

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

June 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

<u>Documents Received on Monday, June 03, 2013</u>			
2013064001	Trust Conveyance of 876.12 Acres to Federal Trust, Tule River Tribe, Tulare County, CA. Bureau of Indian Affairs Porterville--Tulare The proposed action includes the trust conveyance of property from fee to federal ownership for the benefit of the Tule River Tribe; the phased construction of a Waste Water Treatment Plant; and the future construction (10 to 15 years) of 21 housing units.	EA	07/02/2013
2012061040	Goleta Beach County Park Managed Beach Retreat Project 2.0 Santa Barbara County Goleta--Santa Barbara The County is proposing to implement a managed retreat approach to address coastal erosion hazards at Goleta Beach County Park, which includes relocating critical infrastructure outside of the coastal process zone to protect against erosion and wave damage and allow the shoreline to oscillate naturally in response to climate cycles. The project includes removing existing unpermitted rock revetment, relocating threatened utilities and a portion of the bike path, removing two parking lots, and installing limited shoreline protection measures to protect high-value utility infrastructure that would be difficult to relocate landward.	EIR	07/17/2013
2013012053	Palo Alto Municipal Golf Course Reconfiguration and Baylands Athletic Center Expansion Palo Alto, City of Palo Alto--Santa Clara The City of Palo Alto is proposing to reconfigure the Palo Alto Municipal Golf Course in response to the San Francisquito Creek Flood Reduction, Ecosystem Restoration, and Recreation Project San Francisco Bay to Highway 101, proposed by the SFCJPA, which would permanently incorporate 7.4 acres of the Golf Course into the SFCJPA's project. The Project would reconfigure all 18 holes of the Golf Course and a portion of the driving range and replace a restroom facility, while retaining a regulation golf course with a par of 71. The reconfigured Golf Course would be designed with a Baylands theme that would incorporate or modify the existing low-lying areas into the Golf Course. The City is proposing to incorporate 10.5 acres of the existing Golf modify the existing Course into the Baylands Athletic Center to be converted into up to five full-size soccer fields and a 24,100 sf gymnasium.	EIR	07/17/2013
2013042019	69 kV Electric Transmission Line Vegetation Management Program Parks and Recreation, Department of Crescent City--Del Norte Pacific Power proposes to conduct vegetation management activities in Del Norte Coast Redwoods State Park along the Line 87 power line. This IS/MND covers the section of Line 87 that is located within Del Norte Coast Redwoods State Park. Line 87 requires vegetation management work to comply with State and federal clearance requirements. Pacific Power's existing vegetation management program controls tall growing vegetation under or around Pacific Power's power lines to provide safe and reliable power to its customers. Vegetation conditions can often pose significant threats to transmission facilities, which can result in lengthened power outages and safety risks for the public. This MND addresses potential environmental impacts from the Vegetation Management Program and	MND	07/03/2013

	provides Mitigation Measures to reduce those impacts.		
2013061002	ENV-2013-260-MND / 15233 W. De Pauw Street Los Angeles, City of --Los Angeles Pursuant To LAMC Section 12.20.2, a Coastal Development Permit for three new single-family homes on three lots, each zoned R1-1. Two lots are currently vacant, one lot is currently occupied by a single-family home. In addition, a Mello Determination for each of the three new-single family homes.	MND	07/02/2013
2013061003	ENV-2013-0998-MND Los Angeles, City of Los Angeles, City of--Los Angeles The construction, use and maintenance of a new 85,631 sf, two-story church that is 42-feet and 3-inches in height and 1,107 parking spaces on a 410,980 sf (9.4 acre), irregularly-shaped site in the [T][Q]M1-1VL Zone. The new structure will include gathering spaces, a 1,130-seat worship room, various chapels, a fellowship hall, and kitchen. The proposed hours of operation are 5 am to 10:00 pm, seven days a week. The existing 263 parking spaces and asphalt surface will be replaced by the 1,107 parking stalls. The project is expected to remove up to 250 cubic yards of dirt onto the site for construction.	MND	07/02/2013
2013061005	Digital Message Boards Vista, City of Vista--San Diego The proposed project involves construction and operation of two new outdoor light emitting diodes (LED) message boards located along SR-78. The LED displays would be 48 feet wide by 14 feet tall mounted on a sign column with the overall height approximately 40 to 70 feet above grade. Each message board would have two display panels oriented in a "V" shape such that the display panels face the two directions of highway traffic. The image on each display would be static for a period of time, usually eight seconds, before cycling to the next image. The purpose of the proposed project is to communicate public service messages for the benefit of the community, as well as paid commercial messages to generate additional revenue for the City.	MND	07/02/2013
2013062001	Campus Crest Student Housing (P12-038) Sacramento, City of Sacramento--Sacramento The proposed project would consist of construction and operation of a 224-unit market rate student housing development, containing 12 buildings, a clubhouse, activity area, and green space. The project would provide a safe and convenient student housing opportunity for a number of students in the area, and specifically for CSUS. At completion of the proposed project, the project site would be gated and comply with the City's gating standards, and would provide on-site parking for its residents. The 224-unit housing development would include up to 600 individual beds and the number of available parking spaces would match the number of proposed beds for the project site, resulting in an approximate 1.01 parking spaces per bed ratio (604 parking spots) and avoiding overflow parking impacts on the surrounding neighborhood. The project's residents would have easy access to the existing light rail station, transit center, and would be located in close proximity to CSUS.	MND	07/03/2013

2013061004	RE Clearwater Solar Project and RE Yakima Solar Project by RE Clearwater LLC and Re Yakima LLC (PP 13266); (EIR JEG 01-13) Kern County Mojave--Kern Two separate projects are proposed that would consist of two individual contiguous solar facility sites, totaling 429 acres in the southeastern portion of Kern County, southwest of the community of Mojave. Each of the proposed solar facilities would develop and operate a 20 megawatt photovoltaic electric generation facility. The proposed projects would transmit energy through a substation on the RE Yakima project site to a 66 kV transmission line connecting the solar facilities with the existing Windhub Substation. The projects would require approval of Zone Changes (ZCC) and Conditional Use Permits (CUP) from the Kern County Board of Supervisors. The proposed zone changes would revise the existing zoning to A (Exclusive Agriculture) and A FPS (Exclusive Agriculture, Floodplain Secondary Combining) for both projects. The FPS zoning would continue to be applied in areas located within a flood zone. Construction and operation of solar electrical generating facilities are permitted on sites designated as A (Exclusive Agriculture) with approval of a CUP.	NOP	07/02/2013
2013061001	ENV-2013-802-ND / 9502 S. Anzac Avenue Los Angeles, City of Los Angeles, City of--Los Angeles 1) Pursuant to the provisions of Section 12.27-B of the Los Angeles Municipal Code, Zone Variances from: a) Section 12.08 to permit the continued use and maintenance of a nonconforming grocery store, and to permit the sale of beer and wine only for off-site consumption as otherwise not permitted by Section 12.21.A, 10 in the R1-1 Zone, with proposed hours of 7:00 am to 7:00 pm daily; b) to permit 0 parking spaces in lieu of the 2 required spaces of Section 12.21.A.4(X)	Neg	07/02/2013
1991051055	DISNEYLAND RESORT SPECIFIC PLAN Anaheim, City of ANAHEIM--ORANGE The action is which is the subject of this Notice of Determination is the approval of Amendment No. 4 to the Second Amended and Restated Development Agreement No. 99-01 (the "Amendment"), between the City of Anaheim and Garden Walk Hotel I, LLC, as it pertains to the construction of two hotels previously approved as part of the Point Anaheim/Anaheim Garden Walk Project ("GardenWalk Project"). The Amendment postpones the required construction start date and allows phased construction. The Amendment does not change the previously-adopted Pointe Anaheim Initial Study/Mitigated negative Declaration ("IS/MND") was prepared, considered, and approved in connection with the City's approval of the Amendment and to evaluate whether the Garden Walk Project could have any new or more severe potential environmental impacts beyond what was considered in the previously-adopted IS/MND for the previously-approved Garden Walk Project. The Addendum confirmed that none of the circumstances set forth in Section 15162 of the CEQA Guidelines was present and that no further environmental review is necessary.	NOD

