and City of Bakersfield, respectively. The purpose of the General Commercial (C-2) District is to designate areas for the widest range of retail commercial activities, including regional shopping centers and heavy commercial uses. The purpose of the PD Combining District is to identify areas with unique site characteristics or environmental conditions or areas surrounded by sensitive land uses to ensure development in such areas is compatible with such constraints. 	Development in the PD Combining District is discretionary and therefore, subject to further environmental review. No use can be established or developed in the PD Combining District until an application for development has been deemed complete and an environmental document, if required, is completed so the request can be considered at a regularly scheduled public hearing.		
2004071013	980 Reservoir 30-Inch Pipeline Otay Water District Chula Vista--San Diego The proposed project is the installation of a new 30-inch potable pipeline underground from the 980 Reservoir to a 36-inch potable water main line in Hunte Parkway, pavement of an existing dirt access road, and the extension of electricity of electricity to the 980 Reservoirs and a new recycled metering facility. The project will be located along the southern and western edges of the golf course.	Neg	08/02/2004
2004071014	04-110 / TR 060936 10526-10538 Cole Road, Whittier, CA Los Angeles County Department of Regional Planning Whittier--Los Angeles The proposed project is a request for a Tentative Tract Map for a three lot subdivision consisting of two single-family residential lots and one lot for condominium purposes for six new, detached residential units. Proposed Lot 1 is 6,591 sf in size; the existing single-family residence would remain on the site. Proposed Lot 2 is 7,237 sf in size; the existing single-family residence and swimming pool would remain on the site. Proposed Lot 3 is approximately 43,441 sf in size; six detached condominiums would be constructed (each approx. 2,200 sf). Each of the six new condominiums would have an attached two car garage. Eight guest parking spaces are proposed on Lot 3. A 26-foot wide private shared driveway/fire lane is proposed with ingress/egress on to the east side of Cole Road. There are four additional structures on site that will be demolished prior to new construction (three single-family residences, one detached garage and one wood shed). Approximately 400 cubic yards will be required on site.	Neg	08/02/2004
2004071016	PA03-0014 (Plot Plan) Moreno Valley, City of Moreno Valley--Riverside Change Plot Plan for three industrial buildings ranging in size from 394,840 sf to 659,042 sf including 30,000 sf office use on a 73-acre parcel in the industrial zoned district.	Neg	08/02/2004

<u>Documents Received on Tuesday, July 06, 2004</u>			
1995123032	UCSF LRDP Minor Amendment: Parnassus Housing and Childcare Implementation Plan University of California, Regents of the San Francisco--San Francisco The proposed project is the new construction and renovation of various small - to medium-sized housing projects for students, post-doctorate students and faculty, and construction of a childcare center, all on the UCSF Parnassus Heights campus. The housing projects and childcare center would be at various locations on campus, as follows: - 145 Irving Street (at Judah Street); 374 Parnassus Avenue (at Hillway); 735 Parnassus Avenue (near 5th Avenue); Fifth Avenue Housing (between Parnassus and Kirkham); Childcare Center (Kirkham Street between 4th and 5th Avenues).	EIR	08/19/2004
2000051086	Rancho Roberto Subdivision Monterey County Planning & Building Inspection Watsonville--Monterey Combined Development Permit consisting of 1) a Coastal Development Permit and Standard Subdivision to allow for the division of a 13.3 acre parcel into 26 lots ranging in size from 6,649 sf to 10,765 sf, a remainder parcel of 6.61 acres and grading, 2) a Coastal Development Permit to allow for the demolition of a single family dwelling, a barn and several other accessory buildings.	EIR	08/19/2004
2002111057	Sea Cliff Condominiums San Clemente, City of San Clemente--Orange The applicant, Alkapuri Associates, LLC, is proposing the adaptive reuse of the existing residential structure, which has been identified as a significant historical property, to construct seven condominium units in two new structures. Project implementation will necessitate the approval of a Tentative Tract Map (TTM 16092). Conditional Use Permit (CUP 01-040), and a Cultural Heritage Permit (CHP 00-131) by the City of San Clemente. In addition, approval of a Coastal Development Permit (CDP) by the California Coastal Commission will also be required.	EIR	08/19/2004
