

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

March 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, March 01, 2013</u>			
2013031003	Gloria Way Well Retrofit Project East Palo Alto, City of East Palo Alto--San Mateo Retrofit existing well to improve water supply.	MND	04/02/2013
2013031004	GPA 13-3/Zoning Map Amendment 13-4/Specific Plan Amendment 13-2 Seal Beach, City of Seal Beach--Orange Redesignation of a 4.5-acre parcel from Light Industrial to Residential High Density-20 and amendment to the Boeing Integrated Defense System Specific Plan to add emergency shelters to the list of permitted uses.	MND	04/02/2013
2013031006	State Route 138 Safety Improvement Project Caltrans #7 Palmdale--Los Angeles The proposed project is a safety improvement project that will widen the shoulders from two to eight feet and provide two foot wide rumble strips near the edge of traveling roadway in each direction and provide a four foot wide median buffer with rumble strips on SR 138 between SR-138/SR-18 Junction (PM 69.3) to the San Bernardino County Line PM (75.0). Additional improvements include adjusting limits of existing passing zones and rehabilitating the existing deteriorating pavement. All of the proposed work is within Caltrans right-of-way.	MND	04/02/2013
2004032052	Broadway West Grand 2013 Modified Project (23rd/Broadway) Oakland, City of Oakland--Alameda The proposed project is a modification to the Broadway - West Grand Mixed-Use Project (original project), originally by the City of Planning Commission in 2004 and evaluated in the 2004 EIR (2004 EIR). Previous revisions include a small increase in residential uses on the site; and the Second Modified Project (2008) changed the design of the site and included demolition of a historic façade.	NOP	04/02/2013
2012022065	Tract 8057 Residential Subdivision Project Alameda County Hayward--Alameda Tract 8057 Residential Subdivision Project The project consists of a subdivision of two existing parcels into 15 single family home lots with a minimum of 10,000 sf each, and a separate lot for stormwater treatment and open space. Access to the site would be provided by means of a new roadway on the adjacent PG&E property, connecting Fairview Avenue with the development area. Under an agreement with the homeowner's association for the adjacent Tract 6102, the new roadway would also provide an emergency vehicle connection to the at Karina Street, providing an emergency vehicular access (EVA) for both subdivisions. Water and wastewater utilities would be provided either by extending existing infrastructure from the adjacent subdivision or bringing utilities to the site from Fairview Avenue via the access road on the PG&E parcel. An on-site stormwater management system is designed for the project that would release stormwater in a controlled manner and provide	NOP	04/02/2013

	treatment in compliance with current County clean water program requirements.		
2013031001	EIR JRK 03-12; Community Recycling & Resource Recovery, Inc. Project Kern County Lamont, Arvin, Bakersfield--Kern The proposed project includes amendments to operations at an existing large-scale composting facility. The project proponent is requesting amendments to the existing CUP (originally approved in 1993) to allow the following operational refinements at the existing facility: 1) Modify the existing CUP to authorize/acknowledge the following incoming material categories: (a) Digestates; (b) Gypsum Wallboard; (c) Food Material (including residential) and Green Material, mixed together; (d) Amendments/Additives (part of 1993 approval but not previously listed as a category); (e) Lamont PUD Biosolids (part of 1993 approval but not previously listed as a category); 2) Add the processing of gypsum wallboard and the use of a "Pseudo Bio-filter" to the project description; 3) Modify the project description of the existing CUP to more specifically define the contents of permitted composting feedstock categories in order to ensure clarity and consistency with CalRecycle's Title 14 requirements. Definitions used in the project description will conform to the definitions in Title 14 Section 17225 and Title 14 Section 17852; 4) Add air pollution control measures as required by the San Joaquin Valley Air Pollution Control District permits, rules, and regulations and as requested by the applicant.	NOP	04/02/2013
2013031002	District Community Education Support Complex Coachella Valley Unified School District Coachella--Riverside The proposed project involves the demolition of the existing of District Community Education Support Complex and its reconstruction and expansion to consolidate all District administrative operations at the project site. The first phase would include acquisition of an adjoining property, development of the transportation hub, including Building C, and Building B to house the District's Facilities, Maintenance and Operations, Technology, and Purchasing departments. The transportation hub would accommodate all of the District's transportation functions and would include fueling stations for compressed natural gas (CNG), diesel, and gasoline. The second phase would include development of a two-story, 90,000 sf building complex to accommodate the remaining District administration offices and existing community/senior center. Project plans identify 747 parking spaces, including 118 for school bus parking. The project would require offsite improvements, including adjoining roadways, and new pipeline connections for potable water, sewer, and gas services. Phase 1 would start February 2014 and end September 2015. Phase 2 would start May 2014 and end November 2015. Some construction activities may overlap.	NOP	04/02/2013
2013031007	Waste Resources Recovery Facility (Project No. 2012-00880/CUP No. 201200060/RENV 201200106) Los Angeles County --Los Angeles The proposed project will increase the operating capacity of the expanded facility from 500 to 2,500 TPD of material permitted to be handled. The proposed project will expand the operations from the existing 2.38-acre site to 6.4 acres with the	NOP	04/02/2013

	addition of an adjacent 4.04-acre site to the east. The project involves the demolition of all existing structures on both sites (including the existing transfer facility and the vacant warehouse and office building on the eastern parcel), and the construction of a 115,104 sf building that will enclose all processing and waste transfer operations and will also include bale storage, maintenance and office facilities. The new facility will house the administrative offices of Waste Resources Inc (WRI), and approximately 14 collection trucks in use by WRI and Waste Resources of Gardena (WRG), which provides waste hauling services for the City of Gardena.		
2013031008	Santa Ana High School Stadium Santa Ana Unified School District Santa Ana--Orange The proposed project includes the installation of home and visiting team bleachers, a press box, elevated field lighting, and a public address system at the existing artificial turf field and synthetic track Santa Ana High School.	NOP	04/02/2013
2013032001	Vista Grande Drainage Basin Improvement Project Daly City Daly City, San Francisco--San Mateo, San Francisco This project would address storm-related flooding that currently occurs in the Basin and proposes to provide other environmental benefits, including restoration and management of water levels within Lake Merced. It would consist of partial replacement of the existing Vista Grande Canal to incorporate a debris screening device, a treatment wetland, and diversion and outfall structures to route some stormwater (and authorized non-storm water) flows from the Vista Grande Canal to Lake Merced; replacement of the existing Vista Grande Tunnel to increase its peak capacity and extend its operating life; and replacement of the existing ocean outfall structure at Fort Funston. Operational components of the project would include management of water elevations in Lake Merced and a Lake Management Plan that would implement water quality BMPs.	NOP	04/02/2013
2011082028	PA-1100144-A Mountain House Development Title Amendment Application San Joaquin County Tracy--San Joaquin A Mountain house development title text amendment application to amend section 9-310.5M regarding a reduction in the side yard setback requirements for fences located on an alley and a reduction in the front and rear yard setback requirements for parcels located in the R-L zone that are less than 100 feet in depth.	Neg	04/02/2013
2013012050	Hayward Executive Airport Administration Building Hayward, City of Hayward--Alameda Note: Response to Comments One story administration building containing administration offices, pilot lounge flight planning, meeting room, lobby, reception, and other necessary facilities, parking for personnel, pedestrian bridge to access runway, utility enclosure, trash enclosure, landscaping, irrigation work, and parking lot. 2004082094	Fairfax Conversion Project Forestry and Fire Protection, Department of --Sonoma The project is limited to: (1) installing a rockered ford crossing, (2) excavating two temporary trenches across two small watercourses to facilitate drain pipe installation to a sump basin; and (3) constructing an armored spillway. The rockered ford crossing shall be constructed across an ephemeral tributary to facilitate construction of access roads within the vineyard. The CA DFW is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0092-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Keith LaVine/Codorniu Napa, Incorporated, DBA Artesa Vineyards and Winery.	NOD	
2009022100	Kirkwood Meadows Power Line Reliability Project Kirkwood Meadows Public Utility District --Amador, Alpine, El Dorado The 59.7 acre Kirkwood Meadows Power Line Reliability Project consists of constructing a 27.9 mile power line and installing various electrical infrastructure.	NOD	
2010051094	Uptown Newport Newport Beach, City of Newport Beach--Orange The proposed Uptown Newport project would consists of mixed uses with up to 1,244 residential units, 11,500 sf of neighborhood-serving retail space, and ~two acres of park space. Proposed buildings would range from 30 feet to 75 feet in height; with residential towers up to 150 feet high (13 stories). Residential product types would be for-sale products with a mix of townhomes, mid-and high-rise condominiums, and affordable housing. In addition to neighborhood-serving retail, the vision for the project is to incorporate an upscale, sit-down restaurant within the 11,500 sf commercial development. Two parks totaling ~2 acres would be developed, as well as landscaped area surrounding proposed buildings. Parks and landscaped areas would be accessible to the public but privately owned. Access to the site would be from Jamboree Road, Birch Street, and Von Karman Avenue.	NOD

2013032008	Arcata Rail with Trail Connectivity Project Arcata, City of Arcata--Humboldt The proposed Arcata Rail with Trail Connectivity Project involves construction, operation & maintenance of an approximately 4.5 mile long Class I, ADA accessible, non-motorized, multiuse, paved trail. The northern 3.25 miles of the project are located in the City of Arcata & the southern 1.25 miles are located in the County of Humboldt. The proposed project will run from northern Arcata (Larson Park), through the City & Arcata Marsh & Wildlife Sanctuary & along the eastern edge of Humboldt Bay south to the Highway 101 & Bracut intersection. The trail will be along or within the NCRA ROW, a portion of the western Highway 101 corridor, City-owned ROW, & cross private property. There will be a northern trailhead at Larson Park & southern trailhead north of the Bracut intersection. Safety features include fencing, physical barriers, signage and striping.	MND	04/02/2013
2013032009	Port Road Rehabilitation Project Point Arena, City of Point Arena--Mendocino The proposed project involves the repair of a structural failure and installation of an underdrain and outfall on Port Road in Point Arena, CA. The section of roadway has experienced repeated failures due to water entering the roadway's structural section and experiencing pumping damage. The project site is approximately 250 feet long and spans the width of the existing road (approximately 30 feet wide). The eastern edge of the project site is approximately 200 feet west of the intersection of Port Road and Bluff Top Road. A new 15" cross culvert and outfall will convey water into a rock slope protection basin which will eventually drain into Point Arena Creek.	MND	04/05/2013

