STATE CLEARINGHOUSE

NEWSLETTER

March 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1-15, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, March 03, 2008</u>			
1982112306	San Bruno General Plan Update San Bruno, City of San Bruno--San Mateo City-wide General Plan Update.	EIR	04/16/2008
2005022073	Parkway Boulevard Railroad Grade Separation Dixon, City of Dixon--Solano The City of Dixon is proposing to extend Parkway Boulevard, west from its current terminus at Valley Glen Drive, to Pitt School Road. The project would extend Parkway Boulevard from its existing terminus (near the intersection of Parkway Boulevard and Valley Glen Drive) to a western terminus at Pitt School Road, with a grade-separated over-crossing structure over the Union Pacific Railroad (UPRR) tracks and Porter Road.	EIR	04/16/2008
2006071105	Comprehensive Water System Master Plan Project (Water Master Plan) Mission Springs Water District Desert Hot Springs, Palm Springs--Riverside The proposed project is the adoption of a Comprehensive Water Master Plan by MSWD. The Master Plan identifies the water system improvements that are forecast to be needed by MSWD to meet the anticipated demand for water over the planning period through the year 2025. The Master Plan identifies the type, location, and timing of water system improvements that are forecast to be needed over the Master Plan planning period. The Master Plan identifies the wells, reservoirs, booster pump stations, pipelines, and other appurtenant facilities that will be needed based on projected growth and growth patterns within the MSWD service area. The purpose of the Master Plan is to provide a comprehensive planning tool to allow MSWD to more logically and efficiently provide water service to its customers over both the short and long terms. The beneficiaries of this more efficient method of planning for and implementing the needed water system improvements will be the customers of MSWD in that this method of planning will provide a more reliable and efficient water supply.	EIR	04/16/2008
2006081138	Atwater-Merced Expressway Merced County Association of Governments Atwater, Merced--Merced The Atwater-Merced Expressway (AME) is a proposed 7-mile-long expressway located in the northeast portion of Merced County. The AME would provide motor-vehicle travel between State Route (SR) 59 at Bellevue Road and SR 140 at Gurr Road providing an alternative route to existing SR 59 which travels through downtown Merced. The AME project would be a new four-lane divided access-controlled expressway with limited cloverleaf style interchanges with major roadways (SR 99 and Santa Fe Drive) and signal-controlled intersections with local roads. The project would include the realignment of some existing roads, including a portion of SR 99, and the extension of some local roads to connect with the new expressway.	EIR	05/02/2008

2007101062	<p>Adelanto Towne Center Adelanto, City of Adelanto--San Bernardino</p> <p>The proposed project consists of a proposed regional shopping center with approximately 627,200 square feet of retail building space, necessary parking, and associated site improvements on an approximately 64-acre site. The shopping center would include the Target Department Store and ten smaller major retailers. The Target Department Store would total approximately 186,600 square feet, with the other major retailers ranging from 8,000 to 115,000 square feet each. In addition, there would be eight shops, with two proposed to be food establishments, two proposed to be half food and half retail establishments, and the remaining four shops proposed for retail establishments. These shops range from 3,200 to 14,500 square feet. The proposed project would also include the development of eleven free-standing commercial pads ranging from 3,250 to 7,000 square feet. These pads would be utilized for retail, fast food establishments, and bank services.</p> <p>The conceptual site layout arranges the major attached retail buildings parallel to US-395 at the extreme western boundary of the site. The retail pads are scattered around the remaining perimeter of the site mainly closer to US-395. The parking for the project is located in the center with three access points off US-395 and two access points off Mojave Drive (the northern boundary).</p>	EIR	04/16/2008
2007082100	<p>Nelson 56 Tentative Subdivision Map File 05-10 Oroville, City of Oroville--Butte</p> <p>The Nelson 56 Subdivision project would subdivide the 56-acre site into 197 single-family residential lots. Approximately 10.89 acres of the site will be utilized for stormwater detention, park, and/or protected open space. The density proposed with this project is consistent with the land use designation of the General Plan and the zoning map.</p>	MND	04/01/2008
2008031004	<p>Minto Road PUD 07-0322 Santa Cruz County Watsonville--Santa Cruz</p> <p>The project proposes a General Plan Amendment, Zone Change, Riparian Exceptions, and Planned Unit Development (PUD) allowing a maximum development density of 20 dwelling units per usable acre on the project site. The project also proposes a Local Agency Formation Commission (LAFCo) annexation for extraterritorial water service from the City of Watsonville Public Works and Utilities Department. The PUD would also require any development proposal on the parcel to provide a minimum of forty percent of the total number of units as affordable. Following project approval, future development of the project site would be by-right in that the use and density for the site would not be discretionary. The site contains a maximum of 4.41 usable acres equating to a maximum of 88 dwelling units. The remaining 2.58 acres would provide open space to protect onsite wetland and riparian areas, provide for a commercial agricultural buffer, and buffer against electromagnetic frequencies (EMF) emitted by the onsite 115 kV PG&E power line. The project would rezone the parcel and amend the General Plan from "Single-Family Residential - 10,000 square foot minimum parcel size (R-1-10)" and "Urban Low Residential (R-UL)" to "Multi-Family Residential - 2,000 square foot minimum parcel size, Regional Housing Need Site (RM-2-R) and Parks, Recreation, and Open Space (PR)" zone</p>	MND	04/01/2008

	districts with "Residential - Urban High (R-UH) / Urban Open Space Lands (O-U)" general plan designations, and PUD. The project is located on the north side of Minto Road at its intersection with Meidl Avenue, east of Green Valley Road in the Pajaro Valley planning area of unincorporated Santa Cruz County.		
2008031010	Lil Jackson Senior Community Oceanside, City of Oceanside--San Diego If approved, the proposed project will consist of the development of 80 affordable senior apartment units within one, three-story building. Once constructed, the project will provide age and income restrictions to potential residents. In addition to the apartment units, the proposed structure will include a community room, community kitchen, lounge, laundry room, arts and crafts room, library and computer room, and covered and uncovered patios. An air conditioning system will be provided within the proposed structure. The building footprint for the senior center will be approximately 22,735 square feet. The structure will have approximate dimensions of 120 feet and 320 feet, with a maximum height of 42 feet.	MND	04/02/2008
2008032001	Construction of a New Water Storage Tank on Skyline Drive in the Ponderosa Hills Subdivision Tuolumne Utilities District --Tuolumne Construction of a water storage tank with 600,000 gallons of capacity, and related clearing, grading, and pipeline trenching. The proposed tank will be welded steel, painted to match the surroundings and will be 32 feet high and 58 feet in diameter. Approximately 336 cubic yards of soil will be cut and disposed of off-site. Trenching of approximately 130 linear feet will be required for pipeline installation. The tank is necessary to replace an existing 100,000 gallon tank which has deteriorated. The larger size is necessary to supplement needed storage of this water system.	MND	04/08/2008
2008032002	Mid Peninsula Housing SPAR (PA 08-008) San Mateo, City of San Mateo--San Mateo Mid-Peninsula Housing Coalition proposes to demolish the Goodyear automobile repair building and the Immediate Care medical office building, and construct a 4-story mixed-use building with 68 affordable residential units and approximately 2,917 square feet of commercial space. The mixed-use buildings would be located at El Camino Real, on a 0.99-acre site. The surrounding uses comprise of commercial uses with the Caltrain Railroad tracks bordering the rear of the property.	MND	04/01/2008
2008032004	Project # 2005-191 General Plan Amendment, Zoning Amendment, Tentative Subdivision Tract Map, for Ventana LLC Calaveras County Planning Department --Calaveras The applicant is requesting a San Andreas Community Plan Amendment to change approximately 12.74 acres from Multi-Family Residential to the land use designation of Two-Family Residential. Concurrently requested is a Zoning Amendment from R3 (Multi-Family Residential) to R2 (Two-Family Residential). Also requested is approval of a Tentative Subdivision Tract Map to divide the property into 50 lots. A proposed restrictive covenant will be placed on 45 lots restricting the use of a lot to one single family dwelling. The five unrestricted lots	MND	04/02/2008

	are planned for duplex dwellings. The project totals 55 dwelling units. The project is restricted to senior citizens age 55 and over.		
2008031002	Roeding Regional Park and Chaffee Zoo Master Plans (including Rotary Playland and Storyland) Fresno, City of Fresno--Fresno The Program EIR will address the adoption and implementation of the Roeding Regional Park Master Plan and the Fresno Chaffee Zoo Facility Master Plan (hereinafter, collectively referred to as "Master Plans") and the entitlements and approvals necessary to implement the plans. The Master Plans contain comprehensive, coordinated proposals designed to extensively renovate Roeding Park and Rotary Playland/Rotary Storyland and to renovate and expand the Fresno Chaffee Zoo. Roeding Park, Chaffee Zoo, and the Rotary Playland/Storyland all operate under one master conditional use permit ("Master CUP") approved by the City of Fresno. This conditional use permit must be amended to allow implementation of the Master Plans and the improvements proposed for Rotary Playland/Storyland. Other approvals and entitlements that may be required include, but are not limited to, demolition permits, site plans, and building permits.	NOP	04/01/2008
2008031003	Whittier High School Multi-Purpose Building Project Whittier School District Whittier--Los Angeles The project proposes to demolish an existing two-story cafeteria/multi-purpose building and replace it with a new, one-story multi-purpose room and classroom building on the Whittier High School campus. Both the existing and the proposed buildings are each approximately 14,000 square feet. The proposed building will be used for multi-purposes, including classrooms. The Whittier High School student capacity would not be increased with implementation of the project.	NOP	04/01/2008
2008031005	Splash Canyon Waterpark (PA08-0337) Temecula, City of Temecula--Riverside The proposed project is the site development and construction of a water park on 15 acres consisting of pools, slides, and other types of water rides, concession stands, gift shop, party room, changing room with lockers, restrooms, picnic areas, service yard, and parking lot. The water park will be operating approximately four months of the calendar year. The park will be open daily from Memorial Day to Labor Day from 10:00AM to 8:00PM. It is anticipated that the park will employ 15 full time employees and 300 seasonal employees.	NOP	04/01/2008
2008031008	Mt. San Antonio College Master Plan Update 2008 Mt. San Antonio Community College Walnut--Los Angeles The Master Plan was last updated in 2005 (SCH#2002041161). FTES projections for 2020 are now 32,600. Approximately 454,500 ASF of new buildings are proposed, resulting in 1,145,000 ASF in 2020, an increase of 4% from the 2005 Master Plan Update. 2003052054	<p>Samoa Town Master Plan General Plan Amendment/Zone Reclassification GPA-02-01/ZR-02-02 Humboldt County Community Development Services --Humboldt</p> <p>A General Plan Amendment (Local Coastal Plan Amendment), Zone Reclassification, Urban Limit Line extension, and interpretation of environmentally sensitive habitat areas (ESHA) for six parcels making up the Samoa town site and encompassing approximately 171.7 acres. The parcels are to be part of large scale community development and revitalizing project to be carried under the Samoa Town Master Plan developed by the Samoa Pacific Group. Additional permits required for the phased implementation of the Master Plan include: Coastal Development Permits, Conditional Use Permits, Special Permits, Final Map Subdivisions, and Planned Unit Developments. The purpose of the proposed General Plan Amendment, Local Coastal Plan Amendment, and Zone Reclassification is to facilitate the implementation of the Master Plan and involves changing the land use designations consistent with the Plan. The project area is located in the Coastal Zone. In order to proceed with the project, the Department determined that a Local Coastal Plan (LCP) Amendment is required to ensure consistency with the General Plan. The LCP Amendment would add the land use designation of Business Park (MB) and Natural Resources (NR) within the proposed Samoa urban limit line and would further specify requirements for development within tsunami run-up areas.</p>	NOD

