# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16 – 30, 2011**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2010 CEQA Guidelines are available from the Resources Agency's website at

<http://ceres.ca.gov/ceqa/>.

2011 CEQA Guidelines will be available soon.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research  
State Clearinghouse and Planning Unit

Cathleen Cox  
Acting Director

## MEMORANDUM

DATE: July 1, 2010  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, State Clearinghouse Director  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at [www.opr.ca.gov](http://www.opr.ca.gov). A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

2011062047	<p>Use Permit Application No. 2010-13, Williamson Act Cancellation Application No. 2010-04 - Riddle Surface Mine Stanislaus County Newman--Stanislaus</p> <p>Request to establish a sand and gravel surface mine and material processing plant complex on two (2) noncontiguous sites totaling 436+/- acres. The north site consists of two (2) adjacent Assessor parcels totaling 315+/- acres. The south site is a single 121 +/- parcel. Approximately 62 million tons of sand and gravel will be extracted from below-grade on both sites and processed on the north site in 10-year phases over a 50 year period. Reclamation will occur after each phase. The project site is located at 3030 Orestimba Road (south site), west of Eastin Road, and 26861 Eastin Road (north site), southwest corner of Eastin and W. Stuhr Roads, in the Newman area.</p>	<b>CON</b>	07/05/2011

<b><u>Documents Received on Thursday, June 16, 2011</u></b>			
	Development Permit to allow for the demolition of an existing single-dwelling unit and construction of a new approximately 4,700 sq. ft., two-story, single dwelling unit and swimming pool on a 13,511 sq. ft. property including landscaping (planting irrigation and landscape related improvements) and off-street parking. Project implementation would require removal of the existing residential structure down to the slab, saw-cut and careful removal of existing slab features, grading, and installation of footing and foundation system for a new house which will be suspended on caisson in order to protect and preserve and Important Archaeological Site. The project also includes grading for a swimming pool requiring approximately 225 cubic yards of cut and no export to a maximum depth of approximately 5 feet. Legal Description: Portion of Pueblo Lot No. 1285 per Document No. 2007-730104; APN 346-440-05.		
2011061042	UCLA Ostin Music Center Project University of California, Los Angeles Los Angeles, City of--Los Angeles The proposed project involves the construction and operation of a new, approximately 20,655 gsf addition to the Schoenberg Music Building named the Evelyn and Mo Ostin Music Center, which will be used by academic programs of the Herb Alpert School of Music. The addition would consist of two discrete structures located at the end of the two southern wings that form a courtyard near the southwestern corner of the building. In addition to the development of the Ostin Music Center, the proposed project involves minimal landscape and hardscape improvements in the existing courtyards that are formed by the existing building wings. New hardscape and landscape would be installed along the perimeter of the new buildings.	<b>MND</b>	07/15/2011
2011062046	Yankee Jim's Wireless Communication Site (PMPB 20100386) Placer County --Placer The project proposes to construct a 150-foot tall self support wireless communications tower including a 50-foot by 60-foot master lease area capable of serving an estimated four wireless service providers.	<b>MND</b>	07/15/2011
2011062048	Conditional Waiver of WDRs for Grazing Operations in the Napa River and Sonoma Creek Watersheds Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Napa, Sonoma The Water Board intends to adopt a conditional waiver of Waste Discharge Requirements for existing grazing operations in the Napa River and Sonoma Creek Watersheds to comply with the Napa River and Sonoma Creek Pathogen and Sediment TMDL Implementation Plans that specify the actions necessary to protect and restore beneficial uses to the Napa River and Sonoma Creek Watersheds. These actions shall be consistent with the requirements of the NPS policy. The purpose of the waiver is to set conditions for implementation of grazing management practices which result in water quality improvements.	<b>MND</b>	07/18/2011
2011061041	Doheny Hotel Dana Point, City of Dana Point--Orange The proposed project includes the demolition of the existing buildings on the site and the construction of a new 2-5 story hotel with 258 rooms and 296 subterranean level parking spaces located in one level beneath the hotel. All on-site parking will be accommodated via car lifts and will be through valet. An	<b>NOP</b>	07/15/2011

<b><u>Documents Received on Thursday, June 16, 2011</u></b>			
2011061039	<p>MS 1226-11 Michael Wolfe San Benito County San Juan Bautista--San Benito</p> <p>The applicant is requesting to subdivide an approximate 13.44 acre property into two parcels which will consist of Parcel 1 (8.20 gross acres, and 8.02 net acres), and Parcel 2 (5.24 gross acres, and 5.08 net acres). Currently the property is developed with two single-family homes and a barn. After the subdivision, Parcel 1 will have a single-family dwelling and septic tank, and Parcel 2 will have a single-family dwelling, septic tank, and barn. Both parcels would be accessed from the same private driveway off of San Juan Canyon Road which is a county road. No development is being proposed with this project. Due to landslides issues, a deed restriction will prohibit any future construction of dwellings use for human habitation or occupancy.</p>	<b>Neg</b>	07/15/2011
2002091114	<p>Glendale Town Center Glendale Redevelopment Agency Glendale--Los Angeles</p> <p>The Project is the Americana at Brand Expansion. Colorado at orange LLC is proposing to expand the Americana at brand mixed-use project to include the properties located at 230 South Orange Street and 123 West Colorado Street. The expansion would add up to 140,000 square feet of retail floor area to the Americana at Brand in a new 3-story building. To facilitate the expansion of the Project, the remaining portion of Orange Street south of Caruso Way is proposed to be vacated. The easterly portion of the vacated area would be incorporated into the expansion site and the remaining westerly portion would be used as a pedestrian paseo connecting Colorado Street with Caruso Avenue. The checked boxes below refer to the proposed expansion.</p>	<b>NOD</b>	
2006021027	<p>Sunroad Harbor Island Hotel Project &amp; East Harbor Island Subarea PMPA (UPD 83356-EIR-783) San Diego, Port of San Diego--San Diego</p> <p>The Sunroad Harbor Island Hotel project (proposed Project) is proposed on the eastern end of Harbor Island. The Proposed Project is a 175-room, 4-story limited service hotel with ancillary meeting and fitness space, common areas, an exterior pool, and surface parking. The Proposed Project would be located east of the existing Sunroad Resort Marina and would replace an existing locker building and some parking, with the existing marina offices to remain. Adequate parking would remain for both the hotel and marina. The Proposed project also includes the extension of the public promenade along the Harbor Island East basin side of the hotel. The proposed Project would also reconfigure a portion of eastern Harbor Island Drive and the traffic circle at its terminus. The underlying utilities would also be realigned to accommodate the Proposed Project. The Proposed project includes a PMPA to change the land use designations of the Project site to add Promenade, and to reconfigure the existing Street and Open Space designations</p>	<b>NOD</b>

<b><u>Documents Received on Thursday, June 16, 2011</u></b>			
2011068120	<p>Berryman Property Training Forestry and Fire Protection, Department of --Siskiyou</p> <p>The Berryman Property Training Area will be used annually by state and local fire agencies to conduct fire training operations which may include any of the following activities; 1) Hand line construction including brush and small tree cutting, 2) Hose lays, 3) fire engine pumping exercises, 4) Live fire drills, 5) Dozer line construction and piling. These tire training activities will be on-going. This NOE cover the initial training activities and subsequent activities through June 2016. CAL FIRE will re-asses the environmental setting on or before June 2016 and determine if any additional environmental review work may be required for annual activities to continue.</p> <p>The Berryman property is a 155 acre forestland property consisting of three main vegetation types, Ponderosa pine forest, chaparral (mainly Manzanita) and annual grassland. The owner of the property is a Registered Professional Forester who manages for multiple uses including timber harvesting. The property lies on a prominent hill just to the north west of the City of Weed. Beaughton Creek, a watercourse bearing resident trout flows through the north eastern corner of the property. The property is bounded on the north by agricultural property, to the west by the City of Weed sewage disposal ponds, to the east by Lincoln Heights residential area, and to the south by the Weed Gold Course.</p>	NOE	
2011068121	<p>Rohnerville Air Attack Base Retardant Jettison Area Forestry and Fire Protection, Department of Fortuna--Humboldt</p> <p>This project involves the periodic jettisoning of excess fire suppression chemicals from air tankers onto grassland at the Rohnerville Airport near Fortuna, California. CAL FIRE air tankers that respond to wild-land fires from the Rohnerville Air Attack Base are occasionally cancelled prior to dropping retardant. Depending on the air tankers capabilities and amount of residual retardant, air tankers may jettison a portion of the load to insure a safe landing. For initial attack, air tankers are not routinely loaded to full capacity so that the need to jettison retardant is minimized if the tankers are cancelled. CAL FIRE only uses fire suppression chemicals which are approved for use by the USFS. CAL FIRE limits the use of fire suppression chemical mixtures in areas adjacent to waterways. There are no waterways near the project area that might b impacted by the project. The use of this jettison site at the airport is conducted under a Memorandum of Understanding with Humboldt County.</p>	NOE	
2011068122	<p>SMUD Micro-Grid Demonstration Energy Commission Sacramento--Sacramento</p> <p>When this contract was approved by the Commission, it was stipulated that SMUD should come back to the Commission for the CEQA document approval. CEQA documents have now been completed and the Commission needs to approve the CEQA. Construction work is about to commence subject to the Commission's approval of the CEQA requirement.</p> <p>This agreement with Sacramento Municipal Utility District required the contractor to submit to the Commission for approval of CEQA requirements. Staff finds no negative declaration for the environmental impact of this project.</p>	NOE

1993033028	Garcia Headwaters TMDL Implementation Project Mendocino County --Mendocino Addendum to Neg Dec	<b>ADM</b>	07/08/2011
------------	---	------------	------------

The Garcia River was the first watershed in the Northern CA under an adopted implementation plan for sediment Total Maximum Daily Load (TMDL). The Action Plan (2000) identified roads as the most controllable source of sediment in the watershed. To date approximately two thirds of the watershed has participated in voluntary compliance to control erosion through road-project implementation or planning based on Best Management Practices. The project goal is to reduce road-related sediment delivery on 61% of the Garcia River headwaters by implementing 18 to 20 miles of prioritized treatments from three approved Erosion Control Plans reflecting an estimated 37 miles of unimproved roads for a total of 4.1% overall annual load reduction to the Garcia watershed.

2008082116	Applegate Regional Sewer Pipeline Project Placer County --Placer Under Alternative 1, the County would construct a new pipeline, potentially replace portions the existing pipeline, construct up to two new pump stations, and decommission the wastewater treatment ponds at the Applegate Wastewater Treatment Plant.	<b>EIR</b>	08/01/2011

2010122023	<p>Pittsburg/Bay Point BART Master Plan Pittsburg, City of Pittsburg--Contra Costa</p> <p>The proposed project is a Master Plan describing mixed-use development on ~50.6 acres. The proposed Master Plan includes provisions supporting the development of residential and commercial uses, including various densities of residential development, senior housing, retail and office uses, and integration of the BART station into a cohesive mixed-use development plan. Current surface parking is proposed to be relocated to parking structures, allowing for urban development of the remainder of the project area. The western half of the project would likely be developed as multi-family housing by the current property owner, West Coast Home builders. In addition to typical residential and commercial land uses, the proposed Master Plan includes "flex" uses that may be developed as residential, retail, office, or quasi-public uses depending on market pressures at the time of development. Included in some locations would be ground-floor retail uses, co-located with flex uses.</p>	<b>EIR</b>	08/01/2011
2011061043	<p>Royal Street Communications Wireless Telecommunications CUP San Bernardino County --San Bernardino</p> <p>NOA for IS / proposed MND for a CUP to establish a wireless telecommunications facility consisting of one 2-foot microwave antenna, one GPS antenna and six panel antennas concealed within a 45-foot high slimline flagpole tower; Two equipment cabinets and two battery cabinets mounted on a concrete pad enclosed by a 7-foot high block wall; with a variance to allow a 270-foot residential setback in lieu of 300 feet on a 216-sq. ft. portion of an existing church facility, on 2.2 acres; Project No. P201000505/CUP/Cell Tower</p>	<b>MND</b>	07/18/2011
2011061045	<p>IS 2011-01 and PC 2010-06 20 Kanem Holdings, Inc Coronado, City of Coronado--San Diego</p> <p>This project, commonly known as the 20 Sandpiper Strand Dock, involves the installation of a new dock and gangway, totaling 552 sq. ft., in the location of previous dock that was removed several years ago. The project will utilize the existing pilings and new floats for support of the dock. To address impacts to eelgrass, GlobalGrid mesh material will be used for the new dock and gangway. Additional mitigation includes monitoring of the site for two years and replanting of eelgrass at a 1:1 ratio if necessary.</p>	<b>MND</b>	07/18/2011
1999052061	<p>Proposed Amendments to the Broadway/MacArthur/San Pablo Redevelopment Plan Oakland, City of Oakland--Alameda Note: Revised</p> <p>The proposed CEQA Project is the implementation of the three Proposed Amendments to the Broadway/MacArthur/San Pablo Redevelopment Plan. The first amendment would expand the Project Area boundaries to include the 1,300 parcels and 210 acres that is the Lowell/Gaskill neighborhood (Amendment Area). Redevelopment activities envisioned for the Amendment Area would focus in the area along Lowell Street and Stanford Avenue and include streetscape improvements, right-of-way adjustments, building renovations, and new housing, live/work, industrial incubator, and/or commercial development consistent with the existing HBX Housing and Business Mix Zone and General Plan land use</p>	<b>NOP</b>	07/18/2011

	designation. Other redevelopment programs within the Amendment Area would be consistent with those currently being implemented through the existing Redevelopment Plan.		
2008121121	Catheys Valley Community Plan Mariposa County --Mariposa The project is the adoption of the Catheys Valley Community Plan (CV Plan), which amends Mariposa County General Plan Volume II, Area Plans and Interim Land Use Plans. The CV Plan is based upon, and is consistent with, the Mariposa County General Plan and both share a uniform format.	<b>NOP</b>	07/18/2011
2011061044	12th Avenue Widening - Grangeville to Fargo Hanford, City of Hanford--Kings The applicant is proposing to widen an existing two-lane road (~30' paved width) to a four-lane arterial street. This includes the acquisition of portions of 35 parcels totaling approximately 1.5 acres required for widening and sidewalk installation.	<b>Neg</b>	07/18/2011
2011061046	Park Hill Estates v. 2 Residential Subdivision Santa Barbara County Goleta--Santa Barbara The applicant proposes to subdivide the existing 14-acre parcel into 20 lots, including 18 residential lots and two common lots, and develop infrastructure to accommodate future residential development.	<b>Neg</b>	07/18/2011
2011061047	Santa Monica Pier Emergency Gangway and Phase 4 Structural Upgrade project Santa Monica, City of Santa Monica--Los Angeles There are two distinct components of the proposed project: the emergency gangway and floating dock, and the Phase 4 structural upgrades.  The proposed emergency gangway and floating dock component consists of: 1) demolition and removal of one existing concrete pile and an 18-foot-long by 8-foot-wide section of the concrete decking of the southern fishing platform; 2) installation of a 2.5-ton capacity hydraulic crane lift on the pier; 3) construction, transportation, and anchoring of a 60-foot-long by 36-foot-wide floating barge (dock) on the south side of the pier (anchoring will be with 12 screw-type anchors or piles driven into the seafloor in approximately 16 feet of water [MLLW]); 4) installation of a 88-foot-long by 5-foot-wide aluminum gangway on the south side of the pier; 5) installation of various railings, utilities, and amenities at the project site; and; 6) demobilization and removal of construction equipment and site cleanup.	<b>Neg</b>	07/18/2011
2011061048	Recycled Water Backbone System Phase I: Wooley-Rose Extensions Oxnard, City of Oxnard--Ventura Pipeline for the City of Oxnard's GREAT Program for Recycled Water. Approximately 39,755 feet of pipeline to be constructed underground in the right-of-way of Wooley Road, Rose Avenue, Mountain View, Pacific Avenue, Richmond Avenue, Camino Del Sol, and J Street.	<b>Neg</b>	07/18/2011

