**SUMMARY  
OF  
POSTINGS**  
(Formerly SCH NEWSLETTER)

**July 1 – 15, 2012**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 1 – 15, 2012**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The 2011 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov) .

2010101065	Hudson Ranch Power II Geothermal Plant/Simbol Calipatria II Plant Project Imperial County Calipatria--Imperial Note: Review per Lead	<b>EIR</b>	08/17/2012
	<p>The Proposed Project includes two separate development activities; the Hudson Ranch Power II Geothermal Flash Power Plant (HR2) and the Simbol Calipatria Plant II (SmCP 2) mineral extraction plant on agricultural land within the Salton Sea known Geothermal Resource Area in Imperial County, California. The proposed HR2 project consists of a 49.9 MW geothermal power plant, supporting geothermal production and injection wells/pipelines; and, an interconnection to the Imperial Irrigation District's existing electrical transmission system. The proposed SmCP-2 is a lithium carbonate production plant located adjacent to the HR2 site. SmCP-2 would use geothermal brine from the HR2 plant to produce lithium carbonate and other products for commercial sale and would not be developed without the HR2 project.</p>		
2011011039	Bolsa Chica Lower Mesa Restoration Fish & Game #5 Huntington Beach--Orange Note: Final Response to Comments	<b>FIN</b>	
	<p>The Lower Mesa Restoration Project for the Bolsa Chica Mesa is a cooperative project between CDFG and the Bolsa Chica Land Trust. The goal of this project is the creation/rehabilitation of the 118 acre property incorporating 6 sustainable habitat areas and the completion of a perimeter trail system utilizing a portable on-site native plant nursery and volunteer efforts from the community.</p>		
2012032073	Sarco Creek Bridge Replacement Project Caltrans #4 Napa--Napa NOTE: Final 1 - CD	<b>FIN</b>	
	<p>The Department proposes to remove the existing 35.5-foot wide, 31-foot long, two-span Sarco Creek Bridge (Bridge # 21-0008) and replace it with a 46-foot long, 44-foot wide, two-lane, single-span bridge. The bridge replacement would be completed as part of a bridge rehabilitation project that includes roadway widening, embankment work, and construction of a fish passage downstream of the bridge. The roadway widening of the new structure deck width would provide two 12-foot wide lanes of traffic and two 8-foot wide shoulders, which is wider than the two 4-foot wide shoulders on the existing bridge. This widening would not increase roadway capacity.</p>		
2012062054	American River Common Features WRDA 96 Remaining Sites R10 Central Valley Flood Protection Board Sacramento--Sacramento Note: Recirculated.	<b>MND</b>	08/01/2012
	<p>Levee repair work which involves constructing a jet-grout cutoff wall through the levee under the Watt Avenue Bridge. Construction-related activities would take</p>

<b><u>Documents Received on Monday, July 02, 2012</u></b>			
	place for approximately three months. Temporary, progressive lane closures of the Watt Avenue Bridge and adjoining recreational trail would occur for approximately eight weeks. The construction of Site R10 is anticipated to take place in the summer 2013. The document is being recirculated due to the addition of staging areas that were added and evaluated after circulation.		
2012071001	Carmel Development Monterey County Carmel-by-the-Sea--Monterey Combined Development consisting of: 1) a Coastal Administrative Permit to allow the demolition of an existing 583 sf carport, 344 sf of second story decks and 78 sf of exterior stairs; the construction of a 543 sf attached garage, a 527 sf second story addition, a 111 sf lower level addition, a 67 sf covered entry porch, 82 sf stairs, 389 sf of second story decks, a 93 sf under floor space conversion to a wine cellar and a bathroom and a complete interior remodel to an existing two-story single family dwelling with grading consisting of less than 100 cubic yards of cut and fill; 2) a Coastal Development Permit for development on a site with that is positive for archaeological resources and is within 750 of the principle archaeological site; and 3) Design Approval.	<b>MND</b>	07/31/2012
2012071002	Vancouver Street HDD Sewer Extension Carlsbad, City of Carlsbad--San Diego The proposed project involves: 1) installing 1,543-linear feet of 8- and 10-inch gravity sewer pipeline (located within the public right-way of Vancouver Street, Hidden Canyon Community Park and Via de Canto Street); 2) abandoning in place 1,845 linear feet of 8-inch sewer pipeline; 3) demolishing the above grade appurtenances associated with the existing sewer lift station; and 4) hydro-seeding the existing sewer lift station area with a native seed mix.	<b>MND</b>	07/31/2012
2012072001	Ukiah Valley Medical Center Expansion Ukiah, City of Ukiah--Mendocino The Project would: 1) expand the existing emergency department (ED) by constructing a one-story addition at the front (west) of the existing building 2) relocate the ground level heliport from the ground area in front of hospital to the roof of the addition 3) relocate parking from the south side of the hospital building to the front of the ED expansion 4) create a temporary heliport for use during construction of the addition and relocated heliport at the northeast corner of Hospital Drive and Hamilton Street (APN 002-160-10) 5) construct a new parking lot on the site of the temporary heliport after the permanent heliport becomes operational and 6) use the vacant parcel located at the northwest corner of Hospital Drive and Hamilton Street (APN 002-160-13) for temporary employee parking and construction staging until construction of the Project has been completed.	<b>MND</b>	07/31/2012
2012072002	Independence Creek Cutbank Restoration Fish & Game #2 Truckee--Nevada The purpose of the project is to remove a non-functioning fish weir and restore an eroded stream bank. The weir was installed to trap Lahontan cutthroat trout ( <i>Oncorhynchus Clarkii henshawi</i> ) to establish a broodstock source in another reservoir during the 1970's. The weir subsequently failed in a flood event and needs to be removed. The constriction in the stream channel caused by the fish	<b>MND</b>	07/31/2012

	weir led to an increase of force on the downstream bank, causing severe erosion. We intend to remove the fish weir remnant structure, and restore and stabilize the stream bank to prevent further erosion and enhance instream habitat for Lahontan cutthroat trout.		
2012072004	La Honda Creek Open Space Preserve Master Plan Midpeninsula Regional Open Space District Woodside--San Mateo The La Honda Creek Open Space Preserve Master Plan (proposed project) establishes a long-term vision for the Preserve to guide future decisions affecting use and management of the land. The Master Plan calls for the retention of all existing uses within the Preserve with the addition of: expanded public access; the reintroduction of grazing into the northern portion of the Preserve; the construction of additional parking areas, facilities and trails; habitat restoration and enhancement; and adoption of resource management and public access policies aiming to protect and enhance the Preserve's diverse natural resources. Full buildout of the Master Plan is anticipated to result in the need for the addition of 5 new District staff (2 rangers and 3 maintenance personnel). The Master Plan would be implemented in four phases over the next 30 years.	<b>MND</b>	07/31/2012
2012074001	Naval Base Coronado Coastal Campus U.S. Navy Coronado--San Diego The proposed campus would include a mix of instructional and administrative facilities that would provide for indoor classroom and tactical training instruction, and equipment use, maintenance, and storage. Specific proposed action within the Coastal Campus proposal area: (1) Evaluation of current land use and available facilities; (2) augmentation by design and construction of new facilities to support logistics, equipment use and maintenance training, classroom and tactical skills instruction, storage, and administration; (3) design and build of related site improvements that may include upgraded utilities, fencing, roads, and parking. An EIS is considered the appropriate document for comprehensively analyzing the potential environmental impacts of implementing the proposed actions.	<b>NOI</b>	07/31/2012
2012072003	General Plan Land Use and Circulation Element Update Foster City --San Mateo The updated Land Use and Circulation Element will include the following changes:  1. A new planning timeframe from 2012 to 2025. 2. Updated goals, policies and implementation measures related to Land Use and Circulation. 3. An updated Land Use Plan. 4. An updated transportation Plan.	<b>NOP</b>	07/31/2012
2012072005	UC Davis Renewable Energy Anaerobic Digester University of California, Davis Davis--Yolo UC Davis proposes to install and operate a renewable energy anaerobic digester (READ) at a site on County Road 98 in the west campus area of UC Davis. The proposed waste-to-renewable energy facility would accept agricultural waste, animal manure and bedding, food waste from the campus, process the waste in a	<b>Neg</b>	07/31/2012

	biodigester, and use the biogas produced in the biodigester and the campus landfill gas to generate electricity in a microturbine. The organic component of MSW may contain contaminants such as plastics and metals, which would be separated out and properly disposed of, or recycled. The facility would involve five primary processes: (1) material receiving and preparation; (2) anaerobic digestion; (3) refinement of biogas; (4) generation of electricity using biogas and landfill gas; and (5) effluent treatment to process and dispose of any solid or liquid byproducts of the process. The READ facility would be built in two phases. The Phase I facility would be designed and constructed to process up to 25 tons per day of organic wastes. Phase 2 would expand the facility to handle up to 50 tons of organic wastes per day.		
2003041159	La Costa Town Square EIR 01-02 Carlsbad, City of Carlsbad--San Diego The proposed project involves the construction of retail facilities, medical offices, a daycare facility, a gasoline station with a carwash, and 64-single-family residences. This construction is the final phase of the original Villages of La Costa (i.e., Fieldstone) development project included in the Fieldstone/La Costa Habitat Conservation Plan/Ongoing Multi-species Plan planning area in 1995.	<b>NOD</b>	
2007021080	Change of Zone No. 7145, Tentative Tract Map No. 32813 Riverside County --Riverside CDFG is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2011-0254-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: D.R. Horton, represented by Kim Molina, 1037 Pavo Court, San Marcos, CA, 92078, Phone (760) 218-9833. The Morgan Hill Residential Project includes the development of a residential community on 20 acres, consisting of 59 single-family residential lots, four new internal street, supporting infrastructure, and an extended detention basin.	<b>NOD</b>	
2007061033	PA06-0152 and PA06-0153 (Tentative Parcel Map 35150 and a Plot Plan for Two Distribution Warehouses) Moreno Valley, City of Moreno Valley--Riverside CDFG is executing a Streambed Alteration Agreement (SAA # 1600-2012-0015-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant: FR/CAL Morena Valley, LLC., represented by William G. Williams III, 515 S. Figueroa Street, 16th Floor Los Angeles, CA 90071. The Project is limited to the construction of a 1,182,916 square foot industrial development on 53.4 acres, consisting of two building and supporting infrastructure.	<b>NOD</b>	
2008021094	Amendments to the City of San Diego's Land Development Code/Land Development Manual, Environmentally Sensitive Land Regulations, Including Revisions... San Diego, City of San Diego--San Diego The project would amend the LDC to establish the 3 development scenarios under which a deviation from the sensitive biological resources regulations may be approved outside of the Coastal Zone (including vernal pools) - Essential Public Project Option allows for a wetland deviation to enable the City to implement necessary public facilities and infrastructure projects including, but not limited to,	<b>NOD</b>

