STATE CLEARINGHOUSE

NEWSLETTER

June 16-30, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16-30, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2005-18	Morongo Band of Cahuilla Mission Indians 519-121-023 Bureau of Indian Affairs --Riverside APN: 519-121-023 Notice of intent issued to accept the subject real property into trust. The subject acquisition will vest title in the United States of American in trust for Ms. Renee Najera, a member of the Morongo Band of Cahuilla Mission Indians of the Morongo Reservation, California.	BIA	07/15/2008
2007061076	San Diego Creek Channel (Upper Newport Bay to Interstate 405) Programmatic Operations and Maintenance Project Orange County Newport Beach, Irvine--Orange The proposed project is an adoption and implementation of an O & M Manual intended to serve as a comprehensive guide for maintenance and operation of the San Diego Creek Channel, Orange County Flood Control District Facility No. F05. OCFCD activities under the O & M Manual would be a continuation of past routine and emergency channel maintenance activities in most of the same areas and using many of the same techniques. The O & M Manual contains a series of guidelines for the recommended inspection activities and schedules, notifications, reporting, and the routine maintenance activities and their related frequencies for the project area. The O & M Manual also includes procedures to notify regulatory agencies and monitoring plans to evaluate biological impacts and water quality during scheduled maintenance activities.	EIR	07/30/2008
2007072102	Medina General Plan Amendment, Community Plan Amendment, Rezone and Parcel Map Sacramento County Galt--Sacramento 1. A General Plan Amendment from General Agriculture (20 acres) to Agricultural-Residential for 10 acres. 2. A Community Plan Amendment and Rezone from AG-20 to AR-5 for same 10 acres. 3. A Parcel Map to create 2 lots on 10 acres in the proposed AR-5 zone.	EIR	07/30/2008
2001111151	Interstate 5 Corridor Improvement Project from SR-91 to I-605 Caltrans #7 La Mirada, Norwalk, Downey, Santa Fe Springs, Buena Park--Los Angeles, Orange Construct freeway improvements to I-5 from SR-91 to I-605. The proposed project consists of constructing a minimum of one High Occupancy Vehicle Lane and one mixed flow lane in each direction on I-5.	FIN	
2007062072	Thunder Valley Casino Expansion Project United Auburn Indian Community Lincoln--Placer The UAIC proposes to expand the Thunder Valley Casino and construct a hotel and parking structure adjacent to the existing facility. Approximately 475,000 square feet would be added to the existing building, plus a hotel, performing arts center, parking structure, and expanded central plant.	FIN

2007122055	Markham Ravine Nature Area Master Plan and Component Implementation Plan Lincoln, City of Lincoln--Placer The Markham Ravine Nature Area (MRNA) Master Plan is a policy document establishing the planning framework for the future design, implementation, and management of Markham Ravine. The purpose of the MRNA Master Plan is to establish an integrated approach to the development, management, and operation of the MRNA that recognizes the multiple values offered by the open space and habitat resources. The MRNA Master Plan provides guidance by establishing goals and policies, characterizing the resources within the MRNA to be protected, describing allowable uses and activities, recommending amenities, and identifying specific implementation strategies. As future phases of implementation for Markham Ravine move forward, they would be evaluated for compliance with the MRNA Master Plan to ensure that the vision of MRNA is maintained for future residents of, and visitors to the City.	FIN	
2007031142	CCPI/VitaPakt Infrastructure Project Lindsay, City of Lindsay--Tulare NOTE: JD consists of Neg. Dec. & FONSI The project would accommodate replacement and extensions of industrial wastewater effluent lines (carrying citrus food processing effluent) and land application sites for disposal of this effluent. This environmental review is an amendment to an environmental assessment (EA) prepared in 2007 for the CCPI/VitaPakt CDBG project. The 2007 EA anticipated handling and processing of dairy effluent, and various properties for land application located north of Highway 137 (Tulare/Lindsay Highway). The project scope has been reduced (from approximately 2,730 acres to approximately 450 acres of land application area), by removing dairy-related project components.	JD	07/15/2008
2008061087	Batiquitos Gravity Sewer Leucadia County Water District Carlsbad--San Diego The Leucadia Wastewater District proposes to replace an existing 18-inch diameter sewer within a 24-inch diameter PVC gravity sewer line. The project includes all necessary connections to the existing sewer lines and the Batiquitos Pump Station, as well as the restoration of pavement, fencing, and landscaping impacted by construction. The purpose of the project is to increase the reliability and efficiency of the sewer line.	MND	07/15/2008
2008062050	Morten Rezone and Tentative Parcel Map P-08-03 Trinity County --Trinity Rezone from Unclassified to Agriculture Forest 40-acre minimum, or more restrictive zoning, and a tentative parcel map to create 4 parcels from 310 acres.	MND	07/15/2008

	designated remainder. The new residence, which will be approximately 3,800 square-feet in size, will be accessed via an extension of the existing private driveway, which is located at the intersection of Townview Avenue and Ronne Drive. As part of the proposal, 16 trees will be removed from the site.		
2008062058	Sutter Bypass East Borrow Canal Water Control Structures Project Water Resources, Department of Yuba City--Sutter The proposed project involves the replacement of two weirs and their associated fish ladders on the East Borrow Canal of the Sutter Bypass: Weir No. 2 and Willow Slough Weir. The new structures will perform the same functions as the existing structures, but with improved operational safety and efficiency. Construction will occur from May 2009 to October 2010.	MND	07/16/2008
2008061084	Museum Market Plaza Specific Plan Palm Springs, City of Riverside--Riverside The project involves Specific Plan which sets the development standards and guidelines to allow the construction of up to 955 high density residential units, 400,000 square feet of commercial retail and office development, and 620 hotel rooms. The site area for the Specific Plan is 20.6 acres. The project is generally located at the northwest corner of North Palm Canyon and Tahquitz Canyon, in the City of Palm Springs.	NOP	07/15/2008
2008061085	Wilson Avenue Extension Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The project being proposed for implementation consists of acquisition of the road right-of-way by the City from the County, extending Wilson Avenue with minor widening of the existing Wilson Avenue east of Deer Creek Channel and the northern extent of Milken Avenue; and constructing a new bridge over the Day Creek Channel. This project is proposed to be funded by the City. Access to all existing cross roads, dirt or paved, will be maintained by the project.	NOP	07/15/2008
2008061086	California Health Care Facility San Diego California Prison Health Care Receivership San Diego, Chula Vista--San Diego The proposed health care facility care facility would consists of dormitory-style housing, nurses' stations, diagnostic and treatment centers, a central plant, outdoor recreation fields, a gatehouse, and parking areas. A lethal electrified fence would surround the secured area, a sally port would be incorporated into the fencing, and guard towers and lightening would be constructed.	NOP	07/15/2008
2008061088	Dodger Stadium: The Next 50 Years Los Angeles, City of Los Angeles, City of--Los Angeles Los Angeles Dodgers, Inc. proposes to enhance the areas immediately surrounding Dodger Stadium as a Project in celebration of Dodger Stadium's 50th Anniversary and for "The Next 50 Years". This project would provide new fan and cultural amenities, improve the ease of pedestrian circulation around the Stadium, and create a destination for fans to gather at Dodger Stadium. The project would include four principal components: (1) Dodger Way, (2) the landscaped "Green Necklace", (3) the Top of the Park, and (4) Parking Enhancements. The Dodger Way component of the project would include: (a) a grand entry to Dodger Stadium, (b) Dodger Plaza and Promenade, (c) the Dodger Museum Experience, (d) Dining,	NOP	07/15/2008

	Retail, and Ticketing Enhancements, (e) Dodger Offices, and (f) Operational Enhancements. The Green Necklace would create an outdoor concourse providing landscaping and enhancing pedestrian circulation around the perimeter of the Stadium. The Top of the Park would transform the existing surface parking area into a landscaped plaza. The Parking Enhancements would replace former surface parking with two new parking structures on the east and west sides of the Stadium containing a total of up to approximately 1,928 spaces (approximately 964 spaces in each structure), a subterranean parking garage under the Dodger Way containing a total of up to approximately 326 spaces, and a subterranean parking garage under the Top of the Park containing a total of up to approximately 274 spaces. In total, the Project is comprised of approximately 404,102 square feet of net usable area (excluding parking), 317,540 of which would be new usable area.		
2008062056	California Health Care Facility Stockton California Prison Health Care Receivership Stockton--San Joaquin	NOP	07/15/2008
	The proposed 1,800-bed health care facility would consist of housing clusters, diagnostic and treatment centers, an armory, warehouse facilities, a central plant, outdoor recreation fields, a gatehouse, and parking areas. A lethal electrified fence would surround the secured area, a sally port would be incorporated into the fencing, and guard towers, at a minimum, would be located at each corner and at the vehicle sally port. The project also includes exterior lighting. Parking would be provided for staff personnel visitors. On-and off-site infrastructure improvements would also be required. The proposed health care facility would employ as many as 1,890 staff and approximately 75 to 100 visitors are anticipated per day.		
2008062057	Wal-Mart Expansion and Modifications, Folsom, California Folsom, City of Folsom--Sacramento	NOP	07/15/2008
	The proposed project would include expansion of the existing 137,374 sq. ft. Wal-Mart store by up to 27,310 sq. ft. to add full service grocery sales, with design modifications to the existing building. It would incorporate and retrofit sustainable design features into the building; redesign the truck dock and drive aisle at the rear of the store; reduce parking lot spaces by 8 spaces; implement on-site modifications to the expansion area at the rear of the existing store; and potentially increase store security measures.		
2008061083	Redondo Beach City Charter Amendment Redondo Beach, City of Redondo Beach--Los Angeles	Neg	07/15/2008
	The proposed amendment to the Charter of the City of Redondo Beach would require that the following types of zoning code amendments, after approval by the City Council, be put to a vote of the people and become effective only after approval by a majority of the votes cast at a regular or special election: 1) rezoning of any parcel of real property within the City from R-1 or R-1A Single Family Residential zone to any other residential zone, any commercial zone, any mixed use zone, or any industrial zone; 2) rezoning of any parcel of real property within the City from R-2, R-3, or R-3A Low-Density Multiple-Family Residential zone to any higher density residential zone; 3) rezoning of park or open space land to any residential, commercial, mixed use, or industrial zone; 4) any zoning amendment increasing the height limit on buildings in the Coastal Zone.

<u>Documents Received on Monday, June 16, 2008</u>			
2008022081	<p>Bay Point Redevelopment Area Plan Amendment Contra Costa County Concord--Contra Costa</p> <p>The Contra Costa Redevelopment Agency has initiated a redevelopment plan amendment process to amend the Bay Point Redevelopment Plan. The proposed amendment to the Redevelopment Plan would accomplish the following:</p> <ol style="list-style-type: none"> 1. Increase the total amount of tax increment revenues the Agency may receive in Bay Point from \$116 million to \$689 million; and 2. Increase the amount of bonds that can be outstanding at any one time from \$60 million to \$220 million. <p>The 2008 Bay Point Plan Amendment will enable the Agency to more effectively implement redevelopment projects and activities eliminating blighting conditions within the Project Area. The proposed amendment does not increase the territory of the Project Area, or alter the Redevelopment Plan's eminent domain and property acquisition provisions.</p>	NOD	
2008031100	<p>Donahue Drive; TM 5518RPL^1, Log No. 06-14-046 San Diego County --San Diego</p> <p>The project is a Tentative Map to subdivide a 4.13 acre lot into seven residential lots. The site is subject to the General Plan Regional Category 1.1 Current Urban Development Area (CUDA), Land Use Designation (3) Residential. Zoning for the site is RR2 - Rural Residential.</p>	NOD	
2008031113	<p>Emergency Discharge Permit for Discharge of Treated Effluent from the Grass Valley Wastewater Treatment Plant to Grass Valley Creek Lake Arrowhead Community Services District --San Bernardino</p> <p>The proposed action being considered is the continued discharge of excess treated effluent from the Grass Valley WWTP to Grass Valley Creek during emergency conditions caused by excess precipitation and snow melt. Such emergency conditions are random, intermittent events dictated by natural rainfall events, but the District believes it is in the best interests of both the District and the Regional Board to convert these current unauthorized discharges to authorized discharges based on the data assembled to support this proposed Negative Declaration.</p> <p>The only proposal to modify the Grass Valley WWTP facilities or normal operations in conjunction with these emergency discharges is to replace the existing chlorination system with an ultraviolet (UV) disinfection system or a dechlorination system which would be added and utilized prior to discharge to the creek under an authorized permit. Since there is no existing approved stream flow/volume measuring gauge, the District proposes to install such a stream gauge on Grass Valley Creek. The stream gauge would be installed on the existing concrete spillway at Grass Valley Lake, with no disturbance to the natural channel of Grass Valley Creek. The only other activity proposed in conjunction with this emergency discharge is to collect samples of the treated effluent in accordance with a sample analysis plan to verify that the effluent does not contain any pollutants that could significantly degrade the water quality of Grass Valley Creek.</p>	NOD

2008031114	Residential Density Bonus Zoning Ordinance Amendment (ZOA) Agoura Hills, City of Agoura Hills--Los Angeles Zoning Ordinance Amendment to comply with State Density Bonus Law.	NOD	
2008032047	Ryan T. and Iva K. Bonar Siskiyou County --Siskiyou Tentative Parcel Map approval to create three parcels: 20.00, 20.01, and 20.01 acres, with a 24.25 acre remainder parcel from an existing 84.27 acre parcel situated within the Rural Residential Agricultural, 20 acre minimum parcel size (RRB20) zone district.	NOD	
2008032099	Richard Moore Gravel/Eagle Peak Rock and Paving, Inc. Use Permit (UP-08-07) Siskiyou County --Siskiyou Approval of Use Permit UP-08-07 which is limited to approval of processing approximately 40,000 tons of asphalt for the Old Highway 99 road construction project over approximately 25 days. The use shall contain a condition that states the use permit shall expire in accordance with Condition 21 of the use permit and the use permit shall not be used concurrently with Use Permit UP-07-11 or any other subsequent use permit approved and issued for the site and the applicant shall obtain a separate use permit for any further construction projects at the site.	NOD	
2008041060	Crossroads Investors, TPM, 4 Lots and a Remainder Parcel, TPM 20800 San Diego County Fallbrook, Unincorporated--San Diego Project proposes to subdivide 15.58 acres into four residential parcels and a remainder parcel. All parcels will be serviced by the Ramona Municipal Water District for water and will provide onsite septic systems. Access will be provided by a private road easement. Earthwork will consist of a balanced cut and fill of 10,000 cubic yards. The site contains an existing single family residence that will remain on the remainder parcel.	NOD	
2008042098	Pier 9 Layover Ferry Berth Facility San Francisco Bay Area Water Transit Authority San Francisco--San Francisco The project, as planned, would construct Layover Berths for two San Francisco Bay Area Water Emergency Transportation Authority (WETA) ferry boats alongside the northern apron of Pier 9 adjacent to the WETA Administrative Offices. The Layover Berths will be used to hold out-of-service ferries when existing terminal berths in the Bay Area cannot be used due to operating constraints, or to hold the ferries when they are surplus to capacity requirements.	NOD	
2008042124	Dublin Elementary School Portable Addition Project Dublin Unified School District Dublin--Alameda The proposed project consists of the construction of ten portable classroom buildings and one portable restroom building at Dublin Elementary School to increase school capacity to accommodate students from Nielsen Elementary School, which is planned to be closed. The portable buildings would be located on a portion of the asphalt playground (approximately 10,000 square feet) located behind the main school buildings. For safety and security purposes, a six-foot high chain link fence would enclose portions of the portable building area. Exterior lighting is installed on the portable buildings, which will light the walkway in front of	NOD

