STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**March 1 – 15, 2014**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1 – 15, 2014**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 THROUGH 2013

Descriptions of all CEQA documents filed with the State Clearinghouse are available for viewing at <http://www.ceganet.ca.gov>

<b><u>Documents Received on Monday, March 03, 2014</u></b>			
2013091032	Laguna Beach Water Tank Burn Site Remediation and Restoration Project Laguna Beach, City of Laguna Beach--Orange The City of Laguna Beach is proposing a "clean closure" of the Laguna Beach Water Tank Burn Site ("Burn Site"). The proposed Burn Site Remediation and Restoration Project includes of two phases. The initial phase of the project (remediation) includes the removal, transport, and disposal of waste from three areas identified to contain contaminated materials: (1) the "primary site"; (2) the "secondary site"; and (3) the "ravine" (i.e., the drainage course between the primary and secondary sites). The second phase (restoration/revegetation) includes the restoration of the primary site to a condition that, to the extent feasible, is representative of the condition of the area prior to the trash collection and incineration activity that created the Burn Site.	<b>EIR</b>	04/16/2014
2013092043	Heritage Park Dublin, City of Dublin--Alameda Heritage Park is a plan for the orderly development of 6.6 acres in the City of Dublin. The proposed project is a General Plan and Dublin Village Historic Area Specific Plan Amendment to change the land use designations on a 5.85 acre portion of the 6.6-acre of the project site from Retail/Office (RO) to Medium Density Residential (MDR). The proposed project would include the demolition of a 110,000 sf existing office complex known as the Heritage Park office complex and would construct 54 small-lot single family homes and a two-story 14,000 sf office building.	<b>EIR</b>	04/16/2014
2000062030	Basin Management Plan Update Pajaro Valley Water Management Agency Watsonville--Monterey, Santa Cruz Note: Final available: <a href="http://www.pvwater.org">http://www.pvwater.org</a>  The BMP Update represents a comprehensive set of actions, including individual projects, policies, and basin management strategies to stop seawater intrusion and overdraft of the Pajaro Valley groundwater basin while providing an adequate water supply to meet annual demands within the basin. The recommended BMP Update consists of the following components to reduce groundwater pumping while providing adequate water supply to meet service area needs: Conservation, Increased Recycled Water Storage, Increased Recycled Water Deliveries, Harkins Slough Recharge Facilities Upgrades, Watsonville Slough with Recharge Basins, College Lake with Inland Pipeline to Coastal Distribution System, Murphy Crossing with Recharge.	<b>FIN</b>	
2008011118	Ferguson Slide Permanent Restoration Project Caltrans #6 --Mariposa The project is located on SR 140 in Mariposa County, from 8 miles east of Briceburg, a small community anchored by a Bureau of Land Management Visitor Center, to 7.6 miles west of El Portal (post mile 42.0 and 42.7) where the Ferguson rockslide covered the highway with 798,000 tons of rock and debris in April 2006. Caltrans proposes to restore full highway access between Mariposa and Yosemite	<b>FIN</b>

	via SR 140 in Mariposa County, CA, by repairing or permanently bypassing the portion of SR 140 that was blocked and damaged by the Ferguson rockslide.		
2014034001	Waterfront Repairs at United States Coast Guard Station Monterey U.S. Coast Guard Monterey--Monterey Note: FONSI FYI	<b>FON</b>	
	The U.S. Coast Guard proposes to repair and replace facilities that have deteriorated over time to improve and maintain the structural integrity of a patrol boat pier and potable water line at USCG Station Monterey. The USCG proposes to remove and replace 17 timber piles supporting the eastern portion of the pier; replace the existing potable water line; and improve associated structures to maintain the structural integrity of the pier and potable water line. The project would involve replacing the timber deck and making several ancillary repairs to the pier deck and floating dock. Repairs to the potable water line would involve in-kind replacement of approximately 175 feet of galvanized piping.		
2014031001	New School Site at Ferguson and Giddings Visalia Unified School District Visalia--Tulare The Visalia Unified School District plans to acquire 13 acres of land for construction of a new K-6 Elementary School. The Site is currently cultivated agriculture land. The Site is bordered by Ferguson Avenue to the north; Giddings Street to the east; West Vine Avenue to the south; and agriculture fields to the west. The future Master Plan Capacity will be 850 K-6 students. The project will include a total of 28 classrooms; 4 kindergarten and 24 1st-6th grades. The total square footage of new construction buildings will be 48,770 sf. An administration office and multi-purpose room are also planned for the new project. Outdoor recreation area will include 4 hard courts, 2 ball fields, and a courtyard. A 115 stall parking lot will be located on the north border along. Bus drop off will be located on Giddings Street.	<b>MND</b>	04/01/2014
2014031003	Roadside Bridge Widening Project Agoura Hills, City of Agoura Hills--Los Angeles The project consists of widening the existing Roadside Drive bridge over Medea Creek, modifying the approaching segments of Roadside Drive, re-striping Roadside Drive, adding a sidewalk on the south side of Roadside Drive on the west side of the bridge, and installing landscape and lighting improvements. The purpose of these improvements is to improve traffic operations on Roadside Drive and adjacent local roads and to rehabilitate the existing bridge to meet current seismic standards.	<b>MND</b>	04/01/2014
2014032003	Hadley Subdivision Humboldt County --Humboldt A Parcel Map Subdivision of an approximately 1.3 acre parcel into two parcels of approximately 21,761 sf and 35,014 sf. The parcel is currently developed with a single family residence with an apartment above the attached garage. A Special permit is required for work done to the secondary dwelling unit without the benefit of County review. Pursuant to Section 325-5 of Humboldt County Code, the applicant has requested an exception to the lot frontage requirements to utilize an existing 30 foot right of way. The parcels are or will be served by Humboldt	<b>MND</b>	04/01/2014

	Community Services District.		
2014031004	195 Hegenberger Road Hotel Oakland, Port of Oakland--Alameda The project sponsor, Monarch Equity Investments, Inc., proposes to construct a 140-room hotel, located about one mile south of the proposed project. The five-story hotel would occupy a 84,953 sf (1.95 acres) interior lot set back approximately 270 feet west of Hegenberger Road and approximately 390 feet northeast of Pardee Drive. Vehicular access to the site would be provided by recorded driveway easements from both Hegenberger Road and Pardee Drive. The proposed building would have a footprint of 19,380 sf and would provide a total building area of 95,927 sf. Based on the total area of the site, the building would have a floor area ratio (FAR) of 1.13.	<b>NOP</b>	04/01/2014
2014031006	Fullerton Downtown Core and Corridors Specific Plan Fullerton, City of Fullerton--Orange The Downtown Core and Corridors Specific Plan Area encompasses 1,310 acres and spans the commercial core and corridors across the City of Fullerton. The Specific Plan Area includes nine Study Areas, which have been divided into seven unique Specific Plan Districts. The Specific Plan Area is approximately 5 miles long at its widest.	<b>NOP</b>	04/01/2014
2014032001	San Antonio Precise Plan Mountain View, City of Mountain View--Santa Clara The Precise Plan will be an area-specific planning and zoning document that implements the City of Mountain View 2030 General Plan vision for the San Antonio precise plan area. The Precise Plan will provide planning policies, development regulations, public infrastructure improvements and an implementation strategy.	<b>NOP</b>	04/01/2014
2014032002	El Camino Real Precise Plan Mountain View, City of Mountain View--Santa Clara The Precise Plan will be an area-specific planning and zoning document that implements the City of Mountain View 2030 General Plan vision for the El Camino Real change area. The Precise Plan will provide planning policies, development regulations, public infrastructure improvements and an implementation strategy.	<b>NOP</b>	04/01/2014
2014032005	PG&E Winters Gas Operations Technical Training Center Winters, City of Winters--Yolo Application from PG&E to construct and operate a vocational training facility on 50.4 acres where individuals will be trained to construct, operate, and maintain natural gas pipelines, measure and control the natural gas network, detect leaks and locate and mark underground infrastructure, and maintain natural gas storage facilities. Individuals will be trained in excavation techniques, crane operation, welding techniques, corrosion control technology, and similar natural gas transmission and distribution functions. The facility is proposed to operate seven days a week from 7am to 5pm with evening use proposed inside buildings only from 5pm to 10pm.	<b>NOP</b>	04/01/2014

<b><u>Documents Received on Monday, March 03, 2014</u></b>			
2014031002	Environmental Analysis Report Arco Fuel Station San Juan Bautista, City of San Juan Bautista--San Benito Applicant plans to develop a 48,602 sf (1.12 acre) Commercially Zoned parcel that is located at the southeast corner of Hwy 156 and the Alameda. The proposed development includes a 6 pump fueling station, quick serve restaurant and convenience store. The project will follow the City's design guidelines to fit in with San Juan Bautista Guidelines and the surrounding architectural characteristics.	<b>Neg</b>	04/01/2014
2014031005	New Option(s) to Lease and/or Lease Agreement(s) at 1411 West Palm Street San Diego Unified Port District San Diego--San Diego The Project is new option(s) to lease and/or lease agreement(s) with potential optionee(s)/tenant(s) for an approx. 42,940 sf site located at 1411 West Palm Street in San Diego, CA. Improvements to two existing buildings on the site - a main building of approx. 22,579 sf and a back building of approx. 4,623 sf (totaling approx. 27,202 sf) - and to the existing parking lot are proposed. The primary uses at the site will be light industrial with limited commercial and approx. 2,098 sf of accessory office support. Improvements include: exterior building modifications to provide a storefront type entrance; construction of an ADA access ramp; renovations and upgrades to the existing office space; and repaving and striping of the parking areas to accommodate approx. 31 spaces. Currently, it is anticipated that a warehouse-style wholesale bead shop will occupy the site.	<b>Neg</b>	04/01/2014
2014031007	"Wildwood Residence" / Project No. R2012-00046 / Case Nos. ROAK 201200004; RPP 201200035; RENV 201200011 Los Angeles County --Los Angeles The project proposal is to convert and slightly expand an existing lower level storage area of an existing single-family residence into a tandem two-car garage, add a new second level deck, access steps and retaining walls. The proposed construction will impact up to three oak trees, with two oak tree removals and one oak tree encroachment. The maximum height of the new retaining walls in the required 25 foot front yard setback will extend up to 11 feet in height, at 10 feet from the front property line. A Yard Modification is required, per County Code Section 22.48.180, for the retaining walls exceeding six feet in the required 25 foot front yard setback area. Grading is proposed for 120 cubic yards of cut and 120 cubic yards of export off-site.	<b>Neg</b>	04/01/2014
2014032004	PA-1400011 (SA) San Joaquin County Manteca--San Joaquin A Site Approval application to construct a 2.0-acre, 1.0 megawatt solar power facility to be completed in two phases over five years. Phase 1 includes the construction of ground mount solar panels totaling 500 kilowatts and encompassing 1.0 acre of the existing 10.0-acre parcel. Phase 2 includes the expansion of ground mount solar panels to total 1.0 megawatts and to encompass a total 2.0 acre. This is an unmanned facility. The project site will include a switchyard to connect existing transmission lines to the ground mount units.	<b>Neg</b>	04/01/2014

2012052017	<p>EchoWater Project (formerly the Advanced Wastewater Treatment Plant Project) Sacramento Regional Sanitation District Elk Grove--Sacramento</p> <p>The Sacramento Regional County Sanitation District proposes to upgrade its existing facilities at the Sacramento Regional Wastewater Plant to meet National Pollutant Discharge Elimination System permit requirements issued by the Central Valley Regional Water Quality Control Board as confirmed and modified by the SWRCB. To meet permit terms, the District is required to reduce total nitrogen and ammonia levels in its effluent below existing concentrations and provide tertiary filtration for pathogen removal. Permitted capacity will be unchanged. Compliance of the permit is required by May 2021 for ammonia and nitrate removal, and May 2023 for Title 22 or equivalent compliance. The latter (Title 22) requirements are subject to the outcome of currently-pending litigation, and could be modified.</p>	<b>EIR</b>	04/17/2014
2014031008	<p>Eastwood/Odello Water Right Change Petition State Water Resources Control Board Carmel-by-the-Sea--Monterey</p> <p>The purpose of the project is to seek authorization from the State Water Board for changes to water-right License 13868 to include changes to the authorized points of diversion, place of use, and purposes of use, so that licensees may: 1) provide water to serve existing legal lots of record within the Carmel River watershed or City of Carmel-by-the-Sea, through new connections or increased uses of water at existing service addresses, 2) protect and enhance the Carmel River and associated environment by dedicating a portion of the existing water right to instream uses, and 3) provide a supplemental water supply to Cal-Am on an interim basis, to help Cal-Am meet its obligations under State Water Board Order WR 95-10.</p>	<b>NOP</b>	04/02/2014
2014031009	<p>City of Woodlake Roundabout Project Caltrans #6 Woodlake--Tulare</p> <p>The City of Woodlake proposes to construct a single lane, urban roundabout at the intersection of SR 245 and SR 216, and install curbs, gutters, sidewalks and landscaping along SR 216 and SR 245. Road improvements will extend 555 ft west along Naranio Boulevard, 605 ft east along SR 216, 371 ft north along SR 245, and 624 ft south along Valencia.</p>	<b>Neg</b>	04/02/2014
2014032006	<p>Del Norte County Fairgrounds Recreation and Park District Formation Del Norte County Local Agency Formation Commission --Del Norte</p> <p>The Del Norte Local Agency Formation Commission (LAFCo) has received an application to form a recreation and park district pursuant to Recreation and Park District Law (Public Resources Code 5780 et seq.). The district boundary would be coterminous with the County boundary. The purpose of the district is to increase revenues to maintain and operate the Del Norte County Fairgrounds.</p>	<b>Neg</b>	04/02/2014

