

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

March 1 through 15, 2003

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1st through 15th, 2003.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Phillip Crimmins (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2002**

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	DOCUMENT TOTAL	Total Projects

KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.
There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of March 1st-15th, 2003.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, March 03, 2003</u>			
2002092050	Kaiser Permanente - Redwood City Medical Center Master Plan Redwood, City of Redwood City--San Mateo 23-year Master Plan of the existing Kaiser Campus which includes a 192-bed, 10 story, 440,000 GSF replacement hospital; 4 new 4-to 5-story Medical Office Buildings and a new 2-story, Cancer Center together totaling 455,200 GSF; 4 new 4- to 7-level parking structures providing 2,227 new spaces; a new 2-level, 28,000-GSF Central Utility Plant; a new 2-story, 20,000 GSF administrative building; a 37,500-GSF Plaza and an additional 30,200-GSF Plaza; and a 1-story, 4,800-GSF commercial use fronting Marshall Street.	EIR	04/16/2003
1995012061	Sacramento Regional County Sanitation District, Interceptor Master Plan 2002 Sacramento County This environmental document is a program-level EIR that is intended to provide SRCSD with environmental analyses necessary to consider approval of Interceptor Master Plan 2000.	FIN	
1995061007	Gregory Canyon Landfill EIR San Diego County Pala, Pauma Valley--San Diego The original draft EIR was prepared for this project and circulated for public review on January 28, 1999 for 90 days. Additionally, a Revised Draft EIR was prepared and circulated for public review on December 9, 1999 for 75 days. Currently, limited portions of the Revised Draft EIR are being recirculated due to changes in analyses or new conclusions being proposed. The air quality and health risk analyses have been updated and revised. In addition, new conclusions have been proposed for three sections of the EIR. These three areas are project noise impacts to existing residences on SR76, noise impacts to vireo and flycatcher habitat on SR76, and cumulative traffic impacts.	FIN	
2001112085	Lower Northwest Interceptor Project Sacramento County --Sacramento The LNWI project involves construction of wastewater conveyance facilities as well as facilities to support ongoing operation and maintenance.	FIN	
2001122108	City of Lathrop Water Recycling Plant No. 1 Phase 1 Expansion Project Lathrop, City of Lathrop--San Joaquin Expansion of existing Water Recycling Plant No. 1 (WRP-1) by 3.0 mgd of tertiary treatment capacity; extension of collection system and recycled water storage and distribution system within Lathrop; and full disposal of recycled water on land, consistent with Title 22 requirements. Tiered from the Lathrop Water, Wastewater, and Recycled Water Master Plan EIR (SCH# 1998082050).	FIN	
2001021058	Noble Creek Vistas Specific Plan, Revisions to Previously Considered EIR Beaumont, City of Beaumont--Riverside Construction of a maximum of 965 single-family residential units within a 332-acre Specific Plan area.	NOP	04/01/2003

2003031001	Venice Pumping Plant Dual Force Main Los Angeles Bureau of Engineering --Los Angeles A 9600 foot, 54-inch diameter sewer force main project to be installed using open-trench and microtunneling construction methods. 1800 feet of the sewer will be micro-tunneled under the Marina Del Rey and Ballona Creek channels. The remainder will likely be open-trenched.	NOP	04/01/2003
2003031003	Twin River Ranch (formerly Wasnick) Dairy Establishment Tulare County Resource Management Agency --Tulare Request for: 1) approval of a Special Use Permit, and 2) approval by the California Regional Water Quality Control Board, Central Valley Region, of a Notice of Intent under a General Waste Discharge Order or of site-specific waste discharge requirements, to establish a new dairy in the AE-40 (Exclusive Agricultural-40 acre minimum) Zone to accommodate a maximum of 1,955 total animal units (1,700 milk cows and 340 dry cows) in a facility covering approximately 87.7 acres of the 456 acre subject site. The balance of the acreage would remain under cultivation and available for irrigation with reclaimed dairy wastewater.	NOP	04/01/2003
2003032007	North Connector Solano Transportation Authority Fairfield--Solano To construct approximately 6.4 km (4 miles) two to four-lane arterial connection (the North Connector) in the City of Fairfield in Solano County, north of Interstate 88.	NOP	04/01/2003
2003032011	Watt Avenue/U.S. 50 Interchange Project Sacramento County Sacramento--Sacramento The project is located on Watt Avenue extending from La Riviera Drive north to Manlove Road on the south, including the interchange on U.S. 50. The project limits on U.S. 50 extend from 2,100 feet west of Watt Avenue to a point immediately west of the Manlove Pedestrian Overcrossing, approximately 2,200 east of Watt Avenue. The project would reconstruct the existing cloverleaf interchange (Type L-10) at U.S 50 and Watt Avenue to a partial cloverleaf (TypeL-9) and improve Watt Avenue between La Riveriera Drive and Manlove Road.	NOP	04/01/2003
2000031051	Amendment to the Redevelopment Plan for the Greenfield Redevelopment Project Greenfield, City of Greenfield--Monterey The proposed project amends the existing Redevelopment Plan to add approximately 200 acres to the existing Redevelopment Project.	Neg	04/02/2003
2002102065	MS000019 Contra Costa County Community Development Brentwood--Contra Costa The applicant and owner request vesting tentative map approval to divide 77.76-acre property into three lots. The proposed lots comply with the standards of the A-2 District.	Neg	04/01/2003

<u>Documents Received on Monday, March 03, 2003</u>			
2003031002	Creekbridge/Arroyo Seco Center Greenfield, City of Greenfield--Monterey The project consists of a General Plan Amendment (GPA), Rezoning, Development Agreement and Tentative Map for a 44-acre parcel located in the southernmost portion of the City of Greenfield. The triangular shaped parcel is bordered by Elm Street on the north, El Camino Real on the west and U.S. Highway 101 on the east, El Camino Real and U.S. Highway 101 meet to form the southern tip. The proposed GPA and Rezoning will allow for the development of a traditional neighborhood concept supporting a variety of uses, including single-family residential, commercial and an area of mixed retail/office/residential use.	Neg	04/01/2003
2003031004	Castaic Lake Water Agency (Santa Clarita Water Division) Sky Blue Tank Site Additions Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project's objective is as follows: - To provide water during peak hour water usage periods to the Shapell/Monteverde project, a 2,500-unit residential development that is under construction north of the site. The proposed project would complete the water supply for this residential development. The proposed project is the construction of two above ground water storage tanks and an associated storm drainage system on a site that is owned by the Castaic Lake Water Agency. This site already contains a 1-million-gallon water tank and a 2-million-gallon water tank operated by the Castaic Lake Water Agency, Santa Clarita Water Division ("CLWA/SCWD"). Access to the site would be provided by the existing access road off of Whites Canyon Road just north of Enderly Street. The site is entered through a locked gate and is not accessible to the public.	Neg	04/01/2003
2003031005	Conditional Use Permit No. 02-025 Los Angeles County Department of Regional Planning Culver City--Los Angeles 35 units of three-story apartment complex.	Neg	04/01/2003
2003031006	Upper Hillside Drive San Diego, City of San Diego--San Diego The proposed project is a Coastal Development Permit/Site Development Permit and Lot Line Adjustment, to be considered by the Hearing Officer (Process 3), for the demolition of an existing two-story single-family residence and caretaker's residence: construction of a two-story 21,847 square-foot single-family residence with basement, cabana and swimming pool, and two detached garages on a proposed lot line adjusted 7.48-acre lot; and creation of a 0.68-acre remainder parcel.	Neg	04/01/2003
2003031007	Tract Map 31132 and Rezoning Case RZ-014-023 Riverside, Planning Department, City of Riverside--Riverside The applicant is proposing to establish a 41-unit residential condominium project on the subject site, consisting of two parcels totaling 1.88 acres, located on the northerly side of Magnolia Avenue between Fillmore street and an on-ramp to the westbound Riverside (91) freeway. Two unit types are proposed within the project, both of which are two stories and have attached two-car garages. Unit A is	Neg	04/01/2003

	<p>proposed with a liveable unit size of 1,177 square feet while Unit B would have a liveable unit size of 1,250 square feet. A 146 square-foot ground floor Patio area on the non-garage side of each unit. A common usable open space area is proposed near the center of the project site, which would include a 400 square-foot recreation building, a pool and a children's play area (tot-lot). A number of variances are necessary to facilitate the project as proposed, including, but not limited to, reductions in the amount of required common usable open space, private usable open space, no Recreational Vehicle storage area, an encroachment into the building setback along Magnolia Avenue and to allow two-story multiple family residences with 50 feet of a single family residence easterly of the project site.</p> <p>In conjunction with the proposed Tract Map, the applicant is proposing to rezone the two parent parcels from the R-1-65 (Single Family Residential) Zone to the R-3 (Multiple Family Residential) Zone. The purpose of the rezoning request is to provide consistency between the zoning and the City's General Plan designation of RHD (High Density Residential) for the site and to facilitate the development of the proposed condominium project. The site plan and building elevations will be required to be reviewed by the Design Review Board prior to the issuance of building permits for any development of the property.</p>		
2003031008	<p>CUP/ZC/LP 02-286 Los Angeles County Department of Regional Planning --Los Angeles</p> <p>Application for a Local Plan Amendment in the West Athens/Westmont Plan area from Open Space (OS) to Community Commercial (C-2). A Zone Change from OS and Neighborhood Business (C-2) to Unlimited Commercial Development Program (C-3-DP) is being requested as well. Application also includes a request for a CUP to authorize the construction of a four-story office building (106,000 s.f.) and six-level parking structure (164,400 s.f.) for 555 parking spaces in addition to a 45 space surface parking lot. All proposed improvements at the project site will not exceed 70' in height. This CUP also includes a request for a height variance above 40' in the West Athens-Almont CSD. Access road from Western Avenue will be realigned slightly and extension of 120th Street is not proposed as a part of this project. Operating hours will be M-F from 7:00 a.m. to 7:00 p.m. with approximately 400-600 employees working at the site.</p>	Neg	04/01/2003
2003031009	<p>Student Resource Building University of California, Santa Barbara --Santa Barbara</p> <p>The project site is located in existing Parking Lot 23 (North) in the western portion of the Main Campus. The site is approximately two acres and is bordered by a bike path and Parking Lot 22 to the north; Ocean Road, a bike path and the community of Isla Vista to the west; an access drive and Parking Lot 23 to the south; and a bike path and other Main Campus buildings to the east. The proposed building is a three-story structure and would provide 66,500 gross square feet (43,155 assignable square feet) of floor area. The project would provide offices, meeting rooms, a computer lab, informal public gathering areas, a childcare facility for up to 48 children, and a variety of accessory uses to be used by the UCSB Student Affairs Division. The project would consolidate into one location student-related services that are presently provided in more than six temporary, substandard and overcrowded facilities.</p>	Neg	04/01/2003

