

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

July 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

<u>Documents Received on Monday, July 01, 2013</u>			
2010021054	Veterans Boulevard/Route 99 Interchange Project/Veterans Boulevard Grade Separation Project Caltrans #6 Fresno--Fresno FYI FINAL The California Department of Transportation, in cooperation with the City of Fresno, propose to build a new interchange on State Route 99 (SR-99) and supporting roadway improvements in north Fresno. The improvements would add a new interchange to SR-99 and new City arterial roadway (the proposed Veterans Boulevard) that provides additional access to the SR-99 mainline as well as enhance the local circulation network. The proposed construction of the Veterans Boulevard surface roadway would extend from West Shaw Avenue on the south to Herndon Avenue on the north. This includes a connection to the existing Golden State Boulevard and grade separation over the Union Pacific railroad.	FIN	
2013071001	West Padaro Lane Main Sewer Extension Carpinteria Sanitary District Carpinteria--Santa Barbara The project involves extension of public sewer service to residential properties located on Padaro Lane. Approximately 4,100 linear feet of 8-inch diameter polyvinyl chloride (PVC) sewer pipe and 12 maintenance holes would be constructed within Padaro Lane. The new pipeline would begin at an existing District manhole just east of Garrapata Creek and terminate at a point adjacent to 2781 Padaro Lane. The alignment would deviate from the paved area only at the point where the pipe crosses Toro Canyon Creek, at which point it would be attached to the north side of the concrete bridge structure. The project also involves construction of 4-inch diameter PVC lateral sewers and appurtenant cleanout structures, also within the Padaro Lane right-of-way. Annexation of 21 discrete parcels (72 acres) within the project area into the Carpinteria Sanitary District.	MND	07/30/2013
2013071002	Epoch Wine Estates / Catapult / Conditional Use Permit / DRC2011-00061 San Luis Obispo County --San Luis Obispo To allow for the phased construction and expansion of winery facilities including: expansion of the existing 'Stephen's Cellars' winery facility (D010280P), the rehabilitation of the condemned York Mountain Winery to restore the historic winery and tasting room uses, the construction of a new wine processing building and the conversion of the existing tasting room to administrative uses and commercial kitchen. The applicant is requesting 25 special events with no more than 200 attendees and modifications of ordinance requirements involving setbacks, signage, and amplified music (noise). Winery build-out (includes existing winery structures) will total 49,351 sf on two parcels. The project will result in the total site disturbance of 6.9 acres on two parcels totaling 165 acres inc. 2013072001	Lower Putah Creek 2 NAWCA Solano County Water Agency Winters--Solano The purpose of the project is improve fish and wildlife habitat by restoring a functional flood plain to approximately 6,500 linear feet of bank along Putah Creek and 1,500 linear feet of bank along McCune Creek. Much of the existing banks within the project area are near vertical, and can extend more than 10 feet above the low-flow water surface elevation. These steep banks restrict the establishment and natural recruitment of many desirable native plant species. A restored bank will help to reduce erosion of the bank, improve water quality, and increase the amount and diversity of native vegetation.	MND	07/30/2013
2013072004	Visser General Plan Amendment/Zone Reclassification/Parcel Map Subdivision Humboldt County --Humboldt General Plan Amendment, Zone Reclassification and Parcel Map Subdivision application (GPA/rezone/subdivision). General Plan Amendment, Zone Reclassification and Parcel Map Subdivision application (GPA/rezone/subdivision). The project involves: (1) a GPA to change the designation of an approximate eight acres from Timber or Thick Underbrush (T) to Rural Residential with a density range of one dwelling unit per 2.5 to 5 acres (RR-2.5-5); (2) a rezone of said lands from Unclassified (U) to Residential Suburban with a Special Building Site combining zone that sets the lot size per the parcel map of record (RS-B-6); and (3) a minor subdivision to result in Parcels 1 and 2 of approximately 4.7 and 4.0 acres, respectively, to remedy the creation of two parcels in violation of subdivision regulations. The project includes an exception request to allow for a 20' road width and an exception to County Fire Safe Regulations. i.e. non-conforming road width, length of dead-end road, turn-arounds.	MND	07/30/2013
2007102040	Mather Airport Master Plan Sacramento County Rancho Cordova--Sacramento The purpose of the Revised Mather Airport Master Plan (Master Plan) is to guide airport development over a 20-year period. The entire Revised Mather Airport Master Plan can be viewed at: http://www.sacramento.aero/scas/about/planning_design/	NOP	07/30/2013
2013072002	Capitola General Plan Update Capitola, City of Capitola--Santa Cruz The General Plan Update for the City of Capitola includes both an update of the 1989 General Plan and the preparation of a Climate Action Plan. The General Plan and the Climate Action Plan seek to advance the following key objectives: - Preserving and enhancing Capitola's unique community identity. - Enhancing opportunities for residents to meet and gather and engage in civic life. - Protecting and enhancing residential neighborhoods. - Protecting natural resources and promoting environmental sustainability. - Strengthening the local economy. - Promoting fiscally-responding municipal decision making. - Providing a balanced transportation system for all modes of travel. - Protecting the health and safety of the community. 2013072003	Central and South Country Restructuring Plan and Service on New Streets in Downtown Hayward Alameda Contra Costa Transit District Hayward, Fremont, Newark, Alameda--Alameda The proposed Project would affect bus service in the cities of Hayward, Fremont, Newark and Union City, and in unincorporated urban areas of Alameda County north of these cities. Two transbay lines to eastern San Mateo County would also be affected. The changes would affect 18 bus lines and also add service to four street segments in Hayward not previously served by AC Transit: Fletcher Lane between Mission Boulevard and Watkins Street, heading northbound only; Watkins Street between Fletcher Lane and D Street, heading northbound only; A Street between Foothill Boulevard and Mission Street, heading westbound only; and Main Street between C Street and A Street, heading northbound only.	Neg	07/30/2013
2006061105	Manzana Wind Project Kern County --Kern The project is part of the infrastructure for the Manzana Wind Project, formerly known as the PdV Wind Energy Project. One (1) road crossing and underground electrical line crossing would be constructed across Tylerhouse Canyon Wash.	NOD	
2007051067	State Route 58 Hinkley Expressway Project Caltrans #8 --San Bernardino Caltrans proposes to widen SR 58 from a two-lane conventional highway to a four-lane expressway near the unincorporated community of Hinkley, from Post Mile 22.2 to PM 31.1. The total length of the project is 8.9 miles, from approximately 2.4 miles west of Hidden River Road to approximately 0.7 miles east of Lenwood Road. The proposed project area is approximately five miles west of the city of Barstow, within the Mojave Desert region of San Bernardino County, CA.	NOD	
2008082128	197/199 Safe STAA Access Project Caltrans #1 --Del Norte The Department of Fish and Wildlife is issuing an Agreement pertaining to areas of cut and fill at PCN 1-3, a bridge replacement at PCN-2, culvert replacement at PCN 1-3, and installation of retaining walls at PCN 1-3.	NOD	
2009042114	Culvert Rehabilitation Project Caltrans, Planning Willits--Mendocino The Dept. of Fish and Wildlife (Dept.) is issuing an Agreement pertaining to 29 encroachments: replace and/or modify a variety of culverts on State Route 101 between Post miles 50.18 and 84.52 in Mendocino County. Work will include construction of headwalls and inlet or outlet flared end sections, placing rock slope protection and rock energy dissipaters, lining existing culverts with high density polyethylene (HDPE) or cementitious pipe liner, replacing or extending existing culverts and replacing existing downdrains.	NOD