	trenching.		
2008068224	Lodge Safety Rail Modifications Parks and Recreation, Department of --Monterey Perform safety rail modifications at the Sea Galaxy and view Crescent lodges at Asilomar State Beach and Conference Grounds. * Sea Galaxy :, Fit three stairway railings, twelve second floor balconies and the eastern portion of the upper floor walkway railing with 2"x2" vertical redwood slats along the horizontal rails to comply with current building codes. Slats will be installed on the inside of the railings. * View Crescent:, For thirteen balcony panels, remove existing front steel panel railing and replace with modified railing which will have twenty-three 1/2"x1-1/2" bars spaced 3-1/2" apart.	NOE	
2008068225	Install New Firewood Storage Container Parks and Recreation, Department of --Monterey Install a new container for the storage of firewood on an abandoned road near the entrance kiosk at Pfeiffer Big Sur State Park. The container will be a steel cargo container and will be painted a natural color that blends in with the surrounding environment. The container is 20' long by 8' wide by 8'6" tall. Install container by placing on 4" by 4" posts 8 feet in length that will run the width of the container in the front, middle, and back. No excavation is required for installation.	NOE	
2008068226	IT Environmental Liquidating Trust, Benson Ridge Facility - Post-Closure Permit Renewal Toxic Substances Control, Department of Clearlake--Lake This project consists of renewing the Benson Ridge Facility (Facility) Post-closure Permit. No physical changes to the site are proposed. The Facility consists of a closed - covered Waste Consolidation Area and Groundwater Evaporation Basin. IT Environmental Liquidating Trust (ITELT) is the current owner. On December 31, 1997, Department of Toxic Substances Control (DTSC) issued a Post-closure Permit for the facility which expires ten years from the date of issuance. Under the conditions of the Post-closure Permit, state and federal regulations require that a post-closure plan for a 30-year period be developed and implemented by the facility. The renewed Post-closure Permit outlines the procedures to fulfill these regulatory requirements which consist of three primary functions: (a) continue maintenance of the closure cover, (b) continue environmental monitoring, and (c) continue maintenance of financial mechanisms to fund the post-closure activities.	NOE	
2008068227	Proposed Interim Measure (PIM), Former Turco Facility Site Toxic Substances Control, Department of Carson--Los Angeles The PIM project subject to DTSC approval includes installation of eleven wells and hot spot removal of contaminants using a SVE system at the Site. The PIM activities would be conducted in accordance with the ERM PIM dated 14 January 2008, which is incorporated by reference. In the event that additional work not included in this PIM is required or significant historical resources are located, a new CEQA evaluation will occur. The primary objective of the PIM is to remove volatile organic compound (VOC) mass from the subsurface and reduce contaminant concentrations in soil vapor.	NOE

2006101118	Crossroads at 395 Project Victorville, City of Victorville, Adelanto--San Bernardino The Project proposes construction of new commercial/retail uses totaling 303,000 square feet on approximately 32.44 acres of land, apportioned into ten (10) parcels.	EIR	07/31/2008
2007011008	Wallis Annenberg Center for the Performing Arts Beverly Hills Beverly Hills, City of Beverly Hills--Los Angeles The project calls for the rehabilitation and reuse of the City's former main post office as the Wallis Annenberg Center for the Performing Arts. The Center would include the following components: a new 500-seat auditorium building (to be sited on the post office property south of the existing post office building); a new City subterranean parking structure at 455 North Crescent Drive that would be placed under Crescent Drive (between the post office building and city hall); and the rehabilitation of the post office in accordance with the Secretary of the Interior's Standards in order to accommodate a 150-seat multi-purpose performance/rehearsal/lecture space; three classrooms; basement-level dressing rooms and mechanical equipment rooms; donors lounge; restoration of the building's existing lobby area; educational and administrative offices; and an incidental food concession with outdoor seating. Ancillary features proposed on the property would include new landscaping, sculpture gardens, walkways, elevator/escalator and/or stair access to the parking garage, surface parking, garage access driveways, and loading zones for van and truck deliveries. The City parking facility is being proposed with options as either a two-level garage or three-level garage. The two-level garage is proposed to provide between 270 and 300 parking spaces with points of access at Santa Monica Boulevard South. The parking garage is addressed as the main impact discussion in the EIR. The three-level option would provide between 400 and 430 parking spaces. As it has much in common with the two-level option most of the environmental issues associated with this option are covered in the discussion of the two-level option in the Alternatives section of the EIR. 	warehousing purposes on approximately 25.35 acres developed with an existing approximately 103,000 square feet industrial building to be demolished at 1001 Columbia Avenue (previously 990 Palmyrita Avenue), situated north of Columbia Avenue and south of Palmyrita Avenue, generally situated west of Northgate Street, in the BMP-SP- Business and Manufacturing Park and Hunter Business Park Specific Plan (Industrial Park District-Manufacturing Park) Overlay Zones.		
2008062060	Fairmont Charter Elementary School Vacaville Unified School District Vacaville--Solano Construction of a new elementary school at western portion of existing campus. The new school would be two stories, contain 53,392 square feet and provide 91 parking spaces. The existing school would be demolished and new turf playfields and hardcourts constructed. The new school is designed to be energy efficient and use green building materials. The school is designed to achieve LEED Silver certification.	MND	07/17/2008
2007081014	South Santa Clarita Sphere of Influence Amendment/General Plan Amendment/Prezone Santa Clarita, City of Santa Clarita--Los Angeles The proposed project described in the original Notice of Preparation was an Amendment of the City of Santa Clarita's Sphere of Influence (SOI). A Sphere of Influence is a plan for the probable, ultimate municipal boundaries and service area of a local agency, as determined by the Local Agency Formation Commission (LAFCO). Government Code Section 56427 provides that each LAFCO shall adopt a Sphere of Influence for each local agency under that LAFCO's jurisdiction. Section 56428 provides that any local agency may request an amendment or revision to an adopted Sphere of Influence or urban service area. The project description is being changed from a project consisting of a Sphere of Influence Amendment only, to a project consisting of a Sphere of Influence Amendment, Annexation and Prezone. This change is being made at the direction of the Court mandate.	NOP	07/16/2008
2008052065	2620 Augustine Drive Development Project Santa Clara, City of Santa Clara--Santa Clara Demolition of the existing structures on the site and the construction of up to 1,969,600 square feet of office development and 35,000 square feet of retail development. The office component will be in four towers located on the western half of the project site. The northern half of the site will have one 16-story (approximately 241 ft) and one 13-story (approximately 200 ft) office tower. The southern half of the site will have one 16-story and one 10-story (approximately 160 ft) office tower. Parking will be provided in four 5-story parking structures. The parking structures will provide 6,495 parking spaces and the surface lots will provide 91 parking spaces for a total of 6,586 spaces on-site. The retail component will be in four one-story buildings located on the northeast and southeast corners of Augustine Drive and Bowers Avenue.	NOP	07/16/2008

2007102133	Sheridan Spray Expansion Project Placer County --Placer The project would add two additional spray irrigation areas on an agricultural site southeast of the existing WWTP. These areas include a 7.78 acre portion and a 0.80 acre portion of the Morrison property, south of the existing 5.40 acre spray area on the same property.	NOD	
2008031075	Maxwell Corporate Yard Project Chula Vista School District Chula Vista--San Diego The Chula Vista Elementary School District (District) is proposing to improve their recently acquired property at 1855 Maxwell Road for the relocation site of their existing Corporate Yard (bus storage and maintenance yard) currently located at East J Street, Chula Vista. On April 11, 2000, the District's Board of Education authorized the purchase of approximate 10.5 acres of property at 1855 Maxwell Road for a relocation site of the District's Corporate yard, the relocation of which was included in Proposition JJ as part of the District's overall Improvement Plan. The proposed project would relocate the existing Corporate Yard from a predominantly residential area within Chula Vista to a more compatible General Industrial Zone within the City.	NOD	
2008052043	Community Foundation of Santa Cruz - 07-0388 Santa Cruz County --Santa Cruz Proposal to construct an office building (~9,200 sf) to grade ~3,350 cubic yards (cut) and 300 cubic yards (fill) and to construct associated improvements.	NOD	
2008052044	Eureka Creek Fish Passage Improvements 08-0128 Santa Cruz County --Santa Cruz The project involves modifying an existing concrete box culvert (Post Mile Marker 2.95) placed within Corralitos Creek and making stream channel improvements in order to improve fish passage through the area.	NOD	
2008068241	Replace Lifeguard HQ Geotech Studies (ER# 8342) Parks and Recreation, Department of --Santa Barbara The project proposes to perform geotechnical investigations and borings for a future Lifeguards Headquarters project.	NOE	
2008068242	Hacienda Avenue Street and Sidewalk Improvements Desert Hot Springs, City of Desert Hot Springs--Riverside The purpose of the proposed project is to improve pedestrian safety along the north side of Hacienda Avenue for elementary school children. The proposed project would include the following improvements: 1) Curb and Gutter along the north side of the street; 2) Six foot sidewalk behind the curb with necessary retaining walls; 3) Rehabilitation of the existing pavement; and 4) Miscellaneous Improvements. Miscellaneous improvements include reconstruction of driveways and drywells.	NOE

2008068243	Chalon Driveway/Parking Deck Placer County --Placer Steel grated deck and entry walk in front setback, and existing structure in the intermittent stream setback.	NOE	
2008068244	Air Pollution Control District Particulate Study Parks and Recreation, Department of --San Luis Obispo The San Luis Obispo County Air Pollution Control District is conducting a study to determine if Oceano Dunes SVRA is contributing to air quality problems on the Nipomo Mesa. The District has received permission to install two air quality monitoring station within the SVRA or lands leased as part of the SVRA. These stations require a clear patch of sand 15 feet by 15 feet and will be placed in existing cleared areas. In addition to the monitoring stations, the APCD will install 16 sand traps and monitoring equipment. The sand traps will be placed throughout the riding area of the SVRA. Traps are a maximum of 4 inches in diameter and will be installed on posts two feet into the ground, and will stick out of the ground two feet. The sand traps will be in place for approximately two weeks during the windy season (March-June). Monitoring stations and sand traps will be placed away from areas that support nesting for western snowy plover and California least tern.	NOE	
2008068245	Removal Action Workplan, Area J, Wyle Laboratories, Inc. 1841 Hillside Avenue, Norco, California Toxic Substances Control, Department of Norco--Riverside The project is the approval of a Removal Action Workplan (RAW) by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6 8; chapter 6 5, etc as submitted on January 2, 2008, by ENVIRON International Corporation (ENVIRON). The RAW focuses on excavation and removal to mitigate soils impacted with excessive levels of lead, polychlorinated biphenyls (PCBs), specifically Arochlor 1260, and perchlorate in soil on Site. The purpose of the project is to mitigate impacted soils that exceed the project-specific human health risk criteria to minimize migration of and human exposure to the identified chemicals of concern (COCs). The estimated volume of impacted soils is 105 cubic yards or approximately seven (7) truckloads. The cleanup levels for these COCs are: Site-specific Risk-based Threshold Concentrations (RBTCs) of 150 milligrams per kilogram (mg/kg) lead, 221 micrograms per kilogram PCBs/Arochlor 1260, and 01 mg/kg perchlorate. Project activities will commence in early April of 2008 and are expected to take approximately 110 days to complete. Excavated soils will be transported using a licensed hauler to an appropriately licensed facility for disposal. Specific environmental safeguards and monitoring procedures that are enforceable and made a condition of project approval to ensure that impacts to the environment will be less than significant are included in an approved Excavation Plan, Engineering Evaluation/Cost Analysis, Health and Safety Plan, Quality Assurance Project Plan, Transportation Plan, and Air Monitoring and Dust Control Plan. In addition, in the event resources of biological, cultural, or historical resources specialist makes an assessment of the area and arrangements are made to protect or preserve any resources that are located. If human remains are discovered at the Sited, no further disturbance will occur in the location where the remains are found, and the County Coroner will be notified pursuant to Health and Safety Code section 7050 5. The Coroner will determine disposition within	NOE

48-hours (Public Resources Code, section 5097 98).

An analysis of project activities upon existing environmental conditions indicates that implementation of environmental safeguards and monitoring procedures are enforceable and made a condition of project approval and will ensure that impacts to the environment will be less than significant. As a result, DTSC finds that the project is exempt from further environmental review under CEQA.

2008068246	<p>Temporary Urgency Change Petition Water Resources, Department of Sacramento--Sacramento</p> <p>Through the Temporary Urgency Petition, the Department of Water Resources (DWR) is seeking a modification of a term in Water Rights Decision 1641 that conditions the use of JPOD upon all provisions of its permits being satisfied. DWR is asking that language be added to the term which would clarify that JPOD operations may occur even if south delta salinity objectives are not being met as long as the State Water Resources Control Board's Executive Officer determines that the exceedances of the objectives is outside the control of DWR, and that the use of JPOD will not adversely affect the salinity in the south delta.</p> <p>The Beneficiaries of the project will be DWR and the U.S. Bureau of Reclamation, and subsequently the south-of-Delta water suppliers that are facing emergency shortages this summer due to the current drought and a recent court order significantly reducing the export of water from the Delta.</p>	NOE