2011061049	North Copperhill Annexation; Master Case 11-038 Santa Clarita, City of Santa Clarita--Los Angeles The project consists of Prezone for 2,475 acres. The project area would include a LAFCO application for each of the three individual communities: Bouquet Canyon, Haskell Canyon, and Raintree. The project area includes an estimated 3,181 homes, an 18,860 sq. ft. commercial center, two elementary schools and an additional school site, three park sites (both developed and undeveloped), two probation camps, power transmission corridors, and two aqueducts. No development is proposed as part of this project. The estimated population of the project area is 9,543 permanent residents.	<b>Neg</b>	07/18/2011
2011064010	Travis AFB C-17 Use of Instrument Routes 264, 275, 280, 281 and 282 U.S. Air Force --Mono The Air Force proposes to conduct low level navigation training for C-17 aircrews based at Travis AFB using five military training routes in central Nevada that were formerly owned by Mountain Home AFB in southwestern Idaho. The purposes of the proposed action is to establish Travis AFB C 17 as the primary user along these routes and allow Travis AFB to become the scheduling and coordinating agency for Instrument Routes (IR) 264, IR 275, IR 280, IR 281, and IR 282. Each route has multiple segments allowing for a variety of entry and exit points. An estimated 104 annual sorties would be flown for each route (78 daytime and 26 nighttime). No modification of the currently published route structures or changes to any routes would be required. No new construction would occur.	<b>Oth</b>	07/14/2011
1990010988	Antelope Valley Public Landfill Expansion Palmdale, City of Palmdale--Los Angeles Expansion of the Antelope Valley Public Landfill by enlarging the landfill refuse foot print to 125 acres by reconfiguring the two approved landfills into one contiguous disposal area, updating the legal boundary of the entire facility to 185 acres and obtaining one SWF permit for the entire area.	<b>NOD</b>	
1997071087	Green River Golf Club Embankment Protection Project (Santa Ana River Flood Control Project) U.S. Army Corps of Engineers Chino--San Bernardino The proposed project consists of flood control improvements to Prado Dam and vicinity that will be constructed by the U.S. Army Corps of Engineers (Corps). The District, as a CEQA responsible agency, will be acquiring right-of-way and approving construction within District right-of-way for this project. Pursuant to CEQA and NEPA, the County of Orange as the CEQA lead agency and the Corps as the NEPA lead agency certified the Final Supplemental Environmental Impact Statement/Environmental Impact Report (SEIS/EIR) for the Prado Basin and Vicinity, Including Ranch 9 and Stabilization of the Bluff Toe at Norco Bluffs in December, 2001. The Corps also prepared a Supplemental Environmental Assessment (SEA)/CEQA Addendum to the SEIS/EIR in March 2011 to address minor technical project changes and demonstrate compliance with the Western Riverside County Multiple Species Habitat Conservation Plan for the Santa Ana River Flood Control Project Reach 9, Phase 2A Embankment. The District has reviewed the SEA/CEQA Addendum to the SEIS/EIR and has made the	<b>NOD</b>

	determination that none of the conditions described in Section 15162 of the CEQA Guidelines calling for the preparation of a subsequent EIR have occurred. The SEA/CEQA Addendum has been prepared pursuant to Section 15164 of the CEQA Guidelines.		
2005031068	Madera Irrigation District Water Supply Enhancement Project Madera Irrigation District Madera--Madera The CDFG is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, the Madera Irrigation District, for its Madera Ranch Water Supply Enhancement Project. The applicant proposes to rehabilitate canals, enlarge canals, convert pipelines, construct flow control structures, and reinforce areas susceptible to erosion and scour to enhance water supply reliability, reduce overdraft of the aquifer, help maintain water costs, and improve groundwater quality and encourage conjunctive use.	<b>NOD</b>	
2005062010	Fallon Village Project Dublin, City of Dublin--Alameda The project involves construction of 106 single family residential units, interior streets, utilities, open space, a storm water detention basin and two water quality basins on 66.9 acres. Current plans/schedules call for the development of the property in two phases. The first phase of development is planned to include mass grading of the project area and installation of utilities and the on-site work necessary to create 106 finished lots. Phase 2 will consist of vertical home construction.	<b>NOD</b>	
2005102134	Shasta Ranch Mining and Reclamation Plan Shasta County --Shasta To excavate approximately 834,000 tons of material from within the Sacramento River Designated Floodway.	<b>NOD</b>	
2006112040	Oroville Riverfront Park Oroville, City of Oroville--Butte To remove from the project site existing trees, fencing, utility poles and concrete; perform grading and site work for underground electrical, sewer, and storm drainage systems; construct walkways, install stairs and a 180 linear foot curved retaining wall.	<b>NOD</b>	
2006112097	Rocklin Crossings Project Rocklin, City of Rocklin--Placer This project consists of a regional shopping center on approximately 55.1 acres at the southeast corner of I-80 and Sierra College Boulevard. A variety of retail uses are proposed for the center, including major tenants (expected to be a Wal-Mart Supercenter and Home Depot), smaller retail tenants and restaurants. Other traveler-serving uses could also be developed within the project site. Preliminary plans call for approximately 21 buildings totaling a maximum of 543,500 s.f. with 2,463 parking stalls. The number of parking stalls provided would be required to conform with the requirements set forth in the Rocklin Crossings General Development Guidelines.	<b>NOD</b>

<b><u>Documents Received on Friday, June 17, 2011</u></b>			
2007102130	West Sacramento Levee Improvements Program West Sacramento Area Flood Control Agency West Sacramento--Yolo, Solano To strengthen and/or raise approximately 5,820 linear-feet of project levee by constructing approximately 4,400 linear-feet of 25 to 70-foot-deep by 3-foot-wide slurry cutoff wall; flatten the landside and waterside levee slopes to 2.75:1 (H:V) and 3:1 (H:V), respectively, by shifting the levee prism 10 to 20 feet landward; and place concrete, rip-rap, or seeded slope protection on the left (south) bank levee of the Sacramento Bypass.	<b>NOD</b>	
2007102130	West Sacramento Levee Improvements Program West Sacramento Area Flood Control Agency West Sacramento--Yolo To construct approximately 0.56 linear-miles of levee on the crest of River Crest Drive Levee along the south bank of the Sacramento River; installing a seepage cutoff wall ranging in depth from 90 to 135 feet deep; re-grade the landside slope to a 3:1; install six 4 inch diameter piezometers to a depth ranging from 23 feet to 54 feet; install 262 feet of maintenance road, paved ramps, parking, paved trails and bicycle pedestrian gates along the right (south) bank of the Sacramento River.	<b>NOD</b>	
2008121044	Alta Infill II Wind Energy Project Kern County Mojave, Tehachapi--Kern The Project, as approved by the Department of Fish and Game (DFG), consists of a Major Amendment to the California Endangered Species Act Incidental Take Permit (ITP) referenced above as originally issued by DFG to Terra-Gen Power, LLC in May 2010 and issued in amended form to Alta Oak 1, LLC; Alta Oak II, LLC; Alta Oak III, LLC; Alta Oak IV, LLC; and Alta Oak V, LLC (collectively, Permittee) for the Alta Oak Mojave Wind Project (AOCM) in August 2010. The ITP as originally issued authorizes take of Bakersfield cactus ( <i>Opuntia basilaris</i> var. <i>treleasei</i> ) and desert tortoise ( <i>Gopherus agassizii</i> ), species designated as endangered and threatened, respectively, under CESA. The major amendment at issue here, which is the second amendment of the original ITP, removes the operation and maintenance (O&M) activities allowed within an area 500 square feet in size, and instead limits O&M activities to areas previously disturbed during the construction phase of the AOCM. In addition, the second major amendment requires the Permittee to submit as-built plans documenting the permanent structures and temporary disturbance areas associated with construction of the AOCM. DFG issued the original ITP and approved both the first and second major amendments as a responsible agency under the California Environmentally Quality Act (CEQA) relying on an environmental impact report and addendum prepared for the Project, as amended, prepared, certified, and approved by the lead agency, County of Kern.	<b>NOD</b>	
2009042031	Water System Facilities Improvements Project Health Services, Department of --San Joaquin To install approximately 400 feet of 6-inch pipe below the streambed of Duck Creek. A 10-inch hole will be drilled via horizontal direction drilling (HDD) and the pipe will be pulled into place.	<b>NOD</b>

2009042031	Water System Facilities Improvements Project Health Services, Department of --San Joaquin To install approximately 450 feet of 6-inch pipe below the streambed of Littlejohns Creek. A 10-inch hole will be drilled via horizontal direction drilling (HDD) and the pipe will be pulled into place.	<b>NOD</b>	
2009122009	Shiloh III Wind Energy Project Solano County Rio Vista--Solano The proposed project involves the installation of 59 wind turbine generators (WTG) and foundations, access roads, control cables, power collection cables, and an electrical substation. The project will result in impacts to 80 acres of CA tiger salamander ( <i>Ambystoma californiense</i> ) habitat including temporary impacts to 65 acres; the project will permanently remove 15 acres of CA tiger salamander habitat. The project is expected to result in incidental take of CA tiger salamander, which is designated as a threatened species under the CA Endangered Species Act. DFG issued an incidental take permit for the project as a responsible agency under the CEQA relying on the environmental impact report prepared for the project and certified by the lead agency, County of Solano. The ITP authorizes incidental take of CA tiger salamander that may occur as a result of project implementation.	<b>NOD</b>	
2010082014	Palermo-East Nicolaus 115-kV Transmission Line Reconstruction Project Public Utilities Commission Oroville, Marysville, Yuba City--Butte, Yuba, Sutter The project subject to the incidental take permit (ITP) issued by DFG involves the replacement of existing 115kV transmission lines and power poles with new poles and lines along an approximately 40 mile corridor from Butte County to Sutter County. The project will result in impacts to 25.3 acres of Giant Garter Snake ( <i>Thamnophis gigas</i> ) habitat, including temporary impacts to 25.2 acres and permanent removal of 0.12 acre. The project is expected to result in incidental take of Giant Garter Snake, which is designated as a threatened species under the CA Endangered Species Act (CESA) (Fish & G. Code, S 2050 et seq.). The ITP referenced above as issued by DFG authorizes incidental take of Giant Garter Snake expected to occur as a result of Project implementation.	<b>NOD</b>	
2010082046	East Gridley Road Solar Array Gridley, City of Oroville--Butte To install a 750 kilowatt direct current solar array system on approximately 7.7 acres.	<b>NOD</b>	
2010121010	Debris Basin Maintenance Program Los Angeles County Flood Control District --Los Angeles Each of the 162 existing basins in the longstanding and ongoing Debris Basin Maintenance Program receives at least one round of maintenance annually, which may include: annual brush clearing, tree trimming, and vegetation mowing; annual entrainment channel and outlet tower clearing; sediment removal; access road maintenance; State Division of Safety of Dams compliance; storm damage repair/restoration; and/or exotic species eradication. The Program does not include new construction, expansion or alteration of the debris basins.	<b>NOD</b>

2011068138	University of California, Davis Archaeological Field Studies Parks and Recreation, Department of --Mendocino University of California, Davis students will conduct archaeological field studies at MacKerricher and Hendy Woods State Parks and Jug Handle State Natural Preserve to catalog archaeological resources being destroyed through erosion cause by waves, wind, vehicles, equestrians, and/or pedestrians. Work consists of visual reconnaissance surveys and archaeological sampling of fifteen prehistoric sites. Soil samples within prehistoric sites will be collected by hand in 1X1, 1X2, and 2X2 meter units that range in depth from 5 to 150 cm. All soils will be sifted through screens; then placed back into the excavated holes following sample analysis.	<b>NOE</b>	
2011068139	Amendments to the Capital Improvement Master Plan to Incorporate Additional Projects Big Bear Lake, City of Big Bear Lake-- The project consists of the adoption of a resolution approving an amendment to the Capital Improvement Master Plan by incorporating projects identified for funding from the Agency 2011 Tax Allocation Bonds for the Big Bear Lake and Moonridge Improvement Projects.	<b>NOE</b>	
2011068140	Santa Fe Pacific Pipelines Partners, LP, Line Section 51 Pipeline Erosion Repair Project Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside Riverside--Riverside The proponent, proposes to protect three locations on an existing pipeline where the pipe has been exposed by erosion. At two locations, the proponent will install permanent flexible concrete revetments and toe protection. At the third location, the proponent will install a permanent grout-filled "geotextile mattress" over the exposed pipeline. To be clear, the Project does not entail repair of damaged pipe that is leaking product. Approximately two to three weeks will be necessary to complete the project. All surplus construction materials and excess soil will be removed upon Project completion, and soils used in the channels will be stabilized.	<b>NOE</b>

2011061053	Rodeo Grounds Pump Station Project Cambria Community Services District Cambria--San Luis Obispo The Rodeo Grounds Pump Station Project proposes replacement of an existing pump station, as well as construction of upstream and downstream reaches of connecting pipelines. The Project would mitigate deficiencies in fire flows, while also replacing an obsolete pumping station. The proposed pump station would be housed in a 2,472 SF precast concrete/masonry building, and would include five rooms and appurtenant treatment facilities. Approximately 1,225 LF of larger diameter (12- to 16-inch) suction and discharge piping would be constructed to connect the proposed pump station with the existing piping system. Additionally, existing pipeline segments would be activated.	<b>MND</b>	07/19/2011
2011062051	Clear Channel Newark Billboards Project Newark, City of Newark--Alameda One billboard is proposed at 7015 Gateway Boulevard (APN 537-0469-031) adjacent to highway 84 in Newark. One new billboard and replacement of an auto mall billboard are proposed at 39491 Mowry School Road (APNs 901-0195-020, -021 and 901-0111-002) adjacent to Interstate 880 in Newark.	<b>MND</b>	07/19/2011
2011064009	Renewal of the Naval Air Weapons Station China Lake Public Land Withdrawal U.S. Navy --Inyo, Kern, San Bernardino Note: Review per lead  The Department of the Navy (DoN), with the cooperation of the Bureau of Land Management (BLM), announces its intent to prepare an Environmental Impact Statement/Legislative Environmental Impact Statement (EIS/LEIS) to evaluate the potential environmental effects associated with the continued withdrawal of ~1.1 million acres of public land in Kern, Inyo, and San Bernardino counties, California. This public land withdrawal comprises the current North and South ranges at Naval Air Weapons Station China Lake (NAWSCL). The proposed land withdrawal extension will allow the DoN to continue defense-related research, development, test and evaluation (RDT&E) and training missions at NAWSCL, in addition to other land uses.  The proposed action will meet the need to support the application of current and evolving technology to solve theatre-relevant problems for the warfighter and ensure necessary training readiness, while ensuring appropriate management of land use and environmental resources; revise and implement the installation's CLUMP; and, maintain DoN readiness by accommodating current and evolving state-of-the-art RDT&E and training requirements at NAWSCL.	<b>NOI</b>	09/08/2011