2010021054	Veterans Boulevard/Route 99 Interchange Project/Veterans Boulevard Grade Separation Project Caltrans #6 Fresno--Fresno The California Department of Transportation, in cooperation with the City of Fresno, propose to build a new interchange on State Route 99 (SR-99) and supporting roadway improvements in north Fresno. The improvements would add a new interchange to SR-99 and new City arterial roadway (the proposed Veterans Boulevard) that provides additional access to the SR-99 mainline as well as enhance the local circulation network. The proposed construction of the Veterans Boulevard surface roadway would extend from West Shaw Avenue on the south to Herndon Avenue on the north. This includes a connection to the existing Golden State Boulevard and grade separation over the Union Pacific railroad.	NOD	
2010101017	Jurupa Community Services District Master Sewer Plan Jurupa Community Services District --Riverside The Area B Trunk Sewer project was originally evaluated as part of the Master Plan for which an IS/MND was adopted in January 2011. Subsequent to adoption of the Master Sewer Plan IS/MND, there were minor revisions to the alignment of the Area "B" Trunk Sewer. The Area B Trunk Sewer entails the construction and operation of an ~26,000 linear-foot (4.9 miles) sewer line and the acquisition of an easement for the construction, operation, and maintenance of said sewer. The sewer pipeline will range from 18-to 20-inches in diameter.	NOD	
2010121020	Desert Rose Subdivision Encinitas, City of Encinitas--San Diego CDFW is intending to execute a Streambed Alteration Agreement (SAA) pursuant to Section 1602 of the Fish and Game Code (#1600-2008-0093-R5) to the project applicant, Woodbridge Farms Estates, as represented by Joe Colina. The project subject to the Agreement is the Desert Rose Subdivision Project which will alter an on-site drainage by removing ~0.67 acre of exotic vegetation.	NOD	
2012071077	SBT-25 Curve Realignment Caltrans #5 --San Benito The proposed project would realign and straighten the Route 25 at a particular curve where there has been a higher than average number of collisions. The project would cut into the hillside that the road currently curves around to provide a straighter section with better sight distance. Cut slopes would be about 40 feet high maximum. The new section would be about 900 feet long. One private driveway would be realigned to meet the new roadway.	NOD	
2012101062	South County Detention Facility Tulare County Porterville--Tulare The proposed project is a new maximum security Type II facility with 250 cell double occupancy units (500 beds) and 14 special use beds for total of 514 beds. In addition to the main detention facility, the proposed project will also include support service components such as administrative offices, intake, infirmary, kitchen, laundry, storage, and off-street parking lots.	NOD

2013031075	Owens Lake Solar Demonstration Project Los Angeles Department of Water and Power --Inyo The Solar Demonstration Project would install and operate a 500 kW of electricity through the use of ground-mounted photovoltaic solar arrays. Solar PV panels would be installed in rows on an aluminum framework that would be attached to one of three types of foundations, two with concrete block ballasts and one with pile driven piers. The project would assist the City of Los Angeles Department of Water and Power in meeting its renewable energy portfolio standards while determining the feasibility of additional solar facilities on Owens Lake.	NOD	
2013041046	General Plan & Zoning Code Update Calipatria, City of Calipatria--Imperial The proposed project consists of the review and update of the 1992 Calipatria General Plan and Zoning Ordinance. The proposed planning area is within the Calipatria City Limits and includes surrounding land within the County of Imperial's Urban Overlay immediately outside the current City limits and the Calipatria State Prison site as well as the City's Wastewater Treatment Plant site. Total planning area encompasses approximately 7.32 square miles. The primary purpose of the update is to adequately plan for the anticipated growth within the Calipatria Community and surrounding unincorporated area of Imperial County with the purpose of allocating specific areas for development that will result in the least impact to the environment and existing resources.	NOD	
2013042027	Angora Fire Trails and Stream Environment Zone Restoration Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado The U.S. Forest Service, Lake Tahoe Basin Management Unit plans to conduct stream environment zone (SEZ) restoration and trail building and restoration work in the Angora Fire burn area. The trails work includes decommissioning 16.7 miles of trail and constructing 8.9 miles of new trail. SEZ restoration work includes restoring portions of Angora Creek, restoring Seneca Pond to a wetland complex, and stabilizing a gully in the Gardner Mountain Meadow. The Water Board will regulate discharges from the Project by: (1) granting coverage under the Water Board's General Waste Discharge Requirements and National Pollutant Discharge Elimination System Permit for Storm Water Discharges Associated with Construction Activity in the Lake Tahoe Basin; (2) issuing Clean Water Act 401 Water Quality Certification; and (3) granting Basin Plan Prohibition Exemptions.	NOD	
2013042039	Development Review and Minor Use Applications 13PLN-04 Grass Valley, City of Grass Valley--Nevada The project includes the development review of a one-story 16,550 medical office building and a minor use permit to allow additional parking beyond required by the Development Code.	NOD	
2013042078	Lavagnino & Simoni Parcel Map Subdivision Arcata, City of Arcata--Humboldt A Tentative Parcel Mpa subdivision to create three separate parcels from a 41,320 sf (0.95 acre) parcel. Proposed Parcel 1: 21,850 sf parcel; existing single family residence at 491 H St; street frontage on 4th, 5th, and H Streets; Jolly Giant Creek with riparian area; split	NOD