<u>Documents Received on Wednesday, June 18, 2008</u>			
	The proposed CSD will establish new zoning regulations as they relate to oil and gas production activities at the oil field using information contained in the EIR and obtained from other sources. The CSD will establish permanent development standards, operating requirements, and procedures for oil and gas operations in the unincorporated portion of the Inglewood Oil Field.		
2008061096	Factory Row Homes San Diego, City of San Diego--San Diego Coastal Development Permit (CDP) and Site Development Permit (SDP) to allow for demolition of an existing building, and construction of 14 residential for rent units on a 14,000-square-foot site.	MND	07/17/2008
2008061097	Talbert Lake Diversion Project Huntington Beach, City of Huntington Beach--Orange The proposed project is a Santa Ana Regional Water Quality Control Broad-approved Supplemental Environmental Project (SEP) involving the construction of a natural treatment system in the northeastern corner of Central Park in Huntington Beach, on the eastern side of Goldenwest Street. The proposed project would divert up to 3 million gallons per day (mgd) of dry weather flows from the East Garden Grove Wintersburg Channel (EGGWC) into a newly constructed treatment wetlands system for water quality improvement purposes. The constructed wetlands would be located in the northeastern corner of Central Park (between Slater Avenue and Talbert Avenue to the north and south, and Goldenwest Street and Gothard Street to the west and east.) Project components include the construction of a diversion structure such as a rubber dam within the EGGWC to divert dry weather flows either into an existing water line in Goldenwest Street, or the existing storm drain system within Gothard Street, for transport to the newly constructed treatment wetlands within Central Park. These treatment wetlands would consist of three linear wetland features encompassing open water and channel areas and channels through which diverted channel flows would move and be subjected to a series of natural treatment processes improving overall water quality. These improved flows would move downstream into a restored and reconfigured Talbert Lake, which would provide additional water quality refinement and recreational/environmental enhancement benefits. These improved flows could be used for park irrigation purposes, if sufficient water is available, or pass back into Slater Channel under period of higher flow.	MND	07/17/2008
2008061098	Los Osos Valley Road/US 101 Interchange Improvements Project Caltrans #5 San Luis Obispo--San Luis Obispo The California Department of Transportation (Caltrans) proposes to improve the Los Osos Valley Road/US 101 Interchange in the City and County of San Luis Obispo. The project would correct operational deficiencies and improve safety. The project would widen the Los Osos Valley Road overcrossing and widen the adjacent bridge crossing San Luis Obispo Creek. The project would also potentially relocate and reconfigure the freeway ramps, depending on the alternative chosen.	MND	07/17/2008

	areas nearest the proposed Neighborhood Center.		
2008062066	West Park Stanislaus County Patterson--Stanislaus The proposed project would include the following major components: (1) development of an inland port and short-haul rail service to and from the Port of Oakland; (2) development of industrial, business park, and distribution land uses on approximately 4,800 acres, including the former CLAF; (3) development of a general aviation airport on the former CLAF property, and (4) various infrastructure and public facility improvements to support the project. The project also consists of a proposed General Plan amendment and rezoning on all 4,800 acres changing the existing general plan designation from "Agriculture" to "Specific Plan" and modifying the zoning district from "A-2-40 (General Agriculture)" to "Specific Plan." A Specific Plan will be developed for the entire 4,800 acres and will include all appropriate contents as required by California Government Code. The Specific Plan will be provided as part of the EIR project description.	NOP	08/04/2008
2008061095	Twentynine Palms Water District Zone 6, Fortynine Palms Spreading Grounds New Well and Pipeline Project Twentynine Palms Water District Twentynine Palms--San Bernardino The District's sole source of water supplies is from local groundwater wells within the Twentynine Palms Groundwater Basin. The District's portion of this groundwater basin has historically been divided into four subbasins: Indian Cove, Fortynine Palms, Eastern, and Mesquite Lake. As of 2007, the District had 17 production wells, of which 9 are in active operation. The remaining wells are inactive and/or used for groundwater monitoring. According to the District's Urban Water Management Plan (UWMP or Plan), the total water demand in the District was 3,203 acre-feet (AF) in 2004, with a project demand of 4,739 in 2030. The objective of the proposed well is to continue to increase the District's water production capacity to meet peak day demand requirements of existing development and future connections. The Twentynine Palms Water District (District) proposes to construct the new well and related appurtenances within the City of Twentynine Palms, within the Fortynine Palms Canyon Subbasin. The new well is anticipated to be drilled to a depth of approximately 500 feet below ground surface (bgs). The well is anticipated to yield approximately 900 gallons per minute (gpm). Water pumped from the proposed well will be treated with a sodium hypochlorite chlorination system to provide disinfection.	Neg	07/17/2008
1989052316	Use Permit 00-24 (Anderson Landfill), an amendment of Use Permit 68-89 Shasta County Anderson--Shasta Changes that will be authorized by the issuance of revised SWFP No. 45-AA-0020, include: (1) an increase in the Maximum Depth of Excavation from 620 feet above mean sea level (aMSL) to 580 feet aMSL; (2) an increase in the total Design Capacity from an estimate of 13,000,000 cubic yards to a Design Capacity of 16,353,000 cubic yards; (3) an increase in the Remaining Capacity from 9,094,800 cubic yards to 11,914,025 cubic yards; and (4) an increase in the Estimated Closure Year from 2042 to 2055. 	Adjustment to alter the parcel boundary to accommodate BRE development and Taylor Morrison development.		
2008012086	Sulphur Creek Bank Stabilization Demonstration Plumas County --Plumas The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2008-0078-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Feather River Coordinated Resource Management. This agreement pertains to a demonstration project for stabilization of a severely incised bank of Sulphur Creek on the Seeliger and DePaoli Ranch. About 500 feet of the cut bank will be laid back to a slope of 1:1 with a toe being created at the base. Boulder vanes will be placed into the creek directed into the channel and upstream at approximately a 25 degree angle. Footing rock and gravel for the vanes will be obtained on site from a gravel bar that is present. Following creation of the new slope it will be revegetated with whole willow bushes and cut saplings along the toe of the slope. Willow wattles and other native shrubs will be planted further up the slope in a manner that should prevent rill erosion. During construction the water in Sulphur Creek will be diverted out of the main channel and into a secondary channel that is present on the other side of the gravel bar. Once construction is complete the water will be re-directed back into the primary channel.	NOD	
2008032007	1226 El Camino Real Burlingame, City of Burlingame--San Mateo Application to construct a four-story, 9-unit residential condominium building located at 1226 El Camino Real. The approximately 12,874-square foot project site currently contains four, two-story apartment buildings with a total of twelve occupied units, and carports in the two rear buildings, which will be demolished to build the new condominium building. The proposed building would contain three floors of three, two-bedroom residential units each, a partially below-grade parking garage at ground level, and a rooftop deck/garden. There is a total of 945 square feet (105 square feet/unit) of common open space proposed for the condominium project at grade level where 900 square feet (100 square feet/unit) is required. In addition, there is 3,055 square feet of common open space provided on the rooftop. There is 86 to 158 square feet in private open space per unit (75 square feet/unit is the minimum required) provided in uncovered balconies on the second, third and fourth floors. Proposed landscaping on the site includes various species of trees, shrubs, and groundcover. Of the nine residential units in the building, one would be sold at below market rates, as "affordable" units per the Burlingame Municipal Code, Section 25.63.020. A total of 21 on-site parking spaces are required where 21 on-site spaces are provided.	NOD

2008041127	Relocation of 30-inch Eastern Transmission Main Moulton Niguel Water District Laguna Hills, Mission Viejo--Orange Relocation of an existing Water Transmission Main serving the Cities of Laguna Hills, Mission Viejo, Laguna Niguel, and San Juan Capistrano.	NOD	
2008052010	Pickereel Floodplain Restoration Solano County Water Agency Winters--Solano The purpose of the Pickereel Project is to restore functional floodplain elevation to the north bank of Putah Creek for 800 feet downstream of Putah Diversion Dam. This area was heavily infested with arundo prior to 2002 when control operations began. For decades arundo obstructed flow causing sediment to accumulate on the floodplain. The arundo is now substantially controlled, but the effect of sediment accumulation still exists. The edge of the floodplain is now 118 feet above sea level compared with the water surface elevation of 109 feet. The 9 feet of floodplain height above the water surface inhibits floodplain function and prevents the natural establishment of native vegetation by seed drop because depth to ground water exceeds the growth rate at which seedlings can establish before the heat of summer.	NOD	
2008052040	Santa Cruz Medical Foundation - 070643 Santa Cruz County --Santa Cruz Construct a new two-story 19,641 square foot medical office building to include associated parking (including remote staff parking on former "drive in" site); riparian restoration, site improvements, including minor pedestrian improvements; and to install a new drop-off canopy on an existing medical office building.	NOD	
2008069024	Clearlake Crossing Project SAA# 2007-0355-R2 Clearlake, City of Clearlake--Lake The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0355-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Clearlake Highway 53 Associates, L.P. Project involves the commercial development of approximately 6.9 acres. Project would widen Old Highway 53 and disturb a total of 10 linear feet of the bed and banks of the jurisdictional waters to accommodate a new water main. Rip rap will be added within the bed and banks to stabilize the water main.	NOD	
2008069026	Cook Street Drainage and Intersection Improvements Project Palm Desert, City of Palm Desert--Riverside The Cook Street Drainage and Intersection Improvements Project would allow for the construction of drainage improvements; reconfiguration of vehicle travel and turn lanes, raised medians, and sidewalks at the intersection of Cook Street at Country Club Drive and the intersection of Cook Street at Howley Lane; and installation of signal interconnect (in-road signal traffic sensors) between 42nd Avenue and Frank Sinatra Drive. 2008068260	Temporary Compressed Natural Gas Fueling System at the Elk Grove Corporation Yard Elk Grove, City of Elk Grove--Sacramento Construct temporary compressed natural gas (CNG) storage and fueling facility to fuel 24 public transit buses within the existing paved bus parking area of the City's Corporation Yard. The Project will include a flatbed truck trailer containing 960 gallons (490 cubic feet) of CNG under 4500 maximum pounds per square inch pressure, a CNG dispenser, and a natural gas powered compressor. CNG will be pumped from the trailer via underground piping to 12 fill posts at bus parking stalls where fueling will occur.	NOE	
2008068267	Reese, Grading Permit Placer County --Placer Project proposes a grading permit in order to grade approximately 4,750 square feet of area and move approximately 220 cubic yards of soil so that he can access his parcel.	NOE	
2008068269	Drainage improvements Caltrans #2 --Shasta The California Department of Transportation (Department) is proposing roadside drainage improvements (Projects) along State Route 299 in Shasta County. This Project is located at Post Mile 8.0, approximately 200 feet west of the Crystal Creek Bridge along the south shoulder of the highway. The purpose of this Project is to create an under drain system adjacent to the roadway in order to improve underground water conveyance and redirect highway runoff. The 30' x 80' under drain system will pass under an existing man-made berm adjacent to the highway. A series of Class 1 delineators will be placed between the shoulder of the road and the under drain system to deter public access. Erosion control materials (e.g. silt fence, waddles, native seeding, etc.) will be placed upon completion of construction. All Project activities will be confined to the existing pullout and bermed area. Archaeological, Biological and Hazardous Waste studies have been conducted in compliance with both state and federal requirements. No environmental issues were identified in the course of these studies, No additional right of way will be required.	NOE	
2008068270	Drilling Trinity River Bridge Caltrans #2 --Trinity Caltrans proposes to conduct drilling at the Trinity River Bridge (bridge number 05-0028). A planning study has been prepared that identifies constructing outrigger piers to mitigate for future scour. It is proposed that the structure be supported on pile foundations at the supports. The purpose of the drilling is to generate subsurface geotechnical data essential for the design of the proposed bridge retrofit. The borings will consist of 94-mm diameter, vertical mud rotary soil borings located in or around the vicinity of the proposed supports of the retrofit for the bridge. Phase 1 of the drilling identifies four boreholes from the bridge deck.	NOE

	implementation. The proposed project would contain approximately 15,000 square feet (sf) of commercial space at the ground level fronting San Mateo Avenue, 48 residential units above the commercial space, an interior courtyard for the benefit of the project's residents, and a 152-space parking structure facility integrated within the building.		
2008062068	Roseville Storage Center (PMPA T20070764) Placer County Roseville--Placer Project proposes approval of a Minor Use Permit to expand their outdoor storage area of Recreational Vehicles, boats, semi-trucks, trailers and other small equipment on the eastern side of the 11.2 acre parcel.	MND	07/18/2008
2008062069	Bay Flat Road Well Bodega Bay Public Utility District --Sonoma The project includes construction of a new municipal well on a privately owned parcel located at 1681 Bay Flat Road. The well would be constructed in a four-foot by six-foot vault in a mowed grassy area. A six-inch water line would be aligned on the east side of the parcel, then down the easterly side of an existing paved driveway to intertie with the existing six-inch water main in Bay Flat Road. The District would construct a test well at the same location prior to committing to further improvements. An eight-foot by ten-foot cedar sided shed would be constructed at the northeast intersection of the private driveway and Bay Flat Road located at 1665 Bay Flat Road in a small clearing. The shed would house a chlorine disinfection system to disinfect water from the new well.	MND	07/18/2008
2008062070	Los Indios Subdivision Santa Rosa, City of Santa Rosa--Sonoma Proposal to subdivide the 1.63 acre project site into twelve (12) lots, retain one existing single-family home in its current location and construct eleven (11) new single-family residences on the newly created lots. The proposal includes a request for a Conditional Use Permit to allow a small-lot subdivision (smaller lots than permitted in the R-1-6 zone), with lot sizes ranging from 2,989 square feet to 8,801 square feet, with an average lot size of 4,818 square feet. There are four proposed two-story residential floor plans. The homes will range in size from 1,268 square feet to 1,698 square feet; the existing home to remain is approximately 2,304 square feet. Each unit will also have an attached two-car garage. Proposed landscaping includes street trees, various medium and small shrubs, and lawns.	MND	07/18/2008
2008062071	MS07-0025 Tree-Lot Subdivision Contra Costa County Alamo--Contra Costa The project consists of a request to subdivide 3.73-acres into three parcels. The existing residence will include the existing developed portion of the site: Parcel A (2.4-acres), Parcel B (0.5-acre), and Parcel C (0.72-acre). There is a request to remove 18 redwood trees and allow work within the canopy of six other trees. The project includes granting of a variance for a secondary frontage 13-foot, when 20-foot is required, and will need annexation into the Contra Costa Sanitary District, and Lighting District. The project consists of one SD030 diesel generator surrounded by an 8-foot tall CMU block wall with a 10-foot wide wrought iron double gate located on the northern side of the enclosure. The project site is located on 12118 Campo Road, Rancho San Diego in the Valle de Oro Community Planning Group, within unincorporated San Diego County.	NOD	
2008069029	Travel Plaza Multi-use Commercial Facility and Truck Stop; Major Use Permit Modification; P98-024W1 San Diego County --San Diego The project is a modification to a previously approved Major Use Permit on an approximately 80-acre parcel in the East Otay Mesa Planning Area. The uses include truck and trailer parking and a multi-use facility.	NOD	
2008068261	Operation of the New Bath Street Well Health Services, Department of San Jacinto--Riverside Operation and permitting of a replacement well located 20 feet from original well that failed due to a casing failure. Production capacity equivalent to original well.	NOE	
2008068262	Tapo Canyon Water Treatment Plant Health Services, Department of Simi Valley--Ventura Operation of a new treatment plant which replaces the plant severely damaged in the Northridge Earthquake. The treatment plant will be operated from April to November each year to produce approximately 450 acre-feet per year of potable groundwater from existing wells. The new treatment plant does not increase the capacity of potable water production.	NOE	
2008068263	Adoption Of At-Store Recycling Program Recordkeeping And Reporting Regulations California Integrated Waste Management Board --Alameda, Alpine, Amador, Butte, Calaveras, Colusa, ... The At-Store Recycling Program Recordkeeping and Reporting Regulations create Title 14, California Code of Regulations (14 CCR), sections 17987, 17987.1, 17987.2, 17987.3, 17987.4, 17987.5, and 17987.6. These regulations are intended to comply with the requirements of Assembly Bill 2449 (Levine, 2006. Public Resources Code Sections 42250 et seq.). AB 2449 requires operators of supermarkets, with at least \$2 million in annual sales, and retail businesses, with	NOE

Documents Received on Friday, June 20, 2008

2008032066	Broadway Plaza Retail Project Walnut Creek, City of Walnut Creek--Contra Costa The project includes the demolition of a portion (approximately 44,000 square feet) of the existing multi-tenant retail building in the southwestern corner of the site (David M. Brian, Gap Kids, Baby Gap and Mimi Maternity), as well as the entire existing surface parking lot. In their place, a new maximum 107,100-square-foot retail building would be constructed, increasing the potential building space and retail uses on the site from the existing approximately 67,500 square feet to a maximum of approximately 138,400 square feet, a net maximum increase of approximately 71,000 square feet.	EIR	08/04/2008
2005112075	American Vineyard Village (PEIR T20050276) Placer County Roseville--Placer NOTE: New copy of Final on CD submitted 6/25/2008. Proposed to subdivide a 19.2-acre parcel into 150 single-family residential lots with three landscape lots, a tot lot, and two detention basins.	FIN	
2007011088	Shady Creek Medical Center Irvine, City of Irvine--Orange The proposed project consists of the development of 150,000 square feet of medical office space and 7,200 square feet of retail on an approximately 21-acre site (North Parcel and South Parcel) located on Sand Canyon Avenue.	FIN	
2008061107	East Beach Nourishment Project Seal Beach, City of Seal Beach--Orange With the proposed project the City of Seal Beach would receive up to 200,000 cy of suitable material from an approved offshore borrow site located about 0.4 mile from the beaches of Surfside Colony-Sunset Beach (SS), approximately 1.5 miles from the project site. The beach-compatible material would be placed on East Beach as a locally funded incremental element/modification to the U.S. Army Corps of Engineers SS Stage 12 project. Material from the USACE offshore borrow site would be pumped through a pipeline submerged on the ocean floor. The dredged material would be discharged to a designated fill area on the beach. This designated fill compartment would have a maximum footprint of approximately 2,300 feet in length and a maximum width of approximately 510 feet. The beach profile would be consistent with existing conditions.	MND	07/21/2008