	approximately 21.08 acres within Tract 8109. The project proposes four floor plans that would be available for each plan in three of four different architectural styles.		
2007011084	River Road Tract Map SUB2003-00164, Tract 2637 San Luis Obispo County --San Luis Obispo Proposal by Tony Ritter to subdivide a 12.18-acre parcel into 60 parcels including 58 residential lots of 2,936 to 5,395 square feet each, one 2.07-acre open space lot with a 5,807-square foot building site (existing), and a 2.49-acre unbuildable open space lot, each for the purpose of sale and/or development. Additional improvements include a 14,104-square foot park and pedestrian walkway. The project will result in the disturbance of approximately 8 acres of a 12.18-acre parcel. The division will create three new on-site roads (Verde Street, Rosemary Court, and Stanley Circle). The proposed project is within the Residential Single Family land use category.	NOD	
2007034002	Graton Rancheria Casino and Hotel National Indian Gaming Commission Rohnert Park--Sonoma The Project includes the development of 10.32 acres of undeveloped land for roadway improvements. The Project will result in permanent impacts to 10.32 acres of California tiger salamander (<i>Ambystoma californiense</i>) habitat and includes 0.28 acres of Sebastopol meadowfoam (<i>Limnanthes vinculans</i>) and Sonoma sunshine (<i>Blennosperma bakeri</i>) habitat. The Project is expected to result in incidental take Of California tiger salamander, which is designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	NOD	
2010122088	The 2011 Fisheries Restoration Grant Program Fish & Game #2 --Del Norte, Humboldt, Madera, Mendocino, Napa, ... The Project will address recovery priorities through an implementation project of upslope restoration prescriptions to reduce road-related sediment at 24 sediment source locations on 2.9 miles of abandoned roads. This project will project and improve salmonid habitat by controlling and preventing road-related erosion and sediment delivery from specific roads in the Little Salmon Creek watershed, tributary to Salmon Creek and Humboldt Bay.	NOD	
2011031024	East Village Phase III Annexation (Project) Oxnard, City of Oxnard--Ventura Annexation only to the City of Oxnard, detachment from the County of Ventura, 107 acre farm with two residences and related structures.	NOD	
2011071075	Chapala Street Bridge Replacement Project Santa Barbara, City of Santa Barbara--Santa Barbara DFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2012-0206-R5) to the project applicant, City of Santa Barbara, Public Works. The project proposes to impact 900 square feet of streambed/lake, including 900 square feet of temporary impact to disturbed habitat and mitigate with 900 square feet of creation,	NOD

	restoration and/or enhancement and provide steelhead passage under the bridge.		
2011092067	Solano 360 Specific Plan Solano County Vallejo--Solano The 149.11-acre Solano County Fairgrounds site is located immediately southwest of the Interstate 80 (I-80) and State Route 37 (SR-37) interchange in the City of Vallejo, CA, adjacent to the Six Flags Discovery Kingdom theme park and Lake Chabot. The project consists of the Solano360 Specific Plan, which was developed as a result of the City of Vallejo, the Solano County Fair Association, and the County of Solano's joint visioning process for redevelopment of the Fairgrounds site.	NOD	
2012092004	Crystal Springs County Sanitation District Wastewater Collection System Improvements MND/IS San Mateo County San Mateo--San Mateo The project proposes replacement of existing sanitary sewer vitrified clay pipe (VCP) with high density polyethylene (HDPE) pipes in specific areas of the Crystal Springs County Sanitation District (CSCSD) using primarily the pipe bursting construction method. The specific areas in which new pipe is proposed include the following: Randall Road area, Timberland Way area, Lexington Avenue area, Parrott Drive area, Rainbow Drive area, and South Ascension Drive Area. In most locations, 6" VCP pipe will be replaced with 6" HDPE pipe. However, in some locations where 8" pipe exists downstream of the segments to be replaced, the 6" VCP will be upsized to 8" HDPE. After pipe replacement, existing laterals along the pipe alignment will be re-connected to the new pipe. Existing brick manholes will also be replaced with concrete manholes.	NOD	
2012122065	Mary Ann Hague - Minor Subdivision - MS Del Norte County --Del Norte The project involves splitting one 3.15-acre parcel into two parcels, Parcel 1 is proposed to be 1-acre, and Parcel 2 is proposed to be 2.15-acres. Parcel 1 is currently developed with an existing single family residence; Parcel 2 is not developed. Each proposed parcel meets or exceeds the minimum lot sizes as required by the County Zoning Code. There is a small watercourse along the northern boundary of each proposed parcel. A 50-foot buffer is being recommended from the edge of the riparian habitat. Development in this area requires onsite water and sewer. Access to each proposed parcel is from Highway 197.	NOD	
2013021004	Seismic Bridge Retrofit Project Water Resources, Department of --Merced, Fresno, Kings, Kern, San Bernardino The purpose of the proposed project is to remedy structural seismic design deficiencies of the 23 bridges that were selected through the screening process per SB 36X. To remedy the ability of the brigs to withstand seismic movement in the transverse direction during an MCE, DWR has determined that all of the bridges' retrofits would require installing seat extenders and shear keys at abutments and some piers. The seat extenders provide a longer support area for the girders at abutments which in turn provides sufficient structural strength to provide restraint during an MCE. Additionally, two of the brigs (at Rancho Street and Maple Avenue) require replacement of the deck. Deck replacement would	NOD

	help to remedy structural deficiencies in the deck by strengthening to support legal loads and to correct structural deficiencies noted during bridge inspections.		
2013022053	Capell Creek Slope Indicators and Drainage Caltrans #6 --Napa Install equipment necessary to monitor and evaluate the sliding hillside above the north abutment of the Capell Creek Bridge. Install approximately 12 new horizontal storm drains reaching 200 feet back into the hillside adjacent to the Capell Creek. Clean out the existing horizontal drains adjacent to State Route 128 north of the Capell Creek Bridge to improve their performance.	NOD	
2013052013	2013 Water Transfer Program Sutter Extension Water District Yuba City--Sutter The Sutter Extension Water District (District) proposes to sell up to 3,136 acre-feet (af) of water to the participating member districts of the State Water Contractors Incorporated (Buyers) during the 2013 irrigation season. The District proposes to make water available through groundwater substitution within the boundaries of the District. Buyers are seeking up to approximately 135,000 af to transfer water from various willing sellers in the Sacramento Valley during the 2013 irrigation season. Purchasing this water would lessen potential water supply shortages to these Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta.	NOD	
2013068001	Transfer of Coverage to El Dorado County APN 28-052-12 (Riva) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 1003 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013068002	Transfer of Coverage to El Dorado County APN 15-213-16 (Olin Trust) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 294 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013068003	High Tension Cable Median Barrier Caltrans #6 --Madera The installation of a High Tension Cable Median Barrier on SR-152, where construction would include the reconstruction and paving of the inside and outside shoulders with rumble strips, drainage improvements, and erosion control. The project would not require work outside of the existing right-of-way, therefore no acquisition of right-of-way is required.	NOE

<u>Documents Received on Monday, June 03, 2013</u>			
2013068004	Creative Autism Solutions Team (CAST) (PLPA-2013-00016) Dublin, City of --Alameda On May 28, 2013 the City of Dublin Planning Commission approved a Conditional Use Permit for the operation of a Day Care Center with up to 50 children at 6533 Sierra Lane, Dublin, CA 94568.	NOE	
2013068005	Briceland Thorn Road at McKee Creek, Bridge Scour Protection Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The project involves placement of approximately 100 cubic yards of half-ton to two ton rock riprap along the base both abutments of the bridge on Briceland Thorn Road over McKee Creek to prevent additional scour and protect the bridge structure from erosion during high flows in Mckee Creek.	NOE	
2013068006	Sonata Culvert Removal Fish & Wildlife #3 --Sonoma The project is limited to the removal of an existing corrugated metal pipe drain and flap gate from the bank of Foss Creek. An approximately 3-foot wide by 9-foot long area will be excavated to remove the pipe. The area will then be backfilled with native soil, compacted and replanted. Issuance of a Streambed Alteration Agreement Number 1600-2013-0102-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013068007	Santa Barbara Route 101 Corridor Improvements Project Caltrans #5 --Santa Barbara The purpose of the project is to improve the safety of night time driving on U.S 101. The project proposes to install a overhead guide sign panels, replace and upgrade delineation for metal beam guardrail and concrete barrier, replace and install signs, install approximately 12 electroliers, and new lighting.	NOE	
2013068008	First-Year of the First Five Year Implementation Strategy of the 2010 Bicycle Plan - Northeast Area Los Angeles, City of --Los Angeles The Proposed Project consist of 8.1 miles of new bicycle lanes to Avenue 64, that would be striped within the existing right-of-way. The implementation of Proposed Project would result in greater bicycle network benefits.	NOE	
2013068009	Conveyance of up to 10,000 acre-feet of Friant Recirculation Water Water Resources, Department of --Kings The Tulare Lake Basin Water Storage District will take delivery of up to 10,000 acre-feet of Friant Recirculation Water under Article 55 of its State Water Supply Contract. The water is currently stored in San Luis Reservoir on behalf of Lower Tule River Irrigation District. The Water will be conveyed through the California Aqueduct and delivered to the District in Reaches 8C and 8D. In exchange, a comparable amount of local river supplies will be delivered by District landowners to LTRID.	NOE