2003122038	Palisades Resort & Spa Calistoga, City of Calistoga--Napa Construction of a proposed Resort that includes a spa, restaurant, 89 guest cottages, recreational facilities and administrative and meeting spaces. Additionally, up to 28 affordable housing units will be constructed on an adjacent site.	EIR	08/19/2004
2004021007	Reclaimed Water Storage Facilities Modifications Eastern Municipal Water District Moreno Valley, San Jacinto--Riverside EMWD intends to deepen four reclaimed water storage ponds at its Sun City and Moreno Valley Regional Water Reclamation Facilities. It also intends to construct a new reclaimed water storage facility at the Sun City RWRf. EMWD also intends to deepen its water harvesting facility at San Jacinto Reservoir.	EIR	08/19/2004

2004072027	Kerley Tentative Parcel Map Butte County --Butte Tentative Parcel Map to divide a 24.94 acre parcel into tow parcels of 10 and 14.94 acres. Sewer by on-site septic. Water by individual domestic well.	Neg	08/04/2004
2004072029	Sierra Pacific Power Company Hobart Substation Rebuild Project Public Utilities Commission Truckee--Nevada The proposed project would upgrade the existing substation with modern electrical equipment and provide standard three-phase electrical service to an existing customer in the Hobart Mills area. The installation of new electrical equipment would re-configure the substation from two-phase to three-phase and increase overall substation capacity from 660 kilovolt amperes (kVA) to 5,000 kVA.	Neg	08/04/2004
2004072030	SMA Reduction and Notice of Merger Humboldt County Planning Department --Humboldt Two adjacent parcels will be merged to accommodate an appropriate building site. Although each parcel is just less than an acre in size, the site's developability is restricted by the Streamside Management Area (SMA) of the small unnamed intermittent creek. In addition to the merger, a Special Permit is required to reduce the SMA setback from the required 50' down to +/- 20'. SP also covers the Design Review of the future residence. All mitigation measures found in the Biological Report will be included in this project. Future residential development will be served by on-site sewage disposal and community water.	Neg	08/04/2004
2004072031	Pajaro Village No. 3 Watsonville, City of Watsonville--Santa Cruz The project consist of developing 74 one-story, senior, single family detached units (39 two and 35 three bedroom units) on small single family lots on a vacant 14.36 acre site. The project lies within the City of Watsonville, adjacent to the unincorporated County of Santa Cruz to the north. The project will be the third phase of the existing Pajaro Village development, adjacent and south of site and is adjacent to Bay Village development to the west.	Neg	08/04/2004
2004072032	Housing Element Solano County --Solano Housing Element Update to cover the period of January 2001 through December 2006. Includes the transfer of the County's regional housing allocation to Fairfield, Vacaville, Benicia and Rio Vista.	Neg	08/04/2004
2004072034	Construction of Holiday Inn Express Hotel Willows, City of Willows--Glenn Construction of an approximately 32,687 sf, three-floor hotel. There will be 61 rooms for guests and approximately 1,300 sf conference room.	Neg	08/04/2004
2004072035	Rae Vineyard Conversion Napa County Napa--Napa The applicant proposes to convert 6.9 acres to vineyards on an 83.14-acre parcel of land. The Erosion Control Plan Applications include construction plans, specifications and erosion and sediment mitigation measures for the vineyards.	Neg	08/04/2004

2003051075	Olson Ranch Vineyard Monterey County Planning & Building Inspection Soledad--Monterey Construction of an irrigation reservoir, related road construction and vineyard expansion. SAA#R3-2001-0653	NOD	