	result in improved conditions for stream, riparian and wetland.		
2011042049	Taylor Minor Subdivision Humboldt County --Humboldt A Minot Subdivision to divide an approximately 17.3 acre parcel into two parcels of 2.0 acres and 15.3 acres. The parcel is currently developed with several legal, non-conforming residences, specifically eight (8) single family residences, one duplex, three (3) garages and a barn. Seven (7) residences and two (2) garages are proposed to remain on proposed Parcel 1. A manufactured home is proposed to be removed on proposed Parcel 2 such that it can be replaced with a new single family residence. The duplex on proposed Parcel 2 will be converted to secondary dwelling unit and the barn will remain. All development is currently served with water and sewer by McKinleyville Community Services District.	<b>NOD</b>	
2011042074	Feasibility Study and Remedial Action Plan, Oakland Power Plant Toxic Substances Control, Department of Oakland--Alameda The California Department of Toxic Substances Control (DTSC) has approved the Feasibility Study and Remedial Action Plan (FS/RAP) for the Oakland Power Plant (OPP) site (Site). The FSRAP, which are incorporated by reference, summarize the final remedy and its proposed implementation activities, hereafter referred to as the "project" in this document.  The FS/RAP propose a cleanup plan for removal of hydrocarbon contaminated soils containing separate phase petroleum hydrocarbons (SPPH) on the power plant parcel and in the street area, capping contaminated areas at the power plant parcel and adjacent sidewalk areas, land use restrictions, ongoing operation and maintenance of the caps, and monitoring of groundwater.	<b>NOD</b>	
2011042096	14th Ave Extension Sacramento, City of Sacramento--Sacramento Note: Reference SCH #2007072024  The project would improve 2,800 linear feet of 14th Avenue between Power Inn Road and the current end of the road, just east of 82nd Street, and extend the road 2,250 linear feet from the current end to Florin Perkins Road.	<b>NOD</b>	
2011052018	Water Tank #7 Replacement Arcata, City of Arcata--Humboldt The City is proposing to replace an existing 150,000-gallon redwood water tank, known as Tank #7, with a new welded steel 150,000-gallon tank. The tank is located within the Arcata Community Forest 700 feet southeast of CA Avenue on an approximately 0.15 acre site. The existing tank, which was installed in 1976 and is in poor condition with the potential for structural failure, is being replaced as part the City's ongoing storage tank upgrade program. Failure of the existing tank would render 140 households without domestic water and fire service protection. The City considers this replacement a high priority. The project capacity will remain at 150,000-gallon capacity as this is adequate to supply water to the households served by the tank, and to provide adequate fire flow. The existing tank is approximately 36 feet in diameter and 20 feet high. The new tank will be 36 feet in diameter and 21.2 feet high. The base elevation the new tank will be at	<b>NOD</b>

<b><u>Documents Received on Monday, June 20, 2011</u></b>			
2011068153	Conditional Use Permit No. 2147 (Chase Bank) El Cajon, City of El Cajon--San Diego Request for a walk-up ATM kiosk and a drive-through ATM at Parkway Plaza in the C-R zone.	<b>NOE</b>	
2011068154	Caltrans, Highway 254 - Redcrest Rock and Drainage Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The proposed project includes roadway and drainage restoration at two locations, Post Miles (PM) 22.3 and PM 40.06 located in Humboldt County, on Highway 254. At PM 22.3 the proposed project is necessary because the drainage system and the roadway have failed. The existing cross culvert is plugged with rock and is separated, due to localized earth movement. A new cross-culvert will be placed on a new alignment and the area of the former feeder culvert and junction box will be graded to drain to the new drainage system. At PM 40.06 the proposed project would permanently restore an existing 36-inch diameter culvert. The drainage system and roadway have failed at this location: the roadway embankment slipped and separated the CMP downdrain. The purpose of the proposed project is to stabilize and reconstruct the roadway embankment and restore the drainage system. Caltrans has determined that total project permanent impacts to ephemeral drainages will be approximately 0.0262 acres (329.5 linear feet). The temporary project impacts to ephemeral drainages identified as waters of the U.S. and State will be approximately 0.026 acres (248 linear feet). In addition, Caltrans has determined that temporary impacts to riparian areas (waters of the State) will total 0.23 acres (10,140 feet <sup>2</sup> , 295 linear feet) Caltrans proposes revegetation and additional trees and shrubs will be planted at onsite locations to offset impacts to riparian habitats, improve water quality by shading and cooling waters, and enhance habitat for aquatic species. Caltrans proposed to revegetate 0.32 acres (14,100 feet <sup>2</sup> , 440 linear feet) of riparian habitat. Additionally, the drainage work planned should benefit water quality by reducing area with excessive erosion. Work within waters of the U.S will only be conducted in the dry season (May 15 to October 15).	<b>NOE</b>	
2011068155	Akin Water Supply Feasibility Study Public Health, Department of Porterville--Tulare " Preliminary engineering report update to define and evaluate alternatives that were submitted with a previous SRF application. " Preparation of Technical, Managerial, and Financial (TMF) documentation. " Any required California Environmental Quality Act/National Environmental Policy Act (CEQA/NEPA) documentation will be prepared. " Annexation of the water service by the City of Porterville, including any appropriate LAFCO and City fees due because of planned annexation. " A topographic land survey will be prepared for proposed project upgrade sites and incorporation of existing facilities. " Waterline project plans and specification will be prepared for CDPH review and approval. " Preparation of an application for construction funds that follows state guidelines and incorporates the findings of the previously mentioned reports, investigations, and plans.	<b>NOE</b>

2008031002	<p>Roeding Regional Park and Fresno Chaffee Zoo Facilities Master Plans (Including Rotary Playland and Storyland) Fresno, City of Fresno--Fresno NOTE: Final 1 CD</p> <p>The 148-acre Roeding Regional Park consists of three components: the portion devoted to active and passive recreation areas and the PARCS maintenance yard (123 acres), the Fresno Chaffee Zoo (18 acres), and they Rotary Storyland and Playland facilities (7 acres). The planned expansion of the zoo (by 21 acres) and Storyland and Playland (by 2 acres) would reduce the amount of land for active and passive recreation uses, a decrease from 123 acres currently to 100 acres. These 100 acres would include public recreation/open space (76 acres), parking (9 acres), multiple purpose paths (6 acres), public access roads (5 acres), a non-public access road (2 acres) and a new PARCS maintenance facility (2 acres). Some of the roads and parking included in the active and passive recreation area of Roeding Regional Park would also serve the Fresno Chaffee Zoo and Rotary Storyland and Playland facilities.</p>	FIN	
2010102040	<p>Montezuma II Wind Energy Project Solano County --Solano NextEra proposes to develop the Montezuma II Wind Energy Project in the Montezuma Hills approximately four miles south of Hwy 12 and approximately 15 miles southeast of Fairfield. Surrounding communities include Birds Landing 1.7 miles to the west, Collinsville approximately 1.5 miles to the south, and Rio Vista (City Limits) approximately 5.7 miles east of the closest project boundaries. The project area is entirely within private ownership; no public lands are included in the project area.</p> <p>The Project would entail installation and operation of 34 wind turbines and associated facilities on a 2,539-acre site in Solano County adjacent to the existing Shiloh I, enXco V. and High Winds wind energy projects.</p>	FIN	
2011061059	<p>Water Main Replacement - Acacia Avenue to Starr Tank Sweetwater Authority Chula Vista--San Diego Sweetwater Authority proposes to replace approximately 1,255 linear feet (LF) of existing 10-inch welded steel water main with 120inch Fusible Polyvinyl Chloride (FPVC) pipeline within an easement between Acacia Avenue and the Starr Tank Site. The access area and staging areas total approximately 1.1 acres. In order to avoid habitat impacts, directional drilling would be employed for the pipeline replacement and would be installed in three separates runs or "borings". Run 1 requires a bore pit (approximately 1 ½ feet wide, 4 feet deep and 5 feet long) located in Acacia Avenue right-of-way, and a receiving pit of the same size located in a temporary 700-square-foot construction pad. The total directional bore length for Run 1 would be approximately 700 LF. Run 2 would also require a bore pit equal in size for Run 1 located adjacent to Receiving Pit 1. The total directional bone length for Run 2 would be approximately 255 LF. Run 3 requires a boring pit</p>	MND	07/20/2011

	(boring pit 3) to be located at the southeast corner of the Starr Tank site and would utilize Receiving Pit 2 at the 90-degree angle where the pipelines connect. The 12-inch FPVC pipelines would be joined together by open trench construction within the two temporary construction areas.		
2011061060	Reservoir No. 1 Reconstruction Project Burbank, City of Burbank--Los Angeles Burbank Water & power (BWP) proposes to demolish the existing 6.9-million-gallon (MG) Reservoir No. 1 and construct two new, cast-in-place concrete reservoirs with a total storage capacity of approximately 9.5 MG (Reservoir No. 1A with a capacity of approximately 4.8 MG and Reservoir No. 1B with a capacity of approximately 4.7 MG). This design would consist of two conventional reinforced concrete reservoirs constructed within the footprint of the original reservoir. The larger of the two reservoirs, reservoir No. 1A, located on the northwestern half of the site would be rectangular in shape. The smaller of the two reservoirs, Reservoir No. 1B, located on the southeast half of the site would be trapezoidal in shape.	<b>MND</b>	07/20/2011
2011061061	Hawaiian Gardens Casino Redevelopment Hawaiian Gardens, City of Hawaiian Gardens--Los Angeles The project consists of demolition of the tent membrane structure that houses the existing casino facilities and construction of a two-story, ~202,111 SF building on the southwest portion of the site. Approximately 152,970 SF will be located on the ground floor and 49,141 SF will be located on the second floor. The project will also include landscape, signage, and lighting improvements. The ground floor will house up to 300 gaming tables, with an ~2,530 seat capacity, along with ancillary activities such as food and beverage services, personal services, administrative offices, and limited retail targeting casino patrons. The second floor is designed to be flexible for a variety of uses or events, to be occupied several years after the first floor opens. It could include additional gaming areas with a capacity of 800 seated at tables.	<b>NOP</b>	07/20/2011
1991103064	Grafton Plaza Dublin, City of Dublin--Alameda The Applicant has requested approval of a Site Development Review Permit to allow the construction of an 11,590 square foot automobile dealership building, customer and inventory parking, and related improvements located at 4300 John Monego Court. The Applicant has also requested approval of a Conditional Use permit to allow an Automobile/Vehicle Sales and Service facility to operate on the site. The project site is located within the Eastern Dublin for which an EIR was previously certified and the project is within the scope of the EIR.	<b>NOD</b>	
2001082105	Big Break Regional Shoreline East Bay Regional Parks District Oakley--Contra Costa Design Review approval to construct an approximately 7,000 square foot visitor center with walkways, benches, picnic area, enhanced wetland, parking, and landscaping on an approximately 4.5 acre portion of the Big Break Regional Shoreline. This is Phase 3b of a 4 phase project.	<b>NOD</b>

	for the transport of agricultural products: tomatoes/tomato paste and citrus are a sample of the products they haul. Typically, the trucks are driven up to the Los Banos area on Monday morning and the ensuing week is spent transporting goods from Los Banos to Lemoore, and back-and-forth again. The trucks are parked on the project site when not in use; typically, only on the weekends and holidays. A maximum of five trucks would be parked at the site.		
2011061064	Special Use Permit No. PSP 09-011 Tulare County Delano--Tulare The Special Use Permit would allow an agricultural service establishment (truck parking facility) on a 1-acre portion of a 3.3-acre site. The truck parking facility would be owned and operated by the occupant of the on-site residence. The trucks being parked at the site haul only agricultural products. A maximum of forty-eight spaces are proposed, with four of those spaces being identified as transport refrigeration units (TRUs). The trucks are owned and operated by individuals who would utilize the site for parking only. Typically, the owner/operator parks his personal vehicle on the site for the duration of the truck haul. The days and hours of operation would be 24 hours/day, 7 days/week, 365 days/year. No truck drivers remain at the site overnight. A noise study and Health Risk Assessment were conducted for the proposal.	<b>Neg</b>	07/21/2011
2010042100	Statewide Program EIR for Anaerobic Digester Facilities for the Treatment of Municipal Organic Solid Waste Resources Recycling and Recovery, Department of -- Adoption by CalRecycle of the Anaerobic Digestion Initiative which includes the adoption of a policy and a series of discrete actions to implement the policy which includes: It is CalRecycle policy to encourage the development of AD facilities in California as an alternative to the landfill disposal of organic solid waste. Specifically, as an initial measure, CalRecycle will encourage the establishment of in-vessel digesters located at existing or new solid waste facilities and in areas zoned for industrial or solid waste handling activities.	<b>NOD</b>	
2011031015	Marine Ecosystem Sensing, Observation, and Modeling (MESOM) Laboratory University of California, San Diego La Jolla--San Diego The proposed Marine Ecosystem Sensing, Observation, and Modeling Laboratory (MESOM) project would be located on an approximately 1.2-acre parcel in the Scripps Institution of Oceanography (SIO) portion of the University of California, San Diego (UCSD) campus. The project would be located on two existing parking lots (P012 and P013). The project site is bound to the north and west by Biological Grade (a private street), to the south and west by Isaacs Hall and associated trailers, and to the east by La Jolla Shored Drive. The proposed project would consist of an approximately 40,000-gross-square-foot (gsf), three-story research facility that would consist of an approximately 40,000-gross-square-foot (gsf), three-story research facility that would include approximately 10,000 gsf of laboratory space and 30,000 gsf of office, conference and support space. The oceanography workspaces and laboratories would be equally divided among the three levels. The first and second levels would have direct access to adjacent service yards for the workspaces, utilizing the existing topography of the site with the first floor at-grade relative to the southwestern portion of the site and the second floor at grade relative to the northeastern portion of the site. The office	<b>NOD</b>

2011068170	<p>San Joaquin Valley Unified Air Pollution Control District Rule Development: Amendments to Rule 4605 (Aerospace Assembly and Component Coating Operations)</p> <p>San Joaquin Valley Air Pollution Control District San Joaquin--Fresno, Kern, Kings, Madera, Merced, San Joaquin, ...</p> <p>This is a rule development project to amend existing District Rule 4605 (Aerospace Assembly and Component Coating Operations). Adoption of the proposed amendments would lower emissions of volatile organic compounds (VOC) from coatings and solvents used in the aerospace industry and two specialty coating categories in Rule 4605. Other amendments are clerical in nature; updating test methods as required by the U.S. Environmental Protection Agency, adding definitions, and providing clarity to the rule.</p>	<b>NOE</b>	
2011068171	<p>San Joaquin Valley Unified Air Pollution Control District Rule Development: Amendments to Rule 4684 (Polyester Resin Operation)</p> <p>San Joaquin Valley Air Pollution Control District San Joaquin--Fresno, Kern, Kings, Madera, Merced, San Joaquin, ...</p> <p>This is a rule development project to amend existing District Rule 4684 (Polyester Resin Operations) to correct the rule deficiencies as recommended in the Technical Support Document (TSD) published by Environmental Protection Agency (EPA) in May 2009. The proposed amendments would lower emissions of volatile organic compounds (VOC) from polyester resin operations used in non-boat manufacturing operations. The limits and VOC control system would be as stringent as other California air districts to fulfill Reasonable Achieved Control Technology (RACT) requirements. As part of these amendments, new rule definitions would be added to clarify and support the monomer content limit changes. Other amendments are clerical in nature.</p>	<b>NOE</b>	
2011068172	<p>Parking Lot Improvements</p> <p>Parks and Recreation, Department of --Butte</p> <p>Improve the existing parking lot and pathways at Bidwell Mansion State Historic Park to increase public safety improve the aesthetics of the entrance and parking lot; comply with the Americans with Disabilities Act (ADA) and meet requirements in the "California State Parks Accessibility Guidelines".</p>	<b>NOE</b>	
2011068173	<p>Hyperlight Low-Cost Solar Thermal Technology</p> <p>Energy Commission Bakersfield--</p> <p>The specific objectives of the project are to:</p> <ol style="list-style-type: none"> <li>1. Increase the geometric concentration ratio (the ratio of a solar collector aperture area to the absorber area) achieved with the Hyperlight reflector system from its current value of 17x to 70x.</li> <li>2. Improve the annual average thermal efficiency of the system from its current approximate value of 17% to 30%.</li> <li>3. Improve evaporative loss performance of the cooling system from its current value of more than 70% below open pond evaporation rate to more than 90% below open pond evaporation rate.</li> <li>4. Validate existing dry cooling models for their system to within 25% for kWh heat removed per kWh of air blower power used.</li> </ol>	<b>NOE</b>