<b><u>Documents Received on Tuesday, March 04, 2014</u></b>			
	District formation would be contingent on voter approval of a special sales tax. This independent district would be governed by a five member board of directors elected at large by the voters of the District. The uses, operations, and management of the Fairgrounds facilities would remain similar to current conditions.		
2001032007	<p>Adobe Road and East Washington Street Intersection Improvement Project Sonoma County Petaluma--Sonoma</p> <p>The existing approximately 43-foot long, 8-foot wide reinforced concrete box culvert under Adobe Road will be extended approximately 48 feet south (downstream side). The new culvert will accommodate the widening footprint of the road and the proposed 2:1 fill slope down to the new headwall. The existing fill slope is very steep (nearly vertical); the new fill slope will provide a more gentle transition down to the streambed. The reinforced concrete extension will be approximately 8-foot wide and 9-foot tall. The existing headwall and wing walls will be removed and new ones will be constructed at the new culvert outlet. Rock slop protection (RSP) will be placed in the creek channel bottom and along the lower banks (approximately 2-foot up the stream bank) to protect the structure and stabilize the stream bank. RSP will extend about 30-foot downstream of the new outlet. Latitude 38.269N, Longitude 122.609W, the existing culvert is located on Adobe Road, about 350 feet northwest of the intersection with East Washington Street, in the City of Petaluma. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0446-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Sonoma County Department of Transportation and Public Works.</p>	<b>NOD</b>	
2002112033	<p>Sonoma-Marin Area Rail Transit Todd Road Operations and Maintenance Facility Sonoma Marin Area Rail Transit Commission Cloverdale, Larkspur--Marin, Sonoma</p> <p>The CDFW is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0237-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Bill Gamlen of Sonoma-Marin Area Rail Transit District.</p>	<b>NOD</b>	
2012081075	<p>Camarillo Effluent Diversion Pipeline Project (SS-03-03/SS-10-08) Camarillo, City of Camarillo--Ventura</p> <p>Construction of two segments of recycled water pipeline:</p> <ol style="list-style-type: none"> <li>1. approximately 9,000 linear feet of 24-inch pressurized discharge pipeline from Camarillo Sanitary District's Water Reclamation Plant (located at 150 Howard Road) to regional brine line operated by the Calleguas Municipal Water District (CMWD). The connection would occur near Lewis Road south of Pleasant Valley Road in Camarillo, CA. The proposed construction methods would be cut-and-cover (7,100 feet) and horizontal directional drilling (1,900 feet).</li> <li>2. approximately 6,000 linear feet of 16-inch pressurized recycled water distribution pipeline along Pancho Road from Howard Rd (south end) to Pleasant Valley Rd (north end).</li> </ol>	<b>NOD</b>

Documents Received during the Period: 03/01/2014 - 03/15/2014

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, March 04, 2014</u></b>			
2012111011	County-Wide Long-Term Routine Maintenance Permitting Program (IP 11-444) Orange County --Orange CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (# 1600-2013-0028-R5) to the project applicant, Orange County Public Works. The project proposes to impact 0.015-acre of streambed that has been previously permanently impact due to previous bridge construction/repairs. The project consists of a one-time repair of bridge and abutment protection.	<b>NOD</b>	
2013032061	Collins Curve Improvement Project Caltrans #2 --Trinity Project proposes the construction of safety improvements (paved shoulders, road reconstruction, widening, bridge construction, guardrail and drainage improvements) along five curves of State Route 299.	<b>NOD</b>	
2013128356	Part 2 Emergency Funding Project Public Health, Department of --Mariposa The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Whispering Pines Apartments proposes a project that includes hauling water to the system to fill their water tanks and supply water throughout the water system and well investigation to determine if the water quality is safe enough to lift an existing boil water order for residents of the apartment complex. The water system also plans to construct 1-2 additional small hard-rock wells to increase the available water supply to customers that meets adequate water quality standards.	<b>NOE</b>	
2014028341	Dunlap Placer County --Placer A Variance to allow for a reduced front setback to both Indian Hills Road and Dillon Circle in order to construct a single-family residence, detached garage with a secondary residence and a solar array. The requested setback for the house and detached garage to Indian Hill is 20 feet to the property line or 60 feet to the existing centerline of Indian Hill Road, where 50 feet from the property line and 94 feet to the center of Indian Hill Road are required. The requested setback for the house and garage to Dillon Circle is 35 feet from the property line and 45 feet from the existing centerline of the road, where 50 feet and 75 feet, respectively, are required.	<b>NOE</b>	
2014038012	Carpinteria Creek Watershed Restoration - Circle G Ranch California State Coastal Conservancy Carpinteria--Santa Barbara The grantee shall use these funds to prepare design and engineering plans to obtain necessary governmental permits for the Circle G Ranch fish-passage improvement project on Carpinteria Creek in Santa Barbara County to benefit the endangered Southern steelhead trout that utilize the watershed in their life cycle.	<b>NOE</b>

<b><u>Documents Received on Tuesday, March 04, 2014</u></b>			
2014038013	Starr Creek Restoration Project Fish & Wildlife #3 Windsor--Sonoma Project will remove invasive Himalayan blackberry, overgrown Arroyo willows, and oak seedlings and saplings and the plant native understory shrubs and herbaceous plants along 1,156 linear feet of Starr Creek. Issuance of a Streambed Alteration Agreement Number 1600-2013-0432-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2014038014	Milk Barn Road Septic Transmission Line Fish & Wildlife #3 Healdsburg--Sonoma The project is limited to trenching of a new septic transmission line that will cross under two small unnamed streams with seasonal hydrology. The septic line at each crossing will be located a minimum of 7-foot below the existing stream bed. The trench will be backfilled with native material and the stream bed, bank and channel recontoured to the preexisting condition. At Drainage Crossing #2 (see Exhibit A. Domestic Waste Septic Plans, prepared by Atterbury and Associates, Inc., dated November 11, 2013, sheet 6) a gravel crossing will be constructed across the stream channel in order to facilitate equipment access to the opposite bank during construction. The work pad shall be removed upon project completion. Issuance of a Streambed Alteration Agreement Number 1600-2013-0451-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2014038016	Adoption of the Upper Santa Clara River Integrated Regional Water Management Plan February 2014 Castaic Lake Water Agency Santa Clarita--Los Angeles Project is the adoption of the Upper Santa Clara River Integrated Regional Water Management (IRWM) Plan which identifies goals, objectives and implementation programs within the upper Santa Clara River watershed to improve water-related functions and values. The adopted IRWM Plan has been updated to reflect new requirements in current law. The adopted IRWM Plan also includes a climate change technical study. The adopted IRWM Plan will guide programs to benefit water dependent resources in the watershed.	<b>NOE</b>	
2014038027	Terrace Water Company Water Meter Installation Public Health, Department of Colton--San Bernardino The California Department of Public Health (Department) is the lead agency. The Department's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing state funds for the project. The Terrace Water Company proposes to install automated water meter reading systems and meters on every service connection within the distribution system.	<b>NOE</b>

2011092051	Nevada Stateline-to-Stateline Bikeway, North Demonstration Project Tahoe Regional Planning Agency Nevada City--Nevada Note: Extended per lead	<b>EA</b>	04/11/2014
	<p>The proposed North Demonstration Project is a shared-use path that comprises Phase 2 of the Nevada Stateline-to-Stateline Bikeway Project. It consists of an approximately 3-mile section of the longer bikeway project, which is a proposal to build a premier, separated, shared-used path on the east side of Lake Tahoe between the Nevada State line in Crystal Bay on the north and the casino core in Stateline, Nevada on the south. The North Demonstration Project is proposed to connect Incline Village and Sand Harbor in Washoe County, Nevada.</p>		
2012081073	Eastside Water Banking and Blending Project Antelope Valley-East Kern Water Agency --Los Angeles AVEK proposes to construct and operate a water banking and blending project that would involve spreading State Water Project raw water into recharge basins in order to bank a portion of the SWP water for extraction as an alternative potable groundwater supply for periodic substitution or supplement to the Eastside Water Treatment Plant. Three 2-acre recharge basins, four extraction wells, and associated facilities would be constructed on the project site. In addition, pipelines would be installed under East Avenue U, 96th Street East, and 116th Street east. Modification also would be made to the 96th Street East Turnout of the California Aqueduct. Construction of the proposed project is anticipated to begin in June 2014 and would take approximately 20 months to complete.	<b>MND</b>	04/03/2014
2012112012	EA 2012-0011 (Loma Rica Road Safety Improvement Project Phase 2) Yuba County --Yuba Yuba County's Public Works Department seeks to amend its environmental approval for the Loma Rica Safety Improvement Project Phase 2 which consists of roadway rehabilitation and drainage improvements along Loma Rica Road (from Scott Grant Road to Los Verjeles Road) and the realignment of the intersection of Loma Rica Road and Cross Star Trail in the unincorporated foothill region of Yuba County 16 miles northeast of the City of Marysville.	<b>MND</b>	04/03/2014
2014032008	Water Quality Improvement Project Davis, City of Davis--Yolo The Proposed Project will include the construction and installation of water supply facilities, including pipelines, wells, and a City wide water metering system. These improvements are needed to optimally integrate a new surface water supply for the City of Davis and UC Davis and address rehabilitation, replacements, and upgrades that are needed for the existing water system.	<b>MND</b>	04/03/2014
2014032009	Hercules LLC/Prologis Pipeline Removal Project California State Lands Commission Hercules--Contra Costa Note: Review per Lead	<b>MND</b>	04/07/2014
	<p>Hercules LLC intends to remove an approximately 2,020-foot-long 8-inch-diameter non-operational, wastewater pipeline that will take about three weeks (one week onshore and two weeks offshore) of construction to remove. The 2,000-foot</p>

	portion of the pipeline is submerged offshore in San Pablo Bay and a 20-foot portion is located under the shoreline riprap, both portions are under the jurisdiction of the CSLC. The remaining 140-foot onshore portion of the pipeline is under the UPRR and city of Hercules jurisdiction and will be grouted, capped, and left in place.		
2014031011	Pilot Concert Series Ventura, City of Ventura--Ventura The proposed project involves a series of concerts at the upper parking lot behind Ventura City Hall (501 Poli Street). Concert promoters are proposing to host a pilot series of up to twelve outdoor concerts in the fall of 2014 or summer 2015. A temporary fabric tent of approximately 20,000 sf would provide seating for up to 1,900 individuals and would include a stage, office building, restrooms, concession stand, VIP parking area, and an open picnic area. In addition, adjacent slopes would be cleared to establish a 100-foot fire clearance area.	<b>NOP</b>	04/03/2014
2014032007	Cupertino General Plan Amendment, Housing Element Update, and Associated Rezoning Cupertino, City of Cupertino--Santa Clara The City of Cupertino is currently undertaking a community-based planning process to review land use alternatives as part of a focused General Plan Amendment. Proposed alternatives include options for City-wide development allocations (office, commercial, hotel, and residential), as well as building heights and densities for major mixed-use corridors, special centers, and seven study areas. The City is also updating its Housing Element to accommodate the Regional Housing Needs Allocation for the 2014-2022 planning period and meet its fair share housing obligations, and amending Chapter 19.56 (Density Bonus) of the City's Municipal code to be consistent with current Housing Element Program 12 (Density Bonus Program). The project may also include changes to the City's zoning map.	<b>NOP</b>	04/03/2014
2006011051	Revised Vesting Tentative Tract Map #2353 San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project includes a total of 134 lots designated as follows: 123 lots for single family residential use; 6 lots for business park-office use; 1 lot medium-high density residential development (including Affordable Housing); 3 lots for "greenway" park use; and 1 lot for "open space-riparian" use.	<b>Neg</b>	04/03/2014
2010102045	Skylawn Memorial Park Revised Phase 1 Project - Subsequent MND/IS San Mateo County San Mateo--San Mateo Skylawn Memorial Park proposes to extend the boundaries of the previously approved Phase 1 Project to include an additional approximate 7 acres (extended Phase 1 project area). The extended Phase 1 project area abuts the northern boundary of the Phase 1 Project area and would increase the total project area to 42 acres. Activities proposed for the extended Phase 1 project area are similar to the proposed development activities for the approved Phase 1 Project and include the reconsolidation of fill to prepare the land for in-ground burials as well as access improvements. The total amount of grading quantities proposed for the revised project is 145,000 cubic yards. The term for the project development is 20 years, ending August 10, 2031.	<b>Neg</b>	04/03/2014