	<p>general plan / zoning designation - Coastal Residential Medium Density, and Coastal General Commercial.</p> <p>Proposed Parcel 2: 8,870 sf parcel; existing single family residence and detached garage at 885 5th St; street frontage on 5th & I Streets.</p> <p>Proposed Parcel 3: 10,600 sf parcel; existing restaurant (V&N Burger Bar) at 460 I St; street frontage on 4th & I Streets; existing paved parking area with access from I Street.</p> <p>Project includes: repair of sidewalks, installation of a grease trap on parcel 3; installation of sewer cleanouts on each parcel; and the demolition of a small shed currently located between the residence (885 5th St) and the restaurant (460 I St.).</p>		
2013051004	<p>Elephant Trunk Slide Permanent Restoration Caltrans #5 --San Luis Obispo</p> <p>On Highway 1 at the northern limits of San Luis Obispo County, Caltrans is proposing to construct a 1000-foot-long retaining wall down slope of the roadway in order to stabilize a large, recurring slide. The restored roadway would be straightened slightly and consist of a 12-foot lane in each direction with 4-foot paved shoulders. The existing drainage system would also be modified and repaired. The wall would be topped by a steel railing (or other appropriate see-through railing) as a safety feature.</p>	NOD	
2013051013	<p>Dani Creek Slide Restoration Project Caltrans #5 --Monterey</p> <p>Caltrans has constructed an 825-foot long soldier-pile tieback retaining wall along the outside shoulder of the southbound lane using embedded steel piles with horizontal timber lagging. An aesthetically treated barrier and bicycle railing have been constructed on top of the wall. Both the northbound and southbound lanes have been restored and reconstructed to the standard 12-foot width with four foot shoulders.</p>	NOD	
2013052020	<p>Central Kitchen Project Campbell Union School District Campbell--Santa Clara</p> <p>The construction of a new 15,050 sf 2 story commercial grade kitchen facility and office building located within the CUSD corporation yard.</p>	NOD	
2013078001	<p>Ya-Ka-Ama Training Burn Forestry and Fire Protection, Board of --Sonoma</p> <p>The project involves on-going training of Sonoma County fire agencies to control wildland fires. The project area is 5 acres of grassland on Steve Olsen Road outside Forestville, CA. The project area is entirely within State Responsibility Area. Numerous local government engineers will be used for the training burn and will be present for all burning activities.</p> <p>The proposed 5 acres is a field previously under cultivation. Threatened and endangered plant or animal species in the project area are confined to wetland zones and will not be impacted by the burning activity which will be conducted a minimum of 50 ft from all such areas.</p>	NOE

2013078002	Issuance of Streambed Alteration Agreement No. 1600-2013-0138-R1, Butler Slough Trench Fish & Wildlife #1 --Tehama The project is limited to the installation of a high voltage cable for a new solar array system across Butler Slough using an open trench.	NOE	
2013078003	Gas Pipeline L-220 Replacement Project at Putah Creek Fish & Wildlife #3 Davis--Solano The project shall replace a section of the existing Line 220 gas pipeline (L-220) crossing under Putah Creek. The new pipeline segment shall be 10-inches in diameter and cover a length of approximately 1,550 feet (0.29 mile). The pipeline shall be installed on the west side of Old Davis Road and cut and capped pending additional evaluation of the segment. The HDD will occur at a minimum of 35 feet beneath the bottom of the creek bed of Putah Creek. The HDD entry pad, including the bore pit, will be approximately 200-foot wide, 100-foot long (0.46 acre) within an agricultural field and adjacent ruderal vegetation.	NOE	
2013078004	Use Permit 13-001 and Design Review 13-001, Frank Residence Mammoth Lakes, City of Mammoth Lakes--Mono A new single family home in the Bluffs subdivision within the Snow Deposition Design Zone. The owners of the property and applicants for this project are Sean and Kim Frank.	NOE	
2013078005	Amendment of Conditional Use Permit No. 2169 - Razuki Mall El Cajon, City of El Cajon--San Diego The project is a retail commercial development that includes three new buildings with a total area of 10,770 square feet. An existing legal nonconforming liquor store will be demolished at the site and relocated into one of the new commercial buildings.	NOE	
2013078006	Agreement 2013-0058-R4 - TUL SR 63 & 216 Culverts #3 & #5 Fish & Wildlife #4 --Tulare Alta East Branch Canal (culvert #3) on SR 63; extension of the 12-foot by 6-foot reinforced concrete box (RCB) culvert by approximately 11 to 13 feet on each side of the road and placement of 117 cubic yards of rock slope protection on the downstream side to minimize erosion, which will result in 0.071 acres of temporary impacts and 0.037 acres of permanent impacts. Antelope Creek (culvert #5) on SR 216; extension of the 12-foot by 6-foot RCB culvert by approximately 10 feet on each side of the road; installation of wingwalls on the northern inlet side; construction of wingwalls on the southern outlet side to connect the box culvert with the wingwalls of the existing abandoned railroad bridge; relocation of AT&T utilities under the channel bed via 50 feet of horizontal directional drilling and 20 feet of trenching for placement of two (2) 4-inch steel conduits; and relocation of Sempra Gas utilities via a 4-foot deep and 55-foot long open trench, all of which will result in 0.037 acres of temporary impacts and 0.02 acres of permanent impacts. 2013078014	<p>Motel 6 - Site Plan/Design Review 2013-01 Livingston, City of Livingston--Merced</p> <p>The proposed project is a 27,852 square foot, 75-unit motel with a 74-space parking lot and 16,275 square feet of landscaped area on an approximately 45,544 square foot parcel (1.04 acres) in the Highway Service Commercial Zone District (C-3). The project will serve the traveling public.</p>	NOE	
2013078015	<p>Planned School Expansion Removal Action Workplan (RAW) Toxic Substances Control, Department of --Santa Barbara</p> <p>The RAW focuses on removal of approximately 320 cubic yards of contaminated soil impacted by several chemicals of concern (COC) including toxaphene, chlordane, and total petroleum hydrocarbons (TPH) and will be transported by truck for offsite for disposal at an appropriate permitted landfill. The COCs were detected at levels that have been determined to pose an unacceptable risk to human health. The removal action activities are scheduled to begin during the summer break of 2013, when no students and staff are expected to use the playfields, which are directly adjacent to the Site and are expected to take approximately three weeks to complete. The project will restore the Site to allow for unrestricted use for the expansion of the existing Santa Ynez Valley Charter School Campus.</p>	NOE	
2013078016	<p>Issuance of Lake or Streambed Alteration Agreement No. 1600-2013-0068-R1, Mad River and Liscom Sloughs Bridge Protection Project Fish & Wildlife #1 Arcata--Humboldt</p> <p>The project is limited to two stream encroachments to install wire truss wall systems filled with rock to protect three bridge abutments (two on the Mad River Slough bridge, and the western abutment on Liscom Slough bridge) from further scour damage that threatens to undermine the bridges abutments. Each wire truss wall system will be 20-feet long by 3-feet high by 1-foot deep, and will be filled with approximately 2 to 4 cubic yards of hand-placed rock.</p>	NOE	
2013078017	<p>Papoose Meadow Restoration Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Susanville--Lassen</p> <p>Lassen National Forest proposes to restore the hydrology and meadow vegetation at Papoose Meadow by filling three primary artificial drainage ditches that were historically dug for grazing purposes and that currently cause the northern end of the meadows to dry out. Using clean dredged material from dredging at the Gallatin Marina in Eagle Lake, the Forest Service will fill 2,100 linear feet of ditches with 500 cubic yards of material, compact the material, and use vegetative plugs from the surrounding meadow to re-vegetate the site.</p>	NOE