NOD	
1995043050	Waldo Point Harbor Rezoning, Master Plan, Precise Development Plan Marin County Sausalito--Marin Proposal to reauthorize, reconfigure, and expand the existing 245-berth Waldo Point Harbor houseboat marina located along the Richardson Bay shoreline in Sausalito. The project expansion would accommodate 38 Gates Cooperative houseboats in legal berths along existing docks as well as on a new dock constructed north of the existing Main Dock. A new parking lot for 134 vehicles and minor modifications to existing parking areas would result in a total of 484 private and 10 public parking spaces. Improvements include construction of a shoreline park and access pathway along the site perimeter. Land exchange between Waldo Point Harbor and a State lands Commission would provide Waldo Point Harbor with fee title to submerged lands within the marina under existing and proposed docks and houseboat berths, and would provide the State with fee title to most of the open space and open water areas within the marina, which would be made available for public trust purposes or retained in a natural state. 2003038014	South El Monte Operable Unit Sentinel Well San Gabriel Basin Water Quality Authority El Monte--Los Angeles The Main San Gabriel Basin provides drinking water for over a million residents. Volatile Organic Compound (VOC) contamination was discovered in several areas during the late 1970s. In 1984, the San Gabriel Valley was placed on the U.S. Environmental Protection Agency's National Priorities List (Superfund). The South El Monte Operable Units is one of the areas requiring cleanup under the Superfund laws. San Gabriel Valley Water Company (SGVWC) operates a VOC treatment facility within the SEMOU at its Plant 8 well field. The California Department of Health Services (DHS) is the agency responsible for permitting drinking water treatment plants. DHS requires that a Sentinel Well be installed upgradient of SGVWC's Plant 8 treatment facility to provide early warning detection of possible new and/or increased contaminant migration towards SGVWCs Plant 8 treatment facility. Therefore, the project consists of the installation of a 4-inch diameter, 320-foot deep Sentinel Well in the City of South El Monte for the purpose of data collection and semiannual monitoring of the groundwater in the immediate area.	NOE	
2003038015	Replacement of the 12-Inch Poly Vinyl Chloride Water Main in Calimesa Boulevard Yucaipa Valley Water District Calimesa--Riverside Replacement of water pipeline in Calimesa Boulevard. 2003031018	PSP 98-100 Tulare County Resource Management Agency --Tulare A Special Use Permit to amend Special Use Permit No. PSP 95-121(ZA) to expand a solid waste disposal truck company and green waste processing facility with a municipal solid waste transfer station, material recovery facility, recycling buy-back center, community education recycling center (assemblage of people), administrative offices and community meeting room, green material composting facility, construction and demolition waste recycling facility and inert debris processing operation on a 18 acre site located in the AE 20 (Exclusive Agricultural-20 acre minimum) Zone.	CON	03/17/2003
2002021050	Bettencourt Ranch Aggregate Mining Project Merced County Merced--Merced The proposed project is expansion of the existing Santa Fe Aggregates (applicant) mining operation. The applicant currently conducts mining operations on land adjacent to the project site. The Proposed project would allow for the continued operation of Santa Fe Aggregates' Winton processing plant located on the proposed project site. The project site is approximately 536.6 acres in size, of which 419 acres would be actively mined. Approximately 35.6 acres of the project site contain the existing Winton plant processing facilities, which would ultimately be reclaimed to open space. The remaining land would be preserved and enhanced.	EIR	04/17/2003
2002022076	Marina Shores Village Project Redwood, City of Redwood City--San Mateo Replacement of all existing improvements (except Outer Pete's Harbor marina) with approximately 1,930 condominiums, 300,000 sq.ft. of office, 12,000 sq.ft. of retail, and private marinas for 227 to 247 slips; plus support facilities, including parking, public open space, and pedestrian plazas and paths. 2002061109	Seabreeze Estates Development Lompoc, City of Lompoc--Santa Barbara The project consists of development on two parcels. The northern parcel is proposed to be developed with 216 residential units, consisting of 15 eight-unit apartment buildings and 48 duplexes (96 duplex units). The project includes a request for a General Plan Amendment from the designation of Light Industrial to Medium Density Residential and Community Facility on this portion of the site. Approximately 4.1 acres of the northern parcel, abutting Central Avenue, are proposed for a community park. The northern parcel contains a portion of a wetland area (9.02 acres) that is currently designated for, and proposed to remain as Open Space. The southern parcel is proposed to be developed with 150 single-family residential units on 39.43 acres of land. As with the northern parcel, the southern parcel contains a portion of the wetland area that is designated as Open Space. The current zoning designation on the southern parcel is Single Family Residential (7-R-1) on a minimum of 7,000 square foot lots. The applicant is requesting a change to Single Family Residential, Planned Development (R-1, PD) on this parcel.	EIR	04/17/2003

2003031020	Air Stripper Treatment Facility Pomona, City of Pomona--Los Angeles The project involves completing the installation and operation of six air stripping units at the City's Reservoir 5 site. The ASUs are designed to remove volatile organic compounds (VOC) from well groundwater so the water meets state potable water stands.	Neg	04/02/2003
2003032013	OBEJI Conditional Use Permit for the Complete Renovation of the EZ Landing Mobilehome and RV Park in the King Salmon Area. Humboldt County --Humboldt The project is completely within the State Coastal Commission's jurisdiction for coastal development, but the County maintains jurisdiction over the land use and zoning of this particular site. A Conditional Use Permit is required for the renovation of the EZ Landing RV Park & Marina which is located in the Commercial Recreation (CR) zone. RV Parks, caretaker's units and improvements to boating facilities are all conditionally permitted uses in the CR zone. The applicant proposes to completely replace all existing services, demolish the existing structures to be rebuilt and slightly modified, improve drainage facilities, maintain and redevelop an existing +/- 70 slip marina and develop a public boat ramp and recreational facilities. The project also includes the vacation of the east end of Halibut Drive (a portion of APN 305-092-05) to incorporate the aforementioned public recreation area. One caretaker's unit currently exists; an additional unit is proposed for the use of the owner's when they visit. The total number of RV and mobilehome units will decrease from 83 to 79 (resulting in 31 mobilehome sites and 45 RV sites, 1 caretaker's unit, 1 studio apartment and 1 owner's office/unit). Lots 1, 2, and 4 may ultimately be used for office buildings, a pre-school, a gas station, or another use permitted in the C35 - General Commercial. Lot 3 will be a HOA Lot. Lot 5 will continue to support the existing pump station.	NOD	
2002021081	Sorrento Valley Road Reuse Project San Diego, City of San Diego--San Diego City Council approval of street vacation, Torrey Pines Community Plan amendment/Progress Guide and General Plan amendment, Site Development Permit, and potential City acquisition of private property, and California Coastal Commission approval of Coastal Development Permit and Local Coastal Program amendment for the vacation of Sorrento Valley Road, between Carmel Mountain Road and Carmel Valley Road, and the implementation of either the "Pedestrian Trail/Multi-use Path Option" or "Park Road/Multi-use Path Option". The pedestrian Trail/Multi-use Path Option consists of a paved multi-use path, an adjacent soft-surface trail, and a stabilized soil side path along the closed roadway segment. The Park Road/Multi-use Path Option consists of a two-way, limited access road and a stabilized soil side path from the south closure point to City of San Diego Sewer Pump Station No. 65; and a northbound paved vehicle travel lane, a paved multi-use path, and a stabilized soil side path from the pump station to the north closure point.	NOD	
2002101057	Onaga/La Contenta Pipeline Joshua Basin Water District --San Bernardino The proposed pipeline project would be designed and constructed by the Joshua Basin Water District as an extension of their existing domestic water distribution system. There are currently no regular water deliveries to residences that would be served by the project. The pipeline would be 12-inch PVC and would connect to an existing 12-inch ductile iron pipeline in Troll Canyon Road at its intersection with Navajo Trail. From the existing line at the intersection of Troll Canyon Road and Navajo Trail, the alignment runs, approximately 700 feet to the west, then north on an unnamed road approximately 700 feet top Onaga Trail, then westerly for approximately 1,300 feet to La Contenta Road. The pipeline would run north and south of Onaga in La Contenta Road for a total of approximately 1,400 feet. The total length of the proposed pipeline is 4,100 linear feet. The pipe would be buried approximately three feet below the surface in existing road alignments and	NOD

	an existing utility corridor that crosses a natural drainage located within the pipeline alignment.		
2002101117	Copper Mountain College Pipeline Joshua Basin Water District --San Bernardino The proposed pipeline project would be designed and constructed by the Joshua Basin Water District as an extension of their existing domestic water distribution system. The existing Copper Mountain College (CMC) facility is near the eastern limit of the District's service area and is not currently connected to the District's water distribution system. The CMC currently pumps water using a well with a storage tank. The Copper Mountain College is planning a substantial expansion of its facilities. The proposed expansion will require more water than the current well can produce and the Fire Department flow requirements for the CMC make connection to the Joshua Basin Water District's system necessary. The District's current distribution system on the north side of State Highway 62 ends at Sunfair Road; approximately two miles west of Rotary Way. There are three residences along the north side of the highway which also need water and fire protection.	NOD	
2002111113	Tijuana River Valley Invasive Plant Control Program (SAA R5-2003-0019) California State Coastal Conservancy San Diego--San Diego Alter the stream to implement the Tijuana River Valley Invasive Plant Control Program. The project involves the control of three invasive plant species within the Tijuana River Valley including a natural riparian corridor and salt marsh. The three invasive species are giant reed, castor bean, and salt cedar. The objective of the project is to enhance the native riparian and salt marsh habitats by removing these exotic species. The species are spread throughout the Tijuana River Valley and cover approximately 198 acres or 6% of the valley. The invasive species will be controlled through a combination of physical and chemical methods. In most cases, the plants will be cut and their stumps or resprouting rhizomes will be sprayed with an appropriate herbicide. Cut stems will be disposed of on-site, or in the case of large amounts of giant reed, will be removed by a paper and pulp milling company. Monitoring and retreatment of control areas will occur for three to five years. The project will be implemented in phases. Native riparian habitats found on site include extensive willow woodlands, mulefat scrub, and salt marsh.	NOD	
2003011065	East Valley Water District's Plant 132 Well Rehabilitation / Development Project East Valley Water District Highland--San Bernardino EVWD is proposing to rehabilitate existing wells and/or construct new wells at its Plant 132 site. Water produced at Plant 132 contains higher than acceptable concentrations of nitrates. This project includes the installation and operation of a nitrate removal system and a water disinfection system to treat water extracted from the wells. Pipelines will be installed to convey the treated water to EVWD's existing water distribution system.	NOD

	stationed on the north side of the bridge. Personnel accessing the culvert would utilize an existing path on the creek bank on the north side of the bridge.		
2003012053	Zoo Operations Center at Folsom City Zoo Sanctuary Folsom, City of Folsom--Sacramento The proposed Zoo Operations Center would consist of three separate buildings to be constructed over four development phases. The main components of the Operations Center include the office/ clinic building; the gift shop/ ticket booth building; the zookeeper complex (including an office, mud/ laundry room/ break room and food preparation kitchen); and the zoowright shop and hay storage facility. The buildings would be organized in a "village" concept around a central landscaped courtyard. The courtyard would accommodate use by both zoo personnel and the general public.	NOD	
2003012055	Folsom Zoo Sanctuary Canine Exhibit Folsom, City of Folsom--Sacramento The proposed canine exhibit would include four exhibit spaces/ modules for three canine species, including six wolves, three coyotes, and four wolf-hybrids. The modules would consist of night houses (11 feet by 15 feet), animal and zookeeper corridors, fencing, and utilities. The project features would include landscape and water elements within each module. In addition, an asphalt pathway for visitors along the existing maintenance road and an elevated walkway over the wetland area would be included as part of the project. The pathway would connect to the main zoo exhibit area adjacent to the raccoon exhibit deck. An existing asphalt walkway along the west edge of the project site would be extended and used as a paved access road for zoo personnel.	NOD	
2003039004	Brauburger Tentative Parcel Map, TPM 20555RPL2, Log No. 01-14-043 San Diego County Department of Planning and Land Use --San Diego The project proposes to subdivide 0.386 gross acres into two parcels of approximately 0.193 gross acres (8,410 square feet) each. No grading is proposed on the site. The site is entirely within the 100-year flood plain of Los Coches Creek. The project will be conditioned to provide a flood free building site. The highest flood elevation on the site is 604.9' and the house pads are proposed at 606.4' with a finished floor elevation of 607.4'. This will make the site flood free and flood safe.	NOD