2003061128	San Jacinto Retail Center San Jacinto, City of San Jacinto--Riverside The San Jacinto Street Retail Center project consists of the construction of a retail shopping center on an approximately 26.48-acre site. The retail shopping center includes a total of approximately 260,420 square feet of retail space and will consist of one major retail store, two fast-food restaurants, a sit-down restaurant, an additional retail use, and a 6 pump (12 fueling position) gas station. The proposed project includes the construction of an approximately 229,500 square foot big box commercial retail space, with the aforementioned gas station including an approximately 210-square foot kiosk, and approximately 30,710 square feet of additional retail and restaurant space on a total of 6 parcels. A 20.54-acre parcel will be designated to the major retail store and a 0.59 acre parcel will be designated to the 6-pump gas station. The fueling station and kiosk will be located under a canopy cover. The four parcels located on San Jacinto Street consist of freestanding retail pads. These parcels will be developed with an approximately 14,410 sq. ft. pharmacy with drive-through, an approximately 9,200 sq. ft. shop building consisting of 4,500 sq. ft. sit-down restaurant and a 4,700 sq. ft. retail use, an approximately 3,100 sq. ft. fast food restaurant with drive-through, and an approximately 4,000 sq. ft. restaurant with drive through. Alternative uses may be substituted for the fast food uses; including retail uses with or without drive through lanes. Figure 3.3 in the Draft EIR presents the project site plan.	NOD	
2003062147	Modesto Irrigation District (MID) Claribel/Minniear Project Modesto Irrigation District Modesto, Riverbank--Stanislaus On August 12, 2003, a Mitigated Negative Declaration was adopted for the Claribel/Minniear Project, which involves building two substations and 5 miles of new transmission line (approximately 65 poles) on the north side of Modesto, California. The Project was approved on that date and a Notice of Determination was duly filed. Since that time, MID has determined that in order to cross Hetch Hetchy lines along the approved route, two poles will have to be 15 feet taller than the maximum structure heights of 60-75 feet that were described in the initial study. The two poles will be placed adjacent to the Hetch Hetchy transmission lines, a steel lattice tower system over 110 feet in height.	NOD	
2003111090	Adoption of Specific Plan Line for Red Apple Avenue and Construction of Red Apple Avenue Kern County Tehachapi--Kern Construct a two-lane paved roadway, 24 feet wide with 8-foot wide graded, dirt shoulders on both sides, and approximately 0.8 miles in length. The project would include modifying the traffic light system and intersection configuration at Tucker Road and constructing wheelchair ramps.	NOD

2004079025	Culvert replacement and dissipater installation on bank of Casserly Creek Fish & Game #3 --Santa Cruz This project consists of the replacement of a culvert fro the existing 12" size to an 18" culvert that drains into Casserly Creek. The overall project is the construction of a one-story Fire Station, about 250 feet south of the intersection of Casserly Road and Mt. Maddona Road. A 6' wide by 9' high by 1' deep angular rock dissipater will be placed on the bank. The culvert will include a "T" water release devise above the stream channel elevation. The existing eroded bank will be filled with compacted materials. The existing shrub and grass vegetation up to (if needed) 15 feet either side of the center line of the culvert will be removed to allow dissipater construction. The CDFG is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0234-3 Pursuant to Section 1602 of the Fish and Game Code to the Project Operator, Chief Greg Estrada/Pajaro Valley Fire Protection District.	NOD	
2004078026	Restore 1902 Headkeepers Quarters Half-Timber Configuration Parks and Recreation, Department of --Monterey Restore the Headkeepers Quarters at Pt. Sur State Historic Park by: (1) removing existing clapboard siding, (2) removing lead-based paint from exterior surfaces, and (3) installing a Half-Timber configuration, which involves restoring the exterior of the building to how it appeared in 1902 by replicating the design, stocco and paint finishes.	NOE

	Area in order to improve financing opportunities within the Redevelopment Area; and (2) specific development plans for a number of near-term projects within the consolidated Redevelopment Area, including development of a mixed use Seaport Village at the northeast corner of First and C Streets, development of a fish-processing facility and cafe at the northwest corner of First and C Streets, the creation of a public plaza and piazza along the northern terminus of C Street, and seismic upgrades and facade improvements to buildings within the Redevelopment Area.		