2013078018	Poso Creek Weir Project Regional Water Quality Control Board, Region 5 (Central Valley) --Kern The Project consists of replacing an earthen flood control structure with a new permanent concrete structure that will maintain the desired water level in the migratory bird habitat by preventing backflow from the refuge wetlands into Poso Creek. The structure will be constructed within the existing earthen berm footprint.	NOE	
2013078019	PG&E Vegetation Management of the Tesla/Metcalf Electric Corridor Parks and Recreation, Department of --Alameda This project is part of Pacific Gas and Electric's vegetation management for the Tesla-Metcalf 500kV electric transmission corridor which transsverses through the western portions of Carnegie SVRA park property. In order to comply with state and federal regulations, PG&E needs to maintain specific clearances free of vegetation. PG&E also has a right of way easement along their towers of two hundred feet (200') that they maintain to prevent power outages and potential fires. PG&E has identified 76 trees that will need to be either trimmed or removed to comply with their vegetation management plan.	NOE	
2013078020	Quarry Road Replacement Parks and Recreation, Department of --San Diego The purpose of this project is to realign a section of Quarry Road in Ocotillo Wells SVRA to increase public safety and to eliminate the need for weekly road maintenance in the area known as the S-turns. The realignment would encompass the intersection as the northern end of Main Street and through to the Shell Reef Expressway as the Quarry Cover intersection and will be constructed as a full dimension access road for larger street legal vehicles (i.e. RV's and trailers). Excavation for the new road bed would entail a width of twenty-one (21') feet with the possibility of depths measured up to approximately twenty-four inches (24") and the cut material would be re-used in areas needing fill. 	structural treatment Best Management Practices (BMPs) which consists of approximately 11 percent of Project site. The proposed building is speculative. The anticipated use is a distribution center but the specific occupants or use of the building is not known at this time.		
2012012016	2035 General Plan Update Plumas County Quincy--Plumas FYI Final	FIN	
	The County of Plumas is the Lead Agency for the preparation of a program EIR addressing adoption and implementation of the County's 2030 General Plan Update (proposed project or Draft 2030 General Plan). This comprehensive update to the County's existing General Plan (adopted in 1984) is proposed in order to establish and implement new goals and policies for regulating development and balancing population growth with infrastructure availability, agricultural preservation, and natural resource protection.		
2010032043	North Dixon Annexation Dixon, City of Dixon--Solano NOTE: Revised	MND	08/05/2013
	Annexation of the above-mentioned parcels totaling 34.1 acres (18.4 private 15.7 roads) into the city of Dixon and pre-zoning the parcels Highway Commercial (CH). The projects are surrounded by farmland to the north; I-80, Caltrans facility, and trucking business to south; I-80, and manufacturing and trucking businesses to the east and west.		
2013071005	Rolling Rock L-15371 San Diego County --San Diego	MND	08/08/2013
	The proposed project is the approval of a grading permit for the Rolling Rock Project as proposed in grading plan L-15371 submitted by Hester's Granite Company. The project involves the grading of a rock catchment area approximately 1,450 feet in length on four contiguous parcels (APN 517-020-79, 517-020-80, 517-040-14, and 517-040-18) north of Willow Glen Drive in the unincorporated area of Valle de Oro in San Diego County, CA.		
2013071008	Development Plan (D12-00017) El Corazon Temporary Sports Fields Oceanside, City of Oceanside--San Diego	MND	08/01/2013
	Consideration of a Development Plan (D12-00017) to establish twenty temporary grass sports fields, associated parking area, a public trail system around the perimeter of the site, a reservoir for irrigation and drainage, and a park area over a 103 acre portion of El Corazon. At this time the economic climate is not conducive to permanent development in accordance with the El Corazon Specific Plan. Until such time as conditions improve to allow that development, the City proposes use of 103 acres for temporary sports fields. El Corazon is a 465-acre property located north of Oceanside Boulevard, east of El Camino Real, south of Mesa Drive, and west of Rancho del Oro Drive. It is owned by the City of Oceanside. The property is a former sand mine, currently undergoing reclamation per an approved Reclamation Plan.

2012092011	<p>Troutdale Creek Bridge Replacement Project Caltrans #4 Calistoga--Napa</p> <p>Caltrans proposes to remove the existing 31-foot wide, 26-feet long, two-lane, single-span Troutdale Creek Bridge (Bridge # 21-0004) and replace it with a 51-foot wide, 60-feet long, two-lane, single-span bridge. The proposed single span bridge would be built on a new alignment of Route 29, southeast of the existing bridge. The proposed bridge will be built on a new curve alignment with a radius of 165 feet across the creek, which is larger than the existing radius of 110 feet. The proposed roadway section will consist of two 16-foot lanes with standards 8-feet shoulders that will conform to the existing two 12-foot lanes with non-standard 2-feet shoulders. The project will not increase roadway capacity.</p>	FIN	
2013071010	<p>1602 Maintenance Agreement Caltrans #9 --Inyo, Mono, San Bernardino</p> <p>Establishment of a long term maintenance 1602 agreement with the CDFW and Caltrans for maintenance of culverts, bridges, and other water conveyance systems along the State Highway system. The work authorized by this 1602 Agreement will occur in Inyo, Mono, and the northern section of San Bernardino Counties-the area defined as "District 9" of Caltrans; excluding the eastern portion of Kern County. The project will occur in jurisdictional waterways that could be either ephemeral or perennial streams.</p>	MND	08/05/2013
2013071011	<p>Redlands Fulfillment Center Project Redlands, City of Redlands--San Bernardino</p> <p>The proposed project consists of constructing a 1,015,740 sf industrial building that will include warehouse and office uses. Parking for the building will include 1,609 automobile parking stalls and 136 trailer parking stalls. The maximum building height is proposed to be 60 feet. In order to develop the project three legislative applications and one development application are proposed.</p>	MND	08/05/2013
2013071015	<p>Santa Ana Lift Station Pipeline Replacement Ojai Valley Sanitary District Ojai--Ventura</p> <p>The project involves replacing manhole H-21-54 and the terminal segment of the force-main pipeline between the Santa Ana Lift Station and manhole H-21-54. The replacement pipeline alignment would parallel the existing pipeline, mostly within 20 feet. However, the southern terminus would turn east prior to the existing alignment, and parallel the Ojai Valley Trail for approximately 120 feet and terminate at replacement manhole H-21-54. The pipeline alignment was selected to minimize removal of protected trees. The pipeline diameter would be increased from 10 to 12 inches. The new pipeline would be composed of ductile iron, polyvinyl-chloride or high density polyethylene.</p>	MND	08/05/2013
2013071017	<p>Chevron Environmental Management / Lessard / Grading Permit / PMT2011-01565 San Luis Obispo County --San Luis Obispo</p> <p>To allow for excavation of hydrocarbon-impacted contaminated soil associated with a petroleum pipeline. The project will result in the disturbance of approximately 2,600 cubic yards of cut and will be replaced with 2,600 cubic yards of clean fill that will total a disturbance of approximately 30,550 sf (0.70 ac) on a</p>	MND	08/06/2013