2008061108	<p>Aliso and Wood Canyons Wilderness Park Resource Management Plan Orange County Laguna Niguel--Orange</p> <p>OC Parks is proposing the establishment of a Resource Management Plan (RMP) for the Aliso and Wood Canyons Wilderness Park (AWCWP). The purpose of the RMP is to provide a comprehensive, long term management plan for the AWCWP. The fundamental objective for the RMP is to identify the best framework to manage, protect and enhance the natural resource values of AWCWP while providing safe recreational and educational opportunities to the public.</p>	MND	07/21/2008
2008062073	<p>Roessler Cellars Winery, 22097 Bonness Road, Sonoma, CA Sonoma County Sonoma--Sonoma</p> <p>Use Permit and Design Review for new winery with a maximum annual production capacity of 50,000 cases (to be constructed in two phases) to include a public tasting, tours, 15 special events per year (up to 30 persons per event) and retail sales. Total building square footage would be approximately 32,000 square feet.</p>	MND	07/21/2008
2008064004	<p>Programmatic EIS to Evaluate Solar Energy Development Bureau of Land Management --</p> <p>The Agencies are considering development and implementation of agency-specific programs related to the future development of utility-scale solar energy projects. Programs would establish environmental policies with mitigation strategies related to solar energy development.</p>	NOI	07/15/2008
2001021030	<p>Fresno 40 Development Project Fresno, City of Fresno--Fresno</p> <p>The project is being proposed under a master conditional use permit for the entire subject property and includes office, retail commercial, and multiple family residential components. A general plan amendment will amend approximately 16 acres of property from the office commercial to the community commercial plan designation. A rezoning application will essentially rezone approximately 16 acres from the C-P/UGM/cz and R-P/UGM/cz to the C-2/UGM/cz zone district and remove an existing condition of zoning to allow a second point of vehicular access from the subject property to Friant Road. The project will commit to the allocation of 209,650 square footage (sf) of commercial (retail) space, 278,200 sf of office space, and 24 residential units.</p>	NOP	07/21/2008
2008061109	<p>Elysian Reservoir Water Quality Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>To help ensure the quality, reliability, and stability of the City of Los Angeles drinking water supply, including compliance with updated US EPA water quality standards, LADWP proposes to replace the uncovered Elysian Reservoir with two concrete tanks, which would be sited within the existing reservoir and buried. These tanks would provide an equal amount of potable water storage (55 million gallons [MG]) as is available in the existing reservoir. The area atop the tanks would be developed for recreation uses. A shallow wildlife pond no less than 0.5 acre would also be created at the northern end of the project site, but not atop the tanks. After completion of project construction, the site would be developed according to a program established by the Los Angeles Department of Recreation and parks and opened to the public as part of Elysian Park.</p>	NOP	07/21/2008

2008061110	Upper Stone Canyon Reservoir Water Quality Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles To ensure the quality, reliability, and stability of the City of Los Angeles drinking water supply, including compliance with updated US EPA water quality standards, LADWP proposes to replace the uncovered Upper Stone Canyon Reservoir with a buried concrete storage structure sited essentially within the existing reservoir. This concrete storage structure would provide approximately 81 million gallons of potable water storage. The area atop the concrete storage structure would be planted, and a pedestrian trail system, picnic area, restroom facilities, and a parking lot may be established within the Stone Canyon Reservoir complex to provide for passive recreation activity. After completion of project construction, the trails within the site would be open to public use, and recreation functions would be maintained and operated by the LADRP.	NOP	07/21/2008
2008062074	Draft General Plan Update Mendocino County --Mendocino The proposed project consists of the adoption of an updated General Plan for Mendocino County. California law requires all local jurisdictions in the State to maintain a current general plan with goals and policies to guide land use and development. The current version of the Mendocino County General Plan was adopted in 1981, although some individual components have been updated since then.	NOP	07/21/2008
1996082016	Tuolumne County General Plan Update Tuolumne County Ordinance for Zone Change RZ06-021 to rezone a 1.0+/- acre parcel from RE-1:MX (Residential Estate, One-Acre Minimum:Mobilehome Exclusion Combining) to A-20 (General Agricultural, Twenty-Acre Minimum), and to rezone a 40+/- acre parcel from AE-37 (Exclusive Agricultural, Thirty-Seven Acre Minimum) as follows: 30.8+ acres to A-20 and 9.2+ acres to O (Open Space), under Title 17 of the Tuolumne County Ordinance Code.	NOD	
2004121045	Amendment to The Platinum Triangle MLUP Anaheim, City of Anaheim--Orange The Platinum Gateway Project is request to permit a 320-unit residential complex, 12-story office building of 209,419 square feet including a 5,586 square foot full-service restaurant with an outdoor dining area of 1,715 square feet and 4,381 square feet of retail space, and a 138-guest room hotel of 104,604 square feet including 2,225 square feet of office, 1,784 square feet of retail, 8,329 square feet of restaurant and 4,347 square feet of banquet/meeting area.	NOD	
2006032069	Dick Cook Bridge Replacement Projects Placer County Loomis--Placer SAA #16002007-0121-R2 The project involves the replacement of the existing Dick Cook Road Bridge over Miners Ravine. The new bridge will be a two land, single span, pre-cast voided concrete slab bridge supported on concrete abutment on spread footings.	NOD

	Title 17 of the Tuolumne County Ordinance Code; and 2. Application 05WA-67 to rescind the existing Williamson Act land conservation contract on the 240+/- acre parcel pursuant to Resolution 122-70 and to execute a new Williamson Act land conservation contract pursuant to Resolution 106-04, including approval of the agricultural management plan.		
2008068294	Zone Change 05RZ-217 Tuolumne County --Tuolumne Ordinance for Zone Change 05RZ-217 to rezone a 0.35 acre portion of a 0.85+/- acre parcel from R-1:MX (Single Family Residential:Mobilehome Exclusion Combining)) to O-1 Open Space-1) under Title 17 of the Tuolumne County Ordinance Code.	NOE	
2008068295	05WA-165, 05RZ-180, and Determination of Compatibility Tuolumne County --Tuolumne 1. Ordinance for Zone Change 05RZ-180 to rezone a 97.7+/- acre parcel from AE-37 (Exclusive Agricultural, thirty-seven acre minimum) to AE-37:AP (Exclusive Agricultural, thirty-seven acre minimum:Agricultural Preseve Combining) under Title 17 of the Tuolumne County Ordinance Code. 2. Application 05WA-165 to rescind the existing Williamson Act land conservation contract on the 97.7+/- acre parcel pursuant to Resolution 122-70 and to execute a new Williamson Act land conservation contract pursuant to Resolution 106-04, including approval of the Agricultural Managerment Plan; and 3. Determination that a proposed residence for farm labor housing is a compatible use under the Williamson Act pursuant to Rule 8(b) of Resolution 106-04.	NOE	
2008068296	Point San Lorenzo Trail Closure Parks and Recreation, Department of --Santa Cruz Close an approximately 200 foot long trail and public vista area at San Lorenzo Point due to naturally occurring bluff erosion. Remove dilapidated trail safety railing located on both sides of the trail alignment; railing will be removed by hand. Install new fence and closure signs at the access point to Point San Lorenzo.	NOE	
2008068297	Repair Septic System Parks and Recreation, Department of --Santa Cruz Replace and upgrade an inadequate and non-functioning septic system the Wilder Ranch S.P. Cultural Center. Project elements include: Install a new underground lift station. Abandon the existing leach field located near Wilder Creek. Expand an existing leach field sited near park entrance by excavating 4 new trenches, 2 feet wide by 6 feet deep 85 feet in length. Install new sewer pipe totaling 850 feet connecting the new lift station to leach field in a trench 40 inches deep by 24 inches wide.	NOE	
2008068298	Water Well Replacement Parks and Recreation, Department of --San Mateo Replace two falling water wells and appurtenant pipe and electrical lines. Project elements include replacement of 2 water wells in approximate location to existing wells and installation of new 2 inch water line and 1 1/2 inch electrical power conduit in two segments totaling approximately 350 feet. Trenching for noted new lines will be kept to a maximum depth of 16 inch to minimize ground disturbance.	NOE

2008068299	Continuation of Maintenance Program for Two Sediment Basins, Rathbun Creek Big Bear Municipal Water District Big Bear Lake--San Bernardino In 1993 MWD constructed two sediment basins just upstream of the mouth of Rathbun Creek where the creek enters Big Bear Lake. The purpose is to capture sediment entrained in creek flows from developed areas upstream. The removal of sediment is a key component of efforts to reduce the inflow of nutrients, which are attached to the sediment, into the Lake. Rathbun Creek is one of the largest in Big Bear Valley and it has historically contributed a substantial volume of nutrients to the Lake, with the result that the Lake presently experiences eutrophication. The Regional Board recently adopted a Total Maximum Daily Load (TMDL) threshold for Big Bear Lake, and the continued, effective functioning of the two sediment basins is one essential component to reducing the nutrient load in the Lake. The basins have not been maintained over the past couple of years and the maintenance permits with regulatory agencies have expired. The MWD intends to re-authorize and re-initiate general maintenance and sediment removal from the two basins this fall after flows in Rathbun Creek end. In addition, MWD intends to seek long term maintenance permits from the regulatory agencies for authorization to continue maintenance activities within the basins.	NOE	
2008068300	Regional Plant No. 5 and Administrative Headquarters (RP-5) Solar Power Facility Inland Empire Utilities Agency Chino--San Bernardino The purpose of the proposed solar power facility is to supplement the current power generated by Inland Empire Utilities Agency (IEUA) from biogas and to reduce peak loads from Southern California Edison (SCE) with electricity supplied from the solar photovoltaic system. The proposed solar power facility (SPF) is designed to generate up to one (1) megawatt of electricity from the photovoltaic system and the SPF is proposed to be installed on the RP-5 project site. The proposed project consists of installing the SPF panels at one of several open locations on the RP-5 site and connecting these panels to the SCE electrical grid which is located adjacent to the project site. All of the above proposed activities	NOE

2008068309	Repair shoulder and roadbed erosion Caltrans #2 --Plumas The California Department of Transportation proposes to permanently repair shoulder and roadbed erosion caused by storm damage in 2005. The project is located in Plumas County on SR 89 at post mile 11.8/11.9. Work will include removing the K-rail, extending the existing crib wall twenty feet, adding fill, and restoring the roadbed prism and shoulder to its original condition. Staging will occur within the project limits, on the east side of SR 89. Construction work will occur between May 1 and October 30 and is scheduled to be complete within 10 days. An environmental evaluation was performed which consisted of researching resource databases, records, and field surveys. The following was determined: No adverse biological impacts are anticipated from this project; however, the following measures will be implemented to avoid and minimize any potential effects. 1. No trees shall be removed as part of the proposed project without first notifying the Caltrans Environmental Construction Liaison or Caltrans Biologist. 2. All work shall	NOE

2008068310	<p>take place outside the banks of Indian Creek. 3. No material shall be deposited or allowed to enter the banks of Indian Creek. This project is not anticipated to impact any cultural resources and has no potential affect to historic properties. If buried cultural materials are in countered during construction, it is Caltrans's policy (Caltrans Environmental handbook 2004, Volume 2, Chapter 2-4.4) that work stop in the area until a qualified archaeologist can evaluate the nature and significance of the find and an appropriate course of action can be determined in consultation with the State Office of Historic Preservation. An initial Site Assessment (ISA) was conducted for the above referenced project. Based on the current project scope, there are no hazardous waste issues. A geologic evaluation regarding Naturally Occurring Asbestos (NOA) was also conducted within the project limits. The evaluation does not indicate the presence of altered ultramafic bedrock, alluvium derived from ultramafic rock, and other rock commonly associated with NOA. The proposed project is not within, and does not impact, any site listed on the Cortese List. Permits will not be required for this project.</p> <p>Improvements to Churn Creek Corner/Shasta 299 Caltrans #2 --Shasta</p> <p>The California Department of Transportation is proposing issuance of an encroachment permit, application number 0208-6LF-0187, to make improvements to the southeast corner of the Churn Creek Rd. and State Route 299 Interchange in the City of Redding in Shasta County. The work will be part of an adjacent mini-mart development. The work within State right-of-way will include installing a curb, painting roadway stripes, creating a landscape planter, and relocation existing traffic signs. Excavations will be no more than a foot deep. All work will be constructed in accordance with Caltrans Standard Specifications, May 2006. Archaeological and biological records and databases were reviewed to determine if there are known sensitive resources in the vicinity of the proposed project. Photographs of the site were also examined to determine site conditions and habitat type. Based upon this review it has been determined that the project will not result in a significant effect upon the environment.</p>	NOE	
2008068311	<p>Overlay Caltrans #2 --Lassen</p> <p>The Department of Transportation proposes to overlay 1.7 miles of existing roadway from post mile 17.4 to 19.1 on State Route 36 in Lassen County. All work will occur within the existing roadway and will include 4" dig-outs, 2" overlay, repair/replacement of the metal beam guardrail, ac dike, and tapered inlets. Staging will occur within the project limits on the north side of the State Route 36/44 junction. All construction work will occur between July 1 and October 30, and is scheduled to be completed within 30 days. An environmental evaluation was performed which consisted of researching resource, databases, records, and field surveys. The following was determined: No special status species were located within or near the project study limits. No impacts to biological resources are anticipate as a result of this project; however the following provisions for avoidance and minimization are required: All staging should occur in designated areas. No bridge or culvert work should occur without additional biological studies. No cultural resources will be affected by this project. Therefore, in accordance with the policies and procedures outlined in the Caltrans Environmental Handbook 2004, Column 2, Chapter 2-4.4, Caltrans has determined that a finding of no impact is appropriate because there are non-historical resources within the Project</p>	NOE