<b><u>Documents Received on Wednesday, June 22, 2011</u></b>			
2011068174	California Landfill-Based Solar Projects Energy Commission Walnut--Los Angeles The goal of the proposed project is to determine whether placement of a self-ballasting PV solar racking system will have an effect on the performance of a closed landfill's cap. The effects on landfill settlement and power generation performance will be measured via a closely monitored series pilot experiment wherein single racks with PV modules will be placed in the field at a number of locations on a landfill cap. The information can be applied to permitting future PV systems on landfills. There are about 35,000 acres of landfill sites in the state that would be suitable for PV development.	<b>NOE</b>	
2011068175	Anaheim Smart Grid Enhancement Project Energy Commission Anaheim--Orange The City of Anaheim, as part of its ARRA funded Advanced Metering Infrastructure (AMI) project and in order to achieve customer manageability of their electricity use and cost, will deploy smart meters using a combination of matching city, federal and PIER funds. Smart metering has the potential to assist customers and City of Anaheim in improving the balance of energy supply and demand during summer during summer months when supplies are low, energy prices are high and demand is the greatest. This will also be done trough time of use (TOU) electric rates and rates that rise during peak demand hours to encourage conservation via a price signal communication.	<b>NOE</b>	
2011068178	Riparian Restoration for Salmonid Recovery on Sonoma Creek Fish & Game #3 --Sonoma Installation of willow revetments to control erosion. Installation and design will follow protocols found in the California Department of Fish and Game Salmonid Restoration Manual. Issuance of a Streambed Alteration Agreement Number 1600-2011-0142-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011068179	Capistrano Valley High School Exemption Capistrano Unified School District Mission Viejo--Orange Capistrano Unified School District (District) is proposing to perform the following minor modifications to the existing Capistrano Valley High School (CVHS) campus in conjunction with the approved new performing arts center (PAC) construction (State Clearinghouse Number 2009081058): " Relocation of two existing portable classroom buildings from near the east parking lot to a location next to the existing tennis courts (north of and adjacent to an existing portable classroom west of the tennis courts). The relocation would allow a better route for the service vehicles and create a better grade for the path to the athletic fields in compliance with the Americans with Disabilities Act. The relocation would also eliminate the need to demolish the existing outdoor eating plaza. " Placement of a new portable classroom next to an existing portable classroom north of the tennis courts. " Temporary closure of the existing restrooms adjoined to the 2-story modular classroom building next to the future PAC. The closure would provide improved site accessibility during the PAC construction. Additionally, a temporary 12-foot by 20-foot portable restroom building would be provided in the adjacent plaza area. " Reconfiguration of the existing soccer field.	<b>NOE</b>

1998111030	Groundwater Replenishment System and Modified Phase II Expansion Project Addendum Orange County Water District Fountain Valley--Orange The project will expand the AWPf to accommodate more flow from the Orange County Sanitation District Wastewater Treatment Plant 1, equalize flows in the AWPf to maximize operation capability, recharge the groundwater Basin, and augment the existing seawater intrusion barrier. The project consists of 1) expanding the AWPf capacity to 100 million gallons per day and adding ~31,000 acre-feet per year of treated recycled water to the Orange County groundwater basin, 2) constructing additional microfiltration, reverse osmosis, ultraviolet disinfection and post-treatment facilities, 3) installing two 7.5 million gallon storage tanks, 4) demolishing an existing laboratory building, and 5) installing additional pumps.	<b>NOD</b>	
2002042111	Mountain Air Sports Rafting Permit (PRFT 20110054) Placer County --Placer Project proposes renewal of their existing conditional use permit in order to continue operation of their commercial river raft rentals along the Truckee River.	<b>NOD</b>	
2005042073	Bruce Road Tentative Subdivision Map (S 04-04) Chico, City of Chico--Butte The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2011-0052-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, M.B.D. Inc.  The project is limited excavation of a temporary ditch within the north bank on Little Chico Creek to allow for the installation of a stormwater outfall structure. The ditch will be constructed while the creek is dry or at very low flows to avoid work within the wetted area of the streambed. All work is proposed to be conducted within the road right-of-way to minimize disturbance of any riparian vegetation present in the area.	<b>NOD</b>	
2006021033	Joint Point of Entry Caltrans #8 Barstow--San Bernardino This proposed project involves construction of a Joint Port of Entry station to provide for Agricultural Inspection Facility and a Commercial Vehicle Enforcement Facility for traffic along Interstate 15 coming from Nevada into California. The project will result in impacts to 133 acres of desert tortoise ( <i>Gopherus agassizii</i> ) habitat; the project will permanently remove 133 acres of desert tortoise habitat. The project is expected to result in incidental take of desert tortoise, which is/are designated as a threatened species under the California Endangered Species Act. The ITP referenced above as issued by DFG authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>

2009111072	<p>EVWD Eastwood Farms Community Water Users, Water System Improvement Project East Valley Water District Highland--San Bernardino Eastwood Farms Mutual Water Company (MWC) plans to consolidate their 80 service connections into the East Valley Water District (EVWD). EVWD currently serves ~68,000 people through 21,827 service connections in San Bernardino County. Two water supply wells currently serving Eastwood Farms MWC have collapsed and has no sources other than an emergency intertie with EVWD. The planned consolidated and distribution system upgrade consists of installing 3,372 feet of 12" ductile iron pipe, 2,145 feet of 8" ductile iron pipe, 22 fire hydrants, and other related appurtenances. The project should eliminate Eastwood Farms MWC's source capacity problem and bring their distribution system up to current standards.</p>	<b>NOD</b>	
2010062077	<p>Las Tres Marias Estates 2004-138 Calaveras County --Calaveras The Proposed Project consists of three components: 1. A General Plan Amendment to change the land use designation of 104.49 acres (AON 048-017-098, APN 048-017-103 and a portion of APN 048-017-112) from Natural Resource Land - Agriculture Preserve (NRL-AP) to Future Single Family Residential (FSFR). The remaining portion of APN 048-017-112, approximately 4.27 acres, would be changed from Agriculture Preserve (AP) to Residential Center (RC). 2. A Zoning Amendment to change the zoning designation of 104.49 acres (APN 048-017-098, APN 048-017-103 and a portion of APN 048-017-112) from General Agriculture (A-1) to Residential Agriculture (RA). 3. A Tentative Subdivision Tract Map (TSTM) to divide the 104.49 acres into 15 residential lots, with a minimum 5-acre parcel size. Thirteen of the lots would be between 5.0 and 5.74 acres, one lot would be 9.0 acres, and the largest and most northerly lot would encompass 26.57 acres, including an existing pond that would be preserved. The subdivision has been designed to preserve open space corridors that may serve as overland migration routes for the federally threatened California tiger salamander (CTS) (<i>Ambystoma californiense</i>).</p>	<b>NOD</b>	
2011022042	<p>Amendment to Oakland Zoo Master Plan Oakland, City of Oakland--Alameda Amendment to the previously approved 1998 Master Plan for the Oakland Zoo to, among other changes, modify and reduce the expansion area for the new California exhibit from ~62 acres to ~56 acres, replace the previously approved loop road and shuttle bus system with an electric aerial gondola system, replace the existing veterinary hospital with a new Veterinary Medical Hospital, establish a new overnight camping area near the new California exhibit, and establish the specific location of the proposed perimeter fence with modification from the previously approved general location.</p>	<b>NOD</b>

	and fill of 10,100 cubic yards of material.		
2011061070	Silvas Adobe Restoration San Juan Capistrano, City of San Juan Capistrano--Orange A request for approval of the repair and seismic retrofit of the historic Silvas Adobe's un-reinforced one-room adobe dating to 1794 with a circa 1868 wood-frame board and batten addition, and restoration of the Adobe to its circa 1871 appearance in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Restoration.	<b>MND</b>	07/25/2011
2011061071	Mettler Groundwater Protection Project Mettler County Water District --Kern The Project includes replacement of existing individual septic systems, with a wastewater collection, treatment and disposal facility for the community of Mettler. Construction of these facilities include: wastewater collection system in Mettler Streets, treatment of the wastewater at a plant located on the north half of the Districts "old cotton gin" property, storage of treated water in two 3/4 acre ponds and disposal of the recycled water onto 5 acre of alfalfa at the northern end of the property. The developed properties' septic systems will be destroyed and the properties connected to the new sewer system.	<b>MND</b>	07/25/2011
2011061073	Linda Valley Care Center Expansion Project Loma Linda, City of Loma Linda--San Bernardino Chancellor Health Care is proposing to expand the existing Linda Valley Care Center, a 83-bed skilled nursing facility within one phase and on the property of the existing facility. A Parcel Map, as part of the Proposed Project, will be filed to create one parcel totaling three acres (merging Lot 18; APN: 0284-142-06 with Lot 19, APN 0284-142-29). The project would also include GPA, Zone Change, and a Precise Plan of Design for the construction of a 46-unit (53-bed) assisted living residence with a designated secured memory care unit for up to 28 residents on the 0.98-acre parcel. The two-story, 34,308 sq. ft. assisted living residence would generate an estimated 30 new jobs. The proposed GPA would change the existing land use designation on Lot 18; APN: 0284-142-06 from High Density Residential to Institutional, and the proposed zone change would change the existing zoning on Lot 18, APN: 0284-142-06 from Multiple-Family (R-3) to Institutional to allow for the operation of an assisted living residence. This Project would be classified as an infill; however because of the proposed GPA the City has determined that the Project is subject to CEQA review.	<b>MND</b>	07/25/2011
2011062063	East Trunk Sewer Replacement Project Thermalito Water and Sewer District Oroville--Butte Specifically, the Thermalito Water and Sewer District is proposing to replace the existing East Trunk sewer line in Butte County, CA. The purpose of the project is to address and meet existing capacity deficiencies caused by 1) infiltration and inflow, 2) unplanned connections from the County of Butte's Government Center and 3) unplanned increases in flows from past land use approvals that allowed higher land use densities within the City of Oroville.  The proposed East Trunk replacement line project will consist of placing a new trunk line tandem to the existing sanitary sewer collection system where feasible,	<b>MND</b>	07/25/2011

	to top plates and structural strong back; " Replace "in-kind" frieze blocks to fit between rafters and secure with fasteners, rough sawn 1" X 12" roof underlayment and cedar shingles to cover 160' squared area, 5/8" plywood and trims at utility room, spackle, prime, and paint and; " Stain and seal new exposed framing members to match historic dark finish.		
2011068190	Blair General Plan Amendment & Zone Reclassification Humboldt County --Humboldt The project proposes to: (1) change the designation of the parcel from Tiber Production (T) and Agricultural Land (AL) to Agricultural Rural 5-20 (AR 5-20); (2) amend Section 4600, Solid Waste Collection Disposal, of the Freshwater Community Plan to delete Policy 4611.1 that imposed a residential density restriction of one dwelling per 20 acres for properties bordering the non-closed Cummings Road landfill; and (3) change the zone from Timberland Production Zone (TPZ) to Agricultural General with a Building Site Combining Zone establishing a 5-acre minimum parcel size (AG-B-5(5)). The change in zoning from TPZ is through a 10-year non-renewal and the lands will be restricted by the TPZ zone until completion of the slide-out. The parcel is developed with a single-family residence sewage by community water and an on-site sewage disposal system.	<b>NOE</b>	
2011068191	Hainaut General Plan Amendment & Zone Reclassification Humboldt County --Humboldt A General Plan Amendment (GPA) and Zone Reclassification (Rezone) application for an approximate acre parcel in the Fruitland area. The project proposes to: (1) change the designation of the parcel from Timber Production (T) Agricultural Rural with a density of one dwelling per 20 acres (AR20); and (2) change the zone from Timberland Production Zone (TPZ) into Rural Residential Agriculture (RA-20). The change in zoning from TPZ is through a 10-year non-renewal, and the lands will be restricted by TPZ until completion of the slide-out. The parcel is developed with three dwellings served by on-site water and sewage disposal system; the northern portion of the property is timbered.	<b>NOE</b>	
2011068192	Temporary Emergency Permit for Treatment by Burning, San Diego County Sheriff's Department Toxic Substances Control, Department of --San Diego Department of Toxic Substances Control (DTSC) has issued an emergency permit to the San Diego County Sheriff's Departments to treat hazardous waste by burning. The hazardous waste to be treated consists of fireworks, frequently manufactured in other countries, and seized by U.S. Customs or local fire or law enforcement agencies. The confiscated items are illegal for sale in California. Currently the Sheriff's Department is holding less than 100 pounds of illegal fireworks for treatment, however, confiscation and treatment of fireworks will continue during the effective period of the permit. The emergency permit is effective from June 29, 2011 through September 26, 2011. Treatment will be scheduled depending on weather, logistics, and availability of personnel. The treatment activities will be conducted by qualified personnel from the Sheriff's Department, federal agencies, San Diego Fire Department Bomb Squad, and/or other local emergency response agencies. As the Sheriff's Department does not have a permit for treatment of hazardous waste, DTSC has determined that an emergency permit should be issued. The fireworks are potential safety hazard and present an unacceptable risk to people	<b>NOE</b>

2011068197	<p>Approval of Class 1* Permit Modification - Land Ownership Change for Real Property Under Siemens Water Technologies Corporation's Vernon Facility Toxic Substances Control, Department of Vernon--Los Angeles</p> <p>The Department of Toxic Substances Control (DTSC) is approving a request for a Class 1* (prior DTSC approval required) Permit Modification to change the land ownership of the real property underneath a hazardous waste facility, pursuant to California Code of Regulations, title 22, section 66270.42.</p> <p>DTSC issued a Hazardous Waste Facility Permit (Permit) in 1996 for the Siemens Water Technologies Corporation (Facility) located at 5375 South Boyle Avenue, City of Vernon, Los Angeles County, California. The Permit authorizes Siemens to own and operate a hazardous waste treatment and storage facility on property leased from the real property owners. On or about April 6, 2010, the former real property owner, TriMas Corporation, sold the property to AMB Vernon Industrial Park Limited Liability Corporation (AMB)(LLC). AMB will continue to lease the property to Siemens without any changes to or influences on the operation of the hazardous waste facility.</p> <p>DTSC approved the modification of the Permit to reflect the change in real property ownership. Pursuant to Chapter 6.5 of the Health and Safety Code, DTSC reissued the Hazardous Waste Facility Permit to Siemens with the revisions.</p>	<b>NOE</b>