	10 ac parcel.		
2013072012	<p>Castlewood Country Club Golf Practice Range Project Alameda County Pleasanton--Alameda</p> <p>Project seeks approval of a CUP to convert an area on the grounds of the Castlewood Country Club from a golf course maintenance facility and materials storage area into a golf practice range for use by Club members and their guests. The practice range would have space to accommodate 14-16 golfers using tee boxes, fairways, sand bunkers and greens. The project involves relocating existing maintenance and materials storage functions to other locations on the Country Club property, clearing the site of existing non-native vegetation, keeping clear of and not disturbing the adjacent Arroyo de la Laguna, conducting a modest grading operation on the nearly level site to create realistic fairway conditions, sand bunkers and greens, installing an irrigation system and drainage infrastructure, creating two bio-retention basins for storm water control, seeding and sodding the practice fairway and greens, etc. The facility would be available for use only during daylight hours. Access would be by golf carts only; cars would be parked 400 yards away at Valley Course clubhouse parking lot. No buildings or structures of any kind would be erected. Water rights and assurance of adequate supply for irrigation needs would be provided by the County Club's existing water supply system and water rights from local groundwater sources. The only potentially significant impacts would occur during a 2.5-month construction period and are identified in the IS as including construction dust/exhaust, potential impacts to special status plant and animal species and potential disturbance of cultural resources and/or human remains. All impacts would be reduced to less than significant levels with implementation of mitigation measures.</p>	MND	08/05/2013
2013072013	<p>Fern Avenue Minor Subdivision MNS11-0001 Sonoma County Petaluma--Sonoma</p> <p>Minor Subdivision of 6.1 acres resulting in one parcel of 2.4 acres and designated remainder of 3.7 acres in size. The subdivision would accommodate the construction of one new home and a potential second dwelling unit.</p>	MND	08/05/2013
2013072014	<p>Blue Oak Ranch Reserve Multi-Use Facilities and Infrastructure Project University of California, Regents of the San Jose--Santa Clara</p> <p>UC Berkeley, which administers the Blue Oak Ranch Reserve as part of the University of California Natural Reserve System, is proposing minor upgrades to the existing cedar barn to serve as a maintenance and administrative building; construction of two three-bedroom residences for Reserve staff and their families (with a provision to construct a third residence); construction of group lodging for up to 32 short-term visitors with a common kitchen, dining and bathing area; construction of 10 camp shelters for up to 20 short-term visitors with a camp kitchen, and bathing area; infrastructure improvements (i.e., new septic system, well, and solar power); and re-graveling of the primary access road serving the Reserve facilities.</p>	MND	08/05/2013

2013072016	<p>Feeney Parcel Map Subdivision, Lot Line Adjustment and Conditional Use Permit Humboldt County Eureka--Humboldt</p> <p>A Lot Line Adjustment and Minor Subdivision involving approximately 7.9 acres in the Mitchell Heights area. The Lot Line Adjustment will add approximately .46 acres to APN: 017-163-005. The resultant 2.46 acre parcel will be divided into two parcels of approximately 1.29 acres and 1.17 acres. A Less Than 3 Acre Conversion Exemption is also requested to harvest areas cleared for development outside of the wetland and riparian buffers. The larger parcel is currently developed with a single family residence. The parcels are or will be served with community water and on-site wastewater treatment systems. A portion of the parcel is within the CA Coastal Commission's retained permit jurisdiction, therefore, a consolidated Coastal Development Permit has been requested.</p>	MND	08/05/2013
2013071012	<p>USC Child Care Facility at Royal Street Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The University of Southern California (USC or University), the project applicant, proposes to construct a new child care facility (the Project) to serve its University Park Campus, located at 3014-3026 Royal Street, in the City of Los Angeles. The Project would replace existing vacant residential units on a 0.64 acre project site with a new ~9,376 sf child care facility. This building would consist of two stories and would have a maximum height of ~40 feet. The project site would also include an ~5,258 sf playground and parking for ~19 vehicles. A two-way inbound/outbound driveway would be provided on Royal Street. The child care facility would serve existing USC faculty and staff and would provide care for ~114 children on a daily basis.</p>	NOP	08/05/2013
2013071013	<p>The Glen at Scripps Ranch San Diego, City of --San Diego</p> <p>The applicant is requesting a Conditional Use Permit to amend Conditional Use Permit 133-PC, a Planned Development Permit, and a Site Development Permit to construct 400 non-acute assisted living units, 50 acute assisted living units (16 of which are memory care units), and 60 skilled nursing beds. The 400 non-acute assisted living units include 64 villa units, 48 garden terrace units, and 288 apartment style units.</p>	NOP	08/05/2013
2013071014	<p>355 W. Jefferson Avenue Structure Removal Project Pomona, City of Pomona--Los Angeles</p> <p>Preparation of an environmental impact report (EIR) that will analyze the environmental impacts associated with the removal of a vacant residential structure at 355 West Jefferson Avenue (proposed project). The residential structure is owned by the City; it is currently vacant and subject to vagrant use, accidental fire, and is considered a public eyesore due to the condition of the structure. The proposed project site consists of 7,264 sf of land occupied by a 1,140 sf single family residential structure.</p>	NOP	08/05/2013