2003038065	Streambed Alteration Agreement 5-2003-0053 Fish & Game #5 Irvine--Orange SAA #5-2003-0053 The Operator propose to alter the streambed and bank by the hand removal of over grown riparian vegetation, primarily mulefat, within the stream channel downstream from the Sand Canyon Reservoir and spillway within Sand Canyon Creek, Orange County. Vegetation removal is necessary in this section of the stream channel to conduct scheduled routine maintenance on pipeline valves for annual inspection and exercise. All vegetation will be trimmed by hand or by hand-operated tools to within 6" to 12" above ground to minimize impacts and promote adequate regrowth. All routine maintenance will be scheduled outside the avian breeding/nesting season. All impacts are temporary. The applicant is requesting a 5-year maintenance agreement.	NOE	
2003038066	High Occupancy Vehicle Lanes on State Highway 5, from Route 118 to Route 14 at Weldon Creek Fish & Game #5 --Los Angeles SAA #R5-2002-0229 The Operator proposes to alter the streambed by constructing High Occupancy Vehicle (HOV) lanes on State Highway 5 between Routes 118 and 14. To accommodate the HOV lanes, the highways center median over Weldon Creek will be closed with reinforced concrete slabs and a 2-meter diameter column will be installed within the creek's banks. A temporary desilting basin will be installed during column placement. Temporary access will be provided by two 1.2 meter wide by 26 meter long pipes (to convey creek water through the site) covered with sandbags and gravel. Placement of columns will occur from the banks. Demolition debris will be prevented from entering the channel with protective covers.	NOE

2001112020	Ongoing Operations at the West Central Landfill Shasta County --Shasta Ongoing development of Phase II at the WCL as currently permitted by the California Integrated Waste Management Board. Phase II covers 100 acres. The WCL, owned by Shasta County, has been operational since 1982. It is permitted as a Class III solid waste disposal site, serving the western portion of Shasta County. The site has been developed in two phases. Phase I was operated from 1982 through 1991, and covers approximately 20 acres. Ponds, access roads, a maintenance building and associated facilities cover about 80 acres. A Final Closure and Postclosure Maintenance Plan for Phase I was prepared for Shasta County in December 1990. The Phase II portion of the landfill is being developed in subphases over a period of 20 to 25 years. Phase II began receiving waste in the summer of 1991. The WCL receives approximately 120,000 tons of solid waste annually.	EIR	04/18/2003

2003038067	Drinking Fountain Installation Parks and Recreation, Department of --Santa Cruz Relocate and install 2 drinking fountains in Henry Cowell Redwoods State Park to meet Americans with Disabilities Act (ADA) requirements. The first drinking fountain will be fabricated on-site; located on the walkway adjacent to the Main Day Use Parking Lot; and require a 14-foot trench, approximately 18" deep to install a waterline. A 55 gallon, drum size french drain filled with drain rock will be installed for drainage. The second drinking fountain will be located approximately 30 feet from the front entrance of the Henry Cowell Visitor Center. Installation will require a 4-6 foot trench to connect this fountain to an existing water line. The distance between the two fountains is 325 feet. This project will meet ADA requirements and support visitor services.	NOE	
2003038068	Schoolhouse Restroom Parks and Recreation, Department of --Tuolumne Construct accessible restroom with associated utility and sewer lines in parking area for historic Schoolhouse at Columbia State Historic Park. Construct accessible path around restroom and install ADA parking space next to structure. Project improves visitor services and accessibility and supports continued use.	NOE	
2003038069	Installation of Weirs in the Outlet Channel of an Irrigation Pond on San Vicente Creek Fish & Game #3 --Santa Cruz The project includes the installation of two small weirs to facilitate the out-migration of salmonids from an irrigation pond located off-stream of San Vicente Creek. All work will be done by hand and all construction will be isolated from both San Vicente Creek and the irrigation pond. Issuance of a Streambed Alteration Agreement Number 1600-2003-0104-3 pursuant to Fish and Game Code Section 1603.	NOE

2003038070	Valley Green Bank Stabilization Fish & Game #3 Napa--Napa The operator proposes to stabilize the toe of a bank on Browns Valley Creek located behind the Townhouses, Assessor's Parcel Numbers 050-030-014 and 015, on Valley Green Lane in Napa, Napa County. The bank had been stabilized in the past using gabion baskets, which are failing and on the verge of causing catastrophic damage to the creek bank. The creek makes a hard left (looking downstream) and has undercut the gabions and a large bay tree. In the scoured area and under the gabions and bay, a large pool has formed. To stabilize the bank, the operator is proposing to install a-jacks under the gabions. Issuance of a Streambed Alteration Agreement Number R3-2002-0916 pursuant to Fish and Game Code Section 1603.	NOE	
2003038071	Benessere Pierce's Disease Project Fish & Game #3 St. Helena--Napa The Operator proposes to remove Pierce's Disease (PD) host plants along the Napa River located at Benessere Vineyard, north of Big Trees and south of Bale Lane, St. Helena, Napa County and replace them with native riparian species. Issuance of a Streambed Alteration Agreement Number 1600-2003-0053-3 pursuant to Fish and Game Code Section 1603.	NOE

2003032025	<p>East Bay Habitat for Humanity Site Department of Toxic Substances Control Oakland--Alameda</p> <p>The project is the removal of soil containing chemicals above levels safe for residential land use at an approximately 2-acre parcel located at 10900 Edes Avenue in the City of Oakland, California. the Site is zoned as a mixed light industrial and residential. The surrounding land use is light industrial and residential. Residences are located to the east and across Edes Avenue to the south. A brick cleaning operation is located to the west and a railroad right-of-way is located on the northeastern side of the Site. The Site is currently an empty lot with multiple concrete pads. A six foot chainlink fence has been constructed around the perimeter of the Site. The project involves the implementation of activities specified in the Removal Action Workplan (RAW) to remove soils with concentrations of benzo(a) pyrene, Aroclor 1254, Aroclor 1260, and lead above levels safe for residential development. The RAW was prepared in accordance with California Health and Safety Code Section 25356.1 (h). Upon approval of the RAW, the recommended remedial alternative consists of: Excavation and off-site disposal of up to 1.100 cubic yards of soil containing chemicals of concern (COCs), which include benzo(a)pyrene, Aroclor 1254, Aroclor 1260, and lead above cleanup goals on the Site; Removal of on-site Debris; Backfilling; Grading; and Confirmation sampling.</p>	Neg	04/04/2003

2003031031	Phillips Minor Use Permit/Coastal Development Permit; D020008P San Luis Obispo County Cambria--San Luis Obispo Proposal by Dane Phillips for a Minor Use/Coastal Development Permit to allow for the construction of a 7,225 square foot residential and 1,250 square foot detached garage resulting in the disturbance of approximately 11,000 square feet. The project is located at the north end of Evelyn Court, approximately 200 feet northwest of Kathryn Drive, in the community of Cambria, in the North Coast planning area.	Neg	04/07/2003
2003031032	Rialto Community Day School San Bernardino County, Superintendent of Schools Rialto--San Bernardino The SBCSS proposes to undertake approximately 4.54 acres of vacant, undeveloped property, located at the northeast corner of the intersection of Rialto Avenue and Arrowhead Avenue, for the purpose of constructing the proposed Rialto Community Day School. The project is proposed to be 10 classrooms totaling approximately 20,000 square feet. The project contemplates the construction of classroom facilities organized in single-story buildings with covered walkways and fencing. Facilities to be constructed include classrooms for up to 200 students in grades seven through twelve (7-12); parking facilities for visitors and staff; parent loading/drop-off area and turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas. The Rialto Community Day School will serve the needs of the SBCSS and the community it serves. The purpose of the project is to provide educational facilities for at-risk junior high and high school students within the area. Education programs will be offered during the day, but occasional evening programs are anticipated.	Neg	04/07/2003
2003031033	Pitkins Curve Pilot Study Project Monterey County --Monterey Coastal Development Permit to allow the transport and placement of approximately 5,000 cubic yards of material from the east side of Highway 1 to the west side of the highway at the same location, and construction of a 180-foot long berm approximately 160 feet above the beach to prevent the material from falling into the Pacific Ocean. The project includes a monitoring plan to assess the effects of potential slide movement and sloughing of material onto the shoreline below.	Neg	04/07/2003
2003032023	Gateway Self-Storage Sacramento, City of Sacramento--Sacramento The proposed project seeks entitlements to develop a 93,877 square foot self-storage facility, a 1,300 square foot office and a 1,300 square foot manager's residence on 5.53+/- acres Goldenland Planned Unit Development in the City of Sacramento. The proposed project would have nine self-storage buildings. There would be one building with the office and manager's residence. An open storage parking area would be included on the western edge of the property. Bike paths are proposed to be constructed as a part of the proposed project within utility easements along the southern and western edges of the property. Parking, gated entrances, fencing and landscaping will also be provided.	Neg	04/07/2003

2003039016	Interim Categorical Waivers of Waste Discharge Requirements for Discharges Related to Timber Operations in the North Coast Region Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Marin, Sonoma, Mendocino, Lake, Glenn, Humboldt, Del Norte, ... The project is an interim policy for waiving waste discharge requirements for discharges related to timber operations. Any such waivers issued pursuant to this policy would be conditional, could be terminated at any time by the Regional Water Board, would be determined by the Regional Water Board not to adversely affect the quality of or the beneficial uses of the water of the State, and not be against the public interest pursuant of California Water Code Section 13269.	NOD	
2003038085	Watershed Facilities Maintenance Parks and Recreation, Department of Tracy--San Joaquin Corral Hollow Creek, an intermittent stream that is subject to regular flood events, winds its way along the northern boundary of Carnegie SVRA, within San Joaquin and Alameda Counties. There are two bridged stream crossings at Carnegie with culverts that require annual clean-out and maintenance yard and the sector office. The culverts have filled with sediment and are severely restricting the flow of water in the creek. This project will involve cleaning out the culverts and excavating an area of approximately 25-ft. long on both sides of the bridges to approximately 4-ft. deep. Approximately 400 cubic yards of cobbles and sediment will be removed from the streambed surrounding the bridges.	NOE	
2003038087	ADA Improvements Parks and Recreation, Department of --Sacramento Project includes various ADA improvements throughout Prairie City SVRA. 1) Moon Room: Minor grading and installation of a cement walkway and ramp to connect the parking lot to the public payphone 2) 70 cc track: minor grading to level soil and install concrete ramp up to the picnic area and shade structure, replace picnic tables with concrete ADA accessible tables, relocate drinking fountain and BBQ to allow for wheelchair access 3) ATV/MX Track area: replace shade structures, replace picnic tables, replace BBQ's, replace fire rings and relocate 2 water spigots 4) Restrooms at main staging area: minor grading and installation of sloping walkway from parking area to existing walkway around restroom facility and 1 picnic table 5) 4x4 Area: minor grading, add fill dirt/road base, installation of concrete slab, shade structure, concrete picnic table and BBQ. All project components are implemented to comply with ADA requirements.	NOE	
2003038088	Implementation of Interim Predator Management Plan Parks and Recreation, Department of --San Luis Obispo The project consists of the implementation of a plan that has been approved by the U.S. Fish and Wildlife Service and the California Department of Fish and Game to contract services that will identify, trap and remove, where feasible, predatory avian and mammalian species known to predate the threatened western snowy plover and endangered California least tern. Both species nest annually within Oceano Dunes SVRA between March 1 and September 30. The interim management plan identifies the avian and mammalian species targeted and identifies specific measures and procedures for the removal of individuals that are negatively impacting the nesting and survival success of the two listed ground nesting birds. This will be the second year for the interim plan. In 2002, the successful removal of loggerhead shrikes and coyotes, in part, were attributed to a	NOE