2011-06	Joseph Castaneda, a Member of the Morongo Band of Mission Indians APN: 514-180-007-0 Bureau of Indian Affairs --Riverside The property is vacant and has remnants of previous structures including a cement foundation, old sheds, fencing, and gates and will continue to be utilize as such. There is no planned change in land use. Mr. Castaneda wishes to bring the property back into trust status for the purpose of Housing (current residence) and consolidation, and protection of the unique Indian land status and insure its integration back into the larger Reservations land base. APN: 514-180-007-0; ~5 acres	<b>BIA</b>	07/26/2011
2009054005	Disposal and Reuse of Onizuka AF6, CA U.S. Air Force Sunnyvale--Santa Clara NOTE: Review Per Lead  The Proposed Action is to demolish ~558,000 sf of existing building space and construct ~243,000 sf of office space. The Veterans Administration will occupy about 57,000 sf of existing building space on the property.	<b>FIN</b>	
2011061078	5th Street Widening and Improvement Project Highland, City of Highland, San Bernardino--San Bernardino The proposed project would consist of the widening and improvement of a 3.0-mile segment of 5th Street from SR-210 to Del Rosa Drive, and a 0.25 mile segment of Del Rosa Drive from 5th Street to 3rd Street, as well as constructing a tie-back wall at the SR-210/5th Street interchange, in the cities of Highland and San Bernardino in the County of San Bernardino. The proposed alignment begins at the SR-210 and continues easterly to Del Rosa Drive, in the cities of Highland and San Bernardino.	<b>MND</b>	07/26/2011
2011061079	Transit Station Expansion Project Grover Beach, City of Grover Beach--San Luis Obispo The proposed project would be constructed in two phases. Phase 1 would be developed by the City of Grover Beach which is proposing to expand the existing Amtrak train station to incorporate bus passenger loading/unloading areas and provide pedestrian and bicycle connections, creating a multi-modal transit center. The project does not include new bus or transit trips. The project would be carried out in two phases (refer to Figure 3). Phase 1 of the project would occur on approximately 1.3 acres of land in the northern portion of the site. Phase 1 would include the construction of an approximately 400 sq. ft. bus shelter and loading/unloading zone with platform access, additional parking (approximately 40 spaces), roundabout entry statement, and drought-tolerant landscaping. In addition, a pedestrian/bicycle path would be constructed that would connect to the existing 232-sapce Coastal Dunes RV Park to the intersection of Hwy 1 and West Grand Avenue Phase 2 of the project would be developed by San Luis Obispo County Parks and Recreation Department. The proposed project would provide an additional vehicle entrance to the Coastal Dunes Recreational Vehicle (RV) Park that is operated by San Luis Obispo County. Additional improvements would include a one-way driveway and a 400 sq. ft. entry kiosk and office. A future RV Park expansion area / campground could also be developed adjacent to the entry driveway.	<b>MND</b>	07/26/2011

<b><u>Documents Received on Monday, June 27, 2011</u></b>			
2011061076	Imperial Hardware Building Case Number P10-0178 Riverside, City of Riverside--Riverside The proposed project involves a four-story building planned to include a total of 140,000 sf ~25,000 sf of retail/restaurant use will be provided at ground level, oriented toward Main Street. An additional 115,000 sf of office will be provided above the retail/restaurant uses. Four (4) levels of underground parking totaling 320 spaces.	<b>NOP</b>	07/26/2011
2011061077	Whitney Mixed Use San Diego, City of San Diego--San Diego Coastal Development Permit, Site Development Permit and Tentative Map Waiver to demolish a one-story single family residential unit and a one-story commercial structure in order to construct a new three-story, 8950 square foot mixed use building with underground parking. The site is located at 2202 and 2206 Avenida de la Playa in La Jolla (APN Nos. 346-285-01 and 02; Lots 14 and 15, Block 11 of La Jolla Shore Unit No. 1, Map No. 1913). The new building would include two residential condominium units on a .09 acre site.	<b>NOP</b>	07/26/2011
2011061075	Revisions to the San Benito County Growth Management Ordinance and PRGI Ordinance San Benito County Hollister--San Benito This item is for the removal of the San Benito County Growth Management Ordinance (Chapter 21.07 of the San Benito County Code) and to amend the San Benito County General Plan and Specific Plan Local Procedures (Chapter 19.29 of the San Benito County Code) by removing section 19.29.005, which is entitled: "General Plan Amendment Allowing a Potential Residential Growth Increase." Both items are local procedures specific to San Benito County and would not conflict with State law. Removal of these processes would still allow applicants to undergo the required application processes for development, prepare the necessary environmental work as required by CEQA and have their proposals considered for approval or denial through the public setting. Lastly, the Ordinance revisions would also include the amendment of the San Benito County Code to compliment state law by inserting text that states each General Plan Element can be amended no more frequently than four times per year.	<b>Neg</b>	07/26/2011
2011061080	Hollister Airport Land Use Compatibility Plan San Benito County Hollister--San Benito The San Benito County Airport Land Use Commission has prepared an Airport Land Use Compatibility Plan for the Hollister Municipal Airport to replace an earlier plan - Hollister Municipal Airport Comprehensive Land Use Plan - adopted by the Commission in October 2001. The proposed Compatibility Plan has been prepared in accordance with the requirements of the CA State Aeronautics Act (Public Utilities Code Sections 21670 et seq.). Preparation of the plan was guided by the CA Airport Land Use Planning Handbook published by the CA Division of Aeronautics, as required by state law (Public utilities Code Section: 21675.7).	<b>Neg</b>	07/26/2011

<b><u>Documents Received on Monday, June 27, 2011</u></b>			
2011042067	Laird Family Vineyard - Vineyard Conversion #P10-00224-ECPA Napa County American Canyon--Napa Note: Response to Comment  The project includes the conversion of non-native grassland to 42.6 acres consists of 4.0 acres planted without the benefit of an erosion control plan, the replant of 12.7 acres of existing vineyard planted without the benefit of an approved Track II erosion control plan, and then redevelopment of 3.1 acres of existing vineyard planted prior to 1993, and the development of 22.8 acres of new infill vineyard within existing blocks within a 354.95-acre parcel. The project proposes the maintenance of existing and proposed erosion control measures within six vineyard blocks with topography ranging from gently to moderately sloping (slopes typically 2% to 27%) non-native grassland at elevations between approximately 160 and 265 feet above mean sea level.	Oth	
1994071005	Extension of Tustin Ranch Road Tustin, City of Tustin--Orange The project involves constructing a grade separation and 403-foot concrete bridge as part of the extension of Tustin Ranch Road from its current terminus at Walnut Avenue. To construct piers for the new bridge, excavation will occur within the Santa Ana/Santa Fe Channel for footings, and footings will be excavated and backfilled to pre-project elevations. A temporary pipeline consisting of a 9-inch diameter corrugated metal pipe will be used to divert flowing water around the worksite.	NOD	
1998101061	Lower Mission Creek Flood Control Santa Barbara, City of Santa Barbara--Santa Barbara The project is designed as a restoration project, and to increase the flood capacity to a 20 year event level by redesigning the banks from a concrete trapezoidal shape to vertical concrete walls for the lower half, and sloped ungrouted rock rip-rap upper banks at a 1:5.1 slope, with native plantings for the upper half of the banks. This will increase the capacity to 3,400 cfs. The final configuration will have a width range from 60 to 70 feet at the top, and an average depth of 8 to 12 feet throughout the project site.	NOD	
2004062018	Realignment and Widening Caltrans #4 Livermore--Alameda The DFG approval that is the subject of this notice is a Minor Amendment to a CESA ITP previously issued to the Caltrans for the Sweet Ranch Mitigation Project in Alameda County, CA. (Cal. Code Regs., tit. 14, S 783.6, subd. (c)(4).) The Minor Amendment as issued by DFG, makes minor modifications to certain portions of the project description and related conditions in the original ITP, an authorization permitting the incidental take of CA tiger salamander ( <i>Ambystoma californiense</i> ), a species designated as threatened under CESA. The Minor Amendment does not increase the amount of take as originally authorized, nor will it increase other project impacts on the species.	NOD

	Avenue, City of Rialto, State of CA, 92376, Phone (909) 421-7240. The Pepper Avenue Extension Project is limited is limited to the extension of Pepper Avenue from its current northern terminus located south of Lytle Creek Wash north to the Caltrans right-of-way at Highway 210.		
2011012048	Crosby General Plan Amendment/Zone Reclassification/Parcel Map Subdivision Humboldt County --Humboldt A General Plan Amendment (GPA), Zone Reclassification (Rezone) and Parcel Map Subdivision (PMS) application. The GPA proposes to change the designation from Grazing, Crops and Open Areas to Agricultural Rural 5-20. The rezone proposes to change the zoning from Unclassified to Agricultural General with a Special Building Site combining zone specifying a 5-acre minimum parcel size. Both the GPA and rezone will facilitate a subdivision of the 10.9 acres into parcels 1 and 2 of approximately 5.9 and 5 acres, respectively. The subdivision will site the existing residence onto parcel 1. Both parcels will be served by community water and on-site sewage disposal systems, and accessed from State Hwy 96. The applicant has secured from Cal Fire an exception to County Fire Safe Standards for road width requirements.	<b>NOD</b>	
2011042028	Temporary Winter Closure, Usal Road, CR 431, M.P. 6.26 to M.P. 24.30 Mendocino County --Mendocino Proposed project will prohibit vehicle use of a portion of Usal Road CR 431, yearly during the winter months, typically from November 15th through April 15th. Actual closure date will be determined by the County Road Commissioner based upon seasonal conditions. The road will be closed to vehicular traffic by installing one locking gate across the road at each end of a segment of Usal Road. The road closure would block off approximately 18 miles of Usal Road between the Four Corners intersection and Hotel Gulch.	<b>NOD</b>	
2011042095	Coastal Prairie Trail Sonoma County --Sonoma The Coastal Prairie Trail will be a Class 1 bike path, as defined by the Caltrans Highway Design Manual and will provide equitable access for all modes of trail use, including bicycle, pedestrian, and equestrian. The Trail: The Coastal Prairie Trail will be approximately 1.0 miles in length and 12-foot wide. The trail width includes an 8-foot wide trail with rock aggregate shoulders along each side of the trail.	<b>NOD</b>	
2011042105	Golden Shiloh Equestrian Facility Santa Clara County San Jose--Santa Clara This application is for a Grading permit to construct a private 40,000 sq. ft. horse arena with several horse jump berms, 40,000 sq. ft. flood zone burrow area, and to legalize an existing 1,200 sq. ft. horse shelter (covered corral) and associated new 12' wide access road with emergency access turnaround to the horse corral. The proposed project includes approximately 1,410 cubic yards of cut and 1,410 cubic yards of fill. No trees will be removed. All existing and new improvements are more than 100 ft. away from top of bank of Arroyo Calero Creek located on-site.	<b>NOD</b>

2011068203	Midcoast Culvert Replacement Project Fish & Game #3 Unincorporated--San Mateo The Project is limited to replacement of five deteriorated culverts and repair of an eroded creek bank. The existing corrugated metal pipes will be removed and replaced with smooth interior plastic pipes. The trench dimensions vary with each culvert and each trench will be backfilled, compacted and resurfaced. New concrete headwalls will be constructed at the inlets. If a project site has water in the creek, a sandbag cofferdam will be constructed upstream, and a clean water bypass will be installed to divert flow around it. The bank repair will include construction of a small rock revetment. Issuance of a Streambed Alteration Agreement No. 1600-2011-0055-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011068204	Pigeon Point Road Maintenance Project Fish & Game #3 Unincorporated--San Mateo The Project is limited to the replacement of a deteriorated corrugated metal pipe culvert with a smooth interior plastic pipe and sediment removal from the drainages. The existing culvert will be excavated and disposed of at an appropriate facility. The trench will be backfilled, compacted and resurfaced. A concrete headwall will be constructed at the culvert inlet. Approximately 10 cubic yards of sediment will be removed using an excavator or backhoe and transported to an off-site County facility. The culvert will be flushed during the excavation process to remove accumulated sediment within the pipe. Water and sediment from the flushing activities will be vacuumed or properly filtered. All heavy equipment will be operated from the roadway. Issuance of a Streambed Alteration Agreement No. 1600-2011-0042-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011068205	Roquena Drive Culvert Replacement Project Fish & Game #3 --San Mateo The Project is limited to the replacement of an existing culvert pipe and concrete box structure under the existing road bed of Roquena Drive with a new 10-foot diameter galvanized steel multi-plate arch culvert with a concrete bottom. The streamflow in Woodhams Creek will be diverted around the construction area utilizing a temporary 12 inch culvert. All work will occur within the built environment of the roadbed around the existing concrete culvert box. Issuance of a Streambed Alteration Agreement Number 1600-2011-0067-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011068206	Agreement 2011-0042-R4 - PG&E Strawberry Dam Gauging Weir Project Fish & Game #4 --Tuolumne Installation of a new concrete gauging weir for Federal Energy Regulatory Commission (FERC) re-licensing of the Spring Gap-Stanislaus Hydroelectric Project (FERC #2130). An area approximately 20 feet wide by 30 feet long will be excavated for the weir, and an area approximately 6 feet wide by 60 feet long will be excavated for the weir wing-walls. A total of approximately 25-cubic yards of substrate will be excavated. Water will be temporarily diverted around the weir construction site.	<b>NOE</b>

2011068208	Silvaspoons - Mingo Ranch Road Fish & Game #2 Galt--Sacramento The project consists of planting vegetation along the tops of the banks on a portion of the re-aligned creek. The planted plants and trees shall be native plants known to occur naturally in the habitat type present at the site, such as but not limited to, sedges, rushes interior live oak, blue oak, willow, cottonwood, alder, button-willow, CA rose, and elderberry.	<b>NOE</b>	
2011068209	Stockton East Water District Routine Maintenance Agreement (1600-2009-0218-R2) Fish & Game #2 Stockton--San Joaquin, Calaveras, Stanislaus The project is limited to various routine maintenance activities including debris or obstruction removal, silt, sand and sediment removal, vegetation control, repair of previous erosion control work, and minor erosion control work.	<b>NOE</b>	
2011068210	Monte Rio Recreation and Park District Seasonal Public Beach Grooming Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma Installation of a temporary panelized boardwalk; filling of a seasonal drainage erosion gully approximately four feet wide, four feet deep and 200 feet long, not to exceed 0.1 acres; Smoothing of parking area above the beach area and ordinary high water level, placement of a berm, boulders or other barrier, and application of a non-toxic dust suppressant to parking area. No grading work will take place within the wetted perimeter of the Russian River. No mass grading of the beach area is allowed, nor removal of any aggregate.	<b>NOE</b>	
2011068211	Modoc Recreation Estates Forestry and Fire Protection, Department of Alturas--Modoc This is a fuel reduction project designed to be carried out within 240 acres of variable density, Juniper, grass and sagebrush covered roadsides within a subdivision. The areas identified for treatment will total 180 acres. The project will utilize hand crews to treat ladder and surface fuels within the project area along subdivision roads (100 feet each side from the centerline of the road). The resulting cut material will be chipped. Juniper trees less than 8 inches Diameter Breast Height (DBH) will be harvested by hand and chipped where necessary. No mature over-story juniper trees will be removed. Trees retained will be pruned to 6 to 8 feet in height or one-third of the healthy, live crown, whichever is less. Existing shrubs vegetation will be treated at this time along with the juniper and the material will be blown back on site as chips not to exceed 3 inches maximum depth to allow for re-sprout and germination. No burning will occur on this project. All vehicles and equipment must remain on existing roads.	<b>NOE</b>