2012111085	New Elementary School #3 Mendota Unified School District Mendota--Fresno The proposed elementary school will consist of 30 classrooms, administrative and multi-purpose rooms, outdoor field areas, paved parking (80 spaces), and landscaping throughout the campus. The proposed campus will house up to 1,000 students and approximately 75 employees. Construction is anticipated to begin in June 2013 with an opening date in August 2014. There is an existing man-made drainage channel that borders the site on the south and the east. Because of student safety issues associated with potential standing water, as well as site access issues along the southern border, the District plans to install a drainage pipe that is of the same capacity as existing conditions and will fill the channel to match the ultimate grade.	NOD	
2012112043	Tiburcio Vasquez Health Center Alameda County San Leandro--Alameda The request is to construct and operate a new community health care facility providing out-patient clinic services for the neighboring area.	NOD	
2012121058	Zoning Ordinance Amendment (Amending development standards of existing zoning districts) Agoura Hills, City of Agoura Hills--Los Angeles The project is an Ordinance (Zoning Ordinance Amendment) to amend development standards of existing zoning districts (RM, BP-M, and BP-OR) and the Sign Ordinance to correct typographical errors and omissions, and to amend the Commercial Use Table to allow a caretaker residence for mini self-storage facilities.	NOD	
2012122045	BCAG Property Acquisition, Maintenance Yard, Transit and Administrator Facility Butte County Association of Governments Chico--Butte The proposed project is the expansion of the Butte County Association of Governments Administration and B-Line Operations and Maintenance Facility and Yard (Transit Facility). The project includes construction of BCAG administrative offices, transit and Maintenance Facility and Yard (Transit Facility). The project includes construction of BCAG's administrative functions operations and maintenance facilities sufficient to meet the B-Line's project growth and of BCAG's administrative functions (based on 2022 and 20322 project needs), and associated off-site facilities including street and intersection improvements and storm drainage facilities. The project also includes demolition of the existing B-Line facility, which will be replaced by visitor and staff parking. The project also includes construction of solar shade canopy over the bus parking areas.	NOD	
2013012057	Calaveras River Integrated Stormwater Management Project - Groundwater Recharge Component at SEWD North Site Stockton East Water District Stockton--San Joaquin The SEWD North Site would be used as one of the project sites for the Farmington Program. In addition to providing storm water management benefits, this Project will bolster local aquifer levels, increase groundwater supply reliability in the Calaveras River watershed, and provide seasonal habitat for migratory waterfowl. Activities would consist of construction activities (site grading, pipeline and	NOD

	electrical utility pole, 13 inverter/transformer units, a 20,000 sf operations and maintenance building, a 375 sf power distribution center, and a 6.6-foot tall chain-link fence on a 100 acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project site is located on the east side of Douglas Avenue, between Floral and Nebraska Avenues, approximately 12 miles southwest of the nearest city limits of the City of Mendota. (Sup. Dist.: 1) (APN: 038-060-02, 03, 38S; 038-050-44S).		
2013031018	Sunset Upper Debris Basin Dam Modification Los Angeles County Flood Control District Burbank--Los Angeles Note: Extended review.	MND	04/12/2013
	The project would increase the height of the Sunset Upper concrete arch dam by a maximum of 5 feet on top of the existing dam. The existing access road crossing the southern end of the dam would be raised by varying amounts up to 4.8 feet to match the increased dam elevation. The proposed project would provide an additional 8,000 cubic yards of storage capacity to Sunset Upper Debris Basin. Increasing the debris basin capacity would expand the 100% and 25% capacity contact lines, by 9,002 sf and 3,279 sf, respectively.		
2013032002	San Joaquin Valley Communication System Upgrade Project San Francisco, City and County of Oakdale, Riverbank, Modesto, Tracy--Tuolumne, Stanislaus, San Joaquin, Contra Costa, Alameda The SFPUC is proposing to provide an upgraded communication system for its facilities located primarily within the San Joaquin valley. The project consists of the installation of microwave radio antennas on either new or existing radio towers at 20 project sites, located between Moccasin Peak on the east and the Sunol Valley approximately 90 miles to the west. The primary project components include: one to four new microwave antennas (parabolic dishes) at each site; new radio towers ranging from 20- to 140-foot tall at eight sites; photovoltaic (PV) solar panels at five sites; and propane-fueled emergency generators at two sites.	MND	04/04/2013
2013032014	Tedesco Single-Family Residence San Mateo County Half Moon Bay--San Mateo Construct a new 3,365 sf single-family home with a 950 sf garage on a legal 111-acre parcel that is bifurcated by Purisima Creek Rd. The proposed home will be located to the north of Purisima Creek Rd. A new septic system, domestic well and water storage tank are also proposed. Grading consisting of 920 cu. yds. of cut and 450 cu. yds. of fill is proposed for the construction of the new home and garage, and a new driveway and fire truck turnaround that will provide access to it. The existing 2,000 sf farm house is proposed to remain as an Affordable Housing Unit. The project requires a Planned Agricultural District Permit, Coastal Development Permit, and a Grading Permit. It also requires a Confined Animal Permit for up to 12 horses for the existing horse boarding operation, and the renewal of a Farm Labor Housing Permit for 1 FLH unit.	MND	04/04/2013

2013031014	2008-2013 Housing Element Update Bell Gardens, City of Bell Gardens--Los Angeles The project is the adoption and implementation of the 2008-2013 Housing Element. The purpose of the Housing Element revision is to identify the City's existing and projected housing needs and to establish goals, policies, and programs to guide City officials in daily decision making in addressing these needs. The goal of providing decent, safe, sanitary and affordable housing to current and future residents of the City is a primary focus of the Housing Element.	Neg	04/04/2013
2013031015	Unified Development Code Update Santa Clarita, City of Santa Clarita--Los Angeles The proposed update to the UDC is a comprehensive update of the entire Code document, preserving the character of the City of Santa Clarita, while bringing the regulating Code up to the standards of the new General Plan. The new General Plan was based on the principles of the New Urbanism to create a mix of uses throughout the City, facilitate the pedestrian connectivity in the City, along with achieving a ratio of two (2) jobs to each housing unit in the City. This would enable residential developments to create pockets of commercial services in close proximity, while enabling commercial development to incorporate residential uses where appropriate. The synergy created by mixing uses serves to shorten vehicle trips, reducing vehicle miles traveled, encouraging alternative transportation modes, and thus reducing greenhouse gas emissions in the City. The UDC weaves these strategies into the implementing Code language in accordance with the goals and objectives of the General Plan.	Neg	04/04/2013
2013031016	Lyons Corridor Plan Santa Clarita, City of Santa Clarita--Los Angeles The Lyons Corridor project area is located within the City of Santa Clarita in the County of Los Angeles on Lyons Avenue, east of I-5 and west of Newhall Avenue. The project area embraces 102 oriented businesses, and housing complexes that total more than 1.3 million sf of commercial building space. The Lyons Corridor Plan has been proposed to protect and promote the public health, safety, comfort, convenience, prosperity, and general welfare of the Lyons Corridor. The LCP, as proposed, will take on a form-based code type approach. This type of code addresses the relationship between the buildings themselves and public spaces for the entire planning area. Form-based codes create environments that highlight the importance of outdoor public spaces such as plazas, squares, and open space, while looking at the connectivity of streets and blocks. The regulations and standards in this form-based code are presented in both words and clearly drawn diagrams and other visual exhibits. The result will be a more user friendly document for property owners and business owners, as well as a community engaged plan that promotes high quality development and uses.	Neg	04/04/2013

2009092081	Folsom Lake Trail Bike/Pedestrian Bridge Project Folsom, City of Folsom--Sacramento The project will construct a 170 foot long, 12 foot wide, single-span bicycle and pedestrian bridge with 8 foot high fencing, over Folsom Lake Crossing Road and will construct approach ramps on both sides of the overcrossing structure connecting to existing trail segments.	NOD	
2010031068	CSUCI Wellwater Desalter Project Camrosa County Water District Camarillo--Ventura Metropolitan Water District (acting as Responsible Agency) is entering into a LRP agreement with Calleguas and Camrosa to provide financial incentives for the subject project. The project would treat degraded groundwater containing high concentrations of total dissolved solids, calcium carbonate, iron, and manganese and provide up to 1,000 acre-feet per year for potable uses within Camrosa's service area. Camrosa would own and operate the project, which is expected to begin deliveries in March 2014.	NOD	
2010091043	Maple Lane Drainage and Sidewalk Improvements San Bernardino County Big Bear Lake--San Bernardino The project will re-establish the grade of an eroding roadside ditch by installing sidewalks, drainage pipe and reconstructing an open channel along Maple Lane from the intersection of State Route (SR) 38 southward for a distance of approximately 2,680 feet. Additional improvements include the construction of a 0.5 acre detention basin and the replacement of a 30 inch culvert crossing Maple Lane.	NOD	
2011052028	South Main Street and Soda Bay Road Widening and Bike Lanes Project Lake County Lakeport--Lake The project will add a center turning lane, construct Class II bicycle lanes, underground overhead utility lanes, and improve utility infrastructure at two locations: a 0.5 mile segment of South Main Street from the Lakeport city limits to the State Route (SR) 175 extension and a 0.75 mile segment of Soda Bay Road extending south from SR 175 to approximately 0.1 mile west of Manning Creek.	NOD	
2011082039	Cochrane-Borello Residential Development Project Morgan Hill, City of Morgan Hill--Santa Clara The proposed project includes removal of the existing orchards and associated uses on 122 acres, and development of a gated residential community consisting of 244 single-family homes, up to 180 secondary units, a private recreation center, private streets, approximately 23 acres of private open space, private sparks, and surrounding landscaping. The proposed lots would range in size from approximately 10,000 square feet to over 30,000 square feet.	NOD	
2011111051	United States Route 95 (US-95) Vertical Profile Realignment Project Caltrans #8 Needles--San Bernardino Construct roadway improvements on a .43 mile section US-95 south of the city of Needles.	NOD