	successful fledge rate for the western snowy plover at Oceano Dunes SVRA. The project area consists of open, undeveloped beach, open foredunes and open sheet dunes within the SVRA. The project area is within, or adjacent to nesting areas that have been clearly established for the protection of the ground nesting birds. The project will minimally impact the targeted species, as relocation is the appropriate management method, where feasible. There is no anticipated impact beyond park property. The project is an integral part of our annual western snowy plover/ California least tern management plan and is a significant part of the U.S. Fish and Wildlife Service's, Western Snowy Plover Recovery Plan.		
2003038089	Flammable Bulking Variance for Santa Clara County Household Hazardous Waste Program - HHVVAR970101R2 Toxic Substances Control, Department of --Santa Clara Variance to Santa Clara County Health Department, Household Hazardous Waste Program from hazardous waste facility requirements found in California Code of Regulation, Title 22, Section 67450.4, Subsection (e)(2)(A) pertaining to consolidation of solvents, oil-based paints or gasoline during hours when wastes are being collected. This variance is limited to Temporary Household Hazardous Waste Collection Facility, events sponsored by Santa Clara County. Consolidation of wastes provides an appropriate and economical means of disposing household and conditionally exempt small quantity generator (CESQG) hazardous wastes. The variance is based on the evidence that: 1. The consolidation protocol is approved by the local fire and air quality control district and the Department of Toxic Substances Control (DTSC); 2. Waste will be consolidated by trained personnel wearing respiratory protection limited to two-hour sessions with 15-minute rest periods in between; 3. Consolidation area shall be at least 50 feet from areas accessible to the general public; 4. Consolidation shall only be done outdoors and under favorable conditions; and 5. Santa Clara County has been consolidating flammable wastes since December 1993, under variance authority, with no adverse effects to the public health and safety or the environment.	NOE	
2003038090	Rock Slope Protection, San Antonio Creek at Hwy 150 Ojai, City of Ojai--Ventura Rock slope protection on the southeast bank of San Antonio Creek from the bridge abutment downstream 60 feet and to a height of 11 feet. 2003038093	<p>California. The site is located in the city block bounded by E Street to the east, Baseline Street to the south, F Street to the west, and 13th Street to the north. In relation to the adult school facility, the vacant lot is located one block north of the existing adult school parking lot, and west of the adult school facility and main parking lot (across Acacia Avenue). The vacant lot is approximately 7,000 square feet in size and is currently used on occasion for parking by adjacent residential neighbors. The lot is being offered by the sell or as a condition of purchasing three lots that were approved by the District under a categorical exemption in September 2001. This fourth lot will also be used by the District for additional parking for adult school students and faculty. The lot will provide approximately 12 additional parking spaces.</p> <p>Door Installation - Call Ranch Barn Parks and Recreation, Department of --Sonoma</p> <p>Install entry door to work shop housed within historic Call Ranch barn at Fort Ross State Historic Park to provide a more accessible entrance/egress to park staff. Currently, staff must open a large heavy sliding door to enter and exit the structure, which could potentially pose a safety hazard in an emergency situation. New door will be constructed in kind and will not affect historic fabric or integrity of structure; all work will be reversible. The project protects public safety and accessibility and supports continued use and maintenance.</p>	NOE	
2003038094	<p>Tracy Tire Fire Site, Phase I San Joaquin County Gorman--Ventura</p> <p>On August 7, 1998, the tires being illegally stored at the TTFS were ignited. It was estimated that the site contained seven million tires when the fire erupted. The fire burned for more than two and a half years before being extinguished by the Board in December 2000. Approximately 45,000 to 60,000 cubic yards of zinc and lead contaminated materials remain on site. The remnants of the burned tires include ash, wire, and pyrolytic oil. The site also contains abandoned vehicles, metal debris, scorch equipment, 50,000+ used oil filters, and a number of used oil drums. The site remedial action plan for the removal of the contaminated soil is being completed by the California Integrated Waste Management Board and coordinated through the Department of Toxic and Substances Control and the Central Valley Water Quality Board. This report should be available by early June 2003. This Notice and Exemption only covers the removal of the abandoned vehicles, metal debris, scorched equipment, 50,000+ used oil filters, used oil drums and site logical issues (i.e., power, communications, access issues and restrictions for Phase II). The Board's remediation contractor will remove and haul the oil filters, solid waste, and drums of used oil to an appropriate facility. Metal debris, including appliances, vehicles, and equipment, will be segregated from solid waste and hauled to appropriate recycling facilities. Once the debris is removed, the Board's contractor will begin setting up a staging area for future remediation work and then demobilize. No new roads or work areas will be created in the gravel pit during this phase of the Tracy Tire Fire Remediation Project. All work will be from previously established roads and work/storage areas.</p>	NOE

2003031035	Old Orchard Elementary School Newhall School District --Los Angeles The Newhall School District ("District") proposes to undertake the construction of six permanent classrooms, two office/administration buildings, restrooms and a multi-purpose room on the existing campus of the Old Orchard Elementary School ("Project"). The Project contemplates construction of classroom facilities organized in single story buildings on the existing campus, with the two office/administration buildings being constructed on the southwest side of campus, the six classrooms being constructed on the southeast side of campus. The six additional classrooms will accommodate approximately 150 students. The new multi-purpose room will be constructed on the northeast corner of the existing campus and will provide the school with improved facilities for existing school activities, including but not limited to rainy day lunches and all-school assemblies. The multi-purpose room will also be available for community use pursuant to the District's existing facility use permit process. The new multi-purpose room is approximately 9,000 sq.ft. in size. Lighting for the Project will include low level security lighting for the new buildings and associated pedestrian areas. The Project will serve the needs of the District and the community it serves. The purpose of the Project is to provide educational facilities for elementary school students within the District. Education programs will be offered during the day, but occasional evening programs are anticipated consistent with the existing uses of the Old Orchard Elementary School.	Neg	04/08/2003

2003031036	<p>MarBorg C&D Waste Recycling and Transfer Facility, 119 N. Quarantina Street Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The project would involve a voluntary lot merger of two parcels involving acquisition of the 0.5-acre nursery parcel and demolition of its on-site structures, and construction of a new metal roof structure to cover the existing uncovered waste recycling/transfer operation. The roof structure is proposed to cover an area of 75,300 square feet, including the reconfigured recovery, sorting, and transfer equipment and operations. Truck queuing and scales will remain outside the roof structure. A separate 1,187 square foot one-story restroom/locker room building and patio area is also proposed for employees. The project includes construction of a 14-foot tall wall along the eastern and northern boundaries of the project site. Drainage improvements will capture some storm water runoff from roofs and paved areas for onsite tire washing and dust suppression, and provide for runoff directed to the storm drain along Quarantina. The site cover and drainage improvements are intended to improve runoff water quality in accordance with current regulations. Landscaping is proposed to be installed around the perimeter of the site for visual screening. Signage would be provided at the facility in accordance with current regulations. The project proposes to improve site access and circulation by (1) creating a single main entrance and exit for incoming load traffic off of Quarantina Street at Mason Street; (2) separating the tipping areas for self-haul trucks and larger commercial trucks; and (3) creating an internal loop road so that large transport trucks can enter off the Yanonali Street cul-de-sac, travel through the property, and exit at Mason Street. The project would provide eighteen uncovered parking spaces for employees on the site along the southern property boundary. Operational capacity of the facility is proposed to be increased from the current permitted maximum of 500 Tons Per Day (TPD) to 750 TPD. Existing hours of operation are 6:00 a.m. - 6:00 p.m. Monday-Friday and 6:00 a.m. - 4:00p.m Saturday. These hours would continue for waste receiving, but would extend to 10:00 p.m. Monday-Friday for onsite waste processing waste transfer. The facility currently employs 36 persons, and anticipates potentially increasing employees by up to four (4) with the project capacity change. The duration of the project construction process is estimated at 11 months, with earthwork for site preparation estimated at 1,500 cubic yards of soil, balanced on site.</p>	Neg	04/08/2003

	foot) paved median. The relocation of existing traffic signals, electrical equipment, and signs in the median and outside of the existing shoulders to match the widened intersection. The addition of a second left turn lane from Airport Boulevard to Route 29 to provide additional capacity. The proposed project would be completed within state right-of-way. No additional right-of-way would be required.		
1998062011	Westside Annexation Cloverdale, City of CLOVERDALE--SONOMA The developer of Vintage Meadow II and III subdivisions in Cloverdale, Sonoma County, proposes to construct two road crossings and two storm drain outlets on an unnamed ephemeral tributary to Heron Creek, tributary to Porterfield Creek, thence the Russian River. The crossing will consist of pipe culverts about 80-feet long with concrete headwalls and rock energy dissipaters on the downstream ends. The project location is immediately west of Franklin Street and south of the Vineyard Meadows Subdivision. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0647 pursuant to Section 1603 of the Fish and Game Code to the project operator, Linda Mackey/Sonoma Family Homes, Inc..	NOD	
1998102084	Specific Plan Amendment No. 3 to the Bridle Ridge Specific Plan (SP 98-01) Oakdale, City of Oakdale--Stanislaus The subdivision of 123 acres of land into 493 lots for single family residences within a portion of the Bridle Ridge Specific Plan (BRSP) area. Lot sizes range from approximately 5,000 to 15,000 square feet in size and is proposed to be constructed in four development phases including Phase A: 157 lots; Phase B: 111 lots; Phase C: 86 lots; and Phase D: 138 lots. The proposed subdivision map is consistent with the Oakdale General Plan: Bridle Ridge Specific Plan (SP-2) and the SFLDR (Single-Family Low Density Residential [2 to 6 dwelling units per acre gross]) land use designations.	NOD	
1999102104	PA 98-062, Greenbriar Homes Planned Development Dublin, City of --Alameda The operator proposes to construct two free span vehicle bridges and an outfall on Tassajara Creek, west of Tassajara Road and south of Dublin Ranch River in the City of Dublin, Alameda County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0979 pursuant to Section 1603 of the Fish and Game Code to the project operator, Yim Quinn/GHC Investment, LLC.	NOD	
2001021059	Corporate Pointe Commercial Office Project Agoura Hills, City of Agoura Hills--Los Angeles The project will construct two commercial office buildings totaling 85,749 square feet at 30300 Agoura Road. The total parcel area is 105.22 acres and extends south of the Reyes Adobe/Agoura Road Intersection along the south side of Agoura Road. The total building area will comprise of approximately 5.2 acres. The project is located within the Ladyface Mountain Specific Plan.	NOD