	Area Limits, and there are no impacts to historical resources (s) pursuant to CEQA Guidelines 15064.5 (b)(3). No further cultural resources work is required unless project plans change to include work not currently identified in the project description or to include additional areas not identified in current project plans. An initial site assessment was conducted for this project. The results of this assessment indicate there are no hazardous wastes issues that impact the project. Permits are not required for this project.		
2008068312	Cummings Property Illegal Disposal Cleanup California Integrated Waste Management Board --Yuba The solid waste illegal disposal site will be cleaned up using a contractor hired by the California Integrated Waste Management Board (CIWMB). Solid waste and any hazardous waste will be removed to appropriate facilities. Metal debris, appliances, and tire will be separated and hauled to appropriate recycling facilities.	NOE	
2008068313	Desperado Illegal Disposal Site Cleanup California Integrated Waste Management Board --El Dorado The solid waste illegal disposal site will be cleaned up using a contractor hire by the California Integrated Waste Management Board (CIWMB). Solid waste and any hazardous waste will be removed to appropriate facilities. Metal debris, appliances, and tires will be separated and hauled to appropriate recycling facilities. To discourage unauthorized access, the contractor will repair and/or replace two derelict gates.	NOE	
2008068314	Interpretive Improvements at Bekeart's Gun Shop Parks and Recreation, Department of --El Dorado Install four mining camp interpretive stations in the area behind the historic Bekeart's Gun Shop within Marshall Gold Discovery State Historic Park to provide educational demonstrations of pioneer life skills. Stations 1 (15 feet by 25 feet) and 3 (25 feet by 30 feet) will consist of multiple wooden benches under a tent or fly system involving the use of tent stakes. Station 2 (8 feet by 10 feet) will create a temporary wood structure with minimal ground disturbance using a wagon and river rock. Station 4 (30 feet by 30 feet) will require the installation of six troughs.	NOE	
2008068315	North Oaks Wells Nitrate Blending Operation Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project includes the installation of a static mixer within an existing 14-inch water line and the installation of a nitrate analyzer. The mixer consists of baffles that ensure mixing of local groundwater and imported water. The nitrate analyzer will be located above ground within an existing well house to permit monitoring of the nitrate levels in the blended water. A one-inch sampling line approximately 20 feet in length will be run below ground from the analyzer to just downstream of the mixer.	NOE	
2008068316	Rank Island Grade Break Reconstruction Regional Water Quality Control Board, Region 5 (Central Valley) --Fresno, Madera The applicant proposes to place 25 cubic yards of rock in bed of the San Joaquin River to repair a grade break. The purpose of the grade break is to divert water into Coomb's Channel so a minimum flow of five cubic feet per second can be maintained for Holding Contract obligations.	NOE

2006061146	<p>Ellwood Oil Development and Pipeline (Full Field Development) Project California State Lands Commission Goleta--Santa Barbara</p> <p>The PRC 3120.1 and 3242.1 are oil and gas leases that occupy State tide and submerged lands under the jurisdiction of the California State Lands Commission (CSLC). Venoco, Inc. has filed an application with the CSLC to expand oil development on PRC 3120.1 and 3242.1 from Platform Holly off the coast of Santa Barbara County and install a new pipeline from the Ellwood Onshore Facility connecting to the existing All American Pipeline at Las Flores Canyon. The proposed project also would decommission Ellwood Marine Terminal (PRC 3904) also under the jurisdiction of the CSLC.</p>	EIR	08/25/2008
2006101019	<p>Garfield Campus Expansion Glendale Community College District Glendale--Los Angeles</p> <p>Expansion of existing Garfield Campus will provide additional classrooms, independent study labs, a bookstore, lounge area, additional offices, consolidate related off-site educational services, and provide 90-125 new parking spaces. This project was identified in the 2002 Glendale Community College Master Plan Update.</p>	EIR	08/07/2008
2008011034	<p>High School at College and Cannon Carlsbad Unified School District Carlsbad--San Diego</p> <p>The project consists of the construction of a new comprehensive high school on an approximately 57-acre site in Carlsbad.</p>	EIR	08/07/2008
2008062080	<p>280 Divisadero Street San Francisco, City and County of San Francisco--San Francisco</p> <p>The project involves a vacant former carriage house (part of City Landmark No. 190, the Charles L. Hinkel House and Carriage House), behind a larger "main house" at 280 Divisadero Street. The project sponsor, who lives in the main house, proposes alterations to the carriage house so that it can be used as a second residential unit. The proposed work was originally defined as rehabilitation; however, Planning staff has determined that the project would be considered "demolition" of the carriage house under the standards set forth under Planning Code Article 10. The proposed work includes a new foundation, new structural framing, replacement of exterior siding, removal of the existing large doorway, installation of window openings and new or enlarged windows and doors to provide more interior light; new utilities, and the addition of decorative trim. At the second floor, the sponsor proposes to replace a non-historic aluminum dormer window with a new wood sash window in a narrower dormer that would be topped by a new pyramidal cupola. The dormer window would be raised to provide a more usable floor plan and more natural light at the second floor. Two new oval wood windows would be installed in the western slope of the existing Mansard roof, which would be re-covered with new roofing and, except for cupola, would retain its existing profile. Existing wood siding would be reused where feasible. An outside deck would be constructed atop an existing carport, which would be converted to a garage. Additional detailing would include decorative metal railing along the roofline, a weathervane atop the cupola, and a new chimney. Minor excavation would be required for construction of the new foundation and for installation of utilities. The proposed project would affect only the carriage house; no changes to the main Charles L. Hinkel House are proposed.</p>	EIR	08/07/2008

2008012100	Rancho Murieta Recreation Area Tree Management Plan Sacramento County --Sacramento This Draft EIR focuses on the issue of tree maintenance in the Rancho Murieta Recreation Area (Recreation Area), a Sacramento County-owned parcel (APN: 073-0180-008-0000). The Recreation Area is located between the Rancho Murieta Airport and the north bank of the Cosumnes River, adjacent to Highway 16 in Rancho Murieta, Sacramento County. This parcel has been operated and maintained by the Department of Regional Parks since 1979. The California Department of Transportation (Caltrans), Division of Aeronautics, is enforcing State Airport operating regulations that rely on Federal Aviation Regulations (FARs) which govern the allowable height of objects near airports. Specifically, the County has been ordered by the Court to comply with Sacramento County Zoning Code Section 301-24 and California Public Utilities Code Section 21659 by removing obstructions to navigable airspace. To comply with this order, the County must address potential obstructions within the Recreation Area that are subject to the surfaces defined by Part 77, Subpart C of the Code of Federal Regulations (FAR Part 77) near the Airport. FAR Part 77 identifies the criteria that are used to define obstructions for airports and their surrounding airspace.	FIN	
2008061119	Conditional Use Permit #07-2236 Bakersfield, City of Bakersfield--Kern A Conditional Use Permit to develop an approximately 11-acre water treatment plant, including two 35-foot tall water reservoir tanks, pumps, retention basin, generator and potential solar panels, in an A (Agricultural) zone district.	MND	07/23/2008
2008061120	De Santiago Minor Subdivision Monterey County Soledad--Monterey Minor subdivision of a 170-acre lot into four lots resulting in three lots of 40 acres and one lot of 50 acres.	MND	07/23/2008
2008061122	GPA 15, ZCC 66, Map 165 (Van Weezel and Petracchione by Smithco) Kern County Tehachapi--Kern A General Plan Amendment, Zone Change, and Exclusion from Agriculture Preserve to facilitate the subdivision of the property into four 5-acre single family residential lots.	MND	07/25/2008
2008062075	Southwest Estates Santa Rosa, City of Santa Rosa--Sonoma The applicant is proposing to rezone the property from PI (public institutional) to R-1-6 (on the northern two thirds of the property) and to R 3-18 (on the southern third of the property). The portion of the property which is designated Medium Density Residential is proposed as a 4.51 acre Parcel A, which is intended for future development as a multi-family site. The property rezoned to R1-6 will be subdivided into 48 lots intended for single family detached homes. There are three different one and two story floor plans ranging in size from 1,934 to 2,556 square feet. The subdivision is creating five new public streets, one of the new public streets known as Common Way will access several other proposed and approved subdivisions and runs in a north/south direction with a Class I Bikeway. 	Common Way will also have a sanitary sewer line in the road which will run under Colgan Creek connecting to a sewer main in Bellevue Avenue. The developer proposes to trench for the sanitary sewer line during a period of low flow (May 15 - October 15). The trench within the creek channel will be about 4 feet wide with an excavator track width of 12 feet. The sanitary sewer line will be approximately 6 feet below the deepest section of the creek channel and 16 feet below the top bank. After the work is completed the developer is proposing to restore the site to the before condition.		
2008062079	Parcel Map #08-05, Todd Reich Tehama County --Tehama To create two parcels; with Parcel 1 being equal to approximately 10.00 acres and Parcel 4 equal to approximately 10.76 in an R1-A-MH-B:435; Single Family Residential - Animal Raising Combining - Special Mobile Home Combining - 10 Acre Minimum - Zoning District. APN: 007-440-47. Approximately 20.79 acres.	MND	07/23/2008
1987011307	Sacramento River Deep Water Ship Channel Sacramento, Port of --Yolo, Solano, Sacramento, Contra Costa NOTE: Lead Agency for CEQA: Port of Sacramento; Lead Agency for NEPA: U.S. Army Corps of Engineers (USACE). The proposed project would complete the deepening and widening of the navigation channel to its authorized depth of 35 feet. Deepening of the existing ship channel is anticipated to allow for movement of cargo via larger deeper draft vessels. Widening portions of the channel would increase navigational safety by increasing maneuverability. Alternatives that are anticipated to be evaluated in this SEIS/SEIR include, but are not limited to, the following: A) No action alternative; B) Increased use of lighter aboard ship (LASH); lighters (barges) would be used to transport cargo from ports in shallow water to larger ocean going vessels birthed in deeper water; C) Increased use of intermodal transportation; cargo would be loaded at other terminal facilities and transported by truck or railroad; and D) Project depths shallower than 35 feet.	NOP	07/23/2008
2008061123	Boyle Heights Mixed Use Community Los Angeles, City of --Los Angeles The proposed project would redevelop an approximately 68.8 acre property in the Boyle Heights community of Los Angeles that is currently developed with 1,187 units of rental housing. The proposed project would provide considerable amounts of new housing units that will include increased homeownership opportunities, neighborhood-serving retail and office space, civic space and greens and open space amenities. Specifically, the project would include up to 4,400 residential units comprised of no less than 1,200 rental units and up to 3,200 condominium units, and 325,000 square feet of neighborhood-serving retail and office uses and civic uses. 2005122086	Fairway Oaks Galt, City of Galt--Sacramento The proposed project would consist of 130 single-family lots ranging from 6,500 square feet to 13,537 square feet. An 11.59-acre area that includes a neighborhood park with an oak tree preserve and a Class I bike trail that travels along Dry Creek (Lots "A" and "D"), and a 0.06-acre open area (Lot "C"), would be located within the Open Space zone of the project site. The proposed project would incorporate fully paved roads conforming to 50-foot and 60-foot right-of-way sections. A 0.24-acre Lot "B" would contain a water well. Prior to development of the proposed project, two discretionary actions would be required, including a Rezone from R1A-PD to R1C-PD, and approval of a Tentative Map to subdivide the site. 2007031007	<p>Smart Energy Transport System Los Angeles, City of Los Angeles, City of, Carson, Compton, Gardena, Hawthorne--Los Angeles The Smart Energy Transport System (the "Project") is a fuel delivery system that would include an approximate 24-mile pipeline of 12 to 16 inches in diameter as well as ancillary pumping and receiving systems. The proposed pipeline would originate at the Vopak Inland Terminal in the Wilmington area of the City of Los Angeles, travel north through the City of Carson, unincorporated Los Angeles County, City of Compton, additional areas within City of Los Angeles, City of Gardena and City of Hawthorne, arriving at the Los Angeles International Airport (LAX). The proposed ancillary facilities would include a new pump station at the Vopak Inland Terminal, a new delivery connection to the Watson Pump Station in Carson, and a new receiving system at LAX.</p> <p>The Project is proposed to proceed in two phases. Phase 1 consists of the portion of the alignment between the Vopak Terminal and the Watson Pump Station, and ancillary equipment at Vopak and Watson. Construction of Phase 1 of the Project is anticipated to begin in September 2008 and end in February 2009. Phase 2 consists of the portion of the alignment between the Watson Pump Station and LAX. Construction of Phase 2 is expected to begin as early as April 2012.</p>	FIN	
2008041111	<p>Nancy Ridge Business Park San Diego, City of San Diego--San Diego Site Development Permit, Planned Development Permit, Multi-Habitat Planning Area (MHPA) Boundary Line Adjustment and Rezone from AR-1-1 (Agricultural-Residential) to IL-2-1 (Industrial-Light) to construct two step-down, flat pads for outdoor storage use and a paved non-standard driveway totaling approximately 6.17 acres on a 25.79-acre site. The project site would consist of two parcels. A deviation is requested to allow retaining walls with a maximum height of 31 feet. The project site is located at 5909 Nancy Ridge Drive within the Mira Mesa Community Plan Area, Residential Tandem Parking Overlay Zone, Marine Corps Air Station Miramar Airport Influence Area, Accident Potential Zone 2, Airport Environs Overlay Zone, FAA Part 77 Notification Area, Environmentally Sensitive Lands, and Floodway-100 and Floodplain-100 Zones.</p>	FIN	
2008061125	<p>Hansen Dam Ranger Station and Trail Improvements Project (W.O. E170405B) Los Angeles, City of --Los Angeles The City of Los Angeles proposes to construct an approximately 5,000 square feet ranger station and visitor center, with office space for park rangers and park staff as well as public information areas, public restrooms and storage space. The facility would also include a park maintenance function, being auxiliary to an existing, nearby maintenance yard. In addition to the new facility, the project would include site improvements for park visitors (e.g., water fountains, trash receptacles), trail improvements for equestrian use, pedestrian walkways, and an interior roadway for vehicular use. Perimeter fencing and a main entry gate would be provided along with staging areas for entry points into the trails. Once completed, the facility would be operated by the City of Los Angeles Department of Recreation and Parks, Valley Region.</p>	MND	07/24/2008

<u>Documents Received on Wednesday, June 25, 2008</u>			
	drop off/loading zone, meandering sidewalks with landscaping along Elk Grove-Florin Road, and a bus turnout along Elk Grove-Florin Road. Other project components include a new signalized intersection at Elk Grove-Florin Road and Sheldon Road, landscaping surrounding the project, and an area for a future 1,500 square foot building at the platform. To accommodate the pedestrian trail along Whitehouse Creek, the proposed project would bridge Whitehouse Creek to allow for vehicular traffic as well as the passenger platform. In addition, vegetation removal will be required to allow for the construction of the new rail stop.		
2008062085	Bidwell Canyon Stage 3 Boat Ramp Improvement Project Water Resources, Department of Oroville--Butte The proposed project would improve/extend the existing Bidwell Canyon Boat Ramp facilities to include at low-water concrete launch facility. The project would include a three-lane boat ramp at elevations 715 to 640, an adjacent parking area, and an access road from the existing Stage 2 facility. The site is within Lake Oroville and part of the Bidwell Canyon Boat Ramp/Day Use Recreation Area. The site is within the fluctuation zone of Lake Oroville and is under water during most years. Water level elevations are expected to reach project site elevations August through December of 2008.	MND	07/25/2008
2008062086	Esparto Downtown Mixed Use Ordinance and Rezoning Yolo County --Yolo The updated 2007 Esparto General Plan calls for the adoption of a new Downtown Mixed Use (DMX) zoning district to be applied to properties in the downtown area of Esparto. Properties along Yolo Avenue and Woodland Avenue (State Route 16) that are currently zoned Community Commercial Planned Development (C-2 PD) would be rezoned to the new DMX district. Thus, the "project" analyzed in this Initial Study consists of two actions: - The adoption of the proposed new DMX zoning regulations (amending the Yolo County Code in Title 8, Chapter 2), and - The re-zoning of approximately 27 properties in the downtown area of Esparto along Yolo Avenue and Woodland Avenue (State Route 16) from the current Community Commercial-Planned Development (C-2 PD) zone to the new DMX zone.	MND	07/25/2008
2008061128	Faaborg Minor Residential Subdivision (2 lots), General Plan Amendment and Rezone San Diego County --San Diego The project is a minor residential subdivision for the subdivision of one residential parcel into two residential parcels. The General Plan Amendment would change the designation from Land Use Designation 19 (Intensive Agriculture) to 17 (Estate Residential). The current minimum lot size is 4 acres. The Rezone will reduce the minimum lot size to 2 acres. Zoning for the site is A-70 (Limited Agricultural). The site contains an existing single-family residence that would be retained and one additional parcel would be created for one single-family residence. Access would be provided by an easement/driveway connecting to Cedar Street. The project would be served by on-site wastewater system and water would be more provided from the Ramona Municipal Water District. Earthwork will consist of cut and fill of 1,500 cubic yards of material. The project includes the following off-site improvements: a fire hydrant, improvements to Cedar Street, participation in the	Neg	08/08/2008