	specific design/construction projects identified in a community or implementing plan and identified on the Essential Public Projects List, maintenance of existing infrastructure, and projects initiated on the by the City to meet state and federal regulatory requirements. The Economic Viability Option would allow a deviation to preserve an applicant's right to an economically viable use of property, only for circumstances not of the applicant's making. It provides criteria for the preparation of an economic analysis to determine the economic viability of a project with and without the deviation. The existing wetland regulations do not allow consideration of a biologically superior option to mitigate impacts. This amendment would allow a deviation from the LDC under the Biologically Superior Option if an alternative project or design achieves a superior biological result biological result through either project design or extraordinary mitigation.		
2010012044	David & Claudia Fuller TPM08-0011 Butte County Chico--Butte The CVFPP is a high level document that describes a system wide approach for implementing possible future flood management actions in the Central Valley, with a focus on lands currently protected by the SPFC. In the plan and the PEIR, DWR identified a reasonable range of potential implementation approaches to accomplish the primary and supporting goals of the CVFPP. The Central Valley Flood Protection Board (CVFPB) will use the PEIR for the adoption of the CVFPP.	<b>NOD</b>	
2010102044	Central Valley Flood Protection Plan Program EIR Water Resources, Department of -- The CVFPP is a high level document that describes a system wide approach for implementing possible future flood management actions in the Central Valley, with a focus on lands currently protected by the State Plan of Flood Control (SPFC). In the CVFPP and the PEIR, DWR identified potential implementation approaches to accomplish the primary and supporting goals of the CVFPP.	<b>NOD</b>	
2011011039	Bolsa Chica Lower Mesa Restoration Fish & Game #5 Huntington Beach--Orange This is a cooperative project between the California Department of Fish and Game and the Bolsa Chica Land Trust. The goal of this project is to create a diversity of habitats that support a variety of species and to enhance to overall habitat function of the Lower Mesa. Restoration activities will result in enhanced habitat for the sensitive plant and wildlife species present at the Lower Mesa and surrounding areas, including southern tarplant, sensitive raptor species, silvery legless lizard, and potentially coastal California gnatcatcher.	<b>NOD</b>	
2011061021	Highland Marketplace San Bernardino, City of San Bernardino--San Bernardino A request to change the General Plan land use designation from Public Commercial Recreation (PCR) to Commercial General (CG-1) on 17.37 acres of vacant land and a Tentative Parcel Map to subdivide 17.37 acres into 7 parcels. The proposal includes a Conditional Use Permit to construct a multi-tenant commercial shopping center with a 136,090-square foot 42-foot tall home improvement store which exceeds the 30-foot height limitation in the CG-1 district and approximately 68,630 square feet of retail and restaurant use located at the southwest corner of Highland and Arden Avenues.	<b>NOD</b>

2011111048	<p>Aromas Water District Sphere of Influence Amendment &amp; Annexation of Oak Ridge &amp; Via Del Sol Subdivision Aromas Water District --Monterey</p> <p>The proposed project consists of the following element: 1) Sphere of Influence amendment to add approximately 1,720 acres within the AWD's SOI boundary within Monterey County; 2) Annexation of two existing subdivisions to the Aromas Water District and provision of domestic water service to approximately 72 existing homes in order to provide potable water supplies to existing residences that are experiencing water supply problems (the annexation areas are within the proposed SOI amendment area); 3) Creation of an assessment district to finance improvements for the proposed annexation areas; AND 4) Construction of water system improvements to serve the proposed annexation areas, which includes extension of water lines and construction of a pump station and new water storage tank.</p>	<b>NOD</b>	
2011112038	<p>Buckhorn Dam/Grass Valley Creek Toe Drain and Channel Rehabilitation Trinity County Resource Conservation District --Trinity</p> <p>Approximately 4,500 cubic yards of sediment will be excavated from the outlet channel for the purpose of lowering the water surface elevation in the dam's toe drain and approximately 4,500 cubic yards of additional sediment and earthen material will be excavated to create and enhance habitat features for Coho salmon including rearing ponds and side channels. Channel creation and enhancement activities are designed to alter the existing center line alignment, create more channel sinuosity, build pool/riffle habitat, lower streambed elevations, increase channel slope, widen the cross-sectional area, and develop inset floodplain benches.</p>	<b>NOD</b>	
2011122075	<p>Use Permit Application No. 2011-16 - Hendley Huller Stanislaus County --Stanislaus</p> <p>The primary objectives of the project includes increasing the amount of large wood in the fluvial corridor to facilitate the formation and maintenance of complex mainstream and off-channel habitats for populations of chinook, coho, steelhead, and coastal cutthroat (e.g. spawning, holding and rearing).</p>	<b>NOD</b>	
2012031046	<p>La Mesa Parks Master Plan La Mesa, City of La Mesa--San Diego</p> <p>The City of La Mesa has developed a Parks Master Plan to identify improvements to the parks system necessary to meet both current and future community needs for parks, open space, and urban respite areas. There are currently 14 parks distributed throughout the City totaling 144 acres. In support of the Community Wellness Policy adopted in 2006, the Master Plan recognizes the importance of exercise as one element of a healthy lifestyle. Thus, the Master Plan focuses on improving accessibility to parks by enhancing pedestrian connectivity through the repair and installation of missing sidewalk segments and removal of access barriers (i.e., improving unsafe street crossings, curb cuts, lighting and related safety deficiencies that deter pedestrian access). The Parks Master Plan is intended to work in tandem with the Bicycle Facilities and Alternative Transportation Plan adopted in February 2012 to create safe pedestrian and bicycle routes that will encourage residents to walk and bicycle to local parks.</p>	<b>NOD</b>

2011102051	Revised SMP-30 Use Permit, Sunol Valley Aggregate Quarry Alameda County --Alameda The current Sunol Valley Aggregate Quarry is under operation on an approximately 323-acre site. The quarry was approved for aggregate mining by the County in 1992 pursuant to Surface Mining Permit-30 (SMP-30). Under this currently effective permit, quarry operations can continue through year 2021. An adjacent 58-acre parcel has now become available, and the applicant seeks to revise the SMP-30 permit to increase aggregate reserves by expanding and deepening the quarry pit, which will ultimately be used for water storage. The proposed revised permit (the project) seeks to increase the area under permit, deepen the excavation, extend the permit expiration date to 30 years after approval, to add an on-site asphalt batch plant and a concrete batch plant, and to amend the Reclamation Plan for the site.	<b>FIN</b>	
2012071009	Special Use Permit No. PSP 12-011 Tulare County --Tulare The project consists of a MND and Mitigation Monitoring Plan and Special Use Permit No. PSP 12-011 to allow the construction and operation of a 4 MW solar photovoltaic electrical generation facility on a 14.6-acre portion of a 16-acre parcel located in the AE-20 (Exclusive Agricultural - 20 acre minimum) Zone, located at 40808 Road 150, approximately 350 feet north of the intersection with Avenue 408, southeast of Cutler-Orosi.	<b>MND</b>	08/01/2012
2012071010	Special Use Permit No. PSP 12-007 Tulare County Kingsburg--Tulare The project consists of MND and Mitigation Monitoring Plan and Special Use Permit No. PSP 12-007 to allow the construction and operation of a 5 MW solar photovoltaic electrical generation facility of an 18-acre parcel in the A-1 (Agricultural) Zone, located at 39320 Avenue 392 (Clarkson Drive), on the northwest corner of Avenue 392 and Road 16, southeast of the city of Kingsburg.	<b>MND</b>	08/01/2012
2012071011	Special Use Permit No. PSP 12-009 Tulare County --Tulare The project consists of MND and Mitigation Monitoring Plan and Special Use Permit No. PSP 12-009 to allow the construction and operation of a 10 MW solar photovoltaic electrical generation facility on a 37.6-acre portion of a 46-acre parcel located in the AE-20 (Exclusive Agricultural - 20 acre minimum) Zone, located at 41283 Road 116, southwest of the intersection of Avenue 416 (El Monte Way) and Road 116, west of Cutler-Orosi.	<b>MND</b>	08/01/2012
2012071012	Special Use Permit No. PSP 12-010 Tulare County --Tulare The project consists of a MND and Mitigation Monitoring Plan and Special Use Permit No. PSP 12-010 to allow the construction and operation of a 3 MW solar photovoltaic electrical generation facility on a 7-acre portion of a 9.39-acre parcel located in the AE-20 (Exclusive Agricultural - 20 acre minimum) Zone, located at 13676 Avenue 416, on the northeast corner of Avenue 416 (El Monte Avenue) and Road 136, east of Cutler-Orosi.	<b>MND</b>	08/01/2012

<b><u>Documents Received on Tuesday, July 03, 2012</u></b>			
2012071014	Arsenic Compliance Project Riverdale Public Utility District --Fresno Note: Reference SCH # 2006101047  The proposed Project includes the construction of a water treatment system on the existing Riverdale Well No. 5 site (APN 053-440-43) and on additional land (APN 053-440-45) purchased to accommodate space needed for the treatment system equipment. The additional land is approximately 0.5 acres in size and is located north of the well site; adjoining the existing northern property line. Well No. 5 is located in the community of Riverdale in Fresno County, CA. The well connects to the Riverdale Public Utility District water distribution network and supplies drinking water to the community of Riverdale.	<b>MND</b>	08/01/2012
2012071015	Butterfield Park Reclaimed Waterline Project No. 22-0811 Corona, City of Corona--Riverside The city of Norco is one of Western Municipal Water District's wholesale customers and receives Title 22 Tertiary Treated Recycled Water from the Western Riverside County Regional Wastewater Authority Water Reclamation Facility. Norco has an excess of reclaimed water supply and has agreed to sell up to 2.2 million gallons per day to the City. For this reason, the proposed project is the construction and operation of an approximately 2,402-foot 20-inch diameter ductile iron pipe (DIP) and approximately 2,475-foot 24-inch diameter high density polyethylene (HDPE) pipe for a total of 4,877 feet of piping to serve as a reclaimed water pipeline. To avoid open trenching across the Temescal Creek and the City's percolation ponds, horizontal directional drilling will be used in these areas. The reclaimed water pipeline underneath Temescal Creek will achieve a 25-foot minimum cover, and the reclaimed water pipeline underneath the percolation ponds will achieve a 20-foot minimum cover. Moreover, as the Project will facilitate the transfer of water between Norco and the City, the Project will also include inter-ties between Norco and City facilities, including metering, isolation valves, pipes, fire hydrants, blow-off valves, air vac valves, and connections to existing reclaimed water pipelines. In addition, rate of flow control and pressure reducing facilities are also proposed. Further, the design and construction of the Project will be in accordance with the City's "Standard Plans and Specifications for Sewer and Water" and applicable provisions of the Corona Municipal Code.	<b>MND</b>	08/01/2012
2012071006	Meirinho Dairy Expansion Project Merced County Merced--Merced Consolidation and expansion of an existing heifer facility and an existing dairy facility into one combined dairy to house 11,102 total animals, including 4,800 milk cows.	<b>NOP</b>	08/01/2012
2012071013	Cielo Vista Vesting Tentative Tract Map No. 17341 (the "Cielo Vista Project") Orange County Yorba Linda--Orange The project would include a maximum of 112 single-family detached residential dwellings on approximately 48 acres and would preserve approximately 36 acres as permanent open space. Access to the site would occur from existing public roadways and within existing dedicated right of way in the City of Yorba Linda. The project site is vacant, with the exception of several operational and abandoned oil wells and various dirt access roads and trails which traverse the	<b>NOP</b>	08/01/2012