<u>Documents Received on Monday, March 10, 2003</u>			
2002101158	Compton Industrial Redevelopment Project Compton, City of Compton--Los Angeles The project site consists of three parcels of land totaling 8.5 acres with two existing buildings totaling approximately 165,200 square feet and a building foundation slab of approximately 5,500 square feet where a building previously existed. Proposed is the demolition and subsequent construction of 180,000 square feet of new industrial, manufacturing, and/or warehouse-related uses over the three parcels. A parcel map (Tentative Parcel Map No. 26697) is required to reconfigure the subject property into ten parcels.	NOD	
2002111041	Del Dios Water Tank Telecommunications Facility, P94-022W1, Log No. 94-08-026D San Diego County Department of Planning and Land Use --San Diego The project proposes the combination of four telecommunication facilities, which is an expansion to a previously approved cellular facility, Major Use Permit Number P94-022, which was approved by the Planning Commission on November 15, 1994. Three other Minor Use Permit applications including, ZAP 00-063 by Nextel Communications, ZAP 00-002 by Spring PCS, and ZAP 01-054 by Cingular Wireless, were approved by the Zoning Administrator on January 28, 2003. Major Use Permit, P94-022W1, is a modification to the approved Major Use Permit Number P94-022 by AT&T Wireless Service to construct two equipment cabinets adjacent to three existing AT&T antennas that are mounted on an existing 28-foot water tank. The new cabinets will not exceed 6 feet 8 inches in height. The project proposes to add one new telephone equipment cabinet, 2 feet by 6 inches square, and one Cellular Digital Packet Data (CDPD) cabinet, 2 feet square. An 8-foot tall sound attenuation wall will be constructed on the north side of the lease area. The existing 79.75 square-foot slab would be expanded by 3.125 square feet to accommodate the new equipment. The site will utilize 150 square feet adjacent to the existing 28-foot Del Dios Mutual Water Company water reservoir in the San Dieguito Community Planning Area. Furthermore, access to the project site is provided by an existing dirt road via Orange Lane. The project is located at 9885 Orange Lane on a small hill overlooking Del Dios Highway in the San Dieguito Community Plan within the unincorporated area of San Diego County. The parcel measures 21.78 acres and the zoning use regulation is Rural Residential (RR-5).	NOD	
2002112100	Laguna Gateway, Phase 2 (EG-02-298) Elk Grove, City of Elk Grove--Sacramento The 15.1 acre project includes the following entitlements: General Plan Amendment from Office/Multi-Family to Commercial; Rezone of the parcel from SPA (MP) to SPA (SC); Revisions to the Laguna Gateway SPA Ordinance required to support the General Plan Amendment and Rezoning; Tentative Subdivision Map creating 11 commercial parcels; and Development Plan Review.	NOD	
2002121023	Commission Review and Approval No. 752 (City of Redlands North Orange Wellfield Project) Redlands, City of Redlands--San Bernardino Commission Review and Approval to construct (3) groundwater wells on property containing a mining and material processing facility (Orange Street Processing Plant) in the O (Open Land) District. 2003011005	Chaffey West Community School San Bernardino County, Superintendent of Schools Montclair--San Bernardino The SBCSS proposes to undertake the acquisition of approximately 5.09 acres of partially undeveloped property containing several business structures and storage buildings, located at 5033 - 5091 Holt Boulevard, for the purpose of constructing the proposed Chaffrey West Community School, an alternative junior high/ high school ("Project"). The Project is proposed to be twelve classrooms totaling approximately 21,000 square feet. The Project contemplates construction of classroom facilities organized in single-story buildings with covered walkways and fencing. Facilities to be constructed include classrooms for up to 220 students in grades seven through twelve; parking facilities for visitors and staff; parent loading/drop-off area and turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian area.	NOD	
2003011129	Downtown Pismo Beach General Plan/Local Coastal Plan Amendments Pismo Beach, City of Pismo Beach--San Luis Obispo Amendments to policies to permit a wider variety of lan users.	NOD	
2003012018	NPDES Storm Water Quality Management Plan Environmental Review #XVI-02-22 Madera, City of Madera--Madera Adoption of a Storm Water Management Plan. This plan will become a blueprint to guide the city in its efforts toward storm water quality improvements. It will encompass all areas within the city's boundaries, be applicable to all future annexation areas, and apply to all types of land uses. It will incorporate public education, outreach, and public participation to allow ordinary citizens to join those efforts. It will also include elements that will affect construction activities, illicit discharges, and pollution prevention and good housekeeping practices by the city. The National Pollution Discharge Elimination System requires that to the maximum extent practicable, using best management practices, communities do what they can to reduce the pollution enter our streams, canals and storm water basins.	NOD	
2003039023	Foothill Municipal Water District Conjunctive Use Project Foothill Municipal Water District Pasadena--Los Angeles The proposed project will put to use 8,000 acre-feet of the 12,000 acre-feet of Raymond Basin groundwater storage capacity allocated to Foothill purveyors by the Raymond Basin Management Board (RBMB). The Proposed Project will provide a multi-year increase in groundwater storage, increased water supply reliability, increased groundwater elevations reduced pump lifts and allow for dry-year yields at a low cost.	NOD	
2003039024	Mullholland Hill Development Moraga, City of Moraga--Contra Costa As part of the development of three lots on ten acres, the operator proposes to impact an unnamed tributary to Laguna Creek, at the end of Crossbrook Drive in Moraga, Contra Costa County. The existing concrete riprap along approximately 35 linear feet of the northeast bank, 20 feet upstream from the culvert inlet, will be removed and the bank will be excavated to widen the channel to a bed width of 4 feet. The California Department of Fish and Game is executing a Lake and	NOD

	Streambed Alteration Agreement Number R3-2002-0918 pursuant to Section 1603 of the Fish and Game Code to the project operator, Vesty Enea/Appian Construction.		
2003039025	Olney Creek Obstruction Removal Western Shasta Resource Conservation District --Shasta The Olney Creek fish passage Removal / Channel Shaping project is accessed off of Texas Spring Road. The actual work site is approximately 200' upstream of the fork between Tadpole and Olney Creek. Work will consist of removing the center portion of the existing structure as to not disturb the existing concrete abutments. Concrete incorporates existing rocks in the channel; these rocks will be left as directed by the engineer. The concrete removed has iron / steel reinforcing embedded in the concrete. Extreme care will be needed when removing the concrete / metal from the channel bed; all metal will be cut flush with the existing abutments.	NOD	
2003039026	Foothill Area Groundwater Storage Project Metropolitan Water District of Southern California --Los Angeles Construction of an Aquifer Storage and Recovery well, VOC treatment system, and a pump station upgrade in the FMWD service area. The Foothill Area Groundwater Storage Project would enable Metropolitan to store up to 9,000 acre-feet of water in the Raymond Basin when surplus water is available and produce 3,000 acre-feet per year for overlying demand during dry, drought, or emergency periods.	NOD	
2003038097	Stabilize Roads Parks and Recreation, Department of --Sonoma Reshape roadbeds and replace degraded culverts along upper Mountain Trail, Hayfields Trail, and Treadmill Trail at Jack London State Historic Park; remove duplicate, operationally unnecessary, degraded backcountry roads where feasible. Trails indicated are actually backcountry access roads. Mountain and Hayfields Trails, and the lower portion of Treadmill Trail, will be stabilized and continue as primary access roads; Upper Treadmill Trail will be decommissioned, with the historic footprint of the roadbed (fake full pull) left as a visible linear feature on the landscape. A new connecting trail will be constructed to connect lower Treadmill Trail with the Sonoma Ridge Trail. A one-time primary application of herbicide (Garlong 4 and Telar) will occur in the first spring following construction to prevent recruitment of weedy species; minor follow-up applications may be required to control newly recruited weeds. Work will reduce erosion, stabilize roadbase for continued vehicle use, restore natural drainage patterns, facilitate emergency access, and reduce the discharge of sediment into the South Fork of Graham Creek.	NOE	
2003038098	Mammoth Bar OHV Stream Crossings Parks and Recreation, Department of Auburn--Placer Construct 24 ephemeral stream crossings within the Mammoth Bar OHV Area of Auburn State Recreation Area to meet the OHV Soil Conservation Standards, maintain stream integrity, and minimize erosion. Types of crossings to be installed include gravel pad approaches, concrete low water crossings, and gabions. Several culverts will also be installed or replaced. Work will be done when creeks	NOE

2003032047	Topaz Reservoir Inlet Canal Levee and Dam Reconstruction Project Fish & Game #7 --Mono Move and reconstruct diversion structure on canal entrance and on river. Construct new 800 feet wing levee. Raise 6500 lineal feet of levee and 4500 lineal feet of dam, three feet with the fill material falling to the landside of the levee and dam. Construct and restore wetland mitigation in process of implementation. There is no loss of wetland.	Neg	04/09/2003
2003032050	DDSD Bridgehead Expansion Project Delta Diablo Sanitation District Antioch--Contra Costa The project, which includes construction of a new pump station and installation of a new 2.2 mile-long force main, would increase the capacity of the existing Bridgehead Pump Station from 3.5 million gallons per day (mgd) to 10.5 mgd. The additional capacity is needed to accommodate wastewater flows from planned buildout under the Antioch General Plan.	Neg	04/09/2003
2003032052	Shell Marsh Creek Pipeline Replacement Project Contra Costa County Clayton--Contra Costa This is a notice of a revised tree permit for a 5-6 mile section of pipeline replacement. An addendum was prepared for the already approved MND in November 2001.	Neg	03/20/2003
1997101065	Effluent Pump Station Annex and Collection System Odor and Corrosion Control Program Orange County Sanitation District Huntington Beach--Orange SAA #R5-2002-0049 Alter the streambed to complete the Bushard Street Trunk Sewer Rehabilitation Project. This will include replacing the existing 54-inch concrete reinforced sanitary sewer pipe which runs along Bushard Street with a 108-inch concrete reinforced pipe. The existing sewer line crosses underneath the Fountain Valley Flood Control Channel at one location using four 30-inch diameter pipes.	NOD	
1998012011	City of Roseville Water Treatment Plant Expansion Project Roseville, City of Roseville--Placer, Sacramento This SEIR addresses the proposed construction and operation of a six mg clearwell reservoir and related facilities. The proposed clearwell reservoir consists of one six mg tank located at the northern portion of the project site.	NOD	
2001032074	Rock Creek Road at Rock Creek Bridge Replacement Shasta County --Shasta Replace an existing timber and steel truss bridge with a cast-in-place post-tensioned box girder concrete bridge on Parkville Road at Bear Creek.	NOD	
2001052061	Highway Widening and Interchanges, SR 70/149/99/191 Caltrans #3 --Butte Upgrade State Route (SR) 149 in Butte County to a four-lane expressway and construct interchanges at the SR 70/149 and 99/149 intersections.	NOD

<u>Documents Received on Tuesday, March 11, 2003</u>			
2002112022	<p>Sacramento Regional Recycling Development Marketing Zone Re-designation and Expansion Project Sacramento, City of Sacramento, Citrus Heights, West Sacramento, Folsom, ...--Sacramento, Yolo</p> <p>The proposed project is the expansion and redesignation of the existing Recycling Market Development Zone. The RMDZ program is a partnership of local governments and the California Integrated Waste Management Board (CIWMB), created to provide incentives to businesses that use secondary materials from the waste stream as feedstock for their manufacturing processes. The purpose of the program is to create sustainable markets for diverted solid waste materials by increasing the use of recycled materials as manufacturing feedstock, and to strengthen the local manufacturing sector of the recycling industry by offering financial, technical, and marketing incentives to small and medium size manufacturers. With all jurisdictions participating, the SRRMDZ would increase from 4,500 acres to over 636,000 acres, of which more than 20,000 acres are currently zoned industrial.</p>	NOD	
2003012006	<p>Coffin, Bell and Sumner General Plan Amendment, and Rezone Trinity County Planning Department --Trinity</p> <p>General Plan Amendment from Agriculture to Rural Residential; and rezone of 69.04 acres from Agriculture 10-acres minimum (AG-10) to Rural Residential 5-acre minimum (RR-5).</p>	NOD	
2003012015	<p>Dzur Tentative Parcel Map Trinity County Planning Department --Trinity</p> <p>Tentative parcel map to create two parcels and determination of public access.</p>	NOD	
2003012016	<p>Phibro-Tech Inc. Closure Plan Approval Toxic Substances Control, Department of Union City--Alameda</p> <p>Pursuant to Chapter 6.5 of the Health and Safety Code, Philbro-Tech, Inc. has prepared and submitted a Draft Closure Plan for closure of their interim status hazardous waste treatment and storage facility (the Facility) in Union City, California to the Department of Toxic Substances Control (DTSC) for its approval. The proposed project is the approval of the Draft Closure Plan which provides for the proper closure of the regulated hazardous waste management activities and the hazardous waste storage and treatment units at the Facility. All wastes to be removed from the facility at closure will be characterized as hazardous or non-hazardous at the time closure activities take place. Wastes will be determined to be Federal RCRA hazardous wastes, California hazardous wastes, or non-hazardous wastes. All wastes recovered at the site will be treated and/or disposed of at permitted facilities in accordance with all applicable regulations.</p>	NOD	
2003022040	<p>Coastal Watershed Road Removal Project Parks and Recreation, Department of --Humboldt</p> <p>-Full road contouring of approximately 40 miles of abandoned, unstable service and skid roads within the coastal sub-watersheds. The work would include excavation of embankment fill from roads and stabilization of excavated materials on cutbench to fully recontour to natural (pre-disturbance) topography. Project would stabilize approximately 130,000 cubic yards of road fill that is potentially deliverable to streams if left untreated.</p>	NOD