	construction of drainage facilities, and the undergrounding of all new utilities. The project is located 955 Cedar Street within the Ramona Community Planning Area within the unincorporated area of San Diego County.		
2008061131	Flannery Lot Split & Lot Size Variance and Flannery/ Neff Lot Line Adjustment Santa Barbara County Santa Barbara--Santa Barbara The proposed project consists of a Lot Line Adjustment, Tentative Parcel Map and a Lot Width Variance. The Lot Line Adjustment would transfer a portion of land from the Flannery parcel to the Neff parcel. The portion of the Flannery parcel to be transferred is currently encumbered by an exclusive easement held by Neff. The Lot Line Adjustment would transfer the land underlying the easement to the current easement holder (Neff), thereby removing the easement from the Flannery parcel. After approval of the Lot Line Adjustment, the newly adjusted Flannery parcel would be the subject of a Tentative Parcel Map to split the parcel into two new lots. A Lot Width Variance would be processed concurrently with the Tentative Parcel Map in order to allow the creation of one new lot that does not meet the minimum parcel width requirement of the 3-E-1 zone district.	Neg	07/24/2008
2008061133	Miramar Energy Facility Unit 2 (MEF II, Peaking Electric Power Plant) San Diego County Air Pollution Control District San Diego--San Diego MEF II is a proposed peaking electric power unit comprising one simple-cycle natural gas-fired combustion turbine with a nominal capacity 46 megawatts, one 620 kilowatt (electrical, ekW) natural gas-fired four-stroke lean-burn emergency standby internal combustion engine, and ancillary equipment. Construction and operation of the proposed project will be subject to permit conditions requiring application of Best Available Control Technology and other specific actions that will assure compliance with SDAPCD rules and regulations. These requirements minimize the potential impact of the small emission increases and assure that there will be no significant adverse impact on air quality or other environmental media. The MEF II project will be subject to periodic inspections by the SDAPCD to confirm continuous compliance.	Neg	07/25/2008
2008062083	Big Oak Tree Park Contra Costa County --Contra Costa The purpose of this project is to provide the community of Clyde with an enhanced recreational facility. The current recreational facility is solely composed of an open grass lot. With minor additions like: landscaping, benches, lighting, and a play structure, the community recreational opportunities will be improved. Currently the site attracts illegal parking inside the park's boundaries. The illegal parking has damaged the natural grass covering of the park, causing bare soil to be exposed for more than half of the park's area, leading to erosion and associated drainage problems. The project consists of planting trees (ten), shrubs and groundcover, construction of an irrigation system for landscaping, installation of a lighting fixture, and installation of three picnic tables and two barbeque pits. Minor alterations of the park's grading and drainage system (a concrete gutter) will be constructed to stop runoff flowing from the parcel's western slope. Grading will also be done to reduce the western slope of the parcel to further alleviate the runoff coming into the park. Following implementation of these improvements, construction of a play structure and additional landscaping will occur.	Neg	08/12/2008

	<p>crossings with active headcuts downstream of their position will be stabilized using rock headcut repairs. The restoration component of the first phase of the project will stabilize a 150 foot long, steep upland gully connected to the drainage. The project includes three-loose rock grade control structures combined with a grass-lined waterway. The upper portion of the gully will be stabilized with a sedge mattress which includes compacted soil locked into place with soil filled coir rolls and covered with coir twine mat anchored in place with 18" soil pins. Through the coir twine mat, sedge and perennial grass plugs will be installed 18" on center. The eroded side slopes will be laid back at 2:1 or flatter and planted with native trees and shrubs.</p>		
2008068340	<p>Ranch EA 2 Gold Ridge Resource Conservation District (GRRCD) --Sonoma</p> <p>The project involves stabilizing five eroding sites along a single stretch of stream. Site #2-1 is an eroded streambank approximately 150' long by 20' tall adjacent to Freestone-Valley Ford Road. A biotechnical repair and bank layback will be designed staying above the active channel where known freshwater shrimp and steelhead habitat are present. The site will be repaired using two woven willow walls at the base of the bank to create terraces for planting. The top of bank will be laid back at a 2.5:1 slope and planted with native trees and shrubs. Approximately 850 feet of fencing will be installed along the entire riparian corridor to restrict livestock access to the stream channel.</p> <p>Site #2-2 is an eroded streambank approximately 75' long by 20' tall and is downstream from site #2-1. The erosion mechanisms are likely caused by high flow and toe scour along with bank seeps. A biotechnical repair is planned for this site above the active channel to avoid freshwater shrimp and steelhead habitat. The bank will be repaired using a woven willow wall along the lower bank and live fascines will be installed up through the mid bank. The landowner has requested a design without equipment excavation at this location.</p>	NOE	
2008068340	<p>Ranch EA 3 Gold Ridge Resource Conservation District (GRRCD) --</p> <p>The purpose of this project is to reduce fine sediment delivery to the creek and enhance wildlife habitat. The contractor will pull back the creek bank to 2: and plant with native riparian vegetation. Coconut fiber erosion control blanket will be placed on the disturbed cut slopes. Lower, more flood prone areas of the bank, will be planted with willow. Higher up on the bank, a variety of native trees and shrubs will be planted. Plant types were chosen that are currently growing in the area. Construction disturbance will only occur above ordinary high water to avoid disturbance to the most sensitive area of the creek.</p>	NOE	
2008068340	<p>Ranch EA 4 Gold Ridge Resource Conservation District (GRRCD) --Marin</p> <p>The project involves restoring the creek by laying back the most severely eroded bank, and creating inset floodplains on the inside meanders. The banks will be stabilized with coir blankets and dense sedge and rush plug plantings referred to as a "sedge mattress". The bank repair at the county road will require rock toe protection. Willow stakes will be planted through the joints of the rock. A habitat friendly crossing will be designed using an arch pipe, arch culvert or an oversized embedded pipe. Native trees and shrubs will be planted in groupings to create habitat clusters for wildlife and bird habitat along the stream corridor. In between</p>	NOE

2008068345	Cook Riolo Temporary Portable Traffic Signals Placer County -- Temporary portable traffic signals are to be located on the north and south side of the Cook Riolo Bridge to control traffic flow across the narrow bridge. The traffic signal located south of Cool Riolo Bridge on the east side will require the installation of a gravity retaining wall to provide sufficient room to locate the signal. The retaining wall will require excavation on the east side within County Right of Way and not affect any local trees or require removal.	NOE					
2008068346	Remedial Action Plan Amendment (RAP) Amendment Toxic Substances Control, Department of Richmond--Contra Costa Approval of a RAP Amendment by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6.8; chapter 6.5, etc. as submitted on April 11, 2008 by DTSC. The RAP Amendment focuses on excavation and removal of soil impacted with excessive levels of metals, mainly cadmium and volatile organic compounds (VOCs) primarily trichloroethylene (TCE) onsite and treatment of groundwater to reduce VOC concentrations. The purpose of the project is to mitigate impacted soils that exceed the project-specific human health risk criteria to minimize human exposure to the identified chemicals of concern (COCs). The estimate volume of impacted soils is 1,900 cubic yards or approximately 100 truckloads. The cleanup goals for the metals are: the bay area background level using the Lawrence Berkeley National Laboratory 2002 data, California Human Health Screening Levels (CHHSLs), or the Preliminary Remediation Goals (PRGs). After groundwater treatment, soil gas will be measured and results compared to CHHSLs. The screening level for TCE soil gas is 0.53 ug/l. Project activities will commence in June 1, 2008 and are expected to take approximately 45 days to complete. An analysis of project activities upon existing environmental conditions indicates that implementation of environmental safeguards and monitoring procedures are enforceable and made a condition of project approval and will ensure that impacts to the environment will be less than significant. As a result, DTSC finds that the project is exempt from further review under CEQA.	NOE

	hospital campus built over a 15-year period as outlined below in the Development Program, which include three medical office buildings, one inpatient building, two helipads, four parking structures, landscaping improvements, and traffic improvements. The 8,000 square foot Foundation Building would be removed.		
2005121041	Clean Fuels Project by Big West of California, LLC. Kern County Bakersfield--Kern (a) Zone Change to include the PD (Precise Development) Combining Zone District to the existing M-I (Light Industrial), M-2 (Medium Industrial) and M-3 (Heavy Industrial) Industrial Zone Districts; (b) A Conditional Use Permit to allow liquefied petroleum gas storage tanks of more than 2,000 gallons and 9 injection wells for refinery process wastewater; (c) A Zone Variance to allow a 231 foot high cracking unit structure, where 150 feet is the maximum allowed, in an M-3 (Heavy Industrial) District; A Precise Development Plan for the existing Big West Refinery to include the proposed Clean Fuels Project expansion.	EIR	08/11/2008
2007072116	Sacramento Aggregates Expansion Community Plan Amendment, Rezone, Use Permit, and Reclamation Plan Amendment Sacramento County Rancho Cordova--Sacramento 1. A Use Permit for Aggregate Mining on approx. 98 acres of 121 acre parcel in the AG-160 zone on property adjacent to an existing mine. 2. A Reclamation Plan Amendment to expand the reclamation area of an existing mine by approx. 121 acres, and to allow other related modifications. 3. A Community Plan Amendment and Rezone from AG-160 to AG-160(SM) for approximately 121 acres.	EIR	08/11/2008
2007042078	Use Permit 06-016 Hatchet Ridge Wind Project Shasta County --Shasta The applicant, Hatchet Ridge Wind, LLC, proposes to construct a wind energy project. The area actually covered by the project would be an approximately 73-acre portion of the 17 parcels. The project would produce approximately 100 megawatts of electricity and would require construction of 42 to 68 wind turbines on steel tubular towers from about 213 feet to 263 feet tall. The total height of each tower with its attached wind turbine could reach from about 338 feet to about 418 feet high. The line of towers would stretch for about 6.5 miles northeasterly along the ridge of Hatchet Mountain. The project would include transmission lines from the turbines to a new substation and additional lines to interconnect with existing high-voltage transmission lines that cross the project site and which are owned by Pacific Gas and Electric Company. The project would also include a temporary construction office, an operations and maintenance building/control center, new access roads, temporary staging areas, and up to four permanent meteorological masts up to 220 feet high. The project would be constructed over a 6 to 12-month period. In general, the towers would be constructed in areas managed for commercial timber production which were replanted after the 1992 Fountain Fire.	FIN	
2007092001	Extension of Limited Urban Services to the Towns of Franklin and Freeport Sacramento County Sacramento, Elk Grove--Sacramento A General Plan Amendment to the Land Use Element of the 1993 General Plan to allow the extension of limited urban services to the towns of Franklin and Freeport. <u>Documents Received on Thursday, June 26, 2008</u>			
2002011023	Orange County Gateway Placentia, City of Placentia--Orange NOTE: Joint Document consists of Draft EIR and Draft EIS The proposed action is an improvement to the BNSF corridor and consists of grade separation alternatives of several major crossings over an approximately 5-mile long segment of the BNSF in the Cities of Placentia and Anaheim and unincorporated Orange County from west of Bradford Avenue to west of Imperial Highway (State Route 90). Alternatives considered are the No Build and three Build Alternatives, including two railroad lowering alternatives and one standard grade separation alternative.	JD	08/11/2008
2008052080	McNeil Dock Expansion Belvedere, City of Belvedere--Marin The applicant proposes to construct a boatlift, gangway and floating dock, totaling 505 square feet of additional coverage in Richardson Bay, on an existing dock and boathouse. Project is located within open waters owned by the County of Marin and zoned R-Recreation Zoning District. Project includes rebuilding the existing pier and boathouse and installation of approximately 12 additional pilings. Project approvals entail an Architectural and Environmental Design Review, pursuant to Title 20 of the Belvedere Municipal Code, and Use Permit pursuant to Title 19 of Belvedere Municipal Code.	MND	07/25/2008
2008061134	Sundale (15 Lots); Tentative Map San Diego County --San Diego The project proposes a Tentative Map to subdivide a 7.85 acre parcel into 15 residential lots.	MND	07/25/2008
2008061135	T-Mobile Regents San Diego, City of San Diego--San Diego A Conditional Use Permit and Planned Development Permit to allow for the operational renewal of an existing T-Mobile unmanned digital wireless communication facility. The 150-square-foot lease area consists of four (4) directional antennas mounted on to two (2) fourteen-foot-high monopoles and two associated equipment cabinets. The 23,692-square-foot lot is located 4985 Monongalhela Street and is in the RS-1-7 Zone of the Clairemont Mesa Community Planning area. (Legal: Lot 31, Glen Oaks Heights, Unit No. 2, Map No. 3441). Applicant: T-Mobile.	MND	07/25/2008
2008062087	Michalak Family Trust Use permit (UP-08-05) Siskiyou County --Siskiyou The applicants request Use Permit to utilize the existing buildings located on the project site as a resort. The proposed resort is located on a 363.4 acres parcel zoned Timber Production (TPZ) R-R-B-40 (Rural Residential Agricultural, 40 acre minimum parcel size). This application would bring the existing uses into compliance with state law, county code and ordinances.	MND	07/25/2008

2008062088	Parcel Map #08-03, Rick Arrowsmith Tehama County Red Bluff--Tehama To create two parcels; with Parcel "A" being equal to approximately 34.91 acres and Parcel "B" being equal to approximately 69.81 acres in an EA-B:871; Exclusive Agricultural District - 20 Acre Minimum - Zoning District. APN: 007-370-85. Approximately 104.72 acres.	MND	07/25/2008
2008062089	French Laundry Inn Yountville, City of Yountville--Napa A development proposal consisting of a 20 unit inn on a +/- 3.18 acre project site with units distributed in detached one and two-story building clusters north and south of a central pool/spa, library, and lounge. Additional support facilities are located in a partial basement level. Existing site structures will be removed. A 30 space parking lot for the inn use will be provided at the rear portion of the site. The project includes pedestrian pathways at the frontage and along the rear of the site.	MND	07/25/2008
2008062090	Krishnan Boat Dock Belvedere, City of Belvedere--Marin Though the existing property is contiguous to Richardson Bay, and is adjacent to other residential properties which have boat docks, the subject site is not currently developed with a boat dock. The proposal is to: (1) construct a new 264-square-foot boat dock that is 6' in width and is proposed to project 42' from the rear deck of the existing house into Richardson Bay and is supported on 10 new steel pipe pilings; (2) construct a 100-square-foot (5'x 20') floating boat dock and related gangway transition held in place by 2 new steel pipe pilings located at the end of the proposed boat dock; and (3) install a new single boatlift that will occupy approximately 60 square feet of area. The project has been designed to avoid eelgrass beds; however, the proposed float would shade eelgrass plant with (8) shoots.	MND	07/25/2008
2008062091	Barsotti Pier, Boatlift & Gangway Belvedere, City of Belvedere--Marin Replace an existing pier with a slightly expanded new pier; install a new boatlift and install a new gangway to an existing floating dock for a total of 89 square feet of new Bay fill.	MND	07/25/2008
2008061136	Alessandro Commerce Centre (EIR #510, TPM #35365, Plot Plan #22925) Riverside County Riverside--Riverside The project proposes a Tentative Parcel Map No. 35365, which is a Schedule E subdivision of 54.4 gross (51.21 net) acres into (6) industrial/commercial parcels; Parcel one (1) - 4.70 gross acres, parcel (2) - 9.90 gross acres; Parcel (3) - 7.20 gross acres; Parcel (4) - 12.0 gross acres; Parcel (5) - 8.60 gross acres; Parcel (6) - 8.80 gross acres. Additionally, a Plot Plan No. 22925: proposes (8) buildings of approximately: 258,000 square feet of office square feet of office business park, 410,000 square feet of industrial warehouse/distribution, 10,000 square feet of light industrial/multi-tenant on a 54.4 gross (51.21 net) acre site with a total building area of 720,000 square feet, and a project floor area ration of 0.30 that will consist of 1,779 parking spaces and 974,727 square feet of landscaping area	NOP	07/25/2008