	site.		
2011031091	Biosolids Handling and Energy Recovery Facilities Project Irvine Ranch Water District Irvine--Orange The IRWD proposes to implement modifications to the Michelson Water Recycling Plant Phase 2 and 3 Capacity Expansion Project to include a new Biosolids Handling Component (proposed project). The proposed project would integrate a new residuals-handling system at the MWRP, which would include biosolids processing, biogas management, and energy recovery systems. The proposed project would process residuals.	<b>SIR</b>	08/16/2012
2002021126	City of San Juan Bautista Infrastructure Improvement Program San Juan Bautista, City of San Juan Bautista--San Benito The City of San Juan Bautista proposes to operate a new 1.25-million gallon reservoir. The reservoir consists of a welded steel tank approximately 93 feet in diameter and 25 feet tall, and is located in the foothills immediately southwest of Highway 156. The City constructed the reservoir as part of a larger water system infrastructure upgrade project. This is to advise that the California Department of Public has issued a water supply permit 73-048-A00.	<b>NOD</b>	
2009021009	California Valley Solar Ranch & Twisselman Conditional Use Permits (DRC2008-00097, DRC2009-00004) San Luis Obispo County San Luis Obispo--San Luis Obispo The Project involves the development of an aggregate mine with a total Project area of 23.2 acres, 9.7 acres of which are already heavily disturbed by past excavation activities. The mine will be developed in three phases. Phase I is expected to last up to 2 years and will provide aggregate for the California Valley Solar Ranch Project (ITP 2081-2011-044-04) and potentially for the Topaz Solar Farm (ITP 2081-2011-041-04). Phases 2 and 3 are expected to last 20 to 30 years and will serve the need of the surrounding areas for aggregate material. The Project will permanently remove 14.62 acres of habitat, and temporarily impact 4.34 acres of habitat. The Project is expected to result in incidental take of San Joaquin kit fox ( <i>Vulpes macrotis mutica</i> ), San Joaquin antelope squirrel ( <i>Ammospermophilus nelson</i> ), and giant kangaroo rat ( <i>Dipodomys ingens</i> ) (Covered Species), species designated as threatened, threatened, and endangered respectively under the California Endangered Species Act (CESA). The ITP referenced above as issued by DFG authorizes incidental take of Covered Species, subject to various terms and conditions, including the requirement that all authorized impacts are fully mitigated.	<b>NOD</b>	
2010062025	Wild Goose Phase 3 Gas Storage Expansion Public Utilities Commission Gridley--Butte, Colusa This amendment to the Project involves improvements to the existing remote facility site, improvements to the Wild Goose/Pacific Gas and Electric (PG&E) Delevan Interconnect Site; up to 4 new hot-tapped natural gas pipeline connections at PG&E's Line 400/401; reconductoring of up to 6 miles of electrical distribution line within an existing right of way, and creation of 1.68 acres of wetland habitat at DFG Gray Lodge Wildlife Area for mitigation.	<b>NOD</b>

	(UPRR) for the former Battery Sales and Processing Company, Inc. (BASAPCO) lease site. The RAW was developed to address soil impacted with Lead. The proposed action is excavation of removal of lead on 27 South Linden Ave (East Parcel) to reduce the threat of human health and the environment and to provide a permanent solution that reduces the toxicity, mobility and volume of contaminated media.		
2012078034	California Delta Uploading Checker and System State Water Resources Control Board --Monterey The objective of the project is to develop a data transfer tool and upload water quality data to CEDEN and/or SWAMP databases. The purpose is to enable data sharing among numerous entities and checking data quality. The data transfer tool ensures a standardized method of data capture generated by grant projects.	<b>NOE</b>	
2012078035	Predictive Beach Water Quality Modeling Project State Water Resources Control Board -- The objective of the project is to develop and test statistical models to predict conc. of enterococci at 25 CA marine beaches. The purpose is to find successful models that predict when a health threat may occur at these beaches due to enterococci. The models could improve public health protection from elevated enterococci levels.	<b>NOE</b>	
2012078036	Replace Asphalt Concrete Surfacing 3E3601 Caltrans #4 --Solano Digout and repaving in both East and West directions. Work on existing fill that constructed the levee road. No original soil to be disturbed. All work between white line and median yellow line. No shoulders backing.	<b>NOE</b>	
2012078037	Superelevation Correction Caltrans #3 --El Dorado The purpose of this project is to improve the safety of SR 193 by establishing a consistent radius, improving the superelevation to current design standards, and adding shoulder width. These corrections are necessary to prevent future run off road collisions.	<b>NOE</b>	
2012078038	Bridge Maintenance Caltrans #3 --Mendocino, Lake The purpose of the project is to preserve the integrity and prevent further deterioration of the bridges.	<b>NOE</b>	
2012078039	Native Planting Project Caltrans #3 --Colusa This project proposes planting native trees, shrubs and possibly non-native drought tolerant species along interstate 5 from postmile 0.0 to 34.0 to improve overall scenic quality.	<b>NOE</b>

<b><u>Documents Received on Thursday, July 05, 2012</u></b>			
2012071016	Abercrombie Monterey County --Monterey Combined Development Permit consisting of: 1) a Coastal Administrative Permit to allow additions to an existing 2,325.8 sf one-story single family residence with a 449.8 sf detached garage to include: a 1,513.4 sf addition (master bedroom suite, laundry room, office and storage), a 284.7 sf covered front entry, a 208.9 sf covered patio, a new roof, the installation of a roof-mounted photovoltaic system, remove existing asphalt driveway and replace with permeable pavers, remove existing concrete patio and replace with tile patio and the addition of a fire pit; 2) Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat; 3) Coastal Development Permit to allow Ridgeline Development and 4) Design Approval.	<b>MND</b>	08/03/2012
2012071018	Ferro Ditch Channel Improvements Project Ventura County Watershed Protection District Ventura--Ventura The Ventura County Watershed Protection District's Ferro Ditch Channel Improvements Project involves increasing the capacity within the channel to provide flood protection from the 50-year storm. The Ferro Ditch (Channel) is an earthen and concreted rock riprap channel approximately 1,700 feet long, extending downstream and south of the Ferro Debris Basin (Basin) to Los Angeles Avenue.	<b>MND</b>	08/03/2012
2012071019	State Route 190 Rehabilitation Project Caltrans #6 --Tulare Caltrans proposes to rehabilitate SR 190 between the communities of Tipton and Poplar in Tulare County (post mile 0.0/8.0). The project includes pavement rehabilitation, widening the existing shoulders to Caltrans current roadway standards, adding left-turn channelization to improve access to northbound SR 99 from SR 190, and relocating utility poles.	<b>MND</b>	08/03/2012
2012071020	CDP 11-10 - El Camino Real Southbound Widening Carlsbad, City of Carlsbad--San Diego The project area is located on the west side of El Camino Real south of Kelly Drive and north of Crestview Drive. The project includes improvements to portions of the existing southbound side of El Camino Real between Kelly Drive and Crestview Drive to its ultimate buildout condition of three southbound lanes, a bicycle lane, curb, gutter, 5 foot sidewalk, and street lights within a 63 foot southbound right-of-way for a distance of approximately 1,600 lineal feet. Completing the buildout condition will also involve various utilities such as water and reclaimed water lines, storm drains, gas lines and sewer lines.  Earthwork necessary for the project includes approximately 144,000 cubic yards of cut and 19,000 cubic yards of fill. The majority of cut is along an existing cut slope south of Lisa Street and north of Crestview Drive. Stabilization of that cut requires the installation of a retaining wall approximately 250 feet in length and up to 8.5 feet in height. The wall will be finished with a naturalized boulderscape architectural treatment. The right-of-way is adjacent to Residential Low-Medium Density and Local Shopping Center Land Uses.	<b>MND</b>	08/03/2012

	(relocated from elementary school site) located at 330 Butano Cut-Off Road, Pescadero on the parcel of an existing high school. Emergency Coastal Development Permits have been approved for both project scopes due to health and safety concerns. The work outlined in the project scopes, below, have been completed under approved 2008 Emergency Coastal Development Permits and are now pending full Coastal Development Permit approval.		
2012072015	Bald Hills Road Rehabilitation Project (Post Miles 18.97-22.19) Humboldt County --Humboldt The proposed project consists of the rehabilitation of a 3.2-mile stretch of gravel surfaced roadway and various drainage improvements on Bald Hills Road between post miles 18.97 and 22.19. The project is designed to improve transportation facilities to AASHTO standards (to the extent possible) and improve road drainage.	<b>MND</b>	08/07/2012
2012071017	Valley Christian Schools Planned Development Rezoning San Jose, City of San Jose--Santa Clara The Valley Christian Schools Planned Development (PD) Rezoning Project consists of four main elements: 1) increase the allowed student population from 1,200 to 2,300 students; 2) allow inbound school bus access on Diamond Heights Drive; 3) remove the requirement for a transportation mitigation measure at Skyway Drive and Monterey Road; and 4) modify Santa Clara Valley dudelya plant mitigation measures.	<b>NOP</b>	08/03/2012
2012012039	Parklawn Sewer Infrastructure Stanislaus County Modesto--Stanislaus The proposal is a sewer infrastructure project within the unincorporated area of Stanislaus County's Parklawn Neighborhood which consists of ~ 85 acres located within the City of Modesto Sphere of Influence. Approximately three-hundred eight (308) residential parcels rely on septic tanks for treatment of sewage. The proposed project is in response to health and safety concerns associated with failing septic systems. The project will include the installation of a sewer system including ~13,755 linear feet of sewer main, a pump station, and street overlays which will connect in the City of Modesto's existing public sewer system.	<b>Neg</b>	08/03/2012
2012072006	2012 Regional Transportation Plan Update Lassen County --Lassen The LCTC, as the Regional Transportation Planning Agency (RTPA), is required by CA law to adopt and submit an updated Regional Transportation Plan to the CA Transportation Commission (CTC) and to the CA Department of Transportation every five years. The purpose of the RTP is to provide a vision of transportation facilities and services for the region, supported by transportation projects and/or new facilities. Rather, it identifies necessary improvements in order to provide the best possible circulation/transportation system to meet the mobility and access needs of the entire region.	<b>Neg</b>	08/03/2012