2007112102	Terra del Sol, S-06-03 Solano County Vacaville--Solano Major subdivision to create 23 single-family residential lots on a site of approximately 60 acres with lot sizes ranging in size from 2.5 to 2.9 gross acres.	NOD	
2007122053	Encinosa Detention Basins Project Vacaville, City of Vacaville--Solano City of Vacaville proposes to develop two regional detention basins adjacent to Encinosa Creek in an unincorporated portion of Solano County, just west of the City limits. The project includes the construction of detention basins, berms, inlet and outlet structures and emergency spillways and limited development of temporary construction and permanent maintenance access roads.	NOD	
2007122061	Wind Energy Project Fairfield-Suisun Sewer District Fairfield--Solano The District is proposing to implement a wind energy project that would provide up to 113,000 kilowatt-hours of wind energy power annually to offset some of the electrical demands of the District's wastewater treatment plant operations; thereby decreasing its carbon footprint for energy use consumption. Specifically, The District is proposing to install and operate four (4) 50-kW turbines that would harness renewable wind energy resources and provide total generation capacity of up to approximately 200-kW of renewable electricity. Each of the four turbines would be approximately 100-feet tall and would have a three blade rotor with a diameter of 50 feet. The power generated by the proposed project would be collected and conveyed to a power substations through wires in underground conduits that would be installed as part of the proposed project. The proposed project would be located entirely on the District's wastewater treatment plant property which is within the City of Fairfield.	NOD	
2008038001	Dan Beebe Trail Maintenance Parks and Recreation, Department of --Butte Repair deteriorated and eroded segments along the existing 8,144 lf Dan Beebe Trail at Lake Oroville State Recreation Area to improve drainage and prevent further erosion. Work will use a small trail dozer to remove an existing berm, fill eroded gullies, and re-grade the surface to improve drainage. Additional work will cover the trail alignment with compacted 3/4" rock base to reduce erosion of the trail surface.	NOE

2008032005	American Engineering & Asphalt, Inc (PCPA T20070690) Placer County Planning Department Rocklin--Placer Project proposes approval of a Conditional Use Permit and Design Review to operate an asphalt and concrete recycling facility.	MND	04/02/2008
2008032006	2585 El Camino Real Mixed-Use Project Santa Clara, City of Santa Clara--Santa Clara General Plan Amendment #68 from Mixed Use to Transit-Oriented Mixed Use and Rezone from Commercial Thoroughfare (CT) to Planned Development (PD) for the development of a five-story mixed use project with ground floor retail and podium parking with 60 condominium units above; site access, circulation, and landscape improvements.	MND	04/02/2008
2008032007	1226 El Camino Real Burlingame, City of Burlingame--San Mateo The project would demolish four, two-story apartment buildings containing a total of twelve units and construct a single, four-story nine-unit condominium building. The proposed building would include three floors of residential use, a roof/deck garden, and parking garage.	MND	04/02/2008
2008032009	2006-182 Zoning Amendment for Lawrence Smith Calaveras County Planning Department Murphys--Calaveras The applicant is requesting a Zoning Amendment to accommodate a Boundary Line Adjustment application involving two contiguous (BLA No. 06-101). The Zoning Amendment is to rezone from RR-5 (Rural Residential - minimum 5 acres) to RA-5 (Residential Agriculture - minimum 5 acres) the 0.85 acre adjusted portion of Parcel 2 (APN 068-011-028), and from RR (Rural Residential) to RA-5, the entire 3.56-acre adjusted Parcel 1 (APN 068-011-029). The remaining portion of Parcel 2 would remain unchanged with the RR-5 zoning. The Boundary Line Adjustment would allow the existing winery and the wine tasting facility to be incorporated into the adjusted Parcel 1 with the same proposed zone of RA-5. The proposed rezone to RA-5 would legalize the existing winery and wine tasting facility, which is currently a non-conforming use.	MND	04/03/2008
2008031016	Mid-County Redevelopment Project Area, Amendment No. 2 Riverside County Redevelopment Agency --Riverside The project proposal by the Redevelopment Agency for the County of Riverside to adopt a Redevelopment Plan amendment to the Mid-County Redevelopment Project Area. The proposed amendment consists of an approximately 11,720 acre expansion of the Mid-County Redevelopment Project Area. The Amendment Area is comprised of three non-contiguous sub-areas. Size of each sub-area is as follows: 1,844 acres for Cherry Valley sub-area; 9,671 acres for Garnet sub-area; and 205 acres for West Garnet sub-area. The purpose of the Project is to abate the relative stagnation and conditions of blight in each of the sub-areas, and to facilitate the continued elimination of blight in the existing Mid-County Project Area (MCPA). 2008032010	<p>Housing Element Update Citrus Heights, City of Citrus Heights--Sacramento</p> <p>The project is an update of the Housing Element of the City's General Plan. The existing Housing Element and Housing Element Background Report would be replaced with the revised element and background report. As established by State law (Government Code 65588(a)) the primary purpose of this update is threefold: (1) to evaluate and make changes as appropriate to the City's housing goals and policies in order to remain consistent with and help attain State housing goals; (2) to evaluate the effectiveness of the Housing Element over that prior planning period (2002 through 2007); and (3) to evaluate the progress of the City in implementation of the Housing Element.</p>	MND	04/03/2008
2007052046	<p>DS Canal Flume Replacement Project Nevada County Irrigation District Grass Valley--Nevada</p> <p>The Nevada Irrigation District (District) proposes to replace eight existing elevated wood-supported metal flumes along the District DS Canal with steel supported, elevated 72-inch pipe flumes, and to replace the DS Canal crossing at Gracie Road. The existing flumes connect the DS Canal, where it spans natural drainages, to provide gravity flow along the course of the canal. Changes to the DS Canal itself will be limited to the areas immediately adjacent to the upstream and downstream ends of the flumes. At those locations, short stretches of canal maybe relocated and the flume entry and exit points will be lined in order to avoid erosion. Other than the aforementioned mentioned entry and exit points, this project does not include lining or otherwise changing any other portions of the DS Canal.</p> <p>Work on this part of the project will be limited to the areas adjoining the eight flumes. The flumes proposed for replacement are generally located between the DS Canal's intersections with Banner Mountain Trail (to the east) and Banner Lava Cap Road (to the west). Flumes #13 and 19 are proposed to be replaced in their current alignment, requiring a temporary canal outage while construction takes place. Construction of Flumes 13 and 19 would occur during the non-irrigation season from October 15 to April 15. Flumes #14, 15,16,17,18, and 23 are currently scheduled to be constructed parallel to the existing facilities, on the downslope side, and will require a brief canal outage while they are being connected.</p> <p>The DS Canal passes under Gracie Road (between Flumes 17 and 18) through existing twin culverts. NID proposes to replace these culverts within the same general alignment, to be sized for projected flows under the District's master plan. Some trees may need to be removed during this work.</p>	NOP	04/03/2008

2007111110	<p>Warner Avenue Pedestrian Bridge Fish & Game #5 --Orange</p> <p>Construction of a 145-foot long single span pedestrian bridge over the Warner Channel in Bolsa Chica Ecological Reserve, just east of the existing interpretive trailer and parking lot on the south side of Warner Avenue. Footings of approximately 14 feet by 7.5 feet will be set 2 feet below grade and 8 feet from channel banks. A prefabricated bridge will placed on the footings and access ramps constructed. Total area of impact approximately 0.98 acres of which only 0.017 will be permanently impacted.</p>	NOD	
2007112005	<p>West Sacramento Flood Control Agency Early Implementation Project West Sacramento Area Flood Control Agency West Sacramento--Yolo</p> <p>The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2007-0415-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, West Sacramento Area Flood Control Agency.</p> <p>To address under- and through seepage concerns at two sites along the Sacramento Bypass levee and Sacramento River in the City of West Sacramento, two treatments are being proposed. These treatments consist of seepage cutoff wall and relief well construction. Seepage cutoff wall construction is proposed at CHP Academy site and construction of seepage walls that may include relief wells is proposed at I Street Bridge site.</p> <p>The entire Sacramento Bypass Levee is a well-defined levee that has recently had improvements completed on portions of the levee. The improvements included an addition of soil cement slope protection along the Sacramento Bypass and construction of a seepage cutoff wall through the western portion of the levee. The proposed treatment area within the Sacramento Bypass Levee is roughly 3,000 feet in length, extending from the Sacramento Weir in a westerly direction toward the Yolo Bypass. The treatment proposed for the Sacramento Bypass levee consists of a seepage cutoff wall up to 80 feet deep through the waterside section of the crown. The treatment would overlap with the existing seepage cutoff wall and create a continuous seepage cutoff wall through the length of the Sacramento Bypass levee. Two staging areas used for storage of construction equipment and temporary storage of soil material excavated from the crown of the levee would be located within the bypass. A band of riparian vegetation is located within the bypass at the eastern end of the project.</p>	NOD