2011091029	Sunset Bronson Studios Los Angeles, City of Los Angeles, City of--Los Angeles The project Applicant, proposes the development of a 13-story office building of ~314,495 sf and 5 story production office building of ~90,304 sf, supported by a proposed 7-story parking structure with two levels of additional subterranean parking. The project also includes a replacement guard station along Van Ness Avenue and a café with outdoor seating adjacent to the proposed production office building. These improvements would replace an existing surface parking lot and 14,499 sf ancillary studio-related buildings located on an ~4.36-acre portion of the 10.55-acre Sunset Bronson Studios campus. Upon buildout, the project would result in a net increase of ~391,018 sf of building area and an increase of 1,399 parking spaces for a total of 1,800 parking spaces within the Project Site.	EIR	04/22/2013
2011111016	2035 General Plan (General Plan Amendment 09-42) San Benito County Hollister, San Juan Bautista--San Benito The County proposes a comprehensive update of the General Plan to revise and replace the existing General Plan, including all elements, the Land Use and Condition Diagrams, and other existing goals, policies, and implementation plans to reflect current law and changing matters of public interest and concern. The 2035 General Plan will establish and implement new goals and policies for regulating development projects, and for balancing population growth with infrastructure availability, agricultural preservation, and natural resource protection. Other goals and policies are directed to ensuring timely availability of public infrastructure and services, encouraging a well-balanced economy, integrating new planning concepts endorsed by the County Board of Supervisors, and translating updated goals and policies into implementation programs.	EIR	04/22/2013

2013031021	Perris Middle School and Central Kitchen Perris Union High School District Perris--Riverside The proposed project consists of construction and operation of a new 95,000 sf middle school for a maximum of 1,000 students in 7th and 8th grade, and a central kitchen that would provide breakfast and lunch to surrounding schools. The middle schools would have approximately 95,000 sf of building area, with 35 classrooms, library/media room, multipurpose room, administration, food service facility, and a gymnasium; and 190 parking spaces. Outdoor athletic facilities would include two softball fields, a running track surrounding a football/soccer field, and hardcourts. The central kitchen's 25,000 sf building would have dry storage, freezer and cooler, office, restrooms, and areas for preparation and assembly of meals for District schools and 30 parking spaces.	MND	04/08/2013
2011082069	Southport Sacramento River Early Implementation Project West Sacramento Area Flood Control Agency --Yolo The West Sacramento Area Flood Control Agency is proposing the Southport Sacramento River Early Implementation Project to implement flood risk-reduction measures along the Sacramento River South Levee in the city of West Sacramento, Yolo County, CA. The study area, shown in Figure 1, encompasses the area of levee risk-reduction measure construction along the river corridor, roadway construction and/or relocation, and potential soil borrow sites. The project would bring the levee up to standard with Federal and state flood protection criteria, as well as providing opportunities for ecosystem restoration and public recreation.	NOP	04/08/2013
2013031022	Corona Regional Medical Center Expansion Corona, City of Corona--Riverside Universal Health Services is proposing the expansion and renovation of the 47-year-old Corona Regional Medical Center (CRMC or the Hospital). The Hospital sits on more than 9 acres of UHS owned property located at 800 S. Main Street within the City of Corona, CA. The project is in response to community need and entails the phased construction and long-term operation of an expanded CRMC which will provide a total of thirty emergency rooms and 241 hospital beds for acute care, 50 licensed non-acute patient beds at full project build out by 2035, and approximately 490,000 total sf of medical-related uses for the expanded Hospital and new adjacent Medical Office Building. The project would involve a multi-phased expansion of the CRMC, thereby implementing UHS Inc. goals and growth strategies for full build-out of the CRMC by 2035. In addition, the partnership between CRMC and a local medical clinic group (to be determined at a later time) will serve to improve the delivery of health care to the greater Corona valley.	NOP	04/05/2013
2003101111	Levee and River Maintenance for Flood Control along the Kings River (Fresno and Kings Counties) Kings River Conservation District Lemoore--Fresno, Kings The proposed project involves levee and river channel maintenance activities for flood control along the Kings River in Fresno and Kings Counties. Activities include: vegetation management, encroachment management, sediment and debris removal, erosion control and repair, and structure maintenance. Vegetation management activities include the removal of downed trees, removal of small	Neg	04/05/2013

	willows, removal of invasive non-native weedy vegetation, removal of vegetation to remedy unsafe conditions, trimming of trees and brush, and mowing.		
2013032017	County Road 86A Bridge (22C0101) Over Cottonwood Slough Replacement Project Yolo County --Yolo The existing County Road 86A Bridge (22C0101) was built in 1915 as a two-span reinforced concrete T-beam structure on solid wall pier and end diaphragm abutments. The bridge is approximately 50.5 feet long and 21.5 feet wide. The purpose of the Replacement Project is to replace the functionally obsolete bridge with an approximately 50-foot to 70-foot long, 35-foot wide single span cast-in-place post tensioned concrete slab structure at the same horizontal alignment. The new bridge is being designed to pass a 50-year design storm water surface elevation with two feet of freeboard and to be capable of conveying the 100-year flood. This feature requires the existing road profile to be raised approximately 3.5 feet. The new bridge will meet the American Association of State Highway and Transportation Officials guidelines for design, construction, and maintenance. Caltrans Standard Type 732 concrete barrier with metal beam guardrails will be used at the four corners of the bridge and the bridge approaches will be re-paved. An AT&T fiber optic line running along the east side of the bridge deck will require relocation before the existing bridge can be demolished.	Neg	04/09/2013
2013032018	County Road 12 Bridge (22C0130) Over Zamora Creek Replacement Project Yolo County --Yolo The existing County Road 12 Bridge (22C0130) was built in 1930 as a two-lane, three-span arch, and reinforced concrete slab with parabolic soffits founded on reinforced concrete pier walls and abutments. The bridge is approximately 30 feet long and 23 feet wide. The purpose of the Replacement Project is to replace the structurally deficient, scour critical bridge with an approximately 36-foot 6 inches long, 34-foot 10 inches wide, single span, flat slab structure supported by diaphragm-type abutments with cast-in-drilled-hole piles. The new bridge will meet the American Association of State Highway and Transportation Officials guidelines for design, construction, and maintenance. Caltrans Standard Type 732 concrete barrier with metal beam guardrails will be used at the four corners of the bridge. Bridge approaches will be paved.	Neg	04/09/2013

2008081090	San Joaquin Cross Valley Loop Transmission Project Public Utilities Commission Visalia, Farmersville--Tulare To remove 24 existing steel lattice towers from inside the St, John's Designated Floodway and replace with six (6) tubular steel poles. To remove 12 steel lattice towers from inside of the Cottonwood Creek Designated Floodway and replace with two (2) tubular steel poles and three (3) steel lattice towers.	NOD	
2009111086	Spring Trails Specific Plan San Bernardino, City of San Bernardino--San Bernardino The proposed project includes the Spring Trails Specific Plan (SP) No. 10-01, General Plan Amendment (GPA) No. 02-09, Development Code Amendment (DCA) No. 12-10, Development Agreement (DA) No. 11-01 and Tentative Tract Map (TTM) No. 15576 (Subdivision No. 02-09). The Spring Trails SP includes 304 single-family lots (303 new lots plus one existing), 9 acres of parks, and 236.4 acres of open space (111.3 natural and 125.1 controlled) within a 352.8-acre site in an unincorporated area of the foothills of the San Bernardino Mountains. Site access would be from a primary access road connecting to Little League Drive and a secondary access road connecting to the I-215 frontage road. An additional 26.4 acres of county land adjacent to the project site would be annexed to the City with the project site to avoid the creation of a County "island" (379.2 total acres). Project construction would take approximately three years (2013 to 2016). Upon annexation, the project site would have a zoning and General Plan land use designation of Specific Plan.	NOD	
2011051014	San Joaquin Hatchery Public Access and Trail Project Fish & Game #4 --Fresno To construct a paved universal accessible public access trail on state land at the San Joaquin Hatchery grounds, bridging the effluent hatchery water outfall and connecting to Lost Lake Park.	NOD	
2011062025	Integrated Greenhorn Creek Restoration Project Plumas County Quincy--Plumas The Plumas Corporation has requested \$341,000 from the Sierra Nevada Conservancy's Proposition 84 Preservation of Ranches and Agricultural Lands Grant Program for the treatment of 13.6-acres of aquatic and riparian habitat and 2,270 feet of stream channel at four sites along Greenhorn Creek using bank sloping, boulder vanes, and fish passage structures. The proposed project would construct bank stabilization treatments in two of the treatment areas; this would involve laying back six to eight feet high eroding banks to a 2:1 slope, vegetating the banks, and installing boulder vanes. Two fish passage treatments are located at the Reid and Shea agricultural irrigation dams, treatment at these two locations would involve placing rock channel and floodplain structures at five percent grade by building a series of riffles and pools in the channel and a rocked floodplain that would carry over-banking flood flows.	NOD

EVWD has assumed responsibility for supplying water to the residents of the company's service area and will replace the entire water system with one that meets the EVMD's design standards. This involves construction of water mains, fire hydrants, service laterals, pipelines, gate valves, and water meters to meet the EVWD's specification.		
2012092018	Butte Creek Restoration Project Pit Resource Conservation District --Lassen The Pit Resource Conservation District is requesting \$294,817 in funding from the Sierra Nevada Conservancy's Proposition 84 Preservation of Ranches and Agricultural Lands Grant Program for wetland restoration along Butte Creek in Big Valley. This project would utilize plug and pond techniques along 1.5 miles of creek channel. The project includes excavating sod and topsoil for re-vegetation, excavating and transporting fill material to the entrenched stream channels, constructing a grade control structure, filling a ditch and replanting salvaged vegetation and replacing topsoil. Construction methods include the operation of dirt moving machinery (e.g. excavator, loader, scraper) to remove or add soil to create benches, reconstruct channels, fill enlarged channels, create ponds, and remove dirt from higher elevation areas. The project site is currently hayed and grazed. The project would protect the productive half of the meadow and convert the non-productive lower half to something similar to the upper area.	NOD	
2012102033	Newport Pointe Contra Costa County --Contra Costa The proposed project is located is located in the Discovery Bay area of East Contra County. The project proposes to subdivide the vacant 20-acre project site into 67-single family residential lots (average lot size 6,924 sq. ft.) in addition to approximately six acres of open space/wetland, dog park and an area dedicated to solar field array.	NOD	
2012121017	Brookhurst Street Improvements Project from I-5 to SR 91 Anaheim, City of Anaheim--Orange The proposed Brookhurst Street Improvements Project from Interstate 5 to State Route 91 would involve widening an approximate 0.4-mile portion of Brookhurst Street between State Route 91 and Interstate 5. The primary purpose of the Project is to relieve congestion along the roadway and provide continuity in the number of lanes on Brookhurst Street within the City of Anaheim. A secondary purpose is to enhance aesthetics and improve drainage along the corridor. In order to accommodate the additional lanes in the northbound and southbound directions as well as the proposed bikeways, sidewalks, and landscaped areas, the Project proposes to shift the roadway centerline a maximum of 22 feet to the east and widen the roadway right-of-way. The Project would require 19 full and 13 partial property acquisitions along the eastern and western sides of the street.	NOD