2012072009	Housing Element Trinity County --Trinity This project is to complete the update of the County's Housing Element for the Period of 2009-2013. An original submittal was never appropriately completed.	<b>Neg</b>	08/03/2012
2012072013	Hotel Parking Project Tuolumne Rancheria --Tuolumne Note: Per Lead Agency  The project includes an approximately 4.14-acre hotel overflow parking area with an approximately 0.53-acre open space area.	<b>Oth</b>	07/21/2012
1988050215	Silva Valley Parkway Interchange with U.S. Highway 50 El Dorado County --El Dorado The 71-acre Silva Valley Parkway Interchange Project consists of construction of a new interchange along Highway 50 between El Dorado Hills Boulevard and Latrobe Road Interchange and the Bass Lake Road Interchange, near the existing Clarksville Road undercrossing. The purpose of the project is to accommodate planned growth to accommodate commercial and residential development within the immediate areas surrounding the proposed interchange. A Supplemental Environmental Impact Report was approved in 2011.	<b>NOD</b>	
2001072089	West Shore Bike Path Project: Homewood Area Tahoe City Public Utility District --Placer The project consists of constructing a multi-purpose trail generally following SR 89 through a portion of the Homewood community on the west shore of Lake Tahoe. The trail segment would be approximately 5,040 feet (0.95 mile) in length and would be constructed between post miles 2.2 and 3.1, connecting two existing segments of Class 1 trail. The Class 1 trail would be 12 feet wide, consisting of 8 feet of pavement (two 4-foot striped lanes) and 2-foot unpaved graded shoulders on either side. Crosswalks would be striped at trail crossings on Fern Street, Oak Street, Trout Street, Silver Street, and Fawn Street. Between Oak Street and Trout Street, the trail would run over a 60-foot bridge constructed to span Madden Creek.	<b>NOD</b>	
2005102080	Lake Merritt Channel Improvement Project Oakland, City of --Alameda The project includes the removal of culverts and widening of the Lake Merritt Channel to improve tidal flow and flushing, creation of the tidal marsh along the edges of Lake Merritt channel and the introduction of native plant species to restore native habitats along the channel and adjoining areas in City of Oakland, Lake Merritt and 12th Street. The California Department of Fish and Game (DFG) is executing lake and Streambed Alteration Agreement Number 1600-2011-0343-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Jose Martinez, City of Oakland Public Works.	<b>NOD</b>

2009102072	County Road 29 Bridge (22C-0104) Over Salt Creek Replacement Project Yolo County Winters--Yolo The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2012-0006-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Yolo County Department of Planning and Public Works.	<b>NOD</b>	
2011101015	China Creek Bridge Replacement at Road 425B Madera County --Madera The Project is limited to the Replacement and expansion of the existing Road 425B Bridge over China Creek. The new 52-foot long, 64 feet 5-inches wide bridge will be constructed using precast, pre stressed, voided slab concrete that will span the creek without the need for center piers. The bridge will be supported on seat abutments and spread footings. To reduce the potential for erosion or scouring a 2-foot thick rock slope protection will be installed and extend to the limits of the disturbed creek bank. The rock slope protection will extend approximately 10 feet upstream and 40 feet downstream along the east bank of China Creek. The new bridge will be constructed in two (2) phases to allow through traffic during construction. The existing Road 425B Bridge will be removed as part of the overall Project.	<b>NOD</b>	
2011102049	Alum Rock Park Bank Repair and Stream Restoration Projects San Jose, City of San Jose--Santa Clara The City of San Jose is proposing to implement 12 district stream bank and restoration activities along Upper Penitencia Creek in Alum Rock Par. Proposed activities include two bridge abutment repairs and ten bank repair, flood restoration, and fish passage improvement projects. Several of the specific project elements are intended to restore riparian and aquatic habitat, reduce erosion and sedimentation in the creek and repair damage to historic structures.	<b>NOD</b>	
2012032034	Remedial Action Plan for the former North Beach and Fillmore Manufactured Gas Plant (MGP) Sites Toxic Substances Control, Department of San Francisco--San Francisco DTSC is considering approval of a Remedial Action Plan for the former North Beach and Fillmore Manufactured Gas Plant (MGP) Sites (hereafter "the Sites") pursuant to Health & Safety Code, Division 20, Chapter 6.8. The RAP was prepared by Haley & Aldrich on behalf of PG&E, the Project Sponsor. The RAP consists of remedial activities to address MGP-impacted soil and soil gas that may be present on private properties at the Sites. Contaminants of potential concern include benzene, cyanide, ethyl benzene, polycyclic aromatic hydrocarbons (PAHs, including naphthalene), toluene, and xylenes, Property investigation results have shown that some properties exhibit soil impacts from former MGP operations, while other properties exhibit no apparent MGP-related soil impacts. Properties requiring soil and/or soil gas remediation, due to the presence of MGP residues, would be remediated using one or more of the preferred remedial alternatives presented in the RAP. Remedial activities at the Sites are expected to begin in late spring/summer 2012.	<b>NOD</b>

2012042041	<p>West County Detention Center Solar Array Installation and Restoration Project Contra Costa County Richmond--Contra Costa</p> <p>Contra Costa County intends to install photovoltaic equipment at the West County Detention Center. The photovoltaic equipment will be installed within the existing detention center parking lot which is approximately 2.8 acres. The equipment will consist of solar panels, brackets, wiring, electric meters and other associated equipment required to provide solar-electric energy to the facility. The equipment will be installed in six solar panel arrays of approximately 3,263 modules. The arrays are typical carport style, 9 feet high and will not require the removal of any parking stalls and will provide a shaded parking area. Limited removal of native and non-native landscaping trees and shrubs may be necessary to ensure the arrays are not shaded by vegetation.</p> <p>Landscaping will be installed around the perimeter of the parking lot farther from the proposed arrays to provide screening of the detention center without shading the arrays.</p>	<b>NOD</b>	
2012052009	<p>Bay Area Rapid Transit (BART) Fremont Line Operability Retrofit Project San Francisco Bay Area Water Transit Authority Oakland--Alameda</p> <p>To ensure public safety and protect the capital investment represented by the BART system, BART is upgrading the most heavily used and most vulnerable portions of the original system, which were constructed in 1972 using the latest seismic standards available at the time. The Fremont Line Operability Retrofit Project (Project) would upgrade the Fremont Line, which is a heavily used portion of the BART system, to an "Operability" Level of retrofit. For this level of seismic upgrade, facilities would be retrofitted to a degree at which BART would be able to resume operations shortly after a major earthquake. Operability retrofits would involve construction activities that primarily consist of strengthening the existing columns and footings that support aerial structures and stations. Ground disturbance around each pier to be retrofitted would take place within a 10-foot radius of the pier, on-site construction equipment would be placed within a 20-foot radius of each pier.</p>	<b>NOD</b>	
2012079004	<p>Pinnacles National Monument - West District Public Health, Department of --Monterey</p> <p>The California Department of Public Health (Department), as the Responsible Agency, a water supply permit to operate will be issued. The proposed project included the construction of 6 new buildings, a parking area, water storage tanks and infrastructure, public restrooms, an operations building 3,509 square feet which will include a cache for fire suppression equipment and emergency medical supplies. Utilities to be constructed include partially buried water tanks, one leach field plus connecting pipelines, communications and electrical wiring. The water system will require excavation of about 350 linear feet of buried pipe an area about 50 by 100 for the tanks that will be accessed by a temporary road.</p>	<b>NOD</b>	
2012079005	<p>Topper Lane Minor Subdivision; 3200-21171 (TPM) San Diego County --San Diego</p> <p>The project is a residential subdivision of 1.71 acres into 4 lots. The project site is located at Topper Lane just south of Pepper Drive in the Lakeside Community Planning area, within unincorporated San Diego. The site is subject to the General Plan Land Use Designation Village Residential (VR-3). Zoning for the site is RS;</p>	<b>NOD</b>

	Single Family Residential. The site is currently vacant. Access would be provided by a private road connecting to Pepper Drive, a publicly maintained road. The project would be served by sewer and imported water from the Helix Water District. No extension of sewer or water utilities will be required by the project.		
2012079006	Lake or Streambed Alteration Agreement No. 1600-2012-0034-R1 for Timber Harvesting Plan (THP) 1-10-016MEN "Riley Blue" Fish & Game #1 --Mendocino The Department of Fish and Game (DFG) is issuing an agreement for a total of 12 encroachments: 4 culvert replacements, 2 crossing improvements, and 5 culvert installations and 1 Class II water drafting site.	<b>NOD</b>	
2012079007	Lake or Streambed Alteration Agreement (Agreement) No. 1600-2012-0081-R1, Kibesillah Coastal Trail Foot Bridge Stream Crossings Fish & Game #1 --Mendocino The Department of Fish and Game (Department) is issuing and Agreement pertaining to three encroachments: a) completed construction of a 25 foot long boardwalk crossing at pm 72.53, b) completed construction of a 28 foot long footbridge crossing at pm 73.02 and c) completed construction of at 24 foot long footbridge crossing at pm 73.11. Some vegetation has been removed as a result of this project.	<b>NOD</b>	
2012078042	Antonelli's Reconstruction Fish & Game #3 Santa Cruz--Santa Cruz The Project is limited to the repair and reconstruction of a 10 foot by 9 foot wooden observation landing and stairway on the west side of Antonelli pond near the kiosk on Delaware Avenue in the City of Santa Cruz. The Project includes a small retaining wall with fill. Currently, the landing and staircase are in disrepair, such that they are unsafe for public use. An unauthorized trail down to the shoreline has been created to bypass the staircase and landing. The unauthorized trail has caused some erosion of soils into the pond. The Project will use only hand tools. No vegetation will be removed as a result of the Project. Local material will be used as fill. Issuance of a Streambed Alteration Agreement Number 1600-2012-0149-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2012078043	Outfall Improvements Phase 6 Fish & Game #3 Martinez--Contra Costa The project is limited to stabilization of a submarine sanitary sewer outfall/diffuser and repair of in-water manhole access structures. To stabilize the outfall, approximately 75 linear feet (50 cubic yards) of 6- to 12-inch-diameter crushed ballast rock will be placed around the diffuser (the portion of the pipe that rests on the channel bed). Repair of the in-water manhole access structures will consist of removal of the deteriorating grits, planking, joists, braces, ladders and hardware that make up the support structure for the manholes, and replacement of these structural elements with fiberglass replacement parts. The existing piles will be utilized, and no new piles will be driven. Issuance of Streambed Alterations Agreement Number 1600-2011-0431-03 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>