2001111121	Madera Meadows Plan Amendments and Rezoning Madera, City of Madera--Madera A proposed amendment of the area Specific Plan for approximately 50 acres located on the south side of the west Cleveland Avenue just west of Westberry Boulevard (Road 24.5). The amendment proposes to revise the current land use designation to PD 8000, Planned Development zone. The present zoning on the property could potentially result in construction of 136 single homes with standard single-family development, while with the proposed amendments 204 homes could be constructed, an increase of 68 homes.	Neg	08/05/2004
2004071029	(New) Bus Transit Terminal Riverside Transit Agency Corona--Riverside The Riverside Transit Agency (RTA) operates bus transportation service in a 2,500-square-mile area in the western part of Riverside County, with 40 fixed-route and 15 dial-a-ride services. RTA is in the process of acquiring approximately 2.1 acres of property located at 31 East Grand Boulevard in the City of Corona, adjacent to the Corona Metrolink Station (on the north) and Metrolink's park-and-ride lot (on the south). RTA proposes to develop the site as a bus transit terminal, with 6-bay loading/unloading plaza, a parking area, and retail shops (2,500 sf) to accommodate transit patrons. The project will provide bus and train passengers with an intermodal link between the region's transit and commuter rail systems.	Neg	08/05/2004
2004071031	Expansion of Existing Auto Dealership at 16747 Ventura Boulevard, Encino, CA 91423 Los Angeles City Planning Department --Los Angeles The 3,888 sf expansion of an existing used automobile dealership and automobile repair facility on a 32,365 sf lot. The height of the proposed addition will be a maximum of 18 feet.	Neg	08/05/2004

The proposed dairy will house 4,800 jersey milk cows, 782 dry cows, 3,865 heifers, and 730 calves. The dairy will include barns, freestalls, corrals, wastewater lagoons, and setting ponds.	EIR	08/23/2004
2000011075	Lower Owens River Project Los Angeles, City of --Inyo Restoration of the Lower Owens River by providing flows to the river to enhance fish, wetland, and riparian habitats, creating new wetlands through seasonal flooding at the Blackrock Waterfowl Habitat Area, releasing flows to the Delta Habitat Area to maintain and enhance wetlands, and modifying grazing practices on LADWP leases adjacent to the river.	FIN	
2002041163	A&A Ready Mix Facility Conditional Use Permit No. 01-255 Los Angeles County Department of Regional Planning Los Angeles, City of--Los Angeles An application for a conditional use permit for an existing concrete batching plant. The application covers all parcels utilized in the process including manufacturing, transportation, and storage under the same operator. The existing facilities consist of batch plants, conveyors and silos, maintenance storage shed, sand and gravel storage areas, truck wash down grate and pit, drive-over dump grate, office building, clerical records storage building, and concrete reclaiming area. A new truck wash down facility will replace the existing one. The operating hours are 24 hours per day, 7 days a week. The typical maximum number of employees working any one shift is 60. Operations on different parcels were established under different land use requirements over the years.	FIN	
2002072028	Chevron Pipeline Relocation/Watershed Protection Project Alameda County --Alameda The project would relocate and shorten an existing liquid petroleum products pipeline from its location on lands owned by the San Francisco Water Department (SFWD) and on the north side of its San Antonio Reservoir, to an alignment farther north on other properties not owned by SFWD. The new alignment would allow	FIN

	ChevronTexaco to maintain its pipeline for liquid products while simultaneously reducing the risk of hazard to the San Antonio Reservoir water supply, thereby meeting the terms of its lease with the SFWD.		