2013068010	Jackson Demonstration State Forest - Windlinx Land Exchange General Services, Department of --Mendocino This project involves encroachment by a private landowner on state-owned property located in the Jackson Demonstration State Forest. The encroachment situation involves access to private property that is about 9 acres, bordered on three sides by the Jackson DSF, and on the fourth side by a private party. The situation was litigated and resolved out of court through a negotiated settlement agreement.	NOE	
2013068011	Culvert Failure Caltrans #1 --Humboldt The emergency project proposes clearing out the clogged culvert and installing a debris rack. The purpose is to preserve the integrity of the roadway prism and to prevent degradation of the existing facilities. The project is necessary to ensure the safety of the travelling public.	NOE	
2013068012	Establishment and Operation of Almond Orchard Salida Union School District --Stanislaus The project consists of the planting and maintenance of an almond orchard and using the almond orchard for farming almonds and for education and research purposes. The project will also include installation of an irrigation system. The project will involve negligible or no expansion of present size or use of the Property which is already being farmed.	NOE	
2013068013	Hart Creek Estates Mutual Water Company Pipeline Flushing Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Kern Project proponent will conduct maintenance of its potables water delivery system by occasionally flushing the water supply pipelines. The flushing activities may result in an estimated 185,000 gallons discharge to surrounding unnamed creeks per flushing event.	NOE	
2013068014	Valencia HS/ Auditorium HVAC/ Project #VHS-9224-9303-030 Placentia-Yorba Linda Unified School District --Orange Alterations to Auditorium which will create a Storage Room to accommodate an added HVAC system for Auditorium.	NOE	
2013068015	Jackson Demonstration State Forest Campground Maintenance and Improvements Forestry and Fire Protection, Department of --Mendocino This project involves annual routine maintenance and improvements within existing campground and day use areas on Jackson Demonstration State Forest. Maintenance activities include: road improvements; minor changes to campsite layout; installation of kiosks, displays, and information stations; repair, replacement, and installation of tables, fire pits, barbeques, vault toilets; installation of signs and markers; installation of fences, corrals, and barriers to define use areas.	NOE

2011041032	Hyperion Tretation Plant Digester Gas Utilization Project Los Angeles, City of El Segundo--Los Angeles The City of Los Angeles, Lead Agency, has prepared a DEIR for the proposed project. The City's Bureau of Sanitation (BOS) owns and operates the Hyperion Treatment Plant (HTP), which treats wastewater and biosolids at 12000 Vista del mar in Playa del Rey. Digester gas produced at HTP is treated to remove sulfur and moisture and is piped to Scattergood Generating Station (SGS) under an energy exchange agreement. This arrangement will continue through to 2017. Instead of flaring the gas, the BOS proposes to beneficially use the renewable digester gas in a combined cycle cogeneration system, ensuring that the HTP has reliable electricity and steam for plant use. Two transformers, a substation, and related interconnections will also be installed. Copies of the DEIR are available for public review.	EIR	07/18/2013				
2011022041	Shasta River Tailwater Reduction Project Shasta Valley Resource Conservation District Montague--Siskiyou The Shasta Valley Resource Conservation District (SVRCD) is the lead agency for the Shasta River Tailwater Reduction Project located within the central portion of the unincorporated area of Siskiyou County, CA. In February of 2011 an IS and MND, prepared in accordance with CEQA, was prepared to evaluate the potential effects of the project and was circulated by the State Clearinghouse for a period of 30 days.	MND	07/03/2013				
2013061006	North Paso Robles Rehabilitation Project Caltrans #5 Paso Robles--San Luis Obispo Caltrans proposes pavement rehabilitation of the existing Hwy 101 from the San Marcos Creek Bridge in San Luis Obispo County to the Monterey County line (post miles 63.2 to R69.3) and from the Monterey County line to 0.25 mile south of East Garrison Overcrossing in Monterey County (post miles R0.0 to 1.9). 2013062002	2585 El Camino Real Residential Project Santa Clara, City of Santa Clara--Santa Clara Note: Reference SCH# 2011022067 General Plan Amendment from Community Mixed Use to High Density Residential, Rezoning from CT-Thoroughfare Commercial to PD-Planned Development, and Tentative Subdivision Map to allow the development of a four story, 60-units condominium building at the density of 43 dwelling units per acre.	MND	07/03/2013
2013062003	Alderpoint Road Tank Replacement Project - Garberville Sanitary District Garberville Sanitary District --Humboldt The project site is approximately 1.7 miles northeast of the center of Garberville, on the north side of Alderpoint Road. The project consists of the replacement of an existing water tank with a new water tank in the same location (on the footprint of the existing tank). The existing 30,000 gallon-capacity tank leaks at the rate of approximately 6 gallons per minute. The District proposes to construct a new 200,000 gallon tank made of coated, painted steel. After the existing tank and concrete pad are removed, the site will be excavated approximately 4 feet and graded to create a flat base. A new, 40 foot by 40 foot concrete pad will be poured on-site and the new tank will be installed. A new, 8-foot cyclone security fence and will be installed.	MND	07/03/2013
2013064002	Jamul Indian Village Supplemental EIS National Indian Gaming Commission --San Diego The Proposed Project includes the approval of a Gaming Management Agreement between the Jamul Tribe and San Diego Gaming Ventures, LLC, which would allow SDGV to manage the approved 203,000 sf tribal gaming facility to be located on the Tribe's existing reservation.	NOI	07/08/2013
2011122041	3333 Scott Boulevard Office Development Project Santa Clara, City of Santa Clara--Santa Clara Rezoning, Architectural Review, and Tentative Parcel Map to allow an increase from the previously approved 735,000 sf five story office buildings to total building sf of 1,358,647 up to twelve story buildings with a total of 4,347 parking spaces.	NOP	07/03/2013
2012012060	Sierra Waste Recycling and Transfer Station-Large Volume Transfer Station Operation Sacramento County Sacramento--Sacramento The modified permit allows for the following: A change in permitted traffic volume from 150 vehicles per day to 450 PCE's (passenger car equivalents) per day. One transfer truck equals 3 PCE's.	NOD	
2012091069	Island Elementary School Improvement Project Island Elementary School Lemoore--Kings The project consists of the construction of new facilities and modernization of existing facilities within the existing school site. The new construction components consist of: 1) a gymnasium with three classrooms, a kitchen, vestibule, and restrooms; 2) a new classroom wing (8 classrooms); and 3) a new Kindergarten	NOD

2013062008	Prairie City State Vehicular Recreation Area General Plan Parks and Recreation, Department of Rancho Cordova--Sacramento Preparation of a General Plan and associated EIR to determine land use and resource management provisions.	NOP	07/05/2013
2013042015	Delta Flood Emergency Facilities Improvement Project Water Resources, Department of Stockton, Rio Vista--San Joaquin, Sacramento, Solano NOTE: Reponse to Comments 1 HC & 1 CD The DWR Delta Flood Emergency Facilities Improvement Project is a component of the DWR Delta Emergency Preparedness, Response and Recovery Program, collectively aimed at: 1) protecting the lives, property, and infrastructure critical to the functioning of both the Delta and CA; 2) Protect water quality and restore water supply for both Delta and export water users during and after a flooding event in the Delta; and 3) minimize impacts to environmental resources. The purpose of the FIP is to ensure that the State has the appropriate infrastructure and supplies in the Delta to respond and recover quickly and effectively from major flood or earthquake disasters in the Delta. The FIP consists of improving three waterside material transfer facilities within the Sacramento San Joaquin Delta at the noted locations above.	Oth	
1991073040	Yolo County Central Landfill Permit Revisions Yolo County Davis--Yolo This project involves a minor amendment and update to the Countywide Siting Element of the Yolo County Waste Management Plan. The original countywide Siting Element Was prepared in July 1995 and has remained unchanged since that time. In 2011, the University of California Davis Landfill (57-AA-004) ceased accepting solid waste and final closure is scheduled for summer 2013. Because of this change in solid waste disposal facilities within Yolo County, a revision to the Siting Element is necessary. Even with closure of the University of California Davis Landfill, Yolo County still has more than the fifteen year disposal capacity required by Public Resources Code Section 41700-41704.	NOD	
2008091085	Water Reclamation Facility (WRF) #2 - Tertiary Filtration Project Corona, City of Corona--Riverside An EIR for the Groundwater Management Plan was adopted by the City Council of the City of Corona in 2012. The GWMP identified eight categories of management strategies and defined 25 specific management strategies for implementation of the GWMP, which are intended to facilitate a sustainable groundwater resource supply for the City. The PEIR (incorporated herein by this reference) analyzed the environmental impacts of the GWMP and imposed mitigation measures set forth in a Mitigation Monitoring and Reporting Program.	NOD	
2009091125	California High-Speed Train Project Merced to Fresno Section High Speed Rail Authority, California Merced, Chowchilla, Madera, Fresno--Madera, Merced, Fresno The Authority Board is implementing a subsequent activity pursuant to the Final EIR/EIS for the California High-Speed Train project Merced to Fresno Section,	NOD