<u>Documents Received on Thursday, March 07, 2013</u>			
2013012029	<p>Oak Park Combined Sewer System Regional Storage Facility Sacramento, City of Sacramento--Sacramento</p> <p>The project includes the construction and operation of an underground storage facility that would function as a component of the City's Combined Sewer System (CSS). The facility would provide storage during heavy rainfall periods in order to lower the hydraulic grade line, which would regionally and locally reduce the potential for flooding and combined sewer outflows. Combined sewage from the City's CSS would be piped to the project site and temporarily stored during heavy rainfall periods, then would be metered out once flows have again reduced. The facility would fill and empty via gravity flow; however, two small pumps are anticipated to be required in order to completely empty the facility. Although the proposed project would be part of the City's CSS, because storage would occur during heavy rainfall periods only, the majority of water stored would be storm water (i.e., typically 90 to 95 percent) with a minority of sewage.</p>	NOD	
2013038076	<p>Class 1* Permit Modification for the Phillips 66 Company (Formerly ConocoPhillips Company), Los Angeles Refinery, Wilmington Plant Toxic Substances Control, Department of --Los Angeles</p> <p>Pursuant to regulatory authority granted under California Code of Regulations, sections 66270.42, the California Department of Toxic Substances Control (DTSC) has approved a Class 1* Permit Modification dated March 5, 2013, on the Post Closure Permit (PCP) for the Stormwater Holding Basin 2 (SHB 2) located at the Phillips 66 Company (formerly ConocoPhillips Company), Los Angeles Refinery, Wilmington Plant. The Post Closure Permit was originally issued effective on July 24, 2008. The proposed permit modification approval will address changes to the Ownership from ConocoPhillips Company to Phillips 66 company.</p>	NOE	
2013038077	<p>Class 1* Permit Modification for the Phillips 66 company (Formerly ConocoPhillips Company), Los Angeles Refinery, Carson Plant Toxic Substances Control, Department of Carson--Los Angeles</p> <p>Pursuant to regulatory authority granted under California Code of Regulations, sections 66270.42, the California Department of Toxic Substances Control (DTSC) has approved a Class 1* Permit Modification dated March 5, 2013, on the Post Closure Permit (PCP) for the Process Water Pond located at the Phillips 66 Company (formerly ConocoPhillips Company), Los Angeles Refinery, Carson Plant. The Post Closure Permit was originally issued effective on November 27, 2007. The permit modification approval will address changes to the Ownership from ConocoPhillips Company to Phillips 66 company.</p>	NOE	
2013038078	<p>Former International light Metals Facility Post-Closure Permit Toxic Substances Control, Department of Torrance--Los Angeles</p> <p>The Department of Toxic Substances Control (DTSC) has issued a Hazardous Waste Post-Closure Permit (PCP) for Former International Light Metals Facility (Facility) effective on April 8, 2013. Lockheed Martin Corporation is the Operator with respect to the PCP and Corrective Action at the Facility and Sunshine Distribution, LLC is the owner the real property. The Department of Toxic Substances Control (DTSC), pursuant to authority granted under Chapter 6.5, section 25200 of the California Health and Safety Code (HS&C) has approved the revised PCP application dated April 26, 2012 for the Facility which was submitted by Lockheed Martin Corporation (LMC). The Facility is subject to post-closure</p>	NOE

	care because DTSC required clean-up standards for groundwater contamination that could not be met during closure activities.		
2013038079	I-40/Needles Connector Project Needles, City of Needles--San Bernardino The nature of the project includes improvements and reconstruction of the corridor including removal and replacement of existing roadbed and asphalt pavement, addition of turn lanes, striping, addition of three traffic signals, installing signs, reconstruction of affected sidewalks, addition of missing segments of sidewalks, including ADA ramps, and addressing localized flooding by adding a piped outlet, and replacement of an existing retaining wall.	NOE	
2013038080	Routine Maintenance for the Calendar Year 2013 American River Flood Control District Sacramento--Sacramento The program of routine maintenance includes, but is not limited to, all mowing, vegetation pruning, fallen or hazardous tree removal, road grading, minor earthwork repairs and the placement of rock revetment on Sacramento area flood control levees as well as any other similar activities that are needed to meet standards established by applicable law. The north and south levees of the American River, Arcade Creek, Robla Creek, and Dry Creek and the east levees of Steelhead Creek and the Sacramento River are part of the federal Sacramento River Flood Control Project and have been turned over to the American River Flood Control District for operation and maintenance.	NOE	
2013038081	Sierra Valley Agricultural Water Quality and Habitat Enhancement Project Sierra Nevada Conservancy Loyalton--Plumas, Sierra The Sierra Valley Resource Conservation District (SVRCD) is requesting \$316,820 in funding from the Sierra Nevada Conservancy's Proposition 84 Preservation of Ranches and Agricultural Lands Grant Program to implement projects on private agricultural lands at six sites in order to enhance water quality, improve wildlife habitat, and reduce soil erosion on private and public lands within Sierra Valley.	NOE	
2013038082	Lower Owens Invasive Plant Removal and Survey Project (SNC 700) Sierra Nevada Conservancy --Inyo The Inyo and Mono Counties' Agricultural Commissioner's Office is requesting \$88,249 in funding from the Sierra Nevada Conservancy's Proposition 84 Preservation of Ranches and Agricultural Lands Grant Program for eradication or reduction of weed populations at 38 sites within a 52,000-acre area directly upstream of the Lower Owens River Project (LORP). The project is part of ongoing invasive plant management activities on sites upstream of the LORP aimed at increasing watershed function. Project activities include eradicating invasive species at 15 of the 38 sites with a 70 percent overall reduction, by using herbicides (outside the buffer zone required by California Department of Fish and Wildlife (CDFW) and Regional Water Quality Control Board), hand pulling techniques with appropriate disposal, and surveying 52,000 acres for any new invasive species populations. 2006011111	State Route 180 Westside Expressway Route Adoption Study Caltrans #6 Fresno--Fresno FYI Final Caltrans, as the CEQA lead agency, is proposing that the CA Transportation Commission adopt a route for SR 180, from I-5 to the westernmost end of the freeway portion of SR 180, near Valentine Avenue in the City of Fresno (post miles R3.5.0 to R54.2). The route adoption study will identify the most appropriate location for an ultimate four-lane expressway for the SR 180 within the study area in western Fresno County.	FIN	
2012082046	Middle Fork American River Project Relicensing Placer County Water Agency --Placer, El Dorado Placer County Water Agency owns and operates the Middle Fork American River Project under a 50-year Federal Energy Regulatory Commission license, which will expire on February 28, 2013. Using FYI Final FERC's Integrated Licensing Process, PCWA is seeking the renewal of its license to continue operation and maintenance of the MFP. The MFP serves as a multi-purpose water supply and hydro-generation project designed to conserve and control waters of the Middle Fork American River, the Rubicon River, and several associated tributary streams. The MFP is located on the west slope of the Sierra Nevada range primarily in Placer County, CA.	FIN	
2012082070	1500 N. California Boulevard Walnut Creek, City of Walnut Creek--Contra Costa 1 HC The applicant is proposing to demolish the existing vacant one-story restaurant, two-story Scott Valley Bank and associated kiosk, and surface parking lot to construct two 6-story mixed-use buildings consisting of 141 apartment units, approximately 18,250 sf of ground-floor retail space fronting both N. CA Boulevard and Bonanza Street, and 210 on-site parking spaces. Twenty eight off-street surface parking spaces would be provided for retail/visitor use, and 182 parking spaces would be provided in an underground parking garage for the residents. The development would consist of studios, one-bedroom, and two-bedroom units ranging between approximately 475 and 1,366 sf in size. Site amenities include a public "pocket park" along Locust Street, fitness center conference rooms, and various courtyards and terraces.	FIN	
2009032002	Dowd Road Bridge Over Yankee Slough Bridge Replacement Project Placer County Lincoln--Placer The proposed project consists of replacing the existing reinforced concrete slab bridge with a single precast prestressed voided concrete slab bridge. The new bridge and roadway approaches will accommodate two-lanes of traffic and will improve traffic operations for the existing two lane roadway.	MND	04/08/2013