2004011118	Isla Vista Parking Program Santa Barbara County Goleta--Santa Barbara Parking program including (1) metered parking zone for downtown streets and parking lot; (2) designated coastal access parking, and (3) residential permit parking for streets in remainder of community. New development is limited to installation of pay station sand approx. 900 street signs in public right-of-way. Project requires Coastal Development Permit and county ordinances.	FIN	
2004071039	Opportunities Study Lake Forest, City of Lake Forest--Orange The Opportunities Study includes a General Plan Amendment and Rezone of approximately 900 acres of vacant lands in the Study Area. The General Plan Amendment would change the allowed land uses from industrial and commercial land use to residential and mixed-uses. The vacant lands currently have approximately 7 million sf of approved industrial and commercial development rights. The number of residences considered in the General Plan Amendment and Rezone range between 5,394 and 6,617. Approximately 40 to 70 acres of neighborhood parks, 45 acres of community sports park, community/civic center and 500,000 to 650,000 sf of commercial development would also be permitted as a result of the project.	NOP	08/09/2004
2004071043	Four Creeks Rezoning Project San Luis Obispo County San Luis Obispo--San Luis Obispo Two development plans have been submitted covering different portions of the property. The Tumbling Waters Development Plan covers 11.63 acres on 861 and 953 Orcutt Road. The Creekston Development Plan covers 5.6 acres on 791 Orcutt, 3330 Broad and 3360 Broad. The remaining land includes three parcels on Broad Street that are under separate ownership.	NOP	08/09/2004
2004072049	Sunol and Niles Dam Removal Project San Francisco Planning Department Fremont--Alameda The project consists of the partial removal of the Sunol Dam and Niles Dam to allow fish passage and to address liability and public safety issues. In association with the removal of the dams, impounded sediment would either be left in place, or would be off-hauled except for a portion of the sediments to fill in the plunge pools downstream of both dams.	NOP	08/09/2004
2004072057	Winfield Boulevard / McAbee Road General Plan Redesignation San Jose, City of San Jose--Santa Clara (1) Change the land use/transportation diagram designation of Winfield Boulevard from minor arterial to no General Plan designation including removal of Winfield Boulevard bridge; and (2) change the land use/transportation diagram designation of McAbee Road from major collector - 4 lanes, to major collector - 2 lanes. 2001042003	Revised MetroBase Project Santa Cruz Metropolitan Transit District Santa Cruz--Santa Cruz The project consist of revisions to the approved MetroBase Project, a bus operations and maintenance facility. A Draft EIR was certified for the original MetroBase Project in February 2003. The revised project consists of relatively minor design changes to improve operations of the facility, including parking/access reconfiguration and revisions to the building layouts. The proposed design modifications would not change the land use or increase the capacity of the originally proposed project.	Neg	08/09/2004
2003112114	Miners Ranch Conduit Station 3 Access Road Repair South Feather Water and Power Agency Oroville--Butte Repair of roadway shoulder with installation of quarried rock rip rap above and below shoreline of Lake Oroville to prevent further degradation.	Neg	08/09/2004
2004071040	03-310 / PM 060413 19801 S. Susana Road, Long Beach, CA 90810 Los Angeles County Department of Regional Planning Long Beach--Los Angeles The proposed project is a request for a Tentative Parcel Map to allow for the creation of four (4) lots for the purpose of constructing one industrial building (warehouse and office use) with appurtenant parking and loading zone area on each of the four lots. Lot 1: 42,706 sf area / 26,938 sf building with 28 parking spaces; Lot 2: 38,649 sf area / 22,486 sf with 27 parking spaces; Lot 3: 38,644 sf area / 22,486 sf building with 26 parking spaces; Lot 4: 46,498 sf area / 24,515 sf building with 31 parking spaces. Each building will be 34' 11" in height. There will be two 40-foot driveways providing ingress and egress on to Susana Road. A Director's Review Plot Plan (PP 36821) is being reviewed concurrently for the construction of all four structures proposed on the site. Approximately 3,000 cubic yards of fill material will be imported to the site; approximately 25,000 cubic yards of material will be excavated and recompacted on site in preparation for construction of the proposed buildings. The site is currently used as a truck storage facility; one trailer and one truck loading area will be removed/demolished prior to new construction.	Neg	08/09/2004