2008031023	English-Joseph Property Investments - Key Site-11 Santa Barbara County Santa Maria--Santa Barbara The project site is located at the southeast corner of Clark Avenue and Orcutt Road, is identified as Key Site 11 in the Orcutt Community Plan (OCP). The project consists of applications for a Specific Plan, Conditional Use Permit and a Development Plan for a mixed use commercial/residential project on approximately 4 acres of a 21.43 acre site. The project proposes approximately 61,438 square feet in size. Approximately 41,220 square feet of residential use is proposed on the second floor. The residential portion is comprised of 30 two and three bedroom apartment units ranging in size from 1,301 to 1,500 square feet. The applicant is proposing 47 parking spaces at ground level as well as 246 spaces in the basement level under the structures. The project would require grading of approximately 37,000 cubic yards, most of it cut and fill which would be balanced on-site and would require only a minor amount of import material.	MND	04/04/2008
2008031024	Monterey Park Subdivision, Proposed Modifications Imperial, City of Imperial Beach--Imperial The proposed project will modify/amend an adopted Specific Plan approved in 2005. The proposed modifications will follow the same footprint, however, if approved would result in an increase in density for residential land uses. The modifications would result in an increase of dwelling units from 296 to 483 for Unit 3 and Unit 4. The requested changes would therefore necessitate a General Plan Amendment.	MND	04/04/2008
2008031025	MLST Investment, LLC Project No. P200601225 San Bernardino County --San Bernardino Environmental Initial Study for a General Plan Amendment and Tentative Tract 18340.	MND	04/04/2008
2008032013	Discontinuance of Raw Water Service at the End of the Algerine Ditch Tuolumne Utilities District --Tuolumne Tuolumne Utilities District has proposed discontinuing service indefinitely to a 3.9 mile section of the Algerine Ditch which provides raw water to one customer who intermittently utilizes the water for agricultural purposes. The proposed project would result in the discontinuance of water flow in the final 3.9 section of the Algerine Ditch. Properties along this segment of the ditch which do not purchase water from this segment of the ditch would no longer benefit from the ditch water flowing through their properties.	MND	04/08/2008
2008032014	Pheasant Ridge Commons Project Paradise, City of Paradise--Butte Proposed multi-housing project that entails the establishment of 12 duplex buildings and two single-family dwellings that result in 8 one-bedroom and 18 two-bedroom units.	MND	04/04/2008

	constructed within the existing 84-foot right-of-way and within portions of City of San Marcos acquired parcels between Woodland Parkway on the west and Opper Street on the east.		
2008031020	South Region High School No. 15 Los Angeles Unified School District --Los Angeles Development of an approximately 130,000 square foot high school that include 45 classrooms, administration areas, a multipurpose room, a library and 600 seat outdoor amphitheater. These facilities would be contained in two to three-story buildings approximately 52 feet high. Athletic facilities such as baseball, softball, soccer fields, and basketball courts are planned along the southern perimeter of the site. The proposed project may also provide for adult and continuing education programs (approximately 15 classrooms with up to 450 students), which would operate weekdays from 6:00 p.m. to 9:00 p.m. and on Saturdays between 8:00 a.m. and 2:00 p.m.	NOP	04/04/2008
2008031021	Chowchilla Heritage Welcome Center Project Chowchilla, City of Chowchilla--Madera The City of Chowchilla proposes to disassemble a potentially eligible historic building in the City's Downtown and store the materials for eventual reconstruction at the existing or an alternative location in the Downtown. The City has determined that the building is unsafe and should be taken down. The Chowchilla Heritage Welcome Center Project is designed to restore the Dodge Brothers garage (one of the oldest buildings in Chowchilla) to be used as a "Welcome Center" and potentially house the Chowchilla Chamber of Commerce office. The Welcome Center concept is to provide a location where the history of Chowchilla can be visualized from old photographs, exhibits, and written materials. If the alternative location is selected for the placement of the reconstructed Chowchilla Heritage Welcome Center, it may be possible to add other potentially historic buildings to this location. That concept of an expanded historic park will be the subject to a subsequent EIR. In either of the alternative location concepts, the Heritage Park would remain on the corner of Front Street and Robertson Boulevard.	NOP	04/04/2008
2008032017	Creekview Specific Plan and Sphere of Influence Amendment Roseville, City of Roseville--Placer The Creekview Specific Plan (CSP) proposes to provide comprehensive planning for the 511.5 acre CSP project area. The CSP will address all aspects of future development within the CSP project site including land use, circulation, resource management, infrastructure, public services, implementation and design. The EIR will analyze the option of developing a Job Center and/or a 4-year college campus on 160.25 acres of the 237-acre Reason Farms Panhandle site within the proposed Sphere of Influence (SOI) Amendment located adjacent to the CSP. 2008038065	<p>Malibu Lagoon State Beach Adamson House Paint Parks and Recreation, Department of --Los Angeles</p> <p>The project outlines procedures to be followed for all painting projects undertaken at the historic Adamson House. All procedures are consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties. For non-historic structures, maintenance staff will consult with the curator regarding the type of color of paint. For historic structures, paint sampling, sample mounting, paint layer identification, sample storage and a research report will be completed according to current standards. The final paint selection will be determined by the State Parks historian or his/her designee. If lead is present in the paint, OSHA and departmental policies and procedures will be followed. If sanding is necessary to retain function or protect resources, the historian will first be consulted. No sandblasting will be done. Paint will be applied by rollers. Ladders will be wrapped where they touch the building.</p>	NOE	
2008038066	<p>Repair and Replace Trail Structures Parks and Recreation, Department of --Del Norte</p> <p>Repair and replace failing, dilapidated trail structures. New structures will be installed in the same size and style as original structures.</p> <p>Coastal Trail: At the trailhead, replace interlocking wooden steps and replace an 8-foot footbridge approximately ½ mile along the trail from the trailhead; Trestle Loop: Replace a 22-foot footbridge on Trestle Loop Trail near the Mill Creek Campground; Saddler Skyline Trail: Replace a 17-foot footbridge approximately 500 feet from the junction with Trestle Loop Trail.</p> <p>Contain ground disturbance to footprint and soil depth of existing structures when new structures are installed; ground disturbance will not be greater than 6 inches deep. A ramp made from quarry rock will be constructed on the soil surface leading up to each bridge where the bridge deck cannot be installed flush with the ground. Employ Best Management Practices (BMPs) during all work, to prevent erosion and discharge of sediment. All ground disturbing work will be monitored at the discretion of a DPR-qualified Archaeologist. If work uncovers evidence of previous Native American or Euro American activity all work within 30' (10 meters) of the find shall be temporarily suspended until a DPR-qualified Archaeologist has evaluated the find.</p>	NOE	
2008038067	<p>Campground Area Accessibility Improvements Project Parks and Recreation, Department of --Santa Cruz</p> <p>Improve restrooms, parking, pathways, and related facilities in five campgrounds at Big redwoods State Park to comply with the Americans with Disabilities Act (ADA) and "California State Park Accessibility Guidelines".</p> <p>Blooms Creek Campground: Remodel existing restroom. Grade, level, and pave new ADA van parking stall and path. Remove asphalt pavement for existing ADA parking and path. Fill, level and stabilize soil surface in adjacent waiting area and install new ADA compliant bench.</p> <p>Huckleberry Tent Camp: Demolish and replace existing restroom with new combination restroom/shower building (CB); re-connect utilities including water,</p>	NOE	

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
---------------	---	------------------	----------------

Documents Received on Thursday, March 06, 2008

electricity, and gas and install new propane tank. Demolish and re-pave ADA parking for one van assessable stall. Grade, level, and pave area path from ADA parking to CB.

Huckleberry Campground: Demolish and replace existing CB; re-connect utilities. Convert paved area into one ADA van parking space. Grade, level and pave new path to connect ADA parking to CB.

Sequoia Group Campground: Demolish and replace existing CB adjacent to existing structure; re-connect utilities. Install new ADA van parking stall to CB by grading, leveling, and paving bare areas.

Implement Best Management Practices (BMPs) to avoid soil erosion and sediment runoff. Project will avoid impacts to California red-legged frog, nesting raptors, marbled murrelet, and other migratory birds. In the event that previously undocumented cultural resources are encountered during project construction, work will cease at the location of the find until a DPR-qualified archaeologist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s).

2008038068	Techalloy Company, Inc. Post-Closure Permit Renewal Toxic Substances Control, Department of --Riverside	NOE
------------	---	------------

This project is a post-closure permit renewal which addresses ongoing activities including maintenance of three closed surface impoundment caps, corrective action, and groundwater monitoring. A closure plan for the waste water treatment system (WWTS) is incorporated in the post-closure permit because the unit no longer treats Resource Conservation and Recovery Act hazardous waste and is operated under a Permit By Rule (PBR) with Riverside County. The WWTS is planned to be in operation under PBR for the life of the facility.

2008038069	Mount Bullion Conservation Camp - Road Stabilization Forestry and Fire Protection, Department of --Mariposa	NOE
------------	---	------------

The California Department of Forestry and Fire protection (Cal Fire) is proposing to repair the access road to the Mount Bullion Conservation Camp, 5730 Mount Bullion Access Road, Mariposa, CA 95338. This project is located approximately 3.4 miles north of Hwy 49 at class-three water course crossing. This is a seasonal stream where water is only present in the winter period. The Mount Bullion access road is being undermined by erosion and geologic settling along a pre-existing retaining wall.

This project will re-stabilize the access road by adding support to the pre-existing retaining wall. The size of this project is approximately 150 feet by 200 feet at the reconstruction site and another area will be disturbed in order to harvest soil for back fill. The harvest soil area is approximately 200 feet by 200 feet. This project involves the repair and maintenance of an existing road-crossing structure. No expansion of use is proposed.

2001081007	San Diego Creek Watershed Special Area Management Plan (SAMP)/Watershed Streambed Alteration Agreement (WSAA) Process Fish & Game #5 Tustin, Irvine, Lake Forest--Orange The State lead agency, the California Department of Fish and Game, Habitat Conservation Planning, South Coast Region (Department), along with the Federal lead agency the U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division (Corps), have completed the Draft Program EIS/EIR for the San Diego Creek Watershed SAMP/WSAA Process. The SAMP establishes alternative (aquatic-based and watershed-specific) permitting procedures for project, within the San Diego Creek Watershed that will alter the bed, bank or channel of rivers, streams, and lakes and associated riparian habitats under the Department's jurisdiction or to discharge dredged or fill material into waters of the U.S. subject to the Corps jurisdiction. The SAMP permitting procedures will improve the Corps and the Department's capacity to evaluate such projects, as compared to the process each agency would normally follow in permitting such projects on a case-by-case basis.	EIR	04/21/2008
2007032125	American River Parkway Plan Update Sacramento County --Sacramento Update to the American River Parkway Plan, an Element of the Sacramento County General Plan.	EIR	04/25/2008
2007081057	Chevron Products Company El Segundo Refinery Product Reliability and Optimization Project South Coast Air Quality Management District El Segundo--Los Angeles Chevron is proposing modifications to an installation of new equipment at the El Segundo Refinery. Proposed modifications will occur in the No. 2 Crude Unit, No. 2 Residuum Stripper Unit, Minalk/Merox Unit, Waste Gas Compressors, Fluidized Catalytic Cracking Unit, Alkylolation Unit, Vacuum Residuum Desulfurization Unit, ISOMAX Unit, Cogeneration Facilities, Railcar Loading/Unloading Rack, and improvements to electricity and water service systems. New process units include sulfur processing facilities (i.e., Sour Water Stripper, Sulfur Recovery Unit, and Tail Gas Unit), Vapor Recovery and Flare System, Water Treatment Facilities (i.e., reverse osmosis units and oxygen units and oxygen removal units), additional storage capacity, a new cooling tower, and hydrogen compression and transfer facilities. The analysis concluded that emissions due to construction may exceed the SCAQMD's daily significance threshold. The proposed project was also concluded to have potentially significant transportation/traffic impacts. Energy, hazardous and hazardous materials, hydrology and water quality, noise, and solid and hazardous waste impacts were concluded to be less than significant.	EIR	04/21/2008
2007082023	San Francisco General Hospital Seismic Compliance, New Hospital Replacement Program San Francisco Planning Department San Francisco--San Francisco The San Francisco Department of Public Health (DPH) proposes to construct a new approximately 422,144 gross-square-foot, 284-bed, acute care hospital on the SFGH Campus, located at 1001 Potrero Avenue (Assessor's Block, 4154, Lot 001), to comply with requirements of Senate Bill 1953 (1994) related to the seismic safety of acute care facilities. The new hospital would be located on the west lawn along Potrero Avenue between Buildings 20 and 30 on Campus. Acute care	EIR	04/21/2008