	which was approved May 3, 2012. The approval of subsequent activities, including contracts for construction of the Merced to Fresno section, was explicitly contemplated in the Final EIR/EIS for the High-Speed Train Project Merced to Fresno Section.		
2010051068	<p>Recycling Market Development Zone (RMDZ) Los Angeles County Azusa, Baldwin Park, Covina, El Segundo, Culver City, ...--Los Angeles</p> <p>The project consists of an application submitted Los Angeles County Recycling Market Development Zone to expand its current designated boundaries by including eight additional jurisdictions. The Los Angeles County Zone is currently comprised of eleven jurisdictions, including the cities of Burbank, Carson, Commerce, Compton, El Monte, Glendale, Inglewood, Palmdale, South Gate, Torrance and Vernon. The Administrator for the Los Angeles County Zone submitted an application in February 2013 requesting that the boundaries of the Los Angeles County Zone be expanded to include the cities of Azusa, Baldwin Park, Covina, Culver City, Huntington Park, Monrovia, Santa Fe Springs and Whittier. The expansion is sought to increase the diversion of materials from area and regional landfills and to provide technical and financial support to additional business that use materials from the waste stream to manufacture their products.</p>	NOD	
2012112018	<p>Bear Gulch Weir Project Woodside, City of Woodside--San Mateo</p> <p>CA Water Service Company (Cal Water) operates a water diversion facility for municipal water supply on lower Bear Gulch Creek. The facility (Station 3) is located immediately upstream of a privately maintained bridge crossing that services a residence at 321 Manzanita. Cal Water developed an operations plan that includes new minimum bypass flow requirements for Station 3 in consultation with the California Department of Fish and Wildlife (CDFW) and the National Marine Fisheries Service (NMFS). Cal Water is installing a system to accurately gage daily stream flows at Station 3, including the bypass flow downstream of the Station 3 water intake. The weir design and location will provide fish passage for both adult and juvenile salmonids and it will meet approach velocity criteria for fish protection at the intake fish screen. The CDFW is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0036-3 pursuant to Section 1602 of the Fish and Game Code to Mark Bloom, Calwater.</p>	NOD	
2012122061	<p>Bertelli Zone Change 05RZ-120 and Vesting Tentative Parcel Map 05T-118 Tuolumne County --Tuolumne</p> <p>To divide the 7.7+/- acre parcel into three parcels and a remainder as follows: Parcel A-1.8+/- acres, Parcel B - 1.2+/- acres, Parcel C - 1.3+/- acres and the Remainder - 3.4+/- acres, pending approval of the zone change.</p>	NOD	
2013012030	<p>Pioneer Bluff Bridge West Sacramento, City of West Sacramento--Yolo</p> <p>This proposed project involves the construction of a bridge connecting the existing two-lane South River Road on the north side of the barge canal to the South River Road on the south side of the barge canal. The project will provide a necessary alternative to north-south traffic and relieve congestion on Jefferson Boulevard.</p>	NOD

	Solano. Specifically, the project at CMF includes construction of a new primary care clinic, emergency room, and medication distribution room totaling approximately 9,900 sf of new building space, and interior renovations. The project at SOL includes construction of a new facility care clinic, and four medication distribution rooms totaling approximately 17,000 sf of new building space and interior renovations. The projects do not include any new beds and would not increase inmate capacity. One addition employee would be hired at each institution.		
2013068068	Issuance of Streambed Alteration Agreement No. 1600-2013-0046-R1, Potem Creek Ford Maintenance Fish & Wildlife #1 --Shasta The project is limited to maintenance of an existing ford crossing Potem Creek, including removing encroaching vegetation, minor grading to allow for safe vehicle access, and importing 8-16 yards of 3+ gravel to minimize the import of sediment entering the channel. There will be no removal of healthy, mature, scenic trees as a result of this project. The project will have no significant effect on the environment.	NOE	
2013068069	Residence Kitchen Repair Parks and Recreation, Department of --Monterey Repair water damage kitchen at the Jefferson Street state residence at Monterey State Historic Park to preserve and protect the historic building. Work will replace faucet using products and materials similar to existing.	NOE	
2013068070	Gold-Hill-Eight Mile 230 kV Transmission Line Vegetation Removal Project - Backwater of the Consumnes Rlver Fish & Wildlife #2 --Sacramento The project is limited to removal of trees and vegetation within an ephemerally inundated backwater area of the Consumnes River. Vegetation maintenance is required to maintain a safe clearance between the high voltage transmission line and vegetation thereby eliminating the potential for vegetaion to fall onto or come into contact with the transmission line and cause power outage or fires.	NOE	
2013068071	Gas Line 124b MP 8.1 Exposed Pipe Project Fish & Wildlife #2 --Placer The project includes removal of approximately 65 feet of existing pipeline due to exterior deterioration and replacement of the pipeline approximately 15 feet deep, below the canal. To remove and replace the pipeline segment, a trench will be excavated around the pipe of 70 feet long by 8 feet wide by 15 feet deep within the utility line easement.	NOE	
2013068072	Prosser Creek Spawning Gravel Enhancement, SAA# 1600-2013-0060-R2 Fish & Wildlife #2 --Nevada The project is limited to the restoration of fish spawning habitat in Prosser Creek below Prosser Creek dam.	NOE

2013061010	2014-2021 Housing Element Baldwin Park, City of Baldwin Park--Los Angeles The project is the adoption and implementation of the Baldwin Park 2014-2021 Housing Element that represents an update of the City's certified Housing Element. The proposed Housing Element addresses future residential development to meet SCAG's RHNA allocation for Baldwin Park during the 2014-2021 planning period. The Housing Element is a policy document and does not propose the development of residential units.	MND	07/08/2013
2013062009	Sierra Tract Erosion Control Project Phase 3 and 4 South Lake Tahoe, City of South Lake Tahoe--El Dorado An alternatives evaluation was conducted per the guidelines presented in the Formulation and Evaluation of Alternatives for Water Quality Improvement Projects which resulted in a stakeholder consensus on a Preferred Alternative, hereafter known as the Project. The Project's water quality improvements have been designed in accordance with the SWQIC preferred design approach, emphasizing source control first, then hydrologic controls, and finally, treatment control. The source controls included in the proposed Project are designed to stabilize soils and associated nutrients so they do not enter the stormwater runoff stream. Conveyance systems for the Project have been designed to minimize concentrated surface runoff by maximizing infiltration as close to the source of runoff as possible. The treatment BMPs have been designed to treat the runoff of more frequent, smaller storm events, unlike flood control measures that are typically designed to store or convey the peak flow rates or detain sufficient volume to reduce the peak flow rate of infrequent storm events. The improvements have been configured in a "treatment train" system to maximize stormwater quality improvement and provide multiple layers of protection for receiving waters downstream of the Project area.	MND	07/08/2013
2013062010	Yuba Crossings Shopping Center Yuba City Yuba City--Sutter The proposed project will be constructed in phases and consists of the following buildings and improvements: Retail Building A - 20,000 sf; Retail Building B - 15,600 sf; Pharmacy - 14,614 sf; Restaurant - 5,600 sf; Self Storage Facility - 39,662 sf. In addition to the proposed development plan, the proposed project also includes: A General Plan Amendment to amend the land use of the subject property from Low Density Residential (LDR) to General Commercial (GC); A Rezone to change the zoning on the subject property from R-1 (Single-Family Residential) to C-3 (General Commercial); and, a Use Permit to allow for a drive-through at the proposed pharmacy building.	MND	07/08/2013
2013062011	PD12-0003/Green Valley Convenience Center El Dorado County --El Dorado 1. Development Plan to allow construction of the following: a. 4,602 sf open-sided canopy w/8 self-service fuel pumps; b. 2,773 sf convenience store; c. 2,183 sf fast food restaurant with a drive-through; d. 1,196 sf single-bay self-service carwash; e. 171 sf trash enclosure; f. 20'8.75" tall monument site identification sign;	MND	07/08/2013