2012078044	I-8 Sand Hills Over-crossing Pavement Rehabilitation Project Caltrans #11 --Imperial Work will include milling and overlay of the existing AC pavement at the on and off ramps, upgrade of metal beam guardrail, replacing dikes, and installing a new down-drain located on the north side of interstate 8 to prevent scour and maintain pavement life.	<b>NOE</b>	
2012078045	Agreement 2012-0055-R4 - L44-1008, HP Gas Line Replacement Project Fish & Game #4 Avenal--Kings The Permittee will install and replace 100 feet of 10-inch high pressure underground gas line by trenching through and across Avenal Creek. A 2-foot wide, 100-foot long, and 8-foot deep trench will be excavated using an excavator and backhoe to install the replacement segment of pipeline. A staging area of up to 500 square feet will be utilized along the pipeline right-of-way and access road north of Avenal Creek. The trench will be filled in and reseeded with topsoil that was installation. The existing pipeline is exposed in the creek; it will be filled with concrete slurry and abandoned in-place. All work with the stream will occur during naturally dry condition, and no riparian vegetation will be trimmed or removed.	<b>NOE</b>	
2012078046	Agreement No. 2012-0035-R4; Line 4-1088 Maintenance, Span 137 and Span 140 - San Luis Obispo County Fish & Game #4 --San Luis Obispo The Project will conduct maintenance along Line 44-1008at Spans 137 and 140. Work will include inspection, cleaning, and wrapping of the pipeline at each span. In addition, approximately 2 to 3 linear feet of soil will be excavated at each end of the spans. where they contact the ground, to allow inspection of the pipe and installation of insulation wrapping. Excavated soil will be temporarily staged on tarpaulins and in a location where it cannot enter "Waters of the State". Along the span, the pipeline will be inspected, cleaned, and wrapped with tarpaulins placed underneath to protect the streambed. All construction activities will be conducted while the stream channels are dry.	<b>NOE</b>	
2012078047	Agreement 1600-2012-0041-R4 - Directional Boring 7-003-13GP Fish & Game #4 --Mariposa The Project consists of horizontal directional drilling and installation of two (2) High-density polyethylene utility conduits. The conduits will be no less than 3.5 feet below the bottom of the stream and the entry and exit points will be located not less than 75 feet from the center of the channel.	<b>NOE</b>	
2012078048	Agreement 1600-2012-0050-R4 - Crystal Falls Lake Maintenance Fish & Game #4 Sonora--Tuolumne The Project consists of limited to general maintenance of the community owned lake including: removal of tules around the lake; reclamation of beach sand using a small tractor during naturally dry conditions; debris removal from pond (floating lumber, tree branches, etc.); and cleanup of dead grasses on beaches and island.	<b>NOE</b>

2011022020	Mammoth Pacific I (MP-1) Replacement Project Mono County --Mono Note: Extended per lead  The proposed project would replace the aging MP-1 geothermal power plant with a new, more modern and efficient binary power plant (referred to as "M-1") while maintaining the existing geothermal wellfield, pipeline system and ancillary facilities. No new offices or other structures are proposed, with the exception of a small substation to be placed on the north side of the project site. The M-1 plant would be located approximately 500 feet east of the existing MP-1 plant. The M-1 replacement power plant is anticipated to increase the net electricity generation by 34% while utilizing the same geothermal resources for the existing MP-1 facility. During M-1 plant startup operations, the existing MP-1 plant would continue to operate until the new M-1 plant becomes commercial, after which time the applicant would close and dismantle the old MP-1 plant becomes commercial, after which time the applicant would close and dismantle the old MP-1 plant and would utilize the former plant location for equipment storage. The transition period during which both the MP-1 and M-1 operations would overlap would be a maximum of two years from the date the M-1 plant begins startup operations.	<b>EIR</b>	08/20/2012

2012071007	Clearwater Development / Applied Silicone Corporation Facility Expansion Santa Paula, City of Santa Paula--Ventura Applied Silicone Corporation is proposing expansion of its existing facility (the "project") to the westerly adjacent vacant property. Applied Silicone manufactures silicone raw material to medical device manufacturers. Business growth necessitates additional buildings for their operations. The project involves the phased construction of three new industrial buildings each approximately 6,000 sf in area and a 2,034 sf caretaker's residence. Use of the property would be for industrial use and the caretaker's residence is for residential use. Fifty-two off-street parking spaces are included with the project.	<b>MND</b>	08/06/2012
2012071024	Canal School Road Bridge Replacement Project Merced County Gustine--Merced The replacement bridge will span Newman Wasteway and will consist of a cast-in-place, reinforced concrete, flat slab bridge. The proposed project will be constructed to meet American Association of State Highway and Transportation Officials (AASHTO) design requirements; specifically a minimum bridge deck clear width of 40 feet will be used. Bridge design shall be consistent with Load Resistant Factor Design (LRDF). Existing freeboard in the Newman Wasteway will be maintained. The proposed project consists of a three-span reinforced concrete flat slab bridge that will be 152.5 feet long and 42.9 feet wide, with an identical elevation as the existing bridge. The proposed project requires two bent sections within the channel. Each section is supported by six piles.	<b>MND</b>	08/06/2012
2012072011	MNS11-0009 Lands of Bachman Sonoma County Petaluma--Sonoma Minor Subdivision of 166 acres into two parcels of 99.61 acres and 63.36 acres in size with a dedication of 3.2 acres of Lakeville Highway to the County of Sonoma. SR, VOH, BR, F2	<b>MND</b>	08/06/2012
2012071025	Zoning Code Amendment - Drive Thru Facilities Santa Paula, City of Santa Paula--Ventura The Project involves amending the Santa Paula Development Code for Drive Through Facilities. 	limitation of drive-through facilities within 30 feet of residential uses. The proposal would omit the aforementioned sections from Chapter 16.66. The proposal would affect all existing and future drive-through facilities citywide.		
2012072012	Fortuna Maintenance Station Caltrans #3 Fortuna--Humboldt The scope of the project includes the excavation and off-site disposal of soil that is contaminated by petroleum products which leaked from previously removed underground storage tanks. The soil, aggregate and groundwater will be disposed of at certified disposal sites. The estimated depth of excavation is between three and eight feet. After excavation and removal of the contaminated soil, imported fill will be used as backfill. The removed asphalt structural section will also be reconstructed as part of the scope of this work. Incidental work at the site may include replacement of existing utilities, soil testing, sheet pile installation and monitoring well abandonment. Construction is expected to last approximately four weeks.	<b>Neg</b>	08/06/2012
2012071026	Amendments to HD OBD and OBD II Regulations Air Resources Board -- Note: Functional Equiv Doc  Amendments to HD OBD and OBD II regulations will affect current requirements that have not yet been implemented. The amendments will consist of short term interim delays in implementing start dates of a few emission threshold diesel monitoring requirements (due to technology development delays); changes to the engine/vehicle software (includes changes to the OBD system algorithms using existing hardware already on the engines/vehicles); enforcement requirements modifications; and OBD software structure and diagnostics standardization. These changes do not result in any physical changes to the environment and will help ensure that forecasted emission reduction benefits from adopted engine emission standards programs are achieved.	<b>Oth</b>	08/23/2012
2012072014	Amendments to the Verification Procedure, Warranty and In-Use Compliance Requirements for DECS Air Resources Board -- Note: FED  The proposed amendments to the Verification Procedure, Warranty and In-Use Compliance Requirements for DECS (Verification Procedure) consist of changes to the in-use compliance requirements, minor administrative and procedural changes that will clarify the process; the addition of recall provisions; and changes to monitoring, testing, and reporting requirements for Diesel Emission Control Strategy (DECS) manufacturers who voluntarily participate in the DECS verification process. The proposed amendments to the Verification Procedure will not affect the stringency or the effectiveness of the existing verification process which is currently used by ARB staff to evaluate diesel emission control strategies.	<b>Oth</b>	08/23/2012

2007121098	Kettleman City Surface Water Treatment Plant and Commercial Water Storage Tanks Kettleman City Kettleman--Kings The Kettleman City Community Service District is proposing to construct a Surface Water Treatment Plant and a Commercial Water Tank Facility. The proposed project will be constructed in two phases and will be connected via pipeline to the existing Community Service District water lines.	<b>NOD</b>	
2009021009	California Valley Solar Ranch & Twisselman Conditional Use Permits (DRC2008-00097, DRC2009-00004) San Luis Obispo County San Luis Obispo--San Luis Obispo The Project involves the development of an aggregate mine with a total Project area of 23.2 acres, 9.7 acres of which are already heavily disturbed by past excavation activities. The mine will be developed in three phases. Phase I is expected to last up to 2 years and will provide aggregate for the California Valley Solar Ranch Project (ITP 2081-2011-044-04) and potentially for the Topaz Solar Farm (ITP 2081-2011-041-04). Phases 2 and 3 are expected to last 20 to 30 years and will serve the need of the surrounding areas for aggregate material. The Project will permanently remove 14.62 acres of habitat, and temporarily impact 4.34 acres of habitat. The Project is expected to result in incidental take of San Joaquin kit fox ( <i>Vulpes macrotis mutica</i> ), San Joaquin antelope squirrel ( <i>Ammospermophilus nelson</i> ), and giant kangaroo rat ( <i>Dipodomys ingens</i> ) (Covered Species), species designated as threatened, threatened, and endangered respectively under the California Endangered Species Act (CESA). The ITP referenced above as issued by DFG authorizes incidental take of Covered Species, subject to various terms and conditions, including the requirement that all authorized impacts are fully mitigated.	<b>NOD</b>	
2010062025	Wild Goose Phase 3 Gas Storage Expansion Public Utilities Commission Gridley--Butte, Colusa This amendment to the Project involves improvements to the existing remote facility site, improvements to the Wild Goose/Pacific Gas and Electric (PG&E) Delevan Interconnect Site; up to 4 new hot-tapped natural gas pipeline connections at PG&E's Line 400/401; reconductoring of up to 6 miles of electrical distribution line within an existing right of way, and creation of 1.68 acres of wetland habitat at DFG Gray Lodge Wildlife Area for mitigation.	<b>NOD</b>	
2011072011	Breuner Marsh Restoration and Public Access Project East Bay Regional Parks District --Contra Costa The 150-acre Breuner Marsh project area at Point Pinole on San Pablo Bay, is the focus of the restoration and public access Project. Existing site structures, debris, minor quantities of hazardous materials, and existing non-native vegetation would be removed. The southern portion of the site would be re-graded, and replanted. Public access features, including the Bay Trail and parking would be built. Existing wetland areas would be enhanced by excavation new channels to connect them to the Bay and allow tidal flooding. Material removed from wetland areas would be used to build upland areas with gentle slopes of transitional zone habitat that would become future tidal marsh with sea level rise. Restoration of the mouth of Rheem Creek by lowering the level of the north bank is an optional Project	<b>NOD</b>