2004071041	Conditional Use Permit No. 03003 Merced County --Merced To legalize and expand an existing private 125 acre recreational Bass fishing lake by expanding fishing activity to include two additional ponds and constructing a Bed and Breakfast facility consisting of a Lodge and two cabins.	Neg	08/09/2004
2004072048	Deborah Ann Higer Zone Change / Tentative Parcel Map (Z-04-04/TPM-04-01) Siskiyou County Planning Department Mount Shasta--Siskiyou The applicant proposes a Zone Change and Tentative Parcel Map, involving a total of 15.2 acres, located north of Davis Place Road. The zone change is proposed to support the division of the 15.2 acre property into 4 parcels and a designated Remainder by changing the existing zoning from AG-2 (Non-Prime Agricultural, with 10-acre minimum parcel sizes) to R-R-B-2.5 (Rural Residential with 2.5 acre minimum parcel sizes). The resultant parcels would be served via individual septic disposal systems and individual wells.	Neg	08/09/2004

2004072056	Big Lagoon Park Company Humboldt County Planning Department --Humboldt A General Plan Amendment/Zone Reclassification/Planned Development Permit/Coastal Development Permit to provide for the relocation of cabins within the Big Lagoon Park area away from the geologically unstable coastal bluff. The GPA/ZR will redesignate/rezone the cleared areas for the relocated cabins as residential 2.25 acres of timberland. The cabins will be served by on-site sewage disposal systems and water provided by the existing Big Lagoon Park Company water system. No change to the total number of cabins is proposed, or will be allowed, per the Big Lagoon Park Company by-laws. Fourteen of the existing 76 cabins will be relocated, under a PDP and blanket CDP, between 2003 and 2065 as needed. Site development, i.e. extension of the road, water system, and drainage facilities and utilities, will be phased to provide sites at a minimum cost to the cabin owners and the Big Lagoon Park Company.	Neg	08/09/2004
2004072058	Markleeville Village / Mahalee Lodge Alpine County --Alpine Markleeville USA is requesting approval of a project that includes the following major components: - 40 room lodge with spa, restaurant, meeting space and outdoor pool/deck - 70 cabins containing approximately 1,330 sf each, proposed for fractional ownership - 14 mixed use residential/commercial buildings containing a total maximum of 35,445 sf - infrastructure intended to serve the development (domestic water, wastewater treatment, roads, parking, utilities)	Neg	08/09/2004
2001022032	Alvarado Boulevard Truck Sewer Project Union Sanitary District Fremont, Union City--Alameda The project includes installation of a sewer line on Alvarado and Fremont Boulevards between Alavardo Wastewater Treatment Plant and Decoto Road in Fremont and Union City in Alameda County. The California Department of Fish and Game is executing an Lake and Streambed Alteration Agreement Number 1600-2004-0327-3 pursuant to Section 1602 of the Fish and Game Code to the project operator.	NOD	
2003071171	Arroyo Grande Creek Bridge Maintenance Project Caltrans #5 Arroyo Grande--San Luis Obispo The project will back fill the damaged creek bank with imported material and repair the existing, damaged RSP. Repair will involve dewatering the site, excavating the undersized rock from the creek, replacing damaged filter fabric in the excavated area, placing light RSP on the new fabric, and capping the repaired area with 1-ton RSP. A low flow channel will be created along the channel bottom to provide for fish passage during construction. It is anticipated that it will be necessary to remove trapped aquatic organisms from the construction area after the coffer dams are in place and the area isolated. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2003-5357-3 pursuant to Section 1602 of the Fish and Game Code to the project operator. 2003062128	2004 Update to the Countywide Comprehensive Transportation Plan and Proposed Sales Tax (Measure "C") Reauthorization Contra Costa Transportation Authority --Contra Costa Adoption of a resolution approving a \$2 billion Transportation Expenditure Plan (TEP) for the extension of the County's "Measure C" transportation sales tax.	NOD	
2004041072	Carlson Marsh Regrade Project Irvine Ranch Water District Irvine--Orange The project proposes to remove exotic vegetation and construct or modify weirs and culverts at several locations to allow for circulation of water through Carlson Marsh in the dry season, and to drain ponded water after a storm event. Water supplied to the northern portion of Carlson Marsh will be distributed throughout the marsh through a system of weirs, culverts, and low flow channels. Weirs and culverts will be constructed to collect water in the northeastern portion of the marsh. During the dry season, polished creek water will be introduced at the northern portion of the marsh and conveyed through the low flow channels to the southern portion of the marsh. Water will be recirculated to the northernmost seasonal pond via the proposed weir and culvert and will not pass through the	NOD