2013072010	Hillsdale Shopping Center North Block Reconfiguration Project San Mateo, City of San Mateo--San Mateo The overall intent and vision for the Project is to reconfigure, remodel, and update the North Block area of Hillsdale Shopping Center. The proposed renovation of the North Block is part of the ongoing improvements that will refresh the mix of tenants, invigorate public spaces, and work towards fulfilling City goals to connect Hillsdale Shopping Center to surrounding streets, transit and emerging districts such as 31st Avenue, El Camino Real, Hillsdale Caltrain Station and the Bay Meadows Transit Village.	NOP	08/05/2013
2013072011	San Leandro Shoreline Development Project San Leandro, City of San Leandro--Alameda Project is proposed as an integrated master planned development and a public/private partnership with the City on 52 acres of the City-owned marina.	NOP	08/05/2013
2013071016	Tierra Bonita Subdivision Poway, City of Poway--San Diego The project is a proposed 12 lot, residential subdivision of an approximate 11.6 acre site located on the east side of Tierra Bonita Road. The project generally consists of grading, street and walkway improvements, new undergrounding of existing overhead utilities, new street lights, and public trails. Off-site work will include a sewer line extension to the site from the north and potential utility line undergrounding activity. Nearly all of the site is located within either the floodway or the flood plain of Rattlesnake Creek which traverses the northerly portion of the site in an east/west direction. The project proposes on-site channelization of Rattlesnake Creek for flood control which would thereby reduce the amount of area on-site that is within the floodway. The project applicant has secured a Conditional Letter of Map Revision (CLOMR) through the Federal Emergency Management Agency (FEMA) for the proposed work in Rattlesnake Creek. The project applicant is required to secure all other necessary outside regulatory agency permits and final approvals for the proposed work in Rattlesnake Creek before a Final Map is approved for the project. No new home construction is proposed at this time and will be subject to additional City review and approval through subsequent discretionary permits.	Neg	08/05/2013
2013072015	Lot Line Adjustment Zoning Ordinance Amendment Monte Sereno, City of Monte Sereno--Santa Clara The proposed project is an amendment to the Monte Sereno Municipal Code to allow lot line adjustments to be processed for lots that were legally created and recognized by the City as legal building sites but do not meet the current requirements of the minimum lot size required. These parcels may be adjusted in accordance with Government Code section 66412(d), which may increase or decrease the size of a lot, provided such adjustment does not create additional nonconformities, including, but not limited to, setbacks, lot coverage, building size and/or change in zoning district/designation. 2013078060	<p>Sacramento Suburban Water District 2013 Short-Term Water Transfer Project Water Resources, Department of --Sacramento, Contra Costa, San Joaquin, Stanislaus, Merced, ... Sacramento Suburban Water District (SSWD) proposes to temporarily transfer to Dudley Ridge Water District (DRWD) and Kern County Water Agency (KCWA) collectively, a total of 3,366 acre-feet of water made available by pumping groundwater in lieu of diverting surface water under its Wholesale Water Supply Agreement Between the City of Sacramento and Sacramento Suburban Water District. The City of Sacramento has petitioned for, and the State Water Resources Control Board (SWRCB) has approved, a change in the place of use of the transfer water. The transfer water will flow down the Sacramento to the Sacramento-San Joaquin Delta, where it will be pumped by DWR at SWP Banks</p>	NOE

	Pumping Plant and conveyed to DRWD's and KCWA's service areas. This temporary transfer is intended to alleviate water shortages within their service areas due to ongoing dry conditions and would not support new development.		
2013078061	Class 2 Permit Modification to the Aerojet - General Corporation Hazardous Facility (Aerojet) Permit Toxic Substances Control, Department of --Sacramento The project is the California Department of Toxic Substances Control's (DTSC's) approval of a Class 2 Permit Modification to a Final Closure Plan for the Forced Draft Evaporative Treatment System (FDES Unit) previously removed from the location of former Building 00028 located on site. The Closure Plan is contained in the Hazardous Waste Facility Permit previously issued to Aerojet on March 28, 2009. The Class 2 Permit Modification removes the previously required 12" depth soil sampling and replaces this requirement with soil sampling to be conducted from depths of 1-foot below ground surface (bgs), and every five feet of depth thereafter, until first encounter with groundwater is reached. This approval is being granted pursuant to DTSC's regulatory authority under Title 22, Section 66270.73, Appendix 1(D)(1)(e).	NOE	
2013078062	Tooleville Mutual Nonprofit Water Association Water System Rehabilitation Project Public Health, Department of Exeter--Tulare The purposed project is a planning and feasibility study that will look at the most cost effective alternatives in solving the nitrate and coliform problem at the Tooleville Mutual Nonprofit Water Association such as: domestic test well drilling, sampling and testing including engineering; completing environmental documents; conducting a topographic survey; and completing final plans and specification for the selected project.	NOE	
2013078063	Thermalito Afterbay Outlet Stairway and Cableway Project Water Resources, Department of Oroville--Butte DWR proposes to replace the Afterbay Outlet flow measurement cableway and to install a new stairway at the Outlet staff gage. Both structures are in request to an employee Safety Action Request (SAR). The new stairway will greatly reduce the slipping, tripping, and the rattlesnake hazards. The current cableway is a safety hazard.	NOE	
2013078064	17 Location Bridge Deck Rehabilitation Project Caltrans #3 Woodland, Winters, Williams--Colusa, Yolo Caltrans is proposing to rehabilitate 17 bridges. The purpose of this project is to rehabilitate the bridges by completing necessary repairs. This project is necessary because not doing the work will lead to further deterioration of the bridges which will reduce the lifespan of the structures.	NOE	
2013078065	Sonoma County Department of Transportation Wallace Road Rincon Creek Bank Stabilization Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma The project is to repair a failing creek bank that is eroding into the roadway embankment. The roadway is narrow at the project location and without shoulders. The creek bank has eroded to the edge of the pavement. This area of the creek is well-vegetated with a mature tree canopy. It is not anticipated that	NOE

2013071023	Proposed Rule (PR) 1304.1 - Electrical Generating Fee for Use of Offset Exemption South Coast Air Quality Management District --Los Angeles The purpose of PR 1304.1 - Electrical Generating Facility Fee for Use of Offset Exemption, is to require any EGF that elects to use a specific offset exemption (Rule 1304 (a)(2)) to pay annual fees or a single, up-front fee for the amount of offsets provided by the SCAQMD. Offsets in SCAQMD internal accounts are valuable public goods. The purpose of this rule is to recoup the fair market value of offsets procured by eligible EGFs electing to use such offsets to comply with Rule 1304 (a)(2). The fee is a reasonable cost to confer the benefit of the offsets, and proceeds will be invested in air pollution improvement projects that further the goals of the 2012 AQMP. The IS identified the environmental topics of "air quality and greenhouse gas emissions" and "energy" as the only areas that may be adversely affected by the proposed project. Impacts to these environmental areas are further analyzed in the Draft EA.	EA	08/21/2013
2012061100	Lilac Hills Ranch Master Planned Community San Diego County --San Diego The Lilac Hills Ranch project is a master planned community encompassing 608 acres and would consist of 1,746 residences, 90,000 sf of commercial, office, and retail, a 50-room Country Inn, a 200 bed group care assisted living facility, and civic facilities that include public and private parks, a private recreational facility, and other recreational amenities, and may include a fire station or a remodel of an existing fire station (Miller Station) and a school (K-8).	EIR	08/21/2013
2013071020	Santa Ana Canyon - Below Prado Inland Empire Brine Line Protection Riverside County Flood Control and Water Conservation Corona--Riverside The Project consists of the installation of approximately 2,500 LF of AZ28-700 sheet pile, having a width of approximately two feet and an average toe depth of 55 feet (15 feet below the scour depth), with tiebacks spaced approximately every 10 feet. Construction will occur in two different locations along the existing Santa Ana River (SAR) Trail. The easternmost portion (near Prado Dam), will extend approximately 2,300 linear feet. The westernmost portion of the outlet to Aliso Canyon, will extend approximately 200 linear feet.	MND	08/06/2013