	<p>services currently located in the existing Main Hospital (Building 5) would be relocated to the new hospital, and the vacated space in the existing Main Hospital would be reused for non-acute care medical uses and administrative offices.</p> <p>The proposed project would also include internal roadway modifications, new landscaping, utility trenching, power upgrades, and back-up generators to serve the new hospital. The internal north-south access road through the Campus would be replaced with two cul-de-sacs to provide patient/visitor access to the Main Hospital and the proposed new hospital from 23rd Street, and emergency access from 22nd Street. The main pedestrian entrance to the Campus from Potrero Avenue would be provided along the south side of the proposed new hospital, and north-south pedestrian access through the Campus would be maintained via a sidewalk that would run along the eastern side of the two new cul-de-sacs. The main entrance to the proposed new hospital would be located at the southeast corner of the building, near the primary entrance for the existing Main Hospital building.</p>		
2007101105	<p>Level II Infill Housing Facility, Kern Valley State Prison Corrections and Rehabilitation, Department of Delano--Kern</p> <p>In a response to a projected deficiency in the number of male inmate beds in the statewide prison system, the California Legislature passed AB 900, the Public Safety and Offender Rehabilitation Services Act of 2007. As the lead agency, the California Department of Corrections and Rehabilitation (CDCR) is proposing to provide housing for additional inmates at KVSP. Implementation of the proposed project would result in the construction of an approximately 35-acre stand-alone Level II facility. The facility would consist of five 100-bed dormitory housing units; program support service buildings; healthcare facilities; visiting, academic and vocational education buildings; and miscellaneous support buildings.</p>	EIR	04/21/2008
2005112003	<p>2050 General Plan Update Project Lincoln, City of Roseville, Rocklin, Loomis--Placer</p> <p>The City is preparing the Lincoln 2050 General Plan Project to update the existing City's 1988 General Plan. This EIR will provide an assessment of the updated General Plan, which is expected to be completed in early 2006. The City of Lincoln is located approximately 25 miles northeast of Sacramento, in the County of Placer between Roseville and Marysville (Yuba County) on State Route 65 at the western terminus of State Route 193. The City is located on the eastern edge of the Sacramento Valley floor at the base of the Sierra Nevada foothills. The City is one of six cities in Placer County. Primary access to the City is by State Route 65 (SR 65) which runs directly through the center of the City and connects to Interstate 80 (I-80) to the south near the City of Roseville. SR 65 also connects to SR 193 in Downtown Lincoln, which provides access to the county seat in Auburn.</p>	FIN

2008032022	Use Permit 07-018 (Miller) Shasta County --Shasta The request is for approval of a Use Permit to allow a mini-storage facility, including 12 mini-storage buildings, an office and caretaker's residence. The facility will provide 394 storage rental units and limited outdoor storage. The 4.79 acres is split between two parcels. The western parcel will be accessed by State Highway 299E and the eastern parcel will be accessed on Old Alturas Road. In conjunction with the Use Permit, a Property Line Adjustment has been approved to reconfigure the lots to accommodate the proposed development of the mini-storage facility. The Property Line Adjustment has not recorded and the recordation will be a recommended condition of approval. Included in the application is a request for an exception from the setback requirements. The Shasta County Fire Department has submitted findings and a recommendation of approval of the setback exception.	MND	04/10/2008
2008032024	Parcel Map 07-021 & Zone Amendment 07-015 (Sutter) Shasta County --Shasta The request is for approval of a Parcel Map consisting of four parcels ranging in size from 5.01 acres to 5.44 acres along with a 5.06 acre remainder. The applicant also requests approval of a Zone Amendment changing the current Unclassified zone district to Limited Residential (R-L). Access will be by way of State Highway 44 with an emergency escape route off of State Highway 44. Off-site easements have been recorded to allow for the construction of both the access road and the emergency escape route.	MND	04/10/2008
2008032028	Willow Drive Minor Subdivision MS 853-2007 Danville, City of Danville--Contra Costa Minor Subdivision request to subdivide two parcels totaling 3.32 +/- acres into three single family residential lots.	MND	04/07/2008
2008032030	500 kW Photovoltaic Renewable Energy Project Oro Loma Sanitary District --Alameda The project consists of the installation of 500 kW solar system for generation of 480 volt 3-phase electrical power to synchronize with power provided by Pacific Gas & Electric, at the Oro Loma Sanitary District wastewater treatment plant.	MND	04/08/2008

2000021111	<p>UC Irvine Medical Center Long Range Development Plan and Replacement Hospital University of California, Regents of the Orange--Orange</p> <p>The project will construct two buildings on the UC Irvine Medical Center campus in the City of Orange. The Lab Replacement building will provide approximately 60,000 square feet of permanent replacement space for pathology service laboratories that will be relocated from the hospital. The Office Building will provide approximately 100,000 square feet of office space to support teaching and research. These projects will help meet the growing space needs at the medical center.</p>	NOD	
2004101077	<p>Lake Arrowhead Community Services District Recycled Water Program Improvements Lake Arrowhead Community Services District --San Bernardino</p> <p>The project will consist of increasing the treatment level at the Grass Valley WWTP to approximately 1.0 million gallons per day (mgd) of Title 22 recycled water. The District will achieve this by modifying existing facilities, various piping and a storage pond, and installing approximately 15,000 linear feet of 14-inch recycled water transmission pipeline, a new Lake Arrowhead Country Club recycled water irrigation pump station, a buffer tank, a membrane filtration facility, Micro Filtration units, an ultraviolet disinfection system and a recycled water pumping station.</p>	NOD	
2005062010	<p>Fallon Village Project Dublin, City of Dublin--Alameda</p> <p>Amendments to the General Plan and Eastern Dublin Specific Plan, a Stage 1 & Stage 2 PD rezoning and Site Development review to allow the development of 108 dwellings on the 7-acre site. The project also includes site grading and extension of utilities to the Site. Grading of the non-Stage 1 & 2 portions of the Property is also proposed.</p>	NOD	
2007041075	<p>Salton Community Services District Salton City Wastewater Treatment Plant Project Salton Community Services District --Imperial</p> <p>The Department is issuing a Lake and Streambed Alteration Agreement for the project proponent who proposes the construction of a new 0.5 million gallon per day (MGD) wastewater treatment plant. This new 40 acre treatment plant would be located in Section 26, Township 10 South, Range 10 East, southeast of Salton City. The project also includes constructing 1.6 miles of 8" and 12" force mains extending from an existing 8" force main at Plaza Avenue in Salton City to the proposed wastewater treatment plant; replacing existing Lift Station No. 22 on the same site, located near the intersection of Plaza Avenue and Panorama Avenue, northeasterly of the existing wastewater treatment plant; replacing existing Lift Station No. 24 on the same site. This construction will temporarily impact 0.934 acres of drainages and will include the excavation of approximately 1,963 cubic yards of sandy soils. The project will permanently impact approximately 0.05 acres of creosote bush scrub habitat and approximately 0.25 acres of desert sink scrub habitat for a total of 0.3 acres of permanent impact to jurisdictional waters. The permanent impacts to 0.3-acres of ephemeral drainages shall be mitigated by</p>	NOD

	the project proponent's purchasing of 0.6 acres (2:1) of mixed creosote scrub/desert dry-wash woodland. The 0.934 acres of temporary impacts will be restored back to pre-project conditions.		
2007092079	<p>Cal-One Cellular Minor Subdivision and Zone Reclassification Humboldt County Community Development Services Eureka--Humboldt</p> <p>A Minor Subdivision to create two 5-acre parcels. One parcel is currently developed with a 120-foot tall lattice cellular tower and typical small support sheds. The other proposed parcel is developed with two legal, nonconforming residences, a variety of sheds and outbuildings and a barn which is currently in violation of County Code given that a residence on the second floor was developed without the benefit of permits. As a condition of approval to be accomplished prior to recordation of the map, this structure will be converted back to nonhabitable space and its on-site sewage disposal system removed according to Environmental Health standards. The two legal residences are connected to community water and sewer. The site is within the Alquist-Priolo Special Studies Zone (A-P) and preliminary trenching has indicated the presence of significant faulting and potential geologic hazard. To complete a standard Fault Evaluation Report (FER) which would identify additional building sites would be very costly and time consuming. The applicant and Planning Division have agreed to separate the two existing uses and adopt a B-6 combining zone that would prohibit any further subdivision and a Qualified (Q) combining zone that restricts development subject to requirements of the A-P Act until such time as a full FER identifying suitable building sites can be provided. The small portion of the property zoned AE-60 is in the Coastal zone, but the proposed subdivision line will be outside the Coastal zone, thus a CDP is not required. No new development will occur as a result of this subdivision.</p>	NOD	
2007102139	<p>BART Replacement Parking Facility Hercules, City of Hercules--Contra Costa</p> <p>An exchange of properties between City of Hercules and BART to exchange BART's current park and ride parcel for a comparable parcel owned by City to which park-and-ride function would be relocated.</p>	NOD	
2007122097	<p>Project No. 2007-023 Extension of Time for Carson Hill Rock Products 98-05 Mining Use Permit and Reclamation Plan Calaveras County Planning Department --Calaveras</p> <p>The applicant is requesting approval of Project 2007-023. Extension of Time for Mining Use Permit and Reclamation Plan for Carson Hill Rock Products, Mine #91-05-0018. This Mining Use Permit and Reclamation Plan, approved by Resolution 98-32 on June 4, 1998 by the Planning Commission, was a modification from the original Reclamation Plan to allow mining, processing, including blasting, crushing, concrete batch plant and asphaltic hot plant, and off-site hauling, of the existing reclaimed stockpiles. The material is comprised of overburden waste that was removed from the open pit, and the stockpiles on the site that were former leach units consisting of crushed, spent and detoxified gold ore. These materials are valuable mineral resources for asphalt, road base and decorative rock.</p>	NOD

2008038073	Tentative Tract Map 17008 Adelanto, City of Adelanto--San Bernardino A request to subdivide 11 parcels, totaling ~529 acres, into 29 industrial lots ranging from 1.8 acres to 29.08 acres within the Manufacturing/Industrial zoning district. No development is proposed within the tentative map.	NOE	
2008038074	Nevada County Community Shaded Fuelbreak Nevada County Resource Conservation District Nevada City--Nevada The project proposes to reduce or modify vegetation on areas of specific parcels to reduce the threat of catastrophic wildfire, thereby adding protection to adjacent Nevada City and local communities as well as protecting a drinking water supply (Scots Flat Reservoir) and recreation area. The portion of parcels proposed for treatment will be fragmented, non-contiguous, treated by different methods at different times over a three year period. This project will also provide protection to water quality and reduce the threat of serious soil erosion which would result from a catastrophic wildfire. Project implementation will not significantly impact the current level of habitat available over the landscape level.	NOE	
2008038075	AT&T Critical Line Repair (07-08-SD-27) Parks and Recreation, Department of --San Diego This project consists of the repair of an underground line by AT&T for the repair and improvement of the TPSR phone system. The project requires trenching of an area 12"Wx24"Dx10'L to expose the "line pot." The project includes replacement of the line and relocation of the line pot to the existing pole. The area of the project (adjacent to Torrey Pines Rd. and across from Reserve entrance) has been disturbed above and below ground. The project will not be disturbing a new area.	NOE	
2008038077	USGS - Corral Canyon Precipitation Gage in Malibu Creek State Park Parks and Recreation, Department of --Los Angeles Issuance of Right of Entry Permit for the purpose of allowing USGS to install a precipitation gage in Corral Canyon. The precipitation gage is to provide flood warning to downstream residents in recently burned areas based on data transmitted from the gage. The gage will provide early warning of potentially hazardous conditions resulting from heavy precipitation for the Malibu area in general and Corral Canyon in particular. The proposed gage measures 3'x2.5'x2' and is self contained operating via battery/solar power. It would be in place for ~3 years. The preferred installation method will require excavation of ~2.5 cu ft. of soil to a depth of 6-8 inches in order to set the footing of the gage.	NOE