	component.		
2012051047	Hurkey Bridge Replacement Project Caltrans #8 --Riverside This project proposes to replace the existing two-lane Hurkey Creek Bridge (Br. No. 56-0181) on SR-74 from PM 62.5 to PM 63.4 in Garner Valley near Mountain Center, an unincorporated community in Riverside County, CA. The proposed project consists of demolishing and removing the existing bridge and replacing it with a new bridge, widening the roadway to two 12-foot lanes (one in each direction) and widening the road shoulders to 8 feet on each side. In addition, metal beam guardrail and four wing walls/retaining walls would be constructed on both sides of the highway and on both the approaches and departures.	<b>NOD</b>	
2012078064	Butte Water District Hydrokinetic Turbine Application Butte Water District --Butte The project is a two month pilot of a new hydrokinetic turbine technology that generates electricity from water currents. This low-RPM, low-impact turbine will not affect that canal's water flow or quality, and will generate clean, emission-free electricity that will be directly connected to a local load for the pilot duration.	<b>NOE</b>	
2012078065	Alamo Farms #1 - Project No. Y03-03, SAA 1600-2012-0034-R2 Fish & Game #2 --Colusa The project is limited to the addition of a self-cleaning fish screen and retrieval system, as well as all related support structures and control facilities.	<b>NOE</b>	
2012078066	Jahant Slough Farm Road Improvement Project, SAA 1600-2012-0054-R2 Fish & Game #2 --San Joaquin The project consists of the improvement of an existing farm road crossing of Jahant Slough. Four 45+/- foot long 24 inch diameter pipes will convey water under the elevated road. Clean fill dirt will be used to fill over the pipes. Rock Slope protection (11+/- cubic yards) will be applied to the road slope in the vicinity of the culverts to stabilize the road. An existing irrigation mainline across the slough will be raised above the culvert pipes, along the downstream edge of the road fill slope.	<b>NOE</b>	
2012078067	Hangtown Creek Trunk Sewer Line Relocation Project Placerville, City of Placerville--El Dorado This project consists of replacing sewer pipeline sections that are deteriorating and poorly located for maintenance, aesthetics, and water quality protection. Approximately 450 feet each of 6-inch and 16-inch pipelines with three collection laterals and four manhole will be removed from Hangtown Creek. A new 18-inch pipe will be installed within an existing public right of way. Laterals will be replaced crossing the stream, and manholes will be installed adjacent to the stream in a public easement.	<b>NOE</b>	
2012078068	Thomas Olaeta Teacher Lounge Project Atwater Elementary School District --Merced Replacement of a 960 square feet building within the existing Thomas Olaeta School site.	<b>NOE</b>

2012078070	Betts-Kismat-Silva Preserve Phase 2 Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Sacramento--Sacramento, Sutter The purpose of the habitat maintenance project is to provide optimal habitat features for the Giant Garter Snake by periodically maintaining overgrown marsh vegetation and maintaining adequate water depths in the created Giant Garter Snake managed marsh.	<b>NOE</b>	
2012078071	Morro Bay Agricultural Water Quality Enhancement Program Coastal San Luis Resource Conservation District Morro Bay--San Luis Obispo The Program will work with willing agricultural landowners in priority impaired reaches of the Los Osos Creek, Warden Creek, Warden Lake and Chorro Creek watersheds to complete design and implementation of agricultural water quality improvement projects that will result in significant reductions in nutrient, pathogen and sediment loading to Morrow Bay National Estuary. This project is funded by the State Water Resources Control Boars's Clean Water Act 319h grant program.	<b>NOE</b>	
2012078072	Nature and River Trail Improvements Parks and Recreation, Department of --Del Norte Upgrade existing facilities at Jedediah Smith State Park to comply with the Americans with Disabilities Act (ADA) and meet requirements in the "California State Parks Accessibility Guidelines".	<b>NOE</b>	
2012078073	Approval of the Removal Action Workplan for the Former Southland Steel Facility Toxic Substances Control, Department of Los Angeles, City of--Los Angeles This project involves DTSC's approval of a Removal Action Workplan (RAW) which describes response actions to address site soil impacted with Polycyclic Aromatic Hydrocarbons (PAH's), Arsenic, and Lead at the former Southland Steel facility (Site). The proposed response actions consists of the excavation and offsite disposal of up to 2,500 cubic yards (3,750 tons) of contaminated soil to achieve commercial/industrial cleanup goals. The expected excavation depth is between the top two and five feet. The removal action project proposes excavation and transport of impacted soil from the former Southland Steel facility to an offsite facility for treatment and disposal. The proposed removal of contaminated soil will be conducted in accordance with the methods and procedures presented in the document entitled "Removal Action Workplan (RAW)". The Site is vacant dirt lot therefore no cleaning no clearing or grubbing activities will be required prior to soil excavation.	<b>NOE</b>	
2012078074	Morro Bay Agricultural Water Quality Enhancement Program Coastal San Luis Resource Conservation District Morro Bay--San Luis Obispo The Program will work with willing agricultural landowners in priority reaches of the San Luis Obispo, Warden Creek, Warden Lake and Chorro Creek watersheds to complete desitgn and implementation of agricultural water quality improvement project that will result in significant reduction is nutrient, pathogen and sediment	<b>NOE</b>

2009102100	Safeway Shopping Center - College and Claremont Avenues File No. ER09-0006 Oakland, City of Oakland--Alameda FYI Final 1 HC	<b>FIN</b>	
	The project would involve demolition of the existing 25,000-square-foot store, parking lot and service station and construction of a two-story, approximately 64,860-square-foot building that would contain a 50,400-square-foot Safeway supermarket, about 11, 500 square feet of ground-floor retail spaces (for approximately eight retail shops), and a partially below-grade parking garage with about 173 parking spaces.		
2009112008	Safeway Shopping Center - College and Claremont Avenues File No. ER09-0006 Oakland, City of Oakland--Alameda FYI Final 1 HC	<b>FIN</b>	
	Safeway, Inc. (project applicant) proposes to replace an existing Safeway Store and closed gasoline service station with a two-story building housing a larger Safeway Store, seven separate ground-floor commercial/retail shops and a restaurant, at 6320 College Avenue, at the intersection with Claremont Avenue in the Rockridge District of Oakland, California.		
2012042068	Headquarter House RV Park (PCPA 20110352) Placer County Auburn--Placer Note: Shorten Review	<b>MND</b>	07/30/2012
	The project proposes to approval of a General Plan Amendment, Rezone, Conditional Use Permit, and Design/Site Agreement to construct a 51-unit recreational vehicle (RV) park with a general store and a manager's unit on a five-acre portion of an approximately 30-acre property.		
2012071027	Spicer City Juice Processing Plant Expansion Project Regional Water Quality Control Board, Region 5 (Central Valley) --Kern	<b>MND</b>	08/07/2012
	The Spicer City Juice Processing Plant (Plant) is at 23145 Lerdo Highway between Buttonwillow and Lost Hills in Kern County. The Plant seasonally produces fruit juice concentrate from pomegranates. The proposed expansion would allow the Plant to process juice from other fruits and operate most of the year, increasing wastewater flows from under 0.1 million gallons per year to as much as 6.7 million gallons per year. The associated wastewater discharge would be to unlined ponds prior to reuse for irrigation of about 2,200 acres of crops.

2011122080	Airport Sewer Infrastructure Stanislaus County Modesto--Stanislaus The proposal is a sewer infrastructure project within the unincorporated area of Stanislaus County's Airport Neighborhood, which consists of approximately 150 acres located within the City of Modesto Sphere of Influence. Approximately four-hundred eighty-one (481) residential parcels rely on septic tanks for treatment of sewage. The proposed project is in response to health and safety concerns associated with falling septic systems. The project will include the installation of a sewer system with approximately 23,000 linear feet of sewer main, a pump station (if necessary), and street overlays and will connect into the City of Modesto's existing public sewer system.	<b>Neg</b>	08/07/2012
2009032007	General Plan 2030 Santa Cruz, City of Santa Cruz--Santa Cruz The City of Santa Cruz Draft General Plan 2030 is an update of the City's existing General Plan and that was adopted in 1992 and subsequently amended. The draft General Plan 2030 extends to the year 2030 and includes the following elements required by State Law: Land Use; Circulation, Conservation, Open Space, Safety, and Noise, and also includes optional subjects related to community design and economic development. Goals, policies and actions are provided for each element. A Land Use Map is provided with three new mixed use land designations applied to the following major transportation corridors: Mission Street, Ocean Street, Soquel Avenue, and Water Street. Other land use designations are largely unchanged from the 1900-2005 General Plan, except for several specific sites. Buildout projections were estimated to provide an estimate of the amount of development that could occur by 2030. The Local Coastal Plan will be updated as a separate document.	<b>NOD</b>	
2010031104	SR-138 Widening Project Caltrans #8 --San Bernardino Widen the existing State Route 138 from 2-lanes to 4-lanes with a 14 foot media, and realign portions of the mainline from State Route 18 in Los Angeles County (PM 69.3/74.9) to Interstate 15 in San Bernardino County (PM 0.0/R15.2). The proposed improvements will meet the transportation demands and increasing capacity and improving operational efficiency.	<b>NOD</b>	
2010042086	Paradise Summit Planned Unit Development (PUD08-001) and Tentative Subdivision Map (TSM08-0006) Butte County --Butte A phased Tentative Subdivision Map to divide +/- 333 acres into 312 single-family residential parcels and rezone of the site to Planned Unit Development (PUD) to allow for clustering of the residences within a +/- 137-acre area of the site, while preserving +/- 195 acres as open space. Open space areas will contain a pedestrian trail system, wetland reserve, a deer herd migration/movement corridor, and wastewater disposal area. The project includes domestic water from Del Oro Water Company, a community wastewater system, and gas and electric from PG&E.	<b>NOD</b>