2011112013	Use Permit Application No. 2011-11 - Beltran Ranch Solar Facility Stanislaus County Newman--Stanislaus Request to establish a 140 megawatt solar photovoltaic facility on 606 acres of a 1,720 acre site. Additional site improvements include all weather fire access roads; maintenance building; security fencing; construction staging area; office trailer; sheds; substation. A 30 foot high overhead power line will be added to the existing above ground power lines to connect the solar facility to the substation. A transmission interconnect to PG&E's existing Salado-Newman transmission line will also be added. Use Permit 2010-09 was approved on November 4, 2010, to occupy 382 acres of this site.	MND	04/09/2013
2012121036	Orange Center Elementary School Communications Tower Project Fresno County Office of Education Fresno--Fresno The Fresno County Office of Education is proposing to construct and operate a 180-foot communications tower and associated ground equipment on the campus of Orange Center Elementary School. The school is located at 3530 S. Cherry Avenue, north of the intersection of S. Cherry Avenue and E. Central Avenue, south of the City of Fresno (see Figure 1). The proposed tower site is approximately 10 feet inside the northern boundary of the school site, 20 feet east of a preschool classroom building, and within 30 feet of school wing containing several classrooms.	MND	04/08/2013
2013022050	Georgia-Pacific Mill Site - Demolition of 26 Above Ground Structures Fort Bragg, City of Fort Bragg--Mendocino Note: Revised Coastal Development Permit to authorize demolition of the following above ground structures on the GP Mill Site: Dry Shed #2, Glue Lam, Resaw #6, Dry Shed #5, Planner #0, Construction Engineering, Generator Shed, Dry Kilns (5), Kiln Awnings (5), Radio Room, Guard Shack #2, Yard Office, Break Room, Valve Houses, Pump Houses (3), Time Clock Shed, Vener Building, Shipping Office, Scale Office, Tally Shack, Main Packing Shed, Chemical Storage Sheds, Green Houses, Chalet, and Corporation Yard Shed.	MND	04/08/2013
2013032019	UP99-05A (TLT Enterprises, LLC) Shasta County --Shasta Request for an approval to amend existing Use Permit 99-05 in order to establish and operate a 50-barrel brewery (producing up to 62,400 barrels/year) within an existing 2,500 sf metal building with an adjacent 4,400 sf fenced-in storage area. The proposed brewery will not include brewery tours, beer tasting, social gathering, or similar activities involving the public. In addition, the applicant requests the use of a 3,040 sf open shed for the storage of construction equipment and materials related to the existing construction yard use. Water for the brewery will be supplied by an existing well on-site. Sewage and wastewater treatment would be provided by a new septic tank/leach field system on the property.	MND	04/08/2013

	6, Rule 4 will require that metal recycling operations that have a metal throughput of more than 50,000 tons of metal scrap in a rolling twelve month period and that operate a metal shredder or receive or process scrap containing shredder residue to develop and implement an Emissions Minimization Plan to address fugitive emissions of particulate matter.		
2013032022	PA-0800168-Site Approval Application to Convert an Existing School into a Neighborhood Religious Assembly San Joaquin County Stockton--San Joaquin A Site Approval application to convert school into a neighborhood religious assembly with a maximum of 249 members in two phases over 3 years. Phase one is the conversion of an existing 3,600 sf school building into a religious assembly. Phase two, with building permits to be issued within 3 years, is the construction of a 1,875 sf attached storage building. The project will also use the existing 2,400 sf classroom and office building, a 3,060 sf cafeteria building, a 4,514 sf classroom building, a 800 sf storage building, a 500 sf commercial coach, and a 1,854 sf single family residence. The parcel is not under a Williamson Act contract.	Neg	04/08/2013
2005042052	2005-2008 State Water Project Delta Facility Increased Diversion to Recover Reduced Exports Taken to Benefit Fish Resources Water Resources, Department of Byron--Contra Costa The project is a renewal of the maximum allowable daily diversion rate into CCF during the months of July, August, and September that have been previously authorized since 2000. The increase during these months is from 13,870 acre-feet (AF) to 14,860 AF and the maximum three-day average diversion rate will be increased from 13,250 AF to 14,240 AF (990 AF per day - equivalent to 500 cubic feet per second [cfs] per day). This increased diversion over the three-month period would not exceed 90,000 AF each year and would not be greater than the total amount of export reductions to protect fishery resources as well as any unreimbursed or anticipated export reductions.	NOD	
2006011111	State Route 180 Westside Expressway Route Adoption Study Caltrans #6 Fresno--Fresno Caltrans is proposing that the CTC adopt a route for State Route 180 in western Fresno County. The route adoption study has identified a preferred route alignment for an ultimate 4-lane expressway or SR 180 from I-5 to the western terminus of SR 180, near Brawley Ave in the City of Fresno. The formal adoption of a route for SR 180 would enable Caltrans, in cooperation with local governments, to plan for future transportation projects within the corridor. When there is a future need for development of the corridor and funding becomes available. Caltrans would prepare project-level environmental documents and design, acquire permits for and construct all or part of the subsequent projects.	NOD

	(Aquabella) is limited to the development of approximately 685 acres into a residential development of 2,922 lots and supporting infrastructure.		
2000041129	Cabrillo Business Park Santa Barbara County Goleta--Santa Barbara The proposed project is the acquisition of a 7.75 acre parcel with warehouse and office building totaling 72,862 square feet ("GSF") located at 389 South Los Carneros, Goleta, CA. The property will be used to meet immediate storage requirements for the Davidson Library renovation project, consolidate other library inventory stored in two off-campus leased warehouses, and other campus storage needs.	NOD	
2004082091	Benton Crossing Landfill Supplemental EIR Mono County --Mono The proposed project is to revise the Solid Waste Facility Permit for the Benton Crossing Landfill, to change the disposal and property boundary acreage, change to operating hours, and increase in elevation over the existing unlined refuse area.	NOD	
2011072011	Breuner Marsh Restoration and Public Access Project East Bay Regional Parks District --Contra Costa The California Department of Fish and Game (DFG) are executing Lake and Streambed Alteration Agreement Number 1600-2012-0423-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, the East Bay Regional Park District. The project is located at Rheem Creek, in the City of Richmond, at the northern terminus of Goodrick Avenue, immediately north of Richmond Parkway. The project, as defined under Section 1602, is limited to installation of a new free-span pedestrian bridge over Rheem Creek, and demolition and removal an existing concrete box culvert. The new bridge will be located approximately 300 feet upstream from the existing box culvert and will consist of a 16-foot-wide by 90-foot-long steel truss structure. The concrete abutments will be placed above the top of bank. The new bridge will span the 100-year floodplain and will provide approximately three feet of clearance over the 100-year flood surface elevation.	NOD	
2012121017	Brookhurst Street Improvements Project from I-5 to SR 91 Anaheim, City of Anaheim--Orange The proposed Brookhurst Street Improvements Project from Interstate 5 to State Route 91 would involve widening an approximate 0.4-mile portion of Brookhurst Street between State Route 91 and Interstate 5. The primary purpose of the Project is to relieve congestion along the roadway and provide continuity in the number of lanes on Brookhurst Street within the City of Anaheim. A secondary purpose is to enhance aesthetics and improve drainage along the corridor. In order to accommodate the additional lanes in the northbound and southbound directions as well as the proposed bikeways, sidewalks, and landscaped areas, the Project proposes to shift the roadway centerline a maximum of 22 feet to the east and widen the roadway right-of-way. The Project would require 19 full and 13 partial property acquisitions along the eastern and western sides of the street.	NOD

	construct a distribution system (including pipelines and connection points) that would connect five of the well facilities to Sunset Reservoir; the sixth well would connect to the existing Lake Merced Pump Station, and would require a short length of distribution piping to make this connection. The groundwater would be pumped from the North Westside Groundwater Basin, which is located within the larger Westside Groundwater Basin and underlies parts of San Francisco and San Mateo Counties.		
2013031029	Cesar Chavez Boulevard Improvements Project Calexico, City of Calexico--Imperial The purpose of the proposed project is to improve traffic operations, accommodate cross-border vehicular access to the LPOE, and accommodate local access and improve safety along Cesar Chavez Boulevard. The improvement and reconstruction would involve minor realignment of Cesar Chavez Boulevard along an established corridor as necessary to provide an appropriate roadway cross-section and vehicular design speed for the projected traffic volume on this roadway. This would require acquisition of new right-of-way at various locations along the corridor length to accommodate a 100-foot right-of-way along the project alignment.	MND	04/10/2013
2013031030	City Recreation Center Project Agoura Hills, City of Agoura Hills--Los Angeles New building construction and adaptive reuse of existing buildings to develop a City Recreation Center. Total building complex of 25,330 sf, with 4,129 sf of the existing 16,000 sf of building to be demolished and the rest (11,871 sf) renovated. New building area would be 13,459 sf. Regrading of existing parking lot; creation of outdoor decks, courtyards, site pathway, and slight realignment of access driveway.	MND	04/10/2013
2013032031	Santa Rosa Charter School for the Arts Improvement Project Santa Rosa City Schools Santa Rosa--Sonoma The Project proposes the replacement of six existing classrooms, construction of four new classrooms in a two-story building with one elevator, the replacement of the administration area, restrooms, and small instruction areas; and the installation of one single-story portable classroom. The proposed project would increase capacity of the campus by approximately 120 students.	MND	04/10/2013
2013032032	Yuba River Charter School Nevada County Grass Valley--Nevada Combined application proposing: 1) a Use Permit to establish a K-8 Public Charter School approximately 23,000 sf (interior) in size, including three kindergarten classrooms, eight classrooms (one for each grade), a special education/tutoring room, administration offices, student restrooms, a library, a meeting room, an art studio, outdoor play areas, a basketball court, and associated parking; 2) a Rezone proposal for a 2.99-acre portion of the site to modify the Site Performance combining district from the C2 Community Commercial zoning district; and 3) a Management Plan for modifications to the onsite pond to increase the capacity and improve the wetland habitat potential. Project is on 3 parcels consisting of 15.97 acres near the intersection of Adam Avenue and the Rough & Ready Highway, west of Grass Valley.	MND	04/10/2013