<u>Documents Received on Tuesday, March 11, 2003</u>			
	-Removal of fill material from 203 stream crossings associated with the service and skid roads indicated above. The majority of the crossings have no flow during the construction season and are typically small fill crossings. Stream crossing removal includes excavation of road and landing fill from road/stream channel crossings and stabilization of excavated materials. Stream channel bed, banks, and adjacent slopes would be restored to their pre-crossing configuration and longitudinal stream gradient reestablished through the crossing site. Project would remove approximately 55,489 cubic yards of potentially deliverable sediment from these stream crossing sites.		
2003039022	Lake or Streambed Alteration Agreement for Notification #02-0319, Applicant Proposes 15 (fifteen) Crossings for Timber Harvesting Activities on the Van Duzen and Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is executing a lake or streambed alteration agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, [Mr. Leland Rock representing himself]. The applicant proposes 15 (fifteen) crossings for timber harvesting activities on the Van Duzen and Eel Rivers, Salt, Williams, Oil, Howe, and Rohner Creeks, Humboldt County.	NOD	
2003038138	National Park Service-Salmonid Habitat and Floodplain Restoration at the Banducci Site, Lower Redwood Creek, Golden Gate National Recreation Area, Marin County Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Marin The proposed project is intended to enhance rearing and winter refugia habitat for salmonids, expand riparian vegetation cover, reconnect the creek with its floodplain, halt erosion of an unstable bank, and enhance habitat for nesting neotropical songbirds. The project site is a 28-acre former farm field located at the lower elevations of the Redwood Creek Watershed.	NOE	
2003038139	Stormwater Management Program Napa County --Napa The County of Napa, Cities of Napa, St. Helena, and the Town of Yountville are applying for a National Pollution Discharge Elimination System ("NPDES") Phase II permit on March 10, 2003. To meet the requirements of the NPDES Phase II regulations, the County will adopt a Countywide Stormwater Management Program and authorize the filing of a Notice of Intent to Comply with the terms of the State Water Resources Control Board for Storm Water Discharges for small Municipal Separate Storm Water Sewer Systems.	NOE	
2003038140	Rehabilitation of Lost Creek, Manzanita Creek, East Hat Creek and Forest Creek Water Intake Structures in Lassen Volcanic National Park Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta, Tehama All four drinking water intakes that are being rehabilitated were built in the 1960's. Each site has a bed of leach rock approximately 15' x 30' x 4' with a concrete filter bed wall designed to slow the water flow over the bed to create a roughing filter effect. These filter beds have a series of under-drains (perforated pipe) under the bed that directs the water to a settling basin and on to the filtration plant. The leach rock was replaced at each site approximately 14 years ago but weekly hand digging of the rock is necessary to release silt build-up before it becomes	NOE

	imbedded in the deeper layers of rock. The infiltration pipes are becoming clogged with silt resulting in lower flow rates to the drinking water filtration plants.		
2003038141	Mirada Surf Acquisition State Coastal Conservancy --San Mateo Authorization of a grant of \$1,600,000 to the County of San Mateo towards the acquisition of the Mirada Surf property, located in San Mateo County, and for planning and design of a segment of the Coastal Trail.	NOE	
2003038142	Rancho Corral de Tierra Acquisition State Coastal Conservancy --San Mateo Grant of nine million dollars to the Peninsula Open Space Trust (POST) for the acquisition of 4,262 acres of open space land known as the Rancho Corral de Tierra for future inclusion in Golden Gate National Recreation District.	NOE	
2003038143	Issuance of Streambed Alteration Agreement #03-0026 Fish & Game #1 Mount Shasta--Siskiyou The project proposes to replace two failed structures on unnamed tributaries to Cold Creek along Interstate 5. Site one will replace a concrete slab covering two sewer lines with a new slab that has 4' vertical cutoff walls to prevent future failure. Site two will replace a failed culvert. Both replacements will occur at the same location and will serve the same purpose as the structures being replaced.	NOE	
2003038144	Issuance of Streambed Alteration Agreement #03-0028 Fish & Game #1 --Humboldt This project will dismantle and reconstruct the Yager Creek 2nd Bridge across Yager Creek, tributary to Van Duzen River, in the same location as currently installed.	NOE	
2003038145	Minor Changes in Operations at the Hazardous Waste Handling Facility Ernest O. Lawrence Berkeley National Laboratory Berkeley--Alameda In conjunction with its application for renewal of its Hazardous Waste Handling Facility (HWHF) permit, the Ernest O. Lawrence Berkeley National Laboratory (Berkeley Lab) has proposed to re-categorize several existing waste streams and add one new waste stream to the list of hazardous waste streams accepted at the HWHF.	NOE	
2003038148	Shutdown of the Lower Feeder and Annual Maintenance of the Corona and Temescal Hydroelectric Power Plants Metropolitan Water District of Southern California Corona--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to perform annual preventative maintenance of the Corona and Temescal hydroelectric power plants located in the city of Corona and unincorporated Riverside County, respectively. The proposed project involves maintenance and testing on switchyard equipment, generator, turbine, and auxiliary systems. The work will involve electrical and mechanical checks on equipment at the power plants. In addition, Metropolitan proposes to shutdown and dewater portions of the Lower Feeder pipeline at locations from Lake Mathews to the city of Corona in order to perform maintenance work at various locations. Discharged flow will be contained to existing natural and man-made drainage channels and catch basins	NOE

	adjacent to the discharge locations.				
2003038149	Lease of Existing Office Space Justice, Department of Sacramento--Sacramento The Department of Justice proposes to lease approximately 4,500 net usable square feet of existing office and warehouse space.	NOE			
2003038150	Chevron USA Inc. Richmond Refinery, Post-Closure Permit Toxic Substances Control, Department of Richmond--Contra Costa The project is the issuance of a post-closure permit for the Chevron USA Inc., Richmond Refinery Landfarms 1 through 5. Chevron has closed the Landfarms as a hazardous waste land treatment unit by establishing a final vegetative cover over the units. As part of the closure and post-closure activities, Chevron was required to maintain the vegetative cover to minimize infiltration of water and ensure that there is no migration of hazardous waste into the groundwater due to irrigation, maintain and protect the Groundwater Protection System (GPS) to prevent movement of the potentially contaminated near- surface groundwater into surface water, and monitor the concentration of the constituents of concern at the Landfarm's groundwater. The post- closure permit sets permit conditions that will specify the post- closure care and environmental monitoring of the Landfarms. Except for maintenance, which includes groundwater wells replacement, no additional construction is expected at the Landfarms.	NOE			
2003039021	Cotswold Development, Master Case 01-346 Fish & Game #5 Santa Clarita--Los Angeles Alter the streambed by creating 18 single-family residential lots on 21.3 acres. The proposed construction will result in the fill of an unvegetated erosion channel. The project will impact 0.07 acres of jurisdictional area. The length of the streambed is 613.5 linear feet. SAA #R5-2002-0343	NOE

<u>Documents Received on Wednesday, March 12, 2003</u>			
1999101088	Rix Facility Recycled Water Use Project San Bernardino Valley Municipal Water District --San Bernardino, Riverside, Orange The City of San Bernardino currently discharges approximately 40 million gallons per day (mgd) from the Regional Rapid Infiltration and Extraction (RLX) Facility to the Santa Ana River. The City of San Bernardino, in conjunction with Western Water Company, intends to market the excess tertiary effluent from the RIX facility (currently estimated to be about 15 MGD, or 16,794 acre-feet per year) and sell the excess effluent for long-term beneficial uses to water users in the region. For the purpose of this environmental document, the proposed action is a Recycled Water Sale Project, of up to 18,000 acre-feet of RIX facility tertiary treated effluent, to potential water suppliers within the southern California region and support infrastructure required to deliver the recycled water to purchasers.	EIR	04/25/2003
2001051091	Waterworks District No. 40 Antelope Valley Aquifer Storage and Recovery Project Los Angeles County Department of Public Works --Los Angeles Los Angeles County Waterworks District No. 40-Region 4 (Lancaster), proposes to construct injection/extraction facilities for an Aquifer Storage and Recovery (ASR) project in the City of Lancaster. The ASR project would inject treated State Water Project (SWP) water into the Lancaster Subbasin for subsequent recovery of the supplies during high demand periods or during drought cycles. The proposed project calls for the installation of 11 new wells and the modification of 4 existing wells. The project will also require the installation of pump/hydroelectric stations, pipelines and related facilities.	EIR	04/25/2003
2002021120	San Diego Creek Watershed Natural Treatment System Program Irvine Ranch Water District Irvine, Tustin, Lake Forest, Laguna Hills, Laguna Woods, ...--Orange The NTS plan is a watershed-wide system for the natural treatment of storm runoff and dry weather flows generated within the 122 square mile San Diego Creek Watershed and approximately 1.3 square miles of the Santiago Creek Watershed. The Santiago Creek Watershed is a tributary of the Santa Ana River. The NTS plan consists of a system of 31 constructed water quality treatment wetlands. These facilities use wetlands vegetation and take advantage of naturally occurring physical, chemical, and biological processes to treat the runoff and dry weather flows. The natural and man-made drainage features within the San Diego Creek Watershed all drain via San Diego Creek and its tributaries into Upper Newport Bay. These flows then enter Lower Newport Bay on their way to the Pacific Ocean.	EIR	04/25/2003
2003031047	Santa Monica College, Madison Theater Project Santa Monica Community College District Santa Monica--Los Angeles The project site is developed with 39,000 sq.ft. of educational facilities and is used as a community college satellite campus. The project will include: construction of a new 32,302 sq.ft. 500-seat Performance Theater (535 seats when orchestra pit is not in use) converting the existing auditorium into a rehearsal classroom, and resurfacing the parking lot to provide 301 parking spaces.	EIR	04/25/2003

	Agreement Number R3-2001-0806 pursuant to Section 1603 of the Fish and Game Code to the project operator, Kevin Cunningham/ Geysers Power Company, LLC.		
2003039017	Tract Map 29849 Fish & Game Eastern Sierra-Inland Deserts Region Corona--Riverside SAA #6-2003-013 Subdivide the 13.2 acre site into 26 single family residential lots. The project will impact two unnamed drainages containing 0.25 acre of riparian habitat.	NOD	
2003039019	Sukut Development, Tract Map 23271 Fish & Game Eastern Sierra-Inland Deserts Region --Riverside CDFG is executing a Lake and Steambed Alteration Agreement (SAA #6-2003-021) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Sukut Development. The applicant is proposing to place rock rip-rap and two outfall structures along the western bank of Temescal Wash in order to provide bank stabilization and flood protection. The project will impact 1.10 acres of riparian habitat.	NOD	
2003039020	SAA for Notification No. 5-2003-0029, for the Proposed Lake Forest Nature Park Project Fish & Game #5 --Orange The applicant proposes to alter the streambed and bank by the development of a 4.5-acre nature park to serve residents of the City, employees from surrounding industrial/business park and commercial uses, and trail users. The project provides passive recreational opportunities, decomposed granite trail system and native revegetation. The proposed project includes, but is not limited to, interpretive signage, park signage and monumentation, shade/picnic structures, kiosk, bike rack, picnic tables, and benches. Additionally the project involves a decomposed granite trail system with connections to the Serrano Creek Regional Riding and Hiking Trail east of the project site. To accommodate the southern trail connection, a stairway would be built on the eastern concrete embankment just north of the Dimension Drive bridge. The project shall not impact more than 0.015 acre of stream channel, of which approximately 0.007 acre is permanent impacts and approximately 0.008 acre is temporary impacts. All permanent impacts associated with the proposed project are in an area of grouted rip-rap. No native riparian vegetation shall be impacted as a result of the proposed project. The proposed project is located north of Dimension Drive between Bake Parkway and Lake Forest Drive, within the City of Lake Forest, Orange County.	NOD	
2003038151	Lichty Mesa Access Road (02/03-SD-52) Parks and Recreation, Department of --San Diego Project consists of stabilization of the access road to Lichty Mesa in Border Field SP by adding lining and a four-inch layer of aggregate over unsound sandy Bay-Point-Formation soil. Project is designed to avoid known archaeological sites.	NOE