2002101020	Heritage Fields 2012 - General Plan Amendment and Zone Change Irvine, City of Irvine--Orange Note: Review Per Lead.	<b>EIR</b>	08/24/2012
	Between 2003 and 2011, the City approved the "2011 Approved Project," which includes residential and non-residential development in Existing PAs 51 and 30. As approved by the City, the 2011 Approved Project includes a total of 4,894 residential units and 6,585,594 sf of non-residential uses located throughout Existing PAs 30 and 51, including the Great Park and other parcels. The 2011 Approved project was analyzed in a series of documents.		
2011022044	Brighton Landing Specific Plan Vacaville, City of Vacaville--Solano Prepared in November 2011, the Brighton Landing Specific Plan is intended to guide future development on the approximately 217-acre Specific Plan area east of Leisure Town Road to the west, Elmira Road to the north, Pacific Gas and Electric (PG&E) towers to the east, and agricultural land to the south. The Specific Plan envisions a single-family residential neighborhood on the site, with some supporting uses such as a private high school, a public elementary school, public open space, and an off-site detention basin. In addition to describing the proposed physical development, the Specific Plan also contains goals, policies, and programs relating to land use, transportation, recreation, open space, community design, public facilities, and community services and facilities.	<b>EIR</b>	08/23/2012
2012011029	Beacon Photovoltaic Project (PP12213); CUP 11, Map 152 (EIR 13-11 JLB) Kern County Mojave, California City--Kern The Beacon Photovoltaic Project by Beacon Solar LLC (proposed project) would develop photovoltaic (PV) solar facility with about 972,000 PV solar panels that would generate 250 megawatts of renewable electrical energy on a total 2,301 acres of undeveloped and previously disturbed land, including 2,298 acres of solar arrays and 3 miles of transmission lines, in unincorporated, southeastern Kern County (within Sections 4, 8 & 9, Township 31 S, Range 37 E, MDB&M). The majority of the project site is located within the Kern County General Plan area and the northernmost portion of the site is located within the Cantil Interim Community Plan area. The project site is located four miles from CA City, 15 miles north of the unincorporated town of Mojave, and less than one mile southwest of the unincorporated town of Cantil/Rancho Seco. The project site and the surrounding areas are primarily undeveloped disturbed lands, formerly used for agricultural activities. SR 14 runs near the western border of the project site, and an existing Southern/Union Pacific rail line runs through the project site. An existing Los Angeles Department of Water and Power electrical transmission line runs roughly in parallel to SR 14 about one mile further to the west. The project proposes to connect to the existing LADWP Barren Ridge substation located one mile to the southwest. The Honda Proving Ground, an automotive test track, is located roughly 3/4 mile east of the project site. In addition, a Southern CA Edison (SCE) distribution line crosses the property.	<b>EIR</b>	08/23/2012

The project proponent requests approval of a CUP to allow for the construction and operation and operation of solar electrical generating facility in the A (Exclusive Agriculture) and A-1 (Limited Agriculture) zone districts. Encroachment

2009052019	SR 99 / Elverta Road Interchange Project Sacramento County Sacramento--Sacramento The County of Sacramento (Applicant) proposes to upgrade and construct and interchange at the State Route 99 / Elverta Road Intersection. The State Route 99 / Elverta Road Intersection; widen Elverta Road to four through lanes within the State access control limits (Elverta is currently a two lane road); realign the existing southbound lanes of SR 99 to fit under the over-crossing; construct a 6-foot side sidewalk on the north and south sides of Elverta road; realign the existing drainage/irrigation canals just outside the proposed State right of way limits; install underground and overhead power lines; and acquire approximately 41 acres for road right of way.	<b>NOD</b>	
2010081032	Treatment Plant for POTW Effluent for Recycling & Recharging Fractured Bedrocks Using Dual Filtration Tech. Idyllwild Water District --Riverside The proposed project is for the construction of a 40gpm Tertiary Wastewater Treatment Plant in the Idyllwild Water District. The project will utilize the treated wastewater effluent produced by the Publicly Owned Treatment Works (POTW) in the Water District and will treat & disinfect it to Tertiary Standards so that the water can be reused for irrigation & landscaping by the customers of the Water District. New construction will include a new tertiary treatment plant next to the existing POTW and pressurized pipeline distribution system. In addition to normal operations, the project is expected to provide landscaping/irrigation/agriculture water during water emergencies and droughts.	<b>NOD</b>	
2011081095	Digital 395 Middle Mile Project Public Utilities Commission Bishop--Mono, Inyo, Kern, San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 (SAA # 1600-2011-0252-R6) of the Fish and Game Code to the project Permittee, California Public Utilities Commission. Permittee will install approximately 593 miles of middle-mile fiber-optic cable and associated infrastructure, to provide broadband service in unserved and underserved areas of the Eastern Sierra. The project includes: construction of a new, approximate 479-mile backbone fiber optic cable route; construction of approximately 62 miles of new distribution lines: placement of approximately 52 miles of fiber-optic cable in the existing utility conduit; and construction of 17 nodes or prefabricated buildings to support wireless system. Approximately 333 DFG jurisdictional waterway locations will be crossed by the proposed project. Permittee will conduct trench and plowing across 128 group ephemeral drainages and horizontal directional drilling across 127 perennial drainages and 78 wetlands.	<b>NOD</b>	
2011121030	Allow a Private Use Airstrip and Related Improvements Fresno County Fresno--Fresno Allow a private use airstrip and related improvements including a 40,000 s.f. tarmac and a 10,000-gallon fuel storage tank on an approximately five-acre portion of a 160.85 acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel site) Zone District. The project site is located at the southeast corner of E. Jefferson and E. Del Rey Avenues along the southern boundary of the unincorporated community of Del Rey in Fresno County (SUP.DIST.: 4) (APN: 350-031-635).	<b>NOD</b>

2012071035	Project Suspended per lead - Santa Ana River Power Relocation Project Riverside, City of Riverside--Riverside Note: Project suspended per lead on 08/03/12.  RPU is proposing the Santa Ana River Power Relocation Project to secure reliable and unrestricted access to the power lines. Project implementation would allow RPU to construct and maintain permanent access by relocating the 69 kilovolt sub-transmission circuits and 12kV distribution circuit that are currently located within the SAR area. The new poles would be installed along existing rights-of-way. New sub-transmission and distribution lines would be built onto the new poles prior to the removal of the existing poles and lines. No new access roads would be constructed to remove the existing poles and lines. No new access roads would be constructed to remove the existing poles and lines. The existing poles along Section 1, 2, and 3 would be removed using a hydraulic truck wherever possible. However, several poles are located in densely vegetated areas without truck access and would be removed by hand crews. The holes would be back-filled and the ground surface restored to match the existing grade.	<b>MND</b>			
2012071033	General Plan Menifee, City of Menifee--Riverside The proposed project is the preparation of the City of Menifee's first General Plan. The City of Menifee General Plan would include the seven mandatory elements (land use, circulation, housing, conservation, open space, noise, and safety) and three optional elements (air quality, community design, and economic development).	<b>NOP</b>	08/09/2012

2012071034	Permit for D/K Environmental Hazardous Waste Transfer and Storage Facility (CAT080033681) Toxic Substances Control, Department of Vernon, Los Angeles, City of--Los Angeles The issuance of a Hazardous Waste Facility Permit (Permit) for the D/K Environmental (DKE) Hazardous Waste Transfer and Storage Facility by the DTSC, as authorized by the CA Health and Safety Code, Chapter 6.5, and the Resource, Conservation and Recovery Act. In January 2011, DKE submitted its permit request to continue its hazardous waste storage and transfer activities. Upon issuance of a RCRA permit, DKE will become a RCRA Permitted Facility for transfer and storage activities for RCRA, and CA regulated waste received from off-site generators. Treatment, disposal, and recycling of hazardous wastes will not be performed at the site or at off-site units.	<b>Neg</b>	08/09/2012
2003051002	Michael Brasil Dairy Expansion Project Merced County --Merced Michael Brasil Dairy, the applicant, has requested Authority to Construct (ACT) permits to expand an existing dairy operation from the current as-built capacity of 1,265 milk cows and 235 dry cows to a maximum capacity of 1,879 milk cows and 334 dry cows. A new 800-cow freestall barn will be constructed as part of the expansion.	<b>NOD</b>	
2011061018	Department of Water and Power Specific Plan Amendment Seal Beach, City of Seal Beach--Orange The proposed project involves amendments to the 1996 DWP Specific Plan (proposed Specific Plan Amendment) that would allow for the development of a 32-lot residential development (Tentative Tract Map No. 17425). The residential uses would be located on approximately 4.5 acres in the northern portion of the project site. The remaining approximately 6.4 acres of the project site would be used for open space passive recreation uses. Bay City Partners, LLC (BCP) would construct the finished pads and all infrastructures necessary to serve the new residential development. Residential units would then be developed individually by homeowners.	<b>NOD</b>	
2012022003	Use Permit Application No. 2012-01 and Vesting Tentative Parcel Map Application No. 2012-01 - VA Rodden Huller Stanislaus County Oakdale, Waterford--Stanislaus Request to create three (3) parcels, in the A-2-40 (General Agriculture) zoning district, of 166+-, 10, and 94+- acres from two (2) parcels with a combined acreage of 270+- in conformance with County Code 21.20.060. The walnut hulling facility will be constructed on the 10-acre parcel in phases. Phase I: roof only 11,675 square foot huller building with an attached 15,120 square foot dryer building, 30,000 gallon propane tank, and a storm drain pond. Phase II: 20,000 square foot dryer building.	<b>NOD</b>	
2012022052	Asian Clam Control Project Parks and Recreation, Department of South Lake Tahoe--El Dorado Asian clams ( <i>Corbicula fluminea</i> ) were first documented in Lake Tahoe in 2002. Since the initial detection, the populations in South Lake Tahoe increased rapidly from 1 to nearly 200 acres in less than 10 years. A relatively sparse population	<b>NOD</b>

<b><u>Documents Received on Wednesday, July 11, 2012</u></b>			
	<p>was discovered near the mouth of Emerald Bay in 2009. Initial surveys estimated this infestation at approximately 3.5 acres in size just inside and on the south side of the mouth of Emerald Bay. Surveys in 2011 showed the infestation had spread to approximately 5.5 acres, an increase in infestation size of over 40% in only two years. An expansion of the Emerald infestation similar that seen in South Lake Tahoe would result in considerable ecological and recreation impacts. This project intends to treat the relatively sparse and discrete population of Asian clams within Emerald Bay prior to the local spread of the population by covering the infestation with benthic barriers to create anoxic conditions in order to kill the clams by supplementing benthic barrier treatment with additional treatment methods if necessary.</p>		
2012078100	<p>Coachella Valley Water District - Jefferson Street Grade Control and Sewer Pipeline Replacement &amp; Protection Project, WDID No. 7A333123001 Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert La Quinta--Riverside The goal of the project is to stabilize the invert elevation of the channel and limit sediment transport downstream and to enhance sewer pipeline protection during storm events.</p>	<b>NOE</b>	
2012078101	<p>South Ponto Shower Repair (11/12-SD-54) Parks and Recreation, Department of --San Diego The purpose of this project is to capture the shower run-off at South Ponto Beach and convey it by trough drains to the sewer to support continued maintenance and use.</p>	<b>NOE</b>	
2012078102	<p>MBC Odor Control Systems Upgrade San Diego, City of San Diego--San Diego The project will provide upgrades to the existing Odor Control System (OCS) and Distributed Control System (DCS). Upgrades include new fans, motors, dampeners, and ducting at Area 60, the Odor Control Facility. Other improvements to to Area 60 include new access platforms/catwalks and other instrumentation required to operate the odor control system. At Area 86, improvements will include installation of new "fume-hoods", new fans and ducting. Improvements at Area 76 include installation of new fume-hood enclosures above the two Grit bins and upgraded motors, fans, ducting, exhaust outlets, air supply grilles. Area 94 will include installation of new fans, access platforms, dampeners, acid/caustic scrubbers, new valves for chemical feed systems, and new access platforms.</p>	<b>NOE</b>	
2012078103	<p>Argus Overlay/Thin Blanket Caltrans #9 --Inyo The purpose of the proeject is to extend the life of the pavement. Work includes placing a 1 inch hot mix overlay from edge of pavement to edge of pavement on sR 190 new Paramint Valley from PM 40.0 to PM 57.9, traffic control, placing shoulder backing material on the shoulders, and repainting the striping on the highway.</p>	<b>NOE</b>