2008061137	Crescent Shores Specific Plan Blythe, City of Blythe--Riverside The Notice of Preparation (NOP) of an Environmental Impact Report (EIR) is being prepared in response to a request for approval of a Specific Plan, Development Agreement, Tentative Tract Map, General Plan Amendment and Change of Zone for a proposed resort residential project on 746+/- acres in the City of Blythe. The proposed project could result in construction of a combined total of 5,414 residential dwelling units and/or Recreational Vehicle spaces and approximately 539,534 square feet of commercial mixed use development. Planned recreational amenities may include a series of active and passive lakes, natural open space areas and trails, parks, community pools and other recreation facilities, and/or an 18-hole golf course. A boat launch and associated facilities, services, storage and parking are planned, as are supporting infrastructure to serve the project site, including a possible on-site waste water treatment plant.	NOP	07/25/2008
2008061139	Housing Element Focused Rezone Program Santa Barbara County Santa Barbara--Santa Barbara The Housing Element Focused Rezone Program proposes to amend the existing zoning for two proposed sites where specific development proposals have been filed with the County and eight alternative sites that could receive increased density designations. This program is being proposed in order to comply with State Housing and Community Development requirements to demonstrate the capacity to provide additional affordable housing opportunities to County residents and is necessary to maintain certification of the 2003-2008 Housing Element update to the County of Santa Barbara General Plan. The two proposed sites are located in Orcutt and the remaining alternative sites are located in Orcutt, Vandenberg Village and Mission Hills.	NOP	07/25/2008
2008061138	Remedial Action Plan, Proposed Central Region High School #16, Site 3a Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The project involves approval of a Remedial Action Plan (RAP) by the Department of Toxic Substances Control (DTSC) for the proposed Central Region High School #16 - Site 3a (Site) pursuant to Health and Safety Code chapter 6.8. The RAP focuses on (1) excavation and off-site disposal of soils impacted with volatile organic compounds (VOCs), methane, semi-VOCs, polycyclic aromatic hydrocarbons (PAHs). total petroleum hydrocarbons (TPHs), organochlorine pesticides (OCPs), and heavy metals; and (2) installation and operation of a soil vapor extraction (SVE) system for residual VOCs and methane in soil vapor onsite. After completion of the planned excavations, cleanup confirmation sampling and site restoration will be conducted. If necessary, additional soil volume will be excavated, to ensure all impacted soils containing the identified chemical of concerns (COCs) at concentrations of the corresponding cleanup levels or above have been properly removed. <u>Documents Received on Friday, June 27, 2008</u>			
2007071040	HCG Irvine Irvine, City of Irvine--Orange The proposed project consists of Master Plan to develop 785,000 square feet of office space and 15,500 square feet of retail/ restaurant space. Implementation of the proposed project would require the demolition and removal of the existing 169,555 square foot one-story office and industrial building. Three parking structures will be provided (above ground and sublevel). A large open space area, approximately two acres, between, and accessible from, the proposed five to seven buildings will be provided.	EIR	08/11/2008
2008051011	Vista Redevelopment Project Area, Amendment No. 4 Vista, City of Vista, Carlsbad--San Diego NOTE: Program EIR The Project involves the adoption and implementation of the Plan Amendment, consisting of five somewhat contiguous sub-areas which comprise the approximately 1,686 acre Amendment Area. The proposed Plan Amendment would add territory to the Existing Project Area, and would also extend the Redevelopment Agency's eminent domain authority on non-residential properties in the Existing Project Area for an additional twelve years, and increase the current tax increment and bonding limits in the Existing Project Area.	EIR	08/11/2008
2008064005	Programmatic Environmental Impact Statement for Geothermal Leasing in the Western United States Bureau of Land Management -- NOTE: Co-Lead Agencies: U.S. Bureau of Land Management and U.S. Forest Service Under the Proposed Action, the BLM and FS have identified approximately 117 million acres of BLM administered public lands and 75 million acres of NFS lands as open to geothermal leasing subject to existing laws, regulations, formal orders, stipulations attached to the lease form, and terms and conditions of the standard lease form. To protect special resource values, the BLM and FS have developed a comprehensive list of stipulations, best management practices, and procedures. The BLM is proposing to amend 122 land use plans to adopt the allocations and the appropriate stipulations, and the FS would use the PEIS to facilitate subsequent consent decisions for any leasing on NFS lands. An alternative to the proposed action limits the lands available for geothermal leasing to those that are in close proximity to existing transmission lines or those under development. The no action alternative would allow the processing of pending geothermal lease applications; however, they would be evaluated on a case-by-case basis and would require additional environmental review.	EIS	09/19/2008
2005121093	La Floresta Development Proposal Brea, City of Brea--Orange Proposed development of two non-contiguous sites in the City of Brea for a total of 1,335 dwelling units at densities ranging from 5.0 du/ac to 28.5 du/ac, with commercial, office and recreational uses. Residential mix includes attached and detached dwellings, including portions devoted to senior housing and "workforce"	FIN

	housing as well as live/work housing over commercial/office uses.		
2008051083	Valley View Non-Smoking Casino Expansion Project San Pasqual Band of Mission Indians --San Diego NOTE: Reference SCH# 2000071085.	FIN	
	The proposed project would include a total of 6,959 square feet of additional building space to be located adjacent to the southern and eastern sides of the existing events center, to the east of the existing non-smoking casino, and to the north of the existing parking structure. The addition would include an expanded non-smoking Class II gaming area, poker room, IT room, Players Club, and cashier's cage. No expansion of Class III gaming activities is included in this project.		
2008061141	Goleta Sanitary District Wastewater Treatment Plant Upgrade Project Goleta Sanitary District Goleta--Santa Barbara The proposed project involves the upgrade of liquids and solids treatment facilities at the Goleta Sanitary District's Wastewater Treatment Plant.	MND	07/28/2008
2008062093	Bassett Diversion Fish Passage Project Western Shasta Resource Conservation District --Shasta The Western Shasta Resource Conservation District (WSRCD) proposes a fish passage improvement project on Old Cow Creek, Shasta County. The project will consist of re-constructing an existing side channel riffle to allow fish passage around the south side of the Bassett Ditch diversion dam. The side channel will be enhanced by building up the existing berm between the main creek channel and the side channel and cutting through the bank located at the south end of the dam so that the side channel can rejoin the main creek channel upstream from the dam. The side channel riffle that will be re-designed is approximately 160 feet in length and averages 10 feet wide.	MND	07/28/2008
2008062094	Ratna Ling Reservoir and Wellness Center (UPE07-0089) Sonoma County --Sonoma The proposed project is to amend an existing Use Permit for an existing retreat center as follows: (1) increasing the size and modifying the location of the Wellness Center that was originally approved as UPE04-0032, and (2) modification of the retreat center's water system to add a reservoir with 1.5 surface acres and approximately 20 acre-feet of water supply.	MND	07/28/2008
2008062095	Zoning Ordinance Amendment - Mixed Use Overlay Zone Fairfax, City of Fairfax--Marin The Town proposes to amend the municipal code to allow an increase in density in the area zoned as Highway Commercial. The allowable density would change from "a number to be determined by the Planning Commission" to 20 and in some cases 25 dwelling units per acre for mixed use developments in the area designated as Highway Commercial (Town Code Section 17.012.100, Boundaries CH Zone). <u>Documents Received on Friday, June 27, 2008</u>			
2008062097	Gridley Family Apartments Gridley, City of Gridley--Butte The proposed project would include the development of the 4.46-acre project site with 65 residential units and a centrally located Community Building. The residential units associated with the proposed project would include 24 two-bedroom units and 41 three-bedroom units. The project would necessitate approval of a General Plan Amendment to redesignate the site Residential, High Density, a rezone to R-3, and a Lot Line Merger to merge the two existing lots on-site to a single lot totaling 4.46 acres.	MND	07/28/2008
2005071114	Nipomo Community Services District Waterline Intertie Nipomo Community Services District Santa Maria, Nipomo--Los Angeles, San Luis Obispo The proposed project involves connecting to the City of Santa Maria water distribution system and construction of a waterline from Santa Maria to the Nipomo Community Services District water distribution system. The pipeline will be constructed beneath the Santa Maria River by horizontal directional drilling. A pump station(s) and water storage facilities will be constructed to boost the water pressure into the Direct system and provide water storage as necessary. Several water transmission facilities within the NCS D will be replaced and upgraded. A final element of the proposed project involves the conversion of District water supply wells to chloramination treatment in order to provide disinfection within the District's water distribution system. This conversion is required in order to resolve water quality compatibility issues between the different water treatment methods employed by the NCS D (chlorination) and the City of Santa Maria (chloramination).	NOP	07/28/2008
2005071141	SP00243A1 (Rio Vista), CZ07159, GPA 805, TR 35418, TR 35419, TR 35421 Riverside County Riverside--Riverside The proposed project is an amendment of the Rio Vista Specific Plan, which is a mixed use master planned development located in an unincorporated area of Riverside County. The Rio Vista Specific Plan site is bounded on the west by Armstrong Road, on the south by State Route 60 and on the east by Rubidoux Boulevard. The project site is south of El Rivino Road.	NOP	07/28/2008
2008061142	St. John's Specific Plan Camarillo, City of Camarillo--Ventura The City of Camarillo is considering a specific plan to identify potential land uses, phasing, design standards, and circulation patterns for an area containing approximately 86.4 acres, located at the north side of Upland Road, easterly of Lewis Road and Somis Road. The specific plan will provide for the comprehensive planning of the site into a variety of residential, open space, and recreational uses. The final plan will be determined based on site constraints and environmental factors analyzed during the CEQA review process. A portion of the project site was originally developed as the St. John's Seminary College which is now closed and no longer in use. The project site is also currently used for agricultural purposes. The project also proposes development of a 7.4-acre park site to be operated by the Pleasant Valley Recreation and Park District, located at the northeast corner of Upland Road and Somis Road, west of Calleguas Creek. 2008062092	Adoption of Statewide Appliance Efficiency Standards for State Regulated General Purpose Service Incandescent Lamps and Portable Lighting Fixtures; Docket No. 0 Energy Commission -- The project consists of the adoption and implementation of statewide efficiency standards for State-Regulated General Service Lamps and Portable Lighting Fixtures (referred to generally as lighting standards). The regulations for State-Regulated General Service Lamps will consist of the: (1) early adoption of the federal Energy Independence and Security Act of 2007 (EISA 2007) Tier I standards for incandescent lamps, to be effective January 1, 2011; and (2) early adoption of federal EISA 2007 Tier II standards for General Service Lamps, to be effective January 1, 2018. The regulations for Portable Lighting Fixtures will consist of efficiency standards to reduce the energy use of the fixtures. The standards do not address site-specific conditions and do not require or mandate construction of new facilities or infrastructure.	NOP	07/28/2008
2008061140	PPM 08-018/PSR Tulare County --Tulare The project is to divide 20.02 acres into 4 parcels in the PD-O (Planned Development-Recreation) zone. The parcel has had prior discretionary approval for hotels which, one is built (Parcel 1), the other will encompass one other proposed parcel 2. Two of the parcels are to be used for residential use. Parcel 1 = 5.23 acres, Parcel 2 = 8.20 acres, Parcel 3 = 2.43 acres, Parcel 4 = 3.14 acres.	Neg	07/28/2008
2008062096	37 West Shore Road Boatlift Installation Belvedere, City of Belvedere--Marin Installation of a 6,000 pound boatlift on an existing dock.	Neg	07/28/2008
2008062098	Dixon Southwest Community Park Library Dixon, City of Dixon--Solano The entire Specific Plan are proposes a mix of residential, commercial, recreational, and public facility land uses. The 20-acre Community Park and, more specifically, the Library project area lies within the Specific Plan area. The use of the proposed Library within the Community Park site is consistent with the General Plan land use designation as well as the City of Dixon Zoning Ordinance. Since the Southwest Dixon Specific Plan Environmental Impact Report, which was certified in March 2004, the City has proposed the addition of the Library and associated service area and patio on a one-acre site in the northwest portion of the Park.	Neg	07/29/2008
2006012091	Alameda Landing Mixed Use Development Project Alameda, City of Alameda--Alameda The City of Alameda ("City"), as the lead agency, has approved the implementation of "Wilver 'Willie' Stargell Avenue," which was formerly known as "Tinker Avenue," and its extension as an arterial four-lane roadway between Main Street and Webster Street ("Stargell Extension Project") and the addendum to the EIR on May 6, 2008. A portion of the right of way required for this extension is located on certain real property owned by the Peralta Community College District ("District").	NOD