2012121062	McKittrick Class II Landfill Expansion Project (PP12237); ZCC 4, Map 118 /CUP 1, Map 118 (MOD) EIR 14-11 JLB Kern County --Kern Liquid Waste Management Inc. (LWMI) (project operator) has requested a modification of a CUP (CUP1, Map 118) to allow for expansion of an existing nonhazardous oil production and/or oily waste disposal facility within an A zone district. The McKittrick Waste Treatment Site (MWTS or facility) includes a Class II landfill disposal area, supporting uses and facilities on 27.1 acres of the 50-acre. The current Solid Waste Facility Permit (SWFP No. 15-AA-0105) would also be modified. The project proposes to expand the landfill footprint onto the adjacent 40-acre parcel. For purposes of this process, the existing facility is described as being located on the east parcel and the proposed expansion is described as being on the west parcel. Additionally, a zone change (ZCC 4, Map 118) from A-1 (Limited Agriculture) to A (Extensive Agriculture), has been proposed to bring the east parcel into consistency with the General Plan map code designation 3.4 (Solid Waste Facility). The proposed project would revise the SWFP by increasing the currently permitted daily tonnage from 1,180 tons per day (tpd) to 3,000 tpd.	EIR	08/22/2013
2013031060	San Diego International Airport - Airport Land Use Compatibility Plan (ALUCP) San Diego County Regional Airport Authority San Diego, Coronado, National City--San Diego Note: Extended per lead The ALUCP will promote compatibility between SDIA and the land uses that surround the Airport to the extent that these areas are not already devoted to incompatible uses. The SDIA ALUCP would accomplish this by regulating the future development of new residential dwellings, commercial structures and other noise - or risk-sensitive uses within the airport influence area (AIA) based on	EIR	08/26/2013

2010042012	Dumbarton Transit Oriented Development Trumark Residential Project Newark, City of Newark--Alameda The Project will install a clear span bridge over the F-6 channel, tributary to the former Plummer Creek adjacent to Willow Street in the City of Newark. The CA Dept. of Fish and Wildlife (CDFW) is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0346-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Glenn Brown/SHH Torian Project Owner, LLC.	NOD	
2011042017	Cole Creek Bridge Replacement Lake County --Lake The CA Dept. of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0062-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, County of Lake - Public Works Dept. The project is limited to the replacement of an existing bridge on Soda Bay Road (Bridge No: 14C-0061) crossing Cole Creek. The existing structure is 24-foot long (by 29-foot wide) a single span steel stringer bridge with timber deck boards on concrete abutments. From the banks or the existing roadway, this bridge will be dismantled and removed during the construction of the new structure. The new bridge will be placed in approx. the same alignment but will extend to 46 feet long by 40 feet wide. It will be a single-span pre-cast, pre-stressed, concrete slabs with reinforced concrete wall abutments. The abutments will be extended to support the new bridge. Each of the abutments has wing walls. In-channel work will be limited to removal of vegetation to accommodate the widening of the bridge and to increase the flow capacity underneath the bridge. All debris shall be removed from the streambed with minimal disturbance to the bed.	NOD