2011064011	Proposed Geotechnical Drilling Program Bureau of Indian Affairs --Imperial Note: Review per lead  The proposed drilling program would consist of up to 200 borings within Section 20 and 30 on the Torres Martinez Indian reservation and Section 19 and 29 (fee lands subject to a CUP by Imperial County, March 2011), Township 9 South, Range 9 East, SBBM. in conjunction with the drilling program, no new roads would be developed, merely, the cleanup of existing roads.	EA	07/29/2011
2007092084	Lower Berryessa Creek Project Santa Clara Valley Water District Milpitas--Santa Clara The Santa Clara Valley Water District is the primary water resources agency for Santa Clara County. The District serves as the County's water wholesaler and provides stream stewardship and flood protection for Santa Clara Valley residents, businesses, and transportation networks. As such, the District is charged with local flood protection in the 322 square mile Coyote Watershed, the largest of the County's five watersheds. This watershed extends from the urbanized valley floor upward to the vast natural area of the Diablo Range. Sixteen major creeks drain the Coyote Watershed, including Coyote Creek as its main waterway and the creeks associated with the proposed Lower Berryessa Creek Program: Lower Berryessa Creek, Calera Creek, Tularcitos Creek, and Lower Penitencia Creek.  The District is proposing flood control improvements that would result in the containment of the flow in the channel with adequate freeboard requirements in Lower Berryessa, Calera, Tularcitos, and Lower Penitencia creeks. The Program would include the construction of flood protection related elements to be implemented on the four creeks identified above. The Program is divided by geography, and implementation sequence, into six program elements. These elements are further divided by treatment type into 15 stream reaches.	EIR	08/11/2011
2011061081	ENV-2011-1371-MND / 3829, 3833-3837 S. Dunn Drive Los Angeles, City of --Los Angeles A Vesting Tentative Tract Map for a one-lot subdivision for a five-story, 23-unit residential condominium with 64 parking spaces. The project site is a 0.37 net acre (16,000.3 net s.f.) site in the R4-1 Zone. As proposed, the project requires a Zoning Administrator's Adjustment to permit a Floor Area Ratio (FAR) of 3.59:1 in lieu of the permitted 3:1 in Height District 1.	MND	07/27/2011
2011061082	Gambril House San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project consists of a single-family home on a sensitive site in the Low-Density Residential (R-1) zoning district. The structure is anticipated to be two stories in height, and the habitable area will be 2,123 s.f., two-car garage. An attached 303 s.f. covered front porch is proposed along the north and west side of	MND	07/27/2011

	<p>the house and a 312 s.f. back porch will be located on the south side of the house. The applicant is requesting approval of a 10-foot street yard setback and creek setback exceptions. The location of the creek corridor limits the development potential of the site; therefore, a 10-foot street yard setback exception is proposed to locate the house as close to Serrano Drive as possible. Portions of the back porch and the southwest corner of the garage are within the creek setback; therefore, a creek setback exception has also been requested.</p>		
2011061083	<p>Highgrove Gas Station Remediation &amp; Demolition Project Riverside County Redevelopment Agency --Riverside</p>	<b>MND</b>	07/27/2011
	<p>The Project consists of the demolition of a potentially hazardous structure and remediation of contaminated soils and/or groundwater. The Project site is currently comprised of a former gas station (demolished in 2010) and existing liquor store. The gas station once had up to four USTs that were removed in 1998. Due to the presence of the toxins found in soil, the Project site requires soil remediation and groundwater monitoring. Due to the age of structures on project site, there is potential for ACM and/or LBP to be present. There is no known development planned at this time. However, any such development would be subject to subsequent CEQA documentation. Remediation is expected to commence in late 2011/early 2012 and will last up to three years.</p>		
2011061084	<p>Big Canyon Subdivision Newport Beach, City of Newport Beach--Orange</p>	<b>MND</b>	07/27/2011
	<p>The City of Newport Beach has completed a subsequent initial study and mitigated negative declaration for the Big Canyon Subdivision project. MND No. ND2010-006 was approved for General Plan Amendment No. GP2007-008. Planned Community Text Amendment No. PD2007-008, and Parcel Map No. NP2007-029 (PA2007-210) to allow the creation of a new single-family residential parcel at 10 Big Canyon. The applicant proposes additional grading to raise the existing grade on the project site by 10 feet to improve the integrity of the currently wet alluvial soils and create a pad for future development of a single-family residence on the subject property within the PC-8 (Big Canyon Planned Community) Zoning District). Approximately 12,000 cubic yards of soil will be removed and spread over a 1.8 acre area on the northern portion of the subject property and across the Big Canyon Golf Course (1850 Jamboree Road) adjacent to the subject property to the northwest. An additional 7,000 cubic yards of soil will be exported to a spoils site located at the east end of the golf course adjacent to MacArthur, Boulevard (1850 Jamboree Road). Following removal of soil from the project site, 45,000 cubic yards of soil will be imported from the Orange County Sanitation District (10844 Ellis Avenue, Fountain Valley, CA) to replace unusable soil with "clean" imported fill and will raise the pad for subsequent development of the project site. Project grading is expected to occur over a 60-day period beginning in March of 2012 included in the grading project is the enclosure of 175 s.f. (0.004 acre) of the existing relict drainage feature into a single, 48-inch corrugated metal pipe to redirect the drainage feature on the Big Canyon Golf Course.</p>

2011062069	<p>Project 11-004 (Teichert Construction) Sutter County Community Services District --Sutter</p> <p>A Surface Mining Permit, Reclamation Plan, and Financial Assurance Cost Estimate for a borrow pit to remove approximately 720,000 cubic yards of material from a 96.7-acre property. The Lutz Borrow Site is located at the southeast corner of Keys Road and Natomas Road in Pleasant Grove. The property is currently used for farming and does not contain any structures. The property is bisected by Curry Creek and the south field is south of Curry Creek. The phasing refers to the amount of material and the timing of its removal rather than an actual location. The soil will be removed in two phases. Phase 1 will remove 350,000 cubic yards of material and be completed by December 2012. The material from Phase 1 will be used to reconstruct the Highline Ditch, an agricultural irrigation canal operated and maintained by the Natomas Central Mutual Water Company. Phase 2 will remove 370,000 cubic yards for future projects that require fill material and be completed in December 2016. The property is currently used agriculturally and will be reclaimed to an agricultural use.</p>	<b>MND</b>	07/27/2011
2011062071	<p>UP10-0005 Oro-Lake Congregation of Jehovah's Witnesses Butte County --Butte</p> <p>A proposal to construct a Kingdom Hall (religious sanctuary) of 9,317 sq. ft., and two 800 sq. ft. caretaker residences, on a 4.41 ~acre parcel located east of 10th Street, 1,200 feet north of the intersection of 10th Street and Orchardcrest Drive.</p>	<b>MND</b>	07/27/2011
2005051145	<p>Century City Center Los Angeles, City of Los Angeles, City of--Los Angeles Note: Subsequent NOP</p> <p>Century City Realty, LLC (Applicant) proposes to modify a project previously approved by the City of Los Angeles in 2006 which permitted the development of ~483 residential condominiums in two 47-story towers and one 12-story building for a total of ~1.3 million sf. The approved project included 1,208 parking spaces and 1.7 acres of open space. On November 29, 2006, the City Council certified an Environmental Impact Report (EIR No. 2004-6269-EIR) for the Approved Project. After the Approved project was approved, most of the previously existing structures on the project site were demolished. The development rights and Replacement Trips resulting from the demolition were recorded in a covenant. In its current condition, the Project site consists of disturbed land, asphalt, surface parking lots, and various remnant structures.</p>	<b>NOP</b>	07/27/2011
2011062068	<p>Moe's Stop San Jose, City of San Jose--Santa Clara</p> <p>The project consists of the application for a Conditional Use Permit to allow the demolition of an existing single family detached residence and the expansion of an existing gas and service station, consisting of the addition of three additional gas pumps and a canopy for the new pumping facility.</p>	<b>NOP</b>	07/27/2011

<b><u>Documents Received on Tuesday, June 28, 2011</u></b>			
2011061086	PC 10-69 - TTM 16754 Twentynine Palms, City of Twentynine Palms--San Bernardino A proposal to subdivide 11.82 ~acres into 23 lots, a 0.52 acre sewer treatment package plant, a 0.24 detention basin and 2.44 acres of open space.	<b>Neg</b>	07/29/2011
2011062070	Project 11-003 (Spangler) Sutter County Community Services District --Sutter A Use permit for a water sports school associated with an existing aquaculture pond. The activities would include water ski and wakeboard lessons, and boat driving/handling lessons. The application indicates the facility would utilize both a boat which would hold six students and a tow winch system consisting of three cable tows that would each handle eight students. A total of 30 students and 5 instructors could be on the 28-acre pond during each instructional session. Approximately six instructional sessions are planned per day.	<b>Neg</b>	07/27/2011
2005102102	Calaveras Dam Replacement Project San Francisco, City and County of Fremont, Milpitas--Alameda, Santa Clara The Calaveras Dam Replacement Project (CDRP) includes the replacement of the existing Calaveras dam with a new earth and rock-fill dam that will accommodate a public water supply reservoir of the same size as the original 1920s plans (96,850 Acre Feet) in order to meet Division of Safety of Dams (DSOD) requirements. When the replacement dam is completed, DSOD restrictions will be lifted and the original reservoir pool will be restored to the normal maximum water surface elevation of 756 feet. Construction will take approximately 4 years. The CDRP includes the following: a new dam and spillway, support buildings, haul roads, road improvements, staging, stockpile, borrow and disposal areas and power line upgrades. Project activities include grubbing and grading, demolition, excavation, blasting at borrow areas and within the dam footprint, and tree and vegetation removal. The CDRP will result in the permanent loss of 654 acres of habitat for the California tiger salamander ( <i>Ambystoma californiense</i> ) and 501.11 acres of habitat for the Alameda whipsnake ( <i>Masticophis lateralis euryxanthus</i> ).	<b>NOD</b>

<b><u>Documents Received on Wednesday, June 29, 2011</u></b>			
2002101066	Storm Drain Alternative Outlet Project for the Master Plan Improvement Phase II Dana Point, City of Dana Point--Orange The storm drain will be constructed under Camino Capistrano north of Palisades Drive, Coast Hwy, and terminate on the beach owned by the County of Orange. The storm drain will capture bluff top drainage and carry it to the Pacific Ocean. The project includes the construction of a diversion structure that will divert the dry season low-flows into an existing sanitary sewer system. However, flows that exceed the diversion structure capacity will by-pass the sewer system and discharge into the ocean as currently exists. The storm drain outlet will be installed west of Coast Hwy and the proposed diversion structure and Beach Road.	<b>NOD</b>	
2003061123	Lakeview Water Transfer Pipeline Orange County Water District Anaheim--Orange The project involves repair of two existing 7-foot wide by 7-foot wide reinforced Concrete Boxes (RCB) used to convey flows from Weir Pond 3 to Weir Pond 4, and the construction of a 600 concrete headwall around each opening of the RCB structures. Additionally, an existing 48-inch diameter pipe will be internally retrofitted with a supplemental structure (insertion of a sleeve within existing pipe) to regain the lost capacity of the existing structure, and the construction of a new 90-inch drain-tube to allow for the transfer of surface water from Weir Pond 3 to Weir Pond 4. The two existing 42-inch diameter drain-tubes connecting Weir Ponds 3 and 4 will be decommissioned and left in place.	<b>NOD</b>	
2004072114	Shell Martinez Marine Oil Terminal California State Lands Commission Martinez--Contra Costa Equilon Enterprises LLC, doing business as Shell Oil Products US, the applicant and operator of the Shell Terminal, proposes to continue existing operations of the Shell Terminal, located on tide and submerged state lands adjacent to Shell's Martinez Refinery on the south side of the Carquinez Strait, ~one-half mile west of the Benicia-Martinez Bridge in Contra Costa County, for a term of 30 years ending July 31, 2039.	<b>NOD</b>	
2005102102	Calaveras Dam Replacement Project San Francisco, City and County of Fremont, Milpitas--Alameda, Santa Clara The Calaveras Dam Replacement Project (CDRP) includes the replacement of the existing Calaveras dam with a new earth and rock-fill. The CDRP includes the following: a new dam and spillway, support buildings, haul roads, road improvements, staging, stockpile, borrow and disposal areas and power line upgrades. Project activities include grubbing and grading, demolition, excavation, blasting at borrow areas and within the dam footprint, and tree and vegetation removal. The CA DFG is executing a Lake and Streambed Alteration Agreement Number 1600-2010-0322-3 pursuant to Section 1602 of the Fish and Game Code to the Project Applicant, Daniel L. Wade/San Francisco Public Utilities Commission.	<b>NOD</b>

2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento Adoption of plans for annexation of mixed-use residential/commercial development on 3,500 acres. Development will include 1,533 acres of residential uses, 451 acres of commercial/industrial uses, 121 acres of parks, 1,053 acres of open space, school and municipal services facility. Entitlements approved on June 28, 2011 include approval of Specific Plan, and adoption of pre-zoning ordinance.	<b>NOD</b>	
2009011062	Crazy Horse Sanitary Landfill Closure Project Salinas Valley Solid Waste Authority Salinas--Monterey The CA DFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code for the Crazy Horse Sanitary Landfill Closure Project. The project will result in impacts to portions of two (2) perennial channels, two (2) freshwater ponds and associated seasonal wetland, and riparian habitat which the CA DFG has determined is subject to regulation pursuant to Fish and Game Code Section 1600 et seq.	<b>NOD</b>	
2009012070	Richardson Grove Operational Improvement Project Caltrans #1 --Humboldt A highway realignment/widening project to accommodate Surface Transportation Assistance Act (STAA) size trucks from post mile (PM) 1.11 to 2.20, in Humboldt County. The purpose of the proposed is to upgrade the above-referenced section of Hwy 101 by adjusting the current alignment to accommodate STAA trucks travel, and thereby removing the current restriction to STAA traffic. Caltrans proposes 1.07 acres of ground disturbing activities including: slope excavation; minor widening at various locations; culvert repair and replacement at five locations; and construction of a retaining wall.	<b>NOD</b>	
2010051030	Site M-4 Elementary School Project Fresno Unified School District Fresno--Fresno The RAW specifies removal action objectives, evaluates alternatives, and describes the preferred alternative proposed for cleanup of lead, organ chlorine pesticides (OCP), and waste motor oil in shallow soil at the site. The objective of the RAW is to mitigate potential risk to human health and the environment by reducing or eliminating future exposure to chlordane and dieldrin (chlorinated pesticides used for termite control), lead (from lead-based paint) and waste motor oil in shallow soil identified at several locations within the site. Major elements of the removal action include (1) excavation of ~2,525 cubic yards of contaminated soil; (2) transportation of 140 to 150 truckloads of contaminated soil to permitted waste facilities; and (3) backfilling the excavations with clean soil derived from on-site sources. As required by Health and Safety Code Section 253456.1 (e)(1), a 30-day public comment period for the RAW was held from May 18, 2011 through June 17, 2009. No public comments were received. DTSC approved the RAW as final on June 20, 2011.	<b>NOD</b>