	of Shoreline Highway and Calle del Arroyo in Stinson Beach. As part of the project, all four historic lots comprising Assessor's Parcels 195-162-45 and -46 (formerly 195-162-39) would be merged into one building site.		
2008062100	2005-073, TSTM, CUP, PD for Lake Tulloch Investors Calaveras County --Calaveras The Applicant is requesting approval of a Tentative Subdivision Tract Map (TSTM), Conditional Use Permit (CUP) and Planned Development permit (PD). The project site is located on Lake Tulloch and contains approximately 2.78 acres, currently vacant and undeveloped. The site is zoned R3-PD with a maximum density of 12 units/acre. The proposal includes subdivision into 14 residential lots containing between 1,612 to 3,212 square feet along with common areas. Fourteen (14) townhomes, ranging in size from 1,677 to 2,736 square feet are to be constructed. Access is off Corner Estates Drive, controlled by a private gate located at the development entrance. The project is located off Conner Estates Road west of O'Byrnes Ferry Road approximately 1.5 miles north of the O'Byrnes Ferry Road Bridge.	MND	07/29/2008
2008062101	Central Trunk Rehabilitation Sacramento County Sacramento--Sacramento The Sacramento Area Sewer District (SASD), formerly County Sanitation District -1 (CSD-1), is proposing the rehabilitation of approximately 8 +/- miles of gravity sewer pipeline, from Fruitridge Road and Power Inn Road to the Sacramento Regional Wastewater Treatment Plant (SRWTP) and 3,000 linear feet of gravity sewer pipeline along Franklin Boulevard between Mack Road and Brookfield Drive, by using the cured-in-place pipe (CIPP) method. The project also includes the rehabilitation of up to 108 manholes in the public right-of-way (ROW), which will entail minor excavation to remove manhole cones at liner insertion pits. SASD will bypass the sewer flows during the rehabilitation process. Bypass lines will be located primarily in public right-of-way, above or below grade. Bypass lines will be tunneled or bored under Highway 99 at Mack Road. Furthermore, seven manholes and 3,600 feet of pipeline located in the Sacramento Regional County Sanitation District (SRCSD) Bufferlands will be rehabilitated. No bypass of flows will occur in the Bufferlands and work in this area will be permitted between June 1 and October 1. Furthermore, no ground disturbance will be permitted around manholes in wetland areas and pre-constructions surveys will be performed by Bufferlands staff to ensure no impacts to special status species (i.e. Burrowing owls or other potentially nesting species).	MND	07/29/2008
2008062103	Finkle Lot Line Adjustment and Final Map Subdivision Humboldt County Eureka--Humboldt A Lot Line Adjustment (LLA) between two (2) separate legal parcels known as APNs 18-062-04, -09. The LLA will result in Parcel A which will be +/- 7,000 square feet (net) and is developed with a 4-plex and Parcel B which will be +/- 1.34 acres. Parcel B is developed with a duplex. Parcel B will then be divided into five (5) parcels ranging in size from 5,520 square feet (net) - +/- 35,300 square feet (net). The area is served by community water and sewer. The project also includes an exception for reduced road width on Jeffrey Lane (south side of project) and the new unnamed access along the northerly property line serving Parcel A and Lots 2 and 3. 	<p>the existing phone line into a new 4" PVC conduit. AT&T will use generator, hand spader, jackhammer and compactor to dig trench and install new conduit and will have fire suppression equipment on hand. ATT work crews will stage equipment next to the trench area. The ROE permit will begin on June 26th, 2008 and will terminate once the work is completed. All work conducted within the boundaries of the easement, including routine maintenance will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, California Environmental Quality Act (CEQA), and Section 5024 of the Public Resources Code, with regard to work conducted within the easement. DPR will advise AT&T if any new historical resources (including archaeological sites), special status species, Threatened/Endangered Species protocols, or other resource issues are identified within the easement area. All ground-disturbing work within the proposed easement will be monitored by an archaeologist meeting the Secretary of the Interior's Qualification Standards for historic and prehistoric archaeology. If potentially significant resources are unearthed, work in the immediate area of the find will be temporarily halted until the site monitor consults with a DPR archaeologist, and identification and proper treatment are determined and implemented. AT&T will be responsible for providing all qualified monitors. All finds will become the property of DPR; ownership of any Native American artifacts will be determined on a case-by-case basis, in consultation with the appropriate tribal representative(s) and/or the Native American Heritage Commission. Archaeological consultants working within the boundaries of the easement or on adjoining State Park property will obtain a permit from the DPR Archaeology, History, and Museums Division prior to commencing any investigations on the property. This easement will provide legal access and use of this property to ATT, while protecting natural resources.</p>		
2008068429	<p>East Peak Area Electrical Improvements Parks and Recreation, Department of --Marin</p> <p>Repair electrical deficiency at the East Peak Area of Mount Tamalpais State Park to meet Pacific Gas and Electric (PG&E) requirements and improve electrical service. Work will install one 35' power pole located approximately 15' from an existing PG&E pole; install a 300 amp electric meter panel at the base of the pole; and trench approximately 300' x 18" x 24" deep to install electrical lines and pull boxes. An area approximately 70' x 6' will be cleared of vegetation prior to trenching.</p> <p>In the event that previously undocumented cultural resources are encountered during project construction, work will cease within thirty feet of the find and DPR cultural staff will provide protective measures before work recommences.</p>	NOE

	cultural staff will provide protective measures before work recommences.		
2008068431	Morro Bay Harbor Six-Year Maintenance Dredging Program Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo Morro Bay--San Luis Obispo This project proposes annual harbor dredging that will occur over a one-month period. The proposed project includes an average annual sediment removal of approximately 150,000 cubic yards and a maximum annual sediment removal of approximately 1,111,800 cubic yards. Placement of dredged material would occur at one of two proposed locations, the primary, south site, near shore area, or the alternate, north site, surf zone area of Morro Bay Harbor. Water Quality Certification No: 34008WQ14	NOE	
2008068432	Hinebaugh Creek channel maintenance project, phase 2 - Highway 101 to Laguna de Santa Rosa (WDID No. 1B07096WNSO) Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Rohnert Park--Sonoma The purpose of the Project is to improve the hydraulic and flood conveyance capacity of Hinebaugh Creek, prevent potential flooding of adjacent residences and properties, and improve the creek's potential to serve as aquatic habitat.	NOE	
2008068433	Jas Development, Inc. Boundary Line Adjustment Sacramento County --Sacramento The proposed project consists of a Boundary Line Adjustment to reconfigure the lot lines among the subject parcels on approximately 817.45 acres in the AG-80 (F) and AG-20 (F) zones.	NOE	
2008068434	Bohemian Club Temporary Swim Deck Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The Bohemian Club proposes to construct a temporary swim deck to provide access to the Russian River for approximately three weeks. The installation and removal of the deck will occur without the use of heavy equipment, and with only very minor grading. The beneficiaries of the project would be club members.	NOE	
2008068435	USACE Warm Springs Dam/Lake Sonoma Outlet Channel Erosion Repair Project (WDID No. 1B08104WNSO) Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Healdsburg--Sonoma Repair erosion to spillway structure of Warm Springs Dam to return it to as built condition.	NOE	
2008068436	Agreement 2008-0043-R4; Highway 46 Drainage Facility Fish & Game #4 --San Luis Obispo At PM 5.43 abandon culvert. Rock lined channel to PM 5.46 will catch road side runoff and divert the small amount of water from PM 5.43. Add concrete apron and "L" shaped headwall to the inlet of the existing culvert at PM 5.46. The culvert will be lined with fabric and rock slope protection placed at the outlet to prevent further erosion. AT&T will have a temporary line above ground in case the current line is damaged. If it is not they will simply remove the temporary line. If it is damaged they will have to bore to install a new line.	NOE

2008068437	Putah Creek Riparian Reserve Sign Replacement and Additions University of California, Davis Davis--Yolo, Solano Removal and replacement of approximately 4 existing, large (4'x4') informational signs and approximately 20 existing, smaller (6"x6") signs along the UC Davis Putah Creek Riparian Reserve. Installation of new (3'x4') informational signs along the length of the UC Davis Putah Creek Riparian Reserve, along Putah Creek. The signs would be placed on galvanized metal posts that would be placed in the ground and backfilled with concrete to existing lines and grades. Signs would be placed at the edge of the top of the levee within the levee stretch of the Reserve, and along the top of bank within the non-levee stretch.	NOE	
2008068438	Culvert Relining Project Caltrans #3 --Placer, Nevada Reline 15 culverts along PLA/NEV-20 (PM 42.5/45.5). The fifteen culverts are located at the following post miles: 42.50, 42.70, 42.71, 43.45, 44.30, 44.87, 44.98, 45.10, 45.16, 45.20, 45.30, 45.34, 45.38, 45.54, 45.55.	NOE	
2008068439	Aerojet-General Corporation, Class 1* Permit Modifications Toxic Substances Control, Department of Rancho Cordova--Sacramento The Aerojet-General Corporation requested Class 1* Permit Modifications dated April 22, 2008 (corrected as of May 1, 2008), for a 180 day extension of the closure plan, and May 14 2008, to correct two Closure Plans for two hazardous waste storage units. These modifications are necessary in order to complete the closure of RCRA-C, Building 03010 (within 180 day) and to correct the Closure Plans for RCRA-C, Building 03010 and the RCRA-J, H-Area Sump.	NOE	
2008068440	Inclusion of four (4) Geographical Areas Annexed to the Boundaries of the Redwood Valley County Water District Redwood Valley County Water District --Mendocino The SWRCB has requested the the Redwood Valley County Water District, as to a Permit which the District holds to divert water from Lake Mendocino during periods of time in which there are flows and amounts in excess of the flood operating reservation during the periods of November through April, include within the map specifying the place of use for waters, four (4) areas annexed to the District.	NOE	
2008068441	Concrete Slab and Curb Project at the Mark Miranda Dairy Humboldt County Resource Conservation District Ferndale--Humboldt The Dairy Facility located on Renner Lane, Ferndale CA 95536 (APN 106-091-008) is proposing to implement an agricultural enhancement project with funding granted by the Humboldt County Resource Conservation District (HCRCD) Dairy Grant Program. The HCRCD Dairy Grant Program is funded by the State Water Resources Board (SWRCB) through Proposition 50 and provides cost share assistance for the implementation of projects located on Humboldt County Dairies. Projects funded under the Dairy Grant Program are intended to protect surrounding water resources while improving dairy management operations. The proposed project described herein received a priority ranking in April, 2008 by the HCRCD Technical Advisory Committee (TAC) and funding has been allocated by the HCRCD and the SWRCB. This proposed project will integrate into the manure collection, storage, and	NOE

<u>Documents Received on Monday, June 30, 2008</u>			
	distribution system at the dairy facility. The implementation of the slab will benefit the overall dairy management and improve the waste management efficiency of the dairy. This practice is important in nutrient management and protecting adjacent water resources and is a recommended practice by USDA-NRCS. The reinforced concrete slab will be designed in accordance to the USDA-NRCS Standards and Specifications and is proposed for implementation (construction) during the summer of 2008.		
2008068442	Concrete Ramp Project at the Chris Cahill Dairy Humboldt County Resource Conservation District Ferndale--Humboldt The Dairy Facility located on 1079 Fulmor Road Ferndale, CA 95536 (APN 106-011-04) is proposing to implement an agricultural enhancement project with funding granted by the Humboldt County Resource Conservation District (HCRCD) Dairy Grant Program. The HCRCD Dairy Grant Program is funded by the State Water Resources Board (SWRCD) through Proposition 50 and provides cost share assistance for the implementation of projects located on Humboldt County Dairies. Projects funded under the Dairy Grant Program are intended to protect surrounding water resources while improving dairy management operations.	NOE	
2008068443	Upper Santa Ana River Watershed Water Quality Assessment Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Highland, Redlands, Calimesa, San Bernardino, Colton--Riverside, San Bernardino The project will collect field and lab data on the water quality of three streams in the upper Santa Ana River Watershed.	NOE	
2008068444	San Luis Water District Water Transfer and Related Exchanges San Luis Water District --Fresno, Merced, Santa Clara, Kern The project will be undertaken to address the emergency drought conditions declared by the Governor on June 12, 2008 in order to provide critically needed water supplies to water users in SLWD in an effort to save their crops. The project involves the transfer of up to 10,500 acre feet of water from various sources to SLWD. Up to 9,000 acre feet of Central Valley Project (CVP) Friant-Class 1 water and up to 1,500 acre feet local groundwater pumped into the Friant-Kern Canal will be transported to the KCWA service area and exchanged for a like amount	NOE	
2008068445	Approval of Removal Action Workplan for PG&E Watsonville Service Center Toxic Substances Control, Department of Watsonville--Santa Cruz The project is approval of a Removal Action Workplan (RAW) for the PH&E Watsonville Service Center Site ("the Site") to cleanup impacted soil at the 3.6-acre Site. The cleanup activities include 1) removal of approximately 8,000 tons of accessible soil impacted with arsenic, polynuclear aromatic hydrocarbons (PAH) and total petroleum hydrocarbons (TPH); 2) replacement of the temporary cover at the southeast corner of the Site with a permanent gunnite cap consisting of a mixture of cement and sand; and 3) placement of land use restrictions on the Site or a portion of the Site with residual impacted soil. The RAW was prepared in accordance with California Health & Safety Code section 25356.1. The proposed remedial alternative in the RAW includes the following activities. 1) Removal of accessible impacted soils. Soil excavation will be conducted in five areas within the Site boundary. Approximately 8,000 tons of impacted soil will be removed from these areas and disposed offsite to permitted landfills. The largest	NOE

	<p>area will be excavated to three feet depth and a smaller area will be excavated to the groundwater depth of about 15 to 18 feet. The excavation will be backfilled with clean fill and repaved. The original surface features will be restored to their original or better conditions to the extent possible for the continued use of the Site as a Service Center by PG&E.</p> <p>2) Replacement of the temporary cap permanent cap materials. A 4,600 square feet area (which includes a portion of a levee bank) at the southeast corner of the Site contains a temporary cover consisting of 20-mil reinforced plastic sheeting and crushed rock and soil. This cover will be removed and permanent capping materials will be placed consisting of gunnite or shotcrete which is a mixture of Portland cement and sand. The gunnite will be appropriately sloped during placement to direct water drainage down the storm drain along the Walker Street and prevent water ponding on the capped surface. Additional remediation of this area may be conducted as part of the planned upgrade of the levee system along Pajaro River.</p> <p>3) Place Land Use Restrictions. Since impacted soil will remain at the levee portion of the Site and in the areas that cannot be accessed during the soil removal due to the presence of structures, PG&E and DTSC will enter into a Land Use Covenant to restrict the use of the Site or portions of the Site to commercial and industrial. The Land Use Covenant will also require DTSC approval for any disturbance of the remaining impacted soil.</p>		
2008068446	<p>Conditional Waiver of Waste Discharge Requirements for Disaster-Related Wastes During a State of Emergency Within the Central Valley Region Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento</p> <p>--</p> <p>Conditional waiver of WDRs for wastes from disasters or emergencies such as fires, floods, storms, earthquakes. Provides conditions to protect water quality for temporary waste piles, surface impoundments, or emergency landfills for animal mass mortality.</p>	NOE	
2008068447	<p>Drainage Improvements Caltrans #2 --Shasta</p> <p>The California Department of Transportation (Department) is proposing roadside drainage improvements (Projects) along State Route 299 in Shasta County. This Project is located at Post Mile 8.0, approximately 200 feet west of the Crystal Creek Bridge along the south shoulder of the highway. The purpose of this Project is to create an under drain system adjacent to the roadway in order to improve underground water conveyance and redirect highway runoff. The 30'x80' under drain system will pass under an existing man-made berm adjacent to the highway. A series of Class 1 delineators will be placed between the shoulder of the road and the under drain system to deter public access. Erosion control materials (e.g. silt fence, waddles, native seeding, etc.) will be placed upon completion of construction. All Project activities will be confined to the existing pullout and bermed area. Archaeological, Biological and Hazardous Waste studies have been conducted in compliance with both state and federal requirements. No environmental issues were identified in the course of these studies. No additional right of way will be required.</p>	NOE

---------------	---	------------------	----------------

Documents Received on Monday, June 30, 2008

2008068448	<p>Overlay Caltrans #2 --Lassen</p> <p>The Department of Transportation proposes to overlay 1.7 miles of existing roadway from post mile 17.4 to 19.1 on State Route 36 in Lassen County. All work will occur within the existing roadway and will include 4" dig-outs, 2" overlay, repair/replacement of the metal beam guardrail, ac dike, and tapered inlets. Staging will occur within the project limits on the north side of the State Route 36/44 junction. All construction work will occur between July 1 and October 30, and is scheduled to be completed within 30 days. An environmental evaluation was performed which consisted of researching resource databases, records, and field surveys. The following was determined: No special status species were located within or near the project study limits. No impacts to biological resources are anticipated as a result of this project; however the following provisions for avoidance and minimization are required: All staging should occur in designated areas. No bridge or culvert work should occur without additional biological studies. No cultural resources will be affected by this project. Therefore, in accordance with the policies and procedures outlined in the Caltrans Environmental Handbook 2004, Column 2, Chapter 2-4.4, Caltrans has determined that a finding of no impact is appropriate because there are non-historical resources within the Project Area Limits, and there are no impacts to historical resources (s) pursuant to CEQA Guideline Sec. 15064.5 (b)(3). No further cultural resources work is required unless project plans change to include work not currently identified in the project description or to include additional areas not identified in current project plans. An initial site assessment was conducted for this project. The results of this assessment indicate there are no hazardous wastes issues that impact the project. Permits are not required for this project.</p>	NOE