2013032029	Kilarc-Cow Creek Hydroelectric Project License Surrender State Water Resources Control Board --Shasta Pursuant to the Federal Power Act (FPA) and Federal Energy Regulatory Commission regulations, Pacific Gas and Electric Company filed an application to surrender its license for the Kilarc-Cow Creek Hydroelectric Project, FERC Project No. 606 (Hydro Project) to FERC on March 12, 2009. PG&E proposes to decommission and remove or modify several project features, including removal of diversion dams, reservoirs, canals, and all hydroelectric generation equipment. Some Hydro Project features such as dam abutments and historic buildings would remain in place.	NOP	04/10/2013
2013031028	Vista Ridge Apartments Vista, City of Vista--San Diego The applicant seeks approval of a site development plan and tentative parcel map for the development and construction of a new 290-unit residential-apartment community on an 11.17-acre parcel in the northwestern portion of the city.	Neg	04/10/2013
2005091116	Southern California International Gateway (SCIG) Los Angeles, City of Los Angeles, City of, Long Beach, Carson--Los Angeles Construction and operation of a new near-dock intermodal rail yard in the cities of Los Angeles, Carson and Long Beach, generally between Sepulveda Blvd and Pacific Coast Highway, and to the east of the Terminal Island Freeway. The project involves a 3-year construction period requiring demolition of existing improvements and construction of a new rail yard consisting of loading tracks, lead tracks, roadway and rail bridge modifications, and other improvements. Operations will occur over a 50-period that will allow the rail yard to handle approximately 570,800 Twenty-Foot Equivalent Units (TEU is a measure for containerized cargo) in its first year of operation.	NOD	
2011051010	Coastal Treatment Plant Export Sludge Force Main Replacement South Orange County Wastewater Authority Laguna Niguel--Orange The proposed project involves construction of a Sludge Equalization Basin (EQB) at the Coastal Treatment Plant (CTP) in order to provide needed operational flexibility and reliability to meet treatment and recycled water goals. The EQB would extend sludge holding time and provide truck loading capability at the CTP by serving as the wet well for the new sludge export pump station and as emergency storage in the case of a pump or force main failure. The EQB is planned to be a circular reinforced concrete tank with a 41-foot outside diameter, a 22-foot inside wall height, and a height of 23.5 feet; the EQB would have a storage volume of 154,000 gallons. Associated facilities, including a masonry electrical building, sludge export pump, mixing/truck loading pump, and a ferric chloride pump, would also be constructed. The proposed project would not expand the existing capacity of the CTP.	NOD	
2011062026	Wastewater Treatment Plant Improvement Project Jackson, City of Jackson--Amador The proposed project consists of two major components: (1) improvements to the existing WWTP facilities to upgrade the system's level of treatment; and (2)	NOD

	environmentally-sensitive manner. The Program Area is defined as the Salinas River mainstem from the Highway 1 Bridge, River Mile (RM) 2, upstream to RM 94, including portions of the tributaries, Gonzales Slough (at RM 31.6), Bryant Canyon Channel (at RM 47.1), and San Lorenzo Creek (at RM 69.0), for a total of approximately 94 linear miles.		
2011112028	<p>Peninsula Pipelines Seismic Upgrade Project San Francisco, City and County of Colma, South San Francisco, San Bruno, Millbrae--San Mateo</p> <p>The San Francisco Public Utilities Commission (SFPUC) is proposing the Peninsula Pipelines Seismic Upgrade project, which includes six project components at five different locations on the San Francisco Peninsula in San Mateo County, in the cities of Colma, South San Francisco, San Bruno and Millbrae. The proposed project consists of upgrades to three Regional Water System water transmission pipelines, San Andreas Pipelines No. 2 and 3 as well as Sunset Supply Branch Pipeline, to increase pipeline reliability during potential seismic events. The proposed project is one of several pipeline and facility improvement projects that the SFPUC proposes to implement under the SFPUC's Water System Improvement Program.</p>	EIR	04/26/2013
2013031031	<p>Corcoran Irrigation District Solar Project (Conditionally Use Permit No. 11-13) Kings County Corcoran--Kings</p> <p>The proposed project includes a 30-year lease of approximately 200 acres of a 560 acre property in Kings County, CA, for the construction of a 20 megawatt solar power generation facility. The project would also include low-impact lighting and fencing installation for safety purposes, details can be seen in Figure 3. At the end of the lease, all equipment would be removed and the site would be returned to grazing land.</p>	MND	04/11/2013
2013031035	<p>Soledad Wind Energy Generation Project Soledad, City of Soledad--Monterey</p> <p>The proposed project consists of the installation and operation of a 1.5 megawatt electricity-generating wind turbine at the City's Water Reclamation Facility (WRF) with the purpose of offsetting electricity usage required by sewage treatment plant operations. This application of a wind turbine is widely used for producing electric power on site at homes, farms, and businesses that are already served by the utility grid. This grid-connected system would serve the City by offsetting energy consumed from the grid. The purpose of the proposed project is to provide a sustainable supply of electrical energy for the WRF and lead to a net reduction of energy costs for the City.</p>	MND	04/11/2013
2013032033	<p>Alturas Motocross Park Alturas, City of Alturas--Modoc</p> <p>This request is for a Use Permit to operate a motorcycle and ATV race track on a portion of a 103 acre industrial site. Race day uses include RV camping, food service and incidental retail sales. A small track for radio control and remote control cars and trucks is also proposed, and some non-motorized dirt bike racing events may also be scheduled. In addition, the existing amphitheater will be used for outdoor plays and concerts which may operate in the evening and have incidental retail sales and food service during the event. All events will use amplified sound equipment. No fuel will be stored on site.</p>	MND	04/11/2013

2013032034	Former United Molasses, Remedial Site Excavation Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Richmond--Contra Costa The former United Molasses (UM) leasehold is located in Contra Costa County on the Point San Pablo peninsula which juts into the San Francisco Bay, on the northwest tip of Richmond, CA. UM (and its predecessors) operated at the site from 1936 to 1993. The property was used for the production and warehousing of molasses and other agricultural products such as coconut oil, lignin liquor, linseed oil, tallow and various types of molasses. Caustic soda and liquid fertilizer were also stored on-site for third parties.	MND	04/11/2013
2013031032	Union Tribune Mixed Use San Diego, City of San Diego--San Diego The Union Tribune Mixed use Project is a 12.86-acre project site located at 350 Camino De La Reina within the MV-1 (Multiple Use), and OF-1-1 (Open Space Flood Plain) zones in the Mission Valley Community Plan area. The project site is located between the San Diego River and State Highway 163 and north of I-8 in Council District 6. The proposed project would consist of 194 multiple dwelling units, 243,680 sf of office space 5,000 sf of restaurant space and 6,790 sf of retail space. The project would also create 67,100 sf of open space area for the residential area. The required discretionary approvals include a Community Plan Amendment (CPA), Vesting Tentative Map (VTM), and Site Development Permit (SDP) for Environmentally Sensitive Land (ESL). Approval of the VTM would allow the application to subdivide the 12.86 acre site into 3 residential lots. Legal Description: Lot 2 of Golden Valley No. 2; Map No. 6860 recorded February 26, 1971.	NOP	04/11/2013
2013032036	El Dorado Forebay Dam Modification Project El Dorado Irrigation District --El Dorado The El Dorado Forebay Dam Modification Project is required to satisfy specific regulatory mandates issued, to the District, by both the California Division of Safety of Dams (DSOD) and the Federal Energy Regulatory Commission (FERC) to meet dam safety standards. Additionally the Project would improve the reliability of the drinking water supply and minimize impacts to District ratepayers through optimized power generation revenue. The project involves constructing an earthen stability buttress on the dry side of the Forebay Dam, raising the Forebay Dam 10 vertical feet, and remediating associated facilities.	NOP	04/11/2013
2013031033	Draft 2014 - 2021 Housing Element, General Plan Amendment (GPA-012-001) Highland, City of Highland--San Bernardino The City of Highland has completed its Update to the General Plan Housing Element (Chapter 8) in accordance with the CA Government Code Section 65585 and 65588. The proposed update (amendments) represent a comprehensive update of the City's Housing Element (2014-2021) Planning Period) to bring it into compliance with State Housing. The State of CA Department of Housing and Community Development (HCD) is currently reviewing the City's "Draft 2014-2021 Housing Element".	Neg	04/11/2013

2013038168	Holiday Lake Tricolored Blackbird Prescribed Burn for Habitat Improvement Los Angeles, City of Los Angeles, City of--Los Angeles This project is designed to improve habitat for Tricolored Blackbirds, a species of special concern not listed as threatened or endangered, fire hazard reduction, and support lake multiuse. Approximately 3.0 acres of cattails and bulrush growth around the lake will be burned by March 27, 2013 or August 2013 - March 2014.	NOE	
2013038169	Agreement No. 2012-0096-R4; Morrissey Access Road Fish & Wildlife #4 --San Luis Obispo The Project consists of applying approximately 85 cubic yards of gravel to an existing roadway to bring its elevation up to grade with the surrounding topography to prevent flooding. The work will occur in the riparian belt away from the thalweg of Warden Creek. There are two (2) existing culverts that contain the majority of flows from Warden Creek, and these culverts are outside of the Project Area and will not be altered. No water will be present at the Project site during construction, and no trees will be removed as part of this Project. Some trimming of willows will occur along the 205-foot section of road.	NOE	
2013038170	Transfer of Coverage to El Dorado County APN 15-101-17 (Olin Trust) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 357 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013038171	Transfer of Coverage to El Dorado County APN 15-104-17 (Berglund) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 362 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2013038172	United States Army Corps of Engineers San Francisco District, Dry Creek Reach 15, Habitat Enhancement Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Healdsburg--Sonoma The Project involves improving habitat for salmonids within the reach of Dry Creek immediately below Warm Springs Dam.	NOE	
2013038173	Industrial Road Ditch Cleaning Fish & Wildlife #3 --San Mateo The Project is limited to the removal of approximately 203 cubic yards of accumulated sediment in 730 linear feet of open channel. A backhoe will be used from the banks to remove all the sediment in the open channel and sediment will be loaded into dump trucks and disposed of at the City Corp Yard. Issuance of a Streambed Alteration Agreement Number 1600-2012-0306-R3 is pursuant to Fish and Game Code Section 1602.	NOE

2013038174	City of Shafter Intermodal Rail Facility Expansion (KER 120521) Shafter, City of Shafter--Kern The Shafter Intermodal Rail Facility Expansion Project is constructing 5,000 feet of lead track, 4,000 feet of runaround track, crossover connectivity between the lead and runaround tracks, four No. 9 turnouts, two No. 11 turnouts, and rail service upgrades as needed within the rail service boundaries for the purpose of connecting the existing intermodal rail extension within the Shafter Intermodal Facility.	NOE					
2013038175	Quail Meadows Project Fish & Wildlife #5 --San Diego CDFW is intending to execute a Lake and Streambed Alteration Agreement (SAA) pursuant to Section 1602 of the Fish and Game Code (No. 1600-2013-0009-R5) to the project applicant, Quail Meadows LLC. The Project is limited to: the replacement of underground storm drain and construction of an above ground drainage system in the northeastern portion of the project site; and the replacement of approximately 900 linear feet of an existing 48-inch reinforced concrete pipe (RCP) underground storm drain with an 84-inch RCP underground storm drain to accommodate flows from the north. These activities will take place on a 12.49-acre residential development project site.	NOE					
2013038176	Construct CAL FIRE Training Tower at Camp San Luis Obispo (CSLO) Forestry and Fire Protection, Department of --San Luis Obispo The project would construct a California Department of Forestry and Fire Protection training tower at Camp San Luis Obispo (CSLO). CAL FIRE leases property from CSLO, and the project would be placed at the existing CAL FIRE training area. The proposed project would construct a 50 foot x 50 feet concrete pad that would accommodate shipping containers assembled into a mock building with a max height of 32 ft, 6 inches.	NOE