<b><u>Documents Received on Wednesday, March 05, 2014</u></b>			
2014031010	Laurel Creek Condominiums, PC24-027 Vista, City of Vista--San Diego The applicant seeks approval of applications for a condominium housing permit. A site development plan and a tentative subdivision map for the development and construction of 71 single-family, detached condominiums on a 9.24-acre parcel in the west-central portion of the city.	<b>Neg</b>	04/03/2014
2014031012	2014 San Joaquin River Restoration Program Juvenile Fall-Run Chinook Salmon trap and Haul Study California State Lands Commission Fresno--Fresno, Madera Note: Review per lead  The U.S. Bureau of Reclamation intends to conduct a trap-and-haul study to move juvenile fall-run Chinook salmon downstream of the San Joaquin River Restoration Program's Restoration Area, where no migration barriers exist. The effort will evaluate the feasibility of implementing similar rapid response actions in the future, and monitor fish movements in certain areas of the San Joaquin River. The action will study the feasibility of taking adaptive management action to respond to unsuitable environmental conditions in the San Joaquin River down river of Friant Dam.	<b>Neg</b>	04/07/2014
2004042055	Tentative Tract Map 36-216: UPA 04-09 & ZCA 04-01 (Tallus) Mammoth Lakes, City of Mammoth Lakes--Mono The proposal is to convert Tallus Lots 3, 4, 6, 7, 8 and 9 from fractional ownership to whole ownership. The proposed map will combine the existing six parcel numbers (six shares exist for each home or lot) into one new parcel number for each of these six lots. Lots 1, 2, and 5 of Tallus Phase 1 are not a part of this application and will remain as fractional ownership. A remainder lot will also be created for the un-built Tallus Phase 2 area, which will provide a "clean slate" for a new project to be proposed in this area. New development in Phase 2 is anticipated to require a tentative map, but the permit requirements will depend on the slope of the project proposed.	<b>NOD</b>	
2006021027	Sunroad Harbor Island Hotel Project & East Harbor Island Subarea PMPA (UPD 83356-EIR-783) San Diego, Port of San Diego--San Diego The Proposed Project is a 175-room, 4-story limited service hotel with ancillary meeting and fitness space, common areas, an exterior pool, and surface parking. The Sunroad Hotel project would be located east of the existing Sunroad Resort Marina and would replace an existing locker building and some parking, with the existing marina offices to remain. The PMPA would allow up to two other hotels, with a combined maximum of not more than 500 rooms, to be developed on East Harbor Island, westerly of the existing marina building. The Proposed Project also includes the extension of the public promenade along the Harbor Island East Basin. The Proposed Project would also reconfigure a portion of eastern Harbor Island Drive and the traffic circle at its terminus. Utilities may also be realigned to accommodate the Proposed Project.	<b>NOD</b>

2009051044	<p>San Vicente Road Improvement Project San Diego County Escondido--San Diego</p> <p>Project proposes the advertisement and subsequent construction contract award to the lowest responsible bidder for the San Vicente Road Improvement Project. Upon Board approval, the Department of Purchasing and Contracting will advertise and subsequently award a contract for construction. Minor design modifications have occurred to the project since the Final EIR was previously certified on January 26, 2011 (03). The County's Environmental Review Update Checklist dated February 13, 2014 determined that the minor changes to the project description do not require subsequent environmental analysis or documentation and no new information of substantial importance has become available since the FEIR was prepared. Accordingly, in accordance with Section 15164 of the CEQA Guidelines an Addendum was prepared.</p>	<b>NOD</b>	
2010072004	<p>Colgan Creek Restoration Santa Rosa, City of Santa Rosa--Sonoma</p> <p>This project involves restoration of 2,200 linear feet of the channelized Colgan Creek to a wider, naturally, meandering channel and a wider riparian corridor located between Dutton Meadow and Vellevue Avenue. The Project will result in permanent impacts to 1.4 acres of California tiger salamander, which is designated as a threatened species under the California Endangered Species Act (CESA). The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.</p>	<b>NOD</b>	
2010121004	<p>San Diego Convention Center Phase III Expansion &amp; Expansion Hotel &amp; Port Master Plan Amendment Project San Diego Unified Port District San Diego--San Diego</p> <p>PMPA certified by the California Coastal Commission on 10/10/13. Addendum to FEIR analyzed Project revision since 9/19/12. Revisions include, but not limited to: reduce size of Phase III Exp. by ~20,700sf, add public plaza, public access to existing pier, remove landscape mounds, direct ped access from existing ped bridge, enhanced ped experience along bayfront promenade and Park Blvd, Improvements to Public Access Program, participation in lower cost visitor accommodations, enhanced public access to rooftop park.</p>	<b>NOD</b>	
2011081095	<p>Digital 395 Middle Mile Project Public Utilities Commission Bishop--Mono, Inyo, Kern, San Bernardino</p> <p>CDFW is executing an amendment (No. 2) to Streambed Alteration Agreement Issued Pursuant to Section 1602 (SAA#1600-2011-0252-R6) of the Fish and Game Code to the project Permittee, the California Broadband Cooperative. The Permittee proposes to run 10.3 miles of fiber-optic cable from the Digital 395 backbone at the Intersection of Red Hill Road and West Line Street in Bishop, CA to the Round Valley Elementary School. The project will temporarily impact 20 ephemeral and perennial CDFW jurisdictional waterways and associated riparian vegetation; however, no permanent impacts will occur and no trees shall be removed. To conduct this work, three construction methods will be implemented including cable plowing, trenching, and horizontal directional drilling (HDD). The Permittee shall use HDD to cross any other features containing water. The conditions of the Agreement shall remain in effect.</p>	<b>NOD</b>

2011-08	Pala Band of Luiseno Mission Indians, APNs: 109-141-03, 109-371-04, 109-160-05-00 Bureau of Indian Affairs --San Diego The subject property consists of three adjoining parcels totaling 345.32 acres more or less, commonly referred to as Assessor's Parcel Numbers: 109-141-03-00, 109-371-04-00 and 109-160-05-00. The parcel is approximately two and a half miles north of Hwy 76 and approximately one mile south of Rancho Heights Road in the unincorporated area of North San Diego County. The property is entirely undeveloped but for a small, old and abandoned adobe structure located in the southern portion of the property, on the east side of Temecula Road. The property is contiguous to the Pala Reservation.  While portions of the parcels are level or gently sloping, much of the property contains steeply sloping topography. The steep sloping renders much of the property inaccessible and therefore unusable for development purposes. Only approximately 67 acres (or 20%) of the property are appropriate for development purposes. The Tribe has no plans at the present to develop the property.	<b>BIA</b>	04/07/2014
2013012033	2600 Marine Way Office Project Mountain View, City of Mountain View--Santa Clara Located on APNs 116-02-021, -024, -063, -067, -075, -076, -087, -090, and -091. The project is the redevelopment of existing office/light industrial properties with new office uses. The project proposes to demolish 118,100 sf of space in eight existing buildings; and remove pavement, landscaping and other improvements. Following demolition, the project would construct two detached office buildings of up to 4-stories each, as well as landscaping, utilities, and other improvements. The proposed 369,500 sf of new office space would be an increase of approximately 251,400 sf over the existing development on the site. The project would include one 6-level and one 3-level parking structure, in addition to surface parking. The project proposes a rezoning of the site from the Limited Industrial	<b>EIR</b>	04/21/2014

	(ML) zoning district to the Planned Community (P) zoning district.		
1990030535	San Francisco International Airport Master Plan San Francisco, City and County of MILLBRAE--SAN MATEO PROJECT IS A MASTER PLAN FOR THE SAN FRANCISCO AIRPORT. SFO PROPOSES TO EXPAND ITS GROUND FACILITIES TO IMPROVE ITS ABILITY TO SERVE PASSENGERS. THE EXPANSION WOULD INCLUDE NEW TERMINALS, RECONFIGURED FREEWAY ACCESS, CONNECTIONS TO BART AS IT IS EXPECTED TO BE EXTENDED, CONSOLIDATION OF CARGO, MAINTENANCE AND ADMINISTRATION FACILITIES AND HOTEL/COMMERCIAL FACILITIES ON AIRPORT PROPERTY.	<b>FIN</b>	
2006012067	Powell Tentative Parcel Map Weed, City of Weed--Siskiyou The proposed project is located in the City of Weed in southern Siskiyou County, CA. The project area which totals approximately six acres, would be subdivided into four parcels, Parcel 1: 1.13 acre, Part 2, 1.53 acre, Parcel 3: 2.49 acre, Parcel 4, 0.85 acre.	<b>MND</b>	04/08/2014
2014031018	Steuber Well Project Golden Hills Community Services District Tehachapi--Kern The proposed Project consists of the construction and operation of a groundwater well and connection pipeline to help meet peak water demands that occur within the Golden Hills Community Services District service area, principally during the summer months. GHCS D is currently able to meet existing water demands through the use of its existing water wells; however, in the event that its largest water well is non-functioning GHCS D would not be able to meet peak demands. Additionally, the proposed project will provide a temporary well pumping capacity for use by Tehachapi-Cummings County Water District to supplement its reduced water supply due to the current drought year.	<b>MND</b>	04/07/2014
2014032013	Jewell Creek Fish Passage Restoration Project Marin Municipal Water District --Marin The proposed project would replace an existing corrugated metal pipe culvert on Jewell Creek that conveys flows underneath the Cross Marin Trail toward Lagunitas Creek. In place of the existing culvert the project would install an open-bottom arch culvert, which would improve fish passage into Jewell Creek. A smaller high-density polyethylene culvert would also be replaced with a larger diameter high-density polyethylene culvert sized to accommodate 100-year storm flows. The project would also include repair of the Cross Marin Trail in the project's vicinity.	<b>MND</b>	04/07/2014
2014032015	Rolph Park Drive 9 Lot Subdivision (County Files: SD12-9312, DP12-3002 and RZ123220) Contra Costa County --Contra Costa A request for approval of a vesting tentative map to subdivide a vacant 9.93-acre parcel into 9 residential lots and 1 open space lot. In addition to the subdivision, the applicant is also requesting approval of the following; a rezoning of the 9.93-acre site to Planned Unit District (P-1) from its current residential (R-6) zoning district; approval of a final development plan; and approval of a General Plan	<b>MND</b>	04/07/2014