2008031034	Proposed Amended Rule (PAR) 1149 - Storage Tank and Pipeline Cleaning and Degassing South Coast Air Quality Management District --Los Angeles, San Bernardino, Riverside, Orange PAR 1149 would implement the 2007 AQMP control measure FUG-04 - Further Emission Reductions from Pipeline and Storage Tank Degassing, to achieve additional VOC emission reductions. PAR 1149 would extend the applicability of the rule to small above ground organic liquid storage tanks, pipelines, and large storage tanks previously exempted because of lower vapor pressure products. The current rule requires vapors contained in storage tanks to be vented to a control device for a pre-determined length of time or to be displaced by a liquid into a control device. PAR 1149 would instead require a vapor concentration of 5,000 ppmv, measured as methane, before vapors are vented to atmosphere. PAR 1149 would streamline the notification process and clarify requirements for vacuum trucks and containers used for storing liquid and sludge removed during the cleaning process. PAR 1149 introduces a greenhouse gas (GHG) quantification protocol, where GHG emissions may be voluntarily reduced by controlling methane emissions from natural gas pipelines.	EA	04/08/2008
2008031035	US 101/Willow Road Interchange Caltrans #5 Nipomo--San Luis Obispo Project consists of a proposed interchange to be constructed on US 101 in the community of Nipomo, between existing interchanges of US 101/Teft Street and US 101/Los Berros Road. In addition, the project includes the extension of Willow Road from the proposed interchange east to Thompson Road. A diamond interchange would be constructed as an undercrossing. This would include construction of a four-lane concrete bridge with a closed median to carry northbound and southbound US 101 traffic over Willow Road. Also included would be approach slabs, and on- and off-ramps. The extension of Willow Road to Thompson Road would require construction of a bridge over Nipomo Creek.	EA	04/24/2008
2006102033	PG&E Line 108 Natural Gas Pipeline Project California State Lands Commission Elk Grove--Sacramento, San Joaquin PG&E is proposing to replace approximately 11 miles of a partially inactive, 16-inch natural gas transmission line (Line 108) with a new 24-inch pipeline that extends from the Thornton Station just south of the Mokelumne River in San Joaquin County, to the Elk Grove Station, just south of Elk Grove Boulevard in Sacramento County. The majority of the proposed project would be located within PG&E's existing land rights by paralleling the partially inactive 16 inch pipeline. A combination of construction techniques would include trench, horizontal directional drill, and hammer bore. PG&E proposes to install aboveground facilities at its Thornton, Franklin, and Elk Grove Stations, with a new pressure limiting station at the Elk Grove Station. PG&E would remove a bridge that historically supported a section of the partially-inactive 16 inch natural gas pipeline over the Cosumnes River.	FIN

2008031037	Lucca Villas Merced County Merced--Merced The project would involve the development of a small, single-family residential subdivision on an approximately 22.2-acre agricultural property. The subdivision would consist of the construction of 17 single-family residential units. Development would occur in two phases. The final phase would involve subdividing the property into 15 lots, 14 of which would be developed and one of which would remain undeveloped, a "remainder" lot. The 14 residential lots that would be developed during Phase 1 of the proposed project would range from approximately 1 acre to 1.97 acres in size. Phase 2 of the proposed project would consist of further subdividing the "remainder" lot and developing three single-family residential units, as well as providing another road access point to the proposed subdivision.	MND	04/08/2008
2008031041	Design Review for Proposed Warehouse Buildings and Parking Lot Colton, City of Colton--San Bernardino Construction of 27,090 square feet of warehouse space and 455 parking spaces. First phase to include 12,600 square feet of construction. Second phase to include 14,490 square feet of warehouse construction.	MND	04/08/2008
2008031043	General Plan Amendment DRC2008-00115 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino State mandated Housing Element update in accordance with Article 10.6, Section 65580-65589.8 of the California Government Code, a revision and update of the City's Housing Element, including the State-mandated analysis of restricted, affordable units at risk of conversion to market rate through June 30, 2015.	MND	04/09/2008
2008032019	UP08-0002 KHSL Digital TV Tower (Replacement) Butte County --Butte The project proposes to replace the existing 195-foot communication tower with analog TV signal with a new 500-foot digital TV signal transmission tower. The purpose for the replacement tower is to comply with Federal Communication Commission (FCC) requirements to phase out analog television signal and replace it with digital signal.	MND	04/08/2008

2008032035	Lone Pine Subdivision Scotts Valley, City of Scotts Valley--Santa Cruz Proposal to subdivide two adjoining lots into 6 residential lots served by a new private street and to rezone the property from "RH" (High Density Residential) to "R-1-10/PD" (Single-family Residential with a 10,000 square foot minimum lot size zone district with a Planned Development combining zone district) and to amend the General Plan designation from "High Density Residential" land use to "Medium Density Residential" land use.	MND	04/08/2008
2007081151	Oakmont II - Ramona Expressway Perris, City of Perris--Riverside The proposed construction consists of approximately 1,611,000 square feet on the approximately 90 acre subject property. Other improvements would consist of property line screen walls, concrete or asphalt pavement, project required street improvements, and landscaping. The building would consist of a concrete tilt-up structure supported by a conventional slab-on-grade foundation system with perimeter-spread footings and isolated interior footings. The project would have primary and secondary access from Markham Street and Indian Avenue.	NOP	04/08/2008
2008031038	8th and Grand/Hope Mixed Use Project Los Angeles, City of --Los Angeles The applicant proposes to entitle a mixed-use development consisting of residential condominium units, hotel uses, commercial retail uses, and associated parking and open space on the project site. The proposed project would include the demolition of the existing 65-space surface parking lot and the 222-space, 4-story parking structure, and the construction of a mixed-use project that would include a high-rise tower(s) with up to approximately 61 stories (approximately 700 feet above ground level) and a maximum of 481,520 square feet of net floor area (approximately 780,000 gross square feet), resulting in a Floor Area Ratio (FAR) of 13:1.	NOP	04/08/2008
2008031039	Ventura Avenue Sewer System Improvements Ojai Valley Sanitary District Ojai--Ventura The Ojai Valley Sanitary District (OVSD) operates two wastewater lift stations in the Ventura Avenue area to convey wastewater to the Treatment Plant; the Orchard Lift Station and Petrochem Lift Station. One of these lift stations is heavily corroded, and force mains from both lift stations are unreliable due to corrosion. The purpose of the project is to replace these lift stations to improve efficiency and reliability, and to meet the needs of planned growth in the area. In addition, new larger wastewater pipelines would be provided to increase capacity and reliability.	NOP	04/08/2008
2008031040	Cedars-Sinai Medical Center ENV 2008-0620-EIR Los Angeles, City of --Los Angeles Increasing existing land use entitlements at the medical center by 200,000 square feet. The new square footage will be contained within a proposed 477,650 square foot inpatient facility.	NOP	04/08/2008

2008032029	<p>Flood Control and Storm Drainage Master Plan Elk Grove, City of Elk Grove--Sacramento</p> <p>The City of Elk Grove (City) recognized a need for a comprehensive master planning study to evaluate the major existing drainage facilities serving the City and to define the major facilities to serve future development to accommodate the approved land uses as depicted in the City's General Plan.</p> <p>Flooding is a major concern within many areas of the City, primarily in the eastern portion where major drainage facilities have not been built and where stormwater flows either in natural channels or small ditches whose capacity is frequently exceeded.</p> <p>The Elk Grove Flood Control and Storm Drainage Master Plan (FC/SDMP) would improve and expand on existing stormwater drainage facilities throughout the City to eliminate or reduce the flooding potential and would construct new stormwater infrastructure to accommodate increased flows resulting from new development within the city.</p>	NOP	04/08/2008
2008032031	<p>St. John's Episcopal Church - Parking and New Sanctuary Improvements Oakland, City of Oakland--Alameda</p> <p>Phase I of the project includes demolishing the house at 5928 Thornhill Road, abandoning a portion of the shared access road with the home at 5940 Thornhill Road, and constructing a new access bridge over Temescal Creek. Primary ingress and egress would be via a new lane leading from the new bridge to an auto circle, which would allow pick-up and drop-off activities as well as provide improved fire truck access to the sanctuary. Perpendicular parking spaces would be provided along the new lane, as well as a separate pedestrian path, which would run parallel to the the new lane. Existing parking areas near the sanctuary would be retained, and the existing parking along the upper parking would be retained and resurfaced. The Alhambra Lane driveway would be retained, and the existing parking along the upper parking lot would be retained to allow egress for people parking in this area. The number of parking spaces would be increased from 40 spaces plus 1 ADA space to 49 spaces plus 1 van and 1 ADA space. Phase I also includes the removal of 2,300 square feet of asphalt parking lot abutting the eastern side of the existing sanctuary buildings and abandonment and removal of paving at the current, steep Gouldin Road entry. This area would be landscaped under Phase 2.</p> <p>As a separate project component, Temescal creek would be restored along its reach of approximately 200 linear feet within the project site boundaries.</p> <p>Phase II would entail construction of a new sanctuary building between 5,000 and 5,500 square feet and one story tall at the location of the current Gouldin Road entrance to the church. Conceptual plans for the new sanctuary call for a 33-foot-high structure and a cupola with a bell. The new sanctuary would be constructed of wood, stucco and a composition roof material to match the style and materials of the existing sanctuary building. As part of this phase, the patio between the existing building and the new sanctuary would be renovated and expanded. Upon completion of the new sanctuary building, the existing building would be converted into a community hall, fellowship space.</p>	NOP	04/08/2008