NOP	08/12/2004
2004071075	PRC-3904.1 Ellwood Marine Terminal Lease Renewal California State Lands Commission Goleta--Santa Barbara The project is the renewal of a lease of state land for operation of the Ellwood Marine Terminal (EMT), a crude oil marine loading terminal and storage facility. Crude oil is first stored in two onshore tanks and then pumped into a pipeline for loading into a dedicated barge. The EMT has an average barge loading rate of 4,200 barrels (bbls) per hour with a maximum barge capacity of a total of 56,000 bbls. Typically, a dedicated barge is loaded two to three times per month with 55,000 bbls of crude oil per load. The oil is then transported to refineries in the Port of Los Angeles area. The offshore facilities consist of an irregular six-point mooring system located 2,600 feet from shore, two additional buoys, a 10-inch-diameter marine loading pipeline that extends from the beach to the mooring area, and 240-foot long rubber hose to the offshore end of the pipeline.	NOP	08/12/2004
2004071076	Oak Springs Ranch Specific Plan and Environmental Impact Report Riverside County Planning Department Wildomar--Riverside Specific Plan No. 340 consists of mixed-use, 394-unit residential, 22,600 square foot commercial and open space community on an approximately 51.45-acre site. Construction of the proposed multiple-family and single-family residential/commercial development is currently planned to be conducted in three phases. Change of Zone No. 6922 proposes to establish zoning on the subject site consistent with the specific plan.	NOP	08/12/2004

2003021089	Dalidio/San Luis Marketplace Annexation and Development Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo Consideration of a Final Environmental Impact Report (EIR), and request to annex a 131-acre parcel into the City with development of an approximately 615,000 sf retail project known as the San Luis Marketplace. A General Plan Amendment is requested to amend the adopted Land Use Element map to match the applicant's current land use proposal. Rezoning will also be considered to provide zoning designations for sites within the annexation area which are consistent with the proposed Land Use Element map designations (C-R-PD, Retail Commercial Planned Development; O-S, Office with the Special Consideration overlay; R-3-S, Medium-High Density Residential with the Special Consideration overlay; C/OS-40, Conservation/Open Space; and AG, Agriculture). A Planning Commission Use Permit is also required to allow retail stores between 60,000 and 140,000 sf. Consistent with the proposed C-R-PD zoning, Preliminary Development Plan approval for the Marketplace component is needed. Finally, the applicant has requested entering into a Development Agreement with the City that will allow the project and required construction of an interchange at Prado Road.	NOD	
2003052059	Water Treatment Plant Improvement Project Benicia, City of Benicia--Solano Construction of modifications and additions to facilities at the City's existing Water Treatment Plant to improve the reliability of the water treatment system.	NOD	
2003091025	Miguel - Mission 230 kV #2 Project Public Utilities Commission San Diego--San Diego The proposed project would consist of three principle components: (1) installing a new 230 kV transmission circuit between Miguel and Mission Substations, (2) relocating the existing 69 kV/138 kV circuits on new pole structures between Miguel Substation and Fanita Junction, and (3) modifying Miguel and Mission Substations.	NOD	
2004031044	Viejo System Project Public Utilities Commission Mission Viejo--Orange The Viejo System Project consists of a new substation (Viejo Substation) with 220/66 Kilovolt (kV) and 66/12 kV transformation, four 12 kV distribution lines, and one 66 kV subtransmission line, minor modifications to two existing 220 kV transmission lines, installation of one optical ground wire between Viejo and Chiquita substations, installation of an underground fiber optic cable between Viejo Substation and SCE's Irvine Operation center, and modifications at the nearby Chiquita substation (within the existing building footprint). (together, the proposed Viejo System Project). Completion of the Viejo System Project would require minor modifications to two existing 200 kV transmission lines, installation of one optical ground wire between Viejo and Chiquita Substation, installation of an underground fiber optic cable between Viejo Substation and SCE's Irvine Operation center, and modifications at the nerby Chiquita Substation within the existing footprint. The proposed Viejo System Project would be included in the greater Santiago System, which provides electricity to the Orange County area.	NOD