	Amendment designating 2.84-acres of the site Single-Residential-High Density (SH) from its current Open Space (OS) designation. The remainder of the property will remain within Open Space General Plan designation.		
2014032017	Palmilla Project Brentwood, City of Brentwood--Contra Costa The project site consists of a large portion of the area encompassed by the formerly approved Vesting Tentative map 8729, originally known as the "Marseilles Project." The City of Brentwood certified an EIR and approved VTM 8729 for the Marseilles Project in 2005. Whereas, the approved Marseilles VTM included a total of 581 residential units on approximately 77 acres, comprised of 108 multi-family units and 473 single family units, currently, a total of 408 single family residential units are now proposed for the same 77-acre site. William Lyon Homes has received approval of design review entitlements to construct homes on a total of 112 lots within VTM 8729. Therefore, these lots are not required to be part of this CEQA analysis; rather the 296 reconfigured lots shown on the new VTM (9332) for the Palmilla Project are the subject of this IS/MND.	<b>MND</b>	04/07/2014
2014032018	American River Common Features: Natomas East Main Drain Canal North Extension Central Valley Flood Protection Board Sacramento--Sacramento Project consists of the construction of a slurry cutoff wall to tie in with the existing cutoff wall. The cutoff wall is expected to be 30 feet deep and approximately 1,350 feet long. Construction is anticipated to occur for 4 months during the summer of 2014.	<b>MND</b>	04/08/2014
2014032020	Monte Bello Subdivision Project Manteca, City of Manteca--San Joaquin The proposed project includes a General Plan Amendment to change the land use designation of the 1-acre parcel from General Commercial to Commercial Mixed use and the 9.21-acre parcel from Medium Density Residential to Low Density Residential and a portion to CMU. The proposed project includes a Rezone of the 1-acre parcel from GC to CMU and the 9.21-acre parcel from Limited Multi-Family Residential with a portion being modified to Single Family Residential and a portion to CMU. The proposed project would subdivide the project site into 117 single-family residential lots, 60,000 sf of commercial space, and a 3.0-acre park.	<b>MND</b>	04/08/2014
2014031019	Alta Loma High School Improvement Project Chaffey Joint Union High School District Rancho Cucamonga--San Bernardino The District plans to construct a new stadium complex. The complex would include upgrading the existing track and field, installing new bleachers, installing lighting around the complex including field lighting, and constructing ticket booths, restrooms, concession stands, and team rooms. In addition, the project includes reconfiguring and upgrading varsity softball, JV baseball, soccer practice, and softball practice fields, constructing a new swimming pool complex, and a re-designed and slightly expanded parking lot on the existing campus. The new stadium complex would be constructed to host home football games and other track and field events, and would have capacity of 5,000 spectators. The District anticipates that construction would last approximately 1 year, with construction starting in December 2014, and ending in December 2015.	<b>NOP</b>	04/07/2014

<b><u>Documents Received on Friday, March 07, 2014</u></b>			
2014031020	Rancho Cucamonga High School Improvement Project Chaffey Joint Union High School District Rancho Cucamonga--San Bernardino The District plans to construct a new 5,000 seat athletic field stadium complex, auditorium, and expanded parking lot on the existing Rancho Cucamonga High School. The complex would include upgrading the existing track and field, installing new bleachers, installing new bleachers, installing lighting around the complex including field lighting, and constructing ticket booths, restrooms, concession stands, and a team room. In addition, the orientation of the existing baseball and softball diamonds located on the south end of the campus would be adjusted. A new parking lot would be constructed at the northern part of the school. The District does not anticipate the project starting until November 2014 or later, and barring unexpected delays would be fully completed by 2019.	<b>NOP</b>	04/07/2014
2014031021	Ontario High School Improvement Project Chaffey Joint Union High School District Ontario--San Bernardino The District proposes to perform improvements to the campus including the construction of new athletic facilities, and the renovation of existing athletic facilities on the 37-acre property. The improvements would include the construction of a new stadium complex, upgrades to the existing aquatic center, and reconfiguration of the baseball, softball, and soccer fields. The District anticipates that construction would last approximately 1 year with construction starting in December 2014, and ending in December 2015, based on the required approval from the Department of the State Architect.	<b>NOP</b>	04/07/2014
2014031022	Sports Complex Santa Ana Unified School District Santa Ana--Orange The proposed project includes installation of a new athletic facilities, bleachers and lighting on the Valley High School (VHS) campus. A new stadium complex would be construct to host home football games and other track and field events at Valley High School. The new stadium complex would have a maximum bleacher capacity of approximately 3,500 seats: 2,000-seat bleachers for the home side and 1,500-seat bleachers for the visitor side. The existing turf ball fields would be reconfigured to accommodate two softball and two baseball fields, two soccer fields, and discus and shot-put areas.	<b>NOP</b>	04/07/2014
2014031023	King Canyon Expressway, Segment 3 Caltrans #6 --Fresno Note: Reference SCH# 1991022072 The project would realign and widen a 4.5 mile segment of SR 180 near the rural communities of Centerville and Minkler. It would connect with the previously constructed Kings Canyon Expressway Segment 2 west of Smith Avenue, and would widen the existing 2-lane conventional highway to a 4-lane divided expressway. The purpose of the project is to improve continuity, safety, and capacity along SR 180 to and from Fresno and the areas east.	<b>NOP</b>	04/07/2014

	accommodate three-car trains.		
2001092014	Capitol Expressway Light Rail Project Santa Clara Valley Transportation Authority San Jose--Santa Clara Light rail extension along Capitol Expressway from Alum Rock Station to Eastridge Transit Center. Light rail will operate primarily in the median of Capitol Expressway within exclusive and semi-exclusive rights-of-way. Property acquisition for the project will be minimized through the removal of two HOV lanes on Capitol Expressway. The alignment will include an elevated section that will extend north of Capitol Avenue to south of Story Road and an elevated crossing of Tully Road. New light rail stations will be located at Story Road (aerial) and Eastridge Transit Center (at-grade). At Eastridge Mall, the Park-and-Ride lot will be expanded to accommodate increased demand. The project will also include traction power substations at Ocala Avenue and Eastridge Transit Center.	<b>NOD</b>	
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial This proposed project involves the CPUC approved Final Environmentally Superior Southern Route Alternative, which would include a 500 kV transmission line from the Imperial Valley Substation to a new substation southeast of the town of Alpine (Imperial County and San Diego County respectively), then continuing with a 230 kV transmission line with both overhead and underground components to the Sycamore Canyon Substation. Upgrades to the existing transmission system west of Sycamore Canyon Substation would also occur.  The Project will result in impacts to 10.04 acres of barefoot-banded gecko ( <i>Coleonyx switak</i> ) habitat including temporary impacts to 2.83 acres; the Project will permanently remove 7.21 acres of barefoot-banded gecko habitat. The project is expected to result in incidental take or barefoot-banded gecko, which is designated as a threatened species under California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation. Minor Amendment 3 of the ITP makes one specific change to the ITP as originally issued. The change extends the time (an additional 18 months) for completing the transfer, conversation easement, and management endowment for the habitat mitigation lands. However, the result impacts to the Covered Species will remain the same.	<b>NOD</b>	
2008021074	Dept. Water Resources Nonproject Water Interim Renewal Contract w/Reclamation and Cross Valley Canal Contractors Water Resources, Department of Los Banos, Fresno, Tulare, Bakersfield--Merced, Fresno, Tulare, Kern To provide interim water service conveyance for the Central Valley Project-Cross Valley Canal (CVP-CVC). The project will allow short-term use of California State Water Project (SWP) facilities to convey CVP water to the CVC contractors. In accordance with an approved water delivery schedule, federally contracted CVP-CVC water supplies will be conveyed from the Clifton Court Forebay at the Sacramento-San Joaquin Delta, through the SWP facilities, to the CVC turnout in Reach 12E of the California Aqueduct or to other points of diversion mutually agreed to in writing by DWR and the CVC contractor. The CVP-CVC water supplies may also be conveyed to the San Luis Reservoir as part of the federal	<b>NOD</b>

1991012022	Limonite Avenue Widening from Etiwanda Avenue to Bain Street Project Jurupa Valley, City of RIVERSIDE--RIVERSIDE The City of Jurupa Valley proposes to widen Limonite Avenue between Etiwanda Avenue and Bain Street. The project is located within the City of Jurupa Valley in Riverside County and would widen Limonite Avenue from two to four lanes. The project would tie into a four-lane section of Limonite Avenue just east of Etiwanda Avenue and transition back to a two-lane section just west of Bain Street.	<b>MND</b>	04/08/2014
2014032026	Shadi Lane Rezone and Minor Subdivision Solano County --Solano The project consists of rezoning the 10 acre property from Exclusive Agriculture 40 acre minimum to Rural Residential 5 acre minimum and subdividing the property into 2-5 acre parcels for a total of 2 primary dwellings. Private water wells, septic system and minor widening of the private lane are proposed.	<b>MND</b>	04/09/2014
2005061171	Littlerock Reservoir Sediment Removal Project Palmdale Water District Palmdale--Los Angeles The proposed project would: - Construct a grade control structure to prevent sediment loss and head cutting of the stream channel upstream of Rocky Point to preserve critical habitat and prevent impacts to the federally endangered arroyo toad; - Remove excess reservoir sediment that has accumulated over time and to restore the Reservoir to 1992 design water storage and flood control capacity; and - Maintain 1992 design capacity of the Reservoir	<b>NOP</b>	04/08/2014
2014032025	Marinwood Plaza Environmental Impact Report Marin County San Rafael--Marin BRIDGE Housing Corporation has submitted Master Plan, Precise Development Plan, Lot Line Adjustment, Lot Merger, and Right of Way Abandonment applications on behalf of the property owner, Marinwood Plaza, LLC. The site is currently made up of four separate lots and is developed with a shopping center. Existing development on the site includes a 33,514 sf commercial building near the center of the site, a wireless facility in the southern corner of the site, and various site improvements including a parking lot utilities, and landscaping. Although the majority of the commercial building is vacant, 15,190 sf of the building is occupied by the Marinwood Market, and a smaller liquor store also remains. There is additionally the Marinwood Farmer's Market, which operates on the site on a weekly basis throughout the year.	<b>NOP</b>	04/09/2014

	C-M(Commercial & Light Manufacturing District) zone district. The rezone application has been submitted to facilitate the approval of Conditional Use Permit Application No. C-13-020 which is proposal to develop an adjacent 0.60 acre property with a truck/trailer parking area; said parking area is also proposed to be used for the storage of dental and medical hazardous waste within the trailers. Stericycle currently operates at 4135 West Swift Avenue.		
2014031033	GPA14-00002 and SPLA14-00003 Hesperia, City of Hesperia--San Bernardino This project includes revisions to the City's open space policies and implementation measures. Currently, the City's General Plan includes an Open Space Element, which designates three areas (A, B and C) as areas that should be preserved in their natural state. These areas, which are predominantly in their natural state, contain sensitive environments and amenities such as bluffs, Joshua tree forests, and juniper woodlands. These three areas, totaling approximately 406 acres, are located within the Oro Grande Wash (west of Interstate 15), and the unnamed wash (paralleling the east side of Interstate 15). In addition, areas within the Specific Plan are identified as potential park sites, which total approximately 89 acres. One of these sites, Mojave Park, has been designated for a wastewater reclamation plant.	<b>Neg</b>	04/09/2014
2014031035	Housing Element 2009-2014 Initial Study / Neg Dec San Juan Bautista, City of San Juan Bautista--San Benito The City's updated Housing Element covers the planning period 2009-2014. The Housing Element Update includes updates to city policies + programs to satisfy state housing law and provide its fair share of the regional housing need.	<b>Neg</b>	04/09/2014
2009071019	Runway Safety Area Airport (RSA) Improvement Project Border Coast Regional Airport Authority Crescent City--Del Norte The Draft SEIR analyzes the potential environmental impacts of the currently proposed project refinements (occurring during the design phase since the 2011 Final EIR was certified), and grading and earthwork at the newly proposed mitigation sites. Project refinements include: Ag Road, Borrow Area Versus Import, Upland Environmentally Sensitive Habitat Areas, Bay Meadows Potential Wetland Mitigation Site, Moore Tract Potential Mitigation Site, Point Saint George Management Area, Revegetation, Perimeter Fence Replacement, Wetland Impacts, Onsite Upland Dunes Mitigation Area, Onsite Sensitive Plant Relocation Areas.	<b>SIR</b>	04/23/2014
1991103064	Grafton Plaza Dublin, City of Dublin--Alameda On March 4, 2014, the City of Dublin City Council adopted an Ordinance approving a Planned Development Zoning District with a related Stage 1 Development Plan to replace uses adopted by Ordinance 24-97 and adopted an Ordinance approving a Development Agreement between the City of Dublin and Lennar Homes of California, Inc.	<b>NOD</b>