	g. 12-foot tall retaining wall, and		
	2. Finding of Consistency with General Plan Policy 7.3.3.4 to allow a reduction of the wetland setback from 50 feet to ten feet with construction and structures within the required setback.		
2013062012	Parcel Map 11-003 (Reynolds) Shasta County --Shasta Request for an approval of a Parcel Map consisting of the division of a 139.6-acre property into two parcels being 79.3 acres and 60.3 acres in size.	MND	07/08/2013
2013062015	Etter General Plan Amendment/Zone Reclassification/Final Map Subdivision Humboldt County --Humboldt The GPA proposes to extend the Rural Community Center (RCC) designation and re-designate from Agriculture Grazing to RCC: (1) the Cal Fire 3-acre site, (2) a 36-acre portion of the Etter Ranch and (3) the 32-acre homesite for Ray Etter and the PG&E Switching Station. The rezone proposes a reclassification from Agriculture Exclusive and Unclassified to: (1) Qualified Neighborhood Commercial (C-1-Q), (2) Agricultural General with a B-6 combining zone that fixes the lot size to the map of record (AG-B-6) and (3) Rural Residential Agriculture (RA-2.5) consistent with the proposed GPA and the existing and proposed uses of the properties. Both the GPA and rezone will facilitate a major subdivision of the Etter Ranch into five parcels ranging in size from 3 to 12 acres and a designated remainder of 1,912 acres. Lands zoned TPZ or within the designated Remainder are not affected by the GPA or rezone. The project will facilitate development of businesses on Parcels 1, 2, and 3 and will modify the use of existing dwellings on these parcels to caretaker units, and will separate the Mary Etter homesite as Parcel 5, apart from the remaining Ranch property.	MND	07/08/2013
2013062016	UP-00-0017 (RA) San Joaquin County Tracy--San Joaquin A Revision of Approved Actions Application to add twenty-two marketing events per year with a maximum attendance of 100 people per marketing event for a previously approved small winery with no marketing events. The applicant has indicated eighteen marketing events per year will have a maximum attendance of forty people per marketing event and four marketing events per year will have a maximum attendance of 100 people per marketing event. Outdoor amplified music is proposed at the marketing events.	MND	07/08/2013
2013062018	Curtis Landing Fish Release Site Improvements Project Water Resources, Department of Rio Vista--Sacramento The Curtis Landing Fish Release Site Improvements Project includes demolishing the existing fish release system and existing site access gate; removing wood piles within 50 feet upstream of the existing release pipe; raising and re-grading the adjacent levee road; installing a reinforced concrete operation pad on top of the levee crown; constructing a concrete wall, for replacement of rip-rap; replacing the fish release system; installing an automated site access gate; and modifying existing electrical power systems and site lighting. 2013061011	Foxen Petroleum Pipeline Project Santa Barbara County Santa Maria--Santa Barbara The applicant proposes to install two insulated eight-inch diameter steel pipelines, each approximately 15,080 linear feet in length. The pipelines would transport crude oil under a pressure ranging from 750-800 psi, and would replace the current practice of trucking daily crude production from the field. Proposed accessory equipment includes two new 10,000 barrel heated shipping tanks, one new 3,000 barrel heated reject tank, one new 5,000 barrel oil storage tank, two new 10,000 barrel emergency storage tanks, one new 10MMBTU/hr tank heater, and on each pipeline, one new Lease Automatic Custody Transfer (LACT) unit, flow meters, a Pig Launch and Retrieval system, and an electrically-driven pump system (LACT charge pumps, shipping pumps, bottoms pumps, etc).	NOP	07/08/2013
2013061009	PM 063463 Los Angeles County --Los Angeles Vesting tentative parcel map to create two parcels over 1.24 gross (1.1 net) acres. Each lot to be a minimum of two-half acres in size. Two existing oak trees proposed to remain within Parcel No. 2. Parcel No. 2 will be accessed from Vallecito Drive, and existing secondary highway. No grading is proposed.	Neg	07/08/2013
2013062013	UP13-004 (Baker) Shasta County Redding--Shasta The request is for a Use Permit to allow for a wine tasting room, food service of pre-packed foods and retail sales of wine products in conjunction with an existing winery operation on a 40-acre property. These proposed uses would occur within an existing 4,000-sf winery building located near the center of the property. Water service for the proposed project would be provided by an existing well on the property. Sewage treatment would be provided by an existing septic tank/leach field system on the property. Improvements for the proposed project would involve the application of gravel road-base for the existing driveway and new parking area.	Neg	07/08/2013
2013062014	Placer County Housing Element Update 2013-2021 (PGPA 20120231) Placer County --Placer The project proposes an update of the Housing Element in the Placer County General Plan, as mandated by State Housing Element Law (Government Code Section 65580 (et seq.)), to meet the existing and projected housing needs of all economic segments of the community for year 2013-2021.	Neg	07/08/2013
2013031075	Owens Lake Solar Demonstration Project Los Angeles Department of Water and Power --Inyo The Solar Demonstration Project would generate approximately 500 kW of electricity through the use of ground-mounted photovoltaic solar arrays. Solar PV panels would be installed in rows on an aluminum framework that would be attached to one of three types of foundations, two with concrete block ballasts and one with pile driven piers. The project would assist the City of Los Angeles Department of Water and Power in meeting its renewable energy portfolio standards while determining the feasibility of additional solar facilities on Owens Lake. 2013031066	<p>Chatsworth Park South Remedial Action Plan Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The proposed Project consists of the implementation of a Remedial Action Plan (RAP) that will be approved by the CA Environmental Protection Agency DTSC under a Voluntary Cleanup Agreement with LADRP. The RAP proposes to cap in-place the soil impacted principally by lead and polycyclic aromatic hydrocarbons (PAHs) discovered in the park from a former Small Arms Firing Range. The surface cap would provide a permanent solution that reduces the accessibility and mobility of the impacted soils, and therefore, the threat to human health and the environment. The surface cap would be installed over remediation areas and would include utility clearance, security measures, rough grading and excavation, installation of a drainage system, construction of a surface cap, and installation of fencing.</p>	NOD	
2013041082	<p>Canyon Lake Hybrid Treatment Process - Phase 1 Canyon Lake, City of Canyon Lake--Riverside</p> <p>Canyon Lake was formed in 1928 when the Canyon Lake / Railroad Canyon Dam was constructed. Canyon Lake is located in Riverside County, and is within the City of Canyon Lake. It is owned and operated by the Elsinore Valley Municipal Water District (EVMWD). EVMWD has used the reservoir as a potable water source since 1957 when the Canyon Lake Water Treatment Plant began operation. The reservoir is supplied by stormwater runoff from both the upper San Jacinto River Watershed and Salt Creek watershed. The reservoir, covers approximately 525 acres (212 ha), has 14.9 miles (24.0 km) of shoreline, and has a storage capacity of 11,586 acre-feet (14,291,000 m³). The lake has three main sections - the relatively shallow East Bay (depths generally less than 10 ft), the deeper Main Lake portion of the lake (depths in excess of 40 ft), and the area north of the causeway that connects with the San Jacinto River. The proposed Project consists of application of alum to Canyon Lake to remove nutrients that contribute to algal blooms. A wide-range of management options, ranging from oxygenation, aeration, mixing, and dredging to application of alum, Phoslock, and other nutrient binders have been considered.</p>	NOD	
2013042041	<p>Willow Canal Relocation Project Yolo County Flood Control and Water Conservation District Winters--Yolo</p> <p>The proposed project is the relocation of a portion of Willow Canal, which is to be relocated to the perimeter of APNs 038-050-067 and 038-050-012. The purpose of the proposed project is to facilitate the planting and maintenance of an almond orchard. The project does not include modifications to Moody Slough, except for construction of a new check structure allowing diversion of canal water into the slough and the replacement of the existing siphon under the slough. Work affecting Moody Slough, including construction of new facilities and removal of existing facilities, will require a Lake and Streambed Alteration Agreement under the authority of the CA Dept. of Fish and Wildlife. Work on the project started in advance of completion of the IS/MND.</p>	NOD

2013061014	ENV-2008-543-MND-REC1 / 3185 W. Wilshire Boulevard Los Angeles, City of --Los Angeles Pursuant to LAMC 12.24 W.1, a request for a Conditional Use Permit to allow the sale of beer and wine only for off-site consumption in conjunction with an existing 1,600 sf existing convenience market in a tenant space at 3185 Wilshire Boulevard, Unit No. 173. Existing hours of operation are from 6:00 am to 10:00 pm daily. Market is located at street level within an existing seven-story, 449-unit apartment building also containing a Metro Red and Purple line station portal, on an approximately 3.31 acre lot zoned C2-2 and C4-2.	MND	07/09/2013
2013061015	ENV-2012-2332-MND / 1020 1/2 S. Fedora Street Los Angeles, City of --Los Angeles Construct a new 5-story, 86-unit, approximately 35,130 sf hotel having a total of 57 parking spaces contained with one level of subterranean parking and a surface parking lot; the hotel would also include an approximately 1,290 sf multi-purpose room accommodating 58 seats. The project will result in the demolition and removal of all existing improvements on the property, as well as the excavation, export, and hauling of dirt associated with the construction of the subterranean parking level. As proposed, the project requires a Conditional Use approval and Site Plan Review.	MND	07/09/2013
2013061016	ENV 2012-2455-MND Los Angeles, City of --Los Angeles Construction of a 1-story, 3717-sf family-style restaurant seating 116 patrons (incl. 17 patio seats) and operating 24 hours daily (Mon-Sun). Alcohol service will be from 10 am to 2 am daily.	MND	07/09/2013
2013061017	Downtown San Diego Bus Rapid Transit Stations San Diego Association of Governments San Diego--San Diego All bus shelters would be approximately 10 feet tall with a rectangular glass panel roof atop two columns, both two feet wide. Lighting would run vertically along column edges. All pylons would be approximately 15 feet tall and 3.5 feet wide. Pylons would be 11 inches wide and taper down to six inches. Lighting would run vertically along the pylon edge. Security cameras would be installed in pylons.	MND	07/09/2013
2013061018	Conditional Use Permit #51, Map #100, Metro Ready Mix by Pete Pedroza Kern County --Kern A CUP to allow a concrete batch plant which would produce a maximum of 266 cubic yards of concrete per day. The batch plant would be operated Monday through Saturday, between the hours of 6:00 am and 4:00 pm. The operation will employ two on-site facility operators and up to eight truck drivers. All parking areas and drive aisles will be covered with decomposed granite or an approved alternative surface. Domestic water service is proposed via private well, while sewage disposal is proposed by on-site septic system, which would require the granting of an exception to the sewer policies of the Western Rosedale Specific Plan.	MND	07/10/2013