	Bloomfield Avenue; construct bicycle facilities.		
1987110914	Upper Cactus Basins Enhancement Project San Bernardino Flood Control District Rialto--San Bernardino Note: FYI Final	FIN	
	The project will enhance three existing basins, the Upper Cactus Basins, for Flood Control purposes. The overall objective of the project is to provide 100-year flood protection to residences, businesses, and public infrastructure adjacent to Cactus Channel and Rialto Channel in the cities of Rialto and Colton, and unincorporated San Bernardino County, CA. Implementation of the project will include basin expansion and deepening, construction of dam embankments, appurtenant structures, bicycle/walking trail, and implementation of ongoing maintenance plan.		
2012091039	Prather Curve Correction Caltrans #6 --Fresno FYI Final	FIN	
	The proposed safety improvement project would realign the existing curve on State Route 168 to design standards, west of the City of Prather, in Fresno County. The existing curve is a non-standard 35-mile per-hour turn within a 55-mile per-hour highway. The proposed project is 0.4 miles in length. The project would move the right-of-way line about 60 feet north and would acquire about 3.91 acres of additional right-of-way, allowing a section of the mountain slope to be excavated and increasing sight distance for both east and westbound drivers to maintain a speed of 45 miles-per-hour. The proposed design includes 12-foot travel lanes with 8-foot wide shoulders, relocating utility poles, and storm drainage improvements.		
2013031036	GPA 11-03, ZC 11-03, CUP 11-09, VTTM 71563 Lancaster, City of Lancaster--Los Angeles Construction of a 108 single family residential subdivision and associated drainage channel.	MND	04/12/2013
2013031037	CUP 3362: Allow a Photovoltaic Solar Power Generation Facility in the AE-20 Zone District Fresno County Reedley--Fresno Allow a photovoltaic solar power generation facility with related improvements including one pad-mounted inverter/transformer unit, seven utility poles approximately 36 feet tall, two access roads/driveways, and a six-foot tall ranch "no-climb" fence partially located on a 19.6 acre parcel and a 26.7 acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project will entail installation of 125 dual-axis trackers that will be connected via trenched in conduits approximately two-feet deep; and overhead lines across Wahtoke Creek. The proposed facility will connect via an overhead electrical line to an existing 12kV PG&E electrical distribution line located along the east side of Englehart Avenue which abuts the eastern property lines of the subject parcels.	MND	04/12/2013

2013031039	Santa Maria Area Transit (SMAT) Bus Yard Expansion and General Plan Land Use Amendment & Zone Change Santa Maria, City of Santa Maria--Santa Barbara A GPA and zone change on two separate areas, as follows: Area A: General Plan land use & zone change on a 0.67 acre site from LI to CF; and a zone change from PD/M-1 to PD/PF zoning district, a Project Review Permit to facilitate the expansion of the SMAT bus yard. AND Area B: A GPA from COS to LI; and a zone change from OS to PD/M-1 zoning district on approximately 2.75 acres to reflect future industrial use of an abandoned flood control easement.	MND	04/12/2013
2013031040	Miles Pacific Subdivision - CT 12-01 / CDP 12-15 / PUD 12-06 Carlsbad, City of Carlsbad--San Diego Request for the adoption of a MND and Mitigation Monitoring and Reporting Program, and the approval of a Tentative Tract Map, Coastal Development Permit, and Planned Development Permit to allow the demolition of a single family residence, storage building, and green house structures, and to subdivide and grade a 5.4 acre site into sixteen single-family residential lots, one private street lot, and two bio-retention basin lots. Residential dwelling units including architecture and plotting are not proposed with this project.	MND	04/12/2013
2013031041	Vesting Tentative Tract 72047 Los Angeles, City of Los Angeles, City of--Los Angeles A Vesting Tentative Tract Map to create six small lot parcels, in conjunction of six, three-story, single-family residences, located on a 9,506 sf lot, after dedication, in the RD1.5-1 Zone in the West Adams - Baldwin Hills - Leimert Planning Area. The new development will total approximately 10,760 sf of living area and provide 12 parking spaces. The project involves the demolition of two single-family residences, each located on a separate lot.	MND	04/12/2013
2013031042	State Route 4 Rock Slope Protection Caltrans #6 --San Joaquin The project proposes to place rock slope protection on the westbound SR 4 in San Joaquin county at post mile 2.1.	MND	04/12/2013
2013031047	Bonita Packing (Bonipack) Expansion Project Santa Maria, City of Santa Maria--Santa Barbara Planned Development Permit to allow the phased construction of and expansion of approximately 174,000 sf of cold storage space and associated support facilities to an existing agricultural produce storage packaging and distribution facility.	MND	04/15/2013
2013032037	Rose Garden Community Facility Parcel Master Plan Larkspur, City of Larkspur--Marin This Master Plan proposes to construct a park and community facility building ranging in size from 20,000 sf to 24,000 sf that would house both library and community center functions. The Community Facility is planned to utilize be shared use spaces, and will be designed to maximize flexibility to accommodate future operational changes. Approximately 7,500 sf would be attributed to core library services. The project would also provide open space with multi-use amenities on the remainder of the 2.64-acre site.	MND	04/12/2013

2003121087	Granite Construction - Revised Mining and Reclamation Plan that includes a General Plan Amendment at the Bazzi/Gardner Ranch 400 South Highway 101, Buellton are Santa Barbara County Buellton--Santa Barbara NOTE: Subsequent Background - Granite Construction Company (Granite) has an existing mining and hot mix asphalt (HMA) operation south of Buellton and east of the US Highway 101/Santa Rosa Road interchange. The facility, which Granite has owned and operated since the 1970s, is located on the Gardner Ranch, which were approved in 2005. The 2005 permit revisions allowed expansion of mining operations to an 88-acre portion of the adjacent Live Oak Bazzi Family Ranch (Bazzi) property, and an EIR for this expansion was certified in 2005.	NOP	04/12/2013
2013031038	Exposition Corridor Transit Neighborhood Plan Los Angeles, City of Los Angeles, City of, Culver City, Santa Monica--Los Angeles The City of Los Angeles is preparing a Specific Plan and other regulatory changes for the Exposition Light Rail corridor, which would guide the future development of the area within the boundaries indicated in Figure 1. This Project Area is located within City Council Districts 5, 10, and 11, and comprises portions of the West Los Angeles, Palms-Mar Vista-Del Rey, and West Adams, Baldwin Hills-Leimert Community Plan areas. The Project Area is located entirely within the incorporated City of Los Angeles, and abuts the City of Culver City and the City of Santa Monica. Note that not all properties shown in the Project Area will be affected.	NOP	04/12/2013
2012031079	FRV Orion Solar Project by FRV Orion Solar LP (PP12232); GPA 2/CUP 6, Map 162; WALUC Cancellation 11-9; LLA 36-11. EIR 12-11 JLB Kern County Bakersfield, Arvin, Lamont--Kern Note: Response to Comments The FRV Orion Solar Project proposes to construct and operate a 20 megawatt (MW) solar photovoltaic (PV) power generating facility with over 102,200 PV solar panels, on a 165-acre portion of 265 acres in unincorporated Kern County, CA. The entire project site is within the jurisdictional boundaries of the Kern County General Plan and under a Williamson Act Land Use contract. Implementation of the project would require approval of a CUP (CUP No. 6, Map 162), General Plan Amendment (GPA No. 2, Map 162) to amend the Circulation Element of the Kern County General Plan, and Lot Line Adjustment (LLA No. 36-11) to reconfigure the parcel boundaries to exclude a portion of the property that is not a part of the proposed project, as well as Williamson Act Land Use Contract cancellation 11-9 for the entire 265-acre parcel. The GPA request is to remove road reservation along a midsection line in Section 17, T32S, R29E, MDB&M. The site would connect to the adjacent Pacific Gas & Electric 70-kilovolt Weedpatch-San Bernard transmission line.	Oth

2012111094	Truckee River Legacy Trail Phase 3B Truckee, City of Truckee--Nevada Note: Reference SCH# 2009092044	NOD	
	The Town of Truckee is proposing to construct 2.11 miles of Class I (paved, multi-use) trail along the Truckee River. For most of its length, the trail will consist of a 10-foot wide asphalt concrete paved trail with 2-foot wide aggregate base shoulders on either side. The Truckee River Legacy Trail Phase 3B consists of a trail extension beginning at the easterly end of the recently completed Phase 3A segment and follows along the south bank of the Truckee River past the Tahoe-Truckee Sanitation Agency Wastewater Treatment Plant, spans Martis Creek, and then ascends to a connection to Glenshire Drive. The trail will cross Martis Creek upstream of its confluence with the Truckee River. This crossing will consist of a prefabricated steel bridge. A portion of the trail (approximately 240 feet) will be constructed within the 100-year floodplain of the Truckee River.		
2013021008	Turf Track Widening Project 22nd District Agricultural Association Del Mar-- The proposed project entails a widening of the existing turf track at the Del Mar Fairgrounds by 25% or 129,100 sf New bedding material (gravel, sand, and peat) for the turf would be imported. To accommodate the widening of the track, the existing inside rail would be moved further inward so as to avoid any interference with the polytrack. There would be no modifications made to the outside of the existing track. There are additional features that would be modified or added to the track during this process.	NOD	
2013039005	Nice Master Parks Plan Lake County --Lake Lake County Redevelopment Agency proposing to develop a Master Parks Plan for the Nice_Area including construction documents for Hinman Park, Community (Hammond Avenue) Park, Inner Harbor and other multiple lake access points.	NOD	
2013038178	Earth Day 2013 - Campground Restoration Parks and Recreation, Department of --Orange The purpose of this projet is for the continued reforestation efforts with natives at Doheny State Beach by way of a grant received for Earth Day 2013. This project also includes the re-painting of existing campsite numbers on campsite pads and trash removal within the park and along the adjacent beach.	NOE