<b><u>Documents Received on Monday, March 10, 2014</u></b>			
1991103064	Grafton Plaza Dublin, City of Dublin--Alameda On March 4, 2014, the City of Dublin City Council adopted an Ordinance rezoning The Groves Lot 3 to a Planned Development Zoning District and approving a related Stage 1 and 2 Development Plan.	<b>NOD</b>	
1996112014	Roseville Specific Plan Roseville, City of Roseville--Placer The applicant requests approval of a Major Project Permit Modification and Tentative Subdivision Map to allow the construction of 81 single family residential units along with associated landscape lighting. The Development Agreement Amendment will amend the number of any type of units to be constructed on the parcel and also amend park fees and other obligations for the parcel.	<b>NOD</b>	
2007101016	Friant Community Plan Update and Friant Ranch Specific Plan Fresno County --Fresno The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the applicant, Friant Ranch L.P. Activities include filing seven drainages and installation of culverts for crossings over five drainages, within the larger 942.2 acre development area of the Friant Ranch Specific Plan.	<b>NOD</b>	
2008041172	Sexlinger Farmhouse and Orchard Residential Development Project Santa Ana, City of Santa Ana--Orange Approval of Environmental Impact Report No. 2011-1, Variance No. 2012-04 (a,b) and Vesting Tentative Tract Map No. 2012-02 for construction of 22 new single family residences and the preservation/rehabilitation of the existing Sexlinger Farmhouse with a 16 tree orchard on a 5-acre site. The farmhouse and orchard will be on a 10,044 sq. ft. lot at the northwest corner of the site, rehabilitated to Secretary of the Interior historic preservation standards. The farmhouse will be used as a single family residence per building code requirements for habitable structures. The new residences will be developed on the remainder of the property, with lot sizes ranging from 6,000 sq. ft. to 8,611 sq. ft.	<b>NOD</b>	
2009022086	Hetfield Estates Subdivision Moraga, City of Moraga--Contra Costa This NOD addresses related approvals (General Development Plan (GDP), Vesting Tentative Map (VTM), Conditional Use Permit and Hillside Development Permit) for a previously approved project, the seven-lot Hetfield Estates subdivision. The project was approved and evaluated in a Final EIR certified by Town of Moraga on July 16, 2012 (2012 Final EIR). The Town prepared an EIR addendum to evaluate the alignment of a proposed firetrail/EVA that was included in the GDP and VTM. No new impacts or increase in severity of previously identified impacts were found, and all other aspects of the project were found to be consistent with that analyzed in the previously certified Hetfield Place Final EIR.	<b>NOD</b>

<b><u>Documents Received on Monday, March 10, 2014</u></b>			
2012082064	<p>Petition to Change Water Right Licenses 6556 and 10827 of Lucky Star Investment Group, LLC State Water Resources Control Board Half Moon Bay--San Mateo</p> <p>This project consists of replacing a previous water diversion intake system that was located approximately 30 feet downstream of the proposed intake on Frenchmans Creek. The proposed intake intends to provide a more reliable diversion system that requires less frequent maintenance and thus less overall disturbance to the creek.</p>	<b>NOD</b>	
2013052026	<p>County File #TP12-0017, Norris Canyon Estates San Catanio Creek Tributary Stabilization Project Contra Costa County San Ramon--Contra Costa</p> <p>TOLL BROTHERS, INC, (Applicant and Owner), Norris Canyon Estates Hoa (Owner); County File #TP12-0017: Approval of a Tree Permit in order to construct improvements to stabilize two unnamed tributaries of San Catanio Creek that drain into an existing detention basin built on the creek as part of the Norris Canyon Estates project. The work is requested upstream of the detention basin to return the tributaries to historic evaluations while stabilizing creek banks and preventing future erosion of the drainages. Currently, the unnamed tributaries have experienced up to 20 feet of erosion, with eroded soil flowing downstream to the existing detention basin and beyond. The Tree Permit is necessary because 85 code-protected trees within and near the tributary channels area proposed to be removed as part of the creek remediation work. The work is proposed to take place in the area encompassed by Ashbourne Circle as well as the parcels with the following addresses.</p>	<b>NOD</b>	
2013111044	<p>Senior Residential (-SR) Overlay District for Mobilehome Parks Huntington Beach, City of Huntington Beach--Orange</p> <p>The project involves a City-initiated proposal to amend the Huntington Beach Zoning and Subdivision Ordinance to establish a Senior Residential (-SR) Overlay zoning district for mobile home parks (Zoning Text Amendment No. 13-002, Zoning Map Amendment Nos. 13-001 and 13-002). The purpose of the -SR Overlay district is to establish criteria that will protect those mobile home parks primarily occupied by seniors 55 years of age and older from conversion to family (non age-restricted) parks in an effort to preserve affordable housing for seniors. The proposed -SR Overlay may overlay any property that allows mobile home park uses. The project includes Zoning Map Amendments to apply the Senior Residential (-SR) Overlay designations to 10 existing (as of August 5, 2013) senior mobile home parks in the City. The eight remaining family parks in the City will not be affected by the proposed -SR Overlay district. However, they could apply to have the -SR Overlay designation in the future. In addition, a senior mobile home park with the -SR Overlay designation in the future. In addition, a senior mobile home park with the -SR Overlay designation could apply to remove the overlay designation pursuant to applicable city code requirements. The provisions of the -SR Overlay district do not require any construction or reconfiguration of existing mobile home parks. No operational changes to senior mobile home park would be required other than those described above. In addition, the proposed -SR Overlay district would not change the allowable uses of the base zoning district.</p>	<b>NOD</b>

<b><u>Documents Received on Monday, March 10, 2014</u></b>			
2013111081	Interstate 215/Barton Road Interchange Improvement Project Caltrans #8 Grand Terrace--San Bernardino The Project will replace existing Barton Road (Rd) Overcrossing, reconstruct and widen Barton Rd, realign existing on-and off-ramps to enhance turning maneuverability and storage capacity, improve local roadways, and modify traffic signals. Within limits of Project, I-215 currently provides 3-lanes in each direction. Barton Rd is a 2-lane roadway west of I-215 and a 4-lane facility with turn lanes at various intersections east of I-215. Barton Rd provides 4 ramps that connection to I-215: southbound on- and off-ramps, and northbound on- and off-ramps. The Project's purpose is to improve operation, increase the capacity, and reduce existing and future congestion at I-215/Barton Rd.	<b>NOD</b>	
2014038055	South Division Fire Preparedness Exercise Forestry and Fire Protection, Department of --San Diego The purpose of this proposed project is to provide a venue for Cal Fire hand crews to participate in hand line construction training as part of the Departments required annual fire preparedness exercise. To accomplish this, 9 assigned Cal Fire hand crews will each construct a four foot wide hand line of approximately 400' in length within a designated area to simulate fire line construction. This will result in approximately one-third acre of disturbance each year for a cumulative total of 1.5 acre over the five year scope of this project.	<b>NOE</b>	
2014038056	Boonville Forest Fire Station (FFS) Road Repair Forestry and Fire Protection, Department of --Mendocino This project consists of repairs to an existing seasonal road that provides access to a spring and cistern that are essential parts of the Cal Fire Mendocino Unit's Boonville FFS water supply system. The road is located on private property. Heavy equipment, including a dozer, backhoe and grader, will be used. Repair work includes road prism restoration, replacement of non-functional and undersized culverts, inside ditch alignment, and installation of energy dissipaters at culvert discharge points.	<b>NOE</b>	
2014038057	DN101 Culvert and Drainage Repairs Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Del Norte The proposed Project would occur at seven locations along State Route (SR) 101 between post-miles 0.95 and 23.60, in Del Norte County. The purpose of the project is to repair compromised drainage systems.	<b>NOE</b>	
2014038058	James Morris Private Dock Installation Fish & Wildlife #3 --Sacramento The project is the construction and installation of a boat dock for private use by the property owner. The floating dock will be 8 feet by 60 feet. The dock will require installation of four 14-inch diameter steel piles to anchor the dock structure. There will be a metal gangway that is 4 feet by 57 feet attached to a bridge that is 4 feet by 39 feet supported by two 8- to 10-inch diameter steel piles. The gangway will be anchored to a concrete landing on the levee crown with a maximum allowed size of 4 feet by 6 feet and anchored by two 8-inch diameter concrete-filled steel piles. A 6-inch diameter steel chase for electric and domestic water conduits for the dock would be installed by trenching at the levee crown.	<b>NOE</b>

<b><u>Documents Received on Monday, March 10, 2014</u></b>			
2014038059	Lambeth Private Recreational Dock Installation Fish & Wildlife #3 --Yolo The project is the installation of a private recreation dock on the west bank of the Sacramento River. The proposed dock is 28 feet by 62 feet with a 16 foot by 50 foot covered slip. The dock will be anchored by four 14 inch diameter steel or concrete piles. A 4 foot by 4 foot concrete landing at the levee crown will provide access to concrete stairs and a 4 foot by 4 foot intermediate landing. This intermediate landing will be anchored by two 8 inch diameter piles in the levee slope.	<b>NOE</b>	
2014038060	Hyer Private Recreational Dock Installation Fish & Wildlife #3 West Sacramento--Yolo The project is the installation of a private recreational dock on the west bank of the Sacramento River at approximately river mile 72. The proposed dock will be 8 feet by 25 feet. The dock will be anchored to two new 14-inch diameter steel piles. There will also be a 3 foot by 30 foot aluminum gangway and a 3 foot by 55 foot bridge with floatation supported by two existing 16 inch diameter steel piles and anchored to two new 8-inch diameter concrete filled steel piles and an approximately 6 foot by 5.5 foot concrete landing at the levee crown.	<b>NOE</b>	
2014038061	Equestrian Trail Maintenance Fish & Wildlife #3 Woodside--San Mateo The project includes routine maintenance activities generally defined as periodic activities necessary to maintain the water transport capacity of creeks and channels and maintain integrity and reduce erosion on equestrian trails located across and parallel to streams and channels. Project activities can include utilizing hand tools for: minor sediment removal in concrete-lined and earthen channels near equestrian trails; removal of trash, debris, non-living vegetation and fallen trees and branches that could inhibit flows or damage structures within or crossing the creeks	<b>NOE</b>	
2014038062	Guardrail Replacement at Various Locations in Alameda County Caltrans #4 --San Mateo, Solano The purpose of the project is to provide greater safety to users of Caltrans facilities at these locations. The project would replace/extend existing guardrail, with minor concrete work for attachment to barriers/structures.	<b>NOE</b>	
2014038063	Alameda 880 Stormwater Treatment Project Caltrans #4 Oakland--Alameda The purpose of the project is to improve treatment of stormwater runoff. The project will construct a 1.1 mile long vegetated stormwater-treatment basin. The project provides general benefits through the reduction of sediment and other contaminants in roadway runoff.	<b>NOE</b>	
2014038064	Mays Canyon Soldier Pile Wall Caltrans #4 --Sonoma The purpose of the project is to stabilize the embankment that supports the roadway. The project will construct a tangent wall on the slope of the embankment, above the ordinary high water mark of the creek.	<b>NOE</b>

<b><u>Documents Received on Monday, March 10, 2014</u></b>			
2014038065	SR-92 and I-780 Metal-Beam Guardrail Replacement Project Caltrans #4 --San Mateo, Solano The purpose of the project is to provide greater safety to users of Caltrans facilities at these locations. The project would replace/extend existing guardrails.	<b>NOE</b>	
2014038066	Replacement Waterline along Hermosa Avenue From Foothill Boulevard to Church Street Cucamonga Valley Water District Rancho Cucamonga--San Bernardino This project would construct a replacement 8-inch waterline along Hermosa Avenue from approximately Foothill Boulevard north to Church Street. The replacement water line would be constructed to replace the existing 6-inch waterline, which has a history of leaks and is difficult to maintain. The replacement waterline would have more in-line control valves and would be re-connected to existing laterals, service and hydrants. The existing waterline would be abandoned in place as part of the project.	<b>NOE</b>	
2014038067	CP7249 Reservoir 3A Wellhead Treatment Facility Cucamonga Valley Water District Rancho Cucamonga--San Bernardino Cucamonga Valley Water District has three production wells that pump from the Cucamonga Basin Aquifer into Reservoir 3A located at the southeast corner of 19th Street and Sapphire Avenue. These wells have a high concentration of nitrates and dibromochloropropane (DBCP) as a result of decades of agricultural usage in the area. These levels do not meet current public health standards and are limiting water production for the District. The installation of a package granular activated carbon (GAC) system would filter the water removing DBCP bringing the water back to within public health standard limits. This package treatment system could enable the District to increase water production by 2,600 AF. The process is commonly used throughout the industry and is an accepted practice approved by the State Department of Public Health.	<b>NOE</b>	
2014038068	Owens Catwalk Repair, Lake Alteration Agreement No. 1600-2013-0243-R2 Fish & Wildlife #2 South Lake Tahoe--El Dorado The project is limited to repair of an existing catwalk attached to a private pier in Lake Tahoe. Nine (9) 4x6 pilings will be pulled from the lakebed and replaced with two (2) 2.5 inch diameter steel pipes and two (2) 4x4 tube steel pilings all driven into the lakebed. The 2.5 inch diameter pilings will be sleeved in 3 inch PVC caissons. The joists and decking of the catwalk will then be reattached to the four new steel pilings in a manner that the catwalk can rise and fall with changes in lake level. All of the work on the catwalk repair will be completed from a floating barge that will be moored adjacent to the pier.	<b>NOE</b>	
2014038069	Streambed Alteration Agreement #1600-2013-0267-R2 Creek Crossing Fish & Wildlife #2 --Sierra The project is limited to hand-removal of beaver dams causing ponding at an existing wet crossing of Long Valley Creek, and placement of rock to cover its eastern approach in order to provide a safe crossing for fire suppression and land management activities. The area to be rocked is about 260 feet long by 9 feet wide. Clean, washed rock shall be placed about 4-6 inches deep. Work may be carried out between February 1 and July 1 on an annual basis for the life of this	<b>NOE</b>