	Avenue and to improve turning and storage capacity.		
2013071041	McDonald Anticline Project Division of Oil, Gas, and Geothermal Resources --Kern Project proposes activities necessary to drill and produce 10 oil wells.	MND	08/12/2013
2013071047	Precise Development Plan No. 9, Map 124-1; Milli Transportation. Inc. by Nelms Surveying Kern County Bakersfield--Kern A Precise Development Plan to allow a truck parking facility with an associated enclosed truck repair building pursuant to Sections 19.36.020.E.2 and 19.36.020.D.5 of the Kern County Zoning Ordinance, respectively. As proposed, the facility would serve as a staging yard for 20 trucks with trailers (refrigerated units and flatbeds) to transport general commercial goods locally, regionally, and nationally. In addition, an existing 2,000 sf building will be utilized for minor truck repairs. Hours of operation for the trucking operation would be 24 hours a day, with truck repairs occurring between 7:00 a.m. to 10:00 p.m. Depending on where the delivery is scheduled, drivers may arrive at any hour for departure and may not return for several days. However, the majority of deliveries will take place Monday through Friday with most trucks on site during the weekend. Trucks will not be allowed to idle overnight; however, refrigerated trailer units will operate automatically to maintain temperature control. Water would be provided by a private water well, while sewage disposal is proposed by an on-site septic system which would require the granting of an exception to the sewer policies of the Metropolitan Bakersfield General Plan.	MND	08/13/2013
2013071050	Lido Villas Newport Beach, City of Newport Beach--Orange The Project proposes demolition and removal of an existing office building, church building, church reading room, and associated site improvements on a 1.2-acre property located at 3355 and 3303 Via Lido and redevelopment of the property by the construction of 23 new townhouse-style condominiums in five clusters with associated landscaping, drive aisles, and parking. Discretionary applications under consideration by the City of Newport Beach are as follows: - General Plan Amendment to change the existing land use designation of APN 423-112-02 (3303 Via Lido) from "Private Institutions (PI)" to "Multiple Unit Residential (RM)" - Coastal Land Use Plan Amendment to change the existing Coastal Land Use Plan designation of APN 423-112-02 (3303 Via Lido) from "Private Institutions (PI-B)" to "Multiple Unit Residential (RM-D)." - Zoning Code Amendment to rezone APN 423-112-03 (3303 Via Lido) from "PI (Private Institutions)" to "PC (Planned Community District)" and rezone APN 423-112-03 (3355 Via Lido) from "RM (Multi-Unit Residential)" to "PC (Planned Community District)." CA2012-008 also would establish standards for development of the property with 23 townhouse-style condominiums. - Site Development Review to allow the construction of 23 townhouse-style condominiums. - Tentative Tract Map to combine the site's existing six parcels into one parcel and establish a 23-unit condominium tract. 2009011010	Eagle Mountain Pumped Storage Project State Water Resources Control Board --Riverside The project is a pumped storage hydroelectric project which will provide 1,300 MW of generating capacity, using reversible pump-turbine units, with four units of 325 MW each. The Project will use off-peak energy to pump water from a lower reservoir to an upper reservoir during periods of low electrical demand and generate energy by passing the water from the upper to the lower reservoir through the generating units during periods of high electrical demand. The Project reservoirs will be formed by filling existing mining pits with water. A 500 kilovolt (kV) double circuit transmission line will convey power to and from the Project through an interconnection collector substation located west of the unincorporated town of Desert Center, California. Groundwater from the Chuckwalla Aquifer will be used to fill the reservoirs for the initial fill and makeup water.	FIN	
2011114001	Implementation of a Real Property Master Plan, Integrated Natural Resources Management Plan, and Integrated Cultural Resources Management Plan at Military Ocean U.S. Army Concord--Contra Costa Note: FYI - No state review period/distribution. The proposed action involves the implementation of future development and natural and cultural resource management at MOTCO in accordance with the framework provided in the RPMP, INRMP, and ICRMP. These documents provide overall direction for a long-term planning horizon of 20 to 50 years and provide more detailed planning and programming for short-term projects to be implemented in the 5 to 7 year timeframe. This EA addresses those short-term components for which detailed project planning has progressed to the point where it is prudent to analyze potential environmental impacts in detail. These include six RPMP projects that are estimated for funding from Fiscal Year (FY) 2017 to FY 2019, demolition of up to 50 structures with estimated timeline of FY 2012 and beyond, proposed livestock grazing/fire management/upland invasive species control and management, cantonment area wildlife control, perennial pepperweed control and management, and inventory and evaluation of cultural resources at MOTCO.	FIN	
1997081087	Boron Sanitary Landfill Permit Revision Project Kern County BORON--KERN The Project is to revise the Boron Sanitary Landfill (Boron SLF) Solid Waste Facility Permit (SWFP) and Waste Discharge Requirements (WDRs) to increase the size of the permitted facility to include adjacent property acquired as buffer for the landfill. The Boron SLF is permitted to operate by the: 1) SWFP (Permit No. 15-AA-0045), issued by the County of Kern Public Health Services Department, Environmental Health Division, acting as the Local Enforcement Agency for the CA Dept. of Resources Recycling and Recovery (CalRecycle); and 2) WDRs (Board Order No. R6V-2002-052), issued by the Regional Water Quality Control Board - Lahontan Region (Water Board). 2013071048	<p>Isbell Single-Family Residence, Project R2011-01126 / RENV 201300032 / RPP 201100959 Los Angeles County Calabasas--Los Angeles</p> <p>A new 2,997 sf single-family residence with attached 372 sf two-car garage and 545 sf storage area above the garage, new driveway, private septic system, landscaping, grading and related improvements. Estimated grading for the project includes 0 cubic yards of cut and 354 cubic yards of fill. An estimated 300 cubic yards of over excavation/alluvial removal and compaction is also proposed. The total project area is 0.84 acres, located within an unincorporated area near Calabasas in the coastal zone ("Project"). A septic system is proposed for sewage disposal and water will be from the Las Virgenes Municipal Water District. The Project requires approval in concept by Los Angeles County ("County"), as the Lead Agency for the Project, of an application for Director's Review.</p>	MND	08/13/2013
2013071049	<p>Equestrian and Large Animal Overlay District Chino Hills, City of Chino Hills--San Bernardino</p> <p>The purpose of the new Overlay is to provide standards and use regulations for equestrian and large animal operations for properties within the Overlay and to require best management practices in order to comply with water quality requirements that protect the water quality of natural water bodies, ground water and wetlands. The City's equestrian and large animal properties have a long history in the City that predates the City's incorporation. These amendments will preserve the City's rich rural and cultural equestrian heritage by bringing these properties into compliance with the Municipal Code and other applicable laws.</p>	MND	08/13/2013
2013072030	<p>Phase 1 Bay-to-Transit Trail San Mateo, City of San Mateo--San Mateo</p> <p>The proposed project would complete approximately 0.2 mile of the 1.82-mile Bay-to-Transit Trail between Caltrain's Hayward Park Station and South Delaware Street. The proposed path would consist of a 12-foot wide asphalt-paved path and painted center dividing line. Key features include: 1) Pedestrian-scale directed lighting on of 12-foot tall overhead lamp posts spaced every 50 feet along the pathway. 2) Bollard-type lighting and removable bollards to demarcate the trailheads at Hayward Park Station and South Delaware Street. 3) Landscaping with native low-water plants such as vines along the fences and various shrubs and low groundcovers elsewhere as shown in the project plans.</p>	MND	08/13/2013
2013072033	<p>PG&E Windsor Substation Public Utilities Commission Windsor--Sonoma</p> <p>Pacific Gas & Electric Company proposes to build a new 115/12 kilovolt (kV) distribution substation on a 4.11-acre parcel at 10789 Old Redwood Highway in the Town of Windsor, Sonoma County. The permanent fenced footprint of the substation would be approximately 2.6 acres. The north, east, and west sides of the substation would be bordered by 10-foot tall prefabricated perimeter walls. In addition to constructing and operating the substation, PG&E would work along Old Redwood Highway, Starr Road, and Gumview Road. Approx. 1.5 miles of the existing Fulton No. 1 60 kV Power Line would be rebuilt, replacing 39 wood poles with 38 wood poles and 1 steel pole and installing 2 new wood riser poles. Approx 1.8 miles of existing 12 kV distribution line would be reconducted; 44 wooden poles would be replaced with taller wood poles.</p>	MND	08/14/2013

2003041105	City of Anaheim Housing Opportunities Sites Rezoning Project Anaheim, City of Anaheim--Orange The City of Anaheim Housing Opportunities Sites Rezoning Project is proposed to implement the Housing Element's Housing Production Strategy 1V to rezone properties identified as Housing Opportunities Sites to facilitate "by-right" residential development at these locations. In addition, the City proposes to update the General Plan's Land Use Build-out Estimates and facilitate streamlined review per the Statutory Infill Housing Exemption and SB 226 (Simitian, 2011).	SIR	08/28/2013
2009011010	Eagle Mountain Pumped Storage Project State Water Resources Control Board --Riverside The project is a pumped storage hydroelectric project which will provide 1,300 MW of generating capacity, using reversible pump-turbine units, with four units of 325 MW each. The Project will use off-peak energy to pump water from a lower reservoir to an upper reservoir during periods of low electrical demand and generate energy by passing the water from the upper to the lower reservoir through the generating units during periods of high electrical demand. The Project reservoirs will be formed by filling existing mining pits with water. A 500 kilovolt (kV) double circuit transmission line will convey power to and from the Project through an interconnection collector substation located west of the unincorporated town of Desert Center, California. Groundwater from the Chuckwalla Aquifer will be used to fill the reservoirs for the initial fill and makeup water.	NOD	
2012082029	Dignity Health Elk Grove Medical Campus Project Elk Grove, City of Elk Grove--Sacramento Construction and operation of 456,719-square-foot, 330-bed hospital (consisting of four-story, 112, 050-square-foot Surgery and Maternity Hospital building section; six-story, 175,095-square-foot Hospital Expansion #1 building section ; and the six-story, 169,574-square-foot Hospital Expansion #2); a three-story, 65,000-square-foot medical office building (referred to as MOB #2); and a five-level, 169,520-square-foot parking structure.