2011069036	Emergency Repair Work of the Rincon Island Causeway to Facilities on California State Oil and Gas Lease No. PRC 1466.1 Coastal Commission --Ventura Project includes emergency repair work, such as reinforcing several causeway piles, of the Rincon Island 2,732-foot-long causeway to ensure the structural integrity and safety, and operation access to facilities on California State Oil and Gas Lease No. PRC 1466.1.	<b>NOD</b>	
2011062851	General Lease - Recreational Use California State Lands Commission --Placer Authorize issuance of a 20-year General Lease - Recreational Use, beginning October 1, 2010, for the continued use and maintenance of an existing pier, boat hoist, and one mooring buoy, and an existing open-sided boat house, sun deck with stairs, and one mooring buoy not previously authorized by the Commission.	<b>NOE</b>	
2011068224	Pipeline Rehabilitation P-1 San Diego, City of San Diego--San Diego This project proposes to rehabilitate approximately 43,030 LF of existing sewer main with trenchless technology. The project also includes: excavation to point repair 48 segments of existing main prior to rehabilitation; rehabilitation of 25 existing manholes (no excavation); repair of 7 manholes (no excavation); excavation to replace-in-place 16 existing sewer manholes; excavation to construct 46 new cleanouts (5-10 feet deep); and rehabilitation of existing sewer laterals (no excavation). Excavation will occur within previously disturbed and improved right -of-way. Excavation within easements will occur within previously disturbed soil. There shall be no disturbance of sensitive vegetation. The southernmost sections of Chollas Py and Salta Pl. And Boyce Ln. involve work immediately adjacent to the MHPA and would require conformance with the MHPA Land Use Adjacency Guidelines, specifically, construction will occur outside of the breeding season from between February and the end of September.	<b>NOE</b>	
2011068225	Pipeline Rehabilitation O-1 San Diego, City of San Diego--San Diego This project proposes to rehabilitate approximately 33,432 linear feet (6.33 miles) of existing 8-inch sewer pipeline using trenchless technology that includes constructing 17 manholes (MHs), and cleanouts and conducting 8 spot/point repairs. Some improvements would occur in ornamental landscape areas. No disturbance to native vegetation is proposed. In all instances, the project combined with related scope has been identified to occur in areas classified as "non-sensitive." Two methods of sewer main rehabilitation may be used for this project, both utilizing existing MHs and/or cleanouts. Both require access from two MHs and or a MH and cleanout for each pipe segment: 1) Cured in place pipe (CIPP) liner is pulled through the sewer main, cured used hot water or steam, and cut at both manholes; and 2) Ribloc (spiral) liner is pulled through the sewer main as plastic strips and then formed to a pipe to create a new pipeline, within the existing pipe. In areas where a secondary sewer MH/cleanout access is required, a new MH/cleanout shall be installed. Depth of new manholes, spot/point repairs would occur at a maximum depth of 4 feet from grade. The installation of the MH is a 5' W x 5' L area and cleanouts are 3'W x 3'L area. Internal and/or external point repairs may occur in portions of pipe that require repair (i.e. due to offset joints,	<b>NOE</b>

2011068229	Agreement 2011-0050-R4 - Bank Stabilization Fish & Game #4 --Madera Two (2) rock drops and one (1) rock filled trench will be constructed for bank stabilization and to prevent erosion. A total of approximately 100-cubic yards of substrate will be excavated to establish the proper grade for the structures. A total of approximately 100-cubic yards of rock will be used. Native riparian shrubs, trees, and oak trees will not be removed. Water will not be present during the proposed work period; therefore, water diversion will not be required.	<b>NOE</b>	
2011068230	Use Permit Application No. U-11-05 of Humberto & Teresa Gonzalez Solano County Vacaville--Solano For aggregate accessory structure square footage to exceed 2,500 square feet on property.	<b>NOE</b>	
2011068231	Gas Line 220 Robben Road Irrigation Ditch Maintenance Project Fish & Game #3 --Solano The project includes bank stabilization on the eastern bank of the Robben Road irrigation channel to repair bank erosion that has exposed a 20-foot segment of a buried 10-inch natural gas pipeline. A 20-foot by 55-foot grout mattress will be placed over the pipeline. Construction work will result in a total 20 cubic yards of fill below the top of bank. The top edge of the front mattress will be keyed-into the bank and the bottom edge will be keyed-into the channel bed. Water is not expected to be present within the channel during the work period. The project site will be accessed by vehicles and equipment via the paved road shoulder, private driveway or existing farm roads. Issuance of a Streambed Alteration Agreement Number 1600-2011-0096-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011068232	Public Lands Fuel Reduction Project Forestry and Fire Protection, Board of --San Bernardino This project will reduce fuel loading around the community of Crestline, CA. Two of the treatment areas house vital water treatment facilities as well as water basins. The remaining treatment area is designed to provide an extra fuel break surrounding Lake Gregory. All of these areas are surrounded by structures, small businesses and evacuation routes. The total area to be treated is 47 acres. The treatment areas have been identified by CAL FIRE, the Crestline Lake Arrowhead Water Agency (CLAWA), and County Parks as being in strategic locations to limit the spread of wildfire and protect watersheds. Vegetation in this project will be removed by hand crews using chainsaws. Brush/shrub species and small diameter trees will be removed to eliminate the horizontal and vertical continuity. Large mature trees will be retained and branches will be pruned to eliminate ladder fuels. Hazardous dead, dying and diseased trees will be removed	<b>NOE</b>

	for safety purposes. All heavy equipment will utilize existing roads. No prescribed fire is planned. All slash generated by this project will be chipped on-site away from existing watercourses and road surfaces. No new roads will be constructed. Healthy, scenic, mature trees will be retained. CAL FIRE Defensible space standards will be followed.		
2011068233	<p>Erosion Repair Along San Diego Pipeline Nos. 4 and 5 within the Santa Margarita Ecological Reserve Metropolitan Water District of Southern California --Riverside</p> <p>The Metropolitan Water District of Southern California (Metropolitan) proposes to repair a section of its patrol road along the San Diego Pipeline Nos. 4 and 5 within the Santa Margarita Ecological Reserve. The road, which is maintained by Metropolitan, is used by Metropolitan to access structures along the two pipelines and by Reserve staff to access monitoring equipment and other areas within the Reserve. The patrol road frequently erodes as a result of storm events, becoming impassable and requiring frequent repair. Metropolitan proposes to grade, fill, and install concrete and cement soil along a stretch of the existing patrol road north of the Santa Margarita River that is frequently damaged. Metropolitan will lay concrete along an approximately 340-foot stretch of road and will install cement treated base rock along an approximately 1,200-foot stretch of road. Metropolitan will also lay additional concrete on an already concreted portion of the patrol road to even out the road next to an existing aboveground structure. The project is adjacent to, but outside of the jurisdictional area of the Santa Margarita River.</p>	<b>NOE</b>	
2011068234	<p>California Transit Shelter Project - Phase 1 Tahoe Transportation District South Lake Tahoe--El Dorado</p> <p>The project proposes to construct 5 transit shelters at existing bus stops that serve the Blue GO transit system. The project will require minor grading, placement of paver stones, and installation of prefabricated structures similar to existing shelter types. The project is identified in both the environmental Improvement Program and Regional Transportation Plan and is intended to improve air and water quality.</p>	<b>NOE</b>	
2011068235	<p>Cliff House Demolition University of California Santa Barbara--Santa Barbara</p> <p>The proposed demolition of the Cliff House would include removal of a 2,939 square foot single story structure. 2011068363	Recreational Pier Lease California State Lands Commission Truckee--Nevada Authorize issuance of a 10-year Recreational Pier Lease, beginning March 27, 2010, for the continued use and maintenance of an existing boat dock.	<b>NOE</b>	
2011068364	Recreational Pier Lease California State Lands Commission South Lake Tahoe--El Dorado Authorize issuance of a 10-year Recreational Pier Lease, beginning June 16, 2010, for the continued use and maintenance of two mooring buoys.	<b>NOE</b>	
2011068365	SJVUAPCD Rule Development: Proposed Rule 2410 (Prevention of Significant Determination) San Joaquin Valley Air Pollution Control District --Fresno, Kern, Kings, Madera, Merced, San Joaquin, ... The purpose of proposed Rule 2410 (Prevention of Significant Deterioration) is to administer the Prevention of Significant Deterioration permitting program. The PSD program applies preconstruction review requirements from the federal Clean Air Act to pollutants for which the San Joaquin Valley is in attainment of the federal National Ambient Air Quality Standards. Currently, the Environmental Protection Agency, Region IX, administers the PSD program for major stationary sources in the District by reviewing applications, issuing PSD permits, and performing inspections. The proposed rule is based on existing federal requirements and does not meaningfully change the permitting requirements for major sources subject to PSD.	<b>NOE</b>	
2011068366	San Joaquin Valley Unified Air Pollution Control District Rule Development: Rule 4401 (Steam-Enhanced Crude Oil Production Wells) San Joaquin Valley Air Pollution Control District --San Joaquin, Fresno, Kern, Kings, Madera, Merced, ... Rule 4401 applies to crude oil production wells where production is enhanced by steam injection. The purpose of this project is to correct the rule deficiency in Section 6.2.4, as cited by EPA, and to clarify existing rule standards. Staff proposes Section 6.2 be amended to remove the following sentence as specified by EPA: "The District evaluation and the APCO request shall be deemed approved unless EPA or ARB objects to such approval in writing within 45 days of the receipt of the APCO request." Staff also proposes that Sections 6.2.1 and 6.2.2 be amended to list specific activities that would not require annual source testing since they are subject to other District rule requirements.	<b>NOE</b>	
2011068367	Grant Award # ARV-10-048 to Air Products and Chemicals, Inc. (Recipient) Energy Commission --Los Angeles, Orange The project will fund construction of eight (two upgrades, six new) hydrogen fueling stations at existing retail gas facilities and a central fill system at an existing hydrogen plant. The fueling stations will have a project footprint of about 750 s.f., consisting of a compressor, a storage tank, and dispensing equipment. Some minor trenching will be required, with the land restored to its original conditions. The central fill station will have a project footprint of about 8,000 s.f., consisting of hydrogen purification system, a compression skid, and a filling area for trailers to obtain hydrogen fuel for distribution to the stations. Existing utilities are sufficient for the expansion. The project benefits fuel cell vehicle owners and the public by increasing the viability of alternative and renewable fuels and vehicle technology,	<b>NOE</b>

2010121055	<p>Ocotillo Wind Energy Facility Imperial County --Imperial Note: Draft EIR/EIS &amp; 90 day review</p> <p>The Ocotillo Wind Energy Facility consists of the construction and operation of wind turbine generators and associated facilities necessary to successfully generate up to 465 MW of electrical energy. The project would be constructed in two phases: Phase I is anticipated to total approximately 315 MW, with the installation of up to 137 WTGs using turbines ranging from 1.6 to 3 MW in generating capacity; Phase II would include the construction of 18 WTGs (also ranging 1.6 to 3 MW in capacity) generating up to 150 MW. Electricity generated by the project would be transferred to the electrical transmission grid through an interconnection with the Sunrise Powerlink, an approved high-voltage transmission line that crosses the OWEF site.</p> <p>Facilities for the proposed project would consist of WTGs, an electrical collection system for collecting the power generated by each WTG, an electrical substation, access roads, meteorological towers, and an operation and maintenance building. During construction, a batch plant, equipment laydown yard, and parking area would also be needed. The project would be located on BLM-administered land except for approximately 26 acres of private land near the center of the proposed OWEF site. Additionally, 487 acres of private and public land outside the project boundaries would be utilized for road access and collection line right of way.</p>	<b>EIR</b>	10/06/2011

2010061058	Lewis Variance and Minor Use Permit San Luis Obispo County --San Luis Obispo Marshall Lewis for a Minor Use Permit to allow for the demolition of an existing single family residence, the relocation of an historic water tank, and construction of a new 4,555 sq. ft. two story residence with underground 2,377 s.f. garage. The project will result in the disturbance of approximately 3,500 s.f. of a 24,480 s.f. parcel. The project is located at 709 Lucerne in Cayucos at the corner of Ocean Avenue, in the community of Cayucos, in the Estero planning area.	<b>MND</b>	07/29/2011
2011061090	LU11-0033 Resources Agency, The Carpinteria--Ventura Proposed 4071 s.f. single family dwelling with a 1535 s.f. attached garage, and a 3744 s.f. agricultural barn, on an existing vacant 10 acre parcel.	<b>MND</b>	07/29/2011
2011061092	Grading Permit PMT 2010-01513 San Luis Obispo County Paso Robles--San Luis Obispo Request by Reddy V. Reddy Reddy for a grading permit to allow grading for an access road and building pads for two homes (primary and secondary dwellings), which will result in the disturbance of approximately 0.78 acres, including approximately 1,575 cubic yards of cut and 1,575 cubic yards of fill, on a 4.31 acre parcel. The project will result in the permanent disturbance of 0.36 acres of kit fox habitat.	<b>MND</b>	07/29/2011
2011061093	Collins Minor Use Permit DRC2004-00277 San Luis Obispo County --San Luis Obispo Request by Jim Collins for a Minor Use Permit/ Coastal Development Permit to allow an 831 s.f. garage addition, a 311 s.f. office addition, and grading for a parking space along the western portion of a site with an existing residence. The project will result in the disturbance of approximately 1,800 s.f. on a 36,090 s.f. parcel. The proposed project is within the Residential Single Family land use category and is located at 714 Santa Lucia Ave., in the community of Los Osos. The site is in the Estero planning area.	<b>MND</b>	07/29/2011
2011062075	Smith River Rancheria - GP2011-16C - Coastal Grading Permit Del Norte County --Del Norte The proposed project is an extension of an existing Wastewater Collection System. The existing sanitary sewer force main located on North Indian Rd. will be extended under Hwy 101 to South Indian Road where it will terminate at the intersection of Mouth of Smith River rd. and South Indian Rd. Six inch gravity laterals are also proposed to extend down Indian Ct., Prince Island Ct. and three cul-de-sacs along South Indian Rd. Sewer connection lateral will be installed for existing and proposed development within the project area. The effluent will be treated at the existing waste water treatment facility adjacent to the Lucky 7 Fuel Mart and then discharge at the existing leach fields located at the north end of Ocean View Dr. The force main and laterals will be installed by trenching through the roadway and backfilling with bedding rock.	<b>MND</b>	07/29/2011