	Agreement.		
2014038070	Colmery Pier Relocation and Restoration Project Fish & Wildlife #2 --Placer Project consists of the removal of an existing lakeside patio; dismantling and removal of boulder/rock gabions, wood bulkhead/secondary dock facilities, and related debris; re-grade of the near vertical eroded bluff to a sloping design; removal and replacement of the existing open pile pier structure; installation of appropriate landscaping and vegetation along the affected shoreline and upland; and installation of supplemental best management practice (BMP) site improvements.	<b>NOE</b>	
2014038071	Englund Marine Dock Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Eureka--Humboldt The scope of the Project includes replacing five damaged dock pilings at low tide using new sleeves to create new concrete pilings. Additionally, six new concrete pilings will be added to replace missing pilings. The pilings are proposed to be vibrated 15 - 18 feet into the substrate using a vibratory hammer. Once the pilings are in place water inside the pilings will be extracted and concrete will be pumped into the pilings.	<b>NOE</b>	
2014038072	Land and Water Conservation Fund Mueller Park Beautification Project Reedley, City of Reedley--Fresno The applicant is applying for grant funds through the Land Water Conservation Funds to expand recreational opportunities in Mueller Park, Reedley, California. The scope of work includes the construction of approximately 1530 LF x 6 ft. of concrete for walking path that will encircle the park. Twelve new lighting fixtures, 6 concrete picnic tables, 4 mounted BBQ grills and 3 benches will be placed throughout the park close to the walking trail. The existing landscape will be enhanced with additional trees and shrubs in various parts close to the trail. To further expand recreational opportunities necessary renovations are planned for a below grade sandbox (200 sq. ft.), shade structure canopy, and the unsafe play equipment will be removed and replaced with equipment meeting current safety standards. The restroom structure will stay intact but the items on the side will be removed and replaced for a fully functioning public facility.	<b>NOE</b>	
2014038073	Routine Maintenance Activities Caltrans #10 --Alpine, Calaveras, San Joaquin Caltrans proposes to perform routine maintenance activities in Alpine, Amador, Calaveras, and San Joaquin counties. These activities include minor vegetation and sediment removal in the vicinity of Caltrans' bridges, culverts and channels for the sole purpose of maintaining flows.	<b>NOE</b>	
2014038074	Redhill GeoTech Borings Caltrans #12 Costa Mesa--Orange Basic data collection. An estimated, 17 each 4 inch diameter geological data test borings ranging in depth from 50 feet to 100 feet. Bore locations will be in both directions of travel within the paved roadway on Redhill Avenue south of Pullman Street to the I-405 bridge approach in the City of Costa Mesa, California.	<b>NOE</b>

2014032022	Use Permit/ Reclamation Plan #2003-093, Initial Study #2014-003 Lassen County --Lassen Proposed amendment to Use Permit/Reclamation Plan #2003-093 to include the production of asphalt on site. Proposed amendment will authorize the use of portable asphalt batch plant equipment to produce 25,000-100,000 tons per year. CA Mine Identification No. 91-18-0051.	<b>CON</b>	04/01/2014
2014032023	Reclamation Plan #2014-008, Initial Study #2014-008 Lassen County Susanville--Lassen Proposed Reclamation Plan, in accordance with the Surface Mining and Reclamation Act (SMARA), Public Resources Code, Section 2770, 2772 and 2773, to provide reclamation of a 4.62 acre "Vested" mine site in Lassen County. SMARA mandates that a reclamation plan be submitted, which is applicable to a specific piece of property and based upon the character of the surrounding area. Additionally, said plans shall conform to minimum statewide performance standards required pursuant to SMARA Section 2773 (b), including but not limited to wildlife habitat, backfilling, revegetation, drainage, agricultural land reclamation, equipment removal, stream protection, topsoil salvage and waste management. The total disturbance boundary associated with the proposed Reclamation Plan 5.29 acres, which is required to incorporate the complete implementation.	<b>CON</b>	04/01/2014
2014034002	Windy Point Road (BIA 157) Project Bureau of Indian Affairs --Shasta Note: Review per lead The BIA, Pacific Region is proposing to reconstruct and improve a section of Windy Point Road (BIA Route 157) within the Montgomery Creek Rancheria of the Pit River Tribe of CA. The section that would be reconstructed and improved is the first approximately 3,975 linear feet (0.75 mile) of the road, beginning at its intersection with State Route 299, near the western end of Rancheria.	<b>EA</b>	04/15/2014
2014031034	Adelanto North 2035 Comprehensive Sustainable Plan Adelanto, City of Adelanto--San Bernardino The project consists of the adoption and long-term implementation of the Adelanto North 2035 Comprehensive Sustainable Plan and General Plan Amendment and Zoning Change required to implement the Plan. The Plan establishes long-term strategies guiding the community's sustainable development. This planning effort is prepared under, and funded by, the State of CA Sustainable Communities Planning Grant and Incentive Programs. The Plan provides a focused framework to address State planning priorities, foster sustainable and green development, and provide for a balanced land use plan addressing housing and employment opportunities. The Plan provides land use strategies encouraging place-making and promoting a positive and healthy community image. In addition, the Plan identifies Growth Priority Areas to guide growth in conjunction with current and planned utility extensions. Ultimately, the Plan provides for a fiscally responsible future pattern of development. The Plan consists of seven chapters which include	<b>EIR</b>	04/24/2014

	sustainable design approaches: Land use and Community Design, Economic Development, Mobility, Parks and Recreation, Open Space and Recreation, Public Facilities and Infrastructure, and Public Health and Safety.		
2014031015	Coachella Canal Water Conveyance System Relocation - SilverRock Coachella Valley Water District La Quinta--Riverside CVWD proposes the relocation and reconstruction of approximately 4,600 lineal feet of the Coachella Canal immediately parallel to the existing Canal within U.S. Bureau of Reclamation (USBR) right-of-way between the existing drop structure at Milepost 120.8 and the existing drop structure at Milepost 121.8. The project is located mostly within the SilverRock Resort and Golf Course in La Quinta, Riverside County. Differential land subsidence has resulted in a loss of the original flow capacity of the Canal. The purpose of the project is to reestablish the original design flow rate of 480 cubic-feet per second in this section of the Canal. The existing section of Canal between the Milepost 120.8 drop structure and the Milepost 121.8 drop structure would be decommissioned through demolition and/or back-filling. The project includes the construction of a bridge across the new portion of the Canal at Avenue 54.	<b>MND</b>	04/09/2014
2014031027	Apricot Lane Prezone (Application No. 2013-1) Hollister, City of Hollister--San Benito Prezone of a 22.38-acre site for the future annexation and development of up to 173 single-family residential lots. The proposed project does not include development at this time. City zoning would be approximately 0.78 acres of Open Space / Conservation (OC), providing a buffer between future residential development and the City's Industrial Wastewater Treatment Plant, and 21.6 acres of Low Density Residential/Performance Overlay (R1 L/PZ).	<b>MND</b>	04/09/2014
2014031028	ENV-2013-298-MND / 1945 S. Overland Avenue Los Angeles, City of Los Angeles, City of--Los Angeles The demolition of an existing 1-story, 3 unit, 67 year old structure in order to construct a new 4-story, 8 unit residential condominium development, including a total of 19 parking spaces. The project site is approximately 6,750 net sf, within the R3-1 Zone. The applicant is also requesting a Haul Route to export approximately 2,800 cubic yards of earth material.	<b>MND</b>	04/09/2014
2014031031	ENV-2013-2429-MND / 13147 N. Gladstone Avenue Los Angeles, City of --Los Angeles An Elder Care Facility Unified Permit and Site Plan Review for the proposed construction, use and maintenance of a 138-unit, three-story plus basement, 50-foot tall, 118,500 sf total Eldercare Facility with 142 parking spaces on a 94,038 sf lot in the (T)(Q)R1-1-K Zone.	<b>MND</b>	04/09/2014
2014031032	ENV-2014-185-MND / 17821 W. Porto Marina Way Los Angeles, City of --Los Angeles The project is construction, use, and maintenance of a new 1,868 sf subterranean parking garage fronting onto Porto Marina Way serving an existing single-family dwelling (17824 W. Castellammare Dr.) that fronts onto Castellammare Drive. The garage will have 8 parking spaces that will be accessible by 2 driveways on Porto Marina Way. The project will include drought tolerant landscaping and rain water	<b>MND</b>	04/09/2014

	24.12.640. The proposal also includes a request for a Slope Modification Permit pursuant to Municipal Code Section 24.08.810 in order to construct the driveway across slopes that exceed 30% (approximately 40%) and a Heritage Tree Permit to remove two heritage trees.		
2014032032	2014 Tehama-Colusa Canal Authority Water Transfers Tehama-Colusa Canal Authority --Glenn Note: Shorten Review	<b>MND</b>	04/02/2014
	This MND and IS/EA analyzes environmental impacts of proposed water transfers from willing sellers to buyers in the Central Valley and Santa Clara Valley area to help address water shortages. The environmental document includes transfers of Central Valley Project (CVP) water through CVP or State Water Project facilities and transfers of non-CVP water supplies that require the use of CVP facilities. The water would be made available for transfer through a combination of cropland idling and groundwater substitution. The transfers could originate in Colusa, Glenn, Sacramento, Shasta, Sutter, Tehama, or Yolo counties. The transfer buyers could be in Colusa, Glenn, Tehama, or Yolo counties.		
2012022038	Twitchell Island Levee Improvement Project - San Joaquin River Reach Reclamation District 1601 --Sacramento RD 1601 proposes to construct levee improvements along the south side of Twitchell Island to increase the levee's resistance to erosion, provide additional freeboard for an estimated wave-run up of 4.7 feet, and provide better overall levee stability. Improvements would include ~5 mile of new foundation berm and setback levee behind and attached to the existing levee along the San Joaquin River except in front of the existing pump station, a sheet-pile wall would be installed so that the pump station, sump, and appurtenant discharge pipes would not have to be moved. Borrow materials to construct the improvements, including engineered fill, drain rock, and aggregate base would be obtained from commercially available sources likely within 50-60 miles. Some material would likely be transported to the site by truck and some by barge.	<b>NOP</b>	04/11/2014
2014031037	Etiwanda High School Improvement Project Chaffey Joint Union High School District --San Bernardino The District plans to construct a new athletic field stadium complex, auditorium, classroom building, and parking lot on the existing Etiwanda High School campus property. In addition, portable classrooms will be removed from the southeastern parking lot, thereby creating additional parking spaces. The complex would include upgrading the existing track and field, installing new bleachers, installing lighting around the complex including field lighting, and constructing ticket booths, restrooms, concession stands, and team rooms. Construction of the stadium is anticipated to begin in November 2014, and be completed in December 2015. The construction of the auditorium and new classroom building would begin in June 2017, and would be completed in March 2020.	<b>NOP</b>	04/10/2014

2014032027	Main Street Bridge at Pilarcitos Creek Half Moon Bay, City of Half Moon Bay--San Mateo The existing Main Street Bridge over Pilarcitos Creek, which was constructed in 1900 and is a historic resource, is structurally deficient and functionally obsolete. The EIR will evaluate alternatives to address these deficiencies, including bridge rehabilitation & widening and bridge replacement options.	<b>NOP</b>	04/10/2014
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus The Hillglen Parks project includes an amendment to the Village One Specific Plan and Precise Plan 15 to redesignate the property from an elementary school site to Village Residential (VR) to allow development of a 62 lot single-family residential subdivision on a vacant 10 acre parcel.	<b>NOD</b>	
2009091125	California High-Speed Train Project Merced to Fresno Section High Speed Rail Authority, California Merced, Chowchilla, Madera, Fresno--Madera, Merced, Fresno The Project approved by the CDFW consist of the ITP and MSAA identified above, which address construction and operation of the Merced to Fresno segment of the California High-Speed Train (HST), as approved by the lead agency, affecting or generally related to fish and wildlife resources subject to the regulatory authority of CDFW, including natural resources subject to the California Endangered Species Act (CESA) and Fish and Game Code Section 1600 et. seq. For purposes of CESA, the ITP authorizes incidental take of California tiger salamander ( <i>Ambystoma californiense</i> ), Swainson's hawk ( <i>Buteo swainsoni</i> ), and San Joaquin kit fox ( <i>Vulpes macrotis mutica</i> ) (collectively, the Covered Species), all in connection with otherwise lawful activities within the Project area. The MSAA authorizes certain activities contemplated in Section 1602 of the Fish and Game Code that could cause substantial adverse effects to fish and wildlife resources. The ITP and MSAA in this respect will facilitate construction and operation of the Project.	<b>NOD</b>	
2011012008	Bayer Neighborhood Park and Gardens Santa Rosa, City of Santa Rosa--Sonoma The Project involves the rehabilitation of an existing barn and animal closure, removal of an existing home, and construction of turf areas, play zones, an amphitheater, picnic areas, a plaza and kiosk, cross cultural ovens, restrooms, an open air community kitchen pavilion, orchards, a wetland treatment area, and crossings over seasonal wetland channels.	<b>NOD</b>	
2013082036	Modesto City-Council Airport Obstruction Management Project Modesto, City of Modesto, Ceres--Stanislaus The City of Modesto, as owner and operator of MOD, proposes to trim approximately 239 trees that have grown into the approach and transitional surfaces (as defined by Federal Aviation Regulation (FAR) Part 77: Objects Affecting Navigable Airspace) for Runways 28R and 28L.	<b>NOD</b>