2013062017	3159 El Camino Real Palo Alto, City of Palo Alto--Santa Clara Request for Site and Design Review of the demolition of two existing commercial buildings (at 3111 and 3159 El Camino Real, comprising 6,616 sf) and the construction a 69,503 sf (net gain of 62,887 sf of new floor area) to establish a 49'-6" foot tall, 4-story, 46-unit apartment building, with commercial, office and retail uses with underground parking providing 223 parking spaces including parking lifts on a 1.6 acre site located at 3159 El Camino Real.	MND	07/09/2013
2013062020	Galaxy Court Flood Protection & Trail Culvert Repair Livermore, City of Livermore--Alameda Removing existing twin corrugated metal culverts and trail from the Arroyo Las Positas and replace them with a concrete box culvert. Replace existing trail section over the top of the box culvert. Install new safety railings on trail at the creek crossing. Construct habitat mitigation area (0.25 acres) and implement Habitat Mitigation and Monitoring Plan.	MND	07/09/2013
2013062021	Lindsey Slough Tidal Marsh Wetland Enhancement Project Fish & Wildlife #3 Rio Vista--Solano The proposed Lindsey Slough Tidal Marsh Wetland Enhancement Project reestablishes tidal connection to the historic marsh and channel system and enhance existing marsh habitat.	MND	07/09/2013
2013061012	Uptown Jefferson Specific Plan Temecula, City of Temecula--Riverside This project involves the preparation of a new Specific Plan for the Uptown Jefferson area. The Uptown Jefferson Specific Plan area consists of approximately 560 net acres located north of Rancho CA Road, west of I-15, south of Cherry Street, and east of Diaz Road. Jefferson Avenue, spanning from Rancho CA Road to Cherry Street, is approximately 2.3 miles long. Of the 560 acres, there are approximately 240 acres zoned Open Space-Conservation (OS-C) within the Specific Plan, which will not be developed in the future and will remain as open space, yielding approximately 320 acres of commercially zoned property that has the potential to redevelop in the future. The Specific Plan is intended to facilitate in-fill development, spark public and private reinvestment, act as a guide for the overall future revitalization of the area, and ensure the strategic execution of future infrastructure improvements. The Specific Plan will be written as a form-based code to better define the development regulations and urban design standards that will yield the type of urban development that is desired by the community for the area. The Plan will also include form-based standards that will facilitate a walkable, pedestrian environment through building placement, streetscape design, and a strong focus on the streets and public realm. 2011081048	North-South District Interconnection System Project Otay Water District Chula Vista--San Diego The primary goals and objectives of the Project include: - Enable the District to convey water both northerly and southerly between its North and South Districts as needed to supply customers. - Provide a District-wide connection to the locally treated water from the Helix Water District now being supplied by the recently completed connection to FCF 14. - Making available throughout the District a connection to existing and potential future southern sources, such as the desalinated seawater supply system currently in its planning phase. - Implement Capital Facility Projects in accordance with the District's CIP.	EIR	07/26/2013				
2012072046	Phillips 66 Company (Formerly Conocophillips) Propane Recover Project Contra Costa County San Pablo--Contra Costa The proposed Project would modify existing facilities and add new facilities to recover butane and propane from refinery fuel gas (RFG) and Hydrogen Plant feed gas and then ship it by rail for sale. The proposed Project would require hydrotreating a portion of the RFG, a process that would reduce the amount of sulfur in the fuel gas, and because fuel gas is now burned to produce heat for Refinery processes, ultimately would reduce the Refinery's SO ₂ emissions to the atmosphere.	EIR	07/26/2013				
2006092125	Mission Square Mixed-Use Project Sonoma, City of Sonoma--Sonoma Final 1 HC The project involves the construction of 23 apartments in conjunction with 5,720 square feet of commercial space on a 1.13-acre parcel. The project would also include 51 on-site parking spaces. The existing residence located on the site would be refurbished and incorporated into the project design as a rental unit.	FIN

2013061021	<p>Scripps Ranch Reservoir Slope Repair San Diego, City of --San Diego</p> <p>The project is required to repair a slope that was eroded from the release of treated water from the reservoir and to prevent any further erosion to the hillside. The project proposes to demolish the existing dissipator and excavate at least three feet into the hillside in order to connect 300 feet of new 18-inch reinforced concrete pipe (RCP) to the existing drain line with headwalls every 20 feet. A new energy dissipator structure would be constructed at the bottom of the hill with rip-rap placed downstream to further aid in energy dissipation. Once the installation is complete, the project proposes to re-grade the slope to repair the previous erosion problems and the recently excavated trench for the 18-inch RCP pipe and re-vegetate the disturbed project area.</p>	MND	07/11/2013
2013061022	<p>Soccer Center Solar Facility (CUP 13-05, GPA 13-01, ZC 13-01) Lancaster, City of Lancaster--Los Angeles</p> <p>The proposed project involves the construction of approximately 13.3 megawatts of photovoltaic solar electricity generating facilities on 92.7 acres. The City of Lancaster has leased this property to three separate solar developers: PsomasFMG, U.S. Topco, and Morgan Solar. Each of the developers would construct and operate their own respective solar facilities. Each of the facilities will be fenced and the perimeter of each facility will be landscaped with a 10-foot landscaped buffer to screen the project site from view. Water tanks for fire department use will be provided for each facility. Each of the facilities may include a storage shed and on-site parking for maintenance workers.</p>	MND	07/11/2013
2013061024	<p>Big Dry Creek Seepage Remediation Fresno Metropolitan Flood Control District Clovis--Fresno</p> <p>Fresno Metropolitan Flood Control District proposes to modify the existing toe drain of Big Dry Creek Dam constructed in 1993. The proposed enhanced toe drain will be located approximately 3 feet away from the downstream base of the dam. The enhanced toe drain will run along the downstream toe of the dam for an approximate length of 7,000 feet and will measure 15 feet deep by 1.5 feet wide. Perforated pipe will be placed into the drain and a small dewatering pump will be installed near the outlet channel. The perforated pipe will be installed by jack and bore under the outlet channel, and a utility trench for electrical conduit will be cut from a power source located about 50 feet away to the pump station.</p>	MND	07/11/2013
2013061026	<p>PL12-0172 Ventura County Santa Paula--Ventura</p> <p>The project is comprised of a paintball and airsoft sports recreational facility proposed to operate on the site of an existing nine-hole, par-three golf course known as the Ozzie Osborn Par 3 Golf Course.</p>	MND	07/11/2013