<u>Documents Received on Wednesday, March 12, 2003</u>			
	conducted on the entire 6-mile trunk sewer line. Native habitats on site include oak riparian forest, coastal sage scrub, poison oak scrub, and broom baccharis scrub. The Operator has agreed to mitigate with the enhancement of 0.25 acre of oak riparian forest within Tecolote Canyon Park with the removal of tree-of-heaven and other exotic species.		
2003038159	Slope Restoration on Douglas Bang Property Fish & Game #5 --Los Angeles Alter the streambed by removing debris from the banks of the streambed, removing vegetation and sediment 10 upstream and downstream of the Arizona crossing and box culvert system, recreating a low flow channel removal of exotic vegetation and revegetation of the banks of the streambed with native vegetation.	NOE	
2003038160	McIntyre Property Restoration Project, Streambed Alteration Agreement (SAA R5-2002-0383) Fish & Game #5 Moorpark--Ventura The cutting and treating of up to one acre of Giant Cane (<i>Arundo donax</i>), and other non-native invasive plants infesting a portion of Grimes Canyon Wash, in Moorpark, and revegetating the work area with native plants appropriate to the location.	NOE	
2003038161	Streambed Alteration Agreement Concerning Penasquitos Canyon Creek Fish & Game #5 San Diego--San Diego The Operator proposes to alter the stream to clean and maintain approximately 11,381 linear feet (2.16 miles) of existing 15-inch, 27-inch, and 30-inch vitrified clay pipe, 8-inch, 10-inch, 24-inch, and 27-inch polyvinyl chloride pipe, 24-inch and 30-inch ductile iron pipe from existing manholes, and a section of 60-inch pipe of unknown material, that make up a portion of the Penasquitos Canyon Trunk Sewer and its associated tributary lateral lines. Work will be accomplished using an all surface vehicle (ASV) and trailer mounted bucketing equipment as to the extent possible, along with the City utility trucks where necessary and where access permits. Larger, heavy construction equipment could be needed to grade access routes in some locations because of steep, rocky conditions that are beyond the capabilities of ASVs. Work is to be accomplished only at existing manholes. Equipment access into the canyon is anticipated to be obtained at up to six separate access points: via the stables on Black Mountain Road, a gate on Mercy Road where the County Water Authority Pipeline crosses the creek, from the Penasquitos Pump Station, down a ramp from the bike trail off Poway Road, and from a gate and dirt road off Sabre Springs Parkway. A portion of the access will be provided by driving on existing dirt roads and trails. Access to one section of manholes west of I-5 will be provided by widening an existing hiking trail and bridges known as Penasquitos Canyon Preserve Trans County Trail Connector. Many of the manholes east of I-5 are located within the creek itself, away from existing roads and trails and with adjacent upland habitat steep and rocky, necessitating wetland impacts. Native riparian habitats found on the site include: southern cotton-willow riparian woodland, southern willow scrub, southern coast live oak riparian forest, mulefat scrub, coastal and valley freshwater marsh, and open channel. The entire canyon is located in the Multi-habitat Planning Area of the City of San Diego Multiple Species Conservation Program.	NOE

<u>Documents Received on Wednesday, March 12, 2003</u>			
2003038162	<p>Streambed Alteration Agreement Concerning Unnamed Tributary to Soledad Valley Creek Fish & Game #5 San Diego--San Diego</p> <p>The Operator proposes to alter the stream to clean and maintain approximately 25,373 linear feet (4.8 miles) of existing 30-inch, 27-inch, 24-inch, 21-inch, 18-inch, and 15-inch vitrified clay pipe from 74 existing manholes within Carroll Canyon. Work will be accomplished using an all-surface vehicle (ASV) and trailer-mounted bucketing equipment in areas where native habitat has the potential to be impacted. In areas without the potential native habitat impacts, traditional bucketing equipment will be used. Work is to be accomplished only at existing manholes. Equipment access will be obtained from various locations along the sewer alignment. Route alignments will be chosen along existing trails and access roads to the maximum extent possible and will be selected to minimize damage to biological resources. Minor grading will be required to smooth out uneven areas and widen the temporary access routes to an average 8-foot width to facilitate equipment access. Manholes located within the channel will be permanently armored with rip-rap. Temporary fill material will be required in some locations to facilitate equipment access to manholes, and will be removed when sewer cleaning activities are complete. All work that occurs adjacent to, or in proximity with, native vegetation and wildlife habitat will be monitored by a qualified biological monitor. Following project completion, the biologist will measure all project impacts using a global positioning system and will report final project impacts in a letter biological resources report and impact analysis. Native riparian habitats found on site include: sycamore willow woodland, mulefat scrub, southern willow scrub, and open water.</p>	NOE	
2003038163	<p>Oakland Coliseum Intercity Train Station and Track Project Capitol Corridor Joint Powers Authority Oakland--Alameda</p> <p>The Capitol Corridor Joint Powers Authority (CCJPA) is working with Amtrak, UPRR, and the City of Oakland to add a new passenger rail station and associated track infrastructure at the Oakland Coliseum site, at the end of 73rd Avenue. This project consisting of mostly track and minor station platform construction falls entirely within the UPRR right of way. The improvements include a station siding track, additional track infrastructure, newly bridged track crossings of two waterways, a new 600' passenger rail platform, and other passenger rail station amenities. Required resource agency permits are required for the waterway crossings.</p>	NOE	
2003038164	<p>Berkeley Station Installation of ADA Required Platform and other Station Improvements Capitol Corridor Joint Powers Authority Berkeley--Alameda</p> <p>The Capitol Corridor Joint Powers Authority (CCJPA) is working with Amtrak, Caltrans, and the City of Berkeley to repair and improve the station facility for Americans with Disability Act (ADA) compliance (per Berkeley and Caltrans) and other passenger conveniences. This project falls entirely within the UPRR right of way. The improvements at this location include the installation of four 16-foot wide concrete pedestrian track crossings. Other work at Berkeley will include the upgrade to concrete passenger platforms, benches, lighting, and a "real time" message sign.</p>	NOE

2003038165	Emergency Generator-High Pass, White Star Forestry and Fire Protection, Department of --San Diego The proposed generator and propane fuel tank shall provide an emergency power supply in the event of a service outage. The communications ability provided by this site is vital to the health and safety of emergency law enforcement workers in this remote corner of San Diego County. This proposal includes the installation of: a concrete slab 40 inches by 72 inches for the generator, approximately 10 feet of buried conduit from the propane tank to the generator slab, and the 3 foot by 10 foot location for the 500-gallon propane tank. The proposed modifications shall occur on an area previously graded and altered when the communication site was developed years ago.	NOE	
2003038166	Temporary Placement of Office Trailer - San Luis Obispo HQ Forestry and Fire Protection, Department of San Luis Obispo--San Luis Obispo Placement of a 12 foot by 60 foot Office Trailer adjacent to the CDF Emergency Command Center for up to 36 months. The trailer will be used as office space for three employees who currently have offices in a temporary building placed by the US Forest Service on the CDF Headquarters compound. Originally, the Forest service planned to combine their dispatch services with the CDF in a new office being constructed on the 6-acre CDF HQ compound. The Los Padres National Forest command center is no longer going to combine with CDF San Luis Obispo and six USFS employees will not be located on the compound after June 30, 2003. The temporary office trailer will be used in the time period between when the USFS temporary building is removed and completion of the new CDF office complex. This office trailer project will not add employees to the site. The trailer will have only minor soil disturbance and the possible removal of an ornamental modesto ash tree (<8" dbh). The site was included in an archeological clearance of the entire compound as part of the Negative Declaration process for the overall construction project.	NOE	
2003038167	Alterations at 211 Elmwood Court (Carolyn and Carl Claybaugh, Property Owners) Modesto, City of Modesto--Stanislaus The historical Provincial style house, built in 1927 by Dr. Donald Robertson, is City of Modesto Landmark Preservation Site No. 35. Property owners Carolyn and Carl Claybaugh submitted a proposal to the Landmark Preservation Commission stating that their 76-year old "storybook" home is badly in need of exterior improvements and have proposed the following repairs in order to maintain the economic value, integrity and historic and architectural character of the structure and neighborhood: 1) Paint job; 2) Air conditioning and heating unit; and 3) Weather vane	NOE

2002091037	<p>Los Angeles Harbor College Five-Year Master Plan Los Angeles Community College District --Los Angeles</p> <p>The Los Angeles Community College District is seeking to advance the economic growth and development, as well as global competitiveness of Harbor College through the adoption of the Los Angeles Harbor College Five-Year Master Plan. The Master Plan would maintain the College's commitment to student learning in a supportive and dignified educational environment that recognizes the uniqueness of individuals and provides a center for the cultural enrichment of the community. In the Fall 2001 semester, there were 8,855 students enrolled at Harbor College; the corresponding annualized number of full-time equivalent (FTE) students for the Fall 2001 semester was 3,125. Of the 8,855 students enrolled at the College, 76 percent were part-time students and 24 percent were full-time students. The Five-Year Master Plan would accommodate an anticipated enrollment in the Fall 2008 semester of 10,891 students or 3,843 FTE students. The Master Plan proposes a framework to meet these goals through the construction of new facilities, renovation of and additions to existing facilities, removal of some existing facilities, and the development of new surface parking and/or parking structures, landscaping, and open space. Implementation of the proposed Master Plan projects would result in a net increase in building floor space on the campus of approximately 230,000 square feet (sf). Currently, campus buildings contain approximately 421,000 sf of floor space. The Master Plan construction is expected to commence in 2003 and continue through approximately the year 2008. Funding for a portion of the projects identified in the Five-Year Master Plan would be provided through the \$1.245 billion Proposition A bond measure passed in the Spring of 2001 by the voters of Los Angeles County.</p>	EIR	04/28/2003

2003032061	Construction of Siskiyou County Juvenile Hall Siskiyou County Yreka--Siskiyou Siskiyou County proposes to construct a new 40-bed Juvenile Hall to replace the existing 24-bed juvenile hall in Yreka, California. The proposed facility would be constructed on the same site as the existing facility. The new juvenile hall would consist of an approximately 25,000 square foot facility immediately adjacent to the existing hall on about 3.4 acres of land. The conceptual plans for the facility include two 20-bed housing units with associated recreation and academic rooms. The facility plans also include administrative offices, kitchen and laundry facilities, an institutional and maintenance room, medical room, intake and processing area, two parking areas, a perimeter road, loading area, and a recreational yard. The recreational yard would include a perimeter fence and lighting. The facility would be designated to allow for the addition of new housing units if needed in the future. The new juvenile hall would provide Siskiyou County with a facility that complies with existing design standards for detention and processing of detainees and provides sufficient capacity for existing and future needs. The facility would remedy the substandard conditions present at the existing hall with respect to detainee and correction staff safety, as well as improve the living conditions for the detainees. <u>Documents Received on Friday, March 14, 2003</u>			
2002071113	Santee General Plan Update Santee, City of Santee--San Diego The primary objective of the proposed project is to undertake a comprehensive update of the City's General Plan to enable it to serve as a guide through the year 2020. The General Plan is the primary policy document for the City and is the basis for all decisions regarding the physical development of the City. It expresses the community's vision of its future and is a guide for both long-term and day-to-day decisions and actions of the City. The City's current General Plan was adopted in 1984. Since that time, independent amendments have been made to the various Elements which comprise the Plan; however, the General Plan has not been comprehensively updated since it was adopted in 1984.	EIR	04/28/2003
2002092097	California Academy of Sciences San Francisco, City and County of San Francisco--San Francisco The California Academy of Sciences (referred to as the CAS or the Academy) proposes to build a new CAS on the side of the existing facility in Golden Gate Park. The project site is on Academy Drive, on the south side of the Music Concourse in Golden Gate Park and is bordered on the north by the Music Concourse (across Academy Drive), on the southwest by the Shakespeare Garden, on the south by the Big Rec Ball Field (across Middle Drive East) and on the east by a meadow and woods within the Park, including the McLaren Rhododendron Dell. The project would demolish 11 of 12 existing buildings while retaining and rehabilitating Simson Africa Hall in place. The floor area would increase by approximately 40,000 square feet, from approximately 350,000 sq. ft. to approximately 390,000 sq. ft. Overall, the new Academy would increase the floor area of the museum's functions on a smaller footprint than the existing facility (from approximately 240,000 sq. ft. to approximately 205,000 sq. ft.).	EIR	04/28/2003
2002102117	Proposed Montalvin Manor Redevelopment Project Contra Costa County Pinole, Richmond--Contra Costa The Environmental Impact Report has been prepared in connection with the proposed adoption, and implementation of a Redevelopment Plan, as defined by California Community Redevelopment Law, for the purposes of eliminating blight and revitalizing the Project Area. The Contra Costa Redevelopment Agency is proposing (1) to create the Montalvin Manor Redevelopment Project Area, and (2) adopt a Redevelopment Plan for the Project Area; and (3) an amendment to the County General plan to promote mixed use development on vacant parcels within the Project Area. The Project Area includes multiple parcels in the unincorporated area of Montalvin Manor (western Contra Costa County) approximately one-half mile south of the City of Pinole, bounded by Lettia Road on the north, Murphy Road on the east, San Pablo Avenue on the south and Christine Drive and Kay Road on the east.	EIR	04/28/2003
2002102119	Proposed Downtown El Sobrante Redevelopment Project Contra Costa County Community Development Richmond, Pinole--Contra Costa The Environmental Impact Report has been prepared in connection with the proposed adoption and implementation of a Redevelopment Plan, as defined by California Community Redevelopment Law, for the purpose of eliminating blight and revitalizing the Project Area. The Contra Costa County Redevelopment Agency is proposing to (1) create the Downtown El Sobrante Redevelopment	EIR	04/28/2003