<b><u>Documents Received on Thursday, March 13, 2014</u></b>			
2014032034	Minor Discretionary Permit 2014-01 - Taco Bell Turlock, City of Turlock--Stanislaus The construction of a 2,106 sf drive-thru restaurant on an approximately 1.27 acre site. The site is located in the Northwest Triangle Specific Plan area. Associated parking, landscaping and paving will be installed on the site. The sign program is also included in this application. A double sided, internally illuminated 13' tall 5' wide monument sign is proposed as well as 103 sf of wall signs. The project is located at 3606 N. Golden State Blvd, more particularly described as Stanislaus County Assessor's Parcel No. 087-030-008.	<b>EA</b>	04/01/2014
2008041070	24th Street Improvement Project Bakersfield, City of Bakersfield--Kern NOTE: FYI  The project would widen 24th St. to the north and encompass the SR 99 interchange and auxiliary lane, Oak St./24th St. intersection, 24th St. widening to the north, and the 24th St. complete area (one-way section of 23rd and 24th Streets). Widening to the north along 24th St. would add two travel lanes (one in each direction). The proposed roadway alignment would be shifted north of the existing alignment about 17 feet, which would minimize the right-of-way acquisition on the south side of 24th St. required for the roadway widening. Impacts include full and partial right-of-way acquisitions and reconstruction of the Carrier Canal on the north and south sides of 24th St.	<b>FON</b>	
2014032036	Vallecitos Channel Repair Alameda County Water District --Alameda The Alameda County Water District proposes work on an existing unlined water conveyance channel and adjacent access road. The purpose of the work is to repair localized bank damage, prevent further erosion, and restore channel hydraulics and water conveyance efficiency. The project involves the installation of vegetated soil lift revetment, installation of transverse log stabilizers, and installation of a low-flow channel.	<b>MND</b>	04/11/2014
2014031041	Old Fire Station 84 Pocket Park Project Los Angeles, City of Los Angeles, City of--Los Angeles LADRAP is proposing to construct an approximately 0.35-acre neighborhood pocket park. As part of the proposed project, all structures on the project site would be demolished and the site would be cleared of all apparatus such as tanks and hose racks. Park amenities would include a fire station themed play area intended for 5-12 year olds, a fitness zone with equipment, a gaming/Wi-Fi zone, turf areas, picnic tables, benches, and shade structures. Landscaping would be native species and use smart irrigation. Hardscapes would include concrete and brickways. Security fencing would be installed along the perimeter of the entire site, along with security lighting and cameras. The design of the pocket park would take its cues from the former fire station and would comply with the requirements of the Americans with Disabilities Act.	<b>NOP</b>	04/11/2014

2014031042	<p>El Monte Walmart El Monte, City of El Monte--Los Angeles</p> <p>The project will realize 182, 429 sf of new retail/commercial uses within an ~15.41 acre site, located in the northwestern portion of the City of El Monte, near the intersection of Valley Boulevard and Arden Drive. The project includes the proposed El Monte Walmart, and all facilities proposed within the Project site, on-and off-site supporting improvements, and associated discretionary actions.</p>	<b>NOP</b>	04/11/2014
2014031039	<p>PG&amp;E Manufactured Gas Plant SQ-VO Merced Toxic Substances Control, Department of Merced--Merced</p> <p>DTSC is proposing to approve a Removal Action Workplan (RAW) pursuant to regulatory authority granted under Chapter 6.8, Division 20, CA Health and Safety Code (H&amp;SC) on the PG&amp;E Manufactured Gas Plant SQ-VO Merced site located at 560 15th Street, Merced, CA in Merced County. The RAW will address impacts to soils, soil gases, and groundwater from previous operations by the former Merced Manufactured Gas Plant. The remedial activities will involve, excavation and disposal at an off-site permitted facility (ies) of approximately 5,800 cubic yards (yds3) or approximately 350 truckloads (approximately 700 round trips) of contaminated soils that are highly impacted by polynuclear aromatic hydrocarbons (PAHs); total petroleum hydrocarbons (TPHs); volatile organic compounds (VOCs), including benzene, toluene, ethylene, and xylenes (BTEXs); and metals. The construction activities will take an estimated six months to complete. It will be done in phases and expected to start in July 2015 and end in December 2015. Additionally, there will be at least 5 years of groundwater monitoring followed by an assessment on whether additional monitoring is required. During this 5 year period of groundwater monitoring, if testing show the ISS and MNA process is ineffective in reducing the levels of COPCs, then implementation of deep source excavations and off-site disposal at a permitted facility (ies) will occur through a future proposed project and separate CEQA environmental document.</p>	<b>Neg</b>	04/11/2014
2014032033	<p>PA-1300122-Zone Reclassification Application San Joaquin County --San Joaquin</p> <p>A Zone Reclassification to amend the zoning designation of 2.47 acres of a 3.7 acre parcel from AG-40 (General Agriculture, 40-acre minimum) to C-X (Crossroads Commercial). The underlying project is for a Retail Sales and Services, Intermediate Use Type.</p>	<b>Neg</b>	04/11/2014
2014032035	<p>122 Lakeview Drive - Proposed New Residence Woodside, City of Woodside--San Mateo</p> <p>The project includes a lot line adjustment between four underlying lots totaling approximately 20.15 acres to result in two lots: proposed "Parcel 1" (approximately 11.43 acres), and proposed "Parcel 2" (approximately 8.74 acres); demolition of a barn, four sheds, a pool, a pool cabana, and installation of landscaping and landscape features on proposed "Parcel 1"; and retention of an existing tennis court on proposed "Parcel 1", and a historic residence (the Davies Estate) on proposed "Parcel 2". Proposed access to "Parcel 1" is via the existing Moore Road driveway, and proposed access to "Parcel 2" is via the existing Lakeview Drive driveway. The site is currently unoccupied and was last used as one residential property.</p>	<b>Neg</b>	04/11/2014

2014038115	Install North Property Access Gate Parks and Recreation, Department of --Lake This Project will install one gate across an existing road within the Anderson Marsh State Historic Park for emergency services access and resource protection. Work will: * Excavate 2 post holes by hand; * Place concrete in holes to secure gate posts; * Excavate 2 sign posts by hand on either side of gate and install signs, no concrete used; * Place large, currently existing boulders along both sides of gate, further restricting public vehicular access.	<b>NOE</b>			
2014038116	Maintenance and REhabilitation of 16 Bridges - 4H8401 / 041000291 Caltrans #4 --Contra Costa Treating bridge decks with methacrylate resin, replace joint seals and repair abutments and overlay the bike and pedestrian lanes. The project is to preserve and maintain the safety and integrity of the Highway.	<b>NOE</b>

<b><u>Documents Received on Friday, March 14, 2014</u></b>					
2014032044	Use Permit Application No. PLN2014-0028 - Machado Dairy Stanislaus County Turlock--Stanislaus Request to reorganize the existing dairy herd size from 2,100 milk cows, 200 dry cows, 820 bred heifers, 667 medium heifers, and 250 small heifers (for a total of 4,037 head), to 3,050 milk cows, 437 dry cows, 0 bred heifers, 250 medium heifers, and 250 small heifers (for a total of 3,987 head). The applicant is proposing to eventually increase the milk and dry cow head count while completely removing bred heifers from the site and reducing the medium heifers to enable the existing dairy facility to be financially viable. Ultimately, the total number of cows will be reduced by 50. This application includes a request to install a roof over an existing freestall barn within the facility. The applicant has contacted the San Joaquin Valley Air Pollution Control District (SJVAPCD) and the Regional Water Quality Control Board and has confirmed that the proposed numbers are below CEQA significant impact thresholds and that the project requires individual Waste Discharge Requirements.	<b>CON</b>	04/01/2014		
2014032045	Vesting Tentative Parcel Map Application No. PLN2014-0027 - Postma - Albers Road Stanislaus County Modesto--Stanislaus Request to divide a 97 acre parcel into one 40 acre parcel and on 57 acre parcel.	<b>CON</b>	04/01/2014		
2013082054	Village at San Antonio Center - Phase 2 Mountain View, City of Mountain View--Santa Clara Note: Reference SCH# 2010072044	<b>EIR</b>	04/28/2014		
The project is the second phase of the San Antonio Village Center Project (Phase

<b><u>Documents Received on Friday, March 14, 2014</u></b>			
	<p>1). The EIR for the Phase 1 project was certified and approved on June 14, 2011 (SCH# 2010072044).</p> <p>The Phase 2 project proposes mixed-use development including office, commercial, retail, hotel, cinema, restaurant, and parking on a 9.9 acre site at the existing San Antonio Shopping Center. Existing uses at the Project site to be demolished include 59,655 sf of commercial and retail buildings. The project proposes to develop the following uses: office; commercial and retail; hotel; above-ground parking and building service area; restaurant; and cinema.</p>		
2013032016	<p>Sand Hill Wind Project Alameda County Livermore--Alameda Note: 1 CD</p> <p>Sand Hill Wind, LLC has applied for a Conditional Use Permit for the repowering (removal and replacement) of 73 existing wind turbines equivalent to 4 megawatts (MW) of generating capacity with 40 shrouded wind turbines with a combined generating capacity of 4 MW, to assess the functionality of the new turbine design and the extent to which it could reduce impacts on birds and bats compared to the existing turbines. The project includes an avian impact validation study funded by a grant from the CA Energy Commission. The CUP application is for the repower of the 40 shrouded turbines (Initial Repower); however, the EIR also programmatically evaluates the impacts of future repowering of existing turbines up to an additional 30 MW of generating capacity (Full Repower).</p>	<b>FIN</b>	
2014032039	<p>Decker Island Electrical Crossing Reclamation District 341 Rio Vista--Sacramento, Solano</p> <p>The project proponent, Deck Island LLC (DI), currently extracts, handles and ships aggregate and fill materials from Decker Island for use in construction projects in the Delta and San Francisco Bay Area; DI's present power supply consists of a standalone diesel-powered electrical generator. The proposed project will extend electrical supply from existing PG&amp;E lines on Sherman Island near SR 160 to the DI operation via a buried electrical cable. The approximately 1,100-foot cable will cross approximately 900 feet of Horseshoe Bend, a branch of the Sacramento River, which separates Deck Island from Sherman Island.</p>	<b>MND</b>	04/14/2014
2014032041	<p>Neal Road Bike Lane Project Butte County Chico--Butte</p> <p>Butte County and the Caltrans propose to install Class II bike Lanes and interim Share the Road Bike Routes along approximately 7.5 miles of Neal Road from Oro-Chico Hwy to Bayleaf Road, at the southwestern border of the Paradise town limits. The first phase of the project will receive federal funding as Federal Project No. RPSTLE-5912(090).</p>	<b>MND</b>	04/14/2014
2014032046	<p>Vine Hill Residential Project Martinez, City of Martinez--Contra Costa Note: Refer to MND received on March 21, 2014</p> <p>The project includes General Plan Amendments, a Rezone, and a Vesting Tentative Map for the development of 100 single family residential units on 25.9</p>	<b>MND</b>