2008032033	<p>Washington Square Commercial Center Project Marysville, City of Marysville--Yuba</p> <p>The proposed project would involve demolition of existing structures on the project site including clearing and grubbing of vegetation, and construction and operation of a commercial center and related improvements. The project is an application for a General Plan Amendment, Zoning Ordinance Amendment, Use Permit, and Design Review. Demolition of the project site would include removal of two hotel buildings, two houses, and existing paved areas, and clearing of existing vegetation including several trees. Following site preparation, the proposed project would involve the construction of approximately 24,000 square feet of buildings, including a 13,225-square-foot retail building (Retail A) near the southwest corner of the site, a 6,300-square-foot building (Pad B) at the southeast corner of the site, and a 4,500-square-foot building (Pad A) at the northwest corner of the site.</p>	NOP	04/08/2008
2008032037	<p>800 Presidio Avenue San Francisco Planning Department San Francisco--San Francisco</p> <p>The project entails demolition of the existing 14,630-square-foot Booker T. Washington Community Center building, located on a single parcel at 800 Presidio Avenue, and construction of a mixed-use structure which would replace and enlarge the community/recreation center and include new residential units above. The completed project would encompass approximately 85,000 square feet of space on seven levels, six above grade and one below at a height of 65 feet along Presidio Avenue. The roughly 20,050-square-foot community center space would accommodate the center's current and future programs and would include a gymnasium, meeting space, and several classrooms. The project's residential component would consist of about 72 residential units, 12 of which would be designated below market rate (BMR) rental housing for emancipated foster youth. The remaining 60 dwellings would be a combination of 40 BMR units and 20 market-rate units. Parking for two vehicles from a car share organization would be provided in a subterranean garage, which would be accessible via a proposed curb cut on Sutter Street.</p>	NOP	04/08/2008
2008032039	<p>Drew School Addition, San Francisco Planning Department Case No. 2007.0128E San Francisco Planning Department San Francisco--San Francisco</p> <p>The project would demolish an existing 40-foot-tall, three-story over basement residential building at 1831-1835 Broderick Street in the Lower Pacific Heights area of San Francisco, and construct a three-story over-basement, 40-foot-tall addition to the existing Drew School building at 2901 California Street, for expansion of the independent school. There would be about a 15 percent increase in school population of enrollment (from about 243 students to approximately 280). The project would add approximately 15,604 square feet (sq.ft.) to the existing 26,470 square foot Drew School building for an assembly room/theater, rehearsal space, and classrooms. The entrance to the theater/assembly space would be off the courtyard, connecting the new and existing buildings. The existing 21-space basement/underground parking garage would not change. The project would employ green design principles and be LEED Gold Certified.</p>	NOP	04/08/2008

2008031036	Permit Renewal for Explosive Ordnance Disposal Range Toxic Substances Control, Department of Lompoc--Santa Barbara The proposed Permit Renewal is for the EOD Range operations at the Vandenberg Air Force Base. The EOD Range receives unexploded propellant, explosive, and pyrotechnic (PEP) materials. These materials include obsolete ordnance, explosive waste from training operations, materials with an expired shelf life, or explosive waste discovered on base. The PEP materials are detonated in the open at the site, which has been used for this purpose since 1945. Detonations are conducted at a point approximately in the center of the graded area. The EOD Range operations are regulated under the RCRA Part B Permit. In order to allow maximum flexibility for range operations, the previous permit specifies a maximum of 250 pounds of cased (fragment-producing) explosive per detonation, or 500 pounds of non-fragmented-producing explosive per day, or 1,500 pounds of explosive per month, or 8,000 pounds of explosive per year.	Neg	04/25/2008
2008031042	Water Well 5 Revitalization Chowchilla, City of Chowchilla--Madera The project is the revitalization of an existing water well site which was taken out of service on March 1998. This proposed water well will replace the abandoned water well at 1555 Truman Drive (approximately 15,703 square foot parcel).	Neg	04/08/2008
2008032036	Romaguera Tentative Parcel Map Butte County Oroville--Butte A request to divide an approximately 2-acre parcel into two parcels of one acre parcels. The parcels are proposed to be served by individual sewage dispersal systems and private wells.	Neg	04/08/2008
2008032038	Dixon Station 3 Drinking Water Well Health Services, Department of Dixon--Solano The project is the installation of an ion exchange treatment system on an existing well to remove nitrates in groundwater. The project would allow use of the well again and would also provide water for fire flow demand.	Neg	04/08/2008
1990021037	Inland Feeder Metropolitan Water District of Southern California Rancho Cucamonga--San Bernardino, Riverside The project consists of temporarily storing salvage material and equipment previously used for construction of the Inland Feeder Project. This equipment includes the tunnel boring machines used to construct the East and West Arrowhead Tunnels and the trailers that house office and support staff.	NOD	
1997022059	Upper Guadalupe River Flood Control Project Santa Clara Valley Water District The applicant proposes to construct a step-pool fish ladder, modify existing concrete weirs, and construct new flashboard weirs within an existing concrete-lined channel (U-Frame) on Guadalupe Creek. CDFG is executing a Lake and Streambed Alteration Agreement Number 1600-2005-0329-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Beau Goldie, Santa Clara Valley Water District. 2008031047	Waste Water Treatment Facility Expansion Project Kerman, City of Fresno--Fresno The proposed Expansion Project would modify and expand the Waste Water Treatment Facility to increase and improve treatment and disposal capacity from 1.2 to 2.0 mgd by upgrading the headworks; incorporating a Biologic System (an extended aeration process with nitrification/denitrification); constructing two clarifiers; constructing sludge handling and storage facilities, including sludge drying beds; conversion of three lagoons to storage ponds; and installation of a new 5,000 gallon septic tank for receiving waste from portable toilets and domestic septic tanks.	MND	04/10/2008
2008031048	Site Plan Review 07-11 Lancaster, City of Lancaster--Los Angeles The proposed project involves the construction of a 2,736 square foot warehouse and office for stone and paper materials.	MND	04/10/2008
2008031049	Conditional Use Permit 07-06 Lancaster, City of Lancaster--Los Angeles The applicant proposes to develop a 19,028 square foot commercial/retail center to include a convenience store, car wash, gas station, and a drive-thru restaurant.	MND	04/10/2008
2005072100	East Contra Costa BART Extension (known as eBART) Bay Area Rapid Transit District Pittsburg, Antioch, Oakley, Byron--Contra Costa The San Francisco Bay Area Rapid Transit District (BART) intends to prepare an Environmental Impact Report (EIR) pursuant to the California Environmental Quality Act (CEQA) for enhanced transit service in eastern Contra Costa County. Service is proposed to follow an alignment in the State Route 4 median between the Pittsburg/Bay Point BART Station and the vicinity of the Hillcrest Avenue interchange in the City of Antioch. This 10-mile corridor includes one transit station in Pittsburg at Railroad Avenue and a terminus station in Antioch, east of the Hillcrest Avenue interchange. Several station location options are being considered for the Hillcrest Avenue terminus station, including in the median and out of the median on land north of State Route 4. The recommended rail technology known as Diesel Multiple Units (DMU) involves trains using light-weight, self-propelled rail cars. Passengers on these vehicles would transfer to BART at a new transfer station east of the existing Pittsburg/Bay Point BART Station. A train storage yard and maintenance facility would be constructed east of the terminus station in Antioch.	NOP	04/10/2008

2008031046	Highland Wal-Mart Supercenter Highland, City of Highland--San Bernardino The proposed project involves construction and operation of a Wal-Mart Supercenter on approximately 20.4 acres. The Supercenter will total up to approximately 161,000 square feet (inclusive of the garden center), with all appurtenant structures and facilities, and will offer groceries and general retail merchandise, with limitation, alcohol for off-site consumption, pool, chemicals, petroleum products, pesticide, paint products, and ammunition. The Supercenter may have outdoor seasonal sales and storage. The Supercenter may include a garden center (up to 6,300 square feet) with an exterior customer pick-up facility for pre-paid bagged garden supplies, such as potting, soil, mulch, and manure. The exterior pick-up facility will have an attendant to assist the customers to load, will not accommodate direct sales, and will operate the same hours as the garden center. The Supercenter may include a vision center, hearing, and medical care center; food service; a photo studio and a photo finishing center; a banking center; and an arcade and other similar accessory uses. The Supercenter building will include, without limitation, truck doors and loading facilities. The Supercenter will operate 24 hours per day. The out parcel is being designed to allow for either retail or restaurant uses, but the final use has not yet been determined. The final design will be consistent with the design of the Supercenter and will meet all City requirements. The proposed lot area is approximately 1.19 acres with a building square footage of approximately 5,000 square feet. Development within the project limits will total approximately 166,000 square feet.	NOP	04/10/2008
2008032043	San Francisco Bay to Stockton Navigation Project Stockton, Port of Stockton--San Joaquin The Port of Stockton is proposing to dredge Docks 16 through 20 at the West Complex to accommodate deep draft commercial vessels. Approximately 200,000 cubic yards will be dredged to -35 feet (MLLW datum), plus a 2-foot over depth. Dredging will be by a hydraulic dredge with dredged material pumped through a pipeline to the Roberts Island No. 1 disposal site an upland containment site on Roberts Island currently used by the Corps of Engineers to maintain the DWSC.	NOP	04/10/2008
2008032044	Waterfront Areas Redevelopment Plan Merger and Amendment Stockton, City of Stockton--San Joaquin Programmatic EIR to evaluate the proposed merger of three existing Project Areas (i.e., Downtown, Port, Rough & Ready Island) into a "Waterfront" Redevelopment Project Area; Amendment of Rough & Ready I portion to include three industrial parcels; and more detailed environmental review of four "catalyst" areas in the downtown portion of the proposed merger.	NOP	04/10/2008
2007112017	Incorporation of New City of San Marin Santa Clara County Local Agency Formation Commission Gilroy, Morgan Hill, Unincorporated--Santa Clara The Project is the incorporation of a new city to be called the Town of San Martin located in southern Santa Clara County between the cities of Morgan Hill and Gilroy. The incorporation, if approved by LAFCO and supported by a majority vote of registered voters in the area, would transfer general governance and jurisdiction over service provision and land use decisions from the County of Santa Clara to the new town of San Martin. The project also involves the establishment of planning boundaries such as the urban service area and sphere of influence for	Neg	04/10/2008

	the new Town of San Martin. No new development or new services are associated with the proposed project. The Project does not include changes in land use, as the new Town upon incorporation will adopt the Santa Clara County Zoning Ordinance and General Plan.		
2008031045	Adoption of New Zoning Code; Title 11: Zoning Seal Beach, City of Seal Beach--Orange The proposed project consists of the adoption of a Comprehensive Zoning Code Update. The proposed Title 11, Zoning, does not propose any amendments to the basic lot size, density and building intensity, setback, lot coverage, height, parking, and sign regulations of the current zoning Code. Likewise, there are no changes to allowable and discretionary land uses within the City, other than minor uses such as news stands and kiosks. New provisions related to a number of design related issues are proposed, such as floor area ratio, building envelope, and other design and aesthetic matters of concern to the City. In addition an "Administrative Use Permit" approval process is proposed which would allow the Director of Development Services to review and approve several types of discretionary land use approvals that are currently reviewed and approved by the Planning Commission. 2008012093	<p>Old Mammoth / Mill City Fuels Reduction Project Mammoth Lakes Fire Protection District Mammoth Lakes--Mono</p> <p>The project analyzed in this Initial Study includes a portion of an effort to reduce the risk of catastrophic fire by improving fire resiliency through vegetation treatments within and adjacent to the community of Mammoth Lakes. The project is a cooperative effort with the Mammoth Lakes Fire Protection District (MLFPD), Inyo National Forest, Mammoth Lakes Community Water District, Mono County, Town of Mammoth Lakes, Mammoth Lakes Trails-Public Access and University of California, Santa Barbara (UCSB) Valentine Reserve.</p> <p>The project is associated with a larger effort which would perform fuels reduction treatments on approximately 140 acres, including 125 acres of National Forest lands and 15 acres of lands owned by the Town of Mammoth Lakes and UCSB Valentine Reserve. The proposed activities on Federal lands owned by the USFS are being reviewed under a separate NEPA document, and so this Initial Study analyzes only those activities that would be performed by the MLFPD within Town limits. Within the Town of Mammoth Lakes, the MLFPD would perform fuels reduction and removal on one Town owned parcel, known as the Bell-shaped parcel, located southwest of the Meridian Boulevard and Minaret Road intersection. The MLFPD would perform site inspections and provide guidance to private property owners (over 800 parcels in the Bluffs area and in the western part of the town), and would assist property owners with slash disposal through providing chipping and disposal services, although would not perform tree or fuels removal on such parcels. All three removal would be subject to review and approval of a tree removal permit, per Town of Mammoth Lakes regulations.</p> <p>California Department of Forestry guidelines would be employed as the primary framework for proposed practices for fuel reduction activities undertaken by the MLFPD.</p>	NOD