2012072024	General Electric Site Demolition Oakland, City of Oakland--Alameda Note: Revised & Extended per lead	<b>NOP</b>	08/31/2012
	The project sponsor, the General Electric (GE) Company, has proposed to demolish the existing buildings on the 24 acre site at 5441 International Boulevard. An application for demolition of the eight existing buildings was submitted to the City of Oakland Building Services on July 30, 2010 and permits were issued on January 3, 2011, contingent upon environmental review. Building 1 on the site has a City of Oakland historic rating of A1+ and is therefore a CEQA historic resource. The proposed demolition does not include foundations or any other elements that would require excavation; the demolition would consist of removing above ground features such as walls and appurtenances. It is anticipated the demolition would take approximately 4 months to complete and an estimated total of 200 truckloads of material would be removed from the site over the project duration. Demolition debris impacted with hazardous constituents would be appropriately disposed of. There are currently no plans for redeveloping the site following demolition. Therefore, the site shall remain vacant in the interim.		
2012072025	General Plan Biggs, City of Biggs--Butte The proposed project consists of adoption of a new General Plan for the City of Biggs. The proposed General Plan consists of nine elements. Each General Plan element contains: a brief discussion of the legal requirements; goals, policies and actions to address required topics; and, narrative text as necessary to provide understanding of the issues addressed. Goals state an ideal resolution of the issue under consideration. The General Plan has four main purposes; 1) To enable the Planning Commission and City Council to reach agreement on long-range development policies; 2) To provide a basis for judging whether specific private development proposals and public projects are in harmony with City policies; 3) To allow other public agencies and private developers to design projects which are consistent with City policies, or to seek changes in those policies through the process of amending the General Plan; and 4) Provide an agreement between the City and outside agencies for development in unincorporated portions of the Planning Area.	<b>NOP</b>	08/13/2012
2012072027	Surrey Farm Estates Los Gatos, City of Los Gatos--Santa Clara Note: Review extended per lead.	<b>NOP</b>	08/28/2012
	The project applicant is requesting approval of the following: - General Plan amendment from "Agriculture" to "Hillside Residential (0-1 du/acre)" - Rezoning from "RC" (Resource Conservation) to "HR:1:PD" (Hillside Residential, 1 unit/acre) Approval of this General Plan amendment and rezoning would allow the project applicant to subdivide the 17.55-acre property into 10 lots for future development of single-family residences. The southeast corner of the site (~3.22 acres) would

	The proposed improvements will improve pedestrian circulation throughout the Downtown, provide additional public parking for Colony Square, and create a more walkable downtown business district.		
2011122048	Delta Fish Survival Improvements Program Skinner Fish Science Building Water Resources, Department of Byron--Contra Costa The approximately 1.5-acre Skinner Fish Science Building Project consists of the construction of an aquaculture building, storage warehouse, covered outdoor work area, uncovered equipment pad, parking area, and an access platform to two new pumps. The Project is located adjacent to the Skinner Delta Fish Protective Facility which is located on the southwest side of Clifton Court Forebay in eastern Contra Costa County.	<b>NOD</b>	
2012012030	Tahoe Vista Recreation Area Accessory Parking North Tahoe Public Utility District --Placer The proposed Accessory Parking Project is the final phase of a multi-year phase Tahoe Vista Recreation Area. This phase consists of a parking lot for automobiles and vehicles with boat trailers, landscaping, and storm water BMP's, and paved walking/bike trail. The previous phases are located south of the current parcel across SR 28 and along Lake Tahoe's shoreline.	<b>NOD</b>	
2012032019	Pajaro River Bench Excavation Project Santa Cruz County Watsonville--Santa Cruz, Monterey The project proposes to excavate excess sediment from select locations along the upper terrace benches inside the Pajaro River levees in order to improve the flood carrying capacity of the levee system. The proposed project would create a two-year floodplain to re-establish flow levels at bankfull capacity. The proposed bench excavation project is also specifically designed to relieve the magnitude and severity of potential flooding caused by failure of the Pajaro River levees. Modeling results have determined that a volume up to 336,000 cubic yards could be excavated from eleven locations along 7.5 miles of the levee benches between Highway 1 and Murphy Road Crossing. The excavation sites span 39.1 acres and include nine excavation sites within Santa Cruz County, and two sites within Monterey County.	<b>NOD</b>	
2012032059	High Valley Geothermal Exploration Project Division of Oil, Gas, and Geothermal Resources --Lake Activities necessary to drill and test up to six (6) exploratory geothermal wells from four (4) existing well pad locations.	<b>NOD</b>	
2012041076	Dimitri, Diffendale and Kirk Minor Subdivision San Diego County Fallbrook--San Diego The project is a minor subdivision of a 10.39-acre parcel that would create 4 parcels, ranging in size from 2.31 to 3.13 gross acres (net acres ranging from 2.0 to 2.6). The project site is located near Monserate Hill Road/Monserate Place in the Fallbrook Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category of Semi-Rural Lands, Land Use Designation Semi-Rural Residential 2 (SR-2), which is a slope dependent category. There is one 0.34 acre area that is considered steep slope which will be placed in an open space easement but the slope analysis for the	<b>NOD</b>

	overall property shows that the average slope is less than 25% for each proposed parcel. Zoning for the site is A70, Limited Agricultural. Access would be provided by a proposed 40' wide private road connecting to Monserate Hill Road. Each lot would be accessed by a private driveway off of the proposed private road ending in a cul-de-sac. The project would be served by on-site septic systems and imported water from the Rainbow Municipal Water District (water). Earthwork will consist of 5,335 cubic yards of cut and 4,606 cubic yards of fill resulting in an export of 729 cubic yards of material.		
2010038091	Install Distribution Main to Consolidate with near by Water System Madera County --Madera The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Madera County Maintenance District #42 - Still Meadows proposes to examine the feasibility of consolidating with nearby Hillview Water Company - Oakhurst Sierra Lakes and how to best address their arsenic contamination problem.	<b>NOE</b>	
2012078128	Monahan Pier Repair Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado The boat ramp at the subject property was damaged recently by a wind storm. The purpose of this project is to restore the boat ramp to its original, pre-storm condition. There will be no change to the size or coverage of the ramp and no pilings will need to be replaced or repaired so there will be no lake bottom disturbance. Minor repairs will also be needed on the boat house.	<b>NOE</b>	
2012078129	Agricultural Water Measurement Water Resources, Department of -- The Department of Water Resources, Water Use and Efficiency Branch (Department), is adopting regulations (Title 23, Division 2, Chapter 5.1, Article 2, Sections 597, 597.1, 597.2, 597.3 and 597.4) as required by California Water Code section 10608.48(i)(1), which requires the Department to adopt regulations that provide for a range of options that agricultural water suppliers may use or implement to comply with the measurement requirements in subdivision (b)(1) of section 10608.48. The regulation is necessary to provide information to agricultural water suppliers to meet the intent of Water Code section 10608.48 and to implement the requirements of Water Code sections 10608.48(b) and 531.10, which are meant to assist water suppliers to comply with section 10608.48(d).	<b>NOE</b>

2012078132	American River Commons Features WRDA 96 Remaining Sites, Geotechnical Exploration for Sites L9 and L9A Central Valley Flood Protection Board Sacramento--Sacramento Potholing is proposed to verify the alignment of the existing levee cutoff wall. Up to six 10-foot holes may be drilled to locate each side of the existing cutoff wall. Once the ends of the cutoff walls are located, the exploratory holes will be drilled to a depth of 50 feet and examined with video cameras. The holes will be backfilled with a controlled lo strength grout. The surface will be restored with a cold asphalt patch on paved surfaces and soil on non-paved surfaces. drilling will take place in July or August of this year during daylight hours for approximately 2 weeks.	<b>NOE</b>	
2012078133	Conditional Use Permit No. 2169 - Razuki Mall El Cajon, City of El Cajon--San Diego The project is a retail commercial development that includes three new buildings with a total area of 10,770 square feet. An existing legal nonconforming liquor store will be demolished at the site and relocated into one of the new commercial buildings.	<b>NOE</b>	
2012078134	Replace Pumps and Electrical Controller inside Pumphouse Caltrans #4 --San Mateo Replace pumps, electrical controls, install backup generators and repair drainage pipes within existing structure. All work will be limited to existign State Right of Way.	<b>NOE</b>	
2012078135	Agreement 1600-2012-0071-R4 - Culvert on Johnson Creek Fish & Game #4 --Mariposa The Project consists of replacement of an existing 8-inch diameter, 30-foot long culvert with a new 18-inch diameter 30-foot long culvert as required by the Mariposa County Road Department.	<b>NOE</b>	
2012078136	Culvert Trail Improvement Project Parks and Recreation, Department of --Placer Repair and maintain the Culvert Trail within Auburn State Recreation Area. This project will make repairs, realignments and conduct maintenance on the existing trail to eliminate problem areas and reduce erosion. Portions of the project will make repairs, such as drainage improvements, and conduct maintenance of the trail within the existing trail corridor. Additionally the project will complete five sections of realignment outside the existing trail corridor, a total of approximately 2500 feet of 4-foot wide trail re-alignment.	<b>NOE</b>	
2012078137	Northwest Corner Soil Vapor Extraction for Rainbow LLC Toxic Substances Control, Department of Carson--Los Angeles The project consists of an extension and expansion of an interim measure for Rainbow LLC, dba Rainbow Transport Tank Cleaners (Rainbow), to continue soil vapor extraction (SVE) in the northwest corner of the site. The interim measure SVE system operated previously between October 22, 2009 and October 21, 2010 followed by a period of rebound analysis. The interim measure is necessary to prevent volatile organic compounds (VOCs), including tetrachlorethylent (PCE)	<b>NOE</b>