2008121044	Alta Infill II Wind Energy Project Kern County Mojave, Tehachapi--Kern The proposed project is a renewable energy development that would generate up to 750 megawatts (MW) of electricity through the use of wind power on a 10,000-acre project site. The project applicant is requesting: (a) a change in zone classification from the E (20) (Estate 20 acres) District and the A-1 (Limited Agriculture) District to the A (Exclusive Agriculture) District, to the A WE (Exclusive Agriculture, Wind Energy Combining) District and the A FP (Exclusive Agriculture, Floodplain Combining) District in Map 168, (b) a change in zone classification from A-1 to A and A WE in Map 189, (c) a change in zone classification from E (20) to A and A WE in Map 180, (d) a change in zone classification from A-1 to A and A WE in Map 179, (e) a change in zone classification from A-1 to A in Map 197, and (f) a conditional use permit to allow for the use of a temporary concrete batch plant during construction of the wind energy facility. The requested applications would also permit the construction of wind ancillary facilities and supporting infrastructure, as well as a concrete batch plant that is necessary to provide up to 250 wind turbine generators (WTGs), service roads, a power collection system, communication cables, overhead and underground transmission lines, electrical switchyards, project substations, meteorological towers, and operations and maintenance facilities.	<b>NOP</b>	07/29/2011
2011061087	Figarden Financial Center Phase IV Fresno, City of Fresno--Fresno The proposed project includes the development of a four story commercial office building, comprising a total of net useable area 104,593 sf, with an underground parking structure and at grade parking to provide parking for ~445 vehicles. The underground structure will be interconnected with an existing underground parking structure that serves an adjacent four story commercial office building. Development entitlements for this project include a general plan amendment, a rezone application, a conditional use permit, and a vesting tentative parcel map.	<b>NOP</b>	07/29/2011
2011061088	Lot Line Adjustment and Construction of Two Residences at 6271 & 6277 Zuma Mesa Drive Malibu, City of Malibu--Los Angeles The proposed project consists of two applications for coastal development permits on adjacent undeveloped lots. Coastal Development Permit No. 10-067 includes a lot line adjustment to reconfigure the lot lines of two legal lots with a combined gross lot area of 1.6 acres. The lot areas of the reconfigured parcels will be 0.61 acre (Parcel A) and 0.99 acre (Parcel B). No new parcels will be created by the project application.	<b>Neg</b>	07/29/2011
2011061089	Proposed Amendments to Rule 4702 (Internal Combustion Engines) San Joaquin Valley Air Pollution Control District --San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, ... The purpose of this project is to amend existing District Rule 4702 (Internal Combustion Engines), which was adopted by the District's Governing Board in August 2003. The purpose of Rule 4702 is to limit emissions of nitrogen oxide (NOx), carbon monoxide (CO) and volatile organic compounds (VOC) from internal combustion engines. The proposed amendments to Rule 4702 would include:	<b>Neg</b>	07/29/2011

	administrative changes to rule language, and lower the applicability threshold for stationary IC engines to a rated brake horsepower of 25 or greater. The project will seek to obtain reductions in NOx emissions.		
2011061091	Housing Element Update Greenfield, City of Greenfield--Monterey The City submitted the Housing Element Update to CA Department of Housing and Community Development for review on June 29, 2010. Comments from the Department of Housing and Community Development were sent on August 26, 2010. The City subsequently prepared a revised Housing Element Update for public review. The Housing Element Update is an element of the City's 2005 General Plan and covers the time period June 2009 to June 2014. No amendments to the General Plan land use map or zoning map are proposed as part of Housing Element Update programs. The Housing Element Update would not alter the General Plan's population projections. The Housing Element Update would result in two changes to the City's zoning ordinance, allowing transitional housing and emergency shelters by right in several residential district, in accordance with SB2 (2007).	<b>Neg</b>	07/29/2011
2005062143	Docks Area Specific Plan Sacramento, City of Sacramento--Sacramento The project consists of the DTSC approval of a Remedial Action Plan for the PG&E (the Site). This action is being taken pursuant to authority granted under the CA Health & Safety Code, Chapter 6.8 and the federal Comprehensive Environmental Response, Compensation, and Liability Act, Section 121. The Docks Area Specific Plan EIR certified in 2009 by the City of Sacramento (SCH#2005062143) conceptually addressed the proposed Site Cleanup. As a Responsible Agency under CEQA, DTSC provided comments on the EIR in order to provide the City with information concerning the extent of soil and groundwater contamination existing at the Site, DTSC's regulatory authority over approval of future remediation activities, and conceptual remediation strategies because some RAP details had not been fully determined at the time EIR was certified. DTSC's review of the final EIR concluded that the impacts contemplated in the EIR were consistent with the impacts anticipated for activities contained in the RAP. Further DTSC concluded that an Addendum to the EIR was the appropriate CEQA document to prepare to update the specified project activities and impacts that will result from implementing the RAP.	<b>NOD</b>	
2009112073	Main Wastewater Treatment Plant (MWWTP) Land Use Master Plan East Bay Municipal Utility District --Alameda EBMUD's MWWTP Land Use Master Plan (Plan) would guide development of the MWWTP and the newly-acquired, adjacent West End property over a 30-year time horizon. The Plan coordinates near-term projects with potential expansion plans to maintain an efficient layout and minimize building demolition and facility relocation. Plan layouts provide sites for plan elements that may be developed in the future, many of which would not be constructed until needed to meet specific future regulations. The EIR evaluates the range of potential LUMP elements. Two near-term renewable energy projects are evaluated at a project level: biodiesel production and food waste preprocessing. Both would help EBMUD increase on-site power generation and maintain reasonable rates, and both involve EBMUD contracting with private companies under a land-lease agreement to construct and	<b>NOD</b>

	operate a facility at the MWWTP.		
2010112006	UP #10-1-3, Butte Creek Farms Colusa County Colusa--Colusa The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2011-0044-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Butte Creek Farms. The project consists of ~4 acres expansion of the existing Colusa Landing Boat Launch facility, located on the east bank of the Sacramento River. The expansion includes the construction of a concrete boat ramp and the development of an expanded parking area.	<b>NOD</b>	
2011031065	San Marcos High School Reconstruction & Expansion San Marcos Unified School District San Marcos--San Diego The project would consist of two phases: 1, development of a temporary high school for 2,925 students; and, 2, demolition and reconstruction of the existing high school. The temporary school would include 90 relocable classrooms and 67 other portable units including restroom buildings. The rebuilt high school would have 118 classrooms in four buildings, plus two additional buildings (mechanical and field house); administrative offices, library, student union, and gymnasium; in a total of about 447,300 square feet of building area. The stadium bleacher capacity would be decreased by 73 seats to 3,849 seats. A total of 632 parking spaces would be provided.	<b>NOD</b>	
2011052008	Mokelumne Coast to Crest Trail - Middle Bar Segment East Bay Municipal Utility District --Calaveras The proposed project will establish the MCCT Middle Bar segment located on the west slope of the Sierra Nevada in Calaveras County in Central California at an elevation range of ~600 to 1100 feet. Approximately half of the trail will be constructed on existing fire roads and primitive abandoned roads. The remainder of the trail segments will be constructed with a small trail dozer and/or work crews on undeveloped ground. Brushy vegetation will be cleared to a width ranging from 5-12 feet along the trail alignments and the constructed trail width will be 2-5 feet. Work crews using hand tools will be utilized and District staff will also use a Trail Cat dozer where feasible. The proposed trail segment with adjoining river access spurs will be single loop and leaves the potential for establishing a link to another MCCT segment to the east in the future. The proposed work is planned to start in Summer 2011 and the in-service date for the trail segment is anticipated to be in Fall/Winter 2012.	<b>NOD</b>	
2011069031	Emergency Shelters, Transitional Housing, Supportive Housing - Housing Element Implementation (PZTA 20080448) Placer County --Placer The project proposes to revise the Placer County Code (Zoning Ordinance) to bring the Code into compliance with State housing law for emergency shelters, transitional housing, and supportive housing.	<b>NOD</b>

2011018085	<p>Locust Street Pump Station Improvements Project Sausalito-Marín City Sanitation District Sausalito--Marín</p> <p>The project will construct a new pump station with the same capacity as the existing pump station, which is at the end of its useful life. The Project will construct a new auxiliary pump pit ahead of the existing pump station and replace the existing wet/dry pit pump station with a submersible type pump station. The new submersible pump station will be equipped with three new pumps to transport the sewage from Sausalito, Marín City, and Tamalpais Community to the District's Wastewater Treatment Plant for treatment.</p>	<b>NOE</b>	
2011068370	<p>Temporary Emergency Permit to Store Hazardous Waste, Fremouw Environmental Services, Inc. Toxic Substances Control, Department of --Solano</p> <p>A temporary emergency Hazardous Waste Permit has been granted to Fremouw Environmental Services, Inc. (Fremouw) to store hazardous waste beyond the six days provided in Title 22, California Code of Regulations Section 66263.18. The hazardous waste to be stored is approximately 6240 gallons of Oily Water, contaminated with polychlorinated biphenyls (PCBs), contained in a tanker truck. The Permittee loaded the vacuum tanks on June 7 or 8, 2011 with Non-RCRA Hazardous Waste Liquid (Oily Water). When the Permittee went to offload on June 8, 2011, the disposal facility rejected the load because facility that will accept the load can be arranged. As Fremouw does not hold a facility hazardous waste management permits for the location where the storage would take place, the Department of Toxic Substance Control (DTSC) has determined that an emergency permit should issue. The permit is effective from June 8, 2011 to June 22, 2011.</p>	<b>NOE</b>	
2011068371	<p>Shafter Community Recreational Center Shafter, City of Shafter--Kern</p> <p>A proposal to construct a 12,800-square-foot recreation facility on approximate 4.9-acres. The facility is to contain a full-size boxing ring with bleachers and workout space, a multi-purpose room, meeting rooms, a kitchen, restrooms, and office space (less than 5%). Activities to be accommodated include exercise, computer training, mentoring, educational classes, socialization, and other similar recreational functions. The building will also serve as an emergency cooling center on hot days. The remainder of the site will include an adjacent handball court and dog park (surfaced with decomposed granite and turf). The project is being proposed in conjunction with Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (Proposition 84) grant program administered by the State Department of Parks and Recreation.</p>	<b>NOE</b>	
2011068372	<p>Minor Location and Development Plan 11-02 Adelanto, City of Adelanto--San Bernardino</p> <p>A request by the applicant, Warren W. Meyer &amp; Sons, Construction for General Atomics, for the construction of a 2,450 square foot outdoor storage canopy on an 11,250 square foot concrete pad at an existing developed site, within the Manufacturing/Industrial (M/I) Zone.</p>	<b>NOE</b>

2011068373	<p>Bowerman and Clark Springs Boat Ramps Improvements Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity</p> <p>The project involves removal of approximately 100 linear feet of the curving lower end of the existing single-lane boat ramp at the Bowerman boat launch facility along with the existing sidewalks, railings, and footings. The removed section of the boat ramp will be replaced with a straight two-lane section and the entire ramp will receive a V-grooved concrete overlay. The existing sidewalk will be replaced with an 8-foot wide sidewalk. Existing rock slope protection (RSP) will be replaced along the end of the ramp and northern side of the new sidewalk, and existing RSP along the southern edge will be extended from the turn around area to the top of the ramp. The turn around area will also be extended toward the lake by approximately 30 linear feet.</p> <p>The project also involves removal of the existing sidewalk, railing, and footings at the Clark Springs boat launch facility. The existing sidewalk will be replaced with an 8-foot wide sidewalk along the full length of the ramp. An approximately 2-foot deep and 5-foot wide layer of RSP will be installed along the full length of the new sidewalk and around the lower end of the boat ramp.</p>	<b>NOE</b>

2011068382	Duncan Minor Use Permit Placer County Auburn--Placer A Minor Use Permit to allow for the placement of a temporary hardship mobile home on the property.	<b>NOE</b>	
2011068383	Class 1* and Class 1 Permit Modification for Quemetco, Inc. Toxic Substances Control, Department of Industry--Los Angeles The Department of Toxic Substance Control (DTSC) is approving a request submitted by Quemetco, Inc. for a Class 1* and Class 1 Permit Modification that would authorize the replacement and relocation of seven (7) tanks that are part of the Battery Wrecker unit used to store and treat acid or paste generated from the breaking of batteries at Quemetco's battery recycling and a secondary lead smelting facility. The replacement of these tanks is necessary due to the normal wear the existing tanks experience over the years. All but one of the tanks will remain in the Battery Wrecker Containment Area in which they were originally located. The remaining Repulp Tank will be moved inside the Batch House Containment Area. The existing and proposed locations of the tanks are shown in Figure 1. The storage capacities of the 7 replacement tanks are: 1. Battery Wrecker Clarifier: 4,795 gallons. 2. Repulp Tank: 6,398 gallons 3. Reactor Tank 1: 1,489 gallons 4. Reactor Tank 2: 1,676 gallons 5. Reactor Tank 3: 2,538 gallons 6. Low pH Transfer Tank: 1,269 gallons 7. High pH Transfer Tank: 1,269 gallons The Class 1* Permit Modification, which requires prior DTSC approval, will replace the Battery Wrecker Clarifier by a tank that is 27.8% greater in the design capacity. The original capacity is 3,751 gallons. Although the replacement tank has the greater design capacity, the throughput of the treatment remains the same. The Class 1 Permit Modification, which does not require prior DTSC approval, will replace six tanks with the same capacity. The six tanks to be replaced are: Repulp Tank (RT-1), Reactor Tanks 1, 2 and 3 (Units DR-1 DR-2 and DR-3), Low pH Transfer Tank (Unit TT-1) and High pH Transfer Tank (TT-2). All tanks will be replaced with the tanks of the same design capacity. The project activities include waste removal from tanks; tank cleaning and dismantling; treatment of rinsed water by an onsite permitted wastewater treatment	<b>NOE</b>

	unit; offsite disposal of the removed tank to an authorized disposal facility as described in the previously approved Closure Plan; and the installation of the replacement tanks in the proposed locations as seen in Figure 1. The replacement tanks will be located within an existing secondary containment that is in compliance with California Code of Regulations, section 66264.193. There will be no change to the hazardous waste treatment process.		
2011068384	KB Gardena Building LLC Property, Operable Unit 1 Draft Removal Action Plan Toxic Substances Control, Department of Gardena--Los Angeles Approval of a draft Removal Action Workplan (RAW) by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6.8 as submitted on April 14, 2011 by L. Everett & Associates, LLC. The RAW focuses on excavation and off-site removal of contaminated soils, installation and operation of a soil vapor extraction system on mitigate soils impacted with excessive levels of volatile organic compounds identified as chemicals of concern (COCs), and implementation of a land use convenient (LUC) at the KB Gardena Building Operable Unit 1 Site (the Site).	<b>NOE</b>	
2011068385	Santa Cruz Long - Toed Salamander, Larkin Valley Fish & Game #2 Santa Cruz--Santa Cruz The purpose of this project is to conserve significant breeding habitat for threatened and endangered species.	<b>NOE</b>	
2011068386	Leasing of Office Space Motor Vehicles, Department of Bakersfield--Kern The California Department of Motor Vehicles is proposing to lease 7,388 sq. ft. of existing office space to house a DMV Fields Office and an Investigations Field Office. The office will have a staff of 23 and the lease facility will include 72 parking spaces.	<b>NOE</b>	
2011068387	Chico Air Attack Base - Sierra Pacific Industries Retardant Jettison Areas Forestry and Fire Protection, Department of Chico--Butte This project involves occasional, infrequent jettison of excess fire retardant material from air tankers onto grass or other areas in remote portions of private land in the mountains north east of Chico, California. Air tankers dispatched to a reported fire from the Chico Air Attack Base (CAAB) are at times, while airborne, cancelled prior to dropping retardant. As not all air tankers are capable of landing with a full load of fire retardant, they must jettison a portion of the load to insure a safe landing. The actual area covered in any single drop will be 3/4 of an acre or less. Four separate project areas may receive jettisoned retardant. All four of these parcels are located on lands owned by Sierra Pacific Industries (SPI) and each unit is approximately 35 acres in size. Use of these jettison sites is conducted under agreement and consent of the landowner who manages their lands under sustainable forestry. The jettison sites are located within areas of controlled public access. CAL FIRE uses a variety of fire suppression chemical to enhance its capability to control and suppress wildfires. CAL FIRE plans to continue such use, and use only the most environmentally benign chemicals including, but not limited to Phos-Chek D75-F and P100 retardants. The areas on which the excess retardant is jettisoned are either bare, rock ridges or ridges within clear-cut units a minimum of 500 feet away from classified (I,II, or III)	<b>NOE</b>

watercourses. Retardant is never to be jettisoned into any drainage, creek or riparian area.

2011068388	MVU UH - Residential Garage Conversion for the Pre-Fire/Resource Management Office Forestry and Fire Protection, Board of San Diego--San Diego There are two residence located at CAL FIRE's San Diego Unit Headquarters (MVU) also known as Monte Vista Headquarters. These state residences were built in the mid 1960's and were used as state employee housing. No longer used as state housing, these buildings are now used as office space. The Fire Prevention Bureau occupies one of the buildings and the Pre-Fire/Resource Management Division occupies the other building. More than fifteen years ago, the Fire Prevention Bureau converted the garage into a large meeting room/office space. This project intends to apply a similar floor plan concept and convert the garage in Pre-Fire/Resource Management Division building into a large meeting room/office space. This meeting room/office space also intends to provide GIS/mapping support for large incidents.	<b>NOE</b>