2004044001	Santa Ana River Interceptor Line (SARI) Protection/Relocation U.S. Army Corps of Engineers Yorba Linda, Corona--Orange, Riverside The Santa Ana River Interceptor Line (SARI) is a regional brine line, designed to export 42 million gallons per day (mgd) of brine, industrial brine and domestic sewage out of the Santa Ana River Basin to the wastewater treatment plant in Fountain Valley. This proposal, as part of the Santa Ana River Project (SARP), modifies the particularly vulnerable segment of the SARI between Prado Dam and Weir Canyon Road to reduce the risk of damage to the SARI during releases from Prado Dam of up to 30,000 cubic feet per second (cfs), without jeopardizing the regional flood control objective of the SARP. Simply stated, the objective of this project is to reduce the risk of damage to the SARI to allow for operation of the SARP, specifically, releases from Prado Dam of up to 30,000 cfs. The proposed action relocates and protects two segments of the SARI within the study area.	EIR	04/28/2008		
2006061096	New Century Plan Los Angeles City Planning Department Los Angeles, City of--Los Angeles Westfield, LLC (the Applicant) proposes the New Century Plan within the Century City community of the City of Los Angeles. The proposed project would create an integrated center within the community by providing a broad array of shopping and dining choices, entertainment opportunities, residential uses, outdoor spaces and amenities. The project would remove two existing office buildings that together comprise approximately 360,964 square feet and would replace it with approximately 358,881 square feet of net new shopping center space, 106,523 square feet of office uses, and approximately 262 multi-family residential apartment or condominium units. 2008031056	<p>square feet and provide for approximately 470 spaces. The site would include a 5.5-acre green space. The Administration Building would be the tallest structure and include 11 stories (9 of which would be office floors), with an approximately 184-foot height from the lowest level of the structure.</p> <p>Highland Center Los Angeles, City of --Los Angeles</p> <p>The project site is currently occupied by a mix of commercial and residential uses and surface parking lots. The project site includes seven buildings currently or previously occupied by office and ancillary uses (approximately 53,000 square feet), two vacant commercial buildings (approximately 4,000 square feet), three apartment buildings (approximately 16,000 square feet) and four surface parking lots. The commercial and office buildings were built or renovated between the 1950s and 1990s. Two of the three apartment buildings date to the 1920s, while the third dates to the 1950s. The project site does not include Los Angeles Department of Water and Power (DWP) Station #10, located at 6766 Hawthorn Avenue, or the Egyptian Theater building, the rear of which is located just to the north of the project site. The overall existing floor area ratio of the project site is less than 0.5:1. Given the project site location adjacent to a major thoroughfare in Hollywood, this level of development could be considered to represent underutilization of the project site.</p> <p>Development of the proposed Highland Center Project would involve the demolition of all existing uses on-site and the construction of approximately 1,112,475 square feet of a mix of residential, office, retail, and hotel uses on a land area of approximately 169,427 square feet, for a floor area ratio (FAR) of 6:1.</p>	NOP	04/11/2008
2008031058	<p>Greenspot Village and Marketplace Specific Plan Highland, City of Highland--San Bernardino</p> <p>The project consists of the approval of a specific plan for the development of master-planned community consisting of a mix of 800 residential dwelling units, up to 819,600 square feet of commercial, entertainment and office land uses, along with open space and recreational uses.</p>	NOP	04/11/2008
2008031059	<p>Piedras Blancas Route 1 Realignment Caltrans #5 --San Luis Obispo</p> <p>The proposal involves a 2.8-mile length of highway, from 0.3 miles north of the Piedras Blancas Lighthouse to the Arroyo de la Cruz Bridge, that would be realigned up to 475 feet inland of the existing alignment. The project would include constructing three bridges: at Arroyo del Corral and an unnamed drainage to the south, and at Arroyo del Oso. As part of the project, Caltrans would also be removing the rock slope protection that has been placed on the shore at two locations within the project vicinity as a temporary protective measure. Also, per AB 1396, the proposal must take into consideration the development of the Coastal Trail, which is tentatively planned to be located on the abandoned roadbed within the project limits.</p>	NOP	04/11/2008

2008031060	GPA 2, CUP 15, Map 160 Kern County Planning Department Bakersfield--Kern (a) Amend the Kern County General Plan from 8.1/2.3 (Intensive Agriculture 20 Acre Minimum/Shallow Groundwater) to 3.7 (Other Waste Facilities) and 3.7.1 (Other Waste Facilities - Buffer) or more restrictive map code: Amend Appendix F of the Kern County General Plan; and (b) Approve a Conditional Use Permit to authorize the development of an animal waste composting facility in an A (Exclusive Agriculture) zone district (19.12.030H). The applicant is seeking approval to compost 45,000 tons per year (finished) of poultry manure and 100,000 tons per year (finished) of dairy manure for use as compost in the applicant's organic farming operation. As stated by the applicant, composting on the site will allow them to meet stringent state and federal requirements for the type of compost allowed on organic crops. No sales of compost product are proposed. The operation would occur on 160-acres in the center of an approximately 618-acer parcel. The applicant has proposed development in phases, each compost area consisting of 40 acres. The composting method would be windrow composting, which is the production of compost by piling biodegradable waste, like animal manure, in long rows (windrows). With sumps and facilities, the total amount of the 160 acres that would be used for composting would be approximately 80 acres.	NOP	04/11/2008
2008032045	San Carlos Transit Village San Carlos, City of San Carlos--San Mateo The proposed project would provide residential and retail/commercial uses around the existing transit station. The project includes approximately 281 residential units and 34,600 square feet of retail/commercial space. An estimated 457 parking spaces would be provided for residents in partially-underground garages, 20 of which would be shared with retail users. The project also proposes an additional 45 retail spaces and 226 Caltrain spaces.	NOP	04/11/2008

The project will provide 434 new beds, replacing 156 beds of student housing in functionally obsolete buildings (Redwood Manor and Mai Kai) programmed for demolition, for a net capacity of 278 beds. The proposed 7-acre site is currently used as the campus soccer field. It will be reoriented and replaced with an all weather turf playfield as part of the project.</p>	NOD	
2004081177	<p>06-KER-166 KP 14.5/39.6 (PM 9.0/24.6) Old River Road Overlay Caltrans #6 Maricopa--Kern The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to put in a temporary detour roadway with a plastic culvert adjacent to the existing road to allow traffic past during the work on the culvert and new roadbed. Replace the existing reinforced double box culvert (6'h x 8' wide) x (2) with a larger reinforced double box culvert (10'h x 10' w) x (2).</p>	NOD	
2004082101	<p>Bancroft Gardens II Residential Subdivision. AP-03-178 (SUBD 8805, DR) Pittsburg, City of Pittsburg--Contra Costa The proposed project consists of an approved development ~5.79 acre parcel into an infill residential subdivision of 28 homes. The project site is surrounded on all sides by residential development and a concrete lined canal. The proposed project would result in permanent impacts to 0.03 acres of non-wetland waters (495 linear feet of non-jurisdictional drainage) and 0.05 acres of wetland within project boundaries. CDFG is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0283-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Albert Seeno III/Discovery Builders Inc.</p>	NOD	
2006052041	<p>Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services -- The project proposes the installation of a diversion take-out structure, a buried culvert, and a measuring weir, placement of bank armoring, and installation of an agency approved fish screen for a diversion located on the East Fork Scott River. The project also proposes the installation of an irrigation pipe under Noyes Valley Creek.</p>	NOD

	<p>units will be served by private driveways off Lake San Marcos Drive. The driveways will also serve as easements for public sewer and water utilities. The project site is located on the southeast corner of Rancho Santa Fe Road and Lake San Marcos in the North County Metropolitan Subregional Community Planning area, within unincorporated San Diego County. Access would be provided by a private driveway connecting to Lake San Marcos Drive. The project would be served by sewer and imported water by the Vallecitos Water District. No extension of sewer or water utilities will be required by the project. Earthwork will consist of cut and fill of 25,820 cubic yards of material. The project includes the following off-site improvements: the project will improve a westbound left turn lane on Lake San Marcos Drive at La Tierra Drive.</p>		
2008031067	<p>Woodley Avenue Drain Improvement Los Angeles County Department of Public Works Van Nuys, Los Angeles, City of--Los Angeles The Woodley Avenue Drain Improvement involves the re-grading of a channel using high performance turf reinforcement mat to correct deficiencies including erosion along the invert and stabilizers, excessive ponding of stagnant water, and heavy growth of weeds. The proposed improvements would help prevent future channel degradation, will take place on ~2.85 acres and require excavation of ~2,400 cubic yards of material and is expected to last ~60 days.</p>	MND	04/14/2008
2008031069	<p>Animo Leadership Charter High School Green Dot Public Schools --Los Angeles The project is the relocation of the existing Animo Leadership Charter High School from 1155 W. Arbor Vitae Street, Inglewood to approximately 2.5 miles southeast at 11044 and 11111 Freeman Avenue, Lennox. The school is operated by Green Dot Public Schools and will remain in the Lennox Elementary School District. The project would provide a 37,070-square foot three-story classroom and administration building on the School Site and a 35-foot-high, 11,929-square-foot performance/gymnasium building on the Gym Site. Student enrollment and design capacity would be similar to the existing campus.</p>	MND	04/14/2008
2008031070	<p>Phase I of the Artichoke Avenue Roadway Improvement Project Monterey County Housing and Redevelopment --Monterey The proposed project involves improving the existing Sewer Road for construction of a southbound right-turn exit from Highway One onto a new County roadway which would be named "Artichoke Avenue." Artichoke Avenue would then curve to the southeast along the northern bank of the Tembladero Slough and under the existing Highway One bridge. The roadway would then intersect an extension of Mead Street, which would provide access to Highway 183 (Merritt Street) just north of downtown Castroville. The proposed project would supplement the existing southbound left-turn movement at the Highway One/Highway 183 intersection, which is currently operating at unacceptable levels of service and creating unsafe traffic conditions. The proposed project would not remove the existing southbound Highway One left-turn lane, nor ban its use by vehicular traffic. However, the new Artichoke Avenue will be clearly marked as the primary route to safely guide vehicles into Castroville.</p>	MND	04/14/2008