	Project Area; (2) adopt a Redevelopment Plan for the Project Area; and (3) an amendment to the County General Plan that would promote a pedestrian-oriented downtown community and improve traffic circulation. The Project Area includes multiple parcels in the unincorporated area of El Sobrante (Contra Costa County) along San Pablo Dam Road, between El Portal Drive and Appian Way, and along Appian Way, between San Pablo Dam Road, between El Portal Drive and Appian Way, and along Appian Way, between San Pablo Dam Road and Valley View Road.		
1995011015	Newhall Ranch Specific Plan and Water Reclamation Plant Los Angeles County Santa Clarita--Los Angeles The applicant has prepared the Newhall Ranch Specific Plan which covers a total 11,963 acres. As directed by the Court, the County will again consider approval of the Specific Plan and WRP, but only with respect to the additional analysis of the issues indicated above. The Specific Plan includes 22,038 dwelling units on 4,835 acres (including an 18-hole golf course, 10 neighborhood parks and seven schools), 630 acres of mixed-uses (including residential, office, and retail commercial uses), 67 acres of commercial uses, 256 acres of business park uses (including light manufacturing, warehousing and distribution), 37 acres of visitor serving uses, 6,138 acres of open area, 3 community parks on 186 acres, and 367 acres of arterial roads and community facilities (including a new 6.9 million gallon per day water reclamation plant, one library and two fire stations). The Specific Plan would build out over approximately 25 to 30 years, with market forces driving the phasing schedule. Development of the Newhall Ranch Specific Plan area would result in an on-site resident population of approximately 59,000 persons.	FIN	
2002061061	Castaic Lake Water Agency Expansion of Earl Schmidt Filtration Plant Castaic Lake Water Agency --Los Angeles Castaic Lake Water Agency (CLWA) proposes to upgrade and expand the treatment system of the existing Earl Schmidt Filtration Plant (ESFP) from 33.6 million gallons per day (mgd) to 56 mgd. Originally built in 1980 and expanded in 1987, the ESFP treats surface water supplied to CLWA by the State Water Project (SWP).	FIN	
2003032067	Transfer of the Sly Park Unit, Central Valley Project El Dorado Irrigation District --El Dorado Transfer ownership of Sly Park Unit From U.S. Bureau of Reclamation to El Dorado Irrigation District as directed by congress. Unit includes Sly Park Dam & Reservoir (Jenkinson Lake), Camp Creek Diversion Dam and tunnel, and all related conduits, canals, as well as recreational facilities.	JD	04/14/2003
2003031069	Del Mar Fair, Racetrack and Horsepark Master Plan EIR San Diego County Del Mar--San Diego The proposed project is a Master Plan which will update the 1985 Master Plan, and is intended to help guide the development of the 22nd DAA for a period of 15 years. The Master Plan includes 65 proposed recommendations for specific projects, actions, and activities for the Del Mar Fairgrounds/Racetrack property and Horsepark.	NOP	04/14/2003

<u>Documents Received on Friday, March 14, 2003</u>			
2003031072	Uptown and Central City North Redevelopment Project Area Plan San Bernardino, City of San Bernardino--San Bernardino The reinstatement of eminent domain in the Uptown and Central City North Redevelopment Project areas for an additional 12 years. In addition to the reinstatement of eminent domain, there are two projects proposed in Uptown Subarea B. The first is the development of approximately 88,000 square feet of commercial space (general retail) and 550 parking spaces on 8.9 acres. The proposed project may also include additional parking in the form of a 240 space two-level parking structure intended for the use of Metrolink passengers who board across the street adjacent to the Santa Fe Depot Building. Development would require the removal of approximately 76,000 square feet of existing retail and three houses. The second project is a City initiated zone change from Light Industrial (IL) to General Commercial (CG-1) in a two-block area bounded by I-215 on the east, K Street on the west, Third Street on the north, and Second Street on the south.	NOP	04/14/2003
2003031062	Gonzales Housing Element Gonzales, City of Gonzales--Monterey The City of Gonzales has prepared a state mandated update to its housing element. The Housing Element addresses the provision of safe, affordable housing for existing and future Gonzales residents. The element is designed to meet the statewide goal of providing a decent home and suitable living environment for all Californians. It is also designed to meet local and regional goals for maintaining and improving the quality of life by making housing accessible to people of all ages, incomes, races, and physical capabilities.	Neg	04/14/2003
2003031063	Conditional Use Permit No. 02-124 Los Angeles County Department of Regional Planning --Los Angeles Construction of five buildings as part of the Agape International Christian complex.	Neg	04/14/2003
2003031064	Patriot Homes Condominium Development Malibu, City of Malibu--Los Angeles The proposed project consists of a request to construct an 8-unit condominium development in the Multi-Family (MF) zone on property located at 22065 Pacific Coast Highway. The subject property is a 3.1-acre lot that had been previously graded under Los Angeles County regulations. There is an existing pile foundation and soldier pile wall on the site also constructed under Los Angeles County regulations. The property is relatively flat from Pacific Coast Highway until the bluff on the north side of the property. Structures in the vicinity include two and three story homes, condominiums, and apartment buildings.	Neg	04/14/2003
2003031065	Safe Routes to School Grant - New Traffic Signal Avenal, City of Avenal--Kings The project is to construct a traffic signal at the corner of State Highway 269 (Skyline Boulevard) and Seventh Avenue using Safe Routes to School funds.	Neg	04/14/2003

<u>Documents Received on Friday, March 14, 2003</u>			
2003031066	Irvine Lake Pipeline (ILP) Disinfection Facility Irvine Ranch Water District --Orange Use of existing building in a regional park to pump sodium hypochlorite (common bleach) into non-potable system to control slime buildup.	Neg	04/14/2003
2003031068	University Park San Bernardino, City of San Bernardino--San Bernardino The proposed project consists of the following components: A Tentative Tract Map to subdivide 117 acres of land into 153 residential lots, and a Conditional Use Permit to develop 28 of the 153 lots that lie in the Hillside Management Overlay District. The project proposes a minimum lot size of 10,800 square feet in the RL, Residential Low land use district. The Conditional Use Permit will address the special conditions related to the portion of the Tentative Tract Map located within the Hillside Management Overlay District.	Neg	04/14/2003
2003031070	General Plan Amendment, Coastal Specific Plan Amendment, Zone Change, Zone Text Amendment (Case No. ZON2003-00036 and 00113) Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles Case No. ZON2003-00036 is a request to amend the General Plan and Coastal Specific Plan Land Use Designation of the subject property from Commercial (office) to Residential (2-4 dwelling units per acre) and rezone the property from Commercial Professional (CP) to Single Family Residential (RS-4).	Neg	04/14/2003
2003031071	Roseville High School Addition and Modernization Roseville City School District Roseville--Placer Project includes construction of 2 two-story classrooms on the interior of the site, construction of a performing arts building, and remodeling and modernization of infrastructure and classroom spaces.	Neg	04/14/2003
2003031085	City of Farmersville Highway 198 Corridor Specific Plan Farmersville, City of Farmersville--Tulare The Specific Plan establishes a policy framework for the long-term evolution and development of land uses and supportive infrastructure and services for the Plan Area, and to identify the type, nature and phasing of commercial, industrial and public facility development in the northern portion of the City. Significant components of this Specific Plan include a Circulation network that accommodates projected volumes and levels of service while providing an efficient and varied street layout to accommodate industrial development. Innovative streetscape designs are used to enhance aesthetics and gateways to the community, and reduce the number of intersections with collector and arterial streets. The developing commercial-industrial character of the area is maintained and enhanced through establishing comprehensive design guidelines. The project does not alter any existing General Plan Land Uses, however, one collector is modified to extend in a continuous east-west manner forming only one intersection along Farmersville Boulevard instead of two separate intersections spaced 800-feet apart as indicated by the Circulation Element of the General Plan. 	seasons; summer being the peak activity months and delineated in the Plan of Operations. Nonetheless, the crew meet at the various construction sites, not at this parcel, so employee traffic will remain very low. No changes to the existing building are proposed at this time. The one acre parcel is served by on site water and sewage disposal.		
2003012025	General Plan Amendment 02-02, Zone Change 02-03 Site Plan Review 02-04 Placerville, City of Placerville--El Dorado A request to amend the Placerville General Plan designation of 10.54 acres from Low Density Residential to Commercial, and rezone same land from R1-20,000 to Commercial and to build a 96,584 square foot commercial structure, 23,618 square foot outdoor display area, building demolition, grading, parking, landscaping, vehicle access, two bridges, streambed realignment of 856 lineal feet of Hangtown Creek and Street improvements to Placerville Drive.	NOD	
2003012090	Resource Recovery Program East Bay Municipal Utility District Oakland--Alameda East Bay Municipal Utility District (EBMUD) is proposing to implement a long-term "Resource Recovery Program" at its Main Wastewater Treatment Plant in Oakland as an expansion of its current hauled waste acceptance program. The purpose of the project is to more fully utilize existing wastewater treatment plant capacity and increase on-site power generation by accepting compatible waste streams hauled to the Main Wastewater Treatment Plant. In doing so, EBMUD would provide a needed service to nearby communities by reducing the amount of solid waste disposed at area landfills. Acceptance of hauled waste at the treatment plant also provides EBMUD with the ability to generate additional power for facility operations through increased gas production at the facility's digesters. This lowers operating costs, as well as decreases demand on the community's power grid.	NOD	
2003012106	Modesto Junior College - O'Brien House Demolition Project Yosemite Community College District Modesto--Stanislaus Demolition of a 1942, 3,474 assignable square foot building that has been vacant for several years. These facilities once housed the Child Care Program that is now located in another facility.	NOD	
2003039027	Suisun City General Plan Fish & Game #3 Suisun City--Solano In conjunction with the construction of an elementary school for the Fairfield Suisun Unified School District, the operator proposes to fill in 0.39 acres of wetlands. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0615 pursuant to Section 1601 of the Fish and Game Code to the project operator.	NOD	
2003039028	Construction of Machado Street Well Health Services, Department of Lake Elsinore--Riverside Drill groundwater production well. The well will increase the water supply to the residents of the existing water system within Elsinore Valley Municipal Water District service area in Riverside County.	NOD