	acres at the intersection of Center Avenue and Vine Hill Way. The project requires a tree removal permit to remove 47 trees. The project would change the land use designation from OS to R 0-6, and rezone from M-OS/RF to R-7.0. The project contemplates lot sizes that range from 5,700-14,000 sf with an average of 7,100 sf (site density is 1 DU/11,282 sf). The project includes General Plan text amendments to four policies, two within the General Plan Land Use Element, and two within the Hidden Lakes Specific Area Plan.		
2014032047	Pinole Valley Park Skate Park Project Pinole, City of Pinole--Contra Costa The proposed project would consist of the construction of an 8,100 sf concrete skateboard park and associate infrastructure, including a light and security camera pole. A utility trench would be required to connect to existing lines along Pinole Valley Road for the proposed light and security camera. The skateboard park would include a variety of obstacles including, but not limited to, a mini ramp, ledges, stairs, and rails. In addition, a connection sidewalk would be located along the eastern boundary of the proposed skateboard park (i.e., along the western boundary of the existing soccer field).	<b>MND</b>	04/15/2014
2007052065	Newark Area 3 and 4 Specific Plan Project Newark, City of Newark--Alameda Note: Recirculated The ~950 acre site is located in southwestern Newark and is generally bound by Mowry Avenue, Cherry Street, Stevenson Boulevard, and the Mowry Slough. Area 3 has a 1992 General Plan designation of Special Industrial. Area 4 is west of Area 3 and extends to Mowry Slough. Area 4 has a 1992 General Plan called for a Specific Plan to be prepared as a detailed guide to development of the Area. A total of 638 acres: all of Area 4 and a 77 acre parcel in Area 3 are evaluated for development, the balance of Area 3 is not envisioned for further development. The Areas 3 & 4 Specific Plan allows for development of up to 1,260 housing units of various densities, an up to 600 student elementary school, a golf course, open space areas, as well as retention of existing light industrial and institutional uses.	<b>NOP</b>	04/15/2014
2014032038	El Dorado Water Reliability Project El Dorado County --El Dorado, Sacramento, Placer The overall objective of the Project is to secure a water right to American River water that will help meet the water supply needs of El Dorado County, with any surplus in various water year types used to meet the needs of El Dorado County, with any surplus in various water year types used to meet the needs of others in the region, in accordance with the State's "area of origin" water law. "Area of origin" water law is a fundamental body of CA water law to set aside high priority water rights to meet long-term water needs in areas where much of the State's water supplies originate, upstream of the Sacramento-San Joaquin Delta.	<b>NOP</b>	04/14/2014
2014032040	2035 General Plan Albany, City of Albany--Alameda The existing City of Albany General Plan was adopted in 1992, and does not address several issues of importance to City residents, such as climate change and sustainability. It is based on data that is more than 20 years old and does not	<b>NOP</b>	04/14/2014

	reflect many recently adopted plans and programs. The City of Albany 2035 General Plan will include an updated vision, with goals, policies and actions that anticipate the 2035 build-out, and which also reflect the needs and preferences of the community while ensuring compliance with State law. Information related to the General Plan can be found at <a href="http://www.albany2035.org">www.albany2035.org</a> .		
2014032042	Draft Housing Element Arcata, City of Arcata--Humboldt The City has prepared a Draft Housing Element for the 2014-2019 cycle in compliance with State Housing law. The City's Community Development Dept. has prepared a Neg Dec in support of the Housing Element update. The Neg Dec tiers off the City's adopted 2000 General Plan EIR and the 2009 Housing Element's Neg Dec.	<b>Neg</b>	04/14/2014
2014032043	Sanguinetti-Norton: Zone Changes RZ13-003 and RZ13-004 & Tentative Parcel Maps T13-015 and T13-016 Tuolumne County Sonora--Tuolumne Zone Change RZ13-003 to rezone a 68.6 acre project site from A-1 (General Agricultural) to RE-2 (Residential Estate, Two Acre Minimum), RE-5 (Residential Estate, Five Acre Minimum), O and O-1 under Title 17 of the Tuolumne County Ordinance Code; and Tentative Parcel Map T13-015 to subdivide the 68.6 acre site into four parcels ranging in size from 13.2 acres to 15.8 acres. Project 2: Zone Change RZ13-004 to rezone a 37.8 acre project site from A-1 to RE-2, O and O-1 under Title 17 of the Tuolumne County Ordinance Code; and Tentative Parcel map T13-016 to subdivide the 37.8 acre site into four parcels ranging in size from 5 acres to 31.9 acres.	<b>Neg</b>	04/14/2014
2014032037	First Update to the Climate Change Scoping Plan Air Resources Board --Sacramento Note: FED  The First Update to the Climate Change Scoping Plan builds upon the initial Scoping Plan with new strategies and recommendations. The Update defines the State's climate change priorities for the next 5 years and sets the groundwork to reach the State's long term greenhouse gas emission goals set forth in Executive Orders 5-3-05 and B 16 2012. The Update highlights CA's progress towards meeting near-term 2020 GHGE reduction goals defined in the initial Scoping Plan. The Update also evaluates how to align the State's GHG reduction strategies with other State policy priorities, such as water, waste, natural resources, energy, transportation, & land use. The Update identifies opportunities to leverage existing & new funds to further drive GHGE reductions through strategic planning & targeted low carbon investments.	<b>Oth</b>	04/28/2014
2008091085	Water Reclamation Facility (WRF) #2 - Tertiary Filtration Project Corona, City of Corona--Riverside The Project includes the following construction activities: Filter feed pump station and wet well Reinforced concrete filter structure consisting of: Flocculation basin with mixer. Dual-media sand and anthracite filter with four filter beds and filter underdrain system. Backwash supply storage tank. Backwash wastewater equalization tank.	<b>NOD</b>

	Backwash water supply pump station Backwash wastewater pump station Blowers and air piping for an automated backwash air scour system Emergency diesel-engine drive generator Chemical (Sodium Hypochlorite and Coagulant) storage and feed system with chemical spill containment and shade cover Chlorine contact basin (CCB) splitter box Various secondary effluent, backwash water, treated water, and overflow yard piping Site drainage improvements to provide stormwater retention Motor controls, switchgear, electrical, and supervisory control and data acquisition (SCADA) improvements.		
2011071031	SDG&E South Bay Substation Relocation Project Public Utilities Commission Chula Vista--San Diego CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2013-0205-R5) to the project applicant, San Diego Gas & Electric. The applicant proposes to alter the stream to install a double-box culvert road crossing and underground duct banks to accommodate construction of a 230/69/12-kilovolt substation (Bay Boulevard Substation), construction of a 230 kV loop-in, an approximately 1,000-foot-long underground interconnection, and an approximately 300-foot-long overhead interconnection of the existing 230 kV tie-line, relocation of six 69 kV transmission lines, a 138 kV extension of an approximately 3,800-foot underground and approximately 200-foot overhead span from one new steel cable pole to an existing steel lattice structure, and demolition of the existing 138/69 kV South Bay Substation, in the City of Chula Vista, County of San Diego.	<b>NOD</b>	
2012122037	Hazel Avenue Electrical Facilities Relocation and Expansion Project Sacramento Municipal Utility District --Sacramento The proposed project consists of dismantling an existing SMUD substation, constructing a new replacement substation, and altering the proposed alignment for the overhead 69,000-volt (69kV) subtransmission line that would connect to the relocated substation. The proposed project would accommodate the County of Sacramento's Hazel Avenue Widening Project and to respond to future demand for electrical service in the service area. In this IS/MND, SMUD evaluated two option substation locations; SMUD's Board of Directors approved Site B (the northern site) for construction of the new replacement substation.	<b>NOD</b>	
2014012047	Removal of Summer Dam Spillway Del Rio Woods Recreation-Park District Healdsburg--Sonoma The Del Rio Woods Recreation & Park District is proposing removal of a summer dam spillway that currently obstructs the Russian River, intrudes on views of the river and surrounding hills, and is a potential hazard from unauthorized use. The spillway sits in the Russian River just off the District beach adjacent to 2656 South Fitch Mountain Road in Healdsburg. The dam spillway will be removed by using a dozer/front end loader for installing construction access and removing spillway materials, a vibratory hammer to break up the concrete and loosen steel sheeting, and a crane or excavator to remove large sheet metal pieces. The top concrete panel will be cut open with a concrete saw, and inner materials (likely gravel or compacted soil) will be placed in upland or beach areas, as appropriate, where	<b>NOD</b>

	turbid water will not flow back into the river. All spillway pieces will be trucked to a nearby landfill, recycled, or reused in other projects.		
2014038117	Issue Right of Entry Permit to Combria Community Services District to access U.S.G.S. Monitoring Well Parks and Recreation, Department of --San Luis Obispo Issue a Right of Entry Permit (ROE) to the Cambria Community Services District (CCSD), its employees, contractors and agents to uncover a U.S.G.S. monitoring well located at San Simeon Campground on the north bank of San San Simeon Creek adjacent to the north abutment of the Highway 1 bridge and the San Simeon Natural Preserve and wetlands. The purpose of the project is to obtain water sample analysis to model and aquifer profile to inform the CCSD in siting a potential desalination intake well.	<b>NOE</b>	
2014038118	Repair Sink and Drainage Facilities - Director's Order (EA: 01-0E450) Caltrans #3 Crescent City--Del Norte Caltrans proposes an emergency opening project to reconstruct the roadway, and repair and improve drainage facilities on State Route 101. This project is needed to prevent damage or loss of life, protect the traveling public, and preserve State Route 101.	<b>NOE</b>	
2014038119	Suction Dredging Definition, Readoption of Emergency Regulation Fish & Wildlife (HQ) Environmental Services -- Second readoption of regulation definition of suction dredging found in 14CCR Secion 228(a), as previously amended effective June 28, 2013 and first readopted effective December 26, 2013. A second readoption, if approved by the Office of Administrative Law, will extend the effective date of the definition for 90 days.	<b>NOE</b>	
2014038120	Canopy Mounted Solar Photovoltaic System , Richmond Laboratory Complex Public Health, Department of Richmond--Contra Costa The project includes constructing a canopy mounted solar photovoltaic (PV) system at the California Department of Public Health Richmond Laboratory Complex. The project will affect about 9.6 acres of the Complex's parking area. The PV system could potentially generate 5.3 megawatts of electricity, which will reduce the Complex's power grid-based energy purchases and help meet the State's renewable portifolio standard target (Senate Bill 2 - First Extraordinary Session), to have one third of the State's electricity come from renewable sources by 2020. Construction activities include hole-boring, minor trenching, cement pads installation, and parking lot tree removal for building the canopy and installing the photo array and associated transformers and inverters.	<b>NOE</b>	
2014038121	Installation of Wash Rack in Maintenance Facility Caltrans #4 San Jose--Santa Clara Replace wash rack with filtration system within Maintenance yard.	<b>NOE</b>	
2014038122	Modified Solid Waste Facility Permit, Fallbrook Recycling and Transfer, SWIS No. 37-AA-0923 Resources Recycling and Recovery, Department of --San Diego The proposed permit modification will correct the site location and mailing address zip code, update the LEA address, update the permit Findings, and update the	<b>NOE</b>

**Documents Received on Friday, March 14, 2014**

2014038129	Proctor Valley ORV Site B Vernal Pool & Uplands Restoration Project Natural Resources Agency San Diego--San Diego Restore & enhance sensitive vernal pool & uplands habitat and associated sensitive species at Proctor Valley ORV Site B. Degraded vernal pool basins will be repaired, re-contoured or expanded as appropriate, new basins will be created in degraded areas, and vernal pools, coastal sage scrub and native grassland habitat will be weeded, seeded and planted. Stewardship measures such as fencing and signing will benefit many MSCP covered species.	<b>NOE</b>	
2014038130	Proposed Plan for 'No Further Action' to Close Site UXO-0004, Former Gas Mask Training Area, Naval Base Toxic Substances Control, Department of --Ventura The Department of the Navy (Navy) is proposing to close Munitions Response Site (MRP) Site UXO-0004 at Naval Base Ventura County (NBVC) which is located at Point Mugu.  The current primary land use of the former GMTA is base personnel housing with lawns and backyards and an infrastructure which includes streets, utility corridors, playgrounds and green space landscape. The residences are slab-on-grade construction which prevents basements. A large, base administration, building is located on the western boundary of the Site, and there is a large parking lot within the Site boundary. Two vacant former security buildings are on the eastern property boundary.  The Navy is in the process of transferring ownership and management of Navy housing to private entities, a process that has been mostly completed nationwide.	<b>NOE</b>	
2014038131	Green Point School Area Shaded California Conservation Corps Blue Lake--Humboldt Develop a shaded fuel break behind the Green Point Elementary school in the community of Blue Lake, CA to reduce fuel loads and the potential intensity of an uncontrolled fire. The fuel break will provide safe ingress and egress for students, staff, and emergency response personnel, and protect the timber and watershed resources within a High Fire Hazard Severity Zone as designated by CalFire in the Wildland Urban Interface area of the State Responsibility Area.	<b>NOE</b>