2008031072	<p>Liberty Canyon Office Expansion Project Agoura Hills, City of Agoura Hills--Los Angeles One 8,925 square foot, single-story professional office building and one 10,315 square foot, two-story medical office building on a partially developed, 4.18-acre site and the merger of six parcels into one parcel.</p>	MND	04/15/2008
2008032050	<p>Mammoth Yosemite Airport Regional Air Service Mammoth Lakes, City of Mammoth Lakes--Mono Horizon Air is proposing to begin scheduled regional air carrier service to the Airport beginning in December 2008 with two flights per day from Los Angeles International Airport (LAX) during the winter ski season (approximately December to April). Horizon Air initially proposes to conduct two-daily flights from LAX to the Airport using their Bombardier DHC 8-402 (Q400 Dash 8) aircraft. Horizon Air has provided the FAA with a letter of intent to initiate winter ski season passenger service into the Airport in the winter of 2008-09. The Town has prepared and submitted to the FAA a forecast of future commercial aviation activity at the Airport. Winter ski service is projected to increase to a maximum of eight flights per day by the year 2011. The aviation forecast for the Airport, also considers the addition of two flights per day during the summer months beginning in 2012.</p> <p>No new facilities would be constructed as part of the proposed project. However, the interior and exterior of the existing 5,000-square foot maintenance building would be remodeled for use as a passenger terminal. The passenger terminal would contain TSA facilities, and may include baggage handling, customer services, rental cars, and food services within the renovated structure. Restrooms and wash station facilities would be provided within the terminal. New gates would be added to the existing fence at the terminal to allow for passenger processing and access to the airfield from the terminal. No additional pavement or other ground-disturbing changes are proposed.</p>	MND	04/14/2008
2008032053	<p>Asbury Creek Diversion Replacement Project Developmental Services, Department of --Sonoma The project proposes to restore the function of the Asbury Creek diversion to resume seasonal contribution to the water supply to the Center. The project would include the removal and replacement of the existing damaged diversion structure, and the replacement of the damaged/destroyed diversion pipeline.</p>	MND	04/15/2008
2008031065	<p>Wilmington Waterfront Project Los Angeles City Harbor Department Los Angeles, City of--Los Angeles The proposed project would encompass 58 acres within the 95-acre program area along the Avalon Boulevard Corridor and the Waterfront District. The major elements of the project include pedestrian-oriented features and a waterfront promenade; enhancement of the Avalon Boulevard commercial corridor; commercial, industrial, and retail development; open space; an observation tower; and transportation enhancements, linkages, and improvements. The project would include removal and remediation of existing LADWP oil tanks. The proposed project would also extend the Red Car Line and California Coastal Trail along John S. Gibson Boulevard and Harry Bridges Boulevard; and develop a Red Car museum in the Bekins Building.</p>	NOP	04/14/2008

<u>Documents Received on Friday, March 14, 2008</u>			
2008031066	The Village at Bella Terra Project Huntington Beach, City of Huntington Beach--Orange The proposed Villa at Bella Terra Project (proposed project) involves a General Plan Amendment (GPA) and Zoning Text Amendment (ZTA) to increase the maximum development density, increase the maximum number of stories, establish mixed-use zoning, create mixed-use development standards, and amend commercial development standards in Specific Plan No. 13. The 15.85 acre site (after a future lot line adjustment) is located between Edinger Avenue and Center Avenue, just west of the existing Bella Terra mall, and just east of the Union Pacific railroad line.	NOP	04/14/2008
2008031068	Parcel Map 35261 and Plot Plan 22674 Riverside County --Riverside The Tentative Parcel Map is a Schedule E subdivision of 30.32 acres into eight commercial parcels, ranging in size from 0.42 gross acre to 20.6 gross acres. Additionally, the project proposes construction of a "major" retail anchor (Wal-Mart Supercenter) on Parcel 1, totalling approximately 205,000 square feet, including an outdoor garden center (20,017 sq ft). Parcels 2, 4, 5 and 8, located in the southwesterly portion of the site, would be developed with approximately 11,100 square feet of fast food restaurants with drive-through service. Parcel 3, at the northeast of the intersection of Haun Road and Scott Road, is proposed to be developed as a 2,800 square foot convenience store with an eight-pump gas station (16 fueling positions) and a self-service car wash. Specialty retail shops, to be located on parcels 6 and 7, will total 21,080 square feet.	NOP	04/14/2008
2008031071	Calnev Pipeline Expansion Project San Bernardino County Colton, Rialto--San Bernardino Calnev Pipe Line, LLC (Calnev), is proposing to construct a pipeline replacement and expansion project from the existing North Colton terminal in the City of Colton, California to Bracken Junction on the existing Calnev system (233 miles), located approximately 1.5 miles west of McCarran International Airport in the City of Las Vegas, Nevada. The project also includes improvements to the Colton Terminal, a new pump station near Baker, new interconnections, new valves and other ancillary modifications.	NOP	04/14/2008
2008032052	San Francisco Bicycle Plan Project San Francisco Planning Department San Francisco--San Francisco The San Francisco Bicycle Plan would involve the adoption of a citywide bicycle transportation plan (comprised of both the "Policy Framework" and "Network Improvement" planning documents) and phasing of implementation of near-term, long-term and other improvements to the bicycle route network, as well as amendments to the San Francisco General Plan, the San Francisco Planning Code, and the San Francisco Traffic Code. The project sets objectives and identifies policy changes that would enhance the City's bikeability. It also describes the existing bicycle route network (a series of interconnected streets and pathways on which bicycling is encouraged), and identifies gaps within the citywide bicycle route network that require improvement. The project is an update of the existing 1997 San Francisco Bicycle Plan.	NOP	04/14/2008

2008032051	Oak Creek Park Mixed-Use Scotts Valley, City of Scotts Valley--Santa Cruz The proposed project would create three lots (Parcels B, C, and D) and build two one-story commercial buildings (approximate total of 24,500 square feet) and a three-story townhouse building consisting of 10 dwellings. The project includes landscaping, surface parking, recreation area, and related site improvements. Although the subdivision map shows nine townhouses on Parcel D, the property owner has agreed to split Lot #9 into two dwellings to provide a 10th dwelling, as part of the affordable housing requirements. A recreational area with a sound wall, pool, and cabana will be provided for the project residents. Existing site access is Glen Canyon Road, while a second access will be provided on Mt. Hermon Road. Project impacts and mitigation measures are attached.	Neg	04/14/2008
2008012003	65th Street Center Sacramento, City of Sacramento--Sacramento The proposed project would construct an approximately 238,797 square foot retail and office center. A Target store would occupy the second floor, with parking and retail shops on the ground level. The main building would connect to the frontage streets via a pedestrian plaza, with additional retail buildings along 65th Street and 4th Avenue. The retail buildings along 4th Avenue will front 4th Avenue.	SIR	04/28/2008
2005061039	Cedar Mini-Park Project Glendale, City of Glendale--Los Angeles The project applicant, the City of Glendale, proposes the Cedar Mini-Park Project, which consists of the development of a "mini-park." The proposed mini-park would be comprised of ~23,430 sf of passive park space to serve residents in the immediate neighborhood. The project would be open to the public and would incorporate such features as open lawns, trees, playground area for young children, sitting areas, walkways, a small shade shelter, basketball court, garden, security lighting, perimeter walls, and a small maintenance area.	NOD	
2006011033	Porterville 2030 General Plan Porterville, City of Porterville--Tulare The Porterville 2030 General Plan includes an update to the Land Use Element, Circulation Element, Open Space and Conservation Element, Noise Element, and Safety Element. The Housing Element will be updated in a separate process at a future date, according to state required timelines. The Porterville 2030 General Plan combines the Conservation and Open Space Elements into one, and adds the following additional elements in order to help realize the City's vision: 1. Economic Development Element; 2. Parks, Schools and Community Facilities Element; 3. Public Utilities Element.	NOD	
2007061061	Ojai Meadows Preserve Habitat Restoration and Flood Control Plan Ojai, City of Ojai--Ventura The project is for habitat restoration, wetland creation, and flood control and drainage improvements on an ~57 acre site. The project would restore ~8 acres of wetland at the Ojai Meadows Preserve, improve several on-site drainages, create 3 vernal pools, and replicate habitats that were present on the site prior to 1929. 2007112094	PacifiCorp's Application to Construct Morrison Creek Substation Project CPUC A.07-07-018 Public Utilities Commission --Del Norte Through its CPUC application (A.07-07-018) filed on July 20, 2007, PacifiCorp seeks a Permit to Construct (PTC) the proposed Morrison Creek Substation and remove the existing Simonson Substation. The existing Simonson Substation, which currently steps power down from 69 kilovolt (kV) to 12.5 kV, would be replaced with the proposed Morrison Creek Substation which would have the same distribution capabilities. The objective of the Proposed Project is to increase system reliability for area customers.	NOD	
2007121053	Hansen Spreading Grounds Basin Improvements Project Los Angeles County Department of Public Works Los Angeles, City of--Los Angeles The County of Los Angeles Dept. of Public Works proposes to consolidate the existing 20 shallow recharge basins into 6 medium depth recharge basins, which requires the removal of ~1 million cubic yards of sediment. The modifications would increase the facility's storage capacity from 279 acre feet to 1,450 acre feet and would improve operations at the spreading grounds by enhancing the intake capacity and enabling more efficient interbasin operations. 2008038130	Solvang School Lower Campus New Classroom and Multi-Purpose Room Addition Solvang Elementary School District Solvang--Santa Barbara The Solvang Elementary School project proposes the removal of 4 portable classrooms, and one stick-built classroom, totaling 5,227 sf. New construction on the site of 13,843 sf would consist of the following: classroom building (7 rooms): 7,505 sf; multi-purpose room addition: 4,196 sf; covered walkway: 1,394 sf; lunch area shelter: 748 sf. The project would result in a net total of 2 additional classrooms and 8,616 sf of additional structures.	NOE	
2008038131	San Diego Canal Sodium Bisulfite Feed System - Addition to Scope of Final Design, Construction, and Operation Metropolitan Water District of Southern California --Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to upgrade the San Diego Canal Bisulfite Feed System. The project includes modifying the scope of final design to comply with requirements of the Riverside County Fire Department and Department of Environmental Health and Safety, constructing the system, and performing routine periodic operation and maintenance activities. The upgraded system will include a sodium bisulfite tank, a concrete secondary containment structure, a depressed tank loading area, a canopy roof, additional alarms, valves and meters, and a telemetry system to transmit information to the Robert A. Skinner Water Treatment Plant.	NOE