	parcel. Future residences on the resultant parcel would be served by an on-site sewage disposal system and private groundwater well. A proposed building site with the approved septic area and approximate groundwater well location is delineated on the tentative parcel map. A 60-foot wide access and utility easement is proposed from Durham-Dayton Highway to Parcel 1. Proposed access road improvements include a 20 feet wide travel lane with 2 feet wide shoulder and a 4 inch aggregate base.		
2013062024	Rio Linda Boulevard Bridge Replacement Project Sacramento, City of Sacramento--Sacramento The project consists of replacing the Rio Linda; realigning Magpie Creek to allow for realigning Main Ave within the City's existing right-of-way to intersect with Rio Linda Blvd at a right angle; constructing left and right turn lanes from Main Ave onto Rio Linda Blvd, new crosswalks, access to the Northern Sacramento Bike Trail, and installation of a traffic signal. One through lane will be provided in each direction along Rio Linda Blvd with an additional receiving lane to accommodate the required dual left turns from Main Ave. The Rio Linda Blvd roadway profile will be raised slightly to provide the required hydraulic clearance. The Rio Linda Blvd Bridge replacement will require the overhead utilities along Main Ave and Rio Linda Blvd to be relocated.	MND	07/12/2013
2013061020	White Knob-White Ridge Limestone Quarries Expansion San Bernardino County --San Bernardino The Amended Plan would expand operations at the White Knob/White Ridge Limestone Quarries. The Amended Plan includes expansion of the three existing quarries and the existing overburden (OB) site, the creation of two new OB sites, and the expansion of the ancillary disturbance limits, which include haul and access roads, sediment basins and other erosion control features, storage pads, crusher location, west slope impacts, and incidental impacts from boulder roll-down. In addition, the proposed project would increase operational years of the quarries by 24 years from the existing permit expiration date of 2031 to the year 2055. The total existing permitted operational area is 145 acres. The Amended Plan would add 190.1 acres, for a total permitted operational area of approximately 335.1 acres. The amendment does not propose any new quarries.	NOP	07/11/2013
2013061023	Chaparral Menifee GPA 2013-041, SPA 2013-039, Zone Change 2013-051, Plot Plan 2013-040, EA 2013-026 and EIR 2013-112 Menifee, City of Menifee--Riverside Note: Extended Review The project would propose to amend the Land Use Element and the Circulation Element of the Riverside County General Plan as adopted by the City of Menifee upon its incorporation in 2008. The site is currently designated as Low Density Residential (LDR) 1/2 acre minimum building intensity range in the Community Development Foundation. The applicant is proposing to change the land use designation to Very High Density Residential (VHDR) 14-20 dwelling units per acre building intensity range in the Community Development Foundation. Additionally, the applicant is seeking to change the roadway right-of-way and capacity of Menifee Road on the Circulation Plan. The proposed change would affect approximately 660 feet of Menifee Road, designated as an Urban Arterial, from the Simpson Road intersection north to the northerly project boundary. The requested	NOP	07/22/2013

	change will modify the classification to an Arterial will reduce the right-of-way from 152 feet and six lanes of travel to 140 feet of right-of-way and four lanes of travel with an enhanced parkway.		
2013061027	Santa Ana Harbor Boulevard Mixed Ust Transit Corridor Plan Santa Ana, City of Santa Ana--Orange The Harbor Boulevard Mixed Use Transit Corridor Plan would replace the existing 425-acre North Harbor Specific Plan (NHSP) to change the boundaries into two separate areas: 1) 305 acres within the existing 425-acre NHSP generally along Harbor Boulevard (or "Harbor Corridor Plan"), and 2) 120 acres within the existing NHSP in the Willowick Golf Course area (or "Conventional Zoning Area"). The Harbor Corridor Plan regulates 252 acres of the project through four zones: Transit Node, Corridor, Neighborhood Transitional, and Open Space. Buildout of the Harbor Corridor Plan would generate 3,884 additional dwelling units and 13,721 additional sf of commercial space. Buildout projections for NHSP areas proposed for conversion to conventional zoning assume no change in numbers of dwelling units or population.	NOP	07/11/2013
2011121021	Regional Bicycle and Recreational Trails Master Plan Fresno County --Fresno The proposed project consists of revising the adopted Fresno County Regional Bicycle and Recreational Trails Master Plan to include the Lost Lake Pedestrian Nature Trail, and the Fancher Creek Bridle Trail, an existing recreation/equestrian trail. These two trails will be included in the next scheduled update of the Transportation and Circulation and Open Space and Conservation Elements of the October 2000 Fresno County General Plan. The conceptual Lost Lake Pedestrian Nature Trail is planned to be minimum of four feet in width and a maximum of ten feet in width and is located within Lost Lake Park, generally along the San Joaquin River (see Exhibit 2). Portions of the Lost Lake Pedestrian Nature Trail will be ADA accessible. The Fancher Creek Bridle Trail is an existing trail that runs along the east side of Fancher Creek from Kings Canyon Road Drive to CA Avenue. The rehabilitation Fancher Creek Bridle Trail will be a non-paved recreational trail. The Revised Plan provides the framework for future development of the County's bicycle, pedestrian and recreational trails network and will make the County eligible for local, state, and federal funding for bicycle and/or recreational trail projects. The Revised Plan is intended to guide and influence bikeway, pedestrian and recreational trail policies, as well as programs and development standards within the County of Fresno to provide a safer, more comfortable, convenient, and enjoyable environment for all bicyclists, trail users and pedestrians. Further implementation of specific projects and programs contained in the Revised Plan may require project specific environmental documentation under the CEQA at the time the project is considered.	Neg	07/11/2013
2013061025	Villa Sevillano Equestrian Center Santa Barbara County Carpinteria--Santa Barbara The request is for a Major Conditional Use Permit (06CUP-00000-00045) to allow the operation of a commercial horse boarding & breeding facility, a Minor CUP (07CUP-00000-00027) to allow for a change of use of an existing 2,400 sf single-family residence to a farm-employee dwelling and a Coastal Development Permit (10CDP-00000-00003) to effectuate the two Conditional Use Permits and for the unpermitted creation of a regulation-sized polo field and related	Neg	07/11/2013

	improvements. The commercial horse facility would provide a location for the breeding, boarding and training for up to a maximum of 45 horses. The facility would be a private commercial operation and would not be open to the general public, nor would public polo matches be held on the premises. Breeding and training would be conducted year-round. However, the number of horses boarded would typically be greater during the summer months when non-resident polo teams are in the area for the season. At that time, the facility may board horses not owned by the applicant to meet the needs of the area's polo players, but again, the facility would not be open for public polo matches. It is anticipated that the facility would employ two to four full time employees and up to four additional seasonal employees.		
2006012071	Franklin Boulevard Landscape & Streetscape Project Sacramento County Sacramento--Sacramento Proposed project will construct various streetscape improvements on Franklin Blvd. including: new curb, gutter, and five foot sidewalks; pavement grinding and asphalt concrete pavement conforms; bike lanes and striping; new 12 foot wide landscaped center medians; drainage improvements; bus stop improvements; ADA improvements; and three pedestrian refuge islands.	NOD

This addition requires a street side yard variance permitting the setback to the exterior structure wall to be reduced to seven feet, plus an additional 18 inches for roof eaves.	ADM	
2011052085	Sutter Basin Feasibility Study Sutter Butte Flood Control Agency --Sutter, Butte The Feasibility Report includes an integrated EIR / SEIS. The purpose of the Sutter Basin Pilot Feasibility Study (SBPFS) is to investigate and determine the extent of Federal interest in plans that reduce flood risk to the Sutter Basin in Sutter and Butte Counties. This report: (1) assesses the risk of flooding; (2) describes a range of alternatives formulated to reduce flood risk; and (3) identifies a Tentatively Selected Plan (TSP) for implementation. The TSP consists of levee improvements to existing levees of the Sacramento River Flood Control Project extending along approximately 41 miles of the Feather River. The plan would provide higher levels of flood risk management to local communities.	EIR	07/29/2013
2011091029	Sunset Bronson Studios Entertainment Center Los Angeles, City of Los Angeles, City of--Los Angeles FYI Final The project Applicant, proposes the development of a 13-story office building of ~314,495 sf and 5 story production office building of ~90,304 sf, supported by a proposed 7-story parking structure with two levels of additional subterranean parking. The project also includes a replacement guard station along Van Ness Avenue and a café with outdoor seating adjacent to the proposed production office building. These improvements would replace an existing surface parking lot and 14,499 sf ancillary studio-related buildings located on an ~4.36-acre portion of the 10.55-acre Sunset Bronson Studios campus. Upon buildout, the project would result in a net increase of ~391,018 sf of building area and an increase of 1,399 parking spaces for a total of 1,800 parking spaces within the Project Site.	FIN

2012031089	Waste Management of North County Compressed Natural Gas Vehicle and Fueling Facility MND Oceanside, City of Oceanside--San Diego Waste Management of North County is proposing to transition an existing facility from a diesel fueling facility to a compressed natural gas fueling facility. The project will entail modifications and renovations to existing operations facility to allow fueling and maintenance of CNG collection vehicles. Although their use will be reduced, all diesel fueling facilities will remain in place while the transition to CNG is implemented. The site will continue to support the same number of fleet vehicles (58) and the same number of site-based employees (90).	FIN	
2013061028	Plainview Solar Works (CUP 13-06, GPA 13-02, ZC 13-02) Lancaster, City of Lancaster--Los Angeles The proposed project involves the construction of a 30 MW photovoltaic solar generating facility with associated collector substation and generation tie (gen-tie) line.	MND	07/12/2013
2013061033	Sunlight Partners (Landpro) San Bernardino County --San Bernardino Conditional use permit to establish a 2.5 MW photovoltaic solar facility on 80 acres.	MND	07/16/2013
2013062026	Hendricks Road Bridge Replacement Lake County Lakeport--Lake The project consists of the replacement of an existing bridge crossing Hendricks Creek on Hendricks Road (CR-402). The existing bridge is constructed of 16 timber stringers supporting a 3.5" timber deck with a 4.75" AC wearing surface. The stringers rest on timber sill plates placed on reinforced concrete abutments. A 30' long Bailey bridge is currently in use and has been placed above the existing bridge deck for temporary use. It is constructed of timber deck boards on steel floor beams supported by continuous steel trusses that are set on bearing plates resting on the existing roadway. The replacement structure will be a 7'-8" tall by 19'-10" wide, open bottom, metal box culvert that runs 60' along the length of Hendricks Creek.	MND	07/15/2013
2013062027	Cache Creek Vineyards, LLC, Minor Use Permit, MUP 13-01 Lake County Clearlake--Lake The applicant is proposing construction of a 3,990 sf facility on the main floor (storage proposed on upper floor), which will consist of a small winery (15,000 cases or less, including storage of wine in barrels and aging of bulk wine), wine case and equipment storage and 750 sf tasting room. They are also seeking approval to allow up to 24 promotional and up to 36 non-promotional non amplified events (fundraisers, weddings or other social gatherings) annually. Attendance at events is not proposed to exceed 200 people at any one given time. This parcel is currently developed with a 70 acre vineyard and agricultural structures. The applicant is not currently proposing crushing, blending and or bottling at this location.	MND	07/12/2013