2013038179	Bolsa Chica State Beach Visitor Center Interpretive Panel Displays Parks and Recreation, Department of --Orange This project entails installing two (2) accessible low profile interpretive stands on the raised cement in front of the Bolsa Chica Headquarters building. The stands are being altered so that they will be accessible to all park visitors. The panels are angled for maximum visitor site and will not block the view of the park. The stands will be placed back to back in the middle of the raised cement that leads to the headquarters. Work will not impact and/or extend beyond the park boundary. DPR-approved standard project requirements have been incorporated into this project. A copy of these requirements may be obtained by submitting a request to the project Environmental Coordinator listed below.	NOE	
2013038180	Repair Culverts with Plastic Insert Lining. 2E8501/04100021191 Caltrans #4 --Sonoma Repair damaged culverts. The project is to preserve and maintain the safety and integrity of the Highway.	NOE	
2013038181	Permanent Disposal Site Caltrans #2 --Shasta Using only state funds, the California Department of Transportation will create a permanent disposal site for material generated from maintenance and construction activities. The site is located on the south side of 299 approx. 3 west of the City of Burney in Shasta County. Caltrans will purchase a portion of the adjacent private road for access to the site. The area of disposal is parallelogram-shaped with sides approx. 225 and 205 ft. long. This creates a disposal area a little over one acre in size.	NOE	
2013038182	Old Crow Cross Country Race Parks and Recreation, Department of --San Joaquin On April 6th - April 7th, s2013, Carnegie SVRA will host the Old Crow cross country race. This race will involve 700 total racers divided into 9 races over the 2 days. The course will occur on existing trails in the eastern part of the park and is approximately 10-11 miles in length. The race will adhere to the provision within the park's Storm Water Management Plan.	NOE	
2013038183	MX Track Trails Area Parks and Recreation, Department of --San Joaquin The purpose of this project is to improve storm water drainage and modernize the trail network above the MX track. As a result, all of the trails in this area will be rested, rehabbed, rerouted or utilized to continue to provide recreation in the project area. The existing trail network is 6,496ft. Approximately 3,000 feet of original trail design will be kept, 500 ft of trail will be rehabbed, 2,900 ft of trail will be rested, and 1900 ft will be rerouted. Portions of the original trail design lack a typical modern trail design used to facilitate storm water drainage. The reroute will allow for more sustainable trail layout. The new trail layout will be used for special events and general public access. The total disturbed earth will be approximately 0.22 acres.	NOE

	proposes to construct and install new water facilities within the Lake William service area. Specifically, the proposed project will result in the installation of a new water production well and a short segment of 8" pipeline to connect the well to the pipeline to be located in Monte Vista Drive, where this roadway terminates at the Camp Oakes YMCA facility.		
2013031045	Corbelt Creek Floodplain and Stream Restoration Project Arroyo Grande, City of Arroyo Grande--San Luis Obispo Acquisition of a conservation easement and design and implementation of a sediment reduction project for the purpose of floodplain restoration, sediment capture and peak flow attenuation along specific reaches of Corbett Creek.	MND	04/15/2013
2013032038	General Plan Amendment, Rezone & Use Permit for 760 Safford (APN: 012-290-006) Oroville, City of Oroville--Butte The project applicant has requested a General Plan Amendment, Zone Change and Use Permit for the property located at 760 Safford Street (APN: 012-290-006) to renovate an existing building into a commercial wine sales and tasting room. The property will need extensive tenant improvements to become suitable for the proposed use, including but not limited to interior renovation, insulation, climate control, landscaping, security improvements to the fence, a security system for the building and improvements to the parking lot. The current zoning on the property is Medium Density Residential (R-2), with a General Plan land use designation of Medium High Density Residential (MHDR). The requested action would change the zoning to Intensive Commercial (C-2) and the General Plan land use designation to Retail and Business Services (RBS). Under the City of Oroville's Zoning Code S26-33.010-1, the sale alcoholic beverages is permitted in a C-2 zone, subject to a use permit.	MND	04/15/2013
2013032039	Scotts Valley Multi-Agency Regional Intertie Project San Lorenzo Valley Water District Scotts Valley--Santa Cruz The SLVWD, in conjunction with the Scotts Valley Water District, proposes to construct six emergency interties spread across approximately 4.14 acres to connect the water service areas of Santa Cruz Water Department, SVWD, SLVWD, Mount Hermon Association, Inc., and Lompico County Water District. The interties system would consist of water transmission pipelines varying in width from 8 to 12 inches that would primarily be located within existing rights-of-way and five concrete masonry unit pump stations, with pitched roofs (not exceeding 12 feet in height). Each pump station would house 2 or 3 pumps ranging in capacity/size from 150 to 700 gallons per minute (gpm). These pipelines and pump stations would allow transfer of water up or down gradient in the event of an unforeseen emergency.	MND	04/15/2013
2013032040	Tahoe Donner Association Donner Lake Marina Facility Improvement Project Truckee, City of Truckee--Nevada The Tahoe Donner Association is proposing to make improvements to the Donner Lake Marina Facility on Donner Pass Road. The improvements including grading and terracing for new walkways, sitting areas and beach areas and new rockery walls. The sloped area directly south of the existing snack bar is proposed to be graded for the purposes of installing an outdoor dining area/patio. New lighting	MND	04/15/2013

	and landscaping is also proposed. Approximately 600 cubic yards of cut and 250 cubic yards of fill is proposed; a total of 350 cubic yards will be exported. A total of 20 trees six inches or greater in diameter at breast height are proposed to be removed.		
2013032041	King Beach Commercial Core Improvement Project - Rainbow Parking Lot (PMPB 20120310) Placer County --Placer The project proposes a Minor Use Permit, Variance, and Design Review to construct an 18-space public parking lot.	MND	04/15/2013
2013032042	CEQA Initial and MND for Waiver of Waste Discharge Requirements and General Water Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma This Project creates a Waiver to cover road maintenance and road project activities on county roads for which potential impacts to water quality from nonpoint source discharges can be reduced to less than significant through Waiver conditions and requirements. The conditions and requirements include implementation of the 5C Program and 5C Road Manual. The purpose of the Project is to protect water quality and the beneficial uses of water and to clarify and facilitate county road maintenance and road project compliance with the Basin Plan and Waiver conditions.	MND	04/15/2013
2013032044	North Village Unit 6 Vacaville, City of Vacaville--Solano The proposed project requests approval of a Vesting Tentative Map and a Planned Development with a Design Review to subdivide a 134.9 acre parcel for the purpose for constructing 178 single family homes on a 29.6 acres parcel, for creating parcels for future commercial and business park development, and creating parcels designated as parks and open space.	MND	04/15/2013
2013032045	Disposal and Reuse of the Naval Weapons Station Seal Beach Detachment Concord U.S. Navy Concord--Contra Costa The purpose of the proposed action is the disposal of surplus property at Naval Weapons Station Concord from federal ownership and its subsequent reuse in a manner consistent with the Concord Reuse Property Area Plan, as adopted by the City of Concord on January 24, 2012. The need for the proposed action is to provide the local community the opportunity for economic development and job creation. The Navy will evaluate two property reuse alternatives and a No Action Alternative. Under Alternative 1, 69% of the property would be maintained as conservation, parks, or recreational land uses including a 2,537-acre regional park, and 31% would be mixed-use development. Alternative 2 represents a higher-density alternative, with a greater amount of residential and mixed use development.	NOI	04/15/2013

2003071178	Faculty and Family Student Housing, Open Space Plan, and LRDP Amendment EIR University of California, Santa Barbara Santa Barbara--Santa Barbara Note: Addendum #2 The Sierra Madre Apartments project received design approval September 21, 2004 and was subsequently permitted by the California Coastal Commission in 2006. The project was analyzed in a Final EIR certified by the Regents for the Faculty and Family Student housing, Open Space Plan, and for Amendment of the Long Range Development Plan (2004 Final EIR 200307118). Following design approval, the campus and the Public Private Partnership developer were unable to reach mutually agreeable terms and terminated the development relationship, which has delayed its construction. The approval the Project budget to allow University (vs. private) delivery of the Project triggers a separate discretionary action subject to CEQA.	NOD	
2007092065	Easkoot Creek Sediment Removal Marin County --Marin In this addendum, the original 2007 project description has been modified to include the following activities: 1) Construction of an additional sediment removal site (#2) within the floodprone plain of the Easkoot Creek and annual sediment removal from this site. 2) Annual sediment removal at all established sediment removal sites on an as needed basis; 3) Dewatering of the Easkoot Creek channel when necessary for sediment removal including fish relocation as needed, to avoid impacts to native salmonid populations; 4) Low-impact vegetation maintenance for flood control purposes in sections of the Easkoot mainstem that are maintained as flood control easements or where the Flood Control District has a landowner access agreement in place with private property owners.	NOD	
2010062041	Preliminary Engineering Studies for Overwater and Land Geotechnical Exploration Water Resources, Department of Isleton--Sacramento, San Joaquin, Yolo, Solano, Contra Costa The DWR is filing an Addendum for exploratory geotechnical activities for possible alignments of the water conveyance facilities in the Delta. DWR has been unable to obtain access to many properties in the study area in order to complete the activities within the time frame established under the 2010 IS/MND. Therefore it is necessary to extend the December 31, 2012 completion date. In addition, locations along SR 160 are being highlighted in this Addendum because temporary lane closures will be necessary. Information received in 2012 has been evaluated consistent with the MND.	NOD	
2011041076	Huntington Education and Visitor Center Project San Marino, City of San Marino--Los Angeles The proposed Project would: 1) modify the existing Historical and Cultural Code; 2) request a CUP to allow redevelopment of facilities, parking, landscaping, and other improvements within the existing entry complex area; and 3) request a CUP to allow The Huntington to exceed a maximum daily Vehicle Cap up to 12 days per	NOD