2000011034	River Road Bridge Replacement Project Riverside County Corona, Norco--Riverside The existing 2 lane River Road Bridge over the Santa Ana River is located at the beginning of the Prado Debris Basin, immediately upstream of Prado Dam. The existing bridge is functionally obsolete and structurally deficient. The bridge is proposed to be replaced with a longer span bridge and at a higher height. The document assesses 4 lane alternatives of varying bridge spans.	EIR	08/30/2004
2002011094	Matilija Dam Ecosystem Restoration Project Ventura County Flood Control District Ojai, Ventura--Ventura The Matilija Dam Ecosystem Restoration Feasibility Study aims to return Matilija Creek to a more natural streambed configuration through removal of Matilija Dam and accumulated sediment. This would eliminate a barrier to fish passage on Matilija Creek and facilitate the migration, spawning and rearing of endangered southern steelhead. This EIS/R evaluates the potential environmental effects of the options considered in the U.S. Army Corps of Engineers' Matilija Dam Ecosystem Restoration Feasibility Study.	EIR	08/30/2004
2004051133	Hemet High School Stadium Complex Hemet Unified School District --Riverside The project is intended to serve an existing high school facility and would include three basic components, each with its own ancillary features: a 5,000-person capacity athletic stadium (with bleacher seating, elevated lighting and a low impact sound system); dual turf soccer fields, and parking for approximately 550 vehicles. In addition, a signalized pedestrian crossing is proposed mid-block on Stetson Avenue between Dartmouth Street and Stanford Street, subject to County approval. While primarily intended use by Hemet High School, the proposed facilities would be made available for community use as the scheduling of scholastic uses permit and in accordance to Hemet Unified School District policy. 2004078229	Pipeline extension project for the City of Bakersfield's 2800 Acre Groundwater Recharge Facility, City of Bakersfield, County of Kern Bakersfield, City of Bakersfield--Kern The City of Bakersfield will construct a new pipeline for a distance of approximately 2,600 feet along the south side of its 2800 Acre Groundwater Recharge Facility. Construction of the pipeline will begin at Olcese Well No. 2 and extend east, on the north side of the Kern River Canal, east of the Southern Pacific Railroad tracks.	NOE	
2004078230	Clausen Road at North Folk of Deadman Creek Bridge Replacement Project; Agreement 2004-0056-R4 Fish & Game #4 --Merced Excavate banks at the existing bridge abutments and remove the existing timber bridge. Grade the channel to conform to the placement of the culverts. Install two 72-inch diameter by 60-foot length culverts. Grade the area to its original contour and seed all disturbed soils.	NOE	
2004078231	Agreement 2004-0011-R4; Del Puerto Creek Fish & Game #4 --Stanislaus Construction of a 10-foot wide by 65-foot span steel railroad flatcar bridge, supported on concrete abutments. Minor excavation and backfilling will be necessary to construct the abutments. Rock slope protection will be replaced at each abutment to protect the footings. Approaching roadways will be graded to match the contour of the new bridge.	NOE	
2004078232	Installation of a Drain Pipe at Meter Structure SD-11 Along San Diego Pipeline No. 5 Metropolitan Water District of Southern California --San Diego Metropolitan proposes to install drain piping at Meter Structure SD-11 along San Diego Pipeline No. 5. Metropolitan proposes to excavate a small trench along the side of Metropolitan's access road in order to install a small drain pipe to eliminate standing water around the meter structure and over the pipeline.	NOE	
2004078233	Relocation of an Effluent Flow Meter at the Henry J. Mills Filtration Plant Metropolitan Water District of Southern California Riverside--Riverside Metropolitan proposes to relocate an effluent flow meter at the Henry J. Mills Filtration Plant in the city of Riverside. The project includes excavation of an approximately 24-inch trench from the existing subsurface flow meter location south and installation of a new concrete slab, which will house the relocated flow meter and associated equipment aboveground.	NOE	
2004078234	Via Canela Elementary School Lot Line Adjustment Palermo Union School District --Butte The project consists of a 1 acre lot line adjustment to add additional land to the existing school district parcel so that the District will own both sides of an easement. The additional acre will not be utilized for any additional school facilities and will remain vacant.	NOE