2013068173	Transfer of Coverage to El Dorado County APN 033-678-11 (Tri West Homes, Inc.) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of 365 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013068174	Salt Creek Bridge Replacement Fish & Wildlife #6 Unincorporated--Riverside The project includes replacement of the existing bridge within its current alignment. The project includes the demolition of the existing bridge, replacing the existing bridge, and widening the shoulders to eight feet within the project limits. The project will also include retaining wall construction, in-kind replacement of rock slope protection along the bridge abutments, application of gravel mulch and revegetation activities. Total permanent project impacts of 0.0026 acres and temporary project impacts of 0.5224 acres will result from project activities.	NOE

2013068175	Hyundai Hydrogen Generation and Fueling Facility Energy Commission Chino--San Bernardino This proposed project will build a 100% renewable hydrogen fueling station in Chino, CA. This hydrogen fueling station will help build an early commercial network of hydrogen fueling stations to supply fuel cell vehicles with hydrogen fuel. Hydrogen fuel cell technology for transportation represents a significant option to reduce greenhouse gas emissions and displace the use of petroleum fuels in California.	NOE	
2013068176	Hinky Road Bridge Repair Project Regional Water Quality Control Board, Region 6 (Lahontan), Victorville --San Bernardino The purpose of the Project is to repair the Hinkley Road bridge that crosses the Mojave River. The Project involves temporary construction access, repair of the crossing, roadway and embankment excavation, slope protection, minor clearing and grubbing, and in-kind replacement of a bridge piling.	NOE	
2013068177	Lakeview Ranchos Mutual Water Company Arsenic Remediation Feasibility Study Public Health, Department of --Kern The California Department of Public Health (Department) is the lead agency. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. The Lakeview Ranchos Mutual Water Company (MWC) proposes to study the feasibility of the following alternatives in order to address their current arsenic contamination problem: * Blending of MWC resources * Construction of replacement wells * Interconnection or consolidation with an adjacent water system * Treatment for Arsenic	NOE	
2013068178	Lake County CSA No. 21 - North Lakeport Emergency Funding Project Public Health, Department of Lakeport--Lake The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Lake County CSA No. 21 - North Lakeport proposes a project that includes repair and realignment of the existing distribution system facilities that will protect the existing water system and aide in monitoring water quantity and quality to remaining homes in the service area.	NOE	
2013068179	Skull Creek Station Generator Building Forestry and Fire Protection, Board of --Tuolumne The Cal Fire Skull Creek forest fire station is situated in a remote location, on industrial timberland owned by Sierra Pacific Industries. Timber stands around the station are typical Sierra Mixed Conifer. The fire station is located near the confluence of Skull Creek and Griswold Creek, at approximately 4,400 feet in elevation. The project will consist of constructing a shed to house a generator. The dimensions of the shed are approximately 16 feet by 23 feet.	NOE

2013068180	<p>Paskenta Community Services District Emergency SWTP Repairs Public Health, Department of --Tehama</p> <p>The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Paskenta Community Services District proposes a project that includes the repair and refurbishing of the surface water treatment plant, as well as the training of a new operator. An interim supply of bottled water will be supplied to the water system residents.</p>	NOE	
2013068181	<p>Indian Rock Fuel Reduction Forestry and Fire Protection, Board of --Santa Cruz</p> <p>The project will utilize hand crews to create two conditions of modified fuels; a shaded fuel break in woodland formations and a residual mosaic in brush formation on up to 28 acres along portions of the road system in the community of Indian Rock. The project area will extend a maximum of 25 feet from the edge of the paved surface along both sides of the road system. Several areas of road corridors will not be treated due to steep slopes, cut banks or light fuels. The objectives will be to disrupt the horizontal continuity of surface fuels, vertical continuity resulting from ladder fuels, and increase shrub and understory crown spacing.</p>	NOE	
2013068182	<p>Sonoma Mountain Ranch Preservation Restoration Forestry and Fire Protection, Board of --Sonoma</p> <p>The Mitsui Ranch is leased to, and operated by, the Sonoma Mountain Ranch Preservation Foundation. The property comprises 630 acres at the top of Sonoma Mountain just east of the City of Petaluma. Approximately 70% of ranch property is grassland and has been used primarily for grazing over the past 150 years. A history of unmanaged grazing, and up to 60 years without fire, has resulted in the grasslands on this property to be heavily invaded by a suite of undesirable invasive grasses and forbs. A principle focus of the SMRPF is to conduct research on methods to re-establish native perennial grasslands.</p>	NOE	
2013068183	<p>Swim Beach Trail Handrail Replacement Parks and Recreation, Department of --Mendocino</p> <p>Repair and replace the damaged or missing handrails and posts along the trail from the campfire center in Hickey Campground to the river bar in Standish Hickey State Recreation Area to provide assistance to hikers traveling on the steep trail. Work will repair approximately 350 feet of handrail and post:</p> <ul style="list-style-type: none"> * Remove existing posts and fill holes with concrete for 4 inch by 4 inch piers * Excavate approximately 10 holes 8 to 12 inches in diameter 24 inches deep and pour concrete for 4 inch by 4 inch piers for new posts. * Posts will be a length to accomplish a finished top rail height of 42 inches above ground; since posts are being re-used they will range in size (4x4, 3x6, and 4x6). 	NOE	
2013068184	<p>2013-2014 Multi-Year Water Pool Demonstration Program Mojave Water Agency --</p> <p>a two-year (2013-2013) test water purchase program among participating SWP contractors. DWR will administer the program and convey the water to the buying</p>	NOE

	contractors' service areas.		
2013068185	Sale of Former Tri-Sonic Wind Tunnel Property University of California El Segundo--Los Angeles Sale of a 3.67+/- acre parcel with an approximate 1,000 square-foot metal shed and perimeter metal fencing located at the southwest corner of Duley Road and Mariposa Avenue in the city of El Segundo. The site is a somewhat elongated shape, with 203 feet of frontage along Mariposa Avenue and 890 feet of frontage along Duley Road. In 1998, the property was donated by Rockwell International to the University of California to benefit the UCLA School of Engineering and Applied Science.	NOE	
2013068186	Mariposa Shcool of Global Eduation/Sumac Elementary School Portable Classroom Buildings Additon Las Virgenes Unified School District Agoura Hills--Los Angeles The Mariposa School of Global Education/Sumac Elementary School campus is projecting enrollment growth in the 2013/14 school year, and as a result, is proposing the installation of two new classrooms and associated new utilities to accommodate the additional students. The portable classroom buildings would each be 24 feet by 40 feet, for a total of 1,920 square feet. The buildings would be placed at the northeast corner of the campus atop a grass area that is part of the school's natural turf field. Installation of the buildings would ocur during the 2013 summer when students are not onsite.	NOE	
2013068187	Collierville to Bellota 230 kV Phase to Ground Clearance Project Northern California Power Agency Angels Camp--Calaveras The Northern California Power Agency (NCPA) owns and operates approximately 40 miles of 230kV transmission line extending from the Collierville Powerhouse outside of Vallecito, CA to a PG&E substation in Bellota, CA. The transfission line is licensed by the Federal Energy Regulatory Commission (FERC) and subject of the requirements of North American Electric Reliability Corporation (NERC) whose mission is to ensure the reliability of the bulk power system in North America. NCPA has a Transmission Vegetation Management Plan to help with adherence to CalFire's November 2008 Power Line Fire Prevention Field Guide, and to maintain public and worker safety.	NOE	
2013068188	Alamo Creek Urban Greening Project (13-025) Vacaville, City of Vacaville--Solano Creekway planting project creek banks, remove non-native vegetation, plant native species, with demonstration garden adjacent to the Three Oaks Community Center.	NOE
